Congress Speeds Action On Arms Measures Requested By President

Bills Presented To Hike Budget, Call Reservists

WASHINGTON (UPI) — Congress today began speeding President Kennedy's defense buildup into law, and it appeared that the President would get more than he asked.

Chairman Richard B. Russell, D-Ga., called Defense Secretary Robert S. McNamara for testimony before a closed session of the Senate Armed Services Committee. Russell said he hoped the committee could approve two facets of the President's program today.

Introduced only Wednesday, the two measures would give the President the power he requested to call up to 250,000 ready reservists to active duty and would provide about \$958,57,000 in authority for purchase of planes, ships and missiles.

Russell said he thought the two measures could be approved Friday in the Senate. He said he did not believe there was "substantial opposition" in Congress to either of the plans.

Chairman Carl Vinson, D-Ga., planned to have the House Armed Services Committee consider the two measures Friday, with House action tentatively scheduled for Monday.

While Congress was working on the legislative proposals, the administration launched executive actions. The Defense Department announced it was boosting the Army draft call from 8,000 to 12,000 in August, and will bring draft calls and officer procurement to 20,000 men in September.

Quick congressional action also was promised on the bill carrying money to finance the new program. Chairman A. Willis Robertson, D-Va., said he expected the subcommittee to act Friday on the House-approved \$43 billion defense money bill, adding about \$3.5 billion for the newly requested programs.

Robertson said the full Senate Appropriations Committee could act on the bill Tuesday with Senate passage possible later in the week. Final version of the bill would then be drafted in a Senate-House conference committee.

That final bill appeared almost certain to give the President more than he requested. Both the Senate and House have authorized money for long-range bombers which the administration did not request and does not want. Strong sentiment also exists in both houses for rapid development of the B70 supersonic bomber.

Rodeo Group Banquet Set For Tonight

Past presidents and retiring directors will be honored tonight at the Top O' Texas Rodeo Association's directors banquet in the Starlight Room of Coronado Inn.

The past presidents to be honored include Wade Thomason, W. D. Price, Paul Crouch and Bob Andis. Jake Osborne is the current association president.

Five retiring directors also will be honored tonight. The following will be presented with certificates as honorary directors: R. E. Arey, A. L. Mills, Coy Palmer, Joe Looper and Fred Thompson.

Charles Robinson will preside at tonight's banquet session, scheduled to get under way at 7:30 p.m. The invocation will be given by Floyd Watson.

Dinner music will be played by Maxine Milliron at the organ. Special entertainment will feature the Four Flats, comprised of Jerry Baxter, Jerry Nichols, Pete Lewis and Tom McPeak.

Guests will be introduced by E. O. Wedgworth, manager of the Pampa Chamber of Commerce and the honorary directors' certificates will be presented by President Osborne.

Spending Slash On Home Front Urged By GOP

WASHINGTON (UPI) — GOP congressional leaders pledged support of President Kennedy's Berlin program today but demanded that the administration make belt-tightening cutbacks on domestic spending.

They said Soviet Premier Nikita Khrushchev could make "no greater error" than to believe the United States would "point a weapon but not be willing to fire it."

But House Leader Charles A. Halleck told a news conference that in the 54 days since Khrushchev put Kennedy "on notice" regarding Berlin, "the administration has not lifted one finger to halt the vastly increased spending program of the new frontier."

"We have arrived at the day of reckoning," Halleck added in a statement approved by the House and Senate Republican leadership. "I say it is time for the new frontier to find out what it can do for government—sound government."

He urged that Kennedy send Congress a message "proposing cutbacks on domestic spending." He said the President "owes the American people some substantive reciprocity and while the ordinary citizen is tightening his belt, let the government do the same."

Senate GOP leader Everett Dirksen echoed Halleck's statement and in a prepared statement of his own pledged GOP support of the President's firm Berlin stand.

"Let it be clearly understood that President Kennedy has the complete support of the Republican leadership in Congress in the Berlin crisis," he said. "If differences should appear, they would be on how to uphold our Berlin commitments, not whether to uphold them. We are all aware that the issue is not a city named Berlin, but free world unity."

Reds In Guiana Prompt Warning

WASHINGTON (UPI) — Sen. Thomas J. Dodd, D-Conn., said today the United States should act at once to forestall threat of a Communist takeover in British Guiana.

He said Secretary of State Dean Rusk should consult immediately with the British on the implications of next month's elections in Guiana, a British colony moving swiftly toward independence.

National Parks Hearings Start

WASHINGTON (UPI) — The House subcommittee on national parks scheduled a hearing today to conclude taking Interior Department testimony on a bill to create a national seashore preserve on Padre Island.

Conrad Wirth, national parks director, and two assistants were called as witnesses.

70,000 Men Already In Draft Pool

WASHINGTON (UPI)—Stepped-up draft calls to bolster America's muscle in the Berlin situation probably will not disrupt the college plans of many young men, a Selective Service official said today.

"We feel that going to college is very important to the nation's future," the official said. "Those who want to go to college probably will be permitted to do so. Selective Service does not now plan to put any great pressure on college-bound youngsters."

There are about 70,000 men classified as 1-A who have been examined and are in the draft-ready pool ready for induction. These can be used to meet immediate Defense Department draft needs.

There are about 1.5 million who have not yet been examined. Selective Service normally gets a rejection rate of 50 per cent, which means that about 750,000 men would be available for induction as soon as they are examined.

The Selective Service officials said that as draft calls are issued, the rate of volunteers for the armed services goes up. He said it was possible that some youths would quit school to volunteer, but he did not believe many would do so.

The draft call for August, originally set at 8,000, was increased late Wednesday by the Defense Department to 12,000. There has been no official call yet for September draftees, but Defense Secretary Robert S. McNamara said the need would be at least 20,000 for that month.

Strategy Group Will Coordinate Allied Planning

WASHINGTON (UPI) — An American "task force" planned to leave today for Paris to begin coordinating Allied political, military and diplomatic strategy against Soviet efforts to force the West out of Berlin.

Officials described this as a significant move in President Kennedy's plan to seize the diplomatic initiative from Soviet Premier Nikita S. Khrushchev while also strengthening the Allied military front.

In addition, the "task force" expected to explore with the major U.S. Allies the possibility of economic reprisals against the Soviet bloc if the Russians further tighten the screws on Berlin.

The diplomatic group, headed by Assistant Secretary of State Foy D. Kohler, will confer in Paris with British, French and West German officials. Included in the Kohler group, which was scheduled to leave at 2 p.m. CST, were representatives of the defense and treasury departments.

These working-level Allied meetings will prepare the way for the Aug. 5-7 conference in the French capital of Secretary of State Dean Rusk and the British, French and West German foreign ministers.

The outline of the Allied diplomatic offensive on Berlin was expected to begin to take shape at the conference of the Western foreign ministers.

Let us show you how to get more miles from your tires. Our address is 411 S. Cuyler. Pampa Safety Lane, MO 4-5771. Adv

Soviets Worry About East German Troops

BERLIN (UPI) — Western intelligence experts believe the Soviet Union is worried about how much loyalty they would get from the 110,000-man East German army in a fight over Berlin.

At a glance, East Germany's armed forces appear well-equipped with modern Soviet weapons to meet combat conditions of the atomic battlefield.

They are composed of a seven-division army, a small air force and a small navy.

On June 17, 1953, when East German workers revolted against the Communist regime, the "Barracks People's Police" — forerunner of the "People's Army" refused to crack down on them.

Russian troops, part of the 400,000 men the Kremlin has stationed in East Germany crushed the rebellion.

Similarly in Hungary in 1956, soldiers of the "People's Army" not only refused to fight their own countrymen but turned their guns on the Russians.

Western experts believe this has the Communists more anxious than they will admit.

Call By JFK Stirs Nation

By United Press International

The young ones who have come in to volunteer seem to be more indignant about our airplane in Cuba than about Berlin. They want to go in there and bring back that airplane.

They seem to understand that better.

Fallout shelters are a No. 1 topic at civil defense centers. CD director Col. U.N. James at Birmingham said he would "need an adding machine to get the total number of inquiries. The calls started before 7 a.m. and have been continuous all day." Pittsburgh civil defense reported a "terrific" number of calls numbering in the hundreds. The normal load is 10 calls a day.

Public figures and legislatures wired the President their support. The Texas Senate voted to "congratulate the President of the United States for his great leadership." Maryland Gov. J. Millard Tawes said "the citizens I spoke to today in Maryland are ready to back the President to insure peace in the world."

Similar reports came from Birmingham, Atlanta, Des Moines, San Diego and perhaps the nation's best known recruiting center in New York's Times Square. A St. Louis Air Force recruiter said there generally is a few days' delay between inquiries and enlistments. "Business will definitely pick up," he said. Another spokesman predicted "a week or so" before a flurry of actual enlistments.

