## JFK Orders Road Repair In Cambodia

WASHINGTON (UPI) — President Kennedy has ordered foreign aid officials to get busy and repair a \$30 million road in Cambodia built two years ago to demonstrate American friendship and technology. It already is falling apart.

United Press International learned today that Kennedy told International Cooperation Administration to give "top priority" to repairing the Cambodian-American friendship highway.

The 130-mile road was built under the U.S. foreign aid program two years ago. But, much to the embarrassment of Cambodia and the United States and the glee of Communists, it is falling to pieces under heavy rains.

Prince Sihanouk of Cambodia recently started out on the road from Phnom Penh to the sea, but the road — which has many cracks as a sun-baked mud flat in some sections — was so bad he had to turn back and go by helicopter.

Congressional investigators already are inquiring to charges that poor construction and engineering by two American firms caused the trouble. So is the ICA.

The highway, which connects Cambodia's capital of Phnom Penh with the seaport of Sihanoukville on the Gulf of Siam, was built as a great "symbol" of the friendship of the United States and Cambodia. It also was supposed to represent the best in American road-building "know-how."

The Cambodian road was designed to be built for \$15 million but the cost doubled to \$30 million during its construction. And now the administration is asking Congress for another \$2.7 million to repair damage which some experts say should never have happened in the first place.

STINNETT, Tex. (UPI) — Dist. Judge Max Boyer Wednesday cut \$2 million off a \$4 million suit against the International Union of Operating Engineers and Local 351 in his charge to a jury.

The suit, filed by 28 former union members and ex-employees of Phillips Petroleum Co., alleges the men were fired by the company after they carried out a strike under union order in May, 1958.

## Israel Says Her Rocket No Weapon

JERUSALEM, Israel (UPI) — Israel sought to assure the world today that its rocket program was not a weapon pointed at the throats of its Arab neighbors.

Prime Minister David Ben-Gurion took pains to stress that a rocket launched Wednesday — Israel's first successful one — was for purely scientific purposes and has "no military aim."

The rocket was sent 45 miles into the air.

Nevertheless, the news was expected to evoke sharp reaction from the United Arab Republic and other Arab countries which already are upset at Israel producing a second nuclear reactor in the Negev Desert.

Israelis were intensely proud of the fact that this young nation had become the seventh country in the world to join the space race.

Other nations which have launched rockets of varying sizes and types are the United States, the Soviet Union, Britain, Australia, Italy and Japan. Australia has participated in some of the British rocket projects.

Engineer Offers Paving Program To Cost \$80,000

A proposed \$80,000 paving program covering 14 1/2 blocks on ten Pampa streets has been placed before the Pampa City Commission by City Engineer Monroe Moore.

The program is tentative, Moore said, and has been requested by about 30 per cent of the property owners on the streets affected.

The streets included in the proposed paving plans include two and a half blocks on Decatur St. from the 900 to 1100 blocks, the 1,000-block of Mary Ellen, the 1500 and 1600-blocks on N. Faulkner, the 1100-block on S. Dwight, the 300-block of S. Barnes, 700-block of E. Albert, 200-block of W. 25th, 300-block of E. Tyng, 300-block of N. Christy, and the 600-block of N. Starkweather.

## Hoffa Wins Dues Hike, New Power

MIAMI BEACH (UPI) — James R. Hoffa was armed today with a \$12 million dues increase, a pay raise and vastly greater powers to start his new organizing and political offensive.

The Teamsters president crushed all opposition Wednesday night in an overtime session at the union's convention that awarded him a \$25,000 a year pay increase. Opponents protested that Hoffa-backed changes in the Teamsters constitution would stifle rank and file participation.

Edward H. Painter of Oakland, Calif., Local 770, spoke for many dissenting delegates when he told Hoffa:

"Inch by inch you've taken away our local autonomy. And now you want us to pay the freight."

The 48-year-old union leader rejected the claims and said the additional funds will be used to provide a pension plan for local union officers, raise strike benefits, expand organizing drives and increase political action programs.

Allies of Hoffa buried a demand for a referendum among the 1.1 million Teamsters to choose the top officers.

This was a bitter defeat for Hoffa's only announced rival for the presidency, Milton J. Liff of Newark, N.J., who demanded the secret ballot referendum.

Delegates turned it down with a deafening "no."

Hoffa's major victory was convention approval of a \$12-million revenue-raising plan that he advocated.

## \$4.8 Billion Foreign Aid Fund Urged Anew By Kennedy Aide

DEFEND KUWAIT BORDER — British troops train with a bazooka near the Iraq border as the British poured military might into the sheikdom of Kuwait in case peace talks fail to heal the dispute between Iraq and Kuwait. A massive Royal Air Force airlift kept supply transports touching down at the rate of five an hour. Arab League Secy. Gen. Hassouna later arrived to talk to Kuwaiti officials in his efforts to settle the dispute.

Hassouna later arrived to talk to Kuwaiti officials in his efforts to settle the dispute.

## Senators Hold Secret Session To Hear Appeal

WASHINGTON (UPI) — Secretary of State Dean Rusk went before Congress today to make a last-ditch plea for President Kennedy's beleaguered \$4.8 billion foreign aid request.

Rusk held a closed door meeting this morning with the Senate Foreign Relations Committee, which has been considering the measure off-and-on since its public hearings ended two weeks ago.

Rusk's appearance before the committee was his third since the group formally opened hearings last month. He made the administration's opening appeal and later met with the committee again after his return from Europe with Kennedy.

Although the Senate group has taken no action so far on any money items in the authorization request, most observers agree that the \$4.8 billion total is in for rough sledding before the program finally clears Congress.

Besides considerable opposition to the size of the request, Kennedy's request for long-range borrowing authority to finance development loans to underdeveloped countries also is under heavy fire from many lawmakers.

The House Foreign Affairs Committee, meantime, continued its public hearings on the same bill with a long list of scheduled witnesses including representatives of various private organizations and several House members.

The AFL-CIO today gave "full endorsement" to the program. A spokesman for the labor organization told the House group that the program is "necessary" and "right."

"The administration's proposals, we feel, will continue to do what's right, and will do it better," he said.

## Mayor Of Cisco Confident Youth Did Kill Woman

CISCO, Tex. (UPI) — Mayor Don Webb said today he was confident Nathan Curry, 15, told the truth about killing a church secretary all by himself and trying to make it look like a "perfect crime."

"It looks pretty ironclad," Webb said. "I don't think there are any other suspects... just the one boy."

Police had said Wednesday they believed there may have been a second boy involved in the slaying of Mrs. Florence Hussey, 53, on June 28. They thought that Curry may have been shielding a helper.

Curry is the son of Mr. and Mrs. Pete Curry. They run a grocery and are well respected in this central Texas town of 4,500.

The family attends the First Baptist Church where Mrs. Hussey had been secretary for four years. Curry re-enacted the killing Wednesday for Sheriff Lee Horn. He did not rape or rob Mrs. Hussey. He said he had been sleeping on the lawn of an adjoining house—his parents own the property—and had watched her undress.

"After so many nights of watching her, something happened to me," he told us, "Webb said. "This kid is very headstrong. It's a result of television crime stories and detective magazines."

Mrs. Hussey was beaten on the head with a brass flower pot and stabbed 14 times with a knife.

His parents let him stay in the house next door to Mrs. Hussey's as an "adventure." He moved his clothes into it. But the day after the killing, he moved back to his own home.

## UN May Shift Kuwait Tangle

UNITED NATIONS, N.Y. (UPI) — Diplomats predicted today that the Security Council would toss the Kuwaiti crisis to the Arab states to solve themselves.

The 11-nation council scheduled another afternoon session but there was no known move among the delegations to submit any resolution for a vote.

The crisis was caused by a statement on June 24 by Iraqi Premier Abdul Karim Kassem, laying historical claim to the neighboring sheikdom. The Iraqi government has insisted that it will not use force to implement the claim, and that the presence of British troops in Kuwait threatened Iraq's security and Middle-East peace.

The British position, backed by the United States, has been that aid was dispatched to Kuwait because of Iraqi threats to annex the tiny sheikdom, which supplies about 40 per cent of Britain's oil. Britain ended its protectorate over Kuwait last month but agreed to provide military assistance if requested by Kuwait's ruler.

The Soviet Union and the United Arab Republic, which Wednesday supported Iraq's demand for immediate withdrawal of British forces from Kuwait, stopped short of offering a resolution.

The council's most likely procedure, informed sources said, would be to take note of efforts within the Arab world to settle the quarrel and hope that these efforts prove successful.

## Assistance Pact Signed By Russia And North Korea

MOSCOW (UPI) — Soviet Premier Nikita Khrushchev today announced the signing of a pact of mutual assistance, friendship and cooperation with North Korea.

Khrushchev spoke in the Kremlin at a "friendship rally" in the honor of visiting North Korean Premier Kim Il Sung.

He said that the pact provides for mutual military assistance in case a third party attacks one of the contracting powers.

"We are against military pacts but we were compelled to sign one today because the United States, Japan and other countries have rejected all our offers to relax tensions in the Far East," Khrushchev said.

He also said that the pact was motivated by the fact that South Korea has rejected all efforts of the North Korean government for normal relations and eventual unification.

He characterized South Korea as a country run by colonialists supported by American troops. He said the United States was embarrassed by the military coups that had taken place in recent months in Korea because it was an embarrassment to U. S. intelligence services.

## State Bar Group Hears McClellan

FORT WORTH (UPI) — Sen. John L. McClellan, D-Ark., told the State Bar of Texas today preliminary staff work on interstate crime is coming along satisfactorily and that he expects crime hearings to "open very soon."

Just when he declined to say or even hazard a guess.

McClellan had highest praise for Atty. Gen. Robert Kennedy in regard to federal law enforcement.

The state bar convention opened Wednesday and runs through Saturday. Vice President Lyndon Johnson is scheduled to speak before the general assembly Friday.

## Kennedy May Recognize Mongolia Despite China

WASHINGTON (UPI) — The Kennedy administration was reported ready today to brave the wrath of Nationalist China and establish diplomatic relations with the Soviet-sponsored Mongolian Peoples' Republic.

Official sources said preparations were being made to send a U.S. mission to the capital city of Ulan Bator to agree on the level of representation in each country.

The U.S. decision is expected to spark strong criticism from some congressmen, who back Nationalist China's contention that Communist Outer Mongolia is not an independent country but a Russian satellite or territory rightly belonging to the Chinese.

The U.S. ambassador to Nationalist China, Everett Drumright, who is coming home this week for "routine consultations," has repeatedly urged the State Department to delay action.

## Arab Countries Invited To Help

KUWAIT (UPI) — Kuwait invited other Arab nations today to send troops to defend this oil-rich sheikdom against a possible attack by Iraq.

With the United Arab Republic demanding withdrawal of British troops from here, the deputy chief ruler, Abdullah Al-Mubarak Al-Sabah, said Kuwait was "ready to receive any proposal of any Arab country to participate in Kuwait's defense."

The only country that has sent troops so far, besides Britain, is Saudi Arabia.

About 4,000 British soldiers have dug in along the northern border with Iraq, in addition to (See ARAB, Page 4)

## New York Groups Stage Big Brawl

NEW YORK (UPI) — More than 400 Negroes and Puerto Ricans from New York City's seething West Side battled in the streets Wednesday.

It took 30 policemen from a dozen squad cars to quell the uprising. Two patrolmen, who were on duty in the neighborhood when the fighting started, attempted to restore order by firing eight shots into the air. But their gunfire was ignored.

Police said the brawl was touched off by a jealous squabble between two women.

"We sincerely wish that the military article of this pact will never be used," he said.

## Kidnap-Slayer Hunted In Utah

MOAB, Utah (UPI) — The FBI joined small-town marshals today in the four state manhunt for a stocky killer and the teen-aged girl he kidnaped.

Sheriff John Stocks said the odds were 1,000 to 1 that 14-year-old Denise Sullivan of Rockville, Conn., would be slain by the same man who killed her widowed mother and wounded a traveling companion.

"At first I thought there was about 1 chance in 100 the girl might be found alive," Stocks said, "but now I feel the figure is no better than 1 in 1,000."

Slain by a .22-caliber bullet in the back of the head Tuesday was Mrs. Jeanette Sullivan, 41, mother of the missing girl. The third victim of the holdup-shooting near Dead Horse Point in the Utah badlands was Charles Boothroyd, 55, also of Rockville. He underwent facial surgery to remove two bullets Wednesday night and was reported in fair condition today in Salt Lake City.

## Woman Held On Slaying Charge

STUTTGART, Ark. (UPI) — Mrs. Mary North, 33, Grand Prairie, Tex., was charged with first degree murder Wednesday in the death of her former husband.

