

# Killer Of Church Secretary Is Identified

## Husky Teenage Youth At Cisco Admits Slaying

CISCO, Tex. (UPI) — Nathan Curry, a husky, hand-some teenager, broke down sobbing and confessed he is the "maniac" who killed the secretary of the church where he goes to Sunday school and held this town in a grip of terror for nearly a week.

He said he left the firecracker stand he was operating to kill her . . . then re-entered her house several times during the night smearing blood, moving the body and trying to cover up his trail.

Mayor Don H. Webb identified him today. Sheriff Lee Horn took him to the county jail at Eastland.

"He told his mother he had become a maniac, said that something must have happened to him," Webb said.

Curry, who will be 16 later this month, is the son of Mr. and Mrs. Pete Curry. They are a well respected family who operate a grocery store in Cisco and are active civic and church workers.

Mrs. Florence Hussey, 83, was found dead in a pool of blood, on the floor of her home last Thursday. Her head had been bashed in with a metal flower pot and she had been stabbed 14 times.

The slaying was so savage authorities publicly announced that it appeared to be the work of a maniac. Women in this town of 4,500 were sure that the killer would turn up in their homes next.

"I know that I can sleep for the first time in nearly a week with my own door unlocked," Webb said.

The boy was one of several youths questioned about the slaying. He broke down when detectives pointed out he was getting "twisted up" in the story he told about his whereabouts the night of the slaying. He told the story while strapped to a lie detector.

He broke down and cried. A detective gave him a hankie. Then his mother came in and he blurted out his confession and later signed a written statement.

"I don't think he could have done it," Mrs. Curry said. "But he told me he just couldn't seem to help himself."

She said the boy had been subject to migraine headaches, and a sudden spell might have been responsible for his confession.

An autopsy showed that Mrs. Hussey had apparently not been sexually assaulted. And robbery wasn't the motive. A diamond ring was still on her finger, and there was \$50 still lying around the house and in her purse when the body was discovered.

Webb said the boy has been in scrapes before. "Nothing bad, he said . . . Kid stuff . . . pranks." (See KILLER, Page 3)

## Road Death Count Sets New Record

By United Press International

The highway slaughter over the Fourth of July weekend soared past the 500 mark today in final tallies of the deadliest summer holiday in the nation's history.

The death count shattered the previous summer holiday record of 491 traffic fatalities in 1950 and a National Safety Council spokesman said, "It's only a question of how much over 500 it will go."

A United Press International count showed 505 pedestrian and motorist deaths in the 102-hour holiday period from 6 p. m. Friday to midnight Tuesday. During a comparable, non-holiday period, the council estimated, 370 highway deaths would be reported.

The breakdown of holiday accidental deaths:

Traffic 505; drownings 234; planes 9; fireworks 3; miscellaneous 127; total 878.

California traffic killed 46 persons. Texas counted 33 highway victims; Ohio, 28; New York, 24; Florida, 21; Arizona, 19; Illinois, 18; Missouri, 17; Alabama, North Carolina and South Carolina, each 15; and Minnesota, 15.

The record toll continued the deadly pattern that began a month ago with 462 traffic deaths over the Memorial Day weekend. The previous summer holiday record of 491 traffic fatalities was set on the Fourth of July weekend in 1950. The all-time high for a holiday weekend was set at Christmas-time, 1956, when 706 persons were killed in traffic.

Drownings more than doubled the Memorial Day weekend toll and fireworks were killers. At Dallas, Ore., a fireworks bomb ignited by an Indian couple shot sideways into a car and killed the couple's 5-month-old son. A carload of fireworks exploded and killed a Grand Island, Neb., man.

Two riots marred mass celebrations. Rioters aboard the excursion boat Hudson Belle sent 16 persons to the hospital in New York City and 400 to 500 youths milled about Bellefontaine, Ohio, streets hurling (See RECORD, Page 3)

## Course In Civil Defense Resumes Tomorrow Night

The second session of a course in Civil Defense is scheduled for 7:30 p. m. tomorrow in the Court House Annex, east of the city limits on Hwy. 66.

The courses are open to the public and will make available information and procedures to be taken in the event of emergencies growing out of natural or man-made disasters.

Instruction for Pampas will be given by Mrs. Robert G. Kerr, state-trained civil defense instructor at Amarillo College.

At tomorrow night's meeting three films will be shown dealing with tornadoes, nuclear blasts and fallout, and the reaction of people in crises.

"Texas is one of very few states to furnish state-trained civil defense instructors," Bill Leonard, Gray County Civil Defense director, said today, "and it behooves all of us to take advantage of the knowledge and information which is offered free."

Civil defense officials said they hoped for a large turnout at tomorrow night's meeting.

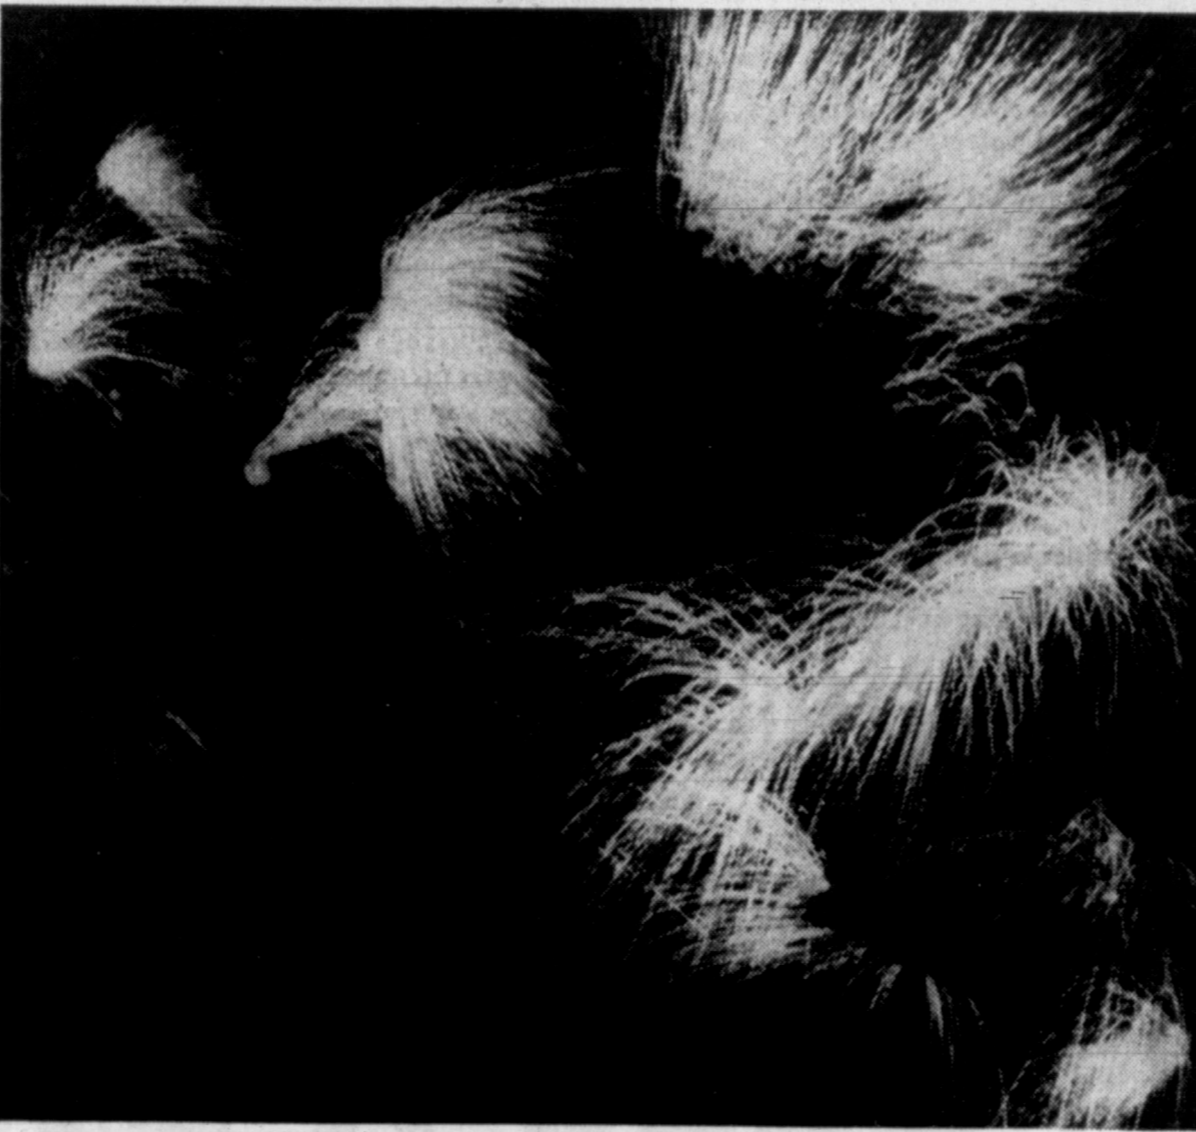

# The Pampa Daily News

VOL. 30 — NO. 70

THE PAMPA DAILY NEWS, WEDNESDAY, JULY 5, 1961

(12 PAGES TODAY)

FOURTH OF JULY SPECTACLE — Thousands of persons witnessed last night's Fourth of July fireworks show at Recreation Park sponsored by the Pampa Chamber of Commerce. Pictured is a part of the brilliant spectacle. While the viewing stands were comfortably filled, a larger number of the spectators sat in and on top of automobiles that jammed portions of Highway 60 and whole sections of area rural roads. (Daily News Photo)

## British Force Plans Suez Canal Use Test

KUWAIT (UPI) — Britain that Britain wanted only enough troops in Kuwait to handle the emergency-military buildup in defense of Kuwait today and sought to test its use of the Suez Canal.

British officials said the buildup in the tiny oil-rich sheikdom — threatened with annexation by neighboring Iraq — will be completed either today or Thursday.

An estimated 20,000 British troops and Arab volunteers were reported ready for action along the sandy, 120-mile Kuwait-Iraq frontier.

British Foreign Secretary Lord Home said Tuesday in London

## President Back In Washington For Brief Time

HYANNIS PORT, Mass. (UPI) — President Kennedy returned to Washington today, apparently invigorated by a long Fourth of July weekend with his family on Cape Cod.

He had only one announced date on his schedule back in the nation's capital, but there will be additions during the day. His announced engagement was to speak briefly at 150th Venezuelan independence anniversary ceremonies before the statue of Simon Bolivar near the White House.

Some time this week the President was expected to give final approval to the language of the American reply to Russia's recent memorandum on the German problem.

Kennedy also was expected to send to Congress shortly a message recommending changes in the Taft-Hartley labor law to cope with national strikes such as the recent shipping tie-up.

Kennedy's absence from Hyannis Port was to be relatively brief. He was expected back here late Friday to spend next weekend with his family.

Mrs. Kennedy remained here today with their two children, but she will go back to Washington next week to help the president entertain the visiting president of Pakistan, Gen. Mohammed Ayub Khan, who is due in the capital July 11.

Bear equipment means satisfactory work, come see us, Pampa Safety Lanes, 411 S. Cuyler. MO 5-5771. Adv.

## Drug Industry Warned

WASHINGTON (UPI) — Sen. Estes Kefauver, D-Ten., told the drug industry today that the American people's "patience with price-gouging is wearing thin."

Kefauver questioned why artificial sufferers must pay 30 cents for a tablet of Meticorten which costs a drug manufacturer only 1.5 cents to produce.

He said drug prices "are generally unreasonable and excessive." He added, "They are unreasonable whether compared to costs, to profits, or to prices in foreign countries."

The chairman of the Senate antitrust and monopoly subcommittee put it up to the drug makers this way:

"Either accept a little more regulation, or the American people will demand that their government adopt the tougher approach of direct governmental controls."

Kefauver's comments were prepared for public hearings by his subcommittee on legislation designed to promote competition among large drug manufacturers. The bill, introduced by Kefauver, is the result of hearings by his group which started in December, 1959. More than 8,500 pages of testimony about drug practices have been accumulated since then.

Among witnesses scheduled to testify during the current hearings were spokesmen for the American Medical Association.

Kefauver was critical of what he called "wasteful and often misleading" advertising, of "excessive" profits and of "monopolistic" patent and licensing agreements in the drug industry.

