U.S. Stepping Up Economic Sanctions Against Government Of Fidel Castro

Panhandle On Lookout For Freezing Weather

By United Press International
A Canadian cold front—the bitterest of the new fall season—drove deep into Texas today behind tornadoes, near cloudbursts and floods.
The cold front will bring the first freeze to the Panhandle since last winter. The Weather Bureau issued a freeze warning for the Panhandle and High Plains and predicted temperatures down to 18 degrees.
On the credit side, the cold weather also will bring an end to the storms that have been hitting Texas for five days.
The worst weather of the onslaught hit South Texas Tuesday and Tuesday night. Three tornadoes were reported. The worst, around Schulenburg, in-

new danger to Victoria. At last report, it stood at 27.5 feet, which is 7.5 feet over flood stage. At best, areas along the river below Victoria, where ranchers have many cattle, will be flooded.
Other families had to leave their homes in Cuero to escape flooding.
The Weather Bureau said showers should begin to decrease over the Panhandle Tuesday.

threatened isle just 90 miles off the U.S. shore — Cuba.
White House opponents John F. Kennedy and Richard M. Nixon made Fidel Castro's Cuban regime a major issue in speeches to the American Legion convention in Miami Beach Tuesday.
The GOP candidate used the address to announce that the Eisenhower administration "will very promptly take the very strongest possible economic measures to counter the economic banditry" of the Castro government.
Sources traveling with Nixon told newsmen the United States would impose strong economic sanctions against once-friendly Cuba within 24 hours.
The vice president said the U.S. goal was to "quarantine" the Castro regime. He labeled the Cuban government an "intolerable cancer" that will "endlessly fester" unless this country moves to block further Soviet penetration.
Nixon addressed the Legion immediately after Kennedy had challenged him to tell what he would do about Castro's increasing anti-American belligerence and ever closer ties with Communism.
The Democratic candidate linked his Cuban remarks with charges that the Eisenhower administration had allowed American strength to slip.
He said this permitted Communism to advance "until the Iron Curtain now rests on the island of Cuba."
In a statement issued when he arrived in Florida — where near-by Cuba is of special interest — Kennedy charged that Nixon must share the blame for what he (See DISPUTE, Page 3)

DENY GUILTY PLEA — Two American tourists expelled from the Soviet Union, Mark Kaminsky, left, and Harvey Bennett are shown as they arrive in Vienna, Austria, from behind the Iron-Curtain. They denied strongly that they had pleaded guilty to charges of espionage before a Soviet military court.

Bans Sale Of Many Needed Commodities

WASHINGTON (UPI) — The United States moved today to cut away the economic foundation of the Fidel Castro government, banning the sale of "most commodities," except food and medicine to Cuba.

Russ Set To Resume Arms Talks

UNITED NATIONS, N.Y. (UPI) — Russia declared today that it is ready to resume disarmament negotiations but warned that it will quit the U.N. arms debate if the United States and its allies maintain their "negative positions."
Soviet Ambassador Valerian A. Zorin called on the General Assembly's main political committee to start work immediately on "the basic principles of a treaty on general and complete disarmament submitted by the Soviet Union."
"This is not a question of preparing this or that document to be filed and put into the archives and we are not here to exercise in eloquence and perfect the methods of polemics," he said.
Zorin rejected the Western disarmament position contained in a resolution submitted by the United States, Britain and Italy. He also spurned a British resolution outlining Prime Minister Harold Macmillan's proposal for an expert study of feasible, fair and foolproof means of inspection and control.
He insisted instead on adoption of a comprehensive resolution submitted by Soviet Premier Nikita S. Khrushchev linking Russia's "general and complete" disarmament plan to reorganization of the United Nations to give an equal voice to Communist, neutralist and Western sections of the world.
"If the United States and its allies will insist on their negative positions the fruitful work of the first (political) committee will become impossible and, which goes without saying, the Soviet Union will not participate in such a waste of time," he said. "Let no one have any doubt on this account; let all illusions be dispelled if somebody still holds them."

Rain, Rain, Rain

Sloppy weather continued in Pampa last night and this morning, with .30 of an inch of rain being recorded in the rain gauge atop the Daily News Building as of deadline time today.
This scaled the rain here for the last nine days to 8.80 inches.

