Princes Present Coalition Plan For Government

VIENTIANE, Laos (UPI) — The three princes of Laos prepared to present to the national assembly today their plan for a coalition government that would carry this Southeast Asian kingdom into the family of neutral nations.

Neutralist Premier - designate Souvanna Phouma said he hoped the parliament would act fast and that the government would be installed by King Savang Vathana on Monday.

The approach to the assembly by-passes cumbersome special procedures which were worked out by the rival factions last summer in their negotiations to settle the civil conflict.

Gen. Phoumi Nosevan, strongman of the right-wing faction, said that "if the national assembly approved the coalition we do (See PRINCES, Page 3)

JFK Would Lay Politics Aside

By MERRIMAN SMITH
UPI White House Reporter
WASHINGTON (UPI) — President Kennedy is trying to arrange a trial separation of politics from the domestic economy, at least until the 1964 national election.

He feels that partisan attitudes of Republican businessmen are beclouding current economic issues. He does not believe the GOP should approach the administration farm bill as a party matter.

"I think that we have a right," he told a news conference Thursday, "to expect that on these matters of great national import, at least we will receive some help from across the aisle."

"Across the aisle" is a congressional term denoting the fact that Democrats sit on one side,

Republicans on the other in the House and Senate. The President's application was broader than Congress, however. Businessmen, for example.

The President told reporters "most businessmen are Republicans" and undoubtedly would be happier if there were a Republican in the White House today. But, he added, "The economic problems would still be there."

"The presidential race isn't until 1964 and that time, it would seem to me, (would) be the appropriate time to argue politics," he said. "Right now it would seem to me that we should be concerning ourselves with the real problems of our country."

Other highlights of the conference:

—He threw his weight against a strike threatened by the flight engineers against three major airlines, criticizing the union for having "failed to cooperate" with extensive mediation efforts. He urged the engineers to reconsider their rejection of arbitration.

—He dismissed a claim by Soviet Premier Nikita S. Khrushchev that the United States through its nuclear testing was preparing a "surprise attack" against Russia. The President said international tension could be reduced only by "goodwill on both sides."

—This government is studying India's apparent intention to buy advanced jet fighters from Russia.

—He deplored Senate action to bar most U.S. foreign aid to Yugoslavia and Poland, saying this was a tremendous propaganda gift to the Kremlin.

—He feared U.S. withdrawal bilizing conditions in Southeast Asia as Viet Nam and Thailand might result in the collapse of the entire area. Kennedy acknowledged the difficulty of stabilizing conditions in Southeast Asia, but said he thought the announced plan to form a national

City Water Rate Revision Is Studied By Commission

Commission OK's Insurance Plan; Project Talked

The City of Pampa and the Top O' Texas Rodeo Association reached agreement last night on a plan to rebuild a barn recently destroyed by fire at Recreation Park.

The City agreed to turn over \$4,000 in insurance money and advertise for bids for replacement of the burned structure.

The Rodeo group also agreed to take out insurance on all buildings and equipment used by the Association at the park and pay the annual premiums. The insurance also would be increased from \$40,000 to \$80,000. A savings to the city of some \$750 over a five-year period will accrue from the switch in insurance.

It was also brought out at last night's commission meeting that a bond issue of as much as \$1,500,000 may be required for Pampa's proposed overall highway improvement project for U.S. Hwy. 60 and State Hwys. 273 and 152 in Pampa.

City Manager Harold Schmitzer informed the commission the procedure on the projected program would be first to determine if the people wish to take advantage of the State Highway Department's offer to participate in the improvement project. If so, next step would be voting on the bond issue, then, if the issue is approved, presentation of Pampa's readiness to go ahead to the State Highway Department in Austin.

"If we are to take advantage of this," he said, "it must be done soon. We must show the

WOWS 'EM—Tana Jo Vercellotti, one-year-old daughter of Mr. and Mrs. Edward Vercellotti of Joliet, Ill., continues to "wow 'em" in Joliet as she takes to roller skating at a time in life when many tots are still learning to walk. Tana Jo was able to stand with the help of a finger at three weeks, and without help at five and one-half months. Maneuver at right is know in Joliet as the "Tana Twist." (NEA Telephoto)

Hearing Set July 17 To Consider Matter

A move to revise Pampa's existing city ordinance fixing water and sewer rates was launched last night when the City Commission set July 17 as a deadline to either erase Ordinance No. 463 from the books or leave it as it is and forget the whole thing.

The action was prompted by a request from Commissioner L. P. Fort to kill the present ordinance and set up a new piece of legislation to equalize water rates for all consumers.

Fort charged that the present ordinance set up seven or eight different categories of water rates and that they established inequities in rates paid by consumers.

City Manager Harold Schmitzer told the commission that he thought the city's water rate order needed study for possible revision.

"I would recommend that the city adopt an ordinance where everybody and every business or organization pays the same rate," Schmitzer said.

The city manager said he would be ready within a week or so with a new and revised ordinance which he would recommend for adoption.

Officials stated the new ordinance would require a further study of the cost of water production and service to consumers in order to arrive at equitable rates.

The present ordinance, adopted Oct. 3, 1956, provides water rates in several categories as follows:

Customer served inside the city limits - Minimum charge of \$2.60 a thousand for the first 4,000 gallons, 50 cents a thousand for the next 16,000 gallons, 27 cents a thousand for the next 80,000 gallons, and 25 cents a thousand for all over 100,000 gallons.

Customers served outside the city limits - Minimum charge of \$3.90 a thousand for the first 4,000 gallons, 75 cents a thousand for the next 16,000 gallons, 40 1/2 cents a thousand for the next 80,000 gallons, and 37 1/2 cents a thousand for all over 100,000 gallons.

Pampa Country Club - 20 cents a thousand with a minimum monthly bill of \$20.

For all churches served—First 4,000 gallons, \$2.60 and all over 4,000 gallons at 20 cents per thousand. Minimum monthly bill, \$2.60.

Cemetery - \$2.60 per month for all water used.

Pampa Oilers (baseball team that no longer exists)—\$2.60 per month for all water used.

The ordinance passed in 1956 sets up the following sewer rates: Residential—50 cents minimum for 5 or less fixtures and 10 cents per each additional fixture over 5. Commercial - \$1 minimum for 4 or less fixtures and 25 cents per each additional fixture over 4.

The hearing date of July 17 was set by the commission. It was explained, to give water consumers a chance to appear and register any objections they might have to a revision of the present water and sewer rate ordinance.

Mayor E. C. Sidwell said: "This is a matter that has been kicked around pro and con for some time. I think we should get it settled one way or another so we can go on with the many important projects now facing the city of Pampa. The July 17 date will give everyone who has anything to say for or against a revision of the present rate ordinance a chance to come and voice approval or disapproval."

NEW CITY JUDGE — Shown here is James R. Bowers, 33-year-old Pampa attorney who today was sworn in as Judge of Pampa's Corporation Court. Judge Bowers received his appointment from City Manager Harold Schmitzer this forenoon and immediately was given the oath of office by City Secretary Edwin Vicars. Bowers received authorization for his appointment at last night's meeting of the Pampa City Commission. (Daily News Photo)

JFK Sees 'New Plateau' With Reds As Result Of The Laotian Coalition

WASHINGTON (UPI) — President Kennedy believes the Laos government has moved Soviet-American relations to a new "plateau" but he said it is still a long way to the summit.

The President told his news conference Thursday he was waiting to see whether Premier Nikita Khrushchev stuck to his commitment to support the new coalition government pledged to maintain a neutral Laos.

If the Russian leader does, Kennedy said, "it would encourage us to believe that there has been a change in atmosphere and that other problems could be subjected to reason and solution."

The President disclosed that he and Khrushchev had agreed in Vienna a year ago on neutral Cambodia and Burma as the countries to provide a pattern for the Laos settlement.

"Berlin, he said, is an entirely different type of problem and although the general diplomatic climate may be a bit better as a result of Laos, "there is nothing on a summit as yet."

Kennedy made it clear he was deeply worried about the Senate action sharply restricting his ability to dispense economic aid to Communist Poland and Yugoslavia.

White House officials said Kennedy might call the U.S. ambassador to Yugoslavia, George P. Kennan, to Washington next week to lobby with members of Congress in an effort to reverse the Senate action.

The President disclosed that Kennan had sent a cable describing the congressional action as a "great gift to the Kremlin at this particular time."

Rainfall Tops Half Inch Here; More Seen Today

The rain gauge above The News building registered .58 inch of moisture for last night as thunderstorms covered most of the Top O' Texas area.

Many locations around Pampa got more rain and some spots in the city were reporting additional rainfall amounts.

The Gray County Sheriff's Office reported that the roof was blown off a two - story house belonging to Harry A. Nelson, 14 miles northeast of town, during the wind of last night, shortly after 10 o'clock.

It was also reported that high winds hit Miami and blew some tree limbs off into the streets.

At Panhandle, the rain ranged from a half inch seven miles west of town to an inch and three-fourths 12 miles southeast. In town, it measured 1.19 inches. The highway between Conway and Groom was reported under water this morning in one location but still passable.

Clusters of tornadoes — at least a dozen and possibly more — swarmed across the Texas Panhandle like angry bees Thursday night in the Amarillo-Canyon area, smashing trailer houses and causing thousands of dollars damage. No injuries were reported.

Heavy rain and large size hail battered the area. Streets and underpasses were flooded.

BULLETIN
Portions of the Texas Panhandle were placed under a tornado forecast today by the U.S. Weather Bureau.

The forecast, in effect from 4 p.m. to 10 p.m., is for an area along and 60 miles either side of a line from Tucumcari to 60 miles northwest of Gage, Okla., and including the Pampa area.

One tornado struck the Eddie Knowles trailer camp in Canyon, which is located 15 miles south of Amarillo. Two trailer houses were destroyed.

James R. Bowers Is City's New Recorder

James R. Bowers, 33-year-old Pampa attorney, will take over officially tomorrow morning as City Recorder in Pampa's Corporation Court.

The City Commission, meeting in regular session in City Hall last night, voted to give City Manager Harold Schmitzer authority to appoint Bowers to the job today.

Homer Hollars, manager of the City Water Department who has been serving temporarily on the post, was to be relieved of his duties this afternoon.

Authorization for Bowers' appointment came last night on a motion by Commissioner Will Graham, seconded by Commissioner Leon Holmes following recommendations from the city manager, Graham and City Attorney Bob Gordon. "The vote to authorize the hiring of Bowers was unanimous. The City Manager made the appointment this morning and Bowers was sworn in shortly before 10 o'clock.

Commissioners agreed that Bowers would be directly responsible to City Manager Schmitzer for the performance of his duties as called for under the City Charter.

Bowers is the first permanent appointment to the post since A. J. Carubbi was removed by action of the City Commission several weeks ago. Two city officials, William Waggoner and Hollars have held down the job pending search for a man to take over the court duties.

Duties and powers of the Corporation Judge are defined and described in an act of the Texas Legislature which set up the court. The judge of the court is required to discharge duties of the court under the terms of state law, subject to provisions of the Pampa City Charter.

The charter also gives the Corporation Judge authority to punish for contempt, service of process, execution and issuance of writs, and proceedings in relation to peace bonds.

Actually, the recorder's job is a part time post with the judge required to devote as much time to it as is necessary to fulfill requirements of the office.

Bowers was employed at a salary of \$265 a month. He is married and lives with his wife, Patricia, and two sons, Doyle, 7, and Darrell, 4, at 832 E. Beryl.

14-Year-Old Robs Town Bank

SENATOBIA, Miss. (UPI) — A neatly dressed and well groomed farm boy Thursday stole his father's pistol and robbed the town bank of \$8,245.