He said the sick and the elderly, who have no recourse, pay the bills for these practices.

Kefauver said the 22 largest American drug companies spend approximately 24 cents of every sales dollar for promotion, or roughly four times the amount spent on research.

## Teamster's Union Dues Hike Slated

## More Ships Are Readied For Sailings

NEW YORK (UPI) — American flag ships, freed by federal court order from the grips of a strike, begin sailing in increasing numbers today.

Activity increased in the sprawling port of New York where ships were readied for sailing. At least five American ships, mainly tankers, managed to clear New York between mid-afternoon and late Tuesday night despite holiday-induced delays. Ship's also put out from several other American ports.

United States Lines, which had to postpone scheduled sailing of the luxury liner America from today until Thursday because it could not round up enough engineers, expected a full crew on board today. It takes 20 hours to fire the boilers prior to sailing.

The Marine Engineers Beneficial Association (MEBA), one of the two major "hold-out" unions in the strike that started June 16, blamed the holiday for not being able to alert members to man ships.

The marine engineers union has declared it would challenge the federal court order halting the strike. Two other unions, the Masters, Mates and Pilots and the Seafarers International Union, also said they planned challenging the order.

Judge Sylvester Ryan granted the temporary restraining order under the Taft-Hartley Act. He scheduled a hearing for Friday to determine whether the injunction should be extended for the full 80-day "cooling off" period provided under the labor act for strikes found endangering the nation's health and safety.

Differences between the shipowners and unions is believed to be minor, except in the case of the marine engineers. The latter still are insisting on rights to organize crewmen on American-owned ships operated under foreign flags.

## Mayor Requests City Job, Personnel List

Mayor E. C. Sidwell today asked that he and members of the city commission be furnished with a list of city employees, their names, duties and amount of salary each municipal worker receives.

City Manager John Koontz said this information always is given to the commission when the annual budget is submitted for study and approval.

Mayor Sidwell said he thought it "would be nice for the commission to have this information at hand" when it is asked to approve the job and salary lists.

"I think the commission should familiarize itself with the city's employees, what they are doing and what they are paid," the mayor said.

The commission's regular meeting in City Hall this forenoon consisted mostly of discussing routine matters, topped by the studying of a proposed paving program for several Pampa streets.

A petition also was received by the commission from property owners on Henry St. between Frederic and Beryl asking that some action be taken to relieve a con-

## Hoffa Informed His Plans May Contravene Law

MIAMI BEACH (UPI) — James R. Hoffa's multi-million-dollar dues increase proposals were expected to run into opposition today from delegates to the Teamsters convention.

The union president's attorneys advised him that his demand for a convention-ordered increase of at least \$1 a month in every rank-and-file member's dues might violate the Landrum-Griffin law.

And many Teamsters officials among the 2,000 delegates complained privately that it would be difficult to explain the need for a sizeable dues increase to their members back home.

## Gen. MacArthur In Reunion With Combat Veterans

MANILA (UPI) — General of the Army Douglas MacArthur and his wife nostalgically sang "Let Me Call You Sweetheart" today at a touching reunion with 3,000 combat veterans who served with the wartime commander of Pacific forces.

MacArthur, on a sentimental return to the Philippines, stood with his arm around his wife's shoulders while the throng of old soldiers, some of them disabled and on crutches, lifted their voices in song.

The 81-year-old retired general opened his speech by saying, "When you sang that song, I was afraid you might take my wife away."

His voice trembling with emotion, the old soldier told the men he once commanded: "On such an occasion as this, my thoughts go back to those men who went with us to their last campaign. I do not know the dignity of their birth, but I do know the glory of their death."

The meeting between MacArthur and his comrades was held in the swank Manila Hotel, itself once a battlefield, where Americans and Japanese fought room-by-room when the city was liberated during World War II.

Teamsters legal experts said these measures were in compliance with the new federal law governing union procedures.

But the compulsory \$1 hike for all of the Teamsters' 1.7 million members might conflict with a federal ban on dues increased by local unions without prior approval by a secret ballot, some lawyers said.

Others felt the procedure could be defended as a higher levy imposed by the international union and thus avoid the voting requirement.

## Khrushchev In Gay Mood As U.S. Embassy's Guest

By HENRY SHAPIRO

MOSCOW (UPI) — Seven-year-old Cherry Thompson took Nikita S. Khrushchev by the hand and showed him the backyard vegetable garden.

That was one of the folksy touches that made Khrushchev's evening at U.S. Ambassador Evelynlyn Thompson's mansion Tuesday a homey Fourth of July affair.

It was Khrushchev's first visit to the U.S. Embassy in Moscow in three years and he did it up proper. He brought his wife, Nina, and a platoon of Kremlin officials and stayed a full 90 minutes.

Khrushchev was in a gay and ebullient mood. He repeatedly invited Thompson and his family to visit his dacha in suburban Moscow and see "my children, my corn, cows and pigs."

At the height of the party, Khrushchev met this correspondent in the crowd. I said to him, "The assault of correspondents has begun."

"We shall repel it, but not with rockets," Khrushchev replied.

"Are you suggesting that we are using rockets?" I asked. "Our only weapon is a typewriter. Have you a secret weapon?"

"We need no weapons and no uniforms," Khrushchev replied. "All we need is brains."

At this point Deputy Premier Anastas Mikoyan pointed a finger at Khrushchev and said: "His tongue is his weapon."

Thompson's daughter Cherry gave the premier what probably was his first glimpse of an American private garden.

# 'Playhouse 90' Scores Again, Writer Thinks

By FRED DANZIG  
NEW YORK (UPI)—"From Television City in Hollywood—" "Playhouse 90."  
It was good to hear those words again Tuesday night as CBS TV began a series of 13 summertime re-runs of the gilded "Playhouse 90" shelves.  
The series starter, "Face of a Hero," adapted from a novel by Pierre Boulle, was a directorial tour de force when first presented in 1959. John Frankheim's vigorous camerawork has withstood the test of time, as have the excellent performances of the large cast, led by Jack Lemmon, James Gregory, Rip Torn and Larry Gates.

For a program airing on the Fourth of July, I doubt if you could improve on the title, "Focus on America."

Tuesday night's program in this ABC-TV summer series, "Shards of the Ages," could be improved upon, however, in both its title and content. We never, never judge programs by their titles, though, so let's talk about the program.

Produced by station KTVK in Phoenix during the past season and selected for network airing, the half-hour managed to be informative despite its flimsy design as it told of Arizona's ancient history.

"Shards of the Ages" presented map and photographs of archaeological discoveries in Arizona. A number of actual examples of early Indian kitchenware and warfare were displayed. Narrator Don Tuckwood, who also wrote and produced the program, filled in some details with manually operated maps that nevertheless made up in legibility that they have lacked in electronic compatibility.

Too often, the narration took on the bleached literary rhythms of the road map and picture post card. Some interviews with state historians and archaeologists would have added to the program's impact.

Like the premiere program in the "Focus on America" series, which dealt with Oklahoma's early history, Tuesday night's presentation succeeded in covering highlights lightly. Each of the episodes aired thus far does have, despite the reservations I've listed, an authentic "inside" quality that makes the series well worth following. And don't forget to count the youngsters in on it, too.

The Channel Swim: John Chancellor, chief of NBC's Moscow bureau, will replace Dave Garroway as permanent host of NBC-TV's "Today" show beginning Monday, July 17. Frank Blair becomes the program's special feature reporter effective that date, replacing Jack Lescault.

The first International Television Assembly, scheduled for New York City from Nov. 4 through 11, is being postponed indefinitely. Assembly chairman Ed Sullivan says the committee needs more time in which to handle logistical problems arising from the scope of the project.

An hour-long comedy special starring Stan Freberg is scheduled for ABC-TV on Sunday, Feb. 4, 1962.

CBS-TV's "Twentieth Century" is filming a profile on jazz pianist Dave Brubeck for airing next season.

BUMS HIT MOTORISTS  
CLEVELAND, Ohio (UPI)—Panhandlers in downtown Cleveland are operating in drive-in style.

Motorists at traffic lights are solicited as they sit in their cars. They don't have to walk to give money away any more.

## Aluminum Moves Ahead In Race To Replace Iron

NEW YORK (UPI)—Aluminum is starting to make such deep inroads into the railway and other transport vehicle business that it raises an interesting question: Will aluminum replace iron as the basic metal of civilization around the end of this century?  
Asked this question, officials of the big aluminum companies refuse a direct answer. "If it happens, it won't happen soon" is as far as they'll go.  
Aluminum is much more expensive than iron and not so strong and versatile as steel. And its light weight and corrosion resistance are not enough to give it a chance to replace ferrous metals as the main sinews of a modern economy.  
But it has one great asset that could make it the winner in the race—it is the only known metal of which there is an unlimited supply. You can make aluminum almost anywhere out of a vast number of clays—so long as you have electric power. "Bauxite," the raw material of aluminum is too plentiful to be considered in the same light as iron ore.  
Aluminum's leaping gains in

## Oscar Campaign Quiz Planned By Academy

HOLLYWOOD (UPI)—The Academy of Motion Picture Arts and Sciences has appointed a committee to investigate this year's Oscar campaign and there's a chance some vote seeking activities may be curbed next year.  
Many of the town's actors, actresses, writers, producers, directors and other who make up the academy membership, and who also vote on Oscar nominees, expressed disgust with the way for the annual Oscar nominations and awards.  
The reason for the formation of this committee is to study carefully past promotional campaigns, then determine how the academy can most effectively maintain the dignity and integrity of its awards, to the benefit of our industry, in the future.

### Couple Slightly Hurt In 3-Way Auto Accident

A three-way accident at Charles and Louisiana sts. early last night caused about \$900 damage, sent two persons to the hospital for emergency aid and resulted in the driver of one of the cars getting a ticket for failure to yield the right-of-way.

Police said the three cars involved were driven by Lowell W. Gunter, 609 Zimmer; Darrell G. Seitz, 815 N. Gray; and William H. Fuller, 1227 Evergreen.

According to police, Fuller was an innocent victim of the accident that happened when the cars driven by Seitz and Gunter collided in the intersection. Seitz' car was knocked into the Fuller car which was approaching the intersection, the police report said.

Gunter was cited for failure to yield the right-of-way.

Mr. and Mrs. Fuller went to the hospital but were released after emergency aid for minor injury.

### Rathjen Named Postmaster

CANADIAN (Sp) — Harry Rathjen has been appointed postmaster for Canadian, succeeding Preston Hutton, who has retired as postmaster due to failing health.

Rathjen, who has been Hemphill County Sheriff for more than 12 years, submitted his resignation as sheriff before the Commissioner's Court on Monday before taking office as postmaster.

## Texas Beach Through Watches Waterspout

By United Press International

Scattered showers and thunder-showers dripped across southern Texas today, and were expected to expand into the rest of the state this afternoon and tonight.

The pattern was the same as that which Tuesday touched off a display of Fourth of July weather fireworks that included a tornado, a 2,000-foot waterspout and a heavy thunderstorm at El Paso.

The waterspout, a sea going tornado, danced across the water only a few hundred yards off holiday-jammed Galveston beaches for about 15 minutes before finally dissipating. The tornado was sighted in the air near Katy, just west of Houston.

More than two inches of rain deluged El Paso. It caused flash flooding that ran into numerous homes up to six inches deep and undermined one street intersection causing the pavement to cave in.

Dozens of cars were stalled by deep water in low areas of the city, and police had to use wreckers to pull the automobiles free.

Police said it rained 1.66 inches in about two hours. The entire rainfall total for the city until Tuesday was 1.09 inches.

Holiday crowds jamming Galveston beaches watched the waterspout for about 15 minutes. It dangled from a thunderhead about 2,000 feet in the air and was just a few hundred yards offshore.

But the waterspout, caused by

tornadic winds sucking water up into the air, stayed out at sea and did no damage.

The tornado was sighted near the Harris County town of Katy between two heavily-traveled U.S. highways—90 and 290. Two units of the Texas Department of Public Safety saw it, but said it did not touch the ground and dissipated without causing any damage.

Presidio was the hottest spot in Texas Tuesday with a high of 102 degrees. Maximum temperatures ranged downward to 86 at Alpine and Galveston.

