Another Highway, Drainage Bond Election Set By City

In a 3 to 2 vote last night, Pampa's City Commission voted to hold another highway and drainage improvement bond issue election on Tuesday, Dec. 11.

Voters will be asked to approve a \$1,750,000 issue this time.

It will add \$250,000 to the original \$1.5 issue for the drainage of Hwy. 70 into Alameda Park on the city's north side. This is the area on 23rd Ave. around Robert E. Lee Junior High School from 23rd Ave. to 19th Ave.

Commissioner Loyd Simpson of Ward 1 and Commissioner Will Graham of Ward 2 cast the dissenting votes. Mayor E. C. Sidwell and Commissioners Leon Holmes and L. P. Fort of Wards 3 and 4 voted for the motion.

Commissioner Graham said he agreed that all of the improvements included in the proposed bond issue are needed for Pampa's progress, but he said he thought they should have been broken down into three propositions — one for Hwy. 152, one for the North side drainage project, and one for Hwy. 60 and Hwy. 273 combined.

Commissioner Simpson said he was opposed to taking on any more projects and said he would have voted for the motion if it had stayed with the original package which was voted on Oct. 30. That election lost by only 43 votes.

However, both Graham and Simpson said they would work to support the new bond issue proposal.

Simpson read this statement to the commission:

"I feel that the failure of the recent bond issue was an indictment of irresponsibility on the part of the City Commission for the poor and inefficient manner in which it was presented, on the other hand since the vote was not decisive, it is also a tribute to the fine people who realized that Pampa, in order to grow and go forward, must take active and progressive steps forward, not later, but now. The Commission owes these people a debt of gratitude."

"The best and only decisive way of paying that debt is for the Commission to ask for their support again, and this time prove ourselves to be dedicated leaders and assume our responsibility as such, while at the same time calling on those far-sighted citizens for their enthusiastic support."

Mayor Sidwell also read a prepared statement at the opening of the discussion on the new bond election proposal.

"The mayor's statement said: 'Much consideration has been given to the bond election submitted to the people on October 30, 1962. I not only have had many calls from people but have letters from them asking that we have another bond election. They have also asked for more information on the overall projects. The consensus was to have the election at the earliest date possible and I sincerely thank those people for expressing their views."

"Judging from the number of calls, my recommendation is for

Air Force Major Is To Be Next US Astronaut

CAPE CANAVERAL (UPI)—An Air Force major who soloed at 16 will attempt to orbit the earth for a full day in the United States' next manned space shot in April.

Maj. L. Gordon Cooper, 35, was selected Tuesday by the National Aeronautics and Space Administration (NASA) in Washington to become the sixth American to pilot a spacecraft.

Navy Cmdr. Alan B. Shepard, the nation's pioneer spaceman, was named as Cooper's back-up pilot. NASA said the Cooper orbital attempt was planned for April because unfavorable weather conditions here usually last through the first quarter of the year.

The spacecraft for the shot, designated MA9, already is undergoing preliminary tests and checkouts here. Cooper, who served as backup pilot for astronaut Walter M. Schirra's Oct. 3 flight of six orbits, also is at the Cape.

Cooper's wife and two daughters are in Houston, Tex., home of the astronauts.

"We cannot afford to lose our hope and faith in our community but should take hold and, begin pulling on our own boot straps. We must bring all our problems

(See COMMISSION, Page 3)

Part Two Of Polio Drive Set Sunday

Part Two of the Pampa and Gray County Sabin oral polio vaccine inoculation project will be held Sunday, Nov. 18 with no make-up on the part two program.

The locations for the vaccine inoculation are the same locations as were used for the Part One inoculations.

Type II Sabin oral polio vaccine will be administered between the hours of 12 noon and 6 p.m. on that date, according to Melvin Jayroe, chairman of the project for the Pampa Jr. Chamber of Commerce, co-sponsors of the project with the Top O' Texas Medical Society.

As in the past, Lefors and McLean will conduct their campaigns on the same day as Pampa.

Those who can locate their permanent record cards will simply present them to be marked and returned to them when taking Type II vaccine.

The sponsors of the oral polio vaccine emphasize that there will be no make-up for those missing the second part of the polio inoculation.

Top Celanese Officials To Visit Here Tomorrow

Officers of Celanese Corporation of America, headed by President Harold Blanche, will visit Pampa tomorrow to take part in ceremonies marking the local Celanese Chemical Plant's 10th year of operation and its recently established safety record of working three million man-hours without a lost-time injury.

Following a tour of the plant tomorrow afternoon, the visitors will join local Celanese employees and their wives at a barbecue dinner to be held in the Pampa High School Field House.

In addition to Blanche, the visitors from Celanese Corporation of America will include James R. Kennedy, Executive Vice President-Finance and Administration, and Richard W. Kixmiller, Executive Vice President - International Operations, and from Celanese Chemical Company, James H. Worth, President, and Ernest T. Lindsey, Vice President - Manufacturing.

When it was opened in 1952, the local Celanese plant had 153 employees and two products. Today, it has 252 employees engaged in the production of more than a dozen chemical products. The plant itself has been tripled in capacity, with a series of satellite facilities added to diversify its product line. It is now the nation's largest single producer of acetic acid, as well as one of the largest producers of acrylate esters. The plant's basic process, based upon the air oxidation of natural gas, was a commercially untested process when the local plant was opened. Today, it is recognized throughout the world

Indian Parliament Backs Nehru After Long Debate

Canada To Join In On Arms Shipments

**By PATRICK J. KELLEN
United Press International**

NEW DELHI (UPI) — Parliament gave Premier Jawaharlal Nehru's government a thundering mandate today to "drive the Chinese from the sacred soil of India."

Nehru received a massive vote of confidence on two motions after a marathon six-hour debate in which 165 speakers took part.

One motion approved the government's emergency regulations and the other proclaimed the Indian people's determination to oust the Communist invaders of northern India "whatever the consequences."

In a speech winding up the debate, Nehru told parliament that no country as aroused as India has become "can ever be suppressed or defeated."

Earlier, it was announced that Canada will join the United States and Britain this week in bolstering India's defenses.

"This war between India and China cannot end in the surrender of either," Nehru said. "We have to finish this war in some terms honorable to both parties."

Then he asked a rhetorical question: "Are we going to march to Peking?" Back came an answer from some members: "No."

Nehru added, "We can't liberate Tibet even if we have the atom bomb."

The Canadian High Commissioner said six Canadian DC-8s will arrive Saturday for the Indian air force, the first step in fulfillment of a pledge of aid from Prime Minister John A. Diefenbaker.

The United States and Britain already have poured in a number of plane loads of small arms and other military supplies. They are considering further requests for other aid such as planes and help in setting up arms plants.

Finance Minister Morarji Desai asked parliament today for an emergency appropriation of a billion rupees (\$210 million) to help pay for the sudden military buildup.

He said three quarters of it would go directly "to meet Chinese aggression" and the rest would pay for urgently needed army and air force building construction.

The emergency request amounts to an increase of one third in India's current military budget. About 16 per cent of the national budget is devoted to the military.

All-India Radio reported that the strategic border protectorate of Sikkim has declared a state of emergency "in view of the border hostilities between India and China."

"A grave emergency exists whereby the security of Sikkim is threatened," proclaimed the Maharaja of Sikkim, Sir Tashi Namgyal.

The proclamation gives Sikkim's Indian-dominated government sweeping powers to maintain law and order and protect the security of the tiny Himalayan state.

Sikkim nestles between Nepal and Bhutan but its two northeastern passes form traditional entry routes to India from Communist-ruled Tibet.

The protectorate is ruled by a Tibetan family which exercises control over the population of about 165,000 Sikkimese, who are predominantly Nepali in origin. India appoints its prime minister and is responsible for the state's administration.

The Hindustan Times reported today that Chinese Communist diplomats are leaving India in large groups.

The newspaper said that on Tuesday 24 Chinese officials and their families flew off to Peking from New Delhi. Officials in Peking's embassy and consulates previously had been reported burning secret documents and maps.

So far the two nations have maintained diplomatic relations but Prime Minister Jawaharlal Nehru made it clear Monday that this could change at any time.

Excess Profits Are Cited In Korean War Contract

WASHINGTON (UPI) — Sen. Stuart Symington, D-Mo., said today that profits by a Canadian nickel firm on a Korean war contract with the U.S. government were "extremely high and indefensible considering that both countries were at war."

Symington, chairman of the Senate stockpiling subcommittee, said the entire free enterprise system could be endangered if businessmen took advantage of short supplies and national needs to "make an unreasonable profit."

The Missouri Democrat referred to the Falconbridge Nickel Mines, Ltd., of Toronto, Ont., whose huge profits on a 1953 nickel stockpile contract were aired by the subcommittee Tuesday. Falconbridge ignored subcommittee invitations to send witnesses to the hearing.

But the subcommittee expected better cooperation from International Nickel Co. (INCO), price-setting bellwether of the industry, when it resumed hearings today.

The session was scheduled to start at 2:30 p.m., EST.

Dollar A Pound
Former General Services (GSA) Administrator Jess Larson testified Tuesday that Falconbridge was given a highly profitable \$1 a pound nickel contract in early 1953 because the United States "desperately needed" nickel and "that was the best we could do."

The arrangement was strongly criticized by Symington, onetime head of the National Security Resources Board, and Sen. Clair Engle, D-Calif.

Symington said he would never have signed the contract and that he felt steps should be taken to limit such profits. Engle denounced "war-profiteering businessmen."

The criticized contract called for Falconbridge to sell the government 100 million pounds of nickel at a base price of \$1 a pound, with about 45 cents of each dollar going for expanded facilities.

Exercises Option
The company then had the option — which it exercised — of selling the United States another 50 million pounds at the same \$1 price, even though its expansion costs had been amortized.

GSA auditors estimated that Falconbridge's profits after taxes on the 150 million pounds ran to more than 187 million, or about 71 per cent of production costs.

Subcommittee counsel Richmond C. Coburn said Falconbridge had refused to let subcommittee investigators look at its books. Because the records are in Canada, the subcommittee has no subpoena authority to get them.

US Quietly Passed 8 Red Ships

WASHINGTON (UPI) — The United States quietly permitted eight Soviet ships to pass through its naval blockade to Cuban ports during the two weeks ending Saturday, it was disclosed today.

The Defense Department gave this breakdown on ship traffic through the blockade to Cuba between Oct. 29 and Nov. 10:

Soviet vessels — 8; other bloc vessels — 3; ships chartered to bloc countries — 18; other ships — 3.

Since Nov. 10, the Pentagon said, three more "non-bloc" vessels have been permitted through the quarantine to Cuba.

