NO INJURIES — Twisted by the impact of the crash, a propeller and engine of an American Airlines Electra frame the rest of the aircraft which hit a dyke, flipped over on its back and slid 500 feet while landing at LaGuardia Airport in New York. None of the 70 passengers and six crew members was injured.

Sky Catch Missed, But Cone Found

Three Space Feats In Row

By BILL WILKS
United Press International

VALENBERG AFB, Calif. (UPI)—An amphibious plane was sent to a remote area in the Pacific today to pluck from the water a wayward Discoverer capsule that landed 1,000 miles from where it was expected.

The Hawaiian-based amphibian, a Coast Guard JCS, was due to arrive at the area near Christmas Island where Discoverer XV's capsule floated at about 9 a.m., PDT (noon, EDT).

The instrument-loaded capsule had been expected to come down near Hawaii Wednesday after it was ejected from the orbiting Discoverer satellite.

Two Air Force planes today circled over the capsule, the size of an orange crate, waiting to point it out for the amphibian which then will land and pull it from the ocean.

The weather was good and the ocean calm in the area, according to reports.

The Air Force jubilantly announced two DC-3s sighted the capsule's winging beacon light Wednesday night after nearly all hope of recovering it had been abandoned.

They were the only two planes searching for the capsule when they spotted the beacon light about four hours after it was ejected from Discoverer IV. All other planes had returned to the home base.

Tropical Hurricane Headed For Center Of Gulf Coast Area

Power Struggle In Congo Is Changing Every Hour

By WILBUR G. LANDREY
United Press International

LEOPOLDVILLE, The Congo (UPI)—Forces supporting Premier Joseph Lumumba announced the arrest today of Col. Joseph Mobutu, army chief of staff who claimed that the military was seizing power in the Congo. But there was doubt that any such arrest actually had been carried out.

It appeared that Lumumba and Mobutu still were struggling for power, and it was uncertain who would win. With the situation changing by the hour, their fate apparently is in the hands of the divided and unpredictable Congolese army.

Mobutu announced Wednesday night that the army was taking over in a "simple peaceful revolution" and "neutralizing" both Lumumba and President Joseph Kasavubu until the end of the home base.

Mobutu said the army was taking over in a "simple peaceful revolution" and "neutralizing" both Lumumba and President Joseph Kasavubu until the end of the year, to stop their battle for power, which has brought the nation to the edge of chaos.

The 30-year-old colonel followed up this move by ordering Soviet and other Communist diplomats out of the country within 48 hours. This morning, Serge Michel, Lumumba's press officer, announced Mobutu was under arrest.

But Lumumba himself failed to appear and it was known he spent the night in the house of army commander — or perhaps former army commander — Gen. Victor Lundula.

They were under the protection of United Nations troops inside Camp Leopold II, while the Congolese army's officers and non-coms were believed deciding the fate of all concerned.

Armored cars, reportedly from the military camp at Thysville, circulated through the streets of this tense and bewildered city. It was impossible to tell who the troops they carried were supporting.

Corbett lived quietly in Denver for four years after his escape from a California prison.

The day before Coors disappeared on a road near his ranch, Corbett cleared out of his Denver apartment.

The Navy announced that the Russian ships, bristling with electronic gear, have been deployed in both oceans. The assumption that a Soviet space exploit might be in the offing was based on past Russian practices.

Just before Khrushchev's U.S. tour a year ago, the Soviets hit the moon with a rocket.

Residents Flee Inland

By WILLIAM O. BRYANT
United Press International

MOBILE, Ala. (UPI)—The second tropical hurricane in a week moved 100 mile an hour winds at the center of the Gulf Coast today. An estimated 50,000 persons, the memory of last week's Hurricane Donna fresh in their minds, fled a four-state coastal area.

The New Orleans Weather Bureau said Hurricane Ethel, which surprised suddenly in the Gulf of Mexico, was weakened in an encounter with a cold front but still packed winds up to 100 miles an hour.

The Mobile Weather Bureau said the storm still was dangerous and predicted it would hit land just west of Mobile at about mid-morning.

A companion danger to the high winds was the threat of high tides—four to 10 feet above normal in the Mobile-Pensacola, Fla. area.

Hurricane Ethel had whipped up 150 mile an hour winds before she hit the cold air about 100 miles west-southwest of Mobile.

Coastal residents in northwest Florida and in Alabama, Mississippi and eastern Louisiana did not need a second warning, in most cases, before they fled inland. Civil defense officials estimated that as many as 50,000 persons had taken shelter out of respect for Ethel's power.

Undoubtedly the best ever moving them today, officials said, was the toll of 44 deaths Hurricane Donna took on the mainland before she dissipated early this week in the Atlantic.

Fishing villages and beach resorts along a 200-mile stretch of Gulf Coast were evacuated all (See HURRICANE, Page 4)

Sixth Month Of Limitation

Eight-Day Producing Schedule For October

AUSTIN (UPI)—The State Railroad Commission today ordered an eight-day oil producing schedule for the month of October, the sixth straight month that production is limited to that span.

The average daily allowable was estimated at 2,630,576 barrels.

Aerial Inspection Plan May Be Offered By Ike

WASHINGTON (UPI)—President Eisenhower is expected to present to the United Nations next week a sweeping plan for U.N. aerial inspection to guard against surprise attack anywhere in the world.

The assembly of the General Assembly next Thursday, getting the initiative before Soviet Premier Nikita Khrushchev takes the rostrum.

The President's speech will come on the first day of general debate. The assembly opens Tuesday, but the first two days will be filled with preliminaries and meetings of the General Committee.

In addition to the aerial inspection and food plans, top officials were working on a number of other ideas for presidential consideration. But they were unable to say definitely at this time what other subjects Eisenhower would include in his talk.

The President's proposal that all nations through open their air space to aerial inspection by the U.N. would emphasize the willingness of the United States and its Allies to agree to drastic arms limitations under proper inspection and control.

Eisenhower disclosed Wednesday that he had decided to address the U.N. General Assembly next Thursday, getting the initiative before Soviet Premier Nikita Khrushchev takes the rostrum.

The President's speech will come on the first day of general debate. The assembly opens Tuesday, but the first two days will be filled with preliminaries and meetings of the General Committee.

In addition to the aerial inspection and food plans, top officials were working on a number of other ideas for presidential consideration. But they were unable to say definitely at this time what other subjects Eisenhower would include in his talk.

The President's proposal that all nations through open their air space to aerial inspection by the U.N. would emphasize the willingness of the United States and its Allies to agree to drastic arms limitations under proper inspection and control.

Youth Center Bids In Excess Of Estimate

Pampa Youth and Community Center board members yesterday turned down eight bids to construct the proposed building, since the lowest bid was well in excess of the expected cost.

W. and W. Construction Co. of Pampa, offered the lowest bid, \$228,500. Board members, though, expect the building to cost in the neighborhood of \$150,000 to \$170,000, thus they refused to let the contract.

Dr. Joe R. Donaldson, chairman of the board, was out of the city today and could not be reached for comment. However, it is believed the board will try to negotiate with the two low bidders in an attempt to reach an agreement. If this is not possible, a new bid date probably will be set.

Land on Kentucky street just west of Hobart has been obtained as the site of the building, which officials believe is one of the major needs of the city.

Pilots End Month In Space Cabin

SAN ANTONIO, Tex. (UPI)—Two Air Force pilots stepped out of their space cabin today after a make-believe space flight of more than a month and said their only problem was when they ran out of oatmeal.

The two pilots, Capt. William D. Habluetzel, 38, Ingleside, Tex., and 1st Lt. John J. Hargreaves, 30, of Castle Air Force Base, Calif., spent 30 days, 8 hours and 24 minutes, a world's record, in the 12-by-8-foot capsule at the Air Force's School of Aviation Medicine.

If it comes from a hardware store it has to be Lewis Hilde.

Dick Follows Jack On Vote Road Show

By United Press International

Republican presidential nominee Richard M. Nixon stepped in today where his rival left off to court the votes of the million-member International Association of Machinists (IAM) in St. Louis.

The vice president's Democratic opponent, John F. Kennedy, addressed the IAM Wednesday, but Nixon, uncommitted, was expected to follow the lead of the AFL-CIO and endorse Kennedy.

But Nixon was ready to indicate that his door would be open to labor if he became president.

After the morning speech to the IAM, Nixon's schedule took him to Atlantic City, N.J., for an address to a convention of the National Federation of Republican Women. His next stop was Roanoke, Va., for a rally at Victory Stadium before moving his whirlwind campaign on to Omaha, Neb.

