## Governor Silent About Signing Two Per Cent Sales Tax Bill

### Record Budget Given Approval By Legislature

AUSTIN (UPI) — The Texas Legislature passed the first sales tax in the state's history late Tuesday night. It is a 2 per cent tax on most items costing more than 25 cents except groceries.

The sales tax was part of a record \$354 million tax package.

The legislature also passed the largest state budget in Texas history.

No action was taken on a pay raise for teachers and other alcoholic beverages from the sales tax unless they are purchased with a meal.

The sales levy, effective Sept. 1, taxes at a 2 per cent rate most retail purchases over a quarter.

You would pay a penny tax on purchases of 25 to 74 cents, two pennies on purchases of 75 cents to \$1.24, three cents on purchases of \$1.25 to \$1.74, and so on.

The tax exempts groceries, prescription drugs and work clothing costing less than \$10. It also omits the tax on items of feed, seed, fertilizer, and farm machinery.

The bill exempts beer, wine and other alcoholic beverages from the sales tax unless they are purchased with a meal.

But passage of a revenue bill wasn't the end for weary lawmakers. They still face another special session to pass a teachers' pay raise at a date to be set by Gov. Price Daniel.

Daniel must also decide what he plans to do about the sales tax he has violently opposed. "I want to see and read the tax bill and appropriations bill before I comment on them, and before deciding the date for the session on the school program," Daniel said in a statement.

Taxes and appropriations were taken care of minutes before the midnight deadline Tuesday of a 30-day special session of the Legislature. A 140-day regular session ended in dismal failure on May 29.

Both measures were prepared by House-Senate conference committees.

A tax compromise was reached after most lawmakers were ready to give up hope and look to another special session.

The House passed the tax bill 84-62, then enough members switched votes to give the bill (See GOVERNOR, Page 3)

Losers charged they were denied their constitutional rights. They harangued Speaker James Turman in personal privilege speeches, and charged the legislature with selling out the people.

Some argued, others sulked, many slumped dejectedly in their chairs.

Senators handled their chores quietly. They limited debate, and avoided theatrics.

Both chambers played to standing room only crowds.

Lawmakers gave a historic performance. They approved the largest budget and largest tax (See LOBBYIST, Page 3)

### Cash Grab Announced By Castro

HAVANA (UPI) Premier Fidel Castro announced today the Cuban government is confiscating all cash in excess of 10,000 pesos turned in by individuals for new currency under his sweeping monetary exchange program.

Castro announced the decree during an islandwide radio-television broadcast. The decree also sharply limited the amounts of the new currency that Cubans will be permitted to use immediately.

Those exchanging up to 10,000 old pesos can collect only 1,000 new pesos immediately. The remainder will be doled out at the rate of 100 pesos a month.

Although the legal rate of exchange is one peso to the U.S. dollar, old pesos had been selling abroad anywhere from three to six pesos for the dollar.

Castro said the 10,000 peso limit would not apply to bank accounts existing prior to Aug. 5.

The Castro government announced the currency exchange program without warning last Friday. Business over the weekend was sharply limited while it went into effect.

Castro said all future pesos turned in would be placed in bank accounts on which the government (See PREMIER, Page 3)

### 'Target' 5,000 Miles Distant Hit By Missile

CAPE CANAVERAL, Fla. (UPI) — The Air Force unveiled its deadly new Atlas "F" missile Tuesday night and achieved a spectacular success with the weapon, which will be capable of sending a nuclear warhead 6,300 miles in 30 minutes.

The "quick-firing" Atlas "F" is the final model in the development of this country's first operational ballistic missile. The 82.5 foot-tall rocket is destined for underground silos at strategic locations in the United States.

Tuesday night's Atlas reached speeds of 15,000 miles an hour on its 5,000-mile trip down the Atlantic test range.

The first test firing was a checkout of instrumentation and guidance but operational models will give Atlas storable fuel capability for the first time. The refinement gives the war rocket a much shorter countdown than operational Atlases now in use at bases in the United States and Europe.

About five minutes after the launching, the two booster engines were jettisoned and the sustainer engine then rushed the missile toward its target at a speed of 15,000 miles an hour, 3,000 miles an hour below orbital speed.

The Air Force announced with more jubilation than is usually accorded routine firings that "it landed right smack in the middle of the target" a pre-determined area in the South Atlantic near Ascension Island.

Firing of the new atlas came amidst a background of buildup in the U.S. reserves and regular armed forces over the Berlin crisis, and the point did not escape the military here.

"With things the way they are these days, we were mighty pleased about this one," an Air Force officer said. "It was right on the bull's eye and it confirmed once more the combat capability of our missiles."

The new Atlas is the same size and diameter, 10 feet at the base, as the currently-used military "E" version and the Atlas "D" that has been used as booster for several space shots. The latter is scheduled to lift an American satellite (See TARGET, Page 3)

### Surprise Accord Boosts Latin Alliance Program

PUNTA DEL ESTE, Uruguay (UPI) — The United States reached agreement with Argentina and Brazil today on a master plan for transforming President Kennedy's "Alliance for Progress" into action and reshaping the economic face of the Western Hemisphere.

Informed sources said the agreement came in a surprise secret meeting held after a boastful tirade by Cuba's Ernesto (Che) Guevara touched off shouting and fist fights Tuesday in the Inter-American Economic and Social Conference.

Guevara literally challenged the \$20 billion dollar Alliance for Progress plan to match what he said Cuba could do in the next 20 years under its Communist-supported and orientated revolution.

In a meeting lasting past midnight, that challenge was accepted, according to the sources.

They said the United States had compromised on powers to be given to a committee of "wise men" that will be set up to guide spending programs under the alliance.

Argentina and Brazil had objected that as originally proposed the "wise men" committee would have such authority it would infringe on the autonomy of individual nations in their economic programs.

The United States finally agreed, the sources said, that the committee's recommendations will not be binding and that nations may submit their economic programs only if they wished to.

This concession removed the last major obstacle to the blueprint for a frontal attack on poverty, illiteracy and communism in Latin America.

Secretary of the Treasury C. Douglas Dillon told the conference the alliance represented "the hopes of millions of our people and the welfare of generations of Americans yet to come."

Latin American delegates generally were impressed with Guevara's polished delivery — he spoke for 2 hours and 19 minutes — but most dismissed his attack on the alliance as something they had expected.

"We are used to hearing this sort of thing from them," said Dr. Lorenzo Fernandez, Venezuelan delegation chief.

Several found a tone of conciliation in the speech, since Guevara offered to negotiate Cuba's differences with the United States.

But Ignacio Urrutia, president of the Chilean Chamber of Deputies, said: "He spoke with great emphasis about self-determination of peoples and liberty but did not explain why there are no elections in Cuba, nor why so many obstacles are put in the way of those who want to leave Cuba."

As Guevara ended his speech, a Cuban exile leader leaped onto the president's platform in the conference hall and shouted, "Murderer, down with communism!"

This incident touched off a melee in the conference hall and at least three fist fights erupted between pro-Castro and anti-Castro Cubans.

Bear equipment means satisfactory work, come see us, Pampa Safety Lane, 411 S. Cuyler. MO 5-771. Adv.

### Lobbyist Happy Over Sales Tax Bill For Texas

AUSTIN (UPI) — Sales tax lobbyist Tom Sealy stood jubilantly in the Capitol rotunda and cried "peace" to passersby as Texas lawmakers passed a record \$354 million tax package.

It was "peace" for Sealy and his "Citizens for a Sales Tax" organization. The tax package would raise \$319 million with a 2 per cent sales tax on most items costing more than 25 cents.

The Capitol had the atmosphere of both a Roman carnival and a wake as lawmakers salvaged the 3-day special session with last-minute action on taxation and spending.

Victors cavorted in the House chamber, where the tax measure passed 84-62.

Losers charged they were denied their constitutional rights. They harangued Speaker James Turman in personal privilege speeches, and charged the legislature with selling out the people.

Some argued, others sulked, many slumped dejectedly in their chairs.

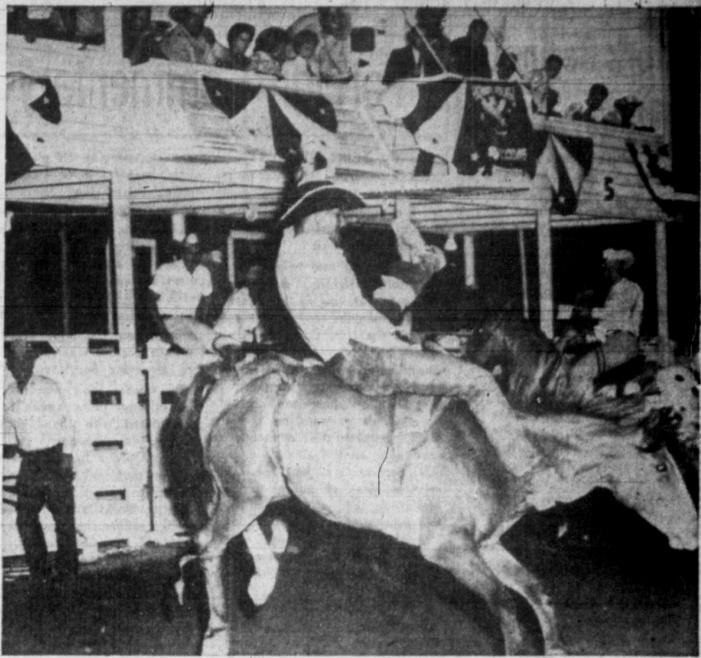

Senators handled their chores quietly. They limited debate, and avoided theatrics.

Both chambers played to standing room only crowds.

Lawmakers gave a historic performance. They approved the largest budget and largest tax (See LOBBYIST, Page 3)

TOP O' TEXAS RODEO PARADE — Thousands of persons lined Pampa's downtown streets Tuesday afternoon for the annual rodeo parade. Shown here are the crowds in Cuyler street watching as the Amarillo Air Force Band approaches at the forefront of the hour-long pageant of floats, bands, hundreds of riders and Canadian Wagon Train. (Daily News Photo)

"BOOGIE RED" WINS — Cowboy Joe Moore of Borger lost this contest with "Boogie Red," the bronc, in the bareback bronc riding event at last night's rodeo performance. A split second after Pampa News Photographer Bob Hale snapped this picture, "Boogie Red" bucked Moore into space in three seconds. Eight seconds are required to qualify. (Daily News Photo)

### Allies Warned Berlin Crisis May Intensify

PARIS (UPI) — U. S. Secretary of State Dean Rusk has warned America's European allies that a major crisis over Berlin is inevitable if Russia presses hard against vital Western interests there, it was learned today.

