

BRITAIN BROADENS SEA ACTION AGAINST NAZIS

Carter Glass Favors Either Garner Or Byrd For The Presidency

WASHINGTON, Nov. 21 (AP)—Senator Carter Glass disclosed today that he has two choices for the 1940 democratic presidential nomination—Vice President Garner and Senator Byrd (D-Va.).

"I know of no man better qualified for the presidency than John Garner or Harry Byrd," Glass told reporters.

The 81-year-old Virginian declined to discuss his views regarding a third term for President Roosevelt. Although Glass generally has been understood to oppose a third term, his friends reported that he did not wish to say anything which might create party friction.

It was said authoritatively, however, that the senator would work to have the Virginia delegation to the democratic convention instructed for Byrd but that Glass would support Garner if Byrd were unable to obtain the presidential nomination.

Garner's associates here predicted today that the vice president would make a comprehensive statement of his views on national problems early next year. They said he probably would emphasize the desirability of ending federal deficits, but might uphold accomplishments of the Roosevelt administration in general terms.

Campaign managers for the vice president are planning to make an aggressive drive for delegates in the state primaries next spring. Some of them were said authoritatively to have convinced Garner that he should make known his views before the primaries in order that voters might have a clear understanding of his position.

Glass, discussing democratic prospects for 1940, said that if the party is to win, the administration "ought to stop spending more money than it collects."

Receiving reporters in his hotel apartment, he asserted that he would make a battle for reduced federal spending at the next session if there appeared to be any prospect of success.

"But I'm too old to devote a lot of energy to a futile fight," he declared.

New Pipeline Planned Into Cosden Refinery

Company Is Organized To Build Connection With Wasson Pool

A new source of crude supply for Big Spring's Cosden refinery and a new outlet for production in the Wasson pool of northern Gaines county was said Tuesday, when press dispatches from Fort Worth announced plans for construction of a six-inch pipeline from the Wasson area to the Cosden plant here. The project is announced as a \$500,000 job, including line and pumping stations.

The Fort Worth dispatch said that Claude L. McIver of that city, at one time associated with independent pipe line companies in East Texas, negotiated the contracts. Organization of a company to build and operate the pipeline is underway at the present time, and is expected to be completed this week.

Contracts have been signed with the Texas Pacific Coal and Oil Company, Continental Oil Company, the Honolulu Oil Company, and Amos Carter for the allowable production from a minimum of 10 wells each of the contracting producing companies.

The Cosden Petroleum Corporation has contracted to purchase the oil for five years, said Henry Zweifel, president, and will pay the posted price plus 12 1/2 cents a barrel to the carrier. The Cosden Company expects to be assured of a daily delivery of 5,000 barrels, which will supplement runs from the Howard-Glassecock pools from which the company chiefly draws its present supply of crude oil.

Cosden repeatedly has announced difficulty in getting sufficient crude to meet its market demand. The pipeline company is contracted to begin purchasing oil on Jan. 15, 1940. One or more 55,000 barrel tanks and a gathering system will be built in the field as protection against delay in completing the carrier.

It was considered possible that lateral carriers may be built later to the Seminole and Cedar Lake areas of Gaines County.

To Be Neutral At Army-Navy Game

WASHINGTON, Nov. 21 (AP)—President Roosevelt, determined to maintain neutrality at the Army-Navy football game December 2 in Philadelphia, let it be known today that he would sit with the Army during the first half of the contest and with the Navy during the second.

Gandhi Wants Independence For India

That Would Be His Price For Aid To Britain In War

BOMBAY, Nov. 22 (AP)—Mohandas K. Gandhi, demanding a pledge of India's independence as the price of cooperation in the European war, declared today, "the issue is purely moral, for owing to her material and military control, Britain is able to regulate garrisons and drain India's wealth at will."

New Rioting
The wily, 70-year-old Indian nationalist leader met at Allahabad with a committee of the congress party (nationalists) seeking to influence the country's attitude toward the war.

Complicating the situation is the ever-present strife between Hindus and Moslems, which resulted in 12 deaths yesterday in rioting at Sukkur.

Eleven persons were killed there Sunday.

The Moslem league, second largest political party in India, has endorsed the British white paper of Oct. 17, deferring discussion of India's status until after the war.

Gandhi, revered by millions of Indians, found the British statement unacceptable and demanded "a declaration to free India from bondage."

India was committed officially in mid-September to fight on Britain's side against Germany, and Gandhi and his associates have criticized the Nazis. Gandhi asserts, however, "eight provinces out of 11 have said in emphatic language that they cannot participate in the war if it does not mean, among other things, India's complete freedom."

Only Gandhi himself could say to what extent his party might implement its dissent, and he indicated that specific conclusions on this point had not been reached.

A clue was seen in his newspaper, which observed, "inaction is often the most effective action in the strategy of war."

Bishop Given Life Sentence

B. B. Bishop, alias Buster Bishop, was assessed a life sentence Monday afternoon, after a 70th district court jury returned a verdict of guilty on a charge of theft of copper wire. The jury was out only a few minutes.

Bishop's life term came under the habitual criminal act, the theft indictment being prepared under that statute. He had been convicted earlier on several indictments in other counties.

Bishop was tried on one of two indictments against him here, the other charging theft of riding clothes from the Hardy Morgan ranch southeast of Big Spring. Testimony was heard Monday in connection with the theft of several hundred feet of copper wire from the Continental Oil company lease in the Howard-Glassecock field a month ago.

Before the court Tuesday was the case of Herman Davis, charged with assault with intent to murder in connection with an altercation with Bill Fensch, who suffered knife wounds. Both the complaining witness and the defendant testified during the morning, Davis contending he acted in self-defense.

WASHINGTON, Nov. 21 (AP)—President and Mrs. Roosevelt left by train today for Warm Springs, Ga., where they will have their traditional Thanksgiving celebration.

Lower Relief Costs Would Offset Bigger Defense Items In Budget

WASHINGTON, Nov. 21 (AP)—A 1941 budget designed to cut the federal deficit for the year to around \$2,500,000,000, by offsetting higher defense costs with lower relief and other expenditures and increased tax revenues was authoritatively reported today to be under consideration at the White House.

Although official figures could not be obtained—some of them have not been decided yet—Stephen Early, White House secretary, said estimates about a sharply reduced deficit were "pretty close."

Harold D. Smith, budget director, also said that "cuts are being made on some items."

From these hints, authorities deduced the following rough estimates of what President Roosevelt might recommend in his annual budget message to congress in January for

Ranch Near Big Spring Figures In Fantastic 'Gold Brick' Swindle

Small Fortune In Silver Held By Federal Men; Hi-Jacking, 'Con' Activities Enter Into Story

PORT SUMNER, N. M., Nov. 21 (AP)—A small fortune in bright bricks in silver was in government custody today, the outgrowth of what an agent of the secret service pronounced an attempted "gold bricks" swindle of a wealthy Texas banker.

The silver was dug up some weeks ago by a ranch hand and uncovered a fabulous yarn of buried treasure, ancient "maps" from Mexico, "hi-jacking" and high-pressure confidence work.

Emmett B. Hargett, agent of the secret service in Albuquerque, said the gold brick swindle allegedly had already mulcted a West Texas banker and others of amounts thought to approach \$300,000.

The silver bricks, 33 of them valued around \$4,500, were held by the U. S. customs in El Paso as federal agencies considered what steps to take. No charges have been made, Hargett said, withholding names of those involved.

Hargett said the silver hoard was uncovered by E. E. (Tex) Ferguson, who related he overheard a conversation revealing it had been "planted" on a ranch near Big Spring, Texas. Ferguson rebuffed it on a ranch here, then brought the secret service down on him when he attempted to sell a dozen bricks through a bank in Lindsey, Okla.

Hargett quoted him saying that two men, whose names were withheld, had used old Mexican "treasure maps" to induce victims to invest in a project to find "gold bricks" buried long ago.

Other meal bricks were found in Texas, Hargett said, but they proved to be bronze. When a load of the bogus treasure trove was accumulated for the victims, it was put into a truck and started for Houston—a destination never reached because of a mysterious "hi-jacking" in which the "treasure" was stolen.

Secret service agents refused to comment on the case, but indicated the silver episode in the alleged swindle thriller was either a "come on" to obtain new funds, or a method of assuaging the feelings of those allegedly swindled.

It was also understood the treasury department and the state of Texas were looking into the case, although what action was contemplated was not disclosed.

Meanwhile Ferguson, Hargett said, maintained his right to the genuine silver bars by right of recovery and digging them up.

The gold brick swindle, various border authorities have recently disclosed, has been well established along the Mexican border and has increased in popularity with confidence men since revaluation of the currency increased gold prices. Mysterious buried gold in Mexico—"Yaqui gold"—customarily is the kernel of the schemes.

