

# Air Force Says Sonic Boom Over Pampa Is Necessary For Survival

**EDITORS NOTE** — If you have been wondering about those y-high "explosions" heard most daily and nightly over the Pampa area, you will enjoy reading this highly interesting article, written especially for the Pampa News by Bob Ball of the Office of Information in the Technical Training Center of the Amarillo Air Force Base.

The sonic boom has grown up, no longer an isolated phenomenon, a stunt performed by a div-

er pilot to impress a crowd. The boom has become part and parcel of the day-to-day operations of the Air Force, an inescapable element of straight and level training flights at supersonic speeds.

The isolated, one shot boom has become a corridor of concussion, a noisy nuisance, but one that is essential to our nation's survival. It is unavoidable, and we must learn to understand and accept it just as we accept the rattle of street cars, the roar of trains, and trucks across the countryside. We must

learn to live with it for in today's unsettled world we cannot live without it.

The sonic boom, loud enough to rouse the average sleeper or scare an average baby, shakes Pampa, Amarillo and some of America's largest cities with no respect or consideration for the hour, the day, or the physical condition of man or beast. But, except in rare cases, it will only assault your eardrums. It won't crack the plaster or start any earthquakes. It may break a few windows. And

that will be about all. These are a few facts of life in the supersonic age, and the Air Force is confident that the American people will not complain if they know these facts.

An aircraft capable of supersonic speed in straight-and-level creates a continuous sonic boom, a sound that is not a single snap, but a roar that crosses the country like the opening of a coat zipper. It follows the flight path of the aircraft: if it were visible it would look like a cone, in fact two cones.

One of them has its point at the nose of the plane, the other at the tail. The cones are shock waves that travel to the ground at the speed of sound (about 762 miles per hour). As each wave moves it is robbed of energy by friction of the air, a friction that is affected by temperature and humidity and such stumbling blocks as mountains or clouds. When the shock hits the earth, the wave is further obstructed by trees, people, buildings, cars, rose bushes and outdoor movie screens.

The two shock cones are so close they usually always sound like a single clap of thunder. If they were real claps of thunder they would impose a pressure of about one-half pounds on each square foot of the earth at the obstacles in the way.

What is the pressure of a sonic boom? Not more than five pounds a square foot, ten times that of a clap of thunder or five times the noise created by a boiler factory. There is no doubt about it, this

is enough noise to cause a public reaction, particularly if there is no understanding of how it was caused and why it is necessary. But the altitude of the plane, upward of 35,000 feet, and the loss of energy that muffles the shock on the way down will keep the pressure below the five pound level. (These figures in pounds per square foot are all, of course, in addition, to normal atmospheric conditions). This means the boom is not strong enough to inflict construction damage. (See SONIC, Page 3)

"The deterioration of every government begins with the decay of the principles on which it was formed." — Montesquieu

**HERE NINE MET DEATH** — This is the scene at the Phillips-Borger refinery where the lives of nine workers were snuffed out yesterday in fire that quickly enveloped them after the violent explosion. Shown in center foreground is what remained of the fraction-

ating unit in which they were trapped. Authorities said the men didn't have a chance of getting out. Flames shot through the building as if from a giant blowtorch. Daily News Photo

### Church Council Takes Action On Birth Control

**PACUSE, N. Y. (UPI)**—The largest Protestant church takes its first policy action to approve use of birth control as a part of the family responsibility of family living.

The draft resolution presented to the 250-member General Board of the National Council of Churches also called for opposition to both laws and institutional practices that restrict information of contraceptives.

The council recommended that the federal government be prepared to provide birth control information and assistance to any other government which might request it in interest of population control.

The council's first international statement of the Protestant position is in direct conflict with the stated opposition of the Roman Catholic Church to artificial interest of population control.

The council's pronouncement was drafted after a consensus of Protestant opinion at least seven of the council's member churches, representing three of the constituent church membership, had previously issued similar endorsement of control. Eastern Orthodox churches abstained from formulation or action on the policy statement in preparation for more a year.

The fundamental affirmation of the Protestant consensus is that the primary ethical issue is not family limitation, said the drafters of the document. "If the motives are there is considerable latitude to appropriate means."

It comes from a hardware store we have it. Lewis Hdw. Adv. adjourned Dec. 23.

### Trapped Blast Victims Had No Warning Of Fate

**BORGER (UPI)** — It had been a busy day Monday and the construction gang at the bustling Phillips Petroleum Refinery was tired.

So was the foreman, and he had a busy schedule for the men under him the next day. He had planned to move the two construction shacks they worked from to a new location, but, what the heck, it could wait.

"Let's knock off," he decided. "We'll move them Wednesday."

At the time, these were welcome words. And as the men gathered up their gear and started for home, nobody realized that nine of them, practically the entire work crew, had just been doomed.

They had less than 48 hours left to live.

The tragic accident happened Wednesday at a refraction unit that was being modified. The unit breaks down crude oil by applying heat and converts it into such components as gasoline, kerosene and naphtha.

First there was a vibration, then another and finally a rumbling explosion that caused a large pipe to break. Gasoline spurted from the pipe under high pressure and ignited with a roar, billowing thick flames into the doorway of the two shacks.

"My God, they never had a chance. They were trapped, and the flames rolled in on them like

### Explosion Takes Life Of Pampa

One of the victims in yesterday's explosion that claimed nine lives at the Phillips Refinery, near Borger, was Alvin Harold Garner, 22, Hamilton, Pampa, who was employed as a pipe-fitter by Boman and Chase Co.

Funeral services will be held at 2 p.m. Saturday in the First Methodist Church with the Rev. W. W. Adcock, pastor and the Rev. Jack Riley, pastor of St. Paul Methodist Church, officiating.

Interment will be in Fairview Cemetery under the direction of Duenkel-Carmichael Funeral Home with Jim Huddleston, George Shelton, E. C. Porter, Jack Barnhill, J. G. Warren and Milford Jones as pallbearers.

Mr. Garner was born Feb. 24, 1933, in Childress and moved to Pampa from that city 26 years ago.

He is survived by his wife, Mrs. Edith Pauline Garner of Pampa; one daughter, Mrs. Roy Pool; two sons, T. L. Garner, Lynn Don Garner, all of Pampa; his parents, Mr. and Mrs. J. H. Garner of Childress; one grandson and one granddaughter; three sisters, Mrs. D. B. Henderson of Albuquerque, N. M., Mrs. J. D. Richards of Anton, Mrs. Gene Dial of Englewood, Calif.; three brothers, R. H. and A. V. Garner, both of Plainview and Clifton of Childress.

### Death Asked For Cuban Catholic

**HAVANA (UPI)** — The prosecution in one of Premier Fidel Castro's courts has demanded the death penalty for a 19-year-old Roman Catholic youth leader in east-central Cuba, it was reported today.

Reports from Camaguey said a bomb was found in the possession of Antonio Valdesuso Rey, son of a prominent business family in the province, when he was arrested on suspicion of being a foe of the Castro regime.

### Today's Lenten Message

By BISHOP JOHN WESLEY LORD  
Washington Area of the Methodist Church

Lent is a time for self-denial, it is likewise time for larger living. Self-denial is not an end in itself, but should result in new insights, finer resolves, strengthened intellects and a greater faithfulness. We are a faithless nation.

Faith is not so much belief in a word spoken; as a trust in him who speaks. We are often betrayed by the questions we ask. Did you have fun? Were you successful? Have you made good? Have you achieved status in the power conflict? Mature faith dares to challenge the world's absurdities and places God's concerns at the very heart of life. Lent calls us to the faith that declares that God has something to do with every life.

People today find it hard to believe in a God they can trust. When the chips are down we put our trust in committees, balance sheets, man-conceived programs and military might. Our ultimate trust in science reveals a falling away from God. We daily deny His sovereignty in our lives.

Lent provides a time for us to hear what God is saying, to sense again the inter-relatedness of life.

# Kennedy Asks Bills To Save Resources

## Speedup Sought To Get Action On Jobless Plan

**WASHINGTON (UPI)** — The House Ways and Means Committee tried again today to complete action on President Kennedy's rush program to help the unemployed.

The committee, headed by Rep. Wilbur D. Mills, D-Ark., went into its third closed-door session this week with the hope of speeding the legislation to the House floor.

Mills has predicted approval each day but changes in the measure and drafting work have slowed the task.

Another of Kennedy's proposals — a higher minimum wage — will be taken up by a House labor subcommittee at a closed-door session this afternoon. The group hopes to finish drafting a bill early next week.

Opposing moves were expected to be made to broaden and reduce Kennedy's proposal to raise the \$1 minimum wage gradually to \$1.25 an hour and bring 4.3 million more workers under federal wage-hour coverage.

Acting on the measure to aid the jobless, the ways and means committee decided informally Wednesday to tighten up the President's plan to help feed children of needy unemployed parents. It tentatively voted to require jobless breadwinners to take the first work offered.

The proposal to broaden federal aid to needy children is one of two Kennedy plans to aid the unemployed.

The ways and means group completed Wednesday informal action on the jobless benefit extension, a \$900 million item affecting 3,125,000 persons.

As originally proposed by Kennedy, the children's aid bill would cost the government about \$350 million a year. However, the new requirement restricting job choice was expected to reduce it somewhat.

## Demands Voters Have A Choice In Tax Decision

**AUSTIN (UPI)** — Rep. Wesley Roberts warned fellow lawmakers today they are cutting their own throats if they kill his bill to let the public decide the sales tax vs. income tax issue.

His legislation was shuttled into an unfriendly subcommittee Wednesday night by the House state affairs committee. So was a similar bill by Rep. Henry Fletcher of Luling.

Roberts, from Seminole, proposes to let Texans decide at the special U.S. Senate election on April 4 to vote their preference between a sales tax and an income tax.

He was plainly unhappy because the committee stalled the measure in a sub-group.

"This could kill the bill," Roberts said. "But the legislature will wish they had some instructions from the people a little bit later on."

The lawmaker promised another fight on the House floor to get his bill unjammed and before the lower chamber for action. He tried it once before several days ago, but had less than majority support.

"The only thing we can really hope for now is for public opinion to exert enough pressure on the legislature to put it on the ballot," Roberts said.

Time is growing short. He hinted that if the sub-committee keeps the bill tied up, he might try to get it out in time to get it on a run-off ballot, which appears likely. (See DEMANDS, Page 3)

## Message To Congress Seeks Protection Of Lifeblood Supplies

By ALVIN SPIVAK

**WASHINGTON (UPI)** — President Kennedy sent Congress today a vast natural resources program to protect and develop the nation's lifeblood supplies of water, land, forest and minerals.

Kennedy put into a special message proposals ranging from purification of big city air to the de-salting of ocean water for drinking and industrial use.

He warned that unless wide broad-scale action is taken "we will be in trouble within a short time."

In setting forth reclamation and other water resources recommendations, Kennedy pointedly denounced the "no new starts" policy Democrats have attributed to the Eisenhower administration.

"Such a policy denied the resource requirements and potential on which our economic growth hinges, and took a heavy toll in added costs and even human life and homes by postponing essential flood control projects," Kennedy said.

The President announced actions his administration would take and said what he would like Congress to do. Administration officials said no price tag could be affixed to the over-all program until legislation is proposed for specific programs.

In its broad framework, it was obvious that many hundreds of millions of dollars would be involved. For example, Kennedy called for enactment of legislation "along the general lines" of a bill which would provide \$1.25 billion over 10 years to expand federal assistance for water pollution control.

The President's 3,500-word message emphasized that "our entire society rests upon—and is dependent upon—our water, our land, our forests, and our minerals."

"By the year 2000, a United States population of 300 million—nearly doubled in 40 years—will need far greater supplies of farm products, timber, water, minerals, fuels, energy, and opportunity for outdoor recreation," he said.

Kennedy said his message was "designed to bring together the widely scattered resource policies of the federal government" which he said had "overlapped and often conflicted." He said federal funds thus were "wasted along with the resources."

The Chief Executive said he would shortly issue one or more executive orders to improve the federal government's activities in the natural resources field.

He said he would instruct the budget director "to formulate within the next 90 days general" (See MESSAGE, Page 3)

## Ku Klux Klan On Move In Georgia

By United Press International

A new Ku Klux Klan organization will be formed Saturday at a rally in a police-paddedlocked dance hall near Macon, Ga.

R. Lee Davidson II of Macon, who resigned recently as imperial wizard of the U. S. Klan, Knights of the Ku Klux Klan, said he has chartered a new organization to be known as the United Klan, Knights of the Ku Klux Klan of America.

Davidson and members of his new organization will hold a rally with a group of women opposed to school desegregation and with members of the Citizens Council. The rally will be held at Jimmy's Red Barn, a highway nightspot which police have ordered closed.

Mayflower, America's most recommended mover MO 4-4625. Adv.

At Opelika, Ala., State Atty. Gen. MacDonald Gallion was expected to close the state's defense in federal court today against government charges that registrars of Macon County, Ala., have discriminated against Negro voters.

Judge Frank M. Johnson Jr. said, however, that he would call for submission of written briefs at the close of testimony rather than oral arguments and "will take some time" to study all the evidence.

