Tornadoes Hit South; Four Killed

Three States Ripped By Vicious Winds

CULLMAN, Ala. (UPI)—A new tornado alert was flashed today for battered north Alabama, one of three Southern states which counted four dead and millions of dollars damage from vicious twisters less than 24 hours earlier.

Two persons were killed in north Alabama Monday, one died in Mississippi and another in Tennessee when the funnels born in a squall line cut destructive swaths of destruction.

In Birmingham, the U. S. Weather Bureau issued an emergency warning of three new storms, one in the Cullman area that bore the brunt of Monday's tornado, another near Sylacauga and another near Tuscaloosa.

A severe thunderstorm hit an area just southwest of Sylacauga. Squally weather also was spotted on radar southwest of Cullman.

The squall lines were moving toward Georgia at mid-morning.

Severe Winds Due

The Weather Bureau warned of a tornado or severe winds in the new Alabama storms.

Wind gusts up to 60 miles an hour, hail and heavy rains accompanied the Alabama thunderstorms.

Flood waters raced through the tornado-stricken area in Middle Tennessee. Several homes were washed away on the Sequatchie River near Jasper, west of Chattanooga. A five-foot mud and rock slide blocked a highway between Madisonville and Tellico Plains.

Alabama Agriculture Commissioner A. W. Todd said the rain and wind accompanying the Alabama tornadoes Monday caused more than \$4 million damage to the soil alone.

Preliminary surveys of the stricken areas in Mississippi, Alabama and Tennessee indicated more than 150 homes and buildings destroyed or heavily damaged. More than 20 persons were injured.

Many Towns Hit

The tornadoes struck at least 24 small communities in the three states. Heavy winds damaged homes and outbuildings in many others.

A twister or high winds was reported shortly after 7:30 a.m. CST today in Newton County, Miss. Sheriff Joey F. Johnston said the storm did considerable damage to barns, outhouses and trees but there were no personal injuries.

A tornado apparently skipped over the government's Redstone Arsenal at Huntsville, hitting small communities on either side.

The tornadoes appeared to have caused the heaviest damage in this area, 50 miles north of Bessemer, Ala., where merchants and home owners still were repairing stores and houses damaged in a \$7 million tornado that (See STATES, Page 3)

By United Press International

Winter weather, which hasn't been gone very long, pays a return visit to balmy Texas today with the promise of snow and blowing dust for the Panhandle and extreme Southwestern Texas.

The cold air, drawn into the state by a low pressure system over the Plains states, was to arrive in the Panhandle around noon and forecasters said it would spread to the coastal regions by Wednesday.

Snow activity is expected along and behind the frontal area, especially when it reaches Central and East Texas.

The low pressure system will cause increasing west to southwest winds over the state today and these should be strong enough to kick up dust in the far western sections.

Scattered snow is forecast for the Panhandle and also the northern portions of extreme Southwestern Texas.

Meanwhile, the state basked under generally clear skies and balmy temperatures with the overnight minimums ranging from 28 degrees at Dalhart to 68 at Brownsville.

Daytime temperatures ahead of the front were expected to compare with Monday when the mercury climbed as high as 91 degrees at downtown Corpus Christi and 89 at Brownsville—the warmest spots in the nation. Dalhart's 62 degrees was the state's coolest.

"TRAVELING SCIENTIST" — Linda Key, senior at Pampa High School, left, Don Rexroad and Jim Sanders, right, both juniors, listen attentively to Carl W. Clader, who explains to the chemistry students the principles of electrolysis of water. Clader is chairman of the science department of New Trier Township High School, Winnetka, Ill., spent the day talking to chemistry classes in the Pampa schools. (Daily News Photo)

Evidence Found Backing Up Cuban Kidnaping Claim

MIAMI (UPI)—Spent Russian rifle cartridges and bullet holes in a lighthouse were offered Monday to back up claims that eight Cuban exile fishermen were kidnaped by Castro raiders from a Bahamian island.

Miami attorney Charles R. Ashmann and two Bahamian minority political party leaders said they found the bullet holes and spent cartridges when they secretly visited Elbow Cay, about 50 miles north of Cuba, Sunday.

They said they also found the driver's license of one of the missing exiles.

Ashmann said the eight "will be executed if the British and Bahamian governments, whose waters and territory have been violated by Castro, do not intervene."

Ashmann and the two party leaders claimed the evidence they had found "proved conclusively" that the official Bahamian government report on the kidnaping allegation "was a complete contradiction of the facts and was a grave injustice to the eight men now in Castro's hands."

The Bahamian government, after Ashmann made the kidnap charge last week, investigated and reported it could find no evidence to support the charge.

Ashmann and Bahamians Cyril Stevenson and Henry Taylor said they would report their findings to British Labor party leader Harold Wilson in London and ask him for help. They said they were also seeking help from the Red Cross.

The three men said they found on the island upwards of 1,000 spent rifle and pistol cartridges, many of them for Russian 7.62 millimeter Tokarev rifles and others for American and British weapons, two U. S. Army-type shotguns, a spent Belgian rifle grenade, a poncho and two field packs. "Fresh" bullet holes in an abandoned lighthouse on the island and part of a Florida driver's license issued to Eleno Alvarez, one of the eight missing men.

Thief Beware

CAMDEN, N.J. (UPI)—The thief who stole a car from a downtown parking lot Monday is in for real trouble if he's caught and appears before Municipal Judge Alex C. Alampi. The car belongs to his honor.

USSR May Be Maneuvering With Chinese

MOSCOW (UPI)—The Soviet Union may be maneuvering to gain time in its ideological and political dispute with Communist China, informed Western observers said here today.

They said this may be the meaning of the public admission that behind-the-scenes efforts are being made to find a compromise with Peking.

The official government newspaper Izvestia Monday printed a front-page report that the powerful Communist party Central Committee has reiterated to the Chinese that there is a need for a meeting to discuss differences.

Observers said it now appeared that both Moscow and Peking have agreed in principle on the need for such a meeting.

There was no indication when such a meeting would take place and it was generally agreed here that if it does, it will not bring together Premier Nikita S. Khrushchev and Chinese party secretary Mao Tse-tung.

Observers also pointed out there was no indication that the sides actually have moved any closer to settling their differences.

They said the Soviets may have published the report of the negotiations in order to gain some time in working out a solution.

TWO-YEAR LAPSE

NASHVILLE, Tenn. (UPI)—Judge Raymond H. Leathers Monday ordered Thomas Jones, 29, released from jail because he was "denied a speedy trial."

Leathers said there was a two-year lapse from the time a burglary warrant against Jones was issued until it was served and suggested that "somebody has failed to do their job."

Rate Ordinance Due For Second Reading

Second reading of Pampa's water and sewer rate increase ordinance is scheduled at tonight's regular meeting of the City Commission in City Hall.

The rate increase legislation calling for a 30 per cent increase in water rates, a 100 per cent increase in sewer rates, and a 40 per cent overall increase in combined water and sewer rates, was unanimously passed at a meeting of the commission last Friday night.

Commissioners agreed the action was necessary to meet financial obligations of the Canadian River Municipal Water Authority and construction of a surface water treatment plant.

The Canadian River Dam already is under construction at Sanford and Pampa is due to receive water from the project in 1968.

City officials plan to take the additional money received from water and sewer revenue and place it in a fund which should amount to approximately \$1,000,000 by 1968.

This, they say, will eliminate the necessity of a bond issue when the CRMWA financial obligation falls due.

Doctor Describes Changing Picture Of Nursing Home

Dr. M. C. Overton Jr., vice president of the Top O' Texas Foundation, voluntary organization currently conducting a community campaign in Pampa and Gray County to raise \$300,000 for a 50-bed community nursing care home, today issued the following statement on what he termed the changing image of the nursing home.

"Asked what a nursing home looks like, most persons without too much hesitation would describe a large multi-story house in the older part of town, abandoned as impractical for family living but whose large rooms and numerous bedrooms make it suitable (or almost so) for conversion to a home for convalescents or the chronically ill. Inside, the halls would be just a bit too narrow, the bathrooms few, and stairways too steep and long."

Continuing, Dr. Overton said, "Examples of this kind of nursing home are familiar fixtures in thousands of communities. It is true, and they no doubt will remain for some time to come, but in recent years the image of the Nursing Home has changed considerably and has become an attractive structure of contemporary design. Usually one-story, carefully planned with the special needs of the convalescent or chronically ill patient in mind."

"From the outside, it frequently looks less like a nursing home than a motel or lakeside resort. Inside, the nursing units and other patient areas are very similar to those of a typical community hospital."

"In summary, let me state emphatically," said Dr. Overton, "that a nursing home is not a place where people go to die, but rather a place where a once desperate patient can find a new chance and new hope in life."

Report meetings currently are being held three times a week at the Court House Cafe by the Campaign Executive Committee.

Report meetings currently are being held three times a week at the Court House Cafe by the Campaign Executive Committee.

Bavarian Interior Minister Offers Bidault Asylum

STEINEBACH, Germany (UPI)—Georges Bidault, leader of a movement seeking to topple French President Charles de Gaulle, appeared certain of political asylum in West Germany today if he wants it.

Heinrich Junker, interior minister of the West German state of Bavaria, said Bidault could have asylum if he makes a written request and pledges to forego political activity. He said Bidault already had made an oral request for refuge.

Bidault, 63, a gray-haired former French premier, heads the National Resistance Council (CNR), an organization dedicated to overthrowing De Gaulle and seizing control of France. The CNR is linked to the Secret Army Organization (OAS) which has conducted terrorist activities against De Gaulle and his government.

Deny Oral Request

Bidault's aides Monday night denied he had made an oral request for asylum after being discovered in this Alpine resort Sunday. There was speculation whether the dapper fugitive from France would agree to Bavaria's conditions that he cease political activities.

In Paris, French officials said they interpreted reports that Bidault had asked for asylum as meaning he had abandoned his struggle against De Gaulle. They looked upon his possible stay in Bavaria as an adequate solution to the problem.

Officials in Paris believed acceptance of asylum by Bidault would get De Gaulle and West German Chancellor Konrad Adenauer out of a tight spot. De Gaulle and Adenauer recently signed an historic friendship treaty, and Bidault's discovery in Bavaria created a sensitive situation.

Once Worked Together

Adenauer, apparently determined to preserve his new alliance with De Gaulle, Monday sent back unopened Bidault's personal plea to an "old friend" for asylum. Adenauer and Bidault once worked together on building a European army.

By rejecting the plea, Adenauer gave the impression that he was doing nothing behind De Gaulle's back.

Troop Evacuation Count Will Not Be Out On Friday

WASHINGTON (UPI)—Next Friday, the 15th of March, and the day the Russians have promised to have "several thousand" troops out of Cuba, may well be a great international anti-climax.

High administration officials said today they do not expect to be able to make public on that day a "head-count" of the number of troops that have left the island.

