House Passes \$2.5 Billion For State Spending

AUSTIN (UPI) — Fast House action on a record \$2.5 billion budget bill had many Texas lawmakers believing today they can finish their work by the May 29 deadline and avoid a special session.

The House gave overwhelming voice vote final passage to the bill yesterday. The measure was a substitute for a bill passed earlier by the Senate.

Former Pampa News Reporter Freed In Cuba

The U.S. State Department has announced in Washington that Bob Perez, former reporter for the Pampa News, has been released by Fidel Castro's Cuban government after being arrested last week and jailed for six days.

Perez, now employed as a broadcaster for Mutual Broadcasting Co., was a city hall and general assignment reporter for The News from August of 1956 through June of 1957. His home was in Long Island, N.Y.

Former Pampa News Reporter Freed In Cuba

The ex-Pampan was arrested in Havana along with five other American newsmen Monday April 17.

Press Officer Lincoln White said in Washington today that the State Department as yet had no details on Perez' arrest concerning charges, if any, against him at the time he was taken into custody.

In New York today Henry Raymond, head of the United Press International staff in Havana, who was one of the newsmen arrested, said he was jailed on charges of being a U.S. agent. His arrest came only minutes after he had phoned to UPI in New York that reports of an invasion were circulating in Havana. The other five newsmen, including Perez, were picked up the same day.

Release of the newsmen came a few days after Castro's proud announcement of victory over the rebel invaders last Thursday.

Perez has been working as a Mutual news correspondent in Cuba ever since Castro came into power.

Death Takes Wife Soon After Her Husband Collapses

SAN ANTONIO (UPI) — Arthur Payne, 41, hadn't been feeling well so his wife, Eloise, took him to see a doctor.

They drove from their home in Brackettville Wednesday to San Antonio.

As they crossed a downtown intersection Payne collapsed. He was rushed to a hospital, but he died before he got there.

Mrs. Payne, in tears, was trying to help hospital authorities arrange for a funeral and burial when she collapsed, too. It was just 53 minutes after her husband was pronounced dead.

Dr. Robert Hausman, Bexar County medical examiner, ruled that both died from heart attacks.

Concern Voiced For Gary Cooper

HOLLYWOOD (UPI) — Film star Gary Cooper's condition in his fight against "advanced cancer" has taken a turn for the worse, giving his physician and family reasons for "grave concern."

In the first official announcement Wednesday on the 59-year-old actor's illness, Dr. Rex Kanner reported:

Texan Appointed Dean Of College

CLARKSVILLE, Ark. (UPI) — Dr. James T. Griffith, a native of Bonham, Tex., was named Wednesday as acting head of the education department and dean of men at College of the Ozarks.

The appointment is effective Sept. 1. Dr. Griffith taught at the University of Houston while working toward his doctorate.

If it comes from a hardware store we have it. Lewis, Hdwe. Adv.

SCARED? NO, JUST DEMONSTRATING — Nancy Fleming, a University of Texas co-ed from Houston, is not scared — she has what is called the Atomic look in hair styling. In reality, Nancy volunteered for a demonstration of the Vandraft electrical generator which produces 600,000 volts of spine tingling, hair raising electricity.

Bomber Force Buildup Urged

WASHINGTON (UPI) — Sen. Henry M. Dworshak, R-Idaho, urged today that Congress consider building up the B58 bomber force as a possible answer to President Kennedy's cutback in the B70 program.

Dworshak, a member of the Senate military appropriations subcommittee, said in an interview he thought there was a "50-50 chance" that Congress would override Kennedy's decision and push the B70 project.

He said testimony by Gen. Thomas D. White, Air Force chief of staff, that the B58 "Hustler" bomber now is regarded as a "good airplane" rid of its early "bugs" suggested it should not be knocked out of future production.

White said production of B52 long-range bombers would "cease" with fiscal 1961 funds.

"I think we should take a good hard look at the B58 bomber while we're awaiting full missile development," Dworshak said. "We've got to keep something

coming along because our B47 and B52 bombers are simply wearing out."

White and Air Force Secretary Eugene M. Zuckert urged yesterday that the United States develop a 2,000 - m.p.m. B70 super-bomber as a weapon rather than cut it back to a research project as Kennedy recommended.

Chairman Dennis Chavez, D-N.M., said he and many others (See BOMBER, Page 4)

Castro Abandons Death Policy Toward Captives

MIAMI (UPI) — Premier Fidel Castro told 700 to 800 captives he plans to execute only "two or three war criminals" among the captured invaders of Cuba despite "popular demand" that they all be put to death.

Castro told 200 to 300 captives massed in Havana's Sports Palace for a radio-TV propaganda spectacular that putting them all to death "would belittle our great victory."

He said the men he intends to execute already had charges pending against them, like Ramon Calvino "who committed many crimes during the Batista regime."

A hysterical woman and a furiously angry man accused Calvino of at least three murders when he was paraded before Castro's TV cameras Monday night. The woman said she wanted to be a member of the firing squad that probably will execute him.

Castro's sudden abandonment of his policy of "no mercy to the mercenaries" appeared to be a result of pleas for clemency from eight Latin American presidents and scores of organizations south of the border.

The bearded Cuban's speech today, though customarily hostile to the United States, showed no trace of the bitterness toward the captives that he had displayed in other post-invasion statements.

Communists In Position To Take Over Mexico, Rotary Club Told

"The extent to which the Communists have infiltrated Mexico and are in a position to take over that country is little understood by the average American," Dr. Ralph Eardman told Pampa Rotarians yesterday at their weekly meeting.

Eardman, who was born and raised in Mexico and whose family still lives in Mexico, recounted his discoveries made during a recent visit in Mexico City with his parents.

"The Communists control, for all intents and purposes, the University of Mexico and about half of the cabinet of President Matesos. With control so complete, Dr. Eardman predicted that Mexico could easily follow the fate of Cuba in just a few months.

The doctor pointed out that one

of the great mistakes in American foreign policy is giving money, arms and moral support to governments infested with socialists and Communists. In supporting these leaders, the speaker said, we are lending aid to those who are working for the eventual destruction of the United States as a free country.

The people of Mexico as a whole, the speaker said, are very friendly to the United States, but the powers within the government and among the intellectuals are strongly pro-Soviet.

Yesterday's Rotary meeting was held in the new Pampa Youth and Community Center.

Kennedy Moves To Curb Job Abuses By Officials

Vital Space Test Again Postponed

WASHINGTON (UPI)—The federal space agency today postponed for the third time a rocket test designed to carry out a severe and final test of the Mercury space capsule before the forthcoming manned flight.

Unfavorable weather forced the postponement which was described as "indefinite." Officials said that weather forecasts indicated the delay would be at least 24 hours.

A 25-foot "Little Joe" rocket had been scheduled to send up the man-in-space capsule early this morning from the Wallops Island, Va., test station.

The experiment was due as a last check on the space cabin's safety equipment before an astronaut is launched on a 115-mile down-range rocket ride from Cape Canaveral. This shot may come early next week.

Vast Plot Disclosed In France

PARIS (UPI)—A vast plot in mainland France that was to have aided the abortive military revolt in Algiers has been uncovered in a nationwide roundup, the police sources reported today.

The sources said thousands of homes throughout the country had been searched under special police powers the government now holds and by midday "hundreds" were under arrest.

The sources said that searches on Tuesday afternoon turned up vital papers that contained the names of some of the main plotters in France.

"Every time we went to arrest one of those named we found more lists of names," one source told United Press International.

Many of the names were said to be those of members of pro-French Algerian organizations such as "Jeune Nation."

Among the houses that were searched were those of Gens. Raoul Salan, Maurice Challe and Edmond Jouhaud, three of the four generals who led the four-day Algerian uprising.

Challe, lodged in Sante prison, was flown to France from Algeria in custody Wednesday. Government officials said his trial may start within 10 days and that the prosecution may press for the death penalty.

Salan, Jouhaud and Gen. Andre Marie Zeller apparently still were at large.

It was possible they had taken refuge with Foreign Legionnaires at Camp Zeralda, 15 miles from Algiers, or had fled to the hills to carry on Guerrilla warfare along with 400 paratroopers reported missing.

CAPE CANAVERAL (UPI)—America today fired into orbit a satellite carrying a space telescope to study mysterious gamma

Even when two gunshots interrupted his speech, Castro — although obviously disturbed — did not launch into a denunciation of his enemies.

He behaved like a benevolent school teacher, interrupting his lecture to answer questions from prisoners who rose and held up their hands for recognition.

Congress Told Tighter 'Ethics' Laws Needed

WASHINGTON (UPI) — President Kennedy announced a rigid new code of ethics for administration officials today and asked Congress to stiffen the law against improper use of federal posts for private gain.

In a special message on conflicts of interest, Kennedy also proposed outlawing private approaches to federal regulatory agencies in cases which must be decided through formal hearings.

The latter provision would apply to members of Congress, if administration officials have their way. It is doubtful that they will, since many lawmakers insist it is proper for them to talk to agencies about cases involving their constituents.

The recommended ban on "ex parte" contacts with agency officials was an echo of congressional hearings which were highlighted in 1958 by the resignation of Presidential Assistant Sherman Adams.

Kennedy named no one in Republican or Democratic administrations, but he said that "in the past two decades, incidents have occurred to remind us" that changes are needed in laws and regulations covering government ethics.

The President made a point of demanding that administration leaders set personal examples of conduct "above reproach." He promised to help, by such means as applying standards for property holdings and acceptance of gifts by presidential appointees.

"No president can excuse or pardon the slightest deviation from irreproachable standards of behavior on the part of any member of the executive branch," Kennedy said.

At the same time, he asked Congress to make it easier for private experts to work for the government without risking criminal charges under conflict of interest technicalities.

A bill being drafted by the administration would carry a possible fine of \$10,000 or a year's imprisonment, or both, for violating proposed bans against:

- A regular government employee accepting outside pay for any transaction involving the government, or taking part in any federal business in which he has a financial stake without permission from his agency head.
- Ever "switching sides" from the government to a private party in a case upon which an official has worked, thus pinpointing and making permanent what is now a vague two-year prohibition.

While calling for this and other congressional action, Kennedy said he would issue orders and memoranda of his own which would:

- Forbid presidential appointees from receiving pay "for any lecture, article, public appearance, etc., devoted to the work of the (See CONGRESS, Page 4)

Lawyers Outline Communism Case To Pampa Group

A Congressional Action Breakfast audience this morning in Coronado Inn heard two Pampa attorneys give a factual presentation of one of the many U.S. Supreme Court cases dealing with communism.

