Muscular Dystrophy Drive Is Planned Here Tomorrow

A house to house campaign to raise funds for the Muscular Dystrophy Associations of America will be conducted in Pampa tomorrow from 9 to 11 a.m. and from 2 to 5 p.m. The fund drive will be under the direction of the Pampa Key Club, San Williams, chairman, more and more each year. The drive is an annual affair for MD and contributions will be used in assisting the care of patients and for research on the disease. Key Club members also will place canisters in Pampa business places Friday for donations by the public. Mrs. Irene Coan is secretary of the Panhandle Chapter of Muscular Dystrophy Associations. "We have several patients in the Panhandle area and we do what we can to help them," Mrs. Coan stated, "but of course research is the main reason for the drive. MD is a disease that is spreading more and more each year. We hope the people of Pampa will welcome the Key Club members at their door and give what they can to this most worthy cause." Mrs. Coan said.

Blockade Ends On K's Promise

WASHINGTON (UPI) — President Kennedy says Russia's agreement to take its jet bombers out of Cuba ends the immediate peril of East-West hostilities, but "difficult problems remain" in the Caribbean. Kennedy opened his news conference Tuesday night with the dramatic statement that Soviet Premier Nikita Khrushchev had agreed that all of the IL28 twin jet bombers "now in Cuba will be withdrawn in 30 days."

Chinese Communists Get Near India's Assam Valley

SMART — An Indian drill instructor, right, calls commands in Tezpur, India, as Indian nurses, teachers and housewives, shouldering rifles, respond smartly. The entire adult population of Tezpur has been mobilized against an expected onslaught by invading Communist Chinese. (NEA Telephoto)

New Push Precedes Planned Cease-Fire

By PATRICK J. KILLEN
United Press International

NEW DELHI (UPI) — Chinese Communist forces smashed through the ranks of retreating Indian defenders today and were reported within a few miles of the Assam Valley only a few hours before their scheduled cease-fire. A Defense Ministry spokesman disclosed, only a short time after Prime Minister Jawaharlal Nehru indicated he may reject Red China's cease-fire bid, that Indian forces in the North East Frontier Agency (NEFA) have fallen back 90 miles south of Walong. Nehru told an angry parliament that India does "not propose to negotiate" with Communist China until its troops are pulled back to positions they held last Sept. 8. He refused to reject the offer flatly until he saw an official text of the note from Peking. In a surprise move the Chinese Communists had announced early today that they would put the cease-fire into effect at midnight (11 a.m. EST), but they continued to roll forward as the deadline neared. Only Tuesday, the Indian troops were reported holding defensive positions 14 miles south of Walong. Since then, they have retreated 84 miles. The retreat by the Indian forces was disclosed after the spokesman had said that "in the Kameng division of the NEFA sporadic fighting is in progress in the mountains some miles south of Bomdila." Ben Ogden, acting as spokesman, he said, for a number of gasoline station operators in Pampa appealed to the commission to adopt an ordinance which would regulate the signs which appear in front of gasoline stations heralding in huge numbers the price of gasoline. "We are asking the commission to pass a model ordinance being used in many other cities," Ogden said. He went on to say that the greatest economic hazard the service stations have is something over which they themselves have no control. "Many of the signs carry misleading advertising and it is these signs that start gasoline price wars," Ogden said. Ogden asked the commission to consider the plea of the dealers to adopt the ordinance which would do away with the big signs, but still would have the price in full view on the gasoline pumps. "We are interested in the size, the location, number and contents of the signs," Ogden said. Ogden was told the commission would study the model ordinance and give their plea consideration.

Censorship On Crisis Is Lifted

WASHINGTON (UPI) — President Kennedy Tuesday lifted the voluntary censorship placed on military information during the Cuban crisis. He said his recent information policies might have prevented a disaster. Much of the President's news conference Tuesday night was devoted to the government's handling of information during the Cuban crisis, and new information policies in the state and defense departments. Kennedy said it would have been "possibly disastrous" if news of the Russian buildup in Cuba had "dribbled out" prematurely. And during the days following the announcement of the missile threat, he said, restraints on information were necessary to have the government "speak with one voice."

'Discrimination' Is Outlawed By President's Order

WASHINGTON (UPI)—A path-breaking, highly controversial presidential order outlawing discrimination in federally assisted housing went into effect today. President Kennedy announced at his news conference Tuesday night that he had signed the long-awaited order. High administration officials said it is aimed primarily at ending discrimination in the sale and renting of newly built houses and apartments, especially in projects. The order applies only to housing built with federal assistance — loans, grants and mortgage insurance or guaranty. The ban on discrimination will not be applied to individual home owners selling their houses, top officials said. Nor does it affect housing financed with "conventional" private loans not backed by the government. These two omissions, and statements by highly placed administration officials, indicated the administration is likely to proceed gingerly in enforcing the order. One key official said the administration has to be sensible in implementing the order. He indicated a willingness to move cautiously rather than shake up builders and buyers by an all-out assault on housing discrimination.

Shifts Pressure

The President shifted his major pressure from Khrushchev to Cuban Premier Fidel Castro, who still refuses to permit international inspection to prove that his island no longer contains a nuclear threat. U.S. aerial and other surveillance will continue, Kennedy said, until he is satisfied that Cuba no longer is an offensive threat and that offensive weapons such as long-range missiles and bombers will not be slipped back to the island. Kennedy described the present times as "climactic." He said a peaceful solution of the Cuban question "might well open the door" to Soviet-American progress on Berlin and other critical cold war issues. Lists Three Steps Administration officials said pressure on Castro to permit inspection would include: —Continued close U.S. surveillance of the island by air and other methods. —Efforts to get the Russians to force the Cuban leader into line on the issue of verification. —Intensification of work through the Organization of American States (OAS) to isolate Cuba even more completely in economic and diplomatic matters. "There is much for which we can be grateful as we look back to where we stood only four weeks ago," Kennedy said. Khrushchev, he said, told him the bombers would be removed and could be "observed and counted as they leave." "Inasmuch as this goes a long way towards reducing the danger which faced this hemisphere four weeks ago, I have this afternoon

Pampa, Nation To Join In Thanksgiving Observance

Pampans will join with the rest of the nation tomorrow in the usual observance of Thanksgiving Day. The weatherman has promised a fairly warm and sunny day which will lend itself to holiday trips to family, festive gatherings in other cities. Pampa schools were scheduled to dismiss this afternoon for the annual holiday vacation. Classes will not resume until Monday morning. Business, for the most part, will come to a standstill on the holiday. City Hall, the Courthouse, business offices and practically all downtown stores will close to permit employees to enjoy the holiday at home. There will be no regular mail deliveries. Postal officials said only special delivery mail will be handled and all post office windows will be closed. The Pampa News will publish a morning edition in order that employees can spend the day with their families. Highlight of the day's observance in Pampa will be the union Thanksgiving service to be held tomorrow morning from 9 to 10 o'clock in the First Christian Church, Starkweather and Kingsmill Sts. The city-wide church service will be held under sponsorship of the Pampa Ministerial Alliance. The Rev. J. S. McMullan, pastor of the First Assembly of God Church, will preach the sermon. His topic will be "Thanksgiving and the Four Freedoms." An inspirational service will be directed by the Rev. Donald Hauck, pastor of First Presbyterian Church. Joe Whitten, director of music at First Baptist Church, will lead the congregation in singing and direct the Union Choir which will be made up of voices from choirs of the various churches cooperating in tomorrow's union Thanksgiving service. Americans at home and abroad made last-minute preparations today for celebrating the Pilgrim feast of Thanksgiving. President Kennedy's proclamation marking the holiday urged "that all observe this day with reverence and with humility." "It is fitting that we give our thanks for the safety of our land, for the fertility of our harvests, for the strength of our liberties, for the health of our people," he said. Much of the activity will center around dinner tables laden with such traditional fare as turkeys, cranberry sauce, sweet potatoes, mince meat and pumpkin pies. The Defense Department said military cooks will roast some 112,000 turkeys to give the 2,800,000 servicemen in this country and throughout the world a traditional feast. Others should have no trouble laying in provisions, as the turkey flock this year numbers up to 92 million birds, with another 113,500 tons in cold storage. And the cranberry crop is estimated at a record 70,000 tons. Throughout the nation steps (See GUARD, Page 3)

Commission Is Asked To Step Into Gas 'War'

Pampa's City Commission last night was asked to step in and end a situation which it was charged, has permitted the city's gasoline price war to run for several weeks. Ben Ogden, acting as spokesman, he said, for a number of gasoline station operators in Pampa appealed to the commission to adopt an ordinance which would regulate the signs which appear in front of gasoline stations heralding in huge numbers the price of gasoline. "We are asking the commission to pass a model ordinance being used in many other cities," Ogden said. He went on to say that the greatest economic hazard the service stations have is something over which they themselves have no control. "Many of the signs carry misleading advertising and it is these signs that start gasoline price wars," Ogden said. Ogden asked the commission to consider the plea of the dealers to adopt the ordinance which would do away with the big signs, but still would have the price in full view on the gasoline pumps. "We are interested in the size, the location, number and contents of the signs," Ogden said. Ogden was told the commission would study the model ordinance and give their plea consideration.

