

Chinese Factions Agree On Basic Peace Principles

Nationalists, Communists Issue Communique To End Long War

By CLYDE FARNSWORTH
CHUNGKING, Oct. 11 (AP)—Chinese nationalist and communist negotiators for a unified China issued a communique today agreeing upon basic principles of political peace in a nation split for decades by bloody fighting for government control. The communique also set forth the negotiators' willingness to continue the talks which have been underway during a five-week-old truce in the fighting, and to submit complex military and political questions still unsettled to a military subcommittee and a broadly constituted political consultative council.

The statement indicated the determination of nationalist leader Chiang Kai-shek to achieve "unity of political authority" immediately. Mao Tse-tung, leader of the communist forces, said "the outlook is optimistic" as he boarded a plane in Chungking to return to his headquarters at Yenan, Shensi province. He conceded that some points remained to be settled, but he said this work could be done by the military committee and the political council.

Mao was a guest last night at Chiang's Shantung home. They attended a diplomatic reception at national government headquarters observing the Double Tenth.

Truman Reports On Request For More Funds For UNRRA

WASHINGTON, Oct. 11 (AP)—President Truman told congress today only \$20,000,000 of this country's \$800,000,000 appropriation for United Nations relief remained uncommitted Aug. 31. Mr. Truman transmitted the fourth report on American participation in UNRRA as the house appropriations committee began closed hearings on his request for another \$550,000,000 to meet "acute need and privation" in Europe this winter.

"If we should in the coming winter," the president said in a letter transmitting the report, "will depend upon the outside assistance which this country and other countries can render to the liberated peoples."

Mr. Truman added: "The more this task can be speeded up through the early delivery of vitally needed supplies, the sooner it will be possible for UNRRA to withdraw, leaving the liberated peoples on a firm footing to carry on their own life."

The report covered the quarter ended last June 30. Most of the material in the report has been superseded by individual reports made public since June 30.

It did include a few new figures, however. One was a statistical table showing that as of Sept. 15 all 44 nations participating had pledged \$1,882,759,991 to UNRRA. Of this, \$1,268,750,254 had been paid in or is "available on request" toward "operating" expenses while \$15,415,334 had been contributed for administrative purposes.

Howard Co. Cash Balance On Decline

Howard county's cash balance was down to \$216,853 at the end of September, including about \$150,000 in roadway and road bond fund, monthly report of Auditor Chester O'Brien, Sr. shows.

The decline was approximately \$12,000 for the month. Bulk of the expenditures occurred in the road and bridge fund where \$8,613 was disbursed. General fund expenses for the month were \$3,393 and from the officers salary fund \$3,014. Only other fund tapped during September was the jury for \$993.

Revenues for the period amounted to \$4,064 for the month. Balances by funds are: July \$2,694, road and bridge \$38,451, general \$16,027, permanent improvement \$1,650, road refunding \$262, special road \$969, road and bridge special \$475, courthouse and jail warrants \$5,199, viaduct \$214, and road and bridge 1945 series \$150,172.

Kiwanians Hear Talk On Fire Prevention

Kiwanians had a program on fire prevention Tuesday at their meeting in the Methodist church basement.

F. W. Bettie, fire marshal, spoke on National Fire Prevention Week, now being observed, and H. V. Crocker, fire chief, outlined local fire hazards and gave case histories on several blazes. Program was in charge of E. L. Hutchins and Rev. H. C. Moore, president, presided.

PERON QUILTS, FARRELL STILL PRESIDENT—Col. Juan Domingo Peron (right) resigned Oct. 9 as vice-president of Argentina under army pressure and Gen. Edelmiro Farrell (left), though still president, is dominated by Gen. Eduardo Avalos, commander of Campo de Mayo garrison near Buenos Aires. (AP Wirephoto).

Avalos New Ruling Power In Argentina

BUENOS AIRES, Oct. 11 (AP)—Gen. Eduardo Avalos, commander of the powerful Campo de Mayo garrison, took over the Argentine war ministry today as the power behind the military government, but there were indications that Col. Juan Peron, though divested of his cabinet status, remained a strong factor in the confused political situation.

Only a few hours after the government had accepted Peron's resignation as vice president, war minister and minister of labor and social welfare, he delivered a speech last night to an enthusiastic crowd in which he pledged the remainder of his life "to the cause of the working man."

Cries of "Our President!" came from the cheering throng which gathered outside the secretariat of labor to hear the "iron man's" speech, which was nationally broadcast.

(Peron's speech was interpreted in some Latin-American quarters as inaugurating his campaign for designation as president in the general elections which have been promised for April.)

Avalos, leader of the actual fighting which put Peron on a position of power in the 1943 revolution, was designated as war minister last night. As the army spokesman in the government he now is the real power behind the military regime of President Edelmiro Farrell.

The first acts of the government under Avalos' domination included the closing of a half-dozen newspapers, which apparently had rejoiced too freely when Peron stepped down, and naming to key government posts two men who have been friendly to Peron in the past.

The suggestions concerning American lending policy came from the postwar economic policy committee headed by Rep. Colmer (D-Miss.).

Just returned from a two-month tour of Europe the group urged specifically that before any loans are made:

1. Russia be required to adopt an "open door" attitude toward American technicians and the press.
2. Britain unlock trade barriers "impartial" to United States interests.

Congressmen questioned were unanimous in approving the committee's views.

A high administration official, asking that his name not be used, said in an interview: "I can't say this for attribution, but the feeling is almost unanimous in congress for cracking down on Britain and Russia. It's too bad, but that's the way it is."

"However, I think we would be better off to reflect these views to the two nations privately, instead of using a big stick on them in public. Naturally, they will resent a report such as this one."

Kaiser Planning To Make Steel Booming Industry In West
OAKLAND, Calif., Oct. 11 (AP)—Henry Kaiser, a headline figure among the nation's industrialists, said today he was definitely interested in taking over a heavy portion of the steel production on the west coast and running it as an integrated industry.

This would involve purchase of the government owned Geneva plant at Provo, Utah, and the Colorado Coal, Fuel and Iron Corp., installations, in addition to the Fontana, Calif., plant he now owns and operates under an RFC mortgage.

Wage Controls To Be Loosened, Officials Agree

Snyder, Truman Not Known To Share In General Opinion

WASHINGTON, Oct. 11 (AP)—Many reconversion officials are "pretty well agreed" today that the government soon must loosen its wage controls.

This is reported by one of Director John W. Snyder's advisers, although there is no indication that the conclusion is shared by Snyder himself or by President Truman.

Snyder, however, is under strong pressure to set forth a revised wage-price policy to check the wave of work stoppages that threatens to delay reconversion.

Three officials of Snyder's office of war mobilization and reconversion—all of whom asked anonymity—said the economists and advisers in that agency are nearly unanimous in support of a new government policy declaration.

They have suggested that wages could be increased perhaps as much as 15 per cent (OPA officials say something nearer 10 per cent is likely) without increasing the cost of goods more than 2 or 2 1/2 per cent.

Such a government policy would carry assurance to employers that OPA would consider prompt price increases to cover the 15 per cent wage boost. If a higher increase—say 20 per cent—were granted, all the extra 5 per cent would have to come out of the employer's pocket.

Snyder was reported not only gravely concerned by the inflationary threat of such a program, but also puzzled as to how to apply it to specific industries, since labor is a big cost factor in some and a minor one in others.

Mr. Truman has indicated he will need convincing, too.

Rancher Injured Trying To Rescue Child On Road

Louie Hutto, prominent Coahoma rancher, was in a serious condition at the Big Spring Hospital Thursday following injuries sustained when struck by a car as he attempted to rescue his granddaughter from the highway in Coahoma Wednesday at 5:30 p. m.

He sustained severe head injuries and a fractured right leg and had not regained consciousness Thursday noon.

Lt. Vance L. Teague, driver of the automobile, who was enroute to California at the time of the mishap, stopped to give aid, according to reports.

