## Russians Plan New Restrictions on Air Travel

### Commission Probes Plane Collision

BERLIN—(AP)—A Russian commission recommended rigid new restrictions today on air traffic of the western Allies in and out of Berlin.

The six-man commission, set up to investigate a British-Russian plane collision, urged that the Soviet commander, Marshal Vassily D. Sokolovsky:

(1) Require that the Americans, British and French give 24 hours' notice of their flights through corridors over the Russian Occupation Zone, with details about the planes and their passengers.

### Jews Seize Control of Port of Haifa

By the Associated Press—Jews seized control of Haifa, Palestine's rich port city, today after an all night battle which an Arab spokesman called a massacre.

The Arabs, asking the British military to mediate, declared many Arab women and children were shot trying to flee. One spokesman said "it was another Stalingrad—we were not prepared."

The Jews denied women and children were shot. Hagannah, the Jewish militia, said the Arabs lost only 20 dead and the Jews four. The Jews demanded disarmament of Arab forces, an end to sniping and other guarantees.

In Washington, officials predicted President Truman would ask Congress to approve use of American troops to help police Palestine if the United Nations decides to send soldiers to the Holy Land.

In Italy, Palmiro Togliatti, Communist Party secretary general, said the Communists have no intention of using force to upset the results of the election, which snowed under their Popular Front.

Togliatti blamed "imperialist foreign intervention" for the defeat. Victoriano Principe, Alcide De Gasperi, head of the Christian Democrats, denied this, saying it was a "very grave accusation."

De Gasperi promised last night a program to fight unemployment, raise living standards and push reforms and said he would brook no interference with it.

On the basis of Interior Minister Marion Scott's calculations, the Christian Democrats have won 307 of the 574 seats in the Chamber of Deputies. The Popular Front appears to have 182. The Christian Democrats won 130 of the 237 elective Senate seats, to 74 for the Popular Front.

The U. S. European Recovery Program is at last getting into full gear. Secretary of Commerce W. Averell Harriman is negotiating to become ambassador-at-large to the 16 Marshall Plan nations.

In Latin America, Costa Rica's new government used guns to bring back peace to revolution-torn San Jose.

### Quarter Horse Show Is Planned

The National Quarter Horse Show Committee met this week to formulate plans for the quarter horse show to be held during the forthcoming rodeo, Aug. 4 to 7.

It was decided that the show will be open to any registered quarter horse breeder in either national association.

The three-man score card judging system will be used, with Barton Carter, Tulsa, Capt. J. D. Barnes, Electra, and Raymond Wood, Wichita Falls, as judges.

There will be both halter and performance divisions. This year's show will be charged with all fees going back as prize money. The prize money will be divided on the basis of 40, 30, 20, and 10 percent among the first four winners.

In addition to the prize money, rosettes and ribbons will be awarded the grand champions in each division.

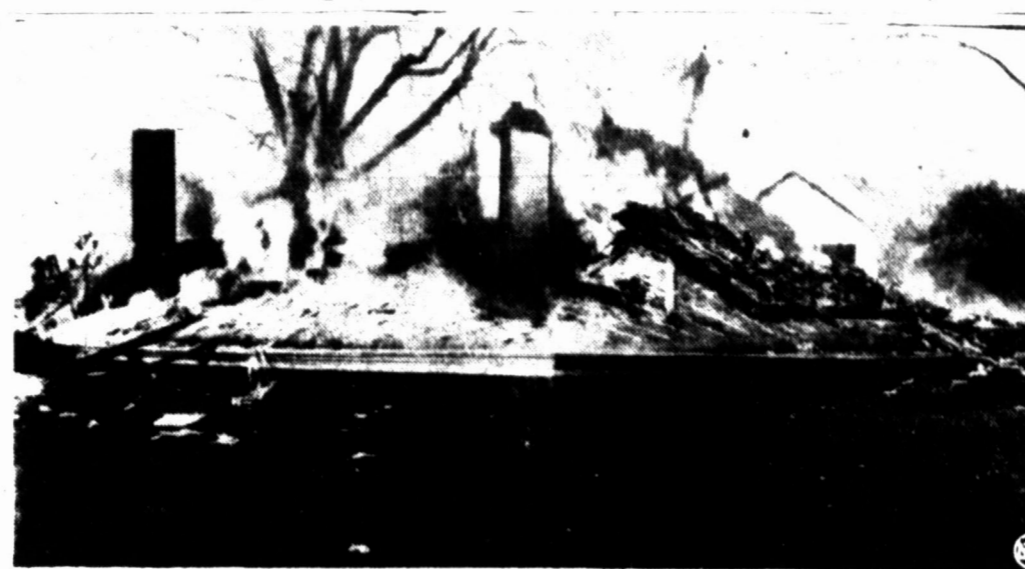

R. J. Brantley, Electra, Tex., president of the national association, met with the committee.

"IKE" MOVES OUT OFFICIALLY — The belongings of Gen. Dwight Eisenhower are moved from Ft. FIRE FOLLOWS HOME BLAST—This is the remains of the home of Clarence B. Wilson, an Aurora, Ind., bank president, after it was destroyed by fire after an explosion. The body of Wilson's wife was found, badly burned, beside a basement telephone. The blast, felt two miles away, broke many windows in Aurora. Cause of the explosion is not known.

## Lewis Moves to Put Miners' Pension Plan Into Effect

WASHINGTON—(AP)—John L. Lewis moved today to put his \$100 a month miners' pension plan into effect despite blunt notice that he may have to foot the bill himself.

The mine union boss called a late afternoon meeting (3:30 p. m.) (CST) of the three-man trustee board responsible for administering the still-untapped \$32,000,000 Miners' Welfare Fund.

The purpose of the session presumably was to consider definite rules for paying \$100 monthly pensions to miners 62 or older. Such payments were agreed upon in principle by two of the three trustees, Lewis, representing the union, and Senator Styles Bridges (R-N.H.), the neutral member.

Erza Van Horn, of the Third Trustee, representing the coal mine owners, filed suit yesterday asking that Lewis and Bridges be held personally liable for any money spent from the fund on the Lewis-Bridges pact terms.

Van Horn said the plan is illegal under the Taft-Hartley Labor Act for two main reasons. 1. Bridges never had any legal right to vote on how the money was to be spent.

2. The reason he disagreed to Lewis was that it would pay pensions to miners for whom no contributions have been made to the fund. He said this, too, is barred by law.

Meanwhile the coal strike showed no sign of coming to a complete halt today despite a federal court injunction that it end. Lewis already has been fined \$25,000 and has United Mine Workers' union \$14,000. 100 of criminal contempt for failing to obey the injunction.

## Clyde Barrow Buddy Killed

COUSHATTA, La. (AP)—The man whom Sheriff Ray G. Adcock said helped lay a fatal trap for Clyde Barrow and Bonnie Parker is dead.

Adcock identified a man killed by a train at Sulphur, La. Tuesday as Henry Methvin, former pal of gangster Barrow and his girl friend, Bonnie.

