## Twinkles

At least two things are getting monotonous—Harvester victories (to their opponents) and auto accidents (to everybody).

Things could be worse: We have received income tax blanks from the government and when they're filled out they will be rather blank from Uncle Sam's standpoint.

Time was when we paid an income tax, as a bachelor. Yeah, we already have a tax on bachelors.

Civilization evidently destroys the fatherly responsibilities, or sense of them, in such things as family dogs. But why limit the subject to dogs? asks Skippy. But just watch us, we told Skippy.

New Mexico ranges are "better than normal." So, perhaps, any duststorms therefrom will be sub-normal.

Musing of the moment: The following item from the Musical Courier is contributed as a follow-up on remarks of this column: "When the English tongue we speak Why is 'break' not rhymed with 'freak'?"

Will you tell me why it's true. We say "sew" but likewise "few." And the maker of a verse Cannot cap his "horse" with "worse?"

"Cord" is different from "word"; "Beard" sounds not the same as "heard."

"Cow" is cow, but "low" is low; "Dough" is nicely rhymed with "foe."

"Think of 'hose' and 'dose' and 'lose'."

"Think of 'goose'—and yet of 'chose'."

"Think of 'comb' and 'tomb' and 'bomb'."

"Doll" and "roll" and "home" and "some."

And since "pay" is rhymed with "day."

Why not "paid" with "said," I pray?

We have "blood" and "food" and "good."

"Mould" is not pronounced like "could."

Wherefore "done" but "gone" and "done?"

Is there any reason known? And, in short, it seems to me, Sound and letters disagree.

## Brevitorials

MOST ANYBODY can tell you how to run a newspaper. Most anybody can tell you how the farmer ought to operate his business. Advice is the most freely dispensed commodity in the world. Yet no one should object to well-meant advice. If he doesn't like it, he can forget it.

Latest bit of advice relayed through this column comes from H. H. Williamson, director of the Texas extension service.

"Texas farmers in 1936 can and should take out a \$250,000.00 group insurance policy," he writes. "This would be the adoption of a 'live at home' program on every Texas farm. In the light of present conditions, it is especially important."

MR. WILLIAMSON ADDED: "Such a program is not only economically sound but it is beyond controversy. Immediate decision on the part of farmers to adopt such a program would represent a definite and a sound step in planning for the new year, irrespective of whatever may happen insofar as government crop control is concerned."

"The half million farmers in Texas today no doubt, figuratively speaking, are scratching their heads and pondering over their farm programs for 1936," Williamson continued in amplification of the need and in explaining the details of a widespread "live at home" program.

"It is only a few weeks before it will be time for seed to go in the soil. There is no knowledge of the probable planting, harvest or price of farm crops for 1936."

"The real purchasing power of the farmer is the difference between the cost or expenditure for production and the amount received. The cost of the food and feed consumed by the farm family and livestock has a direct bearing on the cost of production."

"It has been conservatively estimated that the value of the food supply of the average farm family of five, provided it is well balanced has a retail value of approximately \$500 a year. This means that the farm table market of Texas is worth \$250,000,000 which is equal in value to five million bales of cotton at 10 cents a pound."

"The Extension Service is recommending that the farmer should have a regular dog file this morning as he started at a large picture of himself, nicely tinted, in the hand of George Raincloud. The picture, showing Pat sitting up against the hot looking wise, was taken by Steve Neeley. Pat tried his best to get at the picture."

## Ellsworth And Companion Found Alive And Well In Little America

# FDR ANNOUNCES NEW FARM AID PLAN

## RELIEF PARTY LOCATES PAIR ON POLAR ICE

## FUEL OF EXPLORERS' PLANE GAVE OUT IN FLIGHT

BY FRANK H. KING

LONDON, Jan. 17.—A British relief expedition, headed back from the antarctic today word of the dramatic rescue of Lincoln Ellsworth and Herbert Hollick-Kenyon, long-lost explorers, found alive and well in the frozen wastes of Little America.

After piercing the ice locking the Bay of Whales, a British royal research ship located the American Ellsworth and the Canadian Hollick-Kenyon safely landed there, having exhausted their fuel on a bold projected flight across the south polar regions.

The explorers' long silence was due to a damaged radio transmitter, the British government's colonial office announced.

A landing party from the Discovery II finally found them comfortably encamped on the face of the great ice barrier.

Not since they took off Nov. 23 from Dundee Island, far south of Cape Horn, across the south polar regions for the Ross Sea, south of New Zealand, had any word been received from the daring fliers. Hope for their safety was fading—even abandoned by some.

A terse, seven-word message from the master of the Discovery II ended this morning the seven weeks of anxiety.

Ellsworth and Kenyon are both alive and well, said this message to the colonial office, headquarters of the committee directing the discovery's work.

The colonial office later received a graphic, complete message from the master of the Discovery II, describing the finding of the men.

Tent Is Sighted  
"On first arrival in the Bay of Whales, an orange colored (cloth) with a tent was observed on the barrier face," the descriptive message reported.

A rocket fired from the ship was not answered. A Moltz (plane) flew to Little America, five miles distant.

See ELLSWORTH, Page 2

## BONUS ACT IN SENATE URGED BY HARRISON

Says Measure Will Become Law Whether or Not It Is Signed by President.

WASHINGTON, Jan. 17.—(AP)—Opening senate debate on the baby bond bonus payment bill today, Senator Harrison (D. Miss.) declared flatly the measure would become law whether or not President Roosevelt signed it.

"Whether this bill is signed by the President or not," the finance committee chairman asserted, as crowded galleries looked on, "it will become law because it is the best way out of the situation and because it is lighter and easier on the government."

Harrison, one of the bill's authors, was questioned repeatedly by opponents as to why he was supporting full payment of the soldier debt now as against his former position, "I'm not embarrassed," he said, "I have never believed these certificates should be paid until they were due in 1945, but a great many people, whether because of propaganda or a change of opinion, believe this matter should be gotten out of the way."

At an earlier press conference, President Roosevelt passed questions on his bonus views.

Harrison said he did not know whether the bill for the full 1945 value of the bonus certificates in blocks of \$50 bonds cashable next June or to be held as investments for nine years would be signed by the president.

"The president has made no statement to anyone on it," he added. "The Mississippi told Senator Hastings (R. Del.) there was a 'great difference between the pending bill and the Patman inflation measure vetoed by the president last session."

SESSION DELAYED  
AUSTIN, Jan. 17.—(AP)—Governor Allred, still undecided on special session plans, hinted today the legislature might not be called to provide old age pension revenue until after payments were started by July 1.

Sharon and Jill Chapman, small daughter of Frank Chapman, left today for Borger to visit a week with their grandparents. Mr. and Mrs. L. F. Chapman. They were accompanied by Mrs. Kabon.

## FIRM DEMAND FOR GAS AND OIL RECORDED

## PANHANDLE GAS NOMINATIONS FILED AT AUSTIN

AUSTIN, Jan. 17.—(AP)—Firm demand for Texas oil and gas was recorded today by the railroad commission on official reports received at its prorator hearing.

Ernest O. Thompson, chairman, said the federal bureau of mines estimated the February demand for Texas crude at 1,068,000 barrels daily compared with its estimate of 1,017,000 barrels this month.

On the basis of the bureau's estimate, the commission started Texas fields with a basic allowable of approximately 1,015,000 barrels this month. Subsequent revisions raised the total to 1,044,000 barrels.

East Texas would not share in a prospective allowable hike, however, if the commission followed the recommendations of its chief engineer, V. E. Cottingham.

He testified a reservoir pressure decline of 5.4 pounds per Dec. 12 to Jan. or 399 pounds per 1,000,000 barrels withdrawn in the field was "excessive," and recommended average daily production be limited to 425,000 barrels. The current allowable of 2.7 per cent of the hourly potential permitted an output of 433,618 barrels Jan. 13 from 19,574 wells.

New potential tests in the field, he said, showed old and new potential maps agreed closely. Fifteen wells showed the field's potential and 26 decreed. The average decline was 8.61 barrels.

Conroe operators applied for an allowable boost from present production of 34,500 barrels to about 55,000 barrels, the amount of nominations. They said the field's out of 6,100 barrels this month was unfair.

Spokesmen for McCamey operators asked for an increase of 15,000 barrels, asserting the field's potential more than doubled during the past year, while other West Texas fields had received greater allowable boosts in proportion to potentials.

To supply a Sweetwater refinery, an increase from 4,800 to 12,500 barrels was asked for the North Ward field and a 2,000 barrel boost was asked for the Sayre pool in Winkler county.

Demand for sweet gas rose from 1,180,443,000 cubic feet daily this month to 1,249,913,000 feet in February. Nominations for sour gas purchases declined from 525,266,000 to 497,400,000 feet next month. Demand for both classes was calculated at 6.3 per cent of the potential.

Nominations for next month, January allowables, per cent of demand to potentials were respectively in cubic feet: Sweet gas—East Panhandle, 199,045,000 and 181,174,000; and 2.8 West Panhandle, 625,803,000 and 608,552,000; and 7.4; outside Panhandle, 424,865,000 and 390,717,000; and 4.5 per cent. No Panhandle, 487,705,000 and 520,496,000; and 19.3; rest of state, 9,695,000 and 4,770,000; and 2.9 per cent.

**LATE NEWS**  
FORREST CITY, Ark., Jan. 17.—(AP)—Major R. W. Schroeder, chief of the U. S. commerce department's airline inspection service, said today the American Airlines palatial liner "Southerner" was not making a forced landing when it crashed into an Arkansas swamp with the loss of 17 lives.

WASHINGTON, Jan. 17.—(AP)—A cry of "coward" was flung today by Senator Glass (D. Va.) at "any man who degrades the character and integrity of Woodrow Wilson." Chairman Nye of the senate munitions committee had just repeated a charge that Wilson "falsified" the record of the world war.

**RAILROAD RESTRAINED**  
PORT WORTH, Jan. 17.—(AP)—A temporary injunction restraining the Chicago Rock Island and Gulf railway from moving a part of its general offices from Port Worth to Chicago was granted in district court here today on the petition of the State of Texas and the City of Port Worth. Judge Frank Culver announced that the case would be tried on its merits. He will set a hearing date later.

## Where 17 Were Killed in Swamp Crash

Sudden, violent death in an Arkansas pine-oak swamp, 18 minutes from the Memphis airport. That was the fate of 17 persons aboard the twin-motored luxury liner of the American Airlines which crashed near Goodwin, Ark., Tuesday night. Above is a photograph of the smashed body part of the plane which loomed ghostly as flashlights pierced the darkness. Tops of trees were splintered by the driving plane.

## Hoffman May Question Dr. Condon In Evidence Search

**PAMPA CREDIT RECORD LEADS ENTIRE NATION**  
Collections and Sales Show Increase In City

Pampa led the state and nation in collections on credit accounts and in credit sales in December percentages compiled by the research division of the National Retail Credit Association and the National Consumer Credit Reporting corporation.

These facts were given by Walter J. Daugherty, manager of the Pampa Credit association, in a talk to the local Lions club yesterday. He attributed Pampa's 45 per cent increase in collections to the lively oil field activity and payrolls. This activity is continuing strongly in the new year.

Research data on 76 leading cities of the nation showed an average increase of 6.7 per cent in collections for all cities. In credit sales, the average increase was 13.5 per cent. Pampa tied with Fort Lauderdale, Fla., with the largest sales increase, with 50 per cent.

Mr. Daugherty spoke on credit as a device for accelerating business turnover. He said the credit association was concerned with disseminating facts as to credit standing of patrons of its members, with promotion of harmonious relations between merchants, with securing uniformity of action, and with making advertising more effective for members. A vigilance committee examines advertising schemes and issues a letter of endorsement of those deemed worthy. The Pampa association has about 50,000 cards on file.

## Hauptmann Can't Die In Chair Before March

**HAUPTMANN CASE AT A GLANCE**  
(By The Associated Press.)  
Thirty-day reprieve gives impetus to defense search for new evidence.  
Questioning of "Jafsie" by Gov. Hoffman seen as possibility.  
"Just a dream," says governor of demand for impeachment.  
Hauptmann touched by news; wife denies governor asked for confession.  
Legal technicalities will fix new execution date between March 16 and April 11.

By DALE HARRISON

TRENTON, N. J., Jan. 17.—(AP)—"Jafsie" offered today to return from a South American cruise to be questioned on the evidence he gave against Bruno Richard Hauptmann, but the state of New Jersey told him it was not necessary.

From the Panama canal zone Dr. John F. Condon sent his offer to Attorney General David T. Wilentz, protesting that no compulsion was necessary to force his return. Condon's name was projected back into the fore front of the Hauptmann investigation by Governor Harold G. Hoffman, who said he wanted to interrogate him and termed his departure "highly significant."

Attorney General Wilentz, replying to Condon's message, stated that the 30-day gubernatorial reprieve granted yesterday was "without legal authority" that no reason had been assigned by the governor, that no new evidence had been called to Wilentz's attention by the governor or defense counsel.

The governor's course, said Wilentz, might be construed as a reflection upon the state of New Jersey, witnesses and police authorities of several states and the nation.

It was the first time Wilentz has publicly criticized the governor's action.

Wilentz told Jafsie that the pro-See JAFSIE, Page 2

## JAFSIE OFFERS TO RETURN TO BE QUESTIONED

**Wilentz Criticizes Gov. Hoffman Publicly**

By DALE C. HARRISON

TRENTON, N. J., Jan. 17.—(AP)—"Jafsie" offered today to return from a South American cruise to be questioned on the evidence he gave against Bruno Richard Hauptmann, but the state of New Jersey told him it was not necessary.

From the Panama canal zone Dr. John F. Condon sent his offer to Attorney General David T. Wilentz, protesting that no compulsion was necessary to force his return. Condon's name was projected back into the fore front of the Hauptmann investigation by Governor Harold G. Hoffman, who said he wanted to interrogate him and termed his departure "highly significant."

Attorney General Wilentz, replying to Condon's message, stated that the 30-day gubernatorial reprieve granted yesterday was "without legal authority" that no reason had been assigned by the governor, that no new evidence had been called to Wilentz's attention by the governor or defense counsel.

The governor's course, said Wilentz, might be construed as a reflection upon the state of New Jersey, witnesses and police authorities of several states and the nation.

It was the first time Wilentz has publicly criticized the governor's action.

Wilentz told Jafsie that the pro-See JAFSIE, Page 2

## Rudyard Kipling Believed Dying

LONDON, Jan. 17.—(AP)—Rudyard Kipling's gallant fight will keep the spark of life flickering today, but attaches at the hospital where he lay in a coma said the end apparently was a matter of hours.

