UN In Mourning For Death Of Mrs. Roosevelt

UNITED NATIONS, N. Y. (UPI) — The 116-nation General Assembly led the world today in mourning the death of Mrs. Eleanor Roosevelt.

United Nations Acting Secretary General Thant reflected the heartfelt sorrow of the famous and the humble around the globe by stating simply that she was "truly the First Lady of the World."

The General Assembly set aside its business at the opening of its (10:30 a.m. EST) morning session to pay tribute to the widow of President Franklin D. Roosevelt who became a working disciple and worldwide apostle of the United Nations.

Mrs. Roosevelt, who had sat in the United Nations as a delegate as well as working its corridors as a newspaper columnist, died Wednesday night at her New York City home. She will be buried Saturday in the rose garden of her Hyde Park, N.Y., home beside the late president.

Opening Statement Prepared Assembly President Muhammad Zafrulla Khan of Pakistan prepared a brief statement in memory of Mrs. Roosevelt at the opening of the session.

The delegates of all member countries — some of whom had crossed waters with Mrs. Roosevelt in her career as a U.S. representative here — were called to stand in a minute's silent tribute to the 78-year-old former First Lady.

The United Nations comprises all the world's religions but prayer does not figure in its proceedings. The silent tribute was the most solemn farewell the United Nations could pay to Mrs. Roosevelt.

U.S. Ambassador Adlai E. Stevenson, a close personal friend, was to give the main eulogy. He left a Cuban crisis discussion at the Soviet embassy early Thursday night to work on his tribute. In contrast, there will not be any eulogy at the rites Saturday at the simple Episcopal service for burial of the dead at St. James Episcopal Church in Hyde Park at 2 p.m., or a half-hour later beside the grave at the Roosevelt estate.

President Kennedy will lead the mourners at the private services. Former President Harry S. Truman and Mrs. Truman also will attend, along with Vice President (See MRS. ROOSEVELT, Page 3)

Cuban Refugees Report MIGs Stored Secretly

MIAMI (UPI) — Cuban refugee sources said Thursday night Soviet MIG fighters and bombers are stored in secret Russian-built underground hangars—some with as many as 16 floors beneath the surface—at 11 strategic air bases in Cuba's six provinces.

The Student Revolutionary Directorate (DRE) issued a detailed report on the 11 bases which it said was brought here by couriers from Cuba.

The bases, all in northern Cuba, would put Soviet jets only minutes from Florida and other points along the U. S. coast.

In some cases, Russian engineers have enlarged and adapted caves to house both fighters and bombers, the DRE said.

Other underground hangars have been built in completely revamped military airports, it added.

Some of the construction was reportedly disguised as "low cost housing developments" or "public works."

One of the largest installations, said to be "of greatest strategic importance," is at La Malesa airport in Las Villas province, about 51 miles from the northern coast, the DRE reported. La Malesa alone can accommodate 100 planes "ready for immediate action," it said.

The installation at La Malesa is guarded "by anti-aircraft missiles—the same kind which shot down a United States U-2 plane recently on a reconnaissance mission over a Soviet base in western Cuba," the refugee group said.

At San Julian, 37 miles southeast of Havana, Soviet engineers have constructed a vast underground hangar with 16 different levels and elevators that—aircraft carrier style—can bring planes to the surface within three minutes ready for takeoff, the DRE said.

There will be a meeting of the new board of directors at 7:30 p.m. Tuesday in the Chamber of Commerce offices at which time new officers will be elected.

Current officers are Wiley Reynolds, president; W. D. Price, Jr., vice president; Bill Tidwell, vice president; and E. O. Wedgeworth, secretary.

As soon as the new board is organized, basic contracts for the 1963 Rodeo will be considered. This year's Rodeo, which was the first RCA approved, broke all-time records in attendance for a four-night show.

U.S. Warships Expected To Contact Red Vessels

Invaders Massing Tanks

Nehru Says Red China May Get A-Bomb Soon

NEW DELHI (UPI) — Prime Minister Jawaharlal Nehru said today Communist China may have an atomic bomb "in a year or so," but that it will be three or four years before it is useable.

Nehru made his statement in parliament as the Communist Chinese concentrated tanks in the area near the vital Indian supply center of Chushul in apparent preparation for a renewed attack into India's northwestern frontier region.

Nehru repeated his pledge that India has no intention of using nuclear weapons of its own in the undeclared border war with Red China.

He added nothing further on this subject, but blasted Red China and said its surprise attack on India Oct. 29 was similar to

the actions of "Hitlerite Germany." He said China has been at war for 24 years and has a "war mentality."

Tanks in Position
As he spoke, a Defense Ministry spokesman disclosed the Communist Chinese armor buildup in the northwest.

"In the Chushul area in Ladakh some enemy tanks have been seen near Spangpur Lake" in the southern part of India's Ladakh border region, the spokesman said. Chushul is India's main defense point in south Ladakh.

Elsewhere along the front in Ladakh and the Northeast Frontier Agency about 2,500 miles to the east in the Himalayas, the spokesman said the situation had returned to patrol activity and little actual exchange of fire.

In New Delhi, Prime Minister Jawaharlal Nehru compared Communist China to Nazi Germany and Peiping publicity to Nazi Joseph Goebbels' propaganda machinery.

"It has become impossible to put trust in the word of China," Nehru said in a speech delivered during a debate of the invasion crisis in parliament.

"We will not be misled or taken away by Chinese peace offers," he said. "But we will be prepared for genuine peace available on honorable terms."

Readiness Probe
Nehru also told parliament

"there should be an inquiry into the charges of unpreparedness" leveled at the government in the wake of the initial overwhelming Communist victories. V. K. Krishna Menon was blamed for the (See NEHRU, Page 2)

Gray Voters Nix 10 Of Amendments

Gray County voters turned thumbs down on ten of the 14 proposed amendments to the State Constitution in Tuesday's general election.

The only amendments to carry in Gray County were the ones permitting the creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins counties, empowering the Legislature to insure continuity of state and local governmental operations in time of emergency, establishing a ceiling of \$2.5-million for assistance payments to the totally disabled, and for adding provision authorizing the resale of lands of the Veterans Land Fund remaining unsold after having first been offered for sale to veterans.

The other ten amendments were turned down in Gray County by fairly good majorities.

Another Long Conference By U.S. Russia Fails On Inspection Issue

UNITED NATIONS, N. Y. (UPI) — American and Russian diplomats failed in another long conference Thursday night to solve key inspection and arms withdrawal problems that would end the Cuban crisis.

They conferred for three hours and 45 minutes and a U. S. spokesman reported "no progress."

The United States went ahead with its program of "contacting" outbound Russian ships for a visual check of the giant missiles being removed from Cuba while International Red Cross officials worked on arrangements

for inspecting inbound cargoes for hidden missiles.

The inbound inspection is expected to start next Monday, the day the Russians said U.S. inspection of outbound ships, agreed to by Soviet diplomats here, must stop.

The Russians did not put it as an ultimatum. They said that all Soviet missiles — estimated by top sources of both sides at about 40 — would be out of Cuba by Monday and there would be no need for "contact" inspection after that.

The United States was adding (See MEETING, Page 2)

Cuba Missile Bases All Said Dismantled

By CHARLES W. COEDDICK
United Press International

WASHINGTON (UPI) — U.S. warships were expected to make their first contact today with Soviet merchant vessels to begin an actual count of offensive missiles being shipped back home from Cuba.