Methvin was crushed to death at Sulphur when he apparently tried to crawl across the tracks through a moving train. Funeral services were held here yesterday.

You can tell the people in Texas and Oklahoma that the man killed near Lake Charles is the Henry Methvin who was with Barrow and Parker, Adcock said, adding he had known Methvin all of Methvin's life.

Barrow and his cigar-smoking sweetheart were credited with 12 killings before they were slain near Gibsland, La., May 24, 1934. At that time Frank Hamer, a veteran Texas Ranger, said Methvin had been with Barrow and Bonnie to travel down the gravel road on which they were shot to death from ambush.

Methvin then was on parole from the Texas prison after serving part of a 10-year sentence for robbery.

## Mrs. Mattie Orr Dies at Residence

Services will be held at 2 p. m. tomorrow from the First Methodist Church in Mobeetie for Mrs. Mattie E. Orr, 75, who died early today at the home of her daughter, Mrs. J. T. Goodnight, 922 E. Jordan.

Mrs. Orr, born in Johnson County, Texas, had lived at Mobeetie until she moved to Pampa three years ago. She had been seriously ill for the past month.

Surviving are two daughters, Mrs. Goodnight and Mrs. P. T. Coffey of Amarillo, N.M. Sons: Willis of Albuquerque, N.M.; Homer of Phoenix, Ariz.; Lark of Canadian and Rupert of Pampa, sisters, Mrs. A. O. Wynn of El Paso, Mrs. Ida Cooper of El Paso, Mrs. Ada Elliott of Los Angeles, seven grandchildren and two great grandchildren.

Serving as pallbearers will be Al Sims, Ed Johnson, Clarence Dyon, Henry Flanagan, Frank Lee, and Frank Walker.

Burial will be in Mobeetie Cemetery by the side of her husband, George W. Orr, who died in 1937. Duenkel-Carmichael service.

## Italy Election Outcome Gives Lift to Morale

By DEWITT MACKENZIE AP Foreign Affairs Analyst

The victory of the anti-Communist forces in the Italian national election is giving a mighty lift to morale among the democracies in their fight against totalitarianism.

This is particularly true of Western Europe, across portions of which the shadow of communism has been striking heavily. The reaction has been immediate and enthusiastic. The London Daily Express says the election is "the latest and most spectacular phase of the swing to the right which is now at work over Western Europe" and continues to sum up the situation thus:

"Marshall aid played a big part, but even if there had been no Marshall aid, (Premier) De Gasperi's (Christian Democratic) party would still have won the election."

From Jacob Kaiser, head of the Christian Democrats in Berlin, comes a somewhat similar view. He declares that the outcome of the election "confirms that no population in this world voluntarily will choose dictatorship which gives a free, democratic election."

All the evidence at hand since the election came to power in Russia in 1917 supports Kaiser's view. The whole history of communism during the past generation is a study of an iron being thrust on unwilling people by trickery and force. There isn't a single case of Moscow's satellites in Eastern Europe which would have accepted communism if the people had been allowed a free vote.

Well, where do we go from here? Since Italian deputies are elected for five years, and senators for six, the assumption is that there will be an anti-Communist government in power until 1953 barring a rebellion within that period. Italy must consolidate her democracy, and contribute to the general welfare of the world in Western Europe.

What this means is well summed up by the London Times, which says the victorious Christian Democrats must now make good their claims "that they can give to Italy by constitutional means an economic and social rebirth that the Communists held out as a sequel to revolution."

That's the answer for Italy and it's the answer for every country which is threatened with the Red plague.

## Association Is Dissolved

John Sims Jr., president, announced today that the Texas Quarter Horse Breeders' Association dissolved itself at its meeting last night in the Chamber of Commerce rooms in the City Hall.

Most of the members have affiliated with the Pampa American Quarter Horse Breeders' and Sale Association with headquarters in Amarillo.

Grady Oldham, president, and Bill Jones, secretary of the American association, were present at the meeting and outlined the aims and scope of their organization.

The following members of the Pampa group transferred their membership to the American association: Orville Christopher, Roy Sewell, C. E. Vincent and sons, L. D. Thomas, Webster, Frank L. Lard, H. M. Brown, Rufus Sewell, Frank Carter, John Sims Jr., Gohar Lee Mitchell, and Chester Thompson.

## Safety Patrol To Aid Parking

Members of the Junior Safety Patrol in the Pampa school, between the ages of 10 and 12, have been chosen as monitors to direct automobile parking at Oiler Park during the baseball season.

The Pampa committee sponsoring the patrol said today:

"To insure the maximum ease in getting in and out of the parking lot beside the park.

"After the game starts and the flow of incoming cars has stopped, the boys will go into the stadium and watch the game play."

Oiler Park, it is planned, will also act as ushers and monitors inside the park.

This phase of the Patrol program is designed to promote safe practices around the ball park and it will also serve to maintain order around the park. The boys, it is hoped, will aid in promoting order among patrons there on game days.

Pictures of the young patrolmen taken at the schools where they were commissioned, are now on display at Thompson Hardware Company, 113 N. Cuyler.

## Baseball Season Opener Rained Out; Wheat Farmers Made Happy by Fall

Rainfall last night, amounting to almost an inch, put the season opener on first night on a ball field for the year. The total rain, but gave new life to wheat crops and pasture lands.

The U. S. Weather Bureau Station here announced today that it was the first rainfall since Oct. 21 when the measurement was 1.55 inch under average.

The temperature here last night was 56.

A total of 1.30 inch of rain fell at Berger yesterday afternoon and night. The precipitation had already put the wraps back on the opening of the 1948 Oiler baseball season in the local park against Berger, but the game will be played tonight, with all the attendant ceremony scheduled as originally.

Prospects were still good at 11 a. m. The Weather Bureau said that for more rain today. Sporadic rainfall was reported over West Texas. The rain last night was 93 at Presidio.

## 66-Group Program Is Latest Plan

WASHINGTON—(AP)—The administration laid a "bargain rate" air power compromise before Congress today aimed at giving the country 11 more fighting groups at a cost of \$481,000,000.

Secretary of Defense Forrestal whipped up the proposal in a fresh effort to keep the Senate from following the lead of the House in insisting on a full 70-group Air Force.

Forrestal's plan calls for a 66-group program and a three-year national defense outlay of \$46,000,000,000.

Chairman Gurney (R-SD) of the Senate Armed Services Committee called his committee into another closed-door session today (9:30 a. m. CST) to try to win approval for the Air Force program and then turn to the equally hot issues of a temporary draft and universal military training.

Forrestal demonstrated by his compromise offer late yesterday that he can switch his strategy.

Previously he had insisted that a strengthened 65-group Air Force would be enough. President Truman's subordinates Secretary of Air Force Gurney and a group of Air Force generals plunked for that through the House as part of a money bill.

If only military considerations were involved, Forrestal said Gurney's committee yesterday, "the wisdom of this step cannot be questioned."

