Graham's Ordinance Voted Down

Commission Rejects Effort To Halt Election

City Commissioner Will Graham's effort to have the Jan. 31 charter amendment election called off failed last night when the City Commission voted 3 to 2 to reject his ordinance for repeal of legislation passed Dec. 31 ordering the city-wide vote.

Commissioners Leon Holmes and L. P. Fort and Mayor E. C. Sidwell voted against a motion by Graham, seconded by Commissioner Lloyd Simpson, to have the ordinance placed on first reading.

However, the ordinance still is alive due to a slip up in the manner of handling newly introduced ordinances. Had the commission voted to place the ordinance on first reading, it could then have been read and then voted down finally by the 3 to 2 tally.

Since the ordinance was not read, it can be re-introduced at the next meeting of the commission.

All of this, however, is in the realm of a technicality and observers at last night's meeting feel sure the ordinance is as good as dead, since none of the commissioners would be expected to change his vote if the legislation is reintroduced and voted on.

Last night's rejection of the ordinance came after much bantering back and forth between Commissioner Graham and Mayor Sidwell. Graham was joined now and then by former City Commissioner Jack Vaughn and Paul Crossman, one of the circulators of a petition presented to the commission on Dec. 26 asking that two other issues be included in the Jan. 31 charter voting.

Commissioner Graham's chief contention was that the city commission had made a mistake in what he termed "hastily" calling the election for Jan. 31. He also repeated his former charge that the commission infringed on the constitutional rights of the people by failing to recognize the petition request that other matters be included in the charter amendment balloting.

"If 800 people ask for their rights, they should be recognized," Graham said.

Mayor Sidwell said he agreed that the Constitution guarantees the people the right to petition government for relief of their grievances, then stated that the petition to the commission was presented two days after the ordinance calling the election had been given its first reading.

"It would have been humanly impossible to validate the signatures within the time specified," the mayor said.

petitioners had asked to have placed on the ballot.

Opponents of the election, as it is now set up, claimed that if the time element entered into the placing of the additional issues on the ballot, the election should be postponed until the regular city election on April 2.

In a statement which he read last night, Mayor Sidwell declared that if the annexation amendment carries on Jan. 31, and then the problem is properly handled, a number of benefits would accrue to Pampa.

Chief among these, he stated, the city's health and sanitation problems would automatically be solved. The mayor said he felt it was a "precarious condition when we have to admit that there are approximately 400 cesspools within or adjacent to city boundaries, and from beneath the earth where we are pumping our water supply."

Mayor Sidwell also stated that city taxpayers now are in the position of paying for services furnished outside the city such as water and sewer, fire and police protection, garbage disposal and other services. He said that adjacent to the city limits there are residences and business establishments with property valuation of approximately \$3-million who do not have any city tax liability.

Commissioner Graham stated that all of the conversation that took place last night had nothing to do with whether annexation was needed or not.

"The question is," Graham said, "whether it is so urgent that it cannot be postponed until the April 2 city election."

"We have not arrived at this decision hastily," Mayor Sidwell said. "We have been discussing it for nearly two years and we acted on the advice of our legal advisor."

Commissioner Graham said, "whether it is so urgent that it cannot be postponed until the April 2 city election."

Sweeping Reorganization Is Proposed By Connally

ON GUIDED TOUR — Fifty-six members of the Pampa Chamber of Commerce spent almost two hours on a guided tour, the first of a series, of Cabot Corp., yesterday immediately following a brief talk by Dick Evans at his office and warehouse on the Borger Highway. The "convoy" arrived at Cabot at 2 p.m., was split up in small groups of ten or twelve as shown above with R. A. Baker, right, manager of Cabot's Machinery Division, explaining a multi-cutting sheet-metal machine, and proceeded to see the actual manufacture of an eight-inch artillery barrel from a cone-shaped ingot to the finished product. Also, oil well servicing equipment, the metallurgical testing lab, the gigantic machine shop, the parts and service department with hundreds of rows of shelves containing parts for servicing and manufacturing oil well and servicing equipment, most of which is made to order, were shown, as well as other manufactured products. Baker also pointed out that more than 400 people are employed in the plant proper and, with the sales and servicing department, more than 500. The annual payroll exceeds \$4 million.

Radical Shakeup In State Bureaucracy Could Result

By KYLE THOMPSON
United Press International

AUSTIN (UPI) — Gov. John Connally proposed today a sweeping reorganization of Texas government that would abolish, radically change, or merge some of the biggest commissions of the state bureaucracy.

The governor used his first full day in office to deliver a long-awaited speech to the joint session of the Texas House and Senate.

Connally asked the legislature to merge the State Parks Board with the Texas Game and Fish Commission, reducing the combined membership of the boards from 15 to three.

The governor recommended the Texas Industrial Development Board and Industrial Commission be dissolved and the office of economic development and development advisory council take their place, with sharply changed approach to industry development.

Wants Laymen Appointed — The State Banking Board should be changed so that its three members are laymen appointed by the governor to six-year terms, Connally said. Now, only commissioner J. M. Falkner, is named, and the other members are the attorney general and the state treasurer, both elected officials.

The Higher Education Commission should be reduced from 15 to six members and be changed to the "commission on excellence in higher education." Connally recommended, because the present commission size is "unwieldy."

The governor should be given the power by the people to name at least one out-of-state member to each governing board of a college or university, Connally recommended. He said there are many former Texans of national renown who could substantially help the boards if they could be appointed to them.

Would Transfer Duties — Connally also proposed to abolish the separate job of civil defense and disaster relief coordinator and give those duties to the director of the Department of Public Safety.

He also asked that the legislature abolish the job of county superintendent, and the Texas Aeronautical Commission.

The new chief executive's speech before the joint session was his third major address in a 34-hour whirlwind span that covered his inauguration yesterday. He touched on every subject but his budget recommendations, which he promised "within the next few weeks."

After outlining his first 21 points dealing with "many complex issues and problems" facing the state, Connally singled out three.

It was 26 below at Lone Rock, Wis., early today, 14 below at Minneapolis-St. Paul and only 29 at Dallas, Tex.

The mercury plunged to 24 below at Milwaukee Tuesday, the city's second coldest day on record. (See TEMPERATURE, Page 2)

Engineers To Give Report Public Meeting Is Set On City Water Needs

A public meeting to hear the results of a survey outlining Pampa's future water and sewer needs as recommended by Forrest & Cotton, Dallas consultant engineers, has been set for 7:30 p.m. Wednesday night, Jan. 23, in City Hall.

City Manager Harold Schmitzer and Mayor E. C. Sidwell announced at last night's City Commission meeting that the water engineers' report, results of a six-month study, will be revealed in detail with illustrated slides.

The engineers will make their recommendations for Pampa's immediate water and sewer needs and proposed rate schedules as well as for solution of the obligations that will arise from the city's participation in the Canadian River Municipal Water Authority.

Mayor Sidwell also announced that Forrest & Cotton officials will meet at 2:30 p.m. next Tuesday in City Hall with commissioners and representatives of several oil companies to discuss water flooding needs and whether the City of Pampa will be able to furnish water for that purpose.

Invitations; City Manager Schmitzer said, have been issued to Cities Service, Texaco, Kewanee, Phillips and Sinclair oil company representatives to attend the Tuesday afternoon meeting. Any interested person is invited to attend that meeting or the public meeting to be held on Wednesday night, Mayor Sidwell stated.

The water engineers also will attend the regular meeting of the City Commission at 7 p.m. next Tuesday.

"These will be important meetings," Mayor Sidwell said, "and any interested person is invited and urged to attend any or all of them."

In other business last night, the commission set a public hearing on an ordinance for the paving of S. Barnes St. from the Fort Worth & Denver Ry. underpass south to the city limits. Date for the hearing was fixed for Feb. 19. The ordinance, approved on first reading last night will have two more readings on Jan. 22 and Jan. 29.

