# Ratification Of U.S.-Japan Treaty Topples Pro-Western Premier Kishi

City Election Called For

## Plainview Okays Dam Costs

**FIRST BALE** — Ray Barnick of Mission, cotton farmer, is all smiles as he brings in the first 1960 bale of cotton in the United States. Barnick, escorted by Hidalgo county sheriff E. E. Vickers, right, delivered first bale to Harlingen police station to claim minimum prize of \$1,500 plus what the bale brings at auction.

Plainview adopted a resolution calling for a city election on proposed distribution of charges and costs of construction of the Canadian River Dam and water distribution system Wednesday, thus becoming the last to do so of the five cities which will be paying the actual construction cost of the dam.

## Pampa Climbs To 42nd Place In Population

Pampa climbed from 44th to 42nd in population among Texas cities, according to figures released Wednesday by the United States Census Bureau.

The Pampa population was listed as 24,303, as compared to 16,583 in 1950. The population of Gray County climbed to 31,114, an increase over the 1950 figure, which was 24,728. The county growth was its largest since the 1920-1930 decade when the population shot from 4,663 to 22,090.

Houston staked claim to being the largest city in the state, with a population of 932,680.

Other leading cities and their population included Dallas 672,029; San Antonio, 584,471; Fort Worth, 356,149; El Paso, 271,903; Austin, 184,850; Corpus Christi, 166,717; Amarillo, 137,083; Lubbock, 128,068; and Beaumont, 118,471.

Wichita Falls was the only other Texas city to go over the 100,000 mark. Its official population was listed as 101,940.

## Dems Ask Nixon Aid

WASHINGTON (UPI) — Per-turbed Democratic school aid supporters challenged Vice President Richard M. Nixon today to help them salvage the federal school aid legislation which was wrecked by the House Rules Committee.

The conservative-dominated committee refused Wednesday to permit a conference to iron out differences between bills passed separately by the Senate and

House. The surprise action stunned backers of the legislation.

The committee's 7-5 vote saw all four Republicans join three Southern Democrats in opposing the conference.

Rep. Frank Thompson Jr. (D-N.J.), author of the House bill, challenged Nixon to persuade Republicans on the rules committee to seek reconsideration and to switch votes.

Thompson called the solid GOP vote against the conference a "reputation of Nixon in no uncertain terms."

The vice president's press secretary told newsmen last week that Nixon was working with House GOP leaders to clear the way for a conference on the school legislation.

Thompson and other Democratic backers had counted on Rep. B. Carroll Reece (R-Tenn.) to vote for the conference because he had voted to clear the House bill when it was stalled in the rules committee earlier this year.

Nixon had no immediate comment on the situation. So far, it was learned, he had not intervened in an effort to win a committee reversal.

The Senate-House dispute over school legislation centers on aid for teachers' salaries and an anti-segregation amendment.

Rules Committee Chairman Howard W. Smith (D-Va.) pressed school aid supporters Wednesday for assurances that the anti-segregation amendment would be dropped if the conference was permitted.

Four likely members of the House conference contingent said they would favor eliminating it, but could give no ironclad assurances this would be done.

## Loyalty Oath Miffs Byrd

WASHINGTON (UPI) — Sen. Harry F. Byrd (D-Va.) announced today he would defy Democratic Chairman Paul M. Butler's demand that a personal loyalty pledge be signed by delegates before being awarded seats to the party's national convention.

Although he has been named a delegate to the convention, Byrd told a reporter that he had not yet decided whether to attend.

But Byrd made it plain he would fight a proposal made in a National Press Club speech Wednesday by Butler.

Butler said it was his "guess" that the national convention would ask for signed although not sworn statements from any delegates who refused to support the Democratic national ticket in 1952 or 1956. He said these statements should commit any such delegates to support the nominees and platform of the 1960 convention.

"I won't sign any oath," was Byrd's comment.

## Ike Concerned With Keeping Party From Being Drubbed

HONOLULU (UPI) — President Eisenhower is determined to do everything within his power to keep the Republican Party from being drubbed in this contentious political year for his failure to visit Japan during his just concluded trip to the Far East.

Eisenhower, resting and contemplating the results of his trip in seclusion on the windward side of this beautiful island, is convinced that much of the domestic criticism of the Japanese debacle is politically inspired and, he thinks, without justification.

## Vacation Value Days Kicked Off

Vacation Value Days begin today, with 62 merchants participating, and will continue through Saturday. Emphasis is being placed on extra values in the stores taking part during the three-day promotion.

The program, sponsored by the Merchants' Activities Committee of the Chamber of Commerce, is the first such program in Pampa.

Frank D. Smith is chairman of the committee.

## Castro Opponents Join In Pact

MIAMI (UPI) — Five Cuban revolutionary groups, including three once linked with Fidel Castro's 26th of July movement in opposition to Fulgencio Batista, Wednesday announced signing of a cooperative pact opposing Castro.

The group, which calls itself the Democratic Revolutionary Front, (FRD) signed their pact in Mexico City. A statement by the group was released here.

## SEAMY SIDE

WASHINGTON (UPI) — The District of Columbia procurement officer has sent 1,400 new pairs of policemen's pants back to the manufacturer, with the following instructions: For modesty's sake, sew the seams in the seats with stronger thread.

The officer said the seams began to give way even before the trousers were handed out to the officers.

If it comes from a hardware store we have it. Lewis Hyde, Wichita Falls.

## Compromise On Eichmann Case Reported

UNITED NATIONS, N.Y. (UPI) — A compromise solution to the Argentine-Israeli dispute over Col. Adolf Eichmann was reported near completion today.

The plan, worked out primarily in Europe but also circulated among diplomats here, was believed to have Argentina's tentative approval.

It involved a bit of legal razzle dazze whereby Eichmann, currently in an Israeli prison after his abduction from Buenos Aires, would be "surrendered" to the Argentine Embassy at Tel Aviv.

Formal extradition then would take place within minutes, and the notorious Nazi, accused of direct responsibility in the deaths of six million Jews during World War II, would be "returned" to Israel for trial.

There was no immediate comment on the plan from either Argentine Ambassador Mario Amadeo or Israeli Foreign Minister Mrs. Golda Meir, opponents in a so far mild Security Council debate.

U.N. diplomats were confident, however, it could go far in satisfying Amadeo's resolution demanding "adequate reparation" from Israel for a violation of Argentine sovereignty.

The resolution did not mention previous Argentine demands for Eichmann's return, thus leaving the way open for conciliation.

**ORBIT OVER RUSSIA** — The U.S. fired a double satellite into high orbit over Russia from Cape Canaveral, Fla., to make Earth and space navigation more accurate. Drawing shows "piggyback" Naval Research Laboratory solar radiation measurement satellite as it is released from Transit 2-A satellite (bottom) by spring force following orbital injection. It then travels in its own orbit as an independent experiment.

## Subsidized Medical Care Bill Sails Through House

WASHINGTON (UPI) — The House today overwhelmingly approved legislation designed to provide subsidized medical care for about 500,000 to 1,000,000 needy persons over 65.

The vote was 380 to 23. The measure now goes to the Senate where a determined fight will be made to expand it to provide hospitalization and other medical care benefits for all elderly persons on the social security rolls.

The broader program is sought by organized labor. Some version of it is backed by every one of the three Democratic senators in the running for their party's presidential nomination.

The House-passed measure falls far short of the coverage proposed by organized labor and the alternate plan proposed by the Eisenhower administration. Both of these plans would offer benefits to more than half of the 16,000,000 persons over 65.

The House Wednesday set the stage for a roll call vote by refusing on a voice vote to send the limited medical care bill back to committee.

The bill was voted on under a no amendment procedure which barred consideration of any changes.

The House bill would offer federal matching grants, effective July 1, 1961, to states which agreed to expand their public assistance programs to include medical care for older persons in lower income groups.

About 500,000 to 1,000,000 persons over 65—not eligible for public assistance but who can't afford to pay their medical bills—would be required to meet state qualifications of need.

The plan would cost the federal government an estimated 185 million dollars in the first year and states would put up another 140 million dollars.

## Weak Cool Front Edges Into Texas

By United Press International

A weak cool front moved into the Texas Panhandle today but the Texas weathermen said neither the front nor a few late afternoon showers was expected to keep the mercury from soaring to the 100 mark again.

The forecast was for temperatures between 95 and 105 in South Central, North Central and Southwest Texas in the 60s in East Texas and up to 100 in Northwest Texas.

A few thundershowers were expected in all sections by evening. Skies were partly cloudy to cloudy over much of South Central Texas, along the Gulf Coast, in the El Paso and Presidio areas and from the South Plains through the Panhandle Wednesday but cloudless elsewhere.

The only precipitation measured Wednesday was .03 of an inch at Brownsville and a trace at Dalhart. The meager rainfall followed a day of sizzling temperatures that boosted the mercury to 100 or above in at least a dozen Texas communities.

Presidio had a top reading of 112, followed by 106 at El Paso, 103 at Wind and San Angelo, 104 at Midland, 101 at Abilene, College Station, Laredo, Lubbock and 100 at Alpine, Mineral Wells and Wichita Falls.

## Houston Is Larger Than Rhode Island

By United Press International

Houston unofficially is larger than the state of Rhode Island today.

The Houston city council, in a move ostensibly to halt the "wild, rash" of land annexation by cities along the Houston ship channel, today all of unincorporated Harris County Wednesday night.

The council emphasized that the move was only a "temporary stopgap" to protect the city's interests "until settlement can be reached to determine justifiable land additions for all concerned."

A Texas House investigating committee meanwhile was probing into annexation problems in the Beaumont-Port Arthur area. The committee opened a four-day investigation Wednesday on the campus of Lamar Tech College at Beaumont. It is the first of four such investigations to be made.

The Houston annexation ordinance, passed in a special session of the city council, was approved by a 6-2 vote. Mayor Lewis Cutler and one council member opposed it.

## Boy Kills Girl On 'Sudden Urge'

NEW YORK (UPI) — A 12-year-old boy acting on "a sudden urge" Wednesday night hurled a five-year-old girl to her death from a four-story Bronx tenement police reported.

Police quoted the boy, whose name was not disclosed, as saying he was playing in the street with little Marisa Agular when the urge to throw her from the roof suddenly came over him.

He said he coaxed the child onto the roof where he hung her over the parapet.

The girl earlier had been reported missing after having last been seen playing with the older boy. Police searching for her found her body in an arway of the building from which she was hurled.

## No Major Protest Following Signing

TOKYO (UPI) — The United States formally assumed responsibility for the defense of Japan Thursday but the act toppled from power the man who had worked hardest for it, Prime Minister Nobusuke Kishi.

Minutes after U. S. Ambassador Douglas MacArthur and Japanese Foreign Minister Aichihiro Fujiyama signed the revised treaty of mutual cooperation and security, Kishi announced he would resign.

