

CIA Says Powers Did All He Could For U.S.

WASHINGTON (UPI)—The Central Intelligence Agency told lawmakers Monday that U2 pilot Francis Gary Powers did all he could to protect U. S. interests in his ill-fated flight across Russia.

CIA Director John A. McCone, appearing at closed-door hearings of the House and Senate Armed Services subcommittees, said he was satisfied with the flier's conduct both before and after he was downed inside the Soviet Union.

McCone gave the lawmakers a digest of what CIA officials learned from Powers in two weeks of questioning at an undisclosed location. First indications were that the congressman were satisfied with the explanation.

McCone, according to a reliable congressional source, said Powers' high-flying reconnaissance plane was thrown out of control by an explosion he still does not understand.

The tail of the plane was said to have been wrecked in the blast.

Powers was hurled violently about the cockpit with the result that he was not able to reach a "destruct" button with which it had been contemplated he would destroy his U2 plane rather than allow it to be captured.

Powers had extreme difficulty getting out of the falling plane, the source quoted McCone as saying, but he finally extricated himself and parachuted to earth.

McCone told the lawmakers that the pilot's conduct in prison and during his show trial in Moscow was beyond reproach.

Powers' whereabouts was not immediately disclosed. The government has said he is a free agent and has indicated he eventually will make himself available to tell his story to the press.

As for Powers' future plans, McCone was reported to have told the lawmakers that the pilot, borrowed from the Air Force for his CIA missions, may now return to Air Force duty.

There was no immediate formal announcement of what he said. Chairman Carl Vinson, D-Ga., of the House committee, said he and Chairman Richard B. Russell, D-Ga., of the Senate committee, would have a joint statement Tuesday.

Committee members were under instructions not to discuss the case.

Allowable Total Down In Texas

AUSTIN (UPI)—Texas' calendar day allowable dropped 149,227 barrels on the average daily in the past week, the Texas Railroad Commission reported Saturday.

The allowable total fell from the Feb. 24 level of 2,861,200 to 2,711,973 barrels as of Saturday.

Drillers brought in 181 oil and 61 gas wells in the past week, bringing the year's totals to date to 1,671 and 595 respectively, compared with 1,499 oil and 470 gas wells to date last year.

Wildcaters brought in eight oil wells, one gas well and found 44 dry holes, the Commission said.

Red Chinese Have Laotian Radio Station

VIENTIANE (UPI)—Communist China has seized an important propaganda foothold in Laos by setting up a Laotian language radio station which experts believe to be the most powerful ever built in this jungle country.

The new propaganda station frankly identifies itself as Radio Peiping, but does not hint at the site of the transmitter.

Triangulation by several direction finding receivers here, however, indicates that the station is somewhere in Laos' northeastern Sam Neua province, the heartland of the pro-Communist Pathet Lao rebels. The area also borders on Red China.

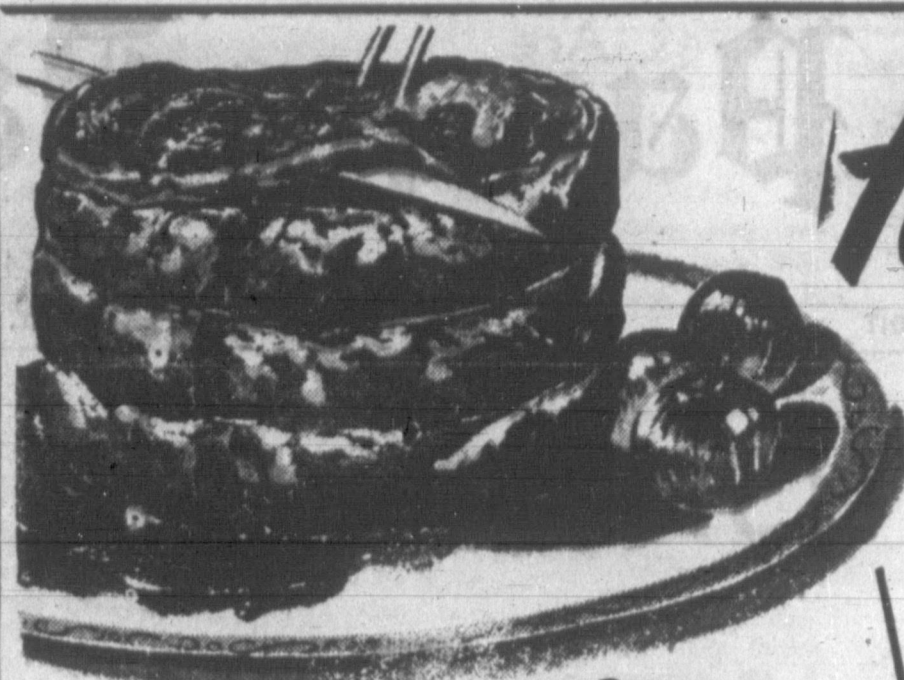

The new transmitter is so powerful that its daily four hours of news and propaganda are heard more clearly in Vientiane than the capitol's own radio station.

The beginning of the broadcasts last month led some diplomats here to fear that Peiping was attempting to steal the show in Laos from the Soviet Union.

The Russians have offered to build a radio station for the rebel "government" of neutralist Prince Souvanna Phouma but have not yet begun work.

Many diplomats here believe that the Soviet Union has more peaceful intentions towards Laos than Red China.

The signs of growing communist Chinese collaboration with the "hard-line" Pathet Lao are considered more dangerous than the previous Russian aid to the sometimes conciliatory rebels A Souvanna Phouma.

Livestock
(Continued From Page 1)

was presented to Kenneth McCasland, Wheeler, by Weldon Adair, president of the Pampa Kiwanis Club.

Grand champion barrow trophy was awarded to Terry Cornett, Groom, by Roy Sparkman, president of the Pampa Rotary Club.

