## Cuba's Foreign Priests Told To Leave Country

HAVANA (UPI) — Premier Fidel Castro today forbade foreign priests hostile to his revolution to practice their religion in Cuba and said his "socialist" regime will take over all of the country's private schools.

In a 3 1/2-hour May Day speech, Castro declared also that a U.S. attack on Cuba would automatically start a third world war which "could convert New York City into another Hiroshima . . . a million American children might die."

Castro spoke to a crowd estimated by his government at more than a million persons at the end of a 1 1/2-hour May Day parade celebrating the defeat of last month's invasion of Cuba.

He was repeatedly cheered when he extolled his "people's government," which he said is better than elections. He said it is "elements outside of Cuba" which favor a return to democracy.

"Why do they want elections?" he asked. "To bring back the corruption of the old days? The regime of misery and hunger? . . ."

"We do not now have the exploitation of man by man as was the case in the 'old democracy.' Now we call it socialism."

Castro declared that all priests of foreign extraction in Cuba are

## Corporate Income Tax Considered

United Press International

AUSTIN (UPI) — The Texas House was scheduled to work today on a 4.5 per cent corporate income tax, aware that the general sales tax they passed earlier may be vetoed by the governor.

The corporate income tax, sponsored by Rep. Charles Wilson of Trinity, would raise an estimated \$104 million a year. It also calls for the repeal of a number of business taxes, leaving the state \$50 million a year in new revenue.

Rep. Reed Quilliam of Lubbock said he would attempt to postpone action on the bill to give members time to consider a compromise program he announced yesterday.

Quilliam recommended a graduated program of new spending to be financed by an abandoned property act, a road program fund transfer, an increase from 7 to 8 per cent in the gas production tax for one year, and a reduced corporate income tax.

In a letter to Wilson, who also sponsored the 2 per cent sales tax, Gov. Price Daniel said he expected lawmakers to make "substantial changes" in the levy or face a veto.

Daniel said he could not "in good conscience" sign the bill in its present form. He objected to putting "90 per cent of the ultimate tax burden on individual consumers as compared to only 10 per cent upon business and industry."

He said he hoped the legislature would enact "sufficient natural gas and corporate taxes to produce a final settlement which will meet the needs of our state in a fair and equitable manner."

House members Monday rejected an attempt by Rep. Don Garrison to place a constitutional limit of 2 per cent on any sales tax ever levied by the state.

Wilson's corporate income tax was offered in the House Revenue and Taxation Committee as a substitute for a levy proposed

# Space Trip Postponed

## Man Selected For Attempt Is Identified

CAPE CANAVERAL, Fla. (UPI) — Bad weather today forced a postponement of at least 48 hours in America's first attempt to put a man in space.

The decision to "scrub" the shot, originally scheduled for 6 a.m. CST, came at 6:35 a.m. after "prime astronaut" Alan B. Shepard Jr. had suited up for his historic venture.

Squally weather which set in Monday drenched the cape from time to time in today's early hours, but forecasters had hoped it would clear enough for a launching by noon.

By 6 a.m., however, Project Mercury weather men said the overcast "was not clearing out" and conditions looked hopeless for today.

For Shepard, 37-year-old Navy commander, from East Derry, N. H., the decision to postpone meant at least another two days of tense waiting.

He had been picked for the role of first U. S. spaceman last Saturday. His "backup," ready to go if anything should disqualify Shepard, at the last moment, is Air Force Capt. Virgil I. Grissom, 35, of Mitchell, Ind.

A National Aeronautics and Space Administration announcement said:

"An attempt to launch a manned Mercury spacecraft here today has been postponed due to bad weather here and in the recovery area downrange."

The pilot selected for the first manned flight was Alan B. Shepard Jr. He was prepared for the flight but held in the pilot's separation area. No new launch date has been set but the minimum recycle time is 48 hours. The pilot will remain in crew quarters in the NASA Mercury hangar here."

For the other five Mercury astronauts, all of whom have important shot-day assignments, and for the thousands of others in the Mercury program the postponement was a disappointment.

It was not, however, unexpected. The space agency, for the astronaut's safety, had set minimum wind and cloud conditions both here and in the recovery area some 290 miles down the Atlantic missile range.

The 33-ton Redstone rocket with the Mercury space cabin sitting on its nose had been fueled to blast off from pad No. 5 if the clouds should break up. They didn't.

The rocket now had to be drained of its liquid oxygen. (See MAN, Page 2)

## Airliner Forced To Fly To Cuba

MIAMI (UPI) — A stocky gunman forced the pilot of an American passenger plane to fly to Havana Monday and asked to be taken to Fidel Castro, whom he wished to warn about an alleged assassination plot backed by Dominican Republic dictator Rafael Trujillo.

The two-engine National Airlines Convair was en route from Miami to Key West with 11 passengers when the knife-and-pistol-wielding passenger commandeered the aircraft and forced it to fly over anti-aircraft batteries at Havana.

The man, described by airline officials as "a Cuban looking fellow," boarded the plane under the apparently fictitious name of El Pir Confesi.

The pilot, Capt. F. X. Riley, 44, of Miami Shores, was allowed to return to the United States after questioning by Cuban authorities and the airliner went back to Miami. "Confesi" was whisked away to an unknown destination by Cuban military officials.

Riley said the plane was airborne when Confesi wearing a hat and sunglasses, "came into the cockpit, put a knife on me and held a pistol on the co-pilot."

"He said he would shoot me if I did not go to Havana," the pilot told Federal Bureau of Investigation agents after the plane returned to Miami. "He said he had been offered \$100,000 by Rafael Trujillo to kill Castro and was

doing this so he could tell Castro about it."

The passengers were questioned in Key West by immigration officials on their return. Riley and the rest of the crew were allowed to bring the plane back to Miami.

Blinding rain, violent winds and hail the size of baseballs spewed out of a line of thunderstorms that battered North Central and East Texas again last night, causing a quarter of a million dollars worth of damage at Nacogdoches.

At least two deaths were blamed on the weather. The thunderstorms struck Nacogdoches as a wide strip of Texas from the Gulf of Mexico to the Red River lay under a severe weather alert.

Six airplanes and two hangars at the Nacogdoches airport were destroyed, and estimated \$150,000 worth of damage. And a \$25,000 screen at a drive-in theater was battered to the ground.

Several garages and barns were toppled and a number of homes were damaged by the high winds, clocked at 65 miles per hour. Hundreds of windows were smashed by the hail.

In Dallas, a rain-slick street was blamed for the automobile accident that killed two youths and injured two others. Their car skidded on a slight curve and smashed into the 1100-block of Neel Rd. Do you know where your sons were at that time?

Chief Conner agreed that 10:15 p.m. is too late for youngsters he is out roaming the streets. He issued a plea to parents to talk to their children and insist that they be at home.

Police patrol officers have their instructions, Chief Conner said, to cruise the city nightly in a stepped up effort to stop the wave of window-peeping.

## Crowd On Hand As Youth Center Starts Operating

Pampa's new Youth and Community Center did a "land office business" on its first day of operation, according to Doug Halley, director of the center.

The new \$200,000 recreational plant was dedicated Sunday and opened activities yesterday morning with a women's swimming class.

But last night the building was jammed with teenagers making the most of their first opportunity to take advantage of the new facilities.

Director Halley said more than 200 boys and girls swamped the Center between 7:30 p.m. and 9:30 p.m. yesterday.

"The indoor swimming pool was seething with youngsters," Halley said, "and all of the game room facilities were in use."

It became necessary to put on an additional lifeguard at the swimming pool, Halley said.

Fred Neslage, vice president of the Center's board of directors and Ed Myatt, a director, were at the Center last night assisting Halley in handling the overflow crowd.

"It was wonderful," Neslage said this morning, "to see those happy youngsters making use of the recreational advantages which the long-needed youth center provides for the youth of the community."

While he was dragging the corpse toward the grave he slipped away, joined a band of nearby laborers and finally escaped from the camp.

Later he was recaptured, taken under a different name to the same camp and put to work in a "death brigade" charged with destroying all evidence of the Nazi extermination of the Jews.

"At one time," Wells said, "I was employed in exhuming a mass grave of the 182 persons with whom I had been condemned to death the preceding year. We spent two days looking for the missing body, which, of course, was mine since I was listed as dead."

Scattered light rains forecast. Scattered light showers are possible in Pampa and vicinity late Wednesday, the weatherman said today.

Cloudy to partly cloudy skies was the forecast for today with slightly warmer temperatures predicted. High today was expected to be 65. Low tonight will be about 48 and the high tomorrow in the low 70's.

If it comes from a hardware store we have it, Lewis Hdwe. Adv.

## Secretary Rusk Cools Foreign Policy Critics

WASHINGTON (UPI) — Secretary of State Rusk's testimony on the Cuban crisis appeared today to have quieted congressional complaints about lack of foreign policy consultation with the administration.

This was the conclusion of several members of the Senate Foreign Relations Committee as the group prepared to hear Central Intelligence Agency Director Allen W. Dulles at 1 p.m. CST, in its review of the administration's handling of the Cuban situation.

Dulles' appearance, originally requested by the subcommittee on Latin America, was expanded into a full committee session at the suggestion of subcommittee chairman Wayne L. Morse, D-Ore.

Morse said he felt the entire committee should be present so Dulles could be asked about the CIA's activities in other areas as well as in the unsuccessful Cuban

invasion attempt.

Morse, who has criticized the administration for its failure to consult his subcommittee in advance on the Cuban developments, said he expected no further trouble on liaison with the State Department.

But he also said he would not withdraw his previous criticism of the administration's role in the Cuban fiasco.

Rusk assured the senators the Kennedy administration has "no plans to proceed in any way in armed intervention in Cuba."