Russ-Held Yanks Seek Plane Trip

ZURICH, Switzerland (UPI) — Two American tourists held for seven weeks in the Soviet Union on spy charges were forced to remain in Zurich today because they were unable to get seats on any flights to New York.
Mark Kaminsky, 28, a school teacher from Jefferson Township, Cass County, Mich., and Harvey Bennett, 26, of Bath, Maine, flew here from Vienna Tuesday night on the last leg of a European vacation that almost landed Kaminsky in a Soviet labor camp. They booked passage on a Thursday flight.
Kaminsky, a soft-spoken student of world affairs who said he had gone to the Soviet Union to collect material for a book, was sentenced to seven years in jail for taking notes and pictures which the Russians considered "spy material."
Instead of serving the sentence, Kaminsky was kicked out of the Soviet Union last week, along with Bennett, who had been held by the Russians as a material witness.
When they arrived here, both emphatically denied that they were spies.
(In Washington, the State Department said it wants to interview Kaminsky and Bennett. A spokesman said he hoped they would come to Washington when they arrived in the United States from Europe.)
Bennett said he had always clearly told the Russians that Kaminsky, in his opinion, was not a spy. He added that he did not see Kaminsky from the time of his arrest to the day of the trial.

Commission Willing To Work On Vo-Ag Site

The city commission is willing to discuss an idea to construct a vocational agriculture site for the class of Pampa High School when the Pampa School Board presents a definite plan for its requirements.
That was the opinion yesterday when the matter was touched upon briefly in the weekly commission meeting.
City Manager John Koontz said that he had talked with assistant superintendent Jack Edmondson Monday concerning the matter and had suggested that Edmondson prepare material noting the needs to set up the section for the students.
At present the students have their projects — pigs, cattle, and the like — spread out over various farms of the county. This was a brought about when the Top O' Texas Rodeo Association remodeled the barns the students had been using at the rodeo grounds to permit rental to horse owners of the city.
The grounds suggested for the vo-ag site are a part of the old air base south of Pampa, which the city owns. Mayor Ed Myatt said the commission is willing to go along with the idea, but "We'd like to have full details on requirements before we act."

Other new officers who are expected to be installed Nov. 19 are: C. R. Howard, first vice-president; Herb Whitener, second vice-president; Jay Johnson, treasurer, and Ted Williams, secretary.
The officials also announced a new project for the organization — it will paint aerial direction signs atop the three million gallon water tank off Hobart St.
Guests for the meeting were Fred Thompson and Gordon Bayless, a Key Club member.

Sen. Stennis To Address Dem Officials

Sen. John C. Stennis (D-Miss.) will speak during a dinner meeting at 7:30 p.m. tomorrow to the Gray County Democratic Committee in the Coronado Inn, Mrs. Rationa Smith, a member of the committee's steering panel, said today.
Sen. Stennis will be addressing the local Kennedy-Johnson supporters following a noon talk tomorrow at a joint meeting of the Amarillo Kiwanis and Rotary clubs.
The Mississippi senator, a veteran politician, is the brother-in-law of Mrs. S. D. Stennis of Pampa.
The public is invited and reservations may be obtained by calling the Inn, Mrs. Smith said.

Penny Wise, Pound Foolish

A burglar "coppered" 18 3/4 pounds of pennies last night from McNeil's Produce Co., 541 S. Cuyler, and topped it off by stealing a new pair of cowboy boots from the adjacent office of C. L. Vandover.
The break-in was made by kicking a panel from a rear door of the produce firm. There he looted the desk of the owner, Homer McNeil, obtaining the cigar box full of pennies and a blue plastic Motorola transistor radio.

United Fund Vignettes

Where Is Mrs. Gee Today?

