

City Tax Office Robbed

CITY HALL HAUL — Mrs. Lee Roy McBride, (right) bookkeeper, points to the cash drawer in the City tax office that was cleaned out by a lone burglar yesterday. Tax Collector Aubrey Jones and Mrs. A. L. Patrick, cashier, look on as Mrs. McBride, who discovered the theft, points to marks made by the screwdriver used to pry the drawer open. (Daily News Photo)

A burglar pried open a locked door of the tax office at City Hall during the noon hour yesterday, entered and broke into the cash drawer, scooped up \$334.39 and walked out.

Police theorized the whole operation took less than three minutes. The burglary, which took place between 12:05 p.m. and 12:30 p.m. while all office employees were out to lunch, was not discovered until 2:45 p.m.

First knowledge the office had been robbed came when Mrs. Lee Roy McBride, bookkeeper, opened

the cash drawer to wait on a customer.

The tax office is located off the lobby of the main floor at City Hall opposite the city manager's office.

All offices on the floor are closed daily from 12 noon to 1 p.m.

Mrs. McBride was the last employee to leave the tax office about 12:05 p.m.

The first person to return was Tax Collector Aubrey Jones who told police he came back at 12:30 p.m.

The burglar had entered the of-

fice by prying open the lock on the north door.

Shades always are pulled when employees leave at the noon-hour, indicating that the office is closed. This police said, gave the burglar a chance to work inside without being observed.

Mrs. Clara Quay, secretary to the city manager, and William A. Wagoner, deputy tax collector, both said they noticed a man loitering in the lobby as they left for lunch.

They described him as being short and pudgy, about 50, well-

dressed, wearing a hat, a brown overcoat and dark business suit. The man wore horn-rimmed glasses, they said.

Police Chief Jim Conner said this could have been the burglar, or it could have been someone in City Hall on legitimate business.

Police said they had no other suspects. City jail prisoners who were at liberty working in the building were searched. Police also made a search of all possible hiding places in the building.

Chief Conner leaned to the theory, he said today, that the

burglary was the work of a professional who was familiar with the habits of City Hall personnel at the noon hour.

The tax office is located on the main lobby floor. Police headquarters and the city jail are on the floor below.

Tax Collector Jones reported that the burglar did not take checks in the drawer and over-looked a roll of dimes and pennies under the checks. The dimes and pennies totaled \$6.43.

The \$334.39 cash loot consisted of bills, halves, quarters, dimes and nickels.

ANPA Presents Defense

McNamara Takes Full Responsibility For Awarding TFX Plane Contract

WASHINGTON (UPI)— Defense Secretary Robert S. McNamara claims full responsibility for awarding the contract to build the new TFX fighter plane to General Dynamics, Fort Worth, Tex.

"As secretary of defense, my responsibilities were clear," he told the Senate investigations subcommittee Wednesday. "The decision was mine."

McNamara said in a statement submitted to the Senate group that he selected General Dynamics Corp.'s design for the new TFX fighter plane because it was cheaper and more dependable than a competing proposal by Boeing. Both firms would have produced good airplanes and the selection was a matter of judgment, he said.

McNamara sent a 32-page statement to Sen. John L. McClelland's investigations subcommittee defending his selection of General Dynamics. He said that the use of a single design by both the Air Force and Navy would cost \$1 billion less than producing two different types.

He called the Boeing TFX proposal technically complicated. He said Boeing had used unrealistic cost estimates in bidding lower than General Dynamics. Boeing submitted a lower bid on the contract than General Dynamics.

"It appeared to me that Boeing simply did not appreciate the complexities of developing the TFX," McNamara said.

In an effort to gain higher performance than needed, the secretary contended, Boeing had proposed "technically risky" designs.

The subcommittee is investigating McNamara's rejection of the Boeing plane even though a military selection board had favored it over General Dynamics' design.

McClelland issued a statement saying that McNamara still had not answered a number of questions raised in closed hearings and declared the investigation would

continue. The Arkansas Democrat noted that defense department witnesses had acknowledged the Boeing design was superior in certain operational features, such as ferry range, weapons carrying ability, and low-speed landing characteristics.

Smith Says There Is Much Competition

By ARNOLD SAWISLAK
WASHINGTON (UPI) — The American Newspaper Publishers Association (ANPA) said today there was vigorous competition in the newspaper business and more than ever between newspapers and other news media.

The ANPA presented its defense of the degree of competition in newspaper publishing in testimony prepared for a House judiciary subcommittee. The subcommittee is investigating concentration of ownership in the news industry.

Stanford Smith, ANPA general manager, submitted the ANPA case and offered these conclusions:

"The assumption that there is a continuing decline in competition in the newspaper publishing business is based on erroneous premises. The facts demonstrate clearly that there is vigorous competition in the dissemination of news and advertising, both among newspapers and with other media."

"There is no factual cause for alarm about changes in ownership of newspapers and other media, either through newspaper mergers, group ownership of newspapers or common ownership of newspapers and radio or television stations. More media voices compete for the attention of the United States public today than ever before."

"Changes in the structure of the newspaper business in the United States have been the result of natural economic social and political forces in a free society. In the extensive population changes of the post-war years, new daily newspapers have been established in rapidly growing suburban areas and smaller cities while in some of the largest cities, some daily newspapers have suspended or merged, as a result of economic pressures of rising costs."

"The newspaper business today is more enterprising in serving readers and advertisers, more dedicated to public service and more vigorous in its competition with other media than ever before."

Smith said that, while some

Soviets Protest 'Repression' At Iraqi Embassy

MOSCOW (UPI) — More than 1,000 Russians hurled snowballs and ink bottles at the Iraqi embassy here today in a mass protest against the repression of Communists in Iraq.

The demonstration, which had started with chanting and placard-waving, erupted into violence after about an hour.

The initial crowd of about 200 student demonstrators was joined by surging groups which jostled passersby and broke into a dead run as they neared the front of the embassy.

Many hurled snowballs, pieces of ice and ink bottles brought along for the occasion.

A group of mostly Arab students studying here forced their way up to the embassy door for a moment. They were pushed back by police.

Many in the crowd apparently were from Arab countries. Some said they were students from Jordan, Syria and Iraq itself.

The rain of ink bottles smashed and left dripping stains of green, red and black on the stone and brick walls.

About 150 brown-coated, fur-hatted Soviet soldiers stood in readiness on one of the streets near the embassy. None appeared to be carrying weapons, but some had small portable radio sending and receiving sets.

An estimated 40 Soviet policemen in black knee-length coats, fur hats and leather boots formed a cordon to keep the demonstrators about 20 feet from the embassy, on the edge of the sidewalk.

The demonstrators, bundled against freezing temperatures, carried placards with such slogans as "the criminals must answer."

Many Communists were reported killed in the Iraqi revolution last month or executed later by the new regime. The revolutionary government said the Iraqi Reds supported the ousted regime.

Defense Bill Gets Through House, Senate Action Next

WASHINGTON (UPI)—The record \$15.8 billion defense authorization bill is safely through the House but Senate action appears weeks away.

The House passed the bill to buy new missiles, aircraft and warships by a 374-33 vote Wednesday. It authorizes spending more money than some Republicans and Defense Secretary Robert S. McNamara think is necessary.

The Senate Armed Services Committee has completed hearings on the bill. But transcripts of those hearings are still being reviewed in the Pentagon, and no action to pass the bill to the floor is expected for at least a couple of weeks.

House Republican leaders are apparently withholding their major budget cutting effort for the bill to appropriate the \$15.8 billion. A similar pattern was expected in the Senate.

It also appeared likely that the Senate would follow the House in adding funds for the R570 warplane to the administration's bill.

The House included \$497.7 million for more development of the R570 and two additional nuclear attack submarines, which the administration felt were unnecessary.

The Air Force would get \$7.4 billion of the bill, the Navy and Marines \$6.6 billion and the Army \$1.7 billion. It would provide 3,000 aircraft, about 60,000 missiles and 43 warships.

State Department Says Red Charge Without Basis

WASHINGTON (UPI) — The State Department says Russia's charge that U.S. Navy ships fired on a Russian trawler was "without foundation."

"No 'surface vessel' was within 12 miles of a U.S. destroyer engaged in gunnery practice as the Russians said, and a State Department spokesman added that the ship was firing ammunition with only a seven-mile maximum range.

Spokesman Lincoln White said investigation of the alleged incident 70 miles east of Norfolk on March 8 when the Russians said two missile cruisers and a destroyer fired dummy rounds at the Soviet fishing boat revealed:

The site of the alleged incident is located within "an established and recognized U.S. Navy operations area," and on the day in question, "U.S. naval vessels, none of which were cruisers, were in the area."

"Six U.S. Navy destroyers fired gunnery exercises in this area on March 8."

"The ship nearest the location of the alleged incident fired an anti-aircraft practice at a towed sleeve target. At the time of the firing this ship was 10 miles from the position which the Soviet Union reports was the location of the incident."

"The ship fired in an easterly and westerly direction with ammunition which has a seven-mile maximum range. No surface vessel was within 12 miles of the firing ship."

Army Missile Nearly Ready For Transfer

CAPE CANAVERAL (UPI) — This huge testing center is about to lose its most successful military missile to a promotion and transfer.

The rocket is the Army's "shoot and scoot" Pershing, whose successes now are almost taken for granted.

The Pershing is expected to reach the end of its "research and development" flights within the next few weeks. That it will bid farewell to Cape Canaveral en route to a permanent assignment in the European defense forces.

Wednesday night, the 34-foot, needle-nosed missile streaked 150 miles across the Atlantic Ocean to its 42nd success in 50 shots — a spectacular 84 per cent "green" record that is far and away the best of the missiles currently being tested at the cap.

The solid-fueled rocket's next stop will be at the White Sands, N. M., proving grounds, where starting this summer it will put through some rugged "environment" tests. After that, it will head to Europe as one of the nation's most reliable space-age weapons.

Scientists have done out all they can here with the slender little rocket. They have fired it from concrete launching pads and from mobile vehicles parked at all angles, on flights ranging from a few score to hundreds of miles. The Pershing has come through on all counts.

The missile is the mightiest piece of artillery ever developed for the U. S. Army. It will be able to fire nuclear warheads to targets at ranges up to 400 miles.

The key to the Pershing system, however, is its mobility. Solid fuels, safe to handle, permit it to be transported easily and quickly from spot to spot, thus posing an additional handicap to enemy defenses.

The rocket that Pershing will replace is the Redstone, which in its day was just as dependable. But Redstone is a large, cumbersome rocket that can be moved about only with considerable difficulty. Its volatile liquid fuels pose an added problem.

Germans Approve New Ambassador

BONN, Germany (UPI) — West German government officials have expressed approval of George McGhee as the next United States ambassador to Bonn.

An official spokesman said the government would be sorry to see current Ambassador Walter C. Dowling leave but was pleased with McGhee as his successor.

President Kennedy Wednesday nominated McGhee, now an undersecretary of state, to succeed Dowling next fall.

Castro Sets Death Penalty, Depicts Terrorized City

MIAMI (UPI) — Premier Fidel Castro decreed death early today for burglars, false policemen and thieves who use children in their work.

In a two-hour speech broadcast by Radio Havana, Castro declared also that he has just about patched up his differences with the Roman Catholic Church. He said some fundamentalist Protestant sects oppose him, but charged that they are "subsidized by U. S. imperialists."

The bearded revolutionary depicted Havana as a city terrorized in some areas by housebreakers and infested in others by "pretty boys," "students who do not study," and "bums" and "shiftless types" who hang around pool halls.

It was the first time he had revealed the existence of so many "antisocial types" in Cuba.

Castro said he is going to recruit troops and skilled workmen from factories to man the "most modern weapons" which he said his regime now possesses.

He denounced refugees for fleeing from Cuba, but at the same time assailed the United States for not providing transportation to carry them away.

FCC Stops Wire Increase Order To Reconsider

WASHINGTON (UPI) — Chairman Newton Minow disclosed Wednesday that the Federal Communications Commission has stayed its order which would have increased private and leased wire telegraph rates on May 1.

The increase approved by the commission Jan. 29 would have boosted costs for the press and other users of such lines by \$4,012,000 a year.

On March 1 United Press International, the American Newspaper Publishers Association and the American Telephone & Telegraph Co. asked the commission to stay the order and reconsider it.

Minow announced the stay as he testified before a House judiciary subcommittee hearing on the economic aspects of the news industry.

The FCC chairman said the commission was "deeply concerned" whether the higher rates for the leased wire customers of the American Telephone & Telegraph Co. and Western Union might "decrease the information available to the public."

Texas GOP's Vote For Cut

WASHINGTON (UPI) — Texas congressmen stayed within party ranks Wednesday when the House rejected a proposal to cut some \$800 million from a \$15.8 billion defense spending appropriation.

Texas' two Republican congressmen, Bruce Alger of Dallas and Ed Foreman of Odessa voted for the cut.

All but one of the Democratic delegation voted against it.

Rep. Bob Casey, a Democrat from Houston, did not vote.

The bill was defeated by a vote of 258-149.

Shamrock Ready For Wearin' Of The Green

SHAMROCK (Sp) — All good Top O' Texas Irishmen will be heading for this Irish capital of Texas during the week end to take part in the annual St. Patrick's Day celebration which gets underway tomorrow night and bursts into full bloom Saturday.

Nothing like this St. Pat Day observance will be found anywhere else in Texas. This is the one and only original.

The St. Patrick's Day Kickoff banquet is set for 7:30 p.m. tomorrow in the Shamrock Armory.

The Hon. Frank N. Icard, president of the American Petroleum Institute, will be the main speaker. That renowned Irishman, Cristóbal O'Galloobhair, will be master of ceremonies at the banquet.

Saturday, the big day, will start off with a 7:30 a.m. flight breakfast in the Armory for dignitaries and persons arriving by plane. Old Settlers will register at 9 a.m. at 123 N. Main St.

Downtown opening ceremonies are scheduled on the sound stage at 9:30 a.m. At 10:05 a.m. the Donegal Beard Contest will be decided.

Visiting dignitaries, including Frank N. Icard of API, will arrive on the sound stage 10:40 a.m. for introductions.

Then comes the big feature of the day—Shamrock's annual St. Patrick's Day Parade which has grown to be one of the most outstanding pageants anywhere in the Top O' Texas.

The parade will move from the 700-block of N. Main St., south to First St., east to Madden, north to 700 block of N. Madden.

Luncheons for visiting band members and the Irish colons are (See SHAMROCK, Page 3)

Pampa Considers Small Plane Air Service Proposal

Possibility of small plane air-line schedules for Pampa was seen as members of the Pampa Chamber of Commerce Aviation Committee met this morning with representatives of an airline being formed to supply such service.

Chamber officials also stated that Bison Airlines of Roswell, N. M., had expressed similar interest in providing service to Pampa.

Bison operates twin engine planes which carry from six to ten passengers.

Local officials are expected to schedule a meeting soon with Bison representatives for a discussion of their proposition, according to Buster Carter, chairman of the Aviation Committee.

If it comes from a hardware store we have it. Lewis Hdwe. Adv.

Rails Accept Kennedy's Proposals

WASHINGTON (UPI) — The White House announced today that Southern Pacific Railroad had accepted President Kennedy's proposal for arbitration of its dispute with the Brotherhood of Railway Clerks (BRC).

The union promised an answer by 1 p.m. CST today.

Press Secretary Pierre Salinger said a telegram from BRC grand president George M. Harrison said the union had "under serious consideration" Kennedy's call to submit remaining issues to a three-member panel.

Kennedy made his proposal Wednesday in telegrams to Harrison and Southern Pacific president D. J. Russell when it appeared the 11,000 member union was at the point of issuing a strike ultimatum.

Salinger told newsmen that a telegram had been received from Russell saying "the railroad has agreed to the procedures" suggested by Kennedy.

In Newspaper Strike

NEW YORK (UPI)—Publishers gave the union a precedent-setting fourth paid week of vacation after the first year of service.

Also included was a money package about the same as the \$12.63 obtained by striking printers in an agreement with the publishers announced last Friday.

The previously accepted guild contract had given its members an \$8.50 money package over the two years. The \$4.13 offer, to be included in a new contract expiring at the same time as the other nine unions involved, would bring the guild package into parity with the \$12.63 obtained by the printers.

Announcement of the publishers' agreement was made by Mayor Robert F. Wagner at 3:30 a.m. EST. The development left seven craft unions still without contracts. One of these, the mailers, also is on strike.

Publishers Make Final Offer; Hopes High For Resuming Soon

The stereotypers' agreement with the publishers inflated hopes that the eight papers shut down in the deadlock might be able to print early next week. A stereotypers' official said union bylaws require 72 hours advance notice to members of a ratification meeting.

The impasse with the guild continued to be the main obstacle to speedy solution of the shutdown, two years. The \$4.13 offer, to be included in a new contract expiring at the same time as the other nine unions involved, would bring the guild package into parity with the \$12.63 obtained by the printers.

Announcement of the publishers' agreement was made by Mayor Robert F. Wagner at 3:30 a.m. EST. The development left seven craft unions still without contracts. One of these, the mailers, also is on strike.

Earlier today the striking stereotypers and publishers had reached an agreement. This pact

Quotes In The News

WASHINGTON —Rep. George H. Mahon, D-Tex., chairman of the House Defense Appropriations subcommittee, urging more secrecy about U.S. intelligence work:

"If something is going on you don't know about, you don't like it, people feel they have a right to know — especially members of Congress. And they do. But this is a secret business; and you can't keep it from your enemies if you give it to your friends."

WASHINGTON — Senate Republican Leader Everett M. Dirksen, denying the GOP is making a partisan attack on the administration's Cuban policy:

"Cuba is a fact 90 miles away. Castro is a fact. Communism in Cuba is a fact. It is a stubborn, irreparable fact. You are going to deal with it until you reach a better solution than we have p to this time."

Mail Orders To Begin March 18 For Dallas Met

Mail orders for the forthcoming season of the Metropolitan Opera Company in Dallas will be filled beginning March 18, according to an announcement received here by Mrs. Raymond Harrah, 2201 Charles, who is representing Pampa on the Southwestern Hospitality Board for the five-day opera festival.

Local opera patrons placing orders for seating will receive priorities if they will contact Mrs. Harrah before March 18.

Dallas will be the only southwestern city visited on this year's tour by the mammoth opera company which will be traveling in two special trains with its complete orchestra, chorus, ballet, stars, scenery and administrative staff.

Six operas are scheduled for presentation in the 4,200-seat State Fair Music Hall, May 8 through 12. Stars of the company listed for Dallas performance include Eileen Farrell, Gabriella

Tucci, Lucine Amara, Dorothy Kirsten, Rosalind Elias, James McCracken, Robert Merrill, Richard Tucker, Mario Sereni, Jerome Hines, Ezio Flagello, John Alexander, Franco Corelli, Otto Edelmann, Giorgio Tozzi, and many others from the roster of top names at the Metropolitan.

Operas set for the four evenings of Metropolitan Opera Week in Dallas are "Otello," May 8; "La Traviata," May 9; "Boris Godunov," May 10; and "Cavalleria Rusticana" and "I Pagliacci" on May 11. Two-week end matinees have also been announced: "Madama Butterfly," May 11 and "Die Meistersinger," May 12.

Ticket orders should be addressed to the Dallas Grand Opera Association, 1920 Elm Street, Dallas, Texas. Prices are as follows: box seats, all performances; 15, \$10.80; remainder of lower floor, \$9.90; balcony, all performances, \$8.90, \$6.70, \$4.70 and \$3.50.

FOLLOWING DOCTORS ORDERS — BIRMINGHAM, England (UPI) — Dennis Francis, whose doctor told him to "make things" to help heal his injured hand, Wednesday was ordered held for trial on charges he made 15 counterfeit coins.