### Bidders Wanted On Concessions For Rodeo Show

Local clubs and organizations interested in bidding on concession stands for the Top of Texas Rodeo, scheduled for Aug. 7-12, were reminded today that bids will be received on an auction basis at 7:30 p.m. Thursday, July 6 in the Chamber of Commerce offices in City Hall.

Any club or organization in Pampa, sponsoring a bona fide youth activity program, is eligible to bid on the concessions, according to Jake Osborne, president of the Top of Texas Rodeo Ass'n.

### Jail Term Meted On Check Charge

Donald Williams, 1124 E. Francis, was fined \$5 and cost and sentenced to 90 days in jail Monday when he pleaded guilty before county judge William J. Craig on a charge of swindling with worthless check. Restitution was made on a \$12 check given to L. K. Stout. The jail sentence was suspended.

### Killer

(Continued From Page 1)

He would throw erasers in high school. He shot out a few street lamps with BB's. His family generally blamed the teachers. But they pulled him out and put him in military school.

"It's a shame. My sympathy goes to the family and the boy. He has an older sister, Linda. She is real cute and popular."

"Maybe the child needed more supervision. I understand these headaches of his were pretty severe. He was under a doctor's care. He wasn't athletic. He read a lot, watched television. He had something to do with it."

"He participated in no sports at all. Should have been in Little League baseball. But he was a little odd along those lines. He might have been trying to pull a perfect crime."

The metal flower pot used to bludgeon Mrs. Hussey was missing. It had been taken from her home.

Nathan led police to where he had buried it, but had to "talk hard" to convince them that it was the weapon he had used. They couldn't find any trace of blood on it. He explained that he had burned the pot to destroy all trace of blood.

Mrs. Hussey's son, Pat, identified it as belonging to her. He is a college student in California.

Mr. and Mrs. Curry operate "Curry's One-Stop Grocery." It is open from 5 a.m. until 11 p.m. The whole family attends the First Baptist Church at Cisco, where Mrs. Hussey worked for four years as secretary.

Three weeks ago, she moved into the house where she was killed. The Currys had purchased an old ram-shackle house next door. Webb said that about 10 days ago, Nathan moved into the house. His parents let him do it. They considered it an "adventure" of sorts for him.

"He told detectives that he used to sleep out on the front lawn at nights. He would watch her undress. I guess she was pretty careless about that," Webb said.

The case was finally broken when Webb and the town council decided to call for help from the Fort Worth police department.

"People demanded that it be solved," Webb said. "They were buying locks and guns. The whole town was alarmed. The local boys had lots of leads, but they had to be filtered out."

Marshall McMahan and Cody Rodgers, homicide investigators; D. E. Wheeler, polygraph expert, and Wendell L. Sowell, head of the new Fort Worth crime lab, arrived Tuesday to help and immediately began questioning several boys.

Late Tuesday night Dist. Atty. Earl Conner announced the boy had signed a written statement, but he declined to identify the youth.

"The town was sure shocked to

## Key Club Boys' 'Flag Pageant' Efforts Lauded

The Pampa Key Club's "Pageant of Flags" met its first major test yesterday, and passed with colors flying. Large 50-Star flags were placed in front of 63 Pampa firms in the early hours of Independence Day. They were removed and stored before sundown. To Key Club members, July 4th was a work day. The boys, all high school students, who serviced their "Rental Contracts" joined other members and spent the day contacting Pampa residents at home. By day's end over 300 Pampa homes were flying the 3' x 5' home flag, companion to the larger business flags.

E. Roy Smith, Chamber of Commerce president, paid public tribute to the "Pageant of Flags" in introducing Key Club Past President Bill Byerly as the principle speaker for the annual July 4th celebration at Recreation Park last night. Smith said, "The Key Club is doing Pampa a great service in its vigorous and efficient campaign to restore the practice of flying the Stars and Stripes on significant days." Lou Troja, chairman of the Chamber's Merchants Activities Committee also praised the first business display declaring, "Pampa has become accustomed to the Key Club doing remarkable things. Nothing they have yet done is more impressive than the efficient manner in which they have carried out their commitment to many of our merchants. We hope to see a flag in front of every firm." Housewife Mrs. William Wagoner, 1308 North Russell, following a drive around the city observed, "It was like driving downtown at Christmas time to look at the decorations. The flags were beautiful and it made you proud."

Several residential streets were dotted with flags. In a few blocks, residents on both sides of the street were flying flags.

### Lubbock Resident Killed In Crash

REED, Okla. (UPI)—Ray Thomas Mangum, 47, Lubbock, Tex., died Tuesday when his automobile crashed into a water truck turning off a highway near Reed.

A pipe from the heavy truck jabbed through the door of the automobile and struck Mangum's head, killing him instantly.

His wife, son and daughter all suffered cuts in the accident, but were not considered seriously hurt. The truck driver escaped injury.

### Record

(Continued From Page 1)

rocks and firecrackers in the outbreak of unexpected violence.

Solemn celebrations of the nation's 185th anniversary of its independence drew crowds to Independence Hall in Philadelphia and the Truman Library at Independence, Mo.

The U.S. flag that went aloft with astronaut Cmdr. Alan Shepard was raised in Philadelphia in front of the hall where the Declaration of Independence was signed in 1776. A flag that flew over Berlin at the end of World War I was raised at the Truman Library near former President Harry S. Truman's home.

### Former Pampa Lions' Governor

Ray Webster, former Pampa and former owner of the Pampa Bus Co., has been elected District Lions' Club governor in his hometown of Danvers, Mass.

He is the son of Mrs. T. C. Webster, 1106 S. Paulkner.

Mr. Webster came to Pampa in 1945 and started service in the City Bus Co. He was married to a Danvers, Mass., girl.

Mr. Danvers assumed governorship of his district following the recent Lions' Club International convention held in Atlantic City.

### Korean Arrested On Spying Count

SEOUL, Korea (UPI)—South Korea's ruling military junta today arrested Chin Seung Nok, former chairman of the national examination board and at one time dean of the law college at Seoul National University on charges of being a Communist spy.

### Ben Ezzell Rotary Prexy

CANADIAN (Sp) — Ben Ezzell has been installed as the new president of the Canadian Rotary Club.

Other officers installed at a recent meeting by Erbin Crowell, were John Glenn, vice president; John Wilkinson, secretary; Ivan Conklin, Jim Waterfield, Jack Keim and Bud Hoobler as directors on the board.

ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES:

No other wagon can match Ford's features (or popularity!)

There's a whole wagonload of Ford features that only America's station wagon specialists can bring you.

First, there's more room. Ford's extended load deck is the longest and widest in its field. The tailgate opening is seven inches wider than last year, too.

There's more convenience. You can have an electrically controlled roll-down rear window in any Ford wagon... it's standard in all Country Squires and 9-Passenger Country Sedans. In their field, only Ford wagons

have all seats facing forward.

There's more distinction. The Country Squire (shown above) is the one and only wagon in its field with body panels that look like mahogany, wear like steel.

There are more savings, too. Ford's Ranch Wagon is America's lowest-priced,\* full-size wagon. And like all Fords, every Ford wagon is built to be more service-free: goes 30,000 miles between chassis lubrications, 4,000 miles between oil changes, brakes ad-

just automatically, mufflers are made to last three times as long as ordinary mufflers, and the finish never needs waxing.

STOP putting off that station wagon you've always wanted. SWAP for a '61 Ford wagon, now while your Ford Dealer's celebrating record-breaking sales. SAVE with the wagon America loves most... made by FORD... America's station wagon specialists for 32 years!

## HAROLD BARRETT FORD INC.

701 W. BROWN HOME OWNED & OPERATED MO 4-8404

Watch GREAT GHOST TALES every Thursday on NBC-TV, the only new live suspense series in five years

Your skin rates extra care in the summer months when it's apt to dry out and form fine lines. Help comes in the form of a custom-blended cream (left) that is matched to your skin tones. It tones down forehead frown lines, laugh lines and fine lines about the eyes. A lanolin-enriched skin balm applied after bath (center) will help keep your skin silken despite the heat of the summer sun. Rich eye cream (right) will nourish delicate eye tissues and prevent wrinkles.

# Good Grooming Is For Housewives Too

By ALICIA HART  
Newspaper Enterprise Assn.

Housewives who feel that career girls have it all over them in the matter of making themselves attractive should take stock of the situation. It's true that the girl with a job needs more clothes, more accessories, spruce grooming. Presumably, she has more time to devote to her appearance. Actually, this isn't always so.

She may have others dependent on her for care and support who need a good bit of her time. So, even though you're anchored to your home much of the time, you still can look your best. In fact, you have the advantage. You can shampoo and set your hair anytime during the day. You can make repairs in and press your clothes when it suits you. And thus you can make a small wardrobe do a tremendous job.

And remember, your clothes should be right for your job. No tacky dresses or rundown house slippers. You can also take time to tint your own hair at home. You can apply make-up before your husband arrives in the evening. In short, you may not have the income of the career girl to spend on your appearance, but you can match her by making clever use of your time at home.

**YEARS OF CHANGE**  
The teen years are the perfect years in which to experiment with the way you look. Change your hair style often; it's fun. Most teen-agers are adept at doing their own hair. Don't get stuck with a ponytail just because it's easy to do. Save a part of your allowance money for expert cutting and styling once a month. Let the hairdresser show you how to set your own hair in between.

No matter what your clothes type, put your money into the very best that you can afford. Better just one good raincoat than two or three cheap ones that go to pieces after one cleaning. In your teens, learn that quality is important. This doesn't mean that you should yearn for labels or wish that you could wear them on the outside. It does mean that you should appreciate fine fabrics, honest tailoring and detailing. The only way to do this is to shop carefully. Never buy anything because it's "cute." Buy it because it's sound fashion, a pleasure to

wear and a good buy for your money.

### DARK CIRCLES

A reader asks me what to do about dark circles under the eyes. The answer is: get some rest. But if these unsightly circles are hereditary, then cover them with a makeup created just for this purpose. It comes in stick or cream form.

**BURLAP BAGS SMART**  
Now they're cutting burlap into summer satchels. These come in natural or black and could almost serve as overnight bags.

**DIFFERENT SPARKLE**  
For the best effect, don't wear the same costume jewelry day in, day out. Vary these accents for your summer wardrobe.

## RUTH MILLETT

Women owe themselves a lot. A woman owes herself:

The feeling of independence that comes from knowing that she can earn a living.

An absorbing outside interest which will keep her routine from becoming drudgery.

A little time alone every day. Time in which she can think her problems through and escape becoming middle-headed.

A sense of the value of her own importance as a person, to keep her family and friends from demanding more of her than they have a right to ask.

The dignity that cannot exist side by side with jealousy.

The best security for the future that a woman can build — a husband, home, children, and a place in the community which she has worked to earn.

A gracious personality.

Continuing mental growth and development — so that the years will not make her less but more of a person.

A sense of values which will guide her in making important decisions and in her relationship with other people.

As much fun as she can get out of everyday living.

## Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. **FASTREX**, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get **FASTREX** at any drug counter.

# Skin Rates Extra Care During Warm Weather

By ALICIA HART  
Newspaper Enterprise Assn.

A smooth, fresh complexion is not achieved without much care and pampering. For in order to maintain its beauty, the skin must fight many enemies.

Tension, for one, brings out lines of strain. Improper diet can cause the appearance of blemishes. And now, summer and the drying effects of sun and salt water are here.

This is the time of year when fine lines develop around the eye area, often from squinting in bright sunlight. And lines around the mouth can be set more rigidly because the skin is dry.

These lines can be corrected with daily care in the form of a good lubricating face cream and the nightly use of eye cream.

Keep your eye cream on your dressing table, and each night apply a dab right on top of your eyelid and another just beneath

your eye. Then, with your middle finger, gently massage your entire eye area, keeping the little finger of your free hand pressed gently against your eye muscle, right above the outer corner of each eye. Conscientious use of eye cream will also eliminate puffiness around the eyes.

While you are working with face cream and eye cream to remove the lines that have creased up around your eyes and mouth, they can be blended to match your complexion. A new cream that comes in a small, round, rouge-like container can be blended to match your complexion. It is applied under the eyes to tone out shadows, alongside the eyes to cover laugh lines, and it will fill in the lines around the mouth with light instead of shadow.