As the initial contact was approached, U.S. officials reported evidence that preparations were being made for the return of some of the 5,000 Soviet technicians sent to Cuba to man the missile sites.

The officials also confirmed that Soviet Premier Nikita S. Khrushchev sent a new private note to President Kennedy Tuesday concerning the Cuban crisis. They said the brief note was about a "technical matter" but refused to give any specifics.

At the same time, the White House announced that Kennedy's scheduled 10 a.m. meeting with the National Security Council executive committee has been moved to a later hour today.

Sites Dismantled
The Defense Department announced Thursday night that all known bases for the Russian offensive missiles in Cuba had been dismantled and the equipment was being shipped from the island.

Assistant Defense Secretary Arthur Sylvester said the dismantling of the bases and removal of the missiles had been confirmed by U. S. air surveillance.

The actual contact and visual inspection of Russian freighters by U. S. Navy units at sea was provided for under a Soviet-American agreement. Khrushchev has said 40 missiles were sent to Cuba. The contact at sea was designed to confirm that this number was being shipped back to Russia.

Officials said evidence that Soviet technicians also were leaving Cuba came from observation of personnel collecting at dockside points, apparently to board passenger ships bound for Russia.

No Actual Boarding
Sylvester said that American warships would make "close alongside observation" of the Soviet vessels. This indicated there would be no actual boarding of the Russian ships.

The freighters were expected to cooperate. The U.S.-Soviet agreement for inspection of the missile-bearing ships removed much of the tension in the explosive Cuban crisis.

In the absence of any international inspection inside Cuba, however, the United States continued to maintain its naval blockade and aerial surveillance of the island.

Record Numbers Voted Tuesday

WASHINGTON (UPI) — American voters turned out in record numbers Tuesday for a non-general election year.

An unofficial and incomplete tabulation by United Press International showed that well over 80 million voters went to the polls in 36 states, topping any previous off-year election turnout.

Final returns will swell this total considerably.

It does not include many absentee ballots, votes cast by minor party candidates or incomplete returns from precincts in many states.

The preliminary \$1 million vote figure exceeds even the more optimistic advance predictions by political analysts who guessed a "good" total vote would be around 70 million.

Analysts now are trying to determine what factors influenced the record off-year turnout of voters — good weather, Cuba, or strong local and national issues.

Last Tuesday's count, of course, was considerably lower than the total 1960 vote when the White House was at stake. The 1960 total was 68 million votes.

But on a comparative scale, Tuesday was a banner vote day. In the most recent off-year election — 1956 — about 45 million votes were counted. This was about 67 per cent of the voting-age population.

This year it appears the voting percentage — as well as the total vote — will exceed 1956. If the same 67 per cent figure is applied to the present estimate of voting-age population, it would mean a turnout this year of 82.2 million.

Gen. Walker Today Starts His 'Exams'

DALLAS (UPI) — Former Maj. Gen. Edwin A. Walker, maintaining that he feels fine, today began a series of physical and mental examinations to determine whether he is capable of standing trial on federal charges of insurrection and rebellion.

The tests may take as long as four days. Walker is an inpatient at Parkland Hospital, where the tests will be conducted.

Dr. R. L. Stubbinsfield, chief of psychiatry at the Southwest Medical School, was conducting the tests under a court order from Judge Claud Clayton of Oakland, Miss.

Walker, charged with inciting rebellion, insurrection and sedition conspiracy after being arrested during integration rioting at the University of Mississippi, entered Parkland Thursday. He was smiling and wore a white station hat.

"I feel fine and have always felt fine," Walker told reporters. Mrs. Catherine Walker, his mother, and three attorneys accompanied Walker.

If Stubbinsfield's tests prove that Walker understands the charges against him, it says, and is capable of aiding his own defense, he will stand trial in Mississippi Federal Court. No details of Walker's tests will be made public.

John Not Bitter At Dallas County

AUSTIN (UPI)—Governor-elect John Connally said Thursday he would not oppose giving Dallas County a second congressional seat if its population warrants just because it went Republican in Tuesday's election.

Connally, holding his first press conference with the Capital press corps, said the Democratic party "is going to have to do a better job of convincing the people of Dallas that their interests can best be served by the Democratic party."

"I will not take the position that Dallas should not have a second congressman, if the facts justify it, just because it voted Republican," Connally said. Dallas chose six Republicans for the Texas House.

No New Taxes
On other matters, Connally said he planned to try to avoid the necessity of new state taxes.

"We're hopeful that we can manage our affairs to such an extent that we can get by without any new taxes," Connally said.

He said plans to "take actions of tightening up the administration with possible mergers and reorganizations to save as much as we possibly can."

"But if this doesn't meet our (revenue) requirements, then we will have to look to new tax needs," he said. "I'm not in a position at this time to recommend where new revenue would come from, but I won't be reluctant to ask for new taxes if I believe it essential."

Connally said his immediate future plans will find him in Fort Worth tonight. He will leave for McAllen Saturday for the dedication of the sterile-fly plant there. On Monday, he will go to Hillsboro for a veterans' celebration, and after that "I hope to get a few days rest."

Expressed Doubt
Connally indicated he might be reluctant to go along with expansion of the state parks system to the Big Thicket area. Gov. Price Daniel is pushing the expansion.

Connally said he would favor adding to the present park system only after present parks are strengthened.

The 45-year-old former Navy Secretary said he favored the National Seashore Park on Padre Island. He said he hoped to convince both Land Commissioner Jerry Sadler, who opposes it, and the legislature "that it will be a good deal."

Connally, who was relaxed and in his own words, "enjoying the fruits of success," analyzed the final weeks of the campaign. He said he felt the Democratic party "was able to generate a lot more interest in the final two weeks than people thought we could."

Dear Abby.... I'm No Nurse, But Here's Your Answer

By ABIGAIL VAN BUREN

DEAR ABBY:
Should we call it "mental cancer?"
When good folks pray both night and day
And never get an answer?
J. M. C. (84)

DEAR J. M. C.:
If you would have your outlook brightened,
Do not pray for "answers"
But pray to be enlightened.
A. V. B. (44)

DEAR ABBY: Is it possible for me to get a temporary job even though I am expecting? You see, I left my regular job last month, but after a few days at home decided I wanted to go to work again. I couldn't get my old job back because they had already replaced me. I am a competent PEX operator with eight years' experience.

DEAR WANTS TO WORK:
Apply for work but tell your prospective employer that you want to work just so many months because you expect eventually to become "too big for the job."

DEAR FELLOW RECIPE COLLECTORS: I have a treat for you! I've just returned from Lexington, Kentucky, where I found the world's most delicious Southern Pecan Pie. I begged the recipe from the pastry chef at the Phoenix Hotel. (It's the "specialty of the house.") He gave me permission to share it with my readers as he's an Abby fan, too. Send me a self-addressed, stamped envelope and it's yours!

DEAR ABBY: My name is the same as my father's followed by a Junior. It has created endless confusion. To name a child after one's self is the height of vanity. Each individual deserves to have a name of his own, and should be permitted to build his own reputation in the world. I wish you would ask fathers to think twice before naming their sons after themselves. It is more of an insult than an honor.

DEAR JUNIOR: I can see your point, but I don't agree with you. Passing along the family name is the proud practice of many. And more than one "Junior" has been inspired by his inheritance.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Welfare Index Sets Meeting

Pampa Welfare Index will meet at 4 p.m. Monday in the City Commission Room in the City Hall. Tom Beard, president, urged all organizations, both civic and social groups, to send representatives to the meeting.

