Kennedy Says Chamizal Dispute May Be Resolved

WASHINGTON (UPI) — President Kennedy said Wednesday the Chamizal dispute between the U.S. and Mexico is a "black mark" on this country's record that may be erased soon.

"We are close, I would hope, to an agreement," Kennedy said. "I think the next three weeks should tell us whether we can get an accord."

"If we can get a solution, it will wipe out a black mark on the record of the United States (caused) when we refused to accept arbitration claims 40 years ago."

In 1884, the Rio Grande shifted to the south and left a 630-acre chunk of land belonging to Mexico north of the river. Both the U.S. and Mexico claimed the area.

An international arbitration board awarded the disputed area to Mexico in the early 1900s. The U.S. rejected the decision.

"I am very anxious to see it settled," Kennedy said at a news conference. "We have made good progress on it. There are still some questions that will have to be settled, but the prognosis, I would think, is hopeful."

The Chamizal (the thicket) area includes some 83 city blocks, several homes and schools and an El Paso city sewage disposal plant.

The proposed settlement, as explained by U.S. Ambassador to Mexico Thomas Mann, would include ceding part but not all of the Chamizal to Mexico in return for Cordova Island in the middle of the Rio Grande.

The U.S. would dredge a new river channel to divide that part of the Chamizal given to Mexico from the part retained by the U.S.

Scientists To Argue Test Ban Cases

GENEVA (UPI) — The neutral nations at the 17-nation disarmament conference plan to bring in scientists to argue their case for a compromise on nuclear test ban inspections, it was reported today.

Informed conference sources said the eight neutrals will offer a compromise proposal next week calling for five annual on-site inspections to police a test ban.

The neutrals — Brazil, Burma, Ethiopia, India, Mexico, Nigeria, Sweden and the United Arab Republic — scheduled a caucus today to iron out details of their plan for approval by their governments.

The conference has been deadlocked for more than three weeks because the West has demanded seven inspections as the minimum for making a ban foolproof while the Russians will permit no more than three on Soviet territory.

It was considered unlikely that the neutral proposal would be ready for presentation before next Wednesday.

Conference sources said the neutrals will bring a Swedish scientist from the Uppsala seismological station and possibly others to Geneva to explain why five inspections should be sufficient.

PRESIDENTIAL AWARD — George Scott of Pampa, left, is shown as he receives a Presidential Award from State Selective Service Director Col. Morris Schwartz for ten years of uncompensated service as a member of the Selective Service system. The certificate of appreciation was presented at a ceremony in the local SS office at 10 a.m. today. It is signed by President Kennedy, National Director L. B. Hershey and Texas Governor John Connally. Scott, co-chairman and secretary of the local 4-county draft board, has been a member since Jan. 2, 1953. (Daily News Photo)

Stolen Truck Destroyed By Fire Here

City and county law enforcement officers had a theft and arson case on their hands today with the discovery this morning of a panel truck destroyed by fire on the Dunigan Lease, five miles southeast of Pampa on the Lefors Hwy.

Pampa police received a call at 8:35 a.m. from Harold K. Russell, 1001 E. Browning, who reported that his 1956 Dodge panel truck had been stolen from in front of 213 Ann St. sometime during the night.

Five minutes later, Deputy Sheriff Shirley Nichols said Gerald Marlan, an employe on the Dunigan lease, reported to the sheriff's office that he had discovered the burned truck when he came to work. The car was still smoking, Marlan said.

Police Captain Denny Rean, Texas Ranger Bill Baten and Deputy Nichols went to the scene.

Police expressed the theory that the truck was stolen and looted of a quantity of tools and then taken to the spot on the lease and set on fire.

Twenty Texas Housewives Try For Mrs. America

NEW YORK (UPI) — Twenty Texas housewives are among semifinalists in the 1963 Mrs. America contest including Mrs. Dave Alsbury, 1306 Kentucky Ave., Mrs. Walter Light, 300 Argyle St., and Mrs. James Culum, 130 Magnolia Drive, all of San Antonio.

Other Texas semifinalists include Mrs. Clyde H. Thornton Jr., 10740 Lathrop Drive, Dallas; Mrs. Edgar Brown, 265 Edith Drive, El Paso, and Mrs. Mark Anthony, 4507 16th St., and Mrs. Travis Hammer, 3513 58th St., Lubbock.

Gov. Faubus Says Arkansas Pilots Were Recruited

LITTLE ROCK, Ark. (UPI) — Gov. Orval Faubus accused the federal government Wednesday of secretly recruiting Arkansas National Guard pilots of the 1961 Cuban invasion and then "betraying" them.

Some of them flew in combat and one Air Guard plane was shot down, Faubus said.

Brig. Gen. Frank Bailey, chief of staff of the Arkansas Air National Guard, said he did not know what Faubus was talking about. But he added the Arkansas Air Guard "did not have any planes involved."

The Defense Department in Washington declined comment. Bailey said, however, that Faubus may have some information he does not have. He said he did not want to put himself in the position of either denying or confirming what the governor said.

Faubus did not say who recruited the pilots. He said he knew at the time of the invasion that Arkansas Air Guard pilots were involved, but could say nothing at the time.

"These patriotic Americans were led to believe that this enterprise had not only the blessing but the full support of the federal government," he said. "We all know what happened at the Bay of Pigs. This whole thing is a disgrace in American history. They tried to recruit some men in the north and couldn't do it, so they came down to the south where they still have some patriotism and got some volunteers among the National Guard."

JFK Trying To Solve His Own P-R Problem On Tax Legislation

WASHINGTON (UPI) — President Kennedy is trying to solve a public relations problem which he helped create for himself and the Democratic Congress.

After insisting for weeks that need for a big cut in income taxes "overshadows" all other legislative proposals this year, Kennedy is now stressing the importance of some of his new spending programs.

His aim, apparently, is twofold. He wants to avoid risk that some of these measures might be defeated as a result of budget cutting sentiment unleashed by his proposed tax-cutting program.

The President also wants to build up the importance in the public mind of these other programs so that he and Democratic leaders will have something to crow about when, and if, they are enacted.

It will be a long time — possibly not until fall — before Congress completes action on Kennedy's tax-cutting program. The final product is certain to be considerably different from that which he recommended.

At his news conference Wednesday the President set out to upgrade in the public mind the importance of some other legislative programs on which prospects for favorable action are closer at hand.

Pampan Dies In Auto Crash

Dempsey D. McBride, 27, Pampa, an employe of Groninger and King Construction Co., died last night in a Garden City, Kan., hospital of injuries suffered in a one-car auto accident west of Garden City, Kan.

Another Pampan, Don R. Galaher, 1023 Varnon Dr., riding with McBride, was only slightly injured when their car overturned on a curve about 15 miles west of Garden City.

The two Pampa men were working out of the Groninger and King office at Laken, Kan., about 30 miles west of Garden City.

Officials in Garden City said the two men apparently were on their way back from Garden City where they had gone for dinner.

McBride, whose home town is at (See PAMPAN, Page 3)

Folk Music World Mourns Death Of Three Singers

NASHVILLE, Tenn. (UPI) — "This is the saddest news I have ever had to give you."

The somber tone of the announcer's voice startled early morning listeners of Nashville radio station WSM, a 50,000-watt outlet heard through much of the South.

His voice catching, the announcer Wednesday reported the deaths of "Grand Ole Opry" stars Patsy Cline, Cowboy Copas and Hawkshaw Hawkins in a private plane crash that also killed the pilot, Randy Hughes. The plane slammed into woods near Camden, Tenn., Tuesday night while returning the folk and western music stars from a benefit in Kansas City.

It was the second mishap recently to touch the "Grand Ole Opry" show, a Saturday night tradition in the country music world for the past 37 years. Several weeks ago, Ira Louvin of the Louvin Brothers was shot during a family argument. He is recovering and is expected to rejoin the show soon.

The plane crash caused shock and grief in Tennessee and the folk music world. Gov. Frank Clement called the deaths a "great professional (and) personal loss." The Tennessee legislature interrupted its session to stand in a moment of silent tribute.

Copas, probably best remembered for his recording of "Alabama," had been a performer on the WSM program since its early days. Hawkins and his wife, Jean Shepherd, had been regulars for the past eight years. Miss Cline, although a relative newcomer, was voted the "outstanding female vocalist" by publications in the country and western music field.

Hughes, Copas' son-in-law, was Miss Cline's manager. While mourning the loss of "three of our finest people," Mrs. Trudy Stampler, public relations director for the "Grand Ole Opry," said the show would be broadcast as usual over WSM Saturday night.

The bodies of all four victims were to be brought to Phillips-Robinson funeral home here. A prayer service was planned at the home today for Patsy Cline, and she will be buried in Virginia.

Services for Hughes and Copas were planned for Friday morning with services for Hawkins that afternoon. They will be buried at Forest Lawn cemetery near Goodlettsville, Tenn.

DeGaulle, French sources said, sees no possibility of a get-together between him and Kennedy until there are major changes in U.S. policy. They said no French policy changes were likely because De Gaulle has already made up his mind on key issues.

The French president was said to feel that the most glaring issues now poisoning U.S.-French relations are the Common Market and the nuclear problem.

At Least Six Perish, Hundreds Flee Homes

NORWICH, Conn. (UPI) — An earthen dam burst without warning late Wednesday night, flooding four square miles of this city of 40,000 in waters up to 12 feet deep.

At least six persons were killed. Many more were injured. Hundreds were forced to flee their homes as ice filled, black waters of the dam's two-acre Spalding Pond cascaded down on them.

The surging torrents collapsed buildings, tumbled autos as if they were toys and did millions of dollars in damage.

Thomas Moody was driving with his wife, their three young sons and a friend, Anthony Orsini, when the water rushed down the street and overturned their car.

"We all climbed out and got into a tree," Moody said. "Then I looked around and my wife was gone."

Mother Found Dead Mrs. Moody's body later was found near the wrecked car. Their sons, Thomas, 6; James, 4; and Sean, 10 months, were injured and hospitalized.

The water, carrying chunks of ice weighing more than a ton, coursed along the narrow streets, smashed plate glass windows and roared through homes.

Waters of Spalding Pond, normally up to 18 feet in depth but swollen by heavy rains and melting snow, broke through the Mohagan Park dam at about 10 p.m. Police said cracks had been reported in the 20-foot high dam Wednesday afternoon.

From the park, which is situated on high ground in the northwest part of the city, the waters surged down streets and sidewalks, spinning cars around and splashing into hundreds of homes and business establishments.

Widespread power failures plunged the stricken area into (See DAM BURST, Page 3)

Divorce Turned Down

LONDON (UPI) — Mr. Justice Faulks agreed Wednesday that John Hutchinson should have remained a bachelor but said Hutchinson's preference for his television set over having children was insufficient grounds for granting his wife a divorce.

Rep. Powell's Budget Gets Giant Slash

WASHINGTON (UPI) — The dust was settling today over the wreckage of Chairman Adam Clayton Powell's million-dollar plan for the House Education and Labor Committee. The casualty list was still incomplete.

The House, without a fight or a record vote, Wednesday gave the Education and Labor Committee \$200,000 to finance its 1963 investigations and subcommittee operations.

This was a far cry from the \$697,000 budget Powell originally asked for a two-year period. His request, plus about \$30,000 available to every committee each session for professional staffs and clerks, would have put Powell's committee close to the \$1 million class.

The committee spent about \$928,000 in 1961-62. Actually, Powell's committee never had a chance to make the million mark. The House this year squelched all two-year budget requests, reducing education and labor to a one-year request for \$348,500.

Then the cutting started in earnest, with a final slash of \$148,500 or 42 per cent, in Powell's request. As if to insure the controversial Negro congressman got the message, his colleagues earmarked \$150,000 of this remaining funds for Powell's six education and labor subcommittee chairmen.

If it comes from a hardware store we have it. Lewis Hdw. (Adv.)

GRAND CHAMPION HEREFORD HEIFER — The Grand Champion Heifer of the Top O' Texas Hereford Breeders Show is shown with the buyer, Weldon Rae, left, of Bushland; breeder F. Jake Hess of McLean, center, and exhibitor Darrel Herdon, of McLean. The heifer sold for \$550. (Daily News Photo)

Sales Are Over \$56,000 As Stock Show Closes

Total receipts of \$56,527.95 for 264 animals were chalked up in two sales yesterday to wind up the three-day Top O' Texas Livestock Show at Recreation Park.

Last year's sales totaled \$56,896.88. In the Hereford Breeders Show, 50 bulls sold for \$24,510, an average of \$490 each. Eight heifers brought \$2,830, an average of \$354 each.

The 58 Herefords sold for a total of \$27,360 to average \$472. The Grand Champion Hereford bull was sold to R. A. Flowers of Miami for \$1,000. Ralph Hale of Perryton bought the Reserve Champion bull for \$1,500. The top-selling bull in the show was CM Onward Randolph 2, consigned by Clyde J. Magee of McLean, and sold to Bill Breeding of Miami for \$1,700.