She said she killed him because he tried to kill her present husband and his mother.

Mrs. North was jailed without bond.

She shot and killed Ernest Woodrow Vaughn, 49, whom she divorced in 1957, with a 20 gauge shotgun. She said she shot him because he shot her husband, Pete North, and his mother, Mrs. Nettie Mays, 65.

## Cubans Seek Control Of Tractor Donations

MIAMI (UPI) — Cuban invasion and letters received which will help to get their (the prisoners) freedom.

Labor leader Walter P. Reuther and banker Joseph Dodge met in Detroit and conferred by telephone with other committee members, including Mrs. Eleanor Roosevelt and Dr. Milton Eisenhower, on the plans for returning the money received in more than 70,000 pieces of mail. They said they would issue a statement by the end of the week.

Cuban Premier Fidel Castro sent the prisoners team here to negotiate an exchange for 1,197 men captured in the April invasion.

In its telegram to Kennedy, the prisoners said "we respectfully ask your kind cooperation and goodwill to obtain from the tractors for Freedom Committee the transfer of the donations."

## Piracy Charged To U.S. Planes

MOSCOW (UPI) — The Soviet Union charged today that American planes buzzed Russian ships 300 times in the last six months in acts of "high seas piracy."

The official Soviet trades union newspaper Trud said several of these incidents took place near Cuba and charged that "nearly all Soviet ships off Cuban shores are subjected to such provocations."

Let us show you how to get more miles from your tires. Our address is 411 S. Cuyler, Pampa Safety Lane, MO 5-3771. Adv.

## Alanreed Road Project Slated

Surfacing of 8.8 miles of farm to market road 291 north of Alanreed is part of approximately \$20.5 million worth of construction planned by the Texas Highway Department.

The total program includes 210 miles of highway improvements in 14 Texas counties.

Bids for the project will be taken in Austin July 18 and 19.

### Reds Resuming Filmland Drive, Actor Declares

HOLLYWOOD (UPI) — Ronald Reagan, former president of the Screen Actors Guild, has taken to the lecture circuit to warn against possible new infiltration of Hollywood by Communists.

"The effort by the Reds has been renewed since the spirit of compromise that was generated after Eisenhower met Khrushchev at Camp David," said Reagan, 59, host of CBS-TV's "General Electric Theater."

"It is part of a national plan by the American Communist Party in all areas, he added in a breakfast interview at the Brown Derby restaurant.

"The Communists in Hollywood laid off after the failure of the big industry strike in 1947, which they hatched and spawned. But now they are renewing in the spirit of Lenin's maxim of two steps forward and one backward."

Reagan's lecture tours are part of his personal appearance journeys for "G.E. Theater," the actor said. But he added that he speaks "completely as an individual" and that General Electric never suggests what he should talk about.

"They only make me available," he said, explaining that he lectures to all sorts of groups, including service clubs, PTAs, schools, industrial gatherings and fraternal organizations.

Reagan declined to discuss specific examples of infiltration for obvious legal reasons, but said, "I don't want anyone to think I'm a Johnny One-Note on this subject or that what I'm saying is my opinion."

"I am merely telling what former Communists have testified to our important committees."

"They have testified that in the 1947 strike, the Communist aim was to close the studios, and then with the industry shut down, create a feeling of disgust at the inability of the unions to handle the problem. Then the Reds would pitch for their real goal: one big vertical-type union over which they would try to get control."

"But the biggest single factor in defeating the Communists then — and which we have used to keep them from infiltrating the actors guild — is our insistence on the secret ballot of all members if a matter affects guild policy. Even if a quorum is present at a meeting, we send the ballots to the homes of those not present. I recommend this device to all unions."

Reagan said he feels there is a danger of new infiltration because some persons are uncertain about whether Communist political beliefs should be considered in deciding whether to hire an employee.

"I feel it should be part of the determination," he said. "There is a confusion over whether the Communist part is just in political disagreement with us. That's not the case. It is loyal to a foreign power aimed at our destruction."

"I don't think the situation in Hollywood is serious enough for a Congressional investigation. But I think an interesting thing to investigate would be the criticism in some quarters of John Wayne's picture, 'The Alamo,' which deserves better treatment."

"There is a subtle nationwide attempt to make patriotism corny — to get across the idea that nothing is worth dying for or fighting for. If you believe that, then Christ should never have died on the cross, and we should never have revolted against the British or fought Hitler."

FINISH SCHOOL YEAR MOSCOW (UPI) — Patrice Lumumba Friendship University ended its first academic year Monday, with "the bulk of the students" passing their examinations, the Tass news agency reported.

# Tensions In Troubled South Tyrol Related

EDITOR'S NOTE: One of the potential trouble spots of Europe is the South Tyrol where Italians and Austrians have been in dispute since 1946. Bombings and shootings have broken out recently. The following dispatch by the president of United Press International describes the current tensions and gives the background of the dispute.

By FRANK H. BARTHOLOMEW

BOLZANO, South Tyrol, Italy (UPI) — The Alpine canyon roads of beautiful South Tyrol are alive day and night with armed Italian carabinieri as tensions mount in an area disputed between inhabitants of Italian and Austrian extraction.

Many of the Italian soldiers are in camouflage uniforms and helmets. They appear suddenly at the roadside from the heavy foliage, for quick inspection of passing trucks and cars. They are stationed in squad strength or greater at railroad bridges, highway undercrossings and at the many electric installations which convert the mountain torrents to power for the railroads and manufacturing cities of the plains.

Travelers arriving at this tourist center in the heart of the Dolomites from the Austrian side of the Brenner Pass and from the eastern gateway city of Lienz estimated the road patrol at 25 armed riflemen to the mile. The camouflaged soldiery move silently in and out of the trees between highway and railroad lines. Those in standard Alpine uniform with smartly feathered caps stand on guard at key points or march the road way in pairs. The troopers, rifles at the ready, are in evidence day and night, regardless of frequent torrential downpours of almost cloudburst proportions.

Some of the tent sites of the Italian army units and some of the permanent concrete defense structures have been expertly camouflaged with paint.

Ostensible reason for the presence of the armed force, which apparently is being further increased in size by many personnel carriers and supply trucks along the mountain road systems, is to protect the rail, highway and electrical installations from further sabotage by the incensed

## Nudist Fail Spectators In Arkansas

LITTLE ROCK, Ark. —(UPI) Everybody was there except the nudists who had promised to "walk naked and barefoot" in protest of a state anti-nudism law.

"It was a bust," said one disgruntled youth who had stood with an estimated 500 others for an hour in 92-degree heat Tuesday waiting for a publicized "freedom strip" on the steps of the Arkansas Capitol. It failed to come off.

Robert Clogher of Holy City, Calif., editor of the Holy City Apocalypse, had written a letter to a Little Rock newspaper on the back of a nude-decorated calendar. He said a group would emulate the Prophet Isaiah by taking off "the shoes from their feet and the sackcloth from off their loins and walk naked and barefoot" on the Capitol steps. Clogher objected to an Arkansas law making it unlawful to promote or demonstrate nudism in the state, upon penalty of fine or imprisonment.

"Freedom riders Alabama and Mississippi had — and have," Clogher wrote. "Freedom strippers Arkansas will have, segregating themselves from their clothes as a nonviolent protest of Act 38 — and of the sort of thinking which gets such a law passed by any state."

Men, women, children, state police, newsmen, plainclothesmen, teen-agers and state officials showed up. Many brought cameras, but had to be content with photographing each other.

German-speaking extremists of the area.

The Austrian side of the dispute is placed in evidence by slogans painted on walls of many of the towns and villages: "Self government for Sud Tirol" — "Sud Tirol calls in desperation to Berlin" — "Sud Tirol does not want to be a colony of Italy."

These slogans are painted out by the Italians apparently as fast as they are discovered. But in many cases the white covering paint merely emphasizes the original lettering by giving it a two-toned effect.

These slogans increase in number and indignation on the Austrian side of the Brenner Pass. Here the Italians cannot interfere with the sign painters or attempt to eradicate their work.

The increasing tensions throughout the area, the recent bombings by German-speaking protagonists and the casualties resulting from soldiers firing on individuals who failed to identify themselves properly, have pretty well emptied Bolzano of American tourists at this, the height of the season. German and British tourists, always in the majority, continue to flood in unperturbed, attracted by the scenery and the fame the area shares with Spain as the last spots where prices have not yet been materially affected by inflation.

The dispute over South Tyrol, a province of Austria until the end of World War I, dates from the De Gasperi-Gruber compact made in Paris in 1946, under which the South Tyrol was to enjoy a substantial measure of self government.

Since then tensions between the German and Italian-speaking population have steadily mounted. Three international conferences between Italy and Austria have failed to settle them; the last collapse occurred in Zurich in June.

The Austrians claim South Tyrol has no effective self government and is, in effect, a province of Italy because Austria, pledged to neutrality as the price of her freedom from the USSR, cannot be a member of NATO whereas Italy is; that therefore the Western majority bloc in the United Nations has to side with Italy in this territorial dispute despite the fact that Italy as well as Austria (at that time a captive part of Hitler Germany) was on the losing side of World War II.

The Austrians further claim that the population of the South Tyrol is German-speaking in the majority, despite heavy importation of factory workers from southern Italy, and that the German-speaking population is being denied self-government for the linguistic areas by such devices as extending the region to include all Trentino with resultant increase in the Italian nose count.

Result of all this, say the Austrians, is that the Italian minority population in the South Tyrol controls all key governmental posts, that petitioners who speak only German cannot register their desires and complaints with officials who speak only Italian, and that the Italian preference in government also extends to such matters as preferential housing for Italians.

The Italians, on the other hand, assert that the Austrian Tyroleans are extraordinarily clannish, farmers for the most part, who hold large families together on the vineyards and farmsteads, and refuse to learn the Italian language or to prepare themselves in any way for a responsible part in government.

The Italians counter the Austrians claim that the South Tyrol is racially and recently a part of Austria itself, by observing that it was under the rule of the Roman emperors at the time of Christ, and that the Apennine Way to Rome transects the South Tyrol today.

## SENDS DOLL HOUSE

# Ship Dispute All Muddled

NEW YORK (UPI)—American flag luxury liners follow fast departing tankers and merchantmen to sea today, but ashore the complex maritime dispute remained as tangled as ever.

The liners America and Independence were set to sail for Europe today in the ever quickening departure of vessels tied up by the 18-day shipping strike.

However, confusion ashore virtually scuttled hopes of all unions and shipowners settling their differences before a federal court hearing Friday on extending a Taft-Hartley anti-strike injunction for its full 90-day cooling-off period.

This was the situation today:

The Marine Engineers Beneficial Association claimed it had broken the solid front of the American Merchant Marine Institute by signing a major member shipping company to a contract that will permit the MEBA to try unionizing engineers on foreign flag ships owned by the U. S. firm.

A New York local embracing one-fifth of the membership of the Masters, Mates and Pilots Union rejected a contract negotiated by national officers with the AMMI and independent dry cargo ship operators.

West Coast marine engineers whose contract with the Pacific Maritime Association was believed to have been settled, reportedly now are "awaiting developments." There had been a

# Page Russell Rites Friday

Interment rites for Page Russell, 44, will be held at 10 a.m. tomorrow in the Boxwell Brothers Ivy Chapel in Amarillo with Dr. Lynn B. Rankin, associate pastor of the First Presbyterian Church, officiating.

Formerly a resident of Amarillo, Mr. Russell died at 2:50 p.m. Tuesday in St. Anthony's Hospital, where he had been hospitalized for two weeks.

Graveside services will be conducted at 10 a.m. Saturday in Hendricks Cemetery in Tallequah, Okla. Pallbearers will be John Roberts, Les James, Bill Townsend, Carlton Scales, Larry Jones and Willie Bulin.

Mr. Russell was manager of the Goldsmith Dairy branch here. He was born in Muskogee, Okla., and was a member of the Presbyterian church.

He is survived by his wife, Mrs. Elizabeth Russell of the home, 101 S. Wynne; one daughter, Mrs. Paul Geiser Jr.; one son, Alan Russell and his mother, Mrs. Fannie Davis, all of Amarillo.

report the rank and file might reject the pact.

Despite the complications, American ships were putting to sea in increasing numbers under the temporary restraining order issued here Monday by Federal Judge Sylvester J. Ryan. Ryan will hear arguments Friday on whether a full 90-day Taft-Hartley injunction should be issued on the grounds that national health and safety are being endangered. The marine engineers have declared they will fight the injunction.

States Marine Lines, withdrawing from the AMMI bargaining committee, gave in to a major engineers' demand—the right to organize crewmen on foreign flag vessels. It has some 70 vessels.

