

HST IS READY FOR SCRAP TO THE FINISH

WASHINGTON (AP)—President Truman, in a mood to fight for a new term, called his own signals today as he made ready to take his case to the people in 18 states. To the latest suggestion that he withdraw from the race, Mr. Truman replied with a sharp declaration he was "not about to run from a fight."

The President left Democratic Party chieftains on the sidelines in ordering up his special train for a strenuous speaking tour which may hold the answer to his political future. The White House labelled the cross-country swing "nonpolitical," but disclosed plans for five major addresses and a score or more of the-cuff rear platform talks expected to furnish ammunition for the 1948 campaign.

Mr. Truman sets out at 9:30 p. m. (CST) for prepared address at 8 p. m. (CST) at Chicago tomorrow after brief talks at Fort Wayne and Gary, Ind. The presidential special will turn eastward again from Los Angeles the night of June 14. It was in a letter to a fellow Missourian that Mr. Truman provided the clue to his determination to battle party rebels, most of them Southerners incensed over his civil rights program.

Americans for Democratic Action—the self-proclaimed liberal political organization—made public the exchange of correspondence between the President and Dr. H. H. Brummall, Salisbury, Mo., dentist. The letters began with a suggestion from Brummall May 15 that Mr. Truman "sacrifice personal prestige and political power" for the good of the party.

Brummall had supported former Gov. Lloyd Stark against Mr. Truman in the bitterly fought Missouri Democratic Senatorial primary in 1940. He said he voted for Mr. Truman in the general election but had backed Stark in the primary because the governor was an opponent of the Pendergast political machine.

To this the President wrote back blithely on May 24: "A great many of you Democrats in 1940 ran off after a certain governor who was trying to cut my throat and he didn't do it successfully. They are not going to succeed this time either."

Presidential Press Secretary Charles G. Ross' only comment was that Mr. Truman's letter, if it was sent, was a personal communication. In a second letter, dated May 27, Brummall told the President he will vote for him if he is nominated at Philadelphia next month, but without much hope for party success.

Mr. Truman left national committee officials of the passenger list for his Western trip to add emphasis to the official description of it as nonpolitical. However, the President held a long conference yesterday with Senator J. Howard McGrath of Rhode Island, Democratic national chairman, and other party leaders from Capitol Hill.

New Flood Perils Entire Northwest

PORTLAND, Ore. (AP)—The Columbia River system spawned a new flood in its headwaters today. Hundreds of miles downstream, winds whipping in from the Pacific flicked the crest of the old one over the tops of weakened dikes.

Warning of the new flood crashed like a body punch into residents of Oregon, Washington, Idaho, Montana and British Columbia who have been battling two weeks against the river's worst rampage. From the Canadian Rockies down the Columbia's tortuous 1,000-mile course to the sea, flood-battered cities and farm communities rallied to face the second round—all except those who have not yet won the first one.

The original crest was causing the most trouble in the heavily barricaded area around Clatskanie on the Oregon shore and Skamania on the Washington side. It was here on the last 40 miles of its run into the Pacific—that wind-slashed waters rolled over the dikes when the incoming tide was highest. The runover was only one inch deep at the worst spot—on the Oregon side—and it lapped over only when the winds came. Army engineers said the water was running three-tenths of a foot higher than yesterday when the critical stage arrived in this area.

The dikes still held. Thousands of regular army troops, National Guardsmen and civilian volunteers worked steadily to keep building up the earthenworks, stop the leakage and the crumbling. The hearing to permanently enjoin the State Highway Commission, the State Highway engineer, and the Gray County Commissioners Court from looping Highway 66 from its present location to the north got underway this morning in the Gray County 31st District Court.

Attorney Walter Rogers, representing W. J. Ball and others, and Attorney Charles Crenshaw, Austin, representing the State Highway Commission, were still examining witnesses at 11:15 today. The injunction hearing arose when the State Highway Department made clear its intention of relocating Highway 66 from its present bed, running through Alameda and forming its main street, to a site about two blocks north of the town. The Gray County Commissioners Court was brought into the case by the plaintiffs to enjoin them from procuring any rights-of-way along the proposed route.

The first hearing in the suit was held March 1 when Judge Lewis M. Goodrich denied a temporary writ of injunction. The Court later sustained exceptions to the plaintiff's pleadings and an amended petition was drawn and filed. A hearing for a permanent injunction was set and continued on several occasions, but came before the Court for trial by jury today.

County Attorney Bruce Parker, representing the Commissioners Court, is assisting on the defense. Testimony was expected to start this afternoon. The famed Missourian mule, described as "the most indestructible farm implement ever devised," and the Great Plains horse may go to Europe to aid in economic recovery of war-torn nations.

During a House Appropriations Subcommittee hearing on foreign aid funds for the year beginning next July 1, Rep. Mahon (D-Tex.) told Paul G. Hoffman, economic cooperation administrator: "You have taken up a lot of time talking about farm machinery and tractors. I would like to have you make, and I think it is your duty to make a special study made to ascertain whether or not there is some way to utilize these surplus horses and livestock on the great farms and ranches of the West in this (foreign aid) program as a substitute for tractors wherever that might be feasible."

Hoffman replied he would be glad to make the study. "We have had some question about mules from Missouri," Hoffman added, "so we will put that in, too." "The most indestructible farm implement ever devised," commented Rep. Cannon (D-Mo.), ranking minority member of the committee. Mahon told Hoffman that in his state of Texas, South Dakota and in many other states "we produce a considerable number of horses and livestock."

We Heard... State Highway Patrolman P. C. Wynne has declared he is on a diet aimed at decreasing the circumference of the middle portion of his anatomy, but fellow officers and close friends have failed to notice any difference to date. SHUNS BLAME—Rene Borgia, Venezuelan radio script writer, above, testifying before the joint Senate Foreign Relations-Expenditures Subcommittee, placed the responsibility on NBC officials for the foreign broadcasts which raised a storm of protest in Congress. Yesterday, NBC said it would like to get out of airing the "Voice of America" programs.

Four young Sunday School classmates will act as pallbearers for John Hardy Manry, 7, whose funeral will be held from the Holart Street Mission at 4 p. m. Saturday.

John died Tuesday night as a result of burns he suffered earlier in the afternoon from blazing gasoline. His brother, Claude Odell, 11, is rapidly recovering from burns received at the same time, and is expected to be released from the hospital in a few days, his physician said today. Funeral services will be conducted by the Rev. Collins Webb, assisted by the Rev. Curtis Brown. The pallbearers are Paul Tolson, Jr., Robert Tolson, Ralph Cooper, and Billy Hayes. Burial will be in Fairview Cemetery under the direction of the Clegg Funeral Home.

Tragedy Is Borne Out ALTOONA, Pa. (AP)—Mrs. Louis Goodfellow, Sr., wife of a psychology teacher at the Altoona Undergraduate Center, answered the phone last night. "It was a neighbor calling. 'My son says your little boy, Louis, is in a pool somewhere.'"

Frantically, Mrs. Goodfellow phoned police. She was told a boy had drowned in Ivy-side Swimming Pool. Hurrying there, she found a boy had drowned, but it was James Sisco, 15, rather than her own seven-year-old son, Louis. James had dived, struck something and failed to come up. Mrs. Goodfellow returned home. Louis still had not returned. She hurried to the neighbor's home and talked to Louis' playmate. He led her to the "pool" he meant—an 18-foot deep city reservoir. In its water police found her son, drowned three hours before.

Texan in Favor of Anti-Communism Bill PHILADELPHIA (AP)—Rep. Olin E. Teague (D-Tex.) spoke in support of the Mundt-Nixon anti-Communist Bill last night at a meeting of the Board of Directors of the U. S. Junior Chamber of Commerce. President John Ben Sheppard of Gladewater described an "elective service" plan under which youths would be given military training.

It's the Life Of a Policeman PASADENA, Calif. (AP)—Police Sgt. Harry Wilson wondered today what was coming next. A man rushed into the Police Department last night and told Wilson two boys carrying revolvers were standing in front of a theater. A squad car was sent to the scene. The boys were carrying water pistols.

Aimed at Austin, But It's Hit L. A. CLEBURNE (AP)—A missing Cleburne youth sent his parents a recording yesterday which said he had "run away from home." Receipt by the parents of the recording ended a statewide search for Eugene Mayo, 15. The recording to his parents, Mr. and Mrs. C. R. Mayo, was sent from Fresno, Calif. It said in part "I started to go to Austin but went to Los Angeles instead."

CORPORATION COURT One man was fined \$10 after pleading guilty to a charge of intoxication and another was fined the same amount in Corporation Court this morning on a charge of affray.

Five-Year Peacetime Draft Bill Goes Before Upper House Today for Debate

Pampa News

VOL. 47—NO. 51 (16 Pages) PAMPA, TEXAS, THURSDAY, JUNE 3, 1948. Price 5c AP Leased Wire

CEASE-FIRE MAY COME, BUT HOUR YET TO BE SET

By the Associated Press
Count Folke Bernadotte sought today an accord between Arabs and Jews on the exact hour of ending the fighting in Palestine, possibly by Sunday. He conferred in Egypt and arranged to fly to Amman, Tel Aviv and Beirut.

Both sides have agreed to a four-week armistice in the 20-day old war. The chairman of the U. N. Security Council, Syrian Delegate Faris El Khoury, ruled the acceptances unconditional despite the five Jewish "assumptions" and the three Arab "explanations." The Swedish court mediator to fix the moment for shooting to stop.

The Arabs said five days would be required because of poor communications to their five armies scattered through Palestine. The United States was reported ready to insist that the guns be stilled by Sunday. While at least temporary peace has been agreed upon, the fighting went on in the Negev Desert and to the northeast and southeast of Tel Aviv.

Israel's Foreign Ministry made the costly mistake of unilaterally deciding the cease-fire was effective at 5 p. m. CST last Tuesday, the hour when Arab and Jewish answers had to be filed. Neither the U. N. nor the Arabs had ordered the cease-fire. The Jews said the lull caused them to lose momentum in attacks on Jenin and Tul-karm in the strategic Arab triangle of North-Central Palestine. It caused cancellation of another offensive against an Egyptian armored force of up to 5,000 men deployed south of Tel Aviv. Arabs were given time to regroup their defense forces and prepare for new blows.

Convinced of their error, the Israelis cancelled the premature cease-fire order last night. The four-week armistice is parlayed with a total arms embargo to the seven Arab nations and Israel. Hatreds were so intense, and the expressed understandings of the truce conditions were so different that it was impossible to forecast whether real peace would actually come.

Two Die in Berger Blast BORGER (AP)—Two Oklahoma men were killed today when a water tank exploded at the Phillips Petroleum Company Refinery two miles northeast of here. The dead were Earl O. Linn, 19, Meeker, Okla., and Herbert Haun, 26, Oklahoma City. Tom Goodner, 18, Clarendon, Tex., was hospitalized with burns. Extent of his injuries was not known immediately.

Phillips officials said they were unable to say what caused the explosion. The three men were cleaning the tank, which had been used for storage of salt water, by sand-blasting. The tank stands about 90 feet in the air. Linn was on a ladder just below it, Haun was on top and Goodner inside when the explosion occurred. The bodies of Linn and Haun were found lying on the ground. Goodner crawled out of the tank after other workers arrived at the site.

Linn and Haun evidently had been blown into the air by the blast. The refinery formerly was called the "Old Alamo" Refinery. **Fire Damages In Thousands** WICHITA FALLS (AP)—A fire at one unit of the polymerization plant at the Continental Refinery here Wednesday caused damages estimated at \$5,000 to \$10,000. Refinery Supt. John A. Ramsey said the first was caused by a ruptured tube in a reboiler. Flames shot as high as 100 feet when the fire broke out. The blaze was brought under control without the use of chemicals, plant officials said.

'GRASS ROOTS' SOCIAL IS SLATED AT BELL SCHOOL The traditional pre-election pie supper and auction of the Bell School Home Demonstration Club, with its sprinkling of candidates for county and precinct offices, will be held on the Bell School grounds at 8 o'clock tonight. Short "get-acquainted" speeches by candidates present will be made after the pies are auctioned off to the guests. The public, as well as all candidates for office, has been invited by the club. Hostesses for the evening are Mrs. Emmett Osborne and Mrs. Conner O'Neill. Origin of the pre-election pie supper and auction has been lost with the passage of time, according to most old-timers here, but the event has continued to attract a large attendance.

