

Tallyho! Problems Posed If First Lady Joins Fox Hunts

WASHINGTON (UPI) — If the future first lady, Mrs. Jacqueline Kennedy, is serious about riding to hounds with the foxhunters of Virginia, it could produce some interesting possibilities.

After the inauguration, Mrs. Kennedy will be accompanied wherever she goes by Secret Service agents. This raises the intriguing possibility of Secret Service Chief U. E. Baughman having to go before the House Appropriations Committee to ask money for proper hunting attire, horses and possibly some instruction on the elaborate etiquette of the Virginia hunt country.

Will there be a horse for the pool photographers, another for the press association reporters? Will the Secret Service equip their horses with short-wave radios?

Probably no sport in America is taken quite as seriously by the participants as fox hunting in Virginia. The lordly masters of the hunt in their pink coats might have something to say other than "tallyho" at the sight of a majestic hunting horse with radio aerials protruding from the saddle.

Or imagine the plight of the agent who must write a detailed report on the movement of each member of the presidential family. These reports are masterpieces of understatement and polite plotters. Come springtime, Baughman might find himself reading something like this:

"From agent Black to supervising agent in charge: S-15-61 departed house with first lady by motor for Golden Acres farm at 2 p.m. Destination meeting place of Orange County Hunt. Arrived farm 2:18 p.m. "First lady rode own mount. Undersigned on borrowed horse named Lightning. First lady and horse jumped stone fences at 2:34, 2:45 and 2:57 p.m. (Locations A, B and C in attached diagram). Just after passing position C, undersigned detected unidentified animal (four-footed) rushing at first lady's horse. (Perceived animal to be a skunk and disposed of same (with revolver, calibre .38 serial No. 234518). Identification of animal defective. Informed by other hunt participants it was a box. Hunt participants spoke at some length on this subject (covered in appended memorandum, including letter from master of hunt containing derogatory remarks concerning undersigned). "En route back to staging area.

Golden Acres Farm, horse assigned to undersigned attempted to jump stone fence, position A, without authority, causing undersigned to detach himself unexpectedly. First lady returned home accompanied by another agent while undersigned taken to Orange County Hospital to have leg, left set and placed in cast. "Attached documents: (1) Request for sick leave. (2) Request for transfer."

HIS KIND OF WEATHER — Most all New Yorkers had harsh things to say when the worst blizzard in years unloaded more than a foot of snow on the city and the eastern seaboard, but not this fellow. Santa Claus, thinking about reindeer and a sleigh ride with a bag full of toys, raises his hands to the sky and lets everyone around know that this is his kind of weather. (NEA Telephoto)

Pro-Western Laotians Attack Russian-Supplied Communists

Export Boost Is Slated By New Administration

By EDWARD COWAN
United Press International
WASHINGTON (UPI) — The Kennedy administration plans to assign a high priority to boosting American exports in an effort to stem the drain on U.S. dollars and gold.

This policy would give new importance to the job of President-elect John F. Kennedy's commerce secretary, Luther H. Hodges, putting him into close touch with the secretaries of state and treasury.

Democratic sources made these points today following Hodges' statement that he expects export expansion to head his list of what needs to be done in his department.

Belgians Alert Riot Police For King's Wedding

BRUSSELS, Belgium (UPI) — Riot police in major Belgian industrial centers were alerted today to guard against anti-government disturbances that threatened to mar Thursday's wedding of King Baudouin to Dona Fabiola de Mora y Aragon of Spain.

Korea-Type Struggle Is Feared Eminent

VIENTIANE, Laos (UPI) — Pro-Western forces fought Russian-supplied troops with tanks, mortars and rifles today for control of the Laotian capital of Vientiane.

News Lid Clamped On Algeria

ALGIERS, Algeria (UPI) — Shouting and shooting echoed through the Casbah native quarter Tuesday night and early today, but strict censorship suppressed details of what apparently was a new out-break of violence.

Anti-Communist troops launched an attack on Red troops controlling the city Tuesday and key points changed hands twice during the early fighting. Through the night the battle raged and at last reports the most strategic areas were held by Pathet Lao Communist guerrillas and Russian-armed troops loyal to Capt. Kong Le.

(The Soviet news agency Tass said the right-wing forces were "unable" to occupy the city. It quoted the Pathet Lao radio as saying the defenders "destroyed in fierce battles a large contingent of rebel troops and captured more than 100 officers and men and much equipment."

Secretary Of Labor Appointed

WASHINGTON (UPI) — President-elect John F. Kennedy has selected Arthur J. Goldberg, chief attorney of the United Steelworkers union, as his labor secretary despite opposition from some AFL-CIO craft unions.

Crime Costs Huge Sum, Kiwanis Told

Dan Johnston, of the Texas Division of the Salvation Army, told members of the Top O' Texas Kiwanis Club last night in their meeting in the Coronado Inn that crime cost the people of the United States some \$20 billion yearly.

This, he noted, is one-fifth of the national net income, and it all springs from juvenile delinquency. This marked the 87th time Johnston had spoke on the subject "Juvenile Delinquency and You," in his statewide tour to bring home to the people of Texas the ever growing problem of juvenile delinquency.

Guests for the affair were Jeff Bearden, H. O. Ward Buckingham, Key Clubber Wayne Denison and E. O. Wedgworth, manager of the Pampa Chamber of Commerce.

Bruce & Son Transfer and Storage Company has 5 offices located in the Panhandle area. For free estimates on moving, phone MO 4-8887. Adv.

Probe Head, Grand Jury Discuss Beaumont Vice

BEAUMONT (UPI) — Rep. Tom James of Dallas, vice-chairman of the House General Investigating Committee, discussed with a Jefferson County grand jury Tuesday night the investigation of a \$3 million a year gambling and vice business in the Beaumont-Port Arthur area.

The jury had requested James to appear following raids two weeks ago on six Beaumont and one mid-county clubs which netted 46 arrests and seizure of some \$20,000 from alleged gambling establishments.

The News Briefly Told

FORT WORTH (UPI) — A grand jury indicted a man and his wife Tuesday on charges of heading a nine-member gang that swindled insurance companies out of \$28,281 in phony wrecks.

AUSTIN (Spl) — Carson County Judge Clarence C. Williams today planned to request that a four-lane highway (7.8 miles) be constructed between Panhandle and Amarillo in the State Highway Department hearings which are under way.

HOUSTON (UPI) — The district attorney's office today upheld a teacher's right to paddle students by refusing to press charges against a Channelview grade school teacher.

DETROIT (UPI) — Walter P. Reuther, president of the United Auto Workers, charged today that President Eisenhower's failure to support the Supreme Court desegregation decisions contributed to the disorder in New Orleans.

NEW ORLEANS (UPI) — Civic leaders pleaded with New Orleans residents to accept integration today but only eight white students raged through a cold rain to attend an integrated school.

Jet Cracks Flight Mark

EDWARDS AFB, Calif. (UPI) — A Strategic Air Command B52G bomber today completed a 10,000-mile, nonstop flight to shatter world records, the Air Force announced.

The jet bomber took off from this desert base at 7:07 a.m. Tuesday and returned this morning after completing the closed-circuit course in 19 hours without refueling.

The B52G from SAC's "combat ready" alert forces, was flown by a crew from the 4th Bombardment Wing at Travis Air Force Base, Calif.

The 650-mile-an-hour bomber was commanded by Lt. Col. Thomas R. Grissom, 36, Rapid City, S. D. and carried a seven-man crew.

Other crew members were Lt. Col. Neil D. Van Reenen, 32, Rockford, Ill.; pilot, Capt. Joseph P. Bosley, 31, Iola, Kan.; co-pilot, Lt. Col. Allen T. Wayne, 41, Campbellville, Ky.; navigator-bombardier, and Maj. Cyril A. Dingwell, 28, Scituate, Mass.; Maj. John B. Smith, 38, Caldwell, Idaho; Capt. John W. Tiefert, 40, Duluth, Minn.; and M. Sgt. C. L. Cobb, 33, Jacksonville, Ala.

Extension Of Cotton Quota Voted

Gray County cotton farmers voted yesterday in favor of continuing marketing quotas for another year.

A total of 37 votes were cast: 33 for and 4 against. In McLean all 23 votes were in favor of quotas.

Mrs. Evelyn Mason, Gray County office manager for the Agriculture Stabilization and Conservation Service, said today if the nationwide referendum yesterday shows a two-thirds favorable vote marketing

quotas will take effect and cotton from compliance farms may be marketed without penalty and will be eligible for the full available rate of price supports as determined by the Secretary of Agriculture.

Its punch was felt as far east as the Dallas-Fort Worth area in North Central Texas, where sleet and a few flakes of snow fell during the night, then changed to chilly rain.

Actually, the storm left only a small amount of snow and ice to the coating already blanketing the Big Bend Country, the Texas Panhandle and South Plains.

Four Houston residents were killed Tuesday night in two car-truck collisions due to rain-slick streets. William R. Collins, 38, and William L. Mason, 29, were killed instantly when the car they were riding in skidded and slammed into the rear of a parked truck. An elderly couple, Mr. and Mrs. Charles Brotherton, were killed when their car slid on the wet pavement into a flat bed truck loaded with steel. Both accidents happened in Houston.

The weatherman said a warming trend due to set in today over most of the state probably would melt off much of this cover before a fresh mass of frigid Canadian air moves out of the Pacific Northwest to skid temperatures in Texas to new lows by the weekend.

Packed snow and ice, frozen into a mirror-like glaze during the night, made driving hazardous over the western half of the state, and the Department of Public Safety urged drivers to use extreme caution.

Another Storm Barrels Across The Panhandle

A new winter storm boiled out of the mountains of West Texas and New Mexico today flinging fresh coats of ice and snow along its path.

The storm dumped up to five inches of snow in the mountains, then moved across the flatlands of Northern Texas and into Oklahoma and Kansas.

Its punch was felt as far east as the Dallas-Fort Worth area in North Central Texas, where sleet and a few flakes of snow fell during the night, then changed to chilly rain.

Actually, the storm left only a small amount of snow and ice to the coating already blanketing the Big Bend Country, the Texas Panhandle and South Plains.

EDITOR'S NOTE: Fourth in a series of five dispatches on problems facing the next Texas legislature.

By PAT CONWAY
United Press International
AUSTIN (UPI) — When you couple money problems with legislative, judicial and congressional redistricting you're bound to have a special session of the legislature, Texas lawmakers said today.

In reply to a United Press International survey, the legislators, who convene for their 57th session Jan. 10, agreed that money and redistricting problems may force them to work well into the summer.

Skellytown Scouts Bring Gifts For Christmas Party

Skellytown cub scouts are doing their share to make Christmas merry for the underprivileged children of Pampa.

John Banks, cub scoutmaster, said 34 boys, comprising 6 units in Skellytown Cub Scout Pack No. 9, will come to Pampa after school tomorrow to "turn over" Christmas gifts they have made for the party to be given Sunday, Dec. 18 for the underprivileged children of Pampa Veterans of Foreign Wars in VFW Hall.

The Skellytown Scouts will turn their presents over to firemen at Central Station at 5 p.m. tomorrow. Scoutmaster Banks said.

Charles Herring of Austin, summing up the feelings of many lawmakers.

The state constitution provides that if lawmakers fail to redistrict, the board shall take action not later than 90 days after adjournment of the regular session. The board then has 60 days to solve the problem.

If nothing is done about redistricting for the additional seat Texas will have in the U.S. House of Representatives, the state will be represented by a congressman-at-large.

Redistricting is expected to touch off the old "country boy" fight in the legislature.

The "country boy" stand is expressed by Rep. Sam Parsons of Henderson.

"Too many city legislators would be no good for the rural areas," he said.

The huge population shift from rural to urban areas as reflected in the 1960 census indicates rural domination of the legislature, may be threatened—if the cities get the with my district," said Sen. representation they are entitled.