Two former registrars testified Wednesday there was no discrimination against qualified Negroes who sought to register. Both admitted under cross examination that only six Negroes were registered from June to November, 1960, while 35 white applicants were registered.

## Make New Try To End Tie-Up Of Air Travel

**WASHINGTON (UPI)**—Hamstrung airlines, caught in the nation's worst air travel tie-up were expected to resume bargaining with striking flight engineers today against a noon, EST deadline the airlines set on their "no reprisals" promise.

Negotiations shepherded by Kennedy administration officials dragged through the night at the U.S. Department of Labor Building until about 2:45 a.m., EST, today.

Airlines officials indicated they would be ready to resume bargaining today to try to end the six-day-old wildcat strike of 2,700 workers.

Late Wednesday night President Kennedy's cabinet secretary, Fred Dutton, went into the negotiation room. It was not known what his mission was.

An informed source said Wednesday night a settlement was close, although it appeared to hinge on the airlines' warning that they would withdraw their pledge to take no reprisals against the engineers unless they returned to work by noon today.

The engineers insisted that one of the seven airlines involved, Western, must promise to rehire the 130 engineers it fired over the strike. Western refused to join in the "no reprisals" pledge made by Trans World Airlines, Pan American World Airways, American Airlines, Eastern Air Lines, National Airlines and the Flying Tiger Airlines, a cargo carrier.

The three-man commission named by President Kennedy to investigate the strike planned to meet today with representatives of the engineers, the airlines and the Air Line Pilots Association to discuss procedures for the investigation.

## Two More File In City Vote Contest

**CITY SECRETARY** Ed Vicars today announced the names of two more candidates who have filed petitions to run for city commissioner in the April 4 election.

One of the candidates filed for Ward 4 and one for Ward 3. Leon Holmes, 900 S. Osborne present commissioner in Ward 3 has filed for re-election.

The other candidate to file for Ward four was D. S. Jones of 805 Plains St.

Six candidates are now in the race for the upcoming municipal election.

Let us show you how to get more miles from your tires. Our address is 411 S. Cuyler, Pampa Safety Lane, MO 4-4771. Adv.

### Bizarre Murder Case Nears Jury In Baltimore

BALTIMORE (UPI) — An all-male jury was to hear final prosecution and defense arguments today, then decide whether jazz musician Melvin D. Rees Jr. kidnapped and slew a young Virginia housewife and her child to climax a grisly family massacre.

The 32-year-old Rees, who has sat impassively throughout his four-week trial in federal court here, declined to take the witness stand in his own defense against Lindbergh Law charges that could send him to the gas chamber.

Federal prosecutors have accused the one-time University of Maryland student of the "sexual-gratification" kidnap-murders of 27-year-old Mrs. Carroll Jackson of Apple Grove, Va., and her five-year-old daughter, Susan Ann, in 1959.

In addition, Virginia authorities contend it was the good-looking dark-haired guitarist who wiped out the other two members of the Jackson family — the husband, Carroll Jackson, 29, and 18-month-old Janet. Their bodies were found March 4, 1959, in a sawdust pile in a woods near Fredericksburg, Va. The father, his hands trussed with his own necktie, had been shot to death. The baby, lying under his body, died of suffocation or exposure.

Ten days later, the bodies of Mrs. Jackson and Susan Ann were discovered in a shallow grave in remote Gambrills, Md. The mother had been sexually violated. Both had been choked and beaten to death.

Rees has been questioned about a fifth murder — that of Mrs. Margaret Harold, 36, of Odenton, Md., who was found slain June 26, 1957, in a lovers lane near Annapolis, Md.

At the time of the five murders, Rees worked as a night club jazz guitarist in the Washington-Maryland-Virginia area.

### Showdown Near On Cuba Schools

HAVANA (UPI) — Directors of Cuba's private schools were summoned to a meeting tonight which may lead to a showdown with Premier Fidel Castro's government over the future of private education.

The meeting was called by Nieves Valmana, pro-Castro president of the national private school federation.

The government seized three private schools last week, charging they were "counter-revolutionary." Rumors circulating here today said all private schools will be forced to close for seven months while continuing to pay their teachers to work on the government's literacy campaign.

Such a move would impose a financial burden which would force most private schools to close permanently.

The government has been particularly hostile to parochial schools. A Roman Catholic "poster boy" campaign has been taken over by the national electrical industry to promote the slogan that education will decide whether the boy on the poster becomes "Patent or traitor."

# More Soldiers Asked for Congo UN Forces

UNITED NATIONS, N. Y. (UPI)—Secretary General Dag Hammarskjold sought 7,000 soldiers to beef up the United Nations force in the Congo to 20,000.

There was no immediate indication where he would find them. Hammarskjold said it would cost 800 troops, India is considering some manpower and is talking about sending 1,000.

## West Texas C-C Meets In Austin To 'Talk Money'

**Austin Bureau**  
AUSTIN — Money problems faced by the 57th Legislature were reviewed by Rep. Richard C. Slack of Pecos at a luncheon here Tuesday put on by the West Texas Chamber of Commerce. About 80 chamber men from the Panhandle to El Paso attended the meeting.

Slack, chairman of the West Texas delegation in the Legislature, said the increased cost of state government resulting from growth alone would amount to a staggering \$148 million over the next biennium. This figure does not include any new state services, he went on.

The \$148 million will be spent to take care of the added student load in schools and colleges, the increased population of hospitals and penitentiaries and a long list of services for which the state already has assumed responsibility, Slack said.

About \$40 million will be spent on public schools, excluding colleges and universities, Slack said, and another \$4 million for the teachers' retirement fund. There are many others, too many to enumerate, he said.

Slack also reminded the chamber people that the Legislature has to provide the money to pick up a \$65 million deficit before tackling the big job of enacting a bill to pay for the growth cost of state government.

However, in his brief talk, Slack did not hint at the type of broad-based tax he preferred to meet the growing cost of government.

Thirty-seven members of the West Texas delegation in the Legislature attended the luncheon, including Rep. George Cook of Odessa, W. E. (Pete) Snelson of Midland, and Rep. Wesley Roberts of Lamesa from the Permian Basin area. Panhandle representatives attending were J. W. Buchanan of Dumas, and J. Edgar Wilson and Ted Springer of Amarillo.

## 400 Students Register For Two-Day Meeting

**DENTON (SpI)** — Over 400 students have completed pre-registration for the state Future Business Leaders of America convention at North Texas State College Friday and Saturday.

The visiting students will represent 25 high schools and five colleges at the convention, held annually at NTSC.

Contests in spelling, vocabulary, parliamentary procedure and public speaking will be judged by Dallas and Fort Worth executives.

Mr. and Miss Future Business Leader will be chosen from high school contestants and Mr. and Miss Future Business Executive from the college group.

The theme of the convention is "After High School, Then What?"

Miss Marjorie Keaton, Texas Christian University; Claude Owens, Kilgore College; and Dana Hart, Brantley - Draughon College, will discuss the merits of senior college, junior college and business college studies for the high school graduate.

Chris Kelley, director of personnel for Sanger's Department Stores, Dallas, will speak at the convention - closing awards banquet Saturday afternoon.

## Pampa Girl On Honor Roll At McMurry College

Patsy Gorman Hildebrand, daughter of Mr. and Mrs. H. V. Gorman of Pampa, is one of the 83 McMurry College students who have been named to the Dean's Honor Roll, released recently by the registrar's office of the Abilene college.

In order to make the list, students had to have at least a 2.5 grade average for the past semester, with only the top ten per cent of the student body being eligible.

Mrs. Hildebrand had a 2.8 average for the fall semester. The junior elementary education major is a member of Delta Beta Epsilon, women's social club; W. H. Waitaysee, service organization; and Alpha Chi, national honorary scholastic society.

### COAL OUTPUT DROPS

**GENEVA (UPI)** — European coal output declined by seven million tons last year compared with 1959, the United Nations Economic Commission for Europe reported Tuesday. British and French production registered the largest drops.

**SOLVING THE MYSTERY**—Here's where each of your dollars went in recent months—that is, if you hit the national averages on the nose. Data: U.S. Department of Commerce.

## STRANDED — Three young travelers, stranded in San Francisco's International Airport, look out a window at a grounded passenger plane. The nation's worst aviation tie-up in history continues as state and national officials try to settle the walkout of flight engineers.

(NEA TELEPHOTO)

## IFK Tells Latin-Americans Tyranny Must Be Driven Out

**NEW YORK (UPI)**—President Kennedy has told Latin Americans that true progress among Western Hemisphere nations will succeed "only when every form at home or domination from abroad—is driven from the hemisphere."

"If we work together, under freedom, no goal and no achievement is beyond our grasp," he said.

The President wrote that as part of the new alliance, he has sought \$500 million for a hemisphere study, ordered a special food-for-the-hungry mission to Latin America and established a special Americas task force.

The President did not mention the dictatorial regime of Rafael Trujillo in the Dominican Republic, against whom the Organization of American States (OAS) has declared sanctions, or Cuba's Communist-oriented regime of Fidel Castro. But he made it clear the United States believes "that fruitful advance is only possible when people are free to shape their own destinies."

Kennedy also outlined a hemispheric "Alliance for Progress" in an article for Life en Espanol, the Spanish-language edition of Life Magazine, released Tuesday.

"The alliance for progress will succeed only when every form of tyranny—either despotic rule at home or domination from abroad

## Underground Water Test Case Filed

**LUBBOCK (UPI)** — Marvin Shurbet and his wife, Mildred, a farm couple who live near Petersburg, Tex., have filed in U.S. District court in Lubbock to take the federal government to task in a case that might save farmers millions of dollars annually in tax savings.

The purpose of the suit is to prove that underground water is a natural deposit and that when it is used by the farmer, it is being mined just like oil, gas or any other natural deposit.

If this is true, then the suit contends that underground water should come under the federal law allowing income tax deductions for depletion of natural deposits.

The suit is a test case sponsored by the High Plains Water Conservation District, which has spent seven years in its preparation.

It was filed for the Floyd County farm couple by attorneys George W. McCleskey of Lubbock, J. Charly Dougherty of Austin, and Edwin L. Cahn of Washington, D. C.

**SPOON-LICKIN' GOOD**—Pet calf unleashes a formidable tongue to take owner John Phillip's spoonful of molasses in Knox County, Indiana, as an early spring tonic.

## Defense Chief Orders Speedup On 'Readiness'

**WASHINGTON (UPI)**—Defense Secretary Robert S. McNamara is preparing a defense speedup plan expected to cost \$2.1 billion and strengthen the nation's power for both global and "brushfire" wars.

Now being whipped into final shape for President Kennedy, the plan calls for speeding missile production and readiness, increasing the number of jet bombers kept on 15-minute alert forces for police-type actions, and expanding conventional forces for police-type actions.

The size of the armed forces probably will be increased above the present strength of 2,493,000 men.

## Singer Rogers To Marry Director

**HOLLYWOOD (UPI)** — Ginger Rogers, 49, announced her engagement Tuesday to 43-year-old movie director William Marshall.

"No date has been set for the wedding, but a wedding always follows an engagement," said the attractive blonde-haired actress.

Miss Rogers formerly was wed to Lew Ayres, Jack Briggs and Jacques Bergerac. She divorced Bergerac in 1958.

Marshall previously was wed to French actress Micheline Prelle and Michelle Morgan. He has a 16-year-old son by his marriage to Miss Morgan.

## DIFFERENT INDEED

**SHOREHAM, England (UPI)** — Discussing the recent flood situation in Sussex County, Councillor Mrs. F.M.L. Richards said that nature had become mixed with water "making it a different cup of tea entirely."

## One Killed, Nine Hurt In January Traffic Crashes

The Highway Patrol investigated nine rural accidents in Gray County during January, according to Sgt. E. G. Albers, patrol supervisor of the area.

These wrecks accounted for one person killed, nine injured, and a property damage of \$4,616.

The Highway Patrol Supervisor pointed out that the motoring public has begun the new year with an improved traffic record over last year. You can continue to help keep it that way by doing two things, he added. Know and obey traffic laws and defensive driving.

Said Sgt. Albers: "Defensive driving is the ability to recognize an accident producing situation and compensate for same by your own driving, being careful to commit no driving violations yourself. In other words, simply drive ahead of yourself and be prepared for the other man's actions."

## GET THEIR MAN

**AMITYVILLE, N.Y. (UPI)**—The police finally caught up with Thomas Gregory as he hid in the woods Tuesday.

Thomas, 11, had fled from Brunswick Hospital minutes before he was due to have his tonsils removed. He's back at the hospital now.

**ELEGANTE SHORTCAKE** — Your family will not even notice that meat is missing from your menu when you serve them this elegant shortcake made with Jade Green, garden-fresh peas combined with a smooth, savory mushroom sauce topping a feathery-light shortcake which is

flavored with onion and a whisper of herbs. It's hearty, delicious and ideal to serve to a hungry family during the Lenten season.

**Beef Stew Makes Delicious Fare**

This is a hearty meal for lunch or supper and the Dromedary Corn Muffin topping makes it doubly delicious. Serve thick tomato wedges and your favorite dressing.

