Allies Near Key Decision Over Berlin

By United Press International
The Western Allies began moving today toward the decisive phase of the Berlin crisis.

The foreign ministers of Britain, France and West Germany were on their way to Washington for a three-day conference with Secretary of State Dean Rusk beginning Thursday.

Rusk was depicted by Washington officials as hoping the conference could map a master diplomatic plan to meet the peril posed by mounting Soviet threats. When the conference ends, the pace of Western actions may quicken.

Washington officials said the Four Powers have made great progress in working out military "contingency" plans to put into effect if the Communists actually try to block Allied access to Berlin.

The United States is sending 40,000 more troops to Europe. Britain and West Germany are bringing their active divisions up to full strength. France has pulled soldiers out of Algeria and reinforced the German border. In a week or two the United States will resume underground and laboratory nuclear weapons testing.

On the Communist side, the Soviet Union already has resumed nuclear testing and has halted a reduction of its armed forces, announced with great fanfare last year. East Germany has started drafting young men through forced enlistments and the other Warsaw Pact powers have spoken of stepping up military preparations.

The buildup of the giant war machines is geared to Soviet Premier Nikita S. Khrushchev's threat to sign a peace treaty with East Germany this year — thus sealing the division of Germany and ending Allied rights in West Berlin.

Two delegates of 25 nations which call themselves non-aligned continued trying to convince President Kennedy that a summit meeting between him and Khrushchev might reduce the danger of war.

The two men — President Sukarno of Indonesia and President Modibo Keita of Mali — conferred with Kennedy for 53 minutes Tuesday and touched on several world issues, including disarmament. Sukarno said the meeting was "very cordial and friendly."

Administration officials have represented Kennedy as opposed to negotiating with Khrushchev under the threat of Soviet atomic blackmail.

Tuesday, just before Sukarno and Keita arrived, the U. S. Atomic Energy Commission announced detection of the seventh Soviet nuclear explosion since Russia resumed tests Sept. 1.

25 Teachers Are Greeted At Reception

L. J. Edmondson, superintendent of schools introduced 25 new teachers to the Pampa teaching staff at the reception held in their honor last night in the Robert E. Lee school cafeteria.

The welcome was given by Mayor E. C. Sidwell and response by Mrs. John Vantine, president of the Pampa Classroom Teachers Association. Some 400 persons attended.

A. J. Catubbi, chairman of the public relations committee of the Chamber of Commerce, presided over the reception.

Door prizes were furnished by the Pampa merchants and drawings were handled by Gerald Sims and his committee.

Special music for the evening was presented by Joe Whitten, director of music of the First Baptist Church.

CARLA REFUGEES — These children, who fled Hurricane Carla, found a sleeping place under tables in the Cafeteria at the Roy Miller high school in Corpus Christi. They were a symbol of the thousands who fled the storm. The Corpus Christi area had winds as high as 173 miles an hour.

Bingo Game Caller Gets Vivid Shock

LONDON (UPI) — Raymond Franklin was calling his first bingo game in a London theater Tuesday night, and he was visibly shaken when 50 of the players jumped to their feet and yelled "Bingo!"

Franklin checked each card, and they all tallied. He passed out 50 prizes. Then he began to examine his supply of cards.

His printers had made a mistake, and had provided dozens of duplicate cards.

"What a shocking start for bingo around here," he said.

Dominican Army Moves To Quell Business Strike

CIUDAD TRUJILLO, D.R. (UPI)—Tanks and troops roamed the streets early today in a show of force apparently intended to forestall a threatened anti-government "businessmen's strike."

The armed forces moved into the city at nightfall Tuesday, after a day of riotous outbreaks in which at least two opponents of the government were killed and 40 were injured.

Opposition mobs swarmed into the streets in an apparent effort to convince investigators sent here by the Organization of American States that the Dominican Republic is still a long way from democracy.

Demonstrators carried banners reading "Give us liberty!" and "Trujillo, go away!" This last slogan was directed at surviving members of the family of assassinated ex-strongman Rafael L. Trujillo.

About 1,000 government supporters staged a counter-demonstration at the airport when the OAS investigators arrived Tuesday, carrying signs saying "We don't want another Fidel Castro here!"

In a radio broadcast Tuesday night, the opposition UCN party called President Joaquin Balaguer a "dictator who wants to continue the killing and torture" started by Trujillo.

The UCN sent cables to the presidents of the United States, Panama, Colombia and Ecuador — the nations represented on the OAS team — expressing confidence that the investigators would be "just and impartial."

Dam Project Money Voted

WASHINGTON (SpI) — Rep. Walter Rogers today announced that the full House of Representatives approved the public works appropriation bill including \$4,300,000 for the Canadian river dam project.

The bill include \$1,000,000 for land and land rights acquisition, \$370,000 for accumulation of field data, pumping plants and pipelines; \$2,330,000 for completion of designs and specifications and initiation of construction of the dam.

Storm Refugees Streaming Home

GALVESTON, Tex. (UPI)—Rains and floods ran ahead of Friday Hurricane Carla today and in her wake the work of rebuilding began.

A small army of emergency workers joined streams of refugees going home to rebuild flood, wind, and tornado-devastated cities and towns in the wide arc of the Gulf Coast.

Food shortages developed in still-flooded communities. Galveston police said looting had broken out. Eight suspected looters were arrested. One was shot and wounded when he resisted.

Lack of sanitation brought further danger to many towns. Carla was blowing herself out northward in Oklahoma, but still wrought damage. Driving rains far in front brought floods to Kansas.

It left these scars in Texas and Louisiana: —At least 17 persons dead and hundreds injured, mostly from tornadoes flung out by the hurricane.

—Damage to homes, crops and other property generally estimated by state officials to be in the hundreds of millions of dollars.

Texas asked that Nueces County (the Corpus Christi area) be declared a federal disaster area, eligible for government relief funds.

Officials urged the estimated 400,000-500,000 people who fled Carla's 150-mile-an-hour fury to stay away until flood waters subsided. Tens of thousands went home anyway.

The Red Cross reported all but two shelters in eight south Texas counties — jammed for four days — had emptied.

Officials of badly flooded and still isolated Texas City warned of a serious fresh water shortage. Sanitation facilities were lacking. Police were being given typhoid inoculations.

President Kennedy, reported

Jailings Stir British Anti-Bombers Group

LONDON (UPI) — Supporters of Bertrand Russell's "ban the bomb" campaign vowed today they will stage a sit-down demonstration in front of parliament Sunday despite the jailing of their leader.

"We are determined to go through with it," said a spokesman for Russell's law-defying "Committee of 100." "We are prepared to take any consequences."

The waspish octogenarian and his wife were jailed Tuesday for a week along with 30 others on charges of inciting the public to commit a breach of the peace. Russell's sentence was scaled down from two months because of his advanced age, 89.

Ralph Schoenman, the earl's American secretary, was jailed for two months. British playwrights Robert Bolt and Arnold Wesker drew a month each.

Home Secretary R. A. Butler planned to mobilize 750 extra police to cope with the demonstrators. He had not yet decided whether to declare the demonstration illegal.

Russell and three others were summoned to court again today on charges of using a loudspeaker illegally in Hyde Park.

The earl's anti-bombers won little sympathy in Britain's press. "Let Lord Russell, and his legions go squat around the Kremlin," the Daily Telegraph editorialized.

U. S. Robot Circles Globe In Space Test

Steel Price Hike Looms In October

WASHINGTON (UPI) — The steel industry estimated today the Oct. 1 wage increase for steelworkers will cost more than \$28 million in the last three months of this year alone.

The figures, compiled by the American Iron & Steel Institute, may be used to defend any price increases that steel firms may put into effect following the wage boost. The institute said the wage raise will cost nearly 14 cents per man-hour.

President Kennedy has asked the steel industry to hold the line on prices now to avoid the threat of a new inflationary spiral.

Kennedy's Council of Economic Advisors said steel firms could make reasonable profits without raising prices because of greater output and increased productivity.

Industry sources, however, have said the odds still favor a price increase around the first of next month.

The new wage cost figures appeared certain to stir controversy between the industry and the United Steelworkers.

Union president Dave McDonald has argued that unit labor costs — the amount spent on labor for each ton of steel produced — have been steadily declining despite higher pay.

A high administration official disputed the institute's 14 cents estimate and said the increased hourly costs to the companies would be somewhere between 9 and 10 cents.

GM And Union Continue Efforts On Work Pact

DETROIT (UPI) — The United Auto Workers, after getting contract extensions from Ford and Chrysler, concentrated today on wrapping up a new pact with strikebound General Motors Corp. before Thursday afternoon.

UAW President Walter P. Reuther and GM vice president Louis G. Seaton spent most of their time helping settle 10,000 local plant problems which triggered a strike by a quarter-million workers.

Agreements were reported at 41 UAW-represented GM plants and two represented by the International Union of Electrical

Workers. But 94 plants still were closed with more than 259,000 workers idled.

GM said 94,000 workers were not affected by the strike. All were working without a contract since the UAW pact expired Monday.

The GM walkout then ensued at some plants because full agreement had not been reached on local and national contracts.

Chrysler and Ford, with contracts set to expire at midnight tonight, agreed to extend their agreements indefinitely, subject to 48 hours cancellation. If the agreements had not been extended, UAW members had planned to work without contracts.

The UAW has set an unofficial deadline of 2 p.m. CST Thursday for a full settlement at GM. At that time, the union's 280-man national GM council will meet to ratify or reject an economic agreement reached last week and a national non-economic agreement now being worked out, and to decide what action to take on local problems.

Red Cross Asks Disaster Funds

A. J. Carubbi Jr., Red Cross chapter chairman, announced today a telegram had been received from National Headquarters asking the people of Pampa to give to the Disaster Fund for the victims of Hurricane Carla.

It is estimated that the Red Cross will spend over two million dollars in emergency care and in rehabilitation of the people hurt by this hurricane. Contributions should be made to Disaster Fund, Box 1835, Pampa, Texas, or leave checks or money at either bank in Pampa. Contribution will be sent to the Red Cross for distribution.

77 Dead In Plane Crash In Morocco

RABAT, Morocco (UPI) — An Air France Caravelle jetliner carrying 77 persons, including three Americans, crashed into a ravine outside Rabat Tuesday night as it approached a landing in foggy darkness. Air France said all aboard were killed.

The Americans were identified as Navy officer Neville Fowler of Pittsburgh, Pa., and John Brown of Bayside, Va., and engineer Walter Paige home address not available.

Also among the passengers were J. P. Quin, 42, the Australian ambassador to the United Arab Republic; a U.A.R. Foreign Ministry official named Boultini; and Prince Sakkri of the oil-rich sheikhdom of Kuwait.

The 71 passengers aboard the Paris-to-Rabat flight included six children, one infant and several staff members of the French Embassy in Rabat. There were six crewmen.

'Simulated Man' Completes Hop In 110 Minutes

CAPE CANAVERAL (UPI) — The United States sent a "robot astronaut" on a single trip around the earth today and brought it back.