Many callers were interested in how much they would have to do for their country, and how soon. Sp. 4 Thomas Lucas at the Pittsburgh enlistment center said dozens of questions involved reservists' status.

"Apparently the people are a little shook up," Lucas said. "Mothers were asking about their sons. Girls were asking about their boy friends. Some were veterans of World War II and Korea asking about how — or if — they could reenlist."

A Birmingham Marine recruiting sergeant said "lots of boys who've missed the draft so far are all of a sudden worried." In Detroit, 25 men applied for the Navy Wednesday.

Age appeared to alter the outlook in Memphis, a Marine recruiter said. "I don't think it has really sunk in with the younger people yet," Sgt. L.G. Eaves said.

State Economy Program Urged

AUSTIN (UPI) — A hostile Senate committee plans to wrap up testimony today on the House's version of a 2 per cent sales tax as a move gains steam in the lower chamber to economize rather than pass more tax levies to pay state bills.

Sen. Wardlaw Lane, chairman of the Senate committee, has indicated that his group will substitute its own sales tax bill for the one written in the House, probably late this week.

He said it will be similar to the one recommended in the regular session and killed by the House in the final minutes.

The House bill applies to items costing more than \$5, while the Senate proposal would tax items of 25 cents and up.

Sen. Bruce Reagan of Corpus Christi soundly criticized the \$5 deductible feature of the House bill.

"It is indecent," Reagan said. Rep. Charles Ballman of Borger, meanwhile, said he thinks the House has already passed enough tax bills. He challenged the legislature to "show the people of Texas we can come up with more money without raising taxes."

"Let's get with it and economize," Ballman said. He outlined

Farm Plan Presented To House

WASHINGTON (UPI) — The House was ready to begin voting today on President Kennedy's pared-down farm bill, which supporters claimed would save hundreds of millions of tax dollars and at the same time raise farm income.

The Senate approved the legislation Wednesday night after defeating a Republican attempt to kill a section limiting 1962 feed grain production. House GOP members were expected to make a similar effort today.

Before passing the bill, the Senate struck down a provision granting farm cooperatives broader authority to merge with and acquire noncooperative businesses.

The legislation, as approved by the Senate, includes the administration's programs to cut the 1962 production of surplus wheat and three feed grains — corn, grain sorghums, and barley.

Sen. Estes Kefauver, D-Tenn., led the fight to eliminate the provision giving farm cooperatives broader economic powers. It was defeated on a 50-39 roll call vote.

Other congressional news: Spending: Republican congressmen pushed their demands for President Kennedy to cut his domestic legislative program to offset increased defense costs. The GOP Congressional Campaign Committee set the theme for the party's attack by declaring Kennedy must decide whether to equip Uncle Sam with "a Santa Claus suit or military khaki."

Berlin: House members are agreed that President Kennedy is on the right track in his get-tough policy on Berlin. But they couldn't make up their minds Wednesday how best to express their approval. House leaders today pondered how to get a resolution endorsing the Kennedy policy approved after Rep. Michael A. Feighan, D-Ohio, objected to a unanimous consent agreement on it. Feighan said the resolution was not enough.

Inquiries Deluge City Draft Board

Although no special orders have come through since President Kennedy's military buildup message to the nation night before last calling for a sharp increase in the August draft call, the Pampa Selective Service Board is ready for any emergency. Mrs. Kathleen Zmotony, board clerk, said today.

The local Selective Service Board offices in the Frazer Bldg., 114½ W. Kingsmill, have been swamped yesterday and today with calls from registrants wanting to know about their status.

The President's remarks about the draft call increase in August triggered a deluge of inquiries, Mrs. Zmotony said.

The local draft board, which serves Gray, Roberts, Wheeler and Donley counties, had a regularly scheduled call on July 14 for two men to be sent to the Amarillo induction center Aug. 15, which was followed in a few days by a notice to increase that call by five times to 10 men on the Aug. 15 date.

On July 20 the local board got a call to send all volunteers for pre-induction physical examinations on July 26. Two men went to the Amarillo induction center yesterday.

Draft officials said the calls from the local board have been low for the past several years. It has depended upon the number of volunteers and enlistments. Each volunteer and each enlistment cuts down the number of men to be called in the regular draft.

Mrs. Zmotony said the inquiries coming in now have to do mostly with registrants who wish to bring their files up to date.

"It is important," the draft board clerk said, "for registrants to bring their files up to date. We need to have current information

Men Of 36th Ready If Kennedy Issues Call

NORTH FORT HOOD (UPI) — Maj. Gen. Carl L. Phinney, commanding general of Texas' 36th National Guard Division, has no doubts about his men.

Phinney, an attorney from Dallas in civilian life, said the officers and men under his command are ready now to make a defensive stand in Berlin if necessary.

He said that the division probably would need a minimum of eight weeks to train in an emergency, but it would make some sort of a defensive stand today.

"It is presently at 66 per cent combat strength of 13,748 men.

SERVICE CALL ANSWERED — Four area men are shown boarding a bus this morning for the Naval Training Center at San Diego, Calif. All of them volunteered for armed forces service and are at the front of what may be a larger group of young men who will soon leave for military duty. In the picture are, left to right: James Arnold Barton Jr., Pampa; Thomas M. Charbonneau, Waco; Kenneth D. Denham, Shamrock and Charles D. McCloud, Skellytown. (Daily News Photo)

East Germans Now Must Stalk By Machineguns

BERLIN (UPI)—The East German army was reported today to have thrown up machinegun road blocks along highways in an effort to slow the flow of refugees to the West.

Travelers to Berlin said that in addition to roadblocks, East German army patrols equipped with walkie-talkies were roving the highways leading to Berlin, both east and west of the city, making thorough traffic checks.

In the past, inhabitants of the Communist zone traveled to East Berlin along these highways and then crossed into West Berlin and freedom. The checks were believed designed to stem this flow.

It was the first time the Communists were reported to be using units of their 110,000 man "people's army" in support of regular police to curb the flow of refugees.

Travelers said that on the 10-mile highway from Berlin to Dresden three roadblocks were set up to check traffic. Lines of East Germans as long as a half-mile were reported backed up awaiting clearance.

The troops were reinforced by Communist squads. One traveler said 12-man squads of police were traveling on open trucks.

Despite Red moves to curb the refugee flow some 1,000 more East Germans today requested asylum in West Berlin. This raised to about 26,000 the number this month.

Shaving Material Taken By Thieves

COLUMBUS, Ga. (UPI)—Police are looking for some clean-shaven thieves. They stole 10,000 razor blades and 72 cans of shaving cream from a truck here.

Pilots Concerned By Possible Call To Flight Group

DALLAS (UPI)—Two pilots of the 36th National Guard Division said yesterday that they are concerned about a possible general callup of the division in the Berlin emergency.

The pilots are Lt. Carl Burleson of Mineral Wells and Lt. Joseph C. Johnson of San Antonio. In civilian life, Burleson is a helicopter flight instructor and Johnson is a consulting civil engineer.

Their division is on active duty for its regular summer two weeks' training at North Fort Hood. They fly a single-engine L19 observation plane for the 36th Aviation Co.

They flew into Dallas and back to Fort Hood yesterday as couriers. Burleson said he doubts Russia wants all-out war now because the "Russians have been doing so well piecemeal without firing a shot."

Johnson said he doubts if there is a general war it will be nuclear or atomic.

"After all, we did not use gas in World War —," he said.

There were printed reports last week that the 36th is one of five divisions President Kennedy will call up. Kennedy did not mention any particular division in his speech Tuesday night.

Kennedy asked Congress however, for permission to call up to 250,000 reserves for a year's active duty, again without naming particular units.

Call To 20,000 Men Scheduled For September

WASHINGTON (UPI) — Defense Secretary Robert S. McNamara told Congress yesterday the Army will boost draft calls and officer procurement to "at least 20,000 in September" as part of President Kennedy's program to build up the nation's defense force.

McNamara also disclosed that the administration plans to strengthen U. S. forces in Europe by bringing units of the 7th Army to their full authorized strength and by sending, "if the situation warrants it," additional support units.

His outline of the administration's new \$3.5 billion money request was included in an unclassified summary prepared for presentation to a Senate appropriations subcommittee. He was to provide additional classified data behind closed doors.

The subcommittee is considering the House-approved \$43 billion defense money bill and will incorporate the new requests into its version of the bill. Eventually the final program will be drafted by a Senate - House conference committee.

When the British captured it from the Dutch in 1664, New York had a population of only 1,000.