Shamrock

(Continued From Page 1) scheduled at noon and the afternoon program starts off at 1 p.m. with a concert by the Amarillo Air Force Band.

There will be an air show at the Shamrock Airport at 1:30 p.m. Also at that hour the St. Patrick's Celebration rodeo is scheduled at the Rodeo Arena by the Shamrock Sheriff's posse.

A twist contest is set for 2 p.m. on the sound stage in midtown and at 2:30 p.m. in the Armory, awards will be presented to the winning bands, drill teams, floats and riding clubs.

Miss Irish Rose will be crowned in the Armory at 3 p.m. and then back in town the Old Fiddlers contest is scheduled for 4 p.m.

There will be time out for dinner and then the big night of St. Patrick's dances will be held in the National Guard Armory and the Junior High School gym.

St. Pat Day officials said today they are expecting 15,000 to 20,000 visitors in Shamrock for the big celebration which will be held rain or shine.

San Juan is the capital of Puerto Rico.

First Showing Slated Tonight

The first public showing of films on the space flights of three United States missiles, will be held tonight in the Pampa High School auditorium.

In addition to movies taken of the flights of Friendship 7, Aurora 7 and Freedom 7, films on the Gemini project and on detection and analysis of severe weather and meteorology will be shown.

The program will be free and open to the public. It is scheduled to begin at 7:30 p.m.

Interment will be in the Fairview Cemetery under the direction of Duemel-Carmichael Funeral Home.

Charley L. Rogers Sr.
GROOM (Spl) — Rites are pending for Charley L. Rogers Sr., a retired businessman, who died at 6:30 a.m. Wednesday in his home.

Born March 26, 1882 in Bridgeport, he had resided in Groom since 1919.

Arrangements will be announced by Blackburn-Shaw Funeral Home in Amarillo.

Survivors are his wife, Marie of Groom; one daughter, Mrs. Esteline Weatherly, also of Groom; one son, M-Sgt. Charles Rogers Jr., stationed with the USAF in Madrid, Spain; one brother, Bob Rogers of Logan, N. M. and five grandchildren.

Six Shooters To Review Progress

Progress reports of the Six Shooters Club of the Chamber of Commerce will be reviewed at a 7 a.m. breakfast Saturday in the Coronado Inn.

The Six Shooters Club is a liaison group between the chamber and Pampa business and industry.

Dick Evans, co-chairman of the Six Shooters, said plans are being outlined to help businesses already operating and to work for new businesses and industry.

"We will review and upgrade our activities at the Saturday breakfast meeting," Evans said, "and we are hoping for a full committee attendance."

Defense

(Continued From Page 1) metropolitan newspapers have suspended, merged or consolidated since World War II, now ones have come to life in the suburbs.

As a result, he said, the total number of dailies has remained almost constant.

He said the abstract goal of having several newspapers in every community "must yield to the economic reality that a community may be able to support only one daily newspaper."

Smith submitted a chart showing there were 1,760 dailies in 1962 compared with 1,744 in 1944.

He was accompanied by Prof. Jesse Markham of Princeton University, who had prepared an economic analysis of the newspaper publishing business.

Markham said newspapers have been caught in a "cost squeeze" and that most newspapers which have disappeared in the past 10 years were beset by financial problems.

Pampa Genealogical and Historical Society will meet at 8 p.m. tonight in the auditorium of Lovett Memorial Library. Three films from the Texas State Historical Survey Commission will be shown to illustrate the restoration of historical landmarks in Texas and what the society plans to do locally. The public is invited to attend.

Miniature Dachshund Puppies, 2314 Alcock, The Aquarium.

They will be training for leaders in the use of Camp Mel Davis on Friday from 10 a.m. to 2 p.m. A car-pool will be formed at Girl Scout Little House, 718 E. Kingsmill at 9:15 a.m. to go to the camp site. Those attending are asked to bring sack lunches. It is stressed by the council that at least one person in a troop using the Camp Mel Davis must have this camp-care training.

Dorothy Moring returns to Pampa and LaBonta Beauty Salon invites her customers and friends to call her at MO 5-5611.

The final class of the Teen Self-Improvement Clinic sponsored by the Altrusa Club of Pampa will be held in the form of a Coke Party and evaluation session Friday at 4 p.m. in the high school cafeteria. Mothers of girls are invited to attend.

Rummage & Garage Sale, 15, 16 March, 1125 E. Frederic.

Man Held On Assault Charge

Clarence Jordan, 59, of 515 Ash, was arrested yesterday at 7:30 p.m. by city police and charged with aggravated assault.

Jordan was arrested at the home of Paul C. Hammons, 41, of 519 S. Somerville, after an argument and fight that sent Hammons to Highland General Hospital.

Jordan allegedly hit Hammons in the head with a 8-inch long whetstone. Hospital officials stated that Hammons condition was listed as good, today.

Jordan is being held on a \$500 bond after entering a plea of not guilty.

U.S. News and World Report, 21 States are considering new or higher sales taxes this year. Five more States may boost income taxes. Fifteen States are considering new or higher gasoline, cigarette and liquor taxes. And county and city levies are in for a boost in countless localities.

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

These common, national problems are reasons why pressures on the Congress increase as aid is sought by States and cities from the Federal government. Too many Americans assume the Federal treasury has a never-ending supply of money for urban renewal, for alleviating big-city transportation problems, for building more highways, for aiding education, for correcting pollution problems.

Congress this year must pay heed to these State and local problems. It should recognize them, not by stepping up grants-in-aid but by alleviating tax pressures on American citizens from the Federal level. This feeling is one reason why a tax cut is very likely — and a good reason why it is desirable. Reduced Federal taxation would provide leeway for tax increases that seem sure to come in many cities and States.

VISITORS

Recent Panhandle visitors in the Nation's Capital included Mr. Seldon Simpson and his son Pat, Mr. Robert Darden, Mr. D'Alton B. Myers, and Mr. Ralph Y. Lemons, all from Amarillo; Mr. W. M. Sargent, Jr. from Pampa; and Mr. John L. Harper of Hereford.

RUSSIANS IN ALGERIA

ALGIERS (UPI) — The Soviet Embassy disclosed Friday that about 10 Russians, some of them soldiers, have been in Algeria since last December doing mine clearance work. Their presence was made known after a Russian soldier was killed accidentally during de-mining operations Thursday on the Algerian-Moroccan frontier.

Read the News Classified Ads

which he replied. They also were surprised by its wide distribution over Moscow radio and through the newspaper press.

The motives remain a Khrushchev secret. No secret is the fact that one of the greatest Soviet failures has been the failure to stamp out religion.

Early this year Western sympathies were stirred by the story of 32 peasants who trekked 2,000 miles from Siberia to the American embassy, seeking escape and the right to follow their own religion.

Radio Liberty recently told of another religious group hidden so deeply in the Siberian wilderness that they learned of the end of World War II only five years later. Aerial reconnaissance found them out and secret police brought them back.

TURN OFF RELAY

WASHINGTON (UPI) — The space agency said Tuesday it has turned off its record-setting Relay communications satellite so it can rest and recharge its batteries.

The 172-pound spacecraft was silenced by radio command Monday night until further notice.

SATELLITE LIBRARY — Mrs. Phyllis Timleck of Ottawa, Canada, files a reel of magnetic tape among a small library of tapes stamped "S-27." That is the code designation for the "Alouette," Canada's first satellite. Launched on Sept. 28, 1962, atop a U.S. rocket, "Alouette" has recorded enough information about the earth's ionosphere to fill 400 miles of magnetic tape sent in by 14 tracking stations around the world. It has orbited 1,200 times for a total travel of 35 million miles. After processing at Ottawa, Alouette's scientific data will be made available to scientists of all nations.

Greer On TV
NEW YORK (UPI) — Greer Garson makes one of her rare television appearances on NBC in a 90-minute Hallmark Hall of Fame special entitled "The Invincible Mr. Disraeli." Miss Garson plays the wife of the noted 19th century British prime minister in this original teleplay by James Lee. British star Trevor Howard is cast in the title role.

TAX PRESSURES

At this time every year, Uncle Sam takes his heartiest cussing from his nephews and nieces. It's time to wrestle with Form 1040. We all see the awesome percentage of income Uncle Sam requires from us. A man just can't be calm about taxes, even when he knows that the money goes to support the most perfect form of national government ever devised. His feelings about taxes aren't helped by his conviction that the Federal budget they help support is badly in need of trimming.

Uncle Sam's bite is sharp. But he's not the only one who imposes a heavy duty upon the citizens. Never before this year has there been so serious a revenue problem facing U.S. State and local governments. In legislature after legislature city council after city council, this year is being marked by a struggle to find money legislators and councilmen believe must be found to support needed programs.

FACTS: Tax collections in the 50 States have been rising at a rate of about \$1 billion a year. This year's increase is expected to be twice that.

In the period from 1947 to 1952, the debt of the Federal government rose \$40 billion, or 15 per cent of the 1947 total. At the same time, the debt of State and local governments increased \$56 billion, an increase of 332 per cent over the 1947 total.

A substantial portion of Federal revenue is passed to States and cities. Grants-in-aid to State and local governments are estimated to total \$7.8 billion in the current fiscal year and would total \$8.8 billion in the next fiscal year, according to the President's budget proposal.

According to the President's budget proposal.

Approximately one-fourth of the total expenditures by the State of Texas comes from the Federal treasury. Only two other States receive more Federal money.

The State of Texas is in a critical position again this year as it seeks to meet the responsibilities of our State government. The sales tax passed by the Legislature in 1960 was only a partial, and not very popular, answer. Now the cities of the State, pushed to the wall by the property tax limitation on their revenue raising ability, also are seeking new sources of money. The Texas Municipal League, comprised of about 600 Texas cities, is plugging for a bill in the Texas House of Representatives to give cities optional authority to levy a municipal sales tax of either 1/2 of 1 per cent, by ordinance or with approval of voters, or 1 per cent, with voter approval. The president of the TML, Robert Willis (mayor of Livingston), reports in the TML magazine "Town and City" this month that, "If we are to fulfill the promise of modern Texas, it is imperative that we take the action necessary now to permit local governments — especially the cities — to finance their own responsibilities out of their own revenue sources."

Showing how serious the situation is becoming, Willis points out that of the major States Texas is experiencing the third largest annual increase in population, that more than 85 per cent of the annual population increase is coming in Texas cities, and that the growth is straining a taxation system he says was "inherited from the 19th century." Texas cities were spending \$328 million a year six years ago. Six years from now, city spending will be \$778 million a year. Within 10 to 15 years it will reach \$1 billion annually.

We're Texans, and Texas problems are of deep interest to us. But the picture is the same all around the country. According to

Television In Review

By RICK DU BROW
 United Press International
 HOLLYWOOD (UPI) — "CBS Reports," a television main course surrounded on all sides by cream puffs, Wednesday night tackled the story of the explosive 1962 school prayer decision by the U.S. Supreme Court.

As a prologue, it may be noted that the series' determination to explore the touchiest of issues is not without its risks. Last week, for instance, it was reported that the Bristol-Meyers Co., a sponsor of the show's recent probe of South Africa's apartheid racial policy, was asked for an explanation by the government of that nation. The firm's international organization has a plant near Johannesburg.

Wednesday night, in the second program of a two-part history of Supreme Court conflicts, "CBS Reports" performed an admirable reconstruction of the events leading to the prayer decision—using the opposing lawyers and principals in a most generally impartial manner, with Eric Sevareid as host-narrator.

The case, of course, was the one in which the high court ruled that the practice of reciting a 22-word non-sectarian prayer in New York public schools was unconstitutional. And the attorneys Wednesday night sat together to re-create the substance of their thoughtful arguments about whether the question of separation of church and state was basically involved.

A Long Island resident explained how he had proceedings instituted against a school board. And later on, the board's attorney, though he lost, told in a truly affecting sequence what it felt like to have one's day in the land's highest court, without speechifying, he achieved a poignant pride in freedom that all opponents could agree upon.

Wednesday night's "Hollywood: The Great Stars" on ABC-TV, the third of three one-hour specials allegedly providing a history of filmtown, was one of those cream puffs.

The show had promised to appraise the effect of movie stars on the public and vice versa. It did not, except most superficially. It promised to show "how the star system was born." It did not. Like Hollywood, the hour was a victim of its own ballyhoo.

Bob Hope had a special on NBC-TV Wednesday night. He told eight million jokes. Frank Sinatra sang. Robert Goulet sang. A teenage singer named Brenda Lee delivered her gag lines better than both of them. The show will sweep the ratings. Excellence has never been determined by a vote.

SECURITY COUNCIL MEETS
 WASHINGTON (UPI) — President Kennedy will meet with the National Security Council late today. It will be the President's 33rd session with the top secret policy group and his first since last Jan. 22. There is "no crisis" prompting it.

MISS PONS FEATURED
 DALLAS (UPI)—Lily Pons will sing in Dallas-March 24 at a concert that also will feature the Dallas Symphony Orchestra, conducted by Donald Johanos. The concert will be the final "One Dollar Concert" of the current season.

CHILD STAR BACK—Jane Withers, who quit the movies in 1947 to rear a family, returns to the screen as a nurse assisting Gregory Peck in "Captain Newman, M.D." The former child actress also will be seen in a flock of television ads as a lady plumber. Jane is the mother of five.

McNamara Visits Houston Today

HOUSTON (UPI)—Defense Secretary Robert S. McNamara arrived in Houston last night for a briefing that could help decide whether the Air Force Dyna-Soar program gets the ax.

Officials of the space agency's Manned Spacecraft Center were to brief McNamara and other Defense Department officials today on project Gemini, a project not directly related to Dyna-Soar.

What the secretary hears in Houston about Gemini, particularly its military values, will likely figure into his decision on whether Dyna-Soar should be continued. It is presumed he will weigh the military value of Gemini against possible benefits of Dyna-Soar.

Dyna-Soar is an Air Force project that calls for the development of a space ship that can land like a conventional airplane instead of being dropped by parachute.

FDR Jr. Believes In Strong Leaders

WASHINGTON (UPI)—Franklin D. Roosevelt Jr. told senators today that in trade matters he believes in "strong leadership, even though we may be called nasty names."

The 48-year-old former New York congressman and son of the late president explained his views to GOP skeptics during the second day of Senate Commerce Committee hearings on his nomination to be undersecretary of Commerce—a \$21,000 a year post. Roosevelt said he looked upon his new duties as the "role of an administrator" to "promote and sponsor business" acting as the right arm of Secretary Luther Hodges.

He defended his ownership of a local foreign automobile agency. He told Sen. Norris Cotton, R-N.H. that one Italian auto import he handled had 275 U.S.-made items in its construction, and that the company used U. S. machinery in its Italian plant.

A thought for the day: Grover Cleveland said: "Public officers are the servants and agents of the people, to execute the laws which the people have made."

GINGERBREAD torte served with tasty minted walnuts is a special dessert to serve during the windy month of March. Gingerbread Pancake Torte Provides Windy Month With Happier Outlook

By GAYNOR MADDOX
Newspaper Enterprise Assn.
When the March winds blow, it's time for special treats. This Pancake Torte will take your mind off the weather. These minted walnuts will give March a happier touch.

GINGERBREAD PANCAKE TORTE
(Makes 6 to 8 servings)
1 1/2 cups cake flour
1/2 teaspoon baking soda
1/2 teaspoon ginger
1/2 teaspoon cinnamon
1/2 teaspoon salt
1/4 teaspoon cloves
1 egg
2-3 cup dark corn syrup
1-3 cup strong coffee
1/4 cup corn oil margarine, melted

Sift cake flour, baking soda, ginger, cinnamon, salt and clove together into mixing bowl. Beat egg well, then combine with corn syrup, strong coffee and melted margarine. Add to dry ingredients, mixing until flour mixture is moistened. (Batter will be lumpy.) Drop batter on hot griddle (greased if necessary), using 1/2 cup for each pancake. Bake until top of pancake is covered with tiny bubbles. Turn and bake until lightly browned on underside. Stack pancakes, spreading Maple Fluff between layers. Garnish with Maple Fluff pressed through pastry tube. Chill in refrigerator until serving time.

MAPLE FLUFF
Cream 1/2 cup corn oil margarine, gradually add 1 cup maple-flavored corn syrup (2 tablespoons at a time), beating well after each addition.

MINTED WALNUTS
(1 1/4 pounds)
1 cup sugar
1/2 cup water
1/4 cup light corn syrup
10 regular marshmallows
1 teaspoon essence of peppermint
3 cups walnut halves
Combine sugar, water and corn syrup in heavy saucepan. Cook over medium heat, stirring constantly, until mixture boils. Continue cooking to 238 degrees or until a small amount of mixture dropped into very cold water forms a soft ball which flattens on removal from water.
Remove from heat. Quickly add marshmallows and essence of peppermint. Stir until marshmallows are completely dissolved. Add walnut halves. Stir until well coated. Pour onto waxed paper. Separate halves while still warm.

Money-saving meals can be just as tempting as any others. With a bit of forethought, you can come up with many new ways of preparing and presenting foods.
For example, you can easily add spark to the well-known, thrifty stew. Just take a basic stew recipe and make any of the numerous possible variations. One suggestion is to arrange the meat and vegetables attractively on a platter and serve the gravy in a side dish.
Here's a perfect chance to experiment with the herbs and spices on your kitchen shelf. Try adding any one of these to the cooking liquid: bay leaf, marjoram, basil, peppercorns, whole cloves, garlic, celery seed, sage, thyme, caraway seed or parsley flakes.
Stew is thrifty because you can utilize the less-demanded cuts of meat that fall in the economy price range. Often meat retailers will have the meat already cubed for your convenience.
The less-tender cuts need long, slow cooking. Meat cookery research has discovered that the rich beef flavor is brought out more completely by gentle simmering instead of by boiling the meat.
The beef is first browned, then covered with water and cooked slowly in a utensil with a tight fitting lid. A fairly-heavy kettle or Dutch oven is best. Remember to time the addition of the vegetables so they will just finish cooking when the meat becomes tender.

BEEF STEW
1 1/2 pounds boneless beef for stew
3 tablespoons flour
1 1/2 teaspoons salt
1/4 teaspoon pepper
2 tablespoons lard or drippings
Water to cover
6 medium carrots
12 small onions
1 package (9 ounces) frozen green beans
Flour for gravy
Combine flour, salt and pepper. Dredge meat in seasoned flour. Brown in lard or drippings. Pour off drippings. Cover with water. Cover tightly and cook slowly 1 hour. Add carrots and onions and continue cooking 30 minutes. Add green beans and cook 30 minutes longer or until meat is tender and vegetables are done. Remove meat and vegetables to serving platter.

Baked Bananas In Flaky Crust Is An Unusual Deluxe Dessert

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Bake perfect bananas in a flaky pastry crust. Then serve with a delicate sauce made of banana-orange juice concentrate with a touch of lemon juice. The result will be an unusual deluxe dessert.

BAKED BANANA ROLLUPS WITH BANANA-ORANGE SAUCE
(Makes 6 Servings)
Pastry (9-inch double-crust pie recipe)
6 medium bananas, fully ripe
1 egg yolk, slightly beaten
2 tablespoons water
1-3 cup sugar
2 tablespoons cornstarch
1/4 cup orange juice
1 can (6 ounces) banana-orange juice concentrate, thawed
1/4 cup lemon juice
1 tablespoon grated lemon rind
1 tablespoon butter or margarine
1/2 cup raisins

Make favorite pastry. Roll out on lightly floured board or cloth to 6x18-inch rectangle. Cut into three 6-inch squares; cut each square diagonally. Place 1 banana on each triangle and wrap pastry loosely around banana; gently press pastry to conform to shape of banana. Place bananas on lightly greased cookie sheet. Combine egg yolk and 2 tablespoons water; brush lightly over pastry.
Bake 15 minutes, or until lightly browned. Meanwhile, mix together remaining ingredients, stir until cornstarch is dissolved. Cook, stirring constantly, until thickened and clear. Serve baked bananas with banana-orange sauce.