The crucial test was one of the final steps of an intense drive to get an American astronaut into orbit before the end of the year.

Scientists had planned to send a chimpanzee on a similar orbital flight before putting a man in the globe-girdling Mercury space capsule but there now is a possibility the animal flight may be skipped.

The administration is known to be exerting heavy pressure on space officials to match Russia's two outstanding space feats of putting men into orbit.

The Atlas rocket-carrying the capsule and its "robot" passenger, actually a collection of mechanisms simulating some of the functions of man, blasted off at 8:54 a.m. CST and parachuted about 110 minutes later toward the At-

MOST COURTEOUS DRIVER — Earl Clayton Smith, 320 N. Gillespie, has been named "the most courteous driver of the week" by the police department and the Altrusa Club. Smith, was observed by Officer Preston Bailey yesterday, driving east on Francis in front of the Pampa Junior High School. He noticed two students standing on the curb attempting to use the crosswalk. Smith came to a full stop and motioned for them to cross the street. This act earns for him the title of "most courteous driver" and an award from the Altrusa Club. (Pampa News Photo)

Flood Threats Follow In Wake Of Hurricane

By United Press International
Fading hurricane Carla chewed into Oklahoma today and sent a flood threat as far north as Iowa.

Rivers rose in Texas, Kansas, Missouri, Nebraska and Iowa from up to a foot of rainfall since the week began. In Kansas authorities said some rivers were nearing the levels of 1951, when Kansas City suffered its billion-dollar flood.

Frost warnings were up in the northern plains from cold Canadian air which continued to sift across the border. The cool front collided with Carla-born Gulf air, touching off torrential downpours along the length of the Corn Belt.

The Northeast had another round of 90-degree heat but the U.S. Weather Bureau forecast relief for many sections today.

Flood-prone north-central Kansas apparently had the most serious high-water threat, although at least four Texas rivers were out of their banks.

At least one farm family fled from Kansas' rising Solomon River. Other flooding was reported along the Republican, Saline, Smoky Hill, Big Blue and Little Blue rivers.

Texas' most serious flood threat was along an 80-mile stretch of the Colorado River from Columbus to the Gulf of Mexico. But floods also were expected along the Trinity, Lavaca and Navidad rivers following as much as 13 inches of rain.

At St. Joseph, Mo., residents of bottomland areas along the Missouri River were alerted for possible flash floods.

In Nebraska flooding was forecast along the Saline and Big and Little Blue rivers.

State Legislator Takes Federal Job

WASHINGTON (UPI)— State Rep. Tony Korioth has announced his resignation from the Texas House of Representatives to become counsel for the President's Committee on Equal Employment Opportunity.

Korioth, of Sherman, served in the legislative sessions of 1957, 1959 and 1961.

If it comes from a hardware store we have it. Lewis Hdw. Adv.

Sergeant Tells Of Experience As Storm Hits

By M. SGT. ED HOADLEY GALVESTON (UPI)— There were 10 of us in this building at 326 Avenue Q and it was blowing water through the walls and around windows and doors. Most of us were asleep when it hit. It was raining sheets of water and blowing it through the walls and around doors. We were moving beds over to one side of the house which was wet to the other side which was dry.

One fellow in the hall was in front of a window when it let go. The first thing we heard was a terrific roar. The whole house exploded. You could hear all the windows go at one time. The back window went out the same time the front windows came in.

There was just glass all over the place. The force of the wind blast was so terrific that it just blew whole door and window frames and everything right into the house.

Boards and glass were flying all over the place. We had an elderly lady with us and my youngster, Theresa, 5, and we were worried about them getting cut by flying glass.

You couldn't stand up. You couldn't do anything — just go along with the wind.

It rained hard and blew some more. We decided the best thing to do was get out of there. Electric light poles and wires were all over the streets in the area.

Water was knee deep in the street. We waded the block to the Buccaneer hotel and took refuge in the lobby.

It was a miracle that none of us was hurt.

Refugees Waited In Varied Moods For Carla To Die

EDITORS NOTE—United Press International staff correspondent William C. Payette lived among part of the 400,000 persons who fled their homes before the onrushing Hurricane Carla. Here is his report on their life of waiting.

VICTORIA (UPI)— Sometimes patience wears thin for the thousands of refugees waiting for water in their low-lying homes to go down.

But most are anxious to return to normal life after three days of waiting for Hurricane Carla to pass.

Until Wednesday, Victoria's outside refugee centers, had appeared a deserted city.

Inside, in this officially-designated refugee area — behind the boarded fronts and closed doors — lived the people: Most of the ones who lived here and perhaps 8,000 who sought stone and concrete shelter against the hurricane.

Such services as an open filling station or a restaurant are hard to find.

A couple of restaurants remained open through the storm.

At one, where it takes most of an hour to get your dinner served, a veteran waitress, shouting at the manager over a sea of patiently waiting patrons, says: "It don't do no good to get them girls! They just hide."

The volunteer waitresses, who try to fill in for the professionals waiting out the storm at home or in the school or in the courthouse, don't know the craft.

Radio and television are blaring everywhere in the boarded-up buildings where people take refuge. Rumors about the storm are rampant.

At the Red Cross headquarters in City Hall, the same faces — pale and tired now — are playing cards. Today they are counting out so many rations of bread, coffee and meat for school after school being used as shelters.

One of the refugees ordered sugar for the coffee.

"They can damned well drink it black," said one of the men counting food rations.

He was half-jesting, but he made his point: It's no time to be picky about food.

Over at highway patrol headquarters, a quiet game of poker is in progress on blanket thrown over a desk as radioed reports come in.

There is little traffic to worry officers. Crime is forgotten. No reports of crime have been received on the Department of

RECEIVE CERTIFICATES — Three Pampa men received their Life Underwriters certificates at the Top O' Texas Association of Life Underwriters meeting held recently in Pampa. The men have completed all or part of a two year training course developed by the Underwriting Training Council, Washington, D.C. Presentation of certificates was made by Maurice McCoy, instructor for the course. Pictured left are, McCoy, Joe Cree, American National; Jim Morris, American National; and Bob Ewing, Prudential of America. Morris, chairman for the course for part one and two, presided over the meeting during the presentation of awards.

Solon's Rap At Paar Had 'Unkindest' Cut

By DICK WEST WASHINGTON (UPI) — There used to be a saying in show business to the effect that "I don't care what you say about me as long as you mention my name." Later, the qualifying phrase was amended to read "as long as you spell my name right."

This latter version popped into my mind as I was reading a statement issued by Rep. Edgar W. Hiestand, a California Republican who was riled over some of the activities of television's Jack Paar.

A number of lawmakers put out statements over the weekend deploring the use of U.S. troops as camera fodder for the scene that Paar filmed at the East-West border in Berlin.

But for someone in show business, Hiestand's statement must have been the unkindest cut of all.

Not only did Hiestand question the propriety of employing "two colonels, one lieutenant colonel, a major, a captain, two lieutenants and about 50 enlisted men" as "bit players" for Paar's late night cultural seances.

And not only did he assert that "turning a global hot spot into a television playground" made it appear that Paar had taken over as "our new Berlin commander."

Considered by some, this criticism might have amounted to little more than extra publicity for Paar's program. But there was another factor involved.

Throughout the statement, Hiestand had the comedian's name spelled "Paar."

For what it may be worth, Paar is not the only funnyman capable of outraging a congressman. Another is Al Capp, the comic strip artist who draws "Li'l Abner."

Here of late, Capp's cartoon detective, "Fearless Fosdick," has been engaged in a lampoon of a high-minded TV program called "The Untouchables." And this has aroused the ire of Rep. Frank J. Becker of New York.

Becker, in a statement prepared for delivery in the House today, took Capp to task for drawing an episode which showed Fosdick's boss, the chief of police, telephoning a criminal to warn of an impending raid.

The congressman called this Public Safety radio in the past 24 hours.

Primary concerns are on people's minds.

The court house, not a refuge, is jammed with people who fled the storm. Refuge or not, it is a symbol of authority, and the authorities are patient.

Alvino Robles comes into the limping restaurant for donuts for his wife and four children, who are staying at Victoria College. There are no donuts.

"It is good there," he says in halting English. "We slept, we had blankets and food."

Exceptional Child Plans Expanded

A new phase in the training of exceptional children on the junior high level was announced at the Exceptional Child Association's family picnic held last night in Hobart Street Park.

Until this year, the association has been able to help children only up to 12 years of age in classes held in Travis and Sam Houston Elementary Schools. With the addition of the junior high classes, students leaving the elementary grade level are now able to continue with their education.

Mrs. Ernestine Elliott, a graduate of Texas Women's University in Denton, whose hometown is in Whitesboro, is the association's new program co-ordinator and will have classes in Travis Elementary School.

Mrs. Bernice Lorenz of Stinnett, who taught last year in Hereford, was introduced as the new instructor for the classes in Pampa Junior High School. Mrs. Bertie Turner, who has been associated with the program for the past two years, is instructor for exceptional child classes held in Sam Houston School.

Melvin Munn, guest speaker, spoke to the group of his experiences in the exceptional child and commended the association broadening its horizon.

Special guests were L. J. Edmondson, superintendent of schools, and McHenry Lane, high school curriculum co-ordinator.

During the brief business meeting, it was announced that there is a need for a piano in the exceptional child's classroom in would be willing to donate to the Pampa Junior High School. Anyone association, is asked to call Mrs. Jack P. Foster, having an unused piano, they

Return Of School Bell Is Mystery

ERIE, Pa. (UPI) — Officials were pleased and puzzled today because the Fairview Boro Building has its school bell back.

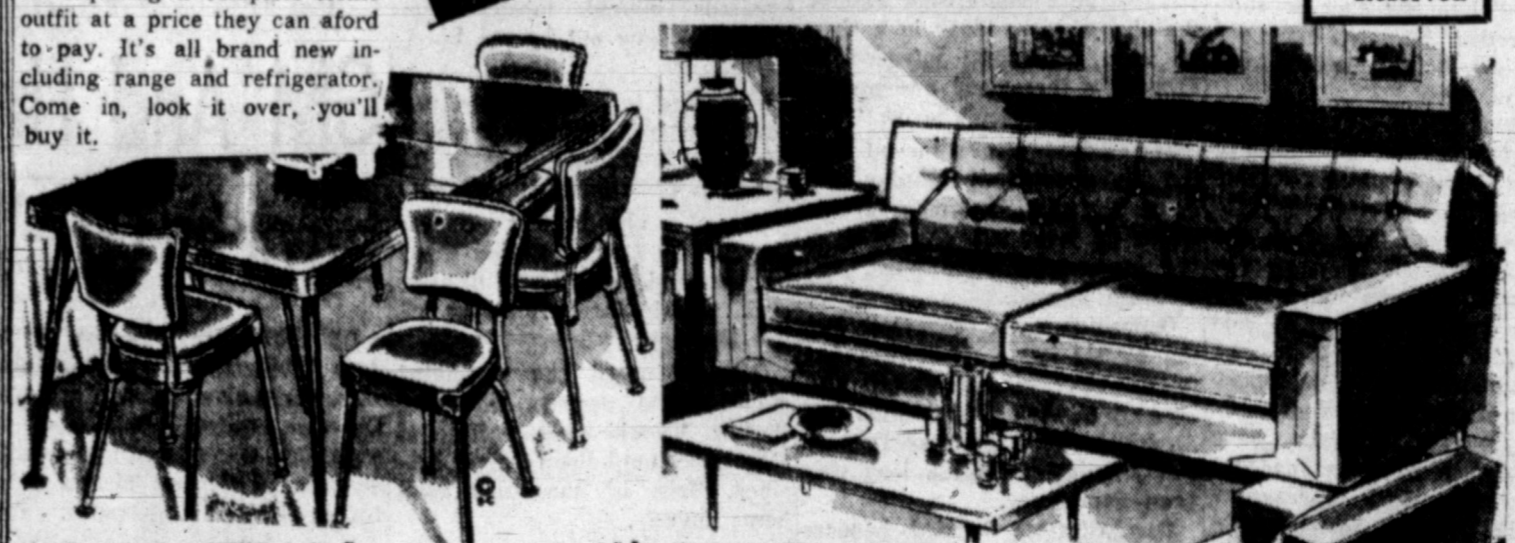

The puzzlement is over who was big enough to remove the bell last July and then return the 250-pound, cast iron clanger to a cupola 40 feet above the ground.

