

TESTIFIES SHE PAID \$10,000 TO DILLION—Mrs. Louis Little New York Campaign (right) testifies that she paid \$10,000 to Paul Dillon, one-time campaign manager for President Truman, "to help my husband get a parole."

Korea Future Is Taken Up By U. N. Group

Little Assembly Gets Its First Major Problem

LAKE SUCCESS, Feb. 19. (AP)—The knotty problem of Korea's political future was handed to the United Nations little assembly today.

It was the first major test for the year-around body created at the suggestion of Secretary of State George C. Marshall. Designed as an organ of the full 57 nations, the little assembly has been operating without Russia and five of her satellites. The Soviet boycott was expected to continue, even though Russia is concerned directly in Korea.

The assembly meets at 10 a. m. C.S.T.

K.P.S. Menon of India, chairman of a U. N. commission sent to Korea, drafted a one-hour speech outlining the situation there. He noted that the Soviet Union, which occupied northern Korea, has refused to cooperate with the commission or to permit Korean elections as directed by the general assembly.

A high American official announced in Seoul Monday that the Russians had set up a puppet government in the north.

Menon presents these alternatives from the commission:

1. The commission could go ahead and hold elections in southern Korea, occupied by the United States, and set up a government for all of Korea in the South. Two-thirds of the Koreans live in the southern zone.

2. The commission could hold south Korean elections for the purpose of constituting a provisional government for that zone alone.

3. The commission could explore other possibilities for a union of the north and south.

Menon reported that the commission had not agreed on a specific recommendation and was seeking instructions from the little assembly.

Rancher Dies After Illness

John Churchill, long time farmer and rancher of this vicinity died at his home on the Gall Road Wednesday at 10 p. m. following an extended illness.

Churchill was a native Texan, having been born 64 years ago in Cleburne.

Funeral services will be held at 2 p. m. Friday at the Eberly chapel with the Rev. J. S. Parks, pastor of the East Fourth Baptist church, officiating.

Interment will be in the local cemetery.

Survivors include his wife and one daughter, Mrs. Dorothy Barton of Rotan, one step-son, Jeff D. Cross of Big Spring, and two step-daughters, Mrs. M. Mozelle Fletcher of Fort Worth and Mrs. Evie Schmid of Midland.

Funeral Is Set For Robert Cobb

Rites will be said at the Eberly chapel at 4 p. m. Friday for Robert V. Cobb, 46, who died suddenly after suffering an heart attack at his home at 1902 Scurry on Tuesday evening.

B. R. Howze, Primitive Baptist elder, will officiate. Following services, the body will be shipped to Wimbomb for burial.

Cobb, who had been a carpenter here for 23 years, leaves his wife and three sons, Leo Cobb, Vernal, Utah, R. V. Cobb, Jr., Big Spring, and Sid Cobb, Phoenix, Ariz.

Louisiana Tax Probe Is Blocked In House

Primary May Be Held Before Move

WASHINGTON, Feb. 19. (AP)—A move for a congressional investigation of income tax returns of some leading Louisiana politicians today was blocked until at least early next week.

That means an investigation and report is almost impossible before the Louisiana gubernatorial primary on Tuesday. Two candidates for governor are among the individuals it is proposed to investigate.

The developments came in this order:

First, the House Rules committee approved a resolution calling for the investigation.

This sent the resolution to the House floor.

When the House met, Republican leader Halleck of Indiana told it there could be no vote today.

The delay, Halleck explained, was caused by several factors: the death of Rep. Robison (R-Ky.) and insistence of Rep. Herbert (D-La.) opponent of the investigation, that there be a roll-call vote on the resolution.

Since the House is under a "gentlemen's agreement" that there will be no controversial legislation taken up before next week, Halleck said the tax investigation could not be considered today.

The rules committee's action came after a spirited session during which charges of "stool pigeon" and "informers" flew hot and fast.

The investigation would be made by a special seven-man committee under terms of the resolution.

It was requested by Reps. Dirksen (R-Ill.) and Domengaux (D-La.). Domengaux has charged that Earl K. Long, a candidate for governor in next Tuesday's Democratic run-off primary, was involved in an income tax fraud case.

Long is a brother of the late Huey P. Long, former Louisiana governor and senator.

Domengaux is supporting Sam Jones in next week's election.

CREDITED WITH SAVING MAN'S SIGHT—Eight-year-old Roy Lee Grindrod (center) perched on his father's knee to drive the family automobile 12 miles to take three men, burned in an explosion, to a hospital. Doctors credited prompt treatment with saving the men's eyesight.

With the youth are his father, Lois Grindrod (right) and Paul Chesley (left) in Burley, Idaho. (AP Wirephoto).

Demos Distressed By Third Party

WASHINGTON, Feb. 19. (AP)—The Democratic national committee raised an out and out distress signal today in the face of the Henry A. Wallace third party drive.

Chairman J. Howard McGrath said he hopes Wallace will "realize" that he can accomplish nothing but "the defeat of the Democratic party's program of political liberalism in 1948."

McGrath virtually appealed for abandonment of the Wallace campaign in a radio speech last night.

The address followed McGrath's frank admission that the victory of a Wallace-backed candidate in Tuesday's New York congressional election is a big danger sign for the Democrats.

In the New York race, Leo Isaacson, running as an American labor party candidate with Wallace's support, upset Democrat Karl Propper by a wide margin.

Wallace, on a speech-making tour of the South, gave no indication that he plans to heed any call to "come home, all is forgiven."

Instead he announced at Miami Beach that his supporters have obtained 464,000 signatures on a petition to put his name on the primary election ballot in California.

Meanwhile the row between national Democratic leaders and party members in the "Solid South" flared up again in Washington.

A group of southerners canceled their reservations for the big \$100-a-plate Jefferson-Jackson dinners tonight where prominent Democrats will rally around President Truman.

Solons Ignore China Aid Plea

WASHINGTON, Feb. 19. (AP)—President Truman's plan to give China a \$570,000,000 economic shot in the arm raised a cry of too little and too late in Congress today.

Senator Bridges (R-NH) said the civil strife in China has passed the point where "mere economic help" will be enough.

Bridges is chairman of the Senate Appropriations committee which will have a big say over how much money China is to get and how it is to be spent.

The House foreign affairs committee announced that it will start hearings on the subject tomorrow. The committee is still working on European recovery legislation, but plans to start writing a foreign aid bill, or bills, by March 2.

The Senate Foreign Relations committee has just finished work on a \$5,300,000,000 Marshall Plan measure for Europe. But there was no immediate word when it will take up the China matter.

Gives Away Bride

SAN ANTONIO, Feb. 19. (AP)—Major Gen. Lewis B. Hershey, director of the office of selective service records, was to give away his secretary as the bride of a Navy officer at the Fort Sam Houston chapel today.

Quake Recorded

WESTON, Mass., Feb. 19. (AP)—A strong earthquake yesterday in the arctic ocean north of Russia was recorded at the Boston College seismograph station here, the Rev. Daniel Linehan, S. J., reported today.

ELMO WASSON

Elmo Wasson Is Named As C-C President

President of the Big Spring chamber of commerce for 1948 will be Elmo Wasson, long-time resident of the city and for 20 years operator of the men's clothing store which bears his name.

Wasson was elected Thursday morning at a special meeting of the C. of C. directors. He will assume office at the organization's annual banquet meeting Feb. 27, succeeding K. H. McGibbon.

Named as vice president and treasurer was Ira Thurman. The board also unanimously voted another year's term of the management to J. H. Greene.

4-H's Will Start Final Shows Swing

Howard County 4-H club members will start their final swing on the 1948 livestock showing circuit Sunday when they embark upon a junket which is due to take them to five West Texas cities in rapid-fire order.

The annual show in El Paso, which opens Monday, is the first stop on the schedule, and Howard will exhibit three beef steers there.

Other shows which will draw local entries include Amarillo, San Angelo, Abilene and Odessa.

Club members have 11 steers and nine lambs at show in various events. Marilyn Guitlar, Wayne White and James Fryar will show steers in El Paso.

Other club members who have steers to exhibit at other shows include Martin Fryar, Reppy Guitlar, David Newton, Lowie Rice, Jerry Rogers, Lloyd Robinson.

Steers to be shown at El Paso by Marilyn Guitlar and Wayne White placed second in their respective classes at Fort Worth, while James Fryar's entry placed third in its class.

Stock Expected For Auction

Animals consigned to the Howaro County Hereford Breeders fourth annual sale, scheduled for Saturday afternoon, were expected to begin arriving this afternoon at the warehouse area of the former Big Spring Army Air Field.

Members of the association this morning were completing last-minute preparations for the auction, which will be held in a warehouse building purchased by the breeders recently from the city.

Registered breeding Herefords will be judged for ribbons at a formal showing at 9 a. m. Saturday and the auction sale will begin at 1 p. m. John C. Burns of Fort Worth will judge the show, and Col. Walter Britten of College Station will be auctioneer at the sale.

Explosion Rocks Hudson Waterfront

BAYONNE, N. J., Feb. 19. (AP)—An explosion rocked the Hudson river waterfront shortly after 9 a. m. C.S.T. today, and police said a fire had broken out in the Tidewater Oil company plant here.

There were no immediate reports of any casualties.

Two alarms were sounded. Both company and city fire departments were fighting the blaze.

Stock Show Opens

KERRVILLE, Feb. 19. (AP)—With 1000 animals on exhibit, entered by 275 boys and competing for \$1750 in premiums, the fourth annual Hill Country Boys Livestock show opened here today. The three-day event is described as the largest district livestock show for boys in the state.

Treaty Announced

MOSCOW, Feb. 19. (AP)—Russia has forged the last link in a chain of treaties intended as a barrier against the "imperialist states," Foreign Minister V. M. Molotov announced last night.

'WHITEWASH' QUESTIONED Vote Fraud Case May Be Revived

WASHINGTON, Feb. 19. (AP)—A Senate investigation of Democratic vote fraud charges in President Truman's own Missouri stamping grounds showed new signs of life today.

The charges arose in connection with a primary in the Fifth Missouri Congressional District in 1946.

These were the developments today:

1. A Judiciary subcommittee prepared to question the FBI man who handled the case. He now is a Federal Judgeship nominee.

2. Senator Kem predicted that a new investigating committee will take a look at how the justice department dealt with alleged voting irregularities in Kansas City precincts. Kem claims the department "whitewashed" the case.

A grand jury indicted 72 persons, but 66 were freed last Jan. 28 after ballots held for evidence were stolen. The remaining six are awaiting trial.

The fifth is not President Truman's own congressional district, but he took a hand in the 1946 campaign. He endorsed Enos Axtell for the nomination over Rep. Robert Slaughter. Axtell defeated Slaughter but lost the election to Republican Albert L. Reeves, Jr.

Commodities Show Slight Price Gain

NEW YORK, Feb. 19. (AP)—Most commodity prices advanced slightly today.

Oats pushed ahead fractions of a cent generally at the opening of the Chicago grain pits. Corn was half a cent below previous quotations to 1 3/4 cents above. Wheat ran from 3/4 of a cent lower to 1 1/4 cents higher.

Lard was less than a cent ahead. Hides and cottonseed oil were down.

The hog market at Chicago opened with prices ranging from 5 cents a bale lower to 20 cents higher but within a matter of minutes a fair amount of mill buying pulled the range up to 40 to 80 cents a bale above yesterday's close.

The housewife was faced with conflicting price trends at the grocery store.

New York chains increased butter prices five cents a pound to 89 cents. But a Chicago chain cut its retail tags 6 cents to \$3.

Two chains at New York reduced some meats and poultry.

A business bulletin survey indicated the typical New York City housewife is able now to feed a family of five at a weekly cost of \$31.15 against \$35 a month ago.

Uncertainty and caution appeared to dominate consumers, storekeepers and traders.

The nation's markets reflected this yesterday. The commodity exchanges were nervous. Only 610,000 shares were traded on the New York stock exchange in the quietest session since last September.

The department of agriculture said the supply of livestock on farms on Jan 1 was the lowest since 1939.

City May Hold Clean-Up Drive

Plans for encouraging healthful conditions in Big Spring during the summer months already are under consideration and a clean-up campaign with follow-up sprayings with DDT probably will be arranged. City Manager H. W. Whitney reported this morning.

The clean-up campaign probably will be scheduled during April. City officials plan to consult the chamber of commerce civic and beautification department and prepare joint plans for the event.

Whitney already is checking estimated requirements of DDT for use in the fog spraying machine obtained last year, and early arrangements will be made to insure an adequate supply of the insecticide.

Teachers To Meet

Regular meeting of the Howard County Teachers association is set for 7:30 p. m. today at the Howard County Junior College. G. D. Kennedy, Forsan, head of the association, said that delegates to the West Texas district meeting of the Texas State Teachers association would be named at the session today.

RICH HAVE RIGHTS Idea Of Ending 'Luxury' Rent Curbs Hit By Senator

WASHINGTON, Feb. 19. (AP)—Senator Ives (R-NY) said today he dislikes the idea of ending rent controls for those paying \$225 or more a month.

A bill approved by the Senate Banking committee would abandon ceilings on so-called "luxury" houses and apartments.

The Senate is scheduled to debate the bill tomorrow. It would extend rent controls generally for 14 months beyond February 29, but permit some increases.

Ives told a reporter he is "greatly concerned" about the \$225 provision.

"It's true that most places rent-

ing for \$225 or more a month are occupied by tenants earning \$12,000 to \$20,000 a year," Ives said. "But I am afraid that if rent controls were ended on those places, landlords might jump the rent to \$500 or so a month."

"This is not a case of considering the interests of the wealthy," Ives said, adding:

"High rent tenants are just as much entitled to protection as those in the lower income brackets. They certainly could not afford to pay \$6,000 a year in rent on a \$12,000 salary."

"With the housing shortage what it is, they would have no place to

go. They would be out in the street the same as anybody else."

Ives said he also may try to strike out a provision which would end rent control on rooms in private homes. He said that would create hardship for thousands of college students.

On other dwellings, the committee bill would permit rent increases up to 15 percent in cases where tenant and landlord agreed on a lease running through 1949.