Kennedy, who spoke at a Liberal Party dinner Wednesday night in New York City, campaigns today in northern New Jersey and Harrisburg, Pa. He scheduled stops at Bergen Hill, Paterson, N. Y., Newark, Elizabeth, New Brunswick and Trenton—all in New Jersey — before arriving

African States Press For Congo Settlement

UNITED NATIONS, N.Y. (UPI)—Worried African states pressed today for a United Nations committee to seek an on-the-spot solution of the Congo crisis, now complicated by outright Soviet enmity to Secretary General Dag Hammarskjöld's efforts.

Ambassador James J. Wadsworth was expected to give Washington's position on the committee idea when the Security Council reconvenes this morning.

The limitation council failed to come up with a solution in 7 hours and 47 minutes of debate which wound up early this morning after a gloves-off exchange between Soviet Deputy Foreign Minister Valerian A. Zorin and Hammarskjöld.

Neither delegation from the rival "governments" of the Congo was given a seat at the council and their status was confused further by a bloodless army coup

Demo Tactics Blasted By Tower

SAN ANGELO (UPI)—John Tower charged Wednesday night San. Lyndon B. Johnson and his Democratic running mate John Kennedy are using the religious issue as a "smokescreen."

Tower, who is the Republican candidate for Johnson's Senate seat, made the statement in a television talk aimed at stirring up West Texas voters.

He said both Johnson and Kennedy have used the religious issue as a means of avoiding other "painful topics" on their Texas tour.

"They have refused to answer my repeated challenges to answer questions of vital importance to Texas voters, depletion allowance, right to work laws, and employment practices," Tower said.

Tower, a 35-year-old former government professor from Wichita Falls, charged the Democrats with "ducking" their chance to tell Texans how they stand.

Let us show you how to get more information on your state. Our address is 411 S. Cuyler, Pampa Safety Lane, MO 4371. Adv.

Ethel Spawns Tornadoes In Florida Area

PANAMA CITY, Fla. (UPI)—Tornadoes spawned by Hurricane Ethel struck in three small communities of Bay and Gulf counties today, but the state patrol said no injuries were reported.

Tornadoes struck in the little villages of Springfield and West Bayport, Panama City and at White City of Gulf County.

Some 25 houses were demolished when the tornado cut a three-mile wide path through Springfield, a tiny fishing village. But the patrol said there was no evidence of injuries.

Details were not complete on any damage from the other twisters.

Trees were toppled and power lines cut in several areas.

The Bay County sheriff's office said winds struck at Springfield about 8 a.m., knocking out some power and utility lines. A gas station was damaged.

The Weather Bureau issued warnings to residents in Northwest Florida of the danger of tornadoes throughout the morning and early afternoon.

Federal Grants

WASHINGTON (UPI)—A water pollution grant was announced Wednesday for Perryville in the amount of \$91,500.

The Public Health Service also announced grants for Alamo (\$28,970), and Mexia (\$30,000).

FBI Believes It Has Found Body Of Coors

DENVER (UPI)—The fate of millionaire brewer Adolph Coors III, who disappeared seven months ago, was all but technically certain today. He was slain, and his body abandoned unburied on a remote mountain peak.

The Federal Bureau of Investigation announced Wednesday that clothing which Coors wore Feb. 3, the day he disappeared, had been found by a mountain hiker about 20 miles south of the Coors ranch.

Scattered in the vicinity, officers found human bones which proved to be the skeletal remains of a man approximately of Coors' build.

Denver truck driver Edward Green, 30, found the clothes Sunday, while hiking through isolated mountain terrain and pot-holed with a pistol, Coors' wife identified the tattered clothes, and an initialed pocket knife found in a trouser pocket.

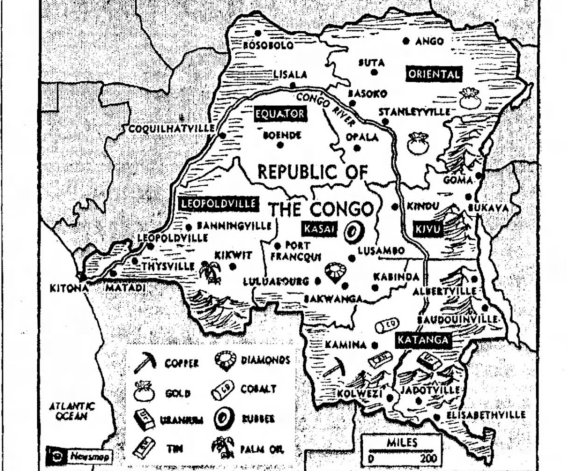

The FBI is seeking a fugitive murderer, 31-year-old Joseph Corbett Jr., who by circumstances has been linked to the Coors case.

Soviets May Be Reaching Feat

WASHINGTON (UPI)—The presence of missile-tracking Soviet ships in both the Atlantic and Pacific aroused speculation today that Russia may be planning a new space feat to lead a dramatic backdrop to Nikita Khrushchev's United Nations debut next week.

The Navy announced that the Russian ships, bristling with electronic gear, have been deployed in both oceans. The assumption that a Soviet space exploit might be in the offing was based on past Russian practices.

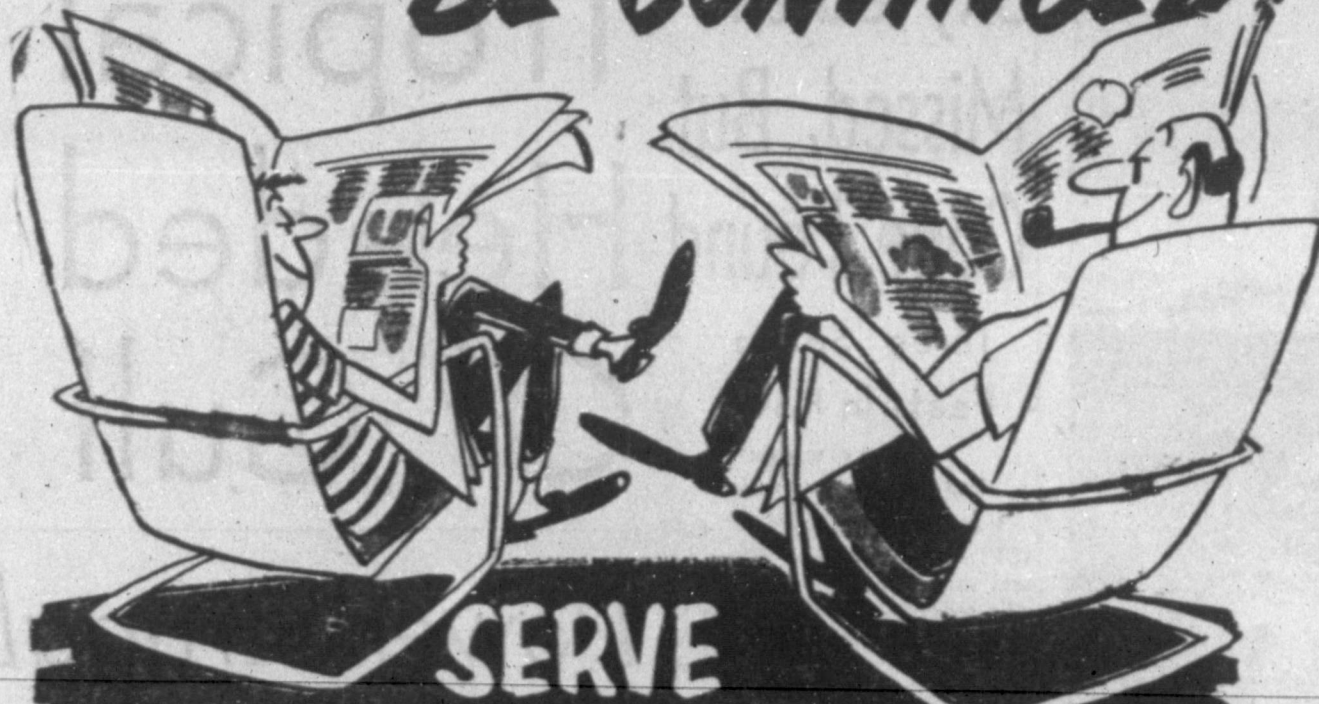

Just before Khrushchev's U.S. tour a year ago, the Soviets hit the moon with a rocket.

RICH, DIVIDED, BLOODY LAND — In the three months of its existence, politically divided Republic of the Congo has not known a day of peace. Civil war threatens to thrust the land back into the darkness and jungle which European colonizers found in the 19th century. Although rich in natural resources, the Congo is still relatively undeveloped. The great Congo River, like the Mississippi in the early United States, serves as the main highway of commerce. A small foothold on the Atlantic coast gives the Congo shipping access to the rest of the world. But because of rapids, goods must be moved by rail 250 miles upriver to the capital at Leopoldville. For the next 1,000 miles, the Congo is navigable by stern-wheelers. In the interior, roads link most of the major towns in the country, which is as big as the eastern half of the United States. Wildlife still flourishes in tropical forests.