May Soon Announce Disapproval Of Ship Transfer

WASHINGTON, Nov. 21 (AP)—The maritime commission, it was indicated at the White House today, soon may announce its disapproval of an application by the United States Lines for permission to transfer eight American flag ships to the Panama flag so they could continue voyaging into the European war zone.

S'phen Early, President Roosevelt's press secretary, said that the door to the transfer was "about all but closed."

"The president, very naturally, doesn't think it's right to put any other American nation in a position which the United States is unwilling to assume," Early explained.

PHILADELPHIA, Nov. 21 (AP)—Robert von Moschizker, chief justice of the Pennsylvania supreme court from 1921 to 1930, died early today.

Blond Slayer Is Under Bond

DALLAS, Nov. 21 (AP)—Blond 26-year-old Corinne Maddox, whose blazing guns brought death to Brooks C. Coffman, 40-year-old criminal lawyer, was free under \$7,500 bond today as a grand jury prepared to investigate charges that she murdered the man she claimed attacked her with an ice pick.

The lawyer, who was facing trial on a charge of assault to murder in connection with the stabbing which the girl said he administered when she refused to accompany him to California, fell amid a fusillade of bullets on busy Main street here yesterday.

U. S. Will Not Permit Trade Interference

Official Speaks When Plan Revealed To Check Exports

WASHINGTON, Nov. 21 (AP)—Sumner Welles, acting secretary of state, said today the United States had advised Great Britain that it was not to be understood as endorsing any principle of interference with its neutral trade.

Check Of Exports
Welles made the statement shortly after the British embassy had disclosed that effective December 1 the British would start a pre-selling system of investigating American exports to 10 European neutral nations.

Apparently the notice to Britain that this country was reserving its full rights under international law to genuinely neutral trade was given when the export checking plan was discussed, but Welles did not make clear in what way it applied, or what eventualities it might cover.

The acting secretary told his press conference the state department had informed Britain that this country naturally reserved all its rights and the rights of its citizens under international law.

In response to questions, Welles told reporters the projected commercial passport system did not appear to interfere at present with this country's rights as a neutral.

If American exporters have complaints against the system, Welles said, these will be considered individually by the department. He emphasized this government is not officially involved in the plan, and that its operation is a matter between American exporters and the British government.

The British government said that system was designed to expedite movement of American commerce to European neutrals.

The announcement was made here by the British embassy which See U. S. TRADE, Page 7, Col. 5

Trade Policy Splits Parties

WASHINGTON, Nov. 21 (AP)—The tariff promises to climb back upon the fence dividing the two parties in 1940 and sit there among the important issues pre-empted much as it did for over a century before reciprocal trade agreements shoved it off.

And, just as of old, not all Democrats will agree with the Democratic stand; some Republicans will back away from the Republican position.

A dispute in congress will intensify. The authority by which Secretary Hull has been making trade agreements expires next year. If the policy is to continue and new agreements are to be made with more foreign nations, a bill extending those powers must be enacted.

Some Democrats have argued that the best policy would be for the administration to allow this proposal to be set aside, along with taxes, until after the election, thereby helping to limit the field of dispute in the next campaign.

If this were done, the power to make new agreements would simply lapse. The agreements now in effect would continue. The issue could be raised in congress again in 1941.

Yet it is doubtful that Secretary Hull would allow his pet economic theory to be shut up in a congressional closet for a year.

Beyond this, the Republicans are anxious to air the issue. Some of the country's most powerful high pressure organizations, operating in both farm and industrial fields, are walloping the trade agreements policy.

SUSPECT HELD IN MUNICH BLAST

BERLIN, Nov. 21 (AP)—Heinrich Himmler, chief of the Gestapo—secret police—announced today the arrest of a man in connection with the attempted bomb assassination of Adolf Hitler Nov. 8 in Munich.

Himmler said the man, Georg Elser, 34, of Munich, confessed Nov. 14 after "steadiest denials."

MOVE IN RETALIATION FOR 'BRUTALITY OF GERMAN METHODS'

Decision To Seize Exports On Seas Means Concentration On Neutral Shipping; Other Losses Reported

LONDON, Nov. 21 (AP)—Unrestricted sea blockade of Germany was proclaimed today by Britain in "retaliation" for mine warfare which counted the 11,930-ton Japanese passenger liner Terukuni Maru as its newest victim.

A mine-sweeping trawler of the British navy and two other trawlers also were added to the mounting list of maritime losses today.

Prime Minister Chamberlain announced an order in council would be issued directing seizure of all exports of German origin or ownership on the high seas, regardless of whether they are being transported under neutral flags. The measure is designed to throttle German trade by which she could build up currency reserves abroad for purchase of war supplies abroad.

The Japanese liner was believed to have struck a mine such as Britain has blamed for the sinking of nine out of ten ships lost off the English coast last weekend. The liner's 180 passengers and crew were saved.

The mine-sweeping trawler Mastiff was sunk by a mine yesterday and two other trawlers, the Thomas Hankins and the Sea Sweeper, sunk by submarines.

The sinking Japanese liner, which could be seen from the shore, carried a crew of 180 and 26 passengers, one of them British.

A lifeboat and other craft rushed to the rescue, and some survivors were brought to shore.

British reprisals against Germany, extending the blockade to exports as well as imports, would mean concentration on neutral shipping, since Germany herself has practically no ships at sea now.

The aim would be to halt completely all sea commerce with Germany.

Chamberlain made his statement in reply to a question by opposition laborite leader Clement Attlee on whether the government proposed to take any action as a result of the laying of mines which sank the Netherlands passenger ship Simon Bolivar and other vessels over the week end.

Today a British mine-sweeping trawler, the Mastiff, was added to the toll, becoming Britain's sixth admitted naval loss of the war.

In reply to Attlee, Chamberlain explained that under international law if unanchored mines are used they should become harmless in one hour, the most, after those who laid them lost control over them. He said that none of these provisions had been observed by Germany in laying the mines which Britain considers the cause of recent ship losses.

(Germany has denied that her mines were responsible for the sinking of the Simon Bolivar.)

After recounting the loss of more than ten ships, both British and neutral, and many lives during the past six days, Chamberlain said: "I may remind the house that in the last war, as a measure of justified reprisals for submarine attacks on merchant ships, the exports of German origin or ownership were made subject to seizure on the high seas."

Many violations of international law and the ruthless brutality of German methods have decided us See RETALIATION, Page 7, Col. 6

SOVIETS AGAIN WARN FINLAND

MOSCOW, Nov. 21 (AP)—Soviet Russia disclosed today that her Baltic fleet is holding large scale maneuvers from newly won bases in that area.

At the same time she warned Finland that nothing "will ever break our decision to establish a strong peace all over the Finnish gulf."

The warning was voiced by Admiral V. Tributz, commander of the Baltic fleet, in an article in the newspaper Komsomolskaya Pravda, organ of the communist youth league.

Tributz declared that the soviet fleet now was in command of the Baltic with the acquisition of bases from Estonia and Latvia. He said the Baltic fleet, previously landlocked in the Gulf of Finland and the winter ice, now would navigate throughout the year.

TOM PENDERGAST IS DENIED A PAROLE

WASHINGTON, Nov. 21 (AP)—Tom Pendergast, one-time big boss of the Kansas City democratic machine, was denied a parole today from the federal penitentiary at Leavenworth, Kas.

The federal board of parole announced that it was "constrained to the strong conviction" that a parole "would be unjustifiable and incompatible with the public interest."

The board said that its decision was made "after a most thorough investigation, followed by observation, interrogation, and careful deliberation in weighing all of the facts and circumstances surrounding the overt act, plea and sentence, as well as taking into consideration the age and physical condition of the applicant, and the further fact that he has no prior criminal history of record."

'Makin's' For Thanksgiving Dinner Generally Cheaper Than Last Year

CHICAGO, Nov. 21 (AP)—American housewives are swarming shopping counters for the "makin's" of one of the most economical holiday spreads they've assembled in five years.

In contrast with home makers in Europe who carry ration cards, American women, with bulging Thanksgiving dinner budgets found ample stocks on grocers' and butcher's shelves today to prices generally as low or lower than in any similar period since 1934.

A survey of Chicago wholesale and retail markets showed housewives can satisfy Thursday's menu requirements today or tomorrow for a week hence in some instances at about the same prices paid a year ago. Some items, headed by the roasted bird in the center of the table, were lower.

Wholesale turkey prices in the dressed market range from 6 to 20 per cent lower than a year ago. Ducks were 5 per cent lower. Chickens also were lower while geese were little changed.

Despite war abroad and the September bluffs in domestic food costs, much of which since has been wiped out, other important dinner items also can be obtained at lower cost. The department of labor reported that retail food costs declined 1.3 per cent from early September to mid-October and that the general level was about the same as a year earlier. Private surveys showed that at mid-November wholesale foods were the lowest in more than a month.