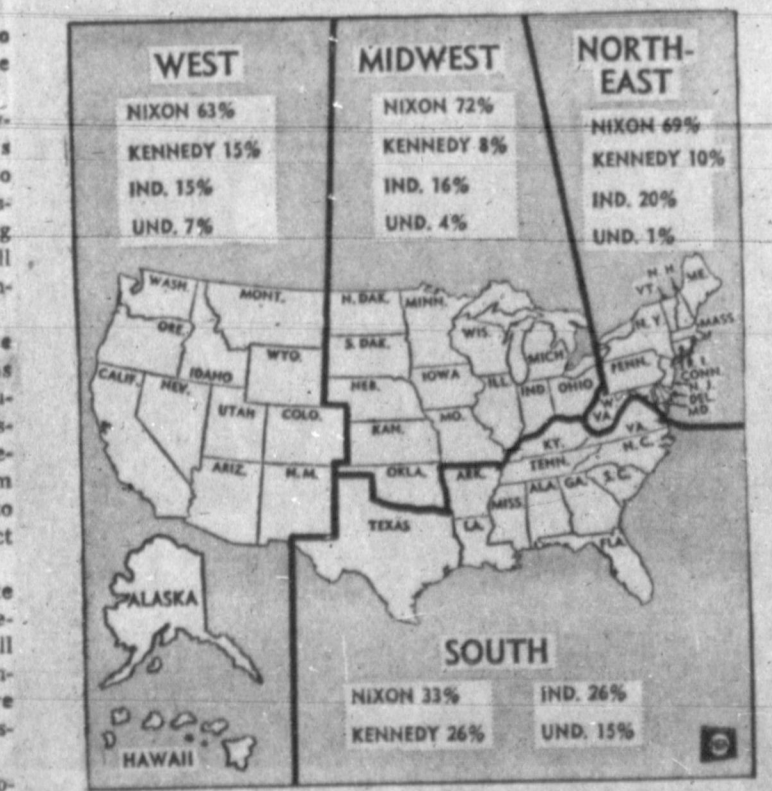

Where's Mrs. Elsie Gee today? That's easy, she's buried in "paper" work for the Pampa-Lefors United Fund campaign; being the only paid employe of the organization places her in a position where she is literally up to her neck daily in details concerning the fund, and, believe it or not, she enjoys it.
Mrs. Gee has been with the United Fund for several years. Her duties are part time throughout the year until it comes time to swing into the campaign, and then her capacity is that of bookkeeper, statistician, telephone answerer, counter of donations, tabulator, and you might say, sweeper-outer, since she's that busy.
But none of this dims her enthusiasm. She's all for the United Fund and the seven agencies it supports, and daily "puts the arm" on her associates to get the job done the way it is hoped it will be accomplished — a goal exceeding achievement, one that would be the second in the history of the campaign.

NEA Poll Of Newspaper Editors

By PETER EDSON
Washington Correspondent
Newspaper Enterprise Assn.
WASHINGTON (NEA) — U.S. daily newspaper editorial support is running 4-to-1 in favor of Republicans-Nixon and Lodge over Democrats Kennedy and Johnson in the presidential election.
This is shown by a survey of dailies receiving this column through Newspaper Enterprise Assn.
Over 300 editors from all 50 states, replying to a query by the writer, reveal that 59 per cent are supporting the Republicans to only 14 per cent supporting the Democrats ticket.
Six per cent of the editors have not announced their choice as of a month before Election Day. They report they are waiting to see how the campaign develops. Most of this group intend to announce their support before Election Day.
But there is a strong 21 per cent of the papers that will make no editorial choice this year. They announce a policy of giving fair reporting to both campaigns and leaving it up to the voters to make the choice.
Many of the papers in this group have been traditionally independent. Often they are the one paper in their respective communities.
To get this measure of newspaper political opinion, the country was arbitrarily divided into four principal geographic areas of 12 or 13 states each: Northeast, Midwest, South and West. Preferences were then measured in an unweighted and unadjusted survey.
It does not take into account circulation totals of the papers surveyed nor their comparative population areas. It is based solely on numbers of papers. There are relatively more papers in the Midwest, for instance, and approximately 40 per cent of the replies come from this area. Each of the other three areas has about 20 per cent of the papers reporting.
This analysis does not show much change from '58. Of the more than 300 papers reporting, less than 1 per cent say they have shifted from Republican to Democratic and less than 1 per cent have changed independent to Republican. All these were in the East and Midwest.
—In the Midwest and South, however, over 3 per cent of the papers have shifted from Democratic to Republican support on national issues. Southern papers reporting this change make clear they still support local Democratic candidates and issues.
The reasons which editors give for their political preferences this year include many of the arguments heard in any campaign discussion. Papers that have been Republican or Democratic for from 50 to 100 years proudly stick to their party. They frequently reflect prevailing opinion in their areas.
In addition to this, editors cite many shrewd reasons for their beliefs. Unfortunately, they can't all be given here. But in their condensed statements, these were some of the outstanding points raised for and against both tickets:
One of the most frequently pro-Republican arguments given is that, "Lodge is the best man of the four." Otherwise, the Nixon-Lodge ticket is the best.

