# Congress Says Defense Shift Dangerous

## JFK Expected To Outline Cuban Policy In Costa Rica

WASHINGTON (UPI) — A Senate leader said today he expected President Kennedy to spell out the U.S. campaign against Castro Cuba at the Central American presidents' meeting in Costa Rica next month.

## U.S. Will Pressure Russians For Test Ban Treaty Talks

GENEVA (UPI) — The United States will pressure the Russians for nuclear negotiations as long as there is a glimmer of hope for a test ban treaty, informed sources said today.

The U. S. government is even prepared to put aside for the moment discussions of other areas of disarmament if the Russians will begin nuclear talks, the sources said.

The 17-nation disarmament conference was in recess for the day, and the delegation used the time for private consultations.

The eight neutral delegations, which have watched in hopes that the nuclear powers would reach their own agreement, were expected to make a move soon to get the conference going.

Virtually nothing has been accomplished since the conference resumed two weeks ago. The West and the neutrals have urged top priority for nuclear negotiations but the Soviet Union, which broke off talks in Washington Jan. 31, has dodged a direct meeting with the United States and Britain on the issue.

U. S. chief negotiator William C. Foster accused the Russians Monday of stalling and challenged them to bargain on conditions for a test ban. He said the Western position is flexible as long as cheat-proof verification of a test ban is assured.

Though the West insists that at least seven annual on-site inspections are necessary to make a test ban foolproof, the Russians will not permit more than three on Soviet territory and will not negotiate the point.

## Fort Worth Board Gives Plan To Judge

FORT WORTH (UPI) — The Fort Worth School Board today presents a desegregation plan to U.S. Dist. Judge Leo Brewster.

It was believed to be a stair-step desegregation plan, starting with the first grade.

Nearby Dallas is integrated under a grade-a-year, stair-step plan. One grade a year would be added until all 12 grades were desegregated. A liberal transfer policy would go along with stair-step desegregation.

Senate Democratic Leader Hubert H. Humphrey, Minn., asserted that he looked for the President "to document fully our anti-Communist, anti-Castro effort at the Costa Rica meeting."

"I think he will give any clarification that is needed," Humphrey said in an interview.

Kennedy will confer at San Jose, March 18-20 with the presidents of Costa Rica, Guatemala, Nicaragua, Honduras, El Salvador and Panama.

Humphrey's remarks came after these other developments on Cuba.

—Senate Democratic Leader Mike Mansfield, Mont., backed up a report by GOP leader Everett M. Dirksen, Ill., that four American civilian pilots were killed in the ill-fated Bay of Pigs invasion in 1961. Mansfield said the Americans who were not identified, flew as volunteer substitutes for exhausted Cuban pilots.

—Czech Ambassador Milanov Ruzek delivered to the State Department a note from Cuba denying that Cuban MIGs attacked an American shrimp boat last week. The note, in reply to a U.S. protest, countercharged that the United States had attacked Cuban fishing vessels.

—State Department spokesman Lincoln White said the Cuban note was "obviously not responsive to our note and seeks to further cloud the issue by gratuitously making self-serving allegations of a propaganda nature." But he said the incident was closed except for Kennedy's orders for U.S. forces to take action against future attacks.

—A congressman who visited the U.S. naval base at Guantanamo Bay, Cuba over the weekend said intelligence experts were convinced that Cuban pilots have replaced many of the Russians flying MIGs over the island. The congressman declined to be identified.

## Pampa Youth Still Critical

Eighteen-year-old Jimmy McPherson of Pampa was still reported in critical condition at Anamillo today as the result of a gunshot wound suffered early Sunday night.

The youth was removed to the Air Force Hospital from Highland General Hospital here yesterday afternoon.

Young McPherson, a serviceman home on leave from Fort Sill, Okla., was wounded in the stomach at the home of his mother, Mrs. Maggie McCain, 312 Naida.

Police found the youth lying on the front porch of the McCain home after Mrs. McCain had telephoned that her son was threatening to use a 22-caliber rifle.

Investigating officers said McPherson and a girl friend had a quarrel earlier in the afternoon.

GOAT HERDERS — That's the role in which George Scott, at far left, and A. C. Troop, with a firm grip on the goat's horn, were cast when they accepted the booby prize for Scott's team in the Chamber of Commerce Member Roundup. It all happened yesterday at the chamber's monthly luncheon in Coronado Inn. Shown in the photo on the right are Dick Evans, captain of the first prize team, and W. C. Newlin, who was top salesman in the campaign. Newlin signed up 35 members, 27 of them new ones. Evans and Newlin are holding replicas of the Hereford steer they will share with three other team members. (Daily News Photo)

## Surprise Alert Tests West Berlin Defense Set Up

BERLIN (UPI) — American troops and tanks in a surprise alert today tested plans to defend West Berlin.

One of the three U. S. Army battle groups here was called out in snow and slush at 5:30 a.m. for a 4 1/2 hour exercise. They were supported by a tank company.

A force of 20 tanks and 140 riflemen rushed to Tempelhof airfield, main airport base during the Russians' 1948-1949 blockade of Berlin. The soldiers set up machinegun posts at the airfield, one of the city's key defense points if trouble breaks out.

Some soldiers of the 1,500-man battle group remained in their barracks as a reserve force. They were loaded on trucks ready to move.

A second 1,500-man battle group took part in a similar game at 1 p.m. The soldiers guarded key installations in the American sector.

The Communists admitted today living conditions were unlikely to get better in East Germany. The party newspaper News Deutschland said agricultural production had failed to go up as planned, especially of meat, eggs and milk.

Production of meat was only 88.8 per cent of the plan, milk 93.5 per cent and eggs 95.3 per cent.

## Watson Says Chamber Membership Drive Shows Pampans' Willingness

Pampa's economic outlook is good and the Top O' Texas area is on the upgrade, Floyd Watson, First National Bank vice president, told a luncheon audience at the Chamber of Commerce February Membership meeting in Coronado Inn yesterday afternoon.

"The best assets a town has," Watson said, "are its people. People who are willing to work and willing to give."

"I think the Chamber of Commerce membership roundup which has just concluded is one of the best evidences of the willingness of the people of Pampa."

Loyal Davies, chamber finance director, and general chairman of the membership drive, reported yesterday that \$28,225.25 was raised in membership fees in the drive. He also stated that the chamber added 224 new members and now has a membership roll of 950 compared to 801 in 1962.

Davies said he expected the amount in the membership drive to go over the \$30,000 mark within the next few weeks.

He stated that the tentative budget would be revised in order to take care of essentials and that the work of the chamber would be carried on vigorously by its various committees.

Awards for winning teams in the membership contest were awarded to the teams captained by Dick

Evans, Floyd Watson and J. C. Roberts, for first, second and third places respectively. The team captained by George Scott was awarded the booby prize of a goat for winding up in last place.

The goat was on hand for presentation at yesterday's luncheon and had to be herded into the Starlight dining room by a couple of cowboys.

Scott and A. C. Troop, a team member, accepted the goat on behalf of the other three absent team members.

Davies paid tribute to the hard-working team members for their service in the drive.

"It has been a very successful campaign and I cannot speak too highly of the splendid job done by those who took part in it, including the workers in the chamber office."

Special mention also was accorded to E. O. Wedgeworth, chamber manager, whom Donaldson and Davies described as the motivating factor behind the drive organization.

## Mariner Shows Life Doesn't Exist On Planet Venus

WASHINGTON (UPI) — Mariner 2's verdict is that lovely Venus is lifeless.

That was the word today in advance of a news conference on what the 447-pound spacecraft discovered when it flew past the brightest of the planets last Dec. 14.

The news conference was scheduled for 2 p.m., EST.

Radio studies had indicated before Mariner 2's historic flight that the surface temperature of earth's nearest planetary neighbor was 615 degrees Fahrenheit, higher than the melting point of lead.

There was a chance, however, that the radio findings were wrong. Two of six instrument packages aboard Mariner 2 were given the specific job of finding out whether Venus might actually be cooler enough and moist enough to support living things.

Scientists have now spent more than two months studying the data from these special instruments. Their conclusion:

Venus is indeed too hot and it also is too dry to be the abode of life as it is known on earth.

Mariner 2 was launched by the National Aeronautics and Space Administration (NASA) Aug. 27. After 109 1/2 days of travel through interplanetary space, it passed within 21,600 miles of perpetually cloud-masked Venus.

## Critics Foresee End Of Piloted Bombers

WASHINGTON (UPI) — The administration was under withering bombardment today by congressional forces who believe a "dangerous" shift is being made in defense strategy.

Simply put, this is a shift which foretells the end of piloted nuclear bombers in the nation's strategic retaliatory forces and complete reliance on ballistic missiles.

Critics in Congress and the Pentagon, this is an all-eggs-in-one-basket concept. To proponents, it seems to be an inevitable development even if the door is left ajar for some kind of future strategic aircraft.

Chairman Carl Vinson, D-Ga., of the House Armed Services Committee opened the heaviest bombardment of the current congressional session Monday in a statement urging expansion of the hotly controversial RS70 warplane program.

Vinson's committee voted, 31-5, to authorize \$363 million more for the plane in the new budget.

But the issue is broader than any particular aircraft, encompassing the whole question of whether reliance on missiles alone will be safe.

Vinson said he wanted no cut-back on missiles, then went on: "But the committee sees a growing tendency on the part of the Department of Defense to place more and more emphasis on missiles and less on manned systems."

"This is a dangerous course and one which the committee intends to do everything in its power to stop."

The committee's power is very great indeed, and its concern is duplicated in the Senate Armed Services Committee, headed by Vinson's fellow Georgian, Sen. Richard B. Russell.

But Defense Secretary Robert S. McNamara shows no symptoms of wavering, and a head-on collision may be coming.

## Market Stops Economic Aid For French

BRUSSELS (UPI)—France received a rebuke from its Common Market partners today when they declined to give final approval for an economic aid program for former French colonies in Africa.

Still angered over France's veto of British membership in the market, the five partners failed to reach agreement on an association treaty with African nations, most of them former French colonies. A \$739 million aid program was at stake.

## President May Have Given Up

WASHINGTON (UPI) — President Kennedy appeared today to have harpooned his own tax reform program.

Kennedy surrendered Monday whatever leverage he might have had for prodding a reluctant Congress into enactment of some revenue-boosting tax reforms.

He did so by saying that he was willing to abandon every one of his tax reforms, if necessary, to win enactment this year of a net income tax reduction of \$10 billion or more spread over three years.

