Pampa News Women's Editor

(EDITOR'S NOTE: This is the second in a series of articles prepared to assist publicity chairman in covering the news of their organizations.)

When you hand a legitimate news story to an editor, it is appreciated. Because of the increasing complexity of covering all of the women's organizations in Pampa, your editor relies on the volunteer such as yourself for news.

That's all very nice, you say, but will she use all of my stories? Well, let's see what happens to your story when you hand it to the editor. First, it will be read with strict regard to whether it will be of interest to readers.

If, for example, the President of the United States is coming to town to talk to your organization, it is safe to say that the editor will print the story. On the other hand, if you give the news that Mrs. Jones has been appointed second assistant secretary of your Committee on the Perpetuation of Duplicate Bridge on Wednesday afternoons, don't be disappointed if it doesn't get into print.

Chances are that your story will fall somewhere in the middle of these extremes, and we'll assume that the editor decides it has enough news value to start it on its way to print. If poorly written, it will be held up while it is re-written according to newspaper style. Or, it may be delayed because you gave it to the editor too close to the time the paper must go to press and another story of equal importance, but well-written and easily processed got under the wire and beat yours to the typesetter.

Items for "Mainly About People" column may be phoned in to the women's editor because they are brief and take little time to write. We invite you to call us about your out-of-town guests, special meeting notices, trips or vacations you are taking. "The Mainly About People" column is a personal news item space, but due to its popularity, advertisers often request that their ads be placed in that spot, so you will be sure to see them. These items are usually recognized by an asterisk following the ad.

Being a publicity chairman, can be one of the most exciting and rewarding jobs in your club, if you approach it with enthusiasm and interest.

(TOMORROW: Tell It Honestly)

when preparing a new story you will go far in building prestige for yourself in the mind of the editor: 1) type double or triple space on one side only; 2) leave ample margins; 3) at the upper left hand corner type your name, address and telephone number. This will identify you as a news source and the editor will have no trouble reaching you if she has any questions about the story; 4) keep your story brief and to the point.

Your copy, as the story is called, or a version, rewritten, will then be checked for grammar, spelling and excess wording. The editor will then write a headline for the story and it will be assigned to a position in the paper.

It will surprise you how soon you will begin to develop a news sense to know instinctively when a happening is news and when it isn't.

One of the best ways to develop this sense is to study your newspaper, notice the kind of stories used, which ones go on the front page; those used in the society and club columns, the other pages.

Try to adopt a simple pattern for writing your stories. Imitation can aid you greatly in developing skill in presenting the facts with a minimum of effort and training. Follow the style and construction of articles that have already appeared in your paper. Be a copy-catt!

It might be helpful to cut out examples of various types of stories from the paper and follow their pattern when a similar situation arises for which you must prepare a story.

Dear Abby... Dedicated Gifts Help Much More!

By ABIGAIL VAN BUREN

DEAR ABBY: Thank you for your wise answer to "Church Widow." As a pastor I am aware that many people regard church fundraising activities, such as bingo and carnivals, as a service to God. Yet we would do better to leave undone much of what has been done in His name.

I disagree when you say that most churches need funds (and fund-raising) for survival. They do need funds, but fund-raising efforts hurt more than they help. Our churches need significant gifts from dedicated members. But fund-raising affairs are only excuses to get non-members to help the church pay its bills. Very sincerely,

Sanford Wright,
Westminster Presbyterian Church

DEAR ABBY: We are having an argument in our X-ray department about the difference between an old maid, a spinster and a career girl. Would you please settle it by defining each?

THE ROENTGENS
DEAR ROENTGENS: A career girl is an unmarried female who doesn't feel the need to apologize for being single because she is "married" to her job. An old maid is a single woman because either (a) nobody has asked her, or (b) nobody whom she wanted has asked her to marry her. A spinster is an old maid somewhat advanced in years.

SENIOR CENTER BIRTHDAYS -- Celebrating September birthdays at a party in Lovett Memorial Library on Thursday afternoon were Senior Citizens, left to right, front row, Mmes. Libba Trimble, Sept. 23; Clara Blythe, Sept. 17; Teletha Marlin, Sept. 15; R. H. Dilley, Sept. 3; D'May Wilson, Sept. 26; back row, left to right H. L. DeWoody, Sept. 4; M. L. Chandler, Sept. 29; Mrs. Erma Tubbs, Sept. 16; and Mrs. Lida Ramsay, Sept. 1. Birthday cake, ice cream and coffee were served from a table appointed with arrangements of bronze and yellow chrysanthemums. Altrusa Hostesses were Mmes. Louise Sewell, Joy Flanagan, Layse Caldwell, V. L. Hobbs, F. A. Hukill and Joe Tooley. Red Cross Gray Ladies providing transportation were Mmes. Jessie McKinney, Jess Beard, A. D. Hills and Stanley Brandt. (Daily News Photo)

Plans For PTA Year Underway At Lee Unit

PTA activities for the current year were formulated at an executive board meeting held Thursday at 1-p.m. in Robert E. Lee Junior High conference room, directed by Mrs. J. T. Cornutt, unit president.

Mrs. Cornutt announced that following approval of the Texas State Congress of PTA, Lee will be permitted to hold only five unit meetings during the year and still conform to state requirements. "It is hoped that the fewer meetings will create larger attendance," she said.

Mrs. Homer Johnson, program vice president, outlined the five programs which will be held during the year as follows: SEPTEMBER 21, 7:15 p.m., "Back To School Night" with parents following the same class schedule as their children and with refreshments served in the cafeteria at 9 p.m.; OCTOBER 19, 1:30 with Jay Channell, Harvester and Mary Ellen Church of Christ minister as guest speaker; FEBRUARY 15, 7:30 p.m., "Fathers' Night" with Floyd Watson as leader; APRIL 17, 2:30 p.m., "Looking Forward To

Mrs. J. T. Cornutt
Lee Unit Prexy

the girl. My mother-in-law said, "Well, the rings you are wearing were once hers." I was so shocked and hurt I didn't know what to say. My mother-in-law asked me please not to say anything to my husband when she saw how hard I took it.