The boy, 14-year-old Larry Hankins, was captured seven hours later by a sheriff's posse as he tried to sneak home after abandoning a stolen car.

Hankins, a handsome ninth grade student, told police in this northeast Mississippi farming and cotton community he "wanted the money to go to California."

Police said Hankins walked into the bank during the morning and held a small automatic pistol on teller Carolyn Crawford, demanding money. No customers were in the bank at the time.

"You mean all of it?" she asked. "Yes," the boy replied.

Larry, dressed in a light blue sport shirt and his long blond hair neatly parted, stuffed the money in a pillowcase taken from his home. Then he moved on to the next teller's window.

He took more money from the second window, turned and walked out of the bank while two other bank employees looked on.

Outside, the youth found a car with the keys inside. He jumped in and sped away.

The boy offered no resistance when officers found him in woods near his home. Officers confiscated the loot and the pistol, which Hankins said he had taken from the glove compartment of his father's car.

Officers said Hankins, who readily admitted the robbery, told them he had planned to go home, change his clothes and go to Memphis, Tenn., 30 miles north of here. He planned to catch a plane for California in Memphis, he said.

Sheriff Bill Williams said Hankins made good grades in school and "comes from a good family." The sheriff, who said he knows the boy's father, said the youth "goes to church regularly."

He was held in Tate County Jail pending filing of formal charges. An officer said he would appear before a juvenile judge and probably would be charged with armed robbery and auto theft.

House Okays \$308 Billion Debt Ceiling

(Editor's Note: To give you a rough idea of how much a billion dollars is . . . try this comparison: There have been just over one billion minutes pass since the birth of Christ!)

WASHINGTON (UPI) — Senate prospects appeared good today for a House-passed bill to raise the national debt limit.

The House Thursday approved President Kennedy's request to raise the debt ceiling to a record \$308 billion. The vote was 210 to 192.

No Senate committee action has been scheduled on the measure, but sources said Senate approval was expected soon.

Kennedy told his news conference that government payments for various programs have to be stretched out when the debt hits the ceiling. He noted that former President Dwight D. Eisenhower was forced to ask for a hike of the debt limit several times.

The ceiling is now \$300 billion and the federal debt is approaching that.

Judicial Mills Grind Slowly On Red Decisions

(Last of four related columns.)
By PETER EDSON
WASHINGTON (NEA) — From 1935 through 1957, Department of Justice sent petitions to the Subversive Activities Control Board, asking for declarations that there were 24 Communist-controlled organizations operating in the United States.

These actions were taken under the Subversive Activities Control Act of 1950 and the Communist Control Act of 1954. Laws have been fought all the way by the Communist party and its attorneys — principally John Abt and Joseph Forer.

The case against the Communist party ran for 11 years before the Supreme Court decided in June 1961 that the party must register as a Communist action organization.

The court found that members of the party must also register. But so far neither the party nor any of its officers nor any of its members has been registered.

Department of Justice has had to go to court again to force compliance. The original deadline for registration was Nov. 21, 1961. The party and its officers refused to comply.

So a grand jury had to be convened to go all over the case once more. On Dec. 1, 1961, an indictment was returned against the Communist party and on March 15, 1962, against its General Secretary Gus Hall, and its National Secretary Ben Davis, for failure to register. Arraigned March 30, they plead not guilty. Trial has not been set. That's where the No. 1 case stands.

Fifteen other organizations which Subversive Activities Control Board has found to be Communist are:
International Workers Order, Inc.
Labor Youth League.
Jefferson School of Social Science.
Veterans of the Abraham Lincoln Brigade.
National Council of American-Soviet Friendship, Inc.
United May Day Committee.
American Peace Crusade.

Connecticut Volunteers for Civil Rights.
California Emergency Defense Committee.
Washington Pension Union.
Colorado Committee to Protect Civil Liberties.
American Committee for Protection of the Foreign Born.
International Union of Mine, Mill and Smelter Workers.
Civil Rights Congress.
Thirteen of these organizations (See MILLS, Page 3)

Flying Narcotics Ring Investigated By Grand Jury

NEW YORK (UPI) — A federal grand jury Tuesday takes over the case of an alleged multi-million-dollar flying narcotics ring, grounded Thursday by federal agents who posed as well-financed drug buyers.

Five members of the reputed ring, three of them licensed pilots, were held in a total of \$550,000 bail.

The ring allegedly used a four-seat private plane to fly drugs from Mexico to landing fields hidden away on farms in Texas and Georgia. The drugs were said to have been carried over a route from Paris through Panama to Mexico.

The plane was impounded at LaGuardia Airport.

Held on \$150,000 bail each were Victor Stadter, 37, who gave addresses in New York, McAllen, Tex., and San Diego, Calif., the alleged ringleader; Roy Lester Ehlers, 26, and Marvin Wright, 34, both of Miami Springs, Fla. All three are pilots.

Held on \$30,000 bail each were James Joseph, 34, and Richard Gardner, 48, both of whom gave Brooklyn addresses.

Stadter's pretty 18-year-old pilot-daughter, Mary Jane, was given a subpoena to appear before the federal grand jury. Narcotics bureau supervisor George H. Gaffney said there was no evidence the girl had flown the plane when it carried narcotics.

Federal agents posing as buyers twice made heroin purchases from the ring—the second time closing a planned trap and making the arrests, as well as seizing 3.3 pounds of drugs which would have sold on the retail market for about \$1 million.

House Okays \$308 Billion Debt Ceiling

(Editor's Note: To give you a rough idea of how much a billion dollars is . . . try this comparison: There have been just over one billion minutes pass since the birth of Christ!)

WASHINGTON (UPI) — Senate prospects appeared good today for a House-passed bill to raise the national debt limit.

The House Thursday approved President Kennedy's request to raise the debt ceiling to a record \$308 billion. The vote was 210 to 192.

No Senate committee action has been scheduled on the measure, but sources said Senate approval was expected soon.

Kennedy told his news conference that government payments for various programs have to be stretched out when the debt hits the ceiling. He noted that former President Dwight D. Eisenhower was forced to ask for a hike of the debt limit several times.

The ceiling is now \$300 billion and the federal debt is approaching that.

Television In Review

By RICK DU BROW
United Press International

HOLLYWOOD (UPI)—To television viewers, Thursday night's world premiere of the dance-drama "Noah and the Flood" by Igor Stravinsky may be significant to future programming for the way it was conceived.

While music and ballet experts hash out a verdict on the master's latest creation — his first written expressly for television — there is hope in the fact that it was initiated by a network, CBS, which commissioned him to do it.

One such act does not a renaissance make, of course. And it is to be hoped that similar gestures do not continue to be so few and far between — or await the publicity and prestige that accompany such events as Stravinsky's 80th birthday, which occurs Sunday.

But there is some comfort in the thought that the lessening of single-sponsor control, because of the increasingly enormous costs of putting on a show, provides an opening for the networks to move in on — to assume more command in originating programs.

The power of the "middleman" agencies, which work between the sponsors and the networks, is still considerable. But with the rising production costs, the dominant single advertiser — with his absolute control — is giving way to multi-sponsor deals for shows.

It would be silly to think that this happy situation will result overnight in a golden age of tele-

vision. But it does seem that the networks could now take it upon themselves to build up their use of talents and opportunities they have slighted. For instance:

There is much talk about the wasteland, but not enough about the wasted land — the America between New York and Hollywood where every day colleges, local theatres and smaller television stations produce shows that could help overcome the shortage of network material.

There is no rule that creativity is confined to the cultural pop-jays of Madison Ave. or the sun-glasses set of Sunset Blvd. The wasteland, after all, was molded in these centers of creativity.

The Channel Swim: CBS-TV's "I've Got A Secret" marks its 10th anniversary Monday. Buddy Ebsen guests on CBS-TV's "Checkmate" Wednesday. NBC-TV will broadcast baseball's two All-Star games July 10 and July 30.

ABC-TV's fall premiere of "The Voice of Firestone" stars Sally Ann Howes, Mischa Elman, Rise Stevens and Cesare Siepi. CBS-TV's July 3 debut of Jim Backus' "Talent Scouts" features Carol Buggett, Van Johnson and heavyweight boxing champion Floyd Patterson.

Occupational Tax Stamps Deadline Is Slated In July

During July, 1962, certain business must register and pay for occupational tax stamps for the fiscal year ending June 30, 1963, according to Ellis Campbell, Jr., District Director of the Internal Revenue Service in Dallas.

This provision of federal tax law applies to those who maintain for use or deal in or with:

- Coin-operated amusement devices — Use Form 11-B;
- Bowling alleys, billiard and pool tables — Use Form 11-B;
- Adulterated & process or renovated butter — Use Form 11;
- Filled cheese — Use Form 11.

Answers to questions regarding taxes may be obtained by contacting the IRS.

AROUSES NATIVES

DES MOINES, Iowa (UPI)—Albert A. Payne, a former Washington lobbyist who said he came here to "wake up the natives" to the "dangers" of federal aid, had them thoroughly aroused Wednesday.

He told the local traffic committee Des Moines drivers were the "rudest in the world."

VA Survey Lists Over A Million Texas Veterans

The latest survey made by the Veterans Administration shows there are 1,146,000 war veterans now living in Texas, according to Robert W. Sisson, manager of the Lubbock, Texas regional office.

Of this total number, 786,000 are veterans of World War II. There are 280,000 veterans of the Korean Conflict, while an additional 223,000 veterans already listed with the World War II veterans, saw service also in the Korean Conflict.

Texas also has 130,000 veterans of World War I, according to the latest VA tally, while an additional 7 veterans of the Spanish-American War, the Indian Wars and career ex-servicemen who now receive compensation reside within the state.

The total number of veterans as of December 21, 1961, the date of this survey, stood at 22,338,000 with 15,138,000 World War II veterans; 4,542,000 Korean con-

Stamp Deadline Is June 29th

All businesses, according to Ellis Campbell, Jr., District Director, of the Internal Revenue Service in Dallas, must register on or before June 29, 1962, and pay for occupational tax stamps for the fiscal year ending June 30, 1963, if they manufacture, maintain for use, or deal in or with:

- Gaming devices Use Form 11-B;
- Wagering Use Form 11-C;
- Narcotics or marihuana Use Form 678;
- Distilled spirits, wines, beers and stills Use Form 11;
- Firearms Use Form 11.

Answers to questions regarding rates of tax or requirements for filing returns for these taxes are available by calling IRS.

Mommie Come Home

DETROIT (UPI) — Postman Kenneth Butler, 53, was making his pickup rounds this week when he came to a corner box in Dearborn, Mich. and found a folded piece of white, loose-leaf paper inside.

On the outside fold of the paper was a crudely drawn stamp childishly colored on in purple crayon. Inside the folds of the paper, the left side of the sheet was covered with eight small drawn flowers of various colors.

There was no address and the six-word, printed message was: Dear Mommie:

Come home.

Love
Jerry.

Approximately one-half the deaths by fire in 1960 occurred in homes and 30 per cent of the casualties were children.

JFK May Seek New Powers For Strikes

By WILLIAM J. EATON
WASHINGTON (UPI) — President Kennedy will be compelled to seek new powers from Congress if the flight engineers go on strike against three of the nation's biggest airlines, administration officials said today.

Any request by Kennedy for legislation to deal with the walkout apparently would call for authority to seize the airlines or some form of compulsory arbitration. Either request probably would face stiff opposition from Congress in this election year.

The Engineers' Union pursued a "keep-em-guessing" policy on its strike plans while its leaders decide whether to buck Kennedy's strong appeal for a settlement.

The Chief Executive urged the union to consider its "public responsibility" and abandon any idea of walkouts against Pan American, Eastern and Trans World Airlines.

