Glenn Ready For 3-Orbit Space Flight

YOUR DIMES WILL DO IT AGAIN — Mark Buzzard, city March of Dimes chairman, points to a container similar to the ones that will be used tomorrow by members of Pampa service clubs when they conduct a "Bucket Brigade" on downtown street corners. Pedestrians and motorists will be asked to contribute from 9 a.m. to 5 p.m. to the annual MOD drive. Youngsters will be given rides in an old covered wagon tomorrow morning from 9 to 12 by making a contribution to the March of Dimes. (Daily News Photo)

Small Loan Bill Heads For Conference Group

AUSTIN (UPI)—The House sponsor of a small loan regulatory act that was riddled with amendments by the Senate planned to ask today that the bill be sent to a conference committee.

Rep. Cris Cole of Houston, the sponsor, said he would ask the House to reject the Senate bill and put it in the hands of a conference committee with the hope that a compromise acceptable to both houses would emerge.

The Senate passed its version of the bill Thursday with 19 amendments. The vote was 25-4. The major change would permit lenders to exceed the 10 per cent constitutional interest ceiling only on loans of \$200 and less. It was sponsored by Sen. Galloway Calhoun Jr. of Tyler.

A new round of filibustering was threatened in the Senate by Sen. Bill Moore of Bryan, opposing a bill to make San Angelo Junior College a four-year state-supported school. He held the floor late yesterday when the Senate recessed.

Lt. Col. John H. Glenn Jr.

Saturday's Orbit Flight Cost Will Total \$400-Million

CAPE CANAVERAL (UPI)—What is it costing the taxpayer to put astronaut John Glenn in orbit?

If you consider that his flight is the climax to Project Mercury, which began 3½ years ago, the estimated figure would be \$400 million.

That's about \$2.15 for each man, woman, and child in the United States.

About \$160 million of the total went for development and production of space capsules.

The cost of establishing and operating the worldwide tracking network was about \$95 million.

The Atlas, Redstone, and Little Joe rockets used throughout project Mercury cost another \$85 million.

About \$25 million was spent in various recovery operations, and the remaining \$35 million for supporting research in many areas.

Recovery Ships Head For Scene Of His Landing

CAPE CANAVERAL (UPI)—Space administration officials today reported the countdown progressing well for astronaut John H. Glenn's orbital flight Saturday.

Lt. Col. John Powers, spokesman for the astronauts, said Glenn would undertake one, two or three orbits in America's first manned circuit of the earth, depending among other factors on the time of launch.

The flight could start as early as 6:30 a.m. CST.

Powers emphasized that there must be three hours of daylight in the Atlantic Ocean recovery area after Glenn returns through the earth's atmosphere.

If the flight lifts off between 6:30 a.m. and 8:30 a.m., CST, the schedule calls for a full three-orbit mission barring any mishaps in orbit.

If delays force the launching to be held until 9:30 a.m., but not later than about 10 a.m., Glenn will be slated for two orbits.

Between 10 a.m. and 11:30 a.m., the schedule calls for a single mission around the earth.

Powers said that after a successful flight and two days in seclusion with medical examiners, Glenn would hold a news conference to tell the world what his trip was like. He did not say where it would be held.

Many assumed that Glenn would be taken to Washington for a presidential accolade.

Assuming that the countdown and firing from Cape Canaveral occur precisely as scheduled, a three-orbit mission will take about nine hours and 20 minutes from liftoff to the time that Glenn arrives at Grand Turk Island, in the Bahamas. Glenn's actual flight time would be four hours and 50 minutes.

That schedule meant he would arrive at Grand Turk between 3:50 p.m. and 5:50 p.m. CST after a three-orbit mission. If the mission is one or two orbits, he would be taken to Bermuda instead.

Powers said a new experiment had been added to the space flight plan. He said a ship in the Indian Ocean would attempt to send a balloon to an altitude of 30,000 feet at the time Glenn is crossing the area on his second orbit.

The balloon will drop flares of 200,000 candlepower to see if Glenn can spot them.

Powers said the astronaut would eat his first space food near the end of his first orbit, approaching the North American Pacific coast.

During flight, Powers said, Glenn will exercise by pulling a "king-sized" rubber band stretched before him in the capsule. His blood pressure will be recorded immediately after his exercise and again in a couple of minutes after he has rested, "much as is done in your doctor's office."

Powers, while emphasizing that every possible step had been taken to reduce risk, said Project Mercury directors and the astronauts "realize there is still risk—let us not ever forget it."

The weather as well as the countdown appeared to be on Glenn's side. At midday Cape Canaveral was bathed in warm sunlight, although a slight mist hung over the Atlantic.

After some difficulties with the firing of the Atlas rocket commissioned to put Marine Lt. Col. John H. Glenn Jr. into orbit. But there was no room for them in the meantime.

About 600 newsmen from all parts of the world doubled up in the few available rooms.

Jazz pianist Dave Brubeck played to a standing room only audience Thursday night at one motel, while another room just down the road featured a "twist" band and free lessons in America's latest dance craze. All feature some form of entertainment from Polynesian bands to comedians to cocktail music, but there audience is predominantly male, and the talk is all of missiles.

Resolution Puts Red Label On Castro Cuba

PUNTA DEL ESTE, Uruguay (UPI)—New-world diplomats, unmoved by a three-hour, Communist-line Cuban harangue, put finishing touches today on a resolution intended to exclude Fidel Castro's regime from the inter-American system.

An unofficial committee of delegates from seven nations was drafting the resolution which was to be ready for presentation to the foreign ministers' conference here later today.

The resolution was expected to brand Castro's Cuba "a Communist state incompatible with the inter-American system," propose its suspension from the Organization of American States and embargo shipments of arms to or from the country.

President Oswaldo Dorticos spoke for Cuba Thursday night. His marathon speech was mostly warmed-over Castro, delivered in the tone of an electioneering politician rather than a participant in diplomatic debate.

Observers commented that his speech appeared to be largely propaganda, directed at the 500-odd newsmen covering the conference rather than at the other conferees.

Dorticos himself said he was speaking to "all the (Latin) American peoples" rather than merely to the persons present.

The foreign ministers of the other 20 new-world nations sat

Space Flight Boxscore

CAPE CANAVERAL (UPI)—Boxscore of manned flights into space:

April 12, 1961—Russian cosmonaut Yuri A. Gagarin, one-orbit trip aboard spaceship Vostok I.

May 5, 1961—U. S. astronaut Alan B. Shepard Jr., sub-orbital flight 116.3 miles into space, 302 miles down the Atlantic missile range in space capsule Freedom-7.

July 31, 1961—U. S. astronaut Virgil I. Grissom, sub-orbital flight 118 miles into space, 303 miles down range, in space capsule Liberty Bell-7.

Aug. 6, 1961—Russian cosmonaut Gherman Titov, 17-orbit flight aboard spaceship Vostok II.

Tech Student Is Killed In Crash

AMARILLO, Tex. (UPI)—William Milton Matthews, 20, of Hale Center, Tex., a student at Texas Tech, was killed Thursday when his light plane crashed just after he took off from Trade Winds Airport to make a student solo cross-country training flight.

Montana Governor, Five Others Die In Air Crash

WOLF CREEK, Mont. (UPI)—Montana Gov. Donald G. Nutter, two top aides and a crew of three died Thursday when their plane apparently was ripped apart and slammed into a mountainside by extreme turbulence.

Nutter, 46, who survived 82 combat missions as an Air Force bomber pilot in the Pacific during World War II, perished in the burning wreckage of a Montana Air National Guard C-47 in a rugged, snow-covered area of west-central Montana.

An Air Force recovery team prepared to leave for the scene at daybreak to take out the bodies.

State highway patrol supervisor Alex B. Stephenson returned from the wreckage late Thursday night and said, "there couldn't be any survivors." He said the old twin-engine transport was "splattered all over the hill."

Others estimated bits of the plane were scattered over a two-mile area. A truck driver picked up what appeared to be a piece of the plane on U.S. 91 some four miles from the scene of the tragedy.

His discovery lent authority to speculation that vicious turbulence near the Continental Divide and over the Wolf Creek canyon may have torn the plane apart and tossed it into the mountain.

Sheriff-coroner Dave Middlemas said he and his deputies would go to the scene and locate the bodies before allowing Air Force crews to cross a barricade ordered set up Thursday night.

Nutter's death will not change the lineup of U.S. state governors at 16 Republicans and 34 Democrats because his successor also is a Republican.

Teacher Is Slain As Pupils Watch Terrorist Raid

ALGIERS, Algeria (UPI)—Terrorists barged into an Algiers school today and killed a teacher in front of a class full of startled, frightened pupils.

The slaying occurred even as President Habib Bourguiba was telling the Tunisian people he believed a settlement of the seven-year-old Algerian war was "imminent."

Police said the schoolroom assassins escaped. There was no immediate identification of the teacher.

Earlier, a car full of terrorists sprayed a Moslem cafe in Bida, killing five persons and wounding 11.

The attacks and other scattered incidents raised the Algerian terror toll since Jan. 1 to 465 dead and 833 wounded.

French authorities had expected an increase in rightwing terrorism in reaction to President Charles de Gaulle's reported new peace offer to the Algerian rebels.

Bourguiba, who allows the Algerian rebel leadership to headquarter in Tunis, spoke in a broadcast explaining why Tunisian-French negotiations on the future of the Bizerte military base had been suspended.

Mob Marches On Congo Embassy

LEOPOLDVILLE, The Congo (UPI)—Congolese police armed with rifles surrounded the U. S. embassy in Leopoldville today to protect it from a slogan-chanting crowd demonstrating in favor of leftist Antoine Gizenga.

Authorities rushed out a water truck and 50 police when the demonstrators, and 100 youthful supporters of the ousted vice premier, marched on the embassy shouting, "down with imperialism" and "long live Gizenga." They had gathered on the banks of the Congo River.

There were no clashes, no injuries and no damage. Not a stone was thrown.

Man Confesses Slaying Of Girl And Burying Body

ALBUQUERQUE, N.M. (UPI)—A tough-looking ex-convict cracked just before midnight Thursday night and confessed he beat his 10-year-old stepdaughter into unconsciousness Tuesday and then, thinking she was already dead, buried her alive in the back yard.

Robert Hardy, 41, signed the confession after 10 hours of intensive questioning. He was arrested about 1 p.m. Thursday in the bus depot here, minutes after detectives going on a blood-smear spot in the house found the shallow grave.

Hardy, a former professional boxer, said the girl, Eva Jean Melton, had threatened to "make trouble" between him and her mother, apparently over his treatment of her and two smaller children.

Residents Jarred By Phillips Blast

BORGER, Tex. (UPI)—An explosion in a cooling tower at the Phillips Petroleum Co. gasoline plant in Phillips, Tex., jarred residents for miles around late Thursday night. No one was injured.

A company official said fire followed the explosion but was quickly controlled. No cause was given for the explosion.

The Phillips plant is located 1½ miles northeast of Borger. It employs several hundred persons.

City Parks Employe Joins Peace Corps To Serve In El Salvador

R. L. Studebaker, 405 N. Sumner, has been accepted for training as a volunteer in the Peace Corps for an agriculture and farm extension educational project planned in El Salvador, Central America, He left this morning by plane from Amarillo for Philadelphia, Pa., where he will be joined by 21 volunteer trainees from other parts of the United States.

First step in his training, before final acceptance as a Peace Corpsman, will begin in Philadelphia, where he will undergo medical examination and brief orientation in the Peace Corps program.

On Feb. 28, he will leave from Idlewild Air Field for Arecibo, Puerto Rico, where he will be stationed for 27 days of physical conditioning. In Arecibo, as a volunteer trainee, he will live under simulated conditions such as he would be confronted with in El Salvador. Stress will be given on physical stamina and ability to adjust to a different environment.