I haven't said anything to him, but I have taken my rings off because I don't want to wear them again. Am I wrong to feel my husband has deceived me? Is there a solution to this problem?

HURT
DEAR HURT: Let's start with the assumption that the rings given you came from the man who loves you. And end with it. Wear the rings, ignore your mother-in-law's unsolicited newscasts, and cherish thy husband.

ure course chairman, reported that a procedure course would be held Sept. 18 from 9:30 until 11:30 a.m. in the First Methodist Church. All members, who have not previously attended procedure courses, are urged to avail themselves of this opportunity.

Plans for a study course on "Civil Defense" were outlined by Mrs. Floyd Crow, civil defense chairman. "A series of seven sessions are to begin on Oct. 5 from 9:30 until 11:30 a.m. and will be held in various schools. Lee's date for hosting the course is Nov. 2." The courses are to be conducted by Mrs. Robert Skinner Jr. of Amarillo.

Tentative plans were announced by Mrs. Floyd Watson relating to "Back To School Night" planned for Sept. 21. An adjourned meeting was held following the board meeting at which plans were further discussed. Completed arrangements will be announced at a later date.

In addition to the chairmen mentioned above, other chairmen attending and reporting on plans for the year were Mmes. William T. Fair, secretary; Gordon Pursley, telephone; Ed Griffin, room mother chairman; Jack Miller, radio; E. E. Shelhamer, parliamentary; Harold Saum, yearbook; Jeff Berden, treasurer; Elmer Darnell, publications; J. W. Lemons; Carl Warner, membership; Derrel Hogsett, historian; Essie Mae Walters, legislative; and Ray E. Wilson, publicity.

Senior Center Corner

By MRS. O. A. WAGNER
Senior Citizens Center

Senior Citizens welcomed E. O. Falls and will be home Saturday. Etheredge to the Center for the first time, but Mrs. Bessie Nicholson was missed. She was kept at home with a cold.

Mr. and Mrs. D. H. Porter of Shamrock visited with Mrs. Porters' mother, Mrs. C. G. Miller and Bill recently.

We were glad to hear that Guy Dunwoody is home from the hospital and doing fine. But we were sorry to learn that H. M. Norris is quite ill in Highland General Hospital and will have to undergo an operation. This is the reason why I am guest writing for Mrs. Norris, while she is with her husband.

Seniors were saddened by the death of Mrs. Nellie Densmore. Her funeral was in the First Christian Church at 10 a.m. Friday with the Rev. Roy Curtis officiating. Burial was in Erick, Okla. on Saturday.

Mrs. P. Y. Long's sister, Mrs. B. C. Hukill from Littlefield visited her recently.

Mrs. Cleo Seitz' son, James Ray Moore, is in Northwest Hospital in Amarillo. She expects him home in about a week.

Mrs. Mercant is home and doing fine, we hear. She wants to thank all for the flowers and cards sent to her.

We missed Mrs. Mollie Hettrick at the meeting Thursday. She seldom misses a meeting unless she is ill. But she is visiting her daughter, Mrs. Byrdie Osborne in Wichita.

Don't forget the Senior Citizens are to be hosts at the Anniversary party on Sept. 14 celebrating the fifth anniversary of this Altrusa Club project. If you are a Senior Citizen and have not been attending our meetings, do come.

Nine Seniors celebrated birthday this month. Mrs. Clay Costo donated a lovely birthday cake and Mrs. Roy Kay created a lovely floral arrangement of bronze and gold chrysanthemums, which were later taken to Mr. Norris in the hospital.

Uncle Billy Frost is entertaining his son and wife, Mr. and Mrs. Charley Frost of Caney, Kan. At least they were down to spend the weekend with him and might still be here. Love, Mrs. Wagner.

A bargain can sometimes be a wonderful thing, as any woman knows. But it's truly a bargain only when it fits into your wardrobe and serves a purpose there. Purple suede gloves are no bargain if you never wear purple. And this is true no matter if they're selling at less than cost.

Packed with adventure is the luncheon that holds Beef - Bleu Cheese Sandwich Filling, spread between slices of favorite bread. Easy to make - it can be frozen, too - combine 1 cup of shredded dried beef with 1/2 cup crumbled Bleu cheese and 1/2 cup prepared sour cream.

Inland Sections To Feel Effects Of Great Storm

The Texas Gulf coast faced 150 mile-an-hour winds of Hurricane Carla today and the rest of the state was due in.

Most of Texas outside the immediate hurricane area an expect rather mild temperatures with scattered showers and thundershowers either today or tonight.

As Hurricane Carla slams the coast and moves inland, its effects will be felt all the way to the top of the state.

The only part of the state not expected to get showers is extreme West Texas. That section will be the hot spot, with temperatures rising into the high 90s.

Rainfall reports to the regional weather Bureau station at Fort Worth for the 24-hour period ended at 4 a. m., today included: Victoria 1.80 inches; Beaumont 0.7; Arthur 1.56; Corpus Christi 0.7; Brownsville .66; Houston 1.40; exarkana .42; Austin 1.07 and College Station .19. The Galveston report was missing.

Rain fell today over most of South Central and Southeast Texas, and of course, near the coast as heavy.

Among the coolest points overnight was Lubbock with 62 and Amarillo 63.

Hurricane

(Continued From Page 1)
water high over the seawalls. A tide 10 feet above normal sent water spilling into homes and offices.

Most Galveston residents still on the island fled to sturdy and old buildings and government office buildings.

The piers and shacks went splintering into pieces before the onslaught of Carla. Dreamland, an old frame restaurant that was a landmark in Galveston, was smashed to pieces and vanished in the water.

