"You'll never be able to travel across America fast because of all the buffalo!"

The Lighter Side ...

Fishy Problems, Yes—Here Are The Details

WASHINGTON (UPI)—If you've been looking for someone to fill you in on the latest developments in the ichthyological world, I'm your man.

I can tell you, for instance, that studies being carried out under the auspices of the Interior Department have determined that certain fish have ulcers.

I also can inform you that experiments in the artificial cultivation of bivalves have been so successful that they may lead to the creation of commercial "oyster farms."

And, if you still thirst for information, you might be interested in knowing that one of the problems of underwater warfare is how to find submarines that are hiding behind schools of fish.

These are a few of the fishy facts that hooked my attention as I was reading the testimony taken by a House appropriations subcommittee at hearings on the new Interior Department budget.

The Interior Department has jurisdiction over just about everything that flies, swims or crawls, and there was, consequently, a lot of conversation about seafood.

One of the more fascinating programs the department is sponsoring, at a cost of \$527,000 during the next fiscal year, was described as "research on fish migration over dams."

I'll admit that doesn't sound very fascinating. But when I tell you that it involves building elevators for salmon, perhaps you will find it so.

Half of the research is directed at finding some way to build big dams in the Pacific Northwest without interfering with the right of a salmon to swim upstream to spawn.

The other half is directed at finding ways for the baby salmon born upstream to get downstream to the ocean without bumping into a dam or getting lost in a reservoir.

The Bureau of Commercial Fisheries has been testing all sorts of elaborate equipment, such as "fish ladders" and locks, or elevators, that might enable salmon to surmount high dams.

In the experiments, "salmon

Economy Better But, Bureau Sees No Boom As Yet

NEW YORK (UPI) — International Statistical Bureau says while general business may have bottomed out it still lacks dynamism, and although earnings are making a slightly better showing than expected in the first quarter, they still are below last year. General business will tend higher as the year progresses, ISB says, but it is doubtful that we are entering a boom period as seems to be suggested by the stock market rise.

It says the market seems to be over-discounting the recovery expected during the rest of the year, so "for a time, do not act to holdings and maintain cash."

Clark, Dodge Co. says while a new business boom seems certain eventually, there is a good chance that the upward movement during this new quarter may be somewhat on the disappointing side. Since the market is already discounting part of 1962 as well as all of 1961, it would be quite vulnerable to disappointment at some time in the next two months, according to the brokerage house.

Oppenheimer, New — Co. believes the "top quality" shares of American can are deeply undervalued and that 1961 will witness a good return to more profitable operations for the company.

Bache Co. says the chart position of Olin Mathieson has shown considerable improvement during the past several weeks and advises purchases for short-term accounts on a technical basis. It also suggests trading commitments in Pullman.

L. O. Hooper of W. E. Hutton Co. doubts whether either side has enough proxies to control Alleghany Corp. At the April 14 annual meeting, noting that the last day to buy the stock for regular delivery before the meeting is April 10, Hooper says there could easily be some competitive buying in the stock this week.

JURY SELECTOR—Bailliff Mary Pica, right, shows Chicago municipal judge Augustine Boves how jurors are selected by a device which uses ping pong balls. Each ball is imprinted with a juror's number, then placed in glass box. Jets of air agitate the balls and force them out a tube at top one at a time. Number is matched to name and juror is called.

Vending Machine Will Sell Life Insurance Policies

Gordon Wolters of the Amarillo office of Universal Sales was in Pampa yesterday to announce the coming to the Pampa area of vending machines that will sell life insurance.

First of its kind in the nation, Wolters said the new machine already is being installed in the Amarillo area.

Wolters says it will enable purchasers to buy short term life insurance (one week for 25 cents) through machines that will be placed in super markets, drug stores and filling stations.

The machines, he said, will han-

dle policies underwritten by American Empire of Austin.

Wolters says vending insurance is familiar to airline travelers, but he says this type of insurance is different. At a filling station, for instance, he says you won't even have to get out of your car to sign up and place your quarter in the slot. The machine is so small the attendant can bring it to you.

"We're ready to distribute the machines in Pampa," Wolters said.

MOTTO FOR APRIL

LOS ANGELES (UPI) — The Leg's Have Better Mottoes Assn. today announced its winning motto for this month: "We can't always be wrong—but we keep trying."

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes... Relief Lasts for Hours! New York, N.Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription. Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms. This formula is so effective that it is the physicians' leading asthma prescription—so safe that now it can be sold—without prescription in most states—in tiny tablets called Primatene®. These Primatene Tablets open bronchial tubes, loosen congestion, relieve taut nervous tension. All without painful injections. The secret is—Primatene combines 3 medicines (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose. So look forward to sleep at night, and freedom from asthma spasms. Primatene only 99¢, at any drugstore.

Texan In East Says Charges All Mistake

NEW YORK (UPI) — Bill E. Scott, a member of a prominent Texas family who had big ideas about big game hunting in Africa, said yesterday government charges against him for selling forged securities to finance his safari is all a misunderstanding.

"I'm interested in going back (to Texas) and getting this straightened out," he said.

Scott was arrested in New York by the FBI on the basis of a warrant issued in El Paso, charging him with the interstate transportation and sale of forged securities.

He is charged with selling \$76,400 worth of securities to finance a big game hunting expedition in Mozambique, Portuguese East Africa.

Scott, married and the father of three children, is from Odessa, Tex., and he identified himself as the grand-son of Mrs. Maggie E. Scott of Odessa, owner of a chain of theaters in the South.

He was taken before U.S. Commissioner Earl N. Bishopp Monday. Bishopp set bail at \$35,000 and set April 19 for a hearing.

'Recession' Looms For TV's Westerns

NEW YORK (UPI)—You'll wonder where the Westerns went when you flip the dial on your TV set.

A glance at the rapidly filling network schedules for next season bears out those reports you've been hearing about a recession on TV's Western front.

So far, the three networks are showing a definite coolness toward Westerns as they reach for offbeat situation comedies, adult cartoon formats, a game show or two, exotic adventure series and the mystery-drama shows in filling their time slots for 1961-62.

Apart from "Gunsmoke," which CBS-TV is expanding to a full-hour next season, no new Westerns are headed our way. This doesn't mean that TV's Western buff is being shut out. There will still be at least 14 horse operas carrying over from the current season. There were about

House To Resume It's Work Today On Loan Measure

AUSTIN (UPI)—Legislation to outlaw loan sharks in Texas will get its first test today in the House.

The House was scheduled to end the Easter holiday that began last Thursday with a 2 p.m. session. Senators returned to their desks Monday.

Sen. Culp Krueger of El Campo succeeded Tuesday on one of the shortest filibusters in Senate history. He needed only 15 minutes to convince senators that he meant business against a bill to extend state aid to consolidated school districts.

Senators agreed to quit without taking a vote on the measure after Krueger proved he was ready for a long siege of stalling tactics. The measure will probably be considered again next Monday when the upper chamber again has a schedule of Senate bills.

Scheduled for almost immediate consideration today in the House was a bill by Rep. Criss Cole of Houston to permit the State Bank-Houston to permit the State Banking Department to regulate the small loan industry and to set interest rates.

The legislation was urged by a constitutional amendment approved by Texas voters in the last general election.

House members brought the bill up for consideration last week, but adjourned for the holiday without debating the measure.

Krueger indicated he may filibuster some more when the bill is by Sen. Thomas Creighton of Mineral Wells returns to the floor as unfinished business. Pending is a vote on an amendment by Krueger to cut in half the number of years that the extended aid may be given the districts.

The measure would provide that consolidated school districts receive for 10 years the same amount of state aid that the two separate districts received before consolidation.

Krueger urged senators to limit the number of years to five.

Creighton told senators the measure was needed to provide an incentive for school consolidation, "this bill won't cost anybody any money," he said, pointing out that consolidation would eventually lead to a savings because it would eliminate duplicated school services.

The measure came to the floor on a 21-5 vote. Several of the senators voting against consideration of the bill aided Krueger by asking "friendly questions" as he geared for the filibuster. Krueger was armed with books and letters to read while stalling for time.

Creighton argued that under present law consolidated school districts are penalized because they receive less aid than they did before consolidation.

Finding Space 94 per cent of all off-street parking in the U.S. is represented by the \$4½ billion which private investors have put into parking facilities.

WASHINGTON (UPI)—The Department of the U.S. Chamber of Commerce states that

a dozen more when the 1960-61 season began.

Carryovers for next season include "Have Gun, Will Travel," "Wagon Train," "Rifleman," "Bonanza," "Rawhide" and possibly five others. Already departed or going bye-bye are "Wanted—Dead or Alive," "The Westerner," "Stagecoach West," "Wyatt Earp," "Bat Masterson," "Zane Grey Theater," "Deputy," "The Rebel," "Gunslinger" and the once-mighty "Maverick."

Since TV's Western chart seems to be bottoming out, I elected to live dangerously Tuesday night and watched not one, not two, but three Westerns—the hard way: one after another.

