Senate Gets State's Big Tax Problem

AUSTIN (UPI) — For the first time since the 57th legislature started 79 days ago, the Texas tax problem is in the Senate today.

House members, by an 85-60 vote, Tuesday approved a piece meal tax bill by Rep. Charles Ballman of Borger that is aimed at erasing half of the state's \$63 million deficit.

Ballman estimated his bill would bring in \$32 million. The lower chamber will now have to start looking for the rest of the money to stop the state's hot checks.

Opposition melted mysteriously Tuesday night to one of the governor's favorite deficit-erasing measures, the abandoned property act, and it went to subcommittee of the House Revenue and Taxation Committee after a public hearing produced no witnesses.

However, legislators expect bankers to pressure against the bill on the House floor.

The bill, by Rep. Charles Hughes of Sherman, would raise \$17 million in two years and about half a million dollars a year thereafter on dormant accounts absorbed by the state. The House killed the first version of the bill.

House members put senators on the spot with another measure. By an overwhelming 134-11 vote, they passed a proposed constitutional amendment to give women equal rights with men. A similar measure was buried by the Senate Constitutional Amendments Committee.

Sponsored by Rep. Ben Atwell of Hutchins, the measure was alerted to assure women of community property and homestead rights and to continue their protection under criminal statutes. House members killed an amendment by Rep. DeWitt Hale of Corpus Christi that would have crippled the measure.

If it clears the Senate, the measure will permit Texas voters to decide in the next general election whether women should have equal rights. Under the proposal the legislature would then have until 1967 to change the 44 laws women claim discriminate against them.

By a 93-44 vote, the House passed a measure to ratify a national constitutional amendment to permit the District of Columbia representation in the Electoral College.

Other legislative action: ELECTIONS — Senators passed a bill by Sen. Dorsey Hardeman (See SENATE, Page 3)

EARLY ARRIVALS — Among the early-arriving delegates to the first annual Top of Texas District, Texas Federated Women's Clubs' two-day convention, which opened this morning, were, from the left, Mrs. C. T. McMurtry of Clarendon, district hospitality chairman and member of the TFWC state board, Mrs. Ralph Randel of Pahrump, district program chairman and Mrs. Mack Bush of Hedley, who are pictured being registered by Mrs. Emmett Osborne, president of the local Civic Culture Club. Passage Of Depressed Areas Aid Bill Looms

WASHINGTON (UPI) — Administration forces claimed they had the votes to win House passage today of President Kennedy's \$94 million plan for revitalizing economically depressed communities.

Some foes of the measure conceded there was little chance of blocking its passage even though all signs pointed to a fairly close vote.

House approval of the Senate-passed bill would even the score for the Kennedy administration in its second encounter in six days with a coalition of conservative Republicans and southern Democrats. The coalition defeated Kennedy's minimum wage bill by one vote last Friday.

As an alternative to the administration-backed plan, Republican leaders proposed a 275-million substitute, but floor debate Tuesday showed that some conservatives felt there wasn't much to choose between the two bills.

Rep. George Meader, R-Mich., charged that the administration bill would "socialize the American economy." He urged the House to turn down all legislation in this field.

The opening debate in the half-deserted chamber was listless in contrast to the emotion-charged arguments that were voiced during last Friday's dramatic clash over the minimum wage.

"Only once were the members aroused, and attentive. That was when Rep. Daniel J. Flood, D-Pa., roared an angry reply to the charge of 'socialism.' Flood likened the administration bill to the foreign aid which Congress has parceled out over the years.

"This," he shouted, "is foreign aid for my people." "Socialism — your grandmother!"

With heavy sarcasm, Flood asserted that opponents were saying that the same kind of aid for American communities with chronic unemployment "is bad and will destroy America."

Urging everyone to improve his own understanding of the Communist situation, he said: "I am not a Communist. I am a Republican. I am a Democrat. I am a Socialist. I am a Communist. I am a Republican. I am a Democrat. I am a Socialist. I am a Communist." (See ROTARIANS, Page 3)

Rotarians Told Red Conspiracy Closing On U.S.

"The Communist conspiracy is rapidly closing around us," Dr. Floyd Golden, president emeritus of Eastern New Mexico University told the Rotary Conference in its final session yesterday afternoon in the Coronado Inn.

"The time is later than most of us even dare to think for the determination of our enemy could spell our ultimate destruction and the destruction of all free institutions," the speaker stated.

Golden, along with 29 other university presidents, made an extensive tour of Russia several months ago and used his experience as the basis for his opinions.

"Even within our own society, there are elements which would subvert our form of government and ripen us up for a take-over," the speaker continued. The internal and external threats both need close examination and active opposition, according to the New Mexican.

"The Communist timetable for the taking over of the United States was, until a few years ago, 1974. Then, events on the international scene as well as internal attitudes as analyzed by the Communists subsequently moved that date up to 1973. When I say that it is later than you think, I ask you to take notice that this date has now been advanced to 1969," the speaker said.

Urging everyone to improve his own understanding of the Communist situation, he said: "I am not a Communist. I am a Republican. I am a Democrat. I am a Socialist. I am a Communist. I am a Republican. I am a Democrat. I am a Socialist. I am a Communist." (See ROTARIANS, Page 3)

Allies Pledge Measures To Keep Laos Neutral

Ministers Condemn Flagrant Disregard Of Treaty By Reds

BANGKOK, Thailand (UPI) — The United States and its SEATO Allies today promised to take whatever steps may be necessary to preserve a united, independent and sovereign Laos.

They condemned continuing Communist intervention in Laos as a "flagrant disregard" of the 1954 Geneva Treaty.

The statements were contained in a strong, eight-point resolution and a communique published as the foreign ministers of the anti-Communist alliance ended a three-day meeting—the most critical in SEATO's seven-year history.

Delegation members said the resolution was approved unanimously but the key paragraph omitted reference to joint military action — meaning individual members could act even if others did not wish to do so.

The United States, which had urged a strong stand, and France, which balked at committing itself to possible military intervention in Laos, both appeared satisfied.

Secretary of State Dean Rusk said the meeting had "reaffirmed our unity." He warned that all of Southeast Asia is threatened by Communism and said "we shall meet that threat."

French Foreign Minister Maurice Couve de Murville said he was satisfied the resolution "put the emphasis... on a political settlement. Military intervention has never settled a political problem."

The other nations of the Southeast Asia Treaty Organization are Britain, Australia, New Zealand, Thailand, Pakistan and the Philippines.

The resolution said SEATO favored an independent and sovereign Laos and was pleased with present efforts to secure a cessation of hostilities in the jungle kingdom. But it stressed that SEATO would not shirk its responsibility to protect those nations threatened by Red aggression.

The resolution did not place a deadline for a Soviet response to a U.S.-supported British proposal for a cease-fire in Laos to be followed by a political settlement.

Britain's Foreign Secretary Lord Home told newsmen the eight nations were agreed that "all military operations must clearly stop" in Laos before there can be any further moves.

This left the next step up to the Russians.

London Train Loses \$56,000 To "Invalid"

LONDON (UPI) — Trainmen of the 9:47 out of London's Waterloo Station Tuesday night were sympathetic toward the invalid in the wheel chair at Clapham Junction.

There was no place to put him aboard conveniently except in the mail car and the guard, William Defty, 55, gave the male nurse a hand in lifting the man in the chair.

"Are you comfortable?" asked the guard as the train rolled out of Clapham.

"Yes, very," smiled the patient. And that was the start of England's fifth great train robbery since last summer.

He jumped from his chair, knocked out the guard and tied him up. Then he and his companion, the "male nurse" threw five mail bags through the door.

First estimates placed the amount stolen at about \$56,000. The previous robberies, which may have been pulled by the same bandits, netted a total of \$71,120. Two of the others also were accomplished through tampered signals.

Absentees Set School Vote Mark

County Clerk Charlie Thut said late this forenoon 382 absentee ballots were cast in the Pampa Independent District school board election at deadline time yesterday.

The election will be held Saturday. The county clerk said the absentee voting in the school race sets a record.

"It's the largest absentee vote we have ever had in a school election," Thut said.

Absentee balloting in the Texas senatorial race continues through Friday. So far, 276 votes have been cast in that race.

City Secretary Edwin Vicars said today 62 absentee votes have been registered in the city election.

While the school election will be held Saturday, the city and senatorial voting does not come until next Tuesday, April 4.

There are four candidates for office in the school trustee election. They are John Gikas, D. E. Holt, R. D. (Jimmy) Wilkerson and O. F. (Ott) Shewmaker. Two are to be elected for three-year terms.

Candidates in the city election are: For Mayor — E. C. Sidwell, John H. Saunders.

For Commissioner Ward 1 — Lloyd Simpson, Paul Crossman. For Commissioner Ward 2 — E. E. Simmons, James D. Crawford Jr., Newt Secrest.

For Commissioner Ward 3 — Leon Holmes. For Commissioner Ward 4 — Carl F. Thomas, L. J. Flaherty, D. L. Jones, L. P. Fort.

There will be four voting places in the city election, which will be separate from the polling places in the senatorial balloting.

The four city polling stations and the presiding judge for each are as follows: WARD 1 — City Hall, DeLea Vicars.

WARD 2 — N. Fire sub-station, 17th St. Mrs. Harold Wright.

WARD 3 — Ward's Cabinet Shop, 323 S. Starkweather, Mrs. Earl Taylor.

WARD 4 — S. Fire sub-station, 1010 Barnes, H. H. Boyington.

There will be five voting places in Pampa for voting in the senatorial contest. They will be located in Baker School, Horace Manna School, First National Bank Annex, Courthouse, and Cabot Office on W. Brown St.

Girls, Booze Missing; Student 'Fete' Flops

FORT LAUDERDALE, Fla. (UPI) — A city-sponsored dance for vacationing college students flopped Tuesday night because the two main ingredients, girls and booze, were missing.

But the affair, held under the watchful eye of about 25 police officers, put at least a temporary halt to the rioting of the previous two nights which resulted in more than 30 arrests and started officials talking of calling out the National Guard.

Authorities roped off five city blocks, brought in three collegiate combos and told the free-wheeling youths they could dance until 2 a.m.

About 3,000 students showed up.

Rain Or Snow Slated Tonight

The official weather forecast calls for intermittent drizzle or snow in the Pampa area tonight with the mercury dipping into the upper 20s.

High this afternoon was slated for the mid-30s.

Pampa had some light rain mixed with snow early this forenoon. The trend for tomorrow indicates it will get a little warmer but not much.

Tomorrow's high temperature is expected to be around 46 degrees.

Bear equipment means satisfactory work, come see us, Pampa Safety Lane, 411 S. Cuyler, MO 9-3771.

but retreated to nearby beaches after surveying the scene. By midnight, the crowd had dwindled to about 500.

"Looked to me," said one policeman, "like a lack of women and no booze."

Police reported about 60 youths were hauled off to jail Tuesday night on the usual charges — public intoxication, drinking in public, disorderly conduct and disturbing the peace.

Traffic was stacked up for miles on main highways leading into the city, jammed with an estimated 15,000 students vacationing in the sun after cold winter semesters in the North.

Police Chief Lester Holt wore a worried expression and said he expected 50,000 in town by Easter.

Two city judges worked through the day Tuesday, handing out jail terms and fines, including a 70-day term for George F. Dalluge, 22, a senior at Mankato State College, Mankato, Minn., who pleaded guilty to inciting a riot and resisting arrest.

Capital's Cherry Trees In Bloom

WASHINGTON (UPI) — Washington's famed Japanese cherry trees bloomed into full springtime glory today and chances looked good for the annual Cherry Blossom Festival next week.

WASHINGTON (UPI) — Washington's famed Japanese cherry trees bloomed into full springtime glory today and chances looked good for the annual Cherry Blossom Festival next week.

SPELLING CHAMPS — Miss Pat Ludeman, left, daughter of Mr. and Mrs. Martin Ludeman, 806 N. Frost and eighth grade student in Pampa Junior High School, was declared winner of the Gray County Spelling Bee and Miss Marilyn Milliron, daughter of Mr. and Mrs. Ralph Milliron, 933 Terry and sixth grade student at Travis School, the winner of the Junior Bee in the Gray County Spelling Bee Contest held yesterday morning in Pampa High School. Both girls will represent the county at the High Plains contest to be held April 29 in Amarillo. (Daily News Photo)

Italy Spurns U.S. Storm Aid Handout

ITALY, Tex. (UPI) — The tiny town of Italy turned down a helping hand from the government because the federal treasury is in such poor shape.

A tornado all but flattened this community of 1,183 persons, located about 40 miles south of Dallas, on Sunday night. Mayor Robert D. Windham estimated damage at more than one-half million dollars.

Congressman Olin Tague, D-Tex., wired the city council Tuesday that Italy probably could get federal disaster relief if it wanted it.

Russell Bryan, editor of the Italy News Herald, sent Teague a telegram in reply: "The city council authorizes me to thank you for the offer of federal disaster funds. We feel the federal treasury is in worse shape than Italy... and suggest that any allocation set up for Italy be applied to the national debt."

Urging everyone to improve his own understanding of the Communist situation, he said: "I am not a Communist. I am a Republican. I am a Democrat. I am a Socialist. I am a Communist. I am a Republican. I am a Democrat. I am a Socialist. I am a Communist." (See ROTARIANS, Page 3)

Bellyache Gulch Scene Of Birth During Blizzard

YREKA, Calif. (UPI) — Born in a blizzard at Bellyache Gulch? A likely story, Patrick Kevin Devlin.