Monster waves slammed against old wooden structures and they appeared doomed.

More than 50,000 refugees jammed Houston, 50 miles inland from Galveston. The Red Cross began opening shelters for 50,000 more.

Youth, Stabbed In Fight, Not Seriously Hurt

Ronnie B. Campbell, a 15-year-old Pampa youth, was released from Highland General Hospital early Sunday after being treated for a knife wound he received during a fight in a residential area Saturday night.

Police officers said they received a report at 10:35 p. m. Saturday that a group of boys had been fighting at the corner of Browning and Purviance near Campbell's home.

Officers who investigated the incident said Campbell told them he did not know the youth that stabbed him.

Campbell received a light laceration on the chest according to hospital officials.

City police are still investigating.

Boyles Funeral Service Pending

Funeral services are pending for V. P. (Red) Boyles of Grayville, Ill., who formerly resided in Pampa. Mr. Boyles died at 1 a. m. today in Griffind, Ind. after an extended illness.

Mr. Boyles came to Pampa from Oklahoma in 1928 and resided here until 1941 at which time he moved to Grayville.

Survivors are his wife, one son, George of Griffind; four daughters, Mrs. Vonna Ripple, Mrs. Juanita Goldman, both of Griffind, Mrs. Wanda Lee Goldman of Grayville, Mrs. Mary Hendleighter of Mt. Vernon, Ind.; a sister-in-law and a brother-in-law, Mrs. W. J. Ulrich and Judge Gambill, both of Pampa; and a brother, Velmer (Pappy) Boyles.

Civil Defense Workshop Set

A workshop on Civil Defense will be presented on Thursday at 1:30 p. m. in St. Vincent dePaul's school cafeteria, according to Mrs. R. M. Barrett, chairman of Social Action for Pampa Parish Council of Catholic Women.

"The workshop will be open for anyone wishing to attend," Mrs. Barrett stated. "But all women of St. Vincent's parish are expected to be present for this timely topic."

Mrs. Barrett, who has recently completed instructions in Civil Defense, has served in the field for several years and was a director-instructor during the years of 1942-46.

Teacher Reception On Tuesday Night

Pampa's new school teachers will be guests at a public reception Tuesday night at 7 p. m. in the Robert E. Lee Junior High School Cafeteria.

Jack Edmondson, school superintendent, will introduce the new teachers.

The program is sponsored jointly by the Chamber of Commerce, Classroom Teachers Ass'n. and the City PTA Council.

City Commission Meets Tomorrow

The approval of estimates to Brodie-Enix Construction Company on the city water and sewer construction is scheduled when the Pampa City Commission meets Tuesday at 9 a. m. in City Hall.

City Manager John Kooz said today the payment of monthly bills and routine business will fill the agenda.

BEHIND THE SCENES OF YOUR TELEPHONE SERVICE

An interview with Richard A. Goodson, Southwestern Bell Vice President for Texas

How Texas telephone people, modern science will keep improving your service in 1961

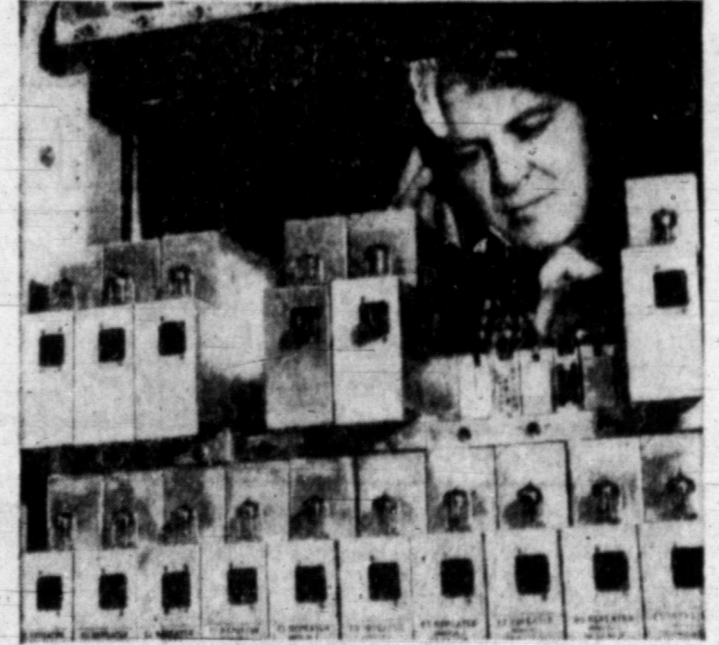

As you talk on the phone, you don't see the amazing technical wonders shown here. But they—and a whole lot of other things—work "behind the scenes" to make telephone service in Texas better, year after year.

Where do these technical advances come from? "The great majority result from full-time research by telephone scientists in laboratories," Richard A. Goodson, Southwestern Bell vice president for Texas, told me in an interview. "But," he added, "telephone people

