memo to advertisers

People who pay to shop

Most retailers, we suspect, would shudder at the idea of charging customers an admission fee to shop in their stores.

Yet, we do it regularly. Readers buy this paper for the news and features, but they also buy it to see your advertising. They want to know what you are selling, what your prices are, and compare this with what another merchant is advertising.

Readers are shoppers, and people who pay to shop, shop to buy.

Your advertising reaches them as an invited guest. They study it at their leisure, and they will respond if what you have to say interests them.