Following the "conditioning" period, Studebaker will enter the University of New Mexico at Las

Thousands Crowd Area Around Launching Site

CAPE CANAVERAL (UPI)—The gay, gaudy strip of Atlantic Ocean beach adjoining America's space port was jammed today with scientists, technicians, press agents, photographers, newsmen and nightclub bands awaiting the nation's first effort to put a man into orbital flight around the earth.

There was no room for the average citizen or the Florida tourist. Most of the approximately 30 motels along Cocoa Beach stopped taking reservations from tourists two months ago to make every room available for the necessary flood of officials.

Thousands were expected to make their way here to stand on the beaches Saturday and await the firing of the Atlas rocket commissioned to put Marine Lt. Col. John H. Glenn Jr. into orbit. But there was no room for them in the meantime.

About 600 newsmen from all parts of the world doubled up in the few available rooms.

Jazz pianist Dave Brubeck played to a standing room only audience Thursday night at one motel, while another room just down the road featured a "twist" band and free lessons in America's latest dance craze. All feature some form of entertainment from Polynesian bands to comedians to cocktail music, but there audience is predominantly male, and the talk is all of missiles.

Moon Shot Due Today But Plans At Noon Were Shaky

CAPE CANAVERAL (UPI)—Given well-functioning equipment and good weather, space officials planned to send a highly complex instrument package today on an assignment to photograph and take the pulse of the moon.

The experiment was billed as the most complicated series of tasks ever assigned to a U. S. spacecraft.

If all the exacting conditions were met, the Ranger-3 spacecraft was to begin its 56-hour flight in mid-afternoon. Rigged to kick it out into space was an Atlas Agena-B, a two-stage rocket using the same basic booster as that assigned to this country's man-in-orbit program.

As of early this morning, informed sources said the moonshot booster for the Ranger had developed difficulties. Troubles were reported centered in the auto-pilot system which steers the Atlas on the first part of its course.

Should the Ranger carry out its assignments to the letter, it would beam back to the earth the first fine-detail pictures of the moon's surface. Then a cushioned package of seismographic instruments would land on the moon and radio information on moonquakes and the impact of meteors.

It also would give clues in the composition of the moon's outer shell by measuring its reflection characteristics.

Sweaters Comfortably Warm, Fashionably Cool

This colorful sweater is a man's staunch-ski companion on or off the white slopes. It is of washable orlon with unique low-set turtleneck, features an intricate diamond yoke pattern.

By HELEN HENNESSY

Newspaper Enterprise Assn. Many young couples enjoy skiing on winter weekends. Dressing fashionably, but warmly, either on the slope, or relaxing around the ski lodge, is an important consideration in any group of skiing enthusiasts.

Not too long ago, it was difficult for a man to look smart on this kind of week-end, for in order not to freeze, he had to dress in bulky clothing.

When you shop for your ski

wardrobes this year, you'll be pleased to discover that the rugged outdoor man need no longer worry about looking like the abominable snowman. For the very heavy bulky sweaters, with the outsized shawl collar and very high V-neck are conspicuously absent from this season's array of styles.

Many more classic cardigans and pullovers than in the past are evident. Big, bright and bold Scandinavian patterns created originally in Copenhagen are in-

terpreted here in lighter weights. Surface treatments are achieved more with knitted effects than with a heavy, bulky look.

Some soft, brushed effects, however, are featured in orlon, should your skiing companion prefer a feels.

Sweaters of all types, patterns and colors will be running wild against the backdrop of the powder white hills. Everything from bright patterned pullovers, orlon Argyle V-necks and zippered cardigans are ideal mates for the hardy outdoor athlete.

One new ski line highlights the drape look and fuller chest. Deeper arm holes and tailored shoulders are featured in a mid-weight "shaggy blazer." And you'll find them in a variety of stripes and patterns.

Miss Nichols Feted On 13th Birthday

LEFORS (Sp) — Miss Elaine Nichols celebrated her 13th birthday recently with a party given by her mother, Mrs. Knox Nichols, in their home.

A color scheme of pink and silver was carried out in the party decorations.

A pizza supper was served buffet style.

Games of "Double Exposure," "Barnyard Society," "Railroad Spelling" and "Charge Account" were played.

Gifts were presented to the honoree.

Attending were Jerry Nichols, Mary Ann Nichols, Bennie White, Kathryn Gatlin, Shirley Vincent, Connie York, Peggy Tod, Charlene Lisenbee, Judy Barnes.

Dear Abby... Trust Must Be Earned By Teenagers!

By ABIGAIL VAN BUREN

DEAR ABBY: I am a teen-ager who is not trusted by my parents. I don't know why they don't trust me but I know they don't. Will you please tell me how I can prove to my parents that I am dependable and can be trusted? I know lots of other teen-agers with the same problem.

NOT TRUSTED

DEAR NOT TRUSTED: Trust must be EARNED. Your parents should give you a few added privileges and then let your actions determine whether you are able to handle them. If you prove to be unreliable, then those privileges should be withheld for a while. Most parents would be pleasantly surprised to know how dependable their teen-agers could be if given the chance.

DEAR ABBY: I read a letter in your column from the wife who wanted to leave her husband because he had an affair with another woman. Perhaps my story will help her and others like her. My husband had an affair with a married woman for about 6 years. They enjoyed their "secret love" for one year. And he spent the next 5 years trying to get rid of her. Legally she could do nothing, but she made life miserable for him, threatening to tell me if he quit seeing her.

Finally, in desperation, he came to me with our minister and told me. He had been such a wonderful husband and father that I thought he was joking. Oh, how he suffered inside for his mistake! That was 18 years ago, Abby. We since have reared wonderful children in the happiest home you could imagine. My pride was wounded, too, but only for a day, for I knew he really

loved me. He has made up for that hurt in a thousand ways. I am glad I forgave him.

WISE DECISION

DEAR WISE: How very wise you are. No one should be punished a lifetime for one mistake.

DEAR ABBY: I wish there were a magic mirror for grandparents who brag about their grandchildren. I can excuse grandparents who are still thrilled with their first grandchild, but I cannot for the life of me understand people who have had four and five grandchildren and continue to bore their friends with their pictures and cute sayings. Don't think I am jealous because I have six grandchildren of my own and, believe me, I could brag plenty, but I have too much consideration for others. Please print this. I want to buy twenty newspapers, and clip this item and send it to some of my friends.

BORED STIFF

CONFIDENTIAL TO EMMA: If you have to ask me if you are "in love" — you aren't.

How is the world treating you? Unload your problems on Abby, care of this paper.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Fur for Budget

If you long for fur but can't afford a fur-trimmed coat or a little fur, put your fashion money into a fur hat. You can wear it many seasons, and it will sparkle up any cloth coat.

Barrett Circles Meet For Study

The Night Circle of Woman's Missionary Union of Barrett Baptist Chapel met in the chapel at 7 p.m. on Tuesday evening with Mrs. R. L. Powell, circle chairman, presiding.

Mrs. L. M. Scribner was in charge of the program on "What Other Churches Believe." Mrs. Powell gave the opening prayer with Mrs. H. R. Jennings offering closing prayer.

Attending, other than those previously mentioned were, Mmes. H. R. Jennings, L. E. Anderson and A. E. Burns.

The Day Circle of the W.M.U. met at 10 a.m. on Wednesday with Mrs. A. E. Burns, vice chairman, presiding. The Rev. A. E. Burns led the opening prayer.

Mrs. James Nipp conducted the concluding study of "What A Woman's Missionary Union Is" and "How It Gives." Mrs. Robert Bettis offered closing prayer.

How To Make Million: Try For 'Met' Sell Manhattan Real Estate Instead

Woman To Woman

By PATRICIA McCORMACK
NEW YORK (UPI)—The newest formula for making your first million: Leave home, head for Manhattan—and try to land a singing job with the Metropolitan Opera.

That's how Pat Palmer got rich. Other ingredients in her recipe for that first million:

—Work for yourself; work hard; know your specialty from start to finish, from finish to start, upside down, rightside up, inside out and outside in.

It's been 10 years since the Yankee doodle dame left Boston to try cracking the Met. She said in an interview that she was 19 at the time and almost broke.

Still Trying

She still is trying to land a spot at the Met. Meanwhile, the work she started to keep bread on the table and clothes on her back when she first came to town is pushing her fast toward her first million.

Miss Palmer is one of Manhattan's expert apartment hunters. She got into real estate via a part-time typing job in a real estate office when she was looking for a place to stay.

The job evaporated in a year when the firm was sold. But meanwhile Miss Palmer picked up enough to feel that she could solo.

"I read all I could find about real estate," she said. "I still study all the time, especially the financing part of it—mortgages and so on.

"But I can't bear to think of the commission when I'm closing a sale of having a lease signed. It makes me nervous."

Commission Rates Vary

One of the properties Miss Palmer is trying to sell at present is a brownstone in a fashionable neighborhood. It has a swimming pool. The price tag: Around \$300,000.

The commission rates vary, but generally it's five per cent on the first \$100,000—and more on the second and third units of \$100,000, according to Miss Palmer.

Miss Palmer almost has paid off a building she bought for \$200,000. She's been offered \$400,000 for it.

Another holding: An 18 unit apartment house in one of the highest rent districts. That one is paid off, Miss Palmer noted.

"If you don't keep reinvesting money," she said, "you spend it for foolish things."

SAVE THOSE BUTTONS

Treat the center of each button on a man's shirt with colorless nail polish and the threads will not unravel. It takes much less time than sewing on new buttons.

Russia Pressures For Council Meet On Congo

UNITED NATIONS, N.Y. (UPI)—Russia, expressing fears for the life of left-leaning Congolese politician Antoine Gizenga, applied pressure today for an urgent meeting of the Security Council.

Other diplomatic sources shared Soviet fears for Gizenga's life but expressed belief that he might be murdered by Communist agents.

Soviet Ambassador Valerian A. Zorin demanded the council meeting late Thursday in a note to British Ambassador Sir Patrick Dean, this month's council president.

Shortly before that the official Soviet newspaper Izvestia charged

in Moscow that there was a "colonialist" plot to murder Gizenga, now held under house arrest in Leopoldville by native troops loyal to Premier Cyrille Adoula.

Some diplomats speculated that Izvestia's wolf cry was a smoke screen to cover up a Kremlin plot against Gizenga.

Communist influence and prestige have been low for many months in the Congo.

Moscow's last propaganda harvest came with last year's assassination of Leftist Congolese Premier Patrice Lumumba. U.N. investigators reported circumstantial evidence that Lumumba had been slain in the presence of Moïse Tshombe, premier of secessionist Katanga Province. Tshombe denied it.

Gizenga, Lumumba's lieutenant and political heir, had secluded himself at Stanleyville, capital of Orientale Province, the Lumumbist stronghold. Although elected a deputy premier of the "unified" Congo when its parliament was reorganized, he refused to perform his duties in Leopoldville.

On government orders, he was arrested by U.N. and Congolese troops in Stanleyville and brought to Leopoldville under guard of U.N. soldiers, who turned him over to Congolese troops earlier this week.

Hoffer Rites Set Saturday

Funeral services for Temple Hoffer, 46, of Dallas, a former resident in Miami, will be held at 11:30 a.m. Saturday in the Sparkman Funeral Home in Dallas.

Mr. Hoffer died from a heart attack on Wednesday night in Little Rock, Ark.

He is survived by his wife, Lucille Cole Hoffer, former Pampa resident, now living in Dallas; two sons, Frank and Temple Jr., both of Dallas; his mother, who lives in Dallas; two brothers and two sisters.

U.S. 60 Highway Group Outlines Plans For 1962

Twenty-four directors and guests of The Texas Branch, U.S. Highway 60 Association, met Wednesday in Canadian to set up a series of work projects in the interest of attracting more tourist travel on U.S. Highway 60, according to Howard Buckingham, president of The Texas Branch.