This had been implicit all along. But the fact that the President publicly acknowledged it strengthened the position of those battling against the tax-tightening reforms.

Undermines Committee Head. Conversely, it undermined the position of Chairman Wilbur D. Mills, D-Ark., of the House Ways & Means Committee, who was largely responsible for persuading Kennedy to include "tax reforms" with his tax reduction program.

Mills declined comment on Kennedy's statement. But no one doubted that the veteran lawmaker was unhappy over the President's latest tax pronouncement.

Some lawmakers were puzzled as to why the President was taking a line that could not help but hurt his own relations with Mills, who presumably will be called upon to carry the legislative ball for the tax cut.

Gravely Concerned. One theory was that Kennedy had become gravely concerned (See KENNEDY, Page 3)

## Lions To Receive Honor For 100% Aid To Children

The Pampa Evening Lions Club will be honored Thursday evening when a special award will be presented to the club for five years of 100 per cent participation in the Lions Home for Crippled Children and School for the Blind at Kerrville.

The award will be presented to club officials by District Governor Sam Pagan of Shamrock.

## Wanted: Oscar For Actress Out Of Work

By VERNON SCOTT  
UPI Hollywood Writer  
HOLLYWOOD (UPI) — Bette Davis, who only recently was advertising in Hollywood for a movie job, today was an Academy Award nominee for the best actress of 1962.

Miss Davis, a two time Oscar winner, was nominated Monday for the tenth time, more than any other star. Her nomination came for "What Ever Happened to Baby Jane?" a film she has described as a "modest little picture."

Also nominated as best actress were Katharine Hepburn, (Long Day's Journey into Night), Anne Bancroft (The Miracle Worker), Geraldine Page (Sweet Bird of Youth) and Lee Remick (Days of Wine and Roses). Miss Hepburn won an Oscar 10 years ago for "Morning Glory."

who had previously advertised for acting work in a movie trade magazine, sharply contrasted to the defeated attitude she expressed only a few weeks ago.

"No woman has been more defeated personally and professionally than I've been for the past 10 years," she said. "I call them the black years—10 years of nothing."

Best Actor Nominees  
Chosen as nominees for best actor were previous winner Burt Lancaster (Bird Man of Alcatraz), Jack Lemmon (Days of Wine and Roses), Peter O'Toole (Lawrence of Arabia), Gregory Peck (To Kill a Mockingbird) and Marcello Mastroianni (Divorce—Italian Style). It was Lancaster's third nomination, Peck's fifth and the third in this category for Lemmon who has won a supporting actor Oscar. He is now attempting to be the

first person to win Oscars in supporting and leading role categories.

The five pictures voted best of the year were "Lawrence of Arabia," "The Longest Day," "To Kill a Mockingbird," "Mutiny on the Bounty" and "The Music Man."

The most nominations were earned by "Lawrence of Arabia" which got 10. "To Kill a Mockingbird" received 8 and "Mutiny on the Bounty," 7.

Nominations as best director for 1962 went to David Lean (Lawrence of Arabia), Robert Mulligan (To Kill a Mockingbird), Arthur Penn (The Miracle Worker), Frank Perry (David and Lisa) and Pietro Germi (Divorce—Italian Style).

Supporting Actor Contenders  
Contending for the best supporting actor award are Ed Begley

(Sweet Bird of Youth), Victor Buono (What Ever Happened to Baby Jane?), Telly Savalas (Bird Man of Alcatraz), Omar Sharif (Lawrence of Arabia) and Terence Stamp (Billy Budd).

The winners will be telecast nationally April 8, the 35th annual Oscar ceremony.

# Foreign Commentary

By PHIL NEWSOM

UPI Foreign News Analyst  
Notes from the foreign news cables:

**Economic Troubles:**  
The economic facts of life are causing some intense soul-searching on the part of government leaders in Britain and France. In Britain, the trouble is unemployment — growing continually and threatening to become a political time bomb. In France, it is the soaring cost of living—which has gone up more than five per cent in the past year and is threatening the stability of the new "hard" franc. Total unemployment in Great Britain—including Northern Ireland—was more than 932,000 in February. It is the basis of growing unrest and could be a major factor in the return of the Labor Party to power in the general election which must be held before the fall of 1963. For France, the increasing cost of living is bringing demands from the powerful labor unions for new wage boosts. These demands have caused President Charles De Gaulle personal concern, and he has ordered the government to hold the line at all costs.

**Family Background:**  
In most places in the world, a man can rise above his background. But in class-conscious Communist China, things are different. According to the Peking newspaper Chung-Kuo Ch'ing-nin Pao, every citizen must fill in on all registration forms and identity cards his "family background," such as "landlord" or "poor peasant." This classification then is unchangeable throughout the person's lifetime. The purpose of this, the newspaper explains, "is to understand the influence of family on a person, ideologically and politically, before he achieves the status of economic independence, so that he may be understood completely."

**Diplomatic Revival:**  
The word from Bonn is that there may be a revival of diplo-

matic activity soon between West Germany and Czechoslovakia on the other. Poland finally has agreed to let Germany establish a trade mission in Warsaw, and Bonn is angling for permission to do the same in Budapest and Prague. Up to now, the satellite nations have demanded all-out diplomatic recognition or nothing. Bonn's policy has been to refuse such recognition since the satellites recognize the puppet Communist East German regime. Bonn's policy is to have no diplomatic relations with any nation — except the Soviet Union—that gives such recognition. But the value of mutual trade between Bonn and the satellites is another matter.

**Emilio Aguinaldo:**  
The Philippine government is expected to heed the request of the nation's grand old man for payment of back pension due him for the years 1939 to 1957. Gen. Emilio Aguinaldo has made the request from his bed in the Veterans Memorial Hospital in Manila, not as a matter of need but as a matter of right. Aguinaldo, now 93 and ailing, is the man who proclaimed Philippine independence from Spain in 1898 and then went on to battle the United States until he was captured. A national hero, the Philippine legislature voted him a lifetime pension of 1,000 pesos (then worth \$500) a month in 1919. He received it regularly until 1939, when he ran for president and lost. The pension stopped and no explanation ever was given, but the reason apparently was politics.

**Now You Know**

### Celebration

CAMBRIDGE, Mass. (UPI) — Five tuxedo-clad students gathered early Monday on the roof of the Harvard Crimson Building, solemnly faced east and bowed their heads to strains of Beethoven's Fifth Symphony on a phonograph.

"We're observing the 30 billionth anniversary of the rising sun," one student said before they all departed — leaving behind a pile of empty beer cans.

### Wall Street In Review

NEW YORK (UPI) — This is not a "dangerous" market and any retracement here should be decidedly limited in extent, says L. O. Hooper of W. E. Hutton & Co.

A violent rise, however, is equally improbable. Unlike the markets we have had most of the time in recent years, this one is "not exciting," he says. Barring unexpected and unforeseen developments, the averages are likely to be in a fairly narrow range for a while. Hooper suggests giving more thought to individual issues, and less to market trends.

Prices again have penetrated the upper reaches of common sense but that does not mean that a steep decline lies before us, says the Fraser-Neill Market Letter. There is nothing in the action of the market, or in the actions of the crowd, that indicates an oncoming storm in Wall Street. "Somebody," the letter says, "seems ready and willing to buy stocks persistently."

Thompson McKinnon notes that besides the rails, there is a positive profit trend for the autos, oils and most other industries except chemicals and steels. Chemicals are poised on the brink but so far are just holding their own. Steels are coming back but slower than they might be. A solid uptrend in steel would spark an even larger recovery in chemicals.

### Pampan Fined

Leslie Burton Miller of Pampa pleaded guilty this morning in county court to the charge of driving while his license was suspended.

He was fined \$25 and costs of court by Judge Bill Craig.

### Slippery

NEW YORK (UPI) — If your car gets into deep snow this winter get the wheels to grip the ground again. Let some air out of the rear tires. Or wedge branches, cardboard or an old blanket under the wheels and begin "rocking" the car.

Repeat this until the car begins to rock to-and-fro, advises the Goodyear Women's Service Bureau.

### Mainly - - About People - -

### Beef Short Course Set In Wheeler

WHEELER (Spl) — A Beef Cattle Short Course is scheduled in the District Courtroom here at 7:30 p.m. Friday.

The course is the first project to be sponsored this year by the Livestock and Range subcommittee of the County Program Building Committee, according to Charles D. Jackson, Wheeler County agricultural agent. Clarence Zyback of Briscoe is chairman of the subcommittee.

Speakers at the Friday night short course will be Dr. C. M. Patterson, extension veterinarian, and L. A. Maddox, extension animal husbandman.

Dr. Patterson will discuss animal health in general and Maddox will present a program dealing with animal husbandry practices with stress on livestock feeding. County Agent Jackson said the course will be open to all livestock producers.

### Hung Jury

The Petit Jury selected yesterday for 31st District Court to hear the case, Wilburn Stevens vs. Billy Addison, was dismissed at 11:50 p.m. last night by Judge Lewis M. Goodrich after they failed to reach a verdict.

The famous Homestake mine is located at Lead City, S. D., and produces gold.

### Kiwanis Meets

The Top of Texas Kiwanis club met Monday at 7 p.m. in the Cibola Room at the Coronado Inn with members from the Borger Tri City Club as guests.

The guest speaker of the evening was James Waldrop talking on upholding our constitution as it reads. He illustrated with quotations from Washington and Lincoln.

He was introduced by Paul Musgrove, club president.

Guests from the Downtown Kiwanis Club attending were Ray Kay, Ken Parker, Dr. Weldon Adair, Bill Fannan, Jack Skelly and Aubrey Jones. Tony Clark was a guest of Paul Musgrove.

### Pampa Boys Said Missing

Pampa police today were asked to aid in a search for two 16-year old boys who have been missing since late Sunday afternoon.

Parents of the two youths told police they left at 5 p.m. Sunday stating they were going to a movie seen in a supermarket yesterday afternoon but did not return to their homes last night.

Officers said they were reported

### Sheriff Seeks Fire Suspects

WHEELER (Spl) — The sheriff's department here still was checking late this forenoon in an effort to trace an automobile carrying four men suspected of setting a grass fire north of Kelton yesterday afternoon.

The fire burned approximately a half section of grazing land on the Gordon Stiles Ranch.

Sheriff Dorman of Wheeler County said he had been informed the four men were riding in a two-tone station wagon with Gray County license plates.