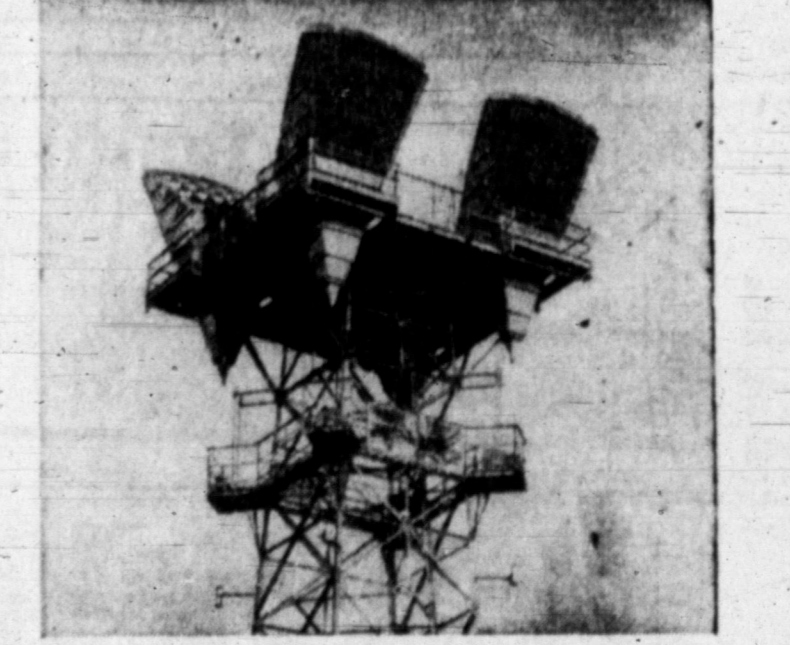

right here in Texas contribute their share of good ideas toward achieving service improvements."

This teamwork between telephone people on the job and scientists in laboratories makes an unbeatable combination, Mr. Goodson said.

"The goal of all telephone people," he said, "is to give you service this year that's better than last year's. That's why we have a continuing program of service improvement and expansion, which in 1961 amounts to nearly \$115 million in our state."

ELECTRONIC "VOICE BOOSTERS," attached to trunk lines that run between telephone central offices, keep voice volume at a strong, clear conversational level, prevent fade-out caused by distance. Latest "boosters" use Bell transistors, permit you to hear even better on your calls.

NEW MICROWAVE TOWER supports "cornucopia" antennas that beam Long Distance messages, television programs across Southwest. Capacity of many present microwave antennas is also being expanded to provide additional pathways for growing volumes of Long Distance conversations.

Hill Takes Denver Golf Tournament

DENVER (UPI)—Young Dave Hill looked eagerly for new worlds to conquer today on the strength of his easy victory in the Denver Open golf tournament.

The 24-year-old Denver shot-maker emerged with a six-stroke margin in Sunday's final round of the 72-hole tourney at Meadow Hills Country Club over runners-up Bob Goalby of Crystal River, Fla., and Art Wall of Pocono Manor, Pa. Hill had a phenomenal 63-64-67-69—263, or 21 under par.

He banked his \$3,500 first prize in the \$30,000 tourney today, then headed for an exhibition at Pueblo, Colo. He will fly to Seattle for another PGA tournament this weekend.

"It's the best golf I've ever played," the 5-10, 150-pound sophomore on the PGA tour said. "My iron played me in there."

Wall, whose 61 in the second round was the lowest 18-hole score in three years of PGA golf, stroked a four-under-par 67 Sunday to move into the second place spot with Goalby, who fired a 68.

Doug Sanders of Ojai, Calif., and Bob Rosburg of Portland, Ore., shot even-par 71s—their worst scores of the four-day tournament to finish in a tie at 270.

Dave Ragan of Orlando, Fla., and Bill Collins of Miami both carded 66s on the final round to tie with 271, one stroke ahead of Mason Rudolph of Clarksville, Tenn., and Don Fairfield of Casey, Ill.

Dallas Cowboys Dron 24-7 Game

By United Press International

On the basis of their spotless 5-0 records in exhibition games, it looks like the Philadelphia Eagles and Green Bay Packers again will be top contenders for the division titles in the National Football League.

The Eagles and the Packers, who fought it out for the league championship last season, were the only clubs with undefeated pre-season records. In contrast, the Washington Redskins and new Minnesota Vikings each failed to win a game in five tries.

The Baltimore Colts and Los Angeles Rams wound up their exhibition schedules Sunday with a victory. Baltimore clobbered the New York Giants, 49-20, at New Haven, Conn., and the Rams sent the Vikings down to their fifth straight exhibition defeat, 21-17.

In Saturday night games, the Eagles trounced the St. Louis Cardinals, 27-0; the Detroit Lions whipped the Cleveland Browns, 35-17; the Chicago Bears beat the Pittsburgh Steelers, 24-21, and the San Francisco Forty-Niners defeated the Dallas Cowboys, 24-7.

Halfbacks Pace Opening Grid Victories In AFL

By United Press International

American football league clubs have a new gimmick for scoring touchdowns—the surprise halfback pass.

Halfbacks Gene Mingo of the Denver Broncos and Paul Lowe of the San Diego Chargers, who normally confine their work to ball-carrying, tried their hand effectively at passing Sunday and led their clubs to season-opening victories.

The Chargers made a successful debut in their new home by beating the Dallas Texans, 28-10, while the Broncos upset the Buffalo Bills, 22-10.

Texans Lose To Chargers

DALLAS (UPI)—A lightning-like 87-yard touchdown sprint by

fullback Jack Lowe got the San Diego Chargers off to a lead they never relinquished yesterday in a 28-10 American Football League victory over Dallas.

George Blair added two field goals and the Chargers led 12-0 at the half. Bob Larab crashed over from the one-yard line for a fourth quarter tally and Bo Roberson darted 59 yards for another score in the same period.

The only bright offensive spot for the Texans was fullback Jack Spikes. The former Texas Christian all-American kicked a 27-yard field goal and dashed 74 yards for a touchdown in the fourth quarter.

The game was the first regular season AFL contest for both teams.

Scoring:
SD—Lowe 87 run. (kick failed.)
SD—FG Blair 18.
SD—FG Blair 17.
DA—FG Spikes 27.
SD—Roberson 59 run. (Blair kick)
DA—Spikes 74 run. (Spiked kick)

Mingo, taking pitchouts from quarterback Frank Tripucka, caught the Bills with their pass defense down and completed touchdown throws of 50 and 52 yards to end Lionel Taylor in the Broncos' triumph before 16,636 fans at Buffalo.

Lowe, after racing 87 yards from scrimmage for an early score, took a pitchout from quarterback Jack Kemp and threw a surprise 34-yard pass that set up the first of two San Diego field goals by George Blair. A crowd of 24,500 trended out for the game at San Diego.