In contrast to the 14-month extension measure coming up in the Senate, the House has a bill calling for a one-month, stopgap continuance of the present law without change.

Dozen Of 16 Prep Leagues Already Have Cage Champs

Champions in Texas' Class AA high school basketball race eyed playoff competition today. Twelve of the 16 districts already have titlists and the other four will be decided before the week ends.

Big Spring, San Angelo, Odessa and Abilene meet in a single elimination tournament tomorrow at Abilene to pick a winner in Dist. 3-AA.

Austin of El Paso can clinch the crown in 4-AA tonight by beating Bowie (El Paso). A defeat, plus a victory by El Paso over Ysleta, will throw the district into a three-way deadlock.

Milby and Sam Houston tonight open play to determine the victor in Houston's Dist. 13-AA.

A playoff will probably have to settle Dist. 14-AA. Robert E. Lee of Baytown and Beaumont are tied for the top spot.

Two bi-district series open tomorrow and three are scheduled to start Tuesday. The remaining three must begin sometime next week.

These series will determine the eight teams to participate in the state championship tournament at Austin the first week in March.

Denton (6-AA) and Bonham (5-AA) start their three-game series in Commerce tomorrow. The second game will be played Tuesday in Dallas and if a third is needed, in Commerce.

Thomas Jefferson (San Antonio) and Harlingen (16-AA) open bi-district play tomorrow in Harlingen. The second game will be played at San Antonio Tuesday. The third game will be in San Antonio Wednesday, if it is necessary.

Temple (10-AA) and Brownwood (9-AA) open at Temple Tuesday, with the second game at Brownwood Feb. 27. The third game will also be in Brownwood.

Amarillo (1-AA) and Graham (2-AA) play first at Graham Tuesday, then switch to Amarillo Feb. 27. Childress will be the site of the third game if it is needed on Feb. 28.

The Polytechnic Parrots of Fort Worth cinched the 7-AA title yesterday by defeating Arlington Heights (Fort Worth), 45-35. They meet Crozier Tech, 8-AA champion, in Fort Worth Tuesday, then move to Dallas for the second game.

Should the El Paso district finish in a three-way tie between Austin, Bowie and El Paso, a one-day tournament to decide a champion will be held Saturday.

First games in the Dist. 3-AA tournament will be played in the afternoon with the championship tilt tomorrow night.

Champions by districts are:

1. Amarillo
2. Graham
3. (Tournament decides champion Friday)
4. (Undecided. Austin could win tonight)
5. Bonham
6. Denton
7. Polytechnic
8. Crozier Tech
9. Brownwood
10. Temple
11. Texarkana
12. Lufkin
13. Milby-Sam Houston playing series for title. Opens tonight.
14. Robert E. Lee-Beaumont tied for top spot.
15. Thomas Jefferson (San Antonio)
16. Harlingen

Two More State Officials Take Their Place At Starting Post

AUSTIN, Feb. 19 (UP)—Two more state officials had taken their places at the starting post today for next summer's political race.

Railroad commissioner William J. (Bill) Murray Jr., of Houston and state superintendent of public instruction L. A. Woods announced their candidacies yesterday.

Both will seek return to their present posts.

Murray, 33, took office last January by appointment on Beauford H. Jester as his successor when he resigned to become governor. Murray seeks election to the unexpired two years of the six-year term Jester began in 1944.

Claiming to know nothing about politics, the young graduate petroleum engineer said he was going to make the race at the insistence of friends.

He promised continued determination to do whatever he could to further oil and gas conservation and to give study to proper controls over transportation industries "for the welfare of both the public and the operators."

Woods, who has held the state superintendency continuously since 1933, said he would base his candidacy on past accomplishments and future plans.

He cited seven specific accomplishments during his tenure:

1. Increase in per capita apportionment from \$16 to \$55.
2. \$2,000 minimum teacher salary law passed.
3. Increase in rural aid from \$2,500,000 to \$18,000,000.

4. Texas' rank raised to 15 among states in financial support of schools.

5. Teaching standards improved until all accredited schools are demanding teachers with recognized college degrees.

6. Number of school districts operating schools have been cut in half.

7. Ninety per cent of the children of the state now have available an accredited school.

HUNTSVILLE, Feb. 19 (UP)—Dr. William B. Veazey, city health officer, announced no steps had been taken to close schools because of three cases of spinal meningitis reported here within a few days.

Dr. Veazey said the disease was not in epidemic stage.

Just before it sheds its skin, a snake is partially blind.

Texas Negro May Be Top Sprinter

BRYAN, Feb. 19 (UP)—Ask Erich Pohl, head man of AAU track and field in Texas, his best prospect for the Olympics.

No, it won't be Charley Parker, Perry Samuels or Jerry Thompson of the University of Texas; it won't be Bill Martineson, who flashed for Baylor last year.

He just says, "Wendell Davis is the boy."

Wendell Davis? The name isn't familiar to most track fans in Texas but in Negro athletic circles he has won fame as a sprinter. He's a national champion in two events and state champion in the 100 and 220-yard dashes and in the javelin throw.

The 17-year-old, 170-pound Davis is at Kemp high school for Negroes here. He plays football and basketball while not blazing down the cinder path.

Davis broke both the 100 and 220-yard dash records in the 1947 national Negro high school meet in St. Louis, doing the century in 9.5 seconds and the furlong in 21.7. In the 1946 state meet he ran 220 yards in 21.1.

This will be his third cinder path season and he has lost only three races—finishing second in the 100 and 220 in the 1946 National meet and second in the 100 in the 1946 State meet.

His coach, C. L. Scurry, first realized he had a champion runner when Davis did 9.9 in a district meet as a sophomore. But Scurry could scarcely believe it when the boy ran a 9.6 hundred in practice last spring.

"He is easy to handle," says Scurry, telling how Davis read all the track information he could get following his start in track in 1946. "I started out in 1947 working on his stride and his starts. The great trouble in 1946 was that he ran with his muscles too tight. Last year he began to run more relaxed and to improve his starts. He has a little body, lean, and brings his knees up so as to bring his thighs parallel with the ground."

Davis will run in the Texas AAU at San Antonio June 25 and Pohl believes he will be this state's representative in the sprints at the National AAU in Milwaukee in July 3-4. He also will again go to St. Louis for the Negro Nationals.

"The boy has done 9.5 several times," says Pohl. "He's another Jesse Owens."

Drawn window shades are a form of insulation against cold and heat.

BEAVER BLIZZARD—Robert O. Reynolds, suffering from exposure and frost bite following a harrowing 24-hour experience in the recent Panhandle blizzard, is shown in a Dumas hospital. Reynolds, with his three children and mother-in-law, was enroute to his home near Stratford when the car stalled in a snow drift. Reynolds spent the next 24 hours in the stalled car and in wandering over the country seeking aid for his family, left in the car. He found the home of Fred Wohlford who drove his tractor to the stalled car. Two of the children and their grandmother died from the experience. Wohlford suffered frost bite and from exposure as a result of his rescue efforts. (AP Photo).

BRITISH MEDICOS MAY CALL STRIKE

LONDON, Feb. 19 (AP)—A British health ministry official said today the labor government's program of socialized medicine will go into effect July 5 in spite of overwhelming disapproval by

doctors. A doctors' strike against the plan was believed almost certain.

Before World War II, consumers' purchases in the United States averaged between two and three times the combined amounts spent for private construction, capital equipment and government goods

Chile Establishes Antarctic Bases

More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. **PASTETECH** is improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No rubbing, smart, nasty taste or "ringing" it's alkaline (non-acid). Does not sour cheeks "plate odor" denture breath. Get **PASTETECH** today at any drug store.

SANTIAGO, Chile, Feb. 19 (AP)—Chilean President Gabriel Gonzalez Videla headed home today after formally setting up two military bases in disputed antarctic territory—which he called a "land of tomorrow."

The bases were established at Chilean weather stations in defiance of long-time British claims, recently reiterated.

Gonzalez inaugurated the first on Tuesday at the weather station at Port Sovereignty on Greenwich island in the South Shetlands, some 500 miles south of the southern tip of South America.

He dedicated the second yesterday at another weather station, 60 miles to the south, on a peninsula of the antarctic continent known to Chile as O'Higgins land and to Great Britain as Graham Land. Bernardo O'Higgins was the first chief of state of independent Chile.

Dispatches to this Chilean capital told of the ceremony. The president said his presence was "one more confirmation of Chile's sovereignty over the extreme south of its national soil." He called the land below South America Chile's by right of "history, geography and law." He said she claimed it by crown, nearness and occupation. Gonzalez, whose speech was made public here, ended up by toasting "this land of tomorrow."

Meat Expert Predicts More High Prices

DALLAS, Feb. 19 (AP)—You'll be able to buy meat this spring and summer, but not cheap.

Wilbur Laroe, general counsel for the National Independent Meat Packers association, made the prediction.

"There is perhaps 200,000,000 pounds of meat in warehouses and private lockers," he said. "It may be able to offset the usual seasonal decline."

And while he doesn't expect any more meat shortage, Laroe said he couldn't see lower prices as long as the Federal government supports the price of corn at \$2.07 a bushel.

"With that \$2.07 support price, a farmer can't sell his hogs for much less than 20 cents a pound without losing money. If he has to take less than that for hogs, he'll sell his corn rather than use it for feeding."

Laroe attended the one-day meeting of the southwestern division of the association yesterday.

Popular prints in lovely new spring florals for dresses and skirts. 39".
3 for 1.88

Today Roll-on Girdles
Many worth twice the price! Panty and step-in styles. Come in. Sizes S-M-L.
1.88

35c Curtain Material
Sheer weaves... soft, rich sheen. Plain, dotted and figured. 39-42" wide. Buy now!
3 for 88c

***39c Rayon Hose**
Clean, even textured rayons with reinforced heels and toes. Seamless.
3 for 88c

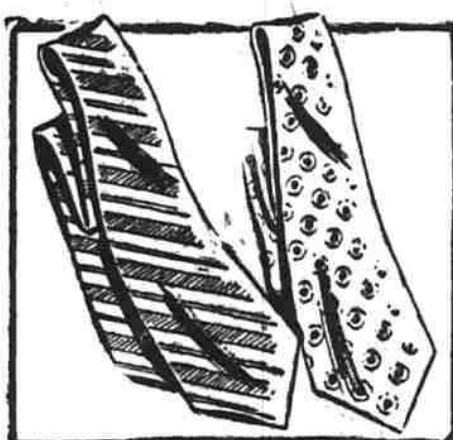

Reg. 25c Cotton Anklets
Sturdy mercerized cotton snug fitting cuffs. Bright colors for spring. Sizes 8 1/2 to 10 1/2.
4 for 88c

59c Pinnacle Prints
Smooth cotton in a grand asst. of new spring prints. For dresses and house-coats.
2 for 88c

1.19 Children's Polo Shirts
Knitted of fine combed cotton. Brilliant stripes in bright colors. Long wearing. Sizes 8 - 16.
88c

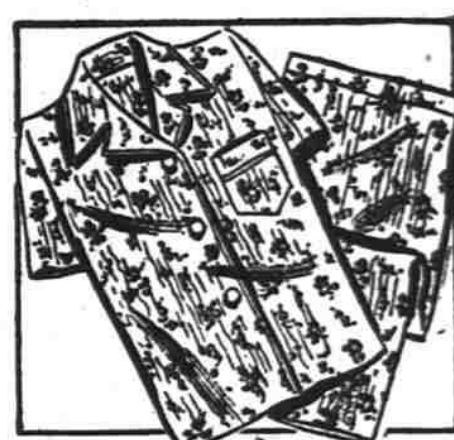

35-PC. DINNER SET REDUCED FROM 10.50 8.88
Ivory-white semi-porcelain, with a charming colorful center spray, and red line trim! 6 each of dinner, bread-and-butter plates, cups, saucers, soup and sauce dishes; 1 each platter, vegetable bowl, covered sugar and creamer. Hurry! ... save!

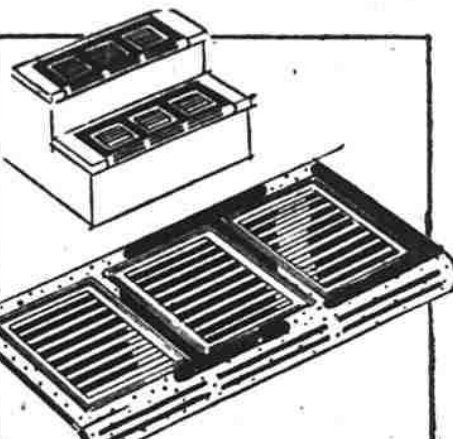

NEW COLLECTION OF COLORFUL NECKWEAR 88c
Smart, perfectly knotting rayon ties! A wide choice of patterns and colors.

CANNON 18"x38" PLAID BATH TOWEL 88c
Blue, green, maize and rose blocks on an absorbent, firm white ground.

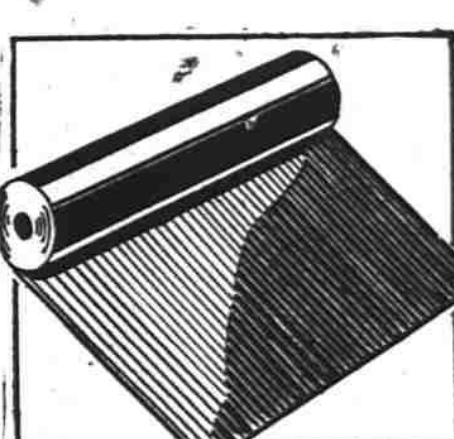

GIRLS' COTTON CREPE PAJAMA Reg. 1.79 88c
Print pajamas in butcher boy and tailored styles. Needs no ironing. 8 to 16.

COMPOSITION RUBBER SAFETY STAIR TREAD 88c
Prevent slipping! Molded front protects stair edge. Washable! 9"x18" size.

"JOE GORDON" BASEBALL GLOVE 3.88
Full-size glove. Cowhide leather, welted seams, full leather lined. Felt pad.