But doctors at Siskiyou County Hospital today confirmed that U.S. Forest Ranger Robert Devlin helped his wife deliver a son during a blizzard on the Salmon Mountain Road.

Mr. and Mrs. Devlin and their 16-month-old son started over the Salmon Mountains Saturday night in a blinding storm.

They made it past such historic spots as Jumpoff Joe and Jolly Joe, but when they got to Bellyache Gulch, they were unexpectedly joined by Patrick Kevin, 6 pounds 14 ounces, and doing fine.

Ex-Law Student Held For Robbery

WICHITA FALLS (UPI) — Tom Gene Scott, 32, a husky former law student, surrendered to police Tuesday to face charges of robbing a Texas Ranger.

Scott, who weighs 290 pounds, graduated from Texas Tech at Lubbock and attended law school at the University of Texas.

He has been sought since Feb. 18.

John Morley Speaks—

Writer Tells Pampa Club Of World Hope

By WID GILBERT Daily News-Staff Writer

Hope reigns in and for the world, John Morley, global newsmen, told members of the Top O' Texas Knife and Fork Club Tuesday night.

Morley, who regularly travels to the world's trouble spots for his information, spoke in the high-school auditorium following a dinner session in the cafeteria.

Dr. J. L. Chase served as master of ceremonies. Morley was introduced by E. Roy Smith. Approximately 300 persons attended the luncheon and heard Morley speak as "An Eye-Witness To History."

Laying a foundation for his recounting of some of the world's most significant events which he witnessed and for his interpretation of them, Morley said it was his job to cover most news areas of the world and translate what I see as a Christian and in God's truth and without reference to

propaganda, diplomatic expediency or without pulling any punches.

"News is news," he continued, adding that, "news is not always the truth, especially when it comes from so many areas of the world." It is however, he explained, "the responsibility of a newsman to report what he sees and hears and to separate the fallacy from the truth."

With this as a background Morley declared there is "the area of the public, often one of misunderstanding." This he credited to "the fact that most people are negative. We approach toward everything we see in a minus way."

He illustrated by saying if one asked another, "How do you feel?" the response might be, "I have an awful pain in the neck," without reference to the many muscles in the torso that were "just fine."

This, he said, people go to Russia and without reference to

(Continued From Page 1)
 and return within a few weeks and translate what they saw as facts. They come home with definite opinions about the political complexities of the country.

Morley reminded the audience that every four years in this country candidates for public office "create an atmosphere of fear and try to scare the people out of their wits."

"When I hear every four years that my country is going to wreck, I notice how anxious they are to grab it off. Our country is in wonderful shape. We pinpoint the tragedies, because the tragedy is more newsworthy than the normal. Take a trip any direction out of Pampa. Go to Amarillo. When we return, we tell of the accidents we saw, not the many we did not see. The National Council of Safety will tell us that 400 persons will be killed during a holiday period. "They do not tell us of the 40 millions who escape without a scratch. Nobody is interested in the 40 millions."

Morley then sketched what he considers the hopes of the world, despite the areas of concern and of tragedy.

"Declaring he was more conscious than the average individual of the treachery and deceit of Communism, Morley pointed to the hope there is in Russia. He said there were more Baptists in Russia than there are Communists. There are 6,500,700 members of the Communist party in Russia. There are 6,900,000 Baptists. There are 7,000,000 Hebrews and Buddhists, in all a total of 200,000,000 Christians in Khrushchev's land with faith in God, including Moslems who daily pray, some of them under the windows of the Kremlin. "But, he added, "Christianity is not as explosive as Communism."

"There is hope in the realm of education. He said that many go to Russia and see Moscow university and proclaim the Russian education system.

"But did you know," he asked, "there are more colleges and universities in Texas than there is in all of Russia. Everytime I hear someone brag about the educational system in Russia, I shudder."

Morley said he looked at construction and other achievements in America, magnificent buildings, advances in medicines and other fields and asked, "Whose education trained these men?"

Another hope held forth by the speaker was in the realm of science. He admitted that Russia, emphasizing studies in space, had perhaps excelled the U. S. in a limited area in rockets. He said he had witnessed missile tests in the U. S. and "if we fail we tell about it." He saw such tests at close range. He had also been in Russia during such tests and reporters are not allowed within a thousand miles of the testing sites, being compelled only to report what is told them.

"And Russia has never had a failure," he added sarcastically. "This," he continued, "people get the impression they are much further ahead of us than they are."

"Prestige of the U. S. is another area of hope, he also pointed out. He said he had heard that "our country is hated." He told of seeing a TV portrayal of the Latin-American people, and "how they hated us." He said the network "could not find a handful of people in all Latin American who loves us." That, however, is not so, he declared.

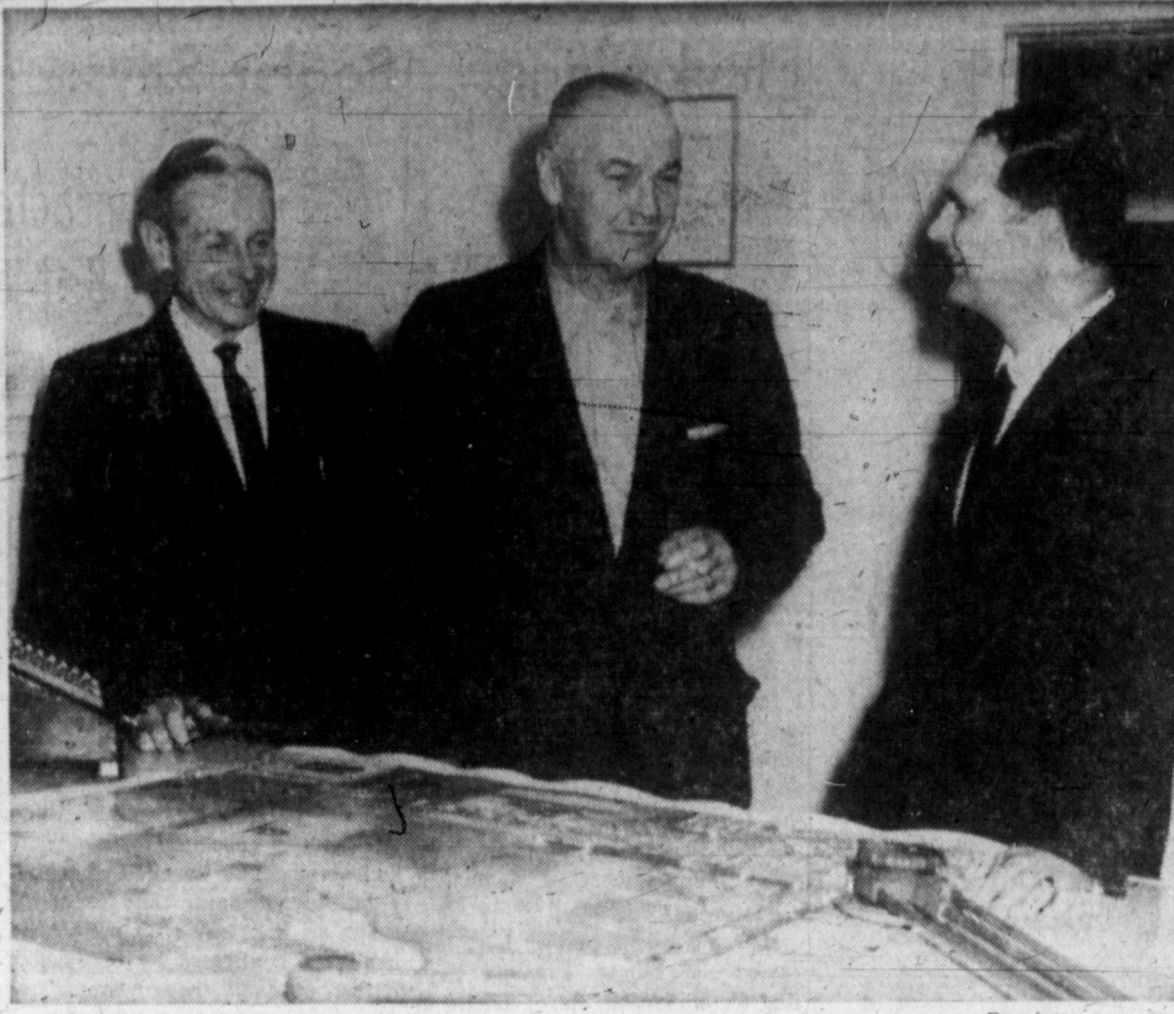

Pointing out there is a difference between disrespect and disagreement, Morley said countries may disagree with the U. S. and at the same time have respect for the nation. He pointed to the UN where the U. S. has never lost one vote as a vivid illustration of the nation's prestige. He pointed to the U-2 incident, which he called a violation of international law, yet the U. S. position was upheld by the UN. He pointed to the Suez position where the U. S. told Britain and France to get out. Yet those nations are the strongest friends of the U. S.

Americans travelling abroad, enjoying the best of everything for themselves, sometimes create envy and resentment, yet the prestige of the nation remains everywhere pre-eminent, he said.

Among the best allies of the U. S., Morley asserted, are the Russian people "because they hate the Soviets as much as you do."

"Another hope is in the fact that the youth of the communist dominated country are opposed to the atheism of the leaders. The youth of those countries are actually in rebellion, he said, pointing to Hungary where the sensational uprising against Russia was led by the youth of the land.

Still another phase of life in the world from which hope springs is in the fact that wherever Communism takes over they lose converts. He pointed to Moscow university where once more than 1,000 Chinese were in attendance. Not, because the Russians were

INSPECT NEW QUARTERS — City, county and state officials were guests this morning at an open house inspection of the new State Highway Dept. building here. Shown around one of the tables in the drafting room are, from left, Gordon Lyons, chamber of commerce vice president; G. K. Reading, Pampa resident highway engineer, and Don Cain, county attorney.

Life Term Meted Girl In Killing

LUFKIN (UPI)—Joan Brock, 28, a pretty brown-haired San Antonio party girl, stood on shapely legs that trembled and she fought back tears as the foreman of the jury said in a quiet voice: "We find the defendant guilty of murder in the first degree."

Then the jury announced it recommended life in prison rather than death in the electric chair as the state had demanded.

Miss Brock, with a faint smile and an audible sigh of relief, sank back into her chair and turned to deputy sheriff Jesse Havard.

"I might beat life... but I couldn't beat old sparky," she said.

She and Dennis Woodbury, 30, a former Golden Gloves boxer also from San Antonio, were accused of the murder of W. S. Carpenter, 43, on election night last November.

He was kidnaped from his store in Tyler, and taken to an isolated spot near Lufkin, dumped, bound hand and foot in a patch of woods and shot in the head several times.

Woodbury, an ex-convict, is scheduled to go on trial for the murder next.

Miss Brock signed a statement admitting that she killed Carpenter when he refused them narcotics by twisting his necktie with a screwdriver. She said that she shot him near Lufkin "just to make sure," and that Woodbury had no part in it other than to accompany her.

Kiwanians Hold Children's Night

A discussion on what the Shriners do for crippled children formed the basis of the program presented at the special children's night of the Top O' Texas Kiwanis Club in the Coronado Inn last night.

Bob Ruble of the Key Club and Dale Cox were club guests. Downtown Kiwanis interclub members attending were J. C. Hopkins, Malcolm Denson, Warren Hasse, Roy Kay and Aubrey Jones.

indoctrinating the Chinese with their own doctrines, there are only a very few Chinese students. That, he said, is an example of the turning of people from Communism in those countries in which they reign today.

Finally, he said, recounting a visit to Boris Pasternak, Pulitzer prize-winning novelist, now dead. Morely pointed to the hope there is in Christianity. During his visit with the famed writer, whose prize was denied him by his government, Morley was told "whenever the palace challenges the stable, the stable always wins," reference being to the challenge of the rulers at the time of the birth of the Christ child, the child emerging the world victor.

"What more hope could there be in the world," Morley concluded. A question and answer period followed the address during which Morley declared it is "no more possible to co-exist with Communism than it is to co-exist with cancer."

Open House Held In New Highway Office Building

State Highway Dept. officials held an open house and coffee this forenoon in their new office building on Hwy. 60, east of the Pampa city limits.

Guests included city, county and chamber of commerce officials from Pampa and officials of the District State Highway Dept. in Amarillo.

The one-story structure houses all resident state highway offices including the permit office which has been moved from the Chamber of Commerce office in City Hall.

The new office building also has a drafting room, conference room, laboratory and office of the resident engineer, G. K. Reading.

Among the guests at this morning's open house was Charles W. Smith, highway district engineer from Amarillo.

Scores of visitors passed through the offices between 10 a.m. and 12 noon today.

Pigeon Racing Season Opening Set Saturday

The racing pigeon season in the Top O' Texas begins Saturday with a flight from Frederick, Okla. to White Deer, a distance of 159 air miles. Seven flyers expect to have approximately 40 to 50 pigeons in the race.

Entrants in the race will be countermarked and shipped from the home of Walter Thoms in White Deer, tomorrow night for release at 7 a.m. Saturday. Any interested persons are invited to witness the activity, Thoms said today.

The Top O' Texas Racing Pigeon Club, with a membership of nine men, plans to fly eleven races this Spring, beginning with the race Saturday and ending with a 500 mile race from Houston, June 10.

Basil Pettit is club President this year. Other officers are Jerry Bonal, vice president; Buddy Epperson, secretary-treasurer and Walter Thoms, race secretary. Members include Keith Alley, Darrel Dupuy, Jim Cantrell, Bill Dycus and Delbert Thurman.