- BEEF STEW**
- 1/4 cup butter or margarine
  - 1 clove garlic, crushed
  - 2 pounds beef, cut in cubes
  - 1/4 cup flour
  - 2 teaspoons salt
  - 1/2 teaspoon pepper
  - 1 bay leaf
  - 3 cups hot water
  - 3 medium potatoes, cut in quarters
  - 4 carrots, cut in thirds
  - 1 cup celery, cut in 1-inch pieces
  - 1 package frozen peas
  - 8-ounce package DROMEDARY CORN MUFFIN MIX
- Heat butter, or margarine in heavy pot. Add garlic. Dredge meat cubes in flour mixed with salt and pepper. Brown in hot fat. Add bay leaf and 3 cups water. Cover; simmer one hour stirring occasionally. Remove bay leaf. Add potatoes, carrots, celery and peas. Continue cooking 30 minutes or until vegetables are tender. Prepare DROMEDARY CORN MUFFIN MIX according to package directions. Drop by spoonfuls on top of stew and bake in hot oven (425 degrees F.) about 20 minutes. Makes 6 to 8 servings.

**New Idea For Chocolate Cake**

Now that instant potatoes have taken all the muss and fuss out of fixing mashed potatoes, you can discover how much fun it is to serve them in interesting and delicious new ways.

- Here's an idea for Potato Chocolate Cake:**
- 2-3 cup butter
  - 1 cup New Era instant mashed potatoes (prepared according to directions)
  - 2 cups sifted all purpose flour
  - 1-3 cup cocoa
  - 2 tsp. baking powder
  - 1/4 tsp. salt
  - 1/4 tsp. cloves
  - 1/2 tsp. cinnamon
  - 1 cup milk
  - 1 cup chopped walnuts
- Cream butter and sugar until light and fluffy. Add eggs one at a time, beating thoroughly after each addition. Add New Era instant mashed potatoes. Add sifted dry ingredients alternating with milk in thirds, beating after each addition. Bake in a greased and floured large tube pan at 350 degrees for one hour. (Spices may be omitted.) Yield: 12-16 servings.

**Shamrock Chiffon Pie Is Begorra Beguiling**

Why not plan something really special in the way of dessert for St. Patrick's Day? You'll find it will not only please the family but will also give you a little lift by way of a change in your everyday meal planning routine. Shamrock chiffon pie is an elegant idea for the occasion and it won't put much of a dent in your time schedule either.

The gelatin pie is suitably green — lime green, that is, with lime flavored gelatin and a little help from some food coloring. And the top is decorated with a good sized shamrock of flaked coconut to make it further apparent that this is definitely a pie with an Irish air.

Evaporated milk, chilled and whipped until it is stiff, gives a fluffy chiffon lightness to the pie and frozen limeade concentrate adds a nice touch of tartness. Make a pastry shell ahead of time then lightly pile in the filling and chill well before decorating and

- SHAMROCK CHIFFON PIE**
- 1 9-inch pastry shell, baked
  - 1-3 cup frozen limeade concentrate
  - 1 can crushed pineapple (8 ounces)
  - 1 envelope unflavored gelatin
  - 1/2 cup boiling water
  - 1/4 cup sugar
  - 1/4 teaspoon green food coloring
  - 2-3 cup evaporated milk, chilled icy cold
  - Flaked coconut
  - Thaw can of frozen limeade concentrate. Measure 1-3 cup and use undiluted in making pie filling. Drain juice from crushed pineapple into a medium size mixing bowl. Sprinkle gelatin over and let soften 5 minutes. Add boiling water and stir until gelatin is dissolved. Stir in sugar and continue stirring until sugar is dissolved. Then stir in pineapple, limeade and green food coloring. Chill until mixture is consistency of unbeaten egg white. Whip evap-

orated milk until it is ve and will hold a peak. F gelatin mixture lightly b oughly. Spoon into a cool shell and chill until set, 1 hours. Decorate top of pie shamrock of flaked cocon es 6 to 8 servings.

**Good Sandwich**

To recall heroic deeds at Forge, here are Washington Sandwiches, jelly-rolled to set to a rat-a-tatting with onion drum sticks.

- WASHINGTON DRUM SANDWICHES**
- 1 cup chopped, cooked
  - 1-3 cup cooked, strained

- or applesauce
- 1/2 cup pimiento cheese
- 1-3 cup chopped peanuts
- 1-3 cup sweet pickle relish
- 1 1-3 tablespoons minced
- 1/4 teaspoon Worcestersauce

- 1 (1 1/2 pound) loaf unslit riched bread
- 1/2 cup soft butter or marg
- 16 green onions.

Combine ham and apricot bne cheese spread, peanut le relish, onion, and Wor shire sauce. Slice top crust bread. Cut remainder of lo

8 lengthwise slices. Trim o and bottom crusts. Spread slice of bread with 1 table

butter. On half the slices, ham mixture and, on rem

one, the cheese mixture. U cup of fitting for each bread

Tightly roll up a half-spread jelly roll fashion, and join

cheese-spread slice, continu foil. Make 3 similar rolls

remaining slices and roll them. Before serving, cut

roll in half for 2 drums. G with green onion drum stic

**No Bother, Few Dishes, Happy Family With Honey And Pancake Breakfast**

Honey on Pancakes is a dish so good that it can be served at any meal of the day. For breakfast a glass of orange juice might be added — for lunch a fresh fruit cup or fruit salad with a glass of milk or cup of tea — and for supper complement Honey and Pancakes with link sausages or crisp bacon, a fruit salad and beverage. This is a nutritious meal in itself and it is so good that everyone in the family will count it as one of his favorites.

Homemakers welcome Honey and Pancake meals — no fuss, no bother, few dishes to wash and a satisfied family. What more can one ask?

For variety try one of these toppings:

- SPICED HONEY SAUCE**
- 1/4 cup butter or margarine
  - 1 cup honey
  - 1/2 teaspoon cinnamon
- Heat butter or margarine, honey

and cinnamon in a double boiler or in a saucepan over low heat. Serve warm. Yield: about 1 1/2 cups.

- FRUITED HONEY SAUCE**
- 3 pears or apples (cut into small pieces)
  - 1 cup honey
  - 1 teaspoon lemon juice
  - 1 teaspoon butter
  - Dash of cinnamon
- Combine all ingredients and cook slowly until the fruit is tender. Serve hot.

- ORANGE HONEY BUTTER**
- 1/4 cup butter
  - 1/2 to 1 cup honey
  - 1 teaspoon orange juice
  - a little grated orange rind.
- Cream butter well. Add honey gradually. Beat thoroughly. Add orange juice and rind to mixture and blend thoroughly. Keep in refrigerator until ready to serve. For special meals make into fancy shape by using a butter mold.

**Leftover Chicken Stars In This**

Here's a luncheon dish that makes one hope for leftover chicken. It's flavorful with onions and curry, colorful with Dromedary Pimientos and delicious with crunch Triscuit Wafers.

- PIMIENTO CHICKEN**
- 4 onions, thinly sliced
  - 1/4 cup butter or margarine
  - 1/4 cup flour
  - 1 tablespoon curry powder (or to taste)
  - 2 cups chicken broth
  - 4 cups cut-up cooked chicken
  - 1 teaspoon salt
  - 1/4 teaspoon pepper
  - 7-ounce jar Dromedary Pimientos, whole pod, chopped
  - Triscuit Wafers

Saute onions in butter or margarine. Stir in flour and curry powder. Add chicken broth and chicken. Simmer for 30 minutes. Add salt, pepper and Dromedary pimientos. Keep hot and serve over Triscuit Wafers. Makes 4 servings.

**Here's An Idea For Family Fare In Lent**

Shortcake is an all-time favorite American food. Here's an easy-to-do main course version... hearty and satisfying... ideal to serve to a hungry family when meat is not on the menu.

Jade green, garden-fresh frozen peas, cooked and combined with smooth, savory mushroom sauce tops a feathery-light shortcake which is flavored with onion and a whisper of herbs.

Prepare the shortcake by mixing onion and herbs with packaged biscuit mix. Divide the mixture into two equal portions and bake in two layer pans. While the cake is baking, make the sauce. Mix concentrated mushroom sauce with milk and cheese. When it is thoroughly heated and the cheese melted and smooth, spoon some of the sauce over the lower layer of shortcake. Add the peas and spices to the remaining sauce and spoon over the top of the cake. Build an enticing dinner menu

by serving generous wedges of the shortcake citrus salad of orange, grapefruit and avocado slices with tart dressing and for dessert, Danish cup custards and cookies. Served with plenty of steaming coffee... here's a meal to remember.

**HERBED GREEN PEA SHORTCAKE ELEGANTE CRUST**

- 3 cups prepared biscuit mix
- 1/4 teaspoon dried minced onion optional
- 1 cup milk
- 1/2 teaspoon fine herbes blend
- Sauce 1 can (10 1/2 oz) cream of mushroom soup
- 1/4 cup milk
- 1 cup shredded process American cheese (about 1/4 lb.)
- 1/2 teaspoon celery salt
- 1/2 teaspoon dried parsley flakes
- 1 package (10 oz.) frozen green peas, cooked and drained

Shortcake is baking make sauce. Combine soup and 1/2 cup milk. Heat slowly, stirring constantly, until hot and smooth. Add cheese and stir until cheese is melted. Arrange one shortcake layer on serving platter; spread with 1/2 cup of the hot soup mixture and cover with second shortcake layer. To remaining sauce add the remaining 1/4 cup milk, celery salt, parsley flakes and basil; heat, stirring constantly. Fold in hot freshly cooked frozen green peas. Cut shortcake in wedges and serve with sauce. Yield: 6 servings.

**What's Golden-Brown, Spicy-Sweet And In Fifteen Minutes Is Ready To Eat?**

What's round, golden-brown, spicy-sweet and ready to eat in just about 15 minutes?

Sounds like oatmeal cookies, doesn't it, except for the unbelievably short preparation time? Not even the quickest kitchen whiz could collect all the ingredients, measure them, stir them together, spoon-drop the dough onto a cookie sheet and bake them in so little time.

But the answer to the riddle is oatmeal cookies — Pillsbury Slice 'n Bake Oatmeal Cookies with all the work taken out and all the

luscious flavor left in. Oatmeal, you see, is Pillsbury's newest convenience cookie flavor, available now at your grocers. Like five other oven-ready Pillsbury cookie flavors, Oatmeal Cookies can be found in the dairy case where refrigeration keeps the dough fresh and firm for slicing.

That's right, all you do is slice, quarter and bake. In just 10 to 12 minutes the little quarter-circle wedges you put into the oven, come out round and tempting. Two more minutes for cooling and they're ready to serve.

You might want to use some of the time Pillsbury saves for you by dressing up your cookies. Roll them in chopped nuts, dot the still-hot cookies with chocolate bits, or try your hand at Oatmeal Cherry Winks, a fancy name for a simple festive touch. Make the cookies according to label directions, pressing half a maraschino cherry into the top of each just before they go into the oven. This variation, or any of the others, will bring an admiring chorus of "mmms" from your family. And since each package of Pillsbury Oatmeal Cookies produces a whole jarful of cookies (3 to 4 dozen).

**Just The Dish For Cold Days**

Savory Meat Loaf is a rich, moist and flavorful luncheon dish for blustery, wintry days. Team this meat loaf with vegetables for a nourishing meal. Nabisco Shredded Wheat helps to lend a distinctive flavor.

**SAVORY MEAT LOAF**

- 1 pound ground beef
  - 1 pound ground pork
  - 1 1/2 cups crushed Nabisco Shredded Wheat (about 5 biscuits)
  - 1 cup canned tomatoes
  - 1 cup chopped onion
  - 1/4 cup chopped green pepper
  - 2 eggs, beaten
  - 1 teaspoon salt
- Mix all ingredients. Bake in moderate oven (350 degrees F.) 1 1/2 hours. Garnish with mashed potatoes and serve with your favorite vegetable. Makes 6 to 8 servings.

**DOUGHNUT SANDWICH**

Calling all teens! For 'tween time eating, try this doughnut sandwich: Slice a baker's plain doughnut in half, crosswise. Spread one half with 2 tablespoons cottage cheese, the other with 1 tablespoon orange marmalade or fruit preserves. Then reassemble, sandwich style.

**Restaurant Owners And Homemakers Know A Meal Must Look Attractive**

Professional food handlers know the first requisite of a meal is that it be attractive. The most delicious dish will be wasted unless it looks good enough to make people want to buy it.

This is one of several problems which homemakers share with professional cooks; the Texas Beef Council feels, and is one lesson that many homemakers should learn.

Both homemakers' and restaurant operators are working for a profit, but the wife and mother takes her profit in well-balanced, nourishing meals which can be served within the limits of her household budget. While the restaurant operator is "making the payroll," she is adding inches to the length of Junior's legs and admiring the youthful straightness of Susy's back. Both profits are real and necessary.

Fortunately for all cooks, the tricks which produce an attractive meal are not necessarily expensive. Often they just require a little thought and imagination. The Beef Council's suggestion for this month is a new "dress" for a perennial favorite: individual pot roasts served in nests of whipped potatoes.