Up to now, ship movements through the blockade have been kept secret. Administration officials still would not say how the various types of ships were passed through the blockade — whether they were halted or boarded.

Nor would administration spokesmen say what cargoes the Soviet or chartered ships carried, or how many of them were tankers.

IVA REVENUES RISE

KNOXVILLE, Tenn. (UPI) — The Tennessee Valley Authority (TVA) has reported a record \$507 million in electric power revenues for the three-month period ending Sept. 30.

The agency attributed the rise, which was \$2 million above the same period last year, to warmer weather which contributed to increased energy use and decreased hydro power generating.

Aid Rushed To Guam

AGANA, Guam (UPI) — The United States today rushed massive relief shipments to the island of Guam, where Typhoon Karen Sunday caused destruction "like a whole army of workers with big scythes."

As U. S. Air Force C-130 transports landed on the island's battered airfield before the first consignments of tons of tents, food, and medicine, the death toll rose to seven with the discovery of another body in the rubble of a building. Officials said they expected to find others in the wreckage from the storm which did more damage than two World War II invasions.

Typhoon trackers in Tokyo said Karen, its winds down to 150 miles an hour, was moving in the direction of the U. S. military bastion of Okinawa. It was about 500 miles south-southeast of Okinawa early today, moving at about 15 miles an hour.

Acting Gov. Manuel Guerrero warned the islanders against drinking water except that from inspected stations and told the 3,000 people who lost their homes that help was on the way.

Scene from Air
One of the first pilots to fly in with emergency personnel and equipment, Col. William H. Lewis of Pasadena, Calif., described the 209-square mile island as seen from the air.

"It was just hell. It was total destruction. It looked to me like a whole army of workers with big scythes had just gone across the whole place and chopped down everything they could see. Everything was lying down—smashed. Even the forests were lying down."

Lewis, commander of the 838th Troop Carrier Squadron in Japan, said "all the buildings not typhoon-proof were destroyed or damaged to a serious degree, and a large percentage of the typhoon-proof buildings were heavily damaged."

He said a heavier casualty toll was avoided because people "doubled up in the typhoon-proof buildings before the storm hit."

Move Into Schools
Guerrero praised the populace for "the excellent morale you have shown by helping each other."

(See ISLAND, Page 2)

Advisory Board Is Named For City Tax Work

A ten-man Tax Advisory Board for the city was named at last night's meeting of the City Commission.

Members of the board, chosen by ballot after each commissioner had submitted several nominations, are:

E. J. Lewis Jr., Billy Davis, Elmer Wilson Jr., E. E. Simmons, James B. Dailey, Luther G. St. V. A. Morgan, Bob Williams, Bill Watson, and Joe Miller.

The advisory board will serve through the 1963-64 year until the Tax Equalization Board is named in April of 1963.

The advisory board makes recommendations to the three-man equalization board which actually fixes property valuations and holds public hearings for real and personal property owners in the city.

In other business last night, the Commission adopted a motion permitting the placing of Pampa's Pioneer Cottage on a plot of city ground just northwest of Starweather Ave. and east of Yeager St., which is across the street from a site that had been sought for the historic cottage by the Pampa Historical and Genealogical Society.

Tracy Carty, president of the society, said the location was agreeable to members of the PHGS.

City Commissioners agreed that in later action they would designate the area as Pioneer Park and it will be made a site for tourist visitation.

The commission also voted to have the city manager dispose of an automobile, for which the city holds the title, and turn the proceeds over to the president of the Pampa Chamber of Commerce.

The automobile was purchased in the city's name and used for chamber work under the old Board of City Development which recently was dissolved by the commission.

Mayor E. C. Sidwell said the city had received a letter from Forrest and Cotton, engineers, stating that a survey of Pampa's water and sewer needs would be ready for delivery to the city by Dec. 30.

Reynolds Is Re-Elected Rodeo Prexy

Wiley Reynolds was re-elected president of the Top O' Texas Rodeo Association at a meeting of the board of directors in the Chamber of Commerce offices last night in City Hall.

Other officers re-elected were Buddy Pries, first vice president; Bill Tidwell, second vice president; and E. O. Wedgworth, secretary.

Warren Haise was elected treasurer to replace Floyd Watson, whose term as a board member expired.

The board also voted to move its offices into the new Chamber of Commerce headquarters in the Huhves Bldg. on Jan. 15.

The rodeo association has agreed to share the office expenses with the chamber.

If it comes from a hardware store we have it. Lewis H. Lewis, Adv.

JC's Hear Debate On State Issue

A. J. Carubbi Jr. and R. F. MacDonald "debated" a controversial State Jaycee proposal at yesterday's meeting of the Pampa Junior Chamber of Commerce meeting at noon in the basement of the First Methodist Church.

Bob Blakeney, program director, introduced the program, in which Carubbi and MacDonald took "pro" and "con" sides on the issue of providing a larger vote voice for the larger clubs in the state, based more nearly on a membership basis.

Also at the meeting, assistant Harvester coach Eural Ramsey introduced this week's "Toughest Harvester," Ronnie Babcock.

The club also discussed plans for Sunday's polio inoculation project, part two, the Santa Day Pancake Supper slated for the high school cafeteria, and other club projects.

Relative Of Pampan Dies

Mrs. Ruby Mosby Rountree, sister of Mrs. Nannie Belle McLoon, of Pampa, died Nov. 4 in Hillcrest Hospital, Tulsa, Okla.

Mrs. Rountree, born Aug. 18, 1892, resided at 620 Javine Street, Skiatook, Okla. She was a frequent visitor to Pampa and was acquainted with a number of Pampans, Mrs. McLain said.

Funeral services were held in the Christian Church in Skiatook at 2 p.m. Nov. 7 with the Rev. Earl Cleek, pastor, officiating. Interment was in Osage Gardens Cemetery at Skiatook, under direction of the Jim Green Funeral Home of Pryor, Okla.

Survivors include the Pampa sister, who resides at 1204 S. Barnes; one brother, Ed Mosby of Durango, Colo.; and another sister, Mrs. Ethel McClanney of Venita, Okla.; her husband, three children, and several grandchildren.

Mr. Maness Rites Pend

Funeral services are pending at Duengel-Carmichael Funeral Home for Mr. M. Maness, who died at 7:30 a.m. this morning from a heart attack on arrival at Highland General Hospital.

He was born Dec. 21, 1882, in McNairy County, Tenn., and moved to Pampa from there on Dec. 21, 1915. He first moved to a farm southwest of Kingsmill and in 1943 moved to the farm 4 miles east of Pampa, where he was living at the time of death.

Mr. Maness married Miss Minnie Woods, Feb. 1, 1903 in McNairy County, Tenn. He was a member of the Church of Christ.

He is survived by his wife; four daughters, Mrs. Carl O. Smith, White Deer; Mrs. M. H. Stephens, Colorado Springs, Colo.; Mrs. Winford Swain and Mrs. Weldon C. Steward of Pampa; two sons, T. E. of White Deer and Archie of Pampa; two brothers, William Bell of Kenton, Tenn., and Henry of Bethel Springs, Tenn.

Susan Mayo Rites Slated

Susan Ann Mayo, born Aug. 19, 1957 in Pomona, Calif., died at 4:20 a.m. this morning in Highland General Hospital. She is the daughter of Mr. and Mrs. W. G. Mayo, 641 Naida. She had been sick for the past six and one-half months.

Survivors include the parents; two sisters, Rebecca Lynn and Debra June, of the home address; maternal grandparents, Mr. and Mrs. J. D. Miller of Paducah, Tex.; and paternal grandmother, Mrs. Kate Mayo of Pampa.

Funeral services will be held Thursday in the Chapel of Duengel-Carmichael Funeral Home at 2 p.m. with the Rev. Carson N. Snow Jr., pastor of the Church of the Nazarene, officiating.

Burial will follow in Fairview Cemetery.

Island

(Continued From Page 1)

"The government ordered the homeless unable to move in with friends were to be housed in schools spared by the typhoon. It was estimated that all classes would be suspended for at least six months.

Guerrero and other islanders were critical of the lag in help from the mainland.

"I'm sure you shared with me the disturbing feeling during the past two days that we were alone, friendless and beyond assistance from outside," he said in his radio address. "But, I'm pleased to tell you that the events of the past few hours have erased this feeling from my mind.

"We are facing the great task ahead of us with the full resources of manpower, supplies, and some financial assistance from the federal government."

The Army sent hundreds of tents to help house the homeless. The Navy diverted a troop transport with 1,100 troops en route to the Far East to assist island recovery. Four hundred Marines left Hawaii with 80 civilian employees of the public works center.

Grass Fire Burns 10 Acres Near Here

A grass fire broke out this morning about 7:30 a.m. on the oil lease of Pan American, four miles south of Pampa.

Pampa Fire Department, going to the scene, reported that about 10 acres of grass were burned. No other damage was reported. The cause of the fire was unknown.

Groom Personals

Mrs. George Britten
Daily News Correspondent

Mrs. Tassie Dorsey visited her son, Bill at Sunny Monday.

Mrs. B. F. Patterson visited her husband recently at Marlow, Okla. where Mr. Patterson is undergoing medical treatment.

Mr. and Mrs. Dwan Chism and children returned to their home at Napa, Calif., Wednesday after a week's visit with his mother and sister, Mrs. Mary Chism and Peggy Sue.

Mr. and Mrs. Bob Britten of Amarillo were visiting in Groom recently.

Mr. and Mrs. Jewel Snyder of Albuquerque, N.M. and Mr. and Mrs. Weller Snyder of Roswell, N.M. are visiting their sister, Mrs. Amy Herrington of Amarillo, who is receiving medical treatment at Groom Memorial Hospital.

H. M. Nichols of Panhandle was attending to business in Groom recently.

Robert Reed, 19-year-old son of Mr. and Mrs. John Reed of Groom has signed up for a three-year tour of duty with the U.S. Army. Robert left Thursday of last week for Camp Polk, La., where he will take his basic training.

Mr. and Mrs. Dolph Burrows left Friday for Wichita, Kans., where they will visit their son and family before going to Little Rock, Ark. to visit other children. They plan six months of travel before settling down. Mr. and Mrs. Burrows have lived in Groom for the past 5 years coming here from McLean.

The WMU of the Baptist Church met recently with Mrs. Bob Wood for a program on "A Vigorous Minority in Mexico." Present were Meses. Charlene Cowan, Rudolph Tucker, Bully Burgin, Truett Fields, Les Driskill, Jeff Gray, Willie Ragsdale, Eulice Monroe, Viola Harrell, Danna Howerton, Donald Ritter, and the hostess, Mrs. Wood.