J. E. Williams Funeral To Be Held Tomorrow

Interment rites for James Ewing Williams, 95, one of Pampa's earliest settlers, is planned for 2:30 p.m. Thursday in the Harvest-Mary Ellen Church of Christ with Jay Channell, minister, and Robert C. Jones of Amarillo, Church of Christ minister, officiating. Mr. Williams died at 10:30 p.m. Tuesday in the Worley Hospital following several weeks of confinement with a broken hip. Born Oct. 19, 1865 in Benton County, Mo., Mr. Williams came to Denton County in 1876 with his parents, brothers and sisters. At the age of 18, in March 1886, he moved to the Panhandle section of Texas and went to work for the Franklin Land and Cattle Co., which owned much of the land west of where the city of Pampa now stands. Later part of this land was leased to the Bar N, the Matadors, the Clarendon Agency and Investment Co. and the Hart Interests. Still later, a large part was leased to the White Deer Land Co. In the late 1890's, Williams filed on sections of land located near Lefors, where oil was later discovered. At the turn of the century, he was married to Miss Lucky Wilks in Canadian and they made their home until 1919 on the ranchland

J. E. WILLIAMS

near Lefors. In 1919, they moved to Miami, where they resided for two years and in 1921 moved to Pampa and later to the family home at 721 E. Francis. Williams retired as a rancher in 1931 and sold all of his land with the exception of six sections, which he kept under lease. For posterity, Mr. Williams authored a book "50 Years in the Panhandle," which covers his long and colorful career as a cowpuncher, cattleman and rancher. Pallbearers will be Jim Haden, Edward Vincent, Floyd Thomason, Roy Skinner, L. L. Rawls, Buford Archer, B. D. Robinson, and William Finis Jordan. Burial will be in Fairview Cemetery under the direction of Duenkel-Carmichael Funeral Home.

Mrs. Davis Rites Pend

Funeral services are pending for Mrs. Fannie Davis, who died in a local hospital at 8:40 p.m. yesterday after an illness of two weeks. She had been making her home with a daughter, Mrs. May E. Skaggs, north of the city. Born April 7, 1867 in Meridian, she was married to D. C. Davis in 1895. They moved to Jofferville, Kan., where they resided for one year. In 1887, they came to Gray County and lived east of Lefors until 1928 at which time they moved to San Angelo. Mr. Davis died in 1931. Since that time she had been making her home in Cisco until a year ago, when she moved to the home of her daughter. She was a member of the First Christian Church. In addition to her daughter, Mrs. Skaggs, she is survived by three sons, Clem and Angus, both of Pampa; 18 grandchildren and 28 great-grandchildren. One son, Mel Davis, preceded her in death. Arrangements will be announced later by Duenkel-Carmichael Funeral Home.

Refugees

(Continued From Page 1) several hundred others were cut and bruised. Inland, at the small paper mill town of Hodge, La., the work of clearing away the debris of a hurricane-spawned tornado began. A section of a paper mill, main industry in town, was gutted. Homes in a Negro district were flattened. Four persons, two of them small children, died in Hodge. The children's mother and seven other persons were in critical condition. Three others died in a tornado at Slidell, La., during Carla's northward blow. An infant was killed in a tornado at Kaplanu, La. A father and son were killed when their house collapsed on them at Olivia, Tex., on the coast. One man drowned trying to swim floodwaters in Galveston Bay. A Houston man was killed when he touched a fallen live wire.

Red Cross Group Hears Report On Summer Program

The Pampa chapter of the American Red Cross met recently in the Coronado Inn with 19 members and seven guests present. L. B. Sublett, Red Cross water safety chairman, gave a report of the summer water safety program. He said 173 beginner and advanced beginner certificates were awarded. There were 83 intermediate and 87 swimmer cards issued, he continued, with 14 junior and senior life saving cards issued. Sublett introduced Mrs. Don George who explained the handicapped swim class which meets every Thursday evening in the Pampa Youth Center. Mrs. E. A. McLennan showed the members and guests film taken during the summer swim program at the municipal swimming pool. During the business session committee chairman told of their work during the summer months. Special guests at the meeting were, John Koonz, city manager; L. P. Fort, commissioner; Mrs. Don George, Reece Ewing, Mrs. A. E. McLennan, Jennie Goff and Mike Fort.

Welfare Index Group To Meet

Tom Beard, president of the Pampa Welfare Index group presided over the group meeting held recently in City Hall. Mrs. Jimmie Crouch, Mrs. Libby Shotwell and Mrs. Nina Spoonmore were appointed to the nominating committee. It was announced at the meeting that the Red Cross would no longer have a clothing room. The clothing and racks will be moved to the Welfare Index Clothing and Furniture room on W. Bacon St. The Index group voted to turn on lights in the store room so that if any person needed help during the evening hours, it could be given. Attending the meeting and representing their organization were: Libby Shotwell, Red Cross; Lillie Stafford and Lucille Kessinger, Rebecca Lodge; Mrs. Lyles K. Stout, American Legion Auxiliary; Sam Begert, principal of Horace Mann School; and Mrs. Nina Spoonmore, county welfare secretary. The next Welfare Index meeting will be held in City Hall on Oct. 9. New officers of the Index will be presented at that time.

McKenzie Infant Rites Are Held

Graveside rites were held for Rickie Don McKenzie, infant son of Mr. and Mrs. Donald McKenzie, 1201 1/2 S. Hobart, this morning at 11 in Baby Gardens, Fairview Cemetery. The Rev. John Dyer, pastor of the Hobart Street Baptist Church, officiated. The infant died at 8:45 p.m. Tuesday. In addition to the parents, he is survived by maternal grandparents, Mr. and Mrs. D. W. Jones of Longview; paternal grandparents, Mr. and Mrs. L. R. McKenzie of Panhandle. Interment was under the direction of Duenkel-Carmichael Funeral Home.

Tiny School Tot Picks Own Class

KINGS PARK, N.Y. (UPI) — Police spent more than an hour searching for a five-year-old girl who failed to appear in her kindergarten class, then found her during lunch period. Suzanne Healy said she spent the morning in the first grade because she liked the teacher who mistook her for another girl.

Record Air Ride Called 'Dandy'

EDWARDS AFB, Calif. (UPI) — A "by guess or by gosh" ride in a trouble-beset X15 rocket plane Tuesday earned 40-year-old Joe Walker a new man-controlled speed record of 3,645 miles an hour. "It was a dandy," Walker grinned after flashing over the Mojave Desert at better than five times the speed of sound despite mechanical troubles that logically could have cancelled his flight. Walker, making his seventh flight in the stubby research plane that is designed to investigate the fringe of space, broke the old mark set by Air Force Maj. Robert White June 23 in the same plane. But it wasn't easy. Walker, senior national space agency pilot on the project, had just been dropped, in the X15, from the wing of a B52 bomber flying at 45,000 feet over Beatty, Nev. He pushed the throttle all the way forward, the craft's 57,000-pound thrust engine screaming with power. Then a red light showed in the cramped cockpit, telling Walker that fuel pressure to the engine was too low. He shoved the throttle back 50 per cent. The red light stayed on. Walker quickly assayed the situation and pushed the throttle all the way forward again. "I was hungry," Walker jokingly explained later. "I figured the

chances of getting something to eat at Mudd Lake (an emergency landing area) were pretty bad." Walker also told of some other troubles that bothered him on the flight. "There was all sorts of popping and banging going on around me," Walker said. "It sounded like an old stove, heating up, cooling off and popping." He also had smoke in the cockpit. He said he believed this was from paint on the inside of the canopy scorching due to the heat. Temperatures on the plane's skin during the flight reached 850 degrees Fahrenheit. Walker's top altitude Tuesday was 115,000 feet — quite a bit less than his own record of 169,600 feet. "Despite the problems of his flight — first for this craft in three months — Walker said there would be no delay in flying the research plane at its goal of 4,000 m.p.h. at altitudes between 50 and 100 miles above the earth. "I believe we can make that flight anytime now — anytime the hardware checks out."

Two Men Held On Theft Count

Austin V. McDowell, 29, and Robert McDowell, 34, both of Pampa, are being held in city jail today awaiting arraignment on charges of theft. Police said the McDowell brothers were caught last night as they were attempting to steal tires from the Joutet Mobile Service station, corner of Wilks and Hobart St. Police officers said they received a report at 10 p.m. Tuesday from Wallace Joutet, owner of the store, that a passerby had tipped him off that the men were taking tires from the racks located outside the station. According to officers the men had parked their automobile nearby and one would carry the tires back to the car while the other kept watch. Police said they found six re-capped tires in the McDowell car valued at \$70. The men will be arranged today.

Senior Center Planning Fete

Senior Center is growing up. Tomorrow it will celebrate its fifth anniversary of organization at a party to be held in the Lovett Memorial Library beginning at 2:30 p.m. In a turnabout, Senior Citizens themselves will be hosts for their own party and are planning an afternoon of table games, visits from city officials and refreshments, which will be made by a group of Senior Citizen women and served by a group of high school girls. Mrs. H. M. Norris and Mrs. Maggie Deal are in charge of planning for the event, according to Mrs. Louise Sewell, Altrusa Club Senior Center chairman.

Nikita Cannot Risk War Now, Nixon Declares

DENVER (UPI) — Former Vice President Richard M. Nixon told the American Legion Tuesday night Soviet Premier Nikita Khrushchev "does not want a settlement of the Berlin crisis." But Nixon, speaking to his 10th American Legion convention, said he does not believe there will be war over Berlin, or over any other area of the world "if Khrushchev and the Communists have to take the initiative." Calling the Soviet leader a "bluffer," Nixon said he also is a man who never acts without considering the consequences, and that he is deterred from war by "greater problems than we have." The 1960 Republican candidate for president called for firmness to keep the Russian bluff from working. Khrushchev's purpose, he said, "is to negotiate a settlement only if it is a victory for him." The United States and its allies, Nixon said, must rid the Soviets of the notion that we are not willing to risk war or "the result will be either defeat or war." He lauded the administration's Berlin policy in this regard, saying "certainly the policy of strength and firmness that President Kennedy has adopted is the only policy that can save freedom and keep the peace at the same time."