Unlike last October and November, when Soviet officers rolled back the coverings of missiles aboard ships so U.S. planes could count them, there is no agreement with the Russians on counting departing troops.

The Soviets may try to claim some kind of "settlement" has occurred with the removal of a number of troops. But, as far as can be learned, they do not appear to be making it easy for the Kennedy administration to count the departing soldiers and justify the "settlement" to the American public.

U.S. aerial reconnaissance can count persons on the decks of ships, but must guess how many are below deck. Moscow Radio this week protested what it called the "buzzing" of Soviet passenger ships on the Russia-Cuba run by the U.S. Air Force.

Another problem is whether Soviet ships arriving in Cuba are bringing replacements, and, if so, what the net outflow of personnel is.

U.S. officials say photo reconnaissance at sea alone will not produce the answer. It may take some time to come up with an estimate of troop withdrawals, based partly on observations of Soviet military camps and barracks in Cuba and on "indirect" intelligence.

Rate Ordinance Due For Second Reading

Second reading of Pampa's water and sewer rate increase ordinance is scheduled at tonight's regular meeting of the City Commission in City Hall.

The rate increase legislation calling for a 30 per cent increase in water rates, a 100 per cent increase in sewer rates, and a 40 per cent overall increase in combined water and sewer rates, was unanimously passed at a meeting of the commission last Friday night.

Commissioners agreed the action was necessary to meet financial obligations of the Canadian River Municipal Water Authority and construction of a surface water treatment plant.

The Canadian River Dam already is under construction at Sanford and Pampa is due to receive water from the project in 1968.

City officials plan to take the additional money received from water and sewer revenue and place it in a fund which should amount to approximately \$1,000,000 by 1968.

This, they say, will eliminate the necessity of a bond issue when the CRMWA financial obligation falls due.

U.S. Denies Red Charges

SAIGON, Viet Nam (UPI)—A U. S. military spokesman denied Communist charges today that poison gas has been used in the fight against Viet Cong guerrillas in this southeast Asian nation.

He said the charges apparently referred to leaf-killing chemicals known as defoliants which have been sprayed from U. S. Air Force planes in Viet Nam for more than a year.

The spokesman said the well publicized chemicals are used to kill foliage providing possible ambush cover along canals and roads. They are harmless to humans and animals, he said.

Communist broadcasts and publications—most recently the Soviet newspaper Red Star—have alleged that the United States is using poison gas while helping government troops fight Communist guerrillas.

U. S. officials say the Reds are attempting to exploit the ignorance of Vietnamese peasants and their resentment when their vegetables and fruit trees are accidentally killed.

Government leaflets are dropped before spraying an area to explain the reasons for it and the harmlessness of the chemicals to humans.

New Arab Unity Threatens Israel

DAMASCUS, Syria (UPI)—A new drive toward Arab unity resulting from last week's revolution in Syria appeared today to have created a threat of increased trouble for Israel.

Iraqi Vice Premier Salah El Saadi is in Damascus conferring with Syrian leaders on plans to create a joint military command which would link their two nations with the United Arab Republic (U.A.R.), Yemen and Algeria.

Saadi gave some indications during a talk with newsmen Monday night that the joint military venture might be directed against the Israelis.

Asked if it would be used as a weapon for the "final obliteration" of the Jewish state, he said, "It will be a weapon enabling the Arabs to regain their freedom and rights and to prevent imperialism interfering in Arab areas."

(In London, the Daily Telegraph said the Syrians and Iraqis had agreed to "intensify action against Israel.")

The Arabs have always contended that Israel is Arab territory and that the Israelis are tools of imperialism.

It is generally agreed that any movement that would tend to unite the Arabs, who have an overwhelming manpower superiority, would cause potential trouble for the Israelis.

The Syrian revolution Friday, on the heels of a similar uprising Feb. 8 in Iraq, has given the cause of Arab unity new impetus.

(In Cairo Monday, U.A.R. officials withheld comment on the Iraqi-Syrian proposals.)

Ex-Candidate Is Arrested

DALLAS (UPI)—A former candidate for the state Senate, L. R. (Scotty) Ernce of Amarillo, was arrested in northwest Dallas county Monday night on embezzlement charges returned Friday by the Potter County grand jury.

The sealed charges alleged eight counts of embezzlement by check totaling \$3,038.62. The indictments said the alleged embezzlement occurred between March, 1962 and January, 1963.

Ernce ran for the Senate seat of District 31 on the Republican ticket last November. The district covers the northern half of the Panhandle.

Sen. Grady Hazlewood of Amarillo defeated Ernce in the Senate contest.

Ernce was arrested by detective Bucky Walters in Coppell, Tex., at the home of Ernce's father-in-law.

Potter County Sheriff, Jim Line, said he would travel to Dallas today to pick up Ernce.

Ernce was a former district supervisor of the Western Electric Co.

Two AF Planes Shoot Themselves

WASHINGTON (UPI)—Two Air Force planes were shot down recently by a weapon they were testing. However, the two pilots and a cameraman ejected safely from the aircraft.

The report was made in previously secret testimony released Monday by the House Armed Services Committee.

Gen. Curtis E. LeMay, Air Force chief of staff, said the planes were dropping land mines with delayed fuses on some railroad tracks when one went off "instantaneously."

"The fragments shot down both of the airplanes," LeMay said.

If it comes from a hardware store we have it. Lewis Hyde. Adv.

Estes Jury Panel To Be Completed Today In El Paso

EL PASO, Tex. (UPI)—Completion of a jury panel was expected today in the federal fraud trial of Billie Sol Estes, setting the stage for a U.S. district judge's decision on whether to continue or move proceedings to San Antonio.

Twelve prospective jurors from the panel of 28 were chosen Monday.

U.S. District Judge R. Ewing Thomson weighed carefully the answers of the prospective jurors to determine whether they are impartial.

The defense contended that Estes, 38, who allegedly handled more than \$20 million dollars worth of mortgages on liquid fertilizer tanks, could not get a fair trial in El Paso on the 18 fraud charges because an impartial jury "fighting machine" needed for the U. S. defense arsenal.

Defense Secretary Robert S. McNamara plans only to complete three experimental models. He has contended that further development of the RS70 would not be worth the cost, possibly more than \$10 billion. Missile advancements soon would make it obsolete, he has argued.

Too Many Missiles?

However, Vinson and most of his committee believe the United States has been putting too many of its defense eggs in the missile basket.

The bill also carries authorization for two additional nuclear-powered attack submarines to counter the growing threat of the Russian submarine fleet, now the largest in the world.

The two extra "killer" subs would cost \$134 million and bring the number of new ones authorized to eight. McNamara had asked for six.

The administration would not have to spend any of the additional money authorized. That decision is left up to the executive branch.

House Ready To Pass Largest Defense Bill

WASHINGTON (UPI)—The House was ready today to pass the largest military authorization bill in U. S. history, a \$15.8 billion measure to give the armed forces new missiles, planes and warships.

Its champion was Rep. Carl Vinson, D-Ga., powerful chairman of the House Armed Services Committee, who shoved through the House on a 387-3 vote Monday a four-year extension of the draft law.

"Nothing gets us into war quicker than weakness," Vinson says, and that was the message he planned to carry to the House floor.

Wants Budget Hike

Vinson was ready to ask the House to boost President Kennedy's arms budget by \$497.7 million. Included would be \$363.7 million for the giant RS70 warplane, which would be capable of flying 2,000 miles an hour and firing missiles at ground targets.

The House group wants the administration to build an additional two RS70s with complete weapons systems to prove whether the supersonic aircraft is a sound

DEFENDS SPACE—James E. Webb, head of National Aeronautics and Space Administration, warned the House Space Committee not to cut his agency's \$5.7-billion budget in an attempt to reduce government spending to provide for a tax cut. Webb said he saw no economy in letting Russia get ahead in space.

TO VISIT TITO

LONDON (UPI)—Foreign Secretary Lord Home probably will visit Yugoslavia this summer, the Foreign Office announced Sunday.

A spokesman said Home would accept an invitation from President Josip Broz Tito, but that no date has been set.

Yarborough Urges Poll Tax Abolition

WASHINGTON (UPI)—Members of the Texas Legislature will soon receive a letter from Sen. Ralph Yarborough, D-Tex., urging their approval of a constitutional amendment abolishing the poll tax in federal elections.

Yarborough sent a note to the legislators Monday saying that 13 states had already acted favorably on the amendment, submitted by Congress last year for ratification.

"It is my hope," Yarborough wrote, "that the Texas Legislature will join those approving the amendment."

Dr. HORACE CASEY
To Speak

Church Plans Lenten Series

The First Presbyterian Church will hold the first in a series of Pre-Easter Family Services Wednesday at 7 p.m.

Dr. Horace Casey, pastor of the First Presbyterian Church in Enid, Okla., will be the speaker for this service. His subject will be "Knowing Th Lord Jesus Christ as Prophet".

Dr. Casey served as a chaplain during World War II and has been pastor of the Enid church since 1945. He has served as moderator of the Synod of Oklahoma, and is currently chairman of the Synod's General Council.

Other services in the series to be held through the Lenten season, will feature Dr. J. Hoytt Boles, executive of the Synod of Texas; Dr. Earl Crawford, pastor of the First Presbyterian Church in Wichita Falls; and the Rev. C. M. Schindler, pastor of the Covenant Presbyterian Church of Lubbock. They will complete the series of services on the theme, "Knowing the Lord Jesus Christ as... Priest, King and Saviour."

The services are open to all and will be preceded by a covered dish fellowship supper at 6 p.m.

Weekly Report To Texans

By SEN. JOHN TOWER

Senator John Tower (R. Texas) commented in his weekly radio broadcast to Texans on the President's Office of Emergency Planning recommendation of a relaxation of controls on the import of foreign residual fuel oils. Senator Tower called for a "tightening up" on importation of oils and oil products from overseas in view of facts and figures which have come to light regarding present importation practices. Senator Tower's comments follow:

Recently, the President's Office of Emergency Planning recommended a relaxation of controls on the import of foreign residual fuel oils.

The controls were placed into effect during the Administration of former President Eisenhower as one means of assisting the domestic oil industry. It was designed to prevent the importation of excessive amounts of foreign residual oils.

I do not need to remind you Texans here of the tremendous benefit that the state receives from the production of oil: in terms of productivity, in terms of jobs, in terms of revenues produced, both private revenues and tax revenues. For many years the revenue derived from oil has been a major factor in paying for the cost of our state government and our schools. When this revenue goes down, the state has to make up the difference in taxes from other sources. In short, when the oil industry prospers in Texas, the entire state benefits. Workers have jobs; the state has tax revenue, and the education of our children is made secure.

Because of this, any legislation or regulations affecting oil, either on the state or national level, affects the well-being of all Texans. And in that light, I would like to comment briefly on the recommendation of the President's Office of Emergency Planning for the reduction or relaxation of controls on the importation of foreign residual fuel oils.

