WASHINGTON (UPI) - A Los Angeles scientist, ! a fantastic long distance feat, has remedied a malfunction of the U.S. Pioneer satellite while it was streaking through space 51/2 million miles away from his laboratory.

The National Aeronautics and Space Administration (NASA) hailed Robert Gottfried of Space Technology Laboratories, Inc., for making "analytical repairs" on the sphere,

Gottfried detected the failure of a satellite part which turn on its 150-watt transmitter was the size of a head of a lf successful, this could enable pin and devised a way to overgin and devised a way to overdata from as far as 50 million

# Tiros Repairs Rhee's Political Allies Desert Him Made On Earth As Power Wanes, Korea Reorganizes

SEOUL (UPI) - President Syngman Rhee's political allies deserted him in droves Sunday and with his back to the wall, the aged Korean leader was reported to have agreed to a government reorganization and perhaps surrender of some of his

Associates said Rhee, who has been under pressure from the United States to redress "the justifiable grievances" which led to last Tuesday's bloody political rioting, was contemplating a parliamentary - prime ministerial form of government. He would retain the title of president but under such a system the presidency would lack the power the authoritarian Rhee now holds. Part of the reorganization would include the 85-year-old Rhee's

Liberal Party. It was the worst political crisis for Rhee since he assumed power in the Republic of Korea after

resignation as head of the ruling

World War II. A formal statement of his intentions was expected by Monday Newsmen waited for four hours in vain for it Saturday. Rhee's own political heir. Vice President - elect Lee Ki Poong, storm center of the controversy,

crossed his chief Saturday in a statement that said he was "considering" withdrawing from the office he won in the March 15 election. This angered Rhee. He wanted Lee to make an unequivocal statement and announce he afso was quitting as speaker of the National Assembly.

The opposition Democratic Party charged fraud in the election and the rioting last week was an outgrowth of demands for new elections. Should Lee quit, a new election for vice president would have to be held.

The Liberal Party founded by Rhee was losing friends fast. The

Korean Federation of Trade Unions announced it was severing ties with Rhee's party.

The Korean Broadcasting System demanded freedom from political control and top police officials met to discuss the possibility of "neutralizing" the police force which has been accused of brutality against members of opposition parties.

Vice President John M. Chang, educated at Manhattan College in New York and a leader of the opposition party, resigned Saturday although his term of office did not end until Aug. 15. Chang said his resignation was in pro-

test against the "fraudulent" March elections.

Chang lost to Lee in the March 15 election. He has demanded new elections and has called on President Eisenhower to insist that Rhee hold them.

It was considered unlikely that Rhee would surrender all his powers and permit himself to be kicked upstairs to a ceremonial job. He has ruled Korea as its only president with an iron hand. Under the old parliamentary system. Rhee ran the show be-

cause the prime minister was an appointee - and Rhee made the appointments.

SET TO GO - Eva Kitchens, secretary of the Pampa Women's Bowling Association, sets up the scoring charts for the opening of the Madge Murphy Tournament at Harvester Bowl Saturday night. Looking on is vice-president Eudell Bennett. The annual tournament has been renamed in honor of one of the first women bowlers in the city and a trophy bearing the name of Madge Murphy will go to the high scratch bowler. (Daily News Photo)

### New Face, Same Old Stand

As successor to the lately departed Red Griggs on the sports desk, I may as well get the introductions over with by Travis of Amarillo with 251/2 and Pampa Jr. High with 19. so readers won't look at the new by-line and ask, "Who's Pampa track fans will be hear-

Friday from Niles, Ohio. That's right, I'm a Yankee, but I'll a 59% shot put effort Saturday. Saturday. By practically no popular demand I drifted into Pampa

I don't know what the policy of the sports department Amarillo junior high invitation has been in the past but I'm positive what's it's going to be meet, in the future. Local sports will get top priority and all the To round out the day. Matson coverage space permits.

erage space permits.