\$50 Instrument Taken From Car

Gale Harden, 405 Magnolia, reported to police yesterday afternoon that a tachometer had been stolen from his automobile while it was parked in the Pampa High School parking lot. Police said the instrument which is used for measuring revolutions per minute was valued at \$50.

Grecian Princess Engaged To Wed

ATHENS (UPI) — Crown Prince Constantine today announced the engagement of his sister, Princess Sophie, to Don Juan Carlos of Bourbon, son of the pretender to the Spanish throne. The crown prince, acting as regent in place of his vacationing father, King Paul, made the announcement.

Jaycees Hear State Officer

Gene Hollar, state vice president of the Texas Jaycees, was the featured speaker at Tuesday luncheon meeting of the Pampa Jaycees. Hollar's topic was "Freedom" and he spoke on how we must attain and maintain it. "Young men of America, Jaycees, can change the world," he said. "The price of freedom is to be obtained only by spiritual and intellectual renaissance. We are in favor of peace and freedom but too often we are not willing to work and sacrifice toward that end."

At Tuesday's meeting plans were announced for the installation banquet and dance for the newly formed Jayceettes, the organization of wives of Jaycees. The banquet will be held Saturday, September 23, at the Coronado Inn. Officers to be installed are: president, Mrs. A. J. (Joan) Carubbi; vice-president, Mrs. Bob (Charlynn) Blakeney; secretary, Mrs. Richard (Betty) Cooke; treasurer, Mrs. Dell (Jean) Bryant; parliamentarian, Mrs. Earl (Pat) Barnett; state director, Mrs. Gene (Norma) Hollar. The state Jayceette president, Beverly Wadsworth, will install the officers. Visitors at Tuesday's meeting were Charlynn Blakeney, Gretchen Osborne, Celia Polnac, Dumo Wilkerson, Doyle Green, Joe Smith and Paul Wallace.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to go to preserve his own liberty and respect the liberty of others.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings.

Subscription Rates: Single copy 5c; 6 months \$2.50; 1 year \$4.50.

\$84 Billion Gone

Within recent weeks we have had a spate of letters from several well-meaning people who wish to feel deeply about the "needs" of persons in under-developed areas.

We believe this concept is one which our federal government has sired and encouraged with considerable vigor ever since the days of the Woodrow Wilson administration.

We reject the concept out of hand and categorically. Americans are a special people, endowed in some way by nature as the benefactors of humanity?

From 1945 to the first of July 1951, American taxpayers have underwritten foreign governments by some \$84.09 billions. This is catalogued as \$55.985 billion for economic aid and \$27.105 billion for military aid.

The following chart is helpful for it shows the top 20 countries in the receiving line, each of which has received more than a billion dollars:

Table with columns for Country, Economic aid, Military aid, Total aid. Includes France, Turkey, Italy, Germany, Korea, China, Japan, Greece, Netherlands, India, Belgium, Luxembourg, Viet Nam, Philippines, Brazil, Pakistan, Norway, Belgium, Luxembourg, Viet Nam, Philippines, Brazil, Pakistan, Norway.

Other peoples in other parts of the world can make as great an effort as we did, if we do not tiddle them. If their conditions are uncomfortable, so, too, were the conditions faced by our pioneer forebears.

Economic Units

A slave is an economic unit of production for his master. A taxpayer is an economic unit of government, providing for it the benefits the taxpayer has actually earned for himself.

'Public Good' For Plunder

During his expensive and energetic beseeching of the American public for votes, J. F. Kennedy reiterated on many occasions that he had no intention of plunging the nation into socialism.

We believe he used the word "country" in this connection rather, than government. But we are quite certain that Mr. Kennedy has these two words confused and uses them interchangeably.

THESE EXPENSIVE words indicate the scale of values the Heller boys have in mind. They will evaluate ALL resources, public and private, in terms of PUBLIC rather than private good.

Looking Sideways

By WHITNEY BOLTON

NEW YORK — Miss Mary Orr, actress, playwright, novelist and international beauty, celebrated for her pubeitance from the Is-thumus of Tehuantepec to the Via Veneto in Rome, has a new book on the stands.

It long has been a European custom for men to take mistresses and women to arrange for lovers. I think if you piled up all the books, short stories and anecdotes on the theme, you'd have enough raw material to fill the Grand Canyon to its brim.

"I think it should be told totally or not at all," she said on one occasion. "No one has really given close attention to the portrait of a normal American woman who finds herself in a predicament."

Miss Orr can never be accused of not having brought maximum thought to her book. She makes a detailed case of her heroine, Anne Travers. You learn of Mrs. Travers' domestic complexities and vacuums, you understand her emotions on meeting the South American political exile of gentility and wealth who is to become her lover.

Before World War II, before there were price controls, President Roosevelt sent Leon Henderson to tell the steel masters that if prices were raised, Congress would be asked to roll them back.

During the Korean War when another economic stabilization law was in effect, the government told industry it could not have price increases to cover wage increases. The steel companies fought it.

Ever since the end of World War II the steel industry has been under attack in Congress by both parties for alleged management of the price structure, controlling prices by market demands without relation to production costs.

The late Sen. Robert A. Taft began this as chairman of the Joint Economic Committee. Sen. Estes Kefauver continued it as chairman of a judiciary subcommittee on monopoly.

As for government problems, they were made by the government, they serve the government, and the government is going to have to do the worrying. We're going to worry about private people and their private problems.

If You Can Beat Him, Willy —

Edson In Washington

World To Hold Steel Price Is Mostly Hope And Prayer

By PETER EDSON

WASHINGTON (NEA) — President Kennedy's statement opposing a steel price increase is regarded as a hope and a prayer.

It is not an order, it is not binding on the steel industry, because the President has no authority to enforce it.

Congress will probably be out of town Oct. 1 when the steel industry puts into effect the wage increase averaging 7.8 cents an hour, authorized by the January 1950 contract.

Calling Congress into special session to pass a price rollback law would not be popular and might not succeed.

The main argument now is that a steel price boost now would be the start of another inflationary spiral causing all prices to rise, and wages with them.

But after the war began, Congress did pass price control and wage stabilization laws. In spite of this, wages went up under the "little steel formula." Prices went with them.

During the Korean War when another economic stabilization law was in effect, the government told industry it could not have price increases to cover wage increases.

When the 1950 steel wage contract was signed the business recession of that year was not foreseen. The delayed wage increase authorized was considered in line with expected increases in industrial productivity.

But productivity went down in the depression. Steel production dropped as low as 45 percent of capacity and only recently has gone above 70 percent.

As for government problems, they were made by the government, they serve the government, and the government is going to have to do the worrying.

We're going to worry about private people and their private problems.

Hankering

By HENRY McLEMORE

ROME, Italy — When I was told by an Italian friend with a beard that Rome had now taken Paris' place as the world leader in modern art my heart skipped two beats and a flutter.

Modern art has been a major passion of mine ever since I saw my first modern artist at work. That was about 29 years ago in New York, and I remember that I left my hat in his studio, I was so carried away by what he was doing.

This artist was of what I suppose is called the "Paint Spray" school, for that is what he was using to turn out masterpieces of their kind. Standing well back from his canvas, he would let fly with his spray gun until he had achieved the spatter that satisfied his soul.

It was when he told me that his smallest paintings sold for \$500 that I believe I forgot all about my hat.

Rome's art center is on one of the most delightful streets in town, Via Margutta, which runs between Piazza Spagna and Piazza Popolo.

It's a big thing, and the first thing that catches the eye is enough shattered glass to make four milk bottles. It was as if my artist friend in New York had laid down his spray gun and started hurling bottles against a sticky canvas.

There was no title, but that old hillbilly song came right to mind: "I heard a crash on the highway, but I didn't hear nobody pray."

As I stood flat-footed in front of it, drinking its beauty, I thought of Raphael, Leonardo, the Lippi, Lippi boys, Titian, and Botticelli.

Its simple title, "Black on Black With Bird," was in perfect keeping with the theme. A large square of black paint on top of another black square. There was no bird showing, thank goodness. That would have spoiled the whole effect.

I never reached the end of Via Margutta. One couldn't in one afternoon's walk. Beauties of modern art almost assailed one. Cubes inside of cubes, rectangles fighting for mastery over oblongs, three-headed women dusting bird-cages. It was overpowering, and I had to walk all the way to St. Peter's for a glimpse of Michelangelo's Pieta to revive me.

Pegler Says:

Strange Opportunity Lures Kearns To Emperor's Throne

By WESTBROOK PEGLER

ST. LOUIS — There is a spiritual updraft in the sport industry, most exuberant in the prizefight racket where Jack Kearns has received emissaries of the Teamsters Union with a view to the revival of the nobility so well conveyed for the understanding of posterity by Jack Dempsey in his sombre message to mankind entitled, "Dempsey, the Man Himself."

Kearns was Dempsey's manager in his most successful phase. Prosperity and matrimony on Dempsey's part set them asunder after success was won, but the man abundantly admits that Kearns' effrontery and unwhipped optimism were an engine that took them off the squalid ground where poverty had thrown them together.

Mr. Gibbons is the grand strap, though not unlike a spider in a dark corner in his St. Louis operations.

Mr. Williams is becoming unbelievable. There never was such a lawyer in any phase of our enslavement to courts, parliaments and administrative bureaus of government. He can seize upon an ordinance as simple as "keep off the grass" and either set it gloriously at naught as a wicked infringement of the whole Constitution or clamp it on the ankles and wrists of whosoever shall defy God's will as written in the Teamsters' constitution.

Mr. Kearns wiggled out of Michigan under the name of Leo Kierman or McKiernan in time to tend bar in Alaska as a contemporary of Tex Rickard, Wilson Mizner and other indoor pioneers who hugged the red stoves and mined their gold from frosted miners who had mined it the hard way.

Branch Rickey broke the barrier for Negroes in baseball with Jackie Robinson of the Brooklyn Dodgers. Now hundreds of our continental Negroes and dark Caribbean are playing pro ball down into the minors and, more significantly, in the deep, deep South.

Port Worth-Dallas has a great shortstop with a Spanish name and the tint and sheen of an undertaker's tile.

A strange opportunity beckons Jack Kearns to an emperor's throne in his seventies.

The Nation's Press

GENOCIDE (Christian Economics)

The chronic famine that has existed in Communist China since 1953 is reaching catastrophic proportions. Collective farming is a failure. It does not produce food. That has been known to be a fact since the great famine in Russia during 1929-33. It is also demonstrated by the food shortages existing there and the food shortages in the satellite countries.