Attorneys Don Lane and Tom Snow cited defense and government arguments in the 1957 appeal case of Yates versus the United States Government in which the court held in favor of 14 California men who had been convicted of violating the Smith Act by knowingly advocating overthrow of the government by force or violence or inciting persons to action to overthrow the government by force or violence.

Snow presented the defense case and Lane gave the arguments offered by the government prosecutors.

Both Snow and Lane explained to their listeners that the breakfast program today was part of the Chamber of Commerce Legislative and National Affairs Committee's objective to present facts in the overall battle against Communism and the inroads they are making in U.S. government circles.

The speakers this morning were introduced by Roy Sparkman, committee member.

The next Congressional Breakfast is scheduled for Friday, May 12, when State Senator Crawford Martin from Hillsboro will speak on the Kerr-Mills bill now in the legislative hopper at Austin. The bill outlines a state plan for medical care for the aged.

U.S., Mexico Discuss Oil Import Problem

WASHINGTON (UPI)—Interior Secretary Stewart L. Udall conferred Wednesday with Mexican government and oil officials over a plan to cut the amount of overland oil imports from Mexico into the Brownsville, Tex., area.

Sources close to the meeting said the plan was aimed at cutting the Mexican oil imports to about 30,000 barrels a day.

Such Mexican oil imports through Brownsville totaled 43,000 barrels a day last week. The American officials hinted such daily imports would endanger the United States' import program.

Meeting with Udall were Juan Gallardo and Julian Saez of the Mexican embassy; Serapion Fernandez, assistant to the director general of Pemex and Manuel Leiva, assistant managing director of Pemex.

Assistant Secretary of Interior John M. Kelly and Melville Osborne, and Edwin M. Martin of the State Department attended the meeting.

Kelly, in charge of mineral resources for the Interior Department, said he expected an agreement to become effective May 1.

Kelly said the discussion was amicable and in a spirit of mutual responsibility in regard to the basic security and welfare of the Western Hemisphere.

"We will undertake to draft an agreement dealing with the volume of imports that would be considered to fit within the overland exemption criteria," Kelly said.

Kelly said the Mexican government and Pemex officials wanted to protect Mexico's historic position as an oil importer. Negotiations to limit Mexican oil imports have been underway with the Mexican government and Pemex for several weeks.

President Calls Security Council Into Meet Today

WASHINGTON (UPI) — President Kennedy scheduled another crisis meeting of the National Security Council (NSC) today before leaving for an important speech in New York.

New policies and plans for coping with the situation in Cuba seemed likely for NSC consideration.

The President was scheduled to speak tonight to a banquet meeting of the Advertising Bureau of the American Newspaper Publishers' Association in the Grand Ballroom of the Waldorf-Astoria.

After spending the night in New York, Kennedy will fly to Chicago Friday afternoon to address a Democratic fund-raising rally in the new Chicago Exposition Hall Friday night.

BITTER COURT SQUABBLE — A bitter squabble broke out on the U.S. Supreme Court bench between Chief Justice Earl Warren, right, and Justice Felix Frankfurter during a session of the court. Warren said Frankfurter degraded the court by reading an opinion that should have been confined to the privacy of the court's chambers. Observers described it as the bitterest clash in open court between two justices in recent memory. (NEA Telephoto)

Cliches Of Socialism

On today's editorial page, the following cliché of socialism is examined for both its substance and logic: "Too much government? Just what would you cut out?"

Flight 115 Miles Up May Be Tried By U.S. Tuesday

CAPE CANAVERAL, Fla. (UPI) — America's hopes of firing an astronaut into orbit this year were all but ended by the destruction of an off-course Atlas missile in a crucial test shot this week.

Scientists still planned to send a man on a shorter trip into space next week, however.

An escape system rescued a space capsule a split-second before its rocket booster was blown up by a range safety officer Tuesday. The functioning of the escape system heightened the chances that an astronaut may still ride a Redstone rocket 115 miles up and about 250 miles over the Atlantic next Tuesday.

The capsule fired Tuesday carried a robot "astronaut" which the United States had hoped to orbit with a modified Atlas rocket and recover 110 minutes later—a full rehearsal for an orbital flight by one of the nation's seven highly trained astronauts.

But the rocket veered from its flight path and had to be destroyed 41 seconds after blast-off. This was the second failure in the Atlas' last three missions in the Project Mercury man-into-space program.

Mercury Director Robert R. Gilruth said later a manned-orbital flight for America "is still on the schedule for this calendar year." Other sources said, however, the prospects were dim indeed that all the shots would go "down the line" toward a previously planned November target date.

Jet Riders Soon To See Film Shows

WASHINGTON (UPI) — Trans World Airlines today announced plans for showing first-run, full-length movies on its long-range jet flights.

The airline plans to start showing the feature films, some of which will be pre-release, on New York-Los Angeles and New York-San Francisco non-stop flights starting July 19. Showings on international flights will begin Aug. 18.

TWA tested the movie idea several months ago and decided to equip its long-range jets for showings after getting favorable passenger reaction.

Only first class passengers will see the movies. TWA emphasized they will not be a "captive audience," however. The sound-track is carried to passengers via individual headsets equipped with personal sound control.

The movies will be shown on a screen suspended from the cabin ceiling and located just ahead of the forward lounge section in the first class area. A special light-weight 16 millimeter projector is installed in a ceiling compartment at the rear of the first class section.

TWA said its tests showed that cabin lights do not have to be dimmed during shows.

Will passengers have to remain in their seats during showings?

No, TWA said, because the projector beam is too high to be interrupted by persons walking up and down the aisle.

Galveston Police Chief Says Raids Halted Gambling

GALVESTON (UPI) — Police chief O. E. Henson said today that all gambling was stamped out in Galveston as the result of a big raid at noon Tuesday on the city's once-flourishing policy rackets.

Five Texas Rangers, eight Galveston police officers and a team of district attorney's agents hit three separate policy syndicates. They arrested nine persons and hauled off gaming equipment and furniture.

"They say it is the biggest raid on policy ever made here and now all gambling is closed here to our knowledge," Henson said today.

British Archbishop Not Excited Over Space Trip Efforts

LONDON (UPI) — The archbishop of Canterbury said Monday his prayers have taken him through space "hundreds of times" and he is not impressed with the space flight of Maj. Yuri Gagarin.

"I reach far 'out' into space every time I say my prayers," Dr. Geoffrey Fisher said. "Why should people be excited by news that a man has stepped into space?"

TIMBUCTU, Mali Republic — The tall, old Taureg warrior, in blue turban and flowing white robes, stepped silently into the log and grass mat pavilion and seated himself.

Veteran Writer An 'Early Bird'

HOLLYWOOD (UPI) — Charles Marquis Warren does his best television work when "television is asleep" — during the nocturnal limbo between the late, late shows and instant breakfast.

The veteran writer-producer-director punches his time clock when video bids good night with fluttering flags, marching soldiers and the "Star Spangled Banner."

"I've been a so-called 'midnight writer' for years," observed the producer of such TV shows as "Gunsmoke," "Rawhide" and "Gunslinger" on CBS-TV.

"I do my best concentrated writing between the hours of midnight and 6 a.m. It's almost as if the hour automatically turns on my thinking process when I'm writing."

"All of my books, screenplays, TV shows have been written during this turnabout time zone."

Warren, the godson of the late great American novelist F. Scott Fitzgerald, said he actually acquired the habit of night writing from Fitzgerald.

"Scott used to write all night long, usually turning in at the first signs of the dawn's early light — and I guess I acquired the habit from him."

Considered an authority on the Civil War and the frontier West, Warren said much of his writing involves painstaking research — requiring many hours of concentration.

"And there's no better time to do real concentrating than after midnight. Business hours are over, phones are silent and the casual social visitor finds the hour awkward indeed for personal tete-a-tetes."

Although the hours he keeps are unusual for most people, Warren does not consider his nocturnal writing habit out of the ordinary insofar as writers go.

Most writers, he said, have unusual customs when it comes to getting their work done.

"I knew a writer once who couldn't sit at a typewriter unless his feet were immersed in a pot of hot water. He claimed it did something for his head."

"Another writing friend of mine quite successful too, would not attempt one word on the typewriter until he stood on his head, against a wall, for fully 20 minutes. He claimed the blood rushing to his head bathed his brains in inspiration."

Another writer, said Warren demanded a full supply of toothpicks before launching into creative prose — preferring to pick his teeth and brain simultaneously.

"Oddly enough," said Warren speaking of the latter writer, "this was not too unusual as writers go except that this chap wore false teeth."

Airline Resumes Flights To Havana

MEXICO CITY (UPI) — The Mexicana de Aviacion Airline has resumed limited service to Havana starting Thursday, April 27, the airline announced Tuesday night.

All airline service to Cuba was suspended shortly after word of an invasion of Cuba was announced last week.

Report On Jews Heard By Judges Trying Eichmann

JERUSALEM (UPI) — A 23-year-old diplomatic report by President Kennedy's father was brought into the Adolf Eichmann trial today. It was a report on the status of the German Jews which Joseph P. Kennedy sent to Washington in 1938 at the time he was U.S. ambassador to Great Britain.

Kennedy relayed the information that the Nazis considered the Jews to be "pickpockets, murderers and thieves." Before Eichmann was put on trial here on charges of the mass murder of six million European Jews, his counsel, Robert Serfaty, said "his will be a battle of documents."

His prophecy was correct. The morning session today was devoted almost entirely to presentation of documents by the prosecution, and the Kennedy report was one of them. It was written on Dec. 8, 1938, and read: "During the day we had a telephone call from Berenger's office in Paris. We were told that the matter of refugees (Jews) had been raised by Bonnet (Georges Bonnet, French foreign minister), with Ribbentrop (Joachim Von Ribbentrop, German foreign minister). The result was very bad. Ribbentrop, when pressed, had said to Bonnet that the Jews in Germany without exception were pickpockets, murderers and thieves. The property they possessed had been acquired illegally. The German government, therefore, had decided to assimilate them with the criminal element of the population."

"The property which they had acquired illegally would be taken from them. They would be forced to live in districts frequented by the criminal classes. They would be under police observation like other criminals. They would be forced to report to the police as other criminals are obliged to do." A German secret police document, dated Oct. 1, 1943, listed the heads of the various departments and stated that Eichmann was in full charge of deporting the European Jews and stripping them of their property.

Pony Drags Cowboy To His Death

CHANNING, Tex. (UPI)—Richard Clifford Sewell, 46, never went anywhere without his cowboy hat. So when other riders on the Coldwater Cattle Co. spread saw his hat caught on a bush Wednesday, they started searching the sprawling West Texas ranch.