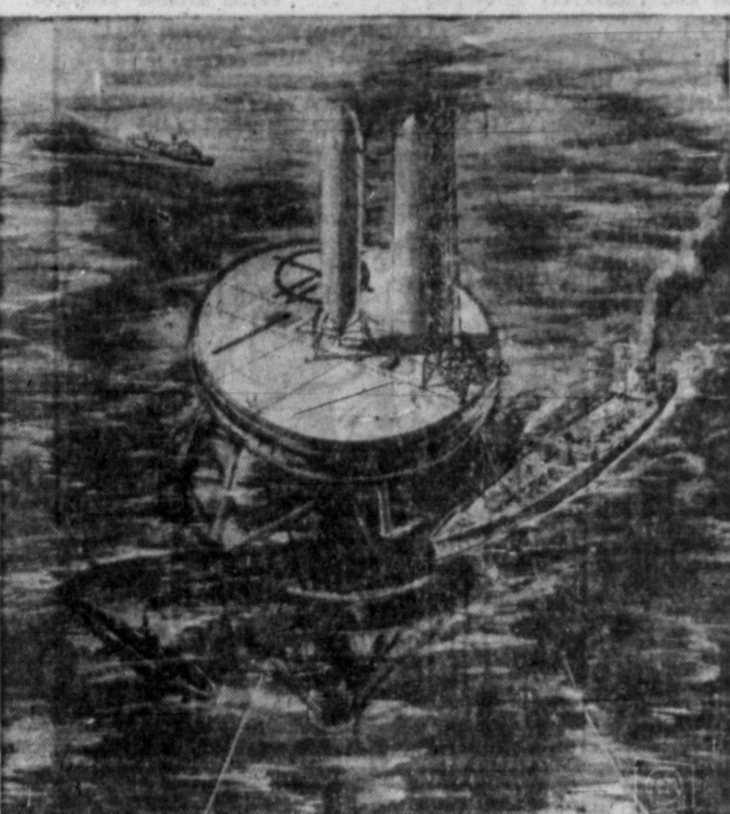

I stayed with ABC-TV for "Rifleman," "Wyatt Earp" and "Stagecoach West," in that order. In "Rifleman," Buddy Hackett played the part of a fellow named Bibs. In "Wyatt Earp," Morgan Woodward turned up as an old-timer called Gibbs. And in "Stagecoach West," Steven Terrell was a bad-guy named Tibbs. Bibs, Gibbs and Tibbs. Our Westerns have looked alike for so long that there's no reason why they shouldn't sound alike, too.

Only "Stagecoach" held attention. The ambitious story kept plugging along—plugging is the word, for I counted about a dozen fatalities during the hour—but it was the photography that was most worthwhile. The entire story took place outdoors and the hard-working cameras succeeded in creating setups that fairly glistened with atmosphere and then someone went and added shattering background music to the proceedings and ruined everything.

The Channel Swim: Fred Astaire will be more active than ever before on TV next season. The dancer-singer-actor has agreed to serve as host for Alcoa's new weekly series on the ABC-TV schedule beginning Tuesday, Oct. 10. Astaire will star in several programs as well. The series, replacing "Alcoa Presents," is planning musical specials along with dramatic anthology formats.

Viewers in the average American TV home spent 6 hrs. 8 min. per day watching TV in February, according to the latest Nielsen figures. The average represents an all-time high.

Jack Benny's daughter, Joan, will appear in "The Beverly Hills Police Station," now being filmed as a forthcoming presentation on the Sunday night CBS-TV comedy show presided over by her dad.

BUOYANT BASE—As a solution to the safe launching of huge chemical or nuclear-powered rockets of the future, a floating sea base has been proposed. Designed by Aerojet-General Corp., it is called "PROP" (Planetary Rocket Ocean Platform). Drawing shows a 300-foot nuclear rocket ready for launching. The platform is well above the waves and is supported by an underwater buoyant chamber. A submarine is used to evacuate personnel through an air lock after a nuclear firing. PROP is designed to have good stability, even in a hurricane.

STILL ACTIVE—Lord Clement Attlee, Laborite who defeated Winston Churchill in a postwar election and became prime minister, bids his wife adieu at London Airport. He flew to India for a three-week lecture-tour, discussing "Democracy and the United Nations."

Relations Between Jordan And Arab Republic Better

EDITOR'S NOTE: Relations between Jordan and the United Arab Republic have taken a dramatic turn for the better after a prolonged period of bitterness. In an interview with United Press International, Jordan's young King Hussein tells of his hopes for the future.

By DAVID DUGAS
United Press International

AMMAN, Jordan (UPI)—King Hussein of Jordan said today there was "every chance" he will meet personally with United Arab Republic President Gamal Abdel Nasser as a further step towards improving relations between the two nations.

In an interview here he called his recent exchange of letters with Nasser "only the first step" towards building a spirit of cooperation between Amman and Cairo.

"There will have to be many more," he said.

Relations between the two countries deteriorated seriously last fall following the bomb assassination of Jordan's Prime Minister Hazza Al Majali in gamman.

Hussein implicated Nasser in the killing. He condemned the United Arab Republic before the United Nations General Assembly in October for alleged interference in Jordan's internal affairs.

Then, in a dramatic move towards reconciliation, Hussein sent Nasser a personal message Feb. 23 calling for "cooperation and solidarity" in the face of "common dangers which face us."

"I was rather pleased with the president's lengthy reply," Hussein said today. "The letter I received from him, I think, is an indication of a desire to bring about a better understanding."

Asked if he would meet personally with Nasser he replied: "I around her house Tuesday. And think there is every chance for such a meeting... I can't say

IN AMERICA'S BIGGEST, TOUGHEST 1961 ECONOMY CONTEST...

Which man drove Rambler?

In the most realistic test of all-around gasoline economy ever staged—the NASCAR sanctioned 1961 Pure Oil Economy Trials at Daytona—Rambler won three trophies, held by driver Les Viland in the photo above.

No other make won more than one award... most won none.

Unlike other runs that put a premium on feather-footed driving, the Pure Oil Economy Trials closely parallel your own everyday driving experience.

Every U.S.-built production car is eligible. None are arbitrarily barred, as in some runs. In 1961, 145 cars representing all 5 U.S. makers competed.

Rambler American Custom with overdrive beat them all to win the cherished Overall Winner Trophy and captured the Class 6 trophy in competition with Falcon, Corvair, Lark and Tempest 4. In fact, it took the first 6 places and 8 of the first 10.

And Ambassador V-8 by Rambler won its Class, swept the first 8 places and 9 of the first 10 spots.

With speeds up to 65, and averaging more than 40 M.P.H., the winning Rambler American made 14 complete stops, shifted through the gears 15 times while circling the 3.7-mile course, and still averaged 26.86 miles per gallon!

This is the second straight year Rambler won the Pure Oil Economy Trials.

Want more proof of Rambler value? Then see your Rambler dealer. You'll find top gas economy is just part of your savings. Rambler costs less to buy, is voted most trouble-free by owners, has top resale value.

Rambler dealers sell twice as many compact cars per dealer as most other dealer groups. So, you get a better deal... on the best of the compacts. Rambler—world standard of compact car excellence.

SEE YOUR RAMBLER DEALER—Drive the Recognized Economy King!

EMERGENCY BOYPOWER—When a sleet storm knocked out power at the John Freeman home in Wickliffe, Ohio, Freeman was ready. The furnace was burning but the blower motor was out. Ingenious Freeman rigged a bicycle to the blower. He removed the tire from the rear wheel, connected a belt from wheel to blower and called on John Jr. to supply the power. Then warm air circulated throughout the house. Though cheered on by dad and sister Kathleen, 12, John Jr. appears disenchanted with the idea.

Mink Coat Proves One Possession Star Of TV Shows Found Unlucky

HOLLYWOOD (UPI)—Nothing changes an actress' life like mink. A full-length blond mink coat jeopardized young Diana Millay's reputation, cast doubts on her personal life, increased her cost of living and lost her a boyfriend. It began when blonde Diana, who has starred in more than a hundred TV shows, was asked to rent a mink for her role in a new video series. But the furrier insisted that the coat was made for Diana, and that she keep it for a week before deciding to buy it. "He gave me a fantastically good price," she said, "and I fell in love with it. "I thought that in Hollywood a good basic mink is what every actress needs. But then things began to happen. "I wore the new coat to pick up my car at the wash rack. It had always cost me \$1.50, but the man took a look at the coat and upped the price to \$2. "The next night I had a date with a young attorney I'd been going out with. He's a successful man, but not wealthy. I wore the coat to impress him. Well, I im-

Roll Of Jobless Again Reduced, Report Reveals

WASHINGTON (UPI)—Labor Department officials, disappointed by the small decline in joblessness last month, warned today that unemployment may not go below four million this year. At the same time, however, they predicted the number of jobs would continue to hit new record highs as the economy pulls out of the recession in the months ahead. Labor Secretary Arthur J. Goldberg announced Tuesday that unemployment fell by 210,000 last month to 5,495,000, the highest total for March since 1941. The decline, although it was the first in six months, was not as big as usual for this time of year when construction, farming and other outdoor activities get going again after a winter slowdown. Employment soared to a March record of 65,516,000, an increase of 851,000 over February, to complicate the job picture.

ARCH FOR ART'S SAKE—Impressive backdrop for actress Yvette Mimieux is one of the great Gothic arches of an aqueduct built by Louis XIV to supply water for the fountains of Versailles, France. Yvette is in France for the film remake of "The Four Horsemen of the Apocalypse."

"Eloise is pretty shrewd. She has a hope chest and she's filling it with trading stamps!"

WASHINGTON (UPI)—Labor Department officials, disappointed by the small decline in joblessness last month, warned today that unemployment may not go below four million this year. At the same time, however, they predicted the number of jobs would continue to hit new record highs as the economy pulls out of the recession in the months ahead. Labor Secretary Arthur J. Goldberg announced Tuesday that unemployment fell by 210,000 last month to 5,495,000, the highest total for March since 1941. The decline, although it was the first in six months, was not as big as usual for this time of year when construction, farming and other outdoor activities get going again after a winter slowdown. Employment soared to a March record of 65,516,000, an increase of 851,000 over February, to complicate the job picture. The report was regarded by Seymour Wolfbein, deputy assistant labor secretary, as a sign that both high employment and serious unemployment would continue through most of 1961. He said it underscored President Kennedy's warning that unemployment might still be 6 or 7 per cent of the labor force— from four to five million—even after recovery from the recession. Wolfbein and other experts have no pat answer to the question of why unemployment and employment are both at record post-war levels. But they have a hunch the increase in the labor force over the past year partly explains the paradox. The civilian labor force is now, about 71 million persons— 2.5 million more than a year ago, and 650,000 greater than in February.

Ethics Lose Out
NEW YORK (UPI)—Unfair business practices are on the increase, according to a poll of 600 managers and sales executives. Salesweek magazine, which took the poll, asked the executives to indicate unethical practices they most often encountered. Forty-five per cent cited misrepresentation of merchandise, 38 per cent felt demand for kickbacks had increased in recent years, and 32 per cent saw more price gouging. Only 6 per cent listed padded expense accounts among unethical practices.