The Grand Champion heifer in the Hereford Show was sold to Weldon Rae of Bushland for \$550. The Reserve Champion heifer was bought by Cameron Gault of Hereford for \$520.

Total sales in the Junior Livestock Show were \$29,167.95. Calves accounted for \$20,473.46 and pig sales totaled \$8,694.49. Seventy-six calves and 130 pigs were sold.

Lonny Brown of Pampa sold his 990-pound Grand Champion fat calf at \$1 a pound to Coronado Inn in Pampa.

The Independent Insurance Co. of Pampa paid 74 cents a pound for the 849-pound Reserve Champion fat calf entered by Douglas McGarrough of Perryton.

Spirited bidding ran the sale of the Grand Champion pig, owned by Kenneth Nickel of Pampa, to \$1.65 a pound. The 211-pound pig went to Ideal Food Stores for \$348.15.

Keith Yarnold of Canadian sold his 204-pound Reserve Champion pig to the Canadian Production Credit Ass'n for 60 cents a pound.

Pigs sold for an average of 32.8 cents a pound and \$66.88 per pig. Calves averaged \$314.97 per calf and 35 1/2 cents a pound. Scramble calves sales totaled \$2,908.70 and averaged \$24.43 per calf and 34 1/2 cents a pound.

GRAND CHAMPION HEREFORD BULL — The Grand Champion Bull of the Top O' Texas Hereford Breeders Stock Show is shown by the breeder J. P. Calliham, of Conway, Texas. The champion sold to R. A. Flowers Jr. of Miami, Tex., for \$1,000. (Daily News Photo)

Foreign News Commentary

By WELLINGTON LONG
United Press International
WASHINGTON (UPI) — The main reason now for insisting upon on-site inspections in any nuclear test ban treaty with Russia is to convince Congress and the American public that the Soviets will not be able to cheat.

This consideration outweighs any real worry among U.S. negotiators that the Russians could carry out significant testing secretly if on-site inspections were not included in the treaty.

American experts, it was learned, now estimate there are less than 50 underground noises a year inside the Soviet Union which they are unable to identify at long distance without on-site inspection.

William C. Foster, director of the U.S. arms control and disarmament agency, says that even if some of those unidentified noises are caused by clandestine nuclear test explosions, they would not imperil American security.

Foster told the House Republican Conference Committee on Nuclear Tests early this month that "clandestine, underground testing would be unsatisfactory" for the type of Russian testing that would be dangerous to the United States.

At the time Foster made the statement, the government still insisted the Western powers have the right to make eight or ten inspections of suspicious events in the Soviet Union each year.

But he told the Republicans "that a smaller number of on-site inspections would constitute an adequate deterrent."

Leading the American delegation to the 18-nation disarmament conference in Geneva, Switzerland, Foster has since cut that figure of in-site inspections to seven. He has warned, however, they must be conducted in conditions which permit a true international search of the area in which an otherwise identifiable noise has been recorded.

IT'S THE LAW in Texas

FUGITIVE

In recent years, encouraged by easy travel, a number of people in trouble with the law have skipped out and gone abroad. The law, or rather the lack of law, also serves to make such a trip attractive. For international extradition is rare, and world-wide extradition has not yet caught up with the jet age.

When a fugitive runs to another state, extradition is fairly easy. One governor asks the governor of the other state to send the fugitive back home for trial. After a short hearing, the governor usually does this.

But when fugitives flee abroad, international treaty governs extradition. If our treaty with the foreign country fails to cover the offense, extradition may not be possible since each country may interpret treaties in its own way.

One rule most often applied is that of "double criminality" by which the offense must be a crime in both the requesting and the asylum nations. Many countries, especially underdeveloped ones, do not deal with the same kinds of "business crimes" that we do. Everywhere murder and robbery are crimes; but not violations of banking laws, or other kinds of business regulatory crimes and taxes.

Many countries do not extradite for political crimes, but may grant asylum. In one case Russia sought to get its hands on an escapee charged with murder and a robbery which occurred in connection with a political uprising. The U.S. turned down the request claiming the charge was "political in character."

In 1934 Germany sought to extradite a Jew for criminal trial. Again the U.S. refused because the Jew would not be likely to get a fair trial.

(This newsfeature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

CAR SEATS STOLEN

LOWELL, Mass. (UPI) — A Lowell Technological Institute student told police Tuesday night someone broke into his parked foreign car and stole the front and back seats.

Rotary Observes School Week TV In Review

Joining in the observance of Texas Public School Week, the Pampa Rotary club held their regular weekly luncheon meeting yesterday at Horace Mann Elementary school.

Members were served the regular school menu in the cafeteria and then adjourned to the auditorium for their business meeting and program.

The program was presented by Horace Mann students, who enacted a play entitled "Our American Heritage," in conjunction with the school choir which sang several numbers.

Sam Bergert, Horace Mann principal, welcomed the club members to the school and introduced the program.

Dam Burst

(Continued From Page 1)

darkness. State troopers rushed to the scene with emergency lighting equipment and stood guard at stores to prevent looting.

Damage was estimated at many millions of dollars, and the greatest since a hurricane hit Norwich in 1938.

The frigid floodwaters, which stood 12 feet deep at some points during the night, touched off several boiler and furnace explosions.

Second Boiler Explodes

Another boiler explosion at the J. B. Martin Co., another mill, started a fire that raged out of control for hours.

For hours it was feared that a second dam, on the Shetucket River in the Occum section of Norwich, might break under the pressure of high water and ice floes. Flood gates were frozen and could not be opened to relieve the pressure, but police today said the threat had passed.

Four hours after the park dam split, city police Capt. James C. Casey said, "the water is receding nicely. But there's a lot of ice, rocks and debris. It's going to be some time before they clean it up." Much of the water spilled into the Thames River.

Included in the debris were several metal septic tanks which the waters deposited in the downtown district. Dr. Lewis Sears, Norwich health officer, said the tanks posed the threat of disease and declared the area in a "state of emergency."

Police Chief Clarence D. Simpson said no one would be allowed in the area until all the streets had been washed down with chlorine and clean water.

Class Plans Program For TSTA Meet

Miss Mary Reeve's second grade class of Horace Mann Elementary School of Pampa, will entertain teachers assembled in Amarillo tomorrow for the District Nine meeting of the Texas State Teachers Association.

Miss Reeve said that her class would do a program on "Creative Rhythms" for the second grade teachers of District Nine.

The day-long meeting will be held in the Amarillo municipal auditorium.

Miss Reeve's class presentation will be given during the afternoon sectional meeting.

Pampa schools will all be closed for the day, and about 290 teachers are planning to attend the session.

Ray Schultz of White Deer, president of the district association, will preside over the meeting.

Principal speakers for the morning session will be Dr. Ruth Stout, assistant secretary for professional relations in Topeka, Kans., and a member of the Kansas State Teachers Association; and Dr. Walter Kerr of Tyler, executive director of the Youth Crusade for God and Freedom.

Dr. Stout will speak on "Who Shall Be Excellent," and Dr. Kerr's topic will be "A New Goal in Educational Excellence."

Police Chief To Return Prisoner

Police Chief Jim Conner today was making arrangements to return a prisoner from Quanah to face a charge of Driving a vehicle without the owner's consent.

Chief Conner said a warrant had been issued for Jerry D. Stewart, 22, of 535 S. Somerville, who reportedly drove away two nights ago in a car belonging to W. H. Winborn, 617 Lowry.

Police said Winborn's son, Craig and Stewart had been together and stopped in a cafe. Stewart, according to Winborn, left the cafe and drove off in the car.

Pampa police received a call from the sheriff's office at Quanah that Stewart walked into the office there and gave himself up yesterday.

OLDEST COMMUTER DIES

CAMBUSLANG, Scotland (UPI)—James Wylie, 85, Scotland's oldest railway commuter, died Wednesday—less than a month after receiving a free one-year pass from the British railways.

Rites Set For George T. Day

Funeral services for George T. Day, 220 W. Craven, will be held at 2 p.m. Saturday in Du Enkel-Carmichael-Funeral Chapel with the Rev. Wallace Shelton of Wichita Falls, Baptist Church pastor, officiating.

Mr. Day, born Feb. 15, 1890 in Kaufman, died at 12:55 a.m. today in Highland General Hospital. He moved to Pampa in 1928 from Delhi, Okla.

For a number of years, Mr. Day operated a produce market on South Cuyler. At one time, he and his son had the Veterans' Taxi Co. in Pampa.

Survivors are his wife, Emma; one daughter, Mrs. J. L. Nipple of Liberal, Kan.; two sons, Ancil T. of Fort Worth, Nelson L. of Pampa; nine grandchildren and six great-grandchildren.

Pallbearers will be John Mounce, Leslie Matlock, Gary Cady, Charlie Spencer, Sy Bowers, Dwight L. Day, Bobby Gilchrist, a and George Murphy.

Interment will be in Fairview Cemetery.

Installment Plan May Be Used For Campaign Pledge

Pledges to Pampa's new \$300,000 Community Nursing Care Home Fund may be paid on the installment plan, Campaign Chairman Arthur Teed said at Wednesday's committee report meeting.

"The installment pledge plan needs to be thoroughly understood, because it's an important part of the campaign," Teed said. "It should be known as widely as possible, and it is a good plan. Americans have been using it successfully for years."

Here's how the installment pledge plan works:

Number 1 — Pay ten per cent down, and the balance in eleven quarterly payments.

Number 2 — The second payment will be due in June or July, three months after the pledge card was signed.

Number 3 — Pledge installments may also be paid on a monthly

Municipal Court Docket

James D. Meeks, 612 Brunow, passing in school zone, guilty fined \$15.

James D. Hale, 615 E. Campbell, muffler violation, guilty, fined \$5.

Lon K. Griffith, 1218 Mary Ellen, improper left turn, guilty, fined \$10.

Clairence W. Walls, 1263 Christie, disobeying red traffic signal, guilty, fined \$10.

Roger D. Petty, Allison, Okla., left turn on red light, guilty, fined \$10.

Jackie L. Taylor, 1025 S. Farley, unsafe change of traffic lane, guilty, fined \$15.

or semi-annual basis until fully paid.

The campaign is moving along well, Teed said. The total is now \$49,000, and the figures are expected to go up steadily from now on as workers contact more and more firms and individuals, he added.

The next Executive Committee pledge report meeting is set for 4 p.m. tomorrow in the Court House Cafe.

Dill Birds Are Tempting New Twist To Old Recipe

A few new twists to cooking the family's best-loved meat cuts will certainly give a lift to meals. In most households round steak is a real favorite for its hearty beef flavor and deep down appetite satisfaction. This time let's try to surprise the family by shaping individual servings into "beef birds," the name given to rolled and stuffed round steak.

The first bite of these Beef Dill Birds reveals a stuffing of dill pickle and bacon. The flavor is tangy and so delicious, for the dill pickle liquid is used for braising the birds.

You can prepare an especially tasty sauce for serving with the meat by thickening the cooking liquid and mixing in dairy sour cream and chopped parsley. Pour some over the birds and place the remainder in a sauce dish on the side. It's delicious on potatoes, too.

For beef birds, purchase round steak cut about 1/2 inch thick. Then pound flour, salt and pepper into the steak until it is 1/4 inch thick, using a meat hammer or the edge of a sturdy pie pan. The pounding will have some tenderizing effect.

Here's a cookery pointer to always keep in mind. Round steak is considered to be a less-tender cut of meat and cannot be broiled like porterhouse, sirloin and rib steaks. Round steak requires moist heat cooking to develop flavor and tenderness.

BEEF DILL BIRDS
1 large or 2 small beef round steaks, cut 1/2 inch thick
1/4 cup flour
1 teaspoon salt
1/4 teaspoon pepper
3 slices bacon, cut in half
3 medium dill pickles, cut in half lengthwise
2 tablespoons lard or drippings
1/4 cup water

Combine cheese and milk in saucepan over low heat. Add mushroom soup while stirring. Mix in pepper, Worcestershire sauce, and horse-radish. Serve hot in dish with crackers for dipping.

"He-Man Dip" Real Pleasing To Palate
Here's a real "He-Man Dip" that just might please the palates of the ladies present at your next party!

HE-MAN DIP
Yield: 1 1/2 cups
1/2 cup shredded cheddar cheese
3/4 cup milk
3 tablespoons mushroom soup
1/2 teaspoon black pepper
1 1/2 teaspoons Worcestershire sauce
2 tablespoons prepared horse-radish
Crackers

Combine cheese and milk in saucepan over low heat. Add mushroom soup while stirring. Mix in pepper, Worcestershire sauce, and horse-radish. Serve hot in dish with crackers for dipping.

Sour Cream In Place Of Shortening Adds Deliciousness To Dinner Rolls

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Home-baked rolls make any dinner seem particularly special. Making them does take a little extra time. But the aroma, tenderness and pleasure they give, repay the homemaker several fold.

These rolls are made much like ordinary yeast rolls, except that sour cream is used in place of the butter or shortening and milk. No milk to scald! Also, the slight crunchiness of corn meal and its corn flavor add welcome texture and taste variations.