Something Unusual For Sunday Dinner

BAKED banana rollups served with a sauce made of banana-orange juice concentrate results in an unusual dessert.

Versatile Scallops Give Lenten Menu Variety

The Lenten season presents no menu problems to the housewife who is familiar with the versatile scallop. In recent years the popularity of this succulent Atlantic Ocean shellfish has grown by leaps and bounds with menu planners... and for several good reasons.

First of all, scallops seem to be on all-family seafood. Strong preferences and prejudices that sometime apply to other seafoods (even within the family circle) don't seem to apply to scallops. Nearly everybody likes them. Few people dislike them. And legion are those who grow ecstatic at their very mention.

Perhaps the reason for this is the scallop's delicate flavor. It is not fishy. Yet it has an unmistakable nutty-tang that tells you it comes from the sea.

Secondly, the texture of the scallop meat is pleasing. Being a muscle of the mollusk (it opens and closes the scallop's shell), it is just firm enough to pleasantly resist the bite, yet tender enough to make the biting a pleasure.

Undoubtedly the biggest reason

Scallops Are Versatile Shellfish

unusually seasoned pork chops.

BARBECUED PORK CHOPS
(Makes 4 servings)
4 thick pork chops, loin or rib
1 1/2 teaspoons kitchen bouquet
1 can (8-ounce) tomato sauce
1 can (6-ounce) concentrated frozen orange juice
1/4 teaspoon powdered thyme
2 tablespoons lemon juice
Brush pork chops with kitchen bouquet and br onwover moderate heat in lightly greased skillet. Blend together and add remaining ingredients. Bring to a boil, cover and then simmer gently until chops are fork tender — about 40 minutes. Serve with hot cooked noodles or with toasted picnic buns.

for the scallop's booming popularity is the endless variety of delightful ways they can be served. They can be broiled, baked or fried. They're delicious in casseroles, stews and chowders. Here's a recipe with a Spanish flavor that brings out the best in scallops:

SCALLOPS ESPAGNOLE
2 lbs. sea scallops, fresh or frozen
1 can (6 oz.) broiled mushroom crowns
1 cup thinly sliced celery
1/2 cup chopped onions
1/4 cup vegetable oil
1/2 cup whole stuffed olives
1 pkg. (10 oz.) frozen peas

1/2 teaspoon saffron
1/4 teaspoon Tabasco
2 teaspoons salt
2 cans (12 oz. each) vegetable juice
1 pkg. (14 oz.) pre-cooked rice
Defrost scallops, if frozen. Drain mushrooms; save broth. Cook celery, onions and mushrooms in oil until celery and onions are soft but not brown. Add olives, peas, saffron, Tabasco and salt. Combine mushroom broth, vegetable juice and enough water to make 4 cups; add with scallops. Bring to boil. Add rice; toss until rice is well-moistened. Cover; simmer 10 minutes or until liquid is absorbed. Makes 8 servings.

Weekly Report To Texans

By SEN. JOHN TOWER

Senator John Tower (R. Texas) in his weekly report to Texans reported on his Committee changes and outlined his Eight Point Legislative Package which he reintroduced in the Senate this week. The text of Senator Tower's report follows:

This week we finally got the United States Senate organized Committee-wise, having ended the filibuster on the rules question; the members of the majority party having resolved their differences over the disposition of positions on the various Committees of the Senate, now we are organized and ready to get down to business.

There are some minor changes in my Committee situation which I thought I should report to you. For one thing, I have moved up from the number five position on the Republican side of the Banking and Currency Committee up to the number two position on the Republican side of the Banking and Currency Committee. That is to say that I am the second ranking Republican on the Banking and Currency Committee for this Session of the Congress. I might say further that I will be the ranking Republican on the Housing Subcommittee of the Banking and Currency Committee. This is the Subcommittee that deals with all Federal Housing matters including FHA. In connection with FHA, I might say that we expect to hold early hearings on FHA on some of the procedures and projects that have been carried on under the auspices of that Agency and it is my hope that we will be able to get some pretty complete information on the conduct of FHA affairs. I might add that I will be a member of the International Finance Subcommittee of the Banking and Currency Committee; I will be a member of the Small Business Subcommittee and a member of the Securities Subcommittee.

On the other hand, on the Labor and Welfare Committee of the Senate, I will retain my position of the last Session, there being no change in membership on the Re-

publican side. I will remain as the fourth ranking member on the Labor and Welfare Committee and I will still be a member of the Health Subcommittee, the Migratory Labor Subcommittee and the Labor Subcommittee. I will be the ranking Republican on the Migratory Labor Subcommittee which deals with many matters concerning migratory farm labor in the United States that are of vital concern to Texans.

Further, this past week, I reintroduced my legislative program, the one that I introduced in the last Session of the Congress. Since a new Congress begins this year, it is necessary to reintroduce legislation that was not acted upon in the last Session. I have reintroduced my Eight Point Legislative Package. This package consists of eight bills and resolutions which are designed to offer a comprehensive, conservative program for this Session.

These bills are substantially the same as those which I introduced in the last Session. Altogether, they make up a comprehensive, conservative legislative program. While I do not anticipate action on this program in the present Liberal-dominated Congress, I believe the time is drawing near when the American people will have had their fill of some of these socialistic, paternalistic programs and therefore, they will send to Congress a conservative majority. When that time comes, legislation of this type, I believe, will be given full consideration.

This package includes measures in the following fields: It includes a foreign policy resolution, calling for an expression of the objective of victory over Communism; a Labor Antitrust Law; a resolution on Agriculture, returning us to a market-regulated economy; one calling for an end to government competition with private business; one on foreign trade, to establish a joint Committee on foreign trade to oversee it; one on taxes, calling for tax reduction; and another, a Constitutional amendment calling for balancing the federal budget.

TRUST ARRANGEMENTS EXPLAINED

When property is placed in trust it is turned over to a trustee who will see to it that it is properly managed for the benefit of a person or persons you name as beneficiaries. It is a method of disposing of your property and may be used in conjunction with a will.

Trusts have many advantages. A trust may be used to provide income for persons unable to support themselves, to provide funds for a child's education, as a means of establishing an annuity, or to provide a gift for a charitable institution.

In these days of high taxes, a

trust may be utilized to minimize the tax burden. If carefully planned, a trust may decrease income and inheritance taxes.

A trust arrangement works roughly in this manner. A person who desires to create a trust is called a grantor. The grantor through a trust instrument tells the trustee how to distribute the trust property or income. The trustee will then manage and distribute the trust proceeds or property in whatever manner the grantor desires.

A very common arrangement is to place the property in trust with directions to pay the income from the property to a wife for her lifetime, and upon her death the trust to end and the property to be distributed to the grantor's children.

An interesting type of trust is that which is sometimes called a spend-thrift trust. This is an arrangement whereby one sets up a certain sum of money to be given out to another at a definite rate per month or per year, or under definite restrictions.

This type of trust is generally

used in wills when a person desires to leave money to an individual, but feels that the individual is not capable of properly caring for the money and that if left to him in full that the person receiving the money will spend and waste the money and not receive the maximum benefit from it.

Trust property quite often consists of securities. The law regulates the type of property in which trust funds may be invested. However, the grantor may designate the type of investments the trustee may make.

The effectiveness of a trust is dependent largely on its proper creation. To avoid the pitfalls and dangers of lawsuits and ineffective trust operations, a trust instrument should be properly prepared. A poorly planned or carelessly drawn trust instrument can not only defeat the objectives of its creator, but may prove costly as well.

Your lawyer can advise you whether a trust arrangement will be advantageous in your particular situation, and is qualified by education and experience to prepare

properly the legal papers necessary to set up a trust. If you have in mind some bank or trust company to act as trustee, that firm's trust officer will be glad to discuss the matter in a conference with you and your attorney.

(This newsfeature, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the fact involved, because a slight variance in facts may change the application of the law.)

Heavy Drinkers

WASHINGTON (UPI)—In and around Worcester, Mass., live the biggest drinkers of whole milk. The U.S. Department of Agriculture reports. The average consumer in the Worcester area used 344 pints of whole milk last year. Residents of the Dayton-Springfield area in Ohio ranked second, residents of the Minneapolis and St. Paul ranked third.

WHIRLY-GIRL—Miss Gloria Jean Miller, Goshen, Ind., is the youngest woman helicopter pilot in the free world. She qualified for her airplane pilot's license and her helicopter rating on her 17th birthday at Goshen.

OLD MAN RIVER'S MIGHTY LOW — Army Engineers dredge works to keep the ship channel open at St. Louis, Mo., during what would normally be a high-water period. Toughest winter in many years has contributed to a water scarcity in the Mississippi Basin.

Congressional Record: A Hit

By DICK WEST
United Press International
WASHINGTON (UPI) — "Far away places and strange sounding names..."

Remember that song? It keeps coming back like a haunting refrain every time I pick up a March 11 copy of the Congressional Record.

This edition contains the first expense reports filed by our far-flung congressmen on their travels to near and distant lands during 1962.

It gives a body wanderlust just to look at neat columns, so round and firm and fully packed with figures.

What the senators and representatives and their aides reported in the Record was the amount of counterpart funds that they spent while taking care of congressional business overseas.

Counterpart funds, as you may know, are foreign currencies owned by the U.S. government. They have been made available to itinerant congressmen more or less for the asking.

In 1962, as far as I could tell, our footloose lawmakers left no counterpart unturned. If you arrange their expense accounts in a certain order, they make a sort of poem:

"Pesos in the Philippines;
"In Austria, the schilling;
"In France the franc was ready
mash,

"And believe me they were willing.

"In ancient Greece, the drachma;

"Pesetas rain" in Spain;

"In Panama, the balboa

"Flows mainly down the drain.

"Cambodia supplies riels;

"Indonesia mints the rupee;

"In Portugal, the escudo

"Is used for making whoopee.

"Russian rubles; Swedish kroners;

"In Italy, the lira;

"Bahi is spent in Thailand;

"Too bad it isn't nearer.

"Yen in Japan; sol in Peru;

"Plasters from the Vietnamese;

"Sucre's sweet in Ecuador,

"But in Brazil, cruzeiro please.

"The Deutschmark in Germany;

"From Yugoslavia, the dinar;

"In Guatemala, it's quetzal,

"Than which there's nothing finer.

"Guilders in The Netherlands;

"Colon in Costa Rica;

"No wonder that our congressmen

"Were heard to cry 'eureka!'"

New Chairman

STRATFORD, Conn. (UPI) — Joseph Verner Reed is the new chairman of the board of trustees of the American Shakespeare Festival Theater and Academy, succeeding the late Lawrence Langner. Reed will continue as executive producer of the organization, a post he assumed last year.

Knife And Fork Slates Varied Speakers

Next season's slate of speakers was booked by Top o' Texas Knife & Fork Club directors in a recent meeting in Coronado Inn. Mr. Von Riesen, International Knife & Fork representative, met with the group and aided in selecting speakers whose topics reflect a great variety of subject matter.

Leading off the program year in October will be Herbert Philbrick, of the "I Led Three Lives" television series. It was his testimony at the trial of the eleven top U.S. Communists that cracked the communist defense and convicted them of conspiring to overthrow the U.S. Government. He is now living a normal life again in New Hampshire with wife and five blonde daughters and a son, but

continues to fight communism by lecturing, writing, and television appearances.

Tennyson Guyer, the next speaker, has been tabbed "Ohio's Ambassador of Good Will". His speech titled "The Miracle Called America" has taken his audiences from hilarious laughter to tears in half a minute, and he has been described as "American as hamburgers and the little red school house." He entertains, inspires, amuses, and throws in a handful of rainbows for good measure. After hearing him speak, Major General Lewis Hershey described him as a captivating spell-binder who left his Washington audience thinking, talking, and applauding.

On the lighter side, club members will be treated to a fun-filled evening with DeMille, whose program deals with Time and the Subconscious Mind, proving that humans have a greater mental acuity while asleep than when awake. He brings a glimpse into the world of tomorrow, forecasting such astounding things as headlines a week or more ahead of their actual appearance in the papers or on news telecasts.

Possibly the most timely subject of the year will be discussed by Peter Reich, brilliant young aviation editor of Chicago's American, who covers the Astronauts. He has just returned from the South Pole where he was one of eight men who accompanied an expedition to live under conditions believed to exist on the Moon. He witnessed the launching of Shepard and Glenn, and it was his series of articles questioning Soviet Major Yuri Gagarin's orbit flight around the world which was read into the Congressional Record. Reich is a former Quiz Kid, and may be the world's first reporter in space. The National Aeronautics and Space Administration has informed him that he is number one on the list of candidates for this singular honor.

Charles W. Jarvis, D.D.S., will give the final lecture, "Prescription for the Happy Life". He is an excellent humorist-philosopher

Candidate Asks For No More Police Protection

CHICAGO (UPI) — Benjamin S. Adamowski, Republican candidate for mayor, demanded in court Wednesday that Chicago police quit looking after him.

Adamowski filed suit in Federal District Court seeking a petition against his rival in the April 2 election, Democratic Mayor Richard J. Daley.

He asked the court to order Daley to call off the six-man police detachment which has been assigned to keep guard over Adamowski's house during the campaign.

Daley's police superintendent, Orlando W. Wilson, said he had ordered the guard at Adamowski's home on his own initiative. Homes of Chicago political leaders have been bombed in recent months, he said, and he didn't want that to happen to the Adamowski residence.

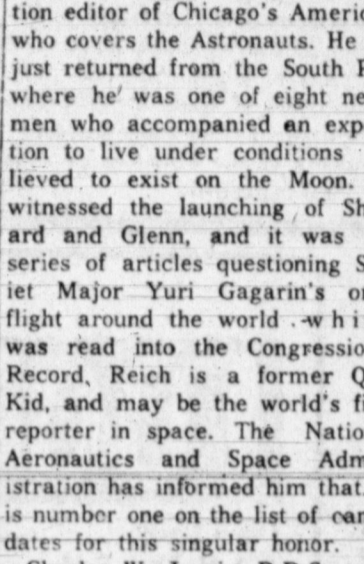

Adamowski wouldn't buy the explanation. He added Daley ought to get rid of the eight policemen guarding his home.

Darrow Deciples Try To Commune

CHICAGO (UPI) — A group which claims to be the "eldest successor" of efforts to raise the ghost of Clarence Darrow tried yesterday to "commune with him" on the 25th anniversary of the famed criminal lawyer's interment.

Herbert M. Kraus, vice president of the Clarence Darrow Community Center, described the ceremony as "semi-religious."

"We won't try to raise his ghost," Kraus said. "We will have a short tribute and lay a wreath and dedicate a plaque."

The ceremony was scheduled at a bridge over the Jackson Park lagoon where Darrow's ashes were scattered March 13, 1938.

Among those invited were Matilda Fenberg, a longtime friend of Darrow; Lillian Herstein of the American Civil Liberties Union; Douglas Anderson, administrative assistant to Sen. Paul Douglas, D-Ill.; and officials of Roosevelt and Chicago universities.

Not invited was Nathan Leopold, "thrill" slayer of Bobby Franks, whom Darrow saved from the electric chair in the Loeb-Leopold trial of the 1920s. Leopold, now in Puerto Rico, was scheduled to be freed of Illinois parole restrictions today.

Nikki To Call

MOSCOW (UPI) — The official Tass news agency said today the Chinese Communists have invited Premier Nikita S. Khrushchev to "call" at Peking during his scheduled visit to Cambodia.

Tass said the invitation came in an exchange of letters between the Soviet Union and Red China agreeing to a meeting to settle their ideological clash.

Record

NEW YORK (UPI) — "The Blacks," record-holder for an off-Broadway drama, has passed its 750th performance at the St. Marks Playhouse. It opened in May 1961.

Army Testing 'Sergeants'

WHITE SANDS MISSILE RANGE, N.M. (UPI) — The Army is flying Sergeant missiles this week from White Sands to the Pacific Missile Range at Point Mugu, Calif., for final operational tests.

The short-range, solid-fuel ballistic missile has successfully undergone two phases of testing at White Sands Missile Range, and has been fired by military units under operational conditions at White Sands.

A military crew from White Sands will take Sergeant missiles from Point Mugu to San Nicholas Island for their first firings at elevations below White Sands' 4,000 feet.

The Sergeant missile will replace the Army's corporal, a liquid-fueled short range ballistic missile assigned to NATO forces in Europe and to U.S. Army units elsewhere.

Newsman Dead In Kansas

AUGUSTA, Kan. (UPI) — Bertha B. Shore, 65, widely known Kansas newspaper woman, was found dead in bed yesterday in the hotel where she lived.

Death apparently resulted from a cerebral hemorrhage, a physician said.

Miss Shore was editor and part owner of the Augusta Gazette, with which she had been associated since 1928.

She and a brother, Chester Shore, now of Helena, Mont., took over operation of the newspaper in 1928.

Miss Shore was widely known for her column "Half and Half," which carried the by-line "Ima Washout."

Miss Shore had suffered several light strokes and was hospitalized for a time in 1961. Otherwise she continued to work.

Survivors, in addition to Chester Shore, included another brother, Schiller Shore, whose home is in Albuquerque, N.M.

Ambassador Retires When Dispute Ends

MEXICO CITY (UPI) — A dispatch from Ciudad Juarez said Tuesday night U.S. Ambassador Thomas C. Mann plans to retire after the Chamizal strip of El Paso, Tex., is formally turned over to Mexico.

Mann, of Laredo, Tex., was unavailable immediately for comment.

The press report quoted an El Paso County official as stating that a committee of two has been named to assess property in the 400-plus acre strip near the Rio Grande which has long been claimed by Mexico.

The report further quoted the official as stating the U.S. government will pay Chamizal property owners, who will have up to two years to move.

Unofficial sources said earlier this month that talks between U.S. and Mexican officials on the half-century old dispute were nearing conclusion. Mexico based its claim on arbitration of a dispute over how far the Rio Grande shifted in the 19th century, and a technical point of the manner in which the river bed moved.

Slayer Found Criminally Insane

GREEN BAY, Wis. (UPI) — Harry Hebard, 16-year-old confessed slayer of five members of his family, was adjudged criminally insane Wednesday by County Judge James Byers and committed to Central State Hospital at Waupun.

Byers made his ruling after hearing testimony from two court-appointed psychiatrists, who described the youth as suffering "schizophrenic reaction."

Hebard said he killed his father, stepmother and her three children because he "felt left out of the family circle."

Slayer Found Criminally Insane

GREEN BAY, Wis. (UPI) — Harry Hebard, 16-year-old confessed slayer of five members of his family, was adjudged criminally insane Wednesday by County Judge James Byers and committed to Central State Hospital at Waupun.

Byers made his ruling after hearing testimony from two court-appointed psychiatrists, who described the youth as suffering "schizophrenic reaction."

Hebard said he killed his father, stepmother and her three children because he "felt left out of the family circle."

VIOLATOR GETS BONUS

VERNON, Conn. (UPI)—Truck-driver Walter S. McCulloch, 43, got a bonus Wednesday along with a ticket for a minor traffic violation. State trooper John Wittenzeller also handed him a cigar because his wife had given birth to a daughter in a Hartford hospital.

SPRING LOOSENS WINTER'S IRON GRIP---

Winter most reluctantly concedes A vernal metamorphosis and heeds The gentle fracture of its frosty shell. Then, locustlike, it stirs to leave the cell. The water's edge a moment more is lined With fragile, glistening shards it left behind.

