Strike Idles Largest Railroad In U.S.

Pennsylvania System's 20,000 Maintenance Men Leave Jobs

By JOHN A. GAUDIOSI United Press International

PHILADELPHIA (UPI)—On the 11th anniversary of its first train the Pennsylvania Railroad shut down today for the first time in its history. Not a grain moved over the biggest U.S. transportation system, and every hour of the strike-caused stoppage heightened its impact on eastern industry and the nation's commerce. A midnight walkout by 20,000 maintenance workers halted all operations on the 13-state, 10,000-mile network stretching from Virginia to Missouri. At least 30 million Americans were affected directly or indirectly at the outset.

equipment was alerted on flights within the Pennsy area. Bus companies gave the same report. New York City commuters, practiced in the ways of traffic breakdowns, appeared unhampered in their surge to Manhattan. Subways and buses absorbed the overflow. The Pennsylvania had experienced strikes previously. But never before in the 114 years since the line was organized had it shut down completely. Today was, ironically, the anniversary of the first train. The Pennsy's original 6-mile line from Harrisburg to Lewis, Pa., opened for travel on Sept. 1, 1849. Delmarva peninsula, a long finger of land between the Chesapeake Bay and the Atlantic Ocean was cut off from rail transportation. An agricultural and poultry area, it depends exclusively on the PRR for shipment of its goods as well as for receipt of incoming goods. The Eastern Shore of Maryland (See STRIKE, Page 4)

Bid For School Control

Louisiana Asks Stay Of Order

WASHINGTON (UPI)—The State of Louisiana asked the Supreme Court today to return control of its public schools to Gov. J. B. Davis pending further appeals of a lower court order directing desegregation of the New Orleans school system's first grade.

The state asked the high court to stay an Aug. 27 decision by a three-judge district court which took away control of the schools from Gov. Davis.

The lower court's decision put into effect a May 16 ruling which ordered integration of the first grades in New Orleans. Earlier this week Federal Judge J. Skelly Wright postponed the proposed integration from Sept. 6 until Nov. 14.

Court officials said there was possibility that members of the Supreme Court would meet today, probably in conference, to rule on the New Orleans school controversy and similar cases involving Houston, Tex., and Wilmington, Del.

Louisiana, in its brief called the integration plan impractical and impossible. The National Association for the Advancement of Colored People, represented by Attorney Thurgood Marshall, filed briefs opposing Louisiana's motion for a stay of the court order. It also requested that the Supreme Court strike down the ruling which postponed the integration until mid-November.

The NAACP also filed a brief in opposition to the Houston request to block an order integrating first grades there. Houston said it would lose \$8 million annually in state aid because of a law which forbids giving aid to integrated schools unless a majority of the citizens of the community vote for desegregation. The NAACP said "it is hardly debatable that the present action of the district court requiring that a start be made is appropriate."

Helium Bill Passed, Sent To President

WASHINGTON (SpI)—The House early today passed and sent to the White House Rep. Walter Rogers' \$500 million helium conservation bill. The Senate approved the measure last night.

In a telegram to the Daily News today, Rep. Rogers said: "When the bill is signed by the President, the private industry will have an opportunity to construct extraction plants for conservation of this vital natural resource."

As finally passed, the Federal Power Commission will retain jurisdiction over helium-bearing natural gas, but not the helium. The measure authorizes the government to go into partnership with gas producers and pipeline companies for construction of up to 12 helium extracting plants. The lighter-than-air gas would be transported to underground storage facilities near Amarillo.

TOURISTS RELAX — Taking a break at the Coronado Inn yesterday were 38 tourists from the Philadelphia area, who stopped at the Inn last night. They are on a 30-day, 16-state jaunt directed by Bernard

A. G. Simmons of Talmadge Tours, Inc., Collingswood, N. J. The western attire and bales of hay turned the visitors into Texans, even if only for the brief visit. (Smith Studio Photo)

Dominicans Want 'Strong Man' Back

CIUDAD TRUJILLO, D. R. (UPI)—A crowd of thousands gathered outside the "white house" here Wednesday night to urge Generalissimo Rafael L. Trujillo to resume the presidency of the Dominican Republic, but he appeared unwilling immediately to do so. The present government directed by President Joaquin Balaguer conforms perfectly to the needs of the moment," Trujillo said in a statement.

"In case of a true emergency for the country, I would return to power." Through the night, crowds of Trujillo supporters circulated through the city, cheering his name. "Several" persons were reported injured in street clashes between Trujillo supporters and members of the opposition MPD party.

In the most serious outbreak, a policeman who had been injured shot and wounded a demonstrator. An angry crowd responded with a shower of stones, breaking a number of shop windows, and then rushed MPD headquarters, setting it on fire. Police restored order before the rioting could spread.

Rafael Trujillo has been the dominant figure in Dominican politics for 30 years, and during most of that time he has been president of the country. Twice, however, he has vacated the office in favor of a hand-picked successor—Jacinto B. Paynado in 1938, and Trujillo's brother Hector in 1952.

Access To West Berlin Tightened By Commies

BERLIN (UPI)—Communist East Germany today repudiated four-power agreements giving the West free access to West Berlin and continued tightening its restrictions on traffic to the isolated city, despite a sharp Allied protest. The claim that the four-power compacts were null and void was made by Deputy Foreign Minister Otto Winzer, who maintained that Communist Germany was a sovereign state, not bound by legal obligations contracted by the Soviet Union.

Winzer summarily rejected a joint American, British and French note on the traffic issue, even though it had been addressed to the Soviet military commandant in East Berlin, Maj. Gen. N. F. Zaharov. The Russians remained silent. The new crackdown on travel was started by the German Communists earlier this week, allegedly to prevent "agitators" from entering West Berlin to attend a four-day refugee rally, which started today. The Communists so far have refrained from interfering with rail and air traffic crossing the 110-mile corridor from West Germany to the former German capital. However, they harassed auto traffic, turning back some motorists and subjecting thousands of others to long tie-ups at checkpoints.

Enrollment Total 5,839

Some 6,000 pupils will be enrolled in Pampa public schools by next week, Knox Kinard, superintendent of schools, said today. First-day enrollments totaled 5,839 and a few more pupils entered schools today. "The principals called and reported a few here and a few there. I believe we will exceed 6,000 by next Tuesday," Kinard said.

This first-day figure was above the enrollments for the first day of 1960, the superintendent noted. Kinard cited population shifts in the city and explained this by pointing up school enrollments and noted the continued growth of the city in announcing many new students had been enrolled.

"New students indicate a city's growth, and Pampa is growing," he said. A breakdown of first-day enrollments showed 3,297 children in elementary schools, 503 at Pampa Junior High, 882 in Robert E. Lee Junior High, and 948 at Pampa High School.

Dam Project Funds Voted

WASHINGTON (SpI)—A supplemental appropriations bill for \$300,000 earmarked for advance planning on the Canadian River dam and reservoir project has been sent to the White House for President Eisenhower's signature. Both houses of Congress adopted the conference report last night, according to Congressman Walter Rogers.

The money in the bill will be available in 1961 for use in completion of plans and specifications for the proposed dam near Sanford. Any money left over is to be used in planning an aqueduct which would carry water to 11 member cities of the Canadian River Municipal Water Authority.

Sheriff Returns Parole Violator

Charles V. Sparks, 24, was returned to Pampa last night from Dallas by Sheriff R. H. Jordan on charges of parole violation and uttering worthless checks. Jordan said that Sparks received a four-year sentence from Dallas County and had served 14 months at Huntsville Penitentiary when he was paroled. He is to be arraigned in Gray County Court on the check charge which totals \$122.20 and for parole violation.

Kasai Spearmen Hold Up Against Well Equipped Congolese Troops

By GEORGE SIBERA United Press International

LEOPOLDVILLE, Congo (UPI)—The Painted Baluba spearmen of Kasai province appeared today to be at least holding their own against the rifles, machine guns and recoilless cannon of Premier Patrice Lumumba's army. Reports from the strife-torn province said 35 soldiers and about 1,000 Balubas—men, women and children—have been killed in fierce fighting around Bakwanga, capital of Albert Kalonji's secessionist "mining state" in southern Kasai.

UPI correspondent Glenn Currie reported from Bakwanga that Lumumba's troops control most of the town while the Balubas have a free run of the woods and surrounding hills just outside—especially at night. "There have been no prisoners on either side," Currie said. "All captives have been killed out of hand, both by the troops and by the Balubas, according to the remaining white residents."

"Both sides cut off the hands of their dead adversaries and sport them as trophies on their belts."

Lodge Goodbye From U.N. Staff

NEW YORK (UPI)—United Nations personnel—from the guards and elevator operators to the secretary-general—said goodbye Wednesday night to Henry Cabot Lodge. Lodge, who leaves his post as United States ambassador to the U.N. Saturday to campaign for the vice presidency, and Mrs. Lodge were hosts at a reception attended by 1,500 persons in the Waldorf Astoria Hotel.