SOUR CREAM YEAST ROLLS
(Makes 3 dozen rolls)
1 cake compressed or 1 package dry yeast
1/4 cup lukewarm water
1 pint dairy sour cream
1/4 cup sugar
2 teaspoons salt
3 1/2 to 4 cups sifted all-purpose flour
1 cup enriched corn meal
Soften yeast in lukewarm water. (Use warm water for dry yeast.) Combine sour cream, sugar and salt in large-sized bowl. Beat in 1 cup flour, softened yeast

and corn meal. Stir in enough additional flour to make a soft dough.

Turn out on lightly floured board or canvas; knead until satiny, about 10 minutes. Round dough into ball; place in greased bowl; brush lightly with melted shortening. Cover; let rise in warm place until double in size, about 2 hours.

Punch dough down; turn out on lightly floured board or canvas. Cover; let rest 10 minutes. Shape dough to form bowknots, twists, rosebuds, fan tans, clothespin rolls or clover leaf rolls.

Place on ungreased cookie sheets or in greased muffin cups. Brush with melted shortening; cover and let rise in warm place until double in size, about 45 minutes. Bake in preheated moderate oven (375 degrees) about 20 minutes or until golden brown. Brush lightly with melted butter.

One-half cup of mashed potatoes added to the butter and sugar when making a cake will slow the cake's drying.

LOVELY shades of green and a good flavor make this molded avocado loaf a perfect choice for St. Patrick's Day.

Lovely Shades Of Green Make This Perfect Choice For Shamrock Party

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Lovely shades of green — plus good eating — make this special St. Patrick's Day loaf a perfect party choice.

MOLDED AVOCADO AND TUNA LOAF ERIN
(6 to 8 servings)
1 package lime-flavored gelatin
1 1/4 cups boiling water
1 cup mashed avocado (one)
3 drops green food coloring
3 drops yellow food coloring

1 (7-ounce) can of tuna, flaked
1 tablespoon chopped pimiento
1 tablespoon lemon juice
1/4 cup chopped green pepper
1/4 teaspoon celery seed
1 tablespoon creamy French dressing
1/4 teaspoon seasoned salt
1/4 cup mayonnaise or salad dressing
3 tablespoons soft butter or margarine
8 slices enriched bread

Combine gelatin and water; let cool until slightly set; add mashed avocado, blending well with a rotary beater. Pour 1/2 cup of the gelatin mixture into oiled (1/2 quart) loaf pan. Chill until firm. Combine tuna, pimiento, lemon juice, green pepper, celery seed, French dressing, seasoned salt and mayonnaise. Make 2 (4-layer) sandwiches, using soft butter on bread and 1/4 cup tuna filling in each layer.

Trim off crusts and place sandwiches next to each other in the center of the loaf pan on top of gelatin layer. Pour remaining gelatin mixture around and over sandwiches. Refrigerate until firm. Unmold and garnish loaf with 3 slices of hard-cooked eggs and a green-pepper ring to simulate a shamrock. Edge bottom of loaf with white or yellow softened cream cheese piped through a pastry tube.

When fixing study areas in the home, keep desks and table surfaces dull and light colored. This will add to the available light for reading.

Hearty Bean Dishes Provide Sturdy Meals For Those Fast Track Men

Fast track men — all active teen-agers want sturdy, filling and good-tasting snacks and meals every day. We think these suggestions, using canned beans and beef, will fill the bill every time.

HEARTY BOWL
(2 to 3 servings)
1 can (1 pound) beans and ground beef in barbecue sauce
1/2 cup sliced boiled onions
1/2 teaspoon leaf-oregano, crushed

In saucepan, combine ingredients. Heat, stirring now and then. **ITALIAN BEANS AND GROUND BEEF**

(2 to 3 servings)
1/2 cup thinly sliced zucchini
1/2 teaspoon garlic powder
1/2 teaspoon leaf-oregano, crushed

1 tablespoon butter or margarine
1 can (1 pound) beans and ground beef in barbecue sauce

In skillet, cook zucchini, garlic and oregano in butter until zucchini is lightly browned and tender. Add beans and ground beef. Heat, stirring occasionally.

FAVORITE BEANS
(2 to 3 servings)
1 tablespoon butter or margarine

Wild Rice Stuffing Adds Glory To Fowl

That wild game that hubby bagged and brought home in great glory, can gain added prestige with this Wild Rice Stuffing:

WILD RICE STUFFING
Yield: about 1 1/2 cups (enough for 4 pound chicken)
1-3 cup uncooked wild rice
2 tablespoons butter or margarine

1/2 cup chopped celery
3 tablespoons chopped onion
2 ounce can mushrooms, chopped
1/4 teaspoon salt
1/4 teaspoon poultry seasoning
Dash of pepper

Prepare wild rice as indicated on the package. Melt butter in a skillet. Sauté celery, onion, and mushrooms. Add wild rice, salt, poultry seasoning, and pepper. Fill neck and body cavities of chicken with stuffing just before roasting.

ground beef in barbecue sauce. In saucepan, melt butter. Add caraway seed and cabbage; toss lightly to coat with butter. Add water. Cover; cook over low heat about 3 minutes or until cabbage is just tender but still crisp. Add beans and ground beef. Heat, stirring from time to time.

Canned Beans Make Southwestern Specialties Easy

In some areas of the Southwest, beans or "frijoles" are more important to cuisine than tortillas, many times being served at every meal starting with breakfast.

Beans have long been a favorite food throughout the world, easily grown, high in protein, with "delicious" flavor, beans satisfy children and adults of all nationalities. Due to this extreme popularity, they were one of the first foods to be canned.

From our "south of the border" neighbors comes a quick bean dish with real he-man appeal. A can of barbecue beans plus sausage, cheese, and green pepper makes a meal that's straight from the chuckwagon. To go along, cornbread sticks or crusty rolls, tossed salad, and lots of milk and coffee.

Chuckwagon Beans
1/2 pound sausage links
1/2 cup chopped green pepper
1 can (1 pound) barbecue beans
3 tablespoons grated Parmesan cheese

In saucepan, cook sausage; remove, drain and cut into 1/2 inch pieces. Pour off all but 1 tablespoon drippings; add green pepper and cook until tender. Stir in beans, sausage, and cheese. Heat, stirring now and then. Makes 2 to 3 servings.

'Sunny-Side Up' Name For Springtime Menu

"Sunny-Side Up" describes a colorful egg 'n spinach casserole brimming with good cheddar cheese and oh so easy to prepare. Crisp relishes, hot rolls, a baked apple and beverage complete a tasty and satisfying lunch with a minimum of kitchen time required.

Refrigerator storage is best for cheese. Unopened, the original wrapper provides suitable protection. After part of the package has been used, the cheese should be covered tightly with aluminum foil or tight fitting transparent wrap and returned to the refrigerator. The old idea of wrapping cheese

in a vinegar soaked cloth is not recommended. Although the vinegar may hinder growth of mold on the surface of the cheese, the vinegar flavor may be absorbed by the cheese. To enjoy cheese at the peak of quality and flavor, it should be used within 2 weeks.

Freezer storage of cheddar cheese is not recommended because flavor and texture changes take place at this low temperature.

EGG 'N SPINACH CASSEROLE
Yield: 4 servings
1 cup shredded cheddar cheese
10 1/2 ounce package frozen chopped spinach
2 tablespoons butter or margarine
2 tablespoons chopped onion
2 tablespoons flour
1/2 teaspoon salt
1/4 teaspoon pepper
1 teaspoon Worcestershire sauce
1 1/2 cups milk
2 ounce can mushrooms, chopped
4 eggs

Cook spinach according to directions on package. Melt butter in a saucepan. Add onion and cook about 5 minutes. Blend in flour, salt, pepper, and Worcestershire sauce. Gradually add milk, stirring constantly, until sauce is thick and smooth. Stir in cheese and mushrooms. Add spinach to sauce and pour into 8 inch square baking dish which has been rubbed with butter. Break eggs on top of spinach mixture. Bake in a moderate oven (350 degrees F.) about 20 to 25 minutes or until eggs are cooked. Serve hot.

VEGETABLE RAREBIT
Yield: 6 servings
1/2 pound shredded cheddar cheese
10 1/2 ounce package frozen broccoli spears
2 tablespoons butter or margarine
1/2 teaspoon dry mustard
5 teaspoons flour
1/4 teaspoon paprika
Dash cayenne
1 cup milk
1 teaspoon Worcestershire sauce
4 ounce can mushrooms, drained
6 puff pastry shells

Cook broccoli according to directions on package. Drain and cut into bite-sized pieces. Place butter in top of double boiler. Melt over hot water. Blend in flour, mustard, paprika, and cayenne. Slowly add milk and Worcestershire sauce. Cook and stir until smooth and well thickened. Add cheese. Heat until cheese melts. Blend in broccoli and mushrooms. Serve hot in puff pastry shells.

LIFTED FROM TREES — A U.S. helicopter lifted Tom Page, 15, left, and his friend Charles Henderson, right, from trees along the Little Miami River near Dayton, Ohio. The two boys were attempting to rescue a neighbor's cow when they became trapped by high water. They spent about 10 hours in the trees. (NEA Telephoto)

Austin Backdrop

By VERNON SMYLYE

AUSTIN — The majority rules. That's a fundamental principle. You've heard it hundreds of times. It is woven into the fabric of our American system of government. You might even say it typifies the spirit of democracy.

But there is one thing about majorities you have to remember. They aren't all alike. They come in different sizes and shapes. The simple majority — the one that requires barely more than 50 per cent concurrence — is just the starter. Other majorities require higher levels of agreement — levels ranging upward to 100 per cent.

It takes, for example, a two-thirds majority of the Texas Senate to approve the appointment by the governor of a regent to the University of Texas. Last week when former Texas Supreme Court Justice St. John Garwood failed to get such a majority — a roar of protest went up. There were suggestions that a Senate minority, meaning fewer than half of the senators, had blocked the appointment. That may or may not have been. Since Senate rules require the consideration of appointments in private and forbid outside discussion of what takes place in such sessions, only the senators know with certainty what the vote was and whether a majority or minority turned thumbs down.

But suppose that fewer than half of the senators were responsible for Garwood's rejection. Does that mean the democratic process was trampled or circumvented? Not at all. Our governmental structure is sprinkled with situations in which the right of a minority to reject is just as well established and carefully protected as the right of a majority to rule. Although it frequently is overlooked, this — like the division of executive, legislative, and judicial authority — is a vital part of our basic system of checks and balances.

It takes a two-thirds vote of both houses of the Congress or approval by two-thirds of the state legislatures to initiate an amendment to the U. S. Constitution. The proposed amendment then must be ratified by three-fourths of the state legislatures or by conventions in three-fourths of the states.

Thus the most basic law in the United States upholds the right of a minority of 13 state legislatures or 13 state conventions to block a matter that might be favored by 37 legislatures or conventions plus the entire U. S. Congress. This right is recognized, provided for, and regarded as proper.

It takes a two-thirds majority of the total membership of both the Texas House of Representatives and the Texas Senate to set an amendment to the Texas Constitution in motion. Since the House has 150 members, that means 100 favorable votes are required. In

the Senate, 21 of the 31 senators must vote their approval.

The requirement of a high level of concurrence before action can be taken is especially noticeable in our system of justice. All 12 members of a trial jury must agree before a verdict can be rendered. The dissent of one juror is considered of sufficient importance to stay action. In grand jury proceedings, a difference of opinion on the part of our members is considered adequate ground for blocking an indictment by the other eight members.

Even certain types of bond elections voted upon by the people require a two-thirds majority. The right to reject of any number totaling more than one-third of the persons casting ballots is acknowledged.

The list of examples could be extended to book length. That, of course, doesn't lessen the sting that naturally exists when an appointment is rejected and it has no bearing on the question of whether Garwood should or should not be a University of Texas regent. It simply means that the right of rejection by a fractional minority specified by law is an established principle of American governmental procedure and should not be overlooked.

U.S. Accused Of Giving Germany Nuclear Weapons

GENEVA (UPI)—The Soviet Union has charged the United States with disrupting nuclear test negotiations in order to equip West Germany with atomic weapons.

Soviet negotiator Semyon K. Tsarapkin said it was "obvious" the United States was not prepared to reach agreement since its foreign policy "is aimed at the nuclear armament of Germany and the creation of a NATO multilateral nuclear force."

"Though practically disrupting negotiations," he charged, "the United States does not want to accept responsibility for this, but procrastinates and attempts to complicate negotiations."

Tsarapkin's angry speech followed a United States appeal to the Soviets to drop the "numbers game" in the negotiations in favor of parallel talks on both the number of inspections and the technical details of them.

U. S. Ambassador Charles C. Stelle told the 17-nation conference that the fundamental requirement to break the nuclear deadlock is some flexibility on the part of the Russians "to match Western reasonableness."

House Passes Island Bill On 2nd Reading

AUSTIN (UPI)—The House passed on second reading today a revised version of the Senate-approved Padre Island national seashore bill, moving the proposal closer to a conference committee where differences will be worked out.