THRIFTIEST
COOK IN TOWN!

That's you—when Reddy's your helper. The real cooking economies come from an electric range. Because electric roasting needs no air, it doesn't draw the moisture from your oven when you're roasting. Result? Less meat shrinkage—more for your meat dear. Again—because electric heat is accurately measured—you use less water when cooking vegetables. Result? More minerals and vitamins stay in the food—less heat is used to bring the smaller amount of water needed to a boil. Savings for you once more. And finally—the big economy from the cleanliness of electric cooking. You won't have to wash your walls and curtains as often—and you'll stretch out the time between painting and decorating expense. Thrifty cooking? Of course, it's electric.

Mexican Reaction To Appointment Of Texan As Envoy Found Varied

MEXICO CITY (UPI) — The novelty of having a Texan as ambassador to Mexico has stirred up a lot of talk here.

Two main schools of thought emerge in a survey of opinion by UPI on naming of Laredoan Thomas C. Mann by President Kennedy —

1. "They shouldn't have done it."
2. "Just what the doctor ordered."

Mann will be the first Texan in nearly half a century to be serving as top representative of Washington in this country, official sources said.

The last was a man who later became a famous federal judge in Texas—Daval West of San Antonio.

West was in Mexico as President Woodrow Wilson's personal representative in 1914, following a break of relation between the two countries in the wake of Mexico's revolution.

The fact that Texan Lyndon Johnson is vice president of the

United States and has shown himself sympathetic to Mexican ambition and even hot Mexican food was also cited in favor of Mann.

On the negative side of a Texan ambassador's balance sheet, the summary of opinion reveals, are two principal items:

1. History—That goes back to the Texan independence war against Mexico, the battle of the Alamo, and Texans' participation in the U.S.-Mexico War. Many Mexicans, like many Texans, are still fighting the battle of the Alamo (1836).

2. Discrimination—A record of segregating persons of Mexican descent in many places in Texas. This has improved considerably in recent years, due to efforts of "good neighbor" organizations. But there is still a ranking among many here about signs that appeared in some Texas towns—such as "Mexicans and dogs not permitted," and over refusal of restaurant service even to Mexican consular officials. Every such incident aroused a new wave of anti-U.S. feeling here.

One Texan, who is a long time resident of Mexico, likes the country and the people here, said:

"Maybe Mann will help us forget the Alamo, instead of always remembering it. And Mexicans will think of us as Americans rather than Texans."

Another Texan in business here stated:

"Texans are the Americans with the greatest affinity for Mexico, geographically and psychologically, and after all, they were all once part of the same country, Spain."

"Most U.S. tourists coming to Mexico, among the nearly 700,000 annually, are from Texas. They are the ones who for the most part come by automobile, travel in remote areas as well as the metropolitan centers, and usually able to talk with the people here in their own language."

BANDIT ROBS PRIEST

LOS ANGELES (UPI) — A bandit stole \$2,274 in Easter collections Monday from a Roman Catholic priest taking the money to a bank. The Rev. Edward J. Sexton, 47, assistant pastor of Holy Name of Jesus Church, said he was carrying a second bag containing \$500 which the bandit apparently did not see.

Oklahoma School Lists 4 Pampans

WEATHERFORD, OKLA. — Among 179 Texas students who are part of a record-breaking second semester enrollment at Southwestern (Oklahoma) State College are four from Pampa.

They are: Sandra Cannon, daughter of Mr. and Mrs. L. Cannon, 101 S. Dwight; and Joe Milligan, son of Mr. and Mrs. L. D. Milligan, both enrolled in pharmacy, and pre-pharmacy students Don Blaylock, son of Mr. and Mrs. H. J. Blaylock, 1018 McCougah, and James Wilson, 1704 Hamilton, all of Pampa.

Milligan will graduate from the Southwestern State school of pharmacy with the May, 1961, class.

matter of FACT

The origin of the Signs of the Zodiac is unknown, but something akin to them apparently existed nearly 5,000 years ago. The zodiac is actually the zone of the heavens traversed by the paths of the sun, the moon, and the principal planets. The names of the zodiacal signs are taken from those of constellations through which the sun moves in its arc.

The woman who decides she likes gray hair and wants to keep it should take some steps to keep a youthful look. The first of these is a new coiffure (left) that's short, simple and chic. Lovely eyes are enhanced (center) with jade eyeshadow and navy blue mascara. A whole world of color opens up (right) for the gray-haired beauty. Shades she never could wear before are now rightfully hers. This is true of accessories, jewelry and make-up, too.

Mrs. Nickols Feted At Lullaby Shower

SKELLYTOWN (Sp)—Mrs. Elmer Nickols was recently complimented with a stork shower in the Skelly Schaefer Club House with members of the club as hostesses. Spring flowers were used in the gift table and refreshment table decoration.

Two appropriate party games were played with the prizes given to the honoree.

Mrs. Nickols was presented a corsage made of baby socks in pastel shades and tied with a pink and blue ribbon. Plate favors were miniature diapers filled with mints and nuts.

Attending were Meses. H. O. Gosnell Irvin Brown, Hunt Van Buren, Bill Truitt, R. C. Heaton, H. W. Gentry, L. D. Cowart, C. J. Horner, Jack Hutchinson, Melvin Norris, L. Barrett, Walter Reed, P. E. Stephenson, R. E. McAllister, R. E. Moseley, Raymond Shannon, A. R. McGee, A. L. Black, J. M. Chapin, John Kenney, Gene Colborn, J. A. Willson, and Miss Beverly Moseley. Sending gifts were Meses. George Poriet Clifford Everhart, M. E. West, Bob Shoulders, F. S. Genett, Vern Wert, Leroy Allan, Claud Gray, R. T. Davis, Bill Adams, C. Stewart, C. O. Slavens and Edd Harmon.

Winsome Class With Mrs. W. D. Neville

CANADIAN (Sp)—Mrs. W. D. Neville was hostess to the Winsome Class of the First Baptist Church recently.

Mrs. Mose Damron gave the devotional "Power Praise." Mrs. J. C. Cain was in charge of the social hour.

Those present were Meses. Virgil Brock, Bonnie Martin, J. C. Cain, J. C. Jackson, B. A. Goodman, Elmo Wheeler, Randy Sumner, and Mose Damron.

New Fashion World Opens For Silver Beauty

By ALICIA HART

News-Enterprise Assn.

home. A leading beauty house offers a color rinse for gray hair that can tone it up, make it deeper, give it a blue or violet cast, bring out a slate or charcoal lustre, if you so desire. There are six shades.

Brushing, always important, is doubly necessary to bring out shining highlights in gray hair. And a short, expertly shaped coiffure is a must. If you can wear bangs, (and nearly everyone can) wear some version of the new fringes. They will add softness to your hair style.

As you mature, your skin becomes lighter. So be careful not to choose too dark a base. Pink or rose tone lipsticks will be your best bets. But, when worn with certain wardrobe colors, even clear red will be a good choice.

You can run the gamut with eye make-up, experimenting with violets, greens and blues for a dramatic effect.

You'll have the time of your life with your wardrobe. You will find you can wear bold colors that you would never have tried when your hair was a more definite shade.

Black and white tweeds, bright plaids, clear red, violet, apple green and even the new vivid spring pinks will suit you perfectly. And instead of black or dark navy, you can choose bright electric blues and greens, and wear them with aplomb.

Think twice before you change your gray hair back to its original shade.

Gray hair imposes no color limitations, and gives you the opportunity to look more exciting and glamorous than ever before.

Parents of the bride-to-be should make arrangements about use of the church as far in advance as possible.

Not since the days of powdered-wig court beauties has gray hair been so fashionable. And since gray is a neutral shade, it permits you to change the color of your make-up to suit every mood and occasion.

You can even change your shade of gray easily and quickly at

Dear Abby... Abby Tells Organist To Change Tune!

ABIGAIL VAN BUREN

DEAR ABBY: I am an organist in the dining room of a resort hotel. One of our guests was an elderly gentleman, badly crippled with arthritis. He was in a wheelchair and had to be spoon-fed. He had dinner in our dining room every night with a male nurse who traveled with him. One of our waitresses took a shine to this male nurse. I don't know if they ever got together after the elderly man was put to bed, but here is the problem: The elderly gentleman and his male nurse checked out, and now the little waitress just stands around, staring into space. When I play "Danny Boy" (that is the male nurse's name she takes to the kitchen and cries. She asked me to get "Danny's" address from the desk. Should I do it?

ORGANIST DEAR ABBY: Don't get involved. If "Danny Boy" wanted the little waitress to have his address, he would have given it to her. She'll get over it. In the meantime, play "I'm Gonna Wash That Man Right Out of My Hair."

DEAR ABBY: Your criticism of tobacco chewers was unjust. I have chewed tobacco since I was a boy of 14, and today I am 79. I guess I must have chewed up a trainload in my day. Tobacco was meant to be chewed, not smoked. And if you do it right, you can talk by the hour and no one will know you are chewing. Our forefathers and foremothers (yes, ladies chewed, too) found tobacco chewing to be very soothing

with no ill after-effects. And you didn't see them running after psychiatrists or sleeping pills to quiet their nerves. The old-timers had nerves so steady that nothing short of a Comanche raid could excite them.

OLD - TIMER DEAR OLD - TIMER: Yours is the first good word I have ever had from anyone regarding the use of tobacco. Twenty - three spito!

DEAR ABBY: I want a pet but Mom won't let me have a cat. Mom won't let me have a dog. I don't like rats or mice. Mom is afraid of birds. Dad says a monkey or a rabbit is out of the question. Goldfish aren't any fun, and neither are turtles. Do you have any suggestions? I am ten years old. Don't you think I should have a pet?

WANTS A PET DEAR WANTS: About the only "pet" you haven't mentioned is the hamster. They are clean little things and easy to care for. I think all children should have pets. It's an excellent way to learn responsibility.

CONFIDENTIAL TO "DESK NEAR THE WINDOW": A woman who marries a man because she "feels sorry for him" usually winds up feeling sorer for herself.