Political Writer Terms 'Rump' Session Of Congress Unnecessary

Some 50 persons attended the Congressional Action Breakfast this morning in Colorado Inn sponsored by the Pampa Chamber of Commerce. Louise Evans, editorial page editor of the Amarillo Daily News, was the featured speaker. Miss Evans told her audience she feels that the short session of the 86th Congress is uncalled for and "not necessary."

"This session of Congress is a political thing. Bills that were passed have little meaning, and the session was brought on as a political favor to Sen. John F. Kennedy and Sen. Lyndon Johnson."

"I don't imagine Richard Nixon minded it being called, either," she said. She pinpointed numerous flaws in such bills as the medical rider that was sought for the Social Security Act, the increase from \$1,200 and \$1,500 on the ceiling one may earn and still draw social security, among others. "When I came under this act I felt, and I am sure you people did too, that it was an annuity that my employer and myself were paying for my benefit in later life. However, such a ceiling clearly defines

troops with ancient muzzle-loading rifles, spears or bows and arrows. "They are no match for . . . Lumumba's troops in direct combat, but they are doing a lot of damage in night fighting," Currie reported. "The Balubas seem to be better organized now, and will certainly keep up their night attacks."

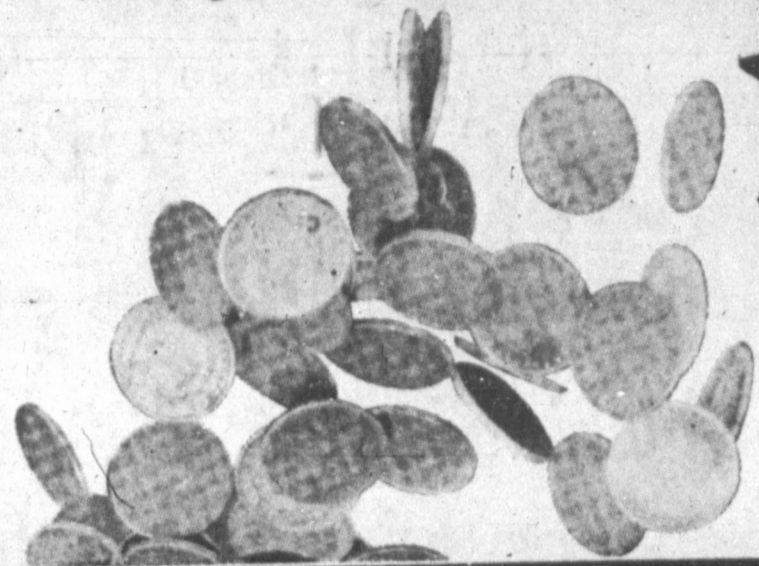

Historic Date Is Unheralded FRANKFURT, Germany (UPI)—The 21st anniversary of the beginning of World War II passed almost unnoticed in Germany today. Germans were preoccupied with new Communist threats to West Berlin and the performances of the all-German Olympic team in Rome rather than remembrance of the past. Blazoned across the front pages of Germany's leading newspapers were stories and pictures of German athletes. The papers maintained almost a complete silence on the fateful events of that day 21 years ago when Adolf Hitler gave his armies the signal to attack Poland.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

Division of Estates Explained

The death of an intestate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. In the preceding column we investigated the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among the rightful claimants.

It may be well to recall that the separate estate of a husband or wife includes property owned by either before marriage, and that which is acquired after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Now, here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing personal property—cash, stocks, bonds,

furniture, or any other items not constituting real estate—is different. Here the surviving spouse gets full ownership of one-third, and the children and their descendants inherit the balance.

Now suppose your husband or wife survives, but there are no surviving children or their descendants. In this case the surviving spouse inherits all of the personal property involved.

With regard to real estate, the survivor obtains full title to one-half, and the other half is divided between your mother and father, if both survive you. If only one of them survives, he or she receives only half of this portion, and the other half (or one-fourth of the entire real estate) will be divided among your brothers and sisters (and their descendants) who survive. If there are no surviving brothers and sisters and their descendants, then the one surviving parent inherits the full one-half.

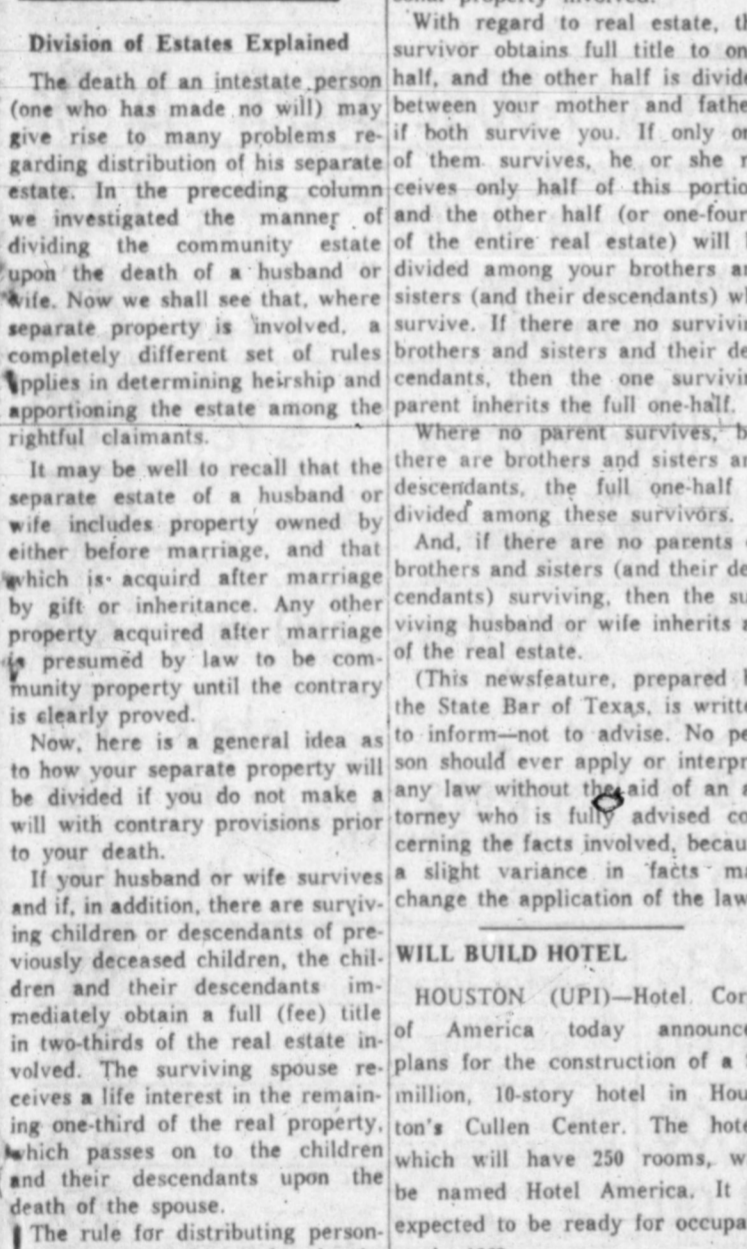

Where no parent survives, but there are brothers and sisters and descendants, the full one-half is divided among these survivors.

And, if there are no parents or brothers and sisters (and their descendants) surviving, then the surviving husband or wife inherits all of the real estate.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

WILL BUILD HOTEL

HOUSTON (UPI)—Hotel Corp. of America today announced plans for the construction of a \$4 million, 10-story hotel in Houston's Cullen Center. The hotel, which will have 250 rooms, will be named Hotel America. It is expected to be ready for occupancy in 1962.

REAL PEACHY — Young E. C. King and his sister, Jean, of Denver, who say they like to eat peaches, have been in their glory while visiting their grandparents, Mr. and Mrs. J. P. Stephens, 324 N. Roberta. The youngsters hold some select California jubilees that Stephens says are weighing down his trees. The peach the girl is holding in her left hand measures 11 inches in circumference. (Daily News Photo)

Three-Way Integration Problem In N. Carolina

DUNN, N.C. (UPI)—Seven Indian high school pupils were taken into custody by officers when they stepped on property of a white school, today but were released after sitting in police cars for 45 minutes.

The children, seeking admission to the all-white Dunn High School, were met by a platoon of policemen when they arrived to begin the second day of a classroom sit-in.

They were seized by officers and led to waiting patrol cars. The police kept them in the cars for 45 minutes and then let them out, telling the children they were not under arrest and to go home.

The Indians went back to the front of the school but did not go on the school grounds.

Sheriff Wade Stewart asked Woodrow Groves, whose 17-year-old son was arrested Wednesday after trespassing at the school, to take the children home. Groves answered, "I'm not going to. They're in your custody."

Juanita Groves, one of the pupils held by the officers, called to her mother: "They say they're going to turn us loose if we don't come back. We are coming back, aren't we?"