Financial Aspects Covered

Group Meets To Talk Bond Issue

Members of the City Commission, representatives of Pampa's two banks and other interested citizens met at a luncheon in Poole's Steak House yesterday to discuss financial aspects of the proposed \$1,750,000 street and drainage improvement bond issue election set for Tuesday, Dec. 11. Mayor E. C. Sidwell, Gene Lewis, Pampa businessman, and Howard Kenyon, the city's financial representative in connection with the bond proposal, spoke briefly and explained how the bond issue would be financed without becoming a tax burden to property owners. Lewis pointed to the need of the improvements "in order for Pampa to go forward instead of backward." "Better streets and highways are not the sole answer to Pampa's economic problems," Lewis said, "but they certainly are an important part of it." Mayor Sidwell spoke very briefly and said that when the last bond election was lost by 43 votes he felt that Pampa went into reverse. "I hope this will be only a temporary thing," the mayor said. "I have had many phone calls and letters from persons who said they were in favor of the bond issue but didn't get out and vote for it because they thought it would carry without their help." The mayor said he was optimistic that the bond issue would carry this time. "I just want to ask everyone to re-study the situation," Mayor Sidwell said, "and we would like to have ideas on how best we can explain every single detail to the voters." Mayor Sidwell said none of the city's funds would be spent in promoting the bond issue. "We figure a \$1,000 fund will do that and we are ready to take contributions from those who feel that the suggested improvements should be made." Kenyon outlined the valuation set-up and tax rate that would be required for the bond issue which includes drainage in the area around Robert E. Lee Junior High School and Alameda Park and the street and drainage improvements included in the original issue that covered Highways 60, 152 and 273 inside the city limits. Four projects are involved in

Resolution Passed By City Commission

Absentee Voting Starts In Bond Election

Absentee voting started today at the city secretary's office in City Hall for the special bond election to be held Tuesday, Dec. 11. Absentee ballots may be cast until 5 p.m. Friday, Dec. 7. In order to be eligible to vote in the bond election a person must own property in Pampa and reside inside the city limits. Persons who own property in Pampa, but live outside the city limits, are not eligible to vote. The voting will be to decide whether or not to issue general obligations bonds in the amount of \$1,750,000 for street and drainage improvements. City commissioners at their meeting last night were given a letter from Merriman & Barber, consulting engineers, assuring them that the \$250,000 figure was a realistic one and would supply sufficient funds to make the necessary drainage in the school area. Only storm sewers are involved in this project. No street improvements are included. The official resolution calling the bond election was passed last night by a vote of 4 to 1. Commissioner Will Graham cast the lone dissenting vote after he had explained that he thought the issue should be broken down into three parts — the Robert E. Lee drainage area, Highways 60 and 273 combined, and Highway 152. "I am not opposed to anything in the plan," Dr. Graham said.

"I am only opposed to the manner in which it is being presented. However, I will support the bond issue election." It was pointed out that many people want to know how much the bonds would increase their taxes in dollars and cents. Over a period of 18 years, according to figures submitted by Howard Kenyon, the city's fiscal agent, the maximum tax rate increase would be eight cents in 1968. This is figured on a basis of \$1-million increase in property valuations each year and a 95 per cent tax collection each year. For the past decade or more

City Officers Are Invited To Pampa

The mayors, city managers and city commissioners of Amarillo and Borger are being invited to attend the regular weekly meeting of the Pampa City Commission at 7 p.m. next Tuesday in City Hall. Letters went out to each of them today from the office of City Manager Harold Schmitzer. Decision to invite the officials from the neighboring cities was reached at last night's commission meeting. Mayor E. C. Sidwell suggested the tri-city meeting for the purpose of discussing problems common to each of the Panhandle cities such as the Canadian River Water project, treating plants and other problems common to all three communities. "We have many problems in common," Mayor Sidwell said, "and I know the officials in Borger and Amarillo are anxious to meet with us here and to have our officials visit with them for discussions at commission meetings in their cities." Other commissioners agreed with the mayor and the city manager was asked to mail the invitations today. If it comes from a hardware store we have it. Lewis H. Hays. Ad.

Dear Abby.... Now It's Your Turn, Sailor!

By ABIGAIL VAN BUREN

DEAR ABBY: I disagree with your stand that a bachelor's appearance is his own responsibility and a married man's appearance is the responsibility of his wife. Ill-fitting, unpressed clothes and unshined shoes are a reflection of the man who wears them. Only a slob looks like a slob. Please indicate in your column how many times a week you shine your husband's shoes. Abby, and I will send you a little gold medal.

NAVY DEAR NAVY: Seven, Mac. Now send the medal and I'll shine that, too!

DEAR ABBY: I can't go along with your opinion that it's the wife's fault if her husband looks like a slob. The only thing my husband and I ever fight about is his appearance. Abby, there can be 16 clean shirts in his drawer—all in perfect condition—and he will pick the one with the button missing, put it on and wear it, instead of looking for another one. He doesn't care or notice if his suits are rumpled and his ties have spots on them. He never looks at his shoes. I have given up trying to correct him. He's hopeless. But he's mine.

DEAR ABBY: Am I some sort of nut because I don't want to celebrate our 25th wedding anniversary with a big party? We've had an unusually happy marriage, two beautiful daughters and many friends. I love to entertain but only a few couples at a time. I

have never cared for big parties and if I started to invite "a few" for our anniversary it would get out of hand and people would show up with presents. (What on earth do they do with all that silver?) To tell you the truth, I'd rather just go fishing with my guy. What do you think?

ST. LOUIS WOMAN DEAR WOMAN: I think you are refreshingly honest. Go fishing!

DEAR ABBY: We have been married three weeks. Everything has gone quite well except that we cannot agree on what I should call my 24-year-old wife. I prefer to call her "Ma"—in an affectionate way. She does not have any children and she gets very angry when I call her "Ma." We have agreed to let you settle it, I won't call her anything until we hear from you.

F.J. DEAR F. J.: I can't say that I blame a bride of three weeks for objecting to being called "Ma." She is neither your "Ma" nor anyone else's. Call her "Sweetheart" until you have a good reason to call her "Ma"—or she may never be one.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

This girl (left) plans to tint her tired tresses while en route to her winter vacation. In her roomette on the train, she shampoos a new permanent color into her hair. She mixes the coloring and peroxide and pours it over her pre-dampened, towel-dried hair (center), working it in gently. She adds warm water and works the tint into a foam. A half hour later, she rinses. In observation car (right), her hair shines with the sheen of a new color, applied easily and quickly.

Hair Beauty For Winter Vacation

By ALICIA HART
Newspaper Enterprise Assn.

reer girls and weary homemakers. And whether you choose a flight to the Canadian ski slopes or a cross-country trip on a luxurious train, you'll want to look your prettiest on your arrival. If your hair is as tired as you are by the time you leave on your trip, you'll want to add luster and color so that it will shine on your holiday.

With all the last-minute chores that pop up before departure, you may find that you haven't the time to tint your hair before you take off on your trip. But don't give it a thought. A new permanent tint that just shampoos in can be applied so easily that you can color your hair en route.

You don't have to section off your hair at all, and this makes it as simple to color the back as it is to do the front part of your head. Since the tint contains shampoo, coloring and washing become a single job.

Foster's resignation from the club was accepted.

It was reported that six new members have accepted membership. Lora Lunn, who was welcomed for her first meeting, Ida Sallee, Mildred Evans, Wanda Watkins, Thelma Wilson and Jewel Dean Lewis.

Mrs. O. L. McClure, 2619 Navajo, awardee of the safe driving award for November, and Patrolman Bailey, the "arresting officer" were introduced by Lena Pearl Hobbs, who presented Mrs. McClure with the Altrusa key-ring. Johnlyn Mitchell, Altrusa Girl of the Month for October presented Gerrie Eslick, November girl, who was given the Altrusa bracelet by Viola Jordan. Irene Smith introduced her sister-in-law, Mrs. Ladine Smith from Sayre, Okla.

Thirty-one members were present.

Highlights Of District Meeting Given By Altrusa Delegates

Altrusa Club of Pampa met at the Coronado Inn, Monday Nov. 12, in a luncheon meeting with Mrs. Lorene Locke, president, presiding.

Delegates, Lorene Locke and Emily Coston, and alternates, Inez Carter and Elma Vanderberg, gave reports on the recent District Nine Conference held in Houston. Mrs. Locke discussed the general program of the conference, with particulars of the Governors' Banquet and the boat trip down the ship channel to the San Jacinto Inn. "The main thing that impressed me," she said "was that I am sure Pampa can put on as successful a conference in 1963, despite the fact that this is the most successful conference that District Nine has held in many ways. All forty-one of the clubs were represented, even Guatemala, Mexico City, Chihuahua, and Tampico."

A report on the workshops and awards was given by Mrs. Coston. "One of the changes in the workshop plan," she said, "is that instead of each area having a workshop, only one in the district will be held during the year. It will be located in a central city and attended only by the presidents and vice-presidents. We did not bring back any of the awards, but

you know they have to be passed around and Pampa has always had her share."

Mrs. Carter told about interesting preliminary highlights of the trip. Mrs. Vanderberg, who was appointed District chairman of Vocational Information, gave excerpts from the talk of Margaret Halstead, International chairman of the Membership Committee. She stated that membership growth, attendance and participation are what make for a growing and working club.

