United Fund Has \$15,345.85 After 1st Report Meet

Following the first report meeting yesterday afternoon on the current Pampa - Lefors United Fund drive, \$15,345.85 has been raised toward the \$73,600 goal.

The drive was kicked-off last Tuesday with some 225 volunteer workers given prospective donor cards to be circulated throughout the city.

Approximately 40 workers turned in their cards and money at the check-in yesterday with the biggest bulk of the funds coming from the mail - in donations.

George Scott, chairman for the drive, said the money which has been collected this past week looks encouraging that this year's goal may be reached.

He also stressed the importance of the workers to attend the report meetings and turn in all money which has been collected.

United Fund officers have named the man on the water tower next to the Central Fire Station, Changeable Charlie, and he will be moving toward the top of the thermometer after each report meeting.

Mrs. Emmett Gee, secretary for the United Fund, said that anyone who is unable to attend the report meetings should bring their collections to the office in the basement of city hall anytime before 5 p.m. (See UNITED FUND, Page 3)

Commission In Discussion Of Highway Project

Howard Kenyon, fiscal agent for the City of Pampa in the proposed \$1.5 million bond issue for highway and drainage improvements on State Highways 273 and 152 and U. S. 60 in Pampa, met with the City Commission in Coronado Inn this noon.

Purpose of the meeting, Kenyon said, was to prepare information for presentation to the voters of Pampa in connection with the bond issue proposal.

"We want everyone to be thoroughly familiar with just what work would be done under the bond issue, what it would cost and how the entire project would be financed."

Preliminary plans have been set for the City Commission to call an election on the bond issue for Tuesday, Oct. 30.

This is expected to be done at a special meeting of the Commission on Friday, Oct. 12.

City Manager Harold Schmitzer said today he had received several answers to letters sent out to Pampa civic clubs and organizations recently requesting that a speaker be allowed to explain the bond issue to members.

Speakers will appear at the Pampa Real Estate Board meeting Oct. 15 in Coronado Inn; Thursday, Oct. 4, Council of Clubs at 8:30 a.m. in the City Club Room; Tuesday, Oct. 23, Pampa Service League at 10:30 a.m. in the City Commission Room of City Hall; and Tuesday, Oct. 9, American Business Women's Ass'n. at 7 p.m. in the dining room of the Pampa Hotel.

Rusk, Others In Studies About Threat Of Cuba

WASHINGTON (UPI) — Secretary of State Dean Rusk meets today with top officials of 19 Latin American countries to consider additional measures short of war to meet the threat of aggression or subversion from Soviet-dominated Cuba.

The United States, which called the "informal" two-day conference of hemispheric foreign ministers, wanted the participants to reaffirm their obligations under the treaty of Rio De Janeiro to take military action if that becomes necessary.

Rusk already had circulated to individual Latin American foreign ministers a five-point U.S. proposal to "limit the usefulness of Cuba as a base for Soviet penetration, or as a threat to the peace and security" of the hemisphere.

The U.S. memorandum called for further trade and shipping restrictions, intensified internal security arrangements to guard against Castro infiltration and special vigilance in the Caribbean to prevent the spread of Communist domination beyond Cuba's borders.

President Kennedy planned a White House lunch for them following this morning's session and Rusk will be their host tonight at a stag dinner in the State Department.

DISCUSSING POLITICS — Paul Wiley, left, president of the Gray County Democratic Club, is shown here discussing plans for the county-wide Democratic campaign which was the topic of last night's club meeting held in the county court house. Assisting in plans are, left to right, Walter Rogers, candidate for re-election as representative of the 18th Congressional District; Grainger McIlhenny, Wheeler, candidate for re-election as state representative of the 87th Legislative District; and Lynn Boyd, Rep. Rogers' district campaign manager. (See story, page five) (Daily News Photo)

Polio Vaccine Registration Form Printed

The registration form for the October 7th (Sunday) Sabin Oral Polio Vaccine Program in Gray County is printed in today's News on page three.

Vaccine project representatives have strongly urged persons anticipating participating in the project this Sunday to have the registration form filled out when they arrive for their vaccine.

The registration forms must be filled out and presented to officials at the various vaccine clinics before the inoculation. It was pointed out, and filling the forms out in advance will help to "speed up" the process of inoculation.

All residents of the county above the age of six months are being urged to take the vaccine. Type I vaccine will be administered Sunday with later clinics slated for the other two vaccine types.

Russian Policy Of 'Nuclear Obliteration' Is Suggested By 'Super Bombs' Testing

LONDON (UPI)—British experts said today Russia may be concentrating on super-bombs in a shift to a strategy of "nuclear obliteration."

Recent Soviet tests have involved multi-megaton devices ranging from 10 to 30 megatons, or more. A megaton is equal to a million tons of TNT.

Russia climaxed its previous series last fall by testing a 50-plus megaton bomb, the largest ever exploded. Premier Nikita Khrushchev has boasted Russia can make them even bigger, up to 100 megatons.

The current Soviet nuclear test series has included, according to available information, several devices in the 10-15 megaton range and two others of 30 megatons and more.

Experts in London believe such devices can only be aimed at total and indiscriminate obliteration of vast areas, including cities.

The United States, by contrast, favors a nuclear war strategy of discriminating attack limited largely to strategic targets, while sparing cities and other chiefly civilian areas.

This latest British assessment is backed indirectly by a recent Soviet publication dealing with nuclear strategy.

A military study published in Meshdunarodnaya Shism (International Affairs) earlier this year plainly stated that military strategy will favor a blow against such targets whose destruction will paralyze the enemy almost instantly.

While 58 cities and towns are affected, Pampa and Hereford were the only two represented at yesterday's hearing before the Texas Railroad Commission on the application of the Pioneer Gas Company for a gate rate for the delivery of gas for domestic and commercial use.

The gas company's application asked for a gate rate of 28½ cents per thousand cubic feet.

City Manager Harold Schmitzer, City Commissioner Leon Holmes and City Atty. Bob Gordon returned from the Austin hearing late last night. The hearing was conducted from 10 a.m. until after 5 p.m. yesterday.

City Atty. Gordon asked the

Two Dead, 75 Injured And 200 Are Arrested

By AL KUETTNER
United Press International

OXFORD, Miss. (UPI) — Negro James Meredith began his second day of classes today at a University of Mississippi campus tightly guarded by 15,000 U.S. troops. There were no incidents.

The 29-year-old Negro was accompanied by Chief U.S. Marshall James McShane and a number of other officers. To reach the graduate school building for his 8 a.m. class in American colonial history he was driven past the debris of Sunday night rioting that left two dead, 75 injured and more than 200 arrested.

Meredith left his first class at 8:55 a.m. and was driven to his next class. A few students glanced curiously as he passed but there were no derisive shouts as there were Monday. The car containing Meredith was followed by an Army truck containing six rifle-bearing soldiers.

Although the campus was quiet, there were reminders that it was the armed might of the federal government that kept it so.

During the night 27 persons armed with shotguns, baseball bats and lead pipes were arrested at some of the numerous roadblocks around the city. A mace was found in one car.

Those arrested were taken to the airport and placed in a compound.

The campus was anything but a typical college scene. Besides the litter, including burned-out automobiles and mounds of tear gas cannisters, soldiers with rifles and combat fatigues uniforms lounged where coeds normally strolled.

Many of the coeds were not around today. Many of them were taken from the campus by anxious parents.

A professor who came early to his lecture in the graduate school building turned and stared almost in disbelief to see the military equipment parked outside the building. Troops were obviously ready to put down in a moment any outbreak.

Downtown, the college town of Oxford also was tightly guarded by armed troops. Soldiers slept overnight on the courthouse lawn in sleeping bags, and foxholes were dug on a hill overlooking the airport highway. Cars were stopped in a search for arms and drivers who didn't stop immediately were brought up short with a sharp command to "halt!"