Nearly 10 per cent of all U.S. oil production goes into residual fuel oil. The Texas Independent

Producers and Royalty Owners Association estimates that removal or relaxation of import controls would result in price deterioration involving some 900,000 barrels of residual fuel oil daily.

This is not the only thing which concerns us. The Office of Emergency Planning indicated in its report that import controls ought to be relaxed not only on residual fuel oils but on crude oil as well. They did not come right out and say this. But they indicated it by saying that the relaxation of controls would be consistent with national security and the attainment of hemispheric objectives which contribute to the national security. This is the reasoning of the Office of Emergency Planning on residual fuels; it could very well be applied to crude oil as well.

There is another aspect of this oil importation problem that I think the public is generally unaware of. It is conceivable that we are indirectly buying oil from the Soviet Union. In the fiscal year of 1961, we purchased from Italy 145,617 barrels of oil products. In the fiscal year of 1962 we purchased from Italy 695,424 barrels of products. I am not saying that all of these products were refined from Russian oil. But it is conceivable that a good bit of it was. Italy purchased more crude from Russia than any other country in Western Europe. They were followed by West Germany. Italy imports more crude from Russia than any other country in the free world taking over 21 per cent of the total Soviet bloc petroleum exports to the free world. These are facts that I think should be known by the people of Texas.

I think the time has come for us to insist on no relaxation of controls on imports but on tightening up the importation of oils and oil products of any kind from overseas. With our rigs stacked in Texas, we have more rigs stacked than we have in operation with the dependency that we have on the oil industry, with its vital character to the national defense, our domestic oil industry must be protected.

DATE BAIT—Vicki Palmer, Cathedral City, Calif., will reign as Queen Scheherazade during the National Date Festival at Indio, Calif. Here, Miss Palmer is crowned by last year's queen, Linda Strangman, and professional golfer Arnold Palmer, done up in fancy duds for the occasion.

Irish Luck?

LONG BEACH, Calif. (UPI) — Some local sons of Erin decided to celebrate St. Patrick's Day by flying in live shamrocks from Ireland to plant in a park here.

Then Monday, it was pointed out that the city-owned park lies, saints preserve us, in Orange County.

Pampa Bands Set Concert Thursday

Pampa High School Band, Pampa Junior High Band and Robert E. Lee Junior High Band will appear in a Mid-Winter Concert on Thursday at 7:30 p.m. in the Lee Junior High auditorium.

Miss Maurine Hickman, PHS senior, will be featured in a flute solo, "Meditation" from Thais.

The high school band, directed by Fred Stockdale, will present "Nobles of the Mystic Shrine" (Sousa); four selections from Suite of Old American Dances (Bennett); Scheherazade (Rimsky-Korsakov).

Joe DiCosimo will direct the Robert E. Lee Junior High Band in "Hall of Fame" (J. Olivadotti); "Allerseelen" (Strauss - Davis); "Overture For Winds" (Carter); "Gold And Silver" (Lehar - Co-field).

Pampa Junior High under the baton of Homer Krueger will play "Chantez Oak" (Osterling); "Tocata For Band" (Frank Erickson); "The Unsinkable Molly Brown" (Meredit Wilson-Redd); "Thunder West" (Kenneth Farrell).

Robert E. Lee and Pampa Junior High drummers will be featured in "Serenade To A Sand Dune" (Abel). An encore by the Pampa High School Band will conclude the concert.

Immediately following the concert, band parents will meet in the auditorium for a special meeting.

Special Films To Be Shown

In an attempt to bring flight information of useful nature to local pilots, plans are being made, to form a club, to be called the Pampa Pilots Association, according to Jim Weatherford, 1900 N. Christy.

A program has been arranged for Thursday at 7:30 p.m. in the Pampa High School auditorium. Special films of the space flights of Friendship 7, Aurora 7 and Freedom 7 will be shown, as well as a film on the Gemini project and one on detection and analysis of severe weather and meteorology.

The meeting will be free, and open to the public.

States

(Continued From Page 1) struck two weeks ago.

At least 10 persons were injured and 100 homes were destroyed or severely damaged in this area.

A few hours later the tornadoes hop-scotched across middle and east Tennessee, causing heavy damage in the Cedar Grove community near Chattanooga and at Newport in the Great Smoky Mountains.

Cocke County Sheriff Kin Holt said seven persons were reported missing at Parrottsville near Newport, but they later were found safe.

At least seven persons were injured in Tennessee but none of the injuries were serious.

Heavy rains caused flooding in the low-lying areas in middle die Tennessee near Nashville.

The dead were listed as Mrs. Minnie Dunn, 80 and Mrs. Geraldine Bowen, both of near Cullman; Jerry Oakley, 17, of Parrottsville, and V. T. Kelley, 35, of Reform, Miss.

Hundreds of highway patrolmen were moved into the stricken areas near Cullman, where the most harsh twister cut a swath almost one-fourth mile wide.

Other tornadoes which struck in Alabama damaged houses in northwest Pickens County and caused an injury to one person in Madison County when a house collapsed. Light damage was reported near the Huntsville, Ala., airport.

A tornado apparently skipped over the government's Redstone Arsenal at Huntsville, hitting small communities on either side.

"We just huddled together and watched it blow," said Mrs. H. R. Payne of the Berlin community. "I saw the air filled with tin and all sorts of things. I saw it hit a store and I thought we would be next."

MUSTN'T LIE
HOUSTON (UPI)—The first police manual issued by the Houston Police Department tells officers they can't accept rewards, cannot lie or gripe, must keep their shoes shined and must not fire warning shots at suspects.

Municipal Court Docket

Student Council Discusses Plans For PHS Activity

Plans for a National Honor Society Assembly were announced for Wednesday at 9:30 a.m. in the high school auditorium at the Pampa High School Student Council meeting held this morning.

Thirty-seven students will be initiated. Parents of new and old National Honor Society members are cordially invited to attend, as well as any interested adult.

It was announced that junior students may order senior rings in the Co-Op beginning March 18; a \$5.00 deposit is required.

Announcement of school activities included: Quill and Scroll initiation to be held at 6:30 p.m. tonight in the school cafeteria; Latin Club banquet to be held at 7:30 p.m. Saturday in the school cafeteria.

Pampa High School, Pampa Junior High and Robert E. Lee Junior High School bands will present a Mid-Winter Concert on Thursday in the Lee Junior

Membership Drive 'Cleaning Up'

PERRYTON (Spl) — The Perryton "Clean-up Committee" is following through with uncontacted cards from the Y.M.C.A. 1963 membership campaign held in January. The group, under the leadership of A. P. McElvey, consists of Tom Waugh, Fred Osborne, Joe Erickson, and Bob Zink. Persons interested in a Y.M.C.A. membership may contact any committee member.

A LITTLE GLAMOR

COLNE VALLEY, Wales (UPI) — Strip-tease club owner Arthur Fox says he plans to bring two of his girls to all speeches during his campaign for the parliamentary by-election.

"I don't see why we shouldn't have some glamor," said Fox who is running on a reform platform.

High auditorium. The public is invited to attend.

Miss Luisa Prieto of Madrid, Spain and Turan Soleymez of Istanbul, Turkey, American Field Service students, who are attending Pampa High School this year, were to participate in a AFS assembly held in Borger High School this morning.

Kiwanians Hear Senior Girl Scouts At Monday Meet

Program chairman Paul Musgrave introduced Senior Girl Scout Natalie Skelly as the guest speaker at the Evening Kiwanis club meeting last night.

Miss Skelly showed slides and spoke on the 10,000 Girl Scouts who attended the 1962 roundup at Button Bay, Vermont.

The club had a large number of guests attending.

Guests from the Downtown Club included Warren Hasse, Rev. Russell West, police Chief Jim Conner, Carlton Nance, Bob Carmichael, Cletus Mitchell, J. B. Maguire and Bob Alford. Gary Steger of the Key Club was also a guest.

Personal guests included Buddy Price, guest of J. B. Price, Charlie Martin, guest of Traylor Price, Mage Kaiser, guest of Mark Harmon; George Smith, guest of Charlie Wilkerson; and Joe Williams, a guest of the Club.

John McCausland inducted two new members, Gene Buchanan and Charlie Clark.

Billie Sol

(Continued From Page 1)

trial jury can not be found.

"The first thing that greeted me when I arrived in El Paso yesterday (Sunday) was an inch-and-a-half headline saying, 'Billie Sol Facing a 160-year Penalty,'" head defense attorney John Cofer told Judge Thomason.

Six prospective jurors were excused after Cofer's questioning resulted in admissions that they might already have made up their minds about Estes.

The charges against Estes are part of a 29-count indictment that a U.S. grand jury returned, accusing the now-bankrupt agriculture tycoon of mail fraud, transporting fraudulent documents across state lines and conspiracy.

Maximum penalty on conviction of all counts would be 85 years' imprisonment.

Estes was sentenced to eight years in jail by a state court at Tyler on charges he swindled a farmer in a \$94,500 mortgage deal. The conviction is under appeal.

Lincoln was nominated for the presidency in Chicago on May 18, 1860.

YMCA Banquet Tickets On Sale

PERRYTON (Spl) — Tickets have been printed and are available at the YMCA for the Ministerial Appreciation Banquet which will be held March 23, at the High School cafeteria. Tickets must be purchased in advance. No tickets will be sold at the door.

The banquet sponsored by the Young Men's Christian Association, is open to the public.

Speaker for the evening will be Dr. M. E. Sadler, chancellor of Texas Christian University.

Police Checking Theft Reports

Police today were investigating a report of the theft of pipe last night from the Texas Pipe and Metal Co. yards, 854 S. Russell St.

A watchman telephoned that someone was carrying away small quantities of pipe.

Another report came from Howard Eberling of the Connelly Apartments, 722 W. Kingsmill, that thieves have been stealing gas from cars parked in front of the apartment house.

The Lighter Side

WASHINGTON (UPI) — There has been a lot of talk this year about the system under which Congress operates and whether it needs to be modernized.

Some deep thinkers seem to feel that the legislative machinery as presently constituted is too cumbersome to permit Congress to meet its responsibilities in the space age.

In support of their position, they point out that although approximately two months have elapsed since the current session began, hardly anything has happened.

I have no intention of getting involved in this controversy, but I would like to do my bit to keep at least one aspect of the record straight.

Not Very Noticeable

Contrary to the way it might appear to the naked eye, Congress actually has been rather busy this year. It's just that it hasn't done anything very noticeable.

I have been looking over the legislative calendar and I find that, going into the last week of February, the House of Representatives already had passed a total of two bills.

One of them extends the time for filing burial expenses for veterans. The other authorizes the armed forces to provide equipment and other support for the annual Boy Scouts jamboree.

Neither is exactly earth-shaking, but they certainly should quash any complaints that Congress is prone to dalliance or is composed of slugabeds.