Assigning Thanksgiving baskets will be made through the Welfare Index so that duplication will be at a minimum. Persons or clubs wishing to give Thanksgiving baskets should call the Red Cross Office for a name or to report a basket and the person who will receive it. Names from the Welfare Index rolls have been cleared with the Salvation Army, County Welfare, and the Old Age Assistance Offices. The Red Cross number to call is MO4-7121.

Beard stated that although the City Hall will be closed for Veterans' Day, the meeting will be held as scheduled.

The same negotiators had conferred for five hours and 20 minutes Tuesday night with the same result.

Commands River Valley

Walong is situated 16 miles south of the McMahon Line which India claims as its northern border. It commands the Lohit River valley leading to the Assam Plains about 80 miles away.

The spokesman reported a total of five armed clashes near Walong and another in the Towang area in Nela's western region near the Bhutan border.

U.S. Ambassador John Kenneth Galbraith had a half hour talk with Prime Minister Jawaharlal Nehru Thursday night and today the embassy announced that the U.S. military aide team here probably would be expanded somewhat.

So far there are four U.S. field grade officers working closely with the Indian military in an effort to determine what they need in the way of arms help.

Defeats Census Bid

Nehru's government easily defeated a tiny parliamentary bid today to censure his foreign policy. Only seven of the more than 500 members of the lower house rose to support the motion.

Nehru received a roaring ovation from the house Thursday when he declared India would never give in to Communist Chinese aggression.

Nehru announced to parliament today the final step in severing former Defense Minister V. K. Krishna Menon from the cabinet. He said he had received a message from President Servapalli Radhakrishnan saying he had accepted Menon's resignation "with regrets."

Lyndon Johnson and cabinet members.

Kennedy took the unprecedented step of ordering that American flags at all official installations both here and around the world, and on U.S. ships at sea, be flown at half-staff. Flags also were ordered lowered in New York City and state and Philadelphia.

From Australia to London, on all the continents, expressions of sorrow matched those in this country as news of Mrs. Roosevelt's death swept around the world.

World leaders, and even dictators, spoke as with one voice in lamenting the passing of a woman enshrined in her lifetime for her humanitarianism and love and concern for the world's plain people.

The roll call of those sending expressions of sympathy to the family home in New York City read like a who's who of the world's most famous people: Queen Elizabeth of Britain, Indian's Jawaharlal Nehru, Australia's Prime Minister Robert Menzies, Gen. Omar Bradley, labor leader David McDonald, Russia's Andrei Gromyko.

Yet ordinary people were touched in their own way. Said a New York cab driver, in the vernacular of his city: "She was a great old gal — she cared about little people."

Dumbest Bandit

NEW YORK (UPI)—Police had it easier than usual today in seeking the holdup-man who robbed photographer Vincent Armas, 33. Armas said the bandit first posed for some photographs for his mother and then slugged and robbed him. Police made prints of the robber from Armas' negatives.

Local, Area Baptist Churches Schedule 'School Of Missions'

"The World Is Coming To Our Church" is the theme being used by four Pampa Baptist churches and several in the surrounding area for Schools of Missions next week.

Every seven years, local Baptists are able to secure missionaries from U.S. and foreign mission fields to conduct these week-long schools.

The Schools of Missions begin Sunday morning and continue through Thursday evening. It was explained by Ed Spivey, Le-fors pastor and SOM Director.

Pampa Baptist churches participating are First Baptist, Highland, Calvary, and Central Baptist. The Central church will not hear the same speakers as the others, but will be in the group with White Deer, Lefors, Groom, Skellytown and Goodnight.

Representing foreign missions in the area around Pampa and at

Central Baptist will be Miss Darlene Elliott of Columbia and John L. Bice of Brazil. These are two of Southern Baptists' 1,617 missionaries in fifty-one foreign countries. Home Missionaries are E. C. Branch, an Indian missionary in Idaho, and John Allen from Pierre, South Dakota.

Some of the participating churches will have an hour of missions study prior to their missionary's talk each night.

Miss Darline Elliott, Southern Baptist missionary, is librarian and piano teacher at the International Baptist Theological Seminary, Cali, Colombia.

"Building a library, producing catalogs, and revising part of a library manual seem romantic only to the person who does them," she says. "Some of my more exciting activities were helping to organize libraries in Baptist institutions in Guatemala, Honduras, and Costa Rica and playing the piano for a city-wide revival meeting in Tegucigalpa, Honduras. And, of course, visiting for my church, playing for revivals, and teaching study courses in Cali are always thrilling and rewarding experiences."

Before returning to the States for furlough she was pianist, director of music activities, Sunday School teacher, Training Union leader, counselor of a missionary organization, and member of the finance committee at Belcazar Baptist Church, Cali. She was also community missions chairman for the Colombia Woman's Missionary Union.

Appointed a missionary to Colombia in 1943, Miss Elliott lived in Barranquilla, where she studied the Spanish language, directed two primary schools, worked with a church, and served as piano instructor and radio assistant. She did evangelistic work in Bogota and then served as

The Weekly Message Of Inspiration

Attend The Church Of Your Choice

REV. PAUL F. BRYANT, PASTOR
BETHEL ASSEMBLY OF GOD

STAND

Text: "Therefore take the whole armor of God, that you may be able to withstand the evil day, and having done all, to stand." — Ephesians 6:13.

Any man engaged in a great enterprise soon learns how important is the man who can be counted on to stand in his place. Paul was not talking about the more spectacular Christian virtues; but the basic one of integrity. He was impressed with the need for ordinary Christians who were completely dependable.

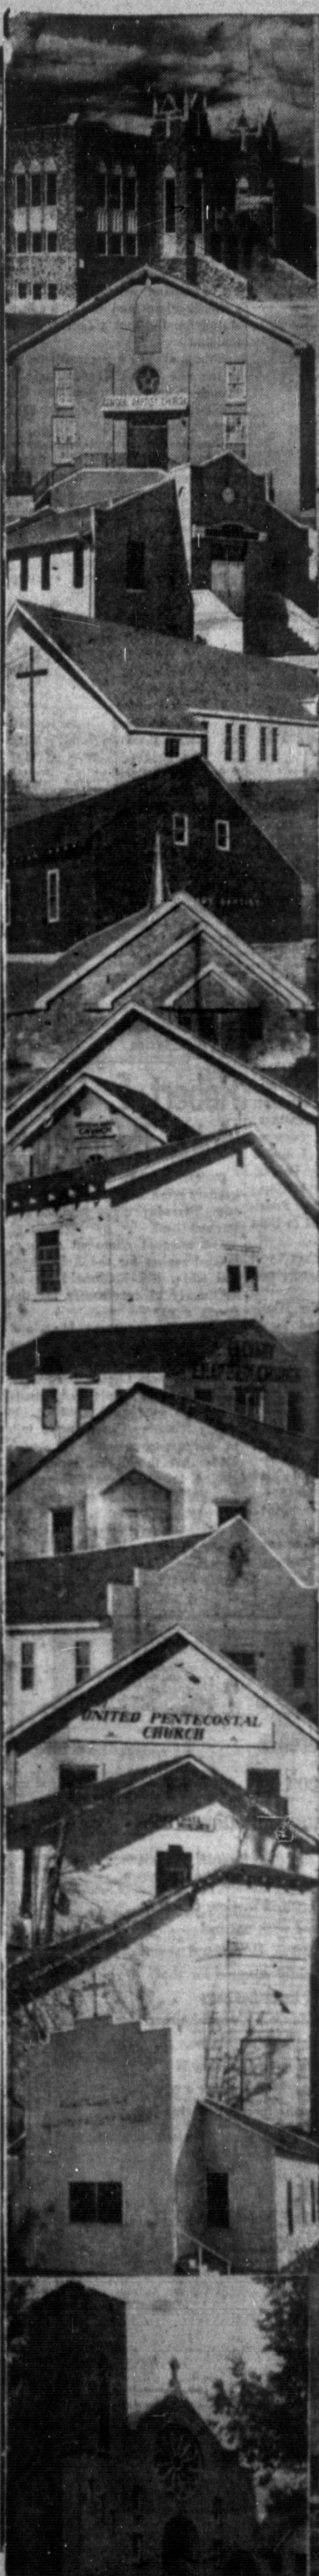

If we should call the roll of the heroes and martyrs of the Christian faith, we would be impressed by the number of people who made it great by simply standing firm when others weakened.