Mr. and Mrs. John Shannon Jr. of Killeen, Tex. were visiting his sisters Mrs. Jack Bivens and Mrs. Bob Nicholson the first of the week.

Mrs. Mary Talley visited relatives in Carndon recently.

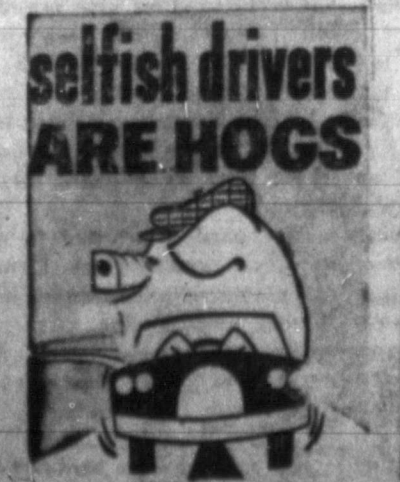

Among those from Groom that were showing in Pampa Monday were Mrs. Danna Howerton, Mrs. Earl Barber, Mrs. Jimmy Bivens and Mrs. Jack Bivens.

Mrs. Joe Gulde of Amarillo visited her sister and family, Mr. and Mrs. R. J. R. recently.

Mrs. J. C. Eachie is visiting Mrs. Charley Smith at Fort Worth. Mrs. Jim Wall returned home recently from Pecos Kingdom.

Mrs. Dorothy Kuehler, visited relatives and friends in Okarche, Okla. recently and attended the wedding of Miss Carol Rein to Ed Rother Saturday. Dorothy returned home later.

Thomas Francis Bayard was first U.S. ambassador, being appointed by President Grover Cleveland as ambassador to Great Britain.

A meeting of the board of Pampa Chapter, American Red Cross, will be held at 7 a.m. tomorrow in Coronado Inn. The program will be on High School and Junior Red Cross with L. C. Davis, educational relations chairman, in charge. All chairmen and officers were urged to attend the meeting.

Clayton (Lucky) Dunham, son of Mr. and Mrs. Cliff Dunham, 2125 Duncan, is scheduled to graduate from the Peace Corps Training School at the University of Puerto Rico on Nov. 18. He will arrive home Nov. 17 for a 10-day leave before departing for his assignment in the Dominican Republic.

Youth Hurt In Fall At Junior High

Teddy McIlvain, 13-year-old student at Robert E. Lee Junior High School, fell at school Tuesday during the noon hour and suffered a mild concussion.

The Robert E. Lee youth was playing football during the noon recess when the accident occurred. According to Robert E. Lee school officials, the youth ran onto a cement slab and slipped, hitting his head. He wasn't tackled as he was all alone when the accident occurred, they pointed out.

He was released this morning in good condition from Highland General Hospital where he received medical care for his injury.

Teddy is the son of Mr. and Mrs. T. O. McIlvain of Kingsmill.

Two-Car Mishap Slightly Hurts 2

A two-car collision at the intersection of W. Kingsmill and N. West Sts. yesterday forenoon caused damage estimated at \$800.

According to police, drivers involved in the accident were Albert A. Yake, 24, of Alaneer Star Route, and Henry J. Basham, 68, of 1801 Hamilton.

Yake, who was going west on Kingsmill, and Basham, driving north on West, were only slightly injured in the collision.

Damage to Yake's car was estimated at \$300 and \$500 damage was estimated on Basham's automobile.

Theft Of Money Bag Is Reported

Theft of a Citizens Bank & Trust Co. money bag containing \$80 was reported to police at 2 a.m. today by J. A. Swanner, operator of Curly's Bar, Alcock St.

Swanner said he left the bar at 11 p.m. yesterday in the company of two men and went to a downtown restaurant.

He said the money bag was in his left hand coat pocket at that time. Three hours later it was gone, he told police.

Municipal Court Docket

Gary D. Martin, 109 N. Wynne, no inspection sticker, guilty, fined \$5. Also no operator's license, guilty, fined \$10.

Frank Allen Jr., 1023 E. Murphy, speeding 50 mph in 30 mph zone, guilty, fined \$15.

Donnie J. Aldridge, Berger, speeding 90 mph in 30 mph zone, guilty, fined \$35.

Edward M. Weaver, 437 Hill, following too closely in traffic, no contendere plea, fined \$13.

Jackie R. Mitchell, Rt. 1, Pampa, speeding 43 mph in 30 mph zone, guilty, fined \$10.

Lonnie L. Lunley, 1104 Crane, loud and excessive noise, guilty, fined \$15.

Marjorie J. Brauchie, 1206 N. Russell, changing direction of travel unsafely, no contendere plea, fined \$10.

Esther Eddington, 1606 S. Christy, speeding 45 mph in 30 mph zone, guilty, fined \$10.

Jim E. Jones, 441 Hughes, speeding 45 mph in 30 mph zone, guilty, fined \$10.

Johnny R. Smith, 1134 S. Faulkner, violation of license restriction, guilty, fined \$5.

James J. McGowan, Amarillo, expired operator's license, guilty, fined \$12.

Boris N. Cox, 936 S. Sumner, disobeying stop sign, guilty, fined \$10.

Emmett G. Adkins, S. Russell Apts., intoxication, guilty, fined \$25.

Oscar M. Love, Houston, intoxication, guilty, fined \$25.

Clarence Scarberry, 817 S. Barnes, intoxication, guilty, fined \$15.

Oscar W. Mooney, Pampa, intoxication, guilty, fined \$25.

Jackson Early Jr., Pampa, disturbing peace, guilty, fined \$25.

Paul Robinson, Pampa, disturbing peace, guilty, fined \$25.

Floyd K. Morris, Pampa, intoxication, guilty, fined \$25.

Vandals Strike Pampan's Auto

Robert Kerr, 615 S. Finley, reported to police that while his car was parked on a lot behind the Chennie Construction Co., E. Francis and Starkweather, yesterday someone threw rocks at it.

Kerr said a front window was broken and the car was dented in several places.

Commission

(Continued From Page 1)

into the open, look them in the face and try to do something about them. We will not progress by brushing them under the rug. Let us, therefore, analyze our program, try to spot and correct all our shortcomings and voluntarily dedicate ourselves toward building a greater Pampa. This will only come about by hard work and sacrifice by all of us."

Mayor Sidwell said the plan is to begin immediately explaining the new issue to the people, set forth the tax picture in details and organize each ward for an educational program.

Officials

(Continued From Page 1)

as one of the chemical industry's unique and most efficient processes.

The Pampa Plant's new safety record is especially significant because it was accomplished under unusual operating conditions, according to Herschel V. Wilks, Plant Manager.

"For the past four years, the Pampa Plant has been engaged in an almost continuing expansion program that has added eight new chemicals to the plant's product line," Wilks said. "Yet, no time was lost because of accidents. Our current safety record started on June 20, 1957, and we reached the three million man-hour mark without a lost-time injury on October 3, 1962. This accident-free record is still intact and we have now added more than 50 thousand accident-free hours to our three-million man-hour mark. This is an unusual achievement of which all Pampa employees can well be proud!"

Delta Kappa Gamma Society Has Meeting And Tea In Club Room

Judge Mary Lou Robinson of the 108 District Court provided an interesting study of Texas law in reference to women for members of the Delta Kappa Gamma Society. She presented the program with audience participation at the regular monthly meeting at the City Club Room on Saturday afternoon.

Judge Robinson was introduced by Miss Mellie Bird Richey.

"Man had the right to chastise his wife provided he used a stick only as big as his thumb according to English common law. This is not Texas law; we call it aggravated assault," stated Judge Robinson.

Judge Robinson presented the significance of Texas law from a historical viewpoint. Before 1840, Texas was governed by Spanish and Mexican Civil Law. By 1840 the majority of Texans were English speaking peoples who were accustomed to the common law of England. The Congress of 1840 had to choose what system the Republic of Texas would use. Their decision was to adopt the Spanish civil laws with reference to property rights of husbands and wives and the English common law with reference to all other matters. The property rights of married women in Texas are derived from the Civil law, but the capacity to manage them is

provided by common law as amended by statute.

Different cases and legislative laws were cited to show that no state discriminates against women as the Texas law does. Texas laws are inconsistent with woman's property before marriage.

"Texas needs an equal rights amendment to the constitution with no abridgement on account of sex," Judge Robinson noted.

She expressed concern especially for the necessity of every Texan's having a will. "A fate worse than dying in Texas is dying without a will."

Mrs. Miles O'Laughlin gave an interesting account of women in the space program in keeping with the year's theme of advancing women leaders in the world. Thirteen women have become fully qualified both physically and psychologically for the space program.

Hostesses for the meeting Mmes. R. J. Bean, Miami; R. T. Foster, Groom; Ben Skidmore, Shamrock. Misses Nova Mayo, Claudia Everly, Ruby Trusty of Pampa.

WORK SAVER

Supply young artists with non-toxic, wash-off crayons when they begin to use coloring books. If any wall murals appear, the crayon marks can be washed off easily.

GUEST SPEAKER — Judge Mary Lou Robinson of the 108 District Court Amarillo, left, is being served tea by the president, Miss Mary Reeve, of Delta Kappa Gamma Society at its annual monthly meeting which was held Saturday, Nov. 10 in the City Club Room. Hostesses for the meeting were Mmes. R. J. Bean, Miami; R. T. Foster, Groom; Ben Skidmore, Shamrock, Misses Nova Mayo, Claudia Everly, and Ruby Trusty of Pampa.

Meeting Changed For Bible Study

Due to the illness of her husband, Mrs. E. P. Mead of Amarillo, will not be able to continue teaching the Bible Study which met each Friday night at the Citizens Bank Hospitality Room.

Rev. Jerry Bryan of Amarillo will continue the class. Because of conflicting schedules, the meeting will be on Thursday, Nov. 15 at 7:30 p.m. Thereafter, the class

will meet at 7:30 p.m., each Tuesday evening. Entrance is at the south door of the First National Bank.

Rev. Bryan is pastor of an independent, non-sectarian church in Amarillo. He received a B.A. degree in the School of Religion at Bob Jones University.

This study should appeal to anyone, regardless of denomination, who sincerely desire a greater knowledge of the Bible. The public is cordially invited.

Duplicate Bridge Tournament Will Be In Shamrock

The Irish Sectional Duplicate Bridge Tournament will be held in Shamrock, Nov. 16, in the National Guard Armory. The Irish Sectional is sanctioned by the American Contract Bridge League, and Master Points will be awarded in all events.