Dorman said a motorist told him he had observed the four men standing around a fire they had started in the grass about 11 miles east of Wheeler on Hwy. 152.

Road blocks were set up in all directions but Sheriff Dorman said the men apparently fled and got away over back roads.

seen in a supermarket yesterday afternoon but did not return to their homes last night.

### Vandalism Told

Mrs. Roy Reeves, 1001 E. Kingsmill, told police yesterday that boys going home from school started a fire in the grass around a trash barrel at the rear of her yard.

Mrs. Reeves said the fire ignited a redwood fence. The blaze was put out by members of the family. J. D. Boland, 304 Hazel, reported that someone shot a hole in a picture window of a rent house he owns at 1105 E. Kingsmill. Boland said the house is vacant.

Another case of vandalism was reported by Marion Summers of the Service Liquor Store No. 2 who said someone shot 20 holes through the window and door on the west side of the store last night.

### Grass Fires

The Pampa Fire Department was called out to extinguish three minor grass fires yesterday afternoon. They were at 320 E. Tyng St.; 1915 Christine; and the Pampa Drive-In on the Lefors Highway. No damage was reported.

### Mays Rites Wednesday

Rites for Tina Marie Mays, three year-old daughter of Mr. and Mrs. Lloyd Franklin Mays, 909 E. Denver, will be held at 2 p.m. Wednesday in the Fellowship Baptist Church with the Rev. Earl Maddox, pastor, officiating.

The youngster, born March 14, 1950 in Pampa, died at 9:50 a.m. Monday in Highland General Hospital. She had been ill since last November.

She is survived by her parents; by grandparents, Mr. and Mrs. Leo Davis, Mr. and Mrs. W. W. Mays, all of Pampa; a great-grandmother, Mrs. Dottie Upton of Pampa and great-grandparents, Mr. and Mrs. J. C. Fitch of Moberly.

Interment will be in Fairview Cemetery under the direction of Duenkel - Carmichael Funeral Home.

Pallbearers will be Gene Davidson, Jay Parks, Clint Holt Jr. and Wesley Totty.

### Municipal Court Docket

Robert N. Hamblin, Amarillo, two charges of disobeying traffic signal, guilty, fined \$10.

Raymond W. Parks, 105 N. Nelson, improper passing, guilty, fined \$10.

Charles E. Lane, Rt. 2 Pampa, speeding 45 mph in 30 mph zone, guilty, fined \$10.

Billy R. Wright, 225 Henry, disobeying stop sign, guilty, fined \$5.

Charles Edney, 724 Malone, disturbing peace, guilty, fined \$50.

### Theft Reported

Theft of \$267.25 worth of paint, paint thinner, brushes and lumber from Long's Hotel, 609 W. Foster, was reported to police by Ted G. Houston of the Houston Lumber Co.

Houston said the material had been delivered to the hotel and had not been seen since a fire there on Feb. 2.

### Kennedy

(Continued From Page 1) over his failure to generate public enthusiasm for tax cuts and felt he should try to whip up support by holding out the possibility that the reforms — distasteful to groups affected — would be jettisoned in the final bill.

At any rate, Kennedy's question-and-answer session before a group of bankers asserted that Congress might jettison all of the tax reforms. He said he would certainly support such a move if it were necessary to get tax reduction enacted this year. "Nothing should stand" in the way of a tax cut this year, Kennedy said. "The first priority is a bill."

### Low Down Approach

MADISON, Wis. (UPI) — A new insecticide can be mixed with cement to poison termites crawling over the concrete, report entomologists at the University of Wisconsin.

Termites absorb the poison through their feet.

**LIVING ROOM ON WHEELS**—"Auto Familia," the family car of the not-too-distant future as conceived by industrial designer Brooks Stevens, is shown in cutaway drawings above. The car would be truly a living room on wheels—air conditioned, with television for back-seat riders, pull-out tables, vanity table, clothes storage compartments and sleeping couches, among other things. As envisioned by Stevens, the car would be 165 inches long and powered by fuel cells in each of its wheels, thus saving space and eliminating the dashboard with its engine gauges. The car would even be able to float on water; "paddle wheels" in the wheel covers would provide the propulsion.

### Wall Street Chatter

NEW YORK (UPI)—The overall market pattern continues to point upward but on a highly selective basis, says Kenneth Ward of Hayden, Stone & Co.

While some further hesitation between 680 and 690 on the Dow-Jones industrials and misleading price corrections by individual stocks may occur, there are still no signs of an important over-bought condition that would substantiate any change in the current uptrend, he finds.

Martin Gilbert of Van Alstyne, Noel & Co. says it appears that the industrial division of the market is merely in an interim period of hesitation. He does not look for any wide open break, and thinks the market's refusal to back down on volume suggests there is excellent investment absorption in the price structure.

## Storage Room Hides In Present Closets

Newspaper Enterprise Assn. It has been said that no home has enough closet space. Even some homes with loads of closets seem to lack room to store everything the family accumulates. Often it isn't lack of space, but inefficient arrangement that causes difficulties. Examine your own closets for waste space. Do you make use of doors? Is there space above a shelf for another shelf? What about the space below shirts and skirts that hang on rods?

Are there items in your closets that could be stored elsewhere? Does the main closet contain both summer and winter clothes regardless of the season? Obvious First Do the obvious things first. Store unseasonal items in seldom-used closets, or purchase dust-proof garment bags that can be hung in an out-of-the-way corner of the basement or attic.

Room can be made for hanging extra items by installing coat hooks on closet walls or on backs of doors. Between the door and the clothes there's waste space, sometimes as much as six inches. Why not install shelves with raised edges so that items don't fall off? Rearrange hanging clothes. Overcoats and dresses may require the full depth from rod to floor. On the other hand, jackets and skirts may not. With all of the small items together you may find there's room below for another rod. Incidentally, a low clothes rod is ideal in a child's closet.

In youngsters' closets, use space below short items for a toy chest. Build yourself a giant rollout toy bin—large box on casters—that fits below clothes and is flush with the front of the closet. Remodeling Method To get the most from your closets, you can resort to complete remodeling if you have the skill. This involves removing the door and enlarging the opening by removing the rest of the wall across the front of the closet. Doing this exposes those corners you never can get into. With the opening the full width of the closet, you can install double doors, backing each of them with extra shelves. New molding

will frame the opening and hide the scars. Partition this space and install 3/4-inch drawer rails on the sides. This will permit you to slide in shelves or drawers wherever hanging clothes don't fill the space.

Study Armadillo NEW YORK (UPI)—One study of birth and pregnancy involves a closer look at the nine-banded armadillo, technically known as *Dasypus novemcinctus*. This native beast of Texas and of certain South American countries is being studied by Dr. Jurt Benirschke, professor of pathology at Dartmouth Medical College. The study is supported by a National Foundation grant.

Cokesbury's, in Dallas, Texas, is the biggest book store in the nation. Read the News Classified Ads

## National Guard Assignments Told

AUSTIN (UPI)—Maj. Gen. Selden Simpson today listed new assignments in the 36th Texas National Guard division under the reorganization plans for the army National Guard. The reorganization plan is scheduled to go into effect March 1.

Simpson also announced commanders of three brigades of the T-patch division. Col. Armin F. Puck heads the San Antonio-based 1st Brigade, Col. Roland M. Lawrence heads the 2nd Brigade at Amarillo and Col. Wiley W. Stem the 3rd at Waco.

Commanders of seven newly created battalions within the division, formed from the five battle groups, include Lt. Col. James W. Seinalrir, 1st Battalion, 141st Infantry, San Antonio; Lt. Col. Edward M. Yturri, 2nd Battalion, 141st Infantry, Corpus Christi; Col. James L. Moreland, 1st Battalion, 142nd Infantry, Brownwood.

Also, Maj. Boyce B. Phillips, 2nd Battalion, 142nd Infantry, of Amarillo; Lt. Col. Thomas E. Berry, 2nd Battalion, 143rd Infantry, Houston; and Maj. Loyd B. Slimp Jr., 3rd Battalion, 143rd Infantry, Waco. Lt. Col. M. E. Ethredge Jr., of Huntsville commands the new armor battalion located in Houston.

Under the new alignment the division will have two assistant commanders with the rank of brigadier general. Brig. Gen. Ralph M. Krieger, Abilene, former No. 2 man in the T-patch outfit, and Brig. Gen. Max H. Specht, New Braunfels, formerly commander of division artillery, share the assistant division leadership under the ROAD plan.

The command structure of division artillery remains virtually untouched with the exception of the commanding officer. Col. Ross Ayers, Friona, assumes the top role for the artillerymen in an advancement from the segment's executive officer's position. His headquarters continues at San Antonio. Division artillery was formerly commanded by a one-star general.

Artillery commanders include: Maj. Thomas A. Harris, Big Spring, 2nd Howitzer Battalion, 133rd Artillery, headquartered at Lubbock; Lt. Col. Robert E. Allen Jr., Lubbock, 4th Howitzer Battalion, 133rd Artillery, Gonzalez; Lt. Col. Cyril W. Heitkamp, New Braunfels, 5th Howitzer Battalion, 133rd Artillery, New Braunfels; Lt. Col. Albert C. O'Leary, El Paso, 3rd Missile Battalion, 133rd Artillery, Fort Bliss and Maj. Landon H. Hill, Abilene, 1st Howitzer Battalion, 131st Artillery, located in El Paso.

Maj. Jess T. Garrett assumes command of the 2nd Medium Tank Battalion, 124th Armor, El Campo. This is the fourth major change in the 36th Division since its organization in 1917. At that time it was composed of four infantry regiments as a maneuver base. In 1941 it was "triangularized" into a three-regiment concept and in 1959 it was restyled under the five battle-group system, which is being scrapped in favor of control of combat battalions by three brigades that are strategically located within the state.

Under the new concept, units of the 36th Division in Corsicana, Kerens, Athens, Mexia, Temple, Wellington and Shamrock go to the 49th (Lone Star) Armored Division, which is headquartered in Dallas. The T-patch outfit will pick up the 49th Division unit which is currently in Huntsville.

HONOR THY COOKS GROTON, Conn. (UPI)—The William Seely Parent-Teachers Association holds an "honor thy cooks" program tonight for the three lunch chefs. The chefs will be awarded tickets for a free dinner at a local restaurant.