**BEEF POT ROAST**

Select a 2- to 4-pound chuck or blade roast. Roll in flour seasoned with salt and pepper, and brown all sides in hot fat. Add 1/2 cup water. Cover and cook slowly 2 1/2 to 3 hours or until tender, adding more water if needed. Add small whole onions and carrots the last 45 minutes. Remove beef and vegetables and thicken stock with a mixture of flour and cold milk to make gravy.

**VARIATION:** For a spicy gravy, slice 2 small onions over meat after browning. Add 2 bay leaves and 5 whole cloves. Use 1/4 cup vinegar and 1/4 cup water as liquid. Remove bay leaves and cloves be-

fore thickening gravy. Before serving, cut roast into portion-size pieces and arrange in nests of whipped potatoes, ladling gravy carefully over each serving.

**Cheese'n Shrimp Fill Peppers**

Have you run out of ideas for serving meatless meals? Try this one from the Borden Kitchen. The recipe combines a creamy cheese sauce with plump, pink shrimp as a filling for parboiled green peppers. For the cheese sauce blend cream cheese with process cheese food to make a sauce of custard consistency. This sauce enhances the flavor of the shrimp and keeps it moist for serving.

**Cheese'n Shrimp Pepper Perfection (Makes 4 servings)**

- 1 (8-ounce) package cream cheese
- 4 green peppers
- 1 egg
- 1/4 cup grated American cheese product\*
- 1/4 pound Chateau Cheese, finely shredded\*\*
- 1 (5-ounce) can frozen cooked, shelled, deveined shrimp, defrosted

Let cream cheese soften at room temperature. Remove top and seeds from green peppers. Parboil 5 minutes; drain. If necessary, remove a very thin slice from bottom of each pepper, so peppers will stand. Beat cream cheese until fluffy; beat in egg until mixture is light and well blended. Gradually stir in remaining cheese and shrimp. Spoon mixture into green peppers. Bake in moderate oven (350° F.) 20 to 25 minutes or until peppers are tender and cheese is well blended. If desired, garnish with cooked whole shrimp on top of each pepper.

\* Packed in 2 and 4 ounce canisters. \*\* Process Cheese Food.

# PICTURE NEWS

## AROUND THE WORLD

**STRICTLY FROM HUNGER**—Although cats usually hate water, that long stretch of it between fishing boats isn't stopping this feline from making a leap. The boats are in the harbor of Istanbul, Turkey, and the cat is leaping from one into another in search of some left-over tidbits. This is his life.

**SPILLING THE BEANS**—At the greenhouse of Carroll College in Waukesha, Wis., gardening is taking a revolutionary turn for Judy Karman. She is watching pots of bean seeds whirling on a turntable. The experiment is to determine which way the bean plants will grow—inward, outward, or upward—while turning at 90 revolutions per minute.

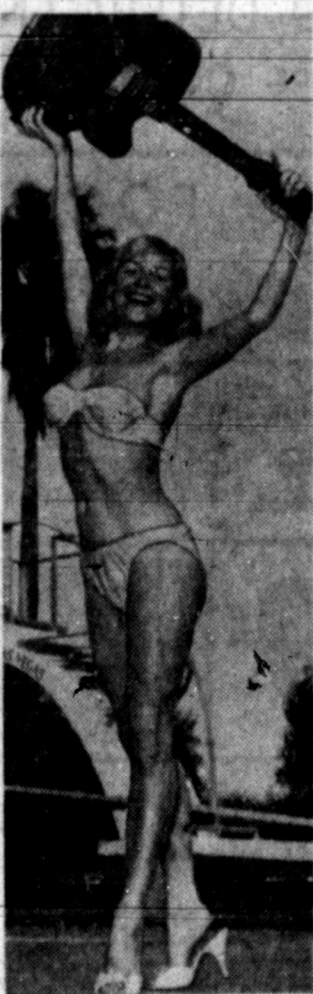

**THREE FUNNY PEOPLE**—Getting a kick out of happenings at the next table are these professional comedians, celebrating the success of the new Broadway hit, "Show Girl." It stars Carol Channing (center) and Jules Murshin (left). Jack Carter isn't in the show; he's just a guest.

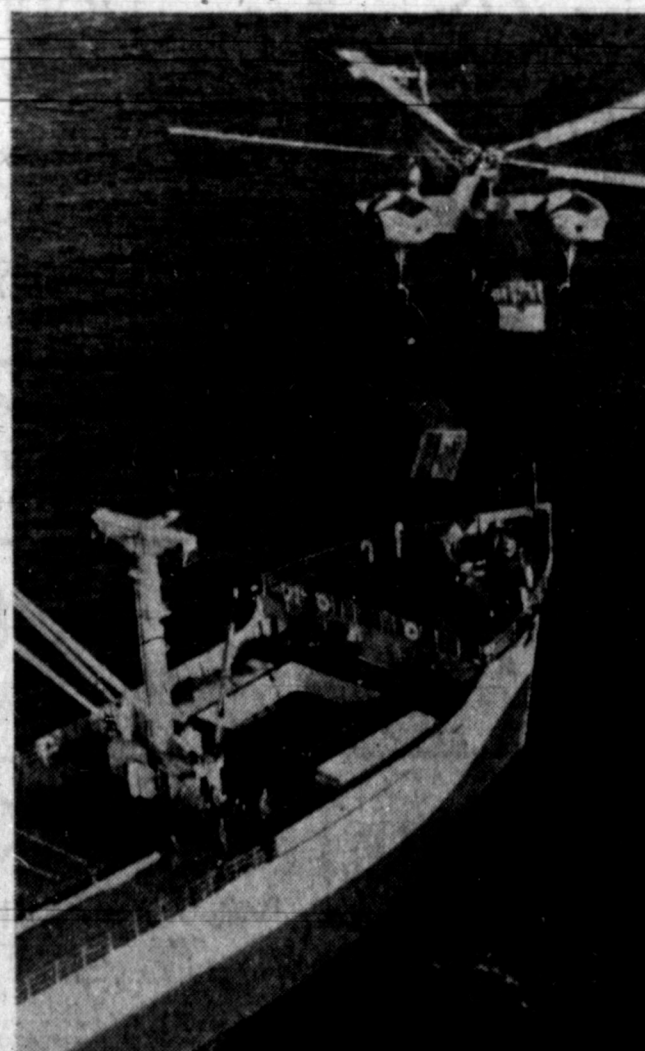

**BIRTHDAY PARTY**—A boxer dog seems to have had a cake all his own to celebrate his third birthday in Winnipeg, Man., Canada. Made of liver and meat, it is topped with sugar icing, and the pooch is enjoying every bite.

**THE BATTLE FOR CHINA**—Women who prize their expensive china can envy these housewives in London, England, who are grabbing up bargains. Any bull that wandered into this china shop would be swiftly reduced to hamburger by such eager females.

**STRUM FUN**—Most anyone would be glad to string along with gorgeous Genevieve Coulumbel, who's dancing at a hotel in Las Vegas, Nev. A guitar held overhead seems to add music to the air.

**AVIATION FIRST**—The Sikorsky S-60 Skycrane helicopter lifts an Army cargo container from the hold of the Victory Knoll. It took place during a demonstration of land, sea and air transport equipment by the U. S. Army Transportation Corps near Fort Story, Va. The S-60 sped the container ashore and placed it in a truck in less than two minutes.

**UP HE GOES**—Although it is torn by civil war between government forces and pro-Communist guerrillas, war and peace combine to share the scene in Vientiane, capital of Laos. A soldier is climbing a telephone pole to repair damaged communication wires, as Buddhist monk watches.

**AGAINST THE ELEMENTS**—Three mailmen lean into the wind as they push forward through a snowstorm to deliver their mail in New York City. Traffic was snarled, but these lads were true to motto of the post office and completed "their appointed rounds."

**NO WONDER**—A "First Lady" theme dominated the Gary Wagner International Photo party in New York, where "first ladies" of stage, screen, TV and radio were honored. Among them were (left to right): Barbara Britton, who accepted the "First Lady of Radio" award for absent Mary Margaret McBride; Joan Crawford for movies; Helen Hayes for the stage, and Hildegard, as first lady of the supper clubs.

**TWO SLEEPY PEOPLE**—When photographer Herbert Miller posed his wife and baby for a photo in the Bronx, N. Y., he wound up with this soporific result. Seems he was keeping them up much too long.

**FLAG WAYER**—She's pretty Kathy Kormandy, of Beacon, N. Y., and a sophomore at the University of Bridgeport, Conn. Kathy, 19, hopes to win the regional college queen crown and compete in National College Queen Contest.

**IT'S A MAN'S WORLD**—And Julie Anne Arms is finding that out in the warm climate of Palo Alto, Calif. Julie decided she would try mowing the lawn; it had always looked so easy when someone else did it. She struggled for a while, but—that's all for this year.

### Plans Discussed For Spring Tea At Meeting Of Worthwhile Club

Worthwhile Home Demonstration Club members met recently in the home of Mrs. S. R. Hood, south of the city, for luncheon. During the business meeting, the Food Sale to be held during the Fat Stock Show and Sale, Mar. 4-8, was discussed. Each club member is asked to bring two pies the day that she works. Mrs. Lester Reynolds reported on the recent sale at the Rifle Range. It was reported that the County Fair will be held in October with booths displaying canned food and other work that has been done during the year. It was announced that the Education and Expansion Committee are to hold a Spring Tea during Home Demonstration Week in May. Mrs. Boyd Brown presented a program on "Texas in the Spring" and described the Blue Bonnets, state flower and the Indian Paint Brush. Roll call was answered with "Have You Seen the Texas Blue Bonnets?" The remainder of the meeting was spent working on tufted bedspreads and smocked pillowcases. Mrs. Loretta Killingsworth, A. C. Cox, C. B. Hicks, Leon Terry and Bert Smith, all of Lefors, were welcomed as guests. Members attending in addition to those previously mentioned were Mrs. W. G. Kinzer, L. M. Bryant, Roy Tinsley, J. L. Carlton and Miss Yvonne Reynolds. Mrs. Kinzer will be hostess for the Mar. 3 meeting at 2:30 in her home, 503 N. Russell. At a previous meeting of the club held in the home of Mrs. Pearl Ferguson, 939 S. Love, Mrs. Roy Tinsley presented a program on "Family Economics." Mrs. Otis Skinner was elected as a delegate to the District Convention to be held in Dumas in April.

### Brownies Invest New Members

LEFORS (Spl) - Brownie Troop 66 met in the fire station recently for investiture services for two members, Rose Ann Cunningham and Freda Looney. The group learned the "Roly Poly" dance, played games, and sang songs, following the business meeting and roll call for dues. I was decided to meet every two weeks, instead of each week, with the next meeting on Mar. 3. Mrs. J. W. Foster served refreshments. Leaders, Mmes. Leonard Cain, E. L. Foshee, Ray Chastain, and Alex Swann were present. Attending were Paula Beck, Rosemary Blankenburg, Marsha Brewer, Debra Boyd, Susan Cain, Martha Carlton, Margie Chastain, Vickie Cochran, Elaiosh e.e.f., Vickie Cochran, Elaine Foshee, Diane Hughes, Patricia Moxon, Gaylene Swann, Peggy Cox, Freda Looney and Rose Ann Cunningham. The group learned the "Roly Poly" dance, played games, and sang songs, following the business meeting and roll call for dues. ### ESA Entertains Guests, Members

CANADIAN (Spl) - A party for Epsilon Sigma Alpha members and their guests was held in the Parish Hall recently. A Valentine motif was carried out in the decorations. Chairman of the decorating committee was Mrs. Don Powell; the entertainment committee, Mrs. Glen Bill Walker; and the food committee, Mrs. Jim Waterfield. Attending were Messrs. and Mrs. Mmes. Jim Waterfield, Dick Waterfield, Ben Mathers, Tommy Mitchell, Glen Bill Walker, Charles Cook, John Ball, Paul Read, Don Powell, Norrell Wallace, Grady Burnett, Bill Popham, Rhea Wilson, Jim Parsons, Red Snyder, Revis Massey, Pack Gwaltney. HEAT SOFTENS WAX Wax shoe polish that has dried or caked can be made usable again by letting the tightly capped can float in hot water until the wax softens. Don't roughhouse with your host's young child. He may get out of hand, into trouble and wind up in tears.

### Dear Abby... A Woman In Love Knows She Is!!!

ABIGAIL VAN BUREN

DEAR ABBY: I have two very fine, well-established gentlemen in love with me, but I cannot for the life of me make up my mind which one I want. Each knows about the other and have both been so patient with me I am even more in doubt than ever. If only one would give up so I wouldn't have this decision to make. I feel like such a fool, Abby, telling them to give me more time. I am 29 years old and should know what I want. When I think I want one, my heart hurts so for the other. I have changed my mind a dozen times back and forth. Is it possible to be in love with two men? I think that's my trouble.

DEAR IN: You may eat anything served to you that is eatable. When in doubt, watch your hostess. I know a man who actually cut up and ate the lace paper dolly on his dessert plate. He thought it was "tough meringue."

ALL MIXED UP DEAR MIXED: You are infuriated, grateful, flattered and confused, but you aren't in love with either man. A woman "in love" isn't tortured by indecision. She KNOWS!