CAMEL CAR SERVICE  
ALICANTE, Spain (UPI)—Local camels now will walk a mile or more — for you.

It's all part of a new taxi service inaugurated this week with two camels supplementing motorized cabs. The beasts will be used only on the long stretches of sandy beach to transport one passenger at a time.

# France Willing To Talk Issues With Algerians

ALGIERS (UPI)—France was reported today ready to resume negotiations with the Algerian rebels despite one of the worst bloodbaths in nearly seven years of fighting in Algeria.

French officials said 80 Moslems were killed and 256 wounded Wednesday in violent demonstrations throughout Algeria. In addition, 13 French soldiers were killed and 50 wounded when rebel commandos attacked army posts guarding the east Algerian port of Djidjelli. It was feared that the death toll was even higher than the official figures.

Although one French official said the rebels did not achieve their aims, the Moslems' general strike in Algiers and other major cities was almost 100 per cent effective. The French charged that Moslems were "terrorized" into obeying the strike call.

Premier Michel Debre told the French Senate Wednesday night that the government is ready to resume negotiations with the Algerian rebels. Observers noted that Debre made no mention of the violent rioting in Algeria.

Debre did not indicate when the talks, broken off by the French June 13 for a "period of reflection," might be resumed. The French administration in Algeria charged that Moslem rebel guerrillas pushed women and children ahead of them in clashes with French troops and riot police.

French security forces fired into the mobs on several occasions Wednesday. Many of the wounded and dead were women and children.

DEAFNESS SAVES MONEY  
Dallas, Tex. (UPI)—L. E. Huff, 72, is hard of hearing and it saved him from being robbed. When a bandit entered his liquor store Tuesday, Huff asked him to repeat his demands so many times the bandit gave up and left.

Top o' Texas Coin Club will meet tonight at 7:30 in the Commissioner's Room in City Hall. Visitors are welcomed, according to Harold Daugherty, secretary.

Mr. and Mrs. W. H. Fuller, 1727 Evergreen, who were injured in a three-car collision on July 4 at the corners of Charles and Louisiana Streets, are hospitalized in Highland General Hospital, where they are undergoing treatment. They are in rooms 340 and 341.

# Hereford Breeders Planning 'Activity' Program Aug. 26

The Top o' Texas Hereford Breeders Ass'n. has set Aug. 26 for its annual summer activity, according to Paul Dauer of Paitanhandle, president of the organization. The program has not been completed but will be very soon, Dauer said.

Several members of the association have made sales within the last few days, Dauer stated, including seven brood heifers sold to A. C. Nicholson of Dallas by Clyde Magee of McLean; Wayne Maddox of Miami sold nine brood heifers to A. C. Nicholson of Dallas, four young cows to Paul Thompson of Miami, one young heifer to Kenneth Mie of Canadian, one heifer to Randy Day of Miami and a bull to John Paffley of Miami.

Range conditions in the Top o' Texas area are excellent at this time and all cattle are looking good, according to Dauer.

# Auto Driver Held Following Smash Into Parked Cars

MIAMI (Spl) — Two Perryton men escaped serious injury early this morning when the automobile in which they were riding smashed into parked cars in the downtown business district here.

Sheriff's officers investigating the accident said the men were Terry Dewayne Garrett, driver of the car, and Bill Martin Walker, a passenger, both employed by the H&M Well Service Co. working in Perryton.

The officers said Garrett was driving on highway 60 towards Pampa at 2:05 a.m. today when his car hit a dip in the pavement and swerved out of control hitting two automobiles parked in front of the downtown hotel. Damage was heavy to the parked automobiles. The Garrett automobile was completely demolished.

Sheriff's officers said Walker was admitted to Highland General Hospital in Pampa for cuts and bruises. Garrett was arrested on the scene by Highway Patrolman Vernon Cawthorn and lodged overnight in the Pampa county jail and charged with reckless driving. Garrett was scheduled to appear before Miami justice of the peace Mrs. Joe Cunningham today.

# Arab

(Continued From Page 1)

Saudi Arabian and Kuwaiti troops. Despite a stream of denials by the Baghdad press and radio, British military commander Brig. Derek Hofsford said he believed Iraqi forces were planning an attack.

So far the battle has been one of words, Iraqi Premier Abdel Karim Kassem has laid claim to this desert land which lies on a great lake of oil. Kuwait has rejected the claim and has received support from most other nations involved.

# Traylor Rites In Florida

Funeral services and interment for Alwyn Traylor, 63, were held recently in Tallahassee, Fla. Mr. Traylor died June 28 in St. Anthony's Hospital in Amarillo, where he had been a patient for two months.

Mr. Traylor was born Mar. 10, 1898 in Dallas, Ga. He lived at 823 S. Banks and had been employed by Phillips Petroleum Co. for 26 years.

He is survived by three sisters, Mrs. E. M. Blaylock of Tallahassee and two others, who live in Arkansas and Georgia.

# 'Goof' By Red Radio Revealed

LONDON (UPI)—Someone at Moscow radio goofed today.

The radio broadcast a report that Soviet Premier Nikita S. Khrushchev arrived in Finland to celebrate President Urho Kekkonen's 60th birthday.

In fact, Kekkonen was 60 last Sept. 3 and Khrushchev did visit Finland at that time.

British Broadcasting Corp. personnel who monitored the broadcast said it also carried other items—a condemnation of United Nations Secretary General Dag Hammarskjold and a story on the Congo—which pertained to events that happened last year.

BBC officials suspected that an absent-minded technician used a tape recording from last year's files.

# Body Of Texan Found In Lake

LITTLE ROCK (UPI)—The body of a man with a bullet hole in his head was identified Tuesday as Thomas Howard Watson, 22, of Dallas.

The body was found in a shallow lake east of North Little Rock early Saturday by a Negro fisherman. An autopsy revealed death had been caused by a small caliber bullet.

Still missing is his 1959 model Taunus, a German made automobile, bearing California license plates.

Officers said Watson was last seen about 8:30 a.m. Thursday when he drove his wife to work.

# Guard Division On Field Trip

NORTH FORT HOOD, Tex. (UPI)—The Fourth of July was just another day for the 10,000 citizen-soldiers making up the 49th Armored Division of the Texas National Guard.

They celebrated the holiday with the roar of 90 millimeter tank guns and the sharp crack of rifle and carbine fire in maneuvers in the field.

The division, here for two weeks of summer drills, will be in the field until Friday, then return to base camp to prepare for Saturday's traditional Governor's Day Review.

Miss Deloris Del Foley of Mineral Wells, this year's division sweetheart, will be present at the parade.

## Plan Carefully Ahead For Picnic So Important Items Aren't Left Out

A picnic meal must be carefully planned than possibly any other meal because you can't hurry back to the kitchen for those forgotten items:

Combine chopped hard cooked eggs with:

Chicken livers (cooked and chopped), chili sauce, mayonnaise, Chopped Vienna sausage, pickle relish, mayonnaise.

Crumbled crisp bacon, grated carrots, mayonnaise.

For vegetable sandwiches use:

Chopped cabbage, pecans, grated beets, mayonnaise.

Chopped cucumber, chopped walnuts, raisins, mayonnaise.

Grated carrot, minced celery, green pepper, salad dressing.

Chopped water cress, radishes, green pepper, nuts and mayonnaise.

For meat sandwiches combine:

Sliced roast pork, cranberry jelly.

Ground ham, Cheddar cheese, dill pickle.

Chopped chicken, apple and celery, mayonnaise.

Sliced frankfurters, baked beans, catsup and mustard.

**HERO SANDWICH**

Split a loaf of French bread (large or small) through the center lengthwise. Spread both cut

sides with mayonnaise, butter or mustard, catsup, peanut butter according to your own taste and imagination. Add the fillings, which may consist of several layers of sliced meats, cheeses, cole slaw, lettuce, baked beans, pickle or almost anything else you have handy!

Top with potato chips, of course, and cover with the top slice of bread. Serve the whole sandwich, if you like, but for easier handling cut the sandwich into portions.

**CHIP STUFFED EGGS**

4 hard cooked eggs

4 slices bacon, cooked crisp

2 tablespoons mayonnaise

2 teaspoons minced parsley

1/4 cup crushed potato chips

**Paprika**

Cut eggs into halves lengthwise.

Mash egg yolks and combine with crumbled bacon, mayonnaise, parsley and potato chips. Fill egg whites heaping full and sprinkle with paprika.

On more important picnic tip. Take more food than you expect you'll need. The fresh air and out-of-doors fun will whet the appetites of the most finicky eaters.

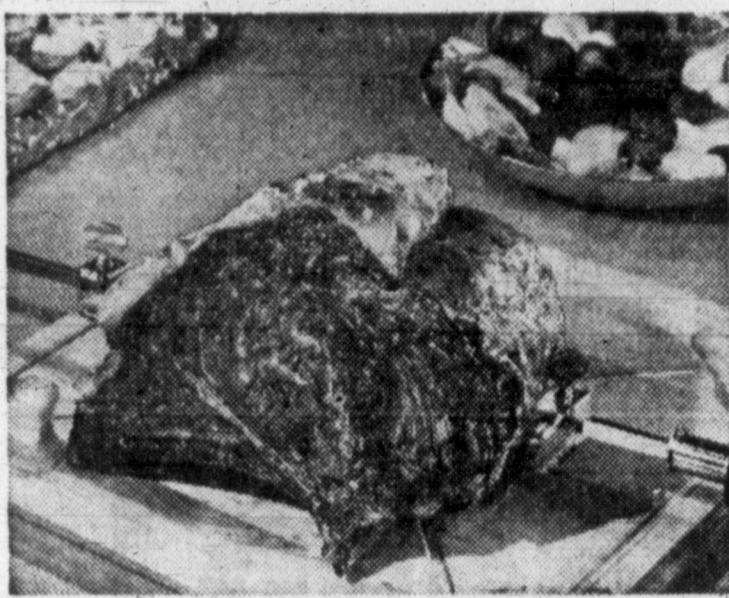

**Chipper Touch At Daytime Parties**

At daytime parties, make the mood and the food light, bright and cheerful and don't forget the chipper touch. Top a brunch rare bit with crushed potato chips. Brighten bread mixes with crisp chips, too. Decorate a table with a pretty container of golden potato chips.

**DICED CHICKEN IN SOUR CREAM**

2 cups cooked diced chicken

1 8-ounce carton sour cream

... king of roasts

## Rib Roast Takes Its Turn On Spit As Man of House Takes Over Grill

When it comes to outdoor cooking the man of the house naturally dons his chef's hat and takes over. He has a wide variety of meat cuts from which to choose as any tender cut can be grilled out-of-doors. But the chef will agree that rib roast of beef, the king of roasts, makes any occasion special.

The brand with the two most

2 teaspoons grated onion

1/4 cup chopped sweet pickle

Salt and pepper

Whole potato chips

In top of double boiler heat sour cream and chicken. (Never let water boil in bottom of boiler.) Add onion, pickle, salt and pepper to taste. Serve over whole potato chips and garnish as desired, 4 servings.

**FRESH FRUIT SALAD**

1 cup sliced strawberries

1 pineapple, cubed

2 oranges, sliced

12 plums, halved

2 pears, cubed

2 peaches, sliced

Mixed greens

Mayonnaise or sour cream dressing

Arrange fruit and greens in a salad bowl. Add dressing; toss and serve. As a main dish salad, serves 4. As an accompaniment to other foods, serves 6.

trusted words in meat assures the chef of a tender, juicy roast which he will be proud to carve before his guests. Martha Logan, home economist for the world's leading meat packer, suggests selecting a short-cut bone-in rib roast. For easy balancing and even cooking on the spit the roast should measure about 5 inches from the point of chine bone to the end of the rib. The short ribs which have been removed would be ideal for the next night's meal on the grill.

Even balancing of the roast on the spit is best achieved by running the spit parallel to the bones as shown in the photograph. The spit may be inserted through the large round muscle or the "eye" of the roast if preferred, but the servings will not be as attractive.

A meat thermometer designed especially for roasting cooking may be inserted in the center of the roast. It is your best guide to a roast done just the way you like it. A 3-rib roast will take approximately 3 1/2 hours to reach medium doneness over white hot briquettes.

As the rib roast revolves on the spit the eager guests will be watching for the final moment when the roast is carved. The chef can boast that he did it all himself.

# Crowd-Pleasing Dips And Chips Star At Party

Whether you have a few friends or a crowd for a cocktail party, you'll find potato chips are star appetizers.

Place big, heaping bowls of potato chips on tables around a sitting area. Build a generous ring of chips around a tangy dip, place on a table and stand back for the crowd.

Try one or more of these at your next grown-up gathering.