Senate Less Productive

The Senate, it is true, has not been quite as productive as the House. By that I mean that the senators haven't passed any bills as yet.

This is not a sign of ennui or lackadaisical behavior, however. The Senate has been having some trouble getting organized. I can appreciate its problem because I often have trouble getting organized myself.

Even so, the Senate has managed to pass five resolutions. In one resolution, it notified the President that a quorum was present on opening day. In another resolution, it notified the House that a quorum was present.

BEDFORD FORREST Formerly With KGNC

Amarillo Reporter Joins Foundation

HALFWAY (Spl) — Dr. Earl H. Collier, Director of the High Plains Research Foundation at Halfway, Texas, announced today that Bedford Forrest, former Farm News Reporter with KGNC Radio and Television Studios in Amarillo joined the Foundation's staff on March 1. Forrest will be a Public Relations Representative for the Foundation and will travel extensively throughout the High Plains area in extending the work of the Foundation.

Forrest is well known throughout the High Plains area since he has done extensive work for KGNC in Amarillo in covering farm meetings. He was born in Clovis, New Mexico, and attended public schools in Hereford, Texas, where he graduated from high school. He is a graduate of West Texas State College in Canyon where he received his Bachelor of Science Degree and has recently completed most of the work towards his Masters Degree. He also holds a certificate in Public Relations from the University of Texas.

In announcing the employment of Forrest as a Public Relations Representative, Dr. Collier stated that "Mr. Forrest's farm experience and training in agriculture would be very valuable to the Foundation's research and educational program throughout the High Plains. His employment will enable the Foundation to extend its research information to more farmers and businessmen throughout all of West Texas."

Forrest is married to the former Jan Craig of Plainview, Texas. They have three daughters, Pam, six; Cherry, four; and Cathy, three. They are members of the Methodist Church. Forrest and family now reside at 1400 Utica in Plainview.

Washington Window

By LYLE C. WILSON
WASHINGTON (UPI) — The sharply edited Wall Street Journal utters a firm challenge to the idea that all is well with Gov. Nelson A. Rockefeller's political future.

Reporter Alan L. Otten wrote from Albany, N.Y., that the governor was in trouble. For example:

"A rebellion is raging inside and outside the state Legislature against the governor's proposed increases in auto and liquor fees. Critics insist that these would be tax boosts and thus would break a Rockefeller campaign pledge not to raise taxes."

Douglas Dales, of the New York Times' Albany bureau, wrote:

"Gov. Rockefeller appeared headed today (Feb. 27) for a major setback on his proposal to raise \$105 million more in levies on motor-vehicles and on the liquor industry."

Refusing Support

Many Republicans in the Legislature are refusing to support Rockefeller on the auto and liquor fees. Democrats are all against him and, also, against reduced spending. If the legislators vote the way they are talking, the governor's budget will be voted out of balance and he will be in bad trouble, with more to come.

The Journal reported that Rockefeller will need even more new money next year. The Journal quote a Rockefeller lieutenant as saying: "The revenue he needs this year would be peanuts compared to what he'll need next year if the economy doesn't really take off."

It appears, therefore, that Rockefeller and President Kennedy are on the same spot. The political future of both depends in large measure on a spurt in the national economy to increase tax revenue at existing rates, to absorb unemployment, to improve conditions, generally.

If Rockefeller is unable to keep the New York state budget in balance his national reputation is likely to suffer. He is likely to be hurt, also, if he must raise taxes regularly to keep up with his big spending programs. Rockefeller's principal appeal to conservatives has been that he was a sound pay-as-you-go governor. That image could fade.

Journal Report

The Wall Street Journal report seemed to raise the question whether Rockefeller really could carry New York state against Kennedy in 1964. That kind of negative speculation about New York's electoral vote could be seriously damaging to Rockefeller.

In the West Coast edition of the New York Times, however, were some more friendly words for the governor. The Times editorialized on what it termed the bankrupt Democratic opposition to proposed fee hikes.

"This is all the normal, standard Democratic horseplay in Albany," said the Times. "The only fiscal solution the Democrats offer is to go into debt. They want to spend more. They want to enjoy more state aid for the cities. But when it comes to paying the bills, they are bankrupt of ideas. They are against tax increase. They are against fee increase. Their exclusive answer to fiscal problems is to issue bonds and pay later."

Perhaps it is Rockefeller's good fortune that New York's newspapers have been struck. New York City's blackout has curtailed national publicity for the governor's troubles. He is suffering his budget embarrassment in semi-privacy so far. The luck of the Rockefeller's never has been really bad.

TO PROBE INSURANCE

WASHINGTON (UPI) — Sen. Estes Kefauver, D-Tenn., said Sunday his Senate Antitrust subcommittee would investigate certain phases of the insurance industry, administered prices and over-the-counter drugs.

He said the insurance inquiry would deal with foreign companies doing business in this country. The committee also will look into alleged misrepresentations and "lack of proper regulation over health and accident insurance, particularly in mail order insurance," he added.

USING HER HEAD—University of Florida coeds, Marilyn Kornstein, top, and Carol Dee Weissbaum, perform an old stunt in a clever way at Silver Springs. Marilyn's "in visible support" is concealed

ST. PAT MISSED THE EELWORMS—Legend has it that St. Patrick drove the snakes out of Ireland, but it takes the Agriculture Department's plant-quarantine inspectors to keep the tiny eelworm out of the United States when St. Patrick's Day draws near. Shipments of shamrocks from the old sod must be inspected for the minute worm and other plant pests, which may lurk in soil on the plants' roots. Contaminated mailings are fumigated and forwarded to addresses.

Soviets Accuse Officer Of Spying

MOSCOW (UPI)—The Soviet Union charged today a Russian army lieutenant colonel had been feeding government secrets to an attaché of the U.S. embassy. The spy charge was published in the government newspaper Izvestia.

It said an expelled American embassy security officer had been getting secret information from the Soviet officer. The Izvestia accusation came in a lengthy article about the alleged spying activities of Russel A. Langelle who was ordered out of the country in October 1959 amid Soviet allegations that he had been caught red-handed in a meeting with "an American agent" in Moscow.

Izvestia said Langelle had had espionage contacts with a Soviet lieutenant colonel "whose conspiratorial name was Max."

The newspaper said the Soviet officer had been sentenced long ago. It referred to him only as Lt. Col. P., claiming that his full name was not being given for the sake of his family.

Langelle, who had been embassy security officer, was described by Izvestia as a careful and trained spy who could not be called a "weak enemy." The newspaper alleged that his wife Miriam aided him in his spy work.

Senator Says C-G Played Nursemaid On Bobby's Cruise

WASHINGTON (UPI)— Sen. John J. Williams, R-Del., protested in the Senate yesterday that the Coast Guard was ordered to give Atty. Gen. Robert F. Kennedy "nurse maid" protection on a Chesapeake Bay cruise last October.

Williams said a patrol boat had to call for a substitute boat to assist a stalled private craft so it could continue to "trail" Kennedy's sloop Honya last Oct. 14. This was the day President Kennedy first received word that photo-reconnaissance had disclosed Soviet missiles in Cuba.

Williams called the "special attention" given the attorney general "highly improper" when it meant depriving other craft of Coast Guard protection.

In a statement, Kennedy's office said the attorney general "took the normal precautions that any boat owner would do and advised the Coast Guard of his proposed course."

The statement said Kennedy's "only request of the Coast Guard was that they be able to locate him in the event of an emergency." It said the attorney general had no knowledge of any boat in trouble and found it "strange" that Williams would put out five months later "this distorted version of the incident."

Three Confess To Slaying

HOUSTON (UPI)— Police studied two and possibly three confessions to the slaying of Shirley Smith today.

Mary Lee Cain, 44, was arrested and charged after confessing the slaying March 2.

Albert Lyons, 55, was charged later after he took a lie detector test and confessed. He later repudiated the confession.

Police today questioned a third suspect who had bragged he was the real killer.

Police planned to turn the puzzle and all three suspects over to the grand jury.

Television In Review

By RICK DU BROW
United Press International

HOLLYWOOD (UPI) — One of the networks' three new educational shows for children, CBS-TV's "The Reading Room," begins its summer vacation in April and is expected to return in October — a restful hiatus of more than five months.

Another of the programs, NBC-TV's "Exploring," starts its summer layoff in May and comes back in October, which amounts to more than four months, or only a third of a year or so.

Ironically, the only new children's entry that intends to stick around all summer and do a job, ABC-TV's "Discovery '63," is also the one in the most danger of collapsing because of overhead; it is a major daily effort, at 4:30 p.m. EST, while the others are deposited in the mid-day Saturday no-man's-land.

In other words, the three major television networks of the United States failed this season to come up with a single year-round, key-time, new children's educational show on solid footing.

Geared To Baseball
Spokesmen for CBS and NBC say "The Reading Room" and "Exploring" are geared to the school year. But to my knowledge, most grade-school youngsters go on vacation in June and return in September, which is not five months or even four. The fact is, the two shows are geared more specifically to the baseball season — Both CBS and NBC telecast major league games on week-ends, and the children's programs are in the way in various time zones.

No one, of course, expects the baseball games to be sidetracked — but it seems reasonable to think that perhaps "The Reading Room" and "Exploring" could be moved to different time slots at least put in a full school year, or that network executives who really intended to go all out for these programs would keep them on through the summer too, a season when many youngsters are at home.

Come fall, when CBS also telecasts Saturday college football games, "The Reading Room" will, as last year, have to be jumped all over the schedule in some time zones. A CBS spokesman says, by the way, that the program will definitely return in the fall — most probably in its present format, but perhaps changed if an improved one is hit upon. NBC says "Exploring" is also set again.

