### Mrs. Wilson Is Class Hostess

Members of the Faithful Workers Class of the First Baptist Church were entertained last Friday afternoon in the home of Mrs. Claude Wilson, 1024 N. Charles. The affair was held in the basement social room of the Wilson home which was decorated with various kinds of flowers including larkspur, the class flower.

Mrs. Tom Perkins presided over the business meeting. Mrs. Myron Spencer was elected captain of a new group the formation of which was made necessary by the recent increase in membership. Mrs. S. S. Taylor was elected class minister. Mrs. R. W. Tucker led in prayer and Mrs. Kate Jordan gave the invocation. Mrs. Ora Lewis was secretary of the evening. Ice cream, cookies, nuts and other refreshments were served to nineteen guests.

A tomato light in 1946 which started from Florida to Canada and went to Indiana cost commercial tomato growers and estimated \$30.

The filament of a 60-watt electric bulb runs a temperature of 344 degrees Fahrenheit — ten times the heat necessary to brown a pie.

### Party Sandwiches Hit the Spot

By CECILY BROWNSTONE Associated Press Food Editor

When I was at college we used to make wonderful sandwich productions—three layer ones with different kinds of fillings; rolled ones with asparagus or watercress; checkerboard tidbits with white and graham bread. They were perfect for large teas and they always made a hit.

One of the secrets of their mass production was the way we cut the bread. We'd get long sandwich loaves, cut off all the crusts and slice the loaf the long way. Then these long slices could be buttered and filled with one long spread of the knife and they could be easily layered and cut into strips, squares or triangles of practically any size. Next time you want to make a lot of good-looking sandwiches try this assembly line method and see if you don't enjoy it.

There's another point to remember in sandwich making: use softened butter or margarine. It may be softened by letting it stand for a while in a warm room or by creaming it with a wooden spoon. If you have an electric mixer you'll find it does a fine job of creaming the fat, too. Never use melted butter because it soaks into the bread, doesn't go as far and just doesn't taste as good.

A frosted 3-decker sandwich loaf is of course a wonderful thing to see and to eat. It's a meal in itself and will do beautifully for the main dish at a buffet luncheon if you accompany it with salad and dessert. In serving it buffet be sure to use appropriate serving pieces so that your guests will find it easy to help themselves. There's nothing I dislike more than having to struggle to get something off a platter with an inappropriate small spoon or pie server, for these sandwich loaves and find it deliciously beautiful.

- Sandwich Loaf**
- 1 unsliced loaf of bread
  - 3 3-ounce packages cream cheese
  - 3 tablespoons milk
  - 1 teaspoon finely grated onion
  - 1/2 teaspoon salt
- Slice the crusts from all sides of the loaf. Cut loaf lengthwise into four slices. Spread the first layer with chicken-tongue filling. Cover with another slice of bread. Spread it with egg filling. Cover it with a bread slice. Spread the slice with crabmeat filling. Top with remaining slice of bread. Mix well the cream cheese (which has been left at room temperature to soften) with milk and onion and salt. Frost the loaf with the cream cheese mixture.
- Chicken-Tongue Filling**
- 1/2 cup ground cooked tongue
  - 1/2 cup ground cooked chicken
  - 1 tablespoon prepared brown mustard
  - 2 teaspoons minced onion
  - 1/4 teaspoon salt
  - 2 tablespoons minced green pepper
  - 2 tablespoons mayonnaise
- Combine the tongue and chicken with the remaining ingredients and mix well. Makes about one cup of filling.
- Egg Filling**
- 3 chopped hard cooked eggs
  - 2 teaspoons prepared brown mustard
  - 3 tablespoons chopped stuffed olives
  - 1/4 cup minced celery
  - 1/2 teaspoon salt

### The Social Calendar

- THURSDAY**
- 7:30 Rebekah Lodge in IOOF Hall.
  - 8:00 E.S.A. garden party and installation of officers in home of Mrs. Tom Lindsey, Mrs. Al Duquette and Mrs. Lindsey co-hostesses.

- WEDNESDAY**
- 10:00 Women's Golf Association at Country Club.
  - 2:30 WBS of First Methodist Church at church. Program to be followed by program at 2:45.

### Money Jobs Attract Women in China

By EDDIE CRIGHTON SHANGHAI (AP)—Miss Nylen believes that a woman's place is in the general manager's chair of a prospering bank.

She holds that position in the Women's Commercial and Savings Bank of Shanghai — only bank in the world that has women in all key positions and has more female than male employees.

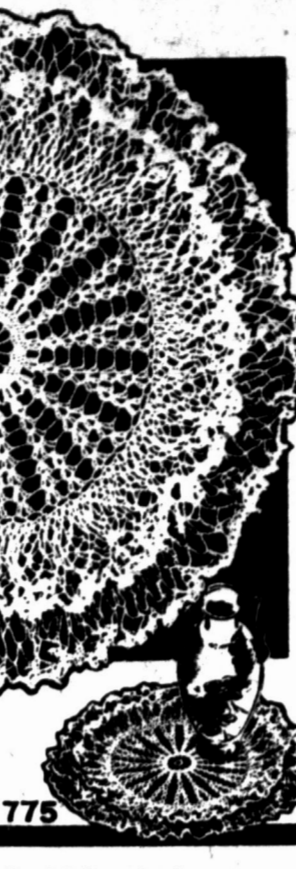

Miss Nylen established her unusual bank back in 1924. Today it has its own five-story building in the heart of the city, has huge modern steel vaults and an up-to-date burglar alarm system.

At the outset Miss Nylen had trouble finding trained women staff members, so she held classes and trained her own. All the girls, like Miss Nylen herself, were locally educated and all have never been abroad.

The bank performs all regular banking business for either sex. Miss Nylen says a man's money is just as good as a woman's. She holds, however, that women make better bank workers than men, on the grounds that they are more precise in their work and conservative in their investments. Many patrons agree that at least the girls present good figures.

- 2 tablespoons minced pickles
  - 1 1/2 tablespoons mayonnaise
- Combine the ingredients in the order listed and mix well. Makes about one cup filling.
- Crabmeat Filling**
- 1 (6 1/2 oz.) can crabmeat
  - 4 tablespoons minced celery
  - 2 teaspoons prepared brown mustard
  - 3 tablespoons chopped pimiento
  - 1 teaspoon finely grated onion
  - 2 tablespoons mayonnaise
- Combine the contents of the can of crabmeat with the remaining ingredients. Makes about one and one-fourth cups of filling.

### Double Ruffle

By MRS. ANNE CABOT

Starch the double ruffles with an inch of their lives for a very glamorous dolly. From the center to the outside edge of the double ruffle the dolly measures 12 1/2 inches, but we have a slick trick up our sleeves, you can make a single ruffled beauty from this same pattern. Make several as companion pieces for your living room.

To obtain complete crocheting and finishing directions for 12 1/2 inch and 10 1/2 inch Double Ruffle Dollies (pattern no. 8776) send 15 cents in COIN plus 1 cent postage. YOUR NAME, ADDRESS and the PATTERN NUMBER to ANNE CABOT (Pampa News) 1150 Avenue of the Americas, New York 19, N. Y.

The union has agreed on a two-year, no-strike contract. We will live up to that contract. —Philip Murray, president, CIO

### Know Your STUFF

About Vacuum Cleaners. In the market for a new vacuum cleaner? The shopper who knows her stuff about cleaners should compare the different types offered to her in all price brackets in order to find the one best suited to her needs. High price does not necessarily indicate superior cleaning ability.

Cleaners designed for general household use are of two types: those which depend on powerful suction to remove dirt and those which combine suction with brushing and beating. Either type can be an efficient cleaner.

In brush and suction cleaners, brushes are mounted on a motor-driven cylinder located inside the nozzle. For maximum brushing action, bristles should be thick-tufted there should extend nearly the length of the nozzle. Long bristles are apt to need replacement less often than short bristles.

Straight-suction cleaners are easily distinguished because the nozzle through which dust is pulled contains no moving parts. For ease of operation, some cleaners of this type have the nozzle mounted on a long flexible tube that is connected to a tank into which the dust is emptied. The suction type of cleaner requires more skill on the part of the operator who must maintain a close contact between the nozzle and the rug nap to obtain the best cleaning action.

**THE WILD WEST BUTTE, Mont.**—(AP)—Folks still like to unlimber the family shooting irons out here in the West, but apparently their enthusiasm exceeds their accuracy. Police recently issued an order forbidding target practice inside the city limits.

Officers said too many bum shots had converted their back yards into firing ranges "with serious damage to surrounding properties."

**A Coffin for Two NAGOYA, Japan**—(AP)—Police caught a burglar and his sweetheart in a coffin Saturday. The cops were searching the home of the burglar's father, a mortician, when the father started hauling away a coffin. Suspicious they looked inside and there were the pair.

### Offer Safe Tips To Baby Sitters

Is your child safe with a baby sitter? Parents who plan an evening away from home frequently fail to take simple precautions which would avoid disaster in unforeseen accidents and fires, warns the Accident Prevention Department, Association of Casualty and Surety Companies, nation-wide public service safety organization. "Too often the sitter is left holding the bag instead of the baby."

- A few simple rules, suggested by the association, would help insure the safety of your child. Make certain the sitter has the following information:
1. Telephone number where you can be reached, or...
  2. Name and location of nearest neighbor who will be home.
  3. Fire and police department telephone numbers.
  4. Your doctor's telephone number, should that be necessary.
  5. That the outside doors should be fastened as you leave.
  6. That the door should not be opened to unknown callers.
  7. Full instructions on feeding, change of diapers, etc.

In 1942, a year of full employment it was estimated that about one-third of all urban families were in income brackets which prevented adequate diets.

### Twenty-Three Pupils Play in Recital

Miss Eloise Lane and Jack Andrews presented the following pupils in a recital Tuesday evening in the Church of the Brethren: Dolores Wagner, Ann Bossa, Robert Mott, Margaret Scott, Danno Jo Crossman, Barbara Vaughn, Gale Howard, Carolyn Baer, Betty Hinton, Sonia Prall, Patsy Walls, Marilyn Fraziers, Margaret Sharp, Lou Nell Wagner, Janice Smithshier, Jackie Lee Barnes, Marcheta Hall, Joyce Gordon, Betty Lou Pulliam, Robert Alford, Shirley Matheny and Mary Ann Oulther.

**Worry of FALSE TEETH**

Slipping or irritating? Don't be embarrassed by loose false teeth slipping, dropping or rubbing when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a noticeable sense of added comfort and security by holding plates more firmly. No gummy, sticky taste or feeling. It alkaline (non-acid). Get FASTEETH at any drug store.