Earthquakes are natural disasters which have plagued man since primitive times and which he cannot control. The world was recently stunned by the great horrors wrought by the earthquakes in Iraq. Although man cannot subdue earthquakes, he has learned to make the earth tremble with nuclear bombs. The word coined to describe these man-made tremors is "earthshake."

## The Almanac

By United Pre's International

Today is Tuesday, Feb. 26, the 57th day of 1963 with 308 to follow. The moon is approaching its first quarter.

The morning stars are Venus and Mars.

The evening star is Mars.

On this day in history:

In 1846, "Buffalo Bill" Cody, a man, who personified the romance of the frontier West, was born in Scott County, Iowa.

In 1870, New York's first subway line was opened to the public.

In 1919, Congress established Grand Canyon National Park in Arizona.

In 1935, Germany started the operation of its air force which was to become the dread "Luftwaffe" of World War II.

A thought for the day—Russian author Dostoyevsky said: "Tyranny is a habit capable of being developed, and at last becomes a disease... the man and the citizen disappear forever in the tyrant."

### Tri Delt Alumnae With Mrs. Marx

The Pampa Alumnae Chapter of Delta Delta Delta Sorority met Thursday evening in the home of Mrs. Myron Marx Jr., 2106 Mary Ellen.

Mrs. George B. Cree Jr., president, presided during the business meeting as plans were made for the chapter to attend the State Day Convention to be held April 20 in Lubbock.

Plans were discussed for a tea to be given March 3 in the Citizens' Hospitality Room for the purpose of forming a Panhellenic organization in Pampa. All members of national collegiate sororities will be eligible for membership.

Attending the Thursday evening meeting were Meses. John Bird, Ed Knox, Richard Seawright, E. L. Henderson, Robert Neely, and Warren Fatheree.

### SOCIAL CALENDAR

#### TUESDAY

1:30 — Top o' Texas Garden Club with Mrs. O. M. Prigmore, 1308 Charles.

2:30 — Varietas Study Club with Mrs. Sherman White, 610 N. Frost.

2:30 — Twentieth Century Forum Club with Mrs. H. C. Federer Jr., 2211 Aspen.

2:30 — Twentieth Century Culture Club with Mrs. Rufe Jordan, Court House.

2:30 — Twentieth Century Club with Mrs. R. W. Stowers, 2015 Charles.

2:30 — Civic Culture Club with Mrs. Stanley Brandt, 429 N. Wells.

2:30 — El Progresso Club

7:30 — Business and Professional Women's Club, World Affairs Banquet, Fellowship Hall First Methodist Church.

8:30 — Rho Eta Chapter, Beta Sigma Phi Sorority, Citizens' Hospitality Room.

8:00 — Women of the Moose, Moose Hall, 401 E. Brown.

#### THURSDAY

10:00 — Thursday Morning Duplicate Club, Coronado Inn.

11:00 — The Newcomers' Club, Coronado Inn.

Now Many Wear FALSE TEETH

With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firmer and more comfortably. This pleasant powder has no gummy, goopy, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get FASTEETH at drug counters everywhere.

**BETTER BATTER** — Mrs. Caroline King, who will impersonate "Aunt Jemima" at St. Matthew's Episcopal Church Shrove Tuesday Pancake Supper tonight, is pictured at what will be a busy spot in the kitchen... beside the pancake mixer. A Modri Gras setting is planned for the colorful event with serving to begin at 5 p.m. and continue until 7:30 p.m. The public is invited to attend. (Daily News Photo)

### Piano Pupils Place High in Festival

Out of eight entries in solo-playing and sight-reading in the Piano Festival at West Texas State College in Canyon Saturday, piano students of Mrs. Fidelia Yoder earned six first ratings and two seconds.

In Class I, Joyce Prock, Wise received a first rating in both solo and sight reading. Her selection was Gershwin's First Prelude.

In Class II, Terrie Watson also received a first rating in both solo playing and in sight reading. She played the first movement of Beethoven Sonata in G. Also in Class II, Katrina Spencer received a first rating for her performance of

Nocturne by Nevin.

In Class III which is open only to Junior High school students, Sylvia Graham earned a first rating for her solo performance of the Valse in E-Flat by Durand, and a second rating in sight reading. In this class also Joyce Fischer received a second rating for her solo which was the first movement of the Beethoven Sonata in F.

Students, who receive a first rating in both solo playing and sight reading, will also receive a special sweepstakes medal. Two of these students are eligible for this award.

## 'Worth Of Individual' Topic For Mann PTA

Horace Mann Band, directed by Charles Meech, presented a program for the Feb. 14 meeting of the Horace Mann PTA in the school auditorium. The band presented a group of selections, which included "Embassy March," "Our Waltz," "Dotted Polka," "Evening Waltz" and "Graduation Overture." Ranell Kempa and Carolyn Stimson played a piano duet, "Stout Hearted Men."

Mr. Meech introduced Fred Stockdale, director of the Pampa High School band, who was a special guest.

Sam Begert, school principal, introduced Rodney Williams, associate pastor of the First Methodist Church, who discussed "Dignity And Worth of the Individual."

Rev. Williams listed three points which "we can do to make the world a better place in which to live."

"The individual is of supreme value. It doesn't matter who people are, what they do, or what they earn, the individual is important." He stressed that the importance of people was the chief teaching of Jesus.

The second point stressed, "we must have strong moral convictions of right and wrong." Even though we are confronted with grave outside dangers, the real danger to America is coming from moral laxity from within our country. This laxity is what must concern us all. Religion cannot be separated from daily living.

To conclude, Rev. Williams discussed "God-given Ideals. Individuals, home, PTA, community and country will all crumble unless people have ideals and work for them. Striving for ideals is the only way we keep progressing."

During the business meeting, Mrs. James Reeves, president, announced that Public School Week begins March 4 and that Fathers' Night will be held March 7.

"The program for Fathers' Night will include a school play and a social hour," she announced. Sam Begert, chairman, Mrs. Howard Holt and Mrs. Edwin Southard were elected by acclamation to a nominating committee to

select a slate of officers for next year.

Miss Mary Reeves' second grade room won the PTA membership drive contest.

Mrs. John Hatcher, second grade teacher, reported on the PTA project which is buying a new piano for the school. Mrs. Hatcher stated that the committee decided to hold

the project over for another year so that a more desirable and serviceable instrument could be purchased.

Mrs. Sam Groom's room won first by having the most parents present; Mrs. Fay Dellis Adams' room won second with Mrs. A. E. Berry and Mrs. Elmer Stimson's rooms tying for third.

Mrs. W. H. Copenhaver won the door prize: a cake baked by Mrs. Francis Webb. The executive board met at 1:15 p.m. preceding the regular meeting.

Dear Abby  
By Abigail Van Buren

DEAR ABBY: My mother-in-law carries my father-in-law's juice while he is shaving, and then drives his car out of the garage and warms it up for him. I have tried to get my wife to adopt these tender, loving gestures, but she won't do it. How can I get her to take a lesson from her mother?

**LATE RISER**  
DEAR LATE: You can't "get" your wife to perform "tender, loving gestures" by demanding them. Find out what your father-in-law does to inspire such thoughtfulness, and take a lesson from HIM.

DEAR ABBY: Since I got pregnant four months ago, every little thing upsets me. The house looks a wreck. I never get caught up on my washing and ironing and the kitchen sink is always full of dirty dishes. I can't control the older children. I scream at them until I'm hoarse and whip them until I'm exhausted. I'm so glad when they're at school. I cry a lot when I'm alone and think I must be "crazy." I have prayed for help but none comes. I could never tell this to my doctor. Everyone thinks I'm so calm. This baby will be number ten.

**"CRAZY PERSON"**  
DEAR MOTHER: A "crazy person" does not usually know that she has a problem, nor does she seek help as you have done in writing to me. If you can't talk to your doctor, see your clergyman right away. He will understand and help you, but you must do as he says.

DEAR ABBY: I have noticed on several occasions the question in your column about how much control parents have over their children's mail. Unless Postal Regulations have changed since I retired two years ago, parents have complete control over the mail of their children until the children reach the age of 21 — if they are living at home. Children under 21, living with their parents, are denied the right to rent post office boxes or to receive mail at the General Delivery window. S. M. Mc (Retired Postmaster, Clarksburg, W. Va.)

# Pampa At Haltom City

## Harvesters Favored In Bi-District

HALTOM CITY (SpI)—An over-crowd of more than 1,000 is expected to pack the tiny Haltom City Gym tonight to see the highly-rated Pampa Harvesters meet the HC Buffaloes in bi-district play.

The Harvesters have sharpened their scythes and plan to become grim reapers tonight as they try to cut down the first obstacle in their path to a revenge win over Dallas Jeff and also the Class 4-A state championship.

On the record, the experts have picked Pampa and San Angelo as the teams to meet in the second round of regional play this weekend, but anything can happen in basketball and frequently does, and the underdog hosts would like to take the upset of the year.

"I don't see how we can beat Pampa," said coach Ronnie Stephenson, "they've got experience on us and have beaten a lot of good teams in that 27-1 record, teams that have beaten us. But we've got to try."

The Buffs have lost to Arlington Heights twice, and Pampa has defeated the Yellow Jackets twice. Haltom also played a practice game with Dallas TJ, the lone blot on Pampa's record, and lost a closely-fought tilt.

Stephenson moved up from the junior high ranks into the head coaching job at Buffland when coach Moé Dowland retired last year. Although the Buffs had finished second in district in '62, losing the title in the final game of the year against Wichita Falls, four starters graduated.

Left with one starter and two lettermen, Stephenson had to do a complete rebuilding job, with three seniors, three juniors and two sophomores. Haltom's big break was height, as all seven are over the six-foot mark, with three of them over 6-3. Although they do not have anyone as tall as the "Pampa Monster," 6-6½ Randy Matson; 6-4½ soph Barry Williams, 6-3½ junior Larry Lake and 6-3 Billy Arnold head a starting lineup which averages better than 6-2½.

In order to get some experience, poise and fight out of his green squad, Stephenson scheduled the toughest teams they could find, and they lost six of their first 15 games to such powers as Kimball, Dallas Jesuit, Graham twice, Fort Worth Tech, and two of three to Arlington Heights.

However, the long spell of misery had hardened a bunch of green gangling youngsters into a poised, veteran ball club when District 4-AAAA play rolled around and the Buffs won 10 straight loop contests.

