Pampa Soaked 2.55 Inches During Night

Blinding rain which accompanied an electrical storm last night accounted for 2.55 inches of rain, according to the Daily News rain gauge.

Other points in the city recorded up to three inches of rain. The electrical storm caused numerous power failures in rural areas, but did little damage in Pampa, a Southwest Public Service official said.

"We had quite a bit of trouble in the rural and oil field districts," Marvin Cooper told the Daily News, "but we didn't have any trouble to speak of here."

Lightning struck a motorcycle owned by Sam Green, 433 Graham, shortly after 11 p.m. and ignited gasoline in the tank. Firemen were called to the scene. The motorcycle suffered only light damage.

Highway Patrol Sgt. E. G. Albers said no wrecks were reported on the highways in this area during the storm.

"There were no highways under water that we know of either," Albers said.

In Pampa, neither the Hobart, Cuyler of Barnes street underpasses were waterlogged.

The heaviest concentration of water appeared to be at the intersection of N. Cuyler and Brown streets but no flooded automobiles or accidents were reported to the police.

A tourist checking in at the Coronado Inn about 1 a.m. reported that he saw a funnel-type cloud touch the ground northwest of the motel.

But policemen Bill Robinson and Charlie Matson, who were dispatched to the scene, failed to find any evidence of wind damage. They said the funnel-shaped object probably was either smoke from an industrial site or a small segment of cloud which had broken off from the overcast sky.

A check of the weather bureau at Amarillo also failed to turn up any unusual wind activity in this area.

Weather Bureau authorities said the rain belt was accompanied by hail in some sections of the eastern Texas Panhandle, Red River Valley and North Texas. It was said to cover an area from Abilene on the east to Greenville on the west, but did not cover much off the western Panhandle.

Hail accompanied the rain at Perryton and Borger, but did no damage. Perryton received 2.45 inches of moisture while Canadian recorded 1.90 and Clarendon got 1.10 inches.

A cool front followed the rain and dropped temperatures into the 60s over most of the Panhandle.

Fires Reported

Pampa firemen were called to extinguish a grass fire five miles north of Pampa on Highway 70 yesterday.

The department received the report at 2:30 p.m. Minor damage to a fence and a half-acre of pasture land, owned by Bill Fraser, was reported.

Firemen also extinguished a small fire in a 1956 Chevrolet pickup truck owned by the Rich Garage, 828 S. Hobart. There was no damage.

Admitted Butcher Quizzed About Widespread Crimes

BOONVILLE, Ind. (UPI) — A sex-fiend who butchered an 11-year-old girl and tossed her dismembered body into the Ohio River was questioned today about other unsolved sex crimes around the country.

Emmett O. Hashfield, a tattooed toymaker with a record of rape and perversion dating back 33 years, calmly sat in his cell at the Warrick County Jail while an angry crowd of townfolk milled about outside.

Sheriff Robert Shelton questioned Hashfield at the request of Chicago Detective Chief James

McMahon to see if the 53-year-old former blacksmith had anything to do with recent Chicago area sex crimes.

Shelton said he expected similar requests from other police officials today.

Hashfield, kept barefoot and without a belt in his jail cell to prevent possible suicide, admitted Wednesday he abducted Avril (Honey) Terry, daughter of a prominent Boonville doctor, and tossed her mutilated and butchered body into the Ohio River.

The crime stunned this southern Indiana coal mining town of 5,500. The shock soon gave way to anger and a menacing crowd gathered around the county jail Wednesday night, yelling, "Bring him out...lynch him."

HOIST THE SAIL, MATES — Motorists crossing the intersection of S. Cuyler and Brown streets during the rainstorm last night were cautious. Water was running curb deep. The car pictured above had just crossed S. Cuyler and was heading on Brown. (Daily News Photo)

U.N. Soldiers Beaten

By GEORGE SIBERA
United Press International

LEOPOLDVILLE, The Congo (UPI)—Native Congolese troops disarmed three Canadian soldiers of the United Nations emergency forces and beat them with rifle butts at nearby Djilli Airport today.

The three men were taken to hospitals but were not reported in serious condition. They were identified as Capt. J. C. A. Taschereau of Quebec, Cpl. R. T. Conroy of Kingston and signalman Andre Mathieu of Montreal, all with the 57th Canadian Signals Squadron.

The men were forced to lie on the ground after they were dis-

armed, then were beaten. Taschereau was reported to have suffered a concussion.

The Congolese were inspecting luggage and identity cards in a search for "Belgian spies" and disguised paratroopers when they overheard some of the Canadians speaking French. This apparently misled the Congolese into believing they were French-speaking Belgians.

The Canadians were boarding a plane to take their unit to Coquilhatville in Equatorial Province and Luluabourg in Kasai, where they were to set up U. N. communications.

The United Nations command immediately sent reinforcements

to the airfield, commanded by Indian Gen. I. Rikhiye, U.N. Secretary-General Dag Hammarskjold's military adviser.

Meanwhile, a Congolese delegation flew toward New York aboard a Soviet airliner to warn the U.N. Security Council against turning the Congo into a "second Korea."

The Canadians were forced to lie down after being disarmed, and then were beaten. The Congolese had been closely checking identity papers and luggage at the airfield, looking for spies and disguised Belgian paratroopers.

The Canadian officers were

Nixon Tells Democratic South GOP Platform Is Closer To Their Beliefs

By WARREN DUFFEE
United Press International

GREENSBORO, N.C. (UPI) — Vice President Richard M. Nixon Wednesday night invited the Democratic South to vote Republican this year because "our platform is closer to the principles of Jefferson and Jackson and Wilson" but said he would not

soften his own "strong convictions" on civil rights.

In a bold bid for Dixie backing in his first invasion of normally-Democratic Southern territory, Nixon told a news conference and declared in a speech that he was standing on the GOP civil rights platform plank. And he indirectly accused the Demo-

crats of "demagoguery in this field."

Nixon urged a huge audience that jammed Greensboro's big new Coliseum to the rafters to "make your determination not on the basis of party label" but on which candidate could provide the nation with the ablest leadership in troubled international times.

However, he said, "our platform is closer to the principles of Jefferson and Jackson and Wilson than theirs" (the Democrats) and therefore "millions of Democrats will vote for our party not because they have left their party but because their party has left them."

Nixon did not duck the civil rights issue, either in his press conference or his speech. And he drew applause from the big Coliseum audience, apparently predominantly Republican, when he said "Law alone is not the answer to the problem of human rights."

Republicans To Invite Goldwater To Pampa

An effort to bring Sen. Barry Goldwater (R - Ariz.) to Pampa to speak during the Gray County campaign drive will be made by county Republican leaders, Clayton

Husted, Gray County GOP chairman, said today.

This decision was made during an organizational meeting last night in Husted's home, 1700 Evergreen, when plans were made to conduct a strong drive for Richard Nixon, GOP presidential nominee, and John G. Tower, the 35-year-old senatorial candidate who will oppose Lyndon Johnson in November.

Two committees were appointed: A finance committee, composed of Warren C. Fatheree, Creel Grady, Joe Cree and Mrs. Donald Conley and Mrs. D. D. Payne. A headquarters operational unit will be headed by Mrs. Fatheree, who will select her aides later.

Mr. and Mrs. George N. McDaniel of Borger were among those present. Mrs. McDaniel is committeewoman for the 31st Senatorial District.

Others attending were: D. D. Payne, Mr. and Mrs. Dave Smith, Ginny Beard, Al Smith, Odel Strickland, John Watson and Bob Barrett.

If it comes from a hardware store we have it. Lewis Hdwe. Adv.

Police Release Indiana Man

The police released a Lincoln City, Ind., man yesterday after they learned he was not wanted by authorities of the Evansville, Ind., State Hospital.

The man, Richard Lee Coffey, 21, was arrested Tuesday when he told officers he was absent without leave from the hospital.

Police Chief Jim Conner said today that his office had learned from hospital officials that Coffey had officially been dismissed.

The Indiana authorities said Coffey had been a patient at the hospital, but had gone home on a 30-day leave. It was during this leave of absence that Coffey was dismissed.

Superiors Blamed In Testimony By Powers

Trial May Wind Up By Friday

By HENRY SHAPIRO
United Press International

MOSCOW (UPI) — Francis G. Powers fought for his life today with a disavowal of his U-2 flight as a "bad service" to his country and an emotional assertion that he could not kill anyone even in self defense.

The 31-year-old pilot told the three military judges hearing the espionage trial in which he has pleaded guilty that the people who sent him over the Soviet Union should have thought of the consequences.

Friday is expected to be the last day of the trial. The prosecution and defense are expected to make their summation speeches. Then Powers will have the right to make a final speech to the court.

The seemingly naive Virginian clearly was trying to avoid a Communist death sentence. If the trial ends Friday, the three-judge court is expected to postpone the verdict and possible sentence until Saturday.

Powers told the packed courtroom he never even thought of the date of his May 1 flight, let alone that it might wreck the Paris summit conference or even lead to military conflict.

"Do you think now you did your country a good or bad service?" asked Chief Judge Viktor Borisoglebsky.

"I would say very bad," Powers replied.

"Did it occur to you that a flight might provoke military conflict?"

"The people who sent me should have thought of that."

The prosecution had called another technical expert, Lt. Col. K. L. Voroshilov, at the afternoon session when Powers made his dramatic plea of pacifism.

Voroshilov identified a pistol equipped with a silencer as part of the gear found in Powers' high altitude plane when it was downed over Siberia.

Powers had been advised he could question the statement of

(See SUPERIORS, Page 4)

COURTROOM — This is the courtroom in "Hall of Columns" in Moscow where American U-2 pilot Francis G. Powers is on trial on espionage charges. Powers is in dock at right.

Venezuela, Dominican R. Issue At OAS Meeting

By HENRY RAYMONT
United Press International

SAN JOSE, Costa Rica (UPI)—Battle lines were drawn today in Venezuela's long-standing dispute with the Dominican Republic.

First topic taken up by the Western-Hemisphere foreign ministers' conference here.

Secretary of State Christian A. Herter prepared to express U.S. views on the controversy at today's session of the conference.