ORIENTAL CALL—Pagodalike telephone booth is installed in San Francisco's Chinatown. Chinese lettering identifies it as "Electric Voice House." Putting in a call, little Rosalyn Lee gets a boost from Helen Funai, left, and Mai Wing.

Nikita Can't Live In Own Embassy In U.S.

NEW YORK (UPI) — A five-story Park Avenue mansion once owned by a wealthy industrialist was readied today for Soviet Premier Nikita Khrushchev, confined to Manhattan Island under protest during his visit to the United Nations.

Cuban Banks To Be Merged By Guevara

HAVANA (UPI)—Ernesto (Che) Guevara has launched an "immediate action" program apparently designed to merge all of Cuba's banks into a single state-owned institution, it was reported today.

Preliminary efforts to put the Guevara plan into effect touched off heated arguments Tuesday between Communist and non-Communist bank workers, but no violence was reported.

Guevara, although ostensibly on leave from his post as president of Cuba's National Bank, outlined his program at an unannounced session of the bank workers' union Monday night.

Reliable sources said the program was protested by some bank workers, who felt they had been "sold down the river by the Communists." Self-proclaimed Reds declared "we're running things now," the sources said.

Guevara's program calls for: Cost-cutting, including the elimination of overtime, vacation pay and the overtime lunch allowance. "Maximum inter-employee cooperation," meaning that workers are to be encouraged to help each other get their work done.

Elimination of present bank executives from cashier upward "because their mentality is not adaptable to the needs of the revolution."

Training of government-appointed managers.

The State Department showed no sign of wavering in its order to keep the Communist leader in the vicinity of the United Nations headquarters along the East River.

The Russian news agency Tass reported that a formal note handed to the State Department in Washington called the travel ban "unprecedented."

"unlawful," "unfriendly" and "unprecedented."

Tass said the note demanded that the United States permit Khrushchev, who is expected to arrive here Monday aboard the Soviet liner Baltika, to have "unhindered movement" between Manhattan and Glen Cove on Long Island where Russia maintains a secluded estate for its U.N. delegation.

Khrushchev, barring a sudden change in the State Department's order, will reside in the massive brick manse on Park Avenue which has been the scene of vodka parties, picketing by protest groups and the lying-in-state of the late Russian Ambassador Andrei Vishinsky.

It formerly had been the town house of Percy R. Pyne, a banker and industrialist, and stands on the corner of 68th Street in the heart of the swank Park Avenue mansions and apartment houses.

The Russians bought it in 1947 for \$500,000 as headquarters for their U.N. mission.

SAFETY WEEK SET

AUSTIN (UPI) — The week of Sept. 18-24 will be "Texas School Traffic Safety Week." Gov. Price Daniel said Tuesday the week would include special activities to remind the 2,000,000 school children in the state "of the need for traffic safety and personal caution in traffic."

'Can I Survive An Atomic War?' — 2

Life Depends On What You Do

EDITOR'S NOTE: This is the second in a four-part series by an ace Pentagon reporter on new discoveries about fallout and how they affect you and

By RAY CROMLEY

Newspaper Enterprise Assn. WASHINGTON (NEA) — One thing is abundantly clear as of now:

You could live through an atomic attack. Or you could die. It mostly would depend on you.

In the crucial hours just before an attack began, during the attack itself, in the days just after — you might be almost wholly on your own.

Don't count on government warnings. Don't count on the famed radio system Conelrad. Bombs dropping might be the first warn-

ing. The civilian warning system is not working well in practice.

If you're going to live, you would have to manage your own survival yourself, and the survival of your family, perhaps the first 14 days. By that time you should have outside help.

This is the consensus of government and volunteer experts working on civil defense, interviewed by Newspaper Enterprise Association for this series.

If you do nothing, analysts figure, there could be H-bomb attacks rough enough so that you would have about one chance in 10 of living.

If you are personally prepared, you can increase your chances of living to 80 per cent or better. This still would leave millions of

Americans dead, but it would be nothing like total extinction.

There is still little you can do to protect yourself from the blast of a hydrogen bomb if you're within a mile of the blast.

But for everyone else, there's new hope. If you're willing to spend \$600 to \$900 you can have a crude, underground reinforced concrete pipe blast shelter for a family of six. This model, made of reinforced concrete pipe eight feet in diameter, would give you 90 per cent assurance of living through the blast of a 10 million ton H-bomb a mile and a quarter away.

You can up your own survival chances against fallout dramatically by two simple steps: having a plan and having a low-

cost fallout shelter. Some have built shelters for \$35.

The concrete pipe blast shelter also would cut radiation by 5,000 times. But for only \$200 worth of materials and some time and labor,

you can build a concrete block shelter for six in your basement that would cut fallout radiation by 99½ per cent. It's enough to protect you and your family from death anywhere further than eight to 10 miles from a five million ton H-bomb blast. Plans are available from Civil Defense offices.

But a personal plan is crucial. If you don't have a plan, you would waste precious minutes or hours. The "life or death" thing is to make simple decisions like these in advance:

What would you do if your family was all at home together "when bomb goes down"? What if you were at work, your children at school, your wife shopping?

Would you rush home to get the family together? Would the children stay in a school shelter?

Would your wife gather the family and bring them to you at a shelter in the sub-basement of your office building? If you were caught in the open do you know where the nearest culvert is to hide under?

The experts say deciding things like this beforehand could do more to save your family than anything else you could do.

Of course, even if you lived safely through the H-bomb attack and sat out the next two weeks safely in a shelter, your troubles

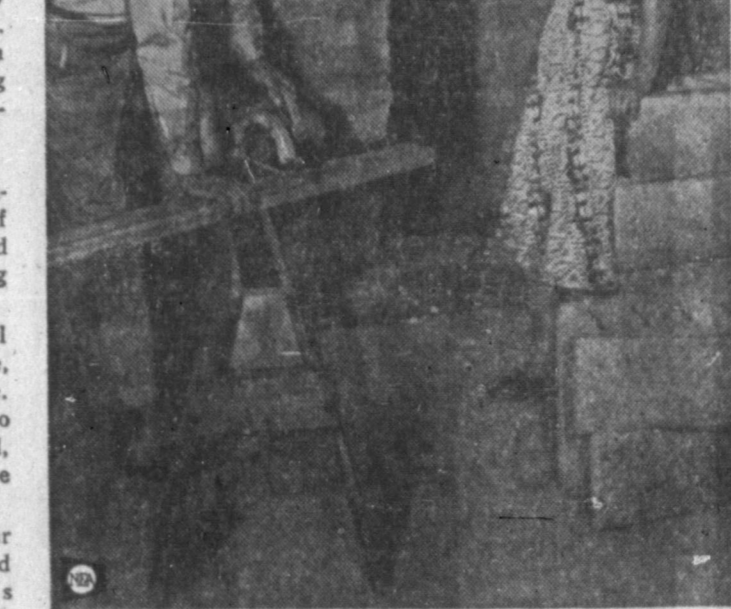

would just be beginning. Especially if the Reds had saturated the U.S. with multi-megaton weapons. You would have to get used to living for a long while in a badly-contaminated world.

Much of the land could be contaminated, the roads, the roof of your house, your car, the food and water supply, the crops growing in the fields, the fresh milk.

You would have to be careful how long you stayed outside, where you walked, what you wore. You would have to learn how to decontaminate your roof, car, yard, food. But these things could be done.

You might have to change your eating habits, go easy on milk and dairy products, maybe eat less meat and some kinds of fresh fruits and vegetables for awhile, step up your consumption of wheat and corn and other grains and cereals.

In surplus wheat, corn and some other foods, the U.S. has

HERE A MICHIGAN farm family, Mr. and Mrs. Darrell Barnes of Ithaca, works on a concrete block shelter in cellar.