Witnesses said Mr. Hutto had seen the car approaching as his granddaughter, Frances Barber, 4, crossed the highway at the intersection in Coahoma. He dashed on to the street in attempt to shield the child. As the machine veered, Frances was missed but Mr. Hutto was in its path.

He was rushed here for emergency treatment at the hospital. The child is the daughter of John Thomas Barber, overseas with the marines and Mrs. Barber, the former Marion Hutto.

Future Homemakers Elect New President

Marie Frazier has been elected president of the Big Spring chapter of the Future Homemakers of America following its meeting Wednesday afternoon.

Other officers named were Nancy Hooper, vice president, Mary Beth Morgan, secretary, Bitsy Jones, treasurer, and Millie Balch, reporter.

Tax Cut Expected To Pass By Night

Solons Want Bomb House Demands To Approve All Atomic Deals

By WILLIAM F. ARBOGAST
WASHINGTON, Oct. 11 (AP)—A drive to give congress firm control over the atomic bomb began today in the house military committee.

Backed by most republican and a few democratic members, it took the form of an amendment to forbid a proposed atomic energy commission from dealing with foreign governments in any way that might allow the bomb secret to leak out.

Any such deal could be carried on only with specific approval of congress.

As drafted by the administration, the pending bill to set up the commission would permit it to grant foreign licenses for atomic experiments if the president approved.

Another amendment drafted by a group of committee members would forbid the president himself to give the bomb secret to a foreign government without congressional approval.

There is no question in the committee that Mr. Truman now has authority to do as he pleases with the secret, but there is strong sentiment in favor of removing this power and giving it exclusively to congress.

As it now stands, the bill undertakes primarily to control domestic use and experimentation. It calls for creation of a nine-member commission appointed by the president, with the consent of the senate, to exercise rigid controls.

The commission would have power to requisition property and materials, including ore fields from which uranium is extracted.

PATTON LEAVES THIRD ARMY—Gen. George S. Patton (left) hands Third army banner to Lt. Gen. Lucian Truscott as he relinquished command of the Third to Truscott. Ceremony was at Bad Toelz, Germany, Oct. 7. Photo by William C. Allen, Associated Press photographer. (AP Wirephoto by Radio Oct. 10 from Paris).

Boys Home Soon, Mac Announces

TOKYO, Oct. 11 (AP)—General MacArthur gave orders for sweeping social and political reforms in Japan today and announced plans for sending home 1,250,000 American soldiers from the Pacific theater in the next six months.

The Americans will return to the United States at the rate of approximately a quarter of a million a month, leaving by the end of March only 400,000 occupation and garrison troops in the entire far flung Pacific theater.

The announcement further reduced the number of troops which the Allied commander expects to keep in Japan. Previously he estimated 200,000 troops would be sufficient, but today's announcement disclosed that 200,000 would do the job both for Japan and Korea. The total would include four combat divisions on Japan and two on Korea. The balance would be air service and occupation force specialists.

MacArthur met Premier Shidehara for an hour late today, telling the new Japanese government head that the five major reforms needed in Japan would necessitate revision of the constitution and that:

"I expect you to institute them as rapidly as they can be assimilated."

MacArthur likewise put it squarely up to Shidehara to take prompt and "vigorous" action to see that the Japanese people are clothed, fed and housed during the coming winter.

The meeting, at MacArthur's headquarters and initiated by Shidehara shortly after he had completed his cabinet and called on the emperor, came shortly after the allied supreme commander had directed the Japanese government to report within 90 days all foreign exchange assets, including private holdings and foreign properties of the imperial household.

Allied headquarters also announced revocation of permission to the Japanese to operate an air courier and liaison transport service. The job will be taken over by American airmen.

Cost of the war to Japan from July, 1937, to its end was indicated by the commercial daily paper, Nippon Danjyo, which said the Japanese funded borrowings at the end of July, 1945, amounted to 114,289,000,000 yen (\$6,619,266,666).

The reforms which MacArthur told Shidehara must be made in carrying out surrender terms included votes for women, labor unionization, liberalization of education, abolition of all secret governmental police and revision of industrial monopolies.

House Meets Two Hours Early To Start Slashing

WASHINGTON, Oct. 11 (AP)—A \$5,350,000,000 tax cut for individuals and business in 1946 was approved overwhelmingly by the house today. It will now be referred to the senate for approval.

By FRANCIS M. LE MAY
WASHINGTON, Oct. 11 (AP)—The house called its members to work two hours earlier than usual today in an effort to pass before nightfall a \$5,300,000,000 tax cutting bill.

The measure, which also must be approved by the senate, would do this beginning January 1:

1. Guarantee every individual income tax payer a reduction of at least 10 per cent. Total cuts for individuals would amount to \$2,627,000,000.
2. Sweep 12,000,000 low income persons off income tax rolls completely. When the war ended there were approximately 50,000,000 individual taxpayers.
3. Lower corporation tax burdens \$1,888,000,000 by trimming the effective rate of the war-imposed excess profits tax from 85.5 to 60 per cent; reducing the combined corporation normal and surtax from 40 per cent to 36; and repealing next July 1 the declared value capital stocks tax. The bill calls for repeal of the excess profits tax Jan. 1, 1947.

4. Cut back next July 1 the high wartime excise levies on such things as liquor, furs, jewelry, luggage and cosmetics, at a saving of \$553,000,000 to consumers in the last half of 1946. Some \$160,000,000 in taxes on floor stocks under excises also would be refunded to business.

5. Repeal the \$5 automobile use tax, next July 1, relieving the burden on automobile owners by \$140,000,000.

The legislation also freezes the social security tax in 1946 at one per cent each on employees and employers. Without the freeze this tax would jump January 1 to 2.5 per cent.

The bill came to the house floor at 9 a. m. (CWT) under a rule virtually barring any changes. At the request of the ways and means committee which wrote the measure the rules committee laid out procedure prohibiting amendments unless approved by the ways and means group.

French Not Treating Prisoners According To Geneva Rules

FRANKFURT, Germany, Oct. 11 (AP)—U. S. headquarters suspended today the transfer of any further German prisoners to the French after the international Red Cross charged that captives in French hands were suffering from malnutrition and not being treated according to the Geneva convention.

The American army has turned over to the French approximately 700,000 prisoners of war for work in rehabilitating France. An agreement was signed last spring for the transfer of 1,300,000.

The International Red Cross was reported authoritatively to have made representations to the U. S. army a week ago about widespread malnutrition among German prisoners in French camps they had investigated.

The representations were said to have accused the French of not living up to terms of the agreement.

City Men To Honor T. & P. President

Men of Big Spring will honor W. G. Vollmer, president of the Texas and Pacific Railway company, at a dinner on Oct. 23 at the Settles.

The time has been set for 7:30 p. m., and reservations are now being accepted at the chamber of commerce office.

Vollmer was here recently and community leaders prevailed upon him to return soon in order that a gathering might be arranged. Chamber officials urged that reservations be made promptly. The affair will be held in the Settles ballroom.

Urged By Creighton Continued Care Of Tires

"New tires are still scarce," Charlie Creighton said Monday. However, he forecast a bright spot in the automotive future by saying that the new tires will be forthcoming before too long.

Nevertheless, Creighton said, car owners must continue to take good care of their tires. They should continue to take all of the precautions for protecting their tires by avoiding sharp stones and other objects, and easing up on curbs instead of bumping them.

The repair materials for tire recapping and vulcanizing are now easily obtainable, and quick, effective repair work at the Creighton Tire company.

Charlie Creighton said that when the new tires are on the market, motorists can expect much better tire equipment, since wartime manufacturers have made great advances in the production of tires.

The tubes which can be bought now, are greatly improved over those, manufactured before the war, and Creighton predicted that the tires will be of equal quality.

When tires are again plentiful, Creighton's is the dealer for the Seiberling tires.

Creighton is also dealer for Seiberling batteries, which, he declared are almost as difficult to get as are their tires, but when they are available, Creighton will have them.

When civilian production is again in full swing, Creighton plans to stock the best of auto accessories and parts.