HATES TO FIGHT DEAR HATES: Take a few boxing lessons. Even if you never raise your fists in anger it will be good for your self-confidence to know you can defend yourself if you have to.

DEAR ABBY: When eating seafood, is it proper to eat the toast underneath the seafood? I have been told the toast is put there only to absorb the steam and moisture and is not meant to be eaten. It was delicious.

IN DOUBT Yes, Abby will answer your letter personally if you write to Abby Box 3365, Beverly Hills, Calif., and enclose a stamped, self-addressed envelope.

Music Program Given At Club LEFORS (Spl) - "Music Appreciation," was the program topic for the 20-30 Club meeting held in the civic center recently, with Mrs. Chestene Dunn as hostess. Mrs. Leonard Cain, program leader, introduced Miss Sheila Cable, piano instructor, who presented a program, and introduced her pupils who took part. Offering piano selections were Nancy Jordan, Susan and Sandra Cain, Margie Chastain, and Leann Timmons. Roll call was answered with "My Favorite Song."

WCS Planning Rummage Sale LEFORS (Spl) - Women's Society of Christian Service continued its study of "Heritage and Horizons," the current missionary book taught by Mrs. J. Weldon Moore, at their Tuesday session. Mrs. Walter Pflug led opening prayer. A rummage sale was planned to be held in Pampa on Feb. 22. Attending were Mmes. J. Weldon Moore, L. R. Spence, Bill Teel, Jeff Stubblefield, Cleve Johnson, W. C. Breining, Lee Airington, Carl Nunn.

### SOCIAL CALENDAR

- THURSDAY
- 2:30 - Senior Citizens Center with Wayside HD Club as hostesses in Lovett Memorial Library.
- 7:30 - Pampa Rebekah Lodge IOOF Hall, 800 E. Lefors.
- 9:30 - Buckner Circle, Harrah Methodist Fellowship Hall.
- 7:30 - Gray Circle, Harrah Methodist Fellowship Hall.
- 8:00 - Epsilon Sigma Alpha Sorority, City Club Room.
- 8:00 - Top o' Texas Chapter, Order of the Eastern Star, Culbertson Bldg.
- John Gentry gave the Thought for the Day and stated "it is never too late to look for the highest things in life."
- Preceding the program, Lee Junior High Band, dressed in bright blue uniforms trimmed in red presented "Thunder West," "American Scene," "Cuban Holiday," and "Burst of Flame" under the direction of Joe DiCosimo, band director.
- During the social hour, following the meeting, refreshments were served with J. L. Chase and the hospitality committee as hosts. The table was centered with a driftwood arrangement accented with miniature musical instruments hanging from the branches; another refreshment table was centered with an arrangement of pink Azeleas.

FIRST PHOTOS of Paris Fashions—The single big look emerge from the current Paris collections is, of course, a flare. By means of pleats, godets or the trumpet line, a flare runs through Paris collections like wildfire. But here is another general silhouette, the one with gentle, soft lines. This nothing to do with the old chemise. It is truly shaped to the body and is young, new and fresh. Skirts generally remain short, very neatly to the knee. FT: Marc Bohan's first collection for the House of Dior is a tremendous success. Here is his beaded nylon tulle evening gown with lowered belt line. Center: The new Paris Flare shows to advantage in this coat dress by Cardin. Flared skirt has knife-pleating at top. Fabric is lightweight cheviot of orlon and wool in pale tangerine. RIGHT: The unusual combination of white tulle and black mink are used in this coat by Pierre Belmoin. Fabric is orlon, dacron and cotton combination. (Gaille Dugas, Newspaper Enterprise Women's Editor)

Lumumba's Death Points Up Fact Of Problems Facing African Continent

The recent death of Patrice Lumumba has brought into clear focus the fact that there are many, many problems associated with the continent of Africa, and that there will be many, many more not readily discernible. Africa is attempting to do in a very few years what it has taken this country since 1492 to accomplish. In other words, the task of bringing Africa to modern day American standards is equivalent to the task that would have faced Christopher Columbus in 1492 when he stepped off his ship onto the virgin new world. This task may not be impossible to accomplish, but it is highly improbable, even with the modern day methods, unless the people of that continent are able to face the problem involved and fully appreciate what must be done to solve it. This is most difficult in a country that is 95 per cent completely illiterate; a country which is rich in natural resources, but wholly lacking in human knowledge; a country in which the government is primarily tribal and the chief political divisions are tribal; a continent inhabited by some 220 million people, as best estimated, who generally pursue a day-to-day existence with no understanding of modern day economics.

The continent of Africa gave birth in 1960 to some seventeen new African States, sixteen of which have become members of the United Nations with a voice equal to that of the United States. These new nations must choose between two ideologies; either freedom under the philosophies of western democracy, or a regimented and restricted existence under the communistic doctrines of the Soviet philosophies. In order to make the proper choice, it is essential that these people have the advice and counsel of an educated and well-trained mind; preferably, an educated and well-trained mind of their own people, in whom they can place definite trust. The difficulty is that very few of their people have an education, and fewer have any training or experience at all in government matters. There are only ten universities in tropical Africa, and some of these have just started to function, such as Lovanium University in the Congo, which graduated its first students in 1959. Only about 7,000 African students were enrolled at African institutions in 1958. Several thousand were studying in the United Kingdom, France, Italy, and other countries. There are some 1,165 Africans studying in American institutions in 1960. But these numbers are infinitesimal when compared with the populations of the countries in Africa and the number of people who have not the slightest education of any kind, outside of nature. Efforts are being made by many universities and groups in this country to afford educational opportunities to these peoples from these new nations of the world. We in this country are always willing to help our fellow men. But, it is most difficult to be helpful when those who need the help refuse to recognize the fact that independence and freedom have corresponding responsibilities. It would seem that those Africans who have been so fortunate as to be afforded educational opportunities would be trying to explain to their own people the responsibilities which must be assumed. It would seem that those of their own

We had the pleasure of a visit with Mr. Bill Nelson of Amarillo, Sheriff Hugh Anderson of Borger, and Mr. Carroll Griffin of Dumas. All were in the Nation's Capital last week, Mr. Griffin having stopped in Washington en route to Korea with Mrs. Griffin, where he will be associated with the International Cooperation Administration.

Round And Round It Goes—Until Everybody's Dizzy

NEW YORK (UPI) — If someone had been in the car, it might have been the most dizzying ride in history.

Round and round it went, right in the middle of a busy Manhattan street with no one driving. Crowds on the sidewalk cheered Tuesday with each perfect circle. But police fretted, fearing the next circle might not be so perfect.

After an hour, one policeman threw a large block of wood into the street and it stopped.

Roars of approval greeted Maurice McGrath, 40, of Englewood, N.J., as he entered his driverless car and turned off the motor.

"I don't know what happened," he explained. "I just stepped out to remove an obstacle on the roadway and the thing started moving."

Gold mines of the United States produced 1,736,352 ounces in 1958.

READY, AIM, TALK—It looks like a gun but it is a communications system. Words are translated into infra-red beams to be received miles away by a similar "gun" aimed in this direction. Message can't be jammed, is the claim of the manufacturer.

Train Hits Auto With Big Splash

NORTH LITTLE ROCK, Ark. — "I've gotta leave," the driver (UPI) — It was a nice looking fellow, and he left, running as fast as he could across a field.

The driver got out and asked a man standing nearby to help him push the stalled car, but between the two of them they couldn't budge it.

About that time, a Cotton Belt Railroad train came, on the scene, and it was a big splash.

Realtors Take Up Bills Now In Legislature

The Pampa Real Estate Board held its regular meeting Monday noon in the Coronado Inn.

The main portion of the program was spent in a discussion of various bills introduced in the present session of the state legislature. The board voted to make public the discussion of at least one of these bills because it will affect most property owners when and if they sell or lease any real property.

House Bill 325 imposes an excise tax of 2 per cent upon every instrument of writing conveying an interest in real property offered for record and recorded with the County Clerk in any county of the State. The term "instrument of writing" shall include but not be limited to deeds, bills of sale, contracts of sale, contracts of conditional sale, leases, contracts and agreements. It is intended that all written instruments conveying real property or an interest in real property shall be subject to the tax imposed by this Act.

"We feel this Bill is very inequitable and a very extreme

measure in solving the State tax problem. Real Estate for years has been carrying the brunt of the tax load, and it appears that some means should be devised to relieve real estate from any further taxation," said Jim Dailey, president of the Pampa board.

Also discussed was House Bill 121 imposing an occupation tax of 1 1/2 per cent of the gross income on the businesses of manufacturing and furnishing of professional and personal services.

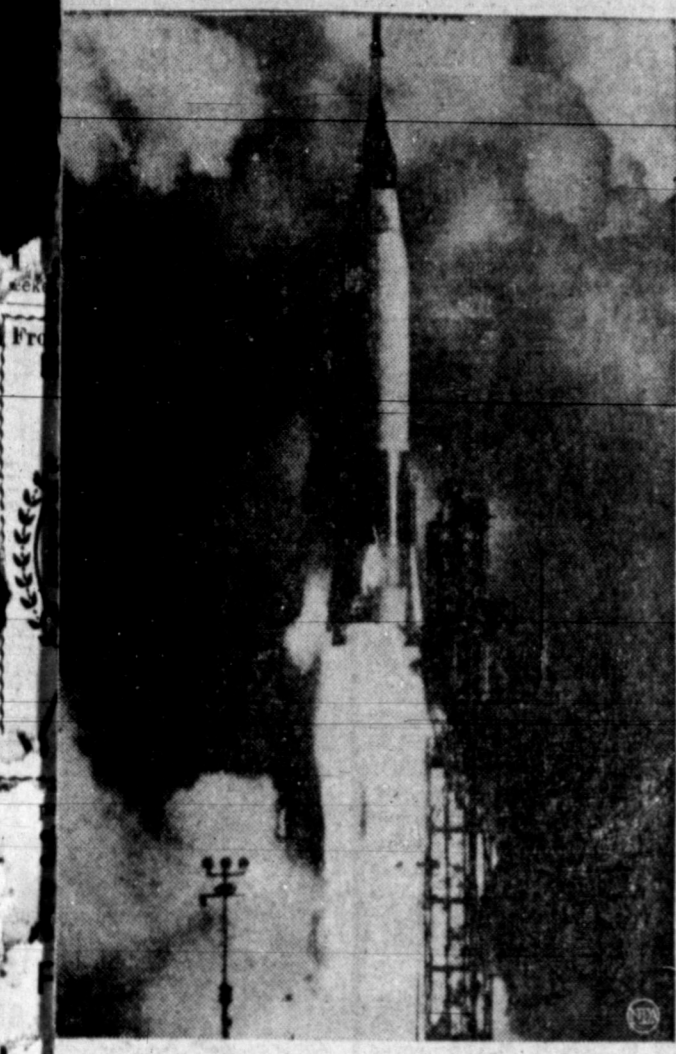

The Board urges the people to write, wire, or call their congressman and ask for their firm opposition to these Bills and express your personal opinions as to the effect these bills would have on our Texas economy.

The hedgehog is the European porcupine.

FINISHING FLIGHT — An Atlas ICBM stands out against the clouds of steam as it leaves its pad at Cape Canaveral, Fla., for a 1400-mile flight down the Atlantic missile range in a test designed to "punish the hell" out of the booster and Mercury space capsule it carried atop its nose. The flight was a success. (NEA TELEPHOTO)

Champion Traffic Violator Just Sent To Stop For Red Lights

LOS ANGELES (UPI) — Herbie Abrams is impatient, especially while waiting for red lights in his auto.

The 69-year-old retired postal clerk hates red lights because he wastes time with your running.

"I want to get more use out of gasoline!" said Abrams to the judge.

Instead of wasting time and money at red lights, he frequently runs through them.

By his own account, he has had 430 traffic citations over the past 41 years. Nearly 400 of them are for parking violations.

For the latest violation, he was fined \$50 for running a red light.

"I can't afford to waste gas making illegal turns are another thing, however."

"This baby I got is a real gas burner. If I make 100 stops at red lights in a day, I lose about an hour's time and two gallons of gas."

"I'm living on a pension, you know," he said. "I can't throw money away like that."

Abrams in court won a new trial January conviction of running a red light. The judge ruled he

had been found guilty without sufficient evidence.

The new trial is set for March 13. In the meantime he has another trial scheduled Thursday.

"It's for three tickets," he said with a trace of glee. "And I'm going to fight them all."

Bolivia Under State Of Siege; 85 Arrested

LA PAZ, Bolivia (UPI) — The government has arrested 85 of its foes under a "state of siege" imposed to counter alleged subversion by Communists and other opposition groups, the Interior Ministry said today.

President Victor Paz Estenssoro told a news conference the government does not plan "for the moment" to censor Bolivia's newspapers. He said the country was "completely calm."

Although it generally agreed that Walter Guevara Arce, the leader of the opposition "authentic" faction of the governing MNR party, had evaded the national dragnet, his whereabouts were uncertain.

A spokesman for Guevara told UPI he was in the provincial city of Cochabamba. Other sources said he had fled the country.

These sources also said that government security forces had raided the home of Jorge Rios Gamarra, deputy chief of the MNR's pro-Guevara faction, and placed Rios under arrest.