Redistricting, Money May Plunge Legislature Into Long Session

By the census count, Harris County can claim 13 seats in the House and Dallas nine. They have seven now. Because of a 1936 constitutional change, Tarrant and Bexar County representation will remain the same.

That change provided that no county may have more than seven representatives unless it exceeds 700,000 population, in which event the county may have one additional representative for each 100,000 population in excess of 700,000.

The big question may be the new congressional seat, Dallas, the third largest congressional district in the nation, is entitled to the seat by population.

But, the large North Texas county has the only Republican congressman from Texas, and Democratic lawmakers may be unwilling to give the seat to Dallas for fear that another Republican may be elected to congress.

There has also been talk of making a congressional district of El Paso County where the population has soared in the past 10 years.

'Hard Sell' Needed

United States Finds It Rough To Sell Europeans On Tour Trips

VISIT U.S. IN PARIS: But what comes between New York and San Francisco?

PARIS — (NEA) — What's it like to travel in America? Europeans soon may be ready to tell us if they get more shots in the continental arm as the one given by the first "Visit U.S.A." bureau in Europe. It opened in Paris this year.

Until 1960, tourist travel between the two continents has been regarded as a one-way proposition from New York and Topeka to Paris and Rome.

But concern over the oneway flow of tourist dollars out of the U.S. prompted Washington to launch a "Visit the U.S.A. in 1960" campaign. Trans World Airlines opened the Paris bureau as part of the program.

So are Europeans as eager to see Washington at cherry blossom time as Americans are to see Paris when the chestnuts are in bloom? "No," the TWA office admits. There are still kinks to be ironed out. Visa difficulties and lack of a national tourist bureau here make it harder for the U.S. to interest tourists than it is for the Soviet Union, for example.

But the spokesman is quick to point out:

"A round trip to the U.S. by jet, including a 15-day visit from New York to Washington, Cleveland, and back costs less than a similar trip to Russia."

"Since Oct. 1, the fare for a 17-day excursion costs only \$389.60 for one person traveling economy class."

Europeans have first had to learn that the yearly tidal wave of American tourists is not made up primarily of "deluxe" travelers. They are finding out that the way between the continents is open to the middle class.

French and Belgian businessmen going to the U.S. for conventions or studies are the most frequent inquirers at the bureau. They learn that they can afford to take their wives along. Professors and students also have shown interest.

What the TWA office is trying to do, primarily, is overcome many of the misconceptions of America

held by European inquirers, who have averaged about 30 a day in person and a like number by mail. "Although Europeans know that New York is on the East Coast and San Francisco is on the West they have the haziest idea of what lies between," says Marie Tatchiff, a bureau receptionist.

The cost of living concerns them most. "Hotels frighten, motels intrigue, camping grounds attract young people," she says.

"Europeans apparently think they can buy a car cheaply in the U.S., drive across country and sell it for the purchasing price," Marie adds. They are extremely vague about prices.

When they are ready to go, they generally ask about New York, California, Niagara Fall, Las Vegas, the Grand Canyon, Yellowstone Park, Miami, New Orleans, Chicago, Philadelphia and Salt Lake City.

When they come back, they usually have been most impressed by American food — hamburgers, ice cream sodas, pink milk shakes — and the mink stoles worn by window shoppers on Fifth Avenue in New York.

Marie suggests that Americans, perhaps, also have little knowledge of their own country.

"During tourist season, hardly an American comes in the office without asking for a pamphlet on his home state."

Pantex Plant Gets Safety Citation
AMARILLO (SpI) — Pantex Ordnance plant has received the U.S. Army Ordnance Corps highest award for safety.

The award of honor was presented to Pantex by Maj. Gen. William K. Ghormley, commanding general of the U.S. Army Ordnance Special Weapons Ammunition Command, Dover, N.J.

Pantex is one of 28 installations under Maj. Gen. Ghormley's command.

Kennedy's Lead Shrinks Again

WASHINGTON (UPI) — With complete election returns in from all 50 states and all but three states proclaiming their votes as official, Sen. John F. Kennedy yesterday held a slim 113,928 margin over Vice President Richard M. Nixon.

The three states with complete but still unofficial counts were Illinois, Massachusetts and Rhode Island.

The unofficial tabulation by United Press International was: Kennedy — 34,223, 937 (49.72 per cent).

Nixon — 34,110,009 (49.55 per cent). Total — 68,333,790.

Kennedy has 50,084 per cent of the two-party vote for President and Nixon had 49,916 per cent — a difference of 0.168 per cent.

Demos Firmly Clasp Texas Electoral Votes

AUSTIN (UPI) — President-elect John F. Kennedy and Texas Democrats have clamped a firm, official grip on the state's 24 electoral votes while Republicans seethed in anger and sounded war trumpets for a reform of the election code.

In swift action Monday, Federal Judge Ben C. Connally threw out of court in Houston a Republican request for a permanent injunction to keep the State Board of Canvassers from making final certification of the electoral votes. Minutes after his ruling, the board made the certification.

GOP leaders, bitterly angry because the board acted without notifying them or giving them a chance to present their case in a full-dress hearing, denounced the action as "synicism and ruthlessness of one-party rule."

Zollie Steakley, secretary of state who sits on the board with Gov. Price Daniel and Atty. Gen. Will Wilson, pointed out that the board was on deadline to certify the electors.

The electoral college meets to cast its ballots on Dec. 18, and certification under federal law must be made six days prior to that, Steakley pointed out.

Hardy Hollers, attorney for the Republicans, said there would be no time to appeal Judge Connally's decision, and there was no provision to appeal the action by the board of canvassers.

Thad Hutcherson of Houston, national GOP committeeman, criticized the board for breaking a promise to the Republicans.

"The action by the Board of Canvassers was taken within minutes of Judge Connally's ruling

Millions Battle Snow, Cold In East

NEW YORK (UPI) — Millions struggled to work today along the blizzard-swept east coast in arctic temperatures and through snow-clogged streets in a third day battle with the elements.

Emergency conditions prevailed in many areas as strong winds and overnight temperatures below 15 degrees stubbornly resisted efforts to break the grip of a 10-20 inch fall of snow which swirled up the Eastern Seaboard Sunday and Monday.

The National Guard was called out in New York City to help get abandoned cars off the streets so snowplows could open the clogged roadways. Jersey City, N.J., declared a state of emergency in an attempt to open lanes for fire trucks, ambulances and food deliveries.

Milk and fresh foodstuffs were in short supply in many communities which have been snow-bound since Monday. Fire remained a major threat. Some homes were without heat because fuel trucks could not get through.

There have been 268 deaths attributed to the storm which boomed up from Texas over the weekend to paralyze the East Coast. Forty of the deaths occurred in New York City, hard hit by the surprisingly severe pre-winter storm.

"Super" Waiting For Santa

(Photo Courtesy Canadian National Railways)

THE TREE IS TRIMMED; "Super" has snow underfoot and even a sprinkling of it on his back. Now all he needs are his presents and these will be forthcoming at the proper time from his boss and pal, Jack Wilkinson, outfitter and fishing guide in Algonquin Park, in northern Ontario. "Super" has lived around Wilkinson's Kish Kaduk lodge since he was a tiny fawn and each Christmas Jack decorates a tree for his pet deer and several other little wild animals, including a shy fox and an aggressive raccoon, with whom Wilkinson has made friends.

Poston Service Probe Set Friday

Interment rites for Gerald Alexander Poston, 1018 W. Brown, will be held at 10 a.m. Friday in St. Matthews Episcopal Church with the Rev. William E. West officiating.

Mr. Poston, born Nov. 6, 1903 in New York, died in his home at 6:45 this morning.

He came to Pampa in 1926 from Buffalo, N.Y. and was owner of the Poston Pipe and Metal Co. He was a member of the B.P.O.E. and St. Matthews Episcopal Church.

Survivors are his wife, Hazel and one son, David Byron, both of Pampa.

Poston Service • Probe

one-half to three million dollars a year in the Beaumont-Port Arthur sector.

"I think it is astounding," James said, "that there has been no official denial by the district attorney or sheriff that they have allowed gambling, bookmaking, and vice to exist contrary to law. Their only protest has been to the existence of dope traffic that they knew from their own actions to exist."

It is elemental, he said; that where prostitution is permitted, the dope traffic will be a problem.

Highway Letters Sent To 8 States

U.S. Highway 60 Association's newsletter was placed in the mails today by E. O. Wedgworth, Pampa Chamber of Commerce manager, who is national secretary-treasurer of the group.

Wedgworth said 2,500 copies of the newsletter were mailed to members in eight states.

One of the reminders in the letters calls attention to the fact Pampa will be host city for Highway 60's annual convention next April 6, 7 and 8.

Pampan Will Go To State Meeting

Mrs. Libby Shotwell, executive secretary of the Pampa Red Cross Chapter, will attend the annual conference of Texas Red Cross Executive Secretaries in Austin, Jan. 11, 12 and 13.

Action to send Mrs. Shotwell to the statewide meeting was taken at a meeting of the Red Cross Board in the Coronado Inn.

It was announced that Mrs. Shotwell also will act as recorder for the conference.

Christmas Scenes To Be Lighted In Park Tomorrow

Pampa's annual traditional Christmas scenes of the Nativity will be lighted for the first time tomorrow night in Central Park.

Chamber of Commerce officials said today the paintings, work of Pampa artists, will be unveiled and lighted at 7 p.m. After tomorrow the display will be lighted nightly from 5:30 p.m. to 11 p.m. nightly through Jan. 1.

Attack

(Continued From Page 1)

troops were helping the pro-Western forces with artillery fire. This appeared to create a possible excuse for Viet Minh forces to pour in to help Kong Le—an action almost certain to bring counter-attack from SEATO.

Pakistan President Mohammed Ayub Khan said in Tokyo that his government would send troops to Laos if SEATO decided on military intervention.

Stores To Remain Open Beginning Friday Night

Starting Friday night Pampa retail stores will remain open nightly until 8 p.m. for the convenience of Christmas shoppers.

Frank Smith, chairman of the Merchants' Committee of the Chamber of Commerce, said the stores will be open nightly through Dec. 23 but will close at the regular time, 5:30 p.m., on Dec. 24, Christmas Eve.

H. E. Edge Rites Planned Thursday

Funeral services for Herbert Glenn Edge, 50, will be held at 2 p.m. Thursday in the Allanreed Baptist Church.

Interment will be in Allanreed Cemetery with nephews of the deceased as pallbearers.

Mr. Edge was pronounced dead on arrival at 4:20 p.m. Monday in a local hospital.

Born May 1, 1910 in Kaufman, Mr. Edge was a veteran of World War II and resided at 1508 Alcock.

Peter Pan's Christmas Story

By Walt Disney

Santa Visits Lefors Friday

LEFORS (Sp) — Santa Claus will pay his annual pre-Christmas visit here Friday when the Santa Claus Parade gets under way at 2 p.m.

The parade will follow the class parties in the schools, during which time turkey and all the trimmings will be served.

The Pirate Band, led by J. Weldon Moore, will head the parade followed by Santa aboard a fire truck.

Following the parade a guinea and rabbit catching contest will be held on the city square. This event will be directed by J. W. Walls, Ben Keihl, Floyd Chitwood and Walter Elliott. Cash prizes will be awarded.

Santa's aides in passing out candy to youngsters will be members of the fire department and the Art and Civic Club.

HOLLYWOOD (UPI) — There was a problem during the filming of "The Wackiest Ship in the Army" at Pearl Harbor, Hawaii, of distinguishing the actors from the sailors.

The solution: The inside flaps of all the shorts worn by the movie gobs were stenciled. "ACTOR."

Santa Fe Notes Carloading Sag

Santa Fe carloadings for week ending Dec. 10 were 22,451 compared with 24,593 for the same week a year ago.

Cars received from connections totaled 10,472 compared with 11,433 for the same week a year ago.

Total cars moved were 32,923 compared with 36,226 for the same week a year ago.