Now Creighton is able to offer to his customers the best in fuels in the Magnolia lines.

For the best in repair, and in the future, the best of equipment, car owners are advised to go to the Creighton Tire company at 203 W. Third street.

Miss Latin America

AP Newsfeatures
 THIS romantic looking lady is Uncle Sam's close neighbor, Miss Latin America, who made a big hit when presented to delegates at the recent Pan American Newspaper Conference in Venezuela. Miss Latin America's creator, Leon Helguera, who hopes she'll take her place alongside international symbols like John Bull and Marianne, says the lady is a composite creation.

"Her tall haircomb symbolizes the mother countries, Spain and Portugal. The flowers in her hair, the natural beauty of Latin America. Her long tresses, her Indian origin. Her striped blanket, the cold and temperate climate of the high plateaus. The three rows of flounces on her dress, North, South and Central America. The string of pearls, the isles of the Caribbean. The white in the flag symbolizes peace. Twenty gold stars (the 20 republics) surround a map of Latin America, framed by a gold ring representing unity."

The Nation Today—
CIO Political Action Committee Quietly Laying Election Plans

By JAMES MARLOW
 NEW YORK, Oct. 9.—One year ago the CIO Political Action Committee was very much in the headlines. It was a tremendous influence in the presidential election of Nov. 1944.

Since then you've heard very little of the PAC. But that's because the PAC's work has been less sensational. Since the fall of 1944 it has been doing the spadework necessary for the congressional elections of 1946.

Actually, there are two Political Action Committees. They are the CIO Political Action Committee and the National Citizens Political Action Committee.

The chairman of the CIO Political Action Committee is Sidney Hillman, who was also chairman during the tumultuous period of the 1944 congressional and national elections.

The CIO PAC is now trying to collect one dollar each from every CIO member — there were about 5 1-2 million during the war, although that number must have dwindled sharply.

The CIO PAC is sending out to its membership pamphlets on the very important issues before congress.

It sends its information to the international unions of the CIO. The unions relay this information to their CIO industrial councils—made up of city, county and state groups.

These councils — strictly CIO groups — inform their congressmen of what they think should be voted on in the current session.

Further than that: Groups of these local industrial councils go to Washington to find out what the pitch is on voting, and to make their wishes understood.

In other words: The members of the CIO unions are kept informed on the voting records of the various congressmen.

The CIO PAC headquarters denies that it directly tells its members how they should vote.

MODERN DYES STILL GOOD GI UNIFORMS FOR CIVILIAN USE

An idea which may appeal to discharged servicemen comes from Modern Cleaners, 303 East 3rd. They suggest to you to let them dye your 'still good' uniform in shades of brown or blue.

An officer stationed at the Big Spring Bombardier school who is awaiting his discharge, now is practically prepared to be a civilian. By having his various uniforms dyed, he is able to cut down on the expense civilian clothes bring.

Compliments have been given to Hayden Griffith, owner of the Cleaners, for the fine service given patrons in the fur storage department during the summer. The fur coats are also usually cleaned and re-glazed. Another special service the shop offers is that of relining winter coats. This service has always been offered to assist customers in preparing for winter.

Modern Cleaners have been able to speed up their cleaning service since the war has ended and clean clothes are turned out much more

Local Pin Aces Rout Lubbock

A Big Spring women's bowling team composed of Gypsie Smallwood, Edna Drennon and Mary Ruth Dozier made a victorious conquest of the Lubbock kegling lanes Sunday afternoon, sweeping two sets in as many tries from an all-star aggregation of that city.

Miss Drennon, with a single-game high of 236 and a three-game combine of 539, set a blistering first pace for the Big Spring threesome. For the six games, Edna boasted an average of 173, six pins better than the mark she has maintained in city league play.

Miss Dozier contributed prominently to the win with a six-game tally of 971 and an average of 162 while Miss Smallwood compiled a total of 888 points and had a breakdown of 148 pins per try.

The Big Spring advantage amounted to 201 points in the first series and climbed to 418 for the last three games.

Auditor Scores Open Cases On Justice Court Docket

Action looking toward accounting for the status of undisposed cases in justice court is suggested by Sedgwick & Co., San Angelo, auditors, in the annual County of Howard audit filed with the commissioners court.

The auditor pointed to a "generally unsatisfactory" condition of the criminal docket, showing "criminal cases still open for some reason and/or unpaid at Dec. 31, 1944" in the number of 332 cases.

Such cases, tabulated by years, are as follows: 1941, 123; 1942, 64; 1943, 78; and 1944, 67.

The auditor called the court's attention to the law which requires that the "amount of all fees, commissions and compensations earned" but "not collected, together with the name of the party owing said fees, commissions and compensations" should be made to

the court at the end of each year. It was a further suggestion that the court determine if there is "negligence on the part of any officer charged with the duty to collect such fees."

Outside of insufficient information concerning these open cases, the auditor's report approved all other affairs.

Some of the highlights from the audit were:

Howard county spent \$207,702 in 1944, by funds as follows: Jury \$9,253, road and bridge \$108,859, general \$36,086, road and bridge refunding \$4,879, special road and bridge refunding \$5,038, road and bridge special \$125, permanent improvements \$3,631, courthouse and jail warrants \$1,100, viaduct \$185, and officers salary \$41,568.

During the year the county bought \$5,000 in government

bonds and converted \$25,000 of bonds into cash.

The tax collector's office handled a total of \$250,701 during the year, of which \$147,077 was in taxes and \$98,801 in automobile license fees. Other offices handled much smaller amounts for fees, fines, etc.

The general fund's chief item was for pauper care and welfare work. This totaled \$9,594 and includes appropriations for the health unit and case worker. Of the road and bridge fund's disbursement, \$50,101 went for salaries and wages, the commissioners receiving \$6,972, and the balance for wage earners. In addition, commissioners drew down \$1,200 for car expense.

Out of this same fund, materials and supplies cost \$24,451, gas and oil \$8,899, tires and repairs \$3,689, construction contracts \$12,265, and new equipment \$3,165.

Common school districts of the county had receipts of \$136,208, including a starting balance of \$20,763, and expended \$107,891. Thus there was nearly an \$8,000 increase in the balance.

Rough On Rats—

New Formula Kills Rats In 3 Minutes

A poison so deadly that rats die before they can get back to their holes after taking it, will be used in a new extermination campaign being undertaken here with the aid of the United States Public Health Service.

Terry Lowrey and Joe Albright, sanitarians with USPHS, today launch a new drive on rats in the business area. The campaign has a three-fold purpose: 1) to exterminate rats, 2) to eliminate parasites from them through use of DDT, and 3) to check trapped rats for parasites.

To be used in the work is a comparatively new formula known as 1080. It is so effective that all business operators are asked to remove any and all pets from the building while the formula is out. All a cat or dog has to do is to pick up a rat which has died from it in order to be stricken fatally.

Formula 1080 is an odorless and tasteless liquid which has some peculiar attraction for rats. Tests have shown that they actually prefer it to water. It is placed in small paper containers in places ordinarily accessible only to rats and is all accounted for by the sanitarians.

In one Odessa cafe recently, the operator counted 11 rats which had died before they could get back to their holes, for the lethal dose takes effect frequently in three minutes. One place near Lampasas picked up approximately 200 dead rats after 1080 had been left out for them one night.

Lowrey and Albright will start their work today by setting traps in a few areas and by dusting other business establishments with DDT. Trapped rodents will be combed for parasites (fleas, etc.) and these sent to the state health

When Chico Gets Medal, His Folks Will Be With Him

DALLAS, Oct. 10 (P)—When Tech. Sgt. Cleto "Chico" Rodriguez of San Antonio receives the Congressional Medal of Honor from President Truman at the White House today, his aunt and uncle Regina and Casimiro Fernandez, San Antonio, will be there beside him.

Rodriguez has lived with his aunt and uncle since his parents died when he was four years old. When he was 20 he joined the army and fought with the 37th division.