Students at the university appeared to be attempting to ignore what was going on, but took determination on a campus that was an armed camp. There was little laughing and bantering.

One coed rushed Monday from a class with Meredith, tears streaming down her face, screaming: "I can't stand it any more!"

During the early morning hours a campfire flickered on the campus as soldiers tried to keep warm in the chill air—much as Yankee soldiers burned campfires on Southern lawns 100 years ago.

Black Headlines Inform World Of Crisis In Oxford

LONDON (UPI)—The Mississippi racial crisis brought out propagandists, cartoonists and big black headlines around the world today.

Practically the only support for Gov. Ross Barnett and other Mississippi state officials came from Colin Jordan, leader of the British Nazi movement, who cabled congratulations "on your stand for the racial survival of the white man."

There was little comment from Moscow. The Soviet government newspaper called the fatal shooting of a French newsmen "the crime of racists." Earlier Tass news agency said the University of Mississippi campus was "notorious as a stronghold of bigotry and racism."

Most European and Asian newspapers appeared to recognize the scope and depth of the American racial problem and said the Ole Miss battle was only one phase of what will be a long fight for integration in the United States.

The London Daily Mail printed a front-page cartoon showing a grinning Soviet Premier Nikita S. Khrushchev talking into a telephone and saying: "And Mr. Kennedy, would you like some of my technicians in Cuba to help you out in Mississippi?"

The Guardian said Barnett "must bear a heavy moral responsibility for the events of this tragic night. The chain of events set going by the governor's initial defiance... made violence likely."

The London Telegraph said the Mississippi affair had to be viewed as an episode in the long social revolution which may take another generation to complete.

"This is a victory for law, and a credit to President Kennedy," it said.

The London Daily Mail listed examples of discrimination in Britain, and the Telegraph reminded Britons that the entire Commonwealth could not force South Africa to end its apartheid policies.

"Paris' Combat commented: 'There are laws, judges and power in the United States, and President Kennedy has just proved it in putting to flight the racist and fascist clique around Gov. Barnett and ex-General Walker.'

Nixon, Brown Clash Before UPI Editors

SAN FRANCISCO (UPI)—Gov. Edmund G. Brown and challenger Richard M. Nixon rode into the final weeks of the election campaign today on a wave of bitter charges and counter-charges.

Their reasonably polite race for governor of California changed overnight into a slugging match.

The Democratic incumbent and his Republican opponent clashed head to head Monday, in their only joint appearance of the campaign, before the 1962 Conference of United Press International Editors and Publishers.

From that often-heated exchange came two issues that undoubtedly will draw sparks from both men in the closing five weeks of their battle for governor.

"The question of whether it was 'morally or ethically proper' for Nixon, then the vice president, to permit the Hughes Tool Co. to lend \$205,000 to Nixon's brother, Donald.

"A fiery difference of opinion as to whether Nixon endorses or repudiates two congressional candidates who are members of the John Birch Society and whether Brown blesses the candidacy of two Democrats who Nixon alleged helped lead the riots against the House Un-American Activities Committee when it met in San Francisco on May 1, 1960.

The issue of the Hughes loan was injected into the UPI discussion by Thomas W. Braden, publisher of the Oceanside (Calif.)

Blade-Tribune and Brown appointed to the state board of education.

"I want to ask you if you think it is proper for a candidate for governor, morally or ethically, to have permitted his family to receive a secret loan?"

Moderator Preston Robinson, general manager and editor of the Deseret News and Telegram, Salt Lake City, ruled Nixon did not have to answer the question.

"I insist on answering it," said the former vice president.

He then related that six years ago his brother was in "deep financial trouble" and that Donald Nixon borrowed \$205,000 from the Hughes Tool Co., controlled by multi-millionaire Howard Hughes.

The candidate said his mother put up some of her property as security and that his brother finally went bankrupt. The property went to the tool company.

"I had no part in my brother's business and I had no part in the negotiation of the loan," Nixon said. "I was never asked to do anything by the Hughes Tool Co. and I never did anything for them."

Blames Governor

Noting that President Kennedy did not raise the Hughes loan as an issue in the 1960 presidential campaign, Nixon then accused Brown "and his hatchmen" of "slyly" planting the idea that Nixon had done something wrong in connection with the transaction.

Turning to Brown, standing barely 10 feet away, Nixon said: "I have made mistakes, but I am an honest man. Now is the time to have this out. If the governor has any evidence that I did anything for the Hughes company, now he has his chance. Governor Brown has a chance to stand up as a man and charge me with misconduct. Do it, sir!"

Brown replied: "I have said nothing about it to anyone whatsoever, other than to ask some people as to why your campaign manager, when the note first was disclosed, stated that the note was made by someone else, and I wanted to know the facts in connection with the situation."

Governors Give Consideration To Backing Barnett

HOLLYWOOD, Fla. (UPI)—Southern governors today gave their attention to behind-the-scenes consideration of a resolution backing Gov. Ross R. Barnett of Mississippi in his stand against desegregation.

Two general sessions of the annual southern governors' conference were scheduled.

The segregation question was nowhere on the agenda, but the Mississippi crisis was getting the major share of private attention. The five-day conference opened Monday.

Gov. John Patterson of Alabama was Barnett's most outspoken supporter. He said the blame for Sunday night's rioting on the Oxford campus "should be placed squarely on the doorstep of the U.S. attorney general and his brother, the President."

Patterson said he would like to see the conference go on record as backing Barnett.

Gov. Buford Ellington of Tennessee urged the governors Monday not to use their 28th annual meeting "as a spotlighted platform from which to sound off on issues of an emotional nature."

"Similar sentiment among other governors at the conference would be one roadblock to a resolution putting the conference on record in the Mississippi situation. A number of governors have said since coming here that they believe in upholding the laws of the land."

Television In Review

By RICK DU BROW
United Press International

HOLLYWOOD (UPI) — As a male, it is a little unnerving to note that the two heroines of Lucille Ball's new half-hour comedy series, which had its debut Monday night, are a widow and divorcee. It seems to say quite a bit about the modern family man — and woman.

The characterizations are not an accidental or hit-and-miss affair either. Loreta Young, in her new series, portrays a widow too. So did Gertrude Berg last year in a show that unfortunately failed.

In Miss Ball's CBS-TV return, produced by Desi Arnaz but no longer costarring him, the red-haired comedienne plays the widow — with two children. The divorcee is Vivian Vance, her former "I Love Lucy" sidekick, who shares her home in the program. As we all know from Hollywood movies, divorcees are hilarious but widows are sympathetic, and that explains the casting.

Anyway, "The Lucy Show," as it is now called, is not as noisy as "I Love Lucy" — on which a television empire was built — but it is pretty much the same stuff. Personally — despite the great clowning ability and gusto of Miss Ball — only duty could force me to watch the cute, hokey pep that is passed off by most of television's domestic situation comedies, of which this is just another, and very ordinary, example. It is enough to give one second thoughts about duty.

Millions, of course, will love "The Lucy Show." They will love Monday night's story in which Miss Ball doesn't want her daughter to know she waited up for the girl to return from a date — and sneaks out a back door and bounces into a second-story window from a transpilot.

But watching Miss Ball expend her vast talent and energy each week on television, when she no longer needs the money and is much more valuable on the stage or in the movies, is as disconcerting as if Richard Rodgers were to turn up as a regular on the Dick Clark Show.

ABC-TV Monday night offered a new hour-long series, "Stoney Burke," about a fellow who is going to be a rodeo champ and don't nobody get in his way because he's rough and tough, you bet. At ABC, they feel Stoney is this year's "Ben Casey," which is certainly thrilling information. The first show was violent, mercilessly commercial, and appealed to cheap and primitive tastes. A large part of the action concerned Burke's desire for another man's woman, Leslie Stevens, the producer, also dealt exhaustively with this subject in another of his efforts, the movie "Private Property." Fascination with any subject may be forgiven if it is accompanied by art. This was merely tawdry. It may be a hit.