In Saturday night games which opened the AFL season, the New York Titans edged the Boston Patriots, 21-20, as Al Durov passed for two touchdowns and carried over for another before 18,951 fans at Boston, and George Blair threw three TD passes, kicked two field goals and added six conversions as the champion Houston Oilers swamped the Oakland Raiders, 55-0, before 18,231 fans at Houston.

SCORE VICTORIES

HAMBURG, Germany (UPI)—John Thomas of Boston University and Ralph Boston of Tennessee State scored victories here Sunday in an invitational track and field meet. Thomas finished first in the high jump with a leap of 6 feet, 10½ inches and placed fourth in the 110-meter hurdles, the won by Boston.

Yanks And Cincinnati Need Seven Wins To Sew Up Flag

HEY, LOOK HIM OVER

Tascosa To Play Permain

By United Press International

There'll be no easing up of the pressure of Texas school football's elite elevens this week with headline attractions scattered throughout the second week of activity.

In Class AAAA, particularly, the schedule makers lined up rugged tests for the major powers.

Wichita Falls, ranked No. 1 and looking it in last week's opening 55-8 rout of touted Ada, Okla., hosts the Breckenridge Buckaroos, which could prove troublesome to provide the initial test for an experience-laden San Angelo.

San Antonio Jefferson, whose a 36-0 whitewash of AAA's well-regarded Jacksonville, leaves some despite last week's 23-21 loss to Sweetwater.

Corpus Christi Ray, the No. 2 team and bidding for better after stock boomed with last Saturday's 26-7 triumph over always-tough Abilene, bumps into big and rough Austin S. F. Austin, a 25-0 victor over San Antonio Highlands.

Baytown, a 28-6 conqueror of Houston Jones, meets perennial Gulf Coast rival Port Arthur, still a thorny problem despite a 26-14 upset at the hands of Houston Lamar.

Defending AAAA champ Corpus Christi Miller, somewhat of a question mark until its 32-0 blanking of Alice, gets offense-minded Hayward's Miss Supertest II went into the first turn of the first lap of the third heat at nearly 150 miles an hour, bounced into the air between two other boats, crashed down on its right sponson and flipped back on its left side.

Parents Invited To Session With Lee Coach Tonight

All parents and interested persons in the Robert E. Lee Junior High 7th grade football program is invited to meet with Coach Joe Perryman in the Lee Gymnasium tonight at 7:30 p.m.

The purpose of the meeting, according to Perryman, "is to get the parents behind the boys and to let them know what we do in practice and the precautions we take with the boys."

Continuing, he added, "Since this is the first time these boys have played football, the parents need to know about the game and the protection that these boys have. (equipment wise.)"

Everyone is invited to come and visit with Coach Perryman. Lee opens a five game schedule Friday, Sept. 22 against the Pampa Jr. High 7th graders.

Alamo Heights this week.

Dallas Kimball, riding the momentum of a 54-6 rout of Dallas Hillcrest, bumps into a Sherman team that surprised AAA power Gainesville.

Amarillo Tascosa, 14-0 winner over Fort Worth Arlington Heights, meets highly-touted Odessa Permian in the latter's belated opener.

Other top grade games include Garland-Dallas Wilson, Victoria-Brasport, Galena—Park-Port Neches, Austin McCallum-Galveston and Highland Park-Grand Prairie.

In Class AAA, defending champion Brownwood, which had a 6-0 scare from Dallas Jefferson last week, plays Killeen; Lamar Consolidated faces La Porte; McKinley meets Denison, Dumas takes on Berger, Carthage faces Jacksonville, San Benito meets Harlingen, Nederland faces Beaumont French and Kingsville engages San Antonio Sam Houston in the headliners.

The coach said: "Five boys, for disciplinary purposes, were dropped from the squad on the trip to El Paso." The Harvesters played Ysleta Bell Aire in El Paso Friday night.

Five Boys Dropped By Harvesters

Coch Coach Babe Curfman in a statement today said that five boys had been dropped from the Pampa Harvester football squad. No details concerning the action were given and the boys were not named.

The coach said: "Five boys, for disciplinary purposes, were dropped from the squad on the trip to El Paso." The Harvesters played Ysleta Bell Aire in El Paso Friday night.

Boat Racer Dies In Fatal Crash

Detroit (UPI)—Stocky Bob Hayward, 33, Embury, Ont., who retired as a chicken farmer this summer to devote more time to hydroplane racing and won the world championship, was killed at his new occupation Sunday in the famed Silver-Cup race.

Hayward's Miss Supertest II went into the first turn of the first lap of the third heat at nearly 150 miles an hour, bounced into the air between two other boats, crashed down on its right sponson and flipped back on its left side.

James Ellei, 8, Schofield, Wis., was killed instantly, and Lynn Sewehelg, 5, Wausau, died a few hours later without regaining consciousness.

Carol Ellei, 6, and Timothy Baumgardt, 4, Wausau, were hospitalized, but their condition was reported as good.

The wheel came off a car driven by Ed Felch, Wausau.

New York Takes Two From Tribe

By United Press International

Lucky "seven" shapes up today as the magic number which will put the New York Yankees and the Cincinnati Reds in the 1961 World Series.

It's a cinch number for the Yankees because seven victories would mean the Detroit Tigers would have to win all 19 of their remaining games to tie for the American League pennant. And it's a pretty solid number for the Reds, too, because if they win seven of their last 13 games the Los Angeles Dodgers will have to take 14 of their final 19 to tie for the National League flag.

The theoretical count-down reached "seven" for both front-runners Sunday when the Yankees whipped the Cleveland Indians, 7-8 and 9-3, and the Reds downed the St. Louis Cardinals, 5-2. The Tigers dropped—their ninth decision in 10 games when they bowed to the Boston Red Sox, 8-7, and the Dodgers' latest losing streak mounted to three games when they lost to the San Francisco Giants, 7-1.