There are a good many people who will not stand very long but they will be willing to sit comfortably and applaud. The sitting Christians are legion and within certain limits, they perform an important task. They can be used in the comfortable places, but not in keeping a lonely vigil where they will get tired.

There are other people who will stampede. They lose their heads and under pressure will go with the crowd. When fear and hysteria rule a generation, look out for these people. These are the people with enthusiasm and energy, and if it could be rightly harnessed, they would do much good.

Finally, we come to the man who stands clad in the armor of God. If he is not advancing for the moment, he is not retreating and you can count on him to hold the line.

These people are the real foundation of the Church. They are the men of faith who know that, whatever the present situation be, the ultimate victory is God's. They stand on that assurance and they strengthen the wavering purposes of the fearful.

Longhorns Favored Over Baylor In SWC Action

By ED FITE
UPI Sports Writer

The spotlight will be on Waco this weekend where Texas is favored to maintain its Southwest Conference lead over the offense-minded Baylor Bears.

Arkansas and Southern Methodist also are favored in their games, while Texas Tech and Texas Christian carry the conference colors against intersectional foes.

At Fayetteville, the Arkansas Razorbacks entertain the sometimes-tough, sometimes-mediocre Rice Owls. And the SMU squad takes on the Texas A&M Aggies in the Cotton Bowl at Dallas.

Texas-By Eight

Texas is an eight-point pick over Baylor. Arkansas is favored by two touchdowns over Rice and SMU is a four-point choice over the Aggies. If the three favorites win, Texas will boast a 4-0-1

league record to 4-1 for Arkansas and 3-1 for SMU and TCU.

Winless Tech is a two to three touchdown underdog to Boston College in the New England game.

And TCU will be a definite underdog Saturday night when the Frogs go to Baton Rouge to take on the Louisiana State Tigers.

Offense Vs. Defense

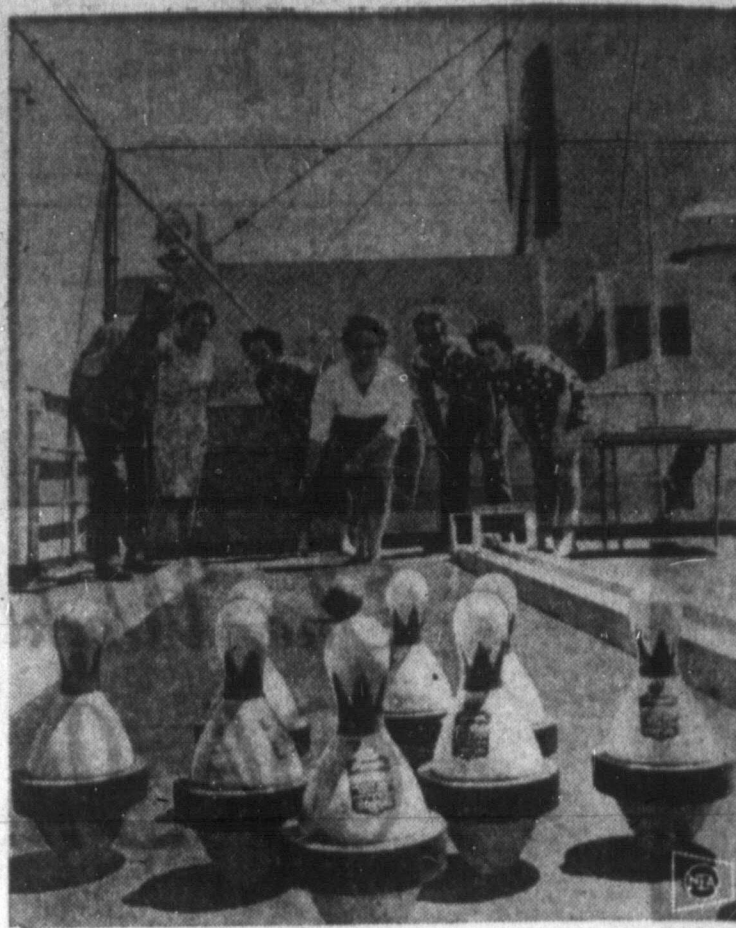

Texas may find the Baylor attack a rough test for its rough-and-ready defense. The Texas offense looked about average last week when Rice pulled a 14-14 upset deadlock. Bu the Bears whipped up four touchdowns in losing 28-26 to TCU. Texas will miss punting specialist Ernie Koy Jr., and defensive end Knox Nunnally, both injured.

And if the Owls play against Arkansas like they did against Texas, the Razorbacks' bid for a record fourth straight title spot may be spoiled.

The Mustangs, who have beaten Rice and Texas Tech, will have to crank up an unusually good offensive day against Texas A&M.

With the "Thursday night fights" moved to Saturday night this week, the Pampa Optimist Boxers will host one of the toughest boxing teams in the Panhandle, the former Dee's Pharmacy team, wearing a new name this year, Canyon Jaycees Boxing Club.

Over 20 bouts are tentatively scheduled for the matches to be held in the Optimist Boys' Club Building. Prices for the fights will be students 50 cents and adults \$1.00. Children will be admitted for 25 cents. Bell time is 7:30.

Some of the tentatively scheduled matches pits Pampa's Dickie Wills against Elmer Clement (175), and Jim Murray against George Arendondo (147) in featured bouts.

Other matches tentatively set for Saturday night (Pampa fighters listed first) are David White, David White and Kevin Romines are Lefors boys slated to fight with the Pampanas.

Harvesters Try Lubbock Team

With the Harvesters entering a Dist. 3-AAAA game as the favorites for the first time this year, the Pampanas will take on the Lubbock Plainsmen in a 7:30 game slated for Lubbock's Lowry Field tonight.

Almost always a perennial thorn in the side of the Harvesters, the Pampa team will try to top the Lubbockites for the first time in recent years.

The Harvesters can be expected to unleash a varied attack running from the split T formation, relying primarily on the belly series of plays. Lubbock's best back, Greg Lott, will sprinkle the hosts' running attack with passes, both long and short.

Robert E. Lee Holds Banquet

Robert E. Lee Rebels' eighth graders were honored with a banquet Thursday night held at the Pamel Hall.

The banquet climaxed a successful season for the Rebel football team. Bill McDonald served as master of ceremonies for the event.

Special guests were Mr. and Mrs. Otis Holladay, and Mr. and Mrs. Weldon Trice.

Coach Mack Choate introduced his team and made comments about his successful Rebels.