A series of Tourist Clinics will be sponsored by the Association, in Texas towns along 60, during the month of March in order to stress the importance of tourist business and to present new ideas and techniques in dealing with the traveling public.

The board voted to sponsor a Texas Caravan of Automobiles to The National Convention in Banning, Calif., in April. All towns indicated they would have representation on the trip.

The spring membership drives in support of the Association's annual budget will be held during March and are scheduled to be finished in all towns before the annual meeting of the Texas Branch which will meet in Panhandle at Johnson's Cafe on Wednesday, April 17, at 12 noon.

Pampan attending the Canadian meeting with Buckingham were George Kleeburg, chairman of the Tourist Committee of the Chamber of Commerce and E.O. Wedgeworth, chamber manager.

C. H. Butrum Rites Saturday

Interment rites for Clarence Humphrey Butrum, 71, of Lefors, will be held at 2 p.m. Saturday in the First Baptist Church in Lefors with the Rev. Ed Spivey, pastor and former pastor of the church, the Rev. Luther Berry of Spearman, the Rev. Therman O. Upshaw of Pampa, the Rev. Bob Lawrence of Clarendon, and the Rev. Dan Beltz of McLean, officiating.

Mr. Butrum died at 4:30 a.m. Wednesday in Highland General Hospital.

Pallbearers will be Fred Browning, Claud Nichols, Monroe Boucher, B. J. Spaldin, Spencer Presley, Henry Wetsel, Henry Dunn, W. B. Minter and John Pritchard. Honorary pallbearers will be members of the Phillips Petroleum Co.

Interment will be in Hillcrest Cemetery in McLean under the direction of Duenkel-Carmichael Funeral Home.

Police Checking Three Break-Ins

City police today were investigating three burglaries reported yesterday afternoon and early today.

Floyd Crow, owner of Crow's Humble Station, 300 N. Hobart, reported burglars broke into a metal tool box and stole \$75 in one-dollar bills and small change sometime last night.

Police received a report this morning from Mrs. M. E. Cooper, office manager of the Purviance Clinic, 808 W. Foster, that someone had pried the back door open sometime last night and ransacked several desks in the reception room. Mrs. Cooper said nothing was missing.

Thursday afternoon, James O'Connor, manager of Coronado Inn, reported an undetermined amount of small change was taken from two soft drink machines in the Inn sometime Wednesday night. O'Connor said a key had been used to open the machines.

Floating Weather Station Missing

MOBILE, Ala. (UPI)—The Coast Guard tender Blackthorn and a search plane scoured the Gulf of Mexico today for a floating weather station which mysteriously broke free of its moorings.

The weather station, which automatically relays wind and storm reports from the center of the Gulf, was reported about 150 miles north of the point where it was anchored last October. There are no personnel aboard the station.

Coast Guard officials were unable to explain what caused the station to move. Little or no wind had been reported in the vicinity and the 30,000 pound meteorological station was anchored by a strong line.

'Fibber McGee' To Marry Again

ENCINO, Calif. (UPI)—Jim Jordan, radio's "Fibber McGee" for more than two decades, will marry the widow of Harry Stewart, onetime Swedish dialect comedian, it was reported today.

Jordan, 64, said he would marry Mrs. Gretchen Stewart, 52, on Feb. 1. Her late husband was known to millions as "Yogi Yorgensen" and "Harry Kari."

Jordan became a widower last year with the death of his wife of 33 years, Marian Jordan, who co-starred with him on their popular radio show, "Fibber McGee and Molly."

"INSTANT ARMY" SUGGESTED

BONN (UPI)—West German soldiers leaving active duty for the reserves should take their weapons home to insure rapid mobilization if necessary, the parliamentary defense committee decided here Thursday.

A spokesman said implementation of the plan, patterned after the Swiss system, depended mostly on financing.

Kennedy Takes Political Punch At Republicans

WASHINGTON (UPI)—The Kennedy administration's sudden sponsorship of a new voting rights bill shaped up today as part of a one-two political punch at the GOP on the civil rights issue.

President Kennedy fired the first jab by announcing he would send Congress a reorganization plan to create an urban affairs department to be headed by a Negro, Housing Administrator Robert Weaver.

Senate Democratic leader Mike Mansfield capped the maneuver Thursday by introducing an administration bill to ban unreasonable literacy tests against voters in federal elections. His move caught both southern Democrats and Republicans by surprise.

Kennedy withheld his first move until his urban affairs bill had been killed Wednesday with the help of Republican votes in the House Rules Committee. He then moved, swiftly on the alternate course of using the reorganization plan, expected to be submitted Monday.

The reorganization plan automatically would go into effect in 60 days unless rejected by either the Senate or the House. However, a resolution of disapproval is certain to be offered immediately in the House and a vote probably will be taken within two weeks.

Present indications are that the Kennedy plan will be defeated in the House, with most Republicans and southern Democrats opposing it. If the House rejects the plan, the Senate presumably would not even take it up.

The result may be that Kennedy gets a campaign issue instead of a new government department. Republicans and Democrats already have been sniping at each other on the political connotations.

Tension Grows In Glenn Household

WASHINGTON (UPI)—The slim, dark-eyed lady of the house at 3683 North Harrison Street in suburban Arlington, Va., says she isn't a bit nervous. But she does not expect to get much sleep tonight.

Her husband, John H. Glenn Jr., is scheduled Saturday morning to orbit three times around the earth in a satellite.

The Glens live across the tree-lined street from a junior high school, and tension is growing in brick homes.

Anna Glenn admits she gets excited when she thinks of her husband's historic journey, and their two children, 16-year-old David and 14-year-old Carolyn, say they are "thrilled."

Police Link Two Murders In Probe

WICHITA FALLS, Tex. (UPI)—Wichita Falls and Lubbock police pondered today the possibility that the slayings of an Air Force sergeant and a carpenter, both beaten and shot, are linked.

Air Force Staff Sgt. Richard Reed, 32, was found dead on a roadside park east of Wichita Falls Wednesday. He had been shot, stabbed and beaten.

J. R. Castle, 46, a Lubbock carpenter, was found slain in a caliche pit near the city Sunday. He had been beaten and shot.

Both men had been in night clubs before they met their deaths.

Countdown

(Continued From Page 1)

Glenn's space capsule earlier this week, the entire booster-spacecraft complex was reported Thursday night to be "going spacelike" for ready — at this stage of preparations.

The weatherman said conditions should remain good at this spaceport through Saturday but might worsen after that. A disturbance was reported moving eastward from Texas, but forecasters said it was not expected to affect things in this general area at least until late Saturday.

Thursday, Project Mercury Operations Director Walter C. Williams heard detailed reports on all phases of the man-in-space mission and told his scientists: "On the basis of what you have all told me here we are in a 'go' condition."

A spokesman for the National Aeronautics and Space Agency (NASA) said the Atlas missile and the Mercury capsule had been "mated, tested and pronounced compatible." All ships and planes of the far-flung recovery operation were either on station or on their way.

Glenn received the second half of a detailed physical examination Thursday, including a chest x-ray and blood sampling. Dr. William K. Douglas, his physician, indicated earlier that the astronaut was in top condition.

If Glenn goes Saturday, he will follow a space trail blazed by Soviet cosmonaut Yuri A. Gagarin and Gherman S. Titov. He is expected to get a good view of the earth from altitudes ranging between 100 and 150 miles.

The time limitations on his takeoff have been set to assure that he can make a daylight landing in one of the recovery areas. Scientists are requiring near-perfect weather conditions all along the route of the scheduled 81,000-mile trip.

Much Of Texas Gets Rainfall, Fog And Drizzle

By United Press International

Thundershowers hit eastern and Central Texas today, dumping light hail in the Austin area and more than a half-inch of rain at Texarkana.

Drizzle, light rain and fog covered much of southeastern and Pampa has received .79 - inch rainfall in the past 24 hours. A cool front lowered the temperature to 34 early this morning. It was 43 at noon today. Expected low tonight 25, high tomorrow 35.

South Central Texas, with some fog and light rain reported in the Panhandle.

A weak Pacific cool front pushed deeper into Texas this morning, dropping temperatures in the Panhandle below freezing for the first time in three days.

The mercury dipped to 31 at Amarillo early today, the coldest reading in the state. Temperatures for the most part were mild, ranging upward to 68 at Houston and 67 at Brownsville.

Rainfall was widespread but generally light. Texarkana had .32 of an inch during the 24-hour period ended at 6 a.m., the heaviest fall in the state.

Other totals for the period included .29 of an inch at Austin, .27 at Waco, .19 at Dallas and Lubbock, .18 at El Paso, .16 at Presidio, .12 at Amarillo, .11 at Fort Worth, .09 at Victoria, .06 at San Antonio, .05 at Laredo, .03 at Dalhart, .02 at Midland, Wichita Falls and Abilene and a trace at Brownwood.

Three Fined For Destruction Of Highway Markers

Three Pampa men pleaded guilty before Justice of the Peace J. W. Graham yesterday on charges of reckless driving and willful destruction of property belonging to others.

The men, Billy Ray Free, 27, 1325 E. Foster; Dale Vincent Remy, 24, 401 S. Reid and Darrell Marsh, 27, 585 S. Banks each was fined \$50 and costs when they pleaded guilty. Marsh was fined an additional \$75 when he pleaded guilty to reckless driving.

Sheriff officers said the men were sighted Wednesday night by officers in the Lefors-Bowers City area knocking over state highway signs and Farm to Market Road stop signs. Officers said they gave chase to the late model pickup which was driven by Marsh, but were unable to apprehend them.

Sheriff Rufe Jordan said today the men gave themselves up yesterday at the sheriff's office. Jordan said the men told him they had been knocking over and pulling up the highway signs for several nights and then taking them to Lefors and dumping them in the streets.

The trio was released following payment of the fines.

Police Checking Three Break-Ins

MOBILE, Ala. (UPI)—The Coast Guard tender Blackthorn and a search plane scoured the Gulf of Mexico today for a floating weather station which mysteriously broke free of its moorings.

The weather station, which automatically relays wind and storm reports from the center of the Gulf, was reported about 150 miles north of the point where it was anchored last October. There are no personnel aboard the station.

Coast Guard officials were unable to explain what caused the station to move. Little or no wind had been reported in the vicinity and the 30,000 pound meteorological station was anchored by a strong line.

'Fibber McGee' To Marry Again

ENCINO, Calif. (UPI)—Jim Jordan, radio's "Fibber McGee" for more than two decades, will marry the widow of Harry Stewart, onetime Swedish dialect comedian, it was reported today.

Jordan, 64, said he would marry Mrs. Gretchen Stewart, 52, on Feb. 1. Her late husband was known to millions as "Yogi Yorgensen" and "Harry Kari."

Jordan became a widower last year with the death of his wife of 33 years, Marian Jordan, who co-starred with him on their popular radio show, "Fibber McGee and Molly."

St. Matthew's Episcopal Church Plans For Year At Annual Meet

Members of St. Matthew's Episcopal Church at their recent annual meeting elected three new vestrymen, Clem Followell, James Hart and Jack Reeve. By action of the vestry, Dr. F. J. Vendrell was elected senior warden and Jack Reeve, Jr. Warden, Jack Cooper, finance committee man, R. A. Smith, treasurer and S. J. Meador, clerk. Other members of the vestry include James

DR. P. D. O'BRIEN — Bible Teacher

Bible Conference To Open Sunday

Dr. P. D. O'Brien, Big Spring, will begin a week-long Bible Conference at the Central Baptist Church, Francis and Sterkweather, in the evening worship service of the church Sunday. Dr. O'Brien was for many years pastor of First Baptist Church in Big Spring. He is retired from the pastorate and now is speaking throughout the state and nation. He will be leading the church in an intensive study of the book of Jeremiah. Conference periods will be at 7 o'clock each week night.

