## Reds Show New Tanks In Parade

MOSCOW (UPI)—The Soviet Union today paraded new type tanks and mobile rockets through Red Square and Defense Minister Marshal Rodion Malinovsky claimed that Soviet weaponry and technique is "the best in the world."

Malinovsky stood atop the Lenin mausoleum with Premier Nikita S. Khrushchev and other Soviet officials to review a five hour demonstration and parade commemorating the 44th anniversary of the Bolshevik Revolution.

Former Soviet Premier Josef Stalin's body was removed from the tomb just last week at the end of the 22nd Soviet Communist party congress at which he was posthumously humiliated.

The Soviet news agency Tass, giving a running account of the parade, described "new combat rockets, never before seen by Muscovites."

"Huge cars with rocket installations—a new formidable weapon of the Soviet army—slowly drove past the guest stands..." Tass said.

"New tanks also were demonstrated. Capable of surmounting any obstacle on land and in water, they are equipped with devices which make it possible to discover the enemy in daytime and at night, in rain, fog and snow."

Tass described other weapons as "gigantic strategic rockets, junior sisters of those used to launch and orbit space ships," and "anti-aircraft rockets resembling fantastic birds with silvery wings."

The Soviet press published anniversary messages from President Kennedy, Communist China and many other nations and world figures but none from Albania which has become an outcast in Soviet eyes for its Stalinist ways.

## Another Chilly Front Arrives

By United Press International  
A fresh influx of chilly air surged into Texas today, but was not expected to cause a repeat of the torrential rains, snow and sleet that pounded the state Monday.

Skies began clearing as the new cold front pushed into the Panhandle on a southward trip across Texas. The mercury was expected to climb slightly ahead of the wintry air, but forecasters said the front would hold cold temperatures over most of the state.

Not much moisture remained to cause rain, although a few showers were a possibility in the lower part of South Central Texas today. Rainfall during the 24-hour period that ended at 6 a.m. listed only .11 of an inch at Alpine and .01 at Brownsville.

Overnight low temperatures early today ranged from a cold 28 degrees at Dalhart to 52s at Corpus Christi and Galveston, with most readings in the 30s.

Considerable cloudiness covered South Central and West Texas early today, while skies were clear to partly cloudy elsewhere. The snow that fell in the Panhandle and South Plains Monday had melted, some of it just about as fast as it hit the ground.

## United Fund Now At \$40,090 Mark

The Pampa United Fund Campaign has reached 58.3 per cent of its goal of \$68,746.

A total of \$40,090 was the latest figure reported Monday night at the second report meeting of the organization at the Southwest Public Service Building.

A third report meeting is scheduled for Monday, Nov. 13 at the same site.

December 1 has been set as the tentative date for the conclusion of the drive which is \$28,656 short.

George Newberry is the general chairman of the campaign.

**THEATER IN CANYON** — This is an artist's conception of how the Texas Panhandle Heritage Foundation's great outdoor theater will be built into the sides of Palo Duro Canyon. Here will be presented an historical play by Paul Green, creator of the symphonic drama form. Green, who will write the play dealing with Texas Panhandle history, is scheduled to arrive in Canyon Friday to make final plans with the Foundation board members. Green will remain in the Panhandle for some time, studying its history and visiting its historical sites. The young lady in the photo is Lillian Cowart, daughter of Mr. and Mrs. Pete Cowart, Palo Duro Canyon concessionaires. Dr. N. J. Ellis, Pampa, is chairman of the area foundation board. Other Pampa area board members are M. K. Brown and C. P. Buckler.

## Ranger To Aid In Death Probe At Wellington

WELLINGTON, Tex. (UPI)—Sheriff John Rainey has called a Texas Ranger in to help him investigate the death of an elderly recluse found in the ashes of his rural home.

He said there was a possibility that Frank Blanton, in his late 70s, had been murdered. There were two holes in his head.

Justice of the Peace Raymond Horton withheld an official verdict on the cause of death until an investigation is complete. Rainey said he wants to determine whether Blanton was shot, beaten, or if the fire could have caused the two head wounds.

The sheriff asked both Ranger Bill Hensley of Pampa and Texas Fire Marshal Virgil Miller of Austin to join in the investigation.

The fire destroyed Blanton's home late Sunday night. It was first reported by Carl Wischkaemper, a neighbor. Blanton lived alone in the Quail community, about 13 miles west of Wellington.

The Wellington fire department sent men and equipment, but by the time they arrived, the home was gutted by flames.

Rainey said Blanton came to the area and purchased the small farm on which he lived about 1937.

"Little was known of him," Rainey said. "He was believed to have come from Springfield, Ill., but he didn't mix with neighbors and only went into Quail to buy groceries."

## Russian Diva Scores Wild Opera Triumph

NEW YORK (UPI) — Russia scored its biggest cultural exchange triumph Monday night with the Metropolitan Opera debut of the Moscow Bolshoi Opera's leading soprano, Galina Vishnevskaya, singing Aida.

Miss Vishnevskaya toured with the Moscow State Symphony and gave a Carnegie Hall recital last season, but it was America's first exposure to the dazzling vocal talents, personal beauty and acting ability that earns her a top salary of \$1,500 a month at the Bolshoi.

The audience reacted by giving her a welcome almost as wildly enthusiastic as those for the debuts of Maria Calas in 1956 and Leontyne Price in 1960.

"It was wonderful," said the 34-year-old Miss Vishnevskaya in her dressing room, using carefully rehearsed English. Then in Russian she told a friend, "The audience really was insane! It was one of the best I've ever had. I will never forget it!"

It was not a love fest from the start. Monday night is society

## \$169,625 In Back Taxes Due City, Report Shows

Delinquent taxpayers owe the City of Pampa \$169,625.39 and the City Commission today decided to attempt to work out a plan to help the city tax department collect as much of it as possible.

The decision was reached as the commission discussed a report from City Tax Collector Aubrey Jones which had been submitted by City Manager John Koontz following the commission's request several weeks ago.

Jones' report shows that of the total delinquent tax amount on the books \$97,043.30 is on real estate and \$72,582.05 on personal property.

Delinquent tax collections in the 1959-60 fiscal year totaled \$28,251 and in 1960-61 they totaled \$22,023.12.

In asking the tax collector to furnish the commission with a list of the delinquent taxpayers,

## Credit Bureau Finds Its Tax Bill Past Due

LITTLE ROCK, Ark. (UPI) — The Credit Bureau of Greater Little Rock, Inc., apparently was so busy looking for deadbeats it forgot to pay its own bills.

Gen. Mgr. John R. Nesbitt said "this is very embarrassing." Monday when county officials notified the company it failed to pay \$254.63 in personal property taxes.

## Russian Diva Scores Wild Opera Triumph

NEW YORK (UPI) — Russia scored its biggest cultural exchange triumph Monday night with the Metropolitan Opera debut of the Moscow Bolshoi Opera's leading soprano, Galina Vishnevskaya, singing Aida.

Miss Vishnevskaya toured with the Moscow State Symphony and gave a Carnegie Hall recital last season, but it was America's first exposure to the dazzling vocal talents, personal beauty and acting ability that earns her a top salary of \$1,500 a month at the Bolshoi.

The audience reacted by giving her a welcome almost as wildly enthusiastic as those for the debuts of Maria Calas in 1956 and Leontyne Price in 1960.

"It was wonderful," said the 34-year-old Miss Vishnevskaya in her dressing room, using carefully rehearsed English. Then in Russian she told a friend, "The audience really was insane! It was one of the best I've ever had. I will never forget it!"

It was not a love fest from the start. Monday night is society

## UN Group Votes Ban On A-Tests

UNITED NATIONS, N. Y. (UPI) — The United Nations political committee, on record with two overwhelming votes against further nuclear weapons tests, turned today to a demand to declare all Africa a nuclear-free neutral zone.

Despite its advance rejection by all four nuclear powers, the General Assembly late Monday, by a 71-20 vote with eight abstentions, approved an Indian-originated demand for immediate renewal of an unexpired moratorium on nuclear weapons tests.

The assembly showed no disposition to vote quickly on another resolution, given a prior rejection by Russia, calling for resumption of negotiations on a nuclear test ban treaty under a fool-proof system of inspection and control.

The 103-nation world parliament was scheduled to meet this afternoon to consider colonialism and the economic development of Africa.

Ten African delegations had a resolution before the meeting of the political committee this morning which:

Requests all countries to refrain from carrying out nuclear or ballistic weapons tests in Africa and to eliminate or refuse to establish on the continent bases or launching sites intended for use in testing, storing or transporting such weapons.

Invites all countries to "regard and respect the African continent as a de-nuclearized neutral zone."

## Kennedy, Nehru In Meet Today

WASHINGTON (UPI) — President Kennedy was reported ready to tell Indian Prime Minister Jawaharlal Nehru today that the United States will not risk another unexpired "gentleman's agreement" with Russia to check the nuclear arms race.

Nehru was expected to contend that the risk of another nuclear test moratorium would be worth taking because Russia might not be willing to accept a dependable arms-control treaty.

U.S. officials said the nuclear testing issue, the Berlin crisis and other major international problems were likely to come up for discussion in the second day of the Kennedy-Nehru talks at the White House.