They finally found Sewell's body hanging from his pony. The right arm was snarled in a rope cinched to the saddle horn. The body was all but nude. Sewell's clothes had been ripped off as the horse dragged him.

Sheriff E. S. Collins said the pony apparently shied and dragged Sewell in circles over an area of about a mile square.

Coroner J. P. Thomas ruled the death accidental.

Congress

(Continued From Page 1)

department or based on official information not yet a matter of common knowledge."

Apply "government-wide standards to the continuance of property holdings by appointees to the executive branch," following through on the Senate Armed Services Committee's demands that Pentagon nominees sell stock they hold in firms with defense contracts.

Prohibit gifts to government workers if they have "reason to believe" their official positions prompted the present, or if the donor's "private interests are likely to be affected by actions of the employe or his agency."

Prohibit government employes "from using for private gain of official information which is not available to the public," thus preventing such actions as stock speculation through possession of inside knowledge.

Bar government employes from using their positions for "the subtler forms of extortion" such as inducing economic gain from a person whose interests may be affected by the workers' agency.

Bar any government employe from doing outside work which is "incompatible" with his federal employment, with each department and agency setting its own rules in this regard.

Big Weekly Pay To Missile Base Employe Bared

WASHINGTON (UPI) — Senate investigators charging that missile base workers sometimes make so much money it "borders almost on subversion," summoned more contractors today to tell about soaring wages and inefficiency.

The Senate investigations subcommittee was told Wednesday that a \$3.50 an hour electrician at Cape Canaveral, Fla., made \$647 one week—\$127 more than Defense Secretary Robert S. McNamara. They said common laborers made more than the nation's intensively-trained aeronauts, and pipefitters at a California airbase got paid for doing nothing. Chairman John L. McClellan, D-Ark., said accounts of slow-downs and wall-outs at the test sites and missile bases were "almost revolting" in such vital programs. He said it "borders almost on subversion."

Gen. Gable, president of Gable Electric Service of Dallas, told

Cease-Fire Moves Fail To Halt Communist-Backed Force In Laos

LUANG PRABANG, Laos (UPI) — The Communist-backed Pathet Lao hammered away for the fifth consecutive day Wednesday with Soviet mortars in an attempt to win a quick victory before the cease-fire goes into effect.

(Diplomatic sources in London said they expected the pro-Western government to broadcast a direct appeal to the Reds today, suggesting a time and place for a meeting to negotiate a cease-fire.) Gen. Boulleuth Sananichan, commander-in-chief of the royal armed forces, said prospects of a cease-fire had not slowed the Communist attacks.

Boulleuth said the situation at Muong Sai, 40 miles north of this royal capital, was serious. He said government troops appear to be holding their own at Khou Cha Cham, 40 miles south of here. The army chief said the Reds, who overran Vang Vieng last Saturday, had been halted north of the Nam Lik River.

The Communist Chinese laid down stiff conditions that could disrupt efforts to establish an effective cease-fire in Laos.

The Peiping People's Daily newspaper demanded in an editorial today that "the United States, Thailand and South Viet Nam immediately stop their assistance to the rebel (royal government) clique in Laos and immediately withdraw their military personnel and military equipment from Laos."

The Communist Chinese said the "only" way a cease-fire could be "achieved and ensured" was

Bomber

rays and get a better idea of what makes the universe tick.

The 94.8-pound moonlet, to be named "Explorer XI," was carried aloft by a four-stage rocket at 9:16 a.m. EST.

It represented the first step in a U.S. program to use orbiting observatories to study the Milky way and other star galaxies trillions of miles away.

The federal space agency announced nine minutes later that all three upper stages of the rocket had fired successfully.

Scientists hoped the little satellite would serve as the key to unlock some of the oldest mysteries about our universe. They were hoping to learn more about its makeup, its future and past.

Gamma radiations, space agency scientists explained, hold particular interest because they are associated with nuclear activity, which involves energetic processes unmatched anywhere in nature.

Jurist Is Meted Life In Prison In Murder Case

FORT PIERCE, Fla. (UPI) — Joseph A. Peel Jr. was sentenced to life in prison yesterday for planning the murder of Circuit Judge C. E. Chillingworth in 1955. Peel was sentenced after a female garbage truck driver withdrew an affidavit stating she had seen Chillingworth several months after the disappearance of the judge and his wife, Marjorie, in June 1955.

Peel, a former West Palm Beach city judge, said he would appeal despite the collapse of the man witness in his bid for a new trial. Mrs. Alice M. Griggs, 45, who operates a garbage collection agency in nearby Okeechobee and drives one of her two trucks, had testified she saw Chillingworth here in September 1955.

The woman said she knew the jurist because she had been in his court several times, presumably in divorce actions. She later told newsmen she had been married five times. But the state presented court records showing Mrs. Griggs had never appeared in any case heard by Chillingworth. Circuit Judge D. C. Smith took under advisement state requests that Mrs. Griggs be cited for contempt and charged with perjury.

Windstorm Loss Heavy At Sherman

By United Press International A band of thundershowers roving across the top of Texas Wednesday night triggered a violent windstorm mixed with rain that caused thousands of dollars damage at Sherman and lower Grayson County.

It was the only major damage reported, though a wide area of North Central Texas and Southern Oklahoma lay under a severe weather alert.

Thieves Get Loot At Salvage Firm

Thieves who may be planning to build their own hot rod have been picking up some of the parts from the Pampa Garage and Salvage Co., 511 Huff Rd.

Police said today they had received reports of thefts the past few nights from the salvage firm. Stolen items included the transmission from a 1955 Ford, a carburetor and an intake manifold from a Cadillac. The stolen parts, police said, were taken from cars parked behind the garage.

City Government Forms Talked At League Meeting In Childress

A delegation of ten Pampa city officials, headed by City Manager John Koontz, attended a quarterly meeting of Region 11 of the Texas Municipal League in Childress last night.

In addition to the city manager, members of the group included City Attorney Bob Gordon, City Secretary Edwin Vicars, City Commissioner Lloyd Simpson, Fire Chief Ernest Winborne, Police Chief Jim Conner, City Engineer Monroe Moore, Public Works Director R. B. Cooke, Street Superintendent Bob Bonsal and Homer Hollar, manager of the city water department.

Cutback In B70 Bomber Program Opposed By AF's Chief Of Staff

WASHINGTON (UPI) — Gen. Thomas D. White, Air Force chief of staff, told Congress yesterday that failure to meet the challenge and threat of Russia's man-in-space feat "could prove disastrous."

White also joined Air Force Secretary Eugene M. Zuckert in urging that the B70, 2,000-mile-an-hour bomber, should be developed rather than be cut back as directed by President Kennedy.

The Air Force leaders were drawn into a defense of the B70 project by ranking members of the Senate military appropriations subcommittee who made it clear they thought the super bomber was needed.

Chairman Dennis Chavez, D-N.M., said it is his view and that of many members of Congress that the B70 cutback was "a mistake." Sen. Allen J. Ellender, D-La., complained that "there seems to be too much indecision about what to do."

White told the senators that "the world is in great stress" and he feels the United States and the free world's military strength "must be kept up to requirements

Accident Victims To Be Buried In Rites Tomorrow

Funeral services for Mrs. Angela Jean Houchin and her daughter, Kimberly Cecilia, will be held at 4 p.m. tomorrow in the Harvest - Mary Ellen Church of Christ, with Jay Channell, minister, officiating.

The 20-year-old expectant mother and her one-year-old daughter were killed yesterday morning when a westbound Santa Fe passenger train hit their car at the Celanese Chemical Plant railroad intersection five miles west of Pampa.

Mrs. Houchin was born Sept. 25, 1940 in Sayre, Okla., and came to Pampa in 1944, where she was graduated from Pampa High School in 1958. She attended West Texas State College in Canyon and was married to Sammy Joe Houchin on Sept. 4, 1959 in Canyon. Mr. Houchin is associated with the Great American Life Insurance Co. Survivors include her husband, Sammy Joe; a step-son, Sammy Joe Jr.; her parents, Mr. and Mrs. John McLean and a brother, Johnnie.

Kimberly was born April 20, 1960 in Pampa and is survived by her father, Sammy Joe Houchin; a half-brother, Sammy Joe Jr.; and grandparents, Mr. and Mrs. John McLean and Mrs. A. C. Houchin of Pampa.

Pallbearers will be Jerry Ford, Vernon Hall, Clyde Vernon, Bob Barnett, Jim Stous, Wilber Gibson, Chan Foster and Trav Flammagan. Interment will be in Fairview Cemetery under the direction of Duenkel - Carmichael Funeral Home.

Proved Profitable Magellan's voyage around the world was profitable as well as a navigational achievement. The entire cost of the three-year expedition was more than covered by the sale of cloves brought back from the South Pacific islands.

Mr. Yeager Rites Friday

Funeral services for Roy Conrad Yeager, Southwestern Bell Telephone Co. employe, will be held Friday, instead of Thursday, as reported yesterday.

Services will be held at 2 p.m. in the Central Baptist Church with the Rev. Therman Upshaw, pastor officiating.

Interment will be in the Fairview Cemetery under the direction of Duenkel - Carmichael Funeral Home.

Mr. Yeager died at 8:05 p.m. Tuesday in Northwest Texas Hospital following a two weeks' illness.

Officers Inducted By Moose Lodge

New officers of the Loyal Order of Moose were installed last night at the club meeting.

Officers for the coming year are: B. W. Lard, governor; W. C. Brown, Jr., governor; Charles Webb, trustee; L. C. Cable, trustee; Frank Worthington, trustee; Bobby Helm, secretary; Tom Barker, inner guard; C. W. Kennemer, outer guard, and Robert Jacobs, prelate.

PLANNING SCOUT MEET — Officers of the Pampa Chief Lone Wolf Lodge are shown planning final preparations for the Pampa delegation of Boy Scout Arrowmen who will attend the area 9-A conclave this weekend in the Davis Mountains near Alpine. Left to right are: Bill Martin, secretary; Don Curry, chief, and Jim Shelhamer, treasurer, all of Pampa. Six other Boy Scout councils in West Texas and New Mexico will join

with the Pampa Scouts at Reese Air Force Base in Lubbock where they will continue to the Texas camp in a bus caravan. The Pampa scout bus will load at City Hall where they will continue to the Texas camp in a bus caravan. The Pampa scout bus will load at City Hall tomorrow and depart at 4:30 p.m. The scouts are scheduled to return to Pampa Monday noon. (Daily News Photo)

High School Boy Calmly Tells About Robbery Ending In Killing

HOUSTON (UPI) — A tall, blond 17-year-old high school boy who carefully planned an armed robbery in advance yesterday admitted he killed the 43-year-old manager of a drive-in grocery by shooting him in the back with a shotgun at close-range.