Contracts Soon to Be Let for 15 Miles Pampa-Perryton Road

Construction plans have been completed, and contracts will be let shortly for paving 15 miles of the Pampa-to-Perryton Highway, the State Highway Commission told a delegation from Gray, Roberts and Ochiltree Counties Monday.

The group was assured by the commission that an additional 15 miles on the north end of the proposed Highway 70 would be let next month by the commission for the paving of 4.4 miles of the road, beginning at the Gray County line and running northward. Construction on this section is expected to start soon.

This second section of 15 miles will begin at a point 6 miles south of Perryton and extend southward. Those from Gray County who met with the commission Monday in Austin were County Judge Sherman White, A. A. Kelley from Lefors, and E. O. Wedgeworth, Chamber of Commerce manager here.

Top o' Texas Show Heads Meet Today Directors of the Top o' Texas Rodeo, Horse Show, and Fair Association will meet in the Chamber of Commerce rooms in the City Hall at 8 p. m. today to perfect plans for the forthcoming rodeo. Dates for this year's show were announced as Aug. 4 to 7, inclusive.

The Palomino Show and the Kid Pony Show are scheduled for Aug. 3; the American Quarter Horse Association Show will be held on the Aug. 4-5; and the National Quarter Horse Association Show will be on Aug. 6-7. Nightly rodeo performances are scheduled for Aug. 4, 5, 6, 7, at Recreation Park. Plans are now underway to organize a 3-day booster trip during the last week in July to advertise the rodeo among the neighboring towns.

A new contract was recently signed by the association with Coast Mayo of Petrolia, Tex., to again furnish the rodeo stock. The feature of this year's show will be demonstrations of sheep-herding by Dewey Jontz of Altoona, Iowa, with his trained Border Collie Act. The Hardin-Simmons Cowboy Band from Abilene will again furnish the music for all performances.

Price Daniel Seeks Reelection AUSTIN (AP)—Attorney General Price Daniel today announced for reelection. Now completing his first term, Daniel said during the summer he would make a complete report to the people concerning the work of his office regardless of whether he has any opposition. So far, no opponents have filed against him.

Second Big Bomber Delivered to Army FORT WORTH (AP)—The second B-36 bomber has been delivered to the Air Materiel Command at Wright Air Force Base, making the 900-mile flight to Dayton, O., from Fort Worth in 3 hours and 55 minutes. An Air Force spokesman said work at Consolidated Vultee here was progressing rapidly on another plane which is destined for delivery to the 8th Air Force.

Passage Sought in Few Days

DAPPER DIAPERS—Irving Zafra was robbed of his trousers as well as his money by a hold-up man. Lucker, he's a driver for a Chicago diaper service, so he just donned a few diapers so he could modestly call the police.

Veterans of Foreign Wars To Meet Here Members of the 9th District, Veterans of Foreign Wars, which comprises most of the Panhandle, will hold their annual district convention in Pampa this weekend. Dub Williams, commander of Pampa Post 1657, VFW, said that more than 250 delegates expected will begin registration at the Schneider Hotel and the American Legion-VFW Hall at 10 a. m. Saturday.

J. W. Sanders, regional VFW service officer, is the principal speaker scheduled for the convention. He will address the delegates in a meeting open to all veterans in the Legion-VFW Hall at 11 a. m. Sunday. Other features of the two-day meeting will be a dance for VFW members and their wives only at the Hall Saturday night, and a banquet scheduled for 2 p. m. Sunday in the Palm Room of the City Hall.

'Lend Lease' to Be the Subject! NEW YORK (AP)—Leaving La Guardia Field yesterday, Soviet Ambassador Alexander Panysushkin said he will confer with his government in Moscow on "lend lease" questions. The talks, he said, will include "the matter of the return of the American Ships" loaned to Russia during the war.

WASHINGTON (AP)—A five-year peacetime draft to meet the manpower needs of both the regular armed services and the reserves was laid before the Senate today as "the premium on our peace insurance policy."

This description came from Chairman Gurney (R-S.D.) of the Senate Armed Services Committee in a speech prepared for the opening of debate on the controversial measure. Gurney and other GOP leaders hope to win Senate passage of the draft revival bill by early next week—possibly through extra-hour sessions. But there is stormy debate and possible trouble ahead.

Senator Russell (D-Ga.)—with advance pledges of widespread Southern support—has promised to fight for an amendment that would require the services to set up segregated white and Negro units for all men who asked to serve only with those of their own race. On top of this, Senator Langer (R-Ind.), avowed foe of the draft, said he will offer seven amendments to cover President Truman's civil rights program.

Across the Capitol, the House Rules Committee scheduled another afternoon session in its long series of hearings to determine when a similar bill should be sent to the floor for House action. Republican leaders of both chambers have hinted at selective service bill as one of only three "must" measures to be cleared before the scheduled June 19 adjournment. Neither the House nor Senate bill makes any provision for a universal military training program. President Truman asked for this along with a temporary draft revival in his St. Patrick's Day speech to Congress spelling out a new American "stop-Russia" policy.

But despite the omission of a compulsory training plan for youths, Defense Secretary Forrestal wrote Gurney that the pending bill is an "excellent" one. Under terms of the Senate bill, Gurney said, drafted men after completing two years in the Reserve for five years. They could avoid this by volunteering for an additional year in the regular army. (See DRAFT BILL, Page 8)

Union Power Curb Asked WASHINGTON (AP)—Top coal industry opponents of John L. Lewis asked Congress today to curb labor union powers and to outlaw pension strikes. L. Ebersole Gaines, president of the National Coal Association, told the Senate-House Committee on Management-Labor Relations that strikes which endanger public health, safety and economy should be limited. "This limitation upon the unregulated power to strike should be provided by amendment of the anti-trust act so as to leave unions subject to the consequences of those statutes where they undertake strikes which paralyze the public health or otherwise impair the public health or safety of any substantial area," Gaines said in his prepared testimony. He said strikes to enforce pension plans—like the six-week stoppage of the soft coal miners in March and April—should be made illegal.

Today Jefferson Davis, president of the Confederate States, was born on this day, in 1815. A treaty was effected on this day, in 1810, with Britain for the suppression of African slave trade. On this day, in 1827, on this day, Duke of Windsor married American, Mrs. Wallis Warfield, at Montreux, France. Born on this day, from Whoo! Whoo! British Prime Minister Clement Attlee, the headlines said on this day, in 1942, that Leslie Howard, the British actor, was killed when his plane was shot down. In 1946, today, the government announced it was taking back home the bodies of fallen tanks. Today is celebrated in most Southern states as "Jefferson Davis Day." Today's Bible verse is: "A man's gift maketh room for him, and bringeth him before great men." Prov. 14:11.

U. S. Weather Bureau PAMPA AND VICINITY: Partly cloudy with widely scattered thunder-showers this afternoon and tonight, not much change in temperature. **WEST TEXAS:** Partly cloudy with widely scattered thunder-showers Friday, and in Panhandle, South Plains and Pecos Valley westward this afternoon and tonight. Not much change in temperature. **OKLAHOMA:** Fair and warm today, tonight and Friday. Highs today 88-90, west. Lows today 60-65. Highs tomorrow 82-88, west. Lows tomorrow 60-65. Highs today 82-88, west. Lows today 60-65. Highs tomorrow 82-88, west. Lows tomorrow 60-65.

HOW'D YOU LIKE TO WASH IT?—Long Beach, Wash., folk claim this trying pan is the world's largest. It's made of steel and weighs 110 pounds. During a Chamber of Commerce clam-bake, the pan was used to fry clams to feed more than 2500 people. That's a real horse in front of it.

MAE'S BACK—Back from a 9-month trip to England, during which she said she gained five pounds on Britain's "austerity" diet, Mae West, the "come-up-and-see-me-somedime" actress, arriving in New York, said British men reacted "very good" to her performances in "Diamond Lil."

Mom and Dad Pay—Every Day— While Daughter Plays Part of Scout

While the kids play, the moms find Day Camp running so smoothly, generally, that they have little need for first aid; so they bring their knitting and sock darning to do in their spare time. Mrs. Harold Osborne, leader of Unit 4, drives 25 miles every day to give her services, and Belle Steward, program aide, rides her bicycle five miles daily to give her aid. Mrs. Tom Price, assistant leader of Unit 2, has to drive in from the country every day. After a hard day at the office, the husband of Mrs. Nellie Sharpe, assistant leader of Unit 4, goes home to an empty house and no dinner for a little while. Mrs. R. C. Bowden, Unit 3 leader, leaves her six-year-old son at home every day, since he might not fit into the Girl Scout Camp activities. Mrs. J. B. Ayres, assistant Unit 1 leader, brings one of her daughters to camp, but has to leave her other three children at home. However, all the work put out by the mothers seems to have had results, for it is a mighty pleased group of girls who fry eggs on tin can stoves and go on nature hikes.

Backache, Leg Pains May Be Danger Sign Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg

pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Retest Begun On Gas Wells

A retest of all gas wells in the West, Sweet and West Four areas of the Panhandle field in Carson, Gray, Hartley, Hutchinson, Moore and Potter Counties was begun yesterday. Plans for the retest were made at a meeting in Phillips Tuesday between engineers from the gas companies in this area and from the Texas Railroad Commission, led by Sol Smith, senior engineer for the commission, from Austin, and Jim McClintock, manager of the Pampa office. Smith said, following the meeting, that the test will be a big step in the conservation of natural gas in this area. The new tests, Smith continued, should ascertain the new potential, deliverability, and rock pressure of each well. Protraction for each sweet and sour well will be forthcoming as soon as the state office compiles the data collected. A demonstration was held Tuesday to familiarize operators with the new method adopted by the commission for testing the wells. The new method is a deliverability test and has the advantage over the old plan recommended by the U. S. Bureau of Mines of a minimum of wastage. By the "four point" method formerly used, some eight billion cubic feet of gas would have been blown into the air.

ON THE RADIO

DEADLY EXPOSURE

Two of the eight gases in use at the end of World War I will penetrate any gas mask. The two in question are not lethal, but are used in conjunction with deadly gases, since they cause the victim to tear off his gas mask and so expose himself to certain death.

Ancient Jewish high priests confessed the sins of the people or the head of a goat, after which it was released into the wilderness. Hence the modern term "scapegoat."

Natural Gas Will Be Sent In Big Inch

SHREVEPORT, La. (AP)—Urgently needed natural gas supplies will soon flow eastward from Texas and Louisiana fields through the Big Inch natural gas pipeline. R. H. Hargrove, president of the Texas Eastern Transmission Corp., said Wednesday work will begin immediately on three new feeder lines and a fourth will be extended in the last quarter of this year. The expansion, which will boost the delivery capacity of Texas Eastern's pipe lines system to 508,000,000 cubic feet a day, represents an increase of 75,000,000 cubic feet daily. Texas Eastern Tuesday gained temporary authority from the Federal Power Commission for the increased output. Hargrove said the first new extension line will be an 8-inch pipe running 20 miles from Texas Eastern's present line in Harris County, Texas, to the Stanolind Oil and Gas Co., gasoline extraction plant in Hastings Field. In Louisiana, two 10-inch lines, one five miles, the other two miles long, will be laid from the Little Big Inch line to new gasoline extraction plants being built by the California Company and Southwest Gas Producing Company in the HICO-Knowles Field. The fourth extension will be a 10-inch line, 17.2 miles long, from the Little Big Inch line to the Silsbee Field in Texas.

Notorious Figure Dies at Denver

DENVER (AP)—Ben B. Laska, Denver attorney convicted of accepting ransom money in a sensational 1933 kidnaping, was found dead Wednesday at his residence.

Detective Sgt. Arthur A. Roush accepting the money as a fee was said Laska left six notes implicating suicide. The cause of death was not immediately known, Roush said. Laska was convicted in 1935 at Oklahoma City of accepting \$10,000 in the kidnaping of Charles F. Urschel. Laska was accused of defending Albert L. Bates, one of the kidnapers. Laska was given a 10-year sentence and released on a parole in June, 1941. President Truman granted him a full pardon in March, 1947.

