The shot, which could come as early as Wednesday morning is the final "rehearsal" flight planned for an attempt to send an astronaut on America's first manned orbital voyage within a few weeks.

The official word on the \$400 million Mercury man-into-space program is that, if the chimp test is successful, an all-out attempt will be made to orbit an astronaut before the end of this calen-

However, sources close to the program said privately that the chances for a manned orbital flight before the end of this year "are mighty slim-all but non-

Most predicted the mission probably would come sometime around mid-January or February. A full success with the chimp shot is a prerequisite. The ape. reported to be a baby female, will be installed inside a bell-shaped Mercury capsule and sent soaring into space about dawn Wednesday, if all goes according to plan.

The schedule calls for a 41/2hour voyage three times around earth-roughly 81,000 miles-before the animal and the capsule

### Gov. Rockefeller Starts Sad-Jaunt Home Almost Certain His Son Is Dead

HOLLANDIA, Dutch New Guinea (UPI) - Gov. Nel-son A. Rockefeller began a long, sad journey home today burdened with the realization that his missing son, Michael, 23, probably is dead.

Strawbridge, Michael's twin, left the steaming southern New Guinea coastal town of Merauke this morning convinced it would be "a miracle" now if his son were found alive.

## An Invitation and a Challenge

Whatever car, at any price, you're looking at, look at Lark, too. It's the most satisfying basic value of all. Discover why. For example:

RAMBLER? Measure The Lark 4-door against the comparable Rambler Classic 4-door Sedan and discover Lark gives you a 5" longer wheelbase, more head and leg room, choice of a 6 or V-8 instead of only a 6, a 112 to 225 horsepower range rather than 127 to a top of 138. Plus padded instrument panel at no extra charge. A sample of Lark's many advantages over Rambler at lower prices for comparable models.

AUSTIN, Tex. (UPI)-Dr. Ivan

George Haynes, 520 Elm.

TEMPEST? Why settle for a 4-cylinder Tempest engine or a V-8 with up to 185 hp when Lark gives you a choice of 6 or V-8, with high gas economy and horsepower up to 225? Why be content with Tempest's 1½" less headroom, 5¼" less rear legroom in the 4-door sedan? Just a sample of The Lark's big lead over the Tempest. (Lark prices start \$250 less.)

FALCON? Check the Falcon vs. The Lark and you'll find Falcon's wheelbase is 31/2" shorter, the car narrower, with less headroom, legroom, hiproom. Falcon has only 85 to 101 hp instead of Lark's 112 to 225; Falcon doesn't offer 3-speed automatic transmission or dual headlights. but a sample of The Lark's supercent over the Fal-con. (Lark press sta i \$50 less.).

CORVAIR? Why step down into Corvair's deep floor wells when The Lark has high floors flush with doorsill, up to 8 inches more legroom; bigger, wider doors to step through. Corvair's extra-price 102 hp engine is smaller than Lark's smallest 112 hp; and Cor-

vair can't offer Lark's power options and 3-speed automatic transmission at any price. A sample of how Lark outvalues Corvair. (Lark prices start at \$57 lower.)

COMET? What use is Comet's 1" longer wheelbase, nearly 7. longer length, when Lark gives you more room in all interior dimensions-334" in rear 4-door sedan legroom alone. Lark offers up to 100% more hp; giant bonded brakes, full 15" wheels (vs. Comet's 13"), full power options Comet can't. Just a sample of Lark's convincing superiority over Comet. (Lark prices begin \$149 less.)

F-85? Why pay higher prices for F-85 when you'll find extra front and rear hiproom and extra legroom both front and rear in The Lark-plus easy, bigdoor entry with no step-down well. 22% more top horsepoweravailable, too, and much more braking area. Just a sample of the way Lark outdistances F-85.(Lark V-8 prices begin \$333 lower.)

BUICK SPECIAL? Why pay a premium for the Buick Special when a Lark is bigger in so many ways-in rear legroom (5" more), in braking power (146 or 172 sq. in. vs. 123 sq. in.), in optional available top horsepower (225 vs. 185), in standard wheel size (15" vs. 13"). Just a sample of the many big ways Lark's a better buy. (Lark prices start \$369 lower.)

CHEVY II? Why compromise with a Chevy II when Lark offers you the choice of a 6 or V-8 engine instead of a 4 or 6, more headroom, hiproom and legroom; and the riding comfort of multi-leaf springs plus full coil spring seats unavailable in the Chevy II. Just some examples of how The Lark outvalues the Chevy II. (Lark prices start \$68 below the 4-cylinder Chevy II models, \$128 below the Six.)

FORD? Why buy the new Fairlane 500 that's 9" longer than a Lark, when it's so much harder to park; has less hiproom. headroom and 21/2" less rear legroom; smaller 13" wheels; a smaller 6-cylinder engine, a smaller 8; smaller choice of models and options. Just a limited list of the ways Lark beats the Fairlane 500. (Lark prices start \$219 under the

VALIANT? Why let Valiant's slightly lower base price deprive you of hundreds of dollars in add ditional car value you get in The Lark? Compare Lark's 112 to 225 hp range to Valiant's 101 to 145; Lark's 113 in. wheelbase to Valiant's 106.5; Lark's bigger 15" wheels; Lark's many inches of added room in every interior dimension. Lark's higher, wider doors, flush floors, and safety padding are yours at no additional cost. Just a sample of Lark's many big advantages over Valiant,

ELEANOR AND THE UN (America's Future)

The need for deeds instead of words is seen in a recent demand by the Committee of One Million. The secretary of this committee. Mr. Marvin Liebman, recently wired the President demanding that he ask for Mrs. Bleanor Roosevelt's resignation as special adviser to the American delegation to the United Nations. This demand arose out of an incident which was very sparsely reported, if at all, in great metropolitan "liberal" newspapers. According to the words issued from Washington, our 'established national policy' is against the admission of the communist slavemasters of Red China to membership in the

But, Mrs. Eleanor Roosevelt, who, we repeat, is special adviser to the American delegation to the UN, made a speech in North Pegler Says: Carolina a couple of weeks ago in which she called for the admission of Red China to the United Nations. Mr. Liebman's telegram to President Kennedy pointed out that Mrs. Roosevelt is entitled to her opinion, but in her official post at the UN; she is advocating a policy in direct opposition to the announced policy of the administration, the American Congress and the people of the United States. Therefore, she should be

## Eichmann Soon To Hear Verdict **Crimes Case**

judge Israeli court will reconvene December 11 to deliver its verdict in the case of Adolf Eichman. charged with crimes against the Jewish people and against humanity for the atrocities of Nazi Ger-

It is expected to take three days for the judges, reading in relays, to present their decision on each of the 15 counts against the former Gestapo officer. Twelve counts carry a possible death penalty on conviction.

Through the reading, Eichmann, who was for 15 years a fugitive, will be seated again in the same bullet-proof glass box he occupied during five months of trail sessions which ended Aug.

Because of the unusual condi tions of this extraordinary trial, a small group of men and women will learn the verdict in advance of the defendant. The translators, charged with rendering the 250page decision in English, French, Spanish and German before the court meets, will be held under heavy police guard in a loc-al hotel for the several days required to complete their work.

Eichmann will be returned to his cell in the improvised Jerusalem court building from Jalami prison near Haifa-