Rotarian

(Continued From Page 1)
 mist menace and to fight it with all his resources, Dr. Golden concluded his talk by saying that the free world and the United States have never before faced such a formidable challenge, but he felt that with will and determination, victory could, in the end, belong to those who believe in freedom.

Senate

 of San Angelo to set the filing fee for statewide elections at \$1,000. It would reduce several fees but would substantially increase the \$50 fee for U. S. Senate that attracted 71 candidates to the April 4 special election.

PUBLIC WELFARE House members gave tentative approval to a proposed constitutional amendment to extend a \$1,500 homestead exemption to persons over 65 for city, school district and special tax district to ad valorem taxes.

INVESTMENTS — A bill by Sen. Hubert Hudson of Brownsville to let the state invest money in the permanent school fund in excess of \$400 million in corporate stocks and bonds passed the Senate and was sent to the House.

GOP Preparing For Hard Fight Over Wage Plan

WASHINGTON (UPI) — Senate Republican leaders today promised an all-out fight against President Kennedy's \$1.25 an hour minimum wage proposal despite new administration concessions.

Senate GOP Leader Everett M. Dirksen told a reporter he would seek to trim the compromise administration bill in committee. If that failed, he said, he would "make a fight on the Senate floor."

Chairman Pat McNamara, D-Mich., of the Senate labor subcommittee introduced the compromise Tuesday. He said it was "apparent that some problems had to be solved before a strong wage bill could be enacted."

The measure calls for coverage of about 4 million new workers, compared to 4.3 million in the original administration bill. It would retain the gradual increase in the wage floor to \$1.25 an hour for both new workers and the estimated 23.9 million now covered by the Wage-Hour Act.

McNamara told the Senate it was drafted "in consultation with the administration and has its approval."

Action on the bill was put off until after the brief congressional Easter recess. Senate Democratic Leader Mike Mansfield told reporters he hoped the bill would be out of committee by April 11 and the Senate could act by April 14.

House conservatives dealt Kennedy a sharp setback last Friday by killing off a similar compromise bill by a one-vote margin. It then passed a bill limiting coverage to about 1.4 million new workers and holding the wage increase to \$1.15 an hour.

Texan Appointed Oil Agency Head

WASHINGTON (UPI)—Daniel Burford Purvis, a Texas oilman from San Antonio, has been named head of the Federal Petroleum Board (FPB).

The appointment by Interior Secretary Stewart L. Udall was announced Tuesday. As board chairman, Purvis will police all oil industry activities under the Connally Hot Oil Act, which prohibits interstate shipment of petroleum produced in violation of state conservation laws.

Career Wanted For Gable's Son
 HOLLYWOOD (UPI)—The late Clark Gable's son is going to be encouraged to follow a career other than show business. "Clark always said one actor in the family is enough," Mrs. Kay Gable said Tuesday when she left Hollywood Presbyterian Hospital. She gave birth to Gable's only child March 20.

Dog Poisoning Reports Probed By City Police

City police today were investigating reports that a new rash of dog poisonings has broken out in Pampa.

Police Chief Jim Conner said two reports of deaths of dogs by poisoning had been reported within the past two days.

One of the cases was reported from E. Foster St. and another on S. Sumner St.

"There is a state law against placing poison for dogs," Chief Conner said, "and we will prosecute violators to the full extent if apprehended."

The danger of placing poison for dogs, Chief Conner pointed out, is that it may be picked up by small children and could possibly result in a human fatality.

A. C. Thornburg Found Dead On White Deer Ranch

WHITE DEER (Sp) — An autopsy was being conducted in Amarillo this afternoon to determine the cause of death of Alva C. Thornburg, 40, widely known Panhandle rancher, whose body was discovered late yesterday afternoon lying on the kitchen floor of his ranch home, two miles west of here.

Carson County Sheriff Don Nunn at Panhandle said today there was no evidence of foul play and that Mr. Thornburg is believed to have died of a heart attack.

Sheriff Nunn said the body was discovered about 5 p.m. yesterday.

Mr. Thornburg is survived by his wife, Freda, two daughters and a son. The body was to be returned late this afternoon to the Poston Funeral Home in Panhandle.

The Pampa Daily News

YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from the government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

This newspaper is dedicated to promoting and preserving YOUR freedom as well as our own. For only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

Rout The Appeasers

A thoughtful, patriotic American citizen can hardly contemplate the situation in which we find ourselves without deep feelings of chagrin and dismay. Neither does it add to our comfort to remind ourselves that our difficulties stem principally from the mistaken policies of our own government during the past quarter of a century.

As we have many times said, communism threatens our very existence today only because we not only have tolerated it but helped it to grow strong and to expand.

Without reciting again the long list of dismal facts from recognition more than 25 years ago — moral, financial and military help without which communism would long since have collapsed — we have only to remind ourselves that the Communist debacle in Cuba is directly chargeable to the policies pursued by our own government.

Basic Evil Of Unionism

U.S. Attorney General Robert Kennedy, the President's brother is said to have sought his particular post in the federal government because he is determined to prosecute successfully Teamster Union Boss James Hoffa.

"Jimmy" Hoffa is presently under indictment. Certainly, his activities and associations have alarmed the entire nation. If federal prosecutors can produce evidence of wrongdoing by Hoffa & Co., the country will not be displeased.

With equal certainty one can say that good Americans welcome all efforts to root out corruption in unions. It exists all right, for ample evidence was laid on the record in the course of the McClellan Committee hearings in which Robert Kennedy served as special counsel.

There are, yet other reasons why restraints must be imposed on Big Unionism. Mr. Wright cites how unions "destroy independent management... cut down capital formation... and so on. Indeed the unionist philosophy is one that retreats rather than advances an economy. If one reads the speeches and papers issued by union leaders, one quickly sees

Looking Sideways

By WHITNEY BOLTON

NEW YORK — Although I am not exactly hustling bids from the undertakers these days, it is a fact that a prudent man must, from about the time he is 3-years-old, face the fact that he isn't getting any younger and that preparation for the final exit should be part of his thinking.

I am not talking now about those lugubrious ads in which a family of four, with the longest faces I ever have seen, are shown emerging from a cemetery lot sales office, but merely about realism and one's life — and the possible end of it.

A few weeks ago, in doing a piece about music man Meredith Willson, I said that when my time came to get in the box and stay there I didn't want any sad songs or drearying tears and that I could think of nothing more exciting than to have Mer and 76 trombones right up front blasting the flowers off the casket.

Here is part of a letter from Mer and Mer is a man of honor. When he says he will do something, he'll do it.

Well, now Mer, that's mighty nice of you and I don't want it changed. I want you there to conduct them and all 76 horns polished up and shining like gold in the sun and I want them to rip right into "76 Trombones" from "The Music Man" as a starter at the chapel.

There was a male character, a rich Long Island millionaire of advanced years, in a play called "Suburban Fair" and his hobby was going to the funerals of his friends and being a sort of drama critic of the obsequies.

There's no evidence as yet that Red China has troops in Laos. "The Communist Chinese have a 'thrift capability.' Intelligence Director Dulles told a group of bipartisan congressional leaders.

Editor: I oppose "The Peace Corps" advocated by President Kennedy, it will be a burden on the American people, because it will be financed and supervised by the government.

It won't be for me. I hope to hear those trombones. Even faintly.

Damocles Had It Easy

Allen - Scott Report

Test of Kennedy Administration, Soviet Equipment Two Motives in Russia's War-Risking Laos Operation

WASHINGTON — Central Intelligence Director Allen Dulles is convinced four factors are primarily at the bottom of Russia's deliberate risking of war in Laos:

—Because Soviet military leaders deem that land-locked, jungle-covered country our weakest point throughout the world.

—Because they hope by exerting pressure on the U.S. to impel us to ease our strong support of the United Nations in the Congo, where Russia suffered a stunning setback in its machinations to seize control of that newly-independent country.

—Because they wish to retaliate with pressure against India for backing the UN in the Congo.

—Because they wish to retaliate with pressure against India for backing the UN in the Congo.

Another great corps, which we already have are our missionaries, and other dedicated volunteers established throughout the world. They have built schools, hospitals, and taught the people better ways of earning a living.

Hankering

Thinks Working In Garden Is For Birds

ROME, ITALY — It was our misfortune to rent an apartment in Rome with a garden.

The agent must have known how I feel about gardens and gardening because he kept the blinds down when showing us the place, and it was not until I had signed the lease and made a whopping big deposit that I realized my non-green thumbs were up against it again.

Had the agent played fair, and raised the blinds, I would have fled to the second, third, fourth, or fifth floor and been happy with my lone cactus plant on the window sill.

Once a man has a garden there is nothing for him to do but do something about it. This is, especially true of a man with a wife, for it is an unwritten part of the marriage vow that a husband promises not to allow a garden to beat weeds and weeds alone.

Besides, husbands who do not garden are looked upon with suspicion by their neighbors, and that is as true in Italy as in the United States.

In the past, I have often tried to do my own gardening instead of honestly admitting that I don't like the stuff, and haven't the ability to grow a dandelion in a barnyard.

This time, here in Italy, I came clean. And I feel better for it. I engaged a gardener to come ready the soil and put in the ground what he thought would grow and look pretty.

Several little shoots already have made their appearance and I have looked them over carefully in the mad hope of identifying them. I certainly can't be sure, but I believe there is a redwood tree starting in the right hand corner. I'd like that.

Pegler Says:

Character Not Race Found To Be Main Thing In Life

The goodest America of the graduating class of Horace Greely School, Chicago, 1907, is a dark woman with gray hair, grown children, grandchildren and one great grandchild.

Her mother was a German and her father a hybrid of Cherokee Indian and African slave stock. She was a coppersmith, tall and strong.

Lovely has told me of the sadness which set in when she entered high school and the white girls who had been so freely friendly at Horace-Greely became self-conscious and offish.

Now she is toward retirement on pension from people - relations at Campbell's Soup - both in Chicago and in Camden.

The Cherokee of Oklahoma included ante-bellum slaveholders who inevitably mingled their blood with the blood of their slaves.

I'd bet it was a weeping willow just beginning to feel sad.

The only part of gardening I am good at is watering. And I owe this all to my daughter, Megan, who would rather play with the hose than eat ice cream.

Only hope the little plants can swim. If they can't then they are dead ducks.

Character Not Race Found To Be Main Thing In Life

are those who are, as they have set to stipulate, "about one-sixteenth." Thus they can be "Indians," but not dark Indians.

"I am so glad of my heritage the best in my mother and father. From her, that good old German, common sense and stability and the courage to hold my own in any situation.

My husband and I enjoy our life. Our three children hold good positions, our grandchildren are fine students and good children and are blest and grateful.

"I feel fine identified as a Negro, placing character above all else. Mother taught us that there was nobody better than we and every word. Father said material things meant little, character everything.

"May God continue to guide your pen. And keep your faith in yourself. Best wishes, Lovelyn."

Traditionally, the Portuguese have gotten rid of houseflies nature's way. They ransack hillside for a fly-catching plant called the "slobbering pine" and hang it in their homes.

The hair length you pick for spring depends very much on your own personal wishes this year. But whatever the length, the styling should be smart. Short length (left) is set with fat rollers to achieve rounded height and wispy banes. Long hair (center) is styled and set to conform to current hairstyles. The woman who wants to keep her long hair need not be outdated. Girls in their twenties often like a casual hairdo (right). But even this one is styled with-out part and set on rollers. All styles shown here depend on expert cutting and a soft permanent.

Rebekahs Fete Lodge Officers

Pampa Rebekah Lodge No. 355 honored its officers at a banquet held Friday evening in the IOOF Hall, 800 E. Foster.

Mrs. Gladys Mayo as noble grand and Miss Grace NeCase as vice grand with their officers for the term of January-June were honored guests.

Dining tables were appointed with white cloths centered with floral arrangements of pink roses and shamrocks flanked with pink and green tapers. Mrs. Leone Stenbridge was in charge of the banquet.

Vernon Hall as emcee introduced the evening's entertainment which included music, songs and readings by Theta Rho Girls Club and Junior Oddfellows.

Mrs. F. E. Matheny at the piano provided dinner music and for dancing following the banquet.

Approximately 85 members and guests attended.

Winners Told For Better Baking Contest

Miss Sharon Wheetley of Wayside-Gray County Court House Annexette 4H Club was named first place winner in the Pampa 4H Better Baking Contest held in the alternate.

In the competition the contestants entered plain bread muffins, cinnamon rolls, and their 4H records. All entries were scored and ribbons awarded according to score. Records, rolls, and muffins each counted a third toward the choice of contest winner.

Other girls who made high total scores were Misses Kathy Davis and Connie Burger of Grandview 4H Club, and Miss Phyllis Dalsing of Cloverette 4H Club.

Ribbons were awarded as follows:

First Baptist Church Women's Units Meet For Royal Service Programs

Women's Missionary Union of First Baptist Church held mission book studies recently in the home of members with the following reports:

DORENE HAWKINS CIRCLE met with Mrs. Charles Miller with Mrs. O. T. Edgerton offering opening prayer. Mission book study, "A Dreamer Cometh" was presented by Mrs. L. V. Hopp. Closing prayer was by Mrs. Charles Miller. Mrs. W. M. Chester was welcomed as a guest. Four members were present.

WINNIE TRENT CIRCLE met with Mrs. P. G. Turner with Mrs. Orville Batson giving opening prayer. The business meeting was conducted by Mrs. G. E. Groninger and the Royal Service program was conducted by Mrs. Doug Flynn. Closing prayer was by Mrs. Lamond Stovall. Mrs. C. A. Gibson of Oklahoma City and Mrs. Gussie Archibald were introduced as guests. Eight members were present.