What colors should we use for draperies, occasional chairs and lamps? Is it proper to use a mirror over the fireplace? — Mrs. R. Z. Dear Mrs. R. Z.: Before you throw away hundreds of dollars for furnishings to go with a mistake, spend \$10 for paint. With your green rug and gold sofa, paint the walls and woodwork white and use a white ground chintz with gold-and-yellow flowers and deep green leaves for both curtains and a chair slip cover. Deep green would be pretty for an occasional chair. Brass lamp bases could have white or gold paper shades. It's entirely proper to use a mirror over the fireplace if the shelf is not so high that it throws the mirror out of line of vision.

If you are involved in so many women's clubs and organizations that you are running yourself ragged chances are— That you are one of those women who would feel guilty if you used your leisure time for your own enjoyment and feel you have to impress your husband and your friends with how hard you work by getting into do-good organizations that promise to do more good than they actually do but which keep their members loaded down with "busy work."

Apple Blossom Time On Seventh Avenue Brings Out Spring And Resort Fashions

NEW YORK (UPI)—Most of us women are just getting our fall wardrobes in order, but already it's apple blossom time on Seventh Avenue. Designers and manufacturers in the nation's top garment center began showing their resort and spring 1961 collections last week to buyers and any reporters sturdy enough to brave the elevator and showroom crush. Openings will continue through the first week of November. In silhouette, no major change. The industry talks of the soft, supple, fluid look, which means that the bias cut rampant in Paris for fall has arrived; the sheath continues a favorite with designers Oleg Cassini and Luis Estevez. At Donald Brooks for Townley, the chemise remains very much alive, cut sleeveless, and short, with slanted pockets. Hemlines, unchanged from the current season, which means they strike just barely over the knee. Color in an abundance, with the traditional navy touched with white running well behind splashy reds and greens, bold pinks, beige tones, and a riot of pastels. A "no season" season, with designers stressing clothes which are just as wearable in October as in the Easter Parade. Costumes everywhere, threatening to bury once and for all the two-piece spring suit. Fabrics are soft, with chiffon still popular for evening; the knits show in high priced as well as budget lines; and wools for cocktail and evening dresses are so

U.S. Adventurers Warned To Keep Away From Cuba

WASHINGTON (UPI) — The State Department has issued a new warning for American adventurers to stay out of Cuba. It said Monday that their intervention in Cuban affairs could have serious consequences for the United States as well as cost them their lives before a firing squad. The department previously had urged Americans not to travel to Cuba unless they had "compelling reasons" to go there. No ban has been imposed on travel to Cuba, however. The new statement denounced as "drumhead justice" the execution by the Castro regime of two Americans accused of taking part in an invasion of Cuba on Oct. 3. The charge was based on the fact that appeals by the two Americans — Robert Otis Fuller,

AGOS, Nigeria (UPI) — The gig of Louis (Satchmo) Armstrong's trumpet failed to sway usands of local calypso-lovers the opening concert of his Nigerian tour Tuesday night.

\$8,500 in cash was being handed over to the victim, Mrs. Betty Utterback, 21. Her child, whom Reinhardt had taken earlier in the day by a ruse, was found unharmed in a motel room. Reinhardt was booked on suspicion of kidnaping. FBI agents were called to the Bank of America branch by an employe who was tipped by operations officer Barney L. Kotrbe. Kotrbe became suspicious when Mrs. Utterback was making the large withdrawal while Reinhardt stood near her.

Constitutional Amendments To Be Discussed

The Pampa Kiwanis Club will have James M. House as its speaker at its regular meeting Friday. Under the sponsorship of the Junior Bar Association, House will discuss the four Constitutional Amendments coming up for the voters' approval on Nov. 8 in the general election.

House is an Amarillo attorney and his talk will be based on the fact that in a national election year all voters are concerned with and well apprised of the national issues while issues that matter to the state and local interests tend to be ignored. Since it is natural for voters to say "No" to issues they do not fully understand, these talks are being given to community and civic clubs throughout the state to insure that the public will be well informed on election day.

Kids Hit Toy 'Jackpot' In B & B Toyland Visit

One of the features of B and B Toyland, Ballard at Browning, is the free shopping and gift wrapping available through Mrs. Jo Edwards or Mrs. Bonnie Maples, two ladies who are experienced in shopping for gifts children will enjoy.

The store, chock full of toys ranging from the expensive to the lowest prices imaginable, has one of the finest doll displays in Pampa, and these, too, range from "just" dolls, to the finely clad beauties that will bring joy to young girls.

An old fad — one that was prevalent when we older folk were children — sale of erector sets are booming! This, she noted, isn't only in purchases by grownups, but by youngsters who visit the store.