The Senate bill tentatively approved today in the House now is identical to the House bill which received final passage two weeks ago.

Rep. Menton Murray of Harlingen, sponsor of the House bill, explained that the House State Affairs Committee substituted the House-approved bill for the Senate version and sent it to the floor.

The proposal, after final passage Thursday, will be sent to a conference committee to work out differences in the House and the Senate versions.

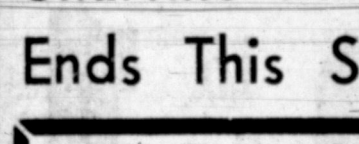

Sen. Bruce Reagan of Corpus Christi said a week ago that the House version has a reverter clause which he will refuse to accept.

This proposal, which likely would also meet disfavor in Washington, is an amendment tacked on the House bill by Rep. Bill Hollowell of Grand Saline to give Texas exclusive criminal and civil jurisdiction within the national park.

Hollowell insisted on putting the amendment on the House bill when he warned members that persons from their areas who visited the park "will be under the jurisdiction of Bobby Kennedy and his crowd" without the amendment.

Reagan's bill, as passed by the Senate, gives the state and federal government concurrent, or joint jurisdiction over civil and criminal matters in the park area.

matter of fact

The term "combine" is in popular use throughout Great Britain and the Dominions as a synonym for what is more commonly spoken of in the United States as a "merger." This is a large concern resulting from the permanent combination of a number of smaller concerns in the same line of business.

© Encyclopaedia Britannica

Short Order Cook Admits Killing Teenage Housewife

LAREDO, Tex. (UPI)—A 230-pound 19-year-old short order cook, arrested after losing a high speed automobile race for the Mexican border, today confessed the killing of a teen-aged Dallas housewife.

Laredo police and the U.S. Border Patrol arrested Carl J. Hackathorn late Tuesday night after his stolen car hit a tree.

He was wanted for beating and shooting to death Mrs. Bobbie Smith, 18. Her body was found in an alley Tuesday. About the same time, Mrs. Smith's two-year-old daughter Teresa Ann was found nearby in the cold cab of a pickup truck.

Teresa Ann was holding a half-filled bottle of milk, shivering, pointing down a street and saying, "Mama."

House Passes Island Bill On 2nd Reading

AUSTIN (UPI)—The House passed on second reading today a revised version of the Senate-approved Padre Island national seashore bill, moving the proposal closer to a conference committee where differences will be worked out.

The Senate bill tentatively approved today in the House now is identical to the House bill which received final passage two weeks ago.

Rep. Menton Murray of Harlingen, sponsor of the House bill, explained that the House State Affairs Committee substituted the House-approved bill for the Senate version and sent it to the floor.

The proposal, after final passage Thursday, will be sent to a conference committee to work out differences in the House and the Senate versions.

Sen. Bruce Reagan of Corpus Christi said a week ago that the House version has a reverter clause which he will refuse to accept.

This proposal, which likely would also meet disfavor in Washington, is an amendment tacked on the House bill by Rep. Bill Hollowell of Grand Saline to give Texas exclusive criminal and civil jurisdiction within the national park.

Hollowell insisted on putting the amendment on the House bill when he warned members that persons from their areas who visited the park "will be under the jurisdiction of Bobby Kennedy and his crowd" without the amendment.

Reagan's bill, as passed by the Senate, gives the state and federal government concurrent, or joint jurisdiction over civil and criminal matters in the park area.

Lawyer Pressures State Board To Redistrict Texas

AUSTIN (UPI)—Dallas lawyer, publisher and radio executive Giles Miller asked the Third Court of Civil Appeals today to force the Legislative Redistricting Board of Texas to change the state's districts.

Miller sought an injunction against State Treasurer Jesse James to cut off the salary of the redistricting board members if they fail to act.

Miller contends the legislative redistricting act of the 57th Legislature gave liberals a bigger break than conservatives and the state board should have stepped in to correct the situation.

The state contended today, through assistant Atty. Gen. John Reeves, that Miller failed to state a cause of action and failed to prove his case.

The court took the arguments under advisement.

Fishermen Claim Cuban Kidnapping

MIAMI (UPI)—Two Cuban refugee fishermen told British Consul General Frank Smitherman Tuesday they saw Castro commandos kidnap eight other Cuban fishermen from British soil.

The incident allegedly occurred last Feb. 21 at Elbow Cay in the Bahamas.

Amid verbal fire from a Miami attorney representing the eight men, Smitherman said the testimony would be forwarded to the British embassy in Washington.

"We don't know if any further action will be taken," Smitherman said.

Attorney Charles R. Ashmann immediately raised a protest over the hearing at the British consulate here, from which newsmen were barred, "for refusing to permit the Cubans to testify under oath."

"This has been an unrealistic and improper hearing," Ashmann said. "All the British government is doing is filling a file and nothing is being done to save the lives of their eight men kidnaped by Castro."

HILARY IN NEPAL

KATMANDU, Nepal (UPI)—Sir Edmund Hillary, conqueror of Mount Everest, arrived Tuesday en route to a mountain base where he plans to establish a school and hospital for Sherpa tribesmen living in the Everest area.

Washington Window

By LYLE C. WILSON
United Press International

WASHINGTON (UPI)—Some of the Goldwater-for-president troops among Republican state chairmen now have made the agonizing decision about how to deal in 1964 with the Northern Negro vote.

They have decided the party should ignore the Northern Negroes and bid for the electoral votes of the one-time solid South. Goldwater, of course, is not bound by this decision. Neither was he responsible for the Goldwater-for-president boomlet put in orbit here last week when Republican state chairmen gathered for a strategy huddle.

In early January, Goldwater asked his friends not to press him for at least a year for a decision on seeking the presidential nomination.

Conservative Republicans generally want Goldwater in 1964. Equally, they don't want Gov. Nelson A. Rockefeller of New York. The temptation to launch a Goldwater boomlet during the meeting of state chairmen was too much.

Enthusiasts believe Goldwater can win without electoral votes from New York, Pennsylvania, New Jersey, New England, Michigan, Missouri, Washington, Oregon and California.

Decision in Future

This agonizing decision so lightly made by unofficial and more or less unorganized Goldwater men still must be made or avoided by the Republican party itself. The decision is whether to abandon electoral votes in some Northern states where the Negro vote is a major factor in favor of going all out for Southern states.

The fact that some of his supporters would play it that way does not as yet commit Goldwater to any such strategy. But if the Republican party is to go after the Southern electoral votes next year, it is reasonable to believe that it would have to be done with Goldwater heading the ticket. Rockefeller is committed to the opposite strategy.

Several questions are involved. The Republicans must ask themselves whether they have any real chance of regaining the Northern Negro vote. If the answer is negative, the Republicans must answer up to this one: Hard to Answer

Can the Republicans remain in business as a major political party if they (a) must concede the balance-of-power Northern Negro vote to the Democrats and (b) also concede to the Democrats the electoral votes of most of the Southern states?

It is obvious enough that the answer to this second, double-barreled question is an emphatic NO. So, what to do? What the Republicans must do is to determine as accurately as possible whether the party can win the big industrial states without the Negro vote. If not, has the party any chance to regain the Negroes from the Democrats?

Failing that, the Republicans will be compelled to consider a massive effort to win Southern electoral votes. What that would do to Republican congressional and local candidates in big Northern industrial states probably would be to defeat some or all of them.

In the end the Republicans may have to concede that only the Democrats can get away with being Jim Crow in Southern states and spokesmen for civil rights in the North.

MICROCOSM—The best things come in small packages, at least in the field of electronics today. Complicated circuit visible in viewing screen above is an enlargement of the tiny object held in tweezers by an RCA Laboratories technician. The circuit is made of "solid-state" elements, designed to combine the best properties of transistors and vacuum tubes. This particular circuit will go in a computer.

Greeks Cry Vandalism In Bid For Return Of Elgin Marbles

By TOM A. CULLEN
Newspaper Enterprise Assn.
LONDON (NEA) — Are the British a nation of "barbarians, vandals, looters of ancient art treasure"?

Is the British Museum "one vast outhouse where the spoils of ancient Greece are illegally held"? A sizable number of Greeks apparently think that this is so, and they have started a campaign for the return of ancient Greek works of art now in British hands. Chief bone of contention are the Elgin Marbles, 253 pieces of marble sculpture which once graced the Parthenon on the Acropolis in Athens, and which are now housed in the British Museum.

These priceless sculptures were acquired by Lord Elgin in 1800, transported to England and bought by the British government for \$100,000. The British defense has always been that had the treasure not been brought to England it would have been destroyed by neglect, pilfering and wanton damage. The Greeks, on the other hand, claim that the Elgin Marbles were acquired by trickery, bribery and fraud. Vice Adm. Charalambos Rouchotas, a member of the Greek parliament, is heading the campaign for the return of the Elgin Marbles and has enlisted the support of leading Greek writers, artists and intellectuals.

If he gets no action from the British government, Rouchotas plans to erect illuminated signs over the Acropolis reading: "The profane hand of the British diplomat Thomas Elgin removed the

Hi School ROTC Will Be Continued

WASHINGTON (UPI)—The Defense Department today bowed to congressional pressure and agreed to continue the high school ROTC program for another year.

Defense Secretary Robert S. McNamara had proposed that military support for the program, involving 60,000 pupils at 255 public and private schools, should be cut off this July.

However, top members of the House Armed Services Committee, including Chairman Carl Vinson, D-Ga., announced their support for new legislation which would expand the program to include half a million youngsters at 2,000 high schools.

Under the program, high school youths are given elementary military training much as an extra subject in their school work. They wear uniforms, attend classes on military subjects and take part in marching drills.

The about-face was announced today by Assistant Defense Secretary Norman S. Paul at the first hearing of a subcommittee investigation into the junior ROTC program.

Chairman F. Edward Hebert, D-La., opened the session with a blistering statement accusing the Defense Department of a "misguided sense of economy."

"I am utterly amazed at this sudden cynical and short-sighted repudiation of a program which has provided the country with inestimable benefits for almost half a century," he declared.

STRETCHING A POINT—Paul the pelican stretches his long neck to get a tasty morsel held by Arthur May, superintendent of London's St. James' Park.

famous Parthenon friezes."

The Greeks are not without their sympathizers here. Many Britons feel that their government should return the sculpture as a gesture of Anglo-Greek friendship. Quite apart from the moral issue, the marbles could be shown to far greater advantage in the clear light of Athens than as they are now shown, tucked away in a gloomy museum, it is argued.

But the British Museum is standing pat. "If every country started demanding back its relics there would be no museums left," a spokesman points out. Few structures in the world have been battered as much as the Parthenon in its 2,352-year history. The wonder is that anything of it is left to admire.

The Parthenon was built as a temple to Athena between 447 and 432 B.C. when Pericles was the leader in Athens. The structure survived as a pagan temple for 900 years and was converted into a Christian church about 450 A.D. In 1458, Athens was captured by the Turks. The Parthenon was then turned into a mosque.

In 1687 the Turks were besieged in the Acropolis by the Venetians, one of whose shells set off the gunpowder magazine which the Turks had stored in the Parthenon.

The explosion blew out all the middle building, threw down many of the marble columns along the long sides and the sculptures with them.

When Lord Elgin came on the scene in 1800 as British ambassador to Turkey he found the Parthenon an empty shell. Some of the fallen sculptures were buried beneath debris, others had been burned for lime, and still others were built into the walls of surrounding houses. Lord Elgin determined to save what he could of the treasure.

Greece was then still part of the Turkish Empire. Lord Elgin obtained permission from the Turkish central government and removed the sculpture to England in 1800 to 1804.

The Elgin Marbles include 15 metopes, or marble panels in high relief; more than a dozen pieces of sculpture including a Caryatid and a statue of Dionysus; and some 400 feet of a 524-foot frieze.

If the Greeks succeed in their present campaign to have the Elgin Marbles returned, they will concentrate on other Greek antiquities held abroad. Among the best known are the Venus de Milo and the Winged Victory of Samothrace, both in the Louvre in Paris.

THINK YOU'VE GOT TROUBLES?—Next time you shovel your walk, think of what ships on the frozen Great Lakes have to go through. For the first time in most people's memory, Lake Michigan is frozen all the way across. The few ships that have been in service all winter have had extremely rough going. The crunching entry of this car ferry into ice-locked harbor at Ludington, Mich., could be heard a mile away.

JFK Says Fliers Killed In Invasion Were Volunteers

WASHINGTON (UPI) — President Kennedy said the four American fliers killed in the 1961 Bay of Pigs invasion of Cuba were "serving their country" on a completely voluntary basis. The chief executive declined to say specifically, however, whether they were employed by the Central Intelligence Agency or by some other government agency.

Kennedy told his news conference all he could say was that the four were "serving their country" and that it was a "voluntary" flight over Cuba.

The men all were from the Birmingham Ala. area. Their widows have continued to receive \$225 each every two weeks, reportedly from a Central American anti-Castro group.