The hot war with Communist guerrillas in South Viet Nam and the elusive search for peace in Laos dominated their four and one-half hours of discussions Monday at Newport, R.I., and aboard the presidential plane en route to Washington.

Kennedy was said to have made clear that the United States would fight, if necessary, to block what he saw as a Communist plan of piecemeal conquest in Southeast Asia.

Immediately after the initial conference, Nehru publicly told Kennedy at an arrival ceremony here, "You stand for peace, I know, Mr. President, and I wish you all success in your efforts to maintain peace and freedom."

Kennedy praised the 71-year-old prime minister as "a friend, a great world leader" whose basic aspirations were the same as America's.

## Derailed Cars At Kingsmill Delay Trains

A couple of Santa Fe freight cars loaded with wheat derailed in a switching accident early today at Kingsmill and held up traffic on the two main line tracks.

The cars blocked traffic on the west bound line from 4:30 a.m. to 8:10 a.m. before the track was cleared. The west bound train number 4 was held at Kingsmill from 4:45 a.m. until 8:10 a.m. while the line was being cleared.

The east bound track was cleared at about 10 a.m.

Although the freight cars were loaded with wheat, there was little damage except for a turned over rail or two, said Kingsmill station agent Johnny Winters.

## Carrier Steams For Port With Victims Of Fire

NEW YORK (UPI) — The aircraft carrier Constellation, commissioned only 11 days ago because the worst shipyard fire in the Navy's history held up her launching, steamed for port today bearing the dead and injured from her second fire.

A leak in the fuel system in the Constellation's No. 1 machinery room Monday sprayed diesel oil over a 1,100-degree steam line.

The flames that shot up killed four men and injured nine, one of them critically. The flames were put out in 29 minutes and Capt. Thomas J. Walker, the skipper, messaged ahead that "damage was very minor."

The ship was due at the Brooklyn Navy Yard at 2:15 p.m. CST today.

Last Dec. 19, fire ravaged the Constellation at the Brooklyn Naval Shipyard, killing 50 and injuring 425. She was about 85 per cent complete at the time, but the fire delayed construction seven months.

She was finally commissioned Oct. 27 and was on her shakedown cruise in the Atlantic when fire broke out again.

The dead were identified as Machinists Mate 1c Bennie Crews, Neptune Beach, Fla.; Fireman Louis F. Lynch, Passaic, N.J.; Alfred Steinbuch, a civilian employe of the New York Naval Shipyard, Brooklyn, N.Y.; Eugene Miller, also a civilian, of Laurelton, Queens, N.Y.

## Flames Ravage Areas Adjacent To Los Angeles

LOS ANGELES (UPI) — Southern California was a blazing inferno today. Cyclonic fires, ravaged plush homes, toppled schools and forced thousands to flee for their safety.

It was the worst fire in Los Angeles history.

Gov. Edmund G. Brown declared the entire county a disaster area.

More than 250 homes, some belonging to Hollywood celebrities in the Bel Air district, were turned to heaps of ashes within minutes by the fire storm. About 8,000 square acres were charred.

It was feared fires in the Bel Air district and Topanga Canyon would meet to direct its combined threat toward the populated beach areas near Pacific Palisades.

By early today: —An estimated 30 persons were injured. —3,000 firemen were on the lines.

—Portions of St. Mary's College near Brentwood and the exclusive private John Thomas Dye School were leveled.

—3,000 persons had been forced to leave their hillside homes including former Vice President Richard Nixon.

—Fire destroyed the homes of several Hollywood stars including Burt Lancaster, Zsa Zsa Gabor, Joe E. Brown, producer Walter Wanger and Joan Fontaine.

—A fire in adjacent Benedict Canyon appeared virtually controlled.

—Another small fire in Angeles National Forest was controlled.

—Bombers had dropped 350 tons of chemicals on the fires which lighted up Southern California skies.

The first fire—the Bel Air blaze—started in Stone Canyon near Sherman Oaks Monday morning after most residents had gone to work. It rushed south leaping from canyon to canyon and finally reached the Bel Air district adjacent to Beverly Hills.

Water pressure dropped when stubborn home owners refused to give up. They kept homes damp as long as possible with garden hoses.

The blaze licked at the greens of the Bel Air Country Club then turned northwest toward Topanga Canyon where county fire units responded to an alarm which originally was thought to be minor but charred 2,000 acres when (See INFERNO, Page 4)

## Heroic Aviators Play Major Role In Fighting Fire

VAN NUYS, Calif. (UPI) — "It's the worst I've seen since Berlin," said a weary pilot who had flown time and again through the smoke, flames and fierce wind to dump 124 tons of fire-quenching chemicals on the burning hills.

"It's undoubtedly the worst natural fire I've ever seen," added Don Campbell, part owner of the AJ Tanker Service who is credited with being an originator of the borate bombing technique.

For 11 hours Monday, from the time the disastrous Bel Air fire began in the Santa Monica Mountains until it became so dark the lumbering airplanes were in danger of slamming into the jagged ridges, the planes kept up the battle.

At mid-afternoon, with firemen standing helplessly beside limp hoses because of lack of water pressure, some were saying the only thing that would stop the fire was the ocean.

But they didn't reckon with the little band of heroic aviators in 10 converted warplanes.

Despite the rough terrain and the vicious winds, they came in at tree-top level, dropping their borate-solution payloads on flaring hotspots.

They kept coming through the desperate hours, taking enough time between runs to land for more borate.

On the ground, 31 firemen labored daylong to keep the borate solution mixed with water and ready for the planes. Fourteen of those firemen were from the Los Angeles city department and had been called in on their day off.

The solution is mixed one part of borate to four parts of water. A gallon of borate weighs 10 pounds compared to about 8.5 for plain water.

Working without relief, they mixed 350 tons of the solution. The pilots dropped every bit of it, most of it with amazing accuracy.

The solution serves two purposes. In addition to being wet, the borate coats whatever it hits with a fine film which will not burn easily.

Winds over the fire were gusty and fierce. In addition to gusts of up to 50 miles an hour in some of the canyons, the fierce blazes generated their own winds—called fire storms.

A co-pilot on one of the bombers said: "We had to go in a lot lower than usual because of the wind. With that much wind, you can drop what would have been a bullseye, only to have it blown clear out of the target area."

# Talk With Champagne Maker Found Pleasing

By DICK WEST  
WASHINGTON (UPI) — There is a certain advantage which a French champagne news conference has over any other type of news conference that I have ever attended.

Even if it doesn't produce any news, it can still be a stimulating experience.

I made this rather obvious discovery yesterday at a news conference held by Joseph Dargent, a director of the French champagne producers' association, who is in this country making a market survey.

Dargent did not say anything that I would regard as being newsworthy, but I certainly did admire his technique.

He held his news conference in the wine cellar of a local hotel. And while we reporters pined him with questions, he pined us with French champagne.

Dargent is what I would call a versatile man. He has a doctor of law degree, he holds the American Medal of Freedom, he has eight children and he can open a champagne bottle without popping the cork.

Asked to explain the cork trick, he said the bottle must first be chilled to the correct temperature. Then you hold the cork and twist the bottle, rather than vice versa.

This enables you to balance the pressure of the gas with the pressure of the cork, so that neither noise nor liquid escapes. Dargent

frowns on the standard U.S. method, which is to hold the bottle between the knees and force out the cork with a Boy Scout knife.

"The pop is rather popular," Dargent conceded, "but we in French champagne think it's a pity to lose so much good wine."

So saying, he opened another bottle in eerie silence and we all moved on to the next lesson, which concerned taxes.

Dargent said his group was disturbed by the fact that the U.S. tax on sparkling wine was about four times higher than the levy on still wine. He said this was tantamount to taxing bubbles.

While we were writing this down, a hotel waiter took over the bottle opening chore. It popped, but Dargent maintained his composure.

He told us that it takes three to five years to make champagne, which is why it is so expensive; that the vintage champagne years for no apparent reason, usually are "odd-numbered"; and that champagne keeps best in a 46-degree temperature.

One of the journalists sought to needle Dargent a bit by recalling that the gold medal at the 1889 Exposition in Paris was awarded to a champagne produced in upstate New York.

"Which was a great mistake on our part," Dargent suavely replied.

## Executive Shifts

NEW YORK — Augustus C. Long, Chairman of the Board of Texaco Inc., today announced five executive changes.

Arch W. Baucum and Marion J. Epley, Jr., have been elected to the newly created positions of Executive Vice President.

John W. Green, Vice President, Domestic Sales, was elected Senior Vice President in charge of World-Wide Marketing, succeeding Mr. Epley.

Homer O. Woodruff, General Manager, Domestic Producing succeeds Mr. Baucum as Vice President in charge of the Department.

John I. Mingay, General Manager, Domestic Sales Department, succeeds Mr. Green as Vice President and General Manager of the Department.

## After the Market

NEW YORK (UPI) — The railroads finally are stealing a march on truckers. In 1958 approximately 87 per cent of all new motor vehicles were shipped by road and only 9.9 per cent by rail. Now railroad officials look for their share of this market to increase by at least 25 per cent over the next year or two as a result of more efficient auto-carrying flatcars.

## Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTETH at any drug counter.