Rusk was said to have left the impression among Western diplomats with whom he conferred here during the last week that he considers the present Berlin crisis graver than any in the past because Soviet Premier Nikita Khrushchev may believe the strategic situation has swung in his favor.

Rusk flew to Rome this afternoon after rallying America's European partners to the firm defense of Berlin.

His last job before taking off was to preside over a meeting at the U.S. embassy of 30 ambassadors to European countries on both sides of the Iron Curtain.

American sources disclosed that (See ALLIES, Page 3)

### Rodeo Produces Thrills, Spills

By JOE LEE SMITH  
Daily News Staff Writer

Thrills and spills were plenty Tuesday night as the 17th annual Top O' Texas Rodeo got off to a colorful, roaring beginning.

The Canadian Wagon Train provided the highlight of the Grand Entry. There were 313 horseback riders including the top three riding club parade winners from Elk City, Okla., Shamrock, and Liberal, Kan. Also presented in the Grand Entry were the rodeo directors.

Producer Morris Stephen's stock gave the cowboys lots of trouble opening night while the cowboys, featuring Chester "Bobo" Barnett, kept the almost capacity crowd laughing throughout the performance.

The cowboy performers weren't laughing too much as the time in many events soared higher than usual and the Brahma bull riders really had a tough night with only one rider staying aboard the required eight seconds.

But other contestants were more fortunate, especially the three boys from Wheeler County who captured calves in the calf scramble. This event seem to delight the crowd more than the other acts according to the applause extended to the contestants.

The three Wheeler County boys winning calves were Neal Rogers, Terry McCauslin, and Lonnie Richardson. Richardson was the first one to get his calf, a white-face, to the winner's circle but he had more competition from a black angus which kept butting Lonnie as he tried to harness his calf.

"Fidel Castro" won again last night. But this time Castro turned out to be a bull and he was worth \$150 in the "Gold Rush." Castro didn't get much competition as

only five cowboys tried to snare the prize money with none of them laying a hand on the brahma.

Jim Brock, all around cowboy for the past two years, was the lone contestant to complete his ride on the bull. Brock, who underwent an operation recently, got a real tornado-like ride but still completed his ride.

Paducah's Claud Markham turned in the top time in the calf roping as he nailed his animal in 12 seconds flat. Other top times in calf roping were by Bob Thompson with 12.9 and Eldon Blackburn who turned in a 13 seconds flat time.

Top men in the bareback bronc (See RODEO, Page 3)

### Another Airliner Captured

NEW YORK (UPI) — A Pan American DC8 jet with 81 persons aboard landed safely in Havana at 1:25 p.m. CST, the airline reported today.

A Pan American DC8 jet was hijacked today after it left Houston, Tex., on a scheduled flight to Mexico City, a spokesman for the airlines reported.

A spokesman at Idlewild Airport said the plane, with 72 passengers and a crew of nine, was "diverted to Havana."

The plane, which left Houston at 8 a.m. CST and was scheduled to arrive in Mexico City at 10:30 p.m. CST, was reported scheduled to land at Havana at 1:40 p.m. CST according to the PAN Am spokesman here.

The airline spokesman said that the Havana airport has a runway which measures 10,600 feet and that it is long enough for the jet to make a landing.

He said the plane, worth between \$3½ and \$6 million was Flight No. 501.

The big commercial jet was in flight when it was diverted by persons who were not immediately identified, the airlines said. The captain was identified only as Captain Ballard.

There is an airplane leaving for London this afternoon. Most of the seats will be occupied by kindly American tourists.

Guess who else will be aboard.

If it comes from a hardware store we have it. Lewis Hdw. Adv.

### Jokes In Paris Deride U.S. About Space Race

By HARRY FERGUSON

PARIS (UPI) — The last time I saw Paris her heart was warm and gay, but not any more.

Since Soviet Maj. Gherman Titov landed his space ship she has developed a mean streak.

No American citizen can escape it. On the Left Bank, the Right Bank, the boulevards and the bistros the city is swarming with people who love to go up to an American and say, "Have you heard the one about..."

Sample: The Americans and the Russians agreed to send up space men, and have them pass each other over the Azores. The Russian space man took off, reached the rendezvous and sent this message:

"I am 125 miles over the Azores. Where are you?"

American reply: "Cape Canaveral."

The American eagle and Russian bear were out on a picnic together.

Bear: "I am stronger than you are."

Eagle: "Yes, but I can fly and you can't."

Bear: "Show me."

The eagle disappears and returns in an hour.

Eagle: "I have flown around the world."

Bear: (yawning) "Copy Cat. Russian space man Titov: 'Are you planning any more trips?'"

American space man Grissom: "Yes. Around the world. I hope we can discuss it when I return."

Titov: "Gladly. My grandchildren will want your autograph."

An American landed on the moon, crawled out of his space ship and saw a man in a white coat approaching him. The man handed the American a menu and said:

"To start with, we have caviar or borsch."

## Work Begins On Highway Project

The Texas Highway Department has announced a highway construction project beginning 8.8 miles north of Albreed on F.M. 291 and extending to the junction with U.S. Highway 66 in Albreed.

The work consists of reconstruction of grading, structures, base and surfacing. Construction began July 31, 1961 and will be completed in early spring, however, an all weather surface should be completed by November 15, 1961.

G. K. Reading, Supervising Resident Engineer of the Texas Highway Department in the Pampa area, explained that traffic will be routed along the existing road bed and especially constructed detours where necessary. Adequate barricades and warning signs will be prominently displayed and the area will be speed zoned for a maximum speed of 45 miles per hour.

Flagmen will be furnished through the work areas where traffic congestion is likely due to contractors heavy equipment. Every effort will be made to minimize inconvenience to motorists. Cooperation of the public is requested in obeying traffic signals, warning signs and speed zones.

## Russia Expels Correspondent

MOSCOW (UPI) — The Soviet Union expelled on journalistic grounds the first Western correspondent since the formal abolition of censorship March 23. He is Boho Kirsch, for the past 15 months correspondent of the Frankfurter Rundschau.

Kirsch was summoned by an official of the press department of the Foreign Ministry and accused of "systematic disparagement of the policy of the Soviet Union and of its leadership."

He was given no deadline to leave the country but was expected to leave within a few days.

Porpoises sometimes kill shark by butting the enemies' tender gill slits with their tough snouts.

## Foreign Commentary

By LEON BURNETT  
WASHINGTON (UPI) — In the summer of 1790, Congress granted Treasury Secretary Alexander Hamilton's request for a 10-ship anti-smuggling fleet.

That brought into being the nation's oldest fighting sea service, known at first as the Revenue Marine, then the Revenue Service, now as the U.S. Coast Guard.

In its 171 years the Coast Guard's duties have gone far beyond the mere keeping out of contraband. It has "real death" on the nation's enemies on the one hand, battled the elements to save lives on the other.

It performs a host of other services, less glamorous but essential to the nation's well-being and growth.

On its birthday, Aug. 4 the service received a message from President Kennedy that said in part:

"As one who is personally familiar with the work of your fine service, I should like to express my admiration for an outstanding record of performance that has not been surpassed in the annals of our country."

(Item: In World War I, the Coast Guard lost more men proportionately than any of the other armed services.)

Those first 10 ships that started the service were called cutters, a name still used for their sleek modern successors. Around 50 feet in length, they were loaded with sail for the speed needed to overtake smuggling and pirate vessels.

For the crews, Hamilton specified in July 1790, when it was "ter." The pay ranged from \$8 a month for mariners to \$30 for the skippers. And these sailors were tough.

(Item: 1799: The 70-man crew of the cutter Pickering took on the French privateer L'Egypte

## Expert Decries Group Control In Film Making

By VERNON SCOTT  
PARIS (UPI)—Question: Will Darryl Zanuck return to Hollywood to lead his troubled studio out of the woods?

Answer: "No. One-man rule of studios is gone, but I couldn't do any worse than what is happening now."

A mogul of the old school Zanuck is one of the few survivors against pirates in the Gulf of Mexico in the early 1820's.

The Coast Guard is officially a branch of the U.S. Armed Services. But it operates under the Treasury Department except when transferred to the Navy by executive order in time of emergency.

It functions in peacetime as a federal police force and a protector of life and property on the waters. In wartime, it does all these things and fights as well.

(Item: Its motto is "semper paratus"—always prepared.) It maintains weather, navigation and life-saving stations in the world's major oceans.

It patrols the North Atlantic for icebergs, and regulates the taking of fur-bearing mammals and fish both there and in the Bering Sea.

It operates ice-breakers; maintains more than 40,000 aids to navigation such as lighthouses and buoys; provides medical aid for seamen.

And it still finds time to perform its historic duty: Watching out for smugglers.

of an extinct breed. In his hey-day at 20th Century-Fox Studios he was responsible for hundreds of block-busting pictures.

From his office he could press a button and the cameras would roll. Occasionally heads would roll, too.

Zanuck, a man of tremendous vitality and energy could return to button pushing if he desired. But he knows times have changed and the movie mogul is as dead as a dodo.

"Movies today are controlled by boards of directors," he said. "It is impossible to find artistic freedom in a major studio. Everybody wants to be a producer, especially the members of the

The responsibility for producing a movie should rest with one man. He should take the credit or the blame and if he's no good he should be kicked out. It's as simple as that."

Zanuck made his last picture in Hollywood four years ago. After completing "Island in the Sun" he headed for foreign countries with his own production company.

There was no board of directors to bug him. Currently he has tackled one of the most ambitious pictures ever filmed, "The Longest Day," a story of June 6, 1944 (D-Day).

Zanuck is using the fleets of three countries—England, France

and the United States — on maneuvers in various European waters for background sequences. The picture will be more than a year before the cameras.

"One of the great problems in Hollywood are the actors who want to run their own pictures. In the old days we had them under contract and kept them under control."

### Flag Displays Add Color To Rodeo Parade

Adding color to opening day of the Top O' Texas Rodeo, Pampa firms displayed their new 50-star flags all day Tuesday. There were 73 businesses taking advantage of the Pampa Key Club rental program. The day was not among those national holidays listed in the contract, but Key Clubbers agreed to display and remove the flags especially for the Rodeo opening and the parade.