The checks, drawn on Bankers Trust Co. of New York, have been received by Mrs. Riley W. Shamburger Jr., Mrs. Wade C. Gray, Mrs. Thomas Willard Ray and Mrs. Lee F. Baker.

The four fliers were reported to have been lost when their plane crashed, apparently flying a support mission for the Bay of Pigs invaders. The last report from the plane was that it was

losing altitude with one engine out.

Kennedy said "a good many Americans" have lost their lives in the service of their country in the last 15 years.

Then he added that in the struggle against communism it is not always "helpful" to go into great detail on the circumstances of such episodes.

EARTH TREMORS REPORTED

CASABLANCA (UPI) — Two earth tremors during the past 24 hours rattled windows in northern Morocco and in the Agadir area where an earthquake killed more than 10,000 persons in 1960. No damage was reported.

Get Into Costume For Fashion Parade

By HELEN HENNESSY
Newspaper Enterprise Assn.
NEW YORK (NEA) — Webster defines "costume" as the "distinctive style of dress of a people, class, locality, or period."

Fashion, with a typically feminine toss of the head, offers her own interpretation of the term—the TOTAL look of any two or more pieces designed to be worn with each other.

With all due respect to Webster, "costumes" will be a big part of the spring scene, with none of us, we hope, emerging as a period piece.

Many suits have their own blouses, either matching the jacket lining or picking up the suit color. The coat and dress costumes have become such favorites that both coat and dress manufacturers are clasping congratulatory hands across the table. Several were shown in the Paris collections.

Fishermen's shirts top natural line dresses, and some three-piece ensembles combine an overblouse, skirt and tiny jacket in textured solids and silk prints.

One well-known American designer has done a double knit costume in navy and white, consisting of a sleeveless dress topped by an overblouse.

Slim silk and silk linen dresses in spring pastels have their own jackets and can take you through an elegant afternoon or an informal dinner party.

From a parent-teachers' meeting to an evening at the country club, there's a "costume" for the occasion. This once, ignore the dictionary and take fashion at its word. It doesn't mean fancy dress when referring to today's useful, versatile, costume!

The jacket and dress costume is a favorite fashion for spring. Champagne silk linen (left) has a cut-away jacket with braided closing. The short-sleeved dress beneath has new fluid silhouette, uncluttered by seams or belt. Black silk linen, back-buttoned jerkin (center) covers a shirtwaist dress with heringbone silk bodice and shirt-cuffed sleeves. Elegant navy and white silk tweed is used in Chanel-inspired jacket (right). Dress has navy silk linen top. All are Ben Barrack designs.

Area Piano Pupils Play At Festival

McLEAN (Spl) —Mrs. Willie Boyett took 10 of her piano pupils to Canyon for the Piano Competition Festival. They were Janice Saunders, Sharon Sitter, Phyllis Pagan, Martina Giesler, Sarah Coleman, Beth Dalton, Vicki Welch, Donna Glass, Nelson Dwyer and Keith Watson.

Sharon Sitter received a first rating in piano solo.

Sarah Coleman, Beth Dalton and Martina Giesler received first ratings in sight reading.

Several of the pupils received second rating certificates and the average was very good.

Parents accompanying then to Canyon were Mr. and Mrs. N. L. Welch, Mr. and Mrs. Ernest Watson and Judy, Mrs. George Saunders, Mrs. Dusan Pagan, Mrs. L. F. Giesler, Mrs. John Dwyer, Mrs. J. O. Coleman and Jan, and Betty Dilbeck.

CARPETS

Don't experiment with spots or stains on carpets or rugs. Unless you know what you're trying to remove and how to remove it, you can cause permanent damage. It is best under these circumstances to call in a professional cleaner.

Life In Spain And West Germany Altrusa Topic

Miss Maria Prieto of Madrid, Spain and Miss Angelika Steer of West Germany and White Deer American Field Service students, were guest speakers at a recent meeting of the Altrusa Club of Pampa held in the Starlight Room of the Coronado Inn.

The program was presented by the International Relations Committee under the direction of Mrs. F. A. Hukill, chairman.

Following an introduction by Mrs. Hukill, the AFS students discussed the cities, climate, schools, family life, industrial progress and cultural aspects of their countries as it parallels or differs from the United States.

Miss Prieto is making her home, while in the United States and a student in PHS with Mr. and Mrs. W. A. Morgan, 1938 Evergreen. Miss Steer is a student in White Deer High School and is making her home with Mr. and Mrs. W. C. Powers in White Deer.

Special guests were Mrs. W. A. Morgan and her daughter, Cynthia; Mrs. R. S. Sailor of White Deer, who accompanied Miss Steer; Penny Powers.

Other guests were Diane Drew, Altrusa Girl of the Month for March; Mrs. Wynne Veale, school nurse and Miss Wilma Mason, sister of Miss Evelyn Mason.

During the business meeting conducted by Mrs. Lorene O. Locke president, a white elephant auction was held by the International Relations committee for the benefit of an International Grants-In-Aid recipient, Mary Kwan of Hong Kong, who will receive a MD degree in 1965 from the Women's Medical College in Philadelphia. Miss Kwan, who has received the maximum grant from Altrusa International for study in the United States, was chosen by the local committee for additional assistance in order that she may complete studies. \$22 was realized from the white elephant auction proceeds.

It was announced that at the March 10 meeting, a panel of high school students will present an evaluation of the Career Clinic held in the high school on Feb. 20.

Mrs. Thelma Bray, chairman of the Vocational Information committee, reported on the Teenage Self-Improvement Clinics and extended an invitation to Altrusans to attend any session on Friday afternoon in either the Citizens Hospitality Room or the high school cafeteria.

SOCIAL CALENDAR

THURSDAY
9:30 — Pampa Council of Women's Clubs, City Club Room.
10:00 — Thursday Morning Duplicate Club, the Coronado Inn.
2:30 — Senior Citizens Center, Lovett Memorial Library.
5:45 — Business Women's Circle, First Baptist Church.
7:00 — Horace Mann PTA, Fathers' Night, school auditorium.
7:30 — Pampa Rebekah Lodge, IOOF Hall, 800 E. Foster.
8:00 — Top o' Texas Chapter, Order of the Eastern Star, Culbertson Bldg.
8:00 — American Legion Auxiliary.

FRIDAY
9:30 — Metanet Quilting Club with Mrs. Bena Harkrader, 1925 N. Faulkner.

Sallee, Mildred Evans, Wanda Watkins, Jewell Dean Lewis; Thelma Wilson. New members were presented with Altrusa pins by their sponsors and Altrusa membership kits.

In an initiation ceremony, Miss Lou Ella Patterson, chairman of the Altrusa Information and Mrs. Locke, inducted the following new members: Mmes. Lora Dunn, Ida

Locke distributed to the membership car-stickers boosting and promoting the progress of Pampa.

Approximately 40 members and nine guests attended.

Take It From Kathy

by kathy peterson

Dear Kathy: My 15-year-old daughter has been promised a party and the date is approaching fast. I do not believe a party should be unchaperoned, and there has been a big crisis. She says other parents leave the boys and girls to themselves. Please give us your opinion. Should I stick to the kitchen or supervise their activity?

How can lowered lights and kissing games be avoided?—Mrs. M. L.

The party should be chaperoned. But it isn't necessary for you to stay with the guests for the entire evening and supervise every move. There will be things for you to do in the kitchen and other parts of the house, but refreshments probably will take you in and out of the party room casually in the course of the evening. Your occasional presence should keep things moving in the proper direction.

Fifteen-year-olds don't need mama in the middle of things saying, "Now, let's all play a nice game." They like to organize and plan their own activity. However, talk things over with your daughter in advance to make sure that there are enough ideas planned to keep the guests occupied. If there are interesting things to do, chances of lowered lights and a romantic atmosphere will be pretty slim.

TOUCH-UP IRON CHAIRS
To fill in and cover marks on wrought iron furniture, use a black crayon. You can smooth the surface of the mark with a cleansing tissue.

Dear Abby...
If It's The Thought
... Think About It!

By ABIGAIL VAN BUREN

DEAR ABBY: I just got out of Law School, passed the State Bar examination and am working for a collection agency. My girl has been after me to buy her an engagement ring. Abby, I told this girl that as far as I am concerned we are officially engaged—and I will marry her as soon as I can afford it, but I don't have the money to buy her even the tiniest diamond now. She says it is not the size of the diamond that counts, it's the thought. What should I do?

STRUGGLING LAWYER
DEAR STRUGGLING: If it's the THOUGHT... tell her you'll THINK about it.

DEAR ABBY: I am a young widow (35) and live alone. A very distinguished bachelor in this community attends the same church as I. He asked me out and I had a most wonderful time and I think he did, too. He invited me out again and we seemed to hit it off so well. Then he never called me again. He seems friendly at church but that's as far as it goes. The other day I was talking to a friend of his. He told me that this man made a habit of dating a woman two or three times and if he thought she was getting serious about him he'd drop her. Abby, how could a man know after two dates if a woman was getting "serious" about him? I made no overtures and was anything but forward. I just enjoyed his company and wanted to see him again. Does this make sense to you?

DEAR CURIOUS: Your distinguished bachelor friend explained his strategy accurately. He meant when HE felt himself getting serious about a woman, he'd drop HER. His type is common. He's afraid of marriage. If a man with his philosophy ever got hooked in a weak moment, he even help his wife.

DEAR ABBY: My problem may not seem very serious but it means a lot to me. I like two boys very much and I have to make a choice. One is an usher. He is real neat but he doesn't look so hot out of his suit. I can't explain it, but I seem to like the usher more when he is working and has that suit on. The other boy looks good to me all the time. Which one should I choose?

DEAR TEEN: If you like the usher better in his "suit"—the other boy probably suits you better. You have a touch of uniform fever, not uncommon in girls your age.

CONFIDENTIAL TO MILTON:

Dudley Circle With Mrs. Carl Laflin

The Anne Dudley Circle of Highland Baptist Women's Missionary Union met Wednesday in the home of Mrs. Carl Laflin, 2113 N. Nelson.

Opening prayer was given by Mrs. H. E. Winegart.

A short business meeting was conducted by the circle chairman, Mrs. Laflin. Mrs. W. T. Fain read the prayer calendar.

Mrs. Henry Maple was in charge of the program on "Christian Witnessing" with the following members taking parts: Mmes. Laflin, Winegart, T. C. Drennan, Derrill Thomas and Eunice Hunt.

It was announced the next meeting will be on March 13 in the home of Mrs. Winegart.

Didn't your father ever tell you that mankind is divided into two classes: those who earn their living by the sweat of their brow, and those who sell them cold drinks, electric fans and air-conditioning?

Stop worrying. Write to Abby. For a personal reply enclose a self-addressed, stamped envelope.

GRUVER-BOUND — Lefors track coach Dunny Goode (left), checks off the list of runners going to the Gruver Meet this weekend, while assistant Dale Prescott reports the times. Sitting, from left: Neil Cates, James Alexander, Dwayne Steele, Kenneth Minter, Danny Robbins, Bill Nichols. Kneeling: Richard Bull, Glen Henderson, An-

thony "Punkin" McCool, Red Lockwood, Tom Smith. Standing: Marvin Todd, Wayne "Lightning" Coleman, Terry Bromlow, Phil Woodring, Don McCool, David Roberts. Scheduled to go but not in picture is Rodney Arrington. (Daily News Photo)

Harvesters Down Borger

The Pampa Harvesters opened their baseball season unofficially yesterday as they took a 5-2 win from visiting Borger.

The Harvesters picked up three runs in the first three frames and made them good as five P a m p a pitchers combined to give up only four hits.

Defense was the key to Pampa's win as an around-the-horn double play pulled them out of danger in the third inning and outstanding play on the part of catchers Larry Gregory and Ricky Maynard have apparently solved coach Ray Howard's backstopping problem. Gregory went five innings, and his strong throwing arm kept the Bulldogs glued to the bases, while Maynard scrambled after a wild pitch which rolled to the backstop in the sixth inning and dove back to home plate in time to tag out

would-be scorer from third base. Jerry Glover showed that he had lost none of last year's form as he struck out five batters, including all three Dogs in the second inning, issued only one walk and gave up two hits in his three inning stint.

Glover got in trouble in the third inning when Johnny Robinson doubled and the next batter was safe on an interference call. Jerry Wilson of Borger then hit a sharp one-hopper to Glover, who speared it, threw to Jim Arthur at third for one out and Arthur went the long way to Ricky Maynard at first for the twin killing.

Sophomores Carl Harnsberger and Jim Arthur each hurled one inning, Harnsberger coming out with a perfect slate and one strikeout. Arthur was touched for two hits and as many runs, one un-

SPORTS

The Pampa Daily News

10 THURSDAY, MARCH 7, 1963 35TH YEAR

earned.

Dee Wright, last year's bullpen ace, also went one frame and came out even, striking out two, walking one and hitting one batter.

Little lefty Jerry Garrison closed out the game as he set the last three batters down in order, two of them via the strikeout route.