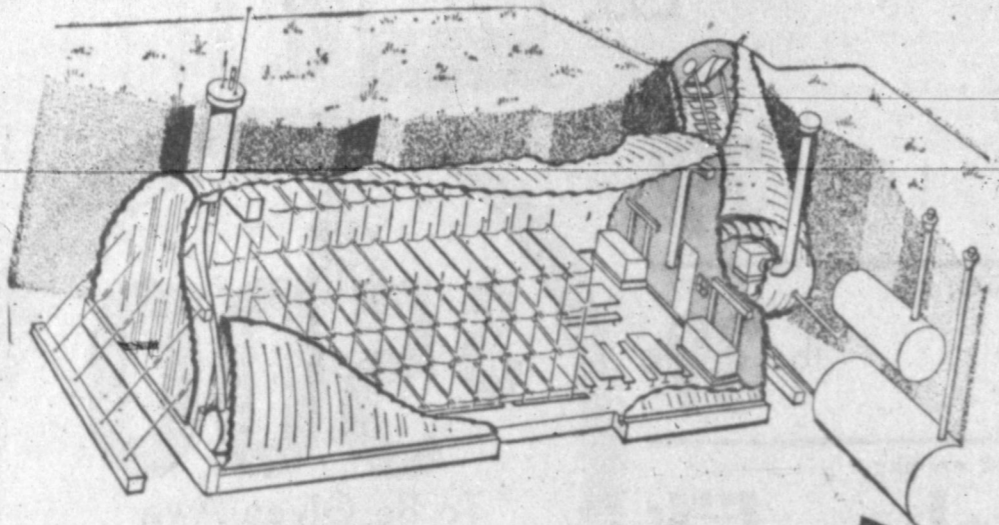

enough to feed everyone in the country for more than a year. Much of this food, though it might be partially contaminated, could be cleaned.

be destroyed, but the government has a multi-million dollar stockpile of machinery and machine tools. These aren't the most modern types, but could get industry going again. And the government has a stockpile of key raw materials to feed that industry. Working conditions wouldn't be good, but there would be work.

A BASEMENT: Concrete block fallout shelter can be built with \$200 worth of material.

Nearly 2,000 species of shrimp exist.

SOMEONE IN THIS AREA WILL WIN NEXT WINTER'S HEATING FUEL

Just tell us why you prefer to heat with—

GULF GULFTANE in 25 words or less!
LP-GAS BUTANE PROPANE

Easy to enter—

Nothing to buy!

"Dependable, clean, and efficient." This is a brief but accurate description of Gulftane LP-Gas. But you can describe Gulftane fuel even better—and you have up to 25 words to do it! And a chance to win a winter's supply of Gulftane fuel!

No cost to enter—no obligation. Here's how—and good luck!

Tips to help you win

- There just isn't any fuel cleaner, more modern than Gulftane LP-Gas. It's healthful, even heat—no fumes, soot or oily film to cling to walls, woodwork and curtains.
- To heat with Gulftane LP-Gas for a whole winter, simply light your automatic heater, turn one knob, set one dial—and forget it.
- Also, Gulftane gives you oceans of hot water because modern gas water heaters deliver three times as much 160° F. hot water as the larger electric water heaters.
- All these advantages can be yours with Gulftane LP-Gas wherever you live. You have your own fuel supply to keep you snug and happy, even in "lines down" weather.
- It costs only pennies a day to heat with Gulftane fuel. There's no better way to enjoy clean, healthful, automatic heating without fuss or muss.
- If you think Gulftane is LP-Gas, bottled gas, propane or butane, you're almost right. The difference is the guaranteed quality, purity and dependability of Gulftane fuel.
- No other kind of fuel will heat your home, cook your meals, heat your water, dry your clothes, burn your garbage, warm baby chicks, and power your tractor. Why should anyone use anything but Gulftane LP-Gas?

Your nearby dependable Gulftane distributor is

Fannon Butane Supply Co.
501 W Atchison Pampa
Phone MO 4-3721 or MO 4-2611

OFFICIAL CONTEST RULES

1. Complete this sentence, "I would like to heat my home with Gulftane fuel, because..." in 25 words or less. If the rest of the family wants to help you—fine. But only one entry per family.
2. Obtain an official entry blank from your Gulftane distributor, or clip and use the one below. Before midnight October 22, 1960, mail to The Milton Co., P. O. Box 390, Okmulgee, Oklahoma, the official contest judges.
3. The decision of the official judges will be final. Entries will be judged on the basis of originality, sincerity and aptness of thought. All entries become the property of Warren Petroleum Corporation, producers of Gulftane LP-Gas, and none can be returned. Incomplete or illegible entries will not be considered.
4. A sealed envelope containing the name of the winner will be opened on Nov. 5, 1960. Everyone is invited to attend the official announcement of the winner's name.
5. The winner will receive enough Gulftane fuel to heat his home for six (6) months (October, 1960 through March, 1961). Because home heating requirements vary, all contestants agree to accept our estimate of the gallons required to heat an average home in this area.
6. This contest is subject to all Federal, state and local regulations and is open to any adult resident of the continental United States, except those employed by Warren Petroleum Corporation, its branded distributors, its advertising agencies, and members of their families. The prize is not transferable.

Round Steak With Sour Cream Almost Wins In Contest

"Somebody has to lose," members of the Texas Beef Council staff reminded themselves sadly as winners were selected in the recent Beef Council recipe contest.

"Round Steak with Sour Cream Gravy," which was entered by Mrs. Cliff Newland of Crane, Texas, was typical of the finalist recipes. Easy to prepare, it is a meal inexpensive enough for a company dinner. This recipe - which almost won - makes 4 servings:

ROUND STEAK WITH SOUR CREAM GRAVY
1 large 1/2-inch thick round steak
1 large onion, chopped
1/2 teaspoon paprika
1 pint sour cream
1/2 cup water
4 tablespoons vegetable oil
Salt, black pepper and Accent Flour for dredging beef

Cut steak into four pieces, clip edges. Pound steak with mallet, and dredge in seasoned flour. Heat cooking fat in deep skillet, saute onions until tender but not browned and remove from fat with perforated spoon.

PUFF PASTRIES — as light and flaky as if they had just been baked in an European pastry shop, are now within the reach of the American housewife through her grocery store frozen-food case.

Wind Up Summer With Indian Summer Picnic

An Indian summer picnic in the bright blue air of October has a special flavor all its own. For such a picnic, backyard or countryside, try this hearty ham, egg, and frozen pea salad. It, too, has a unique flavor that makes a simple lunch or supper a delightful experience.

Early in the day, cook a package of frozen peas. Cook them right. A salad is no place for overcooked peas. Use only a minimum of salted water. . . four tablespoons of water will do it nicely. Bring the water and peas to a boil in a covered saucepan. Then, reduce the heat to a minimum and simmer gently no more than seven minutes. Cooked this way, frozen peas look bright and beautiful, taste fresh-picked, keep their vitamins. After cooking, chill the peas thoroughly.

Next, assemble 2 cups of cooked

ham cut in 1/2 inch cubes, 2 diced hard-cooked eggs, chopped sweet-sour pickles, diced green pepper, grated onion and mayonnaise. Add the peas and mix gently but well. Return the mixed salad to the refrigerator in a covered dish and let the flavors get acquainted for an hour or two.

Try serving individual portions in crinkly lettuce cups with fresh corn bread muffins and apple pie for dessert. Served on paper plates, what could be lazier or tastier?

MENU
Herbed Tomato Juice, Hot or Cold
Frozen Pea and Ham Salad in Lettuce Cups
Corn Bread Muffins
Apple Pie
Coffee, Tea or Milk
FROZEN PEA AND HAM SALAD
2 cups cooked ham, cut in 1/2 inch cubes
1 10-ounce package frozen green

peas cooked
2 hard-cooked eggs, diced
3 tablespoons sweet-sour pickles, chopped
1/4 cup green pepper, diced
1 tablespoon grated onion
1/4 cup mayonnaise
lettuce cups
Have all ingredients chilled.

Combine thoroughly but gently. Cover and return to refrigerator an hour or two for flavors to mingle. Serve in Lettuce cups. Yield: 4 servings.

CHICAGO (UPI)—The National Association of Retail Grocers advises homemakers to consider the front end of the steer for backyard barbecues. "All during the summer months, the demand for cuts from the hind quarter of beef goes up, up, up and drives prices in the same direction," the association reported in a recent bulletin.

Brunch Guests Will Rave About Egg Benedict

Don't overlook the importance of breakfast! It is the meal which should supply "fuel" to start off the day's activities whether in school, at work or in the home.

BACON - HAWAIIAN TOAST
8 slices bacon
4 eggs
1 teaspoon salt
3/4 teaspoon cinnamon
3 tablespoons sugar
1 cup pineapple juice
8 slices bread
Bacon drippings
4 slices pineapple
Beat eggs until light and fluffy.

Add salt, cinnamon, sugar and pineapple juice and beat thoroughly. Soak bread well in this mixture. Place bacon in a cold frying-pan. Cook slowly, turning frequently. Drain fat as it accumulates so the bottom of the pan is only well greased. Brown pineapple slices lightly in pan with bacon. Save drippings. Continue cooking until the bacon is a light golden brown and evenly crisped.