A hospital bulletin at 1 p. m. said the 70-year-old bard's condition was "unchanged and still very critical." It was disclosed a blood transfusion had been given Kipling during last night, and that oxygen also had been used.

Kipling lapsed into a coma today while his American-born wife, daughter and surgeon kept watch at his bedside.

## ALL FARMS IN NATION WOULD BE AFFECTED

## AMENDMENTS TO SOIL EROSION LAW TO BE PASSED

WASHINGTON, Jan. 17.—(AP)—Confidence that the new farm plan proposed under soil erosion and conservation laws would carry out the purposes of the dead AAA and bring about what he considers a well rounded agricultural development of the nation was expressed today by President Roosevelt.

The chief executive discussed the agricultural problem at his press conference after stipulating that he was not replying to the farm address last night by former President Herbert Hoover. He explained he had not had an opportunity yet to read the Hoover speech.

There was an intimation that new taxes might be necessary to meet the program as a substitute for the old processing levies killed by the supreme court. The president said, however, he was not ready to discuss that phase.

Mr. Roosevelt said slight amendments to the existing soil erosion and conservation acts will be necessary. He reserved any estimate on the amount of money which would be required by the government to lease land from farmers under the proposed plan.

Some congressional leaders who attended yesterday's white house farm conference had mentioned \$300,000,000 to \$400,000,000 as necessary for carrying out the program in 1936.

County Agents Designated  
Mr. Roosevelt emphasized that soil erosion constitutes not only the actual washing away of soil into river beds but also loss of chemicals in the soil resulting from continued use for the same crop.

Asked if this interpretation did not bring every farm of the country under the scope of the erosion law, the president said he thought it did.

He explained the existing machinery.

See FARM PLAN, Page 2

## Regulations for Political Ads in NEWS Are Same

Regulations of and prices for political announcements in the Pampa Daily News classified directory of candidates will be unchanged this year.

All copy must be subject to approval of the Pampa Daily NEWS editorial board, and must be submitted by 5 p. m. of the day preceding publication. Political announcements and political advertising will, as usual, be on a cash-in-advance basis, which has been found by newspapers generally to be the most satisfactory for all concerned.

A political announcement consists of a news story, prepared by the candidate and not more than 275 words in length, and publication of the candidate's name in the political directory through the second primary every day a paper is issued. The charge, however, is only for the name in the directory only.

Prices for these announcements are: State, district, county candidates—Twenty dollars. Precinct and municipal—Fifteen dollars.

It will be in the interest of candidates to pick days on which not too many persons announce, since the front page is limited as the number of announcements which can be used effectively.

When any political announcement or statement involves Texas or federal laws of publication, THE NEWS reserves the right to delay acceptance subject to review by its legal staff.

Newspaper cuts for illustration of pictures require a few days for manufacture, and prices will be furnished on request.

**I Saw . . .**  
Mrs. T. F. Morton roller-skating on an east Browning sidewalk, and Flora Deen Finley going like the wind on roller skates a few blocks away.

## I Heard . . .

Pat, the Schneider hotel screw-tail bulldog, having a regular dog file this morning as he started at a large picture of himself, nicely tinted, in the hand of George Raincloud. The picture, showing Pat sitting up against the hot looking wise, was taken by Steve Neeley. Pat tried his best to get at the picture.

### ONLY 9 OF 20 CONVICTED IN STAVISKY CASE

#### SWINDLER'S WIDOW IS ACQUITTED OF COMPLICITY

PARIS, Jan. 17. (AP)—France's great Stavisky scandal closed today with conviction of only nine of the 20 defendants accused of complicity in the vast swindles which resulted in rioting in the streets of Paris and overthrow to a French cabinet.

Mme. Arlette Simon Stavisky, widow of the swindler, and ten others of the 20 defendants were acquitted of the charges of complicity in the \$10,000,000 frauds.

"Extenuating circumstances" were found in the cases of all those convicted except Gustave Thiers, manager of the Bayonne municipal pawnshop. His confession broke the case and sent Stavisky fleeing to the mountain cabin where he died of a pistol wound, described by police as self-inflicted.

The others convicted were: Joseph Garat, a member of the Chamber of Deputies and former mayor of Bayonne, where Stavisky established his municipal pawnshop.

Henri Cohen, appraiser at the Bayonne pawnshop. Raoul Desbrosses, manager of the Orleans pawnshop. Paul Guerin, a bond salesman.

Madame Stavisky, a former maidservant, dressed quietly but smartly in black, smiled broadly for the first time since the tragedy began, bringing with it one of the longest trials in French annals, when she heard the pronouncement of her acquittal.

"I have suffered much, especially during the long months in prison before the trial," she said, "but now I am happy, particularly for my children. Justice has been done."

Some of the convicted defendants wept at the verdicts returned by the jury after it received the cases yesterday and deliberated 1,955 questions concerning the charges that the defendants aided Stavisky in his swindles.

They will be sentenced later. All twenty defendants employed the same defense plea—misplaced confidence. All even Stavisky's widow, pictured themselves as innocent victims of the swindler.

Those acquitted with Madame Stavisky were: Emile Antoine Degoin, former inspector in the French detective service.

Henri Farrault, appraiser at the Orleans credit municipal, where Stavisky first attempted frauds. Albert Dubarry, newspaper editor. George Gaultier, lawyer.

Pierre Guiboud-Ribaud, lawyer. Francis Darius, journalist. Paul Levy, editor of a weekly magazine.

Henri Depardon, office employe. Gilbert P. Romagnino, secretary of a Stavisky company. Camille Aymard, a newspaperman.

### Hamlin Trial Jurors Chosen

FARWELL, Jan. 17. (AP)—Three jurors remained for the second day in the trial of George S. Hamlin of Amarillo for the hammer slaying of his bride January 4, 1935.

One juror was added this morning to the eight accepted yesterday. Testimony is scheduled to start this afternoon.

Hamlin is accused of beating his wife to death in their "honeymoon home" at Amarillo and then taking a plane to California where he was notified of the death.

The case was sent here on a change of venue after a Potter county jury was unable to reach a verdict in a first trial. Prosecutors indicated they would ask the death penalty for the 47-year-old ex-fireman of Oakland, Calif. As in the first trial, the defense is expected to base its hopes for acquittal on a plea of insanity.

### Nye Defends His Wilson Attack; Flays Connally

WASHINGTON, Jan. 17. (AP)—Defending his charge that Woodrow Wilson "falsified" the record of the world war, Senator Nye (D-N.D.) today characterized as a "flow of brilliant gutter English" the attack made upon him yesterday by Senator Connally (D-Tex.).

Before opening a review of testimony upon which he based his charge that the war time president and his secretary of state, Robert Lansing, had "falsified" in telling a senate foreign relations committee in 1919 that they had not heard until the end of the war about secret allied treaties for the division of Europe, Nye flung more sharp terms at Connally.

Until J. P. Morgan and his partners in the great banking house were called to the stand about two weeks ago, he said, there was little criticism of the committee's efforts. But with their appearance "one could sense a change of sentiment," he contended.

"Nye said press reports of the hearings were impartial," but the editorial pages were giving a false picture.

"Evidently, the committee was treading upon sacred ground, and while such royal houses as the house of Morgan are concerned, the committee should not tread."

"I want to make it clear that I am wholly unashamed of the course that has incensed the goliath from Texas."

Nye said the Morgan group had been advised in advance of the Connally attack and of the statement made before the committee by Senator Pope (D-Ia.), one of its members, criticizing the hearing as having "degenerated" into an effort to discredit Wilson.

Connally said he would deliver the reprieve this afternoon at about the hour Hauptmann would have been prepared for the electric chair and death at 8 p. m. tonight if the governor had not intervened.

What Hoffman thought of the Connally-Wilentz messages remained to be seen.

Away from his desk at the state house, the governor was pursuing the secret investigations which gave him the "divers reasons" for prolonging Hauptmann's life.

Mrs. Hauptmann visited her husband today in state prison. Elsewhere came these developments:

In New York Paul G. Clancy, editor of the American Astrology magazine, disclosed that he and his associates retained the Washington constitutional lawyers, Neil Buckinshaw and Nugent Dodds, for Hauptmann.

In Kamenz, Germany, Hauptmann's aged mother received the news of the reprieve with joy and expressed the belief that now "all will be well."

TRENTON, N. J., Jan. 17. (AP)—Governor Harold G. Hoffman in a formal statement said today: "If impeachment is a price that must be paid for daring to follow the dictates of my own conscience, I am ready to pay it."

The governor said he did "question the truthfulness and mental competency of some of the chief witnesses for the state" against Hauptmann.

"I do doubt that this crime could have been committed by any one man," he added, "and I am worried about the eagerness of some of our law enforcement agencies to bring about the death of this man."

"I make no apology for granting a reprieve in this case," he continued. "He said he intended to give 'in due course' his reasons for doubting that Hauptmann alone committed the kidnapping."

The governor said a representative of a New York newspaper, "in my presence and in the presence of many witnesses," had offered Hauptmann \$75,000 for an exclusive confession.

"This offer was rejected," the governor said. "Likewise, when Hauptmann was told that his only chance to save his life was to go before the board of pardons, say 'I am guilty,' and sign himself upon the mercy of the court, he spurned the opportunity."

### MARKET BRIEFS

Part of the New York stock market report failed to come over the Atlantic. The wire from Dallas today on account of unusual wire trouble.

Am Can	25 131 1/2	131
Am Rad	78 26	25
AT&SF	25 69 1/2	68
Bendix	33 22 1/2	23

New York Curb Stocks		
Cities	516 4 1/4	4 1/4
Elec B&S	128 18	17 1/2
Humble	8 70 1/2	69 1/2

CHICAGO GRAIN			
Wheat	High	Low	Close
May	1.00	1.00	1.00 1/2
July	.88 1/2	.88	.88 3/4
Sept.	.87 1/2	.86 1/2	.86 3/4

KANSAS CITY LIVESTOCK		
Hogs	2,500	fairly active, steady to 5 higher; top 9.65, desirable 150-300 lbs. 9.50-65; sows 8.25-60.
Cattle	1,000	calves 300; killing classes of cattle generally steady; few leads short fed steers around 7.25-8.75; two loads good 694 lb. yearlings at later price. Butcher cows 4.75-5.50; long medium western bulls 5.75; strong weight sausage bulls up to 6.00; better grades vealers 9.00-10.50.
Sheep	3,500	receipts mostly through and direct to feed lots; killing classes offered fully steady; top native lambs 10.25; better grades 10.00-10.25.

NEW ORLEANS COTTON	
After holding close to previous levels during the morning the market broke out of its narrow trading range just before noon and ran up to net gains of 2 to 16 points.	
May sold at 10.98 on the movement, while July was up 10 points at 10.64. Oct. touched 10.23 and Dec gained 70 cents a bale to 10.16.	

Neither the airplane nor the man, however, were identified.

A colonial office official last night said it could only be presumed that the man must be either Ellsworth or Hollick-Kenyon since no other persons are known to be in that vicinity of Little America.

### Ellsworth TOM CONNALLY PUTS NEW LIFE INTO CONGRESS

Defends Wilson and Fans Flock to Gallery

BY EDDY GILMORE. Associated Press Staff Writer. WASHINGTON, Jan. 17. (AP)—Senator Tom Connally is the man who brought them back to the gallery.

Noticeably missing this session of congress, the fans who love a rip-roaring fight came flocking back as word spread that "Tom was hot" and was attacking the senate munitions committee.

Recent statements of Senator Nye (R-N.D.) that Woodrow Wilson "falsified the record" led Connally to shout:

"When the history of this republic shall be written, Woodrow Wilson's titanic figure will tower above the puny pigmies who now bark at his memory as Pike's Peak towers above the fog and the yesterday engulfed hill men lives."

Flip-flop went the gallery doors as more spectators eased inside.

"If the senator from North Dakota," Connally said, "this white knight of peace, if he wants to make charges like this, why does he not single out some double-fisted man who is still alive?"

Senator Frazier (R-N.D.) asked if he would yield.

"Yes," said Connally with a sweeping gesture.

Frazier said he thought Senator Nye had some two-fisted men before his committee—"he's got some big bankers there."

### ELLSWORTH

Kelly emerged. A food parachute was dropped with letters.

"Kenyon advanced and met the ship's party. He was received on board at 12:55 a. m. Jan. 16. He reported Ellsworth alive but suffering from a slight cold."

"The ship's party is advancing to meet Ellsworth."

"The American airmen state they ran out of fuel 20 miles from Little America, on a bearing of 165 degrees, and sledged in."

"Kenyon is very fit."

"A transmitter switch caused the radio failure."

Eighteen hours earlier, a party garbed in message had been received from the Discovery II, indicating the two fliers had been found.

Family Gave Up Hope

It was while still trying to confirm that message that the colonial office finally received its two-fold reports that Ellsworth and Hollick-Kenyon were safe.

Members of Hollick-Kenyon's family in London had given up hope two weeks ago for his rescue.

His aunt, Mrs. H. V. Kenyon, wife of the mayor of Paddington, said she thought six weeks was the limit he had no news and feared the worst.

"Only a few days ago, my husband wrote Herbert's mother in Canada, consoled her for the loss of her son."

Delighted at the news that the men were found, Admiral Sir William Goodenough, former president of the Royal Geographical society, asserted:

"That shows what enterprise can do when carried out with forethought."

Pointing out that it was often difficult to communicate by wireless from the south polar regions because of atmospheric conditions, Sir William commented on the meagre news:

"The whole world will rejoice to know that these two brave men have come through safely."

First word that Ellsworth and Hollick-Kenyon, objects of an intensive search, might at last have been found came with receipt of a message yesterday from the Discovery II that it had sighted an airplane and a man on the Bay of Whales.

Neither the airplane nor the man, however, were identified.

A colonial office official last night said it could only be presumed that the man must be either Ellsworth or Hollick-Kenyon since no other persons are known to be in that vicinity of Little America.

### TOM CONNALLY PUTS NEW LIFE INTO CONGRESS

Defends Wilson and Fans Flock to Gallery

BY EDDY GILMORE. Associated Press Staff Writer. WASHINGTON, Jan. 17. (AP)—Senator Tom Connally is the man who brought them back to the gallery.

Noticeably missing this session of congress, the fans who love a rip-roaring fight came flocking back as word spread that "Tom was hot" and was attacking the senate munitions committee.

Recent statements of Senator Nye (R-N.D.) that Woodrow Wilson "falsified the record" led Connally to shout:

"When the history of this republic shall be written, Woodrow Wilson's titanic figure will tower above the puny pigmies who now bark at his memory as Pike's Peak towers above the fog and the yesterday engulfed hill men lives."

Flip-flop went the gallery doors as more spectators eased inside.