OLETA SNELL CIRCLE met with Mrs. Douglas Carver with opening prayer by Mrs. Lida Ramsay. Mrs. Bob Williams presided at the business session followed by the Royal Service program given by Mrs. Bob Williams. Mrs. Owen Johnson offered closing prayer. Mrs. Owen Johnson, WMU president, was a circle guest. Six members were present.

JACKIE SHAW CIRCLE met in the home of Mrs. Tommy Burns

with Mrs. Mabel Winters offering opening prayer. Mrs. Burns conducted the business meeting and the Royal Service program. Mrs. Dean Evans was introduced as a visitor. Seven members were present.

BETTY SPIEGEL CIRCLE met in the home of Mrs. Henry Stephens with Mrs. Lee Moore offering opening prayer. Mrs. Paul Turner presided at the business meeting which preceded the program, "Safeguarding Our Youth." Mrs. L. V. Hollar dismissed the ten members present with prayer.

Mrs. Keith Wagner and Mrs. Donald Stephens were welcomed as guests.

KEZZIA MAE SEARIGHT met with Mrs. J. A. Wagner. Opening prayer was offered by Mrs. S. B. Syper and Mrs. L. H. Greene the closing prayer. Mrs. C. L. McKinney was in charge of the business meeting. Mrs. Bob Andis presented the Royal Service program. Other members present were Mmes. A. French, E. H. Ousley Jr., T. V. Lane.

ANNE MITCHELL CIRCLE met with Mrs. Paul Miller with Mrs. G. L. Wilson offering opening prayer. Mrs. Mike Porter was in charge of the business meeting followed by the Royal Service program "Safeguarding Our Youth Against Narcotics." Mrs. Doshia Anderson dismissed members with prayer. Others attending were Mmes. Floyd Barrett, Shirley Nichols and John Gikas.

For muffins — blue ribbons to Burger, Gail Green, Jennifer Cunningham, Phyllis Dalsing, Roselle Baggerman, Sharon Wheetley.

For muffins — red ribbons to Misses Leahwanna Nowlin, Andrea Phyllis Dalsing, Sharon Mackie, Juanita Miller, Elaine Nichols.

For muffins — white ribbons to Misses Sue Thacker, Lodema Cole, Charlet Couts, Angela Cunningham, Laura Rebecca Buck, Sharon Mackie.

For cinnamon rolls — blue ribbons to Misses Kathy Davis, Sharon Wheetley, Gail Green, Elaine Nichols.

For cinnamon rolls — red ribbons to Misses Kathy Davis, Phyllis Dalsing, Sharon Mackie, Andrea Jewel, Roselle Baggerman, Janice Mackie.

For cinnamon rolls — white ribbons to Misses Judy Stone, Juanita Miller, Leahwanna Nowlin.

The girls also took part in a judging contest. Miss Charlet Couts was best judge of muffins, with Misses Sharon Mackie and Connie Burger tying for second place. Misses Burger and Sharon Mackie tied for first in judging cinnamon rolls — with a 3-way tie for second — Miss Sharon Wheetley, Kathy Davis and Janice Mackie.

Mrs. Kindie Feted At Lullaby Party

LEFORS (Spl) — Mrs. Billy Dan Kindie was honored recently with a pink and blue shower in the civic center.

Hostesses were Mms. Ralph Carruth, H. D. Cox, M. F. Tibbets, W. K. Davis, C. E. Fenno, J. R. Roberson, J. N. Smith, Jeff Bradley, Earl Lane, Alton Flinchum, Roy Jeffreys, and W. G. Hughes.

The honoree was presented a corsage of pink carnations. Assisting with gifts was the honoree's mother, Mrs. John Carpenter; her sister, Mrs. Charley McCarthy; and her mother-in-law, Mrs. D. L. Kindie.

The sewing table was appointed with crystal cups, white plates, pink and white napkins and centered with a large white rabbit in nest of pink grass, surrounded by tiny marshmallow rabbits, which were given as favors.

The pink and white cake decorated with an Easter Rabbit was served by Mrs. W. K. Davis, as Mrs. C. E. Fenno-poured the punch from a crystal bowl.

The guest register table was covered in pink, and carried out the Easter theme with tiny little baskets holding eggs.

Guests were Mmes. Keith Geisler, Bill Stracener, Doyle Harris, J. V. Guthrie, Charles Roberts, Fred Kindie, A. T. Cobb, E. G. Fenno, Annie Fenno, and R. C. Ogden.

Calvary WMU Observes Week

Calvary Baptist Women's Missionary Union observed its annual Week of Prayer for Home Missions and the Annie Armstrong offering recently. The theme for prayer week was centered around "My Prayer To God" with daily programs given under the direction of Mrs. Bert Mitchell.

Appearing on the programs throughout the week were Mmes. Jack Gainer, Robinett Willis, A. W. Lunsford, C. E. Humphries, C. R. McGaheen, Kenneth Ward, Bob Cliett, Luther Lindon, Truman Luther, Lindon Sanders, Ennis Hill, R. R. Hawkins, L. H. Terry, J. D. Brewer and Travis Winegeart.

HATS—ALL SHAPES

The turban, the sailor and the cloche, all hardy perennials, appear again this spring. Look for them when you start out to shop for a hat. One of these silhouettes will be flattering to you.

HAVE A SNACK

Gala who are underweight should try having a snack about four o'clock each afternoon, and, if possible, take about 10 minutes to relax completely at the same time.

Social Meeting Held By Class

GROOM (Spl) — The Torch-bearers Sunday School class of the Methodist Church met in Fellowship Hall in the church recently for its monthly social. Hosts were Mr. and Mrs. Gene Carter, Mr. and Mrs. Walter Garmon.

Games of 42 were played. Refreshments of German chocolate cake and ice cream were served to Mr. and Mrs. Earl Barker, guests; and members, Messrs. and Mmes. Leldon Hudson, Ernest Lamberson, Jack West, Wright McGee, Curtis Schaffer, Austin Crowell, Jim Littlefield, Ted Major, Glynn D. Harrell, Alton Goodin.

Dear Abby...

Here Age Is No

Minor Detail

ABIGAIL VAN BUREN

DEAR ABBY: My son is only 17 but he is big for his age. He is running around with a woman who is far too old for him. She has given him money, bought him gifts, and lets him drive her car. Is it any wonder he thinks she is wonderful?

Lately he has been spending more time with her than at home. At first he said she was only a friend, but now he has been talking marriage! I am against it because I don't want a daughter-in-law who is two years older than I am. Can you help me? I am going out of my mind. I have had no husband to help me raise this boy.

WORRIED WIDOW DEAR WORRIED: You obviously have no control over your son, so perhaps a mature friend, relative or pastor will come to your rescue. The woman should be investigated. There could be legal as well as moral involvements, if the woman is guilty of contributing to the delinquency of a minor.

DEAR ABBY: What does a girl need to have friends besides beauty, personality, brains, clothes, talent, poise and charm?

COOKIE DEAR COOKIE: "Humility."

DEAR ABBY: I am engaged to a young man. Last night he went out with a married woman (she has two small children) and they went parking. He said he had to find out if he still loved her. He came back and told me he didn't love her any more and he loved me. He promised not to see her again, but he lies so much, how can I believe him? I would like to write to her husband (he is overseas) and tell him what his wife is doing to him, but I hate to hurt their children. Should I get in touch with this woman and tell her if she doesn't keep her

This Spring You Can Pick Your Own Hair Length

Although short hair is becoming increasingly popular among American women today, the secret of a beautiful coiffure is not necessarily in the length.

But whether your hair is short, medium or long, it should be styled to conform to current trends.

It's true, of course, that what's current isn't always what's best for everyone. However, the present trend toward simple hair styles, waved so softly that the hair is

practically "straight, with shape," is flattering to every woman.

You may resist the short hairdos because they're not practical for you. You may rightly decide that your face is so shaped that medium-length hair is best. Or you may want to wear your hair long simply because your husband prefers it that way. But be sure to have it shaped so that it can be worn in the bulky "trace of a wave" look that is so feminine and pretty.

When you have your hair done professionally, you'll notice that it is set to be worn without a part — or perhaps just the trace of one. And it will be set on jumbo rollers to give the soft, full look.

Hair styles are not as bouffant as they were last spring, but they're far cry from the tight curls of the past. And the roundness can only be achieved when the hair is set on large rollers.

This has the added advantage of timesaving when you do your own hair. The rollers go up in just a few minutes, and once your hair is correctly styled, you can easily care for it yourself between settings.

The new look does require more body than tight pin curls, and if your hair is straight, you should have a body permanent wave to help. This should be done on extra large waving rods except at the neckline.

When you remove the rollers, you'll find that your hair falls beautifully into place if it is brushed vigorously first.

A survey of the leading New York salons, conducted by the Lilt Reference Service, shows that all three hair lengths are being worn in New York — but all have the wide, almost straight look.

So resist the short hairdos if you don't want to submit to the hairdresser's shears. Just have hair expertly shaped; wear it full and waved slightly. You'll be as much in the fashion picture as the gal with the brief coiffure.

Yes, Abby will answer your letter personally if you write to ABBY, Box 3365, Beverly Hills, Calif., and enclose a stamped, self-addressed envelope.

For Abby's pamphlet, "What Teen-agers Want To Know," send 25 cents and a long, self-addressed stamped envelope to ABBY, Box 3365, Beverly Hills, Calif.

Jr. Melody Makers Discuss Auditions

Junior Melody Makers, elementary school age group in Mrs. Fidelity Yoder's piano class, met for a piano workshop session Saturday evening in the home of Miss Peggy Griffin, 2544 Christine, with Mrs. E. J. Griffin serving as hostess.

Miss Jean Prock, president, presided as the group gave the club pledge and prayer. Roll call was answered with the name of a favorite composer.

Mrs. Yoder announced plans concerning the coming National Piano Auditions, which will be held in Pampa in April. Musicianship phases upon which entrants will be judged were discussed by the group.

Solos were played by Linda Chase, Joyce Fischer, Peggy Griffin, Lynda Gunn, Jean Prock, John Scott Skelly, Prudence Skelly, Chuck Wade, Steve Walls, Gail Wilson, Kay Upshaw and Susan Hutchens.

Parents and guests present included Mmes. J. L. Chase, Joe Fischer, J. E. Gunn, Ralph Prock, Michael Wilson, Therman Upshaw, and Mr. Charles Wade and Paul Susan Wilson, and Kathy Griffin.

During the social hour refreshments of punch and cookies were served by the hostess.

District Meet Plans Made At Council Meeting

Plans for District One THDA were to be held April 6 in Dumas were made at the Gray County Home Demonstration Council meeting held in the ourthouse Annex Monday at 2 p.m. with Mrs. A. P. Coombes, chairman, presiding.

During the business meeting reports were given by HD club presidents; secretary's report by Mrs. Jack Howard; Mrs. D. W. Swain, vice president, on the recently held Fat Stock Show; and the treasurer's report by Mrs. Vard Smith.

Attending were Miss Lou Ella Patterson, Gray County HD agent, Mmes. A. P. Coombes, D. W. Swain, Vard Smith, Carl Smith, T. D. Anderwald, Leland Diamond, Roy Frazier, A. W. Dickerson, B. J. Diehl, Shelby Hood, Joe Carlton, Jack Howard, A. M. Nash.

Attendees were Miss Lou Ella Patterson, Gray County HD agent, Mmes. A. P. Coombes, D. W. Swain, Vard Smith, Carl Smith, T. D. Anderwald, Leland Diamond, Roy Frazier, A. W. Dickerson, B. J. Diehl, Shelby Hood, Joe Carlton, Jack Howard, A. M. Nash.

California Man Earns His Living Locating Heirs

HOLLYWOOD (UPI) — If a man named Herb Saxton comes walking up to your house, don't slam the door in his face. He may simply want to give you \$50,000.

That's the way Saxton makes his living, and a good living it is—just telling unsuspecting persons they have had a large piece of money dropped into their laps and all they have to do is reach down and pick it up.

Saxton, who has spent 40 years in the investigation business, began his full-time career of searching out persons who were heirs to unclaimed estates in 1938.

"I do a lot of traveling," said Saxton. "At every place I stop I go to the court house and check on unclaimed estates. There are always many, but I never touch one less than \$10,000."

He said that in many cases where a person dies without a will and his estate is handled by the public administrator, this administrator does not have the funds available or is too overworked to run an extensive search for heirs. Once he has closed the case and it has been approved by the court, Saxton can step in.

"There always is a time element to find heirs to an estate," he said. "This varies in different states. For example in California it is five years, in New York seven, and in Washington State 15. Then the estate goes to the state."

Saxton said he always works alone.

"Once in awhile I hire an investigator to check out some point in a case," he said, "but I make sure he does not know too much about what the case is."

Saxton, although he lives in an apartment overlooking the center of Hollywood, maintains an office in Chicago.

"All my mail regarding estates comes and goes through Chicago," he said. "No matter where I am all my telephone calls are routed through that office so no one knows where I am talking from. That way no one can cut in on an estate after I've spent months or years working on it."

Saxton said he tries to keep about 500 cases working at a 11 times. Of these he solves an average of 10 a year.

The veteran investigator, who served in naval intelligence during World War I and as a lieutenant colonel in the Army Air Corps during World War II, said he always has a case almost completed before he contacts the heir.

"Then I explain what my business is and ask a few simple questions. If these answers match what I already know, I've found my heir."