The Channel Swim: NBC-TV's Saturday night movie Oct. 13 is "Three Coins in the Fountain." ABC-TV's "Ben Casey" is No. 3 in Tokyo ratings. Two sponsors will pay about \$660,000 for NBC-TV's two-hour repeat of "Peter Pan" with Mary Martin Feb. 5. The Broadway musical "Pal Joey" will be made into a 90-minute video special; Ann-Margaret signed for it, and Steve Lawrence may do the title role. Merle Oberon appears on NBC-TV's "Here's Hollywood" Oct. 8. Bette Davis on Oct. 9 and Edie Adams Oct. 12.

Bob Newhart and Dennis Weaver guest on Garry Moore's CBS-TV show Oct. 9. Star Josh Peine is being downgraded in the new NBC-TV series, "Don't Call Me Charlie!." Horror movie specialists Boris Karloff, Peter Lorre and Lon Chaney Jr. turn up on CBS-TV's "Route 66" Oct. 26.

Aerial Team
FARMINGDALE, N.Y. (UPI)—The Air Force's lethal F-105 fighter-bomber, built by Republic Aviation here, has been assigned a new and critical cold war role—unarmed.

The 1400-mile-an-hour jet that is capable of carrying atomic and hydrogen bombs will be the new vehicle of the Air Force's official aerial demonstration team, the Thunderbirds. It will be the aerobatic team's first performance in a Mach 2 (twice the speed of sound) jet. Organized in 1953, the Thunderbirds have performed in some 750 air shows before 30 million spectators in 50 states and 20 foreign nations.

aid to help keep law and order. No one stopped Meredith's entry, but when the crowd got ugly the state police were "withdrawn," he said.
The attorney general did not say who withdrew them, but he charged that when the marshals were fighting for their lives on the campus 100 highway patrolmen were sitting in about 80 cars a quarter of a mile away.

examiner of the Gas Utilities of the Railroad Commission that Pampa be excluded from the list of cities on the grounds that Pampa is sitting on top of the source of the gas supply and should not be included in the gate rate charge.
The hearing on the application was continued until Nov. 5 and Gordon asked for a copy of the transcript of yesterday's proceedings.
He was told this will be supplied within the next two weeks. The city attorney then plans a study of the proceedings for further preparation in the case.
Pioneer has been distributing gas to the Panhandle and South Plains cities involved under a "burner tip" charge assessed at the point of gas consumption. The proposed change would set up the 28.25 cents per thousand cubic feet charge for the gas at the "city gate" or at the point of entry into a city.
There would be a separate rate, determined by each purchase point, for the gas from the city gate to the burner tip for commercial and domestic use.
Gas company representatives told the Railroad Commission yesterday the proposal is essentially a bookkeeping procedure for rate making on the gas.

Work Shop On Phonics Is Scheduled

A "Phonics Work Shop" for interested persons will be conducted four consecutive Thursdays from 7 to 9 p.m., beginning Oct. 4, at St. Matthews Episcopal Church day school, 727 W. Browning.
The Work Shop will be conducted by Mrs. Aubrey L. Jones, assisted by Miss Lelia Clifford as first grade consultant.
The materials and methods used in this "phonics-work shop" is the result of much research and study, according to Mrs. Jones. The material has been compiled so that it may easily be adapted in any reading series for teachers. It gives a strong background for spelling. It will also be of special interest to mothers of school age children, she stated.
Both Mrs. Jones and Miss Clifford have had considerable training and many years experience in the field of phonetics. There will be a small registration fee.

Youth Held In Theft Of Rifle

Amarillo police today were holding a 17-year-old Amarillo youth in connection with the theft of a 22-caliber Remington rifle from a Pampa hardware store last Saturday.
The youth, when picked up in Amarillo on another charge, had the rifle in his possession and told police he had stolen it in Pampa. Amarillo officers said the suspect also has been charged with parole violation.
The gun was taken from the Pampa Hardware Co. store, 120 N. Cuyler, according to Travis Lively, Jr., who reported the theft to local police yesterday.

Senior Center Corner

By MRS. G. A. WAGNER
Senior Citizens' Corner

The Sr. Center celebrated its sixth anniversary Thursday Sept. 27th, and was a huge success. One hundred Seniors were present, and many of them brought their handicraft for exhibit. Some of the outstanding work was hand-made lamps of colored layers of dark mahogany and light layers of white ash. Even the shades were of alternating panels of the white and dark wood, very beautiful, made by hand by L. F. Noe. He also showed several other novelties of wood. So many beautiful and exquisitely made articles were shown, I could not describe them all or have space to give all the names. Beautiful crocheted tablecloths, pillows, quilts beautifully made and quilted, centerpieces of crocheted, rugs braided and tufted.

As usual the Altrusa club, who sponsors the Center, were Hostesses. Mrs. Lorena Locke, president of the club introduced the special guests who were present and spoke briefly to the audience, including City Manager, Harold Schnitzer and Bill Craig, County Judge, who expressed the hope that the arts of this generation would be passed on to the coming generation. Mrs. Locke in her address of welcome stated that the idea for the Center grew out of a group organized about eight years ago called the Nacomans, and eleven out of the nineteen were present of the first group.

Present was Mr. Fritz Forebel of Hamburg, Germany, who is visiting his daughter, Mrs. Duane Cash and family, south of town. He will return to Germany in about a month. Lovely person, wish I understood German.

Miss Lucy Herliacher told us that her brother Frank is being transferred to Tucson, Ariz. Mrs. Johnnie Spidell is expecting her son, Murray Spidell of Odessa for the week end. Mr. Spidell is in the Odessa school system.

Mr. and Mrs. Ernest Austin, old friends from Austin, whom Mrs.

Mollie Hethcock had not seen for years, paid her a short visit recently.

Mr. and Mrs. P. G. Turner returned from Fort Worth recently, where Mr. Turner did some repair work on their rooming house. They also visited relatives in Lawton, Okla. and Quannah.

Mrs. Cora Long had the pleasure of having several of her children home recently. They were Luther Long, Mrs. Pauline Wright, R. L. Long, L. R. Wright.

Mrs. Lida Ramsey visited two of her daughters in Amarillo last week.

Mrs. Maggie Deal and daughter, Mrs. Frank Arthur, attended the fair at Amarillo last Saturday and also visited Mrs. Deals sister, Mrs. Flov Posey while there.

Mr. and Mrs. Marion Miller and Mr. and Mrs. Lackey of Stoy, Ill., visited recently with Mrs. Elma Bailey. They were enroute home from vacationing in Colorado, Arizona, and the Grand Canyon. Mrs. Miller is a cousin of Mrs. Bailey.

Mr. and Mrs. Jay Evans plan to spend the week end in Oklahoma City with his brother, Asa Evans, who is in very poor health.

The Sr. Citizens would like to say THANK YOU to the Altrusa Club, Gray Ladies, and all the clubs and church organizations which have made it possible for them to enjoy the fellowship and games once a week the past year, also the City and the Lovett Library board.

Thought for the day: Civilization is just a slow process of learning to be kind. (Chandler L. Lucas in Readers Digest.)

Love, Mrs. Wagner.

Would you crush out a cigarette on your own floor? No! Then don't do it in a public place.

DEAR ABBY: I've heard of men having sympathetic labor pains, but listen to this: I am 55, am going through "the change," and my husband is having "hot flashes." It's no joke. He gets so warm the perspiration drips off his face. He doesn't think a doctor can do anything for him so he won't go to see one. Have you ever heard of anything like this before? Can he be helped or will he just look foolish if he goes to a doctor for an examination?