"If the senator from North Dakota," Connally said, "this white knight of peace, if he wants to make charges like this, why does he not single out some double-fisted man who is still alive?"

Senator Frazier (R-N.D.) asked if he would yield.

"Yes," said Connally with a sweeping gesture.

Frazier said he thought Senator Nye had some two-fisted men before his committee—"he's got some big bankers there."

"None of them were called liars, were they?" demanded the Texan.

Senator Clark (D-Mo.), a member of the munitions committee, said he would have interrupted Connally and said he understood he was being attacked. The Texan said he was misinformed.

Again Connally attacked Nye, who said he based the anti-Wilson charges on secret government documents.

"Anybody knows," Connally shouted, "that in the secret files contradiction is going to be found, one man saying this and another that."

"If the senator from Missouri (Clark) had been writing in his diary today, unless I had corrected him, he would have set down that life senator from Texas without any warning had attacked him."

"I do not keep a diary," Clark interrupted. "Does the senator from Texas keep a diary?"

"No, not a written one. I keep mine in my brain for keeping a diary," said Connally.

"Absolutely," said Connally, "and other senators would do well if they had more room."

"Ah, ha," said a newspaper man as he rushed for the telephone. "congress has come to life."

### COLUMN

ommending that each farm family insofar as possible, take out a \$500 protection policy by including in their 1936 farm program such features as will make possible the production and storing of an adequate food supply for home use. This is equivalent to group insurance."

The "nine old men" of the Supreme Court may expect to live no longer than any other group, according to statistics compiled by an insurance company. During the 146 years of the court's existence, 76 appointments and 2 reappointments—John Rutledge and Charles E. Hughes—have been made to this body. Of these 76 men, 66 are dead, their average age at death being 71.4 years. This, the statistics point out, cannot be called a particularly advanced age, despite the fact that there have been three nonagenarians and nine octogenarians on the Supreme bench since its foundation. The statistics compute the aggregate years of life expectancy of these 66 men at the time of their appointment was 12,985, while the total number of years actually lived was 12,625. This means that, as a group, each lived about one year over the life expectancy of men of their ages in ordinary walks of life.

IN THE PRE-CIVIL war period, the average age of U.S. presidents at inauguration was slightly over 57 years, but since that period it has averaged only slightly more than 51 years. In spite of this, the average after-life time of our presidents has been reduced from 16.7 years during the first half of American history to exactly 11 years in the latter half. The average age at death of the chief executives in the earlier period was 73.8 as against 62.3 years in the latter. The average after-life time of the Supreme Court justices has been reduced only two and one-half years—to 17.8 years—compared with 20.4 years—although in these later years justices have been 7 years older at the time of appointment than were their predecessors of earlier times.

LESSON IN LAW-MAKING: Uncle Sam provides funds for carrying on the work of the government in general appropriation bills which, by custom, originate in the house of representatives.

The heads of the various departments and agencies of the government prepare estimates on expenditures for the year and submit these estimates to the director of the bureau of the budget. He then prepares a budget for each of the government establishments.

This budget is submitted to the president and after it is in a form which he approves, he transmits it to congress.

Weeks before, various subcommittees of the house appropriations committee hold open hearings and hear the heads of the various departments and agencies submit estimates of their needs and reasons therefor.

The budget is for the guidance of congress and it is not obligatory upon either the house or senate to follow its suggestions. Frequently the budget estimates are increased or decreased by congress.

The appropriations committee of the house drafts bills providing necessary funds for operation of the government and they are acted upon by the house. The senate likewise has an appropriations committee which considers all the appropriation bills and may amend them in any way it sees fit.

The government operates all its business on a fiscal year starting on July 1 and ending on June 30 and the appropriations generally are for the fiscal year.

### Negro CCC Worker Killed in Crash

A negro CCC worker was killed instantly and a woman was critically injured when a truck carrying a group of negro CCC workers crashed into a car near Happy last night, according to Mr. and Mrs. J. V. New, who arrived at the scene of the accident a few minutes after it happened. They carried two small girls to Happy for medical treatment.

The injured woman was Mrs. Seff M. Lewis, wife of a Happy mail carrier. A son, Franklin, was also injured.

Japan has a CCC patterned after the United States Civilian Conservation Corps.

### Ickes Confesses Error and Then Scores Hoover

WASHINGTON, Jan. 17. (AP)—Secretary Ickes, in a letter admitting he was mistaken in saying three laws signed by Herbert Hoover had been declared unconstitutional, declared the last republican administration "was notable as a do-nothing administration."

He wrote yesterday to the former president, who had demanded an apology from him. The interior secretary said he had been under "a mistaken impression" when he made a speech at Rochester, N. Y., recently.

In that speech, Ickes said that three laws signed by Hoover had been invalidated. In his letter he explained his remark had been based on "figures that had already received wide currency and which had been uncontradicted."

"I am sorry indeed, no less on your account than on my own," Ickes told Hoover, "that this information was not reliable, as I had every right to expect it to be. . . . Of course I am fully aware that a politician who is trying to improve a desperate situation will overlook no opportunity to exaggerate an incident with a view to arousing popular sympathy, but I did not expect this of a man who has occupied the very great position with which you were honored."

"It is entirely constitutional to do nothing," he added.

HUSBAND ARRESTED

HUGO, Okla., Jan. 17. (AP)—The discovery of the axe-slashed body of Mrs. Pearl Kennedy, 50, in a shallow grave near her home here had led today to the arrest of her husband, George Kennedy, 45. Kennedy's arrest came after a widespread search. He was found 12 miles south of here in the Grant community and surrendered to Sheriff Cap Duncan without resistance.

Florida State college for women is the third largest woman's college in the United States. Hunter college, N. Y. C., is first.

### JAPAN IS IN 'CORNER,' SAY NAVAL POWERS

BRITAIN AND U. S. TO BUILD NAVY TO STOP JAPS

LONDON, Jan. 17. (AP)—The delegations of four great sea powers started today drafting an agreement for an exchange of fleet building information, designed to prevent an arms race despite Japan's withdrawal from the international naval conference.

Authoritative sources said they understood the American and British delegates were making immediate new surveys of their strategic positions in the Pacific to determine what steps should be taken independently on the question of possible fortification of their possessions there.

A feature of the information exchange agreement was an "escape clause" to permit individual steps against a sudden move by any power, such as Japan, not entering into the agreement.

Should a non-signatory power build a new type of ship or begin an arms race, the agreement could be set aside by the signing powers on grounds of self-defense.

None of the delegations, now representing the United States, Britain, France and Italy in the efforts to maintain some sort of fleet restrictions after the Washington and London naval limitations treaties expire at the end of this year, believed the new agreement would be very extensive.

They felt, however, that they had Japan "in a corner," as one delegate expressed it.

The Japanese withdrew from the conference because of opposition to their demands for full fleet equality, but the remaining delegations believed Japan would not launch a naval building race lest the other nations follow suit.

**COLD? Do These 2 Things Instantly!**

A Simple Method that Anyone can Follow

1. Take 2 BAYER Aspirin Tablets. Make sure you get the BAYER Tablets you ask for.

2. Drink a full glass of water. Repeat treatment in 2 hours.

The moment you feel a cold coming on follow the pictured directions above.

Your doctor will approve this as perhaps the quickest, easiest way known to fight colds and sore throat.

The Bayer Aspirin taken internally will combat a cold almost instantly; if throat is sore, crush and stir 3 Bayer Aspirin Tablets in a third of a glass of water; gargle twice. Do not rinse mouth.

When you buy, though, see that you get quick-acting, real Bayer Aspirin tablets. Water out for this.

### GENUINE BAYER ASPIRIN

### LA NORA Today and Saturday

The lord of the jungle captures many many-eating wild animals, including the ancestors of the life African cat lion named "Dug", now in the lobby of the theatre. When Frank Buck was eight years old, near his home in Gainesville, Texas, captured a three foot rattlesnake and sold it for real money. This inspired him on to a wild animal collecting career.

the court of pardons for commutation of sentence.

The governor's eleventh-hour intervention, made after talking to Mrs. Hauptmann in her hotel room, brought a call from the Trenton State Gazette and the Trenton Evening Times for his impeachment.

Governor Harold G. Hoffman has sacrificed all moral and legal right to serve as chief executive of New Jersey. He should be impeached and thrown out of office," said the State Gazette.

The papers, under the same ownership, are independent politically.

Trenton democrat, announced in December he would seek a legislative investigation of Hoffman's death house interview with Hauptmann.

Jamieson, however, withheld information today as to his attitude toward impeachment.

Hoffman is a republican. His party controls each branch of the legislature.

"Just a dream," Hoffman said of the impeachment talk.

The governor said he would sign the reprieve papers this morning and send them at once to the prison where Hauptmann was to have been electrocuted at 8 o'clock tonight.

### Borger Jaycees Are Sponsoring Esther Johnson

A number of Pampa people are planning to attend the piano concert of Miss Esther Johnson, world's greatest woman pianist, at Borger, Thursday evening, January 23.

Miss Johnson's appearance in Borger is being sponsored by the Junior chamber of commerce in the high school auditorium.

The concert will begin at 8 o'clock. Many Pampans grasp every opportunity available to bring Miss Johnson, who has given concerts here, at Amarillo, Shamrock recently. More than 400 heard Miss Johnson when Boy Scout troop 80 sponsored her concert here.

### FARM PLAN

(Continued from page 1)

ery, including county agents, probably would be employed in carrying out the new program.

Saying the undertaking under soil erosion constituted no change in the administration's farm relief effort, the president recalled a statement he made last Oct. 25. From it he read a reference to "a long time, more permanent plan for American agriculture."

Refers To Own Farm

Mr. Roosevelt said he was uncertain whether specific agreements made by farmers under the ruling of the Supreme Court, but he was confident of the power of the federal government to lease land.

He emphasized that the purpose of the program is to prevent loss of soil fertility.

### Magazine Editor Paid Lawyers for Lindbergh Appeal

NEW YORK, Jan. 17. (AP)—Paul G. Clancy, editor of the magazine, American astrology, announced today that he and his associates had hired the Washington constitutional lawyers, Neil Burkishaw and Nugent Dodds, to defend Bruno Richard Hauptmann.

"We hired them," Clancy said, "to establish justice."

The editor disclosed that he had arranged for their entrance into the case and agreed to pay the lawyers \$5,000 for their services.

"We are going to this expense and trouble," Clancy explained, "because we do not feel that Hauptmann got a fair trial."

"It would be wrong to condemn the prosecution, because their job was to secure a conviction. Hauptmann just didn't get a break."

Dodds and Burkishaw prepared and argued Hauptmann's recent appeals to the federal district court in Trenton, N. J. and the U. S. Supreme Court.

BLAST KILLS ONE

JONESBORO, La., Jan. 17. (AP)—One man was killed and three or more injured by a terrific explosion which wrecked the front of the Jackson parish court house here last night. W. L. Barnes, 42, was the only known fatality. His wife was among those injured.

### Cue Tourney Finals Will Be Tomorrow</

# HARVESTERS TO TRY FOR 23RD STRAIGHT WIN, FROM SANDIES TOMORROW

## PANHANDLE CAGERS BEAT PANTHER QUINT 28-20

### AMARILLO CRUSHED BY BORGER TEAM 24 TO 7

The Harvesters moved down the Panhandle leaders 23 to 20 for their 22nd straight victory last night at the local gym.

It was Panhandle's second loss of the season to Pampa. On the second day the Panthers began practice they were beaten more than 20 points by the Harvesters. The improvement of the Harvesters last night was expected. If the two teams play again, an even closer score is expected.

This morning, local basketball fans were surprised by the overwhelming defeat of Amarillo at Borger where the Bulldogs won last night 24 to 7. It was the most crushing beating any Sandie athletic team has taken in many years. The score at the half was 12 to 2. The Sandies were hopelessly lost as the Bulldogs ran up scores to lead to a 17 to 3 count at the end of the third period.

Mitchell Skeptical

Amarillo will come to Pampa tomorrow night to play the Harvesters, but Coach Mitchell expects no easy victory. He pointed out this morning that Coach Howard Lynch's hoopsters were playing their first game at Borger last night. He predicted they would look much better tomorrow night. "They learned enough in that game to make it interesting for us," he declared. The tilt tomorrow night will start at 8 o'clock. The Junior high band will furnish the music.

Tonight the Sandies will be hosts to the Lubbock Westerners who are undefeated and are conquerors of Plainview. Lubbock is favored to give the Sandies a terrific lacing. The Westerners are rated a stronger team than the Borger boys who were eliminated from the Perryton tournament before Christmas by the Harvesters. The margin of victory was 7 points. Lubbock looms as one of the strongest cage teams on the South Plains, and is challenging the long-time supremacy of Lamesa. An idea of the comparative strength of Borger and Lubbock may be learned tonight.

Sparks Stars

The high-point man of the game here last night was C. Sparks. Panhandle center, who scored 9 points. Until the last few minutes of the tilt, the result was never in doubt. Pampa led 11-6 at the end of the first quarter; 15-6 at the half; 22-14 at the end of the third quarter, and led in the fourth period. One time was 13 points. In the last second of the game, Sparks looped a basket to cut down the lead.

Ayer, Pampa guard, led the scoring attack for Pampa in the first quarter, hitting the basket three times from the field and once from the free-throw line. The field goals were long-distance shatters from difficult angles. Jones, the other forwarder guard, sank a long one from center in the fourth period, after turning in a dazzling defensive game. It was Stokes Green's off night and he couldn't hit the basket, but he strove mightily to get going, and for the most part passed well. However, his pal and best friend, Moose Hartman was "on" and the big-footed lad who sometimes reminds one of Harpo Marx, the zany, hit the basket twice in the first half and twice in the second half. Strickland was master of the center-jump 100 per cent. He too, was unable to hit the basket in the first half, but came back in the last to score six points, and tie for the scoring lead with 8 points with Hartman.

Harvesters Not Pressed

The Harvesters did not find it necessary to exert unusual efforts to maintain their lead, and their playing was certainly not the most brilliant they could turn out. It appeared that they were taking it rather easy. Whether the Harvesters have improved as much as the Panthers would be hard to determine. If the Panthers were about 8 points better, then the Harvesters might be about 16 points better than they were last night.

In the first game of the evening, the reserves including Nicholson, Noblitt, Baker, Nix, Bailey, Keyser, Kitchens, Bowsher, beat the Panhandle second string 19 to 14. Nix led the scoring for both teams with 10 points. Nicholson sank a basket from the corner soon after the opening whistle blew, and the Pampans held the lead from then on. Kitchens scored four points, Bailey 2, Noblitt 1.

About 800 among 2,451 officers and soldiers imprisoned by the Brazilian government after the November rebellion have been freed and investigation continues into the participation of the others.