Parents of the Indians, standing across the street from the school, called back a strong "yes!"

The Indians want to attend the school here to avoid 70 miles of daily travel to an Indian school in another county. North Carolina maintains separate schools for Indians, Negroes and whites.

Dalton Groves, 13-year-old son of Woodrow Groves, told newsmen at the scene, "We got to get in some school and we're not going with Negroes. We just got to get in this school somehow. After all, it's the only place we can go since we don't have a school of our own."

BLOCKED

(Continued From Page 1)

he called vital for security, authorized his \$600 million Latin American aid program and approved a \$550 million stop-gap housing bill.

When the Senate revised the sugar measure, Chairman Harold D. Cooley, D-N.C., of the House Agriculture Committee angrily told House leaders the administration proposal was designed to topple the Trujillo regime. He said this probably would result in a Communist regime in the Dominican Republic.

Under the parliamentary situation, unanimous consent was required for the House to accept the Senate revisions or send the legislation to a Senate-House conference committee to work out a compromise.

Angry Democrats said they would block either move by raising an objection on the House floor.

Cooley declared he was unwilling to participate in any compromise negotiations "at four o'clock in the morning on a matter of such international importance."

At this point Rayburn ordered the recess.

Cooley summoned the House Agriculture Committee to a meeting at 11 a.m. e.d.t. "to discuss the status quo."

The marathon session, which began at noon e.d.t. Wednesday, was marked by political bickering as well as the flurry of legislative activity.

Democratic presidential nominee John F. Kennedy accused Republicans of blocking a more liberal legislative program and in effect challenged Vice President Richard M. Nixon to debate the issue in the campaign.

Republicans fired back at what they termed "fruitless... useless" leadership of Kennedy and other Democrats.

Debate Dates Set

WASHINGTON (UPI) — Sen. John F. Kennedy and Vice President Richard M. Nixon will hold the first of their unprecedented radio-TV debates Sept. 26 and follow with two or three more electronic electioneering appearances.

The debates will be held at peak viewing hours and will be carried simultaneously on all major radio and television networks, leaving the public little choice but to hear the two presidential candidates argue the issues for an hour each of the nights.

Members of Congress have forecast the debates may revolutionize political campaigning, by substituting the living room for the county fairgrounds or the rear platform of a cross-country train as the setting for partisan oratory.

Integration Under Protest If Court Appeal Denied

HOUSTON (UPI)—First grade classes in 144 Houston elementary schools will be thrown open to both Negro and white children "under protest" next week if the U.S. Supreme Court today denies a motion for temporary stay of a lower court's integration order.

School Board President Dr. Henry A. Petersen said the appeal to the Supreme Court appears to be the board's "last resort" in trying to head off the integration ordered by U.S. Dist. Judge Ben C. Connally.

The high court has been asked to grant a temporary stay of Connally's order until the Fifth U.S. Circuit Court of Appeals in New Orleans can schedule a hearing on the board's appeal.

Gov. Price Daniel Wednesday refused to intervene in the Houston integration controversy, saying the same thing had been tried in Virginia and it didn't work.

The school board had asked Daniel to interpose state powers not delegated to the federal government between the schools and the federal courts.

"This exact action" was tried in the state of Virginia and Virginia now is following the Texas policy of leaving operation and control of school matters in the hands of local school districts," the governor said.

"If such state control were attempted, the entire state and all of its school districts could quickly become involved in federal court injunction suits such as we are now witnessing in Louisiana." Kindergarten and first grade pupils are registering this week for the start of classes next Wednesday. Three Negro children tried to enroll in previously all-white schools Wednesday, but they were turned away because they have older brothers and sisters who were enrolled in another school.

The school board some time ago adopted a policy which forbids children attending school for the first time from attending a school other than the one attended by their older brothers and sisters.

Asst. Supt. Charles R. Nelson said two Negroes tried to enroll at Kashmere Gardens Elementary School and another, identified as Audrey Edwards, 6, tried to register at John Harris Elementary School.

It was the first time since registration began Tuesday that Negro children had tried to enroll in previously all-white schools.

Liquor Control Board Crackdown

Fines totaling \$700 have been handed three men and one woman in Gray County Court on charges of selling intoxicating beverages to minors and selling beer on Sunday.

Mrs. Jack McCamey of McCamey's Liquor Store, 1008 1/2 W. Brown, was fined \$400, and costs for making sales to minors; Bill Langley of Price Road; A. J. Hindman, of 308 1/2 block S. Cuyler, and Luther Rose, no address noted, each was fined \$100 and costs for illegal Sunday sales.

Possible administrative action depends on each of the cases.

POLITICAL

(Continued From Page 1)

Congressmen should live in their own districts, and go to Washington about 30 days a year.

"They live on the banks of the Potomac River and voice the opinions they form, not the desires of the people. They establish a list of sorts of legislation that the people do not need or desire. They have set up bureaucracy, which is worse

Miami School Opening Delayed

Miami public schools opening has been moved up to Sept. 12, Superintendent Weldon Snodgrass, said today.

The schools were to have opened Labor Day. However, the superintendent said construction of the new school and other work at the high school forced him to change the opening date.

The first day of school will be a full one. School lunchrooms will be open and buses will operate on schedule so as to have pupils at schools by 8:25, Snodgrass said.

Registration was being conducted at the schools today.

Weather was the major delay in construction of the \$295,000 school building, remodeling of the gym and auditorium, and in repair of the high school, but all should be

than being under a king or a czar," she said.

Following the speech she conducted a short question and answer session.

Weathercaster Speaks At Rotary

Dan True, Amarillo weather broadcaster, yesterday talked to the Pampa Rotary Club on the equipment being put at his disposal for weather forecasting. True told of the problems in predicting the weather in the Panhandle and commented that he thought there were too many unjustified severe weather forecasts given. The speaker said that he thought the criterion for a severe weather warning was the actual sighting of a tornado funnel.

Terry Culley, high school basketball coach, was inducted into the club after being introduced by Travis Lively.

Visitors and guests for the day were Jack Knight, Curtis Lee, E. ready by the new opening date, he said.

Snodgrass, in a move to recover some of the lost classroom instruction, cut two days from the holiday periods for this semester. A day set for pupils to visit the Tri-State Fair, and Dec. 21 of the Christmas holiday period are to be regular school days.

EDUCATION POST

AUSTIN (UPI)—House Speaker Waggoner Carr Wednesday appointed Rep. James V. Adams of Mt. Pleasant to the Texas Educational Standards Commission, succeeding Rep. C. T. (Pete) Matthews of Yoakum.

L. Gallemore, Joe Whitten, Jack Parker, Jack Allen, J. B. Rinehart, Dwayne Bruce, Roger Walton, Wade Bond, Ed Morris, Harry Smith and Lester Bowman.

FAT OVERWEIGHT

Available to you without doctor's prescription, our drug called ODRINEX. You must lose ugly fat in 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies, chewing gum. ODRINEX is a tiny tablet and easily swallowed. Difference In Europe Unnoticed

By VERNON SCOTT
UPI Hollywood Correspondent

HOLLYWOOD (UPI) — Costume designer Edith Head, winner of six Oscars, is fresh back from Europe and says the chief difference in feminine apparel abroad and in the United States is undergarments.

Lingerie in Europe is fancier and daintier, she explained. "French, German and Scandinavian girls dress as if they

might be caught in an automobile accident and had to be taken to a hospital," she said. "Their underclothes usually match their outer garments."

Edith has dressed most of Hollywood's stars in her 20-year career at Paramount Studios, and for the past month or two she was busy costuming Lily Palmer, Erica Beer and Eva Dahlbeck in Germany for "The Counterfeit Trail."

She found the foreign actresses a far cry from movietown glamour girls who wear leopardskin panties — or none at all.

"They have a different concept about underwear over there," Edith said. "They wouldn't have to worry about being arrested if they suddenly lost their dresses in public."

"Neither would the girls be embarrassed by padding. I didn't encounter a single pair of falsies while I was over there."

"And girdles are almost unheard of among European actresses."

American undergarments are more utilitarian than those in Europe where filmy things are more provocative and carefully selected. They spend as much money on fancy petticoats, panties and brasieres as they do on suits and dresses, even if these things are never seen.

According to Edith, a trim little woman who dresses stylishly herself, European gals have firmer

figures than their American sisters.

"Maybe it's because they walk more and exercise more frequently," she said.

"Another thing, women over there wear more undergarments. This is probably because the climate is colder. Even, then, their undies are fancy with plenty of lace."

Though Edith is well versed on unmentionables, she is concerned only with outer garments when it comes to business. Actresses generally wear their own lingerie for movies.

"My problem is to design gowns to suit the character in the movie," Edith said. "What they wear under my designs is their

HIGH COST OF POPSICLES

JACKSON, Miss. (UPI)—Three barefoot youngsters wandered into Gov. Ross Barnett's office Tuesday to demand that he do something about the high cost of popsicles.