It's not just from your face that summer takes its toll. It robs the

moisture and skin oil from your entire body. You can guard against this loss by using a lanolin-enriched skin balm. One such lotion will sink into the skin without leaving a trace of stickiness, the makers say, while it leaves an unseen film which helps seal in your natural oils and retards the evaporation of water from the outer skin layers.

Although in many ways summer is a foe to skin beauty, it does bring us a few benefits. We're more inclined to exercise outdoors during the warm weather, and exercise stimulates circulation. Carefully taken, the sun can add health and beauty to the skin.

Be sure that you try to tan gradually rather than quickly, lubricate your skin daily, and you'll reap all the beauty dividends and none of the disadvantages of summer.

Never phone a man at home on a business matter that you could take care of during his office hours.

## MATURE PARENT

Dear Mrs. Lawrence:

Our 14-year-old girl's Saturday morning chore is cleaning the upstairs bathroom. But it always takes such pushing and arguments to get her going at it that I've been doing it myself for the past month. My husband says this is spoiling her. But this is what you've advised, isn't it? I'm sure I remember your writing that we shouldn't force children to do chores they resent.

ANSWER: Whoa, just a minute here. We release a child from a chore he hates, not to provide him with idleness but to provide him with a job he can enjoy. So I suggest that if you are going to continue to take on the bathroom Saturday mornings, you ask your daughter to plan and prepare Saturday evening supper.

This seems to be the time to explain my reason for believing it wise to release a child from a chore he resents. We relieve him of the hated job to protect him against developing an undesirable attitude toward all work. All of us, adults or children, who are forced to do chores we hate week in and week out can begin to think of all work as basically unsatisfying — a meaningless activity exchanged for the right to exist.

We all know grownups who think of their jobs as a boring means to their weekly salary check — a dull grind from which they expect no pleasure and demand none. Like the old galley slaves who sweated out their lives in the darkness of a ship's hold without interest in it direction or purpose, they regard work as a kind of punishment to be endured as stoically as possible.

It is to avoid the development of such an irresponsible attitude toward work — that use of our own energies — that we refrain from forcing hated chores from children. Like you and me, your daughter needs to experience work as exhilarating and adventurous if she's to accept its duller routines in a generous spirit.

Of course, if we're the kind of mother who can never let the ironing wait while we arrange sprays of apple blossom in the living room, we will be shocked by a child's resistance to a boring chore, thinking, "Who are you to want fun out of work when I dare not ask for any in mine?"

I may add that children who never experience work as joy find making vocational choices a very difficult thing.

**Kimono-Cut Dresses Are Ideal For Larger Women If Pattern Is Right**

By MARY BROOKS PICKEN  
Newspaper Enterprise Assn.

Don't have your sleeves too long. They help to widen the look through the hips. Avoid overlapping or double-breasted effects — those add too much bulk.

Recall, I've said darts are for fitting. Use darts when needed to fit your garment to your rounded body. Open seams of darts and press them flat.

Avoid bulky fabrics or any stiff fabric. Avoid large, conspicuous motifs. Don't wear your skirts too tight in hips or at bottom.

By careful management you can "look" 10 pounds lighter. Try it, it's worth it.

Dear Mrs. Picken: I have a beautiful cardigan sweater, but nothing to wear it with. I must wear dresses; skirts at my waistline are unbecoming. What can I do?—D. W.

Dear D. W.: Choose a fabric as near in color as you can to your cardigan or choose a basic color that will go with it.

Choose a simple style dress, omit the sleeves, make a neck in the dress that will look nice with the cardigan neck. Many dresses today are sold with matching cardigans.

You can very easily make your own ensemble — one that looks as though the two pieces were made to go together.

Do you have a sewing problem? Send it to Mary Brooks Picken, care of this newspaper. While Mrs. Picken cannot answer each letter personally, letters of general interest will be answered in the column.

DO'S AND DON'T'S  
A few do's and don't's for larger women:

**Dear Abby...  
Rogue's Gallery  
Nobody's Business**

By ABIGAIL VAN BUREN

DEAR ABBY: My mother-in-law has a family obligation, I get the idea as time passes that he would be happier with a younger, prettier woman. He is tall and handsome and, when we are together, I know some people think I am his mother. When I tell him I will give him up any time he says the word, he says he needs me like he needs his right arm. (He is left-handed.) Can this love last?

OLDER THAN HIM  
DEAR OLDER: It can, if you don't keep reminding him that he is left-handed.

CONFIDENTIAL TO "STILL LEARNING": Who isn't?

What's bothering you? For a personal reply, write to Abby, Box 3365, Beverly Hills, Calif. Include a stamped, self-addressed envelope.

CITY GIRL  
DEAR GIRL: Your mother-in-law obviously likes to surround herself with this "ancient" collection. It's HER home. If you don't like it, keep your eyes closed. And your mouth, too.

UNDER AGE  
DEAR UNDER: You need your parents' (or a guardian's) signatures. Talk this over with your parents NOW.

DEAR ABBY: I have gone with this man for over 12 years. I am 14 years older than he is, but he has always said that age doesn't make any difference. He makes good money and has

Pixie cap of terry cloth is perfect for covering a head bristling with rollers or clips. You can make it yourself.

# The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

## Consistency As Principle

We believe that consistency provides one of the important elements in character building. The man who sets a path for himself and then causes the various factors of life to coincide with the direction he has taken, will inevitably have a stronger character than the man who drifts to and fro and makes little effort toward consistency.

We believe the same can be said of nations. A nation which has a set of principles which it follows with vigor and with a commitment toward consistency will accomplish more than a nation which does not adhere to this practice.

And this particular observation has a direct bearing upon the competitive position of this nation vis a vis Soviet Russia.

When America began its national career, the American people believed in freedom, wanted it, and at least had some idea of what it meant. There was a consistency about our point of view. Americans didn't want to intervene in the affairs of other nations; they wanted to mind their own business; they wanted to create a better way of life; to rear their children in love and virtue; to produce more and better goods; to live in harmony with all the world.

So long as these ideas were upheld and consistently followed, America waxed strong.

But in current times America has forgotten its original aim and has little or no consistency. However, its giant competitor has a aim and one which is following with consistency.

We should keep in mind, here, that consistency, in itself, in no way guarantees moral rightness nor proper procedure. Of course we believe that there must be a basic consistency in harmony with truth and with good, or the individual or nation will surely die. But this is not to gainsay that for limited periods, at least, a nation might align themselves with policies wholly destructive and maintain them with consistency. For limited periods, at least, a nation or a person can be consistently aggressive and evil. And here, the character may not be developed, it is quite likely that brute strength will be.

The consistent villain is a more effective villain than the dilettante.

Thus, the two largest and most powerful nations in the world face

First postage stamps for letter postage were issued in England in 1840, according to the Encyclopedia Britannica.

each other with the one hesitant, uncertain, confused; unwilling to give up freedom entirely, yet toying with the idea that it might be necessary; abandoning its historic position of independence and self-management yet unwilling and unable to take any other position with commitment and determination.

The other nation is a solid core of consistency. It has aim and purpose; it has no hesitancy about freedom, this has been put aside as unworthy; only the state is supreme. Only the state is to be served. And the state is to grow until it takes over the world and rules it with an iron hand.

Thoughtful men, appraising the struggle, are inclined to believe that unless America can attain to a new birth of consistency in its course of action, its more consistent opponent will win out. But here is the dilemma which causes so much confusion and so much hesitancy.

Should America seek to adopt the role of Russia, in order to be consistent? Some think so. Some believe that the only way for this nation to win the contest is for it to adopt Russian goals and methods and win by sheer weight of industrial and intellectual might.

But more thoughtful persons examining that avenue, argue that such a victory would be as disastrous as a Russian victory. If human life is to be subverted to nothing more than political servitude, the name of the political party to be served or the name of the top man of that party becomes of little interest. The man who is sacrificed to make a meal for the lion is disinterested in the lion's genealogy.

It is far easier for us to chart a course of action there than to follow the charting. Nonetheless, regardless of difficulty, the course must be charted and followed.

America must be free. It must be independent. It must rely on the genius of its great individuals to manage and persevere. It must adopt a course of action consistent with these ideas. In such consistency it will build new national character and emerge stronger and brighter than before.

If it does this, it can win the contest. And it will deserve the victory.

If, instead, we flirt with political supremacy over all human action as a way of life, we will be seeking to defeat an enemy by using its weapons on its own ground. And the victory will be pyrrhic if it comes for in the process of winning it we will have destroyed the reason for survival.

# Excerpts From Special Vestry Report On Natl. Church Council

Editor's Note: Below is the last of a series of excerpts from the 12,000-words Report by the St. Mark's Episcopal Church Vestry Committee, Shreveport, La., on its 10-month study of the National Council of Churches of Christ in the U.S.A.

## THE NCCCA AND THE HOUSE UN-AMERICAN ACTIVITIES COMMITTEE; "NAME CALLING"

The NCCCA seems to take the position that any information obtained in any hearing of the House Un-American Activities Committee cannot be accepted. Dr. Miller used the phrase, "I surely wouldn't ever take that as authentic" when asked by the Vestry Committee concerning certain revelations in the House Committee's records concerning Communism. The attitude seems especially to be — as placed before the Vestry Committee by Dr. Miller — that testimony before the House Committee by ex-Communists cannot be given credence in any way.

The Vestry Committee cannot judge the veracity of evidence by any witness before any governmental committee. But we do feel that there are two main sources of accurate information concerning activities of Communist cells, apparatus or agents in this country. One is the testimony of Communists who were part of such activities at one time and who have repented. The other is the testimony of FBI agents who were undercover agents in Communist cells for years. Some testimony from both sources has been referred to with disdain — as to veracity — by some officials of the NCCCA.

Individual members of the NCCCA — and some newspapers — have been active in movements to have the House Un-American Activities Committee abolished; for example, Dr. Eugene Carson Blake, past President of the NCCCA, was signer of a petition to Congress published as a paid newspaper advertisement, making such a demand.

The General Board issued a pronouncement (14-1) on March 17, 1954, which would render it ineffective.

## HOUSE COMMITTEE FORMED IN 1938

This attitude of belittling a constituted congressional investigating committee of nearly a quarter of a century of activity is, to this Vestry Committee, amazing. The House Committee was formed in May, 1938, during the Franklin D. Roosevelt administration as a special committee of the House. Shortly thereafter, it was made a permanent standing committee of the House and still is. During its more than 22 years of existence, it has heard literally millions of words of testimony from literally hundreds of witnesses. In addition, it has had for its information quantities of private reports of investigations by other governmental agencies. At times it has been Democratic in the majority of its membership, at times Republican. It has had Republican and Democratic Chairmen. It has functioned under Republican and Democratic Speakers of the House — the Speaker having a powerful voice in naming the personnel of such committees.

When last November's presidential election brought a "liberal" victory, the organized and seemingly well-financed efforts to destroy the House Un-American Activities Committee were increased in intensity. But when a vote came in the House in the present session — only six members voted against the appropriation. The Chairman of the Committee, when he arose to speak in behalf of the appropriation, was given a long and standing ovation from virtually the entire House membership, Democratic and Republican.

The Vestry Committee recognizes that the mere fact that the beliefs of a person or an organization may be in line with some beliefs of Communism or its leaders does not mean that the person or organization necessarily is a Communist, any more than that having four legs makes an animal a horse.

But, persons who hold high public positions, or are spokesmen for an organization which professes itself in political and other propaganda as "representative of" or expressing "the current opinions" of 34 Communions of 39,000,000 American Protestants should take special care that in their personal activities they are not bringing reflection upon these millions and are not furthering a Communist cause in a manner inimical to both Christianity and American freedom.

## HYPOCRISY MARKS DEFENSE BY NCC

The NCCCA and some of its leading figures have resorted to

"name calling" as their reply to and denunciation of what they consider "name calling" of the NCCCA by some of its critics. Hypocrisy and demagoguery in this way have crept into the NCCCA's own defense against various charges made against it.