In the face of these demonstrated facts, why do the Communist leaders persist in their attempts at socializing the farming industry? The purpose is not to produce more food, as it is now well known that it produces very much less food. About half of the valuable protein foods, such as meat, milk and eggs, are produced from the small two-acre patches the collective farmers are permitted to till for their own use and in the backyard gardens of the industrial workers.

The purpose of collective farming is to control the people. It deprives them of the means of subsistence except as doled out to them by government. It enables the bosses not only to control the farmers, but the industrial workers as well. They are restrained from forcing complete collectivization of farms because it would mean wholesale starvation for the people, but they do enforce it as much as they dare as a means of tightening their grip upon the people through control of the food supply.

It is perfectly obvious that the Communist tyrants are not interested in the well-being of the people control over them as a basis for rule, but rather in tightening their rule, and they are willing to starve millions of their people in order to retain their grip. Tens of millions of Chinese people are expendable for that purpose.

There ever a greater example of genocide?

The Almanac

By United Press International
Today is Wednesday, Sept. 13, the 266th day of the year with 169 more to follow in 1951.
The moon is approaching its first quarter.
The morning star is Venus.
The evening stars are Jupiter and Saturn.
On this day in history:
In 1788, the U.S. Congress authorized the first national election, to be held the "first Wednesday in January next (1789)."
In 1943, Generalissimo Chiang Kai-shek was elected president of the Chinese National government.
In 1855, the Federated German Republic (West Germany) and the Soviet Union established diplomatic relations, the first since the end of World War II.
A thought for today: Greek biographer Plutarch said: "The wise man knows nothing who cannot profit by his wisdom."
Oldest U.S. high school press association is the Oklahoma Interscholastic Press Association, founded in 1916.

Most Fascinating Woman Unattractive Unless She Has Pleasant Appearance

By ALICIA HART
Newspaper Enterprise Assn.
The way we look very definitely affects the attitude of other people toward us.

Think now. What is your own feeling about a shapeless woman, badly dressed, with unkempt hair? Most likely, your reaction is one of irritation.

It's quite true that behind this facade there may dwell a fascinating woman. It has happened. But on the whole, it's unlikely, for the woman who is indifferent to herself is disposed to be indifferent to people about her.

If she discussed the matter at all, she would tell you that she puts comfort first. Well, it's quite possible to be both comfortable and attractive.

It doesn't take a 24-hour daily devotion to clothes and coiffure to achieve this, but it does take the old-fashioned quality of wanting to please others to a degree, or wanting to present an exterior that's pleasant for others to see.

In this country, looking your best doesn't take a fortune nor hours every day, but it does take the ability to see yourself somewhat as others will see you.

Guard Against Fatigue
Fatigue can etch lines in your face at any age and do it faster than the passing years. So it's wise to check now and then to make sure that you're not courting it unnecessarily.

If you feel tired and lightheaded by lunch time, it's very possible that you do without breakfast. You can't get by on orange juice and coffee.

The word breakfast means exactly that. You are breaking the longest fast of the 24 hour period, from night until morning. You need food to supply your energy.

Another source of fatigue is putting around in the evening until suddenly, you discover it's midnight. Set yourself a fairly regular hour for going to bed and get there within 10 minutes of that set time.

Whenever it's possible, work in a cat nap. Cat nap doesn't mean an entire afternoon; 15 minutes with your feet propped up on some

pillows at the end of the couch can be beneficial.
A Good 'Loser'
If you are trying to lose weight and haven't found the liquid diets entirely satisfactory, you might like to try another method of taking off pounds.

For dinner each night, beat up two eggs and a measured glass of milk with an eggbeater. Add two teaspoons of chocolate powder for flavoring.

Have this as your dinner each night until you reach the weight you want. Use it from then on when the pounds creep back. This is all protein and good for you.

Seitz Family Holds Reunion

The Seitz Reunion, which is an annual affair, was held recently in the Hobart Street Park.

Attending were Arthur Seitz, Claude Seitz, Mrs. Alma Seitz, Messrs. and Mmes. Harry Hardin; Grady Bailey and son, Wiley, all of Miami; Messrs. and Mmes. Lov Seitz and daughter, Betty; Bob Galmore, all of Mobeetie;

Also, Messrs. and Mmes. Roland Dauer; George Phillips; J. B. Jones; Alvin Dauer and children; W. B. Burgess and son, Harold; Albert Kelley; Al Ferguson; Mmes. Eva Richardson, Earle Wright, Pearly Ferguson, and Bert Smith, all of Pampa;

Attending from Amarillo were Messrs. and Mmes. Archie Burgess and daughter, Dorothy; Bob Burgess; Homer Radney; Dewey Webb; Don Scott, Brenda and Rick; Messrs. and Mmes. Pete Vanmeter of Oklahoma City, Okla.; Jerry Stanley and family of Sayre, Okla.; Willie Seitz; Dave Hand; Roy Seitz of Spearman; C. T. Jennings of Ada, Okla.; Haze Mackey of Centralia, Ill.; Glenn Newman and family, and Mrs. Oma Ward of Tulsa, Okla.

FILLING CRACKS
Fill dangerous cracks in floors with a mixture of sawdust and shellac or glue.

Dear Abby... Lady Out Of Line If She Holds Booth

By ABIGAIL VAN BUREN

DEAR ABBY: In the area where I am employed as a secretary most of the restaurants leave much to be desired. I found a small, quiet place owned and operated by a couple who serve good food. Since I eat lunch alone I always bring a magazine to read while waiting to be served, and while eating. Imagine my amazement when the proprietor asked me not to bring any reading matter into the place again as I was holding up a booth for four. I told him I was sorry, and I wouldn't trouble him further by my business. I want you to tell me if it is considered rude to read in a restaurant while dining alone.

NOT INTENTIONALLY RUDE
DEAR NOT: If you read only while waiting to be served and during your meal, the proprietor was out of line. But if you sat alone in a booth for four, and continued to read while others were waiting to be served, your were

DEAR ABBY: I have been arguing with my daughter for a week now. She tells me she is "engaged," but she does not have a ring. Is it proper to give a bridal shower without one? I say no. She says her boy-friend can't afford a ring right now. How do you feel about this?

INQUISITIVE
DEAR INQUISITIVE: All that is really necessary for an "engagement" is a mutual promise to wed. The ring is only a symbol. Bridal showers are in order only after the wedding date has been set.

DEAR ABBY: I am annoyed, disgusted and burned up! I just read another letter in your column about "the poor old parents" who

Enlarged Pores Are Unightly And Need Astringent Treatment

Enlarged pores can rob any woman of good looks. Usually they're to be found on the nose, cheekbone and the area between the eyes. But they may fan out beyond these spots. Wherever they are, do something about them.

The thing to do is to use an astringent on them several times a day. Dip a bit of clean fluffy cotton in the astringent and go over the pores thoroughly. But bear in mind the fact that just any old astringent will not do.

There are three astringent types and they are for normal, oily or dry skin. Find out which type you should use and use it from then on. You'll notice an improvement within two weeks.

But this doesn't mean that you can relax this treatment. Actually you can never stop it. But since it is so simple, it will become part of your beauty routine, like powdering your nose or setting your hair. And to see those pores shrink can give you a real lift.

The Little Things
A well-groomed look is largely a matter of attention to little things. Replacing heel lifts as needed. Checking hemlines to make sure

that they're even and the length in keeping with current fashion. Getting rid of hat veils that go limp. Making sure that scarves are absolutely fresh. Wearing gloves that are immaculate. Washing pearls at frequent intervals so that they never have the chance to take on a dingy look. Never letting your hair go a day or two past the regular shampoo time. Not letting lipstick fade out or become smeary.

Checking on accessories to make sure that they blend well. They need not be the same color but they should be in the same leather and of the same fashion type. That is, a tailored bag with walking shoes and so on.

All of this may sound time-consuming. Actually, it doesn't consume much time. But it does take regular checking and it does pay off in a fresh, attractive look.

Conversation Stopper
About the best way to stop others from complimenting you is to compliment yourself. And many women do this perhaps unconsciously. They will inform others that a certain dress looks "stunning" on them or that they always look well in such and such a color.

Produce Growers Will Stage Show

HOUSTON (UPI)—About 1,000 persons are expected to attend the 19th annual trade show and convention of the Texas Citrus and Vegetable Growers and Shippers Association starting Thursday.

The three-day convention will feature an address by Robert T. Secrest, member of the Federal Trade Commission. He will tell how the Clayton Anti-Trust Act applies to the produce industry.

John B. Hardwicke of McAllen, president of the Texas Citrus and Vegetable Growers and Shippers Association, also will speak.

OUR ANCESTORS by Quincy

"We'll need a trade name for our new product. How about calling it 'Brand X'?"

Copper Stocks Show No Sign Of Higher Turn

NEW YORK (UPI)—Mitchell of Canada says the copper group is showing little evidence that it is ready to get up and move higher at this time.

The price of copper has shown pronounced strength in recent weeks with scrap metal selling at its highest level of the year, the analyst notes, "yet this has made no practical impression on the sponsor of copper stocks."

A short term rally, Mitchell concludes, "is not expected unless the promoters in the group get off their hands and do some active and hard selling."

Standard & Poor's says last weeks market performance provided a demonstration of its underlying strength, as well as its susceptibility to disturbing developments. The S&P publication, "Outlook," says a well invested position is warranted by economic trends, but policy must allow for possible adverse extraneous influences.

John H. Lewis & Co. says a pattern of diminishing gains applies to specific oil groups, such as the integrated domestics, the integrated internationals and the crude oil producers. It therefore would avoid commitment at this time in the oils, except for special situations.

Investors Research Co. says the late summer or fall markets normally tend toward irregularity and this action may be a prelude to a fall reaction to the 690-710 area in the DJ industrials. As far as investment policy is concerned, it says it would greet any such period as an opportunity to add to holdings for prospects of a strong market in November through early 1962.

Troops 'Freeze' Plan Considered By W. Germany

BERLIN (UPI)—The West German government announced yesterday it may extend for another three months the term of service of 36,000 men due for discharge from the army.

The Defense Ministry in Bonn said 6,000 long-term volunteers due for release between Sept. 30 and Dec. 31 will be held over for three months because of the Berlin situation.

At the same time, the Defense Ministry said 30,000 one-year draftees scheduled for discharge Oct. 1 may be retained on active duty for three months longer if

necessary to help fulfill West Germany's NATO obligations.

The decision was disclosed after a meeting in Bonn between Chancellor Konrad Adenauer and Defense Minister Franz Josef Strauss.

The 36,000 men were to have been replaced at the end of this month by 48,000 new draftees called up for 12 months of compulsory service.

However, the new men would take six months to reach combat readiness, a lag considered undesirable because of the Berlin crisis.

Many Graduates of the Pennsylvania State University number more than 80,000. An estimated 65,000 are still living. Alumni records indicate that 40,000 live and work in Pennsylvania. One thousand reside in 75 foreign countries and territories.

