## JFK Calls For Peaceful End To Berlin Row

## Pair Jailed For Series Of Thefts

## Sheriff Reveals 'Confession' By One Of Suspects

Sheriff Rufe Jordan today announced perhaps a score or more burglaries and safe robberies stretching from Denver, Colo., to Houston, Texas, had been cleared up with the arrest of two 22-year-old youths.

One of the accused men, who already has given statements to sheriff's officers here, is Jimmy Earl Parks, a native of Lefors. He is being held in Gray County jail under \$5,000 bond awaiting grand jury action on a burglary count.

## State's Solons Meet To Boost Pay Of Teachers

AUSTIN (UPI)—The Texas Legislature, assured its sales tax will become law, went back into special session today to take care of a pay raise the governor and many lawmakers promised public school teachers.

Gov. Price Daniel said Wednesday he would let the first sales tax in Texas history become law without his signature. It is a 2 per cent levy on most items costing more than 25 cents.

Daniel called the new 30-day special session for 2 p.m. for the sole purpose of enacting public school improvements, including a teacher's pay raise.

The sales tax was passed Tuesday night, minutes before the first special session died at midnight. It would raise \$316 million of a \$354 million tax package. The pay raise will take \$144 million.

Daniel said, "there is no longer time to re-fight the tax battle," that had lawmakers deadlocked for 170 days.

"Many of us who feel this way are forced to take the best bill that the present legislature could agree upon," he added.

The governor said he would file the tax bill with the secretary of state "promptly" and let it become law. It goes into effect Sept. 1.

"To do otherwise would be disastrous to the state of Texas," Daniel said. "After it is tried, it may be possible to correct some of the inequities which it contains."

He said because a majority of lawmakers have previously agreed to the pay raise, "this should be one of the shortest special sessions in Texas legislative history."

Two pay raise plans will go before the Legislature: The one expected to pass has the backing of the Hale-Aikin Study Committee. It raises minimum salaries \$810 a year.

## \$400,000 In Gold Sent To Germany

TAMPICO, Mexico (UPI)—A shipment of almost \$400,000 (U.S.) in gold left aboard a freighter bound for West Germany Wednesday. Local sources said West Germany, one of Mexico's heaviest buyers of silver, has purchased close to \$5 million (U.S.) in silver to date this year.

## Texan Confirmed As FPC Member

WASHINGTON (UPI)—The Senate Wednesday confirmed the appointment of Texas oilman Lawrence J. O'Connor to the Federal Power Commission after waiting out Sen. William Proxmire's 26-hour talkathon.

Proxmire left the floor after the Senate Commerce Committee told him that O'Connor had publicly promised to dispose of oil and gas holdings that might involve a conflict of interests.

A PLEASANT SURPRISE — Mr. and Mrs. Raymond B. Rempe of San Diego, Calif., were the first out-of-state tourists to become overnight guests of the city in the four day "Tourist of the Day" promotion sponsored by the Tourist Development Committee of the Chamber of Commerce. Mr. and Mrs. Rempe received overnight lodging, car service, flowers, meals and tickets to the Top O' Texas Rodeo. Yesterday afternoon's "arrest" was made by Chief of Police Jim Conner, left, and Deputy Sheriff Shirley Nichols. Today, Friday and Saturday, officers will be looking for other out-of-state tourists traveling through Pampa, and they in turn will become guests of the city.

## Pampa's Jaycees To Honor State President Friday

Louis Timberlake of Stamford, president of the Texas Junior Chamber of Commerce, is visiting Jaycee clubs in the Panhandle region and making his headquarters in Pampa.

The state president will be honored by Pampa Jaycees at a 7 a.m. breakfast in Coronado Inn Friday, according to Bennie Shackelford, local president.

Shackelford said Timberlake was a luncheon guest of Hereford Jaycees this noon, will be in Dalhart tonight, Pampa Friday morning, Perryton Friday noon and Borger Friday night.

Timberlake then will leave for Plainview to attend the Junior Chamber of Commerce Tri-Regional convention there Saturday and Sunday.

The state president is being accompanied on his trips through the region by Gene Hollar of Pampa, state vice president.

Mrs. Timberlake and their two children, Brad and Terry, are remaining at the Coronado Inn in Pampa and will be guests of Pampa's Jaycees at tonight's Top O' Texas Rodeo performance.

A delegation of Pampa Jaycees also will leave Pampa Saturday for the Plainview tri-regional convention.

Let us show you how to get more miles from your tires. Our address is 411 S. Cuyler, Pampa Safety Lane, MO 5-5771. Adv.

## 'Khrushchev' Is Loser In Pampa Rodeo Event

By JOE LEE SMITH Daily News Staff Writer

Troy Robinson of Borger touched "Khrushchev" for \$200 Wednesday night as the first go-round of the 17 annual Top O' Texas rodeo was completed, with winners named in seven events.

Robinson snatched a \$200 ticket from the neck of "Khrushchev," a big black Brahma bull, in the "Gold Rush" Contest. Whereas, only five cowboys made a try for the money opening night, some 20 or more participated Wednesday night.

"Khrushchev" had a rougher time than did "Fidel Castro" of the previous night, as one cowboy got a grip on the Brahma's tail and held on while other contestants swarmed the bull before Robinson snatched the prize ticket.

Cowboys had a better go with the stock in Wednesday night's performance as the times improved in timed events and the riders found riding easier in judged events.

Perhaps the best performance of the evening came from Ed Sims of Post in the calf roping event. A lefthander, Sims, roped and tied his steer in 9.8 seconds and drew a big applause from the crowd.

Fritch's Bob Law brought the crowd to its feet and received a favorable round of applause as he bulldogged his steer in 12.2

seconds, the best time in the first go-round bulldogging.

Again the calf scramble delighted the fans and four calves were collared by Hemphill County boys. Winning the calves were Joe Schaefer, Benjie Eckles, Wyman Post and Frank Robbins. Robbins had a tough time with his stubborn steer. Frank threw a headlock on the calf and after getting

## U.S. Senate May Pass Sky Piracy Bill Today

WASHINGTON (UPI)—The Senate, its rage cooled somewhat by the return of the second U.S. jetliner hijacked to Cuba, planned to act today on a proposal to let juries sentence sky pirates to die.

The seizure of a Pan American DC-8 jetliner over Mexico Wednesday by a French-Algerian who forced the pilot to fly it to Havana sent senators into a burst of impassioned oratory.

Some of them demanded an embargo backed by arms and another suggested the U.S. send in the Marines, the Air Force and the Army.

But Senate Democratic Leader Mike Mansfield, Mont., and GOP

## Nuclear Weapons Test Ban, Curb On Airliner Hijackings Also Urged

WASHINGTON (UPI) — President Kennedy today renewed his call for use of every possible means to bring about a peaceful solution of the Berlin crisis. The President told his news conference he did not consider Soviet Premier Nikita S. Khrushchev's recent speech to the Russian people as any change in the stand the red leader already had taken in their talk at Vienna.

He promised that in the coming months "we will use every device available to us" to settle the Berlin problem peacefully. While he did not go into specifics, Kennedy said it is America's "strong conviction . . . that every diplomatic measure should be employed."

As to whether there should be an East-West summit meeting, Kennedy said he still feels that none would be useful unless adequate groundwork were laid. But he said that if a summit meeting of Western leaders should prove desirable, he would "be prepared" to join in one.

The President, appearing for the most part quite relaxed in contrast to his grim mood at his previous news conference three weeks ago, made these other points to the record-high attendance of 433 reporters:

He cautioned against getting "over-excited" about plane hijackings before complete information is in. But he called for international action to prevent such incidents in the future and announced that hereafter the cockpit doors on American commercial planes would have to be locked from the inside, and that a number of Border Patrolmen have been ordered to ride on flights.

He is sending chief negotiator Arthur Dean back to Geneva Aug. 24 to resume "decisive" nuclear test ban talks with Russia. He said he has received a special scientific report which has made him "feel more urgently than ever" that only the type of inspection system proposed by this country can guard against secret testing.

He hailed Britain's decision to join the European common market.

He revealed that he has entered into an agreement with Vice President Lyndon B. Johnson similar to the one former President Eisenhower had with Richard M. Nixon, spelling-out conditions under which the vice president

would assume powers when the President cannot physically "fulfill his constitutional functions."

He said Sen. J. William Fulbright "performed a service" in challenging propaganda activities of military officers. He said that military leaders must be kept "removed from political life" not only to protect civilian control of the armed forces but also to prevent "exploitation" of uniformed officers.

The President is "very satisfied" so far with progress of the

inter-American economic and social meeting in Uruguay. He said the free world must keep its sights trained on such efforts because "that is where the great struggle is going on" against communism.

The administration, he said, has asked for all the money and is devoting as much scientific effort as it can possibly use to the space effort, and the United States is "making a maximum effort." But the Russians will continue.

(See KENNEDY, Page 6)

## Theft Of Plane Reported 'Mortifying' To Castro

MIAMI (UPI)—The FBI said today it will charge a globe-trotting graduate of European reform schools with crimes on the high seas for hijacking a Pan American World Airways jet plane and taking it to Cuban Premier Fidel Castro.

Castro, described as "mortified" over the seizure of the big DC-8 on a flight over Mexico Wednesday, sent the plane and its 80 occupants back to the United States Wednesday night.

Left behind was the hijacker, Albert Charles Cadon, 27, an itinerant artist from Paris who said he hijacked the American passenger plane to protest Washington's "handling" of the Algerian crisis. He was placed under arrest at Havana by militiamen.

The FBI said Cadon, born in France, had worked as a restaurant employe in New York City recently. The agency said his wife, Charlotte, of 339 East 9th St., New York, told federal agents Cadon had been committed to Bellevue Hospital for mental observation last fall and later released. He had a quarrel with his wife in New York last week and told her he was going to Mexico on a bus, the FBI said.

Castro's quick return of the \$6 million plane was believed due to the presence of a high Colombian diplomatic official among the passengers and because Pan American is the only U.S. airline still serving Cuba.

The Cuban premier still holds a \$3.5 million Eastern Airlines Electra hijacked on July 24 during a flight over Florida.

The FBI said Cadon was born in Paris on Nov. 28, 1933, and attended school there until the age of 15. He was "considered a runaway," a spokesman said, and spent time in European reform schools. He was once arrested in Belgium on a vagrancy charge, the FBI said.

Seventy-one passengers and nine crewmen disembarked from the big jet when it landed at Miami International Airport after an eight-hour wait in Havana.

The passengers reported they were courteously treated by Castro's militiamen, who guarded them with guns but gave them the run of Jose Marti Airport. Castro sent flowers back with the passengers as a memento of their unexpected visit to the Cuban capital.

Cadon, a swarthy, dark-haired man, was listed on the passenger list as being from Paris and bound for Guatemala.

He forced his way into the cockpit of the jet minutes after it took off from Mexico City and forced the pilot, Capt. Carl Ballard of Huntsville, Tex., to fly to Havana. The flight-originated in Houston, Tex.

Ballard said the first he knew of the hijacking was when he heard the flight engineer say: "He's got a gun."

"We had just broken ground" (See HIJACKERS, Page 6)

## Fleeing Workers May Stop Plants In East Germany

BERLIN (UPI)—Entire industrial plants in Communist Germany's rickety economy will be forced to close if another 100,000 skilled workers flee to the West, intelligence sources said today.