Otis Holladay, in giving a talk to the group, pointed out with pride that this Rebel group had played 12 games at Robert E. Lee and had won 10 of them over the past two years.

Bill McDonald presented Coach Mack Choate, who is leaving today to take a job in private business, with a gift in behalf of the boys.

again this week in the quarter-back slot, is the most dangerous triple threat in Dist. 3-AAAA. Hebert is a definite threat to the Harvesters with his running, passing, and kicking abilities.

Coach Otis Holladay's starting lineup for the showdown with the Westerners received a gentle shaking from last week as Jerry Glover, tailback, and Ricky Stewart, wingback, moved into starting berths in the backfield. The line is intact except for Clay Lively moving into the left end spot in place of Stewart. Matson is slated to start at fullback.

The Lubbock Westerners, by comparing scores, definitely should be rated in the favorites roll for the contest. The Westerners lost to Palo Duro, 22-13, and Tascoza, 10-0, while these two teams downed the Harvesters 26-8 and 28-7 respectively.

The Westerners, with a 2-3 season mark, have played tough Borger and Wichita Falls to 28-13 and 20-14 scores, losing to both teams. The other team to defeat Lubbock this season was Odessa, 18-7.

Lubbock High's victories have come at the expense of Midland Lee, 21-8, and Plainview, 41-0.

Both teams stand 1-3 in Dist. 3-AAAA action and a loss by either team would assure them of a low finish in district action.

The Pampanas claim victories over Bel Aire of El Paso, 19-7, Phillips, 12-0, and Amarillo, 7-0. The Harvesters have lost to Monterey, 35-13, besides Tascoza and Palo Duro in district play as well as Dumas, 40-8, in non-conference action.

The Lubbock team has good size, but is short on speed. Probable starters in the Monterey backfield will be halfbacks Art Carroll and Johnny Henly with Bill Marion at fullback with Lott in the quarterback position. Steve Peace, the Plainsmen's 6-4, 205-pound highly regarded end will return to action after recovering from an injury.

If the occasion should arise Pampa's Hebert, one of the leading punters in the nation with a 44.2 average, will give the Harvesters an added advantage with his ability to kick field goals.

Fumbles Create Shocker Tragedy

Fumbles and a scat-back named Ricky Hickman whirled the Shockers into the waters of defeat as the Yannigans of Amarillo downed the Pampa "B" team, 24-8, in Harvesters Park Thursday night.

Four fumbles and a pass interference ruling ended five Shockers drives short of the touchdown marker with a blocked kick setting up a Yannigan TD.

The Shockers dominated the offensive game, but the visitors' did the scoring.

Ricky Hickman sent the Yannigans temporarily ahead early in the game as he blazed for 34 yards and the initial TD. The pass attempt for the extra points missed its mark.

The Shockers turned a Yannigan fumble into their first TD. The Pampanas recovered the ball on Amarillo's 14-yard line and three plays later Ronnie Oler knotted the game on a 12-yard run. Oler put the Shockers into the lead as he added two more points on the extra points attempt.

The Shockers started the second half with determination as they marched the ball to the visitors' 23-yard line only to fumble, killing the drive.

The Shockers held the visitors making them kick on a fourth down situation. Taking over on the visitors' 45, the Shockers moved the ball inside the Yannigans 20-yard line only to fumble once more.

Yannigans' Hickman showed the hosts his heels as he raced 87 yards for another Amarillo TD late in the third quarter.

A blocked kick made its entrance into the Shockers' tragedy as the Yannigans took possession of the ball on Shockers' 43-yard line. Four plays later Johnny Wheeler passed to Hickman for 36 yards and another Amarillo

TD. The Shockers thwarted the extra points attempt.

Another fumble plagued the Shockers killing a drive inside the visitors' 30-yard line in the fourth quarter. The Yannigans used nine plays to move the ball into the end zone as Wheeler scored the final TD from six yards out.

Pampa Jr. High Beats Perryton

Pampa Jr. High's seventh graders ended the season Wednesday afternoon in Perryton on a winning note as they blanked the Ranger's seventh graders, 22-0.

Although the Reapers ran three plays from scrimmage to the first half and fumbled on two, the Pampa team managed a touchdown as Johnny Carlos passed to Dann Stokes for the TD on a 60-yard pass play. Stokes added the extra points.

The pass play was the last play of the first half.

Stokes padded the Reapers lead in the third quarter as he scanned 35 yards on an off-tackle play netting the second TD. The try for the extra points failed.

The Reapers scored again in the third quarter as Carlos reached pay dirt from five yards out. Larry Hastings and Don Cawthorne contributed key runs to the touchdown drive.

Cawthorne added the extra points by running up the middle making the score 22-0.

Coach Frank Craig cited on defense Bobby Wilson, Don Whitney, Allen Lindsey, Mike Fortin, and Johnny Carlos for turning in good performances in the victory.

The Reapers finished the season with a 3-3 record.

Old Ref

Calls 'Em

The Old Ref. after giving predictions last week that make one doubt the validity of Lady Luck's crystal ball, made his predictions this week on the day, according to his horoscope readings, that gave him the best chance of success.

The Old Ref sez to be a winner in the crafty business of calling football games, one has to play the odds, court Lady Luck and her finest crystal ball, and look to the stars for the answers. (Maybe the Old Ref should keep his eyes off the stars and watch the teams play football for a change—Editors.)

McLean keeps the Old Ref guessing. He has missed McLean every week that he has given his predictions for the Pampa News. He claims the only way to call the shots right is to keep trying and not to break any mirrors or to let any black cats run in front of a person. He believes McLean will be a winner this week.

His fumbles were fast and thick last week. He was all wet on nine predictions, bringing his standings to 66 right and 24 wrong.

Buffaloes Meet Highly-Rated NT

CANYON (Spl) — After an inspired 23-7 win over previously-unbeaten Bowling Green State, West Texas State takes on another big, tough football team Saturday night at North Texas State. Kickoff time is 7:30 p.m., and it will be the annual student-band trip for West Texas.

Coach Joe Kerbel called Saturday's upset win over Bowling Green before a day-time crowd of 19,000 one of the greatest wins in West Texas football history. The Buffs were outweighed 25 pounds per man in the line, and for the visitors it was only their eighth loss in the past eight years.

The Buffaloes now boast a 7-1 record, one of the best in the Southwest, and will tackle an unpredictable North Texas squad. The Eagles have won four and lost three, winning every other start this year. They have been especially tough at home, beating Cincinnati, Texas Western and Hardin-Simmons. They dropped a rugged 14-7 decision to strong Memphis State, and last week upset Wichita at Wichita, 9-7.

The Eagles average 235 pounds per man on the front line, and their strong backs weigh in at 190.

Carver Wildcats Host Shamrock

Carver's Wildcats host Shamrock tonight in Carver Gym in an 8 p.m. game as they try to win game number three against one defeat.

The Wildcats downed Shamrock's Dunbar High in the team's last outing, 47-27, Wednesday night.

The Wildcats have also beaten Childress, 52-50, and lost to them, 44-33.

Probable starters for Coach Edward Cash's charges will be forwards R. L. Harris, 6-1, and James Tucker, 6-2, guards Darrell Cash, 5-8½, and Jessie Washington, 5-8 and center Jimmy Brown, 6-2.

The Wildcats will participate in an invitational tourney in Shamrock on Nov. 17 in their next scheduled outing.