In its publication, "The Truth," the NCCCA reprints a New York Times article of March 28, 1960. In it J. Howard Pew, former President of the Sun Oil Company, head of the United Presbyterian Foundation, and Chairman of the General Board's 1951-1955 Lay Committee (which was disbanded by the General Board after the Committee sought futilely to end or lessen the Board's political propaganda activities) is quoted as saying "continue to withhold contributions to the corporate Church" until it stopped making pronouncements on certain social and political issues.

Dr. Eugene Carson Blake, Past President of the NCCCA, was quoted as saying that "support for slanderous accusations against liberal churchmen" comes from groups "specifically including wealthy men of the far right" (politically) as if that nullified the importance or veracity of the criticism.

Does political thinking of those of the far-right — or left, or any other direction — make them un-Christian?

## DOES WEALTH BAR CHRISTIANITY?

Does possession of wealth keep a person from being a Christian? (Abolition of private property, of course, is one goal of Communism.)

Where would be the cause of the NCCCA itself — and the work of most of its Communions — be but for persons of wealth in regard to the furthering of Christianity? This, indeed, demagoguery — in the name of Christianity. The NCCCA itself lists 12 per cent of its annual income as coming from special gifts from corporations and others — presumably all of wealth. It is no secret that gifts running individually into several hundred thousand dollars have come to the NCCCA from organizations or individuals of wealth.

In this same pamphlet, "The Truth," the introduction — presented by the NCCCA itself — contains the following as its second paragraph:

"A handful of arch-critics and dissident groups who are devoting their lives to undermining the Protestant churches and their regularly constituted agencies, are unwittingly the handmaidens of Communist techniques." The NCCCA thus turns to a weapon it denounces its critics for using — "Communist name-calling." Well along in this pamphlet, it is brought out that the document is aimed specifically at certain identified persons who have been persistent critics of the NCCCA, especially in connection with furthering some causes of Communism.

## DELIBERATE DECEIT SEEMS CERTAIN

But a reader picking up "The Truth" and reading that paragraph at the very start easily might interpret it as inclusive of all who criticize the NCCCA. It is difficult to believe that deliberate subterfuge and deceit were not used in the writing of this NCCCA document.

Let us state very emphatically here that there is nothing communistic or of being "handmaidens of Communist techniques" in the many Protestant churches, ministers, and church groups, including Protestant Episcopalians, who have been criticizing the NCCCA sharply for several years, specifically on utterances and activities of its high officials and its General Board. That includes, of course, this Vestry Committee in its present report.

Some others who have criticized the NCCCA are the Very Rev. Frank L. Carruthers, Dean of St. Matthews (Episcopal) Cathedral at Dallas, Texas; the Rev. Paul DeWitt Urbano, Rector of All Saints Episcopal Church at Phoenix, Arizona; the Episcopal Upper South Carolina Diocese; the Texas District of the Lutheran Church — Missouri Synod, and the largest Baptist American Convention church in the nation at Wichita, Kansas. Brief details of these criticisms are contained in Appendix, Section N.

These are simply some activities that have come to the Vestry Committee's attention. None of those concerned can be considered as unintentional or intentional "handmaidens of Communist techniques," nor can criticism of the NCCCA from such sources be looked upon as uttered with other than the most sincere desire to further the teachings of Christ and to spread Christianity throughout the

world. These are informed, intelligent, respected Christians — including Episcopalians — speaking. The pamphlet, "The Truth," in the haphazard manner in which it denounces critics of the NCCCA is another example of irresponsibility in the executive and administrative functions of the NCCCA itself.

## THE READING LIST

In 1957 a pamphlet titled "The Negro American — A Reading List" was published by the Department of Racial and Cultural Relations of the NCCCA. It contains a Foreword by Alfred S. Kramer, who was then Associate Executive Director of the Department. It contains, in addition to the Foreword, an Introduction, a Reading Guide, a list of "Some Other Helpful Materials," a list of "Some Race Relations Organizations," an Index of Authors, Addresses of Publishers, and lists of books for Primary Children (pre-school and grades 1-3), Intermediates (grades 4-6), Juniors (7-9), Seniors (grades 10-12), and Adults. In the introduction, one of the compilers of the list urges: "Read for enjoyment and information, remembering to note publication date. Read aloud to your children, or put the books where they will be picked up. Make recommendations to your children's teachers and to librarians. Share your copy of this list with friends. Urge church, R.T.A., and other organizations to circulate copies."

This reading list is indefensible — Dr. Miller admits the NCCCA is "embarrassed" about it — and we can find no excuse for its having been printed and circulated. Dr. Miller stated that it was prepared for "mature leaders," an obviously erroneous statement in view of the fact that there are specific lists for children.

The list is bad for two reasons. First, some of the books are of highly questionable moral background. For instance, Dr. Miller, in a letter to our Rector in December, 1960, especially recommended to the Vestry Committee the book "Without Magnolias," by Bucklin Moon as being representative of the list in that it was trying to show the moral climate in which Negroes live. (Dr. Miller did this because the NCCCA claims the list is now out of print and that there are no available copies; we have several in our files.) If this book is a recommended example, we wonder what the rest of the books must be like. "Vile language is used in "Without Magnolias." It depicts an act of adultery, between a Negro woman and a white man in York City, not only without an expression that this was immoral, but in such a manner that it was actually condoned; furthermore, the reader is led to feel sympathy for the participants, who experienced no remorse or qualms of conscience.

## WHY PRONOGRAPHY IN A CHURCH LIST?

Another book, "Color Blind," by Margaret Halsey, is written in acceptable language, but devotes all of Chapter 8, pages 89-120 inclusive, to the subject of "Sex, Jealousy and the Negro," with discussion included on relative sex potentials of Negro and White males. Regardless of what Miss Halsey contends — and the Vestry Committee is not dealing with that point — why should such materials be included in the recommendations of churches?

The question raised here is not one of Negro or White morals. But, why should a tremendous church organization recommend to its 34 Communions and their 39,000,000 Protestant members the use and distribution of a book couched in filthy and pornographic language? If the subject should be on the reading list, certainly there are books that discuss it in language of common decency.

The second basic fault we find in the reading list is a strange affinity found between the Communist conspiracy and some of the authors whose work is cited. Miss Halsey has been listed as a member or supporter of certain Communist Front organizations. The author whose works are most numerous is Langston Hughes, who was identified before a Congressional Investigatory body as an active Communist. He is the author of a blasphemous poem the very reading of which condemns him as not just atheistic but anti-God. He is a member, sponsor or signer of numerous Communist fronts, or subversive committees and organizations.

Another author is Victor Perlo, whose book "The Negro in Southern Agriculture" — recommended on this list — was published by International Publishers, the Communist Party's major publishing firm in this country. The Senate Internal Security Subcommittee

describes him as "an open propagandist for Soviet World conspiracy."

Herbert Aptheker wrote the recommended "A Documentary History of the Negro People in the United States." He stated before the Subversive Activities Control Board in 1952 that he joined the Communist Party in 1939, and that the Soviet Union and Red China were on the side of peace but that he believed the Government of the United States was the center of war danger in the world. For Communist affiliations see the Appendix.

"Black Reconstruction," by W. E. B. DuBois, was recommended. DuBois has long been actively associated with Communist organizations. In Peking on the occasion of his 91st birthday, he was given a testimonial dinner by Vice Premier Chen Yi, at which he heaped praise upon Red China. For this occasion he, too, wrote a blasphemous poem, "I Sing to China." You will do well to read it if you are to understand our charge that these authors are out of place for Christian thinking and education.

## ADMITTS READING LIST WAS A MISTAKE

There are others. We cannot imagine why the NCCCA could have possibly allowed such people to have had their writings placed on a reading list recommended by the NCCCA. At first Dr. Miller could see no relevance between "a few phrases and a few poems" and the irresponsibility of the list. He did finally admit that they did indeed indicate the character of the authors, which we pointed out must pass on into any work the authors might write. He admitted that the list was a mistake, and he read a letter from the General Secretary of the NCCCA stating that he is very much embarrassed by the fact that the book list was issued and that he feels its issuance was very unwise and inappropriate.

## Looking Sideways

By WHITNEY BOLTON

NEW YORK — Walking along Broadway the other afternoon, I saw an actress who has been prominent in many Broadway plays, always making a fine performance, and when she is not in theater she is customarily on television, a hard-working, excellent actress. At times I have wondered why Ruth White never was a star — and now I know why. She never wanted to be.

"I actually never did," she said, as we stopped and talked. "I don't have to take little pink pills, I don't have to worry about billing, public images, fan clubs, a squadron of agents, multiple taxes or occasional overseas residence. It's a lot easier just to work."

Her most recent performance was in the recently closed "Big Fish, Little Fish," in a provocative performance as the suburban matron. I told her I thought it was a wonderfully astute performance and she must have known women like that.

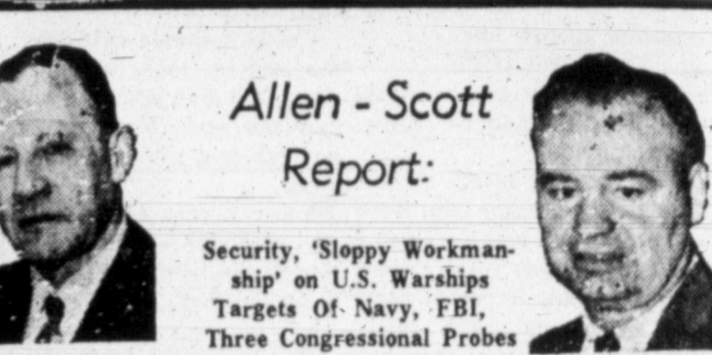

"I've known a lot of things, including 'Bleaker' days," she said. "I started as an apprentice in 1940 and soon began getting jobs — that didn't pan out. I can count exactly a score — a score is 20, isn't it? — of plays I signed for but when my hopes were highest the manager would post the closing notice in New Haven, Boston or Philadelphia and we never got to Broadway. I began to think maybe I was responsible in some occult way. But I wasn't, not really."

"I took to the hills of Bucks County," she said. "I got a job at the Playhouse and began building up a faithful audience. In one season I did 'The Glass Menagerie,' 'The Little Foxes,' 'The Country Girl,' 'Old Acquaintance' and 'Meet The Wife,' each of which had taken a star originally. We had, by the way, an attractive and promising youngster as an apprentice. Kid by the name of Grace Kelly."

"Did she feel Broadway had been good for her?" "I do, I certainly do," said Miss White. "I was offered a wide variety of unusual roles. A Japanese peasant mother in 'Rashomon,' small town spinster in 'The Ponder Heart,' silent screen actress, flamboyant Nita Naldi type, in 'The Warm Peninsula,' and a tobacco heiress, an original Duke, in 'The Happiest Millionaire.' It was wonderful. I also tucked away two movies, 'The Nun's Story' and 'Edge of the City.'"

"Many of the youngsters today," I said, "do not talk about good performances or learning their trade or responsibility to

We'll Protect You, Little One

ROBERT S. ALLEN PAUL SCOTT

WASHINGTON — A massive array of investigators is digging into reports of extensive "sloppy workmanship" on the construction of U.S. warships.

The Navy, Justice Department and three different congressional committees have launched such probes as a result of Vice Admiral W. M. Beakley's recent charge that the new aircraft carrier Kitty Hawk had more than the usual number of defects when turned over to the Navy in the spring.

Later, backing up Beakley's blunt accusation, the Navy stated there had been "more unacceptable work in this ship... than is normally expected."

Involved in the flurry of investigations are more than 20 vessels, including two nuclear-powered Polaris submarines. Approximately half of them are being built at Camden, N.J.

The congressional committees looking into this disturbing situation are the Senate Armed Services Preparedness Committee, the House Armed Services Committee, and the House Military Appropriations Subcommittee. All have assigned staff specialists to conduct inquiries and submit detailed reports "for possible further action."

The Justice Department is checking two matters particularly — complaints of lax security in the shipyards, and instances of conflict-of-interest.

FBI agents are investigating the reported photographing of vital internal sections of a nuclear submarine, including the launching tubes of the solid-fuel Polaris missile.

These revealing pictures were reportedly taken from an unguarded vantage point adjoining the shipyard.

One of the conflict-of-interest cases involves a Navy reactor expert who went to work for a ship company a few months after it was awarded a contract for a nuclear submarine. The expert had participated in the granting of this contract.