Hundreds of East Germans slipped past tightened Red border control points this morning. As the flight continued, Western sources said the new exodus could deal a mortal blow to East

(Rel-ted story on Page 16)

Germany's economy — already plagued by critical shortages and breakdowns.

The new escapees raised the figure for August to about 14,000. It was believed the total this month might pass even the monthly record of 58,000, set on the eve of the East German revolt of June 17, 1953.

Workers, technicians, engineers, industrial managers, farmers, policemen, doctors and professional men joined in the race to beat a possible Berlin clampdown if Russia signs a peace treaty with its puppet regime in Germany.

Officials said 1,926 refugees reached West Berlin Wednesday, bringing the total for the year so far to 146,479.

The figure was only 6,000 less than were registered here all of last year, and nearly 3,000 more than the number of those who reached the West in 1959.

But how long the Red German government could permit the mass flight to continue was open to question.

The lack of skilled labor and supplies already has forced East Germany to close down its new aircraft industry. Since 1954, about 3,500 doctors — about 20 per cent of East Germany's physicians — have fled to the West.

## Cuban Plane Hijacking Thwarted

HAVANA (UPI) — Anti-Castro Cubans fought soldiers in a wild gunbattle aboard a speeding Cuban airliner Wednesday in an unsuccessful hijacking attempt. Three persons were killed and six wounded.

Authorities said the pilot of the plane, which was bound from Havana to the Isle of Pines off Cuba's southern coast, was killed but the co-pilot managed to make a forced landing in a sugar plantation near the town of Guira de Melena, 30 miles south of the capital.

The attempted hijacking took place about the same time a hijacked Pan American Airways

plane was landing at Havana. The dead include one of the hijackers and one of the two military guards aboard the plane.

As details of the frustrated hijacking were made public today, a bomb exploded about 7 a.m. outside the Fin del Siglo department store in Havana.

No casualties were reported but one of the store's windows was shattered. It was the first bombing in many weeks.

Authorities quoted the surviving military guard aboard the plane, a DC-3 of the nationalized Q Airways, as saying the hijacking attempt occurred a few minutes after take-off about 3 p.m.

He said he saw a woman passenger take a pistol from her purse and hand it to a man, presumably her husband. At this point several passengers shouted "hands up!" to the military guards and began pounding on the door leading to the pilot's compartment.

Another group of passengers moved toward the rear of the plane.

Shooting broke out immediately and the pilot was killed along with the soldier guarding him.

One of the hijackers was shot and killed after the plane had made the forced landing.

One of the guards was in the compartment with the pilot. The other was in the rear of the plane. Officials did not make clear how many hijackers were involved in the attempted takeover of the plane but they apparently were among the six wounded.

As soon as the plane came to a halt in the sugar plantation several persons jumped out and tried to hide in the fields. It was at this point that one of the hijackers was killed, the authorities said.

The Isle of Pines is the site of Premier Fidel Castro's biggest prison for his political enemies.

### Selective Rise In Stock Mart Seen By Analyst

NEW YORK (UPI) — Hayden, Stone & Co. Analyst Kenneth Ward says with business and the market now improving commensurately and with investor confidence perking up, a further selective rise in the market seems likely, carrying to 730-40 in the D-J industrial average on the next upward step of this bull market.

However, he cautions from a near-term standpoint, considering the speed and scope of the advance so far, a temporary period of hesitation and price consolidation may be in order.

The higher this phase of upward action carries without at least a token correction, the more vulnerable the general market will become to a more severe profit-taking setback or a sudden adverse turn in the international news, Ward warns.

The Dow Theory Trader says at last Friday's close of 720.69, the Dow-Jones averages continued to point to a healthy, higher market into the late months of 1961 and possibly into the first half of 1962.

Joseph E. Granville of E. F. Hutton & Co. notes that the rails are now making a few appearances on the list of new highs and this has broad implications for the entire group. While the quality rails will lead, he says it would not be surprising now to see deepening strength in the most speculative carrier shares.

Specifically, the groups that appear most attractive for investment at this time include issues in the armament, chemical, automotive, insurance, finance, electric utility and railroad industries according to W. I. La Tourette of Shearson, Hammel & Co.

## Speaking French Bridge Tourney Visit Helms Director In Paris Work Revealing To Writer

By DICK WEST  
 PARIS (UPI) — It was 10:30 on a balmy Parisian evening and Gene Kelly was shouting orders to his movie crew in French. He sounded and looked more Gallic than any Frenchman in sight. Wearing a billed cap, open shirt and loafers, Kelly's Irish temperament was something his cast and crew could understand. Unlike most Hollywood directors abroad, Kelly has no complaint about working conditions here. "The equipment and studio facilities are not as good as they are in Hollywood," he said. "And maybe the crews don't have as much proficiency or experience as the men back home. "But, boy, are they willing. They work harder than any bunch of guys in the movie business." One reason Frenchmen work so well for Gene is that he speaks the language fluently. This is important to the prideful French. "I've worked with this crew before," Kelly went on. "The labor cost is less here than in the state, but it is offset by the efficiency you find in Hollywood. "It cancels out any idea of sav-

my experience quite prepared me for what I saw at the tournament. When that league official described the players as being nuts about the game he was understating it. These people play bridge with a passion and dedication that is downright amazing, and maybe even a bit frightening. Some 4,000 of them entered the summer tourney and played bridge constantly for more than a week. When they weren't playing bridge, they were watching it, or talking about it, or dreaming about it. One male player became so intent on verbally replaying a hand with his female partner that he followed her across the hotel lobby and right into the ladies' rest room. It cost the players an aggregate of a half-million dollars in expenses to participate in the tournament. The most anyone got out of it was a silver cup and possibly a few "master points." "We don't play for money," said the league official who showed me around. "We play for blood."

WASHINGTON (UPI) — Tournament bridge players, explained an official of the American Contract Bridge League, are "a species of nuts." He said this in trying to help me understand some of the goings-on at the league's national summer tournament, which has been in progress here for the past 10 days. It so happens that I myself play a little of what I call party bridge" and what my wife calls "drinking bridge." But nothing in ing money by shooting in Europe. "This picture is one that just couldn't have been made any place but in Paris. We start with a helicopter shot zooming down into a post-World War I section of the city. It would be impossible to attempt to duplicate the background." Kelly is directing Jackie Gleason in "Gigot," a Seven Arts Production. Rumors persist that the volatile Kelly and equally explosive Gleason are clashing on and off the set. "Couldn't be further from the truth," said Gene, with a look that indicated you'd nurse a fat lip if you doubted his word.

Pampa and area can well be proud of the new street construction and new bridge just finished. We are happy for Pampa and ourselves because with completion of this work makes it more pleasant and easier than ever before to shop at Safeway. We wish to express our appreciation to our many, many friends who despite of difficulties in getting to our store, remained constant customers.

### Pampa Woman's Mother To Be Buried Friday

Funeral services will be held at 4 p.m. Friday in the Gililand Funeral Home of Hereford for Mrs. Lelia E. Hedgecock of Tascosa, mother of Mrs. John O. Pitts of Pampa. Born Dec. 16, 1886, Mrs. Hedgecock died Wednesday in Tascosa, where she had resided since 1938.

Survivors, other than Mrs. Pitts, include her husband, J. M. Hedgecock of Tascosa, five sons, two sisters, six grandchildren and 10 great-grandchildren.

Palbearers will be her grandsons and nephews. The body will lie in state in the Blackburn-Shaw Funeral Home of Amarillo until noon Friday. Burial will be in the Hereford Cemetery.

### Coat Reported Stolen From Car

Gilbert Ell's of Guymon, Okla., reported to police last night that a coat in a plastic bag was stolen from the rear seat of his automobile which was parked near the National Guard Armory last night.

A later report to police said the right rear tire of the car had been slashed by a knife.

### Hijackers

(Continued From Page 1)  
and started into our right turn toward our first checkpoint," Ballard said. "I looked and as I did I heard the door bang and I saw a .38 pistol that looked as big as a cannon. The man looked like a maniac and all he said was, 'We go to Havana — Havana — Havana — just like a broken record'."

Ballard said the jet's first officer, Capt. Samuel Enfield, "tried to persuade the man to point the gun away from us, but he wouldn't do it."

"I was worried about the pistol, but I was more worried about our fuel and was trying to work out but I was more worried about our fuel and was trying to work out a new course to Havana and determine our optimum altitude."

Ballard said the hijacker told him: "You won't land for fuel, either. We'll crash first. All of us will die, but we won't land for fuel."

"A father-son team which seized a Continental Airlines Boeing 707 jet in flight and ordered it to Havana was thwarted last week when the plane landed at El Paso, Tex., to refuel. Two other planes had been seized recently by hijackers, the Electra and a National Airlines Convair."

Ballard called Cadon "wild," and Enfield said the hijacker told the cockpit crew: "I am for Algerian independence. I don't like the way Washington is handling the Algerian situation and I am choosing this way to protest."

"The pilot said he felt the main reason Castro released the jet was because Dr. Julio Cesar Turbay Ayala, Colombian foreign minister, was one of the passengers."

In Havana, Ayala was greeted by Cuban Foreign Minister Raul Roa and visited and dined with Roa during the jet's stay. The Colombian diplomat was reported to be carrying a blueprint for hemispheric action against the danger of Communist control of Cuba.

Castro personally went to the airport and talked with Ayala before the plane departed for Miami. He said he was releasing the aircraft "in deference to the Colombian diplomatic official on board."

Ayala told newsmen here that Castro was "mortified" and "annoyed" at the action of the hijacker.