But, he added, the full 70-group plan would add another nine billion dollars to the original 11 billion asked by President Truman, instead of the extra three billions the administration has proposed since the President laid down his stop-Russia policy a month ago.

And it also might mean "allocations, rationing, price controls and a host of other restrictions," the cabinet officer declared.

Senators quickly wanted to know why an increase to 70 groups would cost \$900,000,000 while an increase to 66 groups would mean only \$181,000,000 more.

Forrestal explained that the new groups would not be exactly what the Air Force wanted that is, completely new but rather reactivated units.

Ten of them would use modernized versions of the four-engine F29 bombers which were used with great success against Japan in the 11th new group would be made up of fighters.

AKRON (AP)—Four way stop signs are being tried at some Akron intersections. Traffic Captain E. L. Engelhart hopes that stopping traffic going both ways will cut accidents. On the rare occasions when cars from all four directions stop at the same time, Engelhart admits there is some confusion. The car on the right has the right of way, but in such cases everyone is on the right of somebody else. Even if all started at once, however, Engelhart points out that no one could be going very fast if collisions took place.

**Vassar Ideas For Germany**

BERLIN (AP)—The American Military Government has opened the second "American House" information center, after the first had won patronage which overtaxed its facilities.  
In these centers the Germans have free use of well-stocked American libraries and magazine rooms. They are invited to lectures and films and shown exhibits describing the American scene and the American way of life.  
The Russians were first in the field here with their big and well-appointed "House of Soviet Culture," and the Americans are now working hard to outstrip them.  
The newest "American House" is directed by Dr. Trude Gunther, Danzig-born assistant professor of German literature on leave of absence from Vassar.  
Her "house" is established in an eight-room former dwelling. She is building a library which eventually will contain 5,000 volumes. On the walls are pictures of New York, Chicago and other American cities, numerous American authors and educational leaders.  
In the film rooms are documentary films. In the lecture room German and American speakers appear and mixed discussion groups meet to exchange ideas.  
Dr. Gunther also has plans for the formation of a German-American club composed of educators, journalists and artists. She has found that Germans are hungry for American fiction and most of the shelves will be filled with such books.

NEW YORK — (AP) — "You're my son's very age."

"He was just your color."  
"You look so much like my brother."

These are the remarks that next-of-kin make most often to the military escorts who accompany American war dead being brought home from overseas.

No silent buddy goes home lonely. Each dead soldier, sailor and marine is escorted from a distribution center — there are fifteen in the United States — to his final destination by a fellow serviceman of his own rank.

Approximately 65 to 70 percent of the war dead to be returned to America will pass through the New York Port of Embarkation and more than 15,000 have been brought back here since last Oct. 15.

There is a slogan in the Army: "Never Volunteer." But more than 400 servicemen have volunteered for assignment as military escorts for war dead passing through Distribution Center No. 1, a quartermaster installation at the embarkation port here. It has the duty of returning war dead in the metropolitan area.

Most escorts are combat veterans themselves — like First Sgt. Bernard Tobin, 28, of Cortland, N. Y., an ackack gunner in the Battle of the Bulge. Or Tech. Sgt. Robert Joralemon, 26, a B-17 radio operator from Elmira, N. Y., who made thirty-five missions over Europe. Or Marine Staff Sgt. Arthur H. Gruenberg, 24, of Denver, Colo., who was captured on Corregidor and spent 1-2 years in Jap prison camps.

All are given a training course before they begin the task of escorting the dead heroes to their families.

"It's a sad duty," said Sgt. Tobin, "and your first mission about breaks you to pieces."

"But the family usually wants to take us right into their home until the services are over. They try to make us feel like we are their own sons and the mothers often say, 'you look just like my own boy.'"

"A lot of them ask us to come back and spend our next leave with them," said Joralemon.

Escorts who saw combat themselves are particularly sensitive to the dignity of their missions. They feel that except for the way their luck went on the battlefield they might themselves be among the silent passengers now making the long journey home.

"I have been very fortunate," said Sgt. Gruenberg, a slim quiet man who was only 20 when the Japs took him. "I feel it is a real honor to take home men who died for this country we cherish."

He said it very simply. Only one escort has asked to be relieved. He is a sergeant in his late forties who was assigned to Army camp in this country during the war.

"It wasn't my fault I didn't get overseas," he said. "But I couldn't stand the look in the eyes of parents of the dead boys when they asked me if I'd served with their sons."

# Good Pitching Sends Cardinals Into First Place Tie With Phils

By The Associated Press  
This is definitely a new year for Eddie Dyer and his St. Louis Cardinals.  
Just a year ago today, Dyer's Redbirds were in the midst of one of their worst early season slumps. A heavy favorite to retain the championship they won in 1946, the Cardinals got off on the wrong foot and dropped nine straight games. As it turned out, the Cards lost the flag then and there.

## Dallas and Beaumont Top League

By The Associated Press  
Beaumont and Dallas top the Texas League today but Fort Worth and San Antonio are in a position to change this situation tonight.

Fort Worth hung a 6-1 licking on Dallas last night and San Antonio blanked Beaumont, 3-0. These results left San Antonio and Fort Worth only a half-game back of the pacesetters.

Oklahoma City dropped its second game to Tulsa, 4-3, while Houston and Shreveport played to an 11-inning, 1-1 deadlock. The game was called after the eleventh in order each team might catch a train.

A three-run spurge in the fourth inning clinched the game for Fort Worth's Cats who didn't make \$700 cash. Dallas customers any happier when they picked up a couple of unearned runs in the seventh.

Dallas' lone run came in the third inning when Don Moore tripled and came home on a single by Roy Hartfield.

Hill Scott and Beaumont's Burton Barkley each yielded only six hits, but the Mustangs used two walks, an infield out and Bud Kimbrell's single for the only run of the game in the fifth inning.

Shreveport held a one-run advantage over Houston from the third until the eighth inning, then the Buffs' Solly Hemm's doubled Mike Conroy home. Seven double plays helped check the 11 innings off in 2 hours 17 minutes.

Joe Yankovich hit the first home run of the year for the Oklahoma City nine in the Indians' second straight victory over their Sooner state rival. And Tulsa pitcher Joe Berry got the first hit of the year off Indian hurler Preacher Dorsett—a single in the ninth.

Tonight, the teams shift sites. Tulsa is host to Oklahoma City. Houston is at Shreveport. Beaumont invades San Antonio, and Dallas plays at Fort Worth.

## Clovis, Lamesa and Amarillo Win WT-NM League Openers

By The Associated Press  
The West Texas-New Mexico League was off to a snappy start today, opening with three well-played games in which the hitting did in no wise resemble the wild slugging that marked the circuit last season.

Defending champion Lubbock took a 4-3 defeat at the hands of the Clovis Pioneers, the cellar club of 1947. The game was called after six innings because of rain.

Lamesa beat Albuquerque 11-4 and Amarillo downed Abilene 9-6 in other games. The Borger-Pampa opener at Pampa was postponed because of rain.

A double steal in the third inning handed Clovis its win over Lubbock with Chuck Novotny crossing the plate with the winning tally.