### FRESH BLOOD A MUST FOR FREE ENERGY

Do you feel like you are tied to a drag everytime you try to do something? If so, don't let a low blood count hold you down when you may release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that **505 Tonic** is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the **505 Tonic** formula which contains special and potent activating ingredients.

Also, **505 Tonic** helps you enjoy the food you eat by increasing the gastric digestive juices when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloats and give out that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on **505 Tonic** now. As vigorous blood surges throughout your whole body, greater strength and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out low places. Millions of bottles sold. Get a bottle from your drug store. **505 Tonic** helps build sturdy health.

BETCHA YOU CAN'T FOOL ME ABOUT MY MILK...

That's because my life practically depends on it, and so I make it my business to know. Milk is a lovable-pectoral fluid rich in lactose, of important consequences to mankind (and baby) as a first rate food. It's of even greater consequence when I say that MY favorite milk is PLAINS. I just like that bright natural flavor in PLAINS milk... it is what I crave. See what I mean?

HERE IS THE **Proof**

From Your Texas Neighbors THAT YOU CAN TAKE OFF **Ugly Fat**

IT'S SIMPLE. IT'S AMAZING, how quickly one may lose pounds of bulky unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcenterate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. You don't have to starve yourself; eat sensibly according to instructions on bottle. Follow the easy way endorsed by many who have tried this plan and help bring back auring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. More alive, youthful appearing and active.

**NOTHING HARMFUL IN BARCENTERATE**

Barcenterate is the original grapefruit juice recipe for taking off weight. No starvation diet. No diet list to pay for. No vitamins to fortify you against hunger for you won't be hungry.

Ask your doctor about the Barcenterate formula. Barcenterate contains: Sassafras, Oregon Grapefruit, Senna Leaves, Prickly Ash Bark, Cascara, Magnesium Sulphate, Saccharin, Sodium Benzoate. **LOWEST IN PRICE—HIGHEST IN RESULTS.**

**OVER ONE AND A QUARTER MILLION BOTTLES SOLD IN TEXAS IN 3 1/2 YEARS**

**McAlLEN LADY LOSES 50 POUNDS**

"I want to tell you that I have lost 50 pounds since taking Barcenterate. I still want to lose 20 more pounds as I now weigh 167, a reduction from my former weight of 217 pounds." Mrs. C. M. Sarash, 302 N. 12th St., McAllen, Texas.

**LOST 42 POUNDS—FEELS FINE—NOTHING HARMFUL IN BARCENTERATE**

"I endorse Barcenterate not only for losing weight, but for health as well. Before taking Barcenterate, I weighed 197 pounds. I now weigh 155 and I feel better in every way. I am not flabby—no loose flesh and skin." Mrs. J. L. Cashey, Box 27, Sabin, Texas.

**ATE ANYTHING AND LOST 37 POUNDS**

"When I started taking Barcenterate, I weighed 210 pounds. I now weigh 173 and I ate anything I wanted. I am still taking Barcenterate for further weight reduction." Frederica Rodriguez, 6709 Richmond St., Ft. Worth, Texas.

**18 1/2 POUNDS LOST BY SAN ANTONIO LADY**

"I have taken Barcenterate as grapefruit juice and found it very satisfactory. I had to lose weight for an operation and I took Barcenterate and lost 18 1/2 pounds." Mrs. Belle Douglas, 716 W. Kings Highway, San Antonio, Texas.

**ODESSA LADY LOSES 20 POUNDS**

"I have lost 20 pounds taking Barcenterate. I can't praise it enough." Mrs. Levi Duval Newman, 802 N. Grant, Odessa, Texas.

**3 BOTTLES—10 POUNDS LOST**

"I can gladly recommend Barcenterate. I lost 10 pounds on the first three bottles. I am glad to recommend it to anyone who wishes to reduce." Mrs. Abner Amos, Hughes Springs, Texas.

In Colonial America, a cap was the sign of a married woman.

### Many Never Suspect Cause Of Backaches

This Old Treatment Often Brings Happy Relief  
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause aching headache, rheumatism, pain in the back, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with stinging and burning when urinating shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous matter from your blood. Get Doan's Pills.

### Texas Today

B. WILLIAM C. BARNARD  
Associated Press Staff  
Hitchhiking as an art is passing at Texas A & M College.

Once practiced as a ritual, mass hitchhiking by the Aggies was casual of the war.

No longer do men of A & M ride from the squares of every Texas town on weekends. The entreating thumb has been replaced by a beautiful chromium plated bulletin board.

Today there are Aggie Sophomores who have not learned the meaning of "upstreaming," a campus crime during the nineteen thirties and before.

To upstream was to break a cardinal rule of hitchhiking, and there used to be many such rules at A & M. If a group of cadets arrayed themselves along a highway, seeking rides, and a newcomer walked up the highway so as to be the first to meet coming traffic, he would be guilty of upstreaming. In the old days this was actually an offense punishable by demerits. Today it is rarely mentioned and almost forgotten.

A faculty member said that a few years ago, eighty-five to ninety percent of the students were members of the cadet corps and in uniform. Today little more than half the students are in the corps. That is another reason why the boys of A & M are less frequently noticed traveling about the state.

And Vick Lindley, student veteran, explained:

"Once, few cadets at A & M had their own cars. Then came the war and afterwards the invasion of the campus by student veterans. Such a large number of these veterans brought their own automobiles that it no longer became difficult to obtain rides. The veterans offered space in their cars on a share-expense basis and cadets quickly accepted. It made getting around on weekends much easier and you can be certain that Aggies still travel as much as they ever did. They leave College Station and Bryan in a search for weekend dates. There are not enough girls in close range of the campus to meet the date situation.

"Now, the process of getting weekend rides has become greatly refined. Students wanting rides and students offering rides began posting notices on the college bulletin board and so popular did this practice become that the college had to install a new bulletin board, dedicated entirely to Aggie travel."

Lindley took us over to see the chromium bordered board. About a ride-noticed had been tacked up. Some were elaborate, penned by artists. Rides were sought, or offered, to such points as New York, Boston, Philadelphia, and San Francisco. A student advertises space in his car to Amarillo or Brownsville and another comes along and pencils on a corner of the card that he wants the space.

Take Your Choice  
—Pig or Bathtub

FRANKFURT, Germany —(AP)—Which will you take: A pig or a bathtub? In Germany, city folk take pigs and farmers take bathtubs. For such deals, the farmer has become the most hated man in Germany. The city people say:

"Better times will come when the carpets on the pigsty floors are returned to their owners—the hungry industrial workers who traded them for food.

American and German officials say that not every farmer is a black marketeer. Many do their best to help the needy town people. But experts say if all the pigs that vanished in 1947 had been legally distributed, the average German's meat ration would have been upped 80 percent. Now the average man gets only eight pounds of meat a year.

Kohinoor is the largest diamond belonging to the British Crown.

### Political Calendar

The Pampa News has been authorized to present the names of the following citizens as Candidates for offices subject to the action of the Democratic voters in their primary election on Saturday, July 24, 1948.

### Leaves From a Correspondent's Life Note Book

By HAL BOYLE  
 NEW YORK —(P)—When are the test tube savants and the Bunsen burner boys going to isolate the gossip bug and develop a truth serum to detect it? Gossip today wastes more energy than is locked up in the most muscular atom. It wrecks more homes than floods, tornadoes or a million over-activated Casanovas.

**AT PENNEY'S**  
**SUMMER DRESSES**  
**REDUCED TO CLEAR**

**COOL, PRETTY DRESSES**  
**\$5.00 \$7.00 \$9.00**

And now tomorrow Penney's presents the Grand Finale to this, our "greatest in history" Summer Dress Carnival. During the past two weeks we have offered and you have bought thousands of new cool, summer dresses. Now it's time to "clean house." We have gone through our entire stock and removed those dresses which have not sold during the carnival period and have drastically reduced them for quick clearance. Come early. Styles and sizes for all.

**LOTS OF STYLE—FOR LITTLE BUDGETS**

bridge table, the soda fountain, the country club, the beauty parlor, the backyard fence and the office water cooler.

We need a truth serum to detect gossip and a penalty to punish it. When a fellow bays some priceless bit of misinformation down your neck, you could grab his arm and rub some truth serum on it. If it turned red, you could believe him. If it turned green, you could dismiss him as a gossip.

How to punish him? The old Anglo-Saxons tied gossips to ducking stools and immersed them a few times to cool off their hot rumors. The Puritans locked them in the stocks and ridiculed them.

Before Columbus came the Quimbaya Indians of Colombia had a golden gag for gossips. It was a nose ring to which was attached a large golden flange, hung with tiny bells that dangled below the chin. Every time the gossip even whispered, the bells jangled in warning.

But if these gags ever came into use again women might flaunt them as a new style feature. And if we gagged every beauty parlor gossip with gold, Fort Knox soon would be emptied. Science will have to develop that anti-gossip truth serum.

COULD BE!!  
 Could this be an indication of better times ahead? A recent Treasury Department Bureau of Fed- includes: "Tape, linen finish, cotton, red — 45,000 spoals."

### Old Boy Does a Man's Job

Pop McKee: The bobby-soxers will have to wait.

By MARY C. FLYNN  
 NEA Staff Correspondent  
 KANSAS CITY, Kans. —(NEA) — Anybody who has seen a movie about newspaper life knows that when a city editor wants a messenger he shouts "Copy Boy," or just "Boy," even though the boy is likely to turn out to be a bobby-soxer journalist.

But not at the Kansas City Kansan. There 86-year-old Harry G. "Pop" McKee, probably the nation's oldest copy "boy," has been answering the call for the last five years with a record most of his bobby-soxer counterparts would find hard to match.

Pop has not missed a day of work and never has been late in those five years. He is on the job six days a week, reporting job six days a week, reporting at 7:40 a. m., 20 minutes before newcomers to the Kansan find it hard to believe the age of this amiable and agile copy boy. His hearing is good, and he wears spectacles only for reading. He has smoked a pipe daily for the past 17 years.

After more than 40 years of farming in Kansas, Pop worked for 12 years as a foreman in a soap plant. The next 12 years were spent in retirement.

Pop sought his present job to "help out" during the war. He went to C. H. Nohe, the Kansan's city editor, and asked if he could

substitute for an employee who had gone to war. He replaced a teenager who joined the air forces. When the boy didn't want to return to his job after the war, Pop stayed on.