Letters To Santa Claus

Dear Santa: My name is Robbie McDowell. I have a baby brother named Ricky. Santa I live at Pampa Texas but I am in Flagstaff, Arizona visiting my grandma. I will probably be home for xmas so don't forget me and brother. I want a jump rope, new dress and sweater. Ricky wants a ball and fire truck. I am five and Ricky 11 months. We have been good. Love Robbie and Ricky McDowell.

Dear Santa Clause: My sister wants some dishes and a baby doll. My sister's name is Gina Beth and she is one year old. My name is Patricia Ann Crawford. I want a pretty doll and a puppet. I will be at Pampa, Texas. Love, Pat

Dear Santa Claus: I want a toy army training rifle, a pair of boots and a white shaggy dog. Love, Larry Luster 749 W. Wilks

Dear Santa Claus: Please bring me a farm set and a McCain rifle. Love Randy Taylor

Dear Santa: My name is Mike. I am five years old and I want a pair of guns, a rifle, a horse and some new shirts and a flashlight. And by the way Santa Please don't forget all the other little boys and girls on Christmas.

By the door there will be some milk and a roll waiting for you, I do hope you like milk and rolls.

Please write back to me and say a few words even if you don't write a very long letter. Well I better say good-by until Christmas. Your little friend,

Dear Santa: I am five years old and my baby sister is 2. We have been good girls all year. We would like two dolls just alike, tiny tears if you have them also a drum or piano, ironing board and iron and some clothes for our dolls. Remember all the other boys and girls. We will leave you some cake to eat.

Donna and Debra Smart 1500 Hamilton

Dear Santa: I want a Brownie Scout doll and a cash register. A little piano and a game. My big sister wrote this for me because I am too little. I have been a good girl.

Nancy Palmer 2232 N. Sumner

Dear Santa: My mother is writing for me. I am almost 3 years old and my name is Tim. I want a truck with cars on top any toys inside. And please bring my baby brother, Ronnie, a drum. He likes things that make noise! (Mother's note: "aspirin for me, Santa!"). Love,

Timmy Palmer 2232 N. Sumner

Dear Santa: I am a little girl 5 years old. I am good most of the time Mommy said. I would like to have a doll in a car bed, a piano, and a set of dishes. Thank you.

Pamela Welch 595 Doucette

Dear Santa: I would like for you to bring me a rocking horse, wagon, ice box, stove and a sink. I hope you'll be nice to all the other little girls and boys. Also don't forget to bring my little brother, Andy, some toys. I love you.

Kathy Joe 317 Canadian

Dear Santa: My name is Diane Gray. I am seven years old and in the second grade. I have been a good girl all year.

Please bring me a bathnet and a baby bed and a baby doll and a fur cape.

And some nuts and candy and hair braites for my stocking. And a stove and doll trunk.

Love Diane

Dear Santa Claus: I am 5 years old and my name is Edwin Andrews. I live in Puerto Rico, but I am going to be at 1806 Coffee St., Pampa, when you come around Christmas Eve night.

Please don't forget my daddy and my little friends in Puerto Rico and here.

Will you bring me a football suit and things for my bike?

Please don't forget my mother, my big sister Nancy and my cousin Darrula who lives in Groom, Tex.

We love you. We will leave some goodies on the kitchen table for you Christmas Eve night.

Love Edwin Andrews

Dear Santa: I am a little girl five years old and I would like a baby doll and piano. My two little brothers would like football helmets, guns and trucks. And our baby sister wants house shoes and a musical bear.

PS: Please don't forget our little cousin Vicky Kay. She wants Boots and a doll.

Thank you Shelby, Dale, Ronnie and Ken Haynes

Dear Santa Claus: I would like to have a doll and a bicyclist. My sister wants a doll and a rocker chair. My brother wants a bicycle and some skates.

Your friend Linda Romine

Dear Santa: We love you very much. Would you please bring my little sister a baby doll and please bring me a Transy Juice Bar. Please don't forget our big brother Gary and all the other boys and girls.

Love Stephen and Va'erie Butler 1101 S. Sumner

Dear Santa: I am seven years old and in the second grade at school. I would like a Rebel gun set and Winchester Rifle. I have been pretty good this year.

Love Kerry Barefoot

S.S. Be ootogP herybo dtho nda P.S. Be good to the other boys and girls.

The Pampa Daily News

YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from the government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

This newspaper is dedicated to promoting and preserving YOUR freedom as well as our own. For only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

SUBSCRIPTION RATES

By Carrier in Pampa, 25¢ per week. Paid in advance (at office) \$4.50 per 3 months, \$9.10 per 6 months, \$18.20 per year. By mail \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone. \$1.25 per month. Price for single copy 5¢ daily. The Sunday No mail orders accepted in localities served by carrier. Published daily except Saturday by the Pampa Daily News, Attention at Sonerville, Pampa, Texas. Phone 340 4-2325. Entered as second class matter under the act of March 3, 1879.

South (Cuyler) Rises Again

We have commented, in the not distant past, about the extent to which the downtown area of Pampa has been up-dated with new buildings and new store fronts. The transformation that has taken place in the last three years has been notable and there remains today only a handful of store fronts that appear "dated."

A segment of our business district which has seen quite a revival, in the last few years, but which hasn't been as obvious as the downtown section, is that portion of Cuyler Street south of the Santa Fe underpass.

Just open in a new structure in the three hundred block is Lewis Hardware, while immediately north of Lewis is the Parker Motor Co. which moved into its new quarters just a few months ago. A few hundred feet south, in a new building, is situated B & B Pharmacy's second location in Pampa.

Going on south, there are such modern additions to our city as the IGA grocery store, Builder's Plumbing, Four "R" Supply and Schlumberger. The whole office and sales area of Boyd Lumber Co. is undergoing rebuilding at the present time, and when all these units are added to such substantial and attractive structures as those that house the Sidwell Companies, Beacon Supply Co. and Mitchell Grocery, it isn't difficult to perceive that this part of our city is growing in substance and appearance with each passing year.

A few years ago, we dare say that a Washington bureaucrat would have looked upon South Cuyler as an area in "need" of a grandiose urban renewal project.

Self-interest, the necessity to better serve customers and pride of appearance, the motivations that realistically measure "need," have shown that the resources of individual men, cooperating to bring about a mutually desired end, are all that are necessary to make for progress.

South Cuyler Street proves this point well.

Solid Ground

Some seem to feel that illusions are valuable if only, because so many people cling to them. But the facts of life are always better than the illusions. The person who replaces a superstition with a fact is the benefactor of mankind.

Depression Ahead?

There are those who argue that any written statement "right now" which might indicate the opening of a period of recession or depression, might actually sire such a condition.

This is like suggesting that a person in a crowded theater who called "fire," would be a villainous creature and the author of a any difficulty that might ensue.

We would like to suggest that if the theater is on fire, then a calmly stated paragraph or two to that effect is the ONLY COURSE OF ACTION open to a rational man who discovers the conflagration.

And, similarly, when indications abound that a financial crisis is looming over the land, it is not the statement that such is the fact that creates the catastrophe, it is the fact, if such it is, that is the catastrophe.

It is now a well publicized fact that American gold reserves are lower than they should be. It is known in virtually ever interested circle that at the moment, foreign demands placed against our reserves, could not only wipe them out to the last pale-yellow mill, but could leave us in the position of defaulting to a creditor. Here actually isn't enough gold on hand to meet all of the obligations.

But tempering this fact is another. A number of foreign credits are held by American firms, in process of setting up branch offices or factories abroad. It is doubtful if foreign managers of American operations will knowingly trigger an action which would injure them in this country.

True, this is a shaky place to stand. But at the moment that is where the gold in our economy does stand. Saving for American investors abroad who are restraining their impulses to cash out in gold, we might become a defaulting nation overnight.

But even the gold picture, precarious as it is, doesn't give us the full story.

Back in 1959, a government economist came forward to announce that the American economy was now "depression proof." We commented on this assertion at the time; grimly observing that it is not possible for mortal man to so regulate all of the ebb and flow of the market place with infallibility, as to make such regulation "depression proof."

Here is other evidence that the bottom of the bucket has been reached.

First, business failures have now climbed to a point paralleled only by the business situation which confronted the nation in 1931.

At that time, and following the 1929 stock market collapse, business failures had risen so dramatically that hundreds of millions in unpaid obligations of debtors helped to create a climate where risk capital was hard to find.

A chart published by the American Institute for Economic Re-

Everybody's Money

By MERYLE STANLEY RUKYSER

In analyzing the complex trends ahead, it is tempting to go off half-cocked and to jump to the conclusion that Sen. Kennedy's election foreshadows a resumption of inflation.

It should be borne in mind that the national economy showed signs of dragging before the outcome of the election was discernible.

A basic cause of the sagging is the fact that industry is no longer getting stimulus from the effect of pent-up demand for goods accumulated during the depression of the Nineteen Thirties and the war and immediate post-war period. Today the national economy is nearer a current replacement basis, and the hope for economic growth and reasonably full employment depends on the national capacity for innovation. The degree of coming prosperity is in the hands of the inventors, the creative designers and process engineers, and on the spirit of enterprise.

This calls for a social, economic, and political climate conducive to venturesomeness. The history of the Republic shows that the traditional American system of rewards and incentives must be relied upon to provide the energy for progress in material well-being.

Such a climate in which growth will flourish cannot be arbitrarily achieved by passing laws which add to the social overhead, by punitive taxation which dampens down incentives, or by fears generated by class warfare and irrational press group procedures.

As soon as he takes over the responsibility of governing, President-elect Kennedy will recognize that he is in competition with events, not with hostile ideological debaters.

The constructive approach lies in more, not less, reliance on traditional constitutional government and private initiative. Confidence must be sought so that those who succeed in pleasing customers will be able to reap and retain appropriate rewards.

Any thought that there is a constructive alternative to all this in the form of manipulating money and dividing up existing wealth is a snare and delusion. The Kennedy-Johnson Administration will have a choice between soft-pedaling some of the extreme provisions of the Los Angeles platform, on the one hand, and national frustration, on the other.

Since national defense and national survival hinge on American productivity, which in turn calls for a healthy national economy, the course of patriotism and common sense is clear.

Accordingly, some of the most discerning and mature long-term institutional investors are not glubly assuming that the monetary printing press will be turned loose.

Perhaps Mr. Kennedy can reconcile the national interest with campaign promises by recalling his pledge of fiscal integrity. The President-elect was reluctant to commit himself to higher tax rates, particularly since the nation may be approaching the law of diminishing returns. Mr. Kennedy purported to rely on the increased yield from current tax rates which would flow from accelerated national growth.

Since national economic growth depends on a climate of business and investment confidence, the new President may be cautious in upsetting faith in America's economic future. To do so may entail eating some loose political words, but the veto power in the Congress of Southern Democrats and Northern and Western Republicans may create the practical implementation of a middle of the road approach.

Certainly, in our profit-and-loss system, growth hinges on individual initiative and individual and family responsibility.

The sagging of the national economy and the growing threat of foreign competition from nations with lower wage standards are likely to put a ceiling on the emotional urge to accelerate the drift toward a "welfare state."

There will be an opportunity for the rule of reason if a diagnosis is made forehandedly. It would be dangerous to drift into serious maladjustments, when emotionalism might again become rife, in a crisis setting, with demands for "social gains" through massive governmental spending. (Mr. Rukysers will be pleased to receive inquiries from readers concerning their financial problems. Letters with stamped, self-addressed envelopes should be sent in care of this newspaper. Questions of general interest will be answered in the column.)

Livestock Diseases

It has been estimated that there are 75 commonly known infectious diseases of livestock. These cause an annual loss of about 817 million dollars to American farmers.

Strange Things Come Out

ROBERT S. ALLEN

Allen - Scott Reports:

Use of Millions in Foreign Currency To Curb Drain Of U.S. Gold Discussed by Kennedy, Eisenhower

PAUL SCOTT

WASHINGTON — Foremost among the urgent problems discussed by President Eisenhower and President-elect Kennedy was the disturbing drain of gold from the U.S. and the possible utilization of huge holdings of foreign currencies to curb that.