He also told Morse's subcommittee that the decision to launch the invasion was made by Cuban refugees and carried out by them. He said this country provided substantial financial aid, supplies and trading.

Search Of Mass Grave Bared In Eichmann Trial

JERUSALEM (UPI) — An American Jew told today how the Nazis forced him for two days to search through 182 corpses for his own body. He had been on the death list, escaped and had been recaptured under another identity.

Dr. Leon Wells, 36, of Fort Lee, N.J., was a man with a charmed life. Yesterday he told how he had a shovel in his hand and was digging his own grave when a Nazi SS officer detailed him to go back to the concentration camp and bring a corpse for burial.

Reds Continuing To Defy Truce

VIENTIANE, Laos (UPI) — Pro-Communist Pathet Lao troops were reported advancing into northwest Laos today in defiance of cease-fire appeals by the major powers and the pro-Western government.

Planes arrived in Luang Prabang with refugees fleeing the rebel advance. The pilots told UPI Correspondent Michael Malloy in the royal capital that the Communist-supported forces had captured the town of Na Mo and were driving on Nam Tha.

## Security Council Called Into Fifth Laos Meeting

WASHINGTON (UPI) — The United States today was considering sending United Nations observers to Laos, as well as possible SEATO military action.

A final U.S. decision on what to do about Laos and Southeast Asia awaited the unfolding of events there and further consultation among Allies.

President Kennedy summoned National Security Council for another 2 p.m. CST, meeting, the fifth in 11 days.

The administration kept its thinking a closely guarded secret, cautioning newsmen against speculation that it was leaning toward any one course.

Nam Tha lies almost on the Chinese border, about 95 miles north of Luang Prabang and is one of the few in northern Laos capable of handling the royal army's C47 supply planes. It also is the site of one of the jungle hospitals built by the late Dr. Tom Dooley.

The drive appeared to reflect a Red decision to bypass Luang Prabang in favor of grabbing control in the previously quiet northwestern area of Laos.

Roving U.S. Ambassador Averell Harriman said Monday night after conferring for two days with Laotian leaders that the U.S. position on the 14-nation conference or any other phase of the peace plan agreed to eight days ago has not changed.

"The purpose of such a conference is to insure the neutrality of Laos," he said.

He declined to discuss the possibility of U. S. military intervention in the face of the continued rebel successes but he said it was "quite obvious" Communist North Viet Nam had contributed both arms and men to the rebel cause.

Padre Island Measure Gets House Approval

AUSTIN (UPI) — The Texas House Monday passed a bill conveying 88.5 miles of Padre Island to the federal government for use as a national seashore.

Backers of the bill fought off an attempt to reduce the size of the seashore area to 65 miles. Senators are still deadlocked on their version of the bill.

Rep. George Preston of Paris, author of the House measure said the bill would guarantee mineral rights to present owners. But Rep. Rayford Price of Frankston won approval of an amendment to convey state deeds to the federal government only if state mineral leases are protected.

Another amendment added over Preston's objections would request the federal government to build a road the length of the island from Corpus Christi to Port Isabel. It would also request a causeway linking Port Mansfield to the island.

Rep. Bill Rapp of Raymondville won approval of the road and causeway request by a 75-49 vote, but was turned down 68-49 in an attempt to exclude five miles in Willacy County from the seashore area.

Rep. J. Collier Adams of Lubbock was defeated 83-27 on another amendment to change the plans for a federal seashore to a state park.

Rep. Ben Lewis of Richardson

PRESIDENT VISITS CELANESE PLANT — Harold Blanche, center, of New York City, president of the Celanese Corporation of America, in Pampa today, discusses plant activities with Donald T. Beeman, personnel manager, left, and Herschel Wilks, Pampa plant manager, right of the Pampa Celanese plant. Blanche was in Pampa today to present the Harold Blanche Safety Award to the Pampa plant for 2 million man hours without injury in 1960. This is the highest safety award in the corporation. An awards presentation banquet will be held tonight in the Pampa High School Field House for all Celanese employees and their families. (Daily News Photo)

## Physician Fined \$3,000 By Court

SAN ANTONIO (UPI) — Dr. David F. Davis, a prominent San Antonio physician, was fined \$3,000 and given a three-year suspended sentence Monday in federal court.

He had pleaded guilty to a three-count federal charge in connection with prescriptions he had written and had filled for his wife, Mrs. Nancy Davis.

"She was killed in a 'fall' in their fashionable home on Jan. 3, 1960.

Cliches Of Socialism

On today's editorial page, the following cliché of socialism is examined for both its substance and logic:

"Man is born for cooperation, not for competition" OR "The idols of the market place must yield to those of humanity."

Complete brake service, wheels balanced, Bear equipment used. Pampa Safety Lane, 411 S. Cuyler. Adv.

Youth Held For Stabbing Woman

EPHRATA Pa. (UPI) — A 13-year-old seventh grade pupil was held today for the stabbing of a young mother whose nude body was found beside her bed.

Police said Anthony Madlem admitted the slaying. The 5-foot, 4-inch, 210-pound youth could give no reason for his action except that he had "an urge" to kill.

Madlem, whose mother is dead, occupied a first floor apartment with his father in the building where the victim, Mrs. Joan Fink, 21, lived with her husband and two young children.

## Peepers Are Given Warning

Pampa Police Chief Jim Conner said today a surge of window-peeping is sweeping across the city.

"And it had better stop," the chief said "for the peepers are going to get into trouble."

Chief Conner said with the advent of warmer weather and open windows several reports of window peeping have been received within the past week.

The Pampa News received a note today which read: "Saturday, April 29, at 10:15 p.m., five boys were seen looking in a window in the 1100-block of Neel Rd. Do you know where your sons were at that time?"

Chief Conner agreed that 10:15 p.m. is too late for youngsters he is out roaming the streets. He issued a plea to parents to talk to their children and insist that they be at home.

Police patrol officers have their instructions, Chief Conner said, to cruise the city nightly in a stepped up effort to stop the wave of window-peeping.

**VETERANS PROJECT** — Members of Pampa Post No. 1657 Veterans of Foreign Wars, have purchased another wheel chair and presented it to the American Red Cross office to be used by needy residents of the community. Members present, seated left to right, are Jess Beard, commander; M. E. Mahan and Vernon Stuckey. Standing left to right, O. F. Kreimeyer, past commander; Harry Nelson and Jones Seitz.

**Dog License Tags Ready At City Hall**

It's time for Rover, Fido and Fifi to get their new 1961-62 dog tags.

City Tax Assessor - Collector Aubrey Jones said today the tags are available now at the tax office in City Hall.

Actually, the deadline was May 1. However, the tag shipment became lost in the mail and did not arrive until yesterday.

So the deadline to get dog license tags has been extended until May 15. In order to get the tags dog owners must produce a vaccination receipt. A city ordinance requires that Pampa dogs must be vaccinated once a year.

After May 15, the tax collector stated, dogs found running loose without their 1961-62 tags will be impounded.

Incidentally, the No. 1 dog in Pampa is owned by William A. Wagoner, deputy tax assessor, who bought license No. 1.

**W. M. Rhodes, Retired Cowboy, Rites Tomorrow**

MCLEAN (Sp) — Funeral services for William Mahtin (Dusty) Rhodes, retired cowboy, will be held at 2 p.m. tomorrow in the McLean Methodist Church with the Rev. J. B. Stewart, pastor, officiating.

Mr. Rhodes died at 5:10 p.m. yesterday in his home in McLean.

He was born in Johnson County on Oct. 14, 1875 and began his career as a cowboy at the age of 16 in South Texas. He worked for the Bar X Ranch until 1898 and then moved to the Old Spur Ranch in 1900. He was later employed by the RO Ranch near McLean in 1929, where he worked until his retirement in 1944.

On Dec. 23, 1906, he was married in Spur to Miss Lurah McClain. He was a member of the McLean Methodist Church.

Survivors included two sons, Avis of Shamrock, and Andy of Spearman; one daughter, Mrs. Tom Bogard of Bula; 10 grandchildren and five great-grandchildren.

One son, Sim, preceded him in death in June 1947.

Funeralbearers will be Jack Burr, Cicero Turpin, Gordon Billingslea, Buck Glass, Jake Chamberlain and Ruford Blackwell.

Interment will be in the Citizens Cemetery in Clarendon.

**Two County Boys Win 4-H Awards**

Richard Bowers and Steve Maddox, members of the Gray County 4-H club, won first place awards in the district 4-H demonstration contest held at West Texas State College in Canyon recently.

The demonstration was entered in the Farm and Ranch Management class. The title of their demonstration was, "Increasing Income From Beef Cattle by Utilizing the Benefits of Capital Gains."

The 4-H boys will compete in the state contest, June 7 at Texas A&M.

**Billfold Vanishes In Downtown Store**

Mrs. W. W. Russell, 1158 Terrace, reported to police she left a billfold on a counter in a downtown store yesterday afternoon.

When she discovered the loss, Mrs. Russell said she returned to the counter a few minutes later and the billfold was gone.

**Mainly -- About People --**

The educational committee of the Society of Petroleum Engineers in the Panhandle area will hold a study group meeting tonight at 7:30 in the Flame Room of the Pioneer Natural Gas building in Amarillo. The group will discuss the Red Cave reservoir development. Election of officers will also be held.

Louise Giddens has re-opened her Beauty Shop at 313 N. Faulkner and invites all her friends to come see her.

Mrs. Frank Robinson of Panhandle, PTA District 19 vice president Mrs. Jean Harris of Agua Dulce, state vice president, were Pampa visitors today in connection with the PTA City Council installation of new unit officers held this morning in the Lee Junior High auditorium. Mrs. Harris also conducted a Parliamentary Course for local officers yesterday in the First Christian Church.