Expert Suggests Careful Review Of Investments

NEW YORK (UPI) — Alan C. Poole of Hemphill, Noyes & Co. thinks we will not get through the year without some sort of crisis over Berlin serious enough to have a significant effect on the stock market.
He recommends a careful review of one's investment holdings for protection in the event of a radical change in market trends.
Poole feels the chances of declining investor confidence are highly probable during periods of uncertainty and this drop in confidence could result in lower stock prices.
Unless the international situation deteriorates still further, or some other bearish factor is suddenly introduced, there seems to be little danger that a really extensive decline will get underway, according to Kenneth Ward of Hayden, Stone & Co.

The Alexander Hamilton Institute says it would not dispose of investment grade stocks, but would be very careful in making new commitments, avoiding the eastern falls and speculative issues still selling at high-price earnings ratios.
Insofar as the technical pattern of the market is concerned, the list still remains within its broad trading range and the longer it is confined to this area, the broader the base becomes, according to Martin Gilbert of Van Alstyne, Noel & Co.

Lawman Awards Are Presented At State Meet

MCALLEN (UPI) — The 1961 Abe Susman-Texas Lawman awards were presented yesterday at the Texas Sheriffs' Association convention at McAllen to seven men.
The winners were: W. R. Long, Denton, game warden; Hansford County Sheriff J. B. Cooke, Spearman; Swisher County Deputy Sheriff Gary Gerdes, Tulia; Department of Public Safety Inspector John H. Hollyfield, Austin; Dallas County Deputy Sheriff B. L. Johnson, Dallas; Sgt. W. E. Cain of the Bonham Police Department and former Crosby County Deputy Sheriff J. D. Robertson of Crosbyton.
Lewis Berry, executive secretary of the Sheriffs' Association, announced the winners; Susman, a Dallas businessman, sponsors the annual awards with the Texas Lawman magazine.
The winners each will have a choice of 18 firearms.
Webb County Sheriff Porfirio Flores of Laredo also received recognition at the meeting. Flores has been named national police officer of the month by Master Detective magazine. He was presented a certificate by the president of the association, Hidalgo County Sheriff E. E. Vickers, Edinburg.

STUDENTS STRIKE

CALCUTTA (UPI) — Two hundred students Tuesday staged a sit-in strike at Calcutta University to call attention to \$1,000 high school graduates who cannot find places in the university.

Walter Rogers Reports

Victory Won In Blocking Changes In Labor Board

One attempt of bureaucracy to gain more power over the American people was effectively blocked on July 20th. A plan to reorganize the National Labor Relations Board was defeated by a vote of 231 yeas to 179 nays. This was a signal victory in several respects. First it was a victory against the trend toward centralized government. Secondly, it was a victory against the use of executive powers to indirectly amend statutes. Third, it was a victory against the repeated attempts to veto judicial powers in Civil Service employees. It could also be documented as a victory over procedural complexities and complications which sometimes effectively confuse whether to design or not.

In order to vote against the proposed plan, it was necessary for

the Member to vote yea. Here is the way it works. Under the Reorganization Act of 1949, the President submits to the Congress a reorganization plan setting forth the organization which he proposes. This plan is received by the Congress. If the Congress does not disapprove the plan within sixty days, it becomes effective. In other words, Reorganization Plan No. 5 of 1961, proposing to reorganize the National Labor Relations Board, would have become effective sixty days after May 24, 1961. So, you can see, we had a very narrow escape. The Resolution before the Congress is a Resolution to disapprove the plan submitted by the President. Hence, if you are against the plan, you are for the motion and if you are for the plan, you are against the motion. In other words, in order to vote no, I had to vote yea. Perhaps this complicated procedure will be of some help in answering the age-old questions of when is black white, or why are blackberries red when they are green.

This is a brief resume of the procedural complications involved. These, however, are minor as compared to the complexities and complications with which the rights, privileges, powers, and immunities of the individual were ensnared and entwined in the sub-

stance of Reorganization Plan No. 5. There has been a long, continuous, and strong effort by the boards and bureaus to gain more power. One Member of Congress summed this up by saying that a general never had a big enough army, a preacher never had a big enough congregation, and a bureaucrat never had enough power.

This particular reorganization plan was advertised by its proponents as designed for the purpose of streamlining the procedural difficulties and getting quick results for parties having business before the NLRB, and they were sincere in their efforts. But, we must not lose sight of the fact that matters before the NLRB, like matters before other regulatory agencies, involve many more issues than the need for a quick decision. A man who might be hung is not too interested in a quick decision, especially one that could short-cut him out of some of his rights.

In my opinion, the basic strength of this government lies in the separation of powers as provided in the Constitution. That is, the three branches of the government: Legislative Executive; and Judicial — each intended to be a safeguard against the others. It has been encroachments by one branch of the government into the powers of another which has caused many of our present-day problems. I have specifically in mind a number of actions by the Supreme Court in recent years. If Congress permits the Executive Branch of the government to follow such a practice, there would soon be no need for a Legislative Branch.

Reorganization Plan No. 5 appeared on its face to provide ample review of all proceedings. However, a close examination of the plan review of all proceedings. How proposal, together with existing law, painted an entirely different picture. Had this proposal been adopted, it would have been possible for a Civil Service employee (not appointed by the President, not confirmed by the Senate, enjoying all of the benefits, rights, and protections in the Civil Service Act — including job protection — not answerable nor respon-

sible to anyone other than the Board under which he was serving, to render a decision (involving the rights and privileges of a great number of people, involving millions of dollars, and affecting the lives of countless individuals) that would not be reviewed by the Board created to make these determinations, and a decision which the courts would be powerless to overturn. This seems to be a rather all-encompassing statement but it is, nevertheless, true.

The vesting of powers should always be weighed on the scales of what can be done by its improper use, rather than what might be done by its proper use.

VISITORS

Visitors from the Panhandle this week included Mr. and Mrs. Willis Hawkins and their grandchildren Quincy and Vicki Lynn from Hart; Mr. Ernest Kelly and children Mike and Patricia from Borger; Mr. and Mrs. H. T. Cooper; Mr. and Mrs. H. T. Cooper and son Tommy from Tulia; and Mr. Lowell Harrison from Canyon.

NO TROUBLE

LONDON (UPI) — When a tiny "bubble car" stalled in the Rothenther Tunnel beneath the Thames River Tuesday, other motorists simply picked it up and carried it out of the tunnel.

SIGN FOR BOUT

NEW YORK (UPI) — Doug Jones of New York, the second ranking light heavyweight, will meet Von Clay of Philadelphia in a 10-round nationally televised fight at Madison Square Garden Aug. 26.

KEY CLUB PRESIDENT — H. Andru Turk, 17, a member of the Key Club of Gainsville High School of Gainsville, Ga., was elected President of Key Club International as a climax to the 18th annual convention of the organization held in Philadelphia in mid-July.

One of the world's largest open pit copper mines is located at Sarita Rita, N.M.

New Youth Conservation Corps Program Favored

WASHINGTON (UPI) — The House Education and Labor Committee today approved a bill to set up a new 12,000 member Youth Conservation Corps which would double the number proposed by President Kennedy.

The corps, organized along the lines of the Civilian Conservation Corps of the 1930s, would be one of three programs for young men and women provided by Kennedy's "youth opportunities" bill. As changed by the committee, the three-year program would cost \$386 million. Kennedy had asked for \$225 million.

The other programs would provide federal aid for on-the-job vocational training for youths 16 to 22 and a so-called "domestic peace corps" for boys and girls who would aid in civic and local government projects. These two

programs would provide opportunities for 25,000 youngsters per year.

NUDE BURGLAR

NEW YORK (UPI) — Police wrapped up the case of the nude burglar early today.

Detectives said a man broke into Mrs. Pauline Fischer's home when no one was in Tuesday night and apparently became so hot while riffling for valuables in the summer heat, he took off his clothes, helped himself to a few drinks and settled in an easy chair.

When Mrs. Fischer's son returned home, a neighbor told him something strange was going on and he called police. They arrested Frank Russo, 57, and led him to the police station wrapped in a woman's housecoat.

Water Authority Hearing Ordered

AUSTIN (UPI) — The State Supreme court has ordered a Haskell County district court to try a case challenging the constitutionality of a law creating the North Central Texas Municipal Water Authority.

The high court decision reversed lower court rulings that a group of taxpayers did not have the right to question the legality of the authority.

J. E. Walling and other taxpayers brought suit against the board of directors of the authority seeking to prevent them from levying and collecting taxes.

One of their arguments against the authority was that the legislative statute creating it was unconstitutional. Both trial and appellate courts said such suits could only be brought by the state.

The Travers Stakes at Saratoga Springs, N.Y., first run in 1864, is the oldest stakes race in the United States.

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

A new element is entering the Berlin crisis.

It suggests new trouble for Nikita Khrushchev, and grave decisions by the Allies as well.

It is the human element, which must give nightmares to dictators but to which every world leader must give consideration.

As the flow of East German refugees through West Berlin continued and reached an unprecedented high of 22,000 in the last month, headlines reported East German unrest at a pitch unequalled since the 1953 revolt.