Now he takes care of all mail coming into the Kansan building, runs general errands for the editorial staff, files cuts and pleases, nurses the teletype machines, checks NEA comics and other features and news material for use and the return of news material to contributors. He works meticulously and constantly.

Pop walked the three flights of stairs from the editorial room to the press room to get the new editions until recently when Nohe insisted that he save himself the steps by using the plate lift operating between the press and composing rooms.

He uses a news carrier's bag to bring the mail from the post office, two blocks away, an average daily load of 35 pounds.

Nohe, who gave McKee his nickname, says Pop "recognizes news for its severity but usually comes up with a wisecrack about the latest story off the teletype. His observations on the news are sharp."

Pop has "the old-fashioned idea of thrift," says Nohe. "Before he will dole out a new typewriter ribbon, he makes sure the applicant's old ribbon has been fully used."

With his wife, Pop has kept a flower garden for 20 consecutive years. In the spring and summer, blooms from the garden decorate desks of the Kansan city room.

The bobby-soxers will have to wait a long time for Pop's job. "Those 12 years of retirement were the hardest of my life," he says.

**VITAMIN C**  
 Small people need less vitamin C in their diet than large people, researchers say. Studies of the use of Vitamin C (ascorbic acid) in the body revealed that blood plasma of smaller, lighter weight people kept Vitamin C at larger levels than heavier people on the same diet.

### ON THE RADIO

**FARMERS SPEAK**  
 DES MOINES, Iowa —(P)—Iowa touring farmers have now become the talking farmers. It has been estimated that members of the group of 25 farmers who visited Europe last fall have addressed more than 200,000 persons, not counting radio listeners.

### Opinion Given On Horsepower

GREELEY, Iowa —(P)—In Greeley, once known as the horse capitol of Iowa. They admit the horse business is in a "bad way," but they say the farmers may wish some day they had some horses.

William Goldsmith, proprietor of a Greeley harness shop, says, "Every farmer ought to keep two mares and raise a colt or two every year."

Farmers say it doesn't pay to raise horses, but with prices of gas, oil and steel high, Goldsmith says framers might wish they had horses if farm prices hit the skids.

# SICK!

**STOMACH AILMENTS, WEAK KIDNEYS, RHEUMATIC PAINS, ARTHRITIS, NEURITIS**  
 and such complaints as Headaches, Nervousness, Acids, Toxins, Bloating, Lack of Vitality, Energy, Poor Appetite Underweight, Dizzy Spells.

**Drugless Health**  
 IF YOU ARE a sufferer of these ailments, try GEO-MINERAL. You may be astounded at the results. GEO-MINERAL comes from the earth—Nature's Laboratory. Contains NO alcohol, NO preservatives, NO oil, NO harmful drugs, NO dope — NOT habit forming. Contains ONLY Nature's minerals, the oldest, most reliable remedy for rheumatism, arthritis, kidney and stomach ailments—highly recommended by the medical profession.

**Rich Red Blood**  
 MEDICAL records show 68% of men and women over 35 suffer from nutritional iron anemia. When you feel nervous, dull, lazy, have dizzy spells, no ambition to work or play, a poor appetite, feel blue, when your eyes lack that bright spark, and your mind brilliance, when headaches get the best of you, and you feel old before your time and life seems not worth living, with worry wearing you down—it may be simply lack of minerals in your blood. GEO-MINERAL is then what you need.

**Wonder Minerals**  
 RHEUMATISM, arthritis are dreadful diseases. Acid condition in the blood is often their cause. What could be the remedy? For thousands of years, minerals have been used to relieve the pain and suffering of these ill. People, on the advice of doctors, go to mineral springs to find cure, or relief. The most important of our people, including doctors and millionaires, go to mineral springs. They would not patronize regularly these springs without any benefit.

YEAK after year, people rush to mineral springs and spas, to drink and bathe in their miraculous water. We have all heard of the wondrous springs of Lourdes, France, and famous Thronos in ancient Greece where, according to legend Hercules, the god of eternal strength and youth, drank his waters and bathed to be forever young.

**Amazing Results**  
 GEO-MINERAL contains minerals found in the world's best springs. What the results a day or two after using it. The consequence it will do in your body, the poisons it will bring out. When you see this, do not get alarmed—thank Nature who created Geo-Mineral as a sign that the medicine is working on you, and realize its priceless value.

GEO-MINERAL Retail Price 1 Bottle \$1.10 6 Bottles \$6.00

**Read What They Say!**  
 Pharmacists, like doctors, know medicine best. Thousands of druggists of high reputation, who now sell Geo-Mineral, report amazing results.

"We have sold Geo-Mineral for the last six months and it has been one of the best selling drug items we have ever handled"—say Porter Bros., pharmacists of Concord, N. C. "Users report amazing results in many instances, and we personally believe Geo-Mineral is a good medicine for purposes as indicated, and recommend it to sufferers who have tried other medicines with little if any results. They may discover that Geo-Mineral is what they have been needing and looking for—we unhesitatingly recommend it."

GEO-MINERAL is not a phsylo and does not interfere with the foods in the stomach. It cleans and purifies the intestines, thoroughly relieving gas, toxins, acids, and bloating. After these poisons are out of the system and the kidneys purified, we begin to feel the arthritis and rheumatism leaving, and Nature starting to complete the recovery.

**100% Guaranteed!**  
 WE URGE everyone to try GEO-MINERAL. Do not hesitate one moment. Go to your drug store now. Get one bottle. Use it one week. If you are not 100 per cent satisfied, we will refund your money. REGARDLESS of how long you have been suffering, and how many medicines you have tried before, GEO-MINERAL may be the remedy you need.

TRY it today! It may do wonders for you—and be the best investment for your health. Make you feel, eat, sleep, work and enjoy life better.

Jack W. Reed, 320 N. Dwight, has returned from McBride Clinic in Oklahoma City where he underwent spinal surgery. He is now convalescing satisfactorily at his home.

Staffer System Treatments for your health's sake. Skinner's Bath Clinic, 705 W. Foster. Ph. 97.

Mr. and Mrs. Harold McCleery, 1128 Duncan, are the parents of a 6 lb. 14 oz. son, born May 22, in Worley Hospital. Mrs. McCleery is the former Maxine Patterson, daughter of H. B. and the late Mrs. Patterson. The baby's paternal grandparents are Mr. and Mrs. G. E. McCleery of Canadian.

Enlistments in Navy Will Be Cut in Grade

Chief Petty Officer S. A. Smullin, local Navy recruiting officer, announced today that effective June 15, enlistments or reenlistments of otherwise qualified broken service personnel enlisting in the Navy in the engineers' rating may not be enlisted above the fifth pay grade.

This announcement applies to broken service personnel who were discharged in the ratings of motor machinist's mate or engineman. Smullin said.

At present, personnel discharged as chief or first class petty officers in the mentioned ratings may be enlisted as second or third class.

Smullin urged that men in the foregoing rating groups who have plans of reenlisting in the Navy, do so prior to the deadline of June 15 in order to take advantage of open ratings.

Smullin may be contacted at the Army recruiting station in the Postoffice on Mondays, Tuesdays, and Wednesdays for further information.

The most troublesome pest to Australian farmers is the rabbit.

We have in a new shipment of tomato plants, also a good selection of chrysanthemums, scarlet sage, Lantana Petunias, verbenas, pansies, vinca, balsam, geraniums, fuschias and rose bushes. Price Greenhouse. Phone 1881.

Rummage Sale to be held at Bordens on Saturday, May 29, by the N. A. L. C. Auxiliary.

Roland Blalock, a student in English and Journalism at Tulane University, will arrive from New Orleans Saturday night to spend a week with his mother, Mrs. Josephine Blalock, 800 E. Browning.

Electric cabinet type sewing machine for quick sale. 321 N. Christy.

A disabled veteran made the puppy you'll buy this Saturday from a member of the American Legion Auxiliary. Your contribution will be returned to him in services he alone can appreciate. Give generously!

Mrs. J. C. Powell, Jr., and daughter, Cheryl, and Miss Mona Powell of Lubbock visited Mrs. C. L. Shimek two days this week.

Try our fresh whole wheat bread for added energy and better flavor. Pampa Baking Co.

We are now able to finish all custom made pants with genuine comfort waist band. See our samples first. Hawthorne Tailoring 113 S. Ballard, rear of Fashion Cleaners. Phone 920.

Allene Weathered is visiting her mother in Kress.

The Reapers Sunday School Class meeting has been postponed until further announcement is made.

Dance at the Southern Club Saturday to Roy Terry's 7-piece Orchestra. Adm. \$1.00 per person.

Joan Gurley, who has been working in Springfield, Mo., is now at home with her parents, Mr. and Mrs. W. A. Gurley.

Dr. J. C. Higginbotham, Chiropractor, has returned to Pampa and has reopened his office just over the Empire Cafe on Cuyler St.

Mr. and Mrs. J. W. Lee, 304 N. Sumner, had as their guests last week their daughter, Mrs. Helen Clegg of Oklahoma City, and their granddaughter and her husband, Mr. and Mrs. Clement King of Mt. Vernon, Ohio, and Mr. King's parents, the Karl Kings of Gambier, Ohio.

Mr. and Mrs. John Lee and their daughter, Suzanne, of Amarillo were also weekend guests in the Lee home. The Kings and Mrs. Clegg went to Tyler for a short visit with D. W. Lee and family before returning to their homes in Ohio.

Lamps of Baltimore Being Modernized

BALTIMORE—(AP)—Baltimore is beginning to replace its old-fashioned gas street lamps with modern electric fixtures. And Baltimoreans don't know whether to be sad or glad.

Everyone agrees that the old gas lamps and the lamplighters with their little ladders give the city much of its old-world charm. But they give very little in the way of light.

Baltimore has 16,700 of the old-fashioned street lamps. There will be 800 less by the end of this year if present plans work out. Under the city's modernization program, 4,700 gas lights are to be replaced during the next four years.

However, in many residential sections, the city plans to keep the gas-type pole and lamp, simply adding an electric fixture.

ADMIRAL U. S. POLICE COPENHAGEN—(AP)—The American policeman is kind and friendly in the street, he knows how to fight and shoot, but his reporting is bad, Danish police inspector Martin Nielsen-Ouroe says after visiting the United States.

Many things, especially regarding traffic, might be used in Denmark, the inspector says. He was especially impressed by parking meters.

Per se, a Latin expression, means 'by itself.'