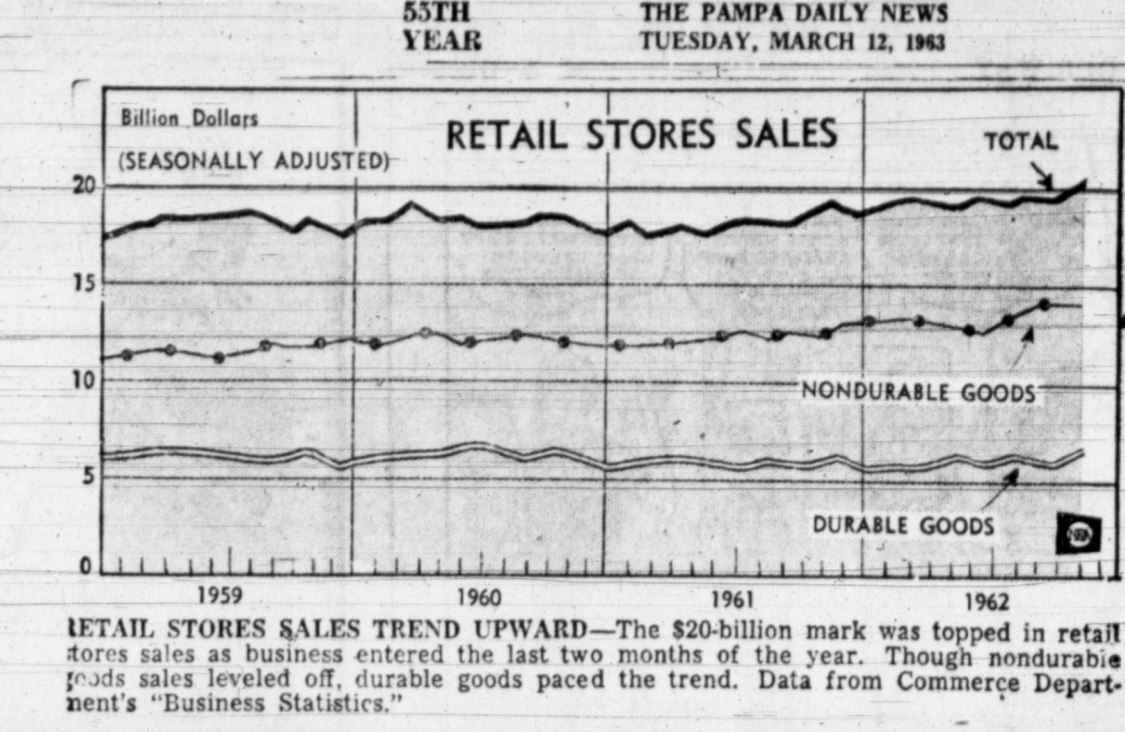

Plan History Series
CBS-TV is, of course, planning a one-hour weekly prime-time series of dramas based on American history for next season, which is fine; but these shows will also have to take into consideration the night-time adult audience, one assumes. And it just seems incredible that neither CBS nor NBC, both of which are boasting about new sales and profits records, have no announced plans for attempting a daily children's educational show around dinner time.

They are playing hooky. But "Discovery '63" is trying not to tonight, for instance, ABC-TV airs a half-hour special, "The Best of Discovery," to acquaint parents and other adults with its show for youngsters. I haven't seen the special, don't know whether it's good; but give it a look; it is at least a decent promotion try.

The Channel Swim: "Espionage," a new, weekly one-hour anthology of spy stories, has been

added to NBC-TV's schedule for next season. Produced in England by Herbert Brodtkin, whose other shows include "The Defenders" and "The Nurses," it will take over the Perry Como-time slot of 9 p.m. EST Wednesdays. Sid Caesar and Edie Adams will return to ABC-TV next fall, alternating their specials regularly at 10 p.m. EST Thursdays, in greater number than this season. Caesar and part of the cast from his Broadway comedy, "Little Me," perform Sunday on CBS-TV's Ed Sullivan hour. Paul Anka also appears on the program.

A thought for the day: French novelist Marcel Proust said: "Happiness is beneficial for the body, but it is grief that develops the powers of mind."

Quirks In The News

GREYHOUNDS CATCH RABBIT
ST. PETERSBURG, Fla. (UPI) — It finally happened—the greyhounds caught the mechanical rabbit.

Eight dogs jumped on the metal bunny and happily tried to tear it to shreds when an electrical storm this weekend knocked out the circuit that keeps the rabbit one step ahead of pursuers.

A "no race" was declared and more than \$15,000 was returned to bettors. Races resumed when power was restored.

SUPPORTS OPPONENT
TIVOLI, N.Y. (UPI)—Former Mayor Howard Beard, a candidate for his old job, today urged voters to elect his opponent March 19.

"I felt it was my civic duty to run because no one else seemed to want the job," Beard said. "But now that A. Parker Boyce

has filed a petition for the job, I would like to see him get all the votes."

CATCHES ONLY FISH
BARROW, England (UPI) — Ernie Chell, 42, won a local angler's tourney Sunday because he caught the only fish.

He described his catch as "so small I didn't put it in my net for fear it would get away."

LICENSE CONFIRMS AGE
HONOLULU (UPI) — Police Sgt. Ernest Brickman got a surprise when he stopped motorist Pedro Villafior and asked his birthdate.

"April 13, '61," Villafior replied, "1961 that is." And his driver's license, issued in 1923, verified that he indeed was nearly 102 years old.

BACK TO THE SCREEN—Ann Southern, television's "Maisie," forsakes frivolous comedy for a serious movie role—her first in 11 years. Ann plays a middle-aged lady of the evening in "Lady in a Cage," costarring with Olivia de Havilland.

In the open test that tears 'em apart...the Daytona 500 Ford durability conquered the field

1st, 2nd, 3rd, 4th, and 5th

BOX SCORE OF DURABILITY STAMINA AND PERFORMANCE AT DAYTONA, FEB. 24, 1963

NUMBER STARTED	NUMBER FINISHED	POSITIONS
12 '63 FORDS	8	1, 2, 3, 4, 5, 10, 11, 17, 24
5 '63 CHEVROLETS	2	8, 14
7 '63 PONTIACS	3	7, 8, 13
4 '63 BUICKS	0	6, 18, 23
2 '63 DODGES	0	
1 '63 CHRYSLER	0	

Daytona is no "private" test arranged by a manufacturer to favor his car's strong points. It is open competition—anyone can enter—and the one thing that is proved by its searing 500 miles is just exactly how well a car hangs together. At Daytona, Florida, on February 24, five brand-new 1963½ Fords showed the world what durability means by sweeping the first five places. And that has never been equaled in Daytona history!

The box score at the left tells the true story...car endurance that takes brutal punishment and comes back for more. No proving ground can equal this kind of torture. Daytona was a challenge we welcomed, a chance to prove in open competition the essential durability that makes possible the silence, the solid road-grip, the ease of control, the balanced braking...and

all the other things that go into Ford's concept of total performance. These were the same '63½ Super Torque Fords that made styling history at their preview at Monaco, and which were recently announced at your Ford Dealer's. They're yours now; get behind the wheel and find out for yourself what total performance means!

FOR 40 YEARS THE SYMBOL OF DEPENDABLE PRODUCTS MOTOR COMPANY

Pampa, Bucks Favored Among Field At Lefors

LEFORS (Spl) — A total of 29 teams will be entered in the Lefors Relays this week end, including B teams from 4-A giant Pampa and Triple-A powerhouse Perryton.

Entered in the two-day meet, reported meet director Dunny Goode, Lefors head coach, are: Adrian, Booker, Clarendon, Childress, Canadian, Darrouzett, Follett, Groom, Gruver, Miami, Memphis, Mobeetie, Panhandle, Price College, Spearman, Stratford, Stinnest, Shamrock, Sunray, White Deer, Wheeler, Wellington, McLean, Allison, Pampa 'B', Turkey, Sanford-Fritch, Perryton 'B' and host Lefors.

On the basis of previous action this season, returnees from last year's teams and classifications, any one of nearly a dozen teams could take the title.

Pampa Strong

Pampa's B team will include some of their promising sophomores and juniors who have been unable to break into the ranks of the powerful 4-A school's starting squad, plus a number of regulars who are ineligible. Pampa's top man will be Mark Westbrook, who holds the Pampa record for the 880, and will be entered on the sprint relay and mile relay teams. Wayland Bullard, who has also

seen varsity action for the Harvesters, will be entered in both the high and low hurdles.

Perryton, whose new track coach, Jimmy Jones, who had said prior to the Greyhound Relays at Gruver that he had few veterans from last year's squad and didn't expect much to start; literally smashed the meet to pieces, scoring 129 points, placing first in six events and breaking four meet records. Although the Triple-A school will be sending a B team while the varsity is competing in large school classification at the West Texas Relays, their B team will probably include a number of runners who placed at Gruver, and could win the meet.

Childress also deserves a place among the favorites as they finished fourth in the Tucumcari Invitational last week end, winning both the 440 and 880-yard relay events, while sprinters Mike Mitchell and Carl Maxwell won the 100 and 220-yard dashes.

Panhandle placed third at Gruver, Booker and Stinnest tied for fifth, host Gruver was sixth, Canadian seventh, Lefors ninth, Wellington and Memphis tied for tenth, Turkey was twelfth, with Allison, Sunray, Wheeler, Price College, Spearman, Clarendon and Sanford-Fritch among the also-rans.

Other Threats

On the basis of their Gruver performance, Panhandle, Stinnest and Booker should be considered among the possible threats. Panhandle is strong in the field events, with Mike Smith winning the discus and Carol Bentley the shot put at Gruver.

Lefors, of course, will be much stronger on its own field and will have a larger number of entries. Wheeler also sent just a handful to the initial meet of the season and will have a large group at Lefors.

Untried and untested, the terror of the Panhandle will be waiting quietly in the wings in the person of White Deer. Although pessimistic coach Colie Huffman foresees a tough future for the Bucks now that they have moved up to Double-A classification, White Deer still has six men returning from last year's district championship squad. The Bucks pulled out of the Greyhound Relays due to lack of practice, but with a week of warm sunshine under their belts, will be the probable favorites.

Among their entries will be sprinter Curtis Campbell, whose 9.9 clocking last year was the fastest time around this area; Jim Thurmond, who owns a 2:04 time in the 880, Tommy Elliott, an 11:3 pole vaulter, and Carroll Russell, who won district in the low and high hurdles both, with times of 20.4 in the lows and 13.1 in the highs. This quartet will also form the nucleus of a mile relay team that ran 3:27 last year and a powerful sprint relay team as well.

More Unified

Another team that is as untested in the cinderpath wars but is consistently powerful, is Stratford. They finished second in White Deer in Class A last year and have returned all but one man from the team. Darrouzett is another school that consistently produces good track teams, while Miami will have several regional and state finalists among their contestants.

With a number of yet untested teams, a number who have just gotten started, and the B-teams of two big-class schools, the Lefors Relays should see a real free-for-all battle for the first place honors.

LITTLE, BUT TOUGH — Little Mobeetie will send these five to the Lefors Relays this weekend. From left: Gerald Gudgel, Joe Kelly, Robert Kelly, Rayburn Corcoran and Ray Corcoran, with coach Paul Morris. (Daily News Photo)

Miami To Send Winners To Meet

MIAMI (Spl) — Although the Miami Warriors have 17 candidates out for track this season, coach Bill Hines is going to send only a handful of last year's state and regional contenders to the Lefors Relays this Friday and Saturday.

"We've got some real promising youngsters coming up," said the 40-year-old coach, "but we feel that they need some more experience before going into a major meet, and since we have three boys who have gone to regional and one to state, I feel that our top half-dozen will have a good chance to win or place well at Lefors."

Hines is actually sending five warriors to the fray. Jimmy Flowers, Mark Arrington, Roy Bean, Mickey Kivlehen, and Jerry Lester, off the team which finished second in district last year.

Flowers last year tied for first in high jump in district with 5'10 1/2", was second in regional with a leap of 6'1" and tied for fourth in state with a similar height.