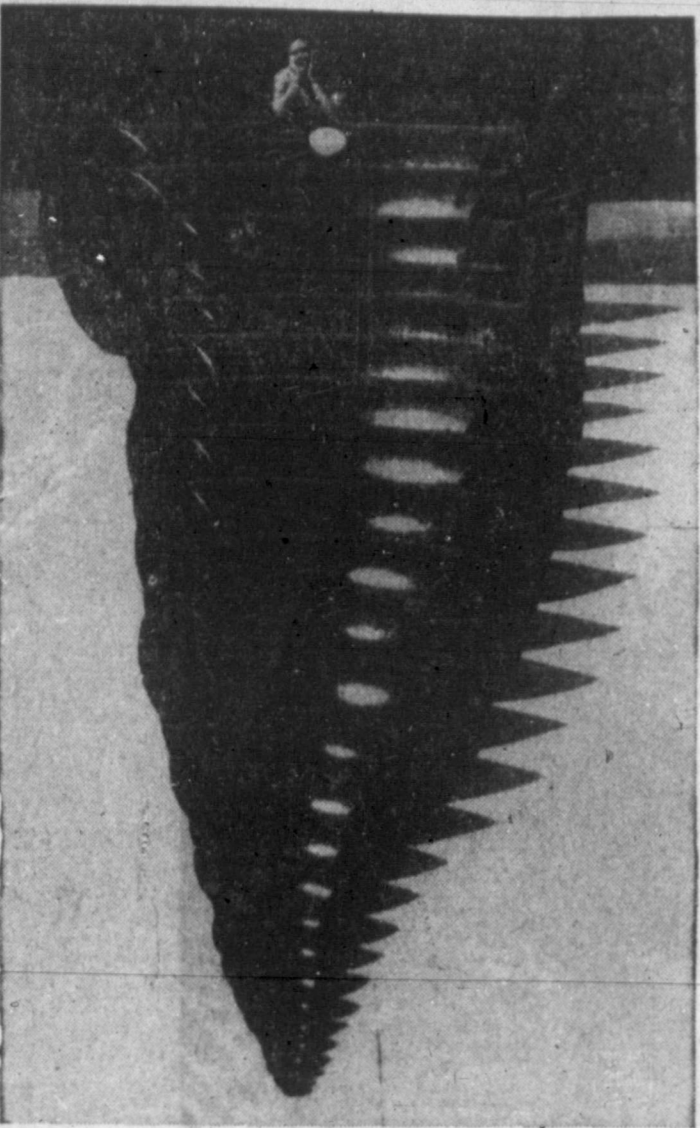

Jack Roell, 12, his brother Charles 10, and a cousin, Bradford Johnson, 11, complained to the governor's receptionist that a street vendor charged six cents for popsicles and "we want the price reduced."

own business. But I must say, the Europeans are better dressed where it doesn't show.

The youngsters were ushered into the governor's office but then were too awed to tell him why they came.

Marble Uses

Atlanta — Marble can be ground as fine as flour and forms a base for rouge, toothpaste, paints, rubber and linoleum.

ELBOW ROOM—There are 27 elbows here if you count the two pretty ones belonging to Shirley Haag. She's leaning on the 42-inch-diameter forged steel elbow, largest of the group which ranges down to a half-inch. The Chemetron products were displayed in Louisville, Ky.

European Red Chiefs May 'Caucus' In U.S.

By HENRY SHAPIRO
United Press International

MOSCOW (UPI) — Diplomatic observers speculated today that the Communist may hold a "summit meeting" in New York later this month when the United Nations General Assembly convenes.

There have been unconfirmed reports from both Europe and the Far East of a Communist bloc summit where differences between Peking and Moscow in the interpretation of Marxist theory and coexistence with the West would be hammered out.

Observers here said the appointment of party secretary Gheorghiu-Dej as Romania's representative to the General Assembly may be the

first step toward such a meeting.

They pointed out that other Iron Curtain countries may follow Romania's lead and send their top leaders to the United Nations.

Soviet Premier Nikita Khrushchev hinted recently that he might fly to New York. The appointment of Gheorghiu-Dej makes Khrushchev's trip even more likely, sources said.

If other top leaders, such as Poland's Wladyslaw Gomulka, Hungary's Janos Kadar and Czechoslovakia's Antonin Novotny, show up in New York, it might constitute a miniature Red summit meeting.

Some of the satellite leaders visited with Khrushchev in Moscow and at the summer capital in Yalta where they undoubtedly discussed the general party line.

Lefors Personals

By Mrs. Charles Roberts

Mr. and Mrs. O. O. Bishop left on vacation Saturday morning for Clearfield, Utah, to visit their son and family, T. Sgt. and Mrs. H. J. Bishop.

Mrs. Jennie White is seriously ill in the home of her son Floyd Mathis, in Tyrone, Okla.

Last Tuesday night at the cabin of Mr. and Mrs. W. G. Hughes of Lake Kemp, 26 Lefors persons gathered for a fish fry. They were the Daniel Rose, Bob Fish, Charles Roberts, J. B. Martin, W. W. Bratcher, J. D. Hester and the Hughes families.

Mr. and Mrs. Jimmy Roberts and Laura Gail are in Lefors from Lubbock visiting their parents the Collins and John Roberts. They went on to visit relatives in Ada, Okla., with Mrs. John Roberts. They plan to return to college at Texas Tech shortly.

Mr. and Mrs. Howard Bradford are in Denver visiting.

Mrs. Joy Dones of Sacramento, Calif., has been visiting her sister and family, the Jerry Jacobs.

The Bill Teel family vacationed in Colorado last week.

Mrs. Mary Porterfield was taken to an Amarillo hospital last week.

Mrs. Ralph Stout of Kileen, daughter of Mr. and Mrs. L. G. Pierce and sister of Mrs. Bud Means, underwent emergency surgery in St. Joseph Hospital Aug. 29.

Quotes In The News

By United Press International

WASHINGTON — Vice President Richard M. Nixon, replying from his hospital bed to presidential opponent Sen. John F. Kennedy's "get well" message: "It was most thoughtful of you to wire me as you did. I hope you have no similar accident. Much against my will, I am trying to do what the doctor orders. In hope to be back on the campaign trail before too long."

LOS ANGELES — Carole Tregoff, on why many answers at her first murder trial were not the same — in response to the same questions — as those at her current retrial: "Well, I certainly wasn't infallible."

LONDON — Crooner Bing Crosby, on why it's harder these days to fit into movie roles: "I'm too old to get the girl and too young to play the grandpappy — although I'm one in real life."

'Fastest Man' Assigned To Texas

SAN ANTONIO (UPI) — The world's fastest man on the ground has been assigned to Brooks Air Force Base in San Antonio.

He is Col. John Paul Stapp, Air Force flight surgeon who has tested rocket sleds at Holloman AFB, N.M., during experiments testing high-speed balling out of aircraft. He reached 32 miles an hour in one test in 1954.

Stapp will be special assistant for aerospace medicine at the Aerospace Medical Center at Brooks. He has been serving as chief of the aerospace medical division of the Wright Air Development Center in Dayton, Ohio.

Wall Street In Review

NEW YORK (UPI)—The Value Line investment survey said today that stocks are more likely to go down than up during the next twelve months.

It admits that investors are in

a dilemma because while stocks are overpriced relative to past standards, and yields are too low, especially compared with bonds, nevertheless brokers' loans are quite low, trading volume is not speculative, and inflation looks as if it is here to stay.

Value Line feels, however, that while conditions have changed, it is also true that "new era" philosophy—as stated by both party platforms—has always preceded a sharp break in security prices at

previous bull market tops.

Reynolds & Co. says that U.S. Rubber offers "good statistical value." Sales this year should exceed \$1 billion for the first time in history and earnings should rise to around \$5.50 a share from \$5.30 in 1959. Future prospects are favorable for both tires and chemicals, Reynolds says.

Bache & Co. finds it interesting that Lorillard set a new 1960 high on a day of irregular market action last week. The performance reinforces the stock's sound technical position and suggests further upward progress, Bache said.

LOOK ALIKES

BILLERICAY, England (UPI)—Chinese waiter Shing Ah Cheung told magistrates Monday he could not identify six men accused of passing a forged pound note in the restaurant where Shing works because "all you English people look alike."

CRUDE BOMB, HUMOR

McLEAN, Va. (UPI)—Demolition experts called to disarm what appeared to be a crude time bomb Monday found the bomb consisted of an alarm clock and a note which read: "Stop smiling. Don't you have enough work to do?"

Coats especially scaled to the needs of the woman who is small short there's lots of fashion in petite sizes. Tweed is used (left) for this handsome double-breasted coat with smooth notched collar of sheared beaver. Texture of the tweed is that of a shadow plaid. Gently curved and flared, this coat (center) is exactly scaled to the proportions of the small woman. It's done in soft fleece and in a new shade which is almost white. This beautiful coat (right) has a wedding band collar of mink mounted on a silhouette with princess lines. Many small women feel that fur can be overpowering but this design solves the problem. All of the coats shown are by Britany. Any one of them could be the backbone of a successful fall wardrobe.