## Dam Bill Approved

WASHINGTON (UPI) — The Senate Foreign Relations Committee this morning approved a bill authorizing construction of Amistad (Diablo) dam across the Rio Grande near Del Rio.

An amendment was attached later to require all power features to be "self liquidating."

The final signing and exchange of articles of ratification were arranged on an hour's notice to avoid a leftwing demonstration by fanatical Zengakuren students.

The ceremony went off smoothly but later 5,000 demonstrators held a memorial rally in downtown Tokyo for a coed who was killed in a riot last week. Then they marched on the Diet building and from there moved to Kishi's residence where they started shouting anti-government slogans and doing a snake dance.

The government prime minister did not say just when he would step out of office, thus making it clear he intended to play a decisive role in the choice of his successor.

Kishi's announcement touched off political infighting in the faction-ridden Liberal Democratic Party.

Kishi had successfully controlled various party factions since he became premier Feb. 27, 1957, but the tremendous pressure that built up over the U.S.-Japan security treaty proved too much.

Violent opposition from left-wingers and Communists and sniping by political enemies within his own party led to his decision to resign.

Kishi had been under particularly heavy fire ever since he used his parliamentary majority to ram ratification of the treaty through the lower chamber of the Diet (Parliament) May 20. The opposition accused him of using "tyranny of the majority."

This led directly to bloody left- (See RATIFICATION, Page 4)

## Red China Raps Khrushchev's Change In Party Line

TOKYO (UPI) — Red China took issue with Soviet Premier Nikita S. Khrushchev today by charging that "capitalist governments are 'vicious and unchangeable' and that the Communist world had no choice but to 'organize strength to fight them.'"

The declaration, published in the official Peiping Peoples Daily and reported by the Communist New China news agency, served as an open rebuke to the comparatively moderate line proclaimed by Khrushchev in Bucharest Tuesday.

As is always the case when Communists get in an ideological battle, no names were used and Khrushchev thus was not singled out for criticism. But the split in views was clear.

## 4th Union Eyes Terms

## Rail Unions Near Wage Settlements

CHICAGO (UPI) — General chairmen of the 45,000-member Brotherhood of Locomotive Firemen and Enginemen met today to decide whether to accept a pattern wage settlement with the nation's railroads.

The pattern offer of a 4 per cent wage boost was accepted Wednesday by the 107,000 member Brotherhood of Railroad Trainmen, largest of the operating unions.

The Trainmen became the third largest brotherhood of on-train employees to settle their differences with the carriers.

Government arbitrators earlier this month awarded the Brotherhood of Locomotive Engineers a 4 per cent increase and the Order of Railway Conductors and Brakemen subsequently accepted the pattern.

The Trainmen's agreement provides for a 10.2 cents hourly increase over the next 16 months. One-half of the increase will take effect July 1 and the other half March 15, 1961. The agreement will expire Nov. 1, 1961.

Theodore Short, spokesman for the railroad bargaining teams, said the wage boosts for the Trainmen would cost the carriers 80 million dollars a year.

Short said the wage boosts mean that "unless ways to cut the exorbitant cost of featherbedding waste are found, rates must be increased and jobs eliminated."

"In an industry where earnings have been going down steadily in recent years, it is obvious that any increase in wages at this time is going to hurt the general public."

**NEW OPTIMIST OFFICERS** — The Breakfast Optimist Club installed new officers and directors at its meeting this morning. Directors, standing from left, are Kendall Green, immediate past president; Gene Tollison; Walden Haynes, Forest Cloyd, Al Smith and Vincent Simon, secretary. Officers seated, from left, are vice presidents Lindy Houck and Curtis Griffin and president Henry Gindorf. Directors Roger Farrow and Bill Sims weren't present. Cameron Marsh, new principal of Pampa High School, performed the installation ceremonies. (Daily News Photo)

### Mainly About People

The Evening Lions Club will begin a program Saturday of painting trash barrels at \$50 a barrel. Anyone wishing to have a barrel painted can contact B. G. Gordon, president of the club, at MO 4-8313.

**Zion Lutheran Ladies Aide** — rummage sale Saturday, June 25 323 S. Cuyler.

**Mrs. Aubrey Jones, Mrs. Austin Riddick, Mrs. Margaret Martin, Mrs. Sallie B. Holcomb and Miss Lella Clifford** are attending a phonics workshop at Monmouth College, Monmouth, Ill.

**Mahor and Mrs. G. O. Keahey**, College Park, are visiting their parents, Mr. and Mrs. V. S. Keahey and Mrs. C. B. Bell. Also visiting in the home of Mrs. Bell are two granddaughters, Miss Barbara Kirk of Oklahoma City and Miss Linda Bell of Dallas.

**Gray County Sheriff Rufe Jordan** and Texas Ranger Bill Henning were guests at a joint Texas-Oklahoma law enforcement officers meeting at Oklahoma City. The meeting was sponsored by the Oklahoma Bureau of Investigation. Representatives from the Kansas Highway Patrol also attended the party.

**Martha Lou Kelley**, daughter of Dr. and Mrs. Frank Kelley, 1715 Christine, is among 300 junior high and high school musicians enrolled in a two-week summer band school under way at Texas Tech in Lubbock.

**Robert M. Wade**, son of Mr. and Mrs. Wade of Groom and husband of the former Miss Myrna J. Maxwell of Fort Worth, was graduated on June 10 from Officers, Candidate School at Newport, R. I. Ensign Wade was also graduated from Texas Texas Technological College, Lubbock. Instruction in the 18-week course prepares student to assume the duties of junior officers ashore or afloat. The class, composed of college graduates and outstanding personnel will now undergo aviation training, while others will go into more specialized naval training.

**Mrs. Bill Nichols, 2900 Mary Ellen**, is a patient in Worley Hospital. **Mrs. B. Blaine Nutt**, Travis School teacher, has just returned from a Reading Workshop held in Central State College, Edmond, Okla.

### Scout Council Aquatic Camp Set July 17-23

The annual Aquatic Camp of the Adobe Walls Council of Boy Scouts will be held July 17-23 at Camp Kiowa near Canadian. The camp will consist of an week of work on the waterfront consisting of swimming, rowing, canoeing and work on life saving merit badges and scout life guard rating.

The camp will be set up as a provisional troop which means that Scout troops and Explorer posts who have boys at the camp will not have to have their own leaders with the boys. The camp is open to any Boy Scout or Explorer who has passed his first class swimming test.

The fee of \$15 covers the cost of all meals and materials needed for the camp.

Limited to 48 boys, registration is being conducted on a first-come, first-serve basis. Boys interested should send his advance registration to the Council office immediately.

The camp will be directed by Roy Bassett, Perrin, district executive of the Kiowa District, a staff of older Scouts and Explorers.

**Police Find Billfold** — Police are looking for the owner of a green woman's billfold which was found in downtown Pampa Wednesday.

The drivers license is made out to Jenice Johnson Parker, Route 1, Littlefield. Two receipts from Overton Clinic here were found in the billfold, made out to J. C. Parker, also of Littlefield.

**DEAN LEAVES HOSPITAL** — HOLLYWOOD (UPI) — Actor-singer Dean Martin was released from Cedars of Lebanon Hospital Wednesday. Physicians said the entertainer, who underwent a hernia operation a week-ago, was "in fairly good condition."

### Ida Jones Neal Service Friday

Funeral services for Mrs. Ida Jones Neal will be conducted at 10 a.m. tomorrow in Duenkel Catholic Chapel with Dr. E. Douglas Carver, First Baptist Church pastor, officiating.

Mrs. Neal, born May 17, 1875 in Elmwood, Tenn., died at 6:55 p.m. last night in Highland General Hospital, where she had been a patient for four weeks.

She resided at 1224 S. Hobart. Mrs. Neal moved to Pampa in 1915 from Watertown, Tenn., with her husband T. C. Neal, who died Nov. 1, 1944. She was also preceded in death by two children.

Mrs. Neal was a member of Central Baptist Church.

Survivors include one sister, Mrs. C. S. Barrett; one niece, Mrs. H. E. McCarley; and one nephew, Julian N. Barrett.

The casket will not be opened during the service. Interment will be in Fairview Cemetery beside her husband with E. A. Baldwin, Irvin Cole, DeLea Vicars, Jake P. Osborne, Ernest Baird and G. U. Greene as pallbearers.

**UNIONS** (Continued from Page 1)

public and the employees as well as the railroads themselves," Short said.

The railroads and BHT began negotiations more than a year ago. The carriers asked the union to accept a 15 cent hourly pay cut while the union demanded a 14 per cent wage increase.

A presidential fact-finding board will make recommendations to President Eisenhower July 15 on a dispute between the carriers and another train union, the Switchmen's Union of North America.

Negotiations will resume July 6 between carriers and 11 non-operating unions with 600,000 members. Basis for the talks will be recommendations by another presidential fact finding team that the non-operating unions be granted a 10 cent package increase.

The BHT is composed chiefly of brakemen, flatmen, baggage men, yardmen, switch tenders, dining car stewards and some

### Surplus Property At Pantex Plant Offered For Sale

According to an announcement by Lt. Col. Marvin J. Bruedigam, commanding officer, property originally valued at approximately \$250,000 is being offered for sale by Mason & Hanger-Silas Mason Co., Inc., operators of Pantex Ordnance Plant.

Items to be sold are no longer needed by the federal government and consist of six 300 H.P. and one 100 H.P. Erie Boilers, complete with drums, tubes and baffles, and accessory items such as compressors, pumps, deaerating tanks, Bailey Meter control panels, etc., surge tanks, blow down tanks, Bailey Meter control panels, etc.

Pantex Ordnance Plant is located 25 miles N. E. of Amarillo, Texas. The property to be sold may be inspected at the Plant, June 13th through July 26, 1960, and will be sold to the highest qualifying bidder.

Prospective bidders should contact Mr. J. LaMarca from 8:30 a.m. to 3:30 p.m., Monday through Friday, to inspect the property and obtain bid forms. His telephone number is DRake 4-1651, Ext. 249.

Invitation to Bid No. 23 describes the items to be sold and contains complete instructions for submitting sealed bids, which will be publicly opened at 2:00 p.m., C.S.T., July 28, 1960. Awards will be made to the highest responsible bidder in line with the terms of the invitation.

All bids must be received prior to the time and date of opening. Successful bidders will be informed of the results of their bids at the earliest possible date.

The agreement includes freezing into the basic hourly rate cost-of-living adjustments totaling 17 cents an hour, which have been added to trainmen's paychecks since May, 1957. The cost-of-living escalator clause was eliminated.

The current hourly wage rates for the union ranges from \$2.25 to \$2.84 and their annual wages averages about \$7,187, a railroad spokesman said.

