

Skepticism Discounted—

Experts Say Space Conquered

LONDON (UPI) — Prominent Western scientists saw no reason today to doubt that the Russian man-in-space flight took place Wednesday as Moscow announced, despite skepticisms expressed in some circles.

"I think those who are skeptical are guilty of sour grapes," said Sir Bernard Lovell, head of Britain's famed Jodrell Bank radio telescope.

He said the Russians "have been known to withhold information but never to falsify it." If already been made. But the Western observers said they were convinced it was made Wednesday just as the Soviets said and in the same manner as announced.

U.S. officials and scientists also appeared to have accepted the Soviet account at face value. The White House said American experts tracked the space vehicle throughout its flight.

Three London newspapers published stories this morning expressing doubt that Gagarin's flight happened just as the Russians said it did.

U.S. Solons May Demand Speed On Space Projects

Soviet Success In Man Flight Prompts Action

WASHINGTON (UPI) — The House Space Committee summoned the nation's top space experts today to ask whether they shouldn't start working overtime in the shadow of the Russian cosmonaut.

Wife Didn't Know About Space Trip

MOSCOW (UPI) — The wife of Yuri Gagarin, the world's first space voyager, had no idea he was in orbit until a neighbor ran into their apartment and told her about his epic feat.

"I knew Yuri was preparing for an important assignment," Mrs. Valentina Gagarin told a Russian reporter Wednesday, "but he was afraid to upset me. This morning a neighbor—all joy and excitement — rushed in and told me to switch on the radio, which was transmitting the news about Yuri."

The 27-year-old Soviet air Force major's first trip outside Russia turned out to be a history-making event — literally "out of this world."

Valentina listened all morning to the radio announcements of her husband's voyage. Neighbors dropped in to give the nervous wife cups of hot tea.

When news of her husband's safe landing was broadcast, Valentina grabbed her mother, who also lives in the apartment, kissed and hugged her joyously.

Still trembling from the excitement, the spaceman's wife happily watched pictures of her husband being flashed on the television screen.

Mrs. Gagarin, a 28-year-old mother of two girls, Yelena, 2, and Galya, one month, was described by the Soviet news agency Tass as a "simple, modest young woman of medium height."

The couple live on the fifth floor of a new concrete apartment house in a special housing development for test pilots on the outskirts of Moscow.

Murchison Home Robbed Of Gems

DALLAS (UPI) — Dallas police today probed for clues in the \$95,433 jewel robbery at multimillionaire Clint Murchison's rambling ranch — style mansion.

The robbery was discovered Wednesday when the Murchisons returned home from a weekend trip. Burglars had slipped into the house and broken open a jewel chest located in a hall closet.

He told investigators he didn't know exactly how much the missing jewels were worth, but the company which had insured them placed the value at \$95,433.

Captives In Congo Basis Of Dispute

ELISABETHVILLE, The Congo (UPI) — A refusal to release 30 white mercenaries captured earlier this week today threatened to touch off a new crisis between the Katanga government and the United Nations.

U.N. civilian chief, George Dumontet, rejected a Katanga demand for the freeing of the mercenaries, saying he had no power to order their release.

U. N. sources said unofficially Wednesday that Secretary General Dag Hammarskjold may make a "serious example" of the prisoners.

Let us show you how to get more miles from your tires. Our address is 411 S. Cuyler, Pampa Safety Lane, MO 5-5771. Adv.

Trip To Moon Not Far Off, Russian Says

MOSCOW (UPI) — Soviet doctors put spaceman Yuri Gagarin through a series of careful medical tests today before letting him return to Moscow for a tumultuous hero's welcome.

The 27-year-old cosmonaut, exultant over his successful 108-minute whirl around the earth at better than 17,900 miles an hour, confidently predicted bigger and better Russian space feats to come.

"I think the time is not far off when we shall be able to carry out a flight to the moon, Mars and other areas of the vast outer space," he told the editors of Izvestia and Pravda by telephone.

"This will take place, probably sooner than we think," Soviet scientists A.I. Sternfeld told Moscow Radio that the next step in the Russian space program may be construction of a space station.

"Now we are sure that cosmic rocket dromes can be built near the earth," he said.

He said they might be constructed from the huge empty fuel tanks of carrier rockets.

A restricted number of Soviet scientists and journalists knew where Gagarin was being examined but they kept it to themselves, as well as the sites where his space ship took off and landed Wednesday.

The chief Soviet news outlets—Tass agency, Moscow Radio, and the newspapers Izvestia and Pravda—all reported Gagarin was in excellent shape when he stepped from his space capsule.

Izvestia, the official government newspaper, reported Gagarin got out of the five-ton capsule under his own power after the landing and walked to meet the team of scientists on hand to greet him.

The newspaper said he hugged an old friend good naturedly and practically wrestled with him for joy.

As had been predicted, the first manned orbit of the earth was at a relatively low altitude—below 200 miles at its highest point—to avoid dangerous belts of radiation farther out.

Nevertheless, scientists would want to put earth's first spaceman through exhaustive medical and psychological tests to determine what if any after-effects he might have suffered.

Alexander Topchiev, vice president of the Soviet Academy of Sciences, told two Western reporters Wednesday that the date of the

Fears Expressed Reds Can Orbit Atomic Weapons

WASHINGTON (UPI)—Lawmakers today expressed fear that Russia could put atomic weapons into orbit to be brought down at will, like Yuri Gagarin was.

Congressional military experts said they saw the Soviet manned space flight as a step toward a potent new space weapons system.

Chairman John C. Stennis, D-Miss., of the Senate preparedness subcommittee suggested that if a man can be orbited and recalled to a specific spot on command, "it can be done with a weapon— with a whole lot of weapons, simultaneously."

Stennis said he didn't want to scare anyone, but suggested consideration be given to the "psychological impact" and strategic position of a nation beneath orbiting weapons.

But Chairman Richard B. Russell, D-Ga., of the Senate Armed Services Committee said the military implications are not so significant as the implications for space exploration.

He agreed, though, that it could be a step toward developing a "so-called platform system — or even a base on the moon."

He noted that "some of our own advanced planners have been talking about planetary platforms, or even using the moon for a military base." He said the nation possessing either would have a "tremendous advantage" in nuclear war.

Sen. Henry M. Jackson, D-Wash., said "this may well cause immediate consideration of construction of an anti-satellite missile system. This could be achieved fairly rapidly." He did not elaborate.

In heavily censored testimony before the preparedness subcommittee Tuesday, Air Force Chief Thomas D. White said the "Soviets could launch a large space platform — truly a major rung in the achievement of effective space platforms."

Warm spring weather spread through Texas today but another Pacific cold front aimed at the Panhandle and South Plains.

In the extreme southwest, gusting winds up to 50 miles per hour today.

Pampa was under high clouds today. Winds from the southwest were expected to vary from 25 to 40 miles an hour this afternoon with blowing dust probable. Visibility may drop to one-half mile. Tonight will be partly cloudy with shifting winds.

Clearing will start tonight. Friday will be cooler. High today is expected to be 78, low tonight, 38, and the high tomorrow, 60.

whipped up a dust storm that was expected to continue through the day. Strong winds in the north-west were expected to stir dust in that area later tonight and Friday.

The front was expected to drive into the northwestern portion of the state Friday, pushing more cloudiness and scattered thunder showers through the rest of Texas.

Texas Solons Told Sales Tax Fair Revenue Method

AUSTIN (UPI) — A bill to make the University of Houston the 20th state-supported institution of higher learning in Texas was ready today for floor action with the unanimous blessing of the House State Affairs Committee.

The subcommittee version of the bill made one change adopted by the group — it made the bill effective in 1963 instead of this year.

The committee reported the bill out favorably Wednesday night.

Dedication Rites Of Youth Center Slated April 30

The dedication program originally scheduled for Sunday afternoon at Pampa's new Youth and Community Center has been postponed for two weeks until Sunday, April 30.

Announcement of the postponement came after a meeting late yesterday afternoon of the Center's board of directors in the Center conference room.

Joe Donaldson, board president, said decision to postpone the opening came when it was learned it would be impossible to complete tile work around the swimming pool and complete installation of interior decorations in time for dedication Sunday.

Doug Halley, director of the Center, said today there had been some delays and the tile work would not be finished until the first of the week. He said it requires seven days to set.

"We decided it would be better all the way around to postpone the dedication for two weeks," Dr. Donaldson said.

The program set for Sunday, he stated, will be carried out in its entirety on Sunday, April 30.

Civil War Group Concludes Session

CHARLESTON, S.C. (UPI) — The Civil War Centennial's fourth national assembly ended Wednesday night with a re-enactment of the firing on Ft. Sumter by the Confederacy.

About 10,000 persons attended the ceremony in near gale force winds which sprayed salt water over the assembled participants.

U.S. Will Shun Military Action Against Castro

WASHINGTON (UPI) — President Kennedy is determined to keep the United States from being involved in any military action against the Castro regime in Cuba.

The President told his news conference yesterday that he would oppose any effort by anti-Castro forces to use this country as a base or an invasion of Cuba.

He also said there would be no U.S. armed intervention in Cuba under any circumstances and the U.S. government would try to make sure American citizens were not involved in any military action on the island.

Democracy False, Dictator Asserts

HAVANA (UPI) — Premier Fidel Castro denounced democracy as "a laxative, a lie and a falsity" in a rambling disconnected speech early today.

Castro said Russia's "man in space" flight proved the superiority of the Communist system over its "imperialist" rivals. (See U.S. WILL, Page 4)

Fliers Quit Simulated Space Cabin

SAN ANTONIO, Tex. (UPI) — Two Air Force jet pilots walked out of an 8 by 12-foot simulated space cabin today after spending a month living in conditions a man in space would encounter.

Capt. Ramon A. Horinek, 28, of Atwood, Kan., and 1st Lt. Gene Carlson, 27, of Fargo, N.D., became the second pair of Air Force pilots to stay in the steel chamber a month.

Their wives met them excitedly and they were shown pictures of the world's first real spaceman, Yuri Gagarin of the Soviet Union.

Carlson said, "We've got to take out hats off to them. But with the proper indoctrination, I would be happy to do the same thing."

Capt. Thomas E. Morgan Jr., chief of the sealed environment section at the Air Force School of Aviation Medicine at Brooks Air Force Base, said the experiment "came off very well."

If it comes from a hardware store we have it. Lewis Hdw.

**Letter Reveals
GOP Sentiment
On School Aid**

WASHINGTON (UPI)—There is a long and fact-filled letter in Republican National Committee files that would help Republican members of Congress make up their minds on party policy toward President Kennedy's school aid bill.

It would help them make up their minds that the Republican party is against it. The letter was written to Sen. Thurston B. Morton, R-Ky., in his capacity as party chairman. The author was Dr. Ernest L. Wilkinson, president of Utah's Brigham Young University.

Dr. Wilkinson was vice chairman of a resolutions subcommittee which considered federal aid to schools during the Republican national convention last July. Sen. Gordon Allott, R-Colo., was chairman of the subcommittee.

Wilkinson reminded Morton that the subcommittee voted 7-4 against any federal aid. He implied that the subcommittee's point of view was denied a fair hearing before the full resolutions committee and by the convention itself.

Moreover, Dr. Wilkinson, himself an educator, holds that federal aid to schools is dangerous and useless nonsense. He offers facts and figures in support of his point of view. These seem to be sufficiently solid to warrant discussion, refutation or proof by interested members of Congress.

So distressed were Dr. Wilkinson and some other members of his subcommittee by the maneuvers of Allott and others to commit the Republican party to federal aid, that they decided to poll all convention delegates. Dr. Wilkinson reported to Morton the poll results.

Of the 1,331 delegates to the Republican national convention, 840 responded to the poll, more than 63 per cent. Dr. Wilkinson wrote to Morton:

"These (840) replies show that only 3 per cent favored and 96 per cent were against federal aid to school teachers' salaries (1 per cent not voting); that only 18 per cent favored and 81 per cent opposed federal aid for school construction (1 per cent not voting). Of even greater significance is the fact that the majority of responding delegates in every state voted decisively against both federal aid for teachers' salaries and school construction."

Dr. Wilkinson said the ballots were intact and were available for inspection and audit. He alleged two basic objections to the Kennedy administration program:

—Neither schools nor teachers need federal aid, because local communities can deal with the diminishing problems.

—The federal treasury cannot afford the proposed spending.

**Widow Of Flier
Seeks \$250,000**

AKRON, Ohio (UPI)—The Goodyear Aircraft Corp. and Goodyear Tire and Rubber Co. Tuesday were named in a \$250,000 damage suit filed by the widow of an Air Force pilot killed nearly two years ago.

Mrs. Anita Carter Wallace, Greenville, Tex., in her suit, contended her husband, Malcolm, was killed when Goodyear's "In-Plane" broke, deflated and disintegrated over Wingfoot Lake in Portage County, Ohio, June 5, 1959.

"If he wasn't a general I'd tell him to sit down. He's rocking the boat!"

Walter Rogers Reports

Tourists Throng Capital; Solon Sees Good In Travel

The advent of spring in the Capital City has always marked the beginning of trips to Washington by thousands of people throughout this country as well as many people from overseas. Many of them come in the first days of spring in order to attend the annual Cherry Blossom Festival. It is so named because of the Japanese Cherry Blossom Trees that were planted around the Tidal Basin many years ago by the Japanese Ambassador.

These blossoms are beautiful and everyone should make an effort to visit Washington at a time when they can see and enjoy this beauty of nature. In fact, it seems that everyone has made arrangements to be here this spring. I don't think I have ever seen as many tourists at this time of year. It forewarns that there will be greatly increased numbers as spring moves into summer.

There are busloads of high school students from almost every corner of the United States. There are thousands upon thousands of adults coming to Washington in chartered buses, either as private parties or as conventioners. Added to these are the thousands of visitors coming in by air, rail and by private car. The increased number is easily discernible by one who must be in traffic each day such as myself. Usually about this time of year, you will note an increase in traffic outside of the usually congested traffic hours around 8 a.m. and 5 p.m.

This year there seems to be a constant traffic snarl from early in the morning until 9 or 10 at night. Until about two weeks ago, it was not difficult to travel around Washington—early in the morning, in the middle of the afternoon or at night. Early in the morning it was very easy to get to work. However, now it requires about 50 minutes for me to drive from my house to the Capitol—a distance of approximately 10 miles.

It is wonderful to see so many people coming to the Nation's Capital to see the many historical landmarks, to visit in the Capitol building, to go into the different Congressional and Senatorial offices, to watch the House of Representatives and Senate in action, attend committee hearings, visit the White House and the Supreme Court, and witness at first hand what goes on in the Capital City of the greatest nation in history and the most powerful. The many places of interest in and around Washington are easily accessible, and it is heartening to see so many people bringing their children here on vacation.

Tourism has always been a favorite pastime of Americans. In fact, it has been extended to the point that so many Americans were touring overseas and spending American dollars that it developed into a drain on our gold reserves. Certainly it is nice for those who can afford it to go across the seas and visit in foreign lands, but there are many, many places of great interest in this country, and it has been my hope that greater attention would be paid to visiting other sections of this country. This would help in many ways. It would enlighten the traveler as to both the merits and demerits of other sections of this great country. It would help to stabilize the economy because of the dollars spent, and it would afford a much-needed understanding between the people generally.

