

Typhoon Hits Okinawa With Big Damage

By The Associated Press
Okinawa today was a shambles—reminiscent of its recent battle-ravaged litter—reduced by a 132-mile typhoon that killed three American navy personnel, left 10 sailors missing and more than 100 Yank soldiers injured, and sank, damaged or beached 127 naval vessels.
The typhoon, which struck Okinawa Tuesday after having twisted 150 miles to the southwest for 24 hours, swept northward to kill at least 69 Japanese, flood 8,000 houses, wash away 81 bridges and leave many thousands homeless in central and southern Honshu.
Fifty Superfortresses from the Marianas delivered 284 tons of food to the 150,000 troops on Okinawa today.
In addition to food, the troops need shelter facilities to replace tents, Quonset huts and other installations that were demolished or heavily damaged.
Parked airplanes were rocked about by the typhoon, the island's food stocks were nearly all destroyed, and hospital patients had a nightmarish time throughout the hours of darkness.
Official reports—conceded to be fragmentary because of limited communications—from army headquarters in Manila and fleet headquarters at Pearl Harbor, listed these casualties and damage on Okinawa:
Three navy men killed and 10 missing.
One hundred soldiers injured.
Four Japanese prisoners of war killed.
Five small naval vessels sunk.
Fifty-two ships (presumably small) and 70 other naval auxiliaries of all types beached on Okinawa's reefs.
Shore installations, including dock facilities, extensively damaged.
First, incomplete reports from Tokyo listed this havoc on Honshu:
Sixty-nine killed.
8,000 homes flooded, 81 bridges washed out, many thousands homeless.
More than 1,000 acres of land washed out and many thousands flooded by heavy rains which accompanied the typhoon, increasing the nation's already critical food problem.
The U. S. fleet, which six months ago rushed an invasion force of 100,000 to Okinawa, today was rushing to the aid of an equal number of almost destitute survivors of the vicious storm.

The government also sought to import rice to alleviate a food crisis made even more critical by this week's typhoon which swept over central and southern Honshu. Simultaneously, fresh disclosures of American investigators made it clear that, however trying the situation under an occupation, it would have been worse had Japan continued the war. Fifth army air force experts established another tragic fact kept from the people—that Japan's radar defense was so ineffective it could not be determined whether planes approaching the homeland, were friend or foe, how many there were or how high.
Dr. Soichi Sasaki, honorary professor of Kyoto Imperial university and leading authority on Japan's constitution, has been appointed advisor to Marquis Kocho Kido, the highest ranking consultant for the mikado.
Japan, which also has a critical shortage of fuel, asked permission to import 120,000 tons of oil from the United States. The government told MacArthur it was prepared to pay for it with 40,000 bales of raw silk.

Nimitz Accorded Hero's Welcome

DALLAS, Oct. 12 (AP)—Admiral Chester W. Nimitz, a Texan who became a five star admiral of the fleet and commander of the Pacific ocean area, arrived here by plane at 11:05 a. m. today to receive the greatest welcome ever planned by Dallas.
He left Washington at 5:14 a. m. today. He was accompanied by Mrs. Nimitz, Rear Admiral Forrest P. Sherman, his deputy chief of staff; Rear Admiral H. B. Miller, director of public relations; and Comdr. H. A. Lamar, his aide.
Gov. Coke Stevenson led a group of dignitaries that welcomed the arriving admiral.
Nimitz was escorted to the Hall of State at Fair Park, where he was introduced by Gov. Stevenson in a brief speech.
The Texas admiral was accorded a spot among the immortals of the state.
"A niche for a bronze statue, the first ever accorded a living man here, will be set aside for his honor in the Hall of State. The last so honored was Sam Houston who died in 1863. Besides Houston, figures in the Hall of State include William B. Travis, Thomas J. Rusk, Stephen F. Austin, Mirabeau B. Lamar and James W. Fannin.
WASHINGTON, Oct. 12 (AP)— President Truman today sharply criticized race discrimination in making public a letter concerning the refusal of the DAR to grant use of Constitution Hall here to a negro musician.
The chief executive said, however, he was powerless to interfere with the ban imposed by the Daughters of the American Revolution.
The president sent the letter to negro Rep. Adam C. Powell (D-NY) whose wife, Hazel Scott, pianist, was refused use of the DAR's Constitution Hall for a concert Oct. 20.
"Artistic talent is not the exclusive property of any one race or group," the president wrote Powell.
"One of the marks of a democracy is its willingness to respect and reward talent without regard to race or origin.
"We have just brought to a successful conclusion a war against totalitarian countries which made racial discrimination their state policy.
"One of the first steps taken by the Nazis when they came to power was to forbid the public appearance of artists and musicians whose religion or origin was unsatisfactory to the master race."
Mr. Truman said, however, Powell would realize "the impossibility of any interference by me in the management or policy of a private enterprise such as the one in question."

Divorces Mount To Equal 1944 Record

Inflation isn't the only thing threatening the American way of life these days.
A recent inventory conducted in the district clerk's office revealed the fact that the number of divorce cases on the docket here had already exceeded the total for 1944.
Since Jan. 1, a total of 287 cases in which legal marital separation was requested have appeared for review as against a total of 221 such cases for all of last year.
In 1944, a total of 168 divorce suits were disposed of by the district court, while that figure had leaped to 273 from Jan. 1 through Friday.
SAN FRANCISCO, Oct. 12 (AP)—Members of a labor-management-government panel studying post-war employment problems arrived at Hamilton Field, near here, last night preparatory to starting a tour of Pacific bases.