They had before them a Budget Bureau study disclosing that the U.S. now has to its credit more than \$1.3 billion in such currencies in some 50 countries.

Also that by 1962, this total is expected to soar to more than \$2 billion.

Upwards of \$325 million of these funds is in European currencies, with the largest of these U.S. holdings being \$104 million in Yugoslavia, \$81 million in Spain, \$52 million in Austria, \$32 million in Italy, and \$23 million in West Germany.

Greatest amount is more than \$700 million in Southeast Asia and the Near East, with \$428 million in India and \$138 million in Greek currencies topping this list.

Other major U.S. holdings of foreign currencies are — \$51 million in South Korea, \$47 million in Brazil, \$39 million in Turkey, \$39 million in South Vietnam, \$35 million in the United Arab Republic, \$34 million in Pakistan, \$33 million in Indonesia.

And that's not all! This highly significant Budget Bureau report, that the President and Kennedy deliberated, also revealed the U.S. has outstanding \$1.8 billion in foreign loans payable in foreign currencies. Annual interest on these loans is \$57 million in foreign funds.

By 1962, the Budget Bureau estimates, such foreign loans will rise to \$2.7 billion, and interest payments to \$100 million yearly — in foreign currencies.

These loans extend over periods up to 40 years.

These huge U.S. holdings of foreign currencies are the result of sales of surplus farm commodities, particularly grain and cotton, and so-called "counterpart funds" arising from military and economic aid.

Approximately \$1.2 billion of these foreign currencies is used annually for various overseas operations, such as building new embassies, financing congressional and other official tours, paying the cost of military advisory groups (MAG) and other expenses.

INCREASED SPENDING — But these activities still do not begin to absorb the steady large accumulation of these foreign currency holdings.

Under consideration are various plans to expedite that, particularly to halt the increasingly serious outflow of U.S. gold. Treasury Secretary Anderson outlined several measures for this purpose at the Eisenhower-Kennedy meeting.

Through these plans an additional \$800 million of these foreign currencies would be utilized expressly to offset the drain of dollars abroad.

President-elect Kennedy and his foreign and economic advisers are giving priority attention to this grave fiscal problem. He has discussed it with a number of callers, and it was one of the unannounced reasons for his trip to New York.

Kennedy and his staff also are with the House Foreign Affairs Committee headed by Representative Thomas Morgan (D. Pa.). This group is planning to summon Secretary of State Herter, Treasury Secretary Anderson and other high officials for questioning on the huge foreign currency holdings and why greater use has not

been made of them to offset the loss of gold.

Members of the committee already have drafted a tentative resolution stating that "Congress recognizes that foreign currencies available for the U.S. are a real fiscal asset to this country, and should be expended to help reduce the dollar drain on the U.S. It is proposed to offer this resolution when the new Congress convenes on Jan. 3.

The Senate Foreign Relations Committee is looking into reports that the State Department is being sounded out on a visit by Dr. Hjalmar Schacht, Hitler's finance minister, to discuss the gold problem.

This is being proposed, according to inside word to the Committee, by Hilger von Scherpenberg, career official of the West German Foreign office and Schacht's son-in-law. Von Scherpenberg is reputedly urging Schacht's trip on the ground he is an expert in solving trade balance difficulties.

The former Nazi finance minister now heads a bank in Dusseldorf, SOCIAL WHIRL — Senator Theodore Green, 83-year-old Rhode Islander who is voluntarily retiring this year, was the most popular guest at the Thailand Ambassador's big birthday party for the young King Bhumibol who visited Washington earlier this year. Fit and beaming, Green had a gay time, but as always was very abstemious in eating and drinking. He was repeatedly asked whether he would continue to live in Washington, to which he replied, "No, I'm not. I expect to visit frequently but my home is in Rhode Island and that's where I'm going to live."

Largest reception in the capital in months was Army Secretary Brucker's farewell party.

So many generals and admirals were present that those without three of four stars didn't rate much. The high brass of all the military services were out in full force, and it took at least an hour waiting in line to reach the buffet tables and bars... The menu of the annual Sunday branch given by Neal Mack manager of the famed Mayflower Hotel, was a gourmet's delight, as follows: Huge, ripe strawberries, fresh pineapple, creamed Finnan Haddie, corned beef hash, grilled Scotchfield ham, spicy sausages, scrambled eggs, tiny omelets, chicken a la king, a dozen rich and luscious varieties of tiny sweet rolls, miniature pastries and doughnuts, plain, sugared and frosted, plain, sugared and frosted.

The increased export potential of the Soviet Union combined with a huge surplus in oil tanker capacity has resulted in growing shipments to free-world areas. Russian oil is now finding its way to Cuba, Brazil, Uruguay, Japan and India. Competing with overpriced oil exports from free-world areas, the Soviet Union has been provided with an excellent opportunity for exploiting political gain at little, if any, economic sacrifice. (It is, to say the least, somewhat paradoxical to find Soviet Russia acting the part of the classical entrepreneur by undercutting competitors' prices while the free world producers seek some form of "collectivist" approach to try to maintain prices well above competitive levels.)

At the present time Russian exports to the free world area account for less than 5 per cent of total exports of other producing nations. Increasing productive capacity and development of huge new resources harbor a serious threat to the future security of many free-world nations. This becomes increasingly important in view of the avowal to wage warfare on the economic front proclaimed by the current Soviet leader back in 1957.

The Nation's Press

OIL AND TROUBLED WATERS (U.S. Chamber Economic Intelligence)

Recent developments in world oil markets have provided the Soviet Union with a golden opportunity to extend its economic offensive in the free world.

As seen by numerous experts, world oil prices have long been out of line with overall costs of production, transportation, and distribution. Standard practice in the industry for some time has been to relate final prices to the level of U.S. export prices in the Gulf of Mexico area. American costs of production are much higher than those existing in Saudi Arabia, Iraq, Iran, Kuwait, Venezuela, countries producing almost 85 per cent of the oil entering world trade.

Recent discoveries and development of new sources in the Sahara and in the Soviet Union have given rise to fears that as the supply to free-world markets increases beyond the normal 5 to 7 per cent expected annual increase in demand, a serious glut will develop. Reported Soviet oil discoveries in the region between the Volga River and the Ural Mountains equal to the proven reserves of the Middle East, which account for almost two-thirds of the world's known oil resources, provides strong justification for increased concern.

Governments in the Middle East and Venezuela have been opposed to any cut in posted prices for local crudes which would adversely affect their, very often, only source of revenue. Firms located in these producing countries have had to adopt profit-sharing arrangements with the host country based on posted prices for oil extracted. This reluctance on the part of the government has made it increasingly difficult for these firms to adjust prices as demand and supply conditions warranted. The Second Annual Arab Petroleum Congress banion will probably reflect the meeting this month in Beirut. Le-growing resentment over the up to 6 per cent cut in prices of Middle East crudes by the producing companies last summer. It is anticipated that both the Arab-producing nations and Venezuela will seek to adopt production quotas and export restrictions as a means of maintaining high prices and revenues.

Serious problems foreshadow any attempt to maintain current prices in world markets by artificial curbs on production. Productive capacity in the entire industry is estimated to be 25 per cent above current world demand. This may well result in a strong temptation by members of the agreement to "cheat" whenever it seems to be to their particular advantage. Also private firms are likely to increase their production from areas which are outside the agreement and unaffected by production controls and allocation of market shares. The net result of these and other factors, such as the likelihood of increased Soviet exports, will most likely be to increase the industry's excess capacity even further. As in any attempt at effective international commodity control, the agreement must cover all major sources of supply and be able to exercise effective control over market supply. (It seems that these nations could learn from a review of the extent and degree of control necessary by that exercised by the Texas Railroad Commission.)

The increased export potential of the Soviet Union combined with a huge surplus in oil tanker capacity has resulted in growing shipments to free-world areas. Russian oil is now finding its way to Cuba, Brazil, Uruguay, Japan and India. Competing with overpriced oil exports from free-world areas, the Soviet Union has been provided with an excellent opportunity for exploiting political gain at little, if any, economic sacrifice. (It is, to say the least, somewhat paradoxical to find Soviet Russia acting the part of the classical entrepreneur by undercutting competitors' prices while the free world producers seek some form of "collectivist" approach to try to maintain prices well above competitive levels.)

At the present time Russian exports to the free world area account for less than 5 per cent of total exports of other producing nations. Increasing productive capacity and development of huge new resources harbor a serious threat to the future security of many free-world nations. This becomes increasingly important in view of the avowal to wage warfare on the economic front proclaimed by the current Soviet leader back in 1957.

Worms Won't Hurt Italian Cigarettes

By HENRY McELMORE

On the very same day I ran out of the American cigarettes, I brought with me, there was a story in the Italian newspapers about Italian cigarettes.

Many smokers, the newspapers reported, has complained about the finding of worms, or parts of worms, in their government-manufactured smokes — Nazional.

Now that I am smoking Italian cigarettes — I refuse to pay anywhere from 75 cents to \$1 for a package of American ones — I wish the Italians had kept their mouths shut about the worms.

Not that I mind the worms. Just the opposite. Indeed, my fear is that the Italian government will send forth a horde of inspectors to see that no worms make their way into the Nazionalis.

To my mind, a worm helps the flavor of the Italian cigarette. Certainly it doesn't hurt it, that being impossible. I have no dreaming idea of what types of tobacco is used in Italian cigarettes, or where it is grown, or how it is cured, but it is a mysterious bush. That I am sure of.

There is nothing standard about it. One package will have a taste that one can be certain is the way begonia leaves would taste if dried, crushed, and rolled in paper.

Another will have the zesty tang of pulverized flannel, and still another will have the bit of an enraged Pekingese. Now and then one will run across a package which has the flavor and bouquet of chop suey joint tea.

All of them, no matter the flavor, have a tendency to curl the tongue at the edges after the manner of a badly laid rug.

The only sensible approach to Italian cigarettes — or French ones, for that matter — is the same one that should be used for English coffee.

There must be no comparison with American cigarettes or coffee. The smoke and the drink must be looked upon as something new and different, an experiment. To expect the same satisfaction, the same enjoyment, is fatal.

The bouquet of Italian cigarettes is a bit different from that of American cigarettes, too.

To me, the odor of a burning Italian cigarette often fills me with nostalgia for my childhood, when the raking and burning of leaves was one of my chores. This is especially true now that it is winter, and the air is crisp.

Now and then, to give my tongue a rest, I try an Italian cigar. An Italian cigar is the true and original Roman candle. It should

The Almanac

By United Press International

Today is Wednesday, Dec. 14 the 349th day of the year with 17 more in 1960.

The moon is approaching its new phase.

The morning star is Mars.

The evening stars are Mars, Jupiter, Saturn and Venus.

On this day in history:

In 1799, George Washington, the first President of the United States, died at Mount Vernon.

In 1815, Alabama entered the Union as the 22nd state.

In 1861, Prince Albert, husband of Queen Victoria, died.

In 1895, Albert Frederick Arthur George, later King George VI of Great Britain, was born.

Business Chiefs Reaffirm Faith In Our System

WASHINGTON, D.C. (Sp) — President Eisenhower has presented The Cotesville Declaration, a 1960 manifest signed by leaders of U.S. business and industry reaffirming faith and conviction in the American enterprise system.

In special White House ceremonies attended by representative signers and drafters of the declaration, as well as by members of government, the document was given the President in the form of an ebony-mounted stainless steel plaque "for all men, who would be free, to see and know."