Such items as eggs, lard, sugar and coffee were lower. Butter, potatoes, flour and some fruits were slightly higher.

"FAST THE END OF THE FAVE-MENT"
By Charles G. Finney
Published by Henry Holt and Co., Inc.
Price \$2.00

"These terrible Farrier boys" was what the neighbors called them but they were not really terrible. They were just full of an overwhelming desire to know about animals, all kinds, from snakes to possums.

Tom and Willie, at the ages of four and six, find a puddle full of beetles following a rain and so begin their adventurous albeit scientific investigation of nature and the animal kingdom.

Immediately misunderstood, as small boys usually are, they run afoul of the landlady, the town's only representative of the Society for Prevention of Cruelty to Animals and in general bring down the wrath of the neighbors on their heads.

Mrs. Farrier endeavors to switch their study of nature from beetles to chickens and thereby causes a town scandal which hardly dies down before their too-delicate land-

lady happens upon a parade of some sixteen large snapping turtles, with disastrous results.

Eyed with suspicion and distrust by the neighbors and threatened with dispossession of their home, the Farrier family goes merrily on. How their last pet, Benji the snake, plays the part of hero in the hour of need, is as satisfactory a climax as the story.

The delightful book will appeal to anyone who can still remember his youth and the various forms of animal life that he used to bring home for pets. It is written in such a refreshingly different style that the reader finds himself wishing for a sequel. It, incidentally, leaves him also feeling a slight nostalgia for lost youth.—M. W.

OUR COMMON HERD, autobiography of Sue Sanders, frontier woman who started life with a team of horses, ten dollars and a little credit at the general store, who made a fortune in Oklahoma oil, lost it, then made another, will be published Nov. 27 by the Garden City Publishing Co. at \$1.00.

Fern Smith Is Named In Who's Who At College

Home Economics Student Chosen At Texas Tech

Fern Allene Smith, daughter of Mr. and Mrs. John C. Smith, 1704 Johnson, who will receive a B.S. degree from Texas Tech in June, is among those students who will be listed in the 1939-40 issue of Who's Who Among Students in American Universities and Colleges.

Through the cooperation of over 500 American universities and colleges, this book is published and will be released in January or February. Several students from accredited colleges are selected each year, by an unprejudiced committee, and their biographies appear in the Who's Who.

The purpose of the book is to serve as an incentive for students; as a means of compensation to students for what they have already done; as a recommendation to the business world; and as a standard of measurement for students comparable to Phi Beta Kappa and the Rhodes Scholarship Award.

Miss Smith was awarded the Pan Hellenic scholarship award in the home economics division for freshmen students and has been recognized for three consecutive years for an "A" average. She has served on the A.W.S. Council for three years and has been a member of Junior Council, Alpha Chi, honorary fraternity, and treasurer of Phi Upsilon Omicron, national home economics fraternity.

Miss Smith was graduated from Big Spring high school in 1935 and during her high school career was active in home economics and dramatics and was a member of the National Honor Society.

'Grapes Of Wrath' To Be Given At Hotel Thursday

One of the most talked-about novels of the year, "Grapes of Wrath" by John Steinbeck, will be reviewed at 8 o'clock Thursday evening at the Settles hotel by James G. Allen, dean of men and associate professor of English at Texas Tech. Admission is 50 cents. The review is sponsored by the 1939 Hyperion club.

The novel concerns the migrant families who move to California after losing their farms in states of Oklahoma, Texas, Kansas and others.

Allen, during the past five years has been reviewing books in such towns as Ralls, Muleshoe, Plainview, Anson and Colorado City in addition to his duties at the university.

He has been one of the reviewers on the series of reviews sponsored by the Woman's Auxiliary of the First Presbyterian church for the last four years and has also given reviews for various study clubs in Lubbock.

The reviewer received his degree from Southern Methodist university in 1924 and his master's degree from Harvard university. He has also done graduate work in English at Harvard, Chicago university and Texas university.

Entertained With Party On Fourth Birthday

Green and yellow were the chosen colors that were carried out on the birthday cake when Beverly Vaughn, four-year-old daughter of Mr. and Mrs. Doyle Vaughn was entertained with a party in her home Monday afternoon on her birthday anniversary.

Mrs. Ernest Sylvester and Mrs. H. E. Vaughn assisted the hostess and pictures of the group were taken. Balloons were given as favors and cake and cocoa were served.

Present were Nita Carla and Obie Jean Hare, Charlene and Jean Taylor, Alfred Ray Lancaster, Jerry and Delores Vaughn, Fay, Donnie and Reggie Sylvester, Buddie and Billy Martin and Joan Jennings.

Central Ward Parent Study Group Has A Program At School

"Mary, Mary Quite Contrary" was the subject discussed by the Central Ward Parent-Teacher study group held Tuesday morning at the high school.

Mrs. J. V. Birdwell and Mrs. L. D. Jenkins were in charge of the program and pointed out that with parent study groups that parents were much more able to deal with the adolescent than before. They are more able to understand the children than before.

Mrs. W. A. Step and Mrs. D. F. Thompson of East Ward, were new members. The next meeting is to discuss "For Want of a Nail" and Mrs. Pascal Buckner and Mrs. H. E. Howie will be in charge.

Others present were Mrs. O. E. Patton, Mrs. E. J. Brooks, Mrs. R. V. Middleton, Mrs. Ed Notestine, Mrs. Seth Wehnt, Mrs. H. C. Hodde, Mrs. Tom Slaughter, Mrs. Lex James and Mrs. Howie.

Mrs. Jensen Tells Of New Program Of The WCTU

Mrs. Thomas C. Jensen of Austin, state field secretary, of the Woman's Christian Temperance Union, in speaking at the First Baptist church Monday, pointed out that the organization has launched a new educational program of agitation, education and organization.

Beginning where the union did 60 years ago, Mrs. Jensen said, the homes, churches and schools are being reached.

Two moving pictures were made by the national organization entitled "Beneficent Reprobate" and "Pay Off." The Texas branch has purchased two of each of these pictures and placed them in the visual education department of Texas University. According to Mrs. Jensen, these pictures are the most in demand by the students.

The union endeavors to acquaint people with scientific facts about the effect of alcohol and is raising a million dollars to care for this program and to combat the 25 million dollar advertising program of the liquor industry.

Mrs. Watt Talks Before St. Ann's Club Here

Mrs. D. P. Watt was principal speaker for St. Ann's club of St. Mary's Episcopal church when the group met in the home of Mrs. John Griffin Monday night.

Mrs. Watt's topic was on "Our Church Worship, An Outline of Christian Symbolism." Mrs. Jack Platt gave the devotional and prayers were given. Mrs. Jack Hecges, Jr., is to be next hostess in December.

Refreshments were served and others present were Mrs. Monroe Johnson, Retta Debenport, Florence and Ione McAllister and Mrs. W. R. Dawes.

Mrs. Lynn Leads Bible Lesson On Jonah

Mrs. Anell Lynn led the Bible lesson on the book of Jonah for the Wesley Memorial Methodist Woman's Missionary Society when the group met Monday at the church.

Mrs. Herbert Drake gave the devotional and a social was planned for next Monday at 2:30 o'clock in the J. B. King home. Approximately 13 persons were present.

LIGHT UP for EASIER SEEING

"That Good Light Makes Kitchen Work EASIER"

Fill Sockets with Bulbs Large Enough For EASY SEEING

● Of all rooms in the home, the kitchen gets most of the waking hours of the average woman. Three times a day and many hours in between, she spends in this workshop-laboratory, working, experimenting, cleaning or doing the host of other tasks that are necessary to turn out appetizing meals.

Better Light will make these tasks easier, because with EASY SEEING you can work faster and better. Put at least a 150-watt lamp bulb in your kitchen light, or get one of the new fixtures which screw into the present socket. You'll quickly notice the improvement.

HOUSING A PROBLEM IN FALLEN WARSAW

BERLIN, Nov. 21 (AP)—With harsh winter weather near, the housing problem in Warsaw—especially as it concerns Jews—has become a pressing consideration for the war-ravaged former Polish capital.

Informing German sources said emergency housing had been provided for the Jewish population on certain streets, but they insisted there would be no ghetto.

Mrs. Chowns Leads Program For The Methodist Meet

Mrs. G. W. Chowns was in charge of the program when the First Methodist Woman's Missionary Society had a meeting Monday at the church on the subject, "Lifting Our Horizons in Fields Afar."

Mrs. Chowns was assisted by Mrs. W. A. Miller, Mrs. Iva Huneycutt and Mrs. Charles Morris, who gave the devotional. Mrs. King Sides provided the music.

A short talk was given by Mrs. T. C. Jensen, state field secretary of the Texas W. C. T. U., and Miss Lydia Cope of Austin, child welfare worker, was introduced.