**Communism Film Shown Optimists**

The film, "Facts About Communism," was shown at the meeting of the Pampa Evening Optimist Club last night. The film explained the growth of communism and its threat to the world.

Awards for perfect attendance at club meetings for five years were given to Homer Hollars, Herman Jeter, Larry Parsley, James Poole, Ollie Wilhelm and John Pharr. One year perfect attendance awards were given to Bill Brady, Cliff Davenport, Virgil Frasier, W. A. Gipson, Bill Jenkins, Nick Kadingo, Edd Lawrence, Lester Mason, Bill McDonald and James Scott.

Guests last night were Clay Crossland, Dale Imel, Henry Stevens and Pete Cooper.

**Man**

(Continued From Page 1)

dried, and made ready for another fueling. This will take a minimum of 48 hours.

Officials said the shot could be undertaken Thursday, if the weather is right, or Friday, if the Redstone had not been refueled again.

If the shot goes past Friday, however, it must be put off until next Tuesday to give the seven-ship recovery fleet time to come in, take on fuel, and get back on station.

Federal Space Administrator James E. Webb already had warned the public not to be disappointed if anything went wrong.

He said in a statement issued here Monday that "our first manned space flight is an important milestone in the progress of our space effort."

"But we must keep the perspective that each flight is but one of the many milestones we must pass," Webb said. "Some will completely succeed in every respect, some partially, and some will fail."

The pre-launch countdown had started Monday and was resumed early today with scientists, technicians, and crewmen checking and double-checking every piece of wire, every electronic gadget, every part of every system in both rocket and capsule.

**Man**

(Continued From Page 1)

the government will receive no compensation for their property.

"Owners, who are with the revolution will be indemnified and will continue working with the government," Castro said. "The students in those schools will remain and will pay no tuition."

(It appeared probable that the weapon of confiscation would be used against most of the 250 parochial schools which educate about 130,000 of Cuba's 200,000 privately taught school children the fate of 1,000-odd secular private schools, some of which have as few as a dozen pupils, was uncertain.)

Castro's charged that the church had refused to support his "revolution of the lowly."

"The church will gain the respect of the Cuban government when it practices without sectarianism of any sort — which is not done in the U.S., where the Negroes are discriminated against," he said.

**Kennedy Has Not Given Up On Laos, Congressmen Say**

WASHINGTON (UPI) — Democratic congressional leaders said at the White House today that President Kennedy has not "written off" Laos.

After a conference with Kennedy, they expressed confidence that the President would come up with the right decision for coping with the southeast Asia crisis.

They met with Kennedy at a breakfast session as the United States considered asking that United Nations observers be sent to Laos. It also considered asking Seato military action.

A final U. S. decision on Laos awaited the unfolding of events there and further consultation with America's allies, Kennedy summoned his National Security Council for another (4 p.m. EDT) meeting, the fifth in 11 days.

In addition to Laos, the Democratic House and Senate leaders in their weekly meeting with Kennedy discussed the Cuban situation.

Speaker Sam Rayburn expressed hope that other nations of the Western Hemisphere would "come along" with the United States in its future policies toward Cuba.

Asked about the international situation, Rayburn said laconically, "it isn't too rosy."

**City Commission To Discuss Bans On Sign Posting**

Discussion of procedure to be taken against persons posting signs and erecting sign boards on city property will be discussed at tomorrow's weekly meeting of the Pampa City Commission.

Commissioners also will be asked to approve payment of the city's portion of paving costs for improvements on S. Christy St., and set the bid date for purchase of the city's gasoline and oil for a one-year period.

This week's commission meeting was postponed from yesterday because of funeral services for a relative of Mayor E. C. Sidwell.

**Windows Smashed By Rock Tossers**

Joe N. Key reported to police that boys throwing rocks have broken seven panes of glass out of windows in a warehouse at 130 Osage St.

The warehouse is located near the Santa Fe Ry. tracks. Key said several boys were seen throwing rocks from the railroad bed.

"It is dangerous for youngsters to be playing on railroad tracks," Police Chief Jim Conner said today. "In addition to that, the parents of boys caught damaging property will be held liable for any loss."

### Mexican Lawyer Takes His Oath As U.S. Judge

BROWNSVILLE, Tex. (UPI) — Reynaldo Garza, 45, a Brownsville lawyer, took the oath of office as federal judge for the Southern District of Texas Saturday, becoming the first person of Mexican heritage ever to hold the high post.

The swearing-in ceremony, held in a civic center to accommodate an estimated 500 witnesses, attracted widespread attention in South Texas and the Rio Grande Valley.

President Kennedy, Vice President Lyndon B. Johnson and House Speaker Sam Rayburn all sent telegrams expressing regret that the "acute foreign situation" prevented them from attending the ceremony.

Federal Judge Allen B. Hannay of Houston administered the oath of office to Garza, who kept his left hand on a Bible during the oath-taking.

Garza then assumed judicial responsibility for 45 South Texas counties with a population of some three million persons.

Officials present at the ceremony included interim U.S. Sen. William A. Blakley of Dallas, U.S. Rep. Joe Kilgore of McAllen, Federal Judge Ben Connally of Houston, Federal Judge Joe Ingraham of Houston and Bishop Mariano S. Garriga, bishop of the Diocese of Corpus Christi.

Judge Hannay told Garza that judges "must render decisions with complete personal detachment."

Garza replied: "I want to be

### OUR ANCESTORS by Quincy

"Dodge City is getting too crowded—no place to park!"

### Comedian And Video Networks In Battle

HOLLYWOOD (UPI)—Comedian Stan Freberg is fighting with the networks again. This time over a new album which makes a shambles of American history.

Nobody will put it on the air. Stan isn't looking for free plugs. He can't even buy time from CBS nor NBC to let people hear his uproarious recording.

Further, a militant member of the Daughters of the American Revolution called to tell him her

the judge you want me to be."

"I shall always have in mind that humanitarian judge I am succeeding, the late James V. V. Allred," Garza said.

Garza's wife, three sons and a daughter and other members of his family observed the oath-taking.

After the public ceremony was held, a private luncheon honoring Garza was held.

### April Contracts In Construction Industry Mount

DALLAS (UPI) — April contract awards for the Texas construction industry hit a 10-year high, the Texas Contractor, a weekly trade journal, said yesterday.

Awards for the month totaled \$126,440, the highest since April, 1951. At the same time, the magazine said, the total so far this year was some \$20 million ahead of the corresponding period of 1960.

Contractors attributed the bullish month to good weather conditions.

Contracts totaling more than \$1 million were issued in at least 17 instances, the magazine reported.

Top award for the month was the \$27,000,000 job of building Unit Three of the Handley Power plant in Fort Worth (Texas Electric Service Co., owners) to the Westinghouse Electric Co.

R. E. McKee of El Paso was awarded a \$5,287,300 job of erecting the Thomason General Hospital in El Paso, while another \$5,378,440 bid by Elmer C. Gardner of Houston was successful for the job of a gated reinforced concrete spillway at the Waco Dam and Reservoir.

The magazine predicted that 1961 could be one of the best years in history for the state's construction industry if good weather continues and the state gets a "break on the federal highway program apportionments."

Non-residential awards for April, 1961 totaled \$55,607,773, engineering awards, \$70,833,15 for a grand total of \$126,440,928.

At Austin, the University of Texas Bureau of Business Research said that construction totaled \$130.3 million during March, a new record for the month.

It was a 36 per cent increase from February before seasonal adjustment. The index of total construction climbed 115.9 per cent of the 1957-59 average and represented a 19 per cent gain over February after a large downward seasonal adjustment.

Non-residential construction has continued to buoy construction upward as it did in 1960 with some help from additions, alterations and repairs. Both categories are up 24 per cent.

While residential construction is still somewhat depressed, March gains show encouragement and a possible end to the economic and home-building recession.

The index of non-residential construction stood at 151.1 per cent of the 1957-59 average, a 30 per cent gain over February and up 17 per cent from a year ago.

However, area non-residential construction has changed considerably from last year. Houston, the leader a year ago, dropped 32 per cent, while Dallas gained 194 per cent so far this year.

El Paso construction was up 306 per cent, Wichita Falls 107 per cent and Corpus Christi 106 per cent.

In the six major cities, March construction totaled \$4.7 million in Austin, \$22.4 million in Dallas, \$5 million in El Paso, \$4.8 million in Fort Worth, \$23.8 million in Houston and \$4.8 million in San Antonio.

### Navymen Planning 22-Mile High Trip In Helium Balloon

PENSACOLA, Fla. (UPI)—The Navy hopes to send two "sub-astronauts" to a height of 22 miles above earth later this week in a helium balloon.

The ascent will be made from the aircraft carrier Antietam in the Gulf of Mexico.

Cmdr. Malcolm D. Ross and Lt. Cmdr. Victor G. Peather will make the flight in a gondola suspended from a 2,000 pound, 411-foot high balloon to test the effects of high altitude on the body. Ross and Peather will wear pressure suits similar to those designed for astronauts in their attempt to reach a height of 116,000 feet.

Accident-Free COLORADO SPRINGS, Colo. (UPI) — The Air Defense Command has awarded its Certificate of Meritorious Achievement to the 62nd Fighter Interceptor Squadron, K. I. Sawyer AFB, Mich.

The award was in recognition of the squadron's completing 36 months of operation without an accident.

Finding Space WASHINGTON (UPI) — The Transportation and Communications Department of the U.S. Chamber of Commerce states that 94 per cent of all off-street parking in the U.S. is represented by the \$1 1/2 billion which private investors have put into parking facilities.

**Helps You Overcome FALSE TEETH Looseness and Worry**

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEREETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTEREETH at any drug counter.

