Pickets March As Walker Held In Institution

SPRINGFIELD, Mo. (UPI)-Up to 100 pickets are expected by Saturday outside the U. S. Medical Center in protest to the confinement of former Army Gen. Edwin

That word came from a man who identified himself, as Cal Mende, Minnesota representative of a group called "The Committee to End Racial Discrimination against Fourth Class White Citi-

Mende, one of five pickets outside the center today, issued statement called "The Truth About General Walker." The Minnesota man said the entire Walker situation "was caused by news reporters and news agencies."

Walker was committed by federal order Monday for psychiatric examination here after his arrest during the University of Mississippi integration riots. He was charged wth rebellion, insurrec-

tion and seditious conspiracy. Mende, who would not say where in Minnesota he lives, said the other pickets today were not part of his group. But he assured police that all the picketing would be peaceful. Police said it better

many times by the FBI in the charges of "keeping late hours." Mende said his group got its name because some white people

Signs carried by the pickets read: "Walker for President," "Walker Was Framed-Are You Next?" "Inter-race Marriages will to the University of Mississippi. but the racial tension has changed Ruin the White Race," and "Civil Rights for Communism-Why Not for Walker?"

For years the people of the Sotween the pie-in-the-sky promises rial of Soviet leaders and the hard thing but sputniks.

Another of those hard realities towering concrete slabs, his them this week with the announcement that promised income tax cuts had been postpaned "until further notice."

These cuts, first announced in May 1960, were to have been carried out over a five-year period until all personal income tax was abolished.

In July 1961 the Communist newspaper Pravda published a new program. It promised: Promise of Progress

I'In the current decade (1661-70) the Soviet Union will surpass the strongest and richest editalist country, the United States, in production per head of population; the people's standard rified bathtub for fish." of living and their cultural and technical standards will improve tive and state farms will become with creatures of the deep. highly productive and profitable enterprises; the demand of Soviet people for well-appointed housing will, in the main, be satisfied; hard physical work will disappear; the U.S.S.R. will become the country with the shortest work day.

Within the same 10 years, the program promised increases of 150 per cent in both industry and agriculture.

To achieve the highest living standard in the world, the Soviet planners not only promised to abolish income taxes but to lower retail prices as well.

Not even a year later, in June 1962, the government hiked meat and butter prices 25 to 30 per

Low Wage Scale When in 1960 Khrushchev announced his tax cut, he also revealed how poorly paid most Soviet workers are. Most, he said, earned less than \$100 per month. Before this week's postponement, taxes afready had been abolished incomes up to about \$65 per-

L. B. DAVIS, PASTOR PROGRESSIVE BAPTIST CHURCH

THE NECESSITY, MEANS AND TESTS OF CONVERSION SCRIPTURE: ACTS, 16:30-34

I. Its Necessity.

If I go overland to California, I must scale the Rocky Mountains. If I ever get sight of Europe, I must cross the ocean: If one ever sees the light, he must have eyes: So there are some "musts" in religion. Christ used the word "must" frequently. He applied it to this though of conversion, "Verily, verily, I say unto you. Ye Must be born again." There are some people who do not like that doctrine. We know a woman who left the church she had been attending, saying that her reason for doing so was to get rid of hearing about conversion. But Christ makes the necessity of conversion as plain as any teaching. He taught that regeneration, or conversion, is necessary if we are to enter the Kingdom of God. The method is mysterious "The wind bloweth where it listeth, and thou heareth the sound there of, but canst not tell whence it cometh or whether it goeth; so is every one that is born of the spirit." We can understand how necessary the new birth is when we consider our sinful state by nature. We are dead in trespass and in sin. We are not simply sick, and able, with effort, to cure ourselves. We are not entirely well, and able to save ourselves; but we are dead, and can only live by divine grace placing within us and fanning a spark of life.

II. What This Change Is. 1. From the divine side it is called regeneration. It is the result of an act, by a power outside of ourselves. It is due to God's choice of us. It is due to God's bringing His truth to bear upon us. It is due to God's working by His Spirit within us. It is a new

birth, a regeneration - beginning to live over again.

2. From the human side it is spoken of as conversion. Conversion is simply turning about, It is walking along the road in one direction, then turning and walking in the opposite direction. In the evening the Philippian jailer was most crueling treating Paul and Silas. Before morning he was washing their stripes and showing them every attention. That was conversion - a turning about. Conversion is man's surrender to God. It is, "right about face. "It is, of course, usually the direct result of regeneration. III. The Means of Conversion.

1. In this case there was, first the praying and singing of the Apostles. The prisoners were listening. Conversion usually comes about in the same way still. It is as some sound is heard, such as the praying of a body of God's people, or their singing, or as someone preaches or teaches the WORD that the Spirit applies the truth to those who

2. There was, secondly, the shock of the earthquake. So it is still. The soul is arrested by some circumstances - lost of property, severe disappointment, a death in the family. or something that brings a shock. It is when our attention is riveted that the Spirit takes hold of us and conversion results.

3. Faith, Faith is the assent of the intellect and the consent of the will. It is the yielding to Christ as Lord.

IV. Tests Of Conversion.

1. Rejoicingly hearing God's WORD. A man having turned to the Lord will want to hear all he can about Him, This was one indication of the jailer's conversion. He invited the Apostles to spak to him freely in regards to the way of life.

2, An immediate change of life. This was noticeable in the jailer, for he was transformed at once from a cruel jailer to a merciful nurse "He took them the same hour in the night and washed their stripes.".

3. Immediate confession to Christ. "And was baptized." He did not delay to make known that he hoped for salvation through Christ. He did not wish to be a disciple secretely. One of the best indications of conversion is that a person should desire to make an open confession of his faith in Christ, or love for Him and a purpose to strive to serve Him. "O, that men everywhere would hear the Word of God, and live."

4. Helpfulness. "And when he had brought them into his house, he set meat before them," When people begin to feed others it is a good sign. When they begin to be helpful to those about them and promote the cause of Christ, you may be pretty sure that they have experienceed the converting grace of Christ.

5. Joy in the new life. The record is that the jailer "rejoiced," Christian joy is a good sign of a possessing Christian heart.

6. The man's home was changed. The change reached the conduct of his household. A Blessing came to others besides himself that day. This is the way sound conversion affects the lives of people. We may test our ground for hope by this incident of the Philippian

of others. Freedom is self-control, no more, no less. To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides express-

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he de-

velop to his ulmost capabilities in harmony with the above moral

TEX EVANS BUICK RAMBLER

Sputnik Plus Five

The U.S. led off 1960 in space in March wh the Pioneer V interplanetary probe set a long distance radio transmission record of 23 mi lion miles. Even more successful was Tiros I, launched in April. World's first weather satellite, it relayed thousands of pictures of the earth's cloud patterns.

April also saw the launching of Transit 1-B, the first navigational satellite. In August, Echo I became the largest satellite put into orbit. The 100-foot-diameter reflecting bolloon paved the way for a world-wide communications system.

By Don Oakley and Ralph Lane

In preparation for manned space flight, Russia announced in May the launching of its first 'spaceship.' A malfunction (first ever admitted by them) sent it into a higher orbit instead of bringing it back to earth. On Aug. 11, the U.S. was first to recover a satellite from space when divers retrieved the 300-pound Discoverer XIII capsule from the Pacific. A week later, Discoverer XIV was snagged in mid-air, a feat which became routine. On Aug. 20, Russia recovered another spaceship containing two dogs and other animals after 17 orbits. Clearly, the coming year would see man go into space.