## Two Polo Matches Will Be Played In City Jan. 25, 26

### BASKETFUL OF ACTION

Ralph Carlisle (5), of Kentucky, going into the air to stop a try for goal by Milt Schulman (5), of New York University. Behind Carlisle are Irv Terjesen, of the Violet, and Joe Hagan, of the Wildcats. Sprawled on the boards is Millard Anderson, of the Lexington team. N. Y. U. won 41-23, before 18,000 persons at Madison Square Garden.

## Basketball Over The Panhandle

**BORGER BEATS GRUVER.**

BORGER, Jan. 17.—The Borger Bulldogs gave indications of the superiority of play by trouncing the Gruver five Tuesday night, 29 to 13, while the Redbirds from the Borger school led the girls' squad at Gruver 31 to 19.

The small sized Gruverites capitalized on fouls by the hustling Bulldogs in the nightcap, and via that method held an 8 to 5 lead midway of the second quarter before the big guns of the local squad began a siege on their own backboards. Seven of the thirteen points scored by the Gruvers came via the gratis route and five attempts went by. The canine leather handlers began to move upon their hosts and at half-time held a 12 to 10 advantage.

The two opening seasons consisted of a free throw and field goal by Davis; two field goals by Bagley who lumbered across the court to throw at a dead run on both occasions; a field toss by Jones who pushed the ball into the hoop just as the session ended; a free goal by McPherson, and a field goal by Rives. Score—Borger 12, Gruver 10.

**Plainview Beats Tula.**

PLAINVIEW, Jan. 16.—Plainview girls defeated Tula 51 to 7 and the boys' quint overcame the Tula five 24 to 17 last night in a double-header card that was decidedly listless and faulty.

Plainview coaches used up their reserves in an effort to inject some semblance of life in the two contests but it was an off night and comments of coaches following the games were anything but enthusiastic.

Coach Billy McClure started his reserves in at the second quarter and before the game was playing only second string players. The unbalanced score was evidently not a result of the Plainview sextet's ability.

With the Southwestern A. A. U. meet coming up, now is no time for a team to become over confident and Coach McClure is looking for a remedy.

The Bulldog quintet will contest the undefeated Turkey crew at Turkey Saturday night. Their next engagement will be with the Lubbock Westerners at Lubbock Tuesday night.

## RADICAL CHANGES IN GRIDIRON SCORING SYSTEM ARE SUGGESTED

NEW YORK, Jan. 17.—Football will become an easier game to understand and a harder one to score if the suggestions of the Eastern Association of Football Coaches are adopted by the rules committee.

Radical changes in the scoring system and clarification and simplification of some of the lesser rules were the highlights of the dozen suggestions from experienced arbiters sent to Walter R. Oakeson of Leigh, chairman of the national rules committee, by William R. Crowley of New York, president of the association.

Crowley advocated the return of the goal posts to the goal lines and adoption of a system of prompt announcements on all rulings.

The scoring suggestion is similar to that proposed several years ago by Glenn S. (Pop) Warner, Temple university coach. The changes are that the point after touchdown should be eliminated and instead a point should be given for each first down. In case of a tie, a 5-minute period would be added to settle the issue.

Another suggestion by Tommy Eughitt of Buffalo and relayed without Crowley's approval concerned a change in the penalty for interference with a forward pass receiver. Eughitt proposed a straight 15-yard penalty, measured from the point of the preceding down, instead of the award of the ball to the off-ended team at the place where the interference occurred.

to the national ski meet there Feb. 10.

Gene McCann, veteran Yankee scout, heads more baseball teams than any other man in captivity. He is president of the Akron, Norfolk, and Birmingham clubs, all Yankee farms. Sam Brown, 220-pound Vanderbilt guard, will play pro football with the Chicago Cardinals next season.

## Sports Roundup

Associated Press Sports Writer.

NEW YORK, Jan. 17.—Speaking of illustrious names for ball players... there's Eddie Collins... Moore with Birmingham... Nashville has Larry Lajole Fisher... Connie Mack Thomas plays with Fortavogue in the Kitty league... C. Spahr... Rogers... Jasper... Totals... Substitutes: Panhandle, Watts, Anderson, Howe, Referee, Monroe, (WTBTO).

Kom og se gutter som kan flyve paa ski... (take it easy now)... signs reading like there have been posted on highways leading to Red Wing, Minn., directing Scandinavians

Even the high schools are doing it... Frontenac, Kans., and Commerce, Okla., were selected to play in the—you guessed it—Zinc Bowl game at Atchison recently... It will be an annual feature... Bunn Hearne, the old big league pitcher, coaches baseball at the University of North Carolina, just 12 miles from where Jack Coombs holds forth at Duke... St. Mary's may spend a month in the east next season, meeting Fordham, Temple, and Michigan State... 190-cent 'em—pignion debutaries keep the gridiron fires burning brightly at Minnesota during the pre-spring practice season... It's a record crop.

The News' Want-Ads bring results.

## Plainview Riders To Be Opponents of Local Men

Polo will be introduced to Pampa on Jan. 25 and 26 when the newly organized Pampa team meets the El Reno High of Plainview in a two-game series. The matches will be played north of the city on the Hobart street road, where a regulation size polo field has been laid out. Game time will be 2:30 o'clock with admission 50 cents.

The Pampa club, although new, has players of considerable experience. Members have some of the best polo stock in this section and the experience of the veteran Plainview players is expected to be somewhat overcome by the Pampa superiority in stock.

Local stock is being trained by C. H. Huff who, for several years, was trainer for Fred Post, of Long Island, N. Y., biggest dealer in polo ponies in the world. Huff is expected to make a place on the team. Other players will be announced within a few days.

The playing field will be worked over before the game. Players plan to have a final stiff workout on Sunday with tapering-off during the week. An experienced umpire will be secured to handle the games. Many Pampans have never seen a game of polo and they are expected to be on hand early. Polo fans will also be present to renew their enthusiasm.

Polo is played in periods or chukkers. Each chukker is of 7½ minutes duration. Games here will be played in six chukkers with three minutes rest between each period excepting at the half, when five minutes intermission will be allowed.

Facts and figures about the field and duties of the players follow:

The size of the local polo ground is 300 yards long and 170 yards wide. The ball is made of willow root, is 3½ inches in diameter and weighs 5½ ounces. The polo stick has no standard size or weight, and square or cigar-shaped heads are used at the discretion of the player.

Goal posts are 8 yards apart. Two umpires and a judge usually handle the game. The umpires should be well mounted and with a good knowledge of the rules of the game. The referee acts only in case of a disagreement of the umpires.

The American game has no off-sides and the penalties consist of subtracting a goal or fraction of a goal, according to the offense of a player, or putting the polo stick in the hands of the opposing team.

A few of the duties of the players are:

No. 1 is the most difficult position on the field to play well, and a team that can afford to put a really first-class player at No. 1 is the most formidable team to meet. It is a position of tremendous possibilities. It requires superlative horsemanship, great dexterity in the job of putting the polo stick back into the play, and an utter unselfishness in leaving the ball for others behind to bring along. A good horseman, well-mounted, not necessarily experienced in the matter of hitting the ball, can be of great use to his team.

No. 2's primary duties are to keep himself, as nearly as possible, immediately on or over the ball when the ball is put into play. He should follow the ball into offensive corners. He must be the fastest and most accurate hitting man on the team. He must guard opposing No. 3 closely on defense and be in position to break from defense to offense instantly. There is little chance for the No. 2 player to save his ponies and he needs more horses than any other man on the team.

No. 3 ought to keep over the ball all the time on the defense. He is the first line of defense. He should be the most expert and skilful man on the team if his No. 2 is the most aggressive and active player. The No. 3 must remember that the strongest defense is a strong offense and be ready to take the offense on the first move. He is a guard and on top of this must keep the opposing No. 2 player out of the play.

No. 4 or the back is the defensive man on the team and the court of last resort. He should be cautious about playing close up to the line and be ready to break in any direction like a flash. His chief duty is to defend his goal and his stunt is to turn the ball back whenever it gets started toward his goal and passed No. 3. Under no condition should he hit his ball straight down the field. He should always hit it upward and to the side so that the opposing player will not have a dead shot on goal.

**PONY CAPTAINS NAMED**

DALLAS, Jan. 17.—Johnny Sprague, backfield ace, and Paschal Scottino, star guard, will captain the Southern Methodist gridiron squad next fall. Lettermen of the 1935 squad, which won 12 games in a row and then lost to Stanford in the Rose Bowl classic, elected the two seniors. Both live at Dallas.

Lampaco the bandit lost four henchmen in a frustrated raid near Alagoas, Brazil, recently. The ranchers, aided by state police, held the barefoot gangsters at bay for hours and finally repelled them.

St. Petersburg, Fla., with 73 churches, sometimes is called "the city of churches."

## 6 SOUTHWEST QUINTS PLAY ON SATURDAY

### TCU LEADS LOOP BUT HAS WON ONLY ONE TILT

Associated Press Sports Writer

Six of the seven Southwest conference basketball quintets swing into action tomorrow night, Baylor meeting Texas at Austin; Rice taking on Texas Christian at Fort Worth, and Texas A. and M. invading Dallas to meet Southern Methodist.

These games will close out a heavy week of six games in which the conference leadership changed several times. Today found the Texas Christian Frogs on top by virtue of a 29 to 23 decision last week over Southern Methodist—the only game the Frogs have played. All other conference teams have lost at least one game.

The University of Arkansas Razorbacks had their powerful march stopped Wednesday night when Coach Jimmy Kille's Rice Owls snatched out of their trance and smothered the Ozark hoopers, 35 to 29 after dropping the first of the two game series. But the week's most jolting upset was Southern Methodist Mustangs' 33 to 31 verdict over the Texas Longhorns. It required three over-time periods for the Mustangs to accomplish the feat.

The present standing of the teams places Arkansas in second place, Texas third, Southern Methodist and Rice tied for fourth, and Baylor and A. and M. last, each without victory.

## SPORT SLANTS

Before 16-year-old Adolph Kiefer of Chicago's Lake-Shera A. C. shattered the world swim mark for the 100-meter backstroke, he was just another member of the American "swimming team" which was touring Europe last October.

But when a Paris newspaper correspondent who attended the meet in Krefeld, Germany, where the young American performed so sensationally, discovered the lad's father was French, Kiefer's fame developed sudden interest in Kiefer.

Under French law "any individual born in a foreign country, unless his father's nationality has been changed by naturalization. An agreement between France and the United States, however, gives the son the privilege of adopting citizenship in the country of his choice when he reaches his majority.

Hope that the Minister of Education, Ernest Lafont, will try to persuade Kiefer to wear the tricolor in the 1936 Berlin Olympics was expressed in the sports newspaper "Auto."

There is little likelihood that Kiefer will do any such thing. He is virtually certain of winning the backstroke assignment on the U. S. Olympic team next summer. Kiefer holds about every backstroke record in the books.

Swimming in the annual Miami-Biltmore aquatic meet the first of the year, Kiefer added two world and five national marks to his collection. Racing against time in the 400-yard event, he relieved M. Kiyokawa of Tokyo of the world crown in the 400-meter distance. Kiefer's time was 5:28.6, while Kiyokawa's record swim at Tokyo in January, 1933, was 5:30.4.

Racing Albert van der Weghe of Newark, N. J., in the principal American rival, over the 100-meter route on the final day of the meet, Kiefer covered the distance in 1:05.6 and clipped 2.2 seconds from the world figure he set last July in Detroit.

**Citizenship Barrier**

You can't depend on the question of citizenship to crop up whenever the Olympic games are at hand. The Olympic ruling on the matter is simple enough—an athlete may represent the land of his birth or naturalization. But once he has represented a country he cannot appear again wearing the colors of another.

The slow-moving machinery of naturalization deprived Uncle Sam of the services of many fine athletes trained and developed in this country only to return to the land of their birth and appear at the Olympic games in the role of opponents simply because they could not become American citizens in time to wear the red, white and blue shield.

In 1924 Willie Ritola declared his intention of becoming an American citizen in the hope of winning a place on the U. S. track and field team only to find that the papers could not be put through in time. The result was that he returned to and competed for Finland. Phil Edwards found himself in the same position in 1928. The great Negro middle-distance runner from New York University found a place on the Canadian Olympic squad that year and again in 1932.

Stella Walsh had her first papers, but when the final ones failed to come through in-time she donned the colors of Poland and won the 100-meter championship for that country. If she competes again it will have to be in the colors of the same country.

St. Petersburg, Fla., with 73 churches, sometimes is called "the city of churches."

## Louis Favored To Win Over Wheat Belt Heavy Tonight

### Retzlaff Declares He Will Slug It Out

CHICAGO, Jan. 17. (AP)—Joe Louis, man of the hour in the fight business, catches up tonight with Charley Retzlaff, latest of the heavyweights to promise him a battle.

The spectacular Detroit negro whose explosive fists have blasted open a new vein of huge "gates," and the 28-year old North Dakota farmer will go to work in the Chicago stadium for what is scheduled as a 15-round battle. The test, if it amounts to that, will be the brown bomber's first in 1936.

Indications today were that 20,000 spectators will see the bout. All of them will be hoping that Retzlaff adheres to his promise to throw punches from the start. Most of them will be expecting to see Louis, a 1 to 10 choice with virtually no Retzlaff money around, accomplish another of his crushing triumphs.

If the 20,000 attendance materializes, the gate receipts will crowd \$100,000, of which the cold-eyed negro will receive 40 per cent. He also will get a similar cut of the radio and motion picture receipts. Retzlaff is down for 17½ per cent of the gate. A crowd of 20,000 also would be the biggest here since 1932 when Jack Dempsey, hero of boxing's other big gold rush, and King Levinsky fought their four-round exhibition in the stadium.

To Louis, who has not squandered more than six rounds on any of his last nine foes, the engagement is just an opportunity to add about \$40,000 to the \$364,000 he collected last year. He is confident that, nothing like 15 rounds will be required to send Retzlaff the way of Levinsky, Primo Carnera, Max Baer and Paulino Uzcudun, his most recent victims.

For Retzlaff, it is a chance to provide an answer to the question of what Louis would do under pressure. It has been so long since anyone got tough with the bomber that it has become almost legend that Louis has first scared, then knocked all his opponents stiff. Retzlaff insists that he will not be whipped before he starts.

Testimony that the strapping heavy from the wheat belt has the equipment to damage anyone he can hit, is found in his record. His destructive right hand has accounted for 55 knockouts in 68 fights.

Physically, they are well matched. Louis was expected to weigh at noon today about 201 pounds, but he is heavier for an important battle. Retzlaff, with advantages in height and reach, figured to be outweighed by about five pounds at 195.