Pampa picked up their first two runs in the opening frame as Kenneth Collins walked, stole second, moved to third as Ricky Maynard beat out an infield hit, and came home on an overthrown by the first baseman. Maynard moved to second on the miscue and Larry Gregory sliced a single through the box to score the run.

The locals got another tally in the third frame as Garrison singled, moved to second on a sacrifice by Collins, and waltzed home on Kenny Hebert's long double.

Philip Smith opened the fifth inning with a single and came around on Borger miscues.

The Harvesters picked up their final run in the last inning as the Borger pitcher lost his control, loaded the bases with two out, and then threw four wide ones to Ricky Goodwin to force home another tally.

Eighteen Lefors Pirates Going To Gruver Relays

LEFORS (Spl) — Although the Lefors Pirates have 12 men back from last year's crew that finished second in district 2-A, track coach Dunny Goode and assistant Dale Prescott are still pessimistic about the season's outlook as they prepare to take their charges to the Gruver Relays Saturday.

Although six of the returning 12 are district champions, and the Pirates are returning their speedy mile relay team intact, Goode feels that he will meet tough competition in the Gruver Meet, even tougher in his own Lefors Relays the following week end, and even

rougher in district meet.

18 to Gruver

The Pirates will take 18 men to the Gruver Meet, Goode said that there seemed to be little promise among the underclassmen out this year, and that he would have to rely on last year's nucleus, but a large number of the Gruver-bound boys are underclassmen and the Pirates will have even more out the following week end.

The pessimistic Goode admitted that there were a few promising underclassmen, and mixed with six returning district champs, the blend might meld into a powerful unit, as many of the runners have just come off the basketball court and have had little practice to date.

Promising Hurdlers

Lefors also has a pair of promising hurdlers in Tom Smith and Terry Brownlow. Smith, a senior, had not showed too much as an underclassman, but has been showing very well in the low hurdles in practice, while Brownlow placed fourth in district in high hurdles as a sophomore last year.

Also in the Gruver meet will be a number of greater Pampa area teams, including Perryton and Wheeler. White Deer had been slated to go, but due to basketball playoffs, Buck track coach Colie Huffman has decided to wait till the following week and enter Lefors for the Bucks' initial track action.

USF Seeks Past Basketball Glory

By United Press International

The University of San Francisco, which set the college basketball world on fire in the mid 1950's, is seeking to light the torch once again.

San Francisco still holds the all-time record for a college team of 60 wins in a row stretching from 1954 to 1956, including two straight NCAA championships. Leading the team in those banner years were Bill Russell and K. C. Jones, current stars with the professional champion-Boston Celtics.

The Dons never could reach the same peak again, but still may cause a stir if they reach the NCAA tourney next week.

They moved into good position to do just this by turning back San Jose State, 51-46, on their home court Wednesday night. The triumph pushed the Dons back into a first place tie with Santa Clara in the West Coast Athletic Conference. The two top teams meet in a showdown game Saturday night with an NCAA berth awaiting the winner, and San Francisco will have the all-important home court advantage.

Villanova and Marquette, both of whom will play in the National Invitation Tournament, warmed up for the task with victories Wednesday night but Canisius, also headed for the New York tourney, was beaten by Dayton, 75-64.

Villanova-snapped Seton Hall's 18-game home court winning streak, 71-64, as Wally Jones scored 38 points; Dick Nixon tallied 20 points to lead Marquette to a 74-68 triumph over Creighton; and Dayton coasted to victory over Canisius after opening a comfortable nine-point halftime lead.

Dave Lee scored 19 points for San Francisco and Ollie Johnson added 15 as the defense-minded Dons held San Jose to only 15 points in the first half. Dennis Bates of San Jose shared game honors with Lee by registering 19 points.

Judo Classes Offered At Youth Center

The Pampa Youth and Community Center has scheduled a class in Judo for the purpose of self-defense. The class will organize on Monday night, March 11, at 7:00. At this time the instructor, A. C. Higgins, will go over the details of the class and determine if there are enough present to have two separate classes. If so, the other class would meet on Thursday nights. Each class would receive the same instructions.

All who are interested in taking this class should attend the organizational meeting on Monday night so that they can find out what equipment they will need. All boys must be at least 17 years of age unless accompanied by their parents. Mr. Higgins expressed that each person should have a sincere desire to learn the art of Judo and that the class would only be permitted to leave only at authorized times. Questions will be answered to each person's satisfaction on Monday night.

Mr. Higgins is classified as a Brown Belt Winner which is next to the top position of Black Belt Winner in Judo Classification.

Champs Back

Leading the list of returnees is pole vaulter Wayne Coleman, who won the district meet last year with an 11-foot vault and went on to regional competition. Rodney Arrington is the district broad jump champ with a 20-foot leap.

The entire mile relay team of Phil Woodring, Dan McCool, Anthony "Punkin" McCool and Wayne Coleman, which posted a time of 3:45 as they finished second in district have returned.

Only one member of last year's record setting sprint relay team, which posted a 45.3 clocking, has returned in the person of Arrington, with some of the underclassmen or mile relayers expected to

Perryton Favorite

Goode feels that Perryton or Dalhart should be rated as the favorites at Gruver. "Even though Perryton has graduated most of last year's team, they are still Triple-A, while Double-A Dalhart is always tough."

Goode is hoping his team will be ready when they host their own two-day meet next week end, which will see all the Greater Pampa area teams — White Deer, Perryton, Groom, Mobeetie, Wheeler, Miami, Canadian, McLean, Pampa B, and a number of strong outside teams such as Sunray, coming to do battle at the Pirates' brand-new fieldhouse and well-prepared track.

Ross Unhappy Over Miss State Play

JACKSON, Miss. (UPI) — Mississippi State University's plans to enter the National Collegiate Athletic Association (NCAA) basketball playoffs had the opposition of Gov. Ross Barnett today. Barnett called a news conference Wednesday to announce his displeasure with state's disregard of an unofficial policy against Mississippi teams entering racially-integrated events.

But Barnett indicated he would not attempt to interfere — that it was strictly a matter for the state college board.

The board, which is split on the issue, will meet Saturday to decide whether to cancel State's trip to East Lansing, Mich. next week for a regional playoff.

Barnett was asked if he had informed board members of his feelings. He replied, "They can read it in the newspapers."

"The people of Mississippi know that I am a strong believer in and an advocate of segregation in every phase of activity in all our schools," he said.

Burly Early Wynn In Comeback Try Today

By United Press International

One of baseball's most dramatic moments of 1963 could be written today when burly Early Wynn begins his comeback attempt.

Wynn, a 43-year-old veteran who fell one short of his 300-game victory goal last season, was unconditionally released by the Chicago White Sox at the end of 1962.

Knowing one more victory will make him virtually an automatic selection to the Hall of Fame, Wynn tried to land a job with other major league clubs. But nobody seemed to care for a guy who had chalked up "only" 299 wins.

White Sox manager Al Lopez finally agreed to give Wynn a comeback shot if he made good at the Chicago camp. The right-hander takes the test today when he starts in an intra-squad game, the last six-inning contest before the regular exhibition grind opens Saturday.

Cincinnati provides the White Sox' opposition. Reds' manager Fred Hutchinson has announced that Jim O'Toole, Jim Owens and Ken Hunt will toe the mound against Chicago.

Burnside Gets Assignment

Southpaw Pete Burnside received an assignment for Baltimore's Saturday game against the Yankees. Burnside replaces ailing Milt Pappas, who twisted his right knee in a Monday workout. Robin Roberts and Steve Barber also are slated for three-inning Oriole stints against the world champions.

Don Schwall, acquired from the Boston Red Sox for Dick Stuart, joins Earl Francis and Al Mc-

Bean in Pittsburgh's first exhibition game against Philadelphia

Sluggish Frank Thomas ended his holdout and agreed to the New York Mets' offer of a \$2,000 raise that brought him up to \$32,000. Manager Casey Stengel nominated Roger Craig, Al Jackson and Craig Anderson to go against the Cards Saturday.

Camp Items — Bill Mazerowski and Bob Bailey will miss Pittsburgh's opening exhibition game because of slight injuries. Tony Kubek poled two long homers in a Yankee squad contest. The San Francisco Giants are at an impasse in salary talks with first baseman Orlando Cepeda. Detroit pilot Bob Scheffing will try Bubba Phillips in the Tigers' leadoff position in Saturday's game with Minnesota. Bob Allison of the Twins walloped his second homer in two days, a grand slam job, in a practice tilt. The Phillies received a "holiday" from manager Gene Mauch because he is pleased with their progress.

The Kansas City Athletics still are plagued by bad weather and had to cancel everything but batting practice. Second baseman Frank Bolling was named Milwaukee player representative to replace Joe Adcock, who was traded to Cleveland. The Los Angeles Dodgers selected Don Drysdale, Johnny Podres and Jack Smith to pitch the opening spring game against the Washington Senators. Shortstop Ed Bresnahan hit the Boston Red Sox' first practice game homer. Shortstop Dick Groat of St. Louis remained sidelined because of a weak throwing arm.

Kilgore Nips South Texas

KILGORE, Tex. (UPI) — The Kilgore Rangers nipped South Texas Junior College 99-94 Wednesday night in the first basketball game of a best-of-three series for a NJCAA regional playoff berth in the national tourney.

The second game will be played Saturday in Houston's Jeppesen fieldhouse. If a third game is needed, the teams will play next Tuesday at Stephen F. Austin College fieldhouse in Nacogdoches.

SWIM MEET SET

SCHENECTADY, N.Y. (UPI) — The Upper New York State Collegiate Swimming Association championships will be at Syracuse University Friday and Saturday. Competing are Colgate, Syracuse, Union, Rochester, Rensselaer Poly, Oswego, Genesee, Niagara, St. Bonaventure, Buffalo State, University of Buffalo and Brockport.

Sporting Sidelines

By JEFF COHANE

The mailbag was very productive yesterday, producing a report on the Possum Kingdom Relays which gave us a lot of information we didn't know, an inquiry from Texas A&I concerning a football player we recommended (unfortunately, Gil Steinke was a little slow on this one, the boy made third team All-State in 4-A and has signed with the University of Houston), some information on new goings-on at the Pampa Youth and Community Center, and a fishing report from Burson Lake.

New Director
Before biting on the fishing plugs, I'd like to take a minute out to congratulate the new Youth Center Director, George Smith. We met George for a few brief moments on several occasions and got a long schedule from him on upcoming events at the Center. We were planning to use it Sunday, but George has evidently been a real go-getter and he has something new listed just about every day. Any youngsters interested, and adults also, should drop over and meet George, he's really going all out with what looks to be a beneficial program for sports-lovers.

Fishing Good
Now to our favorite sport (participant - type, that is). Coming from the lagoons of the Gulf down Corpus-way, we thought West Texas would have nary a fish in it except around Possum Kingdom,

so neglected to bring even one rod and reel. Overheard people talking about fishing around Wheeler way, so sent home for some tackle, but after this report from Burson Lake, we may just grab a cane pole and a handful of worms, it sounds good!

According to reports, the cold weather is not deterring either fish or fisherman, who are out fishing from the banks and in boats as well. The lakes have been heavily restocked with bass, crappie and channel cat and this is expected to be a bonus year for them.

Getting Better
Pan fish are practically leaping onto the hook, and the catfishing is pretty fair all night. Although the fishing weather is still a long way from tops, they are getting more and more crappie and bass as the weather gets warmer.

If anyone feels like fishing this weekend, wants company and has an extra rod, please call the sports desk immediately. We are ready, willing and hopeful!

Gindorf Second
Although Texas Tech ace Bobby Gindorf of Pampa only made honorable mention on the UPI All-SWC basketball team, we were gratified to note that another major poll placed him on the second team, where we felt he belonged. Bobby has no plans of turning pro, but intends to continue his engineering studies.

Powerful Field At Possum Meet

GRAHAM (Spl) — A record breaking number of over 70 schools are entered in the 16th annual Possum Kingdom Relays, to be held here Saturday.

Abilene High is the defending champion in Division Two (3-A and 4-A schools), with Quariah the defending champion in Division One, the smaller classification schools. Probable favorites in Division Two will be Abilene Cooper, which finished second in the Snyder Relays, and Odessa Permian, which racked up the Fort Stockton Meet. Pampa, with the mighty Randy Matson leading the way, is also figured to be a strong contender, as are some of the Lubbock, Wichita Falls and out-of-state schools.

Relays director Philip Slater, Graham High track coach, has announced that preliminary track events will start at 9:30 a.m. and run through 1:30 p.m. Field event

George Sauer Jr. Stands Out At UT

AUSTIN (UPI)—Sophomore end George Sauer Jr., son of the former Baylor coach, turned the coaches' heads Wednesday during Texas' first controlled scrimmage of spring football practice.

Sauer scored one touchdown on a 65-yard pass-and-run play and set up a second when he blocked a punt.

The Oranges scored the Whites 5 touchdowns to 0 in the scrimmage.

Coach Darrell Royal announced the annual Orange-White game, which traditionally ends spring practice, will be played March 27.

prelims will start at 10:30 a.m. with finals to be completed in the afternoon after the track preliminaries are finished.