'MY MEN'—Tech/Sgt. E. L. Shanks (center, standing), son of Mr. and Mrs. A. L. Shanks, Star Route 4, Pampa, poses with "eight of my Chinese coolies that work for me," as he wrote recently in a letter to his parents. Marine Shanks, who saw five beach landings during the war against the Japs, is a marksman, engineer, demolition, and flame-thrower expert. Shanks, whose wife and child are on the West Coast, discussed the fifth and shabbiness of the area around Tsingtao, where he is located.

## World Citizenship Is Discussed by Mexican Consul

WHITE DEER—(Special)—Senor Eugenio V. Pesqueira, the Mexican consul at Amarillo, spoke at the White Deer Elementary School Auditorium, Wednesday evening, on the development of world citizenship. He also discussed some of his duties and showed a motion picture depicting the culture in Mexico before the arrival of the Spanish.

In connection with the visit of Senor Pesqueira, who was accompanied by his wife and his daughter, the second grade pupils, taught by Mrs. Fred Mullings, presented a group of colorful Spanish folk dances.

Citizenship and scholarship awards were presented to the outstanding pupils in each grade of the White Deer Elementary School.

## Legal Records

**Marriage Licenses**  
The following were granted licenses to wed yesterday in the office of County Clerk Charlie Thut:

W. V. Lister of Twitty, and Alice Olevia Austin of Kelton. Donald A. DeLane and Mary Mildred Mansson.

**Realty Transfers**  
W. J. Cornelison and wife, Nettie C. to Alvin F. Cornelison and wife, Naomi Lee; Lots 12 to 14 in Block 35 of the Talley addition.

Lloyd Neagle to W. O. Davis and wife, Maude; the easterly half of the northeast quarter of Section 104 in Block 3 of the I & G N railroad surveys of Gray County.

A hard, fine wax from the leaves of the Carnauba palm tree in Brazil is exported to 22 foreign countries, bringing \$14,500,000 annually.

## Mule Wins Race With Mail Train

GREENVILLE, Miss.—(AP)—Re Larry Pryor rode the brown mule, "ature Boy," into Greenville Saturday, three minutes ahead of an I. C. train to win a race between the train and a relay of mules from Cleveland, 35 miles north of Greenville.

Rep. Pryor was enthusiastically greeted by a highly amused crowd of between 3,000 and 4,000 people. The winning mule racer wore a black 10-gallon hat, black trousers and yellow vest and humorously told the crowd he was inaugurating "prompt and efficient mail service."

All along the route the mule

## From where I sit... by Joe Marsh

**It's Leap Year, Girls!**

First girl in our town to "get her man" on Leap Year was the Cuppers' daughter, Jane, who wed Bill Webster's boy last Saturday.

I know it's usual for older folks to shake their heads over the younger generation. (It's gone on for hundreds of years, now.)

But from where I sit, young people of marrying age today are every bit as commendable as their elders were—in their temperance (a glass of beer for instance), tolerance, and common sense. So to Jane and Bill—the best of luck!

"I could plainly see," says Bill, "that we'd really have a happy home life—which is just exactly what I want from marriage."

Joe Marsh

## Hogan Picked To Take First In FW Junket

By HAROLD V. RATLIFF  
FORT WORTH (AP)—The Colonial National Invitation, golf's all-expenses paid junket for the stars, opens its third annual showing today with Ben Hogan, the game's fabulous pine knot, a weary but determined favorite.

Hogan, who played 212 holes at St. Louis in capturing the national PGA, was considered the man to beat as a field of 29 professionals and three amateurs moved out at the first 18 holes of the 72-hole tournament that reaches its close Sunday.

There was little rest for Wee Ben, who flew in from St. Louis yesterday morning, snatched a few hours sleep and then whipped around Colonial Country Club's 6,635-yard course in one-under-par 69. "That St. Louis thing just got me into shape," Hogan grinned. But he rode on a motorized "go-cart" instead of walking the fairways after each shot.

Hogan, who has put \$12,897.50 into the old sock this year to make him the runner-up in money won, will be after the \$3,500 first prize for the third time. He won the other two tournaments with a one-under-par 279.

The pros are predicting that Hogan's record will be beaten this time. One reason is excellent condition of the course. Another is that the lay-out has been cut in length. It was 6,800 yards for the first two tournaments; this year it's 6,635 yards. Tournament officials say very frankly that they did this to bring lower scores.

## Rains Cancel League Tilts As Six Are Set

Six Industrial League softball games remain on tap for the rest of this week with all games scheduled to be played either at Skelly or at Phillips since lights are not yet ready at Lions Club Park.

Due to the rains, most of this week's games have been rained out, but in the two engagements Sunday afternoon at Lions Park, The Pampa News romped over Ideal Food 20-5 with Jimmy King hurling masterful ball for The News, and Master Cleaners forfeited to Furr Food in the other scheduled game Sunday.

The remainder of the week's schedule is as follows:  
Tonight—Magnolia vs. Ideal at Skelly, and Cabot vs. Phillips at Phillips.

Friday night—Furr Food vs. Pampa Bus at Skelly, and Jayco vs. Pampa News at Phillips.

Sunday afternoon at Lions Park—Master Cleaners vs. Humble, and Texas Elf vs. Skelly.

## Chicks Below Average

AUSTIN (AP)—Commercial Texas hatcheries continued to produce less than the average number of chicks in April.

Production was estimated at 11,320,000 chicks in a report issued Saturday by the United States Department of Agriculture.

Play starts at 12:40 p. m. (CST) with George Schoux of Mamaroneck, N. Y., and George Schneider of Ogden, Utah, the PGA tournament chairman, the first to move out.

## Who's on First?

Red Sox pitcher Jack Kramer (18) was taking no chances of White Sox Tony Lupien (3) running out a hit to first base as Bostup Lupien out. Kramer's all-out try wasn't needed, however, as Jones made the out unassisted, and helped the Red Sox blank Chicago, 8-0.

The Pampa Harvesters have officially ended the 1948 District 1-AAA pennant chase, since their last scheduled game with the Borger Bulldogs was forfeited by the locals due to the bad weather and the fact that Coach McNeely and some of the players were leaving town.

This forfeit, charged as a loss, gives the locals a district record of six wins and three losses.

The Pampans trounced Plainview 9-0 in their first district encounter behind the one-hit hurling of righthander George Gambin. The Harvesters then won over the Lubbock Westerners by virtue of a forfeit since the Hub City nine enlisted the aid of Bobby "Rip" Griffen as third baseman. Griffen is classified as a semipro since he savagely action with the Memphis team last summer. The protest was filed and the disqualification came through last Saturday.

The Harvesters romped over the Brownfield Cubs in a "doubleheader" 8-2 and 7-0 as George Gambin and Howard Wells walked on the mound for the green and gold clad schoolboys, each getting credit for a win.

A 10-7, ten-inning heartbreaker was next in line for McNeely's Harvesters at the hands of their arch rivals, the Amarillo Golden Sentries.

After blasting the Plainview team a second time, 10-2, the Harvesters machine lost another close one, 10-8, to the Borger Bulldogs until the final inning where they scored three runs.

Invading Amarillo territory, the Harvesters played their last game of the season and went down in defeat, 6-2, with the Sentries emerging as victors for a second time this season.

Mainstay of the Harvesters hurling staff was ace righthander George Gambin. Gambin pitched most of the Harvesters games and had a season's record of four wins and two losses. The other PMA hurler was another righthander, Howard Wells. The pint-sized Wells won one district game and was charged with one non-conference loss.

The Harvesters played 20 non-conference contests, massaging the McLean Tigers 22-5, and losing to the Wellington Skyrocks 10-11 in a 12-inning thriller.

Batting in the clean-up position, lanky Derral Davis worked behind the plate most of the season although he did play first base in one encounter and did during the Plainview engagement, Jimmy Parker held down the first base position while the keystone combination of Raymond Hernandez at short stop was a part hard to beat. In fact, when the all-district team is picked, either boy would fit in well for his fielding ability as well as his power at the plate. Laffoon had two circuit walkups during the 12-game season and Hernandez had one round tripper.

Alternating at the third base position, Don Lane and Jimmy Cox looked especially good in the field, but neither boy possessed the plate power of Hernandez or Laffoon.

Roaming the outer gardens were several boys who did marvelous jobs contributing with their share of the hits and pulling down any fly balls that came within their range. In the leftfield position was Jimmy Hyatt, a powerful hitter and an excellent prospect for later Harvesters years. Hyatt is now a Junior, and has gained fame for his former years with the Jr. Oiler aggregation.

In centerfield, Bob Nash further

## Cards Lose as Polo Grounds Jinx Strikes

By the Associated Press  
Life in the Polo Grounds is just a series of nightmares for Manager Eddie Dyer of the St. Louis Cards. As far as he's concerned they can bring back polo any day.

All last year his favored Red Birds fluttered and played dead when they hit New York. It looks like more of the same in 1948.

Dyer's latest experience was enough to try the patience of a saint. His league-leaders were rolling along last night behind a nice 7-2 lead with Howie Pollet, the unbeaten star of both leagues, doing the pitching. It looked like money in the bank.

Then the Giants started to break out of their hitting slump. They hit and hit and hit more. Before the eighth inning was over, eight runs had crossed the plate and the 7-2 lead had changed to a 10-7 deficit.

Bobby Thomson doubled and singled for seven hits in the big inning as the Giants chased Pollet. George Munger and Gerry Staley before coasting to a halt for Ken Burkhart. Pollet escaped his first defeat because Dyer called in Munger at the first sign of serious trouble. Munger was felled for his second loss.

"Those Giants," said Dyer the other day, "they beat us like they own us."

Still the Cards show the way with a 1-2-2 game lead over New York, despite last night's disaster.

This turn of events sent a crowd of 44,128 into the subway with visions of another all-New York World Series. Across the river in Flatbush, Brooklyn customers were more concerned with immediate problems. Outfielder Pete Reiser and Catcher Bruce Edwards were lost for an indefinite period and the club blew another.

Shortly before midnight the Dodgers again plunged into the cellar as the result of their 4-1 loss to Chicago and Cincinnati's 8-5 win over Boston.

Hank Sauer's 10th homer helped Cincinnati sneak out of last place. The Reds routed Warren Spahn, Boston's southpaw ace, to come from behind. Herman Wehmeier, who pitched 6 2/3 innings, was credited with his second straight win.

The Pittsburgh-Philadelphia night game was postponed because of threatening weather.

Once again the American League race is all snarled up in percentages. Cleveland, actually trailing Philadelphia by a half game in a strict application of the won and lost principle, still holds first place by two percentage points.

It's the same old story of a difference in games played.

Cleveland was shut out for the first time this season but it took two pitchers to do it—Sid Hudson and Tom Pefferick.