As a result, the Yankees ballooned their AL lead to 11½ games with 18 to play and the Reds boosted their NL margin to four full games with 13 left on their schedule. The Yankees and Reds haven't met in a World Series since 1939 when the New Yorkers took four straight games.

The Los Angeles Angels beat the Chicago White Sox, 4-3, the Baltimore Orioles shaded the Washington Senators, 3-2, and the Minnesota Twins whipped the Kansas City A's, 7-0, after a 13-1 loss in other AL games, while the Milwaukee Braves edged out the Pittsburgh Pirates, 4-3, and the Philadelphia Phillies battered the Chicago Cubs, 14-6, in other NL action.

The Yankees completed a home stand of 12 straight victories when Bob Cerv's pinch single delivered the winning run in the first game and Bud Daley breezed in the nightcap with the help of Mickey Mantle's 53rd homer and Elton Howard's 19th of the season. Jim Costas won his 11th game for the Yankees in the opener.

Wally Post's three-run sixth-inning homer snapped a 2-2 tie and enabled the Reds to sweep a three-game series with the Cardinals behind the two-hit pitching of Bob Purkey, who won his 16th game. Purkey chipped in with two hits and Vada Pinson had three in the Reds' nine-hit attack.

The Red Sox fagged 14-game winner Don Mossi for six runs and eight hits in the first two innings to deal the Tigers' fading pennant hopes another blow. Gene Condit went seven innings to win his 10th game for the Red Sox. Rocky Colavito and Bill Bruton homered for the Tigers.

San Antonio evened the best-of-seven series at one game each Sunday night with a 9-5 triumph over the Mexican League champions. The Missions pulled the Eagles' claws with a five-run outburst in the first inning, and battered three Veracruz pitchers for 15 hits.

Veracruz won the first playoff game, 4-3, Saturday night. San Antonio outbit the visitors in the opener, 9-6, but the Missions committed six errors to let Ramon Arano stagger all the way for the win.

Sunday night the action was reversed. The Eagles' defense fell apart for five errors. Morris Steevens, relieved by Don Prince during a three-run Veracruz uprising in the seventh, was the winner. Eagle starter William de Jesus, the first of three Mexican hurlers, was the loser.

The series to determine the Pan American Association championship continues with another single game Monday night. All the games will be played at San Antonio.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

Entered as second class matter under the act of March 3, 1879.

The State And Education

Since we thought we pretty well understood what money is, we doubt whether we ever read Frederic Bastiat's essay on "What Is Money?"

In looking over one of Frederic Bastiat's "Essays on Political Economy," published in 1853, we started to read his essay on "What Is Money?" It was rather tedious until he began to explain how difficult it is to get people to understand what money is. Bastiat puts it in the form of a dialogue between two parties. Then, in the last part of the chapter he explains why it is so difficult to get people to understand what money is, what proper human relations are, what virtue is, and how the youth of the land is subjected to the education of the Greeks and the Romans, who couldn't even define property because they believed one man had a right to own another. This is the way Bastiat ends the chapter:

"F. Without knowing it, it (the state) applies itself to loading everybody's brain with prejudices, and everybody's heart with sentiments favourable to the spirit of hierarchy, war, and hatred, so that, when a doctrine of order, peace, and union presents itself, it is in vain that it has clearness and truth on its side — it cannot gain admittance.

"B. Decidedly, you are a frightful grumbler. What interest can the state have in mystifying people's intellects in favour of revolutions and civil and foreign wars?

"F. I will tell you. The most urgent necessity is, not that the state should teach, but that it should allow education. All monopolies are detestable, but the worst of all is the monopoly of education."

"B. We believe we have been advocating exactly the same thing that Bastiat advocated 115 years ago—that the worst form of monopoly is the monopoly of education."

"F. We also like his expression that the state should allow education. And when the state has a monopoly on education, it does not "allow" education. It becomes simply propaganda, with instructions as to how one should be loyal to the government rather than to natural or God's laws.

Truly, we are reaping exactly what we have been sowing."

Inequality Of Value

Many men do not seem to know that inequality of money is what provides it with its purchasing power. Give all men an equal number of dollars and we would have to find some other media of exchange or else quickly re-distribute the dollars so that value for them could be discovered.

A TVA For Northwest

On more than one occasion we have had cause to say something about the Tennessee Valley Authority (TVA), one of the largest of all the federal boondoggles.

It will come as news to many that the Kennedy administration is planning, and implementing their planning with proposed legislation, to establish a giant TVA for the Northwestern part of the United States.

It will also be news to some that the Kennedy boys are viewing the United States thru such authoritarian rimmed bi-focals that they imagine TVA's all across the nation, with the federal government the principal source of all power to all the people of the land.

The tip-off to the intention of the administration was actually contained in President Kennedy's speech of February 23 of this year in which he said:

"Finally, I have directed the Secretary of the Interior to develop plans for the early interconnection of areas served by that department's marketing agencies with adequate common carrier transmission lines; to plan for further national pooling of electric power, both public and private; and to enlarge such pooling as now exists."

Following hard on the heels of this statement has come the Hanford Project, set for Hanford, Washington, which will erect a giant federally subsidized link in the huge chain which is envisaged as a part of a power grid for the nation controlled in Washington D. C. The Hanford Project is to cost \$95 million as its initial outlay, but since it is only one link in the giant proposed interlinking of all power facilities, the cost of the entire program would be in the multi-billions and would serve to grant the federal government a strangle hold on all outlets of power.

Nor is Kennedy's choice of words even slightly reassuring. It is clear that he imagines such universal control of power by the federal government thru the department of the Interior, that even private producers will be taken over, or merged, or joined in with, whatever the federal government establishes.