Louis will be aiming at his 27th consecutive professional triumph, and his 23rd knockout.

**Phillips Beats LeFors 31 to 25**

In a game of basketball-football, the newly organized Phillips 66 basketball team defeated the LeFors Independents, 31 to 25, in the LeFors high school gymnasium on Wednesday night. It was the second consecutive victory for the new team.

Slim Windom, Phillips center, led the scoring with 10 points, followed by Jack Bacaus with 7, Smith with 6 points, led the LeFors attack. Bronson and Beason followed with 5 each.

LeFors guard, played the outstanding defensive game on the floor in holding the sensational Tip Windom scoreless. Bacaus also played a great defensive game.

Phillips' Albert van der Weghe of Newark, N. J., in the principal American rival, over the 100-meter route on the final day of the meet, Kiefer covered the distance in 1:05.6 and clipped 2.2 seconds from the world figure he set last July in Detroit.

## TURKEY TURKS BEAT CROWELL AGAIN 23-18

### DUNCAN TEAM BEGINS TO LOOM AS MAJOR HARVESTER FOE

The Terrible Turkey Turks are beginning to live up to their name. They now appear to be as terrible as the "Turks" Gobble would have Bobby Meacham, sports editor of them be.

Wednesday night the Turks journeyed to Crowell and whipped the 1935 district champions 23 to 18. The game was close with the score 11 to 11 at the half, and 17 to 17 at the final whistle. In an extra three-minute period, the Turks sank three field goals, while all Crowell could get was one free throw. Captain Young was high-point man with 7; Bass and Coker tied for next place with 4. Wiggins led the scoring for Crowell with 8.

The victory was Turk's second over Crowell, having won the first game 25 to 24. Crowell has defeated Vernon and Electra.

The point of all this is that Turkey will come to Pampa next Thursday night for what should be a major test for the Harvesters. If they can topple the undefeated Turks they should be ready to sally forth against Plainview, Lubbock and Lamesa. Undoubtedly, there is more truth than ballyhoo connected with Coach Al Duncan's Turks.

Perhaps the only blind basketball team in existence was organized among blind students at the Alabama Institute for Deaf and Blind at Talladega in 1929. Players were guided by bells attached to the players' and the goal.

## Nevers Is Named Lafayette Coach

### EASTON, Pa., Jan. 17.—Ernie Nevers, one of the great figures in Stanford's athletic hall of fame, was named football coach at Lafayette college today.

Henry W. Clark, new athletic director at Lafayette, announced the selection of the former all-American fullback and present Stanford backfield coach from a group of 100 applicants for the post. No announcement was made of salary terms or the length of Nevers' contract.

Nevers succeeds Herb McCracken, whose resignation became effective at the end of the 1935 season after a 12-year coaching regime. He is to take over the reins at the start of spring practice early in March.

### Bodyguards Deny One Killed Long

NEW ORLEANS, Jan. 17. (P)—A full-page newspaper advertisement today carried the answer to Senator Huey P. Long's bodyguards charges that one of them killed him.

The six guards who were with the senator when he was fatally wounded last September, said in a radio advertisement to call a "palpable lie" an assertion by Rep. Cleveland Dear intimating that one of the six was the assassin.

Dear, anti-administration candidate for governor in next Tuesday's democratic primary, said in a radio address that one of the "chief bodyguards" is "now in an asylum for the insane and I am informed that he constantly cries, 'I killed my best friend!'"

At the time of Long's death all reports were to the effect that he was fatally wounded by Dr. Carl Austin Weiss, Baton Rouge physician, who was slain by bodyguards. The guards testified at a coroner's inquest that Weiss fired the fatal bullet.

Weiss' father recently issued a statement that Long was killed as a result of a "personal difficulty" and that "in all probability" he was shot by one of his own bodyguards.

Followers of Long, seeking nomination in the primary, have charged continually that Long's enemies gathered at a New Orleans hotel to plot his death and that the lot of killer fell to Dr. Weiss.

### Help Wanted

## RANCH OWNER SAYS WASTE OF GAS IN STRIPPING NOW MENACE TO EVERY CITIZEN

### Henry Schafer Says Few Are Profiting — Calling Upon Citizens to Stop It.

Estimating that more than \$100,000,000 already has been irretrievably lost through the uncurbed operations of gasoline "stripping plants" in the Texas Panhandle, Henry Schafer, veteran Carson county rancher, yesterday called upon "every citizen of the Panhandle" to join him in a fight to halt the waste of millions of cubic feet of natural gas which daily are being blown into the air by the stripping plants.

In his estimate, Mr. Schafer said he took into consideration only the value of the gas wasted and did not consider the damage caused by reduction of gas pressure and consequent loss in oil bearing strata. In this latter connection, Mr. Schafer stated that the total of 245,540,000 cubic feet of gas, of this total, Cargary Oil company, leaseholders on his ranch west of Pampa, that approximately 3,000 acres of granite wash area in the vicinity of Skellytown have been so seriously damaged as to render it unprofitable for that company to drill further wells in that territory.

### Many Stripping Plants

More than 40 "strippers" of varying size are listed in operation in the Panhandle gas area, he said. Figures taken from public records by him were quoted, showing that three of these plants in the Pampa territory—Cargary corporation, American Natural Gasoline company, and the McKee plant of the Shamrock Oil and Gas corporation—have vented into the air from October 15, 1933, through November 30, 1935, total of 245,540,000 cubic feet of gas. Of this total, Cargary is credited with 112,706,181.000 cubic feet, the American Natural with 99,205,164.000 cubic feet, and the McKee plant with 71,629,464.000 cubic feet.

### Estimates Loss

Taking an average pipeline rate of four cents per thousand cubic feet, Mr. Schafer estimates that \$9,741,632.36 has been lost in the gas vented by these plants alone. Assuming that the gas waste from other stripping plants in the Panhandle corresponds to the figures on these plants, the waste from 30 such plants over a corresponding period would approximate \$97,416,323.60. This is on a basis of less than three-fourths of the plants actually listed in operation.

Figures at four cents per thousand cubic feet, gas vented by the nearby Cargary plant is estimated to have been worth \$4,508,247.24.

### Called 'Criminal Waste'

"This criminal waste of natural resources is far more vital and of more serious consequence than many residents of this area realize," Mr. Schafer said.

"It has cost royalty owners and lease-holders heavily but it likewise has affected every business and every individual here. The pumping of an additional 200,000,000 through the channels of Panhandle trade during the last two years certainly would have made a marked difference in business conditions. But, let's assume that only 10 per cent of this gas had been marketed and we still have \$10,000,000 and the remaining gas could have been preserved in the ground for future markets."

### Flames Destroy Post Warehouse

POST, Jan. 17. (P)—Fire of undetermined origin, discovered between 1 and 2 a. m. today, destroyed the warehouse and marketing association, a farmer owned group, together with between 1,400 and 1,500 bales of cotton. Loss was estimated at nearly \$95,000.

The blaze started outside the warehouse in ten bales of cotton left by a customer last night after the warehouse had closed. Only four of these bales were saved; none of the bales inside was. Flames burned brightly until daylight and rains were smouldering at noon.

Loss on the building was estimated at \$7,000, contents at between \$80,000 and \$85,000. Insurance will be paid to owners of cotton on the basis of Thursday night's cotton market close.

The water pressure went down as doors of the warehouse were opened and it was believed caused by a break in the mains running to the firm's sprinkler system. Firemen were without water to battle the flames for nearly an hour.

Flames driven by a west wind, swept over the prairie, thus saving residences and business structures in adjoining blocks.

### Pressure Dropping

"In little more than two years time, gas pressure in the Gray and Carson county area has been reduced by half—from around 400 pounds to around 200 pounds, and not only my own lands to which I have referred but thousands of acres belonging to other landowners which formerly was rated as valuable oil producing land have been rendered valueless due to lack of gas pressure to flow the oil.

"In the granite wash area around Skellytown to which I have already alluded, the Skelly Oil company informs me that, whereas, wells formerly averaged 600 to 700 barrels initial production, they now run around 25 to 30 barrels initial and this company frankly states that it cannot afford to undertake the expense of further development of this area for such production.

"Every citizen can help by sitting down now and writing not only one but repeated letters of protest to the attorney general, the governor and to members of the Texas Railroad commission.

"Every day this waste is permitted to continue, more than one billion cubic feet of gas are being blown to the winds and forever lost. The greatest gas field and one of the greatest oil areas in the world are rapidly being dissipated and destroyed."

## WILSON CHARGE THREATENS TO WRECK PROBE

### NYE IS DISPUTED BY SENATOR CONALLY FROM TEXAS

WASHINGTON, Jan. 17. (P)—An angry row over accusations of "falsification" hurled at President Wilson raged through the senate today, split its munitions committee and threatened to embroil the whole question of new neutrality legislation.

Hot indignation over an assertion by Chairman Nye (R., N. D.) of the munitions committee that Wilson "falsified" in testifying before a senate committee broke out yesterday both within the committee and on the senate floor. Despite efforts of leaders to push bonus legislation to the fore, the battle threatened to continue today.

The first outbreak came while J. P. Morgan and two of his partners were testifying before the munitions committee in its inquiry into war-time trade and financing. They were abruptly thrust aside as Senator Pope (D., Ia.) strode into the room to read a biting statement on behalf of himself and Senator George (D., Ga.) that the investigation had "degenerated" into an attack on President Wilson. Both Pope and George are members of the committee.

To aid agriculture, Hoover suggested: 1. Restore home markets to American farmers and increase consumption of food by the restoration of employment. 2. Retire submarginal acres and retard reclamation projects. 3. Encourage cooperative marketing and further improve farm credit machinery.

"The administration of these methods would be handled by the land grant colleges and the farmers themselves in order to free agriculture of politics and the vast bureaucracy now loaded upon the farmer," he said.

Ten thousand persons greeted the Californian in the University of Nebraska coliseum. They were the only persons to hear the entire address because it ran two minutes longer than the allotted radio time.

The former president was cut off the air about 75 words before the conclusion of his talk.

Columbia Broadcasting system officials explained that had they permitted Hoover to continue it would have interfered with their program schedule.

At Washington Lawrence Richey, former secretary to Hoover, said his former chief informed him by telephone that he blamed his watch for his failure to finish in time. Richey said Hoover expressed himself as entirely satisfied.

The talk was Hoover's first since the Supreme Court smashed the AAA, which the former president characterized as "the principle of the economic dog chasing his tail."

"There should be no attempt to again impose new deal ideas of controlling and regimenting the farmer or restricting production. He must be free of any restriction and control contracts," he continued. "The farmer must be an entirely free man to do his own skill and judgment. Reverse this economy of scarcity to an economy of plenty," he urged.

At one point he paused for a moment to rap "this torrent of wasteful spending" and drew a laugh from the crowd with the remark: "Every citizen can help by sitting down now and writing not only one but repeated letters of protest to the attorney general, the governor and to members of the Texas Railroad commission.

"Every day this waste is permitted to continue, more than one billion cubic feet of gas are being blown to the winds and forever lost. The greatest gas field and one of the greatest oil areas in the world are rapidly being dissipated and destroyed."

# BRIDGE CLUB PARTIES HOLD LARGE PLACE IN WEEK-END

## MRS. SMITH HOSTESS WITH ADDED GUESTS

Bridge clubs are being entertained in a number of parties of this week-end. One of the larger groups to enjoy these events was that to which Mrs. Carl M. Smith was hostess at the Schneider hotel yesterday afternoon.

She entertained Queen of clubs and two tables of added guests. Mrs. Howard Buckingham made high score for members and Mrs. Hoover for guests, while the award for high cut went to Mrs. Charles G. Cook.

Guests of the club were Mmes. Frank Perry, Lynn Boyd, Hoover, Ocheltree, Dave Finkelstein, Ed Blisset, George Rainouard, and Miss Fern Hughey.

Members playing were Mmes. H. D. Keys, A. B. Goldston, Crawford Atkinson, H. C. Wilson, B. L. Lilly, R. S. Lawrence, Max Mahaffey, Carl Boston, W. V. Jarratt, I. B. Hughey, Cook, and Buckingham.

Husbands of Kontract Kard Klub members were guests for a covered dish supper at the home of Mr. and Mrs. M. R. Ryan. Bridge games were enjoyed after the meal.

Present were Messrs. and Mmes. T. B. Parker, M. R. Church, T. B. Rogers, L. E. Keck, L. K. Baldwin, and John A. McCutcheon.

Mrs. R. K. Eason was hostess to the Deuce of clubs at her home yesterday afternoon, when two tables of club members were entertained. Mrs. Marvin Harris made high score in the games, and Mrs. Eason second high.

Other players were Mmes. Clifford F. Jones, Paul Carmichael, B. E. Woods, F. H. Sifton, W. B. Haas, and J. M. Hatfield.

## JUNIORS WILL PRESENT BIBLE DRILL TONIGHT

Will Show Publicly Work Done During Revival

Girls and boys who have been taking part in Bible drills preceding the daily revival services at First Christian church here, will demonstrate their training this evening at 7:30.

Directed by Howard House, the juniors have worked hard to gather the information they will use in this program. Judges will select the three who have learned best the words, and Mr. House will give each a crayon picture. The junior choir will sing.

The sermon by Evangelist George Davis, who is preaching each evening, will be The Great IF. Mr. House will draw a picture, to the Mountain, and by request will play Life Is Like a Mountain Railroad as his vibraphone solo.

No meeting of the adult Bible study class will be conducted tonight.

## Quins Healthy and Active—Judge For Yourself!

To a group of a spade's a spade and a chair something in which to relax. But to imaginative youngsters—like all 20-month-old youngsters, a chair may be anything from a wheelbarrow to a throne. At center and right, like man, the Diene tots want but little here below, and horns, dolls and tops—tutty chairs apparently spell contentment.

## PARTY FOR QUEEN OF CLUBS AT HOTEL IS LARGEST

Bridge clubs are being entertained in a number of parties of this week-end. One of the larger groups to enjoy these events was that to which Mrs. Carl M. Smith was hostess at the Schneider hotel yesterday afternoon.

She entertained Queen of clubs and two tables of added guests. Mrs. Howard Buckingham made high score for members and Mrs. Hoover for guests, while the award for high cut went to Mrs. Charles G. Cook.

Guests of the club were Mmes. Frank Perry, Lynn Boyd, Hoover, Ocheltree, Dave Finkelstein, Ed Blisset, George Rainouard, and Miss Fern Hughey.

Members playing were Mmes. H. D. Keys, A. B. Goldston, Crawford Atkinson, H. C. Wilson, B. L. Lilly, R. S. Lawrence, Max Mahaffey, Carl Boston, W. V. Jarratt, I. B. Hughey, Cook, and Buckingham.