Routine changes in salary schedules of city employees since Nov. 1, 1952, were approved, and the city manager took under consideration an application for an unloading zone at the side of the Court House Cafe.

Castro Urges Revolution Throughout Latin America

MIAMI (UPI) — Cuban Prime Minister Fidel Castro fell into step with Red China's hard line today and urged revolutionaries throughout Latin America to "hurl the masses into combat."

"That is the duty of revolutionary leaders," he said. "That is what they did in Algiers and what the (Communist) patriots are doing in South Viet Nam. That is what we did too."

The bearded Cuban leader, in a speech broadcast by Havana Radio, said that as far as he is concerned the Caribbean crisis has not ended.

Although Castro did not name the Soviet Union or Premier Nikita S. Khrushchev, he assailed unidentified "critics" in a way that described Moscow and its policy of "peaceful coexistence."

Attacks Theoreticians — In particular, Castro assailed "false interpretations of history." "Some Johnny-come-lately theoreticians have said that in Cuba there was a peaceful changeover from capitalism to socialism," he said. "If there had not been an armed fight by our people, we still would have seen (ex-President Fulgencio) 'Made in the U.S.A.' Batista with us."

Castro lashed out at persons who criticized the ORI—his "poliburo"—for its refusal to live up to Khrushchev's promise to allow inspectors to verify the withdrawal of Soviet offensive weapons from Cuba.

"There was no lack of isolated voices of criticism against the national leadership of the ORI on Cuba's attitude toward territorial inspection and the pirate (U.S. inspection) flights," he said.

Never Submit — "For them apparently we should have allowed ourselves to be inspected in order to consecrate the right of the imperialists to declare what arms we can or cannot have. We shall never accept those demands."

"Those who cast doubt on the correctness of the leadership of the Cuban revolution are making a mistake. Those who foment division are committing a lamentable treason."

Temperatures In Midwest Below Zero

By United Press International

Sub-zero temperatures clung to the Midwest today after the mercury fell as far as 50 below in one of the harshest cold spells in 75 years.

The early-morning readings were not quite so severe as 24 hours earlier when the bitter arctic blast came close to giving Milwaukee, Wis., and Minneapolis-St. Paul, Minn., their coldest weather in history.

Already nearly 100 persons were dead since the huge frigid mass penetrated 48 states.

The Weather Bureau held out hope of warmer temperatures from the Rocky Mountain region through the middle and lower Mississippi Valley. There were rising temperatures forecast also from Southern California to Georgia.

The Florida Keys had 69 early today, and south Texas had readings in the 50s. But to the north, the picture was different.

Mercury Plummeted — It was 26 below at Lone Rock, Wis., early today, 14 below at Minneapolis-St. Paul and only 29 at Dallas, Tex.

The mercury plunged to 24 below at Milwaukee Tuesday, the city's second coldest day on record. (See TEMPERATURE, Page 2)

Nikita Eases Pressure On West

By JOSEPH W. GRIGG
United Press International

BERLIN (UPI)—Soviet Premier Nikita Khrushchev eased pressure on the West today for a German peace treaty and evacuation of Red China.

In a two-hour, 35-minute address to the East German Communist party congress in East Berlin, the Soviet leader warned there can be no East-West disarmament agreement until the Berlin and German issues are settled.

But he refrained from any new ultimatum or deadline. Khrushchev added a grim note when he said the United States "now has roughly 40,000 hydrogen bombs and warheads." He said the Soviet Union also "has more than enough of this stuff."

Walter Rogers Reports The 88th Congress

The 88th Congress of the United States of America convened at 12 Noon on the 9th day of January, 1963 with 483 Members present. 257 of these were Democrats and 176 were Republicans. One Member, a Democrat, was absent and there is one existing vacancy due to the death of Congressman Clem Miller of California, who lost his life in a plane accident last year. Elections are in progress to fill this vacancy. It presently appears that the division in the House of Representatives will be 258 Democrats to 176 Republicans. Should the California seat be filled by a Democrat, which is expected, the count would be 259 Democrats to 176 Republicans.

Prior to the opening of the Congress on January 9th, each Party held a caucus. The primary purpose of the caucus is for the purpose of nominating the candidate for Speaker of the House, selecting a Majority Leader, and nom-

inating certain candidates for offices of employees of the House. The present Speaker of the House was nominated for return to this position, which had been held for so long by a Texan, Sam Rayburn. Mr. McCormack succeeded Mr. Rayburn upon his death and has been the Speaker since. He was re-elected for the 88th Congress by a vote of 256 to 175. The Republican nominee was Mr. Charles Halleck of Indiana. The vote was along Party lines. Everyone voted except the two nominees, who voted "Present," which explains the difference between the number answering present on the first roll call, and those voting in the Speakership race.

The Democrats in their caucus named as Majority Leader the Honorable Carl Albert of Oklahoma. Mr. Albert is a man who is short in stature, but long in brains. He has often been referred to as "The Little Giant." He was a Rhodes scholar and has been looked upon by many as having one of the most brilliant minds of his generation. The Republicans chose as their Minority Leader the Honorable Charles Halleck of Indiana, who was their candidate for the Speakership. Had the Republicans been in the majority in the House of Representatives, Mr. Halleck would have been elected Speaker.

Although there were limited fireworks in the Democratic caucus, the Republican caucus, according to the news media, produced a rebellion that unseated one of the older Members and replaced him with a representative of a younger group — younger both in age and in service in the Congress. This is very similar to the rebellion which occurred a few years back when the long-time Republican leader in the House, Joe Martin of Massachusetts, who had served as Speaker, Majority Leader, and Minority Leader, was unseated and replaced by the present Minority Leader, Charles Halleck of Indiana. How much bitterness will result from these actions is difficult to tell at this time, but it is obvious that there is a bad taste in the mouths of several who were on the losing side in that fight.

Both the Democratic and the Republican Parties named their respective Whips. Mr. Les Arends of Illinois was named Whip for the Republican Party, and Mr. Hale of Louisiana was named representative government will begin to function. Let us all hope that these are the political "top servants" who are supposed to keep the party members in line and keep up with what's going on. Needless to say, their job is a very tough one, and many times a thankless one. I am sure that both would

THE MONA LISA
You have all read about the loan

of the famous "Mona Lisa" by France to the United States. It is presently being displayed at the National Gallery of Art on Constitution Avenue. There was a special showing for the Congress and other public officials, which I attended along with Mrs. Rogers and Mrs. Julia McKernan of Pampa. There was quite a crowd and the painting was at the end of one of the wings of the Gallery, making access to it quite limited. I could see the painting from the rotunda and was satisfied with that view. The next day I was talking with former Congressman Brooks Hays at the White House, and asked him

NEW Firestone FIELD & ROAD At Sensationally Low Prices

It's all New from Bead to Bead

- **NEW BAR ANGLE** — Entirely new concept in bar angle insures far more traction under toughest conditions and outstanding bar life. Gives full bar contact; deep uniform bite; exceptional traction and greater fuel economy.
- **NEW BAR DESIGN** — New shape. More rubber and stronger bracing to stabilize tread. Fits more rubber on road to reduce bar squirming which causes rapid, uneven tread wear. Gives amazing new bar life on road or in the field.
- **NEW SIDEWALL ACTION** — Lets tire fit contour on which it is running. Allows full shoulder to shoulder tread contact. Gives even tread wear and smooth vibration-free ride.
- **NEW SIDEWALL DESIGN** — Especially designed and compounded to out-last other tires. Cut and snag resistant compounds resist damaging effects of crop stubble.