Japanese-American Treaty Likely Not To Be Renewed

WASHINGTON, Nov. 21 (AP)—The sands are running fast on the Japanese-American commercial treaty, and it is reliably predicted that when the treaty expires January 26, no new one will have been negotiated.

The way they will be open for congressional action on the resolution by Senators Pittman (D-Nev) and Schwelensbach (D-Wash) to impose an embargo on the shipment of raw materials to Japan. There has been no indication whether a majority of the senate and house would favor this proposal.

Any move toward opening negotiations for a new commercial treaty, Washington officials say privately, will have to come from Tokyo. No preliminary talks on the subject have taken place in either capital.

It is freely granted here that the treaty was abrogated by Secretary Hull not for commercial but for political reasons. The political reasons exist in the view of American diplomats.

Japan is still in China, American interests there are still being affected, Japan has not yet repudiated the comprehensive state department note of last December 31 rejecting the Japanese conception of a "new order" in East Asia.

CLERGYMAN DIES AFTER SERMON

COLUMBUS, Neb., Nov. 21 (AP)—Parishioners at the Christ Lutheran rural church wondered why the Rev. Henry L. Borneman, who had gone to the vestry room following his sermon, didn't come out to join in the last chorus of their hymn, as was his custom.

His son, Martin, and the church elders found Mr. Borneman dead of heart disease.

This Perfume Atomizer teaches you how to SAVE MONEY on COLD-WEATHER DRIVING

Greatest enemy of economy in winter driving is the choke. When it is used for starting, or while the motor is warming up, your gas tank is being drained 5 to 15 times faster than normal!

The only way to stop this waste of your money, is to use, not higher priced, but HIGHER TEST GASOLINE. This is why: With heavy crude oil in a perfume atomizer, no matter how hard you squeezed the bulb, you probably could not produce a spray. But Phillips 66 Poly Gas would turn into a fine vapor at the first light pressure on the rubber bulb.

because this amazing gasoline is higher test... more volatile... readier to vaporize quickly and evenly for faster starting and smoother acceleration.

In any weather, it needs the least possible choke, a fact definitely proved by continuous laboratory surveys.

So don't wait. Start getting faster starting tomorrow morning, by getting Phillips 66 Poly Gas this afternoon. You pay nothing extra for its extra high test... at any Orange and Black 66 Shield... because Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.

Biggest news to come out of the WT-NM baseball league meeting at Amarillo Sunday was to the effect that the salary limit had been elevated \$100 to \$1200, the player limit from 14 to 15.

A possibility for a time last season was a better classification in the organized game but apparently that plan has been abandoned.

All the clubs were represented, including Borger and Pampa, rumored to have been seeking to break the bonds. All apparently are making plans for the 1940 season.

Mr. and Mrs. Tony Rego represented Big Spring. They motored down from their home in Tulsa, Oklahoma, will not return to Big Spring until after the December 4-6 convention in Cincinnati.

The salary raise was the second in three seasons for the young circuit.

The number of rookies on each club will be limited to six, thereby allowing a team at least six non-class men. As was the regulation last season, not more than three class-men (players with more than three years in professional baseball) will be allowed each club.

The 140-game season will open April 23, some five days earlier than the last campaign, will close Labor Day, Sept. 2.

The Big Spring club will open the season at home with Midland, Clovis at Amarillo, Borger at Pampa and Lamesa at Lubbock. Sites will be reversed after two days play.

The teams of the north move southward on the first swing around the circuit.

The delegates voted another split schedule with a modified Spahn-nessy playoff to decide the champion with the first half leader assured a place in the final series.

Vote for such a playoff was not unanimous, however, Amarillo and Lamesa expressing disapproval of the split campaign.

Nego arranged for the Barons to play the July 4th double-header in Big Spring. Opposition will be formed by the Midland club.

The delegates will draw up the 1940 schedule at a March meeting.

Milton E. Price, Dallas, was again elected to serve as president. He has led the circuit in his three years of operation.

Bob Seeds, Amarillo, Bob Lindsey, Borger, Scotty Price, Clovis, Jodie Tate and S. P. Collins, Lamesa, Art Hale and Collier Parris, Lubbock, Claude Duffy, Midland, Grover Setz, Pampa, and Mr. and Mrs. Rego were among the delegates on hand.

The whole league will probably be disappointed to learn that Abilene, which had again been invited into the circuit, has just about abandoned plans for a new campaign.

Hal Sayles, Abilene Reporter-News sports editor, related to us last weekend that there was little possibility of such a venture being attempted next spring.

ENTHUSIASTIC
BETHLEHEM, Pa., Nov. 21 (AP)—Here's a new high in college pep. The student body at Lehigh will pay, by voluntary contribution, for having an airplane fly over the Lafayette campus trailing a big banner on which are the words, "Beat Lafayette." The plane will fly over the stadium just before the kickoff of Saturday's game, the 73rd meeting of the schools.

MOVES WITH AGE
FORT WORTH, Nov. 21 (AP)—Tip to coaches: Don't schedule the T. C. U. Horned Frogs after Nov. 1. Notoriously slow starters, the Frogs have dropped only eight of 51 "after-Nov. 1" games in the past 10 years.

QUITE SIMILAR
TEMPE, Ariz., Nov. 21 (AP)—Talk about similarities! In the recent New Mexico U-Tempe game, both went into the game unbeaten in conference competition but beaten by identical 19-7 scores by inter-sectional foes. Both coaches, Ted Shipkey of New Mexico and Dixie Howell of Tempe, received all-America mention when in college. Both have played pro football. Shipkey with the Los Angeles Bulldogs and Howell with the Washington Redskins.

MAKING GOES ON
LIVERPOOL, Eng., Nov. 21 (AP)—The racing world—behind the scenes—carries on during the war. Stables may be depleted of trainers by conscription, but horses will be kept ready for possible racing next year.

S'Springs 11 May Surprise In Hi Race

Team Has Come Along Fast Since It Played Two Deadlocks

SULPHUR SPRINGS, Nov. 21 (AP)—A 180-pound line and a tricky backfield that uses the hidden ball play to perfection have brought Sulphur Springs its first district championship in interscholastic league history.

And they tell you here that the team, while quietly moving along winning when necessary and not winning up top-heavy scores, is gaining strength and will reach its peak when the state title race begins.

If ever there was a "dark horse" team it's Sulphur Springs—an outfit fit no one took seriously until the Wilcoats had just about sewed up the district crown.

Today Sulphur Springs is undefeated—one of the nine teams in the state with such a record. Glade-water and Paris tied the Wildcats early in the season but since then Sulphur Springs has moved down Denison, Highland Park, McKinney (that's the team that beat Woodrow Wilson, the Dallas power), Denton and Greenville (which played powerful Tyler to a tie).

Exponents of the tricky single wingback formation patterned after the mighty Tennessee Vols, the Wildcats feature a running game with almost every play a hidden ball trick.

But that line is what makes the offense click—a line paced by Captain Jim Wright, 195-pound guard they tout over here as all-state caliber.

Top scorer of the team is rangy Tom Ranney, heavy quarterback and fine punter.

The backfield averages 158 pounds and is fast as a streak. Coach Buddy Brothers terms statement is: "We won't get beat bad in the bi-district."

Sulphur Springs certainly has no easy road in state play because the Wildcats meet the winner of the Sherran-Gainesville tilt in the first round and Gainesville is rated among the top three teams of Texas.

Coahoma Cagers To Play Friday

COAHOMA, Nov. 21—The Coahoma high school cagers will play their first game of the season Friday night here against the Ackerly Eagles.

Coach B. C. Hays initiated practice Monday in the Coahoma gym.

NOT MUCH TO SAY
FORT WORTH, Nov. 21 (AP)—T. C. U. coach Dutch Meyer hit a new high in saying very little in a pre-game interview recently. Said Dutch, "We're doing our best to devise ways and means of stopping the other team; they're doing the same about us. We'll both pass and run with the ball. When necessary, we'll kick."

FRENCHMAN'S QUANDARY
NEWMARKET, Eng., Nov. 21 (AP)—Brought to England to run in the St. Leger, Pharis II, owned by M. M. Bussac, now seems to be stranded. Bussac may keep him in training for possible races next year or send him to stud.

L. I. U. CAGER GOES PRO
NEW YORK, Nov. 21 (AP)—Irv Torogoff, Long Island University basketball star, has decided to play professional ball with the Detroit Eagles, an independent team.

conensus. In the Southwest conference—and possibly because he is on the winning team—Joe Boyd, 210-pound Aggie tackle, is regarded as all-America timber. Jack Sanders, S. M. U. tackle, is considered about as good. Oklahoma has an outstanding and in Frank Ivy—better than Waddy Young was last year, they say. The best men on the Missouri team appear to be Bob Waldorf, a guard, and Kenneth Haas, a tackle.