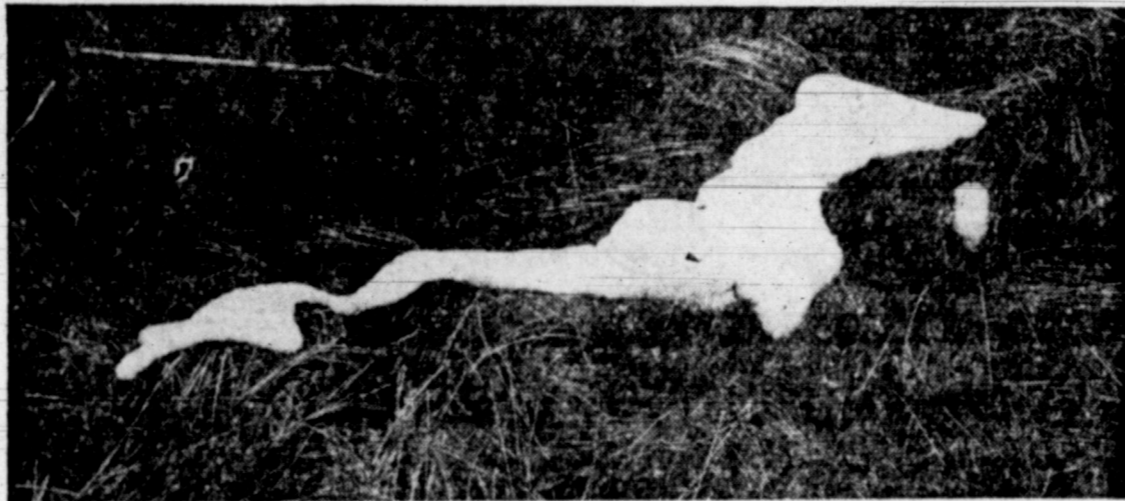

First to break the clamp of winter's fist And give its sure demise a deft assist, A country stream a stately Styx becomes And bears the season off as it succumbs.

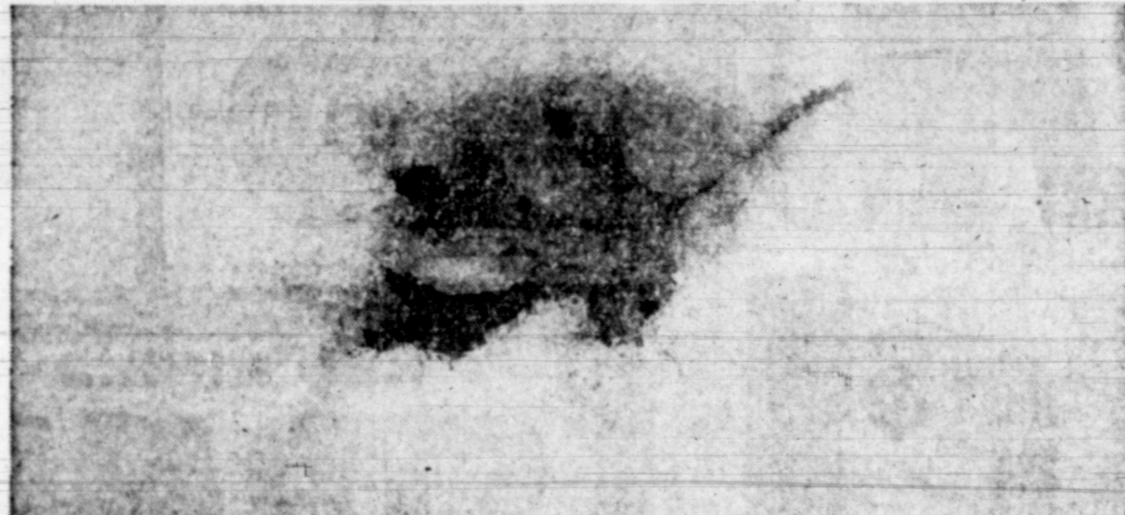

How's That, Again?

NEW YORK (UPI)—Actor Jnoy Monaghan's explanation of his unusual first name is a bit confusing in itself. The Wilkes-Barre, Pa., native was called Jno, pronounced John. That confused people, so he changed it to Jnoy, which is Gaelic for Johnny and is pronounced Johnny. All clear?

Read the News Classified Ads

A shroudless corpse, composed on shoreline grass (Winter's plight reveals a true impasse, There's no escape, no out), it marks a spot, outlined by April, for a burial plot.

Three seasons meet when last year's leaf, Feeling life and warmth of spring in brief, Prints a fleeting, faint intaglio In a bed of granulating snow.

JUST LIKE OLD MAN RIVER

If you want a truck that does its work without yelling for attention all the time, buy a "new reliable" Chevrolet. You have to take care of it; it's a machine. But this isn't a full-time activity. The clear idea is that the truck works for you, not vice versa. The way to build such a truck is to put more quality into it. For example, Chevrolet doesn't build one type of suspension system for all sizes of trucks. Chevrolet designs suspension systems to fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense? Conventional pickups have double-wall construction in cabs, doors, lower side panels. Roofs are insulated. Body floors are select wood, not metal. Tailgate chains are wrapped in rubber. If you'd like to examine or drive a new '63 Chevrolet truck, just call us. We'll be right over.

Habeas Corpus Refused For Man And Woman

AUSTIN (UPI)—A Houston attorney claimed unsuccessfully today that condemned killers Leslie Douglas Ashley and Carolyn Ann Lima are man and wife and their trial testimony is invalid.

The Court of Criminal Appeals, which twice has denied appeals for new trial for the pair, refused to accept lawyer Lloyd Lunsford's writ of habeas corpus which said testimony by Miss Lima's mother, Mrs. Mae Lima and by Houston Dist. Atty. Frank Briscoe confirm that Ashley and Miss Lima are common-law man and wife.

Under Texas law, husband and wife cannot testify against each other.

The State Board of Pardons and Paroles scheduled a meeting this afternoon to hear arguments why Ashley, a homosexual and former female impersonator, and Miss Lima, a prostitute, should not die March 30 in the state electric chair for the 1961 murder of a Houston realtor.

Ashley, 25, and Miss Lima, 20, were convicted in 1961 for the gun-torch slaying of Fed A. Tones.

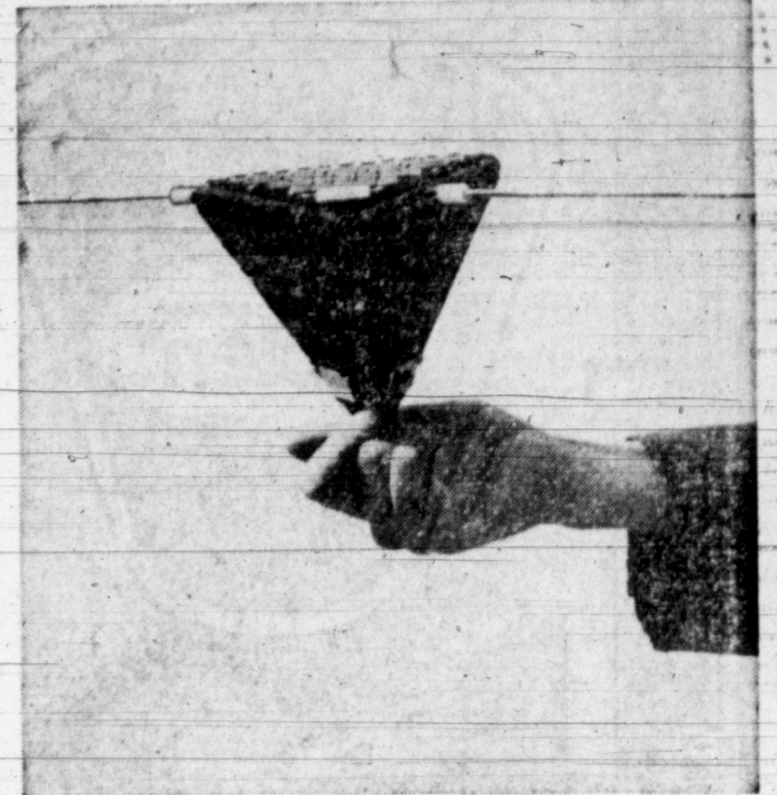

Phillips Merges Two Divisions

Phillips Petroleum Company has consolidated the automotive and transportation divisions of its supply and transportation department into a new transportation division, headed by J. E. Donnelly, formerly manager of the department's New York City office. W. B. King, who had been director of the exchange and distribution section of the supply division at Bartlesville, replaced Donnelly in New York. H. J. Frederic, Jr., formerly assistant director, exchange and distribution, succeeded King as director.

Donnelly joined Phillips in 1951 at Bartlesville. He became assistant manager of the transportation division before moving to New York in 1959. Donnelly attended the Institute of Industrial Transportation and Traffic Management at American University, Washington, D. C.

King, whose company career began at Salt Lake City, Utah, in 1946 with Wasatch Oil Company, which subsequently was acquired by Phillips, moved to Bartlesville in 1951 as a regional manager of crude oil purchases and sales. He had served as director of the exchange and distribution section since 1959. King attended the San Francisco Institute of Accounting and Business Administration.

Frederic joined Phillips in 1952 at Bartlesville and in 1958 was made assistant director of the exchange and distribution section. He holds a master's degree in business administration from Denver University.

THE LITTLEST SATELLITE—Smallest and lightest active satellite ever launched is the TRS, or Tetrahedral Research Satellite, recently put into orbit by an Air Force rocket. The TRS rode piggyback aboard another, larger satellite. Only six and a half inches on a side and weighing only 1.47 pounds, the baby satellite is carrying out five different experiments, including mapping radiation belts. Built by Space Technology Laboratories, the TRS cost about \$25,000 and is designed for a useful life of 90 days.

Western Fashions Modeled For Club

The Leather 'N Lace Riding Club held its March meeting in the home of Miss Connie Pairsh. Highlighting the meeting was a style show with fashions provided by Anderson's Western Wear and narration by Mrs. Grant Anderson. Modelling western fashions were Trina Frost and Berinda Rogers.

During a business meeting, conducted by Miss Emma Wheelers, president, a thank-you note was read from Ada and Sammy Whatley.

It was announced that a dress rehearsal will be held in the Bull Barn on Thursday, March 14 at 7 p.m., for those who plan to attend the St. Patrick's Day celebration on March 16 in Shamrock. Members, who cannot be present at the rehearsal, are urged to bring their suits to the home of Nell Henry for inspection.

All members were reminded that horses will be loaded at 7 a.m. on March 16 at the rodeo grounds.

Miss Berinda Rogers was welcomed as a new member.

The next meeting will be on April 3 in the home of Miss Betty Phillips.

NOVEL BANKS — Girl Scout Troop 14 presented its Juliette Lowe Friendship Bank in a novel manner with its troop's contributions planted in a pot of yellow daisies. Miss Toni McLennan, left is pictured handling the pretty bank to Miss Judy Cox, while Cara Thomas of Brownie Troop 216 watches. (Daily News Photo)

Friendship Banks Are Presented In Ceremony

The Sunrise Neighborhood program for the Juliette Lowe World Friendship Fund was held Monday night in the PamCel Hall at the Celanese Corporation.

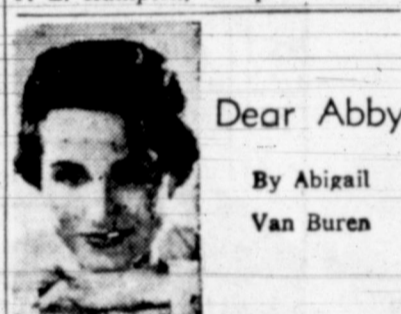

Intermediate Troop 45 under the leadership of Mrs. Don Haynes and Mrs. J. L. Hampton presented the flags as the opening ceremony. Mrs. E. A. McLennan, chairman

of the program and master of ceremonies, introduced Mrs. Jimmy Crouch, who serves as the Sunrise Neighborhood Chairman. Mrs. Crouch welcomed the audience and introduced guests from each troop.

Brownie Troops 15, 30, and 31 sang "The Brownie Smile Song". Intermediate Troop 14 sang "There's a New Flag Flying in America". Brownies from Troop 216 performed Indian Songs and Dances in costumes they had painted at a troop meeting.

The story of the Juliette Lowe Fund; how it finances international encampments, exchange en-

campments, exchange programs, "Our Chale" in Adelboden, Switzerland and "Our Cabana" in Cuernavaca, Mexico, was told by scouts from Troop 44. This fund reaches out to girls in countries where scouting is just beginning and to refugees or victims of disasters.

Dear Abby

By Abigail Van Buren

Miss Beverly Heaton, a Senior Scout from Troop 17 related her experiences at the International Round-Up in 1962 at Button Bay, Vermont.

A highlight of the evening was the presentation of the novel and original banks containing the troops contributions. To Mrs. McLennan before a display of the flags of 50 nations, where Girl Scouts are active.

Refreshments of coffee, cookies and punch were served to approximately 300 guests.

The following troops and leaders assisted in providing refreshments: Mrs. Elmo Thompson and

Miss McPherson Feted With Party

LEFORS (Spl) — The Lefors Civic Center was a party scene as Mr. and Mrs. J. M. McPherson honored their daughter, Jan, on her seventh birthday recently.

Party games comprised the entertainment. The serving table was covered with a white tablecloth which had birthday cakes and "Happy Birthday," around the bottom as a border. The white cake was centered with a ballerina and decorated with seven pink candles. Pink rosebuds were used as the centerpiece surrounded with favors of balloons, bubble gum and suckers, and small birthday cups, napkins and plates.

Refreshments of birthday cake, ice cream and cakes were served.

Those attending were Walter Griffith, June Cox, Mike Dunn, Jane Duncan, Wyatt Fenno, Deborah Torres, Margaret Hatcher, Kenneth Joe Chisum, Don Archer, Brian Marlar, Connie and Lonnie Teel, Anne Vincent, Alpha Jo Willott, Jim Hix, Lavassa Ring, Clayton Robinson, Pam James, Dwight Keith, Connie Bivins, Deborah Langley, Beverly Lee, Lori and Terri Dickerson, Kim McPherson, Johnetta Dunn, Lavanna Crutcher, Jan McPherson, Mrs. Ray Dickerson, Mrs. Henry Dunn, Mr. and Mrs. W. V. Hix, Mrs. Herman Langley and baby, and Mrs. Allen Crutcher.

Luncheon Given By Pioneer Club

WHITE DEER (Spl) — The White Deer Pioneer Club met recently in the Fellowship Hall of the First Methodist Church for a luncheon served by the Womens Society of Christian Service. Hostesses were Mmes. Harry Edborough—E. H. Grimes and R. A. Thompson Sr. of White Deer, and Maye Skaggs of Pampa.

Following the luncheon the business meeting and social hour was held in the church parlor. The

Pampa, and Mmes. H. T. Dickens, Julia Powers, E. F. Tubbs, J. W. Stubblefield, May Coffee, E. H. Grimes, Harry Edborough and R. A. Thompson Sr., of White Deer.

The next meeting will be May 6 with Mrs. E. F. Tubbs, Mrs. Mae Coffee, Mrs. Bob McCoy and Mrs. Fanny Skaggs as hostesses.

Mrs. Bonnell Has Hi-Land Council

Ladies Council of Hi-Land Christian Church met recently in the home of Mrs. W. T. Bonnell, 631 N. Faulkner with Mrs. Leo F. Wheeler opening the meeting with prayer. Mrs. W. C. Scott gave the devotion.

For the program, Mrs. Odessa East showed films of the missionary life of Ed and Mary Fausz of West Germany.

Business discussed and approved was to send a Easter box of clothing to the Indian School in Arizona.

Others attending, not previously mentioned, were Mmes. Sam Stone, Floyd Pveatt, Ray Mason, Harold Starbuck, W. R. Whitwell, and a guest, Beverly Carruth.

Wesleyan Service Guild Has Topics On Educational Church Programs

The study of "The Church's Mission and Persons of Special Needs" was continued at the March 4 meeting of the Wesleyan Service Guild held in the home of Miss Ila Pool with Mrs. Lillie Mae Fowler as hostess assisted by Mrs. Laura Penick.

Mrs. Margaret Wells as moderator led a panel discussion of informative educational features. Mrs. Gladys Turner discussed mental illness and its treatments. She stated that much progress is being made in the treatment of such patients and research is continuing for new ways in which to help those afflicted.

Exceptional children, as well as people with handicaps, were discussed.

It was brought out that "the People to People program, an intercommunity relations program familiarly called IAL, means International Association of Linguistics.

"Persons, who are in this pro-

gram, go to lands where they have a spoken but no written language. These missionaries create a written language and teach the natives how to read."

Mrs. Rachel Jones has done research on this particular phase of church work and brought many interesting facts to the Guild's attention, such as, "how the ham radio operators and technicians are trained and serve in different capacities. Even though this is not a new church program, it is one not too well known.

The program ended with this thought: "No one has learned to live until he has surrendered his ego to God."

Attending were Alma Wilson, Lalar Wilkerson, Gladys Turner, Lillian Mullinax, Laura Penick, Mildred Cook, Frankie White, Irene Smith, Ivo Denson, Rachel Jones, Lillie Mae Fowler, Ila Pool, Diana Wood, Maggie Smith, Inez Clubb and Margaret Wells.

Refreshments of coffee, cookies and punch were served to approximately 300 guests.

The following troops and leaders assisted in providing refreshments: Mrs. Elmo Thompson and

DEAR ABBY: Recently a man signed FLORIDA wrote to you saying he was 67 years old and wanted a wife about 48 or 50. What makes him think he is entitled to a woman that young? If that's the way he figures, a man 25 years old wouldn't want a girl over six! These old curmudgeons give me a pain. Why can't a 67-year-old man be satisfied with a 65-year-old woman? Confidentially, I think women hold their age better than men anyway.

A YOUNG WOMAN OF 65

DEAR ABBY: Please don't think this is too silly to answer because I have been trying to find the answer to this question for a long time and you are my only hope. Does the groom carry the bride through the door of the motel on their honeymoon? Or is it the door of the apartment or house where they are going to live that she gets carried through?

CURIOUS DEAR CURIOUS: Traditionally, the groom carries the bride over the threshold of their home. But let's face it—once a bride, who cares?

CONFIDENTIAL TO BETTY: You're offering him lip service. He's interested in lips. There's no future in it for either of you.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

TOWERING TOURISTS — Recent passengers aboard an American President Lines' ship included these 10-foot tall giraffes en route from New York to the San Diego Zoo.

Washington Window

By LYLE C. WILSON
United Press International
WASHINGTON (UPI) — Non-operating employees of the Southern Railway and affiliated lines have been invited to apply for refund of dues money misused by their unions for political purposes.

The Southern is union shop. Miss Nancy M. Looper, a Southern employee, won a 1961 Supreme Court decision forbidding labor leaders to compel a union member to pay for political activity to which the member was opposed. Miss Looper seeks to alert Southern employees to their chance to obtain a refund.

The case began in Bibb County Superior Court, Macon, Ga., in 1958. The Supreme Court ended it, June 19, 1961. Judge O. L. Long, Bibb Superior Court, now has invited to seek refunds from their unions 12,000 non-operating employees of these lines: Georgia Southern — Florida Railway Co., Southern Railway Co., Cincinnati, New Orleans and Texas Pacific Railway, Alabama Great Southern Railroad Co., New Orleans and Northeastern Railroad Co., Carolina and Northwestern Railway Co., New Orleans Terminal Co., Harriman and Northeastern Railroad Co. and St. Johns River Terminal Co.

Refunds Planned
Judge Long's circular to employees said: "The Supreme Court decided that dues, fees and assessments collected by a union under a union shop agreement may not be used by the unions for political purposes over your objection. The court will determine the extent to which such dues, fees and assessments are used for political

non-collective bargaining purposes and will establish a system of making refunds or reductions in dues for employees who give notice to the union that they object to the use of their money for purposes other than collective bargaining."

"The demand for a union shop," Miss Looper told United Press International, "carries employee responsibility to regard and to respect the rights and ideas of minority groups. This presents a very serious problem to our nation when you consider that 64 per cent of AFL-CIO members are under a union shop. Ten cents per capita per month could swing a national election."