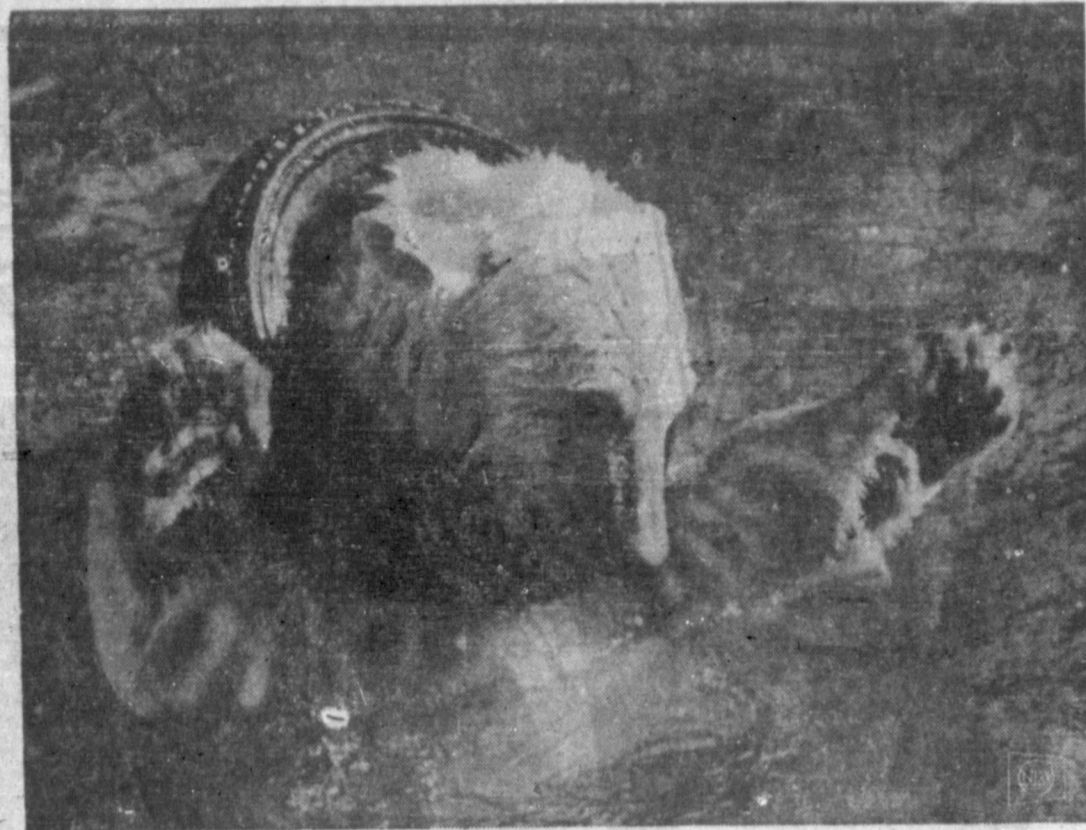

On the plaque was inscribed the document itself — 465 words embodying the principles underlying the U.S. economic system and the 10 basic freedoms that guarantee opportunity for all Americans — as well as the names of its signatories, approximately 100 of the nation's top executives.

Presentation was made by Charles Lukens Huston, Jr., president of Lukens Steel Co., conference host for the committee of business leaders, economists and editors which drafted the declaration. The document takes its name from Cotesville, Pa., home of Lukens Steel, which is marking its 150th anniversary this year.

The declaration was originally made public last October in a presentation to James J. Wadsworth, Permanent U.S. Representative to the United Nations, who in turn presented it to U.N. Secretary Dag Hammarskjöld and incorporated it into the U.S. message to the Economic Committee of 99.

On that occasion — on the heels of the departure of Nikita Khrushchev and other Iron Curtain leaders; from the U.S.—the declaration was hailed as the American businessman's answer to Communist attack on our way of life.

"Buffalo Bill" Cody fought his famous "duel to the death" with a Cheyenne warrior named Yellow Hand or Yellow Hair.

SAM TAKES NO CHANCES—Sam, a Russian polar bear at the zoo in London, England, frolics in his pool. The "life preserver" is a scooter tire that fits his neck comfortably.

Financial Review

NEW YORK (UPI)—The business world is crying for more and better trained college graduates every day.

The nation's colleges and universities are doing their utmost to fill this demand but they are way overcrowded and understaffed. They will not be able to fill their vital role in our society unless business and industry substantially increase their support to education.

Higher education now spends more than \$5.6 billion a year for educational and general purposes and for plant expansion, and this figure is projected to soar to \$9 billion by 1969-70.

Enrollment in the nation's 2,000 colleges and universities then will be around 6,376,000, up from the 3,700,000 in 1959-60.

Philanthropy — Gifts, grants, income from endowments — probably will supply about 26 per cent of \$2.4 billion of the \$9 billion needed.

The Council For Financial Aid to Education, Inc. said business and industry could logically be expected to contribute "voluntarily," as their appropriate share of the nearly \$2.4 billion about \$500 million. This is roughly the same as is expected from each of two other sources — alumni and non-

Corporation contributions to higher education, now approximately \$150 million a year, will have to be increased at the rate of 12.7 per cent annually to pass the \$500 million level by the end of this decade.

But, if big business is to assume this "fair share," many more companies will have to develop educational aid programs, and companies already contributing will have to consider raising their sights.

Higher education has been receiving an increasingly larger share of the total corporation gift dollar in recent years, but not at the expense of other causes which also have been getting a larger volume of support.

In 1954-55, corporation gifts represented 13.6 per cent of the voluntary support which U. S. colleges and universities received from all sources. And by 1958-59 the corporate share had risen to 15.7 per cent.

The presidents and trustees of the schools consider the unrestricted gift the most useful. And business and industry have responded by increasing the proportion of their unrestricted gifts from 19.5 per cent of their total contributions in 1954-55 to 22.5 per cent in 1958-59.

Santa's Lucky He's Not Using State Highways

The Texas Highway Patrol thinks it's a good idea Santa Claus has an air-borne sleigh and doesn't have to fight highway traffic on his Christmas Eve rounds.

Highway Patrol Sgt. E. C. Albers of Pampa reports that so far this year automobile accidents have killed two persons and 126 have been injured in Gray County.

Santa might not get to your house if he had to use Gray county highways.

In November the Highway Patrol investigated 11 accidents in the county. There were no traffic deaths, but four persons were injured. Property damage totaled \$3,430.

Sgt. Albers said 97 persons were killed in Texas auto mishaps during the Christmas-New Year holiday period last year. "Sixty-eight per cent of these deaths occurred on rural roads and highways," Sgt. Albers said, "so it behooves motorists to drive with caution on holiday trips."

Franklin Pierce was U.S. president when the Republican party was founded at a meeting in Ripon, Wis., Feb. 28, 1854.

Electors Pledge Votes To Byrd

JACKSON, Miss. (UPI) — Unpledged presidential electors from Mississippi and Alabama have voted to cast their 14 electoral ballots for Sen. Harry F. Byrd, D-Va., rather than President-elect John F. Kennedy.

The group, led by Mississippi Gov. Ross Barnett, called on other Southern states to follow their lead and help throw the presidential election into the House of Representatives Dec. 19. But they were not expected to get much support.

"Santa Claus is not going to hang any President in Ross Barnett's stocking on Christmas," six unpledged in Alabama and eight in Mississippi.

"Horror Fairy Tale"
The horror story of "Bluebeard," who murdered a series of wives and hid their bodies in a locked room, first was published in a collection of tales for children that also included "Cinderella," according to the Encyclopedia Britannica.

The young of the shrimp pass through 10 larval stages.

HIGH POINT, N.C. (UPI) — Police reported today that burglars used a hammer, shovel, several screwdrivers and a chisel trying to force open a safe in a paint store this weekend.

The yeggs failed to open the safe and settled for other available loot — a \$25 check and a box of cookies.

Dragonflies do not have stingers and are perfectly harmless.

Why "Good-Time" Charlie Suffers Uneasy Bladder

Unwise eating or drinking may be a source of mild, but annoying bladder irritations — making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery — don't wait — try Doan's Pills.

Doan's Pills act 3 ways for speedy relief: 1—They have a soothing effect on bladder irritations. 2—A fast pain-relieving action on nagging backache, headache, muscular aches and pains. 3—A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 15 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. Large, economy size saves money. Get Doan's Pills today!

Doan's

New Tires May Appear To Be Halos Of Light

DETROIT (UPI)—Imbibers in Akron, Ohio, may see stranger things than pink elephants during the next few years if research on a new type of tire continues along its present lines.

They, along with more sober companions, may see cars rolling along on halos of glowing light.

The tire research and development department of one of the major tire companies (Goodyear) is working on a tire made of translucent rubber which can be dyed various colors.

Because the tire is translucent, lights can be installed inside the tires to make them glow at night.

Actually, these are not primary assets of the tire the researchers hope to develop. But they are factors which get most attention from bystanders at the present time.

I rode in a test car equipped with these tires recently. The tires on this particular test car were colored red.

At our first stop at a gasoline station, two men came running from the lubrication rack and one turned to the other and said: "No, you're not drunk, I see it too."

A short time later a policeman pulled alongside the car at a traffic light and said, "I should pull you in but I don't know what for."

Everywhere we went, the tires attracted crowds of curious on-lookers. But most of the bystanders missed what we in the car came to realize very dramatically.

A heavy snow was falling as we crept along the streets. As we started down a hill on one side street, the driver put on the brakes. We continued forward almost without slowing. Finally the driver aimed the car at the curb in order to stop it.

Walter Lee, director of research on the tire, had warned us previously that tires made of this specially compounded polyurethane on wet or icy pavements. He also pointed out that an antiquated tread design was used on the first-test tires and more modern treads would improve the situation.

Perhaps additional compounding of the neothane in later research will also improve the tires' traction, he said.

But lack of traction isn't the only fault of the tires at this time. Neothane costs over \$1 a pound on the current market. Lee hopes greater use of the new rubber will cut the cost to one third of its present price.

Because the researchers are trying to build the tire without cords, it currently has an instability which makes the sidewalls lean more than usual when the car rounds a curve.

And the sidewalls don't last for more than 2,000 to 3,000 miles because they flex too much at one point without cord support. Ribbing the sidewalls may provide at least a partial answer to both these problems, Lee said.

He figures it is worth the effort to correct these faults because of the potential advantages of the tire. And he figures the faults can be corrected within five years with intensive research.

Many Islands

The Indonesian Republic is composed of more than 3,000 islands extending more than 3,000 miles between Australia and Asia. Most important of these are Bali, Borneo, Java and Sumatra.

Lefors Schools Hold Yule Party

LEFORS (Sp) — Faculty members and employees of the Lefors schools held their annual Christmas party last Friday night in the school cafeteria.

Following a buffet Christmas dinner guests were entertained with a short program and games.

Attending the affair were the families of D. S. McDowell, Bud Cumberland, Ross, Pöel, E. A. Bryant, Raymond Jordan, Hoyt Pruett, Edward Vincent, Jerry Jacobs, Alex Swann, G. N. Mounger, Arthur Hammer, Ruth Natho, H. L. McCarley, R. V. Bull, Joe Clarke, Bill McGowan, Miss Ardelle Briggs, Miss Norma Lantz, Ronald Adams, W. O. Nowlin, Joe L. Black, Paul Walden, Keith Geisler, Weldon Moore, David Robinson, Howard Archer, Chester Hill, J. J. Jackson, and Charlie Lisenbee.

Chuckles

ELUSIVE CULPRIT

TALLAHASSEE, Fla. (UPI) — "Yankee" was painted in big letters with red paint on the dome of the Florida state capitol building recently. No one spotted the culprit at work despite the fact that the dome was bathed in flood lights.

WINS RENT REDUCTION

DERBY, England (UPI) — Barry Bowler won a rent reduction after telling the town valuation panel that persons waiting at a bus stop outside his house use his doorway as a shelter.

Washington Window

WASHINGTON (UPI) — Would you believe that the cabinet of a president of the United States is not a constitutional body? Believe it or not, that is the fact.

Neither is the cabinet unconstitutional. There is, of course, a difference. The Constitution provided only that each executive department should have a principal officer and, further, that the president may require of such an officer opinions in writing.

These principal officers, as a group, came to be known as the president's cabinet and to function as such. The stipulation of the Constitution does not authorize a principal officer—or cabinet member—to offer any opinions on his own.