For 18 years East Germans have had only to look across the barbed wire and the minefields dividing East and West to see the contrast between oppression and freedom, misery and growing plenty.

Under the ordinary, extraordinary circumstances of the cold war, Khrushchev might have expected his latest ultimatum against Berlin to follow a reasonably prescribed course.

This would involve the customary threats, followed by a stern Allied reaction, to be followed in turn by a conference of foreign ministers and possibly by another summit. In this course of events, he might also expect another of the small, nibbling successes which effectively have ad-

vanced Communist frontiers in Europe and Asia.

East German resistance to communism has ranged from the passive resistance of the forcibly collectivized farmers to the flight of more than three million others whose desperation drove them to abandon belongings and loved ones.

In between was the revolt of

Mr. and Mrs. Alton Hunt of Portales, N.M. spent last week here with her relatives.

Mr. and Mrs. Henry Hink, Mr. and Mrs. Harold Sivage attended an ice cream supper in Kelton Saturday night in the Methodist Church in honor of Rev. L. W. Davidson Jr. of Florida who is visiting here.

Mr. and Mrs. Loyd Weatherly, Danny, Tammy and Donna recently visited in Hobart, Okla. with Mr. and Mrs. Kirby Weatherly and new baby son. Kirby is employed by a newspaper in Hobart.

Mrs. Clarence Holdeman and Mrs. Audie Atherton were business visitors in Canadian recently.

Mrs. Cecil Richerson returned home Saturday after spending a week in Lubbock with Mr. and Mrs. Bill Helton and family. The Bill Heltons are the parents of a new baby son. Mr. and Mrs. Cecil Richerson, Mr. and Mrs. Tom Helton of Briscoe are the grandparents.

Homer Moss of Borger was a business visitor in Wheeler recently.

Mr. and Mrs. A. C. Johnson of Kelton spent Sunday afternoon with Mr. and Mrs. Harold Sivage.

Mr. and Mrs. Rudolph Balusek, Danny and Mary Ann of Kilgore, Mrs. E. P. Joiner of Mangum were visiting friends in Wheeler recently. Mrs. Balusek is the former Bernice Joiner who made her home in this vicinity for a number of years.

Guard Troops Heard Kennedy's Talk In Silence

NORTH FORT HOOD, Tex. (UPI) Men of the 36th Infantry Division of the Texas National Guard sat silently in the field Tuesday night, huddled around portable radios listening to President Kennedy's talk on the Berlin crisis.

There had been speculation that the T-Patchers, on two week's annual active duty, might be frozen because of the international situation... their active duty extended because of the crisis.

"It was as if the chaplain was talking," Capt. Henry W. Johnson Jr. of Houston said. "They sat there and listened in reverence."

Johnson, a World War II combat veteran, said generally the guardsmen were not surprised at what the President had to say, and not too many of them actually believed they would be mobilized immediately.

Staff Sgt. Wesley Pryor of Katy said he felt it would be better to give the guardsmen at least a 30 day notice so that they could take care of matters at home.

"I'm ready now if they want me," he said. "And I'll be ready later if they need me."

Capt. Russell L. Thomason of Texas City said he liked the way

the president is handling the situation.

"President Kennedy showed he is not responding to hysterical pressure, but he is planning to take whatever measures are necessary," Thomason said.

NOISY PIGS
DARLINGTON, England (UPI)—Fifty families have complained to local civil and police officials that they cannot sleep at night because of 20 pigs which snore at night in a nearby field.

Venezuela, Cuba

Relations Problem Grows Precarious

CARACAS, Venezuela (UPI)—Venezuela said Tuesday night its relations with Cuba had become "precarious" because of the political refugees given asylum in the Venezuelan embassy in Havana.

A communique charged Cuba's revolutionary government with deliberately withholding safe conducts for the refugees to leave Cuba. At present there are 205

Cubans, including former President Manuel Urrutia, housed in the Venezuelan embassy.

The statement was released in connection with the Cuban charge d'affaires in Havana; Alfonso J. Zurbaran Trejo, who returned to Caracas Monday night.

The Cuban government accused Zurbaran of violating the rules of asylum. It said he picked up prospective refugees with an embassy car and permitted those in asylum to use embassy telephones and some to leave the embassy in official cars to attend secret anti-Castro meetings.

Teach Teenager Good Nutrition, Cookery Skills

In many homes today our teenagers are not "helping out" in the kitchen as much as they did in former generations. Today's smaller family, modern kitchen equipment and conveniences have often lessened the need for teenagers to assume responsibilities of this kind.

But the fact still remains that some day your teenage daughter will have a home of her own and must take over in her own kitchen. Home economics classes in junior high and high schools are helping with this training, but there is much nutrition and cookery education that can and should be taught by mothers in the home.

Here is a plan offered by Reba Staggs, home economist. Let your daughter be the "boss" in your kitchen one day a week as a training course. . . say on Saturday or Sunday. This actual experience can be invaluable to her. You can work out menus together, then let her do the grocery shopping for her day. While she prepares the meals, you can be on hand in another room to answer any questions.

Advertisement

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX. You must lose only fat in 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies or chewing gum. ODRINEX is a tiny tablet an easily swallowed. When you take ODRINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions, because ODRINEX depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX costs \$3.99 and is sold on this GUARANTEE: If not satisfied for any reason just return the package to your druggist and get your full money back. No questions asked. ODRINEX is sold with this guarantee by Richard's Drug Store, 111 N. Cuyler, Mail Orders Filled.

Use Canned Beef Broth For Barbecue Sauce

With an enthusiastic chef (Dad, of course), a fireplace or portable grill, and . . . most important . . . a good barbecue sauce, you're on the right path to a successful barbecue.

Early in the day, Mother, you can prepare the sauce . . . made with canned condensed beef broth and pantry shelf seasonings and marinate a flank steak in this spicy sauce . . . for extra flavor and juiciness . . . so it will be grill-ready for Dad.

When the appointed supper hour arrives and the coals are glowing with the right degree of heat, Dad's all set to broil the steak, turning it often and basting with sauce. In short order, the meat's ready. Carve it into thin diagonal slices and for extra good eating, serve in toasted buns with some of the remaining sauce spooned over.

With a selection of garden-fresh relishes and an icy cold drink, it's three cheers for another barbecue meal soon.

Spicy Barbecue Sauce

1/2 cup chopped onion
1 large clove garlic, minced
2 tablespoons salad oil
1 can (1 1/2 ounces) condensed beef broth
1/2 cup ketchup
1 tablespoon brown sugar
1 tablespoon Worcestershire
2 teaspoons prepared mustard
1/2 teaspoon leaf oregano, crushed

Cook onion and garlic in butter until onion is tender. Stir in remaining ingredients. Cook over low heat about 15 minutes or until sauce is slightly thickened; stir now and then. Makes about 1 1/2 cups sauce.

Flank Steak (Outside): Prepare sauce. Score a 1 1/2 to 2-pound flank steak; cover with sauce and place in refrigerator for 1 hour. Remove from refrigerator and let come to room temperature. Place steak on grill about 4 inches above glowing coals. Cook 12 to 15 minutes brushing with sauce and turning often. Heat remaining sauce and serve with meat. Makes 6 to 8 servings.

Thrifty Dishes Control Budget

Every thrifty homemaker has certain favorite economy dishes she can depend upon to keep the food budget under control. And it often happens that these economy meals are among the most flavorsome and satisfying.

The less demanded cuts of meat offer the shopper a good chance to economize. These cuts are usually less tender and require longer cooking, but they are flavorful and high in food value. Reba Staggs, meat expert, rates beef short ribs as a choice for meat dishes to meet these requirements. Short ribs, as the name implies, are cut from the rib ends of the plate section.

Since they are a less tender cut, short ribs are cooked in moist heat, that is, by braising. They are browned and with water added, are cooked at low temperature in a covered pan until done. Vegetables may be conveniently cooked with the meat, and take on new flavor. To avoid overcooking the vegetables, they should be added to the meat about 45 minutes before the end of the cooking time.

When meat and vegetables are done, remove them from the pan and thicken the liquid for gravy.

Short Rib Dinner

2 pounds beef short ribs
1 teaspoon salt
1/2 teaspoon pepper
2 cups water
4 medium onions
4 medium potatoes
4 medium carrots
Flour
Brown short ribs on all sides. Pour off drippings. Season. Add water, cover, simmer 1 1/2 to 2 hours or until tender. About 45 minutes before the end of cooking time, add potatoes, onions and carrots. Thicken liquid for gravy. 4 servings.

The flavor of honey varies with the flowers from which the bees gather the nectar.