Yes, Abby will answer your letter personally if you write to ABBY, Box 3365 Beverly Hills, Calif., and enclose a stamped, self-addressed envelope.

Polly's Quiz

By Polly Cramer

Open your cupboard doors. For in one of them there may lurk an exciting new color scheme. It might be a beautiful plate, a picture, a scrap of lovely chintz or wallpaper bought at a remnant sale and never put to use. Use one as a basis for a scheme in that hard-to-do room.

One of the less dominant colors could be used for the background and larger areas. A second color could be used in lesser amount with a third. This third and possibly more vibrant shade might be the accent color for the room. Often schemes happen in the most unlikely places, but a keen and searching eye will ferret them out.

Dear Polly: We just moved into a new apartment and want to furnish the living room but don't know where to start. I would like a plum sofa. The walls are beige. What color chair, curtains and rug should I buy? Does plum go well with beige?—Mrs. C. A.

Dear Mrs. C. A.: In a word, no. Plum and beige would team up to give you a drab, dull room. If you want a plum sofa, repaint those walls. Pale seafoam green walls and curtains would make your room seem larger. The rug could then be a slightly deeper tone of the green. Slip cover the chair with a gay print that has pink and plum flowers with green leaves on a white ground.

Dear Polly: What do you think of a pink and yellow bathroom? I have yellow ceramic tile. The walls above are now white. Draw curtains, like the adjoining bedroom, are soft green with much yellow and pink in the small design. I find nothing in decorating books to justify this combination but I like it. Would my friends laugh me to scorn if I paint the walls pink and use a pink-and-white shower curtain? I love pink towels in my yellow room.—Mrs. L. T. P.

Dear Mrs. L. T. P.: Offbeat color combinations fall very flat or they can come off with a bang. Usually, they should be handled by experts. But your letter indicates that you might get away with this one. Paint the walls yellow, not

REMOVE LIPSTICK It's important to completely remove a "lipstick mouth" every night. After tussling off the excess color and washing your face, wash your lips again with warm soapsuds.

New Development For Vinyl Floors

It's a liquid floor finish with the same chemical "Acrylic" used in the new auto finishes to eliminate waxing. New Seal Gloss gives a high gloss finish and does not yellow. Ends water spotting and is slip resistant. Also resists scuffing and lasts for months. Use easy to apply Seal Gloss on vinyl, linoleum, asphalt, terrazzo, and wood for beautiful, clear floors.

Masters Play Opens Tomorrow

Top Teers Eye Golf's Big Prize

AUGUSTA, Ga. (UPI) — Gary Player, the little South African who is golf's leading money winner this year, today gave the strongest foreign delegation ever to compete in the tournament its best chance to win the Masters title for the first time.

Rated next to defending champion Arnold Palmer in the pre-tourney betting odds, Player, using a longer swing, has won \$25,200 thus far in 1961 and thinks the days the Masters has been dominated by United States pros "are about over."

"It may be this year," said Player, competing in his fifth Masters. "But if not, I'd guess that within four years the foreign players will start winning this tournament and once they do they'll keep on winning it."

The betting odds had Palmer favored at 4-1 followed by Player at 6-1.

Player agreed with the talent-laden Masters field that this is by far the strongest foreign entry list in Masters history.

"With fellows like Roberto de Vicenzo, Stan Leonard, Angel Miguel and all the others, we ought to do all right," he said.

The best a foreign player ever has been able to do in the previous 24 Masters tournaments was the fourth-place ties of Leonard, the Canadian star, in 1958 and again in 1959.

Player's best was a sixth-place tie last year. Peter Thomson of Australia, another leading foreign threat, was fifth in 1957.

In all, 17 foreign entrants will be in the field which will tee off Thursday for the first of the four 18-hole rounds which will decide the 1961 Masters champion.

Player feels the Masters course is built for a player like De Vicenzo, the Argentine now playing out of Mexico; Leonard, Angel Miguel and Thomson.

History To Repeat?
Celtics Aim For Win In Second NBA Tilt

BOSTON (UPI) — The defending champion Boston Celtics clash with the St. Louis Hawks tonight at the Garden in the second game of their title series, vowing not to let history repeat.

Boston won the opener here Sunday in a runaway. But the Celtics remember all too well what happened in similar circumstances a year ago in the National Basketball Association final playoff series.

That time, too, the Celtics loped to an opening game victory. And everyone began predicting a four- or five-game series. But the Hawks roared back to take the second game by 10 points and the series went the full seven tilts before Boston won the championship for the second straight year.

"We're hoping lightning doesn't strike twice in the same place," said Celtics coach Red Auerbach.

FRENCH LEAVE — Jockey J. R. French, right, watches G. Harwood take a nose-dive from mount in the Royal Borough Hunter's Steeplechase at Windsor, England.

With Tascosa On Top

3-4A Golfers Try PCC Links Again

With eyes cast warily on the local skies, golfers representing the eight members of District 3-4A will try again tomorrow to complete the second 18-hole segment of the 1961 conference golf championship at Pampa Country Club.

The 'A' division teams are slated to tee off at 11 a.m., with Hart Warren, Pampa Country Club pro, said this morning that due to the District 3-4A golf tournament at PCC tomorrow morning, local golfers and club members would not be able to use the course until 2 p.m. tomorrow.

Hatcher is only two strokes off the two-way tie for medalist 75. With his 77, and the home course advantage, Hatcher is rated a strong bet to move up on the co-leaders, Tascosa's Wade Whiteley and Borger's Don Lackey.

The new face in the Pampa 'A' golfers is Prigmore, who shot an 84 in Lubbock to pace Pampa's 'B' division entrant.

Lubbock Monterey leads the 'B' division with a 322 and is followed by Borger (341), Tascosa (342), Pampa (356), Palo Duro (368) and Amarillo (376).

BARONS PROMOTE COACH CLEVELAND, Ohio (UPI) — Jackie Gordon, coach of the Cleveland Barons, has been promoted to general manager of player personnel for the American Hockey League club. The 33-year-old Gordon also was named a member of the board of directors.

RIDES THREE WINNERS HALLANDALE, Fla. (UPI) — Jockey Charlie Burr booted home three winners at Gulfstream Park Tuesday, including the second half of a \$147.80 daily double.

Trying To Break Old Habit Of Finishing Last

(EDITORS NOTE — This is another in a series on the 1961 prospects of the major league teams.)

POMPANO BEACH, Fla. (UPI) — Finishing last was pretty much of a habit with the old Washington Senators. Mickey Vernon, making his major league managerial debut, promises it isn't going to be that way with the new club in the nation's capital.

Vernon was asked where the club is going to finish. All he will say is: "We are going to be a lot better than most people think. We'll surprise some of the big clubs, not once, but several times."

He only grins when general manager Ed Doherty maintains the new Senators are good enough to finish as high as fifth in the expanded 16-team American League. Doherty feels his club can beat out the old Senators, who moved to what they

Cards Nip NY, 2-1, KC Wins

By FRED DOWN
United Press International.

Solly Hemus is one up on managers who are announcing their starting pitchers because he also has his "finisher" primed for the St. Louis Cardinals' National League opener next week.

Solly's "end game ace" is Lindy McDaniel, of course, and the big right-hander's work this spring indicates that he's ready to pick right up where he left off last year as the game's No. 1 reliever.

McDaniel, one-time \$50,000 bonus whiz who blossomed into a brilliant relief pitcher last season, yielded his first earned run of the spring Tuesday but received credit for the Cardinals' 2-1 11-inning win over the New York Yankees. McDaniel, who had a 12-4 record and 2.09 earned run average in 1960, has allowed one earned run in 13 innings this spring.

"McDaniel is the best relief pitcher I've ever seen and he's in top form this spring," says Hemus, who thinks Lindy can be the key to a St. Louis pennant. "For five or six innings he's the toughest pitcher in the game to hit."

Hemus isn't concerned over next Tuesday's starting pitcher, either, because he's already announced that it will be 21-game winner Ernie Broglio, in one of his final tuneups for the opening-day assignment, hurled six shutout innings in Tuesday's triumph.

Ray Herbert, a 14-game winner last season, was named by Joe Gordon to open for the Kansas City Athletics after pitching eight straight innings in an 11-inning, 11-10 decision over the Baltimore Orioles. Herbert went the first eight innings and allowed four runs and 16 hits.

Pony League Trials Near

Tom Glover, president of the Pampa Pony League, reminded 13 and 14-year-old Pampa youths today that 1961 tryouts for newcomers and those who didn't play in Pampa last year were to be held this weekend.

Boys planning to play in the Pony loop must make two of the three workouts to be eligible. All workouts will be held at the Pampa Pony League field.

The three workouts will be held at 5 p.m. Friday, and 9:30 a.m. and 1:30 p.m. Saturday.

ROY DON STEPHENS ... against the wind

Foreseen Four Years Ago

Jockey Keeps Date With Fate, Death

NEW YORK (UPI) — "I'm going to become a great jockey or I'll die trying."

That was the promise Roy Gilbert made four years ago to Woody Stephens when he quit his job as an exercise boy with the New York trainer to become an apprentice jockey.

In the intervening years, Stephens watched proudly as his protégé made that long, hard climb up the jockey ladder.

The veteran trainer was first in Florida on Feb. 6, 1958. He finished that year with 16 winners, increased it to 33 in 1959, and last year he booted home 81 winners.

Plenty Papaya suddenly wheeled to the left and crashed into the aluminum inside rail, tossing Roy to the ground.

Gilbert was placed aboard the ambulance, blood oozing from his left ear. He died of a skull fracture before the ambulance reached Physician's Hospital.

Top Shots In Relays

AUSTIN (UPI) — The state's top shot putter will set the pace Friday and Saturday for field competition in the Texas Relays.

He is John Fry of Baylor, who hurled the shot this season to a 58-10 1/2 mark, three and a half feet above the Southwest Conference record. Pushing Fry for top place in the relays will be teammate Buddy Tyner and University of Texas' Jim Allison.