The people of the North would discover that the Southerners are much nicer people than they have been portrayed in some of the Northern newspapers, and vice versa. The Easterners would discover that the Westerners are alert, astute people of fine character, and not the type that would hold up a stage or shoot an Indian as might be concluded from

some of the TV programs. And the Westerners would discover that the Easterners are not nearly so effeminate as some of them have been led to believe. The people from the rural areas would discover that there are a good many wonderful people living in the cities and that all of them are not Communists or fellow travelers. The people in the cities would do well to discover that all farmers are not living off the fat of the land and driving fancy automobiles and maintaining stables of racing horses because of farm programs.

This country could do with some neighborly visiting among the different segments of our economy and our many peoples. It would pay great dividends in the future accomplishments of our nation.

There is presently a move on foot for the federal government to underwrite and finance a tourist program to get the nationals of other countries to visit this country. This plan has several purposes. One is to make it possible for these foreign nationals to see and feel and touch the United States of America and better understand what we are and what we believe. Another purpose is to attract foreign tourists in an effort to balance the amount of money that is spent by our own tourists in foreign countries.

This would, of course, stem the outflow of gold or at least balance it.

Almost all foreign countries consider tourism as a number one industry, and they spend a great sum to attract visitors to their countries. There is very little advertising by this country to get foreign visitors. It might also be pointed out that this country has much stricter laws, rules and regulations concerning the entry of foreigners than most any other country in the world.

There is quite a bit of opposition to these proposals. The opposition is based upon different reasons. However, the argument that seems to be most pronounced is that this government should not spend public money to promote the opening up of our borders and making it possible for infiltration of subversives. Many feel that to relax the rigid laws and regulations applying to incoming aliens would be to provide an avenue for those who would infiltrate our country for the purpose of helping to destroy it. Others feel that people engaged in the travel business should foot the bills for getting others to visit our country, because those travel businesses will be the ones who profit by such travel.

Whatever happens, I am sure that the human being will not lose his desire to visit around. Ma has been described as a migratory animal or, as some people put it, "We all have a little gypsy in us." However it is put, it means that most everyone likes to travel.

Air Force Blasts Rocket Into Space

CAPE CANAVERAL (UPI) — The Air Force fired a Blue Scout rocket into space yesterday seeking information for a radiation "roadmap"—that pay off in a new system for detecting high-altitude nuclear tests.

The pencil-shaped "poor man's rocket" so called because of its comparatively cheap \$750,000 price tag, roared from its launching pad at 1:10 a.m. est with a 385-pound package of sensitive instruments in its nose.

The Blue Scout aimed its payload on a path designed to take it 1,200 miles into space, well into the heart of a high-intensity band of earth-circling radiation known as the "Lower Van Allen Belt."

Plains Presbyterian Convenes For Two-Day Spring Meeting

Registration for the Plains Presbyterian two-day meeting began today at 9 a.m. in the First Presbyterian Church. "Living As the Community of the Reconciled" is the theme to be carried out with women from approximately 27 churches in this area in attendance.

Dr. Ivanoeel Gibbins, missionary to India, was guest speaker at the morning session, which was conducted by Mrs. J. T. Nichols of Tulsa, Plains Presbyterian president. Dr. Gibbins will address the group again tonight and at the Friday morning session.

This morning's activities included consecration and installation of Presbyterian officers conducted by Mrs. James Frank Travis of Plainview.

The afternoon session opened with Mrs. James Joiner of Littlefield giving the Miss on Book of Prayer. Departmental meetings, preparation and dedication for the national meeting comprised the afternoon's agenda, which concluded at 4:30 p.m.

This evening's service will open at 7 p.m. with Mrs. J. T. Nichols presiding at the worship service. "Ecumenical Mission in a Changing World" will be the topic to be discussed by Dr. Gibbins. The Rev. Ronald Hubbard, past pastor, will direct the Communion Service during the evening hour.

The Friday morning session will open at 9 a.m. and adjourn at 11 a.m. During the two hour meet-

DR. IVANOEL GIBBINS ... of Punjab, India

ing, Dr. Gibbins will speak to the group on "Meet My Friends" followed by the Challenge and Dedication directed by Mrs. J. T. Nichols, outgoing president.

Advisors for the Plains Presbyterian are the Rev. Raymond Burns of Littlefield and the Rev. I. O. Woodall of Amarillo. Miss Mildred Hulsey of Tulsa serves the Presbytery as secretary and Mrs. John Nutting is president of the local women's association.

A nursery for small children is being provided during the two day meeting and all interested women are welcome to attend.

Automatic Change Machine Is Looted

Looting of automatic change machines in Pampa laundromats continues, police said today.

The third case in as many nights was reported to police with the robbing of a changer at 1812 Alcock St., reported by owner P. F. Blankenburg of Lefors.

Blankenburg said the thief or thieves got \$21 this time. In each case the money has been removed without any damage to the changers.

● Moon

(Continued From Page 1) ing scientists on to ground that everything was operating normally and that he was going through the experience of weightlessness well. He reported a could see "everything," including patches of cloud cover, but did not provide a graphic word picture of just what the earth looked like from that height.

Presumably such details will be published later, along with a medical report.

● Solons

(Continued From Page 1) ence Wednesday he didn't think the fact Russia has put the first man into orbit "is a sign of the weakening of the free world." The President said it would take "some time" for the United States to catch up with Russia. He said Soviet development of big booster rockets had given Russia the lead, but this country was moving ahead with its own man-in-space program.

The space committee, increasingly dissatisfied with the U.S. space program, summoned four officials from the National Aeronautics and Space Administration (NASA).

Called to testify were NASA Administrator James E. Webb and his deputy, Dr. Hugh L. Dryden. They were invited to give their "views and impressions" on the Soviet feat.

The committee also called George M. Low, chief of the NASA manned space flight department, and NASA business director Albert F. Siepert to talk about the \$1.5 billion budget proposal for the agency.

Rep. James G. Fulton of Pennsylvania, ranking GOP member of the committee, said it was time NASA started working beyond the 40-hour week.

Fulton said the United States was lagging in the space field because of its "Old Mother Hubbard" approach.

He said the program had been delayed by "literally millions and millions of tests and experiments." He said the nation would face up to an increased space budget and more overtime for scientists.

Fulton said he was "darned tired" of seeing the United States finish second in space.

Kennedy said that "however tired anybody may be, and no one is more tired than I am, it is a fact that it is going to take some time" to match Russia's feat.

Experts have estimated the United States won't put a man in orbit before late this year or possibly early in 1962.

Seven Killed In Accident

OPELOUSAS, La. (UPI)—Five-year-old Tena Andrus remained in serious condition today, unaware that her sister and six other relatives were killed in a car-train collision on the outskirts of town. State police said the driver of the car, Mrs. Charles Bernard, 30, apparently did not hear the Missouri-Pacific passenger train as she approached the deserted crossing Wednesday.

The train, moving slowly, dragged the car about 50 yards. The impact threw the occupants from the vehicle. The dead were identified as Walter Andrus, 63, and his 61-year-old wife, and Mrs. Bernard's three children, Charles, 5, David, 3, and Mark 2, and Joanne Andrus, 3, a grandchild of the Andrus couple. Mrs. Bernard was the daughter of Mr. and Mrs. Andrus. All lived in Opelousas.

Jet Fighter Pilot Killed In Crash

SHERMAN, Tex. (UPI)—An Air Force F102 jet fighter plane crashed shortly after takeoff Wednesday night from Perrin Air Force Base, killing the pilot.

The pilot, 1st Lt. Donald E. Saunders Jr., 23, of Birmingham, Ala., radioed the tower he was having difficulty with the craft's hydraulic system and was returning to the base. He crashed about a quarter-mile from a runway.

● U.S. Will

(Continued From Page 1) "U. S. industry lost not so much as a single screw during the war, but today, after 15 years, it is producing at only one-third of its capacity," he said. "The only U. S. industry going full blast is chewing-gum manufacture."

"Russia had 20 million persons killed and its industry was devastated, but today that nation put the first man in space. This belies some of the alleged marvels of imperialism, which is based on exploitation and colonialization."

"Representative democracy as proclaimed by the monopolies is a laxative, a lie and a falsity."

● Texas

(Continued From Page 1) Sealy, Midland attorney leading the "Citizens for a Sales Tax," who told the group a sales tax amendment to the bill would be the fairest answer to the state's money problems.

"The sales tax raises the money because it taxes everybody a little bit," Sealy said. "Another fair thing is the more you spend the more you pay."

After a three-hour appearance by Sealy, the committee recessed the hearing until Monday. The house bill is sponsored by Rep. Charles Ballman of Borger, who said it would raise \$43 million in two years.

Ballman's bill, designed as a loophole bill to plug gaps in the current tax structure, is broad enough for other tax bills to become amendments.

Concern Shown By Eichmann; Trial In Recess

JERUSALEM (UPI)—Adolf Eichmann is beginning to fret.

Two solid days of legal oratory—words which he probably doesn't comprehend but which might mean life or death to him—have made him nervous and fidgety. They didn't operate this way in Adolf Hitler's SS Corps. U. S. issued an order and got some action. Here the voices drone on about such matters as Blackstone's legal commentaries and involved verdicts handed down in law courts long ago and far away.

Eichmann has a nagging cold, and gradually the picture of the Prussian officer disappeared. Instead, was a thin man of medium height sitting in a bullet-proof box, sneezing and blowing his nose. He took off his horn-rimmed glasses and polished them. He fiddled with the earphones through which he gets a German translation of the proceedings. He scribbled notes to his lawyer.

He gave every appearance of a man who is stuck at the head table of a banquet and has resigned himself to sitting through to the bitter end the endless oratory of the evening's principal speaker.

Eichmann gets some surcease today. His trial is in adjournment until Friday morning because this is "Holocaust Day," commemorating the deaths of millions of Jews at the hands of the Nazis.

Rotary Observes Insurance Week

Insurance Week was observed by the Pampa Rotary Club at its regular noonday meeting yesterday.

Charles O. Clark Jr., general manager of the Amarillo office of the New York Life Insurance Co., was the speaker.

Guests of the club included Johnnie O'Neal, W. J. Cruckenberg, Art Holland, William Newlin, Roy Bassett, Dan Mitchell and Toby Gilbreath.

Visiting Rotarians were Frank Walther, Leon Cizon, C. A. Ray and Pinky Vineyard.

Boy Scout Group To Meet Tonight

The Boy Scout Commissioners of the Santa Fe District will hold their regular monthly meeting tonight in the City Commission room of City Hall, starting at 7:30 o'clock, according to Dr. George Snell, district commissioner.

In addition to the regular business, commissioners will be briefed to launch out on summertime activities promotion. Cub packs will be urged to have outdoor pack meetings during June, July and August. Boy Scout troops will be urged to attend the District Camporee, May 5-6, and spend a week in Camp Kioka during June or July. Explorer units will be urged to take a tour along vocational or historical lines.

President May Come To Texas To Aid Blakely

WASHINGTON (UPI)—President Kennedy may come to Texas to help interim U.S. Sen. William A. Blakely campaign against a Republican opponent in a special runoff election for the Senate seat vacated by Vice President Lyndon Johnson.

The president said Wednesday he would do what he could if he were asked to help in the campaign. But he said he thought Texans could choose a Senator without outside advice.

Earlier, former Vice President Richard Nixon told John Tower, Blakely's Republican opponent, he would come to Texas and help campaign only if Blakely brought in outside help.

BRIDGE UNDER CONSTRUCTION — This is the Duncan Street bridge, or what is left of it, as wrecking crews prepare the area for a new 60 by 57-foot span. Garrett Construction Co. of Lubbock announced completion date is scheduled in June. The new structure will be of steel and concrete. Meantime northbound traffic is detoured west around Central park to Georgia St. thence to Duncan. Southbound traffic will travel west on Georgia to Sunset Dr. to Duncan. (Daily News Photo)

Ella Fitzgerald, Ray Charles Win 'Grammy' Honors

BEVERLY HILLS, Calif. (UPI)—Ella Fitzgerald and Ray Charles won the top vocal awards at the third annual Grammy awards dinner Wednesday night of the National Academy of Recording Arts and Sciences.

Miss Fitzgerald, veteran Negro singing star won the female singer record and album awards in which she featured the song "Mack The Knife." Her winning album was called "Ella in Berlin."

Charles, a young Negro who came into his own with his singing of "Georgia on My Mind," was awarded the best single record Grammy for that hit and took the best vocal male album award for the album "Genius of Ray Charles."

The record of the year award went to the song "A Summer Place" from the movie by that name. The album of the year award went to comic Bob Newhart's "Button Down Mind."

Makes Polio Appeal

WASHINGTON (UPI)—President Kennedy has appealed to parents to get polio vaccinations for their children. The President opened his news conference yesterday by noting the day marked the 16th anniversary of the death of President Franklin D. Roosevelt, who was a polio victim as a young man. He said more than 90 million Americans had received the Salk vaccine, but 80 million, including 4.8 million children, had not.

Groom Baptists Holding Revival

GROOM (Sp) — The annual spring revival meeting will continue through Sunday in the First Baptist Church, Rev. J. Walter Davis, pastor has announced.

Evangelist will be the Rev. Leon Hill, pastor of Hollywood Baptist Chapel in Amarillo.

Joe Whiten, director of music and youth activities at the First Baptist Church in Pampa will serve as music director for the revival services.

Services will be held twice daily with the morning service beginning at 7:15 o'clock and will end in time for school. The evening services will begin at 7:30.

Pampa Men Going To Scout Meeting

Five Pampa men will attend the annual regional meeting of the Boy Scouts to be held at the Rice Hotel in Houston, April 14-15. Pampa delegates will be Bob Curry, Arthur Smalley, Charles Beard, Brantly Hudson, and Jay Leath. The Adobe Walls Council has 12 other delegates to the meeting from other parts of the council area.

The regional meeting is for representatives from all councils in Texas, Oklahoma, and New Mexico. Some 500 representatives are expected to attend the annual meeting. Speakers at the conference will include Ellsworth Augustus, national president of the Boy Scouts; Howard Tellespen, chairman of Region Nine, Joseph Brunton, chief scout executive.

Macmillan Flies Home

LONDON (UPI)—Prime Minister Harold Macmillan flew back to London Wednesday night from his visits to the West Indies, the United States and Canada. He had nothing to say about his meetings with President Kennedy and Canadian Prime Minister John Diefenbaker or about Russia's latest space triumph.

Polish Immigrant Faces Spy Charges

MONTREAL (UPI)—Royal Canadian Mounted Police today prepared an espionage case against Tomasz Biernacki, a 37-year-old Polish immigrant arrested on a spy charge with "a ticket to Poland" in his pocket.

Biernacki, described by his local employer as a "brilliant hydraulics engineer," was arrested Monday on charges of spying for a foreign power. Judge Paul Hurteau refused bail and set a preliminary hearing for April 18.

Although the foreign power was not named, a reliable source said Biernacki was suspected of supplying drawings, plans and documents to Russia between May 18 last year and his arrest Saturday.

Actress Gets Divorce

LOS ANGELES (UPI)—Actress Yvette Vickers, 31, was granted a divorce Wednesday from her husband when she testified he awakened her one night shortly after they married and said she wasn't worthy of him. Miss Vickers did not request alimony from freelance writer Leonard Burns, 37, whom she married June 13, 1959. She said they separated Aug. 10, 1959.