"The Preaching of the Cross" is the sermon title selected by the Rev. T. O. Upshaw, pastor, for the worship service beginning at 11 a.m. Sunday. Sunday school will begin at 9:45 a.m. Training union is set for 6 p.m. The evening worship service is at 7 p.m.

Gospel Singer At Assembly Of God

Bill Harmon, gospel singer and composer from Kansas City, Mo., will continue through Sunday evening as special guest at the Bethel Assembly of God church. Mr. Harmon's songs have been recorded by such artists as, Gov. Jimmie Davis, The Plainmen, The Melodians, Foggy River Boys, and many others. The public is invited to attend all services at the church. The Rev. Paul F. Bryant is the pastor.

Baptism Set For Evening Service At First Baptist

Dr. Douglas Carver, pastor of the First Baptist Church, will be in the pulpit for both worship services Sunday. He will speak on the subject, "Judgment, A Most Neglected Doctrine" for his 11 a.m. sermon. Joe Whitten will present the Church Choir in singing an anthem, "O Clap Your Hands" by Edwards and Miss Eloise Lane, organist, will play "Contemplation" by Davis for the offertory.

The ordinance of baptism will be observed at the beginning of the evening worship. Dr. Carver would like to have all awaiting candidates to meet in his study at 7:15 p.m.

At the evening worship Dr. Carver will speak from the topic, "God's Precious Promise." The church choir will sing a hymn-anthem, "Jesus, Lover Of My Soul" and Miss Lane will play, "Green Pastures" by Wilson for the organ offertory.

The study of Jeremiah will be continued at the 7:30 p.m. mid-week service on Wednesday evening with Dr. Carver leading, Jack Parker, minister of education, is teaching the second session of the book, "Building a Standard Sunday School" at 9:30 a.m. and 7 p.m. Monday, Jan. 29, and it will be concluded the following Monday.

Deacons of the church will have a dinner meeting at 6 p.m. Monday. The meeting will be held in the church dining hall, and John Gikas urges all deacons to be present.

Amarillo Pastor To Speak Sunday

Dr. Lynn B. Rankin, assistant pastor of the First Presbyterian Church of Amarillo, will be guest minister for the 11 a.m. worship service Sunday at the Pampa Presbyterian Church. His sermon subject will be "Two Inscrutable" and the text will be John 4:13-14.

The choir will sing the anthem, "Souls of the Righteous" by Noble. There will be a sacrament of infant baptism for those wishing to have children baptized, Sunday Church School is at 9:45 a.m.

Group Discusses Overseas Project

The Junior Missionettes of the First Assembly of God Church met Tuesday afternoon in the Church-parlor with 14 members present.

A discussion on the groups overseas project was held. Karen Stanley presented the devotional and gave a talk on China.

Refugee Help

CHICAGO (UPI) — The Methodist Committee for Overseas Relief has issued an appeal for more churches to volunteer to help resettle refugees from Fidel Castro's Cuban dictatorship.

Dr. John S. Kulisz, the committee's secretary for refugee resettlement, said that as refugees continue to pour into Miami from Cuba, the need for churches and groups across the country to sponsor them is growing rapidly.

'Unbelieved Last Words,' Topic At Highland Baptist

Rev. Joe Allison has chosen for his Sunday morning sermon at the Highland Baptist Church, which is affiliated with the Southern Baptist Convention, "Unbelieved Last Words." The scripture will be read as found in Malachi 4:4-6; Luke 1:16-17 and Revelation 22:20-21.

In the evening service Rev. Allison will preach the second sermon in the series "The Seven Churches" with the topic, "A Poor Church," as defined in Revelation 2:8-11.

The Junior and Senior choirs will sing for the Sunday morning and evening services.

Lefors School Census Is Taken

LEFORS (Sp) — The annual school census in the Lefors School District will conclude Wednesday, Jan. 31.

All parents in the district who will have a child due to enter the first grade in the 1962-63 term are asked to notify Jerry Jacobs, school superintendent.

State law requires that children will be six years of age on or before August 31 and not over 18 on the same date be enumerated annually.

Stolen Painting

The "Mona Lisa," Leonardo da Vinci's famous painting, was stolen from the Louvre Gallery in Paris on Aug. 22, 1911, and finally was found on Dec. 12, 1913, in Florence, Italy.

Methodists Plan Convocation At Dallas In March

DALLAS (Sp) — "The Renewal of the Church" will be the theme of the South-Central Jurisdictional Convocation of the Methodist Church, scheduled for First Methodist Church in Dallas, March 5-7. The general public is invited to join the more than 800 members of the boards, commissions and agencies of the 8 state jurisdictions to hear the featured speakers for the meeting.

Mr. Harold Bosley, who has recently accepted the pastorate of Christ Church in New York City, will set the background for the program in the opening address on the subject "Danger Signals in the Church." Other featured speakers will be Bishop Everett W. Palmer, Resident Bishop of the Seattle Area; Dr. William Cannon, Dean of the Candler School of Theology, Atlanta; and Bishop W. Vernon Middleton, Resident Bishop of the Western Pennsylvania Area, Pittsburgh, Pa.

Texas appearing in prominent roles are Bishop William C. Martin, Resident Bishop of the Dallas-Fort Worth Area; Bishop Paul E. Galloway, Resident Bishop of the Houston Area; Bishop Paul V. Galloway, Resident Bishop of the San Antonio - Northwest Texas Area; Dr. Robert E. Goodrich, Jr., pastor of First Methodist Church, Dallas; Dr. J. Chess Lovern, pastor of First Methodist Church, Lubbock; Dr. Joseph D. Quillian, Jr., Dean of Perkins School of Theology; Dr. J. B. Holt and Dr. Douglas Jackson, both professors at Perkins School of Theology; and Mr. Bill Mann, director of evangelistic singing at First Church, Dallas.

Lord's Prayer To Be Sermon Topic

Sunday morning at 11 o'clock, the Rev. Russell G. West, Sr., pastor of the church of the Brethren, will use as his sermon subject the question, "Can You Pray The Lord's Prayer?" The message will deal largely with the opening petition, "Hallowed be thy name."

At the evening worship service, which begins at 7 o'clock, the message will be in the form of a panel discussion on the subject of "Personal Evangelism." In this service, the inspirational song service will be led by young people of the church.

Sunday School, which opens at 9:45 a.m., will be led by A. L. Patrick, Jr.

COULD KILL ANYTHING

VENTURA, Calif. (UPI) — Charles Hillman Jr. reported burglars stole a shotgun, a .35 caliber revolver, a pair of handcuffs and a full gallon of whiskey. He listed his occupation as an exterminator.

Christian Science Service Stresses Nearness Of God

Today's demand for progress based on a true comprehension of God's nearness and all-power will be stressed Sunday at Christian Science church services. Highlighting the Lesson - Sermon on the subject of "Truth" is the Golden Text from Psalm 119: "Thou art near, O Lord; and all thy commandments are truth. . . Thy word is true from the beginning."

One of the citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (Pref. vii): "The time for thinkers has come. Truth, independent of doctrines and a time - honored systems, knocks at the portal of humanity. Contentment with the past and the cold conventionalities of materialism are crumbling away. Ignorance of God is no longer the stepping-stone to faith."

Third Session Of Mission Study Is Set For Sunday

"The Other Side" will be the sermon topic Dr. Hubert Bratcher, pastor of the First Methodist Church, will preach at the two morning services Sunday. The special music for the 8:45 a.m. service will be the anthem, "Awake, Awake To Love and Work," a German melody, sung by the Junior Choir. The Sanctuary Singers will furnish the special music for the 11 a.m. service and sing the anthem, "Sing To The Lord A Joyful Song" by Darset.

The third session of the church-wide mission study, devoted to "Latin American Lands In Focus," will be presented by Mrs. Ed Williams who will speak on "Argentina." John Gentry will speak on "Chili."

Sunday evening fellowship will begin at 5:30 p.m. with a light supper for the entire family in Fellowship Hall. At 6:30 p.m. children, youth and adults will separate for one hour of planned activities according to interest and needs.

The Sunday night service at 7:15 p.m. will be conducted by the pastor who will speak on the subject, "The Sign of the Beast."