Shute's Iron Game Impressive As He Teams With Akey To Win, 5-4

By HANK HART

Calming a misbehaving putter that reached unfamiliarly to sand through the first four holes, Danny Shute blazed home with a three-under-par 68 as he teamed with Harold Akey. Munny pro, to defeat a local amateur team, Shirley Robbins and Obie Bristol, 5 and 4, in a low ball exhibition Monday afternoon at the country club.

Playing before a gallery of several hundred golf enthusiasts, the touting, unattached pro appeared off his game as he dubbed his tee shot on No. one, looked miserable as he warmed to the occasion on the short second, employing a brilliant long iron to overcome a putting weakness and was the big factor in sending his team into the lead by the time they had reached the fifth.

The simon-pures never had a chance thereafter although Robbins manufactured a smart 74. The Shute-Akey combo had a two-hole advantage at the turn and the amateurs lost ground steadily thereafter. Shute's short game was truly sensational on the back side. He roped birdies on the short 18th and 14th and coasted in with a neat 23.

Akey collaborated with a 78, which beat Bristol's best by a stroke.

The golfing crowd could well understand what makes the former PGA champion's game click. Not

ALL FOR THE BETS
MILWAUKEE, Nov. 21 (AP)—One of life's darkest moments was lived through by Reserve Quarterback Harry Laysenaar of Marquette in the Texas Tech game. Laysenaar called a "spread" formation he had used with the scrubs—and none of the varsity knew what to do. Fortunately, Tech also was a shade confused and was offside on the play, which thereby gained five yards.

UNFAIR PRACTICE
CHILLICOTHE, Mo., Nov. 21 (AP)—Chillicothe Business College was in a football fray with Wentworth Military Academy. Every time Wentworth got close to the goal line the Chillicothe band started playing The Beer Barrel Polka. And every time the band played, Wentworth fumbled and the offense bogged.

Game Officials Claim 45,000 Deer To Die

AUSTIN, Nov. 21 (AP)—With fat young bucks running all over the hunting areas, Texas game officials forecast the biggest kill since Indians bagged the wily creatures with bow and arrow.

The game department boosted its kill estimate 10,000 to a record of 45,000 this season. Thirty thousand were taken last year.

Nearly 75,000 sportsmen and women have been lured to the deer runs, 400 of them from out-of-state points as far away as New York.

Most hunters will stalk the elusive white tail in the Central Texas hill country, where ranchers have rigorously protected wild life more than 50 years.

Won't this slaughter eventually wipe out the species? "No," officials answer, "because hunters take only the surplus yield and leave the seed stock. If no bucks were killed, they would soon grow to such numbers as to overgraze the land, become sluggish and subject to disease."

A good many of the 5,000 bucks taken on opening day last week were shot by women.

Only one method is allowed to "call" deer—rattling sets of horns together to make a sound like two bucks fighting.

Curiosity overcomes the normally cautious deer. They come in to watch the battle—and bang! Somebody gets his buck.

The Lone Star State has two types of deer—the white tail, scattered over various districts, and the mule deer, a larger species which inhabits mainly the sparsely populated trans-Pecos region in West Texas.

The white tail season ends December 31, and hunters may kill two except in counties that have special laws. The mule deer season ends November 30 west of the Pecos river; only one may be killed.

TERRY LOOKS FOR WINNING MOUNDMAN

WINTER HAVEN, Fla., Nov. 21 (AP)—If Santa Claus has any special presents for Bill Terry, he hopes it will be a good winning pitcher.

Arriving here for a brief inspection of spring training quarters, the customarily reticent New York Giant manager was quite outspoken about what he would like the whistler to do to leave in his stocking.

"I just want another good pitcher and I don't care if he's a right-hander or a left-hander as long as he wins," Terry confided.

He still has faith in Pitcher Carl Hubbell, once voted the National League's most valuable player.

"When Hub's got half his stuff he can still win," Memphis Bill asserted. "When we closed last year he said his arm felt fine and that he wished the season was only starting."

Although the world champion New York Yankees whipped the Giant in 1936 and 1937 as they started on their four-year domination of major league baseball, Terry definitely is not one of those who feel the American League club should be broken up for the good of the game.

"Break them up," the Giant manager exclaimed. "I should say not. It's a pleasure to watch that outfit play."

Mentor Of Big Ten Surprise Team, Eddie Anderson, 'Coach Of Year'

By TOM SILER

CHICAGO, Nov. 21 (AP)—Don't be surprised to hear any day now that Eddie Anderson, Iowa's "miracle man," has been tossed bodily out of the football coaches union.

In this era of moaning coaches and "three-deep" grid squads, Anderson is being hailed as the coach of the year for curing Iowa's grid lills with a handful of leftovers and a few sophomores. A year ago the now powerful Nile Kinnick and Company was able to win only one game, and that against the University of Chicago.

But Iowa's country doctor, serving his first year as Hawkeye mentor, employs methods unlike that of most of his contemporaries. He tells his boys and the public frankly what he thinks his team can accomplish, uses only a modicum of pessimism and holds that a "three-deep" squad of benchmen is not essential to victory.

Anderson said his team could defeat Notre Dame and it did. After that game he said his boys could whip Minnesota and they did that, too, with a furious last period rally. This gave his "team and a half"—he's been using 16 players a game—a record of six victories in seven games, having bowed only to Michigan.

AGGIES TAKE FIRST PLACE IN NATIONAL GRID POLL

By BILL WHITE

NEW YORK, Nov. 21 (AP)—Like a judge at a bathing beauty contest would pass up a knock-kneed gal, football's critics from coast to coast this week passed up the unbeaten Volunteers of Tennessee and named Texas Aggies as the nation's outstanding grid power.

It took a lot of undoing to take Tennessee out of the leadership it had held for four straight weeks in the Associated Press country-wide poll. But the Aggies just one game away from a perfect season, garnered 85 first place votes, 37 for second place and 17 for third on 110 ballots, out of a total of 963 points in the sixth vote of the season.

That was enough to surpass Tennessee by 95 points, but the surprise didn't end there. Cornell, pride of the east, rolled up a popular vote of 895 points—just 33 shy of the Tennessee total of 928. The 19-0 shellacking handed Rice by the Aggies, Cornell's 35-6 wallowing of Dartmouth, and Tennessee's comparatively narrow squeak in beating Vanderbilt, only 13-0 all apparently were considered important by the writers who participate in the poll.

Southern California, Tulane, Ohio State, Notre Dame, Duke, Iowa, and Missouri are the rest of the top ten.

Campaign Thunder

Robert A. Taft, United States Senator, a son of a one-term President and himself a candidate for the Republican nomination to the presidency in 1940, told the Community Forum in Pittsburgh, Pennsylvania, that the whole philosophy of the democratic Party leads toward involvement in the European war.

"By 1940 it will be perfectly clear that if the people wish to remain at peace they cannot trust the power of peace and war to the Democratic Party for four years," the Senator asserted, adding that "the Republican Party is the peace party and it will be the peace party in the elections in 1940."

The Senator recalled that President Wilson did not keep us out of war and said that Roosevelt cannot be re-elected, and that no Democratic candidate can be elected, on the ground that President Wilson kept us out of war.

"The domestic policy of the Roosevelt administration contains a far greater threat to the future happiness of this country and its people than any improbable involvement in the European conflict," was another statement in Senator Taft's address.

That indicates that he is playing both ends against the middle, threatening the people with getting into the European war and then saying that the domestic situation is and will be even worse—provided a Democrat is elected as President.

It is good old-fashioned Republican campaign thunder, all of his argument amounting to the assertion that the Democrats are not to be trusted, and with nothing to prove his argument—just assertions, based possibly on his own belief, or at least his hope.

The danger of war is not going to be much if any figure in the next campaign. The biggest argument will be who holds the offices and handles the patronage.

Man About Manhattan

NEW YORK—Almost every day people ask this question: "I've written a song; how can I get it published? I'm an unknown; consequently, they won't give me a break. How do you do it? How can you break through?"

And this applies to the other fields...A man from Minnesota tells me he has a play; but he doesn't know what to do with it...A school teacher in Idaho writes that she and her sister have spent four years collaborating on a novel...How can I get a publisher to publish it...Can I find an agent who will handle this for me?...How can I crash Tin Pan Alley?...How can I crash the stage?...How can I crash the films?

Frankly, I don't know...Some people with all the merit in the world go all their lives without stumbling on the one little key of commercial success. Others find it, apparently, without any trouble. It just seems to drop into their laps.

Life's Darkest Moment

ATTACKED WHILE WEARING A GAS MASK

The Creeping Man

by Frances Shelley Wees

Chapter 37. "Thank you, Mrs. Deane." The coroner's eyes were very grave, and his lips firm. "I realize that this is a very important piece of evidence indeed. You offer it to show that Miss Lissey was disturbed in her mind before she came to the party at all?"