**SUMMER READING PROJECT** — This eight foot high paper tree, located in the children's section of Lovett Memorial Library, has been the library summer reading project. Everytime a boy or girl reads a book a leaf with their name is placed on the tree. According to Mrs. Wayne Blewett, junior librarian, over 6,000 leaves make up the summer program, which started June 12. A reading club party will be held Friday at 9 a.m. in the library. Left to right, around the tree are Mark Horner, Doug Thompson, Mrs. Blewett, Nicki Hunt and Susan Hunt. (Daily News Photo)

### Allies To Launch 'Facts' Barrage

PARIS (UPI) — The Western Allies are about to embark on a coordinated campaign to counter Russia's mounting propaganda barrage.

The object is to put the Western story across to world public opinion and avoid the often confusing and contradictory policy line issued in various Western capitals on any given subject.

### Dallas Jurist Honored By Bar

### Dividend Voted By Pioneer Gas

The Board of Directors of Pioneer Natural Gas Co., at a meeting Tuesday in Amarillo declared a quarterly dividend of 22 cents per share on the outstanding common stock, payable Sept. 6, 1961 to stockholders of record on Aug. 25, 1961.

C. I. Wall, president, stated that the net income for the first six months of 1961 amounted to \$3,105,57, or \$8.89 per share on 3,467,49 shares outstanding on June 30, 1961. These earnings compare with \$2,993,330, for the first six months of 1960 or \$8.89 per share on 3,362,254 shares outstanding on June 30, 1960.

### Lobbyist

(Continued From Page 1) bill ever passed by the legislature.

Lobbyists were gleeful over escaping a heavy load of business and industrial taxes.

One lawmaker commented, "The TMA (Texas Manufacturers Association) is flying over the Capitol tonight."

Temper flared after the tax bill passed. Some lawmakers were ready for violence. Rep. Neil Caldwell of Alvin, one of the losers, calmed things with a remark to the House that "first fights don't accomplish anything in alleys and they don't accomplish anything on the floor."

### Allies

(Continued From Page 1) Rusk, British Foreign Secretary Lord Home, French Foreign Minister Maurice Couve de Murville and West German Foreign Minister Heinrich von Brentano agreed the West should take the diplomatic initiative on Berlin some time in the next few months. That is not expected to take place before the Sept. 17 West German parliamentary elections.

The sources said it was agreed the actual form and timing of any Western approach to the Soviets would need further discussion. In any case, the sources said, it might be changed radically by some move by the Russians beforehand.

Rusk, it was learned, told the NATO council the United States is hastening to prepare six additional divisions at home which could be available for prompt assignment to Europe in case the Berlin crisis becomes acute.

In his talks with European officials, it was learned, Rusk said the present Berlin crisis is more serious than in the past because Khrushchev has laid down specific demands for the first time, has fixed his own position and committed his own prestige and that of the Soviet Union and has made it extremely difficult for himself to back down.

A Communist victory in Berlin, it was explained, would give far-reaching impetus to what some times is described by the Communist bloc as "the wave of the future."

American sources warned that a new uprising in Communist East Germany could further heighten the present East-West crisis and cause it to become very dangerous.

### Governor

(Continued From Page 1) 100-45 approval, the two thirds necessary to put it into immediate effect Sept. 1, the start of the next fiscal year. Senators passed the measure, 23-8.

A gigantic \$2.49 billion budget for the next two years was passed, 73-72 in the House and 22-8 in the Senate. The measure spends \$398 million from the general revenue fund, \$127 million more than the current spending.

House liberals waged a desperate last-ditch fight to kill the sales tax package.

Rep. Bob Eckhardt of Houston, who saw his gas pipeline tax reduced to a token levy in the package, called the measure the "Sealy-Wilson" tax.

He referred to John Sealy of Midland, head of the "Citizens for a Sales Tax" lobby group, and Atty. Gen. Will Wilson, who revised the pipeline tax to exclude all gas processed by gasoline plants. Eckhardt said it destroyed 78 per cent of his bill's potential.

Rep. Charles Ballman of Borger, chairman of the House conferees, said the token pipeline tax would provide an ample court test of the taxation theory. Two previous pipeline taxes were declared unconstitutional. The levy, as written by Eckhardt, was a major stumbling block in House-Senate negotiations.

The 2 per cent sales tax on most items costing more than 25 cents ended 22 years of fighting over the controversial levy.

Rep. Franklin Spears of San Antonio charged the sales tax made the bill "a soak the poor and pamper the pipelines tax."

The tax package also contains a two-year continuation of the \$2.75 per \$1,000 corporate franchise levy that was scheduled to drop to \$2.25 Aug. 31, a 50 per cent increase in drivers license fees, and a bookkeeping setup to save money.

A swarm of lobbyists, teachers, state employes and just plain citizens jammed the galleries to watch the lawmakers make history.

The tax package was a compromise version of a bill the Senate had sent the House.

The conference committee deleted a section that would have reduced the gross receipts tax on telephones and telegraph \$4.7 million and a section to the sales tax to exempt those services.

### City Commission Approves Bills

Pampa's City Commission at its regular meeting in City Hall Tuesday approved monthly bills totaling \$14,257.67 and Lovett Memorial Library bills for \$205.30.

Also approved for payment was an invoice for \$945 to Continental Oil Co. for gasoline and oil, \$23,053.11 to Brodie-Enix Construction Co. of Amarillo for water and sewer replacement lines, and \$1,066.12 to Merriman and Barber of Pampa for engineering work on the lines.

The city secretary was authorized to transfer \$50,000 from the general fund to the water and sewer fund.

### Target

(Continued From Page 1) ironat into his first orbital ride. Development of the storable-fuel Atlas will give the U.S. three quick-firing intercontinental missiles by next summer. The others are Titan, which will use storable liquid fuels in new models, and the Minuteman which uses solid propellants.

The three engines of the new Atlas generate 389,000 pounds of thrust, 29,000 more than current operational models. Using push-button guidance, it can send a nuclear warhead for 6,300 statute miles and smack the bull's eye as did Tuesday night's experiment.

### Rodeo

(Continued From Page 1) riding were John Holt, Brock and Cotton Barrington, all of Lubbock, and Jim Willfield of Big Spring. Barrington also finished his ride in the saddle bronc as did Bob Sherrod, McLean, Garland Rose, Lubbock and Bob Chambers, Amarillo.

Dallas' Jim Lee gained the only time in the calf roping but he had a tough time before he finally downed his animal in 63.2 seconds.

There were two top contestants in the double mutton with Keith Barnett and his partner Tootie Henry turning in the best time of 33.2, Sammy McLean was the other top performer in this event.

Virginia Watson, Aline, Okla., who tied for first in the Girl's Reining contest in 1960, had the best time in this event Tuesday night with 20.7. Dora Waldrop, Amarillo, and Janice Dillman, Pampa, took the second and third best times.

Tonight's performance will begin at 8 p.m. and it will be Hemphill County night in the calf scramble. The Miller Bros. Band of Wichita Falls will provide the music for the Rodeo Dance beginning at 9 p.m. in the National Guard Armory Building.

Thursday morning at 8 a.m., the first Go-Round Cutting Horse contest will be held in the rodeo arena and at 1 p.m. the judging of the halter classes will be held.

Federal Reserve May Tighten Up Its Credit Policy

NEW YORK (UPI) — Aubrey G. Lanston & Co., U.S. government bond specialists, say Federal Reserve credit policy remains easy but the increase in defense spending, coming against a background of rapidly improving business activity, will limit the period

Truck Driver Escapes Harm In Accident

TURNERTOWN, Tex. (UPI)—You might think Bud Burton carries a rabbit's foot in every pocket he is so lucky. Take Monday for instance. His big trailer came too close to a broken high voltage line and sparks ignited fumes coming from an empty oil tank on the trailer.

The tank exploded. It was blown into a patch of woods about 200 yards away. The burning tank set the woods on fire. A late model car was parked on the edge of the woods. It was engulfed in flames and demolished. So was Burton's trailer and the tank. Damage was more than \$9,000.

Gatesville Urges Better Security At State School

GATESVILLE, Tex. (UPI)—More than 50 persons in Gatesville have signed petitions asking Gov. Price Daniel to tighten discipline and security at the State School for Boys where a guard was killed last week. Harry Flentge, a Gatesville attorney who is leading the Central Texas Safety Association, said Monday the petition will soon be turned over to Daniel. The association was formed by a group of Gatesville citizens alarmed at the recent killing of guard Billy Malone, 43, and an increasing number of escapes at the Gatesville school. School officials disclosed on Aug. 3 that they had uncovered a plot among school inmates to kill a second guard.

During which our monetary authorities can safely maintain this posture. At present it seems obvious the authorities would welcome some bank credit and monetary expansion, and presumably the Federal Reserve can now be counted on to supply the reserves to support seasonal money and credit demands plus some allowance for growth, the firm says. If demands for bank credit including those of the Treasury, exceed this amount the market will tighten — otherwise it will not, Lanston says. But it warns that Federal Reserve thinking can change quickly. "Should there be a build-up of inflation psychology, the Federal Reserve may well decide that monetary and credit expansion is no longer needed or even desirable. We may have monetary expansion in such circumstances, but not with the Federal Reserve's blessing, and not at prevailing interest rates."

Standard & Poor's Outlook advises maintaining a substantial investment position based on the outlook for earnings and the premise that the international situation will not deteriorate further. New commitments, if carefully selected should prove rewarding, Standard says. J. W. Sparks & Co. says it is impressed from a technical standpoint with the quality of leadership in the current market and would not be entirely surprised to see the list expand to include renewed demand for the glamorous growth stocks that were past favorites.

Rockwall County Gets First Bale Of 1961 Cotton  
ROCKWELL, Tex. (UPI) — North Texas Rockwall County Farmers Cooperative Gin, said it gained its first bale of cotton for Pullen's bale came early this year.

# First Furs Of Autumn

The first furs of fall are always beautiful jackets, right for pleasantly nippy days. Swirling bands of mink are manipulated (left) to create this jacket with wide collar and longer length. Creamy mink jacket (right) cut along straight lines has mink collar. These designs are by Dein Bacher of the Waldorf.

## Girl's Best Friend Is Spicy Powder

**ALICIA HART**  
On a hot morning in late summer, nothing is stickier than stepping from bath or shower and attempting to ease into clothes. This is the time to turn contourist in order to wriggle into girdle and stockings. (It's at this point that some women abandon girdle for panties and shed stockings entirely, always a grooming mistake.) But there is a solution. Reach for the talcum powder and use it liberally. Dust not only yourself but the inside of your girdle, too. Then ease yourself in. Since skin is moist in the dog days, prickly rash can develop wherever girdle bands are snug. Be liberal in dusting the powder about here. Half the battle in looking cool is feeling cool. If you leave the

house fresh as a carnation and feeling it, that's the way you'll look to other people, too. Scent for the end of summer should be light, never cloying. Keep this in mind when you shop for talc. Pick one that's slightly on the spicy side. Picnics And Barbecue Set By OES Chapter The Top O' Texas chapter of the Order of Eastern Star has scheduled a family picnic and barbecue for 6 p.m. Saturday in the home of Mrs. B. G. Reading, 1600 N. Russell. All members of the OES are urged to attend and to bring their husbands and children. Those planning to attend are asked to contact Mrs. Reading or Mrs. Lucille Wagner.