This applies not only to the Pampa sports scene but to 50-yard dash, 100-yard dash and AFL Home Opener Canadian, White Deef, McLean, Lefors, Miami, and Mobeetie 220.

The facilities of the sports department are always available to our readers . . . that is, anytime you can catch me and in the sprints he was clocked DALLAS (UPI) - The Dallas at the desk. If you have a sports question that's bugging you in 5.6 in the 50, 10.5 in the cen- Texans of the new American or need my help in settling bar-room wagers, just call. If I tury and 24 flat in the 220. can't find it then, I might just make to the answer. But feel Ralph Palmer of Lee finished in home schedule Saturday, showing free to try me!

### **Golf Tournament Slated**

Chairman Bill Williams writes to tell us the 24th annual Brownwood Amateur Golf Tournament is all set to go May 5. Entrance fee for the four-day competition is \$15. Following Junior's Denny Hebert an eighth- returning Nov. 13 against the a dance in the club ballroom Saturday night, the tournament winds up Sunday, May 8, with the championship rounds.

Speaking of golf, Sammy Snead's recent take-off on the Lee's 440-yard relay stint, helping will close the season with a three-Greensboro, N. C., course recalls a similar incident in 1946 his teammates Dale Mercer, Ar-game home stand-Dec. 4 against when the Slammer put the knock on the most hallowed of nold Phillip and Dick Hefley to a the Houston Oilers, Dec. 11 all golf courses, St. Andrews in Scotland,

Upon his return to New York after the British Open Championship that year, Snead was asked by Freddie Corcoran for his opinion of the St. Andrews course. Corcoran expected a gush of praise which could promptly be relayed a heave of 48.91/2, third in discus sells out the 75,504-capacity Cotton to the British press, thereby polishing up Anglo-American (137-6), fourth in the high hur Bowl where the Texans also will relations. But the West Virginia ridge runner forsook diplo-

macy for candid opinion. Snead replied, "I'd say it's a dawgonned freak!" While British aplomb suffered a severe setback that day It could have been worse. Sam's appraisal was rather delicately put for one who has been known to be undelicate at

DESIGN NO. C-562. A decorative planter partition separates the full sized dining room from the living room. There is also generous eating space in the efficient kitchen. The service entry has direct access to a full basement and to the bathroom. The lavatory is accessible from the kitchen while a sliding door and partition separate it from the skylighted bathroom that enters into the bed-

The guest coat closet forms the vestibule and serves as a screen. The exterior has a low-pitched roof, wide open eaves, verticle

siding and a touch of natural stone. The plan contains 25,782 cubic feet and covers 1399 square meet of ground area that is small for the number and sizes of rooms

For futher information about DESIGN No. C-562, write the Small House Planning Bureau, St. Cloud, Minn. In Canada, the Small House Planning Bureau of Canada, St. John, New Brunswick.

A SMALL HOUSE PLANNING BUREAU DESIGN NO. 5-542

DESIGN NO. 8-542. The lowest level beneath the living room, dining room and kitchen can be compared to a regular basement, But, with the addition of an extra stair leading directly down from the rea entry, you eliminate parading through the other parts of the house. A handsome curved window is a feature in the

There is a lavatory at the rear entry and a large bathroom on the formal living room. The family room contains a massive firebedroom level. The kitchen features counter-top range and waist high oven. The exterior is brick veneer with low pitched roof and asphalt shingles. It is possible to eliminate the basement stairway and garage without affecting the house's appearance. Excluding 338 square feet for the garage, plan covers 1475 square feet of ground area and contains 28,140 cubic feet.

For futher information about DESIGN No. 8-542, write the Small Planning Bureau, St. Cloud, Minn. In Canada, the Small House Planning Bureau of Canada, St. John, New Brunswick.