Truman Asks Bomb Control Set Up

By JACK BELL
WASHINGTON, Oct. 12 (AP)— President Truman reportedly is trying to spur a hesitant congress along on measures to set up a commission to control atomic energy.
Legislators who have talked to him say the president appeared concerned about the fate of identical bills temporarily stymied in both houses.
Despite indicated disapproval of Mr. Truman, the senate interstate commerce committee planned action today on a measure by Senator McMahon (D-Conn) which some members thought might pry the administration's control measure loose from a senate parliamentary jam.
McMahon has proposed that a special senate committee of nine members be set up to consider all atomic legislation.
He offered this proposal when Democratic Leader Barkley (Ky) failed last week to get the atomic control bill assigned to the military committee. The senate got involved in such an argument then, it seemed doubtful it would agree to send the administration's bill to any of its regular committees.
McMahon's proposal has the support of senate republicans.
Mr. Truman was said to have turned thumbs down on the idea of creating a special senate committee.
The house military committee put off further consideration of its version of the control measure until Tuesday. There were indications that members will write in some restrictions on how or when the secret of the atomic bomb can be shared with other nations.

Refusal To Release Atomic Secret May Result In Lost Oil

TULSA, Okla., Oct. 12 (AP)—Refusal by the army to release information on certain radio active substances of atomic bomb manufacture may result in the loss of millions of barrels of oil according to a Tulsa engineer, W. G. Green.
Green, president of Well Surveys, Inc., told of the army's rejection in what was probably the first announcement of industrial application of atomic power.
Green said that his company requested the information for the purpose of employing it as an aid in the location of oil.
"We wish," said Green, "to prevent, if possible, the complete locking up of all this information and material and the complete restriction of any industrial uses of such knowledge of materials."
The plan is to lower into oil well casings small quantities of new radioactive substances to locate, through intact steel and cement, oil sands that were missed in the original drilling.
Police Records
Forty-six traffic tickets were issued by police Thursday and Friday, records of the department show.
Police also investigated a theft at 506 Johnson and arrested one man for unlawful train riding. Three persons were picked up for drunkenness and one woman was arrested in the flats section for VD.

Peron Seeks Country Refuge

By LAURANCE F. STUNTZ
BUENOS AIRES, Oct. 12 (AP)—Col. Juan Peron, political strong man ousted from Argentina's government this week, apparently fled to a refuge in the countryside today in the face of demands by a group of army and navy officers for his arrest.
The regime of President Gen. Edelmiro Farrell set next April as a presidential election date in a decree issued shortly after the military group demanded Peron's detention and resignations of Farrell's entire cabinet.
All Buenos Aires morning newspapers, with the exception of La Nacion and La Persa, refused to go to press today as a protest against the closing of one morning and three evening papers yesterday.
A naval officer last night reported the group of officers demanded transfer of the government's powers to the supreme court, but the statement later was denied by army officers. The navy still seeks a move.
The army's position is that if the military government delivers powers to the court the army would lose prestige with the people.
While the army and navy officers convened for the second successive day to deliberate whether Farrell's election decree was enough to meet their demands, some 5,000 civilians gathered outside the officers' club building and clamored for delivery of the government to the supreme court.
Other thousands thronged the streets, hurrying toward the area.
As the officers met, a member of former Vice President Peron's household said he had gone to the countryside "to take a rest," but gave no further details.
There was a constant arrival and departure of visitors at the Peron apartment, however, and the building was guarded by plainclothesmen.

ARRESTED IN STUDENTS STRIKE — Police of the province of Santa Fe, Argentina, arrest a student of the University of Litoral, as violence attended the strike of 30,000 students of Argentina. George To Cut, Not Abolish, Tax

Strong Support Favors Anti-Strike Legislation

WASHINGTON, Oct. 12 (AP)— Strong support developed in congress today for new anti-strike legislation.
Prominent legislators of both parties told a reporter after a sharply-worded House speech yesterday by Rep. Robertson (D-Va) that they want:
1. Repeal of the Smith-Connally war labor disputes act which permits strikes if unions vote in favor of them.
2. New legislation to make labor unions and employers "mutually responsible" for observance of contracts.
Chairman May (D-Ky) of the house military committee said in an interview he favors such action and added: "I want to hold hearings on it as soon as possible."
"Also, I'm personally in favor of specifying that either an employer or a union which won't submit to arbitration should have its bargaining rights taken away," Rep. Arends (R-Ind), minority party house whip, said in another interview.
"This is not a partisan matter. Congress and the people both want something done soon to halt strikes. One piece of helpful legislation would be to put employers and employees on an equal basis, so they both had to assume responsibility for keeping their word."
Many other legislative leaders questioned echoed similar views.
Bills to repeal the Smith-Connally measure already have been introduced by Reps. Howard Smith (D-Va), one of the original authors, and Rep. Harness (R-Ind), an influential GOP lawmaker.

Leaders Censure Stevedore Strike In Great Britain

LONDON, Oct. 12 (AP)—Union leaders today condemned Britain's spreading stevedore strike, paralyzing the island's great ports and menacing the meagre ration system, and declared the walkout was being encouraged by communists and others.
Questioned as to the identity of the political organization, Arthur Deakin, a union official, said "the revolutionary communist party."
The committee declared there was no "justification for prolonging the stoppage by a single day."
Meanwhile troops ordered into the seven-mile-long Liverpool docks, began unloading 12,000 tons of urgently required foodstuffs from five freighters and nine coasters.
The strike spread to Edinburgh, where 1,000 Scottish dockers quit work in sympathy with the English strike.
In London, Strike Leader Thomas Powell warned that the huge port would be tied up completely by Monday unless a settlement is reached over the weekend.
Most major ports already were throttled as stevedores ignored return-to-work pleas of union leaders, despite a government statement that negotiations could be conducted only through regular channels between union officials and dock owners.