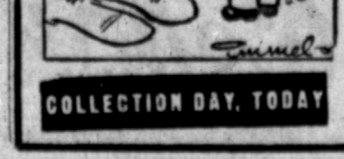

Leaders of the teachers' union, which called a nation-wide strike Tuesday in support of demands for a wage increase said to amount to 200 per cent, vowed the walkout would continue despite the state of siege.

They said they expected support from other unions—an apparent reference to rumors that the miners' union was preparing to strike the nation's vital tin mines.

HE'S FOR EQUALITY

RALEIGH, N.C. (UPI) — A new champion of equal rights for women rose on the floor of the North Carolina Legislature Tuesday.

Sen. W. Lunsford asked for repeal of a law which prohibits their arrest.

APPROVED — Heads of various U.N. delegations raise their hands during a 9-0 vote at Security Council session. The voting, with Russia and France abstaining, gave the Council's approval to an Afro-Asian resolution authorizing the U.N. force to use arms if necessary to avert civil war in the Congo. The Council rejected a Soviet move to oust Secretary General Dag Hammarskjöld and end the United Nations' Congo operation within 30 days. (NEA TELEPHOTO)

## Astronauts Willing To Risk Lives In Order To Blaze A Trail To Stars

CAPE CANAVERAL (UPI) — Each of them loves the rivers and oceans of earth yet is eager to risk his life to blaze a trail to the stars.

John Herschell Glenn Jr., 39, spends his spare time boating. Virgil Ivan Grissom, 34, fishes. Alan Bartlett Shepard Jr., 37, thrills to the speed of ice skating and water skiing.

Some day soon — perhaps within the next two months — one of them will climb into a cramped, bell-shaped capsule on the nose of a Redstone rocket for a flight into space.

The three men were chosen from among America's seven astronauts Tuesday to begin final training for this nation's first attempt at sending a man into space aboard a rocket. It will be a 16-minute flight, 115 miles up and 300 miles out over the Atlantic Ocean.

Robert R. Gilruth, head of the National Aeronautics and Space Administration's (NASA) Project Mercury made the announcement with this laconic statement: "In the Redstone program, we have now selected astronaut Glenn, Grissom and Shepard to begin concentrated training with the spacecraft programmed for the initial flights, and with personnel who will be involved in the launch, tracking and recovery operations."

Gilruth's announcement came

after the Mercury capsule, similar to the one that will carry the astronaut into space, was given a rough and punishing 1,425-mile ride by an Atlas missile. All three watched the shot that was designed to punish the capsule far beyond what it must take in the first manned flight.

The other four astronauts who with Glenn, Grissom and Shepard have been training for 22 months may be used for later ballistic and orbital flights. Gilruth said he picked these three for the first chance after evaluating "a large amount of medical and technical information."

The men, by training and background, have a lot in common. Each is mature and highly trained. Each fought in two wars in World War II and Korea and—Glenn and Grissom in the air in World War II and Korea and Shepard aboard a destroyer in the Pacific. Each has made a career of the military and has contributed research and experience to aircraft development. Each is married and each has two children.

Glenn, who will be 40 in July, is a lieutenant colonel in the Marine Corps and a native of New Concord, Ohio. Grissom, an Air Force captain, hails from Mitchell, Ind. Shepard, from East Derry, N.H., is a Navy commander.

Shepard's mother, Mrs. Alan B. Shepard Sr. of Derry, said she learned a month ago that her son had been selected but that she is resigned to his choice because "this is exactly the sort of thing my son wants to do and is trained to do."

Shepard's mother, Mrs. Alan B. Shepard Sr. of Derry, said she learned a month ago that her son had been selected but that she is resigned to his choice because "this is exactly the sort of thing my son wants to do and is trained to do."

Bobsledding has been an Olympic Game since 1928.

## Committee Thinks Jobless Program Bit Too Liberal

WASHINGTON (UPI) — The House Ways and Means Committee has tentatively decided to scale down President Kennedy's proposed \$350 million program to help needy children of the nation's unemployed, it was reported today.

Reliable sources said a majority of the committee apparently feels the President's emergency program is too liberal and would open the door to abuses of the aid.

Legislative draftsmen were ordered to come up with some new provisions to stiffen eligibility requirements for the federal-state public assistance.

As a result, the committee put off action until Thursday on Kennedy's companion proposal to rush extra jobless pay benefits to the unemployed. Both bills may be wrapped into a single package.

The jobless benefits bill would provide \$99 million for extra unemployment compensation to 3,125,000 jobless workers whose benefits have either run out or will expire during the next year or so.

The decision to stiffen eligibility requirements for the new program of aid to children of unemployed parents is expected to bring a strong protest from labor.

In effect, the change would mean that a jobless worker would have to be willing to accept any job available to him in order to qualify for the public assistance.

TOO MUCH BETTING — CARSON CITY, Nev. (UPI) — The state assembly of Nevada, a state which has legal gambling, has approved a bill which would outlaw betting on the length of its legislative meetings.

Democrat Artie Valentine said he didn't vote because he had a dollar riding on the outcome of the bill. Democrat Ab Romeo confessed he voted against the bill because he hoped to win his bet with Valentine.

covering his children. He could not turn down which he did not consider "able employment" and will receive the federal-state aid. If the unemployment compensation program, he can reject job up to a limited number and collect benefits.

Speaker Sam Rayburn, D-Texas, has promised to call the jobless measure up for a prompt vote in the House once committee acts. A floor vote predicted for early next week.

labor.

## Foreign Commentary

By PHIL NEWSOM  
UPI Foreign News Analyst  
Notes from the foreign news cables:

### Fire Extinguishers:

Britain's military leaders are pushing plans to reorganize all troops units into fire brigade outfits—airborne units which easily could do, it is hoped, any brush-fire war or incident along the cold war front. The Defense Ministry also is pushing the plan among commonwealth countries in hopes they will follow suit. Ultimately, the plan calls for coordination of ground forces on a scale not seen since World War II. It would mean that, for military purposes, an Indian Sikh trooper would be interchangeable with a British Tommy.

### One-sided love affair:

Soviet diplomats in East Berlin are letting it be known they would like official contacts with West Berlin Mayor Willy Brandt. But Brandt, who hopes to succeed Konrad Adenauer as West German chancellor, has been giving them the cold shoulder. Brandt takes the position that such contacts would be improper and that any talks on Berlin are a matter for the Big Four.

### Khrushchev timetable:

Communist satellite diplomats in Paris say that Khrushchev will wait six to eight months before insisting on brass-tacks talks with the United States' new Kennedy administration. They say Khrushchev's flare-up against United Nations Secretary-General Dag Hammarskjöld is temporary and does not mean a switch in over-all policy.

### Backs U.S. and Britain:

Despite President Charles de Gaulle's outspoken contempt for the United Nations, it appears certain that France will back the United States and Britain in the latest Congo row. France's stand may be somewhat less firm than that taken by her allies. This is because of the generally pro-

Lumumba attitude of the French-speaking new African states.

### Look and listen:

West German traffic authorities are trying to do something to halt the soaring death rate on West German highways. Traffic fatalities reached 14,000 last year. One suggestion has been to establish a National Safety Council as part of an educational program. The authorities admit that any such campaign can take years to become effective. West German drivers are notorious for their free-wheeling ways on the autobahns.

### Tough sledding:

Negotiations to establish normal relations between Japan and the Republic of Korea are not going too well, so far as the Koreans are concerned. With unsettled conditions in Seoul, the Korean delegation needs to take home some kind of concession, but the Japanese are refusing to budge. Any marked concession by the Koreans, on the other hand, possibly could bring down the John M. Chang government.

## Two Groups Okay Farm Surplus Cut

WASHINGTON (UPI) — Two of three major farm organizations have endorsed the Kennedy administration's 1961 emergency program for cutting farm surpluses.

The endorsements from the National Grange and National Farmers Union came in testimony prepared for a House Agriculture subcommittee hearing.

## Migrant Worker Bill Is Labeld A 'Farce'

The Daily News Austin Bureau  
AUSTIN — A bill which would set up regulations governing the intra-state transportation of migrant workers in Texas yesterday afternoon was characterized as "ridiculous and a farce" by an opponent of the measure.

The witness testifying against the bill was John D. Reed, Austin attorney who represented a number of labor recruiting agencies over the state. He told the House Motor Traffic Committee there already

are enough rules on the books governing migrant transportation, adding:

"The Interstate Commerce Commission's regulations were adopted two years ago and nothing is done to enforce them."

Reed also told the committee a number of highly paid people are working for passage of the bill in Texas and for similar legislation in other states.

Reed further said that 90 per cent of the business done by agencies he represents is regulated by ICC rules, adding "this bill would not hurt my people."

Mrs. Ruth Graves, adviser on migrant labor for the Texas AFL-CIO, testified for the bill. She said:

"Texas must meet its responsibilities to migrant labor. Other states already have similar legislation in force and this has been hanging since 1955 when a study of the problem was made by the Texas Labor Council. The bill doesn't call for luxury transportation. All we want are simple safety rules enforced."

Egon R. Tausch, executive director of the Texas Council on Migrant Labor, reviewed the background of the migrant transportation problem and said the bill had been endorsed by the Texas Farm Bureau and the American Farm Bureau.

The bill, introduced by Rep. Mauro Rosas of El Paso, was referred to a subcommittee.

Here are several provisions of the measure:

A seat shall be provided for each worker transported if the total trip is for 50 miles or more.

Hand holds or devices for similar purpose shall be provided to permit ingress and egress without hazard to passengers.

Means shall be provided to enable the passengers to communicate with the driver. Such means may include telephone, speaker tubes, buzzers, pull cords, or other mechanical or electrical means.

Every motor vehicle shall be provided with a safe means of protecting passengers from cold or undue exposure.

Ladders or steps for the purpose of ingress and egress shall be used when necessary.

There are probably 60 or 65 provisions in the bill which call for the regulation of just about everything there is to regulate.

AT THE READY — Jayne Turner, member of the "Tenderloin" cast, arrives back in New York from a visit, fully equipped with her own shovel. Said she's been frightened by the weather reports.

## Course Banishes Myths Regarding GI's Home Life

By JOSEPH FLEMING  
BERLIN (UPI) — German brides going to America think cocktails are a must before meals and blue jeans the "must" uniform for shopping.

Those are two ideas about life in the United States, based on observing the U.S. military here, cleared up in an eight-week course for West Berlin girls who have married American soldiers.

The course covers everything from cocktails — optional — through potatoes — small portions — to shorts — not too short. It is designed to prepare for life in the United States the 300 Berlin girls who marry Americans every year.

The girls get instruction in American fashion, diet, geography, government, history, speech and habits.

The brides love the course but some soldier husbands have the suspicion that the American women's club here established it to recruit the Berlin girls into the American matriarchy.

They had visions of the docile, affectionate wives of German folklore being turned into the grasping suffragettes of American folklore.

Both conceptions are hackneyed since it was not plotting to seduce and untrue but nevertheless the Women's Club gave assurance anyone's outlook on life or "Weltanschauung."

"We do not discuss the role of women in America as compared to Germany," said Mrs. Richard Ament, of 684 North Main, Sewastopol, Cal.

She and two other wives of American army officers are the instructors. They are Mrs. Vernon Pike of Bloomfield, New Jersey, and Mrs. Donald Green, of De Ridder, Louisiana.

The American wives praise the German wives. They say the average German girl is very well educated and knows a surprising amount about the United States and its history.

In fact, the suspicion exists that the average bride is a lot smarter than her husband and often comes from a more prosperous family.

Here are some other tips they

## U. S. Artillerymen Now Sharpen Their Aim With 'Pea Shooters'

FRANKFURT, Germany (UPI) — A handful of U.S. artillery units in Europe are using "pea shooters" instead of full-scale artillery pieces to sharpen their shooting eyes.

The "pea shooters" do almost everything a howitzer would, but in a fraction of the space and more safely. In Europe's cramped training areas, including the one where an over-shot artillery shell killed 17 soldiers last fall, that means a lot.

The "pea shooter" is known in Army jargon as the "Firing Device for Gunnery Practice, 14.5

mm." It resembles a miniature howitzer barrel mounted on a tripod, with a complex assortment of aiming devices.

It lobbs a small 14.5 mm cartridge to a maximum distance of 800 yards, and can be folded into a 5-foot-long box.

Artillerymen hasten to say that the "pea shooter" will never replace the full-size artillery piece even in practice.

But as it comes into wider use they believe it will appreciably simplify the problems of practice firing because it can be used safely within a garrison area.

At present, artillery crews must practice at a major training area such as the Grafenwoehr Reservation where last fall's over-shot occurred. With scores of units using the same area there always is at least a remote danger that someone will be in the way of a wayward shell.

The "pea shooter" also is cheaper than the full-scale gun, firing several thousand shots at less than the cost of 300 standard shells.

It uses two types of cartridges. One with a percussion fuse explodes on contact with its target, producing a cloud of smoke that can be seen 1,000 yards away.

## Court Of Honor Awards Set For Friday Night

A Court of Honor for the Santa Fe district Adobe Walls Boy Scout council will be held at 8 p.m. Friday.