Victim of the slaying was Bennie Hoelscher, father of six children who apparently was not aware that his store was being robbed late Tuesday night.

Hoelscher died as he talked on the telephone, unaware of any danger. He had been talking on the telephone to Floyd L. Matheny, 23, assistant manager of another 7-Eleven store.

The youth who carefully spelled out the killing in advance was identified by police as Gary Stephen Sizemore, a student at San Jacinto High School who was arrested at a motel five hours after the slaying.

His careful blueprint for the robbery and killing — if necessary — was found where he had tossed it in a wastebasket.

Sizemore sat calmly at police headquarters and dictated a statement that matched exactly the blueprint he had prepared, including a statement that said, "get it over quick . . . when you've done what you have to do, you are unlikely to get shot at."

The youth's notes told how he planned to leave school early Monday, cash in his savings bonds to buy a gun and shells, steal an automobile and cover his trail by renting a motel room in advance and taking a taxi to where he had parked a stolen car.

In his statement, Sizemore said he did everything as planned. He cashed \$120 in bonds, bought a double-barreled shotgun and stole an airport limousine Cadillac from its parking place downtown.

He said his money was running out Tuesday so he drove around and saw the 7-Eleven store on a side street Tuesday night.

Astrology originated in Mesopotamia probably in the third millennium B.C. It attained its full development in earth by observation of the fixed stars, the sun, moon and planets, Greek civilization, according to the Encyclopedia Britannica.

Red River Navigation Survey Discussed At Paris Hearings

PARIS, Tex. (UPI) — A spokesman for the Dallas and Denison, Tex., chambers of commerce testified today that opening Red River navigation will benefit an area in which five million people live.

The spokesman was John H. Anderson of Denison. He put the Dallas and Denison endorsements to making Red River navigable in the record at a U.S. Corps of Engineers' hearing. The hearing opened today.

The hearing is being held not only on the feasibility of running a barge line on Red River, but also on other aspects of the river, such as its use for drinking and

industrial water and flood control.

A Fort Worth company proposes to operate a barge line on Red River as far north as Denison. Spokesman for the company has said the company has made test runs and found the river navigable.

Railroads oppose a barge line on the river.

Anderson emphasized that Denison is at the head of the navigable section of the river. He said it is also at the center of a very large area which includes the populous cities of Dallas, Fort Worth and Wichita Falls.

He said it is the largest metropolitan area in the country with-

out water transportation. Anderson also brought along an endorsement from the Dallas Chamber of Commerce.

Jim Oxford, manager of the Lamar County (Paris) Chamber of Commerce, said his organization is interested in quality of the river's water, bank stabilization, future navigation and flood control.

More than 125 persons from North Texas and Oklahoma attended the meeting, overflowing the room in which it was held.

Others present included D. I. McCullough, Oklahoma City, state bridge engineer for the Oklahoma Highway Department; Gaines H. Stout of the Oklahoma Highway Department; Norman G. Flagg of the Bureau of Reclamation, Oklahoma City, and Col. Harry E. McDowell of New Orleans, Corps of Engineers' district officer there.

At a pre-planning conference Tuesday Roy Matthias, executive secretary of the Red River Valley

Appeal Of Rapist Rejected By Court

AUSTIN (UPI) — The Court of Criminal Appeals yesterday overruled a motion for rehearing of the case of Joe Cephas Singleton, under death sentence for the rape of a Beaumont widow.

The high court reaffirmed that Singleton's rights were "fully safeguarded and there was no actual or apparent discrimination" present at his trial.

Singleton, a Negro, was convicted of raping the mother of three children at knife point shortly after midnight on April 7, 1960.

Porcupines are excellent climbers and spend a good part of their lives in trees.

U.S. Cannot Present False Front In Combatting World Communism

"WHOM THE GODS WOULD DESTROY, THEY FIRST MAKE MAD." The statement was made recently assumed their position as by the Greek philosopher, Euripides, many, many years ago, but has been quoted and re-quoted the time and time again, because its soundness has been established and re-established through history. It is as true today as when it was uttered. Many meanings could be placed upon these words, but to me they have always meant that self-control is the most effective weapon a person can possess. One hundred and eighty-six years ago a new government was being born — a government based upon the philosophy of the freedom and dignity of man as an individual, and dedicated to the fulfillment of that doctrine. That government, nourished by the patriotism of those who properly appreciated and understood it, has grown and flourished through the years. In the early 1940's the country that started this philosophy, our own dear United States of America, was catapulted into the leadership of the free portions of the world. These free portions of the world were made up of many countries — some older than ours in years but not in the philosophy to which we subscribe; some much younger than ours in point of time, both as to existence and as to the

Trucks Enroute With Food For Cuban Refugees

HIGH POINT, N. C. (UPI)—The vanguard of a caravan of trucks loaded with food and clothing for Cuban refugees in Miami left here yesterday for the Florida city. Dr. Nat Harrison, retired college professor, who initiated the project, said "We hope the five trucks we start with will be 50 by the time we pull into Miami Friday afternoon."

The food and clothing was collected under the auspices of Kiwanis Clubs and with the endorsement of the State Department, Harrison said. Distribution in Miami will be made through agencies already set up for that purpose. Harrison said the caravan would follow U. S. 29 to Atlanta, where a night stop will be made. From there it will proceed down U. S. 29 to Jacksonville and on to Miami on U. S. 1.

Harrison is retired vice president of small High Point College, a Methodist school. He said he became interested in helping the exiles when he visited Miami earlier this year. "I looked over the situation and thought that the common man of America ought to do something," Harrison said. "This is non-political, but of course we want word of this to get back to the people of Cuba. We want them to know about this as a humanitarian effort."

Living Costs Remain High

WASHINGTON (UPI) — Living costs held steady at an all-time peak in March but the buying power of the average factory worker's paycheck increased slightly, the Labor Department said yesterday.

It reported that the consumer price index remained unchanged last month at 127.5 per cent of average 1947-49 prices. This was 1.4 per cent above the level of March 1960.

Robert J. Myers, deputy director of labor statistics, said the recession has been a factor in holding down prices in recent months.

In March, the report said, lower costs of food and transportation offset higher prices of housing, movie admissions and medical care. Eggs, fresh vegetables, dairy products and meat were cheaper.

Longer working hours and stability in prices led to an eight-tenths of one per cent rise in the buying power of the average factory worker, the department said. Take-home pay—earnings after taxes—climbed by 65 cents to \$80.89 a week for a production worker who heads a family of four.

Man Wins Fight In Parking Case

AUSTIN (UPI)—H. K. Stecher of Houston won his fight in the Court of Criminal Appeals today against a \$101 fine for illegal parking.

The high court said there was insufficient evidence to sustain a jury's finding Stecher guilty of parking his automobile in a truck zone in the 900 block of Rusk last Sept. 1 in Houston.

adoption of our type of government; and others that had only recently assumed their position as separate sovereign powers. This group represented one of two conflicting ideologies of the rights, the privileges, the powers, and the immunities that should be enjoyed or exercised by an individual. The other ideology is Communism. It is between these two ideologies of government that new countries being born each year must choose. Which they choose will in many cases depend upon the manner of presentation of the case to the people who are wholly unfamiliar with self-government, its trials, its tribulations, and its responsibilities.

The Communists have no difficulty in presenting to these people a glowing picture, because of the suppression by the central government of all activities that might be contrary to the presentation they desire to make. And, it might be added that the Communists are not novices at focusing the attention of these newcomers on those things that will be appealing, such as material matters which the people of these new countries have not enjoyed, and in binding the audience as to the price that will be paid under the Communist form of government. The Communist officials have full control of how their program is presented. Information contrary to their presentation cannot come from inside the Communist countries, because there is no freedom of speech, freedom of the press, freedom of religion, or any other kind of freedom that might conflict with the dictates of the leaders. And it must also be remembered that the Communists making the presentation can criticize and defile our way of life without fear of contradiction from their own countries.

On the other hand, our job is measurably more difficult. In dealing with other nations, both old and new, which we and other free nations want within our orbit, we must recognize certain facts. Because we do have the freedoms not enjoyed by the Communists, we cannot present a false front in order to lure these people into action. These new peoples can weigh us, not by what some official tells them, but by viewing us as individuals, by reading our newspapers, by viewing our television, by listening to our radio, or by discussing freely and openly any issue with any American. Under these circumstances, any internal bickering in this country becomes a matter of world interest and world knowledge within the matter of a few minutes. It can and does become fuel for the Communist propaganda machine.

There are many, many trouble spots on the face of this globe in which a gigantic struggle between the two ideologies of government is being waged, including Laos, Cuba, and others. There is no angle from which we are not being watched. And especially are our actions being noted by the Communist propaganda groups. Certainly we have our differences and we express those differences, and we will continue to exercise the freedoms that permit us to do this—so long as we have those freedoms. But let us not forget that the intemperate use of a right, a privilege, a power, or an immunity could bring about its loss or severe restriction.

There has never been a time in our history when a unified front by the people of this country was more needed. It would behoove each of us to consider well our actions and our conduct, and what effect they may have on our own wellbeing as a country. Internal strife and bickering can lead only to bitterness and chaos. We should all practice self-control and the Golden Rule, especially as between ourselves, lest we run the risk of history recording another example of proof of the truth of the statement of Euripides.

VISITORS
Visitors from the Panhandle to our Nation's Capital this week were Mr. E. Noble of Dimmitt and Mr. W. L. Edelman of Friona.

CLUB HONORS HOOVER
NEW YORK (UPI) — Former President Herbert Hoover received the Explorer's Club medal Wednesday night for his adventures as a young engineer in mining and petroleum. Hoover attended the award dinner.

TAKE OUT LICENSE
LOS ANGELES (UPI) — Restaurant owner Stephen Crane, ex-husband of Lana Turner, will marry interior decorator Helen DeMaree, 28, Friday night in his Beverly Hills home. Crane, 44, and his fiancée of 2½ years obtained the marriage license Wednesday at the county courthouse.

First definite traces of the science of algebra were found in the writings of Ahmes, an Egyptian who lived about 1700 B.C. or earlier.

Geographic Society report tells history of Gulf Coast Island

WASHINGTON (UPI)—The National Geographic Society today issued a report on Padre Island, the narrow spit of land off the Texas Gulf Coast that may become a national seashore preserve. "The rest of the island, however, has the longest stretch of undeveloped seashore remaining in the continental United States outside of Alaska," the society said. "The unbroken sweep of sand, grass-covered dunes most to the mouth of the Rio Grande. It called the island 'a land an unmatched air of wild spangled legendary pirate lair and haunts of cannibals...'"