## New Phone Service Aids British Bride

**LONDON (UPI)** British girls who embark on a matrimonial career without knowing how to cook do not have to worry about feeding their husbands any more. All a wife has to do is dial ASK-8071 and a feminine voice will give her a recipe for a tasty meal. This is a new telephone service announced by the British Postmaster General. It started in Birmingham, and if successful will be extended to London, Liverpool, Manchester Glasgow and other main cities. The new service will provide one recipe for a main course every day. The British Farm Products Council will choose the recipe, taking into consideration the weather and the price of various foods. As one member of the council put it: "We shall not provide recipes for anything exotic. "We aim to recommend the kind of meal people with average incomes can afford." Recipes probably will include such dishes as steak and kidney pie, a fish soufflé, devilled park chops, rolled filets of plaice breaded veal chops. Of course, if anything goes wrong, the bride can always dial 999—emergency call for police, fire and ambulance.

## Program Presented At Mothers Meeting

**CANADIAN (SpI)**—The Mothers Meeting was held in the WCTU building recently, with Mrs. John Jones presiding. Mrs. Laurin Hardage introduced the program, which included a vocal duet by Mrs. Jerry Johnson and Mrs. Darny Urschel; piano solos by Jeanne Parnell and Gillis Dickens; vocal solos by Miss Sue Harrington; and a story, "Wings and a Happy Song," by Mrs. Jim Waterfield. The devotional, "How to Make Every Day a Good Day," was given by Mrs. G. F. Hoover. Hostesses for the afternoon were Mrs. Laurin Hardage, Carl Cansler, Pat Murphy and Calvert Norris.

## Dear Abby... Wife Becomes A Paid Companion

By ABIGAIL VAN BUREN

DEAR ABBY: I can't mention any names, but I would like your opinion of the following situation. A well-to-do recently retired man complained that he didn't appreciate sitting home alone five afternoons a week while his wife went out and played cards. She told him she loved playing cards, and refused to give it up. He asked her how much she could win in a good day. She told him about \$10. So now he pays her \$10 a day for every day she stays home with him.

**A FRIEND**  
DEAR FRIEND: A man who Mrs. Thomas Feted At Farewell Party

A going-away party, honoring Mrs. Charley Thomas, was held recently in the home of Mrs. Ralph Prock, 2319 Mary Ellen, with Mmes. R. C. Brown, L. R. Tyson, Nolan Cole Jim Conner, Sam atmas, Jack Cullison and Prock as co-hostesses. Mrs. Thomas is moving to Tatum, N.M. The serving table, covered with white damask, was centered with a miniature automobile pulling a white trailer along a silver strip of highway lined with miniature yellow and green road signs. The trailer filled with an arrangement of shasta daisies and green fern, had miniature pieces of furniture attached to it. Refreshments of cookies, mints mixed nuts, punch and coffee were served. Mrs. Nolan Cole presided at the punch bowl and Mrs. Jim Conner presided at the coffee service. Attending were Mmes. Ernest Luedcke, Everett Sheriff, Harold McCleery, Don Turner, N. R. Lowe, Bill Fulcher, Fred Clark, Dr., J. B. Hilburn Ed Flynt, Curtis Liles, Jim Johnston, Dan Ray, Charles Terrell—George Wing, Johnny Simmons, James Baird, Bob Hinkley, B. B. Higginbotham, J. C. Flowers, Wayne Cobb, Ralph Tyler, Melton Burns, W. G. Gooding, Gene Gates, Gene McClendon L. D. Shaw, all of Pampa; and Mmes. Vern Spake and W. L. Bal-dree both of Borger.

has to "pay" his wife to stay home with him in pretty sad shape. But if she is satisfied, and he is happy, why don't we keep our noses out of their business?

DEAR ABBY: I am a woman, 42, and am expecting my tenth child. The trouble is that my eldest is expecting her second child. And, Abby, the whole town is talking. They are saying I don't want to get old, and that the only reason I am pregnant is because my daughter is. This is not true. My husband and I love children and have always wanted a big family. People say that now that we are grandparents we should leave the business of increasing the population to the younger generation. We are able to support our children. What should I tell my jealous friends?

**PREGNANT GRANDMA**  
DEAR GRANDMA: What makes you think you have to tell them anything? A married woman needs no "excuse" for having a baby.

DEAR ABBY: My husband has a thick head of hair of which he is very proud. But he refuses to shampoo it more than once every six months. He uses a lot of hair oil, and claims that water will make his hair fall out. We have quarreled about this frequently, and I can't get anywhere with him. Our pillow cases are stained, and his head smells of rancid oil. Can you help me convince him that he should wash his hair more often?

**TIRED OF ARGUING**  
DEAR TIRE: A grown man should know that if he wants to keep his hair, he has to keep it clean. If he is too stubborn to take your word for it, urge him to ask his barber.

**High Score Honors Announced By Club**  
**CANADIAN (SpI)**—The A.C.E. High Bridge Club met with Mr. and Mrs. Francis McQuiddy recently.

Guests were Messrs. and Mmes. Harry Wilbur Jr. and Keith Rudy. Members present were Messrs. and Mmes. John D. Glenn, Tom Riley, Ted Rogers; and Mrs. Tom Abraham.

High score for guests was tallied by Mrs. Wilbur, and member high was won by Mr. and Mrs. Glenn.

## Pampa Women Attend Meeting Of Foods Group

A delegation of Pampa women have returned from the 15th annual convention of the American School Food Service Association held July 30 to August 3, in Denver, Colorado. They were among approximately 2500 persons attending the event. The ASFSA, headquartered in Denver, has a membership of more than 25,000 educators dietiticians and other specialists in a school food service. Management and expansion of school lunch programs, as well as the integration of nutrition education into the school curriculum, are the main interests of the organization.

Schools represented by ASFSA serve more than 15 million meals a day, according to the spokesman for the group. During the past year more than \$520 million worth of food were privately and locally purchased for the school lunch program, the largest single consumer of surplus agricultural products it was reported.

Attending from Pampa were Mrs. Edna Andrews, Lamar school; Mrs. Jerry Schultz, Horace Mann school; Mmes. Roy Kilgore and Ellen Swindell, high school; Mmes. Lois Jack and Mary Clark, Robert E. Lee junior high school; Mrs. Thelma Cruise, William B. Travis school; Mmes. Jewell Pullen, Alma Davis and Margaret Smith, Stephen F. Austin school; and Mrs. Lucille Yager, Sam Houston school.

## Mrs. Jim Waterfield Hostess To WSCS

**CANADIAN (SpI)**—Circle 2 of the First Methodist WSCS met with Mrs. Jim Waterfield recently. The business session was conducted by Mrs. Russell Shaw; the devotional, "Creation" was given by Mrs. John Ball; and Mrs. Ted Rogers gave the program, "Missionaries in Foreign Lands." Attending were Mmes. Shaw, Ball, Rogers, W. A. Merrell, C. R. Cook, Pack Gwaltney, G. F. Hoover, Charles Teas, Paul Patton and F. D. Teas.

## Manners Makes Friends

If you can't remember a name, say, "I'm sorry, I can't recall your name."

If you have 20-20 vision, it merely means you can see clearly at 20 feet or more. Only a complete professional eye examination, says the Better Vision Institute, can tell you if you're straining your eyes when you read, watch TV, or drive, to mention only a few visual tasks.

## Special Eye Care Recommended For Summer Beauties At Beach

What is your most valuable possession? House? Money? Car? Think again. How about your eyesight? Eyes are certainly one of our most precious - and most fragile - possessions. They deserve to be kept healthy as well as beautiful. Since there's still plenty of hot weather fun time left, here are some tips from Helena Rubinstein on summer eye care and make-up that can help you do both.

Smart beauties at the beach apply waterproof eye make-up before taking a dip. After all, what good is that hard-earned svelte figure and cute swim suit you just had to have if you emerge from the water with eyes looking like smudge pots?

Here is a trick used by screen stars to make eyes seem larger and lovelier. With a bit of practice you can do it too. Be sure your lids are completely dry and free of any trace of greasy cream. Use a thin sable brush to apply waterproof liquid eye liner directly above the lashes. Taper the liner by brushing a very thin line on lids at inner corner of each eye. Widen the brush strokes at center of lid directly over the pupils and then taper it thin again but slanted up at the outside corners. Play it summer time cool by using shades

of the sea and sky such as baby blue, emerald green or turquoise. Apply Helena Rubinstein's eye shadow stick directly above the liner. Try water nymph shades of true blue, emerald green or jade. And here's a hint for girls with deep set eyes. Keep the shadow close to your lash line and away from the hollow portion of the eye socket. If the bone above the eye is too prominent, shade that area subtly with darker shadow.

Waterproof Mascara - Matic is the next step for the eyes of a lovely eye-fel. Any of the eleven luscious colors may be applied as heavily as you please with no fear of smearing, in the water or out. Since sun time is fun time go all out with two-tone lashes.

# The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

Entered as second class matter under the act of March 3, 1879.

## Wanted: More Macons

We have always been inordinately fond of stories relating to the American Revolutionary War. We confess to a feeling of pride and elation when we check the records and see how many people in America at that earlier date were as concerned with liberty and freedom from excessive taxation as many of us are now.

Most of the heroes of that period are well known to us... men like George Washington, of course and Tom Jefferson, Tom Paine, Patrick Henry, Sam and John Adams (cousins) and, of course John Hancock, Ben Franklin and the rest of those tremendous men who gathered to outline the purpose and to fight the battles.

Only recently we were able to obtain a copy of James Street's book on "The Revolutionary War" and we are indebted to him for revealing to us the name of another patriot who must certainly be moved into a niche alongside the rest of our personal heroes.

We are referring to Nathaniel Macon a man from Princeton, Prior to Mr. Street, we had never heard of him.

Macon pushed his books to one side when the war started, and enlisted. He tried to make him an officer and he refused. He didn't want to be anything but a private. He didn't like anybody bossing him and he was willing to agree not to boss anyone else.

In spite of this, when he got back from the shooting he was elected to the North Carolina Senate. He refused to report to the legislature. He just wanted to be a politician. He just wanted to get the British out of his hair so he could finish his education and mind his own business.