Admiral Hyman Rickover, "father" of the growing nuclear submarine fleet, recommended this affair be scrutinized. Also being probed is the discovery of a fully-equipped machine shop sealed up inside an aircraft carrier. During Japanese Prime Minister Ikeda's talks with President Kennedy, he was given assurances that the Okinawa military base will be restored to Japan "as soon as it can be spared." The billion-dollar base is a key bastion of U.S. forces in the Far East, and Kennedy's promise was a reiteration of similar statements by former Presidents Truman and Eisenhower. Ryukyu Island, on which the Okinawa base is located, has a native population of around 1,000,000. The peace treaty with Japan recognized its ownership of Ryukyu.

Emperor Haile Selassie, once wholly pro-Western, is shifting to the neutralist camp. The Ethiopian ruler has signed an economic agreement with satellite Czechoslovakia for the establishment of a shoe factory and other plants. Turkey has made a deal with Bavarian farmers' union to train 500 Turkish farmers in modern methods. They will be sent to Germany for that purpose.

ARREST 37 LEFTISTS MARACAIBO, Venezuela (UPI) — Police announced today that 37 leftists were arrested during the anti-American demonstration touched off Thursday by U.S. Ambassador Todoros Masco's arrival here on a visit.

# 31 Runs And 31 Hits Feature All-Star Game

## Northerns Victors By 25 To 6 Margin

It was the Fourth of July, and the Northern All-Stars celebrated by shellacking the Southern All-Stars 25-6. Errors were the main factor in the game as 19 were committed. The South contributed 13 and the North 6.

The North got off to a good start by capitalizing on a hit and 2 Southern errors to score 1 run in the first. In the second 3 more errors by Southern fielders led to two more runs. Northern bats were calmed until the sixth when they exploded for 10 runs on 6 hits and 4 errors. The North added 3 more in the seventh, 3 in the eighth and 4 in the ninth, with the aid of more Southern errors.

Kippy Williams started on the mound for the South and yielded 3 runs on 2 hits while fanning 5 in 3 innings pitched. Robert Cinquin, Amarillo, relieved Williams and pitched two innings, allowing 2 runs on 3 hits. Bob Taylor followed Cinquin and gave up 4 runs on 3 hits in 1-3 of an inning. Jimmy Walker relieved Taylor and yielded 3 hits, scoring 6 runs.

Newt Secrest finished the game, allowing 10 runs on 9 hits.

The North sent three southpaw hurlers against the South and yielded a total of 11 hits while their teammates committed 8 errors behind them.

Bill Scherick led the parade of hitters in getting 5 hits in 7 trips to the plate for the North. Bobby Jones went three for three for the South. Donnie Anderson banged a home run and a double in five trips, and Dick Denton also hit a round-tripper for the North.

In all, there were 31 hits in the game; 20 by the North, and 11 by the South. Of the 31 runs scored, 14 were earned.

### ALTMAN GIVEN AWARD

CINCINNATI (UPI) — George Altman, an outfielder with the Chicago Cubs, has been named the National League's player-of-the-month for June. Altman batted .364 during June with 44 hits and 10 home runs to nose out Willie Mays of the San Francisco Giants by just one vote.

## U.S. Crews In Regatta Race Today

HENLEY-ON-THAMES, England (UPI) — Four United States crews take the water today on the opening day of the 1961 Royal Henley Regatta and all of them appear assured of at least another day's competition.

But for the three Yank crews in the 93-year-old Thames Cup event, the draw proved unlucky because they came out in the bottom six, which means only one of them can reach the semi-finals.

First away of Uncle Sam's flag carriers is the Kent, Conn., eight-oared shell against London's imperial College in the Thames Cup, won last year by Harvard University — the 17th American winner of this event in the last 19 regattas.

Cornell's lightweight crew takes on the London, Tideway Scullers eight, also in the Thames Cup, and the Eliot House crew of Harvard meets the Valeakosken Vesiveikot eight from Finland in yet another Thames Cup clash.

## Net Battles Nearing End

WIMBLEDON, England (UPI) — Chuck McKinley of St. Ann, Mo., the United States' last survivor in the singles competition of the Wimbledon tennis championships, matched his tireless volleying against Britain's Mike Sangster today in the men's semi-finals.

The other semifinal pitted second-seeded Rod Laver of Australia against seventh-seeded Ramanathan Krishnan of India.

McKinley, seeded No. 8, was favored to eliminate the unseeded Sangster and thus set up a possible U.S.-Aussie meeting with the red-haired Laver in Friday's final.

The United States failed for the second straight year to gain a berth in the women's semi-finals Tuesday when 18-year-old Karen Hantze of Chula Vista, Calif., was upset by South Africa's Renee Schuurman, 6-4, 2-6, 7-5.

In Thursday's matches, Miss Schuurman will meet Christine Truman of Britain and top-seeded Sandra Reynolds of South Africa will play Angela Mortimer of Britain.

Miss Hantze managed to reach the semi-finals of the women's doubles when she teamed with Billie Jean Moffitt of Long Beach, Calif., to defeat Miss Schuurman and Miss Reynolds, 9-7, 6-3. The South Africans were top-seeded in this division.

**MARTIN-TURNER INSURANCE**  
Fire, Auto, Comprehensive Liability and Bonds.  
107 N. Frost — Ph. 4-8428

McKinley and Dennis Ralston of Bakersfield, Calif., were eliminated by Fraser and Emerson, 2-6, 6-4, 7-5, 6-2, in the quarter-finals of the men's doubles.

## Lakers Sign Cage Player

LOS ANGELES (UPI) — Elgin Baylor, considered by many to be the finest basketball player in the world, signed a five-year contract Tuesday with the Los Angeles Lakers at a salary hinted at about \$50,000 a year.

Club President Robert E. Short, a Minneapolis trucking executive, made the announcement.

"So far as we know, this is the longest-term contract ever given to a professional athlete," Short said. "It indicates our faith in the continued ability of the man we feel is the greatest basketball player in the history of the game."

## Russell Victor In Tennis Tilt

WICHITA, Kan. (UPI) — Don Russell of Pan American College fought behind Tuesday, and dethroned defending champion Gene Land of Muskogee, Okla., in the Kansas Centennial Open Tennis Tournament.

Russell, 21, who came from Australia to attend the Edinburg, Tex., school, captured the men's singles crown with scores of 2-6, 8-6 and 6-4.

## Dallas Grid Crew Off To Camp Sunday

The first wave of Dallas Cowboys hit their Northfield, Minn., training site next Sunday, July 9, to start two months of preparation for the 42nd National Football League season opening September 17.

Reporting to the St. Olaf College camp next Sunday will be 43 rookies and nine veterans.

Veterans include quarterbacks, centers and other NFL veterans who will be with the Cowboys for the first time this year. The other 31 veteran Cowboys will check in Sunday, July 16.

Newcomers to the Cowboys, but old hands in NFL warfare, are Defensive Safetyman Dick Mogle and Linebacker Chuck Howley. Mogle, the former Rice All-American from Taylor, Texas, was obtained last winter in a trade with the Pittsburgh Steelers and Howley came to the Cowboys in a trade with the Chicago Bears.

The 1960 Cowboys who will report with the first group include Quarterbacks Eddie LeBaron and Don Meredith; Centers Mike Connelly and John Houser; Offensive End and Defensive Halfback Gary Wisener; Offensive End Jim Doran and Offensive Halfback Don Jerry in the 1960 College All-Star camp and did not play during the regular season.

### PASTRANO GETS BOUT

GÖTEBORG, Sweden (UPI) — Light heavyweight contender Willie Pastrano of Miami Beach, Fla., will meet Swedish champion Lenmar Risberg in a 12-round bout at Stockholm's Olympic Stadium on Aug. 6.

Pastrano is due in Sweden in mid-July and will establish his training camp at Leksand, a health resort 165 miles north of here.

The Pampa Daily News

8 WEDNESDAY, JULY 5, 1961 54th YEAR

## Record Crowd Sees Yank-Tiger Battle

United Press International

The Detroit Tigers and Cincinnati Reds, a pair of pre-season 25 to 1 shots, passed the July 4th milestone with a fervent hope that their prize pitching "stoppers" will stay healthy all the way to the World Series.

Frank Lary is the boy the Tigers are rooting for to remain hale and hearty.

As for the Reds, they're urging big Joey Jay to stay out of drafts.

Lary bunted home the winning run in the 10th inning Tuesday while pitching the Tigers to a 4-3 nightcap victory over the New York Yankees. The triumph enabled the Tigers to maintain their one game American League lead over the Yankees, who won the opener, 6-2, on Whitey Ford's five-hitter.

Jay pitched a three-hitter for his second straight shutout as the Reds defeated the Pittsburgh Pirates, 2-0, and preserved their two-game National League lead over the Los Angeles Dodgers.

The Dodgers scored six runs in the first inning and hung on for a 4-5 win over the Milwaukee Braves; the San Francisco Giants clobbered the Chicago Cubs, 19-3, then lost the nightcap, 3-2; and the Philadelphia Phils won the second game of a twin bill with the St. Louis Cardinals, 10-6, after losing the opener, 10-7.

In the American League, the Baltimore Orioles beat the Cleveland Indians, 3-1; the Washington Senators trounced the Boston Red Sox, 7-3; the Los Angeles Angels climbed out of the cellar by sweeping a doubleheader from the

Kansas City Athletics, 12-5 and 7-5; and the Minnesota Twins beat the Chicago White Sox twice, 6-4 and 4-2.

A crowd of 74,246 — largest of the 1961 season and also the biggest turnout at Yankee Stadium since 1947 — watched the Tigers split with the Yankees.

Lary yielded nine hits during the first nine innings and pushed across the winning run in the top of the 10th with a two-strike safe bunt before giving way to relievers Hank Aguirre and Terry Fox for the final three outs of the game. The victory was his 12th of the year and ran his lifetime record against the Yankees to 26-9.

Ford struck out 11 batters in the opener as he breezed to his ninth straight victory and ran his season record to 15-2. The Yankees scored all their six runs in the fifth, when an error by Chico Fernandez undermined starter Don Mossi. Five of the runs were unearned.

Gus Triandos drove in four Baltimore runs with a pair of homers and Steve Barber held Cleveland to five hits in a rare holiday twilight game. The win was Barber's ninth.

Tom Cheney, a National League castoff, made his first American League start a winning one for Washington, although he needed ninth-inning relief from John Gubler, Gene Woodling, Gene Green and Willie Tasby hit homers.

George Thomas and Lee Thomas each hit a three-run homer for the Angels in their first game since over Kansas City. Ted Kuszewski and Ken Hunt contributed baseless empty blasts as Los Angeles sent bonus baby Lew Krausse down to his third straight defeat. In the nightcap, Rocky Bridges hit his first homer since 1959 to help the Angels make it a clean sweep.

Julio Becquer hit a pinch grand slam homer in the ninth to give Minnesota its first-game victory over Chicago. Harmon Killebrew hit a three-run homer in the nightcap and Jack Kralick scattered 9 hits in pitching the distance.

Jay's victory for Cincinnati was his 11th against four defeats. Gene Freese hit a fifth-inning homer off Pittsburgh's Earl Francis and Gus Bell drove in the Reds' other run in the sixth with a sacrifice fly.

Charley Neal's three-run double was the big blow in the Dodgers' six-run first-inning explosion. Dick Farrell relieved starter Stan Williams in the sixth as the Dodgers extended their winning streak to five games. Hank Aaron homered for Milwaukee in the seventh.

Orlando Cepeda drove in eight runs with a homer, triple, two doubles and a single in the Giants' rout of the Cubs. Billy O'Dell pitched two-hit shutout relief ball for nine innings after the Cubs had scored twice in the first off Ed Fisher on George Altman's homer. O'Dell struck out 13 batters. In the nightcap, Ron Santo's eighth-inning homer furnished the Cubs' margin of victory and made Jack Curtis the winner.

Stan Musial drove in four runs with a homer and triple in the Cards' win over the Phils. In the nightcap, Charlie Smith knocked in four Philadelphia runs with a homer and a double, and Jim Coker contributed a three-run homer.

## Texans Winners In Golf Battle

ELK CITY, Okla. (UPI) — Texans won the first four places Tuesday in the eighth annual \$1,200 Elk City Invitational Golf Tournament.