Venezuela's Ignacio L. Arcaya formally charged Wednesday night that the Dominicans were implicated in a misdirected leaflet raid early this year, in April's abortive revolt in Venezuela and in the June attempt to assassinate President Romulo Betancourt.

The Dominican Republic's Porfirio Herrera Baez denied the charges, saying Venezuela was using his country as a "foreign scapegoat" to distract attention from its own "deep-seated political and social problems."

Argentina's Diogenes Taboada, Mexico's Manuel Tello and Honduras' Andres Alvarado Puerto sided with Venezuela in the debate.

Their indorsement of Arcaya's charges was taken as a sign that their governments would support the Venezuelan demand for the imposition of every diplomatic and economic sanction short of armed attack on the Dominican Republic.

The Venezuelan demand for sanctions invoked the 13-year-old Rio defense pact, marking the first time it has been called into effect.

A U.S.-Colombian compromise proposal would call on Western-Hemisphere nations to consider sanctions against the Dominican Republic and at the same time create a "watchdog committee" to guard against further Dominican interventions in the affairs of other Latin American nations.

The compromise proposal was designed to forestall a possible Communist seizure of power in the Dominican Republic.

Hammar skjold Asks U.N. Confidence Vote

By HENRY RAYMONT
United Press International

UNITED NATIONS, N.Y. (UPI)—Secretary General Dag Hammarskjold will ask the Security Council this Saturday for a show of confidence in his dispute with Congolese Premier Patrice Lumumba, informed sources said today.

A delegation representing Lumumba was due to arrive from Leopoldville late today to challenge Hammarskjold's refusal to use the U.N. force in the Congo to restore secession-minded Katanga Province to the central government.

The Congolese premier has seriously questioned Hammar-

skjold's good faith, because of this refusal. He warned Wednesday he would send his own troops into Katanga unless "neutral observers" were dispatched there immediately by the United Nations.

Lumumba's position was backed by Soviet Deputy Foreign Minister Vasily V. Kuznetsov who conferred with Hammarskjold privately for 70 minutes Wednesday. Details of the talk were kept secret and it was not known whether the Russian would carry his objections into the Security Council session.

Hammarskjold originally had planned the council meeting for Friday. But the sources said various African delegation leaders persuaded him in a two-hour conference Wednesday night to make the one-day postponement.

The Africans wanted to afford a chance for Ghana to try to mediate a settlement between Lumumba and Katanga President Moise Tshombe that would obviate the need for any decision on the disposition of U.N. forces.

The compromise proposal was designed to forestall a possible Communist seizure of power in the Dominican Republic.

LONG JUMPER — Capt. Joseph Kittinger lies on the desert floor near Alamogordo, N.M., and cast a one-eyed look at the sky after landing from a record-breaking jump of 103,000 feet. Kittinger jumped from a gondola attached to a balloon. He free-fell for 17 miles and reached a speed of about 450 miles per hour before he opened his parachute.

Dems Rush To Aid Kennedy Over Student 'Airlift' Attack

WASHINGTON (UPI) — Sen. John F. Kennedy found strong support today from fellow Democrats in defending himself against the sharpest Senate attack of his presidential campaign.

Before hushed galleries, Kennedy Wednesday night denounced charges by Sen. Hugh Scott, R-Pa., as "the most unfair, distorted, malignant attack" made on him during his 14 years in politics.

Scott, a former GOP national chairman, touched off the bitter episode when he asked Kennedy whether his family was trying to "outbid" the U.S. government by providing funds to airlift African students to the United States.

The dispute involved the question of whether the Joseph P. Kennedy Foundation, set up in memory of the senator's late brother, had moved in ahead of the State Department to put up

\$100,000 for the student airlift. Scott said any such move would be "an apparent misuse of tax exempt foundation money for blatant political purposes."

Democrats quickly rushed to Kennedy's defense.

Sen. Eugene J. McCarthy, D-Minn., compared Scott's statements with the Communists-in-the-State-Department charges made by the late Sen. Joseph R. McCarthy, R-Wis.

He said Scott had "cast a cloud over the operation of every foundation in America."

Assistant Senate Democratic Leader Mike Mansfield, Mont., said, "there is a limit to which politics should go. I would hope (See RUSH, Page 4)

IT'S THE LAW
in Texas

EDITOR'S NOTE — This feature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.

Before a contract arises someone must make an offer and another must accept it. Without an offer, no acceptance; with no acceptance, no agreement. But there is often a time within which you can accept the offer. And if not, the offer ends within a "reasonable time" which is determined by circumstances and the parties' intentions. Smith had a set of books which was unreasonable.

Brown wanted. Brown wrote and offered him \$200 for the set. Smith didn't answer for six months and, meantime, Brown got a letter from Smith saying, "I accept your offer of \$200 for the set of books." Brown told Smith he'd bought the books elsewhere, but Smith still claimed that his belated "acceptance" had sealed the contract with Brown. Was there a contract? No, the offer had lapsed because it had not been accepted in the circumstances within a reasonable time. There are many ways to end an offer. You may withdraw it, you may say that the offer expires at a given time, you may die or the other party may turn it down directly or by making a counter offer. Here Smith had failed to accept Brown's offer within a reasonable time, which ended it just as though it had been withdrawn. What is a reasonable time? It varies. The offer could expire in a few minutes in the stock market or last for quite a while, depending upon what a court would think is a reasonable time. But in Smith's case six months

NOISE STOPPERS: Two methods to quiet hanging pipes are shown above. First, and simplest, is to brace pipe at the elbow (a) with solid piece of lumber. More sophisticated technique is to install a shock absorber just before the elbow (b). Pipe about two feet long holds air which cushions sudden impulse of water.

Pollution Knowledge Is Ample But Prevention Efforts Lagging

A FACTORY or two in the right place can make a city smog-bound.

NEW YORK (NEA) — Chalk up another big victory for man against himself.

A spot check indicates that the grim problem of air pollution is up another notch in the U.S. — needlessly killing us, shortening our lives, making us miserable, wasting our property.

According to experts in the field: The deadly jeopardy of air pollution has been proven beyond doubt, and the sources of the poisons (smoke stacks and exhaust systems) have been identified.

For the most part, cleaning at the source has been solved by laboratory science and can be carried out in practice by engineers. In the past 10 years, big industry has learned the saving and need for scrubbing its airborne wastes. Health authorities have isolated the hazards in air pollutants and economists have pinpointed the actual dollar costs in the dirty air.

But where do we stand today? A just-completed study of the situation by Consumer Reports puts the danger at "near crisis levels in some areas."

A spokesman at the American Society of Mechanical Engineers, which tracks the problem through its committee on Air Pollution Controls, says the situation seems to be getting worse although we are learning more about it.

A gas-waste scrubbing expert at the Chemical Construction Corp. cites nationwide factory, housing development and automobile statistics — how many tons of soot, rust, fat, sulphur, lead, carbon, etc. are being pumped into the air daily, where and why.

Biggest users of the nation's — and the world's — air for sewage disposal are big and small industry, incinerators, heating systems, power producers and all types of mechanical vehicles.

Cost to you, a side from deterioration of your health, is estimated by observers between 25 and 200 dollars per year in damage to clothes, home, furnishings, additional need for power and light, lost crops and livestock, etc.

Loss to the air polluter? The experts say that most of the waste pumped into the air is the result of incomplete or poor burning in the incinerator hearth, engine, etc. One type of steel mill can pump 60 to 70 tons of waste out of its smoke stack per day. Listen to Howard Willett, director of the gas scrubbing division of Chemico which holds a patent on one of the widest-used air cleaners.

"We put a scrubber into a metal plant recently. It was an expensive job. But the owner made back the cost in eight months by use of

ACCUSES RED CHINA
BELGRADE (UPI) — Yugoslavian Vice President Edvard Kardelj, in a book published Tuesday, accused Communist China of "shattering, crudely and openly" the unity of world Communism. Kardelj said the Peiping regime has "decided to take various international political actions which were unanimously opposed" by its Communist allies and was thereby delaying the end of the economic and political isolation imposed on it by the West.

TRY A CLASSIFIED AD?

recovered lead, tin and antimony. Now, he's been in business for 40 years — and that's millions of dollars that have gone up in smoke through his stack."

Why isn't the situation getting better instead worse?

Most experts agree on one big reason — citizen fear. Fear that pressure on industry to clean up will succeed only in making industry move out. Fear that effective controls will cost too much. Fear that the problem is too big to solve.

But, says one air-cleaner salesman: "My first-hand experience

is that industry is ready to clean up but probably won't move without citizen pressure."

And, says a consensus of studies on costs, policing the situation will amount to about a dollar per year per American — cheap at 10 times the price, compared to the cost of no controls.

And, says the Consumer Reports study, the job is big and often impossible for one city or locality to do effectively anyway. But with regions awakened to the need and working together, "control measures are technically available and, in all probability, economically feasible."

Six Ochiltree County 4-H Members To Attend Junior Leader School

Six Ochiltree County 4-H members will attend the Texas 4-H Junior Leadership Training Laboratory at Bastrop State Park Aug. 15-20, as representatives of Agricultural Extension District 1, it announced by Extension Service District Agents W. W. Grisham Jr. and Edith Lois Wilson.

The winners, selected on the basis of their outstanding 4-H leadership records are Vera Grace Hardy, Joyce Anne Matthews, Linda Kay Rogers, Joe D. Newman, Don Savage and Glyn Doyle Sell.

The leadership lab, one of the nation's outstanding youth training activities, is directed by Extension Service personnel. It is sponsored by United Gas in cooperation with the Texas Agricultural Extension Service.

Vera Grace Hardy, 15, daughter of Mr. and Mrs. Paul Hardy, has been in 4-H work for five years, having served as president, vice president and reporter for her local club. Vera has won numerous honors with her projects, including blue ribbons in dress revues and baking shows. She is in the ninth grade at Perryton High School and is a member of the Jollette 4-H Club. Mrs. Frank Gipson is the adult leader of the club.

Joyce Anne Matthews, 15, daughter of Mr. and Mrs. Ellis Matthews, is in the 12th grade at Perryton High School. She has been active in 4-H work for the past seven years. She has held several offices including council secretary, county delegate to the 1960 district council, and president and secretary of her local club. Joyce was a gold star winner in 1957 and county dress revue winner in 1959.