Mrs. Thacker Has Lefors HDC Meet

LEFORS (Spl) — Lefors Home Demonstration Club met in an all-day session with covered dish luncheon served at noon Thursday, in the home of Mrs. B. J. Thacker. In the special business meeting of the day, presided over by Mrs. O. O. Bishop, president, it was voted to pay \$107.45 in back taxes on the park and deed the park to the city. It was voted to purchase cement for one more concrete table and benches to be constructed by B. J. Diehl. Planters and plastic flowers were made during the day by those attending as well as molded plastic figurines. An apron exchange was also held. One new member was welcomed to the club, Mrs. Walter Elliott. Five guests were present. Mmes. J. A. Davis, Irene Auldridge, Manuel Allison, Carl Hall, and Ray Chastain. Members present were Mmes. O. O. Bishop, B. J. Thacker, C. W. Teters, C. C. Wells, A. M. Dickerson, A. T. Cobb, B. D. Vaughn, B. J. Diehl, B. J. Leininger, and W. K. Davis.

Polly's Quiz

Dear Polly: We hope you will help us as we think you are just the greatest on decorating problems. We have Early American furniture, beige walls and couch and multi-colored braided rug. One chair is green tweed and another is a faded print. We'd like to recover this chair but what color should we use for it? Could we paint an old-fashioned wicker rocker and use it in the living room? What color and kind of shades are right for milk glass lamps? And what kind of curtains, since my husband doesn't like white ruffly ones? — Mrs. D. R. Dear Mrs. D. R.: A wicker rocker could add a homey and rather whimsical touch to your informal living room. Paint it a dark green and have the pads for the back and seat covered with brick red felt or a beige - and - brown plaid. Your husband should like straight, hanging curtains made of an all-over provincial print in beige, brown, green and brick red. Slip cover the club chair to match. Use simple, tailored lamp shades, either white or gold paper. Dear Polly: My living room walls are pale green; I have a dark green three-piece sectional. Please suggest colors for throw rugs, draperies and an odd chair. — Mrs. R. P. H. Dear Mrs. R. P. H.: Throw rugs in the living room are like to throw somebody right into hospital bed. Do invest in a room size rug, perhaps a black-and-white tweed mixture. Draperies and slip cover for the odd chair could be a gray floral print with lots of pink and red in the flowers and with green leaves on a white background. Dear Polly: I have light gray walls, carpets a bit darker, gray lamps, yellow draperies and two green chairs. The chairs are figured in rose, chaise and brown. What color couch and chair could I use? — Mrs. G. L. Dear Mrs. G. L.: You have too many colors and not enough close harmony. Do tie those yellow curtains into the scheme. Perhaps a yellow - and - gray striped chair and a yellow, slip cover on the couch would solve your problem.

Dear Abby... Battle Of Breeze Fought In Office

DEAR ABBY: I work in a 3-girl office. There are no outside windows, and we are having the battle of the fan, door and transom. The score is 2 to 1 in favor of the door and transom. I like the fan on but the other two say the fan gives them stiff necks and colds that last all summer. So they open the door and transom. This creates a draft. When I complain about the draft, they say the only draft in the office comes from one loud mouth. (Mine.) It is like watching a bunch of kids. When one leaves the office the other turns off the fan and opens the transom. I am sick and tired of this. Can you offer a solution? DEAR ABBY: My husband has a tool shed full of tools and is very handy when it comes to fixing things—for friends and neighbors. But when I ask him to fix something in his own house he tells me he worked 8 hours today. A window fell out and I had to get up on a ladder and fix it myself. Right now the door on my refrigerator won't stay shut so I have to keep a chair in front of it. When he does get big-hearted and decides to fix something (like my vacuum cleaner) he takes it apart and it just lays in pieces. Tell me what to do before I lose my mind.

Petite Women Get Nod From Coat Designers

By GAILE DUGAS, Newspaper Enterprise Women's Editor. NEW YORK (NEA) — The small woman, after years of neglect, is rating lots of attention from important designers. This is fortunate because there are a good many small women with special figure problems. Delicate bones, short waists, narrow shoulders and a height under 5'5" could all produce endless shopping problems until now. American women generally spend a large, round sum on alterations each year. But as designers and manufacturers come to a more realistic way of thinking, some of these expensive alterations can be eliminated. Coats, in particular, have provided problems for petite women. Sleeve length, all-over length and even bulk helped to create a picture of a little girl dressing up in her mother's finery. Many petite women have stayed away from fur trim entirely on the overpowering. This year, the small woman will have no trouble in finding both fur trimmed and untrimmed coats proportions. She will find designs which take special note of her particular problems. Fabric is seamed deftly to give her the illusion of height. Sleeves are carefully trimmed down to make the most of the shorter arm length. And fur is used but never so that it proves overwhelming or bulky. Combine 1 quart of apple juice, 1/2 cup of honey and 2 tablespoons of butter. Heat. Pour into mugs and top with a dash of nutmeg. The Jerry Jacobs Are Coffee Hosts. LEFORS (Spl) — Superintendent and Mrs. Jerry Jacobs were hosts for a Coffee given Friday morning in their home. The purpose of the occasion was to get acquainted with new teachers, who are teaching for the first time in Lefors and to welcome back former teachers, Bob Peterson and Harry Garrison. Other guests were Alex Swann; Messrs. and Mmes. G. N. Mounger; H. L. McCarty; Dale Prescott; Mmes. Arthur Hammer, Ruth Natho, Fern Bull, Imogene Clarke; Harley Lewis, Eddy Clemmons, B. McGowan, L. H. Berryman, Miss Ardell Briggs, Ronald Adams, Edward Lehnick, Helen Lette; Mmes. W. O. Nowlin, Mary Sue Black; Paul Waldenand and Weldon Moore.

School Plans Made At Meet

The first meeting of St. Vincent De Paul Home and School Association was held recently in the school cafeteria. Announcement was made that the school bus would be available again this year to those who have no transportation to school. It was also announced that meetings for the coming year would be the second Tuesday of the month, at 8 o'clock. The board meetings will convene at 7 o'clock. A cot was donated by Mrs. E. J. Berres for the first aid room. Coffee was served by the hostesses: Mrs. H. C. Duesterhaus, Mrs. J. J. McCarthy, and Mrs. Roger Farrow. If you think you're cooler without stockings, you're wrong. According to the New York Hospital for Special Surgery, stockings are a boon to hot feet because they absorb heat. Of course, they should be sudsed after each wearing.

SS Classes Have Social Meeting

Fellowship and Bible Study Classes of St. Paul Methodist Church entertained with an ice cream social Thursday evening in Fellowship Hall of the church. Hosts were Mr. and Mrs. Charles Norton. Bridge and other table games comprised the evening's entertainment. Attending were Mmes. Bill Rutledge, Gene Hollar, Sidney Parsley; Messrs. and Mmes. Gene Boyett; Bob Lee; C. J. Terhune; Ken Orlicek; Billy Kennedy; Don Cotton; Harold Mason; Bob Goodwin; Neal McDaniel; Bill Taylor; and the Rev. and Mrs. Jack Riley. Plans were announced for the classes to have a social each month.

BE SURE! After You See Your Doctor, Bring Your Prescription To Us. THOMPSON SHOP 328 N. Hobart MO 4-8859 Drive-In Window Free Delivery

DEAR RUTH: It is foolish (and dangerous) for an experienced woman to try to "fix things" that require the skill of an electrician, carpenter or mechanic. If your husband refuses to do it—hire someone and hand hubby the bill. DEAR ABBY: What is a 14-year-old girl supposed to do when she has strict, old-fashioned parents who don't trust her? That's me. I have a twelve o'clock curfew on all my dates. I put up an argument and my father said if I don't come in by midnight I can just sit home altogether. They act like I am going to turn into a pumpkin or something. How old do I have to be before I can disobey them? FEELS LIKE CINDERELLA. DEAR FEELS: Midnight is late enough for a 14-year-old. And girls who wait for the day when they can "disobey" their parents usually turn into something less appetizing than pumpkins. CONFIDENTIAL TO BOBBY HAMM: Thanks for naming your pet pigeon after me. I got the message!

Just what you'd expect from Sealtest ... a new and inspired cottage cheese

WONDERFUL NEW FLAVOR AND TEXTURE SEALTEST CELERY PEPPER SALAD COTTAGE CHEESE! You'll agree, even Sealtest never made a cottage cheese like this before! Deliciously blended with tasty bits of celery and the zesty goodness of red and green peppers. A DELIGHTFUL TREAT FOR EVERYONE This newest Sealtest surprise will delight everyone. Just watch tired appetites respond to the sparkling new flavor of SEALTEST CELERY PEPPER SALAD COTTAGE CHEESE. MAKES "GOOD THINGS" EVEN BETTER Adds a flavor to soups, sandwiches, omelets... is completely wonderful all by itself. Ask for SEALTEST CELERY PEPPER SALAD COTTAGE CHEESE—at your store or door.