General Greene persuaded him to go into the legislature at least long enough to get some supplies for the army. He went in, didn't get the supplies and went home.

Then he was elected to the Continental Congress. Once more he refused to become a politician. But when the Continental Congress became an instrument to set up the Constitution rather than to amend the Articles of Confederation,

## Mass Movement History

There was a time in our history when government concerned itself largely with the protection of life, limb and property. Not that it ever managed to contain itself strictly to these limits. But the overall effect of its self-discipline was to leave a large area of enterprise in which private persons could do pretty much as they pleased.

There grew up, during these years, the idea that by acting in this restrained fashion, government was in essence bowing before big business, big money and big property. The idea was carefully nurtured in the incubator of communist and socialist economic agitation.

But what actually transpired during those years was the growth of bigness in business and industry. It wasn't that government was particularly engaged in genociding before big business. Rather, it was that the government kept largely in the background and small businessmen, left to prosper or perish as they could, found room in which to grow to large size.

If it is true, lamentably, that big business (and sometimes business not-so-big) took occasion to enter the realm of politics for purposes of influencing the passage of legislation favorable to it. This tie-in, usually occurring at election time and much sought after by political hopefuls as a means of filling their war chests, gave substance to the earlier accusation that government was merely a capitalist tool, used for purposes of obtaining special favors and privileges by means of law and tax.

The reaction set in. Marxist propaganda developed the argument that the politician who fooled around with big business was prettily short-sighted, since the mass of whom was always in the other

## The Doctor Says:

Q—Is it true that drugs used in the treatment of epilepsy often cause cancer?

A—It's decidedly untrue. The origin of this false assertion lies in the production of tissue overgrowths in certain areas, like the gums, when certain persons take anti-epileptic drugs of the hydantoin series (Dilantin etc.). These overgrowths disappear as soon as the offending drug is stopped and another of a different chemical constitution is substituted.

What often causes confusion is failure of the patient to notify the dentist or a strange physician of the nature of his illness and the medication that is being taken. This ill-advised reluctance to give a correct history is understandable but not justifiable. The epileptic has nothing to hide. He harms only himself by withholding information that would instantly explain the origin of the tissue overgrowth.

Q—I wonder if you can settle a family argument. I've been an active participant in athletics all of my life. Now that I'm pregnant, my mother and my mother-in-law insist that I give up athletic competitions of all sorts. Is this necessary? Or even advisable?

A—A recent study at Columbia University confirms the opinions that many physicians have held, to these many years. In general, about nine of ten pregnancies proceed to term. When the one in ten does not, every possible excuse is advanced. Too much exercise. A blow on the abdomen. Fright. Travel by bus, train, car or airplane. Lack of consideration on the part of the husband. Too much consideration by the husband, etc. etc.

As a matter of fact, the Columbia study exonerates activities like dancing, bowling, riding, bicycling, skiing, gardening and even motor-cycling. During the war each of us attended women who went through uncomplicated pregnancies despite travel by all sorts of vehicles. Many women play tennis and golf until shortly before the baby arrives.

praise have descended into the mass-field with their opponents. They reason that if the left can organize mass support of more goodies from government, the right can organize mass resistance to more taxation. And in the end, the side with the largest mass will win.

But the inevitable result from this type of reasoning and acting is now upon us. Free enterprise, depending entirely upon freedom and private decision, is engulfed in efforts to organize it from both sides. And in neither case can freedom nor private enterprise win the day.

To rely upon government, either to rely special favors or to prevent others from getting them, is still to rely on government. And from the standpoint of economics, energies diverted from market place functions become non-productive energies.

Today we suffer from massitis; from the supposition that if anything is to be done, it must be done by mass effort and thru political action. The cure offered by the right wing is an extension of the cure offered by the left wing. And neither side, in practice, advances the cause of freedom and independence from government.

## The Almanac

By United Press International

Today is Wednesday, Aug. 9th, the 221st day of the year with 144 to follow.

The moon is approaching its new phase.

The morning stars are Venus and Jupiter.

The evening stars are Mars, Saturn and Jupiter.

On this day in history: In 1593, the so-called "father of angling," Isak Walton, was born.

In 1831 the first train in the U.S. to be drawn by a steam locomotive made a run between Albany and Schenectady, N.Y.

In 1902, the Prince of Wales, son of Queen Victoria, was crowned King Edward VII of Great Britain.

In 1945, the second atom bomb was dropped on Japan. More than half of Nagasaki was destroyed. Almost 40,000 of the city's 250,000 population were killed and 80,000 were injured.

A thought for today: Isak Walton said "good company and good discourse are the very sinews of virtue."

## Stab in the Heart—

## Allen - Scott Report:

Reserve Alert and Draft To Be Indefinite; Will Have Impact on All Aspects of Economy

### ROBERT S. ALLEN

WASHINGTON — That call-up alert of some 28,000 National Guard and Reserve airmen is just the beginning.

In each of the next three months the draft will be tripled to at least 20,000.

It's possible the first big increase in September will be as high as 25,000, depending on volunteer enlistments in the next few weeks.

Behind these expansions of military manpower is a far-reaching basic decision.

The strength of the armed forces is to be rebuilt to a high level and kept there indefinitely; that is, it's to be "permanent."

President Kennedy and his top military chiefs have decided that it is crucially essential for three key reasons: Russia's steadily growing military and industrial might; intensifying worldwide aggressiveness; and Red China's open espousal of the concept that World War III is inevitable.

This underlying Administration policy means an annual defense budget of around \$48 billion.

That stupendous total could go higher, depending on what happens in Berlin, Cuba, South Vietnam, Iran and other smoldering danger points. But a \$48 billion defense budget is a certainty for the next several or more years.

This will have telling impact on virtually every aspect of the national economy.

The President and his Treasury and economic advisers are counting on that to largely pay for these vast military expenditures. They confidently expect a big upsurge in tax revenues in the next six months.

However, the President will definitely ask Congress next year for increases in corporation and excise taxes.

IN THE WORKS — He was on the verge of doing that when he made his grim Berlin crisis telecast.

But he was dissuaded at the last moment by his Council of Economic Advisers with the argument that a tax hike at this time would be a serious drag on business recovery.

What Congress does this session on plugging a number of loopholes depends on what the House does.

If it votes this Administration-advocated legislation within the next few weeks, there is a fair chance the Senate will take it up. Otherwise, it will have to go over to 1962.

Senator Harry Byrd, D-Va., chairman of the Finance Committee, says three weeks will be required to consider such a House bill. That means it will have to reach his committee very soon to be acted on before Congress adjourns.

Right now, the outlook is not promising.

One backstage reason is that the Senate Democratic Policy Committee is now aiming for a win-up by Labor Day.

This unannounced decision was reached at a private meeting with the chairman of key Senate committees. After a detailed canvas of the legislative situation, this group of top leaders agreed to seriously try for adjournment by Labor Day.

They are certain the House can do that. But the Senate is a different matter.

However, Congress has been in session nearly eight months, and once adjournment steam builds up, a great deal of legislating can be transacted in a short time. That's an old, old story in Capitol Hill.

### EDUCATION COMPROMISE

Speaker Sam Rayburn, D-Tex., is proposing a compromise aid-to-education bill limited to school construction and for so-called impacted areas. He is backing this stripped-down version of the Administration's embattled \$2.5 billion program as a means of getting around the Rules Committee where that measure has been stalled for weeks.

Rayburn is claiming considerable southern support for his compromise, which he is considering bringing directly to the House by suspension of the rules that require a two-thirds vote. With southern backing he might do that.

Senator Paul Douglas, D-Ill., has had to go to unusual lengths to bring witnesses before the Banking Committee to testify for his controversial "truth in lending" bill. Senator A. Willis Robertson, D-Va., chairman, has refused to pay witnesses' expenses on economy grounds. So Douglas is doing that out of his own pocket. This has compelled Senator Wallace Burnett, R-Utah, leading the fight against this legislation, to do the same thing for his witnesses.

Senator Thurston Morton, Ky., former Republican National Chairman, is up-in-arms over foreign imports of bourbon — which he darkly views as spurious. To strike a resounding blow against these false whiskey inroads, Morton has introduced a resolution denouncing them and calling on the government to "take appropriate action to deter and prevent persons outside the United States from designating whiskey as 'bourbon whiskey' and to prohibit the importation into the United States of such whiskey."

It's still uncertain whether Congress will enact legislation this year giving District of Columbia voters a ballot in the 1964 presidential election. Such legislation is needed to implement the 23rd Constitutional Amendment that gave District residents the vote in national elections. A bill to do that is pending in the Senate and House District committees, but when it will be acted on is conjectural. The measure would give an estimated 300,000 Washingtonians a vote in 1964.

## The Nation's Press

### PRICE DISCRIMINATION

(Economic Intelligence)

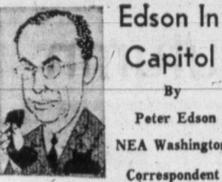

"The COPE office in Washington had a steady stream of visitors last week as delegates to the annual meeting of the U.S. Chamber of Commerce came in to purchase copies of the COPE political handbook, How to Win. The cost to them for each handbook was \$3, but to union members the charge is only \$1.00" — COPE, AFL-CIO, Washington 6, D. C.

### DEBT: PUBLIC AND PRIVATE

(Economic Intelligence)

This report analyzes the nature and structure of our national debt; growth and composition of debt of state, local governments, and corporations; and mortgage and consumer debt. The report contains a wealth of factual reference material necessary to an understanding of the nature and functions of debt in a modern and dynamic economy.

The study is a completely revised edition of a 1958 report by the same title. (Price \$1.00, quantity discount.)

WASHINGTON — The best way for an American to understand the 60,000-word "draft program of the Russian Communist Party" just made public in Moscow is to compare or contrast it with something similar, like a U.S. political party platform.

The Communist draft program is about six times as long as the Republican or Democratic platforms of 1960. An assumption that the Commie document therefore contains six times as much hokum as a U.S. political platform may not be far wrong.

The Russian draft program will be submitted for adoption to the 22nd Congress of the International Communist Party which meets in Moscow next October. The chances for revision are roughly just about as great as the chances for revision of an American political party platform at a national convention, after the Resolutions Committee submits its draft and the organization steamroller shoves it through.

Few Americans are going to read the full text of the Communist program, which took eight full pages of the New York Times to reproduce. Few Americans read the full texts of the Republican or Democratic platforms in this country either.

The amateur and professional experts on Russia in Washington who have read the full Communist program come up with some reassuring conclusions about it.