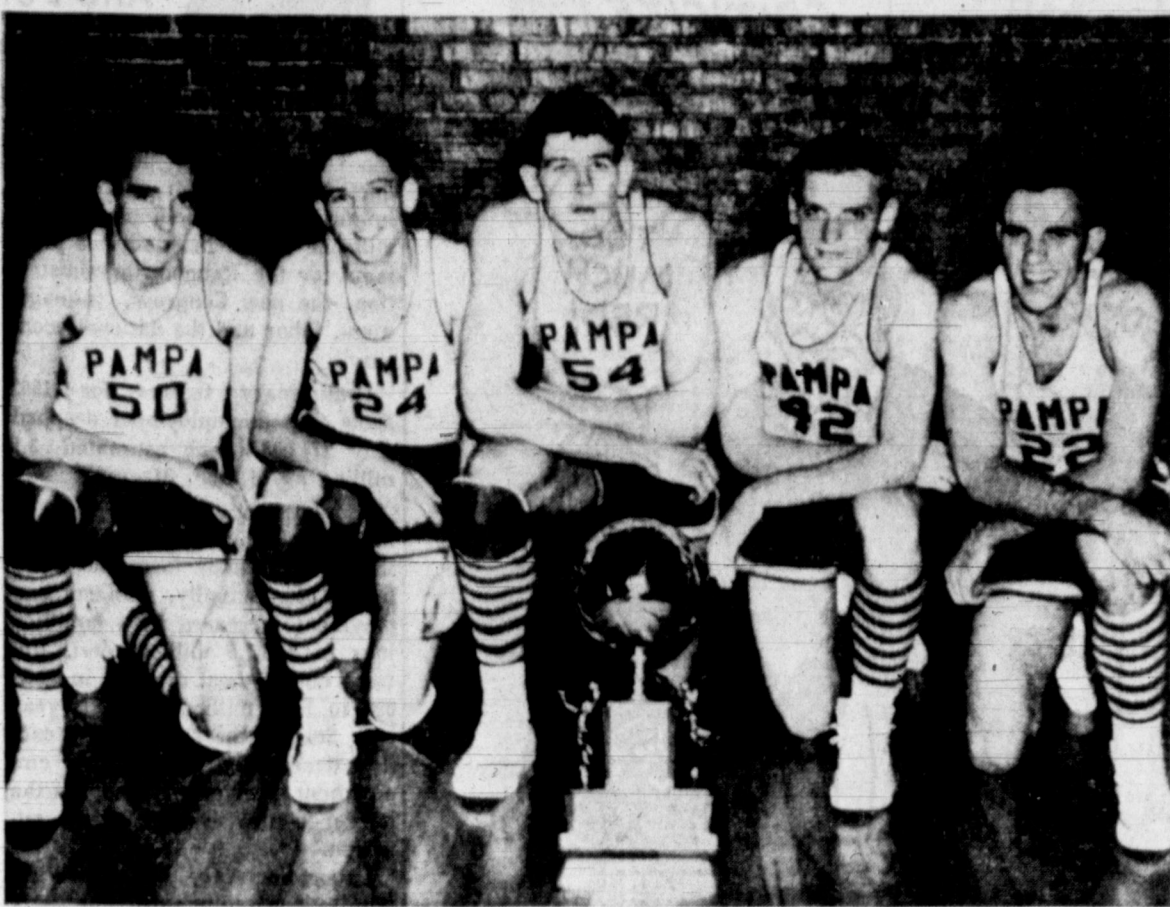

With a plentitude of height, the scoring and rebounding is pretty evenly divided, with Williams averaging 12 points and 15 rebounds a game, Lake who was named to the Jacksboro All-Tourney team, averaging 12 and 12 and Lanier, the only returning starter, is averaging 11 points and nine rebounds a game.

Top gun on the Buffalo range is 6-1 backcourt man Billy Arnold. Arnold reportedly can hit from anywhere, anyplace, with any kind of shot. He was the district's second-leading scorer with a 19-point average and made both the Jacksboro and Garland All-Tourney teams.

Six-foot letterman Robby McBride is generally the other starting guard, but Stephenson also alternates 6-1 Sandy Peterson and six-foot junior Eddie Driggers in the backcourt, and if the Buffs get into foul trouble, always has two more tall men to run into the tilt.

**Cokes Want Shot At Championship**  
WICHITA FALLS (UPI) — Curtis Cokes, No. 2 welterweight, flattened another opponent Monday night and immediately began thumping for a shot at the championship.

The Dallas dandy knocked out Joey Parks of Omaha, Neb., in the 5th round of a scheduled 10-round bout.

**BIG FIVE** — Carrying the resurgent championship hopes of Pampa with them tonight, the Harvester starting cage quintet hope to add a state trophy to the Top O' Texas trophy they are shown with here. From left: Gary Sikes, Keith Swanson, Randy Matson, Gordon Balch and Wayne Kries. (Daily News Photo)

# Stratford Favored In McLean Tilt

Coach Derrel Davis figures that his District 2 A champs should rank as underdogs to the taller, more-experienced and well-rounded 1-A champion Stratford Elks at Sam Houston Junior High Fieldhouse in Borger tonight.

"On paper, they rank as bi-district favorites over us," said Davis, "they have a more well-balanced and well-rounded team, an experienced team, and three boys in the class of our big man, Derrih Welch."

The Tigers ran up a 20-10 record in 1960-61, Davis' first year at the helm, then made it 20-5 the following year, with four of the losses, including the bi-district playoff, to eventual state champions White Deer, two of the defeats by one-point margins.

This year, the Tigers ran up a 15-11 record and literally backed into the district crown. The season finished with Memphis closing with an 8-2 record to the Tigers' 7-3, but Memphis school officials discovered that Jackie Bridges, one of their star players, had been ineligible; and voluntarily forfeited all district wins, making the Tigers 8-2 and loop champions.

Davis has had to do a complete face-lifting job this year, rebuilding over three starters, two of them now playing college ball, had graduated. Clyde Windom, 6-3, is now at Texas Tech and 6-3 Jim Watson is at A&M.

The current team has been built completely around one man, 6-6½ Derrih Welch. Welch was outstanding as a sophomore, averaging 13.2 as he played the corner with Windom and Watson working underneath.

However, with only two players over six feet otherwise, a sophomore and a freshman, the Tigers were forced to build around the shooting and rebounding of the towering Tiger.

Welch Stars  
Welch, although double and triple-teamed, has come through the season with a 27 point average and 11 rebounds a game. The only games in which Welch has been outbatted for the boards were at Memphis, where he was double teamed by a 6-5 and two 6-4 boys, and at Miami, where he was surrounded by a 6-4, 6-3 and 6-2 sagging defense. Despite the harassment, Welch scored 29 and 15 respectively as McLean split two games with Memphis, and poured 21 points through the hoop at Miami. Second-team all district as a soph, Derrih is a cinch to make the first team unanimously this year.

Giving him some inside rebounding and shooting help is 6-1 Eddie Windom. "A sophomore who has come along much faster than we had hoped," said Davis. "Eddie" (See STRATFORD, Page 12)

**Sonny Sore**  
MIAMI BEACH (UPI) — Sonny Liston, a ring giant hobbled by a few swings with a golf club, plans to try his sore knee out and Wednesday to determine whether he must put off his world championship rematch with Floyd Patterson.

"If the knee feels good Tuesday or Wednesday, then they probably won't ask for a postponement."

The Pampa Daily News

55TH YEAR TUESDAY, FEBRUARY 26, 1963

## Miami Warriors Wallop Bi-District Foe, 57-38

CANADIAN (SpI) — The Miami Warriors, whose war dance is usually done to the speed of a funeral march, had their tom-toms beating a bongo beat last night as they sped to a 57-38 bi-district victory over Higgins here.

The overflow crowd was on its feet all the way as the Warriors abandoned their general slow, control brand ball and fast-broke time and again, led by little Lewis Holland, who led Mark Arrington for 20 points, and Jody Holland for 16 scores.

**Guerrero Shines**  
Defense again was the big picture for the Braves, with sophomore Ramon Guerrero a standout as he clung to Higgins ace Bill Trospser like a barnacle to a pier. On the few occasions that the 6-4 Trospser was able to make

never past the lanky soph, there was Arrington or Jody waiting in front of the bucket.

Trospser was held to only 12 points, mostly on free throws, until Guerrero picked up his fourth foul midway in the third period and bowed out, with Jerry Dodson and Arrington continuing the persecution of Trospser, a fine shot with little offensive support who scored 21 of the Coyotes' 38 points.

Jim Flowers, off his usual sharpshooting form, was even more valuable as a decoy, going high into the air as if to shoot and drawing the defense toward him, whereupon he would pass in midair to Jody, alone under the bucket, or Arrington inside the free throw circle.

**Wide Open**  
The Warriors then blew the game wide open in the third quarter. With Arrington scoring from the side of the circle, Jody from underneath and Lewis continuing his thievery, Miami moved the lead to 41-26 and coach Mark Overcast started clearing the bench as regulars began fouling out in the fourth quarter for both sides.

High point of the final frame was the sight of burly Mickey Kivlehen trying to emulate Lewis and Flowers as he too stole the ball and barreled down the court on a fast break. The 190-pounder missed the coup de grace, however, but Arrington sunk the rebound and it was 57-38.

Miami will play its first regional game at 3 p.m. Friday in Canyon. Coach Lawrence Overcast said he expected to find out who his bi-district opponent was sometime today.

MIAMI: Arrington 8 4-7 20; Flowers 4 1-2 9; J. Holland 8 0-2 16; Dodson 0 4-6 4; Daugherty 1 0-0 2; L. Holland 3 0-1 6. Totals: 24 9-18 57. HIGGINS: Trospser 7 7-12 21; Barton 1 2-6 4; Smith 1 4-6 6; Hawkins 1 1-2 3; Laublan 2 0-0 4.

**IT'S MINE!** — Jody Holland of Miami comes down with a rebound under the outstretched arms of Higgin's 6-4 ace Bill Prosper. The 6-2 Holland was a demon on the boards and hit eight of 10 field goal attempts as the Warriors won the bi-district game. (Daily News-Photo)

**BULLDOGS BITE** — The McLean High Bulldogs aim to chew on a hunk of Elk steak tonight as they meet in a bi-district battle with 1-A champs Stratford in Borger. ## San Angelo Defeats EP Austin, Will Meet Pampa-Haltom Winner

By United Press International  
San Angelo and Denton in Class AAAA and Kilgore in Class AAA have won their way past the bi-district level of Texas schoolboy basketball championship play.