DESIGN NO. B-559, Efficient living has been stressed in this gracious home. The focal point in the living room is the fire place. There is unlimited wall space; privacy and circuation are near perfect as the entrance foyer leads to all rooms. Floor to ceiling wardrobe-type closets are located in all bedrooms. The comfortable bathroom has a built-in vanity and large linen closet. A colorful knick-knack screen adds kitchen interest.

A crisp low-pitched roof, covered front entrance, horizontal and vertical siding with a touch of brick beneath the bedroom windows complete the exterior. With a full basement but not including the garage the plan covers an area of 1135 square feet and contains 20,804 cubic feet.

For futher information about DESIGN No. B-559, write the Small House Planning Bureau, St. Cloud, Minn. In Canada, the Small House Planning Bureau of Canada, St. John, New Brunswick.

THIS TIME we'll talk about lilacs ... and my goodness, but we can surely talk ... never, we think, have the lilacs all over town been so perfectly gorgeous as they are this year. for instance, first of all the long hedge on the south side of Fairview Cemetery is stupendous . . . and if you haven't driven by the corner of Buckler and Gray to see the seemingly milelong row of lilacs ... you mustn't miss seeing them ... and also the two huge bushes of purple lilacs at the corner of Frost and Francis ... we continue to rave on about the posies, but doggone it, it has been so long since we have had Spring!

HOPPING AROUND....for the news....Ruth and Harvey Nenstiel went off in a cloud of dust.... for a slight vacation after Income Taxes... Harvey works 'round the clock just be-fore the fifteenth of April... Alice and Eben Warner have just gone to Corpus Christi over the weekend to see their daughter, Thera, as a Duchess in the Buccaneer Day festival there....we have heard that Thera's dress for the occasion is nothing short of fabulous . . . and everyone, just about, in the whole city, is involved in the District Conference of the PTA which is going to be held Monday and Tuesday in Borger .... Katy Key, as City Council PTA Prexy, has been in a whirl of activity....and she has also been working on the Concert membership drive, just closed yesterday....Adrienne Foster will be in charge of the workshop session involving new presidents this year ... Dona Cornutt is a hard-working publicity chairman . . . should be a valuable meeting to attend for everyone.

What we need most is the prayer of fervent desire for growth in grace, expressed in patience, meekness, love and good deeds. -Mary Baker Eddy

BOWLING BALLS are rolling faster and "furiouser" lately, as all of the men's leagues are gradually winding up their league there are big plans in the wind for the annual Banquet held to honor the team winners and individual honors to be given out . . . this year, Stanley Brake is General Chairman and the program committee consists of Dale Haynes, W. G. Waggoner . . . and Ted Knox . . . Pete Schmaltz is arranging for the dinner, which will be held in grand style in Coronado Inn...on May 12th....trophies and medals and sleeve patches will be given to the winners . . . and speaking of dinners, the dinner given by the Community Concert Association for the campaign workers last Monday night was a real wing-ding...and Eunice Pierson and Salty Butler tooked wonderfully charming in blue dresses of nearly the same pretty color .... Sally was enthusiastically selling concert memberships last week . . . and Doris Wilson, looking stunning with her beautiful red hair upswept high on her head, accompa-... pardon us if we rave, but nied her handsome husband, Ray ... they are a wonderful couple .... (EDITOR'S NOTE: AT LAST, we've MADE Peg's column...thanks, Peg)...and while we pass out the rave notices, we'll do some raving about the charm and enthusiasm of Connie McDaniel . . . we know her mother, Ellen Shipp, is feeling well these days . . . . just thought

you would like to hear about it.

NOW LET'S SEE what have we left ... oh, there have been visitors galore these days . . . what with youngsters home from college, oh, pardon me, they are not "youngsters" any more

Pat Jones visited her mother Maryl Jones and her grandmother Mrs. Abbot . . . she was home from Rice Institute for the holidays ... and our dancer, Maynette Loftus, spent the weekend with her mother, Azelle Loftus, and her grandmother, Mrs. Mae Boone . . . Heidi Schneider was here, too, home from the University of Texas... and Pat Lunsford returned to Baylor Medical College after a visit here ... not college people, but visitors anyhow, are the Ed Weiss's of Dallas, formerly of Pampa, who are visiting with Katy and Julian Key.