Louie Hutto Dies From Injuries In Traffic Mishap

Louie Hutto, 69, prominent Howard county rancher, died at a local hospital Friday morning from injuries sustained in a traffic mishap Tuesday evening at Coahoma.
He was struck by an automobile as he rushed on US 80 highway to prevent his granddaughter Frances Barber, 4, from getting into the flow of traffic. She was unscathed.
Born in Shreveport, La., Oct. 25, 1876, Mr. Hutto came to Howard county in 1900 and settled on the ranch south of there. He has operated the ranch continuously since.
He was widely known throughout this area, particularly in ranching circles. One of his chief hobbies was baseball and he was among the most stalwart supporters of Big Spring clubs.
Rites have been set for 2 p. m. Sunday at the Eberley-Curry chapel with the Rev. C. P. Owens, Pittsburg, Texas officiating. Masonic rites will be in charge of the Big Spring lodge, and burial will be in the family lot in the Masonic cemetery beside the graves of his wife and brother and sister-in-law, Mr. and Mrs. Tom Hutto.
He leaves one daughter, Mrs. Marion Barber, Coahoma, and one granddaughter, Frances Bradley Barber. Other survivors include Mrs. Hal Garvin, Mrs. J. Gordon Bristow, Big Spring, nieces; Capt. Thomas Louie Hutto, who landed in New York Thursday after two years service in Italy; his son-in-law, Cpl. William Thomas Barber, overseas with the 2nd Marines; a grandnephew, J. Gordon Bristow, Jr.; two brothers, Bill Hutto, Alhambra, Calif., and Ernest Hutto, Jacksonville; and one sister, Mrs. H. W. Langford, Fort Worth.
Seal Bids Accepted For Surplus Steel
Seal bids are being accepted in Dallas by the surplus property division of the Reconstruction Finance Corporation on 7,806 tons of steel located in Dallas and Fort Worth.
The steel includes 3,111 gross tons of billets, 3,000 tons of bars with the remainder in sheets and tubing. Six classifications offered are in seamless steel tubing, alloy steel billets of forging quality, round and cold rolled and hot rolled bars, round and cold drawn steel bars and cold rolled oil sheets. Seal bids will be accepted until 5 p. m. Oct. 19 and will be opened at 10 a. m. Oct. 22. L. B. Glidden, manager of the Dallas agency, is in charge.

Meat Rationing Tightens Again

WASHINGTON, Oct. 12 (AP)— Civilians will find slightly less ration-free meat at their butcher shops during the next few weeks.
That's because the government is stepping back in to require federally-inspected slaughterers to reserve a portion of their lower grade output for export. The meat thus reserved will go to Great Britain, Belgium, Holland and France.
The butcher shops' supply still will be sufficient, however, the agriculture department said in announcing the action yesterday, to allow civilians the amount of meat the government previously had promised them in the last three months of the year.
The promised supply is about 148 pounds a person on an annual basis. This compares with a pre-war (1935-39) average of about 125 pounds, and a wartime low of 115 pounds during the past summer.
Beginning Sunday, federally inspected slaughterers must set aside certain portions of their lower grades of beef, veal and mutton to meet export requirements of between 500,000,000 and 600,000,000 pounds for the October-December period.
The government had hoped to secure these export supplies in open competition with civilians and the armed services. But it now appears that under the liberalized rationing program put into effect October 1, slaughterers were moving more meat into civilian distribution channels than had been allocated civilians.

Allies Confiscate I. G. Farben Plants

BERLIN, Oct. 12 (AP)—Confiscation by the Allies of the great I. G. Farben industrial empire, one of Germany's most important war-making sources, was announced today by Lt. Gen. Lucian D. Clay.
Clay said part of I. G. Farben's 300 plants would be dismantled and taken by the Allies as reparations, and the part devoted entirely to production of war goods would be destroyed.
Some of them, which turned out non-war products, will be left in manufacture of civilian goods, he said.
Forty of the plants are located in the American zone, and the industry headquarters and one of its biggest plants is at Ludwigshafen-Mannheim.
Allied seizure affected only the holdings within Germany, the general said, adding he did not know what would happen to the concern's considerable foreign properties.

Senate Finance Unit To Study Proposals
By FRANCIS J. KELLY
WASHINGTON, Oct. 12 (AP)— Chairman George of the senate finance committee called today for reducing rather than wiping out income taxes for 12,000,000 low-income Americans.
He thus wants a change made in the \$5,350,000,000 tax cutting bill which rolled through the house yesterday by a vote of 343 to 10.
The Georgia democrat said his committee will open three days of hearings Monday on the measure which—as it passed the house—would:
1. Grant a reduction of 10 per cent or better to every individual taxpayer next year, besides knocking 12,000,000 off the rolls entirely, for an aggregate cut of \$2,527,000,000.
2. Cut 1946 corporation taxes \$1,888,000,000 by lowering the business surtax rate and reducing —though not eliminating until 1947—the excess profits tax.
3. Prune back next July 1 the excise levies on luxury and semi-luxury items to pre-war levels for a savings to consumers of \$535,000,000 in the last half of 1945.
4. Repeal the \$5 "windshield tax" on automobiles, and
5. Freeze the social security tax at its present one per cent rate each on employers and employees. Otherwise the tax would have climbed to two and one-half per cent each January 1.
Commenting on the house action in forcing 12,000,000 individuals from tax liability George told a reporter:
"I think it very unwise to narrow the base, because we may face the necessity of meeting troublesome budgetary problems down the road. We might find it necessary to increase revenues rapidly, and once of the rolls, it would be hard to put the 12,000,000 on again.
"I think the taxes in the low brackets ought to be reduced to the point where they would not be burdensome, but they should not be taken off entirely at this time."
The slide rule experts who helped congressmen frame the tax bill calculate that the reductions will trim federal revenue in 1946 to \$27,140,000,000 and hoist the national debt up another \$12,000,000,000.