Firestone FIELD & ROAD TIRES ARE TRACTION GUARANTEED
If, within 60 days of the date of purchase, the new Field & Road Tire does not outpull any other replacement rear tractor tire you've ever bought, your Firestone Dealer or Store will (1) refund within 30 days thereafter the amount paid or (2) allow the amount paid in full credit on any other Firestone rear tractor tire. (This traction guarantee does not apply to special-purpose rear tractor tires used in rice and cane farming.)
The new Firestone Field & Road Tractor Tire is further guaranteed against defects in workmanship and materials for the life of the original tread. This guarantee provides for a replacement of the same size and type of tire prorated on tread bar wear and based on list prices current at time of adjustment.

WINTER PATTERNS—Long icicles frame picturesque scene of a snow-covered valley near the Bavarian town of Oberstdorf, West Germany.

● **Strikes**

(Continued From Page 1)
out of work are longshoremen, but others are truckers and seamen who refuse to cross picket lines.

Shippers estimate the strike already has cost \$600 million.
In New Orleans, La., the New Orleans Steamship Association filed charges against six International Longshoremen's Association locals. The shippers accused the locals of refusing to bargain in good faith. A local president denied the charge.

"City officials said 75 cents of every New Orleans dollar comes from port operations and an extended strike would mean economic disaster.

The longshoremen have demanded a 55-cent hourly package increase. They have been offered a 23-cent hourly package.

Newspapers Shutdown
Eight newspapers have shut down and a ninth has suspended publication in New York. Bertram A. Powers, head of an International Typographical Union local, led newspaper strikers and sympathizers in picketing New York Times offices.

Cleveland Mayor Ralph Locher said "significant results" came from talks between the Newspaper Guild and the publishers of the morning Plain Dealer and afternoon Press. Progress also was reported in talks Tuesday involving the Teamsters, who went on strike Nov. 29, one day before the Guild.

Members of nine unions made plans to start publishing a newspaper five times weekly starting Monday. The unions estimated a press run of at least 120,000 the first day.

Powers Says Wife Habitually Drunk

MILLEDGEVILLE, Ga. (UPI) — Former U2 pilot Francis Gary Powers told a divorce court Tuesday that his wife was an habitual drunk who sent him "cheap" magazines in a Soviet prison and neglected him to such an extent that "even the Russians got worried."

Attractive Barbara Gay Powers countered that imprisonment had left her husband a changed man, "void of all feeling" except bitterness toward her. "All he wants is his money," she sobbed.

A jury of 12 married men was expected to receive the case today and decide whether the 33-year-old pilot, whose abortive reconnaissance flight over Russia in 1960 sparked an international controversy, must pay his wife alimony.

Powers, 33, petitioned for divorce from his wife of eight years last August, seven months after his release from prison in exchange for Soviet spy Rudolph Abel. He had served 20 months of a 10-year sentence for espionage. Powers charged his wife was habitually drunk and abusive. Mrs. Powers, 28, filed a countersuit, charging that Powers failed to treat her like an average American housewife.

The handsome, soft-spoken Powers, whose testimony at times brought applause from spectators in the packed court room, said he went as long as 45 days without a letter from his wife while in prison. She was so delinquent in her writing, he said, that it became a matter of concern to both American and Russian officials in Moscow.

He said he received several packages from his wife but some contained such "cheap magazines" that he had to request other reading matter.

"The only person who ever mistreated me while I was in prison in Russia was my wife, Barbara," Powers said.

Mrs. Powers testified that she married Powers "for companionship, love and children but I didn't have an opportunity for that." She said she was unaware at the time that Powers had been assigned by the Central Intelligence Agency (CIA) to make U2 flights over Russia and accused him of taking "our future into his hands without my knowledge."

She denied she was an excessive drinker.

Quotes In The News

ROME—Bulgarian pilot Milose Solakov, cleared of spy charges that could have landed him in prison for 24 years.

"I am going back to Bulgaria right away, very right away. I am glad that the truth has triumphed and that I can finally go home."

CHICAGO — Mathew Ahmann, executive secretary of a National Conference on Religion and Race which opened today with 800 religious leaders on hand:

"We hope that this meeting will serve as the starting point for increased action by religious organizations to eliminate racial segregation in our country."

● **Connally**

(Continued From Page 1)
yearly limitation of state funds that can be appropriated for this purpose."

"I also recommend abolishing the nine-member Texas Industrial Commission and creating an office of economic development with a director accountable to and to serve at the pleasure of the governor," Connally said.

"I further recommend an appropriation of \$200,000 a year for this office."

Education Gets Attention

Thirdly, he turned to higher education, to which he devoted more attention than any other topic.

Connally submitted an emergency matter the establishment of a governor's committee on education beyond high school. It would probe the needs and "assay the present and potential resources of existing institutions and systems," Connally said.

Connally's program was outlined in a 30-page document weighing half a pound. It was broken into four divisions containing 36 specific points he hopes to see in his "new day of progress."

His major points dealing with higher education included:

—The Commission on Higher Education be reconstituted as the commission on excellence in higher education. This would be a six-member board appointed by the governor and approved by the Senate.

New Proposal

—Submitting of a joint resolution to a vote of the people to allow the governor to appoint at least one out-of-state resident on each governing board of state colleges and universities.

—Expansion of vocational training, night schools, foreign language courses, pre-school English programs for Spanish-speaking children, and development of education programs for gifted children.

Connally, the handsome, 45-year-old former Floresville farm boy whose spectacular career brought him to the governor's mansion to succeed former Gov. Price Daniel, told lawmakers he was "frankly enthused over the opportunities

Hudson Resigns As Chairman Of Pampa City Traffic Commission; Miller Named

CoC Committee To Outline Plans For New Year

Plans for 1963 activities of the Publicity and General Information Committee of the Pampa Chamber of Commerce will be outlined at a meeting of the group at 2 p.m. tomorrow in the Court House Cafe, according to Bill Power, committee chairman.

Included on the committee meeting agenda will be familiarization of the committee members with chamber of commerce activities and general plans for the coming year.

SCORES UPSET WIN

ADELAIDE, Australia (UPI) — Australia's Owen Davidson upset Marty Mulligan of Australia, a former Wimbledon finalist, 6-1, 9-7, 10-8, Tuesday in a quarter-final match in the Australian lawn tennis championships.

Municipal Court Docket

Naida Marie Washington, 525 Elm, improper turn from wrong lane, guilty, fined \$5.
The following persons pleaded guilty and were fined on intoxication charges: Letha Mae Harrelson, fined \$25; Francis A. Alexander, fined \$1; John R. Thomas, fined \$15; Edward J. Kidd, fined \$15; Orblee Gaines, fined \$15.
It was incorrectly stated in Monday's Pampa News that Mrs. Zelia Pulliam, 1124 Prairie Dr., entered a plea of guilty to a charge of failure to yield right-of-way. Mrs. Pulliam entered a nolo contendere plea to the charge and was fined \$15.

Harvesters Post 20th Win With 56-48 Victory

AFTER VICTORY NO. 20 — Pampa's Harvesters raked Monterey's Plainsmen over the coals in the first quarter last night to win victory no. 20 this season against one loss. In the first picture, Coach Terry Culley tells the Harvesters to "go get 'em." Guard Keith Swanson lets go one of his delayed shots in the second photograph. Monterey's Buddy Gregory is caught with hands down. In the last picture, Randy Matson (54), Monterey's Bob Schmid (55), Wayne Kreis, and Gregory (Monterey) get ready to rebound Swanson's shot. However, the ball swished through the hoop for two of Pampa's 56 points. (Daily News Photos)

By LEE WHITE
Pampa News Sports Editor
Pampa's Harvesters moved into sole possession of first place in Dist. 3-AAAA last night as the Pampans posted their 20th win of the season, downing Monterey, 56-48.

Amarillo edged Plainview in a double overtime game, 73-72, leaving Pampa the only undefeated team in the district and 20-1 for the season. Prior to last night's games, Pampa and Plainview were tied for the league lead with 4-0 district records.