SAVE AT WARDS! 36" ASPHALT MATTING 88c
Looks, feels like rubber. Wears year! Ribbing stops slipping. Washable!

\$1.03 Flat Wall Paint 88c
Beautifies your rooms for spring. Hard and long lasting. Dries quickly. Save!

Reg. \$1.00 Hose Nozzle 88c
Solid Brass. Rustproof. Adjustable spray, won't drip or back spray.

4-Blade Camp Knife 88c
A knife that any man or boy will be proud to own. Finest, toughest steel. Sale priced now!

Reg. 45c Spark Plugs 5 for 1.88
Riverside... engineered to give positive ignition. Has large electrodes for longer life.

Seal Beam Replacements 88c
Fits all cars and trucks equipped with sealed beams. Won't tarnish or dim.

Sale! Delux Grill Guard 88c
Rugged chrome plated pressed steel. Protects radiator and grill. 16 1/4" long.

FALLING HORSE — Ben Johnson, cowboy film actor from Pawhuska, Okla., demonstrates how to throw a horse. Left: They are ready to go. Center: Up and almost over. Right: Johnson pulls his left foot from the stirrup as fall starts.

GOVERNOR — Gov. Fielding L. Wright asked the "Mississippi" legislature to give him a permanent state police to replace the temporary secret force created last Nov. to combat strike violence. He was inaugurated for 4-year term Jan. 20.

SKI-PLANING ON LAKE — Students of Middlebury College, Vt., go skiing towed by plane on Lake Champlain. Top: Coach Joe Jones of Rutland, Vt., ties a 100-foot tow rope to plane piloted by a college club member. With him are (left to right): Lynn Meacham, Boston; Jack Valentine, Chelmsford, Mass.; Gretchen Storer, Denver. Below: Valentine goes for spin behind plane.

PRETTY — Janis Paige of the films wears a Normandy wedding gown of eggshell slipper satin with long fitted sleeves. Hairloom lace of rosepoint combined with princess lace makes the bertha collar and bridal headdress.

PLEDGES TO FIGHT VIOLENCE — Prime Minister Jawaharlal Nehru of India stands beside half-staffed flag of India and tells through his government will crush violence and organizations such as one blamed for assassination of Mohandas Gandhi.

OTTER — Joseph Labossiere holds an otter, rare specimen of the weasel family, he trapped near Norway, Me.

GOWN — Actress Barbara Bates wears pearl gray crepe afternoon gown with top of yellow and green floral print.

WELCOMED IN TEXAS — Miss Winifred Held, New York opera singer, is presented with a bouquet by cowboy Rocky Reagan, Jr., at Beville, Tex., where she appeared in a recital during a concert tour of the United States.

COUPLE OF BRUISERS — Jerry Bedark (left), 18 months, weighing 25 pounds, and Mark Prather, 15 months, weighing 30, belong to the fight stable of the Minneapolis American. Laxton Toy balloon is their punching bag.

GOLFER — Ralph Guldahl, who won the national open twice, pauses during a practice round at Miami, Fla.

HEAD MAN AT SHOW — Bronzo, St. Bernard, doesn't bat an eye as Nikki, a miniature Doberman pinscher, sits on his head during obedience trials at Chicago dog show.

DINNER GATHERING — Republicans grouped at a dinner in Washington are (left to right): Sen. C. Wayland Brooks, Illinois; Rep. Edith Nourse Rogers, Massachusetts; House Speaker Joseph W. Martin, Jr., Massachusetts; Sen. Arthur H. Vandenberg, Michigan.

LOCAL INTEREST IN HOLY LAND — Young Jews of the Montifore section of Jerusalem, which has been under Arab fire from the Old City, watch as two soldiers of the British Warwickshire Regiment check distance with a range finder.

MANEUVERS AT MALTA — Truck is unloaded from British aircraft carrier Triumph during exercises at Malta to test organization for shifting troops from the island as reinforcements to the Mediterranean area in an emergency.

'SHUTTLE ARMY'

Scientists Fighting To Keep U. S. Ahead In Atomic Race

CHICAGO, Feb. 19. (AP)—A "shuttle army" of hundreds of top-flight scientists, engineers and physicians is working to make sure this country comes up first with the latest in atomic research. Providing the guiding light in the nationwide project is the U. S. government. The main work centers are the U. S. Atomic Energy Commission's regional national laboratories and plants scattered across the country. The key equipment at these facilities is the atomic ovens or reactors. Taking part in the experiments which cover all phases of atomic research and its application to industry, medicine, plant growth and related fields are botanists, biologists, biochemists, chemists, engineers, physicians, physicists and students. Some work at the centers full time. Some are on leave of absence from universities. Many are scientists carrying on research at their own institutions but using government facilities at intervals. Two considerations dictated use of a "shuttle" method, where there is a steady stream of scientists back and forth from their own institutions to the government research laboratories. With some atomic ovens and related equipment costing about \$10,000,000, numerous individual universities or research institutions can not afford such facilities. Also, many scientists can not work full time at atomic research, but are willing to devote part time to the project. The program works this way: The various laboratories and plants conduct different kinds of atomic research. The principal work with uranium chain reactors is planned at the Argonne National Laboratory near

Chicago, which already has a uranium-graphite and a heavy water reactor in operation. A new high-flux reactor several times more powerful than the existing oven at Oak Ridge, Tenn., will be built. Similar research and production of radioisotopes for medical and industrial research is being carried on at the Clinton National Laboratory at Oak Ridge. The Brookhaven National Laboratory at Upton, N. Y., will emphasize research and production of atomic power. The main purpose of the projected Knowles Laboratory near Schenectady, N. Y. Plutonium, the man-made element used both in the atomic bomb and in one atomic oven, is being produced at Hanford, Wash. A new type chain reactor plant described as a "controlled version of the atomic bomb" is being operated at Los Alamos, N. M. The reactor uses plutonium instead of uranium, and high energy neutrons. Military application of atomic energy also is centered at Los Alamos. The Atomic Energy Commission operates its Argonne, Clinton and Brookhaven labs through contractors. A number of participating institutions, mostly universities, join in research. Strict security precautions are taken to guard against any leak of restricted information. Some of the discoveries are expected to further the country's national defense program and will be kept secret. Others, such as the production of radioisotopes, already have been made available to the world. They are expected to find many applications in medicine, industry and metallurgy. Studies are being made of the properties of elements and atomic nuclei and radiations; the effects of neutrons and radiations on the properties of materials and living organisms; of fission products and their separation, and the application of radioisotopes and tracer techniques to the study of biological processes, chemical reactions, metallurgical phenomena and industrial processes. The atomic ovens produce an abundant supply of uncharged neutrons. There is no other instrument known today that can duplicate their function.

Woman Is Shot For Obeying Curfew

DALLAS, Feb. 19. (AP)—Because she wouldn't serve beer after Texas' midnight curfew law, Mrs. Rosales Garcia was in the hospital today, a bullet wound in her head. Police Capt. Will Fritz said an irate customer fired five bullets into the cafe from outside, one striking the woman.

Weather Damage To Stock Slight

AUSTIN, Feb. 19. (AP)—Texas livestock and crop damage appears only slight in last week's cold. The department of agriculture reported yesterday that northern wheat should benefit from the snow. Freeze damage to small grains is not expected to be se-

rious. Livestock was reported to have lost flesh. Some loss of new-born lambs was reported from Edwards plateau counties. Commercial vegetables continued to move actively from most southern districts, USDA said. Early planted crops were reported not growing and the inclement weather delayed setting of additional acre-

NTS Will Have Record Enrollment

DENTON, Feb. 19. (AP)—North Texas State College will have a record enrollment for a spring semester. So far, 4,321 students have enrolled, 453 more than last spring's record number. This total includes 1,690 veterans, fourteen less than last year.

Jap Sabotage

TOKYO, Feb. 19. (AP)—The transportation ministry reported today Japan's trains were derailed 1,500 times during 1947. Most of the derailments were attributed to sabotage. The figure compared with 130 in 1940.

Rifle Meet

ARLINGTON, Feb. 19. (AP)—Rifle teams of high school ROTC units in the fourth army area will compete at North Texas Agricultural College on April 3. Entries have been received from Dallas, Fort Worth, San Antonio and El Paso.

At Anthony's BRINGS A COLOSSAL

PIECE GOODS SALES EVENT
 As You Sew So Shall You Save
Sale! 5000 yds. Printed and Plain Cottons

47c

This huge assortment includes 5,000 yards of real honest to goodness values in washable fast colored cottons... 80-square Quadriga percales, prints and solids, fine quality gold band fast colored prints, also other famous print and solid cottons. When you see this array of cottons, you will sure want to sew and save. All 36-inch widths.

Washable Rayon FRENCH CREPE
 36 in. **98c** yd.

Large selection of washable rayon French crepe. In Spring's newest colors and patterns. Brand new prints in floral, geometric, and novel modernistic designs. 39" wide. Pre-shrunk and color fast.

GILBRAE PRINTED DIMITY
 36 in. **69c** yd.

36" wide. Sanforized shrunk. Large array of new patterns ideal for little children's dresses, blouses, and etc. All colors guaranteed fast to sun and suds.

POWDER PUFF MUSLIN
 36 in. **98c** yd.

36" wide. Glorified cotton with permanent finish. Lastingly sheer, guaranteed to wash, and irons beautifully without starch. As you know powder puff muslin is one of the oldest names in fine cotton goods. Best print work that you have seen in years, many with six and eight color combinations.

Printed Piques
 36 in. **98c** yd.

36" wide in both the fine wale pique and the waffle weave pique. Printed with new spring designs. Both the conservative work and the new unusual sport patterns. All guaranteed fast colors—sanforized shrunk.

Plain Color Jersey
\$1.49 yd.

54 inch. Colors: Black, pink, blue, gold. Special Priced.

Duplex Gabardine
 54 in. **\$1.98** yd.

54" wide Fine woven gabardine in new spring shades of Rose Quartz, Spectator Blue, Spicy Beige, Grey Sage, Cookie Luggage, Black, and White.

ROMAINE AND MOSS CREPE
 45 in. **\$1.79** yd.

Solid color fine rayon Romaine crepe and Moss crepe in black, navy, brown, and other pastel and deep tone shades. All colors are guaranteed fast to tubbing. Romaine crepe 45 in. Moss crepe 42 in.

DUMARI YIPPI CLOTH
 39 in. **98c** yd.

39" wide. A fine sportswear rayon woven into a linen-like weave and dyed into the softest colors of the newest spring shades. This cloth is washable and has a tubelized tested crease resistant finish.

GILBRAE PEEK-A-BOO SHEER
 39 in. **98c** yd.

36" wide. Sanforized shrunk cotton, printed in a large group of unusual designs and patterns — guaranteed fast colors. A new cloth which you will certainly want to sew and save.

Beautiful Printed Spuns
98c yd.

Washable. The newest patterns. See this fabric. 36" wide. A wonderful assortment of Spring colors.

CHECKED TISSUE GINGHAM
 A quality all purpose fabric in colors: blue, brown, red and green. 36" wide. **98c** yd. Don't fail to see this value.

Fine Count BLEACH MUSLIN
 Anthony's famous quality muslin. Strong, durable. 36 inch width. **29c** yd.

Spun Rayon Border Prints
 Original patterns **98c** yd. in all colors....

Dotted Swiss and Peek-A-Boo Sheers
 Colors: Gold, blue, pink and white
 ... Beautiful materials at **98c** yd.

Thrifty Priced SPUN RAYONS
yd. 67c

A grand assortment of printed and plain materials... values to \$1.79.

All Rayon GABARDINE
 39 in. **\$1.29** yd.

39" wide. A fine cloth for tailored dresses and sportswear. Seven beautiful spring shades: Petal Rose, Grey, Copen, Tan, Kelly, Green, Luggage Brown, and Black. This cloth can be washed — it does not have to be sent to the cleaners. Unusual value. In a fine fabric.

 BIG SPRING, TEXAS

Censure That Has Heavenly Effect

If the Soviet trade union newspaper, *Trud*, is to be believed, official censure has an almost heavenly effect in Russia.

Trud reports that Serge Prokofieff has thanked the communist party for helping him to correct the mistakes he was making in his music. Comrade Prokofieff is quite a composer, being widely recognized. His piece on "Peter and the Wolf" is a gem. Critics have acclaimed his genius as a composer.

But here of late, the musically inclined brethren within the Soviet circle noted a few off-key trends in Comrade Prokofieff's music. Figuratively speaking, they smelled a faint musical mice, some of them bearing a faint resemblance to decadent democ-

racies or capitalism. Perhaps the composer's output was too democratic in appeal; perhaps it was too gay; perhaps it didn't work in enough bars of Soviet-approved stuff and showed the influence of some old masters frowned upon by the comintern. At any rate the communist party scolded and cried "for shame" at Comrade Prokofieff.

It is refreshing, therefore, to know that the composer has been chastened. Out of a heart of gratitude he has thanked the party for helping him to "separate the decayed tissues of musical art from the healthy tissues." Oh fluff and fluff again! Can even deluded Russians swallow such asinine tripe?

No Third Party Boom, But Demo Worry

Victory of Leo Isaacs, an American Labor Party candidate and backed by Henry A. Wallace, over the field in a New York congressional race has focused attention upon possibilities for the third party movement.

Wallace himself is exuberant, exclaiming that "This proves that the so-called third party can become the first party in 1948."

The election does nothing of the sort. It does indicate, however, that the democrats may be dealt considerable misery in New York, where the shifting of a sufficient number of ALP votes could cost them the state's electoral votes. Already many democratic leaders are considerably worried and republican leaders elated.

Even so, a little more time will be needed to determine the full effect of the special election. Whether Henry Wallace swung the election or simply rode an almost certain horse remains to be seen. His candidate was a Jew, one from a heavily Jewish district, which gave an attentive ear to Wallace's criticism of the administration's Palestine policy. Whether this means that the vote would go for Wallace for president, when many would feel it was a hopeless vote, remains to be seen.