Exhibitors receiving showmanship awards were: pig showmanship, first place, Lynn Baker, Groom, \$10 gift certificate donated by Pampa Breakfast Optimists; second, James Martin, Panhandle, received a \$7.50 gift certificate from Panhandle Packing Co.; third Butch Brown, Groom, a hunting knife, given by Lewis Hardware.

In the calf showmanship awards, first, Kelley Miller, Allison, a show halter, donated by Hi-Land Pharmacy; second, Precilla Swink, Perryton, given a rope by Pampa Feed and Grain; third, Don Savage, Perryton, received a \$5 gift certificate from Pampa Evening Lions Club.

Best pair trophy was also presented to McCasland, by W. L. Veale, president of the Noon Lions Club. Second place was presented to Rocky Woodford, Miami, by Bob Price, president of the Top O' Texas Kiwanis Club.

Trophies presented to the best group of five steers shown at yesterday's show were, first, Roberts County 4-H Club by Wiley Reynolds, president of the Top O' Texas Rodeo Association; second, Wheeler County 4-H Club, awarded by John Pharr, president of the morning Optimist Club; and third, Gray County 4-H Club, by Melvin Jayroe, representing the Pampa Junior Chamber of Commerce.

Foster Whaley, Gray County agriculture agent, presented a 30-year service pin to Ralph Thompson, for his outstanding work with the county extension service. Thompson held the post of Gray County agriculture agent from 1930 until August of 1960 when he retired.

Tomorrow is the big sale day. The junior livestock sale is scheduled to start at 9:30 a.m. and the Hereford Breeders' sale gets underway at 1 p.m.

Officials said the public is urgently invited to attend tomorrow's sales, both morning and afternoon and to participate in the buying.

Colonel Walter Britten, Texas

Khrushchev
(Continued From Page 1)

have to take measures to preserve its security."

Tass released the text of Khrushchev's notes to President Kennedy and British Prime Minister Harold Macmillan today. The two Western leaders already had announced Khrushchev's decision but Tass supplied additional details.

Khrushchev made it plain he was not enthusiastic about substituting the ministers' talks for a summit meeting. He said he was sorry Kennedy and Macmillan's reply to his earlier bid for an 18-nation summit was not a positive reaction.

U. S. Ambassador Llewellyn Thompson today relayed to the Kremlin Kennedy's answer to Khrushchev's agreement.

Informed sources said Thompson handed over the reply during a meeting with Foreign Minister Andrei Gromyko, which also dealt with the Berlin problem.

The meeting, the fifth between the two diplomats and their first in nearly three weeks, lasted one hour and 46 minutes.

Thompson declined to comment on the outcome of the talks. He said the meeting was not directly preparatory for the coming meeting of the Soviet, U.S. and British foreign ministers in Geneva, although it might be considered a preliminary inasmuch as the Berlin question may be brought up in Geneva.

The Thompson-Gromyko "probe" was not expected to yield any immediate breakthrough on the delicate Berlin issue, however.

Soviet Premier Nikita S. Khrushchev agreed Monday to send Gromyko to the disarmament conference opening in Geneva March 14. He also accepted the U.S.-British proposal for the foreign ministers of the three countries to hold preliminary talks before the conference opens.

It was held likely that Gromyko would discuss the Berlin question, nuclear tests and the other key problems as well as disarmament with his counterparts, U.S. Secretary of State Dean Rusk and British Foreign Secretary Lord Home.

A&M College, will be the auctioneer for both the junior and Hereford sales.

Commission
(Continued From Page 1)

not consistent with the principles of good city government. The Jaycees are taking no political sides in this issue."

Mrs. Glenda Dunn who circulated petitions, with the aid of volunteers, and obtained 381 names expressing a vote of confidence in the commission, also issued a statement which said:

"I want to thank everyone who responded. It is felt the circulation of the petition has given the people an opportunity to express themselves. Should a recall election become a reality, that will be the time for a real vote of confidence which will keep our present mayor and commissioners in office."

Today's commission meeting also heard renewed discussions on Pampa's fire insurance rates, tax valuations, the city's obligations in answering fire calls outside the city limits, existing fire hazards inside the city limits, increased costs of government and other topics which have been gone into at previous meetings.

The commission also discussed

**Mrs. Brown
Rites Are
Wednesday**

McLEAN (Sp)—Funeral services for Mrs. Buleah Gladys Brown, longtime McLean resident, will be held at 3 p.m. tomorrow in the First Baptist Church, McLean, with the Rev. Dan Beltz, pastor, officiating, assisted by the Rev. L. R. Green, pastor of the McLean Assembly of God Church.

Mrs. Brown, born November 1, 1894, in Bickelton, Wash., died Sunday in the M. D. Anderson Hospital, Houston, where she had been a patient for several days.

Survivors include her husband, Dick, of the home; one brother, Roy Hosselt, Goldendale, Wash.; three sisters, Mrs. Tom Williams, Spokane, Wash.; Mrs. Albart Treat, Olympia, Wash.; and Mrs. Oscar Shiffer, Forrest Grove, Ore.

Interment will be in Hillcrest Cemetery under the direction of Lamb Funeral Home, McLean.

and asked for a study of bids for repair of the city's 3-million gallon ground storage tank for water in Hobart St. Park.

Kennedy
(Continued From Page 1)

sume Soviet nuclear tests if the United States goes ahead with its plan to set off atmospheric blasts at the end of April.

He said the President's offer to halt the tests if Russia agrees to a controlled test ban "would look too much like atomic blackmail."

As analyzed by U.S. officials, Khrushchev's letter:

—Denounced Kennedy's decision to resume atmospheric tests in the latter part of April unless Russia signs an effective test ban treaty by then—ignoring the fact that Russia last September broke a three-year-old testing moratorium.

—Attacked again Western insistence on international inspections to protect the test ban treaty against cheating.

—Reiterated his belief that disarmament issues should be handled at the summit level.