San Angelo defeated El Paso Austin 44-35 to win a regional berth against the winner of tonight's Pampa-Haltom City game, while Denton defeated Texarkana 70-43 to earn a shot at the winner of tonight's game sending defending AAAA state champ Dallas Jefferson against Fort Worth Arlington Heights.

Kilgore stopped Corsicana 46-43 and will meet the winner of tonight's Paris-Hurst Bell game. All other bi-district games in the state's two top divisions are scheduled tonight with the exception of the Region I area of AAA where a regional tournament at Lubbock will send defending state champ Dumas against Graham and Seminole against Lamesa Friday-night with the winners playing Saturday afternoon.

Other AAAA games on tap tonight include Spring Branch-Houston Bellaire, Beaumont-French - Pasadena, Victoria-Austin McCallum and San Antonio Jefferson-San Antonio Lee.

In AAA, it will be Bridge City-Brenham, El Camp-Clear Creek, Austin Johnston-San Marcos and South San Antonio-Westlaco.

**Brand-New V-8!**

**Announcing New Rambler Classic V-8**  
with superior performance and high economy

"Car of the Year" now offers 198 HP V-8 running mate to famed Classic 6.

Try this for a surprise package. A brand-new V-8. Economy in the Rambler tradition. Responsive performance. Price? \$76 to \$195 less than comparable Sixes of the two best sellers.

Through years of research, American Motors was convinced that a high-economy V-8 could be perfected. Today the Classic V-8 is tested, proved and ready for you, at your Rambler dealer. You get balanced performance plus high economy—the Best of Both. And many other "bests" you never heard of before in any car priced so low!

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

Diminishing Returns

"Tax Reform" is in the air. Nowadays, you hear a great many unlikely people talking about it.

Among politicians there are three basic rules which any man who has spent more than a single term near the big Capitol dome in Washington knows by rote:

- 1. Never discuss religion.
2. Never say anything that might reflect unfavorably on motherhood.
3. Never cut taxes.

While the first two rules still appear to stand in their sanctified place, the third item is being violated by what is being promised. But let's take a good look at what is in store for us if the President's message—both parts of it—is taken seriously by the lawmakers and transformed into legal edicts.

First, there's going to be a whopping "tax cut" which will "save" taxpayers something close to \$13 billion. One can almost hear the sigh of relief that rises from the weary and groaning populace. Just think what that means! Thirteen billion plus in dollars left in your purse and billfold which you wouldn't otherwise have had. You can get the house painted or get a new car.

But wait. Government spending is going to be increased to spur the economy. Already in 1963, the new government spending is going into effect. And there are new taxes this year which will account for some of that increased spending. We are all paying a larger postal bill. And we are all paying a larger chunk of our earnings via the old Social Security route.

The "tax cut" isn't going to take effect until 1964, if then. By then, Mr. Kennedy and his cohorts will have had the opportunity of collecting dollars from you in the largest budget, peace or war, ever approved in the history of the nation.

But, lets just suppose that the "tax cut" called for is enacted and the \$13 billion is retained by the taxpayers. Already the fiscal experts are showing that this will mean a federal deficit next year of about \$15 billion.

What does that mean to all of us? When the federal government decides to spend more money than it can collect, what does it do? It borrows. It goes to its controlled banking industry and to private investors and sells them \$15 billion more in bonds than it collects in taxes.

Our bonds are a form of money. The government has created this money because of its mon-

opoly position as the manufacturer of our various media of exchange. The long and the short of it is that new money will be created which will be pushed into the economic stream, which money we cannot distinguish from the money we are presently using.

This process is called inflation. A family that finds it has to pay \$200 less in federal taxes also will find that what it pays for things it buys will go up in price. Unless the family cuts back on its living scale and buys fewer things, it will discover at the end of the year that the federal "tax cut" has made conditions worse and not better.

But this is only a part of the story. The bonds the government will have issued have to be repaid. Also, they carry an interest charge which has to be paid. Where will the money come from to be channeled into government so that the bonds and interest can be managed?

These sums will have to be taken from the taxpayers as before. And again, if the taxpayers are "benefited" by further "tax cuts," further borrowing must result.

In other words, inflation, which occurs when the government lives beyond its income, is a tax.

Thus, the "tax cut" is a device which will not cut taxes, but will increase them. And this is the major danger which now looms.

The government already has taxed business, industry and private persons more than they can endure. It must retreat and cut its expenditures. But it is not going to do this. Therefore, the new "tax cut" which will result in more taxes later cannot come out of income of business and industry and private sources, as the government already knows. Therefore, the next route open to government will be a tax against capital investment.

Assuming our reasoning is correct, then we have entered or are entering the national period of diminishing returns. As capital is depleted, fewer earnings are possible. With diminished incomes, lower taxes must ensue.

With lower taxes, larger deficits and more inflation are in store. The only possible route to retain national solvency will be for an immediate and stringent curtailment of federal spending. And this procedure has now taken the place of item three on our list at the beginning. Politicians now appear to believe that political spending must never be reduced.

Another Long Session

Administration hopes for an early tax cut, plus the hopes of Congressmen for a vacation this summer, are rapidly darkening as the tax-writing committees of the House and Senate set up their schedules for the year.

The situation is reminiscent of 1962, when the same two committees — House Ways and Means and Senate Finance — were so busy with the Trade Expansion Act and a less sweeping tax revision bill that they had little time for other measures.

A similar logjam faces these two committees in 1963. Their chief task for the year is to consider President Kennedy's proposal for a \$13.6 billion tax cut accompanied by broad - gauged reforms of the tax structure.

Ways and Means Committee Chairman Wilbur D. Mills (D-Ark.) has indicated the House could not complete consideration of the tax bill until June at the earliest. Hearings began early this month and will continue until the end of March. April and May will be used for executive session to mark up the highly complex revenue measure.

After the tax bill clears the House, it will go to the Senate where a hostile Senate Finance Committee under Sen. Harry Flood Byrd (D-Va.) will also want several months time for hearings and mark-up. In 1962 a lesser revenue

measure was in Senate Finance for over four months. A similar schedule in 1963 could delay action by the Senate itself until October or even November. Byrd says he sees no chance of a bill reaching the Senate floor until after Labor Day.

This could be a major disappointment to the Administration, which is seeking a tax cut by mid-year to stimulate the economy.

Complicating the situation are other key bills which must pass through House Ways and Means and Senate Finance. These include extension of Korean War excise and corporate taxes, an increase in the national debt ceiling which will be mandatory before June, Administration proposals for federal unemployment compensation standards and the Kennedy proposal for medical care to be aged under Social Security.

Congressional observers believe unemployment compensation and "medicare" proposals will necessarily be held over until the election year of 1964 for consideration. Both face uncertain futures. Recent addition of two liberal Democrats to the House Ways and Means Committee has brightened chances for medicare. However, Chairman Mills, co-author of the bill to aid the states in providing medical care for the aged, is still reported opposed to the broader Social Security medicare proposal.

Pull Up A Chair

By Frank J. Markey

The old expression "given a whale of a chance" means more than just a pat phrase to some adventurous souls in California, because it can be taken literally. Whale-back riding on giant Blue whales is the latest and fastest sport for dare-devils who consider surf-board riding, drag racing and motor cycling marathons old - hat stuff.

It all started when a skin diver in the Los Angeles area, spotted a group of surfaced whales, promptly jumped aboard one and did an aquatic edition of "ride 'em cowboy." Other daring skin divers took up this novel sport. A whale will carry up to four persons on its back and with this weight will not submerge more than 100 feet. If you wish additional information, write to Marine Biology Station, San Diego, Calif.

February derives its name from the latin februo, meaning purify. The Roman ceremonies of purification were held at that time of the year. Just being introduced is a bantam portable refrigerator, weighing 15 pounds. Just plug it into your 12-volt car lighter or use anywhere electricity is available. It has a 12-foot cord. Six excess control systems are currently under test on 125 cars by the California Motor Vehicle Pollution Control Board.

Country editor speaking: "People who will start to rave when they begin making out their income tax reports can be divided into two classes — men and women."

California is still second to New York State but the Census Bureau said it will zoom into No. 1 position population-wise around July of this year. But the Golden State has long been a leader as a motorist state. Miles of freeways ribbon the state. They are free in the sense of toll but not accident-free. Many veteran drivers from the streets of Manhattan, Chicago's Loop, Washington, D. C.'s maze, the Midwestern and Eastern systems of elaborate and speedy turnpikes experience sheer fright their first time on the California Freeways with cars, six abreast, all going 65 mph or better. A booming, bustling gay-living place — California — suffering from severe growing pains.

Only brandies produced in a small area in the southwestern part of France may be called cognac, according to French and U. S. law. A unique combination of soil, climate and type of wood-used in the aging process makes it impossible to produce cognac anywhere else in the world.

"Kindness is the golden chain by which society is bound together," is a thought-worthy sentence we picked out of a late newsletter from the American Humane Association. The Chinese Nationalist Government reports that 16 million Chinese live overseas, and that 237,000 of its citizens are in the United States. Legislation will be introduced during the present session of Congress to protect millions of arthritic sufferers from ineffective "cures" and worthless and misrepresented drugs.

DUBLIN OPINION, the national humorous journal of Ireland, now in its 41st year of publication is the center - part of the NEW YORKER magazine. Under its masthead the Dublin publication carries the line, "Humor is the Safety Valve of a Nation" and we might observe OPINION does a splendid job in making its readers laugh.

Today's Smile: A San Francisco law firm is named Walkup & Downing and in Montreal there is a firm that sells Bibles called O'Neil & Pray.—WEEKEND MAGAZINE.

By simply balancing a spoon across the top of a teacup, a guest at a Colonial tea party indicated he or she did not wish another cup. If this was not done, the cup would be refilled and it was considered impolite to refuse to drink the tea once it was poured.

backed by the Kennedy Administration.

A solid majority of the Senate Finance Committee, including Chairman Byrd and Sen. Russell B. Long (D-La.), now second-ranking on the committee, is opposed to the Administration's medicare proposals.

The Senate Finance Committee can be bypassed by offering medicare as an amendment to another bill on the Senate floor, but this strategy does not insure House consideration. Chances are that Administration supporters will instead wait until next year to press for medicare, hoping that they can then win a majority in Ways and Means and thus insure a House vote before the elections.

A Princeton graduate, he is sometimes referred to by White House insiders as the "intellectual of the Kennedy Mafia." Significantly, some of Moscoso's sharpest critics are leading Democratic senators who staunchly support the President's foreign policies.