"Yes, Dr. Mayhew." "Thank you, Mrs. McBain, please." Mrs. McBain in a dark dress that emphasized her pallor, took the chair he indicated. Her hands shook a little, and she laid them together in her lap. Dr. Mayhew looked at her sharply.

"This has been a shock to you, Mrs. McBain?" "Yes, Her lips trembled. "Miss Lissey was an intimate friend of yours?" "I knew her—well."

"You were her confidant in her personal affairs, perhaps?" "To a very slight extent." The coroner leaned back in his chair and folded his hands together under his chin. "You have not been sleeping very well, Mrs. McBain?"

"She moved a little, restlessly. "You would not expect me to, Dr. Mayhew." "No, no, I should hardly expect you to. Tell me—is there some particular thought in your mind which keeps you from sleeping?"

"Did Miss Lissey tell you something, or did you, perhaps, see something last Sunday afternoon which is troubling you greatly?" "She put a hand to her eyes suddenly. "No," she faltered. "The clock ticked again."

"You are certain?" "Yes." "You mean, you are not certain?" "Must I tell—here—in front of everyone?" The coroner glanced around slowly at the tense expectant faces before him. Dr. McBain glared at him openly as if to compel him to allow his wife to go; the coroner's glance passed him handily, past the Deanes, past Michael and Tuck and Bunny, past Charlotte Jean sitting wide eyed on the edge of her chair—to Jared Devoe, upon whose upper lip the tiny beads of perspiration stood plainly.

"I'm afraid you must, Mrs. McBain." She sighed. Her husband rose suddenly, went to the water cooler in the corner of the room, and brought her a drink. She took it, and held it in her hands as she talked. "Sunday afternoon—I was sitting beside her. On the wicker couch. She thought no one was near us. Suddenly she said to me...If he pays attention to that girl, I'm going to tell her exactly what I know about him. It's enough to—put him out of the sight of all decent people."

"She stopped. "He heard," she said dully. "He had been right behind us. I saw his eyes." "To whom are you referring, Mrs. McBain?" She turned slowly, with an air of dread, and her eyes went down the row of faces until they rested on those bright, staring, brown eyes, on the pallid countenance, on those talltale drops of perspiration. There they rested.

"I was Jared Devoe," she said. "When was this, Mrs. McBain?" "We were out, beginning our tea."

Washington Daybook

WASHINGTON—In spite of statements laying on British agents the responsibility for the Munich beer hall bombing, it is better than an average gamble that Herr Hitler doesn't sleep well these nights wondering if some of his friends had a hand in the business.

Doubleless the British would not go into mourning over any tragedy which might overtake the Reichskanzler. But if the British did it Hitler has reason to reorganize his police.

Being a dictator is a nice job but it has its drawbacks. A man can't trust even his friends. Often enough the rise to power is measured in sword-thrusts. So it was both in Germany and Russia. The purges in those two countries caught up old friends and foes alike. The victims often were merely suspected of wanting to do what someone in Germany actually tried to do in planting the bomb in the beer garden in Munich.

In dictatorial Italy, the purge was accomplished in rough humor with quarts of castor oil forced down the throats of hapless suspects. There the method seems to have produced less bitterness than in the other two dictatorships but even Mussolini has been fired upon and now carries a nick in his nose from an assassin's bullet.

HISTORIC PARALLELS. Tragedies have been written aplenty about just such situations as that in Germany. The haunted sleep-walking of Lady Macbeth and the tormented waking hours of Macbeth himself hint at the mental turmoil that one might find paralleled in Berlin in these hours of strain and trouble.

More than one country has in its history the story of a ruler haunted quite as much by distrust of his friends as by fear of his enemies. In the tragedy-comedy tone of so many stories of the Orient comes the ancient tale of China (or Tsin) She Hwang Ti, who first brought China under one rule and left it his name.

Master ones of only the huge northwest interior of China, the Emperor Chin Shi conquered all of China proper. To keep out external enemies, he built the great Chinese Wall which has lasted through 2,000 years.

He destroyed books and literature in a cultural liquidation not equaled until modern days across the Atlantic. Scholars were hunted out and advisors put to the sword as the great emperor sought to preserve his mastery and his peace of mind.

Finally, fearing even his gods were after him, he built a monster palace of a thousand rooms. There he believed neither god nor man would look in which room to lurk on any given night.

LOT IS NOT HAPPY ONE

"Unnatural deeds do breed unnatural troubles," sadly commented the doctor in Shakespeare's tragedy, as he observed the disintegration of the Macbeths. "Infected minds to their deaf pillows will discharge their secrets."

In what manner the nerves of the Reichskanzler react to the attempt on his life is a matter almost wholly of speculation. Yet it takes no especially profound imagination to deduce that Hitler would like to know for SURE who planted that bomb. Was it a close and trusted friend grown envious? Or was it, simply some malcontent who easily can be kept far away hereafter? Into this world of war the situation injects a stark personal drama.

Hollywood Sights And Sounds

HOLLYWOOD—The Jones family was on the spot—as usual. When a single family has been to bed 15 times, it's bound to get a little tired the next time up.

Wary Joneses being out of the question as screen entertainment, a council of war was in session. No Joneses present, but a quartet of men who are making the family tick and click: John Stone, the producer, Louis Moore, his assistant, Mal St. Clair, the director, and Joe Hoffman, the writer. The subject was "Young As You Feel," 16th Jones adventure in four years.

"The trouble is," as Stone explained it to this interloper on their conference, "that there's a limit to the things that can happen to a family group, if we're to stay inside the sphere of normal, human happenings as we must with the Joneses. The minute we forget, or try to forget, that this is a real, every-day family were sunk. That's what makes it hard—not too hard though," he added hastily, lest we jump to the conclusion that the Jones movie was running down. "We just have to work harder to get what we want—harder with each picture."

The usual expedient (this was my guess and strangely correct) in such an impasse is to send the movie family packing off somewhere to new scenes, new places. Five times the Joneses have traveled—in one picture "back to nature" for vacation, in another to Paris; again they sojourned down on the farm; in the recent "Quick Millions" they saw the Grand Canyon; another time they saw Hollywood.

"But if they travel too much, then they aren't a typical middle-class American family," the producer sighed. "They've got to stay home most of the time." When Stone & Co. aren't worrying about the Joneses, they're involved with Charlie Chan, whose adventures now number 21 and, having survived the death of their star, Warner Oland, are going strongly on with his accepted successor, Sidney Toler.

In these series films, the talent often presents a serious problem—not so serious as that when death took Oland from the Chans, but still troublesome. Once a producer has established actors in certain family roles, he dislikes to change them. At the same time, he has to watch his budget—especially since the war came.

This day, Shirley Deane's agent had called with a request for more pay. Shirley has been a Jones Family fixture—often in the leading role—from the second film of the series. But this day at least, Stone was of a mind to do nothing about it. The budget again.

"Reminds me," he said, "of the old story about the lion and the lamb who lived together in the same cage in a sideshow. Fellow came up to the keeper and wondered out loud about it, wanted to know how it was possible. Keeper said it was true, the lion and the lamb stayed there always. 'Of course,' he said, 'sometimes we have to renew the lamb.'"

"And it's the same way in these pictures. When we can't afford a certain player, we just have to renew the lamb."

Two Hunters Get The Same Buck

S. G. Merritt, local manager of the Texas State Employment Service office here, Tuesday contentedly applied his sharpshooting eye to finding jobs for other people.

Reason: He had two bucks—four and seven points—hanging in the ice house. He bagged the deer on a hunting excursion in Kimble county.

Rollie Keith, Ralls, who was in the party which consisted of Otis N. Key, Jimmy Alewine and M. C. Winters of Big Spring, brought back a brace of bucks, one seven and the other eight points.

There's a story behind one of his bucks, however. He was hunting with George Byers, Johnson City, when they spotted a buck. Keith dropped a shot in front of the buck at 200 yards range and it stopped. Both he and Byers fired simultaneously. The buck fell, a shot through its skull and another through its neck. The hunters matched for the carcass, Keith won. Only a couple of bags of the trip belonged to Alewine who dropped a turkey gobbler.

After First Frost, Farmers Want More

Now that the first frost of the season has come, farmers looked hopefully for more of it. They wanted sub-freezing temperatures to pop open bolls left in the cotton fields so that they could market it as snaps instead of rank bolls.

F. E. Keating, U.S. Experiment Farm superintendent, said that the initial frosty weather of the autumn was recorded with freezing temperatures Saturday, a week past the normal first frost date of Nov. 10.

Monday the experiment farm thermometer showed a minimum of 28 degrees. The U.S. weather bureau reading at the airport was a flat 28 degrees.