HOT FLASHES
DEAR HOT: Your husband should see a doctor. Take an appointment and let him sweat out the examination.

DEAR ABBY: The boy who sits behind me in History gave me a note to pass to the girl who sits in front of me. Before I could pass it to her, the teacher grabbed it. She read it to herself and her glasses fell off. I don't know what the note said but it must have been pretty awful. Now I have to stay after school every night this week. Do you think it

Dear Abby
By Abigail Van Buren

is fair to punish me for something I had nothing to do with?

MISS IN THE MIDDLE
DEAR IN: You know that note passing was against the rules. But I would disassociate myself with the contents of that note. That's only being fair to yourself.

DEAR ABBY: Here is a mess if you ever saw one. I am married and have a family. Two years ago I became involved with a married woman 15 years younger than myself. She offered to leave her husband if I'd leave my wife. I said, "Maybe." On the strength of that "maybe," she divorced her husband. I quickly realized that my wife and children meant more to me than my girl friend. Also the financial beating I'd take wasn't worth it. I now feel morally obligated to marry this girl who broke up her home for me. I love my wife and don't want a divorce. I'm torn between two women and am obligated to both. Any advice formulated to both.

A LOUSE
DEAR LOUSE: Your first obligation is to your spouse, Louise. As for the girl who gambled and lost, she'll remain on your conscience as the price of your folly.

DEAR ABBY: I read with interest the letters from mothers bragging about the remarkable abilities of their children. Some walked at 7 months, some talked at a year and some did The

Twist at 4 months. I am proud of my child, too. She can walk up and down stairs, can write and tell me what she wants.

MOTHER OF AN ANGEL

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. A startling innovation is the sheer front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem. The girdle itself is of "wonder" Lycra spandex fiber. It feels like nothing on but has such slimming strength that gives your figure everything that's possible with a foundation.

"Suddenly Slim" is the peak achievement of the designer-genius, Olga.

with Alabama. It is on Highway 11 leading to the City of Birmingham.

There have been persistent rumors that White Citizens' Councils and other segregationist groups might attempt to send convoys to Oxford from Alabama or other neighboring states. Other Army units stood on standby basis in Memphis, Tenn., 60 miles north of here.

Under Guard
The 29-year-old Meredith himself was under heavy guard in a room on the second floor of Baxter Hall. Most of the other students in the dormitory, all white, had moved out.

Monday night, 60 Military Police ringed the floodlighted building, and marshals were stationed inside.

During the evening a small group of students began throwing bottles at marshals outside Baxter Hall. The federal men replied with tear gas, and the students fled.

A coed who lives in the largest girl's dormitory of the campus said about 70 per cent of the 250 girls there had gone home or were staying with friends off the campus. She said she did not think the girls had left the university permanently, but had moved out temporarily on the instructions of their parents.

Patrol Streets
Through Monday night, Army patrols marched through the streets of the town. They occasionally came upon groups of teen-agers whom they herded along, usually taking them to automobiles which were searched thoroughly, including the raising of hoods.

Soldiers stationed on second-floor balconies on Court Square buildings with automatic weapons beside them heightened the picture of an occupied city. Other soldiers were stationed on the steps of the Federal Building.

The six entrances to the Mississippi campus were blocked by jeeps.

Mr. and Mrs. O. E. Snodgrass visited their daughter and family, the Doyle Harris, this week from Seminole, Okla., on their way to Grants, N.M. to see a new grandson.

Democrats To Open Campaign Headquarters

Final plans to open a Gray County Democratic Campaign headquarters at 304 W. Foster, St. highlighted the meeting of the County Democratic Club at last night's meeting in the county court house.

Special guests were Walter Rogers, Pampa, candidate for reelection as Congressman of the 18th Congressional district, and Grainger McIlhany of Wheeler, candidate for re-election as representative to the 87th legislative district.

Congressman Rogers spoke to the group on the "spreading of half truths and misrepresentations." Representative McIlhany returned Rogers' statements on "misrepresentation of legislative voting accomplished by taking a vote out of context or taking a vote out of procedure."

Paul Wiley, club president, presided at the meeting. He appointed several chairmen to begin the drive to conduct the Democratic campaign in the county.

Don Cain was appointed to head the publicity campaign and Lynn Boyd will head the finance committee.

Other committeemen include Jimmy Thompson, Gray County chairman, to head the education committee. Mrs. Roy McHenson will be in charge of the voter stimulation committee and Mrs. Ramona Smith and Mrs. May Simpson will be in charge of the local campaign headquarters.

Wiley announced to the club that on Thursday, Preston Smith of Lubbock, candidate for Lt. Governor, will be in Pampa for a campaign tour of the city. Following his visit to Pampa he will go to Borger to attend the area Democratic Rally, scheduled to be held at 7:30 p.m. Thursday in that city.

He will be joined there by John Connally, Walter Rogers, Wagoner Carr, Grady Hazelwood, Joe Pool, Grainger McIlhany and Fritz Thompson, all candidates for state offices on the Democratic ballot in the November General Election.

Officers Of Hotel Elected By Directors

Eight directors were elected at the annual stockholders' meeting of the Community Hotel Company of Pampa, owners of Coronado Inn, this morning in the Starlight Room of the Coronado.

Named to serve three-year terms were Lynn Boyd, Hugh Burdette, Mrs. Donna Cornutt, George Scott, George B. Cree, Jr., Kirk Duncan, Floyd E. Emel and Fred J. Neslage.

Hotel Company President Frank M. Culberson gave a year-end report, in which he said that the progress made during the past twelve months had been most gratifying. He stated that the enlarging of the Pampa Club had increased the interest in the overall hotel facilities.

Culberson also paid tribute to Jim O'Connor, resident manager, on his accomplishments since his arrival almost a year ago.

Culberson urged the stockholders to continue to boost the Inn as the center of civic and group activities.

Plans call for the installation of the Inn's own laundry facilities in the immediate future, he said.

Immediately following the stockholders' meeting, the board of directors elected Hugh Burdette as their new president. Also elected were C. P. Buckler, vice-president; E. O. Wedgeworth, secretary; and W. J. Smith, assistant secretary.

Named to the executive committee were Lynn Boyd, A. A. Schuneman, Floyd E. Emel, Hugh Burdette and Frank M. Culberson.

Girl Scouts In Swim Program
Senior Boy and Girl Scouts from the Pampa area will act as aides for the Girl Scout swimming program being held from 9:30 to 11:30 a.m. each Saturday in the Youth and Community Center, if they have received enough advanced swimming instruction to qualify.

Girl Scouts from throughout the city are invited to attend the swim program.

Two qualified life guards are on duty during the sessions. The program is open to Boy Scouts only if they act as aides.

Pampa chapter of the Red Cross announced it would conduct swim classes at different levels if enough interest is shown in the program.

The Lighter Side

On Exchange Of The 'Top Ten'

By DICK WEST
United Press International
WASHINGTON (UPI) — When a disc jockey refers to the "10 top tunes," he is not necessarily referring to the 10 "best" tunes, bearing this in mind, let us now review the recent negotiations between Soviet Premier Nikita Khrushchev and Irv Lichtenstein, a radio station vice president who occasionally dabbles in international diplomacy.

Last February, seizing the cold war initiative from whoever or whomever was carrying it at the moment, Lichtenstein sent a letter to Khrushchev proposing a "cultural exchange" between the Soviet Union and Silver Spring, Md.

"I didn't even have his street address," Lichtenstein recalled, but he did not let that deter him. The Lichtenstein plan, known in diplomatic and disc jockey circles as a quid pro quo, was as follows:

Offers Equal Time
His station, WWDC, which covers the Washington area from a Silver Spring studio, would play Moscow's 10 top tunes on its broadcasts if Khrushchev's station, Radio Moscow, would in turn play Washington's 10 top tunes.