**TOMATO DIP**

3-ounce package cream cheese

8-ounce carton sour cream

10-ounce can condensed tomato soup

Tablespoon mustard with horseradish

Dash of Tabasco

6-ounce jar cocktail franks, diced

Combine cream cheese and sour cream and cream them together until smooth. Add remaining ingredients. Chill and serve with crinkled, plain or flavored potato chips.

**CHIP CHEESE BALLS**

3-ounce package cream cheese

1/2 cup grated raw carrot

1/2 cup finely crushed potato chips

Chopped parsley

Softened cream cheese and mix with carrot and potato chips. Shape into balls about an inch in diameter. Roll in parsley. Chill and serve.

**CHICKEN ALMOND SPREAD**

EGG DIP

2 cups ground cooked white meat of chicken

1/2 cup ground almonds

1/2 cup mayonnaise

Salt to taste

Combine ingredients with mayonnaise to spreading consistency. Spread on chips and garnish with paprika. Broil until lightly brown. Serve immediately.

**SARDINE DIP**

1 can boneless sardines, drained and mashed

1 teaspoon lemon juice

1-3 cup sour cream

1-3 cup mayonnaise

1/4 cup minced pimiento

2 tablespoons chopped sweet pickle

Combine all ingredients and serve chilled.

**EGG DIP**

4 hard cooked eggs

1/4 cup mayonnaise

1/4 cup catsup

2 tablespoons milk or sour cream

1/2 teaspoon lemon juice

1/4 teaspoon salt

1 teaspoon grated onion

Chop eggs fine; combine with remaining ingredients and serve chilled.

**WEIGHT-WATCHERS DIP**

1 cup dry cottage cheese

6 or 7-ounce can white tuna (packed in salt water)

2 teaspoons grated onion

3 tablespoons chopped pimiento

Salt and pepper to taste

In an electric blender or high-speed electric mixer, blend cottage cheese until smooth and soft.

Drain and flake tuna, combine with cottage cheese and seasonings. (Tell your dieting guests... a whole cup of this delicious dip contains only 165 calories.)

An 8-ounce carton of sour cream is the base for many tantalizing dips. Use with any one of the following ingredients:

## Picnickers Take Off On "Wings"

Picnicking teens will "take off" when they taste "Angels On Wings," a toasted-over-the-coals dessert. For each "angel," toast 2 slices of loaf angel food cake (on both sides), using a long-handled wire grill, fork, or skewer. In between the hot cake slices, sandwich these delectables: a 2-inch square of milk chocolate; 2 hot, toasted-marshmallows; and a second square of chocolate. Press cake slice together — the chocolate and marshmallow will combine for a heavenly meltaway filling.

1. One small can of minced clams, 1 teaspoon Worcestershire sauce, 1 teaspoon lemon juice, salt and cayenne to taste.

2. Two tablespoons mayonnaise, 1-1/2 teaspoons curry powder, 1/2 teaspoon salt. Beat for fluffy texture.

3. One-quarter cup mayonnaise, 2 tablespoons mustard, with horseradish, 1 teaspoon grated onion, 1 teaspoon Worcestershire salt and pepper to taste.

4. One package of onion soup mix. (The old-time favorite with guests and hostesses!)

Weight-watchers on a restricted diet often need the vitamin protection of taking regularly, once a day, a multiple vitamin preparation.

**IT'S LOVE AT FIRST BITE**

**FULL OF TASTEWORTHY FOOD VALUE**

**Chipper Touch At Daytime Parties**

At daytime parties, make the mood and the food light, bright and cheerful and don't forget the chipper touch. Top a brunch rare bit with crushed potato chips. Brighten bread mixes with crisp chips, too. Decorate a table with a pretty container of golden potato chips.

**DICED CHICKEN IN SOUR CREAM**

2 cups cooked diced chicken

# Start New Tradition In Good Eating For Picnic

Here's a picnic line-up to start a new tradition of good eating. It stars Savory Beef Burgers on toasted rye buns. These extra good tasting meat patties combine ground beef with oven-toasted rice cereal, egg, onions, chili sauce and other seasonings. Criss-cross bacon strips around the patties and broil them right along with the ground meat mixture for

novel flavor and crisp texture. Savory Beef Burgers can be prepared indoors or out. If you plan to cook over an outdoor fire, prepare the patties at home and refrigerate them to cook thoroughly. Then carry them in an insulated bag to your cookout site. A favorite picnic dessert is the well-chilled watermelon. With the melon wedges serve tasty Butterscotch Blondies. These flavo-

6 bacon slices  
Crush oven-toasted rice cereal slightly. Combine with remaining ingredients except bacon; mix well. Divide meat mixture into 6 patties. Cut each bacon slice into two strips; arrange crosswise and place a patty in center. Bring strips together on top of each patty; fasten with a toothpick or skewer. Arrange on broiler rack. Broil

about 6 minutes on one side; turn patties and broil about 6 minutes longer. Serve immediately. Garnish with tomato wedges.  
Yield: 8 servings.  
**BUTTERSCOTCH BLONDIES**  
1/2 cup butter or margarine  
1 cup brown sugar, firmly packed  
2 eggs, well-beaten  
1 teaspoon vanilla flavoring  
1/4 teaspoon salt  
1 cup bran flakes  
1 cup sifted flour  
2 tablespoons confectioners' sugar  
Blend butter and sugar, beating until fluffy. Add eggs; beat well. Stir in vanilla and salt. Crush bran flakes slightly and add with flour to butter mixture, folding in

only until combined. Spread in greased 9 x 9-inch baking pan. Bake in moderate oven (350 degrees F.) about 25 minutes, until just beginning to pull away from sides of pan. Remove from oven and sift confectioners' sugar over Blondies immediately. Cut into squares when cool.  
Yield: 16 squares, about 2 x 2 inches.  
Note: If desired, 1/2 cup chopped nuts or cut dates may be added with bran flakes.  
Slow down at mealtimes — if you are trying to add weight. Eat slowly, savor every morsel, learn to enjoy flavors and textures, and don't worry.

**Young Crowd Likes Jaw-Breaking Snack**  
For the young crowd who like their picnic fare high, wide, and handsome — this is it. Jaw-challenging "Grinders" stack up from favorite poor boy rolls, cut in half, lengthwise. On each bottom half are placed — 12 slices of thinly sliced Cervelat, 3 slices tomato, 2 thin slices onion (broken into rings), and 2 slices sharp process cheese. Serve 'em "as is" for on-the-go meal. For backyard feasts, heat them in a hot oven (400 degrees F.) for about 5 minutes, to relax the cheese.

**Beef Burgers Are Fashioned To Fit**  
Fashioned to fit — into frankfurter buns — are sausage-shaped Beef Burgers. Ground beef, seasoned with chopped onion, salt, and pepper, is shaped into lengthwise rolls. Around each roll is spiraled a bacon slice, the bacon ends fastened with a toothpick. About 10 minutes of browning, turning frequently — over an outdoor grill or under indoor oven broiler — readies them for placing on buttered buns, to be dressed with catsup or chili sauce.

**Liverwurst Liveliest Lift From Potpourri**  
Liverwurst gets the liveliest lift ever from a potpourri of condiments. A good summer traveler, too, this filling (for 7 sandwiches "on rye") features 2-3 cup liverwurst with tasty additions of chopped cucumber (with skin) and pecans — 3 tablespoons each; chopped dill pickle — 2 tablespoons; prepared mustard and catsup — 1 tablespoon each; chopped chives — 1 teaspoon; Worcestershire sauce, garlic salt, and granulated sugar — 1/4 teaspoon each.

**IT'S LOVE AT FIRST BITE**

**FULL-FLAVORED, UM-M-M TASTY**

SAVORY BEEF BURGERS  
1 1/2 cups oven-toasted rice cereal  
1 1/2 pounds ground lean beef  
1/4 cup chili sauce  
1 teaspoon salt  
1 teaspoon Worcestershire sauce  
2 teaspoons prepared mustard  
3 tablespoons grated onions  
1 egg, slightly beaten

# History Of 1961 Election Bared In Recent Book

By MERRIMAN SMITH  
WASHINGTON (UPI) — An amazing historical document is being published today. It is "The Making of the President 1960," a narrative history of the last election campaign by Theodore H. White.

The book is amazing because it is current history written with freshness and pace too often missing from learned efforts to chronicle even a moment of importance to the nation.

Essentially White's book is the story of President Kennedy's successful bid for office.

What lifts the book far over the ruck of the current profusion of so-called Kennedy books is not only White's long recognized ability as a writer, but his perception. He had only a brief opportunity to see Kennedy in action after the inauguration and White's perceptive skill is demonstrated brilliantly in this portion of the book.

White does something that most of the historians around Kennedy would by-pass as superficial, even if they were aware of it. This is the author's understanding recognition of the incredible importance of the telephone in the hour-by-hour life of a modern chief executive.

"One who sits with the President is frequently mesmerized by the telephone," White says, "for in the technology of modern American politics the telephone has the symbolism of the sword or the mace in the politics of the middle ages."

From Kennedy's small telephone console on his desk, he has access to two basic telephone systems. One is civilian, controlled by the large White House switchboard where the operators are particularly skilled in tracking down hard-to-find persons for the President.

The White House operators know more private telephone numbers than any operators in the world. Most of these numbers are recorded in highly secret directories, and when there is a change in national administrations, private numbers frequently are passed, on along with the White House furniture.

White had no reason to go into this small moment of history, but when Herbert Hoover left office, his telephone operators swept the place clean and left the incoming operators of Franklin D. Roosevelt with only the Washington telephone book.

The second telephone system at Kennedy's disposal, is operated by the Army Signal Corps.

Kennedy has an amber button on the console, and a red button. The amber one cuts into a special switchboard which can connect him with private outlets on the desk of each Cabinet member, agency heads and key members of the White House staff.

The red button connects the President with a "maximum security" system of communications over a special line which scrambles his voice so it cannot be understood unless the recipient of the call has a scrambler equipment. The red button also can connect the chief executive with a switchboard in the war room of the Pentagon and as White points out, "from there, the reach of his voice is global."

## OUR ANCESTORS

"You wait on tables fine! I'm firing you because you're a lousy tanor!"

## Russians To Stage Big Fair In London

LONDON (UPI) — The biggest video telephone, with which the Russian fair, ever held abroad opens here on Friday, July 7, with a mammoth show of Soviet achievements.

Organized by the Soviet Chamber of Commerce, the fair will run until July 29 and will show the best of what goes on in Russia today. It will include exhibits never seen outside the Soviet Union.

Anthony Tikhonov, commercial director of the exhibition, said the object of the fair was, "to show visitors what we have achieved in all spheres and thereby to stimulate trade between us."

He said there would be more than 10,000 exhibits divided into 24 halls, covering all fields from industry and science to fashion and sport.

"If you were to devote only 30 seconds to each exhibit," Tikhonov said, "it would take you 83 hours to see them all."

The Space Hall housing replicas of three Sputniks, scientific instrument and films of rocket launchings is expected to be the biggest drawing card.

Working models of thermonuclear installations and a replica of the atomic icebreaker Lenin will be housed in the "Peaceful Atom" section.

Visitors will see a model of one of Moscow's new satellite towns, Kryukovo, now being built from prefabricated parts. Considerable floor space also is devoted to education, welfare, and the arts.

Russian chefs will serve traditional dishes in a specially built restaurant, and imported craftsmen will be at work in a souvenir shop.

Special attention is being given to the woman's angle, with Russian mannequins displaying the latest Moscow fashions and footwear.

Among inventions on exhibit will be what is claimed to be the fastest movie camera in the world, an electric balalaika, and a working

### WINS BEAUTY HONOR

TYLER (UPI)—Jeanie Pope, 18, won the 1961 "Miss Tyler" title Saturday in competition with eight other girls. The shapeless brunette will compete in the "Miss Texas" contest in Beaumont Aug. 2-6.

## Film Stars Wed In Mexico Rites

HOLLYWOOD (UPI) — The third country proved the charm for actress Lauren Bacall and actor Jason Robards Jr. Following futile attempts at matrimony in Vienna, Austria, and Las Vegas, Nev., Robards and Miss Bacall, the widow of actor Humphrey Bogart, were married Tuesday in Ensenada, Mexico.

## Expectant Woman Sues Geo. Jessel

LOS ANGELES (UPI)—Comedian George Jessel, 63, and the 27-year-old woman who has filed a paternity suit against him said Tuesday they are not mad at each other.

Divorcee John Tyler's suit was disclosed Monday and asked \$2,050 medical care, \$750 monthly during the pregnancy period and \$950 monthly after the baby is born.

### Driving Blind

NEW YORK (UPI) — The alert driver keeps his eyes on the road—but doesn't see it sometimes.