Seemingly a review of the Tennessee situation is in order. Has the TVA been the boon to people in the Tennessee Valley as was confidently predicted?

According to the most recent reports available, it has not. Living standards in the Tennessee Valley are among the lowest in the nation. The allegation that flood control would be realized is matched against the permanent flood conditions created by the series of dams which have re-

The Doctor Says:

THOMAS HYMAN By DR. HAROLD

While glaucoma accounts for 14 to 15 per cent of blindness in the United States, impairment or total loss of vision from cataract formation is even more frequently encountered.

Cataract formation occurs in the lens of the eye. This lens is about the size and shape of a small olive pit. It is suspended just behind the pupillary opening. And when it fogs or actually becomes opaque, your vision becomes imperfect and may fail completely.

No test is required to diagnose cataract formation. If the cataract formation is spotty, you may notice that:

Your vision is blurred. There are consistent blind spots in your field of vision. Lights appear double.

You can see objects perfectly if they are directly in front of you or that you can see these objects only if they are off to the side.

Sometimes, you may notice nothing. But some member of your family or a business associate may notice that there's been a change in the appearance of your eye. If, then, you are examined with an ophthalmoscope by your own doctor, an eye specialist (ophthalmologist) or an optometrist, the lens changes are easily observed.

Unless the cataract has gotten "overripe," your vision can be preserved by a relatively simple operative procedure.

Besides glaucoma and cataract, injury to the optic nerve may produce visual impairment. In this condition, the lens functions perfectly; the fluid is of normal tension, but the nerve fails to respond to light rays just as your facial nerves fail to respond to pain after your dentist has given an injection of a local anesthetic.

Now there are many causes for inflammation of the optic nerve (retrobulbar neuritis). But a principal cause is excessive use of tobacco, particularly long continued cigar smoking. And the means for prevention? If diagnosed early, nothing more than giving up smoking.

Thus far, nothing has been said of eye pain. And while cataract formation, chronic glaucoma and retrobulbar neuritis are painless conditions, acute glaucoma is one of the most agonizing afflictions known to mankind.

For that reason, if for no other, early diagnosis and prompt treatment are of utmost importance. This is particularly emphasized by the unhappy fact that an attack of acute glaucoma may be precipitated when pupil-dilating drops (mydriatics) are introduced either for cosmetic reasons or for eye examination.

Contrariwise the attack may be prevented and controlled more or less indefinitely at times by simple instillation of pupil-contracting drops (miotics), especially if the effects of the miotic drops are strengthened by pills that reduce the inflow of fluid into the chamber of the eye.

And, finally, if nonoperative measures fail, there's always surgical drainage to be considered.

I don't pretend for a moment that I've done more than skim the surface of these important eye problems. But maybe I've done enough to suggest that an annual eye check-up by a competent observer is a worthwhile precaution for those in 40-plus age bracket, especially if they have diabetes or some other chronic disease or if they've been heavy cigar smokers.

Go Ahead And Set It Off?

SO WHO'S AFRAID OF LOSING A FEW MILLION PEOPLE?

Allen - Scott Report:

Kennedy Plan for Arab Refugees from Palestine Called Unsound by Rep. Rooney

WASHINGTON — President Kennedy's far-reaching plan to solve the long-festering Palestine refugee problem is splitting members of his own party in Congress right down the middle.

While the proposal has the strong backing of Senator J. William Fulbright, D. Ark., chairman of the Senate Foreign Relations Committee, and Senator Hubert Humphrey, D. Minn., Senate Democratic Whip, Representative John J. Rooney, D. N. Y., a key member of the powerful House Appropriations Committee, is seriously challenging the soundness of the explosive plan.

Representative Rooney, who will have a major voice in providing funds to carry it out, has even gone so far as to charge that the "repatriation or compensation" proposal, as it is now drafted, might destroy Israel.

The proposal, now being actively considered by Israel and Arab leaders, calls for: Israel to agree to repatriate all Arabs who left Israel more than 13 years ago and want to return; it is the State Department's estimate that only 10 percent of the one million refugees would go back.

The Arab countries to resettle and integrate the remaining refugees. Approximately half of them are in Jordan, the only Arab country to grant them citizenship. Another 200,000 are in camps and villages in the Gaza Strip controlled by Egypt.

The U.S. to give Israel either grants or long-term, low-interest loans to help pay its share of this program — repatriating the Arab refugees and compensating all of them for part of their property losses.

The United Nations to establish a new refugee resettlement agency to direct the return and provide financial help.

THE MISGIVINGS — Representative Rooney hurled his serious misgivings of the plan at Howard R. Cottam, an aide to Secretary of State Rusk, when he appeared at a closed committee meeting to explain the refugee solution.

"This proposal might be the end of the State of Israel if we were to permit all these Arab refugees moved millions of acres of rich land from cultivation."

The claim was also advanced that water power is a cheaper way of producing energy than steam. This claim is valid. But TVA does not create an abundance of electrical energy that means of water power. Rather, TVA has become the largest consumer of coal in the nation, producing a large segment of its electrical output by means of the costly steam plants which had to be installed to meet the commitments of the Valley Authority in respect to power output.

Meanwhile, there does seem to be some benefit to the Tennesseans in that they can swim in the lakes created and skate on the ice in winter. But when one reviews the enormous cost of operation considered as tax losses for the rest of the American people, the artificially low rates charged for its electrical energy, and so on, one is led to conclude that the whole idea of government operation of power plants is a most serious error.

To enlarge this error by putting the government still further into the business of competing with or taking over private producers of electrical energy, is clearly a wrong move.

Fortunately, a number of representatives in Congress have already turned thumbs down on the Hanford Project and others are likely to do so. But the aim of the President is both visible and transparent. It leads to more and more socialism and more and more control over our lives, our incomes and our property.