The society described the island today connect the island with the mainland, and that the southern bottom of the sea, carrying it

shoreward and dropping it, ground for many bird species, including wild ducks and geese. Many varieties of fish abound in the waters around the island. "Padre Island was first sighted in 1519 by the Spanish explorer Alonso Alvarez de Pineda," the society said. "In 1553, a Spanish treasure fleet of 20 vessels laden with gold and silver and carrying 2,000 passengers and crew was caught in a storm in the Gulf of Mexico. Thirteen of the ships were driven aground on Padre Island. Only two of the 300 passengers who reached shore survived."

"Most of the sunken treasure was salvaged, but legend has it that one of the ship's cargo still lies beneath the sands of Padre Island." "Pirates frequented the island, giving rise to a persistent tale that Jean Lafitte cached a fabulous treasure on the island under a millstone inscribed 'dig deeper.'" The society added that enough old coins have been found on the island to keep hopes alive of great buried wealth there. The society said several Indian tribes have used the island, including one band — the Kanakwas — who were cannibals. The island took its name after a Spanish priest — Padre Nicolas Balli — who tried to establish a ranching colony there in 1811. In 1847 John V. Singer, brother of Isaac Singer, the sewing machine magnate, was shipwrecked on the island. He decided to stay and raise cattle. The society also recalled that Patrick F. Dunn ranched there for 50 years — until his death in 1935. He was called the "Duke of Padre Island." "The profusion of driftwood en-

abled Dunn to build cowpens of mahogany and a handsome two-story house. "Asked why he built his house so tall, Dunn replied that the timber washed ashore were that length and he had no saw," the society reported.

PICTURE NEWS

AROUND THE WORLD

ONE AGAINST THE OTHER—It looks like a fruitless tug-of-war between Leon Chance, 13, and a tiny burro called "Beethoven" in Memphis, Tenn. The lad's struggle with this stubborn creature took place along Highway 64, and he probably won it—eventually.

LEFT-OVER — The Easter Rabbit obviously paid a call in Fort Lauderdale, Fla., where pretty Mary Castle is wearing the results. Her straw hat is decorated with eggs, grass and jelly beans. The rabbit on the top is a permanent fixture, and is a cousin many-times-removed from his famed relative.

GIFT FROM THE SEA—And far off, too, for 12-year-old Margaret Johnson found this glass globe after it floated ashore at Key Colony Beach, Fla. It is the kind that was used by Japanese fishermen more than 30 years ago to hold up their nets. Originally made of clear glass, years of bobbing up and down in salt water has turned the globe a milky purple, but Margaret is satisfied with her find.

AN OLD SPANISH CUSTOM—As he plods along behind his master, carrying a load almost bigger than himself, a little donkey picks its way through the city traffic of Madrid, Spain. Europe's tallest building and noisy vehicles do not impress this hard-working animal. Donkeys have clip-clopped through Spanish streets since the 11th Century.

TRAINING SESSION A LA CONGO—Fully camouflaged Congolese paratroopers learn how to cross a river on a self-made "bridge" of steel cable and ropes. The tight-rope "act" was part of the intensive training program for the elite Congolese troops. The paratrooper-commando units train in a vast military camp outside Leopoldville.

ART, FOR ART'S SAKE—Part of the face of Italian painter Alberto Trevisan lends a personal touch to his surrealist painting of the end of the world (left). A fiddling clown waiting for the world to crumble is surrounded by a huge white collar. A startling array of symbols dominates "The False Messiah," another moody painting by Trevisan (right). Another clown emerges from a candle-lit coffin to remove the top of his head. Trevisan's work is like early Salvador Dali.

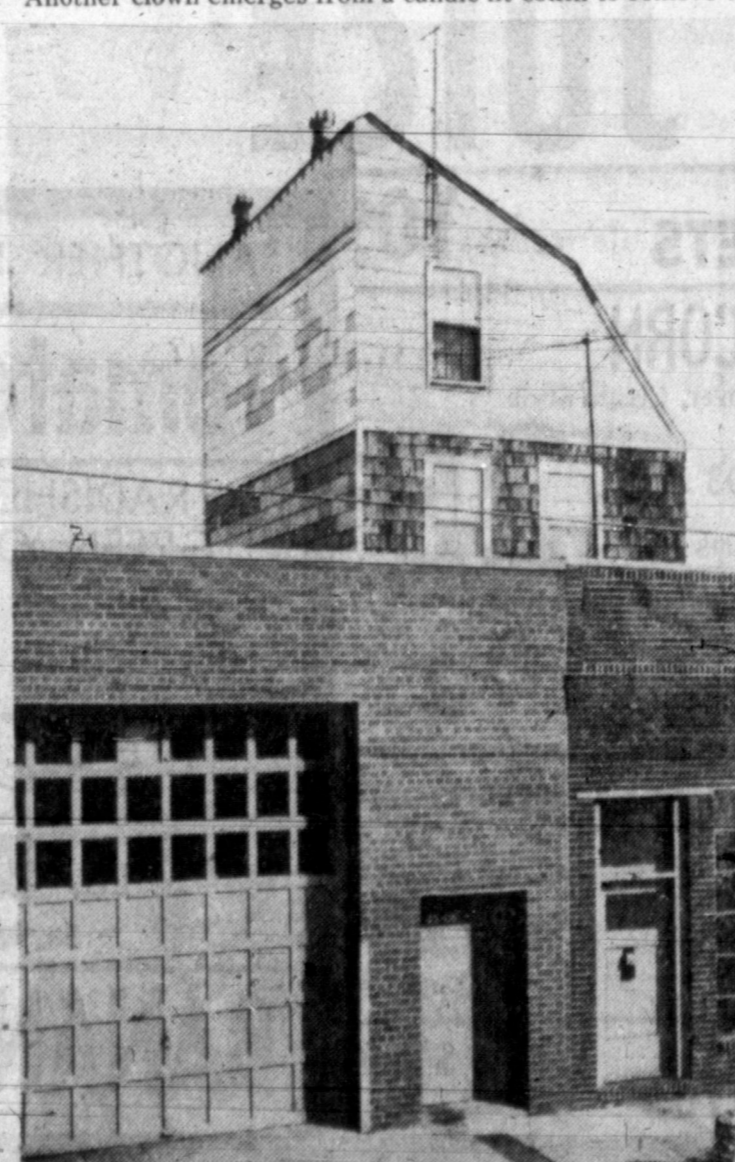

HERE THEY ARE!—During a visit to New York, comedian Phil Harris and his wife, former movie star Alice Faye, are shown at the Hotel St. Regis. The pretty Alice sang her way through a lot of musicals during World War II.

LEMME GO!—The ice cream cone held by young Mary Zishuk, of Brooklyn, N. Y., looks mighty good to Heckle and Jeckle, who are trying to get some of it. Mary was at Coney Island's annual opening, and the little monkeys live there.

SWAN LAKE BALLYHOO — Ballerina Helene Tralline achieved the effect of a painting come to life with the help of two Royal White swans in Naples, Fla. Miss Tralline is costumed as the Swan Queen in the famous "Swan Lake" ballet, and the two birds lend authentic aid.

HALFWAY HOUSE—It looks like just half a house, but this odd structure is a home to a family in Flushing, N. Y. The small frame house is perched atop the roof of a busy garage, and it seems to be a perfectly good idea.

AVANTE GARDE — A different idea in men's suits is this style of summerweight material. It's a single button, roll-over front that looks like a double-breasted suit, although single-breasted. Round notched lapels taper and pockets slant.

HAPPY BIRTHDAY!—Those words rang through a sound stage in Hollywood as members of the movie cast of "The Music Man" gave director Morton Da Costa a cake. Shirley Jones and Robert Preston, who star in the film, are beside him, surrounded by other players.

Laos Neutralist Leader Demands Provisional Rule

VIENTIANE, Laos (UPI)—Former Laotian Premier Souvanna Phouma today demanded formation of a provisional government and called for meeting in Communist-controlled territory to discuss details of effecting a cease-fire in Laos.

Souvanna, self-exiled neutralist leader who is recognized as legal premier by the Communists, issued a statement in Hanoi, Communist North Viet Nam, accepting the cease-fire agreement arranged by Britain and the Soviet Union.

The ex-premier said that to bring about an effective peace in Laos it was essential to enlarge the government and transform it into a provisional coalition government with the participation of various parties.

Souvanna said he had invited the representatives of the Communist Neo Lao Haksat party, political arm of the Pathet Lao movement, and the "Savannah group"—the royal Laotian government in Laos—to send delegations to Xieng Khouang in northern Laos on Friday to discuss his proposals.

The Vientiane government did not respond immediately to Souvanna's demands. But first indications were they would be difficult for the pro-Western government of Premier Prince Boun Oum to accept.

Laotian Foreign Secretary Chao Sopsaisan had told a news conference Tuesday that the royal government would accept the cease-fire bid despite fears of bad faith by the Communists.

WASHINGTON (UPI)—The United States may have received a setback in efforts to solve the Laos crisis by Laotian neutralist leader Souvanna Phouma's sudden cancellation of his trip to Washington.

Souvanna, former Laotian premier now visiting Nikita Khrushchev in Russia, called off his Washington trip Tuesday night in an apparent huff because Secretary of State Dean Rusk would be out of town Thursday, the day he wanted to come.

Officials here said it was too early to predict what effect this would have on negotiations for a cease-fire in Laos. It would depend partly on what agreements Souvanna, a powerful figure in Laotian politics, made in Russia.

Souvanna had been scheduled to come Tuesday or today, but delayed the trip to visit Khrushchev at his Black Sea resort. Rusk had a long-standing speaking engagement in Atlanta Thursday and asked Souvanna if he could come later.

Chicago Schools Lethal Weapons Inquiry Ordered

CHICAGO (UPI)—The Chicago School Board has ordered regular student inspections for lethal weapons and a grand jury was summoned in the book vault fatal stabbing of an elementary school teacher.

Outlined by Supt. Benjamin C. Willis, the plan orders schools to begin "immediately and maintain a periodic inspection of pupils for knives or other weapons" and to call on police where necessary to enforce the order.

State's Atty. Daniel P. Ward said he would present evidence in the six-day-old slaying of Mrs. Josephine Keane, 45, as soon as witnesses could be assembled.

Mrs. Keane's confessed slayer Lee Arthur Hester, 14-year-old Negro fifth grader, kicked and fought his way Tuesday through a coroner's inquest that recommended he be held for the grand jury on a murder charge.