## Scientists Look To Ocean Floor For Earth Facts

NEW YORK (UPI)—Does the Atlantic Ocean have a glass bottom? Two scientists believe it may well have, and they're eager for other oceanographers to look into the question. The promise is of fresh and important news concerning the birth of the earth.

G. D. Nicholls and V. T. Bowen were believed to be the first scientists to get a sample of the actual ocean bottom with which to make something of. What they made of their sample was that the earth may have been still in a molten state when the hollows began filling with water to form oceans.

They were not dealing with accumulated layers of sediments on the ocean bottom, mind; but with the underpinning of those sediments which is much closer to the earth's core than anything even remotely accessible to hole-diggers on the continents.

What they had was a small chunk of natural glass, very dark brown, almost black in color, which was so brittle it broke almost from being touched. It resembled natural glass formed by intense heat in the rocky layers of the continents, but chemically it was entirely different.

Its water content was extremely high. This together with other peculiarities of composition suggested the heat which formed it was under water—that the earth was a simmering lump of molten metals at the time it came into existence.

Nicholls and Bowen were part of the scientific staff aboard the research vessel of the Woods Hole (Mass.) Oceanographic Institution last April and May when it was taking samples of deep Atlantic sediments. This is done with a long, heavy cylinder which cuts cores out of the sediments.

At a depth of 14,530 feet, which is almost 3 miles, the cylinder had barely penetrated a red clay sediment when it struck the hard ocean bottom. Since the bottom was glass, the impact cracked it, and a fragment caught in the corner and was hauled to the surface.

Nicholls and Bowen are eager for ocean scientists to concentrate on getting samples of the actual bottom. They're needed to show if this first sample is truly representative or if it is only an unusual type of bottom material which does not form the whole bottom.

revolution, he was under house arrest after his life sentence based on the treason charges was suspended.

On Sunday, he says Mass for the legation staff. Once a day, the cardinal exercises in the 40-by-20-foot legation courtyard.

The only people he sees are those senior officers of the legation who hold the keys to the heavy iron door leading to his quarters. From the outside world, only his aged mother, who died two years ago, was permitted to see him regularly.

Legation sources say Mindszenty's health is excellent. Western newsmen have not been allowed to talk to him since he entered the legation.

Inside the building, the cardinal is calm. Outside the building, the gunmen remain.

## Gunmen Waiting Day Cardinal Reappears

(EDITOR'S NOTE: On Nov. 4, 1956, Josef Cardinal Mindszenty, Roman Catholic primate of Hungary, entered the U.S. legation in Budapest and asked for political asylum a few hours after the Soviet army had started its attack to crush the Hungarian revolt against Communist oppression. This is his situation five years later.)

VIENNA (UPI) — Outside the U.S. legation in Budapest waits an eight-man squad of Hungarian secret police. They watch the building day and night.

Two more agents wait in separate patrol cars. When someone leaves the legation, or civilians approach it, they warm up the engines.

They are gunmen waiting for their quarry. Their target—a man who entered the legation five years ago.

Inside the building, an American diplomatic officer locks himself up every night to watch the man—Josef Cardinal Mindszenty.

On Nov. 4, 1956, as Russian tanks rumbled through the streets of Budapest, putting an end to the Hungarian revolt, Mindszenty asked for political asylum. He has remained within the legation since that day—a prisoner within the walls of freedom.

Apparently, Mindszenty's case has become taboo for both the Hungarian Communists and the U.S. State Department, since the last official diplomatic move on his behalf was made in 1958.

To the Hungarian regime of János Kadar, the cardinal—in terms

of George Orwell's "1984"—has become an "unperson." In 1949, at his trial on trumped-up treason charges, Mindszenty was labeled the arch-enemy of the Hungarian people, the incarnation of the devil.

Now, the official Communist press has stopped mentioning his name so people will forget he exists.

"As far as we are concerned," Kadar once said, "he can stay in the U.S. legation as long as he wants to, die there and go to heaven or hell."

To the United States, Mindszenty has become a frustrating diplomatic case with no solution in sight. When negotiating for Mindszenty's safe conduct to leave Hungary, the State Department ran into a triple "no"—from the Hungarian regime, the Vatican, and the cardinal himself.

According to church sources, the cardinal, which disapproved of the cardinal's decision to seek sanctuary in the legation after the revolt broke down, now wants him to stay on, so at least nominally he continues to be the head of the Hungarian Catholic Church.

But as things now stand, the man who fought both the Nazis and the Communists may die ironically as a prisoner on American territory on "Liberty Square" in Budapest.

In his apartment, Mindszenty spends his time reading and writing his voluminous memoirs. They deal mainly with his fight against the Nazis and eight years of confinement by the Hungarian Communists, which began in 1948. For the 15 months prior to the 1956

### Baptists Urged To Expand Work Among Africans

AUSTIN (UPI)—Dr. Giles Fort, a Southern Baptist missionary to Southern Rhodesia, Monday urged Baptists to provide money and missionaries to take the gospel to new African nations before "materialism, nation-ism and communism" claim the allegiance of the more than 200 million people there.

Fort spoke before the 81st annual Women's Missionary Union convention.

"The old way is dead in Africa," he said. "New nations are being formed."

Fort predicted more than 90 million Africans will change religion in the next 10 years. He also said a surge of nationalism within the next three years will leave only two colonies in Africa ruled by white men—the Union of South Africa and Southern Rhodesia.

The women's missionary union convention closes today with election of a new president to succeed Mrs. Clem Hardy of Bremond, who has served the past six years.

Following the convention, more than 6,000 delegates are expected from nearly all of the 4,000 Baptist churches in the state, at the Baptist General Convention of Texas.

### Inferno

(Continued From Page 1)

caught by 65 mile an hour winds. One witness said, "It's similar to the fire storms that struck some cities during heavy bombings during the war . . . The only things standing are chimneys. It reminded me of Manila after the United States forces returned in World War II."

Flames lit up the sky throughout Los Angeles. Every available policeman and deputy was on duty as well as firemen to halt looting.

Some arrests were reported. Inspector Don Dorsey of the city Fire Department said it was the first time in six years every off-duty fireman was called to duty.

"We evacuated some just in time," said Deputy Fire Chief Thad Whippo.

Wagner's opponent, State Atty. Gen. Louis Lefkowitz, has contended that Wagner and the unions were dragging their feet in trying to reach a contract in order to announce a settlement at a politically advantageous time for the mayor.

Lefkowitz today charged that any hike in the cost of milk "is a Wagner milk price increase." Lefkowitz said that a one-cent price rise would add \$20 million a year to residents' milk bills.

The union said deliveries to homes would start today and should be back to normal by Wednesday.

Ohio ranks third amongst U.S. cigar producers, following after Pennsylvania and Florida.

### Gas Study To Be Included In Oil Production Survey

SAN ANTONIO, Tex. (UPI)—A subcommittee on the Interstate Oil Compact Commission agreed Monday to add a preliminary study on natural gas and gas liquids to its survey of crude oil production and reserve.

The subcommittee is studying the equality of opportunity to produce oil in the 33 member-states of the compact. The members decided they could get all information needed for the study from the 33 state oil and gas regulatory boards and would not have to go directly to the oil producers.

The subcommittee also recom-

### Gotham Milk Famine Ends

NEW YORK (UPI)—Striking milkmen, their two-week walkout settled, returned to the job today, opening the flow of milk to 10 million New York City and Long Island customers.

Dairy industry spokesmen said the settlement would cost consumers one to two cents more for a quart of milk. The average price for home-delivered milk has been about 27 cents a quart.

The Teamsters Union ordered three striking locals to return to work after agreeing to a settlement calling for an \$11 a week wage and welfare package and binding arbitration on one unresolved issue—the method of recording and computing route drivers' overtime.

Final phrasing of the contracts still is to be worked out and representatives of both labor and management were to meet again today to wrap up what was called some "lawyers' work."

There was a chance that new disagreements could crop up in wording the pacts—to scuttle the settlement, but it was not considered likely. The locals must approve the contract in voting expected Wednesday.

Wagner asked David L. Cole, director of the Federal Mediation and Conciliation Service in the first Eisenhower administration, to serve as arbitrator.

The strike was settled on the eve of the New York mayoral election and continued even today to figure as a major campaign issue.

Wagner's opponent, State Atty. Gen. Louis Lefkowitz, has contended that Wagner and the unions were dragging their feet in trying to reach a contract in order to announce a settlement at a politically advantageous time for the mayor.

Lefkowitz today charged that any hike in the cost of milk "is a Wagner milk price increase."

Lefkowitz said that a one-cent price rise would add \$20 million a year to residents' milk bills.

The union said deliveries to homes would start today and should be back to normal by Wednesday.

Ohio ranks third amongst U.S. cigar producers, following after Pennsylvania and Florida.

### L. N. Strader Rites Wednesday

Funeral services for Lee Nelson Strader, longtime resident of Canadian, will be held at 3:30 p.m. Wednesday in the First Baptist Church in Canadian.

Mr. Strader, a retired farmer, died at 1:55 p.m. Monday—in the Smith Rest Home in Wellington, where he had been a patient for 14 months.

He was born Aug. 12, 1874 in Greensburg, Ky. and came to Canadian at the age of 30. He was a member of the First Baptist Church.