That is to say that the Constitution deliberately avoided creating an advisory group of any kind to limit or otherwise to influence a president's judgment. James Norton's "Constitution of the United States" explains in a footnote that:

"At least twice the constitutional convention refused to hamper the president with an advisory council which might influence his conclusions. In colonial times the royal governor had a council with considerable power. But, in the course of events there has grown up a cabinet somewhat resembling the council which the convention rejected."

Thomas Jefferson, the third at a cabinet meeting and invited suggestions.

The constitutional point with respect to the cabinet is this, as stated by Norton: "It is not a constitutional body and the president is in no way bound by the opinion of his cabinet nor is he obliged to consult it at all."

So, the concept of the cabinet just grew, like Topsy. It has grown a lot. Strong presidents are likely to have weak cabinets. Put another way, a strong, aggressive president overshadows his cabinet individually and collectively. The cabinet of a weak president is likely to appear to be strong by contrast.

It is because there is no fixed constitutional relationship between the modern cabinet and the president that so much interest attaches to the principal departmental officers now being assembled by President-elect John F. Kennedy. Once they all are known it may be possible to judge whether the president-elect intends to make all of the policy decisions, some of them or, which is not remotely likely, none of them.

President-elect, called in his cabinet meetings for votes and counted that he had the right to independent action. Other presidents have avoided consultation with their cabinets on certain policies. Norton cites Lincoln's action in writing the emancipation proclamation without prior consultation with his cabinet although he read

HOLLYWOOD (UPI) — Filming has begun on the television series "Patrol 999," to be based on the activities of the U.S. Coast Guard.

The stories told will be from the files of the 1920's and '30's when the Coast Guard handled many cases involving rum-running, smuggling, piracy and other crimes at sea.

HOLLYWOOD (UPI) — New-comer Chet Douglas will make his second movie appearance in Columbia Pictures' "Two Rode Together," starring James Stewart and Richard Widmark.

Douglas formerly appeared with Glenn Ford and Donald O'Connor in "Cry for Happy."

3-4A Teams Take Cage Victories

District 3-4A teams, after a sluggish start in earlier games, warmed up last night as six of the seven teams won non-conference contests, with Pampa the only loser.

Amarillo's Sandies buried Phillips, 66-42, behind the three-pronged attack of Harold Denny (15), Bob Dabler (12) and Wayne Rivera (10) Kenny Hunt paced the losers with 15 tallies.

Borger ran its record to 6-0 by dumping Guymon, Okla., 77-49, at Borger as Jeff Levine poured in 22 points for the unbeaten Bulldogs. Borger was behind by two at the end of the first quarter — 14-12 — but regrouped to take a 38-24 halftime margin.

Palo Duro upped its mark to 3-2 with a 71-55 victory over Hereford. Four men hit in double figures for the Dons, with Bruce Francis and Toby Hall hitting for 20 points apiece.

Plainview, beginning to make its move, nipped Dimmitt — a team that had beaten them twice before — 49-48 on a field goal in the last seconds of play. Jackie Swanner was the high point man with 14 points while Junior Coffey had 13 for Dimmitt.

Lubbock climbed close to the 500 mark with a 60-58 win over Levelland. The Westerners (4-5) were paced by Danny Davis' 13 points while Roy Sage had 24 for Levelland.

Pampa was the lone loser, falling to Dumas, 41-31, as Dumas' Larry Tiner scored 22 points. Pat Carter had 12 for Pampa.

In area games, Lefors downed Kids Inc. of Amarillo, 48-20; Miami downed Briscoe, 47-23 in a boys game while the Miami girls lost, 47-45.

BOBBY SHANTZ ... trade bait

BOB CERV ... ditto

Shantz, Cerv Mentioned

LA, Washington Bid For Players

BOSTON (UPI)—Bob Cerv and Bobby Shantz of the New York Yankees were sure bets to be picked today when the new Los Angeles and Washington clubs "choose up sides" in another step toward completing the American League's 10-team structure for 1961.

Selection of the players from a closely-guarded list of 120 candidates will start in the private, wall-to-wall carpeted office of American League President Joe Cronin.

Both clubs want Cerv and Shantz but the two veterans probably will be split up since the toss of a coin will decide which team has first choice and the selections will be made alternately after that.

The mutual desire for Cerv stems from the fact that his right handed long ball ability would prove an asset either in Wrigley Field, where Los Angeles will play its home games, or Griffith Stadium, home-site of the Washington club.

"One of our first needs is a good long ball hitter," said Manager Bill Rigney of Los Angeles, who will select players for the Angels along with General Manager Fred Haney.

"We have a park that's reachable for quite a few of the hitters on the list. If we don't get the right handed hitter we want because Washington picks him first, then we'll go after a left handed long ball hitter."

Field Bunched In Scotch Golf

SEBRING, Fla. (UPI)—A close finish in the 15,000 mixed Scotch foursome golf tournament seemed assured today with only two strokes separating the top six teams.

Tied for the first round lead at 20 were the teams of Dow Finsterwald, Tequesta, Fla., and Murie MacKenzie, St. Petersburg, Pa., and Ernie Vossler, Midland, Texas, and Betsy Rawls, Spartanburg, S.C.

Two other teams were tied at 21. They were Mason Rudolph, Clarksville, Tenn., and Kathy Whitworth, Jal. New Mexico, and Bob Goalby, Crystal River, Fla., and Fay Crocker, Montevideo.

At 72 were Tom Neiporte, Bronxville, N.Y., and Marlene Hagge, Pittsburgh, and Fran Hawkins, El Paso, and Judy Kimball, Sioux City.

The first 18 holes were played Tuesday at Pinecrest Lakes Club in nearby Avon Park. The tournament moved to Harder Hall in Sebring for the final round today.

WTS Tumbles To Centenary

SHREVEPORT, La. (UPI)—Centenary rallied in the second half Tuesday night and scored its second basketball victory in three games, outlasting West Texas State 66-62.

The Buffs took advantage of poor Centenary shooting to gain a 32-26 halftime lead. The Gents regained the lead 10 minutes deep in the second half and led the rest of the way.

Dumas' One-Man Gang Stuns Pampa, 41 To 31

Two Boxing 'Foes' Meet

WASHINGTON (UPI)—Two hated enemies—the reputed underworld czar of boxing and the prosecutor who sent him to prison—face each other again today in a dramatic meeting before Senate boxing investigators.

The men are racketeer Frankie Carbo and former N.Y. Dis. Atty. John G. Bonomi, now serving as special counsel and chief questioner for the Senate Anti-Trust and Monopoly subcommittee which is conducting the boxing inquiry.

Carbo was brought here by two U.S. marshals from his cell at Riker's Island Prison in New York to be quizzed about his alleged role as the underworld kingpin of the fight game.

Bonomi conducted the N.Y. investigation which sent Carbo behind bars for two years for being an undercover fight manager and matchmaker.

The lawyer described Carbo as one of the two top gunmen of the Prohibition era and a hoodlum who parlayed fear into great power and influence in the boxing world.

The other top Prohibition gunman was Albert Anastasia, the "lord high executioner" of "Murder, Inc.," who was shot down by gangland assassins in a Manhattan hotel barber shop several years ago.

WINS PURSE CHAMPIONSHIP

COLUMBUS, Ohio (UPI)—Delvin G. Miller, Meadow Lands, Pa., took the harness racing drivers' purse championship for 1960 by winning \$567,282, the U.S. Trotting Association announced here today.

Tournament Time Arrives

Colonels Cop Bluegrass

LOUISVILLE, Ky. (UPI)—The Louisville Cardinals, working their give-and-go attack smoothly and getting rough on defense when they had to, whipped Western Kentucky, 86-71, Tuesday night to win the Bluegrass Invitational Tournament.

Senior forward John Turner broke up a furious first-half duel that saw the score tied six times by pouring in 10 points the last six minutes of the period to give the Cards a 46-34 halftime lead. Turner wound up with 25 points, and was voted the tournament's most valuable player.

Utah State, helped by Georgia Tech's ineffective shooting, survived its own erratic play to score a 67-67 victory in the consolation game of the Bluegrass Tournament.

San Antonio (UPI)—Trinity defeated Pan American College of Edinburg 82-75 and St. Mary's bested Southwestern University of Georgetown Tuesday night to post first round victories in the Knights of Columbus basketball tournament.

Optimist Bout Set Tomorrow

Pampa's Optimist Club boxers will hold their regular Thursday night fights at the Boys Club building at 7:30 p.m. tomorrow against pugilists from Borger and Lefors.

Libera, Kan., was originally scheduled to appear, but the inclement weather forced the Liberal team to cancel out until two weeks from now. Clovis, N.M., is supposed to come to Pampa next Thursday for a "full round" of matches.

Score by quarters:
 Pampa 12 12 12 11-47
 Lefors 6 8 7 14-35

PAT CARTER ... pumps in 12

Free Throw Freeze Chills Harvesters

By ARTHUR MAYHEW Daily News Sports Editor

DUMAS — Larry Tiner may not be the original Ding Dong Daddy from Dumas, but last night he was a ding dang duplicate as he rang up 22 points to help the Dumas Demons hang a 41-31 loss on the Pampa Harvesters in a non-conference basketball game here.

Tiner, a 5-11 guard, hit 10 of 19 from the field — mostly long jump shots — and two for two from the free throw line to hand Pampa its fifth loss in six games. The victory gave the Demons a 6-1 record.

Pampa's Pat Carter, doing all his scoring in the first half, paced the Harvesters with 12 points, while Larry Stroud was second high man with 9, five of which came in the first two periods.

As in the first Hobbs game, it was the Harvesters inability to hit the charity tosses that spelled defeat, as Coach Terry Culley's crew meshed only 13 of 28 for a 48 per cent average.

Pampa led only three times in the game, 2-0 on a Carter jump at 5:11, 4-2 on a Stroud driving layup at 4:35 and 6-4 at 4:10 on another soft jumper by Carter.

Pampa then turned cold as Dumas began to find the range and the Demons led at the end of the first period, 10-7.

A layup by Dumas' Jim Morgan and a jump by lefty Tiner pushed the score to 14-7 before Carter pumped in another one-handed jump at the circle to narrow the score to 14-9 at 5:40 of the second quarter.

Pampa squeezed the gap to five points a minute later — 18-11 — on two free throws by Carter and once more — 18-13 — on free tosses by Carter and Stroud but Dumas retired at halftime with a 24-17 lead.

The Harvesters' "secret weapon" — Randy Matson, 6-4 sophomore — came to life in the second half after shaking off the opening game jitters and scored his first points as a member of the varsity with a layup at 6:09 and a free throw at 5:38 of the third period to slice the point spread to five again, 26-21.

The Green and Gold's Allen Wise, held to three points in the game, scored two of them late in the third quarter on a beautiful overhead layup under the goal to put Pampa at 28-23, and Stroud hit a 25-foot jumper and a free throw to cut the margin to 31-26 with 45 seconds left.

Carter, holding for the last shot of the quarter, took a quick shot at the buzzer but was called for fouling and Tiner — naturally — hit the one-and-one setup to send Dumas to a 33-26 lead going into the fourth period.

Dumas went into a stall in the fourth quarter after Stroud hit a free throw and Matson bucketed a jump to close the spread to 33-29 at 6:46, the closest Pampa got the rest of the game.

Pampa's only other points came on Gordon Balch's two free throws with 11 seconds left in the game.

In the Shocker game, Bob Neslage, second high point man with 16, hit two clutch free throws with five seconds left in the game to send the contest into overtime at 51-51.

However, Pampa failed to convert crucial free throws in the three-minute overtime period while Dumas was hitting 6 free tosses and a jump shot to win 57-55.

Wayne Kreis was the high point man for the Shocks with 19 points while Larkin Miller had 10; however, Neslage was the star of the game as he also pulled down 15 rebounds, three less than the rest of the Shocker team combined.

Other scorers for the Reapers were Guy Cloud, 5; Charles Price, 3; and Eugene Madrid and Barnes, 2 each.