Corned Beef Potato Bake Hearty Fare For Most King-Sized Tastes

A hearty meal for a hungry family is Corned Beef Potato Bake. You can be sure of satisfying the most king-sized appetites with this nourishing main course, plus a crisp green salad and some rolls. Preparation is easy because most of the ingredients are standard pantry shelf items—a can of corned beef, evaporated milk and an envelope of instant whipped potato flakes. Instant whipped potato flakes are one of those marvelous new convenience foods that eliminate so much of the work of cooking. Now you don't have to peel, boil and mash potatoes. Simply bring salted water to a boil, add cold milk and butter, stir in the "flavor flakes" and presto, mounds of delicious whipped potatoes! For more flavor interest, mix in some chopped celery, onion and dry mustard. Here's how:

CORNED BEEF POTATO BAKE
(Makes 4 to 5 servings)
1 1/2 cups water
2 bouillon cubes
1/2 teaspoon salt
1/2 cup evaporated milk
1 tablespoon butter
1 envelope Borden's Instant Whipped Potato Flakes
1/4 cup finely chopped celery
2 tablespoons finely chopped onion
2 teaspoons dry mustard
1 (12-ounce) can corned beef
2 tablespoons butter
Combine water, bouillon cubes and salt in medium-size saucepan; cover; bring to boil. Remove from heat. Add evaporated milk and butter immediately, then Borden's Instant Whipped Potato Flakes. Stir gently with fork or wire whip until liquid is absorbed. Whip

When traveling, it's a good idea to have powder and lipstick in each handbag you take with you. It will save the trouble of changing these necessary items from one purse to another, and eliminates the risk of forgetting them.

briskly. Combine potatoes with chopped celery, onion and dry mustard; mix well. Fork canned corned beef into skillet; saute lightly in 2 tablespoons melted butter. Arrange corned beef around potato-mixture in well-greased 1 1/2-quart casserole. Bake in moderate oven (350 degree F.) about 10 minutes.

Reds Reject Plea For Five

TOKYO (UPI) — Communist China today rejected as "colossal interference" in its internal affairs a new American demand for the release of five imprisoned Americans.
The rejection was broadcast by Peiping Radio, which said "the people of China can never allow such deeds."
The Americans, all serving terms of from 15 years to life for alleged espionage, are: Bishop James E. Walsh, Cumberland, Md.; former government

employee John T. Downey, New Britain, Conn.; and Richard Fecteau, Lynn, Mass.; and businessmen Robert McCann, Altadena, Calif.
CONGRATULATIONS
To Mr. and Mrs. Travis Wilson, Panhandle, on the birth of a boy at 12:42 a.m. weighing 7 lbs. 15 oz.
To Mr. and Mrs. Darrell Thomas, 423 N. Rider, on the birth of a boy at 10:15 p.m.
The 61-year-old performer also was fined \$250 Wednesday as part

IT'S THE LAW in Texas

LAW REQUIRES STOP FOR SCHOOL BUSES

Thousands of school children are now trooping back to school throughout Texas. Many of them will be transported by school buses. Most people are careful when approaching a school bus which may be standing beside the road or school to pick up school children or allow them to alight. However, we have already had some very bad accidents this year because a child or a motorist, or both, were careless at that very time. Most Texans are aware of the

law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to proceed past same at a speed which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children.

What many persons do not realize is that the very same rules applies when MEETING a stopped school bus. While everyone is interested in protecting our children unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fines up to \$200.00 even when no accident occurs. Following an accident in which some child is injured or killed, the penalties are naturally much more serious.

Although the above rule does not always apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

In the same category is the prohibition against passing on the right under most ordinary conditions. Of course, you may legally pass on the right in a few specific instances, such as when the vehicle overtaken is making or about to make a left turn, or upon a one-way street with two or more lanes, or upon a four-lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting

such movement in safety. And, in no event should such passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Familiar to all are the no-passing zones designated by dash lines placed to one side of the center stripe on our highways. Not so well known are the restrictions against crossing the center line when approaching within 100 feet of or when traversing any intersection or railroad grade crossing.

A driver should never cross the center line of a highway when the left side of the road is not clearly visible and free of oncoming traffic. Generally speaking, when not engaged in passing another vehicle, one should not drive to the left of the roadway.

News Briefs

THEFT SUSPECTS HELD
DALLAS (UPI) — Dallas police Tuesday recovered 33 of 43 rings stolen at Everett's Jewelers in the downtown area Monday night. Two suspects in the case are being held for questioning for the theft of the 43 rings which were valued in excess of \$9,000.

OIL HEAD NAMED
DALLAS (UPI) — S. G. Sanderson was named president of Stekol Petroleum Corp. Tuesday. A veteran Houston oil executive and former vice president of Gulf Oil Corp., Sanderson has been retired recently.

This is a day in which there's a solution for every beauty problem. One of the newest is the hair piece for the gal with thin or fine hair. While hair pieces have been anything but new for years, the latest ones offer something different. They are not merely pinned on; they are combed into the hair so that they appear to be not an addition but part of the coiffure. This girl (upper left) has a square face and hair which is thin and flat on top. The solution flower (left) lies in a hair piece which, combed into her own hair, gives her the needed height. This pretty blonde (upper right) has the kind of hair which is so often difficult. It is not easy to handle, goes limp at the first change in the weather, has very little body. But a hair piece of real hair gives her (lower right) needed height, thus elongating a too-round face into a perfect oval. Her own hair and the hair piece are perfectly blended.

Luncheon Begins New Year For Home Progress

MIAMI (Sp) — The first meeting of the year for Home Progress Club was an annual one o'clock luncheon held in the home of Mrs. J. K. McKenzie. Mrs. J. O. Duviven, president, greeted each member at the door and presented her with a tiny rosebud. Following the luncheon a short business meeting was held, at which time plans were made for the coming year. Members were presented with new year books. The next meeting will be held in the home of Mrs. R. B. Mathers. Members present were Mmes. Ross Cowan, Henry Hoffer, W. D. Allen, J. O. Duviven, Eunice Holland, Theo Jenkins, Annie Keehn, L. A. Maddox, R. B. Mathers, H. J. McCuiston, Howard Mulkey, R. E. Webster, W. L. Russell, C. C. Shield and McKenzie.

Older women will find this make-up trick pleasing. When applying rouge, deepen the tone on the cheekbones and run it upward to the temples. This high color will give the face a lift and make the muscles look healthier.

New, False Hairpieces Blend With Own Tresses

By ALICIA HART
Newspaper Enterprise Staff
Correspondent

The woman with the perfect oval face can wear any hair style; short, long, piled high or flowing to the shoulders. But there's a catch in this. There aren't enough of these perfect oval faces to cause a stir of envy in the hearts of the rest of us. There's no arguing the point that the right hairdo can make a big difference in a gal's appearance. But most of us are faced with one or more problems when we try to wear our hair the way it would become us best. If your face is long and narrow, you need enough hair, with good spring and body, to widen your hair style and give your face a softer, more oval appearance. On the other hand, should your face be too round or too square, you must heighten your hairstyle to elongate the appearance of your face. Anyone, in time, can let her hair

grow to the necessary length. But there's little we can do about fine, thin hair that will not lend itself readily to the style that we'd like best. One contribution you, yourself, can make to the appearance of your hair is to keep it clean and shining at all times. Clean hair has more spring and life. A soft permanent, with undercurl is an important factor, too. Although hairpieces have always been of invaluable help, they were usually made to be worn as a bun, roll or braid. And these styles didn't always create the wanted effect. Today, they are much more versatile. The Coiffures Americana salons across the country have designed some new hairpieces, called the roulette, the flair and the flip top. They are made of real hair that will plume and feather in any direction you want them to go. They are expertly combed right into your own hair color. What's more, they can be cleaned and re-

set right in the local salon. So it looks as if the days of the "hair problem" are on their way out. With the aid of these new tress accessories, you can have the hair style that flatters you most, regardless of the length or texture of your hair. Mrs. David Holt Is Honored At Shower CANADIAN (Sp) — A shower honoring Mrs. David Holt, the former Stella Swires, was held in the basement of the Church of Christ recently. Hostesses for the evening were Mmes Arthur Webb, J. A. Parks, James Wilburn, Calvin Isaacs and Clarence Walsler. The bride's colors of pink and white were used to decorate the serving table. The table was centered with a bouquet of pink and white mums and carnations. Crystal appointments completed the service. Mrs. Calvin Isaacs registered approximately 45 guests.