Coffee Mist Perfect Summertime Cooler For Lowering Temperatures

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Coffee makes perfect summertime coolers. For example, Coffee Mist:

To make, pour strong coffee into old-fashioned glasses filled to top with crushed ice. Top with twist of lemon peel. Use espresso coffee, if you prefer.

VIENNESE VELVET
For six servings: One quart of vanilla ice cream, five measuring cups of hot, double-strength coffee, whipped cream.

Place a scoop of ice cream in the bottom of each tall glass. Pour hot coffee carefully over the ice cream until glass is about two-thirds full. Add another scoop of ice cream and fill glasses with coffee. Garnish with whipped cream and a dash of nutmeg.

Use parfait spoons for the first half of the dessert-beverage. Drink second half.

INSTANT ICED COFFEE
In a tall glass, place twice as

much coffee as you would use for an average cup. Add cold water until the glass is about one-quarter full. Stir until coffee is dissolved. Add ice cubes to top, more water, and stir thoroughly.

QUICK DOUBLE-STRENGTH ICED COFFEE
Brew coffee double-strength by using half the amount of water to the usual amount of coffee. Pour hot coffee over ice cubes in tall glasses. The extra strong coffee allows for dilution.

Appealing Meat Dish Perks Up Meals And Helps To Solve Menu Problem

What can you serve the family that will be new and unusual? An appealing meat dish to perk up meals is prepared with beef round steak, cut into servings for individual rolls or birds. These rolls are unusual because their stuffing is smoked sausage link. The round steak is pounded to about 1/4 inch thickness so that the birds are more easily rolled, says Reba Staggs, home economist. The sauerkraut, tomatoes, and caraway

seeds are a continental flavor combination which more specifically may be credited to Germany.

GERMAN BEEF BIRDS
1 beef round steak, cut 1/2 inch thick
6 smoked sausage links
2 tablespoons lard or drippings
1 teaspoon salt
1 can (16 ounces) sauerkraut
1 can (16 ounces) tomatoes
1 medium onion, sliced
2 teaspoons caraway seeds
Pound steak to 1/4 inch thickness. Cut into six serving pieces. Place a sausage link on each piece of steak and roll like a jelly roll. Fasten with wooden picks or skewers. Brown meat slowly in lard or drippings. Pour off drippings. Season with salt. Drain sauerkraut and save liquid. Add tomatoes, onion, caraway seeds and liquid from sauerkraut, reserving sauerkraut to add later. Cover tightly and cook slowly for 1 hour. Add sauerkraut and continue to simmer 30 minutes longer or until birds are tender. 6 servings.

Nearly five thousand cans of evaporated milk are opened every minute of the day in home kitchens for preparing family meals, creaming coffee and making formulas for babies.

Evaporated milk is whole cow's milk concentrated to double volume by evaporation of part of the natural water content of the milk.

GLASSES FULL of summer pleasure feature coffee. From left: Iced Coffee; Viennese Velvet; Coffee Mist. M-m-m-m!

SLEEP BETTER

Drink Borden's Buttermilk at Night and sleeping's as Easy as 1-2-3

1 You'll sleep like a baby! Yes, Borden's Buttermilk gives you that "full", contented feeling doctors say is so important to normal, restful sleep.

2 Easy to digest! Indigestion, doctors tell us, is a prime cause of sleeplessness. A glassful of delicious Borden's Buttermilk reduces stomach acidity, so you can sleep better.

3 Cooling and refreshing! Every ice cold sip refreshes and delights you. Drink Borden's Buttermilk at bedtime and sleep better.

New Recipe Meat "Must" For Table

Pork and beans are old partners but when served as Pork Chops and Green Beans with a celery and dill flavor blend you'll be adding a new recipe to your file of musts with meat. Pork ribs or loin chops may be selected. To shorten preparation time the chops may be browned and the green beans defrosted in advance and stored in the refrigerator until ready to combine for baking. When the time comes to prepare the meal, mix together the defrosted green beans, the soup and seasonings. Put mixture into a casserole, top with browned chops, cover and bake.

Pork Chop-Green Bean Casserole

- 6 rib or loin pork chops, cut ¾ inch thick
- 1 tablespoon lard or drippings
- 1 teaspoon salt
- ¼ teaspoon pepper
- 2 packages (10 ounces each) frozen cut green beans, defrosted
- 1 can (10½ ounces) condensed celery soup
- ¼ teaspoon dill seed
- 1-3 cup milk
- ¼ teaspoon salt
- Brown chops in lard or drippings.

Season with 1 teaspoon salt and pepper. Mix together beans, soup, dill seed, milk and ¼ teaspoon salt. Pour bean mixture into a 2-quart baking dish. Arrange Pork chops on top. Cover and bake in a moderate oven (350 degrees F.) for 45 minutes, or until meat is done. 6 servings.

Before opening a can of evaporated milk or any canned food, wipe the top of the can with a clean, damp cloth. For pourable liquids, such as evaporated milk, punch holes on opposite sides of the can top.

Vitamin D is added to all evaporated milk now on the market. This nutritional boost aids the body in making the best use of the milk's minerals, calcium and phosphorus, in building and maintaining strong bones and teeth.

Evaporated milk is an American-born dairy product. The first manufacturing plant in the world was established here in the United States in the community of Highland, Illinois in 1884.

Calico Crab Dresses Up For Festive Appetizer Or Luncheon

Crab, like lobster, can be the base for a number of delicious and festive dishes. With excellent canned or frozen crab available and tasty packaged herb-seasoned stuffing on the shelf, dishes like Calico Crab have the additional advantage of being easy to prepare.

Attractive to look at and of delightful flavor, it will serve 6 as an appetizer or 4 as a main luncheon dish.

CALICO CRAB

- 1½ cups packaged herb-seasoned stuffing
- ¾ cup butter
- 3 tablespoons minced green onion tops
- ¼ cup flour
- 1½ cups milk
- 1½ cups frozen or canned crab meat
- 2 tablespoons chopped pimento

Roll the stuffing to make fine crumbs and mix the crumbs with ½ cup butter. Press this mixture firmly against the bottom and sides of a deep 8-inch pie plate. Sauté the minced onion tops in ¼ cup butter, add flour and cook for a few minutes, stirring constantly. Add milk gradually and cook, stirring, until the sauce is smooth and thick. Add crab meat, pimento, mustard, salt and pepper to taste. Stir in sour cream.

Turn the mixture into the prepared pie shell and bake in a hot oven (425-F) for about 10 minutes. Garnish with minced parsley.

Take Advantage Of Fresh Corn Now On Market

Plenty of fresh corn in the market now. It's delicious on the cob but why not use cut corn for a main course casserole. This baked corn pudding is an excellent accompaniment to slices of hot broiled ham, cold cuts, or savory pork sausage. To complete the menu, use garden fresh tomatoes, cucumbers and radishes, and crisp salad greens. For dessert for an informal meal, serve ice cold watermelon, or cookies you have made or purchased. For a more formal meal, serve a combination of frozen mixed fruit and fresh fruit in season.

BAKED CORN PUDDING

- 2 tablespoons finely diced onion
- 1 tablespoon salad oil
- 3 eggs

- 2 tablespoons flour
- 2½ cups rich milk, or light cream
- 1½ teaspoons salt
- ¼ teaspoon pepper
- Dash nutmeg
- 3 cups cooked corn off the cob OR
- 2 cans (12 oz. each) whole kernel corn
- 1 can (3 oz.) chopped broiled mushrooms
- 2 tablespoons minced parsley
- Cook onion in oil over low heat for about 1 minute. Meanwhile, place eggs, flour, milk, salt, pepper and nutmeg in bowl and beat until smooth with rotary egg beater. Add corn, mushrooms including broth, and parsley. Stir to mix well. Pour into a 1½ quart baking dish. Bake in preheated 325 degrees oven until sharp knife comes out clean when inserted in center, about 1 hour. Serve immediately. Makes 4 to 6 servings.

Refresh Family Spirits With Completely New Week Day Dinner

You can put everyone in fresh spirits by trying a completely new dish for a week day dinner.

Reba Staggs, meat cookery expert, offers an idea. It's called Ham and Green Bean Roll. Both ground smoked ham and ground pork give a spicy combination with bread crumbs, onion, eggs, parsley and mustard. The colorful filling pairs green beans and mushrooms.

The meat mixture is shaped into a square on waxed paper, spread with the filling and rolled like a jelly roll. The meat treat is baked in the oven for 1½ hours, then sliced for individual servings.

HAM AND GREEN BEAN ROLL

- 1 pound ground smoked ham
- 1 pound ground pork

- 1 can (2½ ounces) sliced mushrooms
- Milk
- 1½ cups soft bread crumbs
- 2 tablespoons chopped onion
- 2 tablespoons chopped parsley
- 1 teaspoon prepared mustard
- 2 eggs, beaten
- 1 package (9 ounces) frozen french green beans, cooked
- Drain mushrooms, reserving liquid. Add enough milk to the mushroom liquid to make ½ cup. Pour over bread crumbs. Add ham, pork, onion, parsley, mustard and eggs. Mix thoroughly. Place meat mixture on waxed paper and shape into a 10-inch square. Toss mushrooms and green beans together lightly. Spread evenly over meat.