In the business meeting letters of congratulation on the success of the Tenth Anniversary Banquet were read from Miss Etta Jane Butler, Governor, and Mrs. Joella Terrill Butler, Past Governor; also a telegram from Mrs. Helen Hooker, Governor-Elect, who was not able to attend. It was voted to contribute a Thanksgiving basket to a needy family. Contributions for the basket are to be taken to J. Flanagan's office by Tuesday, Nov. 20. J. Flanagan was appointed corresponding secretary upon the request of Doris Wilson that she be granted a year's leave of absence. Adrienne

Civic Culture Studies International Affairs

The Civic Culture Club met in the home of Mrs. Stanley Brandt, recently. Mrs. C. F. Pennington was co-hostess.

Mrs. Carl Axelsson, president, presided in a business session, preceding a program on International Affairs given by Mrs. Brandt. Her topic was, "The Land of Eldorado." This title was suggested by a legend that existed in South America at the dawn of its discovery.

Mrs. Brandt said, "there was a rumor about a new land where gold was abundant, streets and palaces were of gold. Many expeditions sought this gold, but it was never found, but they did open trails, and establish stations that became roads and cities."

Thus it was discovered that only through hard work could people find the golden land Eldorado. Indeed only through much toil, daring and courage will Latin America become the "Land of Eldorado." Several factors have conspired against the development of a more responsible state of self government.

The fight for self government is hard and long. The people fear every thing that is not according to their old habits. They adopt as their only rule what they saw done by their forefathers.

Potentially, Latin America is like the Biblical description of the Holy Land in ancient times, a "land flowing with milk and honey." It is surely a privileged continent, with many natural resources and much fertile land and untold possibilities for agriculture and industrialization. But most of its countries fall under the modern classification of "underdeveloped" facing unprepared an age of rapid social change.

During these last decades in Latin America, as in the rest of the world, many changes have been taking place. The masses, for a long time unaware of their

unfavorable condition, are demanding the right to live a more decent and fuller life. But there are not enough resources available to keep pace with the new, growing, and urgent needs. For this reason, people are living everywhere in a period of unrest, in the midst of claims that need not be satisfied; stirred to repeated strikes and torn by political rivalries and vain promises. It is a world in turmoil, full of problems, but it has in store wonderful possibilities and untold achievements — if the right kind of leadership can be produced, a leadership able to see the challenging vision of things to come.

People who go to these large Latin American cities have no idea of the great problems besetting all of these countries. Those who visit as tourists see only the large and attractive things. They never see the slums and other sections where there are so many

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-in. girdle constructed of science fibers. A startling innovation is the sheer front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem. The girdle itself is of "wonder" Lycra spandex fiber. It feels like nothing on but has such slimming strength it gives your figure everything that's possible with a foundation.

"Suddenly Slim" is the peak achievement of the designer-genius, Olga.

Be "Suddenly Slim" today in either girdle or panty version. Call

Senior Citizens Center

By MRS. O. A. WAGNER

Was so nice to have Mrs. Lillian Brunelle back with us after spending the summer with her daughter, Mrs. E. G. Lawrence in Massachusetts, also, Mrs. Elizabeth Taylor, who is a nurse, and seldom has time to come down. Several were reported ill, including N. M. Shireman, Mrs. Bryant and Mrs. Etheredge in Worley Hospital and Mrs. Cox in the Highland Hospital. Hope they will soon be able to be back with us.

Mrs. Carrie McBride of Amarillo spent this week with her sister, Mrs. Lona Webster. We extend sympathy to Mrs. C. C. DeMoss, who attended the funeral of her sister, Mrs. O. A. Hill at Albany, last week.

Mrs. Johnny Mullins journey to Lubbock last week to be with her sister, Mrs. Preston Shannon, during major surgery last week. Mrs. Annie Mullins of Lubbock, visited her sister-in-law, Mr. and Mrs. L. E. Henderson, Wednesday.

Mrs. Lydia Mullen was welcomed as a new member this week. Roy Bell of Perryton visited his grandmother, Mrs. Mollie Hethcock, Monday.

Mrs. N. L. Dunwoody spent the week end in Amarillo with his daughter, Mrs. J. C. Lee and Dr. Lee.

Mrs. Alice Howard spent 1 1/2 weeks in Mangum, Okla., visiting relatives and friends. Guests in the N. M. Norris home last week were a son, Roy, from Trinidad, Colo., and son, H. M. Norris, from California, with his wife and daughter and her two children. Mrs. H. M. Norris is helping care for her father, Bill Flaherty, who is ill. We extend sympathy to Mrs. G. H. Brown in the loss of her brother W. T. Eller.

Mrs. P. G. Turner and yours truly attended the turkey luncheon Tuesday at the agriculture annex, east of town, given by the Home Demonstration Council for all the clubs. Clubs present were Bell, Leffors, Worthwhile, Merton and Goodwill and Worthwhile club. Mrs. O. A. Hill at Albany, last week. Miss Lou Ella Patterson, County H.D. Agent and Cecil Reiger, Assistant County Agricultural Agent were guests.

Mrs. Turner and myself are members of the Worthwhile Club. The American Business Women's Association served doughnuts, mints and coffee.

Door prizes were won by Mrs. Lillian Brunelle and Jerry Torvie. Next Thursday will be Thanksgiving and the Center will not be open. The next meeting will be Nov. 29.

Have you heard this one? The diner found a fly in his soup. Crossly, he asked, "waiter, what is this?" Waiter: "That, sir, is a vitamin bee."

Ted: Hi, Ed. How's your girl friend coming along with her diet? Ed: Just fine! She's disappeared.

Man to friend: "Last night I was talking to my wife. I know how you do when the TV set is broken."

Thought for the week: Prepare ye the way of the Lord, and all flesh shall see the salvation of God. Luke 3:4-6.

Beloved, if God so loved us, we ought also to love one another. I John 4:11.

Au revoir! Love, Mrs. Wagner.

Television in Review

By RICK DU BROW
HOLLYWOOD (UPI)—It would be nice to think that a good television series could be saved solely by letters from viewers, but that is not likely. It would be nice to think, too, that favorable notices could also do the trick alone, but that is not likely either.

While the optimism could be short-lived, sources say the many letters and critiques by a number of columnists have had at least a temporary effect — or the series might already have been axed. Some NBC people are understood to have said no changes are yet slated for "weak" shows. But Tuesday it was revealed here that the network's newspaper drama, "Saints and Sinners," has been canceled.

Readers of this column may be assured that their surprising amount of letters disagreeing with possible cancellation of "It's A Man's World" have contributed to the second thoughts about the show, the sources say. Overall, quite a large amount of mail is said to have been received. Another columnist here says he has not received so many letters about a series in several years.

As indicated above, there is still much room for skepticism. But this viewer, for instance, has never received such thoroughly unanimous mail praising the general quality of a series (which concerns four boys who live on a houseboat in an Ohio college town). Samples:

Mrs. Vaughn Miller, Albany, N.Y.: "Television should have more programs of this kind."
Mrs. Bernard O'Leary, Painesville, Ohio: "The most delightful show to come along in quite a while."
Patricia Williams and Lynne Tritschler, both 17, Vancouver, Canada: "The most refreshing and realistic series that has been on the air... Roused us enough to start a petition to send to the sponsors." Phyllis Beebe, Berlin, Conn.: "I hope they don't hike it up too much in order to compete in ratings."

The Channel Swim: Peter Falk and Dina Merrill star on CBS-TV's Alfred Hitchcock Show Dec. 13 in a tale of an itinerant preacher... Edie Adams will tap three of her ABC-TV specials in Europe — one in London, another in Salzburg and the third in Spain or Greece.

IGOR Stravinsky conducts excerpts from his ballet suite, "The Firebird," in CBS-TV's Leonard Bernstein-New York Philharmonic program Dec. 3... Same network's "CBS Reports" offers a one-hour conversation with Secretary of State Dean Rusk next Wednesday.

NBC-TV will present a one-hour "Project 28" special about the late Gary Cooper March 24... Tab Hunter stars next Tuesday in ABC-TV's "Combat" as a baseball pitcher who fears injuring his arm in battle... Kate Smith guests on NBC-TV's Andy Williams Show Jan. 1.

Destroyers Provide Guantanamo Artillery

By JACK V. FOX
United Press International

ABOARD THE USS MANLEY OFF GUANTANAMO, Cuba (UPI)—Back and forth, back and forth, on a two-mile course at the lazy speed of three knots, this destroyer cruises two miles offshore from the U.S. naval base.

It is monotonous, but that could change instantaneously. Manley and four other destroyers here are the "artillery" for Marines manning trenches facing Fidel Castro's Cuba.

The Marine Corps has some field guns on the base, but the Manley's five-inchers would provide tremendous support in case of a Cuban attack.

The Manley also would be a prime target of the Cuban guns lying so close, but as her skipper, Cmdr. Leon I. Smith of Clentham, Pa., put it: "That's a destroyer's job — to get in close."

Smith is careful not to cross the line dividing Cuban territorial waters with those of the base itself.