The last time the Commies put out a snow job like this was 1919. That was the year after Nikolai Lenin established the "dictatorship of the proletariat" in Russia.

Any American political party that didn't revise its platform of ten years ago in 41 years wouldn't have much chance of survival. On second thought, some critics may say this is the trouble with American political parties. Neither one of them has revised its platform much in — well, say since 1932. But the Commies have a real monopoly and they can get away with it.

Anyway, this 1961 draft program of the Communists promises that within the next 20 years this "dictatorship of the proletariat" will end in Russia. The promise is that it will be replaced by "democratic electoral procedures."

These aren't explained except for a reform in the election of new members for one-fourth of the Central committee every four years. But this doesn't mean much because the Secretariat will still run the government. It doesn't mean that there will be free popular elections in Russia by 1981.

What the experts say these "democratic electoral" procedures mean is that there will be some effort made to shift from a socialist state to "pure" communism — an old party line.

What the draft program says this will mean for the Russian people is free rent, lower prices, abolition of income and other direct taxes, free municipal transport, free midday meals for factory workers and school children, expanded free medical, rest, vacation, education and other social services.

This outpromises anything any American politician has ever dared offer. Stupid people may believe such pie-in-the-sky stuff, but any sophisticated person — even the Russian intelligentsia — just know it is political baloney.

Even the communist draft program admits that all these goodies may be delayed if there is another world war. But there is no declaration of a Communist war against the capitalist countries.

On the contrary, the whole Communist program seems to be built on an assumption of 20 years of peaceful coexistence with capitalism, in which communism would emerge triumphant. Prevention of nuclear war is declared possible in this generation by peaceful means.

The Communist program is most notable, perhaps, in what it does not say about contemporary crises. Laos and Berlin are not mentioned. Germany is mentioned once as a hotbed of militarism. Lenin is mentioned, but Stalin and Khrushchev are not named once. There are veiled references to Yugoslav revisionism and the sectarianism of Chinese Communist dogmatism. Soviet Russia is made the only true trail blazer for all Communist tactics.

Why the Communist program was issued at this time is a matter of speculation. One theory is that since Chairman Khrushchev is 67 and nearing the end of his career, he may have wanted to leave behind a lasting document of party principles which will stand as a guide for the next 20 years.

## Pegler Says:

## CIA Being Deflated More Gently Than It Deserves

By WESTBROOK PEGLER

NEW YORK — The Central Intelligence Agency, an enormous blimp of gas and mystery, is being deflated more gently than such a failure deserves, and superseded by another mysterious but hardly more fallible bureau. We shall never know what the CIA cost us in the blood-taxes of American workers, a reference to the fact that most of our government revenue may be measured in drops of the blood of workers of all kinds because the working years of the taxpayer are the vital source of all this money. He pays no income tax before he starts working and, in general, he pays either none or only a trifle when he is washed up.

So the wealth the CIA squandered actually was a measure of the life earnings of us all. We are supposed not even to inquire, still less make fools of ourselves by demanding to be told how many billion the CIA somehow received in secrecy. Not even Congress was allowed to know and members who felt inclined to be obstreperous apparently were taught to behave. At any rate, there has never been a real clamor for the truth.

The White House has been as diffident and mysterious as the CIA itself and it is not clearly understood whether Presidents Truman, Eisenhower and latterly Kennedy knew the facts clearly.

Ike made one clumsy bow to necessity when he chose General Jimmy Doolittle to investigate and "report" on the CIA in 1954. Doolittle was Ike's loyal friend — possibly henchman is not too strong a word — and like me may have longed for a nice estimate of the CIA and especially of the administration of his friend, Lieut. Gen. Bedell Smith, who held the CIA job for a hitch.

General Smith had two strikes on him — the mystery of Pearl Harbor Day in Washington and the German surprise in the Battle of the Bulge. He was the last one before Allen Dulles, who is about to be relieved, to use a pleasant word, apparently in a consequence of a bad appraisal of the "situation" in the disastrous failure of our invasion of Cuba. General Doolittle's specialty was gasoline engines for aviation. He had phased out, as the jargon put it, about the time that jets took over the skies, but nobody would deny his great competence in his field, including flight.

His special qualification, however, for detective work, or intelligence, which is the CIA's field, has never been revealed. He has no unusual knowledge of languages and the Public was not told what methods he followed to his conclusion that the CIA was doing good work.

My own nosy intrusions into the CIA began about 1951 when I learned accidentally that this colossal thing was carrying on with Dave Dubinsky's political foreign service, a mysterious band of poseurs including many fakers from the old Trotsky Communist slums of New York. Dubinsky had, by himself, decided that Jay Lovestone, the original commissar of Soviet Communism for the United States, had thoroughly apostatized, repudiating not only Trotsky but Communism, per se. I made patient inquiries but never found anything more convincing than the affirmations of a

few of my acquaintances in the Dubinsky zone of unionism that they firmly believed Lovestone had come over to our side. Dave's European hetman, Irving Brown, a used-up old political hack of the same cut, had followed Dubinsky to Belgium and Germany. Now this gang was trying to blow him up into a daring and mighty enemy of the Kremlin in the western European countries. His press agents advertised his great courage and cleverness in frustrating a strike against American ships laden with war material for the Western Armies around 1954. But one of them made the mistake of writing that Brown had lammed out of Paris for Brussels when the Muscovites threatened to slap his face and I personally interviewed an American ordnance brigadier who said he himself was the one who licked that strike. Brown had some of that gold, green American money for such purposes and he gave a bundle of it to the strikers to pull a way from the ammo ships and go over to the other side of the harbor and picket some garbage scows instead. Brown never was willing to face me in Europe or New York.

The CIA apparently failed badly in Poland in giving some millions of our money to the wrong spy, and worse in Korea, but one can write only "apparently" because these people never had to account to any authority for anything, whether money or failures.

It may be that we do need some such organization, but the need never has been shown to the public. And the absurd size which has been indicated, but, again, not revealed, and the fact that Dubinsky's and George Meany's unionists are subsidized for terms of soft life now lengthening into actual careers, has been a reproach and a discredit from the start. I have made faithful inquiry and far from discovering any reasonably competent detective, I have verified in the CIA's forces only four-flushing amateurs with no ability.

We could have had better for the cost of the New York Police Department's Detective Division.

## matter of fact

A golfer spends most of an afternoon playing 18 holes. Yet only during a fraction of that time does he "play golf." Stop-watch tests show that for 18 holes a golfer spends an average of 12 minutes addressing and hitting the ball. The rest of the time he walks. Golf, it appears, is a long hike with some interruptions.

# Cavalanche Wins At Saratoga Springs

By United Press International  
When Cal Partee's Cavalanche decides to win a race, he doesn't leave much to chance.

The 2-year-old colt started a crowd of 12,332 at Saratoga Springs Tuesday when he completely outclassed eight rivals in a 10-length decision over Endymion in the \$10,000 Yearling Sales Plate Stakes.

It was the second victory in four lifetime starts for Cava-

lanche, and his previous triumph was just as mighty as he scored by eight lengths over Hampton Bay.

Cavalanche negotiated the five and one-half furlongs in 1:34.5, just two-fifths of a second shy of the track record set by Tea Olive in 1946. Cavalanche, a brown son of Bolivar 2nd, paid \$10,200, \$4,900 and \$3,500.

Elkcam Stable's Opus had to struggle a little harder for his

Victory in the feature at Atlantic City, coming from three lengths off the pace in the stretch to defeat Beau Admiral by a length and one-quarter.

Steve Brooks, who won the Jockey Championship during the recent Monmouth Park meet, completed a double for the day as he rode Opus over the five and one-half furlongs on grass in 1:04. Opus returned \$4.80, 3.4 and \$2.80.

Queen America established a track record in the feature event at Del Mar by covering the mile and one-sixteenth on turf in 1:45 1-5. Gone Fishin' was second to Queen America who paid \$5.40, \$3.40 and \$3.00.

Newellah (\$10.00) won the feature at Arlington and Mr. Fantastic returned \$7.60 at Rockingham.

**AUTHENTIC** — While everyone talks of Mickey Mantle and Roger Maris, Harmon Killebrew of the Minnesota Twins heads for his biggest year in the home run derby.

## Texans Drop Four Players

DALLAS (UPI)— Coach Hank Stram cut four players from the Dallas Texans of the American Football League Tuesday and sent his squad through a 90-minute workout.

Dropped were center Arvie Martin of Texas Christian, half-back Larry Rundle of Oklahoma State, and ends Pat Fruehan, Army, and Denis Clark of McNeese State. The Texan roster now stands at 52.

At least four players will miss the exhibition game in Midland Saturday night against the Denver Broncos. They are guards Sid Fournet and Al Reynolds, sidelined with training camp injuries, and defensive back Don Flynn and defensive end Larry Muff, who suffered knee injuries in the Texans 39-28 victory over New York last Saturday.

## Murtaugh's Talk To Umpire Costly

PHILADELPHIA (UPI)— Talk is cheap but Pittsburgh manager Danny Murtaugh found out today it cost him \$50.

Murtaugh was fined that sum for an argument with umpire Ed Sudol in Cincinnati Sunday. The Pirates' manager received notice of the fine from National League president Warren Giles.

## TAKE ON CHAMPS

LONDON (UPI)— Howard Kind of Reno, Nev., will meet European heavyweight champion Dick Richardson in a 10-round bout at the Empire Pool, Wembley, Sept. 5.

## Schoolboy Cage Stars Tangle Again Tonight

SAN ANTONIO (UPI)— The North and South renew their coaching school basketball rivalry for the 17th time tonight with the North a solid choice to resume its domination of the series and rack up its 11th victory in Alamo Gymnasium.

An edge in height at the crucial post position and a deeper bench caused observers who have watched the two squads work out since last Saturday to pick the Northerners to win their sixth game in the last seven after being upset a year ago in Dallas.

A crowd of 4,000 or more, a majority of them coaches attending the 28th annual Texas High School Coaches Association clinic here, was expected to brave the clammy confines of Alamo Gym for the game.

Meanwhile, the North and South football squads put the finishing touches on training for Thursday night's grid game at adjoining Alamo Stadium — the closing event of the coaching school which has drawn a record 3,300 coaches to four days of lectures.

While the North was favored in basketball, the South—boasting a great array of passing and running backs, a staunch line and

## Phils And Pirates Have Big Brawl

United Press International  
For sheer guts, you gotta hand it to those fightin' Phillies, who may be chumps in the National League but kept punching like champs in one of the wildest player brawls of recent years.

This one was a dilly, unlike most baseball brawls where two players square off and then patiently wait for cooler heads to break it up.