We do not know Khrushchev's exact reaction, but it was about this time that the Soviets began reinforcing the Berlin wall.

Apparently, he eventually came to realize that Lichtenstein had put him in a position where he would either have to accept the proposal, or reject it, or ignore it.

This week, WWDC received a stack of Russian records. In the absence of evidence to the contrary, Lichtenstein proceeded on the assumption that they represented Moscow's top 10.

The music leans heavily toward contralto and choral arrangements of such titles as "Evening Bells" and "The Broad and Rolling Steppe."

Audience Wants More
When excerpts were played on the air, audience response far exceeded Lichtenstein's expectations. Listeners demanded to hear more of the records and 15 other stations requested tapes.

Lichtenstein said WWDC would start playing the records in their entirety, even though some were rather lengthy by U.S. standards. "We may have to drop a commercial," he bravely averred.

It would appear that his exercise in do-it-yourself diplomacy is at least 50 per cent successful. But it remains to be seen whether Khrushchev will carry out his end of the bargain.

If Radio Moscow does broadcast the Washington top 10, I would surely like to see the faces of the Kremlin the first time they hear No. 7. It's the "Monster Mash."

Senior Guard Is Named As 'Toughest Harvester'

Senior guard Carl Clark has been selected by the Pampa High School football coaching staff as the "Toughest Harvester" for last week.

Clark was to be honored by the Pampa Junior Chamber of Commerce at its weekly luncheon today in the basement of the First Methodist Church.

Harvester Assistant Coach Ray Howard was to do the introductions.

The "Toughest Harvester" award, given each week, is a back - the - Harvesters project of the Pampa Jaycees. Each week's winner has lunch with the club during its Tuesday meeting.

The "Toughest Harvester" is selected by the coaching staff on the grounds of aggressiveness, blocking and tackling ability, leadership and desire.

The period of judging is from Monday through that week's game, workouts included. Clark's winning week was last week, including the Dumas game, which the local team lost for its first defeat of the season, 40-8. Previously the team had defeated Bel Air of El Paso, 18-7, and Phillips, 12-0.

Head Coach Otis Holladay said of Clark, "We feel like Carl played one of his better defensive games against Dumas. He toughened up last week and worked pretty hard in practice. He was in a better position in the game and came nearest to doing his best job than any other player, we thought."

Clark plays guard on both offense and defense for the Harvesters and is a one - year letterman. He is the son of Mr. and Mrs. C. A. Clark, 1200 E. Foster. Other "Toughest Harvesters"

selected this year have been Jerry Glover, fullback - defensive halfback; Curtis Fletcher, fullback - defensive linebacker; and two-way tackle Dez Wright.

In workouts yesterday, the Harvesters did some work on their defensive assignments and worked on their offense as well.

The team is getting prepared for the opening conference game, against Tascosa of Amarillo, here, Friday night.

The game is scheduled to get underway in Harvester Stadium at 7:30 p.m.

Two new Harvesters began working out with the team yesterday, Randy Matson and Gerald Rascoe. Both fellows are welcome additions to the squad. Matson weighs in at 211 and Rascoe at 240.

Ohio State Starts New Season Rated Number 1

NEW YORK (UPI)—Ohio State's mighty Buckeyes, who lost out to Alabama in their battle for the college football championship last year, started the new season today as the nation's No. 1 team in the first weekly ratings by the United Press International Board of Coaches.

Ohio State, which finished a scant seven points behind Alabama in last year's race—one of the closest in the 12-year history of the UPI ratings—was the top choice of 20 of the 35 coaches on the board following an opening game 41-7 rout of North Carolina.

Alabama, winner of two straight titles this season on top of a perfect (10-0) 1961 campaign, drew 12 first - place votes, while Texas, Georgia Tech and Georgia drew one vote each for the top spot.

Each week of the season the 35-man UPI coaches rating board—five from each of the nation's seven geographical sections—will pick the nation's top 10 teams with points awarded on a basis of 10-9-8-7-6-5-4-3-2-1 for votes from first through 10th. On this basis, Ohio State drew a total of 218 points while Alabama had 287 points.

Texas, last year's Cotton Bowl champion, with a 2-0 record this year, was pressing the top two teams in the ratings with 235 points while Penn State, with a 2-0 record and currently out front as the East's top team, was fourth with 202, and Georgia Tech fifth with 133.

Rounding out the top 10, in order, were Southern California, Mississippi, Washington, Army, and Miami of Florida.

The "second 10" in this week's balloting included, in order, Arkansas, Iowa, Notre Dame, Purdue, Louisiana State, and Nebraska, then Wisconsin and Northwestern tied for 17th, Georgia 19th, and Missouri and Minnesota tied for 20th.

The UPI football coaches ratings which have become accepted as the most authoritative in the field, are issued each week during the football season, alternately for morning and afternoon newspapers.

At the end of the season the team named by the board as the national champion receives a handsome permanent trophy from UPI.

Another UPI Board of Coaches issues weekly ratings of small college football teams, and the champion in that division also receives a permanent trophy.

In National League Playoff Precedent Favors Giants As 2nd Game Is Played

By LEO H. PETERSEN
UPI Sports Editor
LOS ANGELES (UPI) — The surging San Francisco Giants came into the back yard of the collapsing Los Angeles Dodgers today to bury their National League pennant hopes the same way they did in another playoff 11 years ago.

The Giants had everything going for them — precedent, the home-run bat of wondrous Willie Mays and the strong right pitching arm of Jack Sanford.

The Dodgers, on the other hand,

had only hope going for them— and little of that.

They weren't giving up but their outlook was grim.

So desperate was Dodger skipper Walter Alton for pitching that he called on Stan Williams, an in-and-out right-hander with a 13-12 record, to face the 24-game-winning Sanford, sidetracking his own ace, big Don Drysdale.

Must Win Two
"We have to win two games to get into the World Series," said the grim-faced Alton. "So if I pitched Drysdale today and he

won I wouldn't have anyone for tomorrow's third game."

"But if Stan can hold them for us today, I'll have Don for tomorrow."

It sounded like the gasp of a dying man. For there will be no tomorrow for the Dodgers if Williams should fail today.

Manager Al Dark of the Giants would not admit he held the upper hand, but it was apparent the Giants players felt they did after the way Mays roned the Dodgers with his bat and the manner in which little Billy Pierce cut down the Dodger hitters in the first playoff game at Candlestick Park Monday.

The Giants won it, 8 - 0, with Pierce allowing only three hits as he ran the desperate Dodgers' string of scoreless innings to 30.

Thus the Giants had precedent going for them—for no team in National League pennant playoff history ever has won the first game and then lost out.

Have The Pitching
Dark was looking beyond today's game, but he knows as everyone else does that pitching is the name of the game in a short series. And he knows, too, that the Giants have just that.

For if Sanford should fail them today, Dark would have another right-hander, Juan Marichal, an 18-game winner, fully rested—and waiting eagerly, also, a fresh bullpen corps.

Drysdale, who has won 25 games, started three games in six days as the Dodger panic set in during the last week of the season and may not have had enough rest. And Alton used up his bullpen in Monday's rout before 32,660 shirt-sleeved fans in Candlestick Park.

It was the home run, which has plagued the Dodgers ever since Bobby Thomson hit that historic one 11 years ago in the Polo Grounds to give the Giants a playoff victory over the Dodgers, that ruined Los Angeles on Monday.

Takes Homer Title
Mays hit two—his 48th and 49th of the season to give him the major league home run championship because playoff records count—and Jimmy Davenport and Orlando Cepeda each hit one.

Not even leaving New York for baseball's Golden West has stopped that Dodger home run bugaboo. It was a home run—by Mays, who else?—which gave the Giants a victory Sunday to get into the playoffs. And it was a home run by Gene Oliver of the Cardinals which beat the Dodgers the same day and kept them from winning the pennant outright.