There will be no semifinals in any event. Events will run against time, with the fastest five or six in each field event to finals, and no preliminaries in several of the events, such as the relays. Finals will start at 7:15 p.m., with Division two runoffs following Division One. Last event on the program will be the mile relay, scheduled for 9:15 p.m.

The UH point system will be used in scoring, with 10 points for an individual winner, eight for second, six for third, down to one point for sixth place. Team events will receive 20 points for a win down to two points for sixth.

A number of outstanding meet records are expected to be cracked, with Pampa's Matson and Bill Martin two of the top contenders. Matson is the defending shotput champion in his division, with a toss of 53'7". Randy will be out to break his own division mark, as well as the meet mark of 56'13" set by Howard of Masonic Home in 1961. The mighty Matson will also be out to wipe out the meet discus mark of 165'5" set by Glover of Abilene in 1961.

Several contenders will be after the high jump mark of 6'3", set by Upton of Vernon in 1959 and tied by Franklin of Abilene in 1961, including Martin, who tied the meet record at Fort Stockton with a 6-3 leap.

One division mark still standing was set by a Pampan in 1956 and still holds, the 21'6" broadjump set by Ed Strickland.

Texas Boxers All Lose GG

CHICAGO (UPI)— Three Texas boxers lost their bids for a national Golden Gloves title Wednesday night.

All three boxers lost in the semifinals of the Golden Gloves Tournament of Champions. The trio, representing Fort Worth in the tournament, had worked their way into the semifinals through local and state eliminations.

Eddie Gonzales was the first fighter to fall. He lost to Emanuel Steward of Detroit in a 118-pound division bout.

Gary Barcroft suffered a technical knockout at the hands of Bill Douglas of Columbus, Ohio. Barcroft fought in the 160-pound division.

Texas' light-heavyweight representative, Wayne Morris, was defeated by Billy Newsome of Detroit.

Fort Worth earned fourth place in the team race, even with last night's three losses.

Carroll Russell First Choice On All-District 1-AA Squad

WHITE DEER (Spl) — Carroll Russell of White Deer led the All-District 1-AA team chosen today by the district coaches.

Russell, six-foot third team All-State, was first choice on the ballot, followed by Ronnie Rainey, Shamrock's towering rebounder. Bill Cunningham of Dalhart, Bobby Dodd of Stinnett and Dwight Clifton of Dalhart.

The first three are seniors, with Dodd and Clifton juniors.

The second team also had three seniors and two juniors and two honorable mention players were juniors.

First Team
Carroll Russell, 6-0, White Deer
Ronnie Rainey, 6-5, Shamrock

Bill Cunningham, 6-2, Dalhart
Bobby Dodd, 5-10, Stinnett
Dwight Clifton, 6-1, Dalhart

TCU Downs SMU UH Defends Title

FORT WORTH (UPI)— Texas Christian used a six-run inning Wednesday to hand Southern Methodist its third straight baseball loss of the year, 8-3.

Horned Frog pitcher Lance Brown held the Mustangs in check allowing them only four hits.

Brown hurled five innings of no-hit ball before SMU's Jay Mills tripled and scored in the sixth.

TCU jumped on SMU starter Bob Warren for 6 runs and 5 hits in the second inning.

Second Team
Alvie Burdine, Sr., Shamrock
Pat Patterson, Jr., Spearman
Jim Thurmond, Sr., White Deer
Curtis Campbell, Sr., White Deer
Bobby Bain, Jr., Stinnett

Honorable Mention

Larry Reeves, Sr., Shamrock
Wesley Jarvis, Sr., Spearman

GOALS DECIDE PLACINGS

STOCKHOLM (UPI)— Goal difference will be the deciding factor in determining placings for the world ice hockey championships if two or more teams tie for positions after the schedule has been completed, it was announced today by the tournament's organizers.

BOBBY GINDORF — ALL SWC

Stinnett Places Five Girls On All-District 1-AA Team

WHITE DEER (Spl) — Stinnett led the girls All-District 1-AA basketball team as they placed two forwards and a guard on the first team and two more on honorable mention. White Deer had three players on the coaches honor team and Shamrock also had three.

First Team Forwards
Carolyn Riggins, Sr., White Deer
Phyllis Patterson, Soph., Stinnett
Gail Davis, Sr., Stinnett
Jane Reiswig, Sr., Perryton
Diane Gregg, Sr., Shamrock
Vickie Witde, Sr., Stinnett

Honorable Mention
Sherry Massey, Soph., Shamrock
Cindy Hubbard, Fresh., White Deer

Linda Davis, Jr., White Deer
Ruth Jowers, Sr., Dalhart
Linda Pearson, Sr., Perryton
Susie Groves, Jr., Stinnett
Florence Anderson, Sr., Stinnett
Catherine Pepper, Sr., Shamrock

Honorable Mention
Kay Anderson, Jr., Stinnett
Shellie Young, Jr., Stinnett
Sharon Close, Jr., Spearman
Paulette Gaddy, Sr., Dalhart

Coach To Texas

AUSTIN (UPI)— University of Texas officials Wednesday announced the hiring of Jesse Lee Richardson as the school's assistant basketball coach.

Richardson, a former high school and college coach, will replace Jimmy Viramontes who announced his resignation last week.

The new assistant coach compiled a 176-47 record at Leaky and Livingston high schools. He coached at his alma mater, the University of Corpus Christi, for six and one-half years.

Head basketball coach Hal Bradley said he felt fortunate "in securing the services of a coach with such a fine background."

Lakers Wrap Up Western

By United Press International
The possibility of another Boston-Los Angeles championship confrontation in the National Basketball Association was greater than ever today even though both have to go through the rigors of an NBA playoff slate.

The Lakers clinched their second Western Division crown Wednesday night by defeating visiting Cincinnati 106-97. Los Angeles also ended a five-game losing streak.

In the only other NBA contest, the Chicago Zephyrs scored a 121-111 victory over the San Francisco Warriors in Baltimore. The game was interrupted in the second quarter and the Civic Center cleared while police and fire departments checked the building following a bomb scare.

As usual, Wilt Chamberlain led the scoring for the Warriors with 51. The loss dampened the playoff aspirations of San Francisco, which now trails the Detroit Pistons by a game and a half in the race for the remaining third playoff spot in the Western Division.

Tonight the New York Knicks meet Syracuse and the Boston Celtics play the Pistons in Detroit.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES: By carrier in Pampa, 35c per week, \$1.50 per 3 months, \$3.00 per 6 months, \$5.00 per year. By mail paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail zone, \$1.25 per month.

A Plane—And A Drug

A commentary issued by one of this country's leading pharmaceutical companies draws an interesting parallel. Its aptness is found in the fact that, should certain legislative proposals be adopted, the drug industry would be heavily hampered in its research, testing and exploration activities—all of which are vital to progress in this all-important field.

In 1954, the first commercial jetliner, the British Comet, exploded in midair. It was a stunning tragedy, for the Comet had been considered the ultimate in safety and reliability as well as in performance.

Now for the parallel. The terrible discovery that the drug thalidomide was linked to the birth of

deformed babies has been a major element in leading to the handcuff type of legislative proposals. But thalidomide—which, incidentally, was produced and placed in general use abroad—had been thoroughly tested. It was considered safe and effective.

The point is, as the commentary puts it, "No one could have foreseen the Comet or thalidomide disasters. But the Comet disaster did not hold back the Jet Age, and it would be a real tragedy to allow our experience with thalidomide to impede drug research."

The Florida tourist season was late in getting under way this winter and many hotel rooms were available in Miami, Palm Beach and elsewhere even into February. The Sunshine State has been getting considerable competition from the resorts in the Bahamas and the Caribbean area in recent years.

A Long Gamble

President Kennedy, with the support of his chief advisors and fiscal officers, holds that we, at one and the same time, can increase spending and reduce overall tax collections by a total of about \$10 billion, and, at this same time, prevent more inflation.

This view must be given due respect and consideration. But so must the views of those who think it utterly mistaken.

Long-time deficit spending, historically speaking, has had two major results. One is a desperate turn to printing-press money—when, as in Germany following the

First World War, it took a wheelbarrow full of currency to buy a loaf of bread. The other is to impose price and wage controls which are followed, as surely as the sun follows the moon, by absolute government control of the entire economic system.

The President asks for a long gamble in his fiscal proposals. It is now up to Congress to decide just how far that gamble will be allowed to go.

PREVALENT

Government Control Equals Fascism

By GEORGE BOARDMAN, Ph. D.

When the means of production or services remain, ostensibly, under government control, that's fascism. We have plenty of out and out fascism in our government today.

In our state, government, operating with a built-in constitutional distrust of private enterprise at the corporate level, is really throwing its heavy weight at land developers in general and at one development in particular, The State Real Estate Commission.

The gist of the situation is that the land developer has been ordered to halt the sales on his property until the real estate commission examines all of the advertising and the commission has stated its intention of compelling land developers to submit all advertising to the commission in the future.

This situation provides a classic example of my reasons for a recent statement suggesting that a corporation composed of independent thinking people would buy a load of headaches by moving into Arizona.

Now let's take a look at the general subject of fraud.—"Fraud—deceit, artifice, trick,

cheat, a humbug". "HUMBUG—a fraud or imposition under fair pretenses; sham, a plausible deceiver, a spirit of trickery or deception".

Another difference between butter and margarine is that it takes 10 times more land and labor to produce a pound of butter—fat than a pound of edible vegetable fat from which margarine is made.

"Unkempt" is a familiar word, but did you ever hear anyone described as being "unkempt"? There is such a word—the past participle of "kemb," meaning "to comb," and a word of Scottish dialect.

Today's Smile: Doctor: "You have ACUTE appendicitis." Chorus girl: "Please, doctor, I came here to be examined, not flattered."

Pull Up A Chair

By Frank J. Markey

Almost every city in the United States was laid out in the days of the horse and buggy and New York is no exception. We had a talk with Henry Barnes, the internationally-known traffic commissioner of Gotham about his highly complex problems and as usual he gave us a lot of interesting and useful information.

Commissioner came to New York over a year ago from Baltimore, where he had repeated his fantastic Denver performance of speeding all thoroughfare movement through the medium of a city-wide electronic traffic control.

Barnes first introduced his system in the Rocky Mountain capital and it is now in use in 10 other cities throughout the nation. He has been called to London, Paris, and other foreign cities to provide the answer to their traffic problems.

The Doctor Says:

Cirrhosis Works Deviously To Undermine the Liver

By DR. WAYNE BRANDSTADT

Q—In your piece about cirrhosis of the liver you said scar tissue replaced the liver cells and made the liver shrink. But my encyclopedia says cirrhosis is enlargement of the liver. Please explain.

A—What I said about cirrhosis is true although I may have oversimplified my answer. In the early stages of cirrhosis the liver is stimulated by the underlying disease to exercise its tremendous regenerative power so that even while the damaged cells are being replaced by scar tissue the liver itself becomes enlarged.

Q—I am a married woman. On my scalp I get large painful pimples. When they clear up new ones appear. How can I get rid of them?

A—The most likely cause of your trouble is acne necrotica. This is not related to the ordinary acne of teenagers. It is hard to control but the following measures should be helpful.

Q—What would cause excess saliva? It is very annoying to keep swallowing all the time. Is there any way to overcome it? I am very nervous. Could that have anything to do with it?

A—A long list of drugs including mercury (calomel), iodides, bromides (often prescribed for nervousness), arsenic, and potassium chlorate will cause salivation. Excessive smoking, diseases of the mouth and gums, indigestion, and anemia are other causes.

Q—Do men have a change of life or is it only women? A—Although some observers believe that men go through a period similar to the menopause in women, there is no satisfactory proof that this is so.

The American Way

THE GREAT ISSUE OF OUR TIME By Tom Anderson Publisher, Farm and Ranch Magazine

The great issue of our time is not peace. It is not segregation, fluoridation, mental health, metro, full employment, the twist, or old age benefits. It is not economic. The issue is freedom. Not freedom from, but freedom to. Not forced freedom, but freedom of choice.

Freedom of choice is the foundation of our Republic. The Constitution of the United States and its Bill of Rights are the unique formal documents in the history of governments that maximize personal freedom by limiting the power of government.

Freedom of choice is the dynamic fundamental in the Constitution of the United States and its Bill of Rights that is essential to the preservation of our Republic.

Freedom of choice is the dynamic fundamental in the Constitution of the United States and its Bill of Rights that is essential to the preservation of our Republic.

Freedom of choice is the dynamic fundamental in the Constitution of the United States and its Bill of Rights that is essential to the preservation of our Republic.

maintain incentive. Centralized planning, whether here or in Russia, makes gigantic mistakes. The errors of government, sanctified as truth, are much bigger than individual errors, since thousands of directions cancel themselves out.

This has been called the "Century of the Common Man." And that's fine if it means every common man has an equal opportunity to become uncommon.

Dean Alfange said: "I do not choose to be a common man. It is my right to be uncommon—if I can. I seek opportunity—not security. I do not wish to be a kept citizen, humbled and dulled by having the state look after me. I want to take the calculated risk: to dream and to build, to fall and to succeed."