Out-of-staters expected to be strong in the shot are Don Smith of Missouri and John McCarrier of Wichita. Smith was second in the Big Eight Indoor Meet with a 57-7 1/2 put.

LUBBOCK — Tom S. Lubbock, keeping pace with cross-town rival Monterey, stayed in the thick of the District 3-4A baseball title picture here yesterday afternoon with an easy 8-3 victory over Amarillo Tascosa.

Tascosa parlayed a walk, single and double into a first-inning run, but the Westerners came untinged in the second frame to score three times as Phil Johnson hit a two-run homer and Lubbock coasted home.

Lubbock pounded out 11 hits in running their district mark to 4-0 as Fred Hamrick picked up the victory. Bob Hurd was the loser before being relieved in the fourth inning.

Lubbock's next game is with Pampa Friday in Pampa.

Tascosa 100 100 1-3 6 2
Lubbock 81 400 x-8 11 3

Clark, Glover Hurl Three-Hitter

By ARTHUR MAYHEW
Daily News Sports Editor

AMARILLO — Mike Clark and Jerry Glover, a pair of rubber-armed pitchers, linked right arms for a combined three-hitter and Centerfielder Roy Don Stephens provided the bat fireworks to send Pampa's Harvesters to a wind-swept 3-1 victory over the Palo Duro Dons here yesterday afternoon in a District 3-4A contest.

Glover notched his second win of the year and first in district competition in relief of Clark as he pitched the Green and Gold into third place in the district standings. Don Starter Tony Thompson was handed his first loss in three games this season.

Stephens, batting .166 going into yesterday's contest, provided what turned out to be the decisive run when he hammered a 315-foot homer against the wind over the left field fence in the fourth inning.

In the beginning, however, the day looked like anything but the Harvesters.

Clark, who usually relies on control as one of his chief assets, got into hot water in the bottom of the first when two straight walks and a bunt single loaded the bases for Palo Duro with none away.

Seeming to thrive on bad weather days and pressure, Clark made cleanup hitter Bob Wood hit into a Crossland-to Mike Stewart force play at the plate, then fanned the next two men to escape the inning unscathed.

Pampa, which collected one hit each in the first; and second innings, tacked up its first run in the third without the use of a safety as Keith Gregory walked, moved to second on Crossland's walk and to third as Larry Stroud hit into a force play at second.

Thompson then tried to pick Stroud off first, but the throw got away from Steve Carter. Don first sacker, and Gregory scampered home with the first PHS tally of the afternoon.

The Harvesters upped their margin to 2-0 in the fourth with Stephens' blast but missed an opportunity to enlarge their lead as they loaded the bases with two walks and a single by Clark before reliever Wayland Danile came in to quell the uprising by forcing Stroud to fly out to deep right.

Palo Duro marked up its first and last — run in the fourth as Clark issued four walks — three with two away — to force in Gordon Nelson from third.

Glover then got the call from Coach Deck Woldt and the sophomore, with the tying and go-ahead runs dancing around behind him, forced James Cavington to bounce out to first, with Glover covering.

Pampa came back to hang up its final marker in the fifth inning as Gerrel Owens singled to right, moved to third on Stewart's bunt single between pitcher and first, and scored on Glover's sinking liner to right.

The Dons took advantage of two Pampa errors in the fifth inning to mount their last strong rally, but Pampa's Gregory, as cool as an ice man in the vault, speared a line-drive by Nelson, then stepped on third to double off Wood, and the air went out of the Dons' attack.

Palo Duro once more advanced a man to second, the final time in the sixth inning, but Glover rose to the occasion and forced the number three man in the Dons' batting order to ground out and end the inning.

In winning, Glover gave up two hits, no runs and struck out one and walked one in 3 1-3 innings. Clark only gave up one hit in his 3-2-3 inning stint but seven walks led to his dismissal.

However, the two pitchers had a field day at the plate, collecting three of Pampa's seven hits between them, Clark banging out two of them.

GAME NOTES — Keith Gregory hitting .666 going into yesterday's game, failed to collect a bingle but walked twice and scored one of Pampa's three runs. Defensively, he made four putouts two coming on a heads-up unassisted double play, and three assists.

For awhile yesterday, it looked like Pampa might have to forfeit the game because of a lack of bats. Three PHS bats were broken, two of which were splintered at the head as Harvesters went for outside pitches.

Palo Duro field looked like a Red Cross convention as PHS second baseman was spiked in the fourth inning. Owens turned an ankle and Don Catcher Dale Pitts was hit in the leg with a foul tip.

'Shoe' Boots Home Winner

By United Press International
Willie Shoemaker does most of his horseback riding in California, but he isn't adverse to cracking a few headlines in New York, from time to time.

One of the all-time great jockeys, the Texas-born 29-year-old Shoemaker booted home four winners at Aqueduct Tuesday to share the day's honors with Primonetta-winner of the feature \$10,000 allowance test.

Shoemaker, who arrived in New York only Monday, started his streak aboard Charming Hilly (\$8,400) in the second, and continued with Door of Hope (\$4,200) in the third, Keep Ideals (\$6,700) in the sixth and Bully's Lady (\$8,300) in the eighth.

Primonetta, who won all four of her starts as a juvenile, is scored by three and one-quarter lengths over Apantothback, with Vivandiere third. The impressive 3-year-old daughter of Swaps was longed under a good ride by Bill Hartack and she returned \$2.60, \$3.30 and \$2.10.

Expansion Program Slated By Sun Oil

Sun Oil Company will invest three times as much in new manufacturing plants in 1961 as it did in 1960, and boost capital spending for new oil and gas production facilities by 17 per cent.

The company's 1960 annual report, released today, shows a total of \$131,000,000 has been budgeted for expansion, modernization and the drilling of wells to develop new reserves of oil and gas this year. This compares with \$106,600,000 last year.

In earning 6.5 cents on each dollar of revenue in 1960, Sun reached the second highest net income in its history — a total of \$49,272,661, representing a gain of 15 per cent over the \$42,844,225 reported for 1959, the report shows.

The 1960 net was equivalent to \$3.78 per share on 13,046,588 full shares of stock outstanding at the year end, compared with \$3.48 on 720,274 fewer shares at the end of 1959.

Joseph N. Pew, Jr., chairman, and Robert G. Dunlop, president, told stockholders that four factors were primarily responsible for the improved earnings: a continued attack on costs, development of manufacturing capability, and markets for products which yield a higher return on the processing of crude oil, greater selectivity in selling, and increases in the production of crude oil and natural gas.

The said stockholders, employees and customers had all shared in the company's gains. Stockholders received a six per cent stock dividend, compared with a five per cent stock dividend in 1959, in addition to the usual 25 cents quarterly cash dividend. Employees, except for those in the higher salary brackets, received an across-the-board wage increase. Customers, they added, benefited through a plentiful supply of fine products at greater values in price, quality and service than Sun has ever offered.

The company's wage and benefit payments reached a record \$162,600,000, up \$6,600,000.

Looking ahead, Messrs. Pew and Dunlop said that Sun's efforts to expand the output of high-value products had placed it in a stronger position to realize the large future potential of a number of promising petrochemical lines now in the "tooling-up" stage.

Under construction at the company's refinery at Toledo, Ohio, is the world's largest petroleum naphthalene plant, representing an investment of \$8,900,000 — one of the company's affiliates, SunOlin Chemical Company, owned equally with Olin Mathieson Chemical Corporation, completed a \$7,000,000 urea plant and now has under construction a \$23,000,000 ethylene

and ethylene oxide plant. Another affiliate, Avi-Sun Corporation, equally owned with American Viscose Corporation, is building a plant capable of producing 75,000,000 pounds per year of polypropylene resin next to its polypropylene film plant at New Castle, Del.

The Sun report shows a ratio of current assets to current liabilities of 2.6 at the year end. During the year current liabilities and long-term debt were reduced by \$13,405,687, and stockholders equity gained \$36,114,568. Long-term debt of \$23,608,812 at the year end was equivalent to only 3.9 per cent of Sun's total invested capital.

Although the company curtailed drilling in 1960, its reserves of crude oil and natural gas reached record levels, the report states. Fifteen successful wells were completed in Lake Maracaibo, Venezuela, and one of them penetrated 1,797 feet of pay sand, the thickest section ever to be found in Venezuela. Sun's production of crude oil and natural gas liquids gained 16.2 per cent over 1959, reaching 54,877,000 net barrels.

The second of a pair of 50,000 deadweight ton supertankers was added to the Sun fleet in 1960, and remote control equipment was installed at several pumping stations on the company's pipe lines.

Crude runs to stills at the company's refineries were reduced from 84,810,000 barrels in 1959 to 82,456,000 in 1960, but the output of petrochemicals, lubricants, waxes and other high-value products increased appreciably, the report states. A record number of 131 new U.S. patents were issued to the company during the year.

Sun's volume of sales declined somewhat less than crude runs, the report shows, with total sales amounting to 83,788,000 barrels against 85,601,000 in 1959. Sales of petrochemicals, lubricants and waxes were higher, however, and foreign sales gained 21 per cent, primarily in Italy, Japan and Germany. The company acquired 391 service stations and signed 68 new distributors to handle its branded products, resulting in bringing still another 200 stations under the Sunoco trademark.

Sun Shipbuilding & Dry Dock Company, wholly owned subsidiary, increased its volume of business by more than \$6,000,000 over 1959 and ended the year with a two-year backlog of work, the report states.

DEFENDS VOTING AGE
—PORTSMOUTH, Va. (UPI)—Miss America, 19-year-old Nancy Anne Fleming, said Tuesday she doesn't think teen-agers should be given the right to vote. "Youngsters begin to feel independent at 17, but it takes them a few years to realize they're not as smart as they think," she said.

ACTRESS GETS DIVORCE
NEW YORK (UPI)—Red-haired model and actress Suzy Parker has obtained a divorce from her French husband to whom she was married in secrecy two years ago, it was disclosed Tuesday. Paul O'Dwyer, attorney for Miss Parker, said she divorced Pierre de la Sale, 34, on March 21 on grounds of incompatibility and received custody of their daughter, Georgia Belle, 15 months.