Chico won the Congressional Medal of Honor for action near the main railroad station at Manila. It was there that Chico and his assistant BAR man, Pvt. Johnny Reed, Tulsa, Okla., dashed ahead of their company, alternately shooting and loading their machine guns.

"Japs were all over the place," Chico related. "I had six hand

grenades and my gun. We advanced pretty fast. I don't see how they missed me. Johnny was killed."

Rodriguez received the Bronze Star for being the first American soldier to enter the Jap fortified legislative building at Manila, and the Silver Star for action at the Manila finance building.

Chico passed through Dallas yesterday on his way to Washington. His only worry was that his sister, Josephine, could not be with him. He hasn't seen her since he was four years old. She lives in Mexico, but where, he doesn't know.

NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 15 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Brushing Up On Regulations

(This is the third in a series of three on nuisances as described in city ordinances... Ed.)

The printing, painting, writing or placing of any sign, writing, advertisement, pictures, characters or other symbols on any street or sidewalk within the city limits.

Any unwholesome food, liquor, or adulterated medicines and all cattle, horses, or hog pens, stables, enclosures, or any place in which any cattle, horse or horses, hog or hogs, may be kept, confined, or placed or left standing, which from use may become offensive to persons residing in the vicinity or to the public.

Any nauseous, foul or putrid liquors, or any other substance or substances, or any liquors or any substances likely to be nauseous, foul, or putrid, discharged, placed, thrown or conducted into or upon any street, alley, sidewalk, gutter, drain, public ground, or any other place, private or public.

The printing, pasting, sticking, or placing of any advertisement, hand bill, or placard of any printed, pictured or written matter upon any house, wall, building, pole or fence, or other property, private or public, without the permission of the owner or person in charge thereof.

The making, keeping or permitting any uncovered opening or hole in or across any sidewalk, street, alley, or public passway or other public place or the making, keeping, leaving or permitting any building material, implement, tool, or any dump made of dirt or other substance upon or in any street, sidewalk or other public passway, unless the same is sufficiently guarded and protected to insure the safety of all persons passing by, over or near the same.

The storing or having on hand for any purpose or in any capacity within the corporate limit of the City of Big Spring by any person, persons, firm or corporation, in any house, store, shop or other building of more than 25 pounds

Teen Aged No Ladies Of Leisure, Their Busy Hands Require Care

OOOH, PRETTY! . . . compact too. A handsome nail kit.

By BETTY CLARKE
AP Newsfeatures Beauty Editor

Teen-age girls often are thought of as young ladies of leisure. But actually their hands are kept almost as busy as Mom's.

If school-age daughter isn't busy with piano and violin lessons, she

is helping Mom with the dishes, mowing the lawn or firing the furnace.

Yet she is at the age when she should be inaugurating a training program for hands and nails.

Honest-to-goodness hard work doesn't go hand in hand with pointed, long nails. So off with the points. Besides it is a little silly for a busy hand to wear uselessly long nails. A strong fingertip is necessary to take all the bumps around the house.

On the other hand, any girl who bites her nails short is sure to ruin her lovely hands. All that is needed is a little determination to omit that bad habit.

What the average schoolgirl really needs is a good manicure ensemble that will fit smoothly in a traveling bag and open up prettily on the dressing table.

It is best to have one that contains all the little essentials—cuticle oil, remover and base coat, tweezers, nail file, emery boards, orange sticks and a plastic cuticle pusher.

A real red polish is popular this fall—a shade that will go with many costume colors.

Livestock Trading Light But Steady

Trading was light at the Big Spring Livestock Auction yesterday due to the rainy weather, but prices were generally high and steady.

Fat calves sold up to 11:50; butcher bulls 10:50; butcher yearlings 13:55; stocker calves 12:00 and stronger. Not enough hogs were offered on the market to determine average, however, steady selling prices were paid.

FINED FOR BEATING

LOS ANGELES, Oct. 11 (AP)—A merchant marine lieutenant, John J. Lynd, who admitted he fatally beat the man he suspected of making love to his wife while he was at sea, has been fined \$1,000 and placed on seven years' probation.

Clark To Oppose Interest Dooming Free Enterprise

DALLAS, Oct. 11 (AP)—Attorney General Tom Clark said here last night that he would wage legal war on any selfish interest that threatens the American system of free enterprise.

Clark spoke at a banquet in his honor, given by friends in his hometown. Some 700 persons were present.

"I am only a small town lawyer," Clark told his friends. "My job as attorney general is just a lawyer's job."

"We are there to see that simple justice is done," Clark said. "Constitutional guarantees must be held inviolate, civil liberties preserved."

For the businessmen of the nation, Clark said the antitrust laws would be enforced for their own protection.

"This means an end to selfish protection of the entrenched, an end to domination and extermination of the small to protect the advantages of the large, an end to the right of dollars to stifle brains, incentive and inventive genius; an end to supernatural cartel conspiracies."

With Clark were Postmaster General Robert E. Hannegan, chairman of the democratic national committee; Edwin W. Pauley, U.S. representative on the Allied reparations commission; J. Howard McGrath, solicitor general of the United States; and Congressman Hattin W. Summers of Dallas and John E. Lyle of Corpus Christi.

In an interview before the banquet, Pauley said he would fly to Tokyo Oct. 28 to make material penalties that will be imposed upon Japan for her war guilt.

"I am going to be as tough as I can be," Pauley said.

Clark will be in San Antonio today and at Corpus Christi tonight.

Group Reinstates Original Oil Order

AUSTIN, Oct. 11 (AP)—The original oil order, authorizing a net daily allowable crude oil production of 1,785,089 barrels daily has been reinstated by the railroad commission to become effective at 7 a. m. on Oct. 12.

Return to full operation of refineries which had been strike-bound brought restoration of the order and set aside revisions which had been instituted to cut production in the face of refinery shutdowns.

The original October order called generally for 21 producing days over the state, with exceptions ranging down to 14 days and up to no shutdown days.

The allowable was 207,152 barrels less than that of Sept. 15, a cut of 10.4 per cent with all districts except the Panhandle sharing the decrease.

Corn Fritters Dress Up Simple Meals

By CHARLOTTE ADAMS
Tomato and Mushroom Soup
Corn Fritters with Bacon Strips
Broccoli
Melba Toast
Fresh Fruit Cup

(Recipes serve four)
Corn Fritters
1 1/2 cups sifted flour
1 1/2 teaspoons baking powder
1 tablespoon melted butter or margarine
1 cup drained, whole kernel canned corn or grated fresh corn
1/2 cup milk
Mix and sift dry ingredients. Combine well beaten egg, corn and milk and add dry ingredients. Mix well. Drop by spoonfuls onto a skillet on top of the stove in butter, margarine or shortening, over a moderately hot flame. Serve with bacon strips.

Fresh Fruit Cup
1 cup sliced peaches
1/2 cup seedless grapes
1 diced banana
4 plums
1 cup cantaloupe balls
2 teaspoons lemon juice
Halve grapes. Remove pits from plums and slice the peaches and grapes. Combine all fruits and chill thoroughly. Sprinkle with lemon juice and serve in chilled sherbet dishes.

Hallow'e'n Occasions Gayest Parties

Hallow'e'n is the occasion for some of our gayest and most friendly parties, for there is an old legend that when neighbors make merry together on All-hallow's Eve their good fellowship frightens away the evil sprites that lurk abroad on that night.

Whether your guests are old or young, refreshments climax the Hallow'e'n gathering. Pile apples in a big bowl and nuts and raisins in another, and serve cookies and doughnuts or gingerbread. As a special treat, make plenty of this Witches' Brew, a tempting beverage combining milk and chocolate and decaffeinated coffee.

If you cut your cookies in the shape of bats and witches, black cats, owls, and jack-o'-lanterns, and arrange them as a centerpiece, they will help decorate your table. And ghost candles, made by dripping wax down the sides of white candles, add a welcome note of eeriness to the feast.