A report in "Missouri Medicine" notes that the average person blinks his eyes about 25 times a minute, each blink averaging about 0.2 second. At this rate, during a 10-hour drive at 40 miles per hour, it's estimated the driver's traveled about 33 miles with his eyes shut.

## Supermarkets In Spain Drawing Few Buyers

MADRID (UPI) — American-style supermarkets capture the curiosity but not always the cash of Spanish shoppers.

Customers at the "supermercados," now in their second year of operation here, seem to prefer browsing like delighted children in a toy store to buying armloads of groceries.

Besides, there are many strictly Spanish aspects to the supermarket idea that would surprise its originators. For instance, a package of frozen rooster head, feet and gizzard. It sells for 11 cents.

There are about a dozen "supermercados" in this capital of two million people. A few more are scattered in major cities of the provinces.

And business is brisk, except in the grocery section. In this near Texas-size nation of 30 million the average per capita income is \$247 annually. The food dollar must be stretched.

This can best be done by bartering in open air markets or by shopping in neighborhood specialty shops which, for example, sell only fish, or bread, or dairy products.

Tradition is against the super-

## Chuckles

### FIREWORKS SHOOT EARLY

LAKEWOOD, Ohio (UPI)—The Lakewood Junior Chamber of Commerce today was planning a new fireworks display that won't be so spectacular and sudden as the last one.

The chamber had spent months planning their July 4 fireworks display and Tuesday night was the big night. An estimated 7,000 persons went to Lakewood Park to watch. They didn't have long to wait.

The whole display everything from rockets to the ground how-

ed. Fruits and vegetables are cheaper in the open market. Frozen hamburger (37 cents a pound) and frozen German frankfurters (5 cents each) are dismissed as "luxury items."

But the woman willingly pays 42 cents for a quart bottle of olive oil—machine-filled while the customer waits—because Spanish cooking floats in the stuff.

Next to the produce section is one of the best buys in the market, sherry. The Spanish national drink sells for 93 cents a fifth. Fundador, or cognac, is a bargain at \$1.10.

Spanish gin, if the shopper thinks the risk is worth it, costs 83 cents a fifth.

went up with one mighty bang in about 10 seconds. An errant spark touched off the whole works, it was believed.

### WOMEN FIGHT CABARET

SANDAKAN, South Borneo (UPI)—The women of this peaceful coastal town have risen up in arm against the proposed opening of a cabaret because: —They say cabarets are for rich people. —They do not want their husbands to be led astray.

Slow Train Through Alabama

# Railroad Scares Off Only Rider

HUNTSVILLE, Ala. (UPI) — There is a railroad that has carried only one passenger in its nearly 15 years of existence and officials are glad he didn't come back for a second ride.

The railroad, one of the slowest lines in the nation, is at Redstone Arsenal here, where a major effort is underway to develop a space vehicle.

The space vehicle is the prime project of the National Aeronautics and Space Administration's Marshall Space Flight Center, which shares the arsenal with the Army Ordnance Missile Command.

The Army's Redstone Railroad, a line that even stops for auto traffic, includes five diesel electric locomotives, 36 boxcars, 23 coal cars, two flat cars, one tank car and a motor car for railway maintenance crews.

The railroad operates over 82 miles of track, but logged more than 50,000 miles last year hauling 380,000 tons of cargo. Cargo has ranged from poison gas to 500 pounds bombs to one passenger.

At an installation which daily delivers into such things as super-sonic, hypersonic and orbital speed, the trains are limited to 25 miles an hour on straight stretches and 10 miles per hour on curves, of which there is an abundance.

The lone passenger felt one ride on the railroad was enough and never came back for a second. He was a hobo who fell asleep in a freight car and was shuttled into the heavily guarded military installation. An official said the non-paying fare "was scared to death" as military police swooped down to hustle him away.

The railroad has its experimental side and recently was used to determine if a missile could stand handling such as could be expected in railway movements.

Loaded coal cars were banged against the flat car on which the missile was tied at speeds up to 12 miles an hour. The test proved the missile could stand travel by rail.

The trains, operated in two shifts by a total of 29 personnel, stop at all paved crossings and wait for any one of the arsenal's 33,000 registered automobiles to pass.

The Army began operating the railroad in 1942 when this arsenal was a minor military installation engaged in the manufacture of bullets and poison gas, long before a missile ever took shape in this country.

The trains do not use firemen and there isn't a caboose on the line. Commercial railroads bring shipments to two yards, where distribution of in-bound cars is made to the various departments by the Redstone Railroad. The line also hauls coal from barges which dock on the Tennessee River which borders the arsenal.

**GUNMA NTAUNT SVICTIM**  
 LOS ANGELES (UPI) — Two gunmen celebrated the Fourth of July Tuesday by robbing a liquor store of almost \$800 and tying the hands of proprietor Harry Greely, 33, with an electric light cord.

As they fled, one of them yelled back: "We've got our independence, but you ain't got yours."

# 'Supersonic' Word For Jet-Minded Aviatrix

By BETTY KLARIC  
Newspaper Enterprise Assn.

"But I consider my greatest accomplishment teaching the Air Corps to fly blind," says Mrs. Davis. She taught inflight instrument flying to servicemen stationed on the Baldwin-Wallace College campus near Cleveland.

She says, "That was my first close association with people. Sitting next to my students hour after hour, I had to learn all about them. That experience helped me grow up."

It also made her want to get a college degree.

She enrolled at Baldwin-Wallace in 1951 to begin work on a degree in electrical engineering. She was in her early 40s, but Mrs. Davis entered right into campus life even becoming a member of Delta Zeta Woman of the Year.

She still doesn't have her degree, but she's going back to take more classes next fall.

"I haven't had time for school because of swimming," she says, and is doing another kind of flying between the diving board and the pool at the YM-YWCA near her suburban Lakewood penthouse apartment.

Her latest venture began 2½ years ago when she decided to overcome her fear of deep water.

When Arlene Davis sets her mind to something there's no stopping her. She became a Y senior life saver, is now working for the leader-examiner rating, and teaches an intermediate swimming class.

Her swimming instructor calls her a perfectionist and Mrs. Davis admits, "I practice like mad, just as I do for my flying."

That's what is keeping her away from school, plus constant work to keep up her flying ratings, giving hundreds of talks a year, doing volunteer work at a veterans' hospital and all the other activities she manages to squeeze into her day.

In the early, lean days of her husband's business, she even "piloted" a delivery truck. When the business became more prosperous she took up ballet dancing, painting, speedboat driving, golfing and horseback riding.

It was as a horsewoman and not as a flyer that she had her closest call. She has had plane crashes, but has always been able to walk away from them. It took a frisky horse to send her to the hospital

Arlene Davis, well-suited for biplane take-off, about 1933.

Jet-age checkout is a zestful experience for Arlene Davis.

for a year with a broken back. Does she pilot herself when she travels?

"I used to. But you know it isn't any more fun than driving your car 500 miles and then giving a lecture," says Mrs. Davis. "I'd just as soon sit back and enjoy the flight."

Arlene Davis devotes time and money to encourage an interest in aviation among young people. She presents the Delta Zeta Arlene Davis Scholarship annually, and she's the donor of the annual Air Travel Award at the University of Omaha Angel Flight.

"Everyone thinks I'm very smart," she says. "But I'm really not. I just work like a dog. And I always give credit to Don Patrick, who taught me to fly. I got all my high ratings with him."

Anything new for her up in the air?

"I'm planning something, but I don't want to talk about it," Mrs. Davis answers. "A woman in a man's world is forced to do and not talk. So many things can happen. If it doesn't come off, then people say you were just blowing off steam. I don't want that reputation."

There have been rumors that she is being considered for a national award that will be another first for a woman.

Then there's that moon-trip. "I want to be the first paying passenger," she says. "I've gotten so much out of aviation, I don't want to Welch. I insist on paying my way."

If she runs true to form, Arlene Davis can start packing her space suit now.

## Dear Abby... Scout's As Phony As A Paper Moon

By ABIGAIL VAN BUREN

DEAR ABBY: I met a man on a bus. He was very polite and well-dressed. Maybe I should tell you I am 16, but look older. This man said he was a talent scout and he thought he could get me in the movies. He asked me to go up to his hotel room to read over the contract, but I didn't have time because I was supposed to meet my mother downtown.

He gave me his name and telephone number, and told me to call him. He asked me not to tell my parents about meeting him. I don't want to pass up a chance to get into the movies, but I have never done anything behind my parents' back. What should I do?

SIXTEEN

DEAR SIXTEEN: DON'T call this man. He's as phony as a paper moon. His "talent scout" line went out with celluloid collars. Tell your parents about him.

DEAR ABBY: I have been married a very short time and have been told that I am wearing my rings backwards. I wear my engagement ring first because I was engaged first. Then, right next to it, I wear my wedding ring. People have told me that it should be the other way around. I still think I am right, but I would like to be sure.

JUST MARRIED

DEAR JUST: The wedding ring should be placed on the finger first (closer to the heart), and the engagement ring is worn next to it.

DEAR ABBY: My husband runs a gasoline station. He is known as the softest touch in town. He gives credit to all the dead-beats. When they have cash, they go somewhere else.

When the cash register rings, it is a NO SALE because he is in there getting a dollar to give someone who hands him a hard time.

Program On Flag Given At Meeting

CANADIAN (Sp) — The Mothers' Meeting was held in the W.C.T.U. building recently. Devotional was given by Mrs. Percy Hill. A paper, "The Religion of the Flag," was given by Mrs. E. W. Crowell.

Mary Anita Rutledge played a piano solo. Vocal solos were sung by Sandra Waters and Buddy Sipe.

Hostesses for the afternoon were Mmes. Ed Little, L. P. Ward, J. L. Cleveland, Percy Hill and Jim Ownbey.

## Big, Bouncy Summer Necklaces

Big and bouncy but light as a feather are these summer necklaces. Pearl-like baroque beads (left) are sparked by flat golden rondelles and shining crystals. Simulated pearls and rock candy beads shine (right) in this stunning necklace. These are Marvella designs.

## Many Beauty Aids Available To Milady

By ALICIA HART  
Newspaper Enterprise Assn.

The gathering years come as a shock to a good many American women. This is perhaps only natural, since one is young for the first thirty-five years of life.

Suddenly, an adjustment to middle age must take place. This isn't always easy. Several of my friends are pining for the idea. But this is the wrong way to go at it. Every year successfully lived is an achievement. The compensations in the form of experience and self-confidence are real assets for you to acquire.

As for the matter of actual looks, well, there never was a day in which women were so fortunate in this respect.

Not all of the wealth possessed by Lillian Russell could have been available to the average woman today; marvelous hair tints and dyes, hormone and vitamin creams, vitamins themselves, facial masks, electronic exercise machines, well-equipped gyms, subtle and flattering make-up, excellent hand lotions and creams, wonderful bath oils and water softeners.

The idea should be not to look young forever, but to look attractive AT YOUR AGE.

SLIMMING TRIO

Almost every mail brings me letters from women who want to know what setting-up exercises will keep them in trim. There are three that I consider absolutely essential. They are: One for the upper arm, one for the waistline and that old reliable for staying lithe — touching your toes.

The first one you do to keep the upper arm from going flabby. Stand with feet together and arms straight out at the sides at shoulder level. Now describe circles with both arms in unison. In other words, make like an airplane propeller.

For the waistline, put your arms straight up above your head and clasp your hands. Now, bend as far to the left side as you can. Straighten and bend to the right. Sound easy? Try it. I've never gotten past a count of 60 on this one.

You know how to touch your toes, but play fair. Keep your knees straight. And do this one for a count of 40. These three exercises will take you less than 10 minutes a day. But they'll do wonders toward keeping you in trim!

ON LIGHTLY, PLEASE

The deep, dark tan is no longer in fashion. This summer, if you want to look both pretty and up-to-date, aim for a smooth golden tan. You should look soft and polished at one and the same time.

You achieve this by using a good suntan preparation and by timing yourself when you're out in the sun. Don't be tempted to overstay the limit you set.

Wesleyan Guild Meets For Study

CANADIAN (Sp) — The Wesleyan Service Guild met at the First Methodist Church recently.

The business meeting was conducted by Mrs. Virginia Whipple. Devotional was given by Mrs. Rhea Wilson, and the program, "Home for the Homeless," was given by Mmes. Wilbur Killebrew, J. A. Ullom, Celia Roe, and Bill Zenor.

Mrs. Coy Holman was hostess to coordinator, Mrs. James Price, and members Mmes. Grace Spiller, J. A. Ullom, Celia Roe, Wilbur Killebrew, Gene Campbell, Rhea Wilson, Bill Zenor, Virginia Whipple, Vernon Morse, and Erbin Crowell.