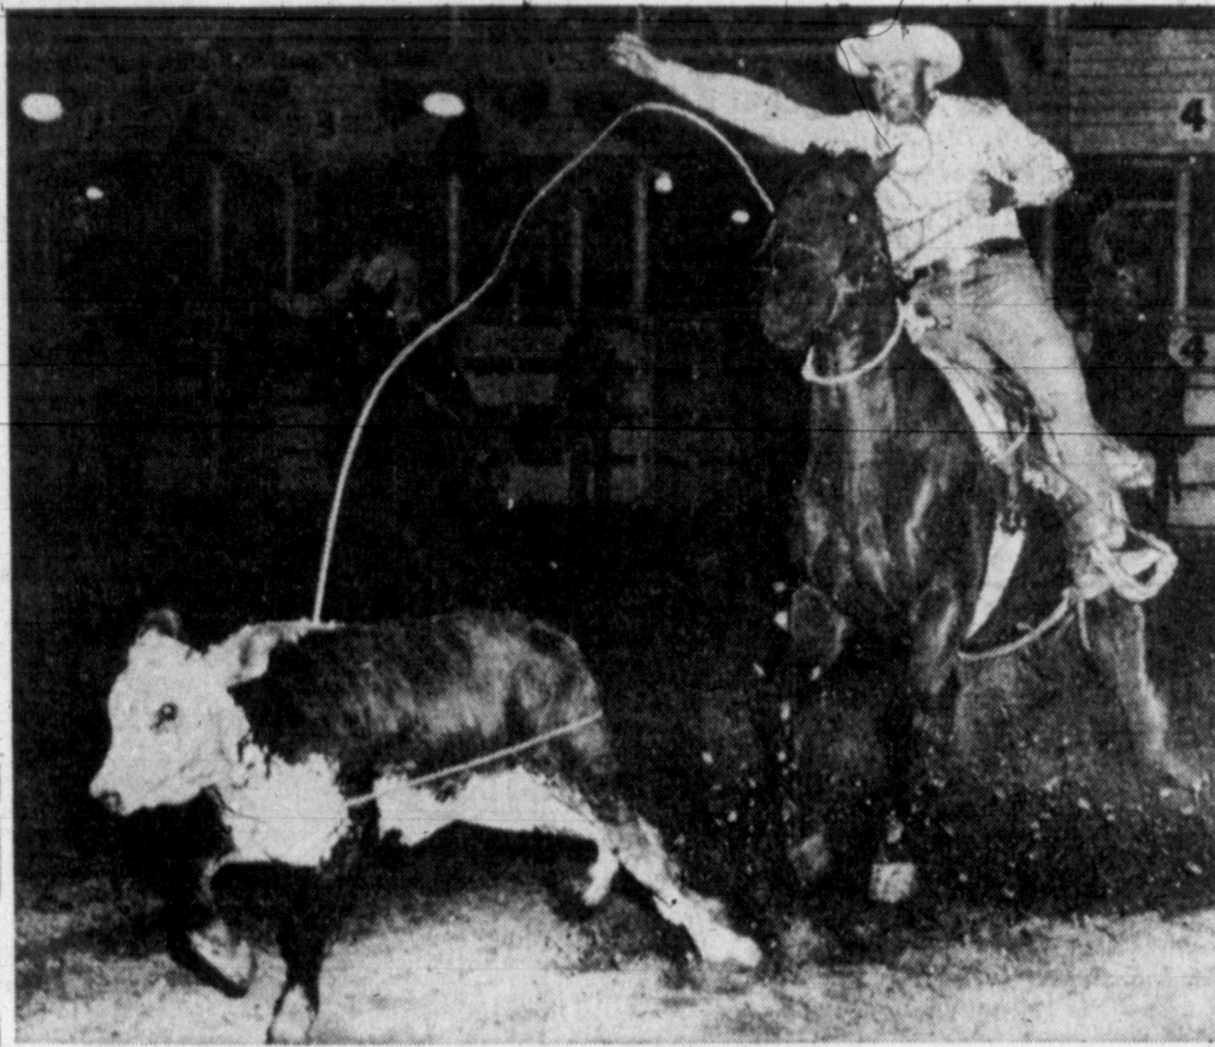

Castro told Ballard during the wait in Havana while the plane was being refueled that "we must not steal from each other. We must take steps to prevent planes from being stolen."

### Kennedy

(Continued From Page 1)  
time to lead in this field for a while because they started first. If Congress passes his long-term foreign aid program, Kennedy said, he is hoping to make the program "more effective" and expects to assign five new area administrators and 45 or 50 new heads of programs for specific countries.

He hopes Congress will approve his legislation to give permanent life to the Peace Corps because of the "wholehearted response of so many young men and women" to it. He said that if Congress does approve, there is an opportunity to have more than 2,700 volunteers "serving the cause of peace" in this fiscal year.

Motor vehicle accidents during 1960 caused 38,200 deaths of the 83,000 accidental deaths from all causes that year.

NOT THIS TIME—Jerry Dean of Lovington, N.M. appears to have this calf roped in the double muggin event in last night's rodeo action, but a little too much rope, and the calf slipped through. His partner in the event, J. D. Armstrong, also missed his throw and they received no time.

### Khrushchev

(Continued From Page 1)  
under the calf and finally harnessing him, the animal simply refused to go near the winner's circle. But Robbins won out much to the delight of the fans.

The girl's barrel race was another crowd pleaser as Virginia Watson turned in the best time in the first go-round with 20.4. Nancy Keahy finished a close second with 20.5.

Winners in the other six events for the initial go-round were in the bareback riding: Gene Devens, Booker, first place; Lubbock's John Holt was second and Jim

Whitefield, Big Spring, and Tulin's Slim Berry tied for third place.

Jimmy Moore, Post, took first berth in the saddle bronc riding with Bob Chambers, Rusty Welch and Garland Rose following in that order.

All around cowboy for the past two years, Jim Brock, was first in the bull riding. Frank Wilson finished second, J. T. Thompson and Ed Harlan tied for third and Jim Lee took fourth.

Finishing behind Law in the bulldogging event were Joe Mitchell with an 18.2 record, David Hamer at 20.4 and Freddie Newson who was timed in 22.1.

In the double muggin event the top time Tuesday night was 33.2.

Six men topped that mark in Wednesday night's action and J. D. Armstrong had the top time of 18 flat. John McMordie, Spicer Gripp, and Don Pinnell had the next best times.

Sims took the first go-round championship in calf roping. Claud Marham, Pinnell and Bob Thompson followed in second, third and fourth respectively.

Once again Bobo Barnett entertained the crowd with his antics featuring three dogs that dances, walk, and jump barriers on a rotating wheel. Bobo owns a car too.

### Jordan

(Continued From Page 1)

ter many hours of questioning. When Driver is returned to Pampa this weekend, the sheriff stated, he and Parks will undergo further questioning in connection with other safe robberies and burglaries in Pampa and other Texas cities.

The sheriff said the pair will be questioned about the hauling away of the safe at the Pampa Clinic several weeks ago. Some \$50 in cash and valuable records were taken in that robbery.

Sheriff Jordan said the arrests and the clearing up of the robberies was the result of three-way cooperation between Pampa police, the sheriff's department, Texas Ranger Bill Henslee and also the cooperation of sheriffs' departments in Hall, Donley and Collingsworth counties and the sheriff at Antlers.

"All of these departments and officers have been working hard on this case for the last thirty days," Sheriff Jordan said, "and we have been on the lookout for these two men for the last year."

Following additional questioning of the two men, Sheriff Jordan said, information in their cases will be turned over to Dist. Atty. Bill Waters for presentation to the Gray County Grand Jury.

The sheriff said neither Parks nor Driver had been in custody before for any "big time" jobs. "They have no records to amount to anything," he said, "except for minor violations as juveniles."

It's about knee high and the 6 foot, 200 pound clown and his dogs ride to work in it.

Tonight's feature attraction will be the presentation of the Quarter Horse Show winner held this afternoon. Rodeo time again tonight is 8 p.m.

The first go-round in the Cutting Horse Contest was held this morning at the rodeo arena. The Miller Bros Band will provide the music for the rodeo dance in the National Guard Armory beginning at 9 p.m.

### Rotarians Hear Rodeo President

Top O' Texas Rodeo Week was the theme of Pampa Rotarians at their regular weekly noonday luncheon in Coronado Inn Wednesday noon.

The program, arranged by Program Chairman A. J. Carubbi, featured the music of the Miller Brothers orchestra which is playing nightly for rodeo dances in the National Guard Armory.

Jake Osborne, president of the Top O' Texas Rodeo Ass'n., which is sponsoring the 17th annual rodeo, gave Rotarians a behind-the-scenes word picture of what

### Lightning Starts Clock For Woman

TOCCOA, Ga. (UPI)—Lightning, Mrs. Minnie Wilbanks reports, has "a favorite target in these parts—her kitchen."

A lightning bolt knocked out the stove and its clock last year. She had the stove repaired, but not the clock.

Mrs. Wilbanks said Wednesday lightning struck again on Tuesday. It did not affect the stove, she said, but did start the clock again.

It takes to produce and stage a show such as the one holding the spotlight in Pampa this week.

# Foreign Commentary

**By K. C. THALER**  
**PARIS (UPI)** — Soviet Premier Nikita Khrushchev, confident of victory, already is looking beyond Berlin to the next target of Russian power politics — Africa.  
 The year 1962, it is understood, has been earmarked as "African year" in the Kremlin's global strategy.  
 Khrushchev is expected to visit

a number of African states to set the stage for a wider and systematic campaign of infiltration. The Soviet leader earlier this week accepted an invitation to visit Tunisia. He has been collecting invitations from a considerable number of African nations over recent months. They range from the United Arab Republic to Guinea and Ghana.

## Risks Involved In Man's Effort Toward Survival

**ANN ARBOR, Mich. (UPI)** — Some of the nation's top scientific brains believe man must take calculated risks with his own health and safety if he would continue to progress or even to survive.

This was the consensus of more than 180 specialists from such diverse fields as public health and nuclear power development who attended a recent Congress on Environmental Health at the University of Michigan.

Dr. Rene Dubos of the Rockefeller Institute said society will continue to strive for comfort and protection from threats to health but that "excessive regulation might result in social stagnation." He added: "A society that does not continue to grow through adventure and willingness to take chances is not likely to survive in the modern world."

Dr. Leona Baumgartner, New York City Health Commissioner, also complained of unnecessary and antiquated regulations, especially in the milk handling industry where, she said, they date from the era of the three-legged milk stool.

Dr. Baumgartner said self-regulation of sanitary conditions by New York restaurant owners has produced better results than "raw police power." Little by little, she said, New York's 22,000 restaurants have realized that running a clean, sanitary place is good business.

Dr. Dubos said "man's mastery over his environment will never be complete," but he saw no reason to believe that threats to health arising from modern technology are any greater than the natural dangers man has overcome in the past.

Discussing "Space Age" health problems, Dr. Thomas Francis Jr., professor of epidemiology at Michigan, said astronauts could carry along disease-causing agents which might become established on other planets and "confuse the study of life thereon."

Conversely, Francis said, there is the risk that primitive forms of life in space could be returned to infect life on earth or become parasites.

An industry representative — Walker L. Cislis, president of Detroit Edison, minimized the danger of having nuclear electric power stations located near large population centers.

"Although there are difficult matters associated with nuclear power, I am convinced that we can learn to live with the atom, both safely and well," Cislis said. He termed nuclear power stations "a completely inside operation," with elaborate precautions against escaping radiation and no risk of bomb-like explosions since the triggering mechanism of the bomb is lacking.

The Soviets suffered a severe setback last year when they were pushed out of the embattled Congo where Khrushchev had hoped to set up Russia's headquarters for operations throughout the African continent.

There have been other setbacks. African nations displayed marked coolness to Soviet attempts to use them in support of Moscow's plan to undermine the authority of the United Nations. But, by and large, Red penetration in Africa has been considerable.

The Soviets have used the technique of economic aid and assistance as one of their major instruments of infiltration. With the money came Soviet technicians and so-called "experts" and "advisers." They have been "looking around quietly, with a purpose."

Moscow has been quick in backing its aid to Africans with military supplies and equipment of a varied kind—rifles, tanks and even jet planes.

Earlier this year Khrushchev sent Soviet President Leonid Brezhnev on an African tour, to "show the Soviet flag" and to pave the ground for his own visit — and for bigger things to come next year.

## JFK To Appoint Negro As Judge

**BIRMINGHAM, Ala. (UPI)** — President Kennedy will name the first Negro to the federal bench shortly, associate White House press secretary Andrew T. Hatcher said here Monday night.

Hatcher said Kennedy would appoint James B. Parsons, Cook County judge and assistant U. S. attorney for Northern District of Illinois from 1951 to 1960.

Hatcher, a Negro, spoke to about 400 delegates at the Southern Beauty Congress. He said the administration would work with Negro organizations to help increase Negro ownership of business.

## Britons Get View Of Queen's Leg

**LONDON (UPI)**—Britons today got a rare glimpse of shapely royal leg in a photograph showing Queen Elizabeth stepping ashore from the royal barge in Carrickfergus, Northern Ireland.

The photograph, with the Queen's leg exposed above the knee, was published in most national newspapers. Elizabeth was smiling.  
 The incident occurred when officials forgot the wharf was 18 inches too high for the barge which carried Elizabeth from the yacht Britannia.