Other Games
In other Dist. 3-AAAA action, Tascosa, in winning its first district battle this season, handed Borger its fifth loss in conference play, 44-41.

Lubbock edged Palo Duro, 61-57, in the other district tussle last night.

Pampa jumped into an eight point lead, 8-0, and were seriously threatened only once by the Plainsmen midway in the third period when Monterey pulled within three points, 35-32. The Harvesters' Wayne Kreis, the leading scorer in district play, paced the Pampans in scoring with 21, but Monterey's Buddy Gregory tallied 24 for game honors. Gregory accounted for 10 of Monterey's first 12 points. Pampa took advantage of free throws early in the fracas to move ahead. Eight of the Harvesters' first 14 points resulted from charity tosses.

Trailing 18-7 at the end of the first quarter, the determined Plainsmen managed to gain ground on the Harvesters by intermission, 31-24. Pampa shot 50 per cent on field goals the first half, hitting 8 of 16 while Monterey made 8 of 24 for 33 per cent.

Big Difference
The big difference in the first half of play was Pampa's ability to cash in on free throws as both teams scored eight field goals. The Harvesters made 15 of 18 attempted free throws in the initial half with Monterey connecting on 8 of 13 attempts.

Pampa turned in 14 points in the third quarter against Monterey's control brand of basketball to stretch the Pampa lead to 10 at the end of the third quarter, 45-35. However, the Lubbock school battled within three points of the Pampans midway in the third quarter with the score 35-32. In the second part of the quarter, Pampa rallied for 10 points while holding the Plainsmen to three. Gordon Balch hit his third basket of the night to pull Pampa to a 37-32 lead. Gregory hit a free throw for Monterey before Kreis rallied for two straight buckets, moving Pampa out of close range once again.

The Lubbockites gained ground in the fourth quarter to move within eight points of Pampa, 56-48, at the game's end. Pampa's biggest lead of the game, 13 points, came in the opening seconds of the second quarter as Kreis padded the Harvesters' lead with two of his nine free throws, making the score, 20-7. Pampa hit a little less than 50 per cent from the floor, making 19 of 40 attempted shots. From the free throw line, Pampa connected on 15 of 23 attempts for 78 per cent.

Monterey made 17 of 44 field goals for 39 per cent and hit 14 of 19 free throws for 74 per cent. Pampa plays the upset-minded

Sandies in Amarillo this Friday night in the Harvesters' next outing.

DISTRICT STANDINGS:

Record Betting At Race Tracks

NEW YORK (UPI) — Betting at Thoroughbred race tracks in the country reached a record total of \$2,679,461,505 in 1962 with attendance at 33,881,860, a United Press International survey showed today.

The staggering statistics surpassed the previous highs of \$2,538,107,934 and 33,453,617 persons set in 1961 by \$141,353,571 and 428,243. Betting gained 5.5 per cent but attendance climbed only 1.2 per cent in the 24 states with legalized on-course betting.

There was more racing in 1962 with 3,900 days of sport compared with 3,779 in 1961. New York, Illinois and New Jersey contributed heavily to the increases with record years in all three states. Each had more racing but only in New Jersey was this a major factor in the rise in betting and attendance.

Charnley Wins Over Jethro Cason
LONDON (UPI) — European lightweight champion Dave Charnley of London was so pleased today with his victory over Philadelphia's Jethro Cason that he announced:
"I'll not only continue fighting but I'll try to win back the British Empire title from Bunny Grant as soon as possible."
Southpaw Charnley, formerly twice challenger for the world title but still champion of the British Isles and Europe, had considered retiring to his chain of ladies' hair-dressing salons if he lost Tuesday night to American Cason.

HOAD BEATS LAVER
HOBART, Tasmania (UPI) — Veteran Lew Hoad powered his way to victory Tuesday over last year's "grand slam" amateur, Rod Laver, 6-4, 1-6, 6-1, in an exhibition tennis match.

Tulsa Rips Wichita In Collegiate Play

By MARTIN LADER
UPI Sports Writer

Tulsa University has applied an age-old formula for turning failure into success, and the results are proving better than any one could have expected. The Oklahoma school has suffered a number of lean years on the basketball court in the last decade, including a disappointing 7-19 mark last season. But holding on to the best of the old, and mixing in a liberal dose of the new, Tulsa is off to what probably will be its best campaign since the mid-50's.

The Hurricanes demonstrated their "new look" for an appreciative audience at Tulsa Tuesday night by battling into two overtime periods with seventh-ranked Wichita and holding on for an 85-83 victory over the powerful Wheatshockers.

It was the seventh triumph against four losses for Tulsa, and by far its most impressive outing of the season. Wichita had gone into the game with an 11-1 record and was considered the most likely candidate (if such a possibility existed) to stop Cincinnati.

Collier May Be Named Cleveland Browns' Boss

CLEVELAND (UPI) — The Cleveland Browns today are expected to name backfield mentor Blanton Collier their new coach.

Collier, a 34-year veteran of the coaching ranks, will succeed his close friend, Paul Brown, in heading the team named for the deceased head 17 years ago.

Collier's appointment is expected to climax a week of speculation after the stunning announcement last Wednesday by Browns' president Arthur W. Midell that Brown was fired.

Ray Renfro, the Browns' veteran flanker back, said Tuesday night that Collier already has agreed to succeed Brown. Renfro said he received a long-distance telephone call from Bernie Parrish, the team's player representative, advising him that Collier signed the contract Monday.

Modell, who earlier called the firing "a simple reorganization," admitted Tuesday it was motivated by a threatened "early retirement" or rebellion by "no less than seven key players—and these weren't rookies," as well as the Browns' mediocre 7-6-1 finish last season.

Renfro Claims Collier Signed

FORT WORTH, Tex. (UPI) — Ray Renfro, flanker back for the Cleveland Browns, said Tuesday night that Blanton Collier is the new head coach of the Browns.

Renfro, a resident of North Richland Hills, told the Fort Worth Star-Telegram that he received a long-distance phone call from Bernie Parrish, the Browns' player representative. Parrish said Collier signed the contract Monday, replacing Paul Brown.

Boston Syndicate Wants Titans

BOSTON (UPI) — Officials of a Boston syndicate will fly to New York today to begin final negotiations to buy the bankrupt New York Titans of the American Football League.

Ted Barron, 42-year-old owner of Nu-Way Disposal Co. of Everett, the syndicate spokesman, disclosed Tuesday that he and his associates were willing to spend as much as \$3 million before expecting a return on their money.

Cowboys, Lions Slate Exhibition

DETROIT (UPI) — The Detroit Lions announced today they will meet the Dallas Cowboys next Sept. 8 at Colorado Springs in a National Football League exhibition game for the benefit of the Air Force Academy Foundation.

The profits of the game will go to provide the academy with needed improved athletic facilities for which federal funds are not provided.

Western All-Stars Picked In NBA Tiff

By ART SPANDER
LOS ANGELES (UPI) — The Western All-Stars, with a starting lineup built around Walt Chamberlain and Elgin Baylor that is averaging 160 points a game, throws its offensive power against the defensively minded East tonight in the 13th annual National Basketball Association All-Star game.

A sellout crowd of 15,000 was expected at the Memorial Sports Arena, while thousands more were to watch the game on a special 21-station national television network throughout the United States.

The West, which won the last two games without Chamberlain, was a 6½-point favorite now that it had the addition of the huge San Francisco Warrior center, who is averaging nearly 48 points a game.

However, the Eastern All-Stars this season gained Oscar Robertson of Cincinnati—which traded divisions with the Warriors—and his smooth back court play, combined with the equally great play of Boston's Bob Cousy—was expected to make the East go.

Rozelle Calls Wilson, Karras To New York

DETROIT (UPI) — Detroit Lions coach George Wilson and All-Pro tackle Alex Karras have been called to New York for questioning by National Football League Commissioner Pete Rozelle concerning Lions players associating with known gamblers.