Sunday's mission of the Manley was to stay in position to provide firepower for troops defending the airfield at leopard point. The field has runways long enough to handle Guantanamo's jets.

From the bridge, through binoculars, you can see the steel fence of the base and even pick out a Cuban sentry or two.

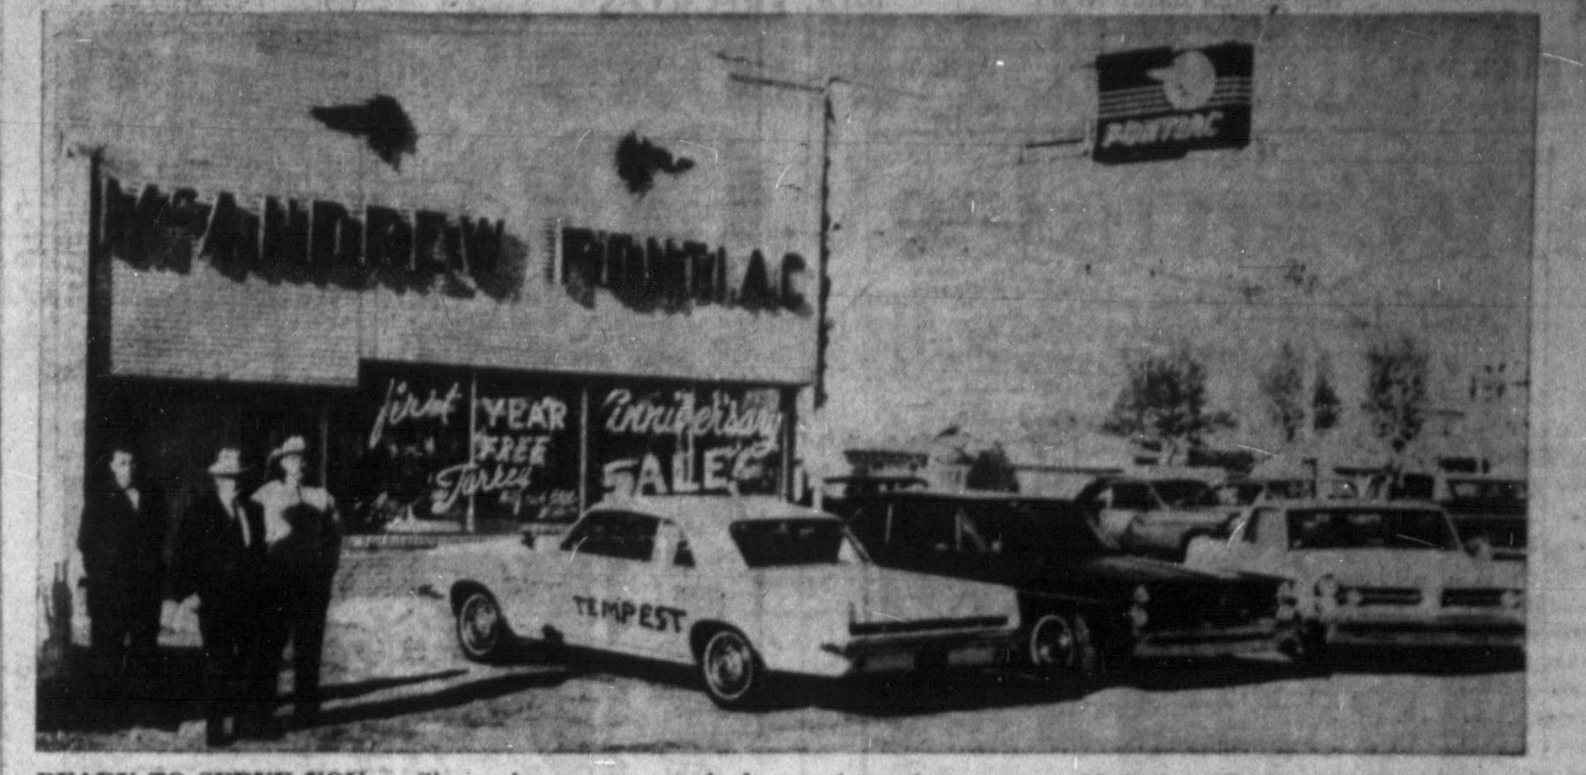

The crew frequently runs through gunnery practice, stopping short of actual firing, using computers, radar, and spotters on shore.

Sunday's gun crew consisted of Seaman William Banks, Charleston, N.C.; Radarman First Class Harold Mullinix, Tocco, Ga.; and Chief Gunnersmate Ralph Dixon, Hendersonville, Tex.

Contacts Ham Operators Chief Radioman Charles McKamey, Andersonville, Tenn., on Saturday and Sunday afternoons contacts ham radio friends across the United States who plug into regular telephone circuits so the men can talk to their families.

Two crewmen who became fathers while on the Cuban blockade duty talked to their wives through the unusual ham arrangement. They are Quartermaster William Burdett, 22, Waverly, Ohio, and Boatswain Charles Stevens, 28, Delbarton, W. Va.

BUSINESS REVIEW

READY TO SERVE YOU — Shown here are several of the cars in the Pontiac Drive-o-Rama fleet, waiting for you to come by and drive them during McAndrew Pontiac's big First Anniversary Celebration. Also shown in the picture are, left to right in the left foreground, Otis White, salesman; Chuck McAndrew, owner; and Ed McGuire, sales manager.

Lefors Council Studies Highway

LEFORS (Sp) — The new highway to come through Lefors was discussed at length last week at the City Council meeting in City Hall.

Plans were not made public at the present time, but will be presented sometime in December.

Work on city streets was also discussed.

Councilman Leonard Cain moved that the City Council set up a corporation court, and the motion carried.

With Pontiac's Drive-o-Rama And Free Turkeys, Too! McAndrew Pontiac Is Observing Its First Anniversary This Week

McAndrew Pontiac, home of those outstanding Pontiac automobiles, is observing its First Anniversary in Pampa with a gigantic used auto sale, the Pontiac Drive-o-Rama and free turkeys for all who buy a new car or used car costing over \$1,000, this week.

McAndrew Pontiac, 300 W. Kingsmill, is the first Pontiac dealer in Texas to present the 1962 Pontiac Drive-o-Rama this year and every resident of Pampa and surrounding area is invited to come in and see the Pontiac fleet of automobiles for 1962.

Chuck McAndrew, owner, has announced that his firm will be open Thursday, Thanksgiving Day, for the convenience of local and area residents who will enjoy seeing, examining and driving any or all of the fabulous cars included in the Drive-o-Rama.

Also, some pocket-book-pleasing prices are listed on all used automobiles at McAndrew Pontiac's used car lot, 301 W. Kingsmill, as a gigantic used car sale is being staged in connection with the firm's first anniversary in Pampa.

McAndrew said, "Be sure to come drive one of these fine Pontiac automobiles. It'll be a pleasant experience."

In case you don't buy a car, you're still welcome at McAndrew Pontiac to come in and drive one of the Pontiac Drive-o-Rama autos and, to boot, you'll be given a ball point pen to commemorate the occasion.

Actually, McAndrew Pontiac has been in Pampa a little over a year... since Nov. 6, 1961, to be exact. But the celebration, going on all week, will not end until Saturday night.

Also during this anniversary celebration, Pampans are invited to examine the extensive expansion project that has been going on at McAndrew Pontiac. The used car lot has been expanded to cover nearly a half-block across the street from the new car showroom, at 301 W. Kingsmill. Here there's plenty of room to look over the large stock of used automobiles from the front, back, side or from any angle.

And you can even drive the car you're interested in, if you wish.

And don't forget... if you buy a used car priced over \$1,000 during this Anniversary Celebration... you will get absolutely free a big Turkey for the family's dinner table on Thanksgiving or anytime.

All McAndrew Pontiac used cars carry a 100 per cent used car warranty.

McAndrew Pontiac wants to serve you not only now but for many years. For this reason the firm has spared no time or expense to bring its new car showroom, used car department and service department to the peak of customer service and convenience.

The large, modern service department maintains a full stock of parts and features all qualified, General Motors trained mechanics. They will do such a good job of servicing your car you will want to come back time and time again.

Chuck McAndrew came to Pampa from Enid, Okla., where he had been owner and operator of McAndrew Motor Company for the previous 18 years.

This past spring McAndrew won a trip to Florida for being first in a three-state area in new car sales over a period from April 1st through June. He also received the Estes trophy for outstanding leadership in sales.

Why don't you drive by McAndrew Pontiac today, take advantage of the tremendous opportunity to drive the Pontiac of your choice in the Pontiac Drive-o-Rama? You'll never be treated nicer or enjoy the stop so much... Chuck McAndrew will see to that.

And you'll particularly enjoy driving the new Pontiac Bonneville, cream of the new crop, the Star Chief, the Catalina and the new Tempest, featuring an optional V-8 engine this year.

Longhorns Rated Over Texas A&M

By PAUL FREEMAN
United Press International

The oddsmakers say Texas will ride into the host spot in the Cotton Bowl and the Southwest Conference championship Thursday with a 13-point cushion over Texas A&M.

In Saturday SWC games, Southern Methodist and Baylor is ruled a tossup, Rice is picked by five over Texas Christian and

Arkansas rates 20 points over Texas Tech.