Boston Tie Party
"It is just as serious to us today as was the Stamp Act of 1765. The Stamp Act seemed negligible to some—yet far-sighted men pledged their honor and gave their fortunes that we might be free. Now we are allowing ourselves to be colonized by labor czars."

The Supreme Court voted 7-to-2 for Miss Looper, Justices Felix Frankfurter and John M. Harlan dissenting. The others were severe in condemning the challenged union shop practices. Wrote Justice Hugo Black:

"Compelling a man by law to pay his money to elect candidates or advocate laws or doctrines is against dissent only in degree, if at all, from compelling him by law to speak for a candidate, a party, or a cause he is against. If this is constitutional, the First amendment is not the charter of political and religious liberty its sponsors believed it to be."

The Lighter Side

By DICK WEST
United Press International
WASHINGTON (UPI)—The U.S. Congress has been catching a lot of criticism this year, but there is one area in which I personally would give our lawmakers very high marks.

I refer to congressional press releases, which seem to me to be on the upgrade both in style and content. I can't recall another session with so much literary merit.

Consider, for example, the fine work of Sen. Herman E. Talmadge (D-Ga.) in the field of interlocking and overlapping cliches.

Trims Opponents
Within a single sentence of a recent press release, Talmadge accused certain groups of "grinding political axes and honing in the heat of a political passion a double-edged blade which poses a dangerous threat to the very tap roots of our republican form of government."

I don't know enough about the timber business to affirm that a two-bladed axe is the best tool to use on tap roots, but I'll certainly give Talmadge credit for a bit of vivid writing.

Even so, it did not fire my imagination quite as much as a

press release in which Rep. Robert T. Stafford, R-Vt., described a certain bill as "an unrealistic potpourri which will never get off the ground."

I have spent a good bit of time trying to picture to myself just what an airborne potpourri would look like, but I haven't been able to visualize anything very realistic.

What I mainly got is a vision of flying hash, so as far as I'm concerned the potpourri can stay earthbound. In fact, I hope it develops tap roots.

Gets Committee Posts
Another press release that intrigued me was distributed by Rep. K. W. (Bill) Stinson, R-Wash. upon the occasion of his being appointed to membership on the government activities subcommittee and the intergovernmental relations subcommittee of the Government Operations Committee.

"With typical fervor," it said, "Stinson commented that he felt his two subcommittee assignments will provide a real challenge."

I have always admired fervent comment and I am equally impressed by eye ball bravery, an example of which can be found in a press release from Rep. Carl Elliott, D-Ala., describing an inspection tour he made of the U.S. naval base at Guantanamo, Cuba.

"Elliott advanced to within 50 feet of the Cuban guards on duty at one Communist outpost," it related. "The Red soldiers glared

at him. He glared back."

That is what is known as "instant retaliation."

Contest
NEW YORK (UPI) — June 15 is the closing date for the third annual Varsity Show Competition run by Broadcast Music Inc. which has a prize of \$1,500 for the composer and lyricist of the college musical comedy or revue judged to be best presented in the United States or Canada during the 1962-63 academic year. Contact Robert R. Sour, BMI, 589 Fifth Ave., New York.

WIFE DIVORCES GOULET
NEW YORK (UPI) — Singer Robert Goulet, who won stardom in the long-run Broadway musical "Camelot," has been divorced by his wife.

An announcement Monday said Mrs. Louise Goulet was granted the decree in Juarez, Mexico, last Friday on the grounds of incompatibility.

The Goulets, who have a 6-year-old daughter, have been legally separated for the past three years.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

Entered as second class matter under the act of March 3, 1879.

Put This In Your Pipe

For years now, when criticisms have been leveled at farm control and subsidy programs, tobacco has been cited as "proof" that such plans can work. Sure, said the farm planners, we haven't quite hit on the formula for wheat, cotton, milk or feed grains yet, but look at tobacco.

It's time for another look. The history of the tobacco program is that it looked good at the outset, and the farmers liked it. As time wore on, however, acreage allotments have been cut back time and again. Partly this was due to greater production on the smaller acreage, but partly it came about because more farmers flocked into the price-supported business and old growers were cut back to accommodate growers who had not been interested until prices were guaranteed by the Government.

There was muttering among the farmers before this year, but now it is the Government that is muttering, and tobacco buyers are joining the chorus. In their efforts to get more to-

bacco from less acreage at less cost, farmers have taken to using a chemical which inhibits the growth of "sprouts" — unwanted branchings off the tobacco plant. These used to be pinched off by hand.

Under the price support program, tobacco is tobacco. The chemically-treated tobacco comes to market, but the commercial buyers aren't interested. Smokers don't like the stuff, even though they don't know what's the matter with it.

So the government surplus stocks of tobacco rise, while the quality goes down and the long-lauded tobacco program is at last in trouble. Meanwhile, American tobacco prices have encouraged growing of the crop abroad so that markets for this export crop have shrunk.

There goes the Agriculture Department's prize-exhibit program, and with it Government's last tenable claim that it knows how to manage production.

The Employment Barriers

The Jefferson, Ohio, Gazette, has made this interesting editorial observation: "Many a boy through his high school years earned enough to get a start at college. Often this part-time employment led to a career in the business."

But now, the Gazette goes on, all this has changed. And one of the reasons is the minimum wage requirement. In its words, "Minimum wages have their place in the modern industrial scheme of things, but they have deprived... lads of an opportunity to earn spending money and to save for their future. . . in the hundreds of small towns and rural communities, the social reformers, with their well intended laws, have barred youth an opportunity for self independence."

The record supports this view. Take, for instance, retail business — large or small, chain or independent. Large numbers of retail stores can offer jobs, often on a part-time basis, to people who are without experience or any particular skill. Obviously, their value to the store is limited. Yet the work they are given can prepare them for advancement to more responsible, better-paid positions. But, if an arbitrary wage-hour law forces the costs of this kind of employment to unprofitable levels, it will be cut to the limit.

The moral is a simple one: The fundamental element in determining earning power is an individual's productivity. The two can't be separated.

WHAT ABOUT COURTS?

Most Law Suits Are Settled Privately

By GEORGE BOARDMAN, Ph. D.

Because we do not advocate political action as a possible cure for political activities, quite a few people ask "What do you advocate?" despite the fact of our continued effort to encourage the private enterprise principles. Particularly, a good many intelligent men and women find it extremely difficult to re-orient their thinking in order to logically consider the subject: Private enterprise vs. Government. To cover the entire subject in an abrupt fashion — I believe that private enterprise can do anything better than government, on every count: Cost, product or service, value to the buyer, profit and gains towards the road to freedom.

At this point, at least one person always asks—But, what about our wonderful judicial system, our courts? Evidently it is difficult for the average person to think of courts separate from government and separate from the threat of force. I believe you will find the time well spent if you really try to consider the idea of privately operated courts for profit and remember that every objection you may have is already a part and parcel of the objectionable areas of governmental courts.

Talk this out for awhile and you discover you imagine you have a great deal of faith in the courts. And you find that you imagine a wonderful image under which you enjoy fantastic protection from injustice. List all the fine things you can think of. Let your imagination really work and build up the court system until your dreams run dry. You are happy with the courts, you will say. You trust the courts. Sure, there may be rare cases where a miscarriage of justice occurs but ours is still the best system

in the world. Now - let's take a closer look at this great faith of yours in the protection provided for you by the courts and think carefully about the statement and your own beliefs. Then answer this: If your faith is so great in the protection provided by the courts, why will you employ an attorney-at-law to make sure you get a fair deal in those courts?

Why do you go outside of government to employ the services of a professional man or woman who is in business to earn a living to protect your interests which you imagined were protected by the courts of government? From burglar to prostitute, from General to merchant, the first thought of anyone running afoul of the law is, "I want a lawyer!"

Why don't you just let the court decide, since you have such faith in government courts? Maybe you've forgotten that a great many civil cases are settled out of court by lawyers representing both sides in disputes and that the decisions arrived at stick without the threat of force because both sides have agreed to abide by the decision. Add to these thousands upon thousands of other disputes by the parties concerned without even the cases because they are settled by the parties concerned without even the help of lawyers.

Don't say it, Mrs. Johnson. I know I haven't mentioned criminal cases. The entire field of criminal law falls into a separate category and if we add a certain number of fish to a certain number of apples, we do not change the original quantity of apples and fish. For the moment, then, let's stick to the courts and civil cases and consider private enterprise courts for civil matters. If we could accomplish just this much

Pull Up A Chair

By Frank J. Markey

The latest news about sleep is that the higher your IQ the less you are likely to need sleep. This could have a healthy effect and stop the growing mania for sleeping pills. Four-hour sleepers will feel superior to those who need five hours.

Trinity Church, founded by Royal Charter in 1697 and known as the parent Episcopal Church in America, is located on Broadway at the top of New York's Wall Street. Rev. John Huess, Rector of Trinity, had this to say: "It is so easy to substitute many other good causes for religion. The church is not primarily a club house, social center, a place to play basketball or to provide dancing for teen-agers. Nor is it an arts and craft shop, a place for rummage sales or a gathering spot for Alcoholics Anonymous, or a public forum for discussing of better housing, juvenile delinquency or nuclear survival."

Drunk drivers and excessive speed caused 60 per cent of fatal automobile accidents in Massachusetts and death from walking on the highways after drinking is mounting, says a late survey. . . The most famous omelette in the world are served in the Madame Romaine de Lyon restaurant on East 56th street in New York. The Madame features 530 different dishes on her regular menu. . . And speaking of food, the Goddess Diana with her bow and arrow is the symbol usually associated with fine dishes featuring game. . . You often see live peacocks parading among tombstones in Latin America. The noble beauty of the birds, coupled with the peaceful scene, inspired the natives to compose poems on the "Ode to Death," which they peddle to tourists. . . Teen-agers have a reverse effect of the 50-mile walking craze that is current in Washington. We saw four youngsters walking backwards on the New York East Side near an intersection. Their leader said their walk would extend for 50 city blocks in the same manner.

Country Editor Speaking: "Don't rush traffic lights to get to your residence quickly or you may end up in a funeral home. . . We have often seen Indian women in the Caribbean area and South America carrying water and large asets on their heads. Here is an observation on that subject: "The carrying of water and other things on the head is more than picturesque. It does more than give a perfect posture. It keeps the body and its organs in perfect poise." —Philip Oyster. . . A cat license was offered by a councilman in a Southern city but was defeated in a gale of laughter. Now his friend won't have the job as keeper of the feline pound. . . Arthur Hale, the noted news commentator of some years ago, was invited to join the recently formed Committee to Preserve the Monroe Doctrine. Hale observed, "Why sign up with a dead cause? The Monroe Doctrine, as I understand it, was proclaimed in 1823 and was substantially this: You Europeans stay out of the Americas and we will stay out of Europe. The Doctrine died when we entered World War I."

Today's Smile — Teacher: "Willie, you were told to write a full page on the subject of milk. You wrote less than half a page." Willie: "Well, teacher, I wrote about condensed milk." —Military News Service.

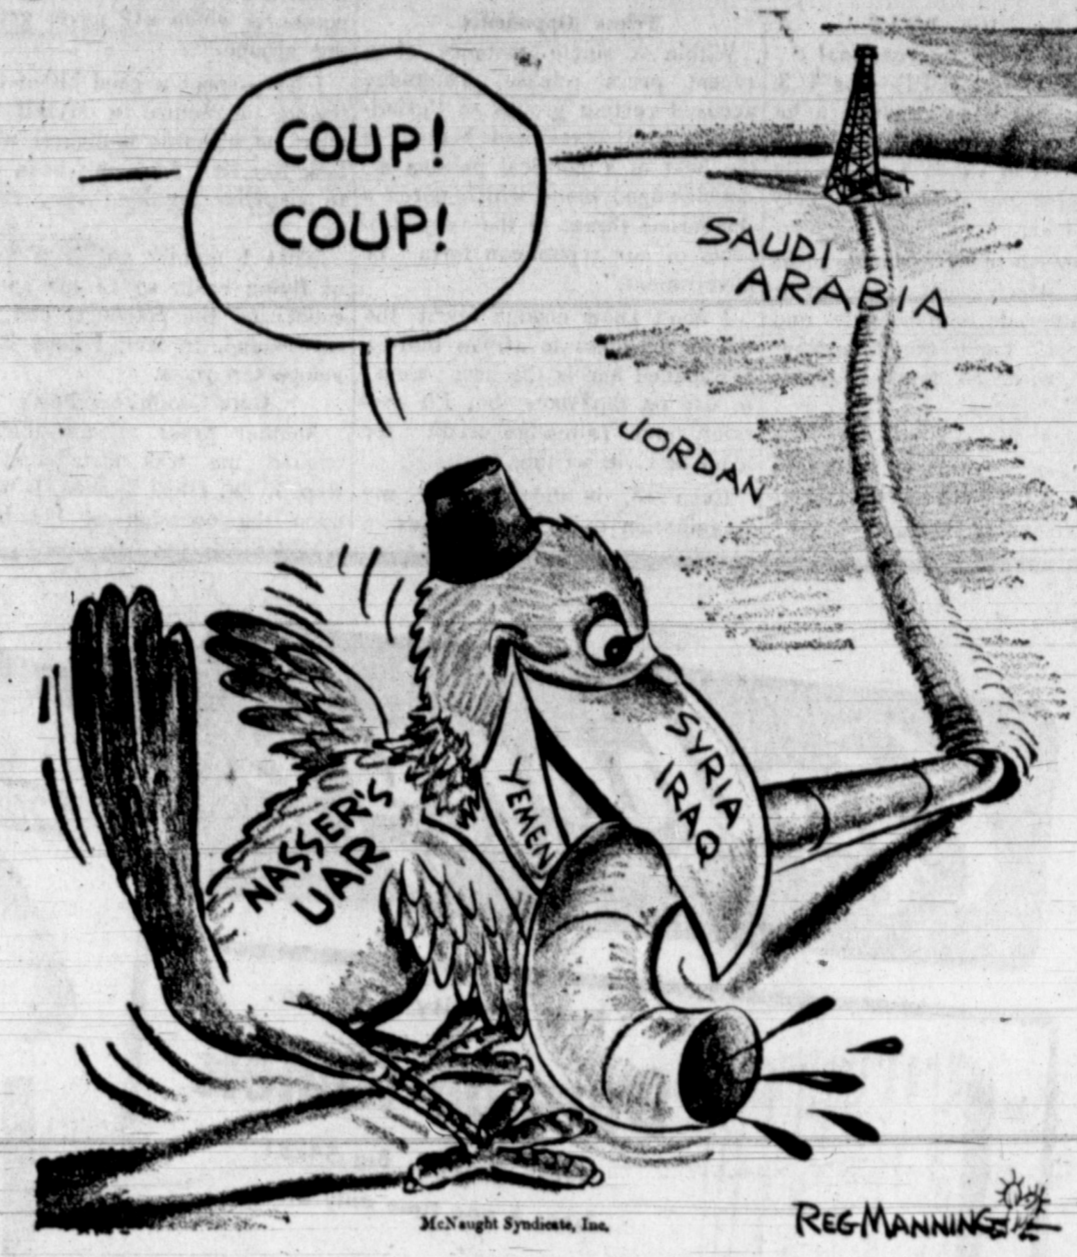

Often heard is the old expression "salad days," meaning the days of youthful inexperience. But what has salad to do with that period of life? By the time a youngster is through eating spinach he doesn't want any other kind of vegetables, let alone a whole bunch of them in a salad.

We would achieve the most significant change for the better in the history of men dealing with men.

Remember - government will never admit the idea has any merit because government, unlike business, is too smart to like the idea of cutting its own throat. Private enterprise courts will never become a reality because of action taken by government but every time you employ an attorney to handle a civil matter for you and you manage to stay out of the courts, you provide proof for the validity of my earnest and sincere contention. I was involved with a great deal of legal cases and never had to make a court appearance because every case was settled privately. I will discuss private enterprise criminal courts one of these days when I feel like braving the wrath of all who have occasion to say, "I want a lawyer."

Good luck and good health to you, in Freedom.

The Oily Bird —

It's Up To You

by HOWARD KERSHNER
L. H. D.

One basic reason why socialism can never succeed is that it is based on spending, not one's own, but other people's money. Bureaucrats, who for the most part have never earned money in constructive enterprise, decide how, and for what, other people's money is to be expended. After they have drained off the wealth that has been created by private enterprise, they will find it more and more difficult to keep their economy afloat. The government-owned and operated businesses will not prosper because those who plan and operate them will not be using their own funds, or that of their friends, but will be using the public's money. They will have no incentive to strive. If they lose money it does not greatly matter as the deficit will be made up from taxation. The incentive is gone, the drive is out of business and the deficit will grow larger and larger. When there is no longer a pool of private wealth to be taxed the socialized economy will founder. People are just not careful when they are spending other people's money. Since that is the very essence of socialism, it cannot be successful.

For example, postal rates have been advanced to the extent of about \$600 million a year. At the same time, the salaries of postal workers have been advanced to the extent of about 2 1/2 times that amount, adding nearly one billion dollars a year to the deficit. Private enterprise in a free economy could not have done that. The rise in wages or other expenses would necessarily have been limited to the rise in income. Our government, however, in this socialized enterprise can do it because it levies the deficit upon the taxpayers. But it can do that only so long as we have private industry earning profits from which to pay taxes. When all of our industries are socialized like the Post Office and all of them running deficits and spending more than they take in, there will be no means of meeting these deficits. We will then begin to experience the hard times that prevail in all Socialist or Communist countries.

According to Congressman George A. Goodling, Secretary Anthony J. Celebrezze sent a \$20-word telegram for the President's Medicare proposal to each member of the House of Representatives at a total cost of \$3,562. The message was transmitted only a few blocks. It could have been done by mechanical typewriters or mimeographed at two to five per cent of the above figure. That's what Secretary Celebrezze would have done had he been spending his own money. He was careless and wasteful because it was the public's money. At least one taxpayer who had worked hard all year to pay a Federal income tax of \$3,500 wrote to the Secretary expressing his fury that all the taxes he paid for one year of hard

Allen-Scott Report

Secret Talks on Another \$200 Million in Aid for Brazil Continue Amid Warnings on Reds Dominant in That Country

by ROBERT ALLEN and PAUL SCOTT

WASHINGTON — Behind those impending secret discussions to give Brazil another \$200 million in financial aid are blunt warnings that Communists and their sympathizers hold dominant roles in President Goulart's shaky regime. Striking illustrations of this spreading Red influence are being studied by the House Foreign Affairs Committee after being prefaced by former Assistant Secretary of State Robert Hill and Dr. Manuel de Varona, ex-president of the Cuban Senate.

Their reports, which cast a dark shadow over this week's financial negotiations with Francisco S. Dantas, U.S.-baiting Finance Minister, link these high Goulart officials to the rising Communist power in Brazil. Francisco Riff, President Goulart's private secretary. Hermes de Lima, minister of foreign relations. Joan Mangebeira, minister of justice. Celso Furtado, minister of economic planning. Almino Alfonso, minister of labor. General Albino Silva, chief military adviser to Goulart. According to Dr. de Varona's report to the House committee, confirmed by information given the White House by Hill, "Riff, de Lima and Mangebeira have been linked with at least one unsuccessful Communist - attempted coup."

Riff, Goulart's closest associate, is flatly described as a "Communist," and Justice Minister Mangebeira as a "Marxist-socialist." Arrested, together with the Communist leaders Luis Carlos Prestes and Harry Berger, during an unsuccessful Communist uprising. Foreign Minister Lima is reported as telling a group of Brazilian Castro-Communists on October 23, 1962, the day after President Kennedy informed the world about Soviet missiles in Cuba, "What should be defended in Cuba is that government's right to carry out its present political experience under Castro."