Negro Charged With Rape Fatally Shot

MADISON, Fla., Oct. 12 (AP)—A young negro under indictment for assault with intent to rape a five-year-old white girl, was taken from the county jail either late Wednesday night or early Thursday morning and shot to death, Sheriff Lonnie Davis reported.

Sheriff Davis said yesterday that the negro, Jesse James Payne, was returned to the jail here from the state prison Tuesday for arraignment. He had pleaded innocent to the charges. His case had been scheduled for trial Tuesday.

Gov. Millard Caldwell at Tallahassee said he had received only a "sketchy report" on the affair but would start an immediate investigation.

Few Upsets Due On College Grid This Weekend

NEW YORK, Oct. 12 (AP)—Not in the least embarrassed by having picked Georgia Tech to defeat Notre Dame (final score: Notre Dame 40, Georgia Tech 7) a week ago, this pigskin prognosticator returns for another whirl with a seasonal average of .813 or 91 correct picks in 112 chances.

Michigan-Army: Army's veteran starting backfield will average 194 pounds, Michigan's freshman line only 168. After that weighty debate, Army.

Penn State-Navy: Navy's reconstructed backfield to be every bit as good as the one which hammered Duke a week ago. Navy. Dartmouth-Notre Dame: Dartmouth, still smarting from that 64 to 0 drubbing of a year ago, is unfortunate in meeting Notre Dame with Capt. Meryl Frost, the easterner's chief back, handicapped by a broken finger. Notre Dame.

Duke-Wake Forest: The Blue Devils couldn't stop Navy and the Deacons couldn't halt Army a week ago but Duke looked the better in defeat. Duke.

Wisconsin-Ohio State: Even with All-America Bill Hackett lost to the Buckeyes because of injuries suffered in a traffic accident, the Ohioans have the answers. Ohio State.

Iowa-Purdue: Iowa has a good corn crop each year, a good football team once each decade. This isn't the year. Purdue.

Southern California-San Diego Navy: The Sailors are loaded but teamwork and condition should pull the collegians through. Southern Cal.

South Carolina-Alabama: Hurling Harry Gilmer to pitch the Crimson Tide to an easy triumph. Alabama.

Southern Methodist-Oklahoma A. & M.: The Mustangs haven't got enough to stop Bob Fenimore, Oklahoma A. & M.

Yale-Columbia: In all their long series, the Lions have defeated Yale only four times. They get victory No. 5 Saturday. Columbia.

Detroit-Mississippi State: Harper Davis to give the Detroiters a real taste of southern inhospitality. Mississippi State.

Laval's Attorneys To "Explode" Case With New Evidence

PARIS, Oct. 12 (AP)—Attorneys for Pierre Laval now under sentence of death for collaborating with the Germans, declared today they had uncovered important new evidence which would "explode" the case against him.

The evidence, they asserted, will prove that Laval—former Vichy chief of government—was arrested by the Germans while plotting to turn his government over to Gen. Charles De Gaulle.

The attorneys said documents smuggled out of France and hidden in Switzerland had been found and returned today. These, they said, showed Laval came to Paris at the beginning of August, 1944, to declare it an open city and to have De Gaulle officially received by a meeting of parliament.

Paris fell to the Allies Aug. 25, and De Gaulle entered the city the same day.

Laval's lawyers said the evidence would prove Laval drove all day and night to Nancy in northeastern France in order to free Edouard Herriot from German imprisonment and that he returned with Herriot to Paris where he obtained reinstatement for him as president of the chamber of deputies.

The lawyers said they could prove that Gestapo Chief Heinrich Himmler personally ordered the arrest of Laval before he could carry through his plan.

Suspected Slayer May Be 'Bug' Man

SHREVEPORT, La., Oct. 12 (AP) A man who "kept talking to himself and complained of seeing bugs running about on the floor," was identified by a store owner as Riley B. McCaine, 40, of Houston, Tex., who is charged with the slaying of Elnora Collins.

T. M. Phillips, sheriff of Many, La., said the store owner had identified McCaine from newspaper pictures. He said McCaine had purchased a can of tomato juice at his store Wednesday.

McCaine was charged with the slaying of Miss Collins in a court at Beaumont Tuesday, and has not been apprehended. The 30-year-old preacher's daughter was found dead, nude except for bobby socks, near Beaumont, Sept. 31. Her body was partly burned.

An empty tomato juice can was found beside the Converse-Shreveport highway yesterday, and officers still were investigating the can's fingerprints.

The Nation Today— Work Of The NLRB Piling Up In Straightening Out Labor Disputes

By JAMES MARLOW

WASHINGTON, Oct. 12 (AP)—You'll be reading more and more about the National Labor Relations Board (NLRB) because of its part in strikes and labor disputes.

It's work is piling up.

This is an ABC explanation of NLRB, of what it is, how it works, and why. It has three jobs:

1. It remedies unfair tactics by a boss against a worker.

2. It conducts a vote when workers want to decide on joining a union.

3. It conducts a vote when workers want to decide on a strike.

It has a chairman and two other members, all appointed by the president. They're in Washington.

NLRB also has a number of regional offices each with its own director and staff.

Take the three NLRB jobs, one at a time:

No. 1—It remedies unfair tactics by a boss against a worker.

The NLRB was created in 1935 under the Wagner labor relations act. The law says an employer must not discriminate against a worker because of his union activities.

No. 2—NLRB conducts a vote when workers want to decide on joining a union.

The Wagner act says a boss shall not refuse to bargain with a union which has been chosen by a majority of his employees as their bargaining agent.

Naturally, a boss wants proof—when a union walks in and says it represents his employees.

The only way to prove it is by letting the employees vote secretly on whether that union, or some other union or none at all represents a majority of them.

The NLRB conducts these votes. So much for Nos. 1 and 2. Those were its only jobs until the war came along.