### Relative Of Two Pampans Killed

Mrs. Chris J. Lightholder, 61, of Lubbock, sister of Mrs. A. D. Fish, 1000 W. Buckler, and aunt of Mrs. C. F. McGinnis, 1437 E. Francis, died Wednesday when her car smashed into a Santa Fe passenger train at a crossing three miles south of New Deal.

Impact of the collision threw Mrs. Lightholder from her car into a telephone pole about 65 feet away. The car was dragged several feet down the track.

There were no injuries to passengers or trainmen.

Mrs. Lightholder's body is at Rix Funeral Home in Lubbock.

### 24 Farm Loans Paid In Full

Twenty-four out of 46 farm ownership loans made in Armstrong, Donley and Gray counties during the past 29 years have been paid in full.

The average age of these 24 paid loans was six years.

The 46 farm ownership loans were made to tenant farmers who wanted to own their own farms, owners of small farms who wanted to enlarge and owners who wanted to improve their farms. The loan funds were used for land purchase, new buildings of all types, building repair, water supply, fencing and land development.

All of these loans, which were made by the Farmers Home Administration office in Clarendon, were made on 40-year terms.

### RATIFICATION

(Continued from Page 1)

wing riots, the mobbing of White House Press Secretary James C. Hagerty and finally cancellation of President Eisenhower's visit to Japan.

In his resignation statement Kishi said he had dedicated himself "without caring for your own personal honor" to bring prosperity to Japan.

The new treaty gives the United States the right to station forces here for at least the next 10 years and pledges the United States to defend Japan against attack. It gives the Japanese government near-veto powers over deployment of U.S. forces from bases in Japan and of the introduction of the weapons needed for modern war, such as nuclear bombs.

### Negro Youths Plan 'Wade-In' Demonstrations At Beaches

ST. PAUL, Minn. (UPI)—Negro youths made plans today for "wade-in" demonstrations at southern public beaches patterned after their sit-in protests against segregated lunch counters.

Amos Brown, of Morehouse College, Atlanta, Ga., said tactics for beach integration will vary greatly, "depending on the local situation."

"While we expect to encounter many problems in the campaign, I am sure it will eventually be successful," Brown told a committee meeting at the annual convention of the National Association for the Advancement of Colored People.

Other college students attending the convention reported on their lunch counter sit-ins earlier this year and said they would expand the program when they return to school this fall.

"The time has come for segregation to die," said Callas Frown, vice chairman of the North Carolina college chapter. "It is a case of the ideas of young people against segregation, and the outcome is a simple matter of survival of the fittest."

Adult members of the group, meanwhile, disclosed a program of economic pressures against the headquarters of big business in an effort to speed up racial desegregation in the South.

"We must take steps to remove the mask behind which national outfits hide when they tell us that their local policies are governed by community customs or the desires of the local people," Henry Lee Moon, the NAACP's director of public relations, said.

He said negotiations would precede any boycotts to gain equal service from southern stores.

"If such negotiations fail, we may well have to organize a massive withholding of patronage campaign accompanied by an intensive educational program," he said.

"But this does not mean we are going to embark on a reckless course of wholesale indiscriminate picketing and boycotting."

Moon said American Negroes are a buying force of 18 million people, with the approximate economic power of the entire population of Canada.

### Burglars Use Key To Make Bank Haul

Lowell, Mass. (UPI)—Burglars walked in the front door of a bank during the night and stole \$20,000 in what police reported today was an "inside job."

Police said the burglars opened the front door of the Wameest branch of the Union National Bank with a key. They walked into a large room at the rear of the bank and removed the money from small safes used by tellers to store cash overnight.

Keys also were used to open the safes, police said. The main vault, presumably containing larger sums, and four other tellers' safes were untouched.

The robbery was discovered by a policeman who tried the front door and found it open. He said the door was locked during a previous check at midnight.

### State Department Seeking Employees

The Department of State is seeking employees to enlarge its activities to meet new international situations, according to Ansel T. Taylor, the department's chief of employment.

"The Department is interested in drawing its employees from every one of the 50 states, from big cities and small towns from villages and farm."

Persons interested in "home office" employment as stenographers, typists and clerks must be at least 18 years of age, and must qualify by passing a Civil Service examination, a physical examination and a background investigation. Starting salaries range from \$3,255 to \$3,755 per year.

Anyone interested in "foreign service" employment as secretaries, stenographers, communications, mail and pouch clerks must be at least 21; American citizens for at least five years; single with no dependents; high school graduates in excellent health; and available to go to any one of 256 embassies, legations or consulates located in 90 countries throughout the world. They must be able to pass performance tests, and meet a minimum work experience requirement of three years. College training may be substituted for a maximum of 18 months of experience. Starting salaries range from \$3,730 to \$4,150 plus travel expenses and housing allowances.

For further details and application forms write to "The Employment Division, Department of State, Washington 25, D.C."

### Tire Theft Reported

Criminal activity in Pampa continued to be below normal Wednesday night as the police received only a report on the theft of a tire.

The tire, a 7.60x15 white sidewall, was taken from the Crow Humble service station, 300 N. Hobart. It was left outside in a tire rack overnight.

**Pepper Price** — The exorbitant price of pepper in the Middle Ages led the Portuguese to seek a sea route to India, according to the Encyclopedia Britannica.

NOTICE TO ALL PERSONS HAVING CLAIMS AGAINST THE ESTATE OF ALVIN C. TANNER

Notice is hereby given that original letters of administration upon the estate of ALVIN C. TANNER, who died in the undersigned proceeding indicated below my signature hereto, which is still pending, and that I now hold such letters. All persons having claims against said estate, which is being administered, in the amount below named, are hereby required to present the same to me, respectively, at the address below given, before suit upon same are barred by the general statutes of this State, before such estate is closed, and within the time prescribed by law. My residence and post office address are 1216 East Francis Street, Pampa, Gray County, Texas. Dated this 21st day of June, 1960.

Alvin C. Vanderpool, Administratrix, Estate of ALVIN C. TANNER, No. 2402, in the County Court of Gray County, Texas.

### None Injured As Subway Fire Hits New York Again

NEW YORK (UPI)—Fire broke out in a subway tunnel beneath some of midtown's newest skyscrapers today, but no passengers were reported trapped as in a near-disastrous underground transit fire three weeks ago.

The blaze was discovered at 8:55 a.m. east in the municipal subway line between Fifth and Lexington avenues below 53rd Street. Two engine companies, two ladder trucks and a rescue squad of mask-equipped firemen were dispatched to the scene where smoke was reported to be heavy.

The blaze occurred in a tunnel beneath a cluster of new skyscrapers including the imposing Seagram's building two blocks north of St. Patrick's Cathedral. The June 7 fire, in which several hundred commuters were overcome by smoke, occurred in a tunnel just south of Grand Central terminal.

### HOUSTON

an unincorporated area. But the people of Port Acres called an incorporation election and set up a city council government. It lasted only two months before Port Arthur went to court and won a ruling that its annexation of the area was valid.

Port Acres residents then filed an appeal with the Ninth Court of Civil Appeals, seeking to reverse the ruling and win back their government. The case is pending.

# Outdoor Cooks Learn Simple Techniques

Outdoor cooks who desert the patio for the great outdoors learn new techniques in campfire cookery. A camp-site breakfast, for example, calls for foods that are easy to tote. Unopened cans of luncheon meat, coffee, bread, fresh fruit or melon do not need refrigeration and are compact to carry. An insulated bag or cooler is ideal for transporting eggs and other more perishable items.

A good breakfast is important every day, but especially when outdoor activities are planned. A hike in the woods requires a breakfast that will stick to the ribs. High quality, complete meat protein is the answer. For this reason, canned pork and beef luncheon meat is mighty handy for campers. The meat is fully cooked when purchased so that a successful meal is not dependent on a camper's fire-building abilities. The choice of high quality food is made when topping the shopping list are cans

## Easy-Do Sunday Night Supper

A knife-and-fork sandwich for luncheon or a Sunday night supper is summery in spirit, easy to do, delicious to eat. One of the best time-tested combinations calls for slices of turkey and ham as the filling, topped with a hot sauce of Swiss cheese accented with California Sauterne.

To complete a family or a party menu, just add a tossed green salad, fruit for dessert, and glasses of the same Sauterne, well chilled, as the accompanying beverage.

- DELUXE TURKEY-HAM SANDWICH**  
(Serves 4)
- 8 slices buttered, freshly make toast
  - 4 portions sliced, cooked turkey
  - 4 portions sliced, boiled or baked ham
  - 1 (8 oz.) package process Swiss cheese, sliced
  - 1/3 cup California Sauterne or other white dinner wine
  - 1 tablespoon prepared mustard (the light yellow variety)
  - 1 tablespoon grated onion
  - Paprika

Using the toast, turkey and ham, make 4 turkey-and-ham sandwich. Arrange sandwiches in a single layer in a baking pan; cover and place in a low (300 degree F.) oven to warm while preparing the following sauce. Melt cheese in a double boiler; gradually stir in wine; add mustard and onion; heat piping hot. Cut heated sandwiches in halves; place 2 halves on each of 4 heated plates; pour some of the hot sauce over each sandwich. Dust with paprika and serve at once.

Q. What is the name of this meat cut?  
A. Country Club or Rib Eye Steaks.

Q. Where do they come from and how are they identified?  
A. Country club steaks are cut from the eye muscle of a blade-rib roast of beef (the 6th and 7th ribs). The eye muscle is attached to the backbone and part of the rib section. The steaks are boneless.

Q. How are they prepared?  
A. They are tender and may be broiled or panbroiled. If cut thin, they may be panfried.

# Ye Olde Lemonade Stand Goes Modern With Instant Products, Electric Mixer

For years the summer drink stand has been a means of youngsters earning spending money and cooling the customer's fevered brow with cold beverages. It has gone modern with instant products and a battery-powered plastic mixer that's fitted to the junior size.

Today's special is a chocolate mild shake that's flavored with instant Dutch chocolate flavored mix and topped with the young fountain operators to drink up much of their profit. It's fun to make milk shakes with instant Dutch chocolate flavored mix in the junior-size blender. Mothers are pleased with the nourishing qualities of the instant Dutch chocolate flavored mix for it is enriched with Vitamins B1, B2 and D and also iron. It mixes instantly in hot or cold milk.

It's so simple to make a chocolate mild shake made in the junior battery-powered mixer. For one serving, measure 1/2 cup of milk and 2 tablespoons of instant Dutch chocolate flavored mix into the mixture. Turn on motor and mix for one minute.

Instant Dutch chocolate flavored mix is mighty good drinking when just stirred into a cold glass of milk. But for some special occasions besides this plain Instant Dutch Cooler or Chocolate Milk Shake, here are two other suggestions—Spicy Cooler and Dutch Nectar.