Hankering

By HENRY McLEMORE

ROME, Italy — Physically, General Charles de Gaulle is an Alger and I am a rise in the ground, yet we often see eye to eye.

Right now is one of those times. Surveying the world scene from his lofty height, the General is dead against immediate negotiations with the Russians over Berlin. He appears to take the view that the Berlin crisis is of Russia's making and that it should be the one to make the overtures and present sensible grounds on which to negotiate.

The General is against negotiating just for the sake of negotiating. He sees it as a sign of weakness unless there is definite evidence that something worth-while will come from the talks across the table.

The General has been called a variety of names for this attitude, none of them complimentary. He has been described as "stubborn," "difficult," "arrogant," "narrow," "war-like," "blind," and "uncooperative."

This probably doesn't bother Charles de Gaulle a bit, because unless his memory is very short he remembers being called the same things during World War II for his refusal to allow his allies to dismiss France as a country that was gone for good, with no chance of rising again.

To one as far removed from the world diplomatic scene as I, the West's mad-urge to get on with negotiations with Khrushchev is hard to figure out. Of course, there is the hope of avoiding open battle, but if Khrushchev is determined on war no one is going to change his mind. Unless, that is, he is given all he asks and a little bit more.

It would be interesting to know just what line the West will take in the negotiations, if and when they come off.

Are there enough wishful thinkers about to believe that Khrushchev will undo all he has done in Berlin? Knock down the wall that he has thrown up to separate the two cities? Reopen all the crossing points he has sealed? Go back on his promises to sign a separate peace Treaty with East Germany?

Do the West's negotiators feel that they are persuasive enough to bring about this loss of face by Khrushchev? — disturbing thought — what do we plan to offer in the way of compromise to make Khrushchev abandon his Berlin moves, all of which were unlawful?

I keep asking myself, every time a table talk with the Russians comes up, how you go about dealing with a burglar that has your silver in his pockets and his eyes and fingers on your wall safe?

Do you agree to give him the contents of the living room if he'll leave the bedrooms and kitchen alone? Or do you try to buy back what is rightfully yours if the burglar promises to leave quietly and not return for a month or two?

Russia's "good intentions" have just been shown again in the sudden decision to resume nuclear tests. How long has that move been studied, even as its delegates talked and talked peace and goodwill in Geneva?

General de Gaulle may be stubborn, uncooperative, and "difficult" as he is said to be, but he has yet to be called unaware of Russia's intentions or aims.

Emperor Leun-Ho is said to have devised playing cards in 1120 for the amusement of his wives.

Traditionally, fine baseball bats are made of ash wood from 75-foot-high trees of the northeast side of a mountain, where cooler temperatures mean fewer woodpeckers and later-melting snow for constant moisture to the roots. Ash trees of New York and Pennsylvania are preferred. Sound silly? Babe Ruth went further than this. He insisted on bats marked with tiny pin knots.

West Won't Stir Pot On East German Stove

By PETER EDSON NEA Washington Correspondent

WASHINGTON (NEA) — Events in Berlin are moving so rapidly they may get beyond even Communist control by accident.

That is considered the danger in the current crisis—the possibility of an unintentional wrong being started at the wrong time.

So the United States and its western European allies are making no moves to stir up another revolt of the East Germans against their Communist masters. West Germany is opposed to any such move for several reasons.

The Adenauer government has a never done anything either to encourage or discourage the flight of East German refugees to the West. The millions who have fled communism have been welcomed and resettled as fast as possible. But the Bonn government does not want to "de-Germanize" the east zone.

If that should happen then Russians or other eastern European people would move into the vacuum. There would then be less reason to work for reunification of Germany.

There are two other realities that must be faced. One is that there are 20 Russian divisions concentrated in East Germany. This force is about the equivalent of North Atlantic Treaty Organization forces scattered all over western Europe. They could not be moved into position fast enough to give any support to an East German revolt.

The other important factor is that memory of the 1953 revolt of East German workers is still fresh enough in mind to make any repetition of such a disaster unlikely.

That began as a strike of 5,000 factory workers. But it quickly spread to half a million workers all over the Soviet zone. It was ruthlessly suppressed by Russian tanks.

But out of that demonstration there came some relaxation of Communist controls in East Germany. And the world saw that the puppet government was maintained by force of Russian arms, not by the free will of the people.

It is now believed that a similar advantage can be gained by not stirring up the Berlin situation naturally. The force of world public opinion may be marshalled against the Russians by newspapers showing Russian tanks closing the border with West Germany.

If the situation were reversed, the Communists would unquestionably move agitators into the crisis area to stir up further trouble. That is standard Communist operating procedure.

But they would not be Russian provocateurs who would lead the uprising and get killed. They would be natives storming the barricades and being shot down mercilessly.

For the west to stir up trouble in Berlin now would merely get a lot of civilians killed needlessly. Soviet military power would remain as strong as it was before. That is what has to be destroyed — not the German people.

Restraint on the part of the United States and its NATO allies may be viewed as a sign of weakness. Another failure to come to the rescue of the revolting workers — as in East Germany in 1953 and Hungary in 1956 — would make the West look bad.

Defense of freedom is a great principle. But where questions of

Bowling Boom

NEW YORK (UPI) — Several U.S. manufacturers of bowling equipment are cashing in on the bowling craze in Europe. Brunswick Corp., which will open three centers in Germany and one in Holland this fall; plans to assemble alleys in Peru and Japan in the near future. American Machine & Foundry will build five centers in West Germany.

remote geography are concerned, Civil War General Nathan Forrest's admonition to "Git thar fustest with the mosdest" is still sound strategy, even in a nuclear age.

Both East and West are playing high brinkmanship over the Berlin situation today. This war of nerves will probably get worse. But the time for a showdown will not come until all means of obtaining a peaceful settlement by negotiation have been exhausted.

It would be suicide for the Germans to try to overcome Soviet force at this stage.