Then congress passed the labor disputes act (called the Smith-Connally act) to curb wartime strikes. This law said in part:

If a union wants to strike in wartime, it must file with the NLRB a notice that 30 days from the date of filing it wants its members to vote on whether they want to strike.

Under the law, if workers walk out without this strike vote, the boss can sue the union for damages.

But—when the workers vote, the NLRB conducts the vote by secret ballot. This is expensive when it involves a big union.

The NLRB has to hire people to work at the voting booths. It has to pay for printing the ballots.

Some such votes cost hundreds of thousands of dollars.

This expense is all borne by the government which gives NLRB about \$3,000,000 a year to do its work.

The NLRB work under the Smith-Connally act is piling up so much—it had 194 strike vote notices in August, 307 in September—that it has had to shove aside much of its work under the Wagner act.

Bumpy Tunnels Out Here In This State

SAN FRANCISCO, Oct. 12 (AP)—James J. Dolan, 31, recently discharged New York soldier, became lost while driving his auto around this city.

But he knew Market street was the main stem so when he reached a point on it where a tunnel opened under twin peaks he drove right in.

Two miles inside, at Forest Hills station, he told startled officers sent to intercept him:

"My home town has lots of tunnels, but none of them as rough as this one."

He was arrested on a little used ordinance prohibiting autos in street railway tunnels.

Homecoming of 131st Lost Battalion To Be Held In Wichita Falls

WICHITA FALLS, Oct. 12 (AP)—The 36th division will be represented by Maj. Gen. Fred L. Walker at the homecoming of the 131st field artillery battalion here Oct. 29.

General Walker led the 36th in campaigns in North Africa, Sicily and Italy. He will be the personal representative of Secretary of War Robert P. Patterson at the celebration.

Wichita Falls, home of many 131st veterans, has been designated the official site of the celebration honoring returning members of the battalion, which was detached from the 36th division and sent to the Pacific at the outbreak of hostilities.

More than 600 Texans in the outfit went to Java in February, 1942. After Java was over-run their fate remained a mystery for many months. After more than 43 months in Japanese prison camps, members of the "lost battalion" who survived were released last August.

Gov. Coke Stevenson has proclaimed Oct. 29 as "Lost Battalion" day throughout Texas. A memorial to the dead will be held here Oct. 28-29.

Latin - American Girl Pleas For More English

By JACK RUTLEDGE Associated Press Staff

While the Good Neighbor commission struggles with the baffling problem of racial discrimination in Texas, a young Latin-American girl of Edinburg, Tex., offers a suggestion which, if followed, would go far in improving understanding.

Mrs. Rogers Kelley, wife of State Senator Rogers Kelley, says the editorial by young Miss Lucia Longoria should be reprinted throughout the state.

This is the editorial, which appeared in the Edinburg school paper:

"I, a Texan of Latin American extraction, have been suddenly awakened to the greatest mistake of my life. It is one which United States citizens of Latin American extraction generally make.

"The mistake is that when we are among ourselves, generation after generation, we usually speak Spanish.

"I got my jolt when I first entered Edinburg high school.

"Previously I had attended a small school in a Latin American settlement. It was a good school. But despite the pleas of our teachers, who urged us to speak English, as soon as their backs were turned we poured out our Spanish.

"But now in Edinburg high

school I find that students of Latin American extraction are greatly handicapped unless we have mastered English. How can we hope to compete in this fast-moving world without mastery of the language of our nation?

"How can we share the responsibilities of United States citizenship unless we have mastered English?"

"Let all of us of Latin American extraction take this thought home—and I mean home! Not only should we speak English in our conversations among ourselves, but we must impress the older mem-

bers of our families of the necessity for mastery of English both for them and for their children. "Mastery of English, plus a knowledge of Spanish, will enhance our opportunities as Americans. "We of Latin American extraction—let's speak English!"

Cayuses Afforded Little Chance Of Turning Back Aggies Tonight

By HAROLD V. RATLIFF
Associated Press Sports Editor

Southern Methodist's Mustangs, victims of two straight upsets, meet Oklahoma A. and M. at Oklahoma City tonight to open a week-end of international jousting by Southwest conference teams.

Four of the five games on the schedule are against elevens from other areas. The fifth contest is a conference affair in which Arkansas will be seeking to kick Baylor's Bears out of the title running.

The top game of the week-end will be the Texas-Oklahoma tilt at Dallas tomorrow but tying with it in importance will be Texas A. and M.'s struggle with Louisiana State at Baton Rouge tomorrow night.

Rice tackles Tulane at Houston in the other intersectional bout.

The conference will be well-satisfied to break even, expecting Texas to win and according to A. and M. an excellent chance of knocking over veteran L.S.U.

Southern Methodist isn't given much chance to upset undefeated Oklahoma A. and M. Nor Rice to simmer the Tulane Green Wave.

Arkansas, winner of two games out of three and able to give Oklahoma A. and M. a battle all the way, should take Baylor into camp. But Baylor has had two weeks to get ready and the Bears know this is the do-or-die period. Too, Arkansas doesn't boast such a good record as a road team.

For a guy who hit only thr...

out of six last week, we claim to be a brave man as we busily study the charts to figure out selections for this week. Oh well, you can't take nothing from nothing.

Texas vs Oklahoma at Dallas—Texas to win by a couple of touchdowns but Oklahoma ought to score.

Rice vs Tulane at Houston—The Owls should do better than they did against Louisiana State (to whom they lost 46-0) but that still won't be good enough. Tulane by two touchdowns.

Arkansas vs Baylor at Waco—Looking for an upset but the cards say Arkansas.

Texas A. and M. vs Louisiana State at Baton Rouge—The Aggies by a whisker.

Goose Creek's Ganders tackle Lufkin's Panthers at Lufkin tonight in the feature game of the week in Texas schoolboy football.