Doomed Negro Fortune Teller Given Clemency

AUSTIN (UPI) — Maggie Morgan, of Houston, a Negro fortune teller, left death row yesterday and traded her execution number, 427, for a regular prison inmate number.

Gov. Price Daniel commuted her death sentence Tuesday to life imprisonment on the recommendation of the State Board of Pardons and Paroles.

Mrs. Morgan was scheduled to die in the electric chair Aug. 13 for her part in helping set up Mrs. Wilma Selby of Houston to be killed in 1939. Joseph Selby, an accountant was given life for plotting the murder and Clarence (Sack) Collins, the triggerman, was also given life.

Daniel said he granted the commutation of sentence because other defendants got lighter sentences for the plot. If Mrs. Morgan had been executed, she would have been the first woman to be electrocuted in Texas.

Catholic chaplain Arthur Kaler took her word on death row that her sentence had been commuted. She took the news calmly.

Daniel said he granted the commutation of sentence because other defendants got lighter sentences for the plot. If Mrs. Morgan had been executed, she would have been the first woman to be electrocuted in Texas.

Catholic chaplain Arthur Kaler took her word on death row that her sentence had been commuted. She took the news calmly.

Firm's Chief Loses Court Ouster Case

AUSTIN (UPI) Emery E. Shannon lost his case before the State Supreme Court today to prevent his ouster as president of Tank Cleaners, Inc., in Andrews County.

The high court said an injunction keeping Shannon in office was improperly granted by lower courts. But a trial court was left to decide whether another injunction would be necessary to keep Shannon from interfering with operations of the company.

Jesse R. Camp and other directors of the firm discharged Shannon from the presidency last October after a stockholders meeting elected a new board of directors that did not include Shannon. He challenged the legality of the election by contending the meeting should have been held Oct. 27 instead of Oct. 8.

The Supreme Court, in an opinion by Chief Justice Robert W. Calvert, pointed out that all stockholders of the firm were at the meeting and the election was proper despite by-laws calling for an annual meeting to elect directors on Oct. 27.

RAISE C.O.D. FEES

WASHINGTON (UPI) Virtually all C.O.D. mail fees will go up 10 cents on Aug. 1 to help cut down the postal deficit, Postmaster General J. Edward Day said Tuesday. Day said he did not need congressional approval to raise fees for C.O.D. packages.

Group At Plano Forms New Bank

AUSTIN (UPI) — State Banking Commissioner J. M. Falkner said today he has received an application for charter of the Plano State Bank.

Proposed capital of the Collin County Bank would be \$100,000 with surplus of \$100,000 and reserves of \$150,000.

Falkner said John Brodhead of Plano was projected as chairman of the board of the bank and C.L. McCuiston Jr. of Forney was projected as president and cashier.

Sub-Committee Receives Bill On Public Land

WASHINGTON (UPI) — The House Interior Committee today sent back to its public land subcommittee bills to reserve 5.6 million acres of the outer continental shelf of the Texas Gulf Coast for defense purposes.

The Navy and Air Force wanted to use the area for gunnery and rocketry training ranges.

Several oil companies objected to the reservation because they would be restricted in petroleum

Instruments, Gauges Now Major Industry

NEW YORK (UPI) — Instruments and gauges could become the glamour industry of the 1960s as electronics were in the 1950s, some Wall Streeters believe.

Measuring and detecting things, ranging from thick steel to subtle emanations and infinitesimal flaws, already has become one of the biggest industries in the country.

The Commerce Department says the manufacture of scientific instruments alone should grow to \$1.3 billion this year from \$1.1 billion last year. If you add in the industrial gauge and instrument field, some trade sources think the total is \$4.5 billion a year—and that's double the output of five years ago.

Even in the industrial field measuring standards have progressed from thousandths of an inch or a gram to millionths. And physical measurement in many fields is giving way to X-rays, radioactive detection, refractometers and sound wave measurement.

There are hundreds of companies in the instrument and gauge field.

Not long ago the financial week-end exploration and development.

The areas are known as the Matagorda and Corpus Christi ranges.

Rep. Gracie Post, D-Idaho, said she did not know when the bills would be reconsidered.

ly, Barron's, estimated that 2,000 useful new gauges and instruments appear on the market each year. The paper said a few years ago even big companies needed only a few really valuable or sensitive gauges and usually these were kept in the company safe at night. Now they are ordered by the scores and attached to production machines.

The big investment by industry in gauges, detection devices and

scientific instruments that, only a few years ago, would have been looked on by the practical factory man as delicate laboratory toys is paying off in huge savings in work hours and prevention of spoilage of materials and detection of flaws.

Government Files Desegregation Suit In Alabama

MONTGOMERY, Ala., (UPI)—The Justice Department today filed suit to desegregate the airport facilities at Dannelly Field, the municipal airport here.

Atty. Gen. Robert F. Kennedy announced that the suit was filed in federal district court at Montgomery, scene of "freedom rider" violence earlier this year.

The government complaint charged that segregation of the terminal restaurant, waiting and

restroom facilities and water fountains at Dannelly Field is both "unconstitutional and violates the Federal Aviation Act of 1958.

The suit named as defendants the city of Montgomery, its board of commissioners, and Ranch Enterprises, Inc., which operates the "white only" airport restaurant.

Dear Abby... Mom Should Take Back Seat At Wedding

By ABIGAIL VAN BUREN

DEAR ABBY: I am being married soon. My parents were divorced last year, but my father is paying for my wedding. I have planned it right down to the last detail, and I want it to be perfect. My problem is my mother. She is 38 and very beautiful. She bought herself a white organza dress that looks almost like my wedding gown. I showed her in the etiquette book where the bride's mother is not supposed to wear black or white, but she says the book was written 100 years ago, and she'll wear what she likes. Also, she wants to have as her "date" for the evening a man who is much too young for her. How can you tell your own mother what to do? I am terribly upset over this. Can you advise me?

UPSET BRIDE

DEAR BRIDE: YOU can't tell your mother what to do — but your clergyman can make some appropriate suggestions. Tell him your problem and enlist his help. Good luck.

DEAR ABBY: Your advice to "SWEET 16" was excellent but you were just giving advice from your own thinking. I can back it up with my own experience.

When I was 16 I also had a bad reputation, and ran with a fast crowd. I was lucky enough to convince my mother to move to another state. I had no friends, but I lived a good, clean life for four years and, when I was 20 I met and married a fine man. I want to tell "SWEET 16" this: I've been through it and, believe me, it's best to move away and not tell anyone about your past. Not even your husband. If he loves you, he won't ask. I've been married for ten years, and have kept my secret from my husband because I love him, and don't want to burden him with my guilt. I know God has forgiven me because He blessed me with a good husband and five healthy children. So now I've forgiven myself.

KEEPING QUIET

"Tacky" Party Given By Club

The Blue Flame Club recently entertained with a tacky party in the home of Mrs. Norman Henry 2314 Mary Ellen.

A gift for the "tackiest" costume was given to Mrs. Otto Carter. Second and third place winners were Mrs. Robert Schroeder and Mrs. Glen Knight.

Members attending were Mmes. Shelby Hood, Frank Hodges, Earl Hobbs, Johnny Hicks, Glenn Knight, Eugene Stubbs, Gordon Tryon, Roy Franks, M. Gilbert, Otto Carter, M. Fulcher, Richard Dillon, Lloyd Anderson, Bobby Sietz, B. J. Kennedy and Robert Schroeder.

Peace Corps Greater Challenge To Women

JERRY BENNETT
Newspaper Enterprise Assn.
WASHINGTON (NEA) — Signing up for the Peace Corps is no decision for women, especially those just out of school, to make on the spur of the moment.

So says Sally Bowles, 23-year-old daughter of Under-secretary of State Chester Bowles, an official campus booster of the new international aid organization.

"I believe that any girl should think very hard before making the decision to join," she says. But Sally takes her new spring hat off to those who do send in an application. She explains: "I think the Peace Corps a far greater challenge for women than men. It takes a remarkable woman to leave the country for two years and go to an area that is quite unknown to her."

Sally reminds younger women that joining the corps means leaving close friends and family and that being away for so long may require building new lives for

Sally Bowles

themselves upon returning to the States.

While overseas, women must learn to adapt themselves to many inconveniences they have never known before. "There's no corner supermarket in many places where they will be living," she says.