Survivors are five nieces, Mrs. Martha Fielder of Amarillo, Mrs. Mary Lee Hoobler of Canadian, L. E. Long, owner of Long's Mrs. Wanda Hargus of Alexandria, Va., Mrs. Doris Little of Fridona, N.Y., and Mrs. Gladys Haulk of Salamanca, N.Y.; two nephews, Coleman Strader of Springfield, Mo. and Claude Leslie Strader of Salamanca, N.Y.

Interment will be in the Edith Ford Memorial Cemetery in Canadian.

### Work On Amistad Dam To Begin In '63, Group Told

MALLEN (UPI)—The Texas Water Conservation Association was told Monday that construction on the Amistad Dam near Del Rio will begin in the summer of 1963.

Col. Leland H. Hewitt of El Paso, U.S. commissioner for the International Boundary and Water Commission, told the group that another dam is scheduled to be built on the Rio Grande by the spring of 1967.

Max Starke of Austin was re-elected president of the Water Conservation Association at the close of its two-day 17th annual convention, J. E. Sturrock of Austin was named general manager.

Vice presidents elected were T. J. McFarland of Lubbock, W. S. Gideon of Austin, C. B. Jeffery of Devers, Stephen J. Matthews of Austin, R. H. Parker Jr. of Matagorda and E. Jack Turner of Freeport.

Hewitt reported that Falcon Dam, the first big reservoir to be built along the Rio Grande, more than paid for itself in its first year. He said it prevented about \$55 million in flood damage to the U.S. side of the Lower Rio Grande Valley in 1954.

Maj. Gen. Robert J. Fleming of Dallas, southwest division engineer for the Army Corps of Engineers, warned the convention that Texas will fall far behind other areas unless it begins taking concrete action to prepare to meet future water needs.

John Vandertulip of Austin, chief engineer for the State Board of Water Engineers, agreed with Fleming and said many areas of the state will suffer serious water shortages by 1980 "if we do not get water projects moving."

The two engineers said Texas will have sufficient water if enough reservoirs and other projects are constructed. But if nothing is done, they said, Texas could become "just a supplier of raw materials to other more progressive sections."

### L. N. Strader Rites Wednesday

Funeral services for Lee Nelson Strader, longtime resident of Canadian, will be held at 3:30 p.m. Wednesday in the First Baptist Church in Canadian.

Mr. Strader, a retired farmer, died at 1:55 p.m. Monday—in the Smith Rest Home in Wellington, where he had been a patient for 14 months.

He was born Aug. 12, 1874 in Greensburg, Ky. and came to Canadian at the age of 30. He was a member of the First Baptist Church.

Survivors are five nieces, Mrs. Martha Fielder of Amarillo, Mrs. Mary Lee Hoobler of Canadian, L. E. Long, owner of Long's Mrs. Wanda Hargus of Alexandria, Va., Mrs. Doris Little of Fridona, N.Y., and Mrs. Gladys Haulk of Salamanca, N.Y.; two nephews, Coleman Strader of Springfield, Mo. and Claude Leslie Strader of Salamanca, N.Y.

Interment will be in the Edith Ford Memorial Cemetery in Canadian.

### Mrs. Campbell Rites Tomorrow

Interment rites for Mrs. Marjorie Campbell, wife of Dr. W. L. Campbell, east of the city will be held at 2 p.m. Wednesday in the Duenkell-Carmichael Funeral Chapel with the Rev. James Mitchell, pastor of the First Christian Church in Canadian, officiating.

Mrs. Campbell died at 5:30 p.m. Monday in the Worley Hospital.

She was born Oct. 20, 1904 in Canadian and had lived there all of her life until 1956 when she moved to Pampa. She was the daughter of Tom S. Jones, a pioneer rancher of Canadian, who died in 1927.

She was a member of the First Christian Church in Canadian.

In addition to her husband, she is survived by two sons, Richard Allen Waterfield and James Bruce Waterfield, both of Canadian; and two grandchildren.

Pallbearers will be John McMordie, Frank McMordie Jr., Hobart McMordie, John Chambers, Jack Osborne and Warren Fatheree.

Interment will be in the Canadian cemetery.

### Rodeo Officers To Be Elected

The board of directors of the Top O' Texas Rodeo Association will meet at 7:30 p.m. Thursday in the Chamber of Commerce office, city hall.

Highlight of the meeting will be the election of officers for the coming year.

Present officers are: Jack Osborne, president; Charles Robinson, first vice president; Wiley Reynolds, second vice president; Floyd Watson, treasurer and E. O. Wedgeworth, secretary.

### Licensed Liquor Dealers Charged

Two Pampa licensed liquor dealers appeared before County Judge William J. Craig yesterday on charges of permitting an intoxicated person on their premises.

L. E. Long, owner of Long's Package Liquor Store, 609 W. Foster, pleaded not guilty and was released on \$500 bond.

Emma Dell Niblett, package dealer, 527 Elm, pleaded guilty and was fined \$100 and costs.

The complaint was signed by James Cherry, area representative of the Texas Liquor Control Board.

### Gift Wrapping Class Scheduled

A free class in gift wrapping will be conducted at the LaVista Theater at 2:30 p.m. Wednesday under sponsorship of the Heard Jones Drug Store.

All the wrapping techniques of the experts will be available during the class instruction by Tom Knorth, representative of the Tie Tie Co., Chicago.

### Ring Gets Around

NEWPORT, Vt. (UPI)—Police here found a high school ring belonging to Margaret T. Donohue five years after it had been lost. She said, "I can't understand how the ring was ever found in Vermont as I have never been there."

### Little Theater Play Selected

"Arsenic And Old Lace" has been selected by Pampa Little Theater as its first, in a series of four presentations, for the current season and will be presented Jan. 19-20, according to Homer West, PLT president. Other productions are planned for April, July, and October of next year.

Mrs. Jack O. Miller, University of Texas drama major, has been named as director for the first play. While at the University, Mrs. Miller played ingenue roles in such plays as "Green Grow The Lilacs," "You Touched Me"; the comedy lead in "Arms and The Man" and as Elvira in "Blithe Spirit." During one summer, she was associated with a summer stock company in New Braunfels, where she played Emily in "Our Town" among other roles.

"Arsenic And Old Lace," a mystery-comedy, was first produced as a Broadway play in 1941 with Boris Karloff and Josephine Hull in the leading roles. In the movie version, Gary Grant had one of the leading roles.

The play is cast with 11 male and three feminine roles; a masculine romantic lead, a feminine romantic-lead; two elderly maiden aunts; a sinister "Boris Karloff" character; a German doctor; a "nice" psycho; three elderly gentlemen; and four policemen.

There was a large turn-out for parts last night in the PLT's rehearsal hall, 612 W. Browning.

"The play could be cast from those trying out last night, but in order to allow all members, who are interested, but who were unable to be present last night, a second try-out will be held tonight at 8 p.m. 612 W. Browning," Mrs. Miller said this morning. "All members trying out last night are urged to come back again tonight, as well as those who were unable to be present last night. This will be the final try-out, however."

### Two Truck Tires Reported Stolen

E. H. Scrimshire, 2105 N. Wells, reported to city police yesterday, two spare mud grip tires were stolen from his pickup truck sometime Sunday night.

Scrimshire told officers the truck was parked in front of his home at the time the tires were stolen.

### More Toys Are Needed By Firemen

Earnest Winborne, fire chief, said today wheel toys of all kinds are needed for the annual collection of new, used or broken toys to be repaired and distributed at Christmas time to underprivileged children in the city.

The collection and repair of the toys is sponsored by the city fire department.

Firemen from substations or central station will pick up toys from donor's homes or toys can be left at the central fire station.

The toys will be repaired and painted in time for the annual Christmas party to be held in the VFW Hall, Winborne said.

### Mainly -- About People --

The News invites readers to phone in or mail items about the comings and goings of themselves or friends for inclusion in this column.

\* Indicates paid advertising

Paul Green of Chapel Hill, N.C., Pulitzer Prize winner, will speak about plans for the play to be presented in the Palo Duro Canyon, based on Panhandle history, to members of the Texas Panhandle Heritage Foundation Inc. on Sunday afternoon, Nov. 12 at 3:30 p.m. in the Fine Arts Building at West Texas State College in Canyon.

For rent 6 room house. 297 E. Browning. MO 4-3193.

Bob Arthur, freshman student at West Texas State College, Canyon, had as houseguests this weekend, Leslie Rolando of Odessa and Jim Farley of Marietta, Ohio, who are WTSC classmates.

Alcoholics Anonymous meets every Friday 8:00 P.M. 314 1/2 North Cuyler.

Mr. and Mrs. Bill Langley of Canyon are the parents of a son born Nov. 1 in Neblitt Hospital in Canyon. The infant weighed 6 lbs. one ounce and has been named Kevin Eugene. Mrs. Langley is the former Gail Chisum. He is also welcomed by maternal grandparents, Mr. and Mrs. Clyde Chisum, south of Pampa, Mr. and Mrs. Vernon Langley, 622 Sloan.

Used blond piano. MO 4-6571.

### Traffic Safety Drive Planned By Commission

Bob Hudson, chairman of the Pampa Traffic Commission, presided over the weekly session yesterday held in the Coronado Inn.