The Detroit Free Press said today Wilson will cut short his vacation in Delray Beach, Fla., to meet with Rozelle at the league's New York offices. Rozelle was to huddle with Wilson today and Karras was scheduled for a meeting Thursday.

Karras was the first of four Lions players to become involved in the league-wide probe by the commissioner's office. He was plucked into the picture when it was reported the team management was unhappy with his partnership in a Detroit bar.

Detroit Police Commissioner George Edwards added to the fire when he submitted a report, concerning associations of Lions players with known gamblers, to the Lions' management and NFL headquarters.

The report, which named John Gordy, Wayne Walker and Karras as being seen in the company of known gamblers, specified that nothing had been unearthed to indicate criminal activity.

Darris McCord also became involved in the investigation but was not named in Edwards' report. All four have volunteered to take lie detector tests to prove knowing alleged gamblers did not affect their play.

The Free Press said Walker had been interviewed by Rozelle by telephone several times and would not be called to New York.

DON'T RELY ON "EMPTY CALORIES."
 Despite the variety of food available to everyone, most people have an insufficient diet. They get plenty of calories, but many lack the elements needed for vital organs.

AVERAGE DIET IS INSUFFICIENT.
 It contains too many "empty calories" and important vitamins needed for growth and energy are lost by cooking and exposure before eating.

WHICH VITAMINS DO YOU NEED?
 There are many different formulas available and your Doctor can tell you the one best for you. Don't let a door-to-door pedlar, or a mail order firm be your physician.

DEPEND ON US FOR QUALITY.
 The vitamins we supply are made by the firms whose reputations insure dependability. The cost per day of the very best and a doubtful bargain is trivial. Why gamble with your health?

TAKE VITAMINS DAILY DURING 1963.
 Phone us now for your favorite brand or come in and look over our complete stock of potentially pure vitamins.

SKELLYTOWN PERSONALS

By MRS. CLIFFORD COLEMAN
Daily News Correspondent

Mr. and Mrs. Sammy McGuire and son had as over night guests Wednesday, his brother G. F. McGuire and family of Tulsa, Tex.

Mrs. Bob McKernan, Skellytown Library Board Member attended a Library board meeting Thursday afternoon in the Panhandle Library at Panhandle, Tex.

Mr. and Mrs. W. N. Adams have returned from a trip to Dallas, where they visited their daughter and family Mr. and Mrs. Tom Lyons and daughters.

Mr. and Mrs. Ira Colley were business visitors in Amarillo Saturday.

Visitors in the home of Mr. and Mrs. Melvin Norris were their daughters, Lt. Helen Norris stationed with the U. S. Air Force in Greenland, and Mr. and Mrs. Mike Orr of Albuquerque, New Mex.

Recent guests in the home of Mr. and Mrs. Clarence Hoskins and son Charles, were their sons and their families, Mr. and Mrs. Jimmy Hoskins and two sons of Pratt, Kans., Mr. and Mrs. Don Hoskins of Amarillo, Tex. and Mr. and Mrs. Eugene Hoskins and family of White Deer, Tex.

Mr. Ralph Gilpin has been dismissed from the Highland Hospital in Pampa and is at his home, he is much improved.

Sunday guests in the home of Mr. and Mrs. Jack Hutchinson and family were Mr. and Mrs. Nelson Noble and children of Pampa.

Raymond Mayfield of Waxahachie, Tex. has been visiting his parents, Mr. and Mrs. Herman Mayfield and family.

Mrs. Clifford Coleman and Mrs. C. N. Roberts and Mr. and Mrs. Ross Cleman of Borger, Tex. were visitors in Amarillo Saturday and visited Mr. and Mrs. M. Davis and family at Chow Chow Acres.

Mr. and Mrs. Norman Lee Trollinger and children have returned from a trip to Yuma, Ariz., where they visited Mrs. Trollinger's brother, Clyde Roth and family.

Mr. and Mrs. Ralph Duke and children, Barbara, James and David have returned from a weeks vacation in Lindsey, Okla., where they visited her parents, Mr. and Mrs. Ivan Chandler.

Recent guests in the home of Mr. and Mrs. B. H. McGee and sons were the McGee's daughter and husband, Mr. and Mrs. Ken Kykendall of Dallas, Tex.

Mr. and Mrs. F. E. Brown of Phillips, Tex. visited their daughter and granddaughter Mrs. Sidney Melton and daughter Carol.

Miss Anna Marie Kramer has returned to Waxahachie, Tex. after visiting her parents, Mr. and Mrs. John Kramer.

Miss Margaret Grange who is attending West Tex. State College at Canyon, spent the week end with her parents, Mr. and Mrs. O. D. Grange and family.

Mr. and Mrs. Cleady Steward and daughter Carylton spent Sunday with their daughter and husband Mr. and Mrs. Ross Coleman in Borger, Tex.

Mrs. Gerold Huckins and Mrs. Jack Houston attended a meeting at the home of Mrs. M. L. Vance in Panhandle, Monday afternoon to plan a menu for a Council training meeting Luncheon which will be held Feb. 5, in the Panhandle Christian Church.

Buck Durning was dismissed from the Highland Hospital in Pampa Friday afternoon after being a patient for several days.

Mmes. Fred Anderson, E. E. Crawford, Bob Heaton, Tom Hill and John Simmons were in Perryton Monday evening to attend the installation of new officers of the Perryton Rebekah Lodge. Mrs. Anderson, District Deputy President of District 2, was the installing officer.

Mr. and Mrs. W. C. Carter and children spent Sunday at Allen and McLean, Tex. where they visited his parents, Mr. and Mrs. F. B. Carter and her mother Mrs. Maggie Lee.

Mrs. Gertrude Huckins spent Monday in Amarillo, where she

Custom Trim Department At Hall Tire Co. Does 'Outstanding' Job

Leymond Hall, owner of Hall Tire Company, 700 W. Foster, MO5-5755, this week issued a special invitation to residents of the Top O' Texas area to stop in and look over his firm's custom seat cover tailoring department.

The trim department at Hall Tire Company can do custom work on your automobile, no matter what make or model, providing you with custom-tailored door panels, arm rests, floor mats, seat covers or most any part of the interior of your car or truck.

Is the floor mat in your car getting worn and unsightly? Hall Tire Company can put a beautiful new floor mat, carpet or rubber-type, in your car at a reasonable price.

How about the door panel, getting worn near the bottom, at the front? Hall Tire Co. can put in two or more matching door panels at much less expense than you probably imagine and greatly increase the interior beauty of your car.

And, the most widely recognized place of beauty in your car, the seat covers. These can be tailored by the staff at Hall Tire Company or you might prefer the regular seat covers offered by the firm and styled by the Howard Zink and Arthur Fullmer companies in a wide selection and price range and ranging from plastic to fabric and in combinations.

Also in the custom trip shop at Hall Tire Company, you can have a custom tailored pickup cover made or you can get that pickup seat rebuilt.

While you're in at Hall Tire Company, why not treat your car to a can of that famous Formula 9 motor oil supplement... boosts engine power, gives better gas mileage, reduces engine wear and helps get less oil consumption. Also, if you're getting a rough

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the right of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

Entered as second class matter under act of March 3, 1879.

Jack Be Nymbol—

Another kind of population explosion has been going on in recent years. This is the tremendous increase in the use of bank checks. According to a leading check printer, the Burroughs Corp., some 15 billion checks were written, cashed and cancelled in 1962—a 300 per cent increase over 1940.

Those who like staggering statistics can chew on these: All these checks could form a paper blanket covering 57,000 acres; if put on a scale they would weigh 52 million pounds; put one on top of the other they would make a stack 1,000 miles high; if placed end to end they would reach 1,654,000 miles past the moon. Since checks go through from nine to 18 bank operations before

finding their way back to the writer, banks and clearing houses would have been smothered long ago by this huge output were it not for the aid of electronics.