Arrington won district in three events, winning the 440-yard dash in 54.3, the hurdles in 16.6 and the shot put in 42'8". Kivlehen was second to Arrington in the shot and won the discus with a heave of 117 feet. In regional, Kivlehen put the shot 45 feet to finish fourth.

Junior Roy Bean will be entered in the broad jump, the 100-yard dash and the low hurdles. His best event is the broad jump, with a leap of 19'6" in practice this year.

Arrington, Bean, Flowers, and Lester will make up the sprint relay team which is being entered.

Although Miami's representation will be smaller than that of many of the 29 schools entered, wins by the top crew led by Flowers and Arrington could pile up enough points for a meet victory.

Following Lefors, the Warriors go to the Panhandle Relays, Amarillo and then into district action.

Tiny Mobeetie Goes All Out

MOBEETIE (Spl) — Although the enrollment at Little Mobeetie High School is only 40, just about every available boy in the school is out for either baseball or track.

Coach Paul Morris' five-man track crew that is going to the Lefors Relays may not be a large squad, but "we'll let them know we've been there," promised Morris.

The Mobeetie track team is practically a family affair, with two brothers and two cousins heading up the squad, which will compete in the dash and relay events.

Leading the squad is the Hornets' great all-around athlete, Ray Corcoran. Leading scorer on the football team, high point man on the basketball team, Corcoran is also the Hornets' top track man, having led them to third place in district last year as he placed third in the 220 and ran on the second-place 440 and mile relay teams.

Corcoran will run the 220 at Lefors and on both the sprint and mile relay teams. Cousin Rayburn Corcoran will run in the 440 and on the relay teams as well.

The other family act at Mobeetie are the Kelly brothers, Robert and Joe, with Gerald Gudgel fifth in the Mobeetie cindermen.

The Kellys will both be entered in the 100-yard dash and the sprint relay, with Joe Kelly and Gudgel making up the mile relay team.

This will be the only track meet Mobeetie will enter prior to the district meet, as they are one of the few smaller-classification schools in the area that plays baseball, being in a diamond district with Samnorwood, Quail and Hedley.

Grapefruit League

By TIM MORIARTY
UPI Sports Writer

Who said baseball's new, enlarged strike zone would cut down on home runs and walks? A total of 19 homers were hit in 10 major-league exhibition games Monday, with Willie McCovey again showing the way with a pair of plus-400 foot drives that led the San Francisco Giants to a 9-7 victory over the Boston Red Sox at Phoenix, Ariz.

The pitchers normally are far ahead of the hitters at this stage of the spring training grind; yet seven hurlers issued 23 passes in a travesty between the St. Louis Cardinals and the Cincinnati Reds at St. Petersburg, Fla. The Cards won the walking marathon, 11-3.

Mets Beat Phils

In still another exhibition of wildness, the New York Mets took advantage of 11 walks and two hit batsmen in downing the Philadelphia Phillies, 9-3.

All of which proves that maybe instead of enlarging the strike zone the rulemakers should have shortened the bases — or widened the plate.

McCovey, who hit two solo homers against the Cleveland Indians Sunday, accounted for four runs with his pair against the Red Sox. He homered off Ike DeLoach with Matty Alou aboard in the first inning and did it again in the third with Joey Amalfitano on via a double. Don Larsen pitched three strong innings, limiting the Red Sox to two hits and no runs.

The Cardinals were treated to 12 hits and 13 walks by three Cincinnati pitchers—Joey Jay, Sammy Ellis and Bob Heffner. St. Louis outfielder Leon (Duke) Carmel collected as many hits as the entire Reds' team—five.

Twins Edge Dodgers

Larry Bearmorth and Wynn Hawkins each pitched three innings of runless ball to feature the Mets' victory over the Phils. The Mets tied the score at 3-all in the fourth on two hits and four walks, then added three more in the seventh with the help of three walks.

The Pampa Daily News
55TH YEAR TUESDAY, MARCH 12, 1963 9

Loyola Leader In NCAA Wars

By DICK JOYCE
UPI Sports Writer

Loyola of Chicago's high-scoring Ramblers, who ran rampant in their first round game, lead eight other survivors, including New York University, Arizona State and Bowling Green, into Friday night's quarter-finals of the NCAA major college basketball tournament.

St. Joseph's, West Virginia and Oregon State also advanced in Monday night's opening round of the post-season action.

Loyola, which routed Tennessee Tech, 111-42, in the Midwest regional at Evanston, Ill., meets Mississippi State, the Southeastern Conference champion, Friday at East Lansing, Mich. The fourth-ranked Ramblers' 111 points set a record for a single game output in the NCAA competition and their 69-point margin of victory was the highest in the 25-year history of the tourney.

BG Downs Irish

In the other Midwest regional, Bowling Green scored its 11th consecutive victory in beating Notre Dame, 77-72, and earned the right to play fifth-ranked Illinois of the Big Ten at East Lansing Friday.

Led by Barry Kramer and Harold Hairston, NYU ripped Pittsburgh, 93-93; West Virginia, paced by sophomore Ricky Ray's clutch free throws, downed Connecticut, 77-71; and St. Joseph's rallied to overtake Princeton, 82-81, in overtime in the East regionals at Philadelphia.

NYU will take on second-ranked Duke, the Atlantic Coast Conference champion; and West Virginia plays St. Joseph's in Friday's games at College Park, Md.

Third-ranked Arizona State was forced into overtime before beating Utah State, 79-75, and Oregon State defeated Seattle, 70-66, in Far West regional contests at Eugene, Ore.

Texas Meets Cincinnati

In Friday's games at Provo, Utah, Arizona State plays the winner of the Big Six Conference, to be determined tonight in a playoff between Stanford and UCLA at Santa Monica, Calif.; and Oregon State engages San Francisco, the West Coast Conference titleholder.

Oklahoma City and Texas advanced into the Midwest quarter-finals Saturday night. Texas will have its hands full with top-ranked Cincinnati and Oklahoma City will tangle with Colorado of the Big Eight conference at Lawrence, Kan., Friday.

Lakers Waiting For Jerry West

By United Press International

The West-less Los Angeles Lakers aren't restless waiting for the start of the National Basketball Association playoffs while their high-scoring guard is still recuperating from a torn hamstring muscle.

Without Jerry West the Western Division champions have managed an unimpressive 9-14 record.

The Lakers won Monday night, 109-96 over St. Louis, but only with a 20-point effort from veteran

Frank Selvy and rookie Leroy Ellis' 16-unexpected help to the Elgin Baylor-Dick Barnett tandem that has had to carry most of the scoring load in West's absence.

In the only NBA game played Monday night, Selvy scored 12 of his points in the second period to help the Lakers to a 52-41 halftime edge in a Los Angeles Sports Arena game before 5,137.

Baylor started slow and finished with 20 and Barnett managed 14 after making only one point in the first half.

Bob Pettit, who only played 26 minutes, was high for St. Louis with 19 points.

Pairings Set For Girl Play

AUSTIN (UPI) — Pairings were announced Monday for the annual girls state basketball tournament which will be held in Austin Thursday through Saturday.

Thursday, March 14:

Class B—Fort Davis vs. Slidell, 7:30 p.m.; Brock of Weatherford vs. Wells, 8:50 p.m.; Claude and Friendswood drew first round byes.

Friday, March 15:

Class B—Claude vs. winner of Fort Davis-Slidell game, 9 a.m.; Friendswood vs. winner of Brock-Wells game, 10:20 a.m.

Class A—Woodsboro vs. Moulton, 2 p.m.; Glen Rose vs. Sundown, 3:40 p.m.

Class AA—Little Cypress of Orange vs. Friona, 7:30 p.m.; West vs. Cotulla, 8:50 p.m.

Finals will be played Saturday, March 16.

Pampa Net Team Plays

Pampa tennis coach Roy Kieval will enter his team in their first match of the season at Borger tomorrow.

Kieval will have two varsity boys back plus a pair of promising juniors, with two seniors and a returning veteran junior in the girls team.

Jerry Thomas, captain of the team, will be the number one singles player this year. "Thomas was a doubles man last year, but we are going to play him strictly in singles this year. The loss of his partner, Don Collins, who moved to Perryton, will hurt us, but we have three boys competing for the doubles team—senior Charles Ashby, who also was a doubles player last year, and juniors Eugene Eads and Joe Fisher. For the time being, we'll let that trio battle it out for the doubles team. Later on, depending on what the boys show, we may move another one into singles competition and have two singles players and a doubles team."

Two McAdoo Players On All-Tourney

AUSTIN (Spl) — The Texas Sportswriters Association picked players from three championship teams Monday to dominate the 1963 all-tournament boys' basketball teams in Classes AA, A and B.

Buna beat Canyon 47-41, for the Class AA title; West Sabine tripped Woodsboro, 66-51 in the Class A finals; and McAdoo downed Nona, Prairie Valley 52-35, to win Class B in the 43rd annual state tourney last week end.

Each of the championship teams landed two players on the all-tournament team.

John Hatch and Pete Hillin of Buna earned all-tournament honors in AA, being joined by Canyon's Bob Begert and Harry Lisle and by Joe O'Brien of third-place Gladewater. Hatch and Begert were unanimous selections.

McAdoo's crowd-pleasing Class B champions furnished Larry Morris and Johnny Powers to the all-tournament team in its class. Others were Joe Bragg of Frankston, Bill Ward of Blum and Billy Brown of Prairie Valley. Morris was the only unanimous choice.

The all-tournament selections in Classes AAAA and AAA will be announced tomorrow.

"With Don Collins still here, we would have had probably the best boys doubles team in the area," added Kieval; but I feel that Thomas can become a really outstanding singles player as well."

Sporting Sidelines

By JEFF COHANE

We got our biggest compliment of the year recently when someone took us for Ed Fite, head of the UPI sports bureau for Texas.

A parent of a Pampa boy who has been starring in college sports called up to thank us for the coverage the other day, but insisted that we must be Ed Fite. Seems that we have grabbed all the wire stories concerning this boy, and since Ed Fite's byline is usually on them, the lady thought we were he... or he was me... or however you put it. We explained to the lady that we appreciated the compliment greatly and that we wished we were Ed Fite. The lady then paid us another compliment by saying that we would reach that caliber someday. Nice to know we have one fan around.

Speaking of Ed, the Border Olympics really fed him a fast one the other day. One of his stories concerning the Olympics said that "high school star of the meet will be Toby Belt of Houston Westbury, 4-A champ and state record holder in the shot put." Faster than a shot put could be putted, we got on the phone and informed UPI that there was a young fella down here by the name of Randy Matson who was the state record holder, the AAAA champion, and could spot Belt two feet on a given day and still beat him in the weights. UPI made a correction, although they were willing to bet that he couldn't spot terrible Toby two feet.

