Robert Simon was first-rate as the successful doctor driven to abortion by principles. He got a suspended sentence.

John Glenn further entrenched himself Sunday night as television's male personality of the year by appearing as featured guest on ABC-TV-s enlightening one-hour news documentary, "60 Hours to the Moon," which was aimed mainly at youngsters-without being juvenile.

Glenn's dignified invitation to youth to join in the great space adventures ahead was eloquent in its simplicity, as was his reminder that failure is not shameful. The Olim Mathieson Chemical Corp. paid \$240,000 to sponsor the program and offered superb commercials\_encouraging youngsters along scientific lines.

The extraordinary tale of how 11 men planued for 30 months before executing the biggest cash robbery in American history-the Brinks Co. job in Boston in 1950 -was dramatized Sunday night on NBC-TV's "Show of the Week." Narrated tersely by Barry Sullivan without glorifying the heist, the first of the two-part story built into a real nail-biter.

The fascination came from the military-like maneuvers of the 11 in preparing for the haul of nearly \$3 million in cash and secarities: Each man was in the saferoom at least once before the robbery.

#### Long Lasting Shine For All Floors

It's a liquid floor finish with the same chemical "Acryllic" used in the new auto finishes to eliminate waxing. New Seal Gloss gives a high gloss finish and does not yellow. Ends water spotting and is slip resistant. Also resists scuffing and lasts for months. Use easy-to apply Seal Gloss on vinyl, linoleum, asphalt, terrazzo, and wood for beautiful, clear floors.

**SMOKEY REPORTS Forest Fires** down in Our forests were ripe for disas-

ter last year. The West was dry -too dry-from years of trought. Lightning lashed the ch country, setting more fires than ever recorded from that cause before.

A gloomy picture, yes, but hat was the record? In this ear of high fire hazard, with re folks than ever visiting our forests, the number of forest fires caused by people was near an alltime low.

This is a record to be proud of, ut not one to be satisfied with!

Forest fires still take too much of our natural wealth each year. We can't afford to lose our scenic heritage, our wildlife, wood, and water.

With your help, Smokey will be able to report new gains in 62. Please be extra careful, won't you, with every fire?

Remember-only YOU can REVENT FOREST FIRES!

nameless grave!"... POE

Here are 2 important reasons why new Skelly Regular keeps car engines cleaner longer, to give you more mileage, more power, and longer engine life:

FIRST: Skelly's scientific "SUBTRACTIVE" Refining Process minimizes, neutralizes, removes harmful substances common to raw petroleum. Result: an almost unbelievably pure Skelly Gasoline.

SECOND: Skelly's detergent-action ADDITIVE called KT-3 is then injected into Skelly Regular - NOT at the refineries, but at all Skelly distribution points. Here's what these two important steps mean to you:

EVERY CAR OWNER KNOWS that raw petroleum, as it comes out of the ground, contains many sticky, scratchy and corrosive substances that are harmful to moving metal parts.

Even in tiny quantities, these substances can build damaging deposits on pistons, rings, cylinder walls and valves in modern high-speed engines. In carburetors, they can cause delicate parts to stick, upsetting the scientifically correct fuel air mixture your engine needs to run efficiently. Skelly solves this problem in two

vital ways that are important to every car owner:

First, We Subtract . . . At the refinery-to bring you the cleanest, purest gasoline you can buy-Skelly removes, reduces, and minimizes unwanted substances through its advanced "subtractive" refining process. Then, We Add . . .

At all Skelly distribution centersto clean up old deposits in your carburetor and engine, and to keep new deposits from forming - Skelly adds detergent-action KT-3. And KT-3 does not, because it cannot, build excessive deposits of its own, In tests in our laboratories, against nearly 40 leading gasoline additives, Skelly KT-3 cleaned 30% better in carburetors; 20% better in valve areas; 19% better in intake systems, and 12% better in combustion chambers. Based on these tests, we say that Skelly Regular Gasoline with KT-3 can give you - beyond doubt - the finest engine performance on regular gasoline that your car has ever known. And you can get all the benefits of KT-3 just by driving.

You Pay No More For KT-3 With the first few tankfuls of new

Skelly Regular, you notice that your engine starts faster, runs smoother and has new pick-up and power. Mileage goes up. Needless repair bills and tuneups due to harmful gum and carbon deposits become a thing of the past.

Are You The One Car Owner In 4? In the last year, statistics show that 25% of all car owners switched gasolines. If you're unhappy with the regular gasoline you're now using, make new Skelly Regular Gasoline with KT-3 your choice when you switch.

Keep Your Engine Clean... Clean ... Skelly-Clean ... With

Why Take Less KT-3 Cleans 12% Better When You Pay No More For KT-3? In Combustion Chambers Remember, no matter who says what about other gaso, lines, this fact remains: Because Skelly Regular with KT-3 out-cleans other gasolines, it is now the best regular gasoline in this area, regardless of price.

Actual Laboratory Records Prove Detergent-Action KT-3 Out-Cleans

The Average Of Nearly 40 Leading Additives Tested:

KT-3 Cleans 30% Better

In Carburetors

KT-3

Cleans 20% Better

SKELLY MILEAGE METER

#### MAGNA CARTA

In the year 1215 King John of England before Archbishop Langton and twenty-five Feudal Barons caused his Great Seal to be affixed to a charter of law and liberties: Magna Carta.

-and an oppressed people received: "The right of every man to be ... secure ... of what the law promised."

Our colonists brought its principles to America and many are embodied in our Constitution: Right of trial by jury, protection against illegal imprisonment, guarantee that no person can be deprived of life, liberty or property without due process of law.

Law is the golden thread which binds our free socie-

ty together. Equal justice under law is an American tradition. Today, seven and a half centuries after Magna Carta, preserving human freedom and justice under the rule of law is the great challenge of our time.

On May 1, 1962, the American people will observe Law Day USA, by Act of the Congress of the United States and official proclamation of the President. It is a day set aside for rededication to the rule of law and for "the cultivation of that respect for law which is so vital to the democratic way of life." We urge all citizens of this community to join in supporting these worthy objectives.

This message is published as a public service in recognition of the nationwide observance of Law Day USA on May 1.