### Dear Abby... Big Decision In Wrestling Match!

By ABIGAIL VAN BUREN

DEAR ABBY: I think you were way off the beam in telling that Marine's wife to let her husband and sons wrestle in the dining room provided they "put everything back" the way they found it. I never saw a man yet who put anything back.

MOTHER OF TWO MARINES

DEAR ABBY: Hooray for telling the Career Marine's wife to let her husband and sons wrestle in the dining room. It's better to have your husband home wrestling with his own sons in the dining room than heaven knows where wrestling with some babe.

SEMPER FIDELIS

DEAR ABBY: I am concerned about a change that has come over me. I know what is wrong, but I can't seem to control it. I talk, talk, talk. I speak rapidly and constantly, interrupt others when they are talking when I have nothing really important to say.

I can tell by the looks on the faces around me that people are disgusted with me and I can't blame them. I keep promising myself that I will keep quiet, but before I know it I am jabbering a mile a minute and I am frequently amazed at what I am saying.

I am 36 years old, have had a lot of surgery these past five years, and am inclined toward nervousness. I have always had good

sense and now I am asking for your help.

CHATTERBOX

DEAR CHATTERBOX: You are indeed a woman with good sense. The compulsion to "talk" could be a symptom of something your doctor should know about. Half your battle is won. You have admitted to yourself that you need help. Now, follow through.

DEAR ABBY: I am a divorcee and I would like to know once and for all what my name is. May I still call myself MRS. JOHN BROWN, or am I now MRS. MARY BROWN? Conflicting opinions have me bewildered.

DIVORCEE

DEAR DIVORCEE: You are MRS. BROWN (use your surname here) BROWN. You certainly should not continue to be MRS. JOHN BROWN. If your ex-husband marries again, what confusion would result in there being two MRS. JOHN BROWNS.

Yes, Abby will answer your letter personally—if you write to AB-BY, Box 3365, Beverly Hills, Calif., and enclose a stamped, self-addressed envelope.

Getting married? For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to AB-BY, Box 3365, Beverly Hills, Calif.

### Bennett Group Makes Bibs For Children's Home

The Bennett Group of the First Christian Church held its April meeting in the home of Mrs. Bob Swanson.

Mrs. Stella Bastin, group leader, gave the opening prayer. During the business meeting, Mrs. W. A. Patton gave the secretary's report.

Members approved participating in the CWF Kitchen Fund Drive by serving the Christian Men's Fellowship dinner in June. Mrs. Tom Rogers and Mrs. Charles Beard were appointed to plan the menu and make arrangements for the affair.

A devotional, "No Ye Therefore" was given by Mrs. Patton. Mrs. Wally Gibson presented a continuation of the study "One World, One Mission." She defined the word "ecumenical" which covered both unity and mission in the context of the whole world.

Following the study, members worked on plastic bibs for the Juliette Fowler Home in Dallas. Attending were Misses Homer Kessinger, Charles Beard, W. A. Patton, Stella Bastin, Wally Gibson, Isaac Doom and Bob Swanson.

One of the world's major companies, the National Ballet of Canada, numbering more than 80 persons, will appear in a full-scale production of the classic ballet, "Coppelia" tonight in the Pampa Junior High Auditorium with curtain time at 8 p.m.

Admission to the ballet is by Community-Concert Association membership only. The performance is being presented under the auspices of the Association as its final presentation of the current season.

The cast is headed by prima ballerina, Lois Smith and premier danseur David Adams.

Miss Smith joined the National Ballet of Canada when it was founded in 1951 and since has toured several countries as its leading star. She has appeared also as a star of the famed grandstand show at the Canadian National Exhibition, Toronto and on national television productions in Canada and the United States.

In her native Vancouver, Miss Smith had danced as a youngster with Theater Under the Stars and toured briefly with "Oklahoma," "Star of Norway" and appeared with the Los Angeles and San Francisco Civic Light Opera Companies.

One of the world's leading male dancers, David Adams had danced his way to international attention in Europe before returning to his native Canada when artistic Celia Franca founded the national company.

A husky six-footer, noted for his superlative leaps and splendid physique, Mr. Adams danced important roles with London's Metropolitan Ballet and with Sadler Wells (now the Royal Ballet) before returning to Canada.

After his early training in the city of his birth, Winnipeg, he was sent on a scholarship as a teenager to Sadler's Wells School in London. Later he danced with the Wells before joining the Metropolitan Ballet and was with the company 18 months.

Following one of his several appearances at Jacob's Pillow in Lee, Mass., critics said, "In his solos, he was lithe and crisp, bounding and turning in the air with ease and performing plies without tiring, a desired but too-often-achieved effect."

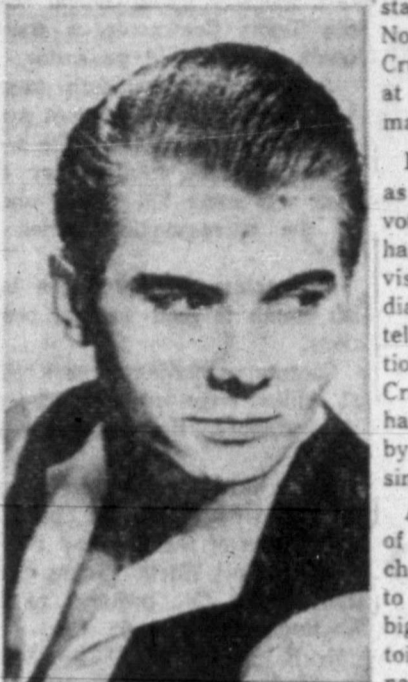

His hobbies include amateur astronomy, skin-diving, amateur movies, (he is compiling a filmed record of the company's repertoire) and has a well-appointed machine shop in a studio adjoining his West Toronto apartment, where he spends many hours when not on one of the company's extensive international tours.

The orchestra, which tours with the National Ballet of Canada, is

stage in Europe as well as in North and South America. Mr. Crum will conduct the orchestra at the Tuesday evening performance.

He made his professional debut as a concert pianist and later devoted his career to conducting. He has conducted many of the television operas staged by the Canadian Broadcasting Corp. and the television appearances of the National Ballet of Canada. It is Mr. Crum's proud memory that he hasn't missed a single performance by the National Ballet of Canada since its beginning in 1951.

A delightful legend and the first of the classic ballets based on the charming fantasy of a doll come to life, "Coppelia" is one of the biggest productions in the repertoire of the National Ballet of Canada. Peasant dances, lively and gay form the background for the rarely smooth romance of Swanilda and the fickle Franz, in love with a life-like doll in the mysterious workshop of the irascible Dr. Coppelius.

### District 19 Retiring PTA President Honored At Spring District Workshop

"As the Twig Is Bent—So Grows the Tree" was the theme carried out for the Sixth Annual Spring Conference of the 19th District of Texas Congress of Parents and Teachers held in Childress April 23-24.

Mrs. L. P. Shafer, state vice-president of Texas Congress of Parents and Teachers, was featured speaker at a banquet held in the Childress Hotel Ballroom honoring the District Board of Managers on Monday evening. Mrs. Doyle Alexander of Borger, historian of 19th District, presented the history of the past three years in the form of "This Is Your Life."

Mrs. James Lewis of Pampa, immediate past president, was presented a book with all the work of the District Board of Managers for the last three years illustrated with photographs.

New District 19 officers were elected to serve for the following three years. Mrs. L. P. Shafer installed the following officers: Mrs. Doyle Alexander of Borger, president; Mrs. W. A. Goad, Jr. of Wheeler, vice president; Mrs. Sam Reck of Phillips, vice president; Mrs. D. H. Ormsky of Memphis, vice president; Mrs. Frank Robinson of Panhandle, vice president.

Mr. W. C. Harter of Borger, corresponding secretary, and Mrs. B. V. Floyd of Borger, recording secretary.

A. L. Cordell, superintendent of schools of Wheeler, in evaluating the workshops, found that each group agreed that "through cooperation of us all we can turn back to a foundation of spiritual ideals instead of always thinking of physical needs, that the children are the best messengers between school and home, that all children everywhere are our responsibility. A special program for retarded children is stressed by some units in order that the children are able to find for themselves a place in society. One statement—"Don't ever let a stranger teach your child"—seemed to be a most important thought left with the group.

Mrs. Lewis conducted the sessions with Mrs. Gray L. Bean and Mrs. Charles Mock of Childress arranging the various events.

Mrs. Sam Reck, Phillips, recognized the outstanding work done on yearbooks and publicity record books. No awards were presented this year, but each book was rated.

From the 55 units in the District, 208 delegates and visitors registered at the conference.

LITTLE LIZ  
The government ought to be glad that this country's taxpayers have what it takes.

# Conservative Fashions Aboard Ship, Please

NEW YORK (UPI) — Some of the women sailing the bounding main ought to be kept below decks — unless they spruce up on their boating apparel.

So says John Weitz, a sportsman, designer of a variety of sports and lounge wear, and a pioneer in boating fashions for the fairer sex.

"Once and for all, no bikinis in port," said Weitz. "It is disconcerting to the skipper to have the guy on the deck of another boat all bug-eyed..."

"And no stretch pants. They just have no place on the water," Weitz, who owns a 30-foot cabin cruiser, also ruled out floppy hats on women, floral prints at sea, and dresses rather than trousers or shorts on board "unless you're on a big, formal yacht."

"And if you're using oil or other protective lotion," he added, "for heavens sake sit on a cushion or towel. Have you ever tried to scrub oil off a teak deck?"

The designer also took a swipe at the men who wear Hawaiian print shirts, or the traditional cap of the yachtsman — when they're on small craft.

Weitz, a lean and handsome man of six feet, two inches, recently switched his leisure hours from sports car racing to boating because the former took him too much time away from the job. His cruiser, the "Lady Eve," named for his wife, is moored at Sag Harbor, N. Y. Many of the Weitz designs are turned out aboard the craft.