Sally warns that people in some countries may regard Peace Corps as oddities. Volunteers may create this impression in areas, particularly in Asia and Africa, where centuries-old customs have drastically limited women's activities. So natives may be highly suspicious at first of women who don't confine their work to the home.

But the brown-eyed Peace Corps promoter believes that living overseas for two years will be rewarding enough to make any inconvenience seem negligible. Also, the Peace Corps plans to create a special advisory board to help members find jobs when they return home.

Peace Corps service may qualify many women for interesting jobs with Uncle Sam or international organizations that they wouldn't have been able to obtain otherwise, Sally says.

"I wouldn't be a bit surprised if a number of women became suf-

ficiently interested in international relations to work for the government or United Nations."

Volunteers will also receive severance pay totaling \$75 for each month spent overseas.

So far, women ranging in age from 18 to 60 have shown themselves eager to join. Slightly less than half the applications received at Peace Corps headquarters here have come from women. Sally reminds, however, that enthusiasm alone is not enough to get accepted.

"Women must have skills that enable them to do things that the country where they are assigned needs. Nurses, teachers and possibly home economists will be in the most demand."

First women Peace Corps volunteers will be overseas by fall, Sally says.

In addition to having needed skills, women must be at least 18, have no dependents under 18 and be U.S. citizens. They must also be familiar with a foreign lan-

ASK THE DESIGNER by gaile dugas

Dear Gaile: This past spring I bought what I thought was a beautiful pink suit. It's beautiful no more. After one dry cleaning, it pulled at the seams. It also wrinkles easily, seems to have lost its shape and is raveling inside. It did have smart lines and was very becoming. But I simply can't afford such mistakes. I took the suit back to the dry cleaners and they said that it was not their fault. Then whose fault is it?—M. F. G.

Dear M. F. G.: This sort of thing happens to every one of us at some time but that doesn't make you feel any better, I'm sure. I took your problem to Alvin Handmacher, who has been mak-

ing beautiful suits for years. This is what he says:

"When you shop for a suit, look for quality as well as style. For instance, check for extrawide seams in both jacket and skirt, carefully stitched for clean line and accurate fit. Pleats should be generous, cuffs and hems deep. Another hallmark of fine suits is the hand sewing of buttons and shoulder pads. When you try the suit on, check to see how the jacket fits when every button is buttoned. Shoulders should be easy but not loose. Up and down wrinkles mean too loose and wrinkles across the back mean too tight."

"Walk about the fitting room. And very important, sit down. Here, a triple mirror is a real boon in exposing an ungraceful side or rear view. Remember, the secret of a long and happy life in a suit lies in a neat and uncluttered look."

Dear Gaile: It seems to me that I am always reading articles that say you should "plan" your wardrobe. But how can you, on a weekly pay check? I am a working wife. We have three children. Much of my pay check goes for essentials each week. What's left (sometimes) buys clothes for me. So how can I plan when things are like this? Please help me.—Mrs. R. J.

Dear Mrs. R. J.: This is an often heard complaint. I talked the matter over with designer Abe Schrader, who said:

"There are very few women in America who are fortunate enough to have enough money to plan their wardrobes in depth, in advance. Most Americans live on a budget. It is the American way of life. But even though funds are not adequate to provide for a well-organized seasonal wardrobe, there is a way to be well-dressed. First of all, remember that each item you buy should be well thought out and planned. Select a theme for your wardrobe; decide what type of person you are—tailored, soft and feminine or a bit of both. Select a color and plan your

Honor Award Given Auxiliary At State Meet

Following a salad supper given recently by the VFW Auxiliary in the VFW Hall, Mrs. Jess Beard, president, gave a report of the Department of Texas convention held in San Antonio. She announced that the Pampa Auxiliary had received a Certificate of Honor for having met all honor roll requirements specified by the National Auxiliary.

Mrs. Beard reported on other convention business which included election and installation of department officers and the dedication of the 50-star flag. She also reported that the Memorial Service and message was an outstanding event. "There were 220 auxiliaries from the state of Texas represented," she said. "Texas membership now totals 8,293 with three national officers from the state serving on the board."

During the business meeting, plans were made to hold a rummage sale in late August; the date to be announced later.

Mrs. Chester Williams was hostess for the salad supper held preceding the business meeting.

Members attending were Mmes. Jess Beard, George Benham, Elma Bailey, E. A. Henthorn, Frank Hudgel, O. F. Kreimeyer, William Leonard, E. Savage, J. H. Slater, A. L. Smiley, Vernon Stuckey, A. L. Walling, Chester Williams and Cora Yates.

wardrobe around it. For example, navy blue, or taupe or gray. Then buy one or two really good outfits each season. Alternate the winter wardrobe; one year buy an excellent coat; the next year, an excellent costume or suit.

"Remember, the way to be well-dressed is not to have closets bursting with clothes but, rather, to have a few clothes that are well constructed, flattering and worthwhile. Don't envy Jacqueline Kennedy an unlimited number of clothes; she envies your anonymity."

The Mature Parent

Act Like Grown-Up In Discipline Tiff

Dear Mrs. Lawrence: We've never done much spanking of our youngsters. The punishment we've used is depriving them of toys or something they like doing. It's always worked well until two weeks ago when I removed our oldest boy's bedside radio for a week because he wouldn't turn it off at bedtime. Now he says he doesn't want it back and to give it to his sister. My husband thinks we ought to do this.

ANSWER: Why? Because your youngster tells you to? When you decided to punish him by removing his radio, you also decided to end the punishment by returning it to him. How about sticking to that decision and letting him know that you're keeping it available to him.

He's angry, of course. He's letting you understand that your punishment was futile. By refusing to take his radio back, he is saying:

"So little did your removal of my possession affect me that I can dispense with it altogether." You mentioned his age as 14. That fits. He is challenging your power. You are being invited to engage with him in one of those very tiresome but inevitable child-parent power contests.

The young love to trap us into them. We somehow injure their sense of dignity — and at once they strike the heroic pose of little David marching bravely forth to contest with big, bumbling tyrannical Goliath. Before we know where we are, we're caught in the absurd position of having to flex our "authority muscles" and prove that we are bigger and stronger than they are.

Learn How To Fail Then You'll Succeed

NEW YORK (UPI)—Learn how to fail on the job. Then, you'll succeed.

The rule applies to workers in offices, hospitals, schools, stores, factories, gas station — almost any place where there's a staff of two or more and one's the boss.

Now the psychology behind the rule is this: Learn how to fail — so you won't. Once you know all the roads to failure, avoid them. Almost automatically, you'll succeed.

D. M. Harrison, assistant manager of the Veterans Administration hospital in Montgomery, Ala., is the egghead who concocted this prescription for success.

Harrison's rule for failure, published in the current issue of the Modern Hospital, include the following:

—When your supervisor asks you to do a particular duty, explain to him the many reasons it can't be done.

—Constantly remind your boss that you have been assigned too much to do, and that he is showing preference to your co-workers.

—Carry your feelings on your sleeve and take exception to everything anyone says to you.

Feel that the best methods for doing things have already been worked out, and never give thought as to how they may be improved.

—Always use four syllable words when talking and writing so others won't understand.

—Never discuss your problems with anyone else, or ask assistance in solving them.

—Leave home a few minutes late in the morning so you can arrive on the job a few minutes after starting time. And stop working a few minutes before quitting time so you can get an early start on the trip home.

—Push away from TV. To avoid eye strain, keep always at least six feet away from your television screen and don't concentrate too intensely on the picture. The room where you have your set should be neither too dark nor too light. Moderate, indirect light is best.

PUSH AWAY FROM TV

Mrs. Frank Totty HD Club Hostess

Mrs. Frank Totty was hostess to the Worthwhile Home Demonstration Club on Friday morning in her home, 2101 N. Dwight.

Mrs. W. G. Kinzer presided at the business meeting in the absence of the president, Mrs. Shelby Hood, president and Mrs. Lester Reynolds, vice president.

Roll call was answered with "What My American Heritage Means To Me."

Plans were discussed for a bake sale or rummage sale.

Mrs. O. B. Smith conducted a discussion of "What can we do to fight Communism?"

Refreshments were served by the hostess during the social hour.

It was announced that Mrs. N. L. Welton will be hostess for the Aug. 4 meeting at 9 a.m. in her home two miles east of the city.

Members present were Mmes. Boyd Brown, N. B. Cude, J. L. Carlton, Pearl Ferguson; D. W. E. Johnson, Jim Payne, W. G. Kinzer, Roy Tinsley, N. L. Welton, O. G. Smith, John S. Lyle, a new member. Mrs. Gussie Archibald was welcomed as a guest.

RUTH MILLETT

Newspaper Enterprise Assn. Listen Mama! So junior is throwing a fit because he has to take a "silly old girl" to a dance. Or sis is driving you crazy because she is still a tomboy while her young friends are busily experimenting with lipstick and getting fussy about their clothes.