J. D. Garland limited Albuquerque to four hits as Lamesa won its opening game before 1,800 fans.

Amarillo came from behind for three runs in the fourth, got another in the fifth and batted around in the eighth for five, then squelched an Abilene rally in the eighth after it netted four tallies.

**VOICE OF AMERICA**  
MANILA — (AP) — Radio jamming of "Voice of America" broadcasts to the Far East comes from the high power Russian station at Khabarovsk, 400 miles north of Vladivostok, U. S. snips have reported.

Insects frozen in Arctic ice for centuries are said to have been made to live again in tests conducted by scientists.

The homers were supplied by John Mize and Sid Gordon of the Giants, and Arky Vaughan, two, and Carl Furulo of the Dodgers.

Bases on balls by Forrest Main forced in two Chicago runs in the ninth to help the Cubs defeat the Pirates in Pittsburgh, 6-3. Bill Nicholson and Andy Patko hit home runs for the Cubs. Main had relieved Ernie Bonham in the ninth. Hank Borowy was the winning pitcher.

Bad pitching continued to plague the Yankees. The Washington Senators pounced upon Vice Raschi for five runs in the third inning and whipped the world champions' 6-3, in the capital city. Gil Coan's three-run home proved the decisive blow. Southpaw Mickey Haefner spaced nine hits for his first win.

Detroit made it two in a row over the White Sox in Chicago, winning, 4-3, tying the Philadelphia Athletics for first place in the American League.

The Athletics and Red Sox were rained out in Boston. Cleveland and the St. Louis Browns were not scheduled.

## Mask to Meet Gideon on Main Event

"Labe" Saffro, former boxer and now billed as the World Champion Bag Puncher, will demonstrate his rhythmic skill on the small bags at 8:15 p.m. today before the wrestling matches begin at the sportsatorium.

The semifinal tonight will match newcomer to the Pampa ring, Billy Hickson of Knoxville, Tenn., against Billy Sandow of Toledo, Ohio, who has appeared here before. There will be a 45 minute time limit, and the winner of two out of three falls takes the match.

The main event, a scheduled hour match, will find the Masked Marvel, who defeated Dr. Gil Knutson in his last appearance here, meeting Eddie Gideon, who won over Pat O'Dowdy last week.

The mask, a rough and tumble wrestler, will not divulge his identity unless he is defeated. He claims he wrestled around Amarillo and the Panhandle in 1935 and 1936, and left this area as unknown as he came—he was never defeated.

Gideon, billed as the Wrestling Scot from Springfield, Mo., defeated the rowdy Pat O'Dowdy here last week with the same punishing back breaker hold that Jack Wentworth used with such good effect against Gorilla Foggi week before last.

**By HUGH FULLERTON, JR. NEW YORK**—The eyes of Texas are on Texas this spring—Bibb Falk's nifty Texas U. baseball team, that is. After the Longhorns beat Southern Methodist last week, 2-0 (sound like three touchdowns, all converted) the fans really began to rave. One version says: "That magazine cover showing the Dodger rookies would have to be a double spread to mug the material Falk gets. And he knows what to do with it." Another: "Falk won't be drawn out, but I think it is the best of a long line of ball teams here. It's 30 percent better than the one that lost out to California in the Western NCAA playoffs last year." The Texas-SMU game was a natural. Bobby Layne, who hasn't lost a conference game in three seasons, pitched for Texas and had the pleasure of fanning his old football rival, Doak Walker, on the first try. Later Walker got one of the four SMU hits, so that evened things a little.

**BOWLING**

In the Major Bowling League last night at the Pampa Bowling Alleys, Pampa Bowl won two out of three over Cabot, and Burnett's won two out of three over the S and W Service Co. Lee May of the S and W team bowled high single game with a 222, and Stanley Brake of the Cabot team bowled high three game series with a 261.

The Ladies' Lone Star League results were as follows: Parker's Blossom Shop won three from the Modern Beauty Shop, and Duenkel-Carmichael won two out of three from Franklin Life. Ina Petrie of the Duenkel-Carmichael team bowled high single game with a 188 and high series with a 468.

**Homer Does Some "Back-Seat Sewing!"**

Homer Bentley's missus was working on her new sewing machine when Homer comes in, draws up a chair, and starts talking. "Don't you think you're running too fast?" he says. "Slow down! Watch out! Be careful!"

When the missus finally turns with murder in her eyes, Homer says goodnaturedly: "I thought you might like a little help, dear—like you help me drive the car."

The missus can't help but burst out laughing—and they settle what might have been a quarrel over a

**Massey Twins Big Trouble**

WASHINGTON —(P)— Among 24,000,000 names card-indexed in the Veterans Administration master file are 217,000 Smiths (12,500 of them named John), 100,000 Browns (6,700 named John) and 130,000 Jones (2,280 named John).

Nevertheless, a VA official said today, few records have provided as many headaches as those of the Massey twins—named not John, but Laugh W. and Vaughn W.—from Choudrant, La.

Both men applied for disability compensation. They both entered the Army April 20, 1944, and drew these serial numbers: 3854608 for Laugh, 3865468 for Vaughn.

They served in the same training camps, went to Europe on the same ship, served in the same combat engineers unit in France. Each was assigned to drive a 1/2-ton truck. Both were promoted to private first class and later to corporal, on the same days.

Both were wounded by one shell burst. They went to the same field hospital, and were discharged from service on the same day. After discharge, both went to work for the Springhill Paper Company at Shreveport, La.

Records on these two claims are so confusingly alike that we had to call the twins in personally to a regional office to straighten out the details of their identity," the VA spokesman said.

Botanically speaking, blackberries and raspberries are not berries. They are fruits, and the egg-plant is a berry.

 At the grocery store I used to meet a quiet, middle-aged lady who was the thriftiest shopper I had ever seen, and one day I sold her so. "I suppose it runs in the family," she said.  "Why?" I asked in surprise.  
 "Why? So the lettuce might grow a little more while Granny was at church!"—Reader's Digest.

**Gene Garrison to Head Boys' Club**  
Gene Garrison was elected president of the Seven-Eleven boys club for the 1948-49 school year at the regular weekly meeting held last Monday night at the home of Don Byars, 1035 E. Francis.  
Gene, an active member in PHS activities for the past three years and a member of this Junior Play cast, succeeds Douglas Mills who graduates this May. Jim Bill Windsor assumes the vice-president post vacated by Buddy Sawyer and Carroll Smith follows Gary Cooper in the secretary-treasurer office.  
The club has recently elected a club sweetheart out of their sister club, the "Kit Kat Klub." This sweetheart will be made public at a later date when a dance will be given for her coronation.  
The 25 members of the club present at the meeting entertained five students from Junior High School with refreshments of Cakes and Cookies. The Junior High boys who are being considered as future members are Billy Rex Campbell, Bobby Setts, Sid Mills, Barlon Lockhart, and Tollie Hutchens.  
The Seven-Eleven Club has been very active in promoting boxing in Pampa, having been co-sponsors of all-city tournaments the past two years.