John Emory, Life Master, who has appeared many times on the Charles Goren Bridge Hour over national television, will be playing in Shamrock.

The Rules Committee is composed of five nationally known Life Masters who will be participating in the Irish Tournament. They are as follows: F. D. Chestwood, Life Master from Oklahoma City and Altus, Okla., who has won many National Tournaments, Sue Camp, Life Master from Wichita Falls, who writes Articles on Bridge for Richard-Frey, Mrs. Greeley Warner, Life Master from Pampa, who teamed with Mrs. Clarice Holt from Wheeler, to win the National Women's Pair Championship this summer. Mrs. A. L. Graham, Life Master from Amarillo, one of the outstanding women players in the United States. Mrs. Lola Roach, Life Master from Pampa, together with Mrs. Graham and Mrs. Warner are members of the Top O' Texas Unit of ACBL.

The Tournament Director will be Joe Matthews, who is considered one of the most outstanding Directors in Duplicate Bridge in the United States. He also writes numerous Bridge Articles each month for Newspapers, Magazines, and Sectional Bridge Bulletins.

Shamrock, the smallest City ever to have a Sectional Tournament, welcomes all Bridge Players, from beginners to seasoned players, to attend and play in the Irish Sectional.

PATCH A SCRATCH

SALEM, Mass. (UPI) — What to do with scratches on the floor? "Blend 'em" says the Shetland Home Care Institute.

Blend scratches by applying wax and buffing well. If a scratch is the kind frequently found on colored tile or linoleum, choose a wax crayon and rub it into the scratch.

Dear Abby...
She's Penalized!
He's Popular!

By ABIGAIL VAN BUREN

DEAR ABBY: A very popular boy at school (he is a basketball star) asked me out. And where did he take me? Parking! Then he bought me a malt at some dark, out-of-the-way drive-in where no one could see us. He did this four times. When a school dance came along he asked somebody else. When he sees me in the halls at school he acts like he doesn't even know me. I was hoping if I parked with him a few times he would get to like me well enough to ask me to some school dances, but it isn't working out that way. How can I get him to date me where we can be seen?

DEAR ABBY: Apparently the boy is not proud to be seen with you. (And can you blame him?) You gave too much too soon. You'll never make his first string. Turn in your suit and get off his team. And let this be a lesson to you.

DEAR ABBY: Can I sue my husband for divorce for something that happened four years ago? I just found out for sure that my husband ran around with another girl in 1958. When I told him about it he said that unless you catch a person within a year of the crime, your warranty runs out. Is it true?

DEAR AZELIA: You did not marry a washing machine—you married a man. Warranties do not apply to people. But think it over. How has he been behaving since?

DEAR ABBY: I am glad you were big enough to make it clear that under no circumstances is anyone permitted to "involve" another by name in the Catholic con-

fession. This old joke points it out: An old shrew went to confession and spent the whole time complaining to the priest about her husband. She was flabbergasted and outraged when the priest gave HER a whopper of a penance and she was told to say several rosaries. The reply to her protest was, "Since YOU confessed your husband's sins, YOU get his penance."

ANOTHER CATHOLIC

DEAR ABBY: A member of my husband's family died recently. At the funeral parlor I saw my husband's brother and his wife. Neither gave me a hello. When I complained to my husband about it, he said the funeral parlor was not the place for socializing and that people rarely ever say hello to people they meet there. I've been to funeral parlors before, Abby, and nobody ever passed me up with that kind of excuse. Am I wrong or is my husband?

DEAR PASSED: Don't criticize anyone for unsocial behavior at a funeral parlor. They could be understandably preoccupied.

ELECTRIC SERVICE What else does so much so often for so little?

See if you can count the many ways electricity is used in your home.

You'll probably be surprised to realize how many modern "electric servants" work for you—washing, cleaning, preparing meals, preserving, even bringing you entertainment. And for such low "wages." No doubt about

it. Low-cost, dependable electric service brings you plenty of good living at a budget price!

It's true — my wages to serve all of my customers' homes averaged just 26 cents a day in 1961.

SURPLUS CITY — Here is Surplus City, now holding its "Grand Re-Opening" after having just completed a large remodeling project which gave the firm twice as much floor space as before with a full glass front. There are bargains throughout the store this week and every week at Surplus City, "The Working Man's Friend" in Pampa. (News Photo)

BUSINESS REVIEW

Cleaners Gets Award

Surplus City Is Now Twice As Roomy; Has 'Grand Re-Opening'

Now, Surplus City has twice the room!

Yes, Surplus City, "The Working Man's Friend" in Pampa, has twice as much room as before due to a remodeling project just completed.

Surplus City this week is observing its "Grand Re-Opening" with bargains in items all over the store.

Bill Cave, owner, and Don Phillips, assistant manager of Surplus City, 403 S. Cuyler, invite all their friends and customers to come in and visit them, look over the newly-modeled premises and help themselves to some of the most outstanding bargains in Pampa.

This value center, which originally opened just this year on May 1st, starting remodeling about 60 days ago and is currently open with twice the floor space, approximately 4,200 square feet, a full glass front, merchandise tables aplenty and greatly enlarged shelf space.

You'll have plenty of room to leisurely walk through Surplus City now with wide aisles for shoppers' convenience while shopping the numerous displays of superior items.

And... still more good news! Surplus City can now finance items purchased by shoppers, as an arrangement was recently completed whereby financing is made available for the already-bargain-priced items in the store providing easy payments for local and area consumers.

Then too, have you looked into the lay-away plan at Surplus City? You can pick out your Christmas gifts now, make a small deposit and Surplus City will keep your item for you until Christmas when you may pick it up and pay the balance or finance the remainder of the balance as you choose. You can lay-away now for after Christmas, too, if you desire.

Hunters! Don't miss these bargain days this week at Surplus City. Of course, Surplus City daily has outstanding bargains for offer, but we hope you'll come in now, during our "Grand Re-Opening" and shop the shelves for items you'll need on that hunting trip.

We have plenty of rifles, guns of all descriptions, lots of ammunition, camping equipment, surplus items, etc.

Also offered at Surplus City

are work clothes, boots and work shoes, insulated hunting boots, hats, Army surplus coats, electric heaters, radios, electric coffee pots, thermal underwear, gasoline cans, raincoats, tents, tarpaulins, bargains in new all-wool shirts, work clothes, caps, socks, gloves and flight boots.

Also work shoes, rain boots, western boots, ice chests, fishing equipment, rifles, ammunition, binoculars, knives, first aid kits, electric blankets, scatter rugs, regular blankets, cooking utensils, camp stoves, electric and hand tools, hatchets, electric grinders and small wire cable.

Surplus City also has canteens, foot lockers, paint, shovels, ash trays, trousers, Christmas decorations, gift items, western belt buckles, locks, watches and transistor radios.

Whatever you need, be sure to check first at Surplus City, "The Working Man's Friend" in Pampa. Telephone MO5-4433.

The Lighter Side

On 'All-Number Calling'

By DICK WEST

United Press International WASHINGTON (UPI) — The telephone company, as everyone knows, has a program underway to convert its dialing system to what it blandly describes as "all-number calling."

Eventually, all exchange names will be replaced by numbers and telephone subscribers will be identified solely by digits. For example, my rolling, euphonious "Jefferson 3-3355" would become a cold, impersonal "333-3355."

Many of us subscribers object to having our exchange names amputated but we thus far have been unable to mount any sort of effective defense.

May Save Day

As one exchange after another fell before the relentless onswamp of "all-number calling," the resistance movement all but crumbled for lack of central force and direction. Even so, we may yet save the day.

There has now appeared on the armor, a young Harvard student, scene, with shinning lace and

NATIONALLY FAMOUS BRAND— FALSTAFF BEER

SO POPULAR HERE...IT TAKES TWO FOR TEXAS!

Galveston plant, most modern brewery in the Southwest—El Paso plant, another symbol of Texas progress

Thank you, Texas! Even with two breweries here, the demand for Falstaff is so great that we have expanded in El Paso... recently *doubled* our Galveston production capacity. Visitors are welcome at both plants. Come take a tour real soon. You'll see ultra-modern breweries in action. And, in our Hospitality Room, your own home or neighborhood tavern, wherever you enjoy Falstaff, you'll taste why it's the brand in demand across the land. Brisk, bright, refreshingly light—Falstaff is the light-hearted favorite from El Paso to Hawaii... from Galveston to the Great Lakes... **AMERICA'S PREMIUM QUALITY BEER!**

Texas, Arkansas Move Closer To SWC Crown

By PAUL FREEMAN
United Press International
Texas, Arkansas and Rice are favored to roll over Southwest Conference opponents this weekend, with Baylor the underdog in one of two inter-sectional contests on Saturday.

The fifth-ranked Texas squad is picked by seven over Texas Christian, Arkansas is a top-sided 18 point choice over Southern Methodist and Rice is favored by seven over Texas A&M.

Baylor, which plays the Air Force Academy in Colorado, is a three-point underdog. The odds-makers didn't bother with the Texas Tech-Colorado tilt, which should be close.

A Left Footer
Texas coach Darrell Royal watched left-footed kicker Bob Crouch work out Tuesday. Royal, hurt by the loss of punter Ernie Koy Jr., said Koy's doctors may let him try some kicking this week, but there is little chance he will play in Fort Worth.

The TCU Horned Frogs worked for two hours in a polishing drill and coach Abe Martin said it was a "fine, enthusiastic" session. The Frogs got so enthusiastic against Texas last year that they beat the Longhorns 6-0 and knocked Texas out of the No. 1 ranking.

Arkansas coach Frank Broyles said he is quite impressed with the SMU defenses. "In four con-

ference games they've only allowed three touchdowns. Our offense has quite a task ahead of them," Broyles said. The Razorbacks got the scouting report on SMU today.

Injury-riddled SMU limped through a practice for the Little Rock game. Quarterback Don Campbell was the bright spot of the workout with his on-the-target passing. Only two of the injured, halfback Tommy Brennan and end John Graves, are on the doubtful list for the Arkansas game.

Drayer Doubtful
Coach Jess Neely put the Rice Owls through a brisk workout for Saturday's Houston game with the Aggies and said the first team

sparked on offense. Neely made some shifts in his line and said defensive back Ronnie Dryer is on the doubtful list.

A&M ran through a spirited workout aimed at recognizing Rice offensive maneuvers.

Baylor got the news that full-back Dalton Hoffman will be unable to play against the Air Force, due to a bruised kidney. Coach John Bridgers said linebacker Bobby Maples may see some action.

The still-winless Texas Tech Red Raiders worked out for two hours in preparation of the Lubbock game against Colorado. Coach J. T. King put his squad through a spirited workout on blocking and tackling.