How does Saxton make his money?

"Once I've established an heir," he said, "I tell him how much the estate is worth. Then I ask him to sign an agreement giving me his power of attorney in the case and between a third and 50 per cent as my fee."

"Once in awhile they balk at first and demand to know why I should be cut in. Usually after I explain the work and expense I've put in, they see it my way. If not,

CANADIAN CANNONBALL—Maple leaf insignia identifies the new CF-104 Super Starfighter as it streaks through the air over Palmdale, Calif. This is the first in-flight photograph of the needle-nosed jet, which is capable of flying more than twice as fast as the speed of sound. Canada is scheduled to produce, under Lockheed license, eight squadrons of Super Starfighters for the RCAF in Europe as part of its contribution to NATO.

Texas Children Are Restricted In Farm Labors

DALLAS — Farmers and commercial growers in Texas were reminded today that they may not hire children under 16 to work in the fields when school is in session. This reminder came from Regional Director William J. Rogers of the U. S. Labor Department's Wage and Hour and Public Contracts Divisions here, the agency which administers the Federal child-Labor Law.

"We especially are concerned with keeping youngsters out of the fields so they will have time to attend school," Rogers said. "And this means children of migrants as well as local residents. The only exception to the law is a child working exclusively for his parents or guardian on their home farm."

The Federal law applies to farmers who ship their crops across State lines or have reason to believe that their products will eventually cross State lines.

To protect themselves from unintentional violation of the law, farmers should ask for and obtain a certificate of age from each youngster," Rogers stated.

In Texas, these certificates are issued as a public service by the Texas Employment Commission.

He said that anyone desiring further information on how the Federal law applies to children in agriculture should contact the Divisions' nearest office. Such offices are located in Dallas, El Paso, Fort Worth, Houston and San Antonio.

The veteran investigator, who served in naval intelligence during World War I and as a lieutenant colonel in the Army Air Corps during World War II, said he always has a case almost completed before he contacts the heir.

Then I explain what my business is and ask a few simple questions. If these answers match what I already know, I've found my heir.

How does Saxton make his money?

Once I've established an heir, he said, I tell him how much the estate is worth. Then I ask him to sign an agreement giving me his power of attorney in the case and between a third and 50 per cent as my fee.

Business Slowdown Fails To Stop Fun

NEW YORK (UPI)—The slowdown in the nation's business activity this past year did not keep Americans from enjoying themselves.

They continued to visit amusement parks, kiddielands, miniature golf courses, golf-driving ranges, drive-in theaters, skating rinks, commercial swimming areas and other tourist attractions.

They spent more money than ever before, some \$2.1 billion, according to the publication amusement business.

The magazine's fourth annual market analysis showed that attendance at these permanently located funspots increased by 25 million last year to 2,077 billion. This attendance rise accounted for half of the \$73 million increase in gross receipts. The rest came from a two cent rise in average per-patron spending to \$1.20.

When other elements of the total amusement market—fairs, circuses, carnivals, arenas, auditoriums and stadiums—are included, the total amusement industry receipts last year were \$2.8 billion.

Highlights of the study point up a developing trend which saw larger facilities gaining an increasing share of business. Karting

tracks and trampoline centers all showed up strongly as types of facilities for the first time.

About 45 per cent of all the facilities have a paid gate, and receipts from such admissions account for nearly 16 per cent of total industry revenue.

And while the facilities were the main attraction to these centers, the magazine's statistics revealed that food and drink continued as the largest single source of income for the centers.

Refreshment stands were the most common type of food facilities at all of the fun spots but there was a noteworthy increase in the number of vending machines. These machines now are in more than 50 per cent of the centers.

Soft drinks again were the most popular refreshment item, with confections, ice cream, cigarettes and hot dogs also ranking high. Principal gains on the popularity list were made by pizza, doughnuts, and specialty foods such as shrimp, lobster and clam rolls.

Looking ahead, the magazine said that as the economy begins to show signs of an upturn, with the resultant increase in jobs and income, the outlook for a good year for business catering to the leisure market will be excellent.

One ounce of atoms, completely converted into energy, would produce enough electricity to last a city of 500,000 a year.

Solons Schedule Minimum Wage Study In April

WASHINGTON (UPI)—The Senate Labor Committee decided yesterday to take up the administration's embattled \$1.25 an hour minimum wage proposal on April 11. Prospects were for quick committee clearance.

Chairman Lister Hill, D-Ala., told reporters after a closed-door committee session he expected the bill would be approved and sent to the Senate floor the same day.

Hill's announcement came shortly after Democratic Leader Mike Mansfield predicted the Senate will be able to salvage the bill, which was trimmed to \$1.15 by the House last week.

It was apparent that some compromise to placate both conservatives and liberals was in the making, but Hill declined to reveal any details.

AF Will Close Base In Florida

TAMPA, Fla. (UPI)—The Air Force said Monday it will close down MacDill Air Force Base on June 30, 1962. It was announced last year that the base would be inactivated because of the Air Force's cutback in medium bomber strength.

Early Coal

First news of coal was brought to Europe in 1275, when Marco Polo, early Italian explorer, returned from China with tales of strange black rocks which the Chinese burned.

Labor Secretary Shuns Dogmatics In Conferences

WASHINGTON (UPI) — Arthur J. Goldberg, the new secretary of labor, isn't the type to bat his head against a stone wall.

Neither is he one to try the impossible.

He believes that for every problem, there's a solution. Some solutions are just harder to find than others.

If he finds one way won't work, he tries something else. And then something different from that until the problem yields.

That's why he's regarded as a whiz in the negotiating room. He never takes a dogmatic, doctrinaire position from which he can't recede.

It was that way when he was trying to help labor leaders get the AFL and the CIO together into a unified house of labor.

There were many who said it wouldn't be done. Too many problems, squabbles, clashing personalities. Jurisdictional feuds particularly were discouraging.

Goldberg produced one formula after another. He finally found one which, while it didn't please everyone and it didn't work perfectly, brought the two powerful organizations together, so they could work out their problems.

If the unification move didn't work perfectly on the local union level — some jurisdictional fights linger and probably will for years — it did unite the two big branches of labor on the political and legislative level.

It was the same when the leaders of organized labor set out to purge unionism of Communist influence, particularly within some of the CIO outfits.

Legal backing for the action was lacking. And it meant a power-battle within the CIO of monumental proportions. But Goldberg devised the strategy to do it, and Communist-dominated unions were either ousted or cleansed.

Goldberg was among the first to urge labor to set its own house in order against racketeers. He helped set up and run the Ethical Practices Code and Committee of the AFL-CIO. Organized labor hoped in vain that the action would keep Congress from passing new legislation against racketeering abuses. But without the ethical practices group, it's certain the legislation against racketeering more drastic.

These are some of the personality facets of the secretary of labor who was scarcely in office when he helped settle a tugmen's strike that threatened the New York metropolitan area. He got a second baptism of fire in office by helping halt the costly airlines walkout in February.

He's considered a middle-of-the-roader, a critic of the labor movement from its own ranks who refuses to close his eyes to its faults and failures. He consulted frequently with President Kennedy during the labor law battles in Congress last year when Kennedy was a senator. The President feels he got from Goldberg facts, instead of propaganda.

Lately, Goldberg has been preaching to labor leaders a philosophy of accommodation with management. To some old-timers that seems like outright heresy.

One thing more: As secretary of labor, Goldberg must administer some laws with which he and other labor men have no sympathy. He'll be watched closely for any sign of bias.

DOWNED DRONE—The trend for compact size seems to have affected airplanes. This tiny craft, the SD-1 drone, is a radio-controlled photo reconnaissance plane being used by the U.S. Army in exercises near Ferrara, Italy. The propeller-driven, pilotless plane has a flight time of about 40 minutes and lands with the aid of a parachute.

Mexico's Enthusiasm For Castro Is Fading

MEXICO CITY (UPI)—Some of Mexico's early enthusiasm for Fidel Castro's Cuban revolution is fading.

But Mexico is adhering strictly to its policy of non-intervention and is a restraining influence both on the United States and other Latin American nations whose relations with the Cuban dictator either have chilled or have been broken off altogether.

Probably no other nation has watched the 2½-year progress of the Cuban revolution more closely than Mexico, Castro's springboard for invasion.

Mexico, even after 30 years, still regards itself as in a state of revolution, so Castro's revolution stirred an emotional response. In addition, there was in Mexico a hatred for Fulgencio Batista whom Castro ousted.

Despite the steadily increasing tempo of Castro's hate campaign against the United States, Mexico has managed to retain cordial relations with both.

A number of factors have contributed to the spreading doubts here about Castro.

One was his crackdown on Cuba's free press. Another has been the influx of Soviet aid and industry, which Mexicans resent. A third was Castro's action in taking his quarrel with the United States to the United Nations outside the American family. Mexicans believe it should have stayed inside the Organization of American States.

Economically, between the United States and Cuba, Mexico finds itself in much the same position as a man suffering from split personality.

American tourists contribute about \$2 million a day to the Mexican economy, and the U.S.-Cuban split opened up the possibility of an even greater flow. Cuba's loss of its U.S. sugar quota also offered the chance of added income.

Against this natural desire for money is Mexico's reluctance to take advantage of the misfortunes of a friend. Mexico would like to act as a friend at court—a situation it realizes is currently impossible.

But in the long run, it believes Castroism is a temporary thing and that eventually Cuba will return to the American family of its own free will.

Bucs Continue Grip On Yanks With 9-2 Win

By TIM MORIARTY
United Press International

Even in spring exhibition games, the Pittsburgh Pirates show no respect for the New York Yankees.

The 1960 World Series rivals met for the first time this spring at Ft. Myers, Fla., Tuesday — and the result was the same. The Pirates, with Bob Clemente and Dick Stuart hitting home runs, pranced to an easy 9-2 victory.

Art Ditmar started for the Yankees against Bob Friend. They each lost two games in the Series last fall. However, Friend enjoyed much better luck this time as he scattered eight hits to become the first Pittsburgh hurler to go nine innings this spring. He struck out seven.

The Pirates, meanwhile, clouted Ditmar for eight runs on as many hits in less than six innings. It was the Yankees' 13th defeat in 18 tuneups, which is just the opposite of the Bucs' spring record (13-5).

Ralph Houk, the Yankees' new manager, claims he's not worried — yet — about the club's poor

form but some old-timers can't remember a Yankee team that looked so futile in spring training.

While the Yankees are having their troubles, the Detroit Tigers are bowling over their exhibition rivals with surprising regularity.

Don Mossi, making a strong comeback after missing the final six weeks of the 1960 season with a sore elbow, raised his spring-time record to 4-0 as the Tigers downed the Cincinnati Reds, 7-5, Tuesday. Mossi scattered seven hits over the first seven innings.

The San Francisco Giants edged the Boston Red Sox, 2-1; the Chicago White Sox snapped the Los Angeles Dodgers' seven-game winning streak, 3-1; the Baltimore Orioles outlasted the Kansas City Athletics, 8-7, in 11 innings; Harmon Killebrew's two-run homer in the ninth inning gave the Minnesota Twins a 3-2 triumph over the Philadelphia Phillies, and the St. Louis Cardinals nipped the Milwaukee Braves, 1-0, in other games.

HE'S A BIGGER BOY NOW

Clark's Two-Hitter Chills AHS, 6 To 1

Champions Accept Bid

NEW YORK (UPI) — Cincinnati and Providence — winners of college basketball's top post-season tournaments — will compete in the 1961 Holiday Festival tourney at Madison Square Garden Dec. 26, 28, and 30.

NCAA champion Cincinnati, which upset previously unbeaten Ohio State in the final, and Providence, surprise winner of the National Invitation tournament over St. Louis, will compete as "guest" teams along with Dayton and Wisconsin.

BUTCH CROSSLAND ... has busy day

PHS Pounds Out 10 Hits, Sandies Fall

By ARTHUR MAYHEW
Daily News Sports Editor

AMARILLO — Shaking off 35 degree weather and a 30-mile-per-hour wind, Pampa's Harvesters backed up Mike Clark's two-hit pitching performance with a 10-hit attack of their own to down Amarillo's Sandies, 6-1, in a District 3-4A opener here yesterday afternoon.

The victory was the Green and Gold's fourth without a loss and catapulted them into a tie for the 3-4A lead. For Clark, now 2-0 for the year, the game was the first complete one hurled by a PHS pitcher this season.

Dale Luke was charged with the defeat, the Sandies fourth in a row stretching back into non-conference, but was aided considerably to his loss by inopportune fielding mistakes by him and his teammates.

In weather more suited for football than baseball, Amarillo leaped off to a 1-0 lead in the first inning on a two-base throwing error by Butch Crossland, a swinging-bunt single and a fielder's choice that scored the only Sandie run of the game.

For the Sandies, the first was the last as they went down in order in the second and third frames, put two men on in the fourth and fifth to no avail, and managed to get two men on base in the final two innings with Clark allowing his second — and last — hit to pinch hitter Ray Northcutt in the fifth inning.

Pampa scored what eventually proved to be the winning runs in the second inning as an Amarillo throwing error allowed two runs to score after two were out.

Crossland opened the inning with a walk and moved to second on Keith Gregory's bunt single — his fifth hit in a row — and Pampa loaded the bases a moment later when Mike Stewart's sacrifice found all hands safe when the attempted throw to third to catch Crossland was late.

However, it looked like Amarillo was going to get out of the inning unscathed as Ab Cullender hit into a home-to-first doubleplay that moved Gregory to third and Stewart to second.