**Cotton Bowl Bonds Being Sent Out**  
DALLAS (AP)—Bondholders who participated in the \$1,200,000 Cotton Bowl improvement, launched in January, will receive their bonds within the next 10 days, W. H. Hitzelberger, general manager of the State Fair of Texas, has said.  
At the same time it was revealed that the improvement program would allow more than 2,500 seats to the bowl in addition to the 19,000 which had been planned when an original \$1,000,000 bond drive was over-subscribed by \$200,000.  
This news for bowl patrons was accompanied by a report that construction was so far in advance of schedule that contractors now hope to complete the work by Sept. 1 instead of the October opening of the state fair.  
Latest construction reports estimated 21,672 seats would be added to the stadium, bringing capacity to above 66,000.

**Engineers Favor Brazos Island Harbor Project**  
DALLAS (AP)—The Corps of Army Engineers has announced it has reported favorably on projected improvements to the Brazos Island Harbor near Brownsville, with an estimated first cost to the government of \$2,301,000.  
The report, made to the district and division engineers, was requested by the House Committee on Rivers and Harbors.  
It recommends that the existing project for Brazos Harbor be modified to provide for depths of 38 feet in the channel from deep water in the Gulf of Mexico through Brazos Santiago Pass and depths of 36 feet in all other channels and basins.  
The report called for widths of 300 feet in the Brazos Santiago Pass channel; 200 feet in the Laguna Madre and Port Isabel channels; 200 feet in the Brownsville channel to station 78-790 and 300 feet thence to the turning basin; 1,000 feet for a length of 1,500 feet and 550 feet for a length of 1,340 feet in the Brownsville turning basin.  
The report also called for a small-boat basin 12 feet deep, 300 feet wide and 1,500 feet long near the Brownsville turning basin.  
The channel project calls for an estimated first cost to the federal government of \$2,300,000 for new work and an increase of \$58,000 in the cost of annual maintenance. The small boat basin project would cost the government an estimated \$61,000 and an increase of \$2,000 in annual maintenance costs.  
Local interests would be required to furnish without cost to

**Spring Clean-Up Booklet Ready For Householders**

An authoritative new booklet to aid householders in removing fire hazards from their homes has been prepared by the National Board of Fire Underwriters for the 1948 Spring Clean-Up Campaign. Entitled, "Spring Clean-Up Stops Fires," the pamphlet lists a 12-phase program to make every home safe from fire. It also tells how citizens can join with their neighbors to remove eyesores and improve the health and appearance of the community. Copies of this booklet may be obtained for free distribution by schools, fire departments, safety councils, chambers of commerce, and insurance boards. No permission is necessary.

**IF STOMACH BALKS DUE TO GAS AND BLOAT Help Get Food Digested to Relieve Yourself of This Nervous Distress**

Do you feel all puffed-up and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief in helping your stomach do the job—it should be doing—in the digestion of its food. Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles, else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, nervous, nervous condition, loss of appetite, underweight, restless sleep, weakness. To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients. Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better. Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength, and repair. Don't wait until the best of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Study P-14th.

**Miss Bill Cole Is HD Club Hostess**

The Save Your Time Home Demonstration Club of Lefors met Wednesday, April 14, in the home of Mrs. Bill Cole at the Coltex Gasoline Plant. During the business session the members discussed writing letters and sending packages to rural women of France. Miss Ann Hastings, county home demonstration agent, gave a demonstration on the making of dress forms. The models, Miss Jack Nichols and Mrs. C. C. Mullins, had previously ordered suits, each containing a jersey cloth tube and gummed tape for the forms.

It was shown how the jersey was first pulled over the body of the model, then the tape applied first at the shoulders, then in strips half way around the body. After all the necessary tape was applied the form was put down the back with blunt point scissors, allowing the model to step out of the form. This suit was later relapped and arm pits and neck openings were smoothly finished.

The demonstrator stated that to complete the dress form it should be shellacked and put on a cross bar stick inserted in a Christmas tree stand. The dress forms made at the meeting will be used for fitting and sewing clothing.

Refreshments were served at the close of the demonstration. Fourteen members were present. It was announced that the next meeting will be held in the home of Mrs. Scott Hall.

Notice is needed to reprint this 4-page pamphlet. Write to The National Board of Fire Underwriters, 85 John Street, New York 7, for copies of "Spring Clean-Up Stops Fires."

**Musical Exhibits Won Recognition**

Texasans have been gaining considerable recognition in the various fields of the fine arts. In addition to pictures exhibited in Pampa during the convention of District 7 of the Texas Federation of Women's Clubs, several musical exhibitions drew attention to another form of creative art, namely music.

Esta McElrath of Memphis exhibited an original song, "Onward and Upward." Mrs. Frank Hatt and Mrs. Glenn Truax of Canyon and Mrs. Lenn Truax of Canyon wrote the words to the song, "Panhandle Plains," which was introduced at the convention.

Mrs. Truax wrote the words and Mrs. Lee Foster of Canyon composed the music for the song, "Love and Grow." During the convention this song was adopted as the official song of District 7, Texas Federation of Women's Clubs. The Pampa High School Girls Sextette under the direction of Miss Hart Anderson learned this official district song and sang it as a special number in the Fine Arts program of the convention.

**Chief Lists Rules To Save Pampa Tots From Fire Accidents**

Many citizens expose their children to death by fire and disease every day, Fire Chief J. E. Winborne warned residents of Pampa in a Spring Clean-Up announcement.

Fire kills more children in the home than any other single cause of accidental death, he pointed out in an appeal to every citizen to join this year's community clean-up in an effort to rid the city of fire hazards.

The chief cited figures of The National Board of Fire Underwriters which showed that out of 6,000 children who die from home accidents every year, more than 2,000 or 33 percent are burned or scalded. Thousands more are crippled by burns.

**CAN BE PREVENTED**  
Yet many of these tragedies could have been prevented by a little care, the chief continued, he suggested that parents spend a little more time in cleaning out home fire hazards, and protect their children's lives.

He called for wholehearted cooperation from every parent, every householder and civic group to check homes and community for possible fire dangers, and to clean up disease-harboring rubbish in vacant lots where children play.

Specifically, he listed recommendations of The National Board of Fire Underwriters to be used as a fire prevention guide by parents:

1. Never leave children alone in the home. Be sure your sitters are mature and responsible enough for the care of young children.
2. Make certain your sitters know how to call the fire department.
3. Be positive—that matches, hot liquids, lighted candles and lamps are out of children's reach.
4. Don't permit children to play

with bonfires or fireworks. Fires adult supervision. 5. Don't dress your children in highly flammable clothing, such as fluffy net dresses, brushed cotton or brushed rayon suits. 6. In case of fire, get the children out of the house first, then call the fire department. 7. A 3-inch common steel shell was found to have burst into 2878 pieces, in an experiment of military explosives.

A mellow Maine educator who has been looking at life for 36 years feels there is too much emphasis, these days, on higher education.