CALLING THE ROLE — In the highly significant case of Finance Minister Dantas, now acting as President Goulart's special aid negotiator, the report refers to him as "formerly a Fascist, today pro-Communist." It points out that "during the meeting of foreign ministers in Punta del Este in January 1962, Dantas proposed and defended a co-existence policy with the Castro-Communist regime." Also that while serving last year as Foreign Minister, Dantas offered at a Geneva disarmament meeting a nuclear test ban proposal favoring the Communists.

work was wasted in this foolish gesture. People do not do that with their own money. If we could keep our business activities in private hands they would all be operated more economically. As they pass under control of government, extravagance and waste become the accepted practice.

TRUTH FORUM

UNESCO Booklet Just More Soviet Propaganda

By ED DELANEY

A booklet has just been published by UNESCO entitled "Equality of Rights Between Races and Nationalities in the USSR." It is conclusive proof that the United Nations Educational, Scientific and Cultural Organization (UNESCO) is and always has been the world-wide propaganda agency of the Soviet, under the umbrella of the U.N. and financed for the most part by the United States.

The booklet denounces what it calls the "colonialist oppression" by the Western, capitalist nations, of which the United States is the greatest offender. By contrast, so it asserts, "it was the Communist Party which showed the peoples of Russia the true way to free themselves from social and national oppression." There is no denying that the Communist Party did show, not only the peoples of Russia, but those subjugated in other countries how to free themselves from social and national oppression. Until the Wall of Shame was built through Berlin, well over 1,000 a day freed themselves from such conditions — with their feet.

Millions of others were "freed" from such oppression by firing squads and planned starvation, as in the Ukraine. This booklet, paid for largely by the tax dollars collected in the United States, says "the successful establishment of full equality of rights between races and nationalities in the USSR is one of the major social triumphs of our day." Now there is a grain of truth in that. There was and is no discrimination among the opponents of the "new social triumphs" of the communists. The liquidation and deportation orders apply equally to Russians, Ukrainians, Estonians, Latvians, Lithuanians, Slovaks, Hungarians, Germans, Poles. All receive the same treatment.

Our professional liberals and erudite egg-heads who are dedicated to furthering the aims of the communist cult, have managed to get UNESCO versions of current history into the tax-supported schools and libraries. It has been communist propaganda and so cited by those of us who are complemented by being termed "extremists." Some \$39 million a year is spent by UNESCO, about one-third of which comes from the pockets of the American taxpayers. The Soviet is apparently eager to pay about 15 per cent of that budget, because their lies are thereby disseminated throughout the world under the guise of historical truths, bearing the label of the U.N.

One of the most flagrant lies in the booklet mentioned is that in 1940, the little Baltic states, Lithuania, Estonia and Latvia "voluntarily joined the Soviet Union." Hundreds of thousands of those in the Baltic states were massacred or deported to Siberia, while thousands of others escaped into Germany. Those who were unable to flee, were put under the same brutal communist coercion that exists in other areas where the people have "voluntarily" united with the Soviet.

The booklet says "the unequal treatment of nationalities" in a number of the capitalist countries today, is due to "the political and social systems prevailing in those countries." This is intended to stir racial groups in the western countries, and elsewhere, into revolting against the established governments and re-

making them in the image and likeness of the Soviet. We see the evidence of such propaganda in Cuba, in Latin America and other parts of the world. The almost incredible part of this is the apparent apathy and complacency of our people to the squandering of their tax dollars to support the U.N. and its propaganda agency, UNESCO. There are even some members of Congress who will lend their efforts to the aims of the enemy. Because when they approve more and more appropriations for that heterogeneous outfit on the Hudson River they further Moscow's aims. When we observe what is done by some of our so-called political leaders, is it strange that scientists find it difficult to prove that man is mentally above other species of the animal kingdom?

The Almanac

By United Press International
Today is Thursday, March 14, the 73rd day of 1963 with 292 to follow.
The moon is approaching its last quarter.
The morning star is Venus.
The evening star is Mars.
Those born on this day include world-famous physicist Albert Einstein in 1879.
On this day in history:
In 1794, Eli Whitney received a patent on the cotton gin.
In 1923, President Harding became the first Chief Executive to file an income tax.
In 1933, Congress approved a measure authorizing the sale of 3.2 beer.
In 1947, military and naval bases in the Philippine Islands were leased to the United States for 99 years.

A thought for the day: Albert Einstein said: "As long as there are sovereign nations possessing great power, war is inevitable."
Small State
Hawaii's total land area of 6,423 square miles makes it one of the smallest states of the Union, despite the fact that its string of 20 islands extends more than 1,600 miles over the central Pacific.

matter of fact

If you learn new languages by trying to relate words and sounds to those of an already mastered language, then it would be almost impossible to learn Burushaski. No affinity has yet been proved between Burushaski and any other language. It is the mother tongue of about 17,600 people inhabiting the central portion of the states of Hunza and Nagir which lie to the north of Kashmir.

© Encyclopaedia Britannica

Pampans To Host District Golfers

The first 18 holes of District 3-AAAA golf competition will be hosted by the Pampa Harvesters at the Pampa Country Club Saturday. Amarillo, Tascosa and Palo Duro will meet Pampa in the first round of the three-match series to determine the district golf champion.

The second 18 holes will be played at Borger Mar. 23 and the final round at Amarillo on April 6.

Each team will play five men in each match, with the four lowest scores being counted and the lowest team total for the 54 holes determining the champions.

Borger Won

Borger won the title last year, and is again favored, although returning only one man from last year's starting team. Tascosa, which finished third last year, is expected to be the toughest competitor. Although they only have one starter back also, Tascosa is loaded with promising underclassmen. They won the Amarillo-Albuquerque high schools nine-team golf tournament trophy last week with a four-man low team total of 308 for nine holes.

Second-place Monterey returns three starters however and will be equally tough. Pampa coach Eural Ramsey admits that the Harvesters are slated to finish on the bottom, but feels that the home club advantage will help them greatly in the first round.

Pampa At Sweetwater

Pampa has played in only one match this year, finishing seventh at Sweetwater with a team total of 652 for 18 holes. The Harvesters were without their number one player, Bryan Primore, and another of the regular starters, Johnny Weatherly, at the Sweetwater Meet.

Starting quintet for the Pampans Saturday, said Ramsey, will be Primore, Freddie Howard, Grover Haskell, Weatherly and Bill McKinney. Primore ordinarily shoots the Pampa Country Club course in par 71. Howard, who had an 81-90-171 at Sweetwater, makes the home course in 79, as does sophomore Haskell, who had the best mark at Sweetwater, an 81-84-165 total.

Shockers Play

Weatherly generally tours the Pampa course in 81. McKinney, a junior kept his average at Sweetwater as he carded an 84-85-169.

The Pampa B team will also engage the visiting B teams Saturday. Starting for the Shockers will be sophomore Skip Weatherly, who had an 87-94 at Sweetwater, fellow soph Jim Thompson, who had an 88-89, junior John Triplehorn and soph Phil Hall. Pampa alternates are Johnny Tarvin, Robin Vail and Wesley Green.

DISTRICT HOSTS — The Pampa Harvesters golf team will host the opening round of district play at Pampa Country Club Saturday. Starting quintet for Pampa, from left, are Bryan Primore, Freddie Howard, Grover Haskell, Bill McKinney and Johnny Weatherly. (Daily News Photo)

Sophomores Give Diamond Support

By JEFF COHANE
Pampa News Sports Editor

Although the Pampa baseball team has seen comparatively little action as compared to most of the rest of District 3-AAAA, with some of the Lubbock schools having gotten in as many as eight games already, coach Ray Howard feels confident that pre-season predictions of a sixth-place finish for the Harvesters will be far from correct.

"We started the season with only a handful of returning starters, no depth, a shortage of infielders and no catchers, as well as only one returning starting pitcher and a relief hurler. We didn't seem to have any hitting, any fielding or any depth."

Jim Arthur, the third of the sophomore whizzes, has tremendous speed. At the beginning of the season he appeared to be the most promising hurler in the group, but in the Borger game he bore down too hard "Instead of mixing up his pitches, Jim just tried to burn the ball past them, and you just can't do that to veterans like Big Joe Robinson." Arthur was nicked for two hits and one earned run in his one inning, but Howard believes that he, too, will settle down.

In addition, Arthur turned out to be a fine third baseman. His outstanding job at the hot corner released Gregory for the spot he was needed most in, catcher, where he shone for five innings against Borger. Another sophomore also appeared who was familiar with the backstop position in Ricky Maynard, who shone in his two innings against the Bulldogs, thus insuring that Gregory could return to third when Arthur pitched.

Real Progress

"Defensively, I am amazed at the way the infield has progressed ahead of schedule. Not only do we have a fine starting infield, we have at least one man to back every starter up, and in some cases I still haven't decided who the starter will be," said Howard.

"We play a return practice game at Borger today and I'll let the three sophomores do most of the pitching so that I can decide who will be the number two man behind Glover. Of course, we'll still pitch Jerry as often as we can, and will try to use his hitting by playing him in the infield occasionally as well. I may let him pitch a little at Borger to keep in shape to start our first regular game against Dumas Saturday."

RAY HOWARD

Second outstanding sophomore is lefty Jerry Garrison. The little southpaw has tremendous speed and a fine natural curve. He also faced the minimum in his one inning stint against Borger and whiffed two of the visitors.

"Jerry is potentially a great pitcher," said Howard. "If he can overcome some of his youthful mistakes and develop maturity and poise, he has tremendous promise. He has control problems, but we're working on that and hope to overcome them."

Pitcher-Infielder

Jim Arthur, the third of the sophomore whizzes, has tremendous speed. At the beginning of the season he appeared to be the most promising hurler in the group, but in the Borger game he bore down too hard "Instead of mixing up his pitches, Jim just tried to burn the ball past them, and you just can't do that to veterans like Big Joe Robinson." Arthur was nicked for two hits and one earned run in his one inning, but Howard believes that he, too, will settle down.

In addition, Arthur turned out to be a fine third baseman. His outstanding job at the hot corner released Gregory for the spot he was needed most in, catcher, where he shone for five innings against Borger. Another sophomore also appeared who was familiar with the backstop position in Ricky Maynard, who shone in his two innings against the Bulldogs, thus insuring that Gregory could return to third when Arthur pitched.

Real Progress

"Defensively, I am amazed at the way the infield has progressed ahead of schedule. Not only do we have a fine starting infield, we have at least one man to back every starter up, and in some cases I still haven't decided who the starter will be," said Howard.

"We play a return practice game at Borger today and I'll let the three sophomores do most of the pitching so that I can decide who will be the number two man behind Glover. Of course, we'll still pitch Jerry as often as we can, and will try to use his hitting by playing him in the infield occasionally as well. I may let him pitch a little at Borger to keep in shape to start our first regular game against Dumas Saturday."

Villanova, Rams Favored In NIT

NEW YORK (UPI) — Villanova is favored to beat DePaul and Fordham is rated a tossup against Memphis State tonight in the opening games of the 26th annual Tournament at Madison Square Garden.

The winner of the Villanova-DePaul game goes on to play sixth-ranked Wichita Saturday night while the winner of the Fordham-Memphis State contest will be paired against third-seeded Canisius.

Providence and Marquette, the other seeded teams, start play in Saturday night and Tuesday night quarterfinal doubleheaders. The semifinal games are scheduled for Thursday night and the nationally televised final Saturday afternoon, March 23.

Wichita is the tournament favorite on the basis of a 19-7 record that includes victories over Cincinnati, Arizona State, Loyola (Ill.) and Ohio State. But the Wheatshockers suffered first-round defeats in two previous NIT appearances and this year's field is considered strong enough to give any court power a run for the title.

Villanova closed fast with six straight victories to build its final record to 17-8. Included in the Wildcats' victories are two over Canisius and Memphis State and they boast one of the tournament's individual standouts in guard Wally Jones.

Pan Am Player Leads Small A-A

NEW YORK (UPI) — Lucius Jackson of Pan American and Hershell West of Grambling, both already stamped with the pro label, headed the 1963 United Press International small college All-America basketball team announced Wednesday.

Jackson, a giant 6-foot-9 junior center from San Marcos, Tex., and West, a smooth-shooting forward from Rayville, La., were the most popular choices on the mythical team, picked for UPI by the same 35 coaches who helped rate the nation's small college teams every week of the season.

Roger Strickland of Jacksonville, a versatile player equally at home up front or in the backcourt; Al Thrasher of national small college champion Wittenberg, and Jerry Sloan of Evansville round out the first team.

Strickland, a 6-foot-5 playmaker-scorer who averaged 24.4 points a game, is the only repeater from last year's team. All the other members of the 1962 season team, including Zelmo Beatty and Charles Hardnett—both of whom went on to the pro ranks—since have graduated.

Thrasher and Sloan are not the scorers that Jackson, West and Strickland are; but both possess all the skills a coach dreams of. Thrasher, a 20-year-old junior from Urbana, Ohio, generally was regarded the player around whom Wittenberg jelled into the nation's top small college team. He averaged only 19.2 points in scoring but was the team's playmaker and a top rebounder.

Sloan, a 20-year-old soph from McLeansboro, Ill., was much the same type player for Evansville. He scored an average of 14.6 points.

The second team this year was made up of repeater Tom Pearson of Albright, Pa., Keith Stroup of Pacific (Los Angeles), Jim Reynolds of Abilene Christian, Willis Reed, West's play-making

NBC Okays Tri-State Franchise

WICHITA, Kan., Mar. 14 — The National Baseball Congress today announced the refranchising of the Tri-State league into its 1963 National Association. Seven teams have already been voted into the league, one from Kansas and six from Texas. The Kansas member is the Liberal BeeJays. The other clubs are Spearman, Pampa, Borger, Stinnett, Amarillo and Fritch.

Bob Patak of Phillips is league president and W. A. Shufelberger of Liberal, secretary-treasurer.

The league will open on June 2. A league meeting is scheduled for April 28 at Spearman, at which time Woodward, Okla. which was represented in the organization in the past, is slated to return.

All the teams in the 1963 league were represented last year in this circuit with the exception of Fritch.

Liberal BeeJays are the defending league champions.

ST. PETERSBURG, Fla. (UPI) —All-time Yankee great Bill Dickey has rejoined Casey Stengel as a special catching coach for the New York Mets. The assignment is only on a temporary basis for Dickey, who is a member of baseball's Hall of Fame.

DICKEY COACHES METS

The second team this year was made up of repeater Tom Pearson of Albright, Pa., Keith Stroup of Pacific (Los Angeles), Jim Reynolds of Abilene Christian, Willis Reed, West's play-making

Groom Crippled By Injury Jinx

GROOM (Spl) — Track coach Dwain Currie is beginning to think his team is jinxed. Injuries, accidents, and illness have wreaked havoc on last year's district champs, especially on his veteran seniors and juniors.

"We have been very slow getting started this year due to flu and injuries and other mishaps," said Currie. "Nearly every boy on the squad has been out with the flu at one time or another. One of our best boys, Bob Ruthardt, who was fourth in the 880 at state meet last year, has been out two weeks having his tonsils removed."

Out for Season

"Both Ronnie Mashburn and Butch Brown are out for the season with leg injuries. Tommy Talley has been out for two weeks due to an appendectomy and probably will miss most of the rest of the season."

"We lost our fastest boy, senior Johnny London, with stomach ulcers and he'll miss the rest of the season."

"All of our injuries, etc., seem to be happening to our seniors and juniors. Of the boys we have right now to go to Lefors, there are only three seniors. The rest of the squad presently consists of eight juniors, six sophomores and seven freshmen."

Defending Champs

"Groom won the district championship last year, but chances are looking slim for us to repeat. We are just about three weeks behind our progress at this time last year," the Tiger coach concluded gloomily.

Currie indicated that there are a number of very promising boys among the sophs and freshmen, but felt that it would be tough for them against experienced competitors. "Alton Vaughn is a very promising freshman and should

Broncs Win, Into NIAA Semifinals

KANSAS CITY, Mo. (UPI) — Pan American College of Edinburg, Tex. outclassed Stetson University Wednesday night to reach the quarterfinals of the NIAA basketball tournament.

Stetson had earlier defeated Howard Payne of Brownwood.

Other teams reaching the quarter-finals were Northern Michigan, Carson-Newman, Rockhurst ousted Alliance (Pa.) and Lewis & Clark.

UNCAGED TIGERS — The Groom Tigers are ready to be released from their cages and leap snarling into the thick of the Lefors Relays, despite crippling injuries and illnesses that have assailed them this season. Bottom row, from left: Keith Black, Terry Cornett, Alton Vaughn, Bill Wagner, Pete Ham, Jimmy Pollett. Second row: James Koetling, Bob Garmon, Kenneth Babcock, Glenn Britten, Bud Fields, Stanley Clark. Top row: Larry Lamberson, Bob Nickelson, Terry Quirk, Jerry Roberts, Dan Craig, Brad Major. Not in picture are Bob Kendrick, Bill Ruthardt, who will miss the meet, and a number of Tigers down with injuries. (Photo courtesy Groom News)

McLean Sending 18 Men To Lefors

McLEAN (Spl) — Although the McLean Tigers will send 18 men to participate in 31 events at the Lefors Relays, one of the largest representations among the 39 entrants, track coach Darrel Davis feels the Tigers have little chance to win.

"Frankly, we're entering them for the experience more than anything else. They haven't had any chance to compete because of the weather and basketball playoffs. I haven't had any real clockings on them and I don't have too many veteran boys on the team."

"The main thing is that they will show up against good competition and should learn something from it, and we can find out what the boys can do ourselves."

Cellar-Dwellers

McLean finished last in the five-team district 2-A last year, and returns only four men who placed in the district meet. Gene Bench was fourth in the mile and teammate John Bible fifth, and Ronnie Hunt placed in the 880 and George Green in the shot put. Best time among the milers was 5:23.2 by Bench last year, and Hunt ran the half-mile in a creditable 2:15.

The Tigers will mainly be relying on the efforts of Bench and Bible in the mile, the all-around work of Dickie Crockett, who will be entered in five events, a pair of good dash men and their relay teams.

Crockett will be entered in the 100-yard dash, the sprint and mile relay teams, the high jump and the pole vault. John Evans and Gary Graham are the two sprint men that the Tigers hope will pick up some points, with the duo also being on the sprint and mile relay teams while Evans is in the 220-yard dash and Graham the 440.