All in their own good time (and in plenty of time, at that) junior and sis will willingly leave childhood behind them. What's the rush? Grownups who force a child to be social are likely to "teach the child to become a lonely member of a lonely crowd. Pressure of adults on children will not promote social growth," says Dr. Robert W. White of Harvard University.

and stubbornly refuse to fit in with mama's plans for their social development, then mama frets, stewes, worries, and pushes harder and harder. And to what purpose? Well, Dr. White puts it right on the line. If you invite a couple for a Dutch treat evening, make it clear doesn't make sis and junior well-adjusted and happy. Instead, it on-

PICTURE NEWS

AROUND THE WORLD

WARMED-OVER WAR—Preparing for the re-enactment of the Battle of Bull Run in Conshohocken, Pa., Cpl. Thomas Taylor packs a new iron cannon ball and black powder charge into the barrel of a rare Confederate 12-pounder howitzer. The 100-year-old cannon was test-fired with actual cannon balls for the first time since the Civil War.

WEATHER SATELLITE—Tiros III television infrared observation satellite, which is orbiting 450 miles above the earth, observes weather patterns and reports on the origin and development of hurricanes in the Atlantic and Caribbean areas. The RCA mechanism features wide angle cameras and a pair of omnibus directional infrared sensors.

PROFILES IN PROTECTION—These two soldiers are the first to receive the Army's new M-17 masks for protection against chemical-biological-radiological agents in Fort Richardson, Alaska, during a special combat training exercise and gas attack drill.

PRINCESS PASSES—Queen Juliana, of The Netherlands, congratulated her daughter, Crown Princess Beatrix (right) on passing an examination as candidate to the Juridical Doctorate in the University at Leiden.

LORELEI ROCK AND ROLS—Rehearsing with the breath-taking backdrop of the beautiful Rhine River Valley at St. Goarshausen, West Germany, actors and actresses prepared for an open-air presentation on Lorelei Rock. The legend says a young girl threw herself from the rock and changed into a siren who lured sailors to their destruction.

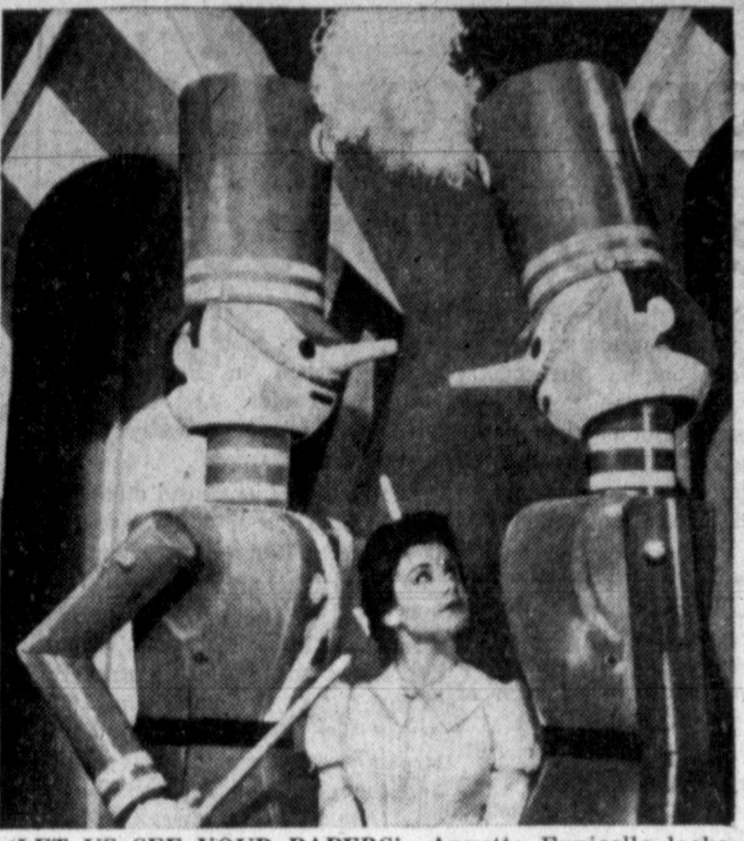

PRECIOUS STONES—In Rio de Janeiro, Maura Gonçalves displays handfuls of tourmaline, a precious stone rarely found in large quantities, after a fabulous strike of a million dollars worth of stones were found in southern Brazil.

WAITING FOR ROLL CALL—Waiting for the signal to unroll the red carpet for visiting dignitaries, three Vatican City workmen sit on it and gaze out into the piazza, in front of St. Peter's Basilica.

SPACE MA'AM—Can this be Indonesia's answer to Gagarin and Shepard? Roby Budiman has no intention of going into orbit. She wore the Indonesian Air Force pilot suit to a Jakarta costume ball and danced the night away in honor of Indonesian Women's Day.

'LET US SEE YOUR PAPERS'—Annette Funicello looks worried, now that the toy soldiers on the movie set of "Babes in Toyland" are so big. If she doesn't find the secret formula, she'll need a visa, quick!

HONG KONG ARTERY—Workmen recently applied the final touches to Hong Kong's newest highway, Lung Cheung Road, at a clover leaf section where the new road meets Tai Po Road. The \$700,000 two-mile highway, built to reduce traffic congestion in the downtown area, answers one of the truly universal world headaches.

THAT'S ENTERTAINMENT—Peter Erskine, 6, of Bargaintown, N. Y., is an honorary member of the American Federation of Musicians and ha's to practice in the pasture because the animals don't complain about the noise!

GRADUATION FLING—Rookie fireman Raymond C. Hayes jumps for joy as he celebrates graduation from a six-week Basic Firemanship course in Miami, Fla. Hayes jumped from the drill tower into a safety net held by his classmates.

NEEDLING SESSION—Porpoises' tender skins receive rope burns from the nets no matter how carefully they are handled, so all the newly-captured porpoises are given injections of antibiotics on arrival at the Miami, Fla., Seaquarium. This one is about to get the needle.

Another County Irked By Being Rated Depressed

By United Press International

Husk County joined Angelina, Gregg and Smith counties today in denouncing the federal government for listing them as depressed areas.

"Rusk county is one of the largest oil producing fields in the world," Charlie Langford, a Rusk County lawyer, said. "It looks kind of bad for the boys living on the bad land."

The Texas Almanac says Gregg County (Longview) is the state's first oil producing county and Rusk County (Henderson) is second.

The office of Sen. Ralph Yarborough, D-Tex., announced last week that 47 Texas counties had been named eligible for federal aid as depressed areas. Forty-two of them were in East Texas.

The Longview Journal said in an editorial Tuesday: "For Washington to brand Gregg County before the nation as an 'economic depressed area' is not only a gross error but a miscarriage of justice, bordering on slander."

An editorial in the Lufkin Daily News on the same day said: "Contrary to the federal designation, industrial payroll in Angelina County for 1961 will be the highest in history."

"There is no doubt some of the 47 counties... are in need of help... but if the bureaucrats of Washington are including counties like Angelina and Smith and Gregg and others, a lot of money will be wasted."

Memorial Fund Boosts Catholic Building Project

AMARILLO (Sp) - Several Pampa individuals and firms - friends of the late Roy E. McKernan, prominent Pampa oil man and civic leader who died on July 1 - sent memorials totaling \$1,168 to the building fund for the St. Ann's Home for the Aged.

McKernan's family had requested that memorials be in the form of contributions to the fund for building the St. Ann's Home at Panhandle, Bishop John L. Morkovsky of the Catholic Diocese of Amarillo said the home will be constructed as soon as funds are available. It will be perated by

available. It will be operated by the School Sisters of the Third Order of St. Francis, who also run the Children's Home at Panhandle.

The Rev. Norbert Kuehler of Amarillo, financial secretary of the Amarillo diocese, announced the following list of persons and organizations who sent memorials to the St. Ann's building fund:

Burnice Miller, Frank Smith, N. M. Boynton, Mrs. N. R. Thompson, D. D. Bovaird, Tulsa, Okla., Bob Carmichael, A. J. Beagle, N. L. Gunters, Crawford Atkinson, J. H. McCullough, Jerome E. Tarvie, the Overton Clinic, the Twentieth Cen-

Mrs. J. Gotcher, Cecil P. Buckler, Mrs. Clyde Fatheree, Hugh Barlette, M. K. Brown, Mr. and Mrs. Don C. Dilley, Borger, Mr. and Mrs. Wayne Howell, employees in the Rose Building. McKernan was a partner in the Murphy - McKernan Drilling Co. He had lived in the Panhandle since 1926 and was active in the St. Vincent de Paul Church and the Knights of Columbus. He also was active in civic affairs, having served on the United Fund Board, as chairman of the board of directors of Highland General Hospital and as a member of the Pampa Chamber of Commerce.

Mobeetie Personals