Senators Debate Proposal To Hike Minimum Wages

WASHINGTON (UPI)—The Senate opened debate today on President Kennedy's \$1.25-an-hour minimum wage bill. Kennedy's Senate chiefs faced a battle against conservatives who want to trim the increase in the present \$1-an-hour federal wage floor and limit the number of new workers brought under the law's coverage.

Sen. Pat McNamara, D-Mich., sponsor of the Kennedy-backed minimum wage bill, predicted it would pass Congress. The measure would provide gradual hikes to \$1.25 for 22.3 million workers already covered and extend protection to 4.1 million additional mostly in retail and service establishments.

But conservatives, whose House brethren succeeded in passing a sharply curtailed version of the President's request have warned they would try to cut down the Senate measure.

Other congressional news:

Housing: The AFL-CIO called for large boosts in the long-range housing program recommended by Kennedy. The labor organization forecast tragic consequences if the nation failed to build many more homes than ever before. It said urban renewal grants should be increased from Kennedy's proposed \$2.5 billion in four years to \$6.25 billion in 10 years.

Prices: Chairman Estes Kefauver of the Senate antitrust subcommittee opened hearings into the nation's largest price-fixing conspiracy. The Tennessee Democrat said witnesses from eight electrical equipment firms would be asked whether higher-ups condoned price rigging.

Delinquency: The Senate Wednesday passed and sent to the House a bill authorizing a four-year, \$20 million battle against juvenile delinquency. The measure would authorize \$2.5 million a year to develop crime control techniques and another \$2.5 million annually to help states and communities train personnel to work with juvenile lawbreakers.

HOLLYWOOD (UPI) — Jean Kerr's new play, "Mary, Mary," has been acquired for filming by Warner Bros. Miss Kerr is author of the books "Please Don't Eat the Daisies" and "The Snake Has All the Lines."

FIRST TO BENEFIT — Robert Rouston of Amarillo, Tex., has a pleased expression on his young face at the Children's Medical Center in Dallas after he became the first patient to benefit from new electronic equipment to look into the heart. Robert is holding the tube that doctors used to reach into his heart to provide them with information that will help in later open-heart surgery.

Cook's Crude Message Tells Of FDR's Death

WARM SPRINGS, Ga. (UPI)—Daisy Bonner cook the first meal and the last one in this cottage for the President Roosevelt.

The simple eloquence of that message, scrawled on the wall of the building, tells the world of the sorrow and pride of the late Daisy Bonner.

Daisy was a rotund Negroess who cooked for Franklin Delano Roosevelt whenever he stayed at the cottage in his beloved Warm Springs. She prepared all his meals, including the last one 16 years ago today.

The crude scrawl, carefully preserved with a plastic covering, was penciled on the kitchen wall by the heartbroken Daisy when she learned her beloved President had died.

In the archives at the Warm Springs Foundation is the account of the death of the President as told by the usually jolly woman whose delight was joking with the great man and preparing his food.

The account explains that Roosevelt's diet called for a serving of oatmeal about 15 minutes before lunch. It then paraphrases Daisy Bonner's simple story of his death.

"The President was seated in his armchair in the living room, his back to the windows, and to the left of the stone fireplace.

"The oatmeal was served and while he was partaking of it or about to do so he complained of having a severe headache. Alarmed at this, his attendants pushed the armchair a short distance toward the door of his bedroom and then carried him through the door and laid him on his bed.

"He died at 3:45 p.m.

HOLLYWOOD (UPI) — TV actor Clint Walker has an unusual new hobby.

The star of the "Cheyenne" series has become a devotee of microphotography which magnifies many-fold the smallest objects.

Republican Form Of Government Stoutly Defended

SANTA BARBARA, Calif. (UPI)—Robert Welch, founder of the John Birch Society, ran into heckling from university students Wednesday night when he said Chief Justice Earl Warren should be ousted.

Welch, a retired Belmont, Mass., candymaker, spoke before a capacity crowd of 1,000 at the San Marcos High School auditorium. About 200 of the listeners were students from the University of California at Santa Barbara.

The students expressed their displeasure with boos, hisses, and snickers when Welch praised such figures as the late Sens. Joseph R. McCarthy and Robert A. Taft.

While students booed, another and larger segment of older people applauded vigorously each time Welch mentioned these names.

Welch engaged in a heated exchange with Charles Porter, 21-year-old, political science major, on the question of "front organizations."

Porter asked Welch whether the Birch Society used fronts to achieve its ends.

Welch said, "Of course we advocate front organizations. There is nothing immoral about fronts. What may be immoral is the purpose of the fronts."

Porter then started to interrupt and Welch said, "Will you sit down and I will answer your question."

Welch said the society has used fronts in some cases but added, "Some Communist fronts have different purposes from what they are set up for."

In his first reaction to a question about Warren, Welch said, "I don't like him. He has taken the lead in a long continued conversion of this republic into a democracy. The difference is vital. There is nothing our founding fathers hated worse than a democracy. The word democracy is not even mentioned in the Constitution."

(Webster defines a republic as: "A state in which the sovereign power resides in a certain body of people and is exercised by representatives elected by, and responsible to them.")

(A democracy is defined as: "Government by the people, government in which the supreme power is retained by the people and exercised either directly or indirectly through a system of representation.")

SUCKER SIGNALS

There is no sorer person than one who has been victimized by a phony deal. Unfortunately, once the buyer has signed an order or contract, little can be done to get him off the hook. "But I didn't realize..." are words often heard by lawyers who are usually unable to help at that point.

Despite the complete disavowance of "caveat emptor" (let the buyer beware) by ethical merchants, there are still some businesses that thrive on high promotion deals. Buyers are contacted by direct mail over the telephone, or by "come on" advertisements. These contracts all resort to fancy claims and a high pressure approach.

How can you avoid such sales tactics? There is no sure way, outside of dealing with reputable, established merchants, and using common sense in reading the ads. But there are certain sucker signals that should ring the alarm bell. Here a few:

"Buy now or lose the chance."
"You have been specially selected."
"It's only a legal form."
"You can save up to..."
"Yours absolutely free."

These signals do not necessarily indicate a bad deal, but they are frequently used by shady promoters. So read carefully, think it over, compare prices, and ask for information from a merchant you know, or from a friend.

Remember, in this world of tough business competition, one seldom gets anything for nothing. Once you have signed an order, even the law may not be able to help you, no matter how improvident the deal may be for you. In fact, unless the seller is doing

something illegal, the law may wind up helping him to enforce the bad deal that you made. So watch the signals and look before you leap — or sign!

(This newsfeature prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised upon the facts involved, be-law.)

Popular with British HOLLYWOOD (UPI) — Rapidly rising TV and film actress Barbara Brown already is a popular singer in Britain. Barbara currently has the featured role in Hammer Films' "The Terror of the Tongs."

MOVE TO RUSSIA. COLUMBUS, Ohio (UPI) — The tempo of Secretary of State Ted W. Brown's office was upset recently when a Dayton firm reported it wanted to move its headquarters to Russia.

Activity returned to normal when they learned that this particular Russia is in Shelby County, Ohio.

Always economical, you now get the BEST BUY when you

SAVE MONEY ON BRER RABBIT SYRUP

SPECIAL new low price on larger economy sizes! Yes! Right now you can buy the finest of all syrups at a new low cost. This extra special price reduction is to introduce you to the larger sizes of Brer Rabbit Syrup. Pour it on pancakes, waffles, hot cakes. Presto! Its genuine ribbon cane flavor makes everything taste simply DE-LICIOUS!

No other syrup—at any price—tastes like Brer Rabbit Syrup. For a delicious, energy-giving snack, pour it on plain white "store" bread. Children love it!

3 STAR FAVORITE for your family, Brer Rabbit is:

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

In the administrative capital of Vientiane along the muddy Mekong River, life goes on as if there were no war less than 40 miles to the north.

Despite reports of fierce clashes, the war itself seems a haphazard affair involving a few pieces of artillery, some outmoded airplanes and sporadic clashes over such unlikely place names as Va Vieng, Phaom and the Plain of Jars.

In Vientiane, the saffron robes

of hundreds of Buddhist monks mingle with the drab uniforms of Laotian soldiers.

Along the banks of the Mekong, meandering now among sandbars in the dry season, Chinese merchants pull back their metal grills just after dawn to draw customers before the city dozes again in the hot midday sun.

There is no confusion, no soaring prices, no black market.

In this there seems significance.

Except for a minority on either side, neither the Western democracies nor the Communists have been able to export their opposing philosophies successfully to Laos.

The Communists would take it by conquest, using as their instru-

Apparently She Was No Graduate

Versatile Pork Chops Appear In Tasty Sauce

PORK CHOPS are a favorite with most families. Any way you cook them, they provide mighty good eating to suit any palate. These Piquant Pork Chops feature a sauce of mushrooms, tomatoes and tangy seasoning.

MENU

- Piquant Pork Chops
- Buttered Green Beans
- Lettuce Wedge Salad
- French Dressing
- Poppyseed Rolls
- Swiss Apple Pie
- Milk Coffee Tea

Here's a pork chop dish to delight your family. The flavor and versatility of pork chops puts them on the "most wanted" list.

The fragrant aroma of the tangy seasonings will have your family asking when dinner will be ready. Piquant Pork Chops will definitely live up to their expectations.

Pork chops can be prepared in a relatively short cooking time. Those "one-hour-in-the-kitchen" menus are always in demand among busy homemakers. While your main dish is simmering, you'll have plenty of time to spend on the rest of the dinner.

Either rib or loin chops may be used. The loin chops can be distinguished from rib chops by the

"T"-shaped bone and the two muscles, one on either side of the bone. Rib chops have one large muscle with the rib bone on the outside edge.

Pork chops are best cooked by braising. The meat is first browned, then cooked slowly in a small amount of liquid in a tightly covered utensil. To intensify the browning, the chops are first dredged, in flour. Of course, the meat is always browned with low to moderate heat, since a slow brown will stay on the meat better during cooking. The juice from the tomatoes provides the cooking liquid for braising.

Slow cooking until the meat is well done best develops the rich flavor of pork chops. All ingredients are cooked with the meat, allowing the spices to create a "piquant" blend.

For a delicious gravy, thicken the sauce with the flour left over from dredging the chops. Serve the pork chops piping hot with the

pungent sauce spooned over the top.

The rest of the menu can be plain or fancy, as this dish can be dressed up or down for a variety of occasions. How about serving mashed potato swirls (That's mashed potatoes put through a pastry tube and broiled on toast rounds.

You can try pork chops with other toppings, too. Some like chops with fruit. Others prefer them cooked with onion rings or barbecue sauce. Any way you cook them, pork chops provide good eating to suit every palate.

PIQUANT PORK CHOPS

- 6 rib or loin pork chops, cut 3/4 to 1 inch thick
- 1/4 cup flour
- 2 tablespoons lard or drippings
- 1/2 teaspoon pepper
- 1 small clove garlic, minced
- 1 can (10 ounces) tomatoes
- 1/4 teaspoon rosemary
- 1/4 cup chopped onion
- 1 can (3 ounces) sliced mushrooms, drained
- 1 tablespoon chopped parsley

Dredge chops in flour. Brown in lard or drippings. Pour off drippings. Add remaining ingredients. Cover tightly and simmer until done, approximately 45 minutes. Thicken sauce with flour left from dredging chops, if desired. 6 servings.

Food Page

Break Hop And Skip Breakfast Habit With Tasty, Aromatic Morning Menu

Hop, skip and jump breakfasts your family with a protein, fruit and honey platter, complete with house, but a return to a good old-time nutritious first meal of the day would be a good investment in health. It's worth a try even budget-wise.

Distributing the food budget more evenly throughout the three meals of the day pays dividends in a number of ways. Skipping or rushing breakfast so that one can beat the clock is a strain on the body, slows mental reactions and causes unnecessary fatigue. Breakfast should furnish 1/4 to 1/3 of the total food needs according to doctors and nutritionists.

The job of making breakfast so tempting and attractive that the family wants to eat it belongs to homemakers. There are many variation possibilities in the standard breakfast, so monotony need not be the chief complaint. If you fear you will gain weight when you want to lose, you are wrong. Because of the long overnight fast, your body uses the food you eat for energy, and does not store it as fat. Going without food for 18 hours naturally causes one to overeat at noon, or at midday snacks. So make your breakfast alluring with fruit, cereal, eggs, bread, butter, milk or coffee, or alternate which come as special treats. For an enticing special, tempt

CREAMED HONEY ON BROILED PEACHES

- 1 lb. link sausages
 - 6 canned peach halves
 - 1/2 lb. bacon
 - 6 teaspoons creamed honey
- Arrange sausages on broiler rack in unheated broiler, about 5 inches from heat. Broil 8 minutes turning frequently. Drain peaches thoroughly and arrange cut side up under broiler with a teaspoon of honey in each peach cup. Add a dash of cinnamon if desired. Place bacon on rack. Broil 5 to 7 minutes longer until meats are cooked and peaches lightly browned. Serve 6. Complete the brunch with hot biscuits, Honey Butter and beverage.

CREAMED HONEY IS FINELY CRYSTALLIZED HONEY OF CREAMY CONSISTENCY

- 1/2 cup butter
 - 1/2 to 1 cup honey
- Cream butter well. Add honey gradually. Beat thoroughly. Place in refrigerator. Also delicious on toast, hot breads, waffles, and for sandwich filling.

ORANGE HONEY BUTTER

- 1/2 cup butter
 - 1/2 to 1 cup honey
 - 1 teaspoon orange juice
 - a little grated orange rind
- Cream butter well. Add honey gradually. Beat thoroughly. Add orange juice and rind to mixture and blend thoroughly. Keep in refrigerator until ready to serve. For special meals make into fancy shape by using a butter mold.

Popular Duo For Special Occasion

That popular duo, liver and bacon, takes on a third partner, sliced tomatoes, in this interesting variation, suggested by Reba Staggs, home economist.

LIVER-TOMATO SPECIAL

- 3 slices bacon
- 1 pound beef liver, sliced 1/2 inch thick
- 2 tablespoons flour
- 1/2 teaspoon salt
- 1/4 teaspoon sage
- 1 egg, slightly beaten
- 2 tablespoons milk
- 2 medium tomatoes
- 1 tablespoon butter or margarine

Cook bacon until crisp. Remove from drippings, drain and cut each slice in half. Mix together flour, salt, pepper and sage. Cut liver into 6 pieces. Dip liver in seasoned flour, then in egg diluted with milk. Place liver in frying pan containing bacon drippings. Sprinkle any remaining flour over liver. Brown liver slowly on both sides.

LEFTOVER dishes can easily become as tasty as the original roast. You can create many exciting combinations, but here's a suggestion... top beef slices with onion sauce and serve on noodles.

Left-Overs Need Not Be Dull Repetition Of Other Meals

When planning a dinner menu, you naturally consider what foods you have on hand. Your refrigerator may have a dish or two of leftovers to offer.

A so-called leftover dish need not be a dull repetition of the same dish as the day before. With a bit of imagination, second-day meat dishes can be as interesting as the original roast.

Here's a savory second-day dish that's ready to eat in minutes... Beef Slices with Onion Sauce. Reba Staggs, meat expert, says this recipe is so versatile that you can use it for leftover slices of almost any kind of cooked sliceable meat.

The beef slices are heated with a sauce made with condensed onion soup and nippy horseradish sauce for flavor accent.