TEXAS TECH Over BOSTON — An upset, the Kennedy's can't win this contest for them, 8-7.
NAVY Over SYRACUSE — The Middies will bounce back from last week's upset, 22-15.
WISCONSIN Over NORTHWESTERN — The Wildcats are in for trouble, 22-13.

ALABAMA Over MIAMI — Next week's number one team, 28-8.
NOTRE DAME Over PITT — The Irish are coming around, 8-7.
SOUTHERN CAL Over STANFORD — Rose Bowl bound, 22-12.
OKLAHOMA Over IOWA STATE — Texans are winners even in Oklahoma uniforms.

In the backfield are two of the top runners in the Missouri Valley Conference — halfback Bobby Smith and fullback Dwain Bean. Bean leads the league in rushing and Smith is the explosive runner who can kill you from any place on the field.

West Texas came out of the Bowling Green game in good physical condition, and should be in top shape for the contest. Pistol Pete Pedro, the team's leading rusher who has played only sparingly in the last four games, will be expected to be at top speed.

The two schools didn't meet last year, but in 1960, West Texas took a 14-6 decision in the mud at Buffalo Bowl. That was the Buffaloes' only win in the series as North Texas holds an 8-1 edge.

Cowboys Host Giants Sunday In NFL Tilt

By ED FITE

DALLAS (UPI) — The Dallas Cowboys, faced with a do-or-else situation in their bid to stay in contention for the National Football League's Eastern Division title race, will be facing a home field jinx against the division-leading New York Giants Sunday.

The Cowboys, only in their third Pampa High's Band will be the featured attraction during half-time ceremonies. The game will be telecast on Channel 10, KFDA, with game time at 1:35 p.m.

formative year, seemingly have had a tendency to have their "odds" on their own soil and to save their "hot" performances for the benefit of foreign audiences.

Coach Tom Landry's Cowboys go into Sunday's crucial contest against Landry's old teammates with a 4-3-1 record — one that would have made them this year's NFL Cinderella team except for the fact the Washington Redskins have shown an even more startling form reversal.

But three of those victories have come on the road in games in which the Cowboys have indeed been hot—27-17 over the Los Angeles Rams, 42-47 over the Pittsburgh Steelers and last Sunday's 38-10 victory that spilled the Redskins out of Eastern Division leadership.

Downed the Eagles Their lone home triumph was a 41-10 affair with the Philadelphia Eagles whose only claim to fame this season has been a victory and a tie with the Cleveland Browns in eight games. The Cowboys tie game was with the Redskins 35-35 in the home opener.

In their other two appearances before tens of thousands of vacant

seats in the huge Cotton Bowl, the Cowboys let the Steelers get away with a 30-28 victory and then two weeks ago they fell victim to the St. Louis Cardinals' reaction to Card Coach Wally Lemm's threat to quit.

If there is any particular reason for the home letdown, Landry professes he is not aware of it. "If I thought there was a reason, I would make some changes," Landry says.

One of the reasons may be something Landry couldn't do anything about by merely making changes in personnel or pre-game preparations.

That would be in getting something done about the vast emptiness of the stadium at kickoff time. The small crowds which have come out for the Cowboys' games look more like a gathering which should be watching a routine weekday workout.

Weather Trimmed Crowds Only 15,730 came out in torrid temperatures for the Redskins opener in the face of an 8-5 exhibition record by the Cowboys. The season's high of 19,478 watched the Steeler loss. Rain up to game time held the Eagles' crowd to 18,645.

Rebels Rout Pampa In Season Finale

Robert E. Lee's ninth graders finished the season without being defeated, but with one blemish on their fine record as they proved too much for the Reapers of Pampa Jr. High, 46-0.

The Rebels were tied once this season by Stephen F. Austin of Borger to mar an otherwise perfect record.

The Reapers were able to cross the Rebels goal line only once in the rival game only to have the play nullified as the passer crossed the line of scrimmage before throwing the ball.

The Rebels had numerous touch-

downs called back in the affair for violation of the rules.

Lewis Meers scored the first TD for the Rebels on a 22-yard scamper with Gary Crossland running across two extra points.

Larry Daniels scored the second Rebel touchdown on a 15-yard dash and Meers added two more points to the Rebels' cause.

Joey Roten scored from 20 yards out for another Rebel TD, but the kick for the extra points failed.

Sammy North broke into the scoring column for the Rebels as he scored on a two-yard run. Again the try for the extra points failed.

Gordon Dodd turned an intercepted pass into a TD for the Rebels as he raced with the intercepted pig skin 42 yards to pay dirt.

Danny Boyd broke loose for 15 yards and another Rebel TD.

Gary Crossland added more icing to the victory cake as he raced 80 yards for the last Rebel TD.

The game was the last for both teams.

Detroit Pistons Edge Cincinnati

By United Press International

The Detroit Pistons, who must have been wondering if lady luck had abandoned them, ended a seven-game losing streak Thursday night as they squeaked past the Cincinnati Royals, 116-114, in the National Basketball Association's only game.

It was the first victory of the season for Dick McGuire's Pistons, who handed the Royal's their third straight loss and their fifth in eight games this season.

Although Detroit led by 15 points late in the third quarter, Oscar Robertson and Jack Twyman led a Cincinnati rally that closed the gap to one point three

times during the hectic fourth period. Willie Jones' foul shot with seven seconds remaining iced it for the Pistons.

Robertson led all scorers with 38 points, while big Bailey Howell paced the winners with 25.

The Royals will try to end their three-game losing skien tonight when they meet the New York Knickerbockers at Madison Square Garden. Also, Boston will host Los Angeles. St. Louis will be at Syracuse, and Chicago will face the transplanted Warriors in San Francisco.

MAJORS LAND COHEN CHICAGO (UPI) — Jeff Cohen, former William and Mary college star, has signed a contract to play for the Chicago Majors of the American Basketball League.

WHAT ARE THEY DOING? — What are Inez Carter, left, and Lorene Locke doing? They could be "thinking about" the Altrusa Club's Chili Supper as they look at a fine Hereford on the Carter Ranch, five and a half miles south of Pampa. The candle-lit supper will be held in St. Matthew's Parish Hall between 5:30 and 8:30 p.m. Monday, with plenty of homemade chili, beans, pies and door prizes, club members said. Tickets are \$1 for adults and 50 cents for children. Proceeds will be used for the club's projects, including Senior Center, Career Clinic and Altrusa Scholarship.

Enlightened Man Scientists Topic

The enlightened nature of the man of God's creating will be explained Sunday at Christian Science church services. Selections from the Bible in the Lesson-Sermon on the subject "Adam and Fallen Man" will include these verses from Ephesians (5): "Be ye therefore followers of God, as dear children; . . . For ye were sometimes darkness, but now are ye light in the Lord: walk as children of light." Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (p. 206): "The great truth in the Science of being, that the real man was, is and ever shall be perfect, is incontrovertible; for if man is the image, reflection of God, he is neither inverted nor subverted, but upright and Godlike."

Graham Says Much Of Society Wicked As In Noah's Day

EL PASO (UPI) — Evangelist Billy Graham told a chilly crowd of about 10,000 overcast people Wednesday night that much of modern society is as wicked as in the day of Noah. It was the fourth night of Graham's El Paso Crusade for Christ. He cited marriage abuses, violence and lawlessness and lack of true devotion to God as particular areas of wickedness today. It was Graham's 46th birthday, and as he stepped to the platform the choir sang "Happy Birthday." Graham told the crowd their blood was still after the summer heat. He told them to "struggle together to keep warm" in the outdoor stadium at Texas Western College. About 200 presents came forward to make "decisions for Christ" after his address. Friday night Graham will speak on marriage and home life. He said he is a home missionary to the Spanish speaking people and is stationed in Tama, N.M.