It all started during the sixth inning of the second game of a doubleheader when Tony Gonzalez, trying to score from second, was thrown out at the plate by Roberto Clemente. Pirate catcher Hal Smith tagged Gonzalez with such vigor that the Philadelphia center fielder came up punching.

Players from both dugouts immediately streamed onto the field and promptly were joined by shock troops from both bullpens.

Oh, yes, the ball games. The Pirates won 'em both, 10-2 and 3-2, with Harvey Haddix and Tom Sturdivant getting the victories. Smoky Burgess delivered the most telling blows in the opener, collecting a homer and four singles. Don Hoak homered in the nightcap and so did Gonzalez—after the brawl was over.

Elsewhere in the National League, things were a bit quieter. The Los Angeles Dodgers increased their lead to a full game with a 7-3 victory over the Milwaukee Braves while the St. Louis Cardinals downed the Cincinnati Reds, 6-5, and the San Francisco Giants beat the Chicago Cubs, 8-1.

The New York Yankees preserved their three-game lead in the American League with a 5-4 victory over the Los Angeles Angels in 10 innings, the Detroit Tigers defeated the Chicago White Sox, 3-0, the Cleveland Indians topped the Washington Senators, 6-5, and Baltimore won the first

game of a twin-bill with Kansas City, 7-0, but dropped the nightcap, 6-5.

Duke Snider led a 13-hit Dodger assault with a homer and a pair of singles that contributed to Lew Burdette's first loss in Los Angeles since June 7, 1958. Burdette was kayoed during a three-run seventh. Dick Farrell, who relieved starter Sandy Koufax in the sixth, gained his seventh victory.

Ken Boyer's ninth inning homer off Bob Purkey dissolved a 5-all tie between the Cards and Reds. The homer was Boyer's second of the game and 16th of the season. Reliever Lindy McDaniel won his eighth game.

Jack Sanford hit a two-run homer for the Giants and held the Cubs to five hits in winning his seventh game. The Giants clinched the game with three runs in the first inning off loser Don Cardwell.

Tony Kubek's 10th inning double followed by Roger Maris' single led the Yankees to their sixth straight victory and sunk the Angels. Luis Arroyo hurled three scoreless innings in relief to bring his record to 10-3. Art Fowler was the loser.

Jim Bunning spun a four-hit shutout over the White Sox to register his 13th triumph for the Tigers.

# Coaches Pick Coyotes, Brownwood For Honors

SAN ANTONIO (UPI)—Who will be the kingpins in Classes AAAA and AAA state high school football this fall? Sports writers covering the Texas High School Coaches Association coaching school give Wichita Falls and Corpus Christi Ray in Class AAAA and defending champion Brownwood and Kingsville in Class AAA the best chance of meeting in the finals.

The writer made the projections after hearing detailed reports of the "paper" strength of the teams in each of the 32 districts competing in the state's top echelons.

Wichita Falls and Brownwood appeared to be the slight favorites to emerge from the long grind with the championships and if coach Joe Golding's Coyotes make it that far again Wichita Falls will match Waco's 1922-27 record of four consecutive state finals appearances.

The Coyotes bowed to Corpus Christi Miller 13-6 last year, to Ray 20-6 in 1959 and beat Pasadena 48-6 in 1958. Brownwood

whipped Port Lavaca 26-6 in the Class AAA finals a year ago.

On the basis of reports from the coaches' panel, the Class AAAA district winners should be Ysleta in 1, Odessa Permian in 2, Amarillo Tascosa in 3, Wichita Falls in 4, Fort Worth Paschal in 5, Dallas Kimball in 6, Garland in 7, Lufkin in 8, Aldine in 9, Houston Bellaire in 10, Port Arthur in 11, Galena Park in 12, Austin S. F. Austin in 13, Ray in 14, San Antonio Jefferson in 15 and San Antonio Brackenridge in 16.

Further projection placed Permian vs. Wichita Falls and Paschal vs. Garland in the upper bracket quarterfinals and Bellaire vs. Galena Park and Ray vs. Jefferson in the southern half, round of eight with Paschal and Galena Park emerging as the favorites' semifinals foes.

In Class AAA, the district favorite loomed as Dumas in 1, Andrews in 2, Sweetwater in 3, Brownwood in 4, Richardson in 5, Gainesville in 6, Carthage in 7, Corsicana in 8, Cleburne in 9, Nederland in 10, Lamar Consolidated in 11, Angleton in 12, San Antonio Lee in 13, Del Rio in 14, Kingsville in 15 and San Benito in 16.

Andrews vs. Brownwood, Gainesville vs. Carthage, Cleburne vs. Lamar Consolidated, and Lee vs. Kingsville appeared to be the quarterfinal pairings with Brownwood, Carthage, Lamar Consolidated and Kingsville gaining the semifinals.

# Four Steeler Stars May Not Play Game

PITTSBURGH (UPI) — Gene (Big Daddy) Lipscomb said he would "stick by my race" in a decision expected to be made later today on telegrams received from the NAACP asking four Pittsburgh Steelers players not to play in an exhibition game against the Baltimore Colts Saturday night in Roanoke, Va.

The mammoth tackle, recently traded to the Steelers by the Colts, refused to speculate on the outcome of the controversy but said there were "many things to be considered."

## Victoria Nips Amarillo Club

By United Press International

Big Larry Stubing, Victoria's 220-pound left-handed hitting first baseman, cracked two long home runs Tuesday night, one a two-run job in the 1st of the 9th inning, to sink the Texas League leading Amarillo Gold Sox, 1-2.

Stubing's hitting backed the five-hit pitching of the Giants' Clark Johnson. Amarillo, still leading second-place Tulsa by six games, pushed across two runs in the first inning but Johnson closed the door after that.

Tulsa could not gain ground because Austin's Larry Mame, Maxie cut the Oilers down with three hits, 3-0. Peoper Thomas hit a homer in the sixth inning with the bases empty to provide Maxie with a winning margin.

Third-place San Antonio collected 13 hits off three Ardmore pitchers for a 7-2 victory at Ardmore. Dennis Loudenback hit a two-run home run in the second inning for a brief, 2-0 lead for the Rosebuds.

San Antonio bounced back with a four-run fifth frame and added three more in the seventh. Jim Schandevall set Ardmore down with five hits.

## Front Office Shoots Maris 'Green Light'

NEW YORK (UPI) — Roger Maris has been given the "green light" — but he isn't taking advantage of it.

The New York Yankees brass it was learned, has told Maris not to worry about his batting average and to shoot for home runs any time he can.

So what happens? Maris is bunting and hitting singles!

His 10th inning single Tuesday night drove in the winning run in a 5-4 victory against the Los Angeles Angels. And on Monday night, he laid down a perfect squeeze bunt to bring in the tying run.

Maris, who has 41 homers, admitted he is being "allowed" to concentrate on homers rather than singles and doubles.

"The funny thing about it," he said, "is that I'm not doing a thing differently since I got the okay."

Mickey Vernon, it is understood, has been given a similar green light to shoot for homers. He has 43 so far.

## ON WAIVER LIST

LOS ANGELES (UPI) — The Washington Redskins of the National Football League have placed seven players on the waiver list. Those named are back Ed Vereb, guard Rudy Colombo, end Gus Guido and Ralph Morelli.

Wilkinson said he received telephone calls from halfback Lenny Moore of the Colts and Johnson saying their Negro teammates would prefer not to play.

The NAACP leader reported, however, that the players said the final decision would be up to the management of their respective clubs.

Lipscomb said the outcome would be a result of joint talks between those involved in the incident. Big Daddy said he could not speak for other Negro ball-players on his club, 12 in all, but stated: "I will stick by my race."

Other Colt players who received telegrams included fullbacks Joe Perry and tackle Jim Parker.

A Steeler spokesman said the players were discussing the telegrams at the Steeler training camp in Slippery Rock, Pa. The spokesman said, "Our players will probably discuss the situation with Colt players involved before making a decision."

When asked if the Steelers could play without the four men the spokesman said, "It might be very difficult."

In his plea to the players, Wilkinson asked them not to play "because we're engaged here in a fight for freedom, civil rights and justice."

Wilkinson's telegrams stated the Roanoke Chamber of Commerce refused to sell tickets to the Saturday night exhibition with the Colts on an integrated basis.

Mixing of the races at sporting events is prohibited by Virginia law but Negroes have made repeated efforts to have the stadium desegregated for the game.

The Roanoke Chamber of Commerce, sponsors of the game, said Tuesday, "The game is still on."

When asked if the Steelers could play without the four men the spokesman said, "It might be very difficult."

In his plea to the players, Wilkinson asked them not to play "because we're engaged here in a fight for freedom, civil rights and justice."

At prices you can afford, Brooks Electric Co., 1101 Alcock St., can meet your needs. Telephone MO 4-2565, you'll be pleased.

## Pampa Chapter Of Texas Tech Group Revived

A meeting of the Texas Tech "Top-of-Texas" Ex-Student Assn. was held at the home of Fran and Don Morrison Sunday August 6 to discuss the possibilities of activating the Pampa Chapter. Approximately 45 persons attended the meeting and enjoyed a ranch-style meal, prepared and served by the Morrissions and Angelia and John Spearman.

Wayne James, executive secretary of the Association discussed recent developments and activities at Texas Tech with the group. A program was outlined concerning the possibilities of reorganizing the Top-of-Texas Chapter. It was announced that approximately 200 ex-students live in the Pampa area. This includes everyone who attended Tech for one or more semesters.

James told the group that the primary purpose of an ex-student chapter was for fellowship and that the annual dues should not exceed \$2. This money would be used to cover mailing expenses. James said the chapters were not expected to become involved in any major fund raising projects. Some of the larger chapters, he said, are sponsoring scholarships; however, a program of this type depends on the individual chapters.

To conclude the meeting officers for the coming year were elected, president, Gene Steel; vice-president, Ed Knox; sec. - treasurer, Jack White; and directors, Dr. J. L. Chase, Richard Cooke and Don Morrison.

**PRANK BRINGS FINES** MEMPHIS, Tenn. (UPI)—Two 19-year-old Memphis youths were fined \$51 each Tuesday in City Court for turning on 19 fireplugs which released 600,000 gallons of water over city streets last January. The youths, Ronald W. Smith and William Carol Evans Jr., pleaded guilty to charges of malicious mischief.

CONGRATULATIONS

To Mr. and Mrs. J. T. Helms, Pampa, on the birth of a boy at 6:42 p.m., weighing 6 lbs., 3 oz.