BEEF SLICES WITH ONION GRAVY

- 1 pound cooked beef slices
- 1/2 cup water
- 1 tablespoon cornstarch
- 2 tablespoons butter or margarine
- 1 teaspoon horseradish
- 1 can (10 1/2 ounces) condensed

Three Ingredients For Tasty Dessert

With only three ingredients you can whip up an ultra-refreshing mint sherbet-type dessert that's just-right for springtime menus. First place one 10-oz. jar (about 1 cup) mint jelly in a small bowl and beat until smooth. Chill 1 cup evaporated milk until icy cold, then whip until it is stiff and will hold a peak. Blend in 1/4 cup lemon juice and beat until very stiff. Fold in mint jelly. Turn into a 1-quart freezer tray and freeze. Makes 6 to 8 smoothly luscious servings.

Cut each tomato in three slices. Cook tomato in butter or margarine until each side is lightly browned and heated through. To serve, place a slice of tomato on each slice of liver and top each with a half slice of bacon. Yield: 4 to 6 servings.

Liver can be ground more easily by first lightly browning the slices in a small amount of lard or drippings.

Mint Flavor Adds Up To Springtime

Mint is the flavor that comes closest to the refreshing quality of spring so what better choice for a springtime cake than Mint Icing! Make it easily by placing 1-3 cup crushed peppermint stick candy, 2 tablespoons butter and 1-3 cup plus 1 tablespoon evaporated milk in the top of a double boiler. Heat over boiling water until candy is dissolved. Leaving mixture over hot water, sift 1 pound confectioners sugar and add to mixture about a third at a time, beating until smoothly blended after each addition. Leave icing over hot water while frosting cake. Frosts two 8-inch layers.

Time Saver

To save time when slicing meat in julienne-style pieces for leftover dishes, cut through several slices of meat at one time.

Broaden Food Experiences With Foreign Cookery Yet Never Leave Family Table

A simple and practical way to introduce young people and adults to a wide variety of nationality foods taste experiences is the integration of foreign cookery into familiar meal plans.

Foreign breads are legion in number and in style. The flours used, the spices and nuts and seeds and fruits incorporated into these breads give wide variation of flavor to enhance many a meal. We are printing a recipe for coffee cake, based on an American sweet roll recipe but baked in the Hungarian manner.

HUNGARIAN COFFEE CAKE

- 1/2 of sweet roll dough (recipe below)
 - 1/2 cup melted butter
 - 1 cup sugar
 - 1 teaspoon cinnamon
 - 1/2 cup finely chopped nuts
- Cut dough into pieces the size of walnuts. Form into balls and roll each ball in melted butter, then in a mixture of sugar, cinnamon, and nuts. Place one layer of balls so they barely touch in well greased 9-inch tube pan. Sprinkle with a few raisins. Add another layer of balls, sprinkle with more raisins, for apart rolls and coffee cake.

pressing them in slightly. Let rise 45 minutes. Heat oven to 375 degrees F. (quick moderate). Bake 35 to 40 minutes. To serve, break apart with two forks.

SWEET ROLL DOUGH

- 1/2 cup warm water (not hot)
- 110 degrees F. to 115 degrees F.)
- 2 packages active dry yeast
- 1 1/2 cups lukewarm milk
- 1/2 cup sugar
- 2 teaspoons salt
- 2 eggs
- 1/2 cup soft shortening
- 7 to 7 1/2 cups sifted all-purpose flour

In mixing bowl, dissolve yeast in water. Stir in milk, sugar and salt. Add eggs and shortening and half the flour; mix with spoon. Add rest of flour; mix with hand. Turn onto lightly floured board. Knead until smooth and blistered... about 5 minutes. Round up in greased bowl; bring greased side up. Cover with damp cloth. Let rise in a warm place (85 degrees F.) until double in bulk... 1 1/2 to 2 hours. Punch down; round up; let rise again until almost double in bulk... 30 to 45 minutes. Divide dough into desired rolls and coffee cake.

No-Bake Apple Pie Filling

For all job-holding homemakers and others, too, here's news from the Borden Kitchen about the new Magic Apple Pie. It's truly "magic" for only the crust needs baking. This magic apple pie is a cross between the well-loved traditional type and the kind made and served in areas around Boston. Like these delightful favorites, Magic Apple Pie starts with cooked apples. The processed apples are wedged to sweetened condensed milk and lemon juice and poured into a baked shell. The pie is then chilled well, topped with plain or cinnamon flavored whipped cream just before serving.

Magic Apple Pie

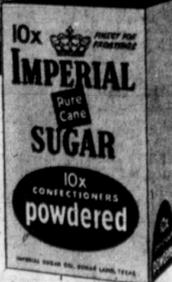

- 2 sticks (9-oz. package) pie crust mix
 - 1 (15-ounce) can Eagle Brand Sweetened Condensed Milk
 - 1/3 cup lemon juice
 - 2-1/2 cups cooked, sliced apples (one No. 2 can) processed apple slices
 - 1 teaspoon cinnamon
- Prepare pastry according to directions on package of pie crust mix. Roll out entire amount in the shape of a rectangle. Fit into a 8 x 12 1/2 x 2-inch baking dish. To prepare filling: Combine sweetened condensed milk and lemon juice stirring until mixture thickens. Fold in apples and cinnamon. Pour into cooled baked shell. Chill. If desired, garnish with whipped cream and sprinkle with cinnamon.

just mix and chill this No-Cook Strawberry Pie

NO-COOK STRAWBERRY PIE

- 1 1/2 cups fine vanilla wafer crumbs
- 1/2 cup melted butter
- 1/2 cup butter or margarine
- 1 1/2 cups sifted Imperial 10X Powdered Sugar
- 2 eggs, beaten
- 1 teaspoon vanilla
- 1 1/2 cups drained, sweetened strawberry slices, fresh or frozen
- 1 to 2 cups heavy cream, whipped

Mix all but 2 tablespoons crumbs with melted butter; press into buttered 9" pie pan; chill until firm. Cream butter and Imperial 10X Powdered Sugar; add beaten eggs and vanilla; beat until fluffy; spoon into crust. Fold strawberries (if frozen strawberries are used, thaw and drain first) into whipped cream and spread over first mixture in crust; sprinkle with remaining crumbs. Refrigerate until firm, about 8 hours.

Make it quicker, smoother with fluffy, fresh Imperial 10X Powdered Sugar

NO-COOK STRAWBERRY PIE is on Page 23 of Imperial's FREE COOKBOOK. 72 unusual recipes for pies, cakes, frostings, cookies and more for yours \$1.00.

Imperial Sugar Co., Dept. 4-48 Sugar Land, Texas

Texas Housewife Fights For Quiet On City's Street

HOUSTON, Tex. (UPI) — A determined Houston housewife is in the midst of a battle to keep noisy trucks from using the street in front of her home to transport material to a new housing development.

The latest tactic used by Mrs. W. E. Forbes, a small brunette, is to stand in the middle of the street as a one-woman road block.

In one of these encounters, the driver involved inched forward until the grill of the truck nudged Mrs. Forbes. He ordered, "Get out of my way or I'll run over you."

Mrs. Forbes countered with, "Over my dead body."

The trouble all started when the truckers started using quiet, horseshoe-shaped Rivercrest Drive as a shortcut to the construction project underway on the west edge of Houston.

Mrs. Forbes became spokesman for the neighborhood and complained to the city council. The council ordered "No Trucks Allowed" signs erected at the two entrances to the streets.

But drivers seemed to ignore the signs and used a portion of Rivercrest as their route to the construction site in preference to a bumpy temporary road which was built by the developers.

Mrs. Forbes went directly to the mayor with her complaint and his honor promised a 24-hour police watch. Soon however, she charged the watch because so infrequent that the trucks began to roll down the street again.

That was when Mrs. Forbes took to more dramatic means of stopping the unwanted traffic.

She said her neighborhood was built shortly after World War II and was "out in the country" before Houston spread westward. Now, her 13-year-old son doesn't dare venture into the street with his go-cart, Mrs. Forbes complained.

She vowed she will continue her unusual method of enforcing the anti-truck campaign, but the human barricade strategy does have its drawbacks, Mrs. Forbes admitted.

She said she has lost five pounds since she started dashing to the street when the sounds of an approaching truck are heard. If she arrives at the street too late to stop the truck, Mrs. Forbes takes down the license number and traces the vehicle to its owner.

FOR BETTER SERVICE — This is the new Post Office in McLean which officially opened yesterday.

To Mr. and Mrs. Harold Ledbetter 324 S. Gray, on the birth of a boy at 1:37 p.m. weighing 6 lbs. 15 oz.

Roaming Russian Writer Not Held

WASHINGTON (UPI) — The State Department said yesterday it would take no action against a Russian correspondent who went to Pittsburgh without U.S. permission.

Press Officer Lincoln White said the case was closed after Soviet Embassy counselor Yuri V. Filipov gave assurances that U.S. travel regulations would be fully complied with. He also promised to investigate the incident.

White said that Oleg Kalugin, New York correspondent for Moscow radio, was in technical violation of travel regulations when he went to Pittsburgh, a closed area, Monday to participate in a Westinghouse Broadcasting Co. seminar on communications.

New Post Office Building Opened To Serve McLean

MCLEAN (SpI) — Postmaster Bill R. Reeves announced the opening of the new McLean Post Office yesterday.

Despite the delays in delivery of equipment the move from the old office was made yesterday after regular office hours. The mail was in the new boxes when the post-office opened this morning at 8:30.

The new building has approximately 4,000 square feet of working space.

The increase of available mail boxes is 160 with provisions for an additional 160 when needed. Included in the construction is a weatherproof loading dock and ample parking facilities.

Construction of the new building was started last August under a contract with W. C. Null of Ft. Worth who is the present owner.

An open house is being planned according to an announcement by Reeves.

Illinois Fugitive Caught In Laredo

LAREDO, Tex. (UPI) — Clyde Foster Lowry, 27, an escapee from the Menard State Penitentiary at Chester, Ill., was arrested by two FBI agents and a deputy sheriff Tuesday at the Western Union office in Laredo.

Lowry asked for an extradition hearing and was held in lieu of \$15,000 bond.

He was arrested on a complaint filed Monday at East St. Louis, Ill., charging him with interstate transportation of a stolen motor vehicle.

Lowry was serving a sentence for armed robbery when he escaped with two others from the Illinois penitentiary.

Good Neighbor Council Praised

Austin Bureau — Significant accomplishments of the International Good Neighbor Council in the promotion of good will and cooperation are commended in a statement by Gov. Price Daniel. The council met in Austin Monday to Thursday.

Governor Daniel said: "I am proud of the work the council has done since its inception seven years ago. An independent organization, it has no counterpart in international affairs. Within its framework, more than 1,000 representatives of many states seek to further mutual understanding, cooperation and good will. Here we have not only a good neighbor policy, but good neighbor practices.

"Strong ties of friendship bind the United States and Mexico. The good relations of Texas with its neighbor states along the border have contributed much to the friendly atmosphere between our countries. It is fitting that Texas should take the lead in this field, since we share a common boundary with many mutual interests with the Mexican states.

"We must accept this leadership as a continuing challenge, for as

Land Distribution Assured Mexicans

PACHUCA, Mexico (UPI) — President Adolfo Lopez Mateos says all available land will be distributed to farmers. All regions of the country will be treated equitably, he said, and solution of land problems will not be delayed in one area while speeded in another.

our friendship grows stronger, we must work even harder for the welfare and progress of our respective states and nations."

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug-called ODHINEX. You must lose ugly fat in 7 days of your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies or chewing gum. ODHINEX is a tiny tablet and easily swallowed. When you take ODHINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions, because ODHINEX depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODHINEX costs \$3.00 and is sold on this GUARANTEE: If not satisfied for any reason just return the package to your druggist and get your full money back. No questions asked. ODHINEX is sold with this guarantee by Richard's Drug, 111 N. Cuyler. Mail Orders Filled.

Sale of Federal Lands Scheduled

DENVER, Colo. — The sale of 13,467 acres of government land is planned for April 19, it was announced today by Lowell M. Puckett, Colorado State Supervisor of the Bureau of Land Management. Ninety-eight parcels of land in Las Animas and Pueblo counties will be auctioned in Denver. The sale will be held at 1947 Stout St., across the street from the New Custom House.

This sale is in accord with the provisions of the moratorium recently announced by Secretary of the Interior Udall, Puckett said. Two more sales involving lands in Las Animas County will be held in June and July, he said. Definite announcements will be issued soon.

Individual plots vary in size from 40 acres to 760 acres and the appraised prices at which bidding must start range from 50 cents to \$20 per acre. The land is scattered throughout the Las Animas and a portion of Pueblo counties and is presently being utilized by stockmen for grazing of livestock. The lands are being sold in the public interest because it is not economical for the government to administer them, BLM officials said.

Bids will not be accepted for less than the appraised values, and bids by mail must be received at the Colorado Land Office, P. O. Box 1018, Denver, Colorado, prior to 3 p.m. on April 17, 1961. Oil, gas and coal deposits are reserved to the United States. Dale R. Andrus, Manager of the Colorado Land Office, will conduct the sale.

Further information and material, including plats showing location of the tracts, is available upon request from the Land Office Manager, Bureau of Land Management, 383 New Custom House, P. O. Box 1018, Denver 1, Colorado, between the hours of 10 a.m. and 3 p.m., Monday through Friday. The New Custom House is located in downtown Denver at 19th and Stout St.

Deported Figure Claims Kidnaping

GUATEMALA CITY (UPI) — Deported New Orleans underworld figure Carlos Marcello charged today he was "kidnaped" from the United States and hinted there might be a break in his case soon.

A local newspaper said government authorities here have a document supporting speculation that Marcello may have been connected with an illegal gambling operation in Guatemala.

"I have nothing to say—I was kidnaped from the United States," Marcello told UPI. "Call me next week."

He did not indicate what sort of break he might be expecting. The newspaper El Imparcial said a new document in possession of the Interior Ministry shows that a Guatemalan birth registration for Calogeros Minacore (Marcello) has existed since 1956.

FOR BETTER ENGLISH
WASHINGTON (UPI) — President Kennedy has asked Congress to provide funds for research projects to improve the teaching of English through the college sophomore level. The request, announced Sunday night, was part of a spending blueprint for \$1.9 billion the President earlier asked Congress to add to the budget of the U.S. Office of Education for the 12 months starting July 1.

WEATHERPROOF — Air-conditioned suit carries its own temperature. Automatic heating and cooling insures comfortable 80 degrees F. while external temperatures range all the way from 40 below to 135 above. Suit, developed by the U.S. Navy and Westinghouse in New York, employs a thermo-electric unit fitted in the back. Battery power can be employed for an hour. Longer periods of use require a DC outlet.

Why Not? Gain Indicated In Steel Orders
LOWESTOFF, England (UPI) — Orders over March, Iron Age magazine says, will show a 10 per cent increase per cent ahead of March. Coupled with a pickup usually found at the end of each month, the industry publication said that April business could improve more than per cent of capacity, it said. April production could also hit 63 per cent of capacity and with the upturn continuing, the second quarter should average about 63 per cent.

3 BIG DAYS Thursday — Friday — Saturday April 13 — 14 — 15 3 BIG DAYS

The first spring days can make you want to sparkle. So start your beauty program now in order to be ready. Brushing your hair before a shampoo is the first step (left). A beauty bath (center) rich with oil and fragrant with soap suds will get rid of flaky skin. Use a brush on elbows, knees and heels. A fresh and glowing look (right) is the result of this end-of-winter program. This is also the ideal time of year to have your hair restyled.