"I have no quarrel with the clothes of the sailorboat set," said Weitz. "From dinghy on up, sailors wear functional clothing and that's good style. The powerboat people so far don't pay as much attention to functional clothes; they don't appreciate the water as much."

The designer believes future boating fashions should continue the tradition of clothes for sea. The sailor collar, for instance, has a good reason for being. Turned up, and anchored under a gobs hat, it protects the neck of the sailor from wind and cold.

Skipper blue, red, white and the yellow of oilskins also are traditional — because they are the easiest colors to see. "Let someone slip overboard in jade green," said Weitz, "and you'd have trouble finding him."

Weitz sticks to tried and true colors and fabrics in his first collection for a potential 39 million customers (the number Yachting

## RUTH MILLET

Women have often tried to be "just as good as men" in one endeavor after another. But it seems they have overlooked one bet.

We haven't even tried to compete in public good manners.

We make more noise in public than do men.

We cause more commotion in restaurants, taking longer to decide what we will eat, then often changing our minds and our order, etc. And for this extra trouble, we leave smaller tips than men.

We sit in waiting rooms, hotel lobbies, and all such public places and stare with hard, appraising eyes at every other woman who passes.

We repeat gossip and discuss intimate family affairs in voices shrill enough to be overheard.

We haven't men's knack for being friendly and at the same time impersonal with strangers. Instead we either appear aloof and standoffish or entirely too quick to become confidential on short acquaintance.

All too often we accept men's courtesies without thanks, apparently assuming that having doors held open for us is our natural right. It just hasn't seemed to occur to women that when it comes to public politeness men are 'way ahead of them, and that here would be a fine place to start showing the world we are 'just as good as men.'

## The Mature Parent We Need To Learn 'Why' Of Anger

As a child Mrs. W. shared a bedroom with her little sister.

Because of the little sister's lack of consideration, the arrangement made it impossible for Mrs. W. to maintain any order she had made. Hopefully every week she would reassemble Cora's clothes on the left side of the closet pole only to find them shoved back among her hangers the following day. Her school books were always getting lost under the jumble of Cora's so that she never could find one where she'd put it.

Mornings, as she would braid her hair for school before their mirror Cora would elbow her aside, pull open her bureau drawer and say: "Have you got my clean slip in here?" Since complaining of this situation only made their mama angry, Mrs. W. stopped complaining — and with increasing but unexpressed resentment endured the disorder forced on her.

Yesterday Mrs. W.'s 14-year-old daughter left the bathroom in a mess.

As her mother took it in anger tightened to fury in her chest. Calling Mona, she pointed a shaking finger at the items of disorder and asked God to tell her in what she'd done to deserve such an inconsiderate child. She said many other hurtful but ineffective things.

They were ineffective because Mona had no way of knowing that the intense anger she had exploded belonged not to her but to her Aunt Cora.

She is not aware of the sense of injustice accumulated by years of her mother's struggle with her younger sister's lack of cooperation. Nobody has ever told her that those years developed a special need for consideration in her mother.

All Mona knew was that her mother's anger was out of proportion to her offense.

We can't expect children to know why some kind of misbehavior explodes extravagant anger in us. So when we explode it, we have to wonder why an untidy bathroom, a broken promise, a criticism seems the very last straw to us. We have to wonder whether we have somehow confused the child who has affronted us with someone else who has affronted us.

We have to learn to ask ourselves: "Why does this special kind of misbehavior arouse such anger in me?"

in cruiser, also ruled out floppy hats on women, floral prints at sea, and dresses rather than trousers or shorts on board "unless you're on a big, formal yacht."

"And if you're using oil or other protective lotion," he added, "for heavens sake sit on a cushion or towel. Have you ever tried to scrub oil off a teak deck?"

The designer also took a swipe at the men who wear Hawaiian print shirts, or the traditional cap of the yachtsman — when they're on small craft.

Weitz, a lean and handsome man of six feet, two inches, recently switched his leisure hours from sports car racing to boating because the former took him too much time away from the job. His cruiser, the "Lady Eve," named for his wife, is moored at Sag Harbor, N. Y. Many of the Weitz designs are turned out aboard the craft.

"I have no quarrel with the clothes of the sailorboat set," said Weitz. "From dinghy on up, sailors wear functional clothing and that's good style. The powerboat people so far don't pay as much attention to functional clothes; they don't appreciate the water as much."

The designer believes future boating fashions should continue the tradition of clothes for sea. The sailor collar, for instance, has a good reason for being. Turned up, and anchored under a gobs hat, it protects the neck of the sailor from wind and cold.

Skipper blue, red, white and the yellow of oilskins also are traditional — because they are the easiest colors to see. "Let someone slip overboard in jade green," said Weitz, "and you'd have trouble finding him."

Weitz sticks to tried and true colors and fabrics in his first collection for a potential 39 million customers (the number Yachting

## Mrs. Morris Feted At Farewell Coffee

LEFORS (Sp) — Mrs. J. F. Morris was guest of honor at a Farewell Coffee given recently by the women of Coltexo Hill in the home of Mrs. B. T. Smith.

Mr. and Mrs. Morris will be moving to Louisiana in June, when Mr. Morris retires from Coltexo.

Attending were Meses. W. E. Dumas, Billy Keith, Carl Wall, Bill Wall, J. O. Wiggins, Tony Timmons, C. C. Mullins, E. A. Bryant, Sarah Smith.

magazine estimated spent leisure time on the nation's waterways last year.)

## Trio Of Negro Students Request Shift To Atlanta White Schools

ATLANTA (UPI)—Three Negro girls backed by a federal court order yesterday took the initial step necessary to break color barriers in Atlanta public schools.

Erma Lee Williams, Annie Ruth Dennis, both 11th graders, and Norene Colvie, a 10th grade student, obtained application blanks at the Atlanta Board of Education for transfer under a court-approved pupil placement plan. They want to enter white schools next fall.

Deputy Supt. R. W. Stevens said the girls, who were waiting for the school board office to open this morning, were "very nice, neat girls and very poised."

It was the first day under the plan, approved by U.S. District Judge Frank A. Hooper, for Negro students or their parents to obtain application forms for transfers from Negro to white schools.

Stevens said the Negroes must apply within 15 days to be eligible for re-assignment in September.

Miss Williams said she was seeking to transfer from the David T. Howard High School to the white Murphy High School in order "to save on transportation."

Miss Dennis, also a Howard student seeking reassignment to Murphy, said Murphy was "closer to her home. Miss Colvia, a student at the Booker T. Washington school, said she wanted to be re-assigned to Brown High School because it is more modern.

Stevens said the application forms now must be filled out by students' parents and delivered to the principals of their present schools. The notice of action taken by the school board under re-assignment requests will be mailed to the applicant within 30 days after

application is presented to the principals, he said.

Stevens emphasized that obtaining an application form in itself "doesn't mean anything" until the Negroes present the completed forms to the principals.

Under the desegregation plan, integration is to begin at the opening of the fall school term in September at the 11th and 12th grade levels.

Stevens said a majority of the white students and their parents in Atlanta "are willing, generally, to have some integration, if necessary, to avoid having the public schools from being closed out-right."

## Senator Roberts Reigns For Day As State's Chief

AUSTIN (UPI)—Acting Gov. Ray Roberts of McKinney focused attention on the industrial and recreational opportunities in North Texas yesterday as his first official act while governor for a day.

Roberts, president pro tem of the Senate, moved up to the state's highest office when Gov. Price Daniel and Lt. Gov. Ben Ramsey went to Mexico City.

"North Texas industry and Recreation Day" was proclaimed by Roberts as he held a reception for well wishers in the governor's office.

He also called attention to progress at East Texas State College which is in the senatorial district Roberts serves.

A reserve captain in the U. S. Navy with a background in aviation, Roberts also called attention to naval aviation in another proclamation. Other official duties during his day as governor included signing into law a bill Daniel left on his desk.

Daniel and Ramsey left Sunday on an inaugural flight to Mexico City and were not expected back in Austin until Tuesday.

Roberts said at a brief news conference that he was not a candidate for "permanent occupancy of this chair."

He declined to reveal political plans, but Roberts is said to be considering running for U. S. Congress.

## Pampa Students Plan To Attend Press Meeting

Five Pampa High School journalism students will be among the 600 student journalists and their teachers from all parts of the state attending the Interscholastic League Press Conference Thursday, Friday and Saturday at the University of Texas in Austin.

The three day affair will open Thursday night with a reception in the University Student Union building.

Featured convention speakers this year will be William Steven, editor of the Houston Chronicle, and Dr. DeWitt C. Redding, director of the School of Journalism in the University of Texas and also founder of the Interscholastic League Press Conference.

Pampa students who will attend are, Linda Baker and Bill Kidwell, representing the Little Harvester newspaper; and Dorothy Forbes, Sandra Flynn and Samie McCland; members of the high school year book staff. Miss Elizabeth Hurley, high school publications sponsor, will accompany the students.

MEXICO CITY (UPI)—Film and TV actress Silvia Pinal, divorced wife of Spanish Rafael Banquells, is scheduled to marry engineer Gustavo Alatrste Saturday night, friends of the star said.

## Ike Says Cuban Situation Probe Is 'Witch Hunt'

GETTYSBURG, Pa. (UPI)—Former President Eisenhower yesterday strongly supported President Kennedy on Cuba and said a full-scale, public congressional investigation of the recent unsuccessful invasion of Cuba was an inadvisable "witch-hunt."

The former chief executive made the statement in a news conference after meeting with the Republican congressional leadership.

Eisenhower declined to join the GOP House and Senate leaders in labeling the Kennedy legislative program thus far as "a big egg."