The Texas-A&M game at Austin will be nationally televised. The Steers, with a 14-14 tie with Rice as the only blemish on their season record, are fourth ranked nationally.

The Aggies have won three and lost three in league play and 3-6 for the season.

Texas coach Darrell Royal looked pleased Tuesday at the sight of fullback Ray Poage and punter Ernie Koy going through their paces on the practice field. Others re-joining the team after being sidelined by injuries were Gordon Roberts and Ferguson. The Longhorns practiced an hour in the rain. University officials said the Thanksgiving Day game will not be a sellout.

The Texas Aggies annual Tuesday night bonfire smoked a bit in the aftermath of a .44 inch rain. Coach Hank Foldberg spoke to the assembled cheering crowd.

Arkansas, seventh-ranked nationally, went through a two-hour practice for the Tech game. Coach Frank Broyles would make no bowl talk. Broyles interchanged three different backs for injured George Rea Walker's wingback slot. The once-beaten Razorbacks meet once-victorious Texas Tech Saturday at Lubbock.

Tech coach J. T. King put sophomore Jim Zanious into the fullback slot of Coolidge Hunt. The Red Raiders worked on timing. Hunt was dismissed from the hospital Tuesday from neck and shoulder injuries in Tech's 21-12 victory over Colorado last Saturday.

The Baylor Bears worked out in the wet and cold for Saturday's game with Southern Methodist in the Cotton Bowl. Coach John Bridgers said he was particularly concerned with the SMU offense. "We counted 34 different offensive sets they used in the two games we scouted," Bridgers said. "For all we know, they may have more we haven't seen."

Rain

SMU coach Hayden Fry put his Ponies through some of the ones Bridgers had seen in a rain-drenched workout, then sent the Mustangs through a workout on their stunting, scrambling defense.

Rice worked out in full uniform and tennis shoes in the school gym, bumping the Owl basketball team's practice up one hour. Most of the drill was devoted to recognition of TCU plays. Coach Jess Neely said he hoped to take the squad outside today.

SPORTS

The Pampa Daily News

55TH YEAR WEDNESDAY, NOVEMBER 21, 1962

BUFFALO BULL

Texans Moving In On Western Title

DALLAS (UPI) — The tandem tight-end formation which Dallas Texan coach Hank Stram has used so effectively at times this season has drawn plenty of attention from various sources, but Stram insists there's nothing unusual about it.

"We wound up playing two tight ends in several games last year," Stram said, "but it wasn't too successful so it received little notice."

Stram's strategy has worked this year with different personnel and now the Texans go into Sunday's game here with the lowly, but not underrated, Oakland Raiders within sight of the American Football League's Western Division title.

"The difference in its consistency is in the manpower being used," Stram said in obvious praise for the surprising development of rookies Fred Arbanas and Tommy Brooker.

Tried Before

"We tried it two or three different times last year when Max Boydston and Tony Romeo were the tight ends, but they just were not consistent enough to make it effective," Stram said. Both players have since departed.

Stram first used the plan in

Boston a month ago when he figured to take advantage of Boston's so-so pass defense and its tendency to put on a hard rush.

He sent Arbanas, a seventh round draft choice two years ago from Michigan State, and Brooker, a 17th round choice from Alabama last winter, to the ends and used prize receiver Chris Burford as a flanker rather than a split end.

Worked

This, he reckoned, would give Burford more freedom. It did. Burford nabbed 10 passes for 171 yards and one touchdown in a 27-7 victory.

He used it again in the first meeting with Houston except that he had Burford and Abner Haynes as twin flankers. Again Burford had a big day, catching four passes, two of them for touchdowns.

Last Sunday against Denver, the Texans reverted to the same formation used against Boston. This time, quarterback Len Dawson capitalized on the other feature of the tandem tight end set-up—using Arbanas and Brooker as targets on short passes after they had brush blocked. Between them they caught four for 209 yards and two pull-away TDs in a 34-3 game.

Mainly, however, the big wingmen—Arbanas is 6-3 and weighs 236 and Brooker is 6-2, 215—usually make themselves felt more as blockers. Brooker, incidentally, has caught but two passes this season and both were for touchdowns.

Saxton, Miller

Stram won't say so, but there are indications the Texans may stick to the tandem tight end and

Boston Trounces Chicago Zephyrs

By United Press International

Chalk up another milestone for big Bill Russell, who now has grabbed more than 10,000 rebounds.

Russell picked up 20 more Tuesday night to increase his National Basketball Association total to 10,002 while helping the Boston Celtics solidify their Eastern Division lead with a 113-106 victory over the Chicago Zephyrs.

Despite Russell's brilliance on the backboards, the Celtics still needed Bob Cousy's deft touch to win.

Sparked by rookies Don Nelson and Mel Nowell, the Zephyrs closed a 17-point gap to three points early in the final quarter.

Cousy then took over and increased Boston's margin to 51-43 and after Chicago moved to within two points with 46 seconds remaining, Cousy broke an all-court press to score and then wrapped up the game with a free throw.

Russell's 10,002 rebounds puts him in third place in the all-time standings behind Dolph Schayes of Syracuse and Bob Pettit of the St. Louis Hawks. Russell shared Boston's scoring honors with Tommy Heintz. Each had 30 points. Nelson was an individual high scorer with 25 points even though he did not play in the first quarter.

Old Ref

Sez So

Somehow it doesn't seem right for the Old Ref's scientist friends to keep coddling and making "softies" out of his sports heroes.

The old Ref thought it was something worth shouting about when the manufacturers came up with a fiber glass pole that gives the pole vaulters that extra bounce and then slings them over the cross bar for all kinds of records.

The Old Ref's scientist friends, always meddling and dabbling in something whether invited or not, have gone the sling shot pole one better. The boys with the trained brains instead of the bustling brown have figured out a new gimmick to make even the Old Ref run a little faster, or at least with a little more bounce.

They've developed a rubber running track for the thinclads. The bouncy track, a mixture of rubber, cork, and other various substances with asphalt, supposedly will give the thinclads a little more speed and bounce.

The Old Ref sez that at least four U.S. firms are busy manufacturing these "tracks," which, they claim, clearly reduce leg fatigue and thereby markedly improves running times. (As if the boys aren't snapping old records at a pace so fast the scribes can't even record them.)

To hear the manufacturers' cite their claims for these new bouncy tracks, the Old Ref is reminded of one of those "cure-all medicine peddlers" giving a one-buck spew for a bottle of colored water.

Some of the claims for the new product is that it eliminates body shock, that it prevents shin splints, that it can be installed either indoors or outdoors, that its surface can't be damaged by moisture, frost, dryness, punctures, or excessive use, and on and on around the track.

Old Ref sez that the Key Club at Pampa High deserves a pat on the back. The organization, sponsored by Pampa High and the two Kiwanis Clubs in Pampa, provides a hungry pack of scribes and football scouts with hot coffee, sandwiches, and soft drinks at all Harvester home football games.

That hot coffee kept the press box gang going Friday night. The Old Ref wanted to complain about how cold it was in the press box, until he looked out through the window of the heated press box at the 2,000 Harvester fans who were half-frozen. His big feet didn't feel quite so cold then.

The Old Ref's beginning to hear those thump-thump sounds in his sleep to remind him it's almost basketball season around here. Opening date for the Harvester basketballers is Nov. 29 against Phillips here at 2:30 p.m.

The Old Ref sneaked into the Harvester gym the other day. Coach Terry Cully's boys seemed to know what the game was all about by the number of shots swishing the old bucket. Rumors tell the Old Ref that the Harvester boys are going to be the pre-season pick for winning District 8-AAAA.

Pampa QB Club Sees Game Film

"It's good to win," Coach Otis Holladay told the QB Club members in their weekly meeting last night held in the high school cafeteria.

Pampa's Harvesters trounced hapless Plainview last Friday

Banquet Tickets Now On Sale

Tickets for the annual football banquet are now on sale. The tickets, selling for \$2.50, can be purchased from Forrest Hills, pres. of the QB Club, or any member of the organization. Also, tickets can be purchased from Lee White at the Pampa News.

The banquet is slated for Monday, Dec. 18, with Hayden Fry, football coach at SMU, as the guest speaker. The banquet will start at 7 p.m. in the Robert E. Let cafeteria.

Holladay told the armchair quarterbacks that one of the bright spots of the victory was that 28 players saw action in the contest. He pointed out that all the players got to play at least 3-4 minutes in the struggle.

He was pleased that five of the Harvester sophomore backs scored in the contest. "It's always helps young players," he remarked.

Responding to the question as to what kind of mental frame of

mind his charges were in for the contest against Berger, Holladay replied that he hadn't detected any fear from his boys in playing the no. one team in the state and that his players were looking forward to the game.

Forrest Hills, president of the quarterback club, announced that tickets for the annual football banquet are now on sale. (Tickets may be purchased from any QB Club member or from Lee White at the Pampa News).

Randy Roten, Shocker coach and scout, gave a report on the Berger Bulldogs to the boosters.

Roten, who has scouted the Bulldogs five times this season, pointed out that the Bulldogs are a bruising type of football team and that their backs run real low with the ball.