Market Briefs

WALL STREET June 2 (AP)—Oil shares, with steel issues lagging, stayed in front of a narrow stock market today. Gains for the day ranged from more than a point at the close. Changes elsewhere were mainly fractional. Steady Oil joined the front rank of the oil parade late in the session following news of a doubled dividend. Turnover ran around 1,200,000 shares.

Trending new highs were Shell Union Oil, Standard Oil (N.J.), Standard Oil of Indiana, Electric Power & Light and Celanese.

Issues higher included U. S. Steel, Youngtown Sheet, Republic Steel, Mission Corp., International Harvester, Pan American Airways (added by

dividend news), Allied Chemical (traded ex-dividend), Atlantic Coast (ex-dividend), American Telephone and Electric, Backward were American Can, International Paper (ex-dividend), American Smelting, Goodrich, Douglas Aircraft and Air Reduction.

Golden Loaf Bread, it's flavored. Pampa Baking Co.

For Rent: Nickledeons, Ph. 273. Top O' Texas Amusement Co.

City Secretary and Mrs. R. E. Anderson returned yesterday from Denton, where they attended the commencement exercises of their daughter, Jeanne, who was graduated from the Texas State College for Women.

We are now able to finish all custom made pants with genuine comfort waist band. See our samples first. Hawthorne Tailoring, 115 S. Ballard, rear of Fashion Cleaners, Phone 924.

Mr. and Mrs. Paul Kasishke and children have returned from an 11-day trip to Oklahoma and Arkansas. While they were away they attended the Tulsa Oil Show and went fishing at Spavinaw, Okla., and Eurka Springs, Ark. They were successful in the catching of both catfish and bass.

Elis, Do Nut Shop formerly on South Cuyler has moved to 306 N. Cuyler where we will serve complete meals, lunches, sandwiches and continue to please you with fresh Do-Nuts at all times. We do special orders or parties.

Mr. and Mrs. A. R. Harvey have returned from vacation trip to Dallas and Wichita Falls where they visited in the homes of Norman and Jack Harvey.

The Holy Souls Parochial School will hold their annual Spring festival and bazaar Sunday June 6. A delicious home cooked ham dinner will be served beginning at 1 p.m. Adults \$1.00, children 60c. Public welcome.

Mr. and Mrs. B. D. Robinson and son, B. D. Jr., are leaving Friday for McKinney, Texas, to visit Mr. Robinson's parents. They will be gone about ten days.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
NEW YORK—More gold diggers have struck it rich in Manhattan than all the mining prospectors in the fabulous West. But there is also a quiet and unglamorous quest for gold that goes on here constantly—and nets above \$500,000 a year.

These prosaic treasure seekers are the men who have the job of recovering the fragmentary particles of gold lost by 500 New York city firms in the manufacture of precious metal jewelry.

There is an old saying that gold is where you find it. This is particularly true of these indoor prospectors. They have found it in the air, in wash water, and by putting a vacuum cleaner to the hair of women jewelry workers.

These minute specks of gold also lodge in the clothing of workmen, in shoes, tools, work benches, chairs and floor cracks. It's worth the cost of the treasure hunt to regain them. They add up to big money.

"We recover about \$50,000 annually in gold from such sources," said W. Walters Schwab, president of J. R. Wood & Sons, the nation's largest wedding ring manufacturing firm.

In its 94-year history this firm has introduced many methods of gold recovery now typical in

the precious metal jewelry industry, which centers here. The largest amount is probably recovered simply by burning floor sweepings and refining the bits of gold that have fallen from work benches.

Many firms now also supply aprons to their expert workmen and require them to be worn. The company launders the aprons itself. The water goes through settling tanks as does the water from special basins in which the workmen must also wash their hands each night before leaving the plant.

This prevents the waste of gold which accidentally stuck to the workmen's clothing and hands.

Jewelry manufacturers long suspected their workrooms had 14-karat air. Introduction of a special type filter to trap microscopic particles of gold floating in the air confirmed this in an amazing degree.

"In a single department where gold is worked as much as \$10,000 can be salvaged in a single year," Schwab said.

For a time a number of plants recovered considerable gold dust—and perhaps dandruff, too—by vacuuming the hair of women employees. This practice is now obsolete.

"The ladies stood on their dignity and objected," Schwab laughed. "They insisted they wash their own hair—or be taken to a first class beauty parlor—free."

So beauty and industry came to a compromise. The managements put away the vacuum cleaners—and the ladies agreed to work with their hair tightly bound in kerchiefs.

"Do we wash the kerchiefs?" said Schwab. "Indeed we do."

422 Answer Questions on Education

Glimer-Aikin Committee opinions were answered by 197 High School Seniors and 225 residents of Gray County during the past three weeks, the results having been tabulated by the 11-member Gray County Advisory Committee on Education.

The opinions, sponsored by the Glimer-Aikin Committee, are intended to study questions relating to the improvement of the public school system in Texas. The committee is composed of six professional educators, six members of the Legislature and six lay members.

If teachers were to receive higher pay, more of the High School Seniors in the county signified they would be interested in the teaching profession. They further rated their various teachers as excellent, good, average, weak and should not be allowed to teach.

Citizens indicated they thought the average starting salary for teachers with a four-year college education and specific preparations for teaching should be not less than \$2,627. Also they thought a teacher with 15 year's teaching experience and a Master's Degree should receive a salary of \$3,623. They believed these figures should be paid even if it meant raising taxes.

School district organization opinions for citizens asked ques-

tions on the organization of the administrative school units on the local level, questions on financing the school program and school census, attendance, codification of school law, buildings and building codes.

A third opinionnaire is intended for the County Committee. It asks about material concerning wasted manpower in staffs of the schools, salary increases, retirement and caliber of teachers.

Kosher means pure and clean according to the Jewish ordinances.

Austin Businesses Damaged by Fire

AUSTIN—(AP)—Fire and smoke caused an unestimated amount of damage to office equipment and stored merchandise of four business firms here Wednesday night. Eight fire companies fought the blaze in the two-story building in Austin's downtown district. Damage to the White Auto Store warehouse, which occupied the second floor, was estimated at \$10,000. No damage estimates were available from other occupants, the

J. R. Reed Music Company warehouse, The Austin Photo Supply Company and the Austin Press.

A candle clock, consisting of candles marked off in inch sections, was devised by Alfred the Great, of England. Each candle burned four hours.

Here's Why Communist Line Isn't Popular in This Country

By JAMES MARLOW
WASHINGTON —(AP)—Here's an ABC on the problem of communism and civil liberties in this country.

Under the U. S. Constitution everyone is guaranteed certain civil liberties, like freedom of speech.

Because of that, you can criticize the government, even to urging a change in its form.

You can do this so long as you don't say it should be changed by force. You could be jailed for that. There's a law against that kind of talk.

But if the form of government isn't changed by a violent overthrow, how then might it be changed?

By a vote of the people. (Last April in Italy the Communists tried to come to power by vote of the Italian people. They were defeated.)

But, so long as you don't urge change by violence, you can even suggest this:

That once the change is made, a dictatorship shall be set up, a dictatorship to crush all opposition to it.

Doing that, of course, would mean wiping out the kind of civil liberties we have had so far in this country.

So that is one of the tests of democratic system in this country: To protect the civil liberties of a person, or group of persons, even though you know they will use those civil liberties to gain power to crush those liberties.

This problem was summed up in 1928 by Justice Holmes when he was a member of the Supreme Court. He said:

"When men have realized that time has upset many fighting faiths, they may come to believe even more than they believe the very foundations of their own conduct that the ultimate good desired is better reached by free trade in ideas—that the best test of truth is the power of the thought to get itself accepted in the competition of the market."

And the Communist Party in this country is trying to do the very things outlined above:

They are using the guaranteed freedom of speech to urge a change in the form of government.

They plainly say that if they come to power they'll set up a dictatorship of the workers and wipe out all parties opposing the Communists.

In short, if the people elected the Communists, they'd never again get a chance to vote for any party which opposed the Communists and which might, through election, supplant the Communists and change the government back to what it is now.

The Communists don't suggest the change be brought about by force or violence. As noted, they could be jailed for doing that. (Nevertheless, enemies of the Communists say they're concealing their real purposes by carefully not mentioning violent overthrow.)

This is not something cooked up by enemies of the Communists. William Z. Foster, president of the Communist Party, has stated the idea plainly.

In 1932, when he was running for president on the Communist ticket, he wrote a book called "Toward a Soviet America." In it he said:

"Under the dictatorship all the capitalist parties — Republican, Democratic, Progressive, Socialist, etc.—will be liquidated, the Communist Party functioning alone as the party of the toiling masses."

Committee Approves GI Housing Bill

WASHINGTON —(AP)—A bill expected to allow veterans to resume buying homes without large down payments was approved yesterday by the House Veterans Legislation Committee.

The measure would make the Veterans Administration a secondary market agency for GI home loans. Reps. Nixon (R-Calif) and Mitchell (R-N.J) are the sponsors. As it now stands, the bill would

authorize the Veterans Administration to buy at par within five years of the date of origin private-financed home loans guaranteed by the VA.

The loans must not exceed \$10,000 each with a service fee of not more than one percent a year.

H. F. Dutton, Los Angeles County, Calif., building and loan company executive, told the committee the bill would permit lending institutions to replenish their funds by selling some of

the GI loans in the secondary market, thus allowing the building of more homes for veterans.

He said it also would allow veterans to resume buying homes without large down payments.

NIPPONESE LOOT
TOKYO —(AP)—Police seized 8,000 swords, 320 revolvers and hunting rifles and 500 boxes of cartridges in disarmed Japan during the six weeks ending May 31, the newspaper Asahi reported.

Newsprint Said Made From Straw

THOROLD, Ont. —(AP)—Newsprint made in part from wheat straw instead of wood pulp — has been produced in quantity at the Ontario Paper Company Ltd., plant here. An announcement said 70 tons was manufactured—"first commercial tonnage in North America" of such newsprint.

Christopher Columbus was born in Genoa, Italy.

Tenant-Operated Farms Declining

AP Special Washington Service
WASHINGTON —(AP)—More farmers are becoming full or part owners of their land, while farm tenancy is declining at a steady pace.

In a study of farm ownership, T. Inman of the Bureau of Agricultural Economics reports

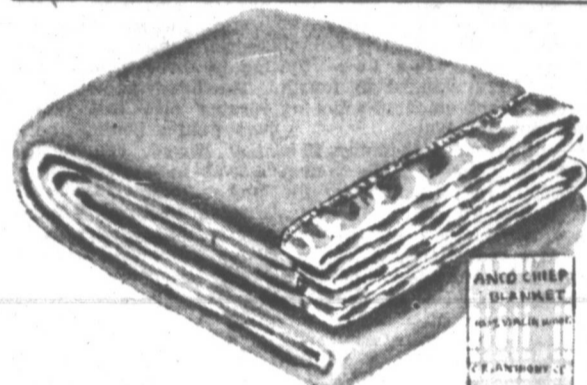

that last year only 26.9 percent of the nation's farms were tenant-operated. This compares with 21.7 percent in 1945 and 42.4 percent in 1930, the peak year for tenancy.

HEALTH NEWS

STOMACH AILMENTS, WEAK KIDNEYS, RHEUMATIC PAINS, ARTHRITIS, NEURITIS and such complaints as Headaches, Nervousness, Acids, Toxins, Bloating, Lack of Vitality, Energy, Poor Appetite, Underweight, Dizzy Spells.

Drugs Health

REGARDLESS of how long you have been a sufferer, and how many medicines you have tried before, you can now hope for relief if you try GEO-MINERAL, the wonderful mineral aid. Feel and enjoy the results one week after you start taking it. GEO-MINERAL comes from the earth — Nature's laboratory. Contains NO dope, NO alcohol, NO oil. ONLY nature's minerals — the oldest, most reliable remedy for rheumatism, arthritis, kidney and stomach ailments.