"I know I got to go with Williams," Alton insisted, although there were many skeptics who maintained that the Dodger manager, whose job well may be at stake, will switch to Drysdale.

"If he does," said Dark, "I'll have Willie McCovey playing in there some place."

McCovey hits Drysdale like he owns him and clubbed him for a three-run homer — that big blow again—in a key series in August.

'All 'Willie And Billy' In Monday's Contest

SAN FRANCISCO (UPI) — As far as the San Francisco Giants are concerned, it was all "Willie and Billy."

Wondrous Willie Mays again proved himself the indispensable man when he hit a pair of home runs and stole a base during a late three-run rally to lead the Giants' 8-0 romp over the Los Angeles Dodgers Monday in the opening game for the National League championship.

And Billy Pierce, the little south-paw pitching castoff from the American League, demonstrated that he has a lot of heart and savvy to go with his 35-year-old pitching arm as he held the Dodgers to three hits, permitting only two runners to get as far as second base.

Jim Davenport and Orlando Cepeda also hit home runs in the Giants' assault on six Los Angeles pitchers and little Jose Pagan hit a two-run double in the eighth inning.

Mays Big Gun
But it was Mays who supplied the heaviest cannonading and gave the Giants the necessary early lift on a sunny day before 32,660 fans at Candlestick Park.

In the first inning, after Felipe Alou had doubled with two out, amazin' Mays walloped a 400-foot homer over the right - centerfield fence for the Giants' first two runs off ailing Sandy Koufax. Davenport's home run helped send Koufax to an early shower with none out in the second inning.

There is a suspicion that Ed Robbuck tried to shake up Mays with a few tight pitches in the third, but it never phased Willie. He lashed a 3-and-1 pitch to left for a single.

In the sixth, with right-hander Larry Sherry pitching, another fastball backed Mays away from the plate. This time, Willie followed with a home run over the right-field wall.

Wins Homer Title
That blast gave Mays the major league home run championship with a total of 49. He went into Monday's game trailing Harmon Killebrew of the Minnesota Twins by one. All performances in the playoff games are included in the regular-season records.

Cepeda followed Mays' second blast with his 35th home run and two batters later Sherry was replaced by right-hander Jack Smith who retired the side. The Giants led 5-0 at that point.

Whitey Ford Is Likely Yank Starter

NEW YORK (UPI) — Manager Ralph Houk has yet to make it official but it looked today like it will be ace left-hander Whitey Ford pitching for the New York Yankees Thursday when the World Series starts in the home park of the National League pennant winner.

Ford's selection would hardly come as a surprise to the baseball world although Houk hinted Monday that his original plans were to start 23 - game winner Ralph Terry in the opener. The realization that the delayed start of the Series will assure Ford his full quota of rest apparently means that Terry will be put back to the second or even third game.

Ford had a relatively modest 17-8 record this season compared with his 25-4 mark of 1961, but he is the most successful pitcher in World Series history with a 9-4 slate and a still-alive record streak of 32 consecutive scoreless innings pitched in Series play.

The Yankees are scheduled to fly to Los Angeles today after a final workout at Yankee Stadium. They will work out in Los Angeles on Wednesday—whether or not the NL playoff series is still being played in that city.

"We'll find a field some place in Los Angeles," quipped Houk. "We won't care what it is as long as it's a field we can work out on."

The Yankees are in excellent shape—with slugger Mickey Mantle probably in the best shape of his career for a Series.

Whitey Ford is likely to start for the Yankees in the opening game of the National League pennant playoff series on Thursday.

Quarterback Club To See Grid Films

Forrest Hills, president of the Pampa Quarterback Club, announced this morning that the organization will see films of 1961 Southwest Conference football highlights at its weekly meeting at 7:30 tonight in the high school cafeteria.

The film is being shown through the courtesy of Humble Oil Company and was arranged by Sharon Haralson, a former president of the Quarterback Club.

Also available tonight will be films of the Harvester game against Dumas last Friday night and a scouting report on this Friday night's foe, Tascosa of Amarillo, as conference play opens for the Green and Gold.

Hills also said that "The Quarterback Club would like to express its appreciation for the attendance at the game last week and we hope that all football fans and Harvester boosters will be out in full force again this Friday night."

The crowd in attendance at last Friday night's game was the largest in many years here, observers said.

Houston Wants To Play At Home

HOUSTON (UPI) — The athletic director of the University of Houston said Monday the school would prefer to play Saturday's football game with the University of Mississippi at Houston, rather than Oxford, Miss.

"I doubt if they (Mississippi officials) even know what to expect," Houston athletic director Harry Fouke said. "But it is their game, and any decision on moving the game is up to them."

Fouke said he had been unable to contact Mississippi athletic director Tad Smith.

Cain Hoy Stables May Win 1962's Juvenile Title

Never Bend may make Harry F. Guggenheim a half million dollars richer by the end of the year and bring the colors of Cain Hoy Stables the 1962 juvenile colt championship.

A fleet 2-year-old bay son of Nasrullah, Never Bend won the Cowdin Stakes at Belmont Park Monday with a closing rush to run his career earnings to \$239,940.

There are three more rich races remaining for his class this fall—the \$125,000 Champagne at Belmont, Oct. 13; the \$125,000 Garden State, Nov. 2 and the \$150,000 Pimlico Futurity, Nov. 24.

Jockey Manny Ycaza turned in a brilliant ride aboard Never Bend in the Cowdin as he rallied his mount from sixth place at the half-mile pole to a three-length victory over Valiant Skool.

The triumph was the fifth in seven starts for Never Bend. The Guggenheim colt never has been out of the money, finishing second and third in his other two outings.

Never Bend paid \$3.80 and was clocked in 1:21 1/5 for seven furlongs.

At Atlantic City, Decade (\$2.80) won his third straight by scoring a head decision over Sweet Evenin in a stretch battle.

My RX, a 12-1 shot, paid \$24.80 in capturing the feature Golden Gate event by three lengths.

Roman Escort (\$60.40) won at Hawthorne, Foreign Land (\$4.00) took the Narragansett Park Inaugural Handicap and Mr. J. R. (\$4.60) was the feature winner at Hazel Park.

ROYALS CUT TWO

CINCINNATI (UPI)— The Cincinnati Royals made their first roster slash Monday when they released Jerry Foster of Drake and Chris Jones of Carson-Newman. Coach Charley Wolf's National Basketball Association squad now includes 12 veterans and three rookies.

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the right of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

That Mississippi Mud

What was billed as a "showdown between federal and state power" in Mississippi seems to have turned out to be something considerably different.

Gov. Ross Barnett finally gave in on his adamant stand for state's rights and James Meredith, the Negro around which all the trouble centered, was admitted to "Ole Miss" under pressure from President Kennedy and his brother Bobby.

Gov. Barnett said it was against his principles, but he called on the people of Mississippi to submit to prevent bloodshed.

But there was bloodshed and the whole bloody mess continues to rumble. General Walker from Texas went over to Mississippi and got himself arrested yesterday for insurrection or something. He should have stayed at home.

The real issue behind the Mississippi Mud seems to have been lost in the shuffle.

At first blush we would be inclined to sympathize with Governor Barnett who was fighting the immense power of the federal government and the whole Kennedy kaboodle to boot.

Then, on second thought, you arrive at the conclusion that the real point at stake in Mississippi is not federal versus state authority, but justice against injustice.

Think about it that way for a moment. The Negro residents of the state of Mississippi find that their tax bills make no distinction between white and Negro. The colored man is taxed for the state university according to the same rules and procedures as the white man. He cannot get out of paying because he is a Negro, and therefore it is simple justice that he should be allowed to participate in whatever services he is forced to help pay for.

That, simply, is the issue.

Temporary Placement

The individual is the reality. The group is merely a temporary placement of individuals. The problem arises from the assumption that the temporary placement of persons provides an entity in itself which is equipped with conscience, obligation and judgement.