Witness Claims GE 'Veep' Knew Of Price Fixing

WASHINGTON (UPI)—A former General Electric executive said yesterday one of the company's vice presidents agreed in 1958 that, "unpleasant as it is, GE would have to meet with competitors to stabilize prices."

The executive, George E. Burens, who rose from a 33-cent-an-hour stock clerk to \$127,000 a year division chief, identified the vice president as Arthur S. Vinson.

GE has vigorously defended Vinson. It has said his innocence is vital to the claim that the company itself did not condone and certainly did not authorize collusion with competitors.

Testifying before the Senate anti-trust subcommittee, Burens described in detail a 1958 lunch meeting in a roped-off section of GE's executive dining room at which Vinson allegedly discussed a disastrous drop in prices for heavy equipment.

Burens said Clarence E. Burke, a general manager, asked Vinson whether GE executives should meet with competitors to stabilize prices.

"Well, unpleasant as it is," Burens said Vinson replied, "we'll have to meet with competitors, but keep it at the general manager level."

Chairman Estes Kefauver, D-Tenn., said top management officials at General Electric were like college presidents who say they don't know some of their football players get paid.

Rugged Traveling

WILMINGTON, Del (UPI)—For the fourth consecutive year, Boy Scouts in the Del-Mar-Va Council, Inc., will sponsor rugged canoeing expeditions into Minnesota and Canadian wilds, according to the tri-state council's headquarters here.

They will be held from June 18 to July 5, 22 miles northeast of Ely, Minn., and three miles south of the Canadian border. The expeditions will carry crews deep into Canadian territory.

Mann said the Mexican attitude toward Communism in Cuba is based largely on Mexico's traditional belief in non-intervention. Asked whether he was optimistic about U.S.-Latin American relations, Mann said, "I would rather say we are faced with a great challenge to maintain democracy and hemispheric solidarity."

Newspapers Of Nation Declared Most Vital Public Service Force

NEW YORK (UPI)—The American Newspaper Publishers Association convention heard reports yesterday on the ever-increasing strength and importance of daily newspapers as vital forces in their communities and the world at large.

Various ANPA special committees presented reports to the more than 1,200 convention dele-

gates from the United States and Canada at an open morning session. The afternoon was devoted to a meeting of the ANPA Bureau of Advertising.

Mark Ferree, president of the ANPA and executive vice president and general manager of the Scripps-Howard newspapers, opened the morning session with an appraisal of contributions to

the public welfare made by daily newspapers.

Ferree said he believes the newspaper of America represents "the greatest single force that exists anywhere for service to the public, for the good of the local community, and in the aggregate, to the nation as a whole."

"It is, I submit, not only unmatched, but the race with any other form of communication in this particular phase is no contest," he said.

Ferree said that the position of the daily newspaper as the first essential and main support of

Oates of Pampa (417 North West) will present a research paper on "The Civil War in Texas" at the annual meeting of the Texas State Historical Association, scheduled Friday and Saturday (April 28-29) in Austin. Oates is a research associate in history at the University of Texas, where he is working toward a doctoral degree. He has Bachelor of Arts and Master of Arts degrees from the University, and also has attended Montana State University.

Communism Seen As Big Problem In Latin America

WASHINGTON (UPI)—Thomas C. Mann, ambassador designate to Mexico, says he believes Communism is a bigger problem than economic development in Latin America.

Mann, former Assistant Secretary of State for Inter-American Affairs, said Communism is the root of most political troubles in the area.

Mann of Laredo, Tex., also told the Senate Foreign Relations Committee, which is considering his nomination, that communications is the major problem in U.S.-Mexican relations.

Mexico needs a better understanding of U.S. viewpoint, Mann said. On the other hand, the United States must understand that Mexico is primarily concerned with achieving an economic growth rate to meet a rapidly expanding population.

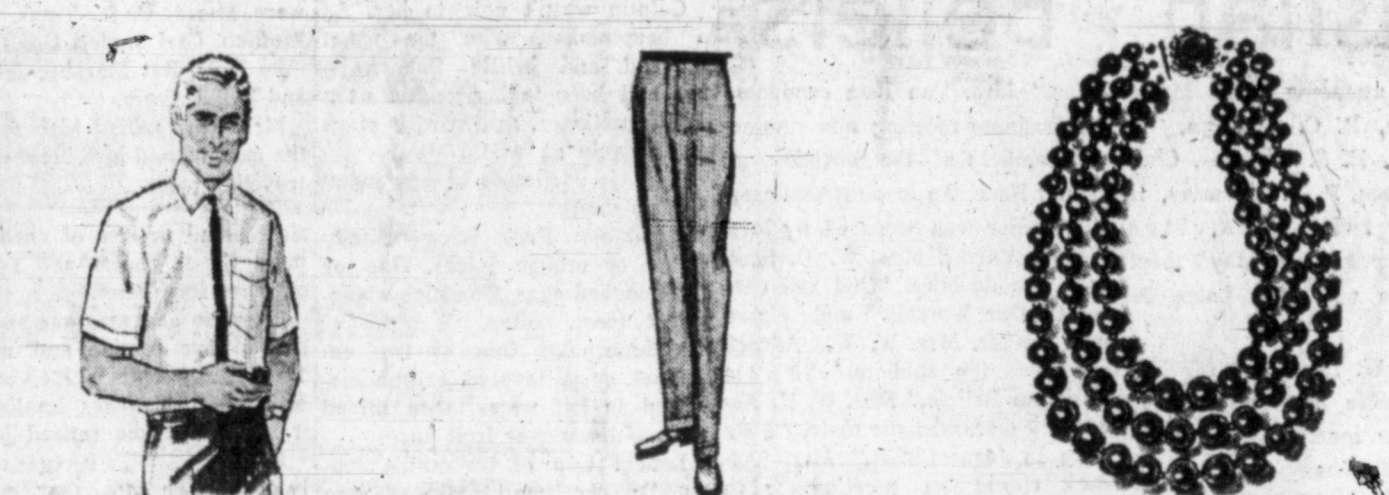

Mann said the Mexican attitude toward Communism in Cuba is based largely on Mexico's traditional belief in non-intervention. Asked whether he was optimistic

This is the pictorial story of a star who overcame a weight problem in order to return to the limelight. The star is dancer Eleanor Powell (left) as she looks today. She regained her trim figure, after letting her weight shoot up to

157 pounds, by a careful high protein diet (center). And of course, she exercised. This is the way she looks today (right) at the age of 48. Determination was her chief weapon in fighting her weight battle.

Canadian PTA Names Officers

CANADIAN (Spl) — The annual Fathers' Night and election of officers for the Canadian Parent-Teachers Association was held recently.

Named as president of the group was Mrs. Calvert Norris. Mrs. Keith Rudy, first vice-president; Mrs. Charles Brown, second vice-president; Mrs. Creed Petree, third vice-president; Mrs. Loren Blackmore, secretary; and Mrs. Warren Harrington, treasurer.

The devotional was given by Father Lang. The program was given by speech students of Canadian High School under the direction of Mrs. Bill Waits. John Rogers spoke on "How Effective is

Star Is Born Via Weight Loss

Many housewives and career women over 40 have a tendency to accept the loss of a svelt figure as something that comes with maturity.

The triumphant return of Eleanor Powell, former screen star to a top place in the entertainment world, proves that this kind of thinking is fallacious.

Eleanor Powell gave up her dancing career in 1946 to take care of her family. She admits that she progressed from a slim 123 pounds to a buxom 157. And as her weight went up, the possibility of doing

strenuous exercise went down proportionately.

A year ago, when her marriage terminated, she was urged by her 16 year-old son to put herself back into trim and to think of a show business comeback. The result is history of a kind. But the intervening year is a story of determination and will power.

Knowing that a quickie "fad" diet would unfirm her skin tissues, Miss Powell decided to take a year in which to lose the necessary weight.

She placed herself on a high-protein, low-calorie diet — lean meat, vegetables, fruit, eggs, cheese and skim milk. And her constant diet supplement, to appease hunger pangs, was, and still is, unflavored gelatin.

Gelatin wasn't new to her. As a homemaker, with the usual cracked and brittle fingernails, she had been taking gelatin as a nail conditioner. And now, it plays a new role as well.

Here is a sample of her menu for one day:
Breakfast: Fruit juice (usually prune or orange juice). One or two poached eggs. One slice whole wheat toast, coffee.
Mid-morning: One or two envelopes of unflavored gelatin dissolved in hot water, then mixed with cold water or fruit juice.
Lunch: Cup of consommé (optional); one small paty of rare sirloin, sliced tomatoes or small helping of unbuttered vegetable.

HD Club Has Skit On Labels

GROOM (Spl) — The Country Neighbors Home Demonstration Club met recently in the home of Mrs. Walter Ollinger. A skit entitled "Labels" was presented by Mmes. Walter Ollinger, W. H. Ollinger, Thelma Pool and George Latta.

Mrs. Jane F. Fletcher, Carson County agent showed some steps in covering shoes. At the business meeting plans were made for the district meeting.

Mrs. Walter Ollinger served refreshments to Mrs. Victoria Manderville, Mr. W. H. Ollinger, Mr. Jane Fletcher and Yvonne Ollinger, guests; and to members Mmes. Mary Kuehler, J. A. Quirk, Joe Britten, George Latta and Thelma Pool.

Baptist Circles Meet For Study

GROOM (Spl) — The ALTRA ALLISON and the AUDREY WOODS Circles held a joint meeting recently in the home of Mrs. Danny Ashford. Mission study was led by Mrs. Billy Burgin.

Those attending were Mmes. E. D. Paynor, T. G. Fields, Carol Brewer, Earl Barker, R. Frazier, Danna Howerton, Billy Fields, Eulice Monroe, Fred Brown, Jack Bivens, Rudolph Tucker, Donald Ritter and Viola Harrell.

The VADA WALDRON CIRCLE of the Baptist WU met recently in the church. Mrs. Floyd Knight and Mrs. Frank Terbush were hostesses for the meeting.

Those attending the meeting were Mmes. Robert Milton, Corrine Wheeler, Floy Knight, R. T. Foster, Viola Harrell, Frank Terbush, R. A. Snyder, H. C. Swank, Guy Brown and Les Driskill.

Bridge Clubs Meet For Play

CANADIAN (Spl) — The Ace High Bridge club met with Mr. and Mrs. Tom Riley in the Dick H. Barton home recently.

Guests for the evening were Mr. and Mrs. Harry Wilbur Jr. Members present were Messrs. and Mmes. Tom Abraham, Francis McQuiddy, John D. Glenn, Ted Rogers, and Dr. and Mrs. Rush Snyder.