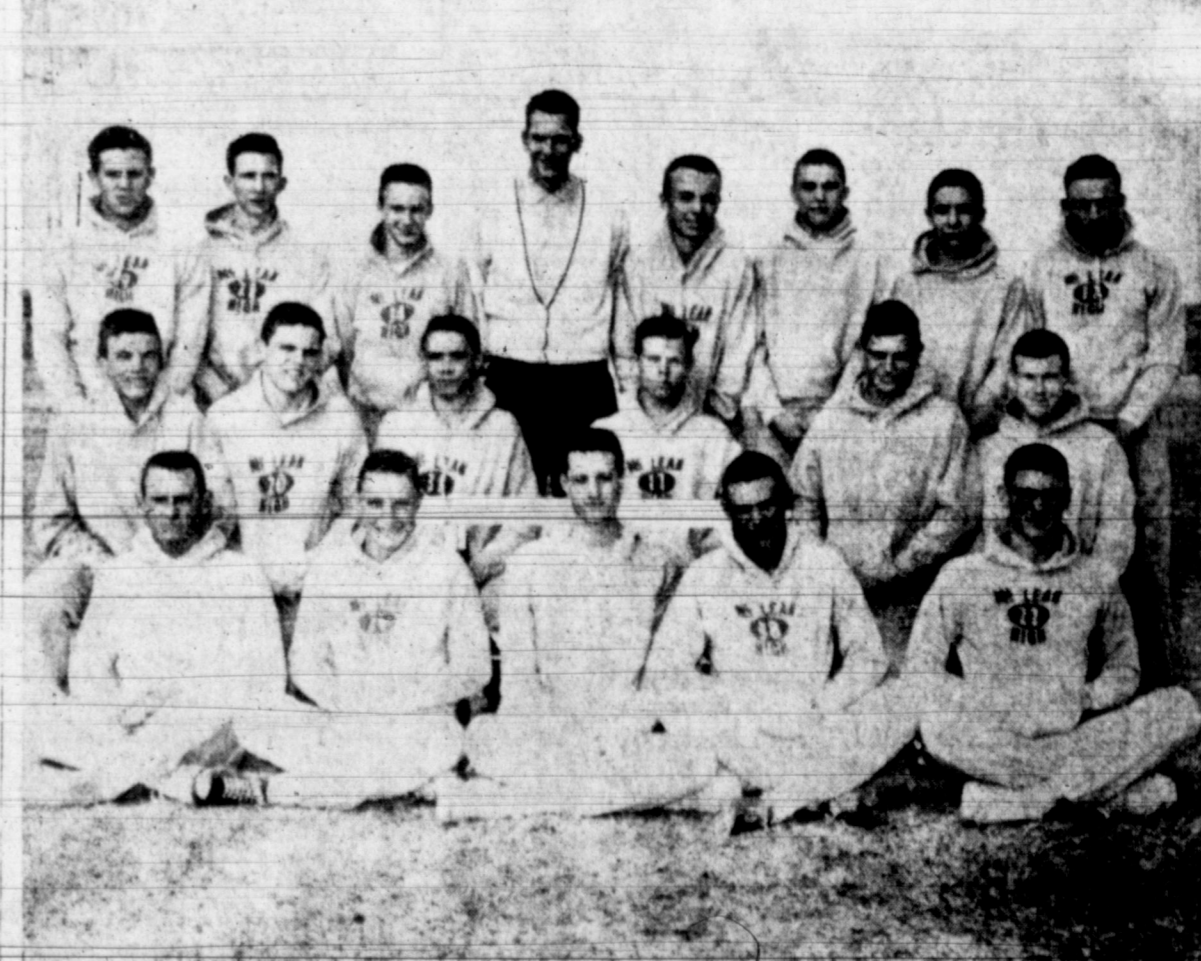

Hurdle Hopes

Fourth member of the relay teams will be Kenny Smith, who will also run the mile. Another duo who have hopes of placing in the meet are the hurdles pair of Eddy Window and Jim McCarty. Both boys will be in the high and low hurdles and Window will also be in the high jump.

Other McLean entries include Hunt, Gary Hester and E. B. Durham in the middle distances; Robert McCage and Harlan Pool each in the 100 and 220-yard dashes; Harry Tate in the 440; Derrick Welch in the 200 and high jump, and also as an alternate relay man; George Green in the weights; Johnny Fuller and Glen Swift in the two-mile.

Dual Meets

Following this meet, the Tigers will compete at Panhandle, then at Amarillo and then in district meet. Davis added however that there would probably be several dual meets with Shamrock and Wheeler also, as the three schools are close together and this gives their teams more of a chance to compete and gain experience. Dates for those meets will be announced when set up.

CINDER SPECIALISTS — Ready for action at Lefors tomorrow are the McLean Bulldogs. Sitting, from left: Gary Graham, E. B. Durham, Derrick Welch, Eddy Window, George Green. Second row: Glen Swift, Dickie Crockett, Johnny Fuller, Gene Bench, Ronnie Hunt, Kenny Smith. Standing: Jim McCarty, Harlan Pool, Harry Tate, coach Darrel Davis, John Bible, Gary Hester, Robert McCabe, John Evans. (Daily News Photo)

Pampa Tennis Team Edges Borger In First Match, 5-4

BORGER (Spl) — The Pampa tennis team, led by Jerry Thomas, edged host Borger, 5-4, to win their first match of the season yesterday.

Thomas won three singles matches and Eugene Eads and Charles Ashby also came through with singles victories to clinch the win, despite Borger's domination of the doubles and girls matches.

Thomas opened the match with a 6-3, 6-0 win over Bob Able. Eads then came through over Mike Markee in a tough battle, 8-6, and then took the second set easily by a 6-1 score.

Able came back to take Borger's first win as he out-volleyed Joe Fischer in another close one, 6-4, 6-3. Ashby then romped over Terry Kliever, 6-1, 6-1; and Thomas wrapped it up with a 6-0, 6-1 sweep of Marion Baxter.

Trailing five to one, Borger came back in boys doubles as Whittington and Baxter downed Ashby and Fischer, 6-3, 6-1. In the toughest battle of the meet, Sharon Howell of Borger outlasted Mary Roberts, 6-4, 3-6, 6-3, in girls singles.

Sharon and Gayla Jones then topped Mary and Jerry Edmondson in a three-set girls doubles match, 6-2, 2-6, 6-1.

Pampa will play at Phillips Friday, and Saturday will complete in the Phillips Tournament, which will be held on the Borger courts. Pampa coach Roy Kievat reported that teams invited, besides Pampa, Borger and Phillips, included Perryton, Memphis, Dumas and Spearman.

Twenty-Nine Teams In Lefors Relays Which Open Tomorrow

Cream Of Top O' Texas' Smaller Classification Teams Here To Compete In Two-Day Meet

WHEELING ALONG — Dunk Porter (left) and Terry Vanpool will carry Wheeler's hopes in the low hurdles, as well as both being on the 440 and mile relay teams. (Daily News Photo)

FAMILY GET-TOGETHER — Leading Mobeetie in the Lefors-Relays will be a pair of Ray Corcorans. Ray, on left, will run the 440 and on the sprint mile relays. Cousin Rayburn will be in the 220 and in the relays. (Daily News Photo)

SPRINT MEDLEY RELAY — Carrying the Perryton banner in the sprint medley relay will be, from left, Kenneth Schwalk in the 440, Mike O'Brien and Joe Lamaster in the 220 and Kelly Wolff in the 880. (Daily News Photo)

GETS HIS CHANCE — Burlly Gerald Rasco warms up for the shotput at Lefors. The Harvester weight man has been in the shadow of the mighty Randy Matson, but will get a chance to show what he can do for Pampa at Lefors. (Daily News Photo)

PIRATE RELAYERS — Returning from last year's host team is the entire Lefors mile relay team that posted a clocking of 3:45. From left, the Buck baton-carriers are Phil Woodring, Don McCool, Anthony "Punkin" McCool and Wayne Coleman. (Daily News Photo)

UP AND OVER — Jimmy Flowers of Miami tied for fourth in the state last year and will be out to improve his high jump record of 6'1", as well as running on the sprint relay team for the Warriors. (Daily News Photo)

HEADS UP — With tongue in cheek, Mark Arrington concentrates on clearing the high hurdles. The Miami track man won district in a time of 16.6 last season and will be out to top his mark and the meet record. (Daily News Photo)

PASSING THE BUCK — Gary Graham passes the baton to John Evans as the two McLean cindermen prepare for the sprint and mile relays, with Graham also entered in the 440 and Evans in the 220. (Daily News Photo)

RECORD - HOLDER — Mark Westbrook holds the Pampa High School record for the 880-yard run. Although this event will not be on the Lefors program, the Harvester speedster will anchor the sprint medley relay and two-mile relay team. (Daily News Photo)

AWAY WE GO — Curtis Campbell of White Deer breaks out of the starting blocks and off to crack the 10-second mark again. The bespectacled Buck posted one of the fastest 100-yard dash times in the area last year as he won the district title in a 9.9 clocking. Campbell will also be on the relay team as well as in the sprints for the Bucks tomorrow. (Daily News Photo)

Cassius Creeps To Cheap Win

By JACK CUDDY
UPI Sports Writer
NEW YORK (UPI) — Madison Square Garden representatives want deflated Cassius Clay and martyred Doug Jones to fight again in June at Yankee Stadium because of the vegetable-accompanied controversy over Clay's unpopular decision Wednesday night.

Whether or not the re-match is made, the fans' thundering disapproval of gaseous Cassius in the Garden earned one great benefit for mankind: Clay promises never to predict the round for a knock-out again.

Unbeaten but badly tarnished Cassius of Louisville, Ky., not only failed to knock out New Yorker Jones in his predicted fourth round or any other round; but when the unanimous 10-frame decision for Cassius was announced, the 18,732 jammed fans almost blew the roof off with their roars of disapproval.

Some of the more irate, during the five-minute demonstration, threw apple cores, fragments of oranges and sandwich buns into the ring along with cigar butts and even a few coons.

Writers Favor Jones
A United Press International poll of 25 writers in the Garden showed 13 who had mustached, 188-pound Jones winning the fight against taller Clay, 20 1/2. Ten had Clay ahead and two scored the fight even. Clay had gone into the ring favored at 3-1.

The United Press International favored Clay on a rounds basis, 6-3-1 because of his long-armed jabs and straight right punches to the head, although it seemed in the early rounds that the aggressive Jones might knock him out. It was an excellent fight.

All three ring officials also voted for Clay as follows: Referee Joe Loscolto, 8-1-1; Judge Frank Forbes, 5-4-1, and Judge Artie Adala, 5-4-1.

Cassius, 21, who scored his 18th straight victory as a professional but had his consecutive kayo string snapped at nine straight, loudly announced that he still

wants his next fight to be with heavyweight champion Sonny Liston for the title.

Work on Re-Match
Harry Markson, managing director of Garden boxing, and matchmaker Teddy Brenner regard Clay's alleged longing for Liston with good humor, and they concentrated today on manager Bill Faversham in their proposals for the return fight with Jones at Yankee Stadium.

Jack Nilon, champion Liston's advisor, announced in Philadelphia:

"Clay will be Liston's next title opponent at Philadelphia in June or July—after we get rid of Floyd Patterson on April 10." Nilon is a kindly man, apparently trying to publicize the Liston-Patterson return fight at Miami Beach and actually not wishing that any catastrophe like Liston-should befall the still amateurish Clay.

There were no knockdowns in Wednesday night's fight and the only blood was a trickle from Clay's nose in the 10th round. Because of the sellout at the Garden, both fighters will receive much more than their guarantees when the financial reports come in from the theater television, Markson said.

Clay is guaranteed \$20,000 with the privilege of 30 per cent of all net income from the gate and theater television. Jones gets a guarantee of \$15,000 with a 25 per cent privilege.

Southern Wins

EVANSVILLE, Ind. (UPI) — Southern Illinois Wednesday night rolled over host Evansville 86-73 in the final game of quarter-final action of the NCAA College Division basketball tournament.

Southern will meet South Dakota State in Thursday night's second semifinal game, which will be preceded by a clash between Wittenberg, the nation's top-ranked small college team, and Oglethorpe of Georgia.

Grapefruit League

By United Press International

"That's the way you're supposed to do it," said little Elroy Face. "But if you get into trouble you'll know where to find me."

It was at the conclusion of an annual "event" staged Wednesday in the Pittsburgh Pirates' training camp — Face's first and only start of the year. From now until October the 150-pound right-hander will be waiting by the bullpen telephone for Pirate starters to sound the S.O.S.

Face, who appeared in 63 games as a relief pitcher for the Pirates last season, showed his pals how a starter is supposed to work. He blanked the St. Louis Cardinals for three innings and was the winning pitcher in the Pirates' 5-3 triumph at Ft. Myers, Fla.

The Pirates scored all their runs in the first inning. Larry Elliott's two-run double and Willie Stargell's two-run homer accounted for four runs off Ray Washburn and a homer by Howie Goss added another off Ernie Broglio. Washburn retired after pitching to four batters because of a strained muscle in his right forearm.

Rocky Colavito hit a three-run homer off ex-Los Angeles Dodger Stan Williams in the first inning and the Detroit Tigers went on to a 4-2 victory over the New York Yankees.

Giants Top Clubs

The National League champion San Francisco Giants made it four wins in five games with a 3-2 decision over the Chicago Cubs. Felipe Alou and rookie outfielder Dan Markowski homered.

Triples by Pete Jernigan and Gary Geiger featured a four-run fourth-inning which carried the Boston Red Sox to a 5-1 triumph over the Los Angeles Angels. Don Drysdale, 1962 pitcher of the year when he was a 25-game winner, retired nine straight batters in the Los Angeles Dodgers' 3-1 win over the Milwaukee Braves.

Kuharich Quits As Notre Dame Coach

SOUTH BEND, Ind. (UPI)—Joe Kuharich quit as head coach at Notre Dame, one of football's prize plants, to join the National Football League with the wish that he was "twins so I could handle both jobs."

Kuharich, after two weeks of considerations of the offer to become the NFL's supervisor of officials and administrative assistant to Commissioner Pete Rozelle, an old friend, told Notre Dame Wednesday that he was through.

Then he did "the toughest thing I've ever had to do in my life, standing up in front of those boys

and telling them I was going to step out."

The football team was called to a hurried meeting after classes, to hear Kuharich announce his retirement and reveal that his freshman coach, Hugh Devore, would be "interim coach for 1963," and perhaps longer.

It was the second time that Devore has been the Irish "interim coach." He held the job in 1944, coaching the team to seven wins, two losses and one tie, after the departure of Eimer Layden and before Frank Leahy took over the job.

Denies Any Pressure
"It was absolutely my own decision," Kuharich said, indicating

that there was no pressure placed on him by any source to give up his job, despite frequent rumors that alumni groups were out for his discharge.

Kuharich said he would remain at Notre Dame until April 15, working with Devore, and he added that "the thing that helped me make up my mind was that all the assistants will be retained and Hughie will take over."

Announcement of Kuharich's resignation was made by the faculty board in control of athletics, and the appointment of Devore was revealed at the same time by the Rev. Edmund P. Joyce, executive vice president of the university and chairman of the

board. Kuharich, 46, played college football at Notre Dame and his first head coaching job in college, at the University of San Francisco, brought him in contact with Rozelle, who was sports publicity director while Kuharich tutored the Dons to a 26-14 won-loss record.

Kuharich later coached the Chicago Cardinals and the Washington Redskins before coming to Notre Dame.

Appointment Drew Criticism
Kuharich's appointment at Notre Dame drew great criticism, since he replaced Terry Brennan, fired just before Christmas, 1958, when Joyce announced that Notre Dame was on a search for "excellence."

During Kuharich's regime with the Irish, in which they never had a winning season, the word "excellence" was recalled frequently in critical phrasing. Three times Kuharich's teams wound up with a 5-5 record and in his second season, the team won its first game, and its last. But in between it lost eight straight games to set a record losing streak for the school and wound up with a 2-8 record, equalling the worst in Irish history. Overall Kuharich's Notre Dame teams were 17-23.

Kuharich originally came to Notre Dame on a two-year contract, but after his 2-8 season, it was extended with a new five-year pact. His current contract had three years to run.

CoC Plans Cage Honor

A special meeting of the Sports Committee of the Pampa Chamber of Commerce will be held tomorrow morning at 7 a.m. at the Coronado Inn.

The breakfast meeting will be primarily to draw up plans to honor the district champion Pampa basketball team, which finished district with a 14-0 record and was 29-2 on the season.

Sophomores

(Cont'd. from Page 16)

sharper in the practice sessions than the veteran Hebert.

Right field is a wide-open battle between senior Larry Stroud and Jerry Garrison. The pair are fairly even in the hitting department, while Stroud, who played D team ball as a sophomore but was out last year, is possessed of a tremendous arm, though Garrison has the edge in defensive speed. The final decision will probably rest on whether Garrison will be taking a regular mound turn.

In addition to the leavening of seniors and sophomores in the infield and outfield, the Harvesters have two good utility men on the bench as well. Myron Aftergut is a capable catcher and can take over the backstopping if necessary, while Larry Johnson is a good all-around utility man, capable of playing any position in either the infield or outfield if needed.

Hitting Weak
"We still do have one weakness," admitted Howard, "and that is our hitting. We are not as strong at the plate as we should be, despite the pounding we gave Borger ace Big Joe Robinson. We have about 12 boys capable of really belting the ball, but they lack confidence. Some of them, especially the youngsters, seem a little plate-shy. They are used to summer league pitching and haven't had much experience in hitting against a really good curve-baller like Robinson.

"We are working on that problem and I think we'll solve it in most of the cases. Glover and Larry Gregory are hitting as well or better than they did last year, and we are looking for Hebert to come back to last year's form. Ricky Stewart looks as if he is going to make a good leadoff man, and Steve Malberg shows promise. If we can get the hitting to go with our pitching and defense, we should have a real fine ball club."

To Host Dumas
After today's game at Borger, the Harvesters officially open their diamond season when they host Dumas at Optimist Field at 2 p.m. Saturday. The Harvesters play three more games the following week, a home-and-home with Hereford Tuesday and Friday and then a return visit to Dumas on Saturday.

Howard, in his first year as head baseball coach and assistant varsity football coach, came to Pampa following two years as head coach at Happy. Prior to that he was assistant grid coach at Plainview one semester, and at Boys Ranch the year before.

Howard was a football star at Texas Tech, making All-Borger Conference and All-Texas two years at defensive guard, and also receiving honorable mention All-American in his senior year. He was freshman football coach at Tech for one year before going to Boys Ranch.

Duren Sold

SCOTTSDALE, Ariz. (UPI) — Ryne Duren, whose glory days were a long time coming, was back on the road today, convinced he has "two or three good years" to give to the Philadelphia Phillies.

Duren, 34-year-old San Antonio resident whose fast ball and poor vision sometimes almost frightened American League batters into strikeouts, was sold Wednesday by the Los Angeles Angels to the Phillies for slightly more than the \$20,000 waiver price.

Concert Pianists: Overabundance?

By DICK KLEINER
Newspaper Enterprise Assn.
NEW YORK (NEA) — Benno Moiseiwitsch, one of the world's greatest pianists, thinks it may be "somewhat regrettable" that America currently has a bumper crop of young concert pianists.

"When there are too many young artists at the same time, Moiseiwitsch says, "the competition is too keen. There is room for just so many young pianists and no more. I'm sure many of them will have to go to Europe to get a hearing."

The Russian-born, Vienna-trained, London-living pianist takes artistic issue with many of these youngsters.

"Most young pianists," he says, "are influenced by Horowitz, who tries to out-Liszt Liszt. Consequently, they play too loud and too fast. They hear Horowitz and they say, 'I can play louder and faster than he can,' and they think that automatically makes them better than he is."

"Of the young American pianists I've heard, I would say that Byron Janis has the most to offer."

Moiseiwitsch's first American-made recording, after a long career of European recordings, is Decca's current release of his Schumann Carnival and the Mousorsorgy-Ravel Pictures at an Exhibition. This brilliant work hardly reflects the artist's feelings about making records.

"When you make a record," he says, "there is so much nervous tension that your sense of values is often distorted. All your concentration is on the technical side; you must watch for the red light to go on before you start to play and then you must watch the engineer's signals."

"After a while, perhaps you relax but the beginning is always very tense. In a concert hall, there is the audience, and you go out and do your best. You have nothing to worry about but your own playing."

Moiseiwitsch says that the new techniques — tape, primarily — make recording a little easier.

"When you recorded the old way," he says, "and you hit a palpably wrong note, you had to start all over. But now you can just splice it in. I'm not sure, however, if that's all to the good—it

may destroy the spontaneity." Relaxation, he finds, is the key to a successful record. To illustrate this point, he tells of his experiences with Rachmaninoff's Scherzo from Romeo and Juliet. Rachmaninoff himself asked Moiseiwitsch to learn the work after it 11 times and failed to please his own high standards.

Moiseiwitsch learned it, as requested, but couldn't interest a recording company in cutting it. Then, at one session, he finished early. And, for fun, he played the scherzo. The engineer had kept his equipment running and the record was made.

"It was," Moiseiwitsch says, "the best thing I've ever recorded."