## Haunted House Theme Clogging Video's Re-Runs

**By FRED DANZIG**  
**NEW YORK (UPI)** — Wondering what the latest TV trend is? Are there bats in your belfry? Despite the seeming irrelevancy of these two questions, they belong together like summer and re-runs.

My colleagues in the Society of TV Trend-spotters have issued an interim report which places bats in the belfry and TV's new trend under one slightly cobwebby roof. The trend, we find, is to haunted houses.

Our re-runs are in a haunted hut rut.

Thursday, for example, NBC-

TV's "Great Ghost Tales" supplies us with "Summer Rental," described as a drama about a couple who go ahead and rent a house even after being told it's haunted. Soon after moving in, the man and woman are terrorized as grisly events that happened once before appear to be happening again. (That's the story of summertime TV, but let's not get into that.)

Does "Summer Rental" sound vaguely familiar? Go back four weeks to "Mystery Theater" on NBC-TV and look up "Danger Tomorrow." In that one, a couple moved into a musty old house

and promptly found themselves confronted by flashbacks. Next Wednesday, the "Mystery Theater" series unveils "House of Mystery." One guess. As the story line put it, "Prospective buyers find a house at a bargain and learn of the ghost in its past."

Last month, "Thriller" on NBC-TV presented a re-run, "The Hungry Glass." The story was about a young couple who bought a haunted house on the rocky coast of Maine. Once inside, to quote from the story sheet, "mysterious but connected accidents befell them."

If you missed "The Hungry Glass" on July 1 or Jan. 3, try "Paradise Mansion," which "Thriller" repeats on Aug. 12. Its about some demented owners of an estate who imprison a schoolteacher in their haunted house. "The Purple Room," another "Thriller" episode, first shown last October and repeated June 20, was about a young man who could inherit a haunted house if he managed to sleep in it for just one night. Tuesday night, one of the three-one-acters seen again in "Thriller's" production of "Trio For Terror" involved a haunted castle. But we're not counting haunted castles in this

54th YEAR  
**THE PAMPA DAILY NEWS**  
 THURSDAY, AUGUST 10, 1961  
 7  
 trend. Just plain old haunted houses.  
 In September, NBC-TV's "Michael Shayne" will repeat "It Takes a Heap O' Dying" Again. I quote from the story line: "Shayne investigates strange nocturnal doings in the basement of an old house purchased by Fred and Nan Palmer."

Among the Seven Wonders of the Ancient World was the Colossus of Rhodes.

HERBED tomato cooler is a sample of how great-grandma cooled overheated thirsts in the good old days.

## Early Day Coolers Ease Thirsts

By GAYNOR MADDOX  
Newspaper Enterprise Assn.  
When the United States was young, housewives liked to serve coolers made of fruits from the kitchen garden. These two recipes, taken from early 19th century cookbooks, have hot weather appeal today.

### HERBED TOMATO COOLER

(Yield: 7 cups)  
2 quarts (3½ pounds) diced fresh tomatoes  
1 tablespoon chopped onion  
1½ teaspoons basil leaves  
2 whole cloves  
2½ teaspoons salt  
1 teaspoon sugar  
¾ cup water  
2 tablespoons fresh lemon juice  
Combine tomatoes, onion, basil and cloves. Cover and cook slowly 10 minutes or until softened. Put through a sieve of food mill. Stir in salt and sugar, water and lemon juice. Cool. Serve chilled over crushed ice or ice cubes.  
SPICED APPLEADE  
(Yield: 6 servings)  
4½ cups (1 pound) peelings and cores from tart apples  
1 quart cold water  
1 stick whole cinnamon  
¼ teaspoon whole allspice  
2 lemon rinds  
1-3 cup sugar  
1-3 cup fresh lemon juice  
1 cup fresh orange juice  
Slices fresh lemon, whole cloves for garnish  
Cook first 4 ingredients together in a covered saucepan for 3 minutes. Remove from heat. Strain. Add lemon rinds and let stand 1

minutes. Remove rinds. Stir in sugar. Add lemon and orange juice just before serving. Float slices lemon, studded with cloves, over each cup over ice-cubes.

### Sherbet Cake Is "Sure" Hit

Here's a suggestion for a summer dessert that is simple to execute but looks and tastes like one of those glamour foods prepared by a highballed pastry chef. Make it at your leisure and store it in the freezer until you're ready to serve it.

**Frozen Sherbet Cake**  
Bake a two-layer butter cake, using a cake mix if you wish. When the layers are cool split them in half. Put the layer back together with three different colors and flavors of sherbet.

For instance raspberry sherbet, lime sherbet and Sunshine Sherbet provide good color and flavor contrast. Sunshine Sherbet is a combination of pineapple and grapefruit flavors which Meadow Gold developed this summer. The refreshing sherbet is studded with pieces of red pineapple.

Frost the cake with this whipped cream icing: Add six tablespoons sugar and one teaspoon vanilla to 12 cups of whipped cream. Cover top and sides of cake. Set in freezer at once. Makes enough for twelve servings.

## Tempting Dessert For Hot Evenings

Prepare this cherry nut salad mold in the cool of the morning and you'll have a delicious addition to a patio or porch supper in the evening.

For speedy preparation, home economists of Meadow Gold Dairies advise using Meadow Gold's ready-to-serve orange drink for the liquid. It lends tang to the sweet cherry mold.

### Follow these directions:

#### CHERRY NUT SALAD

(10-12 servings)

2 packages black cherry flavored gelatin

1 quart orange drink

1 can (1 lb., 1 oz.) pitted dark sweet cherries, drained and halved

1 cup diced celery

½ cup chopped pecans

Heat 2 cups of the orange drink until hot. Add gelatin and stir until dissolved. Stir in remaining orange drink. Chill until partially set. Fold in cherries, celery and pecans. Spoon into a 1½ quart mold or individual molds. Chill until firm. Unmold on crisp salad greens.

## Family Diet Better Now Than In 30's

The food industry has steadily increased the nutritional values of its products without advancing over-all food costs, said William G. Karnes, president of Beatrice Foods Co., Chicago, at the Company's recent annual stockholders' meeting.

"In terms of real purchasing power," he said "the American factory worker now can buy the government's standard family market basket of farm foods for less than 40 hours of work per month. In 1932, 51 work hours were required.

"Back in the mid-30's," he said, "one-third of our families had diets classified as poor. Applying the same diet yardstick in 1960, only about 10 per cent of households had poor diets."

Americans are eating better now largely because the food industry has been dynamic and progressive according to Karnes and it is making continual improvements in quality and convenience.

It is correct to type a personal letter, but not invitations, thank you notes or letters of condolence.

## French Fried Pineapple Provides Sophistication In Party Dessert

French fried pineapple pieces dipped in sweetened whipped cream are for guests you want to impress.

Because they should be served warm, you might make a ceremony of their preparation by doing the french frying in a deep electric skillet at the dining room table.

The egg-milk batter is a thin one which coats the pineapple just enough to give a puffy, melt-in-the-mouth covering. Heat the oil to the correct temperature and fry the delicacies just two or three minutes, points out Beatrice Cooke, Meadow Gold home economist, and you won't have any problems with smoke or unpleasant odor.

Here's what you do: Pare fresh pineapple and cut it into cubes or small wedges. Then mix the following batter: Blend ½ cup cooking oil, 1 cup sifted all-purpose flour and 4 tea-

spoon salt. Add 1 egg and 1½ cups milk. Heat till smooth.

Dry pineapple pieces on paper toweling. Dip fruit in flour to coat well. Then dip into batter. Fry in oil heated to 375 degrees (3-4 inches deep) until lightly browned, 2 to 3 minutes.

Serve three or four of the fruits with whipped cream.

## Frying Foods Easy With New-Type Pan

CLEVELAND (UPI) — Don't worry about food sticking to the fry pan.

This pesky headache goes the way of the buggy whip — thanks to a new development in aluminum pots, pans and skillets. A new "inert" material called Teflon prevents foods from sticking to the utensils.

An egg, for example, can be fried, in a dry fry pan. It slides out after cooking.

The new fry pan caught the fancy of those attending the American Home Economics Association meeting here recently.

John S. Hamilton, manager of sheet and plate sales for Aluminum Co. of America, and the new coating completely eliminates the need to scour such hard-to-clean utensils as fry pans.

## Chilled Shrimp Bisque Is Cool Summer Dish

NEW YORK (UPI) — Bring on chilled shrimp bisque to take the heat out of a summer day. Melt ¼ cup of butter or margarine. Stir in 5 tablespoons of all-purpose flour. Blend well. Slowly add 2 cups of chicken stock or bouillon, ½ teaspoon of pepper and ½ teaspoon of tarragon. Cook over low heat, stirring constantly, until thickened. Chill. At serving time stir in 2 cups of milk, 1 cup of heavy cream and 1½ cups of cooked, diced shrimp. Makes 6 cups.

SECRET of a sumptuous summer supper: Western waffles with platter of "fixins" and bowl of easy cheese topper.

## Western Waffles Make Rare Treat

By GAYNOR MADDOX

For a pleasant, quick to get and delicious summer supper, serve waffles, plus a tempting dish of crisp bacon, tomato slices, hard-cooked eggs and slices of avocado. Let each guest select his favorite combination to put on the waffles. Then over all, pour a warm cheese sauce, made with condensed cream of mushroom soup and instant minced onion. All very easy, all very good. WESTERN SUPPER WAFFLES (Makes 6 servings)

1 (10½-ounce) can cream of mushroom soup  
1 cup shredded process American cheese  
½ cup milk  
1 tablespoon instant minced onion

¼ teaspoon paprika  
¼ teaspoon salt  
12 slices bacon  
2 ripe tomatoes  
4 hard-cooked eggs  
1 avocado  
6 baked waffles (use frozen waffles, if desired)  
Blend soup, cheese, milk, onion, paprika and salt in top of double boiler over boiling water. Heat until cheese melts and sauce is hot. Fry bacon until crisp; drain well on absorbent paper. Cut tomatoes and eggs in thin slices. Cut avocado in halves; remove strips, tomato, egg and avocado slices on waffles.

## De-Fuzzed Peaches Are Plentiful, Juicy

NEW YORK (UPI) — A bumper crop of 49 million bushels of freestone peaches is expected in American markets this summer, says the United Fruit and Vegetable Association.

This is more than 8 million bushels above average, with most fruit of high quality, pink cheeked with sweet, fragrant juice.

Peach classes are freestone, clingstone, and semi-freestone. Generally, freestones are sold fresh, and clingstones, canned. Both classes have yellow and white-fleshed varieties, with the

former leading in popularity.