Piquant Sauce, Braised Ribs, Family Favorite

By CHARLOTTE ADAMS
Braised Beef Ribs
Barbecue Sauce
Green Beans
Whole Wheat Bread
Butterscotch Rice

(Recipes serve four)
Barbecue Sauce
1-4 cup butter or margarine
1-2 cups hot water
2 tablespoons vinegar
1-4 teaspoon salt
Dash of black pepper
Dash of red pepper
1-2 teaspoon paprika
1-4 teaspoon chili powder
1 teaspoon sugar
2 teaspoons prepared mustard
1-4 teaspoon Worcestershire sauce
Few drops tabasco
1 teaspoon chopped onion
Clove of garlic
Mix ingredients and heat to boiling point. Remove garlic. Use sauce to baste meat while braising.

Butterscotch Rice
1-2 cup rice
2 cups milk
1 cup brown sugar
2 tablespoons butter or margarine
1-4 tablespoon salt
Scald milk. Add washed rice and cook in double boiler. Cook brown sugar and butter or margarine until syrupy, stirring constantly. When rice is nearly tender stir in syrup and cook until entirely done. Chill and serve with cream.

The Nation Today—Government Doing Patchwork Job Settling Wage Disputes These Days

By JAMES MARLOW
WASHINGTON, Oct. 1 (AP)—Because it has no policy for settling wage disputes, the government is trying to do the job by patchwork.

It does have a policy on wages and prices. The present disputes stem directly from conflict with that policy.

This is the wage-price policy: A boss can raise wages if it doesn't mean an increase in the price of the goods made by his workers.

President Truman laid down that rule right after the Japanese surrender. He wants prices kept down to keep living costs down.

Thus a boss employ just a few workers may be able to raise them without needing to raise prices on the goods he sells.

But it's different with a firm employing thousands of workers if all of them, through their union, demand a large pay hike.

In such a case a firm might feel it had to raise prices if it gave a blanket wage boost.

That cuts to the heart of the

still in existence but is slowly folding up.

Some government economists are talking this way, but certainly not officially.

If the government did permit some price increases—provided they did not mean more than average increase of 2 or 2 1/2 per cent in living costs—business might be willing to meet labor's wage demands, or some of them.

(These economists are not talking about allowing wage increases of 2 or 3 per cent. They're talking about wage increases of perhaps 15 per cent which—with some rise in prices—would not result in an overall rise of more than 2 or 2 1/2 per cent in living costs.)

Praise The Lord

ATKINSON, Neb., Oct. 11 (AP) Reconversion finally has got around to the Rev. W. C. Birmingham's automobile.

Since April, 1944, its gasoline tank has been patched with chewing gum, part of a corn cob and some hailing wire.

Now the minister beamed. Sgt. Dale Stevens, former army mechanic, has agreed "to give me a high enough priority to repair the tank."

HOW TO MAKE SAUERKRAUT
20 lbs. cabbage, 1/2 lb. (1/2 cup) salt
Select firm, sound, mature heads of cabbage. Remove outer leaves; wash well. Quarter, remove core, and slice very fine. Put 5 lbs. (about 7 1/2 cts.) shredded cabbage in a pan, add 2 oz. (1/2 cup) salt and mix with hands. Place in deep crock or tight wooden keg and tamp down firmly with wooden masher in extract juice and force out air. Repeat until all cabbage is used. Press down, cover with a clean white cloth, then with a plate or round wooden board small enough to fit down inside crock, and weight down with a clean rock or brick, to keep cabbage covered with brine that forms as salt draws juice from cabbage. Keep in a warm place, 75° to 85° F. Inspect each day, remove scum with spoon, and rinse cloth in clear water. The kraut will be fermented or "cured" in 10 to 20 days, depending upon the amount of cabbage and the temperature of which it is kept. Its appearance and taste will tell you when it is sufficiently cured. Kraut may be left in the crock or kept off water, in a cold cellar or basement, if care is taken to remove any scum that forms or it may be canned at any time from 1 to 3 months after fermentation is completed. Simply drain off brine, pack cold kraut into hot sterilized glass jars to 1/2 inch from top; heat brine to boiling, pour over kraut, seal and store in cool dark place. Do not process.

TO MAKE KRAUT IN JARS
Mix shredded cabbage with salt, using 1/2 tablespoon salt to each quart cabbage. Pack firmly into clean glass jars. Fill with cold water, adjust covers fairly tight, and store where it will keep comfortably warm and where possible overflow of liquid will do no harm. If scum forms remove it. The kraut will ferment for a few days, and will be ready to use in a month. At that time drain off juice, heat to boiling, pour over kraut again, and seal tight. Do not process.

New Location In County As One Test Abandoned

One new location was announced for Howard county during the past week as a wildcat exploration in eastern Howard was plugged and abandoned.

Bruce & Clardy, Houston, announced location of a 3,550-foot test on his land in section 4-23-1n, T&P, 10 miles northwest of town. This is about three miles north-east of a dry hole drilled by Marland on the Guitard land in 1927 and five miles north of a test drilled several years ago in section 14, block 2, of the B. & C. survey.

Hickock & Reynolds plugged a wildcat on the H. Noble Read ranch northeast of Coahoma at 2,960 feet with a hole full of water. It had light shows up the hole. Location is in section 16-30-1n, T&P.

Lico No. 1 Powell, Snyder pool outpost in section 40-30-1s, T&P, was reported around 2,400 feet. Top of lime was picked at 1,830 feet.

Rumors persisted of a north-central Howard county wildcat in the near future.

Continental's No. 1 Douglas, northeastern Martin wildcat was abandoned at 7,200 feet in sand with no shows logged. It was in section 38-34-2n, T&P. In the Howard-Glasscock area, Continental No. 10-S Settles, section 133-29, W&NW, waited on rotary at 180 feet; A-158 No. 2-S, section 158-29, W&NW, was at 2,971 feet in lime.

Commissioner Says To Register War Trophies And Guns

Joseph D. Nunan, Jr., commissioner of internal revenue, has urged families and veterans of the armed forces to register and safeguard all machine guns and similar automatic weapons which have been brought into the country as war trophies.

"We have hesitated to do anything to hinder service families in the enjoyment of their richly-earned trophies of war," said Nunan. "However, our attention has been called to several instances in recent months where criminals have stolen or otherwise acquired war trophy guns and have used the weapons for criminal purposes."

Thus, he urged that the law requiring immediate registration of firearms of the automatic type be complied with. Veterans or families with such type of weapons, though they may be war trophies, were urged to contact in person, by telephone, or mail the nearest office of alcohol tax unit, Bureau of Internal Revenue or to write Nunan in Washington. His bureau, said Nunan, would be happy to assist families in making the pieces permanently inoperative as a safety measure. If it is thus adjusted, the payment of a \$200 tax in exchange or such pieces is not required.

First Cold Wave Of Season Hits Texas

By The Associated Press
Amarillo and Pampa registered low 44's today as the first cold wave of the season hits the greater part of Texas. Rainfall accompanied the brisk temperatures.

Only in South Texas did Texans enjoy mild weather. Brownsville and Corpus Christi registered 75 and 74, respectively, today.

North and West Texans dug out their earmuffs and raincoats however. Some of the low temperatures were at Dalhart, 45 degrees, Sweetwater, Marfa and Clarendon 46, Midland 48 and Wink and Big Spring 49.

Heaviest rainfall was reported in the Corsicana area, where three inches fell in the past 24 hours, damaging bottom crops. Heavy rainfall was reported today at El Paso and Waco, each registering more than an inch. Lubbock, Abilene, San Antonio, Laredo and Plainview all reported moderate rainfall.

More Moisture On Record For October

Another 38 of an inch of moisture was added Tuesday to the total of the tenacious "wet spell" which has persisted since Sept. 29.

According to US weather bureau tabulations, this brought to 2.40 the amount of rain for October and 3.77 the total since brisk showers ushered in the spell.

Chances were that there would be still more showers before it is over, for more cloudy weather was forecast for Wednesday with rising temperatures. The overcast and precipitation are resulting from a high pressure area which became stagnated as it moved to the west. Until the air mass moves or rains itself out, little relief is predicted.