Linda Kay Rogers, 14, is in the 10th grade at Perryton High School and is a member of the Waka Community 4-H Club. She is the daughter of Mr. and Mrs. Frank Rogers of Waka. During the five years she has been a

4-H Club member, Linda has served as secretary-treasurer of the county council, county council delegate and president of her local club. She was chosen to attend district camp in 1958 and has won various other honors for her cooking and clothing efforts. Linda is active in other affairs at school and church. Mr. and Mrs. Emmitt Drake are the adult leaders of her club.

Joe D. Newman is 16 years old and in the 10th grade at Perryton High School. He is the son of Mr. and Mrs. Daniel A. Newman. Joe has served as a delegate and vice-chairman of the district council, president of the county council, and president and secretary of his local 4-H work for six years and has won several top honors with his exhibits. The adult leader is Mrs. Percy Bower.

Don Savage, 15, son of Mr. and Mrs. Fay Savage, has been active in 4-H work for seven years and has served as president, vice president and council delegate of his local club. Don's exhibits have won several honors for him during his 4-H work. His Angus steer was the Reserve Champion at the Top O' Texas Junior Livestock show in Pampa this year. In addition to 4-H activities, Don is a member of the football team. The adult leader of the local club is Norman Swink.

Glyn Doyle Sell, 17, son of Mr. and Mrs. Donald Sell, is in the 11th grade at Perryton High School and has been active in 4-H work for six years. He has served as district delegate to the district council, county council vice president and vice president of his local club, and is currently finance chairman of the local council. Glyn has received numerous honors and awards for his projects including the Grand Champion steer at Dallas in 1959. He is a member of the State Hereford Association. Adult leader is Donald Sell.

EAST AND WEST COMPARED—Present military strength of the United States and her allies is compared with that of Soviet Russia and the Communist nations. Soviet armed forces figure of 4.6 million is the total generally accepted in the West, although Premier Khrushchev has placed it at one million less. Chart is based on data prepared by Central Intelligence Agency.

Okay, Girls—Scream!

Men, Women Clearly Differ While Working

NEW YORK (NEA) — Only not being allowed to work to three jobs in the U.S. today remain in the "men only" department — locomotive fireman, locomotive engineer and firefighter. American women can be found in the remaining 448 job categories listed by the U. S. census. Moreover, one out of every three workers in the nation today is a woman.

But what do we really know about the characteristics of this gigantic force and its special requirements on the job?

Practically nothing, the experts say. But we'd better start finding out if we're interested in more productivity, fewer accidents, lower absenteeism.

The standard reference work on the subject, the National Manpower Council's study of womanpower made about five years ago, states among its major findings the "overwhelming" lack of reliable knowledge on the matter.

Although only fragmentary items and statistics have been gathered since then, employment analysts can point to some clear differences between male and female on the job. For example:

A new study of average absenteeism rates for 133 New York companies shows that women are out of work almost twice as often as men.

Tentative explanation by the experts: women, in part, are more susceptible to illness. They have more pressing family problems, a lesser degree of job loyalty and sense of responsibility to the company than men.

A Midwestern insurance company reports its four-hour night shift of working mothers has far lower absenteeism, lateness and turnover than the day shift. No reasons given, but night shift policy of dress-as-you-please (including slacks, shorts and hair curlers) seems to have something to do with it. So, apparently, does free coffee and rolls for munching at the desk.

A titanic company, whose men employes work in traffic or near dangerous equipment, and whose women work inside at sedentary jobs, found the ladies accounted for three times more time-lost accidents than the men, regardless of an over-all, vast safety campaign.

A special, intensive safety program aimed only at the women took several years to get both sexes on an equal, surer footing. And so it runs. Personnel analyst Albert Lasher goes so far as to say:

"Despite protests from women, they appear to respond differently from men in reaction to everything on the job from discipline to pay increases."

In part, of course, the difference lies in treatment the women get on the job.

James T. O'Connell, U.S. Undersecretary of Labor, explains the widespread term "second choice selections of workers" as the older, the very young, the handicapped, the minority, "and — of special significance — the woman worker."

A recent study of male executives in the face of a severe shortage of engineers indicates 81 per cent would not hire female engineers. The other 19 per cent would refuse to let the women advance to middle-management levels.

Regardless of the success of women supervisors in retailing and telephone utilities, indications are that the belief of keeping women in lower status jobs persists widely through business and industry.

Asks one employment chief: "Doesn't this treatment lead to another difference for women — resentment, hostility, frustration

their full capability?" But by and large, the experts all agree that the profile of the woman worker is still only a silhouette. It's going to take considerable light — not yet turned on — to explain the broadly conflicting descriptions and reports of the situation.

Why, for example, do women's rest rooms need so much more attention than the men's?

Dean Family Reunion Stated Septembred 3-4

One of the largest family reunions in Texas will be held Saturday and Sunday, Sept. 3-4, when some 300 descendants of John and Nancy Mathis Dean will gather at Fairlie, Hunt County, for the annual gathering.

And in the large group will be at least five local residents, Mr. and Mrs. James Dean Webb, 1722 Aspen Dr., and their three children, Pamela, Jack and Lonnie. Mr. Dean is a great-great-grandson of the Deans who came to Texas in the early 1800s from Alabama and South Carolina.

Also descended is the Hudgins family of White Deer. But Mrs. Marguerite Hudgins, a sister of Mr. Dean, has not decided if she and children, Pat and Michael Lynn, will be able to make it.

Mrs. Dean said, "This will be our first. We think it will be a lot of fun."

The site of the affair once was a prosperous frontier town. However, today it is hard to locate on maps. But that is where the first Deans of the clan lived, thus the location was chosen.

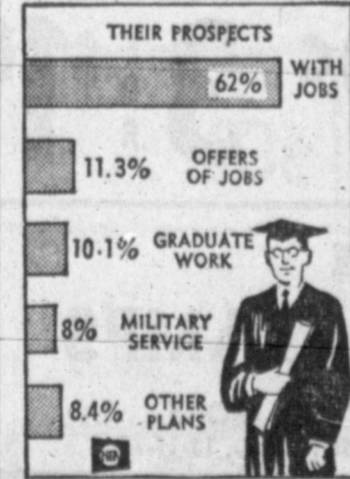

Spread throughout the nation and many parts of the world the descendants now total 625 — 48 great-grandchildren, 203 great-great-grandchildren, 277 great-great-great-grandchildren, and 97 grandchildren four times removed.

The only living grandchild of John and Nancy Dean is Mrs. John Seymore Dean of Plano, now residing at 1000 - A Montrose St., Amarillo. But at 85 years of age, she plans to attend.

Mrs. Dean's niece, Mrs. Mary Ann Fuller of Commerce, who is six months older than her aunt, will receive a prize as the oldest living descendant.

Mrs. Dean, too, will be awarded for being the only living member of the third generation of John and Nancy Dean's family.

Engineering Grads In Great Demand

PLENTY OF JOBS—Virtually all of this year's engineering graduates are assured of jobs. Demand continues highest for chemical engineers, as during the past three years. Graduates in business, commerce and the arts are about 10 per cent below engineers in definite commitments. Source: Engineering Manpower Commission Bulletin.

Reversing Drink Order Of Hot Day

When friends or neighbors drop by for a visit in this hot weather, something long and cool and refreshing to drink is the order of the day. Here's a drink with a deliciously different flavor that meets all the requirements. It's called Dutch Broadway Brandy Drink.

An adult version of an ice cream and milk cooler, it gets its special flavor from a fillop of brandy extract. The rest of the ingredients are simple, just milk, vanilla ice cream and instant Dutch chocolate flavored mix. This new mix is made with imported Dutch cocoa, which gives it an extra rich chocolate taste. It blends with hot of cold milk instantly.

The easy way to make it, of course is in the electric blender. For the children in the group, whip up a batch without the brandy extract. Here's how:

DUTCH BROADWAY BRANDY DRINK

(Makes 1 serving)
3 tablespoons Borden's Instant Dutch Chocolate Flavored Mix
1/2 cup milk
1 cup vanilla ice cream
1/4 teaspoon brandy extract
Combine ingredients in electric blender for 1 minute. Serve immediately, topped with whipped cream if desired.

Dipping. For a flavor variation use one 7-ounce can tuna in place of the deviled ham.

Spear cubes of luncheon meat, pineapple, and whole stuffed olives on cocktail picks. Use large grapefruit or eggplant as holder. Serve with assorted snack crackers.

Whether served with a special sauce or just a bit of mustard or catsup, Mom approves of the children's choice of franks. She knows that the complete meat protein is important to the health and well-being of her family. She makes it a point to purchase franks that carry a well known brand

Franks Eternally Lead In Food Popularity Poll

name as assurance of highest quality meat and the flavor that kids love.

The home economists in the Martha Logan Kitchens suggest combining mustard, pickle relish and onion with celery seed and butter or margarine. This makes a tasty stuffing to tuck in a slit made in the side of each frank. The relish butter may be carried to the picnic site in a covered jar or plastic dish.

FRANKS STUFFED WITH RELISH BUTTER
Yield: 1/4 cup of filling, 10 sandwiches
1 pound franks

Your Cream Potato Salad Welcome Change From Usual Dicing, Slicing

When the hot weather chef dish that's cool, easy to prepare and appeals to everybody in the family. Such a dish is Sour Cream Potato Salad. It takes about ten minutes to make and requires no dicing or slicing of potatoes, a welcome change from the old style.

This new style of potato salad is made with a base of instant diced potato flakes, a recent development by the Borden Co. These tiny "flavor flakes" are deliciously different from the old-fashioned potato salad. In this sour cream recipe, bits of bacon and green pepper provide flavor and eye appeal.

Cream Salad is a tasty accompaniment to cold cuts, frankfurters or hamburger patties.

Potatoes are one of the most popular vegetables on the table—most families have them at least once a week. To save time and energy, especially during warm summer months, homemakers have turned enthusiastically to the instant variety that cuts out the chore of scrubbing, peeling, boiling and dicing.

Use the highest grade white potato flakes, instant whip potato flakes come in two sizes: a five and a half ounce package that contains two measured foil envelopes, each envelope containing four servings, a 16-serving economy package which contains loose flakes so the homemaker can prepare where from one to sixteen servings at a time.