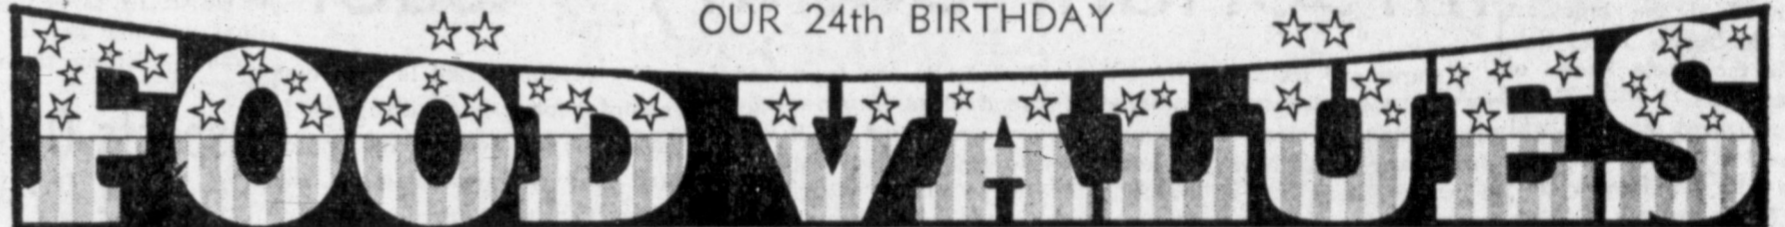

The outstanding commercial freestone is the elberta, with tender yellow flesh, a high flavor, and good shipping quality. Other peach varieties increasing in importance include redhaven, halehaven, dixired, J. H. Hale, dixigem, golden jubilee and burbank said the association.

Most peaches marketed now are de-fuzzed by swiftly rotating brushes. The fuzz is vacuumed away before the fruit is packed.

# SLEEP BETTER

Drink Borden's Buttermilk at Night and sleeping's as Easy as 1-2-3

1 You'll sleep like a baby! Yes, Borden's Buttermilk gives you that "full," contented feeling doctors say is so important to normal, restful sleep.

2 Easy to digest! Indigestion, doctors tell us, is a prime cause of sleeplessness. A glassful of delicious Borden's Buttermilk reduces stomach acidity, so you can sleep better.

3 Cooling and refreshing! Every ice cold sip refreshes and delights you. Drink Borden's Buttermilk at bedtime and sleep better.

**Borden's BUTTERMILK**

© THE BORDEN COMPANY

The woman with a voice like shaken silver bells is rare. But most of us could improve our speaking voices if we tried. This girl (left) places a kitchen match between her teeth and tries to speak normally, as if the match weren't there. Another exercise for voice improvement (center) involves reading into a tape recorder before a mirror. Do this nightly. Any restaurant with a large number of women patrons is filled with shrill voices. One immediate remedy (right) is to talk more slowly. When you slow down, your voice gains in warmth and is more attractive.

### Garden Club Makes Flower Show Plans

Plans for a fall flower show were discussed at the breakfast meeting of the Top of Texas Garden Club in the Cibola Room of the Coronado Inn. It was announced the show will be held the last of September in conjunction with the Pampa Garden Club. Mrs. Kenneth Osborn, general chairman, outlined the work of each committee and closed with the comment that this could be the most colorful of flower shows. For the breakfast, the tables were decorated with arrangements of asters and digitalis blossoms. Mr. Kenneth Osborn was hostess. Next meeting will be at 1:30 p.m. Sept. 12, with Mrs. Fred Hinkley as hostess. Mrs. Helen Knox will present the program, reporting and showing slides on her recent trip to Europe.

### Miss Judy Leland Feted With Shower

Miss Judy Leland bride-elect of Wayne Wood, was honored with a bridal shower in the First Baptist Church parlor, with Mmes. Elmer E. Wilson and Elmer D. Wilson as hostesses. Guests were registered by Miss Brenda Waller. Assisting with the gifts were Misses Kim and Kay Wilson of Pampa and Miss Georgette Oakes of Amarillo. The refreshment table, covered with a white linen cloth, was centered with an arrangement of red carnations and white pompons, flanked by red tapers. The bride-elect's colors were carried out, also, in the cake decorated with bells and the bride and groom's names in red and white and in the red punch. Presiding at the refreshment table were Mrs. Donna McGlohan of Amarillo and Miss Janice Bilingley of Plainview. Background music was provided by Miss Patricia Oakes of Amarillo. Approximately 50 guests attended or sent gifts.

### Business Women Hear Tom Snow

The Pampa charter chapter of the American Business Women's Association met Tuesday at 7 p.m. in Woody's Cafe for its monthly dinner meeting with Mrs. James Quary presiding. The speaker of the evening was Tom Snow, attorney with Smith, Teed, Wade, and Waters. His topic was "Importance of a Will." The chapter will be hostess for the weekly party of the Senior Citizen's on August 24 in Lovett Memorial Library, it was announced.

The agenda for the month of September was discussed, and plans were made. Twenty-one members were present. Guests attending were Mrs. Franklin Palmittier and Mrs. Tony Smith.

**Methodist Fellowship Slates August Retreat**  
LEFORS (Sp) - Final plans for its August retreat at Lake McClellan were made at a meeting of the Methodist Youth Fellowship. Attending the meeting were Mary Watson, Geron Terry, Mick Anderson, Donna Graham, Charley Quittin, Judy Barnes, Mary Imman and Wanda Clemmons.

## Melodious Tones Rated Important Beauty Asset

A warm and melodious voice is as important to beauty as a trim figure and a clear complexion. How many times have you heard a woman described as beautiful "until she opens her mouth?" The most common difficulty, according to speech authorities, is a high pitch. And one immediate remedy is to talk more slowly. You will articulate more clearly, too.

Here's an exercise that is a great help in developing an attractive voice: place a kitchen match between your teeth, front center. Now, try to speak normally as though the match weren't there. Hold the match at the end lightly between the teeth and focus your tone toward the blue tip.

Harshness in your voice stems from tension in the throat and jaw. Try yawning to relieve the tension.

The tighter the vocal cords are when vibrated, the higher will be the tone pitch. When you raise your voice to be heard, the throat constricts and produces a shrill sound. The louder you speak, the more your voice will tend to a higher pitch.

To avoid shrillness, lower your pitch. Think lower and let your voice drop to lower notes. Don't force it or it will tax your throat and sound equally unpleasant. A high-pitched voice is often nasal. You can find out whether or not you have this fault by pinching your nose and saying: nothing, marching, running. You should feel vibrations in your nose on the "ng" and "n" sounds only. If you feel further vibrations, your voice is nasal.

One way to discover how your voice really sounds is to rent or buy a tape recorder. Hearing yourself on magnetic recording tape will give you an opportunity to be objective.

You should speak at the rate at which you can best be understood.

### Family Event Held By Training Union

LEFORS (Sp) - The Young Married People's Department of the First Baptist Church training union had a chick-n-que at the Leforian Park recently. Joe Archer prepared the chickens. Attending were Mr. and Mrs. Walter Jackson and their guest, her brother, Leon and children, Karen and Larry, Mr. and Mrs. Joe Wallis, Wanda, Joe David and Lydia; Mr. and Mrs. Scoot Teel, Lonnie, Connie and Billy and their guest, Doug Cates; Mr. and Mrs. Joe Archer, Jody, Don and Philip.

### Advertisement FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX. You must lose eight to ten pounds or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies or chewing gum. ODRINEX is a tiny tablet and easily swallowed. When you take ODRINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions because ODRINEX depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX costs \$3.99 and is sold on this GUARANTEE: If not satisfied for any reason, just return the package to your druggist and get your full money back. No questions asked. ODRINEX is sold with this guarantee by: Richard's Drug Store, 111 N. Guyler, Main Orders Filled.

stood. Turn to the tape recorder and read aloud. Experiment with various speeds and you'll soon be able to regulate your rate. Adjust the tempo to the thought behind your words so that you don't sound monotonous.

### Methods For Conquering Inner Space Announced During New York Showing

By PATRICIA McCORMACK NEW YORK (UPI) - Found: A way to conquer inner space. That is - the space that's too cramped too soon in the typical closet.

The conquest was announced at the National Notion and Novelty Show which opened here. It was achieved via dozens of new gadgets the notion makers invented to make the typical closet more useful.

The things included a metal wall caddy made of plated steel tubing. You just hang it in a closet. That fast, you have another shelf. Another "caddy" folds away. It's a hat rack that folds flat against the door or wall of your closet.

The display of little things also included gadgets for fraidy cats, bookworms, executives in a playful mood and females who keep the family in stitches.

Now a fraidy cat is a female who's scared to be out alone at night. The notion that will make a woman feel secure is a miniaturized "beeper." She just pushes a button and the thing gives out with a beep loud enough to scare off the least timid of purse snatchers.

For the bookworms, there's a mouse. It's a metal mouse with a chain for a tail. The chain, nearly a foot long, goes between the pages to hold the reader's place.

A yo-yo - pure walnut and three inches wide - is what the notion folks put forth for the wheels in executive suites.

The sewing notion makers have

come up with a new motor belt, spotless sewing machine oil, and a bobbin box containing 10 bobbins to fit all makes and sizes.

### Lefors Baptist Group Attends Youth Event

LEFORS (Sp) - A group of young people of the First Baptist church, accompanied by Rev. and Mrs. L. M. Berry, represented Lefors at the Pan-Fork Baptist Encampment, "Youth Week."

A morning watch was held followed by a missionary message and evangelistic service. Rev. Jimmy Wilson of Cactus was evangelist, and Mrs. M. V. Gonnens, who works among the Indians in New Mexico, was the missionary.

Rev. Bill Webb, Berger, was in charge of the recreation program, consisting of soft ball, volleyball, horse shoes, swimming and track. Blue ribbons were given to winners of various games as well as to the best swimmers.

Attending from Lefors were Frances Clarke, Marlene Cates, Shireen Cable, Renie Berry, Danny Caughron, Danny Hill, Ocie Robinson, and the Berrys.

Bertillon, the fingerprint expert, suggested that the irises of the eyes be used in identifying criminals; no two irises have quite the same pattern. Ask your eye specialist about it when you have your eyes examined. You should have a complete professional examination every year or two, says the Better Vision Institute, because there's no other way to find out for sure how well you really see, or how much you may be missing.

Try reading aloud to your tape recorder for awhile with match in mouth. Then remove the match and read on, pretending it's still there. Consistent practice will give you a lovely voice.

## Dear Abby... Case Of Hanky-Panky For Franky

By ABIGAIL VAN BUREN

DEAR ABBY: There is a woman who works where I work. She seems okay, but is sort of nervy. Almost every afternoon, during our 2 o'clock break, she asks me to stand by the telephone while she dials a number, and then she has me ask for "Frank." Now I don't know what this is all about, and don't ask any questions because I figure it's none of my business. I happened to mention it to my wife, and she said I should tell this woman to ask for Frank herself. I don't want to make an enemy, and it's no big deal to do this small favor for a co-worker. Do you see anything wrong with it?

JERRY DEAR JERRY: I see the same thing wrong with it your wife sees. You are being used. It looks like a case of hanky-panky with Frankie.

DEAR ABBY: I am 15 and my boy friend is 16. We are very much in love. Abby, I would do anything for him, but I don't want to get into trouble. Why don't parents let us teen-agers get married and help us get started so we won't get into trouble? It's not only bad girls who get into trouble. Sometimes a girl is really in love. Please help us.

DEEPLY IN LOVE DEAR IN LOVE: You suggest that parents should "help" children by letting them marry as

### Aspects Of Change Studied By Women

"Conforming Religion to the Changing World" was the lesson presented by Mrs. Verdman Smith at the meeting of the Ben Hobgood Group of the First Christian Church in the home of Mrs. Roy Williams, south of town. Mrs. Ora Wagner supplemented the lesson with comments on religion and the changing world.

The devotional was presented by Mrs. Roland Dauer. During the business session, led by Mrs. W. F. Taylor, it was announced school clothing is to be brought to the church council for the orphan's home.