Score by quarters:
 Pampa 12 12 12 11-47
 Lefors 6 8 7 14-35

Amarillo Carver Surprises Pampa

Despite George Duke's 23 points, Pampa Carver fell to Amarillo Carver, 64-51, here last night. In the 'B' game, Amarillo triumphed, 46-38.

Irvin Bunton had 11 and George Niblett had 10 to back up Duke's display, Davis and Jones had 19 and 16 points, respectively, to spark the winners.

In the B game, Mike Morgan had 14 and Ronald Dunn had 8 for Pampa Carver.

Carver goes to Shamrock tonight with a pair of games pitting the boys and girls teams.

Kansas Officials Term Big Eight 'Capricious'

LAWRENCE, Kan. (UPI)—The University of Kansas, in a lengthy "white paper" on the Bert Coan case, said today action by the Big Eight Conference stripping the school of its football championship was "capricious."

"The university believes that Coan has been subjected to a penalty he does not deserve," the statement by University Chancellor W. Clarke Wescoe said.

Coan, a transfer student from

Texas Christian University and a star halfback for the Jayhawks during the past season, was declared ineligible by the conference last Friday because he was recruited illegally.

The action resulted in Kansas forfeiting the conference football championship.

Earlier, the National Collegiate Athletic Association (NCAA) had placed Kansas on probation for one year because of the Coan incident.

After 'Young Love' The Topic Is 'Snow'

WASHINGTON (UPI) — Next to young love, which can happen in any climate, the favorite topic of poets, song-writers and other ethereal types is — you should pardon the expression — snow.

Countless thousands of verses have been penned extolling this wintry fallout as the greatest thing since manna, and I think I know the reason for this. Poetry and song writing is indoor work. A composer can go to the window, cast his soulful eyes upon the snow-laden landscape and then spend the rest of the day by the fire, thinking up words that rhyme with "wonderland."

There are times — this being one of them — when I wish I could grab these snow hymnists by the scruffs of their necks, plunk them down in the suburbs and force them to make their way to the city.

I would like to see them spend 45 minutes putting chains on car wheels only to discover, as I did a few hours ago, that the car wouldn't start. Then, after they had paid the service station for making a house call at the same rate charged by neurosurgeons, I would like to see them walk four blocks through a foot of snow to fetch a shovel with which to extricate the auto from a roadside drift into which it had skidded.

Then, after they had reached the highway, I would like to see them get out of the car and remove the chains in order to avoid clanking along for 10 miles on pavement that already had been cleared by the snowplow.

I also would have them forget to bring their gloves so that they would have to perform this operation stiff-fingered and would be able to gash a thumb while trying to undo the chains.

Moreover, I would make certain the chains were the "simple" strap variety which only require 30 minutes longer to take on and off than the regular variety and which fall off by themselves once the auto is in motion.

And, finally, I would have them

Jaycees Hear Speech On Delinquency

Dan Johnson, a state representative of the Salvation Army, was the principal speaker yesterday noon during the meeting of the Pampa Jaycees in the Palm Room of City Hall.

Johnson, who is on a state-wide tour, spoke on juvenile delinquency. Guests for the meeting were E. O. Wedgeworth, manager of the Pampa Chamber of Commerce; Envoy Seago of the Salvation Army; Dick Barnett, Bob Deaton, Bill

John G. Tower Enters Race For Johnson's Post

DALLAS (UPI)— Republican John G. Tower yesterday joined three Democrats in the race for the U.S. Senate seat to be vacated by Vice President-elect Lyndon B. Johnson.

Tower, who was defeated by Johnson in the Nov. 5 general election in which the Texas Democrat won election both to another six-year Senate term and as vice president, announced his candidacy at a news conference at Dallas' Love Field.

Tower said he had decided to enter the race against William A. Blakley of Dallas, State Sen. Henry B. Gonzalez of San Antonio and U.S. Rep. Jim Wright of Fort Worth "after extensive consultations and correspondence with political leaders, grass roots workers and other interested people all over the state."

To give or to get this Christmas are accessories that are elegant, beautiful and practical. Those shown here are hand washable and will retain their good looks through many washings. For after five wear, this girl chooses (left) chunky beads in shades from pale amber to deep brown. She also wears brown stretch satin gloves embroidered in

gleaming gold thread. Hand-crocheted white wool cloche (center) and matching gloves are shown here with silk scarf in a bright print. For a glamor girl, there are these sheer stockings decorated at the instep (right) with a hand-painted sunburst twinkling with tiny brilliants. Slip has hemline deep in lace. It's for wear with late day clothes.

Week Of Prayer Meetings Held At Calvary WMU

Calvary Baptist women's Missionary Union met for its annual week of Prayer for foreign Missions recently. Each year, just before Christmas, the WMU promotes a Week of Prayer for Foreign Missions and the Lottie Moon Christmas offering. This year the theme was "His Peace for the Multitudes" with the national goal set at \$8,700,000 with Calvary's goal placed at \$500, a spokesman for the WMU reported.

Mrs. W. E. Walker, Calvary Prayer chairman, was in charge of the daily programs presented. Each opened with group singing of "Sweet Hour of Prayer" followed by call to prayer and the reading of the poem "When Jesus Saw the Multitudes" read by Mrs. E. W. McGahan. Mrs. Ennis Hill introduced the programs with Mrs. Jack Gainer giving the closing meditations each day.

Participating on the programs were Mmes. C. R. McGahan, Bert Mitchell, Bob Cliett, E. W. Baker and C. E. Humphries.

Old Standby, Practical Gifts Turn Into Boldly Dramatic Yule Tokens

BY ALICIA HART
Newspaper Enterprise Beauty Editor

Fun and excitement await you when you start out on this year's traditional holiday shopping spree. Such old standbys as gloves, scarves, slips and stockings need no longer be looked upon as practical but unimaginative gifts. This season they are colorful and boldly dramatic. Those designed for evening wear glitter with a new brilliance.

You'll find long evening gloves in black or white washable stretch satin. In addition to the unadorned black, brown or white, some of these shoulder-high gloves are embroidered in gleaming gold or silver metallic thread. Yet in spite of their fragile elegance, they are easily hand-washable.

Hosiery makes news in a wide variety of colors—purples, greens, golds and browns. And for dress-up wear, a jewel-like sparkle has been added at the heel, instep or ankle.

Since fashion no longer dictates that a gal be a "symphony" in

one color from head to toe, hosiery can be chosen to match gloves, handbag or other accessories. And this will make it simpler when

Mrs. Dudley Steele Reviews Book At Alpha Omicron

Mrs. N. Dudley Steele entertainingly presented excerpts from the book "Buttons In The Back" by Elizabeth Kirkland at a meeting of the Alpha Omicron Chapter of Epsilon Sigma Alpha Sorority held Thursday evening in the city club room.

Following a brief business meeting, conducted by the president, Mrs. Melvin Bailey, refreshments were served during the social hour by Mrs. John Hatcher and Mrs. W. H. Spidell.

Attending were Mmes. Parks Brumley, Bonnie Wheat, Anne Cohea, W. R. Parrish, Faye Coleman, Frank Baker, Bruce Parker, Margaret Dial, Boyd Maule, Walter Reek, Sallie Castleberry, E. W. Hogan, O. J. Engle, Melvin Watkins and Bill Stark.

you shop for someone whose wardrobe preferences you're not certain about.

Jewelry is always an exciting accessory gift. This year, it's bigger, brighter and bolder than ever. Glittering necklaces, bracelets and earrings in combinations of two or more colors are so eye-catching that chances are you'll buy a set for yourself as well.

For the girl on your list who wants to be chic but snugly warm during the cold winter months, there are white wool hand-crocheted gloves, with matching cloche. Add to these a gaily printed silk scarf, and she'll be all set to brave the winter winds.

There's a wealth of beautiful accessory gifts waiting at your fingertips this Christmas, and you should have no difficulty in finding something imaginative and pretty for every gal on your list.

Be sure, though, that you don't pack problems into those beautiful wrapped packages under the tree.

Your gifts can be practical as well as glamorous, for you can find all the sparkle and glitter in accessories that can be cared for at home, easily, with soap or detergent suds.

Christmas Games And Gifts Highlight Lefors Home Demonstration Party

LEFORS (Spl) — The annual Lefors Home Demonstration Club Christmas party was held in the home of Mrs. Jeff Davis on Thursday afternoon.

A variety of Christmas games were played. Mrs. A. M. Dickerson won a prize for putting together the Christmas puzzle first. Mrs. W. G. Hughes was awarded the door prize. Mrs. David L. McBea took a prize for making the nicest tree from newspaper behind her back. Each guest present received a consolation prize or winner prize for putting grains of corn in a tiny bottle. The party was climaxed by a gift exchange.

A gift was presented by the club to outgoing president, Mrs. O. O. Bishop. Mrs. Bishop presented each one present a special card with a gift.

Miss Lou Ella Patterson, Gray County Home Demonstration, was in charge of installing officers for Mmes. A. M. Dickerson, president; the year 1960, which included; Mmes. A. M. Dickerson, president;

C. C. Wells, vice-president; A. J. Rollins, secretary; Charles Roberts, treasurer; and Mrs. B. J. Diehl, council delegate.

Mrs. O. O. Bishop was elected as club nominee for THDA chairman from the county. The chairman will be chosen from nominees from all clubs of the county.

It was announced that an open meeting will be held in civic center on Dec. 29, for a program on the history of the Panhandle. The public is invited and refreshments will be served.

Christmas carols were led by Mrs. Charless Roberts. "Steal Away," a solo was sung by Mrs. Roberts.

The refreshment table was covered with a green cloth fringed in white, centered with an arrangement of pink flocked cedar cuttings in an antique fruit bowl adorned with a pink angel, and reindeer. The arrangement was flanked by golden candles in antique holders matching the fruit bowl.

One guest, Mrs. Dewey Robbins, was present. Others present, not already mentioned were Mmes. A. T. Cobb, B. D. Vaughn, Ted Kendall, B. J. Leininger, C. W. Teeters, Burt Smith, B. J. Thacker, and Miss Alpha Jo Elliott, Connie Thacker, Morris Roberts, and Ed-die Jacobs.

Dear Abby... Bolt From Blue Darkens Family's Life

ABIGAIL VAN BUREN

DEAR ABBY: What causes a man to leave his wife, children, home and church for another woman?

I was married to a man for 21 years. I loved him and tried my best to be a good wife and mother. I was happy and thought he was, too.

Out of the blue he told me he was in love with another woman. He packed up and moved out. He left me six months' pregnant with a 14-month-old baby and four older children. The woman he left me for is 12 years younger than I am. He met her at work. She knows our religion doesn't allow divorce and remarriage but she doesn't care. My husband is begging me for a divorce. My heart says no. My friends say yes. I'm all mixed up.

"Temporary insanity." (This sometimes passes for "love.") Don't make any decisions while you are in an emotional tumult. Your husband may find his way back to the world of reality soon. In the meantime, tell him "No divorce!"

DEAR ABBY: When a hostess has a party and some guests bring other people, and a card table has to be set up in addition to the big dining room table which seats 14. WHO should sit at the card table? My husband says the "extra guests" who were not invited by us. I say my husband should sit at the big table and I should sit at the little one.

NOISE AT OUR HOUSE
DEAR NOISE: In the case of TWO tables—the host should sit at one, and the hostess at the other.

BROKEN-HEARTED
DEAR BROKEN-HEARTED: The answer to your first question, "What causes a man to leave his wife, children, home and church for another woman," is

Refreshments were served during the social hour by hostesses Mmes. T. A. Mastin, Bill Ladd, Roy Kretzmeier, H. B. Lawley and Ola McAfee.

Following adjournment of lodge, the Theta Rho Advisory Board met for a business session.

Jerry Jones reported on the trip made last summer to the United Nations, through the eastern states, Washington, D.C. and into Canada.