The Indians collected only three hits in bowing to Washington, 2-0, for Gene Bearden's first setback after three straight wins.

Philadelphia combed the Chicago White Sox, 7-1, in the afternoon behind Joe Colman's five-hit pitching. It was the fourth straight victory for the rebounding A's who broke losses with five runs in the seventh inning.

## Third Series Of Mat Bouts Friday Night

The third in a series of elimination wrestling bouts to pick the contender for the Southwestern Junior Heavyweight Championship title will be staged tomorrow night at Promoter Vic Burnett's Sportatorium.

The weekly matches were changed from Thursday to Friday evenings, Burnett announced last week.

The winner of this series is scheduled to meet Wayne Martin, of Tulsa, the present champion, in a match for the Southwestern title at the Sportatorium June 4.

In the bouts tomorrow evening, the winners of last week's matches, Sammy Cohen of New York City, and Dr. Gil Knutson of Davenport, Iowa, will meet in the main event, and Billy Hickson of Knoxville, Tenn., will be matched with Walter Stratton of Youngstown, Ohio, in the semi-final.

Cohen defeated Cowboy Ace Abbott in 3 minutes of their scheduled hour match last week, and Knutson won over Jack Wentworth of Toronto, Canada, for the second time in the local arena.

Knutson entered the elimination contests when Ray "Big Train" Clements was prevented by an injury from appearing last week, and was automatically disqualified. Clements received an ankle injury in a "rassie royal" in Lubbock last Wednesday night.

Stratton, who holds several world and American weight lifting records, is reputed one of the strongest men in American wrestling. On the other hand, Hickson, his opponent tomorrow, held the Lighthweight Championship of New Mexico.

Cohen, since he began wrestling in the Panhandle only recently, made his first appearance in the local ring last week. He is a stranger to Texas, however, because he operated a health club in Dallas for several years.

## Nightgown at Opera Causes No Comment

LONDON (AP)—Reporter Joan Reeder wrote in the Daily Mirror she wore her nightgown to the Paris Opera and that Princess Elizabeth and the other customers never knew the difference.

Joan, 25, was sent to Paris on short notice last week to report the visit of Elizabeth and Prince Philip. She got an unexpected invitation to the opera, but had no evening gown.

She wore instead a pink and black nightgown with a bare midriff. It being Paris, no one noticed, she wrote.

"There were new looks everywhere but the looks I got were the most old-fashioned in the world," she commented.

Rich submarine coal fields have been discovered off Japan's Kyushu Island.

## Three Oiler Games Rained Out As Gold Sox Invade Local Park

After three consecutive nights of rain, the Pampa Oilers will engage the Amarillo Gold Sox in the final game of their three game series tonight at 8:15 in Oiler Park.

Although this will be the final contest of the current series between the two teams, in reality it will be the first and the last.

Grover Seitz's Oilers were to meet the Golden Hose last Tuesday night in Oiler Park, but the rains came, and the game was postponed. It is highly possible that tonight will find the two aggregations engaged in a twin bill since both are anxious to play the make-up games.

All of Seitz's pitchers have had a rest, so any one of the hurlers are liable to start on the mound. At the close of their last home stand with the Clovis Pioneers, the time had rolled around for ace southpaw Avon Driggers to do a turn on the mound, but, since the remainder of the hurlers have now had a rest, it is unknown who Seitz will give the nod.

After tonight's engagement, the local basebatters will travel to Albuquerque and then to Clovis for two three-game stands, and then return home to meet the Lubbock Hubbers in a three-game series on June 3, 4 and 5.

Boxcar Supply Satisfactory  
WASHINGTON (AP)—The boxcar supply in southwestern wheat-growing states appears more satisfactory than at this pre-harvest time in several years, reports Senator Reed (R-Kas).

In 1932 an American firm marketed the first commercially successful substitute for natural rubber.

## Walcott Injures Foot; Lets Up on Training

GREENLOCH, N. J. (AP)—There will be no more training chores this week for Jersey Joe Walcott.

A slight infection on his right foot will keep him from boxing and road work although Dr. Nicholas R. Musulin of Camden, N. J., said yesterday the challenger for Joe Louis' heavyweight crown could box if necessary.

"But he is in such excellent condition that merely as a preventive measure I have advised him to keep off the foot as much as possible for a short time and not to do any boxing the remainder of the week," Dr. Musulin said.

## Thirty Cars All Set For Indianapolis

INDIANAPOLIS (AP)—Thirty cars were ready today to start in the 500-mile race at the Indianapolis Motor Speedway Monday.

Seven cars made their ten-mile qualifying runs yesterday to bring the lineup within three of the maximum starting field. The 34 unqualified cars remaining at the track have only Saturday left in which to try for positions.

This Little Rep. Went to Market

To emphasize her position on the high cost of living (she's against it), Rep. Helen Gahagan Douglas (D., Calif.), went to market. She came out with a bill for \$17.96 and a firm conviction that something should be done to bring prices down. She uses her purchases on the floor of the House to argue for renewal of price controls.

Citizenship Awards Made at White Deer Grade Graduation

**WHITE DEER**—(Special) Floyd Travis and Marilyn Bagley received the American Legion awards for citizenship, presented by Wayne Jordan, at the eighth grade graduation program, Thursday evening, in the White Deer Grade School Auditorium. Floyd was also salutatorian and Betty Jean Williams was valedictorian.

As Mrs. Hope Rusk played the professional, "Roses of Picardy" and "Moonlight and Roses," the seventh grade pupils entered carrying rose-covered arches under which the graduating class proceeded to their places on the stage.

The program included: salutory, Floyd Travis, "The Rose," the class flower, Barbara Lewis, "Blue and Gold," the class colors, Jerry O'Neal, "Whispering Hope," sung by Marilyn Bagley, Ernestine Thornburg, Betty Jean Williams, Irene Lueddecke, LaVelle Rhoades, and Barbara Lewis, "Democracy and Cooperation," the

Politics Enter Czech Schools

**PRAGUE**—(AP)—If you want to go to college in Czechoslovakia you have to have the right political answers. Students registering after the political changes in February which made the country Communist dominated, had to answer a questionnaire.

Here were five questions, among others, asked of students in one college of Prague university:

Were you organized in some political party in 1947? Did you take part actively in political life in 1947? Did you work for some newspaper or journal, etc., during 1947? Was your mind changed in any way by the political events of February this year? What was your opinion on the February events and on the situation that resulted thereafter? Make three or four statements on this subject.

The questions were framed by student action committees which governed the political thinking of students. In student elections before the February changes, conservative students, chiefly allied with the Czech National Socialist party, won most of the posts.

class motto, LaVelle Rhoades; "The Non-Democratic Spirit," Raymond Martinez; "How Democracy Has Been Promoted This Year," Harold Williams and Jackie Freeman; "Our Betrayal in Tomorrow's World," Marilyn Bagley and Ted Downs; "The New Era," Billy Hill; and "Did You Know?" Bruce Martin.

R. Y. Corder, principal, presented the diplomas and recommended the class to Fred Mullings, high school principal. Ernestine Thornburg sang "The End of a Perfect Day," and Betty Williams gave the valedictory.

The seventh graders reentered with their arches; the eighth grade left the stage and held the arches, while the Class of '49 went to the stage and were presented to the audience. Then the seventh graders returned to their positions, and both classes sang the grade school song and the high school song and marched out, four abreast, under the arches as Mrs. Rusk played the recessional.

Members of the graduating class were: Joe Aaron, Ofelia Asencio, Marilyn Bagley, Helen Cantrell, Ted Downs, Jackie Freeman, Fabian Haiduk, Billy Hill, Barbara Lewis, Eiren Lopez, Irene Lueddecke, Bruce Martin, Raymond Martinez, Jerry O'Neal, LaVelle Rhoades, Billy Ricky, Ernestine Thornburg, Guy Thornburg, Harold Williams, Floyd Travis, and Betty Jean Williams. Mrs. R. Y. Corder was the class sponsor.

## Roberts Group Meets Friday

Roberts County farmers and ranchers will meet at the Roberts County Court Room at 8 p. m. tomorrow to discuss setting up a standard Soil Conservation District in the county, Roberts County Soil Conservation District announces.

Louis Dawkins will explain what such a program will mean to the local people, and the people will then decide whether or not they want it.

Roberts County Soil Conservation District also announces that J. P. Osborne is constructing some soil erosion control diversions on his ranch west of Miami. The diversions will protect some steep slopes from washing, and will empty the water into a tank which will be constructed at the outlet.

Tom O'Bryan's ranch north of the Canadian River recently had sage spraying from an airplane flying at an elevation of six to ten feet above the ground. The plane covers about 30 feet at a strip and can cover from two to five hundred acres a day. The cost of this work is two dollars an acre.

Spraying improves the pasture and makes it possible for the land to produce a greater amount of grass. A mixture of 2,4-D acid salt, diesel oil and water is used. The spray is also beneficial since it can be used to kill weeds while they are still green, said the Soil Conservation District.

## Frozen Food Conference Held in Pampa Tuesday

Twenty frozen food locker operators and butchers from eight towns discussed frozen food problems with five food authorities, Tuesday in the American Legion-VEW Hall.

Towns represented at the meeting were Darrouzett, Higgins, Canadian, White Deer, Hereford, Claude, Spearman and Pampa. The locker representatives conducted a similar conference in Dumas yesterday.

Roy Snyder, meat specialist of Texas A and M College, talked on meats and lockers for home use. In addition to running his own food lockers, he also manages the college lockers.

Collier Corbin, director of the Texas Frozen Food Locker Association for this area, introduced the speakers. Knox Parr, district agricultural agent, was in charge of the meeting. Doris Leggett, district home demonstration agent, also attended the meeting.

Louise Mason, food specialist of Texas A and M College, spoke on the freezing of fruits and vegetables and passed out sample frozen food locker records that were put out by the extension service of the college. The record shows the number of pints, quarts and packages the customer puts into his locker and provides a space to mark down the amount he removes from his locker. Listing eight kinds of fruit, 12 varieties of meat, 11 vegetables, poultry and fish, the record, if carefully kept, shows the locker user how much he consumes during the year.

"We believe freezing is the best method to preserve food," Miss

Mason said. She stressed the need of starting with good food since, she said, "freezing won't make bad food good." Also if the food is quick-frozen first, you will get a better product in the long run, she concluded.

The meeting included the temperature meeting in luded the temperature to keep frozen food lockers and the temperature for quick-freeze rooms. The best methods to wrap and package the products and types of locker equipment were also discussed.