High scores for the evening of bridge were tallied by Mr. and Mrs. Rogers.

The Just For Fun Club met with Miss Lola Studer for dinner and bridge recently.

Guests for the evening were Mmes. William Karr, Morris Bennett, C. H. Hext, and Laura Belle Cornelius. Members attending were Mmes. C. R. Tipps, Harry Rathjen, Carl Studer, Orrin Gross, Tom Hext, Pat Murphy, Joe Reid, and Willis Ayers.

Mrs. Karr tallied high score for the evening and Mrs. Reid won the traveling prize.

Exercise and massage were added to her routine and now, in 1961, her weight is 124, and her waistline two inches smaller than it was when she retired in 1946.

Eleanor Powell's success certainly belies the idea that maturity and overweight must be synonymous.

Methodist Circles Study Basic Christian Beliefs

CIRCLE ONE of First Methodist Church met recently in the home of Mrs. Ray Wells with Mrs. Frank Stallings as co-hostess. Mrs. Glen Radcliff, chairman, reminded members to send Naomi Hare, conference daughter, a birthday greeting this month. Mrs. W. A. Wagner continued the study on "Basic Christian Belief" aided by Mrs. Frank Stallings and Mrs. Gene Hall. Members discussed compassion of beliefs, creeds, and the trinity of fifteen different religions. Mrs. L. M. Hicks closed with prayer. Members present were Mmes. Joe Donaldson, Elmer Radcliff, Victor Keyes, Frank Carter Jr., Malcolm Douglass, H. H. Butler, J. C. McWilliams. Mrs. D. W. Brown and Mrs. Edminster were welcomed as guests; Mmes. Duggan-Smith and Ray Thompson as new members. The next meeting will be with Mrs. Edminster, 2128 Aspen.

CIRCLE TWO met in the church parlor with Mrs. A. C. Young as hostess. Mrs. Gene Groom was in charge of the business meeting. Mrs. G. F. Branson gave the devotion on Paul's writings of "The Church of the Living God" and described the worship center prepared by Mrs. Melvin Stephens. Mrs. J. E. Thompson continued the study on "Basic Christian Beliefs" assisted by Mrs. Paul Bowers and Mrs. Carl Shafer. Members present were Mmes. Cleo Hoyler, J. B. Denson, Lee Harrah, Bernard Johnson, F. J. Rader, B. R. Carmichael, Wiley Davi, Aubrey Steele, Robert Burns, Joe Hayes, Ronald Beard, Eben Warner Jr., W. L. Rountree. The next meeting will be with Mrs. Carmichael, 1708 Dogwood.

CIRCLE THREE met in the home of Mrs. Doyle Osborne with Mrs. Clarence Lutes, chairman, conducting the business meeting. Mrs. J. L. Colville reported there will be an informal study on the Book of Acts during June and July. Mrs. C. F. Richardson announced that the Bell Choir will hold a rummage sale May 26-27. Mrs. Betty McCauley sang, "Oh Master of the Loving Heart." Mrs. Knox Kinard led the study of "Basic Christian Beliefs" assisted by Mrs. Clarence Lutes, who reported on "I Believe." Closing prayer was by Mrs. Lutes.

Members attending were Mmes. Tom Atkin, R. C. Goodwyn, W. H. Nichols, E. S. Williams, Chester Thompson, P. B. McCauley, H. H. Keahey and a guest, Mrs. Frank Culberson. The May 3 meeting will be with Mrs. Lutes, 201 E. Nicki.

CIRCLE FIVE met in the home of Mrs. H. R. Thompson with Mrs. O. G. Smith as co-hostess. The meeting opened with singing of "What A Friend We Have In

PERSONALITY — Representing their high schools at the annual Plains Personality Pageant at West Texas State College in Canyon recently were, left, Sherrill Miller and Miss Barbara Henry of Pampa High School and

right, Mickey Archer and Miss Betty Sue Lewis of LeFors High School. The couples were presented during ceremonies along with West Texas' King and Queen of Personality, Miss Judy Nesloge of Pampa and Bill McKenzie of Levelland.

Dear Abby... Be Sure Of Line Salesman's Selling

By ABIGAIL VAN BUREN

DEAR ABBY: What do you do when a boy calls you his "buddy" but you want to be closer than that?

This boy calls me almost every night. He always tells me his troubles and asks for my advice. But when a school dance or something like that comes along, he always asks another girl to go. What should I do?

ONLY A BUDDY
DEAR "BUDDY": Rarely does a romance bud between a young man and the girl he calls his "buddy." Accept the probability that this boy likes you like a "sister," and don't hope for anything more. Don't drop him because the more "buddies" a girl has, the better her chances are for a boy friend. Every buddy has a buddy, and one of these buddies can become your beau!

DEAR ABBY: After 8 months of marriage I am seriously considering filing for divorce, but I want to know if you think I am right. My husband was married before and has a ten-year-old son. The child lives with his mother. She refuses to accept the fact that she is no longer married to the boy's father. She will call here during the week to tell my husband that "Billy talked back," or "Billy said a naughty word." It seems to me that she should be able to handle these trivial matters herself.

Then, too, my husband goes to his ex-wife's apartment every Sunday to see the boy. He spends p.m. on May 18 in the conference room to turn their material over to the incoming chairman.

Attending the board meeting were Mr. Nichols; Mmes. Sears, Flynt, Cornutt, C. R. Howard, Thelma Bray, J. L. Chase, J. F. Gentry, J. R. Holloway, R. D. Wilkerson, Parks Brumley, James Hall, Derrel Högset and Don E. Cain.

DEAR ABBY: My husband wrote me a letter from the Hawaiian Islands, where he is stationed. He said all the women there had "moo moos" and he was bringing one home for me. Is that some sort of cow?

PETTY CHIEF'S WIFE
DEAR WIFE: No, it is a loose-fitting ladies' garment. And if the fad continues to spread, so will the ladies.

DEAR ABBY: Please tell that "let idiots marry idiots" idiot to be certain to follow his own advice and marry another idiot. I hope she turns out to be a "yesser" like his mother, as it's quite apparent he's like his father and needs someone to make him feel like a "big man."

Yes, Abby will answer your letter personally if you write to Richard's Drug, 111 N. Cuyler Mail Orders Filled

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX is a tiny tablet and easily swallowed. You must lose ugly fat in 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies or chewing gum. ODRINEX is a tiny tablet and easily swallowed. When you take ODRINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions, because ODRINEX depresses your appetite and decreases your desire for food. Your weight must come down because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX costs \$3.00 and is sold on this GUARANTEE: if not satisfied for any reason just return the package to your druggist and get your full money back. No questions asked. ODRINEX is sold with this guarantee by: Richard's Drug, 111 N. Cuyler Mail Orders Filled

Pointers On Entering High School Lee Topic

"Looking Forward To High School" was discussed by Cameron Marsh, Pampa High School principal and Miss Evelyn Milam, high school counselor, at Robert E. Lee Junior High PTA meeting held Thursday afternoon in the school auditorium with students of the ninth grade as special guests.

Miss Evelyn Milam, student counselor, explained the enrollment sheets that will be given to all ninth grade students. She said that each student would be given a handbook to help them in high school. She urged each student, who plans to enter college after high school graduation to find out now what the requirements are for entrance into that college. "If a student makes long-range plans now for either college or a vocational diploma, there will be no worries at graduation."

Mr. Marsh extended a pre-welcome to students who will be entering high school next fall. He said that by the time a student reaches high school, he is making his own decisions. "The responsibility of these decisions is yours and if it is correct, you will profit; but if you make a wrong decision you will be the one to suffer," he said. "We at high school are glad to help you. Your homeroom teacher will work closely with you."

Mr. Marsh went on to explain that a permanent record card is kept on every student who attends Pampa High School. "When a college or an employer requests a copy of the student's transcript, a photostat copy is made of this record card and sent to them." He stressed the importance of a good permanent record "not just for now," he said, "but for the years to come."

There is a glamorous side to high school," the high school principal pointed out. "We are proud of the green and gold colors of our Harvesters. But the glamor activities are important if you have put the proper importance upon your academic schedule. After all, it is the academic part that really counts in the long run."

Preceding the program, Bob Black was master of ceremonies for a Style Show directed by Miss Geraldine Rumpy, home economics instructor and with fashions modeled by ninth grade students. Misses Mary Davidson Sharon Cook, Patricia Overton, Patricia Collett, Sandra Tomson, Kathy

Larsen, Linda Taylor, Diane Hepler, Jean Franklin, Helen Moffett, Mary Jane McComas Mauna Davidson Susan Carr Diane Burns, Velda Rose, Judy Smith, Pam Huston, Linda McCoy, Toni Hawkins and Cheryl Combs.

A certificate was awarded Mrs. J. W. Flynt, Mr. Nichols and Mrs. Sears for attending 12 hours of the PTA study course. Members approved Mrs. J. R. Holloway's suggestion that three Community Concert student tickets be purchased for use by the music department. The president requested that all committee chairmen meet at 3

MAURICE PODOLOFF ... "this means war"

Young Tracksters Vie In City Meet

Athletes from the seven Pampa elementary schools began running in the annual city track meet today at Harvester Field.

Dwaine Lyon, meet referee, said the meet got underway at 12:30 a.m. and would conclude this afternoon.

PISTONS SIGN NOBLE

DETROIT (UPI)—The Detroit Pistons of the National Basketball Association have signed veteran guard Chuck Noble to his seventh season with the club, thus ending rumor that he planned to retire from professional ball.

'No Retreat' In Fight For Collegiate Talent

NBA Declares War On New Loop

CHICAGO (UPI)—"No retreat" battle plans have been posted by the National Basketball Association and its new rival, the American Basketball League, in the upcoming war for collegiate and pro cage talent.

Maurice Podoloff, president of the established NBA, said his loop was prepared to throw in "every legal resource" to block talent raids by the ABL.

Podoloff spoke at a Chicago meeting of NBA franchise holders who gathered to announce their draft selections.

At the same time, Kevin O'Shea whose San Francisco Comets are one of eight clubs in the ABL, said he too is prepared to battle till the last lawyer is exhausted. The Comets already have plucked two players from the NBA rosters.

"If there are any suits, we'll contest them," O'Shea said. "We are going on what our lawyers say, and they say that everything we've done is legal."

O'Shea said he could understand why some NBA owners "might be upset over the action. That's human nature."