New York Mets In Trading Mood

NEW YORK (UPI)—Dangling such "name" players as Roger Craig, Frank Thomas and Charley Neal, the New York Mets were in the market today to deal themselves out of the National League cellar.

President George Weiss of the Mets said Tuesday there are no "untouchables" on his 35-man ro-

ster and there will be "drastic changes" within the next three weeks.

The Mets expect to swing some deals with American League clubs during the inter-league trading period Nov. 20-Dec. 15. The New York Yankees are believed to be one of the most interested parties in obtaining Craig to bolster their pitching staff.

Craig compiled a 10-24 record last year, but most baseball people regard it a warped indication of the big right-hander's ability.

"We'd like to get a starter," said Yankee general manager Roy Hamey. "And a good one—not one of those 500 guys. But I could use a good relief man also."

SPORTS

8 WEDNESDAY, NOVEMBER 14, 1962 55TH YEAR

Babcock Named Tough Harvester

A little football player with 3/4s of his heart and football sense was selected by the Pampa High coaches as the "Toughest Harvester" for last week's play. Those are the words Coach Otis Holladay used in praising the player to the QB Club meeting last night.

The name, Ronnie Babcock, shouldn't ring any bells with Harvester fans. One won't find his name in the football program of the Harvesters and one wouldn't see him while watching the Harvesters practice.

But the diminutive fullback would have been quite noticeable if one had been watching the "C" team playing Clarendon's "B"

team last Saturday. The little fighter, according to his coaches, well earned the title of "Toughest Harvester" for his spirit and determination to play the game of football despite his lack of size. (Babcock would need rocks in his pockets to weigh 120 pounds.)

Babcock is slated to move into a starting spot in the Shockers' lineup this week. Last week, Babcock didn't see any action for the Shockers.

The sophomore was honored yesterday at the noon luncheon of the Pampa Jaycees, who sponsor the award. Coach Eural Ramsey introduced the player at the Jaycees' meeting.

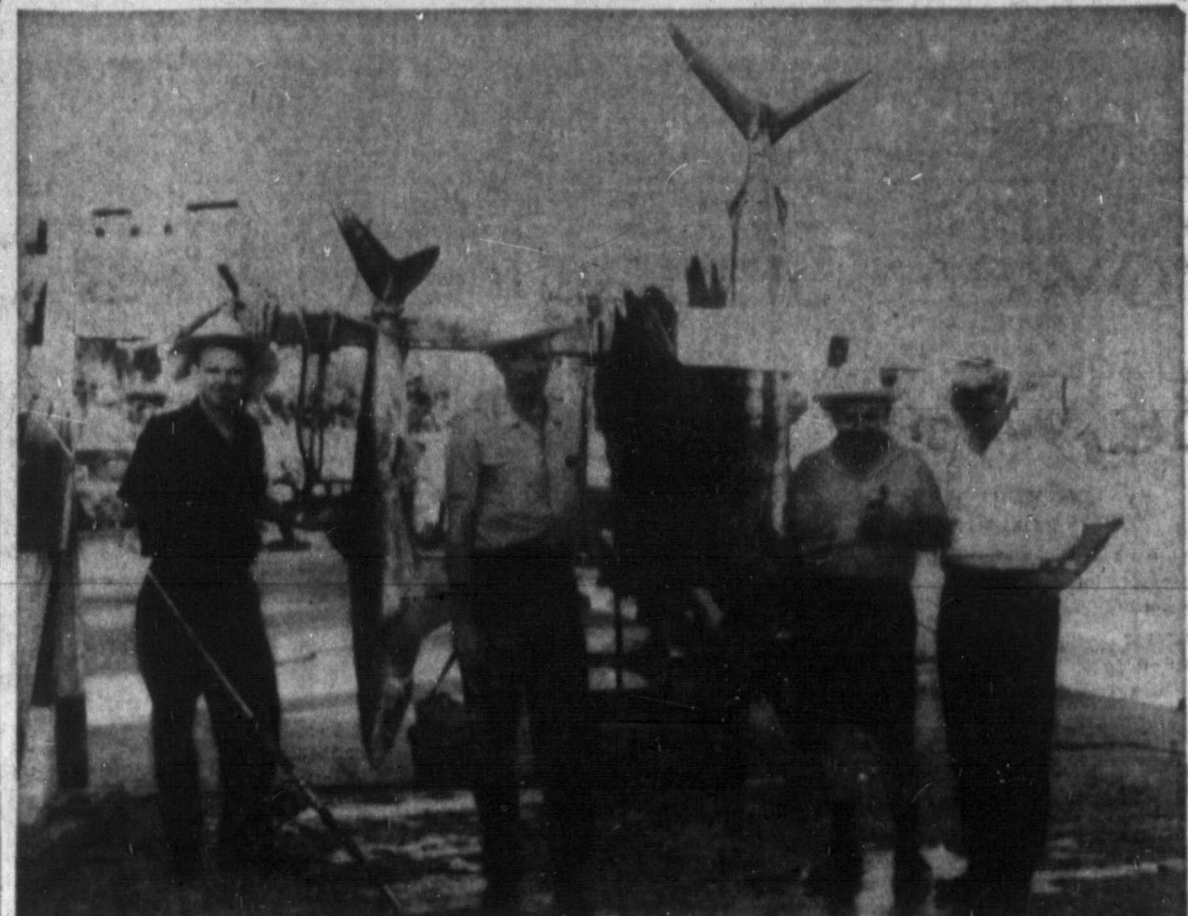

The "Toughest Harvester" award goes to the boy playing football, according to the coaches, that best fulfills the following qualities — aggressiveness, blocking and tackling ability, leadership, and desire.

The period of judging the player is from Monday through that week's game. Workouts as well as game participation are considered.

Babcock is the first Pampa football player not on the varsity team to receive the coveted citation.

Other winners of the award are Carl Clark, Ricky Stewart, Dee Wright, Jerry Glover, Curtis Fletcher, Ricky Goodwin, and Kenny Hebert.

Ronnie is the son of Mr. and Mrs. A. J. Babcock of South of Pampa.

HERE'S THE PROOF — Two successful Pampa, fishermen show the proof to go with a good fishing story. The foursome (l. to r.) John Lee Bell and Joe Hawkins, local businessmen, joined Ray Caffo of Dallas and R. L. Patrick of Tulsa, Okla., on a recent fishing trip, bagging these two big ones in the waters near Acapulco. The men, on a General Electric Tour, took time out to get in a little fishing. They caught three sailfish, a white shark, and a bonita. Pictured with the men are a nine-foot sailfish and a seven-foot shark.

Giants' Pennant Reported Stolen

NEW YORK (UPI)—Has anybody seen the New York Giants' championship pennant?

The disappearance of the enormous pennant, which flew from the flagpole at Yankee Stadium, was reported Tuesday by a spokesman for the National Football League team.

"I don't know who could have taken it," said the spokesman. "It was 35 feet by 15 feet, it weighed about 100 pounds and it took five men to get it up on the flagpole. It was so heavy that it didn't even flap in the wind."

QB Club Reveals — Hayden Fry Slated Speaker At Annual Football Banquet

By LEE WHITE
Pampa News Sports Editor
Hayden Fry, head football coach at Southern Methodist University, was announced last night in the weekly QB Club meeting as the guest speaker for the annual football banquet.

The banquet, slated for Monday, Dec. 10, will be held in the cafeteria of Robert E. Lee Jr. High School. Tickets for the affair will go on sale next week.

"We played as well as we were capable of playing," Coach Otis Holladay told the group of armchair quarterbacks attending the meeting.

Holladay gave praise to Lubbock's fine running quarterback, Greg Lott. "Next to Burke (Palo Duro), he is the best back in the district."

"I don't see how they (Lubbock) haven't won more games," he commented on the Lubbock Westerners. "That touchdown in the first half seemed to fire them up. They weren't the same ball club in the second half."

Holladay praised his own ball team. Holladay remarked, "They came as near playing up to their potential as they have all year."

Norman Phillips, coach of the Shockers along with Randy Rotten, gave the scouting report on the Plainview Bulldogs. (Pampa hosts Plainview this Friday at 7:30 in Harvester Park.)

"They have been beaten as badly as they were last year, but they're not the same team they were last year. When the final

whistle blows they're hitting as hard as they did when the opening whistle blew."

He stated, "Pampa shouldn't underestimate them. Plainview is coming up as far as football is concerned."

Best Harvesters Last
He pointed out that the last game Plainview won was against the Harvesters. In that game, the Bulldogs ruined Pampa's 1960 homecoming by a 14-6 score. Going into the game neither team had won a game. Both teams had identical 0-8 records.

Last year Pampa trounced Plainview 65-4 with Kenny Hebert accounting for 25 of the points.

Ronnie Babcock, diminutive fullback for the Shockers, was announced as the "Toughest Harvester" of the week to the group. (Babcock was honored at the weekly meeting of the Jaycees Tuesday noon. See story elsewhere on this page.)

Pampas "C" Team
Ray Howard, assistant Harvester coach, gave a report on Pampa's "C" team. "They played better according to ability than any other group I've seen at Pampa," Howard commented.

The "C" team is made up of boys who didn't get to play in either the Harvester game or the Shocker game on Thursday or Friday night.

The "C" team won its game Saturday against Clarendon's "B" team, 14-12. Howard told of several amusing situations that took place in the game. On one play, the "C" team blocked a punt in their opponents end zone. The ball rolled over to the corner of the end zone.

Both teams started substituting players as the ball had evidently changed hands. The coaches of both teams entered into a shouting match trying to coax their players into covering the live ball. Pampa's Howard won the yelling contest as one of his charges finally covered the ball after the live ball laid apparently dead for about 10 seconds.

Howard told this reporter that he thought he was going to have to send in a substitute to recover the football.

The Pampans got the touchdown by recovering the football and a loud sigh of relief escaped from Norman Phillips and Eural Ramsey along with Howard that was almost as loud as the earlier screaming to cover the football. Phillips and Ramsey help Howard with the "C" team.

Unscheduled Rest Period
The shouting for the day wasn't quite over for the coaches, however. One Pampans took a kickoff and was running along the sideline making good yardage when he spotted the official running toward him. The player stopped briefly and the pursuing tacklers

joined him in an unscheduled rest period.

The player obviously thought the referee was going to call the play dead and spot the ball, accusing the runner of stepping out-of-bounds.

Ramsey was shouting at the referee that the runner hadn't stepped out of bounds. He was right.

Rebels Cited
Robert E. Lee's Rebels didn't come up on the short end of the football war this year, it was pointed out to the Harvester boosters.