OUR CREAM POTATO SALAD
(Makes 4 servings)

1 1/2 cups water
1/2 teaspoon salt
1/2 cup cold milk
1 tablespoon butter
1 envelope Borden's Instant Whipped Potato Flakes
8 strips bacon
1 cup light sour cream
1/4 cup finely chopped green pepper
1 teaspoon parsley flakes
Combine water and salt in medium-size saucepan; cover; bring to boil. Remove from heat. Add milk and butter immediately, then Borden's Instant Whipped Potato Flakes. Stir gently with fork or wire whip until liquid is absorbed. Whip briskly. Cook bacon until crisp; drain well on absorbent paper. Crumble bacon into potatoes; mix in sour cream, green pepper, and parsley flakes. Chill well before serving.

Hungry Guests Wait Patiently With Tasty Dips

While the roast beef turns on the rotisserie, keep hungry guests happy with a selection of appetizers served in the coolest corner of the porch:

BARBECUE DIP
Mix one 6-ounce can tomato paste, one 2 1/4-ounce can deviled ham, 1/2 teaspoon cayenne pepper (or to taste), 1/2 cup chopped celery, 1 small onion, chopped and 1/2 teaspoon salt. Chill thoroughly and serve with snack crackers for

higher.

Brunch On the Lawn Easy Way to Serve Summertime Weekend Guests

What could be a better way to spend a lazy summer morning than by having brunch on the lawn in buffet style... the easy way to serve weekend guests.

GINGER GLAZED HAM

Have the butcher slice a large canned ham in thin slices and tie with cord to hold shape. Mix 1/2 cup grapefruit juice, 1/2 cup honey, 1/2 cup brown sugar, 1 clove garlic, crushed, 2 tablespoons red wine vinegar and 30 old fashion ginger-snaps, crushed (about 2 cups crumbs). Bring to a boil and cook 5 minutes, stirring constantly. Spoon over ham. Bake in moderate oven (350 degree F.) one hour. To serve, remove cord.

HOT POTATO SALAD

Slice 6 hot boiled potatoes, mince 6 slices crisply cooked bacon, add 1/2 cup chopped green pepper, 1/2 cup chopped onion and 1 teaspoon salt. Combine 1/4 cup water, 1/2 cup vinegar, 1/2 teaspoon sugar, 1/2 tea-

spoon salt, 1/2 teaspoon paprika; heat to boiling point. Pour over potato mixture. Add 1 cup crushed vegetable thins crumbs, serve at once. Makes 6 servings.

ASPARAGUS ON CHEESE WAFFLES

Heat waffle iron. Sift together 1 cup sifted flour, 2 teaspoons baking powder, 1 teaspoon baking soda. Beat well 2 eggs, add 2 cups buttermilk. Combine 1 cup finely rolled ritz cheese crackers crumbs with flour mixture, add to eggs and milk. Beat until smooth, stir in 6 tablespoons melted butter or margarine. Bake in waffle iron. Makes 6 round waffles. Top each waffle with cooked asparagus spears and sauce. To prepare sauce, combine in saucepan 2 cans cream-of chicken soup, undiluted, 1/2 cup salad dressing and 1 teaspoon minced onion. Heat. Garnish with strips of Dromedary Pimiento.

Open Kitchen To Friendly Alpine Dishes The Next Time You Are Party Hostess

Cheese and chafing dishes unite in as blissful a marriage as you could hope to find. They seem to be "made for each other" . . . one complements the other so well!

The chafing or warming dish has always been a symbol of good food and fellowship. Cheeses from mild Camembert to robust Provolone have meant zesty eating and living. So, let your chafing dish brim with creamy rich cheese sauce be your mark of gracious entertaining and hospitality.

At your next party, open your doors to friendly Alpine cookery. Feature Swiss Fondue, the national dish of that tiny but rugged country whose name it bears. Into a chafing dish or large serving bowl of Fondue, guests dunk bite-size pieces of crusty French bread or hard crust rolls speared on forks. According to legend, the guest who loses his bread must kiss the girls or pay for a bottle of white wine. And this being leap year, what young lady would be satisfied with a bottle of wine!

Dunking the bread with a stirring motion, keeps the Fondue smooth for each guest. The crust that forms at the bottom of the dish is a real delicacy to be eaten with a fork.

In this Fondue, cornstarch thickens, nutmeg spices and tangy buttermilk blends with sweet and nut-like Swiss cheese. Lovers of the traditional Fondue will be delighted with the special flavor and goodness added by buttermilk.

When the cheese has been thoroughly melted, reduce the heating flame to prevent the cheese from thickening but keep the Fondue hot! Owners of chafing dishes having water pans will find them especially useful in cheese cookery. These pans regulate the temperature of the food and help to keep cheese sauces smooth and well blended. If a chafing dish is not available, the Fondue may be transferred from a saucepan to a casserole dish and kept hot over a warmer. An asbestos pad might be used to lower the heat.

SWISS FONDUE

6 servings

1 pound Swiss cheese, shredded
3 tablespoons cornstarch
1/2 teaspoon salt
1/4 teaspoon white pepper
1/4 teaspoon freshly grated nutmeg
2 cups buttermilk
1 clove garlic
1 loaf French bread

Toss Swiss cheese with cornstarch, salt, white pepper and nutmeg. In a saucepan or chafing dish heat buttermilk with garlic clove over low heat. When hot, remove garlic and add Swiss cheese; stir constantly until cheese is melted. Serve from chafing dish or casserole over a warmer. Each person served himself from the common dish, dipping chunks of French bread, which are speared on long forks, into cheese sauce.

Medical Quacks' 'Loot' At Peak

WASHINGTON (NEA) — A Detroit businessman was understandably startled when his wife announced that she was treating her aches and pains with dog grass. While he was getting over the shock, other people throughout the city were confidently swallowing tonics containing cramp bark, devil shoe string, skunk cabbage, queen of the meadow and turtle bloom. A glib-tongued promoter had convinced them all that these

herbs and plants, bottled according to his own special formula, had made doctors obsolete. Lining the shelves of his store were tonics for arthritis, asthma, change of life, diabetes, epilepsy, cataracts, hardening of the arteries, heart trouble, kidney stones, obesity, tapeworms and varicose veins. Practically the only thing any of those concoctions could have cured is a light thirst. The Detroit case is a typical

example of the medical quackery boom say officials of the U.S. Food and Drug Administration. Medical experts estimate the quacks' "take" last year amounted to more than \$650 million, a record figure.

What causes quackery to flourish in an age when people are better informed about health and medicine than ever before?

One theory holds that many people have an innate belief in magic. Wishful thinking combined with the desire to get something for nothing makes them easy targets for a medical shyster's sales talk.

There is also the strong appeal of testimonials from people who claim they were cured. Wallace F. Janssen, FDA authority on quackery, says such people usually fall into one of three categories:

Those who think they have a disease but do not.

Those who had a disease and were treated by a competent doctor, but who then went to a quack and attributed their recovery to him.

Those who are experiencing only a temporary improvement, not uncommon with chronic diseases.

The tragic aspect of quackery is the untold number of fatalities. Doctors emphasize that many victims, especially cancer patients, could have been saved if they had received proper treatment.

The self-styled doctor in Detroit, for example, was selling a cream to treat cancer of the breast. He claimed its use would eliminate the need for surgery.

FDA officials recently cracked down on a Los Angeles quack who was selling a do-it-yourself cancer cure kit. It consisted of a lamp and five slides with instructions on how to put it together. Buyers were told they could cure cancer by shining the colored lights on their bodies.

In Phoenix, Ariz., the FDA stopped a quack from shipping devices guaranteed to cure cancer by irradiating blood. The contraptions consisted of eight tubes containing radioactive material that were imbedded in a plastic barrel.

A ninth tube was supplied to hold blood samples. Directions called for placing this tube in the center of the barrel for radiation exposure. After 24 hours, the blood was supposed to be injected back into the patient. The irradiated blood was supposed to kill the malignancy.

FDA officials are seeking a new law that would empower them to approve medical gadgets before they are put on the market. At the present time such authority is restricted to drugs only.

ATTENTION! — Luci Wheeler of Sarasota, Fla., is a girl who should never change her stripes.

LOS ANGELES (UPI)—Former burlesque queen Busty Brown, 35, told reporters Wednesday she has

quit dancing to write a book entitled: "Don't Call Me Busty."

FIRST THINGS FIRST
DALLAS, Tex. (UPI)—Joe Linz, a jeweler, walked out of his store Wednesday when he saw two teen-age girls admiring engagement rings.

"Well, have you got your boys picked out yet?" he asked.

"Oh, no," one of them replied with a smile. "First things first, you know."

SOUNDS FISHY
MONTGOMERY, Ala. (UPI)—Gov. John Patterson wrote Gov. J. Millard Tawes of Maryland Wednesday that Alabama may not be able to take part in Maryland's national hard crab derby next month.

"The conservation director has just advised me that he has attempted to locate our prize racing crab, but he was so fast that he got away from us," Patterson wrote.

Crop Duster's Woes Are Many

WYNNE, Ark. (UPI) — Jack Gillett is so disgusted he may give up crop dusting.

Gillett was gassing up his plane Wednesday as the engine idled. The engine suddenly caught fire.

Gillett ran to the cockpit door and pulled back the throttle, hoping wind from the propeller would put out the flames. Instead the plane began to move, and before he could leap inside to stop it, it was racing all over the field.

Afraid it would crash into a house or run onto a nearby highway Gillett jumped into a pickup truck and tried to ram the plane with it.

He jammed the pickup's throttle down, aimed it at the plane and jumped. The truck missed, crashed into a nearby storage building and demolished it.

At the same time the plane nosed over and burned.

"These trails would shake the cab off an ordinary truck... but not our Chevy"

Few trucks are subjected to the body-cracking beatings that are part of a day's work for this Chevrolet Series '60 pulpwood hauler. It's owned by J. E. Fox, North Carolina logging contractor. As Bobby Fox, a partner in the business says, "Loaded with pulpwood, we drive over stumps and potholes you'd think would tear the truck to pieces. These trails would shake the cab off an ordinary truck, but not our Chevy. We can average an extra load a day... make \$45 to \$50 a day more with this Chevy than we can with the others."