Daily Soul Winning

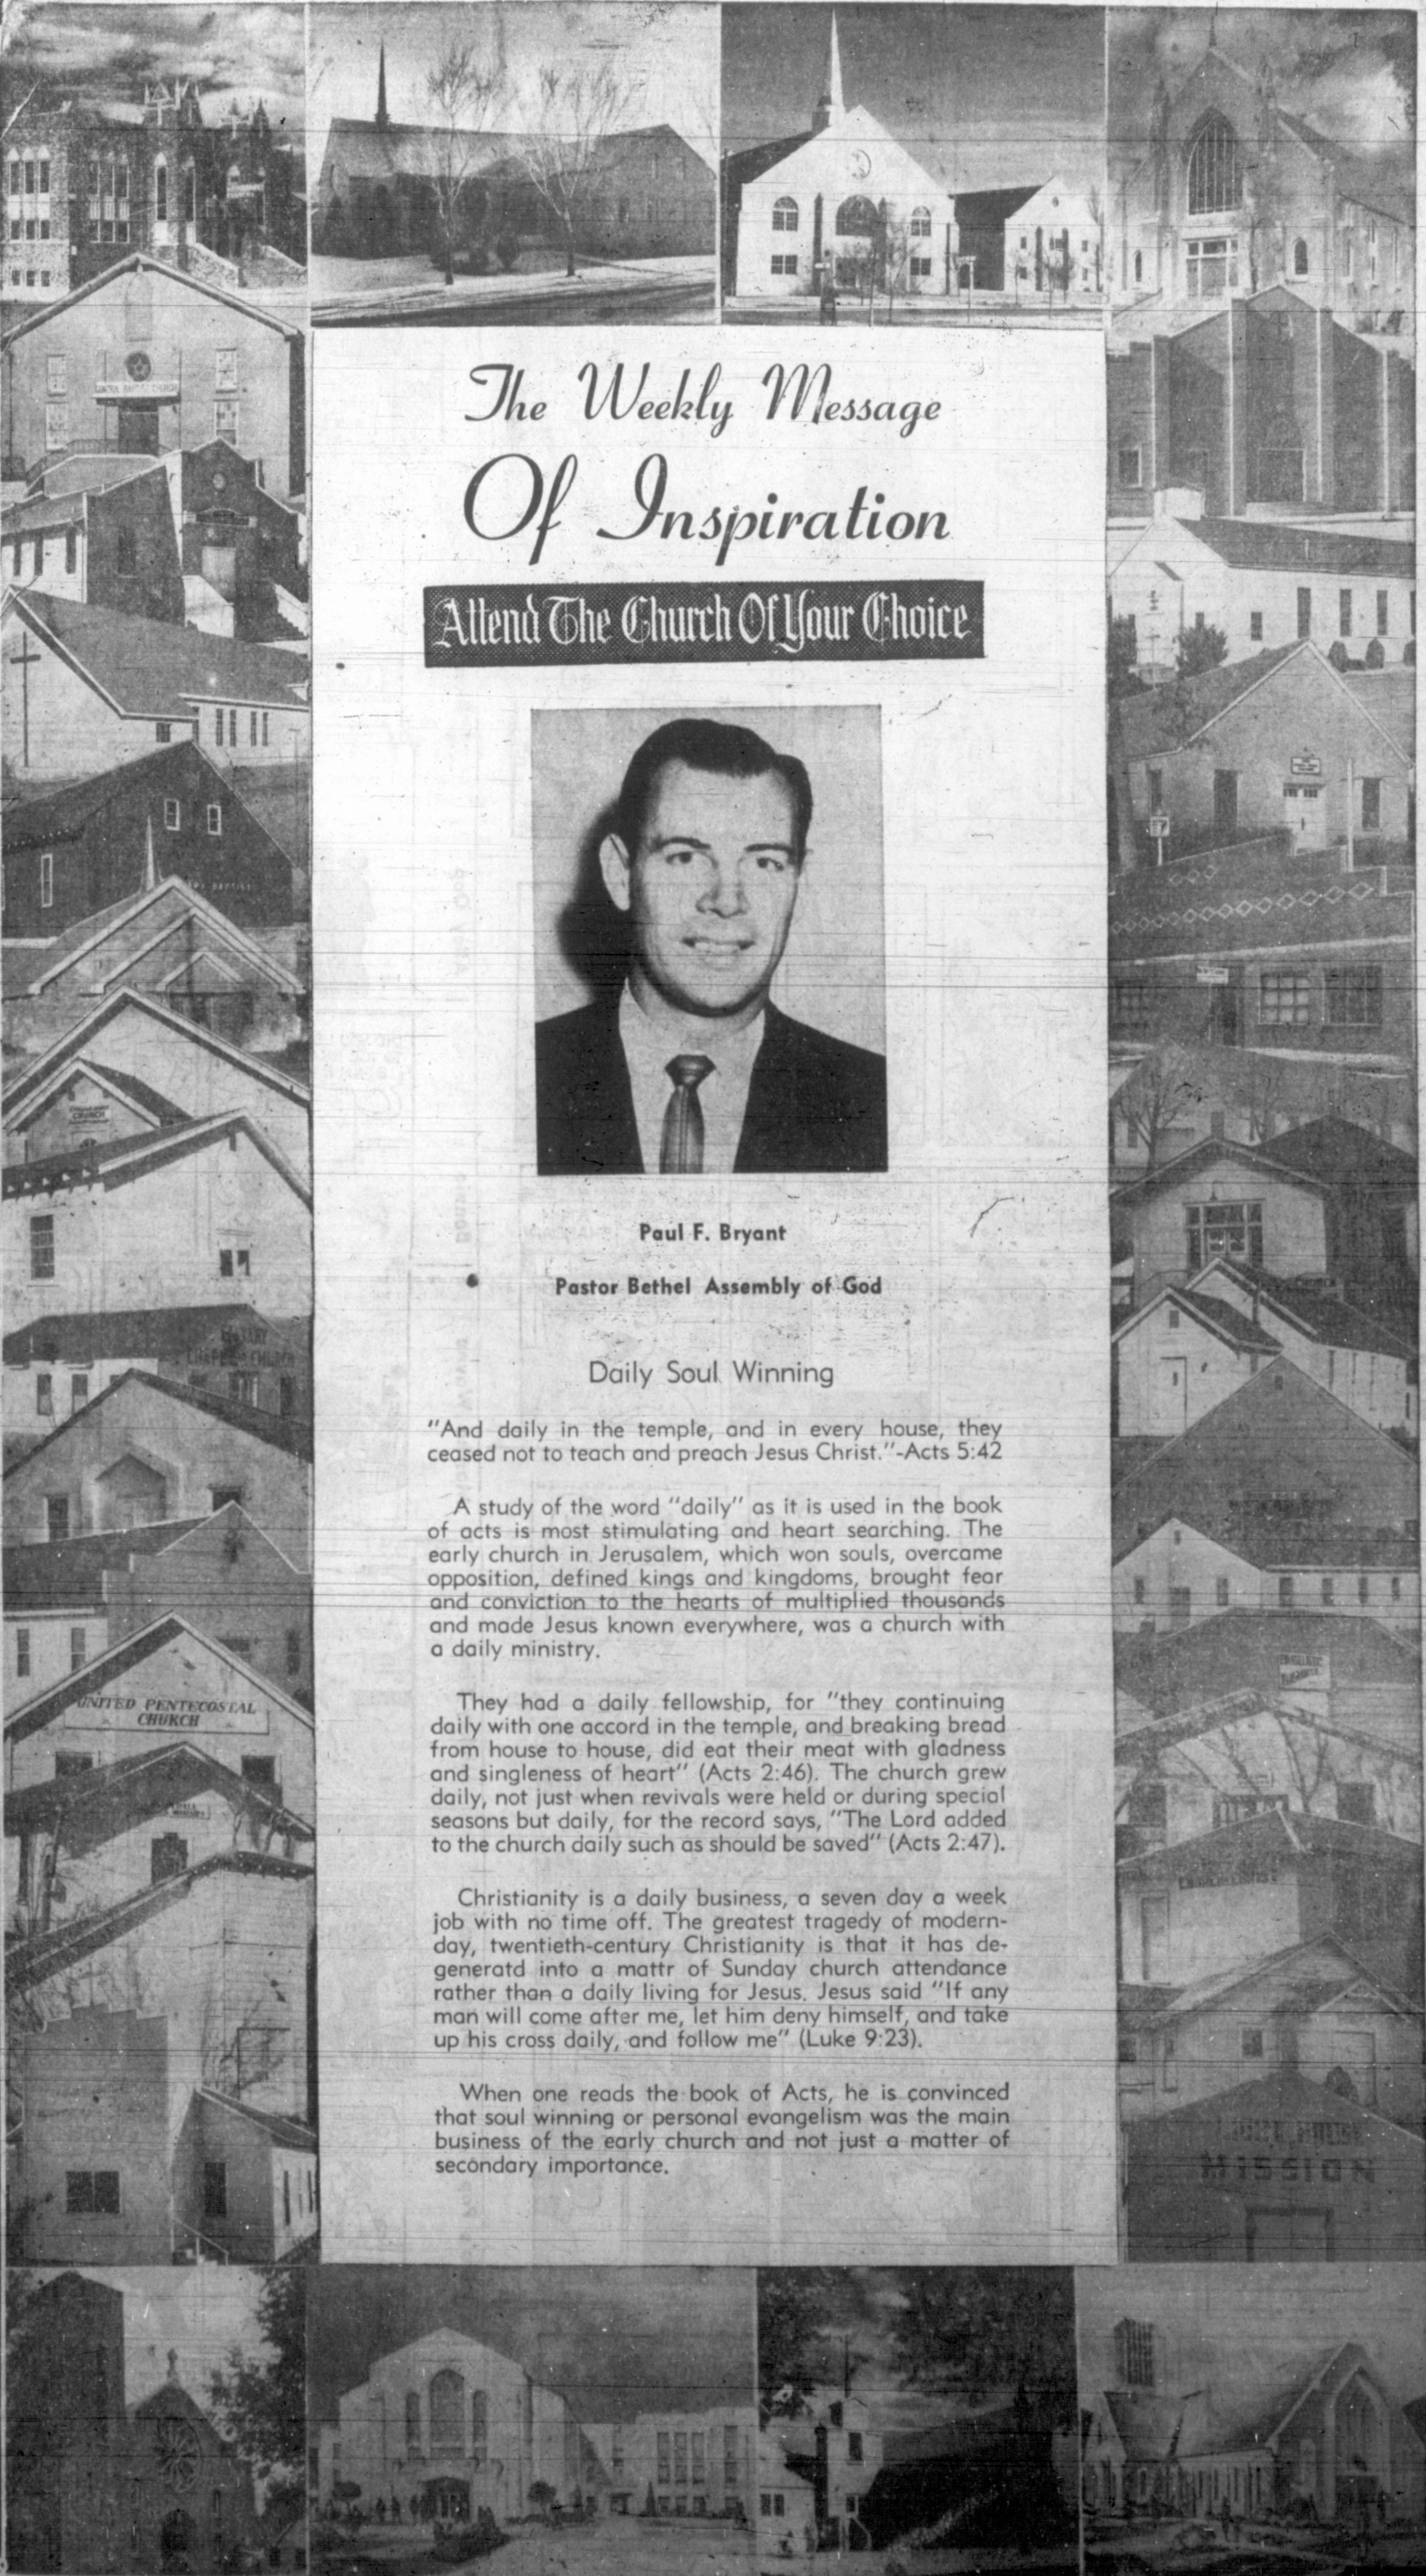

"And daily in the temple, and in every house, they ceased not to teach and preach Jesus Christ."—Acts 5:42

A study of the word "daily" as it is used in the book of acts is most stimulating and heart searching. The early church in Jerusalem, which won souls, overcame opposition, defined kings and kingdoms, brought fear and conviction to the hearts of multiplied thousands and made Jesus known everywhere, was a church with a daily ministry.

They had a daily fellowship, for "they continuing daily with one accord in the temple, and breaking bread from house to house, did eat their meat with gladness and singleness of heart" (Acts 2:46). The church grew daily, not just when revivals were held or during special seasons but daily, for the record says, "The Lord added to the church daily such as should be saved" (Acts 2:47).

Christianity is a daily business, a seven day a week job with no time off. The greatest tragedy of modern-day, twentieth-century Christianity is that it has degenerated into a matter of Sunday church attendance rather than a daily living for Jesus. Jesus said "If any man will come after me, let him deny himself, and take up his cross daily, and follow me" (Luke 9:23).

When one reads the book of Acts, he is convinced that soul winning or personal evangelism was the main business of the early church and not just a matter of secondary importance.

KLUNK!

YE CATS, WOTTA MESS! ... KNOBS! PULL YERSELF TOGETHER!

WOOT, WHAT HIT ME?

ONE FALSE MOVE AN' I'LL LET YA HAVE IT AGAIN!

Boats Earn Titles In True Sailing Fashion

FORT LAUDERDALE, Fla. (UPI)—There's an old line about "What's in a name?" and when it comes to boats there is only one answer.

Plenty. There is a craft, for example, sailing the waters in and around this city billed as the "Venice of America" which bears on its butt end the gilded legend "Mama's Mink."

"That's no joke, son. "There goes my mink," said the lady of the house the first time she laid distressed eyes on the family's expensive new acquisition.

Brown Winner Over Grange

Alfred Brown of Pampa carded the lone victory for the local boxing team Thursday night in the second night of action in the Berger District Golden Gloves competition.

Brown, fighting in the 85-pound class, defeated Jerry Grange, Tri-City in the Pee Wee division.

Borger leads in the fights thus far with 13 victories out of 18 bouts. The finals will take place Saturday night at 8 p.m. in the Lions Sports Arena.

Pampa results: 75 - J. T. Harris, Tri-City over Ray Lumpin, Pampa 80 - Mike Young, Borger over Marvin Finney, Pampa 85 - Brown, Pampa over Grange, Tri-City

Littler Holds Tourney Lead

SAN FRANCISCO (UPI)—Gene Littler, with one of his self-admitted "greatest shots" behind him, teed off in the second round of the \$50,000 Lucky International tournament today holding a two-stroke lead over the star-packed field.

The National Open champion, former National Amateur king and three-time Tournament of Champions winner, had his finest day since winning the Open last summer when he posted six-under-par 65 Thursday on the "heavy" Harding Park course.

That was two strokes better than the 67 posted by veteran Marty Furgol of Coghill, Ill., and three better than 10 other shot makers at 68.

"The shot that got me the 66 came on the fourth hole," said Littler, who usually is hard to excite. "I've never seen anything like it. My second shot on the par-five, 380-yard hole landed beside a tree. I couldn't do anything with it, except approach it from a left-handed stance.

"So I took out my putter, which has a bit of a loft on the back. I spanked it good and it sailed 80 yards through the air and landed on the green. Surprisingly, it had some backspin on it. And it ended up only 20 feet from the pin. I sank the putt for a birdie-four — when I easily could have had a bogey six."

The 10 men tied at 68 are Tony Lema, Don Fairfield, Eric Monti, Ken Venturi, Stan Leonard, Paul Harney, Bob Goalby, Tommy Aaron, Harold Kneec, and Doug Ford.

Of the 159 golfers teeing off, 33 broke par. Among these were Arnold Palmer, the British Open champion and Gary Player, defending champion and Masters king, both with 70s.