How majestic is naturalness. I have never met a man whom I really considered a great man who was not always natural and simple.

-Charles G. Dawes

LEARNING TO COMMUNICATE with the written word In High or medium heels

### softly, beautifully stacked

The all-white spectator with it's cool-mannered way of dressing now stays out long past sundown. Snappy as '60 with its polished look of stacked heeling, its perfs supplying breeze in white leather unlined and softly summery.

Vomen's Suoe Fashions

is not easy for everyone. Some have difficulty guiding a pencil through intricate writing curves. When this is true, a typewriter like the one pictured obove offers an advantage. It is a special typewriter; it has large letters in primary type and for children for whom writing is difficult, the typewriter permits them to communicate with the written word. Becoming proficient with its use is Tommy Miller, pictured above, special student in the morning classes of Mrs. E. B. Turner, special instructor in Sam Houston School. Attendance in the special morning sessions enables Tommy to attend the school's regular afternoon classes. The typewriter is also helpful to Mrs. Turner, who uses it to cut stencils and prepare material for classroom work. It was purchased by Parent Education Club from proceeds derived from its tour of Beautiful Homes in May, 1957. With the proceeds from the tour planned May 7 of this year, the club is hopeful of adding additionally needed special equipment. Tickets for the tour of five beautiful homes in Pampa at \$1 each, may be purchased from Parent' Education Club members. (Daily News Photo)

### **Better Jobs**

by R. C. HOILES

Fourth R Begets Dishonesty I never knew what the fourth R really meant until I read an article in Christian Economics under the heading "Socialism Begets Dishonesty". As the article says, which is reproduced below, this fourth R is "relief chiselling". This is the way the editor of Christian Economics presents the case:

"Passing a hospital door, we heard a man say, 'I could go home but have decided to stay another week. My insurance pays for it and it will be a nice vacation.

" 'Don't tell anyone that I work here,' said the maid to her employer, 'because if you do, I won't be able to collect unemployment relief."

'Why do you want to get off every Saturday?' our partner said to two men working at our ranch. They replied without embarrassment, To go to the county seat and collect our unemployment pay.

"Stopping to get our shoes shin ed on the street, we said to the boy, 'Do you come here every day?' 'No,' he replied, 'it's too far.' 'How far is it?' we inquired. 'About half a mile,' he said. That didn't seem far to us for at his age we were walking two miles to school and doing a full round of chores before and after, 'How often do you come?' we inquired. 'Only on Saturday,' he replied. 'If it is so far,' we said 'why do you come?' 'They don't give us enough,' he replied with some disgust, 'so I have to work on Saturday to help out. They ought to give us more and then I wouldn't

"Said a teacher. "The most effective training we give here is in the fourth R - relief chiselling,' The tenor of her amplification ran about as follows:

have to work."

"Going to school in a bus teaches many children that the city owes them a living. Free lunches are available for the asking. Often there are no questions or investigation. Relief meals are often better than parents are able to supply. There used to be some stigma attached to receiving public charity, but it has now been so thoroughly removed that many consider it quite attractive -something for which cae should

"At the mid-morning and afternoon milk breaks, some children pay for their milk while it is given free to others. Classmates are not supposed to know who receives free milk, At noon, some eat sandwiches brought from

home and others are served hot meals in a comfortably furnished dining room at public expense. care are available for many children whose parents say they cannot afford to pay. There are few, if any, checks upon these statements. Some children choose free clothes from storehouses proearth is related directly to his bably just as strong as the temp-

vided for that purpose. "Most children do not seem in the slightest to feel any embarrassment at accepting these free services, but the others who pay sometimes seem a little envious.