Halliburton Ladies Have Social Meet

The Halliburton Ladies Club met recently in the Halliburton Conference Room for its monthly meeting with Mmes. Gordon Rutledge, Doug McBride and Weldon Rogers as hostesses.

During the business meeting, a report was given concerning the Senior Citizens meeting that the Club served as hostesses recently. Mrs. Boyd Stewart was elected club reporter to fill out the term of Mrs. Boyd Buttler, who recently transferred to Hays, Kan.

Following dessert and coffee, the remainder of the evening was spent playing Canasta ad dominoes.

Members present were Mmes. J. R. Ramsey, Earl Moreland, Bob Burrows, Charles Cauthorn, Joe Crots, Bill Martin, Ray Burney, Gene Winegart, Bill Rape, Boyd Stewart, Gordon Rutledge, Doug McBride and Weldon Rogers.

Thrifty Nifty

You can save on cosmetic expenses if you use lipstick evenly, down to the last bit in the case. The best way to do this is to apply lipstick with a brush.

THE SPIDER
IT MUST EAT YOU TO LIVE

Dear Abby...

Propagation Forms "The Great Debate"

ABIGAIL VAN BUREN

DEAR ABBY: I boiled when I read the letter from the woman who signed herself "Fed Up." She was annoyed because her clergyman (Protestant) visited her in the hospital after her seventh child was born and asked her if she had ever heard of birth control. She said that the size of one's family was a personal matter. Well she is gravely mistaken. When children are abandoned by their parents because they can't feed and clothe them properly, who takes care of them? And who pays for public education and juvenile delinquency and homes for unwed mothers? The taxpayer! As long as I am a taxpayer, the number of children produced in this country is my business.

ALSO FED UP

DEAR ABBY: I agree with "FED UP" that the size of one's family is one's own personal business. I know how she must feel because I have born 18 children. I was quite a "curiosity" in town. People would point me out and make all sorts of foolish remarks about this "tremendous" accomplishment, which was really the most natural thing in the world for a woman to have done. When they asked, "Why so many?" I would reply, "When I go to face my Supreme Judge, He cannot say to me, 'Where are the children I sent you?'" — because I accepted them all.

MOTHER OF 18

DEAR ABBY: My hat is off to that minister who asked the woman in the hospital if she had ever heard of birth control. If that lady can write, I assume she can read. Doesn't she know that in forty years the population of this world will be doubled? Doesn't she know that today one man with a machine can do the

work of 120 men? And if we continue to populate this country at the present rate, unemployment will choke us? I used to raise pure breed dogs — one time, but just because my dog came in season every six months did not mean I had to breed her that often. But I guess I thought more of my dog than that man did of his wife.

M. T. T.

DEAR ABBY: Tell "Fed Up" to cheer up. Time will fix things. I was the mother of 9 when my eldest was 12. "Friends" would come with suggestions all the way from birth control to divorce. Our 5th child was born during the depression, and a cousin even came to take the baby home with her like a stray kitten. Her heart was broken because I couldn't spare her just this one. ("You have heard the cruel comments in town. How ignorant can people be?" Now, years later, to our faces they tell us how proud we — out to be, and they look with envy upon our 16 beautiful grandchildren. But I can't let myself hate them. There is no room in a mother's heart for hate. It's full of too much real love.

MOTHER OF TEN AND PROUD

DEAR ABBY: "FED UP" is encouraging the very condition she objects to. As the number of people increases, the more limited will become personal freedom of action. One hundred years ago, the number of children a woman had was her business. Today, with roads clogged with cars, and schools jammed with children, uninhibited breeding by human beings becomes a community problem. Child-bearing is no longer a "personal matter" since the num-

Study Of Arabia Topic For WMU

Women's Missionary Society of the Central Baptist Church met Wednesday morning at the church for the monthly business meeting and missionary program.

Mrs. Jack Cullison, president, called the meeting to order and presided over the business meeting.

"HIS HERALDS WILL PROCLAIM" was the program title. Parts given told of the Arab countries of Gaza, Jordan, and Lebanon. As each of the ladies arrived, a towel was draped over her head in Arab fashion, lending an atmosphere to the program.

Those on the program were Mmes. Robert Callahan, Wayne Cobb, R. C. Brown, W. G. Gooding, R. E. Warren Sr., Lloyd Ray, Charlie Thomas, Jay Thompson and C. R. Skinner.

"Come Women, Wide Proclaim" was sung by the group, then Mrs. Charles Terrell gave the names on the calendar of prayer and led in prayer. Another song, "Christ for the Whole Wide World" was sung. The Kathryn White Circle was in charge of the program.

Mrs. Jack Cullison dismissed with prayer, then the 51 women present adjourned to the fellowship hall for a noon luncheon.

Refreshments of finger sandwiches, spiced cake and homemade ice cream were provided by Mmes. Coston, Johnson, Caldwell and Keller. An arrangement of white and yellow mums and stock arranged with greenery, created by Mrs. Kay, appointed the serving table.

Instead of giving the floral arrangement as a door prize, Senior Citizens requested that the flowers be taken to Mrs. Lillian Snow, Lovett Memorial librarian, who was ill in the hospital at the time.

Red Cross Gray Ladies providing transportation of guests to and from the party were Mmes. O. O. Bishop of Lefors, Earl Horttor, Jess Beard, C. L. McKinney, Stanley Brandt, O. F. Kriemeyer, and A. D. Hills.

Table games comprised the afternoon's entertainment.

Rebekahs Honor District Prexy

Pampa Rebekah Lodge No. 355 entertained with a salad supper honoring Mrs. Thelma Scott of Spearman, district deputy president, on Thursday evening in the IOOF Hall, 800 E. Foster. Mrs. Scott reported on the Grand Lodge meeting which she attended in San Antonio on Mar. 24-25. In appreciation of her visit, members presented the district deputy president with a gift.

Mrs. Gladys Mayo, noble grand, presided at the business meeting during which it was announced that the Theta Rho Girls' Club and the Junior Oddfellows were in Hereford this past weekend attending an Association meeting. A secretary and scribes meeting school of instruction is planned in Perryton.

Announcement was also made of the Esther Club meeting held Monday evening in the home of Miss Grace NeCase.

Mrs. Bonnie Wharton won the door prize and Mrs. Ethel Wilson's name was drawn from the Friendship Fund.

Ross Neugin and the drill team held practice after lodge in preparation for competition in degree team work to be held in Perryton the latter part of April.

Guests, in addition to Mrs. Scott, were Mmes. Mildred Chamberlaine, Kathryn Farris, Mary Hutton, Thelma Kenney and Margaret Kirk, all of Spearman.

Birthdays Of Senior Citizens Noted At Party

Senior Citizens of the community were entertained at a monthly birthday party on Thursday afternoon in Lovett Memorial Library with members of the Altrusa Club of Pampa as hostesses, Mmes. Frank A. Hukill, Jay Flanagan, Louise Sewell, Roy Kay, Clay Coston, Howard Johnson, Loyse Caldwell, Thelma Bray and E. M. Keller.

Celebrating birthdays during the month of April are Jay Evans, April 1; Mrs. Pearl Scarbery, April 6; Mrs. C. P. Roop, April 8; Mrs. Joe Mullins, April 13; Mrs. Ida Faulconer, April 3 and E. C. Sidwell on April 27.

Door prize was won by Jay Evans, Mrs. C. P. Roop and Mrs. E. C. Sidwell.

Table games comprised the afternoon's entertainment.

Refreshments of finger sandwiches, spiced cake and homemade ice cream were provided by Mmes. Coston, Johnson, Caldwell and Keller. An arrangement of white and yellow mums and stock arranged with greenery, created by Mrs. Kay, appointed the serving table.

Instead of giving the floral arrangement as a door prize, Senior Citizens requested that the flowers be taken to Mrs. Lillian Snow, Lovett Memorial librarian, who was ill in the hospital at the time.

Red Cross Gray Ladies providing transportation of guests to and from the party were Mmes. O. O. Bishop of Lefors, Earl Horttor, Jess Beard, C. L. McKinney, Stanley Brandt, O. F. Kriemeyer, and A. D. Hills.

Auxiliary Votes Support Of Vet Hospital Projects

The American Legion Auxiliary of the Kerly Crossman Post No. 334 met Thursday evening in the home of Mrs. Lee Harrah, for a discussion supporting a petition that was taken to Washington, D. C. by Chairman of the Panhandle Veteran Hospital Committee, George Broome of Amarillo. The petition has been signed by 12 U.S. congressmen and pertains to the enlarging of the Veterans Administration Hospital in Amarillo. The hospital that was built in 1940, is used by veterans in Pampa and veterans from a five state area. The present building is too small to accommodate the present needs and the petition calls

at least doubling size of the present hospital. The auxiliary decided that letters should be sent to Rep. Walter Rogers, Sens. Ralph Yarborough, and William Blakely, telling of their support and the need of enlargement.

Mrs. Pat Prosser, 18th District vice president, and membership chairman expressed her appreciation to the Pampa Unit in reaching their 1961 membership quota. "Pampa, along with other units in the 18th District have succeeded in being first in Texas to reach their District quota in membership. Not only were we first, but are still leading all other districts in Texas with the 1961 membership

drive. District president, Mrs. John Coleman of Wellington sends to us her appreciation. I would like to say thanks to the Pampa Unit, and all units in the District, without each individual unit's help it would not have been possible for the 18th District to succeed in such a great way," Mrs. Prosser said.

Members voted to send for reservations to make it possible to send a girl from Pampa High School to Bluebonnet Girls State at Austin in June.

Delegates to the 18th District Conference at Shamrock, April 29 and 30 were elected. They are Mmes.: Frank Shotwell, Prosser, Cordie McBride, and J. M. Foster, with alternates being Mmes. Estelle Wheeler, L. K. Stout, and Lee Harrah.

Mrs. Shotwell announced that the Auxiliary would entertain the Senior Center on May 25 in Lovett Memorial Library.

Plans were made to order veteran-made Poppies to be sold by the members May 27, the Saturday before Memorial Day.

Two veterans families were provided with groceries during the month in the amounts of \$10 and \$7.50.

A short discussion was held on American Flag laws.

Mrs. Harrah gave a Council of Clubs report, after which she reviewed "Dynamic Land of Extremes... Chile," by Walter Muller.

Cake and punch were served by Mrs. Harrah to the eight members present.

Creative Hobby Of Making Candles Described At TC Cotillion Meeting

Plans for Twentieth Century Cotillion's Fashion Dinner were made at the club's recent meeting held in the home of Mrs. Jim Hess.

Fashions for both men and women will be provided by Ollie Hare's Men's Wear and by Wright's House of Fashion with both lady and gentlemen guests invited to attend. In addition to dinner and fashion show, entertainment will be provided by the stars from Amarillo's Little Theater production of "The Boy Friend," which was presented last Fall.

The dinner and show is planned for April 17 in the Starlight Room of the Coronado Inn beginning at 7 p.m. Tickets may be purchased from any Cotillion member for \$2.50.

In introducing the guest speaker, Mrs. Jewel Barnes, Mrs. Jack White said that Mrs. Barnes' family were pioneers in Pampa and that her daughter is a fifth generation in Gray County. Mrs. White informed the group that "in addition to the hobby of candlemaking, Mrs. Barnes has an equally enjoyable and creative hobby of covering ladies' bags and shoes in materials to match dresses and suits. She has perfected this hobby and created a kit that may be purchased to cover shoes and purses.

Mrs. Barnes began by saying that she enjoys an inexpensive hobby in candlemaking. She advised that in starting a new hobby, "it is wise not to invest much money because you may find that

the hobby does not later appeal to you."

She said that candlemaking materials consisted of paraffin, wick, crayon, old cans, tubes, string, metal pipe, old crystal and other odds and ends. She said that any one would have the necessary materials for candlemaking in their homes; other than paraffin and wick.

She demonstrated how to make a bell for decorating a wedding candle by molding it in a crystal water goblet. She also showed how to make paraffin rosebuds, roses and leaves for decorating candles. She explained how to prepare the wax and color it in order to mold it into the desired shapes. She also created a floating rose, which will burn as it floats.

Mrs. Barnes' candlemaking talent is the result of years of study and experimenting. Not only is it creative but it has worked into a profitable hobby for she sells her creations and has the pleasure of seeing others enjoy the product of her time and energy.

Members attending were Mmes. W. B. Adair, Alvin Agan, Frank M. Carter, Harbord Cok, James Gallemore, Jim-E. Hess, Ralph McKinney, W. D. Price Jr., Martin Stubbe, Jack White, Lee Fraiser, Bob Williams, Gene Imel, Bob Price and Jim Campbell.

Europeans Need To Know Everyday People

By GAY PAULEY
UPI Women's Editor

NEW YORK (UPI) — President Kennedy has a staunch backer for his Peace Corps in Almut Eggert, a youthful German actress. Miss Eggert believes that the more others get to know Americans at the everyday level, the more they'll like us — instead of disliking us as so many foreigners actively do.

"If they hate you, it's because they don't know you," said the 21-year-old Miss Eggert, who has just completed a cross-country tour talking to civic, church and college and high school groups in connection with a new documentary film in which she is a featured player.

"I had a chance to meet thousands of you," she said. "I'm impressed with America's vigor and strength... its fresh quality... by so many who want to know more of what's going on in the Communist world."

The blonde actress, who was born at Rostock in what is now the Eastern Zone of Germany, plays the role of a teen-age girl in the Louis de Rochemont film "Question 7."

The story depicts present-day pressures on the Christian church by the Communist state and is based on incidents in and documents from the Eastern Zone.

The documentary was filmed at Moelin, a town nine miles from the border dividing East and West Germany. For six weeks the West German community was transformed into a "socialist town" with Red banners flying from city hall, schools and factories; and posters of East German leaders and Soviet peace messages scattered all over town.

Miss Eggert said the re-creation was so real that tourists wondered if they had inadvertently wandered over the border.

At openings in various cities in the United States, she said, the film drew a general reaction of

"What can WE do about such a situation?"

Miss Eggert, married and the mother of a one-year-old daughter named Bettina, said her parents left East Germany 19 years ago. Her mother was an actress but has retired; her father was a theater director and now teaches dramatics at the University of Mannheim.

Miss Eggert studied acting in Heidelberg, Paris and Berlin. She learned English in Berlin, when to meet expenses she took a part-time job as a manicurist in a beauty salon catering to Americans.

The actress, a Berlin resident, has done all types of roles from the classics of Shakespeare and Chekhov to modern comedy and drama. She has made six films in Germany and France. In "Question 7" she appears in her first English-speaking role.

Shower enthusiasts can now have the luxury of oil for dry skin. These new squares of fabric hold rich oils to smooth away the dry skin of winter months.

New Bath-Oil Offers Luxury For Those Devoted To Shower

ALICIA HART
Newspaper Enterprise Assn.

Up to this point, the girls who are devotees of the bath were the only ones who came through a winter with a skin that was really soft and smooth. And that is because they use lots of skin-smoothing bath oil in each bath, soaking in it luxuriously.

The girls who prefer showers didn't fare so well. Because, essential as soap is to cleanliness and beauty, there's no denying that it does dry out the skin unless its effects are counteracted quickly.

MATURE PARENT

As a result of her attachment to her doctor, a young woman under psychotherapy developed an embarrassing jealousy of his secretary.