Just Because You Don't Understand It —

Allen-Scott Report

Alliance for Progress Head on Way Out; Leading Democrats Are Program's Critics

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — Teodoro Moscoso, head of the long-floundering Alliance for Progress, is on the way out.

While that backstage decision has been definitely reached, how soon he will be replaced depends on solving two thorny problems: (1) Finding a top-notch successor; (2), what to do with Moscoso.

The Puerto Rican is a close friend of Governor Luis Munoz Marin, who has strong ties with the Kennedy administration. Marin "loaned" Moscoso to the President after his much-hailed Alliance for Progress got off to a bogged start. Moscoso is earnest and idealistic, but has done little better than his inadequate predecessor.

But to avoid offending Marin, and also because Moscoso is personally liked, the President is treading carefully in easing him out. But that is definitely in the works.

The man the President would like to put in this tough job is Thomas Mann, ambassador to Mexico. An able, widely-experienced career diplomat who was Assistant Secretary of State for Inter-American Affairs in the Eisenhower regime and was continued in that post by Kennedy until sent to Mexico, Mann has the drive and know-how that running the sagging Alliance urgently needs.

But he has let it be known he doesn't want this appointment. Whether Mann can be induced to change his mind, or someone else can be found, remains to be seen.

Meanwhile, in an effort to counter the rising chorus of congressional complaints against the Alliance, the White House is quietly putting out the word that Moscoso is no longer really bossing it. In other words, he is now little more than a figurehead.

SIGNIFICANT CRITICS — That was the import of what Ralph Dungan, 39-year-old Special Assistant to the President, told a group of lawmakers when they protested Alliance mismanagement.

"Don't take your problems to Moscoso," Dungan advised them. "Bring them directly here to us. We will see to it that they are taken care of. Moscoso means well, but things just aren't working out satisfactorily."

Dungan ought to know. Of the inner White House staff, he is among the closest to the President. He plays a key role in filling vacancies, and lately has been increasingly occupied with foreign affairs. To their private astonishment, he lectured a group of ambassadors on "the requirements of new diplomacy." Dungan did not explain his qualifications for expounding on this subject.

A Princeton graduate, he is sometimes referred to by White House insiders as the "intellectual of the Kennedy Mafia."

Significantly, some of Moscoso's sharpest critics are leading Democratic senators who staunchly support the President's foreign policies.

Foremost among them are Senator Wayne Morse, Ore., chairman of the Foreign Relations Subcommittee on Latin America, Assistant Senate Democratic Leader Hubert Humphrey, Minn., and Senator Ernest Gruening, Alaska, who had extensive experience in South America during the New Deal. They have bluntly told the President that Moscoso must be replaced and without delay.

Morse asserted Moscoso "is over his head and hasn't got what it takes." He particularly assailed an Alliance rebuff to Mexican plans to rebuild its border cities. Morse blasted this stand as "silly and stupid."

Gruening went further, denouncing the policy of "mistakenly bailing out shaky and unstable Latin American regimes."

"We are told that we cannot support many urgent domestic needs because we cannot afford them," said Gruening. "Yet the administration continues to pour vast sums into unstable countries. It makes loans that are not loans at all, but give-aways. Actually, our money is not only being wasted, but the very result of trying to help countries in that manner is counter-productive. It prevents these countries from reforming themselves and getting on a stable basis."

"Unless restraint, vigilance and intelligence are exercised, the whole program will go down the drain. And the billions of dollars that we have spent and the billions more it is proposed to spend will be completely wasted."

Three members of a special Commerce Department advisory committee on the Alliance for Progress voiced a very similar warning.

David Rockefeller, head of Chase National Bank, Emilio Collado, Vice President of Standard Oil of New Jersey, and Walter Wriston, Vice President of the First National Bank of New York, in a detailed report concluded:

"The U.S. must change its role from one that emphasizes short-run economic palliatives combined with recommendations for sweeping social and economic reforms, to one that places the greatest emphasis on the longer-run goals of creating an environment in which freedom of the market place is recognized for what it is, a major pillar of free and prosperous societies."

FOREIGN FLASHES — Ceylon, which got much U.S. aid until it was cut off recently because of refusal to pay debts owed U.S. firms, is now going to get hand-outs from Communist Poland — a big beneficiary of U.S. largess in the form of loans and sales of surplus food stocks for Polish currency which remains in that country. Poland and Ceylon have signed an agreement under which the former will supply most of Ceylon's hardware and small tools in the next few years. Mexico has sent a special trade mission to Pakistan to promote trade between the two countries

Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

Question: "What does an underdeveloped country really mean?"

When we speak of an underdeveloped country it really means that there is a scarcity of capital, and that means that there is a scarcity of capital because property has not been respected, because the government has interfered with people keeping what they have produced.

Of course, when capital is not respected or the public does not believe that private property is good, and thus wants the government to take from one to benefit another, that country doesn't get capital, either locally or from abroad. Capital usually goes where it is safe and has the best chance to be of service, thus making a gain.

Yes, an underdeveloped country really means a country that has a lack of capital, and lack of capital means lack of morality, because morality or ethics or justice come before capital accumulation.

Unemployment Lingers On And Defies Easy Solution

By PETER EDSON

WASHINGTON (NEA) — While President Kennedy in his State of the Union message puts tax reduction and reform as the most important issue, unemployment is still one of the most serious problems for the Kennedy administration, the new Congress, management, labor and the national economy.

Preliminary figures for 1962 show that unemployment dropped only 274,000 to an estimated 3.8 million as of Dec. 31.

Employment increased by 1.1 million jobs during the year while the civilian labor force increased by 800,000. Actually, nonfarm employment increased by 1.4 million jobs to a 67.5 million total. But farm employment dropped by 300,000 to four million total at year end. Solving the slowly but steadily decreasing agricultural employment problem is one of the harder-to-cure aspects of the situation.

Labor Secretary Willard Wirtz admits it is really surprising there are not more protests from the four million and more Americans who have been unemployed in the past two years.

One reason given is that unemployment is not general but concentrated in depressed industry and area pockets. Another reason there is not more protest is that unemployment insurance cushions the impact. Also, most of the unemployed are unskilled workers, the uneducated and young workers without job training or experience. Unemployment rates in these groups are twice as high as among skilled workers.

Government programs to reduce unemployment so far have been unable to do the whole job alone. Area redevelopment and manpower training programs are just getting started.

Not enough contracts have been let and construction started on the accelerated public works program to create many new jobs.

Congress took no action on the Kennedy administration youth employment opportunities proposal last year. It will be presented again to the new session. It is aimed at creating more jobs and reducing high unemployment for workers under 20.

Business leaders talk in optimistic tones about the possibility that a tax cut will stimulate industry to create new jobs. The same claim was made for the tax credit on new investments and the new depreciation allowance schedules put into effect last year, but there hasn't been enough time to measure their effects on employment and unemployment, if any.

The other side of this coin is that new investments may be channeled into labor saving machinery that will cut employment instead of reducing unemployment. Wirtz is of the opinion that something will have to be done soon to offset unemployment caused by automation.

Organized labor leaders are counting on a tax cut for low income workers to stimulate consumer spending enough to create more jobs. The other big pitch in the union's program is to reduce the work week to 35 hours so as to spread available jobs among more workers.

Industry leaders oppose this as an effort to put over a disguised pay raise — less work for the same money. Wirtz also says, "I do not think this is the right answer."

A factor that concerns him more is that about 7 per cent of today's industrial production comes from overtime work. This is slightly

above unemployment rates of around 8 per cent during the last two years.

If the unemployed could be given this work, everything might be dandy. But it isn't that easy. Much of the overtime production is temporary — like the current drive on manufacture of new models in the auto industry. Most of the unemployed in chronically depressed areas aren't located where the overtime work is available and, besides, don't have the skills to do it.

Also, from the employer's point of view, it has been estimated that it costs up to \$1,500 the first year to add a new worker to the payroll.

If a new worker has to be laid off after a temporary work rush is over, he gets unemployment insurance, lowering the employer's rating. In some industries the worker would have to be paid supplementary benefits.

These are just a few of the many practical problems that have to be solved before unemployment can be reduced to the manageable proportions of a 4 per cent rate or less.

It's Up To You

by HOWARD KERSHNER L. H. D.

When one has finally conquered an infectious disease that has enfeebled him and begins to mend, he gains weight and strength rapidly. If he were to project the statistical proof of his gain in weight and strength during the period of his convalescence for a year into the future he would conclude that he was destined to become a very heavy and very strong man.

Likewise when a nation measures its rate of recovery from a very low point such as the postwar recovery of a war-stricken nation the statistical results are impressive indeed.

On this basis there has been much talk of the rapid economic growth of Russia. The facts are as Dr. G. Warren Nutter points out in THE GROWTH OF INDUSTRIAL PRODUCTION IN THE SOVIET UNION, during the period of 1913 to 1955 the average rate of growth of productivity in Russia was 1.9 per cent as compared with the 2.8 per cent in the United States.

However, if one takes the immediate postwar years in Russia, he can find statistical proof of substantial industrial growth. This, however, is very misleading because the starting point was so very low. If a man has ten shirts and acquires two new shirts each year, one might say that he was gaining shirts at the rate of 20 per cent per year. If another man had two shirts and gained only one shirt per year his rate of gain would be 50 per cent. Nevertheless, the first man at the 20 per cent rate is adding shirts to his wardrobe at double the rate of man number two and he will always remain ahead of the second man in his rate of accumulating shirts and in the absolute number that he possesses.

Except in a few lines, such as rockets, submarines and Sputniks, Russian production is insignificant in comparison with the results achieved in our country. Moreover, hours of labor, especially in farming, are much shorter here than in Russia and other Communist countries. A Socialist economy is comparably inferior to a free market economy as an abundant and economical producer of goods and services. Too many Americans too readily believe the slanted, misleading, falsely-based statistics left wing propagandists use to deceive them concerning the accomplishments of a Socialist economy. They always have been, still are and always will be inferior to the free market economy as a means of producing wealth.

HOW TO ADDRESS OUR LAW MAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

- (FEDERAL) Rep. Walter Rogers, House Office Bldg., Washington 25, D. C. Sen. Ralph Yarborough, Senate Office Bldg., Washington 25, D. C. (STATE) Bldg. — Washington 25, D. C. Sen. John Tower, Senate Office Sen. Grady Hazelwood, State Senate Bldg., Austin, Texas. Rep. Granger McWherry, House of Representatives, Austin, Texas, 78.