In every weight class these Chevies are doing more work at less expense than trucks have ever done before. Drive one at your Chevrolet dealer's. It's an experience that could pay you big dividends.

"That 6-cylinder engine really performs," says Bobby Fox. "It's got the lugging power we need in the woods and walks right along with a full load on the highway."

Survey Illustrates What Makes Teen Girls Tick

Here is a breakdown of some of the major areas covered in "The Teen-Age Girl: 1960".

1. Work: 3,800,000 teens have already entered the nation's labor force in jobs ranging from baby-sitting to clerical and sales. 82.1 per cent of the girls who will go on to school plan after school careers in offices (38.2 per cent), teaching (28.5 per cent) and other fields.

2. Fashions: The average teen girl spends \$300 on her wardrobe annually. Although teens want to dress individually, they wear an almost universal uniform to school: a skirt with blouse and/or sweater. For dating, while 4 out of 10 choose a similar costume, the majority wear a dress; 53 per cent wear high heels for Saturday dates.

3. Dating Habits: Not all teen girls go steady; in fact, only a little more than half date, and of these, only 1 out of 3 goes steady. They have 2.5 dates monthly; 36 per cent date on school nights. Bowling and movies are the most popular activities for both week-nights and week-end dates.

4. Travel: Of the one out of eight teen girls who traveled last summer, 51 per cent traveled with their parents and influenced the decisions about the trip. Over 18 per cent plan to travel — interstate, intrastate and out of the country.

5. Cars: More than 3,000,000 girls from 13 to 19 drive a car; of the 18-to-19-year-olds, 50 per cent drive. Teen girls are becoming a market for the automotive industry with 565,000 girls currently owning their own cars. When the last family car was purchased, 2 out of 3 girls had some influence in the selection.

6. Radio Listening, Television Viewing: 76.2 per cent of the teens favor disc jockeys. They listen to the radio for 2 hours 13 minutes daily (median time). Radio ownership is high with 53.4 per cent owning portable models, 35.8 per cent table models and 23.8 per cent clock radios. Television viewing is only popular with the teen girl on Sunday evening, when 29.5 per cent watch TV. Daily viewing time is 59.3 minutes. Popular programs are spectaculars (named by 32.4 per cent), musicals (30.8 per cent) and situation comedies (21.8 per cent).

7. Foods: 4 out of 5 teen girls cook and/or bake, using mixes or starting from scratch to make every-

Volunteer Class Has Annual Fete

GROOM (SpI)—Volunteer Workers Sunday School Class of First Methodist Church entertained with its annual breakfast in Fellowship Hall on Wednesday morning.

Mrs. Blanch Harris gave devotional, "Through Greatness." Mrs. S. K. Roach, president, conducted the business meeting.

Members were Meses. Fred Burgin, O. P. Blackwell, John Ray, E. R. Hess, Clee Schaffer, J. B. Demic, C. A. Morrow, T. L. Banks, J. C. Farley, O. R. Major, J. W. Angel, S. K. Roach, Erma Denton, Margie Emery, Blanch Harris, Guests were Meses. Nath Heiten, E. N. Goodlett, Curtis Schaffer, Benton Morman, Van Earl Stead, P. B. Farley, Ray Ritter and B. H. Cooper.

Mrs. Warner Has Gavel Club Meet

Past Matrons Eastern Star Gavel Club met recently in the home of Mrs. J. H. Warner, 2418 Christine, with Mrs. G. C. Crocker as co-hostess.

Secret Pal gifts were exchanged and games were played.

It was announced that the next meeting will be Sept. 8 in the home of Mrs. R. A. Hankhouse, 1200 Mary Ellen at 7 p.m. with Mrs. Oscar Shearer as co-hostess.

Attending the meeting were Meses. O. A. Wagner, M. V. Voyles, Floyd Pennington, O. A. Davis, W. A. Rankin, W. R. Morrison, R. A. Hankhouse, Guy Andis, J. S. Fugua, W. C. Mitchell, W. S. Kiser, W. B. Murphy, W. P. Vincent, Kenneth Gray, W. E. Alexander, Oscar Shearer, Bill Flewelling, Roy Sewell, and special guests, Mrs. Cliff Vincent and Mrs. Guy Colerly.

RUTH MILLETT.

What woman doesn't have: A drawer full of recipe clippings and recipes written down by friends, which she has never got around to trying and probably never will?

Clothes hanging in her closet that are "too good to get rid of" but never quite right when she is trying to find something to wear?

The firm conviction that what she needs to make housekeeping easier is more storage space—though half of the things stored away she could get rid of and never miss?

Knickknacks that are merely dust collectors but that she can't get rid of because the givers might miss them if they were ever removed from sight?

Boxes full of family snapshots she is "going to put in an album some day"?

A garage, attic, or basement filled with an odd assortment of toys and hobby equipment that has outlasted the enthusiasm of the member of the family it belonged to?

She can't give it away because said member of the family always protests, "of course I want to keep it," when the space comes in for its twice-a-year cleaning.

Her own "filing system" made up of boxes and envelopes tucked here and there that she alone can produce when the need arises?

Kitchen cabinet space cluttered with pieces of equipment that don't get used once a year?

Women keep crying out for more storage space—yet it is a rare woman who makes the best use of what she already has.

CI WP FILLERS

Use evaporated milk to make a creamy smooth and rich cheese sauce for vegetable dishes and hearty casseroles. Mix 3 cups shredded Cheddar cheese and 2 tablespoons flour in the top of a double boiler. Add 1 cup evaporated milk and cook until sauce is smooth and thick. Makes about 1 1/2 cups.

thing from cookies to casseroles. Typical specialties are chocolate layer cake and spaghetti; 68.3 per cent like to cook foreign foods. In an average day, 46 per cent make their own breakfast; 51 per cent make some of their own clothes.

3. Dating Habits: Not all teen girls go steady; in fact, only a little more than half date, and of these, only 1 out of 3 goes steady. They have 2.5 dates monthly; 36 per cent date on school nights. Bowling and movies are the most popular activities for both week-nights and week-end dates.

Casual Togs Rather Than Dressy Items Figure Importantly in He-Man Vacation

By HELEN HENNESSY, Newspaper Enterprise Assn.

By this time in summer, vacation is just a happy memory for some of us. But the lucky ones who still look forward to a few weeks at the seashore are going to have a lot of fun shopping for the right togs to take along.

Whether you've chosen to spend your vacation at a beach resort that's luxurious or one where you'll "rough it," it's a sure bet that casual clothes will figure more importantly than dressy items.

We gals always enjoy shopping for a colorful, casual vacation wardrobe. And it used to be a cinch to get the man of the house decked out. All he needed were slacks, sports shirts and a swimsuit. But that's all changed. This year so many good-looking beach clothes are available for men that you'll find shopping for Jim as enjoyable as selecting your own wardrobe.

Take him along on the buying expedition and introduce him to "Beachniks." He can plan his whole day around this one group of co-ordinates. There are matching trunks, surfing pants, boater shirt and jacket.

When you trot down to the beach, in your new swimsuit, he'll cut a dashing figure, too, in boxer trunks with multicolored stripes on side inserts.

Should you be fortunate enough to have the use of anything from a rowboat to a yacht, he can slip into the calf-length surfing pants, top them off with a twill knit, striped boat-neck shirt, and look mighty like a captain.

And if a brisk breeze comes up along the waterfront, he can don the comfortable short-sleeved jacket.

While you're planning to make a well-dressed escort out of your husband, give some thought to his comfort, too. The reflection of the sun off the sand and water can create a glare both harmful and

Dear Abby... He's Trying To Make Hay While Sun Shines

ABIGAIL VAN BUREN

DEAR ABBY: What do you think of a married man who goes to mow an old maid's lawn—at 10 o'clock in the morning and comes home at twenty minutes to one the next morning? Do I have a right to suspect the worst?

JEALOUS WIFE

DEAR JEALOUS: Don't assume your husband thought the grass was greener on the other side of the fence. Maybe there was just more of it.

DEAR ABBY: We have neighbors (directly across the street) who have two nice new cars. So have we. The lady who works for them drives a beat-up old jalopy. Instead of parking it in front of OURS all day. This has gone on for almost two years. Frankly, it isn't in our way, but we resent it. Do you think they are too proud to have that car parked in front of their place? We don't know if it is just a nifty trick or if they really don't think anything of it. We hardly know them. Is it worth mentioning? In case you think I'm jealous, I have help, too.

KEEP ME ANONYMOUS

DEAR NONYMOUS: You can solve your problem by asking the driver of the "jalopy" to park it by the home in which she works. Why involve the neighbors?

DEAR ABBY: What should I do

about my 17-year-old sister? She's sat with my children for two years and I thought her to be an adorable upright girl. She asked permission to have a few friends in while she sat, and I agreed. Soon the "few friends" grew in number until she was having parties of 12 or more boys and girls.

My husband's liquor stated to disappear. Things came to a head when we came home at 1 a.m. and found her so drunk she could hardly talk. Not wanting to return her home in that condition, I phoned her mother and asked if she could stay all night. The next morning I scolded and lectured her and she cried and begged me not to tell her parents. I kept quiet. Tonight she came to sit, and I smelled liquor on her breath, so I sent her home and said we changed our minds about going out NOW, should we tell her parents?

NO NAME PLEASE

DEAR NO NAME, Absolutely! You do this girl no favor by covering up for her. Her parents should know. Tell them at once.

CONFIDENTIAL TO UPSET MOTHER: The least lovable child needs the most love. Force yourself.

If you want a personal reply from Abby, write to her in care of this paper and enclose a stamped, self-addressed envelope. She answers ALL letters.

Polly's Quiz

Dear Polly: I need help before my husband changes his mind again. At long last he has consented to let me do the living room over and buy some new furniture. The walls are pale green; rug is a black-and-white tweed. Lamps and accessories are black and white.

What should I choose for new sofa and two chairs? What for lamps? I'd like draperies to blend with the walls. Since I like Danish modern furniture, is it possible to use it with these colors? I'm partial to white in furniture but I have three small children.—Mrs. A.