The awards will be presented at the meeting in the District Court room in the County Court House.

The Rev. Carl Hudson of Miami will be chairman of the court.

Presentation of awards will be given by: the Rev. Richard W. Crews, Second Class; Brantley Hudson, First Class; Bob Curry, Star; Don Cain, Life; E. E. Shellhammer, Eagle; James McCune, Palm award; Merit Badges will be awarded by Dr. J. L. Chase, Rufe Jordan, Dr. S. B. Sybert and W. A. Morgan.

This Court of Honor is the last of a series of events scheduled for celebrating Scout Anniversary Month.

## Lamesa Killer Leads Police To Body Of Victim

ALAMOGORDO, N. M. (UPI) — Roy Leon Handy, 21, of Lamesa, Tex., led police to the body of D. F. Lefler, 31, in the mountains near Red Oak, N. M., Wednesday night and said he shot Lefler to death Feb. 5 on a dare while they were target shooting.

Handy was arrested in Lubbock, Tex., Tuesday on a forgery charge. He was driving an automobile police said belonged to Lefler and Handy told them he had been signing Lefler's name to checks.

Lefler, the step-son of L. S. Fuller, an official of the El Paso Natural Gas Co., had been missing from his El Paso home since Feb. 4.

Handy said he killed Lefler as the climax to two days and two nights of drinking and marijuana smoking in Juarez, Mexico, and El Paso over the weekend of Feb. 4-5.

Handy said in his signed statement that he and Lefler went to a mountainous area near Ruidoso, N. M., "to look at the 'gold mine,'" a reference to abandoned mines near there.

Handy said that after he and Lefler had shot a .22 caliber target pistol several times, Lefler jumped up and said, "I bet you can't hit me."

Handy told police he shot Lefler about four times and one of the bullets hit him in the head. He said he looked at Lefler after he fell, decided he was dead, got scared and left the scene.

Handy was held in jail at Alamogordo.

ALAMOGORDO, N. M. (UPI) — Roy Leon Handy, 21, of Lamesa, Tex., led police to the body of D. F. Lefler, 31, in the mountains near Red Oak, N. M., Wednesday night and said he shot Lefler to death Feb. 5 on a dare while they were target shooting.

Handy said in his signed statement that he and Lefler went to a mountainous area near Ruidoso, N. M., "to look at the 'gold mine,'" a reference to abandoned mines near there.

Handy said that after he and Lefler had shot a .22 caliber target pistol several times, Lefler jumped up and said, "I bet you can't hit me."

Handy told police he shot Lefler about four times and one of the bullets hit him in the head. He said he looked at Lefler after he fell, decided he was dead, got scared and left the scene.

Handy was held in jail at Alamogordo.

## Proposes Blood Test For Drunk Driver Suspects

AUSTIN (UPI)—A bill that would force drunk driving suspects to submit to blood tests or lose their drivers' licenses for six months was introduced today by Rep. Charles Whitfield of Houston.

The measure would also require suspects to submit to other sobriety tests if requested by officers. The suspect would have the right to demand that officers take him to his own doctor for the blood test.

If a suspect is too drunk, delirious or unconscious, to consent to a test, officers would be allowed to ask a doctor to make the test without permission of the suspect.

WRONG LEVER  
EL CENTRO, Calif. (UPI)—The city sent three fire trucks and two police cars Tuesday to witness Juan Chavez Ramirez, a Mexican laborer, mail a letter in front of the post office.

Ramirez, who speaks no English, had pulled the fire alarm box lever by mistake. No charges were made.

## Gives Way To Progress, But Of Famed Horse Is Spared

L. Minn. (UPI)—A "galloper" will continue to race here, even though an age is demolishing his Snelling.

The "soldier" was a horse hisky, possibly one of a famous animals, the Army ever owned.

For Sm Army orders, Whis- retired Aug. 10, 1936, after gaging board reported "it a severe blow to the officers and enlisted men tinal should be sold or

retirement, Whiskey be- of an Army mule which

was later transferred to Texas. Lost as the only horse on the post, the old animal went into a decline and died in 1943.

Thus, at the age of 32, Whiskey was buried at the fort with full military honors.

The grave today is officially part of Veterans Administration property and the plot is cared for by VA engineers. Four artificial roses adorn the headstone, a tribute from some unknown admirer.

Plans now call for a super highway to cut through the pasture where Whiskey roamed for so many years. Historic old buildings were razed and other landmarks cut away, but the engineers spared the grassy knoll under which Whiskey lies.

## Optimists Club Helps Scouts

LEFORS (Sp) — The Optimists Club at a recent meeting voted to buy new tires and license plates for the community Boy Scout bus.

The meeting was presided over by Jimmy Pennington in the absence of President Ben White.

Bill Teel, city councilman reported to the club concerning the city's needs and proposed a bond election to raise funds for city obligations in the new highway to be routed through Lefors.

Pennington reported that the club will furnish food for the Cub Scout bus and gold banquet on Feb. 24 in the Civic Center.

So small are atoms that two billion would fit on the point of a pin

# Art's Gallery

By Art Mayhew

Last week's announcement that Jimmy Bond, the blond bomber who sparked Pampa to consecutive state championships in 1953 and 1954, would be principal speaker at the annual Harvester basketball banquet March 21 in Coronado Inn brought a flood of memories.

We were but a green sophomore in high school when we first encountered Bond and Company — E. J. McIlvain, Kenneth Hinkle, Harold Lewis, Gary Griffin and George DePee — in 1954.

The Harvesters came to Midland — where the Bulldogs had yet to win a district game since advancing to 1-4A from a AAA classification — and bloodlessly won, 70-32.

And to our fuzzy recollection, Pampa was the first team we had ever seen wear knee-high stockings; they looked like pros and, needless to say, played like pros.

Midland then came to Pampa, a mistake of the first order, later in the season and was scoundily trounced, 75-39, further cementing our opinion of the Pampa team.

## '54 State Tourney Revisited

We next saw the 1954 team at the state tournament, where they were the defending champions and in the midst of a win streak that was to extend to 72 before it ended.

Pampa seemed to play just enough to defeat Wichita Falls in the opening round, 55-47, as Griffin scored 17 and McIlvain tallied 15. However, the consensus opinion was that Crozier Tech, with the three-minute overtime winners of 29 straight and 63-43 victors over Houston Milby in its opening game, was the choice, due mainly to the presence of 6-7 A. C. Black.

Evidently the Harvesters hadn't been consulted. With Hinkle nursing a lame leg, Crozier Tech leaped to a 7-2 lead midway in the first quarter before Pampa caught fire and leaped to an 11-3 lead on a Bond drive under the basket for a score. Crozier Tech, behind a three-

## McNeely Pulls PHS Surprise

McNeely than pulled out his ace in the hole in overtime and brought Bond out front to a guard position. This brought the 6-7 Black outside and he was like a fish out of water.

Bond drove around Black for a score to make it 40-38 and when McIlvain hit a one-hander from inside to make it 42-38, the rout was on and Pampa wound up a 47-44 victor and proud possessors of its second consecutive 4A state championship.

Bond and Black shared scoring honors with 23 points each but the coolness of the entire Harvester team under pressure and in the midst of 8,000 screaming fans (including yours truly) in Gregory

## Tourney-Bound Teams Swap Wins

# DePaul Nips Louisville Again

By MARTIN LADER  
United Press International

Selectors of the NIT are moaning that all the good teams are getting away, but today they score one in their "friendly" rivalry with the NCAA tournament. De Paul, which has already accepted a bid to compete in the National Invitation Tournament at New York's Madison Square Garden, defeated NCAA-bound Louisville for the second time this season, 75-67, Wednesday night. To-

add further insult, it was the first home defeat of the campaign for the Cardinals.

The NIT, disappointed at the decision of both St. John's and St. Bonaventure to go NCAA this year, received a further boost from the slim college basketball schedule of Wednesday night when Dayton romped over arch-rival Xavier of Cincinnati, 84-71. The Flyers, also committed to the New York tournament, boosted their record to 17-6 with the vic-

torial win over Xavier, 75-67, Wednesday night. To-

De Paul, trailing, 33-30, at halftime, rallied behind the fighting efforts of M. C. Thompson and Jim Flemming to outscore Louisville by 18-3 in the opening minutes of the second half. Thompson, a husky 6-5 forward, led the Demons in scoring with 19 points while pulling down 21 rebounds against the taller Cardinals.

Flemming contributed 15 points, but proved more valuable on defense as he closely guarded Louisville's high John Fini with the

turner finished the evening with 16 points, but several of these came in the final minutes of play when the contest was no longer in doubt. De Paul raised its season record to 14-7 while Louisville dropped its sixth game against 18 victories. It was no contest at Dayton as the Flyers charged to a 44-23 lead at intermission. Dayton increased its advantage to 77-48 when coach Tom Blackburn threw in his reserves with more than eight minutes to play to hold down the

Gary Roggenburk paced the Dayton scorers with 24 points while Bill Kirvin-led Xavier with 16 points.

Kansas State overcame an early nine-point deficit to beat Kansas, 81-63, and move into a first-place tie with the Jayhawks in the Big Eight. Despite an early 17-8 lead by Kansas, the Wildcats managed to walk off with a 42-31 bulge at halftime. Paced by 6-5 center Cedric Price and 6-5 reserve Dave Nelson, Kansas State steadily pulled away from its rival in the

second half and at one point enjoyed a 23-point advantage. Price led all scorers with 18 points.

Kansas and Kansas State deadlocked for the league championship last season, are tied again with 8-2 marks. In other games Wednesday, Maryland beat Virginia, Arkansas topped Texas, 96-76; Florida edged State, 73-74; and Canisius pulled away from its rival in the Syracuse, 83-78.

# White Deer Teams Eye Victories

## Does Meet Stratford In Gruver

### SHOOTING AT ROCKET

GRUVER — White Deer's Does, regular season District 1-A girls basketball champs with a 10-0 record, take on tournament champion Stratford here at 8 p.m. tonight to decide the bi-district representative.

The Does defeated Stratford twice in regular season, but fell, 54-50, to Stratford in the first round of the district tournament last weekend to set up the playoff. For the Does (25-5), Coach Bob Moore will bank his hopes on Joanna Jo Moore, who carries an impressive 21.0 average in 30 games, Leona Traylor, 17.6, and Kay Allen, 14.0.

### OUT WITH INJURY

TORONTO (UPI) — Bert Olinstead, the Toronto Maple Leafs' veteran left wing, will miss tonight's game against the Montreal Canadiens because of a foot injury. He suffered the injury in a game against the Rangers at New York last Sunday night.

## Dark, Houck 'On Spot'

# First-Year Managers Assume Roles Quickly

By FRED DOWN  
United Press International

Ralph Houck and Alvin Dark, a pair of "on the spot" first-year managers, are wasting no time letting the New York Yankees and San Francisco Giants know that new bosses are calling the shots.

The training season hasn't even officially started but both Houck and Dark already have introduced ideas that represent a complete departure from the tactics of Casey Stengel and Bill Rigney, their predecessors.

Houck, faced with the problem of living up to Stengel's record of 10 American League championships in 12 years, is speeding up the conditioning of Yankee pitchers. He wants two or three of them to have pitched nine innings by opening day—something Stengel never bothered about—and he has coach Johnny Sain already pressing his hurlers to work as often as possible off the mound.

Dark, who the Giants hope will make San Francisco fans forget the bitter disappointments of 1960, announced two new ideas when the Giants opened their Phoenix, Ariz., camp Wednesday: He plans to rest Willie Mays at intervals during the season and he is going to experiment with outfielder Felipe Alou as a third-baseman. Dark said he will not hesitate to let Mays rest a few days on the bench if his hitting slumps

during the season, and apparently he is throwing Alou into head-to-head competition with Jim Davenport for the third-base job. Rigney, Dark's predecessor, let Mays "play his way out of his batting slumps" and regarded Davenport as an "untouchable" in his infield setup.

The Los Angeles Dodgers, who are never without a spring hero, came up with a 1961 edition in Dick Nen, a 20-year-old rookie from Wilmington, Calif., who hit several 450-foot drives during Wednesday's workout. Manager Walt Alton announced the Dodgers will play their first intra-squad game on Sunday.

The Baltimore Orioles staged an intra-squad game at Miami, Fla., and found the offerings of "Iron Mike" very much to their liking as Milt Pappas and Dave Nicholson each hit two homers and Jerry Walker, Art Quirk and Billy Hoelt also connected for round trippers. The other big news in the Orioles' camp was that third-baseman Brooks Robinson checked in after being delayed several days by the airline strike.

# Arkansas Swamps TCU In Ho-Hum SWC Game

## Pros Hunt Sun At Baton Rouge

BATON ROUGE, La. (UPI)—Sammy Sneed, Arnold Palmer and about 150 more professional golfers entered in the \$20,000 Baton Rouge Open tournament headed for the practice links today, waiting for the tournament course to dry out.

PGA officials postponed the first round of the 72-hole tournament until Friday, scheduling 18 holes then and 18 on Saturday, and 36 holes Sunday.

Sneed, whose 275 eight years ago still stands as the tournament record, joined the PGA winter tour for a try for a second title here, and for the \$30,000 Greater Baton Rouge Open next week.