Irresponsibles

On a number of occasions, within recent weeks we have been mailed a photocopy of what appears to be a page from "The Blauvelt Family Genealogy."

Sometimes the page arrives anonymously, sometimes it is in company with a letter urging us to "print the facts," wanting to know why we are "so cowardly" as not to let the whole world know.

The substance of the facsimile is this: Written by the 10th generation, Louis L. Blauvelt, who died at age 82 in 1959, it purports the following:

"(12,427) Durie, (Kerr) Malcolm, (Isabel O. Cooper, 11,304). We have no birth date. She was born Kerr, but took the name of her stepfather. She first married Firmin Desloge, IV. They were divorced, and she married, third, John F. Kennedy, son of Joseph P. Kennedy, onetime ambassador to England. There were no children of the second or third marriages."

We have carefully refrained from publishing this item before for two reasons: (1) we had not been able to check its authenticity; (2) the purpose of the sender was obviously to smear the President by showing that he had had a marriage prior to the present union with Jacqueline Kennedy.

Now we are not enamored of the President and we despise his policies. But we are not the least bit interested in vilifying someone simply because he did or did not wed his way thru divorce courts.

If Mr. Kennedy is worthy of our disdain, it is because of his policies, not because, as a man, he

If 90 per cent of the white people of Mississippi feel themselves closer to God than the Negro, then it is their privilege to organize and support a school for whites only. But the Negro should not be forced to contribute to this school. Neither should the Indian, the Oriental or, in fact, anyone else who doesn't want to or can't attend the school.

The federal government, the state government or the local government has no business forcing inter-racial acceptance. If there are some Americans who don't want to have any social intercourse with those of another race or religion, that is their business. We don't have to understand their mental processes to accord them the right to pick their own company.

But the state should not enter into the matter, forcing men to accept each other. But that is not the end of the matter. The state of Texas receives the sum of \$36 million a year in school aid. Now, if the state accepts the federal money, the state must accept federal conditions. The Supreme Court has said that federal authority follows federal money. It is a dictum.

Mississippi, the "poorest" of the states, must be getting a good-sized chunk of federal school aid, although the press associations haven't mentioned it. If Mississippi taxes the colored man for the state university and, in addition, permits all the taxpayers of the country to contribute, it seems to us the sovereign state of Mississippi has considerably diluted its sovereignty.

We have no patience with federal authority and the tactics of the Kennedy administration. But when the federal octopus tangles with the giant squid of Mississippi, it doesn't figure that either one deserves much sympathy.

Apparently this particular item had rather wide circulation before reporters in the east, in a position to check into the matter, have finally laid the ghost. The entire allegation is in error. President John Kennedy has been married only once and his present wife is the only wife he has ever had. Not only has this been ascertained by direct letter and response from the White House, but reporters have inquired of the Blauvelt family to uncover the following information:

Apparently Louis L. Blauvelt, at age 82, became slightly confused. One Blauvelt in-law stated: "It is likely that the old man formed the idea in his head, seeing that clipping (see below), and the family hadn't had anyone that famous for a long time."

The clipping to which reference was made was taken from a Miami gossip column right after World War II in which it was reported that Miss Malcolm and young Jack Kennedy had been seen in a restaurant. Apparently they had dated.

Raymond D. Blauvelt of Ridgefield Park, N.J., a former secretary of the Blauvelt Family Association, told newsmen that Louis Blauvelt had rather "informal" researching methods and kept much material in his head or on bits and scraps of paper. Raymond Blauvelt said that Louis Blauvelt often relied on hearsay information passed on from one member of the family to another.

In other words, there's nothing to the report at all. Yet there are many people who have glee-

The Doctor Says

Put Up Your Guard Now Against Influenza By DR. WAYNE BRANDSTADT

Every cough is not pneumonia. Although some persons like to think it is. By the same token every cold is not influenza.

Whereas the common cold may run its course with little or no fever, influenza is accompanied by a fever and, in general, the symptoms — headache, generalized aching, and weakness — are more severe. Influenza is much more likely to lead to pneumonia and that is what makes it a disease to be dreaded in spite of the new drugs now available to combat such complications.

There are several strains of influenza virus. Unfortunately, the vaccine that protects against one strain will not protect against the others. In order to overcome this difficulty several strains are sometimes combined in one vaccine, but this does not always solve the problem.

Influenza has the habit of spreading rapidly from city to city, state to state and now with our greatly accelerated means of travel, from continent to continent. A person who is exposed to influenza in Paris may feel fine, board a plane, land in the United States still feeling fine, and have a sudden onset of the disease that night or the next morning.

When an epidemic gets started our federal, state, and local health services get busy, track down the virus, and determine which strain is responsible.

This would help your doctor to know which vaccine to give you except for the fact that by then it is usually too late, because it takes at least four weeks to develop an immunity in this way.

For this reason the United States Public Health Service, by studying world-wide patterns of the spread of influenza, tries to predict which strain is most likely to be troublesome well in advance of age 75 or more.

Thoughts while shaving: 1. Some of the womenfolk may not be interested in the international cup races except in this respect. The American-made sails of the Australian craft Grelat are of synthetic fiber and constitute a fabric as fine as the taffeta in a lady's petticoat, but strong enough to use as capsule parachutes in the exploration of outer space.

When, oh, when will TV-radio announcers learn that the first syllable of "official" is "off," and not "oh"; the first syllable of "effective" is "eff," and not "ee"; and the first syllable of "presentation" is "pre" with a soft "e," not "pree"? . . . 3. Presidential bon mots are not scarce, but few if any Vice Presidents of the U.S. ever got off as enduring a remark as that of Vice President Thomas R. Marshall (in the Wilson administration) who in 1914 dryly remarked that "what this country, needs most is a good five-cent cigar." It's an observation that is remembered even today, except now there aren't any good five-cent cigars. . . . 4. Do you know what a "spiff" is? Well, it's a term in merchandising circles applied to clerks in retail establishments who secretly accept special commissions for pushing a certain product.

Country editor speaking: "You're an old timer if you remember when if you got out or burned it wasn't by a safety razor or a safety match."

an epidemic. This year they are putting their money on the Asian influenza that swept this country a few years ago.

They are urging vaccination early in the fall, especially for all persons over 45, for all who suffer from chronic debilitating diseases, for pregnant women, and persons who have close contact with the public such as doctors, dentists, nurses, ushers in movies, clerks in stores, bus drivers, school children, and teachers.

They also urge vaccination in industries where absenteeism presents a serious problem. Since the protection from influenza vaccine lasts only a few months the fact that you had it last year will not protect you this year.

Having had the shots myself I can assure you that the process is simple, the discomfort trivial and the expected benefit great.

EDITOR:

As we understand it: Acting UN Secretary General U Thant's latest demand for a unified Congo is nothing short of an ultimatum which gives Katanga President Tshombe the alternative of accepting the United Nations' terms or facing extinction. The Secretary U Thant's ultimatum apparently will be backed by the United States. . . . for our State Dept. supported the UN against Katanga on July 31 to force Tshombe to his knees.

Katanga has a stable domestic order. It is financially self-sufficient, it has a well-trained, orderly army, a sound currency and the support of the native population.

The whole fantastic business demands the answering of vital questions:

1. Why has the economic, political and military might of the United States been marshaled to crush a stable, pro-Western, anti-communist government which seeks only to run its own affairs? 2. By what right is the UN or the U.S. imposing its will on the people of Katanga who seem to support Mr. Tshombe's policy of seeking independence?

Surely the UN's actions cannot be reconciled with or justified by its own Charter, which prohibits UN interference in the internal affairs of any nation.

Nor can these actions be squared with the so-called "peacekeeping" mission of the UN, . . . which has stirred up more trouble in the Congo than it has prevented.