Eager Hunting Dog Causes Man's Death

HOUSTON (UPI)—It was a warm spring day and Floyd D. Cloud, 53, put his shotgun and his dog in his battered old pickup he used for hunting and headed for the open fields.

His Dalmatian was perhaps even more eager than Cloud for a romp in the sun. So eager, in fact, it caused Cloud's death.

Nobody saw the accident Monday and authorities could only speculate as to what happened. Two motorists found Cloud's body hanging over a barbed-wire fence. The charge from his .410-gauge shotgun had hit him in the face and killed him instantly.

Tony Randio, a sheriff's investigator, said Cloud apparently

propped the shotgun against the fence and started to crawl through the strands with the dog tugging on a leash ahead of him.

"There were two tears in his shirt where it had caught on the top strand of wire," Randio said. "Perhaps the dog tugged him, causing him to bump into the wire and knocking the gun over against him. At any rate, the gun fell and went off accidentally."

Cloud, a former member of the Houston School Board, is survived by his widow, a public school teacher, a son and a daughter.

A worn shaving brush can be made into a soft complexion brush for giving your face and neck an effective soap massage.

Four Persons Die As Planes Crash

RIVERSIDE, Calif. (UPI)—Four persons flying in two planes were killed Tuesday when the light crafts collided over heavily populated Arlanza residential district.

One plane plunged into a parked car and exploded. Flames engulfed both the plane and the empty auto. Wreckage of the other plane fell in the backyard of a home, shearing telephone and power lines.

Victims of the crash were identified as Delmar B. Ronk, 29, a flying instructor, and his student, Philip H. Loucks, 33, of Loma Linda, Calif., in a Cessna 172; and Stanley R. Pidduck of Oxnard, Calif., and Charles N. Kimball, 31, member of a prominent Ventura, Calif., family, in a Beechcraft.

Sheriff's Ouster Case Being Heard

BEAUMONT (UPI)—Jefferson County's attempt to oust Sheriff Charles H. Meyer from office opened again today before 60th District Court Judge Gordon Gary.

A hearing Monday ended after three and one-half hours of arguments concerning the removal action. Judge Gary rejected a petition signed by six citizens asking Meyer be temporarily suspended.

Argument on a second and amended removal motion by special Dist. Atty. W. Gale Walley Jr. are expected to be concluded today.

Meyer is under grand jury indictment for alleged misconduct in office and accepting bribes.

Rise Coming
NEW YORK (UPI)—Frozen orange juice concentrates are expected to increase by 1 cent a can in the near future. The Florida orange crop is late in ripening and slightly smaller than last year. In addition cold storage stocks are 40 per cent below the level of a year ago.

Texas Economists See Rise In U.S. Economy

FORT WORTH (UPI)—Two economists for Continental Oil Co. today predicted an upturn in the nation's economy within the next two or three months and said the outlook for the next five years is encouraging.

Henry C. Corey, director of Conoco's economics division, and Dr. Paul Davidson, Corey's assistant, spoke to a meeting of some 100 Fort Worth businessmen.

"I believe that the business decline is near the bottom now," Corey said. "The expected rise in general business activities should help boost the volume of demand for petroleum products, but the oil industry's profits for the rest of the year will depend on how long supply is tailored to demand."

Davidson said that the expected upturn in business does not mean, however, that it will solve the problems of unemployment and slow rate of business growth immediately.

"The upturn will be sparked by increased federal, state and local governmental expenditures, sustained consumer spending and a mild revival in housing reinforced by some improvement in inventory levels," he said.

"But this recession should be

the mildest since World War II," he added.

A. W. Tarkington of New York, senior vice president of Conoco, made a welcoming address at the meeting, which was sponsored by the oil company.

There are so-called "bargain" tires, "cheapie" tires, "discount" tires and other tires you've never even heard of.

Most of them do a lot of shouting about price. But there's a big difference in what goes into them, as compared to a Goodyear tire.

1. Goodyear gives you a stronger tire body. It's the tire body that takes the beating. And it all depends on cords and plies. So we tested our 3-T Nylon All-Weather—priced at \$12.88—against nine other nylon cord tires in the \$10-\$12 price class or better. Goodyear's tire rated 23-25% stronger than the average rating of all the others.

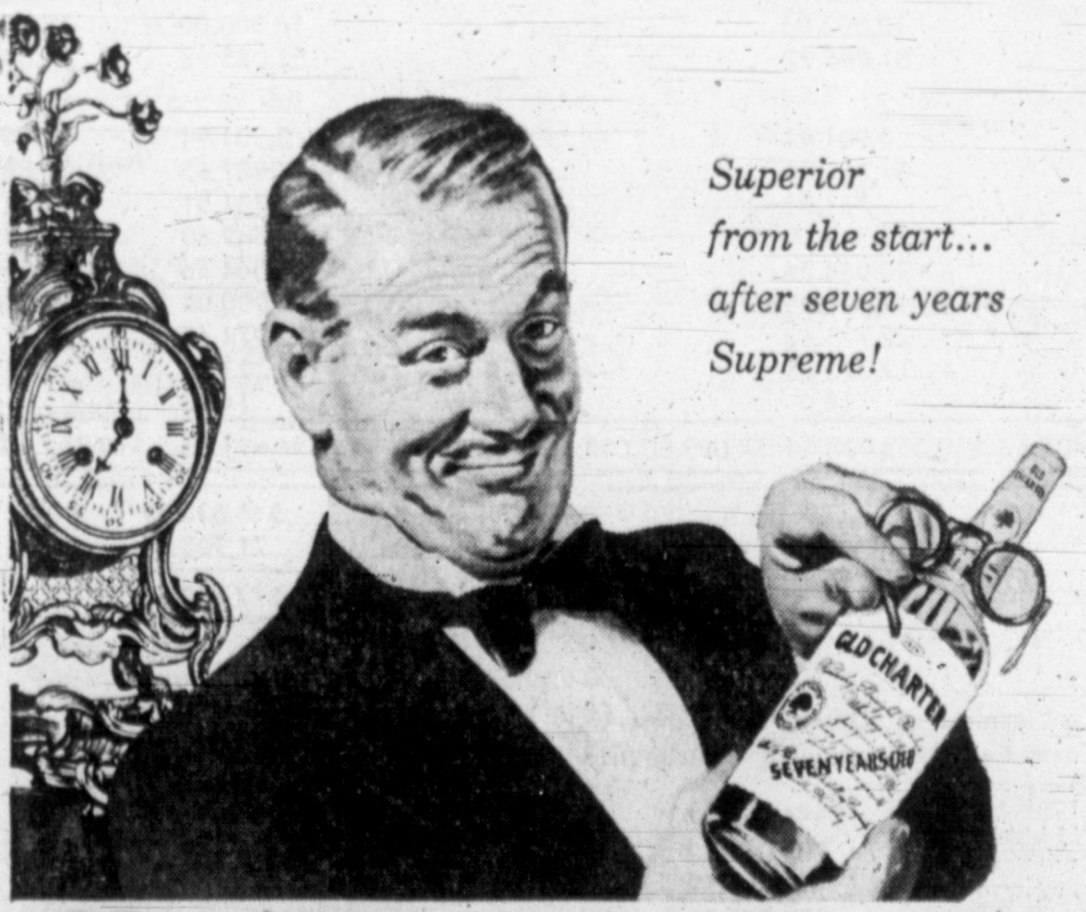

2. Goodyear gives you a tougher tread. You need toughness where the tire meets the road. So, Goodyear gives you all-new tread rubber in every tire. And it pays off good: Goodyear's tread was greater than the average of the rest.

3. Goodyear gives you greater over-all strength! Comparing the results of body tests and tread tests, Goodyear comes out way ahead. Actually, Goodyear not only proved out best on both counts but topped them all in over-all quality rating, too!

Before you part with \$10, \$11 or \$12 for any tire, get the inside story. Remember that for about the same price, you can get a lot more tire—a Turnpike-Proved Goodyear tire. It's called the 3-T Nylon All-Weather. And it costs you as little as **\$12.88***

*6.70 x 15 black tube-type, plus tax and the old tire off your car.

Village In Laos Fell To Rebels Without Battle

WASHINGTON (UPI) — The State Department said yesterday that a strategic village in Laos fell to Communist-led rebels late last week without a fight.

Department press officer Lincoln White said U.S. information was that "the Royal troops evacuated and the rebels moved in" at Tha Thom.

He said the loss of Tha Thom

was not considered a "major setback."

Reports from Laos describe the village as strategic.

He said the department had no information to confirm press reports of major fighting in Tha Thom or anywhere else in Laos.

For the past week, White said, there has been nothing but minor patrol activity with no change in the military situation.

White declined to say whether the State Department considers that the lack of military activity in Laos fulfilled the Western demand for a cease-fire before an international conference is held.

White said he could not comment on the possibility of a conference at this time because the British were still seeking clarification of the Soviet reply to the Western proposal for an immediate

cease fire to be followed by international negotiations on Laos.

The United States will have no comment White said on the declaration in Indonesia by Communist Chinese Foreign Minister Marshall Che Yi that his country would send troops into Laos if the West intervenes there until the American government has seen "the full text of his statement and the context in which it was made."

Senate Democratic Leader Mike Mansfield said today Communist China's threat to send troops into

Laos if SEATO forces intervene there "always was to be expected" in the current negotiations.

The Montana Democrat told reporters he felt sure the Soviet Union had checked with the Chinese Communists before saying it would agree to a Laotian cease-fire with qualifications which the Western powers find vague.

HIGH AND DRY—Dutch cargo ship Eddystone is on the rocks. Loaded with a cargo of iron, the ship ran aground on an island in the Glensans Archipelago near Quimper in the province of Brittany, France. All 13 aboard—11 men, 1 woman and 1 little girl—were rescued. Spring's higher tides may float the Eddystone.

Foreign Commentary

By PHIL NEWSOM

It was on April 6, 1960, that the anti-government riots began in Seoul, continuing for the next three weeks.