Husbands of Kontract Kard Klub members were guests for a covered dish supper at the home of Mr. and Mrs. M. R. Ryan. Bridge games were enjoyed after the meal.

Present were Messrs. and Mmes. T. B. Parker, M. R. Church, T. B. Rogers, L. E. Keck, L. K. Baldwin, and John A. McCutcheon.

Mrs. R. K. Eason was hostess to the Deuce of clubs at her home yesterday afternoon, when two tables of club members were entertained. Mrs. Marvin Harris made high score in the games, and Mrs. Eason second high.

Other players were Mmes. Clifford F. Jones, Paul Carmichael, B. E. Woods, F. H. Sifton, W. B. Haas, and J. M. Hatfield.

## Tonight's P-TA Program To Be Open to Public

Four short talks dealing with aims of the new educational program will make up the panel discussion at this evening's meeting of Junior High Parent-Teacher association. Everyone, especially parents of junior high students, are invited to the cafeteria at 7:30 for this program.

Speakers will be Mrs. J. M. Dodson, Mrs. E. Duncan, Supt. R. B. Fisher, and Principal R. A. Selby. Mrs. C. T. Hunkapillar will be in charge. Music by Treble Clef club will complete the program, which was planned under direction of Mrs. William Miskimins.

Refreshments will be served by the hospitality committee, Mmes. L. L. McColm, J. C. Richey, and A. C. Green.

## THRIFTY ITALIAN WOMEN MAKE SANCTIONS AID FAMILY BUDGET

By A. EDWIN STUNTZ

ROME (AP)—Sanctions are helping the average Italian wife with her household budget and thus far have failed to hurt her family's diet. Accustomed to frugal living, the Italian housewife has added a sense of the need of national conservation to her penny counting.

"Pasta," generic term for spaghetti and all the macaroni with diameters up to two inches, is the basic food of the average Italian. The poor rarely have meat but always some cheese and fruit.

Coffee is for the well-to-do; it costs \$1.40 a pound.

Less Meat, More Cheese

All housewives, through patriotism or governmental restrictions buy less meat, potatoes, beans and other imports. Rich and poor are reviving palatable Italian dishes.

More than formerly there is served the larger macaroni tubes stuffed with greens and cheese as a meat substitute. Rice, which Mussolini for years has been trying to get on the family plate, is more popular.

Under the zealous tutelage of the nation's war maker is widening the Italian home maker is learning to shop cautiously for fish and game. Instead of expensive and rich meat sauces for spaghetti and macaroni, she is resorting to mushroom, tomato, shellfish and other more abundant seasonings.

Sub Warms Homes By Day

Under fascist supervision there is restraint on the use of soap, salad and cooking oils and kerosene, often used for heating and cooking. Vegetable oils, supposedly abundant in Italy, are used so widely that much is imported. Much of the olive oil in Italy comes from abroad.

To save coal thousands of families have gone back to the habit of letting the sun's heat suffice thru the middle of the day.

The traditional Italian kitchen stove, an old fashioned, tiled, charcoal range, has come back as a sanctions fighter. Housewives have turned to it to save gas, coal and liquid fuels.

Black Shirts Sit On Lid

Knitting needles click throughout the kingdom in the war of reprisal against sanctions. There is plenty of wool yarn and silk thread.

Through it all the fascist party under direct supervision of Achille Starace, federal secretary, sits upon the lid of commodity prices.

Thus coal and fuel oils are about the only commodities which are skyrocketing.

Coal has been going up for six months, from \$13.00 to \$19.00 a ton. Gasoline now sells for \$1.15 a gallon retail.

Cost of Living Stable

Butter, potatoes, and other pantry standbys have increased only about half a cent a pound. Spaghetti and the other "pastas" remain stable. Olive oils have increased about eight cents a quart.

Domestic statisticians figure therefore that the cost of living for the average Italian family has remained the same, while the nation takes a practical lesson in thrift and personal economy.

They say the average household bill falls on about 20 cents a day a person.

As long as they can do this, Italians laugh at sanctions with their direct effect only on bus fares, coal bills and the luxury articles.

## FUN PROGRAM PLANNED FOR AAUW DINNER

ANNUAL CELEBRATION OF FOUNDERS DAY SCHEDULED

Founders day will be celebrated by the Pampa chapter, American Association of University Women, at a gala dinner party at the Schneider hotel Tuesday evening.

Plans were completed at a business meeting and executive board session yesterday at high school library.

This year the annual program will be devoted chiefly to fun, although the Texas Centennial theme will be used in decorations and touched upon in the program.

Mrs. H. V. Patterson heads the committee in charge of preparations.

The evening will start in the manner of a premiere, with introduction of notables from a public address system. Carl Benefiel, manager of Pampa theaters, is to cooperate with the club in staging this feature.

Prominent among the guests will be a comedian who has gained a reputation in this section—the noted "Elmer."

All business before the club was cared for at the meeting yesterday, so the entire evening Tuesday will be given to fun and entertainment.

## SEEK APPROVAL OF 'BIG FIVE' FOR FARM PLAN

FDR Idea Based on Conservation of Soil

WASHINGTON, Jan. 17. (AP)—Adherents of new deal farm policies were believed today to be fighting to put five big national farm organizations on record in favor of the administration's plan to amend existing soil conservation law to continue crop control principles of AAA.

The "big five," meeting in conference, are expected to make a report tonight. The organizations are the National Grange, American Farm Bureau federation, National Cooperative council, National Grain corporation and American Agricultural Editors association.

Some conference members who are not warm to all through administration ideas said they expected administration adherents to succeed in a drive for a favorable report.

An administration decision to seek immediate temporary farm legislation continuing federal payments to farmers was reached at a White House conference yesterday.

With the exception of taxation to support it, all angles of the plan were discussed by the president, Secretary Wallace, Secretary Morgenthau, Attorney General Cummings, AAA Administrator Davis, Solicitor General Reed, Senator Robinson of Arkansas, the majority leader, Speaker Byrns, Chairman Smith of the Senate Agricultural committee and Chairman Jones of the house agricultural committee.

The agreement on a proposal to adjust crop production to a soil conservation and erosion prevention measure. Farmers would be reimbursed for land thus retired through federal rental payments. Any necessary authorization would be sought through amendments to existing laws.

It was planned to ask congress for an appropriation of \$300,000,000 to \$400,000,000 to finance the program's estimated cost in 1936. An additional appropriation of about \$300,000,000 would be requested to reimburse farmers under the invalidated 1936 adjustment contracts.

## CHURCH DEFIES STATE SYSTEM OF EDUCATION

CATHOLICS INSTRUCTED NOT TO ATTEND SCHOOL

MEXICO CITY, Jan. 17. (AP)—Catholic church authorities said today instructions to Mexican Catholics to refuse to comply with the federal socialistic education laws would be read Sunday in all churches throughout the country.

The instructions were contained in a collective pastoral letter, prepared by the nine archbishops and 30 bishops, in which the church set forth more vigorously, and more outspokenly than heretofore, its objections to the government's socialistic education program.

In defiance of article three of the national constitution, reformed in 1934, which made socialistic education compulsory, the pastoral letter said "no Catholic can be a socialist."

It defined as socialism any system which "does not recognize the rights of God and the church."

Although issued in printed form prior to being read, the pastoral letter was not immediately circulated widely. No government official would comment on it before it was read.

## Class Scrapbook Starts to China

A scrapbook made by sixth grade students at Woodrow Wilson school is being sent this week to girls in a school at Kuliangs, Amoy, China, friends by correspondence of the Pampa pupils.

The book contains pressed specimens of native plants of the Panhandle and other sections of Texas, mounted under cellophane. The collection was made from smaller books which each child compiled.

Believing that pictures of the Pampa area would give a better idea of the specimens, the pupils included numerous views of the city and surrounding area. They also took snapshots of their school, teachers, class groups to paste in the book.

Making the book was an English project directed by Miss Katherine Simmons. The class has written to the Chinese schoolgirls and received letters and snapshots from them.

## Newly Organized League to Meet

Reorganization of the Epworth League at Harrah Methodist chapel will be held this week, and the first regular meeting of the new year is scheduled for 6:15 Sunday evening.

Clyde Perkins was elected president, Ivan Stokes vice-president and program chairman, Bette Pearl Bowerman secretary, Robert Bowerman treasurer, Lucile Stokes chairman of recreation, LoWanda Johnson chairman of missions.

The program subject Sunday evening is The Printing Press and Christianity.

## Baptist Laymen To Dine Tonight

Laymen of First Baptist church are invited to the monthly Brotherhood dinner this evening at 7:30 in the church dining room. A program of music, talks, and fellowship has been arranged for the hour following the dinner.

The subject is Stewardship. Talks will be by J. D. Alford, on What the Bible Says About Stewardship; Marvin Lewis, on Immediate Needs for Stewardship; and R. E. Gatlin, on Pleasure Derived From Stewardship.

## Surprise Shower Is Given Mrs. T. Arney By Three Hostesses

Mmes. F. G. Arney, O. V. Hunt, and Pickel were hostesses at a surprise shower in the home of the latter Wednesday afternoon honoring Mrs. Tom Arney.

A large stork held a prominent place in the center of the living room where a series of games were played. Prizes awarded to Mrs. Hopkins and Mrs. Myrtle Lee were later presented to the honoree. Each guest registered and wrote advice to Mrs. Arney in the guest book. Mrs. J. T. Morrow assisted in directing games.

Little Omer Lee Casey presented the gifts, which were piled on a baby buggy. After they were admired, pie, pink and white mints, and coffee were served.

Those who registered were Mmes. Edythe Reynolds, C. C. Carter, Lee, and Hunt, all of Killebrew; Mmes. Morrow, W. L. Casey, Quay, White, Clay Gambin, Hopkins, Randolph, Wade Thomason, Bob Carpenter, Stone, Jack Buckles, Morris Enlow; Misses Birdie Belle Turner, Doris Cupp, Nadine Randolph; little Omer Lee and Norma Casey, the honoree and her guests.

Gifts were sent by Mrs. Clarence Kennedy and Mrs. W. J. Turner.

WARD CONVALESCING

Charlie Ward, Pampa resident for many years, is convalescing in Coy-win Clinic in Pueblo, Colo., following an appendectomy performed last week. His condition is reported favorable. Mr. and Mrs. Ward were visiting with a daughter in Pueblo when he became ill.

Savannah, Ga., is the world's greatest naval stores distributing port.

## Mrs. Phillips Is Hostess for Bridge

Silver Spade bridge club was entertained this week at the home of Mrs. Alva Phillips. In the games, Mrs. J. W. Foster scored, Mrs. V. J. Castka second high, and Mrs. Cora Kolb held the traveling prize. Mrs. Tom Clossy, a club guest, received a favor.

Refreshments were served to them and to Mmes. Walter Sponemore, John A. Hall, R. S. Walker, and W. M. Murphy. Mrs. R. S. Walker will be hostess at the next club meeting.

## Men in Club Are Hosts for Steak Dinner Tuesday

Men in the Tuesday Forty-Two club were hosts Tuesday evening at a steak fry in the Palo Duro cafe at White Deer. After the delicious supper, games of forty-two were enjoyed.

Special guests were Mr. and Mrs. Tom Castleberry, Mr. and Mrs. Lee Powers of White Deer. Club members present were Mr. and Mrs. Bob McCoy, Mr. and Mrs. Jimmy Wheeler, Mr. and Mrs. Jim White, Mr. and Mrs. E. A. Hampton, Mr. and Mrs. Lloyd Bennett, Mr. and Mrs. Doc Kitchens.

## Rotarians Hold District Meet

Rotary activities of this section of Texas were discussed and recommendations prepared for presentation to Rotary International when Rotarians of Canadian, Pampa, Panhandle, Berger, Dalhart, Canyon and Amarillo met in conference in Amarillo yesterday.

James M. Willson of Floydada, governor of the 41st district which includes 50 clubs, presided at the conference and spoke at a noon meeting of the Amarillo club. Sessions were held both morning and afternoon. C. T. Hunkapillar, president of the local club spoke at the noon meeting.

Those attending from Pampa were Mr. Hunkapillar, Marshall Oden, Philip Pond, C. P. Buckler and Farris Oden.

## These Facts About Bran Have Been Proved by Tests

Supplies Gently Acting "Bulk" to Aid Regular Habits

Now and then, in talking with your friends, the subject of health comes up. So that real facts might replace unsupported opinions, the Kellogg Company has aided for some years research in leading nutrition laboratories.

Studies made on a group of healthy women showed that two tablespoonsful of bran daily continued to relieve constipation for a period of months. How different from cathartics whose dosage often must be increased.

Another series of tests on men indicated that, with some people, the "bulk" in bran was much more effective than that found in fruits and vegetables.

Further tests showed that Kellogg's ALL-BRAN provided vitamin B and iron as well as "bulk." This "bulk" absorbs moisture, and gently exercises and cleanses the system—the right way to correct constipation.

Serve ALL-BRAN regularly for regularity. Either as a cereal, with milk or cream, or in cooked dishes. It is a natural laxative food. Sold by all grocers. Made by Kellogg in Battle Creek.

## Miami News

MIAMI, Jan. 17.—Mrs. Douglas Stone of Portales arrived last night to spend a few days with her mother, Mrs. A. E. Locke, and other friends.

Mrs. E. V. Ward, who has been visiting in Boulder, Colo., and other points since Christmas, returned home Wednesday afternoon.

Mrs. J. E. George, who is recovering from an attack of pneumonia, was moved to the home of her daughter, Mrs. Ivan Conklin, of Shattuck.

Mrs. Jett McMurtry has returned from an extended visit with relatives at Shamrock and Wheeler.

Rev. Alva Johnson of Turkey, who has been holding a meeting at the Church of Christ, was called home Wednesday by the serious illness of his mother-in-law.

Dick Craig made a business trip to Oklahoma City Wednesday.

Sam Bowers and Ward Wilkinson spent a few days in Matador on business.

## ALATHAN S. S. CLASS

Hundred per cent attendance and reports are the goals for Alathan class of First Baptist church Sunday, and members are all asked to be present, on time, and remain for church. All departments in the class are working toward a perfect report, officers announce.

# NEVER MIND THE LADY

by David Garth

Chapter 25  
A flip of the coin! The actions of Terry Willett's life had always been dictated by impulse, and what was impulsive but a flip of the coin in the mind?

Reaction, which had been chasing him a long time, nearly caught him as he stood outside the West mansion with the taxi waiting. Reaction—when a man rests on his ears a moment to get his bearings before he bends to them again.

Tommy Speede had leaned over his shoulder and sobbed: "I can't beat this game and you can't either. You'll see."