Pampa Polishes Offense In Tuesday's Scrimmage

Coach Babe Curfman put the Pampa Harvesters through another stiff workout Tuesday in preparation for Friday night's tilt.

A Modern Concept of Auto Insurance

State Farm Mutual offers modern auto protection to meet today's great family needs, today's more hazardous driving conditions.

Harry V. Gordon
1105 1/2 Alcock
MO 4-3861
State Farm Mutual Automobile Insurance Company
Home Office—Bloomington, Illinois

The Pampa Harvesters spent almost 45 minutes working just on a defense for the Phillips multiple offense. Coach Joe Means' Hawks offense included many variations of flankers and floaters type plays — a colorful and exciting offense.

The Harvesters scrimmaged for another hour in an effort to polish up their own attack. The red and gold teams alternated the offensive hour against the green and blue teams.

Mike Stewart, senior halfback and captain, and Riley Walters reeled off several long gains during the scrimmage. Walters moved up to the red team. Tuesday on the strength of his fine showing in Monday's workout.

Speedster Kenny Hebert, a good looking griddler, impressed with his blocking as well as his hard

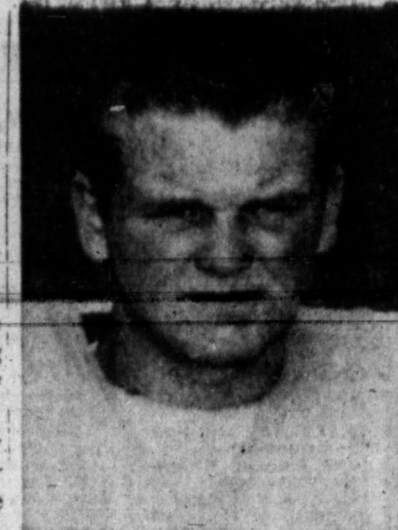

running. The 170-pound sophomore fullback will handle the punting chores for the Harvesters Friday night.

Another sophomore — quarterback Ricky Stewart — was passing with accuracy Tuesday. The Harvesters, with only three-sophomore quarterbacks, may be handicapped by inexperience and depth at this position but Stewart looks like a potential star.

Keith Reimer has taken over duties at the left end slot. The husky youth has had his problems catching the ball and lacks real good speed but Reimer, a former tackle, adds blocking strength at end. Right end, Corky Godfrey, who was a standout against Bel Aire, has looked sharp in practice this week.

Phillips and Pampa have met three times on the gridirons with the Harvesters winning all three games — 13-0 in 1943 and the following year and 27-7 in 1945.

The Blackhawks are supposed to be down this year but such standouts as quarterback Jackie Gray, halfback Phillip Johnson and ends Kenny Hunt and Bill Shannon make the Blackhawks dangerous. Phillips dropped its opener to Odessa Ector 14-12.

WALTER GUARD — starting right guard on the Pampa Harvesters is senior letterman Dee Wright. Dee is playing his third year for the Harvesters.

Phillies Wreck Dodgers Pennant Hopes With Win

Demeter Hits 3 Homers In Rout

By United Press International

The Dodgers is dead — but what hurts the most is that they were done in by one of their own. The culprit was Don Demeter, a 26-year-old slugger whom the Dodgers once had such big plans for before trading him off to the Philadelphia Phillies last May. Demeter, originally groomed as Duke Snider's successor, hammered three homers and drove in seven runs against his ex-teammates in a humiliating 19-10 defeat.

Chicago Cubs, 7-2.

Demeter began his night's work with a two-run homer off loser Sandy Koufax in the first inning. He blasted a three run homer off Ed Roebuck in the seventh and then connected again off Phil Ortega with the bases empty in the ninth.

The Phils poured a bit of salt in the wound by pushing around nine runs in the second inning. A total of nine homers — only one shy of the major league record — was hit in the game. In addition to Demeter, Charlie Smith and Ruben Amaro homered for Philadelphia. Wally Moon, Gordon Windhorn, Frank Howard and Charlie Neal did the honors for the Dodgers.

Even if the red-hot Reds win only six of their remaining 12 games, the Dodgers still would have to take 14 of their last 17 to beat Cincinnati.

The Pittsburgh Pirates blanked the San Francisco Giants, 3-0, and the St. Louis Cardinals defeated the Milwaukee Braves, 4-1, in the other National League games.

The New York Yankees won their 13th straight by beating the Chicago White Sox, 4-3, in a game halted during the last of the sixth inning because of a thunderstorm. The Detroit Tigers, defeated the Kansas City A's, 3-1, and the Washington Senators topped the Boston Red Sox, 5-1. Rain washed out a doubleheader between the Minnesota Twins and Los Angeles Angels.

Wally Post hit his 19th homer and Darrell Johnson drove in three runs with a pair of doubles in the Reds' victory over the Cubs. Southpaw Jim O'Toole went the route for the Reds, scattering 10 hits for his 15th victory against nine losses. Dick Ellsworth was the loser.

Patton Stops Champ In Amateur Tourney

PEBBLE BEACH, Calif. (UPI) —Chain-smoking lumberman Billy Joe Patton, conqueror of defending champion Deane Beman, faced a young ex-soldier today under the shadow of three ex-kings and an Irishman bidding for the 1961 National Amateur golf crown.

For the morning third round 59 others teed off, but the favorites were bespectacled Patton, Jack Nicklaus, Charley Coe, E. Harvie Ward, and slender Joe Carr, the pride of Ireland. They were expected to be around after the fourth round in the afternoon.

However, 23-year-old Daniel James of San Mateo, Calif., discharged from the Army recently after service in Germany, hoped to become the Cinderella Kid of the tournament in the match with Patton, of Morganton, N.C. A strongboy, Daniel had no intention of becoming another victim for Patton, but that could be his destiny if the 39-year-old veteran continued the sharp-shooting ways he displayed against Beman, also 23.

Beman, the crew-cut insurance executive from Arlington, Va., gritted his teeth with practically every shot in Tuesday's second round but for naught. He took a 1-up lead at the nine, but fast-swinging Patton went ahead with

wins on the 10th and 12th, closing the match out on the 18th with a give birdie. Nicklaus, 21-year-old 1959 champ from Columbus, Ohio, was down 1 to ex-Oregon champion Don Krieger after the eighth Tuesday before the pre-tourney favorite came to life and ousted his foe, 4 and 3. Nicklaus faced William Edwards, a first timer from Hempstead, N.Y., in today's action.

Coe, the U.S. champ in 1949 and 1958 from Oklahoma City, clashed with another New Yorker, Gene Francis. Coe easily routed John Nichols, Downey, Calif., 5 and 4, in the second round.

San Francisco's Ward, another two-time titlist, showed he was back in form by making quick work of George Greagh, Nashville, Tenn., 7 and 5. Ward went against 22-year-old H. Dudley Wysong Jr., McKinney, Tex., a semifinalist in 1959.

Carr, ouster of Denver's Claude Wright, 6 and 5, after a sizzling front nine, four-under-par 32, took on Urban (Tommy) Thompson Jr., a UCLA student. After Tuesday's action by Carr, Pebble Beach pro Cam Puget selected the Irisher to become the first foreign born winner since C. Ross Somerville of Canada turned the trick 29 years ago.

Razorbacks Prepping For Ole Miss

By United Press International

On Sept. 23 in Jackson, Miss., there will be a war. And the Arkansas Razorbacks are going to start preparing for it right now.

Arkansas coach Frank Broyles said his team, starting today, was going to prepare for the opening game with hated rival Mississippi. "We no longer will work twice-a-day," Broyles said.

"Our wild hogs (second team) are not as experienced as we would like them to be," he said. "We're going to have to have a concentrated effort from them in the next 10 days."

The Razorbacks divided a two-hour morning session between a briefing in the fieldhouse and a signal drill in shorts outside Tuesday. Coaches attempted to have a two-day scrimmage filmed in the afternoon, but rain from Hurricane Carla became heavier and they were forced inside.

Broyles had been working the team on fundamentals but now wants to prepare the team specifically for the Rebels.

Elsewhere around the conference, Carla put a damper on most outside-workout plans. Texas managed a heavy workout that made coach Darrell Royal grin from ear-to-ear. It also was disclosed Tuesday that junior halfback Bobby Nunis will be out for a week because of a fractured facial bone he suffered in practice last week.

Nunis will be on tap for the opening kickoff against California at Berkeley, Calif., Sept. 23, Royal said. The squad scrimmaged for an hour and 40 minutes Tuesday.

Around the conference steady

It's bad enough to have White Deer and Stinnett in the same district, then the "experts" figured Stratford to be a power — which they have been — and along comes Gruber to add more confusion to the race.

Gruber pulled a stunning 8-0 upset over Perryton last Friday as the loop's top four clubs scored victories. White Deer had to scramble to whip a scrappy Canadian crew 19-0 while Stinnett's rugged Rattlers blanked Spearman 21-0 and Stratford strafed Texoma 28-0.

Three Games On Tap Here Friday Night

Attention Pampa Football fans! See three games for the price of one Friday night when the Pampa Harvesters play their first home game of the season against the Phillips Blackhawks.

Beginning at 6:30 p.m. Friday evening, the Pampa Junior High School 7th and 8th grade teams will scrimmage the 7th and 8th grade gridders respectively from Robert E. Lee Junior High.

And the extra attraction will cost football fans only the regular price of admission that is charged for the main contest. Pampa fans can see a lot of football Friday night and a fine game between the fighting Harvesters and Phillips.

And if that isn't enough, the two junior high school bands will play during the exhibitions and will march if time allows.

The 8th grades will not play because Robert E. Lee has a regular season contest Thursday.

Tickets will go on sale at the gate at 6 p.m. Friday night. Everyone is urged to go out and see the youngsters play and to back the Harvesters.

Panhandle was shutout for the second straight time this season, losing 12-0 to the Groom Tigers. And the Sunray Bobcats was hammered 47-8 by Tulia's AA Hornets.

Two of the loop's clubs — are rated among the state's top 10 class A elevens, White Deer holds down the third spot and Stinnett has been designated as sixth.

The top individual performance in the league last Friday was turned in — once more — by the White Deer Bucks' rampaging fullback Carl McAdams. The 195-pound senior romped for 190 yards and tallied all of the Bucks' points on three td's and an extra point.

Action Friday night finds White Deer invading Lefors, Stinnett hosting AA power Dalhart, Panhandle meeting Clarendon at Clarendon and Sunray travelling to Spearman. Gruber tangles with the Pampa Shockers Saturday night at Gruber. Stratford is idle.

Mighty Quanah Tops 5-AA Race

Out of district 5-AA could come the 1961 AA grid champion. The team in mind is the powerful, surprising Quanah Indians of Coach Bill Davis. Quanah stamped itself as a AA power by knocking off highly-regarded AAA Vernon in an impressive 34-12 margin. Quarterback Danny Scarbrough carried for the Tribe in their convincing triumph as he scored three times and passed for another touchdown.

The Perryton Rangers received quite a rude visitor in their opening game as the defending champions went down before the class A Gruber Greyhounds 8-0 in somewhat of a shocker.