On April 27, 1960, after more than 100 persons had been killed and nearly 1,000 injured, Rhee submitted his resignation.

These were the first of the "rule by riot" student demonstrations, successfully imitated by leftwing Japanese students to prevent the visit of President Eisenhower and by Turkish students in Ankara and Istanbul to topple the Mendares government.

In May it was announced that the Korean provisional government and the U. S. aid mission jointly would investigate waste and mismanagement of U. S. aid funds permitted by the old Rhee regime.

Since 1952, U. S. aid, exclusive of military aid, had been pumped into Korea at the rate of about \$300 million a year. The United States paid for South Korea's 600,000-man army. American military aid for 1960 exceeded a quarter of a billion dollars.

This is the situation, then, that preceded new economic and technical aid agreements signed Feb. 8 of this year.

The agreements provided for \$207 million in economic aid for 1961, with the further possibility of an additional \$43 million, plus shipments of surplus U.S. agricultural products.

But they also gave the United States the right to "continuous observations and review" of how South Korea administered the aid.

Opponents charged the United States now could interfere in almost any phase of Korean government.

Businessmen and Korean newspapers objected and new student demonstrations erupted.

In a population of about 22 million, more than two million South Koreans are unemployed and four million are under-employed. Promised tax reforms still have not been carried out.

Contributing to the unrest has been the government's action devaluing the currency, cutting the official rate of the hwan in half (1,300 to the dollar). The government action simply placed the hwan at what previously had been the black market rate, but to the average Korean it meant that his money had lost half its worth.

Unrest mounts, and if it continues to mount, the government of Premier John M. Chang could go the way of Syngman Rhee's.

Army In Cuba Seizes Control Of Navy Bases

HAVANA, Cuba (UPI) — Cuban army units today controlled most of the island's naval installations to prevent further uprisings by naval personnel opposed to the pro-Communist policies of the Castro regime.

Twenty-one sailors and one officer—the entire detachment of a small navy post at Guanabo Beach—were reported to have defected and escaped aboard a coast guard craft Sunday.

On Saturday, reports in Havana said the government had broken up a counter-revolutionary movement by 300 naval personnel. It was the fourth reported mutiny by naval officers and men.

Informed sources said 60 sailors and officers fled to Haiti aboard three PT boats while others escaped in smaller numbers aboard lesser craft when the government learned of the plot.

Anti-government terrorists kept their relentless bombings in the Cuban capital. Two bombs were exploded near the government printing plants in Havana Sunday night.

The Easter weekend ended with extraordinary incidents in Havana. In the provinces, thousands of faithful made their traditional pilgrimage from El Cano to Arroyo Arena carrying a plaster image of Mary Magdalene, although a government permit was not issued this year.

Attendance at Mass was reported high during the Easter weekend and laymen said the number of men receiving Communion was unusually large. This was attributed to the recent church-state tension.

Philippine Huks Objects Of Hunt

MANILA (UPI) — Philippine security officers today planned a new offensive against armed Communist guerrillas who turned Holy Week into a nightmare of revenge slayings.

Armed with machineguns and pistols, about 10 Huks invaded the rice bowl area of Tarlac, 80 miles north of Manila, and shot and killed two wealthy landowners and a 17-year-old relative of a Filipino congressman.

Unusual Sale
LUTON, England (UPI)—A local newspaper advertised: "Tape recorder for sale, complete with guilt fittings."

Alabama Solon Thinks Housing Plan Will Pass

WASHINGTON (UPI) — The chairman of the Senate housing subcommittee predicted yesterday that the Senate would pass the major part of President Kennedy's \$3.2 billion housing bill despite considerable opposition to some portions.

Sen. John J. Sparkman, D-Ala., made the forecast as the subcommittee called Housing and Home Finance Administrator Robert C. Weaver and other government officials to open hearings on the program.

The Alabama Democrat said the subcommittee, along with the Parent Senate Banking Committee, hoped to finish work on a bill and have it ready for Senate action before the end of the month.

Although he foresaw approval of most of the program, Sparkman said the subcommittee might consider parts of the President's proposal in separate bills. He said these might include college housing loans, GI home loan aid, and an "open space" program to aid municipal purchase of land around big cities for recreation purposes.

Sparkman said the major opposition — as usual — was expected to come on Kennedy's proposal for government authority to build another 100,000 public housing units.

Two Men Robbed Then Locked Up In Trunk Of Car

FORT WORTH (UPI) — James Hall and Albert Michner told police yesterday they were locked in the trunk of an automobile for four hours by a hoodlum man after he had robbed them of \$150 in cash and three diamond rings valued at around \$750.

The men said they were accosted by the robber at a railroad station by posing as a police vice squad officer. They said he threatened them with what appeared to be a gun in his pocket, forced them to drive to a motel where the robbery occurred and then ordered them into the trunk of the car.

They said he drove the car back to a downtown parking lot and left them locked inside. After four hours a passerby heard their cries and notified police.

German Official To Visit In Texas

WASHINGTON (UPI) — West German Chancellor Konrad Adenauer was reported today to be planning a visit to the Texas ranch of Vice President Lyndon B. Johnson after his conference next week with President Kennedy.

GILDS GARBAGE TRUCKS

NEW YORK (UPI) — The Sanitation Department said Monday a test of a new golden paint for garbage trucks worked out so well the paint will be splashed on 1800 trucks and on 334 mechanical brooms. Purpose of the paint, the department said, was to make the trucks easier to see at night and during snow removal operations.

McLEAN PERSONALS

Week end guests of Mrs. Minnie Erwin were her daughters, Miss Mary Erwin, Mr. and Mrs. Butch Pierce and Mr. and Mrs. Clifford Martindale and son of Amarillo.

Cherokee Tribe Gets Big Award

WASHINGTON (UPI) — Rep. Ed Edmondson, D-Okla., said today the Indian Claims Commission has decided on a \$14,789,476 award to the Cherokee Indian Nation.

The award was in settlement of a claim against the government in connection with 6,022,800 acres of land the government reclaimed from the tribe in the Cherokee outlet in Oklahoma.

Today's award, according to Edmondson represents the balance of a \$22,585,000 claim, less \$7,795,000 already paid to the Cherokees.

The claim has been before the commission for more than 10 years.

Disaster Areas Are Designated

WASHINGTON (UPI) — The Small Business Administration (SBA), today designated Arkansas County, Ark. and Nacogdoches County, Tex., and adjacent localities as disaster areas as a result of damage from recent tornadoes.

The SBA disaster designation permits home owners, business firms, churches and charitable institutions whose property was destroyed or damaged by the tornadoes to apply to the SBA for reconstruction or rehabilitation loans at 3 per cent interest.

Loan applications may be filed at the SVA office in Little Rock, 405 West 3rd Street, or the SBA Houston, Tex., office 1424 Hadley St.

California Holds Wanted Texan

MERCED, Calif. (UPI) — Luke William Cathey, 31, is being held for Texas authorities on charges of murder without malice and forgery.

Cathey was picked up by Merced police on a grand theft auto charge and admitted he was wanted in Texas.

The murder charge stemmed from the traffic death of two persons in Archer City, Tex., in January, while the forgery charge was issued by authorities in Odessa, Tex. Cathey said he walked away from a veterans hospital at Big Spring, Tex., last month after being under treatment following the traffic accident.

Texas Briefs

MEETING SCHEDULED
AUSTIN (UPI) — The Texas Independent Producers and Royalty Owners Association, announced Tuesday it will hold its annual meeting May 14-16 at Midland. John Hurd, president, said the meeting will concentrate on taxes, imports, federal gas regulation and well spacing.

COUNCIL SEAT OPEN
HOUSTON (UPI) — The Houston City Council Tuesday narrowed the list of nominees to fill the vacant council seat to two persons, but split 4-4 over whether Billy King, 44, city tax collector, or A. L. Miller, a Houston businessman, would replace the late Jack Sanders who died last month.

TEACHERS TO MEET
AUSTIN (UPI) — The Texas Classroom Teachers Association will hold its 5th annual convention Friday and Saturday in Abilene and elect new officers.

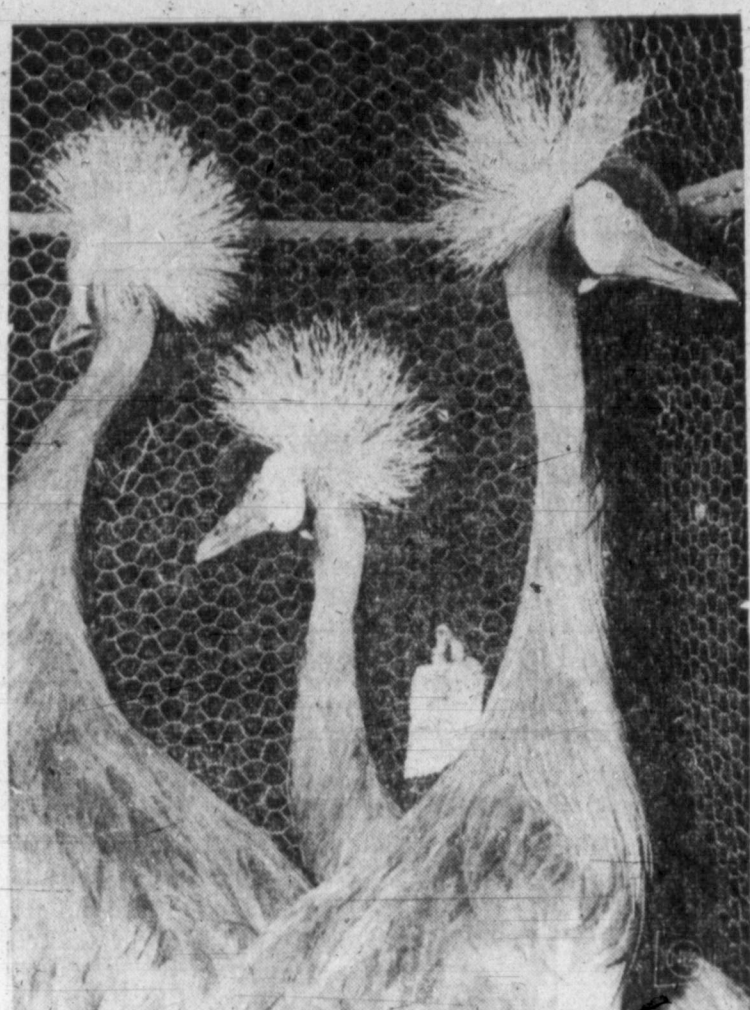

WOMAN FOUND SHOT
PECOS, Tex. (UPI) — Mrs. Port Daggett, 69, shot herself to death in her home at Pecos Tuesday while friends tried to break into the house to stop her from pulling the trigger.