## Pampa Traffic Accident Rate Drop Reported

Pampa had 65 fewer traffic accidents in the first seven months of 1961 than during the same period last year, according to a monthly report filed by Police Chief Jim Conner with the National Safety Council.

Up to Aug. 1 this year, the report shows, there were 281 traffic mishaps compared to 346 during the first seven months of 1960. Fifty-nine injuries were listed for each year.

Traffic accidents in Pampa in July were heavier this year than last, however. There were 42 reported inside the city limits this year compared to 38 last year in July. Twelve persons were injured during the month in 1961 and only ten in 1960.

The report shows most accidents involved drivers in the 25 to 35-year-old age bracket. Failure to yield right-of-way was the chief cause of accidents. Following too close behind another car was the second principal cause and speeding was third.

First U.S. hydroelectric plant was built in Wisconsin, on the rapids of the Fox River, in Appleton, in 1882.

**BETTER BUY JOHNSTON'S NO-ROACH**

## Don't Call Dallas... Just Call For 214!

If you think Chicago is in Illinois, you're only half right — according to Long Distance telephone operators in Pampa.

They'll tell you Chicago is located in the "312" dialing area. Operators now use these three-digit numbers — called Area Codes — to tell the Long Distance switching equipment here how to route calls to distant cities throughout the United States and Canada.

Their telephone number geography divides the United States and Canada into dialing areas, each identified by a three-digit Area Code. For example, Pampa is in the 806 dialing area. The Area Code for New York City is "212" and it is "213" for Los Angeles and other nearby California Cities operators use these codes to make your Long Distance service faster.

Now Pampa customers also can use these Area Codes when placing Long Distance calls, according to Mrs. Lillie Fowler, chief operator here for Southwestern Bell Telephone Company.

"Area Code calling will mean a faster Long Distance service for customers in Pampa," she said.

Using this new calling method, Mrs. Fowler explains you give the Long Distance operator the Area Code and the distant telephone number. It's not necessary to give the name of the called city or state.

For example, if you were calling Oklahoma City, Oklahoma, Central 6-7798 you simply tell the operator: "Area Code 405 CE 6-7798." The operator then could immediately dial this number to the switching equipment which would automatically route your call to the Oklahoma City telephone.

"The '405' is the Oklahoma City Area Code and is actually part of the Long Distance number," Mrs. Fowler said.

Making Area Codes part of Long Distance numbers is necessary for direct dialing to telephones in distant cities, she added. Today Pampa operators dial direct to the telephones you call in most cities throughout the country. And Direct Distance Dialing will be installed

## Mobeetie Personals

By MRS. G. B. DUNN

We would like to extend sympathy to Mrs. Charlie Mixon on the death of her brother S. J. Harrell and sister - in - law Mrs. Betty Rogers.

Mrs. Hooker is here after visiting her children and grandchildren in N. M.

G. G. Dunn took his nephew Rickey Smith to Childress to catch the bus for his home in Dallas. Rickey had spent the summer with his grandmother Mrs. John Dunn and Mr. and Mrs. G. B. Dunn.

Mrs. Ernest Lee attended graduation exercises for her nephew William G. Dunn Jr. at Portales, New Mexico then spent the night at Claude, Texas.

Robert Dunn of Tyler, William Dunn and Elizabeth Brady of Claude and Mrs. Maye Grimes of Amarillo were visitors in Mobeetie Saturday. They visited with Mrs. John Dunn and Mrs. Ernest Lee. Mrs. Jack Johnson has entered the hospital in Pampa for surgery.

Mr. and Mrs. H. L. Flanagan and a sister Mrs. Edna Foust of Penn. are fishing at Eagles Nest, Oscar Miller of Mineral Wells, Mr. and Mrs. E. W. Miller of Abilene spent Thursday night with Mr. and Mrs. Jack Miller. They visited their sister Mrs. Milt Wilson who is a patient in Highland General Hospital.

Jan and Tracy Coogler of Houston are visiting with their grandparents Mr. and Mrs. Boyd Kennedy.

Mrs. Walter Hill visited in Mobeetie Sunday.  
Mr. and Mrs. Kenneth Walker and daughter Becky of Sunray visited in Mobeetie over the weekend with Mrs. Charlie Mixon and Mr. and Mrs. Woodford Williams. Mr. and Mrs. Hoyt Dunn and boys of Amarillo spent Saturday with Mr. and Mrs. G. B. Dunn and Mrs. Thelma Dunn.

Nancy, Judy and Johnny Carl Murrell of Pampa have been visiting with Mr. and Mrs. Jim Selby.

Mr. and Mrs. Tince Williams left Friday for Merced, California to spend a couple of weeks with Tince's brother who is in the Air Force.

Mr. and Mrs. A. G. Caldwell have gone to Colorado to spend a week or so.

Oscar Trimble of Dimmitt visited Sunday with his brother and family Mr. and Mrs. Doc Trimble. Mr. and Mrs. Arize Corcoran and son Ray spent last week-end in Amarillo visiting with Mr. and Mrs. Aaron Lancaster.

here within a few years, enabling customers to dial their own Long Distance calls.

"Direct dialing of Long Distance calls requires that no two Long Distance numbers can be alike in the United States or Canada," Mrs. Fowler said. "Area Codes are a key part of the telephone numbering plan that provides these different Long Distance telephone numbers."

Mrs. Fowler said telephone customers in several other nearby Panhandle towns also can use these Area Codes when placing Long Distance calls. These include Canadian, Lefors, Shamrock, and McLean.

She gave these pointers for fast Long Distance service under this new calling method:

1. Give the operator the Area Code and distant number. Like this: "Area Code 405 CE 6-7798."
2. Don't give the operator your own telephone number until she asks you for it.

## 'Typed' Actors Often Find Job Hunting Easier

(EDITOR'S NOTE: Joseph Finigan is on vacation. Ronald Reagan is today's visiting writer.)

By RONALD REAGAN

**HOLLYWOOD (UPI)** — Actors starting in the business often try desperately to be "typed," but the more important and independent they become the less they count on their "type" to land them parts.

A young actor or actress starting out has only a limited number of directions in which to go. If an actor, he may play the clean-cut, all-American - boy-next door, the young leading man or a heavy, depending on his looks.

A young actress, similarly, is limited to virtually the same sort of roles — in her case the kid sister, the ingenue or the vamp.

It is difficult, indeed, for a young player to break quickly out of these molds. It does happen, of course, but not very often. But many youngsters welcome this pattern of casting because producers who know they are capable of good performances as given types of characters will call on them again and again. In this case, to the beginning actor struggling for recognition, it's a matter of economics.

I know a few fellows who are sick to death of playing cowboys and gangsters on television and in the movies, but that's the image they're stuck with.

Now a person who is genuinely serious about his acting tries to carry something new into every performance and is on the watch constantly for different, "off-beat" roles.

We think we have contributed more than our share of unique castings on "the General Electric Theater."

Last season, for example, we cast Hugh O'Brien, known primarily for playing a strong, silent type of western lawman, as a slick, fast-talking salesman with a roving eye.

We also cast Sammy Davis Jr. in a straight dramatic role as an ex-priestfighter with his best years behind him. Comedian Dick Shawn also played a straight dramatic role — his first — for us.

Former child star Jane Withers played one of her first grown-up parts on our show, and Bud Abbott, who was half of one of the most famous comedy teams in show business played his first dramatic role on the series last season.

And we hoped to continue this casting policy indefinitely. It is one of the things which has enabled us to get the services of some of the world's outstanding actors and actresses.

It also is, we think, what has made "the General Electric Theater" known in the business as an "actors' show."

**GALE HITS ENGLAND** LONDON (UPI) — The fiercest gale in three years ripped across England Tuesday, taking at least four lives. Winds of nearly 80 miles an hour were recorded, with the west part of the country the hardest hit. Some areas had up to two inches of rain.

**MODEL OF COMFORT**—Displaying his model of the first Cunard steamship to cross the Atlantic—and keeping cool at the same time—Pete Vincent stands in the pool of the Cunard ship Queen Elizabeth. His model, which took him four years to build, is the Britannia, which made its first crossing in 1840.

**TWO UP, FIVE TO GO**—The seven American astronauts inspect an engineering model of the Project Mercury capsule at the McDonnell Aircraft Co. plant in St. Louis. From left to right are: Alan B. Shepard Jr.; Malcolm S. Carpenter; John H. Glenn Jr.; Donald K. Slayton; Virgil I. Grissom; Walter M. Schirra Jr.; and Leroy G. Cooper Jr. Shepard and Grissom have both made successful into-space rides in the capsule.

## Massive Troops Exercise Begins

**FT. BRAGG, N. C. (UPI)**—About 40,000 Army and Air Force troops, many of them on emergency alert by presidential edict, today began the most massive peacetime maneuvers staged by American forces since World War II.

The operation, called Exercise Swift Strike, will spread throughout the Carolinas as the United States tests its cold war readiness to fight a limited war.

The purpose of Exercise Swift Strike, officials said, is to evaluate equipment, training and strategy. The objectives are basically the same as those of the massive war games staged in Louisiana 20 years ago.

The maneuvers are being staged over an area of 1.5 million acres. The government had to obtain 40,000 land use permits before the exercise could begin.

## Mobeetie School Opening Slated For August 28

Mobeetie Schools will open Monday, Aug. 28, with students attending a full day of classes.

School buses will make their regular run Aug. 28 with the routes remaining the same as 1960-61 school year. School will dismiss May 18, 1962 and will be let out for six holidays.

The Mobeetie High School football workouts will begin Aug. 21 at 6 p.m. with the first football game scheduled for Sept. 1 against Darrouzett at Mobeetie.

Mobeetie School Superintendent Paul J. Morris made the announcements.

## DISMISSES SUIT

**LOS ANGELES (UPI)** — Superior Judge Steven S. Weisman dismissed Tuesday a \$40,000 suit against former bandleader Ina Ray Hutton and ordered the plaintiff to pay Miss Hutton's court costs. The plaintiff, Mrs. Beverly Lewis 33 claimed she was in the middle of an intersection on the green light and thought she could continue through when she was hit by Miss Hutton's car.

## Miami Personals

Mr. and Mrs. Jack Sirmans and family are visiting with relatives in McAlester Okla.

**WHITE SUPREME LOW PROFILE NYLON TIRES**  
Guaranteed 30,000 Miles!

6.70-15-SIZE TUBE-TYPE BLACKWALL  
Discount Priced... **17.88\*** Installed FREE!

Low profile tires are wider, easier rolling, give greater stability and comfort because low gravity center is closer to the actual running shape of the tire. Four times greater endurance and performance.