Dear Abby... Door-Mats Like To Be Stepped On
ABIGAIL VAN BUREN

DEAR ABBY: My wife is my problem. She lets our spoiled daughter make a doormat out of her. "Spoiled daughter" gave her mother a hard time while she was growing up (I could write a book on that subject). My wife used to put cardboard in the bottoms of her own shoes and spend all her money on dress-up clothes for Spoiled Daughter. Spoiled Daughter is now married and has two children. She'll call her mother to babysit, morning, noon and night. Mother runs like a puppydog. Spoiled Daughter drives a car, but tells Mother to "take a bus over". Some evenings are so long, my wife sleeps there all night and I sleep alone. Spoiled Daughter never gave her mother a dime, a gift, or even said thank you. How can I make my wife stop being such a darned fool? DEAR DISGUSTED: Do you know what a "martyr" is? Well, you are married to one. Mother enjoys the abuse. And as long as she enjoys playing the doormat neither you nor anybody else will stop her. DEAR ABBY: The other day while visiting in the home of some friends, the man of the house used some very profane language in the presence of his own children and mine. His wife told him to stop it, then

my 12-year-old daughter spoke up and said, "Oh, that's all right. I hear that all the time at home!" I was so mad I slapped her across the mouth and made her say we didn't use that language at home. Well, Abby, my wife isn't speaking to me any more for what I did. Do you think I was wrong or not? DEAR PROKED FATHER: You were justified in asking your daughter to correct her statement. But shame on you for slapping her across the mouth. In your efforts to show up your host, you revealed yourself to be no better. DEAR ABBY: Our little six-year-old son is lefthanded. My sister-in-law said that this is a sign of inferior intelligence. Is this true? WORRIED MOM DEAR MOM: Yes—in your sister-in-law. DEAR ABBY: Is it all right to eat the corn right off the cob? That's the way I like it best, but I was told you should scrape off the kernels with a knife. CORNY DEAR CORNY: Eat the corn right off the cob—but hold it daintily with one hand lest you look like you're playing a harmonica. All you need is courage and a toothpick. For Abby's pamphlet, "What Teen-agers Want To Know," send 25 cents and a large, self-addressed, stamped envelope in care of this paper.

Modesty In Boudoir Makes Up For Yellow Polka-Dot Bikini On Beach

NEW-YORK (UPI) — It may be the age of the bikini on the beach, but it's the age of modesty in the boudoir. So says Mrs. Sylvia Pedlar, a veteran designer often called the "Christian Dior of the lingerie world." Mrs. Pedlar, who this week won another award for her pioneering in lingerie design, says it always is surprising to her how daring women are in beach apparel...and how demure in their nightgowns. Not that she is advocating a switch. In her opinion, the covered-up look in sleepwear is more fetching than, say, those black nightgowns husbands purchase for their wives at Christmas. "I think," she said, "that men like their wives demure. Prefer them with a fresh, scrubbed little girl look. Of course, mine is the woman's viewpoint. As for black, those nightgowns always have had a limited sale. They've been identified too strongly with the wrong type of person." Mrs. Pedlar won an "Oscar" for "distinguished service in the field of fashion" at the 23rd annual Neiman-Marcus fashion exposition in Dallas this week. She also holds the American Fashion Critics Award, and citations from Glamour magazine and the ribbon industry. When she began designing in 1930, lingerie styles were pretty static — bias cut, pastel satin or crepe, and lace trim. But she has helped to make underwear as varied and glamorous as outerwear. She helped to revive the peignoir and the long-sleeves nightgown. She brought back embroidered batiste and has made fine cotton of all types a luxury lingerie fabric. She introduced the ballet length nightgown with matching coat; nightgowns with stoles instead of bedjackets for shoulder covering; the "baby doll" pajama, with short tops and bloomer bottoms; the "choir boy" sleep set, consisting of short white cotton tops with full sleeves and wide lace at the hem worn with red bloomers; the "slipcover," a trapeze shaped top worn over a slip-like gown; matching ensembles of full slips, half slips, short gowns and coats; and vivid prints in both tricot and silk. "To me, a woman's underwear wardrobe should be just as varied as her outerwear," said Mrs. Pedlar. "Variety keeps her — and her husband — from getting bored."

Wood Carving Is AC Club Topic

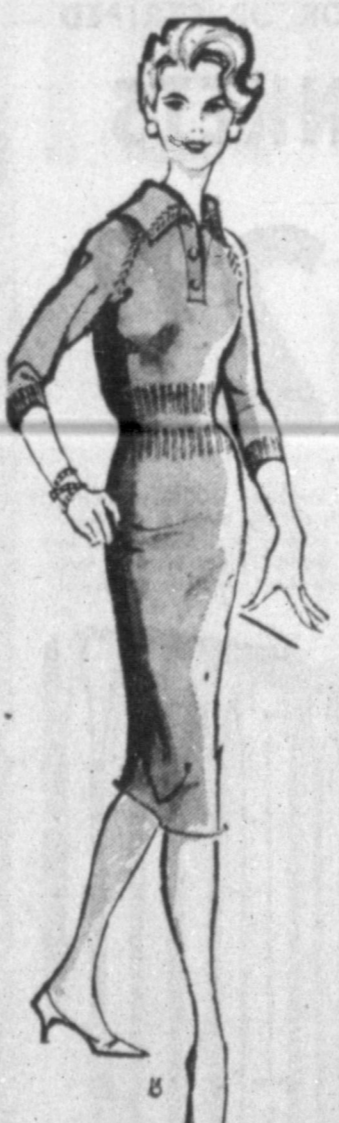

CANADIAN (Sp) — Mrs. Jim Mitchell was hostess to the Arts and Crafts Club in her home recently. The business meeting was conducted by Mrs. Bill Ramp, during which plans were discussed for the annual Achievement Day which is to be held November 16. Mrs. Bob Rogers was appointed secretary for the club. The devotional on "Trees" was given by Mrs. W. P. Varnell. The program on wood carving was given by Mrs. Paul Wood. Those attending were Mmes. W. R. Hest, Ben Hill, F. D. Teas, Ray Morey, Bill Ramp, W. P. Varnell, Paul Wood, Arthur Webb, Bob Rogers and Darrell Wiggins. "Living Faith" Topic For Woman's Council CANADIAN (Sp) — Woman's Council of First Christian Church met in the church recently for a covered dish dinner. The business session was opened by Mrs. Warren Harrington. The devotional, "Living Faith," was presented by Mrs. H. J. Spoon. The lesson on Christian Colleges was given by the Lois Circle, with Mrs. Harrington as leader.

WILL THEY BE FRIENDS?—Meeting for the first time, sad-faced Chris Short, 4, waits for sad-faced puppy "Happy," to make the first overture toward friendship. They are from Dubuque, Iowa.

'Donna' Worst Hurricane, According To U.S. Records

WASHINGTON (UPI)—The Weather Bureau said today that Hurricane Donna "was the most destructive and vicious tropical storm" since the bureau started keeping records in 1886.

Dr. F. W. Reichelderfer, chief of the bureau, credited new tracking, warning, and forecasting methods with saving hundreds of American lives which might otherwise have been lost.

The watch kept on Donna since it first was sighted 1,200 miles east of Puerto Rico Sept. 2 was "the most complete in history," Reichelderfer said.

"If Hurricane Donna had occurred just five short years ago hundreds of people in the United States might have lost their lives and thousands more would have been seriously injured," he added.

Reichelderfer said installation of high-powered weather radar along the Gulf and Atlantic coasts in 1959 and 1960 "has paid real

President To Address U.N. Session

WASHINGTON (UPI)—President Eisenhower will address the United Nations General Assembly on Thursday, Sept. 22, the White House said today.

Soviet Premier Nikita S. Khrushchev is now on his way to New York to attend the assembly meeting.

The President "will have specific proposals to make to the U.N. delegates," White House news secretary James C. Hagerty said.

"The President will return to Washington after his address," Hagerty said in a statement to reporters.

Asked if the President would see Khrushchev at the U.N., Hagerty replied:

"I have nothing else to add except what I have told you."

The press secretary said he understood that the President would speak following a representative of Brazil at the Sept. 22 meeting. The assembly opens Sept. 20 but the first day will be devoted to organizational matters.

The United States averages 175,000 forest fires annually.

Political Prisoners Given Amnesty

CIUDAD TRUJILLO (UPI)—The Dominican Senate Tuesday approved a bill submitted by new President Joaquin Balaguer to grant a general amnesty to political prisoners.

Balaguer replaced President Hector B. Trujillo last month but Trujillo's brother, Generalissimo Rafael Trujillo, retained political power in the nation.

The six Roman Catholic bishops of the republic have twice urged the government to free political prisoners this year. Gen. Trujillo repudiated that the law did not permit such an action.