(Makes 1 serving)  
1/2 cup milk  
2 tablespoons Borden's Instant Dutch Chocolate Flavored Mix  
1 cinnamon stick  
3 whole cloves  
Ice cubes  
Orange wedge

Combine milk, Borden's Instant Dutch Chocolate Flavored Mix and spices in saucepan; bring to boiling point. DO NOT BOIL. Chill in refrigerator. Remove spices, beat chocolate mixture with rotary beater. Place ice cubes in glass, pour drink over cubes. Garnish with orange wedge.

**DUTCH NECTAR**  
(Makes 1 8-oz. serving)  
1/2 cup apricot nectar  
2 tablespoons Borden's Instant Dutch Chocolate Flavored Mix  
1 envelope Borden's Instant Whipped Potato Flakes  
1/2 cup finely chopped pimiento  
1/2 cup lemon juice  
1 (10-oz.) can lobster meat, drained  
Melt butter in small skillet; add vegetables; saute until tender. Combine water and salt in medium-size saucepan; cover, bring to boil. Remove from heat. Add milk immediately, then Borden's Instant Whipped Potato Flakes and butter. Stir gently with fork or wire whip until liquid is absorbed. Whip briskly. Mix sauteed vegetables and the pimiento with potato

Fluff as an accompanying hot dish. Here, too, instant whipped potato flakes star.

**POTATO LOBSTER BAKE**  
(Makes about 4 servings)  
2 tablespoons butter  
1-3 cup finely chopped green pepper  
1/2 cup finely chopped onion  
1/2 cup finely chopped celery  
1 1/2 cups water  
1/2 teaspoon salt  
1/2 cup cold milk  
1 envelope Borden's Instant Whipped Potato Flakes  
1/2 cup finely chopped pimiento  
1/2 cup lemon juice  
1 (10-oz.) can lobster meat, drained  
Melt butter in small skillet; add vegetables; saute until tender. Combine water and salt in medium-size saucepan; cover, bring to boil. Remove from heat. Add milk immediately, then Borden's Instant Whipped Potato Flakes and butter. Stir gently with fork or wire whip until liquid is absorbed. Whip briskly. Mix sauteed vegetables and the pimiento with potato

SPICY COOLER

# Potatoes Provide Tasty Meal At Drop Of Hat

Cool, clam and collected is the posed homemaker who is ready for the unexpected and remains a gracious, unflustered hostess even when last minute guests appear on the dinner scene without too much advance warning. This happens frequently at summer homes or weekend retreats, for hot weather seems to be vacation time for everyone but the homemaker.

A wisely chosen stock of convenience foods on the pantry shelf is a good starting point for the assured hostess who can turn out a meal in jig time. A special time and energy saver — instant whipped potato flakes — works like magic. These "flavor flakes" made from the highest grade of white mashing potatoes instantly become delicious whipped potatoes without any peeling, boiling or mashing.

you'll like the Potato-Cheese fluff as an accompanying hot dish. Here, too, instant whipped potato flakes star.

Arrange lobster meat in buttered 8-inch baking dish. Pour lemon juice over lobster; arrange potatoes around edge of dish. Bake in moderate oven (350 degree F.) for about 20 minutes, or until juice bubbles and potatoes have browned slightly.

**POTATO-CHEESE FLUFF**  
(Makes 5-6 servings)  
1 1/2 cups water  
1/2 teaspoon salt  
2 egg yolks  
1/2 cup cold milk  
1 envelope Borden's Instant Whipped Potato Flakes  
1 tablespoon butter  
1/2 cup finely chopped pimiento  
1/2 cup lemon juice  
1 (10-oz.) can lobster meat, drained  
Melt butter in small skillet; add vegetables; saute until tender. Combine water and salt in medium-size saucepan; cover, bring to boil. Beat egg yolks until thick and lemon colored; reserve. Remove boiling water from heat. Add milk immediately, then Borden's Instant Whipped Potato Flakes and butter; stir gently with fork or wire whip until liquid is absorbed. Whip briskly.

per. you'll like the Potato-Cheese fluff as an accompanying hot dish. Here, too, instant whipped potato flakes star.

**HERB FRENCH TOAST WITH CREAMED CHIPPED BEEF**

Your brunch hostess with a flair for surprises serves Herb French toast with creamed chipped beef. Her method is simple: Season a French toast egg-milk mixture with caraway seeds, rosemary, and salt. Dip French bread strips (3 of equal size cut from each 1-inch bread slice) into the mixture and brown on both sides in a hot, well-greased skillet. Top with creamed chipped beef (may be made the night before and reheated) and serve immediately.

## Distinctive Dressing Can Win Praise And Become 'Specialty Of The House'

Summer days are salad days and although a crisp, tossed salad is popular the year around, it really comes into its own when the weather gets warm.

Whether for happy, noisy outdoor eating in the back yard or for formal dining inside, you can make your summer salads a real "special of the house" this year by preparing your own distinctive dressing.

Today's home mixers are equipped to make this job easy for you. Kitchen Aid electric food preparers, for instance, use an oil dropper attachment for precise mixing or mayonnaise. From there, it's a cinch to make your own thousand island, French, cheese, or other favorite dressing.

This recipe, utilizing the Kitchen Aid oil dropper, is certain to pep up the salad appetites in your family:

- MAYONNAISE**  
(Makes about 1 1/2 Cups)  
1 egg yolk  
1 teaspoon mustard  
1 tablespoon sugar  
1 teaspoon paprika  
2 tablespoons vinegar (about) or 3 tablespoons lemon juice  
1 cup salad oil  
Put egg yolk, mustard, sugar, paprika, salt and half the vinegar or lemon juice in mixer bowl. Measure other ingredients. Attach bowl, beater, and oil dropper to mixer, close dropper, and pour in oil. Turn mixer speed control gradually to No. 8 and whip yolk mixture until light colored and thick, 1/2 to 1 minute. Turn speed control to No. 4 and turn on oil dropper. Permit all of the oil to run slowly into the bowl in a fine stream, about 2 to 3 minutes, whipping continuously. Stop, scrape bowl. Add remainder of vinegar or lemon juice. Turn speed control to No. 4 and whip about 1 minute, or until thick, then stop the mixer. In total approximate mixing time of 5 minutes, you'll have homemade mayonnaise that will bring calls for more!
- If a thicker dressing is desired, 1/4 cup more oil may be used.

## Simple But Elegant Bran Muffins Finish Off Easy-Fixing Breakfast

Brunch Muffins, simple bran muffins elegantly finished off with a filling of marmalade cream cheese, and coffee team up to complete the easy-fixing but festive repeat. Fill the muffins by cutting a wedge-shaped cone from the top and then spooning the cream cheese mixture into the hollow. Cap the muffin with its topknot to serve.

These muffins also accompany scrambled eggs and tomato wedges tastefully, should you wish to serve a later morning brunch.

- BRUNCH MUFFINS**  
1 cup Kellogg's All-Bran  
1/2 cup milk  
1 egg  
1/4 cup shortening  
1 3-ounce package cream cheese  
1 cup sifted flour  
2 1/2 teaspoons baking powder  
1/2 teaspoon salt  
1/4 cup sugar  
2 tablespoons orange marmalade

### 115,243 Acres Of Texas Land Set As 'National Grasslands'

Recently, Under Secretary of Agriculture True D. Morse signed an administrative order designating the Land Utilization Projects as "National Grasslands." Involved are 3.8 million acres in 11 states including 115,243 acres in Texas, 46,211 acres in Oklahoma

and 133,103 acres in New Mexico. These areas will be administered by the Panhandle Forest Service at Amarillo, under multiple use and sustained yield management plans. They were purchased by the Federal Government in the depression years of the 1930s to take them out of cultivation and to assist in the development of grassland agriculture in the surrounding areas. They were managed and developed by the Soil Conservation Service from 1938 through 1953 and since by the Forest Service. They are now given permanent status under Title III of the Bankhead-Jones Farm Tenant Act to be managed under the same regulations and general policies as the national forests. Administration of oil, gas, and mineral leases and permits on these lands will continue to be handled by the Department of Interior.

"The National Grasslands," said Assistant Secretary of Agriculture Ervin L. Peterson, fit well into the structure of multiple use and sustained yield as practiced on National Forests where outdoor recreation, range, timber, water, wildlife, fish and other natural resources are managed and coordinated for best public use. Peterson, who has administrative responsibility for managing the department's public lands, emphasized that this action is part of the department's program to promote the economic stability of Great Plains agriculture.

### Wall Street In Review

NEW YORK (UPI)—The earnings yield may be replacing the dividend yield as a generally accepted yardstick of stock values, according to Prentice-Hall Inc. The earnings yield is the price-earnings multiple for a stock divided by 100 per cent. Prentice-Hall says it can plausibly be argued that bond yields should be compared, not with stock dividend yields — but with the appreciably higher earnings yield.

Good quality issues well down from their previous peaks, offering fair yields and recovery prospects, according to Paine, Webber, Jackson & Curtis, are: Allis-Chalmers, Bethlehem Steel, Columbia Gas, Eastern Air Lines, First National Stores, Illinois Central, Lehigh Portland Cement, St. Regis Paper, Skelly Oil, Spencer Chemical, West Virginia Pulp & Paper and White Motor.

Eldon A. Grimm of Walston & Co. thinks the breadth-of-market action must improve if the market is to enjoy anything like a general advance. He suggests switching Heinz and Ferro into Johns-Manville, Monsanto into Johns-Manville or Daystrom, and Kroger and Consolidation Coal into Bestwall Gypsum.

**WANTS ATTENTION**  
SAN FRANCISCO (UPI)—Thomas Mahoney, 27, a burglary parole violator, returned to city jail Tuesday and said he walked out Sunday with a group of visitors going into an elevator because "nobody paid any attention to me."

## Practicing Physician Proclaims Discovery To Slow Aging Cycle

By DELOS SMITH  
UPI Science Editor

NEW YORK (UPI)—A practicing physician who has been swimming against a medical tide for more than 20 years, makes bold to assert that the hormone of the thyroid gland judiciously administered mixed with vitamins "slows down the aging process." But whether it does or doesn't, it prevents one of the most fearful events of that process, which is the depositing of cholesterol

into the linings of the arteries, said Murray Israel, M.D. His "hardens" arteries. Heart "attacks" and cerebral "strokes" take place in hardened arteries. Israel has just published for the profession, through the Vascular Research Foundation, the results of 10 years of prescribing thyroid hormone in large doses on a continuous basis. That is a radical departure from usual medical practice. He worked with 714 patients ranging from under 20 to 90 years

old, some of whom were moribund following several "attacks" or "strokes." While under thyroid vitamins treatment, only 3 1/2 per cent died while 92 per cent were improved, measured both by physical signs and by how the patients felt. There were none of the dreaded "side effects" which many medical minds associate with prolonged dosing with thyroid hormone. Nor was the body chemistry of any patient so stepped up, it "burned itself out" which can

be the consequence of too much thyroid. The thyroid is one of the endocrine glands which secrete hormones into the blood stream that (among other things) keep check on the chemical processes which energize the body and keep it in repair. These hormones are aided in their labors by vitamins and enzymes. Thyroid hormone is particularly potent in oxygen-involving chemical processes which energize the body and kept it in repair. These

hormones are aided in their labors by vitamins and enzymes. Thyroid hormone is particularly potent in oxygen-involving chemical processes which utilize and dispose of fatty alcohols of which cholesterol is the most notorious

**MILKMAN VS POSTMAN**  
BLACKNELL, England (UPI)—A milkman had a postman haled into court Tuesday because the postman's dog bit the milkman, since it is found deposited in the linings of all hardened arteries.