Released In Custody

Eddie Previo, intercepted here by city police last weekend after he was reported to have fled the State Reform School for Boys at Gatesville, has been released to the custody of his brother, M. C. Previo of Comanche, Texas.

He had been confined in the county jail.

DECORATED—Lt. Charles Austin Burch, Big Spring, is shown receiving his Silver Star decoration from Col. Sloan G. Stewart, director of the medical division of McCloskey General Hospital. Lt. Burch, who was with the engineers, earned his decoration for clearing real mines by hand under fire to permit a halted Yank tank force to advance near Kirchellian, Germany. The incident, which cost him an arm, occurred just after the 8th armored division had crossed the Rhine river in the Ninth Army sector on March 27, 1945. To the right Mrs. Burch looks on as does Capt. Lloyd E. Hatley, Monroe, La., also decorated for gallantry in action.

Harold Holder Liberated From Japanese Prison

Mr. and Mrs. I. F. Holder, route No. 1, have received notice from the war department that their son, Pfc. Harold Leon Holder, has been liberated from a Japanese prison camp.

Pfc. Holder, a member of the famous "Lost Battalion" with the 131st field artillery on Java, has been a prisoner of war since the spring of 1942. For more than a year he was listed as missing in action.

His liberation took place on Sept. 14, according to the war department notice. Before going overseas, Pfc. Holder trained with his national guard unit at Abilene and Brownwood.

Besides his parents, Pfc. Holder has two sisters, Mrs. B. W. Gunter, Monahan, and Glyndia Joyce, 14 months old, whom he has never seen.

Locker Plant At Colorado Opens

COLORADO CITY, Oct. 8 — Open house for Colorado City's frozen food locker plant was held Saturday with 1,500 visitors inspecting the place which will begin operation Monday. Owned and operated by O. A. Ruffin, who moved here six months ago from Big Spring, the plant opening climaxed successfully a movement begun two years ago by the local chamber of commerce, food producers and business men.

The first three attempts to secure a plant for Colorado City with its huge farming territory were marked with wartime difficulties of priorities, lack of material, and lack of proper housing space for the slaughtering, butchering, quick freezing and locker units.

A year ago Mr. Ruffin took over the project. He bought a building at 138 Oak street and work was begun.

The plant contains 540 lockers, 360 of the large size, 180 of the smaller units. Wall insulation of 6-8 inch cork and two layers of plaster were built to hold the temperature and an ammonia type freezing machine installed.

The Ruffin plant is the first in Colorado City, town of 5,500 citizens, and the second in the county. A frozen food locker has been in operation at Loraine for several years.

Echols Brothers At Home On Furloughs

Pvt. LeVern Jay Echols and T/Sgt. Barney Lee Echols, sons of Mr. and Mrs. B. A. Echols, have been visiting home on furlough.

Pvt. Echols, stationed now in Fresno, Calif., spent two years in the Pacific and has the American theater medal, organization citation, good conduct medal, and the Asiatic-Pacific with three battle stars.

Sgt. Echols, with the First cavalry division, served two and a half years in the Pacific and has the Silver Star, the Asiatic ribbon with four battle stars, the combat infantry badge and the Philippine liberation ribbon with one arrowhead.

Police Make Many Weekend Arrests

Over the weekend, arrests were numerous, police dockets show, including 18 persons arrested for drunkenness as well as one woman picked up on a charge of driving while intoxicated.

Twenty-one traffic tickets were issued over Saturday and Sunday with 14 traffic tickets listed as given Monday morning early. One speeding fine was also made.

Three were picked up in the flats for gaming with dice. One girl was arrested for investigation and two other persons were picked up for VD checks.

One man was arrested for unlawful train riding.

Martin-Howard Soil Conservation District News

Norman Read, already a believer in saving water, is preparing to do an even better job of it on his ranch near Coahoma. Recently he had Soil Conservation Service technicians stake a 2,200 cubic yard stock tank on his place. This will bring to four the number that he has planned and constructed in the past 18 months.

By proper placement of the tanks, he has obtained an even distribution of water, which he believes is reflected in livestock gains.

V. H. Wolf and J. O. Haney have had their farms surveyed and terraces are being constructed on the places in the Vincent and Gay Hill conservation roups. Blackie Morris and Lefty Bethell of the SCS laid out the lines.

Albert A. McKinney, cooperater in the east Center Point group, plans to try commercial fertilizer on a portion of his cotton crop next year. Trial applications of this barnyard manure on eroded areas this year proved beneficial. He said improved quantity and quality of cotton in the areas was easily observed.

The rains of the past week will stimulate seeding of small grain for winter pasture during the next few days, according to E. T. O'Daniel, district supervisor. Several cooperaters are planning to seed trial plots of Abruzzi rye this autumn. In several localities in West Texas, the new grain has proven successful, particularly in sandy sections. It has a vast root system which holds soil and supplies good grazing during winter and spring months.

Recently several ponds of district cooperaters have been stocked with fish due to cooperation with federal agencies.

Crops Retarded By Brisk Norther

Prospects of immediate return of warm, clear weather went glimmering Monday in the face of a brisk norther.

The weatherman predicted cloudy and colder weather for this area Tuesday. Already the prolonged overcast and lower temperatures had retarded crops. On Oct. 1 the county had ginned 1,414 bales of cotton, and it is doubtful if a bale has been turned out since that time.

Farmers feared that feed and late cotton will be held back too long by the weather, making both an easy target for an early freeze. This would be especially disastrous since plants now are full of sap.

Intermittent rains, such as the one which brought nearly half an inch at 9:30 a. m. Sunday, might cause damage to matured grain which is still in the head. Sunday the US weather bureau measured .44 of an inch, the US Experiment Farm .41 of an inch.

Swinford Recovering From Voltage Shock

Samie Swinford, Jr., of Coahoma is recuperating in the Big Spring Hospital after being knocked off of a scaffold 10 feet off the ground when he came in contact with a high voltage wire at Cosden refinery at 8 a. m. today.

Swinford is employed by O. W. McCurdy Construction company which is doing remodeling at the refinery. The man was tearing down a scaffold when the accident happened.

Niley Discharged

Pfc. Sammy N. Niley, Jr., nephew of Mrs. C. E. Henderson, Foran, has been discharged from the army after three and a half years service as a paratrooper. He made three combat missions with his regiment, participating in the spectacle of 2,000 men being dropped from the skies. While overseas he married an English girl and she and their son are with him as he resumes his farming operations at Big Spring, his home.

TSG Officers To Attend Austin Association Meet

At least one and possibly all three of the officers of Company E, 34th Battalion of the Texas State Guard will participate in annual gathering of the TSG Officers' association in Austin on Oct. 20-21.

Capt. Dale Thompson, commanding officer for the local unit, was hopeful that he, 1st Lt. Joe Pond and 2nd Lt. James A. Falkner will be able to attend. Highlight for the meeting will be a reception for the 1,200 officers of the guard at the governor's mansion by Gov. Coke R. Stevenson, commander-in-chief of the guard. Other celebrities to speak on the program are Maj. Gen. Claude V. Birkhead, former commander of the 36th division, and Jeff Williams, Chickasha, Okla. There also will be speakers from the national guard bureau, the war department, a member of the house military affairs committee and Gen. Arthur B. Knieker-Bocker, who will discuss the "Present Status of the Guard."

Capt. I. W. Ussery, Odessa, 34th battalion, is attendance chairman for the occasion. Object is at least one officer from every guard unit in the state.

Phone Workers Vote National Unit Authority

Members of the Southwestern Bell Telephone Workers union Friday afternoon voted authority to the National Federation of Telephone Workers to call a strike week if and when deemed necessary.

Final authority on any strike proposition, however, would rest with members when submitted to them.

W. D. Berry, Big Spring, district president for the union, said that 208 members of an estimated 300 who took off from 1 p. m. to 5 p. m. Friday in the district were at the Odessa conclave. In addition, the traffic members here had a meeting and a similar one was held at Pecos.