Clark then slapped a grounder towards short but Jerry Irwin, Sandie third baseman, cut in front of the shortstop, scooped up the ball and fired wild to first, allowing Gregory and Stewart to score easily.

The Harvesters added their third run in the third, again with two away, as Gerrel Owens singled sharply to center and came on to score on Crossland's banjo double to right.

Pampa loaded the bases in the fourth before another Sandie twinking nullified the rally, and put one man on in the fifth and sixth frames before exploding for three final runs in the last frame.

Roy Don Stephens, PHS center fielder, opened the lucky seventh with a single to center, moved to second on Larry Stroud's walk and scored on Owens' single to right.

Crossland then plated his second run of the day by hammering a single to center to bring across Stroud and Crossland scored the last marker of the game when Gregory slapped a single between third and short.

Clark turned in the best PHS game of the season, striking out six and walking five. The only run he allowed was unearned and he has now pitched 16 innings and allowed only one earned run.

The Harvesters continued their surprisingly consistent hitting attack as six of the nine starters collected at least one hit, including two each by Owens, Crossland and Gregory.

GAME NOTES — Crossland turned in a top defensive game outside of his first inning wind-aided throwing error. In the fourth, he went deep into the hole to spear a sure-single and flip the ball to Gregory for an important out.

Again in the sixth, Crossland took a wide throw from Cullender for an out at second, with Crossland making the catch and put out lying flat on his stomach.

Cullender also turned in a nice catch in the sixth when a high pop-up to short right got caught in the wind and blew in towards the infield, with Cullender finally making a lunging grab on his

knees as the wind threatened to blow the ball away from him.

Owens put Clark within one out of victory in the seventh with a shoe-string catch of a low liner to right field that looked like extra bases.

Chicago Team Stars In ABC

DETROIT (UPI) —The Hamm's Beer team of Chicago, which missed a tie for the 1960 American Bowling Congress championship by one pin, was off to a good start with 2934 in its quest for the 1961 ABC classic division title.

The Hamm's club had games of 552, 942 and 1030 Tuesday night for the fourth best start of any classic club.

The Brunswicks from Atlanta, Ga., opened their classic play with a 2992 for the best start of any team in the division. The southerners need a 2912 series-totally to pass the leading 5903 rolled by Continental Plastics of Resevoir, Mich.

Three members of the Brunswicks were over the 600 mark as the team had games of 1030, 956 and 1001. James Smith was the pace setter with 652, Marvin Lowry had 642 and Ralph Brunt had 615.

Tom Portanova had 537 and Frank Hawkins 518 to round out the team scoring.

Bellamy Sparks West To Triumph In Shrine

NBA's Top Pick Puts On Display

KANSAS CITY, Mo. (UPI) —Big Walt Bellamy gave Kansas City basketball fans ample proof Tuesday night of why he was the National Basketball Association's No. 1 draft choice.

Bellamy, the 6-10 1/2 center from Indiana, was voted the outstanding player in the 10th annual Shrine East-West basketball game scoring 21 points and grabbing 17 rebounds.

Bellamy, picked by the NBA's newest entry, Chicago, led the West to a record-shattering 103-100 victory which gave the winners a 6-4 edge in the series.

Two records were set — most points scored by two teams (203 breaking the old mark of 185 set last year), and most points scored by a single team (103, breaking the 1959 mark of 102 tallied by the East).

A crowd of about 5,000 watched college basketball's top senior of 1961 put on a tremendous shooting exhibition — the West hitting 50 per cent and the East 47.1 per cent from the field.

But the game was won on the backboards, where the West enjoyed a wide 63-33 advantage. Bill Bridges of Kansas and Cedric Price of Kansas State gave Bellamy strong support on the West backboards, grabbing 13 and 10 rebounds respectively.

Among Major Rule Changes

Sudden-Death HS Tilts Ruled Out

KANSAS CITY, Mo. (UPI) —An offensive foul will no longer result in a free throw for the opposition in college basketball.

The National Basketball Committee of the United States and Canada voted Tuesday to change the existing rule: The new rule will give the fouled team the ball out of bounds.

Two other rule changes went into effect at the annual meeting of the committee. They are: "Stop the clock" after every violation so the coach will have greater opportunity to get substitutions into the game.

Create a neutral or buffer zone across the free throw lane to separate the first and second players by a foot when lining up for free throws.

Coaches may now signal players to call time out or to communicate other information without being in violation of the rules.

Officials were instructed to penalize coaches or players on the bench who persist in stomping, throwing towels or committing other acts considered unsportsmanlike.

Tie-games in high school will be decided by three-minute overtime sessions or as many such periods as are needed, eliminating sudden-death playoff.

'Su Ka Wa' Sprints To Impressive Win

By United Press International

It takes a huge effort for a horse to distinguish itself among 19 rivals in a short three-furlong sprint, but Su Ka Wa did just that and is showing the makings of a future champion.

The 2-year-old chestnut son of Barbizon scored by a length and one-quarter over Pryann in the \$12,500 dinner stakes at Gulfstream Park Tuesday. It was only the second race of his career and his second victory, but he already has earned purses totalling close to \$10,000.

Charlie Burr rode Su Ka Wa over the distance in 33 seconds flat, just two-fifths of a second over the track record, and the young colt, who was coupled with third-place finisher Jolly Warren, returned \$6.30, \$3.60 and \$3.70.

Long Gone John was pressed all the way in the \$10,000 feature at Aqueduct, but held on for a nose victory over Sweet William. Although he led from start to finish of the seven-furlong event, Long Gone John couldn't put any solid distance between him and the field. The gelded 4-year-old led by a length at the halfway mark, but this was reduced to a head entering the stretch.

Ridden by Leroy Moyers, Long Gone John was clocked in 1:22 4-5 and he paid \$8.30, \$4.20 and \$2.60.

Sky Light won his fourth race of the year in the feature at

Track Record Almost Falls

Bowie, outrunning Net Ball and Daring Heart to the wire. Sky Light returned \$8.20, \$3.20 and \$2.60 as he negotiated the seven furlongs in 1:25 2-5. The 6-year-old horse was ridden by Joe Culmone.

Adams St. won the feature allowance test at Lincoln Downs, paying \$10.60, and Edward A. paid \$19.00 straight at Oaklawn.

Monterey Tops Rebs

LUBBOCK — Lubbock Monterey, the team to beat in the District 3-4A baseball game, backed up its billing here yesterday afternoon with a 10-2 victory over Tascosa's Rebels.

The Plainsmen strung together an 11-hit attack, including home runs by Dale Harris and Ronald Bandy, to aid Donnie Bumpas to his fourth win of the year. Leslie Giles was tagged with the loss after giving up six runs before getting a man out in the second inning.

Monterey tacked up at least one run in every inning but the third and played errorless ball field.

Tascosa 000 200 0-2 7 2
Monterey 240 112 x-10 11 0
Winner Bumpas (4-0); Loser Giles (1-1).

Montreal Nips Chicago, 3-1

By United Press International

The Montreal Canadiens, answering back in the way they know best, are all even with the Chicago Black Hawks in their National Hockey League semifinal playoff series today, while the Detroit Red Wings own a surprising 3-1 advantage over Toronto in the other best-of-seven semifinal.

Montreal, which fell victim to a near-disastrous triple overtime defeat to the Hawks last Sunday, came back to whip Chicago, 5-2, Tuesday night for its second victory of the series. At the same time, the Wings won their third straight from Toronto, 4-1, and are only one victory away from a berth in the final round.

Bill Hicke and Dickie Moore each scored twice for the Canadiens and Phil Goyette tallied once to culminate an all-out Montreal offensive in which Hawk goalie Glenn Hall was called on to make 45 saves. But Canadian Coach Toe Blake, who was fined a record \$2,000 by the league following his team's defeat Sunday, was not all smiles today.

ALBEMAR RALPH HOUK ... big year ahead

Houk Confident

(EDITORS NOTE: This is the ninth in a series on the 1961 prospects of the major league teams.)

ST. PETERSBURG, Fla. (UPI) —The New York Yankees got hurt the most in the American League expansion draft but they still have enough left to lead their new manager, Ralph Houk, to believe they will win their 12th pennant in the last 15 years.

Most baseball experts agree, although they think there is a chance the Yankees may be short in pitching. Houk, taking over the reins from Casey Stengel, who won 10 of those pennants, isn't concerned about the pitching.

He points out it was good enough to win the pennant last year and lead the league in earned run average and thinks he has the material to replace three hurlers lost in the draft — Duke Maas, Bobby Shantz and Eli Orta.

With Luis Arroyo out with a broken arm, McDevitt will be the bullpen southpaw No. 1 man. Houk still is toying with the idea of making a starter out of Ryne Duren (3-4), but the chances are he will be in his usual fireman's role.

To round out the staff Houk can select from Sheldon, Bill Short (3-5) and John James (5-1).

To replace the bench which they lost in the draft, Houk is counting on Deron Johnson, who hit only 245 at Richmond in 1960 but tacked on 27 homers with 92 runs batted in; Leroy Thomas, up from Amarillo where he hit .390, and possibly Jesse Gonder.

Johnson can play third, first or the outfield. Thomas is an outfielder and Gonder a catcher.

Money, Date Disputed

Bluebonnet Bowl, TV Officials Open Feud

HOUSTON (UPI) —The dispute between directors of Houston's Bluebonnet Bowl and the Columbia Broadcasting System, picked up steam today with the Bowl threatening to cancel its contract with the television network.

The Bowl doesn't like the scheduled Dec. 23 date picked out by the CBS for the 1961 game and is unhappy with the amount of television money offered.

The directors said they were disappointed over receiving only a \$15,000 guarantee from television rights from the 1960 game and claimed the date specified by CBS for 1961 is an "impossible date."

Elvin Smith, chairman of the Greater Houston Bowl Association (GHBA), also took a jab at Dallas' Cotton Bowl.

"We feel we've subsidized the Cotton Bowl because CBS executives have explained to me that they had to pay the Cotton Bowl about \$135,000 on terms of an old contract," Smith said.

Some 60,000 fans turned out for last year's game between Texas and Alabama. Both teams received over \$96,000 for participating and the GHBA said it finished with a loss of nearly \$10,000.

Smith indicated the loss was from anticipated television revenue.

The Bluebonnet Bowl-CBS contract has three years to run. Smith said unless another date besides the scheduled Dec. 23 time is set, "we'd rather not televise in 1961."

Services Set For Crosley

CINCINNATI, Ohio (UPI) —Funeral services for Powell Crosley Jr., president of the Cincinnati Reds baseball club and a pioneer in the radio and small car fields, will be held at Spring Grove cemetery here Thursday morning.

Crosley, 74, died early Tuesday of a heart attack at his suburban estate. He had been hospitalized recently for a heart condition and a complete physical checkup.

A newspaper report here said Crosley told friends before he died that he was leaving the Cincinnati Reds team in a trust; The trust, he reportedly said, would operate the baseball team and keep it here.

Palmer Wins In Pro-Am

PALM BEACH, Fla. (UPI) —Twice around the course for \$7,700 — that's Arnold Palmer's payoff for a clean sweep of honors in the 36-hole Seminole Pro-Am golf tournament.

Palmer, the all-time yearly money winner, tied with Doug Sanders for low pro honors at 138 and each collected \$900. Palmer shot a 67 Tuesday and Sanders had a 66.

RIDES THREE WINNERS

HALLANDALE, Fla. (UPI) —Louigi Gino, born in Rome, Italy, scored a triple at Gulfstream Park Tuesday.

Aid To Colleges Bill Considered By U.S. Solons

WASHINGTON (UPI)—A House education subcommittee worked today writing its version of the administration's \$2.4 billion bill to aid colleges.

The subcommittee expected to work behind closed doors for two days on the bill to provide scholarships and classrooms for the nation's colleges.

It was expected to make only minor changes in the bill. Many educators urged the committee to add a program of state-federal grants, along with the loans Kennedy suggested. However, the subcommittee members did not appear enthusiastic about the proposal.

The bill would authorize a five-year, \$1.5 billion program of construction loans and a system of four-year scholarships costing up to \$900 million during an eight-year period.

School To Begin De-Segregation

CHATTANOOGA, Tenn. (UPI)—The Chattanooga School Board told federal court this week it is ready to begin grade-a-year de-segregation of city schools in September.

The board's new desegregation plan was ordered by Judge Leslie R. Darr who had rejected an earlier plan calling for desegregation at the beginning of the 1962-63 school year.

Mouse Stirs Bank Lobby Commotion

HOUSTON (UPI)—Few banks ever object to new customers, but the Texas National Bank believes there's a limit, in some cases.

In this case it was a mouse and the bank not only failed to get any new customers out of the deal, but had a woman frightened to within an inch of her life.

The little gray mouse scurried in the bank building from the street Monday and dashed into a self-service elevator which was carrying a woman and man to the second floor deposits section.