Mrs. Estes Feted At Cradle Shower

Mrs. Donald Estes was honored with a Cradle Shower on Wednesday afternoon in the home of Mrs. Jimmy McBroom, 1013 E. Foster with Mrs. George Higgins and Mrs. Floyd Baxter as hostesses. The honoree was presented with a baby-rattler corsage showered with white ribbon rosebuds. The refreshment table was covered with a lace cloth over blue where refreshments of fruit punch and pink cake were served. Attending were Mmes. G. W. Roachelle, E. D. Herlacher, Meri Estes, A. W. Winborne, R. L. Miles, Jimmy Mann, O. C. Holman, L. O. Thornton, Elmer Pritchard, M. L. Lunsford, George Lovelace, Joe Hernandez; Misses Lucy Herlacher, Wynona Pritchard, Carol McBroom. Additional gifts were received from those unable to attend. Do you want your cookies, cakes, and muffins to stay moist? Then use honey as an ingredient, for it helps baked goods to retain moisture.

Olympic Feature

Thomas Choice In High Jump

By LEO H. PETERSEN, UP Sports Editor. ROME (UPI)—John Thomas of Boston, the world high jump record-holder, was expected to lead a 1-2-3 American sweep in his specialty today but U.S. sprinters faced tough competition for their gold medal from a German and a Canadian.

The eight championships up for decision today. The favored U.S. Olympic basketball team met Yugoslavia in its first game in the semifinal pool competition, starting at 3:30 p.m., e.d.t.

Thomas, who holds the world high jump record of seven feet, 3 3/4 inches, was rated a cinch to break the old Olympic mark of 6-11 3/4 set by America's Charlie Dumas in 1956.

ToT Keglers Start Play

Top O' Texas Bowling League opened play this week at Harvester Bowl, with six teams tied for the lead following the night's play.

Moore's Beauty Shop, DeLuxe Cleaners, Service Liquor Store, Panhandle Independent, Falstaff and C. H. Hoover, all have 3-1 records.

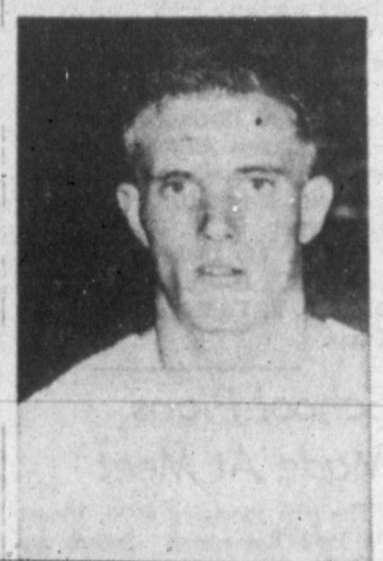

Naomi Malson set the individual pace with a 189 single game and \$15 three-game total.

DeLuxe Cleaners posted a 749 high team game, with Moore's Beauty Shop tabbing a 2,078 three-game high.

Standings table with columns for TEAM, W, L. Lists teams like Moore's Beauty Shop, DeLuxe Cleaners, Service Liquor Store, Panhandle Ind., Falstaff, C. H. Hoover, Hughes Investment, Poole's, Harvester Bowl No. 5, Leones Beauty Shop, White Deer, No. 17, Groninger & King, Windsor, Dr. Pepper.

Dyer Hikes Harvester Air Might

The Air Force is missing a bet. That's the way it looks when you watch Roy Dyer snag passes for the Harvesters; he makes catches that would put the "fly boys" to shame and when you come right down to it, his receiving average is far better than the one the military has compiled in its attempts to retrieve orbit aerals.

ROY DYER ... pass snatcher

Dyer is one of the bright spots in training to date. He looked very well at Dumas, snagging several catches that would be rated "impossible" except for the fact that Dyer came down with them.

"He's going to be a whale of an asset to this team," said Coach Dwaine Lyon.

Training yesterday morning and last night went toward correcting mistakes observed in the Dumas scrimmage. As the coaches noted earlier, things didn't go well in that session, and though many of the errors were expected, since the club had been practicing but three days, the mentors realize that these mistakes must not carry over into game competition.

"The boys will look better against Perryton," said Lyon. "They know the mistakes they are working to correct them. The fellows are hustling and we believe they'll be ready when it comes time to get in there against Big Spring to get this season rolling."

Dove Season In Area Opens

By United Press International

North zone shooting opens at noon today on that gray, twisting speedster known as the mourning dove, and a small army of hunters will take to the field for the first major Texas hunting season.

Seasons and bag limits are up this year because of a general rise in dove population. The daily bag limit is 15, with a possession limit of 30. Last year's limits were 10 and 20, respectively.

Prizes, Cash Awards Tacked To ToT Golf

There are enough cash awards and prizes attached to the Top O' Texas golf tournament slated at Pampa Country Club, beginning with the qualifying round Friday, to attract "just about every golfer in this area."

A number of sub-par practice rounds have been turned in this week by local and out of town players who are sharpening their games for the tourney. Warren noted, and again said, "This should be an excellent tournament."

Woodling Paces Oriole Victory; Yankees Divide

By MILTON RICHMAN, United Press International

Old pro Gene Woodling, an old hand at playing under pennant pressure, could be the man to lead the young Baltimore Orioles over the top in their spectacular drive for a first American League title.

At 38, Woodling's best years presumably would be behind him. Maybe he's lost some of his speed, but he hasn't lost any of his incentive nor any of his batting ability.

Blaze Hanover Wins Famous Trotting Race

DU QUOIN, Ill. (UPI)—Riches to rags and back again to riches is the heartening story of the 35th Hambletonian trotting classic for winner Blaze Hanover.

The Blaze, the strapping son of 1947 winner Hoot Mon scored his triumph in a grueling four heat runoff to enrich his owner, the S.A. Farms, Shafter, Calif., with a purse of \$85,019.04, the biggest trotting prize in history.

But until Blaze Hanover beat Quick Song and Hoot Frost in the deciding heat after all three had cracked and tied records in the first three heats, the three-year-old chestnut colt, who had given such high promise, had not won a race all year.

Blaze's strange reversal came after a record performance in 1959 when he established an all-time year-earning mark of \$142,052 for two-year-olds.

In Wednesday's Hambletonian, the colt won the first heat, finished seventh in the second, improved to third place in the third and made the big payoff by winning the fourth heat.

The race set a new mark of 8:09 3-5 for three-year-old trotters over the four heats, breaking the old record of 8:10 1/2 set in 1940 at Lexington, Ky.

Wheeler at Canadian Miami at Booker McLean at Shamrock Lefors at Canadian Groom at White Deer

As Lehnick said, scrappiness doesn't overcome everything, "but it helps."

Finally, if there's gloom in Groom tonight, there is reason for it.

Groom's Tigers are scheduled to test White Deer's Bucks on the Bucks' stamping grounds, and Tiger coach Ken Miller doesn't believe all the gossip about the Bucks being dehorned.

"White Deer will be downright mean," said the coach who let his squad to a conference title in 1959. "Groom is a bit on the light side and suffers a manpower shortage, so there is little wonder that Miller is unhappy about the situation his men face."

Rangers Coming

Perryton's Rangers, smarting over a 3-7 record last year come to town Saturday night to take on the Harvesters in a scrimmage contest at Harvester Stadium. Action begins at 7:30 o'clock.

Coach Joe Ogden will bring along eight lettermen including five starters from last year's 5-AA squad. They are: Danny Witt, Mike Bryant, Wayne Manning, Dan Wagner, Carl Ellis, Tim Wright, John Smith and Ray MacGarrough.

Smith, center; Bryant, end; Manning, tackle; Ellis, quarterback; and MacGarrough, fullback.

Coach Ogden admits to assets such as big tackles, fair ends and fair quarterbacking, but says he lacks speed and experience.

Texas Fighter Gains Decision

ROME (UPI)—Texas flyweight champion Humberto Barrera of Robstown scored another victory Wednesday in the Olympic boxing tournament.

Barrera decisioned Nyunt Hla of Burma. Although the Texan was favored by three of the five Olympic judges, the fans booted loudly when the decision was announced.

FIGHT RESULTS By United Press International CHICAGO — Doug Jones, 176, New York, knocked out Carl (Bobo) Olson, 179, San Francisco (6).

CARACAS, Venezuela — Nelson Estrada, 119, outpointed Dwight Hawkins, 121 1/2, San Diego, Calif. (10).

ESTRADA WINS BOUT CARACAS (UPI) — Venezuelan bantamweight champion, Nelson Estrada, 119, decisioned Dwight Hawkins, 121 1/2, of San Diego, in a 10 round bout Wednesday night.