Speede!—a weeping, a failing, going out soaked with kava and leaving a native wife and a half-breed brat. "Beautiful women, Terry, slim-waisted and laughing and fresh—" the cry to a life left behind.

Women! Strange beings, women! Seemed to get into a man's life, made it more complete. Even his father had lived only half a life after Vic had traded her life for Terry's birth. And so Terry had stopped for a moment, wondered, and flipped a coin. Puff Harrington or the Palva.

And when the taxi had stopped him at Union Station he'd simply shrugged. "It came tails, boss. Satisfied?"

He was in the Tyndall Construction and Engineering company offices at noon the next day. It was a spread, internationally-known company and occupied nearly a whole floor of a New York skyscraper. Famous works of engineering were perpetuated in plaster models and long framed pictures scattered throughout the offices.

Terry Willett, being Terry Willett, asked to see Gregory Tyndall himself. He'd heard his father speak of him. And he wouldn't see anybody else. They finally sent in his name.

Surprisingly, Tyndall saw him right away. For all the power that emanated through the channels he controlled, his face with its youthful smile and intent blue eyes was kindly.

"So you're Terence Willett?" he smiled, shaking hands. "You and your father did some work for us down at Juarez. How is your father? I'd like to borrow Corrigan."

"Corrigan? One of my engineers?—or, John Corrigan. So you need him?"

"Like to have Bucky, but I don't want him to lose his job with you." Tyndall repressed a smile. "I don't think losing a job ever makes much difference to Corrigan. What's on your mind, Terry?"

"My father sat in this chair ahead of me and I was groomed for it from the time I could walk, but if Laurie had stuck he'd have beaten me out in spite of that. A great executive, your father. I'm awfully sorry, son. He looked at Willett intently. "Are you free-lancing too?"

"Yes," said Willett, "taking my jobs where I find them."

"How about taking a regular job with me?"

"I've got a job. Under contract. Revolution and—circumstances knocked it in the head temporarily, but I'm going back to see it through. I'd like to borrow Corrigan."

"Corrigan? One of my engineers?—or, John Corrigan. So you need him?"

will see it through. I'll return him to you maybe a little dented, but a few more dents won't hurt Bucky any."

He got up. "Don't rush off, Terry." Willett laughed. "Punny. The governor said the same thing. Don't rush off. What else is there to do? I've had enough of this country already."

Tyndall arose and came around the corner of the desk. "Terry, I want you to come back when you're through down there."

He put a hand on the young man's shoulder. "You have a place in this engineering world among the leaders, the place your father could have had. I respected and admired Laurie, but if ever a man wasted his life and his talents, it was he. Don't make that mistake, son—drift from engineering camp to engineering camp with no steady goal. You've got too much. I know it."

"I haven't anything," said Willett, "but a job to do. I don't know whether I can swing it or not, but I owe it to Dad to make the try. As for your offer—thanks—maybe

sometime—"

"Walk," said Tyndall, as Terry turned to leave. "Where is—your father?"

"Cartaret," said Willett. "In Virginia, near Washington."

"I'm glad it's there. Lovely old place, isn't it?"

Tyndall saw him leave the office with that long easy stride of his. He'd come for something, got it, and gone; nothing else seemed to matter. Tyndall thought it was too bad. A lot of Lawrence Willett in that man—executive and organizing power, latent force, engineering genius probably—and need of a balance wheel. Be a shame if the only way he went to Cartaret again was like his father—maybe would bring him back too.

Corrigan's whereabouts stumped him. It might be a toss-up between the Redmonts Bar and the city jail. He finally sent it in care of the American Consul, directing him to forward it to the Tyndall office down there.

## McWhorter Infant Dies of Pneumonia

Bobby Fred McWhorter, 2 years 9 months, died early this morning in a local hospital of pneumonia. He had been ill a month. He was the son of Mr. and Mrs. Fred H. McWhorter, Mr. McWhorter has been an employe of the Texas Elf Carbon company for six years.

Surviving are his parents and two sisters, Geraldine and Charlene. The body was taken overland to Monday by the G. C. Malone Funeral home. Burial was to be in Monday at 5 o'clock this afternoon.

Charlie Hamby, of Atlanta, is credited with firing the smallest group of 20 shots ever made at 100 yards, all within an inch circle.

## CARDUI

Cardui is a purely vegetable medicine for the relief of functional periodic pain, nervousness and weakness due to poor nourishment. It is in successful use by thousands of women.

"I have used Cardui and have had results from its use," writes Mrs. W. B. Barnett of Taylor, E. C. "I suffered with cramping and headaches and would have a chilly feeling. Sometimes I would feel miserable and have pain more than a day and I would be nervous. I used Cardui and decided to use it. After taking six bottles of Cardui, I had less pain and was regulated. I feel much better."

When such suffering can be avoided by taking Cardui, isn't that the common-sense thing to do? Of course, if it does not seem to reach the cause of your trouble, consult a physician.

# OLYMPIC TEAM ONE OF BEST, SAYS LEADER

## NEW CROP OF CHAMPIONS GOING TO BERLIN

(This is another of the series on 1936 prospects written by America's outstanding sports leaders. It is the first of two articles by the head of the American Olympic organization. The second will be carried tomorrow.)

BY AVERY BRUNDAGE  
President, American Olympic Committee  
(Written Especially for The Associated Press)

CHICAGO, Jan. 17. (AP)—Inspired by the approach of the games of the eleventh Olympiad, American athletes in a score of sports during the past year notably improved their performances.

From the broken records and championship marks set in 1935, we are assured that we will have at Berlin one of the best teams the United States has ever sent to the Olympic games. This applies to all sports from track and swimming to fencing and weight lifting. Basketball and canoeing, on the program for the first time, should provide new fields to conquer.

Many members of our 1932 team have retired, making way for newcomers. To take advantage of these openings a whole crop of new stars has appeared. The potential possibilities of this new generation of champions who are just hitting their stride together with the demonstrated ability of the reliable veterans of former years, relieve us of any apprehension about the success of the team that will wear the stars and stripes in 1936.

We are cheered, too, by the knowledge that our team will do credit to the United States in exemplifying the high ideals of amateur sport, off as well as on the field of competition. From recent correspondence we are certain that our athletes appreciate the deeper significance of the Olympic games and that they do not share the lack of understanding of it in a certain number of our people. It is a national Olympic principle which has led some well meaning people to be influenced by the false and misleading propaganda spread by those who either wish to destroy the Olympic games or to use them for ulterior purposes. If these games meant nothing more than the determination of a few champions, they would not have the significance they hold in our life today.

Those who were responsible for the revival of the Olympic games and who guard their purity look far beyond the athletic possibilities. They visualize the creation and strengthening of the bonds of friendship that should exist among all civilized nations by frequent peaceful intercourse on friendly fields of sport where competition breeds mutual respect and not suspicion or hatred.

## SUPPRESSING SPEED

Limitation of automobile speed, beginning at the factory, has often been suggested as a measure of safety. Representative Ranspeck of Georgia has put the idea into form by a bill to limit the speed of motor vehicles of the capacity of eight or less passengers to 60 miles an hour. Such a law would help a little, but it would not be determinative.

There are three recognized forms of travel by or over land—railroads, automobiles and airplanes. It is recognized airplanes are entitled to high speed. Railroads are next, with distinct possibilities of 100 miles or more per hour at safety. Automobiles are next and third, with the probable limit of 60 miles. The trouble seems to be that the schedules are scrambled. Each agency is calculated to be faster than the other. Possibly a rational division of speed allowances and responsibility will ensue.

Speed is not the main factor in automobile accidents. Airplanes are largely unrestricted in the open spaces; railroads run on beaten tracks and regular schedules; automobiles run rather indiscriminately, at the wills of their more or less reliable drivers. A co-ordination of speed—if there must be overhead regulation at all—is the sensible method of regulating the exhibition of traffic. The multiplicity of automobiles is a big factor and the irresponsibility of drivers is an added factor.

Safety cannot be fully built into automobiles. These machines are fine and admirable, but, abused, they become public menaces. The congressional bill takes cognizance of the deadly potentiality of the automobile but seemingly fails to take notice of the human frailty which is so often hooked up with the gas-feed and the steering wheel.—Tulsa World.

## BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON—The Grade A inside dope is that members of the U. S. Supreme Court are more wrought up emotionally than in many decades.

The "calm judicial temperament" has taken wing and report is that feeling between conservative and liberal justices has become relatively as bitter as that between New Dealers and anti-New Dealers in the arena of politics.

On the one side are at least five justices who appear to be grimly and in some cases hysterically convinced that they are the last bulwark against the barbarian hordes and that if they can only preserve the country until a conservative again occupies the White House their lives will not have been spent in vain.

On the other end are the three liberals, Brandeis, Stone, and Cardozo, who are said to be infuriated by the willingness of other justices to rule on a basis of policy or expediency rather than law.

Brandeis and Stone are understood to have been especially angry during the court's secret discussion of the AAA case because they felt Hughes voted with Roberts, McReynolds, Vandevanter, Sutherland and Butler only because he felt that a 5-to-4 decision would diminish public confidence in the court.

Hughes appears actually to be standing around somewhere in the middle. Early in this term it was noticed that he had become older and graver and seemed to have lost control of the situation insofar as his ability to avoid 5-to-4 decisions was concerned.

In the railroad retirement case at the end of the last term, he lost his temper and in a slashing dissent against a 5-to-4 opinion read by Justice Roberts charges "unwarranted limitation" such as would "make impossible the practical exercise of power."

In the last three important liberal-conservative splits, however, Hughes has gone along with the conservative majority, conspicuously refraining from writing the opinions.

Using dignified supreme court language, the minority in its dissents has been accusing the majority of usurpation of power and disregard for the Constitution.

That is the only way, according to supreme court experts, that you can interpret Cardozo's sarcastic line—"the process of psychoanalysis has spread to unaccustomed fields"—in reference to the majority's reasoning in the Constantine federal liquor tax case.

Or Stone's in another three-man dissent on the Vermont income tax case, which attacked the majority's assumptions of the prerogative of a super-legislature.

Or, finally, Stone's assertion in the AAA dissent that a majority contention "hardly rises to the dignity of argument", coupled with the tart accusation of "fortressed construction of the Constitution," and the warning that the majority was endangering "our institutions," and the charge that the majority refused to admit that the "Constitution may mean what is says."

The conservative side has been equally bitter and emotional. Remember Sutherland's cry last year in the gold cases, "The Constitution is gone!"

Strangely enough, as in the political field, each side seems to think that the other is heading the country for chaos and probably wrecking the court. The minority especially seems to believe that the majority, by a reactionary policy which can hardly be maintained if Roosevelt is re-elected and has a chance to make appointments, is threatening the court's existence. As in national politics, the liberal-conservative fight spills over party lines. McReynolds is a Democrat. Stone is a Republican. They oppose each other hotly.

Hundreds of telegrams poured into Washington shortly after Roosevelt's speech, which, for the telegraph companies, was a profitable night message.

If there was any "handwriting on the wall" at the \$50 Jackson Day dinner, as Representative Fish predicted, it was only someone figuring how he'd last out till pay-day.

Until we hear more of that new smallest star in the universe, we assume that its name is Nicky Gnat.

The fisherman whose skeleton was found recently by scientists in the Sahara Desert possibly was after sand-pike.

AAA's demise makes possible to tell the young hopeful, without blushing at one's deceit, that this little pig reached the market.

## CAPITOL CHATTER

BY CHARLES E. SIMONS

AUSTIN, Jan. 17 (AP)—Raids by operatives of the department of public safety against big time gambling places recently were attended by humorous incidents.

When they crashed into one place the operator requested the orchestra to play "The Eyes of Texas" and, falling to receive an enthusiastic response from the players, demanded that the reception be made more rousing.

Wick Fowler, highway patrolman, who participated in the raids, related an experience with a dealer for one type of game. "I couldn't swear I was gambling," he commented. "That guy took my money so fast I knew it couldn't be a game of chance. He was so handy with the cards that he had me out before I knew it. It wasn't necessary for me to tell him I was just a country boy out for a good time. He could tell that right off."

Under instructions from L. G. Phares, acting director of the department of public safety, the rangers smile while they raid. "We tell the boys to go in a place with smiles on their faces," he said. "They are advised to quiet the occupants with an announcement to keep calm, that rangers are raiding the place and there is no need for excitement."

"What do the rangers do with their winnings when they gamble to get evidence?" the chief was asked.

He greeted the question with a broad smile. "I've never heard of them winning anything," he replied.

A typographical error in an East Texas daily caused Ed Clark, personal secretary to the governor, some embarrassment recently. Clark had announced the governor would not interfere in a scheduled execution. The head line writer confused Clark with the man to be executed and wrote:

"Ed Clark to die tonight," with the sub-head "Alred refuses to interfere in execution of man for murder."

Many of Clark's East Texas friends called to present their sympathy and several wrote letters, one addressed to "Ed Clark, Heaven, care of governor's office."

Pecan trees should be spaced 60 feet apart each way.

DR. CONDON IS ABOARD LINER IN CANAL ZONE

Does Not Know If He Will Return to America

CRISTOBAL, C. Z., Jan. 17. (AP)—Dr. John "Jafie" Condon, key figure in the Lindbergh kidnaping case, arrived from the United States today aboard the liner Santa Rita and said: "I do not know if I am returning."

"That might depend on any authority," the elderly former schoolmaster added. He did not explain what he meant by "authority."

Condon, who identified Bruno Richard Hauptmann as the man to whom he paid the \$50,000 Lindbergh baby ransom, left New York last week with his daughter, Mrs. Myra Haeker, for a vacation cruise.

Governor Harold G. Hoffman of New Jersey, who yesterday granted Hauptmann a thirty-day reprieve from execution, has expressed a desire to interrogate "Jafie" on purported differences in his testimony at Hauptmann's trial and in magazine articles which Condon has written.

Dr. Condon, who breakfasted aboard the ship and read accounts of the Hauptmann reprieve, said he had "no comment whatever on the case."

"I came for a rest and I am taking it. I have no comment to make whatever."

Mrs. Haeker said: "We have not decided whether we will stay in Panama or go further south."

Previously the ship's purser had said he understood the Condons would stay in Panama for a time.

Home-made mattresses are packing straw ticks, long used by many rural families in the south, thanks to 110 pounds of tax-free cotton allowed growers for domestic use.

International Sunday School Lesson

By DR. J. E. NUNN

General topic: Jesus' Baptism and Temptation.

Scripture Lesson: Luke 3:21, 22; 4:1-13.

Luke 3:21. Now when all the people were baptized, it came to pass, that Jesus also being baptized, and praying, the heaven was opened.