Colon Illustrations

THE COLON is one of the most important organs of our body. The following illustrations show the colon in various forms, as one's condition of health may be. You may ask: How is my colon?

THE IDEAL COLON. A person in perfect health possesses a colon like this — firm and regular, with well functioning muscles.

FOR THOUSANDS of years ever since Hippocrates was the father of medicine, minerals and other natural medicines were a reliable remedy for most of our common ailments. GEO-MINERAL will enrich your blood, help to make you strong, full of pep, life and energy. If you suffer from anemia, nervousness, lack of vitality and energy, see what GEO-MINERAL will do for you.

Wonder Minerals

MEDICAL records show 95% of men and women over 35 suffer from nutritional mineral-iron anemia. When you feel nervous, dail, tired, lazy, have dizzy spells, no ambition to work or play, a poor appetite, when your eyes lack that bright spark, and your mind brilliance, when headaches get the best of you, and you feel old before your time, when the sexual powers weaken, and life seems not worth living, with worry wearing you down — it may be simply lack of minerals in your blood. GEO-MINERAL is then what you need.

CONSTIPATION is the cause of acute attacks about condition of this colon. IMPORTANT: Keep colon free from poisonous waste matter.

RHEUMATISM, arthritis are secondary diseases. Acid condition in the blood is often their cause. What could be the remedy? For thousands of years, minerals have been used to relieve the pain of these ill. Doctors send people to mineral springs to find cure or relief. The late President Roosevelt used to go to Warm Springs in Georgia. He was helped or would not have gone there twice a year.

Amazing Results

YEAR after year, people rush to mineral springs and spas to drink and bathe in their miraculous water. We have all heard of the wonderful springs of Lourdes, France, and famous Thrasion in ancient Greece where, according to legend, Hercules, the god of eternal strength and youth, drank its waters and bathed to be forever young. GEO-MINERAL contains minerals you get at the world's best springs. Watch your elimination from your bowels a day or two after using it. The waste, black as the color of your shoes, will start to break away, and you will SEE it! Also examine your urine. You may see impurities — poisonous waste — coming out of your kidneys, relieving you. And then realize its value. GEO-MINERAL is not a physic, and does not interfere with the foods in the stomach. It cleans and purifies the intestine — thoroughly, relieving gas, toxins, acids, and bloating. After these poisons are out of the system, and the kidneys purified, we begin to feel the arthritis and rheumatism leaving, and Nature starting to complete the recovery.

SPASTIC CONSTIPATION — Flushing down the descending colon. This condition often caused by over use of harsh cathartics, physics.

WE URGE everyone to try GEO-MINERAL. Do not hesitate one moment. Come to this drug store now. Get one bottle. Use it one week. If you are not 100 per cent satisfied, we will refund your money. GEO-MINERAL Retail Price 6 Bottles \$1.10 6 Bottles \$6.00

Check Car, Save Lives

"Check your car—check accidents" is the slogan of a continuing program aimed at saving lives on the streets and highways of Texas.

"The brakes of your car can mean the difference between life and death," said Colonel Homer Garrison, Jr., director of the Texas Department of Public Safety. Lots of people realize that. Garrison continued, but, it's deplorable how many motorists continue to drive with poor brakes. Other car parts, too, can be life savers. Lights, windshield wipers, tires, steering and wheel alignment, the muffler and exhaust system, the glass, rear-view mirror and horn all are important to safety.

The Texas Highway Patrol requests all motorists to keep their cars in safe operating condition as one means of preventing losses from traffic accidents. This project is part of the year-round program for traffic safety. The continuing effort is part of a nation-wide traffic safety education promotion of the National Safety Council.

Your life and the lives of others may depend on whether or not your car is kept in safe operating condition, Captain Polk Ivy of the Amarillo District Office of the Texas Highway Patrol said. Vehicle defects were contributing factors in hundreds of fatal traffic accidents, according to accident reports. Yet this figure does not tell the whole story. Information on vehicle condition is available in less than half of all reported fatal cases.

30 Barbershoppers To Oklahoma City

Approximately 30 Barbershoppers of the Top o' Texas Chapter of the close harmony organization will attend the 10th annual international quartet contest in Oklahoma City, on June 11 and 12. Dr. W. C. Jones, local chapter president, said:

The SPEBSQSA was organized in 1938 by Owen C. Cash, Tulsa lawyer, who created the organization "as being one of the only activity guaranteed under the Bill of Rights that hadn't been restricted in some way." Since then the organization has grown and has 465 chapters with 25,000 members all over the United States, Canada, Hawaii, and Alaska.

Forty of the best quartets will compete for the championship in the Municipal Auditorium of Oklahoma City. The forty foursomes were selected from regional contests.

Heard Discusses 'Fellowship'

Rotarian Grover C. Heard, past president of the Pampa Club and the Toastmaster's Club, yesterday spoke on "Fellowship" during the weekly meeting of the Rotary Club at the Palm Room.

Special music was furnished by Lion Ken Bennett who sang three songs of his own composition and to his own accompaniment. Rotarian C. P. Buckler had charge of the program. Club singing was directed by Rotarian Frank Foster and Ray Evans presided over the meeting.

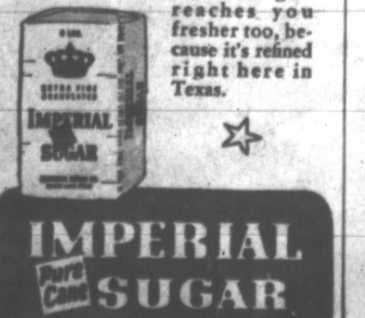

Among the guests were members of the Equalization Board and survey engineers making the city tax equalization and revaluation survey.

The shoemaking trade is so highly regarded in Sumatra that children, from the age of 2, are taught the craft by special artists.

IT MAKES CENTS TO CAN AND PRESERVE

One way of beating high food costs is to have plenty of delicious home-made preserves and jellies on hand this year. Berries, peaches, plums, figs and grapes. Stock your pantry shelves full. Youngsters and grownups, too, really go for berries and fruit preserved at home. To put up prize-winning preserves, the kind your family and friends rate above, be sure to use 100% Pure Cane Sugar. For the best pure cane, demand IMPERIAL Pure Cane Sugar. Imperial is pure cane, real cane, and quick-dissolving—important in preserves and jellies. Imperial Pure Cane Sugar reaches you fresher too, because it's refined right here in Texas.

Princess Anne Shops for Trousseau

Princess Anne de Bourbon Parme who will be married in June to ex-king Michael of Romania is pictured at the Maison Raphael as she shops for her trousseau. At left, she tries on an evening gown of midnight blue satin ribbon on net. At right, the princess looks at a fur-banded, dotted crepe outfit for summer which is submitted for her approval by saleswoman Gisèle de Marcellus.

By ROSETTE HARGROVE
NEA Staff Correspondent

PARIS (NEA) — Although many of the top-flight designers would have welcomed the opportunity of executing the trousseau of Princess Anne de Bourbon Parme, bride-to-be of ex-king Michael of Romania, she has placed this important order with Raphael, one of the smaller Paris maisons de couture.

The princess decided after shopping around that she likes Raphael's restrained, conservative styles. Besides the twelve ensembles for the trousseau, Raphael is also making the bridal gown as well as the gowns the bride's mother, H. R. H. Princess de Bourbon Parme, will wear at the wedding ceremony and reception.

"Every model she selected is devoid of exaggeration, the quality she most appreciates," commented here "Gisèle" who is saleswoman Gisèle de Marcellus. Although she approves of the "New Look," Princess Anne does not endorse it to the extent of wearing exaggeratedly long or full skirts or squeezing into a 20-inch waist belt. She is as slender as any mannequin and does not need to wear a gupiere to achieve a wasp waist.

Three formal evening gowns, two ankle-length dinner-dance frocks, two suits, one coat dress, two topcoats and two summer afternoon outfits represent the most important numbers of her trousseau. One of the evening gowns has a spreading skirt made of midnight blue satin ribbon in graded widths mounted on a net foundation and a strapless bodice veiled with a frilly "visite." The other two gowns, one in white jersey, the other in pink crepe,

have cleverly-draped bodices and skirts which fall in the classical manner in full but clinging lines to the floor. Bronze green silk jersey and lightweight black wool crepe fashion the two ankle-length dinner dresses which have restrained drapery effects and medium wide skirts. There is a softly tailored suit in gray Glen-gary check with a red line running through. This color is repeated in the velvet collar and cuffs on the jacket. A black wool town tailleur is trimmed with black braid, which is used on the flared, basqued jacket. The bride-to-be chose navy wool for her tailored coat dress cut on simple, slim lines with the "touch of white" represented by a finely tucked "dickie."

A navy wool redingote with godet fullness in front teams up with a fitted top for town wear. A beige camel hair cloth is the choice for a roomy topcoat which can also be worn with a wide leather belt.

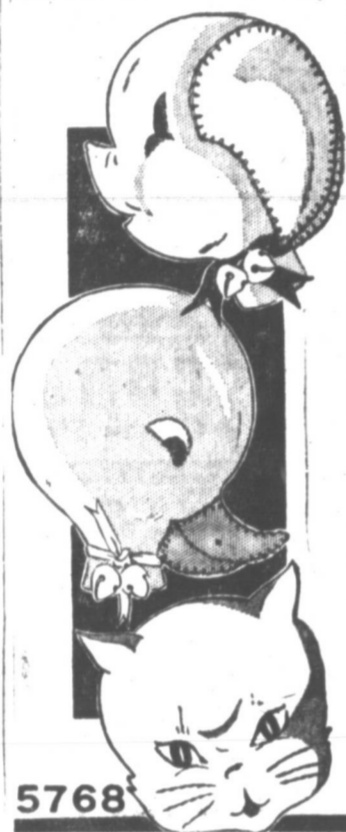

For dressy afternoon functions there is a grey dotted white crepe two-piece ensemble, the basqued top trimmed in front with black fox. A dressmaker suit of navy linen features a yoke effect carried out in heavy white cotton embroidery.

No details concerning the wedding gown are yet allowed to be published. This, much, however, is known: the train will measure over three years and the princess will wear a priceless lace veil which has been worn by all the royal brides in the family.

Furs will also come from the Raphael workrooms but Princess Anne has not yet made up her mind as to what she wants. She has looked at a platinum grey fox stole, also at red foxes which might eventually fashion a short jacket or bolero. Hats are going to be a problem, as Anne de Bourbon Parme belongs to the hatless generation. Janet Blanche, however, is the modiste who will create the models which she will decide to wear.

U. S. Navy scientists expect soon to be able to produce temperatures within 100 degrees of absolute zero (-459.7 degrees Fahrenheit).

Joyce Rhoten Is Shower Honoree

Miss Joyce Rhoten was guest of honor at a pre-nuptial shower held last Saturday in the home of Mrs. Fritz Epps of Phillips Camp. Mrs. Glenn R. Hudson was co-hostess. The home was decorated with sweet peas, larkspur and pink roses. The honoree was presented with a corsage of pink carnations, before she displayed her many beautiful gifts.

Refreshments of sandwiches, olives, cake, mints and punch were served.

Others not mentioned above who were present were Mesdames L.M. Quillen, E. M. Heard, R. N. Rhoten, Marvin Johnson, C. A. DeMoss, W. O. Blakeney, M. A. Frost, A. N. Rogers, Johnny Collins, J. W. Arndt, E. Garland, G. W. Voyles, Henry Randolph, Albert Taylor, A. A. Finney, Fernal Heard.

Miss Thelma Jo Quillen, Sherry Rhoten, and Millicent Hudson. Miss Rhoten's marriage to Maurice Heard will take place June 18.

ZONED ROADS

The roads of the federal-aid highway system are chosen in such a way that if a zone 10 miles wide were marked off on each side of them, these zones would include the homes of 90 percent of the population, according to the Encyclopedia Britannica.

Theodore Roosevelt became President of the U. S. at 42 years of age.

