With Sukarno's recognized ability to confuse both friend and foe, a look at a bit of recent history might be worthwhile, going only so far back as late 1959 and early 1960.

Indonesia banned its 2.5-million Chinese from retail trade in rural areas and forced hundreds of thousands of small Chinese merchants to sell their shops and goods at the lowest price.

In reply to a Red Chinese note of protest. Indonesian Foreign Minister Subandrio sternly warned the Chinese against 'provocative action' or attempts to 'incite' overseas Chinese against government regulations.

#### Investors of **Hamilton Funds Get Dividends**

Almost two and a half million dollars will be paid to investors in Hamilton Funds, Inc. on January 29, it was announced by Hamilton President A. R. Tycone recently.

The Board of Directors of the fund declared the regular quarterly dividend of 31/2 cents per share from ordinary investment income, payable to shareholders of record December 31, 1964. This is the 68th consecutive dividend since shares were first offered for sale over seventeen years ago. Most of the quartermillion Hamilton investors receiving this dividend will have it automatically reinvested for them to purchase additional Fund shares.

During the past three months. more than 8,000 new investment plans have been started, Tyrone revealed. These plans call for the eventual investment of \$28 million dollars. The Fund bought and sold more than one and a quarter million shares of stock in the last three months, drop-ping six corporations from their portfolio and adding over 450 thousand shares of eight other corporations.

In announcing the dividend, Tyrone said: We expect the year ahead to be a challenging one . . . with considerable op-portunity for careful and farsighted management."

#### Laos Raids Feeling Out China Action

By RAY CROMLEY Washington Correspondent

WASHINGTON (NEA) - The U.S. air strikes in Laos on the Red supply routes to South Viet Nam are a test — to prove Red China is a paper tiger.

These air strikes won't destroy many of the Red supplies coming down the Ho Chi Minh 'trail' to the Viet Cong in the south or knock out any significant number of the northern Red soldiers or advisers moving through Laos into South Viet

The northern end of the Ho Chi Minh trail is a truck route. There are air targets - truck parks, refueling depots, bridges, narrow mountain roads and the points at which goods are transferred from truck to men's backs. But all of these points are too primitive to be put out of action for long by air bomb-

It would probably take a year or more, in fact, before such air bombings could even eat signi-Today is Thursday, Jan. 21, ficantly into North Viet Nam's But White House, State Department and Pentagon advisers are looking primarily at Peiping

ed this can't be done by air staying up a little later at night, alone. It takes a great deal of well-organized ground action as well. Thus far in Laos, however, this effective ground action has not been forthcoming.

American, Viet, Lao and tribal forces have been conducting periodic actions. These have not carried out a well - coordinated plan for strangling the trail.

Actually, a lot of men aren't required. Less than 100 welltrained men, organized into 30 or so three - man sabotage-demolition teams, infiltrating in relays, could keep the Ho Cht Minh road in Laos continuously out of commission. Each team would travel light and fast, stay out only a short time, then be replaced by another team, go out again after rest and recreation, taking a new supply of demolitions and rations.

A team would blow a bridge or two. Then, as fast as one was repaired, some team would hit another bridge. Isolated spots on the road could be trapped with small - but - effective mines. Each night mines would appear on a different stretch of road. Road repair dumps could be hooby - trapped. Trucks could be sabotaged. The three - man teams in action would slink away into the night, avoiding fights.

The slowdowns and psychological terror that could be caused by 100 such well - trained sabotage men would multiply by many times the effectiveness of the air strikes.

## Financial Gossip

UPI Financial Editor

NEW YORK (UPI) - The pop- erages. ular averages widely used to At one extreme, two of those indicate the level of the stock replying estimated the Dowmarket have broken through to Jones average, which stood at record levels since January 1, 874.13 at the close of 1964, Both the Dow-Jones average would be in the 750-793 area by of 30 industrial stocks and the midyear.

Standard & Poor's index of 500 stocks moved into high ground early this week, as many analysts had forecast that they might. Some feel that the Dow average certainly will "break' the 900 level. -Some bankers, members of

the traditionally conservative portion of the financial community, believe it will venture higher in the first half of 1965. Others are looking for it to be in a lower range by midyear. This wide variance of opinion was disclosed in a survey taken by Banker's Monthly, a national banking magazine, among 85 bankers in major money cent-