## Farm Equipment Industry to Boom

NEW YORK — The farm equipment industry faces its greatest year in the next 12 months, reports Industrial Distribution magazine.

"This rose-colored outlook is backed by Frank R. Pierce, president of Dearborn Motors Corp., the division of Ford Motors Co. which produces farm tractors and implements. He believes that markets for agricultural products will hold their current high levels and that farm wage rates will remain at a level high enough to stimulate farm mechanization and the application of modern power machinery to more farm activities.

"The war left a deficit in tractors above 300,000 and meanwhile farmer income has risen to record levels. So because farmers have the wherewithal and manufacturers are able to produce in quantity now, more tractors should be appearing 'down on the farm'."

## Rains Improve Growing Crops

AUSTIN —(AP)—Favorable moisture conditions helped growing crops make good progress in most parts of Texas the past week, but drought conditions remained critical in the High Plains.

The Trans-Pecos area also continued dry and rain was needed in southwestern counties. Showers were being reported over much of this stricken area at the end of the week, the U. S. Department of Agriculture said in its weekly crop and weather bulletin.

Maturing wheat showed continuing improvement in the northern and northcentral counties, but deterioration was evident in the High Plains and southern counties of the low rolling Plains. There has been no effective relief from the drought in the latter areas.

Harvest of early varieties of wheat was expected to become general within a week to 10 days.

## Oleo-to Eat Or Not to Eat

AUSTIN —(AP)—Cash farm income in Texas for 1947 set an all-time record that may not be equalled in the immediate future. The Bureau of Business Research has estimated that Texas cash farm income in 1947 was \$1,852,857,000, an increase of 45.3 percent over the \$1,248,000,000 received in 1946.

High prices and large volume of marketing joined to swell the amount of cash income, although the increase was far from uniform for different products. The outstanding commodity was wheat, which in 1947 produced 214 percent more income than in 1946.

Income from cotton was up 85 percent, while cash receipts from the sale of cottonseed increased 135 percent.

Cash receipts from livestock sales rose substantially. Income from hogs was up 103 percent; cattle, 29 percent; and calves, 26 percent. Sheep and lambs, with an increase of only 5 percent, produced the smallest rise in income from livestock.

Income from wool, mohair, poultry and eggs was down, but the biggest decline occurred in fruits and vegetables. Lower prices were largely responsible for this drop, which brought income down 18 percent from the 1946 level.

For the first quarter of 1948, however, a pronounced change has taken place. With the sharp drop in prices of farm products, income of important categories fell substantially below the first quarter of 1947. Cash receipts from the marketing of livestock and from fruits and vegetables dropped 39 percent.

These products represented the most important sources of farm income in the first quarter of the year. For all commodities, the first quarter of 1948 was 10 percent below the same period of 1947.

Wet fields retarded cultivation of corn in some eastern areas, but conditions were favorable in most areas. Much of the early planted crop had been laid by.

Sorghum planting made limited progress in the northwest. The first cutting of alfalfa was almost completed and the second cutting started on a limited scale.

There was active harvesting of valley tomatoes but yields were light.

Livestock and ranges were in poor condition in the western part of the state, and some supplemental feeding continued as other feed supplies were limited by the critical drought. Livestock and feed conditions improved in Central Texas.

Fair Enough . . . by Westbrook Pegler

JACKSON, Miss. — The anti-Truman Democrats of the Southern tier have made Jackson their political capital. A political nucleus has been formed, called the States' Rights Campaign Committee. The chairman of the States' Rights Campaign Committee is Wallace Wright, who speaks with a persuasive magnolia drawl but is nevertheless a Kansan. This magnolia drawl may be infectious or a practical joke. O. B. Keeler, the Atlanta journalist, who was Bobby Jones' personal historian throughout his career at golf, comes from Kansas City, Mo., but he can say "please ma'am" to telephone girls with that sweet drawl which the cowboy and the Yankee and, in the movies, is usually associated with contemptible but enviable cad and bouncers. Mr. Keeler, poor devil, is neither a cad nor a bouncer but just another of our ink-stained wretches.

Mr. Wright's business is advertising and public relations. He runs a firm called Dixie Advertisers. He is not too lofty about that, however. All the big political parties have public relations outfits working for them in and, if possible, out of the country. It was Mr. Byoir and associates who put over the big polo campaign for Franklin D. Roosevelt, including the late Henry L. Doherty, a magazine editor, who thought himself an old story by James M. Barrie, of someone who had loaned his own birthday to a dateless waif and suggested that it would be best for the Byoir to lend his birthday to the paralyzed children of the U. S. A. Mr. Doherty picked up the bill of about \$75,000 for the promotion, advertising and so forth, including drinks, and if this makes you shudder, you are right. Mr. Byoir and associates who put over the big polo campaign for Franklin D. Roosevelt, including the late Henry L. Doherty, a magazine editor, who thought himself an old story by James M. Barrie, of someone who had loaned his own birthday to a dateless waif and suggested that it would be best for the Byoir to lend his birthday to the paralyzed children of the U. S. A. Mr. Doherty picked up the bill of about \$75,000 for the promotion, advertising and so forth, including drinks, and if this makes you shudder, you are right.

It is clear that the law is not yet capable of dealing effectively and swiftly with iron-clad labor monopolies. The first step must be to bring labor monopolies within immediate reach of the antitrust statutes. There can be no excuse whatever for continuing to exempt them from the same laws against abuses of power by industry. This view has been taken by Senator Ball, among others, who recently wrote that the "traditional American approach is to break up the concentrations of power by approaches similar to the Sherman Antitrust Acts.

In other words, to make in dustrially agreements and strikes or lockouts subject to the antitrust law. That was done in the House version of the Taft-Hartley Act, but it lost out by a single vote in the Senate.

Close to half the land of this nation would be useless for food production if it weren't for the breeders and raisers of livestock and the packers who start meat along the channels that end at the dinner table.

You can't eat grass. By itself, it adds nothing whatever to the food supply. Meat animals, on the other hand, thrive and grow on it. Inedible grass becomes edible meat that keeps the country's larders full.

Our meat animal population must be kept at a high level if we are to supply our own needs and maintain our foreign exports. We can't turn our meat supply on and off like a faucet. There's no miraculous assembly line that will produce an animal ready for the packers in a few weeks. It takes more than a year to grow a marketable hog, and two to three years to grow a beef steer. Any considerable decline in our animal population would take a long time to make up. The only sound policy for American agriculture, in the words of the secretary of agriculture, is "organized, sustained and realistic abundance."

Meat animals, which are the farmer's chief source of cash income, are also the backbone of the tremendous competitive industry which processes the product for a profit of only a fraction of a cent per pound. Meat is a staple item in the American diet, and the whole process of producing it begins on grass-land, a great portion of which is useless for anything save the feeding of livestock.

Under our Constitution, we cannot and should not make it illegal for an American citizen to think communism or express his opinions so long as he does not advocate a violent overthrow of the government. —Sen. Robert A. Taft (R) of Ohio.

European unity under the United Nations alone can assure the survival of civilization. —Bernard M. Baruch.

In the legends of King Arthur, the Holy Grail was the cup used by Jesus at The Last Supper.

COMMUNISTS UNSNARED . . . by Peter Edson

WASHINGTON (NEA) — If the Senate decides to pigeonhole the Mundt-Nixon anti-communist bill, the House will have to take care of it. The Mundt-Nixon bill, which would require registration of all persons who have been members of the Communist Party of the United States of America, is a state with coastal oil. Louisiana is another. All such states and some with other potential treasures to defend against usurpation by the national government have an interest in the continuing claim of the submarine oil states to the value of, and the right to regulate, such oil deposits. But, during the last years of Harold Ickes as secretary of the interior, he claimed all these natural re-

Because of the difficulty of obtaining evidence of intent to use force or violence, the Smith Act has been tested in only one important case. This is the case of the conviction of 18 out of 29 members of the Socialist Workers' Party of Minneapolis. In a formal declaration, they had favored overthrow of the U. S. government and substitution of a socialist state. The Vothris Act requires registration by any organization subject to foreign control and engaging in military, military or political activity, the purpose of which is to overthrow a government. Penalties of \$10,000 and five years are prescribed for failure to register, but the responsibility for registering is not fixed on any individual. So no one can be prosecuted.

Most amusing aspect of the Vothris Act, however, is that in the eight years it has been on the books, only five organizations have registered. All were aimed at overthrow of the Nazi government. Two other organizations, aimed at overthrow of the Communist governments in Russia and the Ukraine, were registered for a time. Later their registrations were withdrawn.

TIMELY SHIFT The Communist Party never registered under the Vothris Act. Several days before the Vothris Act became law, the Communist Party changed its constitution and legally dissolved its ties with the Communist International in Moscow. The announced purpose of this shift in the party line was to avoid registration under the Vothris Act.

Common Ground by R. C. HOILES

Morality and Education (Continued)

I want to quote further from "Two Educators: Hutchins and Conant" by Oliver Martin as published by the Henry Regnery Company. As stated in the last two articles, Robert Hutchins, president of the University of Chicago, believes there is a moral law; and James B. Conant, president of Harvard University, seems to think there is no moral law. I quote further from Hutchins ideas.

"Any institution is partially defined by its limitations. It is what it is because it is not something else. It perverts its function by trying to be all things to all people. A university is concerned at least with the life of the mind, the pursuit of truth, the organization of knowledge. In this respect it differs from a Church, an industry, a business, the Y.M.C.A., or a lady's aid society. A university never is separated from other institutions in a culture, but it should be distinguished from them. Otherwise it has no unique contribution to make. Hence, it is a good principle of educational administration that a college or university should do nothing that another agency can do as well."

"At the base of education, as at the base of every human activity, lies metaphysics. Therefore, it follows that only those who recognize the importance of metaphysics and the wisdom of the race should hold in education for citizenship can hope to educate men and women who can contribute to the improvement of society and who will want to do so. Unless it comes to grips with philosophical problems, everything else the university does is question-begging."

"I can't find much to quote from Conant's philosophy or moral nihilism. Hence, that accounts for the many quotations from Hutchins philosophy."

I quote again from Hutchins' ideas: "What is sometimes not understood is that the 'niceness' of an educator is irrelevant as evidence for the truth of his position. Conant himself, as a person, might oppose many practices that are morally nihilistic. In that case he would be acting on an ethic and a heritage some of his premises deny. The tragedy here is this, that in denying the value of the discipline of philosophy one is denying himself the very discipline the understanding of which would allow him to know what he is talking about, to correct his own philosophical confusions. People often hate what they fear."