CORNELL GREET'S GRIDDRS ITHACA, N.Y. (UPI) — Cornell University had 18 returning lettermen as it got its 73rd football season underway today. Coach Lefty James had 60 candidates out for the first training session.

Place Your Feet On The Desk And Then Wiggle Your Toes

By WARD CANNEL
Newspaper Enterprise Assn.

ROCKLAND, Mass. (NEA) — Here is another one of those niggling anniversaries that nobody can remember. Or forget.

It is exactly 40 years since the plant known as dermatophytosis was brought from the Orient to grow in the U.S. And today, there is hardly an American home without it.

You probably know it best by the name "athlete's foot," that invisible scourge that burns, itches, cracks, swells and tires your feet. You probably have it. You probably always will, according to the man who knows most about it.

He is Dr. Joseph Lelyveld, chairman on the national Foot Health Council here in Rockland, Mass. He has devoted most of his professional career to fighting this ailment and our other foot ills.

According to Dr. Lelyveld: There is no cure for athlete's foot now, or in the immediate future.

The antiseptic footbaths usually found at public pools, gymnasiums and showers are almost worthless

in the battle against athlete's foot. Even if we sterilized our floors, socks, shoes, we would probably make no significant dent in the problem.

One recent experiment at New York University's Post Graduate Medical School, seems to sum up the body of knowledge. After thorough examinations, 45 subjects, with no evidence of the infection, were deliberately exposed to the fungus — one foot was placed in a contaminated bath, the other in sterile water.

Result: nobody came down with athlete's foot in either foot — even after six weeks.

Reason? According to Dr. Lelyveld, the athlete's foot fungus lives in the horny layer of skin on our feet, awaiting the proper conditions to strike the real skin. The only answer, to date, to prevent these "proper conditions" is frequent foot washings, thorough drying, powder and mercerized cotton socks.

But our foot problems are more than skin deep. Dr. Lelyveld sees the whole situation getting worse, not better. His research shows that

99 percent of the U. S. children have perfectly normal feet at birth. But by high school graduation time, 65 per cent of the boys and 85 per cent of the girls have real foot problems.

By adulthood, the feet of 90 per cent of all Americans are crippled to some degree.

During World War II, more than one-third of the men rejected by military were counted out because of foot problems. During the Korean War, twice as many men were rejected for foot ailments than for any other single reason.

The statistics are not improving. Dr. Lelyveld says. The foot is a very delicate machine: 26 bones are bound together by 107 ligaments, supported by 19 muscles. It has to raise, balance and absorb the shock of the body's weight with each step. For an average man, that's 175 pounds lifted 50 times per minute when walking.

"Poor shoe fit is only half the trouble," Dr. Lelyveld said. "The unsuspected problems can result from poor sock or stocking fit, causing pressure and irritation during walking."

But giving up walking is not the answer either. A recent U. S. military medical investigation shows that passengers on long air flights are putting their feet and legs in real jeopardy of phlebitis if they don't take their shoes off and walk through the plane from time to time.

Concludes Dr. Lelyveld: "We are killing our feet. And it's largely the price of civilization. But there are a few things we can do to help the situation."

"But it is difficult to convince people to take their shoes off in the office and wiggle their toes in the air for a few minutes several times each day."

"It is also a good idea to prop your feet up on the desk for 10 minutes now and then. But people tell me the boss might object."

House Members Find Extension Of Remarks Cost

By FRANK ELEAZER
United Press International

WASHINGTON (UPI) — Everybody in the House wanted the last word, apparently. One member said letting them all print it in the Congressional Record might cost the taxpayers \$50,000.

The right of the lawmakers to "extend their remarks" in print, without having actually opened their mouths, is inviolate. All it takes is unanimous consent. This is never—but never—denied.

Until Wednesday night it practically never was questioned.

Then Rep. Charles A. Halleck, the Republican leader, took the floor to ask the customary consent for various GOP lawmakers' remarks and to include, of course, to revise and extend their remarks and to include, of course, extraneous matter.

His list, some members thought, was a mite long. Rep. Clare E. Hoffman (R-Mich.) wondered whether all this wordage was necessary. Halleck allowed that it was, and thoughtfully added Hoffman's name to the list.

It was long, it was because he

If Hoffman thought Halleck's list was long, it was because he hadn't heard Rep. John W. McCormack's McCormack is Democratic leader. He has more members than Halleck.

McCormack's round of requests for the right to revise and extend sounded roughly like a call of the roll.

The usual list included a number like this, including one from Rep. Adam Clayton Powell, (D-N.Y.), on which the printer's cost estimate was \$1,324.

Rep. James A. Haley (D-Fla.) wanted to know the subject of the list, and he didn't know and Powell's insertion. McCormack replied that he didn't know and wasn't about to ask, either.

"I'm simply a conduit," McCormack explained.

Haley, who had reserved the right to object, said he guessed since Congress had spent billions of dollars recently he supposed it was worth another \$50,000 to print all these words "to tell the people what we have done."

He didn't object.

SUMMER'S DAY PASTORAL, 1960—Timeless serenity of summer day in the country is caught in this photograph of colts and mares roaming a field near Rapid City, S.D. The picture has no news value as such but perhaps cameraman

Rudy Vetter of the American Red Cross saw in it a more permanent news story than the current accounts of man's brief, tortured activities over the world that make such unpleasant reading. It's been a nice summer after all, hasn't it?

Demos Hurl Debate Challenge To GOP

By MICHAEL POSNER
United Press International

WASHINGTON (UPI) — Sen. John F. Kennedy prepared today to launch his first extensive campaign tour with a challenge to Republicans to debate minimum wage and other issues raised at the pre-election session of Congress.

The Democratic presidential nominee was happy to see the end of the shirt-tail session where an alliance of Republicans and southern Democrats blocked his minimum wage, medical care and other proposals.

Kennedy set out tonight on his first big stump trip that will take him to 17 states in 18 days. He will make a major issue of his legislative program.

In a speech to the Senate in the closing hours of the session Wednesday, the candidate challenged Republicans to debate the

minimum wage impasse. He did not mention his GOP opponent, Vice President Richard M. Nixon, by name. But he obviously directed his challenge to him.

Kennedy said Congress was unable to put through any wage floor hike because most House members of a conference committee were unwilling to compromise.

He also said his plan to provide medical care for the aged through the Social Security system failed because President Eisenhower threatened to veto such a measure.

The Democratic nominee said the short session had shown that a president with sufficient congressional strength to sustain his veto could "chew us up" and "make mincemeat" of the legislative process.

Democrats, including Sen. Wayne Morse, D-Ore., quickly rushed to Kennedy's support on the minimum wage. But Senate Republican Leader Everett M. Dirksen, Ill., said Kennedy had failed to take into account "the sound program" supported by the GOP.

Kennedy said that although he was disappointed in the failure of his proposal to increase the \$1-an-hour minimum wage to \$1.25, he thought it would be better to take nothing at all this year and renew the fight in 1961.

The statistics are not improving. Dr. Lelyveld says. The foot is a very delicate machine: 26 bones are bound together by 107 ligaments, supported by 19 muscles. It has to raise, balance and absorb the shock of the body's weight with each step. For an average man, that's 175 pounds lifted 50 times per minute when walking.

"Poor shoe fit is only half the trouble," Dr. Lelyveld said. "The unsuspected problems can result from poor sock or stocking fit, causing pressure and irritation during walking."

But giving up walking is not the answer either. A recent U. S. military medical investigation shows that passengers on long air flights are putting their feet and legs in real jeopardy of phlebitis if they don't take their shoes off and walk through the plane from time to time.

Concludes Dr. Lelyveld: "We are killing our feet. And it's largely the price of civilization. But there are a few things we can do to help the situation."

"But it is difficult to convince people to take their shoes off in the office and wiggle their toes in the air for a few minutes several times each day."

"It is also a good idea to prop your feet up on the desk for 10 minutes now and then. But people tell me the boss might object."

News In Brief

ARRESTED FOR ROBBERY
LAS VEGAS (UPI)—Sheriff's deputies Wednesday arrested Los Angeles bus driver Edward E. Eaton on charges he took part in the \$7,000 robbery of the Los Angeles Metropolitan Transit Authority.

ORDER SIGNS REMOVED
MONTGOMERY, Ala. (UPI)—The federal Bureau of Roads ordered the state of Alabama Wednesday to remove Ku Klux Klan signs from the rights of way along federal highways in the state.

Gov. John Patterson demanded the bureau cite its authority for the order and called it "just another example of federal interference."

BACHELOR TOPS COOKS
BROMPTON, England (UPI)—A sponge sandwich and a fruit cake, both whipped up by the same chef, won first prizes Wednesday in a local cooking contest. The prize-winning cook was the Rev. Daniel Elias, a 59-year-old bachelor.

CONGRATULATIONS
To Mr. and Mrs. Jason Baker, Spearman, on the birth of a boy at 8:23 p.m. weighing 6 lbs. 10 oz.