"Preliminary reports indicate," he said, "that more information about hurricanes has been gathered by these flying laboratories in this one storm than all the tropical storms since the project began in 1956."

Polaris Test Vehicle Fails

CAPE CANAVERAL (UPI)—Navy plans for putting its Polaris missile on sea patrol duty in October apparently were buried today in 14 tons of rubble at the bottom of the Atlantic Ocean.

The twisted metal and unburned fuel were the remains of a Polaris test rocket, which crashed in spectacular fashion Tuesday seconds after a submerged firing from a nuclear submarine, the USS Patrick Henry.

The missile was triggered as the sub cruised more than 50 feet beneath the ocean's surface about 30 miles east of this missile testing center.

The failure was the second in a series of underwater tests of the missile after three history-making successes in July and August by the USS George Washington, the nation's first Polaris submarine.

The fourth and final shot from the George Washington, in early August, failed when a missile veered out of control 47 seconds

Musical Planned By Choir And Drama Students

"Oklahoma," the Broadway musical which smashed all previous records of consecutive-playing dates and gate receipts on Broadway, is in production at Pampa Senior High School. The musical will be presented jointly by the Appella Choir and the drama department and will be directed by Hugh Sanders, choral director, and Miss Helen Schafer, speech teacher.

Jerry Baxter as "Curley" and Betty Lou McWilliams as "Laurie" will be presented in the high school auditorium Friday night, Oct. 21, with a possibility of a repeat performance Oct. 22. Tickets will go on sale Sept. 14.

after it was ejected from a tube in the sub's mid-section.

That fizzle combined with Tuesday's failure in the first launching from the Patrick Henry apparently all but doomed any move by the Navy to declare the Polaris war-ready next month.

53rd YEAR THE PAMPA DAILY NEWS THURSDAY, SEPTEMBER 15, 1960 13

rey" have been cast in leading roles.

Playing supporting roles will be Kristi Brown as "Aunt Eller," Tom McPeak as "Will Parker," Sue Collins as "Ado Annie Carnes," Jerry Nichols as "Judy Fry," Verena Hunter as "Gertie Cummings," Rudy Hullender as "All Hakin" and Bill Don Eads as "Andrews Carnes."

Appearing also are Jack Carlson as "Ike Skidmore," James Shelton as "Slim," Mary Alice Coombes as "Katie," Jon Naylor as "Eli," Sarah Naylor as "Sylvie."

A Cappella Choir members will

Babysitter, Child Die In Home Fire

DALLAS (UPI) — A one-alarm fire burned a little girl and her Negro babysitter to death Wednesday and police were unable to locate the child's parents immediately to tell them what happened.

Firemen said Mary Morris, 50, serving as maid and babysitter,

other two victims were in the kitchen also. He said they must have already been dead when he rescued Darlene.

Fire Chief W. L. Lester said the bodies of the two victims were found near the kitchen door of the two-bedroom frame home.

Lester said the Morris woman apparently was overcome by the smoke as she was carrying the little girl to safety.

Several hours after the fire, police said they had not been able to locate neither the mother nor the father of the children. The mother was reported to be in the state. The father, Byron Burnett, could not be found immediately.

Burnett owns the Texas Improvement Co., which installs air-conditioners and heating units. Jones said he heard the victims screaming shortly after 3 a.m. today. The house is located in the Oak Cliff section of Dallas.

Fire investigators said a faulty floor-furnace possibly set off the blaze. Damage to the house was estimated at \$5,000 by the fire department.

Darlene was reported to be in fair condition.

The collie dog first was bred in Scotland and used for taking care of sheep.

Sports Slivers

By Ed Hayes Wilson

Throughout the years, sports folk in the know, have derided one Avery Brundage, the Olympics boss man, and firm protector of the rules and regulations set down by the Amateur Athletic Union—that staid old unit who tells athletes of the United States what they can and can't do.

Just how big Brundage is was recently pointed up when the Russians failed to knock him off his Olympic throne. But it may have been just as well if they had.

Throughout the years the aging Chicagoan had blatted off his mouth about U.S. athletes, but he flipped his lip one too many times in a recent UPI release.

This quotes him word for word: "We're outclassed in half the events on the Olympic program. If it were not for our great Negro athletes, we'd be second class now. Life in the United States is too soft. Russia has 800,000 gymnasts. We'd have trouble finding 800 in the U.S. — even 80."

He further said we're heading toward a second class rating in sports.

Now is that so? We have no bone to pick with the way the American Negroes performed. They were, for the most part, brilliant. But we certainly do have a few words for Brundage in rebuttal.

Have the Russians ever trounced a United States basketball team?

Can the Russians come up with vaulters such as Don Bragg, the Games gold medal winner?

Do the Russians field a track and field team, year after year, comparable to ours?

Where's all these Cossack swimmers? Baseball players, football players?

Sure, the vast majority of the people in the U.S. have no desire to swing around on a rope or bar like a monkey; they have far more interesting sports in which to participate. And this goes, even though we'll be the first to admit that an interest in gymnastics is desirable if one wishes to develop one's body. But we can't, in sincerity, classify many of the Olympic tests for

gymnasts as a sport, despite all arguments to the contrary.

There is another "big deal" in Russia that the good old AAU will not permit here — payment of athletes.

Don't suppose 'Ole Ave thought of that in his tirade against our athletes. Why, heck, if we paid our Olympic aspirants the way the Kremlin does, keeping them at sports palaces and resorts many, many months out of the year, don't you think for a minute we'd not field a team to blow the Russians off the top rung.

But such a thing won't happen. The AAU won't permit it. Thus, the AAU, not the U.S. athletes, is to blame for us not coping a vast majority of the Gold awards.

True, as Oscar Fraley, top UPI reporter, said in a release the other day, there may have been some overconfidence, but if an athlete doesn't have belief in himself, he's in a bad way in competition.

So there you are, Ave. You and the AAU have kept our athletes in the amateur class. How about some of the same for the Russians, or else give our boys and girls a chance to be on the same plane with them by lifting some of the restrictions you and the AAU have placed upon them.

ENTERS TITLE RACE TRENTON, N.J. (UPI)—Al Keller, of Green Acres City, Fla., a noted hot-rodder for 22 years, will compete on each of the next two Sundays in the national title auto races at the New Jersey State Fair.

Orioles Edge Detroit

SPORTS

16 THURSDAY, SEPTEMBER 15, 1960 53rd YEAR

Farquhar Wins Two National Golf Tests

ST. LOUIS, Mo. (UPI) — The National Amateur golf tournament was nearly "open" today with only three "name" players left in the field of 16 heading into a pair of 18-hole rounds to pick the semi-finalists.

John Farquhar of Amarillo, and well known to Pampa golfers, scored two victories yesterday. He clipped Charley Coe, a former champion, and followed up by knocking out Kent Winton of Stanford, Calif.

Otherwise the field included a veteran of some prominence, Bill Hyndman, Abington, Pa., runner-up once for the U.S. title and once in the British Amateur, four other veterans and eight players 27 or under, four of them only 19 years old.

The teen-agers were apt to become prominent today. The leader among them was Charles P. Lewis III, 19, Little Rock, Ark., who ousted defending champion Jack Nicklaus, Columbus, Ohio, Wednesday, 5 and 3, with his third straight sub-par round.

One of five former titleholders who started the scramble on Monday, E. Harvie Ward, the 1955 and 1956 winner from San Francisco, survived.

Ray Herbert was in constant trouble as the Yankees put men on base in every inning except one, but he bore down, left 12 men stranded and turned in an eight-hitter for his 11th victory compared with 15 defeats.

The Washington Senators ended the Chicago White Sox's six-game winning streak with a 6-1 victory and the Cleveland Indians defeated the Boston Red Sox, 11-7, in other AL games.

In the National League, Los Angeles downed Pittsburgh, 5-2. St. Louis moved to within 5½ games of first place with a 4-4 win over Cincinnati, Milwaukee crushed Chicago, 10-2, and Philadelphia beat San Francisco, 5-1.

The Orioles blew a five-run lead before they finally won their game from the Tigers. Brooks Robinson's two-run triple featured a three-run rally in the ninth that brought Baltimore from behind.

Earl Battey's two-run homer against his former White Sox teammates helped rookie Jack Kralick of the Senators register his eighth win.

Home runs by Mike De La Hoz, Vic Power and Tito Francona carried the Indians to their victory over the Red Sox. Barry Latham was the winner and Frank Sullivan the loser.

Stan Williams struck out 13 batters and Wally Moon drove in three runs for the Dodgers against the Pirates.

