'A WORD FILTY SPOKEN'

What a strange place the world would be if there were no conversation at all! Some may feel this would be a good thing, for then we would have a sort of paradise without and angry word, a bitter taunt, or a verbal abuse to mar the peace. However, conversation as a means of communication is vital to our way of life. And so the important thing is what we say, and how we say it.

Sometimes it seems difficult to hold back the angry retort we feel is justified or the sarcastic rejoinder when we are smarting under rebuke or defeat. We may, however, say things we deeply regret, which cause hurt and bitter feelings. John Lyly, a sixteenth century writer, put it this way: "We may knit that knot with our tongues that we shall never undo with our teeth."

Sometimes, too, we may chide ourselves for withholding the kind things we might have said in someone's hour of need. In the Bible the writer of Proverbs makes this apt comment (25:11): "A word filty spoken is like apples of gold in pictures of silver."

Since the spoken word can cause wars to begin or cease, since it is often the medium best for communicating both the best and the worst in our life, how can it be properly governed in conversation?

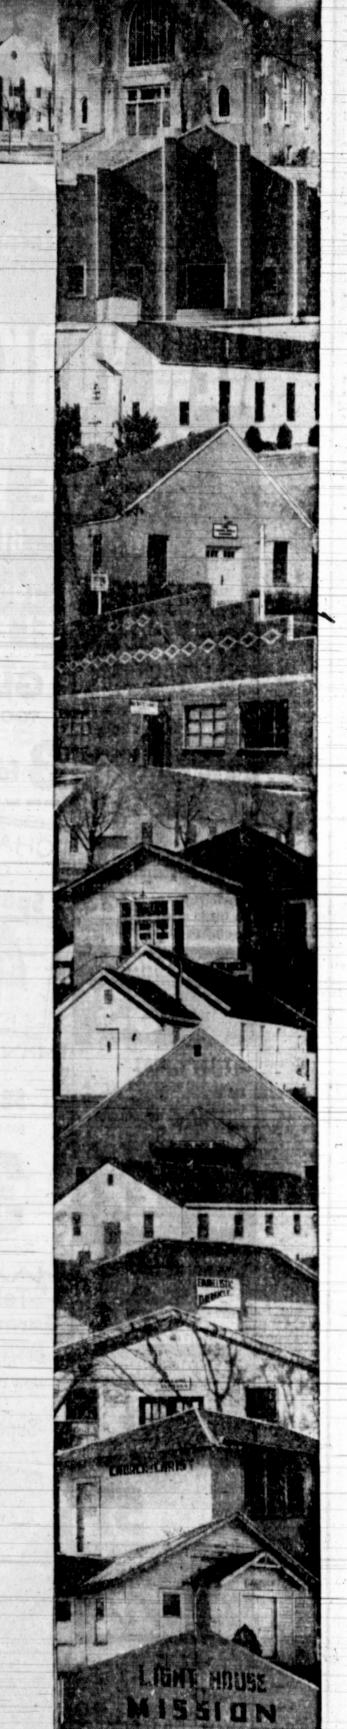

The Bible places great stress on the need of controlling the tongue. The Psalmist prayed thus (Ps. 19:14) "Let the words of my mouth, and the meditation of my heart, be acceptable in thy sight, O Lord, my strenth, and my redeemer."

Our conversation mirrors our thoughts. If our thoughts are right our conversation is good. If our thoughts are confused, our conversation is untidy and meaningless. Thoughts of God give our conversation the right impetus.

Stumbling blocks to good conversation are thoughts of fear, doubt resentment, willfulness, criticism. These negative traits result in conversaion that is clumsy and often hateful. But we can stop this harmful practice right at the source by keeping in thought the perfect nature of man in God's likeness.

Christ Jesus provided the matchless example for all conversation. He allowed nothing but divine Love to govern what he said and did.

Incomes dipped sharply from the end of the Korean War to 1956; from 1956 to 1960 the trend was slightly upward. Since 1960, farm income has risen 10 per cent, or \$1.2 billion, due to higher farm prices, greater volume of marketings and bigger government subsidies. CENTER LEFT PHOTO - Mrs. Bob Curry, left, who is currently Presentation Chairman, has been an active membership drive worker and on the board for 12 years, serving in various offices including that of publicity chairman for several years, and Mrs. A. A. Schuneman, who was concert board secretary for five years in the late 40's and early 50's and continues in active support of the Association.

LOWER LEFT PHOTO - The welcome support of business and professional men in the community has been a definite asset to the success of the association such as the group pictured here looking at the 1962 Pampa Daily News picture page, which was selected for national recognition in the Community Concert magazine. Left to right, Jack Skelly, who is a past president; has served on the board for many years and has not missed a Community Concert presentation in 19 years; Curt Beck, who is the immediate past president, having served two terms as president; served nine years on the board, is currently a board member; and Tex DeWeese, who served on the charter board of directors, when it was organized in 1944.