Two other games also match undefeated, untied teams as Amarillo meets Brownfield at Brownfield in an important District One clash and Kingsville goes to Brownsville in a tilt due to establish the favorite for the District 16 crown.

Lufkin is rated in most quarters as the top team of East Texas with Goose Creek looked upon as the power of the south. Their game tonight is one of the most important of the year from a sectional standpoint.

Two teams fell from the undefeated, untied ranks last night with the start of the week-end of play. Quanah lost to Paschal (Fort Worth) 13-0 and Brackenridge (San Antonio) fell before Jeff Davis (Houston) 18-13.

In other games last night El Paso High beat Carlsbad, N. M., 19-12. Crozier Tech (Dallas) whipped Adamson (Dallas) 33-0. Henderson lost to Fair Park (Shreveport) 20-0 and Reagan (Houston) and Austin (Houston) battled to a scoreless tie.

SAY YOU SAW IT IN THE HERALD

Al Schoendienst To Play Short For Redbirds

By SID FEDER
CHICAGO, Oct. 12 (AP)—The Chicago Cubs may put up \$150,000 to plug their shortstop hole with Marty Marion, and the Detroit Tigers are going to be made over like the missus' last year's hat, but when they open next year's baseball grab bag, it's the St. Louis Cardinals and New York Yankees who are most likely to pop out.

As a matter of fact, the St. Louis Laruppers and the Bronx Bombers have better teams coming back from the wars than either of this year's pennant winners fielded in the 1945 world series, which featured probably the two weakest clubs in the history of the post-season classic.

Any team that can sell Mr. Shortstop himself—the aforementioned Marion—and still figure as favorite to gallop to the pennant, must have the dice loaded. Which is the pretty spot Cardinal President Sam Breadon's in right now, what with a parade of returning veterans and Red Schoendienst already packed and ready to move in from the outfield to fill Marty's shoes.

Although they lost to the Tiger thumping, shortstop is about the only big hole the Cubs had in the series.

In fact, the Cubs were probably the closest thing to a pre-war ball club in the big time under Jolly Cholly Grimm's classy leading. However, they've got to put a cork in the short field, and it was kind of an open secret at the series that the Cards had polished up Marion and set him on the counter with that \$150,000 price tag. The Cubs and Giants were supposed to be window shopping, and with Cub Owner Phil K. Wrigley's bankroll not suffering from anemia at last reports, Marty may be hanging his hat here next spring.

The Tigers, on the other hand, are going to need to be redone from cellar to attic. Criticizing a series winner is like saying Beethoven couldn't write music, but the fact remains that except for the elbowers, the old men who did such a grand job winning the pennant and the series had their fancy fling this year.

That will mean one more record added to the pile chalked up in this series. For, never before in history has a complete outfield, probably the entire infield except second base, the catcher and a couple of hurlers disappeared from a series winner over the following winter.

The outer garden will no doubt be held down next year by Dick Wakefield, Barney McCosky and Pat Mullin, returning from the service. Jim Bloodworth, Walt Evers and Johnny Lipon will be back to see if they fit the infield pattern—Birdie Tebbets, the catching needer comes home to replace Paul Richards, 37 year old hero of the series' seventh game.

Don't be surprised if Hank Greenberg, the one "hot man" of the series, makes a welcome return to first base. He can't play the outfield any more, and the whisper was all over at the series that Rudy York goes on the block this winter.

Navy's Centers Gain Attention

NEW YORK, Oct. 12 (AP)—Have you noticed how many centers are being ballyhooed this football season? . . . It could be that the guy in the middle can get attention more easily than other linemen, but so far we've heard of Navy's Dick Scott, current "lineman of the week"; Red Wheeler of Arkansas, who drew high praise from his coach, Glen Rose; Ralph Jenkins of Clemson, of whom one observer says: "I don't believe there is a better center, offensively in the country," as well as Alabama's Vaughn Mancha and Tulsa's Felto Prewitt, who are carrying on with reputations they established last year. . . . Then there's Bob McCoy, just a sub at Penn State but possibly the nation's highest-scoring center so far. He intercepted a pass to score a touchdown against Muhlenburg and recovered a fumble for one against Colgate.

Mexico Celebrates "Day Of The Race"

MEXICO CITY, Oct. 12 (AP)—Mexico, with all Latin America, celebrated "the day of the race" today, 453rd anniversary of Columbus' discovery of the new world.

Church, state and the individual marked the event. Sports events were numerous.

The virgin of Guadalupe, patron saint of Latin America, was crowned anew in the basilica dedicated to her. The statue of Pope Pius XII, Rodrigue Cardinal Villeneuve of Quebec, was appointed to replace with a jewel-studded crown one that has disappeared since her original coronation as patron saint 50 years ago.

The Mexican congress held a special session dedicated to Latin

America. Congressmen from Venezuela, Guatemala and Costa Rica were honor guests.

Business establishments, offices, schools and factories were closed.

Open for Business

Thousands of signs on the doors of small businesses that read "Closed for the Duration" are coming down and "Open for Business" banners are going up. Small shops and plants whose owners and operators were called into the armed services are undergoing extensive alterations and remodeling, preparatory to again serving the public as they did before the war.

Since these stores and small factories were closed back in 1941, '42 and '43, many new and revolutionary applications of electric power to both large and small businesses have been developed. More efficient lighting equipment has been designed and perfected. New electrical machines, designed to speed up war production, are now becoming available. Thousands of kilowatts of electrical generating capacity, tied-up in war production for the past several years, can now help these returned fighting men resume their peace-time pursuits.

Texas Electric Service Company power engineers can be of great assistance in getting these "Open for Business" signs up in a hurry. They are ready and waiting to apply their war-time power experiences to your business—they helped speed the war-production schedules and they can help speed the return to peace-time normalcy.