About 80 per cent of all checks are now imprinted with symbols in magnetic ink which can be "read" by processing machines at the rate of many thousands an hour.

The codes have been dubbed "nymbols" (number plus symbol), though the system itself is referred to by the unwieldy term of Magnetic Ink Character Recognition.

Unfortunately, the new checks are fully as elastic as the old kind. They still bounce from an overdrawn account.

Free Enterprise

There can be small doubt that there is much ignorance of the economic facts of life.

That has been proven in survey after survey, covering such matters as profits, labor costs, capital investment and so on down the list. There is a woeful lack of understanding of the roles played by the various elements in keeping the economy going, and the forces which may stimulate or depress it.

The result is accurately described by Fred G. Clark in Human Events: "It is this mass ignorance that permits political ignorance to spread anti-private enterprise propaganda in order to draw votes from an uninformed and unsuspecting public."

That fact has caused the American Economic Foundation—whose task is to spread economic truth—to propose a Hall of Free Enterprise at the New York World's Fair of 1964-65. In such a hall, writes Mr. Clark, "... the basic economic facts of production and exchange of all goods and services can be dramatically demonstrated for all the world to see; and the contrast in results under freedom with those under dictatorship."

Anything which helps to clear away the clouds of ignorance surrounding our system of free enterprise within a free society adds to the power, the security and the prestige of the whole Free World.

TRUTH FORUM

N.Y. Strike Shows Need for Right to Work Laws

By ED DELANEY

If further proof of the need for right-to-work laws in every one of our 50 states were needed, the newspaper strike in New York City will serve the purpose. Many members of the Typographical Union that called the strike, which closed down the nine daily newspapers in New York, soon began to realize that they themselves suffer the most by such work stoppage. It is reported that some of the papers are not financially able to weather a prolonged strike, as is likely, then not only the printers but thousands who work in other departments will be seeking work elsewhere—perhaps in other cities, if they can get it.

A black-out on newspapers is felt by the public. Newspapers are an essential part of American life. Particularly is it true in this period of history when events of world-wide importance are happening almost daily. Quite true, with the advent of radio and television, many persons get what might be termed capsule or homeopathic doses of news if they chance to be near a radio or TV set. But that does not fill the void when newspapers with their greater coverage of events are no longer available.

The suspension of all daily papers in New York is a pattern that might be applied in other metropolitan centers by arbitrary and unconscionable union bosses. Measured by any standard you choose, in these days of outrageously high wages in some industries, the New York printers were well paid. Ten years ago their average wage ranged from \$116 to \$128 per week. Since then they have been getting increases in varying amounts until at the time of the strike they were averaging from \$147.65 to \$157.65 weekly. The union czars demanded another increase of about \$9 weekly. Not all the printers were in favor of stopping their wage checks just at the Christmas season or of jeopardizing

their jobs — if their particular newspaper decided to fold up permanently. But they found themselves as voiceless, faceless, units in a machine that is operated by the union bosses.

The people of New York state, particularly those who experience economic hardship because of unjustified strikes, have only themselves to blame. They never rebel against the straps of both political parties who supinely submit to demands of the union despots. Those imperious bosses regard right-to-work laws as impinging on their right to dictate the labor-policies of the nation.

No free nation can survive if it is under coercion by an arbitrary power that can virtually control its economy. There is obvious alliance between the Washington administration and labor unions whose members are importuned into contributing generously toward the campaigns of candidates for Congress who are pledged to support programs dictated by the unions. The Kennedy brothers seldom miss an opportunity to make disparaging remarks and even hints of anti-trust action against corporations that provide the opportunities for work and also a large share of the taxes to maintain the profligate administration. But there is thundering silence from the President and attorney general on the monopoly of the labor unions which are far more of a trust than industrial corporations.

The labor trust would flinch more and more of the gross profits from corporations which are needed for expansion and maintenance of facilities to provide more work opportunities. Such deferential demands also are a deterrent for investment in existing or proposed industries. The communist, socialist objective is the bankruptcy of the free enterprise system, followed by government ownership of everything.

Some labor barons, seemingly with the tacit approval of Washington, appear to be bent on achieving that goal.

Pull Up A Chair

By Frank J. Markey

Historic Baltimore, one of America's most interesting cities, is in the midst of a gigantic re-building program that will completely change the complexion of its old central business district. Already new office buildings are nearing completion, to be followed by large apartment houses, hundreds of stores, a new luxury hotel and a fine amusement complex to include a legitimate theatre. When we looked in the other day we found that work was also progressing on a unique double-decked mall in the old Lexington Street area. The new business district is called the Charles Center and is scheduled for completion in about five years. Naturally it is being widely landscaped. Adjoining the Center is a new sports auditorium so the Monumental City will be after national political conventions. And nearby is a skyscraper hospital about to open its doors.

Headline in the Baltimore News-Post: "Mercury to Dip Below Zero. Snow No Ice Si." When you take a pencil in hand you may be interested to know there are 17 grades of hardness for the "lead"—which actually is not lead. The softest is 6B and the hardest 9H, the latter used chiefly by tombstone designers.

Beginning next spring the German Airlines will introduce the first air shuttle service in Europe, patterned after a similar service that has been in operation for the last few years between Boston, New York and Washington.

More in amusement than in anger, we suspect, American males absorbed a scolding administered on behalf of her sex by Elaine Kendall in a recent Readers' Digest. She noted that her sex, according to Holy Writ, is only junior to the males by "one short day" and yet women are fair game, anytime, anywhere and are dissected and discussed. Miss Kendall turned the tables and launched a few penetrating questions she claimed they are always asking women. Her final question was, "What have men done with the vote?" We cannot answer that but we know there is seldom anything very secret about a woman's ballot. Everybody knows well in advance.

Country editor speaking: "It is a proven fact that nobody is scheduled to leave this world alive, so why not enjoy the good earth a little longer by taking it easy occasionally. Death by heart attack is becoming all too frequent." That popular toiletary, cologne, originally was a light, clean-smelling, citrus type of fragrance, and it derives its name from the fact it was created in the German city of Cologne. Over the years Jack Benny has wrung thousands of laughs from his feigned miserliness, but the fact is he's as loose with his money as the next millionaire. Two other international stars, however, have had no scruples about squeezing a dollar, a pound or a franc. Those are Harry Lauder and Maurice Chevalier. When Lauder was touring over here in 1913 at \$4000 a week, he insisted that he be paid off with three \$1000 bills, one \$500 bill and the remainder in small currency.

Since his early start in the Paris music-halls, Chevalier has been economy-minded, but it wasn't until last year that he started playing himself up as a tightwad in his act—but it was kidding on the level.

Country editor speaking: "A famous poet said recently that it now is more poetic to compare a beautiful woman to a million dollars than to a rose. Next thing you know, poets will be carrying cash registers instead of a lyre."

The moon is approaching its last quarter.

The morning stars are Venus and Mars.

The evening stars are Mars, Jupiter and Saturn.

On this day in history: In 1883, the U.S. Civil Service Commission was established.

In 1920, saloons closed their doors as the Volstead Act to enforce the prohibition amendment went into effect.

In 1952, Russia ordered all foreign diplomats in Moscow to restrict their travel to within 25 miles of the city.

In 1961, 28 men died when a "Texas tower" radar island sank in the Atlantic, 83 miles south-east of New York City. A thought for the day: The English philosopher, Francis Bacon said: "Fortune is like the market, where many times, if you stay a little, the price will fall."

Who Said Vaudeville's Dead?

Edson In Washington Don't Don Rose-Tint Specs To View '63 Labor Relations

By PETER EDSON

WASHINGTON (NEA) — Prospects for fewer strikes with fewer man-days of idleness in 1963 than in 1962 do not appear too good.