She wanted to be polite to the other young woman—and couldn't. She wanted to show reasonable appreciation of the secretary's courtesy but couldn't manage that either. In spite of her best efforts, she was often rude and patronizing. When she did succeed in appearing friendly, her eyes would not meet those of the secretary. Then, to her despair, she would hear herself making flattering remarks whose insincerity increased her self-contempt.

But now, a favorite bath oil has appeared in a new form especially designed to be used in a shower. Snowy squares the size of a handkerchief have been saturated with this skin-smoothing oil. Unfold one and while your body is still wet, massage yourself from hair line to toes with it.

One day she found the courage to discuss the situation with her doctor. What he said was:

"If you were to tell Miss Jones that you are jealous of her, you would feel better about it."

I report this for a Mrs. P who writes:

Through our daughter's friendship with another youngster, the families have become friends, too. Recently, the other youngster started dating a boy friend. Jennie is terribly jealous. We all notice it. She's become so strained and unlike herself with Kit that it embarrasses all of us. I suppose there is nothing I can do to help the child.

That depends on whether the child can confide her jealousy to you. When and if she does, you might suggest she confide it to the friend who has aroused it.

The horrid thing about jealousy for someone we like is the special shame it makes us feel. Like the young woman under psychotherapy, we are torn between our envy and the conscience that tells us it is unreasonable, disloyal and mean. On the one hand we hate our friend; on the other, we hate ourselves for hating him. That's when things get awfully strained and mixed up. We try to pretend that nothing is wrong, and to the burden of our jealousy is added the really nasty burden of knowing ourselves to be dishonest.

Well, jealousy's self-betraying is really rough enough on us without having to log the ourselves for insincerity, too.

Art's Gallery 'Little' Not Correct Term For LL Setup

By ART MAYHEW
Perhaps the only thing "little" about Little League baseball — and junior baseball in general — in Pampa each year is the name; certainly there is nothing little about the cost of the program, the hours spent or the way the game is played.

In fact, money-wise, junior baseball could be considered a business. Last year, with 18 Little League teams — and 10 farm teams within the local little leagues — and six Pony League teams, the expenses ran over \$12,000. This, of course, does not count man hours as managers and various officials work without pay.

In Pampa, the junior baseball program is the work-child of the two Optimist clubs working together. Ben Hamilton, a member of the Morning Club is the commissioner of the junior baseball program in Pampa, a program first initiated in 1954.

When the Optimists opened their season in 1954, there were approximately 300 boys participating on 12 Little League and four Pony League teams. When the season opens this year, more than 1,000 boys will be enrolled in one league or the other, a tremendous jump in seven years.

The two leagues encompass boys from nine to 14 years of age, with Little League going from 9-12 and Pony from 13-14. After this, boys still interested in the game — and for some reason a lack of interest seems to prevail after 14 — most move up into American Legion baseball which has an age limit of 15.

Where does all the money come from to finance these leagues so that young Pampans may have an opportunity to utilize free time in the summer?

A great portion comes from the sponsors of the individual teams. For Little League and Pony League teams, the sponsor's tab is \$250.00 for Farm League teams, it runs \$75.

With all teams sponsored — and not all have been to date — the total income is approximately \$8,000, or almost \$4,000 shy of what it took to operate the leagues last summer.

On top of the operating expenses, the Optimists have done extensive work on the Pony League park this spring to make it an even better playing area. Among the remodeling tasks were the raising of the playing area in order to permit better water drainage, the curbing of the east fence and the addition of 1,100 new bleachers to the park, doing away with the old-time grandstand — the spectators' car.

To help with the park and league expenses, Pampa's resourceful Optimists have come up with two good ideas to raise money in a pleasant way.

One is the playing of low-admission exhibition basketball games. A doubleheader was held in Lefors Tuesday night and another is scheduled in Harvester Fieldhouse tomorrow night beginning at 7:30 p.m.

The games will match Pampa Optimists and members of the Lefors Optimist Club in the first game which Pampa's crack semi-pro team, the Citizens Bank Citizens, will play the coaches from Pampa and Lefors.

In Tuesday's game, Pampa's Optimists won, 37-17, in a tight contest while the Coaches, paced by Roy Kieval and Dean Evans, laced the Citizens, 61-74.

Another money-making idea — and an enjoyable one also — will be unveiled April 26 and 27 when one of the top baseball movies of all time — "Angels in the Outfield" — comes to the Capri Theatre for a two-night, four-show chise.

Tickets are only 75 cents and the Ollie Wilhelm, associated with of the league by starring his 29th Capri Theatre and also a member, while Allen Russell — as leader of the Evening Optimists and in will be starting his 19th and director of the Optimists boxing program, said that 6,000 tickets have been printed for the movie.

Last-Inning Borger Spree Buries PHS, 8-3

★ ★ ★ ★ ★
★ ★ ★ ★ ★
16 PHS Strikeouts Aid Victory

FOUL DAY — Benny Jarrett (8) fouls off one of Mike Clark's fast balls in yesterday's Pampa-Borger game won by the Bulldogs, 8-3. Catcher Mike Stewart has his glove poised in the air while Umpire Joe Fortin watches play. Jarrett didn't foul off enough yesterday, slamming out two hits in four trips, including a two-run scoring triple in the seventh inning. (Daily News Photo)

Pampa's Harvesters, apparently blinded by the first sunshine three weeks and stifled by a combination of near-perfect pitching and lousy hitting, fell before an inspired band of Borger Bulldogs, 8-3, yesterday afternoon in a District 3-4A battle at Harvester Park.

The only breeze to mar the game played in clear 70 degree weather was caused as 16 Pampans went down swinging as right-hander Bob Connelly twirled a four-hitter to chalk up his third victory of the season against one loss, Mike Clark, now 2-1, lost the game, despite fanning 9 before the roof fell in Borger's five-run seventh inning.

For Borger, yesterday's victory boosted it into second place in the 3-4A pennant chase with a 3-0 district mark, putting them behind Monterey (5-0) and a game ahead of Lubbock (5-1).

The defeat dropped Pampa into fifth with a 2-3 record, with Amarillo Tascosa's 2-2 district status putting the Rebels in fourth.

Pampa takes a shot at Tascosa this weekend, playing the Rebels at 2 p.m. Saturday after playing Plainview at 4 p.m. tomorrow. Both games will be played at Harvester Park.

In yesterday's contest, Borger — which had had four games washed out of their schedule but seemed better for it — erupted for two un-

earned runs in the first inning as an error and a booming triple by Gary Temple plated the first run, and single by Benny Jarrett scored Temple.

The Bulldogs hung up their third tally in the fourth frame as Ray Adkins walked, moved to second on a wild pitch and scored when an error and two additional walks forced him in from third.

Pampa, which had gotten four men to the plate in the first two innings and advanced men to second and third in the third, put on a brief rally in the fourth to net one run and only a beautiful play prevented the Harvesters from tying up the game.

With two away, Butch Frazier walked, stole second and tallied on Clark's hot single through the box. Pinch-hitter John Arthur then was tagged on the arm by one of Connelly's evant fast balls to put two on.

Keith Gregory, the Harvesters' leading hitter, then hit a screaming grounder down the third baseline that looked like extra bases, but the Bulldogs' Vernon Welch speared the ball baredhand and tagged Clark coming down from second to end the inning and the uprising.

For Borger, it was only the calm before the storm as the Bulldogs went wild in the seventh inning to score five runs and send Clark to the showers in favor of sophomore Dee Wright.

Back-to-back singles with a passed ball thrown in put Borger's Welch on third and Temple on second to open the seventh. A popout to Butch Crossland momentarily slowed the Borger rally, but Jarrett unloaded a triple to left-centerfield to score Welch and Temple and Wright came in from the bullpen.

Adkins greeted Wright like a long-lost cousin by singling to center to score Jarrett and Borzy Baker then plated Adkins with his first hit of district play with a double to right-center. Baker moved to third on the throw in and scored a moment later when Wright's pitch went into the dirt.

Pampa mounted its strongest rally of the afternoon in the seventh frame when consecutive walks to pinch-hitter Wayne Stors, Gregory and Crossland loaded the bases with none away. Larry Stroud then hit into a forced play at the plate and Gerrel Owens fanned. However, Stewart slapped a single between first and second to score Gregory and a walk to Roy Don Stephens forced in Crossland with Pampa's third and final run as Butch Frazier struck out to end the 2 hour and 20 minute game.

Pony League Rosters Set

With team rosters complete in initial workouts over and managers ready, the 1961 Pampa Pony League season is scheduled to start early in May, Tom Glover, Pony league president said today.

Glover released the rosters today for the six-team league, and added that all Pony League boys should report to their assigned workout areas for the initial practice drill at 5 p.m. today.

Managers, phone numbers and site of workouts are:
Kist — Clifford Hill, manager (MO 4-4961); Field — south of Fisher Grain Elevator. Team: Teddy Bird, Wayne Hill, Bud Hammons, Dickie Welt, Geary Johnson, Richard Mackie, Warren Pettit, Dee Hawkins, David Conklin, Jon Andrews Bruce Herring, Alfonso Gomez.

Lions — Sam Houchin, manager (MO 4-3780); Field — Stephen F. Austin. Team: Corky Dodd, Eugene McCampbell, Raymond Harrison, Gary Johnson, Ralph King, John McLean, Jerry Wright, Ronald Woodard, Larry Waincott, Donald Perkins, Dennis Scott, Mike Newton, Gordon Taylor, Ken Follis, Monte Brogdon.

Cree Drilling Company — John Conway, manager (MO 5-4855); Field — Travis School. Team: Ronnie Curley, Gary Crossland, Jerry Largin, Jim Winsor, Ronnie Thrasher, Jess Reed, David Smith, Norman Stone, Bruce Nutt, Rick Maxey, Kenneth Emerson, Larry Bowerman.

First National Bank — Forrest Cloyd, manager (MO 5-4188); Field — Corner of Zimmer and Evelyn. Team: Larry Leonard, Rickey Maynard, George Snell, Bobby Everson, Larry Eckroat, Lynn Heller, William Watie, Lonnie York, Billy Stull, Pat Strickland, Marshal Noblitt, Jessie Valasquez, Charles Glowatsky, Barney Baker.

Ideal Food Stores — Vernon Roper, manager (MO 4-3946); Field — West of KHHH radio station. Team: Larry Daniels, Donald Bennett, Chris Bankston, Roddy Bray, Ronny Gray, Roy Harper, Derrell Henson, Butch Robbins, Jimmy Owensby, Jimmie Watson, J. T. Winters.

Hughes Development Co. — Bob Brown, manager (MO 5-5818); Field — South of Fisher Grain Elevator. Team: Randy Holmes, Kenneth McWilliams, Billy Quarles, Travis Winegart, Jackie Blum, Roy Brown, Greg Jewell, Phillip Klerner, Ronny Valentin, Ronnie Stokes, Otto Will-Fumelle of Buffalo will fight liams, Phillip-Masse. Don Evans, Mark Andrews, Richie Crews, N.Y., in a 10-round middleweight bout here on April 25.

SIGN FOR BOUT
BUFFALO, N.Y. (UPI)—Rocky Jones (Tiger) Jones of Yonkers, N.Y., in a 10-round middleweight bout here on April 25.

The Austin Senators and San Antonio Missions get the Texas Baseball League off to its 65th playing season Saturday, but the remainder of the six-team circuit won't swing into action until Sunday.

The Senators will be at San Antonio for the Saturday opener, while on-Sunday Amarillo will be at Tulsa and Rio Grande Valley at Victoria. The second round of openers is scheduled Tuesday at Austin, Amarillo and Harlingen.

League President Dick Butler said he felt the league had weathered the storm and was headed for smoother sailing. He predicted a season attendance of 525,000 as compared with the 1960 figure of 489,547.

The league acquired more stability during the past off-season with problems being solved at San Antonio, where John Monfrey purchased the stadium and took over the franchise; at Tulsa, where A. Ray Smith purchased 50 per cent of the club and authorized needed repairs at the ball park; and at Victoria, where general manager Derrest Williams took over ownership of the franchise for a two-night, four-show chise.

Jimmy Humphries of the Valley Giants will be the "old man" Ollie Wilhelm, associated with of the league by starring his 29th Capri Theatre and also a member, while Allen Russell — as leader of the Evening Optimists and in will be starting his 19th and director of the Optimists boxing program, said that 6,000 tickets have been printed for the movie.

All in all, the Optimists of Pampa are working their hardest to maintain a high level of junior baseball in Pampa. Pampans can support the program with little if all time, will be seeking his time or money and can be assured eighth Greater Greensboro Open of thanks from more than 1,000 youngsters, coaches and parents, all GGO gets underway today at Sedgefield County Club.

Snead Favored At Greensboro
GREENSBORO, N.C. (UPI)—Sam Snead, the winningest golfer in all time, will be seeking his time or money and can be assured eighth Greater Greensboro Open of thanks from more than 1,000 youngsters, coaches and parents, all GGO gets underway today at Sedgefield County Club.

She is off and running on the same key this year with three titles out of the five contested since New Year's and with \$5,000 already pocketed.

Dodgers Nip Phillies, 3-2

Wally Moon, the solid man in the Los Angeles Dodgers outfield, who came to the Dodgers from the Cardinals after the 1958 season, said he had a "feeling" this was going to be his best year. With the Dodgers loaded down with young outfielders, he didn't play as often as he would have liked to in the exhibition games. But when he did, he got his share of hits.

In Tuesday's opener, he hit a homer in the second inning to give the Dodgers an early lead, and Wednesday, with the Phils in front, 1-0, in the seventh, the left-handed swinging Moon singled a homer over the left field screen with Tommy David aboard.

Johnny Podres, who got the victory although he needed relief help from Larry Sherry in the ninth, batted in what proved to be the winning run when his infield single scored Norm Larker from third, also in that seventh inning rally.

Big Frank Sullivan, making his first start for the Phillies since being traded by the Boston Red Sox, pitched brilliantly for the first six innings, retiring 14 batters in a row at one point, before the Dodgers finally cracked through in the seventh.

Moon's best season in the majors was in 1957 with the Cardinals when he hit 24 homers, batted in 73 runs and hit .295. In his first season with the Dodgers in 1959 he hit 19 homers, had 74 RBIs and a .302 batting average.

Billy Loes, an erratic but sometimes "class" pitcher, was given his first start since 1958 by manager Alvin Dark of San Francisco and he came through to lead the Giants to a 2-1 victory over the world champion Pittsburgh Pirates in the only other game played. Los Angeles at Baltimore and Chicago at Washington in the American League, both scheduled night games, were postponed because of rain.

Loes, primarily a relief pitcher in recent years, gave up nine singles in the eight innings he worked but he scattered them effectively enough to earn the victory.

REPORT FOR PRACTICE
SYRACUSE, N.Y. (UPI)—The Syracuse University football team plans to hold its second practice of the spring today. A total of 90 candidates reported to coach Ben Schwartzwalder at the opening session Wednesday.

Seven members of Pampa's young but improving tennis team will represent the Harvesters team in the District 3-4A tennis tournament opens in Amarillo at 1 p.m. tomorrow.

Tomorrow's tennis play — which concludes with finals Saturday morning — will kick off a big weekend of 3-4A competition in Amarillo, with the track title for grabs Saturday in Dick Bivins Stadium and the final 18 holes of the district golf tournament slated for Ross Rogers Country Club Saturday also.