Since the end of World War II, the United States and the United Nations have devoted themselves to the cause of self-determination for all people (EXCEPT those billions plus poor souls behind the Iron Curtain).

Why? Respectfully, Mrs. B. E. Walker Amarillo

Allen-Scott Report

Russian 'Mystery Ship' Enroute Black Sea To Banes, Cuba, Attracting Intense U.S. Concern

WASHINGTON — A Russian "mystery" ship is causing deep concern and even alarm among veteran U.S. Intelligence and military officials.

Enroute from the Black Sea, the Angankles, a large Soviet cargo vessel, is preparing to dock this week near Banes, Cuba, under some of the tightest security precautions yet taken by Russian and Cuban military authorities.

The Angankles is being escorted by two Soviet submarines on a course which has been anything but direct. Tracking U.S. Navy patrol planes report that the ship has taken a circular route through the South Atlantic in order to avoid the regular shipping lanes.

Since sailing from the Black Sea, the Angankles has been in continuous communication with the Kremlin's own radio center. All messages to and from the ship have been transmitted in a secret code greatly different from any used by the Soviet in the past.

Also, the ship is the first of several hundred Russian vessels carrying arms and other supplies to Cuba that has been in direct communication with the Kremlin throughout its entire journey.

U.S. military intelligence officers following the reports on the Soviet "mystery" ship believe that the vessel contains the most important cargo Russia has shipped to Cuba since Castro came to power.

One group of these intelligence experts has warned the Joint Chiefs of Staff that the Angankles could easily be carrying Soviet nuclear warheads or bombs for Russian missiles or MIG planes.

Another group of military experts believes that the ship, because of its direct communication link with the Kremlin's radio center, is carrying a number of high-ranking Soviet military and political officers to Cuba. These officials, if aboard the vessel, are expected to be the vanguard of the Kremlin's military command in the Western Hemisphere. Their headquarters will probably be on the Isle of Pines.

The military and intelligence experts, while not agreeing on the type of cargo, have urged the Joint Chiefs to recommend to President Kennedy that the Navy intercept and board the Angankles to determine the nature of its mysterious cargo.

It is not known whether the JCS has acted on this recommendation. However, it is known that the Navy has received no orders from the White House to stop the vessel.

THE FULL STORY — The surface-to-surface "cruise type" missile the Russians have just installed at Banes, Cuba, has a maximum range of 130 nautical miles not 30 as reported by "informed" State Department sources.

According to a military analysis, the missile, designated SS-N-1, has an "unassisted" range of from 20 to 30 nautical miles. However, if given radio guidance by an "assisting" ship, aircraft, or helicopter, the missile's range can be increased to 130 nautical miles — or enough to land its nuclear warheads on the Key West area of Florida.

The Soviet SS-N-1 is estimated to have a speed of about 680 miles per hour and able to carry a nu-

clear warhead weighing up to 2,000 pounds. It is powered by a turbojet engine and a solid fuel propellant. The missile is guided by radio command and terminal homing.

One SS-N-1 loaded with its heaviest nuclear warhead could destroy more than 50 per cent of the city of Miami with a direct hit, according to the military analysis.

Significantly, the Russians have installed the first of these SS-N-1 missiles so that it can be launched either against the Navy's large Guantanamo Naval Base, which is 80 miles southeast of Banes, or against U.S. Navy installations in the Key West area.

Banes, at the northwest end of Bahia de Nipe, is the site selected by the Soviet for the construction of a military installation. As reported in this column on September 19, a large lead casket, whose weight left deep tracks in an unpaired road, was unloaded from the Russian freighter Horizont when it docked at the Cuban port of Casilda, near Banes.

Accompanied by 800 Soviet military "pallbearers," the heavily-guarded "mystery" cargo was rushed to Banes, which is now ringed by heavy Russian artillery and ground-to-air missiles. Banes and Casilda have been closed for weeks to all Cubans, even Castro's military personnel.

GUANTANAMO — Marine Colonel George W. Killen, who would be in charge of the Guantanamo Naval Base ground troops in case of a Cuban attack has instructed his men to guard against any incidents that might touch off a U.S.-Cuban conflict. "Our orders are to conduct ourselves in a most professional manner," he has told visitors to the Base. . . . Rear Admiral Edward J. O'Donnell, a Navy career man who has the highest respect of everyone at Guantanamo, has overall command at the base. He reports that the base is ready for almost anything.

"We have an enormous amount of fire power around the base and we have fighter type aircraft. All base personnel are constantly training. We would hope that we would be ready." The total population at the base now exceeds 10,000, including 1,000 children of U.S. dependents.

Cadets are not the only things kept under strict surveillance at West Point, N.Y. The largest part of the government's stockpile of silver bars is kept there. This silver is used for monetary purposes and represents approximately 40 per cent of the silver mined every year.

1963 CHRYSLER HAS CLEAN FLOWING LINES—Chrysler for 1963 takes on a completely new appearance. It features crisp uncomplicated styling with emphasis on clean, flowing lines. The look is in keeping with the contemporary design trend. It is a tasteful blend of simple elegance and luxury as illustrated by this New Yorker 4-door hardtop. For 1963 Chrysler offers 14 models in six body styles in four series, the New Yorker, 300 Sports Series, the Newport and the 300J. The new Chryslers are on display at Parker Motor Company, 301 S. Cuyler.

Sputnik Plus Five

From the start, America's Vanguard Project was conceived as a peaceful, scientific program. Since no military rocket was to be used, a group in the Navy set about designing a new booster. It was to be the most sophisticated and efficient rocket yet built. Pushed too fast, without adequate tests, the first Vanguard was hurriedly readied for launching at Cape

(4) Fiasco at Canaveral

Canaveral. In full view of the nation and the world, the countdown began on Dec. 6, 1957. The rocket roared, began to lift. Suddenly, after two seconds, its fuel exploded. The Vanguard faltered, its protective nose cone breaking loose; then it toppled over in a mass of flames. America's bid to enter the space race was a humiliating failure.

By Don Oakley and Ralph Lane

Under mounting pressure for a U.S. space success, the government turned to the Army and Werner von Braun of German V-2 fame, who said he could have put up a satellite long ago with the proven Redstone missile. The go-ahead was given.

New Scout Troop To Be Chartered

CANADIAN (Sp) — Boy Scouts of Canada's newly reactivated Troop 71 will receive their Troop Charter in formal presentation ceremonies at 7:30 p.m. today at the old Isaacs School building on South Main, which is now Boy Scout Troop Headquarters.

Names of five Scouts are on the charter as charter members. They are Kevin Koch, Billy Zeno, K. C. Rudy, Randy Pennington and Gene Pickens. Five more boys have been added to the Troop roster since the charter application was filed a few weeks ago. Also in Troop 71 now are Richard and Ronald Briggs, Jackie Bennett, Johnny Jones and Mike Smith. Keith Rudy is Scoutmaster, and Jake Keim and J. B. Reid Jr. are assistant Scoutmasters. Eddie

Snyder is senior patrol leader. The Canadian Rotary Club is the sponsoring organization. G. R. (Bob) Close, Ochiltree County Attorney of Perryton, will be on hand as the Council Representative to make the charter presentation. Also scheduled to take part in the ceremony are Troop Committee Chairman Bill Jackson, Rotary President J. B. Reid Jr., Scout Field Executive Fred Swanson of Perryton, Canadian Rotarians and other representatives of the Adobe

Walls Boy Scout Council. Scout parents and the general public are also invited.

HOLE IN ONE
LUFKIN, Tex. (UPI)—Roy Wise was looking for a lost ball at the edge of the fairway Sunday when Dick Witherall teed off from 75 yards away. Witherall's ball glanced off a tree. Wise felt a sharp pain in the rear and reached into his pocket to find Witherall's ball.