Eisenhower wants to stay away from critical political statements because of the international situation but he did call on the Republican Party to work for a "free, viable economy" and a new measure of unity if the GOP expects to make gains in the 1962 and 1964 elections.

Other highlights of the former President's most extensive news conference since leaving office Jan. 20:

At the request of the State Department, he has canceled plans to visit Japan as a private citizen this fall. He said the State Department had recommended against the trip because of current world tensions.

Kennedy has not approached him about undertaking any special diplomatic mission, but Eisenhower said he did expect to meet again with the President periodically to review world affairs.

Eisenhower took full responsibility for beginning the arming and training of anti-Castro Cuban refugees during his administration. But he said he would not, while in office, go beyond a training program because there was no junta or specific Cuban leader ready to lead an attempt to overthrow Premier Fidel Castro.

Eisenhower, the World War II allied commander, had no specific advice for tackling Cuba again. But he said the United States and her Latin American friends should not let "a Communist bridgehead get solidified" in this hemisphere.

He rejected any effort to equate the U-2 incident of last May with the recent Cuban debacle. He did, however, say that no reasonable person would be willing to trade the intelligence gained from many flights over Russia for the embarrassment caused by the Russians knocking down one plane.

Eisenhower displayed more vehemence on the prospects of a full scale congressional investigation of the Cuban invasion than about any other subject during the 30-minute meeting with reporters.

"Don't go back and rub over ashes (concerning Cuba) but see what we can do better in the future."

The Pampa Daily News

YOUR FREEDOM NEWSPAPER We believe that freedom is a gift from God and not a political grant from the government...

Modern Mythology

Not too many years ago as the history of the world is told, a vast majority of the people we called civilized believed that the world was both flat and square.

Apex Of Virtue

Perhaps, when all is said and done, the greatest virtue of man is willingness to admit of error so that he can attain to higher standards and goals.

Congress Shall Make No Law...

When our founders set down the words of our immortal Declaration of Independence, they proclaimed the concept of individual human rights.

Down South

By THURMAN SENSING

THE SPENDERS LOSE A BATTLE

The defeat of President Kennedy's \$1.25 an hour minimum wage bill in the House of Representatives is the first victory of the conservative coalition since the Kennedy administration came to power.

To be sure, it was not a total victory for the conservatives. The passage of the \$1.15 measure by the House represented some degree of compromise by conservative forces.

But let us examine this carefully. In our homes there is a set of rules which outline procedural behavior. But how much force, how much authority, how much coercion is necessarily invoked before the household operates in a reasonably efficient manner.

And how many homes are operated exactly alike? Here's the rub.

When government invokes its rules, ALL persons must conform. Variations are ruled out. We are FORCED to obey regardless of our own individual problems or individual talents.

In other words, when we do NOT have government, we can operate our households in an orderly manner, each family setting up its own rules of behavior and so on.

For it is implicit in the American ideal that men shall be free. It is implicit that the individual man shall be free to believe what he will and that his religious faith and the operation of his...

All Thumbs

By MERVYN STANLEY RUKESER

What is the surging stock market foretelling? My friend and colleague, the late Garet Garrett would doubtless have said merely that "there are more buyers than sellers."

But strictly speaking in the nature of things, the number of buyers precisely equals the number of sellers. For it not only takes two to tango, but it also takes two (a buyer and a seller) to complete a transaction.

The curious and economically unsound capital gains tax, which is non-existent in England and many other civilized countries, tends to exaggerate fluctuations in stock market prices.

But, aside from the technical and stock market being saying? The rise in the stock market starting in October expressed confidence that the national economy would survive the election and that the business recession, which now appears to be bottoming out, would not last long.

The Nation's Press

MONKEYIZATION AND FEATHERBIRDING (U.S. Chamber Intelligence Bulletin) A Texas furniture factory tried a unique experiment in monkeyization. It hired three chimpanzees. They were put to work on zipping up cushion covers and stacking sofa legs in packing boxes.

More recently, another chimpanzee, age three, got a job in a store demonstrating electrical appliances, at \$250 a week. According to last reports, he was not doing too well with coffeemakers; he had missed the coffee cup and scalded his hand.

Skinner learned that pigeons could be quickly taught to carry out routine discrimination tasks if they are promptly rewarded for successful performance. The incentive of a handful of grain (think of our corn and wheat surplus) would speed their learning and keep them working incessantly. Pigeons never loaf. They never get bored. They love their work. They will keep it up until they drop if not told to stop.

Everybody's Money

Cliches Of Socialism

By PAUL L. POIROT Of The Foundation For Economic Education

"Man is born for cooperation, not for competition." OR "The idols of the market place must yield to those of humanity."

The flaw in this cliché is the implication of incompatibility between competition and cooperation, between the procedures of voluntary exchange and the objectives of human beings.

What socialists call "the idols of the market place" include competitive bargaining and free trade as well as the private ownership and control of property. These are the means by which each individual may pursue his choices and objectives to the limit of his own ability — within the limits of due respect for the lives, the property, and the related unalienable rights of his fellowmen.

But, if the conversion to cash represents a dissipation of 25 percent of the gains in taxes, then there is a bookkeeping diminution of capital assets.

Except for the tax factor, there would be wide differences of opinion among speculators and investors at each rung of the security price ladder as to whether to sell or hold on to stocks. But the tax intervention prevents the normal expression of independent judgment. Orderly markets depend on honest differences of opinion as to when to buy and when to sell.

At this time of year homeowners are busy with their lawnmowers. Some day this may not be necessary. Biologists, working with the hormone gibberellin, think it won't be long before they can control the growth of plants. Gibberellin is the hormone that affects stem growth. Almost mowless lawns will be possible when an "antigibberellin" is found.

# Cocktail-Type Party Probe Lures Writer

By DICK WEST

WASHINGTON (UPI) — There was a squib on the news wire the other day which didn't exactly stop the presses but which at least gave me a pause.

"It contained a trenchant comment by retired Maj. Gen. John B. Medaris, former head of the Army Missile program, who now serves as president of the Lionel Corp.

Medaris said he had discovered since moving into the world of commerce that many business leaders "have very little or no knowledge of technical terms and are primarily interested in cocktail-type parties and the sort."

that caused me to drop in on the party. I went there solely to investigate the Medaris theory of executive inhibition.

Miss Lamour qualifies as a subject for such a study because she has become a businesswoman. A couple of years ago she incorporated herself and she now serves as chairman of her board.

I found, Medaris to the contrary notwithstanding, that she is well-versed in technical terms and apparently regards a cocktail type party as only a business incidental.

"When I'm presiding at board meetings," she told me, sparring a shrimp from a passing tray, "I become one of the boys."

If so, it is a neat trick. At 46, Miss Lamour retains the basic form she displayed when she and Bing Crosby and Bob Hope were traveling down all those roads together.

As Dorothy Lamour, Inc., she is engaged in the production of a new line of cosmetics bearing her name. She and her husband, William R. Howard, live near Baltimore, Md., where they invent things.

Miss Lamour has invented a make-up mirror for near-sighted women. Howard has applied for a patent on a canned white bread that will stay fresh for five years.

In the unlikely event that her various business ventures should fail, Miss Lamour still would not be at the end of her resources. Hanging in a closet at home are a couple of stand-by sarongs.

The earliest opportunity arose a couple of evenings later when R. Baruch and Co., a securities investment firm, gave a cocktail-type party here in honor of Dorothy Lamour.

Let me say right at the outset that, man and boy, I have been an admirer of Dorothy Lamour, girl and woman, for nigh on to 25 years.

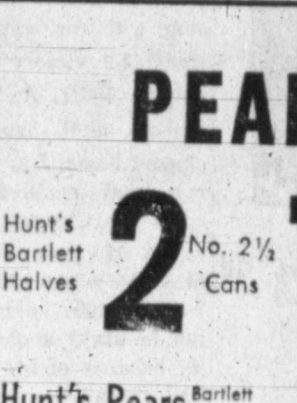

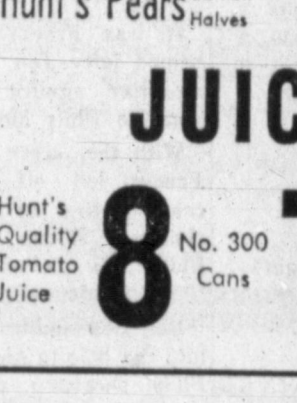

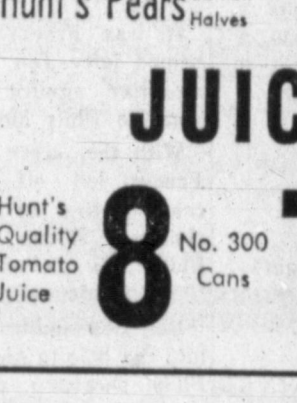

The hours I spent in a movie theater watching her undulate across the screen in a short sarong probably contributed in some measure to the condition my blood pressure is in today.

It was not, however, the lingering vestiges of an old passion

## Domestic Oil Production Capacity Reported To Have Hit Record Level

NEW ORLEANS, La. (SpI) — The domestic petroleum industry's capacity to produce crude oil and natural gas liquids reached a record 10,935,000 barrels daily last January 1, the Independent Petroleum Association of America reported today.

Productive capacity for all petroleum liquids increased 258,000 barrels daily or 2.4 percent during 1960. Crude oil producing capacity increased 184,000 barrels daily and natural gas liquids capacity 74,000 barrels daily.

Actual production of petroleum liquids as of January 1 totaled 8,209,000 barrels daily, indicating the industry on that date had an idle or unused producing capacity of 2,724,000 barrels daily.

This unused capacity, shut in for lack of market, represented 24.8 percent of the industry's total productive capacity, said a report by IPAA's Productive Capacity committee, made at the organization's midyear meeting here.