Bob Tenant of Amarillo, playing cautious golf, shot a 2-under par 70 the final day for a 2-under par 207 for 54 holes.

Harry Wilbur, Canadian, Tex., was second with a 69 and a 216 total; Monty Sherrord, Amarillo, third at 74 and 217, and Ken Gowdy, Pampa, fourth, 77 and 220.

# Rochester Hurler Has No-Hitter

**By United Press International**  
With all the fine young pitchers on the Baltimore Orioles' roster, southpaw Art Quirk realized that the only way he could attract the attention of manager Paul Richards was to pitch a no-hitter.

"And that's just what the Orioles' farm hand did Tuesday for the Rochester Red Wings as he blanked the Syracuse Chiefs, 5-0, in the seven-inning first game of a holiday doubleheader.

Quirk, who was signed by Baltimore following his graduation from Dartmouth College two years ago, faced only 22 batters, one more than the minimum, and struck out nine. The only Syracuse player who reached base was shortstop Ted Levico, who walked in the second inning.

It was Quirk's sixth victory of the season against three defeats. The Red Wings also won the second game, 11-5. John Anderson, with relief help from Art Kay in the ninth inning, picked up his eighth victory of the campaign.

The Columbus Jets maintained their 4½ game lead over second place, Charleston by splitting a holiday pair with the Marlins. Tom Sturdivant pitched the Jets to a five-hit, 5-0 victory in the opener but Charleston scored three times in the ninth inning to win the nightcap, 3-2.

The Toronto Maple Leafs defeated the Buffalo Bisons twice, winning the opener, 6-0, with the help of three homers by R.C. Stevens, and taking the second game, 5-4. Raul Sanchez won both games in relief roles as Richmond swept a pair against Jersey City, 7-5 and 4-4.

# Pampa Rebels Lose 3-0 To Borger Crew

Pampa's American Legion Rebels lost their first game in Northern Division league play when they were shut out 3 to 0 by Borger in a game played in Huber Park at Borger last night.

Pampa is in first place in the standings in the Northern Division with six wins and one loss. The Amarillo Dusters are second with five and two.

Winning pitcher in last night's game was Joe Robinson who had 13 strikeouts. Jerry Glover, losing pitcher, struck out eight batters.

The game was tightly played from beginning to end. Pampa was able to get only 3 hits and Borger chalked up 5. Both teams played errorless ball and there were no extra base hits.

Monday night the Pampa Legion team whipped the Amarillo Dusters 9 to 4 in a league game played at Optimist Park.

Perryton forfeited a game scheduled with Pampa last Saturday night and the tilt went into the record books, Pampa 9, Borger 0.

The Rebels' next game will be with the Amarillo Dusters at 7:30 p.m. Sunday in Memorial Park at Amarillo.

The following night, Monday, July 10, the Pampa Legion team will play another home game, meeting the Palo Duro Chiefs in a game scheduled for 8:15 p.m. in Optimist Park.

# Sleepy Ned Wins Ruidoso Handicap

**RUIDOSO, N.M. (UPI)**—Sleepy Ned slipped under the wire just one length ahead of Turkson to outlast a fast closing field and win the Governor's Handicap at Ruidoso Downs Tuesday.

The six-year-old brown gelding was ridden by jockey Louis Meaux and paid \$7.60, 4.20 and 4.00. An Independence Day crowd estimated at 5,500 was on hand.

**CUBS SIGN PITCHER**  
**CHICAGO (UPI)**—The Chicago Cubs have signed Jack Silvera, a 20-year-old lefthanded pitcher from Los Angeles. Silvera will report to the Carlsbad, N.M., team of the Sophomore League.

The Hindustani word "jungle" means "uncultivated land," which tends to become covered with trees and long grass.

# New Race Mark Set By Driver

**DAYTONA BEACH, Fla. (UPI)**—Young David Pearson headed home today with about \$8,000 first-place money, an impressive new record for Daytona Speedway's annual Fourth of July "Firecracker" 250-mile race, and a firm foothold in the "big time."

Smooth, calculating driving, plus a bad break for runnerup Fred Lorenzen of Elmhurst, Ill., paid-off in Tuesday's race for Pearson, a 26-year-old Spartanburg, S.C., driver.

Pearson's average time for the 100-lap event was 154.294 miles per hour, whacking betterment of the mark set by last year's "250" winner, Jack Smith of Spartanburg. Smith finished third Tuesday.

Pearson piloted a 1961 Pontiac over the two and one-half mile track.

Lorenzen seemed to have the race in the bag until Pearson made his move on the '8th lap—two laps from the finish.

Striking past the stragglers, Pearson ran bumper to bumper with Lorenzen, then nosed into the lead on the final lap.

Lorenzen still was in the running until he found himself bunched up with other cars and forced to slow down for a few precious seconds.

**Football Scout —**

**Dick Gallagher Lands Stars With First Bid**

**BUFFALO, N. Y. (NEA)**—Francis eagerness to ply kids with tens of thousands of dollars is one way to get them to play ball for you. But it isn't enough.

You have to have a super-salesman to sell them on taking the money, too. A guy like Dick Gallagher, for instance.

Joe Signaigo, an old Notre Dame guard, signed with Cleveland because he wanted a car so he could take his girl to a graduation dance. Gallagher got him one.

Last year he sweetened up Richie Lucas, Penn State's All-America quarterback, for a Buffalo contract by sending Richie's fiancée to the Hula Bowl in Hawaii.

Ken Rice, the impressive mountain from Auburn, is going to Buffalo this year with the only contract in football that says the club will pay his moving expenses from the campus, too. When Gallagher visited University Park, Pa., to corral Stew Barber, another tackle specimen, he heard a telephone pge for the Penn State star at the airport.

Gallagher answered it. Just like he figured, it was a scout from the rival Dallas Cowboys. After a quick stall, he signed Barber before the other scout could get to him.

Gallagher is an old hand at this internecine struggle between two leagues for talent. His old Browns are on the other side of the fence now while the young American Football League fights to get established, but Dick was on the front lines when the Browns were getting a foothold in the now defunct All-America Conference.

A primary target was Tommy Thompson, a great linebacker at William and Mary, where Gallagher had coached. The summer BEFORE Thompson's last year, Gallagher got an SOS that the Washington Redskins were about to sign him secretly and keep the contract under wraps for a year.

**Palmer Wins Over Player**

**ST. ANDREWS, Scotland (UPI)**—Arnold Palmer waited a year to get his revenge on the famed "road hole" — the 17th — at St. Andrews' old course, but it was worth it.

The husky shotmaker from La Trobe, Pa., got an eagle-three on his jinx hole Tuesday that helped him to a five-stroke victory over Gary Player of South Africa in a \$10,000 television match. Palmer wound up with a three-under-par 70.

In the 1960 British Open, Palmer three-putted the 17th green three times and wound up losing the championship to Australia's Kel Nagle by one stroke.

But this time the rugged Pennsylvanian placed his second shot on the 466-yard hole about 15 feet from the pin and canned his putt. That finished Player, who had reduced Palmer's lead to two strokes on the 14th after trailing by five strokes at the turn.

The match was part of a series being televised by an American network (ABC) for later showing in the United States.

Following the match, Palmer and Player left for Southport, England, where they will play in the British Open at Birkdale starting next Monday.

**SPORT BRIEFS**

**CROMWELL WINS TWICE**  
**PHILADELPHIA (UPI)**—Seymour Cromwell of Cambridge, Mass., former Princeton University oarsman, won the 200-meter championship race of the annual Independence Day regatta on the Schuylkill River Tuesday. Cromwell also captured the quarter mile dash for singles, establishing himself as the top candidate for the U.S. singles sculls title.

**NELSON PLACES FIRS T**  
**INDIANAPOLIS (UPI)**—Norm Nelson of Racine, Wis., averaged 74.36 miles per hour Tuesday in winning the \$100-lap feature stock car race at the USAC-sponsored event at the new Indianapolis Raceway park. Paul Goldsmith of St. Claire Shores, Mich., finished second, 2.8 seconds behind Nelson.

**SOCCER TEAMS TIE**  
**MONTREAL (UPI)**—Montreal Concordia and Espanol of Barcelona played to a 1-1 tie Tuesday night in an International Soccer League game. Barcelona led 1-0 at halftime but Sam Lawrie's second half goal earned Concordia a deadlock.

**RAMS SIGN TACKLE**  
**LOS ANGELES (UPI)**—The Los Angeles Rams have signed tackle Harold Beatty of Oklahoma State to a National Football League contract for the 1961 season. Beatty, a 6-1, 240-pounder, will be tested at both offensive guard and defensive end.

# Sport Briefs

**ANTONELLI GOES BACK TO BRAVES**

**BALTIMORE (UPI)**—Johnny Antonelli returned today to the Milwaukee Braves — the organization with which he broke into baseball.

The Braves purchased the 31-year-old southpaw Tuesday night from the Cleveland Indians in a waiver transaction for an estimated \$20,000. Cleveland had obtained Antonelli and Willie Kirkland from the San Francisco Giants last December in a trade for Harvey Keenum.

Antonelli, whose major league career has been sometimes brilliant but more often turbulent, commanded a \$65,000 bonus from the old Boston Braves when he signed in 1948. He spent one year in Milwaukee in 1953, the year the Braves switched their franchise, and compiled a 12-12 record.

Johnny was traded to the then New York Giants in 1954, winning 21 games that year and 20 in 1956. He had a 19-10 record in San Francisco in 1959, but was only 6-7 last year.

Antonelli had been used sparingly by Cleveland and had an 6-4 record and a 6.56 earned run average.

**Family Swimming Night Scheduled By Pampa YMCA**

**PERRYTON (SpI)**—The Young Men's Christian Association has set aside Monday nights from 7 to 8:30 p.m. as Family Swim Night. At this time any family holding a family membership in the YMCA may go swimming free. Also, if any member of the family has an individual membership in the YMCA the entire family may go swimming free during the Family Swim Night.

In order for this not to become another youth swim activity, all children must be accompanied by their parents.

The YMCA furnishes the life-guard and locker room attendant on each Monday night.

COMBS-WORLEY BLDG. - Ph. MO 4-2141 - PAMPA, TEXAS

**YOU NAME IT, THEY HAVE IT** — If you know just what you want in fine liquors, beer or other beverages, stop at H&M Cut Rate Liquor Store, 866 W. Foster. Telephone MO 4-8102 for city-wide delivery.

### H & M Liquor Store Offers Fine Beverages And Customer Service

If you enjoy the conveniences of shopping from your car and are looking for fine beverages, H & M Cut Rate Liquor Store is the place for you.

H & M, located at 866 W. Foster St., at the corner of Hobart

St. has a duo-purpose facility with two handy drive-in windows.

Use the sliding doors or the dutch door. This plus the wide awning along the side of the store gives the customer protection from any type of weather.

Herb Lotz and Myron Dorman, co-owners of the store, stress that giving the best prices, the best quality, plus all the "little things" have made H & M Cut Rate Liquor Store one of the more successful businesses in Pampa.

And better still the person who is seeking all the select liquors can find them at H & M Cut Rate Liquor Store. All the premium beers, the popular beers in bot-

tlers or cans. Four, six or eight year old burbons may be found in the store and the prices are low.

In continuing to bring fine merchandise to Pampa, the co-owners are featuring some of the finest after dinner wines in the market. H & M has rare wines, name brand whiskies and all the popular and premium beers, including liquors, brandies and a wide variety of mixers.

Ingredients to make you the most popular "mixologist" in your neighborhood on these hot summer days.

Bush Bavarian Beer is one of the big sellers. Another front line beer is Pearl Rock beer.

For city-wide delivery service, just telephone MO 4-8102.

If you're in a hurry use the drive-in windows. If not come in and shop around in the air conditioned store.

Try it, you'll find out and you'll be pleased.

## Fuel For Moon Trip Is Posing A New Problem

SACRAMENTO, Calif. (UPI) — Now that President Kennedy plans on racing the Russians to the moon, someone must decide whether U.S. moonmen shall travel in a solid or liquid-fueled rocket.

The fuels are as different as gunpowder and gasoline, and each requires a different type rocket. But supporters of each make the same claim: "We can do the job better."