"I refuse to barter incentive for a dime. I prefer the challenge of life to the guaranteed existence; the thrill of fulfillment to the stale calm of Utopia. I will not trade freedom for beneficence nor my dignity for a handout. I will never cover before any master nor bend to any threat. It is my heritage to stand erect, proud, unafraid; to think and act for myself, enjoy the benefit of my creations and to face the world boldly and say, 'This I have done.' All this is what it means to be an American."

Many Kennedy braintrusters are lifelong Socialists. More than 40 members of the "New Frontier" belong to the Americans For Democratic Action, a "middle-of-the-road" group—middle between pink and red.

Arthur Schlesinger, Jr. and other New Frontiersmen are on record saying that the best way to beat Communism is to adopt the Welfare State. Socialism. That's like saying the best way to beat boll weevils is to breed bollworms.

President Kennedy appears to have become the complete captive of his Harvard eggheads. They even convinced him the multiplication table is obsolete. If a Ph.D. told him the apple ate Eve he'd believe it.

The choice between Socialism and Communism is the choice between being hugged to death by a friendly boa constrictor or bitten by an unfriendly rattlesnake. Socialism—sometimes known as the Welfare State—is Communism without the firing squad. Communism cannot possibly exist without the firing squad. Socialism cannot exist without compulsion. God made men free. Equal men are not free and free men are not equal.

What has been the source of our strength? Freedom and opportunity. With 7 per cent of the earth's population, we have more than half of the world's wealth. For which our leaders constantly apologize to our "world brothers."

Far more important than our world lead in national resources is our free-choice, profit- and loss system, which the New Frontiersmen think is outdated, if not wicked. Bureaucracy can't competitively, profitably and permanently out-produce a free economy. Only the profit system and competition can reduce costs, create sales and

THE AMERICAN WIDOW—With the number of widows in the United States growing by 100,000 a year—because of longer female life spans—widows now outnumber widowers by 4 to 1. Chart above, based on statistics from Metropolitan Life Insurance Co., shows how long wives may expect to survive their husbands. For instance, of those widowed at age 45, three-fourths can expect to live another 25 years. Of those widowed at 65, more than half can expect to live 15 years longer; a third will live for 20 years.

Record Number Of Deep Wells Drilled Last Year

A record 254 deep wells costing \$168,800,000 were drilled in the United States during 1962, the Petroleum Engineer's 18th annual deep well survey shows.

The 1962 total was 11 wells more than the record 243 drilled in 1961. It marks the ninth consecutive year that this category of drilling has increased. Outlay for deep wells during 1962 was reported at \$150 million.

The Dallas petroleum publication defines a deep well as one drilled to 15,000 feet or deeper. The survey is based on data supplied by deep well operators.

The 254 deep wells last year accounted for 4,400,000 feet of hole, up from 3,920,000 a year earlier. Per-foot cost nationwide averaged about \$38, about the same as 1961. Average cost per well was approximately \$554,000 up from the 1961 average of \$617,000. Tending to push up per-well costs (but not necessarily per-foot costs) was the average well depth. Well depth rose to nearly 17,000 feet from 16,124 feet in 1961.

Petroleum Engineer's March 1 issue, shows Louisiana again the focal spot for deep drilling with 203 deep holes on record for 1962. Texaco Inc. continued as the most active deep well operator last year, with 45 wells completed during the 12-month period.

The rise in deep drilling continues in spite of the fact that domestic drilling operations have declined substantially in recent years. It points up an industry trend that first became evident back in 1954. In that year 56 deep wells were drilled, nearly twice the number drilled the year before.

Even in 1956, when well completions were at an all-time high at 56,000 only 155 wells were drilled to 15,000 feet or more. The 1962 deep well total of 254 was part of a U.S. completion total which had slipped to around 46,000.

Legal Publication

CITATION BY PUBLICATION
THE STATE OF TEXAS
TO ALL PERSONS INTERESTED IN THE ESTATE OF G. W. MCINTURFF, Deceased, No. 2578, County Court Gray County, Texas, Garland Bush, Administrator in the above numbered and entitled estate, filed on the 6th day of March, 1963, his verified account for final settlement of said estate and requests that said estate be settled and closed, and said applicant be discharged from his trust.

Said application will be heard and acted on by said court at 10 o'clock A.M. on the first Monday next after the expiration of ten days from date of publication, the same being the 15th day of March, 1963, at the County Court House in Pampa, Texas. All persons interested in said estate are hereby cited to appear before said Honorable Court at said above mentioned time and place by filing a written answer contesting such application should they desire to do so.

The officer executing this writ shall promptly serve the same according to requirements of law and the minutes hereof, and make due return as the law directs.
GIVEN UNDER MY HAND AND THE SEAL OF SAID COURT at the City of Pampa, Texas, this 6th day of March A.D. 1963.
187 Charlie Thut,
County Clerk of Gray County, Texas
By Grand Carter, Deputy

Wall Street In Review

NEW YORK (UPI) — There is little to indicate that the reaction threatens the sustained upward trend in stock prices, says Investors Research Co. Volume of trading has been very light, prices have received steady support, and there has been only a single trading day when pressure, measured by declining issues, has swelled to high levels.

For the short-term, James Dines & Co., Inc. expects a technical rally over 670 in the Dow-Jones Industrials. Then, if the next dip can avoid getting below the low of this decline, Dines believes the market will still be technically strong. Probabilities over the next few weeks are for continued churning and false moves—around these levels, the company says.

Spear & Staff is sticking to its downside target of 640-650 in the D-J average and advises clients, for the time being, should exercise a degree of caution in managing their accounts.

Walston & Co. says the recent dip appears to be no more than a "normal" correction of the steep advance from the Oct. 1952 "Cuban scare" lows up to mid-February.

Eldon A. Grimm of Walston & Co. sees at least one ray of sunshine penetrating the smog of the marketplace. He says that because of the sharp "correction" in stock prices last week, the yields are rallying, especially for the dozens of stocks which have been hoisting dividends. Happily, he says, fairly good yields aren't as hard to find as they were a week ago.

NEW YORK (UPI) — "We continue bullish," says Investgraphs Stock Survey. "We still expect the market to work its way through 680 and 700 in the near future."

Academy Entry 'Lawrence' Gets 5 Globe Awards

HOLLYWOOD (UPI) — "Lawrence of Arabia," a major contender in the Academy Award race this year, this week won five awards including that for the year's best dramatic movie at the annual Hollywood Foreign Press Association Golden Globe awards.

Rock Hudson and Doris Day received Golden Globes as the most popular movie stars in the world while Bob Hope was given the annual Cecil B. DeMille award in recognition of outstanding work in motion pictures.

"The Music Man" was named the top musical of 1962 and "To Kill a Mockingbird" won three awards, including Gregory Peck for the top dramatic acting role.

Geraldine Page was named top dramatic actress in "Sweet Bird of Youth." The foreign press chose David Lean as best director for "Lawrence of Arabia," and also selected Omar Sharif of that film as best supporting actor.

Angela Lansbury was selected as best supporting actress for "The Manchurian Candidate."

Top News In Brief

QUAKE-HITS FORMOSA

TAIPEI, Formosa (UPI) — A sharp earthquake in northern Formosa caused landslides Monday and was blamed for a fire that destroyed eight buildings. No casualties were reported.

FINDS MONEY IN CHAIR

BLACKBURN, England (UPI) — Mrs. Alice Renshaw did not have enough money to buy coal so she decided to chop up an old chair. She found \$1166.20 in the upholstery.

BURGLARS GET BREAK

PARIS (UPI) — Burglars stole \$1,200 worth of watches and jewelry from the safe of jeweler Yvon Montebault Monday night. They did not have to break in. He left the keys in the lock.

ESCAPES ANCIENT RITE

NEW DELHI (UPI) — Indian Express newspapers said today that a young widow was seriously burned in a remote village when the residents tried to revive the ancient Hindu custom of suttee and forced her onto her husband's funeral pyre.

DECLINES INVITATION

JERUSALEM, Israel (UPI) — A heavy work schedule will force Premier David Ben-Gurion to decline an invitation to Time Magazine's 40th anniversary celebration in New York in May, government sources said here Wednesday.

Rating Firms Might Have To Be Licensed

Television In Review

By RICK DU BROW

HOLLYWOOD (UPI) — In the current congressional probe of television ratings, the most fascinating point raised thus far concerns the possibility of ordering the firms that supply them to be federally licensed.

Under such a possibility, the ratings services, which possess vast life-and-death power over shows with their statistical findings, and which were criticized earlier this year by the Federal Trade Commission (FTC), would be subject to standards pooled by the Federal Communications Commission (FCC).

There is a school of thought that maintains this is nothing but a logical step since, under the law, the airwaves belong to the public, which is acted for by the FCC, which in turn keeps an eye on the networks and the individual stations, who eventually are responsible for the FCC and therefore the public.

Others Would Benefit

Therefore, this thinking goes, shouldn't any organizations that have such enormous influence in deciding the shape of public-owned property—and what shows the public sees on television—have their credentials first approved by the government? In other words, the private interests of the sponsors, who use the ratings to determine how many theoretical customers they are reaching, would still be beneficiaries of the system, but not the only ones.

Conceivably, though there is natural doubt about the prospects of putting such an idea into effect, it is still enough to send a chill through any small minds in the network entertainment departments, for if a major ratings service were to have trouble with the standards, the embarrassment all around would be obvious, and uncomfortable methods of screening these ratings might have to be devised; and small minds frequently panic when left to make their own decisions. The large mind knows there is always another way.

The attitude of many ratings addicts is primarily this: we know the ratings may not be perfect, but we have nothing else to go by, so let's all try to improve what we have — but let us do it mainly, and the networks, except for a rare frank public admission, aver that ratings are just another one of their guides, which is nonsense. But to understand the depth of feeling by many network and station officials against further federal inroads on television, it is important to understand also one of their most sensitive areas:

What sticks in their throat is that, while newspapers have no official responsibility to a government agency, the networks and the stations do — to the FCC. Which is why a fellow like Newton Minow, chairman of that

Agency, Incurs So Much Industry Wrath

By going around making widely publicized denunciations about the "wasteland."

As for the ratings organizations, the three major ones not long ago signed consent orders that forbid use of survey techniques which the Federal Trade Commission claimed were the cause of bias or error. Such signing was a mere agreement to avoid definite practices, rather than an admission of guilt, though the FTC made specific charges about methods and used the words "false misleading and deceptive representations."

But what makes the present congressional probe so provocative is that it apparently is not only interested in the ratings accuracy, but also in whether federal communications legislation ever intended in the first place for such a thing as ratings to dictate programming.

This is the kind of thinking that could have earth-shaking results at the agencies and networks if

Kennedy Says No To Cuban Blockade Now

WASHINGTON (UPI) — President Kennedy ruled out a blockade against Cuba for the time being at least on grounds that it might lead to war with Russia.

Kennedy told his news conference yesterday he is satisfied that the United States is heading in the right direction in dealing with Fidel Castro's regime despite some strong criticism of administration policy.

Kennedy said he had no more information on withdrawal of Russian troops from Cuba and was not satisfied they were being removed quickly enough. He said there was no agreement with Russia regarding the schedule for withdrawal.

In response to other questions, followed to its final conclusion, and if backed up by action with sharp teeth. But since a great many seemingly intelligent people believe "there is no other way"—or, more likely, just don't want to be bothered — one must remain hopeful but skeptical until someone gets bitten.

The chief executive said:

The problem of Cuban-based Communist subversion in Latin America is one "that must be handled in each country" involved, He said "the wisest thing... is isolation of communism in this hemisphere."

He sees no prospect for resumption of friendly relations between Cuba and the United States. Hindight might indicate that the Soviet missile bases in Cuba could have been detected a few days earlier last fall, but only a few days.

LUXURY CAR: RIDES, RESPONDS AND LOOKS LIKE IT OUGHT TO COST A RANSOM

You're looking at our Impala Super Sport Convertible which, along with its cousin the Sport Coupe, absolutely embarrasses higher priced cars.

That special trim and those front bucket seats merely hint at the comforts you find built into every Impala Super Sport.

Performance? It's remarkable, an understatement we can afford when there are 7 engines to choose from. One of which is the popular 340-hp Turbo-Fire 499", a wizard in traffic and a joy on the open road. And others all the way up to 425 hp*.

If you want an extra flourish or two, mull over extra-cost options like floor-shift four-

speed manual or Powerglide transmission, Positraction, fade-resistant sintered-metallic brake linings, and a tachometer to relay what's cooking up front.

Just before you rush off to your Chevrolet dealer, may we remind you that both Impala Super Sports offer the new Comfortilt steering wheel*. You adjust it to suit your driving style, flick it out of the way for easy entry and exit.

All three Chevrolet series—Biscayne, Bel Air and Impala—deserve a long look. Super Sports demand it.

Super Sport equipment* available on both Impala Convertible and Sport Coupe.

*Optional at extra cost.