Kennedy told his news conference Thursday that he would have to "consider what will be the proper action" if the flight engineers continued to spurn his plea for arbitration or some other strike-free settlement procedure.

It appeared likely that union president Ron Brown, who said a walkout appeared certain after negotiations collapsed, would reply to Kennedy's truce bid today.

About 1,700 engineers were reported ready to strike to back up demands for greater job security, higher wages and shorter hours in the 20-month-old dispute with the three carriers.

The main issue centers on qualifications and duties of the "third man" on jet flight crews when they are reduced from four to three men. The union leaders say that government-backed proposals for easing the change would jeopardize flight engineer jobs by placing the organization under domination of the air line pilots.

The President said the stoppage would idle 40 per cent of the nation's air service, displace 62,000 other airline workers and halt American-flag flights overseas. This, he said, would seriously damage the economy and the public welfare.

Suit Is Filed As Aftermath Of Accident

Parents of a 21-year-old New Jersey man yesterday filed a \$51,500 damage suit in the Gray County District Clerk's office against a Decatur, Texas man resulting from an auto-semi-truck accident, August 25, 1961, at the intersection of U.S. Highway 66 and U.S. Highway 70, south of Pampa, in which the New Jersey man was killed.

The suit was filed by Mr. and Mrs. Peter Katchmer of Middlesex, New Jersey, against Herbert L. Cox of Decatur.

In the accident, which involved only the two men, the Katchmers alleged that Cox was negligent in failing to keep a proper lookout, failure to yield the right-of-way, and failing to stop for a stop sign.

The Katchmers said in the suit that the deceased died of injuries resulting from the accident.

The suit asked for \$50,000 damage and \$1,500 for hospital expenses.

Stocks Pull Out Of Nose Dive Today

NEW YORK (UPI) — Stocks pulled out of a six-day nose dive today to move higher in active trading.

Flash prices crossing the tape during the first hour showed at least a half dozen blue chips and nearly a dozen electronics posting gains of a point or more. American Telephone, American Tobacco, Procter & Gamble and Chrysler spearheaded the advance.

IBM, a particularly heavy recent loser, tacked on nearly nine points, followed by Fairchild, Zenith, Litton, Texas Instruments, Beckman, Burroughs, and Cenco all up one or more in the electronics.

Ford rose about one in a higher auto section. Steels and chemicals firmed, some aircrafts, metals, stores, drugs and cosmetics, participated in the rally. Entertainments and building materials, however, drifted lower.

Celotex, American Viscose, Liggett & Myers, MCA, McDonnell, National Lead, J.C. Penney, Universal Oil, Polaroid, Revlon and Richardson - Merrell all rose a point or more.

UNCLAIMED ITEMS AUCTION
NEW YORK (UPI)—The Port of New York Authority today auctioned off thousands of unclaimed items lost in its terminals.

Up for bids are an ice crushing machine, an electric massager, a box of electric shavers, two wicker bar stools, a pair of pith helmets, Chinese popular records and a skin-diving outfit complete with air tank.

The advanced institutes is sponsored by Tech's departments of education and psychology in conjunction with the United States Department of Health, Education and Welfare.

Rummage sale — Assembly of God, Saturday, June 16, 321, S. Cuyler.

The Adobe Walls Council Boy Scout office in the City Hall will be closed on Saturday mornings during the months of July and August. The office will reopen each Saturday morning beginning with Saturday, September 1.

Rummage Sale: Sat. June 16th at 322 S. Cuyler. Nice merchandise.

Ford Is To Close Plants

DALLAS (UPI) — Henry Ford II said Thursday that Ford assembly plants all over the nation are going to shutdown next Monday for at least a week because of a strike at the company's Cleveland, Ohio stamping plant.

The strike in Ohio has caused a parts shortage, and there was a possibility the layoff would last longer than one week. Ford said company and union officials have been negotiating and were continuing to negotiate. A work standards dispute is at issue in Cleveland.

"We will be down pretty much all over," Ford said. The shutdown is coming at a time when Ford car sales are booming to ward the second best year in history.

Ford was in Dallas to appear before a meeting of more than 1,000 Ford and Lincoln-Mercury dealers from the Southwest and middle South. A similar meeting will be held today in Kansas City, Mo.

Mills

(Continued From Page 1)

on which SABC issued orders requiring registration appealed to the U.S. District Court of Appeals. Seven of the cases were then remanded to SABC for determination whether the organizations are still active and if not, what effect that has on registration.

These cases, now under review by SABC, cover: Labor Youth League, Jefferson School of Social Science, California Labor School, Civil Rights Congress, American Peace Crusade, Washington Pension Union and the Colorado Committee to Protect Civil Liberties.

Four other organizations on which SABC has issued orders to register, with appeals still pending are:

Veterans of the Abraham Lincoln Brigade, National Council of American - Soviet Friendship, United May Day Committee, American Committee for Protection of the Foreign Born.

Two SABC orders on the Connecticut Volunteers for Civil Rights and the California Emergency Defense Committee have become final because time for appeal has expired. SABC hearings on the United Electrical, Radio and Machine Workers were dismissed by Department of Justice for lack of available witnesses and evidence.

SABC's most recent order on May 4, finding the International Union of Mine, Mill and Smelter Workers was a Communist - infiltrated organization, was one of its most important and effective actions. It deprives the union of collective bargaining rights when order is made final.

But the union has now petitioned for a hearing that it is no longer Communist dominated, delaying decision.

What this SABC record shows is that enforcement of orders and court decisions against Communist organizations is a long and costly process, so far not too successful.

Penalties of \$10,000 a day or five years imprisonment are provided for each day's failure to register. But so far not one cent has been collected and no Communist has gone to jail.

Atty. Gen. Robert F. Kennedy on May 31 began his third drive to force compliance. He petitioned Subversive Activities Control Board to require 10 members of the Communist party's national committee to register.

But it will take months and perhaps years of hearings, appeals and ultimately another Supreme Court decision to enforce the penalty.

(End Series)

Two Cases In Light Damage County Court In Barn Blaze

Light damage resulted to a barn when grain inside a grain storage bin caught fire on a farm south of Pampa Thursday afternoon.

The grain was stored in a bin on a farm owned by J. O. McCracken, who lives 16 miles south of town. The grain was a total loss, but only light damage was reported to the barn.

Cause of the fire was unknown. The fire was reported at 5:21 p.m.

Tom Woodward, Pampa, was fined \$5 and costs yesterday afternoon in county court when he pleaded guilty to a charge of swindling with worthless check. Restitution was made on a \$40.50 check given to Stapleton Boot and Leather Shop, Pampa.

Today in county court, bond was set at \$500 for Gordon Dale Kelley, Pampa, when he pleaded not guilty to a charge of aggravated assault.

The complaint was signed by his wife, Sheila.

Man Fined \$100 In Driving Case

Marshall Thomas Berry, 32, 118 S. Ballard, was fined \$100 and costs and sentenced to three days in jail today when he pleaded guilty in county court on a charge of driving while intoxicated.

Berry was arrested at 2:55 a.m. today in the 400 block of E. Francis after the pick-up truck he was driving struck a light pole and a service station gasoline pump at 415 E. Frederic.

Officers said Berry was observed on E. Frederic and when the patrolling officer gave chase, Berry failed to make a slight curve in the highway. Damage to the light pole, service station and pick-up amounted to approximately \$500, officers said.

Princess

(Continued From Page 1)

not need to use exceptional methods.

Phoumi and Prince Souphanouvong, leader of the pro-Communist Pathet Lao, will be vice premiers in the new government.

The United States brightened the outlook of the Laotian leaders by announcing that its \$3 million foreign aid would be resumed immediately.

U.S. Ambassador Winthrop G. Brown made it clear the resumption was the result of the formation of the coalition. He said a "new approach" would be made to fit the needs of the new government.

The United States cut off the aid in January in an effort to force the regime into a coalition. U.S. officials believed a compromise with the neutralists and pro-Communists was the only means of settling the civil war peacefully.

Rain

(Continued From Page 1)

were overturned and a third was hurled across a street. Three permanent residences in the city also were damaged. Power lines were downed.

Ronnie George, owner of one of the trailers, said he had taken his family to a drive-in to protect the car from hail.

"I never did see what happened in the park," he said. "But I saw the twister hit the houses east of the trailer park."

Mrs. Ruth Ann Brillhart said, "I was holding a blanket up to the window in case the hail broke it out. I heard the garage go, and was worried about the house for a while."

A tornado ripped part of the roof off the Francis Shell home in Canyon and damaged a new fence. He said a picture window in the front of the house literally exploded.

In Amarillo, Rip Blackburn, 12, stepped off a curb and the water rushing down the street from more than two inches of rain swept him off his feet. Rip hollered for help. Neighbor Dick Cazzell seven houses down the street waded into the water and grabbed the youngster. Cazzell hung on until the boy's mother, Mrs. Stanley Blackburn could back the car into the street to get them.

Jerry Jackson, an Amarillo pharmacist, said he spotted a tornado funnel above him.

"We ran out and looked up at it... right above us," he said. "It looked like some clouds spinning. I'd say it resembled an up-sided-down whirlpool."

Several overpasses were temporarily flooded in Amarillo. A large awning collapsed over a parking area at a downtown drive-in falling on about eight automobiles.

Oil Allowable Is Still Unchanged

AUSTIN, Tex. (UPI)—The Texas Railroad Commission agreed today with most major purchasers and kept Texas' oil production on an eight-day pattern for July, representing a decrease in allowable of 49,360 barrels daily from June.

Nine of 12 purchasers of Texas crude oil asked the eight-day pattern, but three asked for a seven-day allowable.

July's estimated allowable will be 2,703,002 barrels daily, compared with a Bureau of Mines estimate of market demand of 2,560,000 barrels daily. July nominations for purchase of Texas crude were estimated by the commission at 2,466,018 barrels daily.

Commission

(Continued From Page 1)

State Highway Department we are not just talking — but we are ready."

Gordon Lyons, president of the Pampa Chamber of Commerce, told commissioners he would call a meeting of the C. of C. Board of Directors to get official approval of the proposed project, which he said he already had obtained in informal conversations with most of the board members.

In other business last night, the commission approved bills for May totaling \$19,065.61 and monthly bills for Lovett Memorial Library in the amount of \$821.90.

VISITS SPAIN

VIGO, Spain (UPI) — Puerto Rican Gov. Luis Munoz Marin and his wife arrived here Thursday aboard the liner Antilla. He was met by Spanish officials and representatives from the U.S. consulate.

REPORT CASUALTIES

WASHINGTON (UPI) — The Defense Department said on Wednesday that 16 Americans have been killed thus far in South Viet Nam and one is listed as missing. It said a "relatively minor number" have been wounded.

A Pentagon spokesman described a Communist North Viet Nam news agency report that 101 Americans had been killed, wounded or captured as "blown up, as usual."

Hep Cat Club Opens Annual Rush Season

The Hep Cat Club opened its rush season Monday with a hobo breakfast at Julie Hofess' home, 1108 Charles.

Refreshments were served to the rusees who received bandana sacks tied to sticks and containing notes of invitation.

Opti-Mrs. Plan Rummage Sale

The Breakfast Opti-Mrs. Club decided Monday during the salad supper social hour at the Optimist Boy's Club to have a rummage sale July 18.

Two new members, Mrs. Wayne Anderson and Mrs. Marvin Holman, joined the club Monday.

Mrs. Gene Tollison and Mrs. Lindy Houck were hostesses. Other guests, were Meses K. R. Dodd, Bill Jenkins, Bill McDonald and W. A. Gipson of the Evening Opti-Mrs. Club, and Mrs. Walden Haynes, prospective member. Mrs. Jenkins won the door prize.