Tennis Coach Dean Evans indicated yesterday that he would take Jerry Thomas, David Price, Gary Stors and Don Collins to Amarillo for the boys' division and Donna Welsh, Linda Conors and Diana Meyers in the girls' bracket.

Deadline Nears In PCC Tourney

With the deadline for entries less than 48 hours away, Grover Heiskell, tournament chairman, reminded Pampa Country Club golfers to enter the annual PCC Men's Club Tournament which opens this weekend for a three-weekend tourney.

Heiskell said the entry deadline is 7 a.m. Saturday and that at least four flights would be necessary to presenting a good tournament. As of this morning, only 21 had entered, compared to 31 that participated in the tournament last year.

Play begins Saturday morning at PCC and will run Sunday, April 22-23 and April 29-30.

Adkins greeted Wright like a long-lost cousin by singling to center to score Jarrett and Borzy Baker then plated Adkins with his first hit of district play with a double to right-center. Baker moved to third on the throw in and scored a moment later when Wright's pitch went into the dirt.

Pampa mounted its strongest rally of the afternoon in the seventh frame when consecutive walks to pinch-hitter Wayne Stors, Gregory and Crossland loaded the bases with none away. Larry Stroud then hit into a forced play at the plate and Gerrel Owens fanned. However, Stewart slapped a single between first and second to score Gregory and a walk to Roy Don Stephens forced in Crossland with Pampa's third and final run as Butch Frazier struck out to end the 2 hour and 20 minute game.

Adkins greeted Wright like a long-lost cousin by singling to center to score Jarrett and Borzy Baker then plated Adkins with his first hit of district play with a double to right-center. Baker moved to third on the throw in and scored a moment later when Wright's pitch went into the dirt.

Cage Games Slated Here

A basketball doubleheader for the benefit of Pampa junior, baseball players will be held at 7:30 p.m. tomorrow in the Pampa Harvester Fieldhouse.

The cage twinbill will pit the same four teams that played in Lefors Tuesday night. Tuesday, a team composed of coaches from Pampa, Lefors and one from Clarendon defeated the Pampa Citizens' Bank, 81-74, and the Pampa Optimists downed Lefors' Optimist, 37-17, in a "ball control" game.

Admission to the games tomorrow night will be 25 cents for children and 50 cents for adults. All proceeds will go to the Pampa Optimist club to defray expenses in the upcoming junior baseball program this summer.

SIGN FOR BOUT
BUFFALO, N.Y. (UPI)—Rocky Jones (Tiger) Jones of Yonkers, N.Y., in a 10-round middleweight bout here on April 25.

The Austin Senators and San Antonio Missions get the Texas Baseball League off to its 65th playing season Saturday, but the remainder of the six-team circuit won't swing into action until Sunday.

The Senators will be at San Antonio for the Saturday opener, while on-Sunday Amarillo will be at Tulsa and Rio Grande Valley at Victoria. The second round of openers is scheduled Tuesday at Austin, Amarillo and Harlingen.

League President Dick Butler said he felt the league had weathered the storm and was headed for smoother sailing. He predicted a season attendance of 525,000 as compared with the 1960 figure of 489,547.

The league acquired more stability during the past off-season with problems being solved at San Antonio, where John Monfrey purchased the stadium and took over the franchise; at Tulsa, where A. Ray Smith purchased 50 per cent of the club and authorized needed repairs at the ball park; and at Victoria, where general manager Derrest Williams took over ownership of the franchise for a two-night, four-show chise.

Jimmy Humphries of the Valley Giants will be the "old man" Ollie Wilhelm, associated with of the league by starring his 29th Capri Theatre and also a member, while Allen Russell — as leader of the Evening Optimists and in will be starting his 19th and director of the Optimists boxing program, said that 6,000 tickets have been printed for the movie.

All in all, the Optimists of Pampa are working their hardest to maintain a high level of junior baseball in Pampa. Pampans can support the program with little if all time, will be seeking his time or money and can be assured eighth Greater Greensboro Open of thanks from more than 1,000 youngsters, coaches and parents, all GGO gets underway today at Sedgefield County Club.

She is off and running on the same key this year with three titles out of the five contested since New Year's and with \$5,000 already pocketed.

Moon HR Sends LA To Victory

Wally Moon, the solid man in the Los Angeles Dodgers outfield, who came to the Dodgers from the Cardinals after the 1958 season, said he had a "feeling" this was going to be his best year. With the Dodgers loaded down with young outfielders, he didn't play as often as he would have liked to in the exhibition games. But when he did, he got his share of hits.

In Tuesday's opener, he hit a homer in the second inning to give the Dodgers an early lead, and Wednesday, with the Phils in front, 1-0, in the seventh, the left-handed swinging Moon singled a homer over the left field screen with Tommy David aboard.

Johnny Podres, who got the victory although he needed relief help from Larry Sherry in the ninth, batted in what proved to be the winning run when his infield single scored Norm Larker from third, also in that seventh inning rally.

Big Frank Sullivan, making his first start for the Phillies since being traded by the Boston Red Sox, pitched brilliantly for the first six innings, retiring 14 batters in a row at one point, before the Dodgers finally cracked through in the seventh.

Moon's best season in the majors was in 1957 with the Cardinals when he hit 24 homers, batted in 73 runs and hit .295. In his first season with the Dodgers in 1959 he hit 19 homers, had 74 RBIs and a .302 batting average.

Billy Loes, an erratic but sometimes "class" pitcher, was given his first start since 1958 by manager Alvin Dark of San Francisco and he came through to lead the Giants to a 2-1 victory over the world champion Pittsburgh Pirates in the only other game played. Los Angeles at Baltimore and Chicago at Washington in the American League, both scheduled night games, were postponed because of rain.

PHS Netters Face Rugged Road

Thomas, who transferred to Pampa last year from Michigan where he was the junior, high state champ, has been one of Evans' most consistent winners this year as a sophomore.

However, Thomas will be facing top-seeded Roger Kemp of Fort S. Lubbock in the first round tomorrow and the seasoned Westerner veteran will be a heavy favorite to stop Thomas in his opening round bid.

One of Pampa's stronger threats may lie in the doubles combination of Collins and Price. Price, a junior, and Collins, a sophomore, made Pampa's best showing last weekend in the Amarillo Relays as they advanced to the semifinals of the B' division before losing.

The boys' due got a good draw in the first round and will meet a Borger tandem that Collins, a and Price defeated in Pampa a week ago in a dual meet between the two schools.

For the girls, Evans' luck with the draw was not good. Pampa's top girls' singles entrant, Diana Meyers draws Bess Peterson of Amarillo, who is ranked second in girls' singles, while the doubles' team, of Linda Conors and Donna Walsh drew Monterey, one of the top-seeded teams in the girls' division.

Monterey and Lubbock are expected to fight it out for the title and the right to move on to regional play in Odessa, April 22.

Lubbock's hopes are built on Kemp and Jill Philbrick. Miss Philbrick, daughter of Texas Tech

tennis coach George Philbrick, has run through her opponents like a prairie fire in the summer and is expected to wait off with the girls' singles crown.

Monterey has a strong boys' contender in Bobby Nichols. Monterey, which in the past has produced such good netters as Louis Marshall, Danny Seales, Ginger and Pepper Connelly and Bobby Joiner, has another in Nichols and he is expected to meet his crosstown rival Kemp in the final.

Should no Pampan qualify for regional play, the season will end with the Harvesters showing a 5-2 advantage in dual matches this season. Last week's semifinal finish at Amarillo in boys' doubles was the best Pampa has finished in the two tournaments the Harvesters have played in this year.

Suggs Eyes Golf Crown

DALLAS, Tex. (UPI)—Louise Suggs, the little Georgian who admittedly is "playing the finest golf of my career," stood out as the prime target for the rest of the field as the \$10,000 Civitan Women's Open got under way today.

Miss Suggs has had things going her way here over the short but windswept Glen Lakes Country Club course the past two years and will be after her third successive title.

Her three-under-par 281 winning figure last year was just one of the fine performances the black-haired veteran put together as she went on to win \$16,892 and lead the proctees in take-home pay.

She is off and running on the same key this year with three titles out of the five contested since New Year's and with \$5,000 already pocketed.

Colorful TL Opens 1961 Season Soon

Close Eye To Be Kept On U.S. Man In Orbit

KKOEKE, Hawaii (UPI) — Only any time the astronaut copilot, one of the seven U.S. astronauts, can make that first trip into orbit, but the others will be serving as landlocked copilots to help him all they can.

The six who — like the astronaut — trained for three years for the trip three times around the world will be stationed at strategically located tracking stations over the globe.

One of them will be here at this National Aeronautics and Space Administration (NASA) tracking station halfway up a 5,000-foot mountain on the island of Kauai.

Others will be watching instruments simulating the ones in the tiny capsule from stations at Pt. Arguello, Calif., Bermuda, Woodmer, Australia, and Cape Canaveral, Fla., where two astronauts will be stationed.

These stations — like nine others — will be able to talk by radio with the astronaut. But these differ in that they will have what amounts to copilots standing by to help out.

These five stations also have the ability to track the capsule as it whips over the earth at 18,000 miles an hour. They also have equipment to "over-ride" the automatic gear in the capsule and bring the astronaut down at any time should there be trouble.

Joining the astronaut at these five stations will be two other experts, especially trained just for the orbital flights. They are an aerospace medical officer and a capsule specialist.

The astronaut — serving at each station will watch the performance and condition of both the man and the capsule.

The doctor is to watch only the man, checking his heart rate, pulse, temperature and respiration with dials and gauges showing information radioed from the capsule.

The capsule specialist is to check the condition of the capsule, both inside and out, including its temperature, attitude, stability and the environment inside the capsule.

At each of these five key tracking stations there is a red rectangular handle on which is written "May day — emergency." If at

the medical officer, or the capsule expert deems it necessary, a quick tug on the handle will send the capsule back toward earth.

If all goes well or the flight, present plans call for the capsule to begin its descent to earth somewhere between this station and Pt. Arguello, 2,200 miles away on the mainland.

This would put the capsule back into the Atlantic a few hundred miles from its starting point at Cape Canaveral.

"We hope we'll never have to use that red May day handle," said a spokesman here, "but we like to know we have it if necessary."

The capsule could be landed in the Pacific, the Indian or Atlantic oceans should something go wrong. Rescue crews will be alerted along the astronaut's path during the flight.

This station cost \$7 million. The other five cost about the same, a NASA spokesman said, except Cape Canaveral which cost much more since it is the control center for the entire flight.

Another key function of this station is resetting of the automatic timer that initiates the capsule's descent. Under present plans, Kokee, (pronounced Ko-zay-ay), will be the last station to have a chance to adjust the timer, to make sure the descent starts at the right place so the capsule won't hit land, before it starts plunging down in a long flat arc.

But this timer can always be overridden by the small red handle that is prominent on each copilot's instrument panel. Chances are, if the timer should fail, it would be Kokee that would start the astronaut back to safety.

The nine stations making up the rest of the network have only voice communications with the astronaut. They are in South Africa, Canton Island, Guaymas, Mexico, White Sands, N.M.; Elgin Air Force Base, Fla.; England, West Africa, and aboard two tracking ships.

At their first conference in Key West, Fla., recently, Kennedy and Macmillan were leaving the meeting room when the President stopped his visitor to introduce him to several reporters. The more appreciative handshakers were the British reporters traveling in the Kennedy intourage from Washington.

This sort of thing simply does not happen in London. The prime minister neither holds press conferences, nor does he have anything resembling close personal relations with the so-called working press. It is not the custom in his country, as it is in the United States where politicians not only know reporters personally, but sometimes hire them away from their newspapers.

If Macmillan found it strange to be rubbing shoulders and shaking hands with American newsmen in Key West and later in Washington, he might find comfort in recalling former President Harry S. Truman's visit with the late King George VI in 1945.

Truman was on his way home from the Potsdam conference and boarded his cruiser, the USS Augusta, in the harbor of Plymouth, England. The King came aboard to pay a ceremonial call and while the President entertained the monarch, Truman characteristically permitted the few U.S. reporters with him to stick their heads through the cabin door for a good look at the King.

A prominent Republican from California was here the other day and friends found him poring over a collection of newspaper and magazine photographs of Caroline Kennedy, the President's 3-year-old daughter.

"There," said the GOP leader, "is the asset we simply don't have. She'll be tough to beat in 1964."

An advertisement for a new book about the Kennedy administration, "The New Frontiersmen" by Judith Friedberg due July 10, says the volume will answer such key questions as: "Whom does the new President relax with? Who has his ear? Who controls the pipelines to the inner councils. Not to scoop Miss Friedberg, but the daily newspapers have pretty well answered these questions.

Whom does the new President relax with? Well, to name a few, there are Jacqueline Kennedy, his wife; his brother, Robert; his old school chums from New York, K. L. Billings and Charles Spald-

MOTHER AND DAUGHTER—This is the season when all kinds of young animals make their appearance on farms. This little colt, on the Pat Rooney farm near Vincennes, Ind., was one of them. Once a common sight in much of rural America, a mare and her foal are rare ones today.

Secretaries Are invited To Amarillo

Pampa secretaries are cordially invited to attend a half-day seminar to be sponsored by Palo Duro Chapter of The National Secretaries Association (International) Saturday, April 22, according to Mrs. Doris Vaughn of Amarillo, chairman for the workshop to be held at the Amarillo YWCA at Tenth and Jackson Streets in Amarillo. The session will begin at 8:30 a.m.

"Secretarial Success for the Sixties" will be the theme, with Mrs. Bea Maulden of Trinity Chapter of NSA, Fort Worth, as the keynote speaker. Mrs. Maulden is secretary to Ray O. Shaffer, president and chairman of the board of Reed Roller Bit Company.

A panel on "Success in Everyday Living" will consist of "a doctor, a lawyer, a merchant and a chief." Dr. J. Y. Lara, neuropsychiatrist, will discuss "The Importance of a Healthy Attitude"; attorney Jerome W. Johnson will speak on "The Importance of Good Citizenship"; Edward C. Shaw, vice president in charge of sales, Southwestern Investment Company, will outline "The Importance of Managing Your Paycheck"; and Lt. Col Roy F. Clayton, deputy commander for maintenance, 4128th Strategic Wing, Amarillo Air Force Base, will discuss "Safeguarding the Sixties."

A career problem clinic will investigate practical everyday secretarial problems. The latest in office equipment and in books on secretarial skills will be displayed. Kline's of Amarillo will present a fashion show following the luncheon.

Registration, including luncheon, is \$5.00. Registrations should be sent to Mrs. Kate Lock, 307 Bellevue, Amarillo, before April 20.

Churchill Got Lesson In Applied Democracy While Visiting Kennedy

By MERRIMAN SMITH
UPI White House Reporter
WASHINGTON (UPI) — Backstairs at the White House: British Prime Minister Harold Macmillan got a lesson in applied democracy, American style, during his meetings with President Kennedy.

At their first conference in Key West, Fla., recently, Kennedy and Macmillan were leaving the meeting room when the President stopped his visitor to introduce him to several reporters. The more appreciative handshakers were the British reporters traveling in the Kennedy intourage from Washington.

This sort of thing simply does not happen in London. The prime minister neither holds press conferences, nor does he have anything resembling close personal relations with the so-called working press. It is not the custom in his country, as it is in the United States where politicians not only know reporters personally, but sometimes hire them away from their newspapers.