The 184,000-barrel gain in crude oil producing capacity in 1960, said the committee, compares with yearly increases of 52,000 barrels a day in 1959 and 163,000 barrels daily in 1958.

This growth in petroleum availability was achieved, said the committee, through exploration and development activity as well as "continuing advances" in oil producing and recovery techniques.

"Productive capacity" was defined by the committee as "the average rate of production from existing wells that could be maintained for a period of from 6 to 12 months without further development and with no significant loss in ultimate (petroleum) recovery."

The estimates of producing capacity, made on the bases of data from industry and government sources, "provide a reliable indication of the current availability of crude oil and natural gas liquids in the United States," the committee said.

It was the seventh annual estimate of U.S. petroleum productive capacity made by the IPAA committee. The report shows 1961 capacity had increased 2,363,000 barrels daily since January 1954, date of the committee's first estimate.

## 20 Towns Plan To Desegregate Schools In Fall

NASHVILLE, Tenn. (UPI) — At least 20 southern cities are preparing for initial or expanded school desegregation next fall, Southern School News reported today.

The monthly publication of the Southern Education Reporting Service also said the number of Negroes attending integrated schools in Virginia may more than double in the fall term.

Among the states listed in the report were Georgia, Texas, Florida, Kentucky, Tennessee, Louisiana and Arkansas.

Among the larger cities planning initial classroom integration are Atlanta and Dallas. Little Rock and New Orleans are preparing for additional classroom integration, despite the trouble which has marred previous integration in these cities.

## Depressed Areas Aid Bill Signed

WASHINGTON (UPI) — President Kennedy signed the controversial \$451 million depressed areas bill yesterday and said it would be an "important step" toward putting the jobless to work in areas of chronic unemployment.

The President also announced that William Batt Jr., now Pennsylvania commissioner of labor, would be administrator of the program under Secretary of Commerce Luther H. Hodges.

The new program will seek to create new jobs by helping to attract new industries to urban areas having chronic unemployment and rural areas with underemployment.

It contains safeguards against use of federal funds to pirate industry from other communities.

The legislation cleared Congress last Wednesday and was delivered to the White House Friday.

The legislation makes available immediately federal loans totaling \$200 million to help communities modernize old, unused plants for industrial production and to build new ones. Half of these funds are earmarked for urban areas and half for rural areas.

The law also creates immediately a lending fund of \$100 million to help communities attract industries by building sewage systems, water systems, access road and other improvement.

**Keep 'em Separated**  
DALLAS, Tex. (UPI) — Criminal District Judge Joe B. Brown ruled that twin-brother lawyers Ross and Doss Hardin had to wear different colored suits in his court while defending a client charged with robbery and murder.

**RUN DOWN** — Zorro Versalles is caught off second base in Kansas City. Third baseman Lou Klimchok prepares to throw to second baseman Jerry Lumpe, points as the Minnesota shortstop turns and heads back toward third. Versalles is out, however, as Lumpe runs him down.

# Reds Edge Phils, Twins Nip White Sox

## Minnesota Retains Third Place Grip

By NORMAN MILLER  
United Press International

Gene Freese of the Cincinnati Reds and Billy Gardner of the Minnesota Twins never batted .300 or made an All-Star team, but for several seasons now they've managed to hold major league jobs through hustle and handiness.

Never was this more evident than in the roles they played Monday in helping their clubs win the only two games played in the majors.

Freese hustled home from second base on a hit to deep shortstop with the winning run in the Reds' 3-2 victory over the Philadelphia Phils. And Gardner hit a two-out ninth-inning double that chased home Jim Lemon with the run that enabled Minnesota to edge the Chicago White Sox, 6-5.

The 27-year-old Freese, now playing with his fifth major league club, is hitting only .242, but he stays in the lineup primarily because of his speed and long ball threat.

It was Freese's fleetness that helped lefty Jim O'Toole win a six-hitter against Robin Roberts and the Phils Monday night.

With the score tied at 2-2, Freese led off the fourth by reaching first on a wild throw by shortstop Ruben Amaro of the Phils. He moved to second on Chico Cardenas' single.

Don Blasingame then hit a ball into the hole to Amaro's right. The Phils' shortstop made a diving stop but couldn't make a play on Blasingame. Freese, flying at full speed, raced all the way home from second and beat Amaro's throw to the plate.

O'Toole pitched five shutout innings after that to clinch his second victory against as many defeats. He struck out nine batters and walked only two: Gordon Coleman hit a Cincinnati homer in the second inning.

For Roberts, this was the fourth defeat without a victory. Bobby Del Grco's hits helped the Phils score both their runs.

At St. Paul-Minneapolis, a small afternoon crowd of 5,777 watched the Twins beat the White Sox and remain in third place, a game behind the American League lead.

Scrappy, 33-year-old Gardner, now in his eighth major league season, made three of the Twins' 14 hits against the White Sox. Lemon, who scored the winning run had reached base with his fourth hit of the afternoon. Turk Lown was the Chicago loser in relief.

The White Sox' first three runs resulted from solo homers by Jim Landis, Al Smith and Camilo Carreon off Minnesota starter Chuck Stobbs.

## Pro Cage Career Looks Doubtful Tuberculosis Strikes Tom Stith

OLEAN, N.Y. (UPI)—Tom Stith looking ahead to a pro career always dreamed of becoming a Monday when he learned he was a victim of pulmonary tuberculosis.

When he was a kid playing schoolboy basketball in his native Brooklyn, Tom used to tell his teammates: "Wait until I'm playing with the Knicks in the Garden — I'll get you guys in free."

Stith went from Brooklyn to the St. Bonaventure College and immediately captured the eyes of pro scouts with his amazing shooting. He was named to the United Press International All-America team for the second straight time this year and then was made the No. 1 pick of the New York Knickerbockers in the National Basketball Association.

Tom, 22, signed a contract with the Knicks last month and was

place in the UPI national rating last season. He scored 330 points. Despite complaints by some basketball followers that he slowed down at times on the court, Stith averaged 29.8 points a game for St. Bonaventure.

The doctor did not know how long Tom had the disease. He said, however that if he had it during the basketball season, it could have affected his playing.

During the last weeks of the season, Stith complained of "not feeling just right." His weight, normally 215, dropped 15 pounds during that time. The doctor said Stith's weight is now between 190 and 195.

When he failed to regain weight at the end of the season, Stith was hospitalized.

# Harvesters Conclude Year

## Fourth Place At Stake In Tascosa Tilt

A first or second division finish will be at stake for Pampa when the Harvesters conclude their weather-delayed season at 4 p.m. tomorrow in Amarillo against Tascosa in a District 3-4A game.

The Harvesters, riding the crest of a two-game winning streak dumping Palo Duro, 2-1, and Borger, 2-0, last week as Jerry Glover picked up both victories to even his record at 4-4 are now 5-8 in district play.

A win tomorrow would give PHS a 6-8 mark and a tie for fourth with Plainview; a loss would put the Harvesters at 5-9 and deadlock them with Tascosa and Palo Duro for seventh place. Win or lose, however, the Harvesters will finish higher than the pre-season last place prediction.

**THE LINEUP** — The horses headed into the stretch in a single file in this Aqueduct race. Ginny Jen-Ai, Hedley Woodhouse up, and second here, won. Dyad, Jack Yother in the saddle and leading way around the turn, wound up third.

## Bragan Given Scouting Job

HOUSTON (UPI)— Bobby Bragan, director of player personnel for the Houston Colts has been made special assistant to the general manager to concentrate on scouting activities in preparation for the 1962 player pool.

George Kirksey, executive vice president of the Houston Sports Association and acting general manager, said Bragan's primary duty will be to immediately begin scouting the major leagues.

In other personnel changes, Grady Hatton, manager of the Houston Buffs of the American Association, was named director of personnel of the parent Colts. He will be in charge of signing free agents and placement of players throughout the Colt organization.

## BOWLING SCORES

By MAXINE HAWKINS

Scoring has been exceptionally good at the Harvester Bowl the past three weeks. This started with the 300 game in open play rolled by H. C. Stewart of Borger. The following Friday evening, John Moore rolled a 288 game in sanctioned league play. This produced the two highest single games of the year. The next weeks action was topped by Howard Musgrave's 680 series. These scores were climaxed last Monday night when Jessie Smartt rolled a 735 sanctioned league series with games of 245, 243, and 247. This score was rolled in the Classic League and took high honors replacing the 720 rolled earlier this year by Howard Musgrave. This was Smartt's second 700 this year. This 735 ties the series rolled last year by Leon Harris and is the highest sanctioned league score replacing Howard Musgrave's 733.

## Anything Goes In Tijuana

# Booed Decision To Be Reviewed

TIJUANA, Mexico (UPI)—The Tijuana Boxing Commission today was scheduled to review featherweight Lalo Guerrero's sixth-round disqualification victory over veteran Ike Chestnut. The disqualification Monday night ended the scheduled 12-round non-title bout before some 3,500 disapproving fans in the downtown Bull Ring.

Referee Ray Solis declared Guerrero, 126, of Mexico the winner after a cut appeared over the boxer's right eye and his handlers claimed he was butted by Chestnut, also 126, of New York.

Chestnut received a standing ovation when he left the ring, a token of the fans' disapproval of the decision.

The alleged butt was not apparent to ringsiders. Chestnut had been scoring repeatedly with stiff left jabs and it appeared Guerrero's cut resulted from a punch. Featherweight champion Davey Moore's manager, Willie Ketchum, who was at ringside, said after the fight he definitely would not allow Moore to fight here.

Promoter Jose Gonzales Principe had hoped to match the winner with Moore in a July title bout.

## Mrs. Jensen Awaits Hubby

RENO, Nev. (UPI) — Boston Red Sox outfielder Jackie Jensen, who suddenly quit the team at Cleveland Sunday, was expected to arrive in Reno today and explain his actions to his wife later in the day.