A committee headed by Doc Stuart was appointed to work with civic organizations in an effort to better educate residents in good traffic safety.

It was recommended to the City Commission that owners of hazardous signs, that is signs on the right-of-way which obstruct motorist's vision, be sent letters reminding them that they are breaking a city law and that the signs be removed.

A letter was read requesting a stop sign at 18th and Charles. Information as to accidents there was submitted by Stuart. Traffic Commission officers voted to ask the City Commission to erect a sign there in accord with directions of Traffic Engineer Monroe Moore.

Members attending were: Claude Wilson, Mel Keiffer, Jack Miller, R. B. Cooke, Monroe Moore, Mrs. Jack Hood, Hudson and Stuart.

NEW YORK (UPI)—Facsimile transmission by wire of plans, blueprints and documents is now possible at the rapid speed of 10 pages a minute. A. B. Dick Company's high-speed Videograph unit does the job on wide-band transmission lines.

Keeping Mail Safe  
BURLINGTON, Vt. (UPI)—The locks on all 90 boxes in the city's new multi-million dollar post office had to be replaced when it was discovered that some of the keys opened more than one box and other boxes would not lock when slammed shut.

### Legal Publication

CITATION BY PUBLICATION  
TO ALL PERSONS INTERESTED IN THE ESTATE OF WATIE T. HARRIS, Deceased, No. 2442, County Court, Gray County, Texas. Don Call Administrator in the above numbered and entitled estate, filed on the 24th day of November, 1961 his verified account for final settlement of said estate and requests that said estate be settled and closed, and said applicant be discharged from his trust.

Said application will be heard and acted on by said Court at 10 o'clock A.M. on the first Monday next after the expiration of ten days from date of publication of this citation, the same being the 20th day of November, 1961, at the County Courthouse in Pampa, Texas.

All persons interested in said estate are hereby cited to appear before said Honorable Court at said above mentioned time and place by filing a written answer contesting such application should they desire to do so.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

GIVEN UNDER MY HAND AND THE SEAL OF SAID COURT at 10 o'clock A.M. this 20th day of November, A.D. 1961.

Charles Thut, Clerk of the County Court, Gray County, Texas.

J. Jerry Steger, Deputy

While she runs hot water into the tub, this homemaker creams her face and neck. Steam from the tub will open pores and let the cream do its work as she bathes.

### Growing Old Gracefully Doesn't Mean Falling Apart Physically

By ALICIA HART  
Newspaper Enterprise Assn.

Very gradually, we are coming to recognize the fact that there's really nothing very exhilarating about the physical process of aging. Wrinkles and gray hair never made any woman feel happier. And they are no indication at all of an inner maturity. Growing old gracefully doesn't need to mean falling apart physically.

Once you've recognized this fact, you can tackle the matter of good looks in the mature years with confidence. You know that you're being neither vain nor silly to want to look your best.

You can't avoid all facial lines, of course. And you really shouldn't want to. But neither need your face be wrinkled like crepe if you take care of your skin. Actually, this is the key to the secret of any lovely skin, from teen years on. Daily and faithful care.

Make your nightly bath, for instance, work for your skin. While you run hot water into the tub, cream your face and

### Central Baptist WMU Meets For Mission Program

Ladies of Central Baptist Woman's Missionary Union met on Wednesday morning in the church for monthly business meeting and mission program. Mrs. Jack Cullison, president, presided and led an opening prayer.

DORIS JACKSON CIRCLE presented the program. Printed programs were handed to each woman as she entered the program room. An introductory skit was presented by Mmes. Norris Hall and Wayne Cobb. Mrs. B. J. Fulcher gave the devotional.

Five women gave program parts on new mission fields. They were as follows: Mmes. Dale Gallaher, France; Hershel Sanders, Portugal; Jack Cullison, Okinawa; Don Turner, Vietnam; and Dan Johnson, Sumatra.

Mrs. Cullison read the calendar of prayer. The hymn, "O God, We Pray for all Mankind," was sung as a benediction.

Forty-eight women were present. A noon luncheon was held in the church's fellowship hall.

### SOCIAL CALENDAR

TUESDAY  
2:30 — Twentieth Century Cottillon, Guest Day Coffee, Lovett Memorial Library.  
2:30 — Twentieth Century Allegro Club with Mrs. Carl Hill, 2334 Mary Ellen.

### Thimblette Club Planning Party

GROOM (Spl) — The Thimblette Needle Club met recently in Community Club House with Mrs. John London and Mrs. Veima Jones as hostesses.

Mrs. John L. Witt was awarded the hostess gift.

Mrs. Mert Kendrick and Mrs. L. C. Jones were welcomed as new members.

Refreshments were served during the social hour.

It was announced that the next meeting will be a Thanksgiving party with husbands of members as special guests.

Attending were Mmes. Charlie Field, Crism Goodlett, Preston Harden, Bob Newton, Turner Kirby, Nath Helton, Ross Nix, John Reed, John Witt, Mert Kendrick, L. C. Jones.

OVERCOME IT  
Force yourself to overcome shyness. It's a self-built barrier between you and those with whom you'd like to be friends. When you've won your battle, you'll find a whole new world opened to you.

### Dear Abby... Little Man Has A Busy Life

By ABIGAIL VAN BUREN

DEAR ABBY: I have been married 15 years and have 9 children. I love my husband more than words can express. A few weeks ago he came home and told me he didn't love me any more, and that he found somebody else. He said it all started years ago when I wouldn't go out with him. I did sort of stay around the house because the children needed me and, besides, I was always pregnant. Now he wants out. He says he can't support two homes. Please tell me what to do. I am 32 and he is 33.

NERVOUS  
DEAR NERVOUS: Small wonder he can't support two homes when one home has nine children. No matter what he is, he is yours. Hang onto him.

DEAR ABBY: In the midst of my happiness, I have a problem. I recently became engaged to a wonderful man and am planning my wedding. My father is a minister, and I know that he has always wanted to officiate at my wedding. The man I am going to marry is the son of a minister. I have known his father many years and have grown to love him almost as much as my own father. I would like very much for my future father-in-law to perform my marriage ceremony, but I don't want to hurt my own father's feelings. Is there any way this could tactfully be arranged?

TO BE WED  
DEAR TO BE: Your father

### HD Club Members Tour Boys' Ranch

SKELLYTOWN (Spl) — Carson-County Home Demonstration Club members were recent luncheon guests at Cal Farley's Boys' Ranch and were taken on a guided tour of the ranch. The group left Panhandle at 9:30 a.m. and arrived at the ranch at 11 a.m., where they were welcomed by ranch personnel.

Following luncheon, the delegation boarded ranch buses and took a two-hour guided tour of the ranch including the dormitories. A history of the ranch was explained by the guides; also the curriculum of the school which teaches all subjects included in a first-class high school with the exception of home economics and band. Plans are in the making for band instruction.

Members learned that there are 276 boys at the ranch and one girl. The girl has two brothers there and she is cared for by the dorm parents of the Fryling Plan, who have a small daughter of their own.

Enroute home, the group visited Boot Hill, which has been restored by the boys from the ranch.

Members taking the tour were Mmes. Gerald Huckins, John Pender, Gertrude Huckins, Floyd McCoy and Leroy Snodgrass.

## Raised Waistline High In Spring Fashions

By GAY PAULEY  
NEW YORK (UPI)—The high waists and silhouettes for spring gets added supporters as more manufacturers preview their collections for the next fashion season.

Latest to join the ranks is Larry Aldrich, whose chief designer, Marie McCarthy, featured the above-the-normal waistline in both daytime and evening clothes.

"The raised waistline in varying degrees is important for spring," said Aldrich as he showed his collection late Wednesday.

Wide Fabric Insets  
Aldrich's designer defined the new waistline with wide insets of fabric through the midriff, with seaming or bands of fabric under the bust instead of at the waist, or with vertical darts sewn from the hem of brief jackets to shape them to the mid-section of the body.

Aldrich showed normal waistlines too—many of them belted tightly in black patent.

The Aldrich collection also added emphasis to the soft look which promises to take over by spring. Floating chiffons are replacing the stiff silks of past seasons, the bias cut abounds in

OUR ANCESTORS by Quincy

"Yeh—and I'll stay this way until barbershop prices come down!"

oath. For centuries, an Englishman who would not take such an oath could not enforce his rights. Today, other solemn declarations are allowed to bind a person's conscience instead of an oath referring to God.

The U.S. Constitution says that "no religious test shall ever be required as a qualification to any office or public trust under the United States."

Though some federal oaths have religious references, the government cannot force a person to profess a belief or disbelief in religion.

Government cannot "establish religion" and must remain out of religious activities so far as possible.

How far can the government go in religious activities? The state can provide buses for parochial schools to promote safety for children (not to establish religion). State schools may release children for church classes. A church or church school may claim tax exemptions.

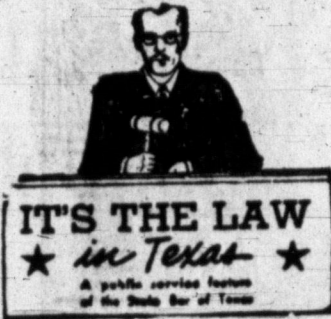

In the past, the U.S. has provided funds for ex-G.I.'s to go to colleges, some of them religious. The Armed Services have long had chaplains of various religious faiths. A long time ago the U.S. used funds to aid missionaries.

