There is more to a home loan than the prevailing rate of interest!

Most reputable home mortgage lenders will have the same interest rate, but there are other important considerations that differ widely.

SECURITY FEDERAL offers the home borrower these advantages:

• You do business on a personal basis with a local institution. We know you as an individual - not as an account number. Your loan is carried locally - not sold to an out-of-state financial firm.

2. You get an answer on your application quickly - often within 24 hours.

3. You can choose from a variety of payment plans. We help you select the one that will prove most satisfactory and economical for you over the years.

4. You enjoy convenient, money-saving pre-payment privileges.

5. You can profit from our knowledge of local property values and conditions.

Incomprehensible as it may seem, Radio Free Europe and its collection agency in this country, "Crusade for Freedom" endeavor to convince potential contributors to their coffers, that the effective way to expose and oppose communism, is to employ identified communists or fellow travelers, then have them broadcast laudatory talks on Marx, Lenin and the blessings of Marxist socialism to the people behind the Iron Curtain. Just how that will defeat communism is somewhat mysterious, but there is so much about RFE and the "Crusade" which is intended to be mysterious: as for instance the source of its in come.