Not all the result can be brushed aside, for the democrats normally carried the district, which has been in their stronghold for 24 years. An ALP victory certainly does the party's prestige no good, and it points to the possibility of splitting the state vote so that the GOP nominee could capture the electoral votes.

The Nation Today—James Marlow

Public Should Keep Up With Atom

WASHINGTON, D. C. — Across Washington news desks come big brown envelopes with a name in one corner: Atomic Energy commission.

Most of the time the envelopes contain in advance copy of a speech to be delivered by one of the commission's five members.

Often it is a speech by David E. Lillenthal, chairman of the commission.

A check shows that in the last 10 months Lillenthal and the other commissioners have delivered 24 speeches, 13 by Lillenthal.

They turn down a lot so they can get some work done here. They try to pick out the ones where they can do the most good for their ideas.

What ideas? Getting the American public to think about atomic energy, how it can be used for peace and what its use in war means.

If the commissioners are so anxious to inform the public about the atom, why don't they do more of it themselves?

Because, you'll be told at their office, they're members of a government agency supposed to develop atomic energy.

Congress didn't write anything into law saying the commission should spend money educating the public.

But Lillenthal seems extremely earnest in his belief that the public should be thinking about atomic energy now and be informed about it.

There seems to be a note of urgency in some of the things Lillenthal says about the need for public information on atomic energy.

For example, he said recently: "What is in the people's mind today about atomic energy is important. But what may be in their minds next year at this

time, or two or three years hence, when tensions may have increased, when steady judgment may be essential, depends upon what we do in the meantime."

Because of national security and the secrecy involved in much atomic work, Lillenthal can't say all he knows nor all he thinks.

But he has said: "I believe it to be a fact: The only solid hope for preventing the use of atomic energy for destruction on a scale that has not yet been disclosed is for peoples everywhere to come to understand the atomic world; and to understand thereby the opportunities that lie before us to put this knowledge to uses beneficent and human."

Told another way, Lillenthal seemed to be saying: If people everywhere know how really destructive the bomb is they won't want atomic war.

Affairs Of The World—DeWitt MacKenzie

Palestine Commission Needs Force

The five small countries of the United Nations Palestine commission, assigned the task of partitioning the Holy Land between Jews and Arabs, declare the job can't be done without the backing of an armed force.

They want help—and they want it fast! They emphasize "the compelling need for prompt action in order to avert bloodshed and human suffering in Palestine."

As their report is made, fighting is continuing between Jews and Arabs and thus far it is unofficially estimated that more than 1,200 people have been slain in the communal strife. Both sides are girded for all-out war. A couple of days ago Abdel Rahman Azzam Pasha, secretary general of the Arab league, warned:

"God only knows where it will end. One thing is sure: if we are defeated, the Jews must be prepared for reprisals."

So the "five lonely pilgrims," as the members of the commission call themselves (Czechoslovakia, Denmark, Bolivia, the Philippines and Panama), have laid their urgent report on the line. It is the only logical conclusion they could reach.

Now it's up to the Big Five to take on where the Little Five are compelled to rest on their arms. There is only one U. N. body which is empowered under the charter to provide an armed force to maintain peace, and that is the security council. The Big Five (America, Britain, Russia, France and China) dominate the council by virtue of their veto privileges. If any one of the five

powers doesn't like a proposal, that power can kill the motion by a veto.

The crux of the problem is this: The consensus of impartial observers is that the Soviet Union would be delighted to join in providing armed troops for Palestine, since that would give Moscow a chance to get a military toe-hold in the oil-soaked and strategically situated Middle-East. The last thing America, Britain and France want to see is the emergence of Russia as a power in the eastern Mediterranean.

What looks like a sound compromise is the suggestion that none of the major powers send troops to the Holy Land but that small countries be asked to furnish the manpower while the big fellows provide the equipment.

In Hollywood—Bob Thomas

Gold Rush Will Get Movie Play

HOLLYWOOD, D. C. — California, which is planning a three-year celebration of the gold rush centennial, will get a helping hand from Hollywood.

At least two films are being planned in commemoration of the golden state's infancy. Michael Curtiz will shoot part of "The 49ers" at Coloma, Calif., where gold was discovered. Then he'll move on for further scenes

in Colorado (this is treason!). The company will make the two-month jaunt as soon as a cast is chosen.

Producer Harry Sherman is scouting the mother lode country for locations of "Tennessee's Partner" with Joel McCrea. The Bret Hart story is rich in gold rush lore.

Freddie March's new film,

"The Judge's Wife," reportedly treats a daring theme — mercy killing. There has been no publicity about the plot, but inside info reports that the judge (March) ends the life of his hopelessly ill wife (played by Florence Eldridge). If so, the picture should arouse much controversy.

When Paul Henreid leaves for France in May, it will be his first return to the continent since 1934. While there he'll film "Cartouche," his second effort as producer-star. Columbia is already negotiating to release the movie. Henreid will take his family abroad.

Ethel Barrymore, who performed the chore for me last year, says it's too early to predict the 1948 major league baseball pennant winners. She'll have her picks after training is over. Miss B. once explained why she became a baseball and not a football fan: football is played on Saturday afternoons and she always had a matinee to play on Saturday.

Upset Record

DOTHAN, Ala. (U.P.)—Police were distressed when Dothan's four-year-traffic safety record was broken. Rance Stokes, 47, died from injuries received when his bicycle collided with another. It was his first traffic death in four years.

Farmhand Boom

PULLMAN, Wash. (U.P.)—Despite inflated prices, Washington State had a record boom in farm real estate last year. Fifty-eight of every 1,000 farms changed hands, 60 per cent on a cash transaction.

"GET DOWN — IT'S NOT OVER YET"

Washington Merry-Go-Round—Drew Pearson

Reporter Probes MacArthur's Past

WASHINGTON.—It is considered more than significant that a crack reporter for the Cincinnati Times-Star, owned by the Taft family, has left for Australia to cover the route which General MacArthur took on his northward advance from Australia to the Philippines.

The reporter is Douglas M. Allen, Jr., who left for Australia early in January and is scheduled to hit Korea and Japan around April 15, working his way north through the Philippines and the battle-scarred Pacific islands.

Inside word is that Allen will do a little quiet probing of certain incidents surrounding MacArthur's campaign, which, during the war, were shrouded by censorship. One of these is the famous mansion which MacArthur had the Seabees build for him on a hill overlooking Hollandia.

MacArthur aroused Navy resentment—at times, even bitterness—during his northward advance to the Philippines. And if he decides to become a presidential candidate, obviously it would not hurt his rival candidates, including Senator Taft, to have certain hitherto censored information told to the American public during the crucial days just before the Republican convention in Philadelphia.

GOEBBELS DIARY

A backstage word is developing over whether the diary of Joseph Goebbels belongs to the United States government or to the Herbert Hoover library.

The Goebbels diary, about 7,000 pages long, was recently discovered in Germany by friends of Herbert Hoover while Hoover was on a survey of Germany's economic conditions. The diary has been carefully edited and annotated by Louis Lochner, former ace Associated Press correspondent in Berlin, and is shortly being released to American newspapers by the North American Newspaper Alliance, with book

publication handled by Doubleday Co., Inc.

However, the alien property custodian claims that all former property of the Nazi government in the American zone of Germany now belongs to the American people, and that the profits from the Goebbels diary should go to the U. S. Treasury. Justice department officials also claim that the original of the diary should be deposited in the Hoover library.

Hitler's propaganda minister kept a most meticulous day-to-day account of his hate plans and his conversations with Hitler. Part of the diary is devoted to diatribes against the Jews and Catholics and tells of vows to liquidate both religions after the war. It is obvious from the diary that Goebbels was insane.

Note—Louis Lochner has done an excellent editing job, with cross-references to the many Nazi figures mentioned in the Goebbels diary.

HOW LOBBY WORKS

The public-utility lobby has long been known as the most brazen in Washington, while Senator Ed Moore of Oklahoma has long been known as the tool of one section of this lobby—the gas and oil interests.

But just how brazen this lobby is and how closely it is linked with Senator Moore has leaked out only recently in connection with the appointment of Burton Behling to the Federal Power commission.

Shortly after Behling's name was first sent to the Senate to be a Federal Power commissioner, he received a summons to report to Senator Moore's office. There, much to his surprise, Guy Woodward, Moore's chief assistant, introduced him to F. M. Porter, president of the Mid-Continent Oil and Gas association.

Together, Woodward and Porter tried to back Behling into a corner on the price of natural gas. Particularly they wanted to know how he stood on the famous Rizley bill which would permit the gas companies to hike gas prices just at a time when customers can least afford it and when gas companies are already making record profits.

Behling was then preparing an exhaustive report on natural gas for the commission, and to disclose his position in advance would have been unethical. He refused to commit himself.

Whereupon Senator Moore held a political club over Behling's head and blocked his confirmation to the Federal Power commission.

Moore's bludgeoning was so raw-faced that FPC commissioner Harrington Wimberly, a fellow Oklahoma, wrote the following letter of protest.

"It seems to me improper," Wimberly commented, "for anyone to seek at this time any commitment from Mr. Behling as to what his position will be before he has had an opportunity to complete his study."

However, whether because of Moore's political club or because of his own personal conviction, Behling has now recommended exactly the price boost for natural gas previously demanded by Senator Moore and his friend, gas-lobbyist Porter.

Incidentally, Moore is now delighted to try to push through Behling's confirmation to the Federal Power commission.

SOVIET FOREIGN LEGION

A secret report to the House Un-American Activities committee behind the "iron curtain" reveals how the communists are strengthening their international brigade for action against Italy and France, as well as Greece.

It is generally known that the Soviet "foreign legion" was formed to bolster communist guerrillas in Greece, after it became apparent that the Greek communists could not conquer the country alone.

But what is not known is that the first load of foreign recruits was picked up at Marseilles, France, by the S. S. Radnik which left Vancouver for Yugoslavia on Valentine's day one year ago. These volunteers numbered only 49, the majority of them of Slav origin.

However, when the Greek civil war became tougher than expected, the international brigade organized for new offensives, not only against Greece but against Italy and France. The fighting in the latter two countries is planned to be nuisance raids at first, depending upon internal politics.

Moscow has sent out a recent order permitting even German political and war prisoners "to volunteer for active military service" with the international brigade. As an inducement they were promised reductions in their prison terms.

Romance Survives

LEWISTOWN, Pa. (U.P.)—Fifty years ago W. Perry Searer had an argument with his girl friend, Odessa, and they broke their engagement. Each later married. Their spouses died within the last several years. Searer and his girl friend of a half-century-ago are now man and wife.

Today's Birthday

NEWCOMB CARLTON, born Feb. 19, 1869, president of Western Union from 1914 to 1933, then chairman of the board, now director, has been called one of the least known of the big men in American industry. One director of some 30 companies, he also maintained interests in selling, boys' welfare and art. He started as a mechanical engineer in Buffalo.

Around The Rim—By The Herald Staff

Baby Going Scientific

I have always prided myself in keeping up with the times. The new look doesn't upset me in the least. I was quick to master the intricate Windsor knot and blossom out with a wide-angle collar. Yet somehow I never stopped to think about babies.

Now here I am a brand-new father and I find that I have been woefully ignorant of the latest tricks for keeping little tykes in the latest equipment.

The fact first dawned when my wife had her first shower and I dropped by to pick up the swag.

"Look dear," she beamed, "what do you think of this bottle sterilizer. It can be used to bake beans, too. And when our child goes off to college he or she can use it for a chafing dish."

"Here are some little plastic ducks that hold blankets on the crib. Don't you think they're cute?"

Later sterling silver diaper pins which are "de rigueur" for all formal occasions nowadays, insulated bottle covers (what will they insulate next) and myriads of other gadgets were brought out for viewing.

That was enough. My ego was broken.

Being a determined soul, however, I set out to bring myself up to date. After ignoring stares and nosing around baby stores, I can set up home scales and talk about a diaper shirt without a puzzled look.

Here are some examples of what I found: western style knitted boots, complete with straps; the safety scissors with blunted ends so that a slip of the hand can't injure an infant; the combination rag doll and teether; the bottle warmer that plugs into the cigarette light on an auto; nursery lamp in the shape of a lamb's steam heated bowls to keep food warm; cradle "spin" foot supplement to the cradle "gym."

For older children: Coat hangers made in the shape of animals, a sack in the form of a huge boot which is used to pick up and store play things and the can't-leak cup which has a solid top with three holes on one side. Sometimes I think I could use the latter myself.

Not all scientific progress has been made in atom-bombs and guided missiles. —ADRIAN VAUGHAN.

Hal Boyle's Notebook

Weighty Reducing Plan

NEW YORK (U.P.)—One theory of history holds that emergencies produce the heroes to meet them.

Thus a muddy stretcher in England created the legendary deed of courtesy — Walter Raleigh spreading his cloak before the dainty feet of Queen Elizabeth.

Walt acted quickly and coolly to meet this emergency and lost his head later in another way.

From the Crimean war came Florence Nightingale and the development of modern nursing. From the ruins of the 1919 baseball scandal rose a new figure — big Babe Ruth.

History is full of such examples. Out in Chicago the present emergency — the high cost of living — may have produced a new Joa of Arc for budget-battered housewives.

This lady is 22-year-old Mrs. Ruth Berbes, who last week launched a one-woman drive against present food prices by going on a "high cost of living fast." Her passive rebellion began after she was charged 26 cents for a quarter pound of butter.

Mrs. Berbes immediately went on a diet consisting of five slices of bread a day and two glasses of milk. In the first ten days she lost three pounds. She said other housewives were taking up the idea.

Stimulated bachelors will benefit most. They will show up at their girls' houses with a loaf of bread and a bottle of milk and say: "Let's stay here and enjoy a nice meal at home, honey. We'll

fight this 'inflation together.' Personally I think Mrs. Berbes is overlooking an even better way to reduce her grocery bills.

She works at a drugstore soda fountain. I did this for two years during high school and found my worries about food costs were at an end.

When I took the job I weighed an anemic 135 pounds. Technically we were supposed to pay for any delicacies we consumed. But with me the public always came first. From time to time I found it necessary to taste a spoon full of ice cream to see that its flavor and consistency were proper for the customers. I also regularly checked the marshmallow, the fudge sauce and the crushed pineapple.