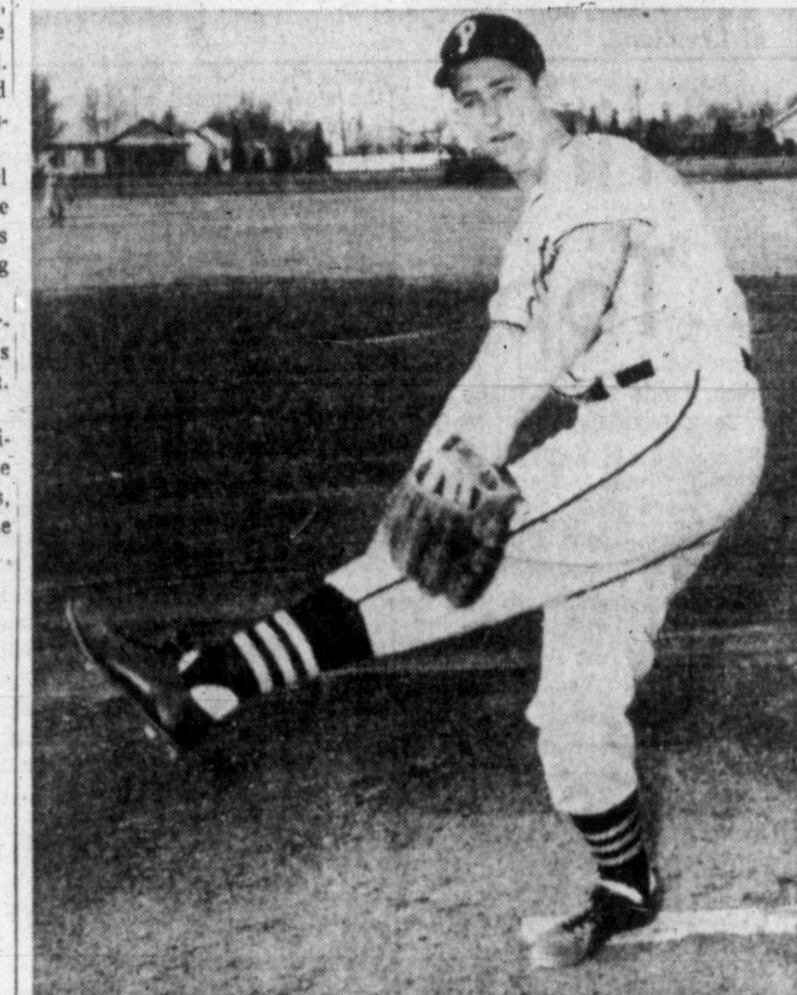

Podoloff and O'Shea both indicated the first case to lit the courts may involve Kenny Sears, a player who was lured to the

Comets from the New York Knickerbockers of the NBA.

Podoloff also cited the case of "Every remedy open to us in Bill Sharman, a player on the legal juris prudence will be followed by Boston Celtics who has signed lowed," Podoloff said. "Injunction coach the ABL Los Angeles team. damages against the player, I So long as he coaches, Podoloff don't know exactly. But we've got said, no action will be taken, since he has permission to coach. "But if he tried to toss a ball," he said, "he'll find himself in trouble."

"Every one of these players signed last year has a contract running until Oct. 1, 1961."

Pampa Seeks Win Over Tough 'Dogs

JUNIOR ACE — Mike Clark hides ball well as he comes off mound with one of his fast balls. Clark, a junior letterman, is 3-3 for the year and probably will get a chance for his fourth win tomorrow when the Harvesters trek to Borger. (Daily News Photo)

Pampa Travels For Encounter With Borger 9

Pampa's Harvesters today were pointing to the Borger Bulldogs, once one of the threats of the District 3-4A baseball race, in what may be the windup of Pampa's district season.

The game is slated for 4 p.m. in Huber Park in Borger and Coach Deck Woldt was expected to give Mike Clark (3-3) his final starting chance for the year in an attempt to move Pampa out of cellar danger.

The conjecture over whether tomorrow's game will be the last for Pampa came about as Amarillo Tascosa, supposedly a Harvester foe yesterday or today in a make-up game, has delayed the game again and some unconfirmed rumors have it that the Rebels have discontinued baseball after losing, 24-5, to Lubbock earlier this week.

At any rate, Tascosa seems to be putting off the game indefinitely and Coach Deck Woldt said many of the Harvesters must turn their talents to spring football training Monday and thus the game may be canceled completely since neither the Harvesters nor Tascosa is in the running for the title.

Borger, after losing four straight games over the last two weeks, has again turned tough this week, beating Amarillo, 2-1, on Tuesday and blanking Palo Duro, 2-0, yesterday on Johnny Wilson's four-hitter.

Pampa is working on a one-game cushion after edging Palo Duro, 2-1, on Tuesday as Jerry Glover hurled a three-hit job to outduel Steve Carter's four-hitter.

Borger triumphed the first time it played the Harvesters, winning 8-3 with a five-run explosion in the last inning.

Pampa's probable starting lineup for tomorrow's game will be Mike Stewart, catcher; Larry Stroud, first base; Jerry Glover or Ah Cullender, second; Butch Crossland, shortstop; Keith Gregory, third; and John Arthur, Roy Don Stephens and either Butch Frazier or Gerrel Owens in the outfield.

Other games tomorrow find Lubbock and Monterey meeting for the 3-4A title. Monterey was coasting along unbeaten until Plainview upended the Plainsmen, 5-0, on Tuesday and Monterey must win tomorrow to take the title. A Lubbock victory tomorrow would force the title into a playoff.

Also Palo Duro is at Amarillo and Plainview is at Tascosa in tomorrow's battles.

Art's Gallery

By ART MAYHEW
Last Shot To Watch Top Movie

SPORTS IN SPURTS FROM HERE AND THERE — Boosters of junior baseball in Pampa have only tonight to see a good movie on baseball and support the Little League and Pony League organizations.

The final two showings of "Angels In The Outfield," starring Paul Douglas and Janet Leigh, will be shown at 7 and 9 p.m. today at the LaVista theater, with all proceeds going to the junior baseball program in Pampa.

Harold Denny, the 6-7 Amarillo Sandie center, has signed a letter of intent to play basketball at Texas Tech. The all district selection was one of the few bright lights in the Sandies otherwise dismal season.

The NCAA, the sometimes stuffy, unrealistic governing board of collegiate athletics, finally let Auburn off the hook yesterday afternoon after a five-year probation, the longest suspension slapped on an NCAA school since the group was founded.

Actually, the big-hearted NCAA "let Auburn off" four months early as the probation was supposed to extend until September 1.

Auburn got in hot water for violating recruiting regulations and was put on probation on May 1, 1956. To add insult to injury, Auburn was caught violating the same rules during the first probation and an additional two years was slapped on.

Oklahoma University is still under probation for failure to submit records on aid to athletes but it is doubtful whether the Sooners will be allowed off until the non-committal Oklahoma City accountant who is supposed to know all talks.

Though Coach Bud Wilkinson probably would say different, it would seem that recruiting of Texas boys has been down, especially this year. The only ones that come to mind off hand are the Gravit twins from Denver City, two prize picks from our fair state.

Dexter Walthall, director of the Red River Trout Assn. at Red River, N.M., sends a note that trout season opens there May 1 and that he is expecting some of the best fishing in years.

In addition to state stocking, the association has been buying and stocking 15-24 inch Rainbows, ranging up to seven pounds, with those snagging above a 15-inch receiving a certificate and picture of angler and catch.

Ted Leach, Borger scribe, proudly announced a little over two weeks ago that Borger would win the District 3-4A baseball title. This momentous statement came right after Borger had downed the Harvesters, 8-3. Since then, Borger has won but two of six and already is looking forward to football spring training.

Speaking of football, for those who don't mind a short drive to Canyon Saturday night, West Texas State is winding up its spring drills with an inter-squad scrimmage.

The game is set for 8 p.m. and is free.

Get in on Chevy's brand of savings at your Chevy dealer's

TRUCK ROUNDUP

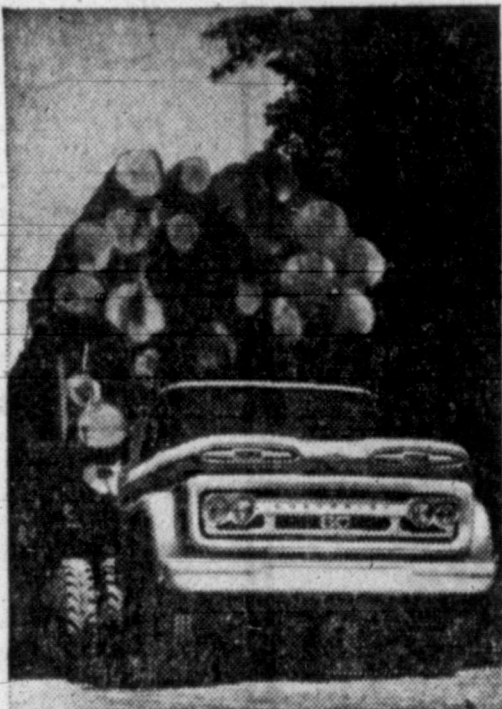

Western star Roy Rogers spreads the good word for your local dealer! "Now, during his truck roundup," says Roy, "your dealer's making it easier than ever to own America's easiest riding truck. That's Chevy — the truck that keeps going longer and saves you plenty with its own special brand of Independent Front Suspension."

Why don't you see your Chevrolet dealer soon and get a load of the prime truck buys he's got in every weight class!

Just pick the model that fits your job and you can be sure you're putting your truck dollars where they'll do the most good. You'll get a super-efficient power-to-capacity ratio, a truck that's Sturdy-Built clear through, a king-size cab to keep your driver happy. And savings that just naturally go along with Chevrolet's I.F.S. ride.

You save on maintenance. I.F.S. soaks up as much as 78% of all objectionable road shock and vibration before they reach the chassis and cab. Your truck keeps working extra thousands of miles! You can count on less tire abuse and better cargo protection. How in the world can you go wrong! Especially now — during truck roundup time!

Chevy's hefty 261-cu.-in. Jobmaster 6 is one big reason for the outstanding popularity of Series 60 middleweights. It's a bulky, barrel-chested 6 known far and wide for its dependable fuel-saving performance.

CHEVROLET LES TRUCKS

Chevy's famous Thriftmaster 6 does the saving in this Fleetside model. It's the most highly respected truck 6 ever put under a hood. It's best known for dependability—for pulling more loads over the years than any other truck

engine. The economical Thriftmaster's standard equipment in all Chevrolet pickups. For jobs that call for more power and performance in a pickup, specify Chevy's short-stroke Trademaster V8—optional at extra cost.