We would like to quote two Sunday stories, one by UPI and one by us. From UPI: "Toby Belt of Houston Westbury set a new record at the Border Olympics as he put the shot 39' 10 1/4". Belt also won the discus with a throw of

157' 2". Quote from the Pampa News of the same day. "Randy Matson, although off his state record—setting form of last week, still set new records in the shot and discus at the Possum Kingdom Relays with a put of 64' 3" and a discus heave of 155' 11". Et tu, Toby?

This past week has really been a madhouse for us and this one will be the same. We are trying to get pics and stories of all the local and area track and baseball teams before the season gets into full swing, and we really have our tongues hanging out. A recent example was arising at 7 a.m., getting up the sports page, and then hustling over to White Deer to get their track pictures, dashing back to Lefors to do the same, and then barreling back to Pampa to the baseball game, all in whether cold enough to freeze the ears off a polar bear. And they talk about 50-mile hikes!

We don't know if Otis Holladay is running out of cigars or what. We catch him on the telephone pretty regularly, but every time we get over to the school, he is gone. It won't do him any good, we'll get that cigar if we have to wait for his fifth daughter! (If that happens, we advise Otis to drop football and switch to girls basketball.)

Get ready for the Pampa Boat and Ski Club's boat show coming up in the near future. It's going to be a dilly. Pictures of lovely girls on water skis will be such a refreshing change after the homely mugs of basketball players, baseball players and trackmen. Unfortunately, we opened our big mouth once too often (according to the boss, we do that constantly), and mentioned that we were from Corpus Christi and an old hand at boating... and subsequently got drafted by Roy Pool to run a boat during their next meet! (Roy also tried to get me to referee some of their basketball games, but I'm not THAT crazy!)

Had a few fishing calls concerning what kind of bait they were using to catch the fish I had reported were biting. Understand they are using worms for the panfish and cats, and minnows for the bass and crappie. As far as plugs are concerned, in this cold weather, I advise either a deep-running plug or one that will make a lot of noise while being dragged across the bottom or around rocks.

We would like to clear up one misconception concerning ourselves. Although we are from the Gulf Coast, seems that we have Rhode Island license plates on our car, wear an Iowa letter jacket and have large stickers marked "Pasadena Eagles" on our windshield, and everyone either thinks we are a Yankee, an Iowan or a Californian. Seems we bought plates for the car while in Rhode Island, and are merely waiting for the papers so we can buy home state plates; we just went to school in Iowa because they have a fine journalism course, and the "Pasadena" is for Pasadena, Texas, not California.

Ladies Swim Class Tonight

There will be a Ladies' swim class held at the Pampa Youth and Community Center beginning tonight. Classes will be held each Tuesday and Thursday from 6-7 p.m. These classes are for ladies who wish to learn to swim or to improve their swimming with the help of an instructor. Enrollment will be held at tonight's first meeting. Classes will be held by Bobby Bybee, Water Safety Instructor, at the Center. Any ladies interested should come to the first meeting George Smith at the Center, or make arrangements with

Coach Dies

HOUSTON (UPI) — Rice University basketball coach John Frankie, 50, died early today at St. Luke's Episcopal Hospital.

Trinity Tops UT

AUSTIN (UPI) — Trinity University blanked the University of Texas in tennis Monday, losing only one set to the Longhorns.

Men's City Pin Winners

Final results of the Pampa Men's 21st annual city Bowling Tournament show Hoover Oil Company first in team events, Bob Baker and Marshall Johnson winning the doubles and Jack Barnhill the singles.

W. D. Anderson rolled a 1952 to win the Special All-Events Handicap and Sid Parsley took the Scratch All Events title with a 1774.

Top teams were Hoover Oil, 3014; Cox Brothers Masonry 3040, National Tank Co., 3039; Chastain Bulldozers, 3024; Western Auto Stores, 3021; Cabot Franks Explorers, 3007; Cabot Chips 3002.

Top doubles crews were: Baker and Johnson with 1300; Wallace and Glenn Cox with 1276; Jerry Mansell-Jim Birgan, 1272; John Snuggs-Jim Herring, 1268; Bryant Nail-Joe Achord, 1258; Leland McCloskey - Duane Kuntz - 1258.

In addition to the sixth-place tie in doubles, there was a sixth-place tie in singles as well. Barnhill took the prize with 742. Jerry Mansell had 723, Bryant Nail 697, Derrall Dupy 689, George Thut, 688 and Jim Butcher and Peg White each with 679.

ON THE WARPAT — The Miami track team, bottom row, left to right: Coach Bill Hines, Lewis "Little 'Un" Holland, Butch Thompson, Charles Byrum, Mickey Kivlehen, Gary Lester, Don Dale and Lloyd Seitz. Top row: Roy Bean, Jimmy Flowers, Jerry Lester, David Locke, Mark Arrington, Wayne Daugherty, Harold Coffee, assistant coach Lawrence Overcast. Not in picture are Ray Guerrero, Jody Holland, J. L. Grantham and Milo O'Laughlin. (Daily News Photo)

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings.

SUBSCRIPTION RATES

By carrier in Pampa, 35c per week, \$1.50 per 3 months, \$3.00 per 6 months, \$5.00 per year. By mail paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone, \$12.50 per month.

Girl Scout Week

The mind reels at reading a list of the "days" and the "weeks" we are supposed to observe each year in this country.

Last year marked the 50th anniversary of this movement. This year the program, which has grown steadily over that half-century, is to be expanded and improved.

Food Without Fear

The fight against food faddism is an exceedingly difficult one. All manner of exaggerated, unsupported and plain misleading claims are made for diets which the medical fraternity, out of its wealth of research and experience, regards as dangerous to health and life.

Writing in Today's Health, Dr. W. W. Bauer, Director of Health Education Emeritus of the American Medical Association, put the case for a sound diet in simple and unequivocal terms.

TRUTH FORUM

Two Williamsses Speak Out Against Spending

By ED DELANEY

It is somewhat of a coincidence that Sen. John J. Williams, of Maryland and Rep. John Bell Williams of Miss., have both been exposing and denouncing the profligate spending by the State Department and other agencies of the Kennedy administration.

Then just four months before last year's election, as a nice "gesture" to insure getting the Harlem votes for the Kennedy brothers' friends, Rep. Powell received \$250,000 from the Dept. of Health, Education and Welfare, presumably for the purpose of peace corps.

It is probable that Powell is the most publicized delinquent, on his federal income taxes, of any in Washington. Tax deficiency cases in the U.S. Court indicate that for seven years Powell has been short a trifle of \$25,007.96 in his payments, with possible "fraud penalties" of another \$13,000.

Down South By THURMAN SENSING Nashville, Tenn.

CUBAN AID PROJECT

The UN-Firsters will have a difficult time ahead. The first week of February brought out the fact that the United Nations Educational, Scientific and Cultural Organization (UNESCO), to which the U. S. is the largest financial contributor, had published a booklet denouncing "colonialist oppression" by Western countries and describing Soviet Russia as "a brotherhood of free and equal peoples."

No sooner had this outrageous piece of pro-Soviet propaganda been released by UNESCO than it was learned that the U. N. Special Fund will proceed with a \$3 million agricultural aid project for the Soviet Union's Cuban satellite.

The project involves the establishment of an agricultural experiment station in Havana Province that will be of assistance to Red Cuba's collective farm operation.

Mr. Hoffman, who holds American citizenship, thus far has paid no respect to the feelings of the United States in this matter.

It is especially ironic that the U. N. Special Fund wants to subsidize an agricultural project. Who will be the beneficiaries of foodstuffs grown under the program? Not the Cuban people, certainly — not the Cubans languishing in Castro's dungeons.

Already there is before Congress a resolution that calls for a complete cut-off of U. S. funds to the United Nations. The Special Fund persists in aiding Fidel Castro and his Russian masters.

Intelligence sources inform us that the communists from the Soviet, not the local ones, are building barracks in Cuba that appear to be permanent installations.

Now is the time for Congress to act, and to repudiate Paul Hoffman at the same time. For Mr. Hoffman, Congress should have one word: "Shame!"

Slogan and motto of the State of Indiana is "Crossroad of America."

"Every Now And Then I Throw Him A Bone!"

Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone.)

Question: "How could there be a real war if the government did not have the power to collect tribute?"

It is claimed that if we did not have the power to collect tribute, we could not have national defense.

It might be well to look into the primary causes of war. If we want to eliminate or reduce wars, it would be well to know the causes of them.

Most of the wars are started with the idea of getting control of another nation or people, with the idea of requiring them to pay tribute.

And if we didn't have the power to collect tribute, we would attract the liberty loving people of the earth.

If people are free, they are not inclined to start a war. And, of course, if we had no wars, our standard of living would be way up.

In trying to find the above quotation we had quite a time, because we looked under the word "tax." In Biblical times they used the word "tribute," in most cases, rather than "tax."

Cruden's Concordance uses the word "tax" or "taxation" only eight times, while Young's Concordance, which is much more complete, uses the word "taxation" twice in the Old Testament and six times in the New Testament.

"Tribute" is a much better word, because in most cases it represents compulsion. In a few cases it was done on a voluntary basis, honoring the person to whom the gift was made, but in almost every case it was a tribute and the collector of tributes was in bad repute.

At any rate, the way we are going, with prices going up and more ill-will in our midst and throughout the world, we are certainly not acting in a manner that promotes peace, goodwill, integrity, self-reliance and prosperity.

Edson In Washington Taxing Out-of-State Firms Adds Up To \$5 Billion Grab

By PETER EDSON

WASHINGTON (NEA) — While Congress and the country cringe against tax reform and new trade czar Christian A. Herter prepares for negotiations with foreign countries to lower tariff restrictions on international trade, American businessmen are faced with a crazy quilt of state and local income, sales and use taxes which have the same effect as tariffs on interstate commerce.

The abuse arises when one state levies an income tax on the business done within its borders by merchants, manufacturers or other concerns located in other states.

Forty-seven states now levy one or both of these taxes on business originating in other states. The total on these taxes is over \$5 billion a year, from both local and out-of-state sources.

Business gripes against these taxes are they apply to interstate commerce. The administrative cost of complying with a code of over 100 tax volumes of conflicting state tax laws is necessarily great.

The Supreme Court has recognized that it is institutionally incapable of solving this question as a broad national policy. But in 1959 the court held that a state can tax a reasonably apportioned share of the income from a business whose only activities in the state are in furtherance of interstate commerce.

Subsequently, the Supreme Court declined to review two cases appealed from state courts which upheld the power of a state to tax the income of an out-of-state business engaged solely in interstate commerce, even though it maintained no offices in the state but only sent in salesmen to solicit business.

The laws of the 47 states in this field now present a wall of confusion. No exemptions are made for small business. In some states taxes are levied only if the manufacturer has a branch plant in the taxing state.

Taking its first step to clarify this maze, Congress in 1959 passed its first law on the subject. It prohibits taxation of interstate commerce if the only activity of an out-of-state manufacturer or merchant is solicitation.