## Hogs Move Into Tie For Second In Race

By United Press International

From the scoreboard and the way Clyde Rhoden blistered the nets, you'd never know the Porkers stepped onto the basketball court directly from a bus that bounced all the way to Fort Worth from the Arkansas hills.

And the Razorbacks didn't give Texas Christian fans a thing to roar about. They swamped the Frogs 96-76 Wednesday night and moved into a second place tie with Texas A&M and Texas, all lumped two games off the Southwest Conference pace being set by Texas Tech.

It was the only league game of the night.

The Razorbacks planned to fly to Fort Worth for the game, but a heavy fog grounded their chartered plane so they spent 10 hours on a bus and arrived less than two hours before game time.

But it didn't seem to affect the sturdy Porkers, particularly Rhoden who tossed in 10 of 11 from the field and wound up with 24 points, tops for the team, and his best for the season.

The Frogs, wedged deeper into seventh place, fell steadily behind from the first and by the time the second half rolled around, Arkansas coach Glen Rose began clearing his bench.

**REAPER CHAMPIONS** — Pampa Junior High, ninth grade co-champions of the Panhandle Junior High cage conference with a 10-2 record, kept the junior high title in Pampa for the second year in a row. Members of the team are, front row kneeling, Guy Cloud, Coach Roy Kieval and Richard Rexroat; back row from left, managers Gene Eads and Clive Seymour, Kenny Hebert, Jackie Willis, Eugene Madrid, Eddie Barnes, Claude Middleton, Charles Price, Gary Davis and Gene Davis, manager. (Daily News Photo)

16 THURSDAY, FEBRUARY 23, 1961

## Tennessee A&I Hand To Narrow UPI Lead

NEW YORK (UPI) — Tennessee A&I, taking advantage of its closest rivals' late-season jitters, hung on to first place in the United Press International small college basketball ratings today for the 11th straight week.

The Tigers were the No. 1 choice of 18 of the 40 coaches who voted this week and piled up 338 points.

Mississippi Southern and Prairie View remained close on the list. Northern Michigan, 10th week, moved into the ninth ahead of Maine, which skidded.

Hofstra, rolling along with 17-0 record, was the top of two coaches while South Illinois, Northern Michigan Capital (Ohio) each garnered first place vote.

to Jackson State. But the Panthers picked up seven place votes and 293 points to gain third place.

Hofstra remained fourth, 249 points and was followed by Southern Illinois Wittenberg (151), Grambling (127), Kentucky Wesleyan (117), Northern Michigan (72) and Maine (49).

The only change in the occurred at the bottom of the list. Northern Michigan, 10th week, moved into the ninth ahead of Maine, which skidded.

Hofstra, rolling along with 17-0 record, was the top of two coaches while South Illinois, Northern Michigan Capital (Ohio) each garnered first place vote.

**ILLINOIS IS FIRST**  
 BUFFALO, N. Y. (UPI) — Joe Marino, Navy's brilliant halfback, today became the first player to accept an invitation to participate in the All-America Graduation football game at Buffalo's War Memorial Stadium, June 23.

**PAMPA PUTTERS** — Pampa's 1961 golf team opens its season tomorrow in Andrews with six tees fighting for the top five spots. Vying for starting roles are, left to right, Brian Prigmore, David Pattison, Johnny Hatcher, Leonard Hudson, Chester Cummings and Bobby Howard. (Daily News Photo)

**Experienced Linksters Return**

**PHS Golfers Tee Off In Andrews Tourney**

With three returning letterman and a strong B team, Pampa High School's golf team opens its 1961 schedule tomorrow in Andrews in a two-day 36-hole medal golf tournament against top teams from the South Plains and the Permian Basin.

The team will make the trip without the services of Weldon (Bird Dog) Trice, PHS golf coach since 1951, who has to remain in Pampa to oversee other school business. John Hatcher, father of the number one Harvester linkster, will make the trip with the team when they leave here this afternoon.

Besides Johnny Hatcher, a junior letterman, Trice will send Bobby Howard, a junior letterman who has been elected the 1961 captain; and Leonard Hudson, another junior letterman.

The five-man team — scores are computed on the best four scores out of the five players on each squad — will be rounded out with David Pattison, a senior transfer from Oklahoma; and either Brian Prigmore, a sophomore, or Chester Cummings, a senior.

Following the Andrews gathering, the Green and Gold linksters will go to the Sandie Relays, March 7-8 and participate in the three-front 54-hole district tournament at Lubbock (March 25), Pampa (March 31) and Amarillo (April 15).

Trice will line up some dual matches with Borger and the three Amarillo schools in District 3-4A. The coach also is hoping to hold a tournament in Pampa March 17-18 for teams within the area, dividing up the tournament into an A bracket — for larger schools — and a B bracket — for smaller schools and B teams.

Pampa will pass up the high school tournament in Fort Worth on March 3 due to its participation in the Andrews tourney as Trice felt that two long weekends away from school were too much. Pampa has won 3-4A tee titles in 1956 and 1957, finishing third in

**Fights Dim NBA Action**

**Free-For-All Mars Detroit-Knick Game**

By United Press International

There's no doubt National Basketball Association fans are getting their money's worth this season — plenty of slick ballplaying in between the fist fights.

Another poor imitation of a championship fight took place Wednesday night in the Detroit-New York game when Bob Ferry of the Pistons and Richie Guerin of the Knickerbockers squared off. Ferry was floored twice but remained in the game.

The battle, which emptied both benches, was just one of many this season in the volatile NBA. Ray Felts of Los Angeles has had it out with Walter Dukes of Detroit and Mike Farmer of Cincinnati and George Lee of Detroit broke the jaw of Knick Kenny Sears.

The Pistons broke out of a seven-game losing streak by edging New York, 123-117, in the nightcap of a Detroit doubleheader after Philadelphia squeaked past Cincinnati, 132-131.

In the only other NBA action, the Lakers beat Boston handily, 105-93, at Los Angeles, as Elgin Baylor pulled the "hat-trick," leading both teams in scoring (38), rebounding (24) and assists (14). Watching Baylor's heroics were 13,401 fans, the largest home crowd this season for the Lakers.

Cincinnati got good scoring from Oscar Robertson (39), Jack Twyman (34) and Wayne Embry (22), but Philadelphia still has Wilt Chamberlain, and the "Big Dipper" hit 41 points. Paul Arizin added 33 for the narrow victory.

**Lion's Office Battle Looms**

DETROIT (UPI) — A fight for front-office control of the Detroit Lions reaches its climax today when shareholders cast their ballots for club directors.

The Lions represent one of the richest franchises in the National Football League but have been beset by an internal power struggle between the present management and a dissident group headed by former president D. Lyle Fife.

Fife's group has been soliciting proxies in a move aimed at gaining a majority on the 15-member board of directors for the purpose of ousting Edwin J. Anderson.

Anderson took some of the edge off the proxy battle last month by demoting himself from president to general manager of the Lions.

William Clay Ford, Anderson's hand-picked successor, was elevated to the presidency.

**Brown Signs For Charnley**

LONDON (UPI) — World lightweight title holder Joe Brown of Houston and Dave Charnley of England will fight in London April 18, promoter Jack Solomons said Wednesday.

"I have received back the signed contracts from America and I gave the go-ahead sign for the fight arrangements to proceed," Solomons said.

Solomons said Charnley gained a decision in a European title fight Tuesday night against Frenchman Fernand Nollet.

**JOINS VMI STAFF**

LEXINGTON, Va. (UPI) — Gene (Bo) Sherman, former head football coach at George Washington University, was named an assistant coach at Virginia Military Institute Wednesday. He replaces Vito Ragazzo, who joined the University of North Carolina staff last week.

**Pee Wee Play Opens**

Weeks of loop play will be culminated tonight with the opening of the three-day Kiwanis-Optimist Pee Wee basketball league's annual tournament at Harvester Fieldhouse and the Robert E. Lee Gym.

In the sixth grade Austin will meet Lamar at 6 p.m., Wilson will play Houston at 6:45 p.m., and Baker will meet Mann at 7:45 p.m. in the first round. Travis drew a bye in the opening round and will meet the Baker-Mann winner at 7:45 p.m. Friday.

Fifth grade action will unveil at Lee with Houston (10-2) meeting Travis (4-8) at 6 p.m.; Baker (0-12) playing Wilson (4-8) at 6:45 p.m. and Austin (12-0) tangling with Lamar (5-7) at 7:45 p.m. Mann (7-5) drew a first round bye and will play the Austin-Lamar winner at 7:45 p.m. Friday.

# First Attempts To Get Man Into Space Were Made In France Back In The 1780s

By PAUL EVE

PARIS (UPI)—Attempts to get a man into space really began in France in the 1780s.

Ignoring such legendary characters as Daedalus and Icarus, and assuming no one ever took Leonardo da Vinci's flying machine off the drawing board, Frenchmen Charles Pilatre de Rozier and the Marquis d'Arlandes are credited with being the first two men off the ground.

As happens now, their ascent was preceded by one in which animals were sent up to see whether they would come back alive, and thus whether it would be reasonably safe for man to follow.

But "up" in those days was not very far.

It was only a year after two French brothers, Joseph and Jacques Montgolfier, had discovered that it was possible to get a balloon into the air that Pilatre de Rozier and the Marquis made their bid to enter the heavens.

The Montgolfiers watched clouds in the sky, decided they were masses of vapor, and concluded that the fact they were vapor had put them where they were. On this basis they decided that any bag of light material containing a vapor or smoke would rise.

In 1782 they built a fire in a field near Annonay, 40 miles from Lyons, suspended a bag of paper over it and found that it rose into the air. Later they repeated the experiment in front of a large crowd, filling a large linen globe with smoke, and watched it ascend.

In the balloon craze that followed, numerous experiments were carried out. One by a Paris professor used the idea of a bal-

loon filled with hydrogen, which was made by mixing an enormous amount of sulphuric acid and iron filings.

Daily bulletins were issued on the progress of filling this 1783 space vehicle with hydrogen. History records that when it finally went up it stayed aloft for an hour before it fell into a field 11 miles away where indignant and superstitious peasants hacked it to pieces.

A few months later, the Mont-

## Her Car Trouble

### Sounded Like Cat; Well, It Was!

SAN ANTONIO (UPI)—The lady had a problem.

Something was wrong with the power brakes on her car. Every time she pressed the brake pedal, it sounded like a cat squealing. So she took her car to R. L. Sellards, a mechanic, and asked him to fix the brakes. He pressed the brake pedal. Sure enough, it sounded just like a cat.

The trouble was easy to see when Sellards opened the hood. Every time someone pressed the brake pedal, a cat did squeal. A Siamese cat.

It had gotten trapped between the motor and brake rods, and any pressure on the brake pinched it.

Now Sellards has the problem. The cat was so grateful to him for being rescued last week, it keeps hanging around his garage. Sellards doesn't particularly like cats.

So he ran an advertisement with a San Antonio radio station anybody want a kitty cat, none the worse for wear?

golfiers repeated their experiments with an elaborate bag that contained a sheep, a cock and a duck in a cage below it. Records show that the only harm suffered was an injury to the cock's right wing. The sheep kicked it before the ascent started.

A short time after that, Pilatre de Rozier tried several ascents in a captive balloon. Finally he and the marquis stepped into a free-balloon Nov. 21, 1783, and soared up over the Invalides and the Ecole Militaire, landing beyond the city limits after 23 minutes in the air.

The balloon was of the Montgolfiers' "fire-balloon" type—filled with heated air to make it ascend and brought down by its own weight when the air inside it cooled off and no longer provided levitation.

Whether Pilatre de Rozier and the marquis knew when they set off that they could not go far and would have to come down again is not known.

But only 10 days later, Professor J.A.C. Charles, a French scientist who had been experimenting with the hydrogen-filled balloon, set off in one, got his balloon arrangements wrong and, probably for all he knew, was well on his way to the stars when the balloon stopped rising at 2,000 feet and came down gently miles away.

Charles complained on landing of a violent pain in his right ear and jaw; the first recorded astronomical data ever given.

The French experiments were the forerunners of many in Britain. It was only two years later—1785—that an American, Dr. J. Jeffries, and a Frenchman, Jean Pierre Blanchard, crossed the English Channel in a balloon.

## New '61 Chevy with Jet-smooth ride!

Impala 4-Door Sedan—Jet-smooth traveler that rivals the luxury cars in everything but price

The '61 Chevy loves to go because it goes so well. Purrs along pavements like a happy tabby. Takes rough roads in stride and all roads in style.

Just why does a Jet-smooth Chevy treat riders as royally as the high-priced luxury cars? It all came about through a delightful blend of Full Coil suspension, precision-balanced wheels, unique chassis cushioning, and a superb Body by Fisher insulated to hush away road sounds. All this adds

up to less sway, less jounce, less dip, less dive, less tilt, less noise, less... well you name it.

Now combine this Jet-smooth ride with conveniences to pamper you and roominess to relax in. Add a full measure of quiet good looks. Voila, you've got Chevy's formula.

And the proof is in the riding. When you sample a Jet-smooth Chevy at your Chevrolet dealer's we think you'll find it just to your taste.

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's