## ★ Polly's Quiz ★

By Polly Cramer

Have you a rug that is worn and frayed around the edges or that looks too small in its present location? If so, round off the corners to make a circular or oval rug. Sew rug fringe around the edges and have something that looks custom-made without the slightest suggestion of a made-over that was contrived from necessity.

Dear Polly: Would you think it modern to put a full length mirror on the inside of a bedroom door? Should I use three big lamps in my really large bedroom? Two would be on night stands and one on the dresser. Could the lamps be different?—Unsigned.

Dear Unsigned: A mirror on the bedroom door may not be modern but it would be practical. Bedside lamps should match and the one on the dresser be at least similar in style. Be sure the bed lamps are high enough for good light when reading in bed. The size and width of the dresser would help determine the lamp size.

Dear Polly: I am going to re-marry and will have a real problem co-ordinating my furniture with that belonging to my new husband. The biggest thing is this: his large living room has a sculptured gray rug, turquoise couch, black chair and bright pink chair. I might slip cover the pink chair to match the drapes I will make, but I'm undecided. Would rose taupe be pretty for the walls?—M. R. W.

Dear M. R. W.: Do give that living room a completely new look, one that makes it definitely yours and his. Changes may not come so easily if you move in and settle down with things as they are. Any woman deserves the right to change things to her taste (and that of her husband). She should not have to live with the remnants of a past life. Rose taupe walls sound rather drab. If you want to keep the turquoise sofa, paint the walls and the woodwork a dull soft gold and the ceiling a pale gray. Have curtains and slip covers for both chairs in the same floral print; a pale gold ground with bright flowers that include some turquoise, gray, pink, red and green leaves.

Dear Polly: We need advice on two painting projects. We would like to paint our master bedroom, add new curtains and rug. We have Italian provincial furniture and an off-white bedspread. Our house is a buff brick bungalow. In addition to the usual wood trim, there is a bay window. Roof is green. Since our house is small, we had thought of buff trim, but can't decide on the color for doors.—Mrs. C. C.

Dear Mrs. C. C.: Wood trim should be very effective. Since the roof is green, why not have shiny dark green doors? Add a brass knocker to the front door and put a tub of pink and red geraniums and purple petunias at either side as a smart welcome. For the bedroom, you might use a deep purple (almost eggplant) room-size rug and paint the walls and woodwork a pale blue. Make a tailored, pleated dust ruffle as well as valances of blue, purple, bright pink and white plaid taffeta to hang over very full, sheer white curtains.

Friendship Club With Mrs. Helm

GROOM (Sp) — The Friendship Needle Club met recently in the home of Mrs. Dessie Helm. Mrs. Verna Whatley presided at the business session in the absence of Mrs. Eulice Monroe, president.

Resignation of Mrs. W. S. Jones secretary and treasurer was accepted. Mrs. Les Driskill was appointed to fill out the unexpired term.

The afternoon was spent in conversation and needlework.

Cliffon cake and pink lemonade were served to Mmes. Willie Ragsdale, Les Driskill, Blanche Harris, Roy Ritter, Jeff Gray, Cecil Culver, Hannah Keeter, Bertha Jones, M. Henderson, Verna Whatley, J. C. Eschle, Neva Burgin, Alice Ward, Peje Fields and the hostess Mrs. Dessie Helm.

Mrs. Jones plans to entertain the club in her home in Amarillo in September.

Swim caps that resemble hats or even your own hair are the ones you'll see on beaches this summer. Crisp polka dot nylon organdy (left) is used for this ruffled cap. It's over a regular swim cap foundation and will keep your hair dry. Chignon swim cap (center) comes in four colors and allows you to switch your hair color if you like. There's lots of room on top to tuck your hair up. Have a new hair-do and a new hair color with this cap (right). It comes in hair tints.

## Homebuilders Meet With Mrs. Fields

### Camouflage Caps Are In Swim Of Fashion

GROOM (Sp) — The Homebuilders Sunday School Class of the Baptist church met at the home of Mrs. Truett Fields recently with Mrs. Carol Breyer as co-hostess. Mrs. Jack Bivens gave the devotional.

Present were two guests, Mrs. John Shannon of Odessa, and Mrs. Billy Fields; and members, Bill Burgin, Fred Brown, Don Ritter, Danna Howerton, R. A. Snyder, Bobby Cornett, Andy Brown, Tom Cleere, Jim Goss, Jack Bivens, and the hostesses.

NOT SO NUTTY

To better distribute nuts in a cake batter, dampen them with a little warm water and roll in flour.

GAILE DUGAS

NEW YORK (NEA) — It's a rare thing these days when a swim cap actually looks as if it were intended to take the plunge.

We have, instead, swim caps that resemble bowery hats, swim caps that resemble hair and ruffled swim caps with an ultrafeminine look. Yet, all of them do a job. They really do protect your hair from the water.

The reason for this trend away from a swim cap look is sound. Most girls don't look their best emerging from the water. But with waterproof make-up, a sleek brownette and brunette, swimsuit in a gay color and a pretty swim cap with lots of nonsense about it, a girl looks a whole lot better, feels better, too. A cap like that does something for a girl's morale!

If you feel like switching hair colors this summer, you can do it without using a tint. A chignon swim cap will turn the trick and give you a change in hair styles at the same time. If your hair is long, you can keep it high and dry in the top of this cap. It comes in four hair colors: platinum, blonde, to own three or four.

# Reds Score 3-2 Victory Over Giants

United Press International  
Casey Stengel used to go into rhapsodies about southpaw Bill Henry, and Cincinnati manager Fred Hutchinson is about ready to join in and make it a duet.

"He's been like money in the bank to us," Hutchinson says. "Any time we've been in a hole, he has pulled us out."

The 33-year-old Henry performed his specialty again Wednesday night, stopping the San Francisco Giants cold with the bases full in the ninth inning to preserve a 3-2 victory that stretched the Reds' winning streak to five games and increased their National League lead to three games.

Henry, who has worked in four of Cincinnati's last six victories, took over in the ninth after Jim Bronson had relieved winner Sherman Jones and forced in the Giants' second run by walking pinch hitter Jim Davenport.

Working carefully, Henry ran the count to 3 and 2 on pinch hitter Eddie Bressoud, then retired him on a routine fly ball to end the game.

Henry, who led Cincy pitchers with 17 saves last season, first came to Stengel's attention when he hurled for the Boston Red Sox.

The former Yankee manager was irate when the Chicago Cubs gave up Henry to the Reds for Frank Thomas in December of 1959.

"They (the Cubs) told us they weren't gonna let him go," Casey steamed. "We wanted him, but they said no one's gonna get him."

The St. Louis Cardinals routed the second-place Los Angeles Dodgers, 9-1, and the Milwaukee Braves swept a twin-bill from the Philadelphia Phillies, 5-4, in 12 innings and 4-0. The Pittsburgh-Chicago game was postponed because of rain.

**Yanks Gained Ground**  
In the American League, the second-place New York Yankees moved to within a half game of first place with a 6-0 win over the Cleveland Indians, while league-leading Detroit was splitting a doubleheader with Boston, winning the first, 6-2, and dropping the second game, 8-3.

The Baltimore Orioles blanked the Washington Senators, 2-0, the Los Angeles Angels beat the Minnesota Twins, 6-2, and the Kansas City Athletics defeated the Chicago White Sox, 8-3, in a game limited to six innings by rain.

Bill White hit three homers and a double to pace the Cards to their victory over the Dodgers.

The Braves broke a four-game losing streak with their two victories over the floundering Philadelphia Phillies.

Roger Maris hit his 32nd homer to go 17 games ahead of Babe Ruth's record pace in the Yankees' triumph over the Indians.

Rocky Colavito drove in five runs to power the Tigers to their first game victory over the Red Sox. He hit his 21st homer in the opener and 22nd in the nightcap, but homers by Jim Pagliaroni, Gary Geiger and Chuck Schilling plus the fine relief pitching of Mike Fomiele caused the Tigers' downfall in the finale.

Dick Hall pitched a four-hitter against the Senators to help the Orioles keep intact their record of never having lost a game at Griffith Stadium this season.

Sieve Bilko and Ken Hunt drove in three runs apiece against the Twins to lead the Angels to their fifth victory in a row.

The Athletics shelled Juan Pizarro and Frank Baumann for eight runs in the first two innings for their victory against the stumbling White Sox.

**UPSIE DAISIES** — High-spirited young women of the international tennis set leap over the net at Lady Crossfield's traditional Wimbledon party. The festivities are held at Highgate, Lady Crossfield's London home. The girls represent Great Britain, Spain, Italy, West Germany, South Africa and Mexico.

**MAJORS INK BARNARD**  
CHICAGO (UPI) — Sam Barnard, a 6-7 225-pound center from Iowa State, Wednesday became the fifth player to sign with the Chicago majors of the American Basketball League.

# South Africa Entrant Net Tournery Favorite

WIMBLEDON, England (UPI) — Sandra Reynolds of South Africa was favored to defeat Britain's Angela Mortimer today in the semifinals of the women's singles in the Wimbledon tennis championships.

Renee Schuurman, Sandra's countrywoman, met Christine Truman of Britain in the other semifinal match.

Chuck McKinley of St. Ann., Mo., prolonged American interest in the men's singles Wednesday when he beat Britain's Mike Sangster, 6-4, 6-4, 8-6, to reach the final round with Rod Laver of Australia. McKinley and Laver will meet for the title Friday.

Karen Hantze of Chula Vista, Calif., and Billie Jean Moffitt of Long Beach, Calif., attempted to further U.S. prestige today when they faced Sally Moore of Bakersfield, Calif., and Lesley Turner of Australia in the semi-finals of the women's doubles.

Frank Froehling of Coral Gables, Fla., and Justina Brick of St. Louis, were pitted against Jiri Javorsky and Mrs. Vera Sukova of Czechoslovakia in a mixed quarter-final doubles match.

McKinley said he has not given any thought to the possibility of turning professional if he whips Laver, who topped India's Rama-

# Suspended Twin Says He May Go Home

St. Paul Minneapolis (UPI) — While Minnesota's shortstop Zoilo Versalles was trying to decide whether or not to go through with his threat to spend the remainder of the baseball season in Cuba, manager Sam Mele was busy making plans that didn't include the speedy Latin.

"Jose Valdivieso played a fine game against Los Angeles," said Mele, "and he's our shortstop, at least until things get straightened out."

Mele said he wasn't consulted on the suspension and firing of Versalles, but the new Twins' skipper said, "You've got to do something with a guy like that. If he gets away with this, what's to prevent others from doing the same?"

Minnesota President Cagiva Griffith suspended Versalles indefinitely when he failed to appear in uniform for the game. The suspension without pay was ordered in addition to a \$500 fine for jumping the club.

The Twins lost the first of a two-game set to the Angels while Versalles was the guest of honor in a farewell dinner with some Cuban friends.

He told United Press International, "I just want to put the glove in the corner and rest. I'm just tired of all of this."

Versalles said he and his wife were married only 15 days when he left for spring training. "I don't even know how my wife looks any more," he said.

Traveling Secretary Howard Fox said the Twins have been trying for months to get Versalles' wife to this country. He said she had missed her plane on one occasion and that the tense Cuban situation hadn't helped their efforts.

Versalles took an unauthorized vacation during spring training last season and spent a week in Cuba. The move cost him a berth on the old Washington Senators and he ended up at Charleston for most of the season.

# Cornell's Crew To Meet Harvard In Regatta Today

HENLEY-ON-THAMES, England (UPI) — Cornell University's lightweight crew rowed against Eliot House of Harvard today in the Challenge Cup eight-oared competition in the Royal Henley Regatta.

Kent School of Connecticut, the third U.S. entry in the Challenge Cup, was pitted against a crew from the University College of Dublin.

In the Wyfold Cup competition for fours, a quartet from the South Kent School of Connecticut met Birmingham University of England.

All four American crews won their opening races over a one mile and 350-yard course on the River Thames Wednesday.

# Players' Choices Chosen On AL's All-Star Team

## NL Manager Handed 'Insult' By Piersall

CINCINNATI, Ohio (UPI) — Manager Danny Murtaugh, ducking the controversy that surrounded selection of the American League team, abided strictly by the players' votes today in naming National League pitchers and reserves for the All-Star Game at San Francisco, July 11.

Murtaugh also gave a semi-sentimental choice to Stan (The Man) Musial of the St. Louis Cardinals, who thus will surpass his own record by appearing in his 20th All-Star classic.

Dispute, was stirred up in the American League on Tuesday when AL Pilot Paul Richards ignored the votes of the players and bypassed in his reserve choices five of the eight men who finished runnerup at their positions in the balloting.