For stereo fans, here are some especially effective albums: London has a beauty in "Victory in Review," in which Eric Rogers combines music and sounds in a sort of history of battles, and you hear the soldiers parade across your room to martial themes; "Terry Snyder's World of Sound" on Columbia has some good arrangements; Command's "Delicade" has Lew Davies and his orchestra with understated melodies that utilize effective sound; Capitol's "The Majestic Sounds of Semprini" is another good album of standards for stereo listening.

Fine new orchestral releases on the classical side: Command has William Steinberg and the Pittsburgh Symphony playing Brahms' Symphony No. 3 and Tragic Overture; on Angel, Otto Klemperer and the Philadelphia Orchestra play Richard Strauss' "Death and Transfiguration" and "Metamorphoses."

"After a while, perhaps you relax but the beginning is always very tense. In a concert hall, there is the audience, and you go out and do your best. You have nothing to worry about but your own playing."

Moiseiwitsch says that the new techniques — tape, primarily — make recording a little easier.

"When you recorded the old way," he says, "and you hit a palpably wrong note, you had to start all over. But now you can just splice it in. I'm not sure, however, if that's all to the good—it

may destroy the spontaneity." Relaxation, he finds, is the key to a successful record. To illustrate this point, he tells of his experiences with Rachmaninoff's Scherzo from Romeo and Juliet. Rachmaninoff himself asked Moiseiwitsch to learn the work after it 11 times and failed to please his own high standards.

Moiseiwitsch learned it, as requested, but couldn't interest a recording company in cutting it. Then, at one session, he finished early. And, for fun, he played the scherzo. The engineer had kept his equipment running and the record was made.

"It was," Moiseiwitsch says, "the best thing I've ever recorded."

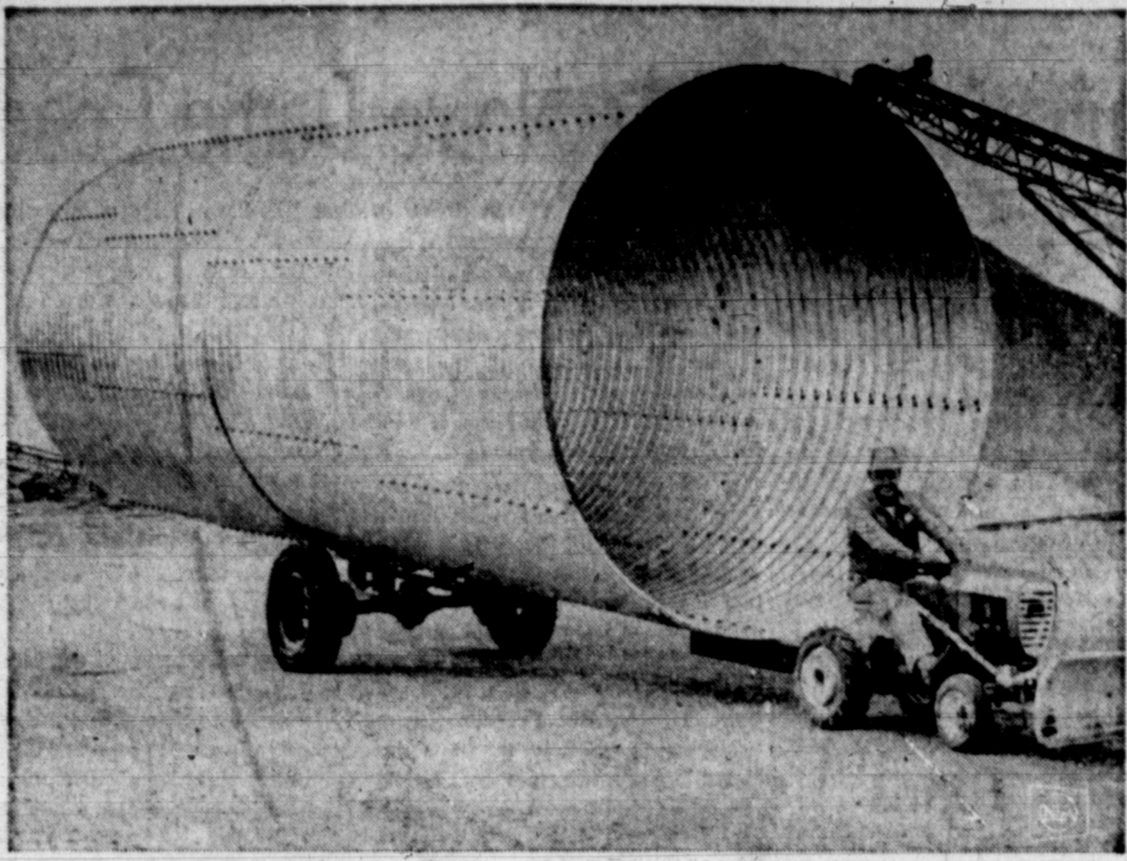

For stereo fans, here are some especially effective albums: London has a beauty in "Victory in Review," in which Eric Rogers combines music and sounds in a sort of history of battles, and you hear the soldiers parade across your room to martial themes; "Terry Snyder's World of Sound" on Columbia has some good arrangements; Command's "Delicade" has Lew Davies and his orchestra with understated melodies that utilize effective sound; Capitol's "The Majestic Sounds of Semprini" is another good album of standards for stereo listening.

Fine new orchestral releases on the classical side: Command has William Steinberg and the Pittsburgh Symphony playing Brahms' Symphony No. 3 and Tragic Overture; on Angel, Otto Klemperer and the Philadelphia Orchestra play Richard Strauss' "Death and Transfiguration" and "Metamorphoses."

"After a while, perhaps you relax but the beginning is always very tense. In a concert hall, there is the audience, and you go out and do your best. You have nothing to worry about but your own playing."

Moiseiwitsch says that the new techniques — tape, primarily — make recording a little easier.

"When you recorded the old way," he says, "and you hit a palpably wrong note, you had to start all over. But now you can just splice it in. I'm not sure, however, if that's all to the good—it

IT'S ALL HEART—Just a wee thing packing all of five horsepower, tiny tractor above makes like an ant—that is, it hauls many times its own weight. For example, that's an 8,200-pound cylinder it's pulling around the K.P. Construction Co. yard in Altus, Okla. The mighty mite weighs a mere 500 pounds. By comparison, average farm and industrial tractor weighs about 12,000 pounds.

Pooling Bill 'Badly Needed' Says Oil Company President

AUSTIN — Pooling legislation for oil operators is an economic necessity if Texas is to continue to have a healthy, growing and profitable oil-producing industry, L. F. McCollum, Houston, president of Continental Oil Company, said here this week.

Testifying at a hearing of the oil, gas and mining committee of the Texas House of Representatives, McCollum said the pooling bill now before the House (H.B. 310) is "badly needed" and will bring substantial benefits not only to the oil industry but also to the state.

Speaking on the proposed legislation's economic aspects, the Conoco president said the domestic petroleum industry has for several years found itself caught between excess productive capacity and diminishing discoveries of new reserves plus slow growth in demand — aggravated by excess crude producing capacity throughout the world.

"Every oilman is experiencing diminishing returns on investment capital and no one has escaped the unrelenting profit squeeze," he added. "The many problems of the industry call for enlightened policies and action in the various industry branches."

Calling pooling the "nub" of one of the industry's problems, Mr. McCollum said proper well spacing and the elimination of unnecessary wells drilled on small tracts represent "a most promising opportunity for efficiency and large-scale savings by producing more oil from each well."

He said the unnecessary wells represent a "staggering economic cost" which must be borne by either the investor or the consumer, and that this cost discourages the search for new oil in Texas.

Wall Street In Review

NEW YORK (UPI) — Although the 125 industrial stock index of Moody's Investor's Service recorded a 3.7 per cent drop in February, the agency says that 15 of the 53 major industry stock groups managed to make gains against the trend.

It says the leaders were the biscuit makers, up 5.7 per cent, and the farm machinery and railroad equipment groups, both showing a 5.2 per cent monthly improvement.

Motion picture shares led the list of February losers with a 6.1 per cent dip, followed by coal mining shares, off 5.1 per cent, and aluminum metal and fabricating issues with a dip of 4.5 per cent.

Investors Research Co., a California advisory service, says that while the market's initial response from the year's first significant reaction has been quite satisfactory, the low volume recovery suggests that this particular advance may be of short duration. Nevertheless, it adds, the odds are that the February bottom will prove a low that should not be broken during the spring months.

Martha McChenay Berry was a Georgia philanthropist who founded a group of schools for the children of mountaineers of her native state.

SPACE BIRD WATCHER—Looking like a huge, futuristic mortar, a Baker satellite camera, left, sits in readiness at Britain's Royal Radar Establishment in Malvern, England. What the extremely accurate camera can do is shown in photo, right. White streak against the stars is the track of one of

the U.S. satellites in the Discoverer series. Gap in the white line is a time check, representing a period of two seconds. The 8½-ton Baker camera has a focal length of 24 inches and aperture of f/1. It is accurate to within one second of arc.

Flood Waters Continue To Rage In Five States

By CHARLES FLINNER
United Press International
RICHMOND, Va. (UPI)—Roaring floodwaters from the Appalachian Mountains cascaded death and destruction upon valley communities in five states and sent more than 30,000 persons fleeing from their homes.

The rampaging waters caused at least 12—and possibly 15—deaths as they swirled through Kentucky, West Virginia, Virginia, Tennessee and Alabama.

Three Southern Railway passenger trains were stranded in East Tennessee by floodwaters and mud slides during the night.

Pouring with tremendous force, the waters ripped houses apart, bowled over trees and gouged into hillsides, sending tons of mud sliding down over highways and roads. Scores of roads were impassable.

Family Drowned
A family of four drowned when their home was swept, as if by a giant hand, into the Sequatchie River near Jasper, Tenn.

Three persons, including a couple, were missing and presumed drowned in the Jackson River near Covington, Va. Their smashed canoe was found on an island.

One person was killed when a steam explosion triggered by floodwaters seeping into a smoldering coal mine hurled tons of rock across a mountain valley near Appalachia, Va.

At least 20 counties in Virginia were hit by flooding which washed away houses and bridges and flooded business establishments. Damage in a six-county area alone was estimated at \$5.2 million. More than 1,000 families were removed from their homes in Richmond.

Rescue Squad Busy
James Mullins, captain of the 22-man Richlands rescue squad, said the evacuation began Monday night.

"We kept taking families right on through the day," Mullins said. "Some didn't want to go right

away but they called us back later when they were convinced they couldn't stay home much longer." More than 20,000 persons were forced to evacuate their homes in

the coal mining regions of eastern Kentucky, which apparently bore the brunt of the watery assault. Damage from the flood, believed to be the worst in the history of the region, was expected to run into the millions of dollars.

Princeton University's mascot is a tiger.

CIVIL WAR ALBUM

Mosby Bags a General

The band of little more than two dozen horsemen cautiously made its way up the snow-covered road in a light drizzle.

At the head of the column rode Capt. John Mosby, who won a reputation for courage as a scout for Confederate Gen. Jeb Stuart.

Mosby, now turned guerrilla raider, was already deep within Union lines as he led his men in the direction of Fairfax, Va., not far from the capital of Washington. His object was to capture two Union generals in the federal stronghold, a feat which was to become one of the most celebrated of the entire Civil War, though he was to wind up with but one.

In the early morning hours of March 9, 1863, they aroused no suspicion as they moved their horses through the Union encampment. The night was so dark that federal troops thought that they were seeing their own cavalry.

In a lightning raid, Mosby's men broke into the house of Gen. Wyndham, but discovered that he had left on a mission to Washington. From captured Union troops on the scene they then learned that Brig. Gen. Edwin Stoughton had made his quarters in an Episcopal rectory not far away in the town.

Mosby, backed up by his armed band, knocked loudly on the door of the sleeping general's house, and an-

Capt. John Mosby pronounced himself as a member of the "Fifth New York Cavalry."

A drowsy aide was startled to find a pistol at his chest when he swung open the door, but he was no more surprised than Gen. Stoughton in his bedroom, who must have thought himself enmeshed in a particularly abstract nightmare.

"Who are you?" he snapped at his visitor. "Have you ever heard of Mosby?" asked Mosby.

"I have," said the Union general.

With that, the Confederate captain, who was soon to become a colonel, marched his prisoner into the night and toward Confederate lines.

Majority Rule

ANGLETON, Tex. (UPI)—Both voters in the Bushy Meadows-Brazoria County water control improvement district will go to the polls March 25 to decide whether \$350,000 in bonds should be issued to pay for a proposed water works and sewer system.

Because Mr. and Mrs. O. T. Lucas are the only residents in the area qualified to vote in the election, the results should be quickly known.

Lucas is the election judge.

Antique Summons U.S. Launches

Are Still In Use

ROSWELL, N.M. (UPI)—Justice of the Peace J.C. Jones summoned six jurors to court this week with forms so old they bore the heading: "Territory of New Mexico."

Jury trials in justice of the peace courts in New Mexico are rare. When Jones had to summon jurors for a damage suit he is scheduled to hear Thursday, he found the forms in his files had been printed in 1910.

New Mexico became a state in 1912.

The summonses, replete with gold seal and green ribbon, are considered collector's items.

NOW YOU KNOW

By United Press International
Wood still is used as a heating fuel in many homes of the south Atlantic and Pacific Northwest states where pine and other softwoods are readily available, according to the National Oil Fuel Institute. In 1960 about 1.3 million U.S. homes were heated by wood fires, an institute survey showed.

W. P. Reuther With Miners

BRUSSELS (UPI)—United Automobile Workers (UAW) President Walter P. Reuther expressed his union's solidarity Wednesday with striking French miners.

Reuther handed a check of \$5,000 to Robert Bothereau, general secretary of the French C.G.T.-Force Ouvriere.

The presentation was made at a meeting here of the executive board of the International Confederation of Free Trade Unions.

In handing the check to Bothereau, Reuther said "the right of workers to struggle to improve their living standards and to resist the efforts by employers or governments to jeopardize the integrity and independence of democratic and free trade unions is fundamental to the preservation of individual liberty and democratic institutions."

Stockholders, Board Meet To Elect Officers

The annual meetings of stockholders and the board of directors of the Independence Insurance Co. were held Tuesday in Coronado Inn here.

The following officers were elected:

Robert L. Hudson, president and chairman of the board; Robert D. Mack, secretary - treasurer; C. J. Humphrey, vice president and counsel; and B. J. Hudson, assistant secretary.

Elected to the executive committee were: J. C. McWilliams, Mack, Humphrey, Hudson, John R. Collard Jr., and Glen E. McGibbon.

Elected to the board of directors were:

Norman R. Motley, Amarillo; James H. Strawn, Spearman, C. E. Haar, Perryton; John R. Collard Jr., Spearman; Glen E. McGibbon, Perryton; C. J. Humphrey, Amarillo; John B. Address, Borger; Dudley Smith, Channing; George C. Lowe, Gruver; Jimmie Allred, Hereford; R. D. Mack, Pampa; Shelby J. Ruff, Pampa; Robert L. Hudson, Pampa.

Stockholders voted to pay a 20 per cent dividend to stockholders as of March 12, 1963.

President Hudson reported that the company, which moved to Pampa from Fort Worth in November of 1960, has had a continuous solid financial growth.

Hudson also announced that all future agency development will be under the direction of B. K. Kouchin, who recently was appointed assistant to the president.

George Zochowski reported to stockholders that the home office of Independence is equipped and staffed to handle \$15 - million of insurance in force.

Said President Hudson: "The board of directors acknowledged their overwhelming satisfaction and approval of the entire management of Independence Insurance Company, and pledged their full support to the continuous growth of an institution that will contribute to the growth of the 'Top O' Texas area."

MAKES APPOINTMENT

HOUSTON (UPI)—The Humble Pipeline Co., has named Virgil P. Massey of Corpus Christi, assistant area manager in Midland. Leland Huffman succeeded him as technical coordinator for the Corpus Christi region.

ACTOR TO MARRY

HOLLYWOOD (UPI)—Actor Robert Wagner said Tuesday he will marry former actress Marion Donen when his divorce from Natalie Wood becomes final April 28. Mrs. Donen is the ex-wife of director Stanley Donen.

U.S. Launches Big Airlift In Viet Nam Fight

SAIGON, South Viet Nam (UPI)—United States planes and helicopters airlifted a massive South Vietnamese striking force of 5,000 men into the eastern edge of the Plain of Reeds today to start the biggest attack on Communist rebels in months.

The combined air-ground operation into the area about 35 miles south of Saigon was supported by armor. It appeared aimed at encircling the Communist stronghold and wiping out the Red guerrillas.

The area includes the village of Ap Bac, where government forces were severely mauled by entrenched Communists in January.

In today's operation, a battalion of Vietnamese paratroopers was dropped over the battle zone from U. S. Air Force transports.

Infantrymen were airlifted into the area aboard Marine Corps helicopters, while other Vietnamese troops closed in on the ground.

Government planes, some piloted by Americans, strafed and bombed suspected areas of guerrilla concentration.

There were several scattered clashes between the attackers and fleeing rebels in which a number of men were wounded. No major contact was reported.

U.S. Wins British Approval For Surface Fleet

LONDON (UPI)—The United States today won British support for President Kennedy's plan for a NATO surface fleet carrying Polaris nuclear missiles.

An official communique issued at the end of two days of conferences here with presidential envoy Livingston T. Merchant said British ministers assured him of "continuing support for the idea" of the American plan.

The ministers expressed their "hopes of finding ways to participate in the project," the communique said.

At the same time, the United States pledged support for the British-sponsored idea of prompt creation of a NATO nuclear force composed of existing nuclear weapons of the United States, Britain and other allies.

The joint communique said further: "The conversations confirmed the agreement in principle between the two governments that a multi-lateral force would make an important contribution to the unity and strength of NATO."

British support for the American plan did not involve an immediate commitment to participate in the project. The British government has both technical and financial hesitations.

COLLISION KILLS ONE

QUITMAN (UPI)—Two cars sideswiped each other and both collided with a truck Sunday, killing one man and injuring five other persons. Bobby Lee Bryant, 28, of Alba, Tex., was killed in the accident south of Quitman. None of the injured was seriously hurt.

Secretary Claims He Is GOP Target

WASHINGTON (UPI)—Defense Secretary Robert S. McNamara charged Wednesday that he was the target of some "irresponsible" Republican criticism.

He apparently referred to a statement by Rep. Leslie C. Arends, R-Ill., ranking Republican on the House Armed Services Committee, who claimed the secretary has assumed too much authority.

McNamara, in an appearance before the Advertising Council, noted that he was under attack for being a "dictator."

Because he had arbitrarily sliced \$14 billion off the original requests from the services when the current defense budget was being prepared.

"If I don't do it, who is going to do it?" he asked.

Then the secretary raised his voice and pointed a finger toward the television camera and said: "The man who made this attack is the ranking minority member of the committee who wants to add \$1.1 billion to this military budget."

McNamara said he did not think such "irresponsible action" contributed anything to the current debate on defense policies.

NEW COMMON MARKET AREA—By 1966 the six Central American republics, shown on Newsmap, hope to have their own common market in operation. The six nations have a population of some 13.5 million. Per capita income in 1960 was \$268, representing a total income of about \$36 billion a year. Imports run a bit under \$500 million, mostly from the United States. From Mexican to Colombian borders it is 1,200 miles airline. Greatest isthmus width is 400 miles, narrowest 50 miles at the Panama Canal. Total area is a little less than Texas.

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX. You must lose ugly fat in 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies or chewing gum. ODRINEX is a tiny tablet and easily swallowed. When you take ODRINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions, because ODRINEX depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX costs \$2.00 and is sold on this GUARANTEE: If not satisfied for any reason, just return the package to your druggist and get your full money back. No questions asked. ODRINEX is sold with this guarantee by: Richard's Drug Store, 111 N. Cuyler, Mail Orders Filled.

Thank You, Mr. Pampa...