U.S. Trade

said that initially the system "will apply to all shipments from the United States to the following countries—Belgium, Denmark, Estonia, Finland, Iceland, Italy, Latvia, the Netherlands, Norway and Sweden."

The investigation plan, according to the embassy, was first evolved in the World War when it was known as the "navicert system." It will be made effective again December 1.

The embassy said "the navicert system" was explained as a form of commercial passport.

"Intending exporters desiring to take advantage of the system may apply to the nearest British consulate on special forms obtainable from any British consulate in the United States and, if the intended consignment is regarded as unobjectionable, they will be granted a navicert for it."

In practice, a ship's captain having such a document for his cargo would present it to the master of any British warship which challenged him and he would be permitted to proceed without delay.

The British government, the embassy said, desires to reduce "to a minimum the interference with neutral trade inevitably occasioned" by its exercise of its "legitimate belligerent rights," and for this purpose it found that the navicert system produced "satisfactory results" during the World War.

Retaliation

to follow a similar course now, and an order to council will shortly be issued giving effect to this decision."

Cheers greeted the statement. This step means that Britain will seek to shut off Germany's export trade, from which she acquires foreign exchange, as well as the flow of imports to Germany.

At about the same time that the admiralty was announcing the loss of the Mastiff, the air ministry reported that an invading German warplane had been shot down in an engagement with Royal Air Force planes over the east coast today.

Invading warplanes, in another flight such as carried one to the very edge of London yesterday, flew over southern Kent to the chattering of machine-gun fire.

Another British trawler was reported sunk by a submarine off the Irish coast today. It was not disclosed whether this was a naval vessel.

The Exchange Telegraph news agency reported that it was the 320-ton trawler Sea Sweeper which was sunk and that her crew of 12 landed safely at a North Ireland port.

(A Lisbon dispatch reported two British freighters had been attacked yesterday by German warships off the Spanish west coast.)

The air ministry did not indicate whether the plane shot down on the east coast was one of a group which flew over southeastern Kent.

Later a German bomber— a naval plane—was plainly visible—was sighted flying northward over Buthren county, northern Scotland.

Air raid warnings were sounded in the Orkney Islands, off the northern tip of Scotland, and an all-clear signal came after 40 minutes. The Scapa Flow naval base is in the Orkneys. Three planes were reported over the islands, but no bombs were dropped.

No air raid warnings were sounded in the populous channel country southeast of London, but street crowds in Kentish towns heard the rattle of machine-guns and saw Royal Air Force fighting planes maneuvering against their foe.

Trawlers of the Mastiff's class normally carry crews of 30.

One of the Mastiff's crew was killed and five were missing, according to a preliminary casualty list issued by the admiralty. The trawler was worth about \$200,000.

The Mastiff may have been engaged in the search for German mines which had been blamed officially for the destruction of nine of the 10 merchant ships sunk over the week-end with 134 persons dead or missing.

Loss of the trawler came on the 21st anniversary of the German fleet's surrender after the World War. The fleet was interned at Scapa Flow, but was scuttled by its German crewmen June 21, 1919.

Other losses disclosed yesterday were the British Peninsula, Torchbearer and Wigmore, all sunk by mines.

Record Order For Scrap Iron Poured

NEW YORK, Nov. 21 (AP)—A record order for 500,000 tons of scrap iron has been placed in the United States for shipment to England's war-burdened steel mills. It was learned today in trade circles.

In addition, it was said, Italy has bought around 150,000 tons and Japan about 100,000.

At the current price of about \$21 a ton for heavy melting scrap in the Pittsburgh area, the tonnage would be valued at approximately \$23,000,000.

The British buying, trade circles reported, was done in the name of the British iron and steel federation.

Draiers said England will pay cash and supply the ships in accordance with U. S. neutrality laws. The scrap is destined to move from Atlantic and Gulf coast ports in coming months.

The exact price paid for the metal was not disclosed.

Sister Of El Paso Official Dies Here

CARS DERAILED NEAR PALESTINE, CATCH FIRE

PALESTINE, Nov. 21 (AP)—Eighteen freight cars, including nine loaded with gasoline, were derailed and caught fire on the Missouri-Pacific railroad one mile south of Irene, this morning.

No one was injured. Firefighters from Waco worked for hours trying to prevent spread of the flames, but the dispatcher's office here said the fire in the tank cars would have to burn itself out. The dispatcher said there was no explosion because the fire had not gotten inside the tanks.

Cause of the derailment was not immediately determined. The dispatcher's office said 27 freight cars remained on the tracks after the wreck and that the engine was not damaged. The derailment occurred near the middle of the train.

Each tank car, which was fully loaded, has a capacity of 8,000 barrels of gasoline.

Irene is about 65 miles south of Fort Worth on the Fort Worth Houston branch of the Missouri Pacific.

Slaying

Coffman was married and had three children.

Mrs. Maddox, who had concealed her guns beneath her coat, opened fire and Coffman fell to the sidewalk, screaming:

"Don't kill me Corinne . . . don't kill me."

The woman told Inspector of Detectives Will Ecker that the lawyer had threatened to kill her in the event she attempted to prosecute him on the assault of El Paso.

The slaying, Miss Maddox told homicide detectives, was part of a careful plan and was the third attempt.

ECONOMY

COPENHAGEN, Nov. 21 (AP)—Danish troops used firework to indicate artillery fire in their maneuvers today and threw turnips instead of hand grenades. It was merely a matter of economy.

There's a Good Reason You're Constipated!

When there's something wrong with you, the first rule is: get at the cause. If you are constipated, don't endure it first and cure it afterward. Find out what's giving you the trouble. Chances are it's simple if you eat the super-refined foods most people do: meat, white bread, potatoes. It's likely you don't get enough "bulk." And "bulk" doesn't mean a lot of food. It's a kind of food that isn't consumed in the body, but leaves a soft, "bulky" mass in the intestines and helps a bowel movement. If this is your trouble, you should eat a natural "bulk" producing food—such as one as the emergency relief. Eat it every day, drink plenty of water, and "Join the Regulars." All-Brans is made by Kellogg's in Battle Creek.

Would Put New Oil Levy On Refiners

(Herald Austin Bureau) AUSTIN, Nov. 21—If more taxes are to be levied on the oil industry to help finance the social security program, the additional burden should be placed on the refining process and not on production, Rep. Jim Goodman of Midland said as members of the legislature got together informally to discuss how to raise more money for old-age pensions and other security services. The West Texas representative suggested a one-eighth of one cent per gallon gasoline processing tax would bring in approximately \$10,000,000 to the state treasury, of which he estimated more than \$8,500,000 would be paid by out-of-state consumers. Goodman declared producers of the Permian Basin operating in his district could not bear additional taxes on the production of crude oil. "It costs more to produce oil in West Texas," he pointed out, "on account of higher drilling and operation costs. Most of the oil produced is sour oil and cannot be stored; so it must be sold on an immediate consuming market. The fact that it is sour oil, and being at a distance from basic seaboard markets, limits the demand, and with the further high pipeline transportation costs, causes a low market price for West Texas crude. The present severance tax, based on cents per barrel rather than market value per barrel results in unfair and excessive taxation of the low price crude oil. In West Texas, where most of the oil sells from 55 cents to 80 cents per barrel, the producer pays the same amount of taxes (2 3/4 cents per barrel) as the Gulf coast producer who receives \$1 a barrel for the same grade of crude oil." Pep, Goodman pointed out Texas now produces over eight billion gallons of gasoline each year of which about 88 per cent is shipped out of the state. He calculated that a tax of one-eighth of one cent per gallon on gasoline refined in Texas would raise \$10,000,000. Eighty-six per cent of the tax burden would be borne by out-of-state consumers of Texas gasoline. "Most of the proposed social security taxes are of a pot-shot nature," he continued. "They are meant to saddle the payment on some individual industry or helpless minority group. I feel it was not the intention of the citizens of Texas when they voted the social security constitutional amendments that the funds should be so raised. Taxes should be based on ability to pay, but all the citizens should participate proportionately in the payment of these social security obligations." Goodman was among the legislators in the regular session who supported S.J.R. 12, the constitutional sales and natural resource tax amendment which was endorsed by Gov. O'Daniel.

WEEK'S OIL OUTPUT SHOWS A DECREASE

TULSA, Okla., Nov. 21 (AP)—Production from the nation's oil wells declined 195,524 barrels daily to 3,596,575 for the week ended Nov. 18, the Oil and Gas Journal said today. Texas reported a decrease in production of 216,147 to 1,331,225, with East Texas off 96,747 to 398,446. Louisiana's crude flow dropped 1,066 to 286,443; and Illinois' 1,449 to 327,510. Kansas increased 14,900 to 178,500; Oklahoma, 1,550 to 431,075; California, 4,750 to 628,500; Eastern fields 100 to 103,200; Michigan, 590 to 84,692, and the Rocky Mountain area, 2,800 to 82,760.