(This newsfeature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

tary's commission. To get it, he would have had to declare his belief in God. Refusing to make this religious declaration, he got no license. He sued for it and lost.

He took his case to the U.S. Supreme Court. The court said he should get his license without taking the religious oath. The court will not enforce such a state law since it violates the safeguards of freedom of religion.

At common law all oaths referred to God. Their reference to God was a reminder of possible divine punishment for a false

# Texas Becomes No. 1 Club

## Alabama Moves Into 2nd Place

NEW YORK (UPI) — Texas and Alabama, boasting perfect records this season, ranked 1-2 today in the United Press International college football ratings following last Saturday's upsets of Michigan State and Mississippi, the previous front-runners.

The powerful Texas Longhorns, who have scored 233 points against their opponents' 46, received 21 first-place votes from the 35 coaches who comprise the UPI weekly rating board. All told, Texas accumulated 330

# Tribe Sews Up District 5-AA Crown

Quannah's undefeated and untied Indians officially clinched the 5-AA grid crown and a state playoff berth last Friday by walloping Wellington 48-6.

Meanwhile, Childress and Perryton battled to an 8-8 tie in a clash to decide second place. The tie was only the second mar on Childress' record having lost previously to Quannah 15-0.

Shamrock's Irish strapped Spearman 36-0 to take over undisputed possession of fourth place in the standing.

Blackie Wade, Jerry Shelton, Everett Kelley, Harold Nippert and Danny Scarborough all got into the scoring act for Coach Bill Davis' Indians against Wellington. Quannah rolled to a 20-6 first half margin and coasted to victory.

The Indians will meet the winner of district 6-AA in the first round of the state playoffs. Four teams are tied for the lead in that district.

They are Stamford, Hamlin, Haskell and Anson. Quannah opened the season with an upset 20-0 victory over Stamford, a perennial powerhouse.

Stamford plays Hamlin and Anson meets Haskell to wind up the schedule Friday night. If Stamford and Anson win, the latter will represent the district on strength of its win over the Bulldogs.

Or Stamford can win by beating Hamlin if Haskell beats Anson. Or Hamlin can take it by beating Stamford if Anson stops Haskell.

And Haskell could make the play-offs with a win over Anson, but only if Stamford loses to Hamlin.

Quannah continues as the scoring and defensive leader. The Indians have scored 314 points and have allowed only 32.

This Friday, Quannah shoots for victory no. 10 against Shamrock. Spearman hosts Perryton and Wellington closes out against Childress.

The standings are:

Season Standings	W	L	T	Pts.	Opp.
Quannah	9	0	0	314	32
Childress	7	1	1	206	56
Shamrock	5	4	0	162	112
Perryton	3	5	1	105	112
Spearman	3	6	0	75	196
Wellington	1	8	0	68	168

District Standings

W	L	T	Pts.	Opp.	
Quannah	4	0	0	119	12
Perryton	2	1	1	57	21
Childress	2	1	1	72	31
Shamrock	2	2	0	44	57
Spearman	1	3	0	22	119
Wellington	0	4	0	18	92

Schools To Vote On TIL Proposals

AUSTIN (UPI)—Junior high schools and grade schools may be prohibited from holding spring football practice. It all depends upon how the majority of schools votes.

The University Interscholastic League disclosed Monday it is placing the proposal before all member schools. The legislative council of the UIL recommended the spring practice ban, and the league approved the recommendation for an election.

Should most Texas schools approve the rule, it would become effective in September, 1962, but would not be retroactive.

SCHEDULE FALL MEETING BRISTOL, Va. (UPI)—Chauncey Devant, president of the all-rookie Appalachian League, said the circuit will hold its fall meeting here Sunday to prepare the preliminary groundwork for the 1962 season.

54th YEAR TUESDAY, NOVEMBER 7, 1961 9

# 'Dogs, Palo Duro And Rebels Tied For Loop Lead

The district 3-AAAA grid race is in a mess.

But it is not the first time for things to be so scrambled in this hectic eight team league. Amarillo and Monterey tied for the championship in 1959 with Borger and Tascosa just a half-step behind.

Palo Duro, Tascosa and Borger are tied for the lead with one loss each. Actually Tascosa's Rebels are a half-game behind since they have played one less contest.

Coach John Reddell's Palo Duro Dons threw the race into the tie by upsetting Tascosa 14-6 Saturday while Borger watched after spilling Amarillo 20-6 Friday night.

Tascosa whipped Borger 7-0, the Bulldogs trimmed Palo Duro 21-14 and then the Dons laced the Rebels to account for each team's defeat.

Borger and Palo Duro are open this Friday but Tascosa can climb into an actual deadlock by beating Monterey at Lubbock.

However, if the Rebels were to lose to Monterey, Borger would get the title by virtue of their win over Palo Duro providing each team win their final game.

Gordon Nelson, the district's leading scoring and top offensive player, paced the Palo Duro victory. He scored once on a one yard dive and passed 35 yards to

White Deer hosting Stratford in a battle for third place, champion Gruver going for its 10th straight against Sunray and Stinnett hosting Panhandle.

White Deer will also be making its farewell to class A football for the Bucks advance to AA along with Stinnett. Coach Colie Huffman's crew have the second best defensive mark in the loop. They have allowed only 45 points to Gruver's 44.

Stratford is the offensive leader with 230 points.

The standings are:

Season Standings	W	L	T	Pts.	Opp.
Gruver	9	0	0	202	44
Stinnett	7	2	0	210	109
Stratford	7	2	0	230	101
White Deer	6	2	1	184	45
Panhandle	3	6	0	60	106
Sunray	2	7	0	118	269

District Standings

W	L	T	Pts.	Opp.	
Gruver	4	0	0	82	22
Stinnett	3	1	0	101	61
White Deer	2	2	0	87	25
Stratford	2	2	0	88	91
Panhandle	1	3	0	28	76
Sunray	0	4	0	46	160

The schedule this Friday finds

end Jim Douglas for the winning touchdown.

Tascosa had taken a 6-0 first quarter lead following a 45-yard punt return by Mark Yarbrough to the Dons' five.

In other loop action Friday, Monterey polished off cellar-dwelling Plainview 41-0 and Lubbock moved into fifth place by thumping Pampa 33-12.

Pampa goes to Plainview and Lubbock to Amarillo in other 3-AAAA games Friday night. The Westerners can clinch fifth place with a win over the stubborn Sandies.

PILE UP — These are not tumbler in a pyramid but basketball players at Madison Square Garden. At the top is Wilt Chamberlain of Philadelphia, sending a soft layup into the basket. Surrounding him are Los Angeles' Tom Hawkins and Jerry West, dark uniforms, and Warrior Tom Meschery (14) and Paul Arizin (11).

# Quarterback Club To Meet Tonight

The Pampa Quarterback Club will hold its weekly meeting tonight at the high school cafeteria at 7:30.

A short business session will precede a scouting report on the Plainview Bulldogs, the Harvesters' opponent Friday night.

A film of the Lubbock-Pampa game will also be shown.

Read the News Classified Ads

# McLean And Lefors Play For Crown

Defending champion Lefors and favored McLean tangle Friday night at McLean for the district 2-A grid title and the right to play 1-A kingpin Gruver in bi-district.

Both teams turned in wins last Friday to up their district records to 3-0. McLean's Tigers clubbed Clarendon 28-6 and Lefors blanked Memphis 13-0 while Canadian took the week off.

McLean has the most impressive record. The Tigers of Derrall Davis have won eight and lost once. They were defeated 20-6 by the White Deer Bucks in mid-season.

The Tigers hold triumphs over Shamrock 28-22; Wheeler 42-16; Groom 49-0 and Claude 32-0 in non-conference activities. In district action, McLean has rolled over Memphis 13-12; Canadian 35-6 and Clarendon.

By the same token, Lefors tripped up Memphis, Canadian 18-8 and Clarendon 22-20 in 2-A competition.

In outside contests, the Pirates finished 2-3-1 in the face of a rugged schedule. Coach Durney Goode's crew capped wins over Wellington and Panhandle by 14-0 counts and tied White Deer 6-6. Their losses were by a total of 13 points to Stinnett 14-12; Shamrock 6-0 and Stratford 12-7.

Canadian and Memphis play in the other game to end their season. Clarendon finished last Friday.

The standings are:

Season Standings	W	L	T	Pts.	Opp.
McLean	8	1	0	273	82
Memphis	6	3	0	229	80
Lefors	5	3	1	106	66

# 12 District Champs Named In Class AA

By United Press International

It's down to the wire for 20 districts this week before they can determine a representative in the state Class AA schoolboy football playoffs which open a five-week run next week.

Only a dozen of the 32 berths have been clinched going into the final week with certification of playoff teams due by midnight Saturday.

Although most of them still have a game to play, Dalhart in District 1, Floydada in 2, defending state champion Denver City in 3, Quannah in 5, Hamilton in 8, Duncanville in 11, Hooks in 13, Hearne in 19, Sweeny in 26, Pleasanton in 28, Devine in 29 and Refugio in 31 are looking ahead to the championship arguments.