Next meeting, to be followed by a luncheon, will be in the home of Mrs. C. A. Pollock. Attending the meeting were Mmes. G. B. Cree, Roland Dauer, Bert Kiser, W. F. Taylor, V. Smith Mollie Hethcock, Ray Parsley, E. B. Smith, Ora Wagner, W. L. Wagner and Roy Williams.

### Church Ladies Talk Of Changing Times

"New Times in Our Time" was the program presented by Mrs. L. L. Allam at the meeting of the Leona Meers Missionary Group of the First Christian Church Tuesday in the home of Mrs. Lloyd Kuntz, 1207 E. Francis.

The program included group discussion of the many changes taking place in the world of today. Mrs. Frank Skidmore presided at the meeting, leading the opening prayer and presenting the devotional, "These Are New Times." During the business session, plans were completed for serving the meal for the men's fellowship Monday. It was decided the next meeting will be at 9:30 a.m. Sept. 12, with Mrs. Kuntz.

Coffee and cake were served during the social hour by the hostesses, Mrs. Cecil Deist and Mrs. Frank Skidmore.

## Women's Activities

DORIS E. WILSON Daily News Women's Editor

### Miss Phyllis Dalsing Is Awarded Title Of Gray County 4-H Gold Star Girl

Miss Phyllis Dalsing, daughter of Mr. and Mrs. Earl Dalsing, 1113 Huff Road, has been chosen Gray County 4-H Gold Star Girl for 1961, it has been announced by Miss Lou Ella Patterson, Gray County home demonstration agent.

A member of the Cloverette 4-H Club, Miss Dalsing was chosen for the honor by a committee of judges who visited the homes of contestants Tuesday.

Miss Dalsing is vice chairman of the Gray County 4-H Council, and, as a member of the District 1 4-H Council, is serving on the rural youth committee. Projects she has carried in 4-H are clothing, junior leadership, bedroom improvement, foods and nutrition and money management. She makes all of her own clothes. During the year, she has made 24 garments, and her records show that she has made 74 garments since she has been a 4-H club member. She has entered the county dress review each year, and this year, was alternate to the winner, receiving a blue ribbon on her dress.

During the 1960-61 club year, she served as junior leader with the Busy Bees 4-H Club, assisting with both clothing and foods workshops. Three of the four beginning girls she trained in clothing won blue ribbons at the county dress review.

Money management is a new project. She has been learning to keep expense accounts, how to use her allowance to the best advantage, and the benefits of careful budgeting.

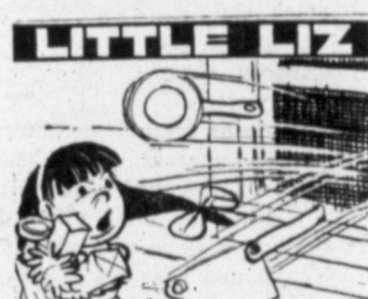

In bedroom improvement, she has made bedding protectors, organized the storage in a clothes closet and dresser and keeps them

MISS PHYLLIS DALSSING Gold Star Girl

in order, worked out a color scheme and chose wall paper, paint and curtains.

She helps with family meals and participates in all county better baking shows.

LITTLE LIZ Too many people let off steam without ever knowing what's cooking.

# Washington Window

**EDITOR'S NOTE:** Lyle C. Wilson is on vacation. During his absence, his "Washington Window" column will be written by Raymond LaBr, chief political writer for United Press International.

The prevailing view here is that these disputes will be resolved in time for primary balloting by districts in 1962. But meanwhile, some of the leaders in both parties like to speculate about the possible results if there is no solution.

The GOP needs to gain 44 seats next year to win control of the House. Some Republicans would not mind risking an all-or-nothing gamble in such states as Illinois and Pennsylvania, hoping for sweeps that might give them the extra push needed to win the House. They see incumbent Chicago Democrats with Polish or Italian names being overwhelmed in the downstate counties of Illinois.

The threat is most serious in Minnesota, Illinois, Pennsylvania and Massachusetts. Each of those states lost one or more House seats in the 1960 census and cannot coast along with its old districts. Without redistricting, all candidates for the House must run at large in those states.

The Massachusetts Legislature can act next year, and Pennsyl-

The Pampa Daily News

54th YEAR THURSDAY, AUGUST 10, 1961 13

### Coaches Pick Perryton To Win District Crown

SAN ANTONIO (UPI) — The Texas High School Coaches Association has picked Sweeney, Jacksboro, Brady and Anson as top teams in this year's state Class AA schoolboy title chase.

And they give Sweeney and Jacksboro a slight edge as potential finalists contenders out of the 182 teams in the race for the championship won last year by Denver City.

Denver City was given enough strength to probably make it this year to the quarterfinals.

The potential strength of the 32 districts was given a rundown for the Texas High School Coaches Association clinic Wednesday by a coaches panel.

Sweeney has 21 lettermen and nine starters back from last year's quarterfinals club, while Jacksboro has 19 lettermen and nine regulars back from a team whose only loss was a squeaker to semifinalist Olney. Jacksboro would meet Terrell in the quarterfinals, while Brady and Sweeney wouldn't clash until the semifinals.

Terrell, who twice has played in the finals with Brady, has 10 juniors among 16 lettermen, 9 starters from a district championship outfit, while Brady has 17 lettermen and seven regulars from its district championship crew.

Denver City again could be dangerous with 12 lettermen returning from last year's scoring powerhouse but only two regulars are back. Bellville has only two regulars back, but 11 lettermen make the Brahmas a district threat to favored La Grange.

Other strong Class AA clubs cited include Floydada, Muleshoe, Fort Stockton, Perryton, Anson.

### Gold Sox Takes Win

By United Press International

There is a baseball saying that a championship team wins the close ones. That is the kind of Texas League games front runner Amarillo is winning.

The Gold Sox came from behind, then pushed across the winning run in the top of the 10th inning Wednesday night to edge the Victoria Giants, 3-2. Second-place Tulsa, six games behind the Gold Sox, kept pace with a 4-0 victory over Austin. San Antonio beat Ardmore, 7-2, in the other game.

Victoria jumped ahead of the Gold Sox with a run in the second inning but Amarillo scored two in the third. The Giants tied it up in the seventh.

San Antonio's Harvey Branch and Fred Burdette combined their talents to pitch a three-hitter against Ardmore. Daryl Robertson, Danny Murphy and Craig Sorensen homered for the Missions.

The best pitching job of the night was turned in by Tulsa's Lou Vickery. Vickery limited Austin to two hits. Von McDaniel, once a pitching star with the St. Louis Cardinals, gave Vickery a winning margin with a two-run home run in the second inning. McDaniel is now an infielder.

Today Amarillo played Ardmore; Tulsa was in San Antonio for a doubleheader; and Austin played Victoria.

### McCormick Loses At Candlestick Park; Only Cap

SAN FRANCISCO (UPI) — Southpaw Mike McCormick of the San Francisco Giants has put in a requisition for a new baseball cap — especially for the next time he pitches at Candlestick Park.

The wind blew his cap off five times Wednesday during the five innings he worked against the Chicago Cubs.

Lancaster, Daingerfield, Hillsboro, Gilmer, Giddings, Karnes City and Donna.

The district favorites picked by the coaches:

Canyon in 1, Floydada in 2, Denver City in 3, Fort Stockton in 4, Perryton in 5, Anson in 6, Cisco in 7, Hamilton in 8, Jacksboro in 9, Azle in 10, Lancaster in 11, Commerce in 12, Hooks in 13, Daingerfield in 14, Terrell in 15, Gilmer in 16, Hillsboro in 17, Brady in 18, Cameron in 19, Giddings in 20, La Grange in 21, Livingston in 22, Dayton in 23, Little Cypress in 24, West Columbia in 25, Sweeney in 26, Gonzales in 27, Karnes City in 28, Devine in 30, Sinton in 31 and Donna in 32.

SUBS IN TV BOUT

NEW YORK (UPI) — Teddy Wright of Detroit replaced injured former welterweight champion Benny (Kid) Paret as Don Fullmer's opponent Saturday in the weekly TV bout from Madison Square Garden. Paret suffered a shoulder injury when he fell during roadwork.

### Tigers, Redlegs Follow Leaders

By United Press International

Big Don Drysdale Wednesday night hit the first grand slam homer of his career and went on to beat the Milwaukee Braves, 8-3, in a victory that kept the first-place Dodgers a game ahead of the persistent Reds.

Drysdale struck out 11, his season high, and allowed only four hits, two of which were homers by Joe Adcock. The victory was Drysdale's 10th of the season and sixth in the Coliseum. Duke Snider led the Dodgers' 11-hit attack with a homer and two singles. Don Nottebart was the loser.

The Cincinnati Reds made it 16 in a row over the Philadelphia Phillies, 5-0, the St. Louis Cardinals blanked the Pittsburgh Pirates, 4-0, and the San Francisco Giants beat the Chicago Cubs, 6-5.

In the American League, the New York Yankees won their seventh straight and maintained their three-game lead with a 2-1 victory over the Los Angeles Angels, the Detroit Tigers overwhelmed the Chicago White Sox, 8-2, the Kansas City Athletics nipped the Baltimore Orioles, 2-1, the Cleveland Indians defeated the Washington Senators, 3-1, and the Boston Red Sox beat the Minnesota Twins, 5-4.

WINS 16TH GAME

Joey Jay won his 16th for the Reds with a six-hit effort that extended the Phillies' losing streak to 13 straight. The back slide is the Phils' worst since 1955. Elio Chacaran homered off loser Don Ferrarese, who gave up four runs in 4-1-3 innings.

An outside pitch by Joe Gibbon of the Pirates proved to be the perfect birthday present for Julian Javier, who smashed a grand slam homer in the eighth that provided the Cardinals with their victory. The homer by Javier,

### White Deer Sets Water Show Aug. 19

WHITE DEER (Sp) — White Deer will host a swim meet involving Pampa, Borger, Hereford and White Deer swimmers Aug. 19 at 8:30 p.m. at the White Deer swimming pool.

The meet is for both boys and girls and there is no charge for entering the events. Each entrant may enter three events in his age group. There will be ribbons and trophies given. An overall team trophy will be awarded to the team accumulating the highest score. Trophies will count as five points, blue ribbons one, and a half point for red ribbons.

A trophy will be awarded in the diving event. Each entrant will be allowed three dives and they will be graded on the point system.

There will be a greased watermelon race for children 10 and under in addition to the other events. Other events include diving, breast stroke race, back stroke, and free style swimming. Contestants from ages 6 to 16 may enter. Registration deadline is Aug. 18 and contestants can enter by calling MO 4-7121.

Judges for the swimming meet are Gordon Collette, Pampa, Hugh Bergerferm, Borger, and Doug Halley, Pampa.

who was celebrating his 25th birthday, brought southpaw Curt Simmons his seventh victory.

Matty Alou of the Giants broke a 5-all tie when he led off the ninth with a homer off Barney Schultz of the Cubs. The Giants had erased a 4-1 deficit with four runs in the seventh but Ernie Banks tied the score in the eighth with a single off winner Stu Miller. Andre Rodgers and pitcher Bob Anderson hit homers for the Cubs.

Promoted from the bullpen only six days ago, Jim Coates turned in his second straight four hitter for the Yankees in shutting out the Angels. Left-hander Ted Bowfield held the Yanks hitless until the fifth when singles by Mickey Mantle and Elston Howard plus Bill Skowron's sacrifice fly broke a scoreless deadlock. Skowron scored the Yanks' second run in the seventh when he tripled and came home on a wild pitch.