Highlands, Maine, who for 18 years was a college president, says: "The idea of going to college has been a little overdone in this country. The saving feature is that colleges now are striving to give a more practical education. College use to be a place where you learned languages and philosophy. Now you may prepare for a variety of occupations, including housekeeping and plumbing. With everybody going to college, student bodies have doubled and quadrupled and institutions of higher learning are under a tremendous strain. Temporarily, at least, it is quite impossible to maintain former educational standards. But educators are realizing their responsibilities and are holding to their ideals and I believe improvement will be rapid and permanent."

Dr. Hatch, a spry, neat blue-eyed man who looks 20 years younger than he is, spends his summers in Texas. Here is one Yankee who really appreciates the Lone Star State. Just listen: "Texas has a youthful, vibrant energy and expectancy. Texans believe in themselves tremendously—they expect much of themselves and are not disappointed. The old men of Texas see visions because in their youth they dreamed dreams."

Dr. Hatch and his wife, parents of Mrs. Helen McGibney, Dallas hotel manager, like to roam over the state. "To me, the Rio Grande Valley is a wonderland," the educator said. "Its gardens and groves amaze the eye. I found one field with 75 acres of tomatoes. South Texas has such charm—Corpus Christi and San Antonio are thrilling cities to visit. Everywhere you go in this state you are impressed by the activity and prosperity. It strikes me greatly to ride across the country and just look—that far look—it is indeed inspirational."

Dr. Hatch was president of Vermont Junior College, Montpelier, Vermont. During his tenure, the co-educational Methodist school was known as Montpelier Seminary. "Colleges and universities," Dr. Hatch says, "have a great opportunity to do something important for America."

The defeat of UMT is now Russia's objective in the field of our domestic policies. Owen J. Roberts, former Supreme Court Justice.

# From Procter & Gamble's Great Laboratories- JUST RELEASED A Revolutionary New Washday Miracle!

**GUARANTEE**  
Procter & Gamble guarantees that Tide will do everything claimed for it in this advertisement. If you are not completely satisfied, return the unused portion of your package to dealer, and the purchase price will be refunded.

NO OTHER WASHING PRODUCT KNOWN CAN MAKE THIS STATEMENT

## Tide

GETS CLOTHES CLEANER THAN ANY SOAP MADE —yet actually LEAVES COLORS BRIGHTER

### IT'S TIDE

...you've never used anything like it!

TIDE is a truly amazing discovery that brings you a wonderful new kind of washday! Born of new knowledge gained in wartime research, Tide does *what's never been done before*—washes clothes cleaner than any soap, yet leaves colors brighter! The first time you try Tide, you'll know it's a brand-new product! Oceans of suds billow up instantly, even in *hardest* water! Those wonder suds look different...they even feel different!

### ONLY TIDE DOES ALL FOUR!

**1. Washes clothes cleaner!**  
Yes, cleaner than any soap made! Everything comes cleaner with Tide—even greasy overalls and heavily soiled work shirts! Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well! No soap in the world can get your whole wash as clean as Tide!

**2. Actually brightens colors!**  
Tide is not only safe for dainty, washable colors; but actually *brightens* soap-dulled, faded-looking colors. Brightness perks up almost like magic as Tide makes dulling soap film disappear! You can see the difference!

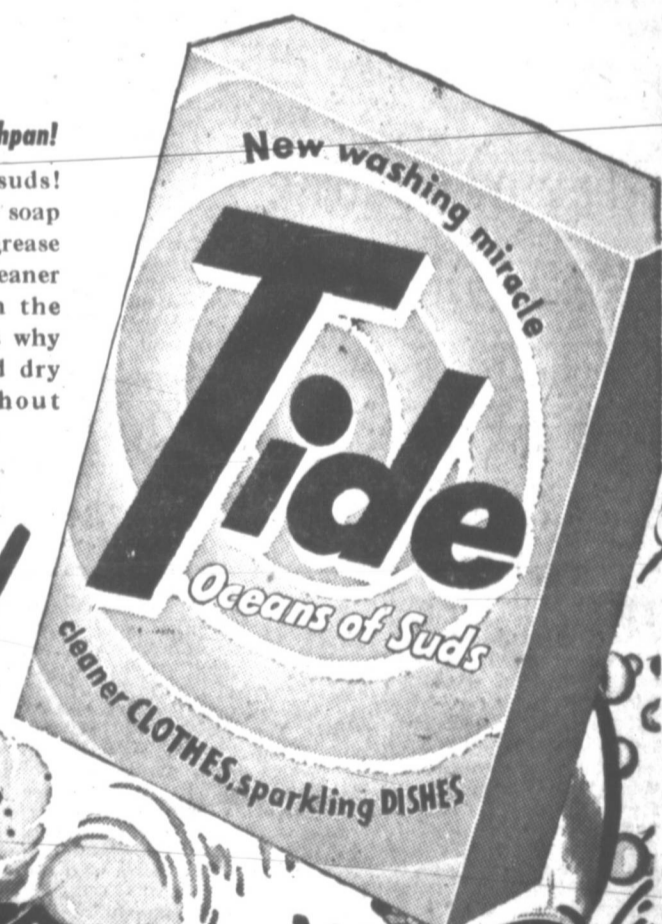

**3. Never "yellows" white things!**  
Tide can't turn them yellow, no matter how often they're washed or how long they're stored. Tide-washed clothes stay dazzling white, week after week!

A Hymosol Product

**4. Gives more suds—**  
Prove it in your dishpan!  
Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in *hardest* water! Tide cuts grease like magic... washes dishes cleaner than any soap! No scum in the water! No cloudy film! That's why dishes and glasses rinse and dry sparkling clear—even without wiping!

## TIDE'S IN—DIRT'S OUT!

TIDE WORKS EXTRA MIRACLES IN HARD WATER! OCEANS OF SUDS! NO WATER SOFTENERS NEEDED!

California Likely to Vote Republican This Election

B. UPTON CLOSE

The Democratic Party of California is hardly a party any more...

So badly has the California Democratic Party been mangled by letting exploitation...

The California party suffers from the same ailment as the national New Deal: it was an untidy conglomeration...

The split is ideological and cannot be healed till the conservatives, vastly in the majority...

The first significant break-up came in the California primary election of May, 1946...

Two examples of this wider use were the recent fund-raising drive of the American Heart Association...

The cancer group has no "Walking Man" but this year it seems to be using broader and more varied publicity tactics than ever before...

The story and statistics on cancer are not pleasant reading. But ignorance of the disease and its symptoms are more frightening and dangerous than all the disturbing literature on the subject...

It will be a miracle if millions more dollars are not needed and used for research before a preventive or cure is discovered...

Meanwhile money is needed for the treatment and comfort of those who suffer from this disease...

The goal of this year's American Cancer Society drive is \$12,000,000. The immediate goal of accomplishment is to cut down the steadily rising death rate from the disease which today kills one American every three minutes...

Since no one is immune to cancer, a contribution to the fund is certainly a wise investment for everyone who can afford it.