Dear Mrs. A.: By all means have pale green walls if you want them. You might have a pair of open arm Danish chairs in a warm brown wood finish. Seat and back pads could be an indefinite stripe in tangerine and white. The new sofa could be a green darker than the walls.

A simple brass lamp with a tailored white shade would be my choice. Use real wax candles in black wall sconces rather than wooden ones.

Dear Polly: We are thinking of painting our red brick fireplace white and aren't sure if we should use a water base, oil or rubber base paint. Is there a chance of the fireplace showing brown spots? I'll appreciate advice since we feel that this is a touchy job and would like to avoid problems.—E. B.

Dear E. B.: Painting a brick fireplace is no problem—live painted in. Billy Burgin, Donald Ritter, many and with almost any sort of paint I happened to have handy. Bobby Cornett, Fred Brown, E. Any of the three that you mention—

Dear Polly: I have a problem with my living room window. I have been planning to use cornice boards when we redecorate and I gather that you approve.

Question is about the finish. Should they match the woodwork, be covered with wallpaper or with drapery fabric?—Mrs. S. T.

Dear Mrs. S. T.:—do approve of cornices generally if windows are of average or more than average height. They blend into the room better when they're painted to match the woodwork.

Mrs. Harden Is WMU Hostess

GROOM (SpI)—Women's Missionary Union of Baptist Church met in the home of Mrs. Preston Harden Tuesday morning for a Royal Service program conducted by Mrs. Charles Banks on "Missionary Work in Japan."

Byrd Lashes Part Of Demo Labor Plank

WASHINGTON (UPI) — Sen. Harry F. Byrd D-Va., repudiated part of the Democratic platform's labor plank today and announced he would fight any congressional effort to carry it out.

He specifically attacked the platform pledge to repeal the Taft-Hartley provision permitting states to enact "right-to-work" laws. These laws, in effect in 20 states, outlaw union shop and similar contracts which require an employee to join or remain in a union to hold a job.

Byrd's renunciation of the plank, in a speech prepared for the Senate, was his first public statement on developments at the Democratic convention last month. He has not yet said whether he would support Sen. John F. Kennedy as the presidential nominee.

The Virginia senator said the pledge to repeal the Taft-Hartley provision would destroy "two great principles on which this nation is founded — individual

liberty and States' Rights."

"These are among the safeguards of our freedom against tyrannical central government," he said. "To defend this freedom, I shall oppose the platform pledge to repeal the authorization for state right-to-work laws whenever and wherever the effort is made."

Byrd, the chief conservative voice in his party, said fulfillment of the pledge would be "a massive victory" for such labor leaders as AFL-CIO president George Meany, vice presidents Walter Reuther and David J. McDonald, and Teamsters president James Hoffa.

Davis Seizes Control Of New Orleans School System In Effort To Forestall Segregation

BATON ROUGE, La. (UPI)—Louisiana today awaited results of its governor's sudden seizure of the New Orleans public school system, his first direct effort to forestall the start of school integration in the state this fall.

The New Orleans school board has been under orders from U.S. District Judge J. Skelly Wright to integrate first grades when school opens in September.

Gov. Jimmie H. Davis Wednesday issued an executive order wresting from the school board "exclusive control, management and administration of all the schools in the parish (county) of Orleans."

He directed the schools to open Sept. 7—presumably on a segregated basis—with James F. Redmond, superintendent of schools, acting as his agent in operating them.

The seizure had been predicted by state officials for some time, but nevertheless came as a surprise. It was expected to be an 11th-hour resort.

Davis' order is based on a 1960 state law, which gives the governor authority to assume control of school districts required to integrate by court order and which stipulates traditionally segregated classrooms will be maintained until the legislature votes otherwise.

The statute also states that lawsuits pertaining to schools under the governor's control must include the state as a defendant and that the legislature must grant permission before the state can be sued.

State Attorney General Jack Gremillion announced the executive order.

"This order is designed to let the legislature and the legislature alone come up with a plan for integration," Gremillion said, "and to leave to them what is deliberate speed in desegregating schools."

"The people of Louisiana are dead set on being left alone to

Lee Grimsley's Sportbeat

Salute To Charlie Robinson

Charlie Robinson is one of the biggest boosters any quarterback club could have.

Three years ago there were only 22 members in the Harvester Quarterback Club.

Year before last, Robinson became president of the organization and boosted the membership to 250. He kept that enrollment intact during his second term.

Last year Robinson sold 80 memberships in the club, nearly four times as many members who were in it when he took over the job as president.

It's no wonder Robinson has taken an active interest in the booster organization.

He has one son, Robbie, who will be on the Harvesters roster this fall. A junior-to-be, Robbie is one of the most promising young backs in the Harvester camp.

Another son, 13-year-old John will be playing football at Robert E. Lee Junior High too.

Johmy's twin sister, Judy, is the cheerleader for the two players.

What with the selling ability he has, Robinson has been placed in charge of getting water melons for next week's fete.

And, if he duplicates his past work, there'll be water melons for everyone.

Big-D Plans Surprise For Colts?

The Dallas Cowboys, new entrant in the National Football League, may not be a team of championship quality, but they have offered two indications they are going to be hard to reckon with during the coming campaign.

The Cowboys dropped two close exhibition games so far to the San Francisco 49ers, 16-10, and the St. Louis Cardinals, 20-13.

Of course, the new Dallas club is likely to meet its undoing tomorrow night when they take on the Baltimore Colts at the Cotton Bowl.

The Colts are the defending world champions who knocked off the College All-Stars with ease last week, being led by the accurate arm of quarterback Johnny Unitas and the tremendous receiving of Raymond Berry and Lenny Moore.

Dallas will be operating under a handicap since several of its prize rookies participated in the All-Star classic. Don Meredith, Jim Mooty, Paul Rochester, Fred Doelling, and Don Perkins all saw action with the collegiates.

To offset the tremendous potential of Unitas, Cowboy coach Tom Landry plans to patoon all three of his leading quarterbacks—Meredith, Eddie LeBaron and Don Heinrich—during the game.

Revolution Of The Horseshoes

One of the most popular sports played in the Cotton Bowl this or past times, depending on how you look at it, will be revived at Amarillo next month.

The occasion is the annual Golden Spread Open Horseshoe State Fair, Oct. 8, and the New Tournament, which will be held Sept. 3-4 at Ellwood Park.

Sandy McKean, president of the Amarillo Horseshoe Club, said the tournament will be open to all horseshoe pitchers in the Golden Spread and adjoining areas.

There will be four divisions—juniors, 17-years-old and under, and classes A, B, and C.

There won't be an entry fee for the junior class. However, it will cost \$2 to enter any other division. You must qualify to enter a certain division, though.

Anyone interested in entering the horseshoe tournament should contact McKean at 1520 Maple, Amarillo.

A total of 21 college and professional football games will be scheduled—two special attractions are scheduled—the Texas and Oklahoma clash on the opening day of the Year's Day Cotton Bowl Classic. All Southern Methodist home games will be played there, as well as professional games by the Dallas Cowboys (National Football League) and the Dallas Texans (American Football League).

Elliott Suit Out

HONOLULU (UPI)—A million-dollar damage suit filed against Australian miler Herb Elliott by promoter Leo Leavitt was dismissed in Circuit Court Tuesday.

Circuit Judge John A. Dyer ruled that the suit should have been filed in Australia where Leavitt charged Elliott broke a contract in which he promised to turn professional.

TROPHY TROUBLE—Malcolm Douglass, winner of the city golf championship this summer, looks over the trophy he received in that event as he tries to decide what type of awards to present at the Top O' Texas Tournament. Douglass is the tournament chairman. (Daily News Photo)

150 Expected For TOT Play

Approximately 150 golfers are expected to enter the 24th annual Top O' Texas golf tournament, which will be staged Sept. 2-5 at the Pampa Country Club.

Malcolm Douglass, the winner of this year's city golf tournament, is chairman of the Top O' Texas event.

"We won't begin getting the applications until nearly tournament time," Douglass said, "but we should have about 150 entrants."

"We're not the biggest tournament in the state, but we're pretty well known, especially through-out the Top O' Texas."

Roland Adams, the well-known Lubbock better who walked off with last year's tournament crown, is expected to return this year to defend his title.

The championship flight will be the only group which will have a qualifying round. Other entrants will need to present only scores attained by their home club pro. Or, Douglas said, they may shoot a qualifying round at the Pampa Country Club.

The qualifying round for the championship flight will be Sept. 2. It will not count in figuring the 72-hole medal play total score.

After the second round of play in the 32-man championship flight, the 18 golfers with the highest score will be dropped into the president's flight, and will continue to compete on a medal play basis. Prizes and trophies will be awarded to the winners of each flight. Among the prizes to be offered are sets of irons, woods and other merchandise.

A buffet dinner also is planned for the golfers at the country club at 8 p.m. Sept. 2.

Information concerning reservations for the tournament can be obtained by calling golf pro Hart Warren, MO 4-8371.

Cowboys Vs. Colts Friday

DALLAS (UPI)—The Dallas Cowboys and Baltimore Colts meet today at a luncheon before going to the practice field to get ready for Friday night's Cotton Bowl clash.

The Cowboys held a final heavy workout Wednesday while the Colts, 45 players strong, flew to Dallas.

The squads will be honored guests today at the Salesmanship Club's annual pre-game luncheon. The Salesmanship Club is sponsoring the game, for the 10th year.

Coach Weeb Ewbank's crew was two hours behind schedule arriving in Dallas.

The Colts, in their only start this season defeated the College All-Stars 33-7 last week.

The Cowboys have dropped two close ones. San Francisco edged them 18-10, and St. Louis trimmed them "Pokes 20-3 last week.

Phillies Sign Harrell

BROWNWOOD, Tex. (UPI)—Jeff Harrell, 18-year-old 170-pound son of a bus driver, has signed a three-year contract with the Philadelphia Phillies that will give him more than \$25,000 and Philadelphia Phillies that will give him more than \$25,000 and Philadelphia Phillies that will give him more than \$25,000.

Hart Warren, golf pro at the Pampa Country Club, is also entered in the event.

Labine Aids Pirates To Win Over Phillies

By GARY KALE
United Press International

Everything the Pittsburgh Pirates touch turns to gold—and that includes Clem Labine, who couldn't make the grade with two other clubs this season.