UPPER RIGHT PHOTO - Supporting the Pampa Community Concert Association down through the years in many capacities are Aubrey Steele, left who helped to draft the first set of by-laws, served seven years on the board, four as treasurer and E. O. Wedgeworth, who in the early years was on the board and has continued with active support of the association during 19 years of organization.

LOWER RIGHT — The sum total of years working on the Community Concert Board and in membership drives would make an impressive figure if they were totalled by the group pictured here. Left to right, Mrs. Horvey Nenstiel, who served as treasurer for 11 years, Mrs. Roy McKernan, who was the board's first vice president in 1944 and has served as president; Mrs. Leora Rose, who is currently a board member and has been for many years, and Mrs. Mel Davis, who served on the charter board of directors and for the ensuing 11 years as a board member, actively supporting all membership drives.

For after all, when they see that this American is unable to discuss their history, their culture, their current problems, or even to communicate in their language, then they certainly are not going to appreciate this type of tourist."

ported President Kennedy forcing a show - down in Cubasuch as has been done so far. That indicates to Khrushchev the solid front among the Western powers. The only language and the only moves the Soviet understand is strength and a show of it, insists the German ambassador.

But there is another deterrent to Soviet plans for further aggressive moves westward, he points out. The fact that there are 20 divisions of Russian troops in the Soviet zone of Germany, proves how fearful the communists are of an uprising against their tyranny. And although the, Wall of Shame through Berlin has prevented many from escaping to the West, more than 1,200, including a number of the East German police and military men, have succeeded in getting across to freedom. There can be no peace in the

world as long as Germany is divided, insists Ambassador Knappstein. "Reunification of Germany is not only vital for that country. it is also of major concern for all the free world and even for the Soviet Union," he says. "The 17 million people being held in that vast prison behind the Iron Curtain is expensive for Moscow. Not a single country in the world, with exception of the Soviet satellites, recognizes the puppet regime set up by the communists in East Germany," he points out. Until Soviet troops withdraw from the Soviet zone of Germany, just as they will be forced to leave Cuba, there is no hope for a lessening of the East-West tension.

The German ambassador called attention to the great to-do about gaining independence and "self - determination" for so-called states of semi - civilized populations in Asia and Africa. TRUTH FORUM

Birchers Truly Are Danger to Bureaucrats

By ED DELANEY

From across the nation are heard rumors that an all-out effort is being made by the John Birch Society to gain control of the Republican Party. Unfortunately the humor is too good to be true. There is no similar report of any drive by the Birchers to bring about a coup d'etat within the ranks of the Democratic Party. Undoubtedly they accept the fact that the Democratic Party is now the personal property of the Kennedy brothers, by arrangement with the Americans for Democratic Action and such presumptuous policy makers as are among the refugees of the Harvard illuminati. Therefore it is hopeless to even consider implanting a spark of pro-Americanism in that party which formerly claimed to follow Jeffersonian

Loud laments are heard that the rapidly growing Birch organization is a danger to the imperious bureaucrats in Washington, most of them political appointees. who presume to prescribe our policles, domestic and foreign, as well as taking command of what was once regarded as our national defenses. That rumor is true. The Birchers are a threat to those autocratic and arrogant hirelings of the administration who by their edicts usurp the powers of Congress, apparently with the protection of the President and his brother, the attorney general,

Members of the Birch Society are termed "extremists" and "super - patriots' because they consider the late Sen. Joe McCarthy a better patriot than Alger Hiss. Many individuals who refused to turn their backs on Alger Hiss are still holding important posts in the federal administration. Birch Society members are call-

ed "fascists" by a segment of the administration and the "liberals" because they have stripped the veil of anonymity from some of the spokesmen of the State where policies are hatched and later given the tacit or express ing in Seattle, November 1961, Mr. Kennedy castigated those he dubbed "right wing extremists." Apparently taking that as his cue, on Dec. 27, 1961, Carl T. Rowan, deputy assistant secretary of State for public affairs, stated in a Philadelphia address that "we have a conglomeration of arch conservatives; people who oppose the income tax; avowed defenders of racial segregation, opponents of fluor lation of water; those who want to destroy the Supreme Court, largely because of its ruling on school segregation, and so forth." With these so-called "extremists" are grouped also, by the administration spokesmen, those who are implacable foes of the communists and the cryptocommunists, in and out of federal office.

Of course Birchers are damned because they refuse to salute that spider-web flag of the United Nations and demand that we do no: show the white flag of surrender in Cuba or anywhere else when we are challenged by the Reds. The primary objective of the Birch Society is to inform and educate the American people. particularly in political affairs. Their expose of misdeeds is not confined to those of one particular political party. For instance, they point out that had it not been for the aid given Castro by the Eisenhower administration, the situation would never have arisen for President Kennedy to make two monumental blunders in his handling of the Cuban situation: the Bay of Pigs fiasco and the failure to force the issue against the Soviet last October. That was not the only situation in which Eisenhower was duped by the communists and neo-communists with whom he had surrounded

The Birch Society is said to be a secret organization. Nonsense. Anyone may attend their meetings.