INSPECTS NAVY BASE
CORPUS CHRISTI (UPI) — Navy Secretary John Connally inspected the Corpus Christi Naval Air Station Tuesday then was the guest of honor at a testimonial banquet in the Corpus Christi Memorial Coliseum, Connally is from Fort Worth.

RIGHTS FOR EDITOR
SAN ANTONIO (UPI) — Funeral services were scheduled here today and burial at Seguin, Tex., for Charles J. Wesch, 58, Sunday editor of the New Orleans Times-Picayune. He died of a heart attack Monday.

EL CAMPO LAUDED
AUSTIN (UPI) — The city of El Campo was lauded on the floor of the Texas Senate Tuesday for its "All Nations Festival" to be held Sunday, April 9.

STEAL SUBWAY TOKENS
NEW YORK (UPI) — Robert Hawley, subway change clerk in Brooklyn, reported to police Monday night that two men held him up and escaped with 1,000 subway tokens and some cash.

WITH ALL THE FRILLS—Wearing their Easter bonnets a little early are cranes at the World Festival of Birds in Paris. It took place in Boulogne-Billancourt near Paris.

GOLF BALL IN SPACE—The U.S. has orbited another balloon-type satellite. The polka-dot, 12-foot-diameter balloon was launched from National Aeronautics and Space Administration's Wallops Island, Va., rocket station to study air densities hundreds of miles up. The sphere is made of layers of plastic and aluminum foil, painted with white polka dots to reflect sunlight and maintain proper internal temperature. It was the first satellite to be launched by solid-fuel rocket, the 72-foot, four-stage Scout.

BUILT-IN CONVENIENCES — These built-in ovens and cooking tops are on display with a variety of lighting fixtures at Tom Brooks Electrical Contractors, 1101 Alcock St.

Brooks Electric Contractors Carry Large Supply Of Appliances

"Select your electrical contractor with the same care as you would your builder or architect and be sure he will be here in years to come and stand behind his guarantee." That's the slogan at Brooks Electrical Contractors Co., 1101 Alcock.

One of the largest stocks in the Panhandle of built-in gas and electric appliances and lighting fixtures is carried by the firm. Tom Brooks, owner, invites you to drop in and inspect their lighting and appliance displays.

A recently added feature to the firm is a selection of conversion kits designed to make that old kerosene burning lamp into a modern electric lamp.

The firm carries a complete line of Martha Washington ovens and cooking tops fitted with the highly efficient exhaust hoods and fans. Also available are Hot Point electric ovens, cooking tops, garbage disposals and dishwashers.

Tom Brooks, owner, stated that

Teachers Claim They Are Forced Into Extra Jobs

AUSTIN (UPI) — The Texas Classroom Teachers Association said Tuesday a survey showed more than half of Texas' public school teachers must take on extra jobs to make ends meet.

A poll of 1,141 men and women teachers disclosed that the teachers were employed in 40 different types of after-hour jobs during the school year, and 60 types of summer jobs.

It also showed that four out of five male teachers held summer jobs.

The study also found that one third of the wives of male teachers also teach, and one out of five women teachers work in the summer.

SUPPORTS BLAKLEY

HOUSTON (UPI) — W. P. Holland, one of the also-rans in Tuesday's special U.S. Senate election, today threw his support to William Blakley, who apparently won a runoff spot against Republican John Tower.

S'NO GHOST—Apparently none the worse for her experience is Rose Marie Kinsey, 4, who rests in New Brunswick, N.J., hospital. Rose Marie was buried for 10 hours in snow which slid from a roof next to an alley where she was playing. One hundred searchers had just about given up when the tot was found.

After the Market
NEW YORK (UPI) — The roads finally are stealing a march on trucks. In 1958 approximately 87 per cent of all new motor vehicles were shipped by road and only 9.9 per cent by rail. Now railroad officials look for their share of this market to increase by at least 25 per cent over the next year or two as a result of more efficient auto-carrying flatcars.

Beach Fight Resumes In Galveston Court

GALVESTON (UPI) — The state's fight to tear down fences and barricades along Gulf Coast beaches went into its third day before Judge L. G. Godard today.

Asst. Atty. Gen. Ben W. Harrison, handling the prosecution against a land development company, planned to put more witnesses on the stand to show the public is being deprived of the use of miles of beachfront.

Charles McPhail, former Houston police chief, and Roy Rowell, a real estate dealer, were the last two witnesses for the state late Tuesday before Judge Godard called a recess in the suit against the Seaway Co.

The state charges that the firm violated a 1959 "open beach" law by placing barricades from the beach property it owns into the Gulf of Mexico, instead of ending the fencing at the line of vegetation so the general public can have access to the sandy strip

53rd YEAR THE PAMPA DAILY NEWS WEDNESDAY, APRIL 5, 1961 15

Magazine Editor Buried In Mexico

Wire Movement
NEW YORK (UPI) — Facsimile transmission by wire of plans, blueprints and documents is now possible at the rapid speed of 10 pages a minute. A. B. Dick Company's high-speed Videograph unit does the job on wide-band transmission lines.

MEXICO CITY (UPI) — Funeral services took place here Sunday for Victor M. Yepes, 42, native of Puerto Rico who had worked in Mexico more than six years as a foreign correspondent. Yepes was fatally injured Friday while playing volleyball at the home of friends in Cuernavaca, resort city 50 miles from Mexico City, where he and his wife had gone for the Easter holidays. At the time of his death Yepes was employed by McGraw Hill Publishing Co., editing Spanish language magazine. Previously he had been bureau chief here for Vision Magazine, and before that had worked with United Press International in New York and Mexico, and the newspaper "Excelsior."

ON THEIR OWN
CHICAGO (UPI) — Pansy, a baby kangaroo, settled down in an incubator instead of a pouch today because her mother, Patsy, got tired of motherhood... again. Curator Bill Hoff of the Lincoln Park zoo said Pansy was the third baby Patsy had kicked out of the pouch at three months, six weeks too early. Only one, Charley, stayed the full term, Hoff said.

Michigan Town's Mayor Defeated

WARREN, Mich. (UPI) — Warren Mayor Louis Kelsey, center of bitter controversy involving anti-Catholic election handbills, was voted out of office Monday in this Detroit suburb. City Treasurer William A. Shaw, a Protestant, defeated Kelsey, a Catholic, by better than a

3-1 margin. Kelsey had flunked three lie detector tests in connection with distribution of the leaflets.

How About That
DYERSBURG, Tenn. (UPI) — Automobile dealer W. M. Ford, who sells Chevrolets, and sometimes drives a Plymouth, lives on Speedway Ave.

Review Of Trial Tactics Planned At Legal Session

Trial tactics in both civil and criminal cases will be reviewed at a meeting sponsored by the Southwestern Legal Foundation in Dallas, April 27-28, according to Pampa attorney, Boyd Taylor. Taylor, resident representative of the Foundation, revealed that the program will feature speakers from New Mexico, New York, Oklahoma and Texas, as well as an address by the former Prime Minister of Cuba, Miro Cardona. Lecturers and their topics will be: Leon Jaworski, Houston attorney, Witnesses and Their Examination; District Judge John B. McManus, Jr., 2nd Judicial District, New Mexico, A Discussion of a Trial from the Court's Standpoint; Chief Judge A. P. Murrah, U.S. Court of Appeals for the Tenth Judicial Circuit, Oklahoma City, The Art of Advocacy as the Judge Looks at it. Roy W. McDonald, New York City attorney, Effective Use of the Summary Judgment Procedure; District Judge J. H. Starley, 143d Judicial Dist. of Texas, a Trial Judge's View of Litigation; W. B. West, III, U.S. Attorney, Northern District of Texas, Trial Tactics in a Condemnation Case. Problems encountered in the trial of the Apalachin Case will be presented in two lectures. Milton R. Wessel, New York City attorney, will outline prosecution, and Frank G. Raiche, Buffalo attorney, will present defense.

M'Namara Sets Up Plans For Fighting Forces

WASHINGTON (UPI)—Defense Secretary Robert S. McNamara has spelled out in unmistakable terms the administration's determination to build forces that could fight limited wars without nuclear weapons. McNamara also slapped hard at the Army's contention that its Nike-Zeus anti-missile missile in ready for large-scale production. He said there are widespread doubts whether this weapon should ever be deployed. The secretary reviewed President Kennedy's defense program in testimony before the Senate Armed Services Committee. He said use of nuclear weapons in limited wars should not be ruled out. But "the decision to employ tactical nuclear weapons in limited conflicts should not be forced upon us simply because we have no other means to cope with them," he said. "There are many possible situations in which it would not be advisable or feasible to use such weapons," he said. "What is being proposed at this time is not a reversal of our existing national policy but an increase in our non-nuclear capabilities to provide a greater degree of versatility."

Selective Service Chief Criticizes Army 'Physical'

FT JACKSON, S.C. (UPI)—The chief of the nation's military draft has criticized the time-honored "physical." "We should judge a man by what he has done and can do—not by what he can't do," Lt. Gen. Lewis B. Hershey, Selective Service director, said. "We shouldn't depend on a science that only tells us what is wrong with men and not what is right with them." Hershey said dependence on medical examinations alone as the criterion for military service is "negative." He cited the case of a stevedore rejected because of a slight curvature of the spine which the examining physician said would prevent the man from doing any lifting. "The Army could use a few curved spines if the men had straight souls," Hershey said.