At least 94 major labor contracts for bargaining units of 5,000 workers or more are due to expire in late spring and early summer. They affect a total of 1.2 million workers.

Reopening of wage contracts for off-train railroad employees and basic steel industry workers can be requested in May. They affect a total of 900,000 workers. The other 300,000 workers under contracts that may be reopened this year are in the rubber, telephone and electrical equipment industries.

While the 1,250,000 workers affected by the preliminary Bureau of Labor Statistics estimate of 3,550 strikes starting in 1962 was the lowest number since the end of World War II, the number of work stoppages and the 19 million man-days of idleness they caused were higher than the year before, though below the levels of most postwar years.

The 1961 record was 3,367 strikes causing 1,450,000 workers 16.3 million man-days idleness.

For the average worker on strike, the loss of employment caused by strikes were 15 days in 1962, 11 days in 1961.

Of the 16 major strikes last year, each affecting more than 10,000 workers, seven were in metropolitan area construction industries. Others were in the eastern garment industry, Lockheed Aircraft, Eastern Airlines, Allis-Chambers, Chicago and North Western Ry. The New York City area had more labor difficulty than any other part of the country, with major strikes settled for garment workers, schoolteachers, electrical, telephone and construction workers. The New York newspaper and longshoremen's strikes, starting in 1962, carry over into 1963.

What seems to be happening, according to labor analysts, is that major strike settlements made under Secretary of Labor James L.

The Doctor Says: LE Can Affect Skin, Joints, Internal Organs

By DR. WAYNE BRANDSTADT

A disease with a big name can produce some big problems for its victims. This is lupus erythematosus—LE, for short—and should not be confused with lupinus vulgaris, which is form of skin tuberculosis.

LE, too, affects the skin but it also may affect the joints and internal organs, notably the heart and kidneys. The cause is unknown. Its red, scaly patches occur most frequently around the face and neck. They must be differentiated from the patches of some other skin diseases by a qualified specialist.

The patches are made much worse by exposure to sunlight, and must be protected from the direct rays of the sun and even from ultraviolet lamps. X-rays also aggravate the condition.

As is the case with many other diseases, the victim may have spontaneous periods of improvement. This makes it hard to judge the value of any new form of treatment. Because involvement of the internal organs is likely to be serious, it is not wise to treat the skin eruptions intensively. All-out efforts at treatment should be reserved for the more threatening developments.

In general, three types of drug are used: salicylates, including aspirin; cortisone and related steroid hormones, and antimetabolic drugs. Once a person starts treatment with any of these drugs it is usually necessary to keep it up for a long time. This exposes the victim to the dangers of undesirable side effects.

If the joints are affected, aspirin often gives great relief, but if the drug is discontinued the joint pains return. Similarly when there is marked inflammation of the skin, joints or the internal organs, treatment with hormones may cause marked improvement. In some persons the drug can be discontinued and the improvement maintained, in others the disease, returns even though the patient is still taking treatment.

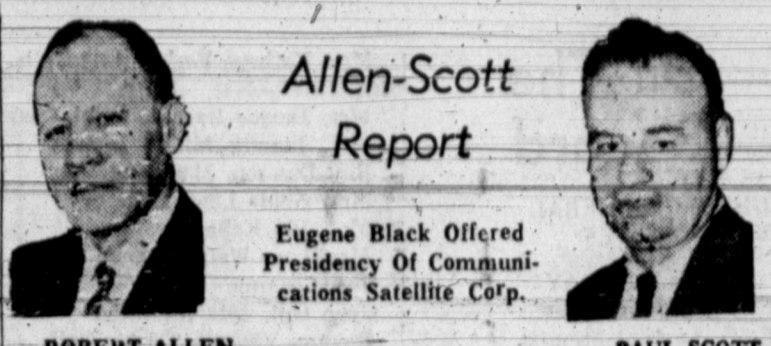

The use of the newer antimetabolic drugs in the treatment of LE has been hailed as a real advance. One advantage: very few side-effects even with prolonged use. Good results are reported in about 80 per cent of the persons on whom this treatment has been used.

Relapses do occur, however, if the treatment is stopped. In the 20 per cent who are not benefited by antimetabolic drugs alone a combination of one of these drugs with a steroid hormone is often successful.

Since lupus is a disease that may be present for many years before a diagnosis is made and since a person who has it in a mild form may, after many years, find that it is progressing to a serious stage, it is essential that such a person have expert medical guidance.

The treatment of this disease with its variable manifestations and variable final outlook cannot be expressed in an easy formula. It often taxes the ingenuity of the most skillful clinician.

Fleet Street, London, is the home of England's newspaper offices.

ROBERT ALLEN and PAUL SCOTT

Allen-Scott Report

Eugene Black Offered Presidency Of Communications Satellite Corp.

WASHINGTON—Eugene Black, who recently retired as head of the multi-billion dollar World Bank, can have the presidency of the \$1 billion communications satellite corporation if he wants it.

This much-sought business prize was offered the 65-year-old Georgian by the 13 incorporators, with the warm approval of President Kennedy.

Black told them he will make his decision within two weeks.

In asking him to head the giant new corporation, which has yet to be legally organized, the incorporators mentioned no salary. In effect, they are leaving that up to Black.

Previously, in the incorporators' private discussions, they have talked of paying \$100,000 or more a year.

Three main reasons were behind Black's choice: (1) His extensive experience in finance; he was vice president of a leading New York bank for many years before joining the World Bank, which he headed from 1949 to 1962; (2) his worldwide personal ties with foreign leaders and government; (3) his high standing and popularity among both Republicans and Democrats in Congress.

If Black accepts the presidency, the incorporators propose to name an outstanding scientist as his executive assistant.

The incorporators also have employed the Rand Corporation to make a series of studies for the new company, whose incorporation papers are to be filed within a month. One of the studies will deal with the cost of the corporation, and another its form of organization.

No difficulty is anticipated on Senate confirmation of the 13 incorporators, who were named by the President after Congress adjourned last fall. That's what the President has been told by Senate Democratic Leader Mike Mansfield, Mont.

Some of the militant Senate opponents of the communications satellite corporation have talked of challenging certain of the incorporators. But according to Mansfield, such a fight won't materialize.

However, all the names will be considered by the Commerce Committee, headed by Senator Warren Magnuson, D-Wash., before being submitted to the Senate.

Black, born in Atlanta, is a graduate of the University of Georgia. SYNTHETIC WIT—Senator, Ted Kennedy's sparking wit that won the annual congressional dinner of the Women's National Press Club was strictly synthetic.

His loudly-applauded humorous talk was ghost-written by Theodore Sorensen, special counsel of the President, and his principal speech writer. Much of the wit that pops up in the President's talks originates with Sorensen, 35-year-old Nebraskaan.

But there is one quip now getting a big hand in Washington whose origin is unknown. It's as follows: "The Justice Department is planning to send Ted Kennedy to Ole Miss to take James Meredith's examinations for him, in order to ensure his passing."

As a student, young Kennedy was compelled to leave Harvard for a year because of crimping in an examination. He hired another student to take a Spanish exami-

nation for him. This came to light during Ted's senatorial primary campaign last year.

DIPLOMATIC BOMBHELL — Premier Khrushchev is in a king new efforts to link the withdrawal of Soviet troops from Cuba to new U.S.-Russian talks on West Berlin.

This surprise diplomatic maneuver was revealed by Secretary of State Rusk during President Kennedy's bipartisan briefing of congressional leaders on the international outlook.

Secretary Rusk told the legislators that Deputy Foreign Minister Vasily Kuznetsov proposed the Cuban-West Berlin link during their latest discussions at the U.N.

While Rusk would admit only that the U.S. is still "studying" the Soviet proposal, the President frankly reported:

"We have reason to believe that a withdrawal of Soviet troops can be worked out without making major concessions."