After two years the store manager found that my wholehearted devotion to the public welfare was costing him about one gallon of ice cream out of every five. So he moved me over to the tobacco counter.

I had gained twenty-five pounds, could hold a canteen overhead with one hand and tear a Kansas City telephone book in half. I eventually went out for the high school football team and would have made quarterback except that another fellow tried out for the job that year.

I hadn't bought any meals for months, and had money in the bank to start college.

It just takes initiative to whip inflation. If everybody in the country would go out and get a job in a soda fountain they could cut food prices in half within a week.

Broadway—Jack O'Brian

Purse Tax Is Headache

NEW YORK — Celebrities... George Murphy dancing over Park Avenue puddles near the Waldorf... Katherine Cornell wearing wool stockings on the way through the slush to her matinee performance of "Antony and Cleopatra"...

Charlie Mac Arthur in Safirdi, telling pals about the new stage business magazine he'll edit Alex Ince, the owner, used to run the Viennese version of Variety, our show biz bible Billy Rose, incidentally, suggested MacArthur for the job...

Bill Rose trying to explain a cut under his eye... He says he got it riding down hill at his Mt. Kisco estate on a sled... chorus kids of "Allegro" have a regular television job... they are used as extras for background scenes in the Theater Guild Radio broadcasts...

Couple of war vets, Richard Aldrich and Richard Myers in the Stork, talking over their first postwar production as partners. The boys have brought the Gate Players over from Dublin, begorra. And Dick Aldrich, enthusiastic further over the imminent homecoming of his wife, Gertie Lawrence; she's been touring in the Noel Coward one-act "Tonight at 8:30."

Katie Hepburn and Paul Lukas were waiting to go on the air... Smalltalk ensued, and Katie said she couldn't understand why there was a tax on ladies' handbags and not on men's pockets, since they served exactly the same purpose... Paul said she was wrong, that in the end it would be a double tax...

any tax on any handbag bought by almost any woman in the United States is, in the end, a direct tax on the pockets of some man.

Pat, daughter of Alfred Hitchcock the whodunit film director, is at the Royal Academy of Dramatic Arts in London, learning to follow her pop's talented foot steps... Bert Lahr asks, now that the band-leading gentleman has become a disc jockey, is it all right to call him Juke Ellington? ... Bandleader Lawrence Welk owns a chewing gum factory in Illinois... To supply his

drummer, no doubt.

Fabulous King Brothers of Hollywood may make their next movie in New York... Danny Kaye a hit in London... Among the many young fellows who look and sound somewhat like Russ Columbo, and therefore are tested from time to time to play the short but dramatic life story of that crooning gentleman if it ever gets to the screen, is John Laurenz. He used to be a taxidermist at the Museum of Natural History.

A whisky maker asked Harvey Stone, the Latin Quarter comic, to endorse his product for \$250... "Sure," replied Harvey, "but if I have to drink it, it'll be \$500."

Good Idea

DUNCAN, Okla. (U.P.)—Officers of the "Mile of Dimes" infantile paralysis fund campaign drive here hope this idea is catching. Clyde Quinn, 67, volunteered a dime for each year of his age.

BOSTON SOCIAL MINDED

'This Won't Hurt A Bit'

By WILLIAM C. BARNARD

Associated Press Staff

Get out of the room while the dentist works on little Alfred's teeth. You're in the way, you aren't helping Alfred and you're getting on the dentist's nerves.

Dr. J. B. Peabody, Houston, children's dentist, explained during a Dallas dental convention that a parent sitting around the dental chair:

1. Makes a child apprehensive.

2. Keeps him from getting acquainted with the dentist.

3. Exudes sympathy which often makes the child so sorry for himself that he begins to cry.

"The mother, leading her son to the dentist's chair often comes in with an unconsciously protective attitude and generally wants to answer all the dentist's questions concerning the boy's teeth," the brisk, wiry, Dr. Peabody stated.

tist is able to make friends with the child who comes in alone and after a dentist gets the confidence of the average child he is a better patient than an adult because he relaxes in the chair."

Another tip from Dr. Peabody: "Take your child to the dentist before an emergency arises. When he is 2, he should be taken for the first visit, an examination. Six months later, the child should be returned to the dentist to have his teeth cleaned. Then, when a tooth begins hurting, the child will not fear a trip to the dentist."

Dentists who work on children should use all possible means to make the process as painless as possible, Dr. Peabody thinks.

But if you want to see an angry flush creep up around the back of the dentist's neck, sit him down, give him a couple of rats, and say: "This won't hurt a bit."

"For it probably will hurt, some," Dr. Peabody grinned, "and after that the dentist, as far as the little patient is concerned, is just a bum."

SHOVEL and HOE

A Garden Column by Virginia Scott. Presented by the Big Spring Garden Club.

Let's take it for granted you are sowing seeds in place where they are to grow. See to it that soil is good loam, with surface well pulverized.

Soils should be loosened with a trowel or hoe to a depth of several inches. Rake top soil smooth and broadcast small seeds, covering only to a depth of four or five times their diameter.

For larger seeds, it is well to plant a little thicker than wanted, thinning later. These should be set out as individual seeds and not broadcast.

A hoteo or cold frame may be used for plants that are not yet ready to go into open beds. Even here, it is well to use flats for the seeds, these to be placed in the cold frame or hoteo.

Mrs. H. L. Derrick, Mrs. L. D. Jenkins, Mrs. Ernest Kennedy, Mrs. C. E. Marstrand, Mrs. James Wilcox, Dean Bennett, Mrs. Pickle, Mrs. Sam Blum, Mrs. Joe F. Wood, Mrs. Olen Puckett and Mrs. C. C. Williamson.

For A Combination Dish Serve Lamb Stew

This Peace Plate suggestion will bring cheers from food-wise folks, for there's nothing more delectable than a properly made lamb stew. Lamb is such a delicate meat that its flavor blends delightfully with those of vegetables and herbs. It's good to look at, too, with its yellow carrots and white onions glistening in the brown gravy.

Budget-conscious housewives will be happy about this selection, because the stew can be made from the least expensive cuts of the lamb. Furthermore, it's one of those kettle-and-fuel-saving dishes that busy, thrifty cooks always welcome. All in all, today's Peace Plate main dish should be a very satisfactory choice.

Lamb Stew
1 pound of breast of lamb, cut in 2-inch pieces
3 tablespoons flour
1 teaspoon salt
1/4 teaspoon pepper
2 tablespoons drippings or other fat
2 cups hot water
8 small white onions
5 medium-size carrots, cut in strips
4 medium-size turnips
1 tablespoon chopped green peppers
1/2 teaspoon Worcestershire sauce

Dredge pieces of lamb with the mixture of flour, salt and pepper, shaking them in a paper sack or closed pan. Then brown meat in hot drippings or other fat. Add water, cover and simmer 1 1/2 hours. Add vegetables and continue cooking 20 minutes. Add sauce just before serving. Serves 4.

MENU SUGGESTIONS: The lamb stew carries some vegetables all seasoned just right. With it serve a tossed green salad, and for dessert, a lemon sponge cake with custard sauce.

FOOD TIPS: To make this stew different from those you have been serving, put it into a casserole.

border the edge with fluffy, well-seasoned mashed potatoes, and run it under the broiler flame just long enough to fleck the potato border with brown. The potatoes will take the place of bread. . . at least for some of the less hungry members of your family.

The meat for the stew may be lamb shoulder, neck, flank or shank. Browning the meat before adding the water gives it flavor and makes the stew more colorful and appetizing than a pale dish.

Raisin Caramel Pie

2 cups seedless raisins
1/2 cup granulated sugar
1 1/4 cups water
3 tablespoons butter or fortified margarine
1 1/2 tablespoons cornstarch
1/2 teaspoon salt
1 teaspoon cinnamon
2 teaspoons vinegar
1/4 cup chopped nutmeats
Pastry for single 9-inch crust
Rinse and drain raisins. Combine 1/2 cup sugar, 1/4 cup water and butter or margarine; cook gently without stirring until mixture is golden-brown in color. Mix well remaining 1/4 cup sugar, cornstarch, salt and cinnamon; blend in remaining 1 1/4 cups water and vinegar; add raisins. Stir into hot mixture and cook, continuing to stir, until browned sugar is dissolved and mixture has thickened. Mix in nutmeats. Pour into pastry-lined pie pan. Bake in very hot (450 F.) oven 25 to 30 minutes. Serve warm. 6 to 8 servings.

Serve Pork Chops With Onion And Apple Rings

This pork chop dish is easy to put together and needs no attention once it's in the oven. The onion slices placed in this way remain pale in color but give the chops some of their flavor and taste delicious with the pork, as do the browned apple rings.

4 thick pork chops
4 1/4-inch thick whole onion slices
4 1/4-inch thick unpeeled cored whole red apple slices
Salt and pepper
4 teaspoons brown sugar

Place chops in baking dish; sprinkle each one with salt and pepper. Place a round of unpeeled cored red apple on top of onion. Sprinkle each apple ring with 1 teaspoon brown sugar. Bake uncovered in a moderate (350 F.) oven about 30 to 45 minutes or until chops are done and onion and apple rings are tender. 4 servings.

Ceramic tiles have long been used in Holland not only for the living rooms and kitchens of homes but also for walls and ceilings of cellars and dairies, where they help keep out dampness.

Carrot Marmalade

2-3 cup thin strips lemon peel (about 2 lemons)
2 cups shredded raw carrot, firmly packed.
2 cups water
2 cups sugar
1-3 cup lemon juice (about 2 lemons)

Mix the lemon peel, carrots and water. Cook slowly in a covered pan until tender, about 30 mins. Add sugar and boil mixture rapidly, stirring frequently, until it is thick, about 15 mins. Add lemon juice and continue cooking the mixture until it is thick again, about 3 mins. Pour into clean jelly glasses which have just been removed from boiling water, leaving about 1/2 inch space at the top. Cover with hot, melted paraffin at once. Makes 4 6-ounce jelly glasses. Store, if possible, in a dark, dry, cool place.

Note: After the juice has been squeezed from the lemons the white membrane of "rag" should be removed from the inside of the peel with a sharp knife. Peel may then be cut in very thin strips about 1 inch long, ready for use.

Stuffed Flank Steak Makes Sturdy Main Dish

A sturdy menu that will find special favor with the menfolk in your family is this Peace Plate of Stuffed Flank Steak. And there's a Bread Stuffing recipe which you can make in a jiffy plus a delicious dessert idea using rolled oats in place of high-priority wheat flour.

Stuffed Flank Steak
1 flank steak (scored criss-cross fashion, or pounded)
Salt
2 tablespoons fat
2 cups water

Sprinkle with salt. Spread evenly with stuffing, roll loosely and tie it securely. Heat fat in a skillet and sear meat on all sides. Add the water and a little salt, cover tightly and simmer, or bake in a slow oven (300 F) for 1 1/2 or 2 hours, or until tender. 12 pound steak will serve 6 to 8 persons.

Bread Stuffing
2 cups soft bread crumbs
1/2 teaspoon salt
1/2 medium onion, chopped
1-3 cup fat, melted

Mix bread crumbs, seasoning and onion. Add melted fat and mix well.

MENU SUGGESTION: Let's flank this flank steak with mashed potatoes and creamed celery, and with tomato juice for a starter. Celery is in good supply this season with celery crops of record size expected in Florida and California. In many families creamed celery is something different in the way of hot cooked vegetables and will delight the family members who appreciate variety.

That interesting dessert suggested with today's menu is Apple Crisp, a novel baked apple pie featuring a special topping.

Apple Crisp
Peel, core and slice 4 large cooking apples into a pan or oven proof pie dish. If the apples are dry or extra sweet sprinkle them with lemon juice and grated rind and dot with bits of table fat. For the Oatmeal topping:
1 cup quick rolled oats, uncooked

Anderson Ponders Puzzle On Wheat

WASHINGTON, Feb. 19.—Secretary of Agriculture Anderson is hunting an answer to this grain market puzzler:
When should he start buying wheat again for shipment abroad?
His department got out of the market quickly week before last when prices started tumbling. An-

derson instructed government buyers to spurn all offers until prices "stabilized."

They haven't done that yet. And the department must start buying again soon. It needs at least 75,000,000 more bushels by June 30 to meet the government's minimum export goal of 450,000,000 bushels this crop year. President Truman would like to ship 500,000,000 bushels.

What is bothering Anderson is the possibility that whatever he does will cause a holler.

From where I sit... by Joe Marsh

Free Ride For You—on the Freedom Train!

We had a real thrill in our town just the other day—when the Freedom Train stopped by!

You've heard about it, of course—an actual train that's touring the country to remind us again what true Democracy means. It carries such Americana as the Declaration of Independence, the Bill of Rights, and other immortal documents that guarantee every citizen his liberty.

A great idea! And from where I sit, we're all riding along with that Freedom Train—right now—by living in a country that protects our individual liberties—whether they apply to our right to vote, to choose our church, to speak our minds, or to enjoy a glass of beer with friends.

Only thing is—we've got to prove ourselves worthy of the ride... by guarding zealously against whatever forces of intolerance encroach upon our American concepts of live-and-let-live, in a free and strong Democracy!

Joe Marsh

War Orphan Is On Way To U. S.

MARSHALL, Feb. 19. (AP)—Denise Damenstein, 18, will arrive in the United States from Europe this week-end to make her home with an uncle she has never seen. The uncle, Nathan Weis, a tailor here, is going to New York to welcome his sister's daughter. During the occupation of Paris in 1942 Germans carried away the girl's parents and younger sister. She has not seen them again. In her mother's effects she found letters Weis had written his sister. She wrote to Weis and he replied. It took more than a year to get the necessary papers for the girl to enter the United States. Weis said he will bring the girl to his home here. He wants her to go to school again.