Contributions from Gray-Gant should be sent to J. Roy Martin, 107 N. Frost, Pampa, or to B. D. Robinson, First National Bank, Pampa.

MYSTERY IN BOGOTA by Peter Edson

WASHINGTON (NEA)—How the recent Bogota uprising, there much the Communist Gaitan, ever with the Bogota, Colombia, uprising that nearly broke up the Pan-American Conference is a moot point. The answers aren't simple.

The organized labor movement got its start in Colombia about 1910. Communism came some 15 to 20 years later. It was a native born movement. Evidence of foreign leadership is almost completely lacking.

The Communist Party is also split. It was originally known as the Colombian Democratic Party (PCD). Its rival is the Colombian Workers' Party (PCO). Both wings together have about 4000 members.

The highest Communist Party vote was 27,000 in 1945. In the 1946 election, the Communist vote was 30,000, against 738,000 Liberals and 571,000 Conservatives.

At one time the Communists had six elected members of Congress. This was cut in half after the 1947 election. The Communist Party lost all their seats in Congress. Their daily paper had gone bust. It was generally felt that their influence was decreasing.

The slain Gaitan was not considered a labor lawyer. He specialized in criminal law, for which he was self-educated in Colombia and Italy. He was born of poor parents but married into an old and rich family. He entered politics. At one time he was

Common Ground

Views on the Present War 'Situation'

I have been quoting for the past few days a letter written by Leonard E. Read, president of the Foundation for Economic Education, to Honorable Ralph Gurnea of the House of Representatives setting forth his personal views on the present war 'situation'.

In today's installment, with that of tomorrow, Mr. Read sums up his letter to Mr. Gurnea with the conclusions that he draws on these views he has set forth.

I quote: "I have several conclusions: 'Communism and socialism are basically one and the same thing: the state ownership and control of the means of production. The reason that so many think kindly of socialism and heartily of communism is that the advocates of state interventionism are often thought of as socialists while the biggest body of practitioners of interventionism style themselves communists. There is, however, no real division on this point among the Russians while calling themselves communists they call their country the U.S.S.R., the Union of Soviet Socialist Republics.'

'Communism or socialism — or the same thing, state interventionism here at home is a philosophy to be despised and explained away. It is not a military threat to be feared and shot away. War, I, as I have said, will be paid for, have a cost of about \$75 billion. War II it can be predicted that it will ever be paid for, will cost not less than \$700 billion!'

'Financially, Mr. Gurnea, I have grave doubts of our ability to digest the war we already incurred. A widespread understanding of complex economic problems, an understanding more to be hoped for than seriously expected, will have to maintain if we are to avoid a certain yet-undefined state of affairs in the future, or in the future, could possibly equal the damage War III is certain to inflict.'

'Have you seen, or are you as a Member of the Congress able to procure, a copy of what is officially known as 'United States Industrial Modification Plan 1947,' a document of the Munitions Board? From what I know of it there is revealed an inking of the controls, the regimentation, the political authoritarianism, the state of mind that they are inevitable should we again go to war. As a matter of fact we are even now employing them.'

'But it is not merely these controls during war and their assurance that the people have placed their trust in the government, the chaos, the destruction of the market, the growing disinclination to voluntary action, the search for a shepherd and a sheep dog as an end in itself, the total debauchery of the currency, and the loss of morals, which War III will guarantee, make me shudder for my country.'

'Read President Wilson's speech following War I. It is in effect, 'Back to your plows, boys, the government's control over your affairs is finished.' Then, read President Truman's speech following War II. It is in effect, 'The emergency is still with us. Continued governmental controls are necessary.'

'Visualize, if you can, who will be speaking following War III: I could write his speech for him right now. It would say in effect, 'The people have placed their powers of decision, their social energies, in my hands. Henceforth, we shall all work for and on behalf of the state.'

'Thus, will America, as we have known it, be at its end. The total state will then be ours. We shall use some euphony as 'The Cooperative State' but it will be the same old stuff—socialism, or if you will, communism. For it is out of so much of war that communism grows, as does algebra in a stagnant pool.'

'Actually, this proposal for War III is an attempt to divide the world into two armed camps. One of these will be the Communist, American labor, American industry, and American boys in the armed services. It is an open confession that we have lost the peace and that now, in a world which is prostrate by reason of our attempt to rescue it from

police director-general. That may account for the fact that the police refused to stop the crowds who looted Bogota after the assassination. At his death, Gaitan was president of the Senate and Chief of the Liberal Party.

GAITAN SLATED FOR 1950 The Conservative Party won the 1946 election because Gaitan had refused to support the Liberal candidate. This brought on a split in the Liberal Party, but the Gaitan faction was stronger than the orthodox Liberals. Gaitan had already been designated Liberal candidate for the presidential election of 1950. Because of his strong labor support, he had a good chance of winning.

On the basis of circumstantial evidence alone, all these factors make it seem improbable that Gaitan was killed by a Communist, though he had communists as well as Conservative enemies.

In Labor Confederation meetings before the Bogota Conference opened, Gaitan had opposed doing anything to embarrass Pan-American proceedings. The Communists had apparently wanted to follow such a course. As soon as Gaitan was slain, they did.

After the killing the rioters did not attack the Presidential Palace nor the Conservative Party headquarters as their first targets. Instead they went after the Capitol where Pan-American meetings were being held. Then they attacked American headquarters. And they looted the churches, the Archbishop's Palace, and the church schools and convents which are always special points of Communist attack. They left their unmistakable proof of guilt there.

Killjoy Is Here!

NATIONAL WHIRLIGIG news behind the news

WASHINGTON — Harold E. Stassen's spokesmen here now boast that they will duplicate their feat of knocking Gen. Douglas A. MacArthur out of the presidential nomination race by eliminating the Sen. Robert A. Taft when the Minnesota and the Republicans' Senate leader battle it out in the Ohio primary on May 4. Thus that contest may be decisive in determining whether the son of the former President will make the political grade at Philadelphia.

Also it is the custom for a candidate to make exorbitant claims, many political experts versed in the complexities of the Buckeye State's affairs are inclined to agree with the supporters of the Wisconsin-Nebraska winner.

Charging that the Stassen people are "pouring money into the state," the Taft faction evidence their worry but discount their risk that the Wisconsin and Nebraska triumphs have given him, it will not be regarded by national politicians as a crushing defeat for the Senator.

Nor would a Stassen sweep of 12 or 13 remove Mr. Taft as an influential figure at Philadelphia. He will show up there with a firm batch of delegates, regardless of the Ohio result.

By throwing them to Gov. Dewey at the proper time, provided he cannot make it, he might stymie Mr. Stassen's hopes for a stalemate so long that the big bosses might choose a less controversial figure than Messrs. Dewey, Taft or Stassen.

Incidentally, the Taft forces take heart from the result in the recent Republican Illinois primary. At the CIO, AFL and other labor elements joined hands in an attempt to defeat every Republican Congressman who had voted for the Taft-Hartley Act, all survived.