### Addison's Attorney Won't Defend Him On Theft Violation

SAN ANTONIO (UPI)—An attorney for uranium promoter John Milton Addison, doesn't want to defend Addison on charges of theft over \$50 and violation of the state's securities act.

William Felderman of Austin asked permission to withdraw from the case. He made his request in a letter to Criminal District Judge John F. Olson Jr., Olson has not acted on it.

Addison's trial, originally scheduled last Monday, has been postponed until Nov. 28 under an agreement between prosecution and defense.

Attorneys said they wanted to await the outcome of Addison's trial in Fort Worth federal court on charges of violating the federal securities act before going ahead with his trial here.

### Lefors Personals

By Mrs. Charles Roberts

Mrs. L. M. Tessa and five children of Denver is visiting her parents, Mr. and Mrs. R. H. Bradford, and will be here through June 24th.

Mr. and Mrs. Steve Stowers and two children of Dallas are visiting her parents, Mr. and Mrs. J. D. Redus.

D. Y. Qualife of Oklahoma City, made a business trip to Pampa last week and stopped off to see his mother, Mrs. Beulah Qualife and sister, Mrs. Boyd Griffith.

Winifred, Olga left Friday for Ft. Hood where he will attend six weeks of officer training school. He is an advanced ROTC student at W.E.S.C.

Mr. and Mrs. Bill Bell and boys were weekend guests of the Charles Roberts.

Bobby Glover is working in Allison for a few weeks with the Cyclon Construction Co.

O. L. Presley has bought full interest in what was formerly O. L. Construction and Dirt, and his business now will be known as O. L. Presley Contractor.

Mr. and Mrs. Edgar Brown came back from Heber Spring, Ark. where they vacationed for two

### Horse Show Set July 2 At Canadian

The fifth annual Canadian Quarter Horse Show will be held at 12:30 p.m. July 2 at the rodeo arena.

Winners in the 15 classes, both halter and performance, will receive trophies. Trophies also will be awarded to reserve and grand champion mares, stallions, rearing horses and geldings. Horses will go to second through sixth place finishers.

Entries in the show, which is sponsored by the American Quarter Horse Assn., must be in by 10 a.m. July 2.

All horses must be registered with the AQHA. Entries in the show will be accepted through 10 a.m. on the day of the show. The show will be held in the rodeo arena, 1/2 mile west of Pampa. Judges for the show will be: Judge of Oklahoma State University, Judge of Oklahoma State University at Stillwater.

For further information call Mrs. Charles Roberts at 525-1111.

### Dining Out Is Fun

Wouldn't you and your family enjoy having dinner in the pleasant dining room of the Pampa Hotel tonight? We serve from 6 p.m. to 8:30 and we welcome the children who may have half size portions.

Mrs. Sarah Arthur prepares our wonderful food and it really is not expensive to eat out.

COME AND VISIT US

RESERVE, DINE AND ENJOY THE HOLIDAY OF PAMPA

### Boats Still Big News Around Stock Market

By ELMER C. WALZER  
UPI Financial Editor

NEW YORK (UPI)—Boats still are big news in the stock market and from time to time shares of any company connected with that industry are given a fling.

Barron's in its current issue, however, sounds a note of warning for that industry under the heading of a leading article, "Signs of a small Pleasure boating may be headed for rough weather."

Boats are in the classification of stocks called "leisure time" issues. They still are big business over all, and are expected to weather qualls.

Barron's goes deeply into the field and lists many companies making boats, engines, and accessories. It quotes Peter B. Andrews, market analyst of "The Boating Industry" magazine.

"If money is scarce, people who can afford either a boat or a new car are more likely now to buy the boat and a motor for it... the two-boat family is beginning to emerge."

J. Richard Elliott, Jr., author of Barron's article, notes that the boating industry expects the market to expand to \$3 million eager customers.

On this he quotes R. A. Holman, specialist in boating stocks. He says "that the next ten years could see the greatest boom ever in boating, with a possible doubling of the number of participants to nearly 80 million."

These rosy forecasts may all come true one day, says Elliott. "Between now and then, however," he adds, "there may be squalls and, by a number of signs and portents, one is blowing up right now."

"To begin with the industry's fabled growth for the present anyway has come to a halt. Traditionally — or at least since the National Association of Engine & Boat Manufacturers, the industry's trade group, began keeping records in 1954 — sales rise sharply from March to June, the period accounting for over half of yearly volume."

"This year, however, the seasonal pickup has failed to appear. After lagging behind 1959 in January — February, volume in both March and April dropped by 9 per cent from a year ago."

At the same time, cancellations, spurred 43 per cent and new orders were down by one-eighth."

The Barron article is the old story of industries that grow by leaps and bounds. The author sums it up:

"The most important fact about pleasure boating these days is that the winds of change are blowing hard. Which companies will be favored and which will become or-

phans of the storm remains to be seen.

"What now seems unmistakably clear is that the good old days of not so long ago when the sailing was smooth for anything and everything afloat have given way to sterner times."

The Wall Street boat stocks still hold their lure from time to time. And now a new industry is being injected into the field — a

### Obituaries

By United Press International

ENGLEWOOD, N.J. (UPI)—John W. Alivante, 70, co-publisher of Film Daily, died Tuesday apparently of a heart attack.

HINSDALE, Ill. (UPI)—John M. Davis, 62, president of the LaSalle Construction Co. in Chicago, died Monday.

LOS ANGELES (UPI)—Leonard P. St. Clair, 89, pioneer California oilman, died Tuesday after a long illness.

JACKSON, Miss. (UPI)—Howard Ruttle, 52, Washington correspondent for the Jackson Daily News and the Shreveport (La.) Journal, died Wednesday.

ROME (UPI)—Sir Marcus Cheke, 55, British minister to the Holy See and expert and author on diplomatic protocol, died Wednesday after a long illness.

CHICAGO (UPI)—Willis H. Scott, 63, president emeritus of the textbook publishing firm of Scott, Foresman and Co., died Wednesday at his home in suburban Winnetka.

LOS ANGELES (UPI)—Dr. Ray E. Baber, author of the popular college textbook "Marriage and the Family" and retired professor of sociology at Pomona College, died Tuesday after a long illness.

NEWBURGH, N.Y. (UPI)—W. Newcomb Calver, 51, a prosecutor at the Japanese war crimes trials in Manila after World War II, died Tuesday following a stroke.

NEW YORK (UPI)—A former chairman of the board of governors of the New York Stock Exchange was found dead Wednesday night in his hotel apartment.

Police said Robert P. Boylan, 58, apparently died from natural causes. Boylan had been on the floor of the exchange Wednesday and returned to his apartment at the Hotel Lombardy about 4:15 p.m. e.d.t. His body was found later by a maid.

# Worldwide Sympathy Extended To President

By PHIL NEWSOM  
UPI Foreign Editor

As President Eisenhower concluded his Asian tour this week, worldwide reaction as to its results appeared almost unanimous. It was, first of all, personal sympathy for the President who has impressed the world with a sincere desire for peace but who has, twice in little more than a month, suffered humiliating setbacks at the hands of the Communists.

Second, it was agreed that the leftist forces which forced cancellation of his visit to Tokyo had inflicted a severe blow to U. S. prestige which the Communists now could be expected to exploit vigorously.

Merriman Smith, UPI White House reporter who has accompanied Eisenhower on his globe-circling tours, reported it unlikely that the President would attempt another trip during his remaining six months in office.

Thus with the blow-up of the

summit conference in Paris and the Tokyo incident have gone glimmering the President's hope that to his success he would leave the heritage of a firm platform upon which world peace could be built.

Of the President's Asia tour, UPI President Frank H. Bartholomew wrote from Tokyo: "The most that can be said is that the interests of the Western world have not been benefited by the President's well-intentioned visit."

The Times of London said: "The cancellation of the Tokyo visit is the biggest blow to the prestige of an American president and the United States government since the war."

Man-in-the-street reaction stories cannot be taken as indicative of the feelings of whole nations, since of necessity they cover only small segments of a population.

But a UPI poll of such reaction in more than a dozen European nations, reflected a

general theme: A lawyer in Madrid and a clerk in Brussels believed the United States had lost the cold war initiative.

An airline clerk in Sweden and a policeman in Zurich believed America should follow a "tougher" line.

A Frenchman thought the United States should listen to advice from President De Gaulle.

A London store clerk thought "like is doing the best job possible." A West German barber in Frankfurt tempered it with: "America is doing a pretty good job as the leader although she makes her share of foolish mistakes."

Recent events have dealt Eisenhower a bitter personal blow which history may show could or could not have been prevented.

This much is certain. Both the blow-up at the summit and the Tokyo incident were events deliberately generated by Communist leadership at a time when the United States is preparing for a change in its own leadership through general elections.

Thus Eisenhower was the personal victim of a larger plan by world Communism to show mistrust and unrest at a time when the United States is in a period of transition.

EVERYBODY OUT OF THE POOL — Stephen and Bobby Schmitt, fore and aft, evacuate their wading pool in Nashville, Tenn. Crawling technique enables them to explore the surrounding area minutely.

## The Almanac

By United Press International

Today is Thursday, June 23, the 175th day of the year, with 191 more in 1960.

The moon is new.

The morning stars are Mars, Jupiter and Saturn.

On this day in history:

In 1836, there was a surplus in the Treasury and 26 states divided up \$28,101,644.91.

In 1860, Congress approved creation of a government printing office.

In 1868, journalist Christopher Latham Sholes received a patent for his typewriter.

In 1876, American humorist Irvin S. Cobb was born.

In 1884, the Duke of Windsor, later King Edward VIII of Great Britain and Ireland, was born.

A thought for today: Bishop Fulton John Sheen said: "Bacon is 'flat' so thick it cannot be true, and Blaney is 'fat' so thin we like it."

**LYLES NAMED**

AUSTIN (UPI) — Gov. Price Daniel yesterday appointed J. E. (Ed) Lyles of Mart, Tex., to the three-man Texas Employment Commission. Lyles, State Labor Commissioner since last year, succeeds the late R. F. Newman, who died of a heart attack Saturday, leaving an unexpired term until Nov. 21, 1961. R. B. (Dick) Lanning of Austin will fill Lyles' unexpired term as Labor Commissioner.

**GONE TOO LONG** — Mrs. Gladys Moseley, a waitress, won a divorce Thursday when she testified her husband left home a year ago to find a job and never returned. When she investigated, she found he had gone to a wedding instead—his own. The husband, Lewis Moseley, now faces a bigamy charge.

## Subsidy Program To Help In Paying Medical Bills

WASHINGTON (UPI) — A limited subsidy program to help 500,000 to one million needy persons over 65 pay their medical bills came up today for swift and overwhelming House approval.

The election-year measure fell far short of rival proposals backed by organized labor and the Eisenhower administration. These programs would provide benefits for most of the 16 million persons over 65.

The House bill would offer federal grants to any state that wanted to expand its public assistance program to include medical care benefits for elderly persons who can't afford medical attention but aren't poor enough to qualify for relief checks.

The measure was taken up under a rule that barred amendments to expand it.

Democrats were expected to fight in the Senate to widen the bill to include some version of the labor-backed plan to add medical care to Social Security benefits. The final version they would be worked out by Senate-House conferees.

**Other congressional news:**

**Minimum Wage:** The Senate Labor subcommittee was expected to approve today a bill to raise the federal minimum wage gradually from \$1 to \$1.25 an hour and extend coverage to an additional 5,123,000 workers. Sen. John Stennis (D-Miss.) launched a drive to rally opposition. He said the legislation would drive out of business many small manufacturers, retailers, loggers and other companies.

**Cuba:** The House Agriculture Committee summoned Secretary of State Christian A. Herter to explain whether the administration wants Congress to rap Fidel Castro by cutting Cuba's sugar marketing quota in the United States. President Eisenhower asked for power to change quotas of sugar supply countries but promised not to use the authority

to retaliate for Castro's anti-American activities. Key House Republicans said, however, the administration backed their fight to cut Cuba's quota.

# WIN a diamond doorknob

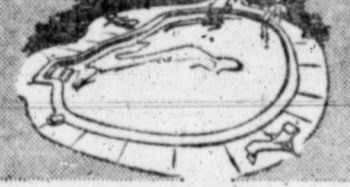

...attached to a \$25,000 SWIFT HOME!

## TRIPLE-HEADER GRAND PRIZE!

Here is luxurious living with everything for the modern family. This beautifully designed home has a 27'9" living room, three big, airy bedrooms, two full baths, a dream kitchen with ample room for family dining, and a roomy garage. Add a fourth bedroom any time!

Masculine Swim Wear In Knee-Length Adaptation Of Gay Nineties Fashion

This knee-length swim trunk is an adaptation of the 'Gay Nineties' style but includes a modern twist in its slant and brass buckle. Ideal for the water skier in basic equipment.

NEW YORK (UPI) — It won't be long before the 'Gay Nineties' fashion trend will be seen in the pool. The slant and brass buckle, ideal for the water skier in basic equipment. The slant and brass buckle, ideal for the water skier in basic equipment.

WIFE ON A FISHING TRIP by Janet Henry

I didn't use the proper bait. Or put it on the hook right. My back-cut almost snagged the fish. My front-cut never took right. My line was cheap tangled up. Or she couldn't work. I talked too much, and, worst of all, I caught more fish than he did.

DEAR ABBY....

By Abigail Van Buren

DEAR ABBY: What happens to people when they get behind the wheel of an automobile? I have seen drivers (both men and women) behave in the roughest, most inconsiderate manner, from crowding other motorists off the street to deliberately pulling into a parking space that someone is obviously struggling to back into.

DEAR WOMAN DRIVER: You are mistaken, one who is sensible to considerate and kind does not suddenly become rash, selfish and uncivilized when he gets behind a wheel. He is merely being his ugly self because he thinks he will never see those he offends again.

DEAR ABBY: What should a widow do with her rings? Does she transfer them to her right hand? Or does she put them away? I don't know, but if you are a widow, it would be a good idea to get them out of your house. You can't wear them, and they are a reminder of your husband.

DEAR YOUNG WIDOW: Widows who are interested in remarriage should put their rings away. They are a reminder of their deceased husbands, and it is better to leave them where they are.

DEAR ABBY: When a person reads a greeting card for his birthday anniversary, graduation, or other occasion, it is necessary to thank the sender. I say it is kind of silly.

DEAR ABBY: About that picture of the man who looks like he is trying to pull up her hair, and then gets up early to comb it and she won't see her hair in the morning. I wonder if he gets up in the middle of the night to shove his finger into her hair.

DEAR ABBY: When a person reads a greeting card for his birthday anniversary, graduation, or other occasion, it is necessary to thank the sender. I say it is kind of silly.

Banquet Honors Mrs. F. Jackson

PERRYTON (Sp) — Rebekah Lodge 228 held its annual P. & A. Noble Grand Banquet in the Hester Room of the Hotel Perryton, Friday night. The Banquet honored Mrs. Fannie Jackson, outgoing noble grand. Mrs. Jackson was presented with a carnation corsage by Willie Husey, and a costume jewelry set by Alma Pittman.

The head table was centered with a white daisy arrangement and a clock surrounded by dolls to represent the Rebekah's slogan. "True Rebekahs Around the Clock." Other tables had mixed flower arrangements. Place cards were stamped with yellow roses.

Invocation was given by Ruby Tillman. Willie Husey, junior past noble grand and mistress of ceremonies, presented a "Wee Wee" bandkerchiefs, and the program was finished with the singing of "The Rebekahs' Prayer." Mr. A. E. Pittman gave a talk on love, and read a chapter of the Bible. A report on the Oddfellow and Rebekah at the Elmer was given by Willie Husey.

Mr. L. J. Woodward read the poem "Sanctify" by Henry Wadsworth Longfellow and closed the ceremony. Those attending were Mrs. Husey, Jackson, Pittman, Woodward, Tillman, Bertha McMalley, Leonard Bryant, Eva Fisher, Clara Shults, Pearl Allen, May Shults, Roberta Matlin, and Mr. Pittman.

Groom OES-Has Officer Ceremony

GROOM (Sp) — Groom Order of the Eastern Star 861 held installation of officers in Masonic Hall recently. Installing officers were Mrs. Leta Jones, assisted by Mrs. Margy Emery, secretary; Mrs. Vernon Morrow, chaplain; Mrs. Nola Hunt, marshal; and Mrs. Mattie Fickel, organist.

The Bible was presented by Miss Sharon Jones, daughter of the incoming worthy matron, as Miss Peggy Chalm provided background music on the piano.

Officers installed for the coming year were Mrs. Lucille Jones, worthy matron; Jim Babcock, worthy patron; Mrs. Ruby Lee Babcock, associate matron; L. C. Jones, associate patron; Margy Emery, secretary; Mamie Ritter, treasurer; Olesia Farley, conductor; Lucille West, associate conductor; Irene Crowell, chaplain; Ross Fields, organist; Vernon Adams, Nettie Fields, Ruthie Lita Hess, Martha, Mary Chalm, Esther, Leta Jones, Elsie, Nola Hunt, warden, and Ernest Jones, sentinel.

Hostesses during the social hour were Mrs. Vernon Morrow and Mrs. Margy Emery.

Remedy For Pretty Hair In Humidity

NEWSPAPER ENTERPRISE ASSO. — In the high humidity of summer, things happen to your hair. It either goes limp or frizzes up. Some times it contrives to do both at once. Fortunately, there is something you can do to prevent it looking its worst on very hot days or at the seaside. The first is to have your hair cut a shorter length than you wear in the winter months. Have it styled simply so that you can set it yourself each night.

Next, equip yourself with some chignon head scarves in pretty pastels. These come in helmet shapes now and either tie or snap on. They're intended to keep your pretty hair in order in an open car at the seaside or just on a generally breezy day.

If you need a soft body permanent, have one. But don't go about all summer chugging a can of hair spray as if it were your last hope. It isn't. And, along with the sun, it may help to dry out your hair. Each day, use your hair brush vigorously. If you brush out the curl and it will give you healthy, shining hair that trains easily.

Some people are summer types and some are not. That is, some prefer hot weather and others would be happy to skip the whole thing. If you're not a summer type, learn that the hot months still carry certain benefits. Sunshine, salt air or moonlight air on vacation are good for you. So is swimming. Get outdoors, or golf. Summer hands your beauty bonuses when the sun gifts your skin the sand on the beach smooths out the bumps on your feet and being

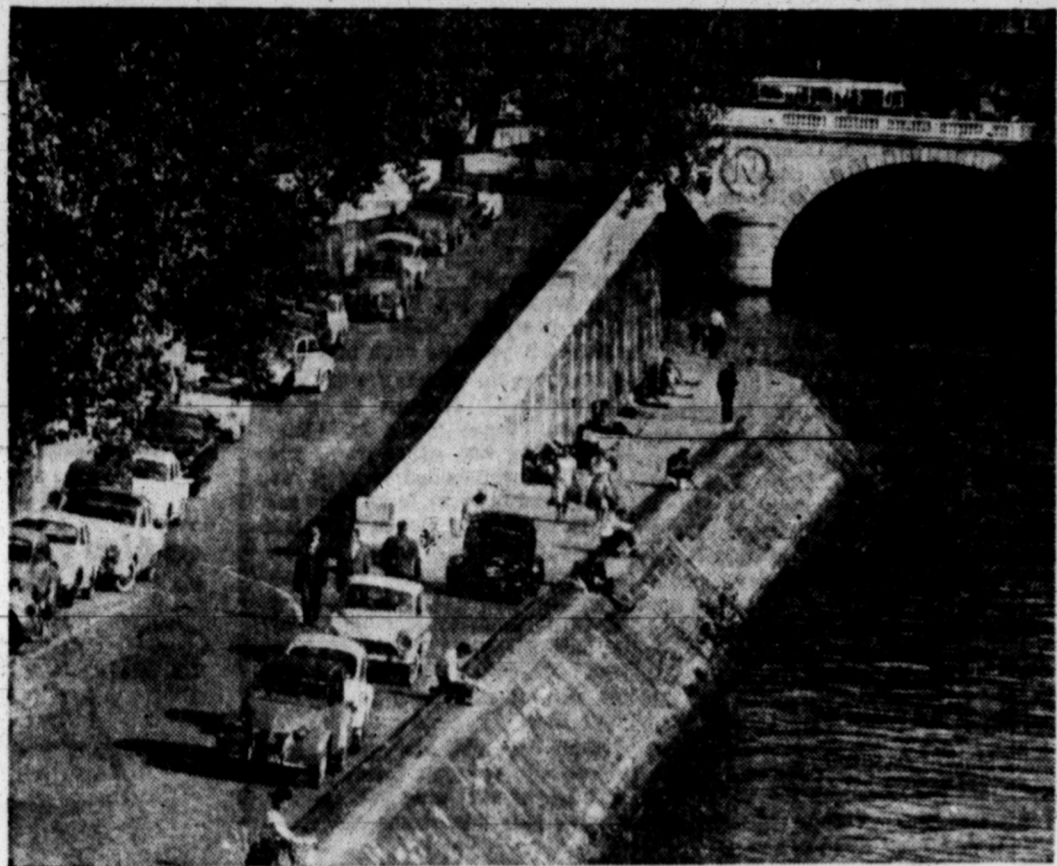

outdoors unkinks your nerves. Summer eating is ideal for the gal on a diet: fresh fruit salad or green salad; cottage cheese and fruit; seafood or steak grilled-out-of-doors. Cool, wide-skirted cottons allow you to move with ease. On second thought, perhaps summer isn't quite so bad, after all. You may even be sorry when it's over.

PICTURE NEWS

**GETTING THEIR HEADS TOGETHER**—Frank Haydock (right) of Manchester United, England, and Bob Blackwood, of Heart of Midlothian, got together like this in a soccer game in New York. The teams are currently touring the U. S. during the International soccer matches.

**OVER TIME**—John Thomas, America's answer to the Soviet spaceship, soared to a new world high-jump record with a leap of 7 feet 1¾ inches in Boston, Mass. The 19-year-old Boston University sophomore failed three times in bids to add one full inch to the world record jump he set during the Penn Relays a few weeks ago.

**GUESTS OF HONOR**—Table manners and stable manners go side by side as two harness horses are led into the ballroom of the Plaza Hotel in New York. The banquet was hosted by Yonkers Raceway to introduce Fettle (left), an Australian pacer, and Caduceus (right), from New Zealand. Both animals will go in the \$150,000 International pacing series in June.

**SHE WAS THERE**—Italian actress Giorgia Moll is putting her bikini to a water test at Cannes, France. She had attended the Film Festival there, and had such a good time that she stayed on for a few days.

**HARD AT WORK**—Argentine-born Antonino Rocca (left) flies feet first to attack Buddy (Nature Boy) Rogers, of Columbus, Ohio, during their wrestling match at Madison Square Garden. Their match was supposed to be a fight to the finish, but the contest ended after 17 minutes when the referee called a halt because both men refused to stop holding.

### Man's Basic Nature

It is self-evident that for maximum rewards to come to each of us in our life times, a knowledge of our own nature and the nature of the world in which we live is valuable.

It is probably true that many of the tragedies which fill great volumes of human history have come about simply through our lack of knowledge of ourselves and the world in which we live. Ignorance is man's greatest sin, with fear of the unknown running a close second.

Fortunately, we are living in a time when many veils are being torn and many dark corridors are being lighted. Year by year, we learn more. And as we learn more, our chances for survival increase.

There is one area of the human arena which seems to require repeated exploration. Individually, most of us are accustomed to think of ourselves as harmless gentle creatures who would never hurt anyone else unless we were provoked.

This total inconsistency is difficult to rationalize. But perhaps we can employ some reason helpfully here if we review the four basic emotional drives of human beings.

1. He seeks to prevent loss (self-preservation). 2. He seeks to promote gain (the acquisitive desire). 3. He seeks the approval of others.

4. He seeks approval from himself of his own actions. We believe it is true that man will always seek to satisfy each of these basic drives or desires in the most direct manner.

When we are equipped with only the first two desires, it is possible that we could hold little hope for the human race. Unless or until men learned the laws of economic survival, the drives to prevent loss and to promote gain without the leaving influence of the latter two points, could spur reliance upon force and violence, to reduce us all to the level of animals.

### Looking Sideways

by WHITNEY BOLTON

NEW YORK—I don't want to elbow the ladies out of the kitchen these nice, warm June days or widdle anything from their rightful lust, but every magazine or hostess I run into lately is making a great, big, fat and wide-eyed deal over "coconut liqueur".

Actually, I have the sudden feeling that the cottage and cream cheese makers have played house with the strawberry growers to lose this peasant delicacy on the American public as something closely akin to hobo-hooing with royalty.

Were men equipped with only the first two desires, it is possible that we could hold little hope for the human race. Unless or until men learned the laws of economic survival, the drives to prevent loss and to promote gain without the leaving influence of the latter two points, could spur reliance upon force and violence, to reduce us all to the level of animals.

But the fact is that the second two emotional compulsions do exist and are much in evidence. As a result of these second drives, which may in fact be stronger even than the first two with certain people, man learns to discipline himself and to advance toward civilization.

It would, however, be fair to comment that if only the items marked three and four were in evidence, man would lack the virility and energy to survive at all. The race would be a hopeless morass of fawners and applause seekers.

Fortunately for us and for our ultimate achievements, men have all four drives and most men have these drives in some degree of balance. Thus, man is capable not only of surviving, but of self-control. Progress is not only possible, but inevitable.

Do we not need to sell humanism by short. Men are basically good, and their thirst for the good continues to move them in a forward direction. We have a long way to go, it is true; but psychologically, man is equipped for the journey.

What of the second charge, that manufacturers are NOT active in research and experimentation? Let us concede that most manufacturers of drugs would like to do more of this work than they do. But they are being taxed by the government right up to an inch of their lives.

When you consider that this isn't tax money, but hard-earned dollars, saved in spite of all forays against them, it climbs into a stratospheric sum. That's nearly a quarter of a billion dollars voluntarily subscribed to this purpose.

ROBERT S. ALLEN PAUL SCOTT

COMMITTEE DRAFTING JOHN-SON MEDICAL CARE PROPOSAL FOR AGED: WOULD USE SOCIAL SECURITY SYSTEM

WASHINGTON—Senate Majority Leader Lyndon Johnson isn't kidding about his announced intention to put through medical care for the aged under the social security system.

The measure (S. 874) that is being drafted in the Finance Committee, in charge of this legislation, will work out the details of a bill he has in mind—Senators George Smathers (D., Fla.), Clinton Anderson (D., N.M.), and Robert Kerr (D., Okla.).

The measure (S. 874) that is being drafted in the Finance Committee, in charge of this legislation, will work out the details of a bill he has in mind—Senators George Smathers (D., Fla.), Clinton Anderson (D., N.M.), and Robert Kerr (D., Okla.).

Under Johnson's formula, the social security system would be used to provide 90 or more days' hospital or nursing home care, doctors' charges and medicine costs. This would be financed by a 1 1/2 percent increase in the social security tax for employer and employee.

Crux of the measure pending in the House is approximately \$300 million in federal subsidies to the states to provide medical care for indigents over 65. Estimated cost to the states is another \$200 million. Under the Administration's plan, all persons over 65 would be eligible for medical care at an approximate cost of \$1.5 billion from the general Treasury funds.

Private nose counts by Johnson have convinced him that his plan will be approved by both the Finance Committee and the Senate. His polls show a sure majority for his concept.

### Christian Economics

### Communists Use Lure Of Summits To Keep Free World Off Its Guard

Professor Robert Strausz-Hupe does well to point out in "Protracted Conflict" (Harper & Brothers, \$3.95) that the Communists are winning in the battle for the world because they know they are in it while most of our western leaders and people do not yet realize that most important fact.

Such tactics have so paralyzed the will of free people and the governments of free countries that they are unable to act in the face of the demonstrated facts that the Communists continually carry the conflict into our territory.

At the time of the uprising in East Germany, the rebellion in Hungary or the suppression in Tibet, it was assumed all over the West that we could not even indirectly extend military aid to the patriots or even moral support in the way of breaking relations with the Communist countries.

It is a few years longer they will have won the most decisive battle in the world's history. Most of our leaders and most of our people do not yet seem to realize that our free, western Christian civilization is engaged in a titanic struggle for its life.

Peace offensives to allay our fears are a part of the Communist campaign. These are followed by little wars for annexing bits of territory here and there, sometimes very large bits. Meanwhile the campaign to weaken our vitality by excessive spending all over the world is prosecuted vigorously and with the help of much of our own political, commercial and clerical leadership.

Another facet of the campaign is to increase the powers and functions of the United Nations with the full expectation of being able to use it as a means for the destruction of our freedom.

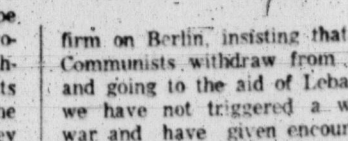

On the few occasions when we have shown a little strength and determination, such as refusing to surrender Quemoy, standing

knock ourselves out prematurely like the prize fighter who loses his bout in the dressing room. To my mind, it is this all-or-none attitude that destroys many of our most valuable men and women in the prime of their lives.

Dear Reader: Dr. Hyman appreciates your comments and questions but regrets that the heavy volume of his mail doesn't permit him to answer each individual letter or post card. However, he will comment in columns like the above upon matters of general or unusual interest.

### Hankering

By HENRY McLEMORE

1990 Prices May Read: Economy Sedan — \$27,760

Just after I had finished reading a life insurance table of life expectancy, and was delightfully happy to learn that I had 30 more years to go, this was put on my desk:

Lowa manufacturer, Fred Maytag, contends that if the inflationary trend of the past 3 years continues for 30 years, we can predict the following price tags:

Gallon of gasoline, 95 cents; peck of potatoes, \$3.15; pound of coffee, \$16.41; barrel, \$32; small American sedan, \$27,760.

I then took everything out of the refrigerator and placed it in the warm sun. Pimping poisoning, here I come! I can hardly wait until tomorrow to have that dish of creamed chicken à la bacteria.

Next, I loosened the steering wheel of my car. I took a slow turn, and an almost sure that of speed will see to it that I will never have to pay sixteen dollars for a pound of coffee.

Just to be doubly sure that disaster would overtake me before 30 years had passed, I wrote to a pebble farm and ordered a supply of young, mean, hissing, hard-to-tame pebbles. I plan to keep them under the pillows of the living room sofa.

One of these end-of-all-measures should work. If none does, and I live to see the day that Mr. Maytag's predictions come true, I am going to be a sight to behold. My hair will be down about my knees, in long gray strands. It will cover my face, and give me the appearance of an ancient oak tree, draped in Spanish moss.

I'll be as thin as a rail, so weak that I will only be able to hobble about. For with potatoes at 95 cents a peck, one needs little imagination to guess the prices of other foodstuffs. Ten bucks' worth of bread, three for a pat of butter, a quart of milk will cost more than a cow does now, and the only man who will have enough to buy a swig will be... you guessed it, the barbers.

I have to live my cup of coffee in the morning, so all my earnings will go for that. My wife will be in rags, my child in old tatters, just so that Papa can have his cup of coffee before breakfast. Our family travel will be limited to what can be done in a two-door post wagon, pulled by a billy goat. With a small car costing close to thirty thousand dollars, we won't even be able to own our own headlight or a bumper. I hope Mr. Maytag's prediction proves incorrect. I would hate to live in a country where everything has been priced out of existence—including existence.

### The Nation's Press

ROBBING OURSELVES (Christian Economics)

Our agricultural program is now expected to cost the American people \$6.1 billion in the current fiscal year or double the cost of this program just six years ago.

By next fall, it is expected that we shall have more than \$10-billion worth of farm commodities on hand and will be spending at the rate of about \$1.6 billion just to store these vast quantities of wheat, corn, cotton and other products.

Labor welfare and veterans' benefit expenditures are expected to run a little less than \$10-billion for the current fiscal year. Moreover, the last Congress authorized increased spending for veterans' services that are expected to amount to roughly a quarter of a billion dollars a year.

The last Congress authorized starts on 67 new river and harbor reclamation projects that will add hundreds of millions of expense to American taxpayers. We would do well to heed the warning of Budget Director Stamp.

I think we ought to face up to the fact that, if we ever accept the principle that the sum of all demands against the Treasury by Government agencies—or by the people across the country—constitutes a requirement that we must meet, then we will go broke, personally, if you tried to meet all the desires of the members of your family.

Interest on the national debt this year will run about \$9.1 billion or more than the entire Federal budget just twenty years ago. Even though the Federal debt is not increased, there is every reason to expect that the interest cost will rise when a large portion of it has to be refunded at much higher cost than the average 3 1/2 percent.

As Governor Ribicoff said recently, "There is no bad money; it always comes from the people. Failure to realize this fact is the cause of our predicament. When the Federal government steps in and finances some local project, the people of that community seem to feel they are getting something for nothing. They do not realize that an equal or larger sum will be subtracted from them to finance similar projects in other communities. Nothing is gained when the Federal government finances a project for the citizens of Atlanta, and the latter contribute their share of the cost of projects for the citizens of Minneapolis and other cities."

### The Drug Probe

The drug industry of this nation has come onto the center of the bureaucratic target. Senator Estes Keafauer, who is invariably intent upon boosting the stock of Senator Estes Keafauer, has the various drug manufacturing firms squarely in his sights.

According to Mr. Keafauer and his tax-paid assistants, the drug industry has been gouging the public unmercifully in its pricing of drugs; it has been debauching and conducting research; it has been playing around loosely with public safety in pushing new drugs before they are thoroughly tested.

In general, the wily senator from Tennessee has made the entire industry from the physicist in the laboratory to the assistant pharmacist at the corner drug store, look like a shabby lot of opportunists out to exploit a pain-racked and disease-ridden public.

This newspaper does not represent the drug industry and is not interested in justice for the consumer as can be seen. But we are of the opinion that the consumer, a patient who has got to end up this investigation looking mighty, mighty foolish.

First of all, let's begin with the charge that drug manufacturers push off onto the public items they have manufactured of questionable value and of doubtful utility. As nearly as we can recall, most of the drugs in question are being prescribed by various physicians and dentists. Within memory we can not seem to recall instances in which druggists, either manufacturers or corner store variety,

TOT DROWNS AUSTIN (UPI)—Richard Lawrence Smith, 4, fell into a West Austin swimming pool Friday night and drowned before a life guard could reach him. The boy fell into the pool after it had closed for the night. He was dead on arrival at Brackenridge Hospital.

**THE DEADLY TRUTH**—About traffic safety in Texas in 1959 was that only one day in the whole year was free of traffic deaths. In 1958, there were five "Deathless Days" in Texas, four in 1957, five in 1956, three in 1955. If more Texans will drive in such a way that their cars are never involved in a crash which takes a human life, then Texas can record more "Deathless Days." Will YOU drive so that the Fourth of July holiday will add a "Deathless Day" to the Texas traffic calendar? [Official 1959 Texas Traffic Death Calendar. Compiled by Statistical Services, Texas Department of Public Safety and Reproduced by the Governor's Highway Safety Commission, Austin, Texas.]

### Movie Scenes In Casket 'Horrifying, Like Being Dead,' Starlet Declares

**By VEKSON SCOTT**  
UPI Hollywood Correspondent

HOLLYWOOD (UPI)—After her last picture Myrna Fahey would well be considered "dead" in celluloid.

During much of her role in "The House of Usher" Myrna, a black-haired, solemn, lay in a plush pink casket making like a defunct leading lady.

Calculated to terrify audiences, the casket scenes did more to scare Myrna out of her wits than

they will ever do for movie-goers. "The whole thing was horrifying," said Myrna, who is just barely old enough to vote. "You see I wasn't playing a corpse. The role called for me to go into a deep trance" and Vincent Price, thinking "I'm dead," puts me in the coffin.

"So I had to be there staring at pink satin upholstery. It was terrible.

"In one scene Vincent shuts the top of the casket on me. It was like being really dead. There I

### Second Guessing TV Emmy Awards

**By FRED DANZIG**  
United Press International

NEW YORK (UPI)—I don't vote in the Emmy awards competition, either, but like every other TV fan, I'm hot for second-guessing. Here goes:

"I thought Allyn Kays deserved the Emmy in the humor field, but not for his 'Y.I.P.' review, which was honored Monday night. I left Kays' first special, 'Smart World,' was the funniest in the series. Incidentally, Kays' two writers didn't even get nominated in the comedy category, which was won by Jack Benny's chaperones.

renial hatchet girl, Spring Byington and her "December Bride" returns, undermined an industry staple Tuesday.

Rowe's special guest was Chris Gagas, a criminologist who teaches aspiring private eyes how to investigate in public and private and, I guess, get into TV.

Gagas, an attaché case-carrying type, demonstrated microphones, tape recorders and a lie detector. He flunked the TV private eye test, though. When singer Peggy Taylor came into view, Gagas never made a pass at her. He didn't answer Rowe's question with questions of his own. He didn't explain how private eyes always find a place to park in downtown areas. He didn't slug anyone. He didn't blow smoke in anyone's face. At one point, he dared suggest that policemen can be of assistance in apprehending criminals. Imagine! I hear Peter Gunn and Richard Diamond are demanding equal time to tell what private eyeing is really like.

I guess TV is indulging in some status seeking when it gives Sir Justice Olivier, an Emmy for "Moon and Sixpence." I'm sure it's a popular, safe award. But I can't help feeling that in the best-being-look-place-in-England they'd have settled on Lee J. Cobb for his glowing performance in "Project Immortality."

I get no kick out of showering Emmys on Robert Stack ("The Untouchables") and Jane "Father Knows Best" Wyatt, who topped Loretta Young, Donna Reed, Richard Boone, Raymond Burr. Week after week, they all do the same formula acting in formula scripts. The funners-up will get their turns. I predict "But at least they've done away with 'Kinnys' for supporting actors."

And did you realize that if the ads went to TV personally, Jack Paar would be known as "Ten Hour."

"The Red Rover Show" is a sore loser.

This daytime half-hour, soon to depart in favor of CBS-TV's pe-

#### LEAVES FOR WASHINGTON

SAN FRANCISCO (UPI)—Gen. Carlos P. Romulo leaves today for Washington to his post as Philippine ambassador to the United States.

#### Hibernate or Not?

Some of the northern bats fly south when winter begins; others hibernate inside the hollow trees, caves and buildings where they make their homes.

#### RED AGRI VISIT

BROWNSVILLE (UPI)—Six Russian agriculture scientists will arrive Sunday for a three-day tour of the Rio Grande Valley's cotton areas. They will stay at the entomology research center in Brownsville.

#### The United States averages 175,000 forest fires annually.

#### MAN CLEARED

HOUSTON (UPI)—John Ferguson, 46, a Greyhound bus driver, won an acquittal Friday night of charges he was negligent in the deaths of three persons June 25, 1959. Ferguson's bus was involved in a collision with a car in which three persons died and three suffered critical injuries. A district court jury deliberated a little more than six hours before finding him innocent.

### Wool Incentive Payments Set

WASHINGTON (UPI)—The Agriculture Department has set wool incentive payments in the \$100 to \$200 range for the 1959 crop at 47.2 per cent of the dollar returns they received from sale of the fiber on the open market.

This means that for every \$100 worth of wool a producer sold on the open market, he would receive an additional \$47.20 from the government.

The 1959 wool crop production received \$10.33 in payments for each \$200 of wool sold.

The incentive payment program is designed to encourage domestic production of up to 300,000,000 pounds of shorn wool. Shorn wool production in the United States last year totaled 257,000,000 pounds. The incentive payments now are at the low mark. Producers obtained

#### SEAMEN RE-ELECT CURRAN

NEW YORK (UPI)—Joseph Curran has been reelected to his 11th term as president of the National Maritime Union.

#### ELECTED REYNOLDS PREXY

WINSTON-SALEM, N.C. (UPI)—Alexander H. Galloway was elected president of the R.J. Reynolds Tobacco Co. Tuesday night.

#### from tariff duties on imported wool.

The incentive payments are set to bring returns from wool to a national average of 42 cents a pound. Prices received at the market in the 1959 marketing year April 1959 through March 1960 averaged 43.4 cents per pound. This was 18 per cent above year's sales.

There will be no payments on mohair this year because production prices averaged 96.4 cents a pound, considerably above the 80-cent incentive level.

An Agricultural Department marketing official predicted that the price of hogs-on-the-foot this fall—around presidential election time—will be considerably higher than they were in the fall of 1958. But he was cautious about predicting whether the price will be higher than it is now.

The spring pig crop report Tuesday indicated the 1960 spring crop was about 18 per cent or 15 million head below the 1959 spring crop. The same of the nation's supply, live hog prices now are at the low mark. Producers obtained \$17 to \$18 per hundredweight

## Why shouldn't you be driving America's 1st choice car...right now!

The sure way to find out why Chevy for '60 continues to outsell other cars is to try one for yourself! The minute you step into that new ROOMIER BODY BY DESIGN you'll begin to see all the wonderful things Chevy's done to bring the wide open spaces inside. But just wait till you pull away from the curb! That's when you'll discover that high-spirited performance is another department where Chevy shines—whether you pick the TURBO-FIRE V8 (that gets up to 10% more miles to a gallon) or the gas-stretching HI-THRIFT 6. Head into a curve, and you'll marvel at the supple surefootedness of Chevy's FULL COIL SUSPENSION... the crisp accuracy of its steering. Shift-free smoothness of TURBOGLIDE will add a further measure of smooth-going pleasure to your driving that you won't find in any other car of the low-price field. YOU CAN'T BUY ANY CAR FOR LESS UNLESS IT'S A LOT LESS CAR!

Get in on the hottest thing this spring... see your local authorized Chevrolet dealer