The resolution authorizing the national federation to take action was adopted without dissenting vote. All locals were represented, said Berry, who emphasized that union members did not regard the Friday interruption as a strike.

"It was the most practical time in which to assemble our membership," he said, "and has been under consideration for the past two or three years. It was not held before for fear it might hinder the war effort."

At the Odessa session members protested the posting and distribution of notices by the Southwestern Bell Telephone company in advance of the Friday stoppage. The company had invited all members to be at their jobs during the afternoon and pointed out that it regarded the interruption as a sympathy strike in which the company was not involved. Some union officials have regarded this as a violation of labor regulations and asked for action on the point.

Victory Quota Set For Howard County

Howard county's quota in the Victory Loan Drive, which starts Oct. 29, will be \$1,020,000.

Of this amount, \$330,000 must be in E bonds.

These quota figures were announced Tuesday by Ira Thurman, county bond chairman, on receipt of word from Nathan Adams, Dallas, state bond chairman.

The drive, first major financing program taken to the people since the end of the war, will extend through Dec. 8. Credit will be given on E, F and G sales through December, said Thurman.

Initial steps toward organization of campaign forces have been taken, said the chairman.

Police Investigate Machine Shop Theft

Police investigated a burglary at Henley Machine Shop Tuesday morning but no arrests were made.

Joseph M. Murfee was arrested and turned over to military police for speeding, reckless driving and passing a stop signal.

Fifteen persons were tried in city court Tuesday morning and five persons paid fines of \$15 and nine paid fines of \$20.

Nine men were arrested for drunkenness Monday and five were picked up for disturbances. Eight traffic tickets were issued.

Negro Scout Leaders Plan For Expansion

Thirteen negro Boy Scout leaders and four executives attended a conference Saturday in the basement of the First Methodist church and made plans for increasing the scope and effectiveness of scouting for negro boys in this council.

T. P. Fowler of Loraine and the Rev. Williams of Sweetwater made reports on the Tyler Scout conference. Pete Hardeman gave a report on the Sweetwater camp and Dr. Latham of Midland spoke on value of scouting for boys.

Local delegation included E. M. Watson, Oliver Reed and Rev. I. C. Campbell.

USES Referrals, Placements High

During the month of September 935 persons contacted the United States Employment Service at 105 1-2 East 2nd, of which 209 were veterans. Referrals to jobs totalled 412 and 305 were placed locally. Complete applications for work were filed by 167.

Ten apprenticeship training programs have been approved and set up in this area. Eight additional programs have been transmitted for approval and several other are to be submitted at an early date.

Current job openings listed at the USES include salesmen, life insurance; sheet metal workers; salespersons, shoes; electricians; automobile painter; linemen; automobile mechanics; tractor mechanics; automobile-radiator man; radio repairman; maintenance mechanic; stock clerk; salesperson; paint; ticket agents; pressers; greaseman; baker helper; laborers; kitchen helpers; janitors; veterinary hospital attendant; yardman; hand truckers; dishwashers; sewing machine operators; elevator operator; telephone operator; room clerk; maids; bread dough paner; waitresses; stenographer; housekeeper; chambermaids; secretary; child monitor; typist; salesclerk and general office clerk.

AWARDED: Lt. Col. Harold H. Griffith (pictured above), husband of Mrs. Harold H. Griffith, 2123 29th, Lubbock, has been awarded the Bronze Star medal for meritorious achievement in connection with military operations in Italy. Col. Griffith is at present real estate officer in the Peninsular Base section, Lexington. He has been overseas since April 1943 and served in Africa as well as in Italy. For his consideration of the Italian civilians, he has been awarded the order of the crown of Italy by Prince Umberto. He is the son of Mr. and Mrs. L. Griffith of Big Spring.

Too Many Fires For Size Of Big Spring, Firemen Emphasize

Firemen don't hesitate to say 190 fires are too many for a town like Big Spring to have in one year. In actual figures it leaves only 175 days of 1945 without a fire report, that is if the fires happened one each day.

Forty-two of the fires were started by careless cigarette smoking and children playing with matches caused 24. Twenty-three were caused by a short in the wiring and 18 by rubbish. Leaking gasoline caused ten fires and oil stoves caused seven. Four fires were from electric motors.

These fires were listed in a 12-month period from last fire prevention week until this fire prevention week, Oct. 7-13, said H. V. Crocker, fire chief.

Fire Reported During Fire Prevention Week

First fire during Fire Prevention Week which began Sunday was reported by firemen when they answered a call to 1409 E. 3rd Sunday afternoon.

A short in wiring caused a Gulf Service Station pump to ignite with slight damage done.

County Tuberculosis Group Plans Quota Campaign For Year

A quota of \$4,500 has been set by the Howard County Tuberculosis association during its campaign from Nov. 19 to Dec. 25, it was announced Saturday.

The money is to be used to continue the tuberculin patch tests for all school children and for X-raying positive reactors. It also will be used to redouble health education activities, teaching the cause and methods of prevention of tuberculosis, and for expanding case finding facilities among the Latin-American population, and, if funds permit, among industrial workers.

More than half of the county's school children were given the patch tests due to the associations work last year.

Christmas seals, which account for the bulk of the association's funds, have arrived. They feature a lad carrying home a holiday wreath. A white house with picket fence is in the background and opposite the youth is a red, double-barred cross, emblem of the crusade for health.

Since 1904 the national campaign for funds to combat tuberculosis has been in full swing. At that time tuberculosis was the leading cause of death. Now it has fallen to seventh place but still kills more persons between 15 and 45 years of age than any other infection.

Bulk of the funds stay at home for the local program. A small part goes to the state and only five per cent goes to the National Tuberculosis association.

William Bagley Gets Along 'Fine' He Says

William R. Bagley, son of Mr. and Mrs. W. H. Bagley, recently liberated from the Japanese prisoner of war camp at Osaka, has written his parents that he is getting along satisfactorily. Meantime, the war department has notified the parents that his physical condition is "fair." They are hoping he will be able to be moved to the States soon.

Polio Case Reported From Local Hospital

One poliomyelitis case from Stanton was reported to be in a local hospital, health officials said Saturday.

Ten virus respiratory infection cases were included in the weekly communicable disease report and also six cases of typhus fever.

Five persons had impetigo and four diarrhea. There were two cases each of syphilis and gonorrhea.

Fire Losses Much Heavier In 1944

Fire losses in Big Spring amounted to \$41,862.67 in 1944 according to F. W. Bettle, fire marshal, compared with \$16,694.53 loss for the first nine months in 1945.

Largest fire month for 1945 is September with losses amounting to \$7,385 and the only month which nears that is June with \$3,861.10 losses.

Fire losses were more consistent each month in 1944, but figures jumped in March when an estimated \$25,500 loss was reported on the cotton compress.

The total to Sept. 30, 1944 to the same time this year is over twice the figure for 1945 with \$41,154.90 compared to \$16,694.53.

It will be the goal of the city of Big Spring to keep the 1945 fire costs below the last three months total in which was 1944, \$707.77.

Solicitations Open For Victory Chest

Initial solicitations were made today for the Howard County Victory Chest following a kick-off meeting of the special gifts committee.

G. H. Hayward, chairman of this committee, said that workers were being urged to complete their contacts within a week in order to clear the way for the general solicitation in behalf of the fund.

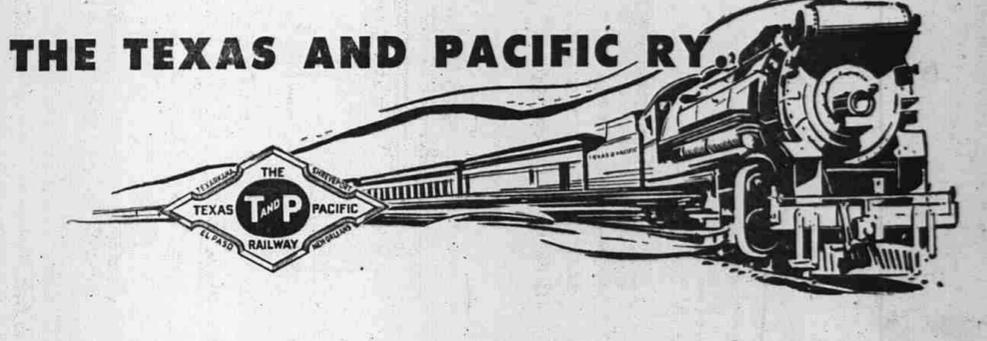

The budget this year is over \$29,000 and includes \$12,000 divided among Boy Scouts, Girl Scouts and Salvation Army in Big Spring and the balance for the National War Fund, which covers USO, Seaman Relief, Allied Refugee Relief, and a number of other recognized agencies participating in the single drive.

