RE-ELECT GRADY HAZLEWOOD DEMOCRAT FOR STATE SENATOR

If You Are Interested In Good Government . . .

# ... WILL YOUR VOTE COUNT?

The coming election-May 5th-is of vital importance to those of us who believe in CONSERVATIVE GOVERNMENT. We must vote in the Democratic Primary so we can be sure of nominating the CON-SERVATIVE CANDIDATES, in all races.

Unless we do so, we will forfeit our right to make a selection in a number of contests - both local and statewide - because in many races there are no Republicans for whom we can vote.

Remember, everyone interested in Good Government -regardless of party affiliation-can and should vote In the Democratic Primary to assure the selection of CONSERVATIVE CANDIDATES in all races. Then, in the General Election in the fall, your vote can be cast for any candidate-Republican or Democrat-in any race.

is smart enough to know that people are more interested, in most cases, in the story than the reporter who writes it. He did not overexpose Adams or Miss Blyth, but had the various personal dramas woven into the one major plot. One of his excellent character actors was Russell Thorson, who plays an aging, over-the-hill rewriteman who freezes at his typewriter under deadline pressure in a truly tearful, pathetic

scene. I never liked Adams in "The Rebel" series. He seemed out of his milieu in 19th century garb. But he was at home Tuesday night as an ambitious big town boy. At times, his combined cockiness and sensitivity brought back memories of the late John Garfield, and that isn't bad.

Burt Brinckerhoff was his usual topflight self as the student, as were Carolyn Kearney as the girl and Robert Simon as an assistant city editor. Miss Blyth was a little hard to swallow as a Washington correspondent, even though she wore a trenchcoat.

Everyone has seen a silhouette, a profile portrait cut out of black paper. But who knows how the term came to be applied to this type of art? The word was taken from the name of Etienne de Silhouette, the parsimonious finance minister of France in the middle of the 18th century. It was his hobby to cut out such portraits. The phrase, "a la Silhouette," originally meant "on the cheap."