Showdown games in which the winner automatically will get the

nod include Ballinger vs. Winters in District 7, Jacksboro vs. Seymour in 9, Decatur at Azle in 10; Plano vs. Lewisville in 12, Terrell vs. Canton in 15; Gilmer at Minola in 18, Brady at Fredericksburg in 18, Georgetown at Taylor in 20; Livingston at Navasota in 22, Port Acres vs. Dayton in 23, Dickinson at Missouri City in 25, Hallettsville at Gonzales in 27, Freer vs. Hebbronville in 30 and Donna vs. Raymondville in 32.

Three-way ties with decisions left up to district committees are possibilities in three districts: 4, where Crane must defeat McCamey or leave the tie with Fort Stockton; 17, where Hillsboro must whip Marlin or leave a tie also involving Gatesville, and in 24, where Little Cypress must down Woodville.

# Gruver Captures Title; Bucks Tied For Third

The Gruver Greyhounds struck Stinnett's Rattlers a death blow in class A football Friday night.

Stinnett advances into AA next fall after dominating class A grid-irons in the Panhandle and over the state since 1955. Gruver, however, ended their reign with a 15-6 triumph last Friday for the district 1-A championship.

Thus, Coach Corky Chapman's undefeated Greyhounds gain a spot in the first round of the state playoffs against the winner of the McLean-Lefors game Friday night.

Gruver tied for the crown in 1959 with Stinnett and Spearman, but lost out in a coin flip. The Greyhounds last venture into the playoffs was disastrous. White Deer's mighty Bucks wrecked a vaunted Gruver defense to capture a 46-6 bi-district win in 1958.

White Deer picked up its second conference win in beating Panhandle 27-0 and Stratford kept pace with the Bucks by trouncing lowly Sunray 40-14 in other loop action.

The schedule this Friday finds

# Ticket Sale For Cotton Bowl Tilt Ends At Midnight

DALLAS (UPI) — Midnight tonight is the deadline for mailing applications for a share of the 25,000 Cotton Bowl tickets available to the general public.

Cotton Bowl officials said it appeared certain that more than enough applications had been received already during the two-week period to take care of the supply.

But, they pointed out that late applicants have just as much chance as the early birds since allocation of the tickets will be determined by a drawing with best seats going to those whose names are drawn first.

GRADUATE OF YEAR — WICHITA, Kan. (UPI) — Eddie Kisko of the Cincinnati Reds has 91 been named winner of the National Baseball Congress "Graduate of the Year" award.

## "THAT'S RIGHT, NO BITE!"

Says P. GERALD PALMER, owner of the 20,000-acre AGUA LINDA RANCH, near Nogales, Arizona.

Mellowest, lightest Bourbon you've ever sipped — because the MELLOW-MASH Process (exclusive with Yellowstone) selects for you only the lightest, mellowest whiskey, leaves the heavier whiskey vapors behind.

An all-new Ford ... right size ... right price ... right between Galaxie and Falcon

## Some cars have new names... this name will have a new car!

The name is familiar... the Ford Fairlane 500. The car itself is totally new... so new you'll see nothing else like it this year. It is one of Ford's milestone designs... and will be as influential in its way as the first mass-produced car (a Ford Model T), the first popular station wagon (a Ford Wagon), the first four-passenger luxury car (a Ford Thunderbird), the world's most successful compact (a Ford Falcon).

Right between Galaxie and Falcon in size and price, the 1962 Ford Fairlane 500 is just the right car for just about everybody; you have never been able to buy anything so right before.

Big in room, ride and performance, it is still priced under most compacts. It nurses a nickel as though it never expected to see another. It moves like a rabbit on roller skates.

New, utilized body a foot shorter outside... full-size inside

Ford engineers have changed the proportions of the automobile: a completely new unitized body gives you more room inside with less bulk outside. A foot shorter than previous Fairlans, the new Fairlane 500 is pleasantly parkable, delightfully drivable, easily garageable. At the same time it packs into its neat and nifty 197 inches as much passenger room as you had in some of the biggest Fords ever built.

Twice-a-year maintenance Service is reduced to a minimum—30,000 miles on many items, twice a year on the rest. You go 30,000 miles between major lubrications, 6,000 miles between oil changes and minor lubrications. You don't have to touch the engine-coolant-antifreeze for two years—or 30,000 miles—at a time. Brakes adjust themselves.

All-new economy Eight from world's V-8 leader

The hand that honed the Thunderbird... and the Falcon to all-time Economy Run honors... turned to a new problem here, the world's first economy V-8. Made possible by new Ford foundry methods, the new Challenger V-8 is as strong as iron—and a lot lighter than iron's ever been before. As lively as you'd like... thrifter than you'd expect a V-8 to be... it's a natural powerplant for America's first eat-your-cake-and-have-it-car.

For those who want even greater thrift, there's a new Fairlane Six. Its economy would be gratifying in a smaller car. In a car this size it's a downright delight.

Preview America's newest car now

As part of Preview Run U.S.A., new Fairlane 500's are riding the nation's highways and main streets right now. Watch for them. See what thousands have already seen—and raved about. Take a turn at the wheel—and perhaps do a little raving yourself.

We think you'll agree: this all-new Ford is just right for just about everybody. No matter how many cars you've looked at, you haven't seen anything like this one. It will be at your Ford Dealer's next week. If you miss it now, be sure to see it then.

JUST RIGHT FOR JUST ABOUT EVERYBODY!

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings.

SUBSCRIPTION RATES

By Carrier in Pampa, 50c per week, \$1.50 per month, \$2.00 per 3 months, \$5.00 per year. By mail, paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone.

Interested In A Shelter?

To build or not to build — a bomb shelter? That is the question, and the answer gets more confusing all the time. Those who oppose the shelters usually seem to be so vague in their replies as to be irrational.

By HENRY McELMORE

As a one-time world champion athlete — my time for the 50-meter sack race has never been equalled — I was happy to read of the agitation for bigger and better pay for amateurs by the Scandinavian Track and Field Congress.

In their meeting at Oslo, the Scandinavians said they would ask the world athletic body—the International Amateur Athletic Federation (IAAF) —to change the rules in order to justify lost income by athletes.

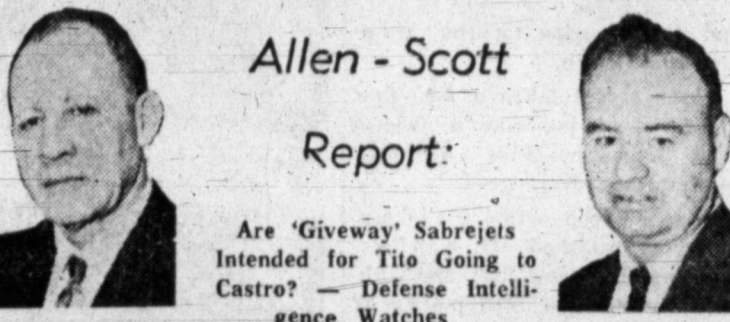

The Scandinavians believe—and they have a point —that a man can't run the 100-yard dash, or pole vault, or leap hurdles, and at the same time keep books, run a filling station, or sell groceries.

It goes almost without saying that all athletes aren't worth the same. A man who broad jumps 24 feet is not worth the same as a 26-footer is worth. Nor is a five-minute miler in the same pay league with a four-minute galloper.

Yet a man who takes five minutes to run a mile gets just as hungry as one who does the distance in four minutes, and he likes just as sound a roof, and he just as nice-looking a pair of shoes.

Many arguments will develop if the Scandinavians have their way. In order to hold these arguments to a minimum, I have worked out a table of what various athletes should be paid. It is based on years of watching track and field athletes perform, and their appeal to the paying customers.

Kinda Big For Little Leaguers, Ain't They?

Allen - Scott Report: Are 'Giveaway' Sabrejets Intended for Tito Going to Castro? — Defense Intelligence Agency Watches

WASHINGTON — There is a chance those F-86D jet fighters sold to Yugoslavia at give-away prices may kick up an ever greater row than they already have.

Two Yugoslav freighters loaded with 80 of the Sabrejets are due to make unannounced stop-overs in Havana.

The newly established Defense Intelligence Agency has information — obtained from crewmen of the freighters — indicating that some of the F-86Ds may be turned over to the Red-dyed Castro regime.

If that occurs, the freighters may be seized and taken to a U.S. port.

The Joint Chiefs of Staff already are agreed to strongly urge President Kennedy to take such forceful action.

The Yugoslav freighters are the Trbovlje and Gundulec. Each loaded some 40 Sabrejets at San Diego. They are sailing for Havana via the Panama Canal.

From one of its crewmen the Defense Intelligence Agency learned that part of the cargo will be unloaded there. The sailor was not certain whether that included the Sabrejets. He thought it did, but wasn't sure.

A crewman of the other freighter not only confirmed this information, but added another significant disclosure.

He revealed that a number of Cuban airforce personnel are to be transported by the freighters to Yugoslavia for training as jet pilots. That means they will be trained as Sabrejet pilots as Yugoslavia is equipped — almost entirely with these U.S. planes.

Most of the F-86Ds were given Yugoslavia as part of \$694 million in military aid. The 80 Sabrejets on the two freighters are approximately two-thirds of the 130 recently sold to Yugoslavia at \$10,000 each.