The ninth graders, coached by Dog Myers and Lester Ramsey, walked off with the district championship in their grade level, not losing a game.

Although the seventh graders did lose two games this season, they added another district championship to the Rebels' cause. Joe Perryman coached the seventh graders.

The eighth graders were not quite as successful in their district race as the other two Lee teams, but they did win co-district championship honors. Mack Choate was their coach.

This year's ninth grade squad lost only one game in three years and tied another in their three years of football at the Robert E. Lee school.

Don Myers, in unofficially turning the ninth graders over to Pampa High, gave the team a strong recommendation.

Coach Holladay, turning to see Randy Rotten, "B" team coach, remarked, "I guess you see what kind of spot this puts us in, Randy."

and the referee agreed. But the runner stopped.

"Run... Run... Run..." was the coaches' next cry. The ball carrier took off again, gaining more yardage.

The film of the Lubbock-Pampa game was shown and reports on the Shocker and junior high teams were given at the meeting. Clifford Hill presided at the meeting.

Shockers Host Monterey Team

Pampa's Shockers entertain Monterey's "B" team Thursday afternoon in a season final for the "B" team. The game is scheduled for 4 p.m. at Harvester Park.

"They played their best game of the season," Coach Randy Rotten told the weekly meeting of the QB Club last night, commenting on his charges last game. Norman Phillips also coaches the "B" team.

The Shockers lost in their last outing to the Yannigans of Amarillo High, 24-8.

Probable starters for the Thursday game are at ends, Jim Rice and David Campbell, tackles Carl Johnson and Bill Campaigne, guards David Geer and Jerry Goodwin, and center Dean Evans. In the backfield will be wingback Phil Massie, fullback Ronnie Babcock, tailback Ronnie Oler, and quarterback Charles Snuggs.

The Thursday game finishes the season for the Shockers.

both teams started substituting players as the ball had evidently changed hands. The coaches of both teams entered into a shouting match trying to coax their players into covering the live ball. Pampa's Howard won the yelling contest as one of his charges finally covered the ball after the live ball laid apparently dead for about 10 seconds.

Howard told this reporter that he thought he was going to have to send in a substitute to recover the football.

The Pampans got the touchdown by recovering the football and a loud sigh of relief escaped from Norman Phillips and Eural Ramsey along with Howard that was almost as loud as the earlier screaming to cover the football. Phillips and Ramsey help Howard with the "C" team.

Unscheduled Rest Period

Power Struggle Halted Between U.S. Amateurs

By TIM MORIARTY
UPI Sports Writer
NEW YORK (UPI) — The intercession of Atty. Gen. Robert Kennedy and a new "spirit of cooperation" on both sides was credited today with the formation of a track and field coalition by the nation's two major amateur sports organizations.

Kenneth L. (Tug) Wilson, president of the U.S. Olympic Committee, jumped with glee Tuesday when the National Collegiate Athletic Association (NCAA) and the Amateur Athletic Union (AAU) settled their 2½ year "war" for control of track and field in the nation.

"This is the first time both sides sat down in a spirit of cooperation to work this thing out," said Wilson. "I am very optimistic for the first time at having all groups interested in track and field working through their own organizations toward a common goal and doing a job that needs to be done for the Olympic effort."

Players' Union 100 Per Cent

CHICAGO (UPI) — The National Football League's players' union today claimed 100 per cent membership now that the Chicago Bears have joined the fold.

The Bears, last holdout against the NFL Players Association, voted to affiliate Tuesday after both Pete Retzlaff, the group's president, and George Halas, the team's owner, addressed the players.

Retzlaff said he was "very pleased" with the players' decision.

"It means we have 100 per cent team membership," he said. "Now we can properly represent all players and fulfill our obligations to the players and the league."

The Bears appointed Doug Atkins as their association representative.

Retzlaff said he had talked with Halas in May about approaching the Bears, who had spurned the association since its formation in 1954.

Kennedy's prodding had a definite effect on the disputants.

Although they adjourned Tuesday morning at 2 a.m. after 15 hours of constant debating, they acted last when they re-convened Tuesday afternoon and finally agreed to a coalition.

Sanctions All Meets
An AAU official said that henceforth his group will sanction all open track meets, which means that athletes will be able to compete in championships during the forthcoming indoor track season without danger of expulsion from either organization.

This opinion was shared by Walter Byers, executive director of the NCAA, who said, "According to our preliminary agreement, the indoor track meets will have no problems."

Lauds Kennedy
The Olympic chief then turned his attention to Kennedy, saying he was "deeply indebted" to the attorney general "for the contributions he made at these meetings."

Kennedy set up a "truce" conference for the NCAA and AAU officials at Washington last month and then appeared at another meeting between the groups here Monday night. The attorney general reportedly walked into Monday night's conference, whipped off his jacket, rolled up his sleeves and remarked:

"Let's get this feud settled here and now."

Kennedy's prodding had a definite effect on the disputants.

Match Liston And Johnson

By HENRY W. THORNBERRY
UPI Sports Writer
LONDON (UPI) — A big-time English gambling group announced Tuesday it was "working" on a bid to match Sonny Liston and light heavyweight champion Harold Johnson for Liston's world heavyweight title here next year.

Both Liston and Johnson now reside in Philadelphia.

"We've heard that Johnson has expressed some interest in our proposal to stage the first-ever world heavyweight title fight here," a spokesman for the Curzon House gambling club said.

The club wants Liston to put his title on the line for 250,000 pounds (\$700,000), with the profits going to the Imperial Cancer Research Fund and an airborne forces' charity.

"We've been told that Johnson's asking price is very high, but he has shown an interest," the spokesman said. "He definitely wants to fight Liston and we're prepared to make an offer."

There's nothing in the rules here about staging a world title fight without a Briton in one corner.

The club proposed that the fight be staged at Wembley's outdoor Olympic Stadium, which seats 80,000 and has room for 20,000 standees.

"We have considered the matter carefully and can put up more than 500,000 pounds (\$1,400,000)," said spokesman Bob Barnett — a man who claims to have won almost that much in "breaking" one of the Monte Carlo casinos way back.

The just-opened Curzon House club covers a half-acre of ground in the heart of London's Mayfair district. The building and garden space are reportedly worth 1 million pounds. Bridge, poker and chess are played there day and night, and hundreds of thousands of pounds cross the tables almost every night of the week.

McPeak, Washington Write Comeback Tale

By BOB SERLING
WASHINGTON (UPI) — The time has come to note what may be one of the finest coaching comebacks in football history—the story of Bill McPeak and the Washington Redskins.

With five more weeks to go in the National Football League, McPeak's battling Braves still are the chief threat to New York's hopes for another Eastern Conference title. If anyone at the start of the season had predicted Washington's second-place standing after nine weeks, he would have been a candidate for a psychiatrist's couch.

The headlines have gone to stars like Bobby Mitchell, Norman Snead and Washington's crack defensive linemen. But the team knows it, the sports writers know it and the whole NFL knows it — most of the credit for the Redskins' resurgence belongs to this big, soft-spoken, articulate Pennsylvanian who was an all-pro defensive end with the Pittsburgh Steelers.

This is only the second season as head coach for McPeak, at 36 the NFL's youngest mentor. His first was one of the kind that drives coaches into other lines of work — a horrendous nightmare of 12 defeats, one tie and only one victory in the final game. He didn't even have a contract with the Redskins, but it was his performance as a losing coach that won him a second chance.

He kept trying new gimmicks—such as introducing a four-receiver pass offense that pre-dated Detroit's better-publicized but virtually identical "zephyr" attack.

OU Favored

'Bama, Georgia Tech In Collegiate Battle

NEW YORK (UPI) — Top-ranked Southern California today received a vote of confidence from oddsmakers who quoted the Trojans 18-point choice to defeat Navy on Saturday and remain unbeaten.

However, second-ranked Alabama faces its toughest test of the season thus far when it travels to Georgia Tech. The Crimson Tide is picked by six points.

Only Missouri of the country's top 10 teams will go into this weekend's activity as an underdog. The sixth-ranked Tigers, tied once in eight games and leading the pack in the Big Eight Conference, nevertheless will be giving four points to resurgent Oklahoma, winner of its last four starts.

Northwestern and Minnesota, who are tied for seventh place in the United Press International ratings, both are up against rugged Big Ten foes Saturday. Northwestern, which ranked No. 1 until its loss to Wisconsin last week, is favored by five points to whip Michigan State; and Minnesota is a four-point choice over Purdue.

All the other members of the elite are favored by a touchdown or more to win this weekend. Third-ranked Mississippi is picked by 16 points over Tennessee; fourth-ranked Wisconsin is 18 over Illinois; fifth-ranked Texas is 7 over Texas Christian; ninth-ranked Arkansas is 18 over Southern Methodist; and 10th-ranked Louisiana State is 10 over Mississippi State.

In other leading games by sections:

East: Army 3 over Pittsburgh; Penn State 13 over Holy Cross.

South: Vanderbilt and Tulane are even; Maryland 6 over Clemson; Florida 6 over Florida State; Auburn 11 over Georgia; Duke 16 over Wake Forest.

Midwest: Ohio State 2 over Oregon; Kansas 12 over California; Notre Dame 13 over North Carolina; Iowa 13 over Michigan; Nebraska 14 over Oklahoma State.

Southwest: Rice 7 over Texas A & M.

West: Air Force 3 over Baylor; Washington 12 over UCLA.

Wisconsin Had Rugged Time Getting Ready

By GENE W. HINTZ
United Press International
MADISON, Wis. (UPI) — Personable Milt Bruhn claims he had his easiest — and yet his roughest — week last week preparing his Wisconsin University football team for their encounter with top-ranked Northwestern.

Perhaps that paradox explains why the seven-year coach was named college football's "Coach of the Week" today by United Press International after his team had routed the previously unbeaten Wildcats, 37-4.

"It was probably the easiest week I had getting the boys ready," Bruhn chuckled after the game. "But I did have a few sleepless nights wondering what Tom Myers was going to do with our defense."

Bruhn needn't have worried. Defensive halfbacks Jim Neillies and Bill Smith and a hard-charging line took care of that as the Badgers moved into a tie for the Big Ten lead and left Wisconsin and Minnesota as the teams most likely to go to the Rose Bowl. The two teams meet here Nov. 24 in the final game of the season.

Bruhn said the Wildcats' No. 1 ranking helped in getting his team ready, but the big thing was having nearly his whole team ready physically to play.

Just Think! We're Planning To Shoot Some Water Into Space!

By ALVIN B. WEBB JR. — CAFE CANAVERAL (UPI) — The United States plans to dump 95 tons of water into space this week on the longest and most ambitious flight ever attempted by its new Saturn "super rocket."