The Social Calendar

THURSDAY
7:30 Rebekah Lodge in IOOF Hall, 2:30 Tea supper at Bell School with Bell Home Demonstration club entering 4th annual political candidates.
7:30 American Legion Auxiliary in City Club Rooms.
8:00 Methodist Church party in honor of David Binkley and family in Friendship Hall.
FRIDAY
12:30 Mary Class of First Baptist church meets at church to go to home of Mrs. W. B. Burgess for luncheon. Members are asked to bring either a vegetable or a salad.
6:00 Top of Texas chapter of NSA dinner meeting and installation of officers in home of Miss Inez French, 113 W. Third.
8:00 NALC Auxiliary with Mrs. J. L. Mulanax, 308 E. Locust.
8:30 Order of Eastern Star in Masonic Temple.
SUNDAY
2:30 Tea for VFW Auxiliary members in home of Mrs. B. S. Via, 905 N. Somerville.
MONDAY
2:30 Rainbow Advisory Board at Masonic Temple.
TUESDAY
2:30 Lefors Methodist Church WSCS in church.
7:30 Theta Rho Girls Club in IOOF Hall.
Business and Professional Women's Club meeting in City Club Rooms.

ISLAND VS. CONTINENT

Every continent is an island, but every island is not a continent. The western end of Asia is given the status of a separate continent, under the name of Europe; and the British Isles are a part of the continent of Europe.

Fifty-three U. S. Navy bands are at present stationed on ships and at shore stations over the world.

★ WE, THE WOMEN

BY RUTH MILLETT
NEA Staff Writer

A woman reader, whose husband has complained that she doesn't make his friends feel welcome in their home, admits she doesn't know where she falls, and asks for help.

"Throughout her letter she talks of 'my husband's friends.' She explains that when she sees them elsewhere, she says in parting, 'Drop by and see us some evening.' She finds it hard to understand why they so rarely take her up on the invitation.

She further confesses that she just isn't the kind of person who can use such adjectives as "beautiful" and "wonderful." "The best I can do in admiring something is to say, 'Yes, it's nice.'"

Her first mistake is in setting her husband's friends off in a little corner marked "His Friends." When a woman marries, "His Friends" should become "Our Friends."

INVITE SPECIFICALLY
Her second mistake is in thinking that friendships can be built and kept on vague invitations. "Drive out and have Sunday night supper with us" gets results. "Drop by and see us some time" doesn't.

Her third mistake is in being afraid of liking things and people wholeheartedly and enthusiastically. The person who won't use superlatives about anything doesn't draw others to him as quickly as the person who will.

The Navy has developed a sea-plane dock which can be carried to advanced bases by the planes that are to use it.

The U. S. Navy donated 557 small craft of various types to the American sea scouts during 1946 and 1947.

Know Your STUFF

About Dinnerware. . . The June bride who is shopping for dishes should know the general types and characteristics of dinnerware.

There are four general types: earthenware, semi-vitreous china-ware, china and porcelain.

Earthenware is the least expensive of the four. It is porous, therefore, more resistant to chipping or breaking. The glaze is more impervious to scratching and will not flake as easily as the glaze on earthenware.

More expensive is semi-vitreous china-ware. It is less porous and, therefore, more resistant to chipping or breaking. The glaze is more impervious to scratching and will not flake as easily as the glaze on earthenware.

Still more expensive but most resistant to chipping are china and porcelain. Both are non-porous or "vitrified." Thin plates are translucent when held up to a light. China has a softer glaze than porcelain but scratches on china are not easily noticeable. So-called "bone" china gets its name from the fact that bone-ash is included in the composition. The name does not signify a type of china that is harder or longer-wearing than ordinary china of comparative value.

In general, the more elaborate the decorations and the more colors used, the more costly the dinnerware will be.

Trinity College at Durham, North Carolina changed its name to Duke University in order to receive funds left it by a wealthy tobacco manufacturer.

During wartime research Procter & Gamble FOUND a sensational new washday miracle!

it's TIDE
You've never used anything like it!

Out of the vast new knowledge gained in wartime research comes Tide—the most amazing discovery in the whole history of washing products. Tide does what's never been done before—washes clothes cleaner than any soap, yet leaves colors brighter! Tide is completely NEW and different . . . as you'll see for yourself the first time you try it. Tide's wonder suds billow up instantly even in hardest water . . . they look different . . . feel different from any soap you've ever used!

ONLY Tide DOES ALL FOUR!

1. Washes clothes cleaner!
Yes, cleaner than any soap made! No matter what soap you may be using now, Tide gets your whole family wash cleaner—even greasy overalls! Tide leaves clothes free—not only from ordinary dirt—but from gray, dingy soap film as well.
2. Actually brightens colors!
Tide leaves no film to dull dainty washable colors. What's more, Tide removes all film left by former soap washings—that's why color brightness perks up like magic after a Tide wash!
3. Never "yellows" white clothes!
Tide keeps shirts, sheets, pillowcases gleaming white, week after week. Never turns them yellow, no matter how often they're washed or how long they're stored!
4. Gives more suds—
Prove it in your dishpan!
Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in hardest water! Tide cuts grease like magic . . . washes dishes cleaner than any soap! No scum in the water! No cloudy film on dishes and glasses! That's why they rinse and dry so sparkling clear—even without wiping!

TIDE WORKS EXTRA MIRACLES IN HARD WATER! OCEANS OF SUDS! NO WATER SOFTENERS NEEDED!

Sports Round-Up

NEW YORK—(AP)—Maybe by HUGH FULLERTON, JR. there's no connection or maybe there is... a minor league baseball manager and a club official were barred for life on charges of gambling and game-throwing... an item in the Des Moines Register pointed out that western league players, not on option from a higher-class club, are paid an average of \$10 per game... Eastern College Athletic Conference ruled out playing summer ball in the Vermont Northern League, a resort-hotel circuit, partly because major league clubs were sponsoring some of these teams as "farms"... and Fordham's Jack Coffey commented he had seen a northern league contract calling for \$170 a month, which was "nothing but expenses."

TWO PLUS TWO

Putting these items together, with a few more figures and lot of questions, trying to convince Jane Wyman to drop that divorce suit.

In Hollywood

By BRUCE JOHNSON
HOLLYWOOD—(AP)—Hollywood finally has a studio boss more colorful than all of its stars. Howard Hughes, new chief of RKO, is the answer to a columnist's prayer for bright copy. His airplanes, his fortune, his romances, his eccentricities and his sense of the dramatic turn everything he does into headlines.

I'll never forget the first time I saw him. We were passengers on a San Francisco-bound plane. Only I didn't know it until the plane landed. I was puzzled about the tall, lanky fellow who boarded the plane carrying a paper bag and wearing a pair of dirty white tennis shoes, trousers and a coat that didn't match, a crumpled white shirt and no tie.

There were two peanut butter sandwiches and an apple in the paper bag. He ate one of the sandwiches and he was still carrying the paper bag when he got off the plane and stepped into a limousine longer than the Golden Gate bridge.

"Who is that fellow?" I asked. A stewardess smiled and said, "That millionaire—Howard Hughes."

I couldn't help remembering the pair of dirty white tennis shoes and the paper bag with the sandwiches when Howard wrote that check for \$8,825,890 for the controlling block of 929,020 shares of RKO stock.

SHORT TITLE: "FAN"
Ty Power's co-star in "Lady Windermere's Fan" may be Norma Shearer. Negotiations are going on for Norma to return to the screen in the film. The new version of the old play will be titled simply, "The Fan."

Ronald Reagan has to learn five different European dialects for his role in "The Girl From Jones Beach." He'll probably use them all, offstage, trying to convince Jane Wyman to drop that divorce suit.

Mimic Arthur Blake, who opened at Larry Potter's Supper Club recently, has a new impression of Bette Davis, which begins: "I'm so nervous. You'd be, too, if you had read the reviews of 'Winter Meeting'."

For he's a jolly good fellow officials can't be scrutinized so closely as to bar the possibility of dishonesty?.. won't almost any semi-pro club hand a good player more than ten bucks for a single game, though that rate may not go all season?.. in the class "C" circuit where the latest scandal broke the average figures to about \$8, and down in class "D" it's nearer \$5.50.. how can a professional get along on \$150-\$200 a month if a college kid figures \$170 is bare expense money?.. with all their farm clubs, many of them losing money, why are major league clubs digging down into semi-pro and "amateur" circles where the rules of organized ball can't touch them?.. whether are we drifting?

SPORTS POURRI
Western Michigan College, which has won five straight baseball games from big nine teams, will be in the fourth-district NCAA playoff. Bobby Layne, who was 29 Southwest Conference ball games as a pitcher, has turned down all pro baseball offers. He'll spend the summer in Lubbock, Tex., finishing one course for graduation at Texas Tech, before joining the football team.

dept.: Ernie and Van Johnson sent Keenan Wynn a floral horseshoe when he started work with Lorraine Day in "My Dear Secretary."

Guy Madison is back to Gail Russell. (Their romance goes on and on like a Crawford movie.)

73 DREAM HOUSES
What an exploitation campaign Selznick's "Mr. Blandings Builds His Dream House" is getting. Seventy-three Blandings Dream Houses are going up all over the country to raise interest in the film. Then the houses will be sold to raise funds for charity.. Another aftermath to "Sitting Pretty," John Beal has written a baby-sitter song, "Two O'Clock Feeding."

We're finally getting a Protestant "Going My Way." At least

that's writer Lionel Houser's hopes for "Baltimore Escapee," with Bob Young, Shirley Temple and Johnny Agar. Bob plays a minister, Shirley his daughter.. Clark Gable and Marie Windsor have discovered each other.

Latest publicity stunt may find Red Skelton being "elected" to the board of directors of the Fuller Brush Company. To plug "The Fuller Brush Man" of course.

A feminine visitor on the set of "Drums Along the Amazon" made a big hit with George Brent by telling him that she always remembered him for his performance in "One Way Passage" and that the remake of the picture, "Till We Meet Again," was nowhere as good as the original.

VANDALS AT WORK
WICHITA FALLS—(AP)—Vandals wrecked the interior of the Howard School, Trustee Leamon J. Cook reported. He visited the school yesterday, found desks overturned, chairs and windows broken, and books in the school library damaged. The one-room structure is five miles south of Wichita Falls.

NEW PRESIDENT
DALLAS—(AP)—D. G. Levy, Dallas, is new president of the Petroleum Industry Electrical Association. He was elected yesterday at the annual meeting to succeed J. F. Colerain of Houston.

She gulped several shades of red when Brent said that he was in the remake and that William Powell starred in the original.

And Down Again—Quite Gladly!

DUNSMUIR, Calif.—(AP)—Foresters James Charlton and Kae Hall sped up a rocky point to a blazing, lightning-struck juniper tree and sped right down again.

There was a den of rattlesnakes on the point.

A tank wagon and power pump-er crew finally put out the fire—using a long hose.

What to Eat— Oleo or Butter

By LOUIS FRANK
Extension Editor
Texas A and M College

What's in the picture for the dairyman, the cotton farmer and the consumer now that the federal tax on oleomargarine has been discontinued?

There probably won't be any immediate, startling change, according to L. P. Gabbard, head of the Texas A and M College department of agricultural economics and sociology.

In the first place, Gabbard points out, many states still have laws directed against either oleo itself or oleo in colored form.

It's likely that the dairy industry will go on for a long time before it feels any pinch on the part of oleo. That's because the demand for whole milk is so great. It's likely to increase, too, because of the jump in population.

It is probable, Gabbard says, that the consumption of oleomargarine will go up. That will have some effect on the cotton farmer and the cottonseed crushing industry.

Oleo is already a big outlet for cottonseed oil. Lots of people think the bulk of oleo from the imported coconut oil; it was at one time, along about World War 1, but in 1947 also took less than three percent of the total coconut oil supply.

On the other hand, last year 28 percent of the nation's cottonseed oil and 15 percent of the soybean oil went into oleo.

The American consumer brought seven and a third pounds of butter to one pound of oleo in pre-war days; in 1947 the ratio dropped to two and a third pounds of butter to one of oleo, said Gabbard.

Meanwhile there's plenty of room for both butter and oleo to expand above present levels. The peak use of butter and oleo came in 1928, when the American public used 20 1-2 pounds per person. Now consumption of butter and oleo together is down to 16 pounds per person.

More Education Better Farmers

By RUSSELL SMITH
National Farmers Union
Washington, D. C.