Mr. and Mrs. Linzie Johnson were the adult sponsors on the trip. Movies were shown, which were taken on the trip, with Jerry Jones and Mrs. Johnson as narrators.

Blue Flame Club With Mrs. Henry

Mrs. Norman Henry was hostess to the Blue Flame Club for its Christmas Party held recently in her home.

Following a gift exchange, refreshments were served by the hostess.

Attending were Mmes. Edith Smith, Elda Wilson, Jackie Hobbs, Ocene Hood, Blanche Jenkins, Mona Franke, Mildred Knight, June Anderson, Olean McShane, Monte Willson, Kay Kennedy, Eva Lou Hodges, Polly Bryant, Irma-lea Dillon, Carol Fulches, Carylon Gilbert, Elaine Hicks, June McCoy, Stacy Stubbs, Francis Jackson, Pat Shelton, Nancy Tyrone and Geneva Schroeder.

Mrs. Otis Nace Hostess For Gavel Club Party

The Gavel Club of the Order of the Eastern Star held its Christmas Dinner Party in the home of Mrs. Otis Nace, 1501 N. Faulkner with Mrs. Elmer Byars as co-hostess. During the evening, Mrs. Nace entertained guests with a Christmas reading.

Following dinner and a brief business meeting conducted by Mrs. W. M. Voyles, president, Secret Pals were revealed and new names drawn for the coming year.

It was announced that the next meeting will be held in the home of Mrs. Arthur Rankin, 1617 Charles, on Jan. 12 at 6:30 p.m. with Mrs. Leslie Hale as co-hostess.

Members present were Mmes. Dennis Stilwell, J. S. Fuqua, O. A. Wagner, Roy Sewell, J. H. Warner, Bill Flewelling, Kenneth Gary, W. S. Kiser, W. L. Parker, Ed Railsback, W. A. Rankin, W. P. Vincent, W. C. Mitchell, W. B. Murphy, W. C. Alexander, Oscar Shearer, R. A. Hankhouse, W. R. Morrison, C. F. Pennington, G. C. Crocker, Rosalie Wedge, W. M. Voyles, J. L. Burba. Guests were Mmes. Darrell Bohlander, Ewing Cobb, J. B. Huntington and R. D. Brass.

Gouda Cheese Omelet... something special for brunch! Spread shredded Wisconsin Baby Gouda cheese generously over your favorite plain omelet and sprinkle with fine herbs blend just before it is folded. The mild yet distinctive flavor of Wisconsin Baby Gouda cheese adds a true gourmet touch to omelets... and important proteins, too.

Oddfellows And Rebekah Lodges Plan Yule Party

Pampa Rebekah Lodge No. 355 met Thursday evening at 7:30 p.m. in the IOOF Hall, 219 W. Brown with Mrs. Joe Stenbridge, noble grand, presiding with Mrs. Roy Kretzmeier assisting as vice grand.

Sixteen sick visits were reported made by members.

Included in the regular announcements were those of the Bingo Party held Dec. 10, of the Esther Club party held Monday in the home of Mrs. Ruby Wylie; and of the Lodge Christmas party to be held Thursday, Dec. 15 at 7:30 p.m. Each member is to bring food for a holiday basket; and also a gift for a child to be included in the Christmas basket.

Mrs. Anna Payne of Lefors name was drawn from the Friendship Fund.

Refreshments were served during the social hour by hostesses Mmes. T. A. Mastin, Bill Ladd, Roy Kretzmeier, H. B. Lawley and Ola McAfee.

Following adjournment of lodge, the Theta Rho Advisory Board met for a business session.

Jerry Jones reported on the trip made last summer to the United Nations, through the eastern states, Washington, D.C. and into Canada.

Mr. and Mrs. Linzie Johnson were the adult sponsors on the trip. Movies were shown, which were taken on the trip, with Jerry Jones and Mrs. Johnson as narrators.

When your feet are tired, they sometimes swell. You can help correct this condition by propping them up on every possible occasion. And before you go to bed, try wrapping them in wet towels for about five minutes each night.

"Littlest Angel" Presented At Austin PTA Meet

"The Littlest Angel" was presented at Stephen F. Austin PTA meeting held Thursday in the School auditorium.

The program was introduced by Mrs. S.P. Caldwell. "The Littlest Angel," directed by Mrs. M. Roy Sullivan. Austin music teacher, was narrated by Mrs. Don Hickman, first grade teacher with J. W. Corley, second grade student portraying the "littlest angel." Students of Mrs. L. S. Riley's second grade were the "little angels." The fifth grade choir, accompanied by Jerry Stephens at the piano, provided background music.

Following the program, a short business meeting was conducted by Mrs. G. M. Martin unit president. It was announced that the Austin PTA would be in charge of the PTA radio program to be presented Jan. 28.

Mrs. George Cree Jr. gave a brief report of the state meeting of PTA held last month in Austin.

D. V. Biggers, school principal, was presented a Life Membership in PTA by Mrs. Tom Rose on behalf of the Austin Amt.

TIME FOR VIOLENCE

By Noel M. Loomis

THE STORY: Bart Wagner, suffering from a severe case of depression, sits in a room and thinks of a woman who was his wife for a few years. He is now a widower and a depressed man. Bart finished his coffee. "What happened to the horse out there in the corral?" "That was Ben's riding horse. They shot it," she said stonily. "They galloped their horses back and forth, yelling and shooting the chickens' heads off. Do you want a job, mister?"

times, and put a towel over them. He gritted his teeth when he sat down and tried to lift his arm onto the table. Watching his face, she nodded. "I thought it would be stiff."

He liked her air of competence and the gentle touch of her fingers as she felt for the bullet. It had lodged in the triceps muscle underneath, and it stiffened when she touched the spot where it rested. "I can see you know what you're doing, ma'am," he said. She looked at him and said cheerfully, "I'll use crochet hooks to get it out. I've done it before—when the Kiowas raided Holt's Corner. My father had two bullets and an arrowhead, and I got plenty of practice. My grandmother showed me how."

IT'S THE LAW in Texas

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.) Dec. 15 is observed each year as Bill of Rights Day throughout the United States. What does this important "document" mean to us?

Walter Rogers Reports Current Gold Crisis Not New To Nation

Question: Is the present dollar crisis, or gold crisis, too complex for the average individual to understand? Answer: It is not. The fact is that the dollar problem now facing this country is not unlike the dollar problem which has faced us average Americans for a long time, a problem with which a vast majority of the people in this country are well-acquainted: more is going out than is coming in. Of course, this seems to be all of the time, and it will be as soon as you get children in college. In other words, you are importing more than you are exporting, or buying more than you are selling. In international finance, this is referred to as balance of payments. Until recent years, the balance of payments was in favor of the United States. That is, this country was exporting more than it was importing. However, in recent years, due to three major forces, this situation has reversed itself and the U.S. is now putting out \$4 billion more than it is taking in, creating the disturbing gap in the balance of payments. The three forces referred to are excessive imports, American investments in foreign countries, and foreign aid.

Read Matthew 17 Alleged Rapist Commits Suicide

SAN ANTONIO, Tex. (UPI)—Leonard Norman Hensley, 21, drew doodles on a scratch pad. He made a reference to death. That's what he was thinking about... his own. In a Bible he carried in his pocket, he turned down the page at Matthew 17, where Jesus foretells his death. Hensley was in the courtroom of Criminal District Judge Archie Brown Tuesday, listening to testimony in his sanity hearing. It was a preliminary to his trial as a "red light" rapist of a San Antonio housewife last April, similar to the case of executed sex-killer Caryl Chessman.

Zoos Are As Old As Recorded History

The custom of keeping collections of living wild animals is as old as recorded history, dating back to the Chou dynasty, in the early part of the twelfth century. The first zoo in the United States was founded in Philadelphia in 1859. In 1890, Congress established the National Zoological Park in Washington, which is supported by the U. S. Government and visited by more than four million visitors yearly. A Philadelphia hobby model manufacturer has created a new plastic hobby kit called Animals of the World. These kits provide hours of recreational activity for hobby enthusiasts, and completed models can be used to build a miniature zoological garden.

You can be replaced by a traffic signal, you know!

Cotton, Rice Farmers Favor Market Quota

WASHINGTON (UPI)—Cotton and rice farmers voted overwhelmingly in favor of continuing marketing quotas on their 1961 crops in a nationwide referendum held Tuesday. The vote favoring continuing quotas programs ran well over 75 per cent in all states reporting, as farmers once again demonstrated their desire to retain a system of price supports coupled with acreage controls. The Agriculture Department, in returns compiled before closing the office Tuesday night, gave these results in balloting that included all but one upland cotton state reporting: Upland cotton—184,619 yes, 6,442 no; 96.6 per cent favorable. Extra long staple cotton—898 yes, 103 no; 89.7 per cent favorable. Rice—5,520 yes, 535 no; 91.2 per cent favorable.

Mother, Six Children Die In Farm Fire

ENOLA, Pa. (UPI)—A mother and six of her nine children burned to death early today when an explosion and fire ripped through their two-story farm home about six miles south of here. Firemen said the home was destroyed within 15 minutes. The husband and father, Neff Walker, carried two of his small sons, Robert, 8, and Duane, 5, out of the blazing house, and led one of his daughters, Martha, 12, to safety. Caroline Kramer, about 16, who did odd jobs for the family, also escaped the flames. Trapped in the burning dwelling were Mrs. Elizabeth Walker, 32, a son, Jimmy, 9, and five daughters, Mary, 13, Helen, 10, DiAnne, 5, Louise, 3, and Irene, 1.

Durante Treks To Altar Today

NEW YORK (UPI) — "When I a chorine and he was a feature do the strut-away, in my cut- away."

Comedian Jimmy Durante struts down the aisle at St. Malachy's Church here today to marry his girl friend of 16 years standing, former showgirl Margie Little.

Durante, 67, and Miss Little, 40, have been announcing plans to marry for the past four years. Today is D-day for Durante and he ex-chorus girl.

The Schnozzola and Miss Little have been going steady ever since he met her in 1944 at the Copacabana night club where she was

Nine Jurors Selected For Rahm's Trial

ORANGE, Tex. (UPI) — Six jurors were selected Tuesday in the murder trial of Dr. Charles C. Rahm, former Brownsboro school board official.

Tuesday's selections brought the total to nine in the first two days of the trial. Rahm will be tried on the shooting of Thurman Jackson, 42, during a school board meeting that ended in a melee.

The prosecution is not seeking the death penalty for the former secretary of the school board. Jackson was shot twice during the fight.

Rahm has admitted the shooting but says he shot in self-defense while Jackson was beating and kicking him.

Ivan Long, president of the board, was cut over one eye. J.P. Parker, a board member, was hit on the head and two other persons suffered gunshot or knife wounds in the fray.

United States Flag Defiled By Ecuadorans

QUITO, Ecuador (UPI)—Mobs dragged the United States flag through the streets and stoned U.S.-Ecuadorian friendship centers Tuesday in the second day of Communist-tinged disorders in this country.

There was no report of new clashes between police and rioters like those in which half a dozen persons were injured Monday. The U.S. flag was defiled by

In Quito Tuesday night, about 20,000 demonstrators shouting "Cuba, Russia and Ecuador!" had staged a "march of justice" to Ecuador's "White House."

President Jose M. Velasco Ibarra

Birds are an offshoot of reptile stock that was laying eggs millions of years before the first bird flew.

Witnesses Say Crew 'Not Sure' In Fatal Firing

FRANKFURT (UPI) —An artillery shell that killed 17 men in the U.S. Army's most disastrous training accident in Germany was fired by an undermanned crew confused about the loading, witnesses told a court martial yesterday.

Two members of the howitzer crew that fired the shell Sept. 2 on the Army's Grafenwoehr training area testified the crew was below strength and not sure of the type of charge used for the shell.

The Army has charged two officers and an enlisted man in the crew with negligent homicide. The charge specifies the shell carried seven bags of powder instead of the prescribed five and resulted in the shell's traveling two miles past its target and landing in an infantry tent camp just after morning roll call.