If Macmillan found it strange to be rubbing shoulders and shaking hands with American newsmen in Key West and later in Washington, he might find comfort in recalling former President Harry S. Truman's visit with the late King George VI in 1945.

Truman was on his way home from the Potsdam conference and boarded his cruiser, the USS Augusta, in the harbor of Plymouth, England. The King came aboard to pay a ceremonial call and while the President entertained the monarch, Truman characteristically permitted the few U.S. reporters with him to stick their heads through the cabin door for a good look at the King.

A prominent Republican from California was here the other day and friends found him poring over a collection of newspaper and magazine photographs of Caroline Kennedy, the President's 3-year-old daughter.

"There," said the GOP leader, "is the asset we simply don't have. She'll be tough to beat in 1964."

Stock Offering Simple If One Knows Process

NEW YORK (UPI) — It's so simple when you know how. And who knows how to run a stock offering better than American Telephone and Telegraph Co.?

This bluest of the blue chips brings down the curtain Friday on its eighth stock offering since 1921, and the outcome again will be termed successful.

And successful is only putting it mildly when you consider the results of the 1956 offering when 99.3 per cent of the 5,726,152 shares offered were subscribed.

Through this latest offering the close to two million AT&T shareholders are able to buy one share of stock for \$86 for every 20 shares held on Feb. 23. At the end of 1960 there were 223,518,483 shares outstanding.

This has to be considered quite a bargain when you consider that the stock recently has been quoted around \$130 a share, and that directors contemplate a quarterly dividend payments of 90 cents per share beginning in July, as of 82.5 cents presently.

And while an attractive stock at a relatively cheap price, along with an anticipated dividend increase, are enough to make any stock offering a success, the nation's largest corporate entity has another unique advantage going for it.

As huge as the offering is, AT&T handles it all by itself, requiring no outside underwriting as most other firms do. This enables it to add millions of extra dollars to its proceeds which are vitally needed to build facilities required to meet the public's growing needs for communication service.

The Bell system's 1961 construction budget is \$2.5 billion, the sixth consecutive year that these expenditures have exceeded \$2 billion.

Handling such a huge stock offering individually is no small chore, however. It is a full-time job for several months for more

The Almanac

THE ALMANAC
By United Press International
Today is Thursday, April 13, the 103rd day of the year with 262 more in 1961.
The moon is new.
The morning stars are Jupiter and Saturn.
The evening star is Mars.
On this day in history:
In 1743 third United States President Thomas Jefferson was born.
In 1846, the Pennsylvania Railroad got its charter.
In 1852, American merchant Frank Woolworth was born.
In 1938, American pianist Van Cliburn won a Soviet piano competition.
In 1960, the son of French auto magnet Jean Pierre Peugeot was kidnapped.

Thought for today: Thomas Jefferson said: "Enlighten the people generally, and tyranny and oppressions of body and mind will vanish like evil spirits at the dawn of day."

Pampa Elks' Lodge Officers Installed

Officers of the Pampa Elks lodge were installed Monday night in Amarillo.

The new officers of the local lodge are:
Everett Carmon, exalted ruler; William Thinius, leading knight; John Brockmire, loyal knight; Jerry Hamilton, lecturing knight; Fred Sloan, treasurer; Leroy McBride, secretary and Tryo Guthrie, tyler.

Trustees installed were Winton Roundtree, Earl Crouch, Bryant Flowers, Shorty Harris and Earl McConnell.

Soldier Hanged At Leavenworth

FT. LEAVENWORTH, Kan. (UPI) — Pvt. John A. Bennett was hanged early today for the 1954 rape and attempted murder of an 11-year-old Austrian girl.

The Army executioner dropped the trap from beneath the feet of the 24-year-old Negro soldier at 12:05 a.m. He was officially pronounced dead at 12:21 a.m.

Bennett was convicted and sentenced to death at a courts martial in Salzburg, Austria, Feb. 8, 1955. He had been awaiting execution at Ft. Leavenworth since April 20, 1955.

The death sentence was affirmed by former President Dwight Eisenhower. Bennett's attorneys lost several appeals in the courts.

The soldiers were the son of Mr. and Mrs. Percy Bennett of Chatham, Va.

PICTURE NEWS

AROUND THE WORLD

NAKED ARTERY—It's difficult to believe that this is the heart of a city of more than a million residents. It shows La Avenida Urdaneta, the Fifth Avenue of Caracas, Venezuela, looking like a ghost town on the Sunday afternoon on which the national census was being taken. Normally, this street is crowded with cars and pedestrians.

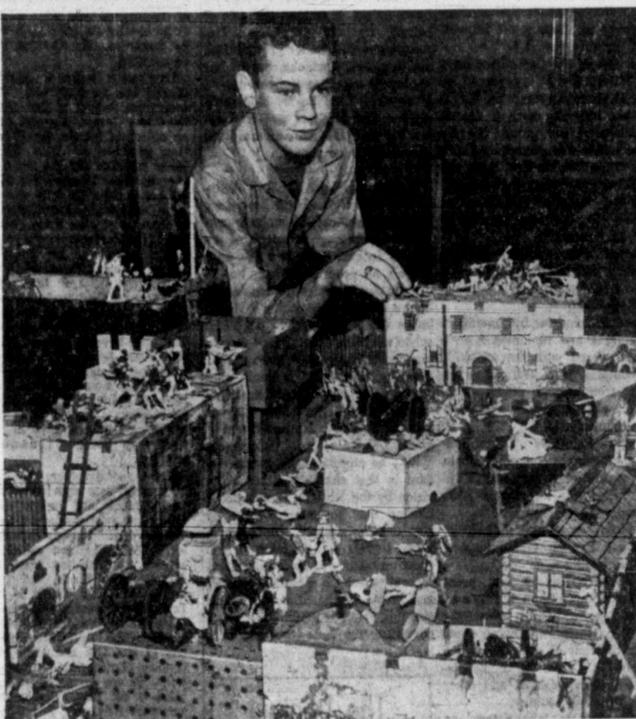

SMALL WORLD—Actor Donald O'Connor and his tiny daughter Alicia discovered that it is on a miniature set of old Baghdad created in Rome, Italy, for "The Wonders of Aladdin." O'Connor is playing the title role, and Alicia was visiting the set that so obviously caught her fancy.

BROKEN-HEARTED—Rosey, a hippo at New York's Central Park Zoo, is crying her eyes out. Her tiny, 650-pound daughter Lilly had been purchased by the Ringling Bros.—Barnum & Bailey Circus, and had left home to try her luck in the world. Lilly just opened with the circus at Madison Square Garden.

A GOOD IDEA—Workmen in London are using pneumatic drills to break up a road surface at Hyde Park Corner. They are sheltered by a huge shield designed to reduce drill noises for the patients of a nearby hospital.

IN MEMORY—History comes to life on 11-year-old John Kearney's ping-pong table, where he has built an elaborate model of buildings and figures of the Battle of the Alamo. The Austin, Tex., lad got interested in the famed battle when his mother was doing research on a book about one of the Alamo heroes.

SHE'S UNIQUE—Lois Briggs, 17, is an Australian aboriginal and the first of her race to become a model. Descended from a queen, Lois works in Melbourne where the 5'8" beauty is in great demand. Her ambition is to model in New York, London and Paris, and she may achieve it. She is off to a good start in her native land.

WIND SHIELD—A new look in the building business may be the result of a big tent developed in Heiligenhafen, Germany. It's said to be the answer to construction problems posed by winter. It is 200 feet long, 40 feet high and 83 feet wide (top photo) and is big enough to permit the building of a two-story house within its shelter (below).

IN WONDERLAND—Dallas, Tex., seems a real wonderland to one-year-old Jorge Bramnik, who is speechless and pop-eyed at the sight of his new home there. He and his parents are refugees from Cuba and were sent to Texas for resettlement under a new aid program.

HARE-BRAINED IDEA—Long ears and cottontail do not make a rabbit, but some children at a hospital in Schenectady, N. Y., are delighted at the hoax played by "Bali," a German Shepherd. The dog's disguise fooled no one, but he was among several pooches who demonstrated techniques of a local dog training club for the kids.

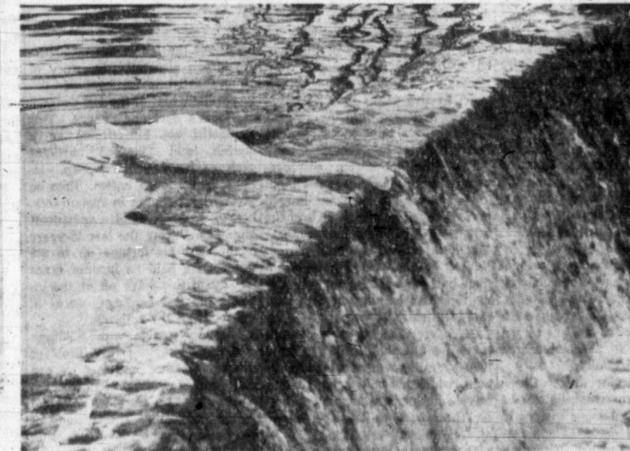

CUB SCOUTING—Curiosity may have killed the cat, but this lion cub at the Portland, Ore., Zoo doesn't seem to be in much danger as she peers at the outside world. "Sis" feels pretty brave glaring at the photographer while "Antony," her father, is nearby.

ARM OF THE LAW—New York City patrolman Michael Cipko couldn't resist the soulful eyes of that hungry squirrel in Central Park. The tiny creature suspected there was a handout at the end of the arm of the law—and there was!

TOOTH AND CONSEQUENCES—Teeth practically cover the colorful signs outside this dentist's office in Karachi, Pakistan. This is a Chinese dentist, one of the traditional chopper specialists descended from a long line of them. They cater to the poor who cannot afford fancy prices and relatively painless dentistry.

BRAVERY—The grass always seems greener on the other side, and this swan is convinced that it is. With a big lake behind it at Mountainside, N. J., the bird braces itself against a log and sticks its neck over a dam for food particles.

HIGH SCHOOL at home in spare time. New texts furnished. Diploma awarded. Low monthly payments. American School, Dept. P.A., Box 974, Amarillo, Texas.

Job Security Problems Occupy Attention Of Labor, Business

WASHINGTON (UPI)—The government is sitting down at the bargaining table more than ever before to help settle the ticklish question of job security in a fast-changing industrial world.

The railroads and leading airlines each have special White House commissions to tackle disputes that had either threatened or caused nationwide transportation tie-ups.

Neutral experts have been working with the heads of major steel firms and the United Steelworkers Union to develop long-range solutions to problems that figured in the 116-day steel strike of 1959.

President Kennedy has created an advisory committee on labor-management policy. This group has decided to study ways to reduce the burden of automation as well as to reap its blessings.

Some labor relations experts view these developments as a sign that collective bargaining has broken down. Others contend that the bargaining table was never built to carry the burdens that have been placed on it by fast-changing technology.

The basic problem was stated by former labor secretary James P. Mitchell:

Management, he said, wanted to move too fast in making changes in its work force and working conditions to keep abreast of new machinery and methods. Unions, on the other hand, resisted change too much.

Mitchell's answer, which generally has been endorsed by his successor, Arthur J. Goldberg, was that both sides should examine their problems together and come up with a solution in their mutual interest.

An example of how Mitchell's proposal would work is provided by the West Coast Longshoremen's union, headed by the controversial Harry Bridges. When

stevedoring firms wanted to use modern unloading equipment on the docks, the union balked. It said the equipment would eliminate too many jobs. But it finally agreed to the management proposal when the employers agreed to contribute to a multi-million dollar fund to benefit laid-off longshoremen. A panel of public members was set up to work out the details.

The changeover from piston-powered planes to jets on major airlines ignited a long smoldering feud between the Air Line Pilots Association (ALPA) and the Flight Engineers' International Union. Airlines claimed they were caught in the middle.

The pilots demanded that the "third man" in jet cockpits be qualified as a pilot. The engineers wanted him to be a mechanical expert, adept at trouble-shooting. In a compromise settlement, several big airlines agreed to put a fourth man into the cockpit, trained as a pilot, and retain the engineer.

This conflict was the basic cause of the six-day wildcat walk out by the engineers last February. Now the three-sided dispute has been handed to a presidential board described hopefully as "the three wise men" to find a long-range solution.

Nathan Feinsinger, former war labor board chairman who heads the 3-professor-panel, has said he will try to settle the dispute without making formal recommendations.

New National Park

Haleakala Crater, on the island of Maui, Hawaii, is to become the 30th national park of the United States on July 1, 1961. A section of Hawaii National Park, Haleakala's new status was provided for by an Act of Congress on Sept. 13, 1960.

CAMERA SHY — This jaguar cub just acquired by the Dallas zoo got a little camera shy when a photographer moved in for a closeup photo. As he started to snap his picture, the young cat grabbed his leg with both paws—and all its claws. No one is sure if the photographer got his closeup, but he went away with a healthy new respect for baby jaguars. (NEA Telephoto)

Effort To Purge Solon Is Denied

WASHINGTON (UPI) — House speaker Sam Rayburn has denied reports that he has threatened Dallas political leaders with loss of federal funds in an effort to get them to purge Rep. Bruce Alger, Texas' lone Republican congressman, from the political scene.

The denial came in response to published reports that Rayburn told Dallas political leaders if they wanted any more federal money they must dump Alger.

Teacher Resigns After Atheism Count Is Filed

HOUSTON (UPI) — A heated controversy was shaping up today over a Milby High School teacher who said he was forced to resign after being accused of being an atheist without being told who made the charge.

The Houston School Board Monday night in a late closed session accepted the resignation of Kenneth N. Parker, 26-year-old American history and speech teacher at Milby.

Parker claimed an 11-month campaign of embarrassment and harassment began in the home of a woman who is a member of the ultra-conservative organization, Minute Women.

Students at Milby today were circulating a petition to all who had classes under him. The petition states that at no time in his classes did Parker teach atheism, socialism or communism.

Octovue Map

An octovue map is one which shows the world as a globe appears when seen from eight points. It is like an orange peel sliced into eight segments and laid flat. Size, eight segments and laid flat. Size, shape and distance are quite accurate.

by the width of a man's hand, which is about four inches. Horses are measured from the ground to the highest point of the withers, a ridge between the shoulder bones.

MORE PEOPLE ARE BUYING CHEVROLETS THAN ANY OTHER MAKE!

When one car outsells all the rest the way this new Chevy is doing—there's got to be a reason. And we can think of some pretty good ones. Chevy's clean-etched looks, for example. The tasteful interior of its finely crafted Body by Fisher. The eager brand of "git" that's under the hood. The easy way it handles. The precise way it steers. Plus the added advantage of extra-cost options like triple-turbine Turboglide. But to sample all these reasons together, you have to get a Chevrolet out on the road. And there, you see, is where that Jet-smooth ride takes over with its own gentle kind of persuasion. If you weren't absolutely sure it was a Chevy, you'd imagine you were

AND JUST ONE
JET-SMOOTH RIDE WILL SHOW YOU WHY!

riding in a far costlier car. Chevrolet's all-around motoring value was again demonstrated in competition when Chevrolet was awarded the 1961 Pure Oil Safety and Performance Award for the 2nd straight year at Daytona Beach. No wonder people are buying more Chevrolets than any other make! Chevy's got more of what it takes to please people!

*Official R. L. Polk & Co. registration figures show full-sized Chevrolets outsold the second-choice make by a record-breaking margin in 1960—and these Jet-smooth Chevies continue to set the pace for the industry this year!