—Though they said nothing publicly, officials here expressed considerable disappointment over France's decision not to participate in the March 14 disarmament conference, originally scheduled to include 18 nations.

—The French decision was not unexpected, however. President Charles de Gaulle, while staying out of nuclear test ban talks so far, has said he would join a final agreement if one were reached.

Algeria
(Continued From Page 1)

the northeast Algerian city of Constantine today in an effort to separate warring European and Moslem terrorists.

Five persons were killed and 27 wounded in clashes between the two factions in the city Monday and authorities feared increased bloodshed as the day draws near for a cease-fire between France and the Algerian rebels.

Terrorism across the country has taken a fearful toll since the beginning of the year - nearly 5,000 wounded or dead.

The Secret Army Organization (OAS) is growing bolder by the day in its efforts to sabotage any cease-fire and keep Algeria French.

OAS commandos Monday attacked the jail in the western port city of Oran after touching off a blaze in the prison building with two plastic bombs. A police spokesman said two Moslem prisoners were shot and killed and six wounded.

The attack on the Oran jail was a spectacular operation.

The OAS commandos penetrated the prison walls, whisked out European staff members and their families and set off two tremendous charges. Resulting fire caused heavy damage to the jail and burned far into the night.

**Special Events
Slated At Mann**

Horace Mann School, in observance of Texas Public School Week, March 5-8, will present an "All School" assembly program with three performances scheduled.

The first performance will be given Wednesday at 10:30 a.m. in the school auditorium for the students of the school; a second performance will be given at 1 p.m. Wednesday in the school auditorium for parents and friends of Horace Mann students.

On Thursday, the "All School Assembly" will be given again at 12:30 p.m. for Leions Club members who will be luncheon guests at the school.

Parents of Horace Mann students are especially invited to visit the school at any time during this week, according to Sam Berger, school principal.

WASHINGTON - Disarmament Director William C. Foster, on possible American willingness to call off nuclear tests if Russia would sign a test ban treaty:

"A spiraling arms race... can have one ultimate end, which is the destruction of the world, if there isn't some kind of check introduced at some time."

**Automobile Is
Stolen Here**

Theft of a 1950 two-door Chevrolet was reported to police yesterday afternoon by N. G. Wampler, 941 E. Campbell St.

Wampler said the car apparently was stolen from his garage some time after 9 p.m. Sunday. Mrs. Wampler noticed yesterday forenoon the car was gone from the garage but supposed her husband had driven it to work.

The theft was not discovered until he returned home yesterday afternoon. Wampler said the car carried Texas license AV 2376.

**Super-Highway
To Open May 5**

MEXICO CITY (UPI)—President Adolfo Lopez Mateos and several cabinet members will be the first to drive over the new super-highway to Puebla when May 5 holiday celebrations are held in Puebla state.

Work on several sections of the almost completely new route, including underpasses for a fast approach by the airport here, are being speeded to insure completion within the next two months, a government spokesman said.

Fathers' Night Noted At Horace Mann Meet

Fathers' Night was observed at the Thursday night meeting of Horace Mann PTA held in the school auditorium with James Reeves, presiding in the presidential office of his wife. Jack Edmondson, superintendent of schools, gave the devotional on "Beginnings." He stated that beginnings are important and significant. "We share beginnings with others at home, school and church. We, as parents, and teachers, have the responsibility of seeing that these beginnings for our children are pleasant and we should lead the way through example." In referring to the first chapter of Genesis, Mr. Edmondson said, "We must not stop with the first three words, 'In the beginning,' but must include the fourth word, 'God.' God is with us at all times. In all places. In Him, we live and breathe and have our being. So He cannot be left out. All of us can help God's work by giving a helping hand."

He closed his remarks with a poem, "Reach Down Your Hand" by Mrs. C. A. Adams. Sam Begert, school principal, introduced the evening's speaker, Major Alfred Barnes, information officer for the Amarillo Air Force Base, who discussed "Effective Learning for the Aerospace Age." Major Barnes stated "We suddenly find ourselves beginning a new era of travel... space. The key word, when we speak of aerospace is education. The fact that we were able to orbit the earth at 17,500 miles per hour was brought about through education." He went on to say that the Air Force only accepts recruits with a high school education and that 89 per cent of their officers hold college degrees. He told of the extensive training and education program of the Air Force and stated the cost of training an airman for a job is \$15,000; training of a pilot, \$150,000; B-52 commander at \$500,000 and the six-man crew for a B-52 at \$3,000,000 and added "They are the best you can find anywhere."

School quartet, Billy Mangham, James Shelton and Kelly Robinson entertained with "Let's Go Down In Jordan," "Bablon's Calling," "Viva La Campana." During the business meeting, reports were given by Walter Davis, secretary and Archie Maness, treasurer. Earl O'Neal, in reporting for the project committee, stated that \$300 would be placed in a fund and added to next year's for the purchase of a piano, a stand and a cover and that \$50 would be set aside for the purchase of costumes for the school. Following the nominating committee's report by Mr. Begert, the following officers were submitted for election, at the April meeting, Mmes. James A. Reeves, president; Howard Holt, vice president; Walter Davis, secretary; Paul Turner, treasurer. Members approved the recommendation of the executive committee to place a book in the Lovett Memorial Library as a memorial to Mrs. Mary Call. Room count was taken by Mrs. Begert with Mrs. A. E. Berry's room first; and Miss Mary Reeve and Mrs. M. K. Griffith tying for second. The door prize, a cake baked by Mrs. Harry Gordon, was won by Bill Self. During the social hour, refreshments were served by Earl O'Neal from a table appointed with a lace cloth centered with a floral centerpiece of yellow mums.

Foot Facts For Better Understanding

"Breathes there a man with a soul so dead" who hasn't wished he was when his feet are hurting him? One of the most common causes of foot discomfort though small is mighty and though common is an affliction of both the rich and the poor. In 1774, a Dr. Low of London England, wrote about corns and described what he thought were roots: Today, we know that corns DO NOT HAVE roots and do not GROW. Corns are merely symptoms which indicate that an area is being irritated. WHAT IS A CORN? It is a collection of hard, dry, dead cells piled one upon the other. Some assume the shape of a small cone or inverted pyramid with the point pressing into the sensitive underlying tissue. HOW DO CORNS FORM? Corns form similarly as the stalactites in a cave. Both building up gradually over a period of time. From pressure and friction ONLY the skin becomes irritated and gradually thickens as nature attempts to protect the area. This cycle of pressure, friction and ultimate thickening of the skin can progress to agonizing proportions. Indirectly, the cause (pressure and friction) can be due to improper footwear, foot imbalance, hammer or distorted toes, bony growths, etc. WHY CORNS CAUSE PAIN? The irritation from a corn may vary from a minor discomfort to an excruciating pain. This is due to the pressure on the sensitive nerves directly beneath the hard mass. Since corns have no nerve

supply, they are not in themselves painful. WHY CORNS DO NOT HAVE ROOTS. In nature, roots have a twofold purpose, anchoring and nourishing. Since corns are composed of layers of dead cells, they obviously possess neither roots nor nerves. TYPES OF CORNS: The most common is the hard corn usually found on the top or tip of the toes. Others are the soft corn between the toes, where perspiration macerates the area and seed corns found on the sole of the foot. These, and others not so common, can be further complicated by extreme inflammation, infection, bursal formation beneath the mass or a sinus sometimes penetrating to the bone itself. WHAT NOT TO DO ABOUT CORNS: Stop cutting your own corns (or those of a friend). Daily, the chiropodist sees the disabling results of "bathroom surgery" with resulting infection that sometimes endangers the life of the corn - victim. Do not be misled into applying so-called "corn cures." Many of these ointments, liquids and pads contain powerful acids, which can chemically burn the skin; extreme pain and possible infection often result. WHAT TO DO ABOUT CORNS? Visit a foot specialist. With modern, scientific treatment, he can furnish immediate relief and by careful diagnosis discover the cause of the trouble. He is qualified to suggest measures to correct the condition.

All In A Lifetime

GRAND CHAMPION — Terry Cornett, Groom, proudly displays his Chester White barrow, named grand champion in the Top O' Texas Junior Livestock Show yesterday at Recreation Park. The 226 lb. barrow, Rob, was named reserve grand champion in the Gray County Livestock show held Saturday. Cornett, a member of the Gray County 4-H Club, is in the eighth grade at Groom Public School. (Daily News Photo)

DOUBLE WINNER — Kenneth McCasland, Wheeler, went home a double winner in the Junior Livestock Show held yesterday in connection with the Top O' Texas Stock Show. McCasland is shown here with the Grand Champion 880 lb. Hereford of the Show, on the left, and the two calves placed first in the pairs division of the show. The youth is a member of the Wheeler County 4-H Club and is a senior at Wheeler High School. The Top O' Texas Hereford Breeders Association Show was held this afternoon and the Livestock Judging Contest was held this morning. Both the junior and breeder's sales will be held tomorrow with the junior sale set for the morning and the breeders sale in the afternoon. (Daily News Photo)

Bureau Seeking Federal Funds In Labor Program

WASHINGTON (UPI)—The Bureau of Employment Security has asked Congress for \$1,740,000 for the next fiscal year to enforce the Mexican migrant labor (bracero) program.

Robert C. Goodwin, head of the bureau, made the request in testimony before a House appropriations subcommittee.

The 1963 request exceeded 1962 appropriations by \$591,000.

Goodwin explained that \$247,500 of the increase was for carrying out amendments to the bracero law, and \$323,000 for preventing adverse effects to domestic farm workers.

The money will permit the bureau to hire 57 employees, Goodwin said.

The remainder of the increase — \$24,400 — is for travel expense.

CAN'T BREAK HIM DOWN

Lucas Spurns Cash; Plans To Study Law

By JACK CLOWSER
Newspaper Enterprise Assn.
COLUMBUS, Ohio — (NEA)—Jerry Lucas is contemplating dropping out of Ohio State University during the spring quarter.

A heavy demand for personal appearances already has brought him 30 engagements within the state. And he wants to get his wife, Treva, back in school. "I'm determined she's going to get a degree, too," Jerry says. "Then if anything happened to me, she would have her education. The better educated we all are, the better our contribution to society."

Lucas, a straight-A student and the world's greatest amateur basketball player, has planned his future meticulously. It does NOT include playing professional basketball.

"It's not the life for me," he has said.

Yet the wonder still grows that this dedicated young man plans to spurn pro offers that might range up to \$50,000 a year.

Instead, he plans to enter law school after graduation.

"If I were to try to get into law school next year," he explains, "I'd have to take a very heavy schedule — including some electives like business law and more accounting."

"That's why I'll probably drop out this spring while Treva goes back. Then I'd like to get in a little golf, some fishing and relaxation during the summer. That means I'd come back next fall and winter quarters to finish up work for my degree. Law school would follow."

Even the summer won't be all relaxation for the All-America center of the undefeated Bucks. For five weeks he will be at a college preparatory counselor at Chataqua near his home town of Marietta, Ohio. This is a special school operated by a group of professors.

"This will be the third sum-

mer I've done it," says Jerry. "It's difficult for high school students to make the transition to college without experiencing worrisome problems. Their habits and attitudes must frequently be adjusted for the change in environment. Many of them become homesick, especially if they are from small schools. My job is to get them oriented so their new surroundings won't be disturbing."

Athletes, don't often speak with Lucas' gravity and eloquence on a variety of subjects. He once mentioned to him that his major in school, marketing, sounded like a prosaic field for a man who has spent so much time amid the din of crowds.

He smiled and let his 6-8 frame settle a little deeper in his chair.

"Consider at this time the enormous impact the European Common Market is having on world trade and economics. The effect is felt to an increasing degree on our own economy."

"It's imperative we stay abreast of developments limited with tariff ramifications, so important to changing patterns in the operation of industry."

We gulped.

Strong interests in politics, history, social problems and international relations have been whetted by Jerry's visits to nine foreign countries in his basketball pursuits.

With all his intellectual gifts, the fact remains that Lucas also has remarkable physical assets in addition to his size and pronounced speed.

He has 20-10 vision, which gives him a 2-1 edge over the normal person. He has an extremely relaxed court appearance but remarkable reactions to a situation. He is the complete player who could score 40 points a game if he desired.

He is also a superbly gifted young man in every respect.

AFL \$10 Million Anti-Trust Suit Into 6th Day In Federal Court

BALTIMORE, Md. (UPI)—The American Football League's \$10 million anti-trust suit against the National Football League will move into its sixth day today in federal court following testimony that television rights to AFL games were worth \$3 million.

The estimate was made in testimony Monday by Jay Michaels, a television agent. He said he made the estimate in 1960, as an agent of the AFL, but that sale of the rights ran into difficulty and he had to settle for about \$1,785,000.

Among its charges, the AFL said the NFL tried to prevent it from arranging television programming. Its principal charge is that the NFL engaged in monopolistic practices aimed at preventing formation of the now two-year-old AFL.

Michaels testified further that the American Broadcasting Co. and the National Broadcasting Co. indicated a desire to televise the

Southwest Conference Officials Are Taking Lie Detector Tests

AUSTIN, Tex. (UPI)—Seventeen of the Southwest Conference's 22 basketball referees have undergone lie detector tests in an effort to clear themselves of suspicion of "fixing" games. The other five will take their turns on the polygraph machines today.

Abby Curtis, supervisor of officials for the conference, said he arranged for the examinations at the request of the referees.

"They all wanted to prove they were innocent," Curtis said. "I arranged for the tests because I knew they were shaky and in a hell of a fix."

Curtis said four referees took the tests Sunday and 13 Monday. Four will take the examinations in Austin today. The other will take his test today in another state, where he now lives, Curtis said.

Results of the tests were not made public. They were turned over to Curtis, who is working on the "fixing" reports with the Texas Department of Public Safety and the FBI.

The hints of fixed games have placed the referees under great strain. Eight of them still must work games tonight as the torrid SWC race comes to a close.

In the games tonight, co-leaders Texas Tech and Southern Methodist face Rice and Arkansas respectively. Texas Christian hosts Texas and Texas A&M hosts Baylor in other games.

If both Tech and SMU win, they

will meet Friday night in Fort Worth in a playoff game.

Curtis stressed that the lie detector tests were administered at the unanimous request of conference officials.

"We hope the tests will exonerate the men that are innocent," he said.

Howard Grubbs, executive secretary of the conference, would not comment on the lie detector tests.

He said the conference "naturally" is doing something about the game-fixing allegations. But all other inquiries brought only a "no comment."

"Until this thing is proved or disproved," Grubbs said, "everyone is under suspicion."

Under Texas law, fixing or attempting to fix any sporting event is a felony offense punishable by imprisonment from one to five years.

The investigation followed reports in a New York newspaper that bookies were refusing to accept bets on Southwest Conference games.

The newspaper said rumors of "shenanigans" forced New York bookies to take some SWC games off the betting lines. The newspaper said officials, not players or coaches, were rumored to be involved.

Kiwanis League Tournament Is Scheduled Here

The Kiwanis Pee Wee Basketball League will have its annual tournament Thursday, Friday and Saturday of this week. All teams are expected to participate.

The 5th grade will play at Robert E. Lee Junior High School Thursday and Friday nights and the 6th grade will play at Harvester Field House Thursday and Friday nights. All Saturday games will be played at the Field House.

The first-round schedule for the tournament is as follows:

5th Grade
Lee Gymnasium
Austin draws a bye
Travis vs. Lamar 6 p.m.
Houston vs. Mann 7 p.m.
Baker vs. Wilson 8 p.m.

6th Grade
Harvester Field House
Mann draws a bye
Houston vs. Wilson 8 p.m.
Austin vs. Baker 7 p.m.
Lamar vs. Travis 8 p.m.

Trophies will be given to the winner, runner-up and consolation winners in both the 5th and 6th grades. All-Star Trophies for each grade will also be awarded to ten boys in the 5th grade and ten boys in the 6th grade.

Regular Season Ends Tonight In The Southwest

By United Press International

The 1962 Southwest Conference basketball season, which started last December with enthusiasm, comes to a close tonight amid rumors of fixes and crooked officiating.

The conference championship is still to be decided. Texas Tech and Southern Methodist are tied for the lead; if both win tonight, they will meet Friday at Fort Worth in a sudden death playoff game.

Tech travels to Houston to face Rice, a tough home-court foe, while Southern Methodist hosts hot-and-cold Arkansas at Dallas. Both are favored. In other games, Texas A&M hosts Baylor at College Station, and Texas Christian plays Texas at Austin.

FINAL STANDINGS

5th Grade

Team	Won	Lost
Mann	12	0
Austin	9	3
Houston	9	3
Lamar	5	7
Travis	4	8
Wilson	3	9
Baker	0	12

6th Grade

Team	Won	Lost
Austin	11	1
Houston	10	2
Travis	7	5
Baker	5	7
Wilson	3	9
Lamar	4	8
Mann	0	12

Patterson-Liston Negotiations Are Nearly Complete

PHILADELPHIA (UPI)—This is the day when promoter Tom Bolan hopes to complete negotiations for a Floyd Patterson-Sonny Liston heavyweight title fight.

Bolan, president of Championship Sports, Inc., disclosed before leaving New York that only one minor detail about a possible return bout remains to be cleared up.

Liston, who has been begging for a shot at Patterson's crown for the last two years, agreed last weekend to take 12 1/2 per cent of all the net fight receipts. Earlier, the challenger from Philadelphia said he wouldn't fight Floyd for less than 20 per cent.

Once the negotiations are completed, "Patterson must personally approve every detail of the match before an announcement can be made," Bolan emphasized.

Ohio State Still Atop Heap In UPI Ratings

NEW YORK (UPI)—Ohio State remained college basketball's No. 1 team for the 14th straight week today, although its margin over Cincinnati was narrowed after the Buckeyes suffered their first loss of the season.

The Buckeyes, the unanimous choice of the United Press International board of coaches as the top team the last two weeks, had their lead cut to 34 points with one more week to go before the national champion will be selected. The Bucks garnered 32 first place votes.

Cincinnati, with a 24-2 record, received the three first place votes Ohio State failed to get.

Utah and Wake Forest made the biggest jumps in the ratings. Utah advanced from 18th a week ago to 7th while Wake Forest moved from 18th to the No. 8 spot.

Kansas State, Kentucky and Mississippi held on to the 3rd, 4th and 5th positions while Bradley advanced one notch to 4th place.

Loyola of Chicago ranked ninth and Bowling Green completed the top 10. Two members of the top 10 last week—Duke and Colorado—dropped out. The Blue Devils slipped to 11th and the Buffaloes to 19th.

Trailing Duke in the second 10 were UCLA, Oregon State, West Virginia, St. John's, Wisconsin, Arizona State, Villanova, Colorado and New York University.

TEAM RANKINGS

1. Ohio State (32) (22-1) 345
2. Cincinnati (3) (24-2) 311
3. Kansas State (21-2) 244
4. Kentucky (20-2) 224
5. Mississippi State (24-1) 194
6. Bradley (21-4) 187
7. Utah (23) 82
8. Wake Forest (18-4) 55
9. Loyola (Ill.) (21-2) 47
10. Bowling Green (21-3) 45

Second 10 group—11. Duke, 41; 12. UCLA, 31; 13. Oregon State, 28; 14. West Virginia, 25; 15. St. John's, 21; 16. Wisconsin, 20; 17. Arizona State, 16; 18. Villanova, 12; 19. Colorado, 8; 20. New York University, 7.

Bucks Have Day In Sun

Monday in White Deer wasn't an ordinary day, to say the least.

Not only was the White Deer basketball team given a rousing ovation and a full-fledged welcome for their winning of the state class A basketball championship, they were also part of a written proclamation, signed and sealed by the mayor of White Deer, Robert O. Eastham.

For Monday was "Buck Day" in White Deer and Main Street, which runs through the city square, had a new name Monday also-Buck Avenue.

TOM ROBITAILLE — 6-8 center for the Phillips 66ers is playing his third season with them and was top rebounder on the team the past two seasons. Robitaille played for Rice Institute, and holds the school record of 42 points in a conference game. When the 66ers and Goodyears played at Canyon last year, Robitaille scored two points in the last six seconds to win the game for Phillips, 98-97. The two teams play again at Canyon, March 15, sponsored by the Amarillo Rotary Club, for the benefit of the Amarillo Regional Hearing and Speech Foundation. He is a native of Graham, and the only Texan on the team.

CELTIC NAMED COACH — assistant football coach at Northfield, Vt. (UPI)—Bob Brannum, a former member of the Boston Celtics, has been named head basketball coach and will assume his new duties in the fall.

 Scramble Calves (Class 7) first place went to Garry Lister, Miami; second, Joe Schaefer, Canadian; third, Alan Thompson, Miami; fourth, James Ray, Pampa; fifth, Neil Rogers, Wheeler; sixth, seventh, Benny Eckles, Canadian.
 Individual showing best 2—first, Kenneth McCasland, Wheeler; second, Rocky Woodford, Miami.
 Chapter winners best 5—first, Roberts County 4-H; second, Wheeler County 4-H, and Third, Gray County 4-H unit.

Weather Has Big Effect On Some Industry

DALLAS (UPI)—Weather had a big effect on farming and some effect on commerce and industry in the five states of the 11th Federal Reserve District, the district said last week in a business review of the four-week period ended Feb. 14.
 "Farming activities in the district advanced rapidly during February, aided by unseasonably warm temperatures," the review said. Warm, open weather lasted for several weeks during the period.
 But severe weather during the early portion of the period had the reverse effect on industrial output.
 The business review pointed to the lower output in crude oil, transportation equipment and stone, clay and glass products, and said a January cold wave was partially to blame for the decline.
 The review is issued by the Federal Reserve Bank at Dallas, and applies to portions of Texas, Louisiana, Oklahoma, New Mexico and Arizona.
 The cold weather early in January slowed department store sales, but the sales made a strong recovery late in the month and the full month of January showed a gain of 3 per cent over January, 1961.
 For the four-week period, sales were up 7 per cent.
 The cold weather in January forced up the demand for fuels across the nation and there was an accompanying increase in crude oil production in the district, the review said.
 seventh, Benny Eckles, Canadian.
 Individual showing best 2—first, Kenneth McCasland, Wheeler; second, Rocky Woodford, Miami.
 Chapter winners best 5—first, Roberts County 4-H; second, Wheeler County 4-H, and Third, Gray County 4-H unit.

Swine Division Prize Winners

Grand champion—Terry Cornett, Groom, 226 lb. Chester White.
 Reserve grand champion—Wallace Donaldson, Allison, 225 lb. Poland China.
 Winners in classes and breeds one through five appeared in Monday's issue of the News.
 Hampshires, (Class 6) first place, Johnny Richardson, Allison; second, Stephen Warminski, White Deer; third, David Cook, Canadian; fourth, James Martin, Panhandle; fifth, David Zyback, Briscoe; sixth, Don Standish, Perryton, and seventh, Wayne Wilson, Canadian.
 Chester whites and OIC (Class 7) first place, Roy Cahill, Pampa; second, Nelson Rockwell, Pampa; third, Kenneth Wooster, Perryton; fourth, Bennie Wells, Pampa; fifth, D. C. Barlow, Perryton; sixth, Kenneth Powell, Pampa, and seventh, Gerald Rasco, Pampa.
 Chester whites and OIC (Class 8) first, Terry Cornett, Groom; second, Craig Lawrence, Perryton; third, Jerry Phillip, Perryton; fourth, Don Schollenbarger, Perryton.
 Berkshires (Class 9) first place, Larry Robbs, Canadian; second, Jack London, Groom; third, Philip Turner, Waka; fourth, Melvin Kirk, Clarendon; fifth, Brenda Brown, Groom; sixth, Jimmy Jamison, Wheeler; seventh, Bobby Gray, Panhandle.
 Other breeds and cross breeds (Class 11) first place went to John Koetting, Groom; second, Garland Lancaster, Mobeetie; third, Fred Hulsey, McLean; fourth, Glenn Britten, Groom; fifth, Calvin Davis, Pampa; sixth, James Allison, Perryton; seventh, James Fountain, Perryton.
 Other breeds and cross breeds (Class 12) first, Shelby Burton, Canadian; second, Carl Hudson, Groom; third, Bud Fields, Groom; fourth, Glenn Britten, Groom; fifth, Duval Burton, Canadian; sixth, Cecil Boothe, Mobeetie, and seventh, Gerald Gibson, Perryton.
 In Scotland, the name "clam" is applied to what Americans know as "scallops," according to the Encyclopedia Britannica.

Charter Airline Is Offering 'Rent-A-Plane' Skycruises

NEW YORK (UPI)—An American charter airline is offering a new rent-a-plane program to attract clubs, and other groups to fly together to any spot on the globe with an aircraft and crew that would stay with them the entire trip.
 The low rate service has been introduced by Flying Tiger Line, largest of the nation's contract and charter lines, to supplement its present program of charter flights to Europe during the summer months.
 The "skycruises" will accommodate as many as 118 persons in one plane.
 Sample costs include a 25-day tour through the Near East for \$432 per person; a 15-day flight through the Far East for \$478 and a 21-day swing through North Africa and the Mediterranean for \$446. Travel agents have submitted plans in each area for ground accommodations not exceeding \$15 per day additional.
 Interior and seating arrangements of the planes will be varied to suit the differing requirements of any group. Sleeping berths can be fitted and full lounge and dining facilities can be installed with a complete galley and well-stocked bar.

MATRIMONIAL COWARD
 DONCASTER, England (UPI)—Mr. and Mrs. Wilf Smith made it through their marriage ceremony okay but the best man couldn't take it.
 Tommy Storey, 28, who was supposed to stand up for Smith, disappeared before the nuptials because he can't stand weddings. His mother, Mrs. Annie Storey said: "He got butterflies and decided to slip away for a few days."

HERE'S WHAT OUR NEW FORD FAIRLANE GIVES YOU THAT THE COMPACTS DON'T

1. Big-car room. As spacious inside as many of the roomiest Fords ever built.
2. Big-car ride. A full 115 1/2-inch wheelbase and new shock-blotting "torque boxes" give you silent, super-smooth going.
3. Big-car performance. With an all-new Challenger V-8 engine that's everything its name implies.
4. Freedom from frequent servicing. Twice-a-year maintenance (6,000 miles between oil changes, 30,000 miles between major lubrications).
5. Fine-car luxury. Upholsteries and appointments you'd expect only in cars costing hundreds more.

AND HERE'S WHAT OUR FAIRLANE GIVES YOU THAT THE BIG CARS DON'T!

1. Low price. Costs far less than previous Fairlanes. Even less than many cars in the compact class!
2. Gas economy. Your choice of the world's first economy V-8 (optional), and the even thrifter new Fairlane Six.
3. Easier parking. A full foot shorter than other full-size cars... fits easily into tight spots.
4. Handy handling. It's compact-trim, compact-nimble, compact-quick—as comfortable to drive as to ride in.
5. Right size. Its 197.6-inch length makes garages big again. (Even leaves room for the lawn mower!)

Lenten Message

By JEROME P. CAVANAGH
Mayor of Detroit
Roman Catholic Layman

Man frequently ponders in private the true meaning of life, the purpose he himself is to serve in this vast pattern of existence.

During the Lenten season, man gives voice to this quest. For some the way ahead is cloudy and uncertain, for others the path is lighted by a brilliant torch, clearly illuminating the highway down which he must tread.

Man's belief in God is the catalyst that makes the difference. Without this belief a man seems a purposeless creature, never seeing beyond the veil of uncertainty. With the knowledge of God's love and concern for his children, the whole reason for struggling onward is given direction.

With religion the hopes and aspirations of man take on a fuller and richer meaning. The unanswerable questions have clear and precise meaning. The improbable and impossible of this life seem easily attainable.

Faith is the key to confidence. No matter what tribulations beset a man throughout his allotted span on this earth, he can know that he serves a greater purpose. He can know that whatever else

is taken from him, he shall never lose love, hope and faith.

Whatever his hopes and aspirations, whatever his failures and frustrations, he can know that he has contributed his designated portion to the ultimate triumph of mankind over itself.

Childress Man Heads NRECA

ATLANTIC CITY, N. J. (UPI) — R. A. Yarbrough of Childress, Tex., has been elected to his second one-year term as president of the National Rural Electric Cooperative Association.

The election was held Sunday on the eve of the association's 20th annual meeting.

Suspend Stores From Federal Stamp Program

WASHINGTON (UPI)—The U.S. Agriculture Department announced it had suspended two San Miguel County, N.M. grocers from participation in the federal food stamp program for depressed areas.

Two Las Vegas stores, Joe's

Grocery and Eidel Grocery, are prohibited from accepting or redeeming food stamp coupons while under suspension.