She wasn't kidding, either. And it was small consolation that the boat at least had earned an unusual name.

Indicating, quite naturally, that owning your own boat can be an expensive proposition. Which is reflected in a great many other names of the craft skipping along these waterways. There is one titled simply "Sixteen-five." Which is exactly what it cost, "plus a few extras here and there, of course."

Another fellow in the same boat, financially, that is, had to have a new rig. What with one thing and another, he called it "Second Mortgage." Why second? "Because," he said, "my first boat was called 'First Mortgage,' and times haven't changed a bit."

Then there's the fellow whose sleek, trim craft is titled "Dollars More." The answer is easy to understand.

"It cost, and keeps costing, dollars more than I expected." The bachelor clan has a grand time coming up with fitting, and hopeful, names for its boats. Say like "Dina Might," and "Aqua-holic," and even "Aqua-Vet."

Then there's one called "Sea Duce," and you can figure that out for yourself. The most aptly-named one of all probably is the craft called "Phit." It was leading the Miami endurance race with only 25 minutes to go when it did just that. Then there's "Caduceus Wild," which belongs to Dick Sherman of Trenton, Mich. He's a doctor and, it seems, quite a poker player.

Bill Brower of Fort Lauderdale owns a fishing boat titled "Push-wave III." He's a former hair stylist who invented a "Push-wave" permanent wave process and chucked the whole hair-do business for a life on the unpermanents waves.

You can believe it or not, but Joe Maybrown of Long Beach, N.Y., gets so much noise out of his racing craft that he calls it, now get this, "Das Firespittin Loudinboomer."

But the favorite in this corner is a big craft named "Tender." Dancing along in back of it on a tow-line is a tiny tender. It, too, has a name neatly painted on its stern.

Miss Preuss, Williams Are Golf Champs

HOLLYWOOD, Fla. (UPI)—Defending champions Phyllis Preuss and Barbara Williams took on Barbara Wolfe and Margo Michaels today in the second round of the Hollywood Women's International four-ball golf tournament.

Sixteen teams teed off in the opening round Thursday over the 6,361-yard Orange Brook course and eight were eliminated. Today's four winning teams meet Saturday in semi-finals and the finalists meet Sunday in a rough 36-hole showdown match.

Miss Preuss, of Pompano Beach, Fla., and Miss Williams, of Richmond, Calif., downed Phyllis Semple, Sewickley, Pa., and Mrs. Robert Lyle, Montreal, 5 and 4 Thursday.

Mrs. Wolfe, of Naples, Fla., and Miss Michalis, Hollywood, Fla., had slightly tougher going defeating Alice Dye, Indianapolis, and Virginia Ott, Williamsport, Pa., 3 and 2.

Bearcats Bop Eagle Cagers

United Press International Cincinnati's defending NCAA basketball champions are almost as stubborn as the nation's experts — perhaps even more so. The Bearcats have retained their ranking as the No. 2 team in the country despite two defeats that placed them third in their own Missouri Valley Conference. They have a long road to travel to win their own conference championship without worrying at this time about the national title but they haven't given up.

Coach Ed Jucker's sometimes-inconsistent team scored a key victory in its drive for the Missouri Valley title and a chance to repeat as NCAA champion Thursday night with an 89-61 victory over North Texas State at Cincinnati. The Bearcats, shooting for their fifth consecutive conference title, surged to a 6-0 lead and never were headed.

The victory gave the Bearcats a 4-2 record in conference play. They trail both Wichita (5-2) and Bradley (4-1) but they look ready for the uphill struggle that would earn them the conference title and a chance to repeat their victory over Ohio State, the nation's No. 1 ranked team, in the NCAA tournament.

Guard Tony Yates led Cincinnati with 23 points while John Savage tallied 30 for North Texas State.

LaSalle, a strong Eastern independent, downed Miami (Fla.), 73-61, at Miami Beach, Fla., and Houston beat Texas Christian, 61-56, at Fort Worth, Tex., in other top games Thursday night.

Guard Bob McAteer's two quick field goals in the second half sparked LaSalle to its victory over Miami after the score had been tied 10 times. Center Walt Sampson led LaSalle with 18 points while Ken Allen had 14 to lead the Hurricanes.

Lyle Harger's 21 points led Houston to its victory and saddled Texas Christian with its 12th loss in 13 games.

Lee Cagers Top Phillips Five

Lee junior high's cagers posted a pair of victories Thursday over Phillips in local cage action at the Lee junior high gym.

Lee ninth won, 41-40 on an after-the-game pair of free throws by Keith Griffith. The score was 40-39, Phillips at the end of regulation play, but Griffith was fouled on the last play of the game setting up a one and one situation from the free throw line.

Griffith hit his two charity tosses to give the locals the victory after the buzzer had sounded.

The victory put the Lee team in first place with a 6-1 record and an 8-3 overall mark. The score at the half was all knotted up at 22-22.

David McDaniel was high point man for the winners with 15 points followed by Robert Howard with 13.

Lee eighth also won, 44-20. Teddy Bird had eight points to lead the way followed by J. T. Winters, Steve Swanson and Ken McWilliams, each with six points. Both teams travel to Borger Tuesday to meet Sam Houston.

Torre Inks Brave Pact

By United Press International Joe Torre, who "did the difficult" for the Milwaukee Braves in 1961, is prepared to attempt the "impossible" in 1962.

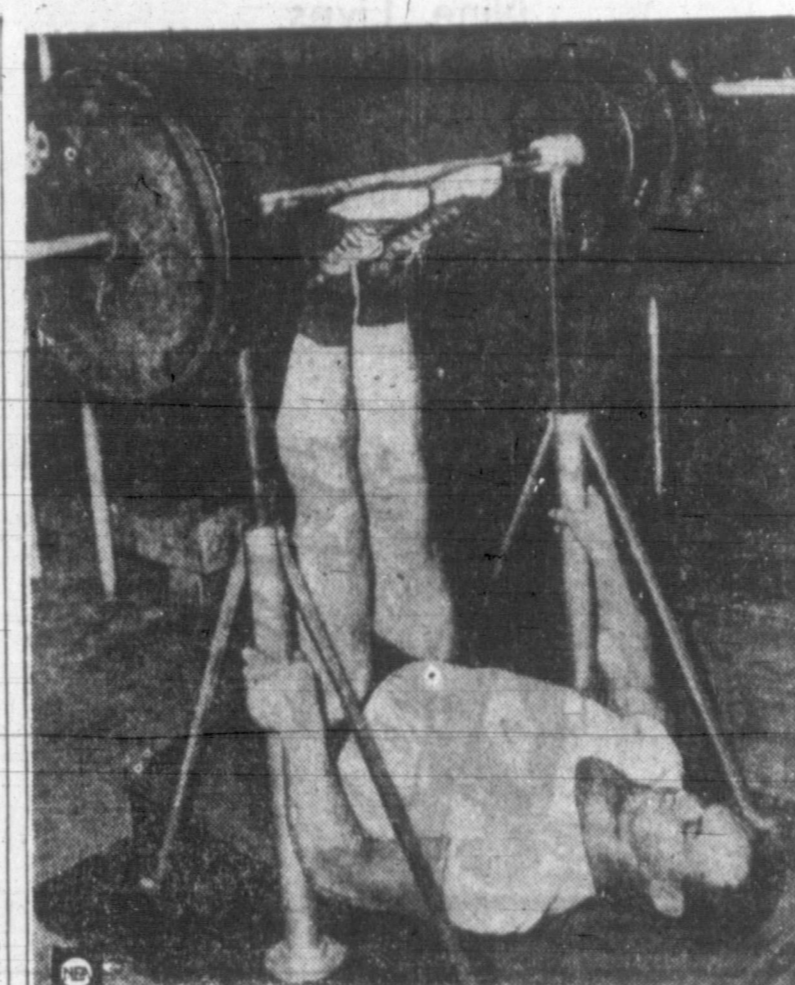

Joe, a 21-year old catcher who answered a minute man call from the Braves last season so well that he was considered one of the outstanding rookies of the season in the National League, thinks he can replace Del Crandall as the Braves' first-string catcher this year.

"I know that Crandall is the captain of the team and has been a star catcher for several years," said Torre after signing his 1962 contract Thursday. "But I expect to catch 135 games this year. In other words, I expect to be first-string catcher again."

Stephens Agrees To Pact With Montreal

MINNEAPOLIS (UPI) — Sandy Stephens, a Uniontown, Pa., high school star who found success and fame in leading the Minnesota Golden Gophers back to football prominence, had the pro contract he demanded today.

His no-cut, no-trade agreement with the Montreal Alouettes in a three-year pact at a reported \$100,000 was to be formally ratified here today.

He came to terms with the Canadian Football League club Thursday and Alouette officials immediately flew into town to announce the agreement.

It was the first big "steal" of a name U.S. college player by a Canadian team.

Stephens decided to forego the chance to be the first Negro quarterback in the U.S. pro ranks for the kind of a contract he wanted. He was sought by the Cleveland Browns of the National Football League and the New York Titans of the American League.

He admitted that money was a big factor. But he said it was security and playing promises which were decisive.

"I have been a running, passing and punting quarterback and I hope to continue in all three roles in Canada," Stephens said. "I feel I can adapt readily to"

Titans Get Songin In Grid Trade

NEW YORK (UPI) — Ed (Butch) Longin finally made it to New York.

The 37-year-old quarterback was acquired by the New York Titans of the American Football League from the Boston Patriots Thursday in a trade for defensive halfback Dick Felt.

When Songin played his last football game for Boston College back in 1949, the New York Yankees of the old All-America Conference offered him \$50,000 to sign with them. However, Butch turned down the offer because he was then attending B.C. on a hockey scholarship and he wanted to play for the Eagles' hockey team that winter.

Songin, though, injured his knee in the North-South football game that December and was unable to play his final year of hockey at B.C. By that time, the All-America Conference folded, so Butch wound up playing football in the Canadian League.

He returned to Boston and the Patriots two years ago, completing 98 of 212 passes for 14 touchdowns last season.

TECH CROWDS
LUBBOCK, Tex. (UPI)— Three Southwest Conference basketball home games for Texas Tech have drawn an average of 9,100 fans. The crowds ranged from 10,000 for the Baylor game to 7,800 in sub-zero weather for the Rice contest. Tech has averaged 7,812 fans for eight home basketball games this season.

Harvesters Hoping To Smash Palo Duro Dons

Pampa's Harvesters will try it again tonight when they host the tough Palo Duro Dons in the Harvester fieldhouse at 8 p.m.

The Harvesters, who dropped their season opener to the Dons, 75-63 will be out to even the score on the year and also snap a five-game losing streak in district play. Pampa is 1-6 thus far.

The Harvesters, though losing their last five contests, have not been downed by any great margin in any of these games. Palo Duro, in fact, had to overcome a strong Harvester first half to post their victory over the local crew earlier in the season. The Dons have also been having their share of trouble lately, dropping their last outing against Borger, 68-50 for their fourth loss in loop play. They have won three.

The visitors will be led by big Bruce Francis, who, prior to the Borger tilt, was leading the district in scoring with a scorching 20.8 points per game. The 6-2 forward was held at bay against the Bulldogs, however with a mere four points for his night's work.

Aiding the Dons from the floor will be Jim Douglas, Tobie Hall and Rickey Nix. Nix wound up his point making machine and produced 19 on the boards in the Borger fracas.

On the firing line for the Harvesters will be their starting crew of Randy Matson at the post, Lloyd Balch and Bob Neslage at the forward positions and Wayne Kreis and Gordon Balch at the guard slots.

Matson, who is hitting for a 17.1 point average in the first seven loop contests is making a strong bid for the district scoring

title with 120 points thus far. Local fans should see a great renewal of the scoring duel between Francis and Matson when the two cage teams hook up for the second time this year. Randy had 18 points for the Harvesters in the game with Plainview to capture scoring laurels for the locals once again.