Labine came to the Bucs with an 0-4 record, having lost one game for Los Angeles and three for Detroit. The right-handed sinker-baller's last victory was against the Philadelphia Phillies on Aug. 1, 1950.

As luck would have it, Labine was sent in by Danny Murtaugh to put down a Phillie uprising in the sixth inning Wednesday night, and celebrated his National League return by hurling hitless ball in preserving Harvey Haddix' 5-3 victory.

The triumph enabled the Pirates to retain their 7½ game lead and put Labine in line for his fifth World Series pay check. He played in four classics with the Dodgers.

The New York Yankees had to go 10 innings to defeat the Boston Red Sox, 3-2, and increase their American League lead to 1½ games. Cleveland upended Chicago, 3-2, Washington beat Baltimore, 11-7, in 12 innings and Detroit whipped Kansas City, 5-2.

In other National League games, Milwaukee walloped Cincinnati, 11-4, to take sole possession of second place, San Francisco stopped St. Louis, 6-5, and Chicago shut out Los Angeles, 1-0, on Ernie Banks' ninth-inning homer.

Labine, who holds an 11-9 lifetime record over Philadelphia, struck out six Phillie batters in 3 2-3 innings to save Haddix' eighth victory. He entered the game after Philadelphia had scored twice, issued a walk to load the bases and then got John Callison on a forceout. Don Hoak drove in three Pirate tallies with a two-run double in the fourth inning and a sacrifice fly in the eighth.

The Yankees, having to win them the hard way of late, beat Boston when Tony Kubek broke up a double play at second with a hard block on Pete Runnels that enabled Bobby Richardson to score the deciding run. Runnels' relay to first sailed into the Red Sox dugout. Bobby Shantz, fourth New York pitcher, hurled the last 1 1-3 innings to pick up his fourth win. Mike Fornieles dropped his third.

Harvey Kuenn had three hits and scored Cleveland's winning run in the eighth inning on a sacrifice fly by Tito Francona. Johnny Klippstein's fine relief work over the last two innings earned him his fourth win and prevented the White Sox from keeping stride with the Yankees. Gerry Staley was stopped for the sixth time this season and broke a potential Chicago rally in the eighth when he was nailed at the plate at attempting to score from second on a single.

Two-run singles by pinch hitter Julio Becquer and Billy Gardner overcame a five-homer barrage by Baltimore as Washington sent the Orioles reeling to their fourth straight loss. Lennie Green hit an inside-the-park homer for the Senators, while Jackie Brandt, Al Pitarck, Jim Gentile, Ron Hansen and Gus Triandos connected for Baltimore.

Norm Cash's 13th homer with a man on in the first inning provided Frank Lary with a cushion to his 11th triumph. Lary issued six singles as the Tigers handed the last-place A's their seventh loss in a row.

Milwaukee pounded four Red pitchers for 18 hits, including Hank Aaron's 32nd homer. The Braves scored five runs in the first inning and six in the eighth.

HOLD EVERYTHING—Logan Batcheller was suspended at Delaware Park for grabbing and holding the saddlecloth of Coral Ridge during the stretch run. Batcheller rode Matrimony. Apprentice Anthony Rini was aboard Coral Ridge.

The Yankees, having to win them the hard way of late, beat Boston when Tony Kubek broke up a double play at second with a hard block on Pete Runnels that enabled Bobby Richardson to score the deciding run. Runnels' relay to first sailed into the Red Sox dugout. Bobby Shantz, fourth New York pitcher, hurled the last 1 1-3 innings to pick up his fourth win. Mike Fornieles dropped his third.

Texans Ready For Titan Clash

ABILENE, Tex. (UPI)—The Dallas Texans, unbeaten in three American Football League exhibition games, were scheduled to arrive today for polishing drills before their Saturday night date with the New York Titans.

The Texans have been in Abilene for several days working out—Wednesday in 90-degree heat.

Titan Coach Sammy Baugh had two quarterbacks, Ken Ford of Hardin-Simmons and Bob Scrabas of Penn State, doing most of the offensive work in a controlled scrimmage.

Baugh said he plans to carry three quarterbacks in the regular season, and Dick Jameson of Bradley and Al Dorow, former Michigan State and veteran NFL campaigner, have the first two spots nailed down. Scrabas and Ford will be fighting the rest of the week for the third position.

Warren, 94 Other Contestants Aim At Texas PGA Golf Crown

LUBBOCK, Tex. (UPI)—A record field of 95 contestants open fire today in the 40th Texas PGA tournament with Earl Stewart Jr. of Dallas given the nod to cop top honors over the 6,902-yard Hillcrest Country Club course.

The Oak Cliff Country Club pro shot a four-under-par 68 Wednesday in a final tuesday round. Tuesday Stewart toured the moderately trapped, sprawling course in an eight-under-par 64, during the pro-am and pro-pro tournament.

Three other professionals reported practice rounds of 68 Wednesday. They were Ernie Vossler of Fort Worth, Raymond Gafford of Fort Worth and Dick Metz of San Antonio. Byron Nelson of Roanoke had a 69.

Hart Warren, golf pro at the Pampa Country Club, is also entered in the event.

The par of 36-36-72 was due to take a fearful beating from the pros if the ideal weather conditions of the past few days continue.

A score of 280 won the Texas PGA meet when it was held on this same course three years ago, and most of the pros feel it will take a score under 280 to win this time around.

Stewart said that it was "just as easy to get a 74 as a 68 on this course." The course places a premium on accurate, long drives.

Other top scores shot by the pros included a 64 by Gafford and a 65 by Bill Maxwell of Odessa.

Other pros given a good chance to take the title away from defending champ Bobby Morris of Dallas, included Don January of Dallas, Dick Metz, World Senior's champion from San Antonio, Vossler, and Maxwell.

Enjoy BOURBON'S finest hour with OLD CHARTER

Tick-tock, tick-tock... the BOURBON that didn't watch the clock for seven long years!

Imagine you have Kentucky's Finest Bourbon to start with... then you let time tick by as it slowly ripens to perfection. Remember the best whiskey you have ever tasted and imagine one mellowed and smoother. Do all these things... then taste Old Charter!

OLD CHARTER
KENTUCKY'S FINEST BOURBON

STRAIGHT BOURBON WHISKEY • 7 YEARS OLD • 86 PROOF • OLD CHARTER DISTILLERY CO., LOUISVILLE, KY.

Richards Lists Olympic Records Due To Fall

Last of a series by the two-time gold medal pole-vaulter parson detailing Olympic Heights and the Games in Rome.

By REV. BOB RICHARDS
As told to Murray Olderman

NEW YORK (NEA) — Every major Olympic track and field record will be broken when the greatest athletes in the world converge on Rome, Aug. 25-Sept. 11, for the 17th modern Olympiad!

I say that with one stipulation—if the weather is good, meaning no rain.

The only event I might have to back off on would be the javelin and Egil Danielsen's mark of 281 feet 2 1/2 inches set in Melbourne in 1956, and not because I don't believe Bill Alley or Al Cantello of the American team are incapable of beating him. They're using a new type of javelin in these Games of which the boys may have trouble adjusting.

Otherwise this is how I see the events (existing records in parentheses):

100 meters (10.3) — Our boys can beat that. Armand Hary of Germany might beat them.

200 meters (20.5) — Ray Norton has run 20 flat. England's Peter Radford is a threat.

400 meters (45.9) — George Kerr of the West Indies is favored. Even our alternate for the 1,600 meter relay, Ted Woods, has run 45.7.

800 meters (1:47.7) — Three college kids have beaten that by a second. Roger Moens of Belgium or George Kerr to win.

1,500 meters (3:41.2) — It'll take 3:38 to win. Herb Elliott should be favored, but Dyrrol Burleson and Jim Grelle will push him.

5,000 meters (13:39.6) — Jim Beatty has a chance to get down to the world standard of 13:25. P. Bolotnikov is tough.

10,000 meters (28:45.8) — None of our boys has a chance, but someone else will break that record.

110-meter hurdles (13.5) — Germany's Martin Lauer could step beyond Lee Calhoun or Hayes Jones.

400-meter hurdles (50.1) — South African boys, Gerhardus Potgieter and Mel Spence, will force Glenn Davis to beat his own record.

Broad jump (26-5 1/2) — Even Jess Owens' venerable mark will go. Ralph Boston has exceeded it. Check the Russian, Ter-Ovanesyan.

High jump (6-11 1/4) — John Thomas can go more than seven feet in sweat clothes.

Pole vault (14-11 1/2) — You can take me off the books. Fifteen feet is peanuts for Don Bragg.

Shotput (60-11) — American boys should take all three places, all better than the record.

Discus (184-10 1/2) — Al Oerter is already close to 200 feet and should go beyond that.

Hammer throw (207-3 1/2) — That's bound to go as Hal Connolly whips into top shape to try to stand off Al Hall and Ed Bagdonas.

Hop-step-and-jump (53-7 1/2) — They'll go a foot and half beyond. Decathlon (7,937 points) — Rafer Johnson will score 8,800.

All records will also go in weight lifting, with the exception of the heavyweight division, where you'll have to go some for another Paul Anderson.

With girls like Chris Von Saltza, the swimming and diving events will reach new heights. Women's track has sure winners in shotputter Earlene Brown and discus thrower Olga Connolly.

They'll probably never see another basketball team like the one which will represent us. It's like a baseball team from some other part of the world trying to play against the N.Y. Yankees.

In this sweep to new Olympic Heights, I would utter one word of caution for the United States. The rest of the world is forging ahead. I have seen pictures of sports demonstrations and Olympic preparation involving hundreds of thousands of contestants. In Russia, 18 million kids tried out. America is standing still.

Olympic shotput champion Parry O'Brien had to pay to work out at a Los Angeles school last summer.

Olympic Heights

Giants Boom TL Lead To 10 1/2; Gold Sox, Oilers Devide Header

By United Press International

The runaway Valley Giants moved 10 1/2 games in front of the Texas League Wednesday night, whipping Victoria 6-4, while Austin edged second place San Antonio 3-2 in 12 innings.