Williams (14-8) lost his shutout when Bill Mazeroski homered with one on in the eighth. Vern Law tried for the third time to nail down his 20th victory but

Invocation Blocked By Ref's Whistle

The referee's whistle cut short pre-game activities prior to the Harvester-Big Spring clash last Friday, thus eliminating, among other things, the invocation.

"Apparently something went wrong with the sound system," said Cameron Marsh, principal of Pampa High School.

Marsh said the pre-game program had been prepared and rehearsed and that "we even synchronized our watches with the cheerleaders who were on the other side of the field from the press box."

The pre-game activities were to include the "Hello Yell," "The Star Spangled Banner," re-entry of the teams to the playing field, Big Spring's school song, the Harvester school song, and the invocation by Keith Gregory, Student Council chaplain.

"We got the yell off, plus the national anthem, but just when we were going to sing the school songs, the referee 'blew the whistle' on us," the principal stated.

Marsh said the same procedure will be used for the game Friday night with Yaleta, and that Gregory will give the invocation.

"When the conference games start, we plan to ask various ministers of Pampa to give the invocations," he said.

Fifty-two species of fur-bearing animals may be found in Great Smoky Mountains National Park.

By MILTON RICHMAN
United Press International

Those Kansas City "cousins" turned out to be anything but kissin' kin.

As far as the disillusioned New York Yankees are concerned, the Athletics acted more like unwelcome relatives who always show up at precisely the wrong time.

Pushovers for the Yankees all year long, the last-place A's rose up and beat the Bronx Bombers for the second straight time Wednesday night, 2-1.

Kansas City's victory — which was only the seventh in 22 games with New York this season — coupled with Baltimore's 11-10 triumph over Detroit, shaved the Yankees' lead over the Orioles to one percentage point and created a near-perfect setting for a four-game series between the two clubs starting Friday night.

Ray Herbert was in constant trouble as the Yankees put men on base in every inning except one, but he bore down, left 12 men stranded and turned in an eight-hitter for his 11th victory compared with 15 defeats.

The Washington Senators ended the Chicago White Sox's six-game winning streak with a 6-1 victory and the Cleveland Indians defeated the Boston Red Sox, 11-7, in other AL games.

In the National League, Los Angeles downed Pittsburgh, 5-2. St. Louis moved to within 5½ games of first place with a 4-4 win over Cincinnati, Milwaukee crushed Chicago, 10-2, and Philadelphia beat San Francisco, 5-1.

The Orioles blew a five-run lead before they finally won their game from the Tigers. Brooks Robinson's two-run triple featured a three-run rally in the ninth that brought Baltimore from behind.

Earl Battey's two-run homer against his former White Sox teammates helped rookie Jack Kralick of the Senators register his eighth win.

Home runs by Mike De La Hoz, Vic Power and Tito Francona carried the Indians to their victory over the Red Sox. Barry Latham was the winner and Frank Sullivan the loser.

Stan Williams struck out 13 batters and Wally Moon drove in three runs for the Dodgers against the Pirates.

Williams (14-8) lost his shutout when Bill Mazeroski homered with one on in the eighth. Vern Law tried for the third time to nail down his 20th victory but

wound up with his eighth defeat instead.

Daryl Spencer won a ball game for the Cardinals for the second straight night when he hit a two-run homer off Jim Brosnan of the Reds in the eighth inning.

Bob Miller was the winner for the Cards with help from Lindy McDaniel, Roy McMillan and Vada Pinson homered for the Reds.

Joey Jay of the Braves held the Cubs to six hits in bringing his record to 8-7. Eddie Mathews got the Braves started with his 37th homer in the first inning.

Bucs Set Ducat Sales

PITTSBURGH (UPI) — Pittsburgh Pirate baseball fans, hopeful of watching their first World Series here since 1927, may begin applying for tickets to the 1960 classic Friday.

Club officials announced Wednesday night they would begin accepting mail order ticket requests postmarked after 5 p.m., EDT, Friday.

The Pirates said tickets would be sold two to a customer on a single-game basis only. Orders will be filled on a "chance basis" with the applicants not able to choose the game they want to attend.

All seats will be reserved. No box seats will be available since they already have been claimed by season ticket holders and baseball personnel.

The following prices will be in effect: single grandstand reserved, \$8.75; two grandstand reserved, \$16.40; single bleacher reserved, \$3.20; two bleacher reserved \$5.40.

Ignorance Can Be Attributed To State Department Acoustics

By DICK WEST
United Press International
WASHINGTON (UPI) — If you want to find out what's going on in the world, a State Department news conference can be a good place to stay away from. You are likely to leave the conference more bewildered than when you went in, which is saying a lot.

right ear for a tripod, would start shooting. This created a buzzing noise of the kind a bee makes when it finds a buttercup filled with margarine. Since Herter's voice was amplified, I could occasionally hear what he was saying, but the reporters were inaudible. Thus, I spent an intriguing half hour trying to figure out the questions to his answers.

This, I hasten to add, is not the fault of Secretary of State Christian A. Herter. It is mostly the fault of the acoustics in the department auditorium, where Herter holds his journalistic sessions. On the occasion of Herter's most recent session with the press, I arrived rather late and took a seat just in front of the cameramen who were clustered in the rear.

But even had I been able to hear the questions, I doubt it would have made much difference. This is because I don't speak Diplomat. Regardless of what tongue is used — English, French, German or whatever — Diplomat is a language all its own. It was not until I got back to the office and read the ticker that I became aware of what transpired at the news conference I attended.

Two Plans On Disarmament In Khrushchev Brief Case

By K. C. THALER
United Press International
LONDON (UPI) — Soviet diplomats revealed today that Premier Nikita S. Khrushchev is carrying two alternative plans for worldwide disarmament to the U.N. General Assembly in New York. Khrushchev intends to propose first total nuclear and conventional disarmament in a set period. The plan broadly resembles the one he put before the United Nations last fall when he visited the United States for talks with President Eisenhower.

But he has introduced modifications and has made the period for completion of disarmament negotiable, according to the sources. In his original proposal he called for "total and complete" disarmament within four years. Alternatively, Khrushchev will offer phased partial disarmament, the sources said. This plan in turn will follow broadly the proposals made by the Russians at the unsuccessful Geneva disarmament conference this summer. The sources said some new ele-

ments have been introduced in this proposal. The West had termed the Soviet proposals submitted at Geneva as unacceptable because of the failure to provide effective controls. Finally, the sources said, Khrushchev is carrying some "entirely new proposals" on disarmament which he intends to unveil before the General Assembly. They were believed to deal largely with nuclear disarmament problems.

Maj. Elmer Capps will speak at Salvation Army headquarters tonight at 7:30 and conduct a Young People's inspection Friday, according to Envoy H. C. Seago, Pampa unit commander.

Salvation Army Official To Visit

The Salvation Army divisional young people's secretary from Dallas will be in Pampa two days this week for meetings with members of the Army and young people.

Wattles is the term applied to the fleshy skin hanging from a turkey's throat.

What The Candidates Said Yesterday ...

By United Press International
Sen. John F. Kennedy:

(In New York City before a Liberal Party dinner): "Only liberalism... can repair our national power, restore our national purpose, and liberate our national energies. Only liberalism can solve the bitter problems this nation faces as we enter the turbulent 60s."

(Khrushchev) "knows this — he told me so."

"We must see that the farmers get what they do not receive today — a fair share of what they produce. The whole thing in a nutshell is — we've got to quit thinking of the farm surplus problem in a negative way... we've got to quit thinking in a timid way."
(At Peoria, Ill.) further discussion by him of religion "would only keep the issue in the public mind."

They (Republicans) "would like the people to believe that in a time of danger it would be hazardous to change party administrations. I think it would be hazardous not to change. I think it would be hazardous to continue four more years of stagnation at home and abroad..."

"The only basic issue in this 1960 presidential campaign is whether our government will fall into the conservative rut of dying without daring or whether we will move ahead in the liberal spirit of daring and doing."

Medical aid plan for the aged signed into law Tuesday is "an important step forward (but) only that — a forward step. Beyond the reach of this measure are needs still unfulfilled. It is not enough to assist in this area only after disaster strikes."

Vice President Richard M. Nixon is "fighting a rear guard action against the 20th Century."

HUKS RENEW ATTACKS
MANILA (UPI) — Lt. Gen. Manuel Cabal, Philippine army chief of staff, said Wednesday night there are "very strong indications" of a renewal of open warfare by Communist Huk guerrillas. The Huks have killed 13 persons in the past two months.

Vice President Richard M. Nixon: (At Grand Forks, N.D.): "We must never forget — there is no greater asset in the struggle with the forces of slavery than the tremendous productivity of America's farmers."