Holladay supplemented Roten's report as he stated that one would see football at its best when watching the Bulldogs. He reported how Berger's outstanding football team could be credited to the fact that there is very little difference in the speed of the linemen and the backs. He emphasized the determination of the Bulldogs to play football.

The film of the Pampa-Plainview contest followed the scouting report.

The group will meet next Tuesday night and next year's officers will be elected.

Forrest Hills presided at the meeting.

Injuries Plague Pirate Workouts

A dark cloud has engulfed Lefors as it prepares for its bi-district showdown with unbeaten Sunray this Friday night at 7:30, in Harvester Park as the Pirates workout without the services of three starters.

Quarterback Anthony McCool, fullback Rodney Airington, a d tackle Marvin Todd are doubtful starters and not until Friday will the scrappy Buccaneers know the fate of whether these three lads will be able to go against the Bobcats.

The most dangerous offensive threat in the Panhandle, John Mark Worst of Sunray, will be at the helm leading the Bobcats. Worst has compiled over 2200 yards effectively this year. The senior quarterback, 167-pounder, has connected on 76 of 112 passes for over 1200 yards this season. He has gained over 1100 yards rushing.

One of the fastest Bobcats, halfback Johnnie Johnson, has gained 1200 yards rushing and caught 44 of Worst's passes this season. Johnson has accounted for 194 points this season.

Lefors' big offensive threat, Airington, is sporting an equally impressive 1219 yards from carrying the pigskin for the Pirates. Airington is averaging 7.4 yards per carry. Halfback Neil Cates is the

second leading Pirate with 505 yards in 99 carries for a 5.1 average. The other halfback, Tommy Smith, has massed 827 yards rushing this season for a 4.7 average. Airington is the leading Buccaneer scorer with 14 touchdowns.

Sunray, with plans of riding the great throwing arm of Worst as well as his and Johnson's running ability, will test the Pirates highly-regarded pass defense. Lefors has allowed only two points to be scored against them via the air route. The Pirates have averaged one interception per contest.

Lefors, with a 7-1 record, are district champs of 2-A with Sunray, 10-0, district champs of 1-A. The teams have met four mutual opponents this year. Sunray downed Stinnett, 16-0, Canadian, 32-0, Gruver, 22-0, and Stratford, 14-0, while Lefors bested Stratford, 21-0, Gruver, 13-0, Canadian, 21-0, and tied Stinnett, 0-0.

Other victories for the seventh ranked Bobcats were over Spearman, 42-0, Wheeler, 50-0, Canyon, 15-14, Boise City, 63-4, Sanford-Fritch 74-0, and Panhandle, 24-12.

Other victims at the hands of the Pirates have been Groom, 31-0, Wellington, 18-0, Clarendon, 23-0, and Memphis, 37-14. Lefors has lost to White Deer, 28-20, and McLean, 6-3.

Thurman Cited Tough Harvester

Gary Thurman, Pampa junior man Phillips introduced Gary at the Jayces luncheon.

The "Toughest Harvester" award goes to the boy playing football, according to the coaches, that best fulfills the following qualities — aggressiveness, blocking and tackling ability, leadership, and desire.

The period of judging the player is from Monday through that week's game. Workouts as well as game participation are considered.

Other winners of the award are Carl Clark, Ricky Stewart, Dee Wright, Jerry Glover, Curtis Fletcher, Ricky Goodwin, Kenny Hebert, and Ronnie Babcock.

Gary is the son of Mr. and Mrs. Delbert Thurman, 1112 Sandelwood St.

GARY THURMAN ... defensive ace

die lineman spot for the first time this season against the Bulldogs. He made four straight tackles and other tackles out of his regular area from his right defensive guard position.

Coach Holladay praised Thurman for doing a better job in that position than anyone else has done all year.

The "Toughest Harvester" award, sponsored by the Pampa Jayces is given each week to the boy selected as having done the best job from Monday's workouts to that week's game. Coach Norman

PLAYER BREAKS ANKLE

BUFFALO, N.Y. (UPI) — John Kemmer will be lost to the Canadian College basketball team until at least Jan. 1 because of a broken bone in his right ankle.

The 6-4, 230-pound junior from New York City suffered the injury during a scrimmage Monday.

Other victories for the seventh ranked Bobcats were over Spearman, 42-0, Wheeler, 50-0, Canyon, 15-14, Boise City, 63-4, Sanford-Fritch 74-0, and Panhandle, 24-12.

Other victims at the hands of the Pirates have been Groom, 31-0, Wellington, 18-0, Clarendon, 23-0, and Memphis, 37-14. Lefors has lost to White Deer, 28-20, and McLean, 6-3.

Cleveland Tribe Sold To Group; Paul Takes Helm

CLEVELAND, Ohio (UPI) — The sale of the Cleveland Indians for an estimated \$8 million to a 19-man syndicate returned a "one-man" operation to the city's baseball front.

Gabe Paul, a transplanted National Leaguer who spent many years with Cincinnati as general manager, not only will act as general manager, but will be president and treasurer of the new group.

In addition, he assumed jobs once held by Nate Dolin and George Mefinger, members of the old owners. Paul will have the final say when it comes to player deals, operations at the stadium and radio and television contracts.

Paul, who introduced the new owners at a press conference Tuesday, said the composition of the group means that the "Indians will stay in Cleveland."

"The sale of the Indians to a group mostly comprised of Clevelanders will dispell any future rumors that the Indians are leaving Cleveland," Paul said. "This group is composed of civic-minded Clevelanders interested in keeping the Indians here."

Paul said the sale of the club already has been approved by the board of directors and now must be okayed by the stockholders. A meeting for this purpose is to take place next week.

Paul said there would be no drastic changes in policy. He said the main purpose would be to "improve the Tribe and make it into a winning team."

Mantle Named Most Valuable

NEW YORK (UPI) — That's three down and one more to go to make Mickey Mantle the "most" valuable player of all time.

Mantle, who honestly felt that Yankee teammate Bobby Richardson would win this year's award, was named the Most Valuable Player in the American League Tuesday for the third time in his career.

No one in either league has ever won the award four times—but at 31 and at the peak of his career Mickey has a better chance to do it than anyone else.

The only other three-time winners are Stan Musial, Yogi Berra, Joe DiMaggio, Jimmie Foxx and Roy Campanella.

Runnerup to teammate Roger Maris the previous two years, Mantle was an easy winner this time, polling 124 points as compared with 152 for Richardson in second place.

Breaks Into Grin

Mickey broke into a big grin when he received the news after shooting an 89 at the Southern Hills Country Club golf course at Tulsa, Okla.

"I'm sure glad to hear it," he beamed. "It's what you work for all year."

Mantle, who received 13 first-place votes from the 26 members of the Baseball Writers' Association of America who did the balloting, hadn't expected to win. "I thought Bobby would get it," he said.

Mantle, the only man to be

Mantle Named Most Valuable

named on all 26 ballots and the seventh Yankee player to win the award in the last nine seasons, had some pretty fair credentials.

His .321 batting average was only five points shy of batting champion Pete Runnels of the Red Sox. Mantle's 30 homers, and 89 runs batted in weren't quite up to his accustomed par but because of injuries he played in only 122 games.

Richardson Sparking

Richardson, who drew five first-place votes, batted .302 this year, drove in 58 runs and had eight homers. But those figures tell only half the story. He kept rally after rally alive and was little short of magnificent around second base.

The only other players to attract any first-place votes were Harmon Killebrew of the Minnesota Twins and Yankee rookie Tom Tresh, each of whom had one. Killebrew finished third in the balloting with 89 points and Tresh 12th with 36.

Wheeler's Mustangs Meet Unbeaten Foe

The Wheeler Mustangs, rich with sophomores, will face a favored Matador team this Thursday afternoon at 2:30 in a bi-district battle slated for Clarendon.

Size and experience seems to be the big difference in the two class B teams. Matador, starting mostly seniors, outweigh the Mustangs over 10 pounds per man on offense and even more on defense.

The Mustangs may have to take to the air as Matado has four boys in their defensive line that tip the scales at over 200 pounds.

Three sophomores and a junior are slated to start for Wheeler in the backfield-Richard Wallace, quarterback; Dunk Porter and Don Burks, halfbacks; and fullback Mendall Hunter, the junior backfield ace.

One freshman, tackle Danny Dorman, will start in the line with two sophomores, two juniors and two seniors — ends

Randy Callan and Kent Sims; tackles Dorman and Neil Rogers; guards Ray Owens and Jimmy Jamison; and center Gene Watson.

Matador has compiled a 9-0-1 season mark, with Rochester fighting Matador to a draw.

The Mustangs have downed two Oklahoma teams Mangum 14-8 and Erick, 30-19, Estelline, 39-0, Texline, 28-0, Groom, 8-0, and Claude, 14-0. Wheeler has suffered losses at the hands of Canadian, 14-0, Sunray, 60-0, McLean, 20-14, and Follett, 26-0.

Wheeler's Mustangs came on strong in district play as they won their last three games and the 5-B district championship. Matador was victorious in the 6-B district race.

Coach Grady Burnett's charges operate from the split "T" with several variations. The Mustangs alternate three players at the left halfback.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the right of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings.