Churches

(Continued From Page 4) ing to Brazil he pastored several Texas churches. Appointed by the Foreign Mission Board in 1923, he served as director of the high school and science department of a Baptist school in Recife for three years, then went to Macao, where he was director of another school for 16 years. In 1943 he turned from education to direct evangelism, working in the states of Alagoas, Pernambuco, and Sergipe during the next 13 years. He also served as treasurer of the North Brazil and Equatorial Brazil Missions. Rev. Bice is married to the former Blanche Hamm, a native of Ramey, Tenn. They have three children. Rev. and Mrs. Bice make their home in Longview. Rev. Branch has served as a missionary to the Indians for more than ten years, previously pioneering the mission work on the Fort Apache Reservation in Arizona and the Warm Springs Reservation in Oregon. In October, 1961, he transferred from the Pappo Indian reservation in Arizona to the Fort Hall Indian Reservation in Idaho, where Southern Baptists opened

their first language mission field in the state of Idaho. The Fort Hall Reservation, located just north of Pocatello, has a population of approximately 3,000 Shoshone - Bannock Indians. This is the first Baptist witness among them. Branch was the first Baptist mission worker among the Apache Indians of Arizona. A native of Cherokee, he is a graduate of Grand Canyon College. The Branches have three children, the youngest of whom is an adopted Indian girl. Before entering the missionary field, he was in the field of masonry, being superintendent of such jobs as First National Bank, Houston, University Tower, Austin, and the Grand Coulee Dam in Washington state. Rev. Allen serves as an area missionary in South Dakota, which is a part of the Home Mission Board's Pioneer Mission Program. Prior to going to South Dakota in the early part of 1962, he pastored churches in South Plains and Floydada, and Rio Linda, Calif. A native of Fort Worth, he holds degrees from Wayland Baptist College, Plainview, and Golden Gate Baptist Theological Seminary, California.

Double-Talk From On High

A vast and dismaying amount of what may fairly be called double-talk is coming out of Washington these days.

We are told that we must have reductions in individual and corporate income taxes, running to \$5 billion or more a year, in order to spur a sluggish economy, and to guard against the possibility of a real recession in the comparatively near future. Lip service is paid to reducing or eliminating the annual multi-billion dollar deficits.

We are told, at the same time, that the Federal government must assume the responsibility for dealing with more and more of our problems, ranging from those of the states and cities to the family, by creating new bureaus and appropriating funds to pay for them. The list here is a long one, including the medicare scheme, more socialized federal electric power development, a federal agency to deal with urban difficulties, a farm bill of incredible

complexity and unknown cost, more federal unemployment benefits to be paid over longer periods of time, federal ownership of space communications, and so on and so on.

Some of these proposals have been, for the moment at least, refused by Congress, and some are yet to be acted on. Some are Administration backed, some have other advocates. But all are seriously advocated and all, whether temporarily defeated or not, will remain in the political arena. And all call for more federal spending, some on a massive scale.

Well, one thing is certainly true. We can have tax reduction and more federal spending, at one and the same time. We can do it by ignoring the deficits, by sooner or later, turning the Treasury's printing presses loose and bringing on a dollar-destroying inflation that will make past inflation look trivial by comparison.

The Danger

The next Congress will be called upon to consider a "Truth in Packaging" law which was introduced near the end of the 1962 session. The bill would give a federal agency far more sweeping powers over the packaging and labeling of non-durable products sold at retail than it now possesses. The purpose is to protect the consumer from dubious and dishonest practices and, also, to protect legitimate producers from competitors whose ethical standards are of a lower character.

example, columnist Sylvia Porter observes that it would empower the regulatory agencies involved to ban "pictures of luscious cherry pies on packages which contain... ingredients for making a pie." That seems to be going a long way indeed - it would certainly be an unusual consumer who thought that a package with flour-like contents had a ready-for-the-table pie inside!

In the urge to protect we can go to ridiculous and destructive extremes which, carried to the ultimate end, would allow power-hungry bureaucrats to decide what manufacturers can offer for sale, and what consumers will be allowed to buy. This is the danger that Congress should watch with an eagle eye when legislation of this kind comes before it.

CONFUSION

Can Political Figures Solve Any Problems?

By GEORGE BOARDMAN, Ph. D.

The other day a politician expressed surprise that communist Castro was busily driving his slaves to work on military installations which might be utilized offensively against the United States. He was also offended because spokesmen for communists had spoken with him in terms which were less than truthful. A head cold added high lights to the image of naive innocence transmitted throughout the world via radio, TV and the various news disseminating media.

ed voter apathy. In our county the total population is 18,800 which yields some 3,000 registered voters and no more than 40 per cent are expected to visit the polls and give their consent to more and more slavery. When I stated my belief that a small turnout of voters might provide an indication of growing resentment against monstrous government, he became more upset.

The cries of confusion will continue and become louder. Millions of words will be hurled around the world, pros and cons and its and buts and the word freedom may even be used occasionally but hardly a voice will truly speak for freedom.

My discerning friend, Cerbat Mountain, whooped a little wind down the mountain and asked me why the President did not also announce an immediate cessation of the deportation of tax dollars extracted from earners, to foreign governments aligned with the communist aspect of totalitarianism. I retaliated and asked if he could give me a single example of a public political figure doing anything to solve any problem since George Washington retired to Mount Vernon. The wind died to a low rumble and Cerbat refused to answer.

It is not my purpose to discuss all of the ramifications of this most recent action by Mr. Kennedy except to mention that it provides another classic example of the fact that only government can place the lives of the population in grave jeopardy, lawfully, and that for the time being, at least, we are stuck with a gigantic, parasitical monstrosity which will seek to continually enlarge itself.

In the midst of the international confusion, a candidate for public office called upon us. He was a little upset about what he called

Pull Up A Chair

By Neal O'Hara

Here is a book you will enjoy, "You Can Always Tell a Harvard Man," by Richard Bissell and just off the press of Prentice Hall. It's one of the most delightful and interesting books that has crossed my desk in some months. Bissell writes about his Alma Mater with great nostalgic charm. One of his reports says, "My head finally got so stuffed with knowledge that I had to go to Filene's basement and buy a new hat off the Slightly Imperfect table." Also his observation on the New Frontier:

Yale actually has many advantages over Harvard, Bissell admits. For instance, The Yale student does not have to fear the brunt of criticisms leveled at "another crazy Yale man in the White House and all those Yale eggheads around him, because instead of being in the White House all the Yale men are down on Wall Street."

Pull up a chair: 1. All unideal Americans will have at least one thing for which to be thankful on Thanksgiving Day. There's an unwritten rule among disc jockeys that they'll play no Christmas or Santa Claus songs, old or new, until the day of Thanksgiving has passed. 2. In a reminiscent mood, an elderly neighbor observes that you're an old timer if you remember when smoking a cigarette in public caused a school teacher more trouble and grief than being accused of hobnobbing with Communists. Yup, when we were a lad we can remember more than one school committee reprimanding a male teacher for doing that very thing on the ground that cigarette smoking in public was a bad example to youth. 3. And if a female teacher had ever smoked in public—oh, perish the thought! Why, the seething town folks wouldn't even have waited for the school committee to act. They'd have ridden the cigarette-whiffing hussy out of town on a rail. 4. Come to think of it, the sight of women smoking in public was offensive to many even in metropolitan cities. We well remember that in the early 1920s a group of female zealots roamed New York's theatrical district and would snatch cigarettes from the mouths of any women they saw smoking on the sidewalk outside a playhouse between the acts. And now look!