In other action, Tulsa and Amarillo split a doubleheader, the Gold Sox exploding for four runs in the top of the seventh in an abbreviated opener to win 6-1, while the Oilers fought from behind to take the nightcap 5-4 in 11 innings.

Vic Davault combined to hold Victoria's Rosebuds to six hits with Davault getting the win for coming on in the fifth with the score tied 3-3. Jay Van Noy belted a two-run homer in the bottom of that inning to put the Giants out in front to stay.

Rafael Alomar and Al Stieglitz also homered for Valley, and Kal Segrist and George McCue socked ones for Victoria. Harvey Cohen was the loser.

Les Bass took over from Denver LeMaster in the 12th with the score knotted 2-2 and the Senators shoved across a run to give him the win in relief. Dave Gerard was the loser for San Antonio.

John Romonski held Tulsa to five hits in the opener, giving up one run in the fifth on relief pitcher Ted Thiem's solo homer after the Sox had already scored a pair in the fourth and went on to nail it down in the final frame with the four-run flurry that nailed the defeat on starter Lynn Rube.

The Gold Sox jumped off to a 3-0 lead in the second game before Tulsa finally scored in the fourth. Chuck Staniland homered in the fifth for Amarillo's final run. It followed a circuit clout by Dave Davis.

Dick Hughes, who went the distance for the Oilers, settled down and pitched shutout ball the rest of the way as his mates tied it up in the eighth and clinched it in the 12th, despite being outlit, 12-9.

In games tonight, all single affairs, Amarillo plays at Tulsa, Victoria at Valley and San Antonio at Austin.

Olympic Team Without Soap

By HENRY REIGER
United Press International

ROME (UPI)—This is the biggest and, temporarily the grimmest team which Uncle Sam ever has sent to the Olympic games.

That's because, according to equipment manager Marion Miller, the team needed larger uniforms than ever before—and the towels and soap haven't cleared customs.

"It's been quite a problem," grinned the ever-smiling Miller, who is director of public relations for the Wilson Sporting Goods Company. "We ran into an Italian holy day and customs closed up tight."

"I had to go out and buy 10 towels at a time and a bar of soap here and there," he said. "We've got 2,000 towels and 600 bars of soap somewhere in some railway freight cars but we could not get at them."

City Girl Heads Keg Winners

Pat Collett, Pampa, with a 395 headed the junior girls division in the Young America Bowlerama regional tests yesterday at the Western Bowl in Amarillo.

Other Pampans winning berths on the teams were: Senior boys, Dwight Mackie, 525; Mike Sullens, 475; junior boys, Tom Henley, 477; Jimmy Jannieson, 427; senior girls, Barbara Trout, 387; Milinda Malone, 308; junior girls, Cheryl Trout, 334, and Erma Henson, 310.

These teams will compete against Phoenix, Ariz., Portland, Ore., and Milwaukee, Wis., in a telephone bowl-off Wednesday. Winners of the four-way event will qualify for the national tournament at Los Angeles, Aug. 31-Sept. 3.

Other team members are: Senior boys, Frank Wrather, Amarillo, Jerry Brown, Dumas, John Smith, Dumas, Jerry McClendon, Amarillo; junior boys, Danny Johnson, Amarillo, Jimmy Woody, Dumas, Gary Gore, Hereford, Mike Bara, Dumas; senior girls, Marietta Linscott, Borger, Judy Lightsey, Littlefield, Mary Wieland, Perryton, Martha Smith, Amarillo; junior girls, Sara Sims, Happy, Pat Curtin, Amarillo, and Kayla Mitchell, Amarillo.

Cleroux Wins Over Chuvalo

MONTREAL (UPI)—Bob Cleroux of Montreal scored a split decision over champion George Chuvalo Wednesday night to win the Canadian heavyweight crown.

Cleroux, at 206 gave 4 1/2 rounds to the champion, and won the bruising 12-round decision with his aggressive, two-fisted style that had Chuvalo in trouble in the early going. Chuvalo, 210 1/2, making his second defense of his crown since winning the title Sept. 15, 1958 against James J. Parker, got the nod from only one of the three judges who scored the fight on a five-point must system.

Judge Irvin Phillips gave the fight to Cleroux, 56-52, and Judge Rene Ouimet also gave to the challenger 55-53. Judge Johnny Gow had Chuvalo in front 55-53. United-Press International had Chuvalo ahead 53-51. There were no knockdowns.

PICTURE NEWS

AROUND THE WORLD

ALL A-FLUTTER — Bird-watching is a breeze at Manatee County Public Beach in Bradenton, Fla., where feathered friends by the dozens drop in on the sun-bathers. The birds are all hungry gulls, fluttering in for a handout of popcorn. The gulls probably find this much easier than flying over the ocean and diving down on unsuspecting fish.

IT'S THE BERRIES — Fausto Sariti of Rome spices a strawberry red linen dress with stripes of black and white linen. Sleeveless and collarless, the dress depends on overskirt and button-on plastron for high fashion detail. It's a cool outfit.

WINNER'S PURSE — Everything's Olympics in Rome right now, and this basement shop in the Eternal City is no exception as it displays handbags with the classic discus thrower and Roman numerals for 1960. It looks like the shopkeeper might make a sale to the woman.

NUTTY SITUATION — It must just be animal magnetism that has brought these three strange bedfellows together in Detroit. Koko the cat adopted the cute, 10-week-old squirrels, Cutie and Sweetie, after they were found abandoned.

WELL OF REMEMBRANCE — A monument to ancient America, this antiquated pump stands amid the tombstones of the cemetery adjoining the 147-year-old New Lots Reformed Church in Brooklyn, N. Y. As the young visitor discovers, the pump still brings up water to aid the caretaker in freshening the flowers and grass covering the graves. The old cemetery grounds and grave markers are well taken care of by the caretaker.

BAD BREAK — Shakespeare wrote no tragedies to equal the one that cruel fate has just inflicted on two-year-old Jim Ritter. His world crashed down around him as his ice cream plopped from its cone in Memphis, Tenn. Maybe if he's a good boy, daddy will treat him to another one.

JUNGLE NEWS — Jim, a two-year-old gorilla, appears to be telling an interested young visitor to the Hagenbeck Zoo, Hamburg, West Germany, latest news from the jungle. The friendly ape had just arrived from French Equatorial Africa.

GOING DOWN — Nellie Fox, the tobacco-chewing second baseman for the Chicago White Sox, is heading for the ground after being taken out by Jim Lemon, Washington Senators' outfielder. For all his trouble, Jim didn't break up the double play in the fifth inning of the Sox-Senators game played in Chicago. Lemon was trying to advance on a grounder hit by Billy Gardner. Chicago won the game, 8-2.

FUTURE LOOKS BRIGHT — Ever wonder what the girl of the future will look like? Relax, fellows. If she's anything like Yvette Mimieux, you have nothing to worry about. Yvette stars in the new film, "The Time Machine," an H. G. Wells story. In it, she plays a girl who lives in the year 802,701 A.D. We should live so long.

PIPE THIS — Forming a kind of pipe Arch of Triumph, these curving sections frame part of a new fully-automated oil refinery that was recently opened at Godorf, West Germany. The plant receives crude oil through a 155-mile pipeline from the Netherlands. It is capable of refining 2½ million tons of crude oil yearly.

TROOPS MOVEMENT — No cracks, please, about these three dancing men in tights, pom-pom shoes, ruffled skirts and "pony tail" hats, who step lively in Athens, Greece. They are hard-as-nails Evzone mountain troops, wearing the traditional native costumes as they practice the dance they will present at the Edinburgh, Scotland, Festival. That fellow at left is really dancing up a storm as he goes through his routine.

LIFETIME OF LUCK — A good luck charm for an entire village, this giant horseshoe shows the population of Flawil, Switzerland. The old smith adds a good luck shoe for every newborn child, regretfully removes one at every death. That's one charm you wouldn't want to carry around with you.

DEEREST TREASURE — This three-day-old Mesopotamian deer nuzzles its mother during first public appearance at a private zoo in Kronberg, West Germany. The species has been nearly wiped out, but zoo owner managed to get a male and female. Male died in captivity.

Strange Reversal

By now, millions of Americans are aware that gradually, thru the years, this nation has been backing away from its historic position of freedom and free enterprise.

Lodge's Record

Vice Presidential candidate Henry Cabot Lodge built a record as a liberal during his 14 years as a U.S. Senator, a Congressional Quarterly study of Lodge's voting record shows.

The Almanac

By United Press International Today is Thursday, Aug. 18, the 231st day of the year, with 135 more in 1960.

characteristic "iron curtain" and that under socialism, all movements of goods and services across boundaries are strictly regulated or prohibited outright.

The Allen-Scott Report

ROBERT S. ALLEN EFFECTIVE ANTI-LEUKEMIA DRUGS MAY BE CLOSE, NIH REPORT REVEALS AT BUDGET HEARING

WASHINGTON — The life-and-death race to develop effective anti-cancer drugs is now proceeding at an all-time record pace.

The Allen-Scott Report

ROBERT S. ALLEN EFFECTIVE ANTI-LEUKEMIA DRUGS MAY BE CLOSE, NIH REPORT REVEALS AT BUDGET HEARING

WASHINGTON — The life-and-death race to develop effective anti-cancer drugs is now proceeding at an all-time record pace.

Two derivatives of methotrexate, the widely used anti-leukemia drug, have produced spectacular results on test animals.

109 other drugs, after an immense amount of screening and testing, are now under clinical evaluation in studies involving 7,700 patients.

Several months ago a National Cancer Institute scientist discovered a new virus-induced tumor that is deemed particularly important for two reasons: It provides significant information about the role of viruses in animal cancer.

Fair Enough

NEW YORK — When Jack Dempsey went over the top rope and out of the ring that night at the Polo Grounds with his soles waving at the crowd and Luis Angel Firpo thundering forward, he lit on his shoulders on Jack Lawrence's typewriter.

Was A Long Time Between Visits To The Monkey House

CHICAGO (UPI)—Police promised a horse lineup today to find the nag that bit the hand that fed it.

Legal Publication

NOTICE TO BIDDERS The City Commission of the City of Pampa, Texas, will receive sealed bids in the City Commission Room, City Hall, Pampa, Texas, until 10:00 A.M. C. S. T. Tuesday, August 30, 1960.