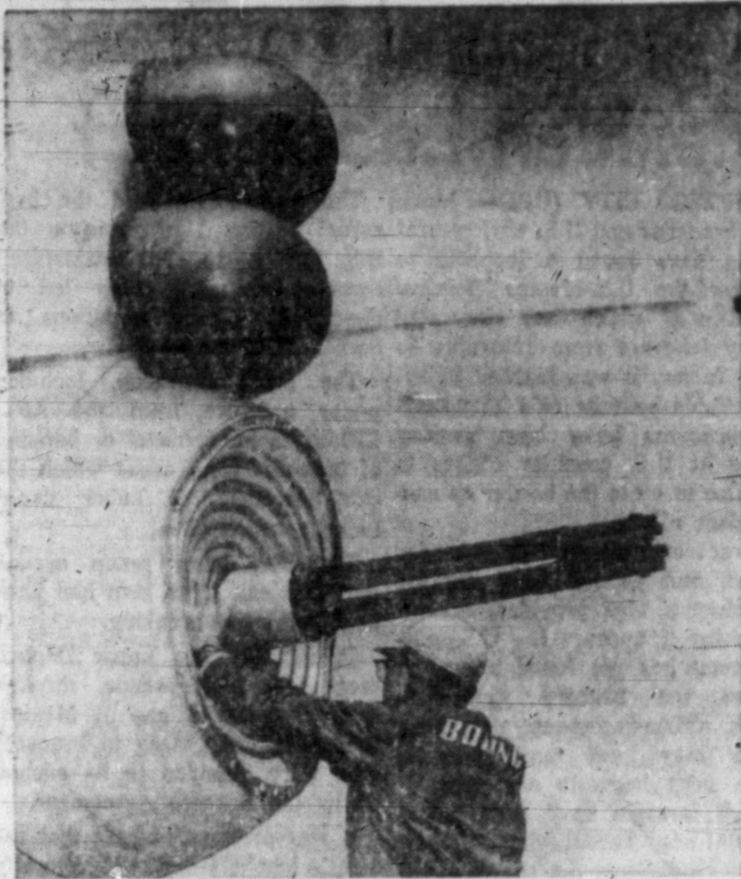

The elevator started on duty saw the mouse enter the elevator, but the door closed before she could do anything. But the woman passenger did do something.

Her scream could be heard all over the lobby over the elevator intercom as it slowly made its way to the second floor.

On arrival at the bank lobby on the second floor the door opened and for a minute it was a real contest to see who would get out first—the mouse or the woman.

The mouse beat her by a nose and was headed for a cashier's cage when a bank employee with a well-directed stomp ended its trip for good.

By that time the woman passenger had disappeared and they still have not located her.

STINGER—Close-up shows the formidable bee-stinger armament in the tail of the new B-52H jet bomber. The gun is a modern version of the revolving barrel Gatling gun and is capable of firing 20-millimeter shells at the rate of 4,000 a minute. The weapon is an automatic device, hydraulically operated and electronically controlled, which allows the operator to defend the airplane by simply pressing a button. Blisters above house its radar target finding system.

Governor Signs 10 Legislative Bills Into Law

AUSTIN (UPI)—Gov. Price Daniel signed 10 bills into law yesterday, putting six of them into immediate effect:

Bills taking immediate effect include measures:

- Exempting non-profit water supply or sewer corporations organized on behalf of cities from franchise taxes, by Sen. A. M. Aikin Jr., of Paris.
- Amending the probate code to authorize guardians to invest wards' money in interest-bearing time deposits, by Sen. George Parkhouse of Dallas.
- Eliminating provisions concerning change of amount of water which may be appropriated by the West Central Texas Municipal Water Authority in order to leave the district subject to the same laws as other districts, by Sen. David Ratliff of Stamford.
- Authorizing Texas Youth Council to convey certain land to Corsicana Independent School District, by Sen. William Moore of Bryan.
- Authorizing Texas Western College to acquire land in El Paso contiguous and adjacent to campus, by Rep. Malcolm McGregor of El Paso.
- Validating county park bond elections, by Sen. Robert Baker of Houston.

Bills signed taking effect in 90 days included measures:

- Permitting a testator to make bequest to living trust, by Sen. Hubert Hudson of Brownsville.
- Clarifying when fiduciaries may act without bond concerning money paid into court, by Hudson.
- Concerning reciprocity of foreign banks and trust companies acting in a fiduciary capacity in this state, by Hudson.

Nice Subway Folk Urged

NEW YORK (UPI)—The New York Transit Authority is putting up signs trying to bring courtesy back to the subway tunnels.

The purple and yellow cartoon posters show a clean-cut young man giving up his seat to two ladies, and doffing a plumed helmet.

"Be a knight," the posters urge. "Restore courtesy."

The transit authority said "courtesy" is medieval French for politeness, chivalry and general good behavior. The authority hopes that if the campaign it started Monday catches on, people might even go back to saying "please" and "excuse me."

But the posters have a note of pessimism ill-befitting King Arthur's round table. They only ask the subway rider to "be a knight for a day."

Widow Of Solon To Be Candidate

NASHVILLE, Tenn. (UPI)—The widow of the late Rep. B. Carroll Reece, R-Tenn., will be among the candidates for his congressional seat in a special election May 16. More than 100 Republicans in the state's first District have endorsed Mrs. Reece as her husband's successor.

The Lighter Side

Milady's Hair In Dual Tones Seen At Show

WASHINGTON (UPI)—Last year about this time I attended a showing of new spring hair styles and came away greatly encouraged.

Hair stylists I observed then had about quit trying to make American girls look like Italian boys and were tending toward more "natural" lines, whatever they are.

In the past few months, however, I have noticed some rather alarming trends. So when the 1961 hair show opened here this week, I dropped by to see what was in the wind.

Consequently, I can tell you that about the only thing that the nature has to do with hair styles this year is to furnish the chemical elements for the tints and sprays.

Apricot-glow, pink-silver, frosty platinum and baby beige—these help me, are the names of tinctly some of the colors that women will be tinting their tresses with.

And some of them, so help me further, will be using more than one color at a time, thus giving their hair a tri-toned effect, like brick ice cream.

In one corner of the exhibit hall, I saw a hair dresser demonstrating what he described as "figure eight" coiffure. He took a model who was sort of an off-blonde and lumped up her hair so that the ends cascaded down over her forehead.

Then he tinted some of the descending strands a pinkish color and some on the other side a purplish hue. The result looked like champagne laced with cherry and grape flavoring.

Watching this made me feel kind of queasy, so I relinquished my seat and went over to have a chat with Andre Anouge of Paris, who once won two international hair styling contests in a single day.

"Whatever happened to the ponytail?" I asked, hoping to impress him with my ability to talk shop.

Anouge ignored the question, but I subsequently was able to draw him into a discussion of the latest trends. From it I learned that the big thing nowadays is a hair-do that resembles an artichoke.

I had some trouble understanding Anouge's accent, but I discovered the names of tinctly some of the colors that women will be tinting their tresses with.

Thus, in just a few short years, the pattern for female hair styles has changed from Italian boys to lives'lock to vegetables, with a detour, by way of the beehive, into brick ice cream.

Another hair stylist told me that there is a trend toward "darkening" hair this season.

"I don't know if Mrs. Kennedy had anything to do with that," he said.

I suppose the showing made me hair conscious because I noticed when I got home that night that my wife's hair looked as though she might have been standing on her head all day.

Satellite Turns Back To Earth

WASHINGTON (UPI)—The Explorer X satellite hurtled back toward earth today from a distance about 112,500 miles from this planet. The National Aeronautics and Space Administration (NASA) said the satellite, launched Saturday from Cape Canaveral, was expected to plunge within 110 miles of earth by 10 p.m. EST, Wednesday. Scientists could not tell whether the 78-pound space laboratory would whip back out into space for another orbital trip or burn up in the atmosphere.

Snow Flurries, Shower Activity Feature Weather

By United Press International
The Texas weather picture of a study in contrasts today—snow flurries and freezing drizzle in the Panhandle, balmy temperatures in the south and cool, damp weather in between.

The day dawned, however, on a relatively calm note in the wake of a third straight night of turbulent weather in North Central and Northeast Texas.

Shower activity was expected to be general throughout the state through Thursday with some afternoon thunderstorm activity building up again in Northeast Texas and a southeast corner of North Central Texas.

The cold front, which pushed down out of snow-custed Colorado, tumbled temperatures to the freezing mark or below as far south as Lubbock early today and was expected to cool the entire state by tomorrow. Tuesday, the nation's highest reading—95 degrees—was recorded at McAllen.

By daybreak today the cold front lay along a Texarkana-Waco-San Angelo-El Paso line and was mostly cloudy with the exception of Brownsville and Presidio. Dense fog enveloped the middle and upper coast and as far inland as Beeville.

The light snow and freezing drizzle in the Panhandle may continue throughout the day, the Weather Bureau said. Overnight low readings in the area included 27 degrees at Dalhart, 29 at Amarillo and 32 at Lubbock.

Texarkana, which still reported thunder at 6 a. m., recorded the most rainfall of any regular reporting station—1.60 inches.

Thundershowers still prowled North Central Texas early this morning in an area bounded by Kaufman, Farmersville, Gainesville, Paris and Mount Pleasant, and over Lewisville and near McKinney.

But the band of thundershowers that had a large chunk of North Central and Northeast Texas all the way to Southeastern Oklahoma and Southwestern Arkansas under severe weather alert Tuesday night moved out of the state without serious damage.

The Department of Public Safety reported that a small tornado struck during the night near Hainesville in Wood County, destroyed three barns and injured a horse.

TYPEWRITERS, ANYONE? — One of the city's better known typewriting firms is Pampa Typewriter Co., located at Foster and Hobart streets, where Bill Thompson, owner of the firm who is pictured at left, and Ralph Alexander, right, are at hand daily to sell or repair their specialty — a Royal typewriter, electric or standard, regulation size or portable, and other mechanical office equipment. (Daily News Photo)

Featuring The Famed Royal Pampa Typewriter Sells, Maintains, Rents Office Machine Equipment

Typewriters, those machines that are necessary in so many businesses are in abundance at Pampa Typewriter Co., Foster at Hobart. And the fine thing about it is these machines are in many varieties of models, thus a purchaser of one who wishes to acquire one on rental, has his choice of selection.

These are Royal Typewriters, of course, and are absolutely guaranteed by Bill Thompson, owner of the firm.

Prices for these items range from \$49.95 for the portable Royalite to the electric Royals which range from \$445 to \$760. However, Pampa Typewriter Co. is featuring a portable typewriter with magic margin, bonus keys, tab set and other standard features for less than 100.

"We are proud of this machine. It's a solid portable and one which will give the purchaser many years of service," Thompson pointed out. "The firm repairs and maintains typewriters, calculators, adding machines and other mechanical office equipment, all of which are on sale or for rental at the company location."

Thompson has been in Pampa for 15 years and has been in the business for 21 years. He was recently joined by Ralph Alexander, another veteran of the business who has been in the city for the past six years.

"Ralph knows this business through and through. We're proud to have him in the firm," Thompson stated.

Mrs. Florine Everson is in charge of the office.

There are several plans offered for purchase of machines at Pampa Typewriter. The most popular is the three-year lease plan under which a person may lease a machine for three years and, at the end of that time, if one wishes, to renew the lease one way, but if one desires to terminate the lease all one has to do is return the machine to the office, and become clear of any liability.

Another plan is the rental one in which a person may rent a typewriter for \$6 a month. In this plan, too, one may rent a machine for 90 days and, if at the end of that period one decides to buy the machine the money paid for rental is applied as payment.

Gnats Take Heavy Toll Of Animals

BASTROP, La. (UPI)—Freakish swarms of "buffalo gnats" killed a score of horses and mules this week as the animals breathed in the tiny insects.

Veterinarians worked ceaselessly since before dawn today as the toll among farm draft animals kept rising. Three of the dead horses belong to nationally-known horse showman Dr. W. V. Garner.

Veterinarian Dr. T. W. Leonard called the outbreak of buffalo gnats, a tiny insect that gives off a toxic material in the animal's respiratory system, "very unusual."

He said in 25 years of service in this area he has seen only one other outbreak that caused death. He said cattle apparently are not affected because they somehow avoid breathing in the gnats.

Emergency measures were underway, with local authorities calling on the state for help in disseminating information for protection of animals.

Farmers used various forms of sprayed on the noses of horses insect repellents, painted and sprayed on the noses of horses and mules. They also soaked sacks with repellent and hung them over the animals' nostrils.

Secret Formula Swedish Beauty Cream

The raw winds and damp chill of March and April mean that you should take good care of your skin. It's time to re-order that secret Swedish Beauty Cream, which we wrote about last March. The name of the cream is *Maja Sandler's Swedish Beauty Cream*. It is a day and night cream, perfect also as a base for make-up. It cleanses the skin thoroughly, and is absorbed quickly. A four-ounce jar costs only \$4.50, sent prepaid. No C.O.D.'s. Send \$4.50 to Alwasan, 78-S. Marks Avenue, Brooklyn 17, N.Y.

Way Found To Break Mexican Labor Pact

MEXICO CITY (UPI)—The government said the braceros and U.S. agricultural firms have found a loophole to bypass the U.S.-Mexico Bracero Agreement which has prevented many laborers from returning to U.S. farms, it was learned today.

Reliable sources said thousands of braceros have been seeking visas at U.S. consular offices in Mexico to cross the border as non-resident aliens.

Braceros normally do not need visas, and do not have the job freedom a visa provides.

So far it appears the U.S. government has not found a way to make the bracero agreement stick, although red-tape delays for visas may keep many workers here until harvests are over.

U.S. farmers have been instrumental in encouraging bracero entries on visas, the sources said. Once in the U.S. with Mexican passport and U.S. visa, braceros are legally free to work virtually anywhere they choose, which includes strike-breaking on U.S. farms, something the bracero treaty was intended to prevent.

Strike incidents in the Imperial Valley of California recently brought a request from the Mexican government to withdraw braceros from the area to prevent their possible harm. Hiring was halted briefly at the Mexican government office at Empalme, state of Sonora, in northwest Mexico.