SUBSCRIPTION RATES

By carrier in Pampa, 35c per week, \$4.50 per 3 months, \$9.00 per 6 months, \$18.00 per year.

Nation In The Dark

In spite of headlines proclaiming great optimism in Washington for early resolution of our differences with Russia over their takeover of Cuba and its manning and conversion as a Western Hemisphere invasion base, the hour of irrevocable showdown draws nearer.

The mauling of the UN—whose head man, U Thant, disfigured himself in his feckless jaunt to Cuba and his hasty retreat from the scorn of Castro, and whose chief UN representative has twice been rejected by the American people—has seemed clear.

Just as, two weeks ago, we were optimistic because Khrushchev said he was bringing home his 42 missiles—and US Naval officers viewed from ships of the "blockade" line what may have been missiles on Russian decks—today, we cherish brave hopes that, after all, Castro will permit Khrush to bring home his 30 bombers also.

When the public knows more of what goes on, there may be more victories.

The Long And The Short

Wisdom arises from listening to others at length and from responding to others with brevity.

Cuban Censorship Cracked

Departure of newsmen and photographers for Guantanamo marked the first breakthrough by press and radio of the unprecedented blackout of on-the-spot news from Cuba.

When the public knows more of what goes on, there may be more victories.

POLITICS?

Thief Takes Property Without Owner's Consent

By GEORGE BOARDMAN, Ph. D.

Let's define the word thief. One who takes goods or personal property of another without consent and with no intention of ever returning it.

The voting population is being bombarded by candidates for public office. One promises to steal more from others for your benefit. Another promises to steal less from others for your benefit.

The perpetually petulant socialist screams, "But don't you think our wonderful elected representatives, our great statesmen are decent, self respecting, self responsible human beings?"

I suppose many citizens have voted for taxes, in one form or another. When the citizenry gives consent to taxes the politicians do not have to steal but I have never voted for a tax bill in my life.

Pull Up A Chair

By Neal O'Hara

What's America's favorite card game? I'll bet you knew all along it is Contract Bridge. That's one of the things we learned after reading the results of the most recent survey of playing card habits in the United States today.

Did we hear anyone ask "Where's Euchre?" It's not even in the top twenty games but the playing card experts say it is still the most popular game in such spots as Rochester, New York, and parts of Indiana and Illinois.

We are still a card playing nation, despite TV and the do-it-yourself movement, if we are to believe the survey which shows that three out of every four Americans still play cards.

At this writing, U Thant on his throne in the Manhattan no-man's land is reported sitting on terms submitted to him by Russia and Cuba jointly for ending the crisis.

Allen-Scott Report

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — A full reconciliation between Moscow and Belgrade is now in the making. Yugoslavia's "revisionist" split with the Kremlin is coming to an end around December 10 when Marshal Tito visits Moscow at Premier Khrushchev's invitation.

The establishment of a link between Yugoslavia and the Warsaw Pact is also under study by Tito and Khrushchev. This may be arranged by Tito's assigning military observers to the Warsaw Pact's military headquarters in Moscow.

These and other foregoing developments are reported in leaks from the series of economic-military talks now going on in Belgrade between Russian-Yugoslav officials.

The private talks were opened when Leonid Brezhnev, nominal President of the Soviet Union, made his state visit to Belgrade in October and received Yugoslav's highest decoration from Tito.

These unpublicized discussions already have produced some startling agreements, including: A \$100 million Soviet arms deal to modernize Tito's military forces.

A \$740 million Soviet-Yugoslav trade agreement, running for three years. Under its terms, Tito will ship chemicals, cables and agricultural products to Russia in exchange for machinery and petroleum products.

The arms agreement is the first to be made between Russia and Yugoslavia since Tito broke with the Soviet Union in 1948. Since that historic division, Tito has received more than \$2.3 billion in U.S. military and economic aid.

The massive new trade agreement is by far the largest ever entered into by Tito and Khrushchev. It represents a doubling of trade over the past three years.

UNFINISHED BUSINESS—The fate of Albania's Stalinist and pro-Chinese Dictator Enver Hoxha will be decided at the Moscow meeting if Communist Dictator Tito gets his way.

Tito plans to seek Khrushchev's support to "liberate" adjoining Albania from Hoxha. With Hoxha's regime out of the way, Tito would incorporate Albania into the Federation of Yugoslavia.

Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

Question: Do compulsory schools hurt most the needy they were supposed to benefit?

Undoubtedly tax-supported schools originally were started with the belief that those who didn't have enough to feed their children and needed to have them stay at home and work a good part of the year would be benefited by having "free" schools in the winter.

The reason tax-supported schools hurt the poor more than they hurt the well-to-do is that they are monopolistic. When they teach things that the poor know are wrong and cannot teach the difference between right and wrong, the poor find it difficult if not impossible to be able to take their children out of the tax-supported schools and send them to schools that can teach the difference between right and wrong.

The well-to-do, however, when they see what is taking place, are not hurt nearly as much, for they do not have to make as much of a sacrifice to send their children to schools that can teach the difference between right and wrong.

Yes, the tax-supported schools injure the very class of people that the bureaucrats at the head of the school monopoly contend they are benefiting.

The Almanac

By United Press International Today is Wednesday, Nov. 21, the 325th day of 1962 with 40 to follow.

The morning stars are Venus and Mars. The evening stars are Jupiter and Saturn.

On this day in history: In 1877, Thomas Edison announced in Menlo Park, N.J., that he had invented a "talking machine."

FOCAL POINT FOR TROUBLE—Trouble lies at junction of the Red Sea and the Gulf of Aden, where Yemen, in control of a rebel take-over is giving cause for alarm to Saudi Arabia and Jordan, and to Egypt's Nasser, who backs the rebels. In Yemen's plateau section lies the most fertile portion of Arabia. Her neighbor to the south, Aden and the coastal territory under United Kingdom's protectorate wing, is a land of ill-defined borders, coveted by Yemen as a rich plum ripe for plucking.

Clemson Prexy Says Negroes Are Not Barred

By LEWIS LORD United Press International ANDERSON, S.C. (UPI) — The president of Clemson College told a federal court Tuesday the admissions policy of the state-supported institution presents no barrier to Negro applicants.

Dr. Robert C. Edwards testified during the second day of a hearing on a suit by Harvey Gantt, 19, a Negro, charging that he was denied enrollment in Clemson solely because of his race.

Clemson attorneys said they expected to complete their case today. Oral arguments are not expected from either party.

Federal Judge C. C. Wyche said the main issue in the case was whether Gantt's application was handled differently because he is a Negro.

Edwards said Clemson followed its admissions policy, which includes no statement or intention to bar anyone because of race, to the letter in handling Gantt's request for transfer from Iowa State University.

There exists in South Carolina a state law which would close Clemson as well as the state's Negro college should Gantt win his suit. But Edwards insisted that as far as he and other college officials were concerned the Charleston, S. C., youth was just another applicant.

The reason Gantt has not been admitted, he said, was his failure to be interviewed by members of the architectural school and submit a portfolio of his architectural design work from Iowa State.

Harland McClure, dean of the architectural school, was asked whether Gantt was qualified to enter the school.

"As far as his transcript and grades are concerned, yes," he answered. "But we still need his portfolio and an interview with him."

DOWN SHE GOES

DALLAS, Tex. (UPI) — James Daniels, 24, was forced to undergo surgery Monday to remove a thermometer he swallowed while trying to take his own temperature.

Panhandle Polio Project Turnout Totals 5,266

Some 5,266 persons turned out for Type 2 polio inoculations in Panhandle Sunday, according to Mrs. J. B. Howe, one of the volunteer workers assisting with the clinic there.

Mrs. Howe said this compared to 5,383 persons who took the Type 1 oral vaccinations.

A make-up clinic for Type 2 inoculations will be held Sunday in the school cafeteria at Pampa.

Clinic hours on Sunday will be from 1 to 3 p.m., Mrs. Howe said.

Chinese Consider Very Carefully All Aspects of It

The prime minister indicated that all he knew about the proposal so far is what he had read in the newspapers. He termed the proposal a "unilateral announcement" and said this country had not yet received "official confirmation."

Starts Today

Peking Radio said the Chinese troops in northern India would cease fire at midnight tonight (11 a.m. EST) and prepare for a limited withdrawal Dec. 1 as a prelude to negotiations.

The Chinese Reds said the withdrawal would take their troops 12.5 miles behind the positions they held Nov. 7, 1959. They termed "unreasonable" Nehru's demand that they withdraw to positions held prior to Sept. 8, 1962.

Nehru said today that India will insist on its position as a prior condition to negotiations but he would not reject the Chinese proposal outright.

"We have to watch how the Chinese are giving effect to it (the cease-fire) and withdrawal," he declared.

Shout Protests

Opposition members of parliament shouted "we don't want it," indicating even the Sept. 8, 1962, line was too far inside India.

"It's a good and strong position," Nehru retorted. "We do not propose to negotiate until that position is restored. Negotiations will be in various stages."

"At the cost of our prestige," shouted another M.P.

Peoples Socialist leader H. V. Kamath said the house already was on record pledging no negotiations "unless every inch of sacred land is vacated."

Former Defense Minister of State Mahavir Tyagi said India "is too good-winked already by these gestures."