Lions Rally To Decision Eagles In Thrill Packed Game, 24-12

Wrightsil, Jones Are Big Factors In Triumph

Roundly outplayed throughout the first half, the Lakeview (colored) school Lions of Big Spring came swarming back in the final two periods to wipe out a touchdown deficit and rout the Abilene Black Eagles in a thrill packed football game, 24-12, at Steer stadium Thursday night.

The game was much closer than the score would indicate. The Lions' offense that had clicked so well against Midland and Sweetwater was for the most part stopped cold by a hard charging Abilene line until Frank Miller's boys suddenly awakened to the fact that all was not right.

Time was running out on the Big Springers in the second quarter when they at long last began to move. Abilene's brilliant field general, Major Cook—who looked to be the difference between the two teams—had put the invaders out front with a 35-yard scoring dash on a punt return and Robert Burton, a center converted into a wing in the Eagles' unbalanced line formation, had added to that margin by snagging a pass from Cook in the end zones shortly thereafter.

The experience of trailing in a ball game was a new one for the Big Springers, who never before had had their goal line crossed, but apparently the suggestion of defeat inspired them to new heights for there was no stopping them once they got underway.

Junior Crockett climaxed a 70-yard drive on the part of the Lions by ramming his way through the enemy line from the one-yard line just 15 seconds before the intermission whistle sounded.

Crockett and Company proceeded to take up where they had left off when the third period got underway. Big Spring kicked off and the Eagles wound up with an astonishing loss in yardage in their first series of downs.

Cook's boot was woefully short and the Lions took over on Abilene's 35. In half a dozen plays, the Miller men had deadlocked the count, Edward J. Wrightsil slipping through tackle from the two for a six-pointer.

The Lions were far from through. The invaders received, failed to get anywhere and the Big Springers again took over, this time in midfield. Bang! Bang! Bang! And they had the game-clinching tally, Wrightsil again moving into pay dirt. The all-important drive originated on the one-yard line.

Thoroughly aroused, the Feathered Flock roared back with a drive that seemed very serious until Cook made the mistake of threading the wrong needle with a pass downfield. Center Pete Jones of the Lions, who played a sensational game all night, was there to pick it out of the ozone.

Jones then went skipping through the dew. Fifty-five long yards he churned in the most sensational run of the night, would-be tacklers trailing desperately in his wake.

All of the attending fandom breathed easily after that. Each side accounted for nine first downs while the yardage comparison slightly favored the locals.

Harry Dooley contributed a neat performance for the Lions along with Wes Moore while Burton, Cook and James Walker all looked to advantage for the visitors.

SPEED ACE KILLED
LOS ANGELES, Oct. 12 (AP)—Clarence (Sport) Brigs, 34, Alhambra, was injured fatally last night when his midgelet auto racer crashed into a retaining wall before 40,000 spectators at the Coliseum. He died of head and internal injuries two hours after the accident.

Top Crowd Due To See Texas, Sooners Play

DALLAS, Oct. 12 (AP)—The largest football crowd in the Southwest this season is expected tomorrow when Texas meets Oklahoma here in the thirty-ninth game of an ancient series, with more than 40,000 due to jam into the Cotton Bowl.

This will further boost Southwest conference attendance that already is materially ahead of last year.

Reports from the seven schools show 19 games have drawn 237,862 fans as compared to 197,000 for 17 contests at the same time in 1944. This year's attendance includes Baylor University, which wasn't in football last season, but subtracting Baylor's attendance still leaves a substantial gain—the total being 228,500 for 1945.

Texas and Oklahoma started swapping touchdowns back in 1900. In eight of the years since there were no games but one season found the schools meeting twice. In the all-time record Texas has won 25 times, Oklahoma 11 and there have been two ties.

Texas, favored to win again tomorrow, hasn't lost to Oklahoma since 1938.

Skymasters Invade ATC Stronghold
FORT WORTH, Oct. 12 (AP)—The football Skymasters of the AAF Training Command may not be the "passingest" team in the land but Maj. Doug Fessenden's men rate top bracket with their air attack that is being further polished for the unbeaten Skymasters fourth game, a meeting with the Air Transport Command Rockets, tomorrow at Nashville, Tenn.

In their first three victories, the Skymasters completed 27 out of 59 passes for a total air gain of 423 yards, three yards more than one-half their rushing and passing total of 842. Eight of their eleven touchdowns have been scored via the air lanes.

Looking Em Over

With ANGUS LECESTER

Pigskin picks for the week: Big Spring 12, Lamesa 7. John Dibrell's gang must watch the Tornadoes' fast-breaking T, but have it in them to put on their best show of the year. The switch of big Gerald Harris to the secondary should help both the offense and defense of the Longhorns.

Ojessa 30, Abilene 0. Could be more, if the Broncs' J. W. Thompson goes the distance.

Midland 7, Sweetwater 6. Close, but the edge goes to the Bulldogs.

Oklahoma Aggies 19, SMU 0. Too much Fenimore.

Arkansas 14, Baylor 0. The Bruins will fare no better against the Porkers than did TCU last week.

Alabama 25, South Carolina 0. Harry Gilmer is headed for an All-America slot, even if it has to be at the expense of Glenn Davis.

Pennsylvania 30, Clemson 6. The Sailors have it this year.

Texas 26, Oklahoma 7. The Sooners are in for a thrashing at the hands of what appears to be the strongest team in the Southwest conference.

Tulsa 31, Texas Tech 7. Henry Frnka might have another Bowl contender this year.

Notre Dame 40, Dartmouth 0, or by any score the Irish desire to run up.

Duke 7, Wake Forest 0. The Deacons took a terrific pasting from Army last week but then who won't this season?

Yale 14, Columbia 12. Both elevens are woefully weak.

Colgate 13, Lafayette 12. Just a shade difference.