In other action, the Wellington Kyrocks rocketed past Hollis, Okla., 38-0 in its grid opener; childless, another touted state over, smothered Seymour 22-6 and Shamrock nipped Lefors 8-0. Pearman was blanked by Stinnett 21-0 in its opener.

Quanah is the site of the feature attraction Friday night. The Indians host perennial class A Lower Crowell. Another battle royale will take place at Childress.

Do people enjoy the Humble football coverage each season? One year Humble asked listeners, cards and letters poured in by the thousands giving the program a resounding endorsement. Backing up this public opinion poll is a 1960 professional survey. This survey says that on a busy football weekend, some 3.3 million people in Texas, New Mexico, and Arizona (2 million males and 1.3 million females) tune in to Humble's football coverage.

STACKED AGAINST YOU

340 tons of dishes are stacked against you in a lifetime — and that's quite a pile. It takes 728 hours a year to do them by hand — and that's a monthful of 24-hour days. You haven't got a chance of cleaning them by hand as well as an electric dishwasher will do the job — and you'll have nothing but red hands to show for your effort.

Why all this drudgery when a penny and a half spent doing the job electrically each day removes all the mess. Dishwashers come in portable models that take no extra plumbing or wiring. So — don't be a dishwasher — buy one.

PUBLIC SERVICE COMPANY

Ladies' Tourney Starts Thursday

It's tournament time for Pampa's Women golfers! Early Thursday morning the first matches of the Pampa Women's Golf Tournament will get underway with 28 entrants competing in five match-play flights at the Pampa Country Club.

Only eight golfers are entered in the championship flight. Those entered and their handicaps are: Lila Austin, 5; Mary Myatt, 12; Shirley Austin, 15; Mrs. Scott Hall, 16; Mrs. M. L. Hall, 19; Mrs. Vernon Watkins, 20; Ava Swafford, 20 and Mrs. Tom Kitchens, 22. This is the only flight that will be match-play with handicap applied.

Trophies will be awarded to the first place winners, runner up and first place consolation. Mrs. Henry Frazer, publicity chairman for the tournament, made the announcement today.

The Humble Company sponsored the first live telecast of a college football game in Texas. The game was between TCU and Texas in 1948.

Tascosa Ranked Eighth In State

Coyotes, Lions Head Ratings

By United Press International Wichita Falls and Brownwood still remained as the No. 1 Texas schoolboy football teams after the opening week of the season, but the United Press International's coaches board shook up quite a few positions in the new ratings. Amarillo Tascosa and defending champ Corpus Christi Miller climbed into Class AAAA's top 10 as Abilene and Port Arthur departed to make room for them after initial game setbacks.

Sweetwater, Corsicana and Cleburne moved up into the select 10 in Class AAA to replace departed Port Lavaca, Jacksonville and Nederland. Oddly, two of AAA's top 10 lost their openers and stayed in the group, while Corsicana surged up to the No. 7 spot on the strength of a tie with Waco High.

Wichita Falls polled 13 of a possible 18 first-place ballots after walloping touted Ada, Okla., 55-6 and again polled 157 points out

of a possible 160 on the basis of 10 points for a first-place ballot, 8 for second, etc. Corpus Christi is 24-0, were Lamar Consolidated, San Benito, Sweetwater, Dumas, Corsicana, Monahans, Breckenridge and Cleburne.

San Antonio Jefferson jumped from ninth to third for whipping Abilene 26-7; Tascosa moved up by defeating Fort Worth Atlington Heights 14-0; Kimball jumped 18 notches with a 34-6 shellacking of Dallas Hillcrest, and Miller made its move on the strength of a 32-6 defeat of Alice.

DUO-PURPOSE FACILITIES — Myron Dorman, left, and Herb Lotz, co-owners of the H & M Cut Rate Liquor Store, 866 W. Foster, invite you to use the Dutch door, or sliding door. Notice the wide awning along

the side of the store designed to protect you, the customer, from rain or snow. For fast city-wide delivery service just telephone MO 4-8012. (Daily News Photo)

H & M Liquor Store Provides Quick Service, Fine Products

For the most convenient liquor store in Pampa, H & M Cut Rate Liquor Store, 866 W. Foster, is the place for you. Just drive in and see how con-

venient it is to shop for your favorite fine beverages.

Enjoy the duo - purpose facility that permits one to be served in the warmth of his automobile, either from the sliding door or the Dutch door. This, plus the wide awning along the side of the store, gives the customer protection from fall and winter storms.

Stop in and visit Herb Lotz, co-owner of the store, with Myron Dorman. They will walk out and serve you.

And, better still, the person who is seeking all the select liquors can find them at H & M Cut Rate Liquor Store. All the premium beers, the popular beers (bottles or cans), four, six and eight - year old bourbons may be found and the prices are low. A factor worth remembering.

With H & M Cut Rate Liquor Store's policy of bringing fine merchandise to Pampa, the co - owners are featuring some of the finest - bourbons, scotch, vodkas, liquors and wines on the market. A wide variety of mix ingredients are also available.

If you are in a hurry it will pay you to stop in at H & M Cut Rate Liquor Store, 866 W. Foster, at the intersection of Hobart St. and enjoy the pleasing fast service.

One of the big sellers at H & M is Busch Bavarian beer. It's one of Pampa's best selling beers, but H & M is always fully stocked to be certain to have it on hand at all times.

Pearl Bock Beer is another front line beer, the seasonal beer that, to many, is the "only beer."

All these, and something to attract attention—quick city wide delivery service. Just telephone MO-4-8012.

H & M Cut Rate Liquor Store is always striving to please the customer, and these are some of the ways it seeks to do so. Try it; you'll find out, and you'll like it.

Chemical Group Meets Sept. 19

The Texas Panhandle Chapter of the American Institute of Chemical Engineers will meet at 7:00 p.m. Tuesday, September 19, at Suptehns Barbeque, Phillips. A barbeque dinner will be served at a cost of \$1.75 per person.

The speaker for the evening will be H. A. Dutcher from the Technical Section of the Patent Division of Phillips Petroleum Company at Bartlesville, Okla. Dutcher's subject will be "Fuel for the Fire of Genius" or "Patents and the Chemical Engineer."

Dutcher received an MS degree in chemistry from Oklahoma State University in 1933. After 9 years of teaching in various Oklahoma high schools, he joined the Petroleum Experiment Station of the U.S. Bureau of Mines in Bartlesville, in 1942. In 1943 he went to work for Phillips and has been in the Patent Division ever since.

Reservations may be made by sending a card to W. H. Butterbaugh, 201 N. McGee, Apt. 3, Borger, Texas.

Broadway Musical Manuscript Given To TU's Library

AUSTIN (UPI)—The original manuscript of the hit Broadway musical "Fiorello" was among works donated to the University of Texas Library today by author Jerome Weidman.

Weidman gave his file of stories, research and correspondence to the University, including a complete file of the 1959 Pulitzer Prize-winning musical play based on the life of the late Mayor Fiorello Laguardia of New York City.

The announcement of the gift from the University said Weidman's work expands Texas resources for research in modern American literature.

The Weidman collection includes 694 manuscripts of published and unpublished short stories, novels and plays; more than 4,500 pieces of correspondence more than 2,500 press clippings; 169 published short stories and articles; 157 unpublished stories, and 178 copies of magazines in which Weidman's stories appeared.

Taxi Drivers Ask Boost In Fares

MEXICO CITY (UPI)—Federal district taxi drivers have petitioned authorities for a hike in fares.

A spokesman said Monday operating costs have increased and that it was not possible for drivers to live on their earnings.

Officials, however, point out that the number of taxis in circulation has increased substantially. They said the fact that no driver has turned in his license is evidence that the business is lucrative.

Pampans Included In Group Winning Trips To Hawaii

Three Panhandle families were recently awarded all expense paid trips to Hawaii in a Western Auto Supply Company nation wide contest.

Recipients of the award are: Mr. and Mrs. Carl Beavers, manager and co-owner of the Pampa Western Auto Associate Store; Mr. and Mrs. Royce Jones, manager and owner of the Canadian and Higgins Western Auto Store and Mr. and Mrs. J. C. Wyatt, manager and owner of the Western Auto Store in Shamrock.

The contest was based upon the increase of business in the Western Auto Stores during the first half of 1961. The Panhandle store winners were competing against stores of their size in 49 states, Guam and Puerto Rico.

The Pampa Western Auto Store is expanding their facilities by opening a branch store in Skellytown scheduled for opening Oct. 1. Gene Croble, now assistant manager of the Pampa store, will be the Skellytown store manager.

Fall Harvesting Gains In State

COLLEGE STATION (UPI)—Fall harvesting generally picked up steam in the state during the past week, the Texas Agricultural Extension Service reported today.

Heavy rains in central West Texas aided growing crops and gave pastures and ranges needed moisture. The situation was also improved in western counties where the rains were somewhat lighter but still very beneficial.

Scattered showers continued to dot the state and delayed harvesting especially in the upper Gulf coastal area and in central and north central districts. The corn and grain sorghum harvests are in the mopping-up stage in Central Texas and cotton is opening fast in that section.

Farmers in the north central districts are defoliating their cotton in preparation for a speedy harvest. The largest number of strippers ever utilized in this area will swing into action as soon as conditions are favorable for harvesting. First bales have been ginned in many South Plains counties and harvesting is general in the Rolling Plains.

Land preparation is continuing in all areas of the state and wheat planting is continuing in the Panhandle where moisture conditions ranged from adequate to short. Livestock in all areas are in good condition but ranges generally need a good rain to start cool season plants growing. Screw worms in several districts were described as very bad and pink-eye is also on the increase in central West Texas counties.

It is dry in far South Texas where crops and ranges are beginning to suffer from a lack of moisture. Prospects for grain

Business In Review

Russia Planning Arctic Exercises To Test Missiles

By RAY CROMLEY
WASHINGTON (NEA)—Soviet Arctic maneuvers scheduled soon reportedly will test some of the newer Red naval ground-air tactical missiles in combined operations.

How well new, ship-borne missiles operate against submarines is a major question which the Russians may try to answer there. The Arctic maneuver site, 300 to 400 miles east of Finland, is a natural haven for U.S. subs; 1,200-mile Polaris missiles fired from this Barents - Kara Seas region could devastate Moscow and Leningrad.

The Soviets are understood to have a new anti-sub missile. U.S. military experts expect it to be tried out in these tests.

Also, the Reds' secondary aim may be to try out some of the dozen new guided missile firing submarines designed for offensive operations against the U. S. coast.

The Soviet has only a few of these with 200-300-mile missiles. Guided missile submarines probably will take part in the operations. All of these subs must surface to fire.

It's not believed that the Soviet Union has its 1,200-mile, liquid-fueled, Polaris-type missile far enough along to try out in these maneuvers.

But a 400-mile, liquid - fueled missile designed for launching from a submarine - towed capsule may be ready for operational testing.

Although all of these submarine missiles have nuclear capability, they may be tested with conventional warheads in these maneuvers to avoid fallout danger to the Red fleet.