The great improvement in country schoolhouses and their teaching facilities which have been made in the past few decades are now more than paying for themselves in dividends to America's millions of rural families.

Studies which have been made in recent years bear out contentions which have been felt for long. Better educated farmers on the whole are more prosperous than others. They have larger farms, nicer homes, more telephones, more automobiles. Their wives work in kitchens often better than those in the city, with latest home appliances and work-savers in plenty.

Yet the job for rural school improvements is far from being completed. Country schools are still undoubtedly the least adequate in the U. S. The last U. S. census showed that while the average country resident had at least one year less schooling than urban dwellers, many farm people had far less school training. Utah—the home of the Mormon Church—leads the country with an average nine years schooling per farm resident. Then we come to states such as South Carolina with five and a half years and Louisiana with four and a half schooling per farm resident.

What good does education actually accomplish for a farmer? The National Farmers Union looked over 10 studies made in the last 25 years. An Oklahoma survey, for example, showed the best educated members of a group of 882 cotton growers earning seven times as much as their least educated neighbors. The same condition was noticed when 880 farm families in the Great Lakes area were checked.

The Senate recently passed its aid to educational bill and that legislation now is before the House. The Farmers Union, representing 450,000 men and women across America, urged the Senate to pass that bill. They urge the House just as strongly now to make this timely effort for improving the educational systems of the U. S. Appropriation of \$300,000,000 now may return billions later.

New Standard To Evaluate Farmlands

Food experts have discovered some facts about vitamins which may change the whole system of evaluating U. S. farmlands.

By their new standards, yield per acre would give way to "vitamins per unit of production" as the means of measuring a land's worth. Farmers would judge potatoes first for food strength, and then for size.

This outlook is based on findings of the Department of Agriculture's Soil and Nutrition Laboratory at Ithaca, N. Y., the only institute of its kind, where scientists, under the direction of Dr. Karl Hammer, are engaged in discovering just what there is in soil that produces food of better nutritional value.

Reporting on their findings, Alfred H. Sinks, writing in the June issue of Country Gentleman, says that drastic changes of program are in prospect for many a U. S. farm.

"For as people begin to ask what foods, from what specific localities, contain the most vitamins and other health-building elements, land values will go up or down," he explains.

The article points out that America has grown nutrition-conscious. The public knows the alarming side of the picture; how the lack of one or another essential food element is thought to be the cause of degenerative diseases such as rickets, scurvy, bad teeth, tuberculosis, nephritis, arthritis, goiter, and various common heart ailments. It rates as common knowledge the fact that growth and health come to us from the soil, but points to the lesser known fact that all soils do not contain the proper amount of essential minerals.

**Grasshoppers
Try to Take Over**

DALLAS (AP)—Dallas County's grasshopper infestation is the worst he has ever seen, County Agent A. B. Jolley said yesterday. Some farmers report four or five acres of cotton and corn already eaten by the wave of young hoppers, Jolley said.

Sprinkler Type Irrigation on Alanreed Farm

Ollie W. Hommel, farmer four miles south of Alanreed, has completed the installation of a sprinkler type irrigation system, and plans to irrigate about 15 acres of orchard and probably 20 acres of alfalfa or pasture.

A sprinkler system is being used as the orchard was not level enough to be watered by flooding. This type installation is also used for sandy land.

Hommel's well is 110 feet deep with pumps set at a depth of 80 feet. The pumps are equipped to handle more than 30 gallons of water per minute.

Technical assistance for making the installation is being furnished by the Gray County Soil Conservation District. The sprinkler system was secured from H. H. Heiskell, water well contractor of Pampa.

The irrigation system is being installed as a part of an overall soil and moisture conservation plan.

Foreman Stubbs, living on McClellan Creek north of Alanreed, has begun the installation of a similar project. Frank Carter of Combs-Worley ranch and J. M. Wright are also considering making the same kind of installations in the near future.

Want Your Garden to Show? Then Go Easy With the Hoe

Cultivating the garden not only benefits the plants, but gives pleasure to the planter.

Of all the agricultural practices which have come to us from the past, the most under attack in current scientific investigation is cultivation.

Many consider cultivation of the soil, once seed has been sown, to be harmful. But also harmful is weed growth, and the development of a hard soil crust which prevents the free circulation of air, so the plant roots may breathe.

Few now contend that cultivation checks evaporation of water from the soil, rather it is believed to help dry out the top soil.

It is still one way in which weeds can be killed and the soil crust broken up; and both these objects can be accomplished by shallow stirring of the top soil, not deep enough to disturb the surface roots of plants, or to dry the soil unduly.

For the amateur the rule would seem to be: Go easy with the hoe. Cultivate often, to kill weeds which are small white sprouts, which can be brought to the surface by stirring the soil not more than one inch deep. Or else use a

Board Leaders Are Elected

Officers were elected for the forthcoming year at the regular monthly meeting of the Gray County Soil Conservation District supervisors, Friday afternoon.

H. H. Keshey was elected chairman of the Board of Supervisors, to replace Foreman Stubbs; Arlie Carpenter, vice chairman, replacing Keshey; and W. B. Jackson, secretary, replacing Edwin Nelson.

W. J. Caserta, lake supervisor for the Soil Conservation Service from Amarillo, met with the board by request to discuss the possibility of transferring management of the Lake McClellan project to the Board of Supervisors. The board decided not to take over management of this project at present. However, they are planning to harvest grass seed on the project this fall if a seed crop is produced.

Five soil and moisture conservation plans were approved by the board. The plans were on farms owned by Amos Harris, Kingsmill; J. M. Wright, Lefors; George H. Latta, Groom; M. H. Patterson, McLean and Pampa Country Club, east of town.

During the April board meeting five soil and moisture conservation plans were also approved. Farms considered during that approval included Homer Abbott, McLean; W. E. Jackson, Pampa; and J. B. Caudill, Homer Wilson, and R. B. McReynolds, all of McLean.

ably less expense.

Sown at the rate of 3 pounds to 100 square feet, this grass makes a thick growth. Toward fall the grass dies out. Crop production is said to be as good as when any other mulching material is used, and the cost less.

Many other materials have been used successfully to mulch gardens. Newspapers will serve for this purpose, laid down wet, using several thicknesses, and anchoring with staples, or stones.

Europe Expects Half U. S. Farm Machinery

Even partial fulfillment of such requests for farm machinery, it is figured, might run as high as half our output. What actual exports of farm equipment can be, says one, "only time and Congress will tell."

One of the forecasts of the 16-nation Committee of European Economic Cooperation reported in September that Europe will need to import 14,000 light and medium tractors in 1947-48, and 51,000 heavy tractors over the next four years, says Farm Journal.

This is a sample of requests on an "if and when the Marshall Plan is adopted" basis, and is one reason why the capital exports sweeping cuts by Congress.

These ten farms included 6,127 acres.

Als at Friday's meeting seven applications for assistance were approved by the board.

with
**MODERN
MACHINERY!**

Carelessness Causes Accidents
Safety-Wise Farmers Make a Habit of:

- First class maintenance and conservative operating procedures on all farm vehicles and implements.
- Continuous upkeep on all buildings... repairs to shavings and ladders... safe storage of inflammables... protective guards on chisels, wells and pits.
- Proper use of hand tools, particularly plowshares.
- Care in handling animals, especially those with new-born young.
- Regular inspection of electrical and heating facilities.
- Working children in good, sound habits of safety!

MM QUALITY ASSURES SAFE PERFORMANCE
Farmers everywhere realize that safe machinery is a big factor in their battle to reduce farm accidents. Minneapolis-Moline, wholeheartedly supporting every effort to promote farm safety, builds safety-engineered Modern Machinery. Every factor for safety is considered in designing farm MM MODERN MACHINERY. TRACTORS and POWER UNITS. Advanced improvements on all power machines and implements for simplicity and ease of operation... sturdier construction that eliminates costly and dangerous breakdowns. Ask your friendly MM Dealer for the facts! Get to know about the dependability, economy and versatility that identifies the world-renowned MM trademark!

Farmers Charged In Peace Drive

WASHINGTON (AP)—Charles F. Brannan took over as secretary of agriculture yesterday and said the farmer's big job is to "help build world peace and prosperity."

"This calls," he said, "for maintaining a strong, productive agriculture. It is the primary responsibility of the Department of Agriculture to help farmers achieve that objective."

"FISHING CAT"
The fishing cat of India is one of the little known animals of the world. This feline crouches nightly near the edges of rivers and scoops fish out of the water with its paws.

CARL B. MORRIS
ANNOUNCES PLATFORM FOR
STATE REPRESENTATIVE

I wish for the people to know that I stand for election on these points:

1. More Rural Roads—primarily School Bus Roads.
2. Prison System Reform—Under the O. B. Ellis Plan.
3. Adjust Teachers Pay—With emphasis on lower bracket.
4. Soil Conservation—a vital problem that must be solved now.
5. A Tax Program which will encourage industry in the Panhandle.
6. Redistricting according to census as provided for in the Constitution.

I will appreciate an opportunity to discuss these and other problems with any persons or group.

Donley County is the smallest county in the district in number of votes. There has never been a representative from Donley County, so I appeal to all fair-minded citizens of this district to elect me as your representative and pass the favor to Donley County this term.

I, my wife and child, Nancy, will be circulating throughout the district during the next few weeks and hope to have the opportunity of meeting each of you personally.

Common Ground

By R. C. HOLLES
Corrupting influence of Office
Very few people realize the corrupting influence of holding legislative office or an office intended to enforce the law.

Fair Enough... by Westbrook Pegler

WASHINGTON — In a recent case in Washington, a government employe whose daughter had gone over to the Communists as a worker in their news bureau was held up as a tragic example of that wicked personal scandal and humiliation which good men suffer at the hands of hot-eyed patrioters.

What We Can Prove by Example

Viewed from the historical perspective, American leadership of the democratic forces of the world has come with unprecedented suddenness. It took England centuries to reach a comparable pinnacle of power and prestige which found its climax in the Victorian Era.

When more nearly obeyed the Constitution that limited the things that the government or its officials could do then it was possible to get a much better class of officeholders. Now with the laws we have that sanction collective robbery by the state it is very difficult to get a candidate for President of the United States who believes in the Ten Commandments and the principles set forth in the Declaration of Independence.

Since the Supreme Court has made legal the progressive taxation law that taxes one man at one rate and another at another rate and since it has made legal minimum wage laws and so-called "social security," the Wagner law and the Norris-LaGuardia and the Clayton Amendment to the Sherman Anti-Trust law, it is difficult to get a candidate for Congress who believes in moral principles.

Although the measure most likely to become law does not become effective until three months after a presidential signature, Major General Lewis B. Hershey has done such a swift job of preparation that the draft machinery can be set in operation within sixty days.

It is not yet certain that as many as 600,000 will be called up in September. Although that number is needed to fill the Army, Navy and Air quotas, enactment may lead to so many voluntary enlistments, as it did in the early days before World War II, that only 300,000 or 400,000 will have to swap home life for barracks routine.

CHANCES — Prospective raising of the minimum age limit to nineteen instead of the original eighteen, plus other new provisions in the measure that will lay the foundation for a modern fighting force may give comfort to parents fearful of an abrupt interruption of their youngsters' educational careers.

AVAILABLE — A scientific tabulation by General Hershey's skeleton force at Washington discloses that there are only 8,271,000 young men now within the 19-25 age group, although approximately 600,000 move up their eighteenth to their nineteenth year annually. But the net number available for immediate draft from that eight-million-odd total is only 660,000. Here is why:

Approximately 5,140,000 are veterans who have already served more than ninety days between December 7, 1941, and September 2, 1945. They cannot be touched except in an extraordinary crisis, when the President may call them to the colors. But if they have served more than ninety days and less than a year, they have three alternatives: they must join the National Guard, the Reserves, or become subject to the draft.

FATE — Thus there are 3,231,000 nonveterans who are nominally eligible. But it is estimated that the physically unfit in this category will number about 1,488,000.