This law also set up a congressional study — now being made by the Willis Committee — to determine whether additional legislation is necessary and recommend what it should be.

But Congress may not act on this before next year — maybe after it gets through reforming U.S. tax laws.

This material now is being analyzed by the committee's staff under Murray Drabkin. A report will be made before July 1. Then it will be up to Congress to decide what to do about the situation.

Under the U.S. Constitution, Article I, Section 8, only Congress has the power to regulate interstate commerce. Many businessmen now feel, however, that state taxes interfere with their doing business across state lines and restrain trade.

More than 300 Supreme Court decisions — and perhaps thousands in state courts — have tried to draw the line between what constitutes a tax on interstate commerce and what is a permissible business tax.

The Supreme Court has recognized that it is institutionally incapable of solving this question as a broad national policy. But in 1959 the court held that a state can tax a reasonably apportioned share of the income from a business whose only activities in the state are in furtherance of interstate commerce.

The court also decided that a state could tax a business which maintained a sales office within its borders.

Subsequently, the Supreme Court declined to review two cases appealed from state courts which upheld the power of a state to tax the income of an out-of-state business engaged solely in interstate commerce, even though it maintained no offices in the state but only sent in salesmen to solicit business.

The laws of the 47 states in this field now present a wall of confusion. No exemptions are made for small business. In some states taxes are levied only if the manufacturer has a branch plant in the taxing state.

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

ROBERT ALLEN ALLEN-SCOTT Report Free High-Level Oratory on Way Out As Kennedy Seeks to Beef Up Party's Coilers PAUL SCOTT

WASHINGTON — From now on state and local Democrats will have to fork over sizable get top-rung administration officials as guest speakers.

No more free high-level oratory. Henceforth, it's money on the barrelhead for such lofty appearances at Democratic rallies.

Foremost on the list of this high-priced talent are Vice President Lyndon Johnson, Cabinet members, and heads of major agencies.

Formulator of this new political policy is President Kennedy himself. His significant backstage edict is being proclaimed in a letter that Democratic National Treasurer Richard Maguire, close lieutenant of Attorney General Robert Kennedy, has sent to leading administrationites.

Each transaction will be considered separately. But Maguire's discussions will be based on the general rule that at least 50 percent of the proceeds go to the National Committee. Also left up to him is determining whether these amounts will apply to a state's quota of contributions to the 1964 campaign fund.

This question is the tip-off on the reason for the President's demand that high administration speeches be on a pay-as-you-go basis.

He anticipates that next year's election battle will be the costliest in history. To prepare for expenditures running into millions, the President proposes to beef up the National Committee's coffers as early and as much as possible.

Blitz Drive — Two other significant ideas are being deliberated by the President and his inner political lieutenants. —Holding the Democratic convention in August.

—Nominating the Vice President first and then the head of the ticket — exactly the reverse of the usual order.

In the backstage discussions on a late convention date, one proposal was that it be after Labor Day. But that was ruled out on the emphatic advice of National Committee money-raisers.

Still unexplained is just what is behind the plan to nominate the Vice President before the President.

Some Johnson partisans are privately uneasy about this. Bobby Kennedy reputedly favors it, and it's an open secret no love is lost between him and the Vice President.

Outwardly they get a long agreeably, but Johnson was not

REPUBLICAN DARK HORSE — Census Bureau Director Richard Scammon considers Pennsylvania's Governor William Scranton as the No. 1 dark horse at the 1964 GOP presidential derby.

Also he thinks Scranton could be President Kennedy's toughest opponent.

That's what Scammon has told Kennedy, on the basis of extensive personal polling. The Census chief is a polling authority, and after a private survey, he reported the following highlights to the President.

While Scranton is little known publicly outside of Pennsylvania, he is well known in inner-GOP circles. As a result, in the event front-running Governor Nelson Rockefeller is unable to sweep the convention, Scranton is a likely compromise choice.

Because the Pennsylvanian's position on national issues is little known, he has not alienated important elements in his party and the country at large. Also he makes an excellent television appearance, comes from a pivotal state, and is "forward looking" without being extremist.

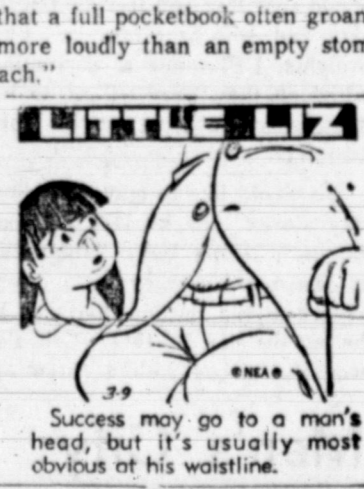

As Scammon sees it, Scranton might be harder for Kennedy to lick than Rockefeller, Romney and Goldwater in that order.

POLITICALS — President Kennedy is making a big pitch to woo House Republican Leader Charles Halleck. In the past month, Kennedy has had at least three unannounced late-afternoon talks with Halleck. The Indianan has told close associates about these conferences, but given no details.

He also has given no indication that Kennedy has made any headway with him. William Brawley, who quit as deputy postmaster general after a clash with Postmaster General Day, and since then has been holding down a desk in the Democratic National Committee, is taking soundings on running against Senator Strom Thurmond, D-S.C. — with discouraging results.

Brawley is finding no support for his ambitions against outspoken and hard-hitting Thurmond. Paul Corbin, young henchman of Attorney General Bobby Kennedy in his back stage political wire-pulling, has left New York. Corbin was sent there by Bobby to handle federal patronage. But that got nowhere when State Chairman William McKeon protested directly to the President, who had assumed McKeon was in charge of federal patronage. The President backed McKeon in the showdown with Bobby, and that was the end of Corbin as patronage big-shot in New York.

A thought for the day: President Franklin Roosevelt said — "It is an unfortunate human failing that a full pocketbook often groans more loudly than an empty stomach."

Success may go to a man's head, but it's usually most obvious at his waistline.

Terrorists Knock Out Venezuelan Oil Pipelines

CARACAS, Venezuela (UPI) — Terrorist saboteurs knocked out about one-sixth of Venezuela's oil production and triggered a vast fire by dynamiting two pipelines in the interior, it has been disclosed.

The U. S. -owned Creole Petroleum Corp., the free world's largest single oil-producing company, said the explosions took place late Sunday in the virtually uninhabited sagebrush country about four miles from pumping stations.

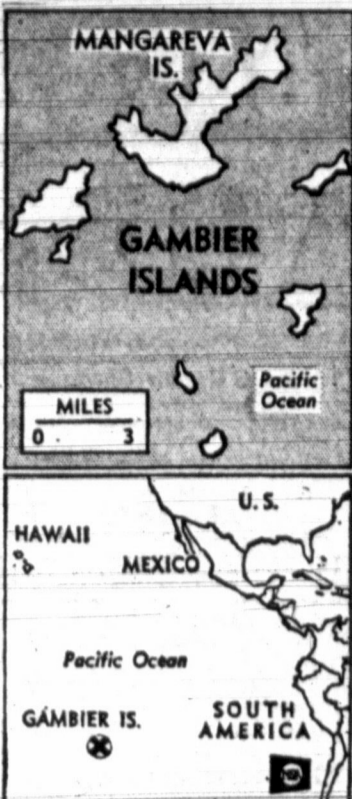

The pumping stations are at the mouth of 140-mile - long pipelines linking the Lake Maracaibo oil-fields in the west and the huge Amuay refinery on the Caribbean peninsula in northwestern Venezuela.

The blasts touched off a fire that burned out of control and flooded a large area with an estimated 15,000 barrels of crude oil.

Misplaced Finger Finally Fixed Up

HOUSTON (UPI)—A boy's fingertip, cut off by an exercising machine, was stitched back in place after it was first sent to the wrong hospital.

Wade Broughter, 7, son of Mr. and Mrs. J. W. Broughter caught his left hand in the exercising machine. He was taken to Bellaire Hospital where one finger, barely dangling to his hand, was sewed back in place. Police found the other fingertip, but it was sent by mistake to Hermann Hospital. It was put back in place after being rushed from Hermann to Bellaire.

FRENCH FUSE—France reportedly will explode its first thermonuclear device in the Pacific Ocean by the middle of 1964. It will be a "baby" nuclear device, halfway between an atomic bomb and the more powerful hydrogen bomb. Site of the test will be Mangareva Island in the Gambier Islands group, 1,500 miles southeast of Hawaii and about the same distance from the coast of South America.

THE HONEYMOONERS
UNIONDALE, N.Y. (UPI)—Newlyweds Mr. and Mrs. Harry Roode started their honeymoon today at the Nassau County Welfare Department Home for the aged.

The bridegroom is 81. Mrs. Roode, the former Mrs. Gladonia Beatrice Hoppe, is 72. Both are residents of the home for the aged, where they were married Sunday in a ceremony attended by most of the home's 245 guests, the oldest aged 107.

Foreign News Commentary

By STEWART HENSLEY
United Press International
WASHINGTON (UPI) — Administration officials have begun to talk with cautious optimism about the possible overthrow from within of Fidel Castro's Communist regime.

Secretary of State Dean Rusk has mentioned "evidence of great and growing discontent" in Cuba and intelligence reports disclose increasingly severe shortages of the necessities of life.

This comes at a time when Soviet Premier Nikita Khrushchev is pulling some of his military personnel out of the island, lessening the Kremlin's ability to keep Castro in power against whatever opposition may be developing.

There is divided opinion here as to whether the Kennedy administration actually sees more hope for home-grown trouble or seeks simply to justify the effectiveness of its policy of slow strangulation as opposed to more dangerous direct action such as an oil blockade.

Risk of Warfare
The administration rejects the argument by some Republican leaders that a selective blockade aimed only at stopping Soviet oil deliveries to the island would not run the risk of war in the Caribbean.

Most officials believe now that Khrushchev will fulfill his pledge to pull "several thousand" of his estimated 17,000 military technicians and troops in Cuba out of the island by Friday. This is the promise he made to President Kennedy several weeks ago. Only the Russians know what they mean by "several thousand."

American officials are watching closely to see whether the Russians—evacuated—include the approximately 3,000 regular soldiers organized in four combat battalions. These units, equipped with the latest battlefield weapons, have been regarded as capable of helping Castro's government beat down any really serious threat of rebellion. If all of them have left or leave, Khrushchev gives up his most effective immediate means of controlling the situation in Cuba.

Danger in Success
U. S. officials, while pressing for evacuation of every Russian, recognize that complete withdrawal might well increase the danger of an armed clash involving the United States and Cuba.

This stems from the fact that the Russians up to now have retained the control of the anti-aircraft missiles capable of knocking down the high level U2 planes which continue surveillance of the island to make certain no offensive weapons remain.

The Russians have held their fire, tacitly acknowledging the U. S. right to continue reconnaissance flights after Khrushchev—because of Castro's attitude—was unable to make good on his promise to permit on-site inspection to verify removal of offensive weapons.