CLASS B CHAMPS — Representing Joe Fortin Conoco, these ladies won the B team city championship this weekend. From left, Pat Bernson, Vernel Fortin, Marion Gooch and Pat Cox. Not in picture is Maxine Dunham.

### Sporting Sidelines

By JEFF COHANE

**THE PLOT THICKENS** — Ever since we first read the All State nominations ballot, which gave Wayne Kreis of Pampa probably the poorest recommendation I have ever seen an All-State candidate receive, we have been trying to find out who downgraded him so and why. Except for mentioning that he was nominated by a Fort Worth sportswriter who had called him one of the best guards he had ever seen, and that he led District 3-4A in scoring, the rest of the "recommendation" consisted of reports that area chairmen Bob St. John and Leo Drumgoole had refused to second his nomination, that he had not made the All-District team and that his own coach, Terry Culley, thought very poorly of him. . . in other words, he was a "gunner" and not a team player.

Stounded, since coach Culley had never said anything against Wayne, we showed him the report and Terry literally exploded. He said that his not being high on Kreis was completely untruthful; that Wayne was definitely a team man as he had led the squad in assists in both his junior and senior years, and that he was a "gunner" because he was far and away the most accurate shot on the team, so they naturally got the ball to him as often as possible. BUT that he was the first man to pass off to others if they had a better shot and that his defense and ballhandling set up most of the fast breaks on which Keith Swanson and his mates scored.

**Misquoted** — Culley also pointed out that Drumgoole HAD named Kreis to the Amarillo Globe-News All-District first team. A remark by St. John in the report saying that he had called all the coaches in the district and asked for the top two players in the district and NONE of them had named Kreis was also branded incorrect as Culley said he had told St. John that he thought Randy Matson and Kreis were the best.

I called Drumgoole, who admitted that he had named Kreis to the all-district team and said I could quote him as saying that "Kreis was definitely worthy of All State mention." I asked Leo where they got the information that Kreis was disliked by his coach, and he admitted it was a second-hand, picked-up mostly from other coaches and also from our predecessor at the News, Lee White. This we know to be untrue as Lee gave us a complete run-down on Pampa from the athletic director to the water boy, and had nothing but good to say about Kreis.

I have tried to contact St. John by telephone several times, but he has been unavailable and has not returned any calls.

**Story Traced** — Sunday, while going through a file of area papers to pick up a little information on bi-district and regional opponents, etc., I came upon the original column in the Lubbock Avalanche-Journal, written by St. John and Burle Pettit, naming their All-3AAAA team.

Their team was compiled by votes of all eight coaches, five sportswriters and two radio announcers. They said that "the absence of Kreis on the first team was startling, but that he received only three first team votes, two of them by coaches."

"Some of the mentors and four of five sportswriters mentioned 'attitude' as the main reason for not naming the Harvester senior," the quote ended.

**'Attitude'** — We are still trying to figure the attitude angle out. We have never seen Wayne play dirty, start trouble or anything of the sort on the basketball court. Off the court, he is a friendly, polite young man who still calls me "Mister."

However, even if he DID have a bad attitude, which he does not that is absolutely no reason to leave one of the best players in the state off an all-district team. Ted Williams, Ty Cobb, Joe DiMaggio and Roger Maris were not exactly the friendliest people in the world to sportswriters, but they still won "most Valuable Player" awards.

Even more unfair is the idea of the sportswriters and radio announcers voting at all. When the St. John story mentioned five sportswriters, I figured that meant one each from the five papers that cover the district, Pampa, Borger, Amarillo, Lubbock and Plainview. However, Lee White had never mentioned being consulted nor had I been contacted. I called Bob Hilburn, sports ed of the Plainview Herald, and he said that he had not been consulted, nor would he vote if asked; that he was strictly in accordance with me — that the team should be picked by the coaches only, and that the Herald

polled the coaches for a team just as we did.

#### Prejudice?

Since that leaves two of the newspapers out, the five sportswriters left are obviously from Amarillo, Lubbock and Borger. Hardly an impartial crew to vote on a Pampa player who had sent their teams down to defeat a dozen times this season, wouldn't you agree?

Final fact before we close out discussion. The Lubbock story said that Kreis had received only two first place votes by coaches. Since the Pampa News poll had three coaches naming Wayne to the first team, somebody must be wrong. I don't know for sure who it is, but I still think Wayne Kreis is one of the finest basketball players in the state. . . and I have lots of company — the large number of college coaches who are just waiting to get him to sign up.

# Wrecks In NCAA, Big Ten Battling

By GARY KALE  
UPI Sports Writer

Georgia Tech has earned a berth in the NCAA college basketball tournament, but it appears Ohio State and Illinois may go down to the wire before the Big Ten Conference representative can be named.

Tech defeated Florida, 89-69, Monday night and despite the Engineers' second place standing in the Southeastern Conference they were able to gain entry into the NCAA classic because of first place Mississippi State's racial policies.

The Big Ten battle for first place remained deadlocked as Ohio State beat Northwestern, 50-45, and Illinois stopped stubborn Minnesota, 81-70.

Each team has three games remaining, with league competition resuming Saturday when Ohio State plays Purdue and Illinois meets Michigan.

**Tie Race Favors Illinois** — However, if the Big Ten race winds up in a tie Illinois will gain the NCAA berth since Ohio State went the last two years.

Georgia Tech engineered its best attack of the season in subduing Florida. Keith Weekly with 17 points and Mike Tomasovich, 14, paced the winners to as much as a 23-point lead in the second half before the reserves took over.

Ohio State, led by All-America candidate Gary Bradds, was handcuffed by Northwestern until the last five minutes of the game. Bradds scored the Buckeyes' last nine points after the score had been tied five times in the second half. The conference's leading point-maker had a game high of 25.

Illinois, held to a 33-all halftime score by Minnesota, shook loose after intermission to raise its league mark to 9-2. Dave Downey hit for 18 of his 24 points in the second half and Billy Burwell contributed additional 19 for the Illini.

**Billikens' Spirits Dampened** — Marquette dampened the spirits of St. Louis, 69-58, after the Billikens had been selected for the National Invitation Tournament. Marquette, also in the "NIT," trailed 47-45 with eight minutes

gone in the second half. Then Dave Erickson and Dick Nixon scored on a jump and a layup to give the Warriors the lead for good at 49-47.

Wisconsin cooled Indiana's Jimmy Rayl and swept past the Hoosiers, 102-96. Rayl set a Big Ten record of 56 points against Michigan State last Saturday. Bill Buntin scored 32 points for Michigan as the Wolverines defeated Iowa, 78-70.

**Kentucky Wallops Alabama** — Kentucky home fans, who haven't had much to cheer about this season, saw Cotton Nash sink 31 points and control the boards while the Wildcats walloped Alabama, 80-63.

In other games, Southern Illinois, ranked eighth in the United Press International small college ratings, romped over fifth rated Tennessee State, 103-82; Arizona State warmed up for its role in the NCAA tourney by scoring a

narrow 73-70 win over Creighton as Dennis Dairman carried the brunt of the Sun Devil attack with 24 points; Nebraska put a crimp in Oklahoma State's Big Eight title plans with a 49-48 victory; Mississippi State downed Tulane, 78-67; Tennessee upset Auburn, 55-47; Louisiana State clobbered Mississippi, 80-61, and Colorado fopped Iowa State, 72-39.

## Ed Gonzales In Semifinals

CHICAGO (UPI)— Three Texas fighters won their bouts Monday night at the Golden Gloves Tournament of Champions. Another was disqualified.

Floyd Molina of Fort Worth outpointed Jimmy Boyette of Memphis, Tenn., in a flyweight bout. Eddie Gonzales of Amarillo took a bantamweight decision over Blaisis Garcia of Roswell, N.M., and Zeke Sanchez of Odessa knocked out Joe Penalis of Kansas City in the first round of the 126 pound class.

Sammy Alvarez of Odessa was disqualified for being overweight. Molina won two fights Monday night to join Gonzales in the quarterfinals. After defeating Boyette, he outpointed Zach Smith of Lowell, Mass., last year's runnerup in the bantamweight class here.

Sanchez was ousted in his second round bout by Freddie Mills of Memphis, Tenn.

## Pistons Set Up Lakers

By United Press International  
Should the Los Angeles Lakers finish the season with the best percentage in the National Basketball Association, they can thank the Detroit Pistons.

Monday night at Des Moines, Iowa, the Lakers defeated the Pistons, 113-107, and now have mastered Detroit eleven times this season without suffering a defeat.

The latest Laker victory was engineered by a combination of Elgin Baylor's scoring and strong rebounding.

Baylor, second to Wilt Chamberlain in the scoring race, tallied 19 points, 15 over his season scoring average, while the Lakers' big men dominated the boards, pulling down 80 rebounds to only 59 for the Pistons.

Ray Scott led the Pistons with 26 points, closely followed by teammate-Bailey Howell who rang up 25.

The Lakers, who would gain the home court advantage against the Boston Celtics in the playoffs should they finish with a higher percentage than the champions, were helped by the weary Pistons were playing their sixth game in seven days.

No other games were played Monday night.

## Stratford

(Continued From Page 9)

has been getting seven or eight rebounds a game and hitting about seven points a tilt, mostly shooting from the key."

The other returning veteran to the Tiger cage wars is little Donnie Woods. The 5-7 playmaker, ballhandler and outside shot is in his fourth year on the Tiger varsity. Bacing him up in the ballhandling is 5-9 junior Glen Swift, while 5-10 junior Jim McCarty is the team's top defender.

Reserves who see action are 6-1 freshman George Green and 5-8 sophomore Ronnie Hunt. Green is a really good prospect, "enthusiased Davis, "and by his junior or senior year he should be great."

**Elks Powerful** — Stratford however, who clinched the loop crown in a playoff this weekend, has an impressive 24-3 mark in some very tough territory, said Davis. "They have three boys who are 6-3 or better, with real spring in their legs too. Doug McBride is their ace rebounder, Duane Tittman next and then Butch Newman. The trio are at least 6-3 each, so you can see how well-balanced they are, both in rebounding and shooting as McBride and Tittman are both hitting in high double figures. They've got a couple of fine outside shooters too.

"What's more, they have very good bench strength. I don't see how we can be considered anything but underdogs, but we're going to give it all we've got all the way. That's one thing — no matter how far behind they are, these kids just don't quit over here."