The Soviet Union also needs to try out in these combined operations some of its new guided missile cruisers and destroyers.

The destroyers are between 2,600 and 3,000 tons displacement. They have a guided missile launcher aft in place of the usual after gun mountings. Some of the cruisers and some destroyers also are believed armed with anti - aircraft weapons.

Some of the cruisers may test the new M-2 anti-aircraft guided Soviet rocket, reportedly solid fueled. Other cruisers may have a new 45-mile range, solid - fueled missile. Destroyers may test a 10-mile rocket.

It is not known whether the J-3, 400, 500 - mile, solid - fueled missile will be tested on Soviet ships in these maneuvers. It may be used in coastal missile batteries. Some airports say the missile already is installed on several Soviet cruisers. These reports so far have not been verified.

It is believed that the Komets II will not be ready for testing on Soviet naval ships at this time. This 600-mile, surface - to - surface missile, however, already is being used by Red Army units.

One newer missile ship the Soviet Union will want to test now is somewhat larger than the World War II American PT boat and armed with missile launchers instead of torpedoes. It has the same purposes as a PT boat—attacking naval vessels and merchant shipping.

What missiles the air and ground units may test in these maneuvers is not clear. A new airborne, 55-mile missile probably is not ready yet for operational testing. But the planes could test their new anti-aircraft, three-to-four-mile, guided missiles. The ground forces could test one of the newer short-range, 60-80-mile, solidfuel missiles.

Again, this testing is likely to be without the atomic warheads for safety reasons.

Defense Command Slates Maneuver

WASHINGTON (UPI)—Private and commercial aircraft in the United States and Canada will be grounded for 12 hours Oct. 14 during the Air Defense Command's "Sky Shield II" exercise. The Federal Aviation Agency said Sunday night more than 70,000 airplanes would be idled from 11 p.m., CST, Oct. 14, until 11 a.m. CST, Oct. 15.

sorghum and cotton remain very good in the South Plains and yield prospects are also good in far West Texas.

NEW STAMP—A 4-cent commemorative stamp in honor of the Republic of China's 50th anniversary will be issued at Washington Oct. 10. It bears the portrait of Dr. Sun Yat-sen, the republic's founder. Above his picture is the 12-point White Sun symbol. Lettering at top means "The Republic of China."

Trial Of Alleged Killer Scheduled To Start Monday

BIG SPRING, Tex. (UPI)—John Edward Myers, 32, who with his 13-year-old girlfriend are accused of killing four persons in three states two weeks ago, will go on trial Monday for the slaying of hitchhiker Arthur Lee De Kraai near Big Spring.

Dist. Atty. Gilford Jones said there will be no decision concerning the future of Donna Marie Stone, the girlfriend, until after Myers' murder trial. Donna Marie cannot be tried in Texas until she is 17, according to state law.

Myers, of Chicago, pleaded innocent Monday before Dist. Judge Ralph Caton. Caton appointed Big Spring attorneys Hartman Hooser and John R. Coffee to defend Myers.

Jones said he will call around 20 prosecution witnesses during the trial.

Myers returned to the Howard County jail after the arraignment. He was being held without bond.

Metal Lubricants
BELLEVILLE, N.J. (UPI)—Gold and silver may find new uses as permanent lubricants in machinery, officials of General Magnaplate Corp. believe. The company is experimenting with a system of bonding very thin layers of gold oxide and silver oxide to moving parts. It is claimed the parts then will operate indefinitely at speeds and temperatures as high as 1500 degrees.

Soot from burned butter was used for sore eyes by the ancient Greeks and Romans.

Fallout Shelter Food Problem Stirs Debate

By DICK WEST
WASHINGTON (UPI)—Picture yourself flat on your back

in a fallout shelter with nothing between you and starvation but a four-weeks' supply of cornpone.

That, I'm sure you'll agree, would be a grim predicament for anyone to be in. As much as I like cornpone, I shudder at the thought of subsisting on it for a month.

But my feelings are nowhere near as intense as those of Rep. John J. Rooney, a Democrat from Brooklyn who seems to feel that a steady diet of this southern delicacy would be a fate even worse than death.

The possibility of using cornpone to feed the survivors of a nuclear war came up in testimony released today by a House appropriations subcommittee.

It was suggested by Rep. Ben F. Jensen, R-Iowa, as a substitute for an Agriculture Department plan to store surplus government-owned wheat in large cities for use as emergency rations.

"We have about the same amount of corn in storage as we have wheat," Jensen pointed out. "Why would it not be smart to

put ground corn in airtight gal-

lon cans (and) store it in the bomb shelters?"

"By adding a little water and putting it in a skillet, you could have cornpone or cornbread. You could live on that for many a day."

Rooney, whose stomach must have been turning over, interrupted to inquire whether Jensen thought that corn "tastes better than wheat."

"Absolutely," Jensen replied. "Do you not eat cornbread here in the restaurant?"

"No; I never eat it," said Rooney.

Apparently shocked by Rooney's heresy, Jensen said he had eaten "Iowa tall cornbread" every day for four years and had noted that "everybody likes cornbread."

"I don't," Rooney corrected. "You are an exception," said Jensen, deeply offended. "You are an exception on everything John."

Rooney did not dispute the charge. "I probably would not like the wheat, either," he commented.

Some of the other subcommittee members shared Rooney's misgivings about the wheat storage plan. Their skepticism stemmed in part from testimony by Agriculture Department witnesses that wheat could be eaten raw "just by chewing it up."

"How many doctors are going to be furnished with this wheat if a man had to eat it three or four weeks?" asked Rep. Albert Thomas, D-Tex.

Told that the department has no plans for storing physician, Thomas said he wondered "who will kill them (the survivors) quickest — the fallout or the wheat?"

It also was suggested that city dwellers could obtain food after an attack at their "corner grocery store." But Rooney found fault with that suggestion, too.

An attack might come on a weekend, he said, and grocery stores "are not open on Sunday."

Kennedy Invites Korean Official

WASHINGTON (UPI)—President Kennedy has invited Lt. Gen. Park Chunt Hee, leader of the South Korean revolutionary government, to visit Washington November 4 and 5, the White House announced today.

The announcement said Kennedy "is looking forward with great pleasure" to meeting Park, who is chairman of the Supreme Council for National Reconstruction of the Republic of Korea.

"President Kennedy and Chairman Park will discuss subjects which are currently engaging the attention of both governments, the White House said.

Boy Found Dead in Steel Barrel

SAN ANTONIO (UPI)—Police found the bloody and nude body of a missing four-year-old San Antonio boy yesterday in a 55-gallon steel barrel next door to his home.

Authorities said the skull of Richard Valdez had been crushed on the right side. He disappeared from his home about 1 p.m. Friday and police, his parents and neighbors had been hunting for him since that time.

Electrical Georgia

NEW YORK (UPI)—Georgia has 2,000 electrically-heated commercial buildings, more than any other state, and the number is growing at the rate of 55 buildings per month, Electrical World Magazine reports.

SAY "WREN"—When Jenny Wren starts to ring the HMS Wren bell at Wren training headquarters in Burghfield, England, there is bound to be some confusion. Jennifer Wren is a member of the Women's Royal Naval Service (WRNS), often called WREN by Britons, and Jenny Wren is a British nickname for a wren (the bird, that is). The bell is from a sloop HMS Wren. Any Questions?

Congolese Pretender Slowly Losing Reins

By United Press International
In the early morning light at Elisabethville's Airport the scene was repeated many times.

Lines of disconsolate looking men in civilian clothes, a Belgian consul who meticulously checked off each name, a United Nations official looking on impassively, and then the long trip home to Belgium.

These were the former commissioned and non-commissioned white officers who commanded the African army of Moïse Tshombe, self-proclaimed president of the "independent state of Katanga."

And just as the departure of these men symbolized Tshombe's dwindling strength, so the lone U.N. official standing by sym-

bolized the mounting pressures being brought to bear to end Tshombe's pretensions of independence and force him to join a united Congo under the central government at Leopoldville.

With the pattern of parliamentary government restored at Leopoldville under Premier Cyrille Adoula, U.N. forces undertook at the end of August what they hoped would be the final phase of a job started more than a year ago.

First step was to deprive Tshombe of his white officer corps.

By the end of the first week in September, all but about 100 out of 440 foreign officers in Katanga Province on Aug. 28 had been sent home or were accounted for.

The swift U.N. action caught Tshombe by surprise. After breathing fire for months, he went meekly on the air and announced that the "government bows to the decision of the U.N."

But as tension mounted and the number of incidents increased, it became evident that the operation still had far to go before reaching a successful conclusion. U.N. officials had hoped to be able to report the Katanga job finished when the U.N. General Assembly meets in New York in mid-month.

Refugee's Baby Is Named Carla

BRENHAM, Tex. (UPI)—A new Carla has been born and she is sure to squall.

Mrs. Bill Galloway of Liverpool, Tex., one of the estimated 5,000 refugees who fled Hurricane Carla to Brenham, Tex., gave birth to a daughter whom she named after her pursuer.

Little Carla Jean is doing fine.

W. W. GRISHAM JR.

Farmer Research Meet Scheduled

"In the past decade, joint work by the Texas Agricultural Experiment Station, county agricultural agents and other research and educational agencies has added more than \$106 million to the economy of a 20-county area surrounding the Lubbock Substation," said District Agent W. W. Grisham Jr. "And Gray county farmers, ranchmen and businessmen have come in for their share of the total," he added.

Grisham urged Gray county farmers and ranchmen to continue cashing in on late research information by attending the special field day slated for Tuesday, September 19, at the Lubbock Substation. "Here is a real opportunity to get first hand information straight from the horse's mouth," he said.

18,000 Mexican Troops To Parade

MEXICO CITY (UPI)—Defense Secretary Gen. Agustin Olachea Aviles said Monday some 18,000 troops will take part in the military parade set for Sept. 16 and the 151st anniversary of Mexico's independence. Fifteen jet planes also will fly over the city during the parade.

An unusual highlight of the parade this year will be the participation of the "Cuervos de Michoacan"—descendants of the Michoacan forces who accompanied Mexican patriot Morelos.

Ninety per cent of all bookplates sold in the world are made in Yellow Springs, Ohio.

Foreign Commentary

By PHIL NEWSOM

UPI Foreign News Analyst
West Germany holds general elections this coming Sunday after a campaign in which Nikita Khrushchev has been one of the chief electioneers.

Chief opponents are Germany's two outstanding personalities—the 85-year-old Chancellor Konrad Adenauer, who has served as chancellor since the birth of the federal republic in 1949, and the 48-year-old Willy Brandt, dynamic Socialist mayor of West Berlin.

As might be expected, the campaign has been waged largely around these two personalities, with Khrushchev an important factor although in a way far from complimentary to the Soviet leader.

scene observers are unwilling to make a flat prediction about its outcome.

Whatever may be the outcome of the elections, it will be hard to detract from the record Adenauer already has established—a record which led Winston Churchill to describe him as "the greatest German statesman since Bismarck."

Groom Personals

Mrs. George Britten
Daily News Correspondent