TO INCREASE POWER

WASHINGTON, Nov. 21 (AP)—The communications commission today authorized radio stations KISM and WDAH, El Paso, Tex., to increase night power from 100 to 250 watts. The commission authorized KPND, Pampa, Tex., to increase hours of operation from daytime to unlimited time, and KGFL, Roswell, N. M., to change time of operation from specified hours to unlimited time.

Lee O'Daniel's office announced today Jake Tiry of Waco, appointed yesterday to be an associate justice of the Waco court of civil appeals, will be sworn into office at 2 p. m. in the governor's reception room by Judge Tom L. Beauchamp of the court of criminal appeals.

TREATY SIGNED

BERLIN, Nov. 21 (AP)—Foreign Minister Joachim Von Ribbentrop and Matas Gernak, the Slovak minister, signed a treaty today whereby Germany agreed to return to Slovakia territory annexed by Poland in 1920, 1924 and 1928.

ENROLLMENT DOWN

WASHINGTON, Nov. 21 (AP)—The Works Projects Administration reported today that total work relief enrollment was 1,900,463 on Nov. 8. This compared with 1,900,750 on Nov. 1. Officials called the increase of 29,713 "normal" for this time of year.

48 DIE IN STORM

MANILA, Nov. 21 (AP)—A sailboat strayed to Manila from Cebu sank in a typhoon yesterday with 50 natives aboard. Only two survived.

Rand Bankruptcy Plea Is Heard

SAN FRANCISCO, Nov. 21 (AP)—Helen Gould Beck, better known as Sally Rand, fan dancer, definitely has withdrawn all claim to the title of smart business woman. She is just a very broke little working girl, who would rather not bother her pretty blonde head with dull figures, especially ones written in red.

She told a group of long-faced creditors in bankruptcy court yesterday that her finances were, well, frankly, "a mess."

True, she took in \$74,836 from various enterprises at the Golden Gate exposition, sometimes vulgarly called skin shoes, and many thousands more from night club performances.

But she only got part of the take—and when everybody else got through taking cuts and the current bills were met, the debts just seemed to pile up faster than the money came in.

So, she explained apologetically that she just didn't have any money at all with which to pay \$64,631 in debts.

The hearing was continued to December 20, or maybe January, because Sally might be in Florida by that time.

Christmas Shoppers Urged To Look For Cotton Items

DALLAS, Nov. 21 (AP)—When you buy that Christmas present this year look over the cotton goods and see if you can't find something suitable for the little lady, urges Burris Jackson of Hillsboro.

Jackson, chairman of the statewide cotton committee, now is busily engaged in promoting "Cotton Christmas" in Texas.

Jackson is calling his committee of 300 members to Dallas Dec. 6 at which time plans will be made to carry out the program advocated by the cotton men and endorsed by Gov. W. Lee O'Daniel.

"The citizenship is urged to make cotton gifts for two reasons," Jackson said. "One is that it will help eliminate the cotton surplus. Another is that it will educate the people as to what type of goods can be made from cotton."

Charged In Attack

OXFORD, O., Nov. 21 (AP)—Eomer Williams, 24, a hopeful poet and a crack rifle shot, was held today on charges of firing five times at a pretty Miami university co-ed.

Officer Harry Spencer said Williams admitted he laid in wait on the campus for Maxine Edwards, 20-year-old junior, and fired when she ignored his remarks to her. She dodged into a hedge and escaped.

Charged with shooting with intent to kill, Williams attempted to hang himself in his cell last night after writing two confessions, Spencer said. The officer quoted Williams as saying he had brooded over the girl's refusal to see him.

Seek Man Accused Of Shooting Girl

DALLAS, Nov. 21 (AP)—Police today sought a 24-year-old man described as a former Hollywood movie extra after he shot one of two girls held captive in a restaurant booth an hour after midnight.

Miss Mildred Turner, 22, and Margaret Daniels said they were held in the booth when the man pointed a pistol at them under the table. When the restaurant cleared of other customers, they said, their captor fired point-blank at Miss Turner, inflicting a minor arm wound.

The man escaped.

JURY SERVICE FOR WOMEN ADVOCATED AT P-TA MEETING

GALVESTON, Nov. 21—Jury service for women and revisions of the liquor laws to protect the morals of youth were before the Texas Congress of Parents and Teachers as it opened the annual convention here today.

The executive board decided to present these discussions and also went on record as favoring field service throughout the state rather than direct money aid for extension work to Parent-Teachers Association councils and voted to pay the traveling expenses of two state vice-presidents to the national conventions.

POLICEMAN KILLED

CHICAGO, Nov. 21 (AP)—A park district policeman, Harry Francois, 37, was shot and killed last night as he approached three men who were in the act of holding up a couple in a parked automobile.

His squad car companion, Frederick Blank, chased the trio when they fled but they separated and escaped amid a fusillade from the sergeant's pistol.

KILLER EXECUTED

CARSON CITY, Nev., Nov. 21 (AP)—Burton W. Williamson, 43, a gambling game dealer who shot his wife and two other persons to death near Fallon, was executed in the prison's gas chamber today.

Mississippi In Oil Boom

YAZOO CITY, Miss., Nov. 21 (AP)—The rags to riches theme is getting a good dusting these days, for Mississippi—state with the nation's lowest per capita income—is in the happy throes of an oil boom.

An oil showing was found in Yazoo county August 26, and the test—Union Producing Company's Woodruff No. 1—was completed at better than \$1,000,000—poured in.

Hotels here at Yazoo City, 12 miles north of the Tinsley field, were jammed, overflowed to Jackson, capital city 45 miles south, and finally to Vicksburg, on the Mississippi river.

Yazoo county business boomed generally as lease takers paid from \$1 to \$350 for mineral rights on property assessed on county books at approximately \$2.70 per acre.

Now, with an estimated 3,000,000 acres of mid-Mississippi land under lease, geophysical surveys under way in a dozen counties, four wells completed as commercial producers and seven other tests under drill, the upsurge is noted at every hand in the midstate sector.

All this activity is leaving Mississippians somewhat breathless. After all, 490 wells had been sunk in the magnolia state prior to this year, without the producing oil in commercial quantities.

COMMUNITY CHEST CAN'T USE HORSE

NEW BRITAIN, Conn., Nov. 21 (AP)—The record doesn't show whether anyone looked in its mouth, but the community chest refused to take a gift horse.

A campaign solicitor reported a prospect said he was "too broke" to make a cash contribution, but pointed to his horse grazing in a nearby field and said, "You can have him if you want. I haven't the money to feed him."

Youth Held in Death Of 80-Year Old Woman

NEW YORK, Nov. 21 (AP)—A 21-year-old youth was held on a first-degree murder charge today after authorities said he confessed strangling an 80-year-old woman because she upbraided him for asking her for money.

A few hours after the body of Mrs. Henrietta Lohman was found in her Bronx apartment last night, police arrested Lawrence Frize, whose mother had been reared by Mrs. Lohman.

Frize told police, District Attorney Samuel Foley said, he killed "Grandma" because she scolded him for "running around with girls" and refused his request for money.

FOREIGN GOLD DEPOSITS FALL

WASHINGTON, Nov. 21 (AP)—Foreign gold deposited in this country "under earmark" has dropped below \$1,000,000,000 for the first time since May.

The commerce department reported today a \$68,890,731 decline in earmarked gold in the federal reserve banks in the week ended November 15, which brought the remaining total down to \$882,563,836.

Earmarked gold, which is owned by foreign governments and their central banks reached a peak of about \$1,300,000,000 in July and has been decreasing steadily ever since.

Although individual ownership of the gold is not disclosed, some of it is known to belong to the allies, and the allied portion may have been reduced in recent weeks to make cash payments for merchandise. The gold could be converted into cash by selling it to the United States treasury.

EARTH SHOCKS RECORDED

NEW YORK, Nov. 21 (AP)—Fordham University announced that two "severe" earth shocks were recorded on the seismograph today, at an indicated distance from New York of about 8,000 miles.

The shocks were at 5:15:09 and 5:16:08 a. m., (CST).

REVELLE TO GET NEW TWIST

WASHINGTON, Nov. 21 (AP)—Reveille is soon to have a new twist, but nobody expects that to add much to the American soldier's enjoyment of music.

Reveille, in case you've never been, thus hustled from your cot on a frosty morning, is the tune by which soldiers are ordered to get up.

The new twist on which the high command has decided is a sort of regimental signature. By this means it is expected that soldiers permitted to lie in bunks until 5 a. m. will not mistakenly arise when a nearby regiment is roused out for advancing scouting two hours earlier.

The distinctive signature may be played either before, or after the lively but much-berated measure which heretofore have waked up the army.