That leaves only 1,743,000 physically fit nonveterans who can be summoned into training. Of these, however, it is figured that

The Little Savage

NATIONAL WHIRLIGIG

news behind the news

By RAY TUCKER
WASHINGTON — More than 600,000 young Americans may be heading for two years in a military training camp by late September if Congress approves the pending Selective Service Act before a planned adjournment on June 19.

By reading this list of exemptions and eligibles carefully, and applying the qualifications for exemption to their own status, those between nineteen and twenty-five years should be able to determine their fate in the September lottery.

PROVISIONS — The final draft statute will almost certainly contain two provisions designed to temper the harmful effect which a summons would otherwise have on a high school or college student. They were not incorporated in the World War II act.

If a youngster is called up while he is in high school or a similar educational institution, he will be given until he is twenty to finish that phase of his education.

Both these safeguards, however, are based on the assumption—and proof—that the student is doing "satisfactory work" and not simply loafing along.

SURVIVE — A small but growing coterie of ex-New Deal office-holders and politicians profess to welcome a Republican presidential victory next November on the theory that it would be a 1952 boom for their fragmentary faction of the Democratic Party.

Mr. Arnold and his pals figure that a victorious GOP would enjoy only four years in control of the government. They believe that any administration which must try to solve the domestic and foreign problems of the next four years will be discredited even more seriously than that of Herbert Hoover. In their opinion, the voters will turn to almost any opposition for relief. They see no Republican presidential candidate who can survive forthcoming trials.

REFORM — But that is only partial reason for their complacency at the prospect of a GOP triumph over President Truman. They believe that the people, by their vote, will be utterly disgusted with both the major parties as now led and constituted. They regard Mr. Truman and Senator Taft, for instance, as "two peas in a pod" and think that both these symbols of "old-fashioned government" will wither on the political vine simultaneously.

As a result, they anticipate that their New Deal reform faction will come to dominate the Democrats, name a man like Justice William O. Douglas, or perhaps Mr. Arnold himself, and resume the work of fundamental reform where FDR was forced to stop under the pressure of a global war.

Then comes the Arnold revolution, and the name is Thurman, not Benedict.

NO NUTS AND BOLTS
Ostriches are herbivorous, and on farms are pastured on alfalfa in winter and are fed alfalfa hay, wheat, bran, barley, oats, and other grains in winter.

TOP O' TEXAS NEWS

Skellytown — (Special)—Mr. and Mrs. John Brannon and son of Pampa, attended the graduation exercises here Friday evening.

Ralph Wrinkle is a surgery patient in the Worley Hospital.

Mrs. Steve Oates was a Skellytown visitor May 24.

Mrs. Melvin Beigle and baby left last Thursday for a few days' visit with relatives in Elestara.

Mr. and Mrs. Tom Oates, Tommy and James left Thursday for a visit of a few days with relatives at Munday.

Mr. and Mrs. Cletus Imel returned to Skellytown May 25, from Canyon where Cletus has been attending college.

Mr. and Mrs. E. A. Shelton and family of Battle Creek, Mich., have been visiting in the home of Mr. and Mrs. T. J. Watt and family.

Miss Dannie Stewart of Paducah and Roy Sullivan of Leveland visited Mr. and Mrs. Ben Hand May 22.

Mrs. Dan Stephens, Hattie Stephens, and Cecil Pinkerton of Panhandle were Skellytown visitors May 20.

Mr. and Mrs. Hugh Brazil and Bobby Joe of Talco were visiting friends here May 23, as was Roy Feazel of Pampa.

Lefors — (Special)—All circles of the Baptist WMS met Tuesday, May 25, at the church for noon luncheon and Royal Service Program.

The table decorations were in charge of the Lottie Moon Circle. The Nina Hawkins Circle, with Mrs. W. J. James as leader, had the program on "Laborers Together in Our Denomination."

Mrs. J. R. Benson led the prayer and the business meeting followed. Those present were: Mmes. L. S. Griffin, John B. Harvey, J. R. Benson, Matt Clay, J. H. Caperton, Louis Hill, Edna Newman, F. E. Stevens, W. H. Dial, L. E. Clay, O. B. Harvey, O. T. Glasscock, J. M. Tindall, W. M. Allison, Albert Ryan, Chester Tindall and H. T. Fields.

The WSCS of the Lela Methodist Church met Monday at the church. The meeting opened with group singing and Mrs. T. E. Trostle led in prayer.

The business session followed. Mrs. Pat Bullock gave the devotional on "Women of the Bible," after which Mrs. A. N. Motes led in prayer.

The theme of the program was "Women in Christian Service," with Mrs. J. C. Nix as leader. Mrs. O. T. Gordon read a poem, "Whatever Is, Is Best." Miss Willena Gordon discussed, "Christian Rural America," and Mrs. A. N. Motes gave "Plates of Rice."

Mrs. J. M. Tindall, W. M. Allison, Albert Ryan, Chester Tindall and H. T. Fields.

The meeting was closed with group singing and prayer.

Others attending the meeting besides those mentioned were Mrs. A. K. Eller and Miss May Ruth Stauffer.

Circles of the First Baptist WMS met Monday afternoon, with the Blanche Groves Circle meeting in the home of Mrs. W. W. Perrin.

Mrs. Dorris Vineyard was leader of the program which opened with prayer led by Mrs. R. W. Shields. Mrs. Perrin gave the devotional on the Psalms.

The lesson on "Community Missions," was given by Mrs. Newman. Mrs. Vineyard led the prayer at the close of the program.

Refreshments were served by the hostess.

Those present were: Mmes. J. W. Blakemore, Bill Wilson, Dorris Vineyard, Lee Newman, and R. W. Shields.

Mrs. Selbert Worley was hostess to the Rex Ray Circle. The meeting opened with prayer led by Mrs. J. L. Blackburn of Perryton.

The lesson was given by Mrs. P. T. Boston from the book, "Singing Like Stars," by the Rev. Harold E. Dye, pastor of the First Baptist Church, Clovis, N. M.

Mrs. Charles Green led the prayer at the close of the lesson.

Refreshments were served during the social hour to two guests, Mrs. L. Blackburn and Mrs. Edw. C. Derr, and to the following members: Mmes. D. L. Worley, Ben A. Skidmore, Bob Stokes, and P. T. Boston.

Wayne Stark and Bobby Close were named honor guests at a dinner Saturday evening at the home of Mrs. Eugene Byars, with Mrs. George Close as co-hostess.

Those present were: Misses Betty Jo Hamill, Charlotte Stephens, Doris Eitenburg, Betty Sue Swell, Lela Mae Hughes, Emmeline Williams, Rita Price, Emma Ramsey, Peggy Hefley and Martha Montgomery.

Den Glover, Eural Ramsey, Don Fletcher, Bob Lyle, Glen Terry, Jimmy Green, Donald Briggs, Bill Morgan and the honor guests.

Shamrock

SHAMROCK — (Special)—The Grade School 4-H Club met Monday at the North Ward School building.

Glenda Rue Brown presided over the meeting. Martha Hanner led the group singing after which the club pledge and club prayer were repeated in union.

Verla Mae Hastings, county home demonstration agent, gave a demonstration on "sewing," and gave instructions on putting in zippers.

Those present were: Dorothy Louise Surrency, Grace Morrison, Glenda Rue Brown, Anna LaDue, Ethel Mae Parks, Eloyse Edwards, Mabel Ruth Sims, Patsy Sanders, Mary Ann Evans, Altha Mae Smith, Joy Beth Parks, Julia Beth Holmes, Virginia Greenhill.

Even today this fogging of Americans for doing their duty continues. But nevertheless, day by day, and without credit to the committee, organizations and individuals are coming over to the committee's side of the question but without giving the committee credit for producing the information which convinced them of the Soviet menace and converted them back to 100 percent American patriotism.

Five years ago Philip Murray and the CIO defended Harry Bridges and vilified all who called him a Communist. Now the CIO has canned him from his job.

Since the Supreme Court has made legal the progressive taxation law that taxes one man at one rate and another at another rate and since it has made legal minimum wage laws and so-called "social security," the Wagner law and the Norris-LaGuardia and the Clayton Amendment to the Sherman Anti-Trust law, it is difficult to get a candidate for Congress who believes in moral principles.

He knows he has to work under these immoral laws, and when local supervisors and city councilmen have to carry out the state and Federal laws that interfere with human initiative, it is very difficult to get and more difficult to elect a man who is a supervisor or a councilman or a member of the board of education who is a close reasoner and is governed by moral law.

A man with understanding knows that to accept this kind of an office is a most dangerous undertaking. It is likely to further corrupt his ideals. A close reasoner knows that unearned power is dangerous and that being obliged to dole out the will of Congress is taking a precarious course.

When a councilman or a supervisor attempts to assume the wisdom and foresight to determine whether or not a man who is a piece of property can develop it the way he thinks will benefit him and benefit society, he is causing his conceit to grow; his conceit is becoming his master.

It is often men who have so little faith in themselves to set to work to do things that they enjoy the practice of the state of initiating force over others.

The same condition exists in boards of education. These boards have the almost unlimited power by way of the tax route to take part of the energy of every human being to have it spent in directing education as they see fit. This is too much power to give to any human being. It goes to his head. It makes them believe more and more that might makes right; that there are no laws superior to the will of the majority.

It is the worst thing we have one depression after another, go into debt beyond our means, have one war after another when we corrupt our voters and our officeholders by discarding moral laws and the principles of the Bill of Rights and give them power to do things that no man or group of men should have the power to do. Power is dangerous; it corrupts.

And no man or group of men who stand unlimited power, always goes to their heads, always causes them to become conceited and vain and corrupt.

Almost \$2 Million In Bids Is Made
AUSTIN — (AP)—High bids totaling \$1,977,179.90 were made here for oil and gas leases on 110,439 acres of state school lands.

The State School Land Board withheld announcement of formal awards until all bids have been fully appraised, Board Chairman Bascom Giles said.

Gulf Oil Company's offer of \$202,240 bonus on 320 acres in Crane County was the sale's highest bid. Second highest bid \$117,200, was made by Standard Oil Company on a 320-acre tract in Laguna Madre, Nueces County.

The lease sale included river bed tracts, upland acreage and submerged tracts in bays and inlets in 62 counties. Proceeds go into the Public School Fund.

"Hurricane-hunter plane: An aeroplane for searching out and locating hurricanes.

FOR THE PSYCHOLOGISTS
On a small scale, Mr. Virden's problem is a lot like the Mundt-Nixon anti-Communist bill. It's one for the psychologists to argue over. Did Mr. Virden handle the situation right by "outlawing" his daughter from his home? Was it right for Congressman Crawford to have her publicly "registered" as working in a Communist office? Is that the way to cure communism? Other families have faced this same problem of red and black sheep in the past. A lot more will face it in the future. It's important to know how to handle it.

If future generations are going to lick this Communist bugaboo, they ought to know what they're dealing with. Maybe one answer is to teach communism, but from a different angle. Communism isn't a political ideal any more. It's a racket. It's international gangsterism. And the people who take the line are such terrible suckers.

In the meantime, if everything that can be done is done to wipe out poverty and disease and insecurity, the excuses for the spread of communistic teachings will be removed. That's the real cure.

On the other hand Miss Virden may be alarmed that some people have more of everything than they need, that competitive business is not always conducted in a spirit of brotherly love, that on a larger scale international rivalry often leads to war and that there is no justification for war, any way you look at it.

Being young and having been brought up with every advantage to believe that life should be beautiful, it is only natural that kids in college resent these seeming injustices. In fairness to them, it should be said that the young don't just suck these ideas out of their own thumbs. They are sometimes taught them by professors. And professors, as everyone knows, are flat-chested, un-muscular inferiors who read books and have new ideas. This is considered bad.

But being full of beans, young folks are inclined to take up with these ideas, and they want most terribly to do something to correct what they consider is all wrong with the world. It is this discontent with things as they are on which communism feeds its recruits.

In Miss Virden's case, she first decided to take a job in a factory in New Jersey. Then her father came to Washington, she went out and got herself a job as a teletype operator in the Washington office of Tass, the Russian news agency.