"Teachers are instructed not to investigate requests for free meals and not to question the children. Parents who live in expensive homes and can well afford to provide for their children are among those requesting and accepting this free service. Many who could well afford to pay are riding on the backs of the tax-

payers. "Many children are growing accustomed to this form of life and like it. It is excellent training in the art of later erashing...the gates to get adult relief checks. Are we training a nation of

chiselers? "The above testimony is terrifying, especially when it is remembered that over a third of Thus, from earliest times men gious teachers, and that even some the people in our country are have tried to learn how to foretell humans have been privileged to living in part, or in full from what they can scrounge from othforts in these directions were bas- take flights to other planets, and ers. theft, housebreaking and crime of many kinds.

"In order to be more effective In getting more from the public bounty, people are rapidly learning to organize themselves into effective pressure groups. As this process develops we tend to become howling mobs, each striving to outdo the others in the effort to get more from the public trough. This leads to a transfer of the emphasis from producing more wealth to ways of acquiring more of the property of others. In the long run, this will decapitalize a country and force it into Looking Sideways by WHITNEY BOLTON

NEW YORK-You have to have lived in foreign countries fully to appreciate how ridiculous is the custom in this country of paying for dogs. Nobody anywhere else in the world - except perhaps London and environs - ever pays. for a dog. People give dogs to other people.

Some years ago Ruth Mitchell, who is both beautiful and the most efficient stage manager in New York, heard that we wanted a dog and she telephoned and said she had one for us. It was a female Puli and made up of a heart as large as Alaska plus being a born, unswervable lady. "Happy" was all of that and more and then time and trouble caught up with us and we no longer had "Happy."

My bride, who is occult, must have sensed that we would be moving to New York from the country within a year and said she'd like a Peke, a Pug or a Yorkshire, because these were apartment-sized dogs. What are you going to do? Fight City Hall? went out and found a Peke, a blooded little fellow for which the going price was \$750. Never having paid a cent for a dog in my life, I didn't intent to start at the \$750 plateau. I found a pug, eight weeks eld and a heart-winner, as cute as a button. She was fetching \$400 for that day only and would be \$450 thereafter. For all I know, she's still there waiting for some sucker who will pay \$450 for a dog, however cute. Then I found a Yorkshire and, if I may say so the American Kennel Club, I think they'd best change the breed name in this country from Yorkshire to Fort Knox Special. They start, the not too tiny ones, at \$350 and soar upwards to \$1:200:

When I reported these discouraging price tags to my bride she joined me in a mutual snort of derision and, being a country girl from up above Seattle, said she'd had a lot of dogs in her life one way or another and had never put down a penny, not a well-equipped ground force, the penny. Why people gave dogs This latest diarmament joker, as U.S. today finds itself using the away in Seattle and theresbouts

Finally, reliable Ruth Mitchell the dog sleuth, called again and said we could have a Skye a year old, kennel-bred, thatched with papers attesting to his blood lines and so smart he scared you. We drove up to the kennels in Connecticut and got him and he looks exactly like a Puli but has short legs like a dachshund. Same gray-black, long trunk, hair over the face type.

But he, too, is going to be a handful in an apartment and we have been looking around for a

MEN!

Ages 19 to 46

SPECIALIZED

TRAINING

AUTOMATION AND INSTRUMENT

ELECTRONICS TECHNICIANS

Wages to \$180 per week

We will train selected personel from this area. Mechanic, machinist, or electrical background perferred. You will train and work on practical equipment under the supervision and guidance of Texas institute of Technology's ENGINEERS. This will be arranged so as to not interfere with your present job.

Growing demand by Chemical Industry, Aircraft, Auto, Steel, Civil Service and Electronic Equipment Manufacturers, etc., has created a severe nationwide shortage and hundreds of openings in the Southwest for qualified Electronic Technicians.

If you are sincere and want to get into the nation's fastest growing industry, a personal interview will be given to discuss qualifications.

Fill in and mail to:
