

John Birch Society Battling Commies

EDITOR'S NOTE: Since the John Birch Society has become a major subject of controversy throughout the nation, The News is running a four part series. M. C. Maloney, a Freedom News paper news editor, who made an exhaustive study of the Society. The fourth and final article in the series follows:

By M. C. MALONEY

"We are at war with the Communists, and the sooner each red-blooded American realizes that, the better and safer we will be."

The speaker — J. Edgar Hoover. The time — last year.

John Birch Society members say they fervently agree with the head of the FBI.

They contend that the United States and the world are at a crossroads of history.

They assert that the next few years will tell the story as to whether the international Communist conspiracy will prove successful.

They insist that pro-Communist forces are definitely at work, successfully, in this country — in government, in schools, in religious groups — in whatever field it is possible to influence the mind and life of man.

They say they believe some of these forces are conscious Red

agents — they believe that some are unwittingly doing the work of the Communists.

In both cases they see the same possible end result.

And they don't like what they see — a one-world Socialist government.

"There are many stages of welfare, socialism, and collectivism in general," says Robert Welch, founder of the Birch Society, "but communism is the ultimate state of them all, and they all lead inevitably in that direction."

The society's announced ultimate aim is: "Less government, more responsibility, and a better world."

Its immediate aim is the successful waging of an aggressive battle against communism. And it stresses the term "aggressive."

In recent weeks the society has been widely criticized. Few apparently dispute its goals, but many, including senators, congressmen and other high public officials as well as some church leaders, have denounced the Birch Society.

They say its organization is Fascist.

They say its methods are un-American and the type used by the Communists themselves.

The address given by Robert Welch last Saturday in Amarillo will be broadcast tomorrow, Thursday, at 8 p.m. on KPND.

What is the structure of the John Birch Society?

It is headed by the man who founded the organization just a little more than two years ago, Robert Welch, a top business leader who gave up most of his business affairs four years ago to devote this time to the anti-Communist fight.

Its top governing body, under Welch, is the Council of the John Birch Society. Presently consisting of 26 members, the council will be the body which will name Welch's successor.

Included in the council are: a former assistant secretary of state, Spruille Braden; Dean Clarence Manion, former dean of Notre Dame Law School; T. Coleman Andrews, former commissioner of Internal Revenue of the United States; Rev. Richard Ginder, editor of The Priest and associate editor of Our Sunday Visitor; and other well-known figures.

The Birch Society operates largely through local chapters, usually of between 10 and 20 members each, with a chapter leader at the head of each.

Providing supervision and guidance for the local chapters, as well as to assist in the formation of new chapters, are both salaried and volunteer co-ordinators. The society says it now has approximately 130 such coordinators of whom some 30 are fully paid as to salary and expenses.

For those areas where there are no chapters organized — the society lists 14 states in this category — there is a Home Chapter which maintains contact with its members by mail, including the Home Chapter, the society claims members in all of the 50 states plus the District of Columbia.

To finance its operations the society assesses annual dues of \$24 for men, \$12 for women. In addition it offers a life membership at \$1,000. Members who desire to contribute more than the minimum dues are encouraged to do so.

The beliefs of the John Birch Society are found primarily in its Blue Book, a statement of aims and purposes. This is supplemented by a monthly bulletin containing a suggested agenda for members and commentary on suggestions, criticisms, accomplishments.

Members also receive a monthly current events magazine called American Opinion, founded by Welch and now published by the society.

Both the Blue Book and American Opinion are available to non-members. (See BIRCH, Page 2)

Baylor University Names Chancellor

DALLAS (UPI) — Dr. W. R. White has stepped up from president to a new post as Chancellor of Baylor University and Abner McCall was named president.

The action came late Tuesday at a meeting of the school's board of trustees in Dallas.

McCall, executive vice president for the past two years, had been dean of the Waco school's law school. He once served several months on the Texas Supreme Court as an appointment of Gov. Price Daniel.

Dr. White had served as president of the Baptist school since Feb. 1, 1948. He will take the chancellorship on a two-year basis, to work in denominational relations and the institution's financial matters.

College Battle Keeping State's Senate Stymied

AUSTIN (UPI) — A legislative fight that has the Senate in a filibuster was expected to move today to the floor of the Texas House.

The battle is over bringing the University of Houston into the state college system at a cost of \$20 million.

Rep. Criss Cole of Houston was expected to run with his version of the bill today if the House clears Senate bills on the docket.

Sen. Wardlaw Lanz of Center, who has been filibustering against the Senate version since Monday succeeded Tuesday in getting the bill's sponsor to offer a substitute bill that may meet some Senate objections.

The House Revenue and Taxation Committee sent to the floor a pair of 2 per cent sales taxes — one at the retail and one at the wholesale level.

The retail sales tax by Rep. Charles Wilson of Trinity would raise between \$130 million and \$140 million, and the wholesale tax would bring in \$150 million, its sponsor, Rep. W. H. Miller of Houston, said.

The tax fight may begin Friday, if the House votes to work a day longer than usual, or next Monday.

After two hours and 43 minutes of Lane's filibuster Tuesday, Sen. Bob Baker of Houston, the bill's sponsor, proposed a substitute and called for adjournment.

The new version would bring Houston into the state system in 1963, provide for \$200 annual tuition and place the school's curricula under the supervision of the Texas Commission on Higher Education.

New Jersey Vote Cheers Republicans

NEWARK, N.J. (UPI) — Former Labor Secretary James P. Mitchell swept to the Republican gubernatorial nomination today on a wave of personal popularity that could carry the GOP back into executive power in New Jersey for the first time in eight years.

National Republican leaders were jubilant over Mitchell's 45,000-vote victory over two strong opponents in his first try at an elective office.

Mitchell gave credit to "Eisenhower Republicanism" for his win. He said the vote showed the American people were still willing to buy the "progressive, forward look that characterized the Eisenhower years."

Mitchell, who had little organizational support, beat off a determined bid by State Sens. Walter E. Jones and Wayne Dumont. In the November showdown he faces former Superior Court Judge Richard J. Hughes, who won the Democratic nomination overwhelmingly.

Yanks And Others Executed In Cuba's Reign Of Terror

Many Arrested; Jets And Tanks Enter Fighting

By United Press International

Fidel Castro's military machine loosed a wave of terror in Cuba today to stop a revolutionary invasion from sparking an internal uprising. Two Americans and seven Cubans were executed by firing squads and there were mass arrests of Cubans and U.S. citizens.

Castro's internal policing apparatus went into action as the Cuban war started blowing up into a major engagement just 90 miles from the coast of the United States.

Castro forces attacked invading revolutionaries Tuesday with Mig jets and tanks. The invaders struck back by bombing two Cuban air fields, including the one at Campa Liberty outside Havana Tuesday night.

Havana's Radio Rebelde announced that Angus McNair, of Miami, and Howard Anderson, of Yakima, Wash., were executed at dawn along with seven Cubans.

Castro's government claimed its forces shot down four rebel planes on a bombing mission over a government militia mobilization area in Matanzas Province today, including one with a "U.S. pilot aboard."

A communique broadcast over the emergency national radio network identified the American pilot as Lea Francis Berlitz, of Boston, Mass.

The communique said the planes bombed the "civilian population" in the area of the former U. S.-owned Australia sugar mill in Matanzas Province. This area previously has been identified in Castro regime broadcasts as a mobilization area for his militia.

The broadcast claimed the American pilot was killed. Reports on the fighting itself said that 200 civilian buses filled were sporadic and mostly second hand. There were no eye-witness

Russia Demands UN Reprimand U.S. About Cuba

UNITED NATIONS, N.Y. (UPI) — Russia demanded United Nations condemnation of the United States today for its alleged participation in the Cuban invasion.

Soviet Ambassador Valerian A. Zorin, in a midnight resolution, called on all countries to support Fidel Castro's government if asked and "repel the aggression." His resolution was placed before the General Assembly's Main Political Committee which met until 12:21 a.m., then recessed.

The committee hoped to dispose of the resolution, one or four before it on the Cuban situation, in time for the General Assembly to take final action before its adjournment deadline Friday.

Zorin demanded the immediate disarming of all "counter-revolutionary bands" he said were being prepared in the United States and to other countries for participation in the invasion. His resolution also demanded that all countries cut off assistance to the invaders and prevent them from using their territory.

The assembly was asked to condemn "the aggressive actions of the United States and other countries." Zorin submitted "the resolution after Ambassador Adlai E. Stevenson repeated the denial of U.S. participation in the preparation or launching of the invasion."

E. J. Gething, Pioneer Dies; Rites Tomorrow

Funeral services for Edward James Gething, prominent pioneer resident of Gray County, will be held at 2 p.m. tomorrow in the First Presbyterian Church with the Rev. Ronald Hubbard, pastor and Fr. William E. West, pastor of St. Matthews Episcopal Church, officiating.

Mr. Gething died yesterday around noon in his town home, 1316 Mary Ellen. He was born Dec. 14, 1898 on a ranch south of Laketon, where he had made his home since birth.

He was a charter member of the Moose Lodge and a member of the Elks' Lodge.

He is survived by his wife, Gladys; one son, William of Pampa; one daughter, Mrs. Mary Ellen Lilly of Burbank, Calif.; his mother, Mrs. Elizabeth Gething of Pampa; and four grandsons.

Funeral services will be held at 2 p.m. tomorrow in the First Presbyterian Church with the Rev. Ronald Hubbard, pastor and Fr. William E. West, pastor of St. Matthews Episcopal Church, officiating.

Honorary pallbearers are Charley Webb, Floyd Bull, Ray Cates, Adrian Dial, Jim Poole, Ray Jones, Walter Jones, Bill Webb and Cliff Vincent.

Interment will be in Fairview Cemetery under the direction of Duenkel-Carmichael Funeral Home.

Yarborough Fetes Appointee To Peru

WASHINGTON (UPI) — Mr. and Mrs. James Borah of Wichita Falls, Tex., were guests of honor Tuesday at a reception held by Sen. Ralph Yarborough, D-Tex., in the old Supreme Court chamber, rioting in Caracas and the "oil capital" of Maracaibo.

In La Paz, Bolivia, at least 38 persons were injured in clashes between police and rioters who broke windows in the Guatemalan Consulate.

Police used tear gas to turn the mob away from the U.S. Embassy. Adv. sy.

INVASION LAUNCHED — A sea-borne invasion of Cuba has been launched to overthrow the government of Fidel Castro, and invading Cuban troops have successfully carried out the first stage of the operation, revolutionary headquarters disclosed. A Cuban Army radio station said invaders attacked Matanzas Province from the south. Other invasion sites were identified as Cochina Bay, Playa de Giron and Playa Larga.

Stuart Kines Resigns Coronado Inn Post

Stuart C. Kines, general manager of Pampa's Coronado Inn, has resigned to become effective between June 1 and June 15.

"The hotel has made splendid progress under Mr. Kines' management," the board president said.

Kines came to Pampa in October of 1959 from Odessa, N.Y., where he had been manager of the Pontiac Hotel. He has been general manager of the Coronado Inn since its opening in January, 1960.

Group Planning Convalescents' Home In Pampa

Directors of the Top O' Texas Foundation have started plans in motion to conduct a survey in Pampa and vicinity to determine the actual need and interest locally for a convalescent home. It was announced today by Arthur Teed, foundation president.

The board, meeting yesterday, agreed that there is a definite need for such a home in Pampa. The survey to be conducted is intended to find out the need for the proposed 60-bed home and the amount of interest by local people to support a financial campaign to make construction possible. The home would be non-profit.

It is anticipated that a minimum of \$400,000 will be needed to construct the proposed home. Of this amount Teed said, a grant of \$200,000 from The Hill - Burton Program seems assured. This would mean that approximately \$200,000.00 would be needed locally to match the Hill - Burton commitment, he stated.

Foundation President Teed has asked that everyone receiving the survey questionnaire return the card attached in order that the board may have a better idea as to the needs and local interest in the project.

Court Hears Eichmann's Claim He Opposed Slaughter Of Jews

JERUSALEM (UPI) — Adolf Eichmann's voice boomed through the courtroom today, telling how shocked he was when he first got orders to exterminate the Jews.

A tape recording made when he was flown to Israel after being kidnaped in Argentina was played by the prosecution at the trial of the man accused of the mass murder of 6 million Jews.

At a point where he was placing the main blame on his superiors, he added:

"I cannot claim my hands are clean. I will not ask for mercy. I am not deserving of mercy. Perhaps I ought to hang myself in public so that all the world's anti-Semites can have the terrible nature of their acts made clear to them."

This is the picture the former Gestapo lieutenant-colonel drew of himself.

He tried several times to get out of the assignment as a traffic officer, routing Jews to the extermination camps. But always he was ordered to go back and always he obeyed.

After a trip to an extermination camp he went to Berlin and faced up to Heinrich Himmler, chief of the Nazi police. He told Himmler the Nazis were making a mistake in killing the Jews and he wanted no part of it. He was ordered to go back to work. He did.

He never formulated any policy for the destruction of the Jews. (See COURT, Page 2)

Solon Proposes Minimum Wage Bill Amendment

WASHINGTON (UPI) — President Kennedy's \$1.25 an hour minimum wage bill, already over a big Senate hurdle, today faced the highest one yet.

A vote was expected on an amendment by Sen. A. S. Mike Monroney, D-Okla., to reduce coverage of the administration proposal.

Administration forces refused to predict the outcome. The target of the amendment is a measure calling for extension of Wage-Hour Act coverage to 4.1 million new workers.

Most of the new workers are in retail and service industries, and Monroney said the administration bill "shocked" his conscience because it would apply to businesses grossing more than \$1 million a year even if they operate within a single state.

His amendment would trim about 1.6 million of the new workers off the Kennedy bill by stipulating a business must operate in more than one state to come under the law.

The administration bill Tuesday got past a substitute plan offered by conservatives.

President May Offer His Tax Plan Tomorrow

WASHINGTON (UPI) — President Kennedy is expected to ask Congress to restrict income tax deductions for expenses — especially entertainment — in special tax recommendations he will make Thursday.

The President met with top fiscal advisers Tuesday to work out final details of the proposals.

He is expected to suggest that Congress require withholding taxes on dividends and interest, restrict business deductions, offer a limited tax reduction to business for investment incentives, eliminate special treatment for dividend income and tighten up taxation of income from foreign sources.

Immediate Laos Cease Fire Asked

LONDON (UPI) — Britain is asking the Soviet Union to agree to an immediate cease-fire in Laos Thursday, Foreign Secretary Lord Home said today.

Lord Home told the House of Lords the cease-fire request is part of a "timetable of action" being submitted to the Soviet government by the British ambassador.

The timetable also includes a meeting of the international commission on Laos and its dispatch to that country to verify the cease-fire. This commission comprises Canada, India and Poland.

JFK Warns Russia Not To Enter Cuba

WASHINGTON (UPI) — The United States was firmly pledged against the republic of Cuba.

President Kennedy warned Soviet Premier Nikita Khrushchev Tuesday night this country would act immediately to hurt back any "military intervention by outside force."

The President's sternly worded note also cautioned Russia against using the Cuban situation as a pretext "to invade other areas of the world." Kennedy said this would be "dangerous to world peace."

The American note, handed to Soviet Ambassador Mikhail Menshikov at the State Department, was a reply to a message from Khrushchev asking Kennedy "to deny said."

Communist-Led Demonstrations For Fidel Spreading Over World

By United Press International

Communist-led demonstrations protesting alleged U.S. aid to the anti-Castro invaders of Cuba spread around the world today in a wave of violence recalling the Red-organized anti-Belgian riots set off by the death of Congo co-Premier Patrice Lumumba.

There were growing indications of anti-Communist resistance to the mobs in Latin America, scene persons injured and 30 arrested in the old Supreme Court chamber, rioting in Caracas and the "oil capital" of Maracaibo.

In La Paz, Bolivia, at least 38 persons were injured in clashes between police and rioters who broke windows in the Guatemalan Consulate.

Police used tear gas to turn the mob away from the U.S. Embassy. Adv. sy.

Pampan Gets Honor Award

Earl Cooper, son of Mr. and Mrs. Marvin Cooper, 1230 Hamilton, recently received the Golden Shears Award at Texas Wesleyan College, Fort Worth. A senior at TWC, Cooper majors in English. His junior year he was elected president of his class and served on the TWC Student Senate. This year he was elected Senator from the senior class and president of the Sakkara social fraternity. He is a member of Sigma Tau Delta, English department club and is active in intramural sports.

Court

(Continued from Page 1) He was too far down in the chain of command to do that. Eichmann, earphones clamped on his head, sat impassively in his bullet-proof glass cage as his own voice beat on his ear. At the start of the statement he seemed bent on disavowing the terror against Jews. He depicted himself as a man who could not stand violence or bloodshed. He said he never could have been a doctor because he was too sensitive to suffering. When the Jewish extermination program was first suggested he said: "The breath went right out of me." Although the tape recording was done by the prosecution, the defense also was making use of it. The opening words of Eichmann's statement clearly pointed the line his lawyers are taking — that he was a minor official forced by orders from above to commit acts against his conscience.

Arrested

(Continued from Page 1) Afternoon of the fighting front, but details of the battle were lacking. A strange quiet had settled over the civilian life of Havana. Bars in the once-gay city were open Tuesday night but no one was in them. Civilians feared to go into the streets because militiamen questioned them almost every other step they took. The Castro regime continued to black out commercial communications to such an extent that even foreign governments could not contact their personnel in Cuba.

Top O' Texas Chapter, Order of the DeMolay will meet today at 7:30 p.m. in the chapter room in the Culberson Building. All members are urged to be present.

For the best steaks in town visit your IGA Food Liner, 600 S. Cuyler.

Derrel Hogsett was in Dallas on business this past weekend. His wife and children, Danny and Cynthia and his father-in-law, Wally York accompanied him as far as Jackboro; where they visited with Mrs. York's sister and family, Mr. and Mrs. Charles Hanna.

First Assembly of God Rummage Sale, Friday-Saturday, 321 S. Cuyler.

Mrs. Joe Sears, Robert E. Lee Junior High PTA president, requests that all members of the executive board meet at 1 p.m. Thursday in the school conference room for the regular meeting.

The general meeting of Lee Junior High PTA will be held in the school auditorium at 2:30 Thursday. Parents of ninth grade students - to - be are especially invited to a visitation hour at 2 p.m. Thursday.

The United Commercial Travelers meeting has been postponed until April 27 due to the Lions Convention.

Lee PTA Plans Meet Tomorrow

"Looking Forward To High School" will be the discussion topic for Cameron Marsh, Pampa High School principal, and Miss Evelyn Milam, PHS student counselor, at the Robert E. Lee Junior High PTA meeting tomorrow at 2:30 p.m. in the school auditorium.

Miss Carole Sears will give the "Thought for the Day."

Ninth grade home economic students, under the direction of Miss Geraldine Rumpy will stage a style show with Bob Black as master of ceremonies.

A visitation period has been set for 2 p.m. with an invitation extended to all parents and friends to visit in classrooms.

Jaycee Members Hear Doug Halley

Doug Halley was guest speaker yesterday at the Jaycee luncheon. He spoke about the activities at the Youth and Community Center which opens at 2:30 p.m. Sunday, April 30. There will be a swimming exhibition and other entertainment for the opening day.

The Jaycee Club was honored with thirteen guests from the Borger Club. Kenneth Lamberson was introduced by Jimmy Alvey and L. W. Oliver by Wallace Bruce.

FFA SWEETHEART — Gail Culppepper, a Pampa High School Junior, was selected as the Top O' Texas sweetheart yesterday at the District FFA convention held in Pampa High School. Presenting a bouquet of roses to the "sweetheart" is district president, David Hefley from the Briscoe chapter. James Jenkins of Pampa, was awarded first place in the public speaking contest with a talk entitled, "Agriculture and Faith." Hefley won the star farmer award and the FFA chapter from Allison displayed the outstanding farm safety exhibit. District chapters include, Pampa, Allison, Briscoe, McLean, Shamrock, Perryton, Mobeetie, Wheeler, Canadian, Follett, Darouzett and Booker. Miss Culppepper will represent the Top O' Texas district at the state FFA convention, May 6, in Amarillo. (Daily News Photo)

Wheat Outlook Reported Good

Pampa and Gray County wheat conditions are reported as a adequate and moisture and prospects remain good over the entire area, according to a recent report from Norris E. Daniels, extension entomologist for the Southwestern Great Plains Field Station.

Norris reports the Central Panhandle area has the heaviest green bug infestation since 1951 and Gray county is one of the hardest hit counties. He also said that it is too early to know the extent of damage. Effective aerial spraying is reported underway and will probably continue through the first week in May.

According to a report from the United States Department of Agriculture, heavy fall rains got a High Plains wheat off to a strong start. Warmer weather and fast melting snows set Plains wheat up in excellent condition for rapid spring growth which points to a \$1 million bushel crop, the second largest in Texas history, the report said.

Plans Coordinated For City Cleanup
Coordination of plans for Pampa's Cleanup Weeks, May 16 through May 31, was made at a meeting this forenoon of the Fire Prevention Committee of the Pampa Chamber of Commerce.

Kay Fancher, committee chairman, said details of the plan's adopted today will be worked out with city officials and committees of the senior and junior chambers of commerce within the next two weeks.

Holman C. Duncan Service Pending

Funeral services are pending for Holman C. Duncan, former resident of Pampa and Amarillo, according to Duenkel-Carmichael Funeral Home.

Mr. Duncan died yesterday in Del Norte, Colo.

The body is being returned, to Pampa, where arrangements are tentatively being planned in Alandred; the service date and time to be announced later.

Area Red Cross Officers Named By Association

The Panhandle Association of Red Cross Chapters met in Pampa yesterday with 42 persons present and eight chapters represented. John Gikas was elected president for the year of 1961-62 and Fred Enright, Shamrock, vice president. Mrs. Mack Harmon was elected secretary-treasurer.

Mrs. Faye Rives, of Amarillo, spoke on the work at the Veterans Administration Hospital, Amarillo. George Dvoryak, field director at the Amarillo Air Force Base, complimented the group on the Re-Training Center parties. The association voted to continue the parties for next year on the same basis they have been held the past year.

Mrs. Edna R. Schweitzer, field director of the Amarillo Air Force Base Hospital, invited Gray Ladies to work in the hospital at Amarillo any time that they could come. She told of the two-phase program at the Amarillo Air Force Base Hospital. The first phase was case work, the Red Cross acting as a liaison between the hospital and requests from their parents. The second phase was the recreational program. The Gray Ladies, with the field director and other Junior Red Cross volunteers, would give parties and play games with those who were ambulatory patients. She invited Junior Red Cross members of all chapters to consider this as part of their program.

U.S. Naval Recruiter J. H. Plunk, assisted by U.S. Naval Recruiter Dave Brown, showed films of petitions in some instances, "6. Waking up the American people by exposing, wherever possible, the pro-Communist activities of Communist sympathizers;" "7. Making it more difficult for hundreds of pro-Communist speakers to appear before thousands of unsuspecting audiences;" "8. Making Americanist speakers available for audiences which are now, simply by default, at the mercy of pro-Communist lecturers;" "9. Supplying encouragement and renewed hope and determination to anti-Communist refugee groups throughout our country, and

"10. Carrying on an educational campaign on the political front, so that our members will understand better — and can help their fellow citizens to understand better — the issues and candidates offered to them by both political parties."

Birchers believe that the main Communist fear is that the American people will learn the truth about the methods and the progress of the "whole international Communist conspiracy."

And this "spreading of the truth" is one of their dedicated aims.

Birchers contend "we must again become equally dynamic in our spiritual influence; in our positive leadership and example to provide a governmental environment in which individual man can make the most of his life in whatever way he — and not his government — wishes to use it."

They assert, as Patrick Henry said: "Gentlemen may cry 'peace, peace' but there is no peace. The war is actually begun!"

Birch

(Continued from Page 1)

members merely by writing. The John Birch Society, Belmont, 78, Mass. Charge for the Blue Book is \$2. American Opinion is \$5 per year.

Chapters generally meet monthly. A typical meeting will include the viewing of a film on communism, a book review by one of the members, perhaps a discussion of other books included in the more than 200 recommended by the society, and a report by each member of his activities for the month.

These activities would probably be primarily letter writing — to government leaders criticizing or complementing specific actions, to a corporation executive, making a suggestion, or to the head of a national organization, supporting a statement.

The society has been criticized for its "fascist" organization, for the statement in its Blue Book that it is "a monolithic body" and has been called a dictatorship.

Birchers reply that any efficient business or organization must have an executive running it, a set of rules controlling it, and a policy advising and protecting it.

They point out that it is completely a voluntary organization. Members are free to resign at any time. They point to a continuing admonition of the society: "Do not carry out any of our requests which are disapproved by your own conscience. We do not want anybody ever to do anything for the John Birch Society which he or she does not earnestly want to do."

On the other hand, the society maintains the right to dismiss any member at any time, without the reason being stated, and refund the pro rata dues paid in advance.

The society says it has used this power only twice.

Once in the instance of a member who, it says, was not interested in the aims of the society but sought only companionship and bogged down the chapter meetings with discussion of personal affairs.

The other case where a self-

stated Home Chapter member sought to interject anti-Semitism into a chapter meeting. Birch officials say the chapter report of the continuing incident was verified and the man was notified he was to attend no more meetings of any chapter.

"We then looked into the status of his Home Chapter membership," Welch said, and "found that he was not even a member of the society and never had been."

Charges of "a secret society" have also been disclaimed by the Birchers.

The society refuses to divulge the names of members, numbers of members, or numbers of chapters in existence. It holds that "sound experience which keeps so many other groups from ever revealing their numerical strength has even more force with regard to ourselves."

But members are free to name themselves as members as most do, including several members of Congress.

The society, while seeking to avoid general publicity, refuses the secrecy charge by making available to all who are interested its Blue Book and monthly magazine.

It states its action program in 10 categories:

"1. Dissemination of Americanist books and pamphlets as widely as possible;

"2. Increasing the circulation and readership of the best Americanist periodicals;

"3. Enlarging the audiences of Americanist commentators and newscasters on radio and television;

"4. Making more effective use through better planning, direction, and coordination — of the weapon of letter writing;

"5. Organizing Americanist fronts for many different purposes, including the widespread

after the noon luncheon, on National Security. Since Red Cross is vitally interested in the servicemen of all branches of the service, these slides gave the workers a first hand picture of the different places our servicemen are assigned, carriers, transport ships and submarines. It gave the workers a better understanding of the problems involved in locating servicemen on the high seas.

During the afternoon session, Sam Pagan of Shamrock, presided over the program. Mrs. Jack Foster of Pampa, spoke on the "Gray Ladies In Your Community." She told what was required of a Gray Lady and urged each community to set up this important service in their community.

Mrs. Corinne J. Neely of Hereford, spoke on why you should have a Junior Red Cross in your schools. She told of the projects of the Junior Red Cross in the area for community. She spoke of Junior Gray Ladies who work in the hospitals, doing the same work as the Gray Ladies do.

Mrs. Helen Boninger, executive secretary, Borger, told of the Water Safety program in the Borger community. She said the Water Safety Aquatic Instructor School will be held at Ardmore, Okla., June 4 thru 14, and urged each chapter to send one or two persons.

Bob Blackburn, Red Cross Field Representative from Amarillo, spoke on the extension service that each community could give to their neighboring communities through first aid instruction, water safety instruction, cooperating in home service cases and assistance in nursing service. He cited the Pampa chapter as doing an outstanding work in this field.

The group voted to meet next on the third Tuesday in September, 1961, at the Amarillo Air Force Base.

World's largest cotton plantation is located at Wilson, Ark.

TEX EVANS BUICK-RAMBLER, Inc. — 123 NORTH GRAY

NOT A FIGHTER
MELTON MOWBRAY, England (UPI) — Caesar began his army career Monday with a sentence of 14 days in close confinement. Caesar is a two-year-old Alsatian and he went AWOL last week on his first day in the service. He took one look at the war dog training school on his arrival and bolted. Caesar was found Monday—in a nearby pet food factory.

Oh, my aching back

Doan's
Nagging backache, headache, or muscular aches and pains may come on with over-exertion, emotional upset or day to day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation... with that restless uncomfortable feeling. If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action through the kidneys — tending to increase the output of the 15 miles of kidney tubes. So if nagging backache makes you feel dragged-out, miserable with restless, sleepless nights... don't wait... try Doan's Pills... get the same happy relief millions have enjoyed for over 60 years. Ask for large, economy size and save money. Get Doan's Pills today!

ALLAN SHIVERS Society Speaker

Shivers To Speak To Technologists

Allan Shivers, former governor of the State of Texas, will speak at the Carlton Motel at a luncheon Thursday, April 20, sponsored by the Society of Petroleum Engineers of AIME, in conjunction with the Gas Technology Symposium to be held April 20-21.

Shivers was born October 5, 1907, at Lufkin. He attended public schools at Woodville and Port Arthur. In 1931, he graduated from the University of Texas with a Bachelor of Arts Degree and in 1933, he received his degree in law. Shivers holds honorary degrees from Baylor University, Texas Baptist College, St. Edwards University, and The University of Southern California.

In 1937, Shivers married Miss Marialice Shary of Mission, Tex. They have four children.

Shivers has been elected to the offices of Texas state senator, Lt. Gov. of Texas, and Governor of the State of Texas. He has served on many committees, councils, and boards both federal and state. Shivers business interests include law, farming, ranching, and on the board of directors of several large corporations.

Those desiring to hear him speak but who are not registered for the symposium should contact the Symposium Registration Desk in the lobby of the Blackstone Hotel. Symposium registration is not required to attend the luncheon.

Educators Visit Truman Museum

KANSAS CITY, Mo. (UPI)—A group of 13 high-ranking Mexican educators arrived here today for a visit to the Truman Library at Independence and a trip to the University of Kansas extension center in Kansas City, Kan.

The stop here was a prelude to a two-day visit at the Lawrence campus of the university.

The guests, to arrive by air shortly after noon, are participants in the first education expedition under the auspices of the Inter-American Education Foundation and the Association Pro Entendimiento Internacional. Their trip began March 30 and will continue to May 7.

Former President Truman will greet the group during its visit to the Truman Library.

Nickel plating is used principally to protect other metals from corrosion.

Phillips Chemical Plant Strike To End At Midnight

DUMAS (UPI)—Officials of the Phillips Chemical Co., and the Oil, Chemical and Atomic Workers International Union announced today that a 103-day strike at Phillips Cactus, Tex., plant will end at midnight.

Cactus is 12 miles north of Dumas. The joint announcement was issued by Bill Thomas, employee relations representative of Phillips, during a meeting with the committee and union negotiators.

A total of 325 persons were involved in the strike, which started Jan. 6. Two men were charged earlier with simple assault.

The plant makes ammonium nitrate and nitric acid. Three days ago the negotiators reached agreement on all issues of the strike but a final settlement was held up because the company refused to reinstate two employees. The employees were charged with illegal strike activities.

There was no indication today of what happened in those two cases.

The issues in the strike were individual job classification and benefits reopening clause in a new contract which had provided a 14-cent-an-hour wage increase.

Wages per se were not an issue in the strike itself.

A&M Muster Set Friday In Miami

The annual Aggie Muster of former students of A&M College of Texas in Panhandle area including Pampa, Miami and Canadian, will be held Friday in Miami, to carry on a tradition that is 58 years old this year.

A Muster is held each year by students and former students of Texas A&M to pay their respects to fellow Aggies who have passed on and as a humble tribute to Texans who won the freedom of the state at the Battle of San Jacinto near Houston 125 years ago.

The Miami A&M club muster will be one of more than 500 similar ceremonies held by thousands of former students and friends of A&M over the world.

Muster Chairman F. A. Vitranos has invited all A&M men and students in the area, and friends of the college to join in the observance which is scheduled to begin at 8:30 p.m. Friday.

Adenauer Given Tray By Texans

AUSTIN (UPI)—The people of Bexar County gave a silver tray to West German Chancellor Konrad Adenauer Monday as a token of their appreciation.

Adenauer, visiting Vice President Lyndon B. Johnson at his ranch, was presented the tray by State Rep. Jack Johnson of San Antonio.

It was paid for by an anonymous group of Bexar County citizens.

The inscription said: "To Chancellor Konrad Adenauer from the people of Bexar County in recognition of his efforts toward world peace."

Governor Vetoes Trucks Measure

AUSTIN (UPI)—Gov. Price Daniel yesterday issued his first veto of the 57th Legislature on a bill which would have exempted some 16,500 commercial trucks from present registration fees and brake laws.

Daniel said the loss in revenue from lower or no license fees on the vehicles would have been \$2.7 million.

The bill also removed regulations for minimum brakes on the trucks, farm and oil field vehicles. Its author was Rep. Grainer McIlhenny of Wheeler.

"Although this bill passed both houses by large majorities," the governor said, "I do not believe that the membership knew or intended the drastic results which would follow from its enactment."

House Measure Would Compel Redistricting

AUSTIN (UPI)—The House today passed a proposed constitutional amendment to speed congressional redistricting after a federal census.

The measure, by Rep. Howard Green of Fort Worth, provides that if the Legislature fails to redistrict the state's congressional districts at the session immediately following the census, a special board would do the job.

Green's proposal cleared the House by a 106-39 vote and was sent to the Senate. If senators concur, the issue would be decided by a vote of the people in the next general election.

Approximately 72 per cent of the world's molybdenum is mined at Climax, Colo.

Realtor President Sees Market Shift; Cites Interest Cut

In spring, many a young man's fancy turns to buying a house, and members of the Pampa Real Estate Board can be of particular assistance to both seekers and sellers this year in view of the shifts in the market, Jim Dailey, president of the board, said today.

"Real estate activity in Pampa this spring is expected to be greater than it has been in past months because of this natural revival of interest and because of recent developments which have eased the mortgage market," Dailey said.

He pointed out that Federal Housing Administration - insured mortgage interest rates were cut from 5 1/2 to 5 per cent in early February, and that a campaign is currently under way by the government for a lowering of interest rates on conventional home mortgages, a trend which he said had already started before the federal action, as availability of mortgage funds increased.

"As professionals in their field, realtors can be of tremendous service to home buyers by helping them obtain the best loan terms available in our area," Dailey said. "Realtors keep up-to-date on all national and local developments concerning real estate and are able to offer expert financing advice to their clients."

Dailey pointed out that realtors can also save time for a person wanting to buy a house. "Realtors can show the buyer properties that meet his needs from a selected list of homes the Realtor has available at all times. He can arrange appointments for the buyer to visit these Houses at his convenience," he said.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in repository or ointment form under the name Preparation H®. At all drug counters.

Demos Warned To Watch GOP At State Polls

AUSTIN (UPI)—The State Democratic party headquarters sent word to all party officers today to guard against Republican electioneering under the guise of poll watching.

Clyde Johnson, executive director of the State Democratic Executive Committee, charged the GOP leaders in Harris County issued "illegal electioneering instructions" to poll watchers for the April 4 special U. S. Senate election.

Johnson called Democratic attention to what he said were "flagrant violations perpetrated by

the written instructions of the Republican party in Harris county."

"These instructions clearly reveal the GOP's audacious aim to electioneer for their candidate by use of poll watchers, who are officials of the election, as political informers," Johnson said in a memorandum.

Featherbedding

What follows is reproduced from Carbine News, the publication of Union Carbide Corporation's Texas City plant:

A half-century or so ago, the story goes, mattresses in train cabooses were stuffed with corn cobs, shucks, and cotton seed hulls. When Rock Island's railroad men complained about the lumpy mattresses, the trainmaster replied, "What do you want, featherbeds?"

That was the start of the term "featherbedding." Today the term has permeated just about every American industry and has been the cause of many a strife between labor and management.

According to Webster, featherbedding today means "to require unneeded workmen or the slowing up of work under a featherbed rule." Oddly enough, the industry which initiated the phrase in the early 1900's seems to be the one which is plagued with the most featherbedding 60 years later.

The American Association of Railroads estimates that featherbedding practices add a million and a half dollars each day to the cost of running the railroads. These costs come from such practices as "the requirement of firemen who tend no fires" and "requiring eight different engine crews on the 15-hour run of a famous passenger train between New York and Chicago" to name a few.

American railroads, however, are not the only sufferers from this affliction. Anyone familiar with the construction industry could detail the featherbedding in that important segment of our economy. In the entertainment business, orchestras paid for not playing, stagehands "employed"

Up Or Down

The way to freedom is a rough and nearly perpendicular road. The way to slavery is a gradual descent, paved with welfare, dogoodism, entertainment and sweet know-nothingness.

The Charges — The Facts

Vance Packard didn't start it, or this is a waste of money and but he has been one of the foremost in the nation to hurl epithets and accusation at both businessmen and consumers.

Customers, he and others chime in, are suckers. They are the victims of "Madison Avenue," the advertising slickers. They are powerless to resist the blandishments of those heartless rogues, the ad men, who can tempt into buying things they don't want and can't over their heads; and constantly divert money from its proper goal to all kinds of meaningless and "selfish" ends.

We would be quite content to let Mr. Packard go his bitter way were it not for the fact that there are thousands of government men who seem to think that Mr. Packard has come out with a new version of economic holy writ. And in this respect, something must certainly be said.

For if Mr. Packard's concept of the "waste makers" is being considered as fixed governmental policy, then Mr. Packard has been a cast in a role of economic prophet for which he is entirely unfitted.

So, let's consider some of the charges and the facts in the case.

1. CHARGE: Our ability to produce far exceeds our ability to consume. Hence, admen are called on to create spurious desires in order to move unwanted goods which have been produced.

1. FACT: Our ability to produce, the excellent, doesn't begin to equal the demand for goods and services. Ad men cannot create desire. They merely inform customers, who are already filled with desires, as to where and how those desires can be satisfied. Try to think of some one person in these United States who, at this moment, has gone so far in attaining his satisfactions that, literally, he doesn't want anything. Are you that man? Can you think of one? Actually, he doesn't exist. All of us, regardless of our station in life, want many things we don't have and will always want many things we will never have.

2. CHARGE: Advertising does not really inform. It emotionalizes, causing a person to purchase a given product from "A" rather than "B" product.

2. FACT: Government, without buying, causing a person to purchase a given product from "A" rather than "B" product.

Hankering

By HENRY McLEMORE

Picks Angels, Giants As Pennant Winners

ROME, Italy — To maintain one's membership, even an honorary one, in the Baseball Writers' Association of America, one is required to select the order of finish in both major leagues no later than two weeks after the season opens.

No one has ever made a 100 per cent correct forecast, not even the Chicago baseball writer of years ago who waited until mid-September to file his prophecy. This is not to be wondered at, for a statistician once figured out that the odds against an accurate forecast are 1 in 1,625,702,400.

Even those odds would have to be lengthened this year because the American League has increased its membership from eight to ten teams with the admittance of the Minnesota Twins and the Los Angeles Angels. The proper odds now are about 1,823,901,030.

The only hope of beating such odds as these is to throw the form book out the window with a fast overhead motion, and rely entirely on hunches, superstitions, personal bias, possible miracles, and possibly a casual study of the tide tables of the Bay of Fundy.

Certainly there is no logical reason for my selection of the Los Angeles Angels to win the American League pennant, but I pick the Angels just the same. I like the idea of their playing in Wrigley Field, which seats only 20,500, and is a cozy, intimate park.

Ballplayers are highly emotional creatures and feed off enthusiasm as much as they do chewing tobacco. In Wrigley Field the fans will be close to the players — indeed a fan in any one of certain boxes can cover first or third base in a pinch — and this closeness is bound to give the players a lift.

The Angels team is made up of cast-offs, and this is going to help them. Baseball has no fury like that of a scorned cast-off, as the old saying goes. Or should go, anyway. I like the adventurous spirit of the Angels, a spirit they displayed when they paid \$100,000 for a cast-off cast-off from the Washington Senators, one Ray Semproch. Not only a cast-off, Semproch had a sore arm, too, and in his last appearance before being bought gave up hits and runs as if he owned a factory that made them.

It matters not the order of finish behind the Angels. First place is all that counts, or did you ever try to remember the name of the SECOND man to fly from New York to Paris?

With only eight teams going, and the same ones at that, the National League is fairly simple to predict. The Giants will win the National easy. The Giants are a wide awake ball club, as was proved when members of the club were nabbed by the cops for roistering in front of a hotel at three in the morning.

No sleepheads here. The Giants obviously are a team that eats, lives, and thinks baseball, but doesn't sleep it. That's a good sign. You don't get base hits stretched out in bed.

Pittsburgh would be my choice if the Pirates weren't so confident of repeating. Confidence is a bad trait in an athletic team. I like a team that has a defeatist attitude, and thus welcomes an victory as if it were a mighty thing. A confident team is inclined to take victory in stride, and that eventually breeds complacency.

On every count the critics of businessmen and customers, including Mr. Packard, come to grief. The facts simply won't sustain them. Our free enterprise economy, so long as government can be kept out of it to at least some degree, permits the widest latitude in choice. And it is only where choices are wide that product can be varied and improved.

And thru this whole process the ad man plays a most important part.

It is probably true, however, that the problem of waste has been solved in Russia. There they have no ad men. And they have such low production that nothing is wasted.

But honestly, now, do you want to swap systems?

Pandora's Box?

ROBERT S. ALLEN

Allen - Scott Report: Atlas Skin Weakness Delaying First U.S. Orbital Space Flight

WASHINGTON — This country's globe is a lot further off than is officially scheduled.

Instead of the first U.S. global space flight taking place in November or December of this year, as stated, it is now virtually certain it will not be undertaken before spring of 1962.

Reason for this latest delay is "skin weakness" at the point where the space capsule is attached to the Atlas missile being used for this historic event.

This crucial defect caused one known failure in the three Atlas tests so far conducted in the man-in-space program. Of the other two tests, one was successful, the third partially so.

This record is deemed wholly inadequate to undertake a manned space shot.

National Aeronautics & Space Administration scientists are strenuously striving to overcome this grave flaw, and have made some progress. But not enough as yet to give any real hope of meeting the official schedule.

The "skin weakness" has no relation to the Atlas' military effectiveness.

This liquid-fuel intercontinental ballistic missile continues to be this country's principal weapon of this type. The skin defect affects only the capsule used for space flight.

Preceding the orbital attempt will be one or more sub-orbital flights in which an astronaut in a Mercury project capsule will be shot about 120 miles into space and for a distance of some 300 miles by a Redstone rocket, deemed 90 per cent reliable on the basis of numerous tests.

The first of these sub-orbital shots is slated for early May. An unmanned test this week of the Virginia coast will largely determine that.

A REVEALING DISCUSSION—Representative George Miller (D., Calif.), and James Fulton (R., Pa.) ranking members of the House Space Committee, uncovered the scientists' difficulty with the Atlas as a space vehicle.

This backstage obstacle came to light during a discussion with Dr. Hugh Dryden, Deputy Space Administrator. Miller brought up the matter.

The Nation's Press

PROTESTANT SCHOOL ENROLLMENT UP 600 PER CENT SINCE 1946 (Christian School Life)

The Flint (Michigan) Journal carried a noteworthy article by Louis Cassels, writing for the UPI (United Press International). We obtain the following information from this article:

"Americans in increasing numbers are turning to private schools for the education of their children. "Enrollment in non-Catholic private elementary and secondary schools has increased 600 per cent since the end of World War II, according to statistical records of the U.S. Office of Education.

"During the same period, Catholic school enrollment increased 110 per cent and public school enrollment 68 per cent.

In 1946 non-Catholic private schools had an enrollment of about 200,000. Today they are educating more than 1,200,000 pupils and many of these schools are swamped with more applicants than they can handle.

"What has brought about this dramatic shift in popular attitudes toward private (non-Catholic) schools?"

The UPI article thereupon lists six reasons. Briefly stated they are as follows:

1. Parents were attracted to private (non-Catholic) schools because of the relatively low teacher-student ratio that prevails in private schools.

2. The private (non-Catholic) schools do a better job of teaching basic school subjects than do the "progressive" ridden public schools.

3. Regarding their children, parents have a "got-to-get-him-into-a-good-college" complex. Hence, they send "him" to the better, that is, the private schools. (No. 3 is an implication of No. 2.)

4. In the South the actual or impending integration of public schools gave rise to private schools.

5. The rise in personal income made attendance at private schools

as would prove a reliable space vehicle, but it hasn't worked out that way. There is still much work to be done to make it so.

"Do you think that can be done?" asked Fulton.

"We certainly hope so," declared Dryden.

Certain scientists have expressed doubts to Miller and Fulton that the Atlas can be sufficiently modified for a man-in-space flight.

WHAT'S BEHIND IT — Two crucial reasons are behind Prince Souvanna Phouma's visit to Washington:

(1) To directly offset the Laotian neutralist leader's trip behind the Iron Curtain; and (2) to enable skeptical congressional leaders to confer with him and thus bolster the Kennedy Administration's backing of him.

The President and Secretary Dean Rusk have decided to support a Laotian government headed by Souvanna Phouma, who was deposed as Prime Minister by the strongly pro-Western forces favored by the Eisenhower regime. The Kennedy policy follows that advocated by Britain and India, which contend Souvanna Phouma is genuinely neutralist.

Looking Sideways

NEW YORK—Leafing through a calendar the other day it suddenly came to me that George Washington and Abraham Lincoln are the only Presidents of the United States whose birthdays are nationally observed and, in the latter case, there are areas in the South where the Lincoln anniversary is not observed. There is a quasi observance on Jan. 30 of Franklin D. Roosevelt's birthday through the March of Dimes campaign against polio, but it is not a nationally designated event.

Which brings me to today—April 13—the birthday of a former President who well merits such attention. His name — Thomas Jefferson.

It is no secret to those who have followed this column for any time that Mr. Jefferson is a sort of personal hero with me, a learned, sage and brilliant man who wrote the Declaration of Independence, among other major accomplishments and my admiration for this fastidious intellectual has utterly no bearing on his politics. He simply means to me one of the great Americans of all time and to this day I cannot walk through his beautiful Monticello without a surge of real emotion.

There he left his imprint, deep and lasting. From the smallest architectural detail to a device for keeping dates, to a bed that disappears on pulleys to the windows, the rooms, the cooling tunnels beneath the house. Everything has the stamp of a human mind swiftly and imaginatively at work.

But there are the small aspects. Down the hill, just off the road, is a burial ground and a stone there bears the simple epitaph which, perhaps, I cannot at the moment quote with exactness, but I'll try:

President of the United States Author of the Declaration of Independence Founder of the University of Virginia

It may be Father of the University of Virginia, but I think Founder is correct.

In those three things alone, if you think about them, he has claim on our lasting admiration and respect. It was a singular career. No other man in American history, as they say in the radio and TV commercials, can make this claim. No other man did exactly those three things.

If one reads, Jefferson, one learns the depth of his mind and the width of his human compassion. One learns the passion of love for the young country he helped to establish and which he guided in perilous and threatening times. He had even then opinions about his fellow countrymen, not all of them good. He understood even then that many Americans would never really appreciate the free country that was theirs and the manifold freedoms that went with it.

There is in Union Square in New York a neglected and somewhat forgotten station of Jefferson and his admittance to Americans is at the base of it. It begins, "If my countrymen only knew..." He wrote that to try and make them know, he spoke to impress on them what a gift had come to them.

It is not to diminish Washington or Lincoln when I suggest that the Jefferson Memorial in Washington, as beautiful as it is and almost alongside that other magnificent memorial, the one to Lincoln, is not quite enough. It seems to me that we could name one more day for one more President as an observance day and that would be Jefferson's birthday.

It is perfectly apparent that this fugitive piece is not going to move the Congress to declare April 13 a national holiday, with banks closed and schools out. And yet, across the whole roster of Presidents who have been, I cannot find one more justifiably deserving of such honor and neither is there one more likely to appeal to the populace for this honor.

In an atmosphere of love and confidence, communism will wither and fade away from lack of the nourishment of fear and hate necessary for its survival, and freedom will reign victorious as has always been the case in the United States.

In the words of Franklin D. Roosevelt, "We have nothing to fear but fear itself."

Clearing House

Articles for this column are preferred to be 300 words or less in length. However, longer articles may be printed. All letters must be signed.

Editor:

Fear, the most destructive emotion to which man can succumb, seems to be on the loose and stalking about our city, accosting our own citizens. How tragic!

The Doctor Says:

DR. HAROLD T. HYMAN

From the increasing numbers of inquiries received, it is apparent that the public is becoming increasingly disturbed over the uses and abuses of barbiturates and other hypnotics, tranquilizers and narcotics. Can they do harm? Are they habit-forming? How long can they be taken before they are habit-forming?

Let me begin by stating that each of these medications has its uses. Particularly in our "Age of Anxiety," it would be difficult to get along without daytime sedatives and tranquilizers, sleeping medicines and, for blessed pain relief, the narcotics.

Thanks to tranquilizers the hospital care of many of the mentally disturbed has been enormously simplified. And thanks to them, too, many of the mentally disturbed who were formerly confined to institutions now are able to live at home and in some instances contribute to the care and upkeep of the household.

The oracles of terminal cancer may be eased both for the afflicted and for loved ones in attendance. Each of these classes of drugs is a palliative, that is to say, it gives relief, not cure.

Each produced undesirable side reactions as do all other powerful drugs. Each may be abused as is true of all other contributions to the business of living in a complex society. And each, I regret to say, is habit-forming.

According to the definition of the World Health Organization, a habit-forming drug has these characteristics: It causes a need for compulsion for continued administration. It produces a need for increasing doses. It gives rise to a dependence on its effects, whether this dependence is truly physical or merely psychological. And, it produces "withdrawal symptoms" when its use is interrupted.

Now addiction varies in degree. I would judge that the tranquilizers are least apt to be habit-forming, the narcotics most and the barbiturates somewhere in between. Thus a relatively few doses of a narcotic might suffice to produce the characteristics laid down by WHO. Perhaps several times as many would suffice for the barbiturates. And perhaps another few times for the tranquilizers.

The risks of side effects and habit formation are also variables. In the case of a cancer victim, almost any risk of narcotic addiction is justifiable. In the case of an acutely agitated, otherwise uncontrollable person with a mental disturbance or of a patient with a reasonably long standing and incapacitating mental illness, again the risks of addiction and side reactions to sedatives and tranquilizers are justified.

But what is unjustified is the abuse of these useful drugs by those whose complaints are of minor importance, who insist on their use as crutches because they are unwilling to exercise will power and self-restraint and who insist on their continued use beyond the period of need, that is to say, in my opinion, beyond the period of a few days to a few weeks.

To have pretty hands, give them daily care. If brittle or split, take an envelope per day of unflavored gelatin in fruit or vegetable juice (left). Remember, your hands are always on display (center). And it takes more than a weekly manicure to keep them lovely. Use a buffer (right) to improve circulation and make your nails pinker and healthier. Buff in one direction only. And, of course, you must make nightly use of a hand lotion.

Missionary Union Meets At Lefors

LEFORS (Spl) — Women's Missionary Union met at the Baptist Church, Tuesday, April 11, for a business meeting and luncheon, a monthly affair for all circles.

Reports were given by the Mission Study committee; Program Chairman; Stewardship chairman; community missions chairman; Secretary, and Treasurer.

Attending were Meses. A. L. Michael, W. B. Minter, Joe Archer, Ira Rogers, Floyd Chitwood, Odell Cain, Walter Jackson, J. D. Halley, Roy Howard, B. J. Spradlin, H. L. Harrington, Thompson, Joe McCartney, Wendell Akin, R. N. Cypert, C. H. Butrum, J. B. Horn, Cleo Coffee, J. V. Guthrie, Anna Payne, Robert Vought, Johnny Taylor, L. M. Berry, and O. C. Mills.

Mission Book Study Comprises Agenda Of First Baptist Meets

Women's Missionary Union of the First Baptist Church held Bible study meetings this past week in the homes of members with the following reports:

ANNE MITCHELL CIRCLE met in the home of Mrs. G. L. Wilson with Mrs. Floyd Barrett offering opening prayer. The business session was conducted by Mrs. Mike Porter. A chapter from the mission book entitled "Intercessory Prayer" was taught by Mrs. Walter Roush. Mrs. Wallace Jouett led in closing prayer. Six members were present.

KEZIA MAE SERIGHT CIRCLE met with Mrs. Earl Barnett with Mrs. C. L. McKinney opening the business session with prayer. Mrs. A. Prigmore led the mission study on "Intercessory Prayer". Members attending were Meses. E. H. Ousley Jr., J. M. Wagner, Alvie French, Wood Osborn, L. H. Green, S. B. Spert, T. V. Lane.

Another circle met in the home of Mrs. G. E. Groniger with Mrs. Lamon Stovall offering opening prayer. Mrs. Groninger conducted the business meeting. Mrs. C. F.

Women's Hands Show Pride Or Indifference

A woman's hands show clearly how much pride she takes in herself and how important good grooming really is to her. Yet some of us are shockingly indifferent to their appearance.

Hand care requires less effort, time and money than any other beauty chore. Still, many a confirmed bachelor has been lured to the altar by a pair of pretty hands. Healthy, well-kept nails contribute considerably to hand beauty. Yet the manicurists at a leading New York beauty salon admit that the most common complaint made

to them concerns brittle, cracked nails.

There is a way to correct this condition in most cases. Daily envelope amounts of unflavored gelatin can improve them, if you have the patience to continue the treatment for at least three months. This is the length of time it takes for new nails to grow. Be sure to take the full envelope amount daily. Lesser quantities are absorbed into the body with little benefit to the nails.

Examine your nail daily. Chipped polish is an eyesore, and should be repaired whenever necessary. Of course, nails should be carefully manicured once a week.

Many of us feel the buffer is something out of an outdated manicure set and seldom use that helpful tool. When nails have little natural color, chances are circulation is poor. That's where the buffer is a good friend to have around.

Buff the nails briskly to restore circulation underneath and make the nail pinker. Buff in one direction only, for back and forth friction can cause the nail to erode. Hands should be kept scrupulously clean, and a halfhearted dunking in water won't do the job. At least once daily use warm water, soap and a nail brush. When you dry your hands, press

the cuticle with the towel. Dry them thoroughly, too, for damp hands chap readily.

Use a small amount of lotion each time you wash your hands and smooth it in well, working on each finger as though you were trying on a glove. If the skin is dry or chapped, leave on a generous amount of hand cream at night, more than the skin can absorb. Wear a pair of clean gloves to bed, and you'll be amazed at how soft your hands are in the morning.

Calluses also can be removed, use a damp pumice stone if soft circular motions each day until the callus disappears.

Learn to use your hands gracefully and, above all, avoid nervous gestures such as tabledrumming, hair patting a ring twisting.

Don't despair if your hands are not slender and beautifully shaped. For the sign of a lovely hand is not its shape, but its softness and grace of movement.

Dear Abby... More Pointers On The Pointed Toe

ABIGAIL VAN BUREN

DEAR REEADERS: Recently stated that those hideous, uncomfortable, dangerous, pointed-toe shoes that have been forced on the modern woman in the name of "fashion" were designed by men who hated women. Furthermore, I invited readers who felt as I did to send their letters of complaint to this column. I promised to send them to the National Shoe Manufacturers' Association, hoping to provoke them into giving us sensible, comfortable, beautiful footwear again. Printed below are a few of the thousands of letters I received.

DEAR ABBY: I am a 94-year-old retired shoe wholesaler and, in my opinion, the shoe manufacturers are losing their marbles. I have seen many styles come and go, but never have I seen such impossible shoes for women! They are destroying their feet. I cannot for the life of me understand how the shoe people stay in business. W. A. W. (PORTSMOUTH, OHIO)

DEAR ABBY: When a woman didn't like the sack dress, she could whip up one more to her liking. But she can't make her own shoes. It does no good to buy them a size larger (as shoe salesmen suggest) because the weight of her body thrusts her foot forward, and it is ultimately forced into that treacherous little triangle. When a woman suffers from corns, bunions and ingrown toenails, her general health is impaired. I think you should appeal to Secretary Ribicoff, since the condition of our women's feet directly affects the health and welfare of our nation. CONCERNED FROM ST. LOUIS

DEAR ABBY: I wonder how many women have tried to kneel in church with those pointed-toe shoes and sharp, steel-tipped heels?

KATIE FROMBOSTON

DEAR ABBY: You may as well save your energy because you will get nowhere in your crusade to rid the market of those ugly, uncomfortable atrocities they are selling for ladies' shoes. The reason is this: Ninety-five per cent of the women would wear rings through their noses if they read it was in style.

MAN-ON-THE-SIDELINES IN PHILLY

DEAR ABBY: I could just whg your neck for starting a crusade for sensible shoes for women. I have fought with shoe salesmen all the way from Orlando, Florida, to Seattle and they all tell me how "comfortable" the new shoes are. I would like to give them all a good swift kick with that "comfortable" pointed toe.

NOT BUYING FROM FLORIDA

DEAR ABBY: I am with you 100 per cent in your crusade against those horrible shoes for women. I recently saw a bride catch the thin, steel-tipped heel of her shoe in her lace wedding gown while she was cutting the wedding cake, and she almost cut her finger off.

M. W. (DENVER, COLO.)

DEAR ABBY: Have you ever noticed how a MAN'S shoe is shaped? Just like a man's FOOT, of course. Why, then, must ladies' shoes look as though they are ready for the ski slopes? Nobody hates the new ladies' shoes more than I, and I refuse to buy shoes until the manufacturers regain their senses.

STUBBORN FROM CHI.

DEAR ABBY: You deserve a gold medal for trying to get decent footwear for women. I am 72

and have lived through the pointed-toe shoe era of the "Gay Nineties." My feet were badly crippled from the shoes I wore then. And now when I see the same thing happening to my beautiful teen-aged granddaughters, I want to cry.

GRANNY FROM TYLER

DEAR ABBY: I am deeply moved by your diatribes on the issue of pointed-toe shoes. I am a designer-retailer of women's shoes and must assume my share of the responsibility for the diabolical machinations you accused us of. We are just trying to fit your feet, enhance your beauty and make an honest buck. Is this the gratitude we get for such lofty motives? Let me say that when you women stop BUYING them, we will stop SELLING them.

HONEST SHOE MAN

Yes, Abby will answer your letter personally if you write to ABBY, Box 3365, Beverly Hills, Calif., and enclose a stamped, self-addressed envelope.

CAN'T AVOID TRAPS

BOWLING GREEN, Ohio (UPI) —There's a sign on Rollie Brescoll's front lawn along U.S. 25 saying "City officials operating speed trap ahead."

The reverse of the sign says: "You have just passed a speed trap. Hope you were lucky." Brescoll has not been lucky. He has received three speeding tickets in four months.

New Record Foreseen

Three Crack Runners In Boston Marathon

BOSTON (UPI) — A record performance is considered a definite possibility in today's 65th annual Boston A.A. Marathon that gets underway at noon in suburban Hopkinton.

The weatherman has promised "a pretty good day" with the temperature about 50 degrees. Gentle winds from the north to northeast should help the runners on their 26-mile, 385-yard trek to the Exeter street finish line in Boston's Back Bay.

The three favorites—Finn Eino Oksanen, 29, and Olavi Manninen, 32, and school teacher Johnny Kelley, 30, of Groton, Conn.—all prefer to run in cool weather. Heat has bothered all three in the past.

Oksanen, a detective in the Hel-

LARRY STROUD
... gets lone RBI

By ARTHUR MAYHEW
Daily News, Sports Editor
Pampa's Harvesters, thanks to a timely blow by Keith Gregory and a two-hit shutout by calm Mike Clark, ended a four-game losing streak yesterday afternoon at Harvester Park by blanking Amarillo's once-potent Sandies 1-0 in a District 3-4A battle.

The victory was the third in eight outings for Pampa and set them up for a two-day, three-game invasion of Lubbock this weekend where it will play Lubbock Friday and league-leading Monterey in a double header Saturday.

Yesterday's close-fought game was strictly for pitchers as Pampa could manage two hits,

but the Harvesters got more mileage out of their pair, both for extra bases.

The first came in the second inning when John Arthur led off with a hard-hit double to centerfield but was thrown out at third as he attempted to leg his two-bagger into a triple.

Pampa's lone run came in the fourth inning as Gregory stepped into a 1-1 pitch and laced it deep into the leftfield corner past Amarillo's Gay Smith who made a belated try for a shoestring catch. Gregory trotted home with the game's only run a moment later as Larry Stroud hit the first pitch for a sacrifice fly to centerfield.

Amarillo looked tough in the first inning when Greg Dye led off with a single over second and then Allan Lyons walked to put two on before Clark bore down and retired the next three men in order.

In fact, Clark retired 14 men in order before allowing one of his two walks, this one to Mike Dewlen.

Clark then retired seven out of the last eight men he faced — including the last four in a row — with the only man to reach base being Wakely Northcutt who basted a ground-rule double in the sixth inning that missed being a home run by scant inches.

Gregory was the only Pampa man to reach third, although Butch Crossland reached second in the first inning on a walk and fielder's choice and Roy Don Stewart, c.

Owens, rf. Clark, p. Cullender, 2b. Score by innings: Amarillo 000 000 0-0 2 1 Pampa 000 100 x-1 2 0 E — Dye; 3b — Gregory; 2b — Arthur, Northcutt; SB — Stephens; SF — Stroud; PO-A — Amarillo 18-6, Pampa 21-3; Left — Pampa 3, Amarillo 3.

Dale Luke, who also lost the first game to Pampa, was handed the narrow loss despite his two-hit effort in which he walked but two and struck out five.

GAME NOTES — Butch Crossland missed a home run in the sixth inning by the narrowest of margins when Amarillo leftfielder Gay Smith went back against the fence to haul down a drive that seemed long gone.

Yesterday's game lasted a fast one hour and 25 minutes, the second shortest game this year, the other coming in another 1-0 game, this one won by Plainview, which was run off in one hour and 15 minutes.

TEXAS GETS HOTSHOT
AUSTIN (UPI) — Charles Dishman, who in two years scored 1,024 points playing basketball at Midland High School, will attend the University of Texas, coach Harold Bradley announced Tuesday.

Charnley Scares Champion

Brown Barely Retains Crown In Rough Fight

LONDON (UPI) — Joe Brown, the world lightweight champion, today nursed a sore right hand and added respect for England's Dave Charnley.

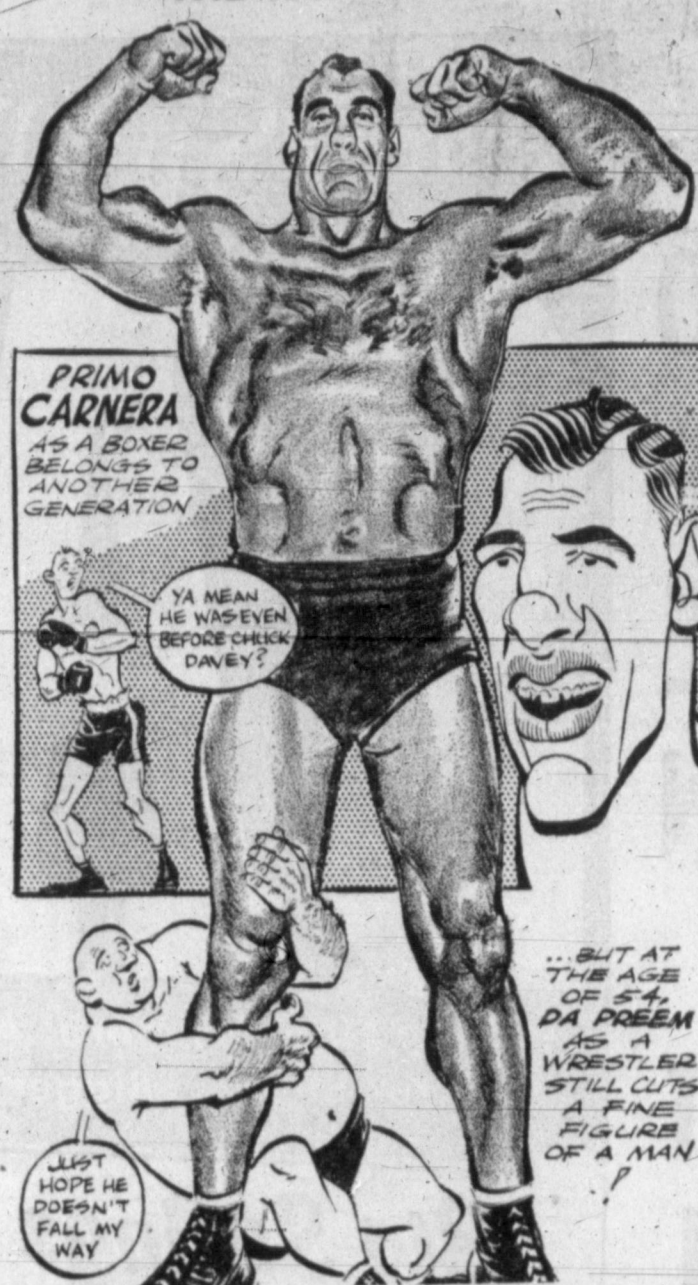

The 35-year-old titleholder from Houston, Tex., narrowly retained his crown by outpointing Charnley in their return "15-rounder" Tuesday night before a capacity crowd of 18,000 which booed Brown for several minutes when the decision was announced.

Brown stopped Charnley in five rounds in their first title brawl gamely for a knockout and did in Houston in 1959 and was a 7-4 stagger the champion twice in the favorite for their rematch. But 13th and 14th rounds.

this time, Joltin Joe found Charnley a much stronger opponent. He hurt his right hand with a solid poke that opened a cut on the Englishman's nose in the fifth round and then had to weather an all-out rally by Charnley in the final three rounds.

Charnley, who weighed a half-pound more than Brown at 134½, put up a courageous fight although he was bothered "quite a bit" by blood flowing from his damaged nose. As the battle neared its finish, Dave tried a knockdown and did not get up. Brown stopped Charnley in five rounds in their first title brawl gamely for a knockout and did in Houston in 1959 and was a 7-4 stagger the champion twice in the favorite for their rematch. But 13th and 14th rounds.

you can't tell a tire by its price tag!

Do you know what those \$10, \$11, \$12 nylon tires are really worth?

The best way for you to find out what a tire is really worth? Use it. But then it may be too late. How can you find out before you buy? The price tag won't tell you. There are so-called "bargain" tires, "cheapie" tires, "discount" tires and other tires you've never heard of. Most of them have one thing in common: They do a lot of shouting about price. But there's a big difference in what goes into them, as compared to a Goodyear tire. We took nine "bargain" nylon cord tires priced at \$10, \$11, \$12 or more to the lab for analysis and matched them to our \$12.88 3-T Nylon All-Weather.

What a difference! The Goodyear tire had a 23.2% stronger tire body than the average rating of the rest. And the tread strength rating of our 3-T Nylon All-Weather was also actually greater than the average of the others.

Price tags never tell the full story! Get a genuine Goodyear tire. A Turnpike-Proved tire. It costs no more than "bargain" tires.

3-T Nylon All-Weather \$12.88
6.70 x 15 black tube-type, plus tax and any old tire off your car.

Goodyear nation-wide guarantee

1. ROAD HAZARD GUARANTEE—All new Goodyear automobile tires are guaranteed by written certificate against normal Road Hazards—i.e. blowouts, fabric breaks, cuts—except repairable punctures. Guarantee limited to original owner for number of months specified.
2. LIFETIME GUARANTEE—All Goodyear tires are guaranteed against any defects in workmanship and material without limit as to time or mileage. Remember, any Goodyear tire dealer (in all 50 states, there are over 60,000 of them) will repair your tire without charge, or make an allowance toward the purchase of a new tire, based on the original tread depth remaining and the current "Goodyear Price."

Purkey Hurls Reds Into NL's Top Spot

Dodgers Edge Cardinals In Homer Battle

By United Press International
 Manager Walt Alton is discovering that his Los Angeles Dodgers have plenty of muscle to go with their hustle.
 Lack of long ball strength was the weakness that Alton feared would be the Dodgers' No. 1 problem this season but the evidence of the first week of the National League campaign is that Los Angeles has surprising punch to go with its speed and pitching. In eight games they've hit a total of 11 homers and they've been distributed liberally throughout the lineup.
 The Dodgers won a battle of homers Tuesday night when they downed the St. Louis Cardinals, 5-4, and enabled the Cincinnati Reds to take over first place via their 9-1 shellacking of the San Francisco Giants. The Pittsburgh Pirates beat the Chicago Cubs, 5-3, and the Minnesota Twins topped the Boston Red Sox, 3-2, for their fifth win in six games in the only other major league action.
 Frank Howard smashed a two-run homer and Johnny Roseboro and Wally Moon also homered to account for four of the Dodgers' five runs. The blows of set somewhat shaky Los Angeles pitching in addition to two homers by St. Louis' Ken Boyer.
 Roger Craig received credit for the Dodgers' fourth victory in eight games although he was followed to the mound by ookies Jim Golden and Bob Ferranowski. Per the Reds went into first place behind a six-hit pitching performance by Bob Purkey, who raised his lifetime advantage over the Giants to 13-8. Purkey, winning his second game of the young season, struck out four and walked only three. His bid for a shutout was ruined in the seventh inning when Willie Mays hit his second homer of the year.

DUKE SNIDER ... hurler 'crowns' Duke

PWBA Ready For Banquet

Pampa's Woman's Bowling Assn. will hold its annual meeting and banquet at 7 p.m. today in the Pampa High School Cafeteria.
 The banquet will start at 7 p.m. and will be followed by the business meeting at 8 p.m. at which time officers for next year will be elected. As a highlight to the business meeting, trophies and award money will be presented to winners of the recently concluded woman's city bowling tournament.

For At Least A Month

Broken Elbow Sends Snider To Sideline

LOS ANGELES (UPI) — Manager Walt Alton turned to his bench today to replace veteran Duke Snider in the Los Angeles Dodgers' lineup until the famed slugger recovers from a broken right elbow.
 The Dodgers' manager termed Snider's loss for at least a month a serious blow to the team picked in a United Press International poll as the club most likely to win the National League pennant.
 A temporary blow came in the announcement second baseman Charlie Neal would be sidelined three or four days with a bad left knee.
 Snider was hit on the elbow with a pitched ball thrown by St. Louis hurler Bob Gibson Monday night. Although he suffered the injury in the fifth inning, Snider continued in the game for two more innings before he reported his elbow was starting to stiffen.
 It was not until Tuesday morning when Dr. Robert Kerlan X-rayed the elbow that the fracture was discovered.
 The orthopedic specialist said the earliest Snider could start

DEFINITELY — Umpire Shag Crawford makes it clear that Hank Aaron of the Braves is out at the plate attempting to score as the St. Louis third baseman, Ken Boyer, threw out Frank Bolling at first base and then relayed the throw home. Hal Smith makes the tag at Milwaukee's County Stadium as Solly Hemus, Card manager, watches.

Sports In Brief

U.S. Cagers Grounded

NEW YORK (UPI) — A group of 21 United States men and women basketball players and officials, scheduled to leave on a three-week exhibition tour of Russia Tuesday, will remain in New York for a "few days" at the request of the Soviet Basketball Federation.
 According to Dan Ferris, honorary secretary of the Amateur Athletic Union, which is sponsoring the tour, the Soviet Basketball Federation made the request for postponement Tuesday through the Soviet Embassy in Washington because of anti-American demonstrations in Moscow.

Gold Soxers Topple Tulsa

By United Press International
 Catcher Jim Hay beited his second homer of the young Texas League season Tuesday night with two aboard to spark a five-run rally that carried Austin to its first victory, a 6-2 decision over league leading San Antonio.

Amarillo pounded four Tulsa pitchers for 14 hits and a 10-2 victory with outfielder Jack Davis leading the parade at the plate with a pair of homers good for four runs. Glen Merkle also homered for the Sox.

Pigeon Racers Set 4th Race

The Top-O-Texas Racing Pigeon Club, hoping for better weather this weekend, will stage its fourth race of the season Saturday from Houston to Pampa, a distance of 500 air miles.
 Last weekend's race was marred by race-slowing winds of between 30 and 40 miles per hour at Dallas, the point of release. The 30 pigeons were released at 8:30 a.m. Saturday and it wasn't until 6:40 a.m. Sunday that the first, Walter Thomas' Red Check Hen, was clocked in, besting Jerry Bonsel's Blue Check Hen by some 20 yards per minute.
 The complete unofficial results of the flight from Dallas were:
 1. Walter Thoms, 732.60 YPM
 2. Jerry Bonsel, 712.53 YPM
 3. Jim Cantrell, 666.44 YPM
 4. Bazel Pettit, 662.69 YPM
 5. Bill Dycus, 618.23 YPM
 6. Buddy Epperson, 494.56 YPM

Fishing Notes

Fishing activity continues to warm up along with the weather as Pampa and area fishermen hit the lakes in increasing numbers.
 At Fox Hollow camp at Possum Kingdom, Cleo Bowlin and G. L. Sheehan of Pampa caught 33 black bass up to 6 pounds using lures while Max Clark of Perryton, fishing out of Rock Creek camp at Possum Kingdom got 50 channel cat on troutlines with out bait.
 Nearer to Pampa, Mrs. W. I. Gilbert, 716 E. Browning, caught a 23" channel cat weighing 8 1/2 pounds casting with minnows at Lake McClellan.

Look what's new since you last looked at Falcon

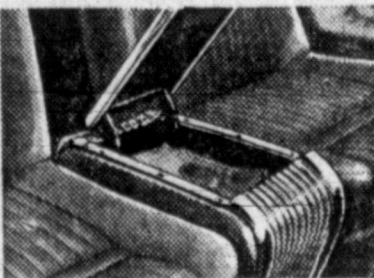

new Falcon Futura by Ford

COMPACT COUSIN OF THE THUNDERBIRD

This week, something new and wonderful stands out in your Ford Dealer's showroom. It's the Falcon Futura, new luxury version of America's favorite compact — an exciting, new personal car! Try the comfort of custom-contoured twin front seats — take in the gleaming trim, the glowing colors, the deep wall-to-wall carpeting. And notice the custom console for personal effects... right at your finger tips — between the front seats. Only the men who designed Thunderbird could have created this masterpiece.

Economy where it counts! For all its elegance, Futura never forgets its Falcon breeding. Its engine is the famous Falcon Six, that proved its economy when a Falcon with standard transmission obtained 32.68 miles per gallon in this year's Mobilgas Economy Run... the best gas mileage ever obtained by a 6- or 8-cylinder car in the 25-year history of the Run! For those who are more performance-minded, Futura also offers a zesty, new 170 Special engine.

Priced where you want it! The new Falcon Futura gives you all these luxurious features... yet it's priced *well below* other luxury compacts — even below some standard compacts! Who could ask for anything more? The new Falcon Futura is at your Ford Dealer's now. Look it over — and look out for your heart!

Stock New Custom Console... between Futura's individually contoured front seats, provides finger-tip storage for personal effects.

*Based on a comparison of manufacturers' suggested retail delivered prices

Wyoming Missile Base Ready To Start Firing

CHEYENNE, Wyo. (UPI)—On a windy mesa north of here, a range country desolate as great parts of the world will be if the "birds" ever start flying, sprouts one of America's operational missile sites.

Inside thick concrete huts the gleaming stainless steel Atlas missiles rest on their side, the nuclear warheads screwed in place.

If your security clearance is sufficient — and if you have the desire — you can reach up and pat the war head. It is far more potent than the bomb which killed 78,000 at Hiroshima.

A couple hundred yards away, in another concrete bunker, an Air Force captain and a lieutenant, pistols strapped to their waists, sit behind panels where the pressing of a grey "start" button can send these monsters on a half-hour, 6,000-mile trip into enemy territory.

At this base they are ready day and night, to start shooting from six pads.

If war with Soviet Russia ever comes and that button is pressed,

Evening Optimist Elects Officers

John Phare was elected president of the Evening Optimist Club for the coming year at the club's regular weekly meeting Monday night.

In other elections Bill Brady and Bill Jenkins were elected vice presidents. Named to the board of directors were Cliff Davenport, James Scott, Melton Burns and Tom Glover.

Lindy Houck was a guest at Monday's meeting.

Band At McLean Gets Two Awards

MCLEAN (Sp) — The McLean High School band were awarded two first division ratings in the Region 11, Interscholastic League Band Festival in Canyon recently.

Region bands in competition were from class CC to AAAA schools.

Jim Boyd, director of music in the McLean schools reported the one-division ratings were the highest the school band had ever been awarded.

the handful of soldiers at Warren Air Force Missile Squadron No. 1 will not know what targets they shot at.

And they probably would never find out if they hit. For this lonely outpost would be a prime target of Communist rockets.

It is a fearsome duty. The missilemen have, as their sole professional reason for being, a job they hope to God they never have to do.

The deadly seriousness of a "missile gap" strikes home after a visit to this base.

A year ago it was still in construction. The only intercontinental ballistic missiles in operational readiness were three Atlas rockets standing in vulnerable exposure in gantries along the Pacific at Vandenberg Air Force Base in California.

Khrushchev passed them less than a quarter-mile distant in his train trip up the West Coast in 1959. He may have been amused, because his Soviet Union had far more.

What Russia did not have was the enormous nuclear bomber force of the Strategic Air Command. And not having such a force, Russia had pushed with tremendous emphasis on missiles until the peril to America became evident to even the most dense.

Since that time, just a year ago, U.S. missile sites have begun to sprout across the entire western half of the continent.

Besides the six pads at this base, there are nine at Warren II now operational. Nine more were turned over to SAC less than three weeks ago around Omaha. There are at least three new Atlas pads at Vandenberg.

So today the United States has at least 30 operational missile launching pads where a year ago it had three.

But this is only the tiniest beginning. The Air Force is building a missile network so staggering in size and cost that it dwarfs any previous military crash program in history.

All but one of the 14 Atlas complexes will be west of the Mississippi. They will be in California, Wyoming, Nebraska, Washington, Kansas, Oklahoma, Texas, New Mexico and New York.

They must be widely dispersed. One single complex nearing completion embraces an area bigger than Connecticut.

At the same time another gigantic program is underway on Titan — the second liquid-fuel missile capable of hitting Russia.

And just getting underway is the biggest program of all — the cheaper, smaller, solid-fuel Minuteman ICBM. Each of its pads requires less than an acre of ground but it will be sprinkled over the nation down in silos.

It is estimated that by 1965 the United States may have 1,300 missile sites.

By then the missile gap — if it exists — may have disappeared. But will Russia wait for that? That is why the next few years are so critical.

One startling fact is that none of these missiles will ever be fired in test. The one and only time they will go into flight will be the day World War III begins. The only exceptions are the test facilities at Vandenberg and Cape Canaveral.

The commanding SAC officer at Warren No. 1 is Col. Julius Pickoff, a big ruddy-faced Texan with a soft voice and ever-present cigar.

TWO CONVENIENT LOCATIONS — You'll find shopping a pleasure at B & B Pharmacies, the friendly neighborhood drug stores. Now at two locations to serve you. No. 1 at Ballard and Browning and No. 2 located at 403 S. Cuyler. B & B also has a complete fountain to supply lunches, quick sandwiches and fountain delectables. Enjoy the facilities of B & B Pharmacies from 8 a.m. to 10 p.m. daily and Sunday. And don't forget B & B Toyland, right next door to No. 1 on Ballard. Here you will find a complete line of toys and games.

B & B Pharmacies, Neighborhood Drug Stores, Always Dependable

It's spring — the season you depend on B & B Pharmacies just as you do the rest of the year.

B & B is the friendly neighborhood drug store with two convenient locations — No. 1, Ballard at Browning and No. 2 at 403 S. Cuyler.

Prescriptions
Call on the B & B pharmacies for your prescriptions where highly skilled, experienced, registered pharmacists are on duty at all store hours. Both pharmacies are open daily and Sunday from 8 a.m. to 10 p.m. ready to fill your prescriptions promptly with special care.

And have B & B deliver your prescriptions by the free city-wide delivery service. Just call MO 5-7888 at No. 1 or MO 4-8424 for No. 2.

Redemption Center
B & B No. 1, Ballard at Browning is the redemption center for Pampa Progress Stamps which you receive with each purchase. The No. 2 store, 403 S. Cuyler offers Buccaneer Stamps on every purchase.

Each spring the warm weather and strong breezes come to Pampa so make sure you have the right cosmetics to protect your skin against both the warmer rays of the sun and the wind.

Come in to see the famous Francis Denney cosmetics, exclusively at B & B Pharmacies; the well known Revlon cosmetics, and the Nina Ricci and Angelique perfumes exclusively at B & B in Pampa.

Consult Mrs. Emma Olsen at No. 1, B & B's cosmetician. She can help you select just the right shades and the right tones for your skin. Mrs. Olsen's skill and training can help you to enhance your beauty with subtle touches of cosmetics.

Let her explain how easily you can use Francis Denney Viva Cream. You will love it.

You will like the scents of the nationally known perfumes and colognes you can find at both B & B.

Long Shark' Bill May Be Revamped

AUSTIN (UPI)—The anti-loan shark bill passed by the Texas House may be overhauled by the Senate State Affairs Committee before it is put up for final action in the upper chamber.

Several committee members said they wanted to amend parts of the proposed small loan regulation act.

The committee heard an hour of testimony on the bill Monday, then recessed the hearing until Wednesday afternoon.

Mann Confirmed As Ambassador

WASHINGTON (UPI)—Thomas C. Mann of Laredo, Tex., was approved without opposition Monday as ambassador to Mexico by the Senate Foreign Relations Committee.

Mann, now assistant secretary of state for Inter-American affairs, was among eight of President Kennedy's diplomatic nominations approved.

Mrs. Madge Hankins, City CONGRATULATIONS
To Mr. and Mrs. Philip Meek, 1109 E. Foster, on the birth of a girl at 3:59 p.m. weighing 9 lbs. 5 oz.

To Mr. and Mrs. Freddie Betchan, 324 N. Sumner, on the birth of a boy at 5:36 p.m. weighing 6 lbs. 9 oz.

There are more than 1,300 mountains over 10,000 feet high in Colorado.