Mr. Virden's solution for this was first to talk it all over with his daughter, trying to argue her out of it. When she wouldn't budge and he wouldn't budge they parted company and the girl left home. Things went along this way for four or five months till

ABOUT 'RED SHEEP'

WASHINGTON — (NEA)—What do you do with your kids when they turn into red sheep? If the phrase doesn't register, it might be explained that a red sheep child of today is a family black-sheep who takes up with communism instead of just plain sin.

Your modern red sheep is something brand new. A red sheep will work all right, but at the wrong things. A red sheep just strays off from the flock and goes in what is considered the wrong direction, meaning to the left.

All this is by way of preamble to further consideration of the case of John C. Virden and his tall, brunet daughter Euphemia. Mr. Virden was a successful Cleveland industrialist—Republican and ardently anti-Marxist—who was brought to Washington to run the Office of Industry Cooperation in the Department of Commerce.

He thought he had brought his daughter up right. He sent her away to finishing school and to college to give her a good education. But at college she apparently picked up some extra idealism.

She may have learned that some people don't have enough money to live on decently. That some people don't get enough education. That some people live in houses without bathrooms. That some people can't afford proper medical care. That some people born into families that can't provide them with decent housing, food, medical care and education go through life in a constant state of insecurity, shifting from one temporary job to another, without steady income, to poverty-stricken old age and death in a pauper's grave.

On the other hand Miss Virden may be alarmed that some people have more of everything than they need, that competitive business is not always conducted in a spirit of brotherly love, that on a larger scale international rivalry often leads to war and that there is no justification for war, any way you look at it.

Being young and having been brought up with every advantage to believe that life should be beautiful, it is only natural that kids in college resent these seeming injustices. In fairness to them, it should be said that the young don't just suck these ideas out of their own thumbs. They are sometimes taught them by professors. And professors, as everyone knows, are flat-chested, un-muscular inferiors who read books and have new ideas. This is considered bad.

SO THEY SAY

An atmosphere of fantastic unreality envelops our foreign policy in dealing with Russia.

Ely Culbertson, bridge expert and political writer.

I do not know a person either on or off the floor of the Senate who has given more aid and comfort to the Kremlin than the Senator from Idaho.

Sen. William Knowland (R), California, denouncing Senator Taylor's attack on the President.

I've endeavored during the last three years to mobilize the moral forces of the world. We have a code of ethics in which we try to preach and act the Sermon on the Mount.

—President Truman.

The argument that an attempt to improve the United Nations, if unsuccessful, will destroy that body, is the worst condemnation of its usefulness that I have heard.

—Norman Thomas, U. S. Socialist leader.

Gracie Reports

By GRACIE ALLEN
I notice where a noted male dressmaker in New York blames the whole idea of the "new look" styles on dopey husbands.

He claims that when husbands don't notice what their wives are wearing the wives rush out and buy something that will shock them into paying attention.

George says this dressmaker is figuring shock from the wrong end, because it's the bill, not the dress, that causes the shock. Besides, he says it doesn't matter whether the husband reacts quietly or has a convulsion—the wife will still rush out and buy things. According to George, it's simply the basic human nature for women to rush out and buy things—period.

When I buy a new dress, George has his own special reaction. He makes like an echo. I ask "How much do you like it, dear?" and a distant frightened voice asks "How... much...?"

Wayne Stark and Bobby Close were named honor guests at a dinner Saturday evening at the home of Mrs. Eugene Byars, with Mrs. George Close as co-hostess.

Those present were: Misses Betty Jo Hamill, Charlotte Stephens, Doris Eitenburg, Betty Sue Swell, Lela Mae Hughes, Emmeline Williams, Rita Price, Emma Ramsey, Peggy Hefley and Martha Montgomery.

Den Glover, Eural Ramsey, Don Fletcher, Bob Lyle, Glen Terry, Jimmy Green, Donald Briggs, Bill Morgan and the honor guests.

Strong Civil Rights Plank in Demo Platform Seen Unlikely

By TEX EASLEY: WASHINGTON (AP)—Selection of Bonham's Sam Rayburn

Fortunately, convention rules and procedures make it possible for him to avoid personally getting into the hot spots

When the Democratic command picked Rep. Rayburn to preside over the Philadelphia convention

Selection of Rayburn and Barkley indicates there will be no vigorous move to write a strong civil rights plank into the party's presidential platform

As for qualifications as permanent chairman of the convention, Rayburn has them

The convention operates under the same rules as those of the U. S. House of Representatives

For six years the Texas legislator, who has been a general manager and rapped a deft gavel

It will be his duty to preserve harmony—and that means quick nomination of Truman to head the ticket in November

Bear in mind Rayburn's own previously announced position on the civil rights program

Juvenile Pay Law Upheld

BURNET, Tex. —(AP)— Judge R. C. Archer, acting judge of 33rd District Court, yesterday upheld the constitutionality of a law enacted by the last legislature creating paid county juvenile boards.

The attorney general's office, in two previous opinions, had held the law unconstitutional on the ground that it is a local and special law with arbitrary classifications.

Judge Archer declared the law to be of general nature because, he said, it involves more than half the counties of the state.

In the present case, Judge T. C. Ferguson of 33rd District Court was the plaintiff, thus requiring another judge to preside over the court.

The court granted Judge Ferguson's request for an order forcing

Man Invades Home, Shot

JACKSONVILLE, Fla. —(AP)— A white woman awoke Wednesday to find a Negro lying on her bed, and he was promptly shot to death by her husband and brother-in-law.

A 14-month-old child of Mrs. C. A. Green was wounded in the right hand as Green and his brother shot the Negro, Dosier Sapp, 28, nine times.

Detective D. P. Dorman said Mrs. Green screamed when she discovered Sapp on the bed. Green shot the Negro three times with a rifle before it jammed. A. T. Green, living next door, ran in with a pistol and poured six bullets into Sapp.

Officials said no charges would be placed against the Greens.

Danger of Diseased Cattle Is Cited

DOUGLAS, Wyo. —(AP)— Senator Robertson (R-Wyo.) said Wednesday keeping diseased Mexican cattle out of the United States is "more important to my mind" than keeping Communists out of Italy.

In an address before the Wyoming Stockgrowers Association, Robertson proposed that a fence be built along the Mexican border to prevent cattle with hoof-and-mouth disease from entering this country.

He said he considered the hoof and mouth epidemic in Mexico to

Abandonment of Line Is Asked

DALLAS —(AP)— The Texas Electric Railway, with the exception of three years during World War II, has consistently operated at a loss and has no recourse but to ask permission to abandon its lines, President James P. Griffin declared here.

Griffin's statement was made during opening sessions of a public hearing under jurisdiction of the Interstate Commerce Commission. The interurban line is presenting its arguments for abandonment of its entire existing 175 miles of trackage between Denison and Waco via Dallas.

ICC Examiner J. K. Lyle, of Washington, D. C., is presiding at the hearing.

"Our operation costs during 1947 were double those of 1941," the veteran interurban executive said.

Youth Is Killed In Act of Valor

HOUSTON —(AP)— Funeral services for a nine-year-old boy who was struck by an automobile as he attempted to save his little brother from the path of a vehicle will be held here today.

Billy Green, son of Mr. and Mrs. John Green, received fatal injuries Tuesday as he returned home from school with his report card.

Mrs. Green, who witnessed the accident from her front porch, said Billy had taken his five-year-old brother, James, to the school with him. After stepping from a bus near their home, James dashed across the road and Billy, seeing an approaching car, rushed after him to save him.

"James got across in time and Billy, seeing this, rushed back to the other side of the road where he was struck," the mother explained.

Billy died in a Houston hospital six hours later.

He is one of the most serious problems of this nation.

"The eradication program in Mexico has collapsed completely," he declared. "Even though the slaughter of infected cattle is the only positive way to stop spread of the disease, the administration has agreed to vaccination program as a substitute.

"The Mexicans won't cooperate. They don't want us to kill their cattle even though we pay for them."

Halt Is Called On Arkansas

WASHINGTON —(AP)— A group of energetic young Arkansians got close enough to President Truman during his morning stroll yesterday to draw a warning wave-back from his Secret Service guard.

"We were converging on him on all directions," related John C. Martin, 27, of Russellville, "when his bodyguard waved us away. Matter of fact, Dorothy even got between him and two of them."

He referred to Miss Dorothy Welsh, 23, of Chillicothe, Texas, Junior at Harding College, Searcy, Ark.

The five Arkansas high school and college students are here on a sightseeing tour, which they won in a state essay contest.

Other members of the group are Tommy G. Thompson, of Searcy; Robert Woolsey, 15, Fort Smith; and Nancy Hamilton, Hughes, Ark.

"A taxicab driver tipped us off that the President takes a walk every morning at seven," said Martin, "so we got up early and were on hand, all of us."

From where I sit... by Joe Marsh

Three Mighty Important Ideas

Maybe you read, where a great encyclopedia has sorted all basic ideas into a few select groups. Under the letter "T" they have:

Temperance - Truth - Tyranny.

Bounds like a funny combination. And to philosophize a little, notice that Truth is in the center—between Tyranny and Temperance.

Now and then you hear folks criticize temperate people who enjoy a moderate glass of beer... who talk about "two beers" getting some one into trouble, and claim: "There ought to be a law!"

Then Truth steps in between, and points out that two beers never got anybody into trouble—and that somebody's trying to distort the facts. No, there shouldn't be a law—there should be Truth.

From where I sit, those ideas are arranged just right. Temperance on one side, Tyranny on the other—and Truth in the middle—seeing that Tyranny never encroaches upon Temperance.

Joe Marsh

HERE IS THE

Proof

From Your Texas Neighbors

THAT YOU CAN TAKE OFF Ugly Fat

IT'S SIMPLE. IT'S AMAZING, how quickly one may lose pounds of bulky unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcentrate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat

and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. You don't have to starve yourself; eat sensibly according to instructions on bottle. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. More alive, youthful appearing and active.

NOTHING HARMFUL IN BARCENTRATE

Barcentrate is the original grapefruit juice recipe for taking off weight. No starvation diet. No diet list to pay for. No vitamins to fortify you against hunger for you won't be hungry.

Ask your doctor about the Barcentrate formula. Barcentrate contains: Sassafras, Oregon Grapefruit, Senna Leaves, Prickly Ash Bark, Cascara, Magnesium Sulphate, Saccharin, Sodium Benzoate. **LOWEST IN PRICE—HIGHEST IN RESULTS.**

OVER ONE AND A QUARTER MILLION BOTTLES SOLD IN TEXAS IN 3 1/2 YEARS

McALLEN LADY LOSES 50 POUNDS

"I want to tell you that I have lost 50 pounds since taking Barcentrate. I still want to lose 20 more pounds as I now weigh 167, a reduction from my former weight of 217 pounds." Mrs. C. M. Earnsh, 303 N. 12th St., McAllen, Texas.

LOST 42 POUNDS—FEELS FINE—NOTHING HARMFUL IN BARCENTRATE

"I endorse Barcentrate not only for losing weight, but for health as well. Before taking Barcentrate, I weighed 197 pounds. I now weigh 155 and I feel better in every way. I am not flabby—no loose flesh and skin." Mrs. J. L. Caskey, Box 27, Sabinal, Texas.

18 1/2 POUNDS LOST BY SAN ANTONIO LADY

"I have taken Barcentrate in grapefruit juice and found it very satisfactory. I had to lose weight for an operation and I took Barcentrate and lost 18 1/2 pounds." Mrs. Dollie Douglas, 916 W. Kings Highway, San Antonio, Texas.

ATE ANYTHING AND LOST 37 POUNDS

"When I started taking Barcentrate, I weighed 210 pounds. I now weigh 173 and I ate anything I wanted. I am still taking Barcentrate for further weight reduction." Frederico Rodriguez, 6709 Bateband St., El Paso, Texas.

FEELS LIKE A DIFFERENT PERSON

"I think Barcentrate is wonderful. It has made me feel like a different person. I have lost 10 pounds which is all I wanted to lose." Rosa Belle Moore, Rockwood, Texas.

3 BOTTLES—10 POUNDS LOST

"I can gladly recommend Barcentrate. I lost 10 pounds on the first three bottles. I am glad to recommend it to anyone who wishes to reduce." Mrs. Abner Amos, Hughes Springs, Texas.