And Anglo-Indian leader Frank Anthony termed the Peking proposal "another piece of calculated Chinese trickery."

Make Big Gains In the past 31 days of savage fighting in the Himalayas, the Chinese Communists have made spectacular gains with their human-wave attacks.

They have occupied another 2,000 square miles of territory in the Ladakh area of Kashmir and driven as much as 100 miles deep into India's North East Frontier Agency.

At last reports Tuesday night, fighting still was going on in two sectors of NEFA and around the Chusul airstrip in southern Ladakh.

Crisis

(Continued From Page 1) instructed the secretary of defense to lift our naval quarantine.

Indicates Confidence The lifting of the blockade before the bombers actually had been removed indicated Kennedy's confidence in Khrushchev's intentions.

The Pentagon said later that Defense Secretary Robert S. McNamara had ordered Atlantic Fleet headquarters at Norfolk, Va., to end the blockade "forthwith" and return the ships to their normal duties.

Commission

(Continued From Page 1) lectures has been around 38 per cent.

It was pointed out that only a year and a half ago Pampa's tax rate was cut 5-cents from \$1.50 to \$1.45.

This actually would make the maximum tax rate increase only three cents above the rate before the tax cut.

The bankers and others present were asked to give serious study to the proposal this time from the financial standpoint.

Pampans' Father Dies

Bryan Washbourne, 66, of Jay, Okla., father of Mrs. Joe Pafford and Forrest Washbourne, Pampa residents, died at 9 a.m. yesterday in a Vinita, Okla., hospital.

The widow, Mrs. Myrtle Washbourne of Jay, Okla., and nine children survive in the immediate family.

Funeral services will be held at 2 p.m. Friday in the chapel of the Clay Funeral Home at Jay and burial will be in the Jay cemetery.

Employee Of Post Office Is Honored

Charles W. Stowell, an employe for more than 27 years in the Pampa post office, was honored recently at a retirement party held at Dearen's Buffeteteria.

Approximately 85 post office employes attended the event.

A. J. Rohde presided at the party and J. D. Williams gave Stowell a watch on behalf of his fellow workers.

Pampa Postmaster O. K. Gaylor presented the honoree with a certificate of service from the U.S. Post Office Department.

Since starting with the post office in 1936, Stowell has served as a clerk, carrier, and distribution and directory clerk. He also served several years as civil service examiner. His creditable service totals 27 years, 8 months and 13 days.

Stowell, who is a veteran of World War I, resides at 1951 Evergreen, Pampa.

Municipal Court Docket

Winnie Faye Armstrong, 422 Maple, driving with defective muffler, guilty, fined \$5.

Mrs. Maxine Rose, 305 N. Gray, disobeying stop sign, guilty, fined \$10.

Raymond D. Hassell, 638 N. Sumner, disobeying stop sign, guilty, fined \$10.

Rayburn A. Newton Jr., 1507 Faulkner, failure to yield right-of-way to vehicle, guilty, fined \$13.

Two Fined On Liquor Charge

Two Pampa women, Donna Avers and Virginia Cooper, pleaded guilty in Gray County Court Tuesday afternoon to charges of agents possessing an unauthorized beverage on premises and were fined \$100 and court costs.

The two, who reside at 501 N. Cuyler, were arrested at the Smoke House Bar.

Tuesday morning they pleaded guilty to intoxication charges and were fined \$25 each.

Department

(Continued From Page 1) Lee Junior High School.

The commission also voted to name Atty. Tom Snow and Lyle O. Gage to the City Tax Advisory Board to replace Luther Gige and Joe Miller, who said they were unable to accept the posts for which they were chosen at last week's commission meeting.

The commission opened three bids on a two and one-half ton truck cab and chassis last month but delayed acceptance of a bid until next week's meeting.

Pay Phone Booths Hit By Thieves

Police and officials of the Southwestern Bell Telephone Co. today were trying to solve the mystery involving the burglary of a half dozen pay telephone booths throughout the city.

George Newberry, telephone company manager, said thieves within the past few days had looted the cash boxes on the pay phones of an undetermined amount of cash.

Police Chief Jim Conner said the amount taken could run as high as \$40 or \$50 from each of the cash boxes.

The telephone booths that are known to have been looted were located at 105 N. Hobart, 200 N. Hobart, 1534 N. Hobart, 502 W. Francis, 600 E. Frederic and 1405 Alcock. Newberry said it was possible that other booths probably were robbed. A check was being continued today.

In each instance, police stated, the cash boxes apparently were opened with a key. There was no forced entry and none of the boxes was damaged.

The petroleum industry invested nearly \$2.5 billion in drilling and equipping wells during 1960—the latest year for which figures are available—according to Oil Facts. This does not include exploration, development and production costs.

The U.S. census of 1960 showed only one oculist in Arkansas.

Coat Mixup Is Reported Here

Mrs. J. R. Lawley, 1617 Charles reported to police that she lost a coat during what was believed to be a mistaken exchange at the Eastern Star Hall, W. Kingsmill last night.

Mrs. Lawley said another coat was left in place of hers and was turned over to police this morning.

Sheriff Rufe Jordan said today no trace had yet been found of missing coat which was taken from the checkroom of the Pampa Country Club a week ago Saturday night.

Absentee

(Continued From Page 1) and cents on his tax bill, here is the formula that will supply the answer:

Take the year 1968 when the tax rate on the bond issue will be the highest. To find how your tax bill then will compare with your present tax bill, use this formula: 1968 tax rate equals 1.53 over 1.45 times your 1962 tax rate.

For instance a \$12,000 home would be on the tax rolls at 4 per cent valuation or \$4,800. The present city tax on that home at the \$1.45 rate would be \$69.60. If the bond issue passes, the tax on the same home at the maximum increase to the \$1.53 rate in 1968 would be \$73.45, an increase of \$3.85 on the annual city tax bill.

The U.S. census of 1960 showed only one oculist in Arkansas.

Soviet Union Cancels 'Preparedness' Acts

By ROBERT J. KORENGOLD United Press International MOSCOW (UPI) — The Soviet Union today canceled the military preparedness measures it took last month at the height of the Cuban crisis. It said President Kennedy's lifting the Cuban blockade made the relaxation possible.

The orders to the Soviet armed forces disclosed for the first time that intercontinental ballistic missiles had been in a state of "combat readiness" and indicated that some submarines had been sent to battle stations.

The announcement came shortly after Moscow radio told the Soviet people of the President's decision to end the blockade. The broadcast did not mention the fact that U. S. aerial surveillance of the island will continue.

Later, Moscow radio broke its silence on the Chinese Communist cease-fire in the Indian border war. It broadcast a four-minute summary of the Chinese decision, without comment.

Discharges Delayed The military measures included a holdover of rocket forces and other key forces scheduled for discharge and an increase in the general state of combat readiness for all the armed forces.

The official announcement said that similar readiness orders given to the Warsaw Pact forces of Russia's East European allies also were being rescinded.

The decision was made, it said, "in connection with the possibility that has appeared for liquidating the aftermath of the dangerous crisis that has taken place in the Caribbean sea."

Judge Cites 'Tricky Tests' For Negroes

United Press International MONTGOMERY, Ala. (UPI) — A federal judge said Tuesday that more than 1,100 Negro voter applicants had been disqualified by "tricky tests" and he ordered them placed on permanent voting lists within 20 days.

The order by U. S. District Judge Frank M. Johnson Jr. involved the largest number of Negro applicants since the Justice Department began a crackdown on voter registration discrimination.

Johnson also ordered Montgomery County registrars to stop discriminating against Negroes and directed the Justice Department to provide names of three qualified persons to serve as federal referees if the orders are not obeyed.

The judge studied for more than nine months evidence against registrars George W. Penton and Mrs. Sammuella P. Willis on Justice Department charges of discriminating against Negroes in August, 1961.

Rites Held For Infant

Eric Bruce Riehart, infant son of Mr. and Mrs. Bruce W. Riehart of 1101 Seneca, died shortly before noon Monday in Highland General Hospital.

The baby was born Monday and lived six hours.

Graveside rites were held Tuesday with Rev. A. Bruns, pastor of Zion Lutheran Church, officiating, in the Baby Garden of Fairview Cemetery. Arrangements were under the direction of Duengel-Carmichael Funeral Home.

Survivors are the parents; two sisters, Laura and Sara, both of the home; the grandparents, Mr. and Mrs. W. M. Riehart of Collinsville, Okla., and Mr. and Mrs. D. M. Parker of Edwards, Calif.; and the great-grandparents, Mr. and Mrs. W. F. Kindred of Henryetta, Okla.

Guard

(Continued From Page 1) were taken to provide the needy with bountiful meals.

In Massachusetts, some 30,000 shut-ins, including more than 29,000 patients at state mental hospitals and 4,000 prisoners, will share 85,472 pounds of turkey.

Thanks to Mr. and Mrs. Bill Sargent, about 1,000 old people and welfare recipients in Des Moines, Iowa, will have a turkey dinner with all the trimmings.

For the 18th year in a row, the owners of Sargent's Cafe in Des Moines have saved enough nickels and dimes to give the dinner.

Students at New Trier High School in Evanston, Ill., collected thousands of cans of food to distribute to Chicago-area charities for their wards.