Tornadoes Favored Over Steers In Game Tonight

Local Defense Aimed To Stop Orv Nieman

Lamesa's Golden Tornado comes to town tonight to do battle with Big Spring's high school Steer.

His sartorial elegance irritated somewhat by the chip he's carrying on his shoulder and the immediate background disturbed by the monkey on his back.

Re the chip, the invader is determined not to be relegated to the District Three football conference cellar and his gander is running a temperature, but the dopsters, many of whom have never been in Steer Stadium—scene of the 8 o'clock clash—have wished the role of favorite on the Lamesans. Hence the unwelcomed monkey.

The Tornadoes are deserving on the experts' nod, since they have looked to better advantage than John Dibrell's Steers in early season outings.

True, they took a gosh-awful kicking around by the Lubbock Westerners but they did manage to cross the Lubbock goal, which is more than the locals were able to do in a previous test.

However, case histories of the two clubs can't be employed in drawing a line on the two elevens no more than the First Army could be compared with the Seventh Air Force.

When football teams of the two neighboring villages get together, little things like records fade into the misty ago amid the general spirit of the occasion.

The Longhorns want this one. They want it more than any other they've played or will play this year. They know they've fallen a few notches in public esteem and nothing would do their local rep as good as a triumph over the invaders. It's their one chance to escape the dark and gloom of the league cellar.

If the Big Springers are to corral the visitors, however, there's a little problem that must be overcome. That would be Orville Nieman, a hipper-dipper halfback who operates with neatness and finesse.

Nieman is one of those backs who can lift an ordinary team to the heights. He's done it before for Chock Sanders' contingent and he's apt to do it again. The Steers must guard against him and the fast break he engineers. They must crash through and hit him down before he gets to moving or he might wind up smashing dishes in their own parlor. He's that dangerous.

Then there are one or two boys up front for Lamesa that must be reckoned with. One is Bud Eudy, a tough cookie who likes to get in the hair of the opposing team's secondary. And Bill Fortenberry, a big tackle, if he plays.

The Steers are in good physical and mental trim for the escapade. Hugh Cochran will be apparent, both in the locals' offense and defense. The 160-pounder uses three years of varsity experience to good advantage on the playing field.

Gerald Harris, the converted tackle who has been remoulded into a fullback to add weight and power to the Steer attack, will help, no doubt.

The Weatherman promises a break, both in the temperature reading and an arid evening, and a good representation from Lamesa should swell the crowd.

Texas Today—

Military Government In Germany

By TEX EASLEY
WASHINGTON, Oct. 12 (AP)—Some sidelights about American military government in Germany were related here by Capt. Cullen Briggs of Corpus Christi, on military leave as Texas state district judge of Nueces county.

Sgt Bill Harrell of Mercedes, the fighting marine who lost both hands battling Japs in a foxhole on Iwo Jima, has won him a place in the hearts of official Washington.

For a year before U.S. troops marched into Germany, AMG officers were carefully studying up on the areas they were to administer. When Capt. Briggs went into Bavaria therefore, he knew the country and the political figures—Nazi, anti-Nazi and luke-warm Nazi.

He was guest of Rep. Milton West of Brownsville at the weekly luncheon of the Texas congressional delegation. Already he is acquiring skill in manipulation of his artificial hands, and he smokes a cigarette with ease.

For his own use, the Texan acquired an almost new Mercedes sport coupe which a Nazi official had owned. In that part of southern Germany are some of the most modern highways in the world, leading through beautiful mountains and valleys, he said.

Two days later on the White House lawn he stepped briskly up before President Harry S. Truman, gave a snappy salute and when the president spoke to him, broke out with that cheerful Texas smile.

Park Pavilion May Be Reserved

Reservations for use of the pavilion at the Scenic Mountain state park are now possible, it was announced Friday.

The skipper of the U.S.S. Texas sent the following note, with an enclosure, to the Texas members of Congress: "As it becomes more and more apparent that the career of this ship is drawing to a close, we who have served on her feel that you Texans might be interested in knowing something of her career."

Enclosed herewith is a copy of her history. It has brought nothing but honor to the name of 'Texas', and we hope that in reading it you will be as proud of her as the men who have sailed her on all the oceans from Europe to the Orient.

Bonus pay is proposed by Rep. Lindley Beckworth of Gilmer for members of the army or navy who are engaged in cleaning up explosive mines over the globe, both in

such a recommendation to the secretaries of war and navy, calling attention to the fact that extra pay is given plane and submarine crews because of the added hazards of their jobs.

From Yokohama, Japan, comes word that Cpl. Robert J. Salazar, former El Paso newspaper photographer, was the king bee of occupation forces when he acquired a horse, and became the first trooper of the 1st Cavalry Division to mount-up in line of duty in two and a half years.

Early one morning Salazar, guarding a downtown bridge, challenged two Japanese leading a big gelding. The men were in uniform and had no permits to be about at such an hour.

Visitors around Capitol corridors: Newspaper publisher Charles Guy, Mayor Overton Ribble and Retha Martin, drygoods man, all of Lubbock, having lunch with Rep. George Mahon in the House restaurant.

Mr. and Mrs. Bill Sleeper of Waco, a former secretary of Rep. Bob Poage, Sleeper now is with the Veterans Administration at Waco. Naval Lt. Fred Hilger of Waco and his wife also took a look around the capitol before going home. Hilger has just received his discharge.

Lt. General Robert Wheeler, the new chief of army engineers, who has just returned from India, and the retiring chief, Lt. Gen. Eugene Reynolds, were guests in the House restaurant of Rep. J. J. Mansfield of Columbus, and Roy Miller of Corpus Christi, president of the Louisiana-Texas Intra-coastal Association.

Stirling Evans, president of the Houston Land Bank, who hails from Cameron, here on business; and John Redditt, chairman of the Texas state highway commission.