James E. Webb, the U.S. space administrator, said recently that the government would continue to develop both fuels for some time before making a choice. Meanwhile, the solid-liquid dispute may become even more passionate than battles between a 70-cent spread and oleomargarine.

The fight is already fervent on the 200,000-acre site owned by the Aerojet - General Corporation east of Sacramento. The company, which produces both fuels, has divided itself into liquid and solid divisions.

Both divisions believe themselves deserving recipients of the extra \$9 billion which President Kennedy may request for the moon race in the next five years. Aerojet President Dan A. Kimball remains benignly neutral.

Twelve years ago, solids could not compete with liquids. They burned unevenly and delivered a relatively small amount of lifting power, or thrust.

But then the Navy decided that volatile liquid fuels were too dangerous for missile carrying submarines. Aerojet won the contract to develop a new solid fuel motor and accepted its share of congratulations last year when the Polaris proved a success.

The Polaris, beneath its payload, is a column of black, hard rubbery fuel surrounded by a thin steel shell. The fuel burns outward from a star shaped hole up its center, forcing gases out the exhaust nozzles below.

A liquid rocket mid-section, on the other hand, contains a mass of pumps, tanks and valves. Liquid fuel actually consists of two components stored in separate tanks inside the rocket. Each must be pumped out and pressurized. The

components mix just above the rocket's exhaust, ignite, and exit burning.

Solid fuel men argue that their rocket is more reliable because it has practically no plumbing to malfunction. Liquid men, chastened by failures, admit that this was true, but say that it isn't so any more.

Liquid engineers have drastically cut the number of parts inside their rockets and are improving those that remain. And, they will tell you, it was a liquid fueled Redstone that was reliable enough to carry Cmdr. Alan Shepard aloft.

Despite solid fuel improvements during the past decade, liquids remain more powerful. Pound for pound, a good liquid may generate almost twice the energy of a solid.

This means that a solid rocket must develop higher thrust than a liquid to get the same weight payload into orbit. The solid needs the extra power to boost its own weight off the ground.

Solid men are liable to ignore the power argument and talk about economy. David Springer, Aerojet's chief of solid rocket development, estimates that his fuel can deliver a pound of payload for \$35.

Present costs for liquids run between \$1,000 and \$3,000 a pound, mostly because the vehicles are not recovered. Liquid engineers say they can cut costs to \$100 a pound or less just as soon as they start recovering and reusing the rocket's early stages.

Another major difference between solid and liquid fuels lies in their flexibility. A liquid rocket may be slowed or speeded by regulating the fuel flow, just as a motorist controls the speed of his car. Furthermore, the liquid rocket may be shut down entirely in space and restarted again.

But once a solid fuel rocket starts burning, there is no way to regulate the fuel flow, nor can it be restarted. However, solid fuel men see no disadvantage. Believing that there will be little stop

## Urban Communes Mount In China Under Red Rule

HONG KONG (UPI) — Communist China is using its system of urban communes, developed extensively and with little publicity in the last year and a half, to control consumption of scarce grain for its hungry millions.

An estimated 56 million city dwellers in China are believed to be eating, sleeping, working and raising children in more than 1,000 urban communes.

Noting recent food shortages which have compelled Peiping to purchase record amounts of grain from abroad, a book just published here concludes, "perhaps the most important reason" for large-scale development of urban communes is their role in consumption control.

"There is strong evidence to suggest that the main reasons for the sudden blossoming of urban communes in 1960 lay in their twin functions of controlling grain supplies and making use of surplus labor," the author wrote.

The book, "China's Urban Communes" by Henry J. Lethbridge, analyzes and makes use of surplus lecturer in sociology at the University of Hong Kong, said the mess hall, common feature of both city communes and the much more publicized rural communes, is rapidly becoming the determining factor in how much a Chinese family gets to eat.

Lethbridge, in his well documented book, noted that public opposition to the idea of mess hall eating can still be considered the general rule, although party cadres are doing their utmost to gain acceptance for the system among city dwellers.

The book traced the development of urban communes from the first pilot groupings of inhabitants by and go driving in space, they say that a solid fuel rocket may be constructed in advance so that each stage will accomplish his purpose and then separate from the rest.

Perhaps solid and liquid men could end their dispute with a compromise of slush. But this seems unlikely. If there is to be a compromise, it will be in a space vehicle having a solid first stage that will separate from liquid fueled stages far out in space.

city blocks or by factories in 1958

through the years in which the problem of food supply has come to dominate Peiping's domestic thinking.

Communist Chinese Premier Chou En-Lai is quoted as telling the National Peoples Congress in 1959 "some dining rooms failed to manage their grain . . . so that a little too much was consumed . . . this defect has now been remedied."

The book added: "Behind China's continuing food problems are

a number of factors: Questionable policies of basic priority for the nation's economic development; improved management of various agricultural levels as acknowledged from time to time by communist organs; peasant dissatisfaction with the rural communes, and a succession of natural calamities which, while bad enough, do not appear to have been of the magnitude claimed in official Chinese statements seeking to explain the failures on the farm front."

#### M.C. WARNS PICNICKERS

WASHINGTON (UPI) — Rep. D. R. (Billy) Matthews, D-Fla., came up with this Fourth of July story:

A prominent senator was patiently awaiting his turn on the program at a farmers' holiday picnic in his home state. At long last, the master of ceremonies arose to do the introductory honors. He said:

"Our senator will now speak for an hour, after which the band will call you all together again."

# Speed Of Mail To Europe May Amaze Tourists

LONDON (UPI) — A letter mailed to London, England, from New Orleans, La., might well beat one mailed from New Orleans at the same time to Boston, Mass.

The 700,000 Americans expected to travel abroad this year will doubtless be astonished at the speed they get their letters from home.

On the whole, Europe's speedy and efficient mails catch most Americans by surprise and win their admiration.

A United Press International survey of mail-separators from correspondents in 15 European capitals netted eye-opening results on postal efficiency in Britain, and on the continent.

In 12 of the 15, if you mail a letter to another part of the city before noon, it will be delivered that same afternoon.

The fastest services are in England, Switzerland and Denmark. In the center of London, there are four mail deliveries to homes and business offices every week day. They come at 7 and 11 a.m., and at 1 and 3 p.m.

It is not unusual to mail a letter in London at 11 a.m., and have it in the receiver's hands by 1 p.m. or 3 p.m., at the latest.

Persons living outside the center but still in London, get three deliveries a day.

In Switzerland, a letter sent from Zurich at 8 a.m. to Basel probably will be delivered that same afternoon.

Principal Swiss cities get three deliveries a day, and the speed is due partly to Switzerland's small size.

Copenhagen has three deliveries a day, and if you stumble into best conditions, an in-Copenhagen letter will get to its destination within an hour.

Throughout Europe, smaller cities have a somewhat curtailed service but usually receive the number of deliveries the bigger cities receive, less one.

The poorest European mail service seems to be in Austria. There are two daily deliveries in Vienna, but a letter mailed from one part of the city to another will sometimes take two or three days.

The Viennese also complain about postal counter services. Due to rigid weighing practices, every air mail letter has to be posted separately at an office, and this procedure may take three minutes or more.

Almost every European nation sends regular mail by the fastest possible means. Usually, if a regular letter can get to its destination faster by air than by land or sea, it is flown at no extra charge.

Most of Europe's postal services aim at same-day delivery within big cities, and for next day delivery between cities. If they must fly a letter to attain the goal, it's done.

Generally, postal services cost more than in the U.S., in relation to the general cost of living. For example, an air mail letter from the U.S. to England costs 15 cents, but from England to America it's 17 1/2 cents.

A letter within Britain's boundaries costs threepence (3/2 cents), which is slightly higher, comparing living costs, than in the U.S. The same picture is true throughout Europe.

Some of the mail services profit handsomely. Holland's postal department had 70 million guilders (20 million) to spare last year, Denmark's had 50 million kroner (\$7 million) extra, and England's had an excess of 6,400,000 pounds (\$17,920,000) in the 1958-60 fiscal year.

Practically all the countries' postal departments run special banking services. Most pay interest that compares favorably with bank interest. Most charge a small amount for the service, but a few pay interest while charging nothing.

Every European country has raised its postal rates in the last six years excepting Switzerland, where the last raise was in 1924.

France and England claim special postal services features. In Paris, some letters (for a 30-cent fee) travel through pneumatic tubes that run between various post offices. With this system, departure to destination may take two hours.

London possesses the world's only underground mail train. The "post office tube railway" is a 6 1/2-mile network connecting eight major postal stations and is used exclusively for the mails. The tunnels, which are 70 feet below ground level on average, carry 45,000 mail bags every day.

Gambling happy Britain also has a post office "lottery." For one pound (\$2.80) you buy a "premium bond." No interest is paid, but each month the accumulated interest is pooled and winners drawn. You either have your one-pound premium bond or a prize of from 25 pounds (\$79) to 5,000 pounds (\$14,000).

## Firm Expecting An Upward Turn In Stock Prices

NEW YORK (UPI) — International Statistical Bureau Inc. expects the meat packing industry to show improved sales and profits in the second half this year.

It says indications are that 1961 will see a larger total of meat production than 1960, with hog marketings making a most impressive recovery in the final six months. It adds that a larger supply of cattle for processing indicates that profits in the second half will be large enough to boost overall activity over the 1960 levels.

J. W. Sparks & Co. says technically, the stock market is turning in an amazing performance. It finds that in the face of many unfavorable items, the list refuses to give ground and in effect, shows signs of a possible reversal

## New Elevator Hikes Skyline In Frankfurt

FRANKFURT (UPI) — The Frankfurt skyline boasts a new attraction which is remarkable for three reasons.

Besides being the highest building with the widest circumference, the new restaurant and silo of a Frankfurt brewery is the highest grain elevator in the world and also is one of the highest restaurants of Germany, all at the same time.

The huge elevator reaches 432 feet into the air. On the top is a revolving restaurant which offers the double feature of choice hospitality and a splendid panorama of the Hessian countryside.

When there is clear visibility, the guests, comfortably perched in easy chairs, see the landscape of 40 miles slowly go by. Once every hour, or switched to another gear, even twice in the hour, the whole horizon slides by, offering a view over the Taunus mountains, the Rhein-Main valley, the Odenwald and Spessart Mountains as well as the Westewald mountain range. The sprawling town of Frankfurt is spread at the feet of the towering restaurant like a toy city with moving streetcars and automobiles.

Anchored on the solid rock of the Sachsenhauserberg, a hilltop in a Frankfurt suburb, more than five feet thick basement walls reach deep into the ground. Former brewery caves underneath the structure were filled with concrete. Up to 255 feet the tower's rectangular part of the grain elevator reaches to the sky. It offers room for 14,000 tons of barley, enough to brew more than 11 million gallons of beer. The huge silo ranks among the 10 biggest breweries in Germany.

The brewery (Henninger) had the splendid idea of combining the silo with facilities to attract the public. Therefore the basement houses a beer inn in the style of the Middle Ages. On top of the elevator a roof-garden was installed where amidst carefully cultivated lawns and flower beds and besides a fountain with goldfish, couples can dance on a 16 by 16 feet dancing platform. In bad weather the roof-garden can be covered within minutes by huge tents and heated with infra-red radiators.

Towering over the whole building is the revolving restaurant seating 165 guests at a time. Two electro-motors move the restaurant with its huge glass walls that offer unrestricted view over the whole horizon.

Two special express lifts with a speed of 14-feet per second bring the guests up and down.

of the downtrend that began in mid-May. The brokerage house feels that the low of the current reaction have already been witnessed and the next move of any import will be on the upside.

Oppenheimer, Neu & Co. sees no reason to believe the present stock market pause is anything but a period of consolidation which will be succeeded by a new upward move led by quality issues.

Spear & Staff, Inc. says many

hard hit growth stocks may now be approaching the downward limits of their corrective moves. Feeling that the market's major trend remains bullish, the service advises clients to use periods of weakness for establishing posi-

tion in strong situations. Hornblower & Weeks says despite some deterioration in technical behavior, stocks have withstood profit-taking more effectively than might have been anticipated, considering the rise of historical highs since last October. All indications point to an early completion of the consolidation phase and a resumption of the longer term rise in coming weeks, H&W says.