Rocky Colavito belted his 31st homer and Al Kaline chipped in with his 15th against the White Sox to ease the way for Frank Lary, who posted his 16th victory for the Tigers. Lary carried a 3-2 lead into the ninth at which point Detroit made it a rout with five more runs. Cal McLish was the loser. Jim Landis hit his 16th homer for the White Sox.

OH, WHAT A BEAUTIFUL MORYN! — The ball streaks toward the glove of Cincinnati shortstop Lee Cardenas as the Pirates' Walt Moryn slides for second base at Crosley Field. As an aftermath, (bottom) Cardenas looks disbelieving as Umpire Ed Sudel rules Pittsburgh pinch-hitter safe.

### Southern Gridders Rate Favorite Role

SAN ANTONIO (UPI) — The South will be outweighed, but that is about the only thing in which the Rebels are not expected to excel tonight in the 27th renewal of the coaching school all-star schoolboy football game.

All signs point to a victory edge for the South, which if it succeeds, will be snapping a seven-year victory drought that has seen the North dominate the series with 14 victories against nine losses and three ties.

The nearest South has come to a victory recently was at the same Alamo stadium site of tonight's game back in 1955 when the teams played to a thrilling 25-25 tie. The last triumph came in 1953.

But, this year the North appears to have its weakest squad in years and one without a single wing tailback although its coach — Joe Golding — is a touted exponent of that style of attack.

Too, the heat and humidity here has taken a toll of up to 10 to 15 pounds per man from the North-ers, while the South apparently has thrived in the atmosphere to which its players are accustomed.

The South boasts three strong

quarterbacks, powerful and fast running backs, good passers and receivers and excellent punting. The North has shown little signs in practice of better than average ability in any of these departments.

With such runners as Bellville's Ernie Koy Jr., Bryan's Tommy Meeks, Taylor's Budgie Ford and Cleburne's Timmy Doerr, the South seems ripe for a drought-breaker.

Doerr is one of three fine quarterbacks on Coach Pete Ragus' South squad. The others are Walter McReynolds of Galveston, who probably will start and Robert Barfield of Pasadena.

The North's starting backfield has Bobby Maples of Mt. Vernon at quarterback, Tommy Goff of Sherman and Don Anderson of Stinnett the halves and Max Gatlin of Lubbock at fullback.

A dislocated thumb appeared to have erased the chances of end Bill Eason of Greenville breaking into the lineup.

Both coaches said they expected to pass a good deal, but added they would leave that decision up to their quarterbacks on the field once the 8 p.m. kickoff arrives.

### North Cage Team Whips South All Stars 67-57

SAN ANTONIO (UPI) — The North's 11th victory in the 17-game coaching school all-star schoolboy basketball game Wednesday night proved an old adage that a good big man can beat a good little man.

The North scored a solid 67-57 victory before a near capacity crowd of 4,595 fans at Alamo Gym, and the big reason was a big man — John Paul Fultz of Dallas Samuell, who used his 6-8 height to every advantage — scoring 15 points, hauling in eight rebounds and blocking the scoring efforts of the smaller South's shooters.

He was voted by an overwhelming margin the game's most valuable player award, polling 13 of the 23 ballots cast by sports writers covering the coaching school classic. Teammate Steve Carter, who also kicked in 15 points, polled five votes; the South's Jay Baker of Aldine four and his teammate, Robert Zamora of South San Antonio, got one.

The South led briefly at 33-32 and 35-34 in the first half and at 39-38 early in the third quarter with Zamora and Bill Ward of Belton doing most of the damage. Zamora had nine points in the first half and Ward seven.

Then Nacogdoches' Larry

Franks got into the act for the North and pulled in seven of his eight rebounds off the South's backboard and together with Fultz and Carter turned the tide. The North took the lead at 41-39 and kept it.

Baker was the big gun in the South's losing last-half cause with a twisting push shot that found the mark for eight points and a full-game total of 12 that tied him with Ward for South scoring honors. Zamora wound up with 11.

Dan Smith of Denton, who scored nine points in all, was the game's top rebounder with 10 as the North led in rebounds 46 to 35.

# The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

## Helping New Nations

We hear much about the necessity for United States taxpayers digging down a little deeper for more aid for the so-called backward countries. We are told these funds will be used to help nations which might otherwise go communist to build up their economies. We're going to see that they have schools, modern machinery, and everything they need to become overnight modern and self-sufficient people.

## Down The Road

Inflation is an unpleasant word in this country, as well it should be. In only 20 years it has cut the dollar's value by at least half. Now, as the president of the Chamber of Commerce of the United States warns, a critical new inflationary threat is arising.

## Inequality Of Money

Progress in this world relates totally to our difference in talents, earning capacities and value judgments. This is a fact many people refuse to see or believe. Nonetheless it is true that for money to have any purchasing power at all, an unequal distribution of money must exist. Let us imagine the contrary.

Let us suppose, as one of our readers recently suggested, that we could get out of our difficulties economically by simply having the government print more money. And let us suppose that the government printed this money and distributed it in the most democratic way possible; that is, that it printed enough currency to distribute one million dollars in cash to every American, man, woman or child.

Granted, this would not mean an equal distribution of wealth. Money is not wealth. Nor would it even mean an equal distribution of money for money would still be in existence as it presently exists, divided unequally among all of us.

## The American Way

By GEORGE PECK THE KOHLER STRIKE - Sylvester Petro, who in 1959 gave us "Power Unlimited - The Corruption of Union Leadership" (a report on the McClellan Committee Hearings; has authored another book: "THE KOHLER STRIKE." In this book bearing the subtitle: "Union Violence and Administrative Law," Petro summarizes the history of the Kohler strike, one of the longest, most violent labor disputes on record; then explores the reasons behind the National Labor Relations Board decision.

In his incisive and well-reasoned account of the Kohler case, the author holds up to public gaze, the inequities and unfairness of the nation's present system of administrative law in labor disputes. Before going into further details of the book, "THE KOHLER STRIKE," a few words regarding its author would seem to be in order. Sylvester Petro is eminently qualified to give an unbiased account of the Kohler strike. Born on Chicago's South Side in a steelworkers' neighborhood in 1907, he worked in the steel mills after leaving high school and took an active part in the CIO's organizational drives of the mid-1930's. He financed his college and law-school training at Chicago University largely by working in steel mills and on construction projects.

Armed with a Doctor of Laws Degree from the University of Chicago, in 1945 he was admitted to the Illinois bar, and practiced law in Chicago for the next five years. After earning an LL.M. degree from the University of Michigan in 1950, he went on the faculty of New York University, as a professor of law, where he still practices. He has served as a specialist in labor and anti-trust law and as a consultant on labor legislative matters since 1944.

Petro, born in a steelworkers' neighborhood, has been a steelworker, labor union organizer, law and labor relations consultant. Most certainly his humble origin and his varied training and experience should make him an impartial observer of and commentator on the Kohler strike. And now something about Petro's book: "THE KOHLER STRIKE." We can figure no better way to a briefly describe it than to quote a part of the preface of the book.

"I have followed the Kohler Company's struggle with the United Automobile Workers Union for years, as stage after stage of the dispute has demonstrated the things that have gone wrong in the labor policy of the United States. But its full value as a textbook illustration of the defects of our labor policy was not complete until Aug. 26, 1960, when the National Labor Relations Board handed down its decision on the charges brought by the UAW against the company. With an historic significance, for now it points up in a dramatic way all the principal shortcomings of our present labor policy.

"These are four: the toleration shown to union violence by government; the governmental favoritism, which has encouraged union officials to fall into greater and greater anti-social excesses; the unfair and sometimes impossibly heavy burdens which have been placed on employers, all coming to rest eventually on the consuming public; and finally the reposing in administrative agencies of judicial functions which those agencies have abused, to the infinite harm of society.

"During its dispute with the Kohler Company, the UAW engaged in sustained violence which covered almost the whole range of illegality stopping just short of murder. It violated the laws at all levels of government, from local trespass laws to the federal government's National Labor Relations Act. The Kohler Co., on the other hand, despite the burdens placed upon employers by our labor relations laws and the provocations of the union, pursued throughout the dispute a course of legality. Yet the decision of the NLRB rewards 'the union' and punishes both the company and many of the employees who came to work for it during the strike, at a time when it took considerable courage to do so.

Kennedy Foreign Aid Bill Opposed in Subcommittee; Administration Now Wowing Full Committee

WASHINGTON — President Kennedy is kidding himself if he thinks the House Appropriations Subcommittee handling his embattled foreign aid bill will give him any where near the \$8.8 billion he is seeking.

A private poll shows only three of the 13 subcommittee members siding with him. The five Republicans want to heavily cut the \$4.8 billion the President is asking for economic and military aid for the current fiscal year, and to completely eliminate the five-year \$4 billion authority to grant long-term economic development loans.

On the latter, five of the eight Democratic committeemen feel pretty much the same way. Several are willing to give the President some lending authority, but only under tight congressional control. All five see eye-to-eye with the GOP on slashing the \$4.8 billion request.

Heading this dissident Democratic group is Representative Otto Passman, La., chairman, long a militant battler against large-scale foreign aid spending. Passman is being assiduously wooed by the President, who has personally talked to him several times. Passman has been quoted in some press reports as being favorably swayed by the President's pleas and the grim world situation, particularly the war-threatening Berlin crisis.

But when a White House assistant boasted of that to a friendly member of Passman's subcommittee, he wouldn't buy it. "I just left him a half hour ago," said the committeeman, "and that wasn't the way he was talking at our committee meeting. You're letting yourself in for a painful letdown if you're counting on Passman going along with you. He definitely is not. He is yearly opposed to the five-year lending authority, and if he has his way, he will cut at least \$1 billion from the \$4.8 billion for this year."

NOT THE K.O. PUNCH — But whatever Passman's subcommittee does, that's only the first round. It's a crucial one, but far from conclusive. The President will have other chances to fight for his \$8.8 billion bill. The first will be in the full 50-member House Appropriations Committee — 30 Democrats; 20 Republicans. The outlook there is conjectural. The full committee rarely overturns recommendations of its subcommittee. But that has happened, and the President is doing his utmost to win over the other committeemen for his giant foreign aid program. As of now, he doesn't have the votes, particularly on the five-year lending authority. The President does have a majority in the full committee against riddling this year's \$4.8 billion budget.

## Hankerings

## Ye Merrie Olde Engleande May Never Be Same Again

LONDON — Anyone wanting to see Ye Merrie Olde Engleande had better get here quickly. That's the impression I got in Rome from reading the London popular press, most of which is violently opposed to England's joining the Common Market.

The papers, headed by Lord Beaverbrook's Daily Express with its circulation of millions and millions, devote pages every day to pointing out the horrible changes due when England lines up with the Continent.

Not only will England lose much of its sovereignty (the papers flatter state), but all the ways of life dear to the hearts of Englishmen will vanish under the impact of France, Germany and Italy.

The Express foresees the day when roast beef and mutton chops will yield to sauerkraut, pigs' knuckles, and pizza; when all the roads will have to be turned around to make driving on the left possible, and leather britches will replace flannel bags as standard wearing apparel.

The opposition to association with the Common Market predicts that London's tea rooms will give way to sidewalk cafes, German paratroopers will descend to aid in the settlement of any domestic troubles, and the playing of "God Save the Queen" will be a mockery.