As a sample, Jimmy Piersall of the Indians, one of the overlooked five, denounced Richards Wednesday for "favoritism" and "stupidity."

Murtaugh, however, included on the NL squad every one of the eight players who were runner-up

in the voting for their positions. These eight, plus eight pitchers, plus Musial made up his 17 players. Musial got into the All-Star games last year virtually "on a pass." He was batting poorly but he justified his selection by wallowing a homer in the NL's 6-0 victory in the second game at New York.

This year Musial boasts a .302 average, and his selection is not nearly as sentimental as a year ago.

Richards slowly counted to 10 today, swallowed the insult hurled at him by Piersall and then agreed with the Cleveland outfielder that he "deserved" to be picked on the American League's All-Star team.

But Richards, who will manage the AL All-Stars, didn't pick him and that's what got Piersall, hitting .340, teed off.

The high-strung Cleveland outfielder accused Richards of "stupidity," "favoritism" and "sentimentality" among other things.

Richards learned of Piersall's remarks shortly before Wednesday night's game here between the Baltimore Orioles and Washington Senators.

"After thinking it over," Richards added, "I can understand why Piersall feels he's been slighted. He's a fine player. On the basis of his performance, he deserves to be on the team. Unfortunately, it didn't work out that way this year."

The three first-string outfielders chosen to the AL All-Star team by the players, managers and coaches were Rocky Colavito of the Tigers and Mickey Mantle and Roger Maris of the Yankees.

Richards supplemented that trio by choosing Yogi Berra of the Yankees, Al Kaline of the Tigers and Jackie Brandt of the Orioles.

"Yogi is a good ball player," Piersall snapped, "but any year I hit .340 I should be in any All-Star outfield."

That comment, when relayed to Berra, elicited the following reply: "Let him take the job."

Piersall says thanks, but no thanks.

"I wouldn't play if he picked me," snapped Piersall when informed that Richards still might select him for the second All-Star game in Boston, July 31.

# St. Paul's Open Golf Under Way

ST. PAUL, Minn. (UPI) — It was National Open champion Gene Littler against the field today in the first round of the \$30,000 St. Paul Open golf classic.

The tourney runs 18 holes a day through Sunday.

Littler, long-regarded as one of the finest players to swing a club, finally squeaked all doubts this year with his U.S. Open championship. Early odds favor Littler for the St. Paul title.

But he'll get competition from most of the pros who travel thousands of miles each year to earn a living chasing a golf ball.

Don Fairfield, who ended a four-year victory drought with his St. Paul Open title in 1960, is back and confidently predicts that he has a good chance to enter the select-circle of two-time winners.

The event is played at par 72 Keller Golf Course, a public layout that has hosted the St. Paul Open since it began in 1930.

# National League All-Star Squad

CINCINNATI, Ohio (UPI) — The complete National League squad for the first 1961 major league All-Star baseball game at San Francisco, July 11, (won-lost records or batting averages in parentheses).

**Pitchers:** Erloy Face, Pittsburgh (4-3); Joey Jay, Cincinnati (11-4); Sandy Koufax, Los Angeles (11-4); Art Mahafey, Philadelphia (7-9); Mike McCormick, San Francisco (7-8); Stu Miller, San Francisco (6-1); Bob Purkey, Cincinnati (10-4).

**Catchers:** Frank Bolling, Milwaukee (.300); Ed Mathews, Milwaukee (.316); Bill White, St. Louis (.294); Maury Wills, Los Angeles (.318); Ken Boyer, St. Louis (.317); Eddie Kasko, Cincinnati (.287); Dick Stuart, Pittsburgh (.280); Don Zimmer, Chicago (.282).

**Outfield:** Orlando Cepeda, San Francisco (.315); Roberto Clemente, Pittsburgh (.337); Willie Mays, San Francisco (.333); Hank Aaron, Milwaukee (.319); George Altman, Chicago (.349); Stan Musial, St. Louis (.302); Frank Robinson, Cincinnati (.313).

# Red Oak Stable Entry Victorious In Aqueduct Race

By United Press International  
Red Oak Stable's Injun, who suffered bucked shins in the Kentucky Derby trial, thus missing more than a month of competition, showed he's ready to make up for lost time Wednesday by scoring a wire-to-wire victory in the Lawrence Purse at Aqueduct.

Jimmy Combest cleverly rated the 3-year-old son Nashua and brought him home a half-length in front of Greentree Stable's Tutankhamen in the mile and one-eighth test. Ring Around, the 8-5 favorite of the 26,072 fans, finished third, a head behind Tutankhamen.

Injun paid \$8.20 and was clocked in 1:50 4-5.

Veteran Hedley Woodhouse booted home three longshots to share the honors with Injun. Woodhouse scored on Greek John (\$18.90) in the third; Polyady (\$15.90) in the sixth and Will To Live (\$36.60) in the eighth.

At Monmouth Park, Tommy Barrow rode Vox Pop, an 18-1 shot, to victory over Calumet Farm's Yorky in the six-furlong Satin Purse. Vox Pop returned \$39.40 and was timed in 1:10 3-5.

Rain Dance, with Jimmy Lynch up, paid \$5.80 after winning the Delaware Park feature; Hi-Lift won at Suffolk Downs, paying \$6.80; and Kenny Church piloted Lethal to a \$10.80 payoff at Arlington Park.

# Houston Colts Report Signing Of 83 Players

HOUSTON (UPI) — The Houston Colts, scheduled to join an expanded National League next year with New York, today revealed that they have spent \$500,000 during the past six months in payments to free agents.

So far the Houston Sports Association, holder of a 1962 franchise for the city, has signed 83 players. The Colts organization includes some 200 scouts and three farm teams.

George Kirksey, vice president of the HSA and acting general manager of the Colts, said 17 of the players signed were given bonuses in five figures.

**SIGNS WITH PISTONS**  
DETROIT (UPI) — Ray Scott, a 6-9 forward who was with Allentown (Pa.) of the Eastern Basketball League the last three years, has signed to play with the Detroit Pistons next season.

# First National Little Leaguers Win Over Kist

First National Bank Little Leaguers defeated Kist 11 to 8 last night in a game played at Optimist Park.

Winning pitcher was Billy Stull and the losing pitcher, Gary Johnson.

Leading hitters for the Bank team included Ricky Manard with a single and two doubles, Lynn Heller a single and double and Herman Waite with a single and two-bagger. For Kist, Tommy Henly and Jim Brown each turned in a single and a double.

First National came through with 12 hits and Stull held the Kist nine to six.

Kist staged a three-run rally in the fifth inning but First National stopped it three runs short of tying the score.

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to go to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments; the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

**SUBSCRIPTION RATES**

Price for single copy 5¢ daily, 10¢ Sunday. No mail orders accepted in localities served by carrier. Published daily except Saturday by the Pampa Daily News, Atchison at Somerville, Pampa, Texas. Phone MO 4-5225. All departments. Entered as second-class matter under the act of March 3, 1879.

## Advance To The Rear

Rep. John R. Pillion, New York Republican, borrowed the House Public Works Committee's room as a forum the other day and asked the press to spread wide his call for the greatest of all public works — total war.

He offers a resolution declaring war not on Russia or Red China but on the 98 Communist parties of the world, which he asserts are the real enemy.

He doesn't think the American people know what the Communists have been up to these past four decades. So his declaration, which he doesn't expect Congress to pass, is designed to wake them up.

Meticulously, he spelled out the Communist cold war devices.

In 1934, Pillion was a city judge in Lackawanna, N.Y. Before him came a drunk reliever, who happened also to be a Communist. A battery of Red lawyers showed up, ready to fight the drunk's case. Pillion dismissed the case, destroyed the man's chance for martyrdom.

He cited also his opposition to

Hawaiian statehood on grounds of Communist infiltration there, and his refusal to sign a petition years ago for the release of the late Earl Browder, Communist leader then under arrest on a charge of falsifying his passport.

His resolution proposes no specific on strategy and policy. "That's for later," says the author, when the country is alert to the fact there are some Communist conspirators around who mean to make trouble for the free countries.

Generally he proposes that we match the Red "weapons system" — subversion, infiltration, propaganda and guerrilla activity.

Congressman Pillion's warning probably will be rejected, just as similar counsel has been tossed aside in the past. It is difficult to understand, however, how the American people can continue to ignore the great peril they are in when international communism continues to advance as fast as the commissars can consolidate the gains.

## Move Carefully

The employee should be as careful in choosing his boss as the boss should be in choosing his employee. The rule even applies in marriages.

## War On Marxism

About ten years ago, Professor Walter W. Heller, then of the Economics Department of the University of Minnesota, toured Western Germany, including Berlin. With him was a team of Marshall Plan economists.

They were in Germany to assist the Germans in outlining a program which would get them on their feet.

Professor Heller and company, looking over the ruins, the teeming population and the complexity of the problem, came up with this advice: inflation, lower interest rates to encourage borrowing, government intervention to spur the economy, opposition to any depreciation allowances for tax purposes. There it was.

Even today the State Department refuses to release the report turned in by Professor Heller and his colleagues in 1951 after a three-month study. However, Professor Heller has obligingly written numerous articles and made any number of public statements so that his thinking as a result of his study of the German economy is fairly well known.

What did the Germans do about Dr. Heller's advice? They promptly discarded it, turned to the free market and free enterprise and today are the marvel of the world. Indeed, under their extremely sensible policies, only recently this nation had to ask them for financial aid to keep their own profligate foreign aid program going.

And once again, with marvelous self-control and good sense, the Germans refused to help us and to abandon good sense. But chapter two in the life of Professor Heller is now being written in much larger letters. For he is now President Kennedy's top economic adviser. Nor does it take any particular insight to glimpse at once just what kind of advice he is dishing up for the new administration.

Once more, with disregard for the facts of production and enterprise, Heller is suggesting inflation and the employment of "every tool" government can get its hands on, in an effort to "encourage" the economy.

The difference between this nation and Western Germany is that our political leadership is listening to and following Professor Heller whereas the German political leadership had the good sense to ignore him.

Under the influence of Heller and others of his persuasion, this nation has now embarked upon a full-scale socialist program. And one of the gravest tragedies we have seen is the apparent fact that many are being drawn over

## Looking Sideways

By WHITNEY BOLTON

NEW YORK — Every time someone, who has just pressed his black suit for the funeral, tells me that the theater is going to die by tomorrow night at 9:17, EDT, I don't take it seriously because I know he means the overweighted, over-spiced 1908 model of American theater that is trying to operate in 1961 and that is not the beginning or even the end of the theater in the United States. The United States seems with theaters of all kinds at all levels and although the theater of Broadway as we know it may die or become a permanent invalid, theater is not going to die in the United States and is growing by the year.

There is that magnificent new Paul Baker Theater in Dallas, there is local theater in 167 cities and towns, there is university theater, there is summer theater, winter theater, all kinds, in large barns and even larger tents, in college buildings and in special buildings designed and created just for theater.

The University of Washington has three theaters right in Seattle and may be it has four. I know of three. The theater in the round, the rooftop theater and the regular theater. All in one college. Michigan has theater at Ann Arbor, Illinois has theater. Dozens of them have theaters.

Purdue has the Purdue Playshop and it is undertaking an experiment. William Saroyan and Howard Bay have become actors in residence. Saroyan will literally "make" a play while there. He will soak up the campus, the area around, look over the students and start putting together a play using these ingredients. The play will be presented at the university's Lobb Playhouse next December and Bay, who has designed more than 100 Broadway productions, will do the sets.

Baylor University in Waco, Texas, has a theater in which the orchestra seats swirl like office chairs. There is a main stage dead ahead and a playing area on each side along the walls, thus giving the theater in effect three stages, one flowing into the next one so that action is continuous and the physical layout invites staging experimentation, like the celebrated "Hamlet" that was done there. The audience swivels the seats around to left, to right or looks straight ahead, depending on where the action is taking place.

In Saroyan's case at Purdue, he will lecture on playwrighting to students as well as giving public lectures on contemporary theater, thus sharpening community interest in theater.

Washington, D. C., has its celebrated theater-in-the-round, from which several of today's top young Broadway players have come.

Add to the Purdue story—it will do 15 full-length plays during the next academic year—a terrific amount of work, a gigantic amount of planning, yet those who have seen the Purdue shows say that they are of the highest production quality.

It simply is not possible to sustain the thesis that the theater is dying in the United States. Rather, it is flourishing. You can pry yourself away from the conviction that the only theater worth looking at is the Broadway theater. It is a long chalk from being the only theater in America worth looking at. State by state, theaters rise like forests and do good plays with sound, smooth, professionally able productions and have no need of Broadway at all.