Members will meet at 7 p.m. July 9 at the Boy's Optimist Club Building.

Mrs. Ralph West Conducts Meeting

The Women of the Moose, Lodge No. 1163 met at the Moose Lodge, 401 E. Brown at 8 p.m., June 12. Mrs. Ralph West presided over the meeting.

Initiation was held, introducing a new member, Mrs. Edd Tigrett.

A short business meeting of the officers was held after the initiation. Meses attending were: Ralph West, Connie Lockhart, Tom Beard, Lovie Fry, Alvin Driggers, Sam Doodan, Charlie Webb, Harvey Waters, W. C. Brown, Joan Panches, Ed Tigrett and Truman Garrison.

The next meeting will be June 26 at 8 p.m. at the Moose Lodge.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. A startling innovation is the sheer front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem. The girdle itself is of "wonder" Lycra spandex fiber. It feels like nothing on but has such slimming strength it gives your figure everything that's possible with a foundation.

"Suddenly Slim" is the peak achievement of the designer-genius, Olga.

Be "Suddenly Slim" today in either girdle or panty version.

Dear Abby... Mom Wants Wedding Held In Church!

By ABIGAIL VAN BUREN

DEAR ABBY: Last night our 19-year-old daughter called us from over the state line and told us she was married. It is okay for a girl her age to be married in that state, but not this one. She and the 20-year-old boy have gone together a year. They are both in college and my husband and I are ready to break their necks. We don't know what to do. She said she was married in the courthouse and we want her married in a church. Is it too late for that now? Please advise us.

MIDNIGHT LETTER
DEAR MIDNIGHT LETTER: When your daughter comes home, tell her and her husband that you would like them to be remarried in a religious ceremony. Then speak with your clergyman and he will guide you.

DEAR ABBY: I am engaged to a young man and plan to marry him soon. Recently he told me that he is in the habit of sleeping in his underwear, and intends to do so after we are married. (He picked up this habit in the Army.) The thought is repulsive to me. Is there any way I can get him to break this habit without making a big deal out of it?

BRIDE-TO-BE
DEAR BRIDE: Tell him you intend to sleep in yours!

DEAR ABBY: I am a man who likes his night out once a week. I usually go out with my father and we throw darts. My wife started hollering for a night out once a week, too, so I said, "Okay, so go already." She goes out with her girl friends and they stop into a bar for a drink and then see a movie. I don't like her

in bars without me and told her so. But she says there is no harm in it. I trust her, but do you think I am trusting her too much? We have been married 10 years and have 3 children.

JOSE
DEAR JOSE: A married woman should not "stop into a bar" with other girls. Compromise. Tell her, "Movies, si—bars, not!"

ANTHONY ROCCO
How's the world treating you? For a personal unpublished reply, send a self-addressed, stamped envelope to ABBY, care of this paper.

Chris And Cathy Are Honored With Hawaiian Farewell

Chris Jonsson, senior high school exchange student from Sweden and Cathy Papanthanasopoulou, high school exchange student from Greece, were honored with a Hawaiian farewell party in Gordon Bayless' home, 2114 N. Nelson, June 8.

The honorees will be leaving Pampa June 20 to return home.

Judy Pemberton, daughter of Mr. and Mrs. E. B. Pemberton, won the hula contest and received a large model of the SS United States as her prize.

The backyard of Mr. and Mrs. Gordon D. Bayless was decorated in a Hawaiian manner with crepe paper palm trees, a grass hut, fountain, ferns, lanterns and large paper butterflies.

With background of Hawaiian music, the 60 guests were served refreshments prepared by Mrs. Joe Stephens and served by Sue Weins and Nora Ruth Wells.

The serving table centerpiece of pineapples surrounded by a miniature hurricane lamp, was accented by yellow flowers and grapes.

Monthly Meeting In Pampa Hotel For American Business Women

The monthly dinner meeting of the American Business Women's Association was held Tuesday, June 12 at 7 p.m. in the Pampa Hotel with Mrs. James Quay, president, presiding.

The group was honored by having Mr. Ancel Joyner, introduced by Mrs. Billy Wright, as speaker. He is a teacher of High School English, and his subject was Poets and Poetry. Mr. Joyner read poetry from the sixteenth and seventeenth centuries. He stated that poets write mainly on four subjects that are universally interesting, namely: Love, Death, Man's Relation to Nature, and Man's Relation to Mankind. Mr. Joyner climaxed his speech with the poem "If" by Rudyard Kipling.

The minutes of the last meeting were read by Mrs. Ed Wylie. The treasurer's report was given by Miss Jeanne Casey.

A vote was taken to select the Woman of the Year from the Chapter. A Committee of three was appointed, Mrs. Billy Wright, Mrs. J. P. Butler, and Mrs. Rex Barton to count the votes and determine the winner. The Woman of the Year will be announced at the meeting in July.

The president stated there were four more achievements to accomplish before the ending of the physical year in September.

A letter was read by Mrs. Kenneth Butler from Mrs. Bee Osborne, National President congratulating the chapter on a second anniversary.

The group was advised to select a scholarship student within

Nutrition Program Given To HD Club

SKELLYTOWN (Sp) — Members of the Home Demonstration Club met recently with Mrs. Floyd McCoy with Mrs. Sybil Stringer, agent, directing the program on nutrition. She stressed the fact that a proper diet of food was far better for a family than depending on vitamin tablets to supply the needed amount of various vitamins. Mrs. M. E. West was selected to represent the club at council as a state delegate nominee. The delegate from the council will be selected from the various clubs in the county. Mrs. Gertrude Huckins won the recreation prize during the social hour. Refreshments were served to Meses G. E. Porter, C. C. Hoskins, C. D. McCloud, W. S. Berry, Everett Crawford, John Simmons, Andrew Simmons, G. E. Huckins, Gertrude Huckins and M. E. West.

There's nothing catty about saying, "I like your hair" when a blonde suddenly becomes a redhead.

the next two months, and Mrs. Billy Wright of the Scholarship Committee reported on the information she had gathered concerning a student. It was also announced that a contribution was to be made to the Stephen Buffon Memorial Fund in Kansas City, Mo., national headquarters.

A Nominating Committee of three was elected, Miss Jeanne Casey, Miss Novis Parker, and Mrs. Clemon Herd to prepare a slate of prospective officers to be elected and installed in July.

The door prize was won by Mrs. Tony Smith.

Invocation was given by Mrs. Kenneth Butler.

Members attending were Meses James Quay, Kenneth Butler, Billy Wright, J. P. Butler, Rex Barton, Ed Wylie, Wayne Neff, Myrtle Atkinson, A. L. Hill, Tony Smith, T. W. Johnson, Lily Waltham, Ann Pitcock, Clemon Herd, Omer Bybee, Ted Mastin, Glen Ritter, and Misses Jeanne Casey, Novis Parker, and Maxine Nabors.

Guests attending were Mr. and Mrs. Ancel Joyner, Mrs. Blanche LaMunyon, and Mrs. Reva Tomlin.

The Weekly Message Of Inspiration

Attend The Church Of Your Choice

BY JOHN DYER
Pastor, Hobart Street Baptist Church

What Christ Does With Our Sins When We Bring Them To Him

"If we confess our sins he is faithful and just to forgive us our sins and cleanse us from all unrighteousness."

I John 1:9

1. "As far as the east is from the west, so far hath He removed our transgressions from us" Psalms 103:12
2. "For thou has cast all my sins behind thy back" Isa. 38:17
3. "I have blotted out, as a thick cloud, thy sins; return unto Me; for I have redeemed thee." Isa. 44:22
4. "And thou wilt cast ALL their sins into the depths of the sea." Micah 7:19
5. Christ "gave himself for our sins, that he might deliver us from the present evil world" Gal. 1:4
6. "Who his own self bare our sins in His own body on the tree, that we, being dead to sins, should live unto righteousness: by whose stripes ye were healed" I Peter 2:24
7. "By Himself purged (by atonement) our sins" Heb. 1:3 and 2 Peter 1:9
8. "In whom we have redemption through His blood, the forgiveness of sins, according to the riches of His grace." Eph. 1:7, Col. 1:4, and Rev. 1:5.
9. "Whom God hath set forth . . . a propitiation through faith in His blood" Rom. 3:25. "And He is the propitiation for our sins; and not for ours only, but also for . . . the whole world." I John 2:2
10. "And there I will meet with thee, and I will commune with thee from above the mercy seat." Exs. 25:22 cp with Heb. 4:16

To the person who is looking for peace and forgiveness the Bible says to confess your sins and believe in Jesus Christ as Saviour and Lord.

To the person who has experienced the new birth in Christ, God is calling us unto holiness.

Dear reader will you come to Christ NOW.

65TH YEAR

Twins Inching Up On Yanks Again

By MILTON RICHMAN
UPI Sports Writer

Some days it just doesn't pay to get out of bed and that, in a nutshell, was the kind of day it turned out to be for poor Bob Belinsky, Billy Pierce and Stan Williams.

All three went through separate ordeals Thursday and their collective misfortune would even bring tears to a hobby horse. Belinsky, the good-time Charlie of the Los Angeles Angels, had insult added to injury when he was knocked out in the sixth inning by the Minnesota Twins after being fined \$250 for some after-hours hi-jinks.

Before departing, Bo walked eight and trailed 3-2. The Angels tied the score in the seventh, taking him off the hook, but Lenny Green's ninth-inning single off loser Art Fowler gave the Twins a 5-4 victory and boosted them within three percentage points of the idle first-place New York Yankees.

Pierce suffered his second defeat as the Cincinnati Reds blanked the San Francisco Giants 5-0, on Joey Jay's three-hit, but that wasn't the worst part of it.

Trying to cover first base in the first inning, Pierce, who has been the Giants' most consistent pitcher with eight victories, suffered a spike injury by Don Blasingame that required 12 stitches and will keep him out of action for at least 10 days.

Don Larsen relieved Pierce and yielded a single to Frank Robinson that produced the Reds' first run, after which Robinson connected for a three-run homer in the third.

The defeat kept the second-place Giants two games behind the league-leading Dodgers, which brings up the sad plight of Williams.

The big right-hander started for the Dodgers, could get only one batter out and was charged with five runs in the first inning as the Milwaukee Braves coasted to a 7-1 victory. Hank Aaron's 12th homer with one on was the crush-

er for Williams. Bob Shaw then went on to hold the Dodgers to six hits for his eighth victory in 10 decisions.

The Houston Colts beat the New York Mets, 10-2, and the Pittsburgh Pirates downed the Chicago Cubs, 6-3, in the only other National League games.

Washington clipped Cleveland, 4-3, Kansas City outscored Chicago, 11-8, and Baltimore defeated Boston, 7-4, in the American League.

Carl Warwick's two-run homer highlighted a seven-run first-inning rally that kayoed Jay Hook of the Mets and made it a breeze for the Colts. Bob Bruce registered his fifth victory for Houston, allowing six hits including a homer by Marv Throneberry.

Don Hoak collected his 1,000th major league hit in the first inning, an infield single, and then belted a three-run homer in the fifth to pace the Pirates to their sixth straight win. Bob Friend, whose record now is 7-7, held the Cubs to six hits, two of which were homers by Billy Williams and Ron Santo.

Danny O'Connell's eighth-inning single broke a 3-all tie, and gave the Senators their victory over the Indians. Jim Pierson of the Senators and John Romano of the Tribe became involved in a shoving match at home plate in the eighth but no blows were struck. Marty Kutyna was the winning pitcher and Gary Bell the loser.