Two provisions in the latest bracero agreement between the U.S. and Mexico have barred a number of braceros from working in the U.S.

One provision made at Mexico's request ended several months ago the former automatic annual rehiring of braceros, with special training, such as driving a tractor.

"We sell quite a number of typewriters under this plan," the firm owner pointed out.

Thompson, in talking of the new Royal electric typewriters, pointed to these features as special attractions to prospective purchasers:

The magic margin which instantly adjusts the desired margin. 2-The line meter which notes how the "twin-pak" means of fast clean cartridge ribbon changing. 4-The half-spacer which allows insertion of an omitted letter in misspelled word. 5-The instant touch of the Royal typewriter.

"There is no typewriter like the Royal electric, and the same applies to the royal standard. We'll stack these machines up against any make in the field," Thompson proudly declared.

The firm is open six days a week Monday through Saturday, from 8:30 a.m. until 5:30 p.m., but for the convenience of those seeking additional information, its available by telephoning 4-8112.

"We'd be happy to talk with residents about these machines. Ralph (Alexander) and I are available at all times to discuss these typewriters and other office equipment."

Edinburg Gets \$702,558 Loan For Slum Work

WASHINGTON (UPI)—The Urban Renewal Administration yesterday gave Edinburg, Tex., the go-ahead sign for its "Gateway City No. 2" slum clearance project.

The agency announced it will lend the city \$702,558 and give it an outright capital grant of \$629,433.

"The rudown project area is adjacent to the city's central business district. It contains 358 dwelling units, many of which are substandard," the agency said.

It added there were 321 families now living in the area and those to be relocated will be offered decent, safe and sanitary quarters.

Plans call for rehabilitation of 102 acres with the remaining acreage cleared for reuse, primarily for residential purposes.

The agency said the net cost of the project was estimated at \$881,582.

Laid Foundation

Abraham Darby, English Quaker, made use of coal coke in iron production commercially successful in 1709, laying the foundation for development of the world's metal industries.

Sales Tax Plan Receives Boost During Hearing

AUSTIN (UPI)—Rep. Charles Ballman of Berger says a "super committee" of his House Revenue and Taxation Committee would soon consider pending sales tax bills.

A public hearing was held on two bills that sponsors said would raise from \$100 million to \$180 million a year with levies of 2 and 3 per cent.

Ballman said he would appoint a seven member group to study the bills. Witnesses at the lengthy hearing urged Gov. Price Daniel and the legislature to face facts—contending that the only way the state is going to pay its bills during the next two years is with a general sales tax.

Reps. Forrest Harding of San Angelo and John Allen of Longview told the committee their 2 per cent general sales tax would bring the state \$189 million a year.

Rep. Jack Woods of Waco said his 3 per cent levy on items above \$10 in value would bring the state a "little under \$100 million a year."

"There's been a terrific change of attitude toward a sales tax," Allen said. "A questionnaire we sent out showed most people favor a sales tax over an income tax or a form of payroll-earnings tax."

"I don't think you can find a way to solve the state's money problem without hurting anyone," Allen said. "The only exemptions this bill would have are for items costing 25 cents or below—this protects the child who wants some chewing gum or ice cream from the corner drug store."

Scores Quizzed For Attempted Yemen Killing

ADEN (UPI)—Police yesterday questioned scores of suspects about the attempted assassination of the Imam of Yemen who narrowly escaped death when gunmen opened fire on the ruler's automobile.

The Imam was returning to his palace Monday after visiting a hospital at the Red Sea port of Hodeidah when he was attacked.

Radio Sana reported that several of the Imam's companions were wounded, but they were not identified. The radio said several arrests had been made and a "conspiracy unveiled."

The Imam, whose father, Abdulrahman Wazir Ali, was assassinated in 1948, regained complete control of his country two years ago by cracking down hard on several liberal changes made while he was on a four-month visit to Rome.

Lichens are curious plants that seem immune to cold or exposure. They produce an acid that can etch the surface of the hardest rock and help break it down into soil.

Luxury For Luxury's Sake

The Rent 'N Everything Fad

NEW YORK (NEA) — Once a week — quitting time on payday — a nifty, chauffeured limousine creeps sedately uptown through rush-hour traffic and leaves a middle-aged man at his middle-class apartment house door.

The man is a bookkeeper. He doesn't own the limousine, can't afford it. He hires it for this trip for \$7.50 (a fat 50 times the cost of his usual subway ride home).

Why? Because, as he tells himself, it may be rented finery but it's finery nonetheless — and he can afford this much of it.

Well, this man is hardly alone. Thousands of people like him have created something new under the New York sun: a booming business in leased luxury. For example:

The Circulating Library of Paintings can — and does — in volume — get you an original masterpiece to hang in your living room for a monthly fee.

A \$4,000 canvas will cost you about \$80 per.

The Abet Rent-a-Fur Service does its biggest business by the weekend. A mink stole, for exam-

ple, rents for about \$20; a mink coat, about \$35.

Butlers go by the weekend, too — \$75 plus room and board.

You can (and New Yorkers do) rent a phonograph, hi-fi set-up or stereo system by the week with a complete record library as you want.

Feature motion pictures for home showing, distributors say, are a good part of their business.

Luxury hotels report that a lot of their weekend reservations, especially during the winter, are made by suburban couples who live only an hour out of city but who want to "get away and luxuriate for awhile."

If you have to ask how much it costs to keep a yacht, a tycoon once said, you can't afford to own one. But renting one is another matter — it's \$40 per day, and a lot of vacationers are getting weekly rates.

The clearest picture of the situation, however, is in the leased luxury of limousines. New York supports 40 such companies. According to a spokesman at one, Carey Cadillac, which averages about \$2.5 million annually: "We're doing more and more business in the now-and-then, average-person, 'Home James' rentals."

What's behind it all? The usual nonsense about status symbols? Probably not. Most of your friends and associates know your limousine, butler, yacht, hotel suite, were rented for the occasion. Or, worse, they simply assume that expensive, modern painting you've rented was done by your kids or your cow.

What appears to be behind it is simply a desire for luxury for luxury's sake.

In fact, the only hint of "people seeking to rent some sort of 'status'" comes in the experience of a few jewelry stores giving the leasing business a try. As one jeweler put it (perhaps a bit naively): "I don't really understand it, but we do a considerable rental in wedding rings."

Martinique, a French possession, offers most to the exploring type of tourist. Rising from the center of the tiny island is volcanic Mount Pelee, which erupted in 1902 and in a matter of minutes killed 30,000 persons living in St. Pierre. The port city has been rebuilt, but a visit to the ruins and the museum with relics of the disaster is a must.

Curacao, a Netherlands possession, has been called the "bargain counter of the Caribbean." True, the free port of Willemstad offers good buys in everything from straw baskets to French perfumes. But what impressed this visitor most was the cleanliness — not all of the Caribbean is so neat or sanitary, especially behind the scenes. But the Willemstad homes are painted delicate shades of pink, green, blue and yellow. And the story goes that all homes once were whitewashed, but the glare of the sun on white bothered the eyes of one governor some years back. He ordered each house repainted in the color preferred by its owner.

Jamaica, the third largest of the West Indies and a British dependency, is a lush green island rimmed with fine beaches. Kingston, its capital, Ocho Rios and Montego Bay are the tourist centers — our ship called only at Montego Bay, at the western end of the island which is the haunt of wealthy and fashionable international set. The resort area is thick with first-rate hotels, and the busiest beach is the Doctor's Cave with its white sands and green water.

Caribbean Visit Whets Appetite For Return Trip

NEW YORK (UPI) — The first vacation on a cruise ship only whets the appetite for another, longer one. The first trip into the beautiful Caribbean produces the same longing for a repeat.

You could use up a lifetime in the West Indies islands, trying to absorb the scenery with its green hills, white beaches and blue-green water, their romantic history (Columbus discovered them on his first voyage to the New World), their customs and speech with a part of their heritage from other countries which colonized them.

The whole Caribbean is enjoying a tourist boom, and many of the islands depend heavily on tourist spending for support of the local economy. Swank new hotels care for the vacationer who likes luxury along with sun, tropical breezes and planter's punch. But some of the islands haven't been "discovered" by tourism and there you can beach-comb to your heart's content.

One of the most beautiful of the islands is St. Thomas, a United States possession, with volcanic, opening hills each affording a breathtaking view of beach and water, and in the distance, other islands in the Virgin Islands chain. One of the most beautiful, and least used, beaches is on the windward side of the island — Magen's Bay — a heart-shaped cove free to the public. The best way to see the scenery, if time is short, is to hire a car and driver who is used to the steep inclines. Negotiate the price and time for a tour before you climb in — this is good advice in almost any port.

Martinique, a French possession, offers most to the exploring type of tourist. Rising from the center of the tiny island is volcanic Mount Pelee, which erupted in 1902 and in a matter of minutes killed 30,000 persons living in St. Pierre. Ike Will Start Writing Career

PALM SPRINGS, Calif. (UPI) — Former President Eisenhower will write a series of articles on current affairs and a book on his eight years in the White House.

Eisenhower in a prepared statement Monday said the first of his articles will appear in the Saturday Evening Post.

The statement did not indicate when the book or the articles would begin appearing, nor did it give any clue to specific subjects Eisenhower would treat as "current interest."

The book "dealing primarily with my eight years in the presidency and the lessons I believe can be drawn therefrom" will be published by Doubleday and Co., the statement said.

Mexican Liberator

Miguel Hidalgo, the priest of Dolores, is known as the "father of Mexican Independence," having started the revolution against Spain in 1810.

Woodrow Adcock

Rev. Woodrow Adcock is conducting special Holy Week Evangelistic Services at First Methodist Church, Monday through Friday at 7:30 p.m. His sermon each night is based on the daily events in the Life of Jesus leading up to Easter Sunday. Tom Atkin is directing the music and singing with the help of Fred Bridges. The public is cordially invited to attend. (Adv.)

Draft Of Doctors Ordered For AF

WASHINGTON (UPI) — The Defense Department Monday ordered 250 physicians drafted into the Air Force, the first medical draft in four years.

It said the draft was necessary because of the "failure of the year's intern group to volunteer for active duty beginning in July 1961, in sufficient requirements of the military medical service."

Paper Can Now Be Dry Cleaned

NEW YORK (UPI) — One day, historians may refer to this as the Paper Age as well as the Atom Age.

Paper manufacturers at a recent convention said that today the American housewife can hang her wash on a paper clothesline that will last for years. She can carry home groceries in a bag that can be converted into a sailing toy for Junior. And tomorrow, she may even live in a paper house.

One of the newest developments in the field is a twisted, knitted paper which can be boiled, washed or dry cleaned as many as 30 times.

It was developed by Ronald R. Marks, of Dallas, Tex. Dozens of possible uses for the knitted paper were mentioned — as substitutes for burlap, for parachutes, for wall decoration, hats, handbags, even heat-shielding materials for missiles.

Largest single sum — \$1,217,000 — was authorized for operational and medical and hospital facilities for Barksdale Air Force Base at Shreveport, La.

In addition, \$185,000 was authorized for construction of supply facilities for the Air Force Reserve at Barksdale.

Other authorizations included \$191,000 for an Army National Guard armory at Monroe and \$202,000 for an Army Reserve Center at Lafayette.

Military Base Construction Bill Approved

WASHINGTON (UPI) — The House has passed an \$804.5 million military construction bill that would authorize work on 789 Army, Navy and Air Force projects in this country and abroad.

The roll call vote was 411-0 and the bill now goes to the Senate. Money to finance the work must be appropriated in a later bill.

The measure carries authority for the Army to spend \$141.4 million, the Navy \$132.6 million, the Air Force \$431 million and Reserve and National Guard units \$202.5 million.

It also would authorize \$47 million to finish work on projects the services now have under way.

The bill would authorize "no new complete military bases, but it does authorize new facilities for missile sites and nuclear submarines."

It also carries authority for more than 7,000 new military housing units to be built by private contractors with government underwriting and rented to service personnel.

The bill authorized \$1,795,000 worth of military construction projects in Louisiana for the next fiscal year.

Largest single sum — \$1,217,000 — was authorized for operational and medical and hospital facilities for Barksdale Air Force Base at Shreveport, La.

In addition, \$185,000 was authorized for construction of supply facilities for the Air Force Reserve at Barksdale.

Other authorizations included \$191,000 for an Army National Guard armory at Monroe and \$202,000 for an Army Reserve Center at Lafayette.

HAPPY EASTER — This happen-sized Easter Egg is coming to Mrs. Jacqueline Kennedy as the gift of a Paris confectioner.

O.F. "OTT" SHEWMAKER

NEW HONORS — FBI Director J. Edgar Hoover has been given an award for "distinguished service to the welfare of the nation." The United States Organizations Inc., which made the award, cited Hoover's "unselfish contributions to the American heritage and to the youth who shoulder its growth."

'Plastic Steel' Find Starts Big Industry

DANVERS, Mass. (UPI) — In after 1952 I must have logged a quarter of a million miles... visiting countries throughout the world and telling... and showing manufacturers, farmers, fishermen and home handymen about it.

Part of Creighton's desire to solve the repair problem is explained by the frugal characteristics of many New Englanders, although he himself was wealthy-born and went almost directly from Harvard College into the OSS.

"We are the most wasteful nation on earth," he said.

WOOLWORTH'S
 Top Quality And Value Since 1819

BITE SIZE
Jelly Bird Eggs
 29¢ lb

Fill an Easter basket, candy dish or party favor with these traditional favorites! Exciting color mixtures. All your favorite flavors.

Name Free On