The author goes on to say: "Hitchins is not so much a 'cause' as an 'effect' of a period of moral and spiritual decadence. One of the 'fronts' on which human nature is attacked is the intellectual. It all begins innocently. Man is conceived to be essentially a biological organism 'interacting' with other such organisms in the attempt to 'adjust' to the environment. Knowledge is reduced to the formal and the factual, theoretical difficulties are reduced to the syntactical and semantic, and the practical becomes identical with the useful and the 'expedient' such organisms as the physical and theological become rationalizations of helplessness, timid encouragement men who lack 'social skill' and the ability to 'handle men' and 'manipulate material reality. Such disciplines are either abolished or rendered harmless by being given an unfunctional place in a curriculum. Generations of students emerge from such chaos, unable to distinguish wisdom from sophistry. Judgments other than those of mere opinion. There is a gradual dulling of the moral consciousness relative to the distinction between responsible differences of opinion based upon knowledge, and the almost indefinite differences of irresponsible opinion that can arise precisely because no one is talking about."

The author ends the booklet with the following paragraph: "Both Hutchins and Conant have sharpened the issue that divides them. But in a very real sense the difference between them is not that of two possible educational schemes or ideals. An infinite gap separates them; between the positions they represent there can be no compromise. For the issue is not merely one of truth and falsity; it is a question of sense and nonsense, of spiritual life and death. If Conant's way prevails there will be no universities, no education. Social skills may be developed, and workers may collaborate more 'spontaneously' with the managerial 'elite'."

BANDS — The Forrestal-Leahy school still maintain that the outcome of the strife will justify their analysis of the critical situation. But the uncertainty surrounding the presidential delay in granting the Jews' new demand for lifting the arms embargo so that weapons may be sold to the state of Israel.

Messrs. Forrestal and Leahy think that only one Arabian unit possesses any strength. That is British-trained Trans-Jordan army led by King Abdullah. The Iraqi, the Lebanese and the Egyptians, they say, are nothing more than primitive guerrilla bands able to

But when that time comes there will be no universities, only their physical plants; no education, only propaganda. Nor will there be any terrible metaphysicians, nor 'psychoneurotics' who love wisdom, nor philosophers to juggle such abstract notions as reason and justice — for by that time the more consistent and brutal realism of Thrasymachus will have supplanted the respectable sophistry of Protagoras."

THE Oxford train drew into Paddington sharp on time. Miss Helen and Miss Alice stepped out onto the platform. Their suitcases were light and they could carry them easily. They had been deciding on their way to town just what they would do. It was barely 3 o'clock and their train to the country wasn't due till 6:30.

"The Stanton Academy first, we thought, didn't we, dear?" said Miss Alice.

"Yes, I've not seen Madame Girard since Patience started. I'll be glad to have a little chat with her, and to hear how she is getting on."

They took the train to Great Portland Street. Miss Helen remembered the Academy was just around the next turning to the left. They rang the bell. They gave their names. The message came back that Madame Girard would be delighted to see them.

Miss Alice let her sister do the talking. Helen, she thought, was always so much better at this sort of thing than she was. She always knew just the right sort of questions to ask. And Madame Girard seemed rather a formidable sort of woman. Still, she appeared to be very pleased with the way Patience was progressing.

"I really must tell you, Miss Melville," she was saying, "that I consider her one of my most painstaking pupils. She takes a real interest in her work."

Yesterday—And Today

NATIONAL WHIRLIGIG news behind the news

WASHINGTON — The Arabs' early victories in the Palestine warfare mark the second historic occasion on which our military experts have given a persistent erroneous advice as the basis for decisions of vast international import. It may land Defense Secretary Forrestal and Admiral William D. Leahy, White House chief of staff, in the nation's most important doghouse.

Mr. Truman abandoned the original American proposal for partition of the Holy Land largely because these two men who represent the Navy viewpoint, informed him that the reversal would not cause chaos in the Middle East. They told him that the Arabs were divided, poorly trained and equipped, and assured him that the Jewish forces would easily repulse them.

Their chief concern was that continued advocacy of partition would so antagonize King Ibn Saud that he would cancel contracts for petroleum needed by the Navy. Therefore, they persuaded the President to make his gesture of appeasement to the Arabs. They quieted his fears over possible turmoil throughout the Middle East with assurances that there would be no large-scale or prolonged fighting because of Arabian military weakness.

KEY — The other time they misinformed the commander-in-chief was when they warned FDR that the German forces would conquer Russia within a few months after the June, 1941, invasion.

As a result of that advice, President Roosevelt immediately included Moscow within the lend-lease family, proclaimed the Soviet to be a true democracy and carpentered the Pandora's box of troubles which has now cracked open in President Truman's face. Ironically, George Catlett Marshall happened to be a key figure then and now. He was chief of staff when his so-called intelligence service underestimated the Reds' power, and he now serves as a combined diplomat and military adviser to the White House.

BANDS — The Forrestal-Leahy school still maintain that the outcome of the strife will justify their analysis of the critical situation. But the uncertainty surrounding the presidential delay in granting the Jews' new demand for lifting the arms embargo so that weapons may be sold to the state of Israel.

Messrs. Forrestal and Leahy think that only one Arabian unit possesses any strength. That is British-trained Trans-Jordan army led by King Abdullah. The Iraqi, the Lebanese and the Egyptians, they say, are nothing more than primitive guerrilla bands able to

But when that time comes there will be no universities, only their physical plants; no education, only propaganda. Nor will there be any terrible metaphysicians, nor 'psychoneurotics' who love wisdom, nor philosophers to juggle such abstract notions as reason and justice — for by that time the more consistent and brutal realism of Thrasymachus will have supplanted the respectable sophistry of Protagoras."

THE Oxford train drew into Paddington sharp on time. Miss Helen and Miss Alice stepped out onto the platform. Their suitcases were light and they could carry them easily. They had been deciding on their way to town just what they would do. It was barely 3 o'clock and their train to the country wasn't due till 6:30.

WHEELER Shamrock

WHEELER (Special) — Mr. and Mrs. Harry Wofford and his father, W. B. Wofford, visited over the weekend with Mr. and Mrs. Bert Kennedy at Muleshoe. Miss Reba Wofford accompanied the couple to Amarillo where she visited over the weekend.

Miss Leona Crossland was a business visitor in Amarillo last week. Mrs. J. M. Porter is recovering from her illness. Duane Bradford has gone to the South Plains to work for the summer.

Mrs. Bill Perrin and daughters of Shamrock visited Saturday in the home of her parents, Mr. and Mrs. Bill Black. Mr. and Mrs. W. K. Frey and two small sons were Amarillo business visitors Saturday. Mr. and Mrs. T. M. Britt made a business trip to Clayton, N. M., Friday.

E. Davee has been moved to the home of his daughter, Mrs. Marvin Bradstreet. Mr. Davee recently suffered a stroke. Mrs. Flower Wright of Childress spent last weekend with her sister, Mrs. Winnie Watts, who was ill.

Mr. and Mrs. Walter Hooker of Dumas were in Wheeler last week. While here, they rented the Mrs. J. N. Green place and expect to move soon. Mrs. Mildred Isaacs has returned to her home in Amarillo after a short visit here.

Mr. and Mrs. Leroy Robinson were in Shamrock Friday night to visit his sister, Mrs. John Gilliam, who underwent an operation that day. Mrs. Bill Hugg and two daughters have returned to their home at Clayton, N. M., after a visit to the home of her mother, Mrs. Bettie Taylor, and other relatives and friends here and at Shamrock.

SO THEY SAY We may destroy our prime military asset by militarizing our economy by heavy plane orders requiring government controls. —Sen. Henry Cabot Lodge (R) of Massachusetts.

Let's use our Marshall Plan money like hard-headed Americans instead of like soft-headed saps. . . I would insist that those who are getting our money stand together in extreme unity instead of standing divided. —Gov. Thomas E. Dewey (R) of New York.

Marriage has become a companionship arrangement instead of the traditional inviolable institution. —Dr. Charles F. Johnson, president, Flak University. Under our Constitution, we cannot

cast that the U. S. was headed for a quick and disastrous depression. Thus they were giving the Russians an entirely false picture of our attitude, perhaps believing it themselves. Stalin has few sources giving him accurate data on the U. S.; they tell him what they think he would like to hear.

In view of this information, Mr. Marshall thought it necessary to warn the Kremlin (1) that the administration had the support of the vast majority of the American public and Congress; (2) that, even if this country should suffer from an economic setback, it still had industrial, agricultural and manpower resources enough to rearm, finance the Marshall Plan and carry on a "cold war."

entrance to the block of luxury flats where Charlotte lived. Miss Alice looked about her with wide eyes as they entered the thick-carpeted foyer and made their way to the lift. "Flats here must be very expensive, Helen."

"I suppose Charlotte makes a great deal of money. It's very bad for her, I consider. I don't approve of young girls living extravagantly."

Miss Alice sighed. She only hoped that once they reached the flat they'd find Patience there with Charlotte. "But neither girl, it seemed, was in. The trim maid who opened the door said she was sorry but Miss Patience wasn't at home. For Miss Patience Mond either."

"I'm their aunt," said Miss Helen, stepping firmly into the hall. "I'd like to wait until they return. Alice, come along in." The maid looked at them uncertainly.

"I'm not quite sure when they will be back, madam."

"Where have they gone?" "Er—er—they've gone away for the week-end."

"Where?" "Well, madam, Miss Carlotta doesn't tell me where she goes when she goes away."

By now Elizabeth was treading warily. She'd guessed immediately who were her unexpected visitors. Miss Carlotta had said they were a couple of old tartars.

She showed them into the drawing room and offered to make them tea.

"Thank you. We'd like some," said Miss Helen coldly.

Elizabeth closed the door, and was just crossing the hall as the front door bell rang.

"Telegram for Mond," said the telegraph boy.

She lay the telegram on the hall table and went into the kitchen to put on the kettle.

Charlotte, entering the flat some short while later, picked it up, and went straight on into the sitting room with it still unopened in her hand.

She stopped dead as her aunt rose from their chairs. "Heavens above!" she gasped. (To Be Continued)

"Not here today?" they echoed blankly.

Madame Girard looked from one to the other.

"Didn't you know?"

"WHY, no. We certainly understood she'd be here," said Miss Helen.

Miss Alice's heart trembled.

"Helen, dear, what can have happened?" she gasped.

Miss Helen pursed her lips.

"This, of course, is Charlotte's influence."

"Charlotte?" queried Madame Girard.

"Her twin sister, Patience has been staying with her this week-end. But she was naturally to have come to you as usual today."