Rookie Ed Charles drove in four runs for the A's against the White Sox with a pair of homers. Gordon Jones, last of four KC pitchers, was credited with the victory. Joel Horlen was the loser. The White Sox now have dropped five straight.

Jim Gentile's 17th homer with one on and Brooks Robinson's 10th homer with the bases empty helped the Orioles turn back the Red Sox. Both homers came off loser Bill Monbouquette. Steve Barber posted his fifth win although he needed Hoyt Wilhelm's aid in the seventh. Oriole catcher Charlie Lau committed four passed balls trying to hold on to Wilhelm's knucklers.

DUMPING HORSE — Another Indian bites the dust, by Jove, as Mohawk, ridden by Harvey T. Jove, comes a crupper at Berryville, Va. Neither horse nor rider was injured by the spill in the green hunter working class of the Lewis M. Allen Riding Club Horse Show.

Pursley Fires No-Hit Gem In North Loop

B & B and C & M emerged victorious in Northern little league games at the Optimist park diamond Wednesday night.

B & B downed Shelby Ruff, 4-1 and C & M took the measure of Crall Products, 7-0.

Jim Hollis carded the victory for B & B, striking out four while walking none. Johnny Marsh was the losing pitcher, striking out two. Larry Turcotte came on in relief for Ruff in the fourth inning and finished up.

For B & B, John Garren and Mike Hughes each had a pair of singles while McDonald and Hollis contributed a double each to lead the winners with the timber.

For Shelby Ruff, Grady had two singles and Turcotte a double to share swat honors.

Mike Pursley fired a no-hitter as C & M posted their shutout over Crall Products. Pursley struckout 14 in carding the win. Rodney Hale was the losing pitcher.

Pursley lead the winners with the timber with a double. Gary Howell had a double and a single to share in the hitting attack for the winners.

In a pair of Western league contests, Hardin Roth eased past One Bull, 2-1 and Dick Evans slammed Hoover Oil, 9-3. George Baily picked up the win for Hardin Roth, striking out nine and walking one. Charlie Price was the losing pitcher for

One Bull. Each pitcher allowed two hits.

The victory for Hardin Roth kept them tied for the top spot in the Western loop with Mahawk Signs with 6-1 records.

Owen Brown picked up the victory for Dick Evans while Mike Sublett was the losing pitcher.

Johnny Carlos slammed out two home runs for the winners, batting in four runs in four trips to the plate.

Dick Evans picked up four runs in the third and four more in the fourth to sew up the victory.

Pampa Loses To Phillips, 6-0

Phillips Petroleum company won over the Pampa Fire Department Wednesday night in a Pampa Industrial softball loop game, 6-0.

Lloyd Reyher was the losing pitcher for Pampa while James Shaw carded the win for Phillips. Shaw gave up but two hits in posting the win.

Deadline Today For Registration

Any girls interested in taking part in the girls softball league this year are asked to register between 4:30 and 6:30 p.m. today at the boy's club. The league is open to all girls between the ages of 10 and 14.

Oregon Favored To Win NCAA Cinder Tournament

EUGENE, Ore. (UPI) — The greatest collegiate track and field show, the NCAA championships, gets under way at University of Oregon today with the host team the odds-on favorite to capture the title.

Preliminaries were slated for today in most events. The only finals will be the three-mile run, where Dale Storey of Oregon State, and Pat Clohessy, the Australian from Houston University, are expected to fight for the gold medal.

The biggest name in track and field, Oregon's Dyrrol Burleson, is favored in the mile — favored so

much that he scared off all competitors except eight. The Webfoots' star has been clocked in 3:57.9 this year — and another Oregon man, Keith Forman, has been time in 3:58.3. They are expected to run one-two. No other man in the field has cracked the four-minute barrier.

The 100-yard dash shapes up as a battle between world record holder Frank Budd of Villanova; Harry Jerome, the Canadian from Oregon, and Dennis Johnson of San Jose State. A late withdrawal was Bob Hayes, Florida A&M.

SEMIFINALS

HOYLAKE, England (UPI) — Richard Davies, 31-year-old real estate executive from Pasadena, Calif., reached the semifinals of the British Amateur golf championship today with a rain-soaked 2 and 1 victory over David Palmer of England.

The victory pitted Davies against 20-year-old Rodney Foster of England this afternoon. Foster advanced with a 6 and 4 triumph over Dr. Colin Bird of Scotland. John Poall of Wales plays Brian Chapman of England in the other semifinal.

This marked the sixth straight year and the 16th time in the 17 tournaments since World War II that the United States has placed a representative in the semifinals.

Palmer Fires 71 With Three Rounds To Play

OAKMONT, Pa. (UPI) — They set out in pursuit of little Gene Littler in the second round of the U.S. Open golf championship today and everybody agreed that the mechanical man would take a lot of catching.

The silent, sandy-haired Californian, known to his fellow pros as "Gene the Machine," had only played 27 "sloppy" practice holes over awesome Oakmont Country Club. But he went out there and shot a two under par 35-34-69 which put him on the head end by one shot.

At his heels — one blow back — came Bobby Nichols, a 26-year-old Kentuckian playing out of Midland, Tex., and bespectacled Bob Rosburg, the PGA champion from Portland, Ore.

And two strokes away was a surging sixsome headed by Arnold Palmer, the 5-1 pre-tournament favorite. Palmer's finger, gashed Sunday night, wasn't bothering him "at all" but his putting was as he carded a 36-35-71. Palmer was laboring until he put on one of his patented stretch runs, running off a string of five straight threes — including three birdies on the final five holes — to get back into a challenging position.

All square with golf's leading money winner were South African Gary Player, who moaned the putting blues, too, as he tried to become the first foreign winner in 42 years; veteran Billy Maxwell; Bob Schoener of Bethlehem, Pa.; Frank Boynton of Corpus Christi, Tex., and J.C. Gossie of Largo, Fla., who three-putted twice in bogeying the last three holes.

Pudgy Jack Nicklaus, the two-time amateur king from Ohio State, had it running strong for him as he started off with three

birdies while playing with Palmer. But then he took the gas pipe and wound up with a 37-35-72 which deadlocked him at even par with Canada's Stan Leonard and a pair of amateurs — Gene Francis, former Purdue player from New York and John Guenther of Reading, Pa.

There were more than a dozen of them still dangerous at 73, including such as Bo Wininger, Al Balding, Don Whit, Paul Harney and Wes Ellis. And at the crowded 74 figure the pack had such as former champion Cary Middlecoff, Doug Sanders of the short backswing and the long threat, and cocky Phil Rodgers, the San Diego redhead who could have been right there except for an eight on the 17th hole—where he took four blows to knock the ball out of a fir tree—to destroy a one under par effort.

It was a heart-breaking first day, one of sudden showers and a record opening day gallery of 17,837 spectators for Slammin' Sammy Sneed. Still optimistic at 50, the sweet swinger who four times has finished second in the only one which has eluded him, took 76 whacks at the ball before he disgustedly called it a day after scatter-gunning his approach shots.

Littler was jubilant after his round, speaking out with an unaccustomed ease and calling the start of his title defense "a real shot in the arm."

"My putting was beautiful," Littler grinned. "And I missed only three fairways on the whole round. If I could only keep that up, I'd surely be happy."

Littler undoubtedly had retained the touch which gave him the \$25,000 first prize in the Thunderbird Open only last Sunday. And it was bad news for his

rivals as the little Californian attempted to join Bobby Jones, Ben Hogan, Ralph Guldahl and ancient Willie Anderson as the only back-to-back Open winners.

Particularly to Palmer, the year's leading money winner who is trying for an unprecedented one-year grand slam with hopes of adding the U.S. and British opens and the PGA to his Masters laurels.

Palmer was moaning about his putting but there was nothing wrong with the way he had rallied on the back nine.

Nicklaus, too, had his troubles. He started with three straight birdies and then began hitting the beach. And when you drop the ball in Oakmont's furrowed traps you're looking for bad trouble. Nicklaus found it.

But today, they all felt, was another day — one after which the field will be cut to the low 50 and ties for Saturday's two final rounds.

Bears Win, 3-1 On Four-Hitter

By United Press International

The Denver Bears took a 3-1 American Association victory over the front-running Indianapolis Indians Thursday night behind the four-hit pitching of Doug Gallagher.

The visiting Bears got all their runs in the third inning off starter and loser Frank Kreutzer, who was relieved by Warren Hacker in the fourth. It was the second win in a row for Gallagher, who was sent down recently from the Detroit Tigers.

In other action, the Omaha Dodgers moved to within two and a half games of first place by edging Dallas-Fort Worth, 3-2; and the Oklahoma City 89ers, battling to climb out of the league cellar, nipped Louisville, 4-3.

The hosting Rangers rallied for two runs in the last frame after going scoreless for eight innings but fell short. Tom McMullin helped teammate Dick Scarborough get the win by smacking a homer in the third. The loss went to Hugh Pepper.

George Brunet had a no-hitter going against the Colonels through eight innings, and hung on to capture the win despite a last minute Louisville rally. In the ninth, the hosts put together an error, two singles and a double for their three runs. The 89ers scored two tallies in the second inning and tagged hurler Chi Chi Olivo with the loss.

In games tonight, the schedule had Omaha at Dallas-Fort Worth; Oklahoma City at Louisville, and Denver at Indianapolis.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to set its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES

By Carrier in Pampa, 50c per week, \$4.50 per 3 months, \$9.00 per 6 months, \$15.00 per year. By mail paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone, \$1.25 per month. Price per single copy 5c daily, 15c Sunday. No mail orders accepted in localities served by carrier. Published daily except Saturday by the Pampa Daily News, Attention at Bonerville, Pampa, Texas. Phone MO 4-4225 all departments. Entered as second class matter under the act of March 3, 1879.

Stocks Explained

In view of the recent tumbling of stock market prices, it seems important that we talk a bit about stocks and what they mean and what they are.

Many, including our President, seem mystified because the stock market went plummeting downward. Actually, a break on the market was predicted for a long time by a number of eminent economists who do not happen to share our government's view that socialism is a desirable good.

And there can be no question at all but what Kennedy's truculent, immature attitude in respect to business triggered the spiral. Mr. Kennedy may never admit it, but nonetheless it is a fact. Virtually single-handed he reduced the dollar value of stock ownership by a sum of nearly \$100 billion.

What is a share of stock? It is a certificate of ownership which attests that the person whose name appears on the certificate owns a small piece (a share) in the business concern which has issued the stock. That is all it is.

A stock certificate is not evidence of debt. The firm which issued the stock is not obligated to "redeem" it in the sense that bonds or mortgages must be redeemed. Rather, it is purchase money, by means of which thousands of ordinary people in every walk of life are permitted to become the owners of America's productive might.

People who own stocks can make profits on their stocks two ways.

They will receive a dividend if the firm, a part of which they own, makes a profit. That is, the firm into which they have bought, earns money, pays its bills, and then divides the residue, after taxes, with the owners. The owners are the stockholders. Thus, the owner of shares of stock may receive a payment in dollars when the firm makes a profit.

Again, a person who buys stock may find that others want the stock even more than he does. If this turns out to be true, the prices for the purchase of stock will rise. They will be bid up by others who failed to buy the stock when it had a low price. Thus, a buyer of stock can purchase a share at, say \$10, and when others have bid up the

price he can sell it for anything anyone else will voluntarily pay. If stocks are purchased at low prices, and if the prices rise, the owner of the stocks can sell out at a higher price.

These are the two normal avenues of revenue in respect to stock. If you own stocks, you can make a profit by holding onto them and receiving dividends. Of course, if the firm which issued the stock does not make a profit, you will not get a dividend. And if the bidders for stock in the market place do not bid up the price of the stock you purchased, then you may not be able to make anything if you sell it.