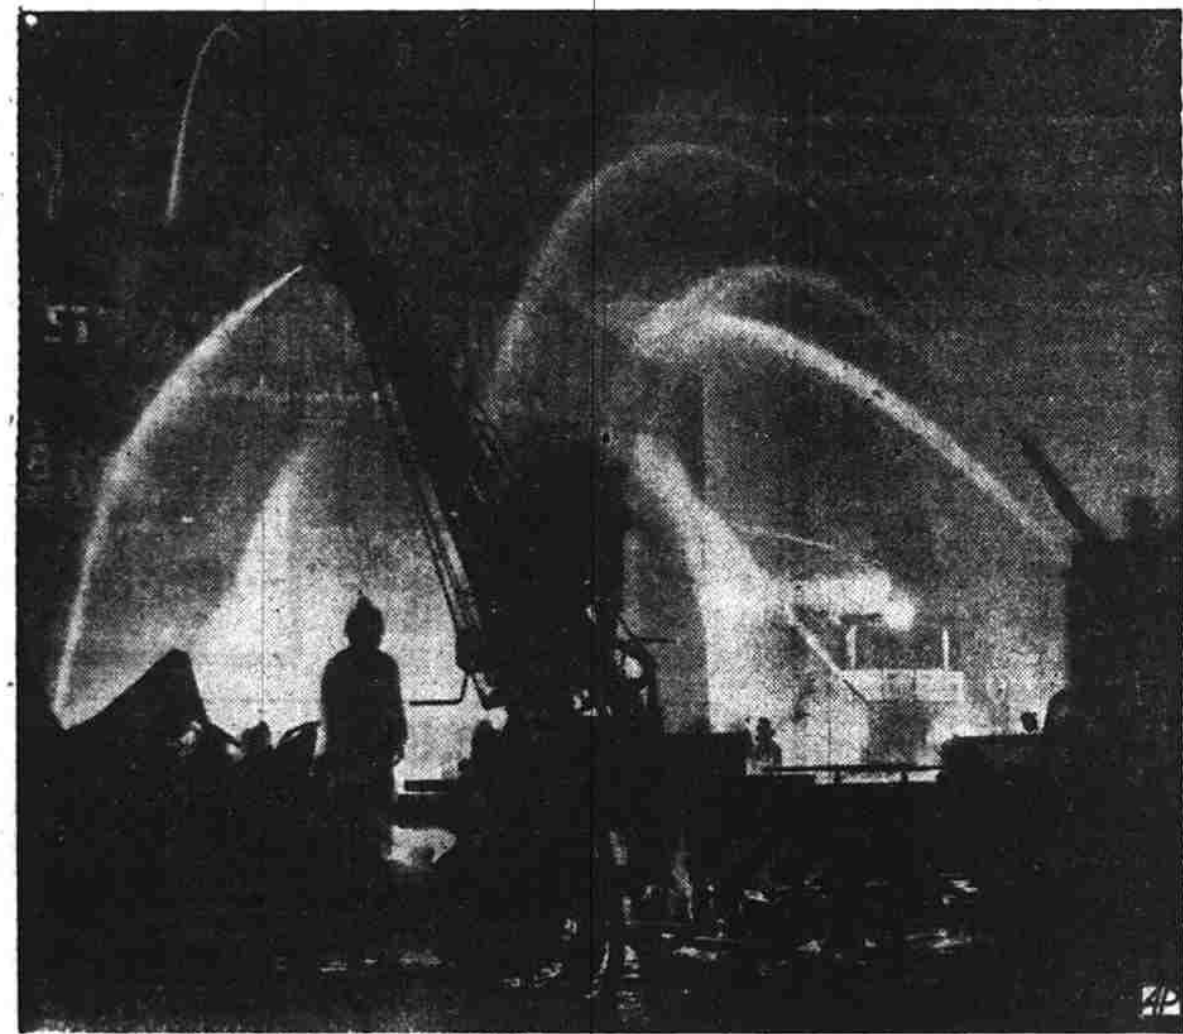

British Publisher To Address AP

NEW YORK, Feb. 19. (AP)—Lord Rothermere, 49-year-old British newspaper proprietor, will address the annual luncheon of members of the Associated Press at the Waldorf Astoria hotel April 19. Lord Rothermere heads a group of three London newspapers, the Daily Mail, Evening News and Sunday Dispatch, and a provincial group known as Northcliffe newspapers. He is chairman of Britain's Newspaper Proprietors' association. The invitation to speak at the luncheon was extended on behalf of the Associated Press board of directors by AP President Robert McLean, president of the Philadelphia Evening Bulletin.

British Defend Antarctic Bases

LONDON, Feb. 19. (AP)—The foreign office said today maintenance of British bases near the antarctic constitutes neither aggression nor provocation. The statement came as Britain's answer to a speech yesterday by Chilean president Gonzalez Videla protesting against "aggression and armed violence" by "worn out imperialisms."

FIRE FIGHTING AT NIGHT—Water from extension towers pours in looping arcs into a pier burning at night at Brooklyn, N. Y. Damage was estimated at \$1,500,000.

AT CHRISTENING—Viscount Jowitt, the lord chancellor in the crypt chapel of the palace of Westminster, holds his grandson, William Jowitt D. Atydd Wynn-Williams, after baby was christened in ceremony at London.

EIGHT TO BE EXACT

Voice Of America To Start Speaking In More Languages

WASHINGTON, Feb. 19. (AP)—The Voice of America is going to start speaking in eight more languages soon.

Officials let this be known today after learning that Congress appears likely to put up at least \$30,000,000 to meet Russian and other anti-American propaganda. The government's official short-wave radio now broadcasts in 23 languages. The new ones to be added will be mostly those of the Middle East and northern European "critical areas" bordering Russia. They are Arabic, Turkish, Iranian, Finnish, Swedish, Norwegian, Danish and Dutch. The state department has asked for \$38,000,000 to expand its overseas "information and educational activities" during the year beginning July 1. Last year Congress allowed only \$12,400,000, but sentiment on Capitol Hill has changed since then. Members of a House Appropriations subcommittee have said they have agreed tentatively to allow \$30,000,000. In addition to the stepped up

radio broadcasts, the new program also calls for a greater number of books and documentary movies to be sent abroad.

Dallas To Fight Midway Airport

DALLAS, Feb. 19. (AP)—The city of Dallas is going to take its fight against the development of Midway airport to Washington. The airport, situated near Arlington between Fort Worth and Dallas, is being supported by Fort Worth. City Manager Roderic B. Thomas said a full hearing before the Civil Aeronautics administration will be asked "within a few days." He said the petition for the hearing would be sent direct to Washington, bypassing the regional Fort Worth office of the CAA. Dallas contends the new airport would make its municipal Love field a "second rate airport."

Ruling Is Given On Public Lands Near A Gas Well

AUSTIN, Feb. 19. (AP)—Public school lands located within five miles of a producing gas well may not be sold, the Supreme Court held today.

The decision upheld commissioner of the general land office Bascom Giles who had refused a relinquishment of the state's claim on 18.77 acres of public school land in Panola county to C. A. Barber. The appeal court's decision cited that the 1931 public school land sales act permitted leasing but expressly prohibited selling any surveyed public school lands within a five mile radius of a well producing gas in commercial quantities.

'Kitty Hawk' Will Be Returned To U. S.

DAYTON, Ohio, Feb. 19. (AP)—The Wright Brothers' plane, the "Kitty Hawk," will be placed in the Smithsonian institution at Washington, executors of Orville Wright's estate announced yesterday. The craft, first to fly with a man, is now in the science museum at South Kensington, London. Orville Wright sent it there in 1928 in a controversy with Smithsonian officials.

Molotov Speech Is Banned In U. S. Zone Of Berlin Sector

BERLIN, Feb. 19. (AP)—A poster bearing part of a speech by V. M. Molotov was banned today in the American sector of Berlin. It was called "an insult to the United States."

In the speech, delivered at the London meeting of the foreign ministers council, the Soviet foreign minister accused the United States of seeking "to enslave Germany and Europe through dollar diplomacy." The Russians demanded lifting of the ban.

FAMILY IS GROWING FAST

WAREHAM, Mass., Feb. 19. (AP)—Mrs. Joseph A. Lopes, 26-year old wife of a cranberry bog worker, has given birth to her fourth set of twins in five years. The latest—a girl weighing seven pounds and a boy of six pounds, five ounces—were born two days ago at Tobey hospital.

Gross output of goods in the United States in 1944 was almost twice the dollar volume of 1940 and, allowing for price differences, it is estimated the actual physical volume was more than 50 per cent more.

Pork Chops Are Good Main Dish For Sunday

Two favorite foods share the oven-preparation that builds a Sunday dinner of substance and satisfaction for Peace Plate for the Consumer Service Section, Citizens Food Committee. Pork chops, richly browned, then slowly baked to delicious tenderness in milk, come to the table with their oven-companion, scalloped potatoes.

Also on the menu plan are buttered Brussels sprouts or a green, leafy vegetable and spicy apple butter. For a light and easy-to-prepare dessert, have chilled fresh fruit cup or canned fruit of your choice. With the fruit serve Coconut Chews—crispy cookies made without flour.

- PORK CHOPS BAKED IN MILK**
- 4 shoulder pork chops, cut 3/4 inch thick
 - 2 tablespoons flour
 - 1 teaspoon salt
 - 1/2 teaspoon thyme
 - 1 cup evaporated milk
 - Trim fat from chops; dredge with flour; arrange in large skillet. Cook over moderate heat until well browned on both sides. Place chops in shallow baking dish, sprinkle with salt and thyme and pour milk over them. Bake uncovered in moderate oven (350 F.) 50-60 minutes, or until tender enough to cut easily with a fork.
- COCONUT CHEWS**
- 1/4 cup butter or fortified margarine
 - 2-3 cup brown sugar, firmly packed
 - 1-3 cup granulated sugar
 - 1 egg, unbeaten
 - 1/2 cup chopped nut meats
 - 1/2 cup shredded coconut
 - 5 cups corn flakes
 - Cream butter; add sugars gradually and cream together until light and fluffy. Add egg and beat well.
 - Add nut meats, coconut, and corn flakes and mix thoroughly. (Mixture will be dry.) Shape into rounds by pressing mixture by tablespoons against side of mixing bowl. Drop carefully on lightly greased baking sheet and bake in moderate oven (350 F.) 10 minutes, or until done. Remove at once from bak-

Pork And Apples Are Good Together

Pork and apple have been a welcome sight at the dinner table from the days when a whole roast pig was varied in, high on a platter, as a feature of a feast. This Peace Plate, featuring sausage-filled apples for Saturday dinner, offers a nice balance of meat and fruit.

New to some cooks, perhaps, will be the suggestion of a way to pare the apples part way, so as to keep them whole during the baking, while allowing them to absorb meat-flavored drippings. The recipe below tell show to do this.

- SAUSAGE-FILLED APPLES**
- 4 large apples
 - 1 pound bulk sausage
 - Core apples, taking care to remove the entire core without excessive waste of fruit. Peel top of apple about one-fourth of the way down. Divide the sausage into four portions. Fill each apple cavity with one sausage. Pile or spread any remaining portion on top of the peeled apple. Bake in moderately hot oven (about 375 F.) until apples and meat are done, about 45 minutes. Sausage, like all pork meat, should be thoroughly cooked, leaving no trace of pink in the meat. To make sure in this case, you may partly cook the core of sausage before stuffing it in the apple. Serves 4.

Beef Scramble Is Thrifty Dish

Beef Scramble is a good-tasting, economical dish that can be put together just before serving. Cook the onion and green pepper only until partly tender, as suggested in the recipe directions, because they add a crisp and welcome contrast to the chopped beef. The dish may be seasoned in a variety of ways; the seasoning given here, although bland enough for the whole family, still has good flavor.

- Serve this beef scramble on a separate mound of rice; or combine the two, adding 3 cups of hot cooked rice to the 3 cups of beef mixture the recipe makes.
- 2 tablespoons butter, fortified margarine or drippings
 - 1 cup (1 medium size) thinly sliced halved or quartered onion
 - 2-3 to 2-4 cup (1 medium size) thin strips green pepper
 - 1 pound lean ground beef
 - 1 8-ounce (1 cup) tomato sauce
 - 1 teaspoon salt
 - Dash of pepper
 - 1 teaspoon Worcestershire sauce
 - 1/2 teaspoon cider vinegar
 - 1/4 cup grated Parmesan cheese
 - Melt fat in large deep skillet, over low heat. Add onion and green pepper and stir with long-handled fork, breaking up onion rings. Cook over low heat for about 10 mins., stirring a few times, until partly tender. Add chopped beef; mash with fork to break up and cook only until red color disappears. Add tomato sauce, salt, pepper, Worcestershire sauce, vinegar and cheese. Simmer gently over low heat about 10 mins., stirring a few times, until thoroughly hot. Makes about 2 cups, 4 to 6 servings.

MEAL of the WEEK

AUSTEX BEEF STEW or SPAGHETTI and MEAT BALLS

East Texas Oil Production Raised

AUSTIN, Feb. 19. (AP)—The railroad commission yesterday increased the number of producing days for the East Texas field to 22 for March.

This is two more days than allowed this month and is expected to add some 8,000 barrels more per day than is being produced at present.

PIGGLY WIGGLY

Three Star Macaroons

2 egg whites
 1/2 cup brown sugar
 1 teaspoon vanilla
 2 cups corn flakes
 1/4 cup semi-sweet chocolate pieces
 1 cup shredded coconut.

Beat egg whites until stiff enough to hold peaks when beater is withdrawn. Fold in brown sugar gently. Add vanilla, corn flakes, semi-sweet chocolate pieces and coconut and mix lightly. Take up a tablespoonful of mixture and press it against side of bowl to level off. Turn spoonful onto well-greased baking sheet leaving mixture rounded. Bake in a moderate oven about 12 to 15 minutes, until lightly browned. Remove immediately to cookie rack. Makes 24 macaroons.

Telephone calls to the broadcasting station indicated Ousley put some radio listeners to sleep. These were some of the complaints of telephone callers:

LOOK, NO HANDS!—E. F. Worrall, 77 years old, rides bike without using his hands at Excelsior, Minn. He said he was riding to a skating rink to do some "fancy didos."