Morgan Discharged

Included in list of Eighth Naval District personnel discharged from the navy recently under the point system was J. C. Morgan, machinists mate, first class, of Big Spring. He was discharged at Bremerton, Wash.

Your NEIGHBOR...
"In the Southwest, folks are friendly. They work together, plan together and play together."
"The Texas and Pacific is a part of this neighborly atmosphere, for in every town and city up and down its line through Louisiana and Texas, thousands of its employees take an active part in the affairs of their home towns."
"And, like a friendly neighbor who lives next door, the Texas and Pacific is ready to help, too. We are genuinely interested in the welfare of every town we serve—and are sincerely anxious to further their development and progress."
"Your constructive criticisms and suggestions are earnestly solicited."
W. G. VOLLMER, President.

Red Cross Needing Volunteer Workers

Volunteer workers are urgently needed to assist with work which is being done at the Howard-Glasscock Red Cross office on clothes for refugee children in Europe. One thousand yards of material was issued to the Howard-Glasscock chapter to be made into younger girls' dresses with sizes ranging from eight through 14. The quota of sewing must be completed in two months and to date, one month after the material was received, only 29 garments have been completed.

Church groups, clubs and other women's organizations are urged to contact the office if services can be offered.

Mr. and Mrs. Sneed Parents Of New Son

Mr. and Mrs. Fletcher Sneed are the parents of a son born Monday in a local hospital. The boy weighed six pounds and four ounces, and has been named Boaz. Maternal grandparents are Mr. and Mrs. W. E. Boaz of Mexia. Mrs. W. B. Sneed is the paternal grandmother.

Texan Advocates Social Security For Civil Toilers

WASHINGTON, Oct. 11 (AP)—Municipal and state employees throughout the country should have the old age retirement benefits of the federal social security program, says Rep. Beckworth (D-Tex.).

Working today on an amendment he plans to introduce to the social security act, the Texan in an interview voiced his own views and made public parts of a letter from Wator B. Miller, acting administrator of the federal security agency.

"There's no reason why the city firemen in Tyler, Tex., or Walla Walla, Wash., shouldn't enjoy the benefits of this law," he commented. "The same thing goes for the thousands of highway workers and others employed by city and state governments."

"This amendment I am drafting would broaden the federal act so as to cover these individuals."

Seeking counsel from the federal agency which administers the law, Beckworth inquired and received from Miller a reply, part of which follows:

"Public employees were originally excluded from the program because of doubt as to whether it would be constitutional to levy the employers' tax upon states and localities."

"For this reason, if legislation is enacted, it might very likely take the form of an amendment permitting the governmental units to elect coverage for their employees on a voluntary basis. The provisions should be such as not to endanger any rights of workers under existing retirement systems."

FOR SHOWERS: Smart and handsome raincoat in tightly-woven cotton poplin, zelan-treated for water repellent duty. Can be washed or cleaned repeatedly.

Typhoon Damage Heavy In Okinawa

NEW YORK, Oct. 11 (AP)—John Adams, CBS correspondent, said in a broadcast from Manila today that 90,000 soldiers had been left without quarters, five killed and a score wounded in the typhoon which struck Okinawa island Tuesday.

Several correspondents on the first plane to take off from Okinawa since the storm reported "damage so great that, had it come a month earlier, it could well have changed the entire pattern of our occupation," he said.

Wild Ducks Mix Up Own, Farmer's Grain

WASHINGTON, Oct. 11 (AP)—Wild ducks have a tough time deciding which is a farmer's grain field and which is grain in their own refuges.

So, an airplane is used in some cases to "herd" large flocks from angry farmers' fields.

Acting Director Albert M. Day of the fish and wild life service, in a letter to Senator Young (R-ND) says that is one method employed to abate crop damage by wild ducks.

Other methods: Scarecrows, bombs in "aggravated cases," and in extreme cases "some of the offending ducks were shot."

Livestock

FORT WORTH, Oct. 11 (AP)—(USDA)—Cattle 3,700; calves 2,900; all classes cattle and calves active, steady at the week's advances; medium and good slaughter steers and yearlings 11.75-14.00; load lots of steers and yearlings 13.00 and 13.60; common grassers 9.00-11.50; medium and good beef cows 9.00-12.50; cutters 7.00-8.00; canners 5.50-7.00; bulls 7.00-9.50; good and choice fat calves 12.00-13.25; medium grades 11.00-12.00; stocker calves and yearlings 13.00 down.

Hogs 25; active and steady; good and choice 140 lbs. up 14.65; sows 13.90.

Sheep 1,000; medium and good fat lambs 11.00-12.00.

Trick Of Week—Team Up Fur Hat, Mittens, Belts

LITTLE FOXES... Bandeau and bulky mittens in lush lynx-dyed blond fox.

DUMMY ALARMS MOTORIST

INDIANAPOLIS (UP)—Pranksters led Hubert Acree of Indianapolis to believe that he had killed a man. He jumped out of his car to investigate after he struck an object in the middle of the street. A limp body, clad in short brown pants and a boy's jacket of bright green, led him to fear the worst, so he was both mad and glad when he found his "victim" was only a straw-filled dummy.

TINY HEIFER BORN

SULLIVAN, Ind. (UP)—A small Jersey cow on the Robert Wheaton farm near here recently gave birth to a tiny heifer weighing only 26 pounds and standing 20 inches high. The 24-inch-long calf resembled strongly a baby fawn and appeared more active than the average calf, Wheaton said.

WRONG WINDOW

THERMOPOLIS, Wyo. (UP)—Postoffice workers at Thermopolis are still laughing at an apparent protege of the absent-minded professor, who ordered a cup of coffee at the general delivery window. "Gosh," said the man, snapping his fingers, "I thought I was getting breakfast."

Teen-agers as well as their big sisters can make a little fur go a long way by judicious choice of accessories this winter. A fur belt can add terrific swank to a simple wool dress. A fur handbag can give a luxurious touch to an otherwise plain outfit. And a fur hat with mittens to match can make a bread-and-butter costume into a sensation.

Fur hats nowadays often are beyond the reach of the junior budget, but careful shopping can turn up some thrifty and youthfully styled treasures.

CITRUS IMMATURE

McALLEN, Oct. 11 (AP)—Preliminary maturity testing of Rio Grande valley citrus fruit, which may move to market next week, is well under way but early reports from testing stations indicated less than half of the fruit was passing state standards.

Now Many Wear FALSE TEETH With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate color" (denture breath). Get FASTEETH at any drug store.

Beyond the Blue Horizon!
All that Glitters is NOT Gold!

New Appliances will come out soon—some will be unknown brands that have been hurriedly manufactured for the purpose of making quick sales. Here at Big Spring Hardware we don't intend to take a chance on stocking appliances of doubtful value. We're going to wait until merchandise of established quality is available. We're advising all of our customers to do the same thing.

Below we are listing the well known appliances we have arranged to carry. You'll recognize the names—you'll agree on their dependability—wait for them—they will serve you well!

Hoover Vacuum Cleaners	Maytag & Bendix Ironers
Admiral Refrigerators	Dearborn Gas Heaters
Zenith & Admiral Radios	Deep Freeze Frozen Food Cabinets
Maytag & Bendix Washing Machines	Dearborn Space Heaters
Admiral Electric Ranges	Day & Night and Security Water Heaters