Can you lose money on stocks? Certainly, you can. If you buy in anticipation of profits, and there are no profits, then you will certainly not make anything. And if the firm which issued the stock goes bankrupt, you, as an owner, will probably not be able to sell your shares to anyone and it will end that you lose all or nearly all of the money you put out in the first place when you bought the stock.

Also, if you buy stock at a high price and then sell your stock when the bidders in the market place will not pay such a high price, you will lose the difference between your purchase price and your selling price.

Those who gamble on the stock market customarily anticipate quick gains, and they try to buy stocks at a low price and hope that others will bid up the prices so that they can sell out at a big increase.

Very few of the gamblers hold stocks in anticipation of earning dividends. They don't want to wait for the firm to conduct its business and to make profits. They simply bet their money that a particular stock will rise in price. If it does, they can make big gains.

Actually, stocks are an excellent investment, when stocks are purchased in anticipation of holding onto them for a return of profits, especially if the firm which issued the stock has a good record of making profits. And a curious fact is that some stocks will show excellent dividend records, even while the market price of stocks is going down.

(continued below)

Reason For Stock Decline

Purchasing a few shares of a stock can be compared in a very real way with the purchase of real estate.

Let us suppose that you want to purchase a home. You shop around and find a house that pleases you. Let us suppose that you buy it and pay cash for it. Now, you own the house.

If there is a shortage of houses, or if a number of other people happen to like the particular house that you bought, it is possible for you to sell it at a price higher than the one you paid.

Many shrewd investors do this very thing. They buy houses which seem to them to be worth more on the market than the seller is asking. Then, having obtained them, they try to sell them at higher figures. Sometimes they buy a house and paint it or do something else to it that they believe will enhance its value.

Many good businessmen buy houses when they appear to be just a bit run-down. They put in a little additional money (which increases the amount of cash paid out) to make the house more attractive, and then they boost the price and possibly manage to sell it to someone for more than their cost, both of the original house and the repairs or improvements.

This is frequently possible because many people do not seem to have imagination. A man may buy a house for \$7,500, spend \$1,000 on improvements, and then sell it for \$10,000 or, maybe, even \$11,000 or \$12,000.

Of course, if a man buys a house for \$7,500, pays \$1,000 for improvements and then finds that even with these improvements he can't sell it for more than \$7,000, he loses money.

It is the same with stocks. It should be noted that when you buy a house, you own the house. Also you may or may not be able to sell it for as much as you paid for it, it is still your house. You are entitled to all the gain that can come to you as a result of your ownership of that house. You can live in it, or you can rent it out to someone and earn the money they will pay you as rent. The house is yours. You are not required to sell it. You may keep it as long as you care to keep it. (We are assuming, of course, that you are in a position to pay your taxes for however long you intend keeping the house.)

You may buy shares of stock in the stock market. Once you have purchased stocks you are not required to sell them. You may keep them as long as you like. Owing them, you are entitled to all the dividends the company which issued the stock originally, is able to pay you during the period of your ownership. You will have to pay taxes on these dividends, but there is no requirement that you sell your stocks.

Many people have the erroneous idea that there is some necessary connection between business production which may make

Those Foolish U.S. Senators —

Quotes From

Christian Economics

BEHOLD YOUR KING!

(Christian Economics)

HOWARD E. KERSHNER, Editor

"Behold Your King!" said Pilate

"But they cried out, Away with Him, away with Him, crucify Him! Pilate saith unto them, Shall I crucify your King? The chief priests answered, We have no king but Caesar." (John 19:15)

History records no greater tragedy than the rejection of Jesus. He Whose Gospel would have redeemed mankind and made a cruel, ugly world kind and beautiful was sent to the Cross by a howling mob urged on by selfish leaders. Pilate did not wish to do it but lacked the courage to act upon his convictions. But our criticism of those who took part in the tragic rejection of the Messiah will be tempered as we realistically face our own reaction to the challenge — "Behold Your King!"

Here and there we see luminous souls who have accepted Him and whose lives are consecrated to the making of the kind of world of which He spoke. Sometimes we reject such people, but often we honor them with lip service while setting them apart from ourselves under the designations of "saints" or "prophets." In answer to the injunction, "... Behold your King!" a majority of the American people acknowledge Him verbally but in practice, with notable exceptions, are shouting, "We

profits, and sale of stock in the market. Some feel that a firm which issues stock will have to take a loss if the market price of that stock is depressed. This is not true.

When the firm sells its stock in the first place, it is paid the price that it sets on the stock. After that, it does not own the stock; the persons who buy it are the owner. If the market price of stock goes down, this does not affect the income of the business firm. It affects the income of the person who owns the stock.

It would be the same with a house. When a person sells a house, he no longer owns it. If the person he sells it to re-sells it at a loss, the original seller does not experience the loss.

Thus, a stock market decline represents exactly the same sort of thing in the overall economy houses might represent. If fewer people want to own stock, sellers will be willing to take less in order to get their cash out of the stock. If fewer people want to own houses, sellers will be willing to take less for their house in order to get their cash out of the house.

But keep in mind that there cannot be a sale of either a house or a share of stock unless a buyer appears who will agree to purchase. The recent decline in the stock market revealed that many people who owned stocks were trying to convert their stock into cash. When many people show up who want to sell, then buyers of stock usually will not pay as much for the stock as they would have been willing to pay otherwise.

That is the reason for the stock market decline.

have no king but Caesar!"

Shirking our responsibility to care for the unfortunate, we have shoved that burden upon the state. Because children do not wish to be bothered with ministering to aged parents, they assign that duty to Caesar. Parents are putting more and more of the expense of raising and educating their children upon the state.

Charity on a person-to-person basis is disappearing as more and more the people turn from personalized, kindly help to the needy, to state-supported relief. The greater part of the whole area of neighborly interest in and care for the unfortunate, the ill and the old has been transferred from individuals and private organizations operating at the local level, to the state and Federal governmental levels. Such work is carried on not by good Samaritans who sympathize with those in need, but by bureaucrats for whom dispensing other people's money becomes a career.

The giver has been separated from the one aided and the spirit of sympathy and kindly helpfulness has disappeared. So has gratitude on the part of the recipient. So far as charity is concerned, we are rejecting our King and in union with the populace of ancient Jerusalem are again shouting, "We have no king but Caesar!"

More and more in the public schools we are rejecting even lip service to our King. In many places His Word cannot be read. His Name mentioned or a prayer offered to Him. We are allowing men to hold public office who deny the existence of God and proclaim themselves as atheists.

Instead of seeking to right wrongs and make improvements by gaining more knowledge, seeking more information and striving more diligently to apply the moral law and the principles of

Christianity, we impatiently turn to the state as if we thought our officials were wiser than God. All the while and more emphatically than we realize, we are saying, "We have no king but Caesar!"

Shirking the responsibility of providing for our own education, employment and retirement, we relegate those responsibilities to Caesar. Because we will not be honest, fair, generous and just in our dealings with our fellows, but for our own enrichment seek to extract from them by ingenious devices as much of their wealth as possible, we are rejecting our King and turning the adjudication of all such matters over to the state. Rather than accept responsibility for self-discipline and fair and honorable treatment of others, we ask the state to arbitrate between us and loudly shout, "We have no king but Caesar!"

By and large we are rejecting voluntary self-discipline and are appealing to the state to decide what is right and to enforce it upon us.

Our pressure groups are now striving to get all they can with the thought that the state and not their own sense of justice and fair play will restrain them from exacting too much from their fellows.

Little thought is given to the hope of redeeming society by greater acceptance of Christianity as we appeal from God to Caesar. We have lost faith in the power of the Christianity which we profess, to solve social, political and economic problems, and impatiently demand laws, bureaucrats and courts to assume full charge.

"We have no king but Caesar!" we shout as we dump all of our problems upon the state, place the Cross upon the shoulder of Jesus Christ and send Him struggling up to Calvary.

It's Up To You

by HOWARD KERSHNER
L. H. D.

South Carolina became the sixth state to approve the Liberty Amendment. This Amendment pending in Congress as H. J. Resolution 23, is composed of four sections.

Section 1 of the Liberty Amendment reads as follows:

"The Government of the United States shall not engage in a business, professional, commercial, financial or industrial enterprise except as specified in the Constitution."

The purpose of this section of the amendment is to get the government out of business, it now and out operates 700 large business corporations and thousands of smaller business activities. These 700 large business corporations are said to have cost the American people \$200 billion and to run at an annual loss running into many billions of dollars. By selling them back to individual owners, large sums could be acquired to be used in reducing the national debt and billions can be saved every year when the operating losses are stopped.

Section 2 reads:

"The constitution or laws of any State, or the laws of the United States shall not be subject to the terms of any foreign or domestic agreement which would abrogate this amendment."

The purpose of this section is to make it impossible to nullify any state or Federal law by ratification of any agreement drawn up by U.N. or its subsidiary agencies. As the matter stands now, if our Senate ratifies such an agreement and if it happens to conflict with any of our state or Federal laws, the latter are nullified and the U.N. agreement supersedes them as a part of the fundamental law of the land. The Liberty Amendment would stop this and make it impossible to nullify any American law through the medium of ratification of any U.N. agreement.

Section 3 of the Liberty Amendment reads as follows:

"The activities of the United States Government which violate the intent and purposes of this amendment shall, within a period of three years from the date of the ratification of this amendment, be liquidated and the properties and facilities affected shall be sold."

This section provides for the sale of government-owned property and would remove the government from the operation of industrial activity.

Section 4 reads:

"Three years after the ratification of this amendment the sixteenth article of amendments to the Constitution of the United States shall stand repealed and levy taxes on personal incomes, estates, and-or gifts."

The purpose of this section is to repeal the amendment to the Constitution authorizing or making possible the individual income tax. It would not touch the corporate income tax or other forms of taxation, but would do away with the progressive, individual income tax. This would force our government to be more economical and more circumspect in its spending. No other way has been found to enforce economy on the Federal government.

Those who want to know more about the Liberty Amendment and how to help secure its adoption may get in touch with the National Committee for Economic Freedom, 6413 Franklin Avenue, Los Angeles 28, California.

The Almanac

By United Press International

Today is Friday, June 15, the 166th day of the year with 199 to follow.

The moon is approaching its full phase. The morning stars are Jupiter, Mars and Saturn.

The evening star is Venus.

On this day in history: In 1215, King John of England set his seal on the Magna Carta. In 1752, Benjamin Franklin and his son demonstrated the relationship between electricity and lightning with a kite and an iron key. In 1922, the Permanent Court of International Justice opened its first session at The Hague in the Netherlands.

A thought for the day: The Spanish author, Miguel Cervantes said: "The lance has never blunted the pen, nor the pen the lance."

Pegler Says:

Don't Sell Jack Cox Short, Come November

By WESTBROOK PEGLER

Tracy Byers is the editor of Billie Sol Estes' daily News in Pecos, Tex., the fifth editor the paper has had in its life of about ten months. He has taken me to task for my dispatches from Pecos. I deal with this because he goes to the jugular when he says "For his enemies in the John Birch Society and the Pecos Independent (the rival paper) which boasted that it set off the case that may ruin many people here, Estes was automatically guilty." This is clumsy going, to be sure, but the editor's very own.

That mention of the John Birch Society refers to a bitter political feud which now runs all across Texas. The conservatives, even conservative Democrats, have been called Nazis and Ku Kluxers. "Groups" using the word "Christian" in their titles are accused of anti-Semitism. Estes' own religious sect is called The Church of Christ, but Billie Sol is a radical Democrat who believes the Common Man lacks the intelligence to manage his affairs. The

Pull Up A Chair

By Neal O'Hara

A new type of shopper's cart for supermarkets is equipped with a loud speaker which softly plays music and announcements of store bargains. But if a shopper moves the cart outside the store area, a radio beam is broken, setting off a foghorn alarm. Automation on the vine: A self-propelled tomato-harvesting machine requiring one operator and 14 sorters can do as much work as 60 men picking by hand.