RADIO SHOW IS A BIG SUCCESS, IT MAKES EVERYONE GO TO SLEEP

AP Newswriters
SYDNEY, Australia—Three hundred persons went to a Sydney broadcasting studio the other evening to see and hear hypnotist William J. Ousley try to put his radio audience to sleep. Only two saw it through—the rest went to sleep.

Telephone calls to the broadcasting station indicated Ousley put some radio listeners to sleep. These were some of the complaints of telephone callers:

A man said his wife was standing at the window, laughing and throwing all her hats out.

Another said he had told a hypnotized friend to pick carnations from the garden, and couldn't stop him. A dog was reported to have fallen asleep.

Most hypnotized listeners, however, were awakened when Ousley told them at the end of the broadcast to laugh at the mental picture of an amusing hat.

The experiment, Ousley told a reporter, was to encourage people to realize they can hypnotize themselves. Auto-hypnosis, he said, enables people to relax completely in refreshing sleep.

Listeners to his broadcast were told they were going to sleep that they were relaxing and would soon feel relieved of all their worries. He alternated his instructions with a slow count.

Suffers Only Shock From Long Plunge

NEW YORK, Feb. 19 (AP)—Elmer Loeb, 36, Brooklyn, plunged 135 feet from the Manhattan bridge into the east river yesterday and escaped with only a slight case of shock.

Loeb was fished out of the water by a passing tugboat. He told police he suffered a dizzy spell while crossing the bridge, leaped against a guard rail, then toppled over.

RAF Bombs Found Near Blast Site

COLOMBO, Ceylon, Feb. 19 (AP)—Two 25-pound Royal Air Force bombs with fuses removed, and many empty bomb crates were discovered today in a well adjoining the fireworks factory at Gale, South Ceylon, where a big explosion occurred Tuesday. The death toll so far is 22, but it is feared 10 more are buried under debris.

Butane Explosion Burns Farm Family

FORT WORTH, Feb. 19 (AP)—A butane gas explosion burned four members of a farm family and smashed their home near Mansfield last night.

Burned were Mr. and Mrs. Joe M. Pyles, both 57, their daughter-in-law, Mrs. Billy Pyles, 18, and her son, Mike, nine months. The baby was burned critically.

The blast smashed windows, cracked walls and jarred the roof.

City Seeking Return To God

READING, Pa. (AP)—This 200-year-old city is "seeking spiritual rebirth" as it observes its bicentennial this year.

That is how religious leaders interpret the official seal chosen by the City Fathers to mark the celebration which is continuing throughout 1948. Using traditional "Pennsylvania Dutch" symbols of a heart and tulip, the seal expresses gratitude for the past generosity of God and the hope of establishment of God's Kingdom on earth by the spiritual rebirth of the city's citizens.

Reading was founded in 1748 by the Quakers Thomas and Richard Penn, sons of William Penn. Most of Reading's early settlers were DP's seeking refuge from religious persecution abroad. The German Moravians and the Brethren joined the Quakers, and their religious traditions strengthened the first pioneers.

"The deeply religious character

of the founding fathers and the religious tradition which has marked its people through the years are fittingly represented in the symbolism of the official bicentennial seal," declared Dr. E. E. Fischer, president of the Lutheran Pennsylvania Ministerium, Philadelphia. "We ask that the Providence of God will continue to rest over this prosperous community in the years that lie ahead."

Praise was also forthcoming from Rt. Rev. Henry K. Sherrill, Presiding Bishop of the Episcopal Church, while Rev. Kenneth G. Hamilton, speaking for the Moravians, noted the "need for spiritual emphasis in these days."

Germany Takes Post
DALLAS, Feb. 19 (AP)—Eugene B. Germany, president of Lone Star Steel company, has been appointed a member of the pig iron advisory committee of the office of industry cooperation.

Broiled Egg And Ripe Olive Sandwiches

1/2 cup ripe olives
 2 hard-cooked eggs
 1/4 cup mayonnaise
 1/4 teaspoon salt
 1/4 teaspoon prepared mustard
 1/4 teaspoon Worcestershire sauce
 6 slices bread
 Grated American cheese

Cut olives from pits and chop into small pieces. Mash hard-cooked eggs. Mix olives, eggs, mayonnaise, salt, mustard and Worcestershire sauce. Toast one side under broiler; spread un-toasted side with olive and egg mixture; sprinkle with grated cheese and broil until heated through and cheese is melted. Makes 3 servings.

Butane Explosion Burns Farm Family

FORT WORTH, Feb. 19 (AP)—A butane gas explosion burned four members of a farm family and smashed their home near Mansfield last night.

Burned were Mr. and Mrs. Joe M. Pyles, both 57, their daughter-in-law, Mrs. Billy Pyles, 18, and her son, Mike, nine months. The baby was burned critically.

The blast smashed windows, cracked walls and jarred the roof.

IT'S GOOD TO KNOW Mrs. Tucker's HOME MAKING HELPS

Organizations have some members who are just "organs", or talkers. It's the doers that count most.

When you're serving a crowd for your Church, club or PTA, perhaps these amounts to buy will prove helpful. We've given them in quantities to serve 25, 50 and 100. If you're serving more, add or multiply.

FOOD	25	50	100
Vegetable Salad	5 qts.	2 1/2 gals.	5 gals.
Canned vegetables and fruit (No. 10 can)	1	2	4
MEADOLAKE MARGARINE	3/4 lbs.	1 1/2 lbs.	3 lbs.
Ice Cream	1 gal.	2 gals.	4 gals.
Tea	1/4 lb.	1/2 lb.	1 lb.
Crackers	1 1/2 lbs.	3 lbs.	6 lbs.
Coffee: Use 1 lb. coffee and 2 1/4 gals. water for each 50 to be served.			

To make cooking for crowds more pleasant: Organize committees so each has at least one experienced cook, and so each has about same amount of work to do. Let each group act independently at plenty of table space. Plan menu so cooking facilities will not be overtaxed. One baked dish is usually all you can count on. If you have hot bread, be sure the oven is free at proper time. Bread placed on plates as each is served eliminates passing bread until time for "seconds".

TIME MAY COME WHEN SCHOOL WILL BE A LIFETIME AFFAIR

WASHINGTON, Feb. 18 (AP)—The time may come when the law makes people from six to sixty do school work, a group of teachers said yesterday. Their reason: A good education is the world's best defense against war. The prediction came from a letter for the American Association of School Administrators. They reported this country should be spending \$8,000,000,000 a year on the public schools. It now spends about \$3,000,000,000. The commission said grownups should continue studying so they can keep up with "the new era of world events which suddenly has been ushered in." It added there is not much hope for world peace unless a government has a foreign policy which jibes with the "informed interests, desires and opinions of the people."

Texas Is Having Spring Weather

By The Associated Press Fine spring weather with mild temperatures, southerly winds and no rain, continued in Texas today. Most of the nation reported pleasant weather. Early morning clouds and fog over central and eastern Texas was breaking up at mid-morning. Snakes die if they are left for long in the hot sun.

Greater Endurance Instant response KIEKHAEFER MERCURY Comet With Exclusive FULL JEWELLED POWER! Always rarin' to go. Rugged and dependable. Full Jeweled Powerhead that gives you extra months of service-free boating. Gives you instant response from a "crawl" to 8-10 miles per hour. Expertly engineered, women and children handle it easily, safely. Conservatively rated at 3.6 h.p.—the ideal fishing motor.

Herald Radio Log

Table listing radio stations, frequencies, and program schedules for Thursday Evening, Friday Morning, and Friday Afternoon.

IN 'DO OR DIE' SERIES FRIDAY NIGHT — The Big Spring high school basketball Steers institute their bid for the District 3AA cage championship at 1:15 p. m. in a game with San Angelo at Abilene Friday. If successful there, they tangle with the winner of the Abilene-Odessa contest for the crown Friday night. Left to right, back row, they are Bo Anderson, Delmar Turner, Jim Bill Little and Coach Johnny Malaise; middle row, Holly Bird, B. E. Lees, Donald Hale and D. A. Miller; front row, Harold Berry, The Robb, Capt. Eddie Houser, Gordon Madison and R. H. Carter. (Photo by Jack M. Haynes).

HOWELL SIGNS
SAN FRANCISCO, Feb. 19 (AP)— Signing of Clarence "Cotton" Howell, former Texas A and M end, was announced today by the San Francisco Forty Niners, professional football club of the All America conference.

LOOKING 'EM OVER

With TOMMY HART

Two officials from a neutral part of the state, Lon S. Varnell and Bill Heiss of Dallas, have been selected to work the District 3AA basketball tournament in Abilene this week.

Varnell and Heiss were appointed by the Texas Interscholastic league, which had been petitioned by the coaches of the competing teams to find two capable arbiters.

VOTE ON TOURNAY SITE SURPRISED ABILENE STAFF

The vote that sent the tournament back to Abilene for the second time in three years, incidentally, surprised the Abilene coaching staff as much as anyone else.

Jake Bentley and company were so certain that the offer to play in their gymnasium would be ignored, they went across town and got permission to use the huge Rose fieldhouse at Hardin-Simmons university in the hope that the increased seating capacity would influence a change in opinion on the part of the other mentors.

Imagine their surprise when the San Angelo delegation swung the balloting in Abilene's favor.

SPEEDY MOFFETT TO HANDLE BOBCAT BASEBALL TEAM

Speedy Moffett, who played a good infield for the Cosden baseball Oilers here years ago, will coach the San Angelo high school diamond crew this spring.

KERRVILLE HIGH LOOKING FOR FOOTBALL GAME

Kerrville high school (Tivy), where Rocky Rundell recently assumed the coaching reins, is looking for another game to fill the football Antlers' schedule this fall.

The South Texans would be available for a game either Oct. 29 or Nov. 12.

CORPUS STAR END WILL REPORT TO TULANE MENTOR

Hank Watkins, a star end for Corpus Christi high school back in 1941 and for the past two years a standout at Paris Junior college, will report to the Tulane varsity next fall. Chances are he'll be a first stringer under Coach Henry Frnka, the ex-Greenville high mentor.

Chances are six or seven Texans will win first string berths on the Tulane Green Wave next season.

MAJOR LEAGUES INvariably PAD SALARY FIGURES

There's no way of knowing what big league baseball and football teams pay their hired help, even though the clubs' press agents try to convey the impression that most of the boys are able to settle down in comfortable retirement after two or three seasons of play. In most cases, the figures are padded all out of proportion.

When DeWitt Cautler, Texas boy who made All-America tackle for the Army a couple of seasons back, was declared ineligible because of scholastic difficulties, he reportedly signed a contract with the New York Giants calling for \$19,500. That was the exact figure, but the pact was for three seasons, not one. In reality, he gets \$6,500 per annum.

STOCKTON NOT ONE TO TALK ABOUT HIMSELF

Getting Herschel "Mule" Stockton to talk about himself is about as hard as pulling eye teeth. The new Big Spring high school mentor has never been one to waste words.

You'd almost have to go to the War Department in Washington to learn that, after entering the Army in 1942, he trained at Fort Knox, was overseas with the Third Armored division for 18 months, rose to the rank of sergeant and was wounded in Europe.

Ackerly Ousts Dawson, 28-17

ACKERLY, Feb. 19 (Sp)—The Ackerly Eagles advanced a notch in the District 10-B basketball tournament by ousting Dawson 28-17 in a game played at Lamesa Wednesday night.

Gerald Rogers and Dwayne Williams led the scoring attack for the Eagles, with each accounting for seven points, while Darrell Crass was only a step behind with six counters.

Devore was top scorer for Dawson, with six points.

The Eagles were scheduled to tangle with Flower Grove in another tournament battle at 2 p. m. today in Lamesa.

21-B Title Goes On Line Tonite

STANTON, Feb. 19 — The District 21B basketball race will end tonight, if Sterling City lives up to its role as favorite and defeats the Stanton Buffs.

The two clubs clash at 8 o'clock in the Stanton gymnasium.

Sterling swamped the Buffs, 43-22, Tuesday night at Sterling for their third win in four starts this season against Travis Green's team.

Should Stanton win, a third game will be played Saturday night to determine the king-pin.

Grapette Loses In First Round Of Tournament

STERLING CITY, Feb. 19—Nathan's Jewelers trounced Grapette of Big Spring in a first round game of the Sterling City Independent basketball tournament here Wednesday night, 47-26.

In other games, Knights of Pythias (San Angelo) turned back Water Valley, 40-18, while Ellis Parts of San Angelo advanced on a forfeit from Big Lake.

No games will be played tonight. Merton faces Cruise Jewelers and Gem Jewelers of San Angelo meet Robert Le in their first round games Friday.

Herd To Again Be At Best In Long Races

Big Spring high school's track and field team, in the midst of a conditioning program that will set them right for the spring wars, will again be strong in the distance races.

Coach Herschel "Mule" Stockton has as Leon Leopard back to run the 880-yard event this year. Leon won that event with yards to spare in the area and regional wars last year, then went on to place third in the state meet.

What with the two boys who finished ahead of him out of school, Leopard is shooting for the blue in the Austin show this year.

Leon will also run on the mile relay team, which will probably have Jim Bill Little, Delmar Turner and perhaps James Fannin as the other members.

Little will run the quarter mile. Turner may try at that distance while Fannin shapes up as about the top miler in the district. Fannin beat out Donald Webb, who eventually won the regional mile run, in the San Angelo tournaments.

Leopard, Little, Turner, Fannin and Bobby Fox, a sprint hopeful, are the returning lettermen.

Stockton has about 50 boys, already, in track suits and several others will report when basketball season is over. Several of the youngsters are dividing time between the track and baseball fields.

The coach may take a team to the Southwestern Exposition meet in Fort Worth in late March, if the boys can attain good shape.

Bovines Depart For Tournament

Johnny Malaise and ten members of his Big Spring high school basketball team shoved off today for Abilene, site of the 3AA tournament.

The Steers were to work out in the Eagles' gymnasium this evening.

The tournament gets underway at 1:15 p. m. Friday, at which time the Big Springers play San Angelo.