Fantastic pictures of the evil influence of De Gaulle and Adenauer are drawn. They are being presented as less than human, with one aim only in mind — to make England a minor little island, a sort of pleasure resort and dumping ground for Europe.

It was this picture that sent me scurrying to England before it was too late. I wanted to get here before the houses of York and Lancaster had changed their names to Mueller, Bernini, or Lafayette.

I wanted to have a last slice of rare roast beef, play a final game of darts in a thatched pub before it was changed into a night club, and have some splendid, ice-cold toast for breakfast. Too, I wanted to go to the London theatre and try, once more, to understand one of every ten words spoken by the actors, to visit a stately home before it was turned into a machine shop or a garage for motor scooters, and to see the English countryside before it becomes one giant vineyard.

# Despised Pay Penalty Again Clamped Upon East German Workers

BERLIN (UPI) — Workers in East Germany today faced production speedups designed to bolster the economy and stem the rising flow of refugees into West Berlin.

The German Communist press reported that production standards were going up and that workers would be docked for less than perfect jobs.

Just after Soviet Premier Nikita S. Khrushchev's Berlin speech on Monday, Moscow re-

ported that factory workers in a number of Russian cities had "asked permission" to work an extra hour a day to help meet military quotas.

The Communist newspaper in Schwerin said that Red officials would inspect all construction jobs to insure that the highest work norms are met. Only "class one" work will get an East German his full pay with 90 per cent going to the construction man whose work is "class two" and only 70 per cent for the man whose work is deemed a poor "class three," it was reported.

A hike in the hated work norms for construction workers eight years ago sparked the bloody uprising of June 17, 1953, which was crushed by Soviet tanks and troops.

A continued shortage of consumer goods has made life drab for Germans behind the Iron Curtain and contributed to the restiveness heightened by Khrushchev's speech.

A record number of East Germans, spurred by fears that the West Berlin escape route soon may be closed, poured across the border to freedom Tuesday.

Officials said 1,741 refugees slipped past Red border guards and asked for asylum. It was the largest number in a single working day since the 1953 revolt.

The puppet East German Parliament scheduled a special meeting for Friday to discuss the possible peace treaty with the Soviet Union, which it hopes would seal off the West Berlin escape hatch that is draining the regime of its farmers and industrial workers.

Khrushchev has vowed to sign a peace treaty by the end of the year which would give East German control over the routes from West Germany into divided Berlin.

### PLANS DIVORCE

HOLLYWOOD (UPI) — Actress Rite Hayworth's attorney said she has reached a property settlement with her fifth husband, film producer James Hill, and will sue for divorce. The couple separated last June after three years of marriage. Miss Hayworth, 41, previously was married to Orson Wells, the late Aly Kahn, oil man Ed Judson and singer Dick Haymes.

The Bodleian Library of Oxford University contains about 1.5 million books.

## Support Price On Wheat Set

WASHINGTON (UPI) — Secretary of Agriculture Orville M. Anderson yesterday set the support price on 1962-crop wheat at \$2 a bushel, providing farmers approve marketing quotas in the August referendum on the new wheat stabilization program.

The support price reflects 84.4 per cent of the August parity price of wheat. It compares with the 1961 support price of \$1.79 a bushel, which reflects 7 per cent of parity.

The new wheat stabilization program is provided for in the farm act which President Kennedy signed Tuesday.

In general, the 1962 wheat stabilization program provides for cutting wheat acreages below the present national minimum allotment of 55 million acres.

Payment would be made to producers for reducing their acreage. Provisions relating to marketing penalties on wheat production in excess of acreage allotments would be strengthened. Small farm exemptions from marketing quotas would be modified.

## Soil Testing Available To County Folk

Gray County farmers submitted six soil samples to the Agricultural Extension Service Soil Testing Laboratory at Lubbock during the months of May and June, according to Foster Whaley, Gray County Agricultural Agent. This was part of a total of samples received by the A & M College Laboratories for this period.

Whaley points out that the Agricultural Extension Service maintains and operates this Soil Testing Laboratory for Gray County farmers to use in determining their fertilizer needs. Even though soil tests have some limitations in determining fertilizer needs, Whaley says that the \$2.00 spent on a soil test is the most important money spent in a fertilizer program.

Submit your samples now to determine needs for your crops to be seeded this fall.

This service is also available to Home-Owners in Pampa, Lefors, and McLean. By calling the County Agents Office - Ph. 4-3441, forms and instructions will be sent you.

## Revival Planned By Lefors Church

LEFORS (Sp) — The Methodist Church is planning a revival meeting that will be held Aug. 20-27. Rev. H. Carl Cunn, pastor will conduct services.

Everyone is invited to attend each night at 7:30 p.m. and regular service hours on Sunday.

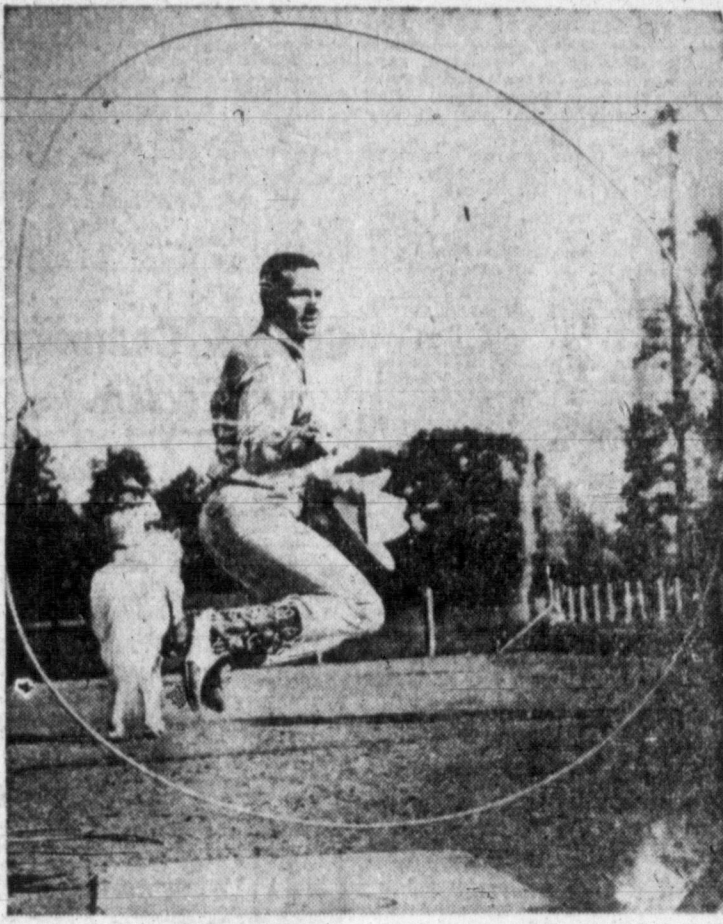

The Methodist Youth Fellowship will be on a spiritual retreat Friday night at Lake McClellan. The youths and sponsors will leave the Methodist Church at 3 p.m.

**HI-POCKETS**

I'M NO DUMMY — DON'T I ALWAYS REMIND YOU WHEN TO BUY OUR NEWSPAPERBOY?

COLLECTION DAY, TODAY

CHAMPION ROPER—Jim Eskew, Jr., world's champion trick and fancy roper, will be one of the feature attractions at the 31st annual Woodward Elks Rodeo, August 30, 31, September 1, 2. Following in the foot steps of his ideals, the late Will Rogers and Chet Byers, Eskew has appeared at Madison Square Garden, N. Y. thirteen times. At the age of five he was featured at the famous Calgary Stampede in Calgary, Canada.

## Actor 'Excited' About His New Television Show

By FRED DANZIG  
NEW YORK (UPI)—Fish gotta swim. Birds gotta fly. An actor must act. A columnist must column.

And it seems that in order for the actor to keep acting, he must talk to writers who keep writing for readers who like to keep reading. If you examine this broad design closely, you'll sometimes find an interior pattern. The unvarying show biz pattern might be a three-year cycle of interviews which, when condensed into one column, might look like this:

Aug. 8, 1959: Handsome Glenn Niff is about to realize his fondest dream: a TV series of his own.

After 26 years as a motion picture star, Niff is excited about his first TV venture, a situation comedy called, "The Bunch Back Home."

In an exclusive interview, Niff said he would portray an elderly banana peddler, the head of a large, rambunctious family, who encounters fresh adventures and bananas each week. "It'll get me away from being type cast as a suave gambler," Niff said. "Everyone who has seen the pilot film has loved it. They tell me the agency guys and the network brass have all flipped. Sponsors are lining up. Believe me, it's a great feeling. You know, motion pictures were no longer fulfilling for me, as an artist I mean... etc."

One year later: Handsome Glenn Niff is happier than ever. When he's not on stage, starring in the new Broadway comedy hit, "Shave and a Haircut," he's thanking his lucky stars that he's missed getting dragged into a TV series last year.

"We made a pilot film for a comedy show about a banana peddler," Niff recalled. "I had reservations about it, but I got carried away by everyone's enthusiasm. Anyhow, sponsors were supposed to be lined up. Turned out that we got in too late for the spring market, when these shows get sold. Anyhow, we got locked out. I think the sponsors didn't want to gamble on something

WHITE DEER BEAUTY — Miss Adela Bicksell, 15-year-old daughter of Mr. and Mrs. W. L. Bicksell, White Deer, was recently selected as "Miss White Deer Stampede for 1961" at the White Deer Stampede Rodeo. She was awarded the top honor over runner-up Sherry Hefner. Cherry Baker and Jhon Urbanczyk were also finalists. "Miss Stampede" will represent White Deer at the "Miss Sweetheart of Nation" contest in Perryton, Aug. 19.

fresh. But look how lucky I was. If I went into TV, I'd be tied up for years. Broadway — where I have realized full artistic fulfillment — would have been out of the question... etc."

And now, Aug. 8, 1961: Handsome Glenn Niff is about to realize his fondest dream — a TV series of his own.

Last seen in the Broadway comedy, "Shave and a Haircut," Niff is heading for Hollywood next week to star in a TV series called, "Fresh Fish."

## It's The Law In Texas

### THE CAMP STOVE

Nancy and her husband, along with several other couples, were going on a weekend camping trip to a nearby lake. Before leaving Nancy bought a small camp stove to cook the fish they planned to catch.

The first time that Nancy tried to use the stove, the gasoline container, which was a component of the stove, exploded. Nancy sustained severe injuries, and she sued the manufacturer of the stove.

At the trial there was testimony that the gasoline container was defective in that there was not a sufficient overlap of the edges of the cap and the body of the container, and that such defect was the cause of the explosion.

The manufacturer claimed that the explosion was caused by improper use of the stove. He also stated that even if there was a defect in Nancy's stove, it was an obvious defect and that she was negligent in not discovering it.

Can Nancy win her lawsuit? Yes, said the court. The stove as offered to the public was, by reason of its negligent construction, inherently dangerous. The manufacturer knew or ought to have known of the defective condition of the article it placed on the market for general use. It places no hardship on manufacturers of such articles to charge them with knowledge of their own

methods of manufacturing and of the defects in such methods if they exist.

The court further pointed out that although the danger inherent in the defect in the container was manifest to those who understood and were familiar with the method of fastening the cap to the container, it could not be said that the danger was apparent to Nancy, who had no knowledge of the manufacturing method used in making the stoves. Nancy had a right to assume that the stove was reasonably safe for use with ordinary care on her part.