Human nature note in the Pittsburgh Post-Gazette: "Such males often prefer this peacock existence as they absorb the admiring 'Oh's' and 'Ah's' of eligible girls than to get into harness as a stable martial workhorse." It adds to the family budget, but a new boon to the young mother is a disposable baby bottle. It's pre-sterilized, no vacuum can form in the soft bottle; so baby swallows less air, and it reduces spitting and colic.

Today's favorite gag: A wealthy sportsman was showing off the trophies he had brought from Africa. Pointing to a tiger-skin rug, he told his guests in hushed tones, "When this beast charged, it was a case of him or me." One guest peered at the tiger skin, then at the host, and said, "Well, he sure does make a better rug." The first of deluxe country club in the U. S. was the snooty layout at stuffy Tuxedo Park, N. Y., completed in 1885. It had 100 bedrooms, but only one private bath.

Modern merchandising: To step up its prescription trade, one pharmacy bought 150 mousetraps, attached shipping tags and mailed them to physicians in its area. The tag read: "We haven't developed a better mousetrap, but we have the best prescription service in town." Observes a philosopher: "The wife who drives from the back seat is no worse than the husband who cooks from the dining room table."

Thoughts while shaving: 1. As a non-athlete we just can't understand how a major league baseball player will take any chance of NOT tagging each base as he gallops around on an extra-base hit. That, to our mind, is the dumbest of all baseball "rocks."

2. It was a royal idiosyncrasy, of course, but when King George VI, Queen Elizabeth's father, sat in the orchestra of any London theatre, the four or five seats immediately behind him were always vacant. The king simply didn't like to have anyone breathing or coughing down the back of his neck.

3. We like this observation in the Salem (Ind.) Democrat: "The word 'ain't' has been declared acceptable, and we candidates for office must develop something else to show that no one is more ordinary than we are." 4. The term "hanky-panky," as employed today usually means trickery, deception or monkey business. Originally, however, "hanky-panky" meant the chatter of magicians or conjurers to divert attention from their tricks.

Country editor speaking: "Middle age is when you stop growing on top and start growing in the middle."

John Birch Society, on the contrary, wants the Government to take its cottonpicking fingers out of people's pockets and let them fend for themselves. This is a Western movement although Robert Welch, the president of the John Birch Society, is a Boston man.

One of the leading citizens of Pecos, a declared member of John Birch, told me that the hatred is terrible. He said some of his friends and customers had received signed written warnings to steer clear of him. Otherwise they might lose their pension rights and their jobs. Marj Carpenter, who is most of the staff of the Pecos Independent and a conservative Democrat, verified this. I said, "Isn't that actionable?" She said, "A lot of things that are actionable happen around here."

Mr. Byers, the editor, accused me of harboring an ulcer. This is wanton scurrility. I was cured by the late great Dr. Sara Jordan at New England Baptist Hospital years ago. However, Oscar Griffin, the editor who broke the Billie Sol story in the Independent, flouted this condition in a sign on the counter of the Independent reading "Ulcer Department." He has now gone to a new job in Houston. His expose probably has doomed many windshield farmers to bankruptcy, but I do not suggest that he ran away. It was just time for a bright young man to pursue his career.

An official of a bank in Pecos told an out-of-town reporter who was about a month late getting onto the story, that Pegler came in with some scandalous rumors and went away and wrote them. Actually, I was the first reporter to come in from outside Texas. I spent five days in Pecos and the most scandalous incident that I heard was related with glee in the presence of this banker by one of the most powerful citizens of the high plains.

I had heard that Mr. Estes had settled \$20,000 on a woman employee.

The powerful citizen replied that he had started the rumor himself in retaliation for rumors which Estes had circulated about his business. He pondered how to get back at Estes and one day when a mutual friend came into his place he casually asked: "Hey, do you hear anything about Billie Sol and some woman?" He said, "I did not make any statement, I just asked a question. But in a few days that rumor came back to me from 14 different people. Billie Sol shut up about me after that."

The prominent citizen said all this in the presence of the banker, who accused me of writing "rumors."

The Estes case was not an issue in the recent campaign because it started with a slow fuse on March 28 and the vote was on May 5. Nevertheless the Conservative, or Goldwater, Democrats tightened their hold on the Democratic Party to the extent of beating "liberal" Democrats for the four big offices including that of Governor Jack Cox, the Republican candidate for Governor against John B. Connally, Jr., the conservative Democrat, might draw enough clandestine Republican votes from the Conservative Democratic fold to beat Connally in the general election.

Fact

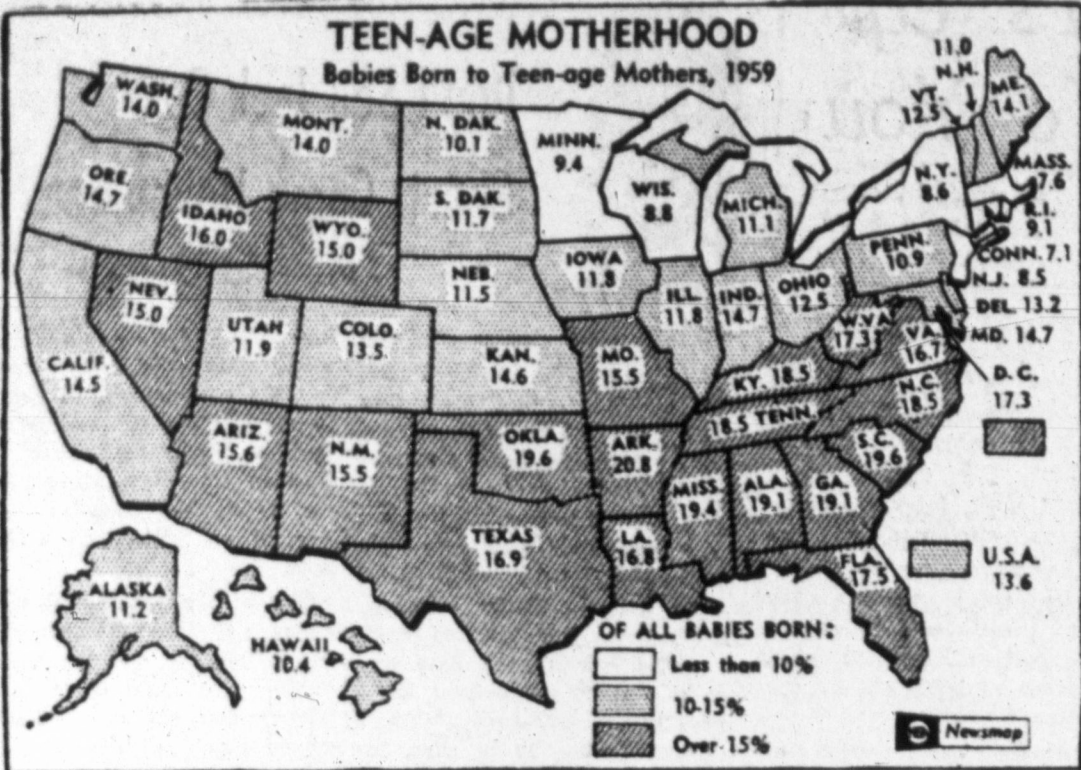

Women who are really concerned about finding the right detergent to do their wash are not just victims of soap commercials. Research has shown that bacteria can remain in cotton sheeting, wool blanketing and acetate tricot after laundering in sufficient numbers to be potential health hazards. Experts recommend using disinfectants to destroy germs.

TEEN-AGE MOTHERS—The old saw about mother looking young enough to be her daughter's sister is becoming increasingly appropriate, with the increase of births to teen-age mothers, a trend which bids to continue with today's earlier marriages. Chart shows percentages of babies born to teen-age mothers in 1959 by states. While only 3 per cent of the babies born in 1959 had teen-age fathers, 14 per cent were born to teen-age mothers. More than 4 per cent—185,000 babies—were born to mothers under 18 years of age. Data for Newschart as compiled by the Population Reference Bureau.

You Can Help Your Child When He Fails His Grade

By DAVID NYDICK
UPI Education Specialist
You, Your Child and School
At this time of year some parents are faced with the possibility of their child's retention (non-promotion). Let's look at this realistically. What is to be gained? Is it a disgrace? How can we help?

Most available research indicates that, on the average, students do not benefit from retention. However, an average means that some do benefit while others do not. By carefully analyzing the total picture of the child... academic progress, social and emotional adjustment, age, size, playmates... a relatively accurate prediction can be made. Look carefully at the reasons for the child's failure to meet the school standards. Does he have a physical defect... hearing, sight? The causes can give a good indication as to whether or not retention will be helpful.

Do not look for a hasty decision. Consider all aspects in relation to your child. However, if retention is deemed the answer, you can do a great deal to help the situation. Show your child that his placement has caused him to have difficulties. Now he will have a fair chance to accomplish his work satisfactorily. Do not show despair and disappointment. You cannot hide his failure but you can help him to understand what is happening. Encouragement and confidence on your part will be extremely important. A well thought out retention can, logically, be helpful in many areas of your child's development. It is difficult for parents to accept retention, but a clear analysis of the situation will help you to understand how you can be of assistance.

Question:
My third grader has been ill and missed fifty - two days of school. He is having problems with reading and arithmetic. Should I ask the school to retain him so that he won't move on with wide gaps in his basic knowledge?

Answer:
Based upon your outline, this third grader's problems began with his absences and are limited to the academic areas. I would recommend investigating the possibility of tutoring or other type of extra help. Retention would remove him from his proper social placement. This could lead to other serious implications. Discuss the matter with the school principal who can relate the problem to his school program.

Question:
My tenth grader has had increasing difficulty with his work during the past year. His study habits are becoming worse and he is thinking about leaving school. How can I help encourage him to complete his education?

Answer:
Your son is developing a serious problem. Do not waste time looking for a simple solution but make immediate contact with the school guidance counselor. Your son needs assistance in solving his problems which naturally will affect his future. You state that his problems have been a recent development which indicates that they can be solved if quickly and properly approached.

Wall Street In Review

NEW YORK (UPI) — Abraham & Co says after a jolt such as we have just experienced, and with growing uncertainty as to the course of business, it would be unreasonable to look for the stock market "just to stabilize and recover."

Even though some good values are appearing, many issues are still not cheap on traditional valuation procedures, it notes. "An erratic market would thus appear more likely for the near future, and unless assurances emanating from Washington are followed by concrete and constructive actions, still lower prices may well be witnessed."

Kenneth Ward of Hayden, Stone & Co. says the best policy to follow in the present "confusing, nervous and pessimistic market trend" is to switch out of stocks that have doubtful prospects and use periods of weakness to buy issues that seem to have reached a deeply over-sold area and seem to represent good values at currently depressed price levels.

Martin Gilbrt of Van Alstyne Noel & Co. says it is possible that some future churning may be necessary before the list establishes a recovery trend. Meanwhile, he adds, there are many stocks which have good earnings prospects and now provide liberal yields, which are worthy of purchase. This should help steady the market in the interim, he believes.

L. O. Hooper, of W. E. Hutton & Co. says even if the "climax low" of May 28 are violated, this is unlikely to happen for some weeks or months. On the basis of past experience, he says it seems reasonable to assume the list will "fuss around 600 (D-JIA) for awhile before it has a substantial contra-trend rise."