Del Rio May Become Eighth Member Of Longhorn League

Final Action Slated Sunday

Commenting on the fact that the Big Spring club alone cast the dissenting ballot in the "feeler" telegraph poll taken by Longhorn baseball league President Howard Green on the application of Del Rio for membership, General Manager Claud McAden stated Wednesday:

"We are concerned not so much with the increased mileage of the proposed setup as the financial backing of the new clubs. If the league grows, we want to make certain that the growth is permanent."

Odessa did not cast a ballot in the poll while the other four members of the original league—Vernon, Sweetwater, Midland and Balinger—approved the application of the Del Rio club for membership. The favorable poll does not necessarily mean that Del Rio is assured a franchise. Formal action on the application will be taken at the regular league meeting Sunday afternoon in Abilene. At that time, the new club must post franchise money and other assessments.

The Del Rio club affairs are being managed by Bill Lacy, who had previously been reported as signed to pilot the San Angelo entry. Lacy informed Green earlier that the city was ready "with a lighted ball park."

Hawks Wind Up Cage Campaign Saturday Nite

HCJC's basketball Jayhawks invade the Northlands this weekend, for the sake of completing the 1947-48 season. The Hawks long ago lost out in their bid for the Western Zone conference championship and the flag was decided for all intents and purposes, two nights ago when Plainview's Wayland college thumped Amarillo JayCee for the second consecutive time, 68-67.

The Big Springers tie into Plainview Friday night, then move over to Amarillo on Saturday. They are not expected to win either game but Coach Harold Davis is looking for them to put up better scraps than when the teams played here.

Only an invitation to a tournament, e. g., the state junior college meet at College Station, would extend the HCJC season. The College Station show opens March 1. According to reports, the Wayland-Amarillo contest was a lulu. Wayland trailed by five points a minute and a half before the game ended. Then they started cramming in points at a furious pace.

Johnny Hooper Most Impressive Newcomer In Herd Diamond Ranks

The spring-like weather this area has been blessed with the past few days has proved quite a tonic to the Big Spring high school baseball team, now in the midst of its first week of drills at steer park. The Longhorns have been kept away from the batting cage due to the fact that construction work is going on in the stands and a grader has been leveling the dirt recently hauled into the infield.

However, Coach Conn Isaacs has his youngsters, now numbering about 42, working out in the stadium's center field and the boys are as frisky as colts.

Isaacs has the nucleus for a fairly strong crew this year and the team may show well in the 3AA wars, which get underway in mid-April.

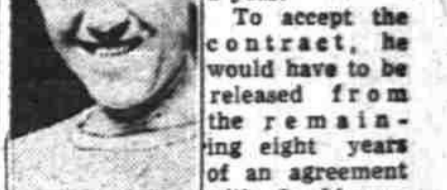

Sam Thurman is back and will again go behind the plate. Harold Berry, a veteran hurler, will report as soon as the cage season ends. Harold Washburn and Ray Walker will plug the hole at second base. Donnie Carter, hard-hitting first

McMillan Sure To Sign Pact

DETROIT, Feb. 19 (AP)—The Detroit Lions of the National football league were poised today to sign Alvin N. (Bo) McMillan, popular Indiana U. grid boss, to a 7-year coaching contract at a salary of \$30,000 a year.

To accept the contract, he would have to be released from the remaining eight years of an agreement with Indiana, which pays him at least \$12,500 annually as its head coach and athletic director.

Persons close to McMillan and the Lions were satisfied that the release was just a routine matter.

Railroad Can Cry With Any Taxpayer

NEW YORK, Feb. 19. (AP)—So you think your taxes are high? Well, brother, move over. You have company. The Missouri Pacific line allows as how its tax bill has gone up 155 per cent since 1929, while its traffic was only 56 per cent better, its gross operating revenue 53 per cent up, and its gross operating expenses 59 per cent higher.

Big Spring Leads In Scout Drive

Big Spring maintained a healthy lead in the Buffalo Trail Council Scout Ranch campaign today, although a new report disclosed that Odessa is climbing rapidly in the drive.

Family Going Places At Home In Trolley

HARRISBURG, Pa. (AP)—Mr. and Mrs. Earl Lebo and their three children don't worry about catching street cars—they live in them. When the Lebos found living in a trailer cramped their style they bought two street cars, for \$200 each from a line that had abandoned its service.

Mrs. Dunn Better

Mrs. Denver Dunn, who underwent major surgery at a local hospital last week, continues to improve although she has not been able to return to her home.

Backache, Leg Pains May Be Danger Sign Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pain, listlessness, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning stings show there is something wrong with your kidneys or bladder.

Frank Robinson Announces The Opening Of The PALACE DRUG (Non-Prescription Drug) First Drug Owned and Operated In Howard County By Colored People 102 ORKNEY STREET

Teachers' Head Promises Efforts To Get Rural Aid

MARSHALL, Feb. 19. (AP)—Miss Emma Mae Brotze, president of the Texas State Teachers association, said it again may be necessary to ask Gov. Beauford H. Jester to call a special session of the legislature in order to overcome a deficit in rural-aid funds.

Air Force Is Seeking Vets

Qualified veterans of any of the Armed Forces can join the new U. S. Air Force and receive a non-commissioned grade up to the rank of technical sergeant. Lt. O. L. McFadin, local recruiting officer, said this morning.

Rapid City Field Is Now Weaver Base

RAPID CITY, S. D. (AP)—The Army air field here—one of the nation's biggest heavy bomber installations—formerly known only as the Rapid City Army Air Base, has a new name. It's the Weaver Air Force base. Senator Chan Gurney (R-S.D.) says the name was bestowed on the field in memory of Maj. Gen. Walter R. Weaver, a pioneer air corps officer who died in retirement in Washington in 1944.

Hospital Greenhouse Is War Memorial

PHOENIXVILLE, Pa. (AP)—The American Legion auxiliary of Pennsylvania has donated a \$20,000 fully-equipped greenhouse to the Valley Forge General Hospital. It was dedicated to "those who fought and died to preserve their nation; to those who fought and suffered the ravages of war, and to those still living sound in body and mind who must work for a perpetual peace."

Co-Operation Is Asked For Census

An appeal has gone out from the department of commerce census bureau for prompt and complete cooperation by participants in the census of manufacturers in Texas. Normally conducted every two years, the manufacturers census has not been conducted since 1939 due to the war, and during that interval great changes have been wrought. Many officials consider the 1939 figures wholly inadequate for present day needs, hence there is added significance to the current census for the year of 1947.

Off To Philadelphia

Dr. Lee Rogers has left for Philadelphia where he will participate in a three-week special course in orthodontics at Temple University. He is one of five dentists in Texas chosen for the postgraduate work.

SLIDE ROLLS ENGINE INTO PUGET SOUND— This aerial picture shows how an earth slide derailed most of a Great Northern mail train north of Seattle, Washington, toppling the engine into Puget Sound. At right a work train crew is repairing the damage. (AP Wirephoto).

B-29'S MOST ACTIVE

U.S. Keeps Small European Air Force

WASHINGTON, Feb. 19. (AP)—B-29 Superfortresses are flying training missions from American bases in Germany to the Middle East.

Their course describes a careful half-circle to avoid the politically delicate area of the Balkans.

However, the giant bombers do fly over Tel Aviv in Palestine on their way to Dharan in Saudi Arabia.

That huge wartime base is being used as a terminus by agreement with the Saudi Arabian government.

The B-29's make the 3,600 mile jump non-stop, headquarters of the strategic air command said today.

The flights are part of a general training program designed to give air crews experience on long trips under various climatic conditions and to familiarize them with remote routes.

The number of B-29's making the hops to the Middle East is comparatively small. They are part of routine training missions from the United States to Germany. Upon arrival in Germany a few—from single ships to four or five—are assigned from a nine-plane squadron to make the run to Dharan and back.

The training flights are so planned that one squadron is in the European area most of the time.

But with the exception of the visiting B-29's, the only actual American aerial combat unit in Europe today is the 86th fighter group. (A fighter group normally consists of three squadrons of 24 planes each or a total of 72 aircraft.)

While jet fighters have been sent to the European theater at times for tests purposes none of these planes are regularly stationed there by the Air Force. The 86th uses wartime P-47's.

Aside from the fighter group, the American Air Force in Germany consists of two troop carrier groups, a reconnaissance squadron, a weather observation group and supporting units such as communication organizations.

WHAT GIVES 'ROUND TOWN

By Leatrice Ross

There's simply no escaping Big Springs! Friday evening we, along with Joyce and Dormand Hill, Dick Clifton and Olney Thurman, strolled importantly into Mrs. Crosby's Restaurant in Villa Acuna, Coahuilla, Mexico—and were greeted inside by Zack Gray, Ray Dunlap, Jimmy Ray Smith and Charles Buckner! . . . All nine were in Del Rio to inspect the famous Freedom Train. They returned here Saturday afternoon.

Disa and data: Word comes to us this week from Pvt. J. T. Erwin who is eating these days with the army at Fort Ord, Calif. . . Home for good after some 10 months in Germany is D. D. Douglass, Jr. Prior to his discharge on Feb. 5, D. D. spent a short time at Camp Kilmer, N. J. . . Jessie Cox of DeKalb stopped through here Monday enroute to Monahans to chat with Junior Gay, Junior's old hometown is DeKalb.

Couples about the town evenings of late: Dot Wasson, Pete Cook, Vickie McLeroy, John Bill Gary, Patti McDonald, Creed Coffee, Joyce Jones, Bud Purser, Betty Jeah Underwood, Dave Flatt, Melba Dean Anderson, D. D. Douglass, Evelyn Huddleston, Jimmy Seton, Carolyn Cantrell, Don Clark, LaRue Brown, Hoss Rankin, Jean Adams, Jimmy Talbot.

Among events set up for this weekend is the Beta Sigma Phi dance at the Legion Hut Saturday evening. Getting underway at 9 p. m. the affair boasts the music of Jack Free and his men. . . On Feb. 28 at the Legion Hut members of the high school-age set will attend a Sadie Hawkins dance—tattered costumes, race and all.

John Touchstone and Peggy Touchstone hosted a dance this past Saturday night at the Ellis Homes Rec building. Couples: Joyce Beene, B. B. Lees, Janelle Beene, Don Hale, Katie Jones, R. H. Carter, Beth McGinnis, Wendell Stacey, Jean Pearce, Billy Wheeler, Ann Crocker, Chubby Jones, Penny Miller, Bob Craig, Peggy Carter, Donnie Reaves.

More disa and data: Cornelia Frazier, in New York City attending schools of music, has been accepted by Harry Conover to join his bevy of models. She is undecided as yet about accepting the job. . . Doris Thomas, who three weeks ago moved to Odessa, has come back to Big Spring. She is staying with Joyce Sumner. . . Making the most of these delicious days Tuesday were Jean Pearce, Ann Currie and Nancy Lovelace, all of whom went golfing. . . Our own criterion of the advent of spring: Students at the junior college are beginning to cut across the campus to classes, shunning the long hallways.

Inevitably we would come to this: Engaged as of Saturday night are Donnie Roberts and Bennie Byrnes! . . . Married on Saturday, Valentine's Day, were Mollie Kinsey and J. R. Smith. The couple is now touring Mexico.

High school students, according to George Oldham, were no end entertained Tuesday by a faculty volleyball game between the "Sixties" (pros) and the "Toughies" (women). The teachers even had a half-time band performance—with pep squad and band sweet-heart (the principal). This term progress in our educational system.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

Pampa Man Found Dead in Albuquerque

ALBUQUERQUE, N. M., Feb. 19. (AP)—Police identified a man found dead in a tourist court here yesterday as A. C. Allen of (944 South Franklin) Pampa.

An autopsy was ordered by Asst. Dist. Atty. Harry D. Robins.

Police Sgt. A. L. Neete reported there was an odor of gas in Allen's room.

Papers found on Allen indicated he was employed by Burke Lines Transportation company of Amarillo, Neete said.

'Ball Of Fire' Is Called A Meteor

FORT WORTH, Feb. 19. (AP)—Astronomer Oscar Monning said he believed the "ball of fire" seen in six states yesterday was a meteor which disintegrated high in the air.

Ranchers in the Higgins, Texas, and Shattuck, Oklahoma area reported seeing a brightly colored object "about the size of a barrel" explode in the air north of Shattuck.

Inquest Is Returned On Whitney Deaths

HILLSBORO, Feb. 19. (AP)—Natural causes and the weather were blamed for the deaths of two elderly sisters at Whitney last week.

Justice of the Peace L. L. Savage of Whitney returned an inquest verdict yesterday that Miss Edna Johnson, 71, froze to death. It said her sister, Miss Emma Johnson, died of natural causes.

The bodies of the two sisters were found in their home.

Midway Is On Way To Naples In Italy

HYERES, France, Feb. 19. (AP)—The United States aircraft carrier Midway left before dawn today for Naples.

The bodies of eight men listed as missing from the ship when their launch swamped Monday night have not been recovered.

Hope of finding any of them was given up yesterday.

Large Baby Is Born To Brooklyn Mother

NEW YORK, Feb. 19. (AP)—A 13-pound, 11-ounce baby girl was born in Brooklyn yesterday to 37-year-old Mrs. Jacob Epstein. Obstetricians said they believed the infant to be the largest ever delivered in the metropolitan area.

It was Mrs. Epstein's fourth child. Hospital attaches said the delivery was normal.

Seaman Indicted On Arson Charge

FREDERICKSBURG, Feb. 19. (AP)—William Doyle Biddy, Lampasas, seaman, has been indicted on a charge of arson in the Christmas night dance hall fire in which four persons were burned to death.

The Gillespie county grand jury returned the indictment yesterday.

Biddy has been held in jail here since shortly after the fire at Slipp's dance hall.

District attorney Roscoe Runge said Biddy's trial may be held next week.

Humble Sets Aside Large Drilling Sum

HOUSTON, Feb. 19. (AP)—The Humble Oil company is going to spend \$65,000,000 drilling for oil.

President Harry C. Wess yesterday said the sum would cover the drilling of 738 wells in the most expensive program undertaken by the company.