We need not fear that the theater is dying in the United States. In truth, it is burgeoning. It is only Broadway that is choking itself to death.

Asia possesses less than one-third of the earth's arable land although it has more than one-half of the world's population.

## Their Propaganda Value Is Used Up — Down South

**Allen - Scott Report: Tax Refund on \$1.2 Billion In Property Seized by Castro Depend on Dillon, Boggs Bill**

**ROBERT S. ALLEN**      **PAUL SCOTT**

WASHINGTON — A virtually unknown bill is putting Treasury Secretary Dillon on the spot on what to do about tax refunds to U.S. nationals for \$1.2 billion in property confiscated by Fidel Castro.

Since the ill-fated April invasion, some \$400 million in such corporation and individual claims have been filed with the Internal Revenue Service.

Applications for tax refunds for the remaining \$800 million apparently are awaiting a ruling by Dillon under existing law, or congressional action on that unnoticed bill.

Sponsored by Representative Hale Boggs, D-La., third-ranking member of the Ways and Means Committee that originates tax legislation, the measure is patterned after a World War II law granting tax relief to Americans for property losses resulting from that conflict.

Under Boggs' legislation, Castro's property seizures would be deemed "casualties" and entitled to tax rebates.

Dillon has taken no stand as yet on either this bill or the tax refund claims.

However, that is now expected later this month. This has been indicated to Representative Wilbur Mills, D-Ark., chairman of both the Ways and Means Committee and the Joint Committee on Taxation.

The latter is crucial in this backstage situation because it must approve refunds exceeding \$100,000.

In effect, that gives congress the final voice on whether hundreds of U.S. corporations and individuals shall receive tax compensation for the millions in property grabbed by Castro.

Should Dillon endorse Boggs' measure, Mills is ready to hold committee hearings without delay to speed congressional action at this session. If the Treasury head turns it down, there is little likelihood the legislation will get anywhere.

It is known Dillon is discussing the matter with President Kennedy.

**INNER COUNCIL SPLIT** — Top Treasury authorities are at loggerheads over both tax refunds under existing law and Representative Boggs' bill.

One group favors both. It contends tax rebates can be granted without further legislation, but considers enactment of Boggs' measure advisable to eliminate any question about the matter and also to get Congress' stamp of approval.

Other Dillon advisers challenge these opinions on a number of grounds. One that present laws bar such tax refunds because Castro has said he will pay for the confiscated property with long-term bonds — although not a single one has yet been forthcoming.

Another is that tax rebates under either existing law or Boggs' bill would open the way for Castro or another Cuban regime to refuse to pay for the seized property.

Boggs has a number of constituents vitally interested in his legislation. Foremost — among them are United Fruit, Standard Fruit and Freeport Sulphur whose extensive Cuban properties were expropriated by Castro.

**IN THE LAND OF FIDEL** — Yuri Gagarin, Russian cosmonaut, will attend the 26th of July celebration of the Cuban revolution — according to word being put out by the Castro foreign office.

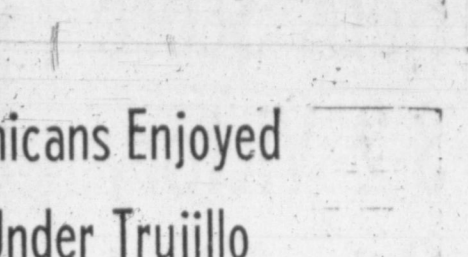

## Pegler Says: Dominicans Enjoyed Life Under Trujillo

By WESTBROOK PEGLER

NEW YORK — The Dominican Republic under the great benefactor, Generalissimo Trujillo, was the best country on earth from the standpoint of the practical well-being of the people. I have thought of excepting Switzerland, but there are reasons why not. The Swiss workers get relatively low pay and complain bitterly that their few rich people are stingy and greedy, as I agree. However, the Swiss are healthier than most other people and similar in aspect and appearance to the Danes. They are, by and large, to be envied even by many Americans, the more so

## Hankering

By HENRY McLEMORE

SPOLETO, Italy — This hill town is one of the most beautiful and historic in Italy, and it has a world famous music festival, too, but it isn't for monuments of the past that we visit it now and then. Or because we want to mingle musically with Menotti.

We make the few hours ride from Rome for the sake of our stomachs. We don't shut our eyes to the sights, no, and we are appreciative of the Umbrian countryside with its mountains, hills, valleys and plains, lakes and rivers. But it is food that is on our minds as we roll along the main highway between Rome and Spoleto.

Spoleto has fine food. It isn't very well known for its food. Certainly not in the way Bologna, Naples, Rome, and Ancona are. Indeed, guidebooks pass lightly and quickly over Umbrian food, and this is a mistake.

There are independent men in the present Congress. But they are too few. The White House is counting on those Senators and Representatives who bend under presidential pressure. Unfortunately there are many such men in Congress, and a distressingly large number of them come from Southern states.

The need, therefore, is twofold: (1) To let the "weak sisters" feel the heat from the homefires; to let the wavering Congressmen realize that an alert and conservative public has an eye on their votes.

(2) To organize to replace those Congressmen who consistently vote for welfare statism.

There is no shortage of men qualified and willing to go to Congress to stand up for the real principles of this republic. Old-line hacks, who obey the demands of the New Frontiersmen, can be replaced. In Texas, a 35-year-old conservative college professor took the Senate seat that Lyndon Johnson had occupied for years. What was done in Texas can be done elsewhere in the South.

Americans often fail to realize the powers vested in Congress by the U.S. Constitution. For example, presidents have gotten into the habit of launching limited wars, whereas under the Constitution only Congress has the right to declare war. Indeed Congress, by means of a joint declaration, can alert the world as to what are the real beliefs of the American people.

Some years ago, Congress made such a joint declaration with respect to Formosa. There's nothing to stop Congress from issuing a similar declaration with respect to Red Cuba or other

lesterol end product and others, like greyhounds and other lean organisms, little or none.

So, in keeping with these concepts, we urged our readers to continue to indulge themselves with bacon and eggs for an occasional breakfast and with a thin spread of creamy butter so long as they kept their weights at or below their normal levels.

A pair of recent investigations tends to give strong backing to our stated principles, and their acceptance may yet restore the nest egg to its former place of affluence.

A team of workers at the Rockefeller Institute, experimenting with various amounts of protein, carbohydrates and fats in human diets, observed that the level of fats in the blood (lipemia) was most often determined by the manner in which the body converted carbohydrates (sugars) to fat and least often by an inherited lack of deficiency of the enzyme that digests fat in the body.

Thus, the determinants were, in the first instance, the carbohydrates of the diet; and in the second a hereditary factor. Indeed the levels of blood triglycerides (which play an important role in fat metabolism) were lowest on a diet that contained 70 per cent fat and highest on one that contained no fat.

I'll conclude this discussion in another column.

Our country showed Trujillo no appreciation for standing guard against communism although 20 years ago he could have done just as Castro of Cuba has done recently. He imitated Mussolini and Hitler in his self-adulation in print and on the radio. But Latins are funny and the Italians and Dominicans came to believe the extravagant praise of their dictators, or anyway to accept it without sneering or objecting. It was risky to sneer or object, but beyond that fact these people realized that Trujillo had done good things for them and their country. He had wiped out crime and disease and provided good education in good school buildings and sufficient work at sufficient pay. George Schuyler, the eminent colored journalist of Pittsburgh, and New York, recently noted that the assassination was not a popular coup. The people truly mourned their loss and the trick was done by a white collar element to remove not a tyrant but a rival.

# Bozo, Famed Clown, Stricken With Cancer

HOUSTON (UPI)—Bozo the Clown is fighting for his life today because he neglected to take the advice he gave to help save his million of little partners and buddies.

He has cancer of the bone and lungs. Doctors say he will probably never clown in the big time again.

It is a grim twist of fate that made Bozo exchange his grease paint and red and blue full-length costume with a ruffle for a hospital gown.

For the past few years he has been doing charity performances, including many for the American Cancer Society. On these and on many of his television shows, he would conclude by saying:

"Bye, bye, and be sure to have your doctor check you for cancer."

Bozo's real name is Edwin Cooper. He was born at Arlington, Tex., on July 16, 1920, and now makes his home in Houston. His father and grandfather were Bozos before him. He started clowning at the age of nine, and for 18 years performed with Ringling Brothers and Barnum & Bailey.

When Ringling Brothers folded the big top several years ago, he went to work doing benefit performances. It was at a performance in Madison, Wis., several weeks ago that a doctor told him he had better return to Houston for tests at M. D. Anderson Hospital and Tumor Institute.

Bozo said he had noticed his voice had been getting huskier and huskier.

"But I was too busy making people laugh to give it much thought," Bozo said. "I guess I've made a billion people laugh."

And he probably has. Bozo has

## Food Shortages In Cuba Blamed On U.S. Policy

HAVANA (UPI)—Premier Fidel Castro blamed the United States government today for growing food shortages in Cuba, but he sent an Independence Day greeting to the "American people."

He said his regime plans an industrialization program with help from the Communist nations which will make President Kennedy's aid program for Latin America look like "a joke."

In a three-hour television-radio appearance, Castro also blamed the Americans for the collapse of the tractors for prisoners negotiations charging that the United States was afraid the tractors would aid Cuba's "advancing" agrarian reform.

In his greeting to the American people, he said:

"We salute first of all the Committee for Fair Play for Cuba. We also salute the Freedom Riders for their courage in facing the racists of the United States, and we salute the maritims workers who struck against salaries of misery and against Mr. Kennedy who just applied the Taft-Hartley law to them. Mr. Kennedy was characterized in the

What do we mean when we say that in the United States we have a "government of law" and not a "government of men"? Basically we mean that we have certain individual rights, guaranteed by our federal and state constitutions and laws, which may not be denied by any governing body.

The early American colonists had their fill of government by men, and the Declaration of Independence, signed 185 years ago, set out their complaints against that type of government and revealed their belief in a principle which we now accept as basic to our American way of life.

The indictments set out in the document against King George III of Great Britain charged him with numerous violations of that principle. Among the complaints enumerated are the following:

"He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people."

"He has obstructed the administration of justice, by refusing his assent for laws for establishing judiciary powers."

"He has made judges dependent upon his will alone, for the tenure of their offices, and the amount and payment of their salaries."

"He has refused his assent to laws, the most wholesome and necessary for the public good."

"He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his assent to their acts of pretended legislation: For depriving us, in many cases, of the benefits of trial by jury; For transporting us beyond seas to be tried for pretended offences; For taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments; For suspending our own legislatures, and declaring themselves invested with

power to legislate for us in all cases whatsoever."

Our forefathers who subscribed to the principles of the Declaration of Independence were willing to fight for their beliefs. The Revolutionary War followed, dragging through weary years of suffering and suspense. Each of us takes pride in their eventual triumph over gigantic obstacles.

In 1787, when the framers of our Constitution met at Independence Hall in Philadelphia, where the Declaration of Independence had been signed 11 years previously, they set to work to create a system of checks and balances in government which was to perpetuate the fundamental theory mentioned in the preamble of the earlier document:

"We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness."

"That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed."

Some 5 years later, the first ten amendments to our Constitution were adopted at one time, specifically detailing various basic civil rights stemming from the underlying theory of the Declaration of Independence.

Our courts day by day guard these rights for us.

## Summertime - and the savin' is easy!

It'll pay you plenty to pad over to your Chevrolet dealer's One-Stop Shopping Center and get in on all the excitement there. Because Jet-smooth Chevrolets are outselling every other make of car, he's able to turn on the savings like nobody else in town. Have him fit you with an elegant Impala, a popular Bel Air or a budget-wise Biscayne. Or maybe with one of those six sweet-going, cargo-craving Chevy wagons. Just bring along your desire to own a lot of car at an easy-to-own price. Chevy and your Chevrolet dealer will look after the rest nicely, thank you. **Jet-smooth Chevrolet**

**Impala Convertible**  
Wonderful way to take advantage of the weather—and your dealer's summer savings.

Save-a-bundle buys on Corvairs, too! The climate couldn't be better for getting into one of these agile Chevy Corvairs. For the time's come to save a bundle on the car that's a bundle of fun. Yesirree, juicy July buys on the Monzas with their family-stylé sports-ear spirit... on the nimble, nickel-nursing Corvair 500's and 700's... on the 6-passenger Lakewoods with their winning, wagonly ways... and, of course, on those able-bodied Greenbrier Sports Wagons that give you up to twice the space of regular wagons. Need more be said? Your Chevrolet dealer is the man to talk to.

See the new Chevrolets at your local authorized Chevrolet dealer's One-Stop Shopping Center.