Cowboy Reunion Set At Stamford

STAMFORD, Tex. (SPL) — Scandalous John Selmon, Stamford, cowhand arena director of the Texas Cowboy Reunion for over 30 years, today announced a special lot of bulls and wild stock for the July 2-3 & 4 Cowboy Reunion in Stamford.

"For several years," said Scandalous John, "we have leased wild stock from Adrian Parker of St. Joe, Texas — and this year he has promised us a very special remuda — with a lotta broncs that never been rode — on a lotta good cowhands can share out on gettin' through."

The Cowboy Reunion is very careful to see that only actual cowboys off the range take part — and professional riders are barred. Thus the Cowboy Reunion in Stamford is the largest true cowboy show in the world and over 400 cowhands are expected to compete in Stamford July 2-3 & 4.

President Gene Swenson of the Texas Cowboy Reunion has announced a special horseshoeing contest for the Reunion July 2-3-4. Swenson said "There are thousands of young folks and newcomers to Texas who have never seen a cowboy show. Therefore we intend to have area blacksmiths who are interested stage a contest as to who can quickest and best shoe a cowpony. This will be hard work just as it was in the century past."

Swenson further said "This year we hope to have the biggest and fastest show in the 33 year history of the Cowboy Reunion — mark July 2-3 & 4 on your calendar as the time to show your folks how real cowhands work."

VULGAR, NOT OBSCENE
EASTBOURNE, England (UPI) — Members of the National British Women's Total Abstinence Union complained to town officials that postcards sold here were "vulgar, smutty and obscene."

City fathers studied the postcards and ruled the postcards "vulgar but not obscene."

The Lighter Side On The Nose Of Humans

By DICK WEST
United Press International
WASHINGTON (UPI) — In this day and age, you rarely run across anyone who has anything good to say about the human nose.

By and large, we have come to regard the nose as an unlovely instrument, mostly large.

Furthermore, the word "smell" has for most of us an unpleasant connotation.

This is what makes Dr. James W. Johnston, associate professor of physiology at the Georgetown University School of Medicine, such an unusual man.

For the past several years, Dr. Johnston has been making a study of the human sense of smell, and he is pro-nose all the way.

Any disparagement of the olfactory organ is to Dr. Johnston deplorable, for he is convinced that the nose is a wonderful piece of machinery.

I had a nasal type chat with the good doctor at the opening of an exhibit set up here by Schenley Industries. The exhibit is called "Scent-A-Rama," otherwise known as the "whiffsky test."

The purpose of the demonstration is to show how aging improves the smell of whisky, and how the smell, in turn, improves the taste. Somehow I got the impression that Schenley is in the whisky business.

—Finland was a province of Sweden for nearly 500 years before

process on whisky is not as important as the effect of whisky on the aging process of whisky drinkers. But we needn't get into that. Back to Dr. Johnston.

He and I fell into a discussion as to why smelling is less popular than the other four senses. Dr. Johnston said it was because most people don't smell well.

It is wrong, however, to hold the nose responsible for this. We have only ourselves to blame.

According to Dr. Johnston, the olfactory organ actually is more sensitive than the human eye. If it seems dull and lifeless, it is because we abuse and neglect it.

We constantly exercise our sight, hearing, touch and taste, while letting our sense of smell go to pot. Many of us hasten its decline by using our noses as smokestacks.

Under such conditions the nose brings us little pleasure. We tend to regard it as merely a pedestal for sunglasses, except when we have a bad cold. Then we criticize it for dripping so much.

But when properly developed, the sense of smell is a thing of beauty and a joy forever.

Mine is a bit clogged at the moment, but as soon as the sinus passages drain I intend to start a campaign to rehabilitate the nose and restore its good name. Dr. Johnston has convinced me that smelling can be fun.

Cowboy Reunion Set At Stamford

STAMFORD, Tex. (SPL) — Scandalous John Selmon, Stamford, cowhand arena director of the Texas Cowboy Reunion for over 30 years, today announced a special lot of bulls and wild stock for the July 2-3 & 4 Cowboy Reunion in Stamford.

South Is Benefiting From Space Race

WASHINGTON (UPI) — Forty-one cents of every dollar the United States spends next year in its effort to beat Russia in the space race will be spent in the South.

No other section of the country will benefit more on a dollar and cents basis from the multi-billion dollar space program.

And only one state — California — ranks ahead of the South's three space giants — Florida, Louisiana, and Alabama — in the Southern states will not share in construction, research and development, and salaries.

Only South Carolina among the amount of money to be spent on the bounty.

The estimated distribution of National Aeronautics and Space Administration funds for fiscal 1963 shows a blank for South Carolina as well as Idaho, Kansas, Maine, Nebraska, Nevada, North Dakota, South Dakota, Vermont and Wyoming.

NASA expects to spend \$3,787,176,000 during fiscal 1963, of which \$1,563,824,000 will be spent in nine Southern states.

California with the test site at

Vandenberg AFB and its numerous space-age industries will be the recipient of an estimated \$947,767,000 next year.

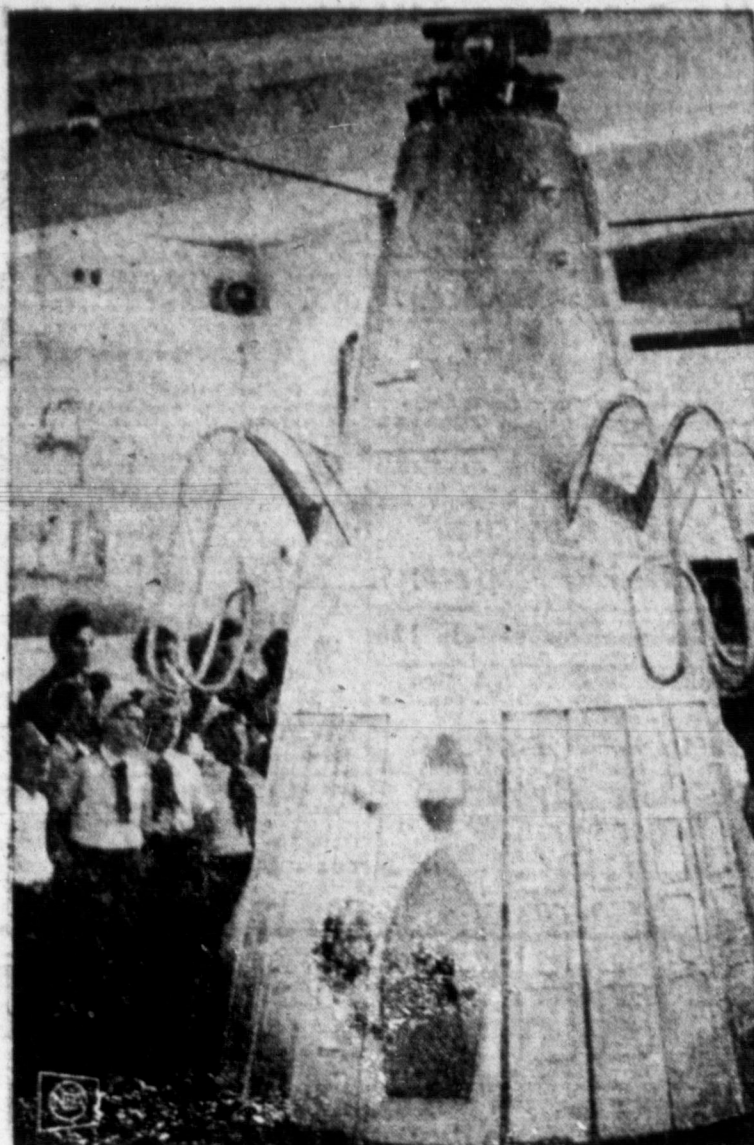

Next on the list is Florida, down for \$543,262,000, which includes construction funds for launching sites for the moon-bound Saturn rockets.

For the third straight year, Florida will receive the biggest amount for construction, a record \$361,963,000.

Louisiana, a late-comer to the space age, ranks third nationally. The bayou state will get \$395,352,000, compared to about \$48 million in 1962 and only \$88,000 in 1961.

Alabama — site of the Huntsville laboratories — ranks fourth with an outlay of \$341,935,000 — Alabama will again lead the country in the amount spent on salaries with a record \$70,370,000.

Virginia ranks sixth with \$171,436,000; Mississippi, which will get about \$95 million in fiscal 1963, did not get any money only two years ago. Other Southern states include Georgia, \$9,989,000; North Carolina, \$3,941,000; Tennessee, \$3,149,000; and Arkansas, \$80,000.

LITTLE COSMONAUTS—Like their counterparts in other lands, these Moscow youngsters are space-age enthusiasts. Here, at the Moscow Planetarium, Russian boys and girls examine an impressive Soviet satellite similar to Sputnik III.

Light Industry Picture Brightens

By JESSE BOGUE
UPI Financial Editor

NEW YORK (UPI)—With what has been going on in Wall Street, a cheerful story is welcome and Henry Kimelman, commissioner of the Virgin Islands, says he has one.

He said the picture for light industry is looking up today in the three islets that lie between the Caribbean and the Atlantic, a U.S. territory where progress, Kimelman said, is watched closely by South American countries.

On a visit here, Kimelman cited some figures to show that the islands, where an effort is being made to attract industry with such helps as tax aids and an available labor force, are making an impression as a site for plants employing up to 60 or 70 persons. Some businesses use more, depending on the technicians who may be brought in to direct operations.

"We have 15 new industries this year," he said, "more than in the last 10 years. Government revenues in one month this year — January — from the Virgin Islands were higher than in all of 1952."

Employment practices of recently arrived industries, Kimelman said, have been something of an innovation in the Caribbean area. Many of them employ women, in jobs similar to those held by female factory employees in the U. S.

He said that the labor cost in the islands was estimated at 2-3 of what it is in the U. S.

A shortage of fresh water often has retarded development in the islands, but there has been some recent successful drilling of artesian wells, and a desalination plant, to convert sea water into water suitable for industrial use, has been constructed.

Houston Is Planning Astronaut Welcome

HOUSTON (UPI)—An old-fashioned Fourth of July parade is being planned to officially welcome the nation's seven astronauts and other members of the space program to their new home.

The astronauts are currently in the process of settling in Houston, site of the manned spacecraft center from which their future flights will be directed.

Printed music originated soon after the invention of typography, according to the Encyclopedia Britannica.

Waxahachie Wants A Station In Space

WAXAHACHIE, Tex. (UPI) — Chamber of Commerce officials said Thursday they are going to file a request with the Federal Aeronautics and Space Administration for an outer space station to be named after Waxahachie.

A spokesman for the chamber said the purpose of the station would be to acquaint space travelers with the city of Waxahachie.

The one drawback to the plan, the spokesman said, was that future space men may have the same trouble that has faced Texans for years — how to spell and pronounce Waxahachie.

The request has already been endorsed by the city council.

Quotes In News

By United Press International

BERLIN—An 18-year-old girl, one of several East German refugees threatened by the Communists since her escape from East Berlin:

"I can't go out or anything. Perhaps a car will come along and I'll be shot. Perhaps I'll be kidnaped."

BILOXI, Miss. — Gov. Ross Barnett, explaining a raid on Mississippi's Gulf Coast resort strip where prohibition has been openly ignored for decades:

"I gave them an ultimatum in February. And I mean business

when I talk. They are going to comply with what I say and I don't want any pussy-footing."

ALGIERS — A Secret Army Organization (OAS) broadcast, reacting to Moslem refusal to yield to OAS pressures:

"If we obtain nothing, we will continue scorching the earth. We will have all Europeans leaving for France and continue the real revolution there. Unless we get the guarantees we are asking we will burn all the oil and gas wells, mines and dams and destroy all the gas and electricity plants."