The Nation's Press

LESSONS FROM THE INCAS (The Freeman) A Reviewer's Notebook JOHN CHAMBERLAIN

It is incontestable that human beings can live under a vast variety of economic and social dispensations. But the questions is how well do they live?

We know how they have lived for some three hundred years under the relatively free economies of Western Europe and the North American continent.

Perversely enough, the Eastern and tropical cultures want the benefits of Western freedom while at the same time they resist taking over the going principles that have made Western benefits possible.

The Inca elite itself had privileges and even some private property. Known as the orejones (from their pierced ears), this elite was a genuine ruling class.

It educated its own offspring to rule, but it was also far-sighted enough to allow for some measure of recruitment from the masses.

As described by Baudin, "Inca socialism" provided for a good deal of organized leisure; there were public celebrations, banquets, songs, dances, family events. Nobody, however, was permitted to get off by himself to indulge in individual idleness.

Between the ages of eighteen and five young people helped their families. Able-bodied men between the ages of twenty-five and fifty performed obligatory service. Children from ten to eighteen led the llamas; between the ages of five and ten they chased birds from the fields.

This work by Baudin, who in von Mises describes in a foreword as "the most eminent representative of contemporary French economic science," is hardly a polemical essay; indeed, it is hedged about by all sorts of cautionary caveats.

The Andean Indians of Peru who were ruled by the Inca elite of the sixteenth century lived in a naturally hostile environment. They were short and stocky men, olive-brown in color, with broad chests and well-set shoulders.

modern Andean-Indian for the "old ways." The Incas were happy in a "negative" way. But it was the happiness of constituting a "cell" in a superior organism.

But if the Inca Empire was fated to be as it was, it does not follow from this that its principles should be imitated elsewhere.

What oppresses Baudin is not that the Quechuan Indian submitted to his environment. His real objection is to authors like Edward Bellamy, whose Looking Backward was an attempt to prescribe an Inca-like social organization for everybody.

Since Bellamy's day the idea of a blue printed society has become very popular. As Baudin puts it, the history that is evoked in A Socialist Empire: the Incas of Peru, which seems "so far removed from us, is in fact, our very own."

If history repeats, the modern Inca-world, that of Soviet Russia, will not prevail against the West. But will history necessarily repeat? After all, how many of us have the will-to-prevail that animated the cavalier soldiers of Pizarro and the Christian friars of old Castile?

How much of a vital "confrontation" of "two social systems" is guaranteed by that?

TV Costs NEW YORK (UPI) — Average cost estimates, based on industry figures show that it costs about 6 cent an hour to watch TV.

Pressure From NLRB

The National Labor Relations Board (NLRB) in a burst of vanity and conceit has now thrust itself into international labor relations which may have far reaching effects upon this nation.

Hammer Throwers

They should pay their way to get in and only be allowed in if they promise not to hit anyone on the head with a wild throw. No one has ever been excited by a hammer thrower save perhaps the parents and wife of a hammer thrower. They get nothing a day to perform.

Cross-Country Runners

Same as hammer throwers, only they must also pay for laundering their trunks, which are always dirty from falling into creeks and tumbling over hedges.

Discus Throwers

Same as cross-country runners and hammer throwers. Next to opium, a discus thrower is the best sleep producer known to man.

Sprint Men

Ten dollars a day and taxi fare.

Hurdlers

Eleven dollars a day and a free shampoo for their wives.

Middle Distance Men: Six dollars a day, half of it in foreign currency.

High Jumpers: Twelve dollars a day and bus fare.

Of course, if track and field men are paid, other athletes will demand pay.

Suggested pay scale: College Amateur Wrestler: Two cents a year.

Rope Climber: Half that.

Weight Lifter: Nothing, and not tax free.

Quarterbacks who win for your side: \$100 a day.

Quarterbacks who beat your side: \$10 dollars fine.

When amateurs get paid, what word are we going to use for amateurs who play the game as amateurs — that is, for the fun and exercise?

Nuts, I guess.

Europe or some other part of the globe, there to operate their shipping enterprises without the mailed fist of the American politics governing their actions.

In the special circumstances surrounding the Panama case, American ownership is not an issue since the Yarmouth is wholly owned by non-Americans.

Panama is now claiming jurisdiction over the coastal waters of Panama for a distance of 12 miles from shore. America concedes national jurisdiction only to a 3-mile limit. But American vessels use the Panama Canal and may now come under Panamanian control if they come within a 12-mile limit as they approach the canal.

To our view the NLRB owes an apology to the Republic of Panama and should immediately revoke its ruling.

The Travers Stakes at Saratoga Springs, N.Y., first run in 1864, is the oldest stakes race in the United States.

**1 Card of Thanks**  
**A. C. HOLLAND**  
We wish to thank our many friends  
and neighbors for their kindness and  
sympathy during the illness and  
death of our beloved husband, father  
and son, Mr. A. C. Holland, who passed  
away on Nov. 5, 1961. He was born  
in Pampa, Texas, and was 68 years of  
age. He was a member of the Pampa  
Methodist Church and was a very  
kind and loving man. He is survived  
by his wife, Mrs. A. C. Holland, and  
two children, Mrs. M. M. Holland and  
Mrs. J. W. Holland. He was buried  
in the Pampa Cemetery on Nov. 6, 1961.  
Funeral services will be held at 10  
a.m. on Wednesday, Nov. 8, 1961, at  
the Pampa Methodist Church. The  
Rev. J. W. Williams will officiate.  
Burial will be in the Pampa Cemetery.  
Friends are invited to attend.

# Fair Trade Agency Off Stirs Protests

WASHINGTON (UPI) — Ten years ago, a woman who went shopping for furs was confronted with a dazzling variety of exotic nomenclature.

The coat of the lowly rabbit, for example, was offered to her under 90 different names (none of them "rabbit").

Congress decided in 1951 that consumers needed protection against misleading fur labels. It enacted a law requiring that all fur products be plainly labeled with the ordinary names of the

animals from which they come—rabbit, squirrel, fox, mink, etc.

The Federal Trade Commission (FTC) was charged with enforcing this law. It issued detailed regulations specifying which names may be used on which skins, and what records fur shops must keep of their sales. FTC field inspectors make routine inspections of fur shops to see that these rules are followed.

Since the law took effect, hundreds of merchants have been tagged for violations. And contro-

versy has developed as to whether the FTC is being too strict in its interpretation of the law.

"A great many merchants feel that the FTC has been extremely severe," said a spokesman for the National Retail Merchants Association. "We have heard many protests from reputable business firms that the FTC was making a big issue out of minor, technical infractions of their extremely complex regulations."

But a spokesman for the National Better Business Bureau credited the FTC with a good job. He said local Better Business Bureaus, set up by business firms to combat unfair trade practices, "have been very pleased with the work the FTC has done in enforcing the labeling requirements."

"We are glad to have the FTC crack down on the few mavericks who won't comply voluntarily," he said.

A spokesman for the FTC said that minor infractions of a technical nature are usually handled by informal warnings to the merchant. Formal complaints are issued, he said, only when there is "evidence of substantive or willful violation."

A formal FTC complaint is rather like a grand jury indictment. It prefers charges of misconduct, but it does not mean that the accused already has been tried and found guilty.

Some businessmen feel that

this distinction is not always clear to the public. They assert that the FTC may irreparably damage a store's reputation merely by publicizing the fact that it has issued a complaint which suggests that the store has been defrauding its customers.

The issue is complicated by the fact that the FTC does not publicize a complaint the moment it is issued. It first sends a private notice to the merchant, and gives him 10 days in which to decide whether he will contest the charges, or will sign a "consent order" agreeing to refrain in the future from the practices alleged in the complaint.

If the merchant decides to sign a consent order, the FTC issues a press release announcing the action. The release always contains a sentence saying that: "Respondent's agreement to discontinue the challenged practices is for settlement purpose only and does not constitute an admission that he has violated the law."

If he decides to fight the charges, the FTC issues a press release announcing the complaint. Later, when the merchant has filed his formal answer to the charges, a second release is issued summarizing the reply, and the original charges. Further releases are issued when decisions are handed down in the case.

## The Almanac

By United Press International  
Today is Tuesday, Nov. 7, the 311th day of the year with 54 to follow in 1961.

The moon is approaching its new phase.

The morning stars are Mercury and Venus.

The evening stars are Jupiter and Saturn.

Those born today are under the sign of Scorpio. World famous Polish-French scientist Marie Curie was born on this date in 1867.

On this day in history:  
In 1805, the Lewis and Clark expedition sighted the Pacific Ocean for the first time at the mouth of the Columbia River in the Oregon country.

In 1874, Harper's Weekly ran the first cartoon depicting an elephant as the symbol of the Republican party.

In 1916, Jeannette Rankin became the first woman in the history of the House of Representatives to win a seat in the congressional body.

In 1917, the Bolsheviks overthrew the provisional regime of Premier Alexander Kerensky and Nikolai Lenin assumed power in the Soviet Union.

In 1944 former President Franklin Roosevelt was re-elected to his fourth term in office; senator Harry Truman became his vice president.

President Franklin Roosevelt said: "The truth is found when men are free to pursue it."