The blond slugger left the team without explanation and boarded a train which arrived at Cheyenne, Wyoming, this morning. He brushed aside reporters' questions with a "no comment" and declined to pose for photographers.

Jensen, a man with strong family ties and an abiding dislike for flying, lives at Crystal Bay on Lake Tahoe about 40 miles from here. It is believed his decision to quit stemmed from the fact he had been hitting only .130 since his return to the team this year after a season's layoff.

His wife, former Olympic diving star Zoe Ann Olsen, says she has no idea why her husband quit the Red Sox. She also hinted she believes he might return to Boston.

# San Antonio Regains TL Lead

By United Press International

San Antonio blasted its way back to the top of the Texas League last night with a home run parade that toppled Rio Grande Valley's Giants 10-4.

Amarillo slipped to second place a half-game behind the Missions, losing to Victoria 5-2, while Austin maintained its third place position one and one-half games back, tripping Tulsa 4-2.

The Missions laid down a 13-hit barrage against four Valley hurlers, including solo homers by Paul Popovich, Danny Murphy, Daryl Robertson and Don Eaddy, and a two-run smash by catcher Ralph Holding. Roy Brooks got the victory, but needed help from Basil Curry in the fifth.

Al Nagel hit a three-run homer in the third that was enough for

the Rosebud victory, John Stokoe gave up one run in the fifth and turned mound chores over to Dick Hunt in the seventh when Victoria got its second run. The combination limited Victoria to four hits. Jack Cullen, replaced in the fourth, was the loser.

**PROVIDENCE, R. I. (UPI)** — Doug Jones of New York took over the No. 2 spot among the light heavyweight contenders today in the monthly ratings of the National Boxing Association.

Jones moved up one notch on the strength of his fifth-round knockout over heavyweight Pete Rademacher at New York last Saturday night. Giulio Rinaldi of Italy remained the top contender in the 175-pound class while Eric Schoepner of Germany slipped from second to third place.

**DETROIT (UPI)** — Two of the remaining 12 classic division teams entered in this year's American Bowling Congress tournament made poor starts Monday night.

The Central States Insurance club of Houston, Tex., had a 2842 opening block while the Carl's Meats of Phoenix, Ariz., hit an opening 2653.

Both have slight chances of catching the leading 5983 bowled by Brentwood Bowl of San Francisco.

The best regular team score of the night as the 79-day meet concluded its 59th day of action was a 2881 by Dom Brothers.

**DIRTY WORK** — Fay Luebbert gets an involuntary mud bath at Washington University in St. Louis. The mud hole jump is one of a series of bizarre events in the Sigma Nu Relays. Pretty Fay starts her futile leap

through the air and lands with a squish. Then she tries to scrape off the mud with a towel, although knowing that some beauty experts recommend mud for the complexion.

# Natural Gas 'Area Pricing' Doomed To Failure, Attorney Tells IPA

NEW ORLEANS, La. — "Area pricing" of natural gas on a public utility basis is doomed to the same failure as the case-by-case pricing attempt, Clayton L. Orin, general attorney of The Ohio Oil Co., said today.

Speaking at the mid-year meeting of the Independent Petroleum Association of America here, Orin said the very nature of the oil and gas producing industry will defeat the area pricing policy — if the public utility methods are used.

Since the original court decisions regulating natural gas pricing, he stated, the Federal Power Commission has "zealously tried to fix independent producers' gas rates on a case-by-case basis as though they were public utilities, but it has failed in its efforts because of the fundamental characteristics inherent in the oil and gas producing industry. The gas producing industry simply does not lend itself to public utility rate regulations.

"Area pricing likewise is doomed to dismal failure if the courts should hold that the FPC must arrive at just and reasonable area rates for groups of producers by using public utility rate regulatory methods," Orin asserted.

The attorney explained that the FPC has agreed that the utility rate-base method was neither a feasible nor a workable method of regulating the rates of even one producer, let alone groups of individual producers in various areas.

He pointed out that while the U.S. Supreme Court — after hearing more than four years of testimony and arguments — held in the famous Phillips case that the FPC had jurisdiction over well-head prices of natural gas, the FPC itself said that the allocation formulas essential to fixing rates for gas producers by public utility methods were "unworkable," "unsatisfactory," "fallacious," "inexact," "complex," "time-consuming," "fraught with controversy," "ridiculous" and "impossible."

Orin declared that there are other valid methods of determining just and reasonable area natural gas rates. "Different methods should complement each other, to the end that area rates, when finally determined, will not be so high that producers' profits will be excessive considering the risks

Cary To Speak At Workshop  
Tracy D. Cary, president of the Pampa Genealogical and Historical Society, will speak on "Old Church and Institutional Records" at the Amarillo Genealogical Society Family History Workshop to be held Thursday from 9 a.m. until 3 p.m. in the Mary E. Bivins Memorial Library, Polk Street at 10th in Amarillo.

# Greater Penalties Are Asked For False Plane Bomb Scares

WASHINGTON (UPI) — Ayt. Gen. Robert F. Kennedy asked Congress yesterday to increase greatly the penalties for making false airplane bomb reports.

Kennedy said the present false bomb report law is too lenient to correct the "serious and disturbing" disruption of air travel caused by bomb hoaxes.

He recommended legislation which would set maximum penalties of five years in prison and a \$5,000 fine for conviction on a felony charge of making a false bomb threat. His proposed bill also provides for a lesser penalty aimed at pranksters of one year imprisonment and a \$1,000 fine for conviction on misdemeanor

taken, nor so low that shortages in supply will develop," he said. He suggested that the FPC fix reasonable rates for producers on the basis of the market price of gas, not on public utility formulas.

Orn proposed that the FPC would act as arbiter of disputes as to whether prices were above the market. It would also be the judge of whether prices were higher than reasonably necessary to maintain a balance between supply and demand. It might reject a price as being above the market if it thought that the supplies could be purchased at lower prices. On the other hand, he pointed out, an advance in market would not be restrained when such an increase was necessary to furnish the required capital for additional exploration and development of new supplies. It would be the judge of whether prices were competitive or monopolistic.

"Indeed, it would have price-fixing powers over natural gas sales which no other federal agency has over commodities moving in interstate commerce, or over industries competitive with natural gas which also possess none of the characteristics of a public utility," said The Ohio Oil official.

To maintain an ample supply and to provide incentive for producers to look for new supplies to replace diminishing ones, Orin advised that revenue requirements of the producing industry must also be considered when setting gas prices. "Such requirements cannot be determined by looking at the financial needs of individual producers, but only by ascertaining the needs of the producing industry as a whole," he stated.

"Competition is the key to this plan," Orin explained. "Competition in the producing industry commences with the search for new supplies and continues from the time leases are purchased until the products are sold. Large producers compete with each other, and against the small producers, who in turn compete between themselves, and against the larger producers. There is actually competition between oil and gas for a share of the total fuel markets, and between domestic and foreign gas producers."

Orn emphasized that price changes in the gas fields would have very little effect on the price of natural gas paid by the consumer. He explained that the producers' price for natural gas is but a small percentage of the total price paid by the consumer.

"The average price producers received in 1959 for gas sold in the producing fields was only 12.9 cents per thousand cubic feet," asserted The Ohio Oil attorney. "In contrast, consumers using gas in 1959 for home heating paid the distributors on the average of 98.2 cents per thousand cubic feet. The difference of 85.3 cents per thousand cubic feet represents the cost of transportation and distribution. In 1959, the average monthly bill of consumers using gas for home heating was \$16.69. Of this sum, only \$2.19 went to the producers for the gas — or approximately 7 cents a day, equivalent to the price of five cigarettes."

The justice department has received 1,500 false bomb reports since 1956, Kennedy said. It has identified 279 perpetrators, prosecuted 74 and won 32 convictions. Eleven of the 32 convictions have been obtained since last July.

# Minimum Wage Vote Scheduled For Tomorrow

WASHINGTON (UPI) — Administration forces today gambled on a slim margin of House votes to carry a compromise \$1.25-an-hour minimum wage bill through Congress.

Both the Senate and the House scheduled voting on the bill tomorrow. The Senate, where passage was virtually certain, will vote first.

The trouble was in the hostile House, where powerful conservative forces that turned the administration back once on the issue were lining up support to try to do it again.

The compromise measure was approved yesterday by a House-Senate conference committee. It would raise the federal wage floor gradually from the present \$1 an hour to \$1.25 for an estimated 27.5 million workers.

The stumbling block in the House, as in the past, was expected to be the 3.6 million workers who would come under wage-hour coverage for the first time under the bill. The bulk of them would be in retail and service establishments.

This was close to the coverage in the administration-backed bill which the House rejected March 24 by one vote. It then passed a conservative \$1.15-an-hour bill limiting new coverage to about 1.2 million workers.

The bill passed by the Senate, largely what President Kennedy wanted, would have covered 4.1 million new workers.

Rep. Adam Clayton Powell, D-N.Y., chairman of the conference group, predicted the House would approve the compromise bill by the same margin it gave the conservative measure 39 days ago — 13 votes.

The conference committee worked for three days on the measure. It left out provisions in the Senate bill that would have brought new coverage to 140,000 laundry workers, 305,000 employees of auto dealers and about 17,000 transit workers.

This brought down the wrath of Sen. Barry Goldwater, R-Ariz.,

# Membership Roll At Youth Center Open To Public

Director Doug Halley of the Pampa Youth and Community Center today issued a statement to correct what he said was a misunderstanding about membership in the Center.

"Somehow," Halley said, "many persons got the idea membership applications and registrations would not be taken after opening day. This, of course, is not the case."

The membership roll is open to the public and applications will