Madame Girard smiled understandingly.

"Well, I shouldn't worry about her," she said soothingly. "I expect she is having—how shall we say it?—a little rattle. You know what young girls are. They like to have some fun. I remember when I was about her age—when I was in Paris—"

Madame Girard sighed reminiscently.

Miss Helen rose to her feet. She didn't want to hear what had happened to Madame Girard when she was a young girl in Paris. Paris, from all she'd heard, was a very wicked city.

She said good-by rather abruptly and left the Academy, walking quickly down the steps and out into the street, cold wrath in every line of her figure.

Miss Alice followed nervously behind her.

"We'll go straight to Charlotte's flat," announced Miss Helen. "Luckily I have the address here with me."

THEY took a taxi. A commissioner stepped smartly forward and opened the door for them as they drove up outside the main

The Innocent Impostor by Renee Shann

XXXII THE Oxford train drew into Paddington sharp on time. Miss Helen and Miss Alice stepped out onto the platform. Their suitcases were light and they could carry them easily. They had been deciding on their way to town just what they would do. It was barely 3 o'clock and their train to the country wasn't due till 6:30.

"The Stanton Academy first, we thought, didn't we, dear?" said Miss Alice.

"Yes, I've not seen Madame Girard since Patience started. I'll be glad to have a little chat with her, and to hear how she is getting on."

They took the train to Great Portland Street. Miss Helen remembered the Academy was just around the next turning to the left. They rang the bell. They gave their names. The message came back that Madame Girard would be delighted to see them.

Miss Alice let her sister do the talking. Helen, she thought, was always so much better at this sort of thing than she was. She always knew just the right sort of questions to ask. And Madame Girard seemed rather a formidable sort of woman. Still, she appeared to be very pleased with the way Patience was progressing.

"I really must tell you, Miss Melville," she was saying, "that I consider her one of my most painstaking pupils. She takes a real interest in her work."

"Patience certainly enjoys her days here, Madame Girard. I don't think she'd miss one of them for anything."

Madame Girard said she was glad to hear it. And certainly her attendance had hitherto been most regular. It was such a pity that she wasn't there today.

Miss Helen and Miss Alice started visibly. They sat forward in their chairs.

"But there's no room to park lengthwise!"

# The Stranger In the Home: Television

By HAL BOYLE

NEW YORK (AP)—A friend of mine whose father was one of the first men to buy an automobile has just bought a television set himself.

This pioneering purchase has brought him to the verge of bankruptcy. It developed that the chief expense in becoming a television addict isn't the initial cost. It's the upkeep of your friends who drop in to watch the set work.

"I've just become a shill for that darned machine," complained my friend. "I made the mistake of bragging I'd bought one, and the world began beating a path to my door.

"The neighbors next door, the neighbors upstairs, their friends, people I hadn't seen for years—they all started dropping in. They say they can only stay for a few minutes, but they stick in front of that television screen for hours.

"And all the time I have to run in and out fetching drinks and sandwiches. They've turned my home into a barroom and a restaurant—and I have to foot the bill."

Television promises either to fortify home life or drive a man out into the street forever.

Television is a powerful weapon for a hostess who wants to silence a boring guest. But it also threatens to end the small talk of people you really want to listen to. It may do even more than popcorn did to kill the art of conversation.

But as of now television is a wonderful way to catch up on your movies—some you haven't seen for years and years and years. I always said Ben Turpin and Mabel Normand had a future. Television is proving it.

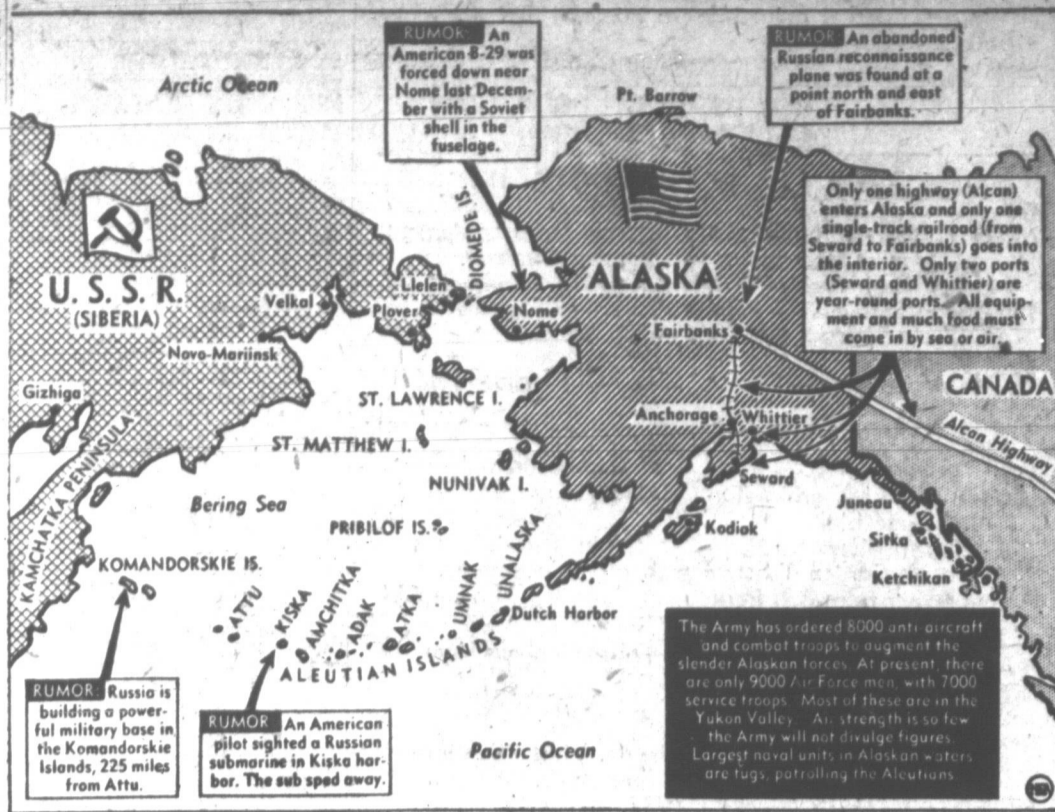

**TWO WORLDS**

My English class was reading from the Journals of Louisa May Alcott. We came to the section where Miss Alcott wrote, "I keep busy writing short stories which I hope to sell for \$5 or \$10 to keep the wolf from the door." I asked the boy reading, "What do you think Louisa Alcott meant by saying she was trying to keep the wolf from the door?"

"I suppose she just didn't want the guy bothering her," he replied promptly.

Reader's Digest

# Rumors Tell of Soviet Spying Near Alaska

Only two miles of rough water in the Bering Strait separates Russian territory (Big Diomedede) and American territory (Little Diomedede). Here, where the Soviet Union and the U. S. are close neighbors, rumors are being circulated that Soviet planes and subs are reconnoitering along Alaska's 19,000 miles of coastline. The Army has ordered reinforcements to Alaska, but far short of the "rimium defense" force recently urged on Congress by Chief of Staff Gen. Omar Bradley.

# Symington on Texas Tour

DALLAS (AP)—Secretary for Air W. Stuart Symington said last night that "planned Air Force can and will provide against sudden and stunning defeat."

The top man of the Air Force is to visit Austin and San Antonio today and go to Longview tomorrow. He spoke at a meeting here.

Symington said the Air Force was working on a plan to enlist industry's equipment and skilled instructors in the reserve program. He also announced the 45th Bomb Group at Hensley Field was being attached to the Strategic Air Command for training purposes. It has been under the Air Defense Command.

Symington said the 70-group force will not be an actuality before five years, pointing out that under the present plan only 1,500 planes will be delivered next year.

Symington revealed he had offered the post of assistant secretary of the Air Force to Robert J. Smith of Dallas, brigadier general in the Air Force reserve and president of Pioneer Air Lines. "Unfortunately Bob had spent so much time in the war that he couldn't arrange his personal affairs so that he could leave," Symington said.

# Meeting Will Be Held at 8 P. M.

The regular quarterly meeting of the Panhandle Chapter of A.P.I. will be held tonight, beginning at 8, at the Palm Room here. A number of papers are to be read concerning problems of the

# Speech Clinic Is Set for Children

DENTON — A boarding clinic for children with speech defects will be held in two sessions at Texas State College for Women this summer. Dr. Amy Allen, TSCW associate professor of speech and director of the clinic, has announced.

The clinic, the only one of its kind in the South and one of the few in the nation, will be held June 7 to July 10, and July 19 to August 21 for children of all ages.

# Father, Daughters Make Housing Team

MEMPHIS, Tenn. (AP)—Two sisters and their 80-year-old father are busy building houses here in the \$14,000 class.

Mrs. Evelyn Jehl gets up early in the morning to order cement. Her sister, Caroline Meadows, pays off the carpenters, plumbers and painters in the family kitchen. And their father, J. B. Meadows, handles the other angles.

The trio teamed up before the war in construction business but quit. Now they've started again. They already have completed two homes, three are nearly finished and five are in the planning stage.

# 18 Sips 'Twix Tee and the Cup

COURSES came to be limited to 18 holes is explained in this story room:

"Back in 1858, the board of historic St. Andrews had been pondering the weighty question of how many holes a golf course should have. A local player came forth and announced that he had arrived at a solution based on the inclemency of local climate and the contents of a bottle of Scotch whiskey.

"I've been playing each day as many holes as there were sips in the bottle," he explained, "when the bottle is empty I quit as it would be unhealthy to continue. The bottle contains exactly 18 sips."

# Syracuse's Hurry Has to Shake a Leg

SYRACUSE (NEA)—Don Hurry is aptly named on certain afternoons this spring. For example, the Syracuse athlete put the shot in the opening event of a dual track meet at Colgate, hopped in his car, drove 39 miles to Syracuse, where he pulled the No. 9 gear in the Orange junior varsity crew against MIT and Rutgers.

# Double on Grid

COLUMBIA, S. C. (AP)—Three of the University of South Carolina's top pitchers are top football players too. Quarterback Harold Hagan of Savannah, Ga., Fullback Charlie Long of Charlotte, N. C., and Halfback John Szakasi of Airport, O., all handle mound duties for the diamond crew.

# Wildcat Brothers

VILLANOVA, Pa. (AP)—Two brother combinations are coming up from Villanova's freshman grid squad to seek varsity posts this fall. Ends Mike and Jack Bogan are from Philadelphia. Ray and Rudy Mantone, of Phillipsburg, N. J., are guard and tackle candidates, respectively.