The shot, set for Friday, could set a U.S. space record. The water, if released at the proper moment, should form the highest and most expensive ice cloud in the history of man.

The previous record for carrying tap water into space, 65 miles, was set by another Saturn rocket last April 25. Scientists are shooting for a man-made cloud at 104 miles up this time around.

There is no indication the Soviet Union has put that much water that high up in space. For that matter, there is no record of their having shot water anywhere with a rocket.

Third for Saturn

This will be the third flight of a Saturn, most powerful rocket ever built in the United States and possibly in the world. The first two—Oct. 27, 1961, and last April 25—were roaring successes.

The Saturn is being put through a series of 10 "research and development" shots in preparation for its main task—that of lifting teams of three U. S. astronauts into orbit aboard Apollo space ships starting in 1965.

This is a key step in the nation's \$20 billion program to land the first men on the moon later this decade. A still more advanced Saturn rocket, the CS will be used for that mission.

Cargo of Water

The rocket to be launched this week is a metallic monster standing 162 feet tall, through three stages. The two upper stages won't be working, however, since they don't have engines. Instead, they are loaded with the 95 tons of water.

At the top of its path into space, the rocket will be deliberately blown up, thus hopefully

satisfying some scientific curiosity. They want to find out what water will do.

When the water was released from a rocket last April, it formed a spectacular cloud of ice particles about five miles across and churned up some electrical disturbances similar to those in a thundercloud.

He Read The Fine Print!

LONDON (UPI) — Brian Phillips, the ex-ple who read the fine print, faced "civilian" life today with a \$400 nest-egg which might have gone up in political smoke if he had been less painstaking.

Phillips is one of seven soldiers who got discharges recently by announcing they would run for Parliament in forthcoming special elections. Under the law, the army had to let them go.

The other six duly filed for election and posted \$400 deposits—which they will probably lose because of too few votes—but not Phillips. He had read far enough into the law to find out that he did not really have to run. It was enough just to say he was going to.

"The money will be useful if I go to a university," the 23-year-old ex-soldier grinned today. "This decision may cause a stir in Parliament. There may be some legislation about it."

LIKES THEM ALL
 LONDON (UPI) — James Brown, 29, was sentenced Monday to nine months in the guard house for enlisting in the Royal Air Force and the merchant marine.

The enlistments took place while Brown was AWOL from the army.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the right of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers, so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES

Entered as second class matter under the act of March 3, 1879.

Successful Merchandising

Writing in the magazine *Successful Grocer*, John W. King observes that in every community there are retailers who have lifted themselves above the mere existence level, and these are the ones who are "leading the way in better advertising." Advertising has two jobs to do... sell merchandise and sell the store.

Mr. King's article is devoted to grocery supermarket operations in a competitive system, but the points he emphasizes apply with equal force to just about every kind of store, and just about everything sold at retail to the general public. Consumers have widely varied wants and ideas—and price is just one of the elements that determine their judgments.

"Selling the store" through advertising is certainly a basic goal in any successful merchandising operation. It means creating—and justifying—faith in the integrity of

the merchant. It means honest claims and representations. And it means keeping the name in question constantly before existing and potential customers.

Another thing the good merchant does is to make his full contribution, in all ways, to the welfare and development of his community. He does that in his own interest, if for no higher reason. It used to be charged that the national chains had no interest in the communities in which they operated except to take money out of them. This quickly proved baseless — for a chain outlet, like any other kind of retail outlet, can prosper and progress only as the community prospers and progresses. Merchandising, chain or non-chain, is a purely local business. Each store must compete locally, and meet the particular wants of local people, and chains have done that to a remarkable degree.

When Society's In Trouble

Life magazine quotes a man who, after a varied career, is president of a major commercial airline at the surprisingly young age of 38, as being resentful of a too protective society. In his words, "Free enterprise... lets the cream top out. Suppress this, and society's in trouble."

The paternalistic state, the welfare state, the all-powerful state, no matter what name we give to it, is designed to treat everybody

as a common man. By implication, if not by admission, the supporters of this kind of a state are arguing that people are too stupid, too foolish, or too incompetent to take care of themselves, and that only a central government can be trusted to do that for them.

And that is certainly a reason why our society is in trouble—and why there are signs of possible deeper troubles ahead. We can't adopt socialism, as we are doing, and remain a free nation.

SOURCES

Music to Disaster Subsidies Sought

By GEORGE BOARDMAN, Ph.D.

A lady who knows we live in a ghost town wrote to ask how we managed to keep abreast of the news without a telephone or a daily paper. She asked if we used ghostly sources for information. The answer is yes. A couple of ghosts tap out messages on our hot water pipes during chilly nights and on the cold water pipes on warm nights. We do read a couple of daily papers which are received one or two days late. We listen to radio about two hours a day, checking the news on different networks and a couple of independent stations. We also listen to news from Tokyo, England, Moscow and Australia on short wave radio. We have correspondents in every section of the country who provide us with their opinions of local and national doings. From this ghost town vantage point, where the illusion of freedom persists with astonishing vigor, it is not difficult to keep at least one sensitive finger on the pulse of the country and to recognize the fact of the pulse being wavering and unsteady. Generally speaking the pulse sounds more like a begging whine than anything else.

In that connection, we listened last night while a trio of serious music beggars wailed for a government handout. It was pathetic. Serious music, they claimed, cannot support itself without government getting into the act. Europe and even the Orient are far ahead of our country they claimed, because governments provide those involved with serious music with many forms of aid. A most interesting fact of the conversation indicated that none of the musicians had ever stopped to realize there is not one self-respecting, self-supporting country in Europe. All of the members of the socialist conglomerate are being supported by tax dollars confiscated from the earnings of Americans.

Listening to the serious music lovers beg for a dose gave the impression that not a single note of music would be heard in the land unless government provided subsidies and more subsidies. It was enough to make strong men weep and women and children cry in the streets. On the following news broadcast

Pull Up A Chair

By Neal O'Hara

I've just finished reading WORDS THAT WON THE WAR, published by Princeton University Press in 1939. It's a thrilling story about the great editor George Creel and the hard-hitting but highly effective propaganda organization he headed during World War I. The pages are studded with such names as Will Irwin, Roger Babson, Edgar Sisson, Carl Boyer, Charles Dana Gibson, James Montgomery Flagg, Edward L. Bernays and scores of other famous newspapermen. All worked on the Committee on Public Information and vice versa. Their world-wide propaganda campaign for the United States was the finest public relations job in history. They always carried the ball and kept the enemy on the defensive.

While the sturdy males are seemingly the zealots in the do-it-yourself field, the women do more than 45 per cent of the actual work, while the men do 40 per cent, and the remainder is a family proposition, a survey conducted at various Do-It-Yourself shows around the U.S. reveals. And makers of do-it-yourself products, many of whom at first thought the movement was only a fad, now not only are convinced it is here to stay, but that its potential is unlimited.

Thoughts while shaving: 1. Why do so many foreign governments always have Five-Year Plans, whether it's Soviet Russia, France, Italy, or India? Did you ever hear of any nation having a Three, Four, Six or Seven Year Plan? (Neither did we.) 2. In fact, since the communists took over Russia, they've had so many Five-Year Plans, many of them overlapping, that they total something like 75 years. 3. If Benjamin Franklin came back to life today, wonder would he be publishing the Wall Street Journal, Popular Mechanics, Electrical Age, or Radio-Electronics magazine? Or would he go back to his old job of running the Saturday Evening Post, which he founded? 4. No one seems to know what Charley it was named for, but the term "Charley horse" is spelled with a capital "C" for "Charley," according to Noah Webster. And it's a term that is strictly American. If you mentioned "Charley-horse" in England, they'd think you were referring to a rocking-horse in little Prince Charley's nursery.

Some years ago a paper suit for men was invented in Germany. It was supposed to last for a week. However, the suits had a very poor sale and the manufacturer sold the remainders to undertakers in Africa.

Now we have something more durable. Steel Facts shows a Butler, Pa., lady wearing a stainless steel gown. It is made by bonding strips of thin stainless steel with a small amount of cotton cloth. The skirt contains about 30 feet of steel, with a bond of ironing patches. The upper part of the garment features 475 spangles also of steel. The whole outfit weighs slightly more than two pounds. Incidentally, this original model took top honors at the recent Pennsylvania Hairdressers Convention.

Your Uncle Sam has U.S. post offices at these locations: Barber, Okla.; Farmer, Wash.; Shoemaker, N. M.; Painter, Va.; Secretary, Md.; Baker, Calif.; Printer, Ky.; Carpenter, Ia.; Joiner, Ark.; Rigger, Ga.; Boatman, Okla.; Pilot, Va.; Soldier, Ia.

It's more or less an optical illusion, but apples are often packaged and packed in purple paper because purple, as a background for some apples, heightens and enriches the red color of the fruit. And because a lime shade of green is a favorable background for yellow, that color of paper is used for showing off to the best advantage other kinds of apples.

The telephone company has been adding more and more of its highly decorated pogoda-type pay-stations in New York's Chinatown. They are placed one to a block from Canal to Mott Street. After all, the phone company has a good license, because Mr. Webster's big book says a pogoda is a tower-like temple in China, India, or Japan, or a small booth to resemble one.

WORK-TIME LOSS DIPS

WASHINGTON (UPI) — The Labor Department has reported that working time lost in September due to strikes fell to its lowest point for a September since World War II. There were 1,550,000 man days of idleness last September, compared with 1,930,000 in September, 1961.

'We're Using 'Defensive Weapons' Now!'

Allen-Scott Report

Castro Wins from Crisis Huge Armaments Free As Khrushchev Significantly Cancels \$300 Million Cost

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — Premier Fidel Castro is coming out of the U.S.-Soviet confrontation over Cuba with a number of things to brag about, including a new role in the negotiations.

While the Kremlin's missile backlog sank the Cuban dictator's prestige to a new low, his Communist regime's pocketbook and armed forces were given a big lift.

In addition to being allowed to keep 208 MIGs, 140 ground-to-air anti-aircraft missiles, 38 "cruise-type" coastal missiles, and 14 missile-firing patrol boats, Castro is getting these and other vast armaments from Russia free.

Premier Khrushchev is canceling the nearly \$300 million cost of these modern Russian weapons — a highly significant development, since the Kremlin has never made such an arms deal with any of the other Communist satellites.

The Soviet leader also is turning over to Castro another powerful weapon to use in his bargaining for stronger U.S. commitments not to use military action to overthrow his regime.

He is giving Cuba "title" to the 22 IL-28 medium-range Russian jet bombers already there, which President Kennedy is demanding that Khrushchev move.