The name "century plant" was given to a group of desert plants because it was mistakenly believed that they bloom once only in a hundred years, according to the World Book Encyclopedia, some varieties of the century plant flower every year, and others at longer periods, but none blooms so rarely as once in a hundred years.

Gracie Reports By GRACIE ALLEN Well, I see where Field Marshal Montgomery was criticized in the British House of Commons for not dressing as befits his rank. Near as I could make out, the marshal is accused of dressing informally because he sometimes wears a beret that doesn't exactly go with the rest of his regulation uniform. Heavens, I know just how he must feel. I've put up with enough criticism from just one husband because of the hats I wear and I can certainly sympathize with Marshal Montgomery when the whole House of Commons starts acting like a husband. Personally, I know I'd feel a lot safer with an army in charge of my casual dresser. Like Montgomery that I would with a general who would go charging around during an enemy attack screaming, "I can't find the stars for my left shoulder!" or "Did my regulation suit come back from the cleaners?"

WHITE DEER (Special)—The week of April 24-30 has been designated as Cleanup Week in White Deer.

Members of the planning committee for the campaign are E. R. West, Mayor, Ennis Smith, superintendent of schools; T. C. Jackson, fire marshal; W. C. Powers, postmaster; and W. W. Wells and Dalton Ford of the Civic Improvement Committee of the Lions Club.

The cleanup campaign will begin on Saturday, so that the school children may help clean up their home premises on that day. Anyone who needs a boy to work should contact the school principal's office by Friday.

All residents are urged to clean their home lots and any adjacent vacant lots, as well as any vacant lots which may own in town. Business men are asked to clean their business lots and adjacent vacant property. This should be done between April 24 and April 28.

All inflammable trash should be burned and all other trash piled in the alley for removal by the cleanup gang. The town will be divided into districts for hauling off trash on Thursday, April 29. District supervisors will be appointed to see that each district is cleaned up. All business houses will run with as small force as possible on Thursday to release men for the hauling of trash. Trucks and pickups will be furnished by those in each district.

The cleanup campaign is twofold in purpose. First it is desired to clean up the community for the health and beautification benefits, and then vacant lots and alleys will be raked and cleaned so that weeds may be moved during the summer.

May Day Never
Been Practiced in
U. S. as Holiday

Witches in broomsticks fill
American skies on Halloween, mil-
lions of valentines exchange hands
on February 14, and Santa is
busy for weeks preparing for
December 25—but the first
day of May rates scant attention
in the United States.

In spite of the American love
of holidays, the colorful celebra-
tion of May Day has never really
gained a foothold here. Occasionally
children can be seen dancing
around a May Pole in city parks
and playgrounds, and youngsters
in some rural communities still
gather May flowers on the first
day of May, and leave gay little
baskets of blossoms and bonbons
on the doorsteps of friends and
neighbors. But as a general whole
for adults, May Day means
little.

The fact that the Puritans
 frowned on May Day festivities is
given by the World Book En-
cyclopedia as the reason the day
has never been celebrated with
much national enthusiasm in the
United States.

As is the case with most holi-
days, the origin of May Day is
more a matter of theory than
of historical fact. Credit some-
times goes to the ancient Druids,
probably because of their worship
of the tree. The May Pole, or
May Tree, has long been the
symbolic center of May Day fes-
tivities. But students of folk cus-
toms feel it is more likely that
the tradition goes back to the
ancient Romans.

Florida's spring festival of the
ancient Romans.
Florida was celebrated each year
from April 28 to May 3 in
honor of Flora, goddess of flowers
and spring. A very gala affair
it was, with games and street
dancing and floral offerings to
the goddess. The first boy or
girl to adorn Flora's altar with a
garland of flowers was assured of
good luck throughout the coming
year.

During the Roman occupation
of Great Britain, the festival was
probably introduced to the English,
and evolved into their May Day.
Whatever its origin, the English
May Day festival of the Middle
Ages was the jolliest of the en-
tire year. The festival has re-
mained close to the hearts of the
English people, and is mentioned
often in literature of the land.
We are told that even King
Henry VIII and Queen Catharine
dined on May Day very early,
and with the lords and ladies
of the court went to fetch May
or green boughs.

MINERS

(Continued from Page 1)
obey an original restraining order.
And the federal judge who did
the fining, T. Alan Goldsborough,
has ordered Lewis to be back in
court tomorrow morning for sen-
tencing on civil contempt of the
strike-end order. There was every
indication it would go hard for
Lewis if his men aren't back by
then.

But union leaders in the coal
fields were predicting the miners
would man the pits in heavy
numbers today. About 300,000 out
of the 400,000 were idle yesterday
—even in the face of instructions
from Lewis himself to go back.
The coal strike started March
15. Lewis and the miners were
angry because they had been un-
able to get Van Horn to agree
on a plan for spending the 10
cent a ton royalty money for
pension, sickness, death, and other
miners' benefits.

Van Horn's suit asks a court
order to prevent spending any
of the fund on the temporary
basis worked out by Bridges and
Lewis. But the injunction can't
be issued for some time because
under court rules, Bridges and
Lewis have 20 days to answer
the suit.

British to Keep
Replica of Plane

LONDON —(AP)—The British
will place a replica of the historic
Wright brothers biplane "Kitty-
hawk" in their science museum
when the original goes home.
The replica is being built by
students at the Dehavilland tech-

Story Told
Of Setting
Up New ECA

By JAMES MARLOW
WASHINGTON —(AP)— This is
the story of how to set up a
big new government agency in a
hurry, or try to.

It's the story of ECA—the
Economic Cooperation Administra-
tion. It was set up to run the
European Recovery Program.

To carry it out ECA will need
a staff of about 1,000 people in
this country and perhaps 1,000
abroad.

ECA now has a staff of about
100 people borrowed from other
government agencies. The hiring
for the 2,000 jobs will begin
later.

On April 6 Mr. Truman picked
Paul C. Hoffman, president of
the Studebaker Corporation, to run
ECA.

He started April 7, the day
the Senate approved him, with a
staff of eight people. The White
House had rounded them up from
other agencies.

His offices—five floors in a
building so new it's still under
construction—were chosen for
him by the Public Buildings Ad-
ministration (PBA).

Hoffman borrowed from the
Army, Navy and Budget Bureau
men who specialize in office
management, supplies, transporta-
tion.

From government surplus they
got swarms of desks, typewriters,
and chairs, some of them very
beat up.

They got the Agriculture De-
partment to provide office sup-
plies, like letter paper and car-
bons, with men to handle them.

The government printing office
will do ECA's mimeographing and
printing. The Navy will supply
drivers for ECA's cars and keep
the cars oiled, gassed and re-
paired.

But why has almost no one
yet been hired for ECA, since
Hoffman hopes to fill his staff
within 90 days?

For one thing, he still hasn't
hired his two key men, a deputy
administrator and a roving am-
bassador to check on the recovery
program in Europe.

So far Hoffman has chosen only
one top official, Dennis A. Fitz-
gerald, an outstanding food au-
thority, to head ECA's food divi-
sion.