22. And the Holy Ghost descended in a bodily shape like a dove upon him, and a voice came from heaven, which said, Thou art my beloved Son; in thee I am well pleased.

Luke 4:1. And Jesus being full of the Holy Ghost returned from Jordan, and was led by the Spirit into the wilderness.

2. Being forty days tempted of the devil. And in those days he did eat nothing; and when they were ended, he afterward hungered.

3. And the devil said unto him, If thou be the Son of God, command that these stones be made bread.

4. And Jesus answered him, saying, It is written, that man shall not live by bread alone, but by every word of God.

5. And the devil, taking him up into an high mountain, shewed unto him all the kingdoms of the world in a moment of time.

6. And the devil said unto him, All this power will I give thee, and the glory of them: for that is delivered unto me; and to whomsoever I will I give it.

7. If thou therefore wilt worship me, all shall be thine.

8. And Jesus answered and said unto him, get thee behind me, Satan: for it is written, Thou shalt worship the Lord thy God, and him only shalt thou serve.

9. And he brought him to Jerusalem, and set him on a pinnacle of the temple, and said unto him, If thou be the Son of God, cast thyself down from hence:

10. For it is written, He shall give his angels charge over thee, to keep thee:

11. And in their hands they shall bear thee up, lest at any time thou dash thy foot against a stone.

12. And Jesus answering said unto him, Thou shalt not tempt the Lord thy God.

13. And when the devil had ended all the temptation, he departed from him for a season.

Golden text: Thou shalt worship the Lord thy God, and him only shalt thou serve. Luke 4:8.

Introduction. Almost thirty years have elapsed between our lesson today and the lesson last Sunday. During this period only once are we allowed to see Jesus, when at the age of twelve he is shown us in the Temple at Jerusalem conversing with learned men. Luke 2:41-50.

The Ministry of John the Baptist. Luke 3:1-20. "He came into all the country about Jordan, preaching the baptism of repentance for the remission of sins" (verse 3). John stressed the need for a change of attitude on the sin question. That emphasis is greatly needed today. He was a

voice "crying in the wilderness" to prepare the way for the Lord. The picture of preparing a road for the triumphant entry of a king into a city is given hills cut down, valleys filled, rough places made smooth, and crooked places straightened. Our present-day road building for automobile traffic is a good parallel.

John Demands Change of Life. Luke 3:8. As John thundered away in the wilderness great crowds representing different types of people came out to hear him.

To the multitudes of Pharisees and Sadducees who came, he said, "O generation of vipers, who hath warned you to flee from the wrath to come?" (verse 6). A rather strong statement that is, but not too strong. He commanded these to "bring forth fruits worthy of repentance" (verse 8). In other words, John demanded something more than a lip profession. And we would do well today to require some evidence of a real change of life before taking members into our churches.

The Baptism of Jesus, Luke 3:21,22. The first public act in the ministry of Jesus was his baptism. It was the initiatory preparation for his work. Matthew and Mark tell us that Jesus came from Nazareth to the Jordan to be baptized. That means that Jesus thought enough of baptism to make a fifty-mile journey for that purpose. This being true, we should not minimize the ordinance, but rather follow Christ in it. Matthew tells us that John would have hindered him, feeling rather that he should be baptized by Christ. "And Jesus answering said unto him, Suffer it to be so now: for thus it becometh us to fulfill all righteousness" (Matt. 3:15). Baptism is the most effective method (the dramatic) of portraying not only Christ's death and burial but his resurrection from the dead, our resurrection in regeneration to a new life, and the final resurrection of all of the dead in eternity.

Three Incidents at Jesus' Baptism. Vs. 21, 22. Luke mentions three incidents connected with the baptism. One was that Christ was in prayer during the act. The sacredness with which he regarded baptism, and the spirit in which we should enter into it. The second was the descent of the Holy Spirit in bodily form as a dove. The dove is a type of the Spirit because of its gentleness and guilelessness—"harmless as doves." The third was the voice from heaven, saying: "Thou art my beloved Son; in thee I am well pleased" (verse 22). Here God bears public testimony to his Son. Jesus was about thirty years of age when he was baptized and began his public ministry. (verse 23).

The Temptation of Christ. Luke 4:1-13. The next event in preparing Jesus for his work, and helping him find

God's way for his life, was his temptation. It was a real temptation, or else it would have been meaningless for him. This temptation strengthened his character on the human side, as temptation always does for those who have tried and have overcome. For another thing, it gave him a keener sympathy for our experiences. "For we have not an high priest which cannot be touched with the feeling of our infirmities; but was in all points tempted like as we are" (Heb. 4:15).

When Was the Temptation? Immediately after his baptism (according to Mark 1:12) the Spirit led Christ into the wilderness where for forty days he was tempted of the devil. Psychologically he would be more subject to temptation immediately following the high experience of the baptism. Elijah suffered his greatest temptation immediately following his great, spectacular victory over the prophets of Baal: For forty days he went through the struggle of resisting the devil's appeals to three basal desires—appetite, ambition, and pride.

The First Temptation (4:2b-4). The first of Christ's temptations was based on physical appetite. After forty days of fasting he was hungry. So the devil attacks at the point where the defenses are weakest, and says: "If thou be the Son of God, command this stone that it be made bread" (verse 3). Christ met the temptation by giving one of God's sublimest truths: "Man shall not live by bread alone, but by every word of God" (verse 4). Every one old, and young, needs to beware that he uses not God-given powers to satisfy physical desires, for "man shall not live by bread alone."

The Second Temptation (4:5-8). Failing to trap him on the side of physical appetite, the devil tries the route of ambition. This time, he takes Christ into a high mountain, shows him the kingdoms of the world, and offers them to him for one act of worship. But Christ did not yield. Instead, he answered: "Get thee behind me, Satan: for it is written, Thou shalt worship the Lord thy God, and him only shalt thou serve" (verse 8). He would not for a moment sacrifice principle for popularity.

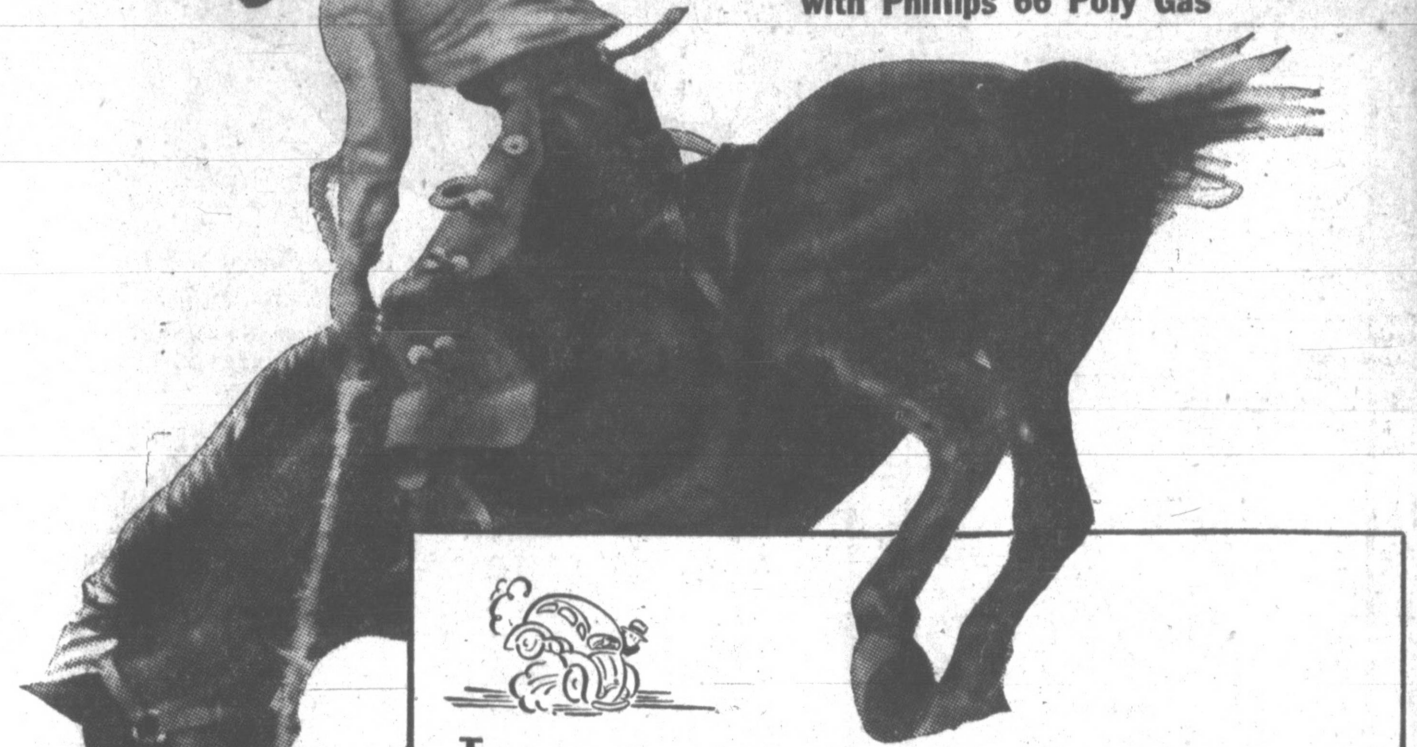

The Third Temptation (4:9-13). The third temptation was an appeal to his pride. In this case the devil takes Christ up to the pinnacle of the Temple and says if he is the Son of God to cast himself down. "It is written, He shall give his angels charge over thee, to keep thee; and in their hands they shall bear thee up, lest at any time thou dash thy foot against a stone" (verse 9, 10). But Christ could not be trapped. He met the devil with Scripture (a good plan): "It is said, Thou shalt not tempt the Lord thy God" (verse 12). Then the devil left him for a season.

Temptations Strengthen, If Resisted. Yield not to temptation. For yielding is sin. Each victory will help us Some other to win."

Instant Starting

...AND NO "BUCKING"

with Phillips 66 Poly Gas

If your car is a cold-weather broncho, head for the Orange and Black Shield and get a tankful of the new Phillips 66 Poly Gas.

So starting in freezing weather is lightning-fast. Acceleration is far more flashing. Power and mileage are both increased with minimized use of the choke. If there is any motor fuel anywhere to equal Phillips 66 Poly Gas ... at the price ... our Testing Laboratory hasn't found it.

It costs nothing extra, but what a difference! You touch the starter any time, and your icy motor "snaps out of it" instantly. Warm-up is so fast that there is hardly a trace of coughing or sputtering. No bucking or stalling. Just a smooth flow of sweet power that, for a cold motor, is surprising and uncanny.

Compare gasolines yourself, in your own car. Check the value and savings given by Phillips as world's largest producer of natural high test gasoline. Feel that difference in performance. Then you will know why sales of Phillips 66 Poly Gas are right now at the highest levels in the history of the company.

Uncanny, until you remember that the improvement in performance is the result of POLYMERIZATION, the scientific revolution in the making of motor fuel. To high test Phillips 66, which always was a mighty good winter gas, this miracle of modern chemistry adds a rich supply of extra heat units.

Dusting The Covers Of Texas History For THE TEXAS CENTENNIAL CELEBRATION OF 1936

AUSTIN, Jan. 17.—Avid interest in the affairs "back home" were voiced in the letters Texans on the southern "front" wrote to their families during the Civil War. At times they were only a short distance away from home, perhaps not even out of the state, communication facilities were such that it frequently required a week or longer for a letter dispatched in East Texas to reach Central Texas, and vice versa, and when they finally reached the battle lines, even months elapsed before letters reached the hands of those to whom they were written, since such devious methods had to be employed to transmit them.

William Z. Neblett, who was engaged in office work in the army headquarters at Galveston, wrote the following letter on January 17, 1864, to his wife. This letter, along with other family papers of the Nebletts, is now deposited in the archives of the University of Texas Library.

"Dear Lizzie," he wrote, "I expected a letter from my own yesterday and again today, but was doomed to disappointment. You certainly do not write as often as I do. I never fail one a week and generally on Sunday or Monday, and yours have generally arrived on Fridays and Saturdays. I am alone tonight in the office—have my bed there. The other clerks sleep over at my boarding house and the other with my company. So you see I have a quiet time of it. This is a new arrangement, somewhat, though I have been sleeping in an adjoining room for a month or more, where there were several others staying. I have been reading the history of England—that portion of it relative to the reign of Charles the 1st and Oliver Cromwell. I regarded it as apropos to the events transpiring at this time in North America. But the present uncertain state of every thing destroys the pleasure to be derived from such a source because it is continually bringing to mind a comparison between the same fanaticism then rampant among the Puritans of that day and almost the same fanaticism among the same Puritans now waging war against the south. They succeeded then, seized the reins of government but, proving themselves inconsistent, hypocritical and incompetent, lost their power on the death of Cromwell and the old order of things were re-established. I cannot help thinking of Lincoln when I see the name of Cromwell, and think there are many points of resemblance.

You said sometimes ago that Myers thought and incompetent, lost their power on the death of Cromwell and the old order of things were re-established. I cannot help thinking of Lincoln when I see the name of Cromwell, and think there are many points of resemblance. You said sometimes ago that Myers thought and incompetent, lost their power on the death of Cromwell and the old order of things were re-established. I cannot help thinking of Lincoln when I see the name of Cromwell, and think there are many points of resemblance. You said sometimes ago that Myers thought and incompetent, lost their power on the death of Cromwell and the old order of things were re-established. I cannot help thinking of Lincoln when I see the name of Cromwell, and think there are many points of resemblance.

NICE JAIL

GOODWATER, Ala. (AP)—Officers know now why three prisoners in the jail here were so sleepy in the daytime. The trio, listed as Jesse Howard, Charles Smith and Cleo Wood, had been using a wooden key to escape nightly for several hours of high links, returning just before dawn awakened their jailer.

Discovery of the key has put an end to the nocturnal jaunts. "I received a letter from John Harris stating that he had shipped that piece of boiler iron to Navasota for me. It weighs 90 pounds and comes to \$85.50. I will write Pa to take care of. You are right in stop paying out any more money."

Borgans Elect Former Pampans

Two former Pampans have been elected to the two highest offices in the Borger Junior chamber of commerce. They will be installed on Wednesday night at a banquet.

A. M. Minton, an insurance representative here for some time, will be the new Borger Jaycee president. Arlie Critch, a former manager of the Rex theater here, was elected first vice-president.

Other officers are Carl Moulden, second vice-president; H. S. Benjamin, secretary; Jack Cabbell, treasurer. The Borger chamber was organized largely through efforts of the Pampa club.

Traffic rules violators in Bremen, Germany, are being made to get up early Sunday mornings to attend lectures on regulations. Police devised this penalty as a method of stopping too frequent infractions of traffic laws.