These and other foreboding military-economic agreements were reached in the private talks Deputy Premier Mikoyan held with Castro, according to a U.S. Intelligence estimate now being circulated in the Kennedy administration.

Instead of twisting Castro's arm, Mikoyan is reported to have used the Havana meetings to discuss new strategy to strengthen the bargaining positions of both Russia and Cuba in the current crisis.

The estimate reveals that Mikoyan gave Castro new assurances of the Kremlin's intentions to go ahead and make a port near Banes the headquarters for a joint Soviet-Cuban Atlantic fishing-submarine fleet.

As outlined by Mikoyan, the estimated \$30 million cost will be financed by the Soviet Union, but the port will be built by Cuban labor with Cuban materials. Russia agreed to compensate Cuba by giving them three submarines, a number of new fishing trawlers, and additional food and oil shipments.

BELLING THE CAT—This new Castro-Mikoyan agreement already is seriously complicating U.S. negotiations with Russia to remove all "offensive" Soviet weapons from Cuba.

When U.S. negotiators, Ambassador Adlai Stevenson and John J. McCloy, sought to discuss the disposition of the IL-28s at the U.N., First Deputy Foreign Minister Kuznetsov balked and suggested that this problem be taken up with either Carlos Lechuga, Castro's new ambassador at the U.N., or Acting Secretary-General U. Thant.

U Thant reported that Castro would give up the bombers if the U.S. would support a Russian-sponsored U.N. declaration guar-

anteeing the territorial integrity of Cuba against attack by all nations in the Western Hemisphere, including the U.S.

On instructions from President Kennedy, U.S. negotiators are refusing to agree to this sweeping commitment while the Soviet bombers are on Cuban airfields.

Instead, a counter proposal was made to Kuznetsov that once the U.S. can verify that all the bombers have been removed, the President will send a statement to the U.N. Security Council guaranteeing no U.S. attack on Cuba.

POLICY DISPUTE — An unresolved policy dispute among his advisers is keeping President Kennedy from making a final decision on whether the U.S. should insist on the removal of 56 Russian MIG-21 jet interceptors from Cuba.

These supersonic jets, piloted by Russians, are capable of carrying 500-pound nuclear bombs when equipped with special carriers.

The Joint Chiefs of Staff want these MIGs removed on the ground that they are "offensive" weapon systems capable of delivering atomic bombs on targets throughout the Southeastern part of the U.S.

The State Department is opposing this with the argument that the new demand would greatly complicate present negotiations. Also, that if the U.S. wins Soviet agreement to withdraw all nuclear weapons from Cuba, these MIGs will not have a nuclear capability.

President Kennedy is expected to make his decision this week after he examines the latest U-2 intelligence photos on the disposition of these MIGs and any nuclear storage areas that may still be in Cuba.

NOTE: The White House still classifies the SS-N-1 "cruise-type" missiles in Cuba as "defensive" despite their nuclear capability and range of 140 nautical miles.

FOREIGN FLASHES — Andrei Smirnov, Soviet Ambassador to Bonn, has reportedly been refused a requested vacation by the Soviet Foreign Ministry although he is ill and requires medical attention. Smirnov was told by his superiors that he must stay at his post until December 1. Roger Hillsman, the State Department's top Intelligence officer, is telling members of Congress that "the antagonisms between Moscow and Peking are so deep-seated that we cannot foresee any genuine reconciliation of the dispute, at least while Mao and Khrushchev hold power." Army Intelligence experts challenge this point of view, reporting that Hillsman has "no hard information to back up this conclusion." Instead, they say the reasons against an open break — both from an ideological and political standpoint — are compelling. For example, Russia and China still operate joint espionage operations throughout the world, and the Kremlin is supporting China's invasion of India with arms and money.

Question Box

(We invite questions on economic and the proper functions of government, which will not injure anyone.)

Question: Has the post office department always operated in the red?

Answer: As far as we know, it has. As long as it is politically controlled, with the government requiring it to provide certain "services" such as reduced rates for second, third and fourth class mail and special services for governmental agencies, it is unlikely that it will ever pay its own way.

The Almanac

By United Press International

Today is Wednesday, Nov. 14th the 318th day of 1962 with 47 to follow.

The moon is approaching its last quarter.

The morning star is Mars. The evening star are Jupiter and Saturn.

On this day in history: In 1832, the first streetcar in the world made its appearance on the streets of New York.

In 1851, Herman Melville's story, "Moby Dick," was published by Harper and Brothers in New York.

In 1881, the trial of Charles Guiteau, charged with the assassination of President James Garfield, opened in Washington.

In 1935, President Franklin D. Roosevelt proclaimed the Philippine Islands to be a free commonwealth.

A thought for the day — U.S. Justice Oliver Wendell Holmes Jr. said: "Life is an end in itself, and the only question as to whether it is worth living is whether you have enough of it."

TRUTH FORUM

Khrushchev May Have Real Trouble at Home

By ED DELANEY

Perhaps one reason Khrushchev hesitated about annexing Cuba to his group of satellites is due to the fact that he is encountering difficulties with the countries presently in the communist orbit. Continued guerrilla forays by the defiant anti-communists in the Ukraine, necessitate the maintenance of armed forces there. Twenty divisions of Soviet troops are in East Germany because Moscow is fearful of what the "Peoples Army" could do in the event of any uprising. They might turn on the wrong people — just as whole units of the Soviet Army joined with the freedom fighters in Hungary during the ill-fated revolt there in 1956.

But economic problems are looming large for the Soviet in their European colonies. For example: nearly 17 years after the brutal expulsion of the Germans from Silesia (which had been a German province for centuries) and its annexation to Poland, the communist press in Poland admits there is shortage of manpower. The paper states: "Unimplemented plans, low quality of production, delays in construction of industrial projects, a shortage of 49,000 skilled workers, 84,000 unskilled workers and 14,900 white-collar employees, is acutely felt." When the controlled communist press lets that get into print, there is worry for someone.

Radio Prague reluctantly reported a few days ago on the poor condition of agriculture in Czechoslovakia. There is a shortage of grass cutting machines and other farm implements with production at dangerously low levels. Radio Bratislava, Slovakia, tried to put the blame on God — without using that prohibited word. It was the "climatic conditions" of which they complained. Radio Sofia, Bulgaria, criticized the poor materials used in some construction projects. Radio Warsaw, the mouthpiece for Gomulka, Moscow's puppet in Poland, launched an attack on Sen. Barry Goldwater, of Arizona. It said he is "exceptionally radical. He cultivates the memory of Theodore Roosevelt who once said that in its foreign relations the U.S. should use sweet words and a hard stick. Equal rights of two countries, one big and the other small, is for Goldwater equal to a humiliation for his homeland."

That is in reference to the Cuba situation. Goldwater, the paper says, "forgets that the time when respect toward the U.S. could be restored by means of one cruiser and a few units of marines, belongs to the past." That Polish radio commentator, obviously intended to point out that we must now reckon with any action to uphold the Monroe Doctrine.

Reports received through channels directly from East Germany are similar to those from other captive nations behind the Iron Curtain. There is shortage of food supplies, not to the point of acute suffering as yet, but production, due to lack of machines and manpower, is far below normal. Since the Berlin Wall of Shame and the hundreds of miles of barbed wire barricades were built, starting at beginning Aug. 13, 1961, over 13,000 persons have managed to escape to West Germany. A few got through to West Berlin, but most of them found other holes in the barriers. Some recently rowed a small boat across 20 miles of sea to Denmark.

The reports of all, confirm the unrest, the sullen, smouldering hatred of the communist regime. Any move Khrushchev might make to conclude a so-called "peace treaty" with his puppet regime in East Germany and pit the East Germans against the West, is doomed to back-fire, say those who are in position to know.

mark. Another man and his wife piloted a small sail boat across 60 miles of the Baltic and landed in Denmark.

The reports of all, confirm the unrest, the sullen, smouldering hatred of the communist regime. Any move Khrushchev might make to conclude a so-called "peace treaty" with his puppet regime in East Germany and pit the East Germans against the West, is doomed to back-fire, say those who are in position to know.

It's Up To You

by HOWARD KERSHNER L. H. D.

The Turn Toward Peace zealots and those who share their thinking are urging a tragic course of action for the United States which would end freedom, free government and Christian ideals and make our country a Communist vassal with all the terror, hardship and suffering that entails.

Consider some of the specific proposals as listed in their recently-issued pamphlet, "American Initiatives."

"Announce American support of plans for a disarmed Germany in a nuclear-free central European zone."

In other words, neutralize and render helpless our strongest ally. What could be more pleasing to the Communists?

"Announce that the United States will make no more nuclear tests, regardless of Soviet action."

That is, render ourselves increasingly helpless as the Soviets improve their knowledge of nuclear science.

"... Invite the Soviet Union to 'plug in' on our ballistic missile early warning system."

That is — allow Moscow to know the exact instant at which we become aware of the fact that the Communists have launched a nuclear attack against us.

"... Invite the Soviet Union U.S. bases, test facilities and military installations."

That is, make them aware of our strength and our plans for self-defense.

"End production of fissionable material for nuclear weapon purposes and invite the U.N. to inspect our facilities."

In other words, make the Russian who mans the military desk at U.N. fully aware of our nuclear situation and end the production of these materials so that the Communists could quickly achieve ascendancy in this field.

"Give U.S. support and offer of financial help to the establishment of a U.N. police force."

In other words, turn over to the Russian Communist who sits at the military desk at U.N. whatever international police force may be established. If it is a strong one, that will put the Communists in control.

"Offer to underwrite the cost of a network of U.N. radio stations in the U.S. and to help finance similar stations in any country willing to allow them free operation."

That is, to vastly increase throughout the world the Socialist and Communist propaganda being put out by U.N. Let it be remembered that the Socialist and Communist nations already have a large and increasing majority in U.N. This proposal would therefore place the disposal of our enemies vastly increased radio facilities for deceiving and betraying the people of the world.

"Invite 1,000 Soviet teachers, journalists and jurists to undertake at our expense a three month lecture tour of the U.S. and invite 5,000 Soviet tourists to vacation at our expense in the U.S."

That is — pay the expense of 6,000 additional spies to hasten our destruction!

There is no question that this program of Turn-Toward Peace shared by many pacifist organizations, produces high glee in Russia and Peking. If it prevails, communism will achieve a cheap triumph throughout the world. cannot imagine any program short of outright capitulation that would be more beneficial to our enemies, the Communists and if the views therein contained prevail, it will mean the end of Western-Christian civilization and the ushering in of another period of dark ages.