Also expected to see action for the Harvesters before the night is over will be Keith Swanson, Harold Burgess, C. E. Cantrell, Mike Stewart and Gary Sikes. Sikes is one of the most improved players

Gindorf Is Still Tops From Line

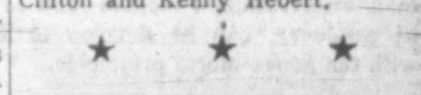

Still shooting like Wyatt Earp at the OK corral is Bobby Gindorf, 6-4 junior from Pampa, who is currently hot as a two dollar pistol for Texas Tech's Red Raiders from the free-throw line.

Gindorf is swishing 'em one after another, in fact 34 in a row now in Southwest conference play and 40 in a row counting non-collegiate encounters. His deadly accuracy is partly the reason the Raiders are in a three-way tie for the conference lead in the hectic cage race.

Gindorf hit his six extra shots against the Phillips' 66 cagers last week.

on the Pampa team, both from the floor and also as a stalwart under the basket in grabbing off rebounds from opposing cagers.

In the B game, the Schockers will meet the Palo Duro B team at 8:15. Leading the way for Roy Kieval's cagers will be Donnie Ayers, Rickey Stewart, Larry Clifton and Kenny Hebert.

HERALDED HARVESTER—Randy Matson, 6-6 post man for Pampa, will lead the local cagers tonight against Palo Duro's Dons at 8 p.m. in the Harvester fieldhouse. Matson had his best night in loop action against the Dons in the season opener with 26 points.

Quebec Eases Past Hershey In Overtime Skirmish, 2-1

By United Press International The Quebec Aces and Hershey Bears are fit to be tied.

The American Hockey League rivals battled into overtime Thursday night for the fourth time in six meetings this season before Michel Harvey's goal in the opening minute of the extra stanza gave Quebec a 2-1 victory.

It was the Aces' second overtime triumph in three nights over

Hershey. The Bears were victorious over Quebec in three of their first four clashes, one game ending in a tie.

The Bears held a temporary 1-0 lead on Parker MacDonald's opening period goal. Fred Burchell of the Aces deadlocked the game in the second canto.

There were no other AHL games Thursday night.

Faulkner Is New Coach At Denver

DENVER (UPI) — Jack Faulkner, the youngest head coach in American professional football, has taken a giant step up from the American Football League's winningest team to the Denver Broncos—a record loser.

The 35-year-old former San Diego Charger defensive backfield coach succeeded to the Bronco job Thursday. The Denver board of directors gave him a two-year contract. Salary terms were not disclosed.

It is Faulkner's first shot at a head coaching job after 13 years as assistant to San Diego's Sid Gillman.

Faulkner developed Charger defenses into the AFL's best. San Diego set an all-pro record last season with 11 straight victories.

In his move to Denver, Faulkner inherits a team that set an AFL record for losing. The Broncos lost their last seven games the past season and won only seven during two years in the league — while losing 20 and tying one.

Faulkner's two-year contract carries with it an unmentioned ultimatum to produce a winner. Bronco President Cal Kunz said his new coach would have a type of buffer zone his first year, but the Bronco brass wants results the second year.

Bronco officials issued a strong recommendation that Faulkner keep Denver assistant coaches Dale Dodrill and Ken Carpenter, but gave full authority to Faulkner to select his own staff.

Boyer Hits For .948 Percentage

NEW YORK (UPI)—Tommy Boyer of Arkansas has hit 73 of 77 free throws this season for a .948 percentage—a proficiency unequalled in NCAA basketball statistical annals for so many attempts.

Boyer's teammate, Jerry Carlton, is in second place with 72 of 78—a .911 record. Another Southwest Conference player, Texas Christian's Phil Reynolds is third with 62 of 70 for an .886 mark.

INELIGIBLE
DALLAS, Tex. (UPI) — E. O. (Doc) Hayes, Southern Methodist basketball coach, said Thursday, Mike Marsh, a 4-8 sophomore reserve center, is scholastically ineligible for athletics.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

Urban Renewal No Cure

Will Americans individually preserve their right to own their own homes and other property? We do not know.

All we can say is that this right is sorely under fire right now. And nowhere is the fire greater than in our major urban centers. The big push is on for Urban Renewal.

It is claimed by many real estate men, who supposedly are in the very core of those who believe in private ownership, that government must now step in to rehabilitate the loop districts of many cities.

Building and construction people are getting into the act. Even certain property owners, imagining a quick profit at government expense, come forward to champion the seizure of land in cities, which land, after being divested of its buildings, is supposedly to be better planned and put into more productive use.

We doubt very much that this process was sired by Moscow. But it certainly has been sired by men who have forgotten the principles of private ownership and who are giving ear to the siren song of governmental dependency.

Now, it is quite true that something is dreadfully, deeply wrong with many of our largest cities. New York, probably leads the pack. For years automotive traffic in Gotham has been a tangled travesty.

It is literally true that at certain hours of the day it would take less time to walk across the city than to try to make it by car along a given street in the garment district.

A group of planners, meeting recently in New York to discuss urban renewal, proposed an expenditure of 170 billion dollars by 1985 to clear up the traffic and other problems. The sum is almost twice that of the national budget.

But the great curiosity about urban renewal, aside from its cost, is the fact that where urban renewal has been put into practice, many of the problems to be eliminated remain, and new problems appear which were not there before.

We believe that at the roots of the urban decline are a pair

of rascals which urban renewal does not deal with and indeed, does not even attempt to understand.

The real failure of so many of our cities is found in two violations of property rights which have been going on for years.

The first violation is that of taxation; the second, that of planning and zoning.

Land taxation in urban areas is possibly the most unjust and inequitable form of taxation known. In essence, it is equivalent to the Henry George scheme of having all land owned by the state with occupants paying an annual rental for their use of the land.

For the man who has title to a downtown property cannot be said to own it. He pays a rate of taxation so high that it can only be construed as a rental to the city for his occupancy. His rate of taxation is not, as is generally supposed, based upon the services his land or his building receive. On the contrary, it is based upon a guess as to what the land and building might bring if they were sold, based upon recent sales of other, dissimilar land or buildings in the vicinity.

These taxes are so large and so onerous as to virtually prevent the man with such a building from improving it or keeping it in top condition. He can only hope that one day he will sell out to someone so that he can recoup his losses.

The zoning and planning incursion against property rights is, in practice, little more than a racket. It presumes to decide land usage, not on the basis of individual demand and individual ability, but on the basis of an overall general plan. This plan may look good on a drawing board but is wholly divorced from the human element which must use the land and buildings and make a profit by so doing.

Zoning and planning are engineered so that favoritism is rife. The "in" may do as they please and the "outs" are as cruelly restrained as they would be under any tyrant.

These are the diseases of our modern cities, and all the urban renewal in the world will not cure them.

Answering His Critics

The House Committee on Un-American Activities has taken some stiff licks from various "liberal" sources who profess to see a dangerous attack on the constitutional guarantees of the witnesses.

Rep. Francis E. Walter of Pennsylvania, chairman of the committee, has this to say in reply: "During the past 20 years, a considerable body of law has been enacted by the American people, through their elected representatives, to meet the problem of Communist subversion. And again in this field, there is no other agency that has contributed as much as has the Committee on Un-American Activities."

"This v-life of the existing laws of this land which deal with the problem of communism are based on the committee's recommendations. At the close of the last Congress, 37 bills containing recommendations made by the committee were pending in the House which had passed seven bills based on committee proposals. This year the Committee is giving consideration to more than 30 separate legislative proposals in this field. Over the years, the committee has made 129 legislative recommendations to the House on the subject of communism."

"On June 3, 1961, the Supreme Court of the United States upheld a key anti-Communist law which had been enacted as the result of hearings and recommendations of the Committee on Un-American Activities. I am referring to the Internal Security Act of 1950. It is an important law in many respects. If it is clear now and a matter of judicial decision — as I promise you again that the

it certainly is — that the Communist Party, U. S. A., is controlled lock, stock and barrel by Moscow — and if there now exists a court case that merits world-wide study — then credit for this fact goes largely to the Committee on Un-American Activities.

"This, then, is part, at least, of the legislative record of the committee. But despite the facts I have just cited, many enemies of the committee claim that it has done little or nothing to fulfill its primary function, which is that of recommending legislation to cope with Communist subversion."

"Obviously, the communist party itself would not complain about this alleged failure of the committee. This lie about the committee has been, and is still being, spread chiefly by allegedly respectable non-Communist sources which, by their falsehoods, are aiding and abetting the Kremlin itself. And inasmuch as I have mentioned this seat of Communist power, I should also bring out the fact that it, too, frequently attacks the committee in broadcasts emanating from Moscow and other Communist capitals.

"The committee still has plenty of work cut out for it. J. Edgar Hoover testified recently that the FBI now has approximately 200 suspected Communist fronts and Communist-infiltrated organizations under investigation. The committee knows from its own investigation and research that in the last year or so the Communist Party has greatly stepped up its activities in the field of youth work and racial agitation, as well as in other areas.

It's Up To You

by HOWARD KERSHNER L. H. D.

The battle for freedom in Latin America and for that matter everywhere, is being lost by the default, carelessness and indifference of those who still enjoy it. While the Communist countries are literally flooding the world with false and dishonest literature concerning the rosy benefits and great success of communism, little effort is being made to counteract these wholly misleading stories and alleged facts.

South America is literally teeming with hundreds of books, pamphlets, and tracts available everywhere, setting forth communism as a sure road to less work, prosperity and happiness. As soon as children learn to read, they are deluged with fables and simple stories in praise of the Communist way of life. These are graded according to the age of the child and progress steadily to propaganda aimed at the adult level.

The oft-repeated "big lie" is, as always, the chief cornerstone of the Communist propaganda edifice. Over and over it is alleged that in the free world the workers receive about one-sixth of the fruits of their efforts while the owners gather in the remaining 84 per cent. Almost no one has ever learned that in the United States and other capitalist countries workers receive about 88 per cent of the values their efforts helped to create, while the owners receive the remaining 12 per cent.

Competent students of the matter believe that if the facts were known, about the division of income in the West as between workers and owners, that this one bit of information would end the trend toward communism and rally the populace to the support of the free world.

Appallingly enough, not many of the owners themselves seem to be aware of these important facts. Few of the owners and almost none of the workers in either the free world or the Communist world are informed on this subject.

If American businessmen who spend millions for advertising would set forth the record of the division of income between workers and owners in the principal industries of our country and make it available in simple, attractive form for mass distribution, it might very well bring the Communist menace to a sudden end. Not even Communist propaganda could overcome a mass distribution of these impressive facts.

Along with this should go another item making clear the unhappiness, starvation and suffering that is normal in all Communist lands. The people of Latin America, Africa and the free parts of Asia are not aware of the bitter suffering and mass starvation chronically existing in Communist lands and at the present time growing more and more acute.

Food and foreign aid to Socialist rulers, enabling them to tighten their grip upon their unfortunate subjects are pitifully powerless to overcome the trend toward communism. On the other hand, a simple presentation of the facts will do it.

THE KREMLIN RIDDLE — In answering the senators' questions, Khrushchev estimated that "something going on in the Kremlin" which Secretary of State Dean Rusk spoke about may involve a Communist leaders'

"At the same time, the attacks on the committee will continue. The Communist Party will intensify its effort to destroy it and, as in the past, it will have the assistance of some of our so-called liberal newspapers, magazines, organizations and individuals in its efforts. These organizations and publications, like the Communists, will not hesitate to use Hitler's big lie technique to promote their aims. They have done it many times before. Despite this, I am confident that, with the continued help and support of the American people, the Communists will fail in their aim of destroying the Committee.