Democrats, including Sen. Wayne Morse, D-Ore., quickly rushed to Kennedy's support on the minimum wage. But Senate Republican Leader Everett M. Dirksen, Ill., said Kennedy had failed to take into account "the sound program" supported by the GOP.

Kennedy said that although he was disappointed in the failure of his proposal to increase the \$1-an-hour minimum wage to \$1.25, he thought it would be better to take nothing at all this year and renew the fight in 1961.

The Almanac

By United Press International
Today is Thursday, Sept. 1, the 245th day of the year, with 121 more in 1960.
The moon is approaching its full phase.
The morning star is Mars.
The evening stars are Jupiter, Venus and Saturn.
On this day in history:
In 1807 a circuit court in Richmond, Va., acquitted Aaron Burr of charges of treason.
In 1896, a chef working for a Chinese statesman visiting the United States served chop suey for the first time in America.
In 1923, at least 150,000 persons were killed in the worst earthquake in Japan's history.
In 1932, as a result of an investigation of corruption, New York City Mayor James J. Walker resigned and went to Europe.
In 1934, a million members of the United Textile Workers went on strike.
In 1939, Hitler invaded Poland, starting World War II.

Thought for today: English scientist Havelock Ellis said: "The place where optimism most flourishes is the lunatic asylum."

STENNIS URGES DELAY
WASHINGTON (UPI) — Sen. John C. Stennis, D-Miss., says it would be "foolish" for the United Nations to grant full membership now to all of the newly established African states.

"I think the United Nations should, as a practical matter, require proof of a few years experience in each of these nations under a stable government," Stennis told the Senate Wednesday.

ROCKET SENDS MESSAGE
EGLIN AIR FORCE BASE, Fla. (UPI)—An Aerobee research rocket fired 300 miles over the Gulf of Mexico Wednesday broadcast a message to points in Colorado, Ohio, Florida and to planes flying at 30,000 feet.

Deep down pleasure for your Labor Day weekend

Whether it's a picnic, a party or a quiet weekend at home, you, your family and friends are sure to enjoy the deep down pleasure of Pearl Beer. Brewed light, it always tastes just right — a pleasant companion for every pastime, the perfect complement to every meal.

Be sure to pick up plenty of Pearl 6-Paks for this long Labor Day weekend. It's the premium quality Beer with the finest flavor, yet it sells at a popular price.

BREWED WITH PURE ARTESIAN WATER

REDS PRAISE RABBIT
TOKYO (UPI)—North Korea's Pyongyang radio reported proudly today that a certain rabbit was giving her all for the Communist regime.

The Red Radio said the rabbit gave birth to 15 offspring in April, 18 in June, 24 in July and 27 in August.

Third Largest
La Paz — Bolivia, third largest of the South American republics, embraces an area of about 510,000 square miles.

Financial Review

By HENRY J. BECHTOLD
UPI Financial Editor

NEW YORK (UPI)—Automotive air conditioning, like swimming pools and two cars, no longer is a luxury for only a chosen few.

In 1956 about 46 per cent of the automobile air conditioning units went into high priced cars, 29 per cent into medium priced autos and 25 per cent into low priced cars.

Only three years later, in 1959, about 31 per cent of these units were installed in the higher priced cars, 26 per cent in the medium range and 43 per cent in low priced cars.

This year air conditioning is making further inroads in the low priced car market, particularly to everyone's surprise, in compact autos.

Auto makers had made no provisions for offering air conditioning as an optional accessory on their 1960 compacts, and, as a result, the independent makers of "hang-on" cooling units reaped an unexpected windfall, according to Warner Electric Brake & Clutch Co. The 1961 models will be a different story, however, with most car manufacturers offering air conditioning.

Air conditioning in automobiles has made great strides since 1953 when only 0.7 per cent of that year's new models were so equipped and the industry chalked up sales of 40,600 units.

Five years ago 176,000 units were sold and 2.4 per cent of the cars boasted air conditioning. This year, the industry estimates sales will reach 670,000 units, meaning 10 per cent of all new cars will be air conditioned. Unit sales are forecast to reach 750,000 next year and about 1.2 million by 1965.

Warner noted that while the Southwest, with its high temperatures, continues to be the prime market for automotive air conditioners, the industry is experiencing rapid growth throughout the nation. The northern and mid-western states are expected to account for 30 per cent of car air conditioning sales in 1960.

Salesmen and corporate car fleet owners in the North are big customers for air conditioned cars. Truck air conditioning also is becoming popular.

Warner, a leading supplier of air conditioning compressor clutches, noted that although car air conditioners are considered a convenience only in hot weather, they frequently are used by motorists in the spring and fall months. It explained that operation of the air conditioner permits the driver to ride with the windows closed, thereby escaping annoying road noises, draft discomfort, hay fever pollen and dirt.

The independent manufacturers of automotive air conditioners, most of whom are located in the Southwest, had the market to themselves until 1953 when the auto manufacturers began offering their own makes as optional equipment.

"The ones we're getting now are the troublemakers," said Municipal Court Judge John Santora, who has sentenced or fined some 90 persons of both races in connection with violence and vandalism.

The racial flare-ups disintegrated into minor vandalism and hooliganism after a city judge warned of strict sentences for troublemakers.

"The ones we're getting now are the troublemakers," said Municipal Court Judge John Santora, who has sentenced or fined some 90 persons of both races in connection with violence and vandalism.

Touring Dem Women End Texas Visit

MIDLAND (UPI)—Mrs. Lyndon Johnson and two women members of Sen. John F. Kennedy's family planned to conclude their four-day tour of Texas today with a personal appearance at the Midland-Odessa airport.

Traveling with her are Mrs. Sargent Shriver, sister of the Democratic presidential nominee, and Mrs. Robert Kennedy, his sister-in-law.

Many "K-J" placards appeared in the crowd that greeted them at the airport in El Paso. County Democratic Chairman Martin Wiggs, El Paso Mayor Raymond Telles and County Judge Woodrow Bean headed a group of party officials who met their plane.

A crowd of about 1,500 met them at a suburban shopping center in southwest Amarillo and a similar number was on hand at

a reception Wednesday night at the Cortez Hotel in El Paso.

"We have shaken 10,000 hands since we arrived in Texas and the outlook is brilliant," Mrs. Johnson told greeters at the El Paso International Airport.

While visiting the Hill City, S.D. zoo, Knight got a sudden urge to eat a goose dinner, and "appropriated" one of the zoo's birds. That was bad enough.

But then the fire on which he roasted the goose got out of control and National Forest Service officials had to put it out. That's why Knight's in jail.

The United States, with 450,000,000 acres of land suitable for cultivation, produces 41 per cent of the world's cotton and 29 per cent of the tobacco.

GOOSE IS COOKED

RAPID CITY, S.D. (UPI)—Roy Knight, of Vernon, Tex., was serving a 10-day sentence in jail today and pondering over the fact he never seems to do anything right.

While visiting the Hill City, S.D. zoo, Knight got a sudden urge to eat a goose dinner, and "appropriated" one of the zoo's birds. That was bad enough.

But then the fire on which he roasted the goose got out of control and National Forest Service officials had to put it out. That's why Knight's in jail.

The United States, with 450,000,000 acres of land suitable for cultivation, produces 41 per cent of the world's cotton and 29 per cent of the tobacco.

Normalcy In Jacksonville

JACKSONVILLE, Fla. (UPI)—The city of Jacksonville, racked by a four-day outbreak of racial violence that injured more than 70 persons and killed one, returned to normal today.

Negroes appeared willing to shop in downtown stores despite an appeal by the National Association For the Advancement of Colored People for a boycott of white merchants. The stores were the same in which Negro demonstrators staged "sit-ins" last week before the trouble began.

The big port city's night life resumed Wednesday night. White persons, however, stayed out of predominantly Negro areas where street gangs have roamed through the week.

The racial flare-ups disintegrated into minor vandalism and hooliganism after a city judge warned of strict sentences for troublemakers.

"The ones we're getting now are the troublemakers," said Municipal Court Judge John Santora, who has sentenced or fined some 90 persons of both races in connection with violence and vandalism.

One touch tends your furnace

be warm and snug automatically with

GULF GULFTANE LP-GAS BUTANE PROPANE

Say goodbye to shoveling coal, hauling heavy ash cans—annoying dirt and soot. Just turn a dial for clean, healthful, automatic heat with Gulftane. Conveniently stored outside your house, Gulftane brings modern gas heating to any home.

Plan now! Don't go through another winter with heating that's old-fashioned, undependable, expensive and inefficient. Switch to easy, convenient Gulftane. It's so safe, too. For safety control on modern gas furnaces turns off gas—instantly—if flames go out.

Best of all—you'll cut your heating bills with this modern fuel. Many users report Gulftane actually costs them less than coal.

ALL OUR USERS ARE WARM FRIENDS!