The next time you ladies sample imported perfume remember that American lard made the enchanting scent possible. Pure-type lard is shipped from the U.S. to France where it is used to extract the oil and scent from the petals of jasmains and other flowers for expensive perfumes.

The same finger on which June brides wear their wedding rings was in ancient times called the "medicus," for it was believed that a small artery ran directly from this finger to the heart, and physicians therefore used that finger to stir their potions.

I have never been polled by Dr. George Gallup or his organization nor have I ever known of anyone who met one of his pollsters. The same goes for other poll and survey concerns. The high cost of drinking in bars and hotels has reversed the traffic in the liquor industry. Twenty years ago, 70 per cent of all legal distilled products were sold over the bars and 30 per cent from liquor or package stores. Now it is just the reverse. These figures were phoned to me today by the Licensed Beverage Industries, which compiles the nationwide sales. The tide started to turn in 1948.

Establishments for cleaning upholstery report increased business in the past few years. It seems that youngsters watching television often scuff up furnishings and rugs with their muddied shoes.

ars to which they can retreat and make sure they have a little food and water on hand and they will be armed for the protection of their own lives and their own property.

On the other hand, business may go on as usual. Personally, we will follow this path, attending to our own private business, thinking and writing for freedom, refusing to run to government for anything including protection from a bearded communist gangster who achieves power with the help of our own elected public servants. Good luck and good health to you, in Freedom.

Time For The Two O'Clock Feeding

Edson In Washington Many Soviet Treaties Made, Few Honored

By PETER EDSON

WASHINGTON (NEA) — Great diplomatic care is being exercised to make it appear that any settlement of current disputes between the free and Communist worlds is being handled through the United Nations, with approval of the Warsaw Pact countries on one side, the North Atlantic Treaty Organization and the Organization of American States on the other.

There is no question, however, that President Kennedy and Russian Chairman Nikita Khrushchev are the two principal figures in the Cuba dispute or any settlement coming from it.

Washington experts do not hold to the theory that Khrushchev is a prisoner of his colleagues in the Kremlin, doing only what they direct or approve. He is believed to be making the major Russian decisions himself, moving fast and shifting his position whenever he sees an opening to exploit.

On the other hand, Kennedy made the decision to reject Khrushchev's offer to dismantle Cuban missile bases in exchange for dismantling NATO missile bases in Turkey.

The President also acted fast, answering Khrushchev's letter before it was even delivered. The NATO allies were informed of this action and their approval obtained later.

Similarly, the President ordered the U.S. Navy blockade of Cuba, then got the approval of the OAS Council later.

Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

Question: "There was an important error in an answer to a recent question about unions. It did not ask for the words of a law 'that directly gives the union the AUTHORITY to be an agent or bargain or negotiate for non-members or for its own members.' Certainly it is legal for the union so to do that and it should be."

"The question asked very clearly for words of any law REQUIRING the union to do that. It could have the authority and not violate any law if it refused. But if a law required it to be an agent for anyone, it would violate that law if it refused."

There is a difference between "requiring" and "permitting." We do not believe there is any law making it a crime not to bargain for those who do not want to be represented. We never heard of such a law. Of course, the government uses pressure and penalizes employers who do not comply with the National Labor Relations Board or the so-called "Advisory Committee" selected by the President. While the Taft-Hartley Law and the Wagner Law require the employer to bargain, it does not make it a crime or require him to make a bargain. If they do not bargain in what is called "good faith," that is, make an offer, they are guilty of unfair labor practice. And unfair labor practice can be very costly to the employer. If he is found guilty of unfair labor practice, he might have to pay for all the time the men were off and reinstate them, even if he has employed other people to take their jobs.

No, there is no law that makes it mandatory or a crime if you do not arrive at a bargain, even with the unions, let alone for men who are not members of the union. We know, however, of no pre-

dict contract made by a union that permits individuals to make a bargain at a different rate than the contract made by the union.

We hope we have answered this question without evasion and so it is understandable.

World's biggest power shovel digs coal at a strip mine near Cadiz, Ohio, and can lift 100 tons of earth at a single bite.

Who To Criticize For Foreign Policy

By ED DELANEY

"How long are we going to let Khrushchev call the shots in Berlin and Cuba?" That question from their constituents is causing discomfiture to some senators and representatives who are campaigning for re-election. But it need not. Whether he is Republican or Democrat, he can truthfully reply that, "We'll be letting Moscow dictate to us in both Berlin and Cuba until we purge the State Department."

Republicans may call attention to the regrettable Bay of Pigs fiasco of April 1961, when with the assistance of the U.S. Air Force to protect their landing, the Cuban invaders would undoubtedly have ousted communist Castro. The assistance was promised those freedom fighters and then withdrawn at the critical moment. President Kennedy made that fatal decision. He has admitted his blunder.

The Democrats who are smarting under that criticism may very well strike back with a more than effective counter-attack. They may point out that Castro is the scourge of Cuba and of the United States at present, because the Eisenhower administration is directly responsible for entrenching him there.

That unpleasant truth — for the Republicans at least, is substantiated by two of our former ambassadors to Cuba: Spruille Braden, from 1943 to 1945 and Earl E. T. Smith from July 1957 until the State Department's pro-communist coterie maneuvered to get their modern prototype of Robin Hood firmly established in Havana, January 1959. Ambassador Smith has gone on record as stating that without U.S. help, Castro could not have gained control of Cuba. To climax that, we failed to support the Cuban anti-communists who, in 1961 made a gallant but unsuccessful effort to save what is left of their country.

Both Braden and Smith made it plain to our State Department that Fidel Castro had been active in communist affairs in Colombia for many years. The New York Times writer, Herbert Matthews, was recommended to Smith as the person to "brief" him on Castro. The briefing was laudatory for the communist butcher. This, let us remember was during the Eisenhower administration. Therefore when the Republican Congressman launches a tirade against Kennedy for scuttling the Cuban invasion last year, his opponent on the Democratic ticket can rightly assert that had the Eisenhower administration acted on the advice of our ambassador in Havana, we would not now be worrying about Khrushchev's threats if we blockade his storage in Cuba.

That, of course, simply confirms what many of us have been asserting for years. That the State Department makes the policies and the presidents are their implementers for carrying them out. Ambassador Hill warned that William Arthur Workland in the State Department had in-

fluenced the adoption of a policy favorable to Castro. Braden has stated that the communist domination of Cuba "constitutes a grave threat to our security and that positive remedial measures must be taken immediately."

Some of the "advisers" who agreed with Dean Rusk's opposition to the Cuban invasion last year were Sen. William Fulbright, chairman of the Senate Foreign Affairs committee; Chester Bowles, Adlai Stevenson, Arthur M. Schlesinger Jr., and Walter Rostow, the latter being the one who coined that gem of advice for Mr. Kennedy — "we must do nothing to embarrass the Soviet in the eyes of world."

Rep. Richard Rousebush, Indiana, recently asked that there be a full and complete investigation of the policy making procedures of the State Department, particularly as it concerns communist countries. It is the State Department with its corps of "untouchables" and so-called experts in their chosen field of un-American activities, that is responsible for the greater part of the mess in which we find ourselves. Administrations change may come and presidents may go, but the State Department runs the show.