The President's terse statement abruptly ended the discussion on Cuba, with Secretary Rusk switching his briefing to the Far East.

Earlier in the meeting, Rusk volunteered that "the Russians are finding the cost of bolstering the Cuban economy staggering — a million dollars a day."

Questioned by Speaker John McCormack, D-Mass., about the number of Russian troops in Cuba, Rusk replied: "The number is very substantial." CIA Director John McCone added that the number varied with the sources.

"We know there are somewhere around 18,000 Russian troops and technicians in Cuba," he reported. "We also have unconfirmed indications that there may be several thousand more."

Under further questioning by the congressional leaders, McCone revealed that the Soviet combat troops, comprising tank and missile battalions, are building permanent barracks. Also, that additional Russian military supply ships are now enroute to Cuba.

One of these ships, which loaded at a Black Sea port where the first missiles were shipped to Cuba, passed through the Turkish Straits this week.

"The Cuban situation remains dangerous as long as there are Soviet troops in Cuba," McCone said in summing up his report.

Other highlights of the intelligence briefing included these statements: —Khrushchev in no way has re-entrenched his designs upon Western Europe and West Berlin.

—Mao's Peiping regime has substantially increased its influence in North Vietnam in recent months. This development could mean a stepped-up Communist drive in South Vietnam.

—India may be faced with another Chinese Communist offensive in the spring.

In a later briefing attended only by the Democratic leaders, President Kennedy said he would limit his special messages to Congress during this session to eight.

The messages and approximate dates the President plans to send them to Congress are: Budget, January 17; Economic Report, January 21; Taxes, January 24; Federal Aid to Education, January 29; Agriculture, January 31; Aid for Mentally-Retarded, February 3; Medical Care, February 14; and Foreign Aid, February 19.

Dear Abby... Don't Cry Over Sour Milk!!!

By ABIGAIL VAN BUREN

DEAR ABBY: My boy friend's coach is running my love life. He lined up all the boys on the basketball team and made them take a pledge. "NO SMOKING, NO DRINKING AND NO GIRLS." Abby, does a coach have the right to do this?

I used to see Tom every night, but since he took the pledge I'm lucky to see him on Saturday night until midnight. Tom is a good athlete and I am proud of him, but I might just as well not have a boy friend as one who has to go to sleep with the chickens. What does a girl do in a case like that?

BASKETBALL WIDOW
DEAR WIDOW: Tom sounds like a good egg even if he does go to sleep with the chickens. Be a good sport and see him when he's available. If you grumble, Tom might suggest a substitute who didn't make the team.

DEAR ABBY: My daughter has been married for three months to a man who doesn't say one word more to her father or me than he absolutely has to. If I say, "How are you?" he replies, "Fine." (Not even, "Fine, thank you, how are you?") He is not ignorant. He went through college on scholarships and is considered a mathematical genius. We are always friendly to him. He told my daughter he doesn't care about anyone else—only her. Do you call that intelligence? We are respectable people. What is the matter with him?

anthope. He has much to learn about manners. Warn your daughter that her husband's antisocial behavior could lead their happy marriage into a vacuum. And "genius" alone cannot overcome loneliness.

DEAR ABBY: I would like your opinion of a man and wife who send out Christmas cards from "Mr. and Mrs. So and So AND son." Their son is 49 years old!

GOT ONE
DEAR GOT: It seems to me that the son is old enough to send his own. However—what's the difference either to you or me?

DEAR ABBY: Do a couple of million people a favor and ask them to get into their cars on a dark, rainy night and drive by their OWN homes to see if they can read their own house numbers. You wouldn't believe the number of houses that haven't a clue (that can be seen from the street) as to what the house number is.

CLAIRE

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif. for Abby's new booklet, "How To Write Letters For All Occasions."

BAFFLED
DEAR BAFFLED: Your son-in-law may be an educated mis-

Make Sewing Fun For Sister

Are good seamstresses born or made? The homemaker who is a good seamstress never worries about the answer because she CAN sew and she will, my observation shows, convey by example her enthusiasm and perhaps her talent to her daughter.

But the baste-and-safety-pin variety of sewer like myself is the one who frets. How heartily we cheer from the sidelines the earliest fumbling effort to poke a needle through the sewing card! How easily our hopes leap ahead to when, as a teen-ager, our little darling will be dressing herself beautifully and so inexpensively in the clothes she makes herself.

My depressing lack of talent never clouded my ambitions.

Then reality intrudes. Our older daughter, now in junior high, takes woodworking and the needles-stay-in-the-dusty-pin-cushion. I was ready to throw in the bobbin and resign myself to ready-to-wear-togs-for-all. At this point our youngest child, with no prompting, dragged out a little hand-crank sewing machine, rusty with age, rigged it up with thread and started grinding out stitches. How she wants to "make something" to wear!

Head the knock of opportunity! One of the simplest and showiest "wear" items I could find is an apron made from border-printed or embroidered cotton. Such yard goods has finished edges which become the hems of aprons (or skirts).

To make the apron, measure twice around the child's waist to find the length of material to buy. Trim the width according to the child's height. Cut edges at the sides are hemmed. Top edge is folded over and stitched to make a casing through which a ribbon tie is threaded. The results are highly praise-worthy. This apron would be a good gift to make for big sister or relatives for Christmas.

Manners Make Friends

The oftener you write, the more you have to say! Try this, and see.

Little seamstresses can turn out showy aprons with ease by learning basic machine techniques on a hand-operated miniature sewing machine.

Mrs. Guy Andis Is Hostess To The O.E.S. Gavel Club

The Order of Eastern Star Past Matron's Gavel Club met in the home of Mrs. Guy Andis, 1812 Russell, at 6:30 p.m. Jan. 10th.

Plans were made at the club's business meeting to take food to a member who is ill.

After the covered dish supper, Mrs. Walter Parker, president, conducted the business meeting. The weather being so bad, several were absent, including the secretary, so Mrs. R. A. Hankhouse acted as secretary pro tem.

After the business meeting, table games were enjoyed and gifts were distributed from Secret Pals. Those present included Mesdames Katie Vincent, G. K. Reading, W. M. Voyles, Emma Lee Gray, R. A. Hankhouse, J. E. Wheeler, Floyd Pennington, Otto Rice, J. M. Warner, Dennis Stillwell, W. L. Parker, Bill Fiewelling, W. R. Morrison, Oscar Shearer, Wilson Hatcher, Guy Andis. The president appointed Mesdames Emma Lee Gray, Guy Andis and G. K. Reading as a committee to prepare a flower code for the club.

Mrs. Andis, hostess, was assisted by Mrs. Otto Rice and Mrs. Wood Osborne.

The next meeting of the club will be held with Mrs. W. R. Morrison, 1809 Mary Ellen, on February 14 at 6:30 p.m.

Take It From Kathy

Dear Kathy: I'm an adult who should know the answer to this question. It's so simple and silly that I'm ashamed to ask anyone about it.

I'm 25 and expecting my first child. Some of my friends plan to give me a baby shower. I have never been to one before. Please give me some advice about what to say while opening the gifts, and how to go about thanking each person.

When would I serve refreshments? Please put this in your column.—S. M.

Dear S. M.: When you aren't used to being the center of attention, it can be an ordeal—but only if you make it so! Your friends have planned this to be fun. Relax.

When people arrive, you could offer them coffee or punch, but if food will be served, it's usually best to plan it after the presents are opened.

Make sure that you read the card enclosed and identify the giver, when opening a gift or while looking at it.

The guests will chatter so much, it won't be necessary for you to keep up a stream of com-

ment. As you see each gift, say the first complimentary thing that occurs to you. You'll love the color, be amazed at how tiny things are, and a blanket might just match the bedroom you have planned. Each thing should truly please you so much that it won't be hard to find a comment!

Planned comments will just sound stilted. Be spontaneous and the party should be fun!