The USDA said stamps had been accepted for non-food and other restricted items.

San Miguel County is one of eight areas in the pilot project which allows persons living in a depressed area to exchange federal stamps for certain food items.

It is estimated that about per cent of all homes in New York City have television sets.

Guardsmen To Take Training In Louisiana

AUSTIN (UPI)—Members of the 36th Infantry Division of the Texas National Guard will leave the state for summer training in July for the first time since 1951 when they go to North Fort Polk, La., Brig. Gen. Everett Simpson, division commander, announced.

He said this summer's encampment will be July 1-15.

The 49th Armored Division, called to active duty last fall, is stationed at Fort Polk.

Simpson said summer training for the 36th division has been held at North Fort Hood, Tex., for the past 10 years.

Cold Remedy Advertising Due Probing

WASHINGTON (UPI) — The government doesn't want the public to get the idea that a couple of pills will cure a cold.

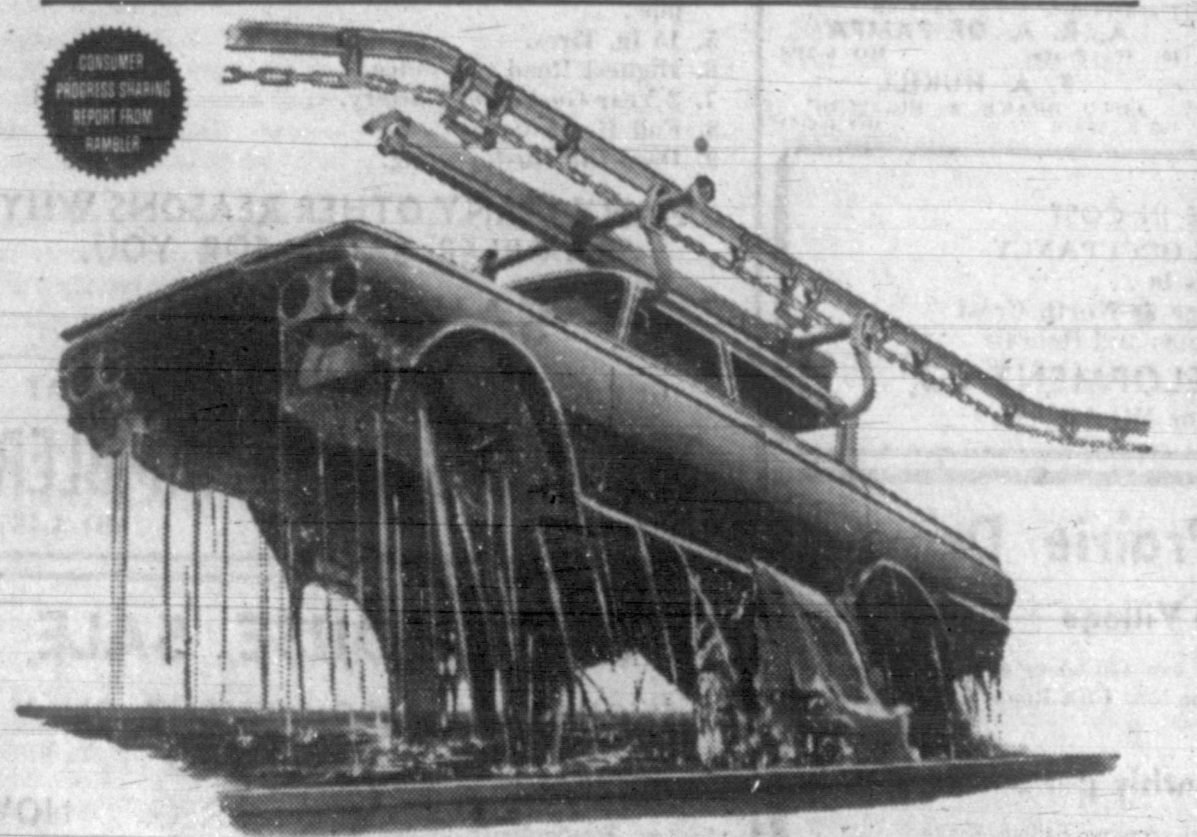

The Federal Trade Commission announced Saturday it would begin next week a broad investigation of cold remedies to determine whether their effectiveness is overstated in advertisements.

A resolution by the commission said it had reason to believe that some companies had "falsely advertised and misrepresented" what their cold cure products were capable of doing.

To begin the investigation, questionnaires will be sent to 24 major manufacturers of cold remedies, the FTC said. Replies are mandatory.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plates dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little PASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath". Get PASTEETH at drug counters everywhere.

RUSTPROOFING?

Rambler spills more than others use

Rust normally starts inside automobile body panels and girders. To stop that, Rambler goes to extra lengths no other car does.

Every Rambler body is Deep-Dipped—right up to the roof—in a tank of rust-proofing primer paint. Hundreds of gallons surge inside girders and pillars.

Far more rustproofing

When the body comes out, dripping excess solution, over 15 pounds of rustproofing chemicals coat the steel—more rustproofing than any other American car gets, and more spilled, literally, than others use. But Deep-Dip is just one of 14 steps in Rambler's all-out rust fight—9 steps in the body alone.

9-step body protection

1. Lower body panels are zinc-clad . . .
2. Zinc-rich primer is used on critical metal surfaces before welding . . .
3. Body is spray rustproofed with phosphate paint bond . . .
4. Entire body is Deep-Dipped . . .
5. Primer-surfacer is sprayed, then is baked on . . .
6. Rust-fighting wax compound is sprayed inside girders, rocker panels, fenders . . .
7. Two coats of chip- and salt-resistant super enamel are baked on . . .
8. Sound-deadening rustproofing material is sprayed on vital areas . . .
9. Abrasion-resistant sealer is sprayed on crucial underbody areas to protect against stones.

Is it any wonder that Rambler is the world's most rustproofed car?