There is a noticeable trend in this at this time and it is surprising, since it is the first time erector set sales have shown well in the past several years," said Mrs. Maples.

Although Christmas appears to be the major shopping topic at present, the store contains many feature items for Halloween, which is just around the corner, so to speak.

Sorry, sweetheart... but we can't sell electricity that way. And even if we could, five cents' worth is an awful lot of electricity. You'd never fit it into that little basket.

WASHINGTON (UPI) — Henry Cabot Lodge is the surprise package of this presidential campaign. Evidence accumulates that Lodge is as important to the Republican ticket as is Vice President Richard M. Nixon.

For example: When the chips are down in the concluding weeks of the campaign, Lodge will be given the job of making New York State safe for Republicanism. He is to be assigned five days of campaigning in New York.

Republican strategists know that the ticket carrying the five or six top industrial states will win the election. Those are the areas in which Lodge has been heavily exposed with more to come, especially in New York.

The Democratic vice presidential nominee's principal responsibility is the opposite of Lodge's. Sen. Lyndon B. Johnson was added to the Democratic ticket in a bid for the South. For Johnson, Democratic strategists want a minimum exposure in the North and a maximum exposure in the South and Southwest.

The left wing of the democratic

holders are supporting the Kennedy-Johnson ticket although many of them reject in anger the Democratic platform. Sen. Harry F. Byrd, D-Va., and Gov. Ross Barnett of Mississippi are balking. Byrd is withholding endorsement of the Democratic presidential ticket. Barnett is in active opposition.

The consensus of pulse-takers in the South is that Johnson, so far, has done a pretty good job of preventing a break-away in that area.

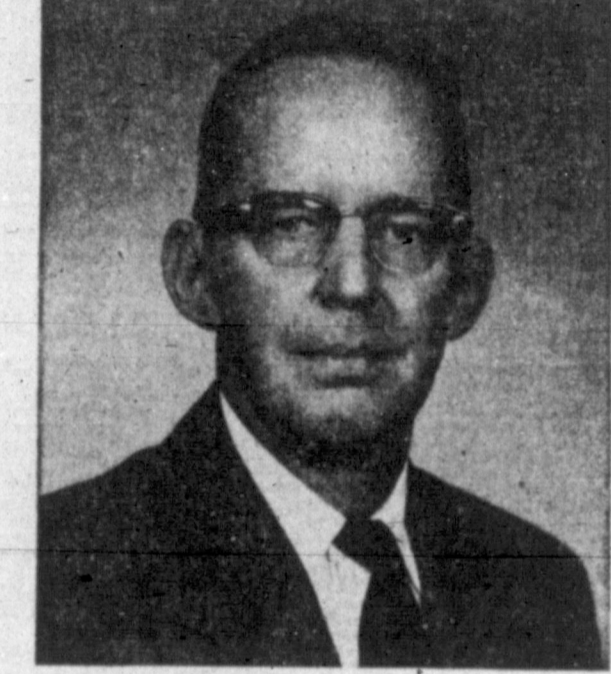

Could it be that Thomas E. Dewey is coming to Washington, after all? Yes, it could be, replied a top Republican strategist who should know what he is talking about.

Dewey might come to Washington in a Nixon Cabinet, in that strategist's opinion. It was suggested that Dewey would be

FORD FOR '61... THE CAR THAT EARNED AN EXTENDED WARRANTY!

... Dealer-Warranted for 12,000 Miles or One Full Year, Whichever Comes First!

We're proud to offer you an automobile that has been built to meet these important goals: finest quality, greatest durability, most reliable operation. We can say, with pride that these are some of the reasons why we believe—more than ever—that Ford is today's best dollar-for-dollar buy on wheels.

These well-earned achievements are also why Ford Dealers led the industry in extending their warranty on '61 Fords to 12,000 miles or one full year, whichever comes first.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF So beautifully!

Lubricates itself—You'll normally go 30,000 miles between chassis lubrications.

Cleans its own oil—You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Adjusts its own brakes—New Track Size brakes adjust themselves automatically for the life of the lining.

Guards its own muffler—Ford mufflers are double-wrapped and aluminum—normally will last three times as long as ordinary mufflers.

Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish—New Diamond Lustre Finish never needs wax.

Warranty—Ask your nearby Ford Dealer to show you his newly extended warranty for 12,000 miles or one full year, whichever comes first.