"If and when the Committee on Un-American Activities ever ceases to function, it will never be because the American people have been so foolish as to give up one of their most effective weapons for combating their most deadly enemy. Rather, it will be because that enemy no longer exists on American soil."

Nine Lives

Allen - Scott Report

'Hands Off' in Kremlin - Albania Break Urged by Kennan; Tito's Plans Reported

WASHINGTON — George Kennan, U.S. Ambassador to Yugoslavia, is recommending that the U.S. adopt a "hands off" policy in Communist Albania's bitter quarrel with the Soviet Union.

He favors staying completely out of the Communist camp's explosive feud on the ground that a U.S. diplomatic fishing expedition into the troubled Albanian waters would greatly damage U.S. relations with Communist Yugoslavia.

Kennan describes these relations as "good," despite the growing number of anti-Yugoslavia incidents in this country since it became known that the U.S. was still selling jet planes to Communist dictator Tito's armed forces.

However, the controversial expert on Communist machinations warns that Tito will not tolerate any attempt by the U.S., or any other Western nation, to use the Kremlin - Tirana break as an opening to pry Albania from the Communist orbit.

That's the sensational report Ambassador Kennan gave when he testified before the Senate Foreign Relations Committee last week. Briefing the senators in private on "U.S. - Yugoslavia relations," Kennan forecast "the coming Balkan intrigue, saying:

"Tito is trying his best to knock off the Hoxha regime in Albania by using covert operations within the Communist party there. If these internal subversion efforts fail, he will resort to overt military action in the spring."

It is Kennan's estimate that Tito's military advisers, after first considering a lightning attack, ruled out an across-the-border invasion until spring because adverse weather conditions make it impossible for their U.S.-equipped armies to launch a successful "blitzkrieg."

"Despite his determination to 'liberate' Albania from its stinking, Stalinist, pro-Red China dictator (Enver) Hoxha," said Kennan, "Tito is not going to risk his image as a growing independent Communist power by getting bogged down in the mud."

THE KREMLIN RIDDLE — In answering the senators' questions, Kennan estimated that "something going on in the Kremlin" which Secretary of State Dean Rusk spoke about may involve a Communist leaders'

According to Kennan, Khrushchev sprung his surprise attack against the anti-party elements at the Communist Party Congress in Moscow last fall in a major effort to defeat the Stalinists. His barrage obviously was inserted as a surprise move.

Kennan said he believes that Khrushchev was relying on the eminence of his own position — and the tradition that no one seriously criticizes what the leader proposes — to obtain a strong vote against the opposition.

Khrushchev got his vote of support but hasn't been able, since then, to exploit his victory. He still is encountering resistance, but no Soviet official in the Stalinist group has enough power or prestige to replace Khrushchev.

As to precisely what the outcomes will be, Kennan said that neither he nor any other competent Soviet expert in the Kennedy Administration has been able to predict.

Your Pocketbook

Many Helps Are Available To Those Starting Business By FAYE HENLE

Q—My husband and I have just started a mail order business and are anxious to obtain the best source of information in this connection. Where can we get it? —C. D. B.

A—Dear C. D. B.: When going into business for yourself first check with your state and city departments of commerce.

Ask to see their directories of trade associations to see whether there is one serving your business.

Dun & Bradstreet, 99 Church St., New York, N.Y., have a series of booklets on small business. Inquire whether they have any that would be of interest to you.

Check, too, the field office of the Small Business Administration to see whether they can be of help either on financing or in helping you establish a market for your product or service. They act as consultants to many small businesses and can spare you much loss if they feel the venture is unsound.

Q—How does one know that a savings and loan association is insured? And what does it mean that people are trading in savings and loan company stocks?—I.H.S.

A—Dear I. H. S.: You can be certain that a savings and loan company is insured up to the \$10,000 limit if they display the FSLIC (Federal Savings and Loan Insurance Corp.) emblem.

When you hear of trading in savings and loan company shares, this means that the public is buying or selling the shares of savings and loan holding companies — companies that control savings and loan associations.

You can buy and sell these securities just as you would those of a manufacturing company, a utility or a railroad.

Q—My husband is worried. If something should happen to him he suggests I sell the house, valued at around \$20,000, and take out an annuity that will pay me so much every month for as long as I live. Do you agree? Or, have you a better suggestion?—H. B.

A—Dear H. B.: First, make sure your husband writes a will or the house may not be yours to sell.

Second, do you have any other assets — life and health insurance, Social Security, pension fund money?

If you do, you will not be wholly dependent upon the income of the \$20,000. Usually you can expect 4 per cent return from an annuity. This would be around \$86 a month but your capital would not be growing if it were invested this way.

If you bought shares of a closed end investment company paying around a 5 per cent return including a capital gain, you could up your monthly income to around \$83 and your capital might grow some, too. You would get professional management of your money plus diversification.

Say this had \$20,750, you could invest in good quality common stocks and the chances are your capital might grow faster. With this amount you could buy around 120 shares of General Motors, around 50 shares of T&T, around 140 shares of Standard Oil of New Jersey, get a monthly income of \$62.

No one can say that even the best common stocks and investment trusts won't decline in value, but no one is promising that the buying power of your dollar won't shrink, either. If you have other assets, it might pay you to invest conservatively.

Edson In Washington

Private Money To Enter Field Of Student Loans

By PETER EDSON

WASHINGTON (NEA) — A private enterprise effort to compete with and perhaps reduce the need for any federal government financial aid for college and university students is now being organized by United Student Aid Funds of New York.

It is a nonprofit corporation designed to endorse personal loans made by local banks to needy students. Its appeal will be to the self-reliant student who does not want to be beholden to the federal government for a tax-supported scholarship or partially subsidized loan.

The government now offers pretty tough student aid competition for any private organization to match. U.S. Office of Education, which administers the federal student loan funds, has just announced that it has made 238,000 loans for a total of over \$130 million. This covers the period from February 1959, when the program was launched, through last June 30.

In the current college year it is expected another 150,000 students will borrow another \$80 million under the government loan program, making the totals over 380,000 students with \$210 million in loans outstanding.

These loans have been made at 1,410 colleges and universities having 88 per cent of this year's total higher education enrollment of 3.3 million in 2,000 institutions.

The private United Student Aid Fund is now operating only in Indiana, where 1,500 loans were made this year for a total of \$730,000. Additionally, Connecticut and Florida have organized under the U.S.A.F. program and plan to make their first loans during the 1962 spring term.

Kansas, Maryland, Vermont and Pennsylvania are organizing and expect to make loans beginning next fall. Twelve other states are said to be considering U.S.A.F. plans.

With Massachusetts, Maine, North Dakota, Rhode Island, Virginia and New Jersey already having introduced college student loan plans in operation on a statewide basis, about half the states will then be in a position to aid needy students without government financing.

The U.S.A.F. goal is to raise a \$40 million reserve fund from private sources. Half of this will be raised by a national drive. The other half is expected to come from colleges participating in the plan to have students borrow at local banks.

The \$40 million reserve will guarantee a credit 12.5 times as large, or \$500 million. This is nearly four times what the U.S. government now has outstanding in student loans. Income from the U.S.A.F. \$40 million is expected to pay operating costs.

As the U.S.A.F. plan is now organized, loans will be made available only to students who have completed their freshman year with good academic standing. Each student may borrow up to \$1,000 a year for three years. Repayment begins five months after graduation and is made to the lending bank.

The average loan is expected to be \$300 a year or \$1,500 for the three years. Repayment on such a loan would be \$50.87 a month for 36 months, including 6 per cent interest.

In contrast to this the present U.S. government loan plan

Edson in Washington

allows the student to borrow up to \$5,000 during the entire period of his higher education. Repayment does not begin until one year after graduation and the student is given ten years in which to pay, with interest at 3 per cent.

In the first two and a half years under this program, 12,785 students have repaid \$1.9 million on their loans at a rate five times faster than was anticipated. Additionally, 4,000 graduates have applied for partial cancellation of their loans under a provision in the law which allows 10 per cent cancellation for each year the borrower is a teacher, up to five years.

Office of Education is expected to go to Congress in 1962 to ask for supplementary funds to expand the government student loan programs and for some liberalizing amendments.

Early Printing

Wood - block printing was invented by the Chinese perhaps as early as A.D. 770. The King of Korea established a foundry for the casting of movable type about 1403 but Koreans probably learned the process from the Chinese.

Legal Publication

NOTICE OF PUBLIC HEARING The City Commission of the City of Pampa, Texas, will hold a Public Hearing on the proposed rezoning of the following described territory within the city limits of Pampa, Texas. Russia Says Russia Is Tourist Paradise

By HARRY FERGUSON
LONDON (UPI) — Know what Russia is? Russia is a paradise for tourists. Tired? Listless? Need a change of scene? Go to glorious Russia and relax.
Don't ask why, but the Iron Curtain was lifted today and tourists were invited, nay urged, to visit the Communist nations. Two full pages of the Communist London Daily Worker were devoted to feature stories and advertisements aimed at the tourist. They gave it the works with pictures of Commie bathing beauties, sunny beaches, historic monuments, hymns to Russian food and beverages served by polite, smiling waiters. You are urged to go by rail, plane or automobile — and bring your camera.
It all sounds easy and wonderful until you start reading the fine print. Suppose you are going by automobile. You are warned that:
—You have to get special vouchers for gasoline and you must realize that filling stations are not too plentiful on the steppes. Best idea, says this article, is to carry extra gas in the car trunk.
—Same thing with spare parts. You are urged to buy something called a "continental kit" which makes it possible to rebuild your car entirely in case you break

down 2,000 miles from the nearest garage.
—The author notes that if you do come across a garage or filling station, there may be some complications about language. Seems Russians speak Russian, not English, and you must devise some way to get across the message. "fill her up and check the oil and water." Then he drops the subject, leaving you on your own.
At first glance the article on Iron Curtain food makes Russia sound like a gourmet's heaven, but the fine print discloses that you will never get any cream in your tea or coffee unless you demand it. Oranges are scarce and expensive. Advice: Eat peaches.
Indian Summer
America's Indian Summer corresponds to St. Luke's Summer, or St. Martin's Summer, in England. Elsewhere on the European continent it is known by a variety of names.
Chuckles
POMONA, Calif. (UPI)—An unidentified motorist decided to take matters into his own hands Thursday when other drivers refused to let him through a line of traffic in a shopping center parking lot.
He leaped from his car and waved a pistol at the other cars while his woman companion drove through. Then he jumped into the car and drove away.
ORDERS NEEDED HELP
DAYTON, Ohio (UPI) — Postmaster Hugh T. Albright received a memo Thursday from his training superintendent:
"This training unit is in need of a dikshunary. Request that one be perchused."
Albright signed the purchase order immediately (right away.)

Heart disease disabilities among Americans costs industry at least 653,000 man-years annually.

Only Efficient Survive Modern Farming Pattern

TYLER (UPI) — Farming and ranching have become so specialized and so productive, only the most efficient can survive, Texas A&M President Earl Rudder said yesterday.
Speaking at the 12th annual East Texas Bankers Agricultural Conference at Tyler, Rudder said the trend of fewer farmers and larger farms and ranchers has almost become a revolution.
Farmers now represent only 10 to 12 per cent of the total U.S. population, he said, but are producing bumper crops at a rate never before seen by the world.
Rudder said the abundance is the result of applied technology, improved breeding, better management and ever-widening research. Those farmers who fail to keep up with the time will also fail to survive, he said.
About 300 bankers, business and farm leaders attended the conference.
DEATHS REACH 18
PINEDA DEL MAR, Spain (UPI)—Rescue workers dug eight more bodies from the rubble of a hotel here Thursday, bringing to 18 the death toll in last Tuesday's accident.
The accident occurred when a giant crane smashed into the top story of the hotel, under construction, and sent all eight stories crashing down. The search for more victims continued.
